

Allies May Strike on New Fronts in Winter

By WILLIAM F. FRYE
Associated Press Staff Writer
WASHINGTON, Dec. 6 (AP)—The agreement of the Allied "Big Three" at Tehran on a master plan to defeat Germany may mean that Anglo-American strategists will accept the hazards of bad weather in order to strike hard on new fronts while the Red Army's Winter offensive is at its peak.

CANADIAN SHIPS HELPED BLOCKADE SUBS
Hemmed in U-boat Fleet in Bay of Biscay
HEAVY LOSSES
OTTAWA, Dec. 6 (CP)—Canadian destroyers and corvettes helped the Royal Navy and R.A.F. blockade the enemy's main submarine fleet in the Bay of Biscay just before Britain's acquisition of new bases in the Azores—a blockade so successful that the modest Allied losses in the North Atlantic were "more than balanced by the heavy toll taken on U-boats in the Bay of Biscay alone."

Winter provides serious obstacles, however. The storms and heavy overcasts might interfere seriously with Allied air operations at a time when complete air superiority would be essential. Storms would make landings more difficult, and rain and mud and cold would hamper movements ashore after a beachhead was established.

War Leaders Confer With Turks

By JAMES M. LONG
Associated Press Staff Writer
LONDON, Dec. 6 (AP)—The third of a series of great international conferences is now in progress. It was disclosed tonight, and the meeting is believed to be closely related to Turkey's future in relation to the Allies' war against Germany.

According to foreign accounts of this newest meeting, its principals are Prime Minister Churchill, President Roosevelt and President Ismet Inonu of Turkey—with North Africa as the scene of the sessions.

Mr. Churchill, these reports said, is accompanied by Foreign Secretary Eden, whose discussions with the Turkish Foreign Minister during the week ending Nov. 6, at Cairo, it is assumed had an important bearing on the present meeting.

Mr. Roosevelt was reported accompanied by Harry Hopkins, his personal adviser, and Inonu by Numan Menemencioglu, Turkish Foreign Minister.

The presence of Inonu at a conference with Mr. Roosevelt and Mr. Churchill suggested plainly that the newest of the great series of strategic political moves by the Allied leaders undoubtedly was based on the British-Turkish pact of 1930—never up to now fully implemented—pledging Turkey to aid Britain in event of aggression leading to war in the Mediterranean.

The trend of much of the recent news from Ankara increasingly has reflected an apparent growing determination by Turkey to get into the war in at least some capacity—and certainly on the side of the Allies, if at all.

Stalin Returns to Moscow on Hazardous Flight

MOSCOW, Dec. 6 (AP)—Premier Marshal Stalin has returned safely to Moscow from Tehran where his meeting with Prime Minister Churchill and President Roosevelt settled the biggest question of the war from the Soviet viewpoint, the question of the "second front."

The hazardous 1700-mile round trip flight was Stalin's first wartime trip abroad.

PACIFIC FORCES LAUNCH HEAVY AIR OFFENSIVE

Bombs Blanket New Britain and Bougainville

By WILLIAM F. BONI
Associated Press Staff Writer
ALLIED HEADQUARTERS IN SOUTHWEST PACIFIC, Dec. 7 (Tuesday)—(AP)—The 208-mile length of invasion-threatened New Britain and the 120-mile length of invaded Bougainville have been blanketed by bombs of Allied planes in a new series of air blows, with guns of United States warships adding to the destruction in the Solomons.

On the West-Central coast of Bougainville, the Japanese forward elements have fallen back from the United States beachhead at Empress Augusta Bay with patrols moving ahead on all sides without making contact with the enemy.

On the island of Bougainville, Japan's last big Solomon base barring the direct approach to Rabaul, was given an equally thorough blasting both by destroyers and planes Saturday.

Spotter planes said the attacks on the Southern end of the Empress Augusta beachhead and on Choiseul, an island Southwest of Bougainville started fires and caused considerable damage.

RUSS SMASH CENTRAL UKRAINE LINE

Take Two Towns; Nazis Admit Withdrawal to South

HUN LOSSES HIGH

By JUDSON O'QUINN
Associated Press Staff Writer
LONDON, Dec. 6 (AP)—Russian troops smashed the enemy's Smetshnenska line in the central Ukraine today, splitting huge German forces guarding these vital junctions on railways leading to Rumania and putting the Red Army within 25 miles of the Axis bastion of Kievograd.

The German-controlled Vichy radio also admitted a German withdrawal northeast of Krivoi Rog, Axis stronghold 80 miles south of Znamenka, which might mean the beginning of a great Axis retreat throughout the Dniester River bend after a desperate six-week stand.

