Nelson Daily News

52 Years of Service to the Kootenay-Boundary – 1952

Vol. 51 — NELSON, B.C., CANADA — FRIDAY MORNING, MAY 16, 1952 — No. 22

WEATHER FORECAST

Kootenay—Mostly clear. Continuing warm winds light. Low and high at Cranbrook 40 and 72. Crescent Valley and Revelstoke 40 and 75.

MINE-MILL WINS IN UNION VOTE

New Koje Boss to Crack Down Reds

KOJE ISLAND, May 16 (Friday) (AP)—A new era of firm rule was proclaimed Thursday for Koje Island, ending soft measures that allowed Red prisoners to negotiate with their captors and flaunt "insulting signs."

Brig.-Gen. Haydon Boatner made this clear to correspondents 24 hours after he had taken over the festering prison island — scene of two riots and the sensational seizure of Brig.-Gen. Francis T. Dodd.

Boatner declared he would hew strictly to the Geneva Convention for humane treatment of war prisoners, but that the Communist behind the barbed wire would have to learn who was boss.

TRIED TO ESCAPE

Even as Boatner talked with correspondents, three prisoners tried to escape from their compounds and one of them was shot by a guard.

Boatner said he believed the Allies had been too lenient to Koje and had given prisoners "more, in my opinion, than required by the Geneva convention."

Meanwhile in the United States, Lyndon Johnson (Dem. Tex.) indicated that the group does not plan a formal hearing.

Johnson said Pace had promised to make available "the complete report and all the facts" in the incident.

A member of the Senate Armed Services Committee which questioned Pace for about 30 minutes, said Pace told the committee that "the full facts and story about Joje have not been made public."

Senate and House members alike were disturbed and angry over the blow to United States prestige resulting from the prison-camp incident which involved the seizure of Brig.-Gen. Francis Dodd, camp commandant, and concessions from Brig.-Gen. Charles Colson to gain Dodd's release.

Dodd and Colson, who took over as commandant while Dodd was held captive, were relieved by Gen. Mark Clark, new Far Pacific Commander-in-Chief.

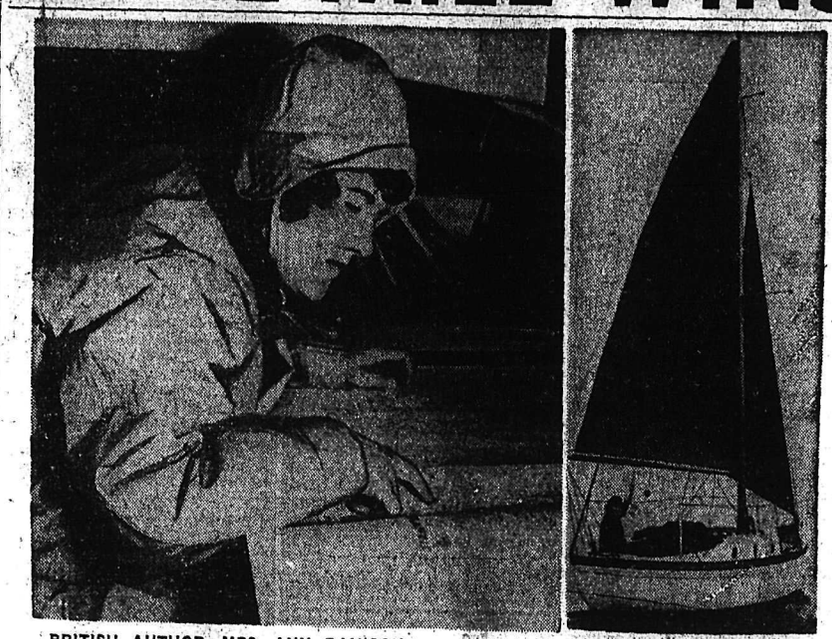
DISGRACEFUL

Bridges told the Senate that the episode was "a disgraceful affair" and was being exploited by the Communists in world-wide propaganda.

The Defence Department was particularly upset over a sentence in Colson's message to the prisoners saying: "I do admit that there have been instances of bloodshed where many prisoners of war have been killed and wounded by U.N. forces."

WASHINGTON, May 15 (AP) — Army Secretary Frank Pace went on the carpet behind closed doors today as demands erupted in Congress that the administration disclose the full story behind the Communist prisoner-of-war revolt on Koji Island in Korea.

Lawmakers denounced the incident in such terms as "disgraceful," "shameful" and "monumental blunder."



BRITISH AUTHOR, MRS. ANN DAVISON, seen above, charting her course, is awaiting favorable weather reports in Plymouth before starting out on a single-handed crossing of the Atlantic Ocean in her fragile 23-foot sailing boat, the "Felicity Ann", seen at right above. If she succeeds, it will be her tribute to the memory of her husband, who lost his life in 1949 in a similar venture, and the crossing would also make the 38-year-old former aviatrix the first woman in the world to successfully tackle the Atlantic seas between Britain and Florida on a lone voyage. The small vessel will carry 12 gallons of oil for the small 5-horsepower diesel engine, 35 gallons of water and 270 pounds of food stores. She'll be cut off from civilization throughout the 90-day trip because the little boat must keep clear of the busy shipping lanes. Though she has a small radio receiver, there is no transmitter aboard the vessel.—Central Press Canadian.

B. C. AIRLINES TO RESUME SCHEDULES

Directive Lifts Gas Restriction

VANCOUVER, May 15 (CP) — Airlines serving British Columbia said tonight they will be able to resume close-to-normal service, despite the crippling United States oil strike.

Queen Charlotte Airlines and Canadian Pacific Airlines, which serve coastal and hinterland points, expect to resume regular schedules in the morning under a directive received today from Ottawa.

This directive cancelled in part a previous order restricting the sale of aviation gas in the province. Again available are fuels in the 91-98 octane bracket used by most twin-engine aircraft.

These gases are refined in B.C. from crude oil shipped in mostly from South America. They do not require the components needed in higher quality fuel which must be refined in the U.S.

Oil companies have had sufficient supplies of the low quality fuel on hand at all times, but were prevented from selling a part of it by an order from Ottawa calling for a 35-per-cent cutback.

In announcing the return of normal schedules, C.P.A. said the resumption "applies only in B.C., although flights such as Vancouver to Calgary can operate since they are fueled up within this province."

Trans-Canada Airlines, which uses only four-engined North Stars, will still be affected by the order cutting down sales of high quality aviation gas.

Victory Dance Marks End of 2-Year Battle

TRAIL, B.C., May 15—A victory dance marked the end today of a two-year union battle, leaving the International Union of Mine, Mill and Smelter Workers (Ind.) as undisputed bargaining agents for 4000 workers.

The men are employed at the multi-million dollar plant here of the Consolidated Mining and Smelting Company, a vital link in Canada's defence program.

United Steelworkers of America (C.I.O.-C.C.L.) were the losers in a referendum ordered by the British Columbia Labor Relations Board.

Communism was an issue—one that was stressed by the Steelworkers. Harvey Murphy, regional director of the Mine-Mill, is an avowed Communist.

At dawn, as members of the mine-mill and their wives danced in the Union Hall to the music of banjo and accordion, the result of the vote was made known. It showed:

For Mine-Mill	1949
For Steel	1669
Against any union	49
Spoiled ballots	13
Majority	280

The vote gave mine-mill a majority of 280. It took 53 per cent of the vote with Steel totalling 42 per cent.

"Steel is through with the fight," announced Murray Cotterill of Toronto, national publicity director. "The vote enables Mine-Mill to be unchallenged."

It was a costly battle, estimated to have cost both unions more than $100,000.

Murphy claimed the steel men spent $1,000,000, but Bert Gargrave of Vancouver, Steel's international representative, said the jurisdictional battle cost his union $60,000. Murphy reported his union spent $40,000.

"Honest trade unionism has won a very decided victory," Murphy said in a statement to the Press. "Now let us all unite and get behind the bargaining committee."

He said there would be no discrimination against the workers who broke away from Mine-Mill in 1950 to become members of the Steelworkers' organization.

"The steelworkers will recommend to their Trail membership that the application for certification now before the labor board be withdrawn immediately," Cotterill told reporters.

FULL SUPPORT

"We will recommend that full support be given by our supporters in Trail to Mine-Mill Local 480."

Decision to dissolve Steel Local 4281 will be made by the membership at an early meeting.

Murphy, who frankly says, "I am a Communist," came here in the final days of the referendum campaign to aid Al King, President of Local 480.

King, who told his supporters that politics don't enter unionism, said all political parties were represented among the workers.

"I am not a Communist, I am a Roman Catholic."

Murphy said in an interview when the vote was announced that "We have been Red-baited by so-called socialists."

EXPELLED

His union was expelled from the Canadian Congress of Labor and the Congress of Industrial Organizations two years ago on charges of Communist domination.

Mine-Mill has held bargaining authority for the workers in Trail since 1943.

Final action in the long-time dispute is expected to come within the next 10 days when the Labor Board meets to give a decision on Steels' application for bargaining rights.

If Steel membership votes for a withdrawal of the application the board's meeting will be routine with formal certification being granted Mine-Mill.

The referendum was ordered by the Labor Board after it had twice rejected Steel's application for bargaining authority."

END TO OIL STRIKE SEEN

WASHINGTON, May 15 (AP) —O. A. Knight, top strategy-maker of a score of unions involved in the country-wide oil strike, said tonight "we are calling off the strike," and government officials foresaw a quick end to the 16-day walkout.

Union and government officials said an actual end to the strike could come only through local agreements between union and management negotiators. Bargaining in the oil industry is on a local basis, involving some 22 different unions and hundreds of their locals.

Priest Hears Jury Confessions

HULL, Que., May 15 (CP)—Can a Roman Catholic priest hear the confessions of men serving on a jury at a murder trial?

Mr. Justice Francois Caron of Montreal today answered the question in the affirmitive—with some reservations. The jurors must swear there will be no discussion of the murder trial in the confessional.

The question arose during the trial of Rheal Leo Bertrand, on trial a second time for the murder of his bride of a few months.

One of the jurors asked if a priest could be made available Saturday to hear the confessions of the 12 jurors. They wished to go to communion in a body Sunday.

Mr. Justice Caron hesitated. There could be some objections, he said. While the priest could hear confessions, he had no right to direct a juror on the verdict he should deliver. The jury's request would be granted on condition the case would not be discussed in the confessional.

Socreds Resign

VICTORIA, B.C., May 16 (Friday) (CP) — The three top executives of the Victoria Social Credit Association have resigned, it was learned today.

The Daily Colonist in a newspage story said the resignations followed a "reported squabble over the choice of election candidates."

Resignations have been tendered by E. O. Duke, president of the Victoria Constituency Association, William L. Fahey, first vice-president, and R. Barclay Shaw, second vice-president.

