...ty Years of Service to the Kootenay-Boundary - 1952

Vol. 51 NELSON, B.C., CANADA—WEDNESDAY MORNING, AUGUST 20, 1952 No. 93

WEATHER FORECAST

Kootenay—Mostly clear but with a few clouds and showers along the ridges in the afternoon. Little change in temperature. Winds light. Low and high at Cranbrook 44 and 82. Crescent Valley 40 and 82.

St. Laurent To Visit Major B. C. Points

16-Day Itinerary Includes Visits To Various Industrial Projects

OTTAWA, Aug. 19 (CP)—Prime Minister St. Laurent, refreshed by his best vacation in years, will be off next week on a three-province meet-the-people tour, his biggest since the 1949 election campaign.

His 16-day itinerary, released today, is designed to cut a swath through British Columbia but will include calls at various places in Ontario and Manitoba.

Mr. St. Laurent is due back in Ottawa Monday after vacationing at his St. Patrick, Que., Summer home through July and August.

He will leave here by train Aug. 28 and visit Orillia, Midland and Penetang, Ont., first, then go to Calgary by train, fly into Cranbrook, B. C., Sept. 1 and go from there to Kimberley, then Trail.

On Sept. 2, he is due at Penticton, Kelowna and Vernon. On Sept. 3 and 4 he will be in Vancouver for the Canadian Bar Association meeting and for ceremonies at the University of British Columbia.

TO KITIMAT

Then he crosses to Vancouver Island to visit Victoria and Sept. 6 he moves up through the island, making various stops. He goes from there to Powell River and then to Prince Rupert, flies over the Kitimat aluminum project country and then heads for the little settlement of Smithers. On the 8th he flies to Prince George.

He goes to Edmonton and there catches a train to arrive in Portage La Prairie, Man., on the 9th for a speech. He has another speech scheduled in Winnipeg the next day and still another in Hamilton on the 12th. He is due back in Ottawa Sept. 13.

Soviet's 19th Congress To Approve 5-Year Plan

MOSCOW, Aug. 20 (Wednesday) (AP)—Russia's Communist party will hold its 19th congress — the first in 13 years—on Oct. 5 to approve a Soviet five-year plan that began in 1951.

The congress, called by the party's central committee and its secretary-general, Prime Minister Stalin, was announced in all Moscow papers today.

The announcement said the congress will issue directives for the Soviet Union's economic plan that began in 1951 and is to be concluded at the end of 1955.

The last party congress, in 1939, approved a five-year plan for economic development which was to have been completed in 1942. It was interrupted in 1941 by the German invasion.

(Malenkov, a member of the Soviet Politburo and widely considered in the West to be Stalin's heir, is listed by Western authorities as one of several secretaries of the party committee. Stalin, himself, is the committee's secretary general.)

Both Pravda, the Communist party organ, and Izbestia, the government newspaper, published the text of the new five year plan directives to be proposed to the party convention.

Two Sisters to Teach in New Ont. High School

HAWKESBURY, Ont., Aug. 19 (CP) — Two sisters of a Roman Catholic religious order will teach French-speaking students at Hawkesbury's new $700,000 high school which will also house Protestant students.

But, school board chairman Oscar Legault said today, they will not wear religious emblems and will be addressed by their family and not religious names.

He said the unidentified sisters formerly taught French-speaking boys and girls at separate schools now consolidated along with one for English protestants in the new high school.

In their new posts the sisters will wear religious habits, but religious teaching will be left to priests and ministers of Roman Catholic and Protestant faiths for students who wish to take such instruction.

Of the 460 pupils in the new school 90 per cent are French-speaking.

Margaret's Three Bodyguards Too Rough Say Swedes

STOCKHOLM, Aug. 19 (AP) The Swedish Foreign Office began an investigation today of Margaret Truman's right to have three armed American bodyguards in Sweden.

The three have been accused in the press here of roughing up Swedish citizens and their presence has caused considerable indignation among the Swedes.

The President's daughter has been in Sweden since Sunday on a European tour.

Sweden's largest newspaper, Aftonbladget, commented sarcastically tonight "Miss Truman is not in danger of her life in Stockholm . . . we understand that she is no going to sing here."

The paper referred to the bodyguards as three American gorillas and charged "they intercept in an uncouth manner Swedes who want to pass any place where it pleases Miss Truman to be at a given moment.

DAISY B. SEINER STILL MISSING

VANCOUVER, Aug. 19 (CP) — A Canadian fishing company official who examined a wrecked wheelhouse washed up on Porlier Pass, about 30 miles South of Vancouver, returned to Vancouver today and said "it wasn't the Daisy B."

The Daisy B has been missing out of Vancouver since July 3 with seven men aboard. All clues to the disappearance of the 55-foot seiner have led up blind alleys.

Dick Jaques of the company's production department examined the latest wreckage it looked like a portion of a wheelhouse from a trunk cabin.

"Probably a camp boat or troller," he said. "But it's definitely not the Daisy B.

LIFT CONTROLS O COFFEE

LONDON, Aug. 19 (AP) — Britain today abolished price controls on coffee. The Ministry of Food said it "has contracts with colonial coffee planters for the supply of about half the home needs up to 1954, and that the trade is being invited to import the balance."

"DON'T WHISPER A WORD OF THIS TO ANYONE, friend, but Oakville, Ont., dogs have fleas. Great big fleas, too. In fact, the Humane Society there has destroyed six dogs and 24 cats who were bitten so bad they scratched themselves dizzy. The mayor of Oakville, J. R. Black, says they're not town-grown fleas, but subversive suburban elements. Maybe he's right about that, because some of the fleas, are actually biting humans. Well, anyway, that's the way I heard it!"—Central Press Canadian.

FIRE STRIKES LUMBER MILL

Shingles, Plywood Go Up in Flames

VANCOUVER, Aug. 19 (CP) — Huge stacks of shingles and plywood were destroyed tonight by a three-alarm fire which swept the premises of the Albion Lumber and Millwork Co. Ltd here.

Black smoke billowing hundreds of feet in the air drew thousands of persons to the scene, about 1½ miles from downtown Vancouver.

Reports from the scene said only the company's front office was untouched but that the flames were prevented from spreading to neighboring buildings.

The fire broke out about 7 p.m. PDT and was still burning more than an hour later.

There were no reports of injuries and only a small shift was believed working when the flames struck. Cause of the fire was not determined immediately.

C. S. Wheatley, manager of Albion, described damage as "extensive" but said he couldn't give a damage estimate until a survey has been made.

Britons Warned Pay Increases Add To Economy Grief

LONDON, Aug. 19 (Reuters) — British trade-union chiefs today warned their 8,000,000 followers that Britain can't thrive if pay increases push up the prices of goods she is selling abroad.

The 33-member general council of Trades Union Congress didn't ask workers to drop their current demands for wage increases, but it stressed in an economic report that they could price Britain out of the competitive world market.

It said that British workers had a "vital responsibility" not to worsen what is an "already precarious situation."

The report, to be debated at the annual conference of 186 member unions next month, comes at a time when most of them are pressing for higher pay against the express wishes of the Conservative Government.

"It is impossible to avoid the conclusion," the report said, "that an appreciable increase in the cost of our exports at the present time might have the most serious consequences on our standard of living."

To Continue Use Of Napalm Bombs

WASHINGTON, Aug. 19 (AP) — Defence Secretary Robert Lovett said today that Red China radio complaints will in no way deter Napalm bombing attacks upon military targets in North Korea.

Asked at a Press conference for comment on Peiping radio appeals to the world to unite to halt such bombings, the secretary said the Communist complaints were obviously propaganda.

He went on to say that Napalm is jellied gasoline, which burns readily, and that fire has been as a weapon since pre-biblical days.

"It comes with poor and revealing grace, this yiping about the use of fire.

"As proof that it is not so that we are attacking civilians, we have been warning the people to get away from the military targets that we are coming over."

FLAGPOLE SITTER BREAKS RECORD OR DID REDS BEAT HIM?

LONDON, Aug. 19 (Reuters) — Flagpole sitter Victor Reeves of Walsall, Staffordshire, claimed today after squatting 30 days atop a pole that he broke the United States record of 720 hours. Commenting on Reeves' actions, the London Evening Star said: "For once we don't expect a claim from Pravda that a Russian did it first — although the Reds have been sitting on Poles for years."

Have the English Lost the Fine Art?

LONDON, Aug. 19 (AP) — Have tea-drinking Britons lost the art of making tea? The world's big tea producers think so and are worried about it.

They claim a dozen years of rationing have knocked the know-how out of British tea-making. They say a whole generation of Britons have never had a decent cup of tea.

The main trouble, a survey showed, is that British mothers don't use enough tea, nor do they brew it properly. Some don't even use a pot but dip tea bags into cups of hot water — anathema of old-style tea drinkers.

To put things right, the tea kings have launched a campaign to bring Britain back to the right way of making tea.

GOOD HUMOR SEEMS TO PREVAIL as President Truman, left, confers with Governor Adlai Stevenson of Illinois, right, Democratic presidential nominee, and Sen. John Sparkman of Alabama, vice-presidential nominee, at the White House in Washington. The Democratic running mates had luncheon with the president and the cabinet. A chat on campaign strategy was on the agenda, and all seemed in agreement on the campaign policy adopted. — Central Press Canadian.

Plevin Unveils Plaque Honors Dieppe Heroes

DIEPPE, France, Aug. 19 (Reuters) — Canadian Ambassador George Vanier and Defence Minister Rene Pleven of France paid homage to the heroism of Canadian troops who took part in the Dieppe raid 10 years ago today.

Vanier, on his fifth post-war pilgrimage to the Dieppe beaches, unveiled a memorial at Puys, outside Dieppe, where the Royal Canadian Regiment was decimated by German machine-gun fire.

A party of 28 Canadian soldiers, survivors of the raid, attended the ceremony.

Pleven unveiled a plaque in the Square du Canada in honor of 1000 Canadians who fell in the nine-hour raid, the first large-scale allied landing in occupied Europe.

Pleven said that today, as 10 years ago, Canada and France are united in the struggle against aggression.

Two world wars have taught Canada and France that it is better "to discourage aggression by collective precautions than to have to repulse it," Pleven said. "We are united for better or for worse in the North Atlantic Treaty Organization."

Vanier said Aug. 19 would always be a day of mourning and a day of glory for Canada.

It would be futile to claim the Dieppe raid was a tactical success, he said, but the experience gained there was invaluable for the invasion of France.

He recalled that the official Canadian war history said "it was the men of 1942 who paid for the success of 1944." The Ambassador said this experience "had to be bought with blood for the greater good of allied arms."

69 Airmen to English Base

OTTAWA, Aug. 19 (CP) — The big supply base for the 12 fighter squadrons Canada intends to have in Europe is opening for business.

The R.C.A.F. today announced transfer of 69 airmen to the new air materiel base at Langar, England, 22 miles from the R.C.A.F. fighter base at North Luffenham where three squadrons now are based.

It will supply the needs of the 12 squadrons that will comprise the air division Canada has committed herself to provide for joint defence in Europe by 1954.

It is the first overseas supply base the R.C.A.F. has established.

WANTED TO SEE WRECK

VIENNA, Aug. 19 (Reuters) — Police arrested Friedrich Mitterwallner, 25, Monday on charges of trying to derail an express train because he "wanted to see a train wreck." Mitterwallner was picked up hiding in a ditch near the track. A brakeman on a freight going the other way spotted a tie laid across the express tracks.

Chalk River Studies Dangers Of Radiation

CHALK RIVER, Ont., Aug. 19 (CP)—Millions of germs in small glasses are being used by scientists to study the dangers of atomic irradiation.

Paralleling work going on in England and elsewhere, the Canadian scientists are trying to find out what happens to the human insides, and what hereditary changes are provoked when people are exposed to irradiation such as that in the atomic bomb blasts at Hiroshima and Nagasaki.

Bacteria are being used because their generations average 20 minutes compared to 30 years for human beings. Thus in about three years they pass through the same number of generations as human beings have gone through in their 2,000,000 years of existence.

Game Near Fatal For Ten Year Old

OTTAWA, Aug. 19 (CP) — Eight boys from four to 13 years of age played at "mock hanging" tonight with 10-year-old Garnet Richens as the victim.

He almost died.

Garnet was strung up by the neck with a six-foot length of silken cloth tied to a clothes-line pole in a back yard. While his friends played, he was left to hang until he lost consciousness and — as a 13-year-old later said — "he turned blue."

He was cut down. Firemen were called and gave the boy oxygen during a dash to hospital.

Hospital officials at first held little hope for his recovery but later tonight said he was out of danger, although in serious condition.

United Church Would Ban Bingo, Raffles

TORONTO, Aug. 19 (CP) — A department of the United Church of Canada today recommended amendments to the Canadian Criminal Code which would outlaw bingo games and "other forms of gambling."

The recommendation of the church's department of Evangelism and Social Service is contained in a report to be presented to the general council meeting in Hamilton next month.

There was an alarming increase in the form of sweepstakes and raffles in some fraternal orders, service clubs, community clubs and veterans' organizations.

East, West Germans Unite For 6-Day Catholic Congress

BERLIN, Aug. 19 (Reuters) — The motto "God Lives" set the theme tonight for the opening of the six-day Catholic Congress which brings together thousands of Germans from both sides of the Iron Curtain.

The massive religious festival, taking place in all parts of Berlin, includes special holy rites, cultural shows and films and an exhibition of church treasures in a United States sector museum.

East Germany's Communist authorities did not interfere with the throngs which poured into West Berlin, but created a hostile atmosphere in East Berlin recently by imposing restrictions on the Roman Catholic Church.

One was withdrawal of a promise to let the Congress use public meeting places in East Berlin. This problem was partly solved by offers by Protestant churches of the use of their halls in both sections of the city. Another promise withdrawn was one to run 60 special trains at reduced fares for East Germans attending the Congress.

The East German Government banned priests trained in West Germany from entering East Germany and refused to let Msgr. Wilhelm Weskamm, Bishop of Berlin, visit East German parts of his diocese.

Five New Polio Cases In Calgary District

Calgary Area Worst Hit in Canada Reports 113 Cases With 13 Deaths

EDMONTON, Aug. 19 (CP)—Five new poliomyelitis cases were reported in the Calgary district tonight, bringing to 778 the number of cases in Western Canada this year. Forty-six have died from the disease. A week ago 32 deaths and 611 cases had been reported.

Alberta was the hardest hit in the last 24 hours with four deaths compared with one each in Saskatchewan and Manitoba. Sixteen have died in Alberta, compared with 13 deaths in Saskatchewan, 10 in British Columbia and seven in Manitoba.

Saskatchewan has the most cases with 263. Alberta has 220, Manitoba 198 and British Columbia 102. A week ago the totals were, 209 in Saskatchewan, 165 in Alberta, 151 in Manitoba and 83 in B. C., 27 of which have been in the Kimberley area.

The Calgary area is the chief epidemic area in Alberta. There, 113 cases and eight deaths have been reported.

Saskatoon will not open its schools until Sept. 8 because of the epidemic but the province's capital, Regina, does not plan to postpone school openings.

With the report today of Medicine Hat's fifth polio case, the city's medical health officer issued an edict closing swimming and wading pools, supervised playgrounds and Sunday schools. Theatres were ordered not to admit children 18 and under. Similar steps had been taken previously at two other Alberta centres, Calgary and Lethbridge.

Edmonton's health board has decided the situation has not reached the stage where it is necessary to impose restrictions on public gatherings.

Alberta's health department has decided to assist in bearing the cost of polio cases. Retroactive to April 1, all hospitals in the province are entitled to $8.30 a day for each polio patient. Grants are not paid on mild cases where no paralysis develops.

EDMONTON, Aug. 19 (CP)—The Alberta Health Department today reported two more polio deaths at Vermilion, boosting the province's 1952 toll to 15. Vermilion, about 110 miles East of Edmonton, now has had four polio deaths this year.

Yesterday the department reported the polio death of a 19-year-old girl from Lacombe, 75 miles South of Edmonton.

One new case each at Bonnyville in the North and at Lethbridge in the South today increased Alberta's case total to 212. The Lethbridge case, a nine-year-old boy, was the Southern city's 18th of the year.

Of Alberta's 10 other polio deaths, seven have occurred in Calgary and district, two in Lethbridge and one in Edmonton.

Swinging Crane Crushes Workman

PRINCE RUPERT, Aug. 19 (AP) — Simon Rosa, 40, of Vancouver, died in hospital at Kemano this morning from injuries suffered six hours earlier when crushed by a swinging crane.

Details of the accident were not known here.

Rosa's widow and two children live at 1215 Hornby Street, Vancouver.

An inquest will be held at Kemano.

A Simon Rosa, who later went to the Coast, lived for some years in Nelson.

Court Awards Mental Patient $4200 a Year

VANCOUVER, B C.—A mental hospital patient has been awarded $4200 a year by Mr. Justice J. D. Clyne from the $180,000 estate of her husband, James Brousseau.

Mrs. Margaret Brousseau, 53, has been a patient in Essondale mental hospital since 1946 and is in the advanced stage of schizophrenia, psychiatrists told the court. A petition seeking an allowance for her was filed in December, 1949.

Mr. Justice Clyne termed the delay in making application for a Supreme Court hearing as "scandalous," and said:

"I think the executor has overlooked its responsibility to duly administer the estate . . . She should have received these benefits long ago."

Joseph Novak, counsel for the mentally ill widow, had asked the court for $50,000 for her keep and said her sister in Timmins, Ont., was willing to look after her.

Dr. E. A. Campbell told the court that such patients, even though mentally incompetent, appreciate quiet and a degree of privacy. She is in a ward designed for 60 patients, but which now houses 122.

20-HOUR SWIM FOR YOUTHS WHEN BOATS COLLIDE

ATHERLEY, Ont., Aug. 19 (CP) —Four Toronto youths were rescued today after surviving 20 hours in the chilling waters of Lake Simcoe, 40 miles North of Toronto.

The four friends were spilled into the lake last night when their speedboats collided head-on at 35 miles an hour. All four were exhausted and suffering from exposure when brought ashore. Only one of the four, Jack Graham, 21, was detained in hospital. His brother, Bill, 19, Mike Cox, 22, and Don Duggan 17, were released following treatment.

The boys said the two boats were "horsing around" when they lost sight of each other and their crafts crashed together in the mist on the lake.

Texas Oil Magnate To Vancouver For Operation

VANCOUVER, Aug. 19 (CP) — Hugh R. Cullen, 71-year-old multi-millionaire oilman from Texas, is in hospital here today and will undergo surgery.

He was taken ill while on vacation at Harrison Hot Springs and brought to hospital here.

Cullen, whose home is in Houston, Texas, recently gave away oil properties valued at $160,000,000 to set up a foundation to aid Houston educational, medical and charitable institutions. At the time he said the properties had a potential of 40,000,000 barrels of oil.

He is suffering from a kidney disorder and Dr. B. Weems Turner, internationally-known urologist and friend of the Cullen family, came here to conduct the operation.

Lumbermen Want Conciliation Board

VANCOUVER, Aug. 19 (CP) — Northern and Southern Interior British Columbia lumberworkers have requested conciliation boards in their wage disputes with operators.

Stewart Alsbhry, B.C. president of the International Woodworkers of America (C.I.O.-C.C.L.), said today the union requested a conciliation board for Northern Interior workers after negotiations broke down. Earlier, a board was requested for Southern Interior woodworkers.

The 3000 I.W.A. members are asking a 35-cent-hourly "package" pay boost and "fringe" benefits, Alsbury said.

The contract expires Sept. 1.

Study B.C. Liquor Problem

VANCOUVER, Aug. 19 (CP) — The Vancouver Province says today in a dispatch from Victoria that a "widely representative" committee will be appointed soon to investigate the liquor problem in British Columbia.

The newspaper said that Attorney-General Bonner is expected to make the announcement within a few days.

The report says that the committee will be made up of laymen, churchmen, medical men and experts in various fields who know the problems of alcohol and the dangers involved.

It will be the job of the comittee to study all phases of liquor disfribution and sale, here and in other parts of the world, so that B.C. can develop an enlightened law based on the best systems now in operation in other parts of the world.

"The committee," says the Province report, "will specifically examine whether liquor should be sold in cocktail bars only, in hotel cocktail bars, in restaurants with meals, whether cocktail bars or beer parlors should be permitted to serve food and a host of other related questions."

