Ska[illegible]hool Big Revenue Producer

Many Benefits to Nelson From Mary Rose Thacker's Course; Contract Under Consideration

Mary Rose Thacker's Summer Figure Skating School, second of its kind in the world, is one of Nelson Civic Centre's major revenue producers.

This year's operating statement will be enhanced $1600 to $2000 as a result of the School being here, an official has reported.

Nor is the arena rental the only benefit to Nelson of the new business for the Civic Centre. A steady flow of Canadian and United States figure skaters has been brought into the city.

Then there is the publicity the School is giving Nelson and its pride, the Civic Centre, it is pointed out.

As August 28, the School's closing date draws near, possibilities of a long-term contract of perhaps five years between Mary Rose Thacker and the Civic Centre Commission are under consideration.

The champion figure skater has raised objections to bringing her school to Nelson again if sessions are to be interrupted a week by the Midsummer Bonspiel. However, arrangements may be worked out to the satisfaction of both events.

Skaters from as far East aas Quebec and South to California are receiving the expert instruction of Mary Rose Thacker, internationally-famous Winnipeg figure skater turned professional.

Her school, in fact, with the exception of one operated by her instructor, Otto Gold, in Kitchener, Ont., is run on unique lines.

Mary Rose Thacker gives each of her pupils personal attention and instructs them in all phases of the sport according to the degree of their skill.

In return, she expects the youthful bladesters to take their work seriously, and demands of them the utmost in practise and cooperation, if they are to make figure skating their career.

In this way, she is endeavoring to keep the standard of Canadian figure skating on a high level. Naturally, this means more work for the instructress, but she says it would be pointless to teach figure skating on any other basis.

No other schools in the United States or Europe are conducted in the same manner. The European schools are not operated by one person, and may include public skating.

The type of training Mary Rose Thacker gives is intensive, as the pupils must devote their entire time to practising. Concentration, above all, is taught.

She estimates that four weeks is the minimum length of time a figure skater can attend the School and receive its benefits. Of the School's entrants, 15 to 20 are staying its duration.

REGULARS

A good number of regular pupils of Mary Rose Thacker who have been under her tutorship for years. Only eight or 10 are local figure skaters.

Youngest is eight years old, but actually Mary Rose Thacker's daughter, four and a half, claims the title. From there the pupils range in age to adults, most of whom are interested in dancing.

INTEREST GREAT

Interest in the School is one thing that has amazed Mary Rose Thacker.

"People stream in and out of the arena all day long," she remarked. "I think they know the schedule better than we do!"

"It is the only place I've known where the public has taken such always think figures and so on are an interest in figure skating. We boring to onlookers."

Mary Rose Thacker has had a stellar career in the figure skating world. In 1939, 1941 and 1942 she was the women's senior amateur champion of Canada, and in 1939 and 1941 the North American champion.

In 1941 she was winner of the Rose Bowl as the outstanding woman athlete in Canada.

She is a Canadian and United States gold medallist.

As pro of the Vancouver Figure Skating Club, one of her most brilliant pupils is Miss Jeanne Matthews. She is giving up this position next Winter to become an independent instructor in Vancouver.

Mary Rose Thacker, outstanding Canadian figure skater, whose Summer Figure Skating School is being conducted for the first time in Nelson. The popular instructress has held similar refresher courses in Bremerton, Wash., and Vancouver.

RADIO DEMAND CLIMBS

OTTAWA, Aug. 10 (CP)—A sharp demand for radios sent sales zooming in April to register a 52-per-cent climb over the same month a year ago, the Bureau of Statistics reported today.

This sales impetus in April sent the total for the first four months of the year 30 per cent higher than sales in the first four months of last year.

Sales in April amounted to 50,432 units with a value of $3,777,363, compared with 31,157 units valued at $3,021,599 in the same month last year. In the first four months this year, 190,777 units were sold for $14,464,776 against 146,587 for $13,950,802 in the similar period a year ago.

FEWER JOBLESS CLAIMS

OTTAWA, Aug. 10 (CP)—Claims for unemployment insurance benefits declined in June.

The Bureau of Statistics today said they were down to 53,100 from the 63,700 claims filed in May, but up from the 39,600 filed in June last year.

22ND SEAT FOR NEW'LAND LIBERALS

ST. JOHN'S, Nfld., Aug. 10 (CP)—The Liberals have won their 22nd seat in the 28-member Newfoundland Legislature.

Final count in the Labrador by-election showed tonight that Liberal Harold Norwood had polled 1268 votes compared to 133 for Progressive Conservative candidate Samuel Grant—a majority of almost 10 to 1 in the two-party fight.

BUTTER OUTPUT OFF

OTTAWA, Aug. 10 (CP) — Although production of creamery butter in Canada dropped slightly in the first seven months of this year, stocks on hand at Aug. 1 were higher than they were a year ago, the Bureau of Statistics reported today.

Production in the seven-month period amounted to 161,792,000 pounds compared with 163,881,000 in the corresponding period of 1948. Stocks at Aug. 1 amounted to 56,668,000 pounds compared with 41,986,000 on July 1, and 45,065,000 at Aug. 7, 1948.

[illegible]BANDON KIDNAP VICTIM [illegible]WOOD, STEAL CAR

[illegible]RKS, B.C., Aug. 10 (CP)—Provincial Police in Interior British [illegible]bia are searching for two gunmen who last night kidnapped [illegible]nt Dudley of Penticton, B.C., and escaped in his automobile after leaving him at an isolated spot in the Greenwood area.

The men are said by police to be the same two who stole a sheriff's car, containing a revolver and a sub-machine gun, from Spokane, Wash.

Const. D. G. Rogers of Greenwood reported the men held up Dudley, a commercial traveller, when he stopped to assist them after their automobile plunged over a bank near Westbridge, B.C. They forced him to drive them down a side-road, then drove off with his car.

Dudley hiked for four hours before reaching a telephone. He described one of the men as about 35 years old, and the other somewhat younger.

Report Order Permits Reclamation Of Only 3000 Acres Duck Lake Area

CRESTON, B.C., Aug. 10 — The International Joint Commission at a meeting held in Ottawa August 4-5 issued an order covering a portion of what is known as Duck Lake area of Kootenay Flats, it is reported here.

Well-informed sources here stated the order permits the reclamation of about 3000 acres on the South end of the area. The Northern boundary of the area to be reclaimed will be what is known as the Lone Tree Ridge. The order will cover a considerable tract of Indian land and will include practically all of the area granted in 1928 to the Creston Board of Trade through the medium of the Creston Reclamation Co., Limited.

The area is of great value due to the fact that it has already been taken up by members of the Wynndel Cooperative Fruit Growers Association. The land will be intensively cultivated in 20 acre lots and will provide a much needed means of increasing small fruit production in the Wynndel area.

The remaining 5000 acres not covered by the order comprise all of what is known as Duck Lake.

CANADA PUTS FIRST JETLINER INTO AIR

Is World's Second Jet Transport, Will Carry 50

HANDLES WELL

TORONTO, Aug. 10 (CP)—The Avro Jetliner, North America's first jet-propelled commercial transport aircraft, took to the air today in its maiden flight at suburban Malton Airport.

Pilots reported the jetliner handled smoothly and without effort.

The jetliner, or Avro C-102 as she is technically designed, is North America's first aircraft designed from scratch as a turbo-jet transport. It ranks second only to the de Havilland 106 Comet which first flew in Britain two weeks ago.

The jetliner is designed to carry 50 passengers at 430 miles an hour at an altitude of 30,000 feet.

HATFIELD, Hertfordshire, England, Aug. 10 (Reuters) — A test pilot today took Britain's "top secret" airliner, the four-engined all-jet de Havilland Comet, up to a height of 36,500 feet, it was announced tonight.

The Comet already has exceeded 400 miles an hour at reduced engine power in 14 trial flights since her maiden flight July 27.

China Gov't Flees Nanking

By SPENCER MOOSE

CANTON, Aug. 10 (AP)— The Government today is hastily packing the official archives for the long, sad journey back to Chungking, the wartime capital.

Little more than three years ago, Chiang Kai-shek and his government triumphantly moved out of that far Western city and returned to Nanking. Japan was beaten.

Now another of Chiang's old enemies, the Chinese Communist, threatens. Red Armies are little more than 200 miles to the north.

Unless plans are changed, Chungking again will become the Nationalist capital. But the seat of Nationalist power—as everyone knows—will remain with Chiang at Formosa.

British, American, French and Dutch officsIia nalptkoe
Dutch officials, plan to keep consulates here.

Defence Action Pointed Up by Ottawa Gathering

OTTAWA, Aug. 10 (CP) — Two members of the top Advisory Board on Continental Defence will attend a Cabinet level military discussion here tomorrow, it was learned today, adding to conpecture about the one-day visit of Defence Secretary Johnson of the United States.

Gen. A. G. L. McNaughton, Canadian Chairman of the joint Defence Board and a former defence minister, is due in town tonight or early tomorrow. Maj.-Gen. Robert Walsh, U.S.A.F., one of the Board's American members, is due to fly in with Mr. Johnson.

Their presence underlined speculation because no members of the Board—it is charged with advising on integration of defence plans for the continent—attended the meetings held here last year by the late Defence Secretary Forrestal. It indicates that the discussions will deal with more than arms procurement and provision.

HODGES MAY [illegible]E SPEAKER

VANCOUVER, Aug. 10 (CP) — The Vancouver Daily Province said today in a newspage story that current political talk lists Mrs. Nancy Hodges, M.L.A.-elect for Victoria, as possibly the new speaker of the B. C. Legislature.

The last speaker, former Premier John Hart, retired at the end of the session last Spring. The appointment of Mrs. Hodges would make her the first woman to hold that office in the Commonwealth. She was first elected in 1940.

15 Die in Flaming Bus

BLOOMINGTON, Ind., Aug. 10 (AP)—Fifteen charred bodies were recovered from the wreckage of a Greyhound bus which burned today after hitting a bridge abutment near here. None has yet been identified.

Twelve other persons were injured in the crash and are in hospital.

Driver Wayne Cramer of Indianapolis, one of the survivors, said a front tire may have blown out, causing him to lose control of the bus.

After striking the abutment it skidded 150 feet down a winding highway and came to rest on its left side, blocking the emergency door.

Wells Richardson, 18, of Evansville, Ind., one of the survivors, said he didn't know exactly how he got off the bus but that he "walked through five feet of flames."

BIG POWERS TO TALK ATOMIC COOPERATION

Military Topics Added to Dollar Crisis Confab

3 MEETINGS

WASHINGTON, Aug. 10 (CP) — Military and atomic cooperation have been added to the list of subjects scheduled for three-power discussion here in September, informants said today.

Originally, the Anglo-Canadian-American talks were to have centred on Britain's dollar crisis. But recent developments in the two other fields necessitated similar three-way conversations as soon as possible.

Canada's role as a buyer and supplier in the United States' arms-for-Europe program presumably will be a main topic in the military discussions.

The over-all question of cooperation among Britain, Canada and the United States in atomic matters has been due for study for some time. President Truman said July 28 that a series of "explanatory" talks is being arranged to attack the problem of what atomic information the United States should share with Britain and Canada.

PEARSON, HOWE TO ATTEND

This means three meetings, instead of one, will be under way, probably at the same time although held separately.

The financial talks have been scheduled for some weeks. Finance Minister Douglas Abbott will be the Dominion's representative.

Informants said it now is likely that Canada's External Affairs Minister, L. B. Pearson, will come to Washington, too. Trade Minister C. D. Howe, the Canadian Government Minister in charge of atomic matters, may accompany him, they said.

As it stands now, the proposed arms legislation would make United States military equipment available to Canada at cost. The Dominion would receive no grants or credits.

It also provides, however, for countries such as Canada to manufacture arms and equipment for the United States to ship to Europe. With such a new source of United States dollars, Canada would be able to offset some of the cost of materials she herself would buy in the United States.

The atomic question involves not only exchange of information but also the supply of raw materials for the United States' stockpile of atomic bombs.

