St. Laurent, Drew Agree . . .

Korea May Banish War for Long Time

P.C. Leader Charges Not Enough Being Done for Defence; Opposition Leaders Move for Non-Confidence

By DOUGLAS HOW
Canadian Press Staff Writer

OTTAWA, Sept. 1 (CP)—Prime Minister St. Laurent and his top political foe both held out high hopes today that the West's swift and tough reaction to Korea may banish war for a long time to come.

Mr. St. Laurent said the next 10 months should tell whether general war will come. He was confident that in that time the West could demonstrate it can put down aggression and that "a long period of absence of war" will follow.

George Drew, Progressive Conservative Leader, encouraged by his trip to Europe, said: "I have very great hope today . . . we may well be coming to freedom's crowning hour."

But both Mr. Drew's Party and the C.C.F. formally disagreed with Mr. St. Laurent's contention that the Government is doing all possible in the best way to enable Canada to play her share in this movement to peace.

Both parties threw into the commons special session motions of nonconfidence in the Government in the form of amendments to the address in reply to the speech from the throne.

Mr. Drew charged in his that the Government has failed to provide adequately for the Defence of Canada and failed to take steps to deal with inflation and the rapidly rising cost of living.

M. J. Coldwell, C.C.F. leader, inadded to it the charge that the Government has not used price controls and subsidies on essential goods to meet inflation.

Mr. St. Laurent's reply was that it will be for the House to say whether the Government, once it has brought down its full program, has done enough. He said the Government does not feel it should at this stage invade provincial jurisdiction to impose a general system of wage and price controls but some measures of an anti-inflationary character were under study.

Mr. St. Laurent's speech was an immediate reply to Mr. Drew in the Throne-speech debate.

Mr. Drew contended that Canadians were "amazed and disturbed" to find their defences so inadequate at the time of Korea, that they were wondering what had been done with the $1,500,000,000 voted for defence since 1945. He urged anew that a House Defence Committee be appointed at once and that it report as soon as possible to a House recalled for that purpose.

Mr. St. Laurent agreed with Mr. Drew that the West is living on time borrowed on the strength of the A-bomb and that Korea has demonstrated a new kind of aggressions designed to be effective under conditions where the bomb could not be used. This situation must be met.

The Government was recommending the steps it considered proper. He agreed that "what is necessary at this time is not so much to determine how much we can do but how quickly we can do it effectively."

As for a defence committee, he would "be surprised if the Canadian people were very favorably impressed with the reports of some of the sittings of the (Defence) Committee of the House of Representatives of the U.S." some of its proceedings would "shock" Canadians.

At the night sitting Maj.-Gen G. R. Pearkes V.C. (PC—Nanaimo) charged that Canada is wide open to Russian attack on the West Coast. Ralph Campney (L — Vancouver Centre) said he could not agree that the Pacific Coast is not in as good a position as the rest of Canada.

Other speakers included Clarie Gillis (CCF—Cape Breton South), John Blackmore (SC—Lethbridge) and R. R. Knight (CCF—Saskatoon City).

July Cost-of-Living Index Up 1.0 Points

Rise in Food Prices, Phones Clothing Home Furnishings

OTTAWA, Sept. 1 (CP)—Living costs moved up again during July, boosting the cost-of-living index 1.0 points from 167.5 a new all-time high, the Bureau of Statistics reported today.

Higher food costs once more provided the main stimulant for the index climb, but there were increases, too, in such other categories as clothing, fuel and light and home furnishings.

With prices higher for meats, eggs, sugar and coffee, the foods subgroup moved up sharply from 214.3 to 216.7—a record.

A hoist in footwear and piece goods boosted the clothing sub-index from 180.7 to 180.9—the first climb in that category since October, 1949.

Prices also ranged higher for coal and coke in Ontario and Quebec, boosting the fuel and light group from 137.7 to 138.4.

Higher telephone rates in Eastern Canada provided the power for a rise in the home furnishings and service groups from 166.9 to 168.9.

Unchanged were rents at 134.9 and the miscellaneous group at 132.5. The rental survey is made on a quarterly basis only.

The index as a whole is calculated on the basis that 1935-39 prices equal 100. On Aug. 1, 1949, the index stood at 162.8 compared with the new level of 168.5.

From August, 1939, to August, 1950, the increase in the index was 67.2 per cent.

Truman Confident Korea Invasion Will Be Crushed

WASHINGTON, Sept. 1 (AP)—President Truman said tonight that the fighting in Korea will not expand into a "general war" unless the Communists pour other armies and governments into the battle.

The President, in a report to the country which was beamed throughout the world, declared that the Red invasion of Korea "has reached its peak."

"The task remaining is to crush it," he said in a speech from the White House. "Our men are confident, the United Nations command is confident, that it will be crushed."

The President again expressed the hope that the people of China "will not be misled, or forced into fighting against the United Nations and against the American people, who have always been and still are their friends."

Asks for Death to British Saboteurs

LONDON, Sept. 1 (AP)—A British Labor Union official called today for death to peacetime saboteurs.

"They are traitors—death is the penalty for traitors," Tom Yates, General Secretary of the National Union of Seamen, wrote in the Union's Publication The Seamen.

Yates referred to a number of incidents of sabotage during the past 20 months involving British naval craft.

HURRICANE LEAVES ISLAND CAPITAL IN RUINS

ST. JOHN'S, Antigua, Leeward Islands, Sept. 1 (CP)—St. John's was a mass of wreckage tonight following a fierce six-hour beating by the worst hurricane ever to hit this Caribbean colony.

Today's hurricane, coupled with an earlier Aug. 21 storm and a series of fire stretching over a month, left this capital of 10,000 residents littered with fallen buildings, wrecked fences and galvanized roof sheeting.

Everywhere, downed telephone lines made traffic difficult and communication with many parts of the island was impossible.

Three persons were missing following today's storm but no deaths were reported immediately.

Damage was estimated at well over $1,000,000.

Die From Effects of Gas Leaking Pipe

TORONTO, Sept. 1 (CP)—Bodies of two middle-aged men were found last night in a cot in the basement of a Toronto rooming house. Edward Brearley, 56, of Haliburton and John Brown, 65, of Toront were believed to have died from the affects of gas leaking from a pipe.

Britain Resumes Parcel Mail

LONDON, Sept. 1 (Reuters)—The British post office today announced resumption of surface mail for Canada.

Dispatch of newspapers, parcels and printed matter was suspended during the nine-day railway strike which ended yesterday.

REDS WITHIN 35 MILES OF PUSAN

Troops Meet in Hand-to-Hand Fighting in Places

By MILTON MARMOR

TOKYO, Sept. 2 (Saturday) — (AP)—Communist infantrymen and tanks struck the South end of the Korean war front, 35 miles West of their main objective, Pusan, early today.

A front-line dispatch, reporting on the second day of a 50,000-man Communist offensive, said the thrust followed an hour's heavy shelling of positions defended by the U.S. 25th Division. This was on the 25th's South flank.

Two hundred carrier planes swarmed at dawn over the 55-mile battle sector in support of the defenders.

Stan Swinton, Associated Press Correspondent, said the Communists struck about nine miles West of Masan, the gateway to Pusan, main port of supply for the United Nations forces.

Swinton reported other Red forces hit 25th division positions in its "central sector"—North of Masan—causing the defenders to withdraw.

An American artillery battery fought its way out of one embattled position by lowering its guns and employing point blank fire.

Swinton's report from the Southern sector added up to a renewal of the offensive launched yesterday which for a time overran the town of Haman, 8½ miles Northwest of Masan which appeared to be the Reds' immediate objective. Last night was comparatively quiet after yesterday's operation—the biggest co-ordinated Communist push of the Korean war.

A field dispatch from AP Correspondent Mem Price said the U.S. 2nd Division, defending the Naktong River line on the right flank of the 25th Division, held firm at the North end of its line. It even pushed the Reds back at some points.

The Communists threw reinforcements during last night across the Naktong which they have crossed in 17 low-level places.

Price reported some companies still were cut off and were being dropped ammunition and food by planes.

Swinton said one American patrol captured four Reds outfitted in United States Army uniforms.

An intelligence officer at Gen. Douglas MacArthur's Tokyo headquarters warned, however, that still another major Communist offensive was possible against a different sector of the 120-mile-long defence front.

Besides the 50,000 in the current push, the North Koreans are estimated to have 100,000 other troops of all categories. The spokesman in Tokyo said the largest mass of enemy infantry was still presumed to be in the Waegwan area, Northwest of Taegu.

WITH THE U.S. 2ND INFANTRY DIVISION, Sept. 2 (Saturday) (AP) — Tank-supported American infantry recaptured Yongsan today and cleaned out light pockets of North Korean resistance.

American reinforcements were moving up against the Reds who retreated to high ground West of Yongsan.

"We have the town," said Maj. Joseph W. Walter.

Coast Unionists Protest "Back to Work" Decision

VANCOUVER, Sept. 1 (CP) — Immediate repeal of emergency legislation sending Canada's railway workers back to work was demanded last night at a meeting of 1000 unionists.

The meeting was part of a protest called by Canada's two major labor bodies, the Canadian Congress of Labor and the Trades and Labor Congress.

Speakers said the Liberal Government, in its rail legislation, "had broken faith with the workers and is no longer fit to represent the workers."

A resolution endorsed by the delegates demanded, in part: "That railroad workers be awarded more leisure and wages, that odious class legislation be immediately repealed and that the Government and the management give intelligent and courteous treatment to the common people who produce all wealth."

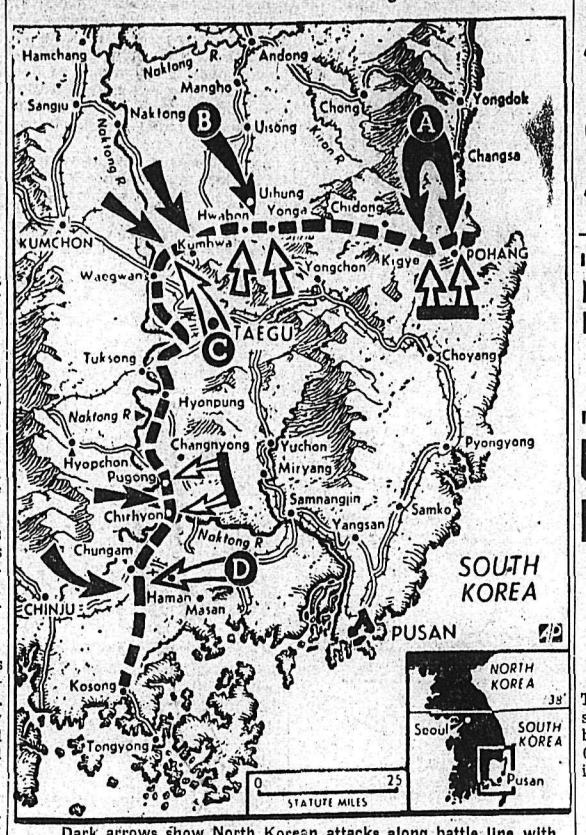
FRANK HALL APPEALS

MONTREAL, Sept. 1 (CP) — Frank Hall, speaking for 124,000 rail employees involved in a wage-hour dispute with Canadian Railways, today said union members should "let bygones be bygones" from the nine-day national railway strike.

In a statement, Mr. Hall said "the important thing is to re-establish sound relationship with the railways and get on with the work.

"It is the earnest hope of these unions that agreement can be reached with the railways on the matters to be discused. It is in this spirit that our negotiating committee will resume the negotiations."

Pressure Continues as GIs Attack



Dark arrows show North Korean attacks along battle line with main thrusts battering Eastern anchor and central sector. Reds (A) stormed at Pohang, still held by United Nations forces. Enemy troops (B) dented allied line South of Uihung about 18 miles Northeast of Taegu. First Calvary Division troops (C) attacked a Red-held hill Northeast of Waegwan. On Southern front (D) U.S. and South Korean units retook bloody "battle mountain" near Haman. AP Wirephoto.

HUSBAND BELIEVED KILLED TURNS UP AT HOME, SPENDS DAY, THEN LEAVES

VANCOUVER, Sept. 1 (CP)—Mrs. Alice Hallock said today her husband, presumed dead two years ago in a plane crash, turned up suddenly at home here for a day, then, just as suddenly, disappeared again.

The R.C.A.F. spent $15,000 hunting for Otis Hallock after he disappeared in August, 1948, in a Tiger Moth plane. The aircraft was presumed to have crashed and burned on a mountain peak 40 miles East of here.

Mrs. Hallock said her husband had walked away from the wreck and then had ridden the rods to Montreal, where he had worked as a salesman for two years under an assumed name.

She had accepted the role of the widow during all this time and had gone to work as a door-to-door brush saleswoman to support her four children.

She said her husband had spent one day with her and the family, relating his experiences and playing with the children.

Then he vanished again, she said. She added that she believed he had gone to Edmonton. She declined to discuss any reasons he might have advanced for permitting his wife and the authorities to presume his death. Nor did she say why he had left again.

Indian Dancing, Midway Start Fun at E. Kootenay Exhibition; Record Entry

LAKE WINDERMERE, B.C., Sept. 1—Honor of being first fair queen at the annual East Kootenay Industrial and Agricultural Exhibition at Athalmere will be awarded when votes are counted for five contestants from valley towns.

Counting will take place at 1 p.m. Saturday during official opening ceremony at fair grounds.

Judges are busy today with fair officials. Record number of industrial displays are being viewed as well.

Proceedings started tonight with Indian dances around campfire, midway fun and fireworks.

Winners at East Kootenay Agricultural and Industrial Exhibition:

Pet stock and bantams—Mrs. Steve Yadernuk of Spillimacheen.

Dairy produce—Mrs. Steve Yadernuk, Edwin Ede of Windermere.

Grain and seed—Mrs. Yadernuk, H. H. Peters of Athalmer.

Field crops—Mrs. Yadernuk, H. H. Peters.

Vegetables—Edwin Ede, Mrs. Thomas Gallagher of Invermere.

Fruits—J. A. MacDonald of Flagstone, K. M. Marples of Invermere.

Needlework—Mrs. Fred Foyston of Invermere, Miss Marcen Pietrosky of Invermere.

Cooking—Mrs. K. M. Marples of Invermere, Mrs. Fred Foyston.

Indian Section:

Women's work — Mrs. Moses Michel, Mrs. Jerome Joseph.

Cooking—Mrs. Margaret Stevens, Mrs. Isaac Tenese and Mrs. Margaret Paul, tied.

Lily Diet Cheaper Than T-Bone Steak

SOUTHFLEET, Kent, England, Sept. 1 (CP)—A diet of water lillies has become the vogue in this rural community.

It all started after the local Rector, Rev. W. M. Falloon, disclosed his secret of good health and long life at a party in celebration of his 78th birthday.

Every morning in the lily season, the rector said, he picked a nice lily from his goldfish pond, put it between two slices of bread and ate it before breakfast.

"I have been doing that for 16 years and thrived on it," he said.

Searchlights Blaze Again in Malaya

SINGAPORE, Sept. 1 (Reuters)—Searchlights blazed over Kuala Lumpur last night for the first time since the Japanese invasion, as British and Malayan troops sought out a Guerrilla mountain hide-out. British troops in the area were reinforced and Europeans warned not to travel outside the five-mile limit following reports of Guerrilla concentrations 12 miles North of the Capital.

Irish Cops Search For Peggy O'Neill

VANCOUVER, Sept. 1 (CP)—A bunch of Irish cops in Vancouver would like to find Peggy O'Neill.

She isn't the Peggy they sing about. But music — or at least a radio—figures in this case.

Peggy O'Neill reported the radio stolen 11 years ago. It was located by the police second hand detail yesterday. But Peggy has moved and they have been unable to locate her.

