Years of Service to the Kootenay-Boundary – 1952

Vol. 51 NELSON, B.C., CANADA—TUESDAY MORNING, NOVEMBER 25, 1952 No. 173

WEATHER FORECAST

Kootenay—Cloudy. A few sunny periods this afternoon. Little change in temperature. Light winds. Low and high at Cranbrook 6 and 30, Crescent Valley 10 and 35, and Revelstoke 20 and 35.

Two Ridings Confirm Social Credit

Telephone Rate Increases Pressed

B. C. Government, 66 Municipalities Appear in Opposition at Hearing

OTTAWA (CP)—British Columbia Telephone Company told the Board of Transport Commissioners Monday it is of "pressing importance" that the company get temporary rate increases on a $2,451,000-a-year scale now and a bigger boost later.

A spokesman for the B. C. government and 66 provincial municipalities, opposing the increases, asked the board not to give any immediate increases on the basis of more than $800,000 a year. That would cut out proposals for higher rates on local exchange service.

The differing views were placed before the board as it opened hearings on the phone company's application for rates that would give it an additional gross of $2,959,000 a year.

INTERIM MEASURE

The company asked Monday that the board allow it—as an "interim" measure—an average increase of 12.2 per cent in long-distance rates, an increase in pay-phone rates to 10 cents from five cents a call and an increase of about 10 per cent in local exchange rates. That would yield it $2,451,000 a year.

The remainder of its requested $2,959,000 should be granted later, it was maintained, through a further increase in local rates to bring the 10 per cent up to 14.6.

Alfred Bull of Vancouver, counsel for the province and municipalities, urged that the board judgment based on the current interim hearings should grant no more than the long-distance and pay-phone increases "at the very most."

Pending the submission of evidence from rate-increase opponents—perhaps early next year—he called on the board not to take into account the company's request that it be provided with a surplus of $424,000 as an interim measure. This would place a "terrific burden" on phone subscribers, he said.

Mr. Bull's formal answer to the company application also declared that "the urgency for interim relief has been exaggerated." Since the company's financial estimate for 1952 indicated a small surplus, its financial position could hardly be said to be rapidly deteriorating.

Company President Gordon Farrell of Vancouver told the board that rates now in effect are inadequate to produce enough revenue to enable the company to give the necessary service and make it possible for B. C. telephone to raise the capital needed to expand services to meet demands.

In recent years, he said, it had been necessary for the company to draw heavily on its reserves.

Gilbert A. Kennedy, company comptroller, said earnings have fallen "far short" of what the board considered reasonable in a rate judgment last year. This had been caused largely by a $1,031,000-a-year wage increase obtained by employees this year. He said the interim relief asked for was of "pressing importance."

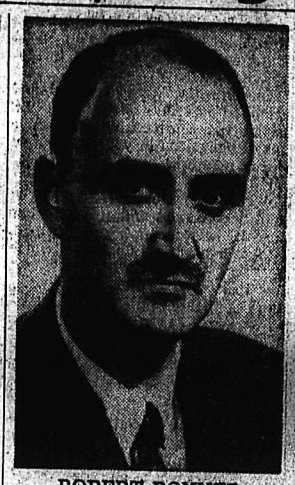
CANON WOULD PLAY GOD?

SMETHWICK, England (AP)—A Church of England clergyman says couples should get special licences to have children in this tight little island and that persons over 70 should undergo mercy deaths.

"Such steps", 63-year-old Canon Charles A. Lowe said in his parish magazine, "would mean that England would again become green and pleasant, and instead of a land of concrete bricks and mortar it could grow plenty to feed its moderate population."

The canon wants to raise the mental level of Britons and also cut their number to the point at which they could live solely on home-grown food instead of requiring substantial imports.

The unfit should be sterilized, he wrote, and no one should be permitted to marry before the age of 30.



ROBERT BONNER ... wins in Columbia

EINAR GUNDERSON ... wins in Similkameen

Bonner, Gunderson Victories Give Gov't 1-Seat Majority in House

VANCOUVER (CP) — Social Credit blitzed all opposition Monday to elect two cabinet ministers in two British Columbia byelections. It was the first test at the polls for the fledging Social Credit government.

Attorney-General Robert Bonner was elected in Columbia over CCF and Liberal opposition while Finance Minister Einar Gunderson won by a landslide in Similkameen constituency over CCF and Independent opponents.

The results restored Social Credit's one-seat margin over the CCF in the 48-member legislature.

The results:

SIMILKAMEEN

54 polls complete, first count decisive. Gunderson, SC, 5481; Kenyon, CCF, 3552; Klein, Ind., 134.

COLUMBIA

19 of 21 polls, first count decisive. Bonner, SC, 1046; Madson, CCF, 365; Keenlyside, L, 443.

Standing in the House now is: Social Credit 19, CCF 18, Liberal 6, Progressive Conservative 3, Labor 1, vacant 1.

The vacancy was caused by the recent death of Ernest Carson, Progressive Conservative house leader and member for Lillooet.

In the June 2 provincial election, Social Credit elected 19 members and the CCF 18. The Social Credit members for Columbia and Similkameen resigned to permit the two cabinet ministers to seek seats in the house.

Mr. Bonner and Mr. Gunderson, not previously elected members, were taken into the cabinet when the new Social Credit government found it had no members suitable to fill the two posts.

In the summer election, Social Credit won Columbia and Similkameen on third counts under the alternative voting system. Under this system, a candidate to win must have a majority of votes over all other candidates combined.

Social Credit Monday won on the first count, and no further counts were necessary to determine a winner.

GUNDERSON WON 36

Mr. Gunderson won Similkameen with 36 of the 54 polls counted. By that time, he had such a big lead over the other two candidates that he could not be overtaken even if one rival received all the votes remaining to be counted at that point. In June, Social Credit won by 44 votes after three counts.

The situation was much the same Monday in Columbia. With 15 of 22 polls counted in that riding, Mr. Bonner had a lead too large to be overcome by either of his opponents. The Liberal candidate was running second and the CCF third, as in June. In the summer contest, Social Credit won the seat on the third count.

CONFIDENCE OF PEOPLE

Mr. Bonner said in a statement:

"The people of Columbia have decided against socialism and the people of the province will be thankful for their decision. We in Social Credit will do our best to warrant the confidence of the people."

Mr. Gunderson said his landslide victory was a forecast of the next provincial general election, expected next summer.

The finance minister said he was elected by Liberal and Progressive Conservative as well as Social Credit votes.

"The same thing will happen in the next general election," he said. "This was not an election of the individual. It was private enterprise against socialism."

The Canadian Press reported the election of Mr. Gunderson at 9:17 p.m. PST, one hour and 17 minutes after polls closed, and of Mr. Bonner at 9:32, one hour and 32 minutes after close of polls.

In the summer general election, the final result was not known for 29 days, 18 hours and 43 minutes after polls closed at 8 p.m. June 12.

Start of the second count at that time was delayed three weeks to permit allocation of absentee ballots.

76 PERCENT VOTE

Total vote cast Monday was not as heavy as anticipated but was about the same as in the summer election, when some 76 percent of the electorate turned out. In Similkameen, 10,718 cast ballots Monday compared to 10,723 in June. In Columbia, it was 1929 compared to June's 2215.

Some 15,000 were eligible to vote in Similkameen and 3000 in Columbia.

8 KILLED IN BOMBER CRASH

Lancaster Crashes Near Comox With 10 Persons Aboard

COMOX, B.C. (CP)—An RCAF Lancaster bomber with 10 persons aboard crashed and burned Monday night at the edge of Comox airport. The pilot and co-pilot were the only survivors.

The two airmen, whose names were not released, were taken to the hospital at this east coast Vancouver Island base and a spokesman said both would live.

The plane's manifest showed 14 persons aboard, but the RCAF said a check showed four of them did not board the bomber.

Wreckage of the plane was still burning Monday night and investigators will have to wait until the flames die before probing the wreckage.

The big bomber, which normally carries a crew of seven, was on its final approach to the runway when it plummetted into brush a quarter-mile from the field and caught fire.

Record Year for Canada Exports

OTTAWA (CP) — Canada's exports for the first nine months of 1952 climbed above the $3,000,000,000 mark for the first time. But there were indications that the exports drive may have hit its peak.

Nevertheless trade officials confidently predicted Monday that exports for the full year will set a record, well above last year's $4,000,000,000.

The bureau of statistics estimated the nine-month total at $3,180,700,000, an increase of more than $350,000,000 over the previous high of $2,828,200,000 last year.

With imports slipping from the post-war peak of 1951, Canada produced a foreign trade surplus of $235,100,000 for the nine months, a dramatic reversal of the $323,800,000 deficit last year.

686 SOLDIERS BACK TO CANADA

By RICHARD DAIGNAULT
Canadian Press Staff Writer

QUEBEC (CP) — The first segment of Canada's peacetime army to return from Germany arrived Monday aboard the liner Neptunia, generally happy over their one-year soldiering experience.

The 686 men and officers, members of Canada's 27th brigade, lined the decks of the ship and cheered as the Royal 22nd Regiment band swung into "Lili Marlene."

Drew Attacks CBC On Television Delay

OTTAWA (CP)—George Drew, Progressive Conservative leader, said Monday in the Commons it is clear from government statements that large parts of Canada will be without television for some years.

Mr. Drew said the restrictive practices of the CBC "have denied many Canadians the right to see television for some years to come." And many Canadians were being forced to pay taxes so TV can be supplied others in a few cities.

If the CBC had let private TV into the picture earlier, all Canada now would be getting TV free.

Mr. Drew asked the government to review the situation.

Wilson Brothers Hang in January

VANCOUVER, Wash. (AP) — A Jan. 3 execution date was set Monday for the Wilson brothers, the fourth time they have had a date with the hangman. Appeals delayed the execution dates three times previously.

Utah and Turman Wilson, convicted of the kidnap-slaying of 18-year-old JoAnn Dewey here in 1950, were taken back almost at once to the state prison in Walla Walla, where the hanging will take place.

$100,000 Damage In Tofino Fire

CALGARY (CP)—A fire at the RCAF Tofino air station on the west coast of Vancouver Island Saturday destroyed the mechanical equipment section and eight vehicles, Air Force officials here said Monday.

No estimate of loss was available but previous reports put it about $100,000.

Russia Rejects India Proposal

UNITED NATIONS, N.Y. (AP) — Russia rejected Monday an Indian compromise plan for ending the Korean prisoner-of-war deadlock while State Secretary Dean Acheson of the United States hailed the plan as "important and statesmanlike."

Acheson said, however, there were many drafting changes necessary before the U.S. could accept it completely.

Soviet Foreign Minister Andrei Y. Vishinsky's sweeping denunciation of the plan before the UN's 60-member political committee cast gloom over the group.

Acheson said those delegates who felt "a moment of despair after listening to Mr. Vishinsky were fully justified."

But "the moment must pass . . . No nation, no matter how powerful can long stand against the combined moral powers of the world."

Allies Regain 2 Vital Outposts

SEOUL (AP)—Allied troops regained two important outposts on the central Korean front today while units of the Commonwealth division raided Chinese positions in the west and escaped a Red trap.

The U.S. Eighth Army reported an Allied counter-attack recaptured two outposts on Jackson heights, at . they fell before a strong Communist assault Monday night.

On the western front, a coordinated raid by units of the Royal Fusiliers of London and the Royal Australian Regiment lasted eight hours Monday night and early today. The Britons and Australians withdrew after shooting up Chinese positions.

2 Brothers Drown

REVELSTOKE, B.C. (CP)—Two young brothers broke through the thin ice on the Illecillewaet River here Sunday and were drowned. They were Marvin Schmidt, 10, and George, 7, sons of Mr. and Mrs. David Schmidt of Revelstoke.

Water Levels

	1952	1951	1948
Nov. 24	5.48	7.78	4.90

DOLLAR UP

NEW YORK (CP)—The Canadian dollar was ⅛ cent higher at a premium of 2 5/32 per cent in terms of U.S. funds today. Pound sterling was unchanged at $2.80.

Sorokin Makes Second Trip to South America

VANCOUVER (CP)—Stefan S. Sorokin, spiritual leader of the Reformed Sons of Freedom Doukhobors, is en route to Uruguay in search of a new home for his charges. It is his second trip to the South American country.

He seeks new farmlands for the 2000 Sons of Freedom, whose relocation from their Kootenay homes was recommended some months ago by a government consultative committee.

It was reported here Monday that some 200 Doukhobors seek visas, but F. C. Reif, Uruguayan consul at New Westminster, B.C., could not confirm the report. The applications might go directly to New York, he said.

REFUSED PERMISSION

The Sons of Freedom, who have waged a campaign against man-made laws over the years, have been refused permission to enter many countries, including Russia, from where their forefathers came.

The Society of Friends (Quakers) and the consultative committee have been cooperating with Sorokin, who came to Canada from Germany two years ago.

Employment Hits Seasonal Lag; Mines Find U. S. Market for Ore

Although payrolls are being reduced in the Nelson area employment decreases here show only the normal seasonal slow-down.

In a report from the local office of the Unemployment Insurance Commission, Manager George Bevis states Summer employment opportunities had been exceptional and unemployment was at a normal level for November.

During the week of November 14 to 20 inclusive, a total of $2,750 was paid out in benefits. This amount will ultimately help to offset the cut in payroll income to the Nelson area. Recent figures released by the Local Office of the Unemployment Insurance Commission show that a total of 459 persons are registered for employment and of these, 401 are in receipt of benefits. Comparison of figures for the corresponding month in 1951 reveals that during the five-month period June to October, approximately 550 vacancies were listed with the National Employment Service, with 1210 placements being effected.

UNPREDICTABLE

Employment conditions in the Nelson District are somewhat unpredictable at the present time. This is due largely to a lack of stability in the base metals mining industry. As a result of the past dry Summer and Fall a critical power shortage developed, causing the C. M & S. Co. at Trail to reduce acceptance of concentrate from producers by 25 per cent. The impact of this restriction was immediately felt in this area. A number of the smaller mining operators were no longer able to produce profitably, and have suspended activities, while one other fairly large producer has set December 15 as a closure date.

FIND U. S. MARKET

This situation has been offset to some extent in several instances where operators have found ultimate markets in the United States and are producing presently on an export basis. These producers are still interested in fully qualified underground mining men.

Logging and construction activities in the district are being curtailed. This follows the normal pattern for this time of year in these industries. Work on one large building project is expected to continue throughout the Winter but the approximate number of workers required will be 20 as compared with the present 50.

12-Hour Curfew In Bagdad

BAGHDAD, Iraq (Reuters) — This ancient capital was under martial law Monday night enforced by armored car patrols, but demonstrators still summoned the courage to shout anti-government slogans.

Troops with machine-guns enforced a 12-hour curfew, starting at 6 p.m., and prevented repetition of weekend demonstrations. They fired machine-guns in the air to disperse curfew breakers.

Before the curfew closed down on the city demonstrators flocked to the funeral of victims of Sunday's clashes. They mingled with mourners waving banners with inscriptions such as "down with capitalist—down with imperialists and their slaves." They also yelled anti-government slogans.

Customers Name Their Price

VICTORIA (CP) — Victoria restaurateur Paul Arsen's cash registers beat a lively rhythm Monday, but his customers called the tune.

His Dominion and Sussex cafes were embarked on a week-long system of letting customers pay what they want for the meals they order.

"So far today our business is double the ordinary trade," he said.

"People are getting a kick out of operating the cash registers. All we do is give them help if they need it.

"In nearly every case people left more than they should."

"One party of six had $1.50 worth of breakfast and paid $3. They can see on the menu what the usual price is—I can't understand it."

Waitresses are all in favor of the scheme. Well before noon they had collected as much in tips as is usual for a full day's work.

Government to Boost Gold Mine Subsidies

OTTAWA (CP) — The government has decided to tap its treasury for an additional $4,000,000 a year to boost subsidies to Canada's hard-pressed gold mines in 1953.

Finance Minister Abbott announced the move in the Commons Monday. He said he hoped it would halt a procession of mine shutdowns caused by climbing production costs and low returns.