Mr. Fahey has also resigned as president of the Social Credit League, Victoria group one, a subsidiary body.

STOCKHOLM, May 15 (Reuters) —The Swedish government today refused to hand over to Communist Poland a fisherman, Z. Skwarczewski, who escaped to Sweden two months ago in a little trawler by locking up the captain and another fisherman below decks. He put into Simishamn, South Sweden, and asked the Swedish authorities for asylum as a political refugee.

Brig. Rockingham to Take New Army Post

VANCOUVER, May 15 (CP) — Brig. John (Rocky) Rockingham said today he believes it will be a "long time" before there is any settlement of the Korean war.

Canada's bronzed, tough fighting Brigadier came home after 13 months in command of the 25th brigade in Korea to take a new army post — director-general of military training. He arrived by plane from Sidney, following stops at Honolulu and San Francisco, after a 11-day Australian speaking tour.

He said Canadians were still fighting in Korea as they had been since they first landed there.

"We can see a searchlight over Panmunjom (truce-talk site, at night and balloons over it during the day but it hasn't made any difference to our lives," he said.

TO OTTAWA

The 40-year-old Brigadier will leave for Ottawa Saturday to report to the chief of the general staff. He will miss by one day the arrival here of 1157 of his troops from Korea.

Two more shiploads of Korean veterans wil larrive here in the next three weeks, completing the repatriation of Rockingham's original brigade in Korea. It sailed from Seattle, Wash., in late April, 1951. The brigadier said at least 20 per cent of the troops in the field are experienced men.

Brig. Rockingham will return to his Vancouver home after reporting at Ottawa to start 30 days' leave.

He branded as "completely untrue" a report that Chinese Communists are burning at the stake captured allied pilots who have bombed the Reds with jellied gasoline. Sportscaster Doug Smith of Montreal, who arrived back from Korea earlier this week, said he had heard this from a Canadian officer.

"Id like to get hold of the man that started that rumor," Brig. Rockingham said.

BEST TROOPS

He said Canadians are "far and away" the best allied troops in Korea and that their morale is excellent.

He said his successor, Brig. Pat Bogart, was "fitting in well but I almost got him killed the first day I took him up to the lines."

The Brigadier said he "couldn't feel better" at being back in Canada.

He was carrying a crooked black cane, given to him by his troops after he broke his original one four times. As usual, he wore a revolver strapped to his right hip. His wife, daughter, Audrey, 15, and son, John Jr., 13, were at the airport to meet him.

Spy Sentenced to 10 Years in Jail

MUNICH, May 15 (AP)—A former soap box derby manager who confessed spying for Czechoslovakia was sentenced to 10 years imprisonment by a U.S. court today. Oskar Thiel-Malek, 30, admitted receiving $700 for taking military information on four trips to Czechoslovakia last year. He managed two soap box derbies put on by the United States army for German children.

Third Accident In Safety Week

VANCOUVER, May 15 (CP) — The second accident on Vancouver Island in two days brought the total to three today in British Columbia's sawmill safety week.

Officials said a worker was injured at the Hillcrest Lumber Company plant at Messachie Lake when he fell from a pile of lumber.

Tanker Sinks, Four Missing

WILMINGTON, Del., May 15 (AP) — A tanker carrying 640,000 gallons of high octane gasoline burned and sank after a collision with another vessel early today in the Chesapeake and Delaware Canal. Four missing crew members went down with the ship, their captain said.

Capt. Roger Spears, 54, of Jackson Heights, L.I., escaped with five other crew members of the F. L. Hayes by jumping overboard. All were taken to hospital for treatment for shock and minor injuries.

FLAMING TORCH

A flaming torch for more than 12 hours after the crash, the 240-foot tanker sank partially across the heavily-travelled waterway. The Hayes' prow was nosed firmly into a mudbank. Visible parts of the deck and superstructure, scorched and twisted by the fire, showed plainly that nobody could have survived aboard.

There was no immediate indication when it might be possible to resume ocean-going traffic through the 19-mile waterway across the Delmarva Peninsula. The canal provides a shortcut for vessels travelling from Chesapeake Bay to Delaware Bay, between Baltimore and Philadelphia, New York and New England ports.

The Hayes was westbound through the canal shortly after midnight. Capt. Sears said he was waiting for the 6100-ton freighter Barbara Lykes, eastbound, to pass when the Lykes veered and struck the Hayes. Fire flashed quickly through the tanker. Sears turned her prow into the sandy canal bank, then jumped.

NO ROOM

The Lykes completed passage through the canal, where it had no room to turn around or manoeuvre, anchored for a while in the Delaware River, then sailed for New York. Her owners, Lykes Bros., said they had received a report she was not seriously damaged, but that Capt. M. G. Wood has not yet reported his version of what happened.

A third ship, the 6700-ton freighter Angelina, of the Bull Line, was following the Lykes. One of a series of explosions that ripped the tanker threw burning gasoline into the Angelina. Two crew members were burned extinguishing a small fire.

Buoyant Picture Painted of Canadian Trade

OTTAWA, May 15 (CP) — Trade Minister Howe said today that Canada is in the midst of rising employment, income and production and there is no reason to anticipate either inflation or depression.

The veteran, 66-year-old minister, who has held the Trade and Commerce portfolio since 1948, painted a bright picture in the Commons of record world trade, rising Canadian development and a further fall in the cost of living.

In a general statement as the House began consideration of estimates of $16,400,132 for his department in 1952-53, he said the cost of living now is back "to about where it was last August" and "a further substantial drop in the cost-of-living index is in sight for the month of May."

Mrs. Thorne Dies In Coast Hospital

VANCOUVER, May 15 (CP) — Mrs. Belle Thorne, sister-in-law of Premier Byron Johnson, died yesterday in hospital here.

Funeral services will be held Saturday. Mr. Johnson may cancel his weekend election campaigning to attend the funeral.

Evidence Heard of Canada's Switch To U.S. Equipment

OTTAWA, May 15 (CP) — The Commons defence-spending committee got a new glimpse today at the post-war trend of Canada's forces away from British equipment towards use of American and Canadian gear.

Moving through another forest of statistics, the committee learned that the Navy is engaged in creating its own catalogue of stores for the first time.

Elgin Armstrong, Assistant Deputy Defence Minister, said the Navy used the British naval catalogue of stores up to 1949 but the trend away from British to American and Canadian equipment made it necessary to prepare a Canadian catalogue.

His statement indicated that all three forces have been affected. The army has announced a policy of Americanizing its arms. The air force is using U. S. and Canadian planes.

Mr. Armstrong said it will take another two years to complete the catalogue and that it will be subject to change.

As the defence committee checked navy losses, Gen. Pearkes said he was impressed by the number of write-offs caused by clerical errors. He suggested that the Navy should look into its accounting methods or the way it trains clerks because errors had to be corrected and this took a lot of valuable time.

Mr. Armstrong said he couldn't agree because the navy's percentage of write-offs other than for theft and fire was usually below one per cent, "a pretty good record."

Gen. Pearkes had submitted that one reason for error might be the way ordnance people "twist" names. Mr. Armstrong said he hopes the new catalogue will help.

Aureomycin Lab Strike Bound

PEARL RIVER, N.Y., May 15 (AP) —A helicopter airlifted food over a mass picket line today to more than 100 scientists holed up since yesterday in a strike-bound laboratory which is the sole producer of aureomycin.

The aircraft also dropped air mattresses to the men — and some women — self-imprisoned for a second night in the Lederle laboratories here.

They stayed in the laboratory rather than face what the company described as an angry, stone-throwing mob of 1000 A.F.L. pickets who might bar their re-entry. The strike began yesterday over wages.

Three Trawlers Missing 10 Days

COPENHAGEN, May 15 (Reuters)—Three Danish trawlers with crews totalling 12 men have been missing for 10 days and authorities fear they have been picked up by Russian patrol boats in the Baltic. This follows a long series of similar incidents. Hitherto all the vessels have been returned with their crews after a delay of several weeks.

ARSONIST GETS DEATH PENALTY

NEW YORK, May 15 (AP)—Abraham Keshner, 42, a jacket manufacturer convicted of murder in the death of a city detective in an arson fire, was sentenced today to die in the electric chair during the week of June 23. Keshner was convicted of setting a fire in a loft building last Sept. 10 to collect insurance.

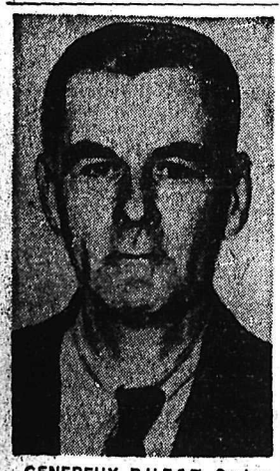
$10 Million Damages Claimed

NEW YORK, May 15 (AP)—Damage suits filed against the United States yesterday as a result of an ammunition barge explosion that cost 31 lives at South Amboy, N.J., in May, 1950, were estimated today at approximately $10,000,000. Lawyers for the plaintiffs said property damage suits aggregated about $8,500,000 and personal injury and death claims about $1,500,000.

Five Countries to U. N. Health Board

GENEVA, May 15 (Reuters) — Canada, Brazil, Denmark, New Zealand and Iran were elected to the executive board of the United Nations World Health Organization at its fifth assembly here today. They took over from the Philippines, Sweden, Turkey, the United States and Venezuela for three-year terms.

Government Takes Step to Create National Library



GENEREUX RUEST, Quebec City watchmaker, will be hanged on July 25 for his part in the time bomb explosion that sent 23 persons to their deaths aboard an airliner that crashed on Sept. 9, 1949. In a 7-to-2 decision, the Supreme Court of Canada in Ottawa rejected the appeal of Ruest, seen above, one of three persons found guilty of murder following the destruction of a Canadian Pacific Airlines plane over a desolate area in Quebec. The court was the last judicial resort for the 54-year-old cripple. However, the federal court can commute sentence to life imprisonment.
—Central Press Canadian.

OTTAWA, May 15 (CP) — The Massey Commission reported with sorrow last year that Canada is the one civilized country in the world without a national library.

The Government gave the long-awaited word today that will put an end to this situation. Prime Minister St. Laurent placed on the Commons order paper notice of a resolution for introduction of a bill to establish a national library, equip it with a staff and furnish it with funds to buy books.

Officials said it will be several years before construction actually starts on the library itself in Ottawa. But the St. Laurent disclosure was greeted with elation in library and scholastic circles.

Establishment of a national library "at once" was one of the recommendations of the Royal Commission on the Arts, Letters and Sciences—the Massey Commission—last year. But pressures for such a step preceded the Massey Commission by a good number of years.

Actually a considerable amount of spadework for a library has already been done through establishment in 1948 of a bibliographic centre at the National Archives under Dr. W. Kaye Lamb, the Archivist, who may well be assigned the job of being the first national librarian.