New Plant One of America's Largest

ARVIDA, Que., Aug. 19 (CP) — The first of five 54,000-horsepower generating units at the Aluminum Company of Canada's Peribonca No. 1 power plant, 60 miles from this Saguenay region centre, was officially turned on last night.

The project, one of the largest undertaken in North America since the Second World War, is located at Chute du Diable on the Peribonca River, the largest of many emptying into Lake St. John.

Official dedication ceremonies of the $30,000,000-plant will take place when all five generating units are in operation. They will be opened at three-week intervals.

A twin plant, known as Peribonca No. 2, now is under construction at Chute de la Savane, 14 miles down the river and is expected to be completed early next year.

The power fro mthe plants will go to a new 50,000-ton smelter at nearby Ile Maligne. About 500,000 tons of aluminum ingots are expected to be produced in the region next year.

Quebec Escapee Arrested at Coast

THREE RIVERS, Que., Aug. 19 (CP)—Ferdinand Lavalee 29, one of three men who broke out of county jail here May 30 last, has been arrested in Vancouver, police announced today.

Quebec provincial police said the arrest was made in Vancouver yesterday and that officers now are on their way to the West coast city to bring the fugitive back.

Police said Lavalee will be charged with jail-break and with assault of two guards in the escape.

WOULDN'T CALL STALIN "WISE ONE"

HAMBURG, Germany, Aug. 19 (Reuters) — Rudi Maerker, an East German radio news editor who fell from favor with Communist authorities because he wouldn't call Stalin "The Wise One" in his scripts, has fled to the West, it was reported today.

Lamport Accepts Whitton Challenge To Plowing Match

OTTAWA, Aug. 19 (CP) — Mayor Allan Lamport of Toronto today accepted a challenge from Ottawa's Mayor Charlotte Whitton to a plowing match.

The challenge was issued by Mayor Whitton at a luncheon.

She has been doing a little plowing on the side to be ready for the Mayors' Match at the International Plowing Meet in Carp, Ont., in October.

During the luncheon she twitted Mayor Lamport on the fact he hasn't entered the match.

The Toronto Mayor promptly replied he would match Mayor Whitton furrow for furrow at Carp.

And in This Corner . . .

PASADENA, Calif., Aug. 19 (AP)—A contractor doing road repairs on a main thoroughfare combined his work with politics.

His warning signs to motorists read:

"Neighbor, please be careful the next mile so that you may live to vote for Ike."

Democrats forced police to invoke an ordinance banning political posters on city property. Today the last four words are painted out.

RICHMOND, Va., Aug. 19 (AP) — Want an antidote for getting sleepy while driving?

Take along a back-seat driver.

Medical examiner G. C. Mann says the back-seat driver can play a prominent part in reducing the high fatality rate. By keeping up a stream of chatter, says Mann, the back-seater helps keep the sleepy driver awake.

THE HAGUE, Aug. 19 (Reuters)—The Dutch State Airlines have hired a chicken as the latest addition to its aircrew staff.

The hen has a special job—it perches on the backs of elephants being flown in the air freight service the line operates for zoos. The idea is to calm the elephants' air nerves."

Coast Firm May Draw Up Estimates Of Cost of Necessary Hospital Work

The board of directors of Kootenay Lake General Hospital has decided to write to a Vancouver firm to ascertain its fees for estimating costs in attaining a proper measure of safety for the hospital.

The firm, Sandwell, is consulting engineer for the Vancouver General Hospital.

The action, taken at Tuesday night's board meeting, is the latest step in the board's plans for an improvement in the hospital situation.

In July the board requested a survey of the hospital by qualified representatives of the City Council and the B. C. Hospital Insurance Service to determine the amount of work to be carried out, equipment to be provided and the cost, and pointed out that when the information had been obtained, no itme should be lost in making arrangements for the work.

More than a year and a half ago the board was directed to comply with Fire Marshal's orders for renovations estimated at $109,000 then.

Since then, talks have been held by City Council and board members, and the B. C. Hospital Insurance Service has advised the board to go ahead with compilation of the data.

AUTOMATIC HEAT
No Longer a "Costly Luxury"
as Stoker
FIRE-BED "BREATHES"
Be sure to see Combustioneer
AUTOMATIC COAL STOKER
Quickly installed in your present coal furnace or boiler

Thousands using Combustioneer Stokers report: "We are amazed by the low cost of automatic heat . . . It is less expensive than hand-firing."

Combustioneer is unlike any other stoker you ever saw . . . Its Automatic Respirator *detects* . . . then *measures out* the *precise amount* of air required *for complete combustion at all times*. Then Combustioneer's "impulse" feed *"pokes-up"* the fire *constantly* assuring that air surrounds each particle of coal. Thus the fire-bed actually "BREATHES" . . . Combustion is always complete . . . *EXTRA heat energy is extracted from every pound of coal.*

For the most economical, comforting automatic heat available be sure to see Combustioneer. You'll be glad you did!

Canada Proclaimed Rid of F-M Disease

OTTAWA, Aug. 19 (CP)—The Canadian Government today officially declared Canada free of foot-and-mouth disease.

The Agriculture Department released an announcement in the name of Agriculture Minister Gardiner, now visiting in Western Canada, removing all restrictions imposed six months ago to prevent the infection from spreading from South Saskatchewan.

A copy of the declaration, issued at 9 a.m. EDT, will be sent by the government to the United States government requesting "early consideration" of ending the U.S. embargo on import of Canadian meats and livestock, officials said. However, they were pessimistic about the possibility of early elimination of the embargo.

"But we'll keep trying," one official said.

WILL KEEP WATCH

Mr. Gardiner's official declaration ends the war against Canada's first foot-and-mouth outbreak in history. But federal veterinarians will keep a careful watch to make doubly sure there will be no further outbreaks.

Mr. Gardiner pointed out there has been no sign of the disease since the last infected herd was slaughtered May 4 last.

"Today's official action removes all quarantines and restrictive measures, including individual quarantine applicable to the infected area and buffer zone," the statement said.

RESTRICTIONS REMOVED

Provincial restrictions imposed as a result of the outbreak already have been removed. Today's action restores complete freedom of movement of livestock and meats across the country.

"All restrictions on the movement of livestock throughout Canada and all precautionary measures against the spread of the disease in Southern Saskatchewan have been removed.

". . . Test animals — calves and hogs — have been on all infected and contact premises for 60 days or more and none has shown evidence of the disease."

Removal of all restrictions, of course, does not affect the current floor prices for livestock which will continue.

The statement estimated that since the disease was officially diagnosed last Feb. 25, 1343 cattle, 294 swine and 97 sheep have been slaughtered. Forty-two premises were involved in the outbreak, 29 of which were infected farms and 13 contact premises.

Though the quarantine area covered 21 rural Saskatchewan municipalities, active infection occurred in only five of them.

The statement gave no estimate of the economic damage caused by the outbreak, but experts estimate that it may run as high as between $50,000,000 and $100,000,000.

Flood Death Toll May Reach Ninety

LYNMOUTH, England, Aug. 19 (AP) — Police warned today that the toll from Saturday's devastating flood on England's southwest coast may go as high as 90 dead.

The latest official casualty figures stood at 13 known dead, with 28 missing and presumed dead. Seven of the bodies so far recovered have been identified.

But unofficially the police said they still had no word on at least 50 more holidayers believed to have been in the resort area Friday night, when sudden downpours sent the quiet little Lyn River raging over this Deven honeymoon resort.

The villages inhabitants were allowed back for the first time yesterday but new panic hit the area last night when a report spread that a nearby reservoir had broken its banks. The report proved false.

Funeral Here for Mrs. E. Hawkins

Funeral services were held from the Thompson Funeral Home Tuesday afternoon for Mrs. Elizabeth Hawkins, 68, a resident of Tye who died Friday. Rev. Canon W. J. Silverwood officiated.

One hymn, "Abide With Me" was sung with Mrs. W. A. Manson organist.

Pallbearers were William Ridge, H. F. Chapman, John Chapman, G. Milne, Walter Elmes and B. Hunter.

Interment was in Nelson Memorial Park.

Curling Rink Wall "Bulging"

Need of repair to the curling rink wall in the Civic Centre was called to attention of City Council Monday night. The wall is badly cracked and is bulging, Ald. George Eckmier reported.

C. Q. Lake, public works superintendent, will draw up specifications so work can get started as soon as possible, it was decided.

Mayor Joseph Kary said he felt nothing must delay starting of construction of the Vernon Street retaining wall. Mr. Lake said plans for this work were well in hand. Everything required was ordered and only delay was in obtaining of drainage piping, which would be needed as soon as excavation began.

Three Drown in Boat Collision

BARRIE, ONT., Aug 19 (CP) — Three boys were believed to have drowned following a speed boat collision on Lake Simcoe last night. The tragedy was reported today when a survivor made his way to shore. The unidentified youth floated to shore with the aid of an inflated air cushion. He told police two boys were in each boat when they crashed. Barrie is 50 miles North of Toronto.

No Boxcar Shortage For Grain Crop

EDMONTON, Aug. 19 (CP) — An adequate supply of railway box cars will be available to move Canada's expected record grain crop when it is harvested this Fall, John Pullen of Montreal, C.N.R. vice-president in charge of traffic, said in an interview here today.

"We have between 26,000 and 27,000 box cars to move the grain crop and are moving more grain daily than we have for a long time," Mr. Pullen said. "That applies to the lakehead and to the Pacific Coast."

British Cricket

LONDON, Aug. 19 (Reuters) — The final cricket test between England and India ended in a draw at the oval here today when rain prevented play on the fifth and final day.

England declared their first innings at 326 for six wickets and India scored 98 in its first innings.

England won the four-match series by winning the first three tests.

Hundreds of fans had waited in vain outside the gates in the hope of seeing the Indians begin their second innings in which they would have needed 228 to avoid defeat by an innings.

Eddie Shore Gets A.H.L. Executive Post

NEW YORK, Aug. 19 (AP) — Edward W. Shore, Sr., president and general manager of the Syracuse club, was named executive vice-president today of the American Hockey League.

Shore will take over the duties formerly handled by Maurice Podoloff, who recently resigned as president of the circuit.

In a business meeting here, Emory D. Jones, president of the St. Louis entry, was named president of the league and John D. Chick of Windsor, Ont., was re-elected vice-president.

Der Bingle Enters Canadian Amateur

VANCOUVER, Aug. 19 (CP) — Bing Crosby, a top golfer as well as a radio and movie crooner, has entered the Canadian amateur golf championship.

He wired his entry today for the big event opening here next week.

Crosby, with wide tournament experience and a championship handicap rating of three, won the Jasper Totem Pole Trophy at the Jasper, Alta., Summer resort four years ago.

Seventy other top American golfers will be here for the Canadian championship.

MONTREAL, Aug. 19 (CP) — Joseph Yvon Dube yesterday was given two months in jail for tossing an egg at Mayor Camillien Houde during the June 24 St. Jean Baptiste Day parade.

30,000 YARDS OF FILL SOLD FOR C.P.R. JOB

Interior Contracting Company of Penticton is purchasing 30,000 yards of fill from the City of Nelson to be used in connection with construction of the new C.P.R. diesel plant.

The fill, to be taken from the corner of Railway and Carbonate Streets, will be sold for 10 cents a yard. Better access will be provided two homes in the vicinity as a result of the excavation. City Council had been asked to improve road service in the area and the excavation will make this possible.

Fire Breaks Out Above Ceiling in Forestry Building

Second fire since construction was begun early this year broke out Tuesday night in the new B.C. Forest Service building. Extent of damage was not immediately estimated.

Electric wiring ignited ceiling joists, Nelson Fire Department reported, and there was considerable smoke. Aerial ladder truck was brought into play as firemen and volunteers worked to get at the fire source between the false ceiling of the second storey and the roof.

During early stages of construction the Lake Street building was also scene of a small fire.

On Monday the fire department was called to Fell Street in Fairview where a car was reported to have caught fire. The fire was caused by incorrect wiring. There was no damage done to the vehicle.

Manitoba Sunflower Crops Ripening

WINNIPEG, Aug. 19 (CP) — Sunflowers are ripening on more than 7000 acres of Southern Manitoba to feed a $1,000,000 plant at Altona, 55 miles south of here, which makes edible vegetable oils.

Rust and other diseases which damaged corps in previous years have done only minor damage and good yield is in prospect although the acreage is far below the record 60,000 in 1949 and last year's 21,000. The Altona plan is working at capacity, handling imported soybeans and a small quantity of safflower. It also is expected to handle some Argentine grape seed grown in Manitoba.

(The Canadian Press erroneously reported Aug. 14 that sunflowers were rotting in the fields this year and that the plant was working far below capacity.)

U.S. Net Veterans Best Canadians

BROOKLINE, Mass., Aug. 19 (AP) —The United States veterans' tennis team swept the four doubles engagements Saturday while defending the Gordon Cup from Canadian challengers, seven matches to one.

The American veterans have held the international trophy since it was put into competition four years ago. The only Canadian victor was Edward Kemble of Vancouver, who defeated Mel Branga of Seattle 3-6, 6-4, 6-1 in one of Friday's four singles matches.

Still vacationing in Switzerland is 17-year-old King Hussein of Jordan, the oil-rich kingdom of the Middle East. He was proclaimed king when his mentally unbalanced father was removed from office by the Jordan parliament. A regency rules in his stead until his 18th birthday.

Council To Press Plans For City Hall Addition

Decision to proceed with an addition to City Hall if permission to use $12,000 in a city hall trust fund is given by Victoria, has been made by City Council.

The deputy attorney-general is to be advised that the city is to proceed with alterations which would encompass jail quarters for women and juveniles and also asked what assistance the provincial government will give.

These recommendations by committee of the whole council were approved Monday night.

Pending receipt of permission to use the trust funds for the work, Council will decide whether the building should be extended or remodelled.

Plans for a program to relieve overcrowding and poor condition of the building are under study. They were drawn up by Ald. George Eckmier and C. Q. Lake, public works superintendent.

Midway Resident Dies Here at 82

Mrs. Laura Mary Freeman, 82, a resident of Midway, died at Mount St. Francis Infirmary Monday evening.

She was born in Watlington, Oxford, England and came to Canada in 906 residing first on the Prairies. In 1945 she came to B.C. and lived in Nelson before moving to Midway.

Surviving her are a son, Frank, customs officer at Midway, and three daughters, Mrs. Miriam Cooper, Mrs. Katherine Cooper, both of Edmonton, and Mrs. Dorothy Watson of Calgary. Her husband predeceased her in Edmonton.

The body was forwarded by the Thompson Funeral Home to Edmonton where funeral services will be held.

Battery Charger Recovered

Tuesday's report in the Daily News that a City garage battery charger had disappeared early in August led to unearthing of the $150 machine. Loss of the equipment was reported to City Council Monday night.

City Police were notified by E. Forbes, 715 Fourth Street, that he had picked up a battery charger on Granite Road a short distance from the garage on Aug. 2. Suspecting it had dropped from a truck, he held it, fully expecting that it would be advertised for. Some damage to the machine made it appear that it had fallen from some vehicle.

North Europe Plans Air-Sea Manoeuvres

OSLO, Aug. 19 (AP) — Admiral Sir Patrick Brind, commander of Allied forces in Northern Europe, outlined plans today for an eight-country air-sea exercise designed to sharpen allied defences in the Eastern Atlantic.

The war games, named "operation Main Brace", will be held in Danish and Norwegian waters from Sept. 13 to 25.

Polio Prolongs School Closure

SASKATOON, Aug. 19 (CP) — Saskatoon schools will not open until Sept. 28 because of the poliomyelitis epidemic.

Saskatoon City Council decided last night to approve the recommendation of Dr. M. Danton, the city's medical health officer.

Public schools were to have opened Sept. 2 and collegiates Aug. 28.

To date this year 68 polio cases have been reported in Saskatoon and it is believed that many more have not been disclosed.

Fast-Growth Wheat Developed in West

EDMONTON (CP)—An Alberta farmer has developed a strain of wheat which may be the answer to the short growing season in Northern Alberta.

A. W. Manchester of the Jarvie district, 80 miles Northwest of Edmonton, says his wheat called 'Early Harvest' matures two to three weeks ahead of other crops seeded at the same time under the same conditions.

His wheat, developed by years of patient cross-breeding, heads out seven weks after planting and yields 40 to 45 bushels an acre. Slower-maturing varieties used by Manchester yield 60 to 70 bushels.

50 Airliner Crash Victims Buried

RIO DE JANEIRO, Brazil, Aug. 19 (CP)—The remains of the 50 passengers and crew, killed when the Pan American Airways liner Good Hope crashed in the Brazilian jungle April 29, were buried in Sao Francisco Xavier cemetery today.

The remains were flown from a landing strip built at a base camp 35 miles from the scene of the crash.

YOUTH CONVICTED ON BURGLARY CHARGE

VANCOUVER, Aug. 19 (CP) — Wong Hang Yong, 20-year-old dishwasher, today was sentenced to five years in prison when convicted of a $5000 burglary.

He was convicted of the July 24 burglary of the Chong Mah Co. The firm reported $2200 in cash and $3500 in bonds taken from the office safe.

FALLS 13 STORIES

MIAMI, Fla., Aug. 19 (AP) — A 41-year-old man plunged from the 13th floor of the Pacific building today, crashed through the roof and ceiling of an adjoining two-storey building and landed in a room just above a bar. Charles R. Svoboda, of Miami, not only was still living six hours later but he regained consciousness as he was taken to an x-ray room. He told a nurse that he felt "lousy."

Attendants said he had a slim chance for recovery.

The Weather

Cloudiness kept temperatures under the 70 mark in the Central and Northern Interior Tuesday and showers were too scattered to be of much benefit in the struggle against forest fires.

A weak disturbance entering the Northern Coast in the evening was accompanied by some rain and slightly increased shower activity should result in the Northern Interior today.

No significant change from today's weather is expected Wednesday for Southern parts of the province.

Lethbridge Man Gets Two Years

COOKSVILLE, Ont., Aug. 19 (CP) — Charles Gordon Ferguson, 42, of Lethbridge, Alta., today was sentenced to two years less one day definite and six months indefinite on a charge of car theft.

Ferguson was convicted of stealing an auto in Toronto, 15 miles East of here, last May and attaching false Alberta licence plates to it.

Lodge Picnics At Kokanee

Lakeview Lodge No. 490 L.S.B. of L.F. and E. held a picnic at Kokanee Beach Sunday. Thirty adults and 14 children attended.

Lunch was served by the ladies followed by sports and supper. W. Johnson, president of the men's lodge, thanked the ladies. Mrs. G. Turner, president of the ladies' lodge responded.

Smoke Protested

Objection to "excessive, heavy smoke from engines while standing in the yards and while entering or leaving the city," is being made by City Council.

A letter is to be sent to Canadian Pacific Railway superintendent G. L. Phillips here, calling his attention to the situation.

LICENCE SUSPENDED

W. W. Bennett of 711 Nelson Avenue was fined $40 and had his driver's licence suspended for 21 days when he pleaded guilty to a charge of speeding on Nelson Avenue Tuesday. He appeared before Magistrate William Brown in City Court.

BIRMINGHAM, England, Aug. 19 (Reuters) — About 80 per cent of Britain's draftees are educationally backward and 18 per cent completely illiterate, a senior army staff educational office said here today. Lt.-Col. Arthur Jones, in charge of education in Wales and five midland counties, said almost one-fourth of Britain's young army conscripts were below an average reading age of 12.

Drive-In Packed Opening Night

Successful opening night of the new Starlight Drive-In, West Kootenay's first drive-in theatre, saw the field at 11-Mile jammed to its 300-car capacity.

By 7:30, half an hour before the show began, the field was half filled. An hour of music was played over the speakers prior to the show opening, car hops having switched on all the speakers.

Theatre officials' welcoming speech also was heard over the speakers, car owners responding with a blare of horns. Further improvements were to be carried out, it was explained, and dust nuisance further alleviated.

No difficulty was experienced by motorists on driving to the theatre, traffic being regulated to some extent by the ferry schedule. Departure from the field saw some confusion, but drivers said the mile-long lineup of cars at the ferry was cleared surprisingly fast.

Canada Welcomes High Commissioner

OTTAWA, Aug. 19 (CP) — Lt-Gen. Sir Archibald Nye, the United Kingdom's new high commissioner to Canada, arrived tonight to a formal greeting at Ottawa's Union Station.

The 57-year-old soldier-diplomat, whose army career took him from private to wartime vice-chief of the Imperial General Staff, said he was "very happy" to be in Canada for the first time.

