Ansco Resigns, P-C Vote Today

Will Face Bennett In Convention Poll

VANCOUVER, Oct. 6 (CP)—Finance Minister Herbert Anscomb tonight resigned as leader of the British Columbia Progressive-Conservative Party. He called for a leadership vote Saturday, the final day of the Party's annual convention.

Mr. Anscomb had headed the Party for four years. B. C. is governed by a Liberal-Progressive-Conservative Coalition.

The unforseen move by the veteran politician came with startling suddenness in a special night convention session.

Mr. Anscomb spoke for only five minutes. His announcement brought a roar from the more than 500 assembled delegates.

For two hours previously Young Conservatives vs old-line party members battled a motion by the former group to force a vote on the leadership.

Anscomb supporters tried vainly to stem off the vote for a new leader with vote of confidence amendment.

The anti-Anscomb faction fought this all the way calling for a clear cut decision on who should be the leader of the party—W. A. C. Bennett, who is seeking to head the party, or Mr. Anscomb.

WILL BE CONTENDER

With the discussion not yet ended, Mr. Anscomb stood up on the platform—he had not spoken at any time during the evening—and in a few words handed in his resignation.

Calling for a leadership vote tomorrow, he stated in no uncertain terms that he would be nominated again and that the choice of a leader would be up to the membership.

Quietly, calmly, Mr. Anscomb said "So I am going to say to you now that I thank you again for the tremendous responsibilities that you placed on my shoulders four and a half years ago.

"And I am satisfied that I can prove to you tomorrow that I have carried out that responsibility as you expected it to be carried out.

"But I am going to tender to this great convention, the successor to the one that appointed me, and to the only people who, with common courtesy, it should be tendered, my resignation as your leader now.

"And I tell you that tomorrow (Saturday) I shall be nominated again for that post. And the responsibilities of the choice under the democratic system that we have will be yours."

A rebel group has insisted Mr. Anscomb either resign as leader or resign his directorship in companies doing business with the Crown. Mr. Anscomb holds a liquor company directorship.

Mr. Bennett, supported by many younger members of the Party, is the Coalition Member of Parliament for Okanagan South. He is in the hardware business.

Good News— Meat Prices Slide

Still Lower Tags Predicted If Consumer Resistance Develops

By The Canadian Press

Meat prices dropped slightly this week in many cities across Canada.

A Canadian Press survey today showed the greatest decline in the price of beef—as much as six cents a pound in some centres. Several cities reported lamb and pork prices down as much as two or three cents.

Many wholesalers regarded the price change as a seasonal one marking the coming of Fall. Others, however, saw it as a reflection of a plentiful supply of meat, a weakening of the United States market for beef and the freeing of the Canadian dollar.

Housewives welcome the prediction of some retailers that prices may come down still more.

The prices lowered from Halifax to Vancouver.

If consumer buying resistance crops up, some dealers predict a continued drop, amounting to perhaps 18 to 20 cents in the next month.

Vancouver and Halifax still show the highest prices for beef — about 98 cents a pound for porterhouse and sirloin steaks, a drop of two to three cents. Other Vancouver meats are down slightly, with further drops expected this weekend. Legs of lamb run 67 to 90 cents, pork chops 75 cents.

Beef has taken a six-to-eight-cent drop in Edmonton, with steaks 91 cents. Pork and lamb are little changed, pork chops are unchanged at 55 cents, shoulder of lamb down from 52 to 50.

Retail prices held firm in Regina and Winnipeg because of large stocks of high-priced meat on hand. However, price drops announced by wholesalers are expected to be passed on to the public next week. Sirloin steak in Winnipeg now is 79 cents. Pork chops are 58 to 73, leg of lamb about 83 cents.

10 DAYS AGO

One Toronto retailer predicted a five-cent drop for beef this weekend. A packinghouse official said the drop in beef started about 10 days ago and was accelerated by the exchange ruling. Wholesale lamb prices are down about $3 a hundredweight; pork is unchanged.

Wholesale decreases of three to four cents were passed along to Montreal housewives. Steaks and roast now are 85 cents. Lamb legs run 75 to 79 cents; roast pork 55.

One chain-store official said consumer resistance would force prices down even more. Prices certainly would not increase.

Outdoors Will Attract Holidayers

The doors of business houses in Kootenays will close today for two days—Thanksgiving weekend.

With hunting and fishing in full swing, residents will make the most of the longest holiday before Christmas to pursue these pastimes. And with a new rate on their dollars, many will stream across the International border for shopping—or just plain pleasure sprees—in the United States.

Others, with an eye to the family budget, will content themselves with shorter trips or even a stay-at-home weekend with a traditional turkey dinner.

Of all the holidays observed in Canada, none is so distinctively North American as Thanksgiving. It is a legacy of the Puritans, cherished because of its meaning, the romance and traditions that surround it.

Days of thanksgiving in recognition of special mercies or favors have been known since the earliest times and have been common to almost all nations. We can only guess, but we can never know, what primitive people of a forgotten age first gave thanks for rain after drought, for food after famine.

But although there have been many days of thanksgiving, America was the first nation definitely to set apart one day in each year for the sole purpose of rejoicing in the good things of life and "giving God thanks."

MAKE LABOR PARTNER SAYS ST. LAURENT

MONTREAL, Oct. 6 (CP) —Prime Minister St. Laurent tonight advised Canadian industry to treat labor as a partner.

Good industrial relations are vital to defence production, he said before the Canadian Industrial Preparedness Association.

Everything that could be done by employers to give labor "a genuine sense of cooperative partnership in our national endeavor," he said, would increase the national capacity to provide security and help Canadian industry make its most effective contribution toward a free world.

Mr. St. Laurent commended Canadian labor for the drive it has been making against communists in unions.

Would End Pattullo Bridge Toll

VANCOUVER, Oct. 6 (CP) — The B.C. Progressive-Conservative Party was asked today to support a resolution urging the end of tolls on New Westminster's Pattullo Bridge.

The resolution was presented to convention delegates by the New Westminster Provincial Executive Progressive-Conservative Association.

Breaks "Right" Leg

CLINTON, B.C., Oct. 6 (CP) — Tom Hamill, 50, broke his leg on a hunting trip and crawled four miles through the brush to his cabin.

But he didn't need a doctor. He had broken his wooden leg.

Hamill became lost Tuesday while hunting moose with two companions in Hungry Valley, some 250 miles North of Vancouver.

His companions organized a search party but they found Hamill today at the hunting camp. He broke his leg while stepping between two fallen trees.

Pain in Neck

BUFFALO, N.Y., Oct. 6 (AP) — "You give me a pain in the neck" can be the literal truth, a Toronto medical professor says.

Dr. Wallace Graham of the University of Toronto told the New York State Medical Society yesterday that "psychological disorders of the joints and muscles" can be caused by such environmental factors as disagreeable people.

"So when the first man said to someone who had been annoying him, 'you give me a pain in the neck,' he actually was speaking about a real pain," Dr. Graham said.

WINDS EASE; FIRE SLOWS

BATHURST, N. B., Oct. 6 (CP) —Decreased winds and cooler weather tonight have slowed the progress of a forest fire burning about 12 miles from this Northern New Brunswick town.

However, no rain was forecast.

The blaze, which began six days ago, was reported burning slowly toward the small settlement of North Tetagouche.

Canada Destroyer Home by New Year

New Oil Fields

OTTAWA, Oct. 6 (CP)—At least one of Canada's three destroyers in Korean waters is slated to be posted home around the end of the year, Navy Headquarters said today.

But, a spokesman said, the Korean situation is so fluid now that nobody knows just what is going to happen to the three destroyers although there are hopes they can come home a lot sooner than originally expected.

The tentative plans are that the Sioux will come home around the end of the year, the Cayuga early in March and the Athabaskan late in March.

They Balk at Pushing Buttons

MELBOURNE, Australia, Oct. 6 (Reuters)—Five hundred firemen here are on strike because 18 colleagues were fired for refusing to push buttons.

The strikers say they will stay out until the 18 are reinstated and until the Fire Brigade Board scraps regulations making it necessary for the men to push buttons on station time-clocks.

The button-pushing regulation is designed to ensure that someone is on duty at all hours. If the button goes unpushed for more than 10 minutes the general alarm rings automatically, turning out the whole brigade as for a fire.

Dies in Slag Blast

SYDNEY, N.S., Oct. 6 (CP)—Four tons of molten slag exploded at the Dominion Iron and Steel Company plant here today, rocking the area and causing the death of steelworker Joseph Sermoski, 46. Sermoski, 10 feet from the slag when it blew up, was burned beyond recognition.

DICTATOR FOR CZECHS

LONDON, Oct. 7 (Saturday) (Reuters)—The Daily Express today reports in a dispatch from Munich that Russia soon may send a red army marshall to Prague as "Soviet dictator" of Czechoslovakia.

GUILTY OF MURDER

BISBEE, Ariz., Oct. 6 (AP)—Harold T. Lantz, 28-year-old former railroad employee, was convicted tonight of the first degree murder of Miss Aba C. Park of Grinell, Ia.

A jury of five women and seven men found him guilty of the Pullman-car slaying of the 68-year-old spinster.

HISS APPEALS

NEW YORK, Oct. 6 (AP)—Alger Hiss today filed an eight-point, 125-page appeal from his conviction and five-year sentence as a perjurer who gave secret documents of the United States state department to a pre-war Russian spy ring. Hearing is scheduled for Oct. 13.

$44,000 IN FINES FOR COMBINE

No Public Injury Nine Glass Companies Contend

TORONTO, Oct. 6 (CP)—Nine Ontario and Quebec glass companies, convicted of conspiring to fix prices, today were fined a total of $44,000 and costs of $15,000.

Prosecutors for the Federal Government had asked for at least the maximum fine of $10,000 and costs.

The companies, in a surprise move at their trial Sept. 26, all pleaded guilty to the charge, laid under the Combines Investigation Act.

NO INJURY

In admitting their guilt, they claimed they had done no injury to the public. The combine had "brought the industry out of chaos" and "enabled it to serve the public better."

The Government took a much more serious view. The Federal Prosecutor, T. N. Phelan, said at the trial the companies had submitted identical bids on at least 153 separate tenders.

The companies are Consolidated Glass, Ltd.; Canadian Plate and Window Glass, Ltd.; Pilkington Brothers (Canada) Ltd.; Advance Glass and Mirror Co., Ltd.; Excelsior Plate Glass Co., Ltd.; and Queen City Glass Ltd.; all of Toronto; Lloyd's Glass Company, Hamilton; Hobbs Glass, Ltd., London, Ont., and J. P. O'Shea and Co., Ltd., Montreal.

South Koreans Push Ahead

By BILL ROSS

TOKYO, Oct. 7 (Saturday) (AP) —Three South Korean divisions advanced in North Korea today while the bulk of United Nations forces massed below the 38th parallel boundary, waiting for orders to push North and crush the remnant Communist Korean Army.

The South Korean 6th Division struck across the arbitrary boundary into Communist North Korea Friday. Field reports said its lead elements had entered the hydro-electric centre of Kwachon, seven miles North of the 38th parallel and some 50 air miles inland from the East Coast.

Holy Year Indulgences For All Catholics

ROME, Oct. 6 (Reuters)— The Pope will announce the extension of the Holy Year indulgence to the whole world when he closes the church's Holy Year on Rome on Christmas Eve, Vatican sources said tonight.

This means that Roman Catholics who have not been able to visit Rome this year still can gain the plenary indulgence—relief from temporal punishment for sin—granted during the Holy Year if they perform certain spiritual exercises and visits to local churches.

Conditions for gaining the indulgence at home will be announced by the Pope himself.

Where's Santa?

Pert little two-year-old Stephanie Ann Holmes (above) of Cincinnati, wanted to find out how Santa Claus gets down the chimney so, clutching her rag doll, she climbed this ladder to the top of a 20-foot chimney. She sat on top of the chimney an'l gaily called to her grandmother until firemen could arrive on the scene and carry her to safety.—(AP Wirephoto.)

Thanksgiving Revival Of Ancient Tradition

By The Canadian Press

Thanksgiving Day on Monday is the ever-new revival of an ancient tradition. While it's Canada's 72nd annual Thanksgiving, the custom of giving thanks for the harvest yield and the year's blessings dates from ancient times before the coming of Christ.

Traditional religious services will pack churches in cities and towns across Canada, while sports events and other outdoor celebrations attract thousands. The family dinner will be built around the Thanksgiving turkey.

This year Canadians will give thanks for a big wheat crop, though it has suffered some frost damage, and for the United Nations victory in Korea. The day has its own significance for every family.

On this continent the first Thanksgiving Day was observed in New England after the harvest in 1621. The British held a service in 1759 to celebrate the capture of Quebec, holding observances in the Ursuline Chapel at Quebec. The Canadian holiday was made official in 1879, when the Governor General, the Marquis of Lorne, set Nov. 6 as a day "to attend church and give thanks."

The actual date shifted in later years. From 1918 to 1930 it was merged with Armistice day on Nov. 11, but in 1931 the Armistice commemoration and Thanksgiving services were separated and the latter was fixed for an early Monday in October. Now the actual Thanksgiving date is fixed annually.

'Promising Project' Trail Steel Plans

VANCOUVER, Oct. 6 (CP)—Trade Minister Howe said today the "most promising" project for B. C. in the line of developing a steel industry was a proposed blast furnace at Trail that would produce pig iron from the mine tailings.

"I understand that the whole thing has been engineered," he said in an interview, "but I know of no definite plans for construction."

"I talked with your Board of Trade people and I believe they will press for action on the project."

Mr. Howe said there was little chance of development of B. C. iron ore. It would have to be a big operation and "I doubt if you have the market for that sort of thing."

"If the Trail plant was built it would replace the need for scrap in your coast plants."

The steel supply situation will probably get progressively tighter, Mr. Howe indicated.

"We have already begun to feel it and we will have to cut down on non-essential production—on automobiles and similar products."