That centre, conceived as the nucleus of a national library, has been building up an index of books in Ottawa and other libraries as well as publishing monthly lists of publications in and about Canada.

Parliament's approval of the step proposed today would mean a start on cataloguing the tens of thousands of books now available for a national library, notably from the parliamentary library which will gleefully unburden itself of a large fraction of its more than 750,000 books.

The Parliamentary library, with thousands of surplus books stored away, looks forward to the day when it can assume its original role, that of serving parliament.

Consumer Price Index for July

OTTAWA, May 15 (CP) — First issue of the government's new consumer-price index will be for July, Trade Minister Howe told the Commons tonight.

The index, a modernization of the existing monthly cost-of-living index will be based on 1949 price levels. The old index uses the 1935-39 period as the base.

Mr. Howe also announced the current index will be issued along with the new one for some time — unspecified — after the consumer index starts coming out.

Back on Jobs

BIRKENHEAD, Cheshire, England, May 15 (Reuters)—A strike of 2000 dock-workers ended today when the men, idle since Tuesday, decided to return to work, pending negotiations. They went on strike over the dismissal of a man accused of "evading" work. The man was re-instated, but the workers objected to his losing work and hol-

TEA RATION UP

LONDON, May 15 (AP) — Food Minister Gwilym Lloyd-George said today Britain's weekly tea ration will go up to 2¼ from two ounces July 13. He also told the House of Commons that the meat ration will go up to one shilling, seven pence June 15. But Lloyd-George also said he'll sanction a retail meat-price rise that will all but wipe out the benefit.

PIONEER OBSERVES BIRTHDAY IN ERIN

BELFAST, Northern Ireland, May 15 (Reuters)—William Gilchrist of Zeballos, B. C., today celebrated his 75th birthday in his birthplace, Dungannon, County Tyrone, with his mother, 101-year-old Mrs. Ann Jane Gilchrist.

It was Gilchrist's first birthday there since he went to Canada in 1907. The retired lumber dealer returned this year just to celebrate his birthday at his "home."

Prize gift was a sweater knitted by his mother—still an expert needlewoman.

AMONG the 50 envoys who recently presented their credentials to new Queen of England at Buckingham Palace in London was the Russian Ambassador to U.K., George Zaroubin, seen above. Although the envoys were accredited to Britain during the reign of the late King George VI, they had to present new letters of credence to new sovereign.—Central Press Canadian.

And in This Corner . . .

LOS ANGELES, May 15 (AP)—It took an art dealer 30 minutes to convince customs officials that one of three bright-colored posters by famed French painter Henri Matisse actually is art.

Three customs officers decreed that the object was "packing material" and therefore subject to duty. Frank Perls, the dealer, won his point by arguing that rgardless of how it was shipped, the poster is art and is part of a Matisse exhibit to be shown this month in Beverly Hills.

LONDON, May 15 (AP)—Ivy Wickens is a free woman today after getting a divorce on grounds of desertion. She told the court her husband had himself committed to a mental hospital shortly after their marriage, and for 20 years had refused to come out.

CHATHAM, Ont., May 15 (CP)—Tanner Hopper was up in court yesterday, charged with assault occasioning bodily harm.

Complainant Earl Greenwood, 51, of nearby Thamesville, said Hopper cracked three of his ribs when he struck him with his cane.

The charge was withdrawn.

Greenwood wanted the court to warn Hopper against further similar incidents. The court declined.

Hopper is 102 years old.

He was defended by S. B. Arnold, 90.

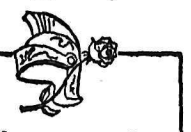
FREEMAN FURNITURE WINDOW, SATURDAY, 3:00 P.M.

Coming May 26



Three great love stories in M-G-M's mighty spectacle!

QUO VADIS

COLOR BY TECHNICOLOR

CIVIC

Delegate Appointed

F. H. W. Chanter Thursday was named Nelson Chamber of Commerce delegate to the meeting of West Kootenay-Boundary Central Farmers' Institute at Kaslo May 21. Mayor Joseph Kary, another member, will also be in Kaslo at that time.

East Shore Road Strip To Be Political Issue

The gravelled Wynndel to Kuskanook section of Highway No. 3 will become a minor political issue in the forthcoming provincial election.

Nelson Chamber of Commerce is going to ask each candidate in Nelson - Creston riding for a promise that he will use his influence if elected to have the section standardized by no later than 1953.

The Chamber made the decision at its Thursday luncheon after its roads and bridges committee had made the recommendation.

The Nelson Chamber has long pressed for standardization of the section which it feels is in "dangerous condition."

Proposal Outlined to Chamber . . .

Ex-Mayor Against Sale of Building

Nelson should not "sacrifice" its Front Street property known as the Green building.

The building, one of two properties the city proposes to sell in order to buy Queen City Motors garage, is "the most desireable location for a fire hall," N. C. Stibbs told Nelson Chamber of Commerce at its luncheon meeting Thursday in the Hume.

The former mayor made his statement after Alderman Arthur Foster, chairman of Council's finance committee, had outlined reasons for a bylaw to be put to ratepayers shortly seeking authorization for the transactions.

Alderman Foster, introduced by Mayor Joseph Kary, said the city proposed to buy the Queen City Motors for use as a garage for its 30 mobile units.

The present garage in the old gas works building is unsuitable for its purpose as only one unit can be accommodated for repairs at one time. With city's entry into the municipal bus business, lack of accommodation has become acute.

In addition, the building cannot be converted profitably, he said.

MORE SUITABLE

The Queen City Motors property will lend itself well to requirements of maintenance and repairs of vehicles. As many as four units could be placed in its repair section at one time, storage facilities are already installed, and the building can be adapted to house the majority of the city's vehicles.

In proposing to sell part of the gas works property including the building, and the Green property, the city feels it would get tax returns from two properties instead of one under the existing situation.

If improved, the buildings would enhance Nelson's industrial picture.

20 Win Passes In Clown Contest

Winners have been announced in a coloring contest conducted among Nelson and district elementary school students as publicity for the United Arena Managers' indoor circus appearing here today and Saturday.

For coloring a picture Chico the Clown, and the clown and his monkeys will present free passes to the winners today at the schools. Out-of-town winners may pick up their passes at the Civic Centre.

Central school winners are Julia Polac, Rita Anne Lissa, Brent Thompson, Doreen Spiers, Mickey McMaster, Dale Nystrom, Corinne Vance, Louise Sjoberg, Darryl Brown and Hughie Hooker. Hume School winners are Marelyn McEwen, Nadine Hendrickson, Gayle Derr and Joy Paterson; Lambert's kindergarten winner, Janice Clerihew; St. Joseph's, Grant Wyles; Taghum, Judy Puflett, and Blewett winner, Ruth Wilkie. Richard Spiers and Bobby Ringrose were also among the winners.

Frank Wheeler, Rube McCandlish and high school band will play tonight and Saturday night at the circus, and the junior high band will team up with the former at a Saturday afternoon matinee.

There will be a Baker Street performance Saturday afternoon by Cy Ritter and his dilapitated automobile.

LITTLE LEAGUE PLAN HELPS BUILD CITIZENS

Little League Baseball is never commercialized, is completely amateur and non-profit-making, Eddie Wares told Kiwanis Club at the Hume Thursday night.

The publicity chairman of the proposed league was seeking Kiwanis support of the venture, in which it is hoped service clubs will act as team sponsors. The request was referred to the directors.

"Big league ball in miniature," it was completely for benefit of boys from eight to 12, Mr. Wares said. It taught them discipline, for rules were strict and fair play was emphasized. It helped to make them good boys and good citizens.

Garth Fowles "modelled" a baseball outfit the players will wear. To outfit four teams would cost $1129, thus each sponsor would be required to raise $300 for its team. Cost the following two years would be $100 per year, while in the fourth year it was expected uniforms would have to be replaced.

Nelson Chamber to Hear Montreal Man

John Sheridan of Montreal, secretary of the Canadian Chamber of Commerce, will be guest speaker at Nelson Chamber of Commerce,'s luncheon meeting May 29.

Announcement that the national official would be visiting this district at that time was made at Thursday's meeting of the Chamber.

New Assistant for Chamber's Secretary

Nelson Chamber of Commerce was introduced at its luncheon meeting Thursday to its new assistant secretary, Mrs. S. Zuk.

Membership applications from J. R. Moore, F. T. Williamson, and Archie Burnie were accepted. Mr. Moore was a luncheon guest.

Deposits Decrease

OTTAWA, May 15 (CP)—Dominion government deposits decreased $1,451,000 to $25,779,000 during the week ended May 14, the Bank of Canada reported today in its weekly financial statement.

Chartered bank deposits decreased $36,317,000 to $605,697,000, while note in circulation decreased $883,000 to $1,414,686,000.

Newsprint Made From Sugar Cane

SAVANNAH, Ga., May 15 (AP)—Tests on a new process for manufacture of newsprint from sugar-cane waste at the Herty Foundation Laboratories were pronounced successful Wednesday.

Joaquin de la Roza, Cuban-born American inventor who perfected the process, was enthusiastic at results—in spite of trouble with the pulp which delayed strt of the run.

Under the process, the waste, called bagasse, is converted to a strong opaque and very white paper The experimental run was witnessed by a number of Southern publishers and paper experts.

Essential feature of the new process is what inventor de la Roza calls "pre-hydrolysis" of the waste. In this fashion the sugars remaining after the cane is crushed are broken down and removed prior to cooking of the pulp. This results, says the inventor, in a cheaper, and more practical process without significant change from present equipment and techniques.

Chamber Invited to Two U. S. Ceremonies

Invitations have been extended to Nelson Chamber of Commerce to attend two opening ceremonies in Washington communities.

Colville Chamber of Commerce has asked members to attend opening of a new three-quarter of a million dollar hospital there, and the group has also been invited to attend opening of Metaline bridge early in June. Several members are expected to attend both functions.

Nelson Boy Member Of College Group

Word has been received that Robert Nicholson of Nelson has been accepted into membership into the chapter of intercollegiate knights at Gonzaga University at Spokane. The group is a national collegiate service honorary.

Robert Nicholson is the son of Mr. and Mrs H. A. Nicholson, 823 Carbonate Street.

Chamber Office To Be Renovated

With an eye on ever-increasing tourist traffic through this area, Nelson Chamber of Commerce is going to improve its office accommodation.

The Chamber's building at 501 Fornt Street has undergone extensive renovations in the last few years, and now its office is to be altered for more adequate handling of the tourist and information bureau section.

Plans for the work have been drawn up, and hope is that changes will be made by June 15.

The Chamber is buying 5000 maps from Associated Boards of Trade and Chambers of Commerce of Southeastern B.C. and will have information similar to what is contained in present Nelson pamphlets printed on blank sides.