"And from everything I have seen so far my term is going to be just that," he added.

Sir Archibald was U.K. High Commissioner to India before his present appointment. He succeeds Sir Alexander Clutterbuck, who has been named to the Indian post.

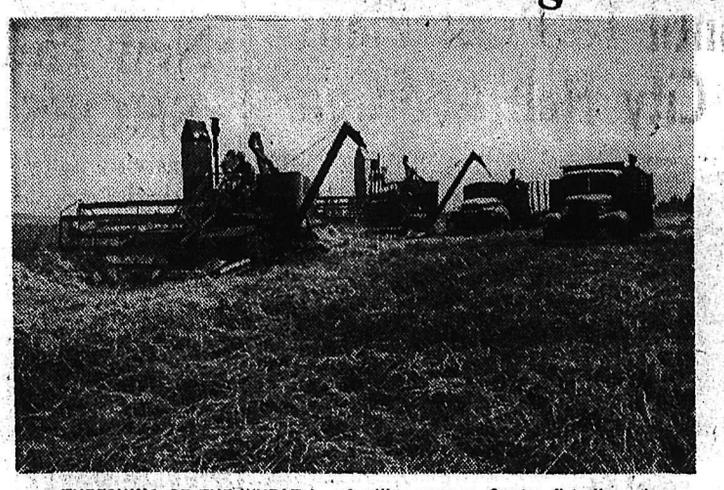
Harvesting in Full Swing at Creston, Kootenay's "Bread Basket"



THRESHING OF THE WHEAT is a familiar scene on Creston flats these days. Engaged in harvesting here are Ivan Staples, on combine, owner of the farm, A. Palmer, on second combine, and Ed Clark and Lyle Staples, truck drivers. The wheat has been running 50 to 60 bushels to the acre.

A PEA COMBINE, marvellous mechanical aid in harvesting, is shown in action here finishing off a row of peas on William Piper's farm on the Creston flats. On the combine is Bill Conkin, and on the tractor, Alex Wishlow, both of Creston.

THE NEW ROTARY pea combine here has just finished unloading peas into a bin. Harry Ramzler is ready to sack the peas and stack them, in preparation for shipment. Mr. Piper, owner of the farm on which the picture was taken, is seated on the combine. He had 350 acres planted in seed peas.—H. M. Buckna photos.

Three Firms Bid On Trail Hospital

TRAIL —Members of the Trail-Tadanac Hospital Board opened new tenders Tuesday night for construction of the proposed new hospital. Bids from three firms, all within the funds available, were considered. These were from Dawson and Hall, $1,834,510; Baynes Manning $1,831,657; Bennet and White $1,826,000.

The new tenders were called when the original tenders for the 150 bed structure were beyond the estimated amount. Architects cut the cost by eliminating an elevator, a solarium and other items from plans.

Trail and Tadanac municipalities approved extra funds through new money by-laws. Final approval was given the additional hospital grant debenture by-law by Trail Council Monday night.

The Hospital Board "could see no reason" for not recommending the lowest bidder although the contract cannot be let without provincial government approval.

Hospital Privileges For Edgewood Doctor

EDGEWOOD — Dr. Stevens T. Norvell has received notice from the board of directors of the Arrow Lakes Hospital at Nakusp that he has hospital privileges there.

Dr. Norvell became the subject of an uproar from Edgewood residents and other West Kootenaians and groups when he was refused permission to write Canadian Medical Council examinations permitting him to practice in Canada and in Edgewood, without a doctor for years. The decision of the B. C. College of Physicians and Surgeons was reversed, however, and Dr. Norvell passed the exams earlier this year.

Father and Son Shot in Holdup

DETROIT, Aug. 19 (CP)— Two gunmen killed a bar owner and his father early today in an attempted holdup in suburban Hazel Park.

Vidos Vinokurow, 60, and his son Joseph, 30, were shot to death by two bandits who walked into Joseph's bar with drawn guns.

Police pieced together this story from accounts of customers who witnessed the shooting.

The Vinokurows were playing shuffleboard when the men walked in the door brandishing revolvers.

One cried "This is a stickup." The elder Vinokurow ran toward the holdup man. He was shot three times. His son then darted towards the men and a second barrage felled him.

The men escaped in an automobile.

Funeral Rites Held For Kimberley Boy

KIMBERLEY, B.C. — Rev. Eric Bibby officiated at funeral services at McPherson Funeral Home here for Alan Charles McCracken, eight-year-old son of Mr. and Mrs. C. F. McCracken of Chapman Camp who died of polio Friday, just one week after the death of his older brother, Donald, who was the area's first polio fatality. He was born in Kimberley and was a pupil of Chapman Camp school.

Surviving are his parents and a sister, Maxine, at Chapman Camp, and his grandmother, Mrs. G. M. Raine at Vancouver.

W. E. C. Shepherd Dies at Cranbrook

CRANBROOK — A resident who came to Cranbrook in 1907, Walker Edward Cecil Shepherd, died suddenly at his home at the age of 71 years.

For many years he was partner in the operation of the Quality Grocery store which he helped start, and after its sale he and his wife moved to Vancouver about 1937. They engaged in neighborhood storekeeping there for several years, but on his retirement, they returned to Cranbrook about 1943 to resume residence.

He was born in Appleby, Ont., and is survived by his wife here and three sisters, Mrs. G. B. Willis at Nelson, and Mrs. Marshall and Mrs. Pickett in Ontario.

United Church funeral services by Rev. S. H. Irving took place place Monday afternoon, with Captain Austin Millar of the Salvation Army assisting.

Reds Building Jet Air Base

BERLIN, Aug. 19 (AP) — The Russians were reported today to be building a jet air base in the East Zone within six minutes' striking distance of Berlin.

The report was front-paged in the Neue Zeitung, German-language daily newspaper sponsored here by the United States high commission.

The newspaper said that the field was under construction along the highway between Guben on the Elbe River and Cottbus, 13 miles to the southwest.

The Soviets maintain other strategically-located air bases throughout the entire East zone.

Both Guben and Cottbus are approximately 60 miles southeast of Berlin.

Marine Swims 8 Miles to Shore

CAIRO, Aug. 19 (Reuters) — A British Marine sergeant who swam eight miles to shore Sunday after his rubber dinghy overturned in the Mediterranean was turned over to British authorities today.

Egyptian planes and naval craft were looking for his companion, another marine.

Sgt. Edwin Moorhouse and his companion boarded the dinghy from the submarine Teredo during a three-day exercise. They were supposed to rendezvous with the submarine at midnight.

Bad weather overturned the craft and Moorhouse swam around for a half hour in the dark without finding his companion. He then headed for a lighthouse to the South. He said it took him five hours to reach shore.

He was picked up by the Egyptian coast guard.

Ambassador Returns To Russian Capital

MOSCOW, Aug. 19 (AP) — British Ambassador Sir Alvary Gascoigne returned to Moscow yesterday from a 10-day journey through Southern Russia, during which he visited the new canal connecting the Don and Volga Rivers.

FAUQUIER COUPLE TAKE PUPPETS TO EXHIBITION

EDGEWOOD — A Fauquier couple are putting on a puppet show at the Pacific National Exhibition opening today in Vancouver.

Mr. and Mrs. David Orcutt have left with their puppets, their show organized and prepared by Mr. Orcutt for weeks. Mrs. Charlotte Fisher of Edgewood will assist them.

Practice and complete assembly was made in the building formerly Banting's store.

Prairies Expect Good Quality Crop

WINNIPEG, Aug. 19 (CP) — Present indications are that the prairie provinces will harvest "a good-quality crop this season," if weather conditions continue favorable, A. F. Dollery, chief grain inspector for Canada, said today.

Carlots of Manitoba wheat inspected so far went mostly No. 2 and No. 3 Northern, he said. Carlots of barley and oats from Southern Manitoba showed green kernels, probably caused by second growth or too early combining.

The chief degrading factor in wheat also had been green kernels, Mr. Dollery said. There was no sign of stem rust or samples of grain examined to date.

He said he "fully expected lower grades from an area East of Regina where frost damage occurred." Very few carlots of new crop wheat had been received from Saskatchewan.

However, numerous smaller samples examined indicated there would be a considerable quantity of No. 1 and No. 2 Northern harvested in Saskatchewan, Mr. Dollery said.

No. 1 hard wheat had to be free of green kernels, he said. To go No. 1 Northern, it had to be "practically free."

Prudent Logging Reserves Timber

VICTORIA, B.C. (CP) — Forest fires such as those in central British Columbia this month are only one phase of the problems facing the B. C. Forest Service. It is constantly experimenting on ways of conserving valuable timber stands.

On Vancouver Island the service recently demonstrated an experiment on salvaging vast areas that had been depleted by the older methods of logging, when trees were cut down with little regard for regrowth.

In the experiment, the Forest Service cut 41 per cent of timber on a 300-acre tract without damaging the remainder.

Procter Farewells Mrs. A. Batchelor

PROCTER, B.C. — A farewell party was sponsored by the L.A. of the United Church, at the home of Mr. and Mrs. C. F. Grant on Monday evening, in honor of Mrs. A. Batchelor, who is moving to Nelson. The family will reside at 712 Fifth Street.

The evening was spent in playing whist, eight tables being in competition. First prizes were won by Mrs. Norman Macleod and H. Clift and consolation prizes by Mrs. Neil Macleod and A. Batchelor.

Mrs. Batchelor was presented with a beautiful chenille bedspread.

Private Funeral Held For Kimberley Girl

KIMBERLEY — Private funeral services were conducted here by Rev. Eric Bibby for Doreen Rose Gloria Slavin, 13½-year-old daughter of Mrs. Gladys Graham of Chapman Camp, Black Bear subdivision.

orn at Golden Doreen resided at Castledale before coming to Kimberley in June, 1944. She attended school at Chapman Camp and McKim Junior-Senior high school.

Surviving are her mother and a brother, Benny Slavin, 17, her grandparents, E. L. Kerney of Vancouver and Mr. and Mrs. J. Slavin of Greenwick, Scotland, also two uncles in Canada and an aunt in Scotland.

WINNER OF two scholarships in the last few weeks, Miss Nadia Komar of Creston has carried off a Royal Institution scholarship for outstanding academic ability in senior matriculation, and a regional U.B.C. Alumni Association scholarship of $250. She combines school work with music studies, and has been a competitor in many Kootenay Musical Festivals.—H. M. Buckna photo.

33,000 Steel Men Still on Strike

NEW YORK, Aug. 19 (AP) —At least 33,000 workers in nine states remained on strike today, and in New York a C.I.O. union served a strike notice involving another 32,000 employees at eight Bethleher Steel Co. shipyards.

At Canton, O., 12,000 United Steelworkers (C.I.O.) studied a proposed new contract which union leaders predict will end a 30-day strike at the Timken Roller Bearing Co.

At Cleveland, some 2000 Republic Steel Corp. workers were off the job at the firms 98-inch strip mill. Both the management and United Steel Workers officials termed the walkout a wildcat strike.

About 18,000 B. F. Goodrich Co. workers who struck nine plants at midnight Sunday are still off the job. The walkout occurred after 10 weeks of wage and contract talks.

$15,000 Stolen From Taber Post Office

TABER, Alta., Aug. 19 (CP) — Police Chief J. E. Pittaway disclosed today that $15,000, part of which was in cash, was taken from the Taber post office during the weekend. Taber is in Southwestern Alberta, 35 miles East of Lethbridge.

Reds, Fascists Clash in Iran

TEHRAN, Iran, Aug. 19 (Reuters) —Communists and anti-Communists clashed in street tussles in downtown Tehran today.

Bands of members of the pro-Communist Tudeh party struggled with bands from the Fascist Sumka party. Police dispersed the crowds. All stores and markets were closed in the neighborhood.

Trouble between Suma and Tudeh elements has been brewing for several days. Rival groups armed with clubs get into scuffles whenever they run across each other.

Meanwhile, Communist youths stoned a United States Army sergeant and his Iranian soldier-driver while their jeep was stopped for a traffic light.

Police charged the 100 or so young Reds with batons and dispersed them.

The crowd, an American spokesman said, yelled "Emricale Gom — Show" — literally, Americans get lost.

Seattle Mountaineers Climb in District

GRAY CREEK—Members of the Seattle Mountaineering Club, Mr. and Mrs. Fred Brown, recently climbed to a viewpoint near here which gave them an extensive picture of the middle portion of Kootenay Lake and the beginning of the West Arm.

They expressed interest in the Purcell and Selkirk Mountains, and left for the Windermere Valley where they hoped to try out the Earl Grey Pass from the Toby Creek side.

Kimberley Polio Cases Up to 27

KIMBERLEY—Diagnosis of three more cases of poliomyelitis Tuesday hiked the total in Kimberley's polio epidemic to 27.

The latest patients in McDougall hospital are a baby under a year in age and two children, all from the Lower Blarchmont area. Cases in hospital now total 17.

To date five have been discharged and five have died.

TRAIL — If no more cases of polio are reported, swimming pools here and in Rossland may be reopened next week. There have been only two cases in the district, a Kimberley boy stricken while visiting Rossland who has gone to Vancouver for therapeutic treatment, and a Warfield youth who is in good condition.

Quality Stands Out at Nakusp's Flower Show

NAKUSP — Although entries were not as numerous as in previous years, quality was excellent at the annual flower show of Nakusp Women's Institute.

Gladiolus made the biggest showing and some fine spikes were on display. They were backed up by roses ,sweetpeas and nasturtiums, among other blooms.

Attendance was good, and many people from out of town made a point of seeing the exhibits.

Judges were Mrs. Bob Hopp and Mrs. Donald Smith of Nakusp and Ted Swales from Nelson.

Prizes were awarded as follows:

Three gladiolus, one color, Mrs. W. Moseley, first; Mrs. E. C. Johnson, second.

Six gladiolus, mixed, Mrs. G. Hood, first; Mrs. W. Moseley, second.

Special gladiolus, Mrs. G. Hood, first.

Three roses, one variety, Mrs. G. Hood first.

Collection of roses, Mrs. O. J. Harper, first; Mrs. H. L. Miller, second.

Bowl of petunias, Mrs. O. J. Harper, first.

Bowl of nasturtiums, Mrs. J. Parent, first; Mrs. George Hood, second.

Twelve sweetpeas, mixed colors, Mrs. H. L. Miller, first; Mrs. W. Moseley, second.

Twelve sweetpeas, one color, Mrs. H. L. Miller, first; Mrs. W. Moseley, second.

Six perennial phlox, Mrs. E. C. Johnson, second.

Three dahlias, one color, Mrs. H. L. Miller, first; Miss D. Utry, second.

Six dahlias, collection, Mrs. O. J. Harper, first; Mrs. H. L. Miller, second.

Collection of marigolds, Mrs. O. J. Harper, second.

Collection of pansies, Mrs. G. Hood, second.

Collection of zinnias, Mrs. O. J. Harper, first.

Dinner table decoration, Mrs. V. Smith, first; Mrs. A. E. Fowler, second.

Coffee table decoration, Mrs. G. Hood, first; Mrs. V. C. Smith, second.

Mantle decoration, Miss Doris Cowan, first; Mrs. A. E. Fowler, second.

Collection of cacti, Mrs. W. J. Hakeman, second.

Bowl of any other variety, Mrs. A. E. Fowler, first; Mrs. G. Hood, second.

Shadow box arrangement, Mrs. J. Parent, second.

Miniature bouquet, Mrs. J. Parent, second.

Presentation basket, Mrs. A. E. Fowler, first.

Miniature garden, Keith McIntosh, first; Gwen Brown, second.

Collection grasses, Douglas Brown, first; Gwen Brown, second.

Collection weeds, David Smith.

Arrangements were made by Mrs. A. E. Fowler, Mrs. E. C. Johnson, Mrs. M. Davies, Mrs. M. Cusick and Mrs. J. Parent, and convening the tea were Mrs. O. J. Harper, Mrs. Paul R. Henke, Mrs. Graham Elder, Mrs. W. L. Maxwell and Mrs. S. Hepworth.

Search Continues For Lost Pilots

SASKATOON, Aug. 19 (CP) — R.C.M.P. airmen and district farmers today resumed the search of Redberry Lake Northwest of here for two pilots missing and believed drowned, yesterday after their R.C.A.F. training plane came down on the lake and sank.

One member of the three-man crew of the twin-engine expediter aircraft was rescued from a sandbar, about one-quarter of a mile from shore and more than one-half mile from the spot where the plane sank.

First reports from the scene, some 45 miles Northwest of Saskatoon, indicated all three men managed to get clear of the plane but that only one was able to kick off his cumbersome clothing and swim to safety.

Names of the men were withheld pending notification of next-of-kin.

Rescuers worked on the rough lake until darkness last night without finding a trace of the two missing men.

MINING IN THE KOOTENAYS . . .

Western Mine Sets Record

Western Mines Ltd. set a new company record for tons of ore milled at the Ainsworth property during July. The Western mine supplied 2101 tons of silver-lead-zinc or and an additional 301 tons came from leasing operations.

In spite of lower prices for both lead and zinc and the cost of the accelerated development program, Western shows a net operating profit for July of approximately $3,200,000. By careful attention to all cost factors, the management has been able to reduce direct operating costs from an average of $14.31 per ton to an average of $10.01 per ton during July. Marketing charges including freight and treatment were approximately $1.85 per ton additional.

In the meantime, Western Mines Ltd., is developing additional ore, to increase output, and is achieving lower operating costs.

RESULTS ENCOURAGING

Progressive increases in tonnage have now reached the point where Western is milling almost double the tonnage rate in effect when the property was taken over less than a year ago. Grade of ore averaged 4.5 per cent lead and 2.8 per cent zinc.

Value of July production was $31,814.45, including $3,157.57 for ore received from the leasing operations. In the face of sharply reduced metal prices, an eccelerated development program is being carried on to open new ore zones with the object of justifying increased mill capacity. Results to date are encouraging.

W. J. Bull, mine manager, reports that 25 ft of raising and 25 ft. of drifing on the Lakeshore vein shows very interesting results. In this section of the Lakeshore, the vein averages 8 per cent combined lead and zinc over an average width of 8 feet. This section of the property is now supplying 15 to 20 tons of mill feed daily, trucked a distance of one mile to the Western mill.

CAPACITY BOOSTED

Drifting to the east on the main Florence vein has opened an ore length of 40 feet averaging 15 per cent lead and five percent zinc over a width of four feet.

Western directors are particularly interested in the work now being conducted on the Lakeshore vein, where a considerable amount of work was done 25 years ago. Results obtained in the current program in this section of the property, together with development of ore in other favorable areas, may lead to a decision to enlarge the present 100-ton mill. In the meantime, installation of a new magnet and minor changes in the crushing and grinding circuit will increase capacity to approximately 110 tons per day.

* * *

Sheep Creek Gold Mines Limited reports a net profit of $351,253 in the fiscal year ending May 31 compared with $406,212 in the same period last year. Income taxes, however, were $25,000 more this year.

ZINC PRICE

Sheep Creek operates two mines—Zincton and Paradise—and is developing other properties, including the Mineral King and Wagner Group.

The company reported that the recent drop in the zinc price received by the mine to 8.80 cents a pound, compared with the recent high of 14.92 cents in November, 1951.

COSTS INCREASE

Underground operating costs increased from $2.90 to $4 a ton at the Zincton mine because of increased labor costs, more development, and mining of more isolated ore bodies.

At the Paradise Mine, underground costs went up to $7.32 a ton compared with $6.52 because of labor and material cost increases, and a change in filling methods.

Working capital was up $36,240 to $898,515.

Movie Gossip

Hollywood Producer's Dream Comes True; Plans to Film "The Robe"

By BOB THOMAS

HOLLYWOOD, Aug. 20 (AP)—In 1945, Frank Ross first said he was going to produce "The Robe."

This week he said it is finally coming about.

"I can hardly believe it is coming true," he commented. "In fact, I still won't believe it until it's all done."

Ross has been awaiting production of "The Robe" for 10 years and has had many false alarms.

"I bought the story 10 years ago," he said. An agent friend told him about an unfinished book he was handling by Lloyd C. Douglas about the man who crucified Christ.

"At that time, I didn't even know who Lloyd Douglas was. But the idea was so intriguing that I . . . bought the novel when it was only half finished."

Thus began one of the longest production sagas in Hollywood history. Ross took the project to R.K.O. and worked on it for a few years. Finally, Ross said, he never found out why, he and Howard Hughes ended up by suing each other for $1,000,000.