New Pay Increases Bring Recruits

LONDON, Sept. 1 (Reuters) — New pay increases for British troops have brought a rush of recruits for the Army, Navy and Air Force, recruiting officials said yesterday. All recruiting centres in the country were said to be busy.

VANCOUVER, Sept. 1 (CP) — Announcement that members of leading lumber sales organizations in British Columbia have been invited to Britain "to discuss prospects for 1951" was made yesterday by industry spokesmen.

Storms Equipment To Be Moved To Nelson-Euphrates Next Week

Storms Contracting Company (Pacific) Ltd., of Vancouver will be moving equipment from the East Kootenay next week for construction of the Nelson-Euphrates section of the Nelson-Nelway highway.

This was the word Friday of H. I. Miard, Divisional Engineer, Department of Public Works. Construction sticks have been laid out already, he said.

Meanwhile, on the North Shore, Department of Public Works crews have finished constructing the road from their starting point 9½ miles from the Nelson Ferry to within 6½ miles of Nelson, and are now working on the next mile.

Shipping Agreement Signed at Vancouver

Four-Cent Increase, 40-Hour Week Believed Included in New Contract

VANCOUVER, Sept. 1 (CP)—A contract with three major passenger-shipping lines and the Seafarer's International Union (AFL) was signed tonight with traffic resuming at midnight on the British Columbia coast.

The announcement of the signing followed one earlier today that a settlement was near. Last-minute negotiations halted the final step that would allow shipping of the Canadian Pacific, Canadian National and Union Steamships to resume. The railway lines have been tied up since the rail strike began. Union Steamships were halted a week ago at noon.

The contract was signed at 9:25 p.m.

Basis for the settlement between the Seafarers' International Union (A.F.L.) and British Columbia's three major steamship lines was similar to that which ended the rail strike earlier this week.

Yesterday the union turned down an offer by Canadian Pacific, Canadian National and Union Steamships which was based directly on the rail strike settlement plan.

It was understood the companies today had made a number of other concessions but basis of the new contract was fundamentally the same as proposed yesterday.

This would mean a four-cent hourly wage increase, 40-hour week starting one year from today and arbitration, after a return to work, for a permanent wages-and-hours contract.

The union had asked a wage increase of $30 a month.

The Canadian Pacific announced that effective at midnight, sailings to Victoria will resume. Only two lines to get into delayed action will be the Seattle-to-Victoria run which won't resume until Sunday morning and the West coast of Vancouver Island run which won't leave until Sept. 6.

Canadian National Lines and Gulf Service also will hit back into Alaska, Prince Rupert and other runs.

No Paper Labor Day

There will be no edition of the Nelson Daily News published Monday, Labor Day.

U.S. RAIL DISPUTE SETTLED

23-Cent-an-Hour Wage Increase Held in Agreement

WASHINGTON, Sept. 1 (AP)—The White House tonight announced settlement of a long wage dispute between the Switchmen's Union (A.F.L.) and 10 Western Railroads in the United States.

The agreement calls for a 23-cent-an-hour wage increase.

It is expected to have an influence on a parallel controversy between United States railroads and the Trainmen and Conductors' Unions.

This dispute resulted in a strike call and seizure last Sunday of the railroads by the Government to prevent tying up the lines.

Sports To Be Principal Holiday Fare

Sports are at the head of the Labor Day weekend entertainment bill in the Kootenays.

Highland games, golf and tennis competitions, track and field events and dances will attract hundreds to its centres.

For others, the long weekend will spell fishing and hiking trips or motor jaunts to the United States and elsewhere.

One thing is certain—the youngsters will be out for a bang-up time before returning to schoolbooks next week. Nelson Senior and Junior High Schools were already registering students Thursday.

Nelson's holiday fare will see kilts fly and bagpipes skirl in the 11th annual Highland dancing and piping competitions for B.C. Interior championships, sponsored by Kootenay Kiltie Pipe Band; a baseball game between Spokane Clippers and Nelson Peerless-9, and a dance in Legion hall.

At Nelson Golf and Country Club ball bashers from various Kootenay points will be competing for the Ken McBride Memorial trophy and the Kootenay Breweries trophy, held respectively by Art Donaldson of Kimberley and Mrs. B. Townshend of Willow Point.

And at Trail, netsters will be exchanging shots in the annual West Kootenay tennis tournament, sponsored by Trail, Tadanac and Rossland clubs. In addition there will be the giant track and field meet of the Trail Athletic Association.

A rodeo is planned at Cranbrook, while at Athalmer the East Kootenay Agricultural and Industrial Exhibition is under way.

Speed boats will be seen in racing competition on Slocan Lake as Slocan City stages a big day.

Greenwood in the Boundary is also planning a fete.

Council Invites S. Korean Envoy To Discussions

LAKE SUCCESS, Sept. 1 (AP) —The United Nations Security Council overrode Russian objections today and invited South Korean Ambassador John M. Chang to take part in its future Korean discussions.

The council thus made an important advance toward breaking the procedural deadlock which paralyzed the council throughout August. The test came when the new council president, Sir Gladwyn Jebb of Britain, invited Chang and his aides to take seats at the council table.

Restrictions "Kill" British Publication

LONDON, Sept. 1 (Reuters)— British Ally, the Russian-Language weekly published by the British Embassy in Moscow, ceases publication next Sunday, it was announced tonight. The Foreign Office said that Russian restrictions on its circulation had "strangled" the magazine. It said British Ally was the last "accurate printed souce" in Russia of information on British policy.

Water Levels

Nelson—7.32 (Thursday—7.30).

Purge by Red Rulers Startles E. Germans

BERLIN, Sept. 1 (AP) — East Germany's Communist rulers rocked their party and Government today with a startling purge of highly-placed officials.

Six party members, including a former Politburo member, were thrown out of the Socialist Unity (Communist) Party, the official party newspaper Neues Neutschland announced.

Four more were ejected from jobs in the Russian-backed East German Government.

More expulsions were predicted.

The party newspaper gave two reasons for the purge—associating with "American spies" and exhibiting anti-Russian feeling."

Those ejected from the party were:

Paul Merker, State Secretary in the Agriculture Ministry and Politburo member until party reorganization in July; Leo Bauer, chief editor of Radio Berlin; Bruno Goldhammer, deputy to propaganda chief Gerhardt Eisler; Willi Kreikemeyer, general director of the Soviet-zone railway system; Lex Ende, former chief editor of Neues Deutschland and later editor of the Communist Friedenspost; and Maria Weiterer, an unidentified party member.

STALIN'S SPRINGBOARD

The purge action, Neues Deutschland said, was taken by the party Politburo at the direction of the party's Secretary-General, Walter Ulbricht, named to that post five weeks ago. The same party post in Russia provided Joseph Stalin with his springboard to power.

Neues Deutschland admitted that the German Communist party's ranks are corroded with members who no longer can obey Russian dictates without question. This is the worst sin that can be charged against a Communist.

Deprived of their Government jobs but still retained as party members were Wolfgang Langhoff, manager of East Berlin's Deutschen Theatre, and Bruno Fuhrmann, Hans Teubner and Walter Beling, all of whom held minor state positions.

The general charge of espionage was levelled at all 10 purgees, in addition they were accused of lacking confidence in the Soviet Union.

Trouble Spots of War To Be Studied

By ARTHUR GAVSHON

LONDON, Sept. 1 (AP)—The Big Three western foreign ministers will review every flashpoint of potential war with Russia when they get together in New York Sept. 12, diplomatic informants said today.

These sources disclosed trouble spots listed on the agenda for the meeting of State Secretary Dean Acheson of the United States, Foreign Secretary Ernest Bevin of Britain and Foreign Minister Robert Schuman of France.

Plotted on a world map, the spots almost completely ring the ramparts of Russia and her Communist friends from their backdoor in Korea, around through Germany and then up to the Arctic.

The future of the United Nations also will come up for study.

Seven Airmen Die In Carrier Crash

SMYRNA, Tenn., Sept. 1 (AP) —Seven airmen were killed this afternoon in the crash of a troop-carrier plane near Parsons, Tenn. Two men survived the crash.

Seward Air Force Base here said it was one of its plane on a routine navigation training flight.

The air base here said it was without details.

Discuss Aid for Doukhobor Families

VANCOUVER, Sept. 1 (CP) — Social assistance for families of jailed Doukhobors was discussed yesterday here by the 35-man committee set up by the University of British Columbia to tackle the Doukhobor problem.

Several recommendations are expected to be made to the provincial government, but the committee declined comment on what they will be.

"Each of the four groups—Sons of Freedom, Union of Spiritual Communities, Independents and the Union of Christ colony at Hilliers—presented their stands frankly and viewed the problem objectively," said committee chairman G. C. Andrew.

NEW DEAL WANTED IN U.K. WAGE-FREEZE

By E. S. JOHNSON

LONDON, Sept. 1 (CP)—As the 20-per-cent pay boost went into effect for members of Britain's armed forces, rumblings arose throughout the country for a new deal by the government in its wage-freeze in industry.

The issue is expected to flare up with renewed vigor when the powerful Trades Union Congress meets in Brighton next week.

And in This Corner —

ROCHESTER, N.Y., Sept. 1 (AP)—Police were not surprised when the automobile that rammed a fire hydrant today was found to be stolen.

Subsequent developments did amaze them.

The driver, entered on the records as "Larry," was only 10 years old and 3½ feet tall.

He could just touch the control pedals with his toes. He told police he had picked up the car at 3 a.m. in the owner's driveway, and that he had been driving it around for eight or nine hours, interrupting his ride only to go home for breakfast.

Larry was sent to the county shelter. He is not Rochester's youngest auto thief. A nine-year-old beat him to the title last year.

LANCASTER, Pa., Sept. 1 (AP)—G. E. Sullenberger, 35, dislocated his shoulder today while spanking his nine-year-old son.

CARBROOKE, England, Sept. 1 (AP)—Dan Bullen works his 100-acre crop and dairy farm with only one farmhand. But he knocked off early today for a birthday party—his 104th.

DORTMUND, Germany, Sept. 1 (Reuters)—With a soft final melody, an exhausted German pianist today claimed a world record for continuous piano playing—150 hours.

Fifty-year-old Heinz Arntz broke the previous record of 130 hours established by himself.

Playing hour after hour in one of Dortmund's large cafeterias Arntz was shaved each morning and fed regularly. He allowed himself 60 minutes off the keys in every 24 hours.

Pan-American Air Liner Turns Back

SHANNON, Republic of Ireland, Sept. 1 (AP) — A New York-bound Pan American Airways plane with 62 persons aboard was forced today to turn back 1000 miles out over the Atlantic Ocean because of engine trouble.

One of the passengers was Mrs. Lewis Douglas, wife of the U.S. ambassador to Britain.

A relief plane from London later picked up the passengers for the New York flight.

Water Racers to Slocan Labor Day Celebrations

The Slocan City waterfront will hum with activity come Labor Day when Nelson Power Boat Association craft will churn the waters of the Slocan Lake during the celebrations there.

The water speedsters will no doubt provide the outstanding event of the day, however only Nelson competitors will be in action. Commodore Henry Stevenson said Friday. There will be no Slocan boats out for the races.

Ten members will make the trip on an invitation from Slocan City. All of the Association's eight racing crafts will be in action.

The speed boaters made their first public showing here earlier this month during the annual Kootenay Lake Regatta.

Members making the Slocan trip will include Jack and Doug Morris, Pete Hlookoff, Lefty Dawson, Cliff Underwood, Al Clark, Ivan Laughton, Gordon (Buz) McDonald, John Corbet and Commodore Stevenson. Bert Walton will go along as flag man.

Windermere's Oldest Resident Dies

INVERMERE, B.C., Sept. 1—Mrs. Catherine Ann Bavin, 93, oldest resident of Windermere District, died her Friday.

Affectionately known as Granny Bavin to a host of friends both young and old throughout the district, she took a keen interest in community and family affairs.

Mrs. Bavin came to Canada from England 45 years ago and has beene a resident of Invermere for 31 years. She was in the Stettler, Alta., district before there was a town there and lived near Gadsby for a time.

After residing on the Prairie she lived with her family at Vancouver for six years before coming to this district.

Her birthplace was Leigh-on-Sea, Essex, England.

Surviving are two sons and a daughter, N. T. Bavin at Invermere, Reginald S. Bavin at Victoria and Mrs. W. G. Jones at Invermere. There are six grandchildren and four great grandchildren.

Her husband died 14 years ago.

First-Heat Victory For Slo-Mo-Shun IV

DETROIT, Sept. 1 (AP) — Stan Sayres' Slo-Mo-Shun IV, sleek Seattle hydroplane, led the United States to a first-heat victory today in the Harmsworth speed boat trophy race.

Far in the rear at the end of the 40-mile heat was the Canadian challenger, Miss Canada IV, driven by owner Harold Wilson of Ingersoll, Ont.

299 Fires to Date In Nelson District

Four fires are burning in the Nelson Forest District. The hazard is moderate.

The total number of fires to date is 299 compared to 444 at this time last year.

The Weather

Synopsis — Record and near record temperatures were reported at several points across Southern British Columbia. Hottest spot in the province was at Penticton where the mercury reached 94 degrees to equal the September record set in 1924. 93 degrees at Kamloops also equalled the September record. At Vancouver airport the high was 83 degrees, just one degree short of a record for the airport and three degrees below an all time record for Vancouver in September.

All present indications point to continuing hot weather over the Southern half of the province.

POST OFFICE TRANSACTIONS AT $162,568

Transactions at the Nelson post office during August were slightly higher than the previous month even though only first class mail was accepted during the railway strike. Transactions during the month totalled $162,568, a climb of $472 from July.

The total was also well above the figure for the same period last year, $124,684.

The sale of stamps and postage brought in $6978 while other business carried on by the post office amounted to $155,445.

U.B.C. Lecturer To Address Little Theatre

Miss Dorothy Somerset, Director of the drama section of the University of B.C. extension department, will address Nelson Little Theatre at its meeting in St. Paul's Church basement next Saturday at 8 p.m.

A director of the University Summer school of drama and assistant professor of dramatics, Miss Somerset will also speak to Trail Little Theatre during her visit to the Kootenays.

Casting for Fall productions and radio plays will also be topics for discussion at the Nelson meeting.

More Rain for Most Sections Of Province

VANCOUVER, Sept. 1 (CP)—Precipitation totals were above normal during August in most regions of British Columbia, the weather office reported in its monthly report today. Normal amounts were recorded along the West Coast of Vancouver Island and in the Okanagan and Lillooet-South Thompson regions.

There were some heavy falls of rain. Vancouver reported 1.31 inches on the 14th and Prince Rupert 2.78 inches on the 26th. Revelstoke reported 0.87 inches on the 15th and Quesnel 1.00 inches on the 5th.

Temperatures averaged close to normal along the Coast and over the Southern interior but were a little below normal over the Central and Northern Interior regions. Some extreme highs were 101 at Lytton on the 20th, 89 at Quesnel on the 21st, 84 at New Westminster on both the 20th and 21st, 91 at Hope on the 18th and 78 at Prince Rupert on the 19th.

Some extreme lows were 31 at Prince George on both the 15th and 30th, 39 at Kimberley on both the 8th and 19th, 42 at Kamloops on the 2nd and 42 at Abbotsford on both the 4th and 30th.

Gales were reported over Coastal waters on four days in the month.

Woman Needs Rare Blood Donors

LONDON, Sept. 1 (Reuters) — Only one in 20,000 may have the rare type of blood which can help an ailing London woman.

A week-long search has been going on for blood donors of the correct grouping. An international appeal has so far been unsuccessful, although inquiries have come in from many countries.

Mrs. Kathleen Hall, 46, is waiting in hospital here for an operation to cure her congenial intestinal bleeding—a complaint which runs in her family.

Her blood pressure is less than one-half normal. Before the operation can be performed she must have blood transfusions to build up her resistance.

Technicians said they tested 700 samples in four days. Of these only one sample closely approximated the correct type, but it was not quite right.