The Chamber will also seek cooperation of the Nelson Junior Chamber of Commerce in finalizing a canvass for funds to provide for colored pamphlets of Nelson.

Civil Defence Workers Sought

The groundwork has been laid for Nelson's civil defence set-up.

With organization complete, the unit is looking for more volunteers for its various departments, Major Peter Mathisen, civil defence coordinator for the Kootenay reception and mobile support area, told Nelson Chamber of Commerce at its Thursday luncheon meeting in the Hume.

G. H. Lee has resigned as Nelson civil defence officer after doing "a good job" on organization, he said. Now a replacement is being sought for him, and more volunteers for the 40-member unit. They may call at headquarters on Kootenay Street.

Contrary to popular belief, civil defence is a citizens' organization which comes under the Department of National Health and Welfare. It is a form of insurance against loss in disasters in war and peace-time.

"It gives citizens an opportunity to accept responsibilities and to meet adversities with courage and confidence instead of with panic and confusion," Major Mathisen said.

EDMONTON, May 15 (CP)—Western Airlines officials today announced suspension of daily flights into Edmonton. Fuel shortages were given as the cause.

Agreement to End Week-Old Greyhound Strike

SEATTLE, May 15 (AP) — Negotiators announced an agreement today for ending the week-old strike on Northeast Greyhoud Bus routes running Eastward to Butte, Mont.

They said operations are expected to be resumed next Wednesday if members of the striking Motor Coach Employees' Union (A.F.L.) approve the terms at meetings Sunday.

The agreement also covers the Olympic Peninsula and a Portland-Yakima-Spokane route.

It does not cover the North-South route between Portland and Vancouver, B.C. Drivers on that route are represented by a different union local, which is to open negotiation with the company Friday.

It also does not apply to Overland Greyhound or the Oregon Motor Stages, which were struck at the same time.

Terms announced for the Pacific Greyhound agreement on which the Northwest settlement is patterned include:

A 5½ day week for drivers after next Oct. 1, without a cut in weekly pay; a 5-day week, starting the following October, without a weekly cut, an immediate 4.6 percent hourly pay increase;l a five-day week immediately for ticket sellers who are not already on it; adjustment to any increase in the cost-of-living index in March.

Chamber to Study Trucking Rates

A proposed increase in freight truck rates between Nelson and Grand Forks and a proposed decrease between Penticton and the Boundary centre, is going to come under scrutiny of Nelson Chamber of Commerce.

On recommendation of S. E. Briard, the Chamber at its Thursday luncheon meeting turned the matter over to its freight, transportation and industrial committee for investigation.

Nelson's future as a wholesale centre may be jeopardized by such trucking rate differences, Mr. Briard told the Chamber.

He figured that the proposed increase in rates between here and Grand Forks might mean a half-million dollar loss in wholesale business annually. "If this sort of thing is allowed to go on, it may close the door on the Boundary and any places further West."

It is understood that condition of the Cascade highway may have brought about the decision to increase the rates.

Two Die in Bordeaux Jail

MONTREAL, May 15 (CP)—Two men have died at Bordeaux Jail in the last 24 hours, but medico-legal experts said today they found no proof the deaths resulted from a dysentery outbreak which struck approximately 100 prisoners.

Dr. Georges Gagnon, assistant superintendent of the mental wing, said a 46-year-old patient died from bronchial pneumonia and a heart condition. He did not identify the victim, but said he was in the mental wing for 22 years.

The other death was that of Maurice Israelson, 66, who died in the infirmary early yesterday.

Dr. A. B. Clement, joint Montreal coroner, said cancer of the windpipe was the cause of death. Dysentery "might" have helped bring on a fatal haemorrhage.

Ten days ago prisoners rioted over what they said was "unpalatable" food.

Dysentery broke out Monday and Tuesday, and 30 prisoners of 600 were affected. Another 80 of the 800 patients in a mental wing operated in conjunction with the jail also became ill.

Student Beaten

LARAMIE, Wyo., May 15 (AP)—Virginia Anderson, 24, University of Wyoming graduate student and victim of a mysterious beating, remained unconscious for a fourth straight day today at hospital, Miss Anderson, who was found brutally beaten on a lonely Prairie North of Laramie Sunday, stirs restlessly at times, but she has not yet regained consciousness.

Firemen Quell Steamship Blaze

LONDON, May 15 (Reuters) — Firemen had to wear gas masks today to fight a fire in the 12,634-ton Argentine steamship named the "17 de Octubre." Fire broke out in the galley and the crew lost control. The firemen kept the fire from spreading, though considerable damage was caused to the galley.

Bishops Investigate Spiritual Healing

LONDON, May 15 (AP) — The bishops of the Church of England last night agreed to investigate revival of spiritual healing which they say Britain is undergoing. The Bishop of Rochester, Dr. C. M. Chavasse, told the upper house of the Convocation of Canterbury — the church's highest governing body— that a doctor told him of three cases of cures which looked like miracles.

Flax, lace-making and export of lily bulbs are the chief occupations on the island of St. Helena, made famous by Napoleon's exile.

THIRD PLACE in provincial Knights of Pythias public speaking contest at Vernon was won by Francis Godderis, senior matriculation student at Notre Dame College in Nelson and son of Mr. and Mrs. H. C. Godderis, of Rossland. Young Godderis won Nelson title nd West Kootenay championship for the right to enter into competition against students from all parts of B. C.

Burns to Attend Celgar Hearing

Harry Burns has been named to represent Nelson Chamber of Commerce at the Cabinet hearing in Victoria Monday of Celgar Development Company's application for a forest management licence for lands in the West Kootenay.

Mr. Burns, who is to be in Victoria at the time of the hearing, was chosen at Thursday's luncheon meeting of the Chamber, on recommendation of the freight, transportation and industrial committee.

The Nelson Chamber, along with other boards of trade and chambers of commerce in West Kootenay, has taken an active interest in applications for forest management licences in this district.

The Connors Case Shown Kiwanians

Kiwanis Club members Thursday night were given an insight into the methods of the Royal Canadian Mounted Police in stamping out crime.

A film, "The Connors Case," outlining step by step how a murderer was tracked from the Prairies to the Montreal waterfront, was shown by Sgt. W. H. Davidson. Another film, "Northwest Passage," was also enjoyed.

Sergeant Davidson is a veteran of 23 years of service, first with the Provincial Police and latterly with the R.C.M.P. He came to Nelson in 1949 from Kelowna, where he was a charter vice-president of the Kiwanis Club.

Authorities Say Front Street Area Unsuitable as Firehall Site—Kary

The City's Front Street property which it proposes to sell is not suitable as a new firehall site, Mayor Joseph Kary told Kiwanis Club Thursday night.

He was commenting on a statement made to Chamber of Commerce earlier in the day by N. C. Stibbs, ex-mayor, who said the old Green building had been purchased for a specific purpose—as an eventual site for a firehall and warehouse.

Insurance underwriters and Fire Chief G. A. McDonald would not recommend use of the site as a firehall, the mayor told the club. An important objection was to the fact fire trucks answering uphill calls would be required to climb additional hills, and this was undesirable in Winter time.

Mayor Kary was explaining why bylaws authorizing purchase of the Queen City Motors building and sale of the Front Street property and part of the old gasworks property were being put to the ratepayers next Wednesday.

Thorough investigation had preceded the decision to ask the ratepayers' permission to enter these transactions, he said. If Council received a go-ahead signal, the City properties would be offered for sale at a minimum of $20,000 for the Front Street building and $9000 for the gasworks property.

The minimum prices were based on offers already made to the City. Amount received would be used to offset the cost of purchase of the garage building. If necessary, a sum of $6000 in the estimates for renovation of the "Green" building could be used, for if sale was accomplished the need of renovations was removed.

MANY BENEFITS

If proposed deals were undertaken, the benefits would be numerous. The City would be assisting in the developing of a small industry and in removal of big freight trucks from Baker Street. The latter would play a large part in reducing terrific parking problems now facing the City. The two properties would also be put back on the tax roll, another means of offsetting the garage purchase. Removal of the gasworks building would end a serious traffic hazard where serious accidents have been barely averted.

It had been found it would cost 2½ times as much to build a garage similar to the one the City proposed to purchase. The garage admirably lent itself to housing of the City's 38 mobile units and was so built that another storey could be added in future if required.

NEW YORK, May 15 (AP)—Promoter Emil Lence today signed light-weight contender Paddy De Marco of New York to meet Arthur King, of Toronto and Philadelphia, in a main 10-rounder at Eastern Parkway Arena, May 26. Dumont will telecast the bout.

Big Bear Falls to E. Kootenay Hunters

FERNIE, B. C.—First major hunting trophy of the season, a big brown bear, was bagged by Ronnie Matt of Natal and Jackie DeLuca of Michel.

They spotted it from a considerable distance in the McGillivray vicinity where the Flathead Valley joins with the Crow's Nest Pass South and East of Fernie, and they brought it down with a long shot.

One-fifth of the total area of California is comprised in 18 national forests covering about 30,000 square miles.

Castlegar Group to Present Brief Supporting Celgar Bid

Chamber of Commerce, Villages To Be Represented at Victoria

CASTLEGAR, B.C.—A delegation from the Castlegar Chamber of Commerce and representatives from Villages of Castlegar and Kinnaird will attend the Cabinet's hearing Monday of Celgar Development Company's application for a forest management licence and go-ahead on its proposed $65,000,000 forest industry for Castlegar and the Arrow Lakes.

A supporting brief has been drawn up by the Chamber and will be taken to Victoria by between four and six members of the Board and a delegate from Castlegar and Kinnaird village commissions.

The group will leave Friday and return Tuesday.

Plans for the visit were drawn up at the Chamber's meeting Thursday night in Twin Rivers Hall.

NO GENELLE WORK

Members were informed by letter that no work will be done on the Trail-Castlegar highway at Genelle Bluffs this year.

It was reported that a letter had been sent to the department of public works asking for blinker-lights on railroad crossings.

R. A. D. West told members that paving at the Castlegar airport had stood up well during the past Winter.

Owing to rainy weather, Arbor Day cleaning was not completed, but will be finished in the near future.

Three of the 33 American presidents were of Dutch ancestry—Martin Van Buren, Theodore Roosevelt and Franklin D. Roosevelt.

OIL FIRM SEEKS LARGER HOLDING

FERNIE, B. C.—Public notice has been filed here by Akamina Oil and Gas Company Ltd., of Vancouver, that it intends to apply for a four-square-mile extension to its permit which covers previous exploration work.

Specifically, the application covers an adjoining 2340 acres in the vicinity of Kootenay Land District Lot 11081, and its most Easterly edge is on the Alberta British Columbia boundary.

Blossom Festival In Swing Today

CRESTON, B. C.—A mile and a half long parade with floats depicting the industries and activities of the Creston Valley, will today officially inaugurate Creston's 11th annual Blossom Festival.