"But I realized I would be in court five years, even if I won. So we reached an agreement whereby I could take 'The Robe' to another studio. The deal was all set a couple of times, then the studios called it off and acted as though they didn't even know me."

Ross then heard that Darryl Zanuck of 20th Century Fox had bought Hughes' interest in "The Robe". Ross flew to Paris and made a deal with Zanuck.

The picture now is set to begin in the Fall, and will be Fox's most expensive production. Cost is estimated at $3,500,000. Many stars have been mentioned for the leading roles, but none has been cast yet.

New Ferry Service Forms Vital Link Between Europe and Africa

By HENRY BUCKLEY

MADRID (Reuters) — A vital link of military and economic importance in bringing Europe and Africa closer together across the strategic Straits of Gibraltar has been forged with the inauguration of a new ferry service over the key waterway.

In conjunction with the new service, projects are in the works to speed rail traffic through Spain and further cut the time distance between Africa and Spain and the rest of Europe.

At present, the 4200-ton "Victoria" transports only passengers and road vehicles, but plans are under way which will permit freight or passenger cars to run from as far away as Stockholm through to Casablanca in French Morocco.

NEW SISTER-SHIP

The Victoria will shortly be joined by a sister-ship, "Virgin De Africa." Each is capable of accommodating 2000 persons, 100 automobiles and 20 railway cars.

On its maiden trip from Algeciras to Ceuta, Spanish Morocco, a distance of 16 miles, the Victoria cut the previous time of 1¾ hours to one hour. If diverted to the Algeciras-Tangier run, then scheduled time would be two hours.

Spain is working on speeding up rail communications from Hendaye in France to Algeciras on the Straits of Gibraltar, a distance of about 865 miles.

In the event of hostilities in Europe, this line would be a major strategic link between Europe and North Africa. Import-Export bank credits are to be used to electrify 146 miles of the line South of Madrid, from Manzanares in Don Quixote's country of La Mancha to Cordoba.

KEY RAILWAY

The scheduled time for trains over the worst part of the stretch, about 56 miles between Baeza and Valdepenas, is three hours, nine minutes, an average of 18 miles an hour.

On this same key railway, along which African troops would probably be hurried to Europe in case of war, the 48 miles in the North between Alsasua and Miranda de Ebro is scheduled for early electrification and double-tracking. This is the only single-track section between Madrid and the frontier.

Improved services in Northwest Spain have been established by a service of modern rail-motor cars on the narrow-guage railroad from San Sebastian to Gijon and a bus service between the same towns, in addition to a new air service from Bilbao, Spain, to Bordeaux, France.

Printers Ask For Supervised Strike Vote

NANAIMO, B.C., Aug. 19 (CP) — Printers at four Vancouver Island weekly newspaper plants have asked for a government supervised strike vote.

Decision to apply for a vote was made at a meeting here at which the men concerned voted to reject a conciliation board recommendation of a seven-cent hourly increase, and continue to press for a 15-cent hike.

Newspapers involved are the Cowichan Leader at Duncan; West Coast Advocate at Port Alberni, The Comox Argus and the Comox District Free Press, both at Courtenay.

Museum Opened By Royal Army

LONDON, Aug. 19 (CP) — A Royal Army Medical Corps museum opened recently at Corps Headquarters, Crookham, Hants., shows the long history and tradition of the R.A.M.C.

Among relics now in possession of the museum are dental instruments carried by Napoleon, the razor and notes written by Rudolf Hess, the Nazi wartime leader, while in a British hospital. There aer medical relics of the Crimean War and old-fashioned tattooing instruments.

Recently a tattered flag flown by the 26th Field Ambulance in Korea was added as well as some waterproof invasion maps of Southeast England captured from Germans in the Second World War.

One part of the museum is devoted to a panorama of medical transport from the ox-carts of Wellington to the aircraft ambulances of today.

Negotiations for Hard Coal Contract Begin

NEW YORK, Aug. 19 (AP) — Negotiations on a new contract for 75,000 hard coal miners began here today with the industry announcing at the outset that a pay increase was "impossible" at this time.

John L. Lewis, president of the United Mine Workers ,sent word that he was detained in Washington but might arrive later in the day to join in the talks between representatives of the union and management.

Just before the opening session began, Edward G. Fox, president of the Philadelphia and Reading Coal and Iron Co. and chairman of the management group, told reporters:

"The industry is unable to meet any increase at this time. It would be impossible."

He said the industry was facing strong competition from the oil and gas industries ,particularly natural gas.

U.M.W. demands have not been made public, but sources close to the union indicated the miners would ask for a pay boost and an increase in the 30-cents-a-ton payment by the operators into the union welfare fund.

They now earn an average $2.25 an hour, portal-to-portal, with a 7½ hour work day.

Lewis has served notice that his contracts for soft coal miners as well as those in the anthracite pits will expire Sept. 30.

He has called on his 475,000 soft and hard coal miners to quit work for a "memorial period" between Aug. 23 and Sept. 2 for men killed in mine disasters.

Change in Forest Management To Be Considered

VICTORIA, Aug. 19 (CP) — The Provincial Government has under consideration a plan to increase its revenue from forest industries and large mining concerns, it was learned today.

The plan involves changes in basic legislation, and will require approval of the Legislature.

The new proposal will be one of the major pieces of legislation presented to the new House.

Details of the plan have not been worked out, but the general plan calls for changes in B.C.'s controversial forest management plan, designed mainly to boost revenue for provincial coffers.

Also under study is the possibility of institution of a sliding scale of mineral royalties.

Greenland, owned by Denmark, is the largest island in the world with 827,300 square miles.

Smiling Margaret Truman accepts a small porcelain replica of West Berlin's freedom bell from Acting Mayor Dr. Walter Schreiber. The president's daughter spent two days in the war-torn city after making the 120-mile trip through the Soviet zone.—Central Press Canadian.

The tanks are due for a maintenance check and the tank crews will get a chance to relax after serving for a long period in the forward positions.—Central Press Canadian.

T.L.C. Would Improve Housing Situation

WINNIPEG, Aug. 19 (CP) —The Trades and Labor Congress of Canada today decided to continue pressing the Federal government for programs of low-rental housing and slum clearance.

The T.L.C.'s annual convention expressed itself as "greatly disappointed" by inaction on these points and said housing shortages are aggravated by the government's "open immigration policy."

The Congress adopted a declaration on housing among a series approved at its afternoon convention sitting as it concurred in reports from its legislative committee. Approval was given to these other points:

1. That the T.L.C. executive continue "unlimited efforts" to get complete re-imposition of price controls.

2. Amendments to the Income Tax Act to provide lower rates of taxation and higher exemptions in the lower-income brackets.

3. Extension of the scope of the National Labor Code.

4. Inclusion of a bill of rights in the British North America Act.

These were largely a re-endorsation of standing Congress policies, and the housing question was the only one to precipitate debate.

George Redwood, Toronto carpenter, declared the country is spending $2,000,000,000 on "bullets and bombs" for defence but not enough to give the worker a home to live in.

"Why can't $2,000,000000 be spent on housing?" he asked.

Jack Andrews, a Toronto painter, said poor housing conditions are fostering Communism, while J. P. McKay of the Windsor District Trades and Labor Council said that automobile city has "some of the most deplorable housing conditions in Canada."

A Toronto plumber, J. Cain, lashed out at "cheap politicians" in connection with the housing situation and said no condemnation is too strong for those responsible for the "brutal, harsh and unchristian" housing conditions.

Fraser River Nibbles Steadily at Island, but Owner's Taxes Remain

VANCOUVER (CP) — Ernest Sherwood hopes the river which is robbing him of his island will bring it back again, and perhaps add to it some day.

In 10 years the Fraser River has removed one-third of Whiteworth Island and deposited it in the Gulf of Georgia. But Mr. Sherwood still pays taxes on the entire island.

The island at the mouth of the Fraser is in Richmond Municipality and officials said he could get a re-assessment if he re-surveyed the island.

"No," says Mr. Sherwood. "I've spent enough on surveys already." He has other holdings on the farming islands in the municipality.

"Besides," he says, "future action of the river might bring back the more land. I might end up with four-thirds of the original island."

Whether this happens or not depends on the Federal Works Department. "It's their series of wing dams, buttresses, digging and whatnot that has made the river eat away my island," he contends.

SHIFTING CHANNELS

Old charts show the Fraser's mouth has swung back and forth over a radius of more than a mile since the white man came to B.C. Long jetties of rock have made a new channel.

Little more than a generation ago deep-sea ships docked at Ladner, 15 miles from here on the South arm of the river. Today nothing bigger than small gillnetters can go up that far.

K. W. Morton, district engineer for the Works Department, said he can remember wading across the North Arm, where deep-sea ships move today.

"What we must do is create a channel of just adequate size to keep a fast flow of water to the Strait of Georgia," said the engineer. "If the water moves fast enough the silt dumps out there and not even the Fraser can fill up the Strait. Not for a million years or so, anyway."

Superforts Bomb Grenade Factory

SEOUL, Korea, Aug. 19 (AP) — Fourteen Japan-based United States superforts last night bombed a huge Communist grenade factory employing 2000 workers in Northwest Korea. The factory was only three miles south of the Manchurian border.

Far East headquarters in Tokyo said the sprawling works was one of the 78 military targets the United Nations command has given advance notice it will attack.

It was the first time the plant, at Nakwon, halfway between Sinuiju and Namsidong, had been hit. Results of the raid were not announced. The plans dropped 140 tons of bombs.

But the B-29 pilots, skirting the edge of an erratic typhoon sweeping across the southern end of the Korean peninsula, reported they met intense anti-aircraft fire. One plane was attacked by a Red night fighter but the Air Force said all 14 planes returned safely.

Th Air Force said the munitions layout contained 17 primary buildings of steel and reinforced concrete and dozens of bunkers and ammunition stores catacombed in nearby hills. The plant was reported to have produced daily 1000 anti-tank grenades and 3000 to 5000 hand grenades.

The weather began clearing today over the battle front after the typhoon swept out into the Sea of Japan and headed for Hokkaido, Japan's northernmost island.

YOUTH ADMITS SETTING FIRES

GANGES, Salt Spring Island, B.C., Aug. 19 (CP) — A Vancouver physchiatrist has been called in to examine 11-year-old Salt Spring Island boy who allegedly set six bush fires on the island.

The fires were all discovered early and were extinguished by the resident forester and other alert residents. One of the fires, however, burned over two acres and came close to several houses before being brought under control.

The boy it is alleged, admitted lighting the fires because he wanted to see how long a bush fire would burn.

Japanese Gov't Asks Sailors Be Released

TOKYO, Aug. 19 (AP) — A Foreign Office spokesman said today the Japanese government is making every effort to get two British sailors released from a Kobe jail, but is not making much progress.

The spokesman said Japan was waiting to answer Britain's protest against imprisonment of the sailors until it finds out whether they will be released. He said the Japanese reply would "likely take some time."

The sailors, Derek Smith and Peter Stinner, were sentenced to 2½ years in jail by the Kobe district court for robbing a taxicab driver.

Efforts to get them released on bail have failed. The British consul will not let them be paroled in his care, feeling that would be recognition of Japan's jurisdiction over British military personnel. The courts have refused to release them in the custody of a Japanese citizen.

Eight Year Old Stowaway Attempts Cruise to China

REDWOOD CITY, Calif., Aug. 19 (AP) — Dickie Love, a veteran stowaway at eight, set out again yesterday. His destination this time — China.

The tireless tot hopped a bus to San Francisco and inspected some Orient-bound freighters.

He finally hiked aboard one of the cargo ships and descended into a hold.

"The ship looked pretty good, but it didn't leave soon enough," Dickie told police who picked him off the freighter and turned him over to his mother.

Harassed Mrs. Love added the latest caper to Dickie's growing list that includes stowing away on a ship that sailed from New Orleans and on an airliner from San Francisco to Los Angeles to "see the big earthquake" last month in Southern California.

Ike, Stevenson to Address Farmers

WASHINGTON, Aug. 19 (AP) — The Republican presidential candidate Dwight Eisenhower, today won a battle of invitations over his Democratic opponent Governor Adlai Stevenson of Illinois.

Both were invited to address the national plowing contest at Kasson, Minn., and both said they would accept and speak on Sept. 6.

For a while it appeared Kasson might provide one of the most dramatic of early-campaign events — a possible face- to-face meeting of the major candidate as they battled for the farm vote.

But officials of the contest ruled today that both could not speak on the same day. They decided that Eisenhower, who had accepted their invitation first, should speak Sept. 6.

Stevenson, however, was given a chance to speak first. Officials said they invited him to change his date to Sept. 5. Stevenson's office said he was turning down the Sept. 5 invitation because of commitments.

Man Charged With Selling Narcotics

VANCOUVER, Aug. 19 (CP) —A man who said he wanted to find two of Canada's 10 most wanted criminals, yesterday was found guilty of possessing narcotics and served with writs suing him for $32,207.

John George Heddy, 34, will be sentenced next Monday by Judge A. E. Lord on the narcotics charge.

The writs were served for two women who say they have notes for $32,207. Mrs. Annie E. Rice claims $30,000 plus $284 interest and Phyllis E. Croft claims $1823.

During his trial Heddy said he had been cultivating friends in an attempt to find the whereabouts of John and George Mallock, listed by R.C.M.P. in January as two of the country's 10 most wanted criminals.

The Mallock brothers were wanted on narcotics selling charge here, the R.C.M.P. list said, both failed to appear for trial in January 1951.

Heddy said he wanted to find the brothers because of his friendship with Mrs. Rice who put up a $20,000 bond for John Mallock and lost it when he failed to appear in court.

STRIKE FRACAS . . . Trouble flares at the strikebound Sunshine Waterloo Company, Ltd., plant at Waterloo, Ont., when six foremen try to pass a picket line. One gained entry but five were forced back. Police charged 14 employees with besetting in connection with picketing. About 300 employees have been on strike since July 3. —(CP Photo.)

Woman Arrested For Embezzlement

DIERKS, Ark., Aug. 19 (AP) — Word that a 49-year-old woman that "everybody trusted" was arrested yesterday for embezzlement of nearly $73,000 in bank funds stunned the 1300 residents of this Southwestern Arkansas town. Mrs. Opal Simmington, assistant cashier of the bank of Dierks for 32 years, was arraigned at Hot Springs, Ark., on a federal charge of making false entries.

Propose Building $120,000,000 Pipeline in U.S.

SEATTLE, Aug. 19 (AP) — The head of the Pacific Northwest Pipeline Corp. said here last night that, if federal approval is given, the firm can bring natural gas to Oregon and Washington by early Fall of 1954.

Ray Fish of Houston, Tex., made the prediction in relating the firm's plans to bring gas from New Mexico-Colorado fields.

Fish also is president of Fish Engineering Corp., which designed and engineered pipelines from Southern Texas to New York and Chicago.

He said his firm will file an application with the Federal Power Commission this week. It will be an amendment to the original application for a line from Canada.

Fish said the pipeline cost would be $120,000,000, with an additional $40,000,000 for well-drilling and $15,000,000 for a gathering system at the source.

The proposed route of the line would be across Utah; across Idaho along the Snake River route and into Oregon to a point near Pendleton.

The main line would swing West to Portland and North through most of Western Washington's major cities to Bellingham. Another branch would go North from the Pendleton area to Walla Walla, Pasco and Spokane.

Peace and Postwar Agreements Bring Threats of World Hatred

MONTREAL (CP) — The European refugee problem that should have been solved with the end of the second world war instead has become greater than it was in the first days of Germany's defeat, says Rev. Elfin Rees.

Advisor on refugees as an official of the World Council of Churches, Mr. Rees said in an interview here that whereas Hitler managed to create about 9,000,000 displaced persons, peace and post war agreement had resulted in displacing about 11,000,000 in Germany alone. Altogether Europe now has more dispossessed persons than the entire population of Canada.

"Just imagine the whole population of Canada forced to leave home and country and crowded into some strange land without passports and without the right to work or travel" he said. "Unless we realize the political, social and financial problems of this new situation we will find that we have nurtured a new proletariat—a new breeding ground for hatred and intolerance."

Dr. Rees said that the International Refugee Organization and the United Nations Relief and Rehabilitation Association had attacked the war refugee problem fairly successfully. The trouble came however when the Potsdam agreement made it possible for huge masses of population to be uprooted from East Germany, Pomerania and the Danube basin.

These people, refusing to stay in Soviet-dominated areas, crowded into West Germany where war had already created a severe housing shortage.

TROUBLE SPOTS

The problem of refugees arises wherever there is trouble. Besides the potentially dangerous situation in Germany, refugee conditions are being built in the "muddled misery of the Middle East," in Korea, where 3,000,000 homeless have already registered with the United Nations, in the Pakistan-India tension, and from behind the Iron Curtain.

These people said Dr. Rees, represent a cross section of the communities from which they come—some are cultured and educated, some are quaint and shady characters. Altogether, they add up to represent a scale of exile unprecedented in history.

Whatever the Western world does about this important problem it must be constructive, said Dr. Rees. Otherwise, the homeless, dispossessed, might develop into a canker that would seriously menace the Western way of life.

Firefighter Dies In Blazing Forest

ELSINORE, Calif., Aug. 19 (AP) —Four fires raged over more than 8000 acres of California timber and brush land today. One firefighter was killed and four others injured in their battle to check the flames.

Larry Higgins, 21, a state forestry service worker, was burned to death while fighting a 400-acre fire South of Elsinore, near Cleveland National Forest. A whirlwind of flames engulfed him before the other workers could reach him.

Attempts to Kill Husband Because He Wouldn't Come Home

NORFOLK, Va., Aug. 19 (CP) — A naval officer's wife was in jail today on a charge of assault with intent to kill her husband.

She told police she ran him down with an automobile "because he wouldn't come home."

Lieut.-Cmdr. Alva J. Jones was in Portsmouth Naval Hospital, with superficial injuries. His wife, Mrs. Dora Jones, 43, was held awaiting bond of $5000 for a hearing before a U.S. Marshal.

Good Dressing Needs Posture

By IDA JEAN KAIN

The compliment, "That dress certainly looks nice on you," is a subtle way of saying you do something for the dress. Obviously it takes a better-than-average bearing to give clothes that lift . . . but it's deeper than that, for the lift must come from within.

There are a number of factors that influence posture, including muscle tone, your nutrition pattern and posture habits. But the intangible factor is your attitude. The backbone of good posture is the noun named desire. I can give you the rules for posture correction, but rules are not enough. When something within your self quickens your sense of being alive your posture will reflect this vital force.

PLAIN PSYCHOLOGY

But back to you. Once you sense the importance of your posture to poise, to complimenting your clothes and to a feeling of well being and confidence . . . you'll never again settle for a slump, nondescript bearing.

An excellent bit of psychological advice goes something like this . . . "Enter the room, madame, with the assured bearing of a woman of thrice your beauty, and you will be startled to find how many will take you at your new self evaluation." Try it!

To give your figure, as well as your posture a lift, the up-pull should begin with the lower abdominal muscles . . . the girdle muscles. These muscles must take the action. This bears repetition. . . the front muscles have two pulls; they pull-up, and they pull-in. One thing more . . . as you pull up and in snugly with the bracing front muscles, pull down and under with the big hip muscles. The coordinated action streamlines the silhouette and keeps the center of gravity properly aligned . . . and your posture on the beam.

The chest is automatically raised, but the lifting doesn't stem from there. To get the idea, think of the girdle muscles as being attached to the top of the rib cage not to the wishbone.

When your figure is in perfect alignment, you just naturally hold your head high. And the desire to have a good posture leads to the practice of perfect posture . . . and that's it!

The World of WOMEN

MR. DAVID BAKER, DR. AND MRS. M. F. WELSH AND MISS EMILIE WALISSER.—H. M. Buckna photo.

Pretty Mid-Summer Rites Held at Creston

CRESTON — The candle-lit United Church was the setting for the marriage here of Agnes Joan Forder-Smith, only daughter of Mr. and Mrs. Charles Forder-Smith, and Dr. Maurice Fitzwilliam Welsh, son of Mrs. William H. S. Welsh and the late Mr. Welsh of Summerland.

Rev. A. O. McNeil performed the ceremony against a backdrop of tall baskets of pink, white and yellow gladiolus and fern. Mr. Edwards played the wedding music.

The bride, entering with her father, wore a gown of misty nylon net over white satin. The fitted bodice was trimmed with lace which was repeated in panel inserts in the graceful train-length skirt. A coronet of mother of pearl and rhinestone orange blossoms held her chapel veil of illusion net, and she carried a bouquet of red rosebuds and white sweetpeas.