Legislation to revise the payments program under a complicated cost-aid formula will be introduced during the current session.

Officials estimate that the subsidy increase, effective Jan. 1 next, will average about $1 a fine ounce of gold produced, increasing the government's average payment in 1953 to about $3.50 a fine ounce from $2.50.

If the exchange value of the Canadian dollar keeps at its current level, the boost should give the average producer about $38 a fine ounce in 1953, just a little below the $38.50 he received before the Canadian dollar was set free in 1950.

Lower U.S. Tariffs Would Help Trade

By The Canadian Press

A booklet published by the Detroit Board of Commerce has struck a responsive note among Canadian trade experts.

The board says many sore spots in international trade could be cured by sharp reductions in United States import tariffs to give other countries a better chance at the rich U. S. market.

Canadian trade experts realize that the solution of many vital issues arising in 1953 rests mostly in the hands of the U. S. They say they would feel much happier if the rest of the U. S. felt as Detroit about world conditions.

Employees Representative Here . . .

5-DAY WEEK CHIEF REQUEST IN CIVIL SERVICE 5-POINT BRIEF

Request for a 5-day, 40-hour week for provincial civil servants will be the major item in a five-point brief to be presented to provincial Cabinet representatives Dec. 1 by the B.C. Government Employees' Association.

The Association's assistant general secretary said Monday in an interview that if the Government granted the long-standing request for a shorter working week, "the Association is prepared to work with the Government to implement it without any serious disruption of service to the public."

The provincial employees' representative, A. C. Bennett, arrived in Nelson Sunday in the course of his annual trip through the province, which is intended to provide liaison between Association headquarters and the membership-at-large.

Mr. Bennett will have conducted about 30 interviews with provincial employees in Nelson by the end of the week. He plans to break his visit here by spending Wednesday in New Denver.

NO PATRONAGE

One purpose of his trip has been to check any suggestion of patronage, Mr. Bennett said, adding that so far "patronage has been conspicuous here by its absence."

Provincial Secretary W. D. Black, Labor Minister Lyle Wicks and Finance Minister Einar Gundarson, who are the three Cabinet representatives on the permanent Cabinet-Association committee, will be presented with the following five requests Dec. 1:

1. A five-day, 40-hour (maximum) week;
2. The right to independent arbitration (at present B.C. civil servants have no appeal from a government decision in disputed cases);
3. Changes in the Civil Service Act to permit of permanent appointments for those hired when over 45, and the raising of the retirement age for women from 60 to 65;
4. Increase in superannuation allowance;
5. Semi-monthly instead of monthly pay.

"If there is no agreement on the five-day week," said Mr. Bennett, "the Association reserves the right to appear before the Cabinet as a whole." He felt that chances of agreement on principle were favorable.

Mr. Bennett said the Employees Association will also press for an improvement in status for casual and steady employees (i.e. all those not classed as permanent civil servants). Under a new plan, such employees would be entitled to one day's paid holiday for every 23 days worked during the previous year. At present 240 days must be completed before an employee is eligible for any holidays.

The three employees' representatives on the Cabinet-Association committee, which meets monthly, are Association president Carl Houck, general secretary E. P. O'Connor and Mr. Bennett.

Mr. Bennett will meet with officials of the Nelson branch this week, and visit the staffs of the B.C. Forest Service, the Public Works Department, the District Engineer's department and other provincial employees here.

Staff Sgt. Charged With Conspiracy

TOKYO (AP) — The Far East Air Forces today charged Staff Sgt. Guiseppe Cascio, 34, Tucson, Ariz., with conspiring to sell secret flight test data on the top U. S. jet plane in the Korean theatre.

The secret data involved performance tests of the F-86 Sabre jet.

Possibly the secret data involved performance tests of improved models which have been credited with giving U. S. jet airmen a bigger edge over the Communist MiGs. U. S. jet airmen, by air force count, have run up an 8-1 score over Communist fliers in jet planes shot down.

Heavy Taxation, Lack of Health Insurance Plan Scored in House

OTTAWA (CP) — Two opposition parties in the Commons charge the government with "excessive taxation" and with "failure" to inaugurate a national health insurance program.

Their views are set forth in want-of-confidence motions moved Monday.

George Drew, Progresive Conservative Leader, sponsored the taxation motion in launching debate on the address in reply to the speech from the throne, read Thursday at the opening of the new session.

Mr. Drew's motion charged the government with "excessive and unjust taxation . . . waste and extravagance." It said the government had "failed" to take steps to regain British markets; to inquire with the provinces into the question of national health insurance; or to reach agreement with the provinces on a reallocation of tax fields."

M. J. Coldwell, CCF leader, moved the second motion in the form of an amendment to the Progressive Conservative proposals.

It would eliminate the last two points in the Progressive Conservative proposal and substitute a section saying the government had "failed" to recommend establishment of a national health insurance program with provision for provincial administration. The government also had "failed" to implement the health insurance proposals made to a federal-provincial conference in 1945.

Prime Minister St. Laurent speaking after Mr. Drew, said he does not believe there has been any "mismanagement of the Canadian economy or over-taxation." He did not mention social security. He said he had made a review of proposals by Progressive Conservatives. Savings proposed by them would amount to $116,000,000 a year. But new services requested would add $600,000,000 a year to the federal budget.

LEAVING TODAY

In a 24-hour speech, Mr. St. Laurent referred to his departure today for the conference of Commonwealth prime ministers in London. Canada would endeavor to work with other Commonwealth representatives to find ways to remove trade restrictions.

"We are not going to attempt to tell them how they should go about it," said Mr. St. Laurent.

Mr. Drew said there should be a free interchangeability of currencies. Mr. Coldwell said Canada must assist non-dollar countries to market exports in North America and Canada and the United States must achieve a better import-export balance with the sterling area.

Solon Low, Social Credit leader, accept sterling in payment of exports to the United Kingdom.

Mr. Low, who will continue his speech today, said the "socialists" have been over-eager to catapult the country into a national health insurance plan before the means and facilities for it are available. Mr. Drew suggested an inquiry into the health insurance question should be conducted by the representatives of the medical profession, hospital boards, the federal, provincial and municipal governments.

"Without such an inquiry this problem cannot be tackled," said Mr. Drew. "There would be no satisfactory basis for agreement among the federal, provincial and municipal authorities."

Mr. Coldwell said no further investigation is needed. There had been numerous investigations and many reports about it, but nothing had been done.

"The failure of the government to adopt legislation to this effect constitutes, in our opinion, a denial of the wishes of the majority of Canadians."

At one stage, Mr. Drew called on Prime Minister St. Laurent to give the basis for the statement in the speech from the throne that "there has been a lessening of fear of global war."

Mr. St. Laurent said there has been a lessening of fear of global war since the early days in Korea. However, the government has no plans to lessen efforts to build up joint Atlantic Pact strength.

Mr. Drew criticized what he described as "unchecked extravagance" in the defence effort. Mr. St. Laurent said some orders for mobilization stores might have been too big. He attributed this to the fact that Defence Minister Claxton and his deputy minister do not see all the orders that go out.

After the Korean war started there was fear of general war and many recalled that in the last world war Canada was caught with inadequate military supplies. With this in mind, defence purchasing officers may have ordered more of some things than the minister or deputy minister would have sanctioned if the orders had come to their attention.

And in This Corner . . .

PHILADELPHIA, Pa. — Trolley Motorman Albert J. Cooney of Philadelphia can't be blamed too much if he looks the other way the next time he has a chance to play good Samaritan. Cooney saw flames shooting out of a house, stopped his trolley car and turned in a box alarm. He continued his run and three minutes later met the fire truck as it raced to the fire he had reported—met it head-on. Five firemen and three trolley passengers were injured.

JOHNSON CITY, N.Y.—Mrs. Irene Collins, of Johnson City, N.Y., was in a hurry to get home. So when a standing freight train blocked her way, she started to crawl under one of the cars. The train started up. Mrs. Johnson flattened herself out on the ground and lay motionless between the rails while 25 cars rolled slowly over her. She wasn't injured, but she was late getting home, after all.

ST. LOUIS, Miss.—The average patient can expect to wait a while when he drops in to see a doctor without an appointment. But Gus Smith found not one but a group of doctors actually springing to attention when he dropped in on them in St. Louis one day. Gus, a maintenance man, made his entrance via a glass ceiling in the City Hospital and landed on a conference table surrounded by physicians.

Taxpayers Sign Petition . . .

Council Asked to Keep Chatham Lots for Park

A petition, signed by 82 taxpayers asking the City Council to reconsider the sale of the lots at Chathem and Front Streets, was read Monday.

The petition pointed out that the lots have been used as a playground for "over 30 years". It asked Council to take the necessary steps to preserve this property as a playground for children.

Alderman George Eckmier, chairman of the public works committee, reported that an interested purchaser had been found. This man, Alderman Eckmier said, had in mind a $40,000 to $50,000 investment. A suggested offer of $2000 has been made for the property.

"I hate to see the city sell the property," Alderman Elizabeth Wallach said, "we don't like to see children play on the roads and here is a place for them to play."

"Children should be given playgrounds," Mayor Joseph Kary agreed but he added, this property is "not big, not the best playground and is close to the highway."

Because of insurance reasons, children are not allowed to play on the school grounds after school hours, it was pointed out. This property is near the Hume Shcool where, it was suggested, children using the lots could play, if the property was not sold.

Council tabled the petition for further study of the insurance system connected with play on school grounds.

Council Favors Construction Of Toll Bridge

City Council Monday night went on record as favoring construction of a toll bridge across the West Arm here.

The resolution will go to Hon. P. A. Gaglardi, provincial minister of public works, and a copy will be sent to Hon. W. D. Black, MLA for Nelson-Creston.

Nelson Chamber of Commerce recently passed a resolution advising Mr. Gaglardi it is in favor of toll bridge construction, providing tolls are not excessive.

Ald. George Eckmier said "we would all like to see a free bridge, but that's impossible, so let us endorse this." Ald. Arthur Foster agreed, but felt that if equity was to be established in the province, other bridges should be constructed on a similar basis.

Ald. W. S. Smith did not oppose the move, but was of the opinion that the people here and on the North Shore would be consulted before a toll bridge was built. The government, Mayor Joseph Kary said, was consulting as many organizations as possible.

Nelson Man Injured In Alberta Accident

Constable Lorne McCallum of 306 Carbonate Street stationed near Gleason, Alberta, is in serious condition in hospital following a highway accident.

His mother is in Calgary where Const. McCallum is in hospital. He joined the R.C.M.P. here in July, 1951.

BEG Rowing Here Balances on Coast Financing

No further word has been received on Nelson's bid for the rowing events of the British Empire Games.

The Games Facilities Committee in Vancouver recently made a decision in favor of using Vancouver's Burnaby Lake for the events, and a campaign is under way to raise the large sum of money needed to prepare the site.

H. A. D. Greenwood, president of the Nelson Rowing Club, who has been active in the efforts to secure the events for Nelson, said Monday that if not enough money is raised to carry through plans for Burnaby Lake, Nelson stood a very good chance of being selected as the site.

Nelson Chamber of Commerce is continuing its efforts to have the events held here.

200 Hear Music Pupils' Recital

A successful piano and singing recital was held Friday when 27 elementary school pupils of Nelson and district performed at Trinity Church, bringing enthusiastic appreciation from an audience of about 200 people.

The recital was held under the auspices of the Registered Music Teachers Association, Nelson branch, chaired by Mrs. R. Bain Oliver.

Pupils who sang were Sandra Cotterell, Gael Graves, Peggy Wright, Alex Hanna, Dick McElroy, Alan Baker, Don Livingstone, Billy Harrison and Bruce Blakeman.

Heard in a piano trio were Fred and Ernie Wah and Fred McClelland. Duets were performed by Wendy and Cathie Herbison, Marilyn Kary and Jay Paterson, and Carl and Rodney Swan.

Solo players were Lynne Peachey, Ernie Wah, Louella Bate, Joan Glazier, Robin McFadden, Frances Johnson, Jean Street, Roberta Box, Rhoda Smith, Leslie Waldie, Marjorie Elsner, Barbara Martin, Arnold Bate, and Beth Stenson.

EDMONTON (CP) — Johnny Mitchell, Detroit Red Wings trouble-shooter, has arrived here to try to help Coach Bud Poile of Edmonton Flyers get the Wings' No. 1 farm club back into contention in the Western Hockey League.

Top Salvation Army Band in Making

Airport Figured Within $83,500 of Completion

The Dominion Government won't spend any more money on the Castlegar airport this year but prospects of expenditures next year are good.

Ald. Arthur Foster, Nelson's representative on the three-municipality Castlegar Airport Committee, Monday night showed Council a letter from Hon. Lionel Chevrier, minister of transport, in reply to a request for an additional grant.

The minister said he appreciated the need for further development of the airport if heavier aircraft are to use it next year, and acknowledged the "splendid progress" made by the committee with the funds available.

District officials have estimated it will cost $83,500 to satisfactorily complete the work.

"I shall be in a much better position next Spring to see what can be done to assist you," he stated. Meanwhile, the representation would receive his careful consideration.

A grant of $12,600 was spent this year on paving, gravelling and oiling and an additional $3000 was also used.

Ald. Foster said Canadian Pacific Airlines, whose planes use the field daily, and the department of transport, speak favorably of the airport. "We can look to further development at Castlegar in a year or two."

The committee intends to renew its request for further financial aid after the new year.

Since Major D. H. Hammond left more than 10 years ago, Nelson's Salvation Army citadel has been minus a well-organized band.

This was the case, at least, until Lieutenant E. C. Stokes came here a few months ago from the Peace River country.

Lt. Stokes, who has played in Army bands for 18 years ("ever since I was a youngster"), had been away from band work for four years. The last time he had played was with Victoria citadel as solo trombonist.

But he decided that talent was available here, and that a good band would be a credit to the local citadel.

Instruments were still around from Hammond's days, and Lt. Stokes had considerable prospective playing material in young Salvation Army members.

CHRISTMAS APPEARANCE

Weekly practices were started in mid-September, and in the two months between now and then, Lt. Stokes has worked up a band which he hopes will make its debut for Baker Street carol singing at Christmas.

It has 12 members, seven girls and five boys, all of them as enthusiastic bandsmen as you could find anywhere. One has played with the Nelson schools band. Five of the players belong to one family.

"It's an all-brass band," Lieut. Stokes says. "The kids play everything from a cornet to bass."

Their leader can play all instruments, so is fully qualified to build up a band.

PERFECTIONIST

He won't have his band performing in public yet, however. "They're playing nicely now, but I'd like to have them really good before Nelson people hear them."

The band will play for street-corner services and Army functions in the citadel. A smart, lively and well-trained band is a "drawing card" for any citadel, their leader feels.

Civic Action Candidates on Stage Tonight

As the pace of campaigning prior to December's civic election quickens, Nelson Civic Action Association tonight will present its candidates to the public.

The three aldermen, three school trustees and one police commissioner who are seeking reelection on Civic Action tickets will be introduced at a meeting in Capitol Theatre.

They will speak briefly on their tasks during their terms of office, and their plans if they win reelection.

They are Aldermen Arthur Foster, W. S. Smith and George Eckmier, trustees George Mermet, P. H. Hoskins and L. M. McBride, and police commissioner Edward Stromstead.

The executive of the sponsoring organization, which came into existence before last year's civic election, has announced it will retire, and a new 15-member executive will be chosen.

Jaycees Launch Aid to New Citizens Program

The Junior Chamber of Commerce is planning a project to aid new Canadian citizens.

Headed by Tom Hackett, the Immigrant Affairs Committee is comprised of Ted Allan and Gordon Olson. Although no definite program has been developed, the newly formed committee is expected to launch a study of various types of programs at an early date.

At present, members are studying pamphlets outlining a variety of possible projects for such a committee to undertake. They will also write for additional information to the Department of Immigration at Victoria.

R.C.M.P. Search For Hit-Run Driver

R.C.M.P. are seeking a hit and run driver who Saturday sideswiped a truck three miles West of Nelson on the South Trans-Provincial highway.