Today actually is the No. 1 day of the three days of events, which started Thursday night with a fireworks display and fireworks dance.

All of Creston and district will turn out to participate in or watch the parade, opening ceremonies, Queen crowning, maypole dancing and jitney dance at night.

The sponsoring Creston Lions Club this year is saluting agriculture, the prime industry of the valley, in the theme for the Blossom Festival.

There will also be a packed program for Saturday, when most of the visitors from neighboring communities and U. S. points are expected. Folk dancing competitions will be foremost among Saturday events.

Fernie Group Names Rutherglen as Prexy

FERNIE, B. C.—Fernie branch of the Canadian National Institute for the Blind at its annual meeting elected Robert Rutherglen as president.

Mrs. Michael Tymchuk is vice-president, Ed Chappell, secretary; W. H. Woodburn, treasurer and directors are Alfred Thompson, Mrs. Roy Kirkpatrick and Mrs. A. E. Howarth of Fernie, and M. Duncan and L. A. Bond of Michel-Natal area.

J. C. Hembling, field representative for the Interior with Penticton headquarters, thanked the organization for its past cooperation and support. Functions are to care for the interests of blind persons in the area, prevention-of-blindness education, and financial support of the provincial group which administers the assistance fund for the whole province.

NAKUSP INVITES PIONEERS TO FETE

NAKUSP, B.C.—Preparations for Nakusp's diamond jubilee celebrations June 30 and July 31 are continuing.

A monster parade is being planned, to be led by old-timers of 1892. All out-of-town early day residents of Nakusp's first year are being invited to attend the event.

Planning is being carried out by Nakusp Recreation Association with cooperation of other community organizations.

CANDIDATE of Social Credit party for election in Rossland-Trail riding in the June 12 provincial election is Robert E. Sommers, principal of Castlegar and Robson elementary schools. Born in Leduc, Alta., he has been teaching for 21 years and is active in Castlegar community organizations.

ROBERT CAMPBELL, PIONEER OF KOOTENAY, DIES

TRAIL, B. C.—Robert Campbell, a Kootenay pioneer, died in Trail-Tadanac Hospital Wednesday evening after a brief illness.

Born in Ayreshire, Scotland, he came to Canada at an early age. Previous to making his home in Grand Forks in 1913 he was a merchant in Moyie.

Mr. Campbell was a charter member of the I.O.O.F. Lodge in Cranbrook and a member of the Knights of Pythias Lodge. He was also a veteran of World War I.

He is survived by his wife, Louise Mary; one son, Robert Kenneth of Trail, one daughter, Helen and three grandchildren.

Funeral services will be held in Grand Forks.

C.C.F. Organizes At South Slocan

SOUTH SLOCAN, B.C.—A C.C.F. campaign committee has been set up here under the chairmanship of Mrs. F. Scott.

Other members of the committee are Norman Brewster and Thomas Roberts, both of South Slocan, and R. H. Cunningham of Crescent Valley.

The arrangements were made at a large, enthusiastic meeting here Wednesday night, at which R. G. Simms of Nelson, C.C.F. candidate for Nelson-Creston in the forthcoming provincial election, and George Turner, also of Nelson, were speakers.

Mr. Turner, president of the board of directors of Kootenay Lake General Hospital, discussed hospital problems.

Mr. Simms, in dealing with C.C.F. policy, spoke on C.C.F. requirements in the field of forest management licences. Four provisos are an adequate return for the province from development of forest resources, a fair wage policy, protection of local industries such as mining, agriculture and the tourist industry, and wildlife, and production on a sustained yield basis.

A.Y.P.A. GROUPS TO MEET IN TRAIL

TRAIL, B. C.—Branches of the Anglican Young People's Association in Trail, Nelson, Rossland, Fruitvale and Willow Point will be represented at the second annual West Kootenay conference here Saturday and Sunday.

Provincial council is sending four delegates, including Neil Robinson of Vancouver, president. Junior A.Y.P.A., the junior organization, and Chi Rho, senior group, will also be represented. Attendance is expected to reach 100.

Rt. Rev. F. P. Clark of Nelson, Bishop of Kootenay, and Mr. Robinson will speak at a banquet, and talks and discussions and films will be on the two-day program.

Parkyn Boundary Nominee

GREENWOOD, B. C.—Yet another Social Credit candidate has entered the field in B.C. with the nomination here Wednesday night of H. E. Parkyn of Grand Forks.

His nomination by more than 50 delegates from various Social Credit groups in the Grand Forks-Greenwood riding was on the third ballot. Others in the contest were M. Hansen of Bridesville, Glen Weatherley of Greenwood and Ed. Hendry, also of Greenwood.

Mr. Parkyn, a resident of Grand Forks for six years, is operator at West Kootenay Power and Light Company's sub-station there. In more than 30 years in B.C., he has farmed for 20 years on the Arrow Lakes and has been a resident of Trail for five years.

OFFICERS ELECTED

A Grand Forks-Greenwood Social Credit Association was formed under presidency of Mr. Parkyn. Vice-presidents chosen at the meeting, in W.I. Hall, are Val McDonald of Greenwood, Mr. Peters of Grand Forks and Mr. Howell of Bridesville, and Mrs. K. Klamen of Greenwood is secretary-treasurer.

Castlegar Cleric Goes to England

CASTLEGAR, B. C.—Archdeacon B. A. Resker leaves here today for a trip to England where he will attend a nine-day camp at the International Scouts training centre at Gilwell Park near Epping Forest North of London in July.

This camp will be the first world Scoutmasters gathering and will be attended by 3500 scouters from all over the world. Twelve leaders from Canada will form the Canadian contingent.

Archdeacon Resker will go by train across Canada and will sail from Quebec May 21 in the Samaria for Southampton. He will stay with a sister at Epsom, Surrey and will pick up a new car at Southampton.

Returning to Quebec at the end of August, he will motor through Maine and Vermont to London, Ont. to attend the General Synod of the Anglican Church along with three other clergy and laymen from Kootenay diocese Sept. 4. He hopes to return Sept. 20 to resume his work as vicar of the Castlegar, Robson, Kinnaird and Genelle part of the Castlegar-Fruitvale mission which is being divided, with a resident vicar at Fruitvale for the Fruitvale and Salmo area.

Rev. E. H. Wallace of Winnipeg, who has just graduated from Wycliffe College in Toronto, will be in charge in his absence. In the Fall he will become assistant at St. Andrew's in Trail. Mr. Wallace was a teacher at Arrowhead.

S. T. Dawson will look after the Salmo area and Al Horswill and H. Nicholson will assist in the rest of the mission.

U.B.C. Grads Hear Hon. P. C. Spender

— VANCOUVER, May 15 (CP) — The greatest of all freedoms—liberty of thought and liberty of speech—are being challenged, Hon. Percy C. Spender, Australian Ambassador to the U. S., said here today.

Guest speaker at the University of British Columbia's convocation, Mr. Spender warned the graduation class to be on guard against growing "statism" in the democracies.

"Democratic governments, fearful that their form of government may be destroyed by a totalitarian one, in order to secure themselves or believing that they are so doing, clamp down upon human freedoms."

He said this century has witnessed the progressive subordination of the individual to the state.

He told the 1200 students to be tolerant of the views of others, and declared:

"At all times, regard the unjustified suppression of independent thought and of free expression as a major crime against the way of life in which you and I believe."

Mr. Spender, who received an honorary doctorate of law degree, said moral courage was needed in the defence of freedom.

Cranbrook Has Surplus of $36,692

Kimberley Co-op Shares to Stand

KIMBERLEY, B. C.—At the annual general meeting of Kimberley Cooperative Association, which operates its own store here, members turned down reduction of the value of shares to $5 and rejected a proposal that the store permit charge accounts.

Elected to the board of directors for three-year terms were L. T. Nimsick, at one time manager of the store, Frank Scribe, and R. P. Rose. The board of directors will hold its annual meeting to select officers shortly.

The general meeting named G. R. McCall, H. M. Baker and A. E. Johnson as new audit committee, Mrs. Robert Spearman, Mrs. G. R. McCall, Mrs. J. R. P. Grenier, Mrs. S. L. Freer and Mrs. L. T. Nimsick as education and social committee.

Resignation from the board of directors of Einer Kristjansen was accepted. Annual report on management was given by R. M. Walsh, on building by Thomas Murphy, on membership by Mrs. J. A. Mennie, and on audit by G. R. McColl.

Death Calls Pioneer Cranbrook Resident

CRANBROOK, B. C.—One of this city's well-known early day residents, Mrs. Ed Whitehouse, has died at Vancouver. She was born in Nova Scotia and her parents brought their family to Lethbridge in the late 1890's.

She came here with her sister, the late Mrs. C. J. Little, about 1900, and later married a well-known Cranbrook druggist, W. J. Atchison. Following his death about 1919 she continued her home here for about 10 years, then moved to the Coast. Surviving her are one daughter, Mrs. Douglas Dean in New Westminster and three sons, J. R. Atchison of Cranbrook, George Atchison of Castlegar, Constable Charles Atchison of Penticton and 14 grandchildren.

CRANBROOK, B. C. — City of Cranbrook came through 1951 with a surplus of $36,692.

The recently-completed financial statement shows total revenue of $301,946 and total expenditures of $265,253 during the year.

There was no city levy last year for general purposes, and tax rate of 60 mills was for schools and debt charges only.

Chief items of revenue were $117,140 from municipal taxation on land and local improvements including school purposes, $80,179 as surplus from light and water operations by the city, $47,942 from provincial motor vehicle and three per cent sales tax grants, $14,024 from licences and permits, and $22,695 from city tourist camp, airport, health unit and Memorial Centre rentals. Police fines and costs amounted to $6166, and parking meter revenue was $3857.

School costs of $91,828 were largest expenditure item. Public works expenditure totalled $60,542, including $25,284 for streets and sidewalks, $14,245 for parks and playgrounds, and $18,985 for general equipment maintenance. Fire, police and other protection cost $31,747, health services $6635, and social welfare $4691. Capital expenditure from revenue totalled $20,028, largely for new equipment. Debt charges, exclusive of utilities, totalled $22,744.

Revenue excess from light and power operations was $56,174, and from the water system $24,004.

City capital assets are listed at $1,320,581, with surplus over liabilities of $187,461. Debenture issues amount to $332,435 and reserves equivalent to depreciation $564,165.

Is GETTING UP Getting you Down?

If morning finds you only half rested, still weary—if your sleep is broken by fitful tossing and turning—your kidneys may be to blame. When your kidneys get out of order, your sleep usually suffers. To help your kidneys regain a normal condition, use Dodd's Kidney Pills. Dodd's help the kidneys get rid of poisons and excess acids in your system. $229,000 School Bylaw To Be Voted on May 30

KASLO, B. C.—First major school building program to be put to the ratepayers in the Kootenay Lake School District No. 6 area for years will be voted on May 30.

