Wide Trimming of U.S. Inflation Prices

Cheaper Metals May Continue Trend; Buyer Resistance Main Cause; Cars, Radios, Fuels Lower

By RICHARD FISKE

NEW YORK, March 29 (AP)—A new series of retail price cuts were laid before the United States consumer today, further clipping inflation's wings.

They stretched the dollar a little farther. But most of the reductions were from highly-inflated levels and many of them were small.

Automobiles and auto accessories, radios, refrigerators and kitchen ranges were among the wide variety affected.

Continued reductions in such basic commodities as lead, zinc, copper and steel indicated further cuts in manufactured goods might be made.

The mid-season Spring catalogue of Sears, Roebuck and Company featured "many price reductions in all lines." Even ice cream was down a little—three cents a quart in Philadelphia.

Radios showed the biggest drop. Westinghouse Electric chopped 20 to 50 per cent off nine home model sets. That's as much as $130 on a cash basis.

Kaiser-Frazer Corporation knocked $198 to $333 off its car prices. Henry Ford II, President of Ford Motor Company, said he saw a "possible" reduction in Fords.

Willard Storage Battery Company clipped $1.50 off its $23.95 automobile battery and up to $2 off large automotive types.

Standard Oil Company of Indiana knocked one-half cent a gallon off tank prices on kerosene, range oil and diesel fuels and a trifle more off furnace oil.

Jones and Laughlin Steel Corporation reduced the price of hot rolled bars and structural shapes by as much as $4 a ton. But it didn't affect the steel industry's general price structure since Jones and Laughlin had topped other major producers on those items.

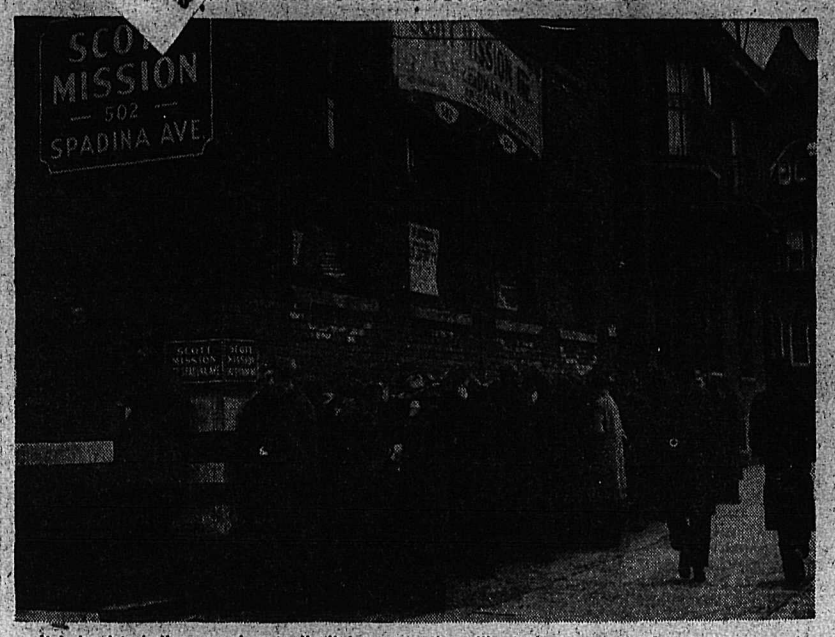
Inland Steel announced cuts of up to $4.50 a ton on galvanized sheets.

Scrap metal prices are down to the lowest point in almost two years. Lead, zinc and copper prices all have slipped.

The main item common to all the price reductions was an increased resistance on the part of the buyer.

Marriner Eccles of the Federal Reserve Board sums up the situation as a "recession ... a healthy economic readjustment."

Headlines in Eastern Canada



It is hard to believe people actually lining up for food in Toronto, Ont., "City of Plenty," but every morning, at three or more sittings, from 250 to 300 unemployed men are fed daily in Rev. M. Zeidman's Scott Mission on Spadina Ave. Men line up early for their daily meal and some of them like to be among the last in the queue because then they do not have quite so long to walk the streets. Many of the men, like the group shown here, help with the dishes after their meal.

Quebec L.P.P. Chief, 11 Others Seized In Peace Rally Raid

Four Injured When Police Charge 500 Montreal Paraders; Union Locks Hall Against Gathering

MONTREAL, March 29 (CP) — Twelve persons were arrested and four, including the chief of the Montreal Anti-Subversive Squad, were injured here tonight when police broke up a "peace rally."

Among those arrested was Gui Caron, Provincial leader of the Labor Progressive Party.

About 500 persons milled about in front of Carpenters' Hall on St. Lawrence Boulevard in downtown Montreal when police of three forces made their raid.

The rally, sponsored by the Montreal Council for World Peace, was originally scheduled to take place in the hall, owned by the Carpenter and Joiners' Union (A.F.L.). The union cancelled the contract, claiming the lease had been obtained "by false pretences by Communist agents."

CHARGE PARADERS

Sponsors of the rally decided to hold the meetings in the hall despite the cancellation.

Police said that trouble broke out when they asked those parading on the sidewalk outside the locked hall to keep moving.

When members of the crowd did not circulate quickly enough, police charged them and a fierce melee broke out with police swinging night sticks and fists.

The crowd was dispersed after 45 minutes of fighting when additional police arrived on the scene.

Sgt. John Boyczum, head of the city police anti-subversive squad, suffered a severe cut on his lip and was treated at St. Luc's Hospital. Three demonstrators were injured and were treated at the hospital.

Among those arrested besides Caron were: Gilles Ledoux, 27, John Dirhosoff, 21, Eddie Zackon, 27, Norman Nerenberg, 25, Len Stakey, Saul Rosenbloom, 24, Paul Patigan, 21, Harold Cutworth, 24, and Gerald Tellier.

Nerenberg, police said, is well known at both McGill University and University of Toronto where he is said to have aided recruiting for the Beaver Brigade, organization of Canadian students and workers who have toured Europe for the last two years during Summer vacations.

TROUBLE SPOTS PATROL UP FOR U.N. STUDY

Guard Force for Peace Missions, Is Lie Proposal

WOUNDINGS

By NORMAN ALTSTEDTER
Canadian Press Staff Writer

LAKE SUCCESS, N.Y., March 29 (CP)—Note to men who want jobs as international policemen: The United Nations soon may want 800 of you.

Formation of a force to patrol world trouble spots will be considered at the General Assembly meeting which opens in New York April 5.

Trygve Lie, United Nations Secretary-General, made the proposal last September after private talks with various delegates. The topic was left over from the Assembly meeting at Paris last Fall.

Wide support is expected for the $4,000,000-a-year plan.

Lie said the force would not be an international army, but merely a guard. It could be used to patrol areas neutralized under a U.N. truce, such as the Middle East, Kashmir and Indonesia.

One of the main jobs of the guard force would be to protect United Nations employees and equipment used on peace missions. Such a force might have averted the assassination of Count Bernadotte, the United Nations Palestine mediator struck down last September by terrorist bullets.

The recent wounding of two United Nations observers in Indonesia is expected to bring new attention to Lie's proposal. He suggests that the police be equipped when necessary with "personal defence weapons" — revolvers, light automatics and rifles.

The guard would comprise a permanent force of 300 highly-trained men and 500 reserves. The reserves would be trained in their own countries and sent to trouble spots only in emergencies.

Radio operators, transport drivers and clerical assistants would be needed, as well as men trained solely for security and protective duties.

Leaders to Talk New Deal For Empire

By ALAN HARVEY
Canadian Press Staff Writer

LONDON, March 29 (CP) — A new concept of Empire may be developed when the Commonwealth Prime Ministers meet in Downing Street next month for their second full-scale conference within seven months.

The meeting, officially regarded as one of the most momentous in Commonwealth history, will open April 21 and is expected to last about a week.

Prime Minister Attlee, making the announcement time coincide with similar statements in Commonwealth capitals, told the House of Common the Prime Ministers will consider "certain constitutional questions" not fully discussed at the last Commonwealth conference in October.

Political quarters said they anticipated there would be two major points:

1. A possible "new deal" for the Empire, involving a formula to restate the position of countries which may declare themselves independent republics. This would apply specially to the future rlationship of India with the Commonwealth.

2. Military problems, including those raised by the Atlantic Pact and the spread of Communism in the Far East.

The Prime Ministers of Britain, Australia, New Zealand, South Africa, India, Pakistan and Ceylon will attend. Canada will be represented by L. B. Pearson, External Affairs Minister, in the absence of Prime Minister St. Laurent, who was believed to have previously committed himself to a visit to Western Canada.

An announcement in Ottawa said if it became desirable for the Canadian Prime Minister to attend, "he will endeavor to fly over at once."

The talks will be private and it is understood measures will be taken to ensure secrecy.

RELIEF FOR TAXPAYERS BUT NONE FOR PENSIONERS, HOUSE TOLD

OTTAWA, March 29 (CP) — The Commons voted 107 to 99 today to support Speaker Gaspard Fauteux in his rejection of a C.C.F. motion urging the Government to consider higher old age pensions, a lower age limit for prospective pensioners and abolition of the means test.

Stanley Knowles (CCF-Winnipeg North Centre) moved the motion as an amendment to a Government motion to go into committee of supply and urged that a "free" vote, crossing party lines, be allowed on the pension question.

Mr. Knowles said it was "disgraceful" that the Government could pileu p huge budgetary surpluses, grant tax relief to most of the population and yet do nothing for the country's senior citizens at a time when the cost of living was nearly out of sight. Their position was getting worse.

OTTAWA, March 29 (CP)—Canada's fishermen caught more fish and got more money for their products during February than they did a year ago.

The Bureau of Statistics reported today that 130,538,000 pounds of fisheries products were landed during the month compared with 99,364,000 in February, 1948. The value this year was $2,340,000 as against $1,760,000 12 months earlier.

CHILLIWACK, B.C., March 29 (CP)—One of two men injured in a weekend traffic accident on the Hope-Princeton Highway, died in hospital today here.

Dead is Roy Taylor, 56, who with Joe Hogen, 19, plunged one hundred feet down an embankment after their automobile left the road.

FROST HITS FRASER BERRY FIELDS

VANCOUVER, March 29 (CP) —Growers reported today Winter frost has caused heavy damage to Fraser Valley fruits and vegetables with losses as high as 80 per cent suffered in the loganberry crop.

Vegetables and vegetable seeds are reported to have suffered about 10 per cent damage. Serious damage is expected in strawberry crops in several areas.

John Webster, of the Provincial Agriculture Department, said cooler weather and flood conditions have seen imports from Eastern Canada greatly increased.

He expects the Eastern supply will soon be exhausted" and B.C. will have to turn to the United States for vegetabels until local growers can get their produce on the market.

Speaks for Flood Control, Power Projects on Fraser

OTTAWA, March 29 (CP) — A program for flood control, power development, and irrigation along British Columbia's Fraser River was requested in the Commons tonight by E. D. Fulton (PC-Kamloops).

Speaking on a motion to go into supply, he conceded that some work was being done now on dikes along the lower Fraser, but said it was not enough to prevent a repetition of the disastrous floods of last year.

The proper way to control the floods was by dams on the upper reaches of the river. Dikes at the lower branches never would be sufficient.

He suggested that flood control and power development should go hand-in-hand.

He had written to Works Minister Fournier and it was apparent from the Minister's reply that no concrete action would be taken until 1950. With a danger of renewed flooding this year, this was not sufficient.

The Board established to control floods was operating at a snail's pace.

WOMAN GETS YEAR FOR ROBBERY ROLE

VANCOUVER, March 29 (CP) — A woman today was given a year in jail for participating in a robbery. Marie Beaulieu, 30, was sentenced on a charge of robbery with violence of Robert Jackson, a taxi-driver.

New York Stocks Boom

NEW YORK, March 29 (AP) — A reduction in margin requirements gave the stock market one of the biggest boosts of the past year today.

Key stocks raced up $1 to an extreme of $4 a share, many to the highest prices of the year or longer. The general level of prices, as measured by the Associated Press average of 60 stocks, was at a high Feb. 4.

Brokers reported demand came from all parts of the country. It was the most active market since Nov. 10 with 1,800,000 shares changing hands.

The reduction in margin, to 50 per cent of the purchase price in cash from 75 per cent, will be effective tomorrow. Much of the buying, it was suggested, anticipated a rise when the new margins are actually in effect.

U. S. steel closed $1.50 higher at $74 a share; Chrysler up $1.37 at $54; U. S. Rubber up $1.12 at $40.50; Montgomery Ward up $1.50 at $59; Illinois Central up $1.60 at $26.75; United Air Lines up $1.12 at $14.25; Pepsi-Cola up 62 cents at $10.87; and Amerada Petroleum, up $4 at $108.

Most observers suggested that a lasting effect of lower margins would be an increase in the market's liquidity. The market has been "thin" for some time—that is, the difference between bid and asked prices has frequently been large. Professional traders, it was suggested, will be able to take up more of this slack if he has greater credit resources at his command.

The Associated Press average of 60 stocks advanced a full point to 64.3, the highest level since Feb. 4. In the past year this advance has been topped only twice and equalled twice.

More individual stocks changed hands today than at any time since Dec. 31. Of the 1090 issues sold, 860 advanced and only 95 declined.

VANCOUVER, March 29 (CP) — The reported Wall Street boom had no effect on the Vancouver Stock Exchange today as prices continued firm in light trading.

Industrials and mines showed slight upward trends while oils remained steady among leaders.

In oils Okalta edged forward 3 to 1.88 but Anglo Canadian dropped 110 to 3.65.

Sheep Creek rose 7 to 1.30 in the mines while B. C. power jumped 50 to 25.50 in the only industrial sale of the session.

WOLF SHOT NEAR VANCOUVER

VANCOUVER, March 29 (CP) — First wolf known to have been shot in the Vancouver area since 1921 has been bagged by a farmer at nearby Lulu Island.

William N. Keefer said today he shot a six-foot wolf on his farm Sunday after his horse had become nervous. The wolf weighed 100 pounds.

WHIPPINGS FOR VIOLENT ROBBERY

VANCOUVER, March 29 (CP) — An 18-year-old Vancouver boy today was sentenced to three years in the British Columbia penitentiary and two whippings of seven strokes of the paddle.

William Mukosey was charged with breaking and entering, assault with intent, attempted robbery with violence, robbery with violence and automobile theft.

VANCOUVER, March 29 (CP) — Bill Reid, well-known Vancouver labor man, has named to carry the Liberal standard in the next Federal election for Vancouver East. Mr. Reid was a candidate in the 1945 general election.

Dr. J. Lorne MacDougall, Provincial Liberal organizer, said the party will have chosen candidate to contest half the 16 Federal Ridings by April 19.