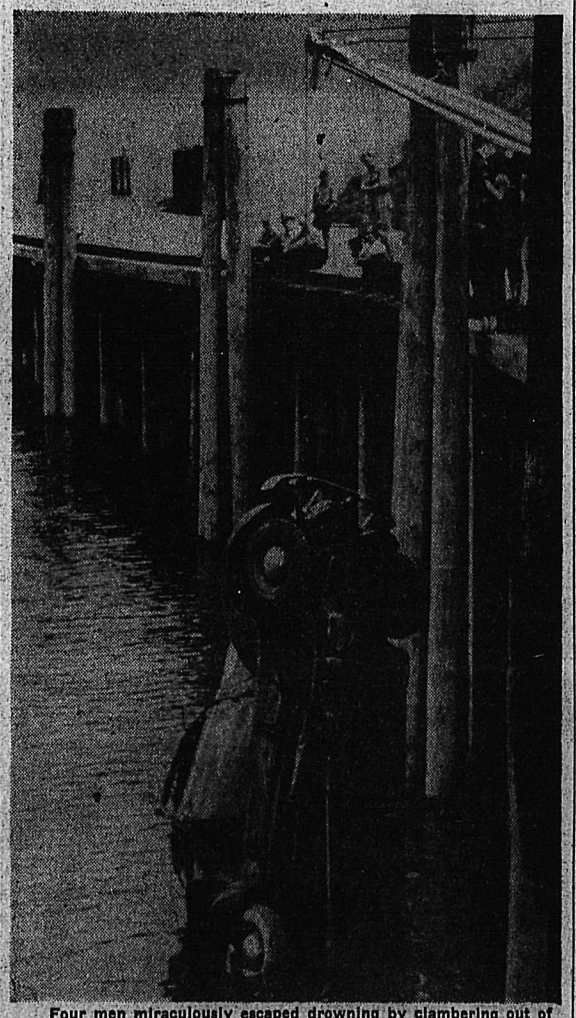
Ice Glazes Streets Of Buenos Aires

BUENOS AIRES, Aug. 10 (AP)—Weather note—Buenos Aires had its coldest day of the year today with a temperature of 26.24 degrees.

Ice, uncommon in the winter season here, glazed the streets.

It snowed for the first time in 15 years at Mar Del Plata, fashionable resort 200 miles south of Buenos Aires.

Four Miss Death in Kaslo Mishap



Four men miraculously escaped drowning by clambering out of this submerged coupe after it had dropped from a Kaslo wharf. Owner Hedley Dunn of Trail, George Stibbs of Salmon Arm, driver, Gordon Sharp of Trail and L. McPherson of Kaslo slipped out the right-hand door after the car had come to rest in five feet of water. Here it is being towed ashore, damaged to the extent of $500.

Current Snaps Human Rescue Chain, 4 Lost

Two Others Missing as Beach Party Turns Into Tragedy; 10 Swept Out to Sea in Attempt To Save Pair

INVERNESS, N.S., Aug. 10 (P)—A gallant, 25-man human chain trying to rescue two youths was snapped by a treacherous undertow off this Cape Breton mining town tonight and four persons were carried to a chill death by drowning. Two others are missing and four are in hospital.

Drowned were: Malcolm Gillis, 17, Gerald MacNeil, 14, Simon White, 62, and his son, Melvin, 27, all of Inverness. Names of the two missing were not known immediately.

Four persons, including an R.C.M.P. constable, were recovering in hospital after the courageous effort by miners and fishermen was thwarted by the sucking undertow and pounding breakers.

Gillis and MacNeil were on a weiner roast with a dozen other teen-agers on the beach at this Western Cape Breton Island town and went in swimming.

They got into difficulty close to shore and the two Whites went to their aid. They were themselves caught in the dragging undertow.

One of the youths on the party rushed to the coal mine and soon after the dread disaster signal whined over the village. It normally is sounded only for accidents in the colliery.

The harsh scream of the signal brought townsfolk flocking to the shore. About 25 of them formed a human chain through the heavy breakers to attempt to rescue the struggling swimmers.

The chain grew taut as the sea swirled about the legs of the human links. Then the undertow grabbed the end of the chain, parted it and dragged some 10 persons out to sea. The chain's end was only a few yards from the Whites.

GIRL RESCUED

A girl in the chain, Phyllis Skinner, was one of those dragged seaward. She was finally rescued by Angus MacQuarrie, a powerful swimmer who pulled her to safety through the crashing breakers.

Five others carried away got back to shore, exhausted. Four others made it with help and were taken to hospital. One of these was R.C.M.P. Constable Len Fraser.

Search parties combed the shore tonight for the two missing persons.

BLACK DEATH PLAGUE HITS 2 IN N. MEXICO

Pair Under Modern Care Show "Dramatic" Recovery

21 IN 25 YEARS

SANTA FE, N.M., Aug. 10 (AP)—Illness of two New Mexico residents today was found to be Bubonic Plague—the Black Death of the Middle Ages.

Only 21 other cases of the disease have been listed in the United States during the last 25 years.

Dr. Vernon Link of the Western contagious disease control centre in San Francisco, told a Press conference that modern drugs apparently have achieved a smashing victory over the ancient, flea-borne disease. Treatment, he said, has brought dramatic improvement in both cases.

The victims are a 10-year-old boy and a 37-year-old man. They are residents of two widely-separated villages in Northern New Mexico.

The boy was treated with streptomycin and sulfadiazine, the man with penicillin and aureomycine.

Dr. Link said all 23 cases in the last quarter-century have been traced to wild rodents carrying plague-infested fleas.

Hope for Road Plan by End of Month—Carson

VICTORIA, Aug. 10 (CP)—It is hoped a tentative agreement at least will be reached with the Federal government by the end of the month regarding B. C. participation in the construction of a Trans-Canada Highway.

Works Minister E. C. Carson said today it was planned to have full discussions on the question with Federal Reconstruction Minister Winters when he visits here later in the month.

Other than the setting aside of $4,000,000 at the last session of the Legislature for the Westernmost link of the coast-to-coast road, no definite plan has been drawn up by Province.

The question of route and sharing of cost hinged on plans of other Provinces.

B. C. was improving its three Trans-Provincial roads — North, South and centre — and they would be up to the standards wanted for the Trans-Continental Highway, so any of them could be part of the system.

What the Province would like to see was a grant from Ottawa of a given sum of money to be spent on secondary roads to be linked with the Trans-Canada Highway.

This would open up more country to the rest of the Dominion.

A Federal aid system of highway construction, similar to that in effect in the United States, would improve North and South roads.

ONLY FEW FARMS PROTECTED BY HAIL INSURANCE

CALGARY, Aug. 10 (CP)—Only 10 to 15 per cent of the farms hailed out in Sunday's severe storm in Central and Northeastern Alberta were covered by hail insurance, J. Glen Elder, Chairman of the Alberta Hail Insurance Board, disclosed today.

An additional 150 claims were received at the Calgary office of the Hail Board today bringing the total for the weekend storm to about 500.

It is estimated that nearly 250,000 acres of grain were completely destroyed and an additional 750,000 acres damaged in the storm. This would constitute about six per cent of Alberta's grain crops.

TRIBAL CHIEFTAIN PLEASED WITH U. K. HEALTH SCHEME

LONDON, Aug. 10 (AP) — When Nii Kwabena Bonne, III, tribal chieftain from British West Africa's Gold Coast, heard about Britain's national health scheme he decided it was an opportunity not to be overlooked.

He arrived in London last night from Accra, capital of the Gold Coast, where he maintains a 56-room castle. Today he told reporters:

"I understand I can obtain health treatment free here, and spectacles, too." Bonne explained he had a stomach ailment and had been in poor health since he was operated on in 1944. He will receive treatment.

INQUEST INTO COLLISION DEATH CONTINUES FRIDAY

Inquest into the death of Mary Bogdanoff of California, who died in a car-train accident Tuesday, was opened at 11 a.m. Wednesday. A coroner's jury viewed the body at Thompson's Funeral Chapel, and the inquest was adjourned until 1:30 p.m. Friday.

The coroner's jury, called by District Coroner Dr. F. M. Auld, is composed of Allan Cameron Barton, Robert Willard Bennett, Arthur Edward Murphy, Charles Paul Lepinski, William Holmgren, Frank Breckmaster Pearce, all of Nelson.

Mrs. Bogdanoff's funeral is to be held in California.

Recaptured After Escape From Prison 20 Years Ago

INDIANAPOLIS, Aug. 10 (AP)—A landscape painter's art career ended today when he was taken back to jail from which he escaped more than 20 years ago while awaiting trial on a murder charge.

Ralph Lee, 51, artist with a record which police said included at least 11 jailbreaks in 17 years, was arrested as he ate supper with his wife, at their home.

Police arrested Lee on a charge of escaping from the county jail here on New Year's Eve in 1926. He was being held at that time on a charge of murder in the hold-up killing of a grocer.

His present wife is a one-time missionary to China and Salvation Army worker who had engaged in religious work among convicts. He married her two years ago.

Alco Bids for Water Rights

VICTORIA, B.C., Aug. 10 (CP)—The Aluminum Company of Canada today filed application with the B.C. Government for water rights on the Nechako and Chilco River systems.

Maj. R. C. Farrow, Controller, made the announcement. Each system has been investigated by the company which proposes a $500,000,000 development scheme on one of them. Both aluminum and hydro-electric production is planned.

The official also announced that a series of public hearings will be held in September where objections if any may be raised to the proposed development.

The river systems lie roughly 400 miles North of Vancouver.

Main opposition to the Nechako site is expected to come from 50 or 60 farms likely to be flooded out. Salmon fishing interests have indicated they will protest the proposed site on the Chilco as harmful to their business.

TEACHERS TO SEEK PROVINCES' SUPPORT

OTTAWA, Aug. 10 (CP) — The Canadian Teachers Federation will seek support of provincial governments in its Federal-aid-for-education campaign.

The current drive which teachers are making for Federal education grants to the provinces occupied most of the afternoon discussions at the C.T.F. convention in progress here. It followed a lengthy morning session which dealt with the Federation's position in world affairs.

And in This Corner—

BLACKHALL, Durham, Eng., Aug. 10 (Reuters)—War Minister Emmanuel Shinwell is famous for his political outspokenness. But a non-political occasion found his courage at a low ebb.

Called upon to choose a beauty queen in his constituency, the War Minister made notes, inspected all the entrants, then asked the crowd to decide by their applause. The crowd refused.

Mrs. Shinwell came to the Minister's aid.

"Pick the girl who is pretty, simply-dressed, young and popular," she whispered.

Taking a firm grip on himself, the War Minister then awarded the title to a 17-year-old shop assistant.

BOSTON, Aug. 10 (AP)—If Antonio Nazzare had more of a sweet tooth, he might not have been in court today on a charge of registering bets on dog races.

Police said Nazzare jotted down the bets on candy wafers but didn't have time to eat all of them when police appeared.

BOREHAM WOOD, Essex, England, Aug. 10 (AP)—The Vicar of All Saints Parish, which includes the film colony at Elstree Studios, has asked women not to use lipstick before attending communion services.

Wrote Rev. W. Maddock in his parish magazine:

"I ask you to do this as an action of devotion to God, out of consideration for other people as an act of discipline, and out of thought for those whose freely offered service keeps the altar vessels and linen clean."

UNIONVILLE, Mo., Aug. 10 (AP)—When the will of Ed Henson of Unionville was opened here this week it gave directions for a treasure hunt which led to the location of $4630 in buried money.

Henson died Aug. 5 at the age of 81. A note, found with his will, gave his five children clues to follow. The trail led to a spot in the floor of Henson's garage.

After digging down 11 inches a fruit jar was uncovered. Inside the jar were bills amounting to $4630.

The note found with the will was dated 1942 and the money had been buried since that time.

In addition to the money found under the garage floor, Henson's will left a farm to each of his five children, along with a large amount in bonds.

WHITESBURG, Ky., Aug. 10 (AP)—Sam J. Bates, former Whitesburg coal operator, received 175 votes in Saturday's Democratic primary race for state representative, although he is serving a two-year sentence in the Atlanta Federal Prison.

Bates was convicted last month of transporting whisky into dry territory. However, he didn't instruct election officials to remove his name from the ballots, and thus received the votes.

Yanks Stop Bosox Climb; Tie Continues

By STEVE ROBERTSON
Canadian Press Staff Writer

The drive by Boston Red Sox toward the top of the American League was stopped, at least temporarily, Wednesday by New York Yankees.

The league-leading Yankees needed only one big inning as they edged the runner-up Red Sox 3-2. The win put Casey Stengel's New Yorkers 6½ games ahead of Boston.

In the National, both Brooklyn and St. Louis won, leaving them tied in first place.

Before 32,237 spectators at Boston, the Yankees hopped on pitcher Joe Dobson for five hits and three runs. It was Dobson's ninth loss.

Lefty Ed Lopat, replaced at the start of the eighth by Joe Page, was credited with his 11th victory against five losses. Lopat allowed only four hits. The last was Vern Stephens' 26th homer.