UNITED KINGDOM WORKERS PROTEST APPLE IMPORTS

LONDON, Oct. 6 (CP) — A union of agricultural workers has protested to the Food Ministry against the decision to allow apples to be imported under open general licence, a Ministry spokesman said today.

The protest says tons of apples are rotting in British orchards. Therefore, says the Kentish Union, imports are against the best interests of the consumer and unfair to the home grower.

The Ministry spokesman said the protest is general in nature and not specifically directed against last Friday's announcement that Britain has arranged to buy 1,100,000 boxes of apples from British Columbia.

200,000 Casualties Counted by North Koreans

TOKYO, Oct. 6 (Friday) (AP)—Intelligence Officers at General MacArthur's headquarters today estimated North Korean war losses from all causes at nearly 200,000 men including more than 40,000 taken prisoner by Allied forces.

"HELLO, DADDY ..."

BRANDON, Man., Oct. 6 (CP)—Susangnuk, 5, is making history.

The pint-sized Eskimo lad—nicknamed Jimmy Snow because his real name is a little difficult—is the only Eskimo ever taught at the Indian residential school in Brandon. And that institution is more than a half-century old.

Epidemic and flood brought him here.

First tuberculosis struck the Eskimo settlement at ice-bound Coral Harbor, on Southampton Island at the mouth of Hudson Bay. His mother died; his father was taken to Winnipeg for treatment along with Jimmy.

The little boy escaped the disease. Then came the Spring Red River flood. Jimmy was brought here to get an education.

His teacher, Mrs. J. A. McNell, says he's a bright lad—can do simple addition and letter his name already. And he's the pet of the school.

Jimmy's favorite toy is a model telephone. He doesn't know just what hospital his father is in. But he plays with the phone by the hour.

"Hello, Daddy," he says. "This is Jimmy . . ."

DISLIKE SCREENING

SEATTLE, Oct. 6 (AP)—The trans-Pacific cargo-passenger ship Island Mail may be delayed in sailing Sunday because of a dispute with the Marine Cooks and Stewards Union (Ind.)

The American Mail Line charged today that members of the union refused to sign articles for the next voyage because they objected to Coast Guard security screening procedure.

Water Levels

Nelson 7.70.

Canadian Force to Europe

MONTREAL, Oct. 6 (CP)—Prime Minister St. Laurent tonight gave the first official indication that Canada definitely will send armed forces to peacetime Europe.

He said "the armed forces of Canada must be appropriately represented in the integrated force which is to be established by the North Atlantic alliance" for the defence of Western Europe.

His statement, to the Canadian Industrial Preparedness Association, was interpreted as a strong sign that the Government wants the Army's 10,000-strong Special Force sent to Europe, in whole or in part, either as an alternative to Korea or after Korea is over.

Report Chinese to Mine Polish Uranium

BERLIN, Oct. 6 (AP) — The West Berlin newspaper De Tag claims today that Russia has imported 500 Chinese to mine newly-discovered uranium deposits in Polish-occupied Lower Silesia.

The newspaper says the uranium was found in large quantities in the Eitenberg area. It adds that the Chinese were brought in because they could preserve secrecy better than Polish workers.

Der Tag also asserts that 20,000 Chinese are expected to be settled in Silesia by the end of this year as cheap labor for Polish-operated coal mines and lumber camps.

Official Polish sources in Berlin denied Der Tag's report of new Chinese immigration.

Long Walk

NASHUA, N.H., Oct. 6 (AP)—Had meter-reader Joseph T. Bechard's prosaic rounds been straightened out, he could have tramped around the globe approximately five times in the last 35 years. The Public Service Company of New Hampshire said yesterday that Bechard had walked 125,000 miles while taking 2,500,000 meter readings, and hadn't missed a day's work since he had influenza in 1918.

Seek Arsonist

VANCOUVER, Oct. 6 (CP)—City fire department, armed with a good description of the man, is seeking an arsonist who set fire to Paragon Woodworks Co. here last night.

The blaze was spotted by Fireman Ron Mathers on his way home from work. He turned in the alarm and pursued the arsonist.

The man ran from a spot close to the rear lane where the fire was breaking out but evaded capture in the darkness.

The blaze set on the outside of the building, was extinguished before it could take hold. Damage was estimated at $200.

200,000 MILES IN KOREA FLIGHTS

VANCOUVER, Oct. 6—More than 200,000 miles in flying has been chalked up by Canadian Pacific Airlines on its flights carrying United Nations personnel to the Korean war theatre, company officials stated today.

No Paper Monday

There will be no edition of the Nelson Daily News published Monday, Thanksgiving Day.

14 MILLION CANADIANS

Increase of 130,000 Since June Estimated

OTTAWA, Oct. 6 (CP)—Canada's population may hit or better 14 million persons about three weeks before Christmas.

So predict Government experts who have been absorbed in the gigantic task of measuring Canada's growth. The experts believe that on the basis of current average monthly increases, the historic mark may be reached Dec. 1.

On July 1, the official estimate was 13,871,000, an increase of 26,000 over the June 1 figure of 13,849,000.

If the increase continues it will total 130,000 from July 1 to Dec. 1. Added to the figure of 13,871,0000, it will give Canada a population of 14,000,0000.

The steady climb in population as resulted from an increase in immigration, births and Newfoundland confederation.

The Government next year will launch its greatest statistical offensive in history.

The census-taking starts June 1. An official estimate of all population totals won't be ready for months afterwards, possibly not before March, 1952.

New Highs For 106 Stocks

NEW YORK, Oct. 6 (AP)—Stock market prices advanced to a new 1951 average high today in a broad movement resulting in gains of as much as $2 and $3 a share among the leaders.

New highs for the year also were established by 106 individual issues, an unusually large number. Only three new lows were reached.

These striking gains were scattered widely throughout the list, but the leadership for the advance was supplied by steels, motors and oils.

Rails, distillers and building material issues contributed substantially to the move.

The Associated Press average of 60 stocks moved up 60 cents to $84.60, the highest level since Feb. 27, 1931. This is the third time this week that the AP average established a new high for the year, each going back 19 years.

Kills Self After Cleric Refuses Rites

WASHINGTON, Oct. 6 (AP)—A 21-year-old soldier died today from self-inflicted bullet wounds after a minister refused to marry him to a reluctant girl.

Private Clyde Thompson, police said, fired a bullet into his temple Thursday night after handing a marriage licence to buddies and saying "to hell with it all."

Before he went to his barracks he had brandished a knife at Rev. William Adams, a Rockville, Md., minister who had refused to "marry him to a frightened girl."

The girl, Helen Johns, 19, a stenographer, said she had lived "in hell" since she broke off her friendship with Thompson in August.

Since then, she said, Thompson had threatened her and insisted they be married.

Gorilla or Mouse?

Bushman, the biggest gorilla in captivity, escaped from his Chicago zoo cage and defied the efforts of 50 armed zoo attendants and police to force him back behind bars. Then zoo director R. Perkins brought out a two-foot garter snake and Bushman, 550 pounds of muscle, whimpered in fear and sought the security of his cage. It was his first escape in 20 years.

All Not Well With China Reds

By FRED HAMPSON

HONG KONG, Oct. 6 (AP) — Chou En-lai, Chinese Communist Premier, has admitted publicly that all is not well in Red China.

The full import of his "policy statement" in Peiping Oct. 1 was temporarily obscured by his attack on the United States and his warning against "aggression" on any of Red China's neighbors.

But further portions of his anniversary statement have just been released here by the official Communist New China News Agency. They show that guerrillas, sabotage and resistance to land measures are giving the Communist regime plenty of headaches.

Chou said flatly that the most important task for the regime in the next two years is consolidating control over "newly-liberated areas" where he estimated 200,000 anti-Communist guerillas are active.

END TO WORST STERLING-AREA CURBS SIGHTED

VANCOUVER, Oct. 6 (CP) — Trade Minister Howe said today the "worst" of sterling-area restrictions on Canadian trade may soon be over.

In a speech that stressed the need to steer a cautious economic course through current international complications, Mr. Howe touched briefly on international trade and emphasized the greater ability of the United Kingdom and other sterling countries to earn dollars.

ECONOMY GOOD, SOME PROBLEMS

VANCOUVER, Oct. 6 (CP) — Trade Minister Howe today reviewed Canada's economic position for the Vancouver Board of Trade. His verdict: Good.

Mr. Howe said "I feel sure there is every reason to believe that we can manage our increased preparedness program and still leave substantial resources free for civilian use.

"Although the program ... means a doubling in our defence expenditures, it will involve only a relatively small proportion of Canada's total capacity and output." He estimated this proportion at 10 per cent.

Mr. Howe said, however, he did not wish to give the impression Canada had no problems. While no immediate need for over-all controls, the armament program was already affecting the supply of certain strategic defence materials—steel, non-ferrous metals, nylon and certain chemicals.

Action Speaks Louder . . .

TORONTO, Oct. 6 (CP)—There's no room for talk when there's a job to be done.

Mrs. Maurice Lewy was cooking dinner yesterday when a pan of fat caught fire and spread to the walls and ceiling. She called the fire department.

Meanwhile a young man, attracted by the screams of her children, coolly walked into the kitchen, doused the pan under a tap, put out the rest of the fire and walked out without saying a word.

And in This Corner —

NEW YORK, Oct. 6 (AP)—The first interplanetary rocket will be plenty crowded if Hayden planetarium "reservation" list is any criterion.

The planetarium today announced that 18,000 persons have signed up for the "if" trip.

Each prospective passenger gets a space-ship time schedule, on which the moon is 9½ hours away—figuring a speed of 25,000 miles per hour.

The planetarium says it assumes no responsibility for delays en route.

PHILADELPHIA, Oct. 6 (AP)—Eating mudpies, it seems, is normal for children.

If your child eats mudpies, don't worry too much about it, the Medical Society of Pennsylvania said today in its publication, "Your Health," for dirt eating is common among children and the practice is usually short-lived and harmless.

PITTSBURGH, N.H., Oct. 6 (AP)—Harry Scott, proprietor of a Connecticut Lake camp, employed an airplane, bird-shot, a club and perseverance Thursday night in bagging a 172-pound black bear.

Gliding in for a landing in his seaplane, Scott, a flying guide, spotted the bear swimming in the lake. He taxied to the camp, grabbed a shotgun and cartridges. Two rounds only wounded the bear and Scott discovered he was using bird-shot instead of a heavier big-game load.

Snatching a club, Scott taxied out to the swimming bear, climbed out on a pontoon and, in nearly an hour, beat the animal to death.

NEWPORT, N.H., Oct. 6 (AP)—Partridge in these parts apparently can't wait for a hunter's gun to land them on a dinner plate.

One flew through the kitchen window of Mrs. E. N. Johnson today and another through a dining room window at the home of William Hochstin of nearby Windsor, Vt. Both birds were killed by the broken glass.

SYDNEY, Oct. 6 (Reuters)—At a Sydney factory where wages vary from week to week some workers are able to pocket a few shillings and still take unopened pay envelopes to their wives.

On pay days an enterprising man waits outside the factory with a stack of bank pay envelopes, similar to those used by employers.

He retypes new envelopes showing a smaller amount, charges a shilling for the service, and earns as much as £20 in an afternoon.

WON'T EXTEND FIGHTING

NEW YORK, Oct. 6 (AP)—The United States and Britain gave assurances today that United Nations forces will not cross the Korean border into Communist China or Russia.

ON INCREASE

CHICAGO, Oct. 6 (AP)—The Deputy Governor of the Bank of Canada today told the American Life convention the net foreign debt of Canada has declined in the last 20 years while gross foreign investment of private Canadian funds is on the increase.

James Coyne of Toronto said foreign investment in Canadian business was increased "substantially in some years—and not the least in 1950."

"But in the same years," he said, "there has been a neven larger increase in Canadian investments abroad, including our liquid reserves of gold and foreign exchange."

Sub Post Office To Open in Uphill Section Today

Nelson's No. 2 sub post office will have its official opening in the uphill section of town today.

The post office will be under charge of A. J. Ennis, 1224 Stanley Street. Mail delivery service will continue just the same.

Money order service will be given later on, Wilfred Hall, Postmaster, said Friday.

It is the second sub post office to be opened in the City. The first one was opened in the Fairview area several years ago.

Good Response To Historical Society Proposal

Promoters of a Kootenay historical society have got something to spur them on in their efforts — a lot of favorable comments on the proposal.

Already offers of gifts of photographs and relics are being received. Once a permanent organization is formed, it is expected that no difficulty will be encountered in securing a large complement of historical material.

It is believed that no district has a richer and more varied experience than the Kootenays, with much of its history still within the memory of its present day citizens.

Besides compiling the history of the district and the displaying of photographs and museum pieces, it is hoped to mark and preserve historical sites that were pertinent to the early days. Also interesting to tourists and citizens alike will be pointers along the highways giving information on particular points of note.

Assistance in this will be sought from such authentic bodies as the B.C. Historical Association, Victoria; the Canadian Historical Association, Ottawa; Historic Sites and Monuments Board of Canada, National Parks Bureau, Ottawa.

However, it is pointed out that an authoritative, reliable and continuous organization is required to establish confidence in this new venture and that can only be obtained if a large and enthusiastic number turn out at the meeting in the City Hall Tuesday night to launch the scheme. Membership will be open to one and all.

Monarchs Win

VANCOUVER, Oct. 6 (CP) — Coach Chuck Millman's Kerrisdale Monarchs won their second game in three Okanagan Mainline Hockey League starts tonight when they downed last year's league champions, Kamloops Elks, 5-3 before 2000 persons at Kerrisdale Arena.

The Kerries, after taking a two goal lead in the second period, were never headed despite an early third period attack by the visiting Elks.

Bill Wilson, Stan Gawthorpe, Bobby Koch, Druno Furlan and Len Mutcheson scored the Kerrisdale goals. Kenny Stewart tallied twice for Kamloops while Vince Kuly was collecting their other goal.