NEWFOUNDLAND TO BE PROVINCE BEFORE UNION; TIME ZONING FREAK

By JOE MacSWEEN
Canadian Press Staff Writer

ST. JOHN'S, Nfld., March 29 (CP) —Canada will have a new time zone —making a total of six—when Newfoundland is welcomed into the Canuck family Thursday.

The island is an outlaw as far as time-keeping is concerned. Newfoundland time is half an hour ahead of the Maritimes' Atlantic time and 3½ hours behind Greenwich Mean Time.

Officials here were unable to say today whether the ancient colony would adopt Atlantic Time following Confederation. They had not heard of any plans to change the system.

No one seems to know why Newfoundland did not adopt the zoning method invented by an English-born Torontonian more than 70 years ago.

Sir Sanford Flemming, one of Canada's nation-builders, invented the system that today gives the Dominion her five time zones—reading from East to West, Atlantic, Eastern, Central, Mountain and Pacific.

Sir Sanford was, among other things, a railway engineer and he evolved the plan while rail officials wracked their brains to devise comprehensible train schedules under the old system. Travellers in those days had to change their watches every 100 miles or so.

Following Sir Sanford's invention, two world conferences were held—at Paris and Washington—and within a few years practically all countries had adopted the system.

Reaction of all Newfoundlanders interviewed on the matter was one of amusement. An island noted for its easy-going and independent people, Newfoundland likely will not find it necessary to change her time set-up following union.

The 500-mile-wide island officially goes on daylight time during the Summer months.

The time element of Confederation, one observer pointed out, will provide an oddity caused by Canada's vast expanse.

Since union will come into effect at midnight Thursday, Newfoundland apparently will become a Province of Canada 1½ hours before she is accepted, due to the difference in time at Ottawa and St. John's.

Uses Hopper Threat To Push Prairie Irrigation Argument

By DOUGLAS HOW
Canadian Press Staff Writer

OTTAWA, March 29 (CP) — The spectre of a 1949 crop disaster was thrown before the Commons today as John Diefenbaker (P.C. — Lake Centre) criticized the Government for failure to irrigate large areas of Saskatchewan prairie by damming the South Saskatchewan River.

The prospects of a grasshopper plague, he said, add an urgent importance to the 11-year-old vision of a $63,000,000 project which so far had received nothing but "dibs and dabs" of Government backing.

To the interjection of Agriculture Minister Gardiner that the 1949-50 estimates contain a $7,500,000 vote for the work, Mr. Diefenbaker replied that it was not enough, that it would provide only for foundation work.

Clarie Gillis (C.C.F.—Cape Breton South) said he agreed with him that the Saskatchewan project was a Federal responsibility. It was unfair to expect the Saskatchewan Government to provide the funds.

Revenue Minister McCann told Cal Miller (P.C. — Portage La Prairie) the Government does not intend to extend the April 30 deadline for filing income tax returns despite bad road conditions in the West.

WAGES HIGHER

OTTAWA, March 29 (CP)—Industrial wages and salaries in Canada were higher at Feb. 1 than either a month earlier or the same date in 1948, the Bureau of Statistics reported today.

Feb. 1 salaries and wages averaged $42.77 which was 1.5 per cent higher than Jan. 1 earnings of $41.10 and 11.8 per cent above Feb. 1 a year ago when the figure was $39.38.

Following the usual seasonal pattern, industrial employment continued to decline during January, but was still above the level of a year ago.

There was little change in employment in manufacturing as a whole, but substantial decreases from December were recorded for logging, construction and trade.

Actually the employment index, based on 1926 equalling 100, stood at 191.3 at Feb. 1—highest ever recorded for that time of the year. It compared with 196 at Jan. 1 and 189.3 a year earlier.

GRAIN PLUGS ELEVATORS

FORT WILLIAM, March 29 (CP) —Five hundred cars of grain are arriving here daily over Canadian Pacific and Canadian National Railways lines and local grain elevators today were reported taxed to the limit.

"SHORT LOOK" TO STAY

TORONTO, March 29 (CP)—Get out those scissors, girls! The "short look" in hair-dos is here to stay for a year or two.

That's the opinion of Anthony Colletti and Enrico Caruso, New York hair stylists, here for a beauty trade exhibition and hairdressers' convention.

They both claim that hair styles go in cycles and the "bob" will be in vogue for some time. They also agree that there are only three ways to dress hair—up, down and around. The current era is the "upstage."

Says Point Grey Fire Protection Inadequate

VANCOUVER, Marc 29 (CP)—Fire Chief A. E. Condon said today the millions of dollars worth of property in the British Columbia University and Point Grey residential areas is inadequately protected against fire.

After a survey of the area, Condon said the water pressure is "exceptionally low" and the two fire halls are not strategically placed for fire-fighting.

Three major fires have brought damage estimated at more than $1,000,000 to university buildings during the Winter.

BACKS OFF FERRY, NO BLAME ON CITY

VANCOUVER, March 29 (CP) — A widow and three children in England lost their $60,000 suit in Supreme Court here for damages in the death of Selwyn Howle, 38.

The husband drowned when his U-drive backed off the ferry wharf shortly after a ferry pulled out for North Vancouver.

After a five-day trial an eight-man jury absolved the Corporation of the City of North Vancouver of any negligence.

WANT MORE U. K COAL

OTTAWA, March 29 (CP)—Canada would like to buy considerably more coal from the United Kingdom than she has been receiving during the last few years.

This view was expressed today by authorities on the fuel situation, commenting on an address in Montreal by Hon. David Rhys Grenfell, Britain's wartime mines minister, who said he hoped Canadians will buy more coal from Britain and enable her to pay for Canadian food.

Current imports of coal from Britain are only a small part of what they were in pre-war years. Last year Canada received 173,000 tons of anthracite from Britain. The year before the figure was about 55,000 tons.

That compared with 1,333,000 tons in 1936; 1,643,000 tons in 1934 and 1,665,000 tons in 1933.

Suggest New Rail Rate Making System

By JOHN LEBLANC
Canadian Press Staff Writer

OTTAWA, March 29 (CP)—A new rate-making system for the Canadian railways was urged on the Board of Transport Commissioners today by the Canadian Pacific Railway.

Closing out its argument for higher freight rates, the company proposed that the Board establish a rate-of-return on rail investment for the setting of freight tolls—an idea that has been opposed by the seven provinces objecting to freight rate increases.

A. J. G. Priest, New York lawyer acting for the C.P.R., advanced the proposal and suggested a rate of return that would give the C.P.R. additional earnings of about $55,000,000 a year.

Ammunition Taken From Armories

VANCOUVER, March 29 (CP)— A civil war of sorts may be in the offing here.

Police said today Stanley Park Armories were broken into by thieves who carted away 12 boxes of .22 calibre ammunition. Each box contained 100 rounds.

Filched from Seaforth Armories were four cavalary swords and four bayonets.

Police add, however, they believe the arms were taken by spectators during the inspection of boy scouts Sunday by Governor-General Viscount Alexander.

EQUAL PAY FOR WOMEN BACKED BY U. N. GROUP

BEYROUTH, Lebanon, March 29 (Reuters)—Women of the world tonight decided that women should get equal pay for equal work, but could not decide who should urge their claim.

The decision was taken by the United Nations Commission on the Status of Women, which is meeting here.

Three separate resolutions tabled by the United States, Russia, and China, were merged into one urging equal pay for equal work, which was adopted paragraph by paragraph without an over-all vote.

Sokolovsky Moves Up

LONDON, March 29 (CP) — A hero of Stalingrad, Army Gen. V. I. Chuikov, takes over the command of Russian troops in Germany from Marshal Vassily D. Sokolovsky in a new Soviet reshuffle announced by the Moscow radio tonight.

Marshal Sokolovsky, whose walkout from the Allied Control Council in Berlin a year ago signalled the end of the effective four-power control in Germany, moves up to become first Deputy Minister of the Armed Forces.

Appointment of Marshal Alexander Vasilevsky, then Deputy Minister of the Armed Forces, to succeed Marshal Nikolai Bulganin as Minister was announced last week. Bulganin, an alternate member of the powerful Politburo of the Russian Communist Party, continues to hold his post as a Deputy Premier.

The man who succeeds Sokolovsky as commander-in-chief in Germany was responsible for repelling the main German assault on Stalingrad in 1942.

Gen. Chuikov goes to Berlin from the post of Soviet military administrator in Thuringia, Germany.

Marshal Vasilevsky was dismissed from his post as Chief of the General Staff in November last but at that time retained his post as first deputy.

He was succeeded as Chief of Staff by Army General Sergie M. Shtemenko.

Chuikov was promoted to the rank of Army General by the Council of Ministers late last Autumn.

Coast Rents Going Up

VANCOUVER, March 29 (CP) — A survey conducted today by a Vancouver newspaper shows commercial rents in Vancouver will be raised by from 15 to 35 per cent for hundreds of business officers May 1.

Reason for the boost is that two-year leases, entered into under a Wartime Prices and Trade Board regulation in 1947, expire April 30.

Courtenay Man Wins $58,000

And in This Corner—

FORT KNOX, Ky., March 29 (AP)—This letter from Floral Park, N.Y. was received today at the Fort Knox Public Inormation Office:

"Gentlemen: Please send me a gold brick and some material on Fort Knox."

The writer apparently had reference to the gold vault here, where most of the nation's gold bullion is stored. Said Capt. Tom Cunningham, Public Information Director:

"We've got some 'goldbrickers' we'd just as soon get rid of but they're not in the vault."

He mailed the writer some literature on Fort Knox, but no gold bricks.

LOWELL, Mass., March 29 (AP)—The scene—small claims court. The case—an allegedly faulty toaster.

Lawyer for the defence, Howard Rogowitz, petitioned Judge John H. Valentine to plug in the alleged temperamental toaster for a trial run.

Plaintiff's lawyer, George C. Eliades agreed.

The toaster was duly plugged in.

Two minutes of perfect operation went by.

Judge Valentine said to Eliades: "I guess you took a gamble and lost.

Eliades replied: "I guess I did, but it wasn't the first time."

Suddenly every light in the court room went out.

When the fuses were replaced Judge Valentine remarked:

"I find for the plaintiff."

LONDON, March 29 (CP)—"Chucker-out" at the Lyceum dance hall in the Strand is 24-year-old Terry Cakebread.

Terry is a Londoner, pretty, petite and very persuasive. A few words from her and trouble-makers "just fade away."

The Lyceum management have found that "big bruisers," on the door to keep order, cause fights—so they took on a girl and now there's never any trouble. Confronted with a pretty girl, the trouble-maker is often too surprised to argue.

LOS ANGELES, March 29 (AP)—With a name like Valentine and a picture like "Love is Big Business," how else could this little domestic story end?

Joseph A. Valentine, who won an Academy award as a camera man left the set of "Love is Big Business" yesterday for a courtroom.

He opposed his wife's separate maintenance suit with a divorce action. After a conference with Judge Joe Raycraft, Valentine hurried to a telephone, his wife on his arm.

He called their two-year-old son and said: "Hello, honey. Daddy and Mom are coming home right away."

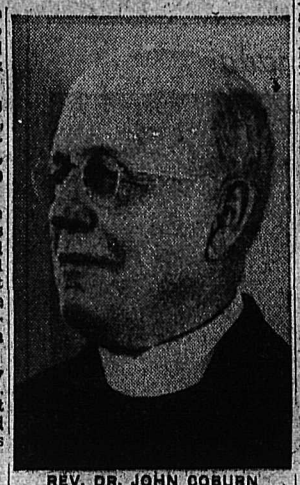
Drinkers Not Only Sufferers From Alcohol, Says Temperance Head

"If the effects of alcohol were confined only to the man who drinks it, I would say 'fine', and agree it was his own business. But they are not."

These were the climaxing words of Rev. Dr. John Coburn, of Toronto, Secretary of the Canadian Temperance Association, Tuesday evening in an address on the problems of alcohol.

Dr. Coburn's discussion of the problem—"one that directly affects 50,000 Canadians"—was illustrated by two films, "The Payoff" and "The Alcohol Family." The first was a dramatization of concrete cases illustrating the effects of "social" drinking, and the second a film on the ingredients of alcohol.

Canada's unsolved liquor problem was a "very serious" one, Dr. Colburn said. "It is a problem that has completely baffled the good judgment of many men. All steps taken to solve it have failed."



REV. DR. JOHN COBURN

NEVER PROHIBITION

He cited the period known as "prohibition time, although we never had prohibition" after the Canadian bar rooms were wiped out. Stressing his point of "never prohibition," Dr. Coburn said that while sale of liquor was prohibited, the breweries and distilleries were "never prohibited from making beer and hard liquors . . . they supplied the bootleggers."

Prohibition was replaced by Government control at present in effect.

"Since 1922, when so-called prohibition was sent out, Canadians increased their drinking from 41,000,000 gallons to 178,000,000 gallons last year.

One of the "strange" things about Government control was that it had not put an end to bootlegging, he said.

He compared the $525,000,000 Canadians spent on liquor last year to ucation and the $100,000,000 spent by the churches.

Alcoholism had become a serious health problem. It ranked in the four top diseases with tuberculosis, cancer and venereal diseases.

Venereal disease incidence was parallel to that of alcoholism, he said. Research into the problem, "an ever-increasing one in the past generation," showed that 70 to 80 per cent of venereal disease patients were under the influence of liquor when the infection took place.

"Now, have you solved the problem of alcohol?" Dr. Coburn asked.

"Slaughter on the highways" was blamed in 45 to 50 per cent of the cases on alcohol.

"There is a great deal of talk about freedom and liberty in connection with alcoholism. If the effects were confined only to the man who drinks, I would say 'fine' and agree it was his own business. But, unfortuantely, they are not."

The drinker was a distinct traffic hazard, he said. The amount of alcohol contained in a bottle of beer was equal that in a highball. "Two or three drinks can dull the coordination and sense of the man behind the wheel."

URGES FORCES TO RALLY

It was not the drunken driver who caused the most trouble, but the man with two or three and in a "state of convivial hilarity."

He urged the "lining up across Canada of the temperance forces, and especially here in British Columbia." B. C. had provided a special Act and a Department of Temperance Education, he said, but it "is the parents, not the children, who need the education most."

LION JUVES WIN OPENER FROM F.A.C.

The Lion Juves, who eliminated the Dodger Juviniles in the first playoffs for the City title, took the opening game of the finals 5 to 2 at the Civic Arena when they outskated the League winning F.A.C.'s. The series orignally a best-of-five has been cut down to a best-of-three because of a short ice time with the ink closing down at the end of the week.