What they wanted was blood of the group designated by the letters O RH//CD E.

One person in 200 had blood of this type. But, additionally, the blood must come from an homozygous person; that is, a person who inherited the gene from both sides of the family.

Of the samples so far received, 250 had been of the correct grouping but all were heterozygous.

Only one in 100 of the people with the correct grouping would be homozygous, giving a chance of one in 20,000 of the correct grouping being found for Mrs. Hall.

Safecrackers Blow Open Airline Vault

VANCOUVER, Sept. 1 (CP) — Safecrackers blew open the vault in the office of Vancouver Airline Limousine Ltd. during the night and made off with an estimated $2000.

The thieves smashed a window in the basement, pried open the office door and went to work on the safe with tools they found in the company's garage.

WESTERN DEFENCE MINS. TO MEET IN LONDON

LONDON, Sept. 1 (Reuters)—The five Western Union Defence Ministers will hold their eighth meeting in London Sept. 5, it was announced here tonight. It was understood the progress since a meeting of their foreign ministers at the Hague the beginning of this month. The five countries in the Western Union are Britain, France, the Netherlands, Belgium and Luxembourg.

Highland Games to Highlight Nelson Labor Day Celebrations

Lads and lassies decked out in colorful kilts will make up one of the feature attractions of Nelson's Labor Day celebrations Monday.

Boys and girls from as far away as Saskatchewan will compete in the 11th annual piping and highland dancing competitions to be sponsored by the Kootenay Kiltie Pipe Band at the Civic Recreation Grounds beginning Monday morning.

Some 18 events have been listed for the competitors who will range in age up to 21 years. Many of the dancers and pipers will be here from the St. Andrew's Society of Kimberley highland games held in the East Kootenay recently.

Three major trophies will be at stake while medals and prizes of merchandise will also be awarded to winners.

The major trophies are the Hugh MacPherson grand aggregate award for the winning competitor under 21 years of age; the Pipe Major J. T. McHardy aggregate piping trophy under 16, and the Birk's aggregate dancing trophy, under 21. The youngest competitor of the event will be awarded a special prize.

Pipe Major Jack Stout will be official piper during the events, assisted by Piper James Ritchie. Judges of the dancing will be Mrs. A. Hurst of Calgary and Jack McCabe of Trail and Peter Leslie of Nelson for piping.

Committee in charge will include J. C. Muir, Chieftain; Mrs. W. Marshall and Mrs. J. Milne, registrations; Dave Dryden, marshal; A. Wallach and Don Crozier, gates; E. McLauchlan, announcer; Ivie Speirs, platform arrangements; William Sneden, platform steward for piping; Mr. and Mrs. William Marshall, steward and dancing matron; Mrs. C. F. Kearns and Mrs. Stevens, records; and Mrs. G. Haskell, secretary.

Presentation of the prizes will be made by Mr. Speirs.

A baseball game on the grounds following the games will see the Spokane Clippers and the Nelson Peerless 9 in contest.

The day's celebrations will wind up with a hard-time dance in the Legion hall.

West Kootenay Golfers Turn to Nelson for Holiday Tournament

One of the premier golf events of the season, the Labor Day tournament, will have golfers from throughout West Kootenay in actio nat the Nelson Golf and Country Club Sunday and Monday.

9:05—J. Leschuck vs C. Swanson.
9:10—Pete Townshend vs S. Ross.
9:15—T. R. Wilson vs Buzz McGibney.
9:20—R. B. Allan vs D. Campbell.

Second flight —

9:25 — Ab MacDonald vs H. Cline.
9:30—L. W. Atwell vs E. DeHoff.
9:35—H. Fortieth vs D. McLean.
9:40—L. Rohlf vs W. Walt.
9:45—T. Cole vs George Barefoot.
9:50—J. Molyneaux vs J. Butlin.
9:55—Alan Silverwood vs D. Clarke.
10:00—L. M. McBride vs E. Aldous.

KOOTENAY BREWERIES CUP

Ladies championship flight starts at 10:05 a.m. Sunday.

The draw—Mrs. L. S. Bradley vs Miss M. Butlin, Mrs. S. Ross vs Mrs. Harold Lakes, Mrs. E. South vs Mrs. B. McGibney and Mrs. M. Harris vs Mrs. B. Townshend.

First flight—Mrs. W. DeRidder vs Miss Jean Gordon, Mrs. J. Coates, a bye; Miss Nancy Harris vs Mrs. L. M. McBride, Miss Joan Coates vs Miss Mary Juriloff and Mrs. R. B. Allan vs Mrs. L. Smith.

Rossland Ready for Big Fall Fair And Carnival Next Weekend

ROSSLAND, B.C., Sept. 1—Final details for the big Golden City Fall fair and carnival were ironed out by committees Friday night.

Chairman Percy Berry told the meeting that Mayor J. R. Corner will officiate as chairman at the opening ceremony; that arrangements are being made for guest speakers.

It was decided to dispense with street banners originally planned. It was also agreed to accept entries not included in the prize list. These will be entered as "net work, not classed," with special awards provided.

The two-day fair opens Friday evening.

After some discussion it was ruled that all entries must be taken to the back entrance of the arena on Third Avenue where they will be received.

Mrs. Dan Irvine reported that the Parent-Teacher Association will judge the children's parade on Friday evening.

Mr. Berry and Mrs. Phillip Bateman were appointed to arrange accommodation for the judges of fair exhibits.

Seeded Players Ousted in Tennis

By GAYLE TALBOT

FOREST HILLS, Sept. 1 (AP) — A pair of young Californians who were left off the American Davis Cup team and didn't like it gained a measure of revenge today by knocking two of the top gate attractions out of the United States tennis championships.

Little Earl Cochell of Los Angeles, maddest of the cup orphans, swarmed over Frank Sedgman and stung the Australian champion into quick defeat in the play-off of a match halted by darkness Thursday. The scores were 7-5, 5-7, 1-6, 6-2, 6-2.

Art Larsen of San Francisco took his feelings out on Tom Brown, Jr., a fellow townsman, who scored the only U.S. victory in last week's cup disaster. Larsen blasted Tom 6-3, 2-6, 6-1, 6-4.

With Sedgman's defeat, not a foreigner was left among the six survivors in the men's field.

The day's two women's quarter-finals followed form. The champion, Mrs. Margaret Osborne Dupont of Wilmington, Del., erased Mrs. Pat Canning Todd of La Jolla, Calif., 6-3, 6-2. In the opposite bracket, Doris Hart of Jacksonville eliminated Shirley Fry of Akron, Ohio.

FIREMEN LEAD SERIES 2-1

WINNIPEG, Sept. 1 (CP)—Vancouver Firemen defeated Winnipeg Northerns, 5-4, tonight in the fourth game of a best-of-five series for the Western Canada Senior Men's Softball Championship. Vancouver lead the series, 2 to 1 in games, with one game ending in a scoreless deadlock.

JOBLESS BENEFITS FOR NON-STRIKERS

Members of unions not involved in unions-railways negotiations and who were not participants in the recent strike are entitled to Unemployment Insurance benefits if they wish to make application.

Generally those eligible are members of the Brotherhood of Locomotive Engineers, Brotherhood of Railway Trainmen and Order of Railway Conductors of America and non-union members working under collective bargaining agreements held by these unions.

The Commission stated that in the first few days after the strike some applicants were advised that offices were only taking sample claims. These persons may re-apply for benefit. Claimants were reminded that the first day is what is known as a non-compensable day and the next eight days are waiting days. Consequently no actual benefit would accrue to any applicant before September 1.

Theatre Staff Puts Out Fire; No Panic

EDMONTON, Sept. 1 (CP) — A stage show entitled the "Asylum of Horrors" almost became more horrible than the sponsors bargained for when a sliding screen at the front of the stage ignited and burned at midnight last night.

A crowd of 1500 was in the theatre but quick action by performers, theatre management and police checked the flames and averted a panic. The master of ceremonies remained on the stage and urged patrons to remain seated.

A noisemaker used backstage in the touring scare show is believed to have started the fire. Theatre staff extinguished the blaze before the arrival of the fire department. The show resumed in ten minutes.

Voted Against P.C.'s

OTTAWA, Sept. 1 (CP)— Jean Francois Pouliot (L-Temiscouata) drew to the attention of the Canadian Press today that he had voted against a Progressive Conservative motion in the Commons Wednesday for the establishment of a National administrator of railways pending settlement of the wage-hours dispute.

The CP erroneously reported on Wednesday that Mr. Pouliot had supported the motion.

PHONE 144 FOR CLASSIFIED

Twin Bill Holiday Action At Ball Field

Spokane Clippers, leaders of the Spokane Valley Baseball League, will play a Labor Day weekend doubleheader against the Nelson Peerless-9, playing games on both Sunday and Monday.

The Clippers are the third club from the same Spokane ball circuit to play in Nelson. The home club defeated Brook's Tavern 7-6 and 8-7, while Japanese hurler Andy Aoki handcuffed the Nelsonites for an 11-2 triumph for the Tomberri's.

Nelson's star centrefielder Bill Haldane, currently slugging the ball at a sky-high .446 clip, is still on holidays, and may not be back for the games. Frankie Hufty, one of the most improved players on the club, capably fills for Haldane in centrefield, and although he hasnt Haldane's speed, Hufty's throwing arm is among the best in the league.

Manager Gordon Richardson will have righthanders Les Hufty and Brian Shaw, and southpaw Jim Todd for hurling chores, with power hitter Swede Larsen behind the plate; Red Wassick on first, Bob Koehle on second, Bob McNabb at short, and Carl Locatelli at the hot corner. Outfielders will be Frankie Hufty, Fritz Koehle, Ron Nash, Fred Madden and Bill Haldane, if he is back.

Ashdowns in Nelson Before Turn of Century

The sale of "Mc & Mc" hardware store in Nelson along with other B.C. stores in the chain to J. H. Ashdown Hardware Company, Ltd., of Winnipeg, has a good deal of local interest.

The late James Lawrence, financed by the Ashdown firm, built in 1896 the Baker Street building where Hood's Bakery is now located, and two years later constructed the masonry building which now houses the Nelson Hardware Company.

Mr. Lawrence operated under the name of J. H. Ashdown Hardware Company until the business was bought out shortly after the turn of the century by Hamilton Byers of Kaslo.

Ambulance For Rossland

ROSSLAND, B.C., Sept. 1—Rossland will soon have its ambulance now that the railway strike is over.

President Herb Christian told Friday night's meeting of the Rossland District Ambulance Association that the ambulance had been held up in Windsor awaiting shipment.

The meeting received further good news in a letter from R. W. Diamond of Cominco, who offered the Association $400 worth of equipment to include an inhalator, folding stretchers, six heater pads, one rubber blanket, six wool blankets and one pair of pillows. The Rossland St. John Ambulance Association contributed wooden splints and triangular bandages.

Mrs. Gladys Yarmoluk reported that the Rossland Fire Department is willing to accept ambulance telephone calls so long as they do not interfere with fire calls.

Mr. Christian said the ambulance would be housed in a local garage until a permanent arrangement can be made.

Financial statement indicated a deficit of approximately $100 and insurance and payments for trial runs of the ambulance still have to be met.

Secretary Mrs. Yarmoluk also reported receipt of the Association's official seal.

Nuclear Power Cost Same as Other Fuel

BIRMINGHAM, England, Sept. 1 (Reuters) — Six hundred tons of fuel with one-per-cent use of uranium could produce all Britain's required electricity, an atomic expert said today.

Sir John Cockcroft, director of Britain's atomic research centre at Harwell, said that nuclear power costs would not be much different from the cost of ordinary fuel.

C.A.C. Requests Price Statement From St. Laurent

OTTAWA, Sept. 1 (CP)—The Canadian Association of Consumers has informed Prime Minister St. Laurent that it views "with alarm" the recent price increases in bread, meat, soap, sugar and other essential commodities.

The Association, with a membership of 12,000, mostly women, said it would welcome a statement from the Prime Minister "to curb the demand for increased payment for goods and services."

Co-Operatives Union Urges Monopoly Control

OTTAWA, Sept. 1 (CP)—The Co-operative Union of Canada today said there is increasing evidence of monopoly control in Canadian business and industry and urged that the widest publicity be given to restrictive trade practices.

The union, which represents co-operatives across Canada, made known its views in a brief presented to a special Government committee considering means of tightening up regulations under the Combines Investigation Act.

Saying it is seriously concerned over the increasing evidence of monopoly control, the union detailed this evidence as:

1. Increasing concentration of ownership and control.
2. Setting of price structures on the basis of least efficient industrial units.
3. Collusion in submitting tenders.
4. Resale price maintenance, that is, fixing the price at a certain level between manufacturer and distributor.
5. Control in division of markets.
6. Restriction of supply to selected customers.
7. Growing domination of Canadian firms by foreign principals.

Prince Philip Takes Over First Command

LONDON, Sept. 1 (AP)—Prince Philip, a lieutenant-commander in the Royal Navy, set out today to take over his first command.

He left in one of the King's private airplanes for Malta, where he will be piped aboard as the new skipper of the 1430-ton anti-aircraft frigate, H.M.S. Magpie.

Princess Elizabeth is expected to join her husband for a holiday later this year at Malta, headquarters of the British Mediterranean Fleet.

25 Years With Nelson Firm

GORDON MACKENZIE

ED STROMSTEAD

Gordon Mackenzie and Ed Stromstead, employees of the Wood, Vallance Hardware Company, Ltd., at Nelson for more than 25 years, have been presented with watches for their long service. They received the gifts at a banquet honoring R. L. McBride and Roy Sharp on their retirement.

Mr. Mackenzie, who began with the firm March 19, 1923, succeeded the late S. P. Bostock a short while ago in charge of the retail store. Mr. Stromstead, who started November 24, 1924, is in charge of costs.—Vogue photos.

Stalin May Use Chinese Satellite To Hold North Korean Territory

By DEWITT MACKENZIE
Associated Press News Analyst

The Chinese Communists for the second time this week have accused the United States Air Force in Korea of having violated China's borders and dropped bombs.

Warren R. Austin, United States delegate to the United Nations, admitted yesterday that an American fighter plane might have strafed a Manchurian airfield by mistake Aug. 27.

Despite Austin's frank statement, it seems clear that the Reds were trying to build up their broader charge of "aggression" against the United States—and this time involving Chinese territory.

Such a charge of aggression — flimsy though it be — might be used in a big way if the time should arrive when Moscow would send its own or Chinese armies into Northern Korea. Such a move would be to block Gen. MacArthur's U.N. forces should they be sent across the 38th Parallel.

Many military experts regard a Communist move of this sort as a strong likelihood.

Apropos of this thought, two Chinese Communist armies are reported massed on the Manchurian-Korean frontier, which is formed by the great Yalu River. Strength of these forces is variously estimated at between 175,000 and 200,000.

CAUSES CONCERN

This situation is causing much concern in Washington. State Secretary Dean Acheson said last Wednesday that the United States by word and action is doing its utmost to keep Communist China on the sidelines in the Korean fighting. He added that the U.N. must decide whether its forces shall cross the 38th Parallel when they push back the North Koreans.

That question of whether the U.N. armies should cross the border into Northern Korea is a momentous one. Military observers generally recognize that any indication this would be done might result in Russia herself occupying North Korea to keep the U.N. troops out.

However, that strategy would bring Russian troops face to face with MacArthur's command, and should fighting develop between them it must mean another world war. Therefore Russia might send in her Chinese satellite to hold North Korea, thus lessening the danger of another global upheaval.

One thing stands out rather clearly in this complicated Asiatic picture: Russia doesn't want to see another world war develop at this juncture.

Trains, Planes, Buses Prepare For Extra Weekend Travellers

VANCOUVER, B. C., Sept. 1—(CP)—A flood of Labor Day weekend travel is expected as British Columbians make the most of Summer's last holiday.