NEW ROSSLAND AMBULANCE PROVES ITSELF

ROSSLAND, B.C., Oct. 6 — At the meeting tonight of Rossland and District Ambulance Association it was announced that the ambulance arrived in the City on Sept. 19 ready for operation and had already answered two out of town calls. Temporarily calls for the ambulance were being made through the hospital, the police office or the clinic office. A system of volunteer drivers who will regularly be on call is now being organized.

A complete list of contributors to the ambulance fund was reported as follows: Fraternal Order of Eagles $1217.18; City of Rossland Victory Bonds, $1000; Cooperative Transportation Society, $490.83; Rossland Welfare Society, $300; Deborah Rebekah Lodge, $40; Ladies Auxiliary Fraternal Order of Eagles $34.25; Canadian Legion Branch No. 14, $50; Ladies Auxiliary to the Canadian Legion, $50; W.B.A. Golden City Club, $50; Rossland 50 Club, $21; Knights of Columbus, $25; Catholic Women's League, $25; Junior Red Cross, $100; Pythian Sisters, $20; Speedway Garage, Trail, $100; interest of money held in trust account by the city $210.58.

The Consolidated Mining and Smelting Company donated equipment to the value of $400.

Cost of the ambulance was $3726.56. Insurance on the vehicle has been arranged and money is required for operating expenses until the ambulance can pay its own way. The Association is in need of a further financial assistance, it was said. Permanent housing also is still to be arranged.

Curlers Want Civic Centre Take On Per Capita Basis

Nelson Curling Club was up in arms at its annual meeting in City Hall Friday night.

It rejected a Civic Centre Commission demand for a flat $3400 for rink services in the 1950-51 season, instead of a per capita payment from the Club which it has received in past years. What it will offer the Civic Commission is $14 per member.

An increase in Civic Centre power rates had been the Commission's reasons for increasing its cut from the Curling Club, members were told by A. B. Gilker. But, he said, the executive hadn't been given a reason for the changeover in policy from a per capita take to a flat take.

This was the principal "beef" of members Friday night. The feeling was that curling club dues wouldn't stay the same. Last year's dues of $15 per member, with $12.50 going to the Civic Centre Commission, would have to go up.

However, in dickering with the Civic Centre Commission regarding a new agreement, the executive had offered $14 per capita payment (based on last year's membership of 230), and had had the offer turned down.

The Civic Centre Commission's estimate of curling rink costs this season, amounting to $3398, is composed principally of $1308 for salaries and wages compared with $1344 last season; $615 for light and power against $307 last season; $325 for refrigeration against $126 last season.

The $3400 estimate was an absolute minimum, John Thom, Civic Centre Commission member told the curlers.

City Council, he said, had declared that it would not subsidize any adult activity in Civic Centre. The curlers were getting their sport cheaper than any other participants in Civic Centre activities.

TO BUY ROCKS

But while the meeting turned down the Civic Centre Commission's $3400 statement, the endorsed unanimously a Rock Committee recommendation for the purchase of 84 sets of matching rocks, costing $5000.

Twenty-six pairs will be obtained from Club members, another 24 from a local firm and 34 from a Vancouver firm.

The financing will be arranged by $2000 from Club funds and the rest on loan. Dr. J. G. McMurchy reported that a $3 rental on each pair would bring in $750 a season, which would pay off the $3000 in between four and five years, not counting any other monies th Club decided to put to that purpose.

Twenty-four sets of rocks belonging to the Club could be sold as well, he added.

A membership committee was appointed consisting of Richard Palmer, Walter Tozer, Carmen Hancock, Andy Barrett, Gordon Mackenzie, Ald. Joesph Kary and Jack Morris.

The question of renting arena ice for the Little Bonspiel was left to the executive.

Draws were being worked out so that games lost on hockey nights and through B. C. Bonspiel play would be made up, A. B. Gilker said.

Creston Woman's Sister Passes

CRESTON, B. C., Oct. 6—Funeral services were held in Coeur d'Alene, Idaho, for Mrs. Mary Alice Lynn, who died in Lakeside Hospital September 28.

Mrs. Lynn is a sister of Mrs. W. P. Lindsay of Creston and visited Mr. and Mrs. Lindsay here last May. George Miller, a brother, came from Medicine Hat to attend the services and is now visiting with his sister and brother-in-law in Creston.

Fire Destroys Fairview Cabin

A two-room dwelling on Bealby's Road belonging to William Houston burned to the ground Friday afternoon.

The cabin, situated three quarters of a mile East of Fairview limits, caught fire when papers lying near a heated stove ignited. The building was a complete loss, estimated at between $800 and $900.

Mr. Houston was unable to save any of his belongings, and escaped with only the clothes he was wearing.

Nelson Fire Chief G. A. McDonald and B. C. Forest Service wardens who arrived on the scene shortly after 5 p.m., were unable to save the building. The fire did not spread, however, to nearby trees.

OVER 400 MEMBERS ADDED TO TRAIL WELFARE SOCIETY

TRAIL, B. C., Oct. 6 — The Trail District's Welfare Society added over 400 new members to its role this week during their current canvass of Cominco employees and City business firms. Over $6000 cash was received in the first four days.

It was the Society's first general appeal for funds in three years and canvassers will continue their calls for another week.

During the first four days Cominco employees contributed $3792 in pledges on an annual basis and $138.50 in cash. City business firms and their employees added $1596 in annual pledges and $533.95 in cash. Total receipts for the four days amounted to $6060.45.

Becomes Creston Postmaster

CRESTON, B. C., Oct. 6— Confirmation was received that Frank Crawford was appointed Postmaster at Creston, all assistants and employees became civil servants, effective October 1, with the office operating on a full post office basis and status.

Mr. Crawford became connected with postal work in 1928 and for the past 22 years till the time of the passing of his father, February 10, 1949, who was postmaster, has been employed in local postal services.

From February 10, 1949, he has been Acting Postmaster and one year later confirmation of his appointment was received.

During the Second World War he was in the Navy's Postal Branch for one year and upon discharge came back to the Creston Post Office.

The Weather

Synopsis: A very active Pacific storm is moving steadily Eastward and is causing heavy rain and Southeast winds of gale force along the coast. As this storm continues its Eastward motion rain will spread into the Interior of the province by Saturday. Winds will shift to fresh Westerly in the wake of the storm along the North coast.

Unsettled weather will persist along the coast with some improvement in conditions over the province for Sunday.

C.P.R. Public Relations Head Here

Charles W. Stokes, F.R.G.S., of London, European Public Relations Officer for the Canadian Pacific Railway, was a Nelson visitor Friday.

Former Nelsonite To Tokyo Post

JOSEPH M. FERRIS

VANCOUVER, Oct. 6—Joseph M. Ferris, formerly of Nelson, has been promoted to the post of representative at Tokyo for Canadian Pacific Air Lines, it is announced by H. B. Main, Manager of Pacific Lines. He succeeds A. J. Pierce who returns to Canada after 18 months in the Orient, to take up a new appointment.

Mr. Ferris leaves to take over his new post on October 11.

Mr. Ferris joined Canadian Pacific Air Lines in 1945 following his discharge from the R.C.A.F. Prior to taking up the Tokyo appointment he had been Traffic Representative working out of Vancouver for a period of six months. His first position with the Company was in the Vancouver Ticket Office. Later he went to Nelson as Traffic Representative and the following year became agent for the Company at Nelson, a position he held for 18 months.

During the war Mr. Ferris served as a pilot with the R.C.A.F. attaining the rank of Flight Lieutenant. He saw service in England, the Middle East and India.

His wife, the former Margaret Steventon, Vancouver, and their small daughter, Margaret Louise, will follow him to Tokyo in about a month's time.

Mrs. Legg Heads Creston Nurses

CRESTON, B. C., Oct. 6 — Some 20 registered nurses met at the nurses' home to elect officers and form a local group.

President of the group is Mrs. H. K. Legg; Vice-President, Mrs. G. Browell and Secretary, Miss Margaret Henderson.

Discussion ensued on nursing matters.

Injures Foot During Hunting Expedition

When Sam Brown and W. W. Ferguson of Nelson went hunting in the Lardeau this week, Mr. Brown hadn't counted on returning empty handed—or ending up in the Kaslo Victorian Hospital with an injured foot.

The sportsmen made their way to the Lardeau hunting grounds last Saturday. While trekking up a mountain Mr. Brown hurt his heel which later caused blood poisoning.

He was still in Kaslo Victorian Hospital Friday night.

High Wool Prices Send Clothes Maker Seeking Substitutes

BY FORBES RHUDE
Canadian Press Business Editor

Canadian cloth makers are paying twice as much for raw wool as they did a year ago—about $3.37 a pound compared with $1.60—and that is not good news in connection with the price of clothes.

However, manufacturers are trying to see what they can do by the use of other fibres, such as rayon and nylon.

A group of Toronto clothing men and writers were shown through the huge plant of Dominion Woollens and Worsteds, Ltd., at Hespeler, Ont., Wednesday, partially to see cloth being made from the raw material to the finished product, and partially to see the experiments being carried on.

Seeing cloth made is something in itself. It's the loom and spinning wheel on a gigantic scale and adapted to almost-human machines. It seems almost miraculous to see the flimsy, fluffy wood, rayon or other fibres processed until they end up as durable and fashionable materials.

EAT OR WEAR

One new fibre which intrigued us is Vicara—made from corn—and you can do two things with it:

You can make yourself some cloth; or you can add beefsteak flavoring and make a "steak." In other words, you can wear it or eat it.

However, it's a relatively-new development and not much is being done with it yet, despite its versatility.

To come back to wool: Cloth people say nothing can ever replace it, because it's a living fibre, off a living animal; its fibres are barbed and cling to one another, whereas the newer fibres break off more easily.

It's expensive because the world is using more of it than is being produced. One reason given for the scarcity is that the low prices of the '30s discouraged sheep raising, and in many producing countries the flocks are still below normal.

However, there has been considerable success in mixing other fibres with it. At Hespeler we saw cloths blended half from wool and half from rayon which apparently the experts couldn't tell from all-wood. We were told that about the only remaining trouble with these blends is that wrinkles don't shake out of them as easily as from wool.

Incidentally, a manufacturer says the change in the value of the Canadian dollar will have virtually no effect on the price of clothes in Canada. The amount of saving on imported wool would be only about 50 cents on a suit, and, in the meantime, prices of other materials, such as linings, have risen.

PILES

When you remove the internal cause of piles you get worthwhile results that last. That's the simple reason for Pyltone's great success. No matter what you have done for this torture, or how long-standing and stubborn your case, modern science has the answer in the new Pyltone Treatment (a liquid taken by mouth). Your first bottle proves this or the price refunded at once. That's our guarantee of Pyltone's quality. $1.75 at all modern druggists. PT-1

Castlegar IODE Plans Parcels For Overseas

CASTLEGAR, B. C., Oct. 6—The Executive of the Lillian Killough Chapter, I.O.D.E., met Monday at the home of Mrs. Ross Whittaker, with 12 members present, and the Regent, Mrs. A. T. Horswill, presiding.

Correspondence was read and discussed. Mrs. James Fornelli, convener of the Canvassing Committee for the annual Christmas contest, reported the work that had been done toward this project.

Mrs. Harry Sommers volunteered to take charge of the contest. The postwar convener, Mrs. William Easton, reminded the members to bring their donations for the Christmas overseas food parcels to the next general meeting, Oct. 10.

The November Executive meeting will be held at the home of Mrs. Harry Sommers.

Refreshments were served at the close of the meeting by the hostesses, Mrs. James Fornelli and Mrs. Ross Whittaker.

South Slocan...

SOUTH SLOCAN, B. C.—M. Wesley, who has been a resident here for the past three years, has left for Vancouver, from where he will travel by plane to Malaya, where he has rubber interests.

Douglas James and Cyril Rogers have left for Calgary to resume their studies at Technical School.

Mrs. E. Trozzo is a patient in Kootenay Lake General Hospital, Nelson.

Mrs. J. W. Hendron of Peterboro, Ont., who has been visiting her son and daughter-in-law, Mr. and Mrs. Hendron, for a few weeks, has left to visit relatives in Kaslo, and proposes returning to South Slocan for an extended visit.

W. R. Walkley, who has been a patient in Kootenay Lake General Hospital, Nelson, has returned to his home.

Mrs. Nick Valin and children are spending a few weeks at Nakusp with her husband, who is working there.

Mrs. O. W. Humphry of Nelson and her guest, Mrs. J. D. Condidis of Moose Jaw, were visitors at South Slocan, guests of Mrs. J. D. Yeatman.

Record Carloading

OTTAWA, Oct. 6 (CP)—Carloading on Canadian railways climbed to a new record for the week ended Sept. 30 at 90,976 cars, compared with 90,070 cars for the previous week, and 89,614 cars for the corresponding week a year ago.

The Bureau of Statistics reported today that increases over the similar week last year was registered in loadings of grain products, ores, pulpwood and woodpulp and paper. Declines were shown in loadings of grain, livestock and coal.

Procter P.T.A. Gives $5 to Tree Fund

PROCTER, B. C., Oct. 6—The first of the home card parties sponsored by the P.T.A. had as hostesses Mrs. R. L. Stevenson and Mrs. Harry Stoffow at the Stevenson home on Saturday.

Four tables of Provincial Whist were played. Prizes were won by Mrs. Niel McLeod and R. L. Stevenson.

The sum of $5.25 was realized, to go to the children's Christmas tree fund.

Economics Supt. Special Speaker To Nakusp W.I.

NAKUSP, B. C., Oct. 6—Miss I. C. Cross, Superintendent of Economics of the U.B.C., Vancouver, was the special speaker Wednesday under the auspices of the Nakusp Women's Institute.

Mrs. T. Mitchell, President of the W.I., introduced Miss Cross, who gave a talk on "Lockers and Preparation of Foods for Same".

Sewing machine attachments were shown and demonstrated, also sewing difficulties were explained very ably.

Afternoon tea was served, with hostesses Mrs. M. Cusick, Mrs. P. R. Henke, Mrs. J. Parent Jr., Mrs. M. Baird and Mrs. M. Embree. A working bee took place Thursday to prepare the rooms for the opening of the public library, which is in charge of the Women's Institute.