Znamenka appeared to be about to fall. The Russians already had been reported only six miles from Znamenka, and about the same distance from Smole after bypassing Chernobyl on the Dniester.

A communication supplement said the Russians had killed 1000 Germans in besting down enemy counter-attacks in the Chernobyl sector 65 miles West of Kiev.

Five Die of Flu in Ontario

TORONTO, Dec. 6 (CP)—Five persons were dead from influenza in two of Ontario's most heavily populated districts today and scores of others were reported ill with the ailment, described in the Windsor area as the worst such epidemic this year.

Three weekend deaths at Toronto were attributed to influenza. The other two deaths were reported from Windsor.

School and office attendance was reported down at numerous points and at some hospitals, including those at Toronto, Sarona and Bradford, visiting was restricted.

"NO RUSSIAN RESPIRE FOR NAZIS: Soviet forces are within 10 miles of the vital hub of Zhitobin (1) which guards the Nazis' Goms escape gap. German counter-attacks at Korosten (2) were beaten off by the Russians. Other Red armies West of Chernikay (3) wiped out 1500 Nazi troops and plunged forward into the Dniester bend. In the Krivoi-Rog sector, Soviet units die deeper into Nazi defenses and seized 11 enemy fortification points.

U.S. Subs Sink 11 More Jap Cargo Ships

WASHINGTON, Dec. 6 (AP)—The sinking of 11 more Japanese cargo ships by United States submarines was reported today by the Navy, raising the grand total of enemy vessels destroyed in the Pacific to 816. One large tanker, nine medium-sized freighters and one small freighter were reported sunk.

Invasion Craft Given Top Production Place

WASHINGTON, Dec. 6 (AP)—Invasion craft have been put ahead of everything else in the United States arsenal, it was learned tonight, with the granting of an overriding priority order giving them the right-of-way over planes, high-octane gasoline, and all other "urgency" production programs.

Four thousand prime contractors will be turning out the landing craft, authoritative sources said. With their sub-contractors, the total number of manufacturing firms involved in the vast drive will be approximately 30,000.

The number of self-propelled landing barges, amphibious "ducks" tank-landing vessels and other invasion craft was not divulged, but the program was understood to exceed the similar "big push" on landing craft last Fall and Winter that preceded the Mediterranean invasions.

In that instance, about 750,000,000 worth of the vessels were produced in approximately five months, aided by the same type of special priority directives now being applied.

The War Production Board has telegraphed instructions to landing craft builders to speed up their schedule of deliveries through next Spring and Summer by about two months.

Nazis Losing 300 Locomotives Month

LONDON, Dec. 6 (CP)—The Air Ministry News Service said today the German rail system probably is losing about 300 locomotives a month under attacks by British, American and Russian squadrons.

Says Too Much Hush-Hush on Venereal Disease

OTTAWA, Dec. 6 (CP)—Education of the public, eradication of houses of prostitution, and wholesome recreation for adolescents were advanced today by Brig. J. C. Meakin, Deputy Director-General of Medical Services for the Canadian Army, as means of combatting venereal diseases in Canada.

In an address to a four-day international conference on venereal diseases which began this morning, Brig. Meakin said syphilis and gonorrhoea should be as common a topic of conversation as an ordinary cold.

"We remember the hush-hush about tuberculosis, but a continuous campaign which showed the disease could be prevented changed the whole aspect of the illness," Brig. Meakin said.

"If we can take the hush-hush out of talk about venereal diseases we will have gone a long way toward our goal."

The prostitute was the main source of syphilis and houses of prostitution, legalized and protected, and "cheap-hotel rendezvous" must be eradicated if control of the disease were to be expected.

Spread of venereal disease could be prevented by providing adolescents with wholesome amusements to keep them occupied.

In the medically well-organized society, syphilis and gonorrhoea can be eradicated by an early check of pregnant mothers, Brig. Meakin said. Syphilis could be cured in eight days and gonorrhoea in five. Both diseases could be made non-infectious in two days.

Groceryman Thinks He Saw Missing Halifax Naval Man

HALIFAX, Dec. 6 (CP)—A grocery store operator here reported to police he had talked today with a man he identified from newspaper photographs as Cmdr. E. M. Johnson, missing Royal Navy officer whose daughter was found murdered here last week.

8th Army Only 14 Miles From Big Pescara Port

By WES GALLAGHER
Associated Press War Correspondent
ALGIERS, Dec. 6 (AP)—Gen. Sir Bernard L. Montgomery's British 8th Army today reached the South bank of the Moro River, a gain of about 2 1/2 miles beyond the Adriatic coastal town of San Vito, while at the other end of the Italian front British and United States infantry of Lt.-Gen. Mark Clark's Allied 5th Army battled in the rugged Mount Camino and Mount Maggiore areas West of Mignano.