In other American League games Washington Senators beat Philadelphia Athletics 8-7, St. Louis Browns defeated Cleveland Indians 5-4 and Chicago White Sox trimmed Detroit Tigers 6-3.

In the National Brooklyn Dodgers outscored Philadelphia Phillies 7-5, Boston Braves triumphed 4-1 over New York Giants, Chicago Cubs beat Pittsburgh Pirates 2-0 and St. Louis Cardinals won over Cincinnati Reds 8-0.

At Cleveland a ninth-inning homer by outfielder Dick Kokos of St. Louis gave the Browns the 5-4 win over the Indians who had counted four runs in a fifth-inning outburst featured by homers by Bob Lemon and Larry Doby.

GRAND SLAM HOMER

At Washington Sherry Robertson's grand-slam homer and six double plays enabled the Senators to edge Philadelphia, The Senators, who had a 7-0 lead at one stage just staggered to victory after the A's got six runs in the sixth.

At Detroit the Chicago White Sox pushed over three runs in the 10th inning to beat Tigers 6-3. Mickey Haefner went all the way and registered his second victory for Chicago since being banished from Washington.

Jackie Robinson's ninth-inning home run with Carl Furillo on base gave the Dodgers their 7-5 win over Philadelphia. It was Jackie's 14th of the season.

At St. Louis the big bats of the Cardinals were clicking and Al Brazle was sharp as he turned his fifth successive victory, 8-0, and Cincinnati Reds were the victims.

Big Fourth Ruins Tigers, Leading Rossland Cubs Triumph 10-7

By CLIVE FLEMING

Five big runs on six hits in the fourth inning, and two more tallies in both next two innings put the skids on the Nelson Tigers in their bid for sole possession on second spot, with the West Kootenay Baseball League leaders, Rossland Cubs, pounding out a 10-7 triumph. At the end of the third frame, the Tigers led 4|0, headed by Carl Locatelli's tremendous three run homer in the third. The game was called on account of darkness at the end of the eighth.

Rossland threatened in the top of the second with the first two batsmen singling. With both in scoring position and one out, the Tigers pulled out of the hole, throwing the next two batters out at first. Swede Larsen opened the scoring in the last of the second, when Bob Pitts drove him across the plate from third.

Les Hufty opened the bottom of the third with a base hit, followed by Red Koehle who drew a base on balls. Carl Locatelli waded into Bob McKinnon's delivery, sending the ball a good 400 feet into centre field before it hit the turf, and had rounded the circuit before the ball was back into the infield. With Lloyd Swensen on first base, two outs later, Ron Nash drove the ball over the left field wall for a ground rule double, but both runners were stranded.

The fireworks popped in the Rossland half, with six of the first seven batters hitting safely, including a triple by Joe LaFace, with five runs scoring, and all nine batters appeared at the plate. Les Hufty was batted in by Carl Locatelli to knot the score 5-5 in the last of the fourth.

When Bobby McKinnon drove in two runs in the top of the fifth with a double, Manager Roy Anderson took the ball from Hufty, bringing in another right-hander, Fred Townsend. After a man was passed Swensen combined with Pitts for a twin killing, ending the inning with two runs. Two singles sandwiching Ed Crowder's two bagger brought in another pair of tallies for the Cubs in the sixth.

Nelson scored singletons in the seventh and eighth, ending their scoring, with Rossland registering another in the eighth to round out the scoring. At the end of the eighth Umpire Joe Kary called the game on account of darkness.

Lineups:

Rossland—Scott, B. LaFace, Turik, McGibney, Jackson, Crowder, J. Laface, Marshall, McKinnon.

Nelson—R. Koehle, Locatelli, F. Koehle, Larsen, Swensen, Nash, Pitts, Townsend, Hufty Haldane.

Umpires were Joe Kary and Keith Lowen.

CHICAGO, Aug. 10 (AP).—Ky. Colonel, owned and bred by Joseph A. Goodwin of Lexington, Ky., today lowered the world record for seven furlongs by two-fifths of a second by sizzling home in 1:21 2/5 seconds in the $25,000 Sheridan Handicap for three-year-olds at Washington Park.

The old record of 1:21 4/5 was shared jointly by Buzfuz, Honeymoon and Dinner Gong.

Ridden by Jess Higley, Ky. Colonel led Fred W. Hooper's Olympia to the wire by 2¼ lengths. Calumet Farm's De Luxe was in third place, 1½ lengths back.

Ky. Colonel returned $8.60 and $3.20, Olympia $2.40. There was no show betting.

Charles Halts Lesnevich in 7th

NEW YORK, Aug. 10 (AP)— Ezzard Charles, N. B. A.-recognized heavyweight champion, stopped Gus Lesnevich, the 34-year-old ex-light heavyweight king tonight when Referee Goldstein ended the contest at the end of the seventh round at the Yankee Stadium.

A small crowd of some 15,000 watched 28-year-old Charles, defending his title for the first time only 49 days after he won it at Chicago, give Lesnevich a bad pasting, cutting Gus around the left eye, and plugging up his right eye. Manager Joe Vella asked Goldstein to stop the fight as Gus came back to his corner, a tired, beaten fighter at the end of the seventh.

He made a gallant stand in the sixth when he seemed to hurt Charles with a stiff over-hand right.

Charles, much more aggressive than the night he won the title by cautiously out-pointing Jersey Joe Walcott at Chicago June 22, buckled Gus' legs in the first round. He almost floored him in the fourth but gallant Gus never did go down.

The slim Negro from Cincinnati, weighing 180 to 182 for Lesnevich, was in complete charge all the way until the fifth when he ran into a right hand punch.

The sixth was Gus' only big round of the night, apparently his desperation chance.

The end came suddenly for Gus seemed okay as he went to the corner. He never was down but blood streamed from cuts over and under his left eye. There was an egg-sized lump under his right eye.

Spokane Man to Enter "Dark Horse" In Regatta at Nelson Sunday

As the date fast approaches for the Kootenay Lake Annual Regatta, committee members in charge of organization are scurrying around making last minute preparations and getting things in proper running order for August 14.

This year the regatta, under the management of the Nelson Kiwanis Club, will be the best ever seen in the Kootenays. Events in a fast runing schedule will be seen at the rate of one every 25 minutes. This has been guaranteed by the club.

There will be approximately a dozen important events in which competitors will come from Spokane, Trail, and Nelson.

The aggregation from Spokane will include a new boat, a "dark horse," which will be competing in the main event of the day, the race for the Kootenay Hotelman's Trophy. This boat, which has a "souped up" engine which in a hull develops 200 H.P. originally a Bentner and redesigned by its owner, is reported to have attained speeds of over 70 miles per hour. The owner, Walter Girnuss, will arrive in Nelson Saturday morning and will be practising on the Lake up until the time of the races.

Another speedboat driver well-known in the District, Jiggs Maurfello of Trail, may be able to attend the regatta. He ripped the bottom out of his boat in the Kelowna Regatta because of the speed at which he was travelling. He is working on the hull as fast as possible and hopes to have it finished by August 13.

And of course Nelson will be represented by L. F. Gilbert in the popular "Lady Bird." There will be some stiff competition for him this year, but he has been fixing and tuning up his engine for the past few weeks.

The Weather

Synopsis: Temperatures in the Okanagan and Kootenay Valleys reached the mid eighties Wednesday. Over the rest of the province however the maximum temperatures ranged from the high sixties to the mid fifties which for most stations was ten degrees below normal. Cool unsettled weather will persist over B.C.

Sees Easy Victory For Defending Women's Golf Champ

VANCOUVER, Aug. 10 (CP) — The 1949 Canadian Ladies' Amateur Golf Tourney should prove a cakewalk for defending Canadian and U. S. champion, Grace Lenczyk.

Most of the leading U. S. and Canadian amateurs are not entered as yet for the Dominion's number one women's golf event, which opents here Aug. 22.

Miss Lenczyk, two-time winner of the event, is the only top American ace to enter thus far.

National trials for the U. S. Women's Amateur will coincide with the National Canadian Tourney dates for one thing.

LONDON, Aug. 10 (AP).—Lee Savold will box exhibitions until Bruce Woodcock agrees on a new date to fight him for the European version of the world heavyweight title.

North Van Wins Soccer Crown

CALGARY, Aug. 10 (CP)—North Vancouver played heads-up, playoff soccer tonight to overpower a fighting Hamilton Westinghouse squad, 2-0, and capture the Dominion football championship.

It was the second time the red-jerseyed veterans from the Pacific Coast had shut out their lighter, speedier opponents. North Shore United took the opening game of the best-of-three series, 4-0, while Hamilton forced a second contest with a well-deserved 2-1 victory in the second.

FOUR INJURED WHEN CAR GOES OVER BANK

RYKERTS, B.C., Aug. 10—Prompt action on the part of Customs Officer Norris Bicum and Cpl. D. McCrae, R.C.M.P., aided materially in securing medical attention and taking four persons from a car which plunged over a 20-25 foot bank in front of the home of Mrs. Snyder at Rykerts, B.C.

The four taken from the car and conveyed to the hospital in a serious condition were identified as Mr. and Mrs. James Lord and Mr. and Mrs. Robert Lord. The car was reportedly from Vancouver.

The Sunday accident and cause are now being investigated by R. Carlson, B.C. Provincial Police.

KIDDIES, CANCER PROJECTS RECEIVE $200,000

TORONTO, Aug. 10 (CP) — The order of the Eastern Star has made contributions totalling more than $200,000 to its three chief aid projects during the last three years, Mrs. Eva Holland Hamilton of Chicago, Most Worthy Grand Matron, told 10,000 delegates to the organization's triennial convention here yesterday.

The money was used to promote cancer research, to aid the Save The Children Fund and to assist starving children in China.

Delegates from Puerto Rico, Hawaii, Bermuda, Canal Zone and Japan, as well as Canada and the United States are represented.

The Order claims membership of 2,500,000.

Runaway Truck Backs Into Property

A truck owned by L. W. Smythe, 105 Park Street, came close to causing damage or being damaged itself in a runaway Tuesday night.

Brakes on the vehicle, parked near his home, slipped and the truck backed down a hill, across a sidewalk and came to rest on the property of J. R. Fletcher, 1204 Front Street.

It was removed Wednesday morning, without any damage having been done.

Fined for Offences Under Forest Protection Rules

Pedro Pole and Lumber Company of Nelson, which has operations at Winlaw, has been fined for two offences under forest protection regulations.

A fine of $25 and costs was paid for failure to provide fire fighting equipment for preventing any outbreak and spread of fire from the operation, and a second fine of $10 was meted out for failure to clear a space around the camp and mill of inflammable materials. Camps within a half mile of forest or woodland are required to take the precautionary measure.

The Company pleaded guilty to the first charge and was found guilty on the second before Stipendiary Magistrate William Irvine in Provincial Police Court at Nelson Wednesday.

Heat Beats Even Weather Men

TORONTO, Aug. 10 (CP) — The record-breaking heat wave continued over Southern Ontario today and no relief is promised for tomorrow.

Toronto's high of 97 degrees was a record for this date. There was no prospect of cooler air — moving Eastward in Northern regions — varying towards the South Thursday.

Even the forecasting staff at the Weather Bureau in Toronto went home early because of the heat.

Meanwhile, Halifax and Yarmouth had peak temperatures of 82 Wednesday, but other Maritime thermometers were in the low 70s. After touching 87 at Montreal, the mercury tumbled with thunder showers and a cooling breeze. One big thermometer on a rooftop in downtown Montreal however showed 104 degrees at the peak.

Ottawa reached a high of 84 but mid-afternoon showers sent it down to 73.

It was comparatively cool in the West, which had its hot spell last week. High for Winnipeg, Brandon and Rivers in Manitoba was about 85 but a high of 90 was promised for Thursday.

Hottest Alberta points were Medicine Hat and Vermillion at 77 degrees. Lethbridge was 75, Edmonton 72 and Calgary a coolish 66. There was no rain anywhere in Alberta. Saskatchewan also was coolish, Regina's 80 being the high for the province.

On the Pacific Coast, Victoria was down to 57 degrees, Nelson showed a top 84, Vancouver 63, Penticton 74 and Kamloops 75.

Suspends Pitcher

TACOMA, Aug. 10 (AP)—Enoch Alexson, General Manager of Tacoma Tigers, today announced he has suspended pitcher Gordon Walden for the balance of the Western International League season and fined him an undisclosed sum.

Walden's set-down was for "a display of temperament and some half-hearted hurling" at last night's game with Yakima. Tacoma lost 18-7.