A $229,000 expenditure is proposed, with the government putting up half of the cost or $111,000. The remainder, which includes bylaw and debenture expenses, will amount to $90,000 for rural portion of the school district, and $28,000 for the municipality of Kaslo.

Main item on the proposed list of expenditures is $118,000 for an extension consisting of two classrooms and an auditorium-gymnasium for the Kaslo elementary-high school.

One-room schools are proposed for Retallack and Ainsworth, costing $12,500 each, a two-room high school at Riondel costing $35,000 and a two-room extension to the elementary school at Riondel costing $22,000.

Also projected are expenditures of $500 for school sites at Ainsworth and Kaslo, $7400 for furniture and equipment, main item of which will be $4000 for Kaslo elementary high, $3500 for reconstruction at Kaslo elementary-high and $10,600 for plans and supervision contingencies.

Financing is proposed by 20-year debentures bearing interest at the rate of 4¾ per cent per year.

The school board has drawn up the program in view of a terrific increase in the school population at the various places where projects are planned.

Kaslo ratepayers will vote at City Hall, and in the rural area, ballots will be cast in school buildings at Ainsworth, Argenta, Howser, Johnson's Landing, Kaslo, Lardeau, Meadow Creek, Mirror Lake, Retallack, Riondel and Shutty Bench.

Business Profit Becomes More Dependent on Volume

The past year was a good year for business, The Financial Post reports, but from its annual study of 326 representative companies in various industrial groups it adds certain reservations to this description. Among the significant facts that emerged from the Post's study it lists:

"Combined net profit after taxes for the group of companies studied was 4.3 per cent higher in 1951 than in the previous year. In the same period, combined income taxes of the group were up 48.1 per cent.

"The Canadian situation was in sharp contrast to that reported for a similar cross-section of American companies by the National City Bank of New York. There, combined net profit after taxes for a group of almost 3500 leading firms was down 7 per cent from 1950.

"The trend in Canada by industrial groups was:

"Transportation, construction and merchandising companies generally had a poorer year. In the case of the merchandising group, credit restrictions and buyers' resistance undoubtedly played a part. Now that most of these restrictions have been lifted that picture could change substantially in the current year.

"While generally the business picture in Canada is pretty good, it should not be overlooked that the break-even point for most companies is now exceedingly high. It takes an enormous volume of business for any of them to cover the higher costs of operation. It would take only a slight decline in total business volume to change fair profit into little profit and in many cases loss."

Canada's Record

Foreign Affairs Minister, Lester Pearson, in Hansard, put these facts on record:

"Financial and economic assistance in the form of credits from the fiscal year 1945-46 to the fiscal year 1951-52, $1,753,000,000; postwar military relief, $95,000,000; United Nations Relief and Rehabilitation Agencies and assistance programs, $203,000,000; contributions to the Colombo Plan, $25,300,000; N.A.T.O. mutual aid program, providing for transfer of miiltary equipment to European members for approximately three divisions to date and cost of training N.A.T.O. pilots and navigators in Canada, $324,800,000; emergency gift of wheat to Greece, $830,000. Total to date of Canada's aid to partner countries in the United Nations, $2,403,000,000."

In addition there is in the current fiscal year some $65 millions for mutual aid, $112 millions for air crew training and $162 millions for defence equipmeht. For the military cost of N.A.T.O., Canada is this year spending $27 millions and is putting into Europe a brigade and four fighter squadrons (eight to go later) and assigning 24 ships for the Atlantic naval command, and Canadians are in Korea.

That is the dollars-and-cents picture of Canada's contribution to security and rehabilitation of the weak.

Psychiatry For the Lazy

(Peterborough Examiner)

We suffer today from a surfeit of undigested psychiatry.

Let it be understood at once that we have a high regard for psychiatry, as practised by thoroughly trained and reputable practitioners. But there is a vast amount of pseudo-psychiatric slop peddled in books, magazines and papers, which is easy to understand and suits the intelligence of people who like to appear intellectual without doing any intellectual work.

It is this sort of nonsense which asserts that people become criminal because they have been unhappy, or neglected, or frustrated in childhood.

It must be plain to anybody with horse sense that if unhappiness, neglect and frustration in childhood or at any other time begot criminality, the greatest part of the world's population would belong to the criminal class.

A-Bomb Not Humane

(Windsor Daily Star)

When Japan was knocked out of World War II with two atom bombs, two schools of the humanities went into violent argument. One maintained this mass slaughter of about 250,000 persons was unwarranted and brutal; the other held that by shortening the war it might have saved as many as 1,000,000 American lives. The second group had the weight of public opinion on its side.

It will not be so easy to justify the A-bomb as a "mercy" weapon in other cases, as a complacent moralist now is attempting to do. He approves the bomb in principle as a projectile that can shorten the time needed to capture a position, and therefore reduce the human toll of war.

Possibly a more advanced moralist would excuse aggression if carried on behind a series of atomic blasts, on the grounds that it was relatively economical of human life.

There is at least one reason why use of the A-bomb can be justified. Its use can be excused on the grounds of military necessity, in a defensive war. That remains the fundamental reason why the explosions at Hiroshima and Nagasaki were accepted in the West. Let's leave the argument of humaneness out of the atom bomb. There is nothing humane about a missile that can kill and maim hundreds of thousands of non-combatants in one searing flash.

Verse

Miracles

Man's best achievement has brains of clay.
Man's seed is sown; some find a way
To learn more of the complex power
That God knew from the earth's first hour.

Dost thou see the brighter way?
'Tis all the joy of sight by day.
Dost love the feathered birds around?
They cheer with beauty and sweet sound.

The swallows by the dozen swoop,
Their grey-green selves on roof-top group
Art thankful for these tiny ones?
They're as God-made as a dozen suns.

Would'st soar, as they, and then look down
And gaze on city, farm or town?
There's miracles to see, up there,
In home, in garden, or on air.

With these wonders our lives abound;
Not only with earthly glories 'round.
God in His mercy swelled our lot
With miracles, by wisdom bought.

Let us but listen to the voice
Recordings, or radio may be your choice.
As ordinary, these things we share,
And they surround us everywhere.

Let's think, as we gaze upon our home,
Or thrill to the sight of the highest dome,
'Tis a life of charm, of fine delights,
Of surpassing interests, of terrific sights.

—BARBARA CORRIE.

WISDOM COMES

A man in Geneva, N. Y., cut his first wisdom tooth at the age of 82. All things come to him who waits.—St. Thomas Times-Journal.

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

J. G., Nelson—I understand there is some way to color brass blue? How can this be done?

Brass objects, immersed in corked containers holding the following mixture, at length acquire a very beautiful blue color: liver of sulphur, 15 gr.; ammonia, 75 gr.; water, four ounces.

Reader, Creston—To settle an argument, what American state only touches one other state?

Maine. It is cut off entirely from the rest of the Union by New Hampshire.

J. M., Grand Forks—Why should opals be considered unlucky?

The origin of that superstition is obscure. Among the ancients, opals were prized above all precious stones. One explanation for their bad name today is that Marie Antoinette was very fond of them and always wore them, either on her fingers or round her neck. Queen Victoria tried to make them popular. There is another belief that the superstition came into existence before that unhappy woman's lifetime, back in the 14th century when opals were associated with the Black Death. In those days it was said that opals worn by those stricken with the plague turned brilliant, then faded and the owner died.

Interested, Nelson—Please print recipe for strawberry jam cake, without sugar.

Half cup shortening, 1 cup strawberry jam, two egg yolks, ¼ teaspoon almond extract, one and one-half cups pastry flour, half teaspoon salt, two teaspoons baking powder, two-thirds cup bran, one-third cup milk, two egg whites. Cream shortening with jam, add egg yolks and beat well, add extract, then dry ingredients alternately with milk. Lastly add well-beaten egg whites. Bake 30 to 40 minutes at 400 degrees.

Looking Backward

10 YEARS AGO

From The Nelson Daily News, May 16, 1942

Water services in the 800 and 900 blocks on Nelson Avenue were cut off for several hours Thursday when a pipe burst in the roadway on the corner of Nelson Avenue and Kokanee Streets. Bystanders stated "a regular river" ran down Nelson Avenue until the water was turned off.

Bert A. Auld, son of Dr. and Mrs. F. M. Auld of Nelson, was awarded the Royal Institution Scholarship for general proficiency as a first year U.B.C. student.

25 YEARS AGO

From The Nelson Daily News, May 16, 1927

Of 139 patients treated in Kootenay Lake General Hospital during April, 100 were discharged, and one died, according to the monthly report of Miss Ann MacArthur, matron.

Another of Nelson's early buildings, the "Rabbit Warren," has disappeared in the tearing down of the frame building on the Northeast corner of the intersection of Stanley and Victoria Street. A. J. Dill plans to erect on this site an up-to-date service station, which will be operated by George Dill.

50 YEARS AGO

From The Nelson Daily News, May 16, 1902

Grand Forks—The V.V. and E. track-laying gang, after reaching a point three miles below this city, went out on strike today. The men allege that Porter Brothers, the railway contractors, refused to pay them for working overtime. Sixty of the strikers came to town and related their grievances. They report that another party of strikers had started off in another direction.

L. H. and A. Choquette, who have purchased the bakery business of R. G. Joy, arrived in the city yesterday to take possession.

When I play with my cat, who knows whether I do not make her more sport than she makes me?—Michael de Montaigne.

Alberta Municipal Hospital Plan Dates Back to 1917

By E. E. MAXWELL
Supervisor of Municipal Hospitals

The operation of municipal hospitals in Alberta (on June 1, 1949):

The first legislation dealing with municipal hospitals in Alberta was enacted in the year 1917. As this Act was found to be inadequate in some respects, a new Act was passed in 1918 which repealed the Act of 1917. This new Act went into effect in May, 1918. The Act was further amended in 1929, being Chapter 33 of the Statutes of Alberta. In 1942 the Act was further revised, and is now known as the Municipal Hospitals Act, R.S.A., 1942, being Chapter 185 of the Statutes of Alberta. The Act has been amended nearly every year since this revision due to varying conditions and new situations encountered.

Alberta was one of the first Provinces in Canada to adopt legislation providing for the establishment of municipal hospitals, and many new trails have been blazed during the last 29 years to meet the needs for hospitalization in the communities served. The first hospital under this plan was built and officially opened in October, 1918, at Mannville, Alta. In 1932 there were 22 municipal hospitals in operation. At the present time there are 57 municipal hospital districts operating in the Province. Seven newly-established districts will be voting to come under the scheme this Fall, and should they all carry, there will be 64 hospital districts operating under the Municipal Hospitals Plan.