The Lions, who added Syl Benedetti to their long list of players who have played in goal, were considerably stronger than during League games in that department, the winners led 2-1 at the end of the first period, 4-2 at the end of middle session and grabbed another goal in the final chapter. Keith Loewen paced the winning Lion club with two gials and two assitss. Gull Brett and Christenson and Lorne Irwin were the other goal getters. Brett was credited with three assists and Christenson one. For the losers Todd and Hood were the scorers, while assists went to Hood and Johnston.

Only two penalties were handed out, one to Gull Brett of the Lions and one to Al Hood of the F.A.C.'s. Walter Wait and Bill Vickers did the officiating, Ken Coskey and Cuck Crosby kept the score and the time.

RETIRED RAILWAYMAN CONCILIATION CHAIRMAN

VANCOUVER, March 29 (CP) — A retired Vancouver railway engineer, W. T. Moodie, today was named Chairman of the Conciliation Board to hear the wages and hours dispute between the B.C. Electric and the Street Railwaymen's Union.

Both parties have announced Conciliation Board hearings are expected to begin in mid-April.

Mr. Moodie's appointment, confirmed today by company and union officials, was made by the Provincial Labor Department.

ROYALITE OIL TO OFFER SHARES IN U. S.

TORONTO, March 29 (CP) — A public offering in the United States of shares of Royalite Oil Co., Ltd., is planned.

Dominion Securities Corporation, Ltd., announces that a registration statement was filed today with the Securities Exchange Commission of the United States relating to the proposed offering.

Kidder, Peabody and Co. and Dominick and Dominick, New York brokers, will head a country-wide syndicate to distribute the shares, the announcement said.

Royalite is engaged in production, exploration and development of oil in Alberta.

Dominion Securities recently bought about 90 per cent of Royalite's 717,487 outstanding shares from Imperial Oil, Ltd., at $23.25 a share.

VANCOUVER, March 29 (CP)—Rob-a-dub-dub and Dip Mah took a dip in the tub.

The Chinese told police today he lost dignity as well as $62 in the affair.

Two thugs, he said, stuffed him into his bathtub and held him there while they fleeced his pockets.

VANCOUVER, 29 (CP) — Most leaders were weak and prices moved up and down during the light trading. Oils were the biggest traders and showed a slight tendency toward firming near the end of the session while mines sold too slowly to show and trend. Industrial sales were small.

Panther Bantams Blank F.A.C. 4-0

Sam Brown's Panther bantams kept in the running for the City bantam title as they drubbed the Fairview Athletic Club's bantam squad 4-0 at the Civic Arena Monday afternoon. It was the fourth game of the best-of-five series, which the F.A.C. leads two to one with one game tied.

The heavier Panther Club carried a better margin of play than in any one previous playoff game and looked more like the team which rode easily to the Bantam League leadership during the current season.

The first period was scoreless, but in the second frame Trainor opened the scoring on a play from Moran, and later Moran scored the second goal with Trainor assisting. In the final period Trainor and Moran each scored unassisted goals on fast breakaways.

Wilf Marquis of the F.A.C. drew the only penalty of the game for a cross-check. Lee Hyssop and Frank Hufty were the referees.

TEEN-AGE GIRL CHARGED WITH SECOND DEGREE MURDER

SEATTLE, March 29 (AP)—Second degree murder charges were filed yesterday against 17-year-old Lorretta Jean Minneker in connection with the fatal stabbing of her father, Willis E. Minniker, last week. Bond was set at $5000.

Minneker, a shingle-mill worker, was slain during a family quarrel.

Prosecutor Charles O. Carroll said he has recenved a letter signed by 127 persons, attesting to Miss Minneker's "decent, fine, upstanding character."

CLAIM POWER PROJECT ENDANGERS FISHERY

VANCOUVER, March 29 (CP)—Hydro-electric development on Chilco River would threaten with extinction a potential $120,000,000 fishery, it was charged today.

The International Pacific Salmon Fisheries Commission in an interim report published on the Fraser River's Chilco River watershed, said the Sockeye salmonfisherytherehas the Sockeye salmon fishery there has a present capital value of about $40,000,000 and a "potential capital value" of $120,000,000.

Hope was expressed that there would be improved transportation facilities for members.

PANTHERS TIE UP FINAL SERIES

Sam Brown's Panthers still kept in the running for the City Bantam Cup as they edged out the Fairview Athletic Club's bantams 3-2 at the Civic Arena Tuesday evening and evened up the best-of-five series at two games and draw for each club.

The F.A.C.'s, though short handed without their ace right handed defenceman, Lionel Kearns, skated with the Panthers Boy ways and looked much improved over their Monday's contest in which they had suffered a 4-0 blanketing.

The F.A.C.'s had some tough breaks. They lost the services of Dave McLean who suffered a broken nose in an in-between period collision with Ron Corbett. Then in the third period Goalie "Turk" Jacobson stopped a hard driven puck on the forehead but after repairs the "Turk" was back on the job.

Don Rosling opened the scoring for the Panthers as he drove in Fernelli's pass early in the first period George Trainor pushed the winners ahead with goal number two, Rosling being in on the play. Al Dawson chalked up the F.A.C.'s first goal on a play from Wilf Marquis to make the score read: Panthers 2, F.A.C. 1 at the close of the first.

In the the sandwich session Trainor shot in the Panthers third and last goal with Moran aiding him to give the Panthers a 3-1 lead. In the last frame Dale Jarrett shoved the F.A.C.'s close with a goal on a pass from Dawson. The F.A.C.'s came close to getting a tying goal in the last few minutes, but the Panthers defence held on to the final bell.

All three penalties of the game went to the Panthers, Defero going off in the first period for slashing, Trainor and Moran in the third period, the former for cross checking and the latter for boarding.

Sixth and probably final game will be Friday at 5:30 p.m.

Bill Vickers and Spence Tatchell were the Referees. Dawson and Underwood kept score and time.

PULP LACK HAMPERS ANTI-RED FIGHT

VANCOUVER, March 29 (CP) — A millionaire Australian industrialist, Sir Herbert Gepp, 71, said today a shortage of wood pulp in Europe is hampering the fight against Communism there.

"One of the most serious effects has been to cut down printing of essential educational material for the people of Europe." He said democracy can only win its case against Communism in Europe "if the people are kept well-informed."

Reduce Car Prices

WILLOW RUN, Mich., March 29 (AP)—Kaiser-Frazer Corporation last night announced price reductions on its cars and changes in top executives.

The price cuts range from $333 on the Kaiser special, the company's lowest-priced car, to $198 on the Frazer.

EDMONTON, March 29 (CP)—An R. C. A. F. Ski-equipped Dakota which cracked up during a rescue operation 400 miles inside the Artic Circle will be abandoned.

A spokesman for the R. C. A. F. Northwest Air Command said the plane's ski-wheel landing gear folded smashing the fuselage when Flt. Lt. Tommy Benson of Vancouver landed at an emergency landing strip at Fort Ross, about 400 miles inside the Artic Circle.

4 Nelson Boys Become King Scouts; First "Red Wings" Presented

Honors went to four Nelson Scouts here Tuesday night as each was presented a King Scout badge at a ceremony in Scout Hall before Scouts and their promoters.

Tom Scales, Ingmar Larson, and Earl and Harry Mason, all of the Second Nelson Scout Troop, had the badges pinned on them by Gordon Pickard, Troop Scout Master.

Last time a group received the badges was in 1942.

Introduction on the significance of the King Scout came from J.V. Scribener of Penticton, Boy Scout Field Commissioner for Okanogan-Kootenay. Qualifications are that the boy be a first class Scout with four proficiency badges.

Two of the new King Scouts, Tom Scales and Ingmar Larson, were also winners of the first "Red Wings" to be presented in Nelson. To become "Flying Lions" the boys had first to earn Airman, Aero Engineer and Handyman badges.

Nor were these the only presentations made to the boys.

Tim received his three-year service star and Ingmar, his five-year service star, and to both went Healthyman, Plumber, Airman, Areo Engineer, Carpenter, Engineer, Safetyman, Knotter, Leatherworker and Missioner badges, as well as "B" and "C" cords.

Earl Mason was given his six-year service star and Pathfinder badge, Harry Mason, his "A" cord and Bill Ramsden, his second class badge.

Making the presentations were K. R. Yale, President of the Nelson and District Boy Scout Association; Melvin Oxspring, former President; Jack Argyle, Fire Chief G. A. McDonald, J. C. Loomer, President of the Group Committee to the Second Nelson Scout Troop, and Bob Coventry, its Assistant Scout Master.

PRIDE OF CITY

The Boy Scout movement was among Nelson's many prides, Mayor T. H. Waters told the gathering.

He recalled the visit of the "first great Scout"—Lord Baden-Powell, and that Nelson was one of the first places in British Columbia and in Canada in which scouting sprang up.

Canada's Chief Scout, Viscount Alexander of Tunis, had commented to the Mayor after his inspection last year that the turnout of Nelson Scouts had been one of the best he had seen during his vice-regal tour.

"Nelson can be justly proud of its Boy Scouts and similar organizations," he quoted the Governor-General as saying.

The Second Nelson Scout Troop again came into the picture with the presentation by District Commissioner D. L. Ure to Gordon Pickard of his warrant of appointment as Scout Master.

A Scouter was first put on probation, and then must take a correspondence course in leadership if he is to become a certified Scout Master, Commissioner Ure pointed out.

Scout Master Pickard was Chairman.

Says Parks Board Has Not Right to Run Theatre Under Stars

VANCOUVER, March 29 (CP) — A Vancouver lawyer said today that Park Board Commissioners may have to refund $10,000 into the Park Board Treasury because of improper employment of the funds.

J. Edward Sears, representing 200 city musicians and teachers, said the Board has no right to operate the Theatre Under the Stars building at 1021 West Hastings, which houses the British Columbia Institute of Music and Drama.

"This place is not a park," he said. Under the charter, Park Board monies are to be used for park purposes only, he said.

"Any taxpayer can bring a suit or injunction against the Commissioners and make them personally responsible for the money spent."

"I have not taken any action yet," he said, "but if my clients should request it, I will."

Indian Deputy Prime Minister Safe

NEW DELHI, March 29 (CP)—A plane carrying Deputy Prime Minister Sardar V. Patel and six others has reached Jaipur safely, Indian air headquarters announced tonight.

The announcement said the plane made a forced landing but none was injured. Patel and his party covered the remaining distance by automobile.

Need More Money

VANCOUVER, March 29 (CP)—The Society for the Prevention of Cruelty to Animals will need more money if it is to meet the growing demand for its services, P. R. U. Stratton, President, told the annual meeting last night.

Mr. Stratton said the present grant from the city does not cover more than a fourth of the Society's expenditure on city work. He suggested that the Society be allowed to take over the city pound.

"There is at present considerable overlapping of functions between ourselves and the pound," he said. "If all operations connected with stray, sick or injured animals were concentrated under one administration, more efficient service could be given to the public at a lower cost."

HAVE CRIMINAL BUT NO CRIME

BURNABY, B. C., March (CP)—B. C. police here have the criminal but they can't find the crime.

A 13-year-old boy, arrested following his escape Saturday night from the Boys' Industrial School at Coquitlam, confessed to breaking into a school.

He said he thought it was in Burnaby.

Police checked the area but could find no burglared school.

They're looking over surrounding areas.

Urges Canadians To Banish Unemployment And Poor Housing

REGINA, March 29 (CP)—Premier Douglas last night called on Canadians to banish "unemployment, bad housing and poor working conditions from the National scene."

Unless these post-war ills were wiped out, he said, "you and I have not kept faith with the young men who died in the second world war."

He addressed more than 1000 persons at a Mass Rally of Canadian Congress of Labor Union locals.

The Premier charged the Federal Gobernment had done nothing about apost-war, "New Social Order" promised the men and women who served in Canada's armed services.

Fill Vacancies On Tariff Board

OTTAWA, March 29 (CP)— F. J. Leduc, 54, a Montreal Civil engineer and W. W. Buchanan, 38, a business man from East Selkirk, Man., have been appointed to fill vacancies on the Tariff Board, it was announced today.

The appointments, for 10-year terms, will bring the three-man Board up to stength. Its Chairman is Hector B. McKinnon and Mr. Leduc will serve as Vice Chairman.

To Set Fees for Television Sets

OTTAWA, March 29 (CP)—Canadians will pay a licence fee on television receiving sets when stations begin operating in this country, but the amount of the fee has not yet been set, it was learned today.

The fee will be set by the government, which also fixes the $2.50 annual licence fee on ordinary radio receiving sets.

DIES ON GALLOWS

LETHBRIDGE, Alta., March 30—(Wednesday)—(CP)—Stanley Donald McLaren, 23-yer-old Calgary and Toronto plasterer, was hanged today for the September, 1945, slaying of Lum Yum Wing, Calgary Chinese grocer.

Convicted in Calgary last November, McLaren lost his last chance for life yesterday when the Federal Cabinet rejected a plea for clemency.

Officials said McLaren marched from the death cell to the scaffold "calmly and bravely." He had no last comments.

PARKING METERS OPPOSED BY TRAIL GROUP

TRAIL, B.C., March 29 — Trail City Council's Traffic Committee is studying for report back to Council a petition protesting installation of parking meters here.

The Council was asked to obtain the wishes of residents before taking any further action on the meters. The petition containing the signatures of many business men was presented to the Council last night by P. J. Durkin, City merchant. It stated that parking meters would not be in the best interests of the City. They would be "a great inconvenience, discomfort and expense."

Residents were entitled to free use of the streets and the present parking bylaw provided proper parking restrictions, it said.

Demand Withdrawal of Ontario Charitable Gifts Act; Termed Iniquitous, Unfair, Vindictive

TORONTO, March 29—On divergent fronts, opposition grew today to the Ontario Government's proposed Charitable Gifts Act.

The retroactive bill introduced last Friday by Hon. Leslie Frost, Provincial Treasurer, will force the charitable foundations to dispose of 90 per cent of their holdings "in any business", and apply the proceeds to "specific charities". The bill is interpreted as being directed primarily at the Atkinson Charitable Foundation. The late Joseph E. Atkinson, publisher of the Toronto Daily Star and the Star Weekly, bequeathed his newspapers to the foundation.

In Toronto, the collective voice of 80,000 trade unionists in the C.C.L. Labor Council demanded the Government withdraw the bill. Unanimously, the organization formally denounced the proposed legislation as "iniquitous and discriminatory" and "clearly designed to restrict the operation and ultimately destroy the Atkinson Charitable Foundation."

In his will, the late J. E. Atkinson provided that the nawspaper properties should not fall into private hands. Profits were to be used for the promotion and maintenance of social, scientific and economic reforms charitable n nature. Passage of the bill would invalidate the terms of the will. A number of other estates left by men now dead would also be affected.