Plunging doggedly on after having cracked the German defence line near the Adriatic, Montgomery's men on reaching the Moro were 10 miles beyond the Sangro and only about 14 miles Southeast of the major port of Pescara.

There, as on the 5th Army front, the fighting was violent and the Nazis appeared determined to halt the break-through at all costs.

Official announcements omitted mention of the furious battle for Orologia, about 10 miles Southwest of San Vito, reported raging Sunday after the Germans recaptured the town with a week-long counter-attack. Montgomery's infantry and tanks wiped out several enemy machine-gun positions near the town of Casena, six miles inland and about 1000 yards from the Sangro's Western bank.

Royal Navy destroyers were disclosed to have been supporting the 8th Army's drive up the Adriatic coast with bombardments of German supply routes, bases and shipping.

On the 5th Army front, United States infantry, fighting yard by yard up slopes too steep for supply mules, captured three more villages in the Mount Maggiore area.

British infantry was rooting the Nazis out of strong positions on the equally rough slopes of nearby Mount Camino, four miles South-west of Mignano, and repulsing enemy counter attacks in bitter hand-to-hand fighting.

United States fighter-bombers swept over the hard-won positions to drop emergency rations and munitions to Clark's troops.

Bad weather kept the Allies from bringing their tremendous air superiority into play Sunday.

Official reports from the front were meagre but a military commopar gave this picture.

British and American infantry still are fighting for the possession of all ridges and peaks linking Mount Maggiore and Mount Camino, although many key strongpoints have been taken.

The Germans are resisting bitterly and in many cases holding out in caves even after Allied infantry jets have overrun their positions. The Germans are suffering heavy casualties in their counter-attacks.

Big Three in Complete Agreement on Plans to Smash the German Army

By JOHN F. CHESTER and WILLIAM HUGHAN Associated Press Staff Writers

CAIRO, Egypt, Dec. 6 (AP).— Prime Minister Churchill, President Roosevelt and Premier Joseph Stalin have agreed completely on "the scope and timing of operations to smash the German army from three sides, an announcement signed by the three statesmen in an epic four-day meeting in Teheran, Iran, and released here today disclosed.

The Allied leaders also charted a peace era in which all nations would be invited to join "a world family of democratic nations" based on the reaffirmed principles of the Atlantic Charter.

The history-making conference of the heads of the world's most powerful military and political combines was held in the Iranian capital from Nov. 28 to Dec. 1, attended also by scores of military leaders and diplomats from Britain, Russian and the United States.

Heavily underscoring the urgency of the military phase, the combined British and American General Staffs subsequently returned to Cairo, scene of the Nov. 23-26 meeting of Chinese President Chiang Kai-shek with President Roosevelt and the Prime Minister, and staged concentrated planning sessions from last Friday through today.

Mr. Churchill joined in these and other sessions, leading to the probability that other disclosures of paramount international importance are still to come.

President Roosevelt's whereabouts since the Teheran conferences were not disclosed.

Two Teheran declarations signed simply "Roosevelt, Stalin, Churchill" and dated Dec. 1 announced these results:

War—"Our military staffs have joined in our round-table discussions and we have concerted our plans for the destruction of the German forces. We have reached complete agreement as to the scope and timing of operations which will be undertaken from the East, West and South.

"The common understanding which we have reached guarantees that victory will be ours.

Fined \$500 and Sentenced Year on Sugar Charge

VERNON, B. C., Dec. 6 (CP) — Police Magistrate William Morley today sentenced Harry Diastris to 12 months imprisonment and a fine of \$500 when he pleaded guilty to a charge of supplying sugar contrary to Prices Board regulations.

Diastris, whom the Magistrate said he considered to be the instigator of the black market here, allegedly approached an employee of Orange Crush Bottlers Ltd. of Vernon and offered to sell him sugar. The firm subsequently was fined \$1000 for acquiring sugar illegally.

Frank Godber, Prices Board official, said that a check of sugar purchases and sales of the Safeway Grocery store, where Diastris was employed, showed on Sept. 30 a shortage of 4621 pounds. C.W. Morrow, Crown Counsel, asserted the prosecution was prepared to prove that Diastris was the illegal supplier of some 3000 pounds of sugar on various occasions.

Nova Scotia Mine Workers Are Given Increase

By JACK WILLIAMS Canadian Press Staff Writer

OTTAWA, Dec. 6 (CP). — The National War Labor Board today granted wage increases of \$1 a day and holidays with pay to some 12,000 Nova Scotia miners, in line with second awards to miners in the West, but it expressed sharp criticism of the Royal Commission which boosted the Western rates and of the mine union's Western executive.