ASSESSMENT FOR CONSTRUCTION

I will endeavor to give you an outline of establishing, building, equipping and operating of municipal hospitals in this Province. To establish a municipal hospital district, 25 per cent of the ratepayers in any given area, with sufficient population to warrant a hospital (which is from 3000 to 30,000 people), may petition the Minister of Health for the establishment of a hospital district, or the Councils of the contributing districts may petition or request the Minister of Health to establish the district, this latter procedure eliminating the necessity of a petition from the ratepayers. When the proposed district has been approved by the Department and due notice of such approval has been published in the Alberta Gazette, a Provisional Board is then appointed by the contributing Councils consisting of three, five or seven resident ratepayers residing within the Hospital district boundaries. These Provisional Board members hold office until the next regular election of Councillors or Aldermen; thereafter they are elected by the ratepayers of the hospital district.

As a Provisional Board they have power to build, equip and conduct all business pertaining to the hospital. After the Provisional Board's appointment the Act provides that the first meeting of the Board must be called at which a Chairman and a Vice Chairman are elected from among their number and a Secretary-Treasurer employed, then a scheme or plan is prepared to suit their particular situation, with the assistance and advice of the Supervisor of Municipal Hospitals, Department of Public Health, which is based on a yearly rate of taxation on assessed value, and provides for sufficient money to build, equip, operate and repay the debenture issue, which is usually spread over a period of 20 years. The scheme also provides for a patient day rate which is usually $1 or less for ratepayers and their wives, dependent families and domestic female help residing with them, a provision for a minimum tax, also non-ratepayers, or it may provide for the purchasing of a hospital building already in operation in the district, or for entering into an agreement for the hospitalization of the ratepayers at a per diem rate with a hospital within or without the boundaries of the district.

This scheme or plan is then presented to the ratepayers for adoption or rejection after first having been advertised throughout the district for a period of 14 days in newspapers circulated in the district. Then there is a lapse period of 14 days in which any 25 ratepayers may appeal to the Board of Public Utility Commissioners against the distribution of the requisition. After this lapse period. Notices of Polls are posted for 14 clear days throughout the district, showing the location of the different polls and the date of voting, by a duly appointed returning officer, who, after the plebiscite, must sum up the votes for or against the scheme and the total number of voters voting for each site, and shall then and there declare the result of each poll and shall forthwith certify the results to the Minister. A two-thirds majority of those voting is required to carry the scheme and in the case of a site, a majority only is required. Should less than two-thirds of those voting vote in favor of the scheme, the district remains established for 12 months, within which time the Provisional Board may re-submit the scheme or an amended scheme, if it so desires. Those entitled to vote on the adoption of the scheme are the ratepayers of the proposed municipal hospital district, their wives and dependent families over 21 years of age residing with them. A Corporation may vote by an agent authorized in writing so to do. The Act provides a penalty should any person vote in more than one polling division.

The Municipal Hospitals Act provides that any scheme which has been ratified under the provisions of the Act may subsequently be varied in any way by the Board with the approval of the Minister, either by subtraction therefrom, addition thereto, or alteration thereof. The Act also provides that on receipt by the Minister of a petition signed by 65 per cent of the resident ratepayers asking that an area be added to or detached from an established district or transferred to another, the Minister shall refer the petition to the Board of Public Utility Commissioners for its recommendation. The reason for this procedure is that some districts have debentures outstanding and the Board of Public Utility Commissioners has all such power as to the adjustments of assets and liabilities and the adjustment of taxation for the current year. Any specified area in the Province not already in a municipal hospital district may on request of the Municipal Council or the authority administering an improvement district be added to an established district at any time, or the Minister may direct that a vote be taken to determine whether or not the area should be included.

TENDERS CALLED

Under the regulations of the Municipal Hospitals Act the procedure in building and equipping new hospitals is first obtained from the population of the district, from which we determine the estimated patient days, hence the bed capacity required to serve the particular district. The services of a registered architect are obtained, who prepares plans and estimates and capital costs, the Board must advertise for "tenders for construction", the lowest or any tender is not necessarily accepted by the Board. The Board after ratification of the scheme becomes a "Body Corporate" and has power to pass a by-law for the purpose of raising money by way of debenture for capital purposes up to the amount voted on in the scheme. These debentures are signed and sealed by the Chairman and Secretary-Treasurer of the hospital district, signed and sealed by the Board of Public Utility Commissioners, and finally signed by the Minister of Health under the Department's seal and registered in the Department; then are sold by the Board for the highest bid.

The debentures usually are refunded over a period of 20 years, and the present popular rate of interest is 4 per cent, although the hospitals built in 1919 and the early 1920's the interest rate was 7 to 8 per cent. Provision for refunding the debenture liability and operating the hospital is provided for by a yearly tax on the assessed values of all property within the district after considering the revenue derived from the ratepayers' fee of $1 per diem, plus the Government grant of 70 cents per patient day.

The Municipal Hospital Board issues a requisition on each contributing Council for the sum required from each area included in the district on an equitable basis, between cities, towns, villages, and rural areas, after taking into consideration population and assessed values which must be confirmed by the Board of Public Utility Commissioners before submission. The local authorities determine the mill rate required to raise the amount of the requisition and the levy is made in the usual way. The contributing Councils are required to pay the total amount of the requisition to the Municipal Hospital Board in quarterly payments, the first payment to be made prior to the first day of April in each year. The various Municipal Acts give the Council authority to borrow money for this purpose if necessary.

NON-TAXPAYING SUPPORTERS

Provision is made under the Act whereby persons unable to qualify as ratepayers may become hospital supporters by paying a yearly sum, fixed by the Board and payable on a certain date. The sum is usually the same as the minimum tax set by the Board for the ratepayers, $6 to $12, and it entitles the remitter to hospitalization for himself, his wife and family residing with him, to the $1 per day rate. The owners of small parcels of land such as lots in hamlets, villages and towns, where the assessed value is not sufficiently high to produce a reasonable tax, may be required to make payment of the minimum sum.

The Municipal Hospitals Act is broad enough in its scope to provide for almost any situation existing or likely to arise in a district undertaking to provide hospitalization for its residents. Each municipal hospital is owned by the district, except where agreements for hospitalization are made with privately owned hospitals in the district, seven of these agreements being in effect today. The administration and operation of the hospital is conducted by its own elected Board, under the provisions of the Municipal Hospitals Act and the Hospital Regulations. The Supervisor of Municipal Hospitals acts in an advisory capacity, visits the hospitals periodically, attends meetings of the Boards from time to time and endeavors to assist the Board and members of the staff in dealing with problems with which they are confronted.

As at Jan. 1, 1949, the total assessable acreage under the plan was 20,607,164, with an assessed value of $242,288,492. The total 1949 requisites are $1,340,809.55, levied on an average mill rate of 5.53 mills, an increase over last year of 0.6 mill. The approximate population receiving benefits under the plan are 293,123, or over one-third of our total population.

Each municipal hospital forwards to the Department each month a copy of the minutes of each Board meeting, which places the Supervisor in a position to be of assistance to each hospital. All municipal hospitals must employ the services of chartered accountants and auditors, who audit their books as at Dec. 31 each year. These auditors' reports are forwarded to the Department, from which the annual report on municipal hospitals is compiled, and a copy is mailed to each Board member, nursing superintendent and secretary-treasurer, from which they can compare their expenses and revenue with similar hospitals operating over the Province, thus providing the most efficient service possible at a minimum cost, which, after all, is the essence of this co-operative hospitalizatioon plan, which actually constitutes a form of health insurance to the people within their districts.

Nelson and Castlegar Interest in Wedding

Nelson and Castlegar share interest with the Coast in the marriage in St. Mary's Anglican Church in Vancouver Thursday night of Dorothy Barbara Jane Maguire and Kenneth Avard Morrow.

The ceremony, which took place at 8 p.m., was performed by Rev. Canon Dudley Kemp.

Nelson is where the groom, the son of Mrs. Margaret Morrow of Nelson and the late Mr. R. G. Morrow, grew up, and Castlegar is where the couple will make their home after they have spent a honeymoon on Vancouver Island.

The bride, daughter of Mrs. Francis E. Maguire and the late Mr. Maguire, chose for her wedding a gown of white slipper satin featuring a fitted bodice with short tucked sleeves and a V-shaped neckline with a gathered Bertha collar of Chantilly lace, and a full skirt en train. Her lace cap, which caught a full-length veil of illusion net, and lace elbow-length mitts, matched her gown, and she carried lilies of the valley and pink roses. The bride was given in marriage by Mr. H. J. McMillan of Nanaimo.

TRIO OF ATTENDANTS

The rose, blue and yellow hues of the gowns of her three attendants made a pretty foil for the bridal ensemble. The matron of honor, Mrs. David Gibbs, chose a rose gown fashioned with a taffeta skirt and a lace bodice, with a hoop skirt, a net yoke and short puffed sleeves; Miss Eira Roberts, bridesmaid, was in a powder blue taffeta gown, and the flower girl, Gail Hamilton, donned primrose yellow taffeta.

All three wore net headpieces toning with their dresses, and carried identical bouquets of pink carnations, blue iris and yellow marguerite daisies.

Mr. Robert Morrow of Vancouver supported his brother, and ushering duties were performed by Mr. John Hamilton, the flower girl's father; and Mr. Norman Staley.

IN CHURCH CHOIR

The church, whose choir the bride was a member of for several years, was decorated with tall white standards and candles down the centre aisle and with large standards of mauve lilac blooms and dogwood in the chancel and sanctuary.

At a reception at The Hollies, favorite dance music of the bride and groom was played, and the couple led the dancing before leaving on their wedding trip.

The bride's going-away outfit consisted of a smart light grey worsted suit trimmed with dark grey-pink, and navy accessories.

Green Color for Coronation Year

LONDON (CP)—The first of the Coronation year dress materials are coming off the looms promising a bright touch of color for next year's festivities.

Would-be favorites are "guards parade", a pattern showing soldiers marching past the Tower of London and Windsor Castle. "Olde England" is a vivid portrayal of all the royal castles set in colored squares.

If you are wondering what next year's most important color will be, Norman Hartnell, designer to the Queen and the Queen Mother, says: "All shades of green, from mignonette to olive." The Queen wore many pretty shades of green on the Royal Tour of Canada.

Royal Purple Ladies Gather in Kimberley

KIMBERLEY, B.C. — Delegates from Penticton, Keremeos, Vernon, Oliver, Kelowna, Kamloops, Trail and Kimberley attended a convention of Ladies of the Royal Purple here recently.

Guests of honor were Mrs. Eva Rankin of Kelowna and Mrs. B. Collen of Oliver.

Floor work, a memorial service, and initiation were included in the program. After a banquet, guests were welcomed by Mrs. Rose Johnson, honored royal lady. Local artists entertained the delegates.