Quotes Wife as Admitting Stabbing After Bedtime Slap

LONDON, Aug. 10 (AP) — A pretty British Army girl was quoted in court today as saying she stabbed her husband when he tried to make her sleep with him after 80 days of kissless marriage.

Margaret Williams, 21-year-old ski champion of the Women's Royal Army Corps, is charged with the murder of Sgt.-Maj. Montague (Slim) Williams, in a hotel at Klagenfurt, Austria, July 4. Both were in the British Occupation Army.

The prosecution contends Mrs. Williams had "leanings toward lesbianism" which kept her from consummating the marriage. A policeman today testified she told him she was in love with another girl.

W.R.A.C. Sgt. Peggy Snow, another witness, said Mrs. Williams told her the fatal argument began when Williams saw his wife preparing a divan as a bed.

"She said Slim asked her what she was doing," Sgt. Snow said.

"She said she was sleeping on the divan that night. He said she was not and smacked her face."

The witness said Mrs. Williams told her, "I saw the knife lying there and said to myself 'I will do you' and picked it up and stabbed him."

Four Does—Each With Twin Fawns

LONGVIEW, Wash., Aug. 10 (AP) — Game Supervisor Bill Hall of Longview today reported "one of the most unusual sights" he has seen in 30 years in the outdoors. While seeking night hunters in Pacific County, he watched four does come into a clearing — each with twin fawns.

"The odds against this are too steep for me to figure," Hall said today.

Find Missing Married Women

TORONTO, Aug. 10 (CP) — Two young married women, reported missing since Monday, have been located in Niagara Falls, Ont., police said today.

The women Mrs. Charles Ball, 27, and Mrs. Alfred Dimarco, 22, phoned last night to say they were returning home from a visit to relatives.

Charles Ball told police Mrs. Dimarco wanted to "run away" and his wife accompanied her, afraid she might meet with harm.

Report From Westminster . . .

May Seek International Fixed Prices on Selected Raw Materials

By ALAN HARVEY
Canadian Press Staff Writer

LONDON, Aug. 10 (CP)—Proposals for fixing the prices of selected raw materials by international agreement are almost certain to be advanced by Britain when she resumes financial talks with the United States and Canada in Washington early next month.

The purpose would be to stabilize returns for such Commonwealth products as rubber, wool, jute and tin. In return, Britain would agree to import stated quantities of such United States products as cotton, sugar and tobacco.

These commodity agreements, it is believed here, would help to bolster the income of the sterling area by assuring stable prices on exports which recently have dropped in value in world markets.

A spokesman for the Treasury said that such commodity pacts would help to solve only part of the problem. He said that Britain still feels the real root difficulty is that it is impossible now to maintain a balanced trade with the United States— and to some extent with Canada—because the things the United States wants are so small compared with the things other countries want to buy from her.

Treasury officials here are acutely conscious of recent American, and to a lesser extent Canadian, criticism of Britain's political policies. During the last few days British newspapers have given prominence to stories with United States datelines, suggesting that Britain's prestige now is at the lowest ebb since the Munich Agreement of 1938.

As far as can be learned, there is no intention here of trying to counter statements that Britain's crisis is the result of her efforts to create a welfare state. British officials consider such criticism is unfortunate but they say British socialism has often been the whipping boy for all Europe's ills.

Man Arrested in Golden To Face Coast Charges

VANCOUVER, Aug. 10 (CP) — Twenty-one-yearold William Lightbown, arrested by Provincial Police yesterday at Golden, B. C., will be returned to Vancouver to face a charge of escaping from the city jail.

Provincial Police also said an automobile stolen in Bellingham, Wash., Monday was recovered with the arrest of Lightbown. The vehicle had been taken from a Bellingham Street near the spot where another car, stolen in Burnaby, B.C. was found abandoned.

Recovery in Bellingham of the stolen Canadian car, bearing Manitoba licence plates, has led to speculation that bandits who robbed a bank of $6100 in Vancouver last Saturday might have fled across the international boundary. However, City Police in Vancouver said today there is no apparent connection between Lightbown and the bank bandits.

Haigh Hanged

LONDON, Aug. 10 (AP) — John George Haigh, self-confessed vampire slayer of nine persons, was hanged today at Wandsworth Prison.

The handsome, 39-year-old business executive was convicted July 19 of murdering a well-to-do widow, Mrs. Alivia Durand-Deacon, 69, for her money.

A jury rejected a defence plea of insanity and sentenced Haigh to death.

At his two-day trial, the prosecution introduced a statement in which Haigh confessed to police that he killed eight other persons besides Mrs. Durand-Deacon and drank their blood.

With the execution, Scotland Yard closed the record on England's most sensational murder case in years.

There was no indication whether Haigh went to the gallows as calmly as he sat through his trial. One visitor to his cell a few days ago quoted Haigh as demanding a rehearsal on the gallows.

"My weight is deceptive," Haigh was quoted as saying. "I have a very springy tread. I would not like there to be a hitch."

Oil Companies Scramble For Markets

NEW YORK, Aug. 10 (CP)—The oil cauldron is bubbling over again in the United States.

The scramble for markets is getting more and more intense. Companies which produce oil in the United States see their production cut back while oil is being imported from rich foreign fields.

At least the consumer can take heart from the situation. The oil men are suffering because there's so much oil. All concerned promise that this Winter there will be plenty to supply the huge American market for home-heating, transportation and industry.

The cauldron bubbles today with the following developments:

1. Standard Oil of New Jersey, the biggest oil company in the United States, announces it is importing no more oil from Arabia. Imports from the Middle East always were small compared with those from South America, but always annoyed American producers more.

2. Jersey's Canadian affiliate, Imperial Oil, is reported planning a 1200-mile pipeline next Spring to bring oil from its new Saskatchewan oil fields to the midwest United States market.

The importation of oil from the Middle East, which now has more than 40 per cent of the world's known reserves, started in the oil-shortage Winter of 1947-48, when shivering Easterners welcomed oil from any source.

Jersey Standard contracted last year to import Arabian oil, fearing another shortage in 1948-49. But the Winter in the Eastern United States proved mild and there was a surplus of heating oil. Jersey says its contract now is ended. Other importers from the Middle East are Socony-Vacuum, Texas Company, and Gulf Oil.

The Bureau of Census of the Department of Commerce puts crude oil imports for June at 436,408 barrels a day. Production of United States wells, meanwhile, was averaging just under 5,000,000 barrels a day. But it was much higher than that at the start of the year. It is the enforced cutback in the flow of American oil fields that irks the independents.

Will Not Submit Legislation for Highway Until Agreement Indicated

OTTAWA, Aug. 10 (CP)—Federal Government proposals on the construction of a trans-Canada highway will be sent to all Provincial Governments in the near future, a Reconstruction Department official

A document containing the proposals now is being drafted and will be sent to the Provinces as soon as Reconstruction Minister Winters has it approved by the Cabinet.

Legislation providing for Federal contribution to the cost of the highway will not be submitted to Parliament until all the Provinces have indicated that they are fairly well in agreement on the question of sharing costs, the route of the highway and the standards of construction to be used.

The official said plans call for use of many existing roads. However, as some Provinces have not indicated what route they want to have the highway go through, no estimate has been made of the length of existing roads that will be used.

It has been estimated roughly that the whole highway will hun 5000 miles. Total cost of completing the highway, taking into account the use of certain existing links, has been estimated at $400,000,000. The official said 5000 miles of completely new hard-surfaced highway could not be built for $400,000,00.

Mr. Winters said yesterday in an interview that the Federal contribution likely will be in the neighborhood of $150,000,000 to $200,000,000.

Heat Wave Settles Over Eastern U.S.

CHICAGO, Aug. 10 (AP) — The searing heat wave appears to have settled down over the Eastern half of the nation for an indefinite stand.

Federal forecasters said today there is nothing shaping up anywhere on the weather map which promises any relief.

The narrow band of cool air which was moving across the Northern plains states yesterday has stalled over northern Minnesota, Wisconsin and the Upper Michigan peninsula.

Only extreme northern New England had a taste of cool air as a Canadian cold front shoved early-morning temperatures to 46 degrees at Caribou and Houlton, Me.

From the Great Plains to the Eastern seaboard, the mercury was soaring again into the high 90's.

Many New York City stores **STORES CLOSED** closed yesterday when the mercury climbed to 97.6 degrees in the downtown section. It was the highest reading for the date there in Weather Bureau records and 2.6 degrees above the previous Aug. 9 maximum set in 1900.

TENNESSEE CHICKEN DINNER
Chilled Cantaloup and Watermelon Balls in Pineapple Juice
Fried Chicken with Brown Gravy
Escalloped Potatoes with Onions
Hot Buttermilk Biscuits
Tomato and Lettuce Salad
Raspberry Roll with Heavy Cream
Iced Tea

Here are the recipes for buttermilk biscuits and the escalloped potatoes with onions. But when I asked for the raspberry roll, Mr. Smith from Tennessee, who gave me the menu, looked a bit nonplussed. "I don't go in much for fancy cooking," he explained. "I'll write to my aunt in Tennessee for th recipe."

So as soon as "auntie" answers we'll put the recipe in this column.

(All measurements are level —recipes serve four)

ESCALLOPED POTATO WITH ONIONS

Prepare 1 qt. thin-sliced peeled white potato and 1 pt. sliced peeled onions. Arrange in alternating layers in a buttered baking dish, with ½ tbsp. flour, ¼ tsp. salt, ⅛ tsp. pepper, and 1 tbsp. butter dotted between. Pour in boiling water to cover. Bake about 1½ hrs. at 350 F.

BUTTERMILK BISCUITS

Sift together twice 2 c. all-purpose flour, 1 tsp. salt and 1 tsp. baking soda. Chop in 3 tbsp. shortening with a pastry blender. Mix to a light soft dough with 1 c. buttermilk. Turn onto a floured cloth, pat to ½ in. in thickness, cut into small rounds, and bake 12-15 min. in a hot oven, 425 F.

TRICK OF THE CHEF

To make browned flour for thickening brown gravy, spread 2 cups white flour ¼ inch thick in pan, and bake brown in a slow oven.

Love Problems

By JANE ATKINSON

Youth Learns Early That Jeering Is No Fun if Jeers Are Ignored

Dear Miss Atkinson:

I am 16 years old and have been going with a girl named Carol. Now I have met another girl named Jean, with whom I have gone out twice and have also been over at her house a few times.

Carol likes me a lot but I think I like Jean much more than I like Carol. But I don't know whether or not Jean likes me. If I thought she would, I wouldn't bother with Carol any more.

What should I do?

S. C.

Dear S. C.:

I think you are worrying far too much over what is really a very minor matter. If you take my advice you will date whichever of these girls you happen to feel like going out with at the time, and not try to make up your mind to rush one and brush off the other.

Dear Miss Atkinson:

I am 18 and pretty good looking, except for my legs. You may think it's silly, but if you were still in school and you knew the boys snickered at yours, I am sure you would feel bad. Up to now I have tried to ignore it, but I can't stand it any longer.

Isn't there some kind of booklet that gives exercises for such a case as mine?

D.

Dear D.:

It is easy to understand how you feel about your legs not being pretty, but a sunny disposition is much more important than beautiful legs. If you are fun to be with, nobody is going to think about how your legs look. They'll be much too interested in you as a person to worry about such a minor detail.

Moreover, if you ever hear anyone snickering about them, they'll stop it much sooner if you just say something casual like: "Yes, aren't they awful? I don't know what to do about them," and let it go at that. As you grow older, and more experienced in life, you'll discover that if you yourself are not disturbed about a thing, other people are likely to ignore it.

Nevertheless, I will be glad to try and find you a booklet of exercises that may help you, if you will write again and give me your name and address.

What a glorious assortment of these creamy, smooth-flavored puddings there are — so nourishing and wholesome, too! Such old-fashioned favorites as Chocolate, Vanilla and Orange Coconut Jell-O Tapioca Puddings . . . sumptuous, rich Chocolate, Butterscotch, Caramel and Vanilla Jell-O Puddings.