Airlines, rail and bus companies already have heavy bookings, and plan to place extra equipment in service to handle the volume of traffic. Similarly, heavy private auto travel is anticipated.

Because of the coastal ship strike airlines have been running extra flights. They will run scores of extra trips over the holiday weekend.

Even if the ship strike is settled, the airlines do not plan to cancel their extra-flight plans. People who have planned to fly to coastal points in most cases couldn't reach their destinations in time by ship now.

Many British Columbians have abandoned holiday plans to make coastal ship trips and will travel by land instead. Highway traffic to the United States is expected to be exceptionally heavy.

Trans-Canada Air Lines will operate eight to 10 extra flights daily to Victoria during the weekend, in addition to their regular 10-a-day flights.

A 28-passenger DC-3 chartered by Queen Charlotte Air Lines from Canadian Pacific Air Lines will make 10 round trips between Vancouver and Nanaimo today and 12 round trips on that route Saturday.

C.P.A. also will fly one extra trip Friday to Prince Rupert, three extra trips to that city Saturday, and one extra trip to the Okanagan Saturday. C.P.A. expects extra flights will be necessary too on Monday.

A Q.C.A. official said his line is running 22 regular aircraft and four chartered planes at capacity, making around 40 flights daily to scattered coast points. This heavy service will be maintained during the weekend.

United Air Lines will have at least one extra flight to Seattle Saturday, and expects other extra holiday trips between there and Vancouver will be necessary.

Pacific Stages expect heavy traffic, and haxe extra buses to provide second sections on trips where necessary.

New Denver

NEW DENVER, B. C.—Dr. J. W. Ambrose, geologist, Mrs. George A. MacMillan and her three nieces, Misses Ruth, Joan and Helen Huggard, who spent the Summer with their uncle and aunt, Mr. and Mrs. George A. MacMillan, at their "Mountain View" home, and at the Violamac Mines, left for Ugebridge, Ont. Dr. Ambrose will visit his home at Kingston, Ont., and Mrs. MacMillan her home in Toronto.

Mr. and Mrs. John Teir have as guests their nephew, Mr. and Mrs. Oran Porter of Portland, Ore., and nephew, Grant Weir, Abbotsford.

Hugh MacLeod of Trail was a visitor of his mother-in-law, Mrs. May Crellin. He was accompanied back by his wife and daughter, Linda, who were holidaying in New Denver.

Miss T. Tessman of Saskatoon is visiting her brother and sister-in-law, Mr. and Mrs. Fred B. Tessman.

Mr. and Mrs. Graham Walby and two children, Joanne and Donnie, of Trail were visitors of Mrs. May Crellin.

Mrs. Frank Woodward of Barton, Fla., is visiting her aunt, Mr. and Mrs. J. E. Kennett, and cousins, W. P. Kennett and Mr. and Mrs. S. E. Thomlinson.

Mr. and Mrs. W. W. Maybank returned from a motor trip and were accompanied back by their son, Bruce, who was visiting Mr. and Mrs. N. C. Tattrie and two sons, Stephen and Allan, at Creston.

Rev. and Mrs. W. E. G. Dovey and family, Marsha and Billie, of Windsor, Que., were visiting their many friends in New Denver. Rev. Mr. Dovey was the minister here three years ago.

Dick Ludlow of the Violamac Mines has been discharged from Slocan Community Hospital.

Mr. and Mrs. R. C. Harris and family, Cole and Sue, who were at their Summer home here for the holidays, returned to their home in Vancouver. They were accompanied as far as Rossland by their niece, Miss Heather Harris, who was their guest for two weeks.

Mr. and Mrs. Alf H. Anderson and family, Karen and Richard, returned after spending their holidays in Nakusp with Mrs. Anderson's parents, Mr. and Mrs. J. R. Humphris, and her sister, Mr. and Mrs. Bruce Bradbury.

R. M. Evans left for holidays to New Westminster, where he will join his wife and son, who have been holidaying at the Coast.

CM & S Announces Increases for Cominco Pensions

TRAIL, B. C., Sept. 1 — The Consolidated Mining and Smelting Company of Canada Limited announced today an increase in the temporary supplemental allowances which were granted in 1948 to Cominco pensioners receiving less than $45 per month under the Company's non-contributory pension plan.

Effective Sept. 1, 1950, the minimum payment to any pensioner, including both pension and supplemental allowance, will be increased from $30 per month to $40 per month.

Two Washington Shippers to Trail

Ores and concentrates received by The Consolidated Mining and Smelting Company of Canada, Limited, Trail, B.C., for the week ending August 12th, 1950, totalled 5562 wet tons of which 2676 wet tons were for treatment in the Lead Smelter and 2886 wet tons were for treatment in the Zinc Plant.

Ores and concentrates for treatment at the Lead Smelter were received from: Anacon, Garneau, Que. Base Metals, Field, B.C.; Bayonne, Tye, B.C.; Canadian Exploration, Salmo, B.C.; Highland Bell, Beaverdell, B.C.; Kootenay Belle, Sheep Creek, B.C.; Lakeview, Sanca, B.C.; Molly Gibson, Nelson, B.C.; New Calumet, Campbell's Bay, Que.; Philipp Bros., New York, N.Y.; Providence, Greenwood, B.C.; Reeves MacDonald, Remac, B.C.; Scranton, Kaslo, B.C.; Silver Hill, Sirdar, B.C.; Silver Standard, New Hazelton, B.C.; Star Ainsworth, B.C.; South American Minerals & Merchandise, New York, N.Y.; Torbrit, Alice Arm, B.C.; United Keno Hill, Mayo, Y.T.; Utica, Kaslo, B.C.; Vigilante, Ainsworth, B.C.; W. S. Mine, Coryell, B.C.; Yankee Girl, Ymir, B.C.

Concentrates for treatment at the Zinc Plant were received from: Admiral, Northport, Wash.; Base Metals, Field, B.C.; Britannia, Britannia Beach, B.C.; Canadian Exploration, Salmo, B.C.; Goldfields, Northport, Wash.; Reeves MacDonald, Remac, B.C.; Sheep Creek Paradise, Lake Windermere, B.C.; Sheep Creek Zincton, Zincton, B.C.; Silbak Premier, Premier, B.C.; Whitewater, Retallack, B.C.

Average quotations for week ending August 12th, 1950: Silver, New York, 72.75 cents per ounce; lead, New York, 12.00 cents per pound; zinc, St. Louis, 15.00 cents per pound U.S. exchange premium, 10 per cent.

Queen's Bay . . .

QUEEN'S BAY, B.C. — Dr. and Mrs. Buller of Vancouver, B.C., and Mrs. Art Buller of Metaline Falls, Wash., and family were recent of Mr. and Mrs. Q. G. Whishaw.

Mr. and Mrs. Don MacIntosh of Vancouver, B.C., visited Mrs. F. M. Hughes.

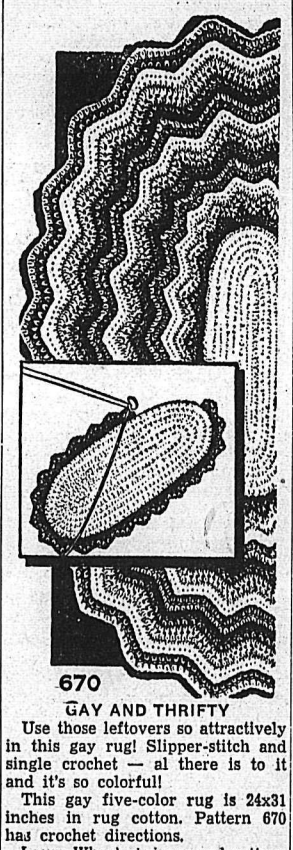
Mr. and Mrs. Alec Attree have returned to their home in Victoria.

Mr. and Mrs. Alex Mennie and son Bill of Kimberley, visited Mr. guests of Mr. and Mrs. Q. G. Whishaw.

Mrs. F. M. Hughes is staying with her son-in-law and daughter, Mr. and Mrs. Alan Harkness in Trail.

Mrs. Traynor who is staying with Mrs. J. S. Hirst has returend to her home in Nelson for a few days.

Needlecraft by Laura Wheeler



670

GAY AND THRIFTY

Use those leftovers so attractively in this gay rug! Slipper-stitch and single crochet — al there is to it and it's so colorful!

This gay five-color rug is 24x31 inches in rug cotton. Pattern 670 has crochet directions.

Laura Wheeler's improved pattern make crochet and knitting so simple with its charts, photos and concise directions.

Send TWENTY-FIVE CENTS in coins (stamps cannot be accepted) for this pattern to Nelson Daily News Needlecraft Dept., Nelson. Print plainly Pattern number, your name and address.

Fruitvale . . .

FRUITVALE, B.C. — Visitors at the home of Mr. and Mrs. D. C. Mason are their son and daughter-in-law, Mr. and Mrs. Gilbert Mason and family of Port Albernie, and former residents of Fruitvale.

Recent visitors to Robson were Mr. and Mrs. Arthur Ranson and son, Kenny. They were accompanied by Derrick Mason of Port Albernie.

Mr. and Mrs. Wilbur Grieve and family of Metaline Falls, Washington were recent guests of the latter's parents, Mr. and Mrs. John Sadler.

Mrs. A. Quattrin, accompanied by Mr. Sydney Quattrin, and her granddaughter, Miss Lauri Marchi, has returned from a visit to Keremeos. Returning with them was her grandson, John Cristofanti of Keremeos.

Mrs Elsie Hanson and family have returned from a holiday spent at Salmon Arm.

Miss Doris Graves, Miss Gail Graves and Gordon Graves are spending a few days with their grandmother at Willow Point.

B. Woodhams, publisher of the Valley News, is at present in Saskatchewan assisting his father to take off the wheat crop. In his absence, G. Christie of Beaver Falls is attending to the publishing of the Valley News.

Lawrence Schewe was a recent visitor to Sullivan Lake and Spokane.

Miss Evelyn Nelson was recently in Spokane, Washington.

Mrs. Vic Fandrick has returned from a holiday spent with her parnets at Rock Creek.

Mr. and Mrs. Ole Mathiason and family have left Fruitvale and will make their future home at Prince Albert, Sask., where Mr. Mathiason will farm.

Visiting Mr. and Mrs. Jack DeBruyn is Mrs. Clifford Hearn of Salmo.

William Williams was a recent visitor to Penticton.

After spending a few days with relatives in this district, Russ Johnson and Gerald Johnson have returned to thir homes in Penticton.

Mr. and Mrs. Charles Pratt and family have returned to their home in Vancouver spending a holiday with Mrs. E. Godin, Mr. and Mrs. Homer Godin and Mr. and Mrs. Rolph Gregoire for the past few weeks.

Mr. and Mrs. Arthur Wright and family have returned from a trip to Vancouver and Victoria. While in Victoria they ed the latter's father, Mr. Lu a former resident of Fruitva.

Guests of Mr. and Mrs. Walter Clarke were Mrs. G. Schegel, Mrs. W. Weir and Mr. and Mrs. W. Rahleigh, all of San Francisco, Cal.

Mrs. Charlton Haines has returned from a four month holiday spent with her relatives and friends in England.

Mrs. Elsie Mackie of Trail has been staying with her parents, Mr. and Mrs. Ernest Frey and sister, Miss Tilly Frey.

Mr. and Mrs. James Davis and family have returned from a holiday spent at Penticton and Victoria.

Sam Shaw has left by TCA for Shelbrooke, Quebec where he has been called by the sudden death of his mother.

BRISTOL, England (CP)—A 70-year-old retired naval officer has at last finished a painting of Rio de Janeiro which he started 40 years ago.

Movie Gossip—

If You Want to Shoot a Lion, Use Bow and Arrow

By BOB THOMAS

HOLLYWOOD, Sept. 1 (AP) — Howard Hill, just returned from killing elephants, lions, rhinos and other African beasts with his bow and arrow, is home to assemble a movie from 38,000 feet of film he shot during a nine-month trip. He intends to call it "Timbo", a native term for elephant.

"I am the first person to kill an elephant with an arrow," he said, "except for the pygmies, who use poison arrows.

"My arrows had to penetrate 31 inches of the elephant's hide. The only way you can kill an elephant immediately is to hit him in the brain, which is a target five inches wide and seven inches long. And he charges with his trunk up, so you have to shoot through the trunk and into the brain."

The lion, he found, is not as ferocious as his publicity has indicated. Lions may even ignore humans a short distance away, he said.

"But don't get me wrong," he added. "The lion can be a fighter when attacked. That's why the bow and arrow is ideally suited for hunting lions.

"A bullet is a bruising blow to an animal. The lion is hurt by it, and immediately connects the hurt with the gunshot and attacks where the noise came from.

"The arrow, on the other hand merely stings. It is like cutting yourself with a razor while shaving. The lion doesn't know where it comes from, because there is no noise."

Russia Not Invited To Air Display

LONDON, Sept. 1 (Reuters) — Russia and the Iron Curtain countries are not being invited to an annual display of British air achievement which opens next week.

Home Insulating Saving, Not Expense

Complete insulation can be paid for by fuel saved in less than three years in the average Western Canadian home — from then on, all savings are pure "gravy."

That is the dollars and cents benefit of insulation as computed by studies of two typical homes conducted in Vancouver.

Home A a rectangular ranch house with reasonably modern number of windows, cost $231.61 to insulate, and saved $79.20 worth of fuel per year.

Home B, an almost square cottage cost $179.15 to insulate and saved $61.20 a year.

In both cases, cost of insulation was retired by fuel savings in 2-9 years.

The homes studied were selected as typical of popular types of modern dwellings. Fuel costs were computed on consumption of $17-per-ton coal.

41 PERCENT

By insulating Home A, 41 percent of the 11.35 tons required to heat it in a year were saved. Saving in Home B was 44 percent of 8.16 tons.

Calculations were based on three inches of rock wool in walls and ceilings.

Both homes were of frame construction finished with cedar siding over building paper and shiplap on outside walls. Interiors were lath and plaster, and roofs were cedar shingles.

HEAT LOSS

Heat loss per 24 hours in the houses before insulations was added was computed at 11,180 BTUs through ceilings in Home A, 8030 in Home B; 6420 BTUs through walls in A and 5470 in B; 8480 BTUs through glass in A and 5080 in B; 3500 BTUs through window cracks in A and 2340 in B.

Other losses brought the 24-hour total in A to 31,357 BTUs and in B to 22,636 BTUs.

One ton of coal, with average of 60 percent efficiency, supplies 15,840,000 BTUs, so that with insulation giving 41 percent loss reduction in A and 44 percent loss reduction in B, 4.65 tons per year are saved by insulating A and 3.6 tons by insulating B.

GREASEPROOF TILE POPULAR

One of the most serviceable and colorful floor coverings for kitchens is asphalt tile, since it is a grease-proof material.

It can be used in virtually any design such as contrasting stripes, squares or rectangles, in greys, tans, greens or mahogany marbelized tiles with a rcream strip border contrasting with bright walls.

It is a long-wearing material since the colors extend all the way through.

ST. JOHN'S, Nfld. (CP) — The schooner Mary H. Hirtle is on her way to the Northern coast of Newfoundland to bring back a shipment of labradorite. The material, found only on the island, has been found excellent for making costume jewelry and it is hoped a new industry may be developed.