BLUE GOWN

Miss Emilie Walisser, as bridesmaid, chose a gown of blue nylon net and lace over satin, with a matching lace jacket. A picture hat and rhinestone necklet and earrings a gift from the bride, completed her costume, and she carried a bouquet of white and pink carnations.

Mr. David Baker of White Rock was best man, and Mr. Lou Truscott and Mr. Jack Wilks were the ushers.

A reception for 60 guests was held in Legion Hall, where Mr. Baker proposed a toast to the bride, and Mr. McNeil also spoke. The bride's table, decorated with tapers and sweetpeas, was centred by a triple-tiered cake.

To receive, the bride's mother wore brown faille with brown and white accessories, and the groom's mother wore a gown of soft grey crepe with white accessories.

For travelling, the bride donned a grey tailored suit, complimented by navy accessories.

The couple will make their home in Summerland.

Out-of-town guests included Mr. and Mrs. Alan Forder-Smith, Mrs. Walter Scheb, Miss Olive Scheb, Mrs. Welsh, Mrs. Marjorie Mann, aunt of the groom, Mr. Baker and Miss Walisser.

PEASANT GARB INSPIRES STYLES

MADRID, Spain, Aug. 19 (Reuters) — Traditional peasant costumes of the Spanish countryside provided discreet inspiration for some of the 70 models shown by Pedro Rodriguez today in the third individual designers collection shown in Spain's first fashion festival.

Fashions borrowed from the bullring and the period of the Spanish Inquisition appeared in the first two Autumn and Winter collections shown to foreign writers and buyers.

Sumptious embroidery of a kind possible only in a land where labor is cheap is used on the formal evening frocks.

Among the buyers at the festival are two from the T. Eaton Company of Canada. They are Mrs. Dora Matthews, fashion co-ordinator, and H. E. R. King, head of the Paris office.

HOMEWARD . . . Mr. and Mrs. W. C. Romance have left for their home in Winnipeg via Banff and Saskatoon after visiting Mr. Romance's brother-in-law and sister, Mr. and Mrs. J. F. Hogg, 817 Baker Street, for the past week.

• • •

HOUSE GUEST . . . Charles Hillard from Prince George is visiting Mr .and Mrs. R. H. Bradley, 419 Maple Street.

• • •

RELATIVES . . . Mr. and Mrs. A. K. Olsen, 1012 Josephine Street, have as their guests their sons and daughters-in-law, Mr. and Mrs. Ole Olsen and Phyllis of Wishart, Sask., and Mr. and Mrs. Arthur Olsen and son of Los Angeles.

• • •

WEDDING GUESTS . . . Mr. and Mrs. J. Gentles and their son Douglas, 713 Mill Street, returned Sunday from Creston after attending the LeMoigne-Caston wedding.

• • •

IN TOWN . . . Basil Cousins of Trail was in Nelson en route home from a trip to Kaslo.

• • •

VISIT OVER . . . Mrs. O. P. Roberts and her daughter, Miss Susan Roberts of Vancouver, former residents of Nelson, have returned to their home after visiting Mr. and Mrs. H. T. Miard and Mr. and Mrs. Roy Pollard.

• • •

ARRIVALS . . . Mr. and Mrs. Thomas Morton of Abernathy, Sask., Mrs. E. Barnsley and daughter Joanne of Lorlie, Sask., and Miss Mary Morton, matron of the Indian Hospital of North Battleford, Sask., are visiting Mr. and Mrs. W. D. Morton, 304 Observatory Street.

• • •

TEA HONOREE . . . Mrs. H. B. Horton entertained about 30 guests at tea Tuesday afternoon, in honor of her sister, Mrs. J. C. Carpenter. Mrs. Carpenter is leaving soon for her home in Edmonton after a three month visit with Mrs. Horton and her mother, Mrs. A. N. Winlaw. Large bouquets of vari-colored gladioli were used throughout the living rooms and on the tea-table, at which Mrs. Winlaw poured. Serviteurs were Miss Carmen Horton and Ald. Elizabeth Wallach.

Engagements

Mr. and Mrs. Harry MacLean announces the engagment of their elder daughter Kathleen Mary to Len Brown, eldest son of Mr. and Mrs. Harry Brown of Ymir, B.C. The wedding to take place on Thursday, August, 28 at St. Paul's United Church.

Lister Notes

LISTER, B. C.—Miss Eleanor Gorrill and Miss Betty Powers were hostesses at a surprise shower in honor of Mrs. J. Henry Lemoigne, the former Gwen Caston, bride of this month.

About 20 former schoolmates and friends enjoyed a number of contests and games. The gifts were brought in a decorated pink and white basket. A sing-song followed.

Miss Dawn Huscroft and Miss Doreen Jordon are visiting Vancouver. The latter will be leaving Vancouver by plane for her home in Toronto.

Mrs. Eva Hudson was a visitor at points in California, visiting Lethbridge, en route home.

Visitors at the home of Mr. and Mrs. G. Gorrill were Leroy Thompke of Vancouver and Mr. and Mrs. Alvin Gorrill and daughters of Wardner.

Change for Married Women Workers

WINNIPEG, Aug. 19 (CP) — The government has decided to make it easier for married women workers to collect unemployment insurance when they are out of jobs, Labor Minister Gregg today announced to the Trades and Labor Congress of Canada convention.

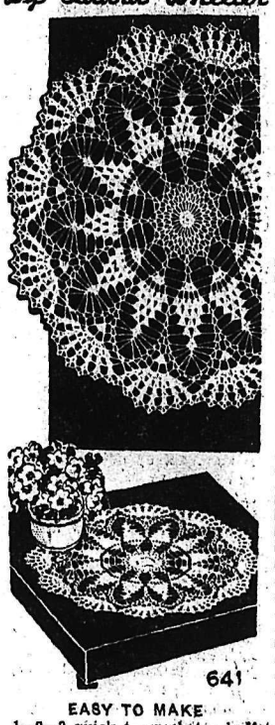
The government action cuts to 60 from 90 days a "waiting period" imposed on married women up to now in connection with getting insurance benefits.

The period was imposed originally because of suspicion that some married women were collecting insurance when they merely had quit jobs to take up housework. Under the provision, they had to work at a new job 90 days — now 60 days — before becoming employable again.

Mr. Gregg's announcement of the shortened time, in an off-the-cuff insert in his annual address to the convention, came after the delegates had criticized yesterday "unfair discrimination" against married women in insurance. The minister said the action was taken during the past week by the Cabinet.

Later, T.L.C. President Percy Bengough said in an interview the new step is a "big improvement."

Needlecraft By Laura Wheeler



641

EASY TO MAKE

1—2—3 quick to crochet a buffet or luncheon set with these fast-working doilies! Use fine or heavy cotton, start now, have them in time for your next party!

Pattern 641 has instructions for doilies 13 and 19-inch in No. 30 cotton. Both are easy crochet.

Send TWENTY-FIVE CENTS in coins, (stamps cannot be accepted) for this pattern to Nelson News, Needlecraft Dept., Baker Street, Nelson. Print plainly PATTERN NUMBER, your NAME and ADDRESS.

Such a colorful roundup of handiwork ideas! Send twenty-five cents now for our Laura Wheeler Needlecraft Catalog. Choose your patterns from our gaily illustrated toys, dolls, household and personal accessories. A pattern for a handbag is printed right in the book.

Burton W.I. Proud of 40 Years of Service

BURTON — More than $15,000 has been raised and spent for community benefit and other charities by Burton Women's Institute in the 40 years it has been in existence.

WIFE OF the M.L.A. for Nelson-Creston and provincial secretary and minister of municipal affairs in the new Social Credit government in B.C., Mrs. W. D. Black of Creston is shown here. Mrs. Black took an active part in her husband's pre-election campaign. — H. M. Buckna photo.

This fact was brought out by Mrs. C. Marshall, first president, when the group entertained 120 people at the 40th anniversary of its founding.

While members of other Arrow Lakes W. I.s looked on, corsages were presented to the past president, past secretary-treasurer, life members, charter members, executive members and all Burton W. I. members. Presentations were made by Mrs. Orr, president, assisted by Mrs. J. Miller, Mrs. T. Walton and Mrs. J. Johnson.

Mrs. Ralph Islip of Nakusp, first secretary-treasurer, read minutes of the organizational meeting and the first regular meeting, attended by 19 women.

Among accomplishments of the W. I. have been assistance to fire victims, cemetery, school activities, welcome home to soldiers of both wars, health projects, such as cancer campaign, hospital, child eyesight, polio and many special cases requiring assistance sports clubs, community hall, first purchased by W.I. and turned over to board; Christmas tree, shower and gifts for brides, Red Cross, more than 260 articles knitted, sewing done, jam and financial support 40 quilts for bombed-out Britains, food and clothing parcels for overseas.

FOR GET-TOGETHERS

The original reason for organizing was to have a friendly "get-together" with widely scattered neighbors when distances were so great without the cars for transportation. Many interesting and instructive talks were given at these meetings by various speakers, demonstrations on pie making, canning, jelly making, rugs, mats felt slippers are just a few of the instructive lessons learned at the monthly meetings.

These activities, coupled with the tea and social hours, have made a successful 40 years of progress.

GAVEL PRESENTED

An inscribed gavel, gift from the first president, was presented to Mrs. Orr by Mrs. Islip, and two minutes silence was observed for members who had died.

Mrs. J. Porter gave a brief address on past activities and early meetings.

A program was presented, after which Mrs. A. Johnson presented Mrs. Marshall with a gift from the members. During supper, a birthday cake made and decorated by Mrs. Sundstrom and Mrs. Orr and contributed to by the members, was cut.

LONDON (CP) — Night airline services, connecting London with Europe's capitals, are becoming increasingly popular due to cheaper rates. Almost as many airplanes leave London airport from 11 p.m. to 1 a.m. as during the corresponding daytime period.

New Denver

NEW DENVER, B. C.—Dr. Norman Carter of Vancouver is visiting friends in town. He was a resident dentist in New Denver 30 years ago.

Mr. and Mrs. Robert Bemister of South Burnaby are the guests of the latter's brother-in-law and sister, Mr. and Mrs. Charles Parker.

Dennis Clarke who has been attending Summer school at Red Deer Alta., has returned to spend the remainder of his holidays with his parents, Mr. and Mrs. T. W. Clarke.

Mr. and Mrs. A. Mix of Olympia, Wash., are guests of their nephew and niece, Mr. and Mrs. R. M. Evans.

Mr. and Mrs. Tony Neratini and children of Vancouver are guests of Mr. and Mrs. Charles Parker.

R. E. Crellin was a weekend visitor in Kamloops and was accompanied back by his wife and two children who will again take up residence in their home. Also accompanying them was the former's mother, Mrs. May Crellin, who was visiting her daughter-in-law.

A well-attended hard times dance was held in Bosun Hall.

Of Rome's 12 Caesars, six were assassinated and two committed suicide.

Artist New Friend Of Princess Anne

LONDON (CP) — Princess Anne, who has just celebrated her second birthday anniversary, has been meeting a new friend this Summer. She is Mrs. Stella Marks, Australian-born artist who painted a miniature of the infant princess which entailed regular visits to Buckingham Palace to study her subject.

Princess Anne, being like any other little girl of her age, did not actually sit for her portrait. She chattered and played while Mrs. Marks watched to capture her expression on the ivory which she paints in watercolors.

South Slocan

SOUTH SLOCAN — Mrs. E. Marshall has left to visit her father Mr. John Cecheliro of New Denver, after the sudden loss of his daughter Mrs. L. Dwyer at Ronyon, Que., and Mrs. Marshall's sister.

Mr. and Mrs. Francis McDougall and children have left to spend a holiday at Christina Lake.

Mrs. J. Edlin of Waldran, Sask., flew here from the Prairie's and is the guest of Mr. and Mrs. J. Hendron.

Mr. and Mrs. Frank Garrett and family have returned from spending a holiday with relatives at Coeur d'Alene and Sandpoint, Idaho.

Swiftest of all animals over very short distances is the cheetah.

Cleanliness Route To Food Safety

Health magazine reminds housewives and other who handle foods of the dangers of unwashed fruits and vegetables. Hundreds of chemical insecticides are being used today by gardeners to protect their crops from being devoured by insects. These are poisonous substances which, if they should be swallowed, could make people ill even if consumed in minute quantities. To be absolutely sure that none of the sprayed chemicals are consumed, every piece of food should be washed before eating.

During the Summer months, food safety also lies in proper refrigeration. A host of bacteria settle on foods, whether raw or cooked, that are exposed to heat. Even with refrigeration, an uncounted number of people become ill from something they have eaten that is not entirely fresh. Special care in storing and handling foods is necessary at Summer camps and homes where all facilities of the family home are not always at hand.

Food that has been contaminated by some forms of bacteria is unsafe for human consumption even if it is cooked. The most common forms of organisms are those which infect the throat and upper respiratory passages. These organisms thrive on meats, custards, potato salad and creamed pastries, foods that are most frequently allowed to stand in a warm room, and often uncovered. The poisons manufactured by the bacteria irritate the stomach and intestines when swallowed. Heat will not kill the toxin, though it may kill the bacteria. Placing contaminated food in the refrigerator will not render it safe for consumption, since the damage has been done. A person who eats a contaminated ham or potato salad, for example, will become ill two to four hours later, with nausea, vomiting, cramps and diarrhea. In some instances, the individual may go into shock and collapse.

Scrupulous cleanliness on the part of food handlers, in home and public kitchens, is the only way to ensure safety. Extra precautions need to be taken in respect to fresh fruits and vegetables. The Health League's nutrition director emphasized: "There is only one safe rule to follow: Wash all fruits and vegetables carefully in water before using. This will remove not only all poisonous chemical residue, but dirt. It will also help to slow down the process of spoiling, and will actually improve the fresh, natural flavor."

Your Horoscope

Do not take any great risks at this time, or you may be disappointed. Go out of your way to be kind and generous to a co-worker, however. You should make some gains in the coming months, and later in the year conditions are likely to be even better. The child who is born on this date may expect some success in life.

All the charm of all the Muses often flowering in a lonely word.

—Alfred Lord Tennyson.

LETTERS TO THE EDITOR

Letters may be published over a nom de plume, but the actual signature of the writer must be given to the Editor as evidence of good faith. Anonymous letters go in the waste paper basket.

Gospel Message Of Government

An open letter to Canon W. J. Silverwood:

Canon Silverwood asks the question: "How does following Christ make for a better world?"

I ask: "Did Christ come to make this a better world?"

Few realize it because they do not hear it today, but the Gospel of Christ—the Gospel Jesus brought from God and preached—was a message about government!

Yes, Jesus was interested in government. His message was about a government to rule the world, and bring us world peace. But to understand it, we must make a study of the governments of this world from its foundation until now. This is necessary for a true perspective. We are prone to view politics, government and world events from the standpoint of this present world.

It is not God's plan of government for any being to rule over equals. Adam was given rule over the lower species—animals. Nimrod organized the present world's first government, the city of Babylon; later he organized Ninevah and other cities. He instituted the system of regimentation, whereby one or a few at the top by directing their efforts, profit from the sweat and labor of others. Thus nations were born, and then empires. This Babylonian principle of government intertwined with economic manipulation, has ruled the world ever since under various forms—oligarchy, monarchy, dictatorship, autocracy, democracy, Communism or Nazism, but it is the same old Babylonian principle under slightly different modes of administration and this is the origin of what we call civilization. Regardless of the particular form of administration this civilization which holds the entire world in its organized grip today is the same old Babylonian system started at the original Babylon by Nimrod.

"Babylon" means confusion. Competition and strife have produced confusion in the world. And God is not the author of confusion (Cor. 14:33). Now we come to the reason for needing a true perspective.

Most churchmen today, viewing everything from the perspective of "This world today," blindly assume this is God's world. They see certain forces of evil in it, these they feel they must oppose. They see the Christian duty to be that of working to make this a better world. That concept is a wrong viewpoint altogether.

This is not a world of God's making. This is Satan's world! Satan is the invisible god of this world. He is the author of its organization, its basic philosophies, its systems of government, business, society—yes, and religions! This thing we boast of as "civilization" is, in fact, Satan's handiwork, not God's. Strange as it may seem, that is true. All nations, not just the heather powers, but all nations including ours, are deceived, swayed by Satan (Rev. 12:9, 18:3, 20:2-3).

The Bible speaks of this world as "this present evil world" (Gal. 1:4). Into such a world God sent His own Son. Why did Jesus come? To get into politics, to strive against the forces of evil in this world, to make this a better world. What was His message? A gospel of merely accepting Him, and then, as part of this world, helping to make it better. So, after meeting and conquering Satan, Jesus devoted three and a half years of His ministry proclaiming His gospel. His gospel—the only true gospel of Jesus Christ—is not what most people think today. Few have heard it today. It was and is a gospel of good government! The word "gospel" means "good news." And what Jesus preached, the message He brought to mankind from God, was the good news of the coming government of God. Yes, Jesus Christ said to Pilate that He was born to be a king! He, Himself, is coming again as World King!

And His gospel was merely, as one might say, His political platform for His kingdom. He revealed the way to enter it as one of its immortal citizens, the way of salvation. He revealed its laws, and what Jesus taught was that this present world, with its governments, its religions, its economics, its society, is an evil world—it is Satan's world—it is a world in competition against, and at war against, His coming kingdom—the World of Tomorrow. Yes, Mr. Silverwood, Jesus said to His disciples "Follow Me," and one cannot follow Him and also follow this present world! He did not mean for Christians to go out of the world, physically. He knew they must live in it, but He taught that they should not be of it (John 17: 15-16).

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

T. O., Salmo—Can you tell me where I can get a correspondence course in bookkeeping?

Write to the Department of Education, Victoria, B.C.

H. H. E., Kaslo—What is the name and address of the company that sells and distributes pre-fabricated homes?

Aladdin Homes, Ltd., Toronto; also United Trailer Company, Calgary, Alberta.

J. E., Lethbridge—Can you trace for me a song called "Signing the Roll"? I am anxious to get a copy for a friend in Scotland but have been unsuccessful in Lethbridge.

The delay in replying is due to efforts to find a copy of this song. It seems to be unknown here but perhaps other readers might be able to help?

A Reader—Have you a recipe for beet wine?

Wash five pounds of red beetroot and cut into slices. Put into preserving pan with enough water to color, bring to boil and simmer till beets have lost all color. Strain off juice and put into tub with four oranges and two lemons, cut in slices, four pounds of demarera sugar, twelve whole cloves, and an ounce of whole ginger. Make up quantity to gallon with warm water and when all is lukewarm add yeast. Let it work for three days, then strain and put in barrel or stone jars, well sealed.

Traveller, Creston—Where can I have an umbrella recovered?

The Hudson's Bay, Baker Street, Nelson, will have this done for you.

Looking Backward

10 YEARS AGO

From the Nelson Daily News, Aug. 20, 1942

Rev. H. Stewart Forbes, in an address to the Rotary Club Monday, chose Chinese proverbs as his topic and narrated many humorous accounts of their use.

25 YEAR AGO

From the Nelson Daily News, Aug. 20, 1927

Miss Gwyneth Vincent, daughter of Mr. and Mrs. H. M. Vincent of the North Shore, who has been spending the past couple of years in Honolulu, has left via California for Nelson, visiting en route for the next few weeks.

Four district girls of 'teen ages are now at Vancouver, representing West Kootenay in a province-wide girls' home economics judging contest, characterized by Mrs. H. H. Pitts, contest convener for West Kootenay. The district representatives are: Laura Willey, Bonnington; Mona Stubbs, Nelson; Evelyn Quance, Robson, and Ruth Lind, Kaslo.

50 YEAR AGO

From the Nelson Daily News, Aug. 20, 1902

John Houston has completed arrangements to resume the publication of The Nelson Tribune. The first issue will appear on Saturday. For the present, The Tribune will be published weekly.

A small force of men are to be started to work on Monday on the Butterfly group, at the head of Sproule Creek.

It's Been Said

Dare to look up to God and say, "Make use of me for the future as Thou wilt. I am of the same mind; I am one with Thee. I refuse nothing which seems good to Thee. Lead me whither Thou wilt. Clothe me in whatever dress Thou wilt."—Epictetus.