Think Of The Fun of having your pickling turn out to be a *roaring* success! Think of the pleasure it will give you to have your family and friends exclaim "Say, these are *wonderful* pickles!" Why gamble with inferior pickling ingredients . . . when you can be *sure* of success with HEINZ WHITE VINEGAR? . . . Aged and mellowed in wood to bring out the full aroma and flavour, this crystal clear vinegar is made from corn, barley, salt and rye and it's excellent for salads and table use — as well as pickling and preserving! Stock up now on Heinz White Vinegar . . . *and* for real help in pickling, *write to me* — Barbara Brent, 1411 Crescent St., Montreal, P.Q. — ***for your free copy of a 16-page book of recipes called "Pickling Success"!***

One Touch of Imagination plus deliciously smooth "CREAM OF WHEAT" will help to make your toddler's mealtimes as much fun as a circus! Play "Surprise Party!" Put a spoonful of favourite jam or jelly in the bottom of a bowl and cover with smooth "Cream of Wheat", sugar and cream. Then, watch Junior spoon his way happily down to the hidden treat! *Or — introduce your youngster to "Mr. Top o' the Morning!"* Simply outline a jolly, smiling face with seedless *raisins on top of a bowlful of* "Cream of Wheat"! Just right for toddlers — 5 Minute "Cream of Wheat" cooks to baby-ready digestibility in only five minutes of boiling. It's so *good* . . . and so good for your baby . . . for it contains Iron, Calcium and Phosphorous for diets deficient in these elements. And the whole family will love that "Cream of Wheat" smoo-othness at breakfastime! Order 5 Minute "Cream of Wheat" from your grocer today!

Complement Your Sun Tan with this light-as-air powder that will win *you* compliments on your glowing complexion! It's that wonderful NEW WOODBURY POWDER . . . in a very special, Summer-right shade . . . *Tropic Tan!* You'll adore it! . . . for warm, glowing Tropic Tan gives your skin a natural look . . . doesn't look the least bit powdery — even under the Summer sun! That's because the new Woodbury Powder contains a very special, exclusive ingredient that gives a satin-smooth look to your skin . . . helps the powder cling longer and cover tiny blemishes! Small wonder that in a recent impartial test among women from Coast to Coast, the New Woodbury Powder was a *4 to 1* favorite! Ask for the new Woodbury Powder . . . choose Tropic Tan or one of six other lovely shades in two convenient box sizes and one "purse" size . . . 65c, 37c, 19c.

You'll Take To Baking Biscuits *every* night of the week . . . for with wonderful TEA-BISK to help you, it's not a hot — nor a tedious job at all! It's fun! Serve biscuits — light, fluffy — and piping hot from the oven to that enthusiastic family of yours! It's so very simple with Tea-Bisk, the original "ready-mix". Just add milk or water, then pop your biscuits in the oven! You can make marvelous dumplings and pancakes — chicken pies and puddings — with "magical" Tea-Bisk, too! The recipes are on every package of Tea-Bisk . . . and you'll enjoy *making* Tea-Bisk treats almost as much as you'll enjoy *eating them!*

I'm Sure You Know that one way to be *sure* of a *good* French Dressing is to make it with MAZOLA Salad Oil! And Mazola makes fried foods taste better, too! But did you know that Mazola is the *new* — the better — and butterless way to make light 'n fluffy cakes? ***Just write to me*** — Barbara Brent, 1411 Crescent St., Montreal, P.Q. — ***for these marvelous Mazola Cake Recipes*** — and discover this new cake-making secret for yourself!

"Summertime . . . And The Livin' Is Easy . . . ." This line from a beautiful Gershwin lyric expresses a sentiment with which I'm afraid most *burglars* agree. During the hot months, many of us leave our valuables at home while we are away on holiday. Even though we lock up carefully, the clever burglar can usually find a way inside. Yet it's easy enough to foil him, as simple as renting a BANK OF MONTREAL *Safety Deposit Box.* Costs you only a cent or two a day and assures you of safety for all your important papers, jewels and keepsakes. That's why I urge you to ask about a Safety Deposit Box at your B of M branch'—soon. It will be a happier holiday if you know your valuables are secure in the B of M.

A Reader Writes: "Thank you for your tip on Nonspi protection! I'm active in Summer sports — and have often been worried by the thought that I might be offending with underarm perspiration odours. Nonspi protects my clothes . . . and my poise, too! I use it regularly!" Yes, NONSPI is the best way I know to give yourself clock-round protection . . . no matter how active you may be! You see, this effective liquid anti-perspirant actually *stops* perspiration before it begins! And it's skin-safe—fabric-safe! It's accepted for advertising by the Journal of the American Medical Association. You can *depend* on Nonspi! No wonder so many fastidious women agree that regular use of Nonspi is a "must" for poise and personal daintiness!

Seeing A Show, reading a good book or playing cards are excellent forms of relaxation for all of you *except* your eyes. They never seem to get any time off! So give your eyes the care they deserve . . . cleanse, soothe and refresh them *daily* with MURINE! Truly, I've found that Murine is my most "soothing" companion wherever I go! I carry it in my purse for eyes tired from overwork or the effects of sun, wind or dust. Murine's skilful blend of 7 ingredients cleanses and soothes tired, used-up eyes quickly, and as gently as a tear. Ask your druggist today for Murine!

JAM FACTORY SHIPS CARLOAD TO EDMONTON

The McDonald Jam Company of Nelson has shipped one carload of jam since the beginning of the berry season this year. The company has not been producing their usual amount of jams and jellies, due to the tariffs on produce going across the border. This is their first shipment. It was an assorted carload of jams and jellies with a destination point of Edmonton.

BRITAIN EXPORTS SAVINGS SLOGAN

LONDON (CP) — Canada is borrowing a British poster design for her new savings campaign.

British officials disclosed that Ottawa has ordered 32,000 copies of a poster showing a child's head with the slogan:

Mother Knew Best, Paddy Keeps Curls

BARSTED, England (CP)—Few people have ever seen Paddy Levin with his cap off, but everyone for miles around this Kent county town admires his corkscrew curls.

Twelve flaxen curls trained down over his forehead surprise most people when they first see this unique coiffure. But Paddy, a true-born Irishman, does not think there is anything out of the ordinary about it "at all, at all."

"Sure and wasn't that the way my mother sent me off to school," he says. "'Who's goin' to tell me she was wrong and why should I be arguing with what she thought was best? And if it's arguing with men I am, it'll be with my fists."

Paddy has three brothers in Belfast who have stayed with the same hair style all their lives.

"What mother thought best is still good enough for us," Paddy says.

District Ferries Traffic Increases

Traffic on the district ferries increased considerably during July when sunny skies, warm water and excellent picnic weather drew many outdoor enthusiasts to the beaches.

Greatest increase was seen on the Nelson ferry. Passengers transported across the West Arm jumped over 11,000 more than for the same time last year, while car traffic climbed to over 7000 more than last July. Passengers of the Castlegar ferry numbered over 6000 more than for the previous year while M.V. Anscomb transported 3869 more people.

Increases were also seen in other ferry traffic.

RIDES TO FAME ON HOBBY HORSE

HAMILTON, Scotland (CP)—William Hogg, 37-year-old former school teacher, was virtually ridden to industrial fame on a toy horse.

He originally made the horse of wood for his four-year-old daughter, Alie. Friends were impressed and persuaded him to make others. Finally he perfected an aluminum model which walks when its rider moves the head.

Since then success has been staggering. He's quit teaching and gone into partnership in a factory. The factory has a backlog of months of orders including £40,000 ($160,000) taken at the British Industries Fair. He and his partner now are planning a second factory.

Hogg's horse virtually stopped the fair at Olympia, London. Demonstrating that it was strong enough to carry three men, Hogg was finally asked by fair officials to stop because such a crowd jammed the aisles no one could get by.

PETWORTH, Sussex, England (CP)—Part of the dormitory roof fell in when fire damaged Hawkhurst Court School near here. Forty-four of the school's 50 boarders were away at the time on their half-term holiday.

Will Have To Pay Back Premiums in Hospital Insurance

VANCOUVER, Aug. 10 (CP) —Whether you like it or not, you're going to pay all back premiums under the British Columbia Hospital Insurance scheme.

Dr. J. M. Hershey, Commissioner of the B. C. Service, said today the law may be enforced against premium delinquents.

"Up to the present, no one has been prosecuted," he said. "But we have a job to do, and from now on we mean business."

He said that some hospitals are handling delinquents by demanding cash payments in advance, and they "are within their rights in doing so."

BRADFIELD, Essex, England (CP)—Ambrose Bridges, 100, has been receiving a railroad service pension 34 years. Until 1915 he was a signalman here.

Octopus Invades, Crab Net To Puzzle Fisherman

VICTORIA, Aug. 10 (CP)— Today's $64 question seems to be this:

Can a 10-foot octopus crawl through a crab net opening only eight inches by three inches?

Fisherman Bill Reader, of nearby Esquimalt, is sure that it can.

The sea beast in question did get through the crab net opening—and ate a good many of Mr. Reader's hard-found crabs in the bargain.

"See if you can crawl out of there," muttered the annoyed fisherman as he pegged the octopus out onto a big square of canvas.

GRUELLING RIDE

VANCOUVER, B. C. (CP) — A motorcycle trip from Vancouver to Edmonton in two days is quite a feat—especially when it is done by a 14-year-old rider. Richard Klatt made the trip in two days, but his reluctance to sleep almost cost him his life. He dozed off on the road, and "woke up just in time."

Apprehend Fishermen In Probing Wholesale Plot

NEW WESTMINSTER, B. C., Aug. 10 (CP) — Federal fish inspectors have apprehended seven salmon fishermen, including whites and Indians, in connection with possible salmon smuggling.

The seven will be summonsed, after being released on their own recognizance, to appear in court next week.

Four autos containing 300 sockeye salmon have been seized, and officers believe they have run down a wholesale plot.

They believe the fish are caught in restricted waters above Mission Bridge and are brought down to open territory to sell.

Artificial Island In Lost Lagoon May Be Theatre Home

VANCOUVER, B. C., Aug. 10 (CP) —The new Civic Theatre Society, headed by Mayor Charles Thompson, is looking over proposals for construction of a $600,000 artificial island in Stanley Park's Lost Lagoon as a Theatre Under the Stars home.

A model of the half-acre concrete-based island has been constructed as the first proposal aimed at finding a new home for the Theatre Under the Stars.

However, nothing definite is assured yet.

Believe Check A Hoax in Search For Coast Fugitive

MISSION, B. C., Aug. 10 (CP)— Discovery of a rain-soaked $10 check bearing the name of Ivar Johnson, 70-year-old fugitive murder suspect, led police and armed civilians on a fruitless search through nearby bushlands yesterday.

Police believe now the check was a hoax.

The check was made payable to at least one person, but the name or names had been almost obliterated on the sodden paper.

A week-long hunt for Johnson by police and civilians in this area followed the slaying of Mrs. Marie Lindberg, 66, and Mrs. George A. Barrett, 52, June 23.

No trace of Johnson has yet been found.

SILVER STANDARD HAS $7000 PROFIT IN JUNE

Silver Standard Mines, Ltd., has reported an operating profit of $7000 in June when metal prices were at their 1949 low.

The mill is handling about 58 tons daily.

Ridgeway W. Wilson, Managing Director, estimates that on the basis of present metal prices and milling of 1800 tons monthly, the operation should earn $160,000 a year.

11-Year-Old Rescues Sister From Flames

SEATTLE, Aug. 10 (AP)—An 11-year-old girl braved apartment house flames today to rescue her five-year-old sister.

Both the girls, Cathy Haddix, the rescued, and Doris, the rescuer, suffered minor burns. Doris broke a window and pulled her little sister to safety from the housing project apartment.

Doris said the flames flared up when she poured kerosene into a stove in a hallway, preparatory to starting a fire. It apparently hit smoldering embers.

Barbara Stanwyck Refuses To Make Film With Hubby; Will Not Test Fate

HOLLYWOOD, Aug. 10 (AP) — Barabara Stanwyck gives out with another reason her decade-long marriage to Robert Taylor has lasted.

The actress was asked on the "East Side, West Side" set if she would co-star with her husband. Her reply: "We're letting well enough alone."

"We don't want to tempt fate too much," she added. "Besides, we just don't have a desire to work together. We did one movie together years ago and it was terrible."

NO FEUDIN'

Gossips have tried to whip up a feud between Maria Montez and Vancouver's Yvonne DeCarlo, since the Canadian girl replaced Maria in Universal's "Exotic Epics." But the two are pals, and Yvonne will visit Maria on her European trip, which she will start as soon as "Buccaneer's Girl" is finished.

La Montez has apparently abandoned Hollywood. She finds the money and the living pleasant on the continent. At present she is in Venice making "The Thief of Venice" with George Sanders and Paul Christian.

"Tarzan" fans may be shocked to see Lex Barker get kissed by "Slave Girl" Denise Darcel in his next film. "Long and lingering," the studio adds. The Ape Man usually goes kissless in his films.