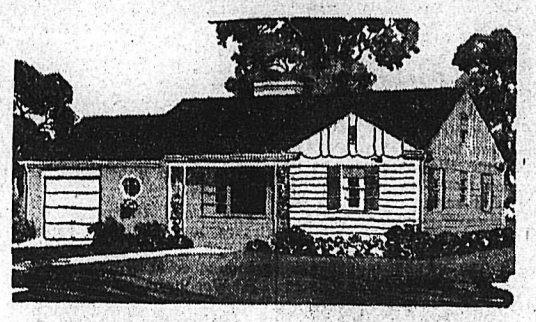
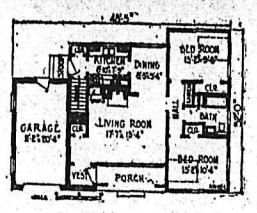
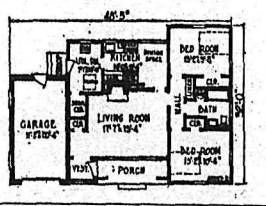
Care With Window Treatment Can Bring Out Best in a Room

The Modern Home







THE AMINT

Basically a modern Colonial design, this home with its attached garage gives an impression of unusual width frequently associated with the ranch type of home. The construction is frame for the most part but the garage and the front vestibule walls provide a pleasing contrast in brick. The wide picture window of the living room overlooks the large entry porch.

Plan 1 with basement . . . 23,045 Cubic Feet.

Plan 2 without basement . . . 16,995 Cubic Feet.

A window or a group of windows is an important architectural feature in any room and should be treated as such. The curtains and draperies should be selected with as much care as is given to the choice of a piece of furniture or a new rug. They should harmonize with the style of the room and with the color scheme of the wall and floor coverings, furniture and accessories.

Figured draperies should never be used in a room with patterned wallpaper. They may be used successfully with stripes and plaids.

TO ADD HEIGHT

To give height to a short, wide window, hang the draperies and glass curtains to the floor with a cornice or valance deep enough to cover the frame placed above the windows. The use of a vertically striped fabric will also give an appearance of greater height to a window.

A high narrow window can be apparently lowered and widened by extending the rods out on the wall at either side and hanging the draperies to the floor.

An off-centre window with the drapery extending on the wider wall space will look centred.

TREATED AS ONE

Two or three windows together can be treated as one, with one pair of draperies connected across the top glass curtains by a valance or cornice board for each window.

A venetian blind with a valance draping down one side can be used effectively on a pair of small high windows, one side can be used effectively on a pair of small high windows, one on each side of a fireplace. Or three awkward little windows need not be draped at all. Glass shelves, built inside the casing and filled with bright glass and pottery will give them a finished look and provide a gay decorative note.

ONE UNIT

Corner windows are most successful when treated as one unit. If there is a wall space between it can be covered with draperies. Valances or cornice boards across the top of the draperies and meeting in the corner will unify the windows.

While valances and cornices are not necessary for the decorative beauty of a window, they add much to the finished appearance of a room. Gleaming mirror or wood cornices painted to match the walls or covered with a contrasting fabric add interest to the window treatment.

Authorized Building During August Reach Record High of $128,742

Building permits issued from the Nelson Engineer's office during August authorizing the building and repairing of homes and commercial buildings reached the highest figure in over two years. Authorized construction work totalled $128,742. The highest previously was in May 1948 when permits issued represented $560,895 in work.

The August figure brought the total to date this year to $242,361, a considerable increase over the same period last year, of $121,370.

Permits authorizing building and repairing in August 1949 totalled only $51,958, some $76,784 lower than August of this year.

During the last week of the month eight permits totalling $3540 were issued for building and minor repairs. The largest was to T. H. Waters Co., Ltd., to build an addition to the front of the R. A. Peebles' home, 312 Latimer Street, at a cost of $1500.

Other permits were issued to:

John T. Lester, 517 Robson Street to build a bedroom, $500.

J. C. Robinson, 404 Houston to rebuild a chimney, $90.

E. H. Hall to build a temporary work shed at the corner of Vernon and Hendryx Streets, $500.

F. W. Reger, 714 Radio Avenue, to build a garage, tool house and work shed, $200.

C. Paterson to reshingle roof at 414 Silica Street for J. M. Ludwig, $200.

T. H. Waters Co. Ltd., to erect a platform and put in door for the Nelson Transfer, $300.

Kootenay Lake General Hospital to build a garage, $250.

Paint-Up Keeps House Shipshape

Here are a few tips to keep in mind if you're thinking of tackling a little light late Summer painting:

Take the porch and steps, for example. Let's presume there are one or two spots where the paint has blistered, or worn away allowing dirt to get around into the surface. All such spots should be wire-brushed, and carefully sanded to make the edges even with the rest of the paint film. An undercoat should then be applied, before the final coat of porch paint, and make sure it's porch paint you use for it's specially formulated to stand up to hard weather wear as well as the scruffing it gets from shoes. You'll be surprised how fresh a house looks when the porch and steps are freshly painted.

Freshly-painted shutters also add to the trim appearance of a house. Once again employ the wire brush, and make sure there are no cobwebs or dust on the surface before plying the paint brush. Incidentally, never paint a surface while it's in the hot sun. It's a comparatively simple matter to arrange the job so that you're in the shade. It's better for you and the work. With neutral grey or white for the body of the house, and a dark roof, almost any color may be selected for the shutters, entrance door and window trim. If the roof is green, then red, yellow, brown or grey would be harmonious choices. With a bright red roof, an agreeable contrast is offered by soft green, turquoise, maroon, or soft blue.

Paint-neglected gutters and drains

Paint-neglected gutters and drains soon deteriorate and rust, costing money for repairs or replacements. Leaking gutters frequently are the cause of paint breakdown and of damage inside the house where water gets behind the siding. It's a simple matter to slap a coat of paint on the eaves trough, but first of all get the wire brush to work, and if the gutter is a metal one, make sure that you get right down to the metal surface and apply a coat of metal primer before painting. Paint, of course, will be the same shade as the roof, unless you want the troughto stand out, when it could be finished in the same color as the trim.

Flashings require painting the same as other parts of the house. Driving rains hunt out the smallest break of the metal when rust has opened the way. Attention to painting of such danger spots will help keep water outside the building and avoid trouble, inconvenience and repair bills.

Fall Cleaning Time Is Near

Twice a year you give your house a new look, Spring and Fall.

Here are some recommendations from the experts for the Fall changeover and satisfactory tuneup of your apartment or house.

Venetian blinds should be unhinged from the top of the windows and given a thorough cleaning. The slats-binding can usually be removed and laundered.

Launder all your Summer lightweight curtains before you put them away. You can do them all at once in your washing machine by putting two or three of them in each of four pillow slips.

Summer fibre rugs should be cleaned or shampooed about every other year. Roll them around a bamboo pole so they can be carried easily and stand upright in a corner away from the dust of attic and basement floors.

You'll want your floors cleaned and waxed before you put down the Winter rugs. Use turpentine to take off the old wax and then wash with soap and water. Let them dry thoroughly; then apply a new coat of wax.

Wash walls if necessary. The General Electric Consumers' Institute suggests a monthly brushing of papared and painted walls with your vacuum cleaner wall brush to keep walls clean and postpone the need for washing or chemical cleaning.

Grouped Pictures Effective

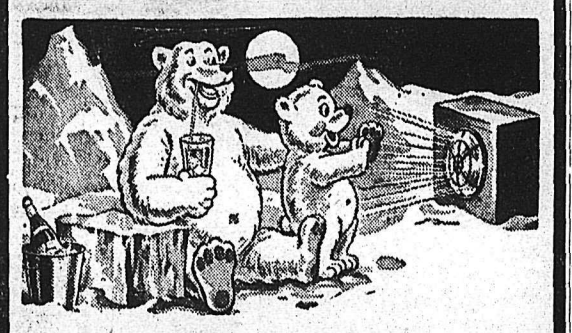
Picture groupings are your answer for wall spaces which are too big or too bare. Space that might dwarf one picture will gain new drama when it holds a group of engravings or water-colors.

First rule usually is to hang pictures of the same type together: flower prints with flower prints, etchings with etchings. Break the rule if you like, but check to see that pictures look right together before you hang them.

Second, relate your picture group to the furniture over which it hangs. Place the pictures low enough so that they really become part of the background for the lamp, the chair, or the sofa. The width and depth of the picture grouping will depend on the wall space above the chair or sofa.

Finally, let the overall form of your picture grouping be symmetrical. Safest is to hang pictures in a square or rectangle. But you can experiment with pictures in a U-shape around a hanging helf or with a strip of pictures at either side of a mirror.

DURHAM, England (CP) — Reservists called up in Durham and Northumberland Counties will still get their coal allowance and rent-free houses.



SOLID FUEL
For SOLID COMFORT

Coal is a solid fuel and when burned scientifically, as with the Iron Fireman coal stoker, it produces solid comfort in a big way. It is the most economical automatic heat that money can buy. It can be quickly installed in any kind of heating plant at very moderate cost. We will be pleased to examine your furnace and submit an installed price.

Tile Lasts, Stays Bright; Those Are Its Virtues

It's pretty, but what does it do? This is a question asked more and more by budget-wise home-buyers —and a good question, too.

When it comes to clay tile, this question brings out one of the long-term savings in home building that can't be measured in original outlay. Tile offers a long lasting finish. It is a material that has been in use for some 7000 years.

Until a few years ago, tile in American homes was used primarily in bathrooms and kitchens. In the modern home it can be found in many rooms — even dining room floors, and floors of patios and porches.

MANY COLORS USED

Clay tile is now made in an almost infinite variety of designs and colors. Mother Goose and animal cracker patterns are available for children's rooms and table tops. Wallpaper designs can be used in bathrooms. Decorated panels forming mosaic pictures can be set into kitchen walls. Old Dutch designs are reproduced for fireplace borders.

You can have tile hand painted and custom made for your fireplace facings, mural panels or other uses. Warner Prins, New York artist, points out that such tiles are originals and fit in with other objects of modern art in the home. They are painted so that the metal oxides flow in true ceramic fashion and penetrate the ports of the clay body. Then a neutral glaze unifies the work.

MAKES PLAQUES ALSO

The artist has carried made-to-order designs into terra-cotta plaques for patios and hall murals with paintings under weatherproof glazes. These plaques are made in large sizes up to 40-inch squares.

Floor tiles of the faience type are being made commercially in large oversize squares with a highly glazed iridescent finish in deep colors.

The lack of any need for maintenance is one of the virtues of tile.

Warehouse Going Up

A new $5000 warehouse to house machinery and equipment for the T. Connor Diamond Drilling Company will soon rise on a lot in the 500 block on Front Street which has been vacant for years.

Excavation for the building foundations got under way Wednesday.

The building will be of concrete structure, and will be 58 feet by 32 feet.

A repair shop is also to be included in the warehouse. An office will occupy the front of the structure.

J. A. Cullinane is Nelson representative for the company.

Permits authorizing building to the amount of $8140 were issued from the Nelson City Engineers' office.

D. D. Paul, 426 Cedar Street, to build addition to house, build bathroom and foundation, $1000.

W. Ironmonger, 408 Latimer Street, to alter front porch and steps, $40.

C. F. Van Hermertz, 414 Beasley Street, to build a back porch, $50.

E. J. Rigby, 518 Vernon Street, to build a temporary office on skids, $75.

C. E. Jorgenson, contractor, to repair roof on Imperial Bank, Baker Street, $500.

J. Der, 920 Nelson Avenue, to build garage, $75.

J. Lundie, 111 High Street, to renew back porch, $50.

D. D. McLean, 117 Victoria Street, to reshingle roof, $75.

Chris E. Jorgenson, 903 Mill Street, to reshingle one side of house, $125.

Eric Lindell to repair roof of Trinity Church, $400.

R. L. McBride, 708 Hoover Street to reshingle roof, $300.

Richard Palmer, 609 Third Street, to make a three room suite in basement, $500.

Odd Sidewalks In Flin Flon

Its strange sidewalks, three feet high, are an oddity in the little town of Flin Flon, Man.

Flin Flon was so young before the war that the town had no time to dig through the rock and muskeg to bury its sewers. It was so much easier to lay these ungainly pipes along the surface of the ground, parallel with the streets.

Someone suggested boxing in the ugly sewer and water pipes, and this was done. These rectangular casings, about three feet in height, have been used as sidewalks ever since.

Built on rough, uneven land, Flin Flon is on many different levels, and in many cases stairs are public thoroughfares.

There is more actual material in one cubic inch of air than in 2000 cubic miles of the tail of a comet.

Mrs. S. P. Bostock Guest of N. Denver Past Chiefs Club

NEW DENVER, B. C., Sept. 1—The New Denver Past Chief Club held their meeting at the home of Mrs. F. Leo Beggs, with the President, Mrs. Lila Thomlinson, in the chair. Twelve members and one visitor were present.

The Visiting Committee report was given by Mrs. Emma Angrignon and Miss Nonie Kennett. The new Visiting Committee was appointed, Mrs. Mae Taylor and Mrs. Alice Teir.

The Past Chief Club have donated material to the Pythian Sisters Temple No. 17 for their bazaar, and the Club discussed having something later on to raise money. With no further business, the meeting closed, after which five hundred was enjoyed. The President welcomed Mrs. S. P. Bostock of Nelson as a visitor.

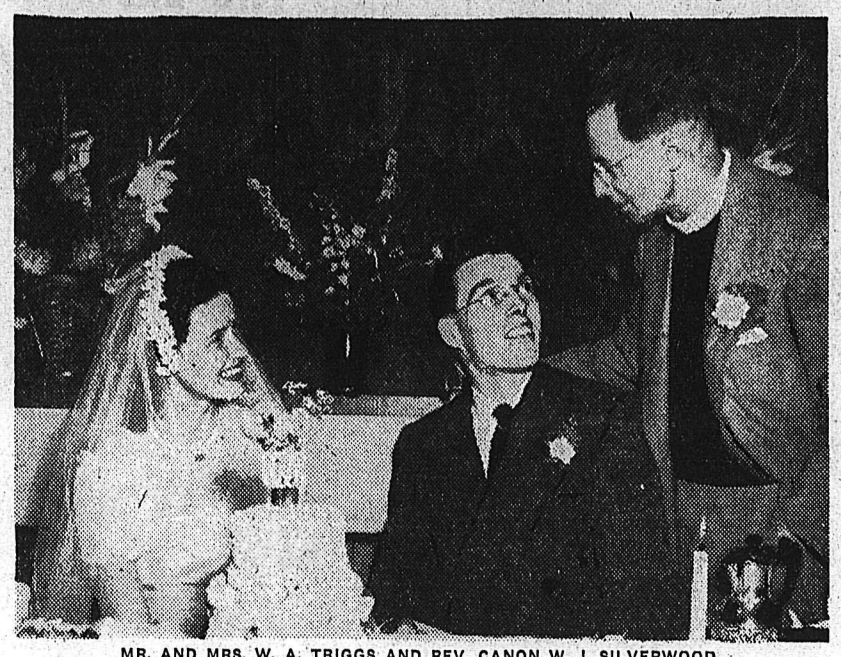
Nora Gormley Is Bride of Tony Triggs



MR. AND MRS. W. A. TRIGGS AND REV. CANON W. J. SILVERWOOD
—Alice Stevenson photo.

Vancouver, where the groom will resume his studies at University of B.C., will be the home of William Anthony Triggs, elder son of Mr. and Mrs. W. A. Triggs of Nelson, and his bride, the former Nora Winnifred Gormley, only daughter of Mr. and Mrs. Leo Patrick Gormley of Nelson.

The couple exchanged marriage vows in a double-ring ceremony in the Church of the Redeemer before Rev. Canon W. J. Silverwood.

The brunette bride, given in marriage by her father, made a charming picture in her gown of white nylon net over taffeta, the lace trim of which was taken up in her lace elbow-length mittens. Her fingertip veil edged with broad Italian lace was held in place by an orange blossom tiara. Her jewelry was a rhinestone necklace, gift from the groom, and she carried a cascade bouquet of yellow roses and white gladioli.

Shades of pink and mauve were reflected in the gowns of her duo of attendants, Miss Rosalie Triggs, the groom's sister, Miss Anne Stefanac as bridesmaids, and little Darlene Percival as flower girl.