Too many look-alike houses are being built, mourns the Sherbrooke Record. "Enough is known today about economical home design and scientific community planning to produce new residential areas which make for a maximum of good living. But, by and large, we are not getting that kind of building. Take a look at the latest residential projects in most cities. Houses too often are still being built upon narrow, uniformly straight lots that deny privacy and cut down light and air. Following the monotonous grid street pattern of old, they may string up and down a city's streets in endless repetition of similar roof lines and other exterior features."

From an Oldtimer's Notebook

by R. G. JOY

Historian Nelson District Oldtimers Association

BY R. G. JOY

Historian Nelson District Oldtimers Association

We read of freedom of speech and thought, also the freedom to read and write. We have heard men say 'cut out the past' and let it go at that. Some persons preach 'forget the past and let us do better now and in the future.' We have heard men say 'we have no use for the church, my lodge is my church and if — (that little word of two letters, a wise old lady said to me when I was at a very early age; if if's and and's could make pots and cans, there would be no more work for tinkers).

We might say today if there were no oil and gas there would be no cars, but humans have tasted the joy of riding and being curious, go far afield making many friends. Result, we are understanding one another, which leads to exchange of ideas and maybe gain a mutual respect which otherwise would not come to pass.

Some folk take the law in their own hands and deal out what they think is justice when infringing the laws of the highway of life.

Our city of Nelson has had very few murders, being caused by the frailty of both sexes. One I remember has to do with a character who lived in Nakusp for a short time and then later in Nelson. At the restaurant where I was employed we had a great variety of patrons. I have met men of all nations abounding with so many ideas on various matters; men evidently from good homes and fostered by doting parents and an environment that was pointing to virtue, long life and happiness. One whom we will call Kentucky, of Anglo-Saxon stock, tall, good address, tidy and attractive. She knew I was from old England because of my accent, etc. At times she talked of her youth and her happiness; perhaps real oldtimers will recognize the description.

One day in the early nineties as I was entering Baker Street, an old gossip said, "George, did you hear the latest?"

"Well, what have you got now? I am not particularly interested and I" . . . he blurted out, "Kentucky was shot last night." I thought of Nakusp and her story, but she did not tell me all. The sad story was very old and often uttered by many as an excuse. She was shot by her ex-husband who had been looking for her for years. Life on this earth was ended for her so abruptly.

Yes! We might say how different it may have been if . . .

"JEWELS OF THOUGHT"

Having a little library I often go and take a book at random and find jewels of thought "All that we are is the result of what we have thought, it is founded on our thoughts, it is made up of our thoughts. If a man speaks or acts with an evil thought pain follows him as the wheel follows the foot of the ox that draws the carriage . . . He abused me, he beat me, he defeated me, he robbed me" . . . in those who harbour such thoughts, hatred will never cease. For hatred does not cease by hatred anytime; hatred ceases by love — this is an old rule. "The world does not know that we must all come to an end here; but those who know it, their quarrels cease at once. He who lives looking for pleasure only, his senses uncontrolled, immoderate in his food, idle and weak, Mara (the tempter) will certainly overthrow him as the wind throws down a weak tree."

The volume from which the quotations came, I found on the shelf, and no buyers were interested. The late Father Althof was in to make a purchase that day and among other things said, "Joy, if you can get any pleasure out of reading those books, you should purchase them, they soon will be out of print."

Oil Found in Northwest Japan

TOKYO, Aug. 19 (AP) — The newspaper Asahi reported today that drillers struck oil Sunday from a sea-bottom area near Akita prefecture in Northwestern Japan. Japanese geologists described the strikes "fairly large" and the oil of medium quality.

Unimpressed by the fixed bayonets and the solemn expressions of the military guard at Petawawa, Ont., little Michael Gander goes after his ball and retrieves it, too. The occasion was the unveiling of a cairn to commemorate the first military aircraft flight in Canada and it was attended by Hon. J. A. D. McCurdy, lieutenant-governor of Nova Scotia, who made the historic flight in 1909.—Central Press Canadian.

Modern Pied Piper Ready to Lure Away Alberta's Increasing Rats

CALGARY (CP) — N. L. Poulin of Winnipeg, a modern Pied Piper, claims he can clean up Alebrta's rat problem in three months.

Mr. Poulin is in Alberta studying the province's first invasion of rate. At present he has a crew cooperating with the provincial government in a survey of the rat situation in the Southern area.

"This may startle you," Mr. Poulin said, "but the province of Alberta has been infested with rats for at least two years if not more.

"We have found proof of this by examining rat burrows that have been weather-beaten and in most cases these conditions would never exist if the burrows had not been there for as long as two years if not more."

(Rats in numbers in Alberta have not been found until this year and this led to the general belief that this was the first invasion of the province, considered previously to be the only rat-free area on the continent.)

Mr. Poulin also supports his statement by his findings in some of the province's grain elevators.

"We have even located rat burrows right through cement and I know for a fact that it takes a rat a good many months and even years to burrow its way through such a hard surface."

Mr. Poulin's survey reveals that rats have penetrated as much as 60 miles across the Saskatchewan border.

SPEARHEAD DRIVE

The rats have attacked Alberta from Saskatchewan in a spearhead drive and if given time they could create a solid front of at least 100 miles," he reported.

The Winnipegger has been in the extermination business since 1936. The reputation of this modern Pied Piper who uses his own formula for driving out rats is widely known in Manitoba and Saskatchewan.

He was responsible for driving rats from such cities as Winnipeg, Saskatoon and Swift Current, Sask.

Mr. Poulin's weapon is a secret mixture to which he claims rats are allergic and with which he can rat-proof any structure. But he says that is only one half the method. The other half of the battle is the way the mixture is used.

To combat the Alberta invasion his strategy would be to attack inside Saskatchewan's border by creating a "Maginot Line" that the pest could not penetrate. After that it would be simple to wipe out what rats were left in Alberta.

In combatting rats in cities, Mr. Poulin claims his easiest jobs are where there are no garbage incinerators.

In such a situation all that is necessary is to drive the rats into the garbage dump where they concentrate and are easily killed.

"It is much harder to control a rat problem in a city with an incinerator. This burns all the waste food stuffs and instead of the rats going to the garbage dumps they infest buildings and are harder to get at."

More than 75 per cent of Denmark is under cultivation with more than 200,000 farms.

Prison Too Cozy Says Magistrate

GLOUCESTER, England (CP)—Raglan Somerset, a Gloucester magistrate, believes he has discovered the reason why many criminals return to prison time and again.

The British lock-ups, he claims, are simply too comfortable.

Speaking at a conference of law-enforcement officers here, Mr. Somerset said it was almost certain the food and living conditions generally available to prisoners were a considerable improvement on what they got at home.

He agreed prison reforms within reason should be introduced but sentimentality should not be tolerated where crime is concerned.

"It raises a big lump in the throat of a sentimentalist," he said, "but it only makes a large hole in the pockets of the rest of us."

One Daily Meal Gives Long Life

WINNIPEG (CP) — Old rocking chair still hasn't got 103-year-old Morris Goldman, Manitoba's oldest citizen.

Mr. Goldman, a small man, slightly stooped now, still carries the symbol of his trade on his vest —a needle tightly bound with thread.

Until March of 1951 he worked with a Winnipeg tailor and in 15 years on the job never missed a day. Even at 102 he seldom wore spectacles and walked to work every day.

Mr. Goldman says his long life comes from living "honestly and well." He has never earned more than $25 a week, he says.

For the last 40 years he has eaten only one meal a day. He gets up early and has never smoked.

Increasing Crime Alarms Britons

LONDON (CP) — Although alarmed by the increase of crime in the United Kingdom within recent years, Home Secretary Sir David Maxwell Fyfe, believes it is too early to assess the results of the abolition of flogging.

Addressing the annual meeting of National Association of Prison Visitors, Sir David said the number of indictable offences had risen alarmingly in the last year.

This year there were more than 24,000 persons in British prisons and corrective institutions, the highest figures since 1877.

PUBLIC DISTURBED

"The public are naturally disturbed and are raising questions about defences against crimes," Sir David said. "Voices have been raised for the restoration of flogging. I believe that having taken steps to abolish flogging, it is too soon to assess the results. Sufficient time should be given to see whether or not it is having an effect."

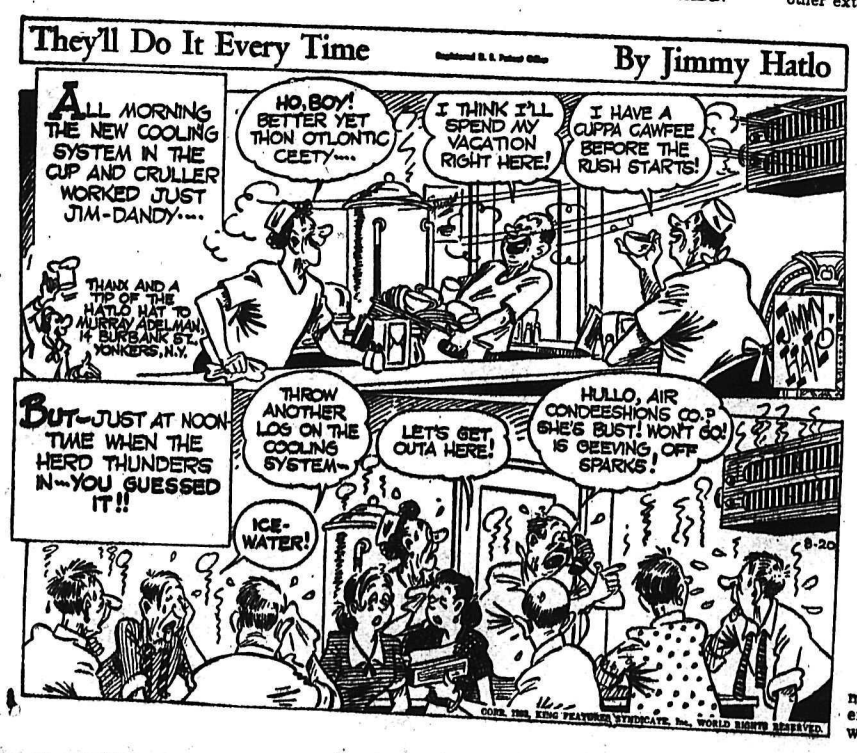
They'll Do It Every Time

By Jimmy Hatlo



Today's Bible Thought

Christianity had a humble beginning. It has outgrown swaddling clothes, and even politicians and industrialists realize that it is the only hope of a free civilization. No one has ever thought up a substitute that does not enslave the mind and body of its followers.

And this shall be a sign unto you, ye shall find the child wrapped in swaddling clothes, lying in a manger.—Luke 2:12.

Aunt Het

I can easily find everything in my house except things I put away extra careful so I'd always know where they are.

In boxing circles, this expression is known as the TKO—technical knockout. Faunna, a Weimarane pup, owned by Al Swabb of Phoenix, Arizona, is set back on her haunches by a wallop by the family kitten. Faunna is surprised beyond words, as her expression shows, and wisely declines to answer the bell for the second round. — Central Press Canadian.

Robin Roberts Bags 20th . . .

Brooks' Lead Cut to 6½

The New York Giants gave signs today that they may be ready to repeat their great late-season drive of last season that gave them the National League pennant.

The surging Giants opened their fourth and final Western swing yesterday by sweeping a doubleheader from the Chicago Cubs 5-0 and 3-1. At the same time the league-leading Brooklyn Dodgers currently ½ games ahead of the pack, split a doubleheader with Cincinnati, blanking the Reds 3-0 and then losing 5-3.

In the American League Chicago White Sox kept New York Yankees from gaining ground in the pennant race by beating the world champions 3-1 last night behind the seven-hit pitching of 34-year-old Mary Brissom. he Yanks remained two games ahead of the runner-up Cleveland Indians who were beaten 6-5 by Boston.

MAGLIE ON BEAM

At Chicago the Sal Maglie scattered eight hits to gain his 13th victory for the Giants in the opener. It was his fifth shutout. Bobby Thomson smashed his No. 18 homer that was good for two runs in the seventh inning to give Hoyt Wilhelm, third New York pitcher, the second game decision over Warren Hacker.

The Cincinnati victory was the Red's first win of the season against the Bums on their home grounds. Willard Marshall's seventh homer and Ted Kluszekski's triple provided the five Redleg runs.

Robin Roberts became the first National League pitcher to win 20 games this season as he hurled the Philadelphia Phillies to a 10 5 decision over the last-place Pittsburgh Pirates. The Phils shelled Pirate Rokie Ron Necciai from the mound when they scored six runs in the sixth, three on Willie Jones' 12th homer.

In the other National League game, Vern Benson and Red Schoendienst whacked two-run homers as the St. Louis Cardinals gained their fourth straight victory, beating the Boston Braves in the opener of a three-game series, 7-5.

The St. Louis Browns clipped Connie Marrero tor 12 hits but left 15 runners stranded and dropped a 2-1 decision to Washington as the Cuban righthander won his tenth decision.

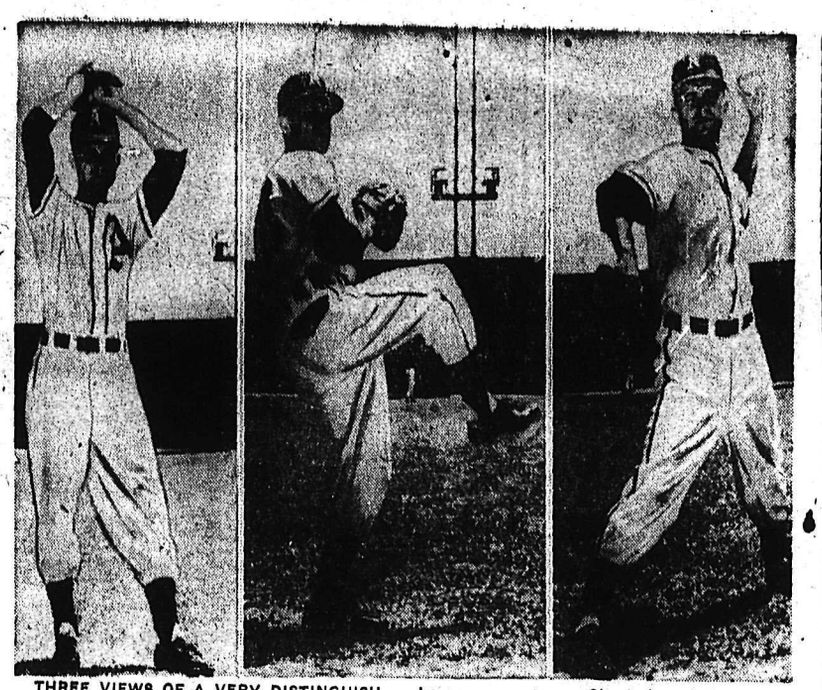
Wynn, Garcia (9) and Hegan; Brodowski, Benton (8) and White.



THREE VIEWS OF A VERY DISTINGUISHED FELLOW . . . Southpaw Bobby Shantz, of the Philadelphia Athletics, is conceded to be the best fielding pitcher in baseball today despite his height of only five foot, seven inches. Though the Athletics are in sixth place in the American League pennant race, Shantz has pitched his way to 21 victories and only four defeats so far this season. Three action shots above see him, at left, getting ready, centre, for the pitch, at right, letting go, after which he watches the ball as it travels to the plate, and the umpire, for his calling.

GEORGE MAY DO IT YET . . . Failure of Montreal Alouettes' gridiron glamour boy, George Ratterman, to fit into the Canadian football picture last season has apparently not damaged either his reputation or the market value of his talents in the U.S. Gorgeous George, who would have headed a poll for "flop of the year" in Canadian sport, may replace quarterback Otto Graham, centre, who has been the great pass-master of the Cleveland Browns for six seasons. If Ratterman ,left, takes over the quarterback berth, Graham will be traded, with Don Klosterman, right, up from college ranks, assuming the second-string quarterback duties.

Roy Stone Retains Slocan Open Title
Bill Vickers Wins Handicap Event

NEW DENVER — Roy Stone of Trail retained his Slocan Open Golf Championship and the Wood Vallance Trophy here Sunday but not before a stiff extra-hole battle from club mate Jim Marasco.

Stone and Marasco tied for the leadership after the regulation 18 holes to force the playoff. Stone won it on the 19th with a birdie to keep his title.

Brother Reg Stone was third with 72 and Harry Donaldson made a clean sweep of the Open prize bracket by finishing fourth at 73.

Bill Vickers of Nelson, fifth in the open with 76, captured the handicap competition with a net 68 to win the Eddie Graham Cup. J. Charlton of Trail was second and two more Nelsonites, Alex Sutherland and Lou Hanic, third and fourth respectively.

Nelson's Johnny Leschuck won the event in 1951.

Gordon Nelson of Silverton won the consolation prize for high gross.

Neil Tattrie of New Denver was the winner in the Over-60 competition with Frank Broughton of New Denver runnerup and Bill Anderson of Nelson third. J. A. Greer of New Denver was fourth.

Mrs. Pete McIntyre of Trail took first prize in the ladies' pitch and putt competition with Roy Stone copping a similar event for men.

Visiting golfers were welcomed by President A. M. Ham and prizes were presented by Bishop Hugh Embling, honorary president of the Slocan club.

LOGY, LISTLESS, OUT OF LOVE WITH LIFE?

Then wake up your liver bile . . . jump out of bed rarin' to go

Life not worth living? It may be the liver! It's a fact! If your liver bile is not flowing freely your food may not digest . . . gas bloats up your stomach . . . you feel constipated and all the fun and sparkle go out of life. That's when you need mild, gentle Carters Little Liver Pills. You see Carters help stimulate your liver bile till once again it is pouring out at a rate of up to two pints a day into your digestive tract. This should fix you right up, make you feel that happy days are here again. So don't stay sunk, get Carters Little Liver Pills. Always have them on hand. Only 35c from any druggist.

District Fastball Playoff Tonight

A league meeting Tuesday night decided to play out the Nelson District men's fastball quarter-final series between Queen's Hotel and Kinnaird Firemen and the deciding game will be played here this evening.

Third game was to have been played Sunday at Kinnaird but did not come off because grounds were in use for the district women's fastball playoffs. Under league ruling the game could have been defaulted to Queen's but the Nelson squad agreed to play.

Winner of tonight's game advances into the semi-finals against Nelson Kings who eliminated South Slocan two straight. Semi-final winner takes on Nelson Transfer for the title.

ROSSLAND CUBS TO PLAY TIGERS HERE FRIDAY

Rossland Cubs and Nelson Tigers will tangle for the first time this season here Friday evening.

The Rossland squad, managed by veteran Rusty Wynn, are entered in the $2800 Kimberley tournament Saturday and Sunday and plan to play the Tigers as a tuneup en route to the East Kootenay.

The clubs last met in the West Kootenay League finals here last Fall when Nelson won the best-of-five series and the championship.

MARCIANO WINS JULY AWARD

NEW YORK, Aug. 19 (AP) — Rocky Marciano, who meets Jersey Joe Walcott for the heavyweight boxing championship next month, qualified today for the third annual Ray Hickok "Professional Athlete of the Year" award by winning the July poll of sports writers and sportscasters.

Bobby Shantz, Philadelphia Athletic pitcher, polled more first-place votes than Marciano, and just missed. Marciano had 229 points, with 42 first place votes; Shantz 224 points and 61 firsts. Shantz already has qualified for the 310,000 diamond studded belt by winning the May poll.

Aussie Stars Top Newport Tourney

NEWPORT, R.I., Aug. 19 (AP) — Frank Sedgman of Australia won the singles championship of the Newport invitation tennis tournament for the second straight year today by whipping his teammate, second-seeded Ken McGregor 6-3, 6-2, 12-14, 6-3.

The first-seeded Sedgman is the first to win the title twice in a row since Don McNeil captured the 1940 and 1941 tournaments.

Sedgman and McGregor took the doubles title with a 5-7, 9-7, 3-6, 9-7, 6-3 conquest of Vic Seixas of Philadelphia and Bill Talbert of New York.

Westrum Docked

CHICAGO, Aug. 19 (AP)—Catcher Wes Westrum of New York Giants today was fined $100 by National League President Warren Giles for bumping Umpire Tom Gorman in a game against Brooklyn Dodgers at Ebbetts Field last Thursday.

TO DECIDE VACANT TITLE

MELBOURNE, Australia, Aug. 19 (Reuters) — Australia's top-ranking middleweights, Al Bourke and Ron Toohey, will meet here next month for the Australian and British Empire titles held by the late Dave Sands, promoter R. Lean said today. Sands was killed in a truck accident.