The increase of \$1 a day granted British Columbia and Alberta miners by the O'Connor Royal Commission "once again demonstrated that outlaw methods properly timed make quite an impression," the National Board said, in apparent reference to the Western strike which led to the Commission's appointment by Labor Minister Mitchell.

First Group of B.C. Repatriates From Japan Arrive at Coast

VANCOUVER, Dec. 6 (CP) — Seven persons—one of them walking proof that wartime conditions can't kill romance—arrived by train today, the first of a group of British Columbians to return from Japanese internment camps on the exchange liner Gripsholm.

Mrs. B. Forsblad, the former Sheila Basket of Victoria, was married en route home to the Swedish assistant purser of the Gripsholm, though the wedding was so quiet few knew anything about it. She wears her husband's signet ring, which served for a wedding ring, and hopes to return as soon as possible to New York where she can see him when his boat is in port.

Need 20,000 Men to Cut Pulpwood

TORONTO, Dec. 6 (CP) — Paul Kellogg, acting President of the Newspaper Association of Canada, said today in a luncheon address here that the pulp and paper industry estimates it needs 20,000 extra men from prisoners of war or the armed forces in order to be sure of sufficient pulpwood supply.

He said that to help maintain the pulp and paper industry's supply of manpower, the industry had been reclassified into "B" category under National Selective Service Labor priority ratings.

Stressing the necessity of maintaining the industry's output, he said that when Canada seeks to resume international trade at the end of the war "it is pulp and paper which offers the best prospect of fulfilling the essential role of being again our primary source of exchange."

Military Aid Helps Relieve India Famine

By PRESTON GOVER Associated Press Staff Writer

NEW DELHI, Dec. 6 (AP). — A faint ray of hope in the shape of military aid which is improving the food situation has appeared at last in the agonizing famine disaster which for six months has borne down upon 60,000,000 of India's 400,000,000 people, but now disease has followed hunger to claim its toll.

Mercury Dips to 28, Late Nov.

The mercury hit a low for the final 10 days of November here at 28.5 degrees on Nov. 28. That day the temperature ranged only 19 degrees to a high of 31. On one day, Nov. 21, the red ranged only 15 degrees from extremes of 40 to 41.5. Rain fell on two days, totalling .44 inch. Temperatures and extremes and precipitation were:

Date	Min	Max	Inches
Nov. 21	15	41.5	0
Nov. 22	16	41.5	0
Nov. 23	18	36	0
Nov. 24	27	43	0
Nov. 25	27	41	0
Nov. 26	22	35.5	0
Nov. 27	21	38	Trace
Nov. 28	28.5	35	0

Wheezing in the Chest Points to Bronchitis

The principal symptom of bronchitis is a dry, harsh, hacking cough accompanied by a rapid wheezing and tightness across the chest.

There is a raising of phlegm, especially in the morning. This phlegm is at first of a light color, but as the trouble progresses becomes yellowish or greenish.

You may find in Dr. Wood's Norway Pine Syrup a remedy to help stimulate the weakened bronchial organs, relieve the inflammation, soothe the irritated parts, loosen the phlegm and mucosa, and aid nature to easily dislodge the morbid accumulation.

Price 30c a bottle; the large family size, about 3 times as much, 90c, at all drug counters.

Contract... By Shepard Barclay

CUE BID ON SOME HANDS
 EVERY WHEN your side is using the Blackwood slam bidding convention, there are plenty of times when some other method should be applied to a hand. That is true when you have a blank suit and are more interested in learning about some particular ace or king than about knowing how many of them your partner holds. An ace in the suit in which you are void is of no quick use to you, where the ace of some other suit may make your slam contract tight. One bidding is best for such hands.

At Table 2, where this duplicate hand was dealt, South used his Blackwood 4-No Trumps to find out that North had one ace. He then decided there should be as many tricks in No Trumps as in Diamonds. West scored his heart A quickly to hold the declarer to just his contract.

At Table 3, the North-South pair also had the Blackwood convention in its equipment, but South decided this hand called for specific information. He wanted a grand slam if North had the club A, and only a small slam if he did not. Bidding 6-Spades to show that A invited North to show his A which was most cheaply showable. When he called the club A in reply, South bid the grand slam. There was no danger North would misunderstand the ace bid and leave it in; with four of them he would have rebid hearts.

Your Weak-Kid Lesson
 Under what circumstances should a member of a pair, which is using the Blackwood slam convention, bid five in the already agreed upon major suit instead of using the convention or showing aces by ace bidding?