Miss Triggs wore a pink nylon net gown, and Miss Stefanac, a pale pink eyelet organza gown, and both wore matching pink headdresses and carried identical bouquets. The flower girl was dainitly dressed in sheer mauve crepe and held a Colonial bouquet of sweet peas.

Mr. John Murray of South Slocan was best man, and Mr. Robert Percival and Mr. Fred Robinson ushered.

Mrs. W. J. Waters sang during the signing of the register, accompanied by Mrs. James Fraser as organist.

Canon Silverwood proposed the toast to the bride at the reception in the parish hall. Mrs. George Lambert and Mrs. Ethel McLaughlin presided at the tea tables.

The bride's mother was attired in a gown of sheer navy over taffeta with navy and white accessories, and the groom's mother chose a soft gray crepe gown with navy accessories.

The bride, who has been nursing at Kootenay Lake General Hospital during the last year, donned a green topcoat, a rust Virgin wool suit with cinnamon accessories for a wedding trip to Vancouver and Coastal points.

Cleanliness Polio Guard

Cleanliness in the home is the first line of defence against disease and illness during the Summer and Fall months, say Canadian medical and health authorities. Simple sanitary precautions result in improved family health and well-being.

Health authorities agree that many diseases, perhaps even polio, are spread by unclean hands, and hands that are washed frequently are not likely to spread germs. Special emphasis of this fact is being directed toward children, who need this particular protection during the warmer months.

Youngsters will find it gay and amusing to "wash up" if parents dramatize the business of cleanliness. Keep charts, award stars, anything to create an interest in the routine of keeping hands clean. Give children their own equipment, towel racks low enough to reach, personalized soap dishes, complete with soap. Brighten the job with small, gay, colorful towels made from unworn parts of old, discarded turkish towels.

The Canadian Foundation for Poliomyelitis (Canadian March of Dimes) reminds mothers of the important times that children must wash their hands; before meals, after toilet, whenever hands have been soiled by nasal or oral discharge. Make your child his own guardian against germs.

Nakusp Band Hikes To Telegraph Bay

NAKUSP, B. C., Sept. 1 — The Mission Band group of the United Church, under the leadership of Mrs. Sidney Millward and Mrs. Vic Smith, held a picnic at Telegraph Bay Wednesday. Weiners and corn were served, and a hike to and from the Bay was enjoyed.

Kindersley Schools Closed by Polio

KINDERSLEY, Sask., Sept. 1 (CP)—Schools here will not open for two weeks and the swimming pool has been closed because of an outbreak of infantile paralysis, hospital authorities said today.

Nine or 10 polio patients have been sent from here to Regina and Saskatoon hospitals since three deaths were reported several weeks ago.

CHILD HEALTH LEADER RETIRES

MONTREAL, Sept. 1 (CP) — Ester M. Beith, R.N. Executive Director of the Montreal Child Health Association, has retired after more than 25 years spent in bettering Quebec Province's public health nurseries.

Miss Beith, a native of Whitby, Ont., came to Montreal after working in clinics in New York, Halifax and Toronto. Since she started her work, the infant mortality rate has dropped from one in four to one in 20 across the province.

She plans to move to Heering Cove in Nova Scotia for a holiday spent reading detective stories, listening to records and watching the sea.

The MacMillans Entertain at New Denver

NEW DENVER, B.C. Sept. 1 — More than 65 guests from New Denver, Silverton, Sandon and Zincton attended a garden party held on the spacious grounds of "Mountain View", home of Mr. and Mrs. George A. MacMillan.

Small tables dotted both upper and lower terraces, from which the guests viewed Slocan Lake.

The tea table, with lace tablecloths, silver services at either end and sweetpea arrangements, was presided over by Mrs. John Taylor, and Mrs. Charles Nelson, who were relieved by Mrs. J. Greer and Miss L. Minardus. Assisting were Mrs. Miles O'Reilly, Mrs. W. Staudinger, Miss Erna Minardus and the Misses Ruth, Joan and Helen Huggard.

Mrs. MacMillan was gowned in ankle length dusky pink nylon, and received her guests on the upper terrace.

St. Mark's, Nakusp, Holds Indoor Picnic

NAKUSP, B. C., Sept. 1 — St. Mark's Anglican Sunday School pupils and teachers held an indoor picnic in the Parish Hall Aug. 24.

A sitdown supper was served, and games were enjoyed under the leadership of Mrs. R. Armstrong, Mrs. P. Hurry and Miss Joan Brown.

Nelson Social . . .

—By MRS. M. J. VIGNEUX

● Mr. and Mrs. W. A. Tickner, 919 Edgewood Avenue, have as holiday weekend guests Mr. Tickner's sister, Mrs. B. M. Trent of Spokane, Wash., and Mrs. B. J. Best of Eldorado, Calif. Mrs. Trent and Mrs. Best have been motoring through Glacier National Park for the last two weeks with their car and trailer

● Mrs. J. T. Kingsley, 380 Baker Street, is a patient in the Kootenay Lake General Hospital.

● Mrs. S. T. Lewis and Mrs. J. T. Mowatt were hostesses at Mrs. Lewis' Stanley Street home at a miscellaneous shower for Miss Joan Macarthur whose marriage to Michael Nutter takes place Monday. The guest of honor was the recipient of many useful gifts and the 21 guests played contests, winners being Miss Mary Clarke, Miss Noreen Elphick, Mrs. George Pommier and Mrs. A. Lythgoe. Refreshments were served by the hostess assisted by Miss Edi Pippi and Mrs. M. Ryalls.

● Mr. and Mrs. M. R. McClain of Salem Ore., and Mrs. M. A. Curtis of Creston were Nelson visitors Friday.

● Miss Rosalie Triggs returned to Vancouver yesterday where she attends U.B.C. She spent a few days in Nelson to be present at the Triggs-Gormley wedding August 29.

● Mr. and Mrs. W. B. Johnstone of Spokane were the weekend guests of Mr. and Mrs. Kirby Grenfell at their Summer home.

● Mrs. D. MacKinnon of Trail has vistited in the city at the home of her two sisters, Mrs. Leslie P. Trainor and Mrs. George Trainor.

● Mrs. A. G. MacKay who has spent a fortnight in Nelson returns to Victoria Saturday. While here Mrs. MacKay was the incentive for a number of social affairs in her honor.

● Mrs. William Winstanley of Crescent Valley has been the guest of Mrs. M. J. Vigneux.

● Mr. and Mrs. A. O. Allen, Front Street, have had as guests for the past two weeks Mr. and Mrs. W. K. Bonder, who have returned to their home in Lethbridge.

● Mrs. Norman Cunningham, who has spent the past couple of weeks visiting her mother and sister, Mrs. M. J. Varseveld, Silica Street, and Mrs. Ron Waters at their Summer place at Willow Point, returned Saturday to her home in Rossland.

● Mr. and Mrs. Leo Atwell of the North Shore were visitors to Spokane.

● Miss Jennie Trainor, daughter of Mr. and Mrs. George Trainor, Carbonate Street, has left for New Westminster where she wil. spend a few days at the home of her brother-in-law and sister, Mr. and Mrs. E. McGauley, prior to going to Victoria where she will attend Normal School.

● Mr. and Mrs. McKinnon of Powell River visited relatives and friends in Nelson.

● Mr. and Mrs. Dan Pierce of Kimberley visited Mrs. Pierce's two brother-in-laws and sisters Mr. and Mrs. George Trainor and Mr. and Mrs. Leslie P. Trainor.

Drive Safely

Labor Day weekend will be a dangerous one on the highways, probably the most dangerous of the entire Summer. Canadians by the thousands will be taking to the highways, many returning from vacations, others out on the last of Summer's long weekend excursions. Their numbers will be added to by United States tourists. The traffic will be heavy, a lot of drivers will be in a hurry to get where they are going, because holiday weekends occasion much long-distance driving.

There may be people killed, and more people injured. The objective must be to keep the toll as small as possible. There is one way it can be done, and only one. That is by every driver driving carefully, at reasonable speed, alert to curves and other highway traps, and watchful of other motorists who may be breaking the rules. With rare exceptions highway mishaps are caused by human carelessness.

Death lurks also on the beaches, in the lakes and streams. Here, too, the same rule applies. Be careful. If you cannot swim, make certain you do not go beyond your depth. Even if you can swim, take no unnecessary chances. And if in boats, handle them with care.

Danger Point Near in Price Climb

Up another two points, the costs of living have reached a new postwar high. This is not good, particularly when circumstances are such as to put increasing pressures behind the upward inflationary cycle. In the United States already there is talk of some sort of controls.

Controls, of course, unless they are complete, are rather ineffective. Without of the justification of a major war, it would be difficult to get people to accept total controls and abide by them. Yet the situation is one that easily could get completely out of hand.

Good Fortune and Meteors

Two hundred years ago the fur trade factors on Hudson Bay liked to talk about the mountain of copper the Indians reported in the area we now know as Coppermine. Much later, the diamond kings in South Africa cooperated in an examination of prospective diamond pipes in the sub-Arctic. The Belcher Islands in Hudson Bay were supposed to be of pure iron, rising red and rusty from the sea, and perhaps rich ore may yet be found there. There was a lead mine on Richmond Gulf, and, remarks the Ottawa Journal, Major McKeand, back from one of his annual voyages into the Far North, once displayed to Ottawa friends a fine pearl found by an Eskimo on an inhospitable coast.

Canada's North, instead of being a dreary waste of muskeg and snow, is in fact a treasure trove of the unexpected. Far beyond the mighty waterfalls of Labrador, supposed to rival Niagara in grandeur, an expedition assisted by the Toronto Globe and Mail has found a meteoritic crater far greater than any yet known. Experts estimate the meteorite struck the Ungava barrens 3000 to 5000 years ago with an explosive force sufficient to wipe out New York or London.

In a way this should bring us comfort. We live in some concern over the atom or hydrogen bomb being unleashed on mankind, but we never think of the natural hazards of meteorites which, presumably, are all about our world and some day may pierce our defences. It was the good fortune of our ancestors that the meteorite struck in the barrens rather than the Mediterranean; and, who knows, we may be equally forunate both in regard to meteorites and the instruments of our own creation.

The Direct Route

W. A. C. Bennett, Progressive Conservative Coalitionist from Kelowna, has been asking for speed in evaluating the survey currently under way for a possible bridge across the Okanagan Lake at Kelowna. In making this plea he sees Interior B. C. as a route to the North country if coast communication is threatened. The Northern route would come up the Okanagan and over to Kamloops, and then North.

We have no quarrel with Mr. Bennett's suggestion. But his utterances provide us with another opportunity to suggest the most direct link between Spokane and the important section of the United States highway would be via Nelson, Nakusp, Arrowhead, Revelstoke, Boat Encampment and the North. Two highway links, namely between Nakusp and Arrowhead, and North from Boat Encampment, would have to be built, but these would be minor items in a defence highway program.

And incidentally, we think the proposed bridge between Kelowna and Westbank is already warranted by the extent of the travel through the Okanagan regardless of defence considerations.—Revelstoke Review.

Panorama

Commendation to Donald Gordon on his courageous tackling of the Canadian National Railways' debt problem is voiced by the Vancouver News-Herald. But the paper is critical of Mr. Gordon's asking, "Where are the highways, the airways and the water systems that can substitute for rail lines?" Says the editorial: "If he has not been President long enough to be aware of how the railways' share of the total of passenger and freight volume is steadily falling, he had better to take to reading the reports of the railways in the United States, Britain; and, in fact, almost any country in the world."

* * *

Government savings proposed by an Opposition critic the other day may seem small, which indicates the dangers in these huge postwar budgets, points out the Windsor Star. "This emphasizes once again, as Mr. Abbott stressed in his budget speech, that new major expenditures are impossible without higher taxes. For any additional benefits sought, Canadians must be prepared to pay. That doesn't mean only Canadians who now are in the income tax brackets. Quite apart from all being payers of indirect or 'hidden' levies such as the sales tax, social security measures likely will be on a contributory basis, either through a special social security tax or otherwise."

* * *

The change that has taken place in the public health field in the short two years since the national health program got under way has been almost revolutionary, says The Montreal Daily Star. "Thanks to it, plus an awakened Provincial interest (inspired in good measure by the terms of Federal grants), Canadian hospitals, registries, clinics both fixed and mobile, training centres, etc., have benefited in a dozen ways, or been established outright. The Federal health grant program for 1950-51 is allocating $34,482,926 to the Provinces, of which Quebec will get almost exactly $10 millions, and Ontario $10½ millions, sums which even these wealthy Provinces probably never imagined would be available for health work for a generation to come. That the Provinces are happily making quick and effective additions to their health expenditures is evidenced in a dozen directions in our own Province and elsewhere."

Men look shorter when they sit down these days—they're sitting on flat wallets.
—J. Durante.

Oldest Flying Canadian

Oldest traveller ever to fly from Canada to England, 96-year-old Mrs. Harriet Richardson stepped from an airliner at London Airport last week and said: "Everybody seems to think that life stops at 90—but for me there's still a lot of adventure left."

Tall, silver-haired, with pink roses in her hat, Mrs. Richardson is to visit her "young" 83-year-old sister in South Devon.

She explained: "I want to have a look at the places I knew as a girl. The only thing I regret is missing the daffodils. Next time I come I'll pop over a bit earlier in the year. I enjoyed every minute of the air trip, and am going back the same way."

Press Comment

"MIKADO BOOGIE"

The copyright of Sullivan's music lapses this year. If it is not already too late, may I here implore Charing Cross Road to spare us "swung" Sullivan for the rest of our lives? Tunes which have become part of our national heritage deserve some sort of respect, and the thought of "Mikado Boogie" is horrifying in the extreme. May we hope that good taste will prevail?—Dr. Boyd Neel in London Times.

IN A FEW SIMPLE WORDS

Mr. P. T. Hellyer (Davenport): Every year we have more industries, more products and more classes of produce in a category which could be said to be of a semi-rigid or rigid price nature. They are prices set by arbitrary decision and which do not obey the laws of supply and demand . . . we now find ourselves in a complex economy in which we have a predominantly private enterprise, semi-rigid price structure . . .

It is because of this that the natural laws, which previously would have come into operation to get us out of our troubles and restore equilibrium when disequilibrium sets in, are no longer of necessity operative. It is because of this that I believe that the Minister of Finance has accepted the inevitability of having to compensate for this price rigidity through a sound policy of cyclical budgeting.

Mr. Cardiff: You had better call it six o'clock.—Commons Hansard.

Looking Backwards

10 YEARS AGO

From The Daily News of Sept. 2, 1940

Nelson Seniors evened their West Kootenay Baseball League semi-final series with the Trail Cardinals with a rather tame 10-6 victory at the Recreation Grounds Sunday afternoon. The Trail squad won the first game of the best-of-three series, 8-5.

Dr. and Mrs. L. J. Maurer, Mill Street, have returned from Midge Creek, where they were fishing.

25 YEARS AGO

From The Daily News of Sept. 2, 1925

After an extensive and successful exploration for ore on the 125-foot level on the Stemwinder property at Kimberley, O. C. Thompson, the well-known mine operator, 10 days ago started to sink from that level to a 250-foot level, he said in Nelson yesterday.

On Sunday a party consisting of Miss Jean Cruikshank, Miss Margaret Moore, Miss Alice Ryan, Miss Violet Abramson and Miss Charlotte Notman hiked to the Silver King, where they took many snaps of the beauty spots.

40 YEARS AGO

From The Daily News of Sept. 2, 1910

Mr. and Mrs. J. A. Erickson leave for Vancouver Monday, and from there will take a trans-Pacific steamer for New Zealand.

As a sample of the trade that is done from Nelson, it may be mentioned that J. A. McDonald this week has distributed 21,000 boxes of peaches.

W. C. Zwicky of Kaslo, Managing Director of the Rambler-Cariboo Mine, was in the city yesterday, returning to Kaslo by the Kokanee.

It's Been Said

The great obstacle to progress is prejudice.—Christian N. Bovee.