Mawhinney, McElroy Win
Vancouver Pair Only Canadians to Survive End Round of U.S. Amateur

SEATTLE, Aug. 19 (CP) — Canada's entries in U.S. amateur golf championship play were slimmed down to two today as second round matches culled the large field and sent four other Canadians to the spectator ranks.

Two Vancouver men, Walter McElroy and Bill Mawhinney, who hold the 1951 and 1950 Canadian amateur titles, respectively, won their matches handily today and were set for third round play in the ever-narrowing field. Both were members of Canada's Americas Cup team last week which gave the United States a close race for first place.

McElroy moved smoothly to his second triumph of the tourney, whacking Warren Campbell of Seattle, 5 and 3. The Canadian champ was even par 35 for nine holes while Campbell scored to 40. McElroy had a bit of trouble with his driver on the back side of the course but his par four on the uphill 15th closed out the match.

Mawhinney didn't have it too tough taking the measure of Dirk Prather, of Litchfield Park, Ariz. Near-perfect approach shots helped him to a 4 and 2 win.

Canada's losers were Nick Weslock of Windsor, Ont., Pete Kelly of Fredericton, Phil Farley of Toronto and Percy Clogg of Vancouver.

Clogg was up against a first-class golfer in Jimmy McHale of Mamaroneck, N. Y., a Walker Cup player. At that he forced him up to the 17th hole, to lose 2 and 1.

FEW UPSETS

In other play today one former U. S. amateur champion and the 1951 runner-up were eliminated. But in general the golfing talent did exactly what was expected on the hilly, tree-lined Seattle Golf Club course.

The defeat of Chick Evans left Charlie Coe, the Oklahoma City stringbean as the only ex-champion in the field. Coe, winner in 1949, beat another Oklahoma City player, Russell L. Brown, 5 and 4.

He advanced along with such celebrated players as Harvie Ward of Tarboro, N.C., the British amateur titleholder and Frank Stranahan of Toledo, who has won the British title twice but never the American.

Yankees Purchase Third-Base Insurance

NEW YORK, Aug. 19 (AP) — New York Yankees today obtained third-baseman Loren Babe from Syracuse Chiefs of the International League. They sent infielder Andy Carey to the Chiefs on option. Babe, 24, has hit .302 in 125 games with the Chiefs.

MIDDLECOFF WINS PLAYOFF WITH 66

KANSAS CITY, Aug. 19 (AP) — Cary Middlecoff fired a blistering six-under-par 66 to win the $15,000 Kansas City Open Golf Tournament today in a play-off with Jack Burke, Jr., Houston, Tex., who had a par 72.

Middlecoff, of Memphis, Tenn., retained the tournament title which he won last year in a three-way playoff—that time with Doug Ford of Harrison N. Y., and Dave Douglas, Newark, Del.

The Memphis dentist, who lost out in the "world" tournament play-off at Chicago last Monday, left no doubt of today's outcome as he birdied the first four holes and finished the front nine four strokes ahead of Burke.

Both men finished the regular 72-hole grind Sunday with 276 totals.

Indians Acquire 'Pennant Insurance' In Reliefer Wilks

CLEVELAND, Aug. 19 (AP) — Cleveland Indians today announced a deal with Pittsburgh Pirates, bringing relief h rler Ted Wilks and infielder George Strickland to Cleveland in return for reserve infielder Johnny Berardino and a "sizable bundle" of cash.

The American League Indians described the trade as "pennant insurance" giving the Tribe's hurling staff some bench strength.

Wilks, 36, has a record of five victories and five losses with the last-place National League Pirates this year. In 70 innings he gave up 63 hits and 25 earned runs for an earned run average of 3.21, which is the same as his lifetime figure.

Strickland, 26, currently is batting .180.

FIGHTS

By The Associated Press

CHICAGO — Toxie Hall, 188, Chicago, stopped John Holman, 206, Chicago (8).

BROOKLYN — Lee Sala, 161¾, Pittsburgh, stopped Joe Rindone, 162, Boston (6).

SYDNEY, Australia — George Barnes, 138¼, Australia, outpointed Bud Smith, 143¾, Cincinnati (12).

PITTSBURGH — Orlando Zulueta, 135, Havana, Cuba, outpointed Harold (Baby Face) Jones, 137, Detroit (8).

FINISH LAST YET WIN? HERE'S HOW

OTTAWA, Kas., Aug. 19 (AP) —Byron Faden finished last twice — and still won a motorboat race.

Faden, making his racing debut, was revving up his engine when, to his amazement the other boats took off. Faden went after them. He crossed the finish line last.

Then officials announced the winning boat was Faden's. The others had jumped the gun and all were disqualified.

To win the Eskridge Race Trophy, Faden had to compete in a second heat. Once again he wound up last — and won.

He heard his name called out as the winner because the first and second boats had taken off too quickly and were disqualified.

Sauer, Doby Top Sluggers

NEW YORK, Aug. 19 (AP) — Home run leaders Hank Sauer of Chicago Cubs and Larry Doby of Cleveland Indians today also were well on their way toward nailing down their leagues' slugging championships.

Individual slugging averages compiled by The Associated Press reveal that Sauer, who has banged out 31 homers, is the National League slugging pace-setter with a healthy .581 mark. The hard-hitting outfielder has collected 251 total bases in 432 trips to the plate, also numbering 27 doubles and three triples among his 125 safeties.

Doby, with 223 total bases (including 26 circuit wallops) in 388 times at bat, leads the American League with .575. The speedy Negro flychaser also shows 18 two-baggers and eight triples among his 111 hits.

Gil Hodges, Brooklyn first baseman, is a distant second in the National League slugging derby. Hodges has compiled 192 total bases in 375 at bats for a .512 average.

Vic Wertz, obtained by the St. Louis Browns from Detroit last week, is runnerup to Doby in the American League. Vic, a .525 slugger, has 157 bases in 299 at bats with 16 doubles, three triples and 19 round trippers.

PRISON CHAPLAIN TO TAKE ON FREDDIE MILLS

LONDON, Aug. 19 (CP) — The bad boys at Britain's Dartmoor jail are on their best behavior—they don't want to miss a scheduled bout between Freddie Mills, former light-heavyweight champion and prison chaplain Rev. Lloyd Rees.

Mills will appear in several exhibition bouts at Dartmoor at the request of Governor Major G. B. Harvey. The chaplain, who used to do a little boxing in university and in the army, is the 33-year-old vicar of Princetown, next to the jail.

Padre Rees said: "It will be a case of back-pedalling all the time against Freddie Mills but I don't think I shall end up in hospital. Freddie is the sort of man you can trust."

BARONS' CAMP OPENS SEPT. 15

CLEVELAND, Aug. 19 (CP) — Jim Hendy, general manager of Cleveland Barons of the American Hockey League, announced today the Barons will open their 1952-53 season training camp Sept. 15 at Stratford, Ont.

Fifty-six amateurs will report opening day and 25 professionals will go to the camp Sept. 22.

The Barons failed in a bid to enter the six-team National Hockey League earlier this year. "I guess we got so much publicity about our futile attempt to get into the N.H.L. and our disappointment about not making it that most hockey fans seem to think that Cleveland is dropping out (of hockey) entirely," Hendy said in a statement.

RILEY B. C. JUNIOR GOLF CHAMPION

VANCOUVER, Aug. 19 (CP) — Kevin Riley of Vancouver today won the British Columbia junior match play golf tournament with a 1-up victory over Bill Kemp of Burquitlam, B.C. The tournament was played on the Marine Drive course.

Mantle Still 4-F

MIAMI, Okla., Aug. 19 (CP) — As a soldier, Mickey Mantle apparently makes a good baseball player. His draft board declined today to order another physical examination for the New York Yankee outfielder and left him in his 4-F classification.

NO RETIREMENT, JUST REST SAYS SUGAR RAY

NEW YORK, Aug. 19 (AP) — Middleweight champion Sugar Ray Robinson, who underwent a nose operation last week, was quoted by the New York Post today as saying: "I certainly have no intention of announcing my retirement."

Robinson now is at home after an operation for removal of scar tissue from his eyes and a plastic job on his nose.

"I intend to take a long rest, probably until the Winter," the middleweight king told the Post, "but I still feel I want to fight again."

WESTERN UNION GRID SCHEDULE

By The Canadian Press

Following is the Western Interprovincial Football Union schedule for the 1952 season:

Aug. 23—Edmonton at Regina; Calgary at Winnipeg.
Aug. 25 — Calgary at Regina; Edmonton at Winnipeg.
Aug. 30 — Regina at Winnipeg; Edmonton at Calgary.
Sept. 1 — Winnipeg at Regina; Calgary at Edmonton.
Sept. 6 — Winnipeg at Edmonton; Regina at Calgary.
Sept. 8 — Winnipeg at Calgary; Regina at Edmonton.
Sept. 13 — Calgary at Regina; Edmonton at Winnipeg.
Sept. 20 — Winnipeg at Regina; Calgary at Edmonton.
Sept. 22 — Regina at Winnipeg; Edmonton at Calgary.
Sept. 27 — Edmonton at Winnipeg; Calgary at Regina.
Sept. 29 — Calgary at Winnipeg; Edmonton at Regina.
Oct. 4 — Winnipeg at Calgary; Regina at Edmonton.
Oct. 6 — Winnipeg at Edmonton; Regina at Calgary.
Oct. 11 — Regina at Winnipeg; Calgary at Edmonton.
Oct. 13 — Winnipeg at Regina; Edmonton at Calgary.
Oct. 18 — Winnipeg at Calgary; Regina at Edmonton.

Flingin' Frank Confident . . .

Filchock's Eskimos Are Balanced Squad

By JIM PEACOCK
Canadian Press Staff Writer

EDMONTON, Aug. 19 (CP) — Frank Filchock makes his coaching debut in the Western Interprovincial Football Union Saturday, confident his Edmonton Eskimos will do him justice.

Flinging Frankie, last year understudy to Annis Stukus and quarterback who led Eskimos to the W.I.F.U. final where they lost to Saskatchewan Roughriders, picks up where Big Stuke left off — at Regina.

The 35-year-old ex-American import who coached Hamilton Tigers to the O.R.F.U. title in 1948 and led Montreal Alouettes to the Grey Cup in 4949, picks Winnipeg Blue Bombers as the Western team to beat. But he's not belittling his own Eskimos.

Playing-coach Filchock introduced his Eskimos last Saturday against Montreal and the Esks' 29-11 victory indicated they will be no pushover.

The Eskimo mentor, who came to Edmonton in 1951 from the Als, suffered a rib separation in the exhibition game and won't see action in his first league trip. It's expected he will be back in the line-up for Esks' Sept. 1 opening home game against Calgary Stampeders.

15 IMPORTS

Among the 15 imports in the Edmonton camp is Claude Arnold, who Filchock hopes will permanently relieve him of his playing chores. Arnold, a short-passing quarterback, led Oklahoma Sooners to a modern U.S. record of 31 straight wins in 1950. He sat out last year and didn't impress in his first Canadian start.

"But," Coach Frankie says, "He'll be okay. Remember, it was his first fling at our game.

Esks have two Canadian quarters to call on — George Festeryga, holdover utility back, and Glen McWhinney who led Winnipeg Light Infantry to the Canadian Intermediate final in 1951.

On the import list, which must be cut to eight by Oct. 1, are holdovers Scatback Rollie Miles, guard Mario DeMarco, tackles Joe Blanchard and Chuck Quilter, and ends Rollin Prather and Harold Hatfield. Centre Joel Williams, tackle and line coach George Brown and quarter Lindy Berry won't be back.

Arnold and halfback Bobby Flippin of Mid-western University, La., are newcomers to the backfield. New on the line ar centres Eagle Keys of Montreal and Wake Forest College, and Gayle Pace of the University of California.

Other new linemen include guard Bob Downs from San Francisco 49ers, and tackles Dick Steers from Philadelphia Eagles and Keith Carpenter from San Jose State College, Calif.

Frank Anderson, an all-American teammate of Arnold with the 1950 Sooners, and Joe Aguirre, from Winnipeg and Los Angeles Dons, are new ends. Aguirre, replaces Brown as line coach.

Fullback Bob Paffrath and Filchock are American who are now classed as home-brews after four years in Canada.

The outstanding Canadian addition is fulback Rod Pantages from Montreal Als. He joins Eskimo sophomore Don Lord of Vancouver to give Esks solid kicking.

Among Canadian holdovers are backfielders Jim Chambers, Mike King, Normie Kwnog and Steve Mendryk, and linemen Jim Quandamatteo, Frankie Morris, Bill Zock and Bill Briggs. Vic Mayson and Steve Bendiak are up from the Edmonton junior ranks. Bolstering the line are Edmonton home-brews Gene Kiniski and Steve Paproski, both trained in American College Football.

Last year Prather, the lanky, bruising end, was selected on the All-Canadian, All-Star team. Paffrath, Kwong, King and DeMarco made the W.I.F.U. first all-star team and Miles, Quandamatteo and Quilter made the second dream squad.

Chambers, the towering, fleet-footed Negro backfielder Eskimos picked from Montreal minor football ranks, finished in a three-way tie for third place in the W.I.F.U. scoring race and Kwong placed ninth.

Canadian Net Title Play Runs According to Form

TORONTO, Aug. 19 (CP) — Canada's Davis Cup players and leading stars from the United States eased their way into the fourth round of the Canadian Lawn Tennis championships today. All but one — Montreal's Brendan Macken—made it with ease.

Macken was forced to three sets before defeating Rodolpho May, 22, of Mexico, i nthe third round men's singles.

Curly-headed May, rated fifth in Mexico, took the first set and seemed well on the way to victory in the second when Macken broke through his service to win, 2-6, 6-4, 6-2.

Macken, who obviously had trouble getting started, double-faulted three times in one game.

Later in the third round singles, left-handed Henri Rochon of Montreal defeated Pete Stewart of Toronto, 6-1, 6-3.

MAIN WINS

Blonde Lorne Main of Vancouver played his usual steady, two-handed game to defeat Andy Stern of New York city in straight sets, 6-3, 6-4.

In one of the most heralded matches of the tournament blonde Hugh Peacock of Toronto was defeated by Dick Savitt, United States ace from Orange, N.J., 6-1, 6-0.

Savitt rarely exerted himself but the young University of Toronto student put up a stiff battle and forced the match to deuce games on several occasions.

Savitt later went on in the third round to easily defeat Ruli Milowtz of Ottawa, 6-2, 6-0.

Dark, attractive Melita Ramirez of Mexico scored one of the most decisive and surprising victories of the day when she sailed to an easy finish over former Czech finalist Hanna Sladek, 6-2, 6-0.

Art Larsen of San Leandro, Calif., U.S. national clay and hard court champion, easily defeated Ralph MacMillan of Edmonton in love sets.

Hal Burrows of Virginia City, Va., who defeated Canada's Lorne Main of Vancouver at Quebec City recently, downed Vladimir Lercque, champion of Ecuador, after a hard-fought battle, 6-2, 8-6.

Pat Macken of Montreal, playing in her first round of tournament play here, defeated Louise Davenport of Vancouver 6-2, 6-3.

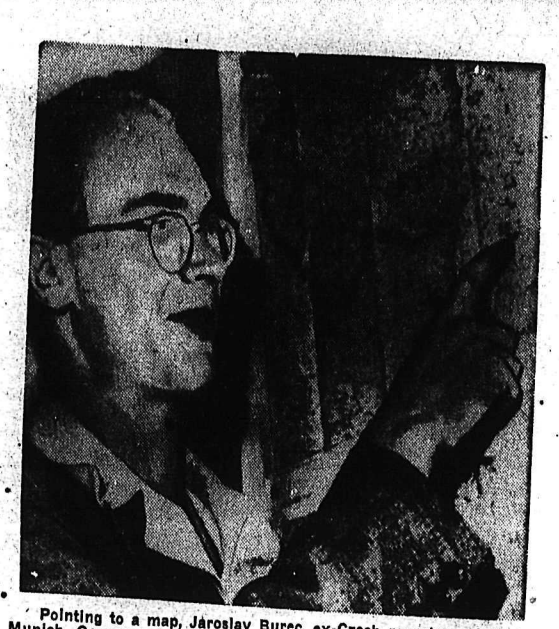
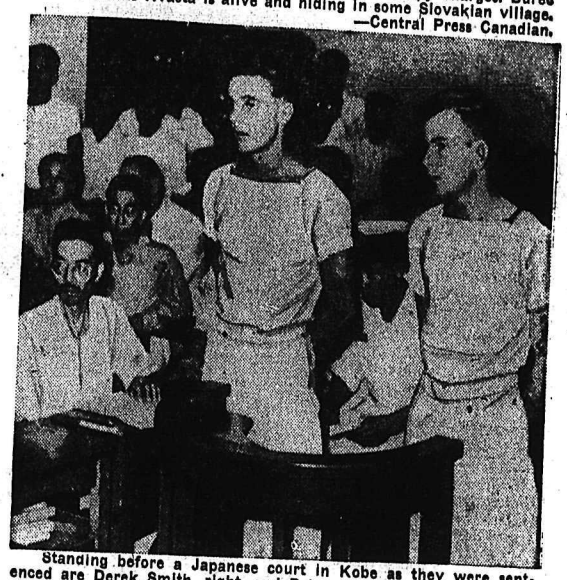
These two photos illustrate how the executive officer on the carrier USS Badoeng solved the problem of the "hung rocket"—a situation which develops when a plane comes home with one of its rockets in the rack. The missile is jarred loose and shoots across the deck, creating a dangerous hazard, when the arresting gear on the vessel pulls the plane up short. At top, you see the rocket hurtling forward. At bottom, a barrier of cargo nets, rolled into cylinder-like bundles, brings the rocket to a quick stop and crewmen rush in to remove it from the flight deck of the carrier.—Central Press Canadian.



Pointing to a map, Jaroslav Burec, ex-Czech reporter, relates in Munich, Germany, how he fled a Communist prison in Czechoslovakia with John Hvasta, a U.S. ex-sailor, who is still missing. The latter had been jailed by the Reds on supposed spy charges. Burec said he thinks Hvasta is alive and hiding in some Slovakian village. —Central Press Canadian.



Standing before a Japanese court in Kobe as they were sentenced are Derek Smith, right, and Peter Stinner, two sailors from the British cruiser Belfast. They were given 30 months each by the Japanese court for robbing a Japanese taxi driver of $5 during a drunken escapade while ashore in Kobe. The sentence brought a protest from the British government, which took the stand that the Japanese civil courts have no jurisdiction over Allied personnel. The Japanese government insists on its right, but the international incident may blow over following decision of another Japanese court to review the case. Opposition members of the Japanese parliament hope to unseat the government on this issue.—Central Press Canadian

Some 150 delegates from 22 non-Communist countries, including Canada and the United States, attended the Fourth Council of the World Assembly of Youth at Dakar, which opened on Aug. 3. Above are Maurice Sauve of Montreal, chairman of the assembly, and Ibrahima Diop, grand serigne of Dakar, after opening ceremonies. —Central Press Canadian

Cadet Warrant Officer Richard Glinski, left, of the Royal Canadian Air Cadets, presents trophy to Gen. Curtis E. LeMay, commander of the U.S. Strategic Air Command, at a special ceremony in New York. Gen. LeMay was named "Airman of the Year" by air-minded youths of 16 nations participating in the international cadet exchange program of the Civil Air Patrol. The general won the award for his outstanding contribution to aviation in the past year. —Central Press Canadian

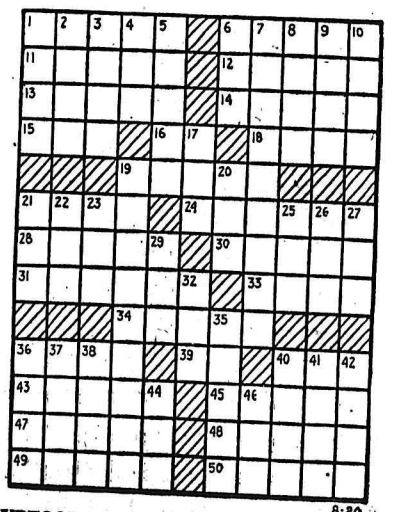
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

S K G U K O K P Z K I I K P C N A K D I N M N S S, C S N K I, M H Z U I, D A P C S H M K Z I K W V K K P U K I G N S S — M D G G I.

Yesterday's Cryptoquote: LET HIM NAME IT WHO CAN, THE BEAUTY WOULD BE THE SAME.—TENNYSON.