The side of the truck, driven by A. McLean of Nelson was bashed in by the passing auto. Both vehicles were heading West.

15 DAYS JAIL FOR TRESPASSING

John M. Neuman of Calgary chose 15 days hard labor in Nelson Provincial jail Monday after pleading guilty to occupying a Canadian Pacific Railway car for his own purposes.

Neuman pleaded guilty to the charge before Magistrate William Brown in city court Monday and was sentenced to 15 days in jail or a $10 fine.

ASHES ON OLD RAGS CAUSE BLAZE

Ashes falling on old rags stored in the basement resulted in a fire call Monday afternoon.

No damage resulted when Mrs. H. W. McLelland of 811 Third Street carrying ashes from the kitchen stove to the basement dropped some on rags causing them to ignite.

The fire department was out 11 minutes on the call that came at 5:25.

TORONTO (CP) — Jim Coleman, well-known sports columnist, has been appointed publicity director for the Ontario Jockey Club tracks at Woodbine and Fort Erie, it was announced Monday.

RISING COSTS HIT CITY COUNCIL

Worried about rising costs?

Last week City Council passed a motion authorizing purchase of a starter for a caterpillar diesel. The price then was given at $110. Monday it was brought up again. The price now is $255. It seems the price had gone up since council last investigated the starter purchase.

So Council passed last week's motion "upping the price."

Road Safety Advocate Here

Promotion of traffic safety is the objective of H. J. Dickson, of Vancouver, a visitor to Nelson.

Mr. Dickson, the Western Canada representative of Canadian Police Gazette, an independent monthly magazine, is on a tour of B.C. which takes him to the police departments, schools, service clubs, newspapers and other interested organizations in various centres, in an effort to promote safety measures.

More than 25 school safety patrols, for example, have been organized in the province this summer as a result of the magazine representative's efforts.

Wherever possible, Mr. Dickson cooperates with local newspapers and merchants in the display of accident pictures in order to drive home to the public what can happen to reckless drivers.

"A lot of credit is due to the police forces," he said, "for their programs of traffic safety, youth guidance and school patrols."

An expected 30 per cent increase in traffic accident figures for Canada this year points up the need for safety measures. In 1951, in the country's 133,000 motor vehicle accidents, 30,000 people were injured and 2230 killed — an average of six a day.

Mr. Dickson came to Nelson Nov. 19 from Trail, and leaves this week for Cranbrook.

$100 DAMAGE WHEN BACKS INTO CAR

R. E. Webber of Nelson, backing his truck from his Fall Street yard, crashed into a parked car causing between $100 and $125 damage on Nov. 14.

Charged with driving without due cars and attention, he appeared in city court Saturday before Magistrate William Brown, pleaded guilty and was fined $10.

The parked car was owned by Mrs. D. McKay. The truck was undamaged.

ALUMINUM has been flying high in civil and military aircraft for a good many years. Recently Prof. Pierre Demers of the University of Montreal found a new use for this air-borne metal. He used aluminum to encase a camera which he sent aloft attached to a hydrogen-filled balloon in order to photograph cosmic rays, ten miles up in the cold and empty stratosphere.

From the luxurious interiors of modern transports to the white-hot heart of a jet turbine engine, aluminum is lending its lightness and strength to Canada's aircraft industry. Aluminum Company of Canada, Ltd. (Alcan).

To Tackle Vernon Street Wall Again In Spring; Close Road 'Til Cement Cures

The pouring of concrete has been completed and only a week's general clean-up remains to be done in this Fall's work on the Vernon Street wall.

The final 135-feet of wall, extending what has been done as far as Hall Street, will be undertaken in the Spring.

Five men will be on the job for another few days, removing the false work and applying just enough back filling to keep the present excavation from sloughing.

The full earth load will not be put on the wall until about mid-Spring, and the section of Vernon Street will remain closed through the Winter.

G. G. Lake, public works superintendent, explained that the earth load could not be put on until the concrete reaches full strength after a "curing period." Concrete does not strengthen in cold weather, and a month of continuous mild weather in the Spring will be needed before the job can be finished.

Retired Business Man J. T. Andrews Dies at 78; Came to Nelson in 1910

One of Nelson's early residents and well-known florists, J. T. Andrews, died at his home here Monday. He was 78 Nov. 1.

Mr. Andrews came to Nelson from Kenora, Ont., about 1910 and was at one time an active member of the Church of the Redeemer in Fairview where he played the organ and was a member of the church board.

Upon his arrival in Nelson, Mr. Andrews bought and operated the Star Grocery before going into the florist business. His first shop was on Ward Street where Vogue studio is now located. He later moved his business to Baker Street where Allen's Art Shop is located today. At that time Mr. Andrews lived on the North Shore. Upon his retirement over 10 years ago he moved to the Medical Arts Building. He was president of the Medical Arts Company.

Born in London in 1874, Mr. Andrews was a baker before coming to Ontario in 1907 when about 25 years old.

In Kenora he ran a wholesale grocery business.

THEATRE INTERESTS

Mr. Andrews had an interest in a Penticton theatre and was part owner of the Rossland theatre at the time of his death.

In later years he was a member of St. Saviour's Pro-Cathedral.

Surviving is a son, Leslie of Vancouver, a daughter, Betty Jane, married and living in Seattle, and a granddaughter, Miss Dorothy Andrews of San Francisco.

the retreat from 'leftism' continues

In Australia and New Zealand, in Britain and most Western European countries, and now in the United States voters have turned from leftist experimentation to governments that believe in returning power to the people themselves.

In other words, throughout the free world so-called planned economy by governments is yielding place to planning by those who take the risks of enterprise and have the capacity for leadership.

If British Columbia can prove to the world it is in harmony with this world-wide trend, it may well hope to continue attracting the investment money vital to its progress.

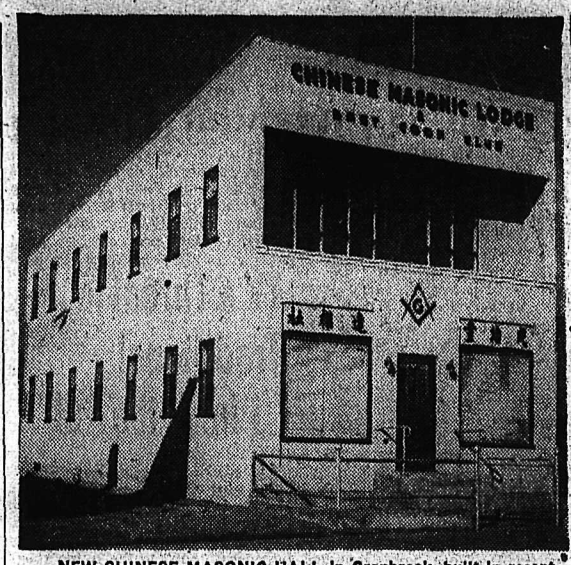
Natal Waltonian Lands First Place in Derby

NATAL — Some of the old reliable and veteran sportsmen made good use of the final week of fishing to practically cinch the fish derby sponsored annually by the Natal-Michel Rod and Gun Club, after lagging behind with the heaviest species of fish caught during the season.

The veteran Joe Mogielka of Natal, who has been in the running for the different prizes during the past few years, came out on top in the Kamloops Trout species, landing one reported to have weighed 16 pounds and 4 ounces. During the same time the old partnership of Steve Jocko and Joe Jarina of Natal-Michel came through during the few remaining days left in the fishing season to land a Kamloops weighing 14 pounds and 4 ounces, the former making the haul. This Kamloops trout was good enough to take second place in the derby, the first place going to Mogielka with the 16-pounder. Both these fish were caught at Manustee Lake, one of many small lakes situated in the East Kootenay district.

Throughout most of the season, the top place for the heaviest Kamloops trout caught was that of Cliff Salahub of Natal, a nine-pound, one ounce beauty. This fish however will still cop the special Grave Lake prize for the heaviest Kamloops trout caught in that lake, situated 15 miles West of Natal up the Elk Valley and rapidly becoming a favorite resort for the people of Natal-Michel and the Crow's Nest Pass.

The Natal-Michel Rod and Gun derby also includes prizes for the heaviest Cutthroat trout, Eastern Brook trout, Bull trout and Grayling, besides the Kamloops trout and Grave Lake special for Kamloops trout. The only fishing permitted at the present is for Grayling or Whitefish, which are open the year round.



NEW CHINESE MASONIC HALL in Cranbrook, built in recent months to replace 30-year-old headquarters destroyed by fire early this year, will be officially opened today. More than 100 representatives of Cranbrook organizations, including City Council, and Chinese Masonic leaders from Vancouver, Victoria and Montreal, will be on hand for a banquet and entertainment in the traditional manner.

Emerald Curling Rink To Be Finished Soon

EMERALD MINE — Curling experts in Nelson, Trail and other Kootenay centres had better look to their laurels!

People in this mountain-top mining camp, where Winter comes early and stays late, are building themselves a natural, two-sheet curling rink.

The Canadian Exploration Company has provided materials for the rinks and club room, and members of the Recreation Club's curling branch have scouted up volunteer labor and pitched in themselves.

The result? A rink by the end of this month, Emerald's first.

Materials have cost between $6000 and $8000, it is estimated.

Bouquets for the new rink go to Ralph Stevens, and Mac McDermid, along with C. W. Ball, chairman of the curling branch.

Membership is expected to reach about 100, as the Recreation Club takes in all residents of the community. It's the service clubs and amusement organizations of other communities rolled into one.

The curling promoters received a heavy setback recently when the Emerald staff house was levelled by fire. Only three rocks of nearly 40 bought for the opening season and stored in the staff house were not irreparably damaged by cracking from the intense heat.

New ones have been ordered, however, and are expected to arrive in time for first throws.

11 Choirs for Carol Singing

Nelson's three Parent-Teacher Associations will join to present their fifth annual carol singing at the Civic Centre Dec. 14.

Eleven choirs will participate in the pre-Christmas concert, five from service clubs, five school choirs and the P.-T.A. choir. Audiences also participate in the singing.

A practice of the P.-T.A. group was held Sunday in Central School. Convener of the concert is Mrs. A. L. Stevens.

Democratic Rights League Names Muir

TRAIL — West Kootenay branch of the League for Democratic Rights elected W. C. Muir, chairman, and J. A. MacDonald, secretary-treasurer at a membership meeting in Trail. F. E. DeVito was added to the executive as vice-chairman.

The meeting discussed at length the aspects of Bill H8 and its impact on the civil liberties now accepted as traditional by Canadians and decided to continue efforts to publicize its fight to prevent passage of the bill in the House at Ottawa. It was decided to get a transcription of an address of Roscoe Rodd, national chairman, for use in furthering the league's views on the bill.

The membership has pledged itself to solicit funds in order that the league can carry on the fight against the "undemocratic Bill H8."

You can't go ALL-OUT

IF you feel ALL-IN
These days most people work under pressure, worry more, sleep less. This strain on body and brain makes physical fitness easier to lose—harder to regain. Today's tense living, lowered resistance, overwork, worry—any of these may affect normal kidney action. When kidneys get out of order, excess acids and wastes remain in the system. Then backache, disturbed rest, that "tired-out" heavy-headed feeling often follow. That's the time to take Dodd's Kidney Pills. Dodd's stimulate the kidneys to normal action. Then you feel better—sleep better—work better. Ask for Dodd's Kidney Pills at any drug counter. 88

Pioneers Write Of Castlegar's Early Days

CASTLEGAR—The history of Castlegar "from arrowheads to industry" is being written by the Kiwanis Club of Castlegar. First edition of The Castlegar Historical Review has come off the press and is now being circulated.

A handsome 12-page magazine has been produced by the club, which, in its lead editorial, says its purpose has been to "preserve some of the colorful past out of which has grown the bountiful present."

Little has been missed by the editors of the historical review, and they have promised later editions to go further into the rich past of "The Cross Roads of the Kootenays."

Three long-time residents of the district have contributed articles to the review. Mrs. T. R. Bloomer has told of her arrival in Trail in 1901 and move to West Robson the following year. She has recounted how all the shacks of the town were dismantled and shifted to Castlegar when the CPR came through and nobody could tell after the move whether or not they were still living in the same house. It was her husband who built the first "real" house in Castlegar.

Mrs. Lillian E. Killough has recounted her arrival in April, 1913 from the prairies and her disappointment at finding a small, compact community with a hotel and small frame school, consisting of three main families and a scattering of single men. The main industry was the Waldie sawmill, Mrs. Killough has remembered.

$12 A MONTH RENT

A much later arrival, but with an equally vivid account of the story of Castlegar was Dr. Victor Koresky, who came to Castlegar in 1937 from Alberta because "you might as well come and starve in B.C. as starve and freeze in Alberta." Dr. Goresky has told how doctor's bills were the last thing people worried about in those days, but he was able to carry on because he automatically became medical health officer with a small government pay check. He moved into four rooms with bath for $12 a month.

DOUKHOBOR STORY

The review carries a story of the arrival of the Doukhobors in the Kootenays after centuries of persecution in Russia and their struggles to wrest a living from the lands near Castlegar. It quotes the report of a member of the Consultative Committee on the Doukhobors, which calls them "a wonderful people who believed they could live the perfect life in an imperfect world."

One feature is "Castlegar Business Throughout the Years." It shows in graphic form how business has come to Catlegar and has virtually boomed since the end of the Second World War. It begins its itemized story in 1903 and ends in 1950, although in the past two years many additional business enterprises have become established in the community, and more are being planned with the assurance that the Celgar corporation will set up an integrated forest industries with headquarters at Castlegar.

Perhaps the keynote for the publication and the community is contained in the final line of a poem, "Camp Ground on the Columbia," which says,

"Voyager, here is the valley waiting—
Your promised land."

The poem is a fantasy based on the historical talks and records of early explorers who used the mighty Columbia as their main highway almost a century ago. Its author has remained anonymous under the initials "H.M.", but the soul of a true poet shines brightly through every line of the 13 stanzas of the poem.

Whiten Succeeds Shirley Dougan On Trail Paper

TRAIL — Charles Whiten has succeeded Miss Shirley Dougan as city editor of Trail Daily Times. Miss Dougan, with the newspaper since 1949, leaves today for Prince George.

Mr. Whiten, 36, has spent 10 years with B. C. weekly and daily newspapers and was formerly news editor of Trail radio station CJAT. A resident of Trail since March, he is a member of the Gyro Club.

A native son of Vernon, Mr. Whiten has worked for newspapers at Princeton in the Okanagan, at Vancouver and Mission City.

Miss Dougan, daughter of Mr. and Mrs. J. W. Dougan of Trail, was educated in Trail schools, has been active in the Trail Young Progressive Conservative Association, member of the executive of the senior association, former Girl Guide leader and a member of St. Andrew's Anglican Church.

Among more than 1000 species of catfish in the world, the Nile catfish in Egypt is capable of giving an electric shock.

Kimberley Chamber To Hire Secretary

KIMBERLEY — The resignation of W. Pollington, second vice-president of the Kimberley Chamber of Commerce, was accepted by the members at their last meeting. Mr. Pollington has been transferred to Caigary. He is a former well-known Rossland resident.

Advertisements will be placed in local papers for a secretary for the organization. Information is being collected concerning store hours.

Good Reception For Kin Auction

CASTLEGAR—The Celgar Development Company will employ local labor for construction of its $65 million integrated forest industries plant and will also staff its operation from the local labor force.

Assurance of priority for Kootenay workers was given by Ian A. Barclay, business administrator and co-ordinator of Celgar's parent company, Canadian Chemical and Cellulose Limited of Montreal, who addressed the Castlegar and District Chamber of Commerce.

The Montreal executive advised the chamber not to be impatient for the day when bulldozers begin clearing land for the new plant, because the company is just as anxious as anyone to get the enterprise started. He did not give any estimate when construction would start.

30 School Administrators at Confab

NEW DENVER — Two officials from the coast attended a meeting in Lucerne Junior - Senior High School here of the West Kootenay and Boundary Administrators' Association, attended by nearly 30 delegates.