Bonnington W. A. Appoints Member to Deanery Meeting

BONNINGTON, B. C., Oct. 6—The meetings of the Women's Auxiliary of St. Matthew's Church were resumed after being closed for the Summer.

Mrs. Harvey Stones was hostess at her home for the meeting. Mrs. P. O. Bird, President, was in the chair.

Mrs. H. James, Dorcas Secretary, reported that the bale of clothing, for a schoolgirl, sent to Whitefish Lake, had been returned owing to the school being closed.

Miss Molly Murray was appointed as a delegate to the West Kootenay Deanery meeting, which convenes in Castlegar in November.

Mrs. Bird read the President's report as given at the annual meeting. Mrs. D. G. Bell, Secretary, gave excerpts from the Living Message of the W.A. on Missions.

Refreshments were served by the hostess, Mrs. Stone, 12 members attending.

Straight From The Weather Gods

NANAIMO, B.C., Oct. 6 (CP)—The newly-organized Nanimo Ski Club now knows the source of Indian weather forecasts.

A member of the Cowichan tribe at Duncan, B.C., was reported to have forecast a Winter of heavy snow for Vancouver Island.

An enterprising reporter telephoned the Chief of the Cowichans.

"I heard that some member of your tribe predicted cold weather and heavy snow for this year. Could you tell me how one goes about predicting this?."

"Maybe they listen to the weather reports on the radio," the chief replied.

MYSTERIOUS FLYING OBJECT SIGHTED

OAKLAND, Calif., Oct. 6 (AP)—A pilot says a mysterious flying object with "eight bright lights" flashed by his airliner last night.

Cecil Hardin said the object apparently had no fuselage. He sighted it at 4,500 feet near Los Angeles.

This easy-to-use pattern gives perfect fit. Complete, illustrated Sew Smart shows you every step.

Send TWENTY-FIVE CENTS (25c) in coins (stamps cannot be accepted) for this pattern. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Send your order to MARIAN MARTIN, care of Nelson Daily News, Pattern Dept., address.

NEW season styles for you! Send twenty-five cents (coins) for our Marian Martin Fall and Winter Pattern Book. Fashions for the young and young in heart plus Christmas ideas galore! A free pattern of a blouse to make from a yard of 39-inch fabric is printed in the book.

Re-elect E. Clark President Nakusp Dramatic Club

NAKUSP, B. C., Oct. 6 — The election of officers of the Nakusp Drama Club resulted as follows:

President, Ed Clark, reelected; Vice President, Miss Betty White; Secretary-Treasurer, Hugh Bolstad.

Reading Committee — Mrs. R. Blythe, Mrs. E. Clark, Mrs. Ron Jordan, Mrs. W. H. Wright, Miss J. Brown and Miss Stewart.

Membership Committee — Mrs. Harry Maxwell, Miss M. Kirk.

Publicity—Mrs. A. B. S. Stanley.

The meeting was held at the home of Mr. and Mrs. Harry Maxwell. The next meeting will be held at the home of Mr. and Mrs. Hugh Bolstad.

Thanksgiving To Bring Extra Day Holiday

The Thanksgiving weekend will be practically like Christmas with the traditional turkey dinner and all the trimmings including the harvest yield—and an extra day holiday for almost everyone.

Most public and Government offices and banks will close their doors to the public Saturday afternoon until Tuesday while the stores will also declare Monday a holiday.

Students in the Nelson schools whooped for joy when they left their classrooms Friday afternoon with the thought of an extra day's holiday in mind.

Letter delivery service will be halted Monday to give the postman an extra holiday too. However, wickets at the post office will be open to the public from 10 to 12 Monday morning, while the lobby will remain open from 7 a.m. to 6 p.m.

Body of Crewman Found, 2 Missing

VANCOUVER, Oct. 6 (CP)—The bow of the forestry boat A. L. Bryant, sliced in two by the steamship Lady Cynthia Tuesday night near Vancouver harbor, today yielded the body of Fred Longstras.

Three crew members were lost when the Union Steamship vessel cut down the A. L. Bryant. Two are still missing and two others were injured.

New Art Opportunity Comes With Scotswoman

With the ever-increasing interest in the field of arts in this District, it is interesting to note that a new art will be taught in Nelson and the surrounding District.

Miss Janie S. Stevenson, a soft-spoken Scotswoman who arrived in Nelson Wednesday from Scotland will teach speech, elocution and acting in Nelson and the District.

Miss Stevenson, whose home was in Paisley, Scotland, is "very happy to be in Canada again." She spent six weeks in Nelson in 1949 visiting her uncle, David Scott of Nelson and her aunt, Mrs. R. W. Chalmers of Thrums.

Miss Stevenson holds the degrees L.R.A.M. (elocution) and L.C.S.M. (elocution) and A.L.A.M. with honors for acting, from the London Academy of Music and Dramatic Art.

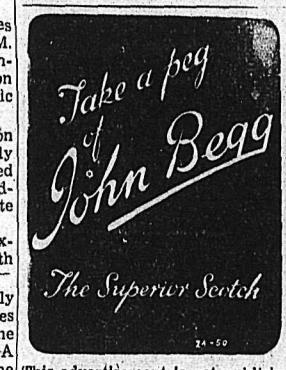
She has taught speech, elocution and dramatic art both privately and in schools. She also organized and operated a successful Children's Theatre for which she wrote four or five plays.

Miss Stevenson has had wide experience as an actress in radio with the BBC and on the stage with the Curtain Theatre, the Citizen's Theatre and the Paisley Players. This Spring she starred in the Paisley Player's production of "Ladies in Retirement", playing the part of Ellen Creed.

Before sailing for Canada, Miss Stevenson visited in France and Germany. While in Germany she saw the famous Passion Play at Oberammergau. She also attended a two-day Dramatic Conference in London.

Miss Stevenson will give a recital and talk at the Parent-Teacher Association meeting next Tuesday evening.

HANNA, Alta. (CP) — Probably the last of the famous horse drives from the Canadian Prairies to the United States left here recently. A dozen Canadian cowboys rode nine days to herd almost 500 Alberta horses to a Montana buyer at Sweetgrass on the International Border.



This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

Tips on Closing Summer Cottage

The lakeside cottage that played host to family and friends all Summer may be turned into a Winter "guest house" of a very different sort unless it is properly prepared soon for the months ahead.

Insects, mice, squirrels, frost and wind are all too often unbidden visitors to the cottage that is closed hastily or at the last minute. To prevent Wintertime damage and save costly repairs later, heed the following suggestions:

1. Repair roof leaks now, so that you won't have ugly water stains on walls and floors next Spring.
2. Dispose of oily rags and waste which might catch fire spontaneously.
3. Have outside painting done in the Fall.
4. If the porch floor is in poor repair have a frostproof material such as quarry tile installed over it.
5. If there are squirrels in the vicinity, cover the chimney with screening or an inverted wooden box on the last weekend.
6. Store sweaters, blankets and other woolens properly so moths can't get at them.
7. Make the cottage unattractive to squirrels by sprinkling each room liberally with moth balls. Squirrels don't like the odor.
8. On that final weekend, close the main gas valve, drain all pipes and water heaters, open the main electric switch and take home all liquids that may freeze.

Canopy Over Door Offers Protection

When a front door opens directly into a living room, one of the advantages of a front porch, or at least a stoop, is to keep out rain and snow while the door is opened and also to afford temporary protection while raising or lowering an umbrella.

For homes lacking a covered doorway, an aluminum canopy has been designed, 42 inches long and 32 inches wide. It is equipped with hardened aluminum brackets and stainless steel hardware for hanging.

INSULATING BOARD POPULAR WITH BUILDERS

Lumber dealers report that the growing popularity of insulating board for construction and remodeling is due mainly to its economy and versatility. Used extensively in homes and farm structures, it also is well suited for such installations as schools, churches, auditoriums, offices and bowling alleys.

Right Wiring Can Cut Electric Bill

AP NEWSFEATURES

Proper electric wiring has become vitally important for the modern home since the widespread use of electric appliances.

Overloading of electric circuits not only can be a serious fire hazard, but also can seriously decrease the efficiency of electric appliances.

Experts point out that sure signs of overloaded circuits are shown if fuses blow out or circuit breakers trip too readily; if irons or toasters heat too slowly; if lights mysteriously blink for no apparent reason.

Insufficient wiring causes voltage drops. A voltage drop of 10 per cent or more is common in many homes. In terms of efficiency and economy this means that a toaster plugged into a wiring system having a 10 per cent fadeout takes 31.5 per cent more time to brown a piece of toast and consumes 28 per cent more current to reach cooking temperature.

A lamp loses 34 per cent of its brilliance when there is a voltage drop of 10 per cent.

Fish-Pole Thief Loses Tackle

VICTORIA, B.C., Oct. 6 (CP) — Victoria's elusive "fishing pole" thief made another strike last night, but this time he lost his tackle.

It was the usual story. Mr. and Mrs. M. Stewart were sitting in the living-room of their apartment when the angler made his cast.

Hearing a noise, they went into the bedroom just in time to see a figure running across the lawn.

The bedroom window was open and wedged through the opening was a pole made of two sticks tied together, with a large hook on one end.

The thief made off with a purse which was in the room. It contained personal papers but no money, police report.

A sawhorse had been used to gain access to the window.

This strike was the fifth in the last month.

No Revaluation for Aussie Sterling

CANBERRA, Oct. 6 (AP) — Prime Minister Robert Menzies said today his Cabinet had authorized him to "say publicly and quite definitely" there would be no change in the Dominion's foreign exchange rate.

Menzies said he wanted to quiet rumors of impending revaluation, current since Canada freed her dollar last week.

"We believe if our anti-inflationary program is earnestly applied, if we face the fact there is no cheap government substitution for competent management and honest work, dangerous inflation can be averted and the present price rise be steadily brought to an end," Menzies said.

Constellation Lands On Paris Airport

PARIS, Oct. 6 (CP)—The Constellation aircraft inaugurating the West-to-East trans-Atlantic service of Air France landed in Paris today after a non-stop flight from Dorval outside Montreal.

Passengers included Canada's Transport Minister Chevrier and Jean Desy, Canadian ambassador to Italy. Also aboard were a group of Canadian newspaper men.

MUSICAL CLOCK LEADS TO THIEF'S ARREST

ST. OMER, Northern France, Oct. 6 (Reuters)—A musical clock playing "Ave Maria" led to the arrest of a thief and a receiver here. The thief stole the clock from a local church and passed it on to the receiver, who was carrying it off in a bag when it started to play. Children heard it and told police.

NAILING IN PLASTER

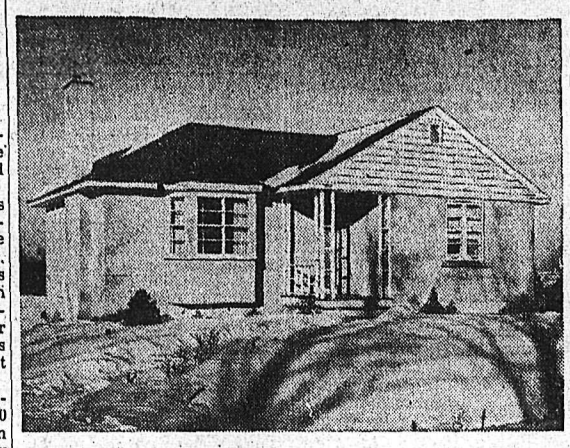
To prevent plaster from shattering when a nail is driven into it, try crossing two pieces of cellulose tape on the wall and driving the nail through the center. Sometimes heating the nail and driving it while it is still hot will minimize plaster crumbling.

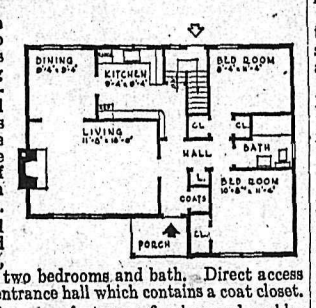
BLINDS EFFECTIVE

Venetian blinds can keep a room as much as 10 per cent cooler in Summer because of refraction of the sun's rays from the color-coated slats, and in Winter venetian blinds are 90 per cent more effective than window shades in retaining room heat.

The falls of Gersoppa in Bombay, 830 feet high, are considered the finest in India.

The Modern Home





The modern concept of the "ideal" house plan, at least to families of average income, is one which affords spacious living accommodation within a minimum-sized and moderately-priced house. Typical of post-war houses designed to meet both of these requirements is this attractive bungalow in which every foot of available floor space has been utilized to the utmost advantage.

The house has been designed primarily for a wide inside lot and boasts a good-sized living room, a separate dining room, kitchen, two bedrooms and bath. Direct access to most rooms is afforded by the entrance hall which contains a coat closet.

Measuring 11'8"x18', the living room features a fireplace and enables good furniture arrangement. The large living room window—which the Ottawa owner of the house illustrated has changed into a bay window—greatly enhances the appearance of the house.

The bedrooms are situated on one side of the house with the bathroom conveniently located between them. There are four closets in addition to the coat closet off the entrance hall.

Stucco has been used as the exterior finish for the house illustrated with wood siding applied horizontally on the gable ends. However, any other type of finish could be used although the exterior dimensions would have to be increased approximately one foot for brick veneer or solid masonry.

For estimating purposes, exterior measurements of the house are 37 feet, eight inches, by 27 feet, and the area is 905 square feet.

Complete construction drawings for this plan, known as Design 50-1, are available from any office of Central Mortgage and Housing Corporation at minimum cost.

Construction Contracts Awards Top $1 Billion

TORONTO, Oct. 6—The maintenance of a high level of construction contract awards through September brought the total for the first nine months of the current year to over a billion dollars. This figure had been reached previously for the first time only by the first 11 months of 1949.

The figure for September for all types of construction awards was $129,134,500 as recorded by MacLean Building Reports Limited. This represents a gain of 25 per cent over the $103,317,900 of the same month last year, and brought the cumulative total for the nine-month period to $1,010,769,000, or 124.5 per cent of the $812,080,200 to the end of September last year.