PUBLIC NOTICE

Sealed Tenders for the General Contract, including all trades, are hereby invited for the erection and completion of one class-room schools at Ainsworth and Retallack, B.C., and of a two class-room extension to the school at Riondel, B.C. These tenders, endorsed: "Tender for Ainsworth Elementary School," "Tender for Retallack Elementary School" or "Tender for Riondel School Extension," as the case may be ,will be received by the Secretary-Treasurer, School District No. 6 (Kootenay Lake), on or before Saturday, August 30, 1952, at 5:00 p.m., at his office in Kaslo, B.C.

Working drawings and specifications for the erection of Ainsworth and Retallack Schools will be available at the office of the Secretary, Kaslo. These are identical. Those for the building of the Extension to Riondel School will be available at the office of Mrs. I. J.-C. Williams, Architect, 373 Baker Street, Nelson. A certified cheque for five per cent (5%) of the tender must accompany each and every tender and shall be forfeited if the party tendering declines to enter into Contract when called upon to do so. On award and signing of the Contract, the successful tenderer shall furnish to the Board of School Trustees a surety bond equal to fifty per cent (50%) of the Contract price. On receipt of this bond, the certified cheque submitted with the tender will be returned.

The Board of School Trustees and the Department of Education reserve the right to reject any or all tenders without explanation. No tenders having qualifying clauses will be considered. A deposit of ten dollars ($10.00) is required for each set of plans and specifications and will be returned upon receipt of same in good condition.

J. J. CLARK,
Sec.-Treas.,
School District No. 6
(Kootenay Lake).

Dated at Kaslo, B.C.
this sixteenth day
of August, 1952.

TENDERS FOR INSTALLING WATER MAINS

Tenders will be accepted by the Corporation of the Village of Silverton, British Columbia, up to 12 p.m. M.S.T. 30th August, 1952, for the installation of approximately 4500 feet of Transit Pipe Water Mains. Minimum depth of trench four feet.

Lowest or any tender not necessarily accepted.

Further particulars may be obtained from the Clerk, Corporation of the Village of Silverton, B.C.

CHANGE OF NAME

HILL SIDING POST OFFICE TO HILLS, B.C.

The District Post Office Inspector advises, a change in name of the Hill Siding Post Office to Hills, B.C. The above became effective August 16, 1952.

Market Trends

NEW YORK, Aug. 19 (AP) — Railroads started a recovery movement today that pulled the stock market up from the sharp setback suffered yesterday. Gains and losses extended about a point either way.

Amerada shot ahead between 7 and 8 points at one time in contrast to its loss of 4¼ yesterday.

The element that detracted from the market's action today was the lack of substantial volume. It came to an estimated 1,000,000 shares.

Higher stocks included Northern Pacific, Santa Fe, Sinclair Oil, Barber Oil, American Can, Du Pont, United Aircraft, Goodyear and American Machine & Foundry.

TORONTO (CP) — All sections weakened today in moderately active trading toward the stock market's close.

Volume totalled about 2,500,000 shares.

Gold prospects showed greatest strength while senior golds, juniors and holding companies slipped. among the prospects, Chimo, Eldona, Crowshore and Rouyn traded actively for small gains while Gunnar broke even on a turnover of more than 150,000 shares.

Western oil losses outnumbered gains more than two to one. Albermont, the most active issue, dropped pennies but a number of leading issues held firm.

MONTREAL, (CP) — A steady to lower trend prevailed on the stock exchange and curb market in dull trading towards the close today. The bulk of the list traded unchanged and the few changes were generally fractional and downward.

Hudson Bay Mining, Aluminuium and Consolidated Smelters lost ground to lead senior metals lower. Senior oils and papers were also down with Imperial Oil, Consolidated Paper and Husky Oil selling at lower prices.

LONDON (Reuters) — Business on the London Stock Exchange was reduced to a minimum today, the end of the current trading account.

Foreign-bonds were prominent with Japanese rallying after an early decline. Tokyo Electric was up three points to 170 and 1930 5½ per cents were 4½ points better at 156. German reich loans were about a point better and Greek 6 per cent stabilization bonds improved 2½ points to 12½.

Sister of Health Minister Named Party in Illegal Immigration Probe

WASHINGTON, Aug. 19 (AP) — The Justice Department today named a sister of Canada's Minister of Public Health and Welfare as among those involved in its investigation of alleged immigration visa frauds. She is Mrs. Aline Steigerwald of Windsor, Ont.

In a statement, the department said she is reputed to have acted as an advisor to Canadians seeking border-crossing papers.

Her brother, the department said, is Canadian Health Minister Paul Martin.

The Justice Department is looking into the status of some 100 Canadians who have immigrated to the Detroit area.

ILLEGAL VISAS

Attorney-General James McGranery said 10 days ago that the inquiry has established that many obtained visas to enter the U.S. by misrepresenting their financial situation to the American consul at Windsor.

Churchill Gives Good Wishes To B.E. Games

LONDON, Aug. 19 (CP) — Prime Minister Churchill gave his official blessing today to the British Empire Games, to be held in Vancouver in 1954.

In a message to Stanley Smith of Vancouver, general chairman of the British Empire and Commonwealth Games (Canada, 1954) Society, Churchill said he feels sure the Games "will provide yet another opportunity for cementing the links which bind together Her Majesty's subjects throughout the Commonwealth."

The prime minister's message was made public as Smith, head of the organizing committee for the 1954 Games, prepared to fly back to Canada after a six-week stay in Helsinki and London. In London the Vancouver business man visited Wembley Stadium and talked with its chairman and managing director, Sir Arthur Elvin.

As a result, Smith returns to Vancouver with two leather briefcases bulging with information on how to run an international sports meeting.

Smith said the new name, British Empire and Commonwealth Games Federation, represents a compromise between views of various member countries. It was understood South Africa and Pakistan wanted the old name British Empire Games Federation changed to Commonwealth Games Federation, but other countries including Canada held out for the inclusion of British Empire in the title.

The Canadian official arrives in Montreal tomorrow and expects to spend about two days there before proceeding to Vancouver.

DEATHS

Wuerzburg, Germany — Dr. Fitz Koenig, 86, leading German authority on the surgical treatment of cancer.

Maintenance of Export a Major Canada Problem

By FORBES RHUDE
Canadian Press Business Editor

Canada's major problem for the next few years, possibly a decade, will be maintenance of exports, says a letter from the Canadian Exporters' Association concerning its annual convention Oct. 27-28, at the Seigniory Club, Que.

The letter adds:

"Solutions to questions which confront us are not easily found. But there are many and various ways of approaching the subject and getting results, and that, of course, is what the convention will attempt to accomplish."

One session will consist of a panel discussion, with officials of the Department of Trades and Commerce on hand to answer questions.

Guest speaker at the annual dinner will be George W. Wolf, of New York, President of the United States Steel Export Corporation. Alex Gray, Toronto is President.

FOREST WEALTH

The Canadian Pulp and Paper Association has issued a 19-page booklet on the forest industry, entitled, "The Pulpwood Harvest." The booklet comments, in part:

"Directly and indirectly, the forests generate a quarter of the income of all Canadians. And the pulpwood harvest is the basis of more than half of all the economic benefits which flow to Canada from her vast woodland.

"The forests need no definition, but pulpwood is the wood that is, or that can be used in the manufacture of pulp and paper, an industry which creates more new wealth for Canada than any single element in the economy.

"Pulp and paper, but a single sector of the forest industries, alone creates more national wealth every year than all the mines or all the grain crops of Canada.

PULP AND LUMBER

"There exists no sharp line for dividing trees for pulpwood and those used for lumber. Large logs, naturally are of more initial value if they can be delivered economically to a sawmill. Generally, though, it is trees of a lesser diameter, or of lesser value as lumber, that furnish pulpwood.

"So for the most part, logs which could never make anything but poor lumber are the raw material of the pulp and paper mills. There are vast areas of mature Canadian forests where the trees have not attained, and never can attain a size suited to the manufacture of good lumber.

"Thus the utilization of pulpwood has increased enormously the inherent wealth of Canadian forests."

Severe Damage in Oil Refinery Fire

EDMONTON, Aug. 19 (CP) — A fire last night at Imperial Oil's big refinery on Edmonton's eastern outskirts did heavy damage to refining installations, and may result in a production loss in the next 14 days.

The fire, which broke out in a cracking unit, raged uncontrolled for nearly an hour. The tank farm, where millions of gallons of oil and other petroleum products are stored, was never threatened by the blaze.

A faulty intake near one of the cracking unit's furnaces was blamed for the fire. The cracking unit is one of the first steps in processing crude oil into refined lubricating and fuel oil, and other by-products.

A stream of oil from a broken valve fed the fire and flames shot more than 50 feet into the air. They were visible from the centre of the city.

FIREFIGHTERS CALLED

Workmen on hand when the blaze broke out directed streams of water on the fire and adjacent installations, but it was not until specially-trained firefighting crews were called out on duty that an organized effort was made to stop the fire. Once the pipeline feeding the blaze was shutoff the blaze was quickly brought under control.

Herbert Moor, superintendent of the refinery, said the loss of the cracking unit will not affect production for a few days. But unless the equipment is replaced within one to two weeks, productions will be reduced.

Tribesmen on Trial For Riot Killings

LOBATSI, Bechuanaland, Aug. 19 (Reuters) — Twelve Bamangwato tribesmen were lodged in a barbed wire cage yesterday to go on trial this week for killing three African policemen during riots at a forbidden tribal meeting.

NOT SO LOUD, MISTER . . . During a rehearsal of the R.C.A.F. Band in Toronto, little Mike McVeigh, of Toronto, volunteered his services as a bass drummer but abandoned the idea in favor of his ear drums when he found the volume of the recorder bass horn, played by Flight Sergeant W. Boyce, of Richmond Hill, Ont., too much for his musician's temperament. The only one of its kind in Canada, the recorder bass horn is capable of great volume as can be seen by its effect on the young listener. (Fathers, please note). The R.C.A.F. Band, comprising 75 musicians selected from the Training Command and Tactical Air Group Bands, has been engaged as the feature concert band for this year's Canadian National Exhibition and will give a series of 28 concerts, commencing August 22. —(National Defence Photo.)

Truman Orders Long Secret Oil Deal Reports To Be Published

WASHINGTON, (AP) — President Truman has ordered the lid off a long-secret report on international oil deals, amid new charges that a rich and powerful oil cartel is siphoning off United States foreign-aid funds.

The report, which may have diplomatic repercussions abroad, promptly became fuel for a Federal Grand Jury which will open next month an investigation of alleged price-fixing and monopoly practices in the oil industry.

Decision to lift the official secret label from the report, year after it was written by federal experts, was announced yesterday by Senator John Sparkman of Alabama, the Democratic nominee for vice president.

Sparkman spoke as head of the senate small business sub-committee. He said the 10-chapter report is being printed now by his sub-committee and "probably will be available for distribution by the end of this week."

SECRET DOCUMENTS

The State Department has acknowledged that it had the document classified as secret for security reasons and lest its contents further inflame relations between British oil interests and the Government of Iran.

1. The Justice Department moved to subpoena the report for its recently-ordered federal grand jury investigation of monopoly charges against seven U.S. and foreign oil companies.

2. Senator T. C. Hennings (Dem. Mo.) fired new accusations of intrigue at the oil firms, charging they form a cartel and a "giant conspiracy" profiteering against European countries which receive U.S. dollar aid.

Hennings renewed accusations that the oil companies charge those countries a higher price for oil than they charge buyers in the U.S. and Canada, contending that this has added huge sums to the costs of U.S. foreign aid.

Sparkman's statement said the suppressed report "traces the substantial control by seven international oil companies over the petroleum industry of the world."

Views From the News Fronts

Iranian Premier Mossadegh is more of a nemotionalist than an economist, but even he must know that from now on, in any negotiations or settlement of his oil problem, Britain will have the upper hand.

The world is no longer greatly interested in Iranian oil as such.

The primary object now is to keep Iran and the oil out of Communist hands. If and when production is resumed it will only provide a headache for the trade.

When Iran went out of production, Anglo-Iranian Oil intensified its efforts to produce elsewhere. Kuwait, in Arabia soon was providing more than a third of the 670,000 barrels annually which had been taken from Iran. American companies on nearby Bahrein Island and in Saudi-Arabia did likewise. The British have brought in new wells and laid new pipe in Iraq. The slack left by the Iranian stoppage has been taken up.

All the Middle East concessions involve payment to local authorities on the basis of production. In addition, new agreements recently made, or being negotiated, give the states larger percentages than before.

If, for the sake of Iran's political stability — and there is now no other pressing reason — her oil comes back to market, downward adjustments will have to be made in reduction elsewhere. And that could cause a lot of trouble for the companies.

Another source of trouble lies in Iran's long-standing claim to sovereignty over Bahrein, ruled for the last 85 years by an independent sheik under British protectorate. Its oil concession is held by Standard of California. Its ownership has been made an issue by Mossadegh's nationalists, and can be expected to be injected into any settlement negotiations with the British.

The British are not being stampeded by fear, which seems to be stronger in the United States, that if something isn't done soon to help stabilize the Mossadegh government, a Communist coup can be expected.

But the only thing that will put Iran back on her feet is resumed oil production. And that becomes an increasingly knotty problem for everyone.

Canada's Wheat Carryover Biggest in Seven Years

OTTAWA, Aug. 19 (CP) — Canada's wheat carryover from the last crop year totalled 212,974,000 bushels, the biggest in seven years, the Bureau of Statistics reported today. The crop year ended July 31.

This balance, which will increase the strain on Canada's grain storage facilities, is a gain of 25,785,000 bushels from the 187,189,000-bushel carryover in the previous crop year.

But it is some 43,000,000 bushels below the 10-year average annual carryover in the 1941-50 period.

Of the current carryover, 210,731,000 bushels were in various Canadian positions, including 94,946,000 bushels at country elevators, and 2,243,000 bushels in the United States.

Total carryover of five major grains — wheat, oats, barley, rye and flaxseed — in all North American positions amounted to almost 405,000,000 bushels, a big increase over last year's 342,400,000 and the 1941-50 average of 368,300,000.

Besides wheat, the carryover for other grains at July 31 were:

Oats—104,896,000 bushels, up from last year's 95,177,000; barley — 76,938,000, up from 53,496,000; rye — 7,676,000 more than double last year's 3,298,000; flaxseed — 2,434,000, again more than double last year's 1,203,000.

Woman Shoots Wolf

RED DEER, Alta., Aug. 19 (CP) — In this Mother Goose story, it was the grandmother who bumped off the big bad wolf.

Mrs. Lula Haney of the Ricinus district, 50 miles West of here, was relaxing on her front porch when a wolf wandered near the house.

In true Jesse James style, she calmly reached for her rifle and drew a bead on the animal.

Thanks to "One Shot" Haney, the wolf population of the Ricinus district has decreased by one.

Around-the-World In 3½ Years On a 32-Foot Sloop

NEW YORK, Aug. 19 (AP) — A Brooklyn bachelor, sailing alone in his 33-foot sloop, completed a round the world voyage today — 3½ years after he left here without a word of his plans.

Al Peterson, 40, made the trip in the Stornoway.

A friend, John Slater, told this story:

In 1949 Peterson provisioned the Stornoway for a long voyage and sailed from Brooklyn without announcing his destination.

A postcard from Florida was the first hint of his whereabouts. The next card came from a Pacific Coast port.

Then it was Tahiti, Sydney, Australia, through the Indian Ocean and the Red Sea to the Mediterranean, and on to Dakar, Africa.

Peterson left Dakar June 28 for the 52-day run across the Atlantic to Brooklyn.

The Stornoway, with an 11½-foot beam and six-foot draft, is equipped with two sails rigged on a single mast and an outboard motor.

59 Reds Die in Malayan Campaign

SINGAPORE, Aug. 19 (Reuters) — British forces killed more Communist terrorists in the first half of this month than at any other time in nthe fourth-month long Malayan campaign, preliminary figures showed today. The death count was 59. The record full month came last June when 110 guerrillas were slain.

T.L.C. Would Keep Canada Free From Discrimination

WINNIPEG, Aug. 19 (CP) — The Trades and Labor Congress of Canada today adopted a committee report declaring itself "distressed and appalled" at racial strife in South Africa.

The 502,000-member Congress, Canada's biggest labor body, hit at the South African government for "deliberate efforts . . . to divide their country and to aggravate the racial tensions of the whole continent of Africa."

"We hope that our own country will never see the day when racial discrimination would lead us to such a tragic state of affairs" the Congress added in adopting the report of its committee on racial discrimination.

In Canada, the report declared, "positive results" are appearing from Labor's long campaign against discrimination.

WINNIPEG, Aug. 19 (CP) — The government intends to have fair-employment practices provisions inserted in its contracts, the Trades and Labor Congress of Canada was advised today.

A report from the T.L.C.'s racial discrimination committee said Labor Minister Gregg had advised the committee of this intention, in line with previous Congress requests.

The Congress adopted a report from the committee urging all affiliated bodies to continue working for removal of all discriminations based on race, color or creed.

U.S. Minesweeper Erroneously Fires at Tug

TOKYO, Aug. 19 (AP)—A United States Navy minesweeper and salvage tug arrived last night for a formal investigation of an incident off Korea in which the minesweeper fired twice on the tug, killing two and injuring nine.

A Navy officer said the accidental shooting resulted from failure to exchange recognition signals between the minesweeper Chief and the Grapple.

In Washington, the Navy said a Navy Board will investigate. The Navy said two three-inch shells from the Chief hit the Grapple last Friday night when the vessels were searching for small Communist ships off Hungnam on Korea's Northeast coast.

Britain Asks Price Cut in Danish Bacon

COPENHAGEN, Aug. 19 (Reuters) — A British demand for a 15-per-cent cut in Danish bacon prices caused a breakdown in last week's London conferences, the newspaper Berlingske Aftenavis said yesterday.

The Danish representatives, who returned home last night, refused comment on the report.

T.L.C. Will Call on Gov't for K.O. of Reds

By JOHN LEBLANC
Canadian Press Staff Writer

WINNIPEG, Aug. 19 (CP)—Canadian labor's biggest body, which has been biffing union Reds around roughly, is about to call on the Canadian Government for the kayo.

With the Red cleanup in the Trades and Labor Congress of Canada just about over, the Trades and Labor Congress of Canada, at its annual convention here this week is expected to call on the Federal Government to outlaw Communists in Canada.

A long step from old T.L.C. tolerance of Communists in its ranks—it even had Communist Pat Sullivan as National Secretary-Treasurer until 1948 — the move is understood to have had the backing of the T.L.C.'s executive. The proposal is a further step in the T.L.C.'s moves, reluctant at first but later gathering momentum, to bat down Canadian Reds.

The proposal today was at the position where, it was learned, it had been okayed by both the T.L.C.'s convention Resolutions Committee and the executive of the 522,000-member body. That was tantamount to its adoption by the convention when it came up later.

It meant the possibility, too, of tossing the Federal administration into something of a quandry.

BOOT OUT REDS

The administration is against throwing Communists in Canada outside the law, having said many times it prefers to have labor boot out its Reds and let other Communists have their say. Against that is the fact that the government—though the T.L.C. is traditional neutral in politics—always has looked for at least some support from it.

A main reason for this is that the other big central labor body—the 350,000-member Canadian Congress of Labor — is aligned with the C.C.F. The C.C.L., due to meet in Toronto Sept. 22, has for several years designated the C.C.F. as the political arm of labor.

Labor Minister Gregg is due to address the convention here during the early part of the week, and he may run into the problem. However, it was only at the back room stage today, and he might miss it.

In their opening meeting yesterday, the T.L.C. members engaged in a sharp tiff over union jurisdiction also turned a cold shoulder to a proposal to chop down on some socialistic aims in its "platform of policy."

T.L.C. POLICIES

The policies are those of public ownership of all public utilities, nationalization of banking and credit and government control of all natural resources. After a debate on which some others of the 18-plank platform came under discussion, the platform was referred back to committee for reconsideration. However, it appeared the socialistic policies would not be touched.

One plank that might be added was that of the placing of immigration under the Department of Labor.

The squabble over union jurisdiction came in an attempt to shift some membership from the Congress' own small chartered unions—organized by its own men — to larger international and national unions. It was defeated decisively.

Dies of Snake Bite

TALCO, Tex., Aug. 19 (CP)—Bryant McLellon, 52, died last night of a bite from a snake he thought he had killed. He threw a moccasin out of a creek he was fishing, the later lay down on the creek bank to rest. The moccasin bit him three times in the right side.