They were Miss Fourneux, assistant director of the home economics department of the department of education, and Col. Strong, of the department of vocational training, department of education, both from Victoria.

Many questions were directed to the two departmental representatives regarding the activities of their departments and much guidance and assistance was provided by them.

Considerable discussion followed the presentation of a report on the apprenticeship system in use at the J. Lloyd Crowe High School in Trail, wherein persons employed in the Consolidated Mining & Smelting, are given an opportunity of completing their apprenticeship in night school while working at their job during the day. The possibilities of outside students attending the well-equipped high school for their vocational training with government assistance provided, is being investigated.

It was decided that support would be given to the West Kootenay High School Athletic Association regarding the conduct of athletic activities in this district. When some form of social entertainment is provided every effort will be made to end activities by 11 p.m., so that students will not arrive home too late.

After a luncheon served by the local P-TA, principals' and vice-principals' meeting was held with Douglas Chamberlain, principal of Rossland high school, as chairman.

Gyros Have Fun, Ladies Lead

Four hours of fun and friendship featured the Nelson Gyro Club's Gyrette Night held Monday evening at the Hume Hotel. Under the chairmanship of Mrs. A. J. MacDonald, the ladies took over the meeting and staged the evening's entertainment.

More than 80 Gyros and Gyrettes were present for a banquet followed by informal speeches, the installation of three new members, games, a skit and a singsong.

Welcoming the new members, charter member E. A. Mann said Gyro is "not a service club, but a way of life." The new Gyros—Louis Hanic, John Holden and Al Larsen—were told the history and significance of the club as well as their new obligations in an initiation ceremony.

The ceremony was conducted by Mr. Mann, Gyro president A. J. MacDonald and charter member Clyde Emory.

The ladies had prepared a large number of unusual corsages for the men. Secretary-treasurer Phil Hoskins, for example, was sporting one in which potato peelings and celery leaves were centred by a maraschino cherry.

Among the guests were Doran Robinson of Kellogg, Idaho, Gyro district governor, and Mrs. Robinson, district secretary Fred Marler and Mrs. Marler, also of Kellogg; Mr. and Mrs. Charles Morris; president of Trail Gyros G. Fennell LeFlufy and Mrs. LeFlufy; and regional governor Michael Butorac and Mrs. Butorac of Trail.

CURE CATTLE SICKNESS

CHICAGO (AP) — A veterinary medical researcher has reported that 96 per cent of a group of cattle suffering from shipping fever recovered when treated with a combination of terramycin and serum.

Cars Clash At Intersection

Two Nelson cars received minor damage here Sunday afternoon when one side-swiped the other at the intersection of Fifth and Cottonwood Streets.

Peter Plotnikoff proceeding North on Fifth Street was in collision with a car driven by J. A. Gordon, who was turning onto Cottonwood Street.

Plotnikoff, apparently losing control of his vehicle, continued on for 200 feet crossing the sidewalk, the car breaking off a small tree along the walk and coming to rest against a telephone pole.

Appearing in city police court Monday, Gordon pleaded guilty to a charge of failing to signal and was fined $30 by Magistrate William Brown.

Plotnikoff pleaded innocent to a charge of driving without due care and attention and the case was adjourned to Saturday.

Missionary to Speak On Work in Japan

Miss May McLachlin, who outlined her work in the Japanese mission fields during the past years to St. Paul's and Trinity United Churches, today will address the United Women's Missionary Society.

She will explain her activities in Japan and present conditions there.

Slocan Shuttlers Choose Officers

NEW DENVER — Knoby Hayashi was elected president of the New Denver Badminton Club at its annual meeting here. He succeeds Frank Russell.

Other officers are F. E. Broughton jr., vice-president, and D. R. Godfrey, secretary-treasurer.

EQUIPMENT REPAIRED.

NEW DENVER — New Denver's volunteer fire brigade repaired equipment at its last practice meeting. Work was in charge of J. A. Roberts, fire chief.

Rossland Plans Christmas Parade

ROSSLAND — Frosty the Snow Man, Mickey and Minnie Mouse, the Pied Piper, and a host of other nursery characters will be descending upon Rossland on the evening of December 13 to delight the hearts of all children, when the Rossland Junior Chamber of Commerce and the Canadian Legion present the annual Santa parade.

The highlight of the pre-Christmas Winter scene in the Golden City this year's Santa parade promises to be as gay and colorful as ever with rollicking clowns, floats depicting scenes from favorite nursery rhymes, and over all the laughter of that jolly fellow, Santa Claus.

Local Labor Celgar Choice

The Kin Auction is "coming along well," a Kinsmen Club committee chairman said Monday.

The first broadcast last week was a success, said G. R. Fleming, and it's expected that activities will gather momentum week by week.

The annual Kin Auction is held to collect money for a special fund which will be used to help build a new bath-house at Lakeside Park.

Next Thursday there will be plenty of local talent on the radio show, with violinists, singers and possibly a chorus.

PENNY-WISE DESSERT

These days most of us are trying to serve tempting desserts that don't strain the family food budget. Fortunately, there are many ways to use jelly for just a few cents a serving. The shimmering mould shown here is made from Shirriff's Lime Lushus, crowned with a wreath of blanched almonds.

To keep the almonds from floating when you make this dessert, put them into the mould first, and barely cover with jelly. When this layer has set, add the rest of the Lushus. Good cooks prefer Lushus because this is the only jelly that has the flavour sealed, fresh and fruity, in an air-tight bud. Though it costs no more than ordinary jelly, Shirriff's Luskus gives you more flavour for your money.

TRANS-CANADA AIRLINES are expected to order, as part of the recently announced $10,000,000 fleet expansion program, 14 of the Vickers Viscount passenger plane shown here. The plane, made in Britain, will replace the U.S.-made Douglas DC-3, now flying on inter-city schedules. TCA president, Gordon R. McGregor, has said that his pilots have reported favorably on the performance of the Viscount and that they could be used on the routes now serviced by DC-3's.

Britannia Aircraft May Replace Lancasters in RCAF

OTTAWA (CP) — The RCAF, searching for a speedy new aircraft to boost its anti-submarine air power, may find the answer in Britain's Britannia, a new and powerful 70-ton turbo-prop aircraft.

Officials said Monday that a team of Canadian experts is in England to evaluate the Britannia and compare it with similar United States aircraft as possible replacements for the air force's Second World War Lancasters.

DECISION IN '53

No final decision on a replacement choice is expected until early 1953, but if the Britannia wins over her American competitors, it will mean new production in Canada.

Officials said Canadair Ltd., of Montreal, Canada's biggest aircraft company, likely will get the production contract.

But since Canadair currently is busy producing the F-86 Sabre jet as well as a number of other aircraft, production of the new plane likely will be elsewhere than at Montreal.

CANADAIR NEGOTIATING

Canadair currently is negotiating to take over the Fleet Aircraft Company at Fort Erie, Ont., possibly on a rental basis. If the deal goes through, part of Canadair's Monteral production may be shifted to the Fort Erie site.

However, all this still is in the realm of possibility. All officials will say now is that they are looking for a new plane and the Britannia is being considered.

The RCAF wants a plane that will be used in cooperation with the navy on coastal jobs, to spot and attack enemy subs and for long transport work.

At least 100 or more of the new planes will be needed, principally in the Maritimes.

WHEN PAIN STRIKES

At the first twinge of rheumatic pain—take Templeton's T-R-C's. Over a million T-R-C's used every month, for speedy relief from pain caused by rheumatism, arthritis, neuralgia, lumbago and sciatica. Why suffer needlessly? Keep T-R-C's on hand, and use them promptly. Only 65c, $1.25 at drug counters. T-962

SUNDAY SCHOOL TEACHER ADMITS DOUBLE SLAYING

READING, Mass. (CP) — Police today charged a Sunday school teacher with the burglary-murder Nov. 8 of Mr. and Mrs. Stanley Porter.

Police said Murdock Macdonald, 26, signed a statement Sunday admitting the slayings.

Macdonald, father of an infant daughter, was quoted as saying he killed the couple by the light of his flashlight after he broke into their home and found them sleeping in rooms he intended to ransack.

Macdonald was quoted as saying: "The next day, Nov. 9, while I stood in front of my Sunday school class I thought 'who the hell am I to be teaching kids about God?' It frightened me."

Plane Hitchhiker Identified

EDMONTON (CP)—A young woman hitchhiker decapitated by a plane's propeller was identified Monday as Mrs. Velma Pickel, a travelling magazine saleswoman.

The woman hitched a ride Sunday from Edmonton pilot Floyd Myer at North Battleford, Sask. When the plane landed on a farm near Consort, 15 miles southeast of Edmonton, the woman jumped out and walked forward into the whirling propeller.

Police completed the identification late Monday. They said the woman was between 25 and 30 years old and was en route to Calgary and Medicine Hat. Mrs. Eric Oram of Medicine Hat is a sister.

MATTER OF OPINION

JOHANNESBURG, South Africa (CP)—Mayor E. B. Conway of Graaf-Reinet was acquitted on a charge of keeping a lion in a cage in his backyard to the annoyance of residents. Witnesses testified the lion's roaring kept them away, but the magistrate found the indictment was inaccurately worded.

Korean War In 30th Month

SEOUL (AP)—The Korean war began its 30th month today on a low pitch. Rain and snow closed over the battle ground Monday, halting Allied air blows and limiting ground clashes to small probes.

An air force spokesman said the Communists were making increased efforts to run supplies to their front lines. He gave this as one reason why Allied planes have destroyed 1170 trucks in the last nine days.

Many secondary explosions have been noted by pilots on convoy blasting missions. It is assumed the Reds are running great fleets of trucks to the front each night in order to feed artillery which has been firing at a voracious pace recently.

SCIENTIST SEEKS NEW INDUSTRIES FOR ESKIMOS

OTTAWA (CP)—Economic theories will be used to improve the lot of Canada's primitive Eskimos.

The resources department announced today the formation of an Eskimo research unit to look for new industries from which the 8500 northland natives can make a better living.

The unit will be headed by J. C. Wright, 60-year-old research scientist who, as chief of the northern administration division, has been associated with Eskimo problems since 1941. He leaves that post to head the research unit and will be succeeded as head of the northern administration by Fred Fraser, former commissioner of the Yukon.

Picture Brighter For Gold Mines

TORONTO (CP) — The federal government's increased aid to gold mines, announced today, is "a step in the right direction" mining company executives and mining associations here said.

Company spokesmen, however, were reluctant to forecast how much the new assistance would increase production. Most agreed that marginal operators—mines which have been barely able to get by the last few years—would benefit most from the government action.

Spokesmen said some mines which have been selling on the "open" market now could be expected to sell to the ogvernment to claim the aid.

"Defence Highway" Under Discussion

EDMONTON (CP) — Delegates from the four western provinces will attend a meeting of the Trans-Canada Highway Association here Saturday. The meeting is expected to make further demands for construction of a "defence highway" through the Yellowhead pass to the Pacific Coast.

Bank Notes Profit

TORONTO (CP)—The Canadian Bank of Commerce had a net profit in the year ending Oct. 31 of $4,510,641, up about $500,000 from the preceding year.

Federal taxes were $4,330,000, up $1,325,000, and $1,369,995 was provided for depreciation on bank premises. Dividends totalled $3,600,000 to more than 15,000 shareholders.

Total assets of $1,821,000,000 were up $87,000,000. Total deposits of $1,705,000,000 represent an increase of $98,000,000.

40-Hour Week Under Discussion

REGINA (CP)—Labor Minister Williams indicated today that a 40-hour, five-day statutory work week in Saskatchewan will be discussed at the CCF caucus preceding the 1953 legislative session.

He said such a setup did not appear unreasonable "for most occupations in cities."

EDINBURGH, Scotland (CP) — A 300-year-old four-storey mansion, Saughton Hall, was burned recently by firemen because the interior woodwork was riddled with dry rot.

Queen Mother, Margaret To Leave Buckingham Palace

By KEN BOTWRIGHT

LONDON (Reuters) — Queen Mother Elizabeth and Princess Margaret this Winter will give up the "coldest house in Europe" to live in Britain's most modern home.

Early in the new year they will leave old-fashioned, grey-stoned Buckingham Palace. Their new home will be nearby Clarence House, a 127-year-old mansion now furnished with the last word in domestic luxury.

Cosy Clarence House was the residence of Princess Elizabeth before she came to the throne. This Winter, the Queen, the Duke of Edinburgh, and their family will have to endure the discomfort of the palace.

The official royal residence, with its dozens of long, windy hallways, and high-ceiling rooms, is impossible to keep warm — especially since most of the huge building is not centrally heated.

Clarence House, big, three-storey mansion just off the stately Mall, has not always been a home-makers dream. It was built in 1825 for the Duke of Clarence, who became King William IV. Later it was occupied by Queen Victoria's mother, the Duchess of Kent. Last royal occupant before Elizabeth and her husband moved in almost four years ago, was the Duke of Connaught who died in 1942.

Elizabeth, who transformed it into a modern home with labor-saving kitchen units, an intercommunication system and up-to-date furniture. Walls and ceilings were redecorated. A semi-basement playroom was equipped with a movie projector. TV antennae sprouted on the roof.

Many rooms were furnished with wedding gifts from all over the world.

Now, with Queen Mother Elizabeth and Princess Margaret due to move in soon, carpenters are at work changing the interior— and the personality—of Clarence House.

The Queen Mother has been busy selecting new fabrics and deciding what furniture to move from her apartments in Buckingham Palace. The second floor, formerly the nursery suite, is being re-done for Princess Margaret.

TV a Threat to Traditional "Pint at the Pub"

LONDON (CP) — Television is changing Britain's beer-drinking habits and the new double strength coronation brew announced Monday, may encourage the shift from the local "pub" to the living room.

In Britain TV is almost strictly a home affair. Few sets are mounted in the old-style taverns. With video's growing popularity, the trend is to take home a dozen bottles of beer instead of sticking around the pub for the nightly pint.

The special beer to be brewed in honor of the coronation is to be put in souvenir bottles. Few drinkers will be tempted to go home from their local bar with pockets full of empty souvenirs. They will be much more likely to lay in a stock for home consumption, with or without TV.

British pubs are full of "atmosphere"—and ranging from stained glass windows and brown-and-white Tudor architecture to plain panelled rooms stacked with huge wooden casks. But most of it is lost on the average Briton. He goes there because there is a fire. Many now are staying in their radiator-less homes with a small gas heater and the TV set.

CHURCH GRESLEY, England (CP) — The bowling green of a club in this Derbyshire community sank more than a foot as a result of mining subsistence in the area. The national coal board has apoligized.

BOB STEWART of Russell, Man., doesn't mind being called a cow beautician. He is entering his steer in competitions at the Royal Winter Fair, Toronto, and in preparation he gives his entry a shampoo, shower and manicure. Other competitors are giving the same treatment to 1200 horses and 2500 cattle.—Central Press Canadian.

Kitimat Preparing To Incorporate !

WINDSOR, Ont. (CP)—City Clerk C. V. Waters received a letter Monday from the Aluminum Company of Canada asking for copies of a Windsor bylaw defining the duties of the city manager.

Windsor hasn't a city manager nor is there such a city bylaw.

Mr. Waters said residents approved establishment of the city-manager type of administration in a 1928 plebiscite. The Ontario legislature passed a bill the following year giving the city the right to pass a bylaw which would reate the office. However, the idea never materialized.

The company said it wanted the information because it would be helpful during the "possible incorporation" of the aluminum town of Kitimat, B.C.

Benson Ike's Choice Minister Agriculture

NEW YORK (AP) — President-elect Eisenhower Monday chose Ezra Taft Benson, former official of the National Council of Farmer Cooperatives, to be secretary of agriculture in his cabinet.

Benson, 53, of Salt Lake City, was a supporter of Senator Robert Taft's campaign for the Republican presidential nomination.

Eisenhower also announced that after his inauguration he will designate Governor Sherman Adams of New Hampshire as his assistant. Adams, who served as Eisenhower's campaign manager, will occupy the post now held by John R. Steelman under President Truman.