Residential construction initiated, in spite of unfavorable factors such as threatening shortages, was greater this September than last and, even more indicative of the strength of the boom rose $7.7 million, or 16 per cent above August of this year. Although not as striking, substantial increases were also registered by commercial, industrial and engineering, the three other types of construction. Engineering construction was up over last year in all regions except the Maritimes; commercial and industrial, in all regions except Quebec.

Comparative figures for the four classifications in September 1950, and September 1949, follow (1949 figures in brackets): residential, $56,294,900, ($50,810,800), up $5.5 million; commercial, $42,929,800, ($35,007,800), up $7.0 million, industrial, $11,332,100, ($7,109,700), up $4.2 million; engineering, $18,577,700, ($9,489,600), up $9.1 million.

WEST BUSY

Three of the four regions in Canada showed gains over last year. Quebec lagged $5 million behind, with the gain in engineering construction only partially overcoming the slump in other categories. Increases in the West of $14 million and in Ontario of $15.5 million were particularly impressive. The sharp increase in the West came, for the most part, in Alberta which accounted for $11.5 million of it. For the second month this year, the first year in which Newfoundland has been included in the figures, construction awards in that province ran over the million mark.

Construction work initiated on jobs estimated at a million dollars or over accounted for nearly 22 per cent of the total contracts for the month. Four of the 14 jobs listed in this class were large housing projects, biggest of all a $3.5 million apartment project in Edmonton. The others were a million dollar apartment job in Montreal, a $2.1 million CMHC undertaking at Esquimalt and a $2.9 residential development in Greater Ottawa.

Only two large industrial projects are included in the list, an assembly plant and storage building in metropolitan Toronto, and an explosives plant at Calgary. Roadwork for the provincial government of Alberta totalled $1.8 million and an administration building was also initiated in Edmonton at a value of $2 million. Offices and warehouse for the Liquor Control Board in Toronto were estimated at $1.2 million. Biggest engineering undertaking was the Fanshawe Dame near London, Ont., at nearly $3 million. There were two schools valued at $1 million each, one in London and one in Quebec City. Only major hospital for the month was one estimated at $1.5 million in Sydney, N.S. The City of Montreal has undertaken a recreational facility project involving a chalet, bathhouse and swimming pools to a probable total of just over $2 million.

Bathroom Mirror That Won't Fog

AP NEWSFEATURES

A bathroom mirror has been developed to defy fogging from the shower bath steam.

Electrically-conductive rubber is mounted behind the mirror to keep the glass at a temperature of 98 degrees, enough to offset the condensation of moisture. It operates on 110 volts and uses about the same amount of current as a 60-watt bulb. The heater is turned on and off with a switch in one corner of the mirror. Two layers of insulating rubber protect the heating element.

High Prices Keep Average Family From New Homes

By The Canadian Press

Canada's housing situation is improving — for those who can afford it.

But for Mr. and Mrs. Average Canuck it's still just as hard as ever to find a place to live. Apartments and lower-priced homes are being gobbled up as fast as they're built.

A Canadian Press survey gives this picture:

Construction is booming in every Province, but rising costs make it tougher to meet the needs of the average family at a reasonable price.

In Alberta and Quebec, the accommodation is there, but prices are high. Elsewhere, the war-accumulated demand still exists.

British Columbia reports a fair turnover in accommodation, but the situation is still tight, and prices are high.

It is almost impossible to rent a house in Winnipeg, officials say, although more than 2000 units are being built this year.

GIANT PROJECTS

Housing construction in Ontario spurted upwards during 1950, but the situation remained black. In Toronto two gigantic projects are in the offing—one in North Toronto of 534 one-family homes and 137 apartment units, and an East Toronto project of "several hundred" units.

Record Summer building in the Montreal area has resulted in definite easing of the rental situation. Apartments are plentiful.

Some improvement was noted in New Brunswick, particularly for veterans, but things are still tight. Building continues at a high level.

700 NEW HOMES

In Halifax, swollen by postwar population increases, the big problem is to provide emergency accommodation. Barracks at the Sheerwater airbase are being converted to aid 152 families, and more than 700 homes are being built for Naval personnel.

Central Mortgage and Housing is in the midst of a $3,500,000 slum clearance program in Newfoundland, designed to give 140 new units. The Provincial Government now is setting up a Housing Commission.

DEATHS

By The Canadian Press

WINNIPEG — Arthur Ernest Moore, 69, Dominion Chairman of the Canadian Legion.

BURLINGTON, Vt.—Dr. Howard Turner Barnes, 77, who earned world-wide recognition for his studies of ice.

MONTREAL — Bill Holding, 76, veteran sports trainer.

BUSHEY HEATH, England—Dr. Montague John Rendall, former member of the Board of Governors of the BBC.

LISBON—Dr. Jose Joquim Coimbra, 69, President of the Supreme Court of Justice.

MONTREAL — Samuel William Ewing, 87, former President of the Canadian Manufacturers' Association (Montreal division).

Inquiry Into BBC Banning of Play

LONDON, Oct. 6 (CP)—Britain's Liberal Party announced today it is seeking an independent inquiry into circumstances surrounding the banning of the television play, "Party Manners."

Liberal leader Clement Davies has written Postmaster-General Ness Edwards saying the play's withdrawal must lead to "serious" speculation about the impartiality of the BBC."

The play was withdrawn following criticism by the pro-Labor daily Herald, which said it displayed anti-government bias. It had previously been shown as a stage play, without protest.

Bicycle Garage

Are bicycles, tricycles and other wheeled items a problem around the house? The Home Economics Department of a Midwestern college has the solution—a "bicycle garage for storing such equipment. The "garage" may be a leanto added to the back porch or regular garage or an independent structure. It can be built economically by covering a wood framework with insulating board sheathing and applying waterproof paint.

BIG BUILDING STEP

One of the major differences in the homes built during the boom of the 1920s and those being erected today is the inclusion of insulation in the latter. Only a relatively small percentage of the houses put up in the '20s were insulated. That protection now is considered essential, both for fuel protection and comfort. Contributing to the trend has been the development of materials, such as insulating board sheathing and lath, which serve both structural and insulating purposes.

NEW WOOD DEFIES CIGARETTE BURNS

A super hardwood that is cigarette-proof and alcohol-proof, yet retains the natural wood grain, has been developed by the Western Pine Association research laboratories in Portland, Ore.

The product differs from hardboards made of compressed wood fibers in that it is the result of compression of a whole board down to approximately a third of its original thickness.

It can be made of nearly any softwood of low resin content, such as white fir, Engelmann spruce and Western red cedar. The board is subjected to a pressure of 1500 pounds per square inch at a temperature of 325 degrees Fahrenheit. No bonding agent is used. Once pressed, the board does not lose its shape.

It is worked with metal-cutting or carbide tools and installed by gluing or with screws inserted in pre-bored holes.

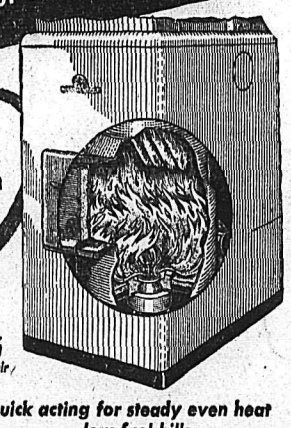
IRON FIREMAN OIL FURNACE
engineered for today's needs

A complete winter air-conditioner with the fuel saving Iron Fireman Vortex Flame



Warms, cleans, humidifies and circulates the air

Quick acting for steady even heat —low fuel bills

You can save up to one gallon of oil out of every three with this truly modern Iron Fireman furnace with built-in Vortex oil burner. The bowl-shaped, whirling flame is different from that of any other oil burner. The horizontal hearth reflects heat upward into the furnace, blanketing the entire fire chamber with hard-hitting radiant heat. Reaches top efficiency in a few seconds—no warm-up period before furnace begins delivering heat to your rooms.

See your Iron Fireman dealer or write for an illustrated picture story of the Iron Fireman Vortex oil furnace, its marvelous flame and outstanding results.

Visits Shut-Ins

EDMONTON, Oct. 6 (CP)—"Do unto others" is the working motto of Mrs. Augustine Juchli, warm-hearted fairy godmother of Edmonton shut-ins and aged.

For the last nine years Mrs. Juchli has been a constant visitor to homes, hospitals and old folks' homes. She invariably is seen carrying armfuls of fragrant flowers from her large garden or jars of pickles and jams she has prepared specially for those she visits.

When hospital visits are over for the day and evening light forbids more work in the garden, a favorite pastime for the French-born Mrs. Juchli is reading a collection of letters written by her foster children.

Answering an appeal to help war orphans, she offered to maintain six French boys and girls. They correspond regularly. In their letters they tell of their pride and joy in the clothes and food parcels they receive from her.

Planning Thanksgiving for 4? —You Can Do It for $8—at Least

Mrs. Nelson Housewife who is planning a Thanksgiving dinner with all the trimmings, will find that she'll have more difficulty balancing the family budget at the end of the month than she used to have!

If she's thinking of a dinner for four—complete with turkey and pumpkin pie, she may be able to do the trick for $8. But if she settles for a chicken instead of the traditional turkey, she can do it for $5.

Keeping strictly to the familiar Thanksgiving dinner and yet keeping the ingredients down to essentials, the menu might well consist of turkey (or chicken), corn, squash and potatoes for vegetables, and for dessert, pumpkin pie. Cranberry sauce, of course, would be a necessary accessory to the turkey.

An eight-pound turkey can be bought in Nelson stores for around $5.50, and while ample for a family of four, is about the smallest turkey that can be bought.

Small squash, weighing between four and five pounds, are fetching about seven cents a pound, and if they're to be baked, two squash would be required. Corn on the cob is still around 50 cents a dozen, but by the can it can be had for between 15 and 20 cents, depending on whether it's creamed or kernel style.

A medium sized pumpkin weighing again between four and five pounds, is 26 cents a pound or thereabouts, but more likely the average housewife, who wants to get as much enjoyment as possible out of Thanksgiving weekend, will be more inclined to buy a 28-ounce can of pumpkin when it comes to making that pie. She can do this for as little as 18 cents, if that's the case.

Cranberries are 25 cents for a 16 ounce packet, but if preparing a sauce is too much trouble here too, a can may be had for about 29 cents.

There it is. A Thanksgiving dinner for four which, with potatoes and tea or coffee included, would be worth around $8.

THE ALTERNATIVE

But a five-pound roasting chicken costing $3 or even 59 cents a pound, would reduce the bill $1.50.

Pumpkin pie and turkey are associated with the Thanksgiving feast because both appeared on the table of the first Thanksgiving. Corn, having played a large part in inspiring the Puritans to give thanks, usually appears in some form or other on the Thanksgiving table.

Cranberries have no definite significance. The fruit happens to ripen about this time of year, which makes it an opportune Thanksgiving "fixin'."

TABLE CENTRE

To top off a Thanksgiving dinner, the housewife will plan the proper kind of setting. Fruits and vegetables, for instance, make appropriate table decorations instead of the customary flowers.

For a centrepiece a huge pumpkin may be used, or any centre banked around with polished apples, Autumn leaves or nuts. A great yellow paper pumpkin may be a substitute for the real thing in a centrepiece.

Nelson Couple Feted on 50 Years of Wedded Life

Mr. and Mrs. James Robertson

Fifty years of married life were celebrated this week by Mr. and Mrs. James Robertson of Nelson.

Residents in the district for almost the same number of years, the couple were honored at a surprise party at their home at 220 Silica Street Tuesday night when many neighbors, friends and Nelson oldtimers gathered to congratulate them. They are pictured above in their home.

Mr. and Mrs. Robertson will commemorate their 50th year in the district in January, and both are still active in church work. Mr. Robertson is 74 and his wife 70 years of age.

Among the many visitors to the surprise party were His Worship Mayor N. C. Stibbs and Mrs. Stibbs.

Pioneers recalled memories of days gone by in a manner that made the couple smile as they reminisced on 50 years of wedded bliss. Both are "looking forward to their Diamond Wedding."

Mrs. Robertson was presented with a lovely decorated cake and she wore a corsage of bronze colored 'mums.

Both born in Ontario, they were married on the prairies on Oct. 3, 1900 coming to Nelson shortly after. Mrs. Robertson's father was one of the first four white men to settle around Boissevain, Man.

Mr. Robertson is Vice-President of the Nelson and District Oldtimers' Association and a veteran member of the I.O.O.F. lodge. He once held the treasurer's office of the order for 14 years.

His wife has also been an active lodge member and in her early days was active in nursing patients during the flu epidemic following the First World War. She received a decoration for her services in British Columbia during the epidemic. She is still active in Trinity United Church work and has been for the past half century. —Vogue Photo.

GRANITE ROAD W. I. READIES PLANS FOR BAZAAR, HALLOWE'EN PARTY

Final plans for the Granite Road Women's Institute bazaar in mid-October were discussed at a meeting at Shirley Hall. Plans were also made for a Halloween party for the children.

Conveners elected for the bazaar were Mrs. H. Farenholtz, refreshments; Mrs. W. Erickson, prizes; Mrs. J. Cullenaine, work table; Mrs. E. R. Clark, bake table and Mrs. W. White, plants. Conveners for the Halloween party will be Mrs. E. R. Clark, Mrs. N. Johnson and Mrs. Ryan.

A special Institute meeting will be held at the home of Mrs. B. Norcross on Oct. 28. Mrs. L. Gummow and Mrs. R. W. Chalmers will be guests.

Mrs. M. Barwiss, District Health Nurse asked that the hours for the Baby Clinic be changed from 2-4 p.m. to 2-3.

It was decided to give a donation of $5 to the Canadian National Institute for the Blind.

Mrs. Chalmers, who was a guest, gave a talk on the exhibition and congratulated the Institute on winning the third prize and a check of $15.

Officers for the forthcoming year will be elected at the next meeting.