Your Horoscope

Financial success is indicated, including promotion, but happiness will depend upon your own actions. Born on this day, a child probably will be very clever and robust in health.

FOR SUNDAY, SEPT. 3: Look for pleasant surprises in business and social affairs in the months ahead. A tactful and ingenious individual may be looked for in a child born today.

New President Of Colombia

In the presence of diplomats and envoys of 35 nations, Dr. Laureano Gomez, 61, was inaugurated as the 48th President of the Republic of Colombia in ceremonies held in Bogota. The Conservative Party leader lauded the United Nations defence of Korea against Communist invasion.
—Central Press Canadian

Security Council To Consider New Election System

NEW YORK, Sept. 1 (AP)—Trygve Lie, United Nations Secretary General, said today the U.N. Security Council will have to consider changes in its method of having members serve as President in rotation. Asked if the conduct of Russia's chief executive, Jacob Malik, in presiding during August as President of the Security Council might make procedural changes necessary, Lie said:

"All matters of the last month must be considered, and we have to think over the possibility of changes in procedure of selecting the President by alphabetical rotation."

Ship Within 445 Nautical Miles Of North Pole

OTTAWA, Sept. 1 (CP) — A United States ship recently pushed to what is believed to be the Northernmost point in the Western Hemisphere ever reached by a vessel under its own power, the External Affairs Department announced today.

The ship, the United States Coast Guard's Eastwind, moved to within 445 nautical miles of the North Pole while passing the Northeastern tip of Ellesmere Island, 1500 miles North of Churchill, Man.

The vessel, along with three United States Navy ships, sailed into Canadian Arctic regions in July to supply the joint Arctic weather stations operated by Canada and the United States. The stations are on Ellesmere and Cornwallis Islands.

HEAVY PACK ICE

The Eastwind and the U.S.S. Edisto smashed through heavy Polar pack ice of up to 30 feet in thickness while moving to supply one of the stations on Ellesmere Island. This was the heaviest ice encountered in five years of Arctic supply operations.

The Edisto and the Eastwind carried helicopters, and they were used extensively in short-range ice reconaissance. They also were used to transport Canadian Government surveyors and other field technicians to locations where astro positions, terrain elevation, geology, wild life and other reconnaissance field studies were accomplished.

Long-range ice reconnaissance was furnished by the R.C.A.F.

The ships, now back in East coast ports, were under command of Capt. G. E. Peterson of the U.S. Navy.

Mosher Predicts Expelling U.E.W.

OTTAWA, Sept. 1 (CP)—A. R. Mosher, President of the Canadian Congress of Labor, predicts in his Labor Day message to C.C.L. members that the Left-Wing United Electrical Workers will be expelled from the Congress at its Winnipeg convention this month.

The U.E.W. was suspended from the Congress by its Executive Council several months ago, and since then its expulsion at the convention—the only body that can do this—has been regarded as a foregone conclusion.

Mr. Mosher, in telling members how the C.C.L. dealt with "Communist-dominated" unions, noted that the U.E.W. was under suspension, and added it would "undobutedly" be expelled at the Winnipeg meeting starting Sept. 25.

Minister to Cuba Becomes Envoy

OTTAWA, Sept. 1 (CP)—Dr. E. H. Coleman, Canadian Minister to Cuba, has been given the rank of Ambassador, the External Affairs Department announced today.

The move was made following the decision of Canada and Cuba to elevate their legations at Havana and Ottawa to embassies. The Department said the Cuban Government will appoint an Ambassador to Canada shortly.

Blames Leftists for Attacks on Gordon

TORONTO, Sept. 1 (CP)—Frederick I. Ker, publisher of the Hamilton Spectator, said today in an address that attacks on Donald Gordon over the rail strike were Leftist-inspired.

Describing the Canadian National Railways President as a "fearless and capable" public servant, he said the criticisms show that "when the Leftist hierarchy and their political puppets don't get what they want they bitterly attack those who oppose them."

"Don't blame our Governments if this continuous propaganda is interpreted as reflecting the will of the people. Those contrary-minded show no such zeal in making known their views and in defending Members of Parliament and public men from the unfair and unworthy attacks that are made upon them."

INSIDIOUS CONTROL

Mr. Ker, who is a Director of The Canadian Press, noted that the American Newspaper Guild (C.I.O.) was certified last April as bargaining agent for editorial employees of The Canadian Press. The certification was resisted by the national news service "on the grounds that it seriously endangered freedom of the Press".

Because of its opposition to the union, which he described as "pledged to the C.C.F." through its affiliation with the C.I.O., The Canadian Press was "bitterly criticized by the interested labor leaders".

"This is a matter of the utmost importance to the security of this country, and yet what individual or group of individuals, what political Party, Chamber of Commerce, Bar Association or other organization has publicly come to the support of The Canadian Press, creating a reflection of public opinion contrary to that advanced by a minority group seeking an insidious control over the national news service?"

Census Discloses Women Lawyers Increasing Steadily in Canada

TORONTO, Aug. 31 (CP)—Canada today has 8059 lawyers in active practice, proportionately fewer than at any time since 1900. One-third are in Toronto or Montreal.

These and other facts were disclosed today in the first of a series of reports on a survey sponsored by the Canadian Bar Association and financed largely by the Carnegie Corporation of New York.

The report, released by C. P. McTague of Toronto, survey director, is in effect a census of barristers and solicitors. It was published today in the Canadian Bar Review, and will be followed later by studies of various other aspects of the profession.

MORE PARTNERSHIPS

Fifty-three per cent of lawyers practise with one or more other lawyers, whereas two-thirds of United States lawyers are in independent practice.

The number of women lawyers is increasing steadily; there was one 50 years ago; now there are 113.

Thirty per cent of all lawyers are King's Counsil; slightly more than half are 45 years of age or under.

Lawyers generally are older in Western Canada than in the East. Young men are most prominent in Prince Edward Island, where almost 40 per cent have been called to the Bar since the Second World War.

The report notes that law-school enrolment is at a new peak, and says of suggestions that there is "overcrowding":

"The profession as a whole has a responsibility to the public to see that the legal knowledge and skills of the lawyers are available to every private citizen for the protection and the enforcement of his rights.

"Until there are enough lawyers to meet all the needs of the general public, and until those lawyers are distributed in such a way as to be most readily accessible to fill those needs, the problem of overcrowding cannot properly be discussed."

In all of Canada, the report says, there are about 9700 legally-trained persons, including 293 Judges and some 1300 lawyers either in Government service or not in active practice. This leaves 8059 available to the public.

Claims No Legal Definition of Territorial Seas

MOSCOW, Sept. 1 (AP)—Russia today upheld its claim to a 12-mile limit in the Baltic Sea.

Both Denmark and Eweden had challenged the Soviet position in notes delivered in the Kremlin by their representatives here.

In a reply to Denmark the Soviet Union said that there is no definition by international law of territorial waters. (Presumably a similar reply will be made to Sweden.)

The Swedish Foreign Office announced July 25 that Sweden and Denmark regarded the Russian claim as "an encroachment on the freedom of the open sea." In notes to the Soviet Government the two Scandinavian countries said that "limits of the territorial waters of European States have been established for centuries, and as far as the Baltic States are concerned, have been fixed at three or four miles."

Rail Strike Causes School Crowding

NANAIMO, B. C., Sept. 1 (CP)—Effects of the rail strike will cause temporary crowding in elementary schools here, school trustees said today.

Completion of three new schools—which trustees hope will handle an expected rise of 200 new elementary pupils—was delayed because the rail strike held up deliveries of building supplies. The schools will be finished within several weeks, trustees said.

But there will be a longer delay in the completion of an eight-room unit—which was to ease much of the congestion, the trustees reported.

Louis Expected to Walk Over Charles

By WHITNEY MARTIN

NEW YORK, Sept. 1 (AP)—Joe Louis, who has stopped with his fists most of the men he met in the ring, thinks he has found a way to make time stand still.

The Brown Bomber, using a little intricate arithmetic, has figured that at 36, he is a better fighter than he was at any time since the war. In other words, he hasn't aged a bit in the last five years.

He may be right. It's against all reason, of course, but we have a hunch that the big guy will look better against Ezzard Charles Sept. 27 than he has looked in a long, long time.

He seems to have a zest for fighting, for one thing.

As for his becoming soft and rusty since his retirement, the truth is that he probably has boxed more rounds in the last couple of years than Charles. Exhibition bouts, sure, but they were exhibitions in name only.

Lee Oma, after taking one look at pictures at Pat Valentino's rearranged face after Joe got through with him, voted to withdraw from his own scheduled "exhibition" with the old Bomber.

"Those aren't exhibitions," he blurted. "Those are real fights."

We don't know just why we think the reconditioned old destroyer will be a better fighter, unless we are influenced by Joe's own optimism, and the words of his slightly prejudiced trainer, Manny Seamon.

Seamon is not unaware of the fact that Louis in his two fights with Jersey Joe Walcott gave a fair imitation of a man fighting for the benefit of slow motion cameras.

"You must remember, though," Seamon says, "that Walcott was a tough man to fight. Hit, and run."

Which is true enough, although you have the idea that a younger Louis would have caught the fleeing Jersey Joe long before he did, and there always is the possibility that the lithe Charles will fight the same kind of a fight.

Anyway, before he has boxed a round in training, we go on record as believing that Louis will knock Ezzard bow-legged when they meet.

Tennis Club President

DAVE BAKER

. . . President of the Nelson Tennis Club.

Mr. Baker came to Nelson in June of last year following his graduation in civil engineering from the University of British Columbia. He is now assistant hydraulic engineer in the Provincial Water Rights Branch here.

A native of White Rock, B.C., Mr. Baker was also an active tennis player in Kamloops where he spent his last two undergraduate years.—Vogue photo.

Phillies Draw Nearer Winning Pennant

By STEVE ROBERTSON
Canadian Press Staff Writer

Philadelphia's brash Phillies moved a little closer last night to their first National League pennant in 35 years.

A combination of a Philadelphia 7-3 victory over Boston Braves—the brash Phils' ninth win in their last 11 starts on the road—and a New York Giants 4-1 decision over Brooklyn sent the Phillies seven full games ahead of the pack. They need to hang on to their lead for just a month to win their first title since 1915.

In the American League, New York Yankees went 2½ games in front of the idle Detroit Tigers by defeating Washington Senators 6-2.

Andy Seminick banged a two-run, inside-the-park homer as the Phillies trounced the Braves. Rookie righthander Bubba Church kept eight Boston hits scattered, including Roy Hartsfield's sixth homer of the season.

At Brooklyn, Monte Irvin drove in three runs on a homer and fly ball to lead the Giants to victory over Brooklyn. The decision enabled the Giants to take fourth place from St. Louis Cardinals and it dumped the Dodgers seven games behind the Phils.

The last-place Pittsburgh Pirates scored five runs in the third inning then went on to beat the Cardinals 10-4.

Eighth-inning home runs by Johnny Mize and Billy Johnson powered the Yankees' victory over Washington. The victory was the Yanks' fifth straight and 14th in the last 16 games. Mize's four-bagger with two on in the eighth settled the contest. Johnson immediately followed with his second homer.

Mize's smash, 17th of the year for the veteran Giant castoff, settled a handsome pitching duel between Al Sima, Nat left-hander, and Allie Reynolds. The latter permitted a two-run homer by Mickey Vernon in the first inning and then blanked the visitors as he went on to his 13th victory. The fireballing righthander allowed only four hits and fanned seven.

Boston Red Sox's string of 12 straight victories over Philadelphia this year ended when Bobby Shantz tamed the pennant-aspiring Red Sox 4-2 with six hits. It waws the Athletics' first victory over the Bostonians since April 23 when Shantz also was returned a winner.

110 Enter Kootenay Tennis Tourney

Official Piper

JACK STOUT

. . . Pipe Major of the Kootenay Kiltie Pipe Band who will be official piper for the 11th annual piping and highland dancing competitions to be staged here Labor Day. Assisting him will be Piper James Ritchie.

The annual Labor Day weekend tennis tournament has attracted 110 racquet wielders from different parts of the Kootenay. And, according to net official, Des Crowder, the large entry list will result in 89 matches.

Play opens tomorrow and runs through until Monday when the final events will be played.

Three courts will be used for the event. Rossland, Trail and Tadanac courts are reported to be in good condition for the yearly classic.

Following is the draw for tomorrow:

At Rossland—

1:30—C. Clarke Jr., vs I. Thompson; D. Baker vs B. Inkpen; A. Dimock vs G. Sanderson.

2:30—Miss A. Marykee vs Mrs. L. Gillies; E. Atwood vs L. Lefaux; W. Barliss vs D. Delcourt.

3:30—N. Ink vs T. Muraro; J. Ewing vs G. Laurie; A. Dimock and Miss S. Crowder vs M. Major and Mrs. Major.

4:30—Inkpen and Albright vs R. D. White and partner.

5:30—Mrs. E. Halliwell and C. Albright vs Mrs. I. Ewing and C. Roughead.

6:30—C. Roughead and partner vs W. Zalner and E. Atwood; Mrs. Hedley and Mrs. Crowder vs Mrs. I. Ewing and Mrs. Spievak.

At Trail—

1:30—G. Bloor vs R. Sukerjaj; C. Atwood vs W. H. Johnson.

2:30—B. Clements vs C. Clarke Sr., C. Albright vs W. Zalner.

3:30—Mrs. K. Thompson and N. McAdam vs Rennison and Rennison; Mrs. J. Wyllie and R. Thompson vs Miss Spievak and I. Thompson.

4:30—Clarke and Clarke vs Kwasney and Johnson; Lefaux and McAdam vs Crowder and McMillan.

5:30—Miss Dallas and Miss Bond vs Mrs. Telfic and Mrs. Gillies; Miss A. Maryka and Lefaux vs J. Nayler and Miss M. Weldon.

6:30—J. Hughes vs J. McLean; I. Thompson vs D. Wood.

At Tadanac—

1:30—J. Kwasney vs F. H. Hedley; J. Naylor vs R. Thompson; Rhodes and Haley vs A. Brooks and Ruck.

2:30—Miss R. Dallas vs Miss B. Delong; Mrs. R. Roome vs Mrs. R. Thompson; C. Roughead vs R. D. White.

3:30—F. H. Hedley and Nestt vs Rhodes and Mrs. Yeux; Mrs. D. E. Bennett and D. Baker vs Mrs. I. Spievak and R. Sobieraj; F. Haley vs G. Fisher.

4:30—Anderson and Naylor vs L. Soligo and J. Hughes; R. Sobieraj and partner vs Montalbetti and G. Fisher; C. Atwood vs G. Delcourt.

5:30—Sanderson and Miss Delong vs Mrs. Roome and McMillan; W. Barlee and C. Atwood vs Rennison and Major; Hedley and Bayley vs Delcourt and Nordi.

6:30—Mrs. Davis and Mrs. Barrett vs Mrs. Bennet and Mrs. Marsden; Mrs. Weldon and Miss Weldon vs Mrs. Howe and Mrs. Hawes; Winner of Miss Dallas vs B. Delong vs Mrs. Major.

100:00—Mrs. L. Telfer vs Miss M. Weldon; B. Rennison vs A. Ridgers.

12:00—L. Calder and B. Clement vs A. Ridgers and A. Dimock.

Some 20,000 motorcyclists participated in the Italian Holy Year rally in Rome recently; climax of the rally was a huge assembly in St. Peter's Square, where they were blessed by the Pope.

Medicine Hat Junior Baseball Champs

MEDICINE HAT, Alta., Sept. 1 (CP)—Medicine Hat Flyers are the 1950 Southern Alberta Junior baseball champions.

Manager Carl Trentini of the Hillcrest Miners today informed the Flyers the Miners would not compete the remainder of the best-of-five series which Flyers lead 2-0 as a result of two wins in Hillcrest Sunday.