Night Instruction Offered at Natal

NATAL — Registration for night classes have been taken at Michel-Natal with the hope that a sufficient number of names will be handed in to permit the night classes to operate.

If sufficient names are available, night classes will be held once a week, Tuesday nights, starting at 7:30 p.m. Classes are expected to be held in typewriting (machines supplied), woodworking, sewing, arts and crafts, such as leatherwork, shellcraft and figurines. The course fees were set at 10 lessons for $4 and $8 for 20 lessons. A minimum attendance of 10 is necessary for each course offering.

The Western meadowlark, somewhat larger than a robin, is a greatly superior songster to the Eastern species.

Michel Eagles Seek Action on Scouting

NATAL—At the last meeting of the Michel aerie, Fraternal Order of Eagles, two new candidates were initiated into the Order. They were Joe Tappay and Anthony Volpatti, both of Natal.

It was decided to look into the matter of the Michel Boy Scouts, as the charter is still awaiting to be presented to either the Scoutmaster or person in charge of the troop. The Michel aerie is presently sponsoring the Michel Boy Scouts and has an obligation to perform until February of next year.

Dress Up With Marian Martin

JUMPER 'N' BLOUSE

It's a perfect little outfit for a precious little girl! Sensible for school and play, pretty for dress-up. Easy to sew. Two sleeve versions! Make the jumper in tartan plaid wool, the blouse in crisp cotton. Look at the diagram — could anything be easier.

This easy-to-use pattern gives perfect fit. Complete, illustrated Sew Chart shows you every step.

Send THIRTY-FIVE CENTS (35c) in coins (stamps cannot be accepted) for this pattern. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Send your order to MARIAN MARTIN, care of Nelson Daily News, Pattern Dept., Nelson, B.C.

Needlecraft By Laura Wheeler

LOVABLE LOOPY CATS

KIDDIES love 'em! Loopy, lovable, huggable cats! Mama Cat and Kitten Cuddles—made from same easy-crochet directions. Mama is 12 inches if knitting worsted; Cuddles is 8 inches in 3-ply yarn.

Hurry! Crochet these 2 cats for Christmas! Pattern 735; directions.

Send TWENTY-FIVE CENTS in coins (stamps cannot be accepted) for this pattern to Nelson News, Needlecraft Dept., Nelson. Print plainly PATTERN NUMBER, your NAME and ADDRESS.

Such a colorful roundup of handiwork ideas! Send twenty-five cents now for our Laura Wheeler Needlecraft Catalog. Choose your patterns from our gaily illustrated toys, dolls, household and personal accessories. A pattern for a handbag is printed right in the book.

Tempestuous Charlotte Whitten Faces Tough Mayoral Campaign

OTTAWA (CP)—Voters in Canada's capital predicted in the 1950 civic elections that Charlotte Whitton would "stir things up at city hall." Few had any idea how true that prediction would become.

They gave her the biggest vote any controller received in Ottawa. And by virtue of this vote the 38-member city council elected her mayor after the death in August, 1951, of Mayor Grenville Goodwin.

Even before his death and her formal succession to office Oct. 15, 1951, Miss Whitton was a force in deliberations of the five-man board of control and the city council.

PLENTY OF PUBLICITY

During her term as mayor she has taken up more space in the Ottawa newspapers than any other six mayors. The "32 men and one woman" fought out issue after issue on the basis of Charlotte's new approach to civic problems.

The 1952 biennial civic election will be held Dec. 1 and Charlotte will seek a term in her own right. Where her campaign supporters last time had an ordinary needle and thread as their buttonhole election symbol they have chosen this time a darning needle "because the job is bigger."

Main opponent in the mayoralty contest will be controller L. L. (Len) Coulter, Ottawa business man, who ironically enough was the person with whom she got into the fewest arguments during her term as mayor.

TOUGH BATTLE

The election campaign between supporters of the 56-year-old Miss Whitton and the 52-year-old Mr. Coulter has shown indications of becoming a knock-down, drag-out affair.

Most Ottawans are either strong supporters or strong opponents of their first woman mayor. This was indicated recently by a move on the part of some citizens to elect "anybody but Charlotte." They went so far as to say "any man, rather than a woman."

While by no means all the Whitton supporters are women, Charlotte feels certain that a campaign on this basis would enlist the female vote in a landslide victory. She has also appealed to the feminine element on the basis that there aren't enough women in politics.

CALLED "BUSYBODY"

Political enemies describe her as a meddling busybody who has blocked civic progress by starting arguments on every motion before city council.

Charlotte, on the other hand, claims she is proudest of "the fact that the board of control has never in my term of office been turned back by council on anything in which we went to them."

She seeks a long-term porgram of making assessments more equitable, improvements in housing and child welfare and a start on the city hall "in this year of the Queen's coronation." Ottawa has been without a city hall since the old building burned down 21 years ago.

NATAL BAZAAR A HUGE SUCCESS

NATAL — St. Michael's annual Fall bazaar, held in the church hall here under the joint direction of the Catholic Women's League, the Mount Carmel Society and the Senior Sodality, proved a huge success.

The bazaar consisted of a sale of home cooking, novelties, aprons, candy, fancy work, fish pond and an afternoon tea.

At night the Holy Name Society sponsored the mixed whist-drive during which time a total of 31 tables were occupied.

The entire proceeds will go toward paying cost of installation of rest rooms in the church hall.

Officers Elected By Harrop W.I.

HARROP—Mrs. S. Hutcheson was named president of the Harrop District Women's Institute at its annual meeting recently.

Mrs. A. Feller was elected vice-president, with Mrs. J. McNown, secretary, and Mrs. L. Paulhus, treasurer. Mrs. E. Smith is director.

The Institute, with the Betterment Club of Harrop, will sponsor the school Christmas concert, it was decided at the meeting.

A community supper, proceeds of which will aid in construction of a W. I. hall in the future, was reported a succes.

OSLO, Norway (CP)—The Federation of Norwegian Grocers showed its first instructional film to Oslo grocers. Titled "the customer is our employer," it emphasizes every aspect of good service and will be shown to merchants and clerks throughout Norway.

Movie Gossip

Rock Hudson, Despite Criticism, Found English Girls Very Friendly

By BOB THOMAS

HOLLYWOOD (AP) — Despite raps he received on his arrival in Britain, Rock Hudson has only kind words about his stay there.

The husky Hollywood actor went to England to appear in "The Sea Devil" with Vancouver-born Yvonne DeCarlo. He was blasted by British Equity, the actors' union, for taking a role which an English actor could have played.

"They made their protest and that's all there was to it," remarked Hudson. "It was good publicity for me.

"Aside from Equity, there was no other unpleasantness. The people I worked with and the English in general couldn't have been nicer."

He did a bit of dating, mostly with gals in the picture business. He refuted the American impression that English women are a cool lot.

NICE TO DATE

"They're not," he remarked. They're a lot nicer to date than American gals."

"If an English girl is interested in romance, she lets you know about it. She also lets you know if she isn't interested. She never keeps you in doubt, as American women do."

Hudson found movie making different from how it is done in Hollywood. His film required 10 weeks of shooting, about half of which was spent on the island of Jersey in the English Chanel.

"That's more than twice as long as any other picture I've ever worked on here," he said.

New Officers Named By Natal Students

NATAL—The following students were recently elected for another term to the senior students council of Natal-Michel Central School. They are president, Harvey Travis; vice-president William Cousens; secretary, Noreen Cheston; treasurer, Doreen Karas, girl's sports representative, Wilma Taylor; boys' sports representative Joe Qualtieri, grade X reporter, Leno Fontana; Grade XI representative, Divina Kacheluba, grade XII reporter Irene Sacco.

The main function of the senior students council was to initiate the grade X students and to organize badminton. The council arranged to have senior badminton, consisting of grade X, XI, and XII, to practice every Monday night. The juniors would practice every Thursday night. The purpose of practices would be to get in shape for the East Kootenay school tournament to take place next Spring. The council also decided to hold a few dances.

For a Richer Canada

There's been a lot of talk about "digesting" the immigrant, about making him speak English or French within a limited period of time, and about the "melting pot" idea in general.

These views, points out the Financial Post, run counter to the Canadian concept of strength through diversity —a diversity which recognizes the rights and tastes of others. They also suggest that the new Canadian has little to add to this country, that the best thing he can do is to assume our way of life and cultural values.

Without doubt the new Canadian will take on many of our attributes and our tastes, and let us hope he acquires only the best of them. But we should not ask the new Canadian to paint out his past any more than those of us already here paint out our own inheritances.

What the late John Murray Gibbon said in 1938 still holds.

"The Canadian people today presents itself as a decorated surface, bright with inlays of separate colored pieces, not painted in colors blended with brush on palette. The original background in which the inlays are set is still visible, but these inlays cover more space than that background, and so the ensemble may truly be called a mosaic."

Our immigrants bring many things that are of value to Canadianism. Let's make it a better, richer thing with their help.

"New" Policy, Same Aim

Premier Stalin, the world's top Communist, has laid down a "new" policy for Communist Parties in non-Communist countries. Addressing the closing session of the Communist Congress in Moscow, he directed them to join democratic Parties in popular fronts, to shout for "bourgeois democratic freedoms", and to defend the national rights and interests of their own countries.

The last is a patent concession to the threat of Titoism. Stalin now recognizes that it does not pay to fly in the face of patriotism where he does not have Russian divisions to enslave the people under his puppets. But what does it mean for French or Italian Communists to talk of defending the interests of their own countries when Stalin at the same time exhorts them to extract pledges that their people will not fight if attacked by the Soviet Union?

As to extolling "bourgeois democratic freedoms", if any Communist other than the dictator were first to support that position he would face prison camp or a firing squad for "Rightist deviation" from the Party line.

To Communist strategy the French saying applies: "The more it changes, the more it is the same thing."

Its governing design is simply to extend the personal power of the Stalinists over as much of the world's surface and people as possible by whatever means will be effective.

LETTERS TO THE EDITOR

Letters may be published over a nom de plume, but the actual signature of the writer must be given to the Editor as evidence of good faith. Anonymous letters go in the waste paper basket.

Tells Council Need For Housing Is Real

To the Editor:

Sir—Thank God, the Nelson City Council is showing the courage to tackle the housing problem. It really takes courage, too. There are many who would like to see the situation left just as it is. The situation is heartless, but it's so nice and profitable. This attitude is not that of all of them, but I've heard of only two who insist tenants be those with children.

The Councillors should know that they have a great body of citizens, young couples mostly, and newcomers, who want to raise their families, do their jobs and be good citizens, on their side. They should know that these people need their help. The housing situation is almost too much for an individual to tackle by himself. If any doubt me, just try for yourself ringing door bells wherever the curtains are off the windows in case the house is becoming vacant; try leaving your name hopelessly with real estate agents; try phoning landlords and landladies to get the same rebuff, "No children." There is no more hopeless feeling than to have to uproot your family from where they live and know that you have no place to settle them.

There are plenty of people, who know all about these feelings, hoping the Council will make a whole-hearted and successful effort in its housing negotiations.

J. V. MARKLE.

Nelson, B. C.

Thinks Council Job Earns Acclamation

To the Editor:

Sir—I note with interest that all retiring Aldermen, School Trustees and Police Commissioner are seeking re-election under the banner of the Civic Action Association.

I feel that all these men have done a fine job, and deserve our full support.

I am going to make particular reference to the Council. The present City Council took over a fast-approaching almost impossible situation, that required a great deal of common sense to overcome. To my way of thinking they have accomplished much by sane, sound business methods; harmony has been a prevailing factor to aiding the success already achieved.

I would like to congratulate Alderman W. S. Smith for his interest and good work in co-operation with the present Council in all their efforts. To enumerate all the good work done by individual members of the present City Council would cover a lot of space, so I would appeal to all our good taxpaying citizens to return by acclamation the full slate supported by the Civic Action Association, to enable them to carry out the program they have set out to do, thus saving the expense of a civic election at this time.

HAROLD J. WITCHELL.

Nelson, B. C.

Birth Control by Housing

To the Editor:

Sir—The other day I heard the fact that children are not welcomed by owners renting houses and suites and the fact that married people are afraid to have children because of eviction laughingly referred to as "birth control by housing."

It is no joke.

HOUSELESS PARENT.

Press Comment

Ghost-writing has its dangers, says the Victoria Colonist. ". . . Words and perhaps pledges are thus put into the candidate's mouth that are not his own . . . Carried to a conclusion not illogical it could result in a man without ideas, without spirit, without heart of his own winning the accolade of the ballot box."

A pig caused a tieup in traffic on a highway near Oakville. Road hogs frequently do the same.—St. Thomas Times-Journal.

Some styles we've seen in dresses indicate we'll have not only the woman of the hour, but of the hourglass.—Sudbury Daily Star.

Nobody can understand Nature; consequently it is invariably referred to as "she". —Kitchener-Waterloo Record.

Steady Subscriber, Nelson—Please print the address of the Aministrator of Rent Control.

C. A. S. DeVitt, Rentals Officer, 779 Burrard Street, Vancouver.

Sport Fan, Fernie—To settle a dispute, would you please advise how many times Joe Walcott and Ezzard Charles fought? How many fights each fighter won? Also, did Max Schmeling ever beat Joe Louis?

June 22, 1949, Charles beat Walcott by unanimous decision. March 7, 1951, Ezzard Charles beat Walcott. July 18, 1951, Walcott beat Charles. May 30, 1951, Charles beat Joey Maxim. Oct. 10, 1951, Charles beat Rex Layne. June 19, 1936, Schmeling beat Louis.

E. L. C., Procter—Is it true that if you push something under the eyeball it will pop out, and that it will be easy to put it back? I heard they did it in the war.

This is a very dangerous trick, and if you or your friends are thinking of trying it, we urge you not to do so. Young people have blinded themselves before now by such experiments. If ever it is necessary to "pop out" an eyeball, leave it to an eye specialist.

Mrs. T. V. K., Nelson—Is there any organization that repairs broken toys which are in fairly good condition, and then donates them to needy children? The Scouts in Nelson do not do this work. Also, could you print the article entitled "What Is a Girl?"

Can another reader help us answer these questions? Regarding the first, the Third Trail Scout Troop at Trail is doing this type of work at East Trail United Church.

Mrs. F. M. P., Fernie—Do you know where I can obtain a "copy-pencil", the kind used to trace hot iron transfers? Also, do you know of a recipe used for making rolled-up newspapers into Yuletide logs?

You might be able to obtain the pencil through A. E. Milley, Box 519, Fernie, or from Mrs. A. Moulang, 1409 Robson Street, Vancouver. Yule logs: Save all newspapers, even colored sections. Roll to form logs about 18 inches long, tie with heavy twine (not too tightly), and soak in following solution: Four pounds of bluestone and three pounds rock salt, dissolve thoroughly in one gallon of water, using same proportions for as much as needed. Soak logs for three or four weeks in solution, turning end for end frequently. As the solution will corrode metal, soaking should be done in a wooden vessel with wooden hoops, or a stone crock. Handle with gloves. The mixture is an internal poison, and should be handled with care. Do not place too many papers in each roll, as they swell. Dry thoroughly before using.

Your Horoscope

Do what you can to assist a young person who is emotionally upset. If caution is exercised in all matters, you may expect clear sailing during the next year. It may be that the child born today will take many long voyages.

From an Oldtimer's Notebook

by R. G. JOY

Historian Nelson District Oldtimers Association

(Editor's note: This continues the story of Mr. Joy's period in the Kootenay. It covers activities from the early '90s to the present.)

I was telling you last about the old burial ground near the present Tourist Park which served in the early days until the cemetery site and inferred bodies were moved to the present Nelson Memorial Park.

There were also three bodies buried on Baker Street not far from the Kootenay Motors. Two men were killed in a blast when the railroad was being built. The other man was Bart Henderson, who some say was a graduate of Columbia University.

He was among the men to go to the Slocan district in the early '90s. Mr. Busk told me that Bart was the first. He took with him some salt and tea, and lived on what he could shoot and kill with his rifle. He also was at the first Christmas dinner in Nelson, with Bob Yuill and others, five men in all, near Ward's tent hotel.