Guests during the gathering were Mrs. Johnson from Thrums and Mrs. R. Reeg of Winnipeg.

Hostesses were Mrs. F. Ozey, Mrs. B. Norcross, Mrs. G. R. Pickering and Mrs. Johnson.

New Denver . . .

NEW DENVER, B. C.—Norman Thomlinson of Castlegar has been visiting his brother and sister-in-law, Mr. and Mrs. Stanley E. Thomlinson, and was accompanied back by his father, Herb C. Thomlinson, who spent the Summer months in New Denver.

John Teir is a patient in the Trail-Tadanac Hospital, where he underwent an operation.

Mrs. W. R. Cutler of Winlaw has arrived in New Denver to make her home with her son and daughter-in-law, Mr. and Mrs. Percy Cutler.

Mrs. Quentin A. Forsythe, Mrs. Harry T. Butler and Mrs. John Taylor were Nakusp visitors Wednesday to attend Martha Chapter No. 24, Order of the Eastern Star.

Mr. and Mrs. Michael C. K. Struve are spending Thanksgiving weekend in Spokane with friends.

William Yonge of the R.C.A.F., stationed at Trenton, Ont., is on a month's leave and is visiting his parents, Mr. and Mrs. H. B. Yonge, and brother Denis Yonge at Zincton.

Albert George of Kimberley is visiting for 10 days at the home of Mrs. D. Johnson and son, Ole Johnson.

Mr. and Mrs. Tex Larrimore of Trail have taken up residence in New Denver.

Bonnington . . .

BONNINGTON, B. C.—Mr. and Mrs. Trevor Crossley and little daughter have returned from a two weeks' motoring trip to Sydney, Vancouver Island, where they visited Mr. Crossley's mother, who is residing there.

Mrs. J. H. Jerome is spending a few days in Spokane.

DOLLAR DIPS

NEW YORK, Oct. 6 (CP)—The Canadian dollar was down 1/16 of a cent at a discount of 5½ per cent in terms of United States funds in closing foreign exchange dealings today. The pound sterling was unchanged at $2.80 3/16.

Ancient Egyptian tablets show rows of sycamore, fig-trees and date-palms under cultivation

● Mrs. A. E. McKay has returned to Trail after visiting her sister, Mrs. L. M. Jones, Johnstone Apartments.

● Mrs. Boletti has taken up residence at the Muraro home on Granite Road.

● Mr. and Mrs. P. G. Morey, Hoover Street, will have as weekend holiday guest their granddaughter, Miss Marilyn Morey of Trail.

● Mr. and Mrs. Arthur Lakes, who spent a few days in the city, have returned to Spokane.

● Mr. and Mrs. R. A. Scott, 713 Mill Street, have returned from Cranbrook where they went to attend the silver wedding anniversary of Mr. and Mrs. Bert Huxtable at which wedding twenty-five years ago they attended the couple as bridesmaid and best man. Mr. and Mrs. Scott were accompanied by their son Larry.

● Miss Heather Abbey has arrived from Kaslo to attend Notre Dame College.

● Miss Catherine McInnes has returned to St. Joseph's Hospital Victoria where she is in training after spending her vacation at the home on Mill Street of her parents.

● Rev. Joseph B. Barnes, P.P., of Castlegar was a visitor at the Cathedral of Mary Immaculate.

● Mr. and Mrs. Samuel Korbin, 302 Robson Street, have taken up residence at 1501 Kootenay Street.

● Mr. and Mrs. J. Genero, Rosemont, returned from a few days visit to Spokane.

Thanksgiving Services To Be Held Sunday

Special Thanksgiving services will be held in Nelson churches Sunday. Several churches will be decorated with harvest vegetables and fruits.

Thanksgiving services will be held in the First Baptist Church, Trinity United Church, St. John's Luthrean Church, Church of the Redeemer, The Salvation Army, St. Paul's United Church, full Gospel Services and the Bethel Tabernacle.

"The Admiral's Prayer," will be the text of a special service at St. Saviour's Pro-Cathedral Church when the Nelson Sea Cadet Corps will attend. The cadets will attend in connection with observance of Navy Week. Other cadets will go to the Cathedral of Mary Immaculate.

Youth Rally Sunday will be observed at the Evangelical Mission Covenant. Young people from Creston and Castlegar Districts will attend with Rev. Carl H. Peterson of Seattle, Washington, as guest speaker.

Guest speaker at the First Presbyterian Church will be Mr. Angus Murray of the First Presbyterian Church in Trail.

Monday, Thanksgiving Day, a special service will be held at the First Church, Christ Scientist.

"ANNE" IS GUINEA PIG FOR STUDENTS

WINNIPEG, Oct. 6 (CP)—Anne is only three weeks old but already she has put in a two-week stint at the University of Manitoba.

The baby girl, who belongs to the Children's Aid Society, holds out in the Home Economics Department where she gives third year girls an opportunity to learn about mothering with the real thing.

The girls get a month of holding, feeding and diapering Anne while taking the home-management part of their course.

Thanksgiving

Be glad for it—the goodness of the earth!
Rejoice in it—the splendid gift of God!
So much of beauty and so much of worth
Spring ever upward from the yielding sod.
All our possessions, table, bed and chair,
Were uproots from the earth's full flowing breast,
Our roof, our daily bread, the clothes we wear
Spring from deep roots that mankind may be blest.

Let us rejoice, let us give grateful praise
For all good things that God has kept in store
Deep in the earth for need throughout our days.
God grant that as we use them more and more
They may be unexhausted to bestow
Upon the generations yet to be,
The earth's continued goodness and the flow
Of life itself, which Thine own hand sets free.

—GRACE NOELL CROWELL.

Junior Businessman

There will be a young fellow call at your house today. In fact, he calls every Saturday, but today is a special Saturday for him; it's National Newspaperboy Day.

He is no ordinary fellow, this lad. He is a boy with a purpose of his own, with a service to render; he is a student enrolled in a school of wider education than his mates, and he is the youngest "businessman" with which you deal.

His purpose is the purpose of every businessman, to do a good job and to make a return on his energy and enterprise. The education he is gaining is in business methods, in self-reliance, thrift, responsibility, cooperation and integrity. He is learning the value of trustworthiness in handling his own and others' money, and the value of the other things besides money that come with pride in achievement.

This boy has his foot on the first step of the ladder of success; and the records show he's a boy likely to reach the top of that ladder. The ranks of business, labor, industry and the professions are filled with men whose first experience in dealing with the public was in the role of newspaper carriers.

The newspaper profession and business appreciates the role the carrier plays in their industry and in their service to the public, not only on Saturday—the day you see him—but six days every week. It takes pride in bringing to your attention the work of your newspaperboy, knowing that all citizens share in pride over youth's accomplishments.

Farewell to Romance

Children born today will grow to maturity without experiencing one of childhood's most lasting sensations. That shivery feeling that runs along a youngster's backbone on a drowsy Summer's day when, as he lies gazing dreamily at the sky, the mournful wail of a train whistle wafts over the still countryside. This sound invariably conjures up visions of far-away places and remains indelibly inscribed in the memory, a reminder of carefree vacation time.

Canadian railways are rapidly replacing the familiar steam-belching locomotives with diesels whose warning whistle is more akin to the blare of an auto horn. No matter what other qualifications the diesels have, we shall all miss the familiar train whistle, even those persons who reside near train crossings and have been muttering dire imprecations under their breath for years when awakened from peaceful slumber by the shrill locomotive whistle.

No longer will that glamorous figure in the familiar overalls and cap wave a grease-smeared hand in salute to the small boys lined up alongside the track to watch the express roar by; no longer will small boys be thrilled when the fabulous figure, high in the cab, gravely acknowledges their worship with a salute. Yes, indeed, when the railways are completely dieselized, something will be gone from the countryside.—Alcan Ingot.

Press Comment

LADY BOOTLEGGERS

We wouldn't have believed the law could get so far behind the times if Mr. Angelo Branca, K.C., hadn't explained it in Police Court to the apparent satisfaction of Magistrate Matheson.

The Magistrate acquitted a woman charged with bootlegging after Mr. Branca said she wasn't responsible. Her husband was there at the time, he pointed out, so he claimed the benefit of a rule in English common law that a wife in such circumstances is assumed to be under her husband's coercion.

Perhaps English wives at one time were actually under such subjection to the will of their husbands. But the rule certainly doesn't conform to the present customs of the people.

—Vancouver Sun.

NOT ANOTHER LAW!

In Saskatoon, a woman Alderman asked the Council to pass a bylaw prohibiting the burning of refuse on Mondays. She argued that Monday is wash day, and the the soot played havoc with the washing on the line. Her fellow Councillors had the good sense to turn down her request, gently pointing out that one bylaw encouraged another, and that somebody might want a bylaw "to prevent people from sneezing on street cars".—Saint John Telegraph-Journal.

EGYPTIAN RICH

Like one of the pyramids, Egyptian society has a small apex, the very rich, and a broad base, the poverty-stricken masses. Its Parliament plans an ambitious social program, but by letting the wealthy continue to escape direct taxation, it has jeopardized the financing of the scheme.—Ottawa Citizen.

USE OF PREPOSITIONS

The practice of ending a sentence with a preposition is something which pedants of the English language frown upon. It happens to be something we take no objection to. Why should we not use a preposition to wind up a sentence with? That is to say, if we want to.

—Montreal Star.

ROSIER APPLES

It is reported that a new spray has been invented which turns out apples with "rosier cheeks". What would our Victorian forebears think if they knew that today even apples are resorting to makeup?—Brockville Recorder and Times.

TOO OLD FOR IT

A Quebec man, 104, says he took up smoking at the age of 89, but dropped it after a year. Made him feel kind of silly, we suppose, to grab a handful of cornsilk and sneak behind the barn to steal a smoke.—Windsor Daily Star.

Your Horoscope

In your next year it would be well to avoid speculation and proceed on the even tenor of your way. Good-nature is likely to be the prevailing trait of a child born today.

FOR SUNDAY, OCT. 8: A happy, peaceful Sunday birthday seems likely for you. New friends may be made during your next year. Look for artistic and literary talent in the child who is born under these aspects.

A. F.—My favorite hobby is collecting matchfolders. I would like addresses in India, Egypt, Switzerland, and New Zealand. Where can I obtain them?

We would advise you to write to Book-Match Manufacturers, Ltd., Toronto, Ont., explaining your hobby and repeating the question.

Mrs. R. B., Nelson—Mrs. E. W. S., R.R. 1, Nelson, has kindly supplied us with the following information regarding daffodils:

"You do not mention the bulb-fly (Merodon Equestrie) which was imported into the Kootenays about 10 years ago and is the cause of many daffodils and narcissi not blooming, as when in the larva state it eats the flower out of the bulb so only leaves come up in the Spring. Your correspondent can find out by cutting a large bulb in half. Another reason for daffodils not flowering is that they have increased too many small bulbs and require replanting."

Looking Backwards

10 YEARS AGO

From The Daily News of Oct. 7, 1940

Mr. and Mrs. T. S. Jerome, Victoria Street, had as weekend guest, their daughter, Mrs. Marjorie McCosham who teaches at Slocan Park.

Weekly medal sweep at the Nelson Golf and Country Club, again marked by a good entry, was won by Ronald Andrews with 75-12—63. Second place was taken by William Blane with 79-15—64, and third place by O. H. Gurnsey of Vancouver with 83-15—68.

25 YEARS AGO

From The Daily News of Oct. 7, 1925

J. K. Kirby as the lowest bidder, received the contract to paint the exterior of the City Hall, including the roof, when the bids had been opened at last night's Council meeting. Mr. Kirby's bid was for $327.50.

PITTSBURGH—A battle that promises to add a spectacular chapter to the history of baseball's championship conflicts starts tomorrow with the Washington Senators, champions of 1924, defending their laurels against the onslaught of Pittsburgh's new National League titleholders, a fighting array which hopes to regain the glory that was this city's 16 years ago.

40 YEARS AGO

From The Daily News of Oct. 7, 1910

Dr. H. B. Morrison and C. F. Woodrow leave this morning for a 10 day hunting trip in the Lardeau country. Cariboo and goat are the game in which they are going in pursuit.

G. G. S. Lindsay of Toronto, late manager of the Crow's Nest Pass Coal Company, reached the city from the Coast last night and is staying at the Strathcona Hotel. Accompanied by F. A. Wilkin of Winnipeg, Mr. Lindsay will leave this morning for Sheep Creek where he will make an inspection of the camp with a view to investment in one of the many valuable properties in that famous gold camp.

Captain Bligh

Most people think of the 18th century seaman, William Bligh, R.N., as the villain of the story of the mutiny of H.M.S. "Bounty", but in recent years research has thrown new light on both Bligh's character and actions, and has shown that the loss of the "Bounty" was an isolated incident in a long and adventurous career. The story of Bligh's life is written by Rex Rienits in a serial play, "Bligh of the Bounty".

The voyage of Bligh and his companions in an open boat across 3600 miles of the Pacific remains today, writes Rienits, "one of the epic feats of navigation of all time, and it established beyond any doubt Bligh's courage, skill, and stubborn determination." He was acquitted of all blame for the mutiny, and after distinguishing himself in several naval engagements, he was summoned before Nelson to receive his personal congratulations and thanks. In 1805 Bligh received his appointment as Governor of the then convict colony of New South Wales, and it was, perhaps, in his service in this post that he made his greatest contribution to British history.

Political Foes Have Deep Respect for Ernie Bevin

By DEWITT MACKENZIE
Associated Press News Analyst

Disquieting news comes from Britain regarding the health of Foreign Secretary Bevin.

This outstanding figure in foreign affairs yesterday delivered another of his pungent speeches in support of the United Nations and collective armed strength for the West. It was a notable effort, made at the annual convention of the Labor Party, but unhappily one of the impressions it left was that Bevin's physical strength is fading through ill health.

Indeed, while he showed flashes of his old two-fisted vigor, some observers felt that this might be the last speech he would deliver at a Party conference as a Cabinet Minister. There have been reports from time to time that he might resign as Foreign Secretary because of his health.