CAPSULE REVIEW

"Slattery's Hurricane" (TCF) is a big wind. It has a four-way romance and an interesting background of charting Caribbean hurricanes by air. But unlike the film's aircraft, the story never gets off the ground. Much of the plot remains a mystery for a large part of the picture, and some of it beyond that. Richard Widmark, Linda Darnell and Veronica Lake seem as confused as the audience.

East Kootenay Men Pass Coal Mine Officials' Tests

NATAL, B.C., Aug. 10....The latest successful candidates at Coal Mine Officials' examinations held May 18, 19, and 20, included four from Natal-Michel.

Dominion Archives Short of Files To Serve Researchers

OTTAWA, Aug. 10 (CP) — Dr. William Kaye Lamb, Keeper of Canada's Historical Documents, today said that because the Dominion Archives was having difficulty obtaining custody of Government records, it no longer was serving historians and research students "as it formerly did."

The Dominion Archivist said in a brief prepared for the Royal Commission on Arts and Science Development that the Federal Government's files "now constitute one of the most valuable sources of information on many questions."

But the flow of these files into the Archives has been retarded.

Te Archives "has been given custody of relatively few of the important files covering the decades since confederation."

What was urgently needed was the establishment of a well-equipped and well-staffed Canadian Public Record Office which would have control over the movement of historical documents and government files no longer required by various departments.

A "promising and important step" in this direction was started a few years ago when a public records committee, headed by the Secretary of State, was established," said Dr. Lamb. "Whenever a department wants to destroy its records it now has to seek permission from the committee."

Coast Girl Added To Polio Victims

VANCOUVER, B. C., Aug. 10 (CP) —A 14-year-old girl was added to the list of polio victims in the city today.

The new case brings the total here to 81, of which 71 patients are from the Greater Vancouver area.

No letup in the current epidemic is seen as General Hospital authorities prepare for the continuance of the epidemic throughout September.

Dr. Stewart Murray, City Health Officer, said today "the situation is not as serious as it might be, since there have been only two deaths, and there are none acutely ill in hospital at present."

Meanwhile, the medical fight against the dread disease goes on. Another iron lung, contributed by the Kinsmen Club, has been added to the two lungs and three respirators held in readiness at the General Hospital.

U.K. Overseas Trading Slumps

LONDON, Aug. 10 (AP) — Britain's overseas trading slumped again during July, the Government announced today.

Her imports still were greater than her exports. The unfavorable balance of trade was £40,700,000 ($162,800,000). But July imports were the lowest this year with the exception of those in February, and the gap between imports and exports had narrowed from June's £54,200,000.

The Secretary for Overseas Trade reported Britain imported provisionally £186,500,000 worth of goods.

At the same time, despite the London dock strike, direct exports were valued at £141,500,000 and re-exported goods at £4,300,00, making total provisional exports worth £145,800,000.

July imports were £15,200,000 less than the June figure. July exports were £1,700,000 less than in June.

Gov't To Seize Hawaiian Docks

By LEIF ERICKSON

HONOLULU, Aug. 10 (AP)—Seizure of Honolulu's two strike-bound stevedoring firms carried Hawaii's 102-day waterfront tie-up to the show-down stage today.

Gov. Ingram M. Stainback signed orders late yesterday for the Territorial Government's takeover of two of the Island's seven struck dock companies.

The striking C.I.O. International Longshoremen's and Warehousemen's Union awaited the start of Government stevedoring operations to defy the territory.

I.L.W.U. leader Jack Hall said the Union would start a court challenge to the territory's new dock seizure law within hours after the Government pits its longshoremen to work.

Hall also said the C.I.O. Marine Engineers' Executive Board in Washington ordered its members not to sail ships from behind the I.L.W.U. picket lines.

Stainback said the law clearly gives his Government authority to act against any engineers refusing to sail ships.

Ratepayers to Work With Commission To Organize Marysville Community

MARYSVILLE, B.C., Aug. 10—Ratepayers of this village, newest in the province, have organized to work with the village commission in laying the foundations for a well organized community. About 500 people live at Marysville and its incorporation as a village designates its limits providing a flat, spacious location with lots of room to grow.

To preserve order in its rapid growth in several years of building expansion, the Ratepayers Association has appointed a village planning committee to check on developments. Committee members are Joe Hall, Al Wright, Gail Carpender, Jack Aldridge and Norman Epp.

The Association was informed a plebiscite of ratepayers will be necessary before installation of the village's own water system can be undertaken. Cominco provided the water system prior to village incorporation, but the system was badly disrupted by the 1948 floods. Since the plebiscite and installation will require time temporary arrangements for new buildings are being made through standpipes. Speed of traffic on the highway through Marysville, dusty streets and unsound sidewalks were also discussed by the meeting.

Pact Believed Behind Death of Mother, 4 Sons

MAKINAK, Man., Aug. 10 (CP)—A murder-suicide pact between a 44-year-old woman and her four young sons, which yesterday resulted in a shocking multiple-killing, is believed to have been prompted by the mother's demented anxiety to save her children "from the fire."

Dead following the multiple slayings in a small farmhouse near this Northwestern Manitoba village are Mrs. Mary Walz; Kenneth and Gordon, 12-year-old identical twins; Lucien, 8; and Leon, 4.

Dr. R. L. Gendreau, District Coroner, said a crudely written suicide note, apparently dictated to one of the boys by his mother, who could not write, said:

"I am sorry to have to do this to the children, but if I didn't they would be in the fire in a few days."

The note was signed "Mary".

Dr. Gendreau, who opened an inquest last night, then adjourned it pending completion of the R.C.M.P. investigation, said the children apparently died willingly at their mother's hand.

Officials could not explain what was meant by saving the children "from the fire." Dr. Gendreau said Mrs. Walz had been mentally ill for about six months and he had advised her husband to take her to a mental home. This suggestion had been turned down.

Kimberley Scouts Guests of Rotary

KIMBERLEY, B.C., Aug. 10 — Kimberley Lions Club had as recent guests Ted Richardson, Assistant Scoutmaster of the Jamboree Troup and Scouts John Muraro and Stan Turner, who spoke on highlights of the Jamboree. Ted Smith, Scoutmaster, and Scouts D. McVicar and G. Noble addressed the Rotary Club on the same topic.

While at the Jamboree B.C. Scouts did a display of B.C. industries and a pageant of B.C. history. Kimberley Scouts, who made up Troop 11, had the honor of giving the 10-minute mining display. In describing this an Ottawa paper states:

"The mining tableau was complete in every detail, using genuine mining equipment brought all the way from the West for this display. The "miners," in full working rig, demonstrated tunnel digging and blasting operations, even to a realistic explosion with real clouds of dust."

This display was coached by J. P. Wolverton, Joe McLay and J. R. Giegerich, while the props and realistic back drop was the work of B. Kershaw and F. Barraclaugh.

It is hoped that in the near future the boys will have the opportunity of showing the people of Kimberley this display.

Too Early To Predict Results Of Housing Talks

OTTAWA, Aug. 10 (CP)—A Reconstruction Department official said today it is too early yet to say what is likely to result from the housing talks which Reconstruction Minister Winters is carrying on with the Provinces.

The talks, expected to continue until at least mid-September, are touching particularly on the problem of creating more low rental housing units.

The official said the talks have not yet reached a "firm stage." It was too early to say whether the talks would result in amendments to the National Housing Atc.

But the Government is reported ready to propose such amendments if the consultations with the Provinces show that the changes will result in more low rental homes.

Mae West Wowing Them in "Culture Crazy Colorado"

CENTRAL CITY, Colo., Aug. 10 (AP) — Brooklyn-born Mae West, who says she brought sex out of the back room, is wowing 'em in this state—called "culture crazy Colorado" by a New York critic.

The musty old Central City Opera House, dark 10 months out of the year, is crowded nightly for Mae's saga of sin titled "Diamond Lil." She introduced the play 20 years ago in New York when she was in her middle 30's.

Her scheduled three-week run, which opened July 30, has just been extended another week.

"I've got the feel for this one," she told an interviewer. "This mining town would have been home grounds for that gal (Diamond Lil). She would have slept while the miners dug the gold out of the hills. Then at night she would have dug the gold out of the miners."

Central City is just over a few 14,000 foot peaks from Aspen, Colo., site of last month's international celebration honoring Johann Wolfgang Von Goethe, German philosopher. It attracted world renowned intellectuals and was one of the summertime events that inspired John Chapman, New York Daily News critic, to dub the state "culture crazy Colorado."

Should Married Women Be Fired?

Should employers "fire" married women?

The Provincial Government is planning to replace civil servants who are married women, presumably by single women or men.

It is hardly a fair decision. At the time the married women were hired they were accepted because they were competent to do their jobs. It is reasonable to suppose that they are still competent, or that their competence has increased in the time they have been working at their particular jobs. In other words, they were hired for their abilities and are now going to be "fired" because they are women and married.

Working on the same principle it would no be reasonable to suppose that single women will be hired simply because they are single, or men chosen because they are men.

It would seem much more sensible to base the decision on competence rather than sex or status.

Since we are living under a competitive system, such a basis for hiring employees would be entirely fair—the most competent men or women would get the jobs regardless of irrelevant circumstances. For instance, the older married woman who must work would not be discriminated against, providing she could show the competence of a younger woman.

There has been a hue and cry recently urging that employers hire older men and women, who are happier working and who need the money. From this point of view it would seem that the Government's attitude is a step in the wrong direction.

Another recent development of the times has been the catering to the younger generation. In the United States, particularly, children are spoiled and pampered to an extent that is no kindness to them, but a detriment. Certainly young people must have a chance to get started on a career and to earn their own living, but at that point in life they have everything in their favor—youth, health, and boundless energy. The favoring should be on the other side of the ledger. Youth will be served regardless.

Employers would do well to follow their natural inclination in this matter, which of course is to retain whatever employees can "deliver the goods," regardless of sex or status.

LANDED AT NEWFOUNDLAND FIRST?

The claims of Cape Breton to the contrary notwithstanding there is sound historical fact for the local conviction that John Cabot sighted the coast of Newfoundland on June 24, 1497. But despite the antiquity of our discovery this remains in many important respects a new land. Halifax, which is celebrating its bicentennial year, was founded centuries after St. John's had become a well known and much visited port. But a port of Summer call this harbor remained, with neither permanent residents nor civic rights and law long after Halifax had become a thriving town. — St. Johns', Nfld., News.

LADIES ON THE BOARD OF TRADE

Ladies on the Board of Trade?
My wife has other plans:
She says she's very much afraid
They'll have us holding hands.

Ladies on the Board of Trade:
And we're trying to pass a motion;
There's no attention from the femmes,
They're passing the Jergens Lotion.

Ladies on the Board of Trade:
We must mind our Ps and Qs.
I wonder what will happen when
Some chappie blows a fuse.

Ladies on the Board of Trade?
I say, old chap, what next!
Rather a queer idea, eh, what?
I say, I'm very vexed.

Ladies on the Board of Trade?
What's the big idea, I wonder?
They'll have us drinking lemonade,
And I like something stronger.

Ladies on the Board of Trade:
And here we go to meeting;
One fellow has to go home again—
He's forgotten to bring his knitting.

Ladies on the Board of Trade?
It simply isn't done, sir;
Though I am very much afraid
They have us on the run, sir.

Ladies on the Board of Trade:
For life's so very fleeting:
From a sobbing violin the strains
Of Salut d'Amour; Love's Greeting.

Memories of The Hammock

The old-fashioned hammock swung between two trees or two verandah posts has become a memory. People rush about nowadays in search of Summer ease instead of taking it in the hammock on the side porch. Life is too strident for the hammock's gentle lull.

Memory is of course rose-tinted. Hammocks of the last generation were not always gaily-colored, nor comfortable, nor easy to manage. The rep faded, unravelled and wore thin. The cushion at its head was a knotty board, deceptively plumped. The hooks on verandah posts or in trees gave way in the midst of a snooze. When the rain came, the hammock had to be wrenched from its stays, furled and stored away. It was an awkward bed to get into, a more difficult one to free oneself from. And it was ungainly to the view as to the occupant—a sinking prutuberance two-thirds of the way along its length, to which all else tilted uncomfortably.

Despite its disadvantages, the hammock was an era's symbol of drowsy stillness and repose of spirit (if not body) while the mind and heart, lulled by its sway, took flight from the heat and burden of the day.