* * *

I must tell the story of the Silver King Mine, for some of my experience is connected with the old Silver King. It was at the old Phair Hotel that I met a Mr. McDonald, an elderly Scotch teacher from Colville, South of us, in the U.S.A.

He came to the kitchen and asked me if I would like to go back to the Old Country for a visit. I looked at him and thought he was joking. He was serious enough.

(It is claimed by some that he was the brains of a deal made in London, England, at a later date after interviewing me.)

Said Mr. McDonald: "We are going to England to try and sell the Silver King group on Toad Mountain. I thought you would like to act as my valet. All your expenses will be paid. Having a valet will give me some prestige."

I immediately said, "No!" I hated the thought of being valet to any person. I told him that when I went back to England I would pay my own passage money. He turned away, and I was satisfied with my decision. Have often wondered how the course of my life would have been changed if I had gone with him.

Like all oldtimers, I was greatly interested in the mine that was to make Nelson and Kootenay famous, so I will set down some history regarding this property.

The Hall family were in the habit of coming via the trail over Toad Mountain that left Hall Creek and ascended the mountain and then went over the top and down to 49 Creek. Considerable gold was taken out of this creek. Martin Fry told me about the placer mining there.

Bob Yuill tells about Dick Fry placer mining the creek in 1864. Some say that fresh gold comes down every year after the Spring freshet. One oldtimer told me about a bed of blue clay that lies above the source of the creek, and the action of the melting of the snow brings down gold from the clay bed.

The Hall boys were on one of these journeys in 1887, and they camped about where the claims were staked later.

In fact, I understand they camped just below where the cornice of snow forms West of the sugar loaf, called Mt. Atkinson. In the morning Hall sent the boys to get the horses to continue the journey. The animals were a bit frisky, and the boys picked up stones to throw at the animals, and in doing so picked up some that were heavy and took them to their dad.

The rocks were taken on the return journey to Colville, and assayed.

Some said that the fabulous values taken from the outcrop at the King went to 2000 ounces of silver to the ton. Thus the excitement that caused the birth of Nelson townsite, after receiving the names of Salisbury and Stanley.

When I arrived in Nelson, nearly every man you met, and cabin and home had a specimen of Silver King ore. It was very pretty to look at, and was called by the miners "peacock copper" (bornite).

There were 17 tons of ore shipped from Nelson to the States.

John Houston's newspaper, "The Truth", given to me by his nephew, Harry Houston, said ore was shipped via Trail from the mine to the steamer Spokane and then up the Kootenay Lake to Bonner's Ferry and on to Sandpoint, Idaho, and then to some smelting point in the U.S.A.

The cost of freight and treatment was $80 per ton, and in spite of this high cost, the profit was $7000.

Several shipments were made to Swansea, Wales. We learn that the Swansea smelter firm advised the Silver King management that it would be best to build a smelter in Canada close to the mining operations. This was done later.

In later years, I was informed by an oldtimer employed at the mine in the beginning of operations there, that when the party went to England to try and float money for the Hall Mines, they left instructions that a number of tons of the best ore was to be picked and shipped to Swansea, Wales, so the values that the smelter paid for the various metals could be known.

I was informed that the result of the shipment more than exceeded their expectations. These high values evidently helped the successful deal that was made. We understand that the Halls and associates received $1,600,000. The Sheriff of Cork, Ireland, invested 100,000 pounds sterling. The pulpit in St. Saviour's Church was presented by that gentleman at the time when the King Mine and Smelter were pouring out silver and copper day after day.

The ore after a few years was of low grade.

(To Be Continued)

"Youth Salvage" Pays Dividends

VANCOUVER (CP)—In the old section of Vancouver called "skid row", Billy Roddy is known as a police constable with a purpose. Vancouverites generally are getting to know him as the managing director of a successful business.

He calls his business "youth salvage," and the title has a double meaning. He employs 10 youngsters who were formerly either needy or in some kind of trouble. Bill's business is to take as much work as is profitable away from the regular garbage collectors.

NO WORK HABITS

About eight months ago Roddy nominated himself as guardian of a young fellow who had got into trouble over some car thefts.

"He was a fine lad," says Bill, "but he had no work habits." Bill decided the boy needed a business and "youth salvage" was born.

The boy was lent Bill's panel truck and set to work collecting everything from newspapers to discarded furniture — everything that could be sold. The business grew and more boys were brought in.

Today the business has two stores and a warehouse. One store sells clothing and shoes and the other used furniture, books and hardware. The stores do a thriving business and the boys all draw weekly salaries.

OFFICE BOY TO DEPARTMENT STORE PRESIDENT

By The Canadian Press

C. L. Burton of Simpsons started work as a $2-a-week office boy in a Toronto lawyer's office. By 1950, when he was 74, he was head of a Canadian department store and mail-order business with capital assets of $100,000,000.

The story of that amazing career now is in book form. For two years, using most of his spare time, Mr. Burton wrote his long reminiscences in pencil on pads of letter paper. The result is "A Sense of Urgency: Memoirs of a Canadian Merchant." Clarke, Irwin.

Royalties will be divided between the Universities of Toronto and Laval to further the teaching of English and French at both institutions.

About 29 per cent of the world's total railway mileage is in the United States.

EVERY PROVINCE has a waiting list for Telephone Service

There is a worldwide shortage of telephone plant and equipment. The largest telephone system in North America reports that it has a waiting list for service of a million names. The same system has about two million people waiting to get on lines having fewer parties.

In Canada every province has a waiting list.

The demand for telephone service has been greatly accelerated in recent years because of higher incomes and a greater "telephone consciousness." This demand has strained the world telephone resources.

British Columbia has had the heaviest demand of all the provinces because it is the fastest growing part of the Dominion. We have spent millions of dollars—and are currently spending millions more—on the largest expansion program in our history.

BRITISH COLUMBIA TELEPHONE COMPANY

They'll Do It Every Time — By Jimmy Hatlo

Today's Bible Thought

Strange and occult influences led Eastern adepts to a manger in Bethlehem. We have vastly more convincing illumination leading us there. That child brought an utter transformation of civilization to the Western world, and into countless millions of individual lives. He showed how men ought to live.

And lo the star, which they saw in the West, went before them, till it stood over where the young child was.—Matt. 2:9.

Aunt Het

She loves her husband. All that ails her is vanity. She keeps flirtin' just to prove to herself that she's still got what it takes to attract men.

Around the KOOTENAY *in Sport*

"A Daniel come to judgment." Over the weekend we saw one of the most outstanding coups d'etat in years. Eddie Wares, Nelson coach of the Maple Leafs was given a three-game suspension for throwing a towel out on the ice at Spokane. Mind you Eddie didn't throw the towel on the ice, but that doesn't matter—it was the rapier-like speed with which the Spokane referee acted in dealing with the matter; and the omniscient and totally deserving way President Roblee handed out his decision. And if judgment were too light for so heinous a crime, we must bow to his sentence, tempered as it is.

Mr. Roblee in his letter to various officials of the league regarding the matter stated in part: "Coach Wares of Nelson was warned once for throwing a towel and waving it at the official. At 19:26 of the third period after a Spokane goal the towel was thrown from the bench and Wares was ordered to the dressing room." But don't let this cloud the main issue even though the towel was only thrown once and then not by Wares. Mr. Roblee is apparently endowed with a gift called "second sight" and that enabled him to see it twice.

Anyway, with the towel lying there on the ice, the referee with commendable speed didn't bother to find out who threw it there, but tore over to Wares and told him to remove his body to the dressing room pronto. Wares demurred, in fact he flatly refused and the tide built up quickly from there until it broke in the three-game suspension.

Glory be! The sentence is light enough in view of the fact that a player in this league was given a seven-game suspension for merely kicking another player in the face with a skate. Wares is lucky he can profit by the mistake of others without going through the agonizing necessity of making them himself.

You know, we have a confession to make. We always thought to "throw in the towel" meant "to give up." But the referee wasn't fooled that way one teeny weeny bit.

* * *

Jottings . . . We read with interest the following from a Spokane story in the Spokesman Review of Nov. 22nd issue: "The Spokane Flyers will be looking for better officiating when they meet the Nelson Maple Leafs at the Ice Arena tonight and tomorrow in an important Western International League hockey series . . . Ernie Gare and George Barefoot were standouts in the Saturday game at Spokane. In fact the entire Nelson defense was superb . . . Red Koehle took over coaching duties in the Sunday game. Red was off with a groin injury . . . The best body check handed out in the Spokane game here Wednesday was when Malacko and Severyn collided while the former was carrying the puck out of his defense area. Malacko hit the dressing room muttering in his beard "Do I have to play both teams?" . . . Harry Brown's Dynamiters came to life with a vim on Saturday to blast the Smokies . . . Could it be that for Trail one Mo' is not enough; they need two Mo! (Isn't that horrible!) . . . Brown should present a much stronger line-up than he had here on the first occasion Eddie Ruml played a hustling game in place of Red Koehle Sunday. He set Glenn Smith up on two lovely plays and Smith scored on one of them.

Split Hoop Bill Fernie, Creston

FERNIE—Fernie high school basketball teams divided games at Creston Saturday night. The girls eked out a thrill-packed 41-38 victory to maintain their unbeaten streak this season. The boys suffered their first defeat of the season and were knocked out of a tie for the league leadership. The score was Creston 41, Fernie 25.

Fernie girls fought an uphill battle all the way. They were 10 points behind at the end of the first quarter, trailing by a 14-4 score and seemed headed for certain defeat. In the next two quarters Creston fought off the Fernie attack and went into the final quarter with a six-point lead on a 25-19 score. Fernie girls put on a thrilling attack in the final quarter as they seemed to have solved the Creston defence. In this quarter they scored 22 points to Creston girls' 13 and marched off victors by a three-point margin.

Creston boys took a three-point first quarter lead and added to it as the game porgressed.

Top scorers of the girls' game were Audrey Wurst, Creston, with 17 points, Shirley Lees, Fernie 16, and Joyce McNaughton 13 points.

O. Embree, Creston, led the boys with 17, Harold Lewis, Fernie, next with 10 and T. Bruder, Creston 9.

No Foul Eastern Water for Eskimos

EDMONTON (CP) — Mayor William Hawrelak, who operates a bottling business, is making sure Edmonton Eskimos are not contaminated by Eastern drinking water.

When Esks leave by plane on Wednesday for Toronto and Saturday's Grey Cup game, they will take with them 124 gallons of water bottled by the mayor's firm.

In addition, 20 cases of soft drinks are being sent by train.

Coaches Go Into Huddle Over Grey Cup Final

EDMONTON (CP) — Edmonton Eskimo Coach Frank Filchok and his line coach Joe Aguirre are burning the midnight oil these nights plotting their strategy for Saturday's Grey Cup final in Toronto.

Aguirre, who scouted all games of the Eastern Big Four final between Toronto Argonauts and Hamilton Tiger-Cats, flew back to Edmonton at the weekend. Immediately he and Filchock, who scouted one Eastern playoff game, went into a long huddle.

Joe the Toe was silent about his trip East. But he did say that in his opinion Tiger-Cats had the better club although Argos won the round.

Meanwhile, inside wing Frankie Morris was released from hospital after treatment for a bad knee suffered against Winnipeg Blue Bombers in the last game of the Western finals.

But Filchock says he doesn't think Morris will start practicing until the team hits Toronto Wednesday evening. Eskimos have scheduled all remaining drills for the afternoon, including Thursday and Friday in Toronto. Throughout the season they practiced at night under lights.

Eskimos, hit hard by knee injuries at the start of the 1952 campaign, now are in better shape physically than at any other time.

1500 ESK FANS

It now appears certain that about 1500 Edmontonians will be in Toronto to see Eskimos make their first bid for the Grey Cup in 30 years.

About 750 fans will travel East by train, 650 aboard football specials leaving today and Wednesday. More than 300 will fly and some 250 are motoring.

More than 100 fans will fly East by other than regular airlines, mainly in private or chartered planes. And another 100 already are in Toronto on business and holiday trips, awaiting Grey cup day.

Strikes and Spares

It was a record-breaking night for the Orange Crush quintet in mixed commercial league bowling. Previous records held by Dynamos were smashed by the Orange Clushers who rolled a spectacular 1251 single and 3282 aggregate. The Dynamo figures were 1174 and 3205.

Ladies' high scorer was Isabel Locatelli who made a 296 single and 701 aggregate. For the men, Don Iceton rolled a 320 single and Dyne Macrae had the high aggregate of 702.

Wigintons and Palms were tied for first place with 33 points apiece. followed by Dynamos with 31.

ABA, AAU MAKE UP

VANCOUVER (CP) — The B. C. Amateur Boxing Association is willing to make peace with the B. C. branch of the Amateur Athletic Union.

Some strings are attached, however, to the peace pact proposal.

First, the AAU will have to rescind the suspension handed BCABA officials Charlie Sandford and Harry Bloor, and then, it will have to agree to formation of a nine-man commission to govern boxing.

An AAU appointee would be president of the commission, but he would not have a vote.

The AAU is willing to have a commission—an 11-man one—to include two of its appointees.

Decision on appointment of a commission may be made at a meeting to be held shortly, Fred Rowell, second vice-president of the AAU, said today.

The koala bear of Australia never drinks, but gets enough moisture from the eucalyptus leaves on which he lives.

Wisconsin to Meet USC in Rose Bowl Play

NEW YORK (AP)—Wisconsin was tapped by the Big Ten Monday to mee Southern California in the Rose Bowl Jan. 1, but Navy said "no" to Miami's Orange Bowl and Syracuse filled in the gap in the major post-season football schedule.

The Orange Bowl committee, its bid to Navy rejected by Washington's high brass, turned to Syracuse University, beaten only by Bolling Air Field and Michigan State in games.

Here is the major bowl picture, with the Southeastern Conference providing half of the teams:

Rose Bowl—Southern California 9-0 vs. Wisconsin 6-2-1.

Sugar Bowl—Georgia Tech 10-0 vs. Mississippi 7-0-2.

Cotton Bowl—Texas 7-2 vs. Tennessee 7-1-1.

Orange Bowl—Alabama 8-2 vs. Syracuse 7-2.

Wisconsin, a team which hasn't won or shared a Big Ten title since 1912, was chosen for the New Year's Day chore over Purdue after the two elevens finished their campaigns Saturday tied for the championship with identical league records, 4-1-1.

The Badgers got a majority of votes in a poll of the Big Ten athletic directors. The margin of voting was not revealed.

FLYERS, DYNAMITERS MOVE AHEAD

Spokane Flyers forged ahead in WIHL standings as a result of last wekend's double win over Nelson, and currently lead the league by 151 percentage points, compared with a lead of 78 a week ago.

Kimberley raised its standing slightly by defeating Trail, while the Leafs and the Smoke Eaters dropped a few points.

Four games next weekend—Kimberley at Trail and Nelson, and Trail in a doubleheader at Spokane—may hold some surprises, but in the four-day breathing-space this week the unofficial league standing shows the following figures:

	P	W	L	T	F	A	Pct.
Spokane	18	13	5	0	97	70	.722
Nelson	14	8	6	0	75	62	.571
Trail	15	5	10	0	66	91	.333
Kimberley	11	3	8	0	45	60	.273

The citron is one of the oldest citrus fruits known to man.

S. California Goes To Rose Bowl Play

NEW YORK (AP) — Two long runs carried the University of Southern California to a 14-12 victory Saturday over UCLA, the Pacific Coast conference championship and into the Rose Bowl against either Purdue or Wisconsin of the Big Ten.

Whether USC meets Purdue or Wisconsin will be decided today when the Big Ten athletic directors meet. Purdue and Wisconsin ended the season all square, each with a conference record of 4-1-1.

They reached that stage through Purdue's 21-16 win Saturday over Indians and Wisconsin's 21-21 tie with Minnesota.

Rayner Says Goalie's Job Toughest of All

NEW YORK (AP) — What's the toughest job in sports?

Chuck Rayner, a 12-year-man in the National Hockey League, says it's goal-tending.