SHIRTSLEEVE DIPLOMAT

If Bevin has to retire from the heavy pressure he now is under, it will be a great international loss. His views have weighed heavily in world councils, and even hardy political foes such as Russia's V. M. Molotov have had a deep respect for this exponent of shirtsleeve diplomacy.

One of the achievements of the Foreign Secretary's speech yesterday was the defeat of a Left-Wing pacifist resolution calling for new talks with Russia. His attitude toward the U.N. was summed up something like this:

"We have tried the four-Power and five-Power business of . . . settling the fate of all little powers. I don't like the prospect of assuming that every little country can be bandied about on the decisions of the big ones."

Instead, he declares, he prefers to work entirely through the U.N.

Well, should this prove to be Bevin's last address before the Labor Party conference as Foreign Secretary, he will have wound up with a fighting speech. It typifies his whole attitude toward public life since the beginning of his political career, when he threw a noisy opponent bodily into a river.

For some time now Mrs. Bevin has been accompanying her husband on his trips to watch over his health. He himself has shrugged his expansive shoulders at the question, and has remarked:

"I've got the arteries of a man of 40."

That's the fighting Bevin talking.

TO SELL B. C. FIBRE FLAX PROCESSING PLANT

VICTORIA, B.C., Oct. 6 (CP) — British Columbia's fibre flax processing venture, started as a wartime aid to Great Britain, has fallen prey to the exchange rate.

It was announced today that the Provincial Government, involved to the extent of an $85,000 mortgage, has taken over the plant near White Rock and will sell it Oct. 22 to the highest bidder.

E. MacGinnis, Markets Commissioner, said the chief reason it is no longer feasible to operate the plant is the drop in value of the British pound compared to the Canadian dollar.

The National Gallery of Canada was founded in 1880 by the Marquis of Lorne, then Governor-General.

TITO'S GOVERNMENT CRITICIZED FOR MISMANAGING IRON AND STEEL WORKS

By DONALD PRESTON

BELGRADE, Oct. 6 (Reuters) — Labor troubles, aggravated by poor management and austerity living conditions, are hitting Yugoslavia's key mining, iron and steel industries.

These difficulties come at a bad moment. The Summer drought, the Cominform's economic blockade and acute shortages of foreign currency to pay for vital imports, have already combined to make economic prospects for the coming Winter grim.

Much frank criticism has appeared in the Yugoslav Press recently about the way industries and mines are being run in the all-out effort to keep pace with the ambitious targets of Marshal Tito's five-year industrialization plan.

CHIEF BUGBEARS

The chief bugbears of mining and industry here at present appear to be absenteeism and an abnormally-high rate of labor turnover, aggravated by a labor shortage.

Manpower difficulties are also crippling steel production.

The Yugoslav official Press generally attributes "this unjustified absenteeism" and high turnover of labor to "bureaucratic methods of management," poor working conditions, lack of accommodation and welfare facilities, and failure of Communist Party members to instill sufficient enthusiasm for the five-year plan.

Wings Look For All-Star Victory

BY CHARLES C. CAIN

DETROIT, Oct. 6 (AP)—Detroit Red Wings are confident they can set a National Hockey League record by whipping the league's All-Star team here Sunday night.

The Detroiters won the N.H.L. championship and Stanley Cup playoffs last season to become undisputed professional hockey champions. They could accomplish a 'grand slam' by winning the All-Star game.

During the off-season the Red Wings surprised the hockey world by indulging in some large-scale trading.

The trades saw Goalie Harry Lumley and Defenceman Jack Stewart, two of the mainstays of the 1949-50 squad, shipped to Chicago along with forward Pete Babando and rookie Don Morrison.

In return, the Blackhawks sent Metro Prystai, Gaye Stewart and Bob Goldham to Detroit.

The big question mark in the Detroit camp is goal-tending. There young Terry Sawchuk, a 21-year-old rookie up from the Wings' Indianapolis club, will attempt to fill the gap left by Lumley's departure.

Sawchuk played in seven Detroit games last year when Lumley was injured and he showed up well.

Oddly enough, Jack Stewart was voted a place on the All-Star team and will play against his old Red Wing teammates.

The All-Stars named by the N.H.L. coaches include:

Goalkeepers — Chuck Rayner, New York, and Turk Broda, Toronto.

Defence—Jack Stewart, Chicago; Gus Mortson and Jimmy Thomson, Toronto; Bill Quackenbush, Boston; Glen Harmon and Butch Bouchard, Montreal.

PUG YOUNG QUITS FLYERS

EDMONTON, Oct. 6 (CP) — Defenceman Harvey (Pug) Young appears to have reached the end of the trail as a member of Edmonton Flyers of the Western Canada Senior Hockey League.

The big defenceman, a league all-star last season, failed to turn up for practice last night. He was not used in Flyers' two exhibition games earlier this week with Portland Eagles of the Pacific Coast Hockey League.

Flyer Coach Frank Currie said Young "just sort of walked out on us. And I guess that's it."

Young has played with Flyers since the W.C.S.H.L. was organized in 1945.

Errs When Bases Loaded

GRAN HAMNER

"I think I was trying to be too sure, then the ball went off my fingers."

Young Granny Hamner muttered the words as he sat dejectedly in his cubicle in the Phillies' dressing room. He faced the wall with his back to reporters and teammates milling in the room.

"I've made a lot of errors, but that one—" he didn't finish the sentence.

Hamner's error came in the eighth inning with the bases loaded and two out. Jim Konstanty had just replaced Ken Heintzelman who had walked three batters in a row after getting the first two.

Pinch-hitter Bobby Brown slapped the pitch to Hamner. The shortstop picked up the ball and then it rolled off his hands. In trooped Gerry Coleman with the tying run from third.

Granny Hamner had never been in Yankee Stadium in his life until this afternoon.

And, somehow or other, you almost wish the Philadelphia Phillie captain and shortstop had never entered the three-tiered palace.

The 23-year-old high-spirited Whiz Kid pulled the boner of his life in that fatal eighth that allowed New York Yankees to tie the score with the National League champions. His dejection before that huge almost-silent mob of 64,505 was probably the most tense moment of the three-game series to date.

Granny, whose fielding throughout the year was almost flawless, accepted the role of goat. He tried to nullify it with his lead-off double in the ninth, but it wasn't in the script.

The rest now is history.

Whiz Kids Do Everything But Win, Yanks Score 3-2

By GAYLE TALBOT

YANKEE STADIUM, New York, Oct. 6 (AP) — New York Yankees defeated Philadelphia Phillies for the third straight time today, 3-2, and broke the hearts of the Whiz Kids in the process.

The American League champions shoved across the tying run in the eighth on an error by Granny Hamner, Phil shortstop, and scored the winning run after two were out in the ninth on a single by Gerry Coleman with two on.

This wa sthe seventh straight one-run defeat suffered by the Phillies in World Series play dating back to 1915, and it probably was the toughest of the lot to lose. It will take stout hearts for Eddie Sawyer's youngsters even to show up for the fourth game here tomorrow.

For the third time since the series opened in Philadelphia, the National Leaguers received brilliant pitching. They outhit the Bombers 10 to 7, and they went into the final two innings nursing an apparently-safe 2-1 lead as their 34-year-old southpaw, Ken Heintzelman, mowed down the Yanks.

But then, even as the crowd of 64,505 was cheering them on to victory in hopes of extending the best-of-seven series to at least five games, both Heintzelman and his support succumbed to the pressure.

Heinzelman had yielded only four hits and had retired the first two Yanks in the last of the eighth when it began to happen. The veteran southpaw suddenly lost control completely and walked Coleman, Larry Berra, and Joe DiMaggio in succesion to load the bases, with the tying run on third.

Jim Konstanty, who lost the first game, came in from the bullpen to make his 75th relief appearance of the year. He faced Bobby Brown, pinch-hitting for Hank Bauer. After fouling off a pair, Brown sent an easy roller to Hamner.

The shortstop picked up the ball, then dropped it, and by the time he had recovered the pellet it was too late to make a force play at second and Coleman had crossed the plate. Johnny Mize then popped foul back of third to end the inning.

Came the last of the ninth, and Russ Meyer, the third Phillie pitcher, likewise retired the first two Yanks, fanning Cliff Mapes for the second out. It looked like another extra-inning tussle when Gene Woodling, who had hit for the Yankee pitcher, Eddie Lopat, came to bat.

He rapped one down to Jimmy Bloodworth, who had taken over second base for the Phils to start the inning. The veteran bobbled the ball a second and got off a hurried, wide throw as Woodling sped across the bag. The official scorers ruled it a hit, not being certain that a perfect play would have nipped the Yank.

GOOD ENOUGH

Then little Phil Rizzuto slammed one just to the right of second which Bloodworth dived at and knocked down but couldn't hold. Woodling slid in safely as the ball rolled around the bag. That brought up Coleman, batting hero of the series, and he slammed a single into left-centre. Gerry ran only a few steps past first as Woodling raced across the plate and two Phil outfielders chased his hit. It probably would have been good for a double if Coleman had been interested in running it out.

The Yankee second baseman has done more to kill the Phillies' hopes of their first world championship than any other Yankee batter. He knocked in the only run of the 1-0 first game with a long fly out to left field. He scored the first run in Thursday's 2-1 victory, which DiMaggio finally salted away with his 10th-inning home run.

Yankees scored the game's first run in the third when Coleman brought Rizzuto home with a single. The Phils tied it up in the sixth when Del Ennis blasted his first hit of the series, a double down the rightfield line, and Dick Sisler, who up to that time had been the most futile Phillie of the mall, going 11 times without a hit, scored him with a single.

HAMNER SCORES

In the next frame the National Leaguers went ahead for the first time in 26 innings since the play-off began. Hamner led off with a single through the box, was sacrificed down to second by Seminick and scored on Mike Goliat's solid shot into centre.

Whitey Ford, the Yankees, 21-year-old rookie southpaw sensation, will attempt to wrap up the series tomorrow. The youngster won nine and lost only one after joining the Yanks from their Kansas City farm early in July. He possesses remarkable control and unusual poise for a player of his years.

For the Phillies it was to be either Bob Miller (11-6) or Bubba Church (8-6), both freshman righthanders. By this time, Sawyer probably is wondering what sort of pitching is required to win a game from the Yankees.

Minor Hockey Under Way With New Schedule

From next week until the end of the hockey season the Nelson Civic Centre Arena is going to be a busy place every day of the week. This week skaters and puck chasers just got a warm up and the feel of the ice, but beginning Monday ice activities will be going at top speed.

The first minor hockey schedule has been drawn up by Civic Centre officials and young enthusiasts will be given ice time until the new pooling system is settled. Boys on the teams have been asked to come to the practices at the times specified bringing their hockey equipment.

Schedule for the first week follows:

Monday—9-11a.m.—Bantam shinney hockey.
11:15-1:30—Midget shinney hockey.
4:15-5 p.m.—Bantam pool.
5-6 p.m.—Juvenile shinney hockey.
Tuesday—6:30-8 p.m. — Juvenile shinney hockey.
8:30-10 p.m.—Big Three hockey.
Wednseday—4:30-6 p.m.— Midget shinney hockey.
Thursday—8-10 p.m.—Big Three hockey.
Friday—4-5 p.m.—Bantam pool.
5-6 p.m.—Bantam shinney hockey.
Saturday — 9-10 a.m. — Bantam pool.
12:30-2:30 p.m.—Bantam shinney hockey.
2:45-4:45 p.m.—Midget shinney hockey.
5:15-7:15 p.m.—Juvenile shinney hockey.
Sunday — 2-4 p.m. — Big Three hockey.

Reardon Likes Detroit

REGINA, Oct. 6 (CP)— Kenny Reardon shows promise of being just as good a goodwill ambassador for Montreal Canadiens as he was a defence player for the National Hockey League team.

The former Winnipegger has been a tremendous hit with youngsters attending the Canadiens' Amateur Hockey School at Regina Stadium.

"I'm not in very good shape but I like to get out there with the boys," said Reardon, who recently announced his retirement from active hockey.

He came to the Regina camp straight from attending a hockey clinic for college coaches in the New England States.

"It looks like a swell school," he said as he donned his skates at a practice earlier this week. "We'll have a good idea what Pats (Regina Pats junior club) have got after a few exhibition games. The fellows here are a little younger than I expected, but there's some fine hockey talent on the ice."

He picks Detroit as the team to beat again in the N.H.L.

"They're having trouble placing a 20-goal man like Gaye Stewart so you can understand how strong they are. This Prystai (Metro Prystai, formerly of Chicago Black Hawks) will be a big help to the Wings, too."

Lynn Patrick Injects Three Newcomers Into Bruins Lineup

(This is the last in a Canadian Press series on pre-season prospects of the N.H.L. clubs.)

BY DAVE O'HARA

BOSTON, Oct. 6 (AP) — Lynn Patrick is confident his Boston Bruins will be heard from in the National Hockey League this year. The new Boston coach said today "I'm pretty sure we'll be in the playoffs come next Spring."

Patrick has cut his squad from 39 players to 19—only two over the limit. His three forward lines and three sets of defencemen are set for the opener in Montreal a week from Saturday and the only spot still open is that of a spare forward.

Only three new faces will be in the line-up of the Boston entry, which failed to make the playoffs last season. Lorne Ferguson, a 20-year-old rookie up from Hershey in the American League, has earned one Wing spot while Steve Kraftcheck, 21, and Eddie Riegel, 26, off-season purchases from Cleveland, have won defence posts.

Patrick is sold on Ferguson and Kraftcheck and feels Riegel is capable of holding his own in the major circuit.

"Ferguson looks very good and I think it will be only a matter of time before he becomes one of the league's topnotchers," said Lynn. "Kraftcheck is rugged and really rocks them."

Patrick plans to keep intact the Bruins' high-scoring line of Paul Ronty at centre, Johnny Pierson at right wing and little Kenny Smith on the left flank.