"The will of an individual is a sacred thing and should be held inviolate," said J. W. Berry of Toronto, President and General Manager of the Guaranty Trust Co. of Canada. "Anything in the nature of legislation that affects the wishes of testators is a serious matter."

In its lead editorial today, the Windsor Star called on the Government to revoke the "unfair bill". "If this law had been introduced by a socialist administration, it would have been damned as a confiscatory piece of legislation, the effect of which would be to discourage rich people leaving their estates to charitable trusts.

"The Ontario Government should reconsider this legislation. Having done so, it should withdraw it completely. Regardless of what explanation may be offered on its behalf, it smacks too much of petty, vindictive and unfair discrimination against a newspaper which vigorously has opposed the Conservative Party."

Viewpoint of major Toronto welfare organizations was summed up by F. N. Stapiford, General Secretary of the Neighborhood Workers Association, who said "social service in Ontario had high hopes for the Atkinson Foundation as an important project in itself and as a pointer of the way for others."

Ranged alongside C.C.L. labor locals was the Toronto District Labor Council of the Trades and Labor Congress (A.F.L.). W. D. Kearns, Vice-President, termed the act "without precedent and fraught with danger to the general public. It definitely infringes on the rights of an individual to distribute his property as he sees fit or make provisions for its distribution after death."

In Rochester, N.Y., newspaper chain head Frank Gannett was concerned that the Ontario bill was a step towards muzzling a free press.

Windermere Rod, Gun Club Seeks Moose Season

CRANBROOK, B.C., March 21—Windermere District Rod and Gun Club recently drew up its recommendations to the Game Commission for the 1949-50 hunting season. Their area is recognized internationally as a big game stronghold, and the 1948-49 trophy fees and non-resident hunting permits issued in the district totalled over $10,000. Non-resident hunters totalled 209 during the season.

Opening of the moose season, closed in 1948, was recommended. September 15 to October 30 was recommended with bag limit one bull. Advancing of the mountain goat season to cover September 1 to October 30 was also recommended with one animal bag limit. The meeting recommended the year-round black and brown bear season be closed from July 1 to August 31. They also recommended doubling the bountry on cougar to $40 year-round. Cougar are highly destructive of big game.

Elected honorary officers were A. M. Chisholm and W. H. Cleland. Active officers are V. S. Kimpton, President, Frank Jones, Vice-President, G. E. Cleveland, Secretary-Treasurer and executive members Gordon McKay, J. H. Sparrow, R. W. Lake, Joe Renwick, Leigh Nixon, Major R. B. Prust, G. W. Appleby, E. C. Phillips, R. W. Bartman, J. W. 72 Families Enjoy New Mail Delivery

Another 72 Kootenay Lake families are enjoying daily mail service through extensions of Rural Route I.

The route, which originally went only to Procter, now takes in the uplake area as far as Balfour and is a 54-mile return trip.

It now services 252 families, but another 50 are expected to put up mailboxes when the snow clears. Previously, 180 received mail.

First extension took the mail truck to a service station at the outskirts of Balfour, and the second, which went into effect in the early part of March, included the town of Balfour and houses along the beach. After going to Balfour, the truck retraces to Procter and back to Nelson.

C. Cummins of Nelson holds the contract, and the delivery jeep is driven by Mrs. Cummins.

Natal Rod, Gun Club Elects New Officers

NATAL, B.C., March 21—At the annual meeting of the Natal-Michel Rod and Gun Club officers for the 1949-50 term were elected, the auditors report accepted and the financial standing of the club read out. Before a fair turnout of sportsmen the following officers were chosen: President, Andrew Davey of Michel replacing F. Fairclough; Secretary, Harry Hughes, Jr., of Natal, reelected; Stan Kotek of Michel reelected Treasurer; W. Wilson of Sparwood Honorary President; I. Duncan of Michel, Honorary Vice-President; First Vice-President, Earl Payne of Natal; Second Vice-President Frank Fiarclough of Natal; Executive-Committee, John Letasy, Mike Halko, Jack Doratty and Herbie Travis; Auditing-Committee Mike Halko and Joe Gergel.

It was also decided to send the three officers, A. Davey, H. Hughes, Jr. and S. Kotek to the coming East Kootenay Rod and Gun Clubs Association zone meeting at Kimberley, April 2.

Eight resolutions were drawn up by the Natal-Michel Rod & Gun Club which will be presented to the zone meeting. Most of the resolutions dealt with were on the big game situation while on resolution of the Natal-Michel club was the urging of a change of game wardens periodically in the East Kootenay district.

The membership drive will commence from the first of April with an all out effort to surpass the 300 goal.

MRS. M. HARROP DISTRICT DELEGATE TO EASTER MEET

Mrs. Margaret Harrop, President of the Nelson District Teachers' Federation, will be District delegate to the Easter convention in Vancouver April 18 to 21.

Federal aid for education will be the central theme of the session for B.C. teachers. C. J. Oates, President of the Canadian Teachers' Federation, will report on the results of a brief presented to the Federal Cabinet by the national teachers' group. On his return from Ottawa, Mr. Oates said that teachers associations throughout Canada were aware of the strain placed on local finances by increased costs, and felt that Federal aid for education on a per capita basis was a "practical and reasonable solution." The proposal had already won the support of several national trade union and political organizations, he remarked.

$95 Million More In Expenditures Tabled By Abbott

$50 Million Needed for First Year Newfoundland Union; Unforeseen Costs

OTTAWA, March 29 (CP)— Finance Minister Abbott today tabled in the Commons further supplementary estimates of expenditures for the 1948-49 fiscal year totalling $95,154,373.

The expenditures, unforeseen when the estimates of Government expenditures were drawn up a year ago, brought to $2,285,717,555 the total amount of expenses in the year which ends Thursday, March 31, 1949.

Estimates of expenditures for the next fiscal year, which begins Friday, total $2,217,678,181 at present but they will be increased before the end of the current session.

Some $50,000,000 will be added to take care of expenses in Newfoundland in the first year of union. In addition there will be other amounts voted to meet expenditures, unforeseen when the main estimates were presented to the Commons March 14.

The further supplementary estimates for the current year contained an amount of $5,750,000 for loans and investments, bringing to $100,904,073 the total amount which Parliament will be asked to vote before the end of the month.

The loans and investment amount included $3,250,000 loaned to provide for the stock-piling of strategic reserves of materials. It also included $2,500,000 loaned to provide for advances to Canadian Arsenals Limited to increase the working capital fund for the operations of the company.

Largest single amount in the supplementaries was the $33,532,741 needed to cover the deficit of the Canadian National Railways. A total of $2,933,240 was ear-marked to cover the deficit of Trans-Canada Air Lines.

MORE FOR DEFENCE

The Defence Department asked for another $19,622,583 to meet expenditures arising out of expansion of the forces. An amount of $17,200,000 was set aside to reimburse the Canadian Wheat Board for subsidies paid to millers on wheat used for human consumption.

A total of $4,454,250 was for a Canadian Wheat Board deficit on the handling of flax.

The Transport Department asked an additional $656,058 to meet payments under the Maritimes Freight Rates Act. A total of $4,800,000 already had been voted by Parliament to provide lower rates to the Maritime Provinces.

Mosher New Water Rights Assistant At Nelson; Succeeds M. L. Zirul

Vaughan L. Mosher, a Lieutenant in the Royal Canadian Engineers in the Second World War, has been appointed Assistant District Engineer at the Water Rights Branch at Nelson.

He succeeds M. L. Zirul, who has been transferred to Kamloops as Assistant District Engineer there. Mr. Zirul, who came to Nelson in April of 1946 leaves today with his wife and two children.

The new Assistant was graduated in civil engineering from University of British Columbia, and is a member of the Association of Professional Engineers of B. C. and a junior member of the Engineering Institute of Canada.

He joined the staff of the Water Rights Branch at Victoria in April, 1946, as a Hydraulic Engineer, and while stationed there was in charge of snow surveys for forecasting stream flow.

Prior to service in the Army, he was engaged in surveys for forest mensuration on Vancouver and the Queen Charlotte Islands.

Before his transfer to the Nelson District, Mr. Mosher had charge of orrigation surveys in the Grandview area near Armstrong. This project is understood to be looked on favorably for development under the Prairie Farmers' Rehabilitation Act.

In May last year he brought a field party to Camp Lister to investigate the possibility of irrigating the area South of Goat River.

During the past Fall and Winter, he has ben employed by the Branch as Resident Engineer on the reconstruction of the Creston dikes.

Mr. Mosher's wife and two children are in Creston, and will move to Nelson as soon as living accommodation can be found.

Camp Lister . . .

CAMP LISTER, B.C. — Albert Wocknitz left for Kimberley where he is employed.

Miss Nellie Huscroft of the St. Eugene Hospital, Cranbrook, and George Hrisook were visitors of Mr. and Mrs. Charles Huscroft.

The Lister-Huscroft hockey team were visitors at the Civic Centre where they played against the Creston team, beating them 3-2.

After visiting at his home in Huscroft for the past three months, Bruce Ross returned to Vancouver.

Mr. and Mrs. R. P. McKee and children of Kingsgate were visitors of their parents, Mr. and Mrs. D. J. McKee.

After visiting with relatives in Kimberley for the past three weeks, Verna Wocknitz returned to her home in Camp Lister.

A. W. Sinclair is a patient in the Shaughnessy Hospital, Vancouver.

Regular Anglican service was held in All Saints Church, Camp Lister, on Sunday. Rev. D. W. Blackaller advised the congregation that he was leaving soon for Fernie.

Mrs. W. Lindhorst of Huscroft was guest of her son and daughter-in-law, Mr. and Mrs. Hans Lindhorst in Creston.

Mr. and Mrs. Leonard Huscroft and son were visitors of Mr. and Mrs. John Huscroft.

Gift From England Won at Kaslo Tea

KASLO, B. C., March 29—The Canadian Legion Auxiliary held a successful tea and bake sale in the Legion Hall.

A pair of hand-made mittens and beret, a gift from an adopted family in England, and a pair of beautiful plaques made by one of the members were won by Mrs. Meers of Shutty Bench and Mrs. Fell.

In the absence of the President, Mrs. J. Tonkin, and Secretary, Mrs. T. Horner, Mrs. F. McGibbon acted as general convener.

On the Refreshment Committee were Mrs. S. Stocking, Mrs. W. Smith, Mrs. Morphet, Mrs. Wardle, Mrs. E. Garrett and Mrs. J. Matthews. Mrs. Harbottle and Mrs. Singel conducted the sales at the bake table, and Mrs. McGibbon, Mrs. W. F. Tyers and Mrs. F. V. Webber were in charge of the contest and miscellaneous table.

Boswell Women's Club Names Officers

BOSWELL, B. C., March 29—A meeting to form a Women's Club was held in the Memorial Hall, with Mrs. A. Mackie presiding and Mrs. W. L. Hepher Acting Secretary.

A long discussion on ways and means followed the election of officers—Mrs. Eric Bainbridge, Mrs. A. Walker and Mrs. George Hill.

It was decided to meet on the first Wednesday of the month, when a program of activities will be arranged.

Refugee Doctors Left Behind Under Fears of Medical Associations

By MICHAEL GOLDSMITH

GENEVA, March 29 (AP) — If any country in the world has areas where doctors are scarce, it need only apply to the International Refugee Organization.

Nearly 3000 highly-qualified physicians and surgeons are living among displaced persons in European refugee camps, with little hope of ever again being allowed to help in the battle against disease and human suffering.

More than half of these unemployed doctors are general practitioners. The remainder are specialists ranging from surgeons to psychiatrists. All of them have years of practice or research behind them in their former homes in Eastern Europe. Many are internationally known and have published important scientific works or otherwise materially contributed to medical progress.

Some of the doctors escaped from Nazi death camps. Others were rounded up as Nazi slave workers or spent the war caring for wounded partisans under the eyes of the Germans. Many of them are in their thirties or early forties and wish nothing more than to be allowed to use their skill in a new home, anywhere.

But nearly all countries admitting refugee immigrants refuse to accept doctors because of the opposition of local medical associations, the I.R.O. said in a recent report.

In most cases, the refugee doctors are helping to care for their fellow refugees, but as more and more refugees are re-settled overseas, the doctors remain behind because no country will admit them. The only countries accepting refugee doctors "in very small numbers," the report said, are Norway, the Netherlands, Venezuela and Iran.

Most countries bar them because their medical associations fear competitions or a lowering of medical standards, according to the I.R.O report.

The report stressed the difficulties of long training and examination in unfamiliar languages for persons long past the student stage. The fears of the medical associations "are largely groundless," the report said.

LENTEN MISSION AT NATAL

NATAL, B.C., March 21 — The first Lenten Mission is being preached at the St. Michael's Church at Natal under the direction of Father J. P. Michael, O.M.I., widely known Oblate, who will give the Mission for a two week period.

The first week of the Mission will be for the women of the parish while the second week is for the men.

Throughout the week two Masses will be said every morning followed by short sermons, while in the evening Benediction of the Blessed Sacrament will take place followed by a sermon.

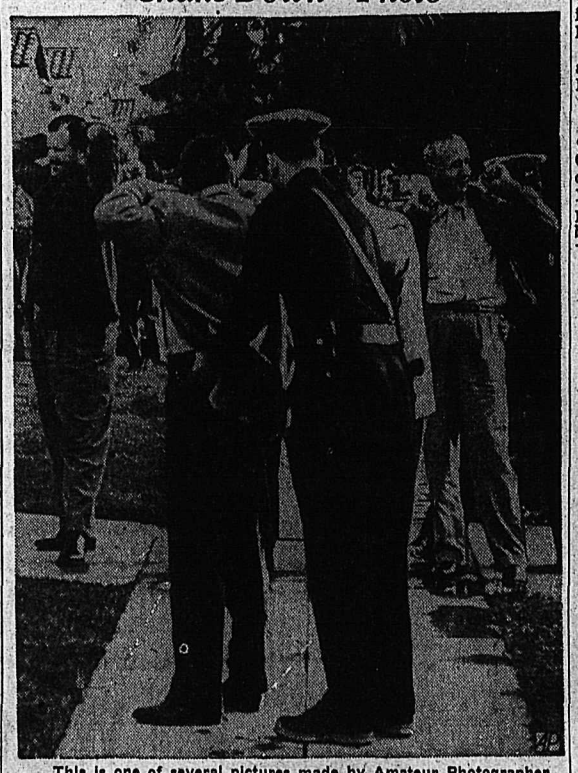
"Shake-Down" Photo



This is one of several pictures made by Amateur Photographer Roy Diehl of the arrest and search of seven men who police say are known to be associates of Gambler Mickey Cohen which resulted in a wide investigation of the Los Angeles police department. The men, caught while fleeing the scene of a brutal beating were quickly and secretly released. Publication of this and other pictures by the Los Angeles Times brought about the police department inquiry, which already has resulted in suspension of two officers.—(AP Wirephoto.)