"If I had a boy," says the New York Ranger veteran who was once named the most valuable player in the game, "I'd never raise him to be a goalie . . ."

Rayner was in the opposite nets at Madison Square Garden the other night when a sizzling drive crashed off the jaw of Detroit Red Wings' Terry Sawchuk. Sawchuk was stunned and bleeding when Rayner skated over to him.

"I know how you feel," Chuck said.

"Thanks," said Terry. "I'll be all right."

GOTTA STICK TOGETHER

"We goalies gotta stick together," muttered Rayner.

From his television booth, as the crowd watched Sawchuk stagger to his feet, Bud Palmer produced a bottle showing 30-odd bone chips in an alcohol solution.

"Sawchuk let me borrow these chips," Palmer said. "They're a memento of Sawchuk's elbow operation last summer."

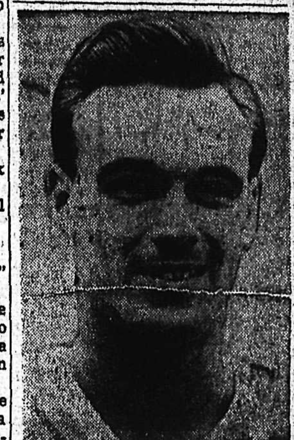
ROUGH ON GOALIES

Every year seems to be rough on goalies. This one is starting out the same way.

Gerry McNeil of Montreal Canadians has had a broken cheekbone. Rayner missed most of the games so far this season with a charley horse.

But Sawchuk has had the worst luck. The elbow operation was his third in as many summers. At 170 pounds, he is 15 pounds under his normal weight.

"Now it looks as if I might lose some front teeth," he rued. "I guess there are easier ways of making a living. But I still like this best."



MERV. ROSE, the smashing Davis Cup net star from down under, ensured an all-Australian semi-final round in the New South Wales tennis championships by crushing the last American competitor, Vic Seixas (above), in three straight sets in the quarter-finals. Rose, who lost to the U.S. Davis Cup captain in the finals of the tourney last year walloped his rival 6-2, 6-4, 6-4. Rose will meet Ken McGregor in the semi-finals. — Central Press Canadian.

British Columbia's First Distillery — Founded in 1904 by William Braid

Founder with Foresight

In the days when British Columbia cities were being hewn out of giant forest stands, few men foresaw the tremendous future in store for Canada's Pacific Province.

One man who *did* was William Braid. In 1904, he founded the Province's first distillery—The British Columbia Distillery Company Limited in New Westminster.

At a time when that city's population was a mere nine thousand, William Braid was laying the firm foundations . . . setting the policy of quality . . . for an industry that has played an increasingly important part in B.C.'s economic development.

Since 1904, the Company has steadily expanded its facilities to meet the growing demand for its quality products at home and in the markets of the world.

Today, the modern British Columbia Distillery on New Westminster's Braid Street stands as tangible evidence of the foresight of its founder—William Braid.

PUBLIC NOTICES

SEALED TENDERS addressed to the undersigned and endorsed "TENDER FOR R.C.M.P. DETACHMENT BUILDING, (DOUBLE TYPE), SALMO, B.C.," will be received in the office of the Secretary, until 3:00 P.M. (E.S.T.) WEDNESDAY, DECEMBER 17, 1952.

Plans and specification can be seen and forms of tender obtained at the offices of the Chief Architect, Department of Public Works, Ottawa, Ontario, the District Architect, Begg Building, 1110 West Georgia Street, Vancouver, B.C., at the Post Office Building, Trail, B.C., at the Post Office Building, Nelson, B.C., and at the Post Office, Salmo, B.C.

Tenders will not be considered unless made on these forms and in accordance with the conditions set forth therein.

Each tender must be accompanied by a certified cheque on a chartered bank in Canada, payable to the order of the Minister of Public Works, or Bearer Bonds as specified in the form of tender, for 10% of the amount of the tender.

The Department, through the office of the District Architect, Begg Building, 1110 West Georgia Street, Vancouver, B.C., will supply blueprints and specification of the work on deposit of a sum of $50 in the form of a certified bank cheque payable to the order of the Minister of Public Works. The deposit will be released on return of the blueprints and specification within a month from the date of reception of tenders. If not returned within that period the deposit will be forfeited.

ROBERT FORTIER,
Acting Secretary.
Department of Public Works,
Ottawa, November 18, 1952.

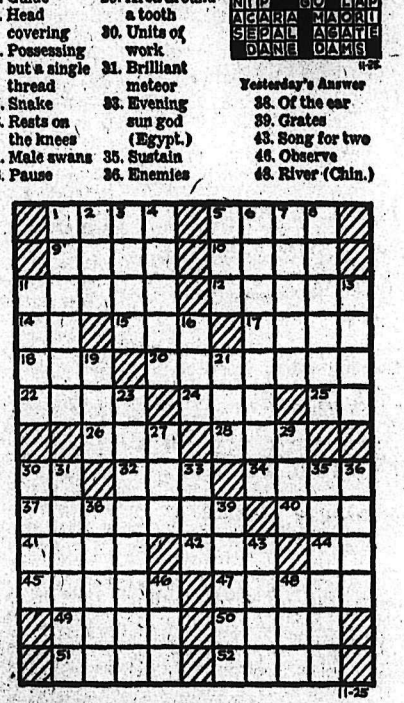
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

M S D J D K N C Q D H N A X D J F A M S D H D D H, Q L M M S D J D F V S G A G L J M G G—N C M G L A.

Yesterday's Cryptoquote: WE DO NOT WHAT WE OUGHT, WHAT WE OUGHT NOT, WE DO—ARNOLD.

NOT A BAD IDEA

SAGLE, Idaho (AP) — Some people in town didn't think it was a good idea when Ben Hartley wanted to marry Drusilla Keith. They were only 16. But Ben and Drusilla got married, and Monday they celebrated their 77th wedding anniversary. The Hartleys, 93 now, have three sons and a daughter, 14 grandchildren, 51 great grandchildren and 20 great-great-grandchildren.

Market Trends

NEW YORK (AP) — Strong railroads backed by a solid group of other selected issues sent trading ahead on increased volume.

Canadian issues were higher. Canadian Pacific, Dome Mines, International Nickel and Distillers Seagram each gained ⅛. Hiram Walker slipped ⅜ and McIntyre was unchanged.

TORONTO (CP) — Prices were weak toward the close.

Industrials showed many gains but golds and base metals lost strength. Western oils were mixed.

MONTREAL (CP) — A steady to higher price path was set. Business was slow.

Industrials showed strength as Simpson's B climbed a point to 47 and Industrial Acceptance $2 pfd moved up a point to 57. Utilities and senior metals were generally higher. B. C. Power and Aluminum were better.

LONDON (CP) — Japanese bonds featured trading. Prices gained up to 11 points before receding under profit-taking.

German bonds were three quarters of a point lower. Elsewhere trading was quiet.

Calgary Livestock

CALGARY (CP) — Trading was fairly active and prices steady on the Calgary livestock market today. The quality was ordinary in the 800 cattle and calves on offer.

Hogs closed 15 cents higher last week at 24 and sows steady at 13. Good lambs brought 19-19.25 and good ewes 8-9.

Good to near-choice butcher steers 22.00 to 24.00; common to medium 16.00 to 21.50. Good to near-choice butcher heifers 19.50 to 21.50; common to medium 15.00 to 19.00. Good light cows 13.00 to 14.00; common to medium 11.00 to 12.50, canners and cutter 7.00 to 10.50. Good bulls 12.00 to 13.00; common to medium 10.00 to 11.50. Good stocker and feeder steers 19.0 21.00; common to medium 15.0 to 18.50. Good to choice butcher calves 18.50 to 20.00; common to medium 1 .00 to 18.00.

MINING IN THE KOOTENAY . . . — NELSON DAILY NEWS, TUESDAY, NOV. 25, 1952 — 9

Canadian Ex Profits $2,337,000

Privateer Drilling Discouraging

Estimated net profit of Canadian Exploration Limited, wholly owned subsidiary for Placer Development, for its first nine months of 1952, was $2,337,000, C.W. Clark, secretary reports. This was entirely from the Jersey lead-zinc mine, estimated profit from the tungsten operation being deferred for the present. Profits for the period were 21 per cent greater than for the whole of 1951.

During the nine months, the Jersey mill handled 237,343 tons averaging 2.3 per cent lead and 3.7 per cent zinc for production of 29,325 tons of concentrate. This represents an increase of 103,165 tons milled and 12,617 tons of concentrates produced over the corresponding period last year. Third quarter output amounted to 10,377 tons of concentrate from 32,069 tons milled.

Construction work for increasing the capacity of the lead-zinc mill from its present rate of 25,000 to 35,000 tons monthly is progressing favorably, although it is expected this work will be about one month behind schedule due to slow delivery of heavy equipment.

Development is continuing at the Dodger and Feeney operations and regular shipments of tungsten concentrates are now being made. Until such time as the mill is on full production and it is known what final returns will be from up-grading of the lower grade concentrates, estimates of expected profit are being deferred.

Canadian Exploration purchased the government-owned ore reserves at the Emerald mine together with mining equipment and buildings in September.

* * *

HAVE A MINE

A comprehensive season's work at the Mollie Mac Mines Limited in the Lardeau district has been encouraging enough to lead officials of the company to state they believe they have a mine in the making.

In progress reports a full outline of the work completed during the summer is given, together with a summary of probable further development.

Diamond drilling commenced on the company's claims on June 16, seven stations being set up to a total of 2080 feet of drilling during the season. Results at stations "A" and "B" reported earlier this year were encouraging. At station "C", 2.0 feet of core was recovered assaying 1.0 ounces silver per ton and 10.9 per cent lead. At station "D" three feet of core was recovered assaying 0.4 ounces of silver and 3.7 per cent lead. Both these intersections were apparently secured from material at the limb of a fold.

Thirty-one feet of continuous core length was recovered from station "E" and assayed 1.0 ounces silver and seven per cent lead.

Best results were gained from station "F" where a continuous core length of 48 feet assayed 1.26 ounces of silver and 6.6 per cent lead was recovered.

Drilling at these last two stations was designed to explore the structure by direct penetration from above and into the hillside normal to the slope. As a result of this work, the report concludes that there is excellent concentration between elevations 4400 feet and 4800 feet and that a potentially valuable orebody can be explored in this area. An existing adit situated below this point can be extended to develop this showing.

In addition to this program an attempt was made to explore the upper bare rock area by using light drilling equipment. Two intersections returning ore indications from the footwall side with 2.0 feet assaying 1.05 ounces of silver and 5.8 per cent lead. This effort was discontinued due to the failure of the water supply.

Concurrently with the drilling program, some surface work was done. Progress was made in tracing extensions of the favorable structure lying between 4800 feet and 4950 feet along the easterly limestone band where an area of intensive replacement mineralization is exposed, into the Bunker Hill valley to the northwest where surface showings are said to be encouraging.

For the future it has been recommended that the existing adit at the 4300-foot elevation along the Gainer Valley slope be extended initially 300 to 400 feet following the limestone contact.

The report concludes by indicating that it is the intention of the management to proceed with a permanent camp for Mollie Mac. An adequate site has been secured for camp buildings and roads for all-season are being improved and completed.

Recommendations as to the underground program which will be based on financing through sale of treasury shares are being considered by directors.

Vibrations More Than Mile Below Earth's Surface Record Oil Traps

FORBES. RHUDE
Canadian Press Business Editor

Man-made earthquakes help find oil in Western Canada. A portable rig drills 70 feet into the ground. Small recording instruments called geophones are strung out for a quarter-mile around. Dynamite is tamped into the hole.

There is a thud underfoot as the blast is set off, and a column of earth and rock spews 20 or 30 feet into the air.

In an instrument truck, electrical signals from the geophones are recorded—for perhaps 2½ seconds. In that time the vibrations of the explosion have travelled more than a mile into the earth and back to the surface.

REVEALING RECORD

From the recording comes an outline of the rock formations far below. As a geologist told me: "We're looking for reflections from the interfaces where the various rock strata meet."

If the formations are kind that could be traps for oil, a well will be drilled some time later.

It is this modern way of looking for oil which has brought so much success in recent years.

BIG DISCOVERIES

Wizard Lake was a big discovery of 1951, found, following seismic studies, two miles from where an unsuccessful well had been drilled in 1947. Bonnie Glen, south of it, is termed the outstanding discovery of 1952—perhaps the biggest since Redwater in 1948.

The Amerada well, in the Sturgeon Lake area of the southern Peace River country, also is near a previous dry hole. It is said to open up a whole new area for prospecting.

Peace River enthusiasts say the Peace will be one of the biggest oil areas in Western Canada. Just now the emphasis there is on natural gas for export to the Pacific coast—if a market is also obtained in the U.S. Pacific Northwest.

Parole Board Turns Down Hiss Appeal

WASHINGTON (AP)—The U. S. parole board Monday turned down the application of Alger Hiss, former state department official now serving a five-year term for perjury.

The board gave no reasons.

Hiss was convicted on perjury—lying when under oath—for denying he gave secret government documents to Communist agents.

He became eligible for parole last Friday after serving one-third of his sentence.

Hiss, now 48 has persistently denied he was guilty.

BOND MARKETS FIRM

MONTREAL (CP) — Bond markets Monday were firm and unchanged. Canada Southern, up two points, featured the quiet corporate market.

Buy, Sell, Trade the Classified Way

Finance Wizard Surprise Japan

By FRED SAITO

TOKYO (AP) — The wizard of the booming Japanese stock market is a 37-year-old South Korean who started without a penny of his own in 1945 and now speculates with some $10,000,000 entrusted to him by millions of clients.

His personal fotrune is a secret, but Matsutomi Ito is a wide contrast to more than 600,000 other Koreans in Japan, most of them poverty-stricken day laborers, looked upon as second class citizens.

NATURALIZED CITIZEN

Japanese brokers look with awe upon this slight young man who adopted a Japanese name and is now a naturalized citizen.

Ito came to Japan in 1928 to live with his brother, a factory worker now missing in Korea. Now he lives in a palace-sized house and travels in a chauffeur-driven limousine.

He proved a genius at figuring the twistings and turnings of Japan's bouncing market. He borrowed money from investors and speculated on his own, dividing the profits later.

The average of 225 stocks issued on the market recently advanced from 16" yen, early in January, to 329 yen on Nov. 10. One Japanese camera firm's stock shot up from 165 yen to 415 yen in two weeks.

Ito learned to call the turn and he's still at it.

His firm is known as the Hozen Keizaikai." Translated: "Safe Economy Club."

Anti-Combines Group Holds First Meet

MONTREAL (CP)—The Restrictive Trades Practices Commission, known as the Anti-Combines Commission, sat today for the first time.

The body was operated Nov. 1 on a federal recommendation in an effort ot prevent illegal trade practices and is headed by C. Rhodes Smith of Manitoba. Today's hearing was private.

The commission has federal jurisdiction and may be called upon to sit anywhere in Canada. It was set up following a report of the Mac-Quarry Committee, which studied anti-combine legislation in Canada.

Rhee Vows To Urge U.S. To War Against Russia

TORONTO (CP) — The Toronto Daily Star in a dispatch from Seoul today quotes President Syngman Rhee of South Korea as saying he will urge Gen. Eisenhower to launch an offensive against Russia as the only solution to the cold war.

"From a global viewpoint, this struggle cannot be confined to Korea," Rhee said. "The United Nations is pouring out its strength fighting the Russian satellites.

Only by bombing Moscow can we end it all . . . I believe democracy won't be safe until the Kremlin criminals are dead."

Rhee, in an interview with Star correspondent William Stevenson on the eve of the U.S. president-elect's arrival in Korea, also proposed arming 2,000,000 South Korean youths to drive Communist invaders north to the Yalu River.

He said he opposes the entry of Chinese Nationalist troops from Formosa. If they were to be used to fight Asiatic Communists in an Asian army, then they should attack Communist China itself.

"There is talk of using Japanese troops here, who have been arming with United States weapons. I can assure you we would turn around an fight the Japanese before the Communists if that happened."