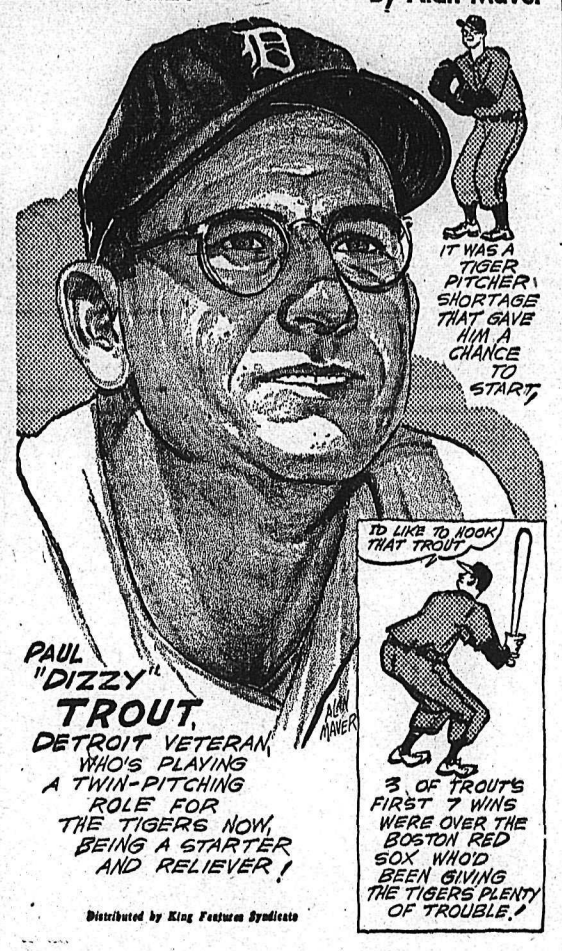
NOT SO DIZZY . . . By Alan Maver



Tigers in Poor Shape

DETROIT, Sept. 1 (AP)—Detroit Tigers were a downhearted bunch of ball players as they arrived home today after an Eastern road trip which saw them lose eight of 12 games and their American League lead.

More than 500 loyal fans and two bands braved a rainstorm to greet the Tigers.

Manager Red Rolfe sounded a battle cry:

"We may be down, but they haven't buried us yet and I know we'll bounce back into the League lead if we get a few breaks".

His sentiments were echoed by veteran pitcher Paul (Dizzy) Trout who told the fans: "We hit the bottom on this trip, but from now on we'll get back to winning our share of games."

Rolfe had a simple explanation for the Tigers' slump on the road trip—"we weren't hitting and our lack of speed on the base paths caught up with us."

A long list of ailments on his squad also caused Rolfe worry and he summoned reinforcements from the Tigers' Toledo Farm Club today. He recalled Catcher Joe Ginsberg and First Baseman Dick Kryhoski.

Here is how the Tiger casualty roster stood today:

Dizzy Trout—Bothered with a sore pitching arm.

Hoot Evers—Out with a sore wrist since he ran against a fence in Washington this week.

Johnny Groth—Has a sore back.

Vic Wertz—Has a sore right foot, suffered when a foul tip bounced off it.

The Detroiters have 30 games in the next 30 days.

Rearing Pools Completed and Ready for Fish

Another step towards enrichening the waters of the Kootenay lakes and streams with fish has been completed.

It is the completion of the five new concrete rearing ponds at the Provincial Fish Hatcheries here.

Presented to the hatcheries by the Nelson Fish and Wildlife Protective Association, the pools were completed about a month ago.

The new battery brings the number of pools at the hatchery to nine.

Although they are ready, they will not be inhabited by fish until exhibition time near the middle of the month.

Screens have been placed over the tops of the pools to protect the fish.

Fisher Homer Gives S. Slocan 12-12 Tie

A three-run homer by South Slocan first sacker Stan Fisher, with two out in the seventh and final inning, enabled his team to force the Kings into a 12-12 tie, in their first game in the best of three semi-final of the Nelson Men's Softball League

The Kings, who finished fourth in regular league play, appeared to be headed for an easy victory until the final two innings. Stan Fisher homered with two mates aboard in the six inning to bring his team, who had been faltering badly, within one run of the Kings.

The Kings then put on a hitting barrage to drive three more runs across the plate in their top half of the seventh inning.

With his team trailing 8-4, Sinclair got on base on a hit and was advanced on King errors. After two more South Slocan hitters climbed on Kings' hurler, Bruce Malcolm for singles, Fisher came up and drove the ball into deep centre field for his second consecutive homer of the evening.

The winner of the Kings-South Slocan series will play the winner of the Monarchs-Pucksters series, which the Monarchs lead one game up.

The Kings and South Slocan resume their series on the Civic Recreation Grounds diamond Thursday night. Meanwhile the series between the Monarchs and the Pucksters will resume on Tuesday.

The batteries:

South Slocan—Sinclair, Taylor (5) and McClelland.

Kings—Malcolm and Ball.

Umpire was Keith Loewen.

Vernon Leads Lacrosse Playoffs

VERNON, B.C., Aug. 31 (CP)—Vernon Tigers grabbed a one-game lead in the gruelling best-of-seven series for the interior lacrosse championship tonight by out-playing the Kelowna Bruins 19-11. The Tigers now have the odd game in five and will be trying for the series-winning game in Kelowna on Saturday night.

Prairie Girl Named Figure Skating Pro

Twenty-year-old Miss Fay Chestney, who came to Mary Rose Thacker's Summer Figure Skating School in Nelson this Summer from Victoria Figure Skating Club, will be pro of the Nelson Figure Skating Club next season.

Born and raised in Saskatoon, Miss Chestney is an excellent dancer and holds a Canadian Silver Medal for dancing. She is well qualified in figures.

Announcement of her appointment came on the heels of election of officers of the club. Mrs. W. G. Harold is President; Ald. Joseph Kary, Vice-President, and L. A. McPhail, Secretary. Robert Foxall is Past President.

The hope is that a dance group will be formed for members who prefer dancing to figures.

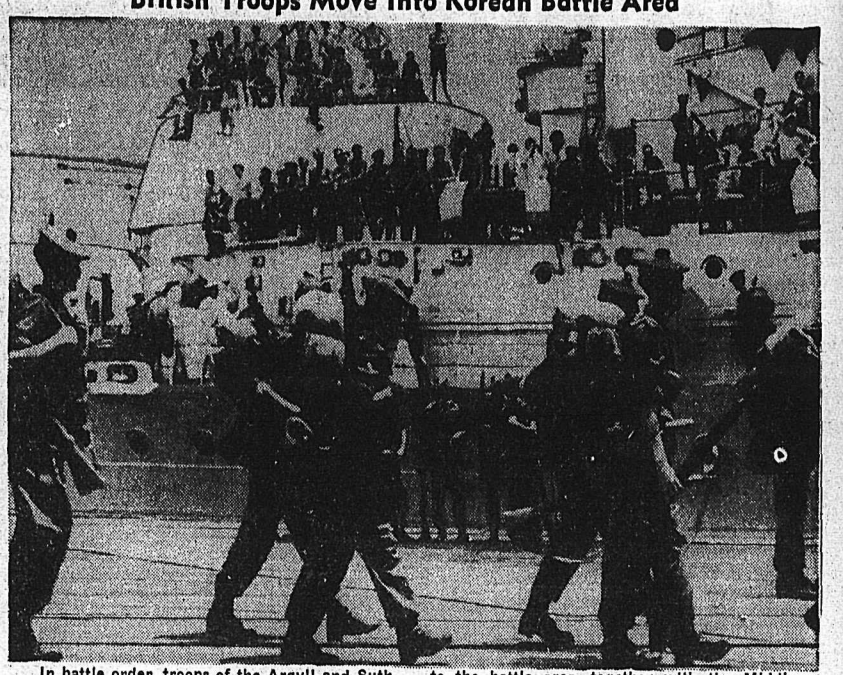
British Troops Move Into Korean Battle Area



In battle order, troops of the Argyll and Sutherland Highlanders, landed in Korea ready to take their place in the fighting line alongside U.S. and South Korean units. They were moved immediately to the battle area, together with the Middlesex Regiment, which had accompanied them to Korea. —Central Press Canadian

Mass in Korean Front Lines

Celebrating Mass a short distance behind the fighting line in Korea, Father Bernard Wickey, Roman Catholic priest of Waverly, N. J., is shown giving Holy Communion to a soldier. There was an improvised altar, but the priest had no vestments other than Army fatigues.—Central Press Canadian.

Cretes Romeo and Juliet

Left is Constantine Kefaloyannis, the Cretan "Romeo" who snatched his "Juliet", Tassoula Petrakoyory, right, and started what Greek officials fear may turn into a family vendetta with plenty of bloodshed. Tassoula is the daughter of a former Greek guerrilla who is now a Liberal Party Deputy. Constantine is the brother of a Populist Party Deputy. The families have long been at loggerheads. The abduction of his lady love on a street corner by Constantine is said to have rekindled a feud that is regarded so seriously as to merit dispatch of an infantry battalion to prevent a pitched battle between the warring families. Tassoula is said to have gone willingly with Constantine.—Central Press Canadian.

"Burma Surgeon" Held on Charge Of High Treason

RANGOON, Burma, Sept. 1 (AP) — The Burmese Government has changed its charge against Dr. Gordon S. Seagrave to high treason, an authoritive source said today. It was a move to keep the American missionary-physician, jailed on a lesser charge, from being released by court order.

Seagrave, widely known as the "Burma Surgeon" has been held in jail since Aug. 20 on a charge of aiding the rebel Karen tribesmen in their fight for autonomy. The much graver high treason charge could involve a death sentence.

EATING LESS PREVENTS SOME CANCER GROWTHS

BIRMINGHAM, England, Sept. 1 (AP) — Some cancers can be prevented by eating less, a British scientist said today.

Zoologist W. S. Bullough of Sheffield University told a British Association for the advancement of science meeting that experiments suggested a cancer might be related to the rate at which the body's cells divide.

"Underfeeding to a degree which does not affect the health has now been shown to depress deeply the rates of cell division and so to prevent altogether the appearance of cancers that would otherwise have developed," he said.

ARREST KU KLUX KLAN CHIEF FOR CONSPIRACY

CONWAY, S. C., Sept. 1 (UP)—Sheriff C. E. Sasser said last night that the Grand Dragon of Ku Klux Klan in South Carolina has been arrested and charged with "conspiracy to stir up mob violence". Sasser said the charge was brought against Thomas L. Hamilton in connection with a Klan parade staged last Saturday in a Negro section.

LONDON (CP)—A new centre for the study of Chinese Ceramics will be opened shortly by London University. The centre was made possible by the gift of what is considered to be the finest collection of Chinese ceramics in the world, that of Sir Percival David.

Suggests Forgetting Malik's Presidency

By STANLEY JOHNSON

LAKE SUCCESS, N.Y., Sept 1 (AP) — Britain's Sir Gladwyn Jebb took over as President of the United Nations Security Council, determined to end Russia's Jakob A. Malik's month-long stalemate of pending council moves to localize the Korean War.

A spokesman quoted Jebb as saying:

"We shall turn the calendar back to July 31. We shall pretend that Malik has never been President and get on with our work."

MANN'S DRUG STORE

JOHANNESBURG (CP)—City officials are considering using the Rand Gold Mines as air raid shelters in the event of an atom bomb attack. Lives might be saved by crowding thousands underground, they say, but the difficulties of converting the mines to ARP shelters would be immense.

Sweden's exports of eggs during the first half of 1950 amounted to 7460 tons, seven times as much as in the corresponding period of 1949.

Only Sane Thinking Hope Of Keeping Prices Under Control

By FORBES RHUDE
Canadian Press Business Editor

Word of higher prices continues to dot the news.

This was to be expected, for we already were in a resumed boom before the Korean fighting started. There was some possibility of that boom easing off, but the increased demand of the international situation makes it likely that it will be with us for some time.

It is in the interest of both business and consumers that prices do not run away, and both sides can do much to prevent them from doing so.

Business can help by keeping prices as low as reasonable profits will allow, and thus stave off controls which it won't like. The individual can help by refraining from panic-buying and by turning away from price tags which are unduly high.

In addition to the real causes for the present boom, it can become a partly-psychological state wherein people run thither and yon, grab up this and that, and get ideas of "get rich quick".

UPWARD INFLUENCE

At best there will be a strong upward influence, and only sane thinking offers any prospect of keeping it under control.

One of the strongest inflationary influences of the moment is fear of inflation, which causes people to turn cash money into stable goods, houses, stocks, and so forth. Ordinarily this is a most laudable thing, and probably still is. But the old rule of investigate before investing holds, for along with opportunities there are plenty of pitfalls.

We don't know what changes in values are in front of us, including the value of money. But our economy has shown a great adaptibility which in the main has worked out well for most people. Probably it can continue to do so if we keep our heads.

The Government's action yesterday in lowering barriers against United States goods probably is intended as one step toward increasing the supply of goods and therefore of competition, and this may help in restraining prices.

If they are not restrained, we may expect other measures.

Morton Commands Winnipeg Area

OTTAWA, Sept. 1 (CP)—Brig. R. E. A. Morton has been confirmed as officer commanding the Army's Prairie Command at Winnipeg headquarters, Defence Minister Claxton announced today.

Brig. Morton has been acting head of the command since August, 1949, and had been slated to return to his former appointment as officer commanding Saskatchewan area at Regina.

Last week, Brig. A. B. Connelly was given command of the Saskatchewan area.

Crestonite Is Kiwanis Lieut.-Governor

WILLIAM P. KEIRN

. . . of Creston, who was elected lieutenant governor for Kiwanis Division No. 8 at a Kiwanis International convention in Spokane. A past president of the Creston Club, Mr. Keirn was Canadian representative on public relations.

Fruitvale Prepares For Labor Day Fun

FRUITVALE, B.C., Sept. 1 — Plans are nearly completed for the Calf Club Field Day to be held on Sept. 4 at the recreation grounds. Events get underway at 9:30 a.m. with the judging of the Club's calves and the pets. Judges for these will include R. Anderson, Kootenay District Agriculturist and S. Peterson, Creston District Agriculturist.

Presentation of the prizes will be awarded at 2:30 p.m. and include cups and trophies, and the two Ayrshire heifers to be given the winning boy and girl in the Club. Also on display will be the two heifers the Club had purchased last year and awarded Ruth Wilson and Eric Mawer.

In lieu of the regular cash prize for showmanship, two handsewn leather halters with lead chains and white cotton lead ropes will be given.

A ballgame between Rossland Midgets and the Fruitvale Midgets will open the sports events at 11:00 o'clock. Two senior ballgames in the afternoon and a full midway will provide entertainment. A monster open air dance at the FRA pavilion will wind up the day.

Douglas Suggests Nationalization

REGINA, Sept. 1 (CP)—Premier T. C. Douglas of Saskatchewan today criticized the arbitration clause in Parliament's bill to end the rail strike. He also renewed his C.C.F. Government's suggestion that the Canadian Pacific Railway be brought under public ownership.

"There will be widespread approval of the fact that the railway strike is ended," said the Premier, but "the same cannot be said for the methods that were used.

"Once more the C.P.R. has been allowed to evade its responsibilities and has demonstrated the extent to which it dominates the Government of Canada.

Montrose to Start Building Fund

FRUITVALE, B.C. Sept. 1 — Montrose, the new enterprising community at the top of the Cutoff and before entering Beaver Falls, is growing up and plans are being formed now to start a drive shortly to raise funds for a Community Hall.

It is hoped the drive will have a 100 percent backing from all present and future residents. From a donation of $1.00 a month from each family for a year, with aid from Cominco as in other communities, a fair-size hall would be forthcoming.

Plans in detail will be presented at two meetings of the Montrose Improvement Association, on Sept. 6th and the 13th. The type of hall will depend largely on the response the Association receives from the public.