To Stay Young, Take Life Easily, Avoid Rushing, Above All Be Calm

As we grow older, most of us can add years to our life as well as life to our years. And it is not a chore either. But we must always bear in mind that when people reach 45 years of age, unless they take proper care of themselves, they will soon begin to show symptoms due to the "wear and tear" of living. How a person takes care of himself after the age of 45, both physically and mentally, will be an important factor in determining whether the later years of life will be healthy and happy or marred by chronic sickness.

Perhaps the most important part of this care during and after middle age is to have a regular check-up once every six months by the doctor. Such a check-up will help to bring to light such disorders as damage to the kidneys, diabetes, or liver disease, which, with proper treatment, can be kept under control, if not cured.

OVERWEIGHT HAZARDOUS

There are a number of danger signs which indicate that all may not be well. For example, the sudden development of constipation, diarrhea, or any abnormal discomfort, such as sickness at the stomach, may be signs of stomach and bowel conditions which should have prompt investigation. By being on the lookout for these danger signs, and then consulting the physician at once, disorders may be detected in their beginning and promptly relieved.

Overweight becomes particularly hazardous after middle age. The extra weight puts an unnecessary burden on the heart, blood vessels, and kidneys. There is no doubt that persons who keep their weight normal can expect a longer and healthier life.

Emotional upsets, worry, anger, and fear are all harmful. They not only are a strain on the nervous system but may be contributing factors in physical disorders. Middle-aged or older persons should try to develop the idea of taking things less seriously.

TAKE CARE

Many middle-aged persons seem to forget that during this time of life most of them cannot do as much as they could in their earlier years. They try to keep up with young persons and, as a result, breakdowns occur. The best thing to do is to take things easy, avoid rushing, get to bed a little earlier and, if possible, take a short nap during the middle of the day.

There is no need to worry about growing old, because worry will do no good. However, by taking proper care of yourself, you can delay the aging process.

Love Problems

Off With Old Love, On With New Not Always Solution to Wife's Problem

Referring to discussions carried on in this column on the subject of married women who fall in love with other men, a male reader writes to ask this question: Should a wife go on living with a husband if she wonders whether she can trust him or not?

"What would you say," he asks, "to a case where a woman falls in love with another man only because she finds her husband to be unfair and untrue to her? Must a woman pus up with such treatment, or should she put her foot down and know where she stands?

"I happen to be in love with a woman who stands for such treatment. I know I could make her happy. I could give her the things her first marriage has failed to bring. Have women like her the right to find happiness and love elsewhere if they can?"

DIFFICULT QUESTION

This is a far from simple question to answer, for a great many factors are involved in any such situation besides that of a woman's "right." Moreover, practically every case of marital unhappiness is an individual one, different in many respects from every other. Consequently, no general rule can be laid down for all.

Whether a wife has the right to leave a husband with whom she is unhappy, I should say, depends upon the particular set of circumstances in which she finds herself. There may be a number of good seasons why she should stay with her husband, ranging from the consideration of any children there may be to the possibility that she has not done all she could on her side to make the marriage work. Without knowing anything whatever about the woman mentioned by my correspondent, except that her husband has been unfaithful to her, it would not be possible to form an intelligent opinion about what she should do.

UTTERLY USELESS

As for a woman's "putting her foot down" in the matter of extra-marital affairs on the part of her husband, there is nothing more useless. I do not believe that any wife has kept a wandering husband home merely by telling him she won't stand for his philandering.

If a wife is quite certain that there is no way in which she can have been at fault when her marriage goes to pieces, and if there are no valid reasons why it should be held together any longer then I cannot think it wrong for her to "find happiness and love elsewhere," as my correspondent puts it. But I believe, also, that the happiness and love should come only through a second marriage.

And finally, I believe she should be very sure indeed, that she is really going to find that happiness and love in the second attempt, before giving up on the first. For, all too many women, because they are desperately unhappy, grasp blindly at anything that seems to hold out promise of better things, only to discover before long that they have merely exchanged one heartache for another.

Director Quits B. C. Turf, Country Club

VANCOUVER, March 29 (CP)—Al Hardy, ex-newspaper man and prominent Coast racing official, today quit as Managing Director of the British Columbia Turf and Country Club which owns Vancouver's only mile-track, Lansdowne.

His resignation followed announcement two weeks ago that the Club would not operate Lansdowne this year because of "exorbitant" parimutel taxation imposed by the Provincial Government.

The Club claimed it lost $58,000 last year under the 21 per cent tax structure: seven per cent, Provincial Government; five per cent, abandoned Federal tax picked up by the Province, and nine per cent. for the track.

Hardy told the Club's directors he agreed they had taken "the only course open" and that as a director he "fully approved" their action.

Hardy, born in the Maritimes, worked as a newspaper man in Fort William and Calgary before coming here. He then went to Seattle where he was associated with the Longacres track and returned to Vancouver as Managing Director of the B. C. Turf Club.

MANITOBA BUDGETS FOR $50,832 SURPLUS

WINNIPEG, March 29 (CP)—Provincial Treasurer J. C. Dryden said tonight in his budget address to the Manitoba Legislature there would be an anticipated surplus of $50,832 for the fiscal year ending March 31, 1950.

Ordinary expenditures had been estimated at $36,463,273 and ordinary revenues at $36,514,105.

Mr. Dryden said there will be no change in provincial taxation.

True Love of Animals Grows When Child Made Responsible for Pet

As soon as the tot can toddle he may gain good moral values from having a pet that he can cuddle. He also may learn much at two, five, or later from observing the ways of this pet and other animals. Obviously, the child old enough to care for a pet can gain in character if he really cares for it faithfully.

But many children, especially from two to five years of age are rough, even cruel, to pets. Bitten or scratched by a cat or dog, this young child may learn not to torment the creature. But the penalty may be unduly costly. Many other creatures can be harmed by the child without their being able to defend themselves.

TOO YOUNG

Some years ago, while visiting in a home, I saw a child nearly three with a tiny turtle no bigger than a walnut. The turtle was almost dead from the rough treatment by this child. I wondered why the parents put this frail little turtle into the child's hands, especially as the mother was the chairman of the Mother's Club I had just aldressed. Without very wise supervision, a child so young could hardly be expected to treat such a tender creature humanely.

Some parents write of the young child who torments the cat or puppy, saying they are not able to persuade this child to be kind to the pet. Perhaps the parent disposes of the pet instead of educating the child in its proper treatment.

To these parents I reply: After you have emphasized tenderness toward the pet yourself and explained a few times to the child how he should treat the pet and why, quit further talk. Act. Each time this tot strikes or hurts the creature in other ways, turn him over your knee suddenly, bare his thighs and spank him. Be sure it hurts him. No use to spank him against his armored fundament. It must be skin to skin to be effective. Let everything else go till he is cured, so as to be always immediately on hand to administer pain instantly and without exception. Don't pull the child's ears if he has pulled the pet's ears or his hair if he has pulled the pet's hair. That could be too severe. The important thing is for the child to connect instant safe pain with these cruel acts of his.

CHAIR SITTING

Once you can get the chair-sitting punishment to work well you can substitute this penalty for physical pain. Chair-sitting for from 30 to 50 minutes might also be very effective if the offending child is six or ten. (This technique I explain in my bulletin, "How Teach Tot Meaning of 'No'", to be had in a stamped envelope).

PATIENT SUGGESTIONS

Also go on with your quiet, patient positive suggestions to the child two, eight or ten. Read to him a great deal about pets and other animals or encourage the child to read such.

Some of the children's magazines carry much material on kindness to dumb animals, that is interesting to young children.

Some children over four or five learn to be cruel to lowly creatures through fear of them (all human beings incline to destroy living things they fear). Wise parents, even though they have some fears themselves of certain lowly creatures, try to overcome these fears and to help their children enjoy observing the ways of all animal life. It's wonderful what the modern school is doing to help children escape needless fears through observing all sorts of living creatures. The pleasure from such observations causes children to be more and more kind to dumb animals. And this is very good moral education, as you can see.

Woman Promises Law Without Gun

LEXINGTON, Ky., March 29 (AP)—"Law enforcement without bloodshed" was pledged today by a 41-year-old Lexington woman who wants to be Chief of Police at troubled Evarts, Ky.

She said she would assure law and order and do it without toting a gun—although "I am not afraid of a gun nor a man with a gun."

Mrs. Pearl Katharine Burrus made known her application for the job at Evarts, which has lost five chiefs of police since last August, in a letter to the Lexington Herald.

Evarts, a Harlan county mining community of 2100 population, started losing its police chiefs last Aug. 9 when Albert Smith resigned after several shots were fired into his automobile. His successor, E. J. Baumgardner was shot to death Sept. 14.

Chief No. 3, H. T. Collier quit Oct. 11 and went back to driving a taxicab. George Sellers was named to succeed Collier, but he resigned Nov. 11 after county police arrested him on a charge of drunkenness.

Isachar Combs, police chief No. 5, was convicted of manslaughter March 19.

Alexander Believes West Winning Cold War

VANCOUVER, March 29 (CP)—Viscount Alexander, Governor-General of Canada, said yesterday the Allies are winning the cold war.

"The Atlantic Pact has the Russians stumped," he said in an interview. "I disagree with Harold Laski's (former Chairman of the British Labor Party) suggestion that we explain to the Russians our purpose—to maintain peace.

"I think the Russians know this too well, and that the pact means they will have to stop shoving communism down Western throats."

The Governor-General reiterated an opinion voiced two years ago. "There will be no war with the Soviet," he said. "We don't want war—neither do the Russians."

Michel Creek Dredging Starts

NATAL, B.C., March 29 — The dredging of the Michel Creek has finally commenced with the contract taken over by the Mannix Company. A dredge and two bulldozers are at present on the job working three shifts. The dredging of the creek started from just above the Fernie bridge, situated a short distance West of Natal.

It is expected that the Michel Creek will be dredged from the bridge to the top end of Natal inside of a month's time.

A petition was also signed which was sent to the B.C. Government with over 300 names on for action to overcome another flood.

F.O.E. SPONSORS CANCER CAMPAIGN IN NATAL-MICHEL

NATAL, B.C., March 29 — The Michael Aerie No. 1864, Fraternal Order of Eagles, will sponsor the Conquer Cancer Campaign for 1949 throughout Natal-Michel and district.

The Lodge took the responsibilities after being asked by the Cancer Campaign.

The provincial objective is the same as last year being $100,000.

The F.O.E. Lodge has been assured the full support of the mine management which would include a payroll deduction, the bush camp and the Mannix operation. This would leave the acting-committee only the several businesses in the two towns to contact.

The officers of the Michael F.O.E. selected to meet the mine management included J. K. Mitchell, P. J. Chala and S. Ordyzuk.

DENVER LEGION SCORES HIT

NEW DENVER, B. C., March 29—The New Denver Branch of the Canadian Legion (101) together with the members of the ladies' Auxiliary performed the play "Here Comes Charlie" on Thursday and Friday evenings.

Both performances were well attended and on the second evening not a seat remaided empty although the Bosun Hall seats at the least 230.

Those taking part were: F. Tessman, N. C. Tattrie, Jnr., T. W. Clark, Walter Thring, and Les Campbell.

The ladies' cast was made up of Miss N. Woods, Mrs. Q. H. Forsythe and Mrs. H. Butler.

Stage Director was Mrs. T. W. Clark. Dresser, Mrs. A. L. Harris; Prompter, Miss Frances Burkitt; Lights and Curtain, J. L. Irwin; Scenery constructors, Messrs. Irwin and Staddinger; Master of Ceremonies, Right Rev. Bishop Embling.

Each of the players had so adapted himself or herself to the part that it seemed as if the play had been written round them. There was praise, too, from the audience for the Stage manager, Mrs. T. W. Clark.

Air Minister Pessimistic on Castlegar Strip

Whether substantial development of Castlegar airport would be economically sound, "particularly in view of the natural difficulties of the site," was questioned by Hon. Lionel Chevrier, Minister of Transport, in a letter received by City Council Monday night.

The letter was forwarded to the Council by H. W. Herridge, M.P., Kootenay West, who had taken up the matter of improvement of the field.

The airport did not fulfill "essential requirements for scheduled service using transport aircraft," the Minister said. Major disadvantage was in "restriction of its use to daylight, visual flight rules and weather conditions, and it is indeed unfortunate that the precipitous surrounding terrain does not permit raising of the status of the airport to instrument flight rules conditions at the present stage of air navigational development."

He said, however, that "in order to make certain that every practical avenue toward improvement of the airport is explored I have instructed that the matter be investigated in the field."

Make Sure You Are On the Voter's List

The crystall ball experts foresee a Provincial election in the near future.

History shows that many Kootenaians will ignore the whole thing and regard it in the same light as a strawberry social put on by a church they don't belong to. Others would as soon consider making an expedition to the Nile Valley to look at King Tut's tomb as a walk to the polls on voting day.

Then there are the disappointed ones who would like to vote but discover on voting day that they are not registered.

Voting is everybody's business. This privilege and responsibility of democracy, which is regarded so lightly by many, is important even to those who do not use it. Their interests are safeguarded by the citizens who do use their franchise.

Consider what the situation would be if everyone stayed home from the polls but those who have an exclusively direct interest in promoting some special purpose.

This year it is more important than ever before that citizens vote.

No one can say for whom you should vote, but you owe it to yourself, your neighbors, and your country, to cast a vote for the man or Party of your choice.

The first essential, of course, is that every qualified citizen make sure that he or she is on the voters' list.

Farmers Benefit

Canadian farm prices during 1948 were 20% higher than during 1947, says the latest issue of "The Current Review of Agricultural Conditions in Canada", published by the Economics Division, Marketing Service, Dominion Department of Agriculture.

The Review then points out that since prices of commodities and services used by farmers, including living costs, increased by only 16.4% during the same period, the farmers were better off in the long run. Heavier marketings helped to improve their position as well.

The preliminary figure of the net income of Canadian farmers in 1948 is $1,743,000,000, an all-time record and an increase of 41% over the 1947 figure of $1,235,000,000.

The overall demand in 1949 is expected to equal that of 1948, according to the Review, although there may be some decline in the export demand for some farm products. Domestic demand for farm products in 1949 may exceed that of 1948, and prices received by farmers are expected to remain at the 1949 levels, though there may be some decline toward the end of 1949.