Co-Captain Eddie Sanford, out last season with a severed Achilles tendon, has regained his form and will pivot for Ferguson and Eddie Harrison. Patrick surprised experts by placing Milt Schmidt at right wing with Centre Phil Maloney and Dave Creighton.

Schmidt, who alternated as a forward and rear guardsman a year ago, is expected to be assigned a regular defence berth, but Patrick feels the speedy veteran still has plenty left to play up front.

Murray Henderson has been paired with Kraftcheck on defence. The other pairs will be the young veteran Fernie Flaman with Riegel, and Bill Quackenbush, streamlined at 183 pounds, with Ed Kryzanowski.

Jack Gelineau, who came out of McGill University and stepped into Frankie Brimsek's shoes last year, will be back in goal. In three exhibition games Gelineau has allowed only two goals.

Strikes 'n' Spares

Archie Macrone, the vet of the Senior Men's Commercial League took the high aggregate when he bowled 728. G. Corbett toppled the pins to the tune of 269 to take the high single.

High scoring team was the Madden.

League standing follows: Madden, 10; Mashers, 8; 111th, 8; Queen's, 7; Standard, 7; Royal, 6; Nelson Varmints, 6; Brewery, 6; National, 5; Scholars, 4; Simpson's, 4; Freight Sheds, 1.

In the Variety Club League games rolled off this week, Ola Casson scored the high single of the evening with 249 while Edna Milne took high aggregate with 572. High team score was taken by the Bombers who accounted for 2546 points. In the League standings to date, the Dead End Kids are tops with six points, while the Flying Floozies have five; Bombers, four; Bowling Bees, two; Humdingers, two and Mad Hatters, two.

Scores went a bit higher in the Men's Commercial League games played Wednesday. Bob McDonald's 280 was the high single while Arvid Schneider took high aggregate honors with his 695 score. Bennie's keglers were high team with 2784 pins.

Team standings show the Bankers at the top of the ladder with 10 points while just one point behind is the Bennie's crew with nine. Other standings are Rigby's, five; C.P.R., three; Cuthbert's, three and Transfer, three.

Scores follow:

Market Trends

NEW YORK, (AP) — There was a widespread forward movement led by oils, motors and steels today.

Gains were frequent at about $1 a share and ran on into $2 and $3 among leaders.

Among Canadian issues McIntyre lost ½, and International Nickel and Done Mines each was off ⅛. Hiram Walker added ½, Distillers Seagrams ¼ and Canadian Pacific ⅛.

TORONTO (CP)—Industrials and base metals climbed slowly into new high price ground.

Advances ranged from fractions to a point over a wide list of key industrial stocks as the average price level of the list again broke through to a new peak. Papers continued feature performers and steels, constructions, refining oils and financial institutions showed majorities of gains.

Base metals pushed to a new 13-year price peak as gains about doubled losses.

Junior gold producers chalked up gains ranging to 10 cents. Western oils recovered from early loses.

MONTREAL (CP) — Securities again began an upward movement.

A moderate group of utilities was irregularly higher. Southern Canada Power brightened the list with a climb of 1¼ points at 24¼.

Base metals were mixed, but losses were comparatively small, as aluminium added 1½ at 87½ and Consolidated Smelters rose nearly a point.

MAWHINNEY OUT

PEBBLE BEACH, Calif., Oct. 6 (CP)—Bill Mawhinney, Vancouver amateur, today bowed out after reaching the third round of the California amateur golf championships. He was defeated 6 and 5 by Aldo Galleti of Oakland, Calif.

MAN WHO HELD THE BABE TO SINGLE MOURNS PHILLIES SERIES FORTUNES

By WILL GRIMSLEY

NEW YORK, Oct. 6 (AP) — One of baseball's immortals, Grover Cleveland Alexander, sat in an obscure corner of the Press box today and watched his first World Series game in 16 years.

He stood through the first three innings, without a seat and completely unnoticed. Finally, he was recognized and a pew was found for him in the back row of the Press section.

"It's tough," he said, shaking a grizzled head.

He wasn't talking about himself. He was talking about his beloved Phillies, the team with which he broke into the major leagues in 1911.

The aging mound master, once a robust 185 pounds, looked thin and drawn. A patch covered his right ear where a delicate operation was performed last Winter.

The last series he saw, he said, was the St. Louis-Detroit affair in 1934, won by the Cardinals.

Alexander, who won 94 games over a three-year span in 1915-17, holds the only World Series victory ever scored by the Phillies. He won the first game, 3-1, before the Phils dropped the next four to Boston.

Somebody asked him what he thought about the pitching in the Series. Would Joe DiMaggio have given you any trouble? Somebody asked.

"I don't know," old Pete replied. "I faced Babe Ruth in the World Series 16 times. All he got was a single."

The Sports Eye

By CLIVE FLEMING

The Phillies are as well as out of the World Series now. The big moneyed Yankees made it three in a row, all heartbreakers for the Phils, and just need one more victory to cop the big baseball classic. The Manhattans might even make it tonight, but even though every game so far was as close as they could be made, four straight defeats would be a shellacking in any league.

Personally, I'd like to see the Sawyer men take at least one game, being a National League man, but as Bill Good said, whenever a senior loop club is confronted by the high salaried Yankees, they seem to get "stage fright," and forget they played better baseball in the pennant race. The St. Louis Cardinals seem to be the only National League team that wins consistently when they do enter the World Series.

It's Bill Vickers Night tonight. Trail Smoke Eaters are here to play the Nelson Maple Leafs in the benefit. Eddie Wares, who has pruned the Leafs to 21 pucksters, will dress 20, including two goalies, Jack Kilpatrick, who has only been out for one workout, will watch this one.

Six defencemen and four attacking units will confront Bobby Kirk's Smokies, as Eddie will be looking for the best, as the final basis for selecting the 1950-51 Leafs.

Al Silverwood and Bobby McNabb will alternate in goal, one playing two periods, and the other one session, and it will be reversed over in Trail on the return game.

George Barefoot, Ron Collings, Jim Drew, Ernie Gare, Jack Steel and Wares will line up on the defence. The tentative forward lines are Roy Allen, Doug Winlaw and Fritz Koehle on one string, Conny McBeth, Kay Strate and Bill Haldane on the second, Wally Hryciw, Neil McClenaghan and Johnny Fargher on the third, and Red Koehle, Joe Zubach and Mickey Maglio comprising the fourth.

Jack Kilpatrick, who will likely play over in Trail Tuesday, was out for his first practice, and skating with the best of them. Killy is one of those hard to find examples of physical fitness. He could likely step on the ice in midseason and still play the leading role. He's a wonderful centreman, and could be a main cog of the Leaf attacking units this season.

It seems Mickey Maglio, who just had a fresh cast put on his wrist, may not be playing for the New York Rovers this year, because of the cast. If he doesn't go to the Rovers, he'll likley wear a Leaf uniform, if he plays hockey.

Right now, of the 21 pucksters still in the running for Leaf spots, imports have been shaved to six, the limit for this year. There may be more in yet, as Wares has contacted the Vancouver and Cleveland training camps.

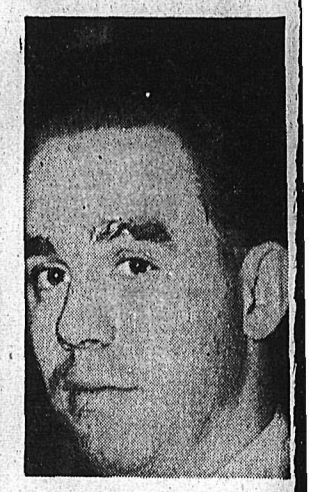
Stunting Pilot, Passengers, Ended Up Air Ride in Pasture



More than 100 war veterans and their families, including over 200 children, spent a nerve-wracking 20 minutes as a light rented airplane zoomed and dive-bombed over their heads at Ancaster, Ont., to finally crash-land in a one-acre field, 10 miles from Hamilton, Ont. With only the propeller and undercarriage smashed, and a wing-tip slightly damaged, the pilot, Robert Milson, 25, Hamilton taxi driver and Air Force veteran, and two Provost Corps privates stepped unhurt from this light three-seater, only to be arrested for "flying, which by reason of low altiture and proximity to persons and dwellings, was considered dangerous to the public."

Milson, seen above, is now in R.C.M.P. custody after "buzzing" his sister. The two soldiers, on embarkation leave, met Milson in a Hamilton hotel. "Impressed" by their friend, they went up "for the ride", thinking he was owner of the plane.

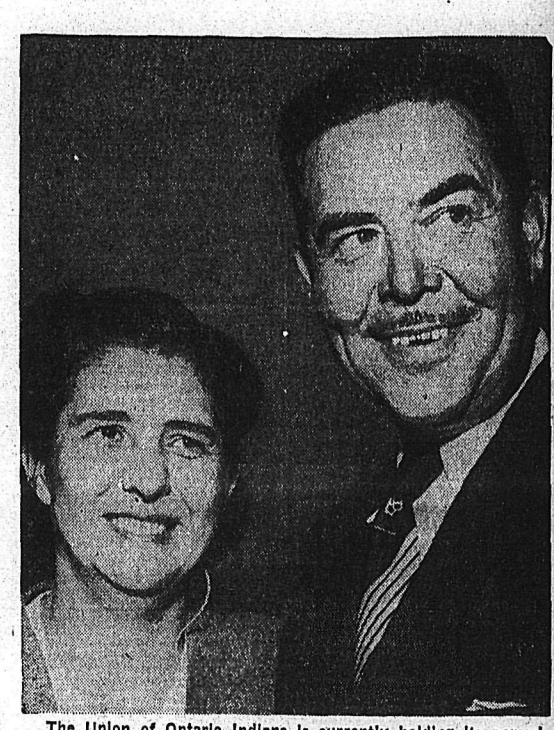
Marine Reward for Initiative

U.S. Marines on an Amtrac are proudly seen displaying the U.S. flag presented to them by their commanding officer, Col. Lewis "Chesty" Puller, for their initiative in the Inchon landing.—Central Press Canadian.

"Big Wig" at Indians' Convention



The Union of Ontario Indians is currently holding its annual convention at the Rama Reserve, near Orillia, Ont. Chief Lorenzo Big Canoe of Georgina Island, Lake Simcoe, seen with his wife, has advocated a Royal Commission into Indian affairs to consolidate treaty arrangements.—Central Press Canadian.

South Korean Finds a Friend

A wounded South Korean soldier is shown being carried to a first aid station by a U.S. infantryman, in the Naktong-Wi area, near Masan. The other members of the patrol follow in single file. U. S. soldiers have developed a deep respect for the fighting calibre of the South Koreans.—Central Press Canadian.

LONDON (CP) — Britain's banks report a surplus of pennies. The 2,200,000,000 now in circulation are gradually drifting into the banking houses, while the 14,000,000 struck at the mint in 1949 have never been issued.

DUBLIN (CP)—Detective James Costello on patrol stared at one of the dummies in a tailor's front window appeared to move. Later the "dummy," otherwise Kevin Kelly, was given three months in jail on a shopbreaking charge.

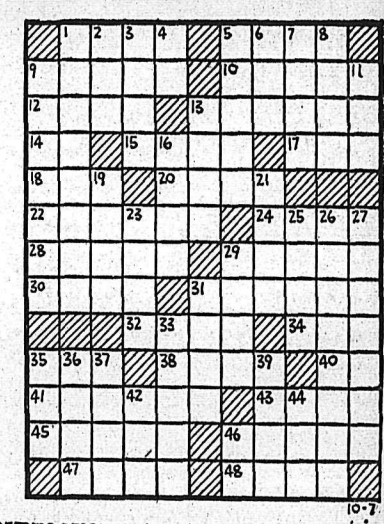
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
Is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

Austria Remains West's Easternmost Frontier

BY RICHARD O'REGAN

VIENNA, Oct. 6 (AP)—Communism today was considered to have suffered one of its most crushing recent defeats in Europe as Austria returned to normal after two days of red terror.

Trains were running on schedule again. Street cars operated unhindered and 50,000 striking reds went back to work.

Although Soviet troops and commanders aided the terrorist campaign, the Russians carefully avoided any action that might have caused an international incident.

The Austrian reds said they called off their strike because of "Western pressure."

A purge of red leadership is definitely in the cards as a result of the fiasco, but that is of secondary importance. More important is the fact that Austria safely remains the west's easternmost stronghold on the fringes of Russia's defence line in Europe.

The failure of the communist attempt shows that only direct aggression by Russia might win the country to the red fold. For this the Russians apparently are not ready.

AUSTRIAN CHARGE

LONDON, Oct. 6 (AP)—Britain hinted today she considers that Russia breached the Big Four Austrian occupation pact by backing communist-led strikers against the Vienna government.

Austria has made such a charge in notes to the four occupying powers —Britain, France, Russia and the United States. A foreign office spokesman, referring to the Austrian protest, said the 1946 control agreement binds all occupying powers to help the government maintain law and order.

2-Year Sentence For Part in Coast Holdup

VANCOUVER, Oct. 6 (CP)—Donald Olsen, 29, of Vancouver today was sentenced to two years in prison for his part in the $4,700 holdup of the Canada Packers Ltd. payroll office here Sept. 28.

At the same time, police announced arrest in Calgary of a 22-year-old youth said to be one of Olsen's two companions.

Olsen pleaded guilty. Tight-lipped and white-faced, the father of three refused to say anything in his defence.

Police did not give details of the second man's capture but a detective will fly to Calgary tomorrow to pick up Robert J. Save.

A third member of the trio is still sought.

Meanwhile, police continued to sift clues in the hunt for three bandits who held up a branch of the Royal Bank of Canada here Wednesday and escaped with $2,500.

Oullette Appeals Murder Sentence

VICTORIA, B.C., Oct. 6 (CP)—A new trial was ordered by Appeal Court Thursday for Joseph Oullette, sentenced to be hanged for the Nov. 22 murder of Mah Sing, a Chinese market gardener, who was shot in his lonely shack near Vernon, B.C.

Justice C. H. O'Halloran was the only dissenting judge on the bench. He favored reduction of the charge to that of manslaughter.