Now the hammock has gone. Some landscape designers say it is a blight to symmetry, styling and grace of lawns and gardens. But there are inventive people other than landscape artists. There are hammock designers. Owing to them, it seems that there may be no permanent disappearance of the hammock; merely a lull in its popularity. A hammock has been designed. It swings securely from "suspension points" on a stand that will not tilt. There are safety hooks. It is a mobile hammock, and can be turned to sun or shade at will, It is made of new materials chemically protected against sun and rain and mildew. The new contraption will not jackknife.

The Executive Secretary-Treasurer of the National Canvas Goods Manufacturers' Association, Inc., a Mr. James E. McGregor, has this to say: "There was a time when the canvas hammock was not made with any particular design. But today it is a work of art." Work of art or not, we hail the promise of a return of the hammock. Life with a hammock is sweeter, softer and easier than life without one.—Peterborough Examiner.

J. N., Silverton—Can planer shavings be used for insulation between studding?

Yes. It is customary to fill sacks with the shavings, mixed with a small amount of lime, and place them close together. If cedar shavings are used there is no danger whatsoever of vermin.

Rusticus, South Slocan—What magazine, if any, in Canada has articles concerning flowers and bulbs?

Canadian Homes and Gardens, 481 University Avenue, Toronto; Country Guide, Winnipeg, Man.; Family Herald and Weekly Star, 241-245 St. James Street West, Montreal; Toronto Star Weekly, 80 King Street West, Toronto.

Anxious-to-Know, Vallican—Can a Canadian go to any part of the United States and take a job? If so, where does one write to get full details? (2) On $1650 a year, what income tax does a single man pay? (3) What is the address to write to in Spokane to secure employment?

Write to the United States Consul, C. W. Allen, Toronto General Trust Building, Calgary, or to A. W. Klieforth, Consul, 355 Burrard Street, Vancouver, and full particulars will be sent you. (2) The 1948 basic exemption for everyone is $750, therefore your tax on the balance would amount to $149. Your last question will be answered by either of the U. S. Consuls referred to above.

Mrs. A. B., Nelson—Will you please print horoscope for July 31, also the lucky numbers?

The horoscope for July 31 is much the same as that for Aug. 1. Ruling planet is the Sun, and people born under its influence love warmth and color and gay surroundings, though they are not in the least frivolous. In money matters they are fortunate, though they seldom save. Travel should be avoided in the coming year if possible. There may be a tendency to seek notoriety, but self-discipline can overcome that. Green is a fortunate color, but gold is better, yellow stones and most green ones bring good luck, amber is a special mascot. The fortunate day is Sunday.

Capt. J. C. Gore, Superintendent of the C.P.R. Lake and River Service, returned last evening from a trip of inspection of the Okanagan Lake steamers. He stated business was very brisk there this season, and that the steamers were securing their full share of the traffic.

A new lead has recently been struck at the Highland Buckeye Mine on the No. 1 level which averages about four feet across and which is rich in galena and silver. From No. 1 level a drift of about 1000 feet has been made, and is all in ore.

Philippine President Stresses Need of Aid Against Reds in Asia

By JAMES D. WHITE
Associated Press
Foreign News Analyst
(For Dewitt Mackenzie)

In the midst of a debate on how much to spend on arming Europe against Communism, the United States Congress paused yesterday to hear a question from another precinct.

President Elpidio Quirino of the Philippine Republic asked, in effect, what about Asia?

Quirino's point was that Asia will be lost to Communism by default unless the "same courage and vision" is applied there that went into the democratic defences of Europe.

His sense of urgency, he said, has led him to start a movement toward a union of Pacific countries against Communism. It could serve as a reception centre for whatever aid the United States decides to extend.

It is worth keeping in mind that the first Asiatic leader to whom he talked about the Pacific union was China's Chiang Kai-shek. Yesterday he didn't mention Chiang, who has just been pictured as pretty hopeless as an anti-Communist bulwark by the American White Paper on China.

ONE OF METHOD

Assuming that Congress and the American Press and public awake to the reality as Quirino describes it, the question of aiding Asia is likely to boil down to one of method.

The techniques of helping Asia are likely to be different. China has shown, for instance, that aid like that for Greece, dumped into the highly-nationalistic Asiatic picture, can result in a debacle. Korea suggests the apparently-unbridgeable gap that can yawn when the cold war is allowed to split an ethically coherent people.

No matter how you handle aid for Asia, the problem is gigantic and the cost could come high. The danger of financing a gravy train is present, just as it was in Europe. Asiatics have been in business even longer and are just as quick as Europeans to know a good thing when they see it.

The implied burden of Quirino's message is that this is one world, and if you choose to resist a world dynamic like Communism you've got to think in world terms.

Not just Europe; not just Asia; the world.

Union to Order Australian Miners Back to Work

SYDNEY, Australia, Aug. 10 (CP) — Australia's striking coal miners will be ordered to resume work next week, R. Hamilton, Acting President of the Miners' Federation, announced today.

He said Union leaders will issue the order Friday.

The announcement followed country-wide rejection by the strikers of a request by their Communist-dominated National Council for a mandate to renew negotiations with the Federal and New South Wales Governments. Both Governments earlier had announced they would not negotiate with the miners.

The strikers' decision was regarded as a virtual vote of no-confidence in the Union leadership.

Miss Tilly Outsteps 17 to Win Hambletonian

By JOHN F. CHANDLER

GOSHEN, N.Y., Aug. 10 (AP)—Miss Tilly, a fancy-stepping filly from Connecticut, trotted the legs off 17 rivals today to capture the $69,791 Hambletonian Stake in two blazing heats at Good Time Park.

It was the second straight year that the world's premier trotting classic has gone to a horse from Connecticut in consecutive heats. Demon Hanover, a Connecticut-owned colt, won it in 1948. Miss Tilly is owned by Charles W. Phellis of Greenwich, Conn.

With the favored Bangaway, driven by Ralph Baldwin of Lloydminster, Sask., finishing far back in both heats, Miss Tilly walloped the sulky field in the initial heat, then came back an hour later and really fired it on.

The bay daughter of Nibble Hanover took command at the half-mile pole of the first heat and with driver Fred Egan in the sulky, she finished half a length in front of Volume from the Coldstream Stud, Lexington, Ky.

FIVE LENGTHS

Then, as the crowd of 20,000 faltering fans refused to believe she could do it again, Miss Tilly downed them an hour later, winning by about five lengths.

Bangaway, owned by C. M. Saunders, Toledo, Ohio, had the bad luck to draw 18th post position in the second largest field in the 24 years of the Hambletonian, and he never got into the act. Favored at 8 to 5 in the first heat, he wound up in 12th place. But the people who frequent the mutuel windows thought he'd come back the second time. They established him the 4-to-5 choice for the second spin around the dusty, triangular one-mile course, making Miss Tilly 3 to 1.

Miss Tilly, the 1948 two year old trotting champion, hadn't been able to do a thing this year before today.

Miss Tilly's second heat clocking of 12:01 2-5 was the fastest mile for any three-year-old trotter this year.

Five lengths back in second place was the surprising Rocco Hanover, slightly lame. Rocco, owned by Charles Ruderman of Gouverneur, N.Y., was eighth in the first heat. Volume, from the Coldstream Stud, Lexington, Ky., wound up third in the final dash, after taking second, half a length back of Miss Tilly in the first spin.

NATAL, B.C., Aug. 10—Playing their first international baseball game, Natal-Michel Red Sox fell apart in the last inning to allow the visiting Whitefish, Montana, nine a 14-10 victory. Until the fatal ninth inning the Red Sox had a two run lead and as late as the seventh inning boasted a healthy four run lead.

Umpires were P. Zeith and D. Romano of Natal.

Lineups:

Natal-Michel Red Sox: Chala lf, DePaoli cf, Scott 1b, Quorin rf, Dobek c, A. Krall 3b, Letasy ss, Androlick 2b, W. Krall p. Subs. Zarko, Katrichak, J. Krall.

Whitefish: Anderson, Brousseau, Quenemeen, Kemppaineb, Conat, Mezzack, Barnes, Muraoka, Nelson. Subs. Klem, Harris, Donaken.

Batteries:

Natal-Michel Red Sox: W. Krall, A. Krall and Dobek.

Whitefish, Mont.: Kemppainen and Muraoka.

Lanier, Martin Suits On Court Calendar

NEW YORK, Aug. 10 (AP)—The $2,500,000 anti-trust suits of Max Lanier and Fred Martin against organized baseball today were given the same Federal court priority as Danny Gardella's $300,000 damage action.

Federal Judge William Bondy placed the cases at the foot of the November calendar. If he had not taken this action there might have been a delay until late in 1950.

All suits are based on the banishment imposed for playing in the Mexican League in 1946.

"Gorgeous George" May Show Local Wrestling Fans How It's Done

"Gorgeous George" Pavich of Montreal, top ranking Canadian boxer and wrestler is in Nelson, and he's looking for someone to meet at the grunting game.

The Yugoslavian-born giant, who tips the scales at a mere 248 pounds, may appear in a boxing and wrestling card here in September.

Local boxers would engage in the preliminary events, and Pavich would take on an imported wrestler in the main bout. Just who is the big question, as Pavich is in the heavyweight class.

Nelson fans would see in action the biggest name in wrestling since the Angel.

The challenger for the British heavyweight wrestling crown would be appearing in the ring in Interior British Columbia for the first time. He is touring the West, and has just been wrestling in Prince Rupert.

He has tangled with most of the wrestling "greats," and with outstanding figures in the boxing world such as Tony Galento.

At both sports about 17 years, he hs lately been wrestling steadily. It is "more intelligent" than the glove game, says Pavich.

He has appeared in main bouts across Canada and the United States, in New York, Chicago, Philadelphia, Salt Lake City, Kansas City, St. Louis, Los Angeles and so on.

It was in 1941 at Des Moines, Iowa, before 10,000 that he matched blows with Tony Galento.

Charley Belanger, alie Brown and a host of other first-rate boxers, Jack Londos, Zibisco, Joe Melcovich, Donald O'Mahoney, the Irish great, the Angel, Zaharias, Dusick, Mills, to mention a few, are groaners he has come up against.

He is to again battle Londos, the Greek, for the world wrestling championship.

He reckons he has fought wrestlers of every nationality, from Japanese to Scots, in his travels on the North American continent.

In Nelson he has been doing a good deal of swimming as part of his training. As he explains: "When you're in the ring, the people are expecting something for their money."

STAUDINGER BIRD WINS RACE

ROSSLAND, B. C., Aug. 10 — A racing pigeon owned by G. Staudinger of the Rossland Racing Pigeon Club won first place when eight birds were released from Macleod, Alta., to fly a distance of 202 air miles to Rossland. Four of the eight birds homed in the same day.

Other winners were T. Spring, second and G. Staudinger, third.

In an earlier race a red racing pigeon, No. C. U. 49-14904, strayed from its course. It was released at South Slocan and has not yet returned.

Better Golf

By SAM SNEAD

Why so many high handicap golfers try to recover distance by taking a wood club out of the rough is something I never could explain. Most of them have swings that are on the choppy side so if they'd take a lofted iron and hack away, they'd be reasonably sure of getting the ball to pop up and go places. If the rough is the least bit thick it takes a powerhouse to get through it to the ball. In using the lofted club to get out of the rough don't hold it so tight that your wrists won't get into the shot. And another thing: figure out where you'd like to have your recovery from the rough go. There's no sense in just taking a bang at the ball and going into more rough or getting into some spot that makes a shot at the hole a dangerous one. Another thing that stops me is why average players who are rather good putters take a lofted club when a run-up shot played with a mid-iron or 3-iron with a choked grip would be so much simpler and safer. The shot is nothing more than a long putt.

English Cricket

SOUTHEND, England, Aug. 10 (Reuters) — Bert Sutcliffe today 243 against Essex to set the highest individual score ever made by a member of a New Zealand touring side in England. Previous best was 225 not out by R. C. Blunt in 1931.

Sutcliffe helped the tourists score 420 all out on the opening day of their match against Essex.

He gave four chances in his long innings of five hours, 40 minutes, but in spite of this it was a great effort. He drove, hooked and hit to leg with great power, and claimed 29 boundaries. This was the highest score of his career.

Tonight's score-card:

At Southend — New Zealand 420; Essex to bat.

At Lords—Middlesex 346; Kent to bat.

At Blackpool — Leicestershire 208 for six; Lancashire to bat.

At Weston-Super-Mare — Worcestershire 180; Somerset 146 for nine.

At Coventry — Warwickshire 107; Glamorgan 148 for eight.

At Hull — Yorkshire 227; Hampshire 113 for three.

At Cheltenham — Surrey 374; Gloucestershire 17 for none.

At Northampton — Northamptonshire 408 for seven; Derbyshire to bat.