Bloody Weekend In U.K. Colony

NAIROBI, Kenya (AP)—Officials announced Monday the arrest of 350 persons at Kirawara, where police opened fire Sunday on a mob of 3000 Kikuyu tribesmen and killed 15 of them.

The police action and other violence gave this troubled British East African colony its bloodiest weekend since the start of the drive to stamp out the terrorist activity of the anti-white Mau Mau society. The death toll was at least 21 killed, including a retired Royal Navy commander.

Cmdr. Ian Meiklejohn, 56, and his 50-year-old physician wife were attacked at their remote farmhouse at Thompson Falls, 100 miles north of Nairobi late Sunday. He died this morning and his wife's condition still was critical.

Pearson Seen in Line to Follow Sec. Trygve Lie

By NORMAN ALTSTEDTER
Canadian Press Staff Writer

UNITED NATIONS, N.Y. (CP)—Some western delegates are discussing informally the possibility of putting the name of L. B. Pearson for the post of secretary-general of the United Nations despite likely Russian opposition to Canada's minister of external affairs.

Pearson himself, president of the UN assembly has said he will make "no comment whatsoever" on the question of choosing a successor to Secretary-General Trygve Lie. Lie submitted his resignation Nov. 11 "to help the United Nations save peace."

However, it is considered unlikely that Pearson would refuse the top post in the world organization if it is offered to him by the big five powers—including Russia.

Other names mentioned besides Pearson as possible choices are Nazrollah Entezam of Iran, Carlos Romulo of the Philippines, Ramaswami Mudaliar of India and Sir Zafrullah Khan of Pakistan—all believed to have a better chance than Pearson for acceptance by the Russians.

Irishmen Swell Edmonton Police

EDMONTON (CP) — Edmonton's police force was bolstered Monday by the arrival of 25 Irish recruits, all former members of the Royal Ulster Constabulary.

The group was welcomed at the railway depot by Chief Constable Reg. Jennings and Alderman Mrs. V. S. Field, acting mayor.

Chief Jennings said the men will be placed on the payroll immediately but won't be on actual duty for about a month. In the meantime they will be given courses in civic by-laws, Alberta liquor laws and the Criminal Code of Canada.

Temporary billets in tourist establishments and private homes have been arranged.

Only one recruit, Const. T. J. Turkington from County Down, brought his wife and family. The other eight married men in the group plan to send for their families later.

A second group of 10 Irish police recruits is scheduled to arrive here Dec. 7.

Manning Keeps Out Of B. C. Politics

EDMONTON (CP) — Premier Manning said Monday that discord between the B. C. government and West coast U. S. industrialists is none of Alberta's business.

A B. C. government spokesman last week suggested Canada withhold water storage rights from the U. S. Pacific Northwest unless certain gas pipeline privilages were received in exchange.

Mr. Manning said the dispute "is out of our sphere. We have issued a natural gas export permit for Peace River district gas and we hope that good use can be made of it," the Premier said.

LIKE BROAD HINT

CANTERBURY, England (CP)—The Archbishop of Canterbury, Dr. Geoffrey Fisher, is establishing a reputation as a foe of television. In a recent speech he complained that clergymen visiting parishioners are invited to watch television and "when the program is over it's time for them to leave."

USEFUL ARTIFICIAL LEG

BERLIN (Reuters) — An East-German who smuggled 80 pounds of coffee to Dresden by hiding it in his artificial leg was jailed for four years, the Dresden paper Die Union reported recently.

Views from the News Fronts

By J. M. ROBERTS Jr.
Associated Press News Analyst

From this corner, the widely publicized "split" in the United Nations between Britain and the United States looks more like a crack than a crevice.

Since both parties have been notified that Russia has no intention of letting a Korean truce go through at this time, the argument boils down to one over procedure rather than substance. Russia's Andrei Y. Vishinsky Monday turned down as "unsatisfactory and unacceptable" India's compromise plan.

There are, of course, matters of substance involved. Britain has a position to maintain with India, author of the disputed formula for approaching a settlement of the Korean prisoner problem. The U.S. represents the United Nations command in Korea, and will have to carry any load imposed now by UN resolutions just as it has carried the load imposed by the original war aims resolutions. There are blocs of opinion in the UN which can be influenced by attitudes on procedure almost as much as by attitudes on substance.

But among the issues, the prisoner matters, while involving substantial principles, is generally accepted now as merely a peg for Communist determination to maintain the present situation in Korea. The squabbles it produces, such as the present one, are the dividends the Russians want. They are even using the current one to bolster their ancient contention that the Western powers will eventually hand the world to communism by fighting among themselves.

Britain feels that the attainable goal at present is to manoeuvre the Rusisans rather than the Allies into rejection of any peaceful-looking move. Its position has been bolstered by Vishinsky's move Monday.

The U.S. complicated matters by a too-hasty expression of dissatisfaction with the Indian proposal.

Canadian Bettors Exceed Records

OTTAWA (CP) — Pari-mutuel machines jingled merrily this year as Canadians wagered $67,440,997—the highest amount of controlled betting in 30 years and near-record.

In the record year, 1921, bettors chanced $75,000,000. Last year the total was $60,384,287.

The figures were issued by the agriculture department, given supervision of pari-mutuel betting in the days when it was deemed that horse-racing was primarily to improve the breed.

DIVISION OF "TAKE"

Of the $67,440,997 wagered this year, the 30 racing associations retained $6,337,433 as their legal percentage, the provincial governments collected $5,878,216 in taxes and $55,225,326 went back to the bettors.

Out of their cut, the racing associations paid $3,328,755 in purses to the owners of winning horses. This is an increase of $175,305 over the $3,153,450 in 1951.

Sitter Saves Two Babies From Fire

PRINCE GEORGE, B. C. (CP) — Blanche Carpenter, 16, carried an infant and a two-year-old child through smoke and flame to safety Monday when the house caught fire.

Mr. and Mrs. Joe Stewart are parents of the rescued children. Cause of the fire which destroyed the house is unknown.

Blanche was reading in the living room when she discovered she was surrounded by flames. She rushed to the bedroom where the children were sleeping and carried them outside.

DEATHS

By The Canadian Press

Hamilton, Ont.—Rhys Crossin, 64, editorial writer on the Hamilton Spectator and former Hamilton reporter for the Toronto Globe.

Bombay, India — Maharaja Gen. Yudha Shumshere Jung Bahadur Rana, 78, most prolific of Nepal's one-time hereditary family of prime ministers.

Toronto — George K. David, 41, sales and service engineer for Canadian Linotype Company.

Pembroke, Ont.—Alfred Logan, 90, Maritime-born veteran newspaper man and clergyman.

New York—Mrs. Susanna Perry Faulkner, 100, who danced the samba at the Stork Club on her 97th birthday and celebrated her last in August a little more quietly.

Buffalo, N.Y.—Paul R. Welch, 70, chairman of the board of the Welch Grape Juice Company.

New Orleans — Anthony Pelleteri, 59, executive vice-president of the fair grounds race track in New Orleans.

Racine, Wis. — Dr. George Walter, 50, vice-president of the American Automobile Association.

Lisbon, Portugal — Antonio Castanheira de Moura, 67, king of the bakers of Portugal.

Philadelphia—Mrs. R. Tait McKenzie, 76, widow of the internationally-known sculptor.

Toronto—Col. Thomas Moss, 67, a war crimes judge in Japan after the Second World War.

Ottawa — Chester H. Payne, 68, former deputy of the wartime ministry of national war services.

Fort Mcleod in the Cariboo district of British Columbia was founded by Simon Fraser in 1808.

TWO DAYS OF INTENSIVE PREPARATION were required to carry out this 12-minute operation. The B.C. Telephone Company shown here, are laying a submarine cable across Kootenay Lake's West Arm to increase service to North Shore residents. Cable laying took place Wednesday. At the same time a crew with truck was in the background, renewing ferry cable across the lake.

A SUB-SURFACE CABLE is being laid in place here by linesmen Samuel Wagner and Jack Kennedy. Running parallel to the Lakeside Park fence, this cable was spliced to the submarine cable crossing the West Arm at the Ferry slip.—Alice Stevens photos.

Better Beer for Coronation

LONDON (Reuters)—Beer twice as strong as that now being sold is being prepared for the Coronation period next June, it was announced at a brewers' exhibition today.

Almost every brewer in the country will make the new beer, with a gravity of about 60 compared with the present average of 33.

"A Cronation does not happen very often and we want to celebrate it properly," said F. J. Bearman, chairman of the judges at the exhibition.

The coronation beer bottles will have a special label bearing a crown, he said.

Station Attendant Battered, Money Safe

VANCOUVER (CP) — William Toner was in hospital today with a broken leg, but his $500 was safe.

Toner, a service station attendant, told police two men broke his leg, beat him with a bottle, but failed to find his walelt which contained $500.

2 Children Blamed For Beating Baby

PORT ARTHUR (CP) — Police said today two children "too young to know what they were doing" were responsible for the brutal beating last Wednesday of three-year-old Deidre Ditchfield.

The child was found face-up in a creek near her Alexander Landing home, 70 miles east of here. She had no apparent pulse when found but now is recovering.

Police said the case is closed. It is believed the children responsible were aged five and six.

Bandits Hidden In Coast Fog

VANCOUVER (CP) — Fog cloaked the operations of bandits and safeblowers early today in Greater Vancouver.

In a heavy pea-souper, Daniel Grisenthwaite, a fish buyer, was just ready to step into his car when two gunmen robbed him of $900.

Safecrackers escaped from a suburban West Vancouver super-market with $2380.

THIS IS AN ARTIST'S CONCEPTION of the reported hydrogen bomb blast on Eniwetok Island, in the Pacific, made from a rough sketch that an unidentified man sent to his home in Ilma, Ohio, after reportedly witnessing the first test of the H-bomb. The alleged witness accompanied his sketch with remarks denoting various colors of the tremendous mushrooming explosion. The Government has not released any information about the reported H-bomb test as yet. —Central Press-Canadian

TV Influence Creeps Into Canadian Homes

OTTAWA (CP) — Television influences more adults than children, the Canadian Film Institute reports in a study just completed of television's effect in an Ontario community.

The institute, formerly the National Film Society of Canada, is an organization promoting the educational and cultural use of films. The television survey was made during a period of more than a year in a southern Ontario community of about 4000 population.

This town had TV reception from the United States for more than three years, over three or more channels.

The survey therefore does not cover possible changes in viewing habits since Canadian television went on the air this year from Toronto and Montreal.

The writer of the report, Mary Jolliffee of Toronto, says that in the area under survey television audiences were mainly adult, and such pastimes as bridge and bowling were losing patronage. Teenagers were said to prefer being active in the company of others their own age. Among the young set as a whole children of public school age were said to be most interested.

The survey said television has had a decided effect on family routine. "The entire living room frequently is altered, and previous furniture discarded as unsuited to the new form of entertainment," it says. "In many solid, substantial Canadian households, TV now takes up more time than anything but sleeping and working."

Russ-Made War Supplies Sent to Vietminh Forces

By JOHN M. HIGHTOWER

WASHINGTON (AP)—State and defence department experts said Monday Russian-made war supplies are pouring into Indo-China over a transcontinental Communist railway system protected from Allied air attack because it cuts through China.

Officials said this give new striking power to Communist forces in Indo-China and presents a sinster threat to Burma and Thailand.

VIETMINH EVIDENCE

Informants said evidence that the Vietminh Communists are receiving Russian supplies was found in a recent raid by French and native forces on a Communist supply centre. Allied raiders captured 25 tons of Russian-made mortar shells and four Russian "Molotova" trucks with gasoline engines, among other items.

Many other types of weapons and ammunition were also captured, including supplies of French, American, British and Japanese manufacture, as well as Chinese materials.

RUSSIAN TRUCKS

But interest here centred on the four Russian trucks because of their possible strategic significance and the fact that they are in Indo-China at all, responsible authorities said, means that the Red railway line and Indo-Chinese supply routes are functioning against all obstacles.

The railway in China is not subject to air attack because technically China is not at war with the Allies.

Drive for Safe Drivers Opens

VANCOUVER (CP)—The names of hundreds of safe automobile drivers may be presented to the provincial government by the B.C. Automobile Association in its campaign for lower auto insurance.

The association Monday invited all drivers who can claim a year of accident-free driving to apply for "safe driver" stickers for their car windows.

If sufficient names are gathered they will be forwarded to Victoria as proof that the majority of B.C. drivers are not prone to accidents.

To qualify for the sticker, drivers must be acident-free for one year and have no convictions of drunken or dangerous driving.

Threats Phoned to 'Peg Reporter

WINNIPEG (CP) — A Winnipeg Tribune reporter who has written a number of stories on Winnipeg gambling following a police raid on a floating dice game in suburban West Kildonan said today he received a threatening phone call Sunday.

"Don't write any more about that West Kildonan game or you'll be sorry," the anonymous person said.

Bob Metcalfe, the reporter, reported the matter to police. The Tribune today published another story by Metcalfe.

RED DOCUMENTS SEIZED

TOKYO (AP) — The newspaper Asahi reported Sunday that Japanese police have seized secret Communist party documents outlining steps to be taken "in a military struggle." The paper said police had obtained a 13,000-word pamphlet entitled "For unification of ideology and action in a military struggle."

Lulu Island at the mouth of the Fraser River in British Columbia is 13 miles long with a maximum width of six miles.

Fred Hume Runs Again for Mayor

VANCOUVER (CP)—Mayor Fred Hume announced Monday he will run again for mayor in next month's civic elections.

He said he will enter the race as an independent but is looking for support.

The man who was nine times mayor and nine times alderman in New Westminster before he moved into Vancouver politics two years ago, made his announcement in a two-page statement released to reporters at City Hall.

Mr. Hume said his decision, subject of speculation for many months, had been reached "just this morning."

Immigrant Boy Off to Edmonton

QUEBEC (CP) — Immigration officials told 15-year-old Herman Wegmann Jr., today his father is living in Edmonton.

The youngster, at immigration quarters here since his arrival Oct. 27 from Emsdetten, Germany, will travel by train from Quebec to join his father.

Immigration officials said an Edmonton group will pay the boy's train fare.

Herman, whose mother will come to Canada later, said he was "very happy" over the news.

"I go! I go!" he shouted when Immigration Superintendent Conrad Lauziere asked if he would like to go to Edmonton.

Ava in London for Special Treatment

LONDON (AP) — Actress Ava Gardner flew into town today for medical treatment of a "bug" she picked up while making an African picture with Clark Gable in Kenya colony.

A spokesman said Miss Gardner, wife of crooner Frank Sinatra, probably will enter a hospital Tuesday for observation. Her condition was not serious.

She was expected to return to Mau Mau country 80 miles north of Nairobi within 10 days.

BELFAST (CP) — The post office received one shilling "conscience money" from an unidentified man in Canada who explained he had broken insulators on telephone poles when he was a boy in Ulster.

Top Advisors to Go With Abbott And St. Laurent

OTTAWA (CP) — Three top economic advisers will accompany Prime Minister St. Laurent and Finance Minister Abbott to the Commonwealth prime ministers' conference today.

They are W. F. Bull, deputy minister of trade; Louis Rasminsky, adviser to the governors of the Bank of Canada and Canadian representative on the International Monetary Fund; and J. J. Deutsch, head of the finance department's international economic relations divisions.

The delegation will take off from suburban Rockcliffe airport aboard the C-5 luxury liner used by Queen Elizabeth and the Duke of Edinburgh on their Canadian tour last year.

Mr. St. Laurent likely will be in London for about 10 days. He will deliver at least one public address at the University of London where he will receive an honorary degree Nov. 28.

Snowfall Covers Winnipeg District

WINNIPEG (CP) — Winter slipped into Winnipeg Monday, bringing a 1½-inch blanket of snow and the likelihood of sub-freezing temperatures for the remainder of the week.

The weather office predicted a low of 15 tonight. Snowflurries are forecast for Tuesday.

Ancient well-diggers in Burma, seeking oil for lamps, dug plank-limed wells as deep as 400 feet.