In spite of strong market demand, hog and cattle slaughterings in the first two months of 1949 were lower than during the first two months of 1948, but lamb slaughterings were up by 50 per cent and prices for all classes of livestock at the beginning of February, 1949, were stronger than one year ago.

Although prices were higher, sales of fluid milk and cream for the last three months of 1948 were 8% below the same period in 1947. Butter stocks in storage were lower than a year ago, but increased production during the Winter months of 1948-49 partly offset this situation. Apple exports showed a 30% increase, up to the middle of February, 1949, over last year.

Peaceful Forest a Memorial To Fallen

Written for The Canadian Press by Percy Ghent

Stretching 200 miles West of Lake Superior and astride the Minnesota-Ontario border, there is a wilderness of forest and lakeland that has been called the "ridgepole of the Continent", for its waters flow, eventually, into the Atlantic, Arctic, and the Gulf of Mexico.

For 21 years naturalists and conservationists of Canada and the United States have been prodding their respective Governments, seeking to create an international peace memorial forest with about 10,000,000 acres of this region, before it is taken over by commercial interests for its timber.

The forest would stand as a memorial both to Canadians and Americans who gave their lives for their countries in two world wars, and also as a monument to more than a century of peace between the two nations.

Beneath that vast shelter of conifers, of aspen and birch, wildlife is opulent. Deer are common. Black bears and moose are frequently seen, and the keen-eyed observer occasionally finds a timber-wolf, otter, beaver, and other elusive animals. Arctic three-toed woodpeckers, Hudsonian chickadees, blue headed vireos, crossbills, whisky jacks and spruce grouse are only a few of the birds abundant there.

In the innumerable streams of the Quetico-Superior region, trout, bass and pike such as the angler dreams about abound.

In 1949 Minnesota will stage an immense centennial celebration in honor of its organization as a Territory of the United States in 1849. At this celebration its is expected that greater efforts than ever will be made for the ada and the United States.

Reader, Kaslo—Who wrote the line, "If Winter comes, can Spring be far behind"? And who wrote the following: "I expect to pass through this world but once; any good thing, therefore, that I can do, or any kindness that I can show to my fellow-creatures, let me do it now; let me not defer or neglect it, for I shall not pass this way again"?

Shelley wrote the famous lines beginning "If Winter comes . . .". The author of the second quotation is unknown. His words have been used often, even by Marcus Aurelius, which proves he must have lived centuries ago.

E. D. S., Harrop—Please publish recipe for making cherry wine (sweet cherries), and also one for loganberry wine.

Sweet cherry wine: To eight cups of juice allow one cup sugar. Black cherries are best. Gather when ripe, wipe, remove stalks, put into crock and mash without breaking stones, cover, leave 24 hours, then drain well through hair sieve, pressing out all juice. Measure this and add sugar in above proportion, cover again and leave until next day, stirring occasionally until sugar is dissolved. Cover lightly, and when no hissing noise is heard, which means it has finished working, close down tightly and leave for three months, then bottle. This *is an old English recipe.*

Loganberry wine: To one gallon loganberries allow one quart boiling water. Gather fruit when ripe and on a dry day, pick it carefully, measure, and put into tub or crock, pour boiling water over, and when cool enough, bruise berries until they are all broken. Cover and leave for three or four days, or until pulp rises to surface and forms crust. Drain off and add one to two pounds of sugar to each gallon of juice, according to taste. Mix well, and when sugar is dissolved cover lightly until fermentation ceases (from seven to 10 days), keeping crock well filled with extra juice (sugared) if necessary. A little stick of cinnamon and brandy or gin may then be added. Cover tightly and leave from six to 12 months, then bottle for use.

Press Comment

THE GREEK BRIDE

The case of the Greek bride is an illuminating commentary on the immigration policy of the United States. From accounts, a Greek woman with relatives in Minneapolis has been trying to get into the United States. A grand jury is going to try to find out whether or not she married an American soldier in Winnipeg —though neither could speak the other's language—in order to enter the U.S.A. without a visa. By a day or two, she missed the deadline by which the brides of G.Is were admitted *without visas. Whatever tears our American* friends have shed about the tough attitude adopted by the Russians in refusing to allow brides of foreigners to leave Russia can now be diverted to the bride that Uncle Sam won't let in.—Winnipeg Citizen.

Canadian, U. K. Timber-Steel Exchange Sought

By FORBES RHUDE
Canadian Press Business Editor

A suggestion that timber be substituted for steel in certain construction is receiving attention in Britain.

It has been further suggested that steel thus made available be sent to Canada in exchange for timber.

The British Government apparently favors a degree of substitution of timber for steel, but thinks a direct exchange of British steel for Canadian timber is not feasible.

Harold Wilson, President of the Board of Trade, says some substitution will undoubtedly be in the economic interest of Britain, even if it involves North American timber for which dollars must be paid.

He comments further, as reported by the United Kingdom Information Office at Ottawa:

"Although we are this year *more than tripling the 1947 quan*tity of steel which we are hoping to export to Canada from our very limited resources, the total dollars we are likely to earn from this would barely purchase at the present prices of timber about 60,000 standards, (118,800,000 board feet).

"But, of course, we cannot look at it this way. There are many other Canadian materials and foodstuffs for which that steel and all our other exports are required to pay. With a dollar gap in 1948 in our visible trade with Canada of around $600,000,000, we cannot look at this on a simple barter basis. We have got to export much more to Canada before we can think of substantially increasing our imports from Canada . . .

"We have maintained our contacts with Canada with timber contracts and it is a matter of equal regret to us—requiring timber as we do—and to our Canadian friends, that our Canadian dollar position simply will not enable us to go further than we are doing . . ."

Mr. Wilson's comments were made to the Timber Trade Federation of the United Kingdom, from which there has been criticism of reduced timber purchases from Canada.

OUTLINE PLANS FOR CANADIAN OIL PIPE LINES

OTTAWA, March 29 (CP)—A plan for a network of pipe lines to ship oil and natural gas from Alberta fields to the East, West and South at a total cost of as much as $250,000,000 was outlined in the Senate last night by Transport Minister Chevrier.

In an unusual introduction of Government legislation in the Upper Chamber, Mr. Chevrier took the Senate floor to outline a Bill which will provide a basis for the incorporation of five pipe-line companies expected to spend between $200,000,000 and $250,000,000 in shipping Alberta oil as far East as Winnipeg, West to Vancouver, and South to Seattle, Wash.

Pressing the Bill as urgent, Mr. *Chevrier said he was informed the* companies are ready to start work on the pipe-lines "immediately" their separate Acts of Incorporation are passed by Parliament.

The Bill would place the administrative control of the pipe-lines under the Board of Transport Commissioners, which now looks after railways, telephones, telegraphs and other matters.

The five companies involved, Mr. Chevrier said, plan to build two pipe-lines from Alberta to Vancouver and Seattle, one from Edmonton to Regina, and one from Calgary to Winnipeg. Location of the fifth was not stated.

Claims U. S. Not Considering Mediterranean Pact

LAKE SUCCESS, N. Y., March 29 (CP)—Charles E. Bohlen, Counsellor of the United States State Department, said today the United States has not considered formation of regional treaties in the Mediterranean and Pacific areas along the lines of the Atlantic Pact.

Bohlen was commenting on reassaying Foreign Secretary Ernest Bevin of Britain will ask for Washports from the liner Queen Mary ington's views on a Mediterranean Treaty. Bevin will be one of the signators of the Atlantic Pact next Monday.

Maritime Jails "Disgraceful"

HALIFAX, March 29 (CP)—Provincial jails in the Maritimes are "absolutely disgraceful," Lloyd R. Shaw executive officer of the Prisoners' Aid and Welfare Association, said today.

He was commenting on a statement made in Edmonton last night by U. A. Edmison, President of the Canadian Penal Association. Mr. Edmison said provincial jails are little more than "crime schools."

Toronto's reserve strength came in very handy in the last game against Boston in the Stanley Cup semi-finals. Sid Smith of the Pittsburgh Hornets was used to great advantage by the Leafs in place of injured Vic Lynn. Smith led the American League point-getters with 55 goals and 57 assists, this season, and last night scored his first Stanley Cup goals, two of them.

Fleming Mackell, another replacement acquired by the Leafs from Pittsburgh for the series, scored the *first goal of the game with Smith* assisting, and after Pierson had tied the score 1-1, Smith scored two goals to take up where Harry Watson left off, with two goals a game.

That 3-1 victory for the Leafs gave the Hap Day hustlers a stranglehold on the series, having taken three of the four games played.

Boston was at a disadvantage since the Hershey Bears, their farm club in the A.H.L. is still in their playoffs. Toronto's team, the Pittsburgh Hornets were booted out early, letting Toronto take up several players.

Detroit Red Wings came back after Montreal had grabbed a 1-0 lead and took the fourth game of their series 3-1 to knot the set at two games apiece. Howe led Detroit with a goal in both the last two periods, as did Smith for Toronto.

OPENER FOR FLYERS

Spokane Flyers took the first game of the best-of-five series against the Hibbings, Minnesota, club 2-1 last weekend. Snider and McBride did the Flyer scoring in the clean game in which only three penalties were handed out. All were on tripping charges, all to the Flyers.

In the scoreless second period, Ron Pickell kicked out 18 of his total 25 stops.

Last night the Spokes gave all they had and took the second game of the best-of-five series 8-1.

Lethbridge Native Sons Juveniles, who play Norm Hyssop, a Nelson puck chaser, grabbed the Alberta title for the second successive year, and now have a grand two-year record of 32 wins without a defeat. Their two wins over Edmonton gave them their title, and they now are scheduled to meet the B.C. champs, Trail, in the Western Canada juvenile semi-finals.

CAPS HERE TODAY

Art Sommers and his Regina Caps will arrive in town today for their two games against the Trail Smoke Eaters Thursday and Saturday here.

Those who attend the game will see a $90,000 team in action against the winner of the three Canadian W.I.H.L. teams, the Trail Smoke Eaters, whose expenses were probably about one-fifteenth to one-twentieth of those of Regina. As well as having about tops in senior players, Regina boasts one of the best coaches in the business, "Artful Artie" Sommers, as he is often called. The Regina mentor has his eyes fixed on the Allan Cup, and certainly has the team to do it.

They must have a great team. Edmonton Flyers had the same players as those who brought Sir Montague's trophy to the Alberta capital for the first time, except for Don Black who went to the Cleveland Barons, and dazzling goalie Al Rollins who jumped to Kansas City Pla-Mors. Edmonton claimed to have a better team in every position other than goal this year, but Regina toppled them in five games, only allowing the Curriemen to gain a tie in one game.

Hoop Crown To Bomberettes

Bomberettes are this season's Nelson ladies' basketball champions, by virtue of two overwhelming victories over Majorettes in their best of three finals.

The Bomberettes had taken the opener last week 22-2, and on Monday night took the second game 22-10. They were sparked by Dorothy Wallace, who marked up 14 points alone.

Teams were:

Bomberettes—D. Wallace, M. Stuart, V. Monteleone, M. McGinn, H. Siminoff, S. Kearns and B. Neild.

Majorettes—D. Boyes, F. Boyes, H. Welbourne, C. Fetterly, K. Stefanac, B. Robbins, M. Larson and I. Nelson.

Lion Midgets Win City Title

Lion Midgets skated to their second successive midget hockey crown as they blanked the Dodger Midgets 2-0 Monday night. The fast flying Lions took the final of best-of-three series three straight, 4-2, 4-3 and finally 2-0.

Both Lion goals came early in the third period after the Dodgers had put up two stiff periods of defensive play. Dodger goalie Don Kennedy was outstanding for the losers although all of his team mates fought a hard game.

In this final game the Lions front line showed some of the better passing plays that carried their team to the City League title. Coskey tallied the first goal as he finished off a neat three-way passing play from McIvor and Jarrett. The clinching goal came shortly after as McIvor picked up a loose puck to beat goalie Kennedy.

Only two penalties were meted out by Referee Frank Hufty, one to Burns and one to Burgess.

Immediately after the game Association Secretary Slim Porter presented the Wood-Vallance Cup to Captain Ken Coskey of the winning Lions.

Officials were Referees, Frank Hufty, Les Hufty and Spence Tatchell; Scorer, Don Ackert; and timekeeper, Ken White.

Sawchuck Rookie Of Year in A. H. L.

NEW YORK, March 29 (AP)—Terry Sawchuck of Winnipeg, 19-year-old goalie for Indianapolis Capitals, has been named "Rookie of the year" on the American Hockey, it was announced today.

Sawchuck polled 45 out of a possible 90 votes to win the Rookie or Dudley (Red) Garrett Memorial award and a $300 bonus from the league.

Toronto Recruit Leads Leafs To 3-1 Win; Wings, Canucks Square

By The Canadian Press

A youngster from the American Hockey League shoved Boston Bruins to the brink of elimination from Stanley Cup play Tuesday night.

Sid Smith, 23-year-old homebrew forward who led the A.H.L. in scoring this season, saw action for the first time in the series and figured in every goal as Toronto Maple Leafs beat Bruins 3-1, to lead their best-of-seven semi-final by the same score.

In the other bracket of the National Hockey League post-season playoffs, Detroit Red Wings squared their series with Montreal Canadiens at two games apiece by defeating them 3-1.

Smith, only Toronto-born member of the Stanley Cup champions, fed rookie Fleming Mackell a pass for Leafs' first tally and scored the other two himself. Johnny Peirson was the lone Boston marksman.

Bruins, minus defenceman Johnny Crawford at the start of the game, lost star centreman Milt Schmidt and winger Jimmy Peters, both heavily checked by Toronto defencemen. Peters suffered a bruised shoulder when Bill Juzda hit him in the first period and Schmidt tore a muscle on his right ride when checked by Garth Boesch in the second. It was not known immediately whether they would play in the fifth game at Boston tonight.

Gord Howe broke up the Detroit-Montreal tussle. With the teams tied 1-1, he scored late in the second period, then added an insurance tally in the third. Leo Gravelle opened the scoring for Canadiens in the first period and Detroit defenceman Red Kelly matched his tally.

It was the second two-goal performance for Howe in as many games.

Baseball Notes

By The Associated Press

Ralph Kiner, co-holder of the home-run championship of the National league with Johnny Mize of New York, was resting comfortably today after being beaned in an exhibition game.

Kiner had hit a home run for Pittsburgh Pirates earlier in the game against Chicago White Sox. Then he was hit on the head by a line drive. However, he revived quickly and said he will be able to get back to work Wednesday.

Eddie Mikals, utility infielder for Brooklyn Dodgers, is expected to be on the sidelines for a few days because of a face injury in an exhibition game. He was trying to make a tag but the ball got away from him and struck his face. He suffered a slight fracture of the orbital below his left eye.

Manager Joe Kuhel of Washington is "alarming," and warned the front office, demanding more players.