At Nottingham—Nottinghamshire 378 for six; Sussex to bat.

Albertan Shoots 122 to Win Match

By LORNE FRAME
Canadian Press Staff Writer

CONNAUGHT RIFLE RANGES, South March, Ont., Aug. 10 (CP)—A keen-eyed Albertan, Jock Saidler of Edmonton, today walked off with the MacDonald match, the second this week in the 81st annual Dominion of Canada Rifle Association shoot to be decided without a shoot-off.

Strong sunlight was the only aid to shooting. Experience and a keen eye were necessary to beat the tricky, variable Westerly wind.

Saidler shot a 122-point score out of a possible 125 in the tough MacDonald event. It called for 10 rounds at 300 yards and 15 shots at the difficult 600-yard range. He scored a 49-73.

A sharp-shooting quartet of youngsters from Hamilton, Ont., walked away with the Victoria Rifles of Canada Challenge Trophy. They were Gordon Oakes, Norm Hollingshead, Cliff James and Jim Hunt. They posted a score of 929 out of a possible 1000. Average age of the boys is slightly under 16.

The Winnipeg Light Infantry team was second with 916.

Cpl. A. T. Shipman of Winnipeg placed first in the Gooding Junior prizes, awarded to anyone under 21 with the highest aggregate score in the Tyro Bankers' and MacDougall matches. His aggregate of 233 put him in a four-way tie with three cadets from Hamilton, Ont. They were Gordon Oakes, Norman Hollingshead and Jim Hunter. Shipman was awarded top money because of his better showing at the longer ranges.

Kimberley to Hold First Highland Games

KIMBERLEY, B.C., Aug. 10 — Everything is in readiness for the St. Andrew's Society Highland Games which are to be staged here Saturday for the bonnie lads and lassies who come to Kimberley to take part in the games. These will be the first games to be sponsored by the Society.

Official opening is scheduled for 10 a.m. Saturday, when R. Banks, Superintendent of the C.M. & S. concentrator, Mayor Clifford Swan, and chieftain of the event, Alan Graham of Cranbrook, will extend their welcome to all visitors.

Alan Graham will adjudicate the junior piping contest while Miss Jean Gould of Calgary, will judge the highland dancing.

A parade will get under way at 9 a.m. at the Armouries and will leave the post office at 9:15 a.m. Participants will march to the high school where they will leave by bus to Chapman Camp entrance. From there they will march to the Village Greens. The Kimberley Pipe Band, Kimberley Brass Band and the Kootenay Kilties Band of Nelson will also be in attendance.

Prize money totalling $600 in merchandise donated by Kimberley merchants for track and field events will be distributed among winners.

Deadline for entries is Friday.

A highlight of the event will be the carnival sponsored by the Canadian Legion which will be staged Friday and Saturday. Proceeds of the carnival will go towards the building of the new Legion Hall.

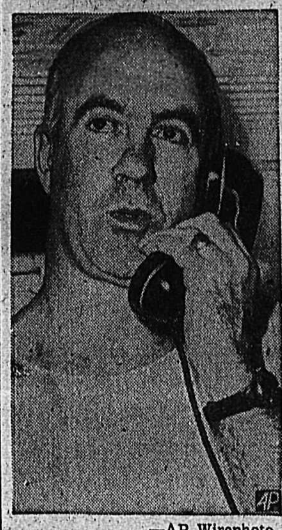
CADETS REACH EDMONTON

EDMONTON, Aug. 10 (CP) — A group of 12 touring U.S. Air Cadets flew into Edmonton today on the last leg of their two-week tour of

TODAY'S News Pictures

Finds Father



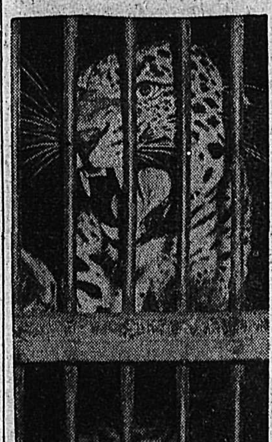
—AP Wirephoto

Harold Geddes, 44, attorney of Detroit, Mich., reenacts a telephone conversation he held with his father, William Geddes, 67, in a San Francisco hospital. The elder Geddes disappeared mysteriously from his home in Rochester, N. Y., 43 years ago. He recently bought a worn Detroit telephone directory in San Francisco and called the first Harold Geddes listed. It turned out to be his son.

Exciting Trip

—Central Press Canadian

Genevieve Cuprys, 24, who chaperoned a $25,000 cargo of wild animals on a 1000-mile sea voyage from Singapore to New York, had high adventure on the seas when, early in the voyage, a 22-foot, 175-pound python escaped from its cage. Genevieve jumped down into the hold and grabbed the python by the neck as two crew members seized its tail to prevent it from coiling around Genevieve's body. She was frightened to death, the little lady said, and added she had never seen less than four people handle a python. On her arrival in New York aboard the S.S. Schiedyk, Genevieve posed happily with a pair of monkeys that present no problem in handling.



—Central Press Canadian

Above is one of the two leopards that Genevieve chaperoned along with 27 pythons and 30 cobras. During the unloading of the ship, a leopard slashed out with a paw, scratching a dock worker, who had to be treated for cuts on the right eye and upper lip.

LAKONIA'S SKIPPER BURIED AT COAST

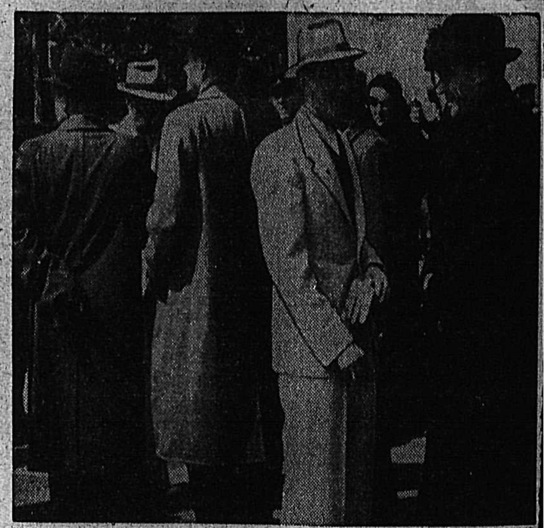
NEW WESTMINSTER, B.C., Aug. 10 (CP)—Captain James Waddell, M.B.E., of Glasgow, Scotland, veteran skipper of the Donaldson Line freighter S.S. Lakonia, was buried here today.

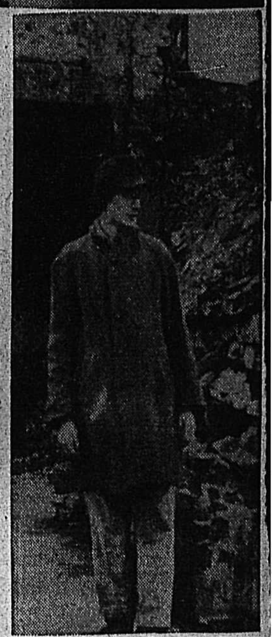
The Lakonia sailed later for the United Kingdom, flag at half-mast in silent tribute to the seaman who commanded her for several years. Captain Waddell, served the British Donaldson Line for 20 years. He suffered a heart attack aboard ship and died Saturday.

NORTHERN EXERCISE ENDS SATURDAY

EDMONTON, Aug. 10 (CP) — Tactical and administrative Army Exercise North 3, a supplement to the recently-completed Exercise Eagle, will end Saturday with the return to Western Command of its complement of staff officers.

Glimpses Behind Iron Curtain





—Central Press Canadian

Since Churchill coined the phrase, people in all corners of the world have been talking about the "Iron Curtain". Most of the talk is speculation, bolstered by fragments of information that have trickled through chinks in the curtain. What is it like behind that veil of rigid censorship? Maybe these pictures will give you an idea. They were made in Berlin at great personal risk to the photographer. Top, well-dressed, well-fed and altogether prosperous-looking residents of the Soviet Sector gather to chat in front of a Red Army war memorial. They're not Germans, but members of the Russian Military Government. The gorgeous raiment has been acquired since their arrival in Berlin. Contrast them to the Germans, middle photos, who have to scratch for a living and shelter in the rubble of their once-proud capital. The Russian officer, above, with his wife and child, were photographed while watching a Red Army parade.

CALGARY LIVESTOCK

CALGARY, Aug. 10 (CP) — A continued strong market for all classes of cattle was evident on the Calgary livestock market. Good butcher cattle were moving rapidly, and were 25 cents stronger for the week.

Sorting and grading on cows was a little easier, and prices were steady to a shade firmer, with a few tops at 13.50. Hogs were stronger yesterday. Receipts in all classes were comparatively light.

Early receipts today: cattle 310, calves 58. Receipts yesterday: cattle 1064, calves 103, hogs 198, sheep 108.

Hogs sold yesterday at $35.00 for A's at yards and plants; sows 18.25 live weight.

Good lambs 19.00-20.25; good ewes 6.00-7.50. Good to choice butcher steers 20.50-22.00, common to medium 16.00-20.00. Good cows 12.75-13.25; common to medium 11.50-12.50, canners and cutters 9.00-11.00. Good bulls 16.00-16.50, common to medium 14.00-15.50. Good to choice veal calves 18.00-19.50, common to medium 14.00-17.50 Good stocker and feeder steers 16.50-17.50, common to medium 14.00-16.00.

20 rails—47.72 up .41.
15 utilities—36.76 up .09.

LIVERPOOL, England (CP) — James McMellor, 17, didn't like his new job as deckboy aboard the troopship Orduna. He jumped overboard from the vessel, anchored in the Mersey, and was carried six miles by the tide before a barge picked him up.

Market Trends

TORONTO (CP)—Prices moved irregularly in the dullest session so far this week. A few industrials managed to show a firmer tone while base metals and golds reacted to selling pressure. Western oils were brought to a halt from two days of upturn as profit-taking cut into gains.

MONTREAL (CP)—Trading was slow. Securities continued to edge into slightly higher ground. Papers, utilities, oils and banks were strong. Mines were a dull section with a few scattered gains and losses, the latter holding a slight edge.

NEW YORK (AP)—A recovery movement rolled steadily onward chalking up gains of fractions to nearly two points.

VANCOUVER (CP)—Oils drifted downward while mines improved. Industrials and unlisted mines continued quiet.

LONDON (Reuters)—Yesterday's recovery in British Government stocks proved short lived. A further sharp fall in prices was recorded when the market came under heavy fire from sellers.

All visitors must leave their shoes outside when visiting the Taj Mahal, in India.

Peaches, Prunes, Pears Here For First Time

Housewives will be busy canning peaches now that the Okanagan three Vs and Rochester peaches are arriving at local stores and warehouses. The peaches made their first appearance during the week, along with Bartlett pear, and Italian prunes both coming from the Okanagan. Red and green peppers also from the sunny valley, made regular appearances while juicy Oliver cantaloups are being enjoyed.

Local produce of lettuce, carrots, and so on, were plentiful, but tomatoes have not yet started to sell. Coming from father South was one car of bananas and one car of oranges.

Fresh and cured meats of beef veal, lamb and pork were reported Wednesday afternoon to be in ample supply, with two regular cars arriving during the week.

Local eggs were still scarce and prices of Alberta and Coast eggs reached their peak at between 75 and 77 cents a dozen. However, prices were expected to drop shortly now that the local pullets were beginning to produce eggs.

Two cars of bulk grain, one car of flour and feed and one car of mixed feed reached local feed firms. More were expected in the coming week.

Last Rites Held For Wardner Man

CRANBROOK, B.C., Aug. 10 — Funeral services were held at Wardner Tuesday afternoon for Thomas Rivers, 67, who died Saturday at St. Eugene Hospital following a long illness. Rev. J. C. Gardiner of the United Church in Cranbrook conducted the services.

Mr. Rivers was born at Cooks, Mich., and in 1900 came to Canada and to Wardner where he has made his home ever since. He worked at logging and sawmill work for the Crow's Nest Pass Lumber Company at Wardner for many years, but had been in poor health for the past 15 years.

Four sisters survive him, Mrs. W. E. Bruce of Stockton, Calif., Mrs. Alfred Schule of Oregon, Mrs. L. Howard, Cranbrook and Mrs. H. Fitzsimmons, Wardner.

Kaslo . . .

KASLO, B.C. — Miss Jean McQuarrie is visiting Mr. and Mrs. H. R. Abey en route to her home at Meadow Creek from Victoria where she completed her Normal School course.

Mrs. Salmon and son of Victoria are visiting the former's father, H. Calvert.