He made it plain that the situation is " alarming," an dwarned that his regulars are being overworked for lack of reserves.

St. Louis Browns have broken camp at Burbank, Calif., and headed East on an exhibition tour which will eventually take them home. Their record this Spring has not been impressive.

George Washington was one of the first to wear bifocal glasses.

Sellout Crowd for Title Hockey; Special Trains

Tickets are going like hotcakes for the coming series between Trail Smoke Eaters and Regina Capitals at Nelson Thursday and Saturday nights. *In fact, reserve seat tickets* sent to Trail are "sold out", Archie Birse, Civic Centre Secretary-Manager, said Tuesday night.

The Western Canada senior hockey semi-finals will open at Nelson. The two games will be refereed by Vic Lindquist and Lorne (Windy) Lyndon of Winnipeg.

Few reserve seats are expected to be left when open sale begins Thursday.

Special trains will come from Trail for both games and Trail officials say there will be a huge "rush" crowd Saturday night.

Meanwhile, from the Smoke Eater camp came word that Smokies will likely get along with their regular lineup for the series. Coach Ab Cronie said Tuesday that the squad had decided to string along with the players who competed in the Western International Hockey League this season.

A Canadian Amateur Hockey Association ruling allows four replacements for British Columbia teams.

Cronie said, however, that he wanted a sound 18 men for the best-of-five series. Red Sutherland has a pulled muscle and Louis Secco has blood poisoning in one foot. If their troubles have not cleared up by Wednesday, then two replacements might be selected.

The coach did not say where he would obtain the extras if he decided to bring in any.

Flyers Oust Hibbing

HIBBING, Minn., March 29 (AP) —Spokane Flyers trampled Hibbing here tonight 13-1 for a three-game sweep of the Amateur Hockey Association senior open quarter-finals.

Flyers meet New York Rovers on Hibbing ice Thursday and Saturday nights and, if necessary, Sunday night, in a best-of-three semi-final series.

The Flyers held a 1-0 lead at the end of the first period and then ran wild with seven goals in the second. Top scorer for Spokane was wingman Lorne Nadeau with two goals and three assists. Wingman Reg Bentley and centre John Rypien shoved across three goals each.

Hibbing's only score was made toward the end of the final period by wingman Vick Berke, with an assist from Bob Fero.

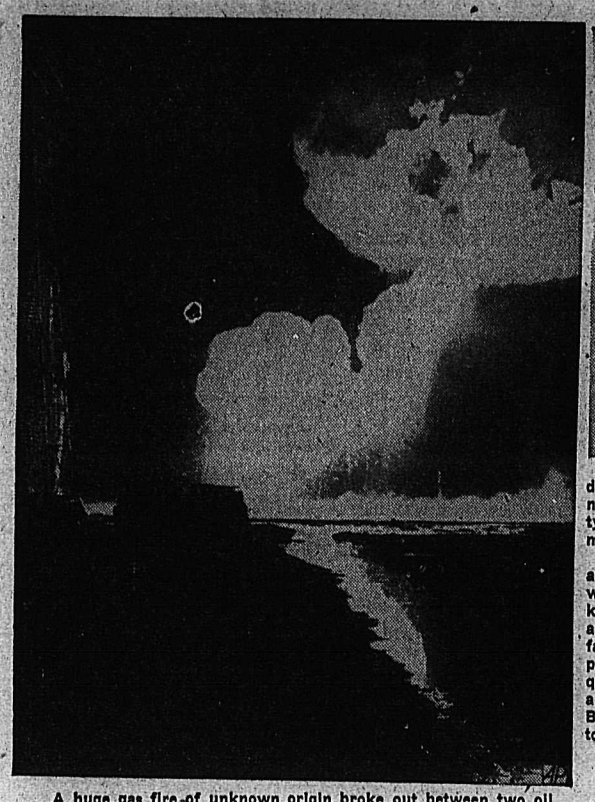
Oil Field Fire



A huge gas fire of unknown origin broke out between two oil wells in the South Houston oil field, threatening several residential areas in suburban Houston. Glare and flames could be seen as far as 15 miles. —AP Wirephoto.

Expelled From Hungary

In a hotel room in Vienna, Lt. Col. John P. Merrill (right), points to a photostatic copy of a receipt for a garage bill which the Hungarian Government says he refused to pay, and for which reason he was expelled from the country. With him is Lt. Col. Peter Kopcsak (left), former West Point football star, who also was expelled from Hungary. Both were assistant military attaches of the U. S. Legation at Budapest. Hungary also accused the two U. S. Army men of spying and "brutal abuse of diplomatic privileges." —AP Wirephoto via radio from Vienna.

Out at Plate

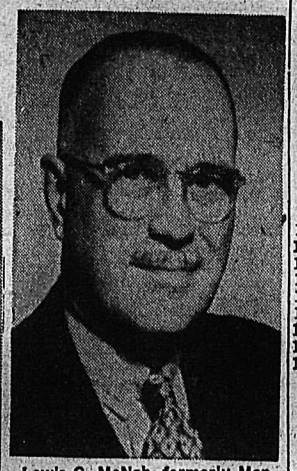
Gossip

Dorothy Foster plays on the radio the type of character she hopes not to be in real life. Her specialty is the gossipy, sharp-tongued, middle-aged woman.

This Vancouver actress began acting in radio when both of them were very young. She is best known perhaps for her daily role as Mrs. Perkins in the CBC's farm family, the Carsons, heard at 12:30 p.m. Other programs which frequently include her in the cast are Vancouver Theatre, School Broadcasts, and Leicester Square to Broadway.

To Vancouver



Lewis G. McNab, formerly Manager of the Cellophane Division of Canadian Industries Limited, has been appointed Management Representative of the Company on the West Coast. He will be located in Vancouver.

A native of Montreal and a graduate of McGill University, Mr. McNab served overseas in the First World War. He joined C-I-L in 1934 as Sales Promotion Manager of the Cellophane Division, was appointed Division Sales Manager in 1936, Acting Division Manager in 1940, and Division Manager six years later.

Anti-Gambling Bills Ready for Action

SACRAMENTO, Calif., March 29 (AP)—The first anti-gambling bills of the 1949 season to get out of committee were bosted along in California's legislature today—and bookmaking was hard hit.

A gambling abatement measure trict sponsored by the Senate Judiciary Committee, and moved on to the Senate floor for action.

The Bill would permit anyone—John Doe or the cop on the beat—to apply for an order against use of a place for gambling, including bookmaking. If the owner continued to allow illegal activities, he might face sale of his property.

CANBERRA, Australia (CP)—Twenty-five years ago 20 acres of cork trees were planted near here. The cork bark is now being tested for camparison with cork imported from Spain and Portugal. It will be seven years before the same trees can be stripped again.

Market Trends

TORONTO, March 29 (CP)—Industrials climbed slowly in quiet trading. Golds and base metals steadied from early weakness and Western oils showed a slightly weaker tone.
NEW YORK (AP)—A jaded stock market got a strong Spring tonic and prices advanced one to around three points in the fastest trading in months.
MONTREAL (CP)—Firming tendencies were noted in most sections of the industrial list during light dealings.
Base metals gave ground following news of a further one-cent cut in lead prices by a major United States producer.
MONTREAL (CP)—Trading continued dull on the bond market with a slightly easier undertone noted in long-term Provincial issues.
LONDON (Reuters)—The last day of the account ended on a firm note in most sections.
Among industrials there were small improvements after an initial period of hesitancy.

More Cars Licensed Than in '48

VICTORIA, B. C., March 29 (CP)—At the end of February 22,270 more passenger and commercial motor vehicles were licenced in the province than at the same time last year, it was learned at the Legislative Buildings.
The total this year was 197,590 and last year 175,320. Of this year's total, 143,675 were passenger cars, and 53,915 commercial vehicles. The corresponding figures for last year were 128,611 passenger and 46,709 commercial.
The number of licences issued during the month of February dropped this year though. The total for the month was 1112 compared with 1551 for February, 1948. It was the passenger car licencing which slipped.
Used car registrations this year are 1518 short of 7974 recorded in the same period last year. There was a drop too in registrations of used commercial vehicles—1225 this year and 1400 last year.
Other licences issued so far this year, with the corresponding figure for last year in brackets, follow: motorcycles, 4636 (4359); trailers, 10,117 (9487); transfers, 97,974 (89,106); chauffeurs' licences, 55,247 (47,176); drivers' licences, 276,052 (251,788); learners' licences, 8018 (6440); permits to minors, 12,210 (9503).

The Great Pyramid of Egypt contains 2,300,000 blocks of limestone, each weighing about 2¼ tons.

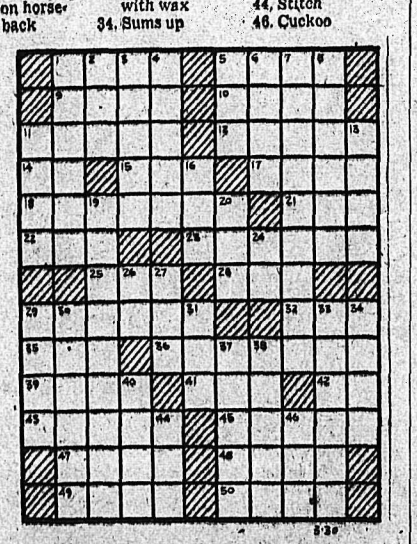
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:
A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

INFORMATION FOR EMPLOYERS

Concerning The Employment of Immigrants From Displaced Persons Camps of Europe

When a Displaced Person volunteers to accept employment in Canada and is passed by the selection committee of the Dominion Government, he or she is required to sign the following agreement:

DEPARTMENT OF LABOUR—GOVERNMENT OF CANADA
Memorandum of Undertaking with the Minister of Labour for Canada

I, _____ (Surname) _____ (Christian Names) _____ (Identity Cert. No.) _____ (Serial No.)

do hereby undertake that on my arrival in Canada I will accept employment in _____ or such other employment as may be selected for me by the Minister of Labour for Canada or his authorized representative, at the wage rate and under the working and living conditions prevailing in the locality of employment for comparable classifications of employment, and that I will conform to the prevailing rules and working regulations of the industry in which I am employed.

I understand that I may be required to reimburse my employer for costs paid by him for my transportation to place of employment, under terms and conditions as to repayment approved by the Minister of Labour for Canada.

I agree that I will remain in the employment mentioned above, or such other employment as may be selected for me from time to time by the Minister of Labour for Canada or his authorized representative, for a period of one year.

I acknowledge receipt of a copy of this undertaking.

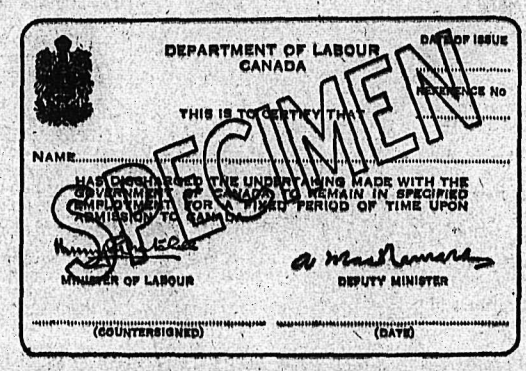
Dated at _____, on this _____ day of _____

_____ (Signature of Emigrant)

The above memorandum of undertaking was interpreted to the above-named in his own language. I hereby witness his signature.

_____ (Signature of Witness) _____ (Title of Witness)

On completion of their undertaking with the Dominion Department of Labour, they receive the following certificate:



Every effort is made to safeguard the interests of both employer and employee, to ensure that all Displaced Persons secure a sound foundation for future citizenship.

Canada expects all immigrants under the Displaced Persons Movement to complete their undertakings.

All prospective employers should know this so that they may understand that the newly-arrived DP should not be encouraged to leave a position to which he or she has been assigned, without the consent of the nearest Employment Office manager.

Friends and relatives of the same nationality should impress on these men and women from Europe that any agreement made by them should be carried out. Any other advice will be doing the DP immigrant a disfavour.

Two Americans Found Guilty of Spying by Czechs

PRAGUE, March 29 (Reuters)—The Senate of the Prague State Court has found two American soldiers guilty of espionage against Czechoslovakia, it was officially announced today, and has sentenced them to 12 and 10 years imprisonment respectively.

The trial took place in secret. United States authorities were not informed of the proceedings.

The statement named the men as "Corporal Alexander Hunter (Alias Jones) and Private Clarence Hill, both of the occupation forces in Germany."

Hill received 12 years and Jones 10 years, both with hard labor. The announcement said the two men, who were sentenced Saturday, crossed the Czechoslovak frontier illegally last December "with the intention of spying in Czechoslovakia".

In "the course of these actiities" they were caught by Czechoslovak security forces, it added.

News of the sentences surprised the information section of the American Embassy.

The Embassy had been trying to make contact with the two men since December, the information section said.

American sources stated the men were missed from their unit in Germany early in December and were regarded as deserters.

The Americans denied categorically any foundation in charges that the men were sent on a special mission.

Claims Ontario, Quebec Importing Too Much U. S. Coal

OTTAWA, March 29 (CP)—Ontario and Quebec are importing "too much" coal from the United States and not enough from Nova Scotia, Gordon Isnor (L—Halifax) said today at the first meeting this session of the Commons Public Accounts Committee.

The Nova Scotian's comment came as members discussed what course the committee's work should take this year.

Dennis Pleads Innocent to Robbery Charges

WHITE PLAINS, N. Y., March 29 (AP)—Gerard Graham Dennis, 29, today pleaded innocent to 12 indictments charging a series of robberies in Westchester County.

Dennis, a native of St. Catharines, Ont., also is accused of a series of transcontinental robberies that allegedly netted him $600,000 in furs and jewelry.

Plans for "One World" Seem to Move Closer With Western Pact

By DEWITT MACKENZIE
Associated Press News Analyst

Hopes of generations of great idealists for creation of a United States of Europe are moving closer to fruition—closer to peace.

Diplomatic representatives of 10 countries are meeting in London to complete details for the establishment of a Parliament of Europe. These are Britain, France, Belgium, the Netherlands, Norway, Sweden, Denmark, Italy, Luxembourg and Eire. It is hoped to see this Parliament in session by the coming Summer, probably in Strasbourg, France.

When this Congress opens it will represent a brave beginning of the United States of Europe for which famous statesmen have labored so earnestly and so long. Prominent among these are France's famous Aristide Briand—Premier, winner of the Nobel Peace Prize and player of an important part in bringing about the Kellog Pact to outlaw war.

As one of the old-timers I have the privilege of knowing the humanitarian Briand. I'm sure his spirit, with his old-time genial smile, will be standing beside the presiding official when the gavel falls to signal the opening of the first session of that Parliament.

There was a lot of talk about a United States of Europe in the last century as a means of fostering peace.

IN UNITED NATIONS

As projected, the United States of Europe would fit into the framework of the United Nations.

As far as one can see this is likely to represent a step in the direction of the "one world," which isn't likely to be achieved until human nature has undergone a mighty change.

Certainly it's difficult to imagine "one world" in which the member states would surrender their sovereignty to a parent Parliament. There is too much pride in nationalism to permit of such emasculation. However, this need not preclude wholesale co-operation for general welfare among the various groups of "united states."

To Consider Plea For West Coast Shipbuilding Plan

WASHINGTON, March 29 (AP)—President Truman promised a delegation of West coast Congressmen today to make an immediate inquiry into their plea for a shipbuilding program.

The delegation asked Mr. Truman to direct the Maritime Commission to allocate a part of its future construction contracts to West coast yards.

DIES AT VICTORIA

VICTORIA, March 29 (CP)—Mrs. Anita Hunter, wife of Ald. Dr. J. D. Hunter, died today at Royal Jubilee Hospital here.

She is survived by her widower and a brother, Dr. William Hunt, of Sarnia, Ont.

Say Canadian Driving Suspected Smuggling Vehicle

SAN JOSE, Costa Rica, March 29 (AP)—Costa Rican sources said today a Canadian student drove a vehicle seized last Wednesday by Costa Rican police who suspected it was running arms and ammunition to Nicaragua.

The source said the student, who was not named, was one of three students from the University of British Columbia who now are touring Central America. The student was released and no charges were laid, the source said.

The three U.B.C. students, in need of money to continue their trip, had put the converted carrier in which they were riding up for sale last week. A group of Nicaraguans rented it for $100. This was the group the Costa Rican Police arrested for smuggling.

The Canadian students were Steve Kings, 22, Grange Harbor, B. C.; Robert Purkis, 24, Salmon Arm, B. C.; and Peter Pastuk, 22, Prince Rupert, B. C. The source said the three insisted that one of their party accompany the Nicaraguans while the carrier was being rented. Which of the three went with the group, and was with them when the Nicaraguans were arrested, could not be learned.

The source said the rental deal had been arranged by Hector Pocaterra, son of the Venezuelan Ambassador to the United States. The younger Pocaterra had known the Canadian students in Canada. He also accompanied the group and was detained.

The source said Pocaterra claimed diplomatic immunity and was turned over to Venezuelan authorities. The Canadian was released without charge and the Nicaraguans put in prison.

Costa Rican police said last week they had seized machine-guns, rifles ammunition and medical supplies from the carrier.

HOUSING BIGGEST COMPLAINT

OTTAWA, March 29 (CP)—Biggest bone the Housewives and Consumers Federation of Canada has to pick with the Government is—the housing problem.

Mrs. Rae Luckock of Toronto, President of the Federation, said her organization was "astounded" to find, in studying press reports of the 1949 budget, "that the estimates for this year's expenditures include nothing for subsidized housing."

As for the removal of the subsidy on wheat, "this will immediately lead to an increase in the price of bread to the consumer. The already too low standard of living of the majority of wage earners will be lowered still further."

Skipping Ropes and Marbles: Sure Signs of Spring

First few sunny days and people feel there's Spring in the air, but more tangible is the skipping rope and marble epidemic. For their favorite post-Winter game, this group of Nelson school girls have brought double ropes into play. Left to right are Marion Stevenson, Margaret Russell, Irene Simihoff, Frances Bodler, Tillie Chernoff, Fern Nordquist, Olga Poznikoff, Rose Schesnuk, Kathleen Moojelsky, Pauline Chernenko and Mary Salikin.

Knuckles down and ready to fire, these boys were busily engaged in shooting for the marbles in the ring before interrupted by the camera. The pellet-pushers are Johnny Cheninco, Jimmy Standish, Tim Baroseshy, Fred Soloveoff, Joe Popoff and Ray Sanders.—Daily News Photos.

Britain Challenging Charge She Violated Holy Land Truce

LONDON, March 29 (AP)—Britain is challenging the contention of Dr. Ralph J. Bunche, Acting United Nations Mediator, that she has violated the Holy-Land truce.

Christopher P.Mayhew, Undersecretary for Foreign Affairs, said last night the Government will tell the U. N. that the sending of British forces to garrison the Trans-Jordan part of Aqaba was a purely defensive action and not in conflict with the truce.

The Admiralty, meanwhile, disclosed Britain has sent another warship to Aqaba. The 1730-ton destroyer Troubridge anchored in the harbor Saturday, it said.

Bunche, in a report from Rhodes to the U. N. Security Council March 23, said both Israel and Trans-Jordan have violated their truce agreement by the movement of troops. He told reporters he considered that the landing of British troops in Aqaba also was a violation.

Britain sent troops there in January, under a mutual defence alliance with Trans-Jordan, and reinforced them this month.

In a written reply to a question in the House of Commons, Mayhew said the criticism presumably stems from the Security Council's resolution "which calls upon all Governments and authorities concerned to undertake that they will not introduce fighting personnel into Palestine and Arab states during a cease-fire."

Britain, Mayhew said, "has not in any way engaged in the conflict," and therefore "it cannot reasonably be supposed that this resolution meant the United Kingdom . . . was debarred from reinforcing or altering the composition of its forces in the Middle East."

The Foreign Office will submit this view to Trygve Lie, U. N. Secretary-General, in answer to Bunche.

First Miss Vancouver To Celebrate 67th Birthday

VANCOUVER, March 29 (CP)—The original Miss. Vancouver will celebrate her 67th birthday here April 27.

Margaret Florence McNeil of Portland, Ore., the first white baby to be born here after the hamlet of Granville was incorporated in 1886, has written for reservation for her birthday celebration.

She will be feted by the park board during her visit.

Further Cut in British Meat Ration

LONDON, March 29 (AP)—A further cut in the meat ration was foreseen in Government circles today if Britain suspends its purchases in Argentina rather than meet a demand for higher prices.

Reports from Argentina, bannerlined in morning papers, said suspension of meat shipments was being discussed. Argentine Government officials said the shipments would continue during the Anglo-Argentine negotiations for a new agreement.

The meat ration was cut only yesterday from 10d (17 cents) worth of fresh meat to 8d worth a person weekly. The allowance of 2d worth of canned corned beef remained the same.

BUENOS AIRES, March 29 (AP)—Argentina has assured Britain meat shipments to the United Kingdom will continue even though a new price agreement has not been reached.

Reports published in London that the Argentine Government is considering suspending deliveries were denied by high Argentine officials.

These officials stressed, however, that after the expiration of the current Andes Agreement March 31, the shipments will be based on new prices now being negotiated.

Dismiss Belgium Application For Extradition

TORONTO, March 29 (CP) — Judge Ambrose Shea today dismissed an application from the Belgian Government for the extradition of 28-year-old Arthur Matthys to face a charge of murder in Belgium.

Matthys testified yesterday that the man who signed a warrant for his arrest was a Nazi collaborator. He was wanted in Belgium to stand trial for the murder of Armand Devos, alleged Nazi collaborator who was shot to death during the German occupation.

The young man, who came to Canada in 1947, told the court of his activities as a member of the Resistance Underground Band and identified documents in his name showing him to be a member of "good standing" in the Belgian Partisan Movement.

Judge Shea said he was dismissing the application for extradition because "the case was one of a political character and therefore not expeditable.".

Netherlands Ready For Indonesian Meet

THE HAGUE, March 29 (AP)—The Netherlands Government announced today its readiness to meet with Indonesian Republicans in an effort to lay the groundwork for peace in Indonesia.

The Government made the conditions that discussions must be in Indonesia, without prejudice to the rights or positions of either side.

Its terse announcement emphasized this meant Dutch "responsibility for freedom and order in Indonesia" would be prejudiced by agreeing to the meeting. It said nothing specifically of the rights or position of the Indonesian Republicans.

Tea was introduced into Europe from the Orient by the Dutch in 1645.

DIVORCE RATE DOWN, FIRST SINCE 1940

OTTAWA, March 29 (CP)—The first break in Canada's soaring divorce rate in eight years occurred during 1948, the Dominion Bureau of Statistics reported today.

The decline was the first interruption in a steady upward climb that started during the anxious wartime days of 1940.

Preliminary figures showed 6881 divorces during 1948, a decrease of 16 per cent from the 1947 total of 8199. However, the 1948 total was 240 per cent higher than eight years ago.

On the basis of the number of divorces per 100,000 population, the rate was 53.5 last year compared with 65.3 in 1947 and the comparatively small figure of 20.8 in 1940.

Every province except tiny Prince Edward Island shared the decreased divorce rate. The island province had a big increase from 18 in 1947 to 49 last year.

Ontario had the most divorces—3107 or 45 per cent of the all-Canada total, as compared with 3509 in 1947.

But British Columbia, while following Ontario in the number of divorces, exceeded all the rest of Canada by a wide margin in the rate on popualtion basis. B.C. reported 1683 divorces as compared with 1826 in 1947—the figures representing 155.5 per 100,000 people as against 174.9 the year before.

Quebec, the only province without its own divorce court, recorded the lowest rate of broken marriages on the basis of population. Divorces, which can be obtained in Quebec only by decree of Parliament, averaged 7.7 per 100,000 people, a decrease from 9.4 in 1947.

In the number of divorces Quebec ranked sixth, with 292 divorces as against 348 in 1947.

Divorce totals for the other provinces with 1947 figures in brackets:

Alberta 651 (881); Manitoba 477 (665); Saskatchewan 333 (509); New Brunswick 211 (236); Nova Scotia 76 (207).

STUKUS SIGNS UP HALFBACK

EDMONTON, March 29 (CP)—Annis Stukus, coach of Edmonton's entry in the Western Canada Fotball Conference, today unveiled one of the United States imports which will form the back bone of the club.

Stukus announced he has signed Early Elsey, 29-year-old former pro halfback with Los Angeles Bulldogs and Los Angeles Dons. Elsey is the first man to be signed by the Edmonton club.

NEW VESSEL FOR INDIA

VANCOUVER, March 29 (CP)—The steamship Harmac Crofton will shortly be handed over to its new owner—the Dominion of India.

M. H. Rabadi, shipping representative for the Indian Goverment has arrived here to officially receive the Canadian-built vessel which was one of two sold to India by the H. R. MacMillan-controlled Canadian Transport Company.

The other vessel involved in the deal is the Harmac Chemainus and it will be transferred on the East coast.

Car Sales Levelling off

By FORBES RHUDE
Canadian Press Business Editor

Automobiles are becoming somesomewhat easier to get. Nevertheless the Canadian Industry still can look forward to a good year, selling about all it can make.

Sales of new automobiles were down in January as compared with recent years, and the same may have been true of February, but this was caused mainly by two major manufacturers halting production in order to change models.

An informed source within the industry gives the following picture:

Cars in the medium-high price brackets are more readily available than they were a year ago, and, in some sections of the country, buyers can obtain deliveries of this type in from two to five weeks.

Demand for the lower-priced cars continues heavy, but in some territories dealers report their lists of orders are growing shorter. It would not be surprising if the buyers' market for lower-priced cars were to return by the late Summer or nearly Fall.

The market for light trucks continues brisk, but in some areas there has been a tapering-off of demand for heavy trucks.

Observers of the motor car market believe the transition from the seller's amrket to the buyers' market will be gentle. It will not strike all parts of the country at the same time.

There is no great reason for pessimism in the automobile business.

Although buyer-demand undoutedly is levelling off, this was to be expected. It means that if the high volume of sales is to be maintained, the manufacturere and dealers will have to put more effort into selling.

Reptiles Must Have Live Food Says Zoo-Keeper

VANCOUVER, March 29 (CP)—Is it more humane to feed a snake live mice, or to refuse him his food and let him starve?

That's the question that came between Stanley Park Zoo-Keeper Frank Beebe and members of the Society for the Prevention of Cruelty to Animals last night.

Members of the S. P. C. A. said the practice of feeding live mice to the park's 13 snakes was cruel.

Beebe's reply:

"Reptiles will eat only other reptiles. They must have live food otherwise they do not recognize it as food at all."

Claims Australian's Statement Not Seditious

SYDNEY, Australia, March 29 (Reuters)—Counsel for Lawrence Sharkey, Communist leader being tried on Sedition charges, said today that statements made by Sharkey were not seditious because they were repetition of what was "common knowledge."

F. W. Paterson, Counsel for the Secretary-General of the Australian Communist party, asked the court to dismiss the charges. The charges arose from Sharkey's alleged statement that "if Soviet forces in pursuit of aggressors entered Australia, Australian workers would welcome them."

Paterson said the existence of a cold war was a "notorious fact" and that statements about it were not seditious.

The hearing was adjourned until tomorrow.

To Call Tenders for Section of B. C. Medical Building

VANCOUVER, March 29 (CP)—University of British Columbia's Board of Governors today reported the Provincial Government will be asked to call for tenders immediately for the $850,000 centre section of the University Bacteriology and Preventive Medicine Building.

The section will house lecture rooms for the first two years of the University's Medical School, scheduled to open in the 1950-51 term.

SASK. UPSET OVER "DOMINION" DRAMA FESTIVAL

By ERWIN FRICKE
Canadian Press Staff Writer

REGINA, March 29 (CP)—There is indignation in Saskatchewan drama circles today—and it apparently isn't an act either—at what they call Eastern monopolization of the Dominion Drama Festival.

The star of the prize-winning play in the Regional Drama Festival here says his group is "damn good and mad" at Saskatchewan not being invited to enter a play in the Dominion Drama Festival in Toronto, April 25-30.

Bill Walker, Regina actor, who won the male best-acting award in the Dominion Festival two years ago, said: "We're not just going to sit back and say, 'That's too bad'—we're going to do something about it."

If the Executive Committee which made the 12 selections—only two from Western Canada—"will give us just a half-hour to set up our stage, we'll go on without rehearsal."

Mr. Walker, who played the leading role in the Regina Little Theatre's presentation of "Private Lives"—which was compared by adjudicator Robert Speight to a delicately "mixed cocktail" extremely well flavored—said "it was farcical to term the Festival this year a Dominion Drama Festival."

"It is only an Eastern Festival with a couple of poor country cousins from the West invited," he said.

Six of the 12 plays are from Ontario, three from Quebec, and one from New Brunswick. The plays from Western Canada are from Calgary and New Westminster, B. C.

Mr. Walker—whose own acting this year was termed by adjudicator Speaight as a "most outstanding and highly-accomplished performance"—said this was the first year since the Dominion contest was inaugurated in 1935, that some regions were left high and dry without an entry. Manitoba also is unrepresented from the West.