Kaslo Hospital's Open House Success

KASLO, B.C. — Many Kaslo residents took the opportunity of viewing improvements to Kaslo Victorian Hospital on "open house" day.

The matron, Mrs. McNeish, and Mrs. G. A. Browell, president of the hospital's Women's Auxiliary, received the visitors and showed them through the building. Tea was served in the Nurses' home under supervision of Mrs. C. Lind Jr., and Mrs. J. R. Tinkess.

AINSWORTH, B.C. — Mrs. J. Mitchell gave an interesting reading on "In the Use of Time and Possessions" at the last meeting of the season of the Church Aid.

Special Service Held By New Denver Group

NEW DENVER, B.C.—A Mother's Day service was conducted here by Lucerne Temple, Pythian Sisters.

The temple mother, Mrs. Nonie Kennett, was presented with a bouquet by Mrs. Eva Balbirnie, past chief, who read a Mother's Day prayer. Mrs. Randi Anderson, chief, called on the manager to bring forward Mrs. Mae Steele, pianist; Miss M. H. Butlin, captain of the degree staff and Mrs. Alice Draper who were presented with gifts of jewelry from the degree staff.

Mrs. Janet Graham sang, accompanied by Mrs. Steele.

Fruitvale Institute Plans Garden Contest

FRUITVALE, B.C. — Final arrangements for launching a children's garden contest were made by members of Fruitvale Women's Institute meeting at the home of Mrs. A. C. Webster.

Members voted to join the Kootenay Society for Handicapped Children, and named Mrs. C. Mawer as their representative. A donation was voted to St. John Ambulance. Members received information on donating to the Queen Alexandra solarium.

Ear-Piercing Craze Increases UK Queues

LONDON (CP)—A new waiting line has suddenly blossomed out in queue-infested Britain, with young men crowding out their girl friends for appointments with an ear-piercer.

Alexander Gordon, a specialist in ear-piercing, says more male clients are finding their way into his clinic in one week than in any previous 12-months period he has been in the business. But the new crop is different. The men insist on having one ear only pierced.

The world's highest dam outside the United States is the 450-foot Chambon dam on the River Romanche in France.

W.I. Names Delegate

SALMO, B.C. — Mrs. Clifford Hearn was named delegate to the provincial convention to be held in June at Vancouver, at the monthly meeting of Salmo Women's Institute at the home of Mrs. Smith Curwen. The sum of $50 was voted for the delegates' expenses.

Final arrangements were made and goods appraised for a sale of work and tea. A donation will be sent to the Cancer Fund.

HARROP CLUB PLANS SUPPER

HARROP, B.C. — Arangements for a pot luck supper were discussed by members of the Ladies' Knitting Club at their final meeting at the home of Mrs. J. Paulhus.

NATAL, B.C. — Michel Blanket Club held its meeting at the home of Mrs. S. Stephenson, with a good turn-out of members.

THREE SQUADRONS of F-86 Sabre jets are currently making a tour of Eastern cities to acquaint the Canadian public with their country's first-line fighter aircraft. The tour, which began April 30 at Summerside, P.E.I., and will terminate in Western Ontario, is also designed to give such pilots as Sqdn.-Ldr. J. D. Lindsay of Arnprior, Ont., left, leader of the tour, and F.O. L. MacDonald, Ottawa, right, additional flying experience. The speedy jets, seen above, which fly over 600 miles per hour, are the same type being used in the Korean war and by the R.C.A.F.'s No. 1 Fighter Wing in England. —Central Press Canadian

Three-Way Deal Takes 6,600,000 Pounds of Canadian Meat to U.K.

OTTAWA, May 15 (CP) — The New Zealand's profits on the new Canada - United Kingdom - New Zealand meat agreement will be used to buy additional meat in Canada for Britain, Agriculture Minister Gardiner announced today in the Commons.

Mr. Gardiner said the new arrangement, a later development in the three-way deal announced last Friday, will provide for an enlarged market for Canadian surplus meat.

At the same time, the Minister announced that, by the end of this week, contracts will have been made for the shipment of 6,600,000 pounds of Canadian meat to Britain under the arrangement.

Under the arrangement, New Zealand and Canada will split any amount obtained from the United States above the price Britain pays New Zealand for its frozen beef.

TO CUT LOSSES

Canada would take this beef from New Zealand at the price contracted for it by Britain and giving Britain instead, fresh meat which she cannot now sell in the U. S. because of its embargo on Canadian cattle.

On the New Zealand beef sold in the U. S., any Canadian profit will go towards cutting down the loss to the treasury on the difference between frozen and fresh meat. New Zealand will spend its share on additional Canadian meat.

"In this further step in the arrangements," Mr. Gardiner said, "all three governments will benefit. New Zealand will derive higher returns for her meat. The U. K. will obtain more meat, and Canada is getting an enlarged market for her surplus meat."

Oregon Strikers Reach Agreement

PORTLAND, Ore., May 15 (AP) —Striking woodworkers and the Fir Plywood and Door Manufacturers reached agreement on contract terms in a session that broke up at 3:30 a.m. today, a union spokesman said.

J. E. Dicey, first vice-president of the union and vice-chairman of negotiations, said the agreement calls for an hourly pay boost of 7½ cents retroactive to April 1; a two-cent houly night differenti l increase, three added paid holidays; improved vacation clause, and renewal for two years of an employer-paid health and welfare program.

Dicey said he assumed workers would ratify the agreement and end the strike in the industry which has 9000 union members. He said he could not forecast the date for return to work.

At Olympia, though, official said pickets had been withdrawn and work would be resumed as soon as equipment could be readied.

Police Hold Man On Murder Charge

LONDON, Ont., May 15 (CP) — Archie Seneca, 33, of Muncey has been arrested in connection with the slaying of the two women and a man whose bullet-wounded bodies were found in a gully near the Muncey Indian Reserve Sunday.

Inspector Leonard Neil, of the Criminal Investigation Branch of the Ontario Provincial Police, confirmed that the man was held.

"I will consult with the crown attorney regarding the laying of a murder charge," Inspector Neil said.

Reserve residents were still homeward-bound from funeral services for Mr. and Mrs. Herman Henry when Seneca was whisked to Provincial Police headquarters in London.

NATURAL GAS LINE SEEN FOR ISLAND

VICTORIA, May 15 (CP) — The possibility of a natural gas line from the mainland to Vancouver Island was expressed today by W. C. Mainwaring, vice-president of the British Columbia Electric Company.

A route from Bellingham, Wash., across Juan de Fuca Strait to Cordova Bay near here has been surveyed and no engineering difficulties were discovered, he said in an interview here.

"Whether they bring gas into the Pacific Northwest (United) States from north or south," Mr. Mainwaring said, "we can cut into the main transmission line between Vancouver and Seattle, Wash."

He said Victoria's hydro-electric potential has limitations because it is on an island. The time could come when further expansion of hydro-electric power is impossible.

"Natural gas could be the island's greatest asset," he said.

FOREST INDUSTRY EARNINGS DROP

VANCOUVER, May 15 (CP).—A decline in forest industry earnings and a cloudy outlook for sales in 1952 was predicted in a half-yearly report issued today by British Columbia Forest Products Ltd.

Consolidated net earnings were down to 68 per cent for a six-month period ending March 31. Earnings were $627,887 or 31.4 cents a share, compared to $1,950,012 or 97.5 cents a share in the same period last year.

Head of the U.N. truce delegation in Korea, Admiral Charles Turner Joy turns up his coat collar to avoid the rain as he heads toward the negotiation tent at Panmunjom. Although signs appeared that the Communists had come up with some kind of armistice offer, the old familiar air of stalemate still hangs over the talks, for they refused to agree to a United Nations command proposal designed as an overall solution for the three major issues.—Central Press Canadian.

Wheat Sales Jump 224,000 Tons

LONDON, May 15 (Reuters). — Sales under the international wheat agreement during the week ended May 9 jumped to 224,000 metric tons, with Australia and France selling far more than in any week for several months.

France has virtually completed her small export quota of 111,000 tons for the agreement year ending July 31. Canada, Australia, and the United States are nearing completion.

France, which had sold only 52,000 tons in the previous nine months of this agreement year, sold 59,000 during the week—48,000 to Germany and 11,000 to Australia.

AUSTRALIAN RECORD

Drought-stricken Australia's sales of 140,000 tons during the week were 128,000 to Britain, 9000 to Ireland and 3000 to Egypt. Of her reduced quota of 1,960,000 tons, only 32,000 remains unsold.

Canada sold 34,000 tons, all to Egypt. All but 92,000 tons of Canada's enlarged quota of 6,491,000 has been sold.

The U.S. sold 11,000 tons, 10,000 to Egypt and 1000 to Saudi Arabia.

Unfilled export quotas of the flour exporting countries thus total only 185,000 tons. But the unfilled import quotas of the importing countries total 489,000, because 304,000 of the recent cut of 454,000 in Australia's export quota is still unallocated to other exporting countries. Canada took up 150,000 tons of it, but the rest is still looking for a supplier.

Close to 30,000,000 tons of freight were moved by boat through Canadian canals in 1951.

Bell Telephone Signs Contract

MONTREAL, May 15 (CP)—The Bell Telephone Company of Canada announced today the signing of collective agreements for wage increases for some 25,000 employees, members of the Canadian Telephone Employees' Association and the Traffic Employees' Association.

Individual increases depend upon the size of the community, length of service and grade of work. Plans craftsmen will receive increases ranging from $1.25 to $6.50 a week; operators $1 to $4.50 a week and clerical workers from $6 to $24.50 a month.

Mrs. Rice Says 50 P.C. Mental Hospitals Outdated

WINNIPEG, May 15 (CP). — At least 50 per cent of Canada's mental health hospitals are outdated and the same percentage of patients go untreated due to lack of trained personnel, Mrs. Walter Rice said yesterday.

In a radio interview, Mrs. Rice said it is up to the people of Canada to make up the difference. She is director of SHARE, Manitoba's Mental Health Association.

"The days when our conscience could allow the mentally-ill to be locked into over-crowded buildings without treatment belong to the Middle Ages," she said. "It costs taxpayers a great deal less to pay the price of curing a mentally-ill person than it does to keep him a prisoner and tax burden for the rest of his life."

Alta. Social Director For Victoria Post

CALGARY, May 15 (CP) — Resignation of Ronald Hooper as executive director of the Council of Social Agencies was announced today. Mr. Hooper will leave Calgary late in June for Victoria where he has accepted the posts of executive secretary for both the community chest and the community welfare council of greater Victoria.

Mr. Hooper's resignation as executive director of the council was accepted this week at a meeting of the council board of directors. A successor to Mr. Hooper has not yet been named.

New Trial Ordered By Appeal Court

EDMONTON, May 15 (CP)—The Alberta Appeal Court today ordered a new trial for Kaspar Gorczak, 34, of Wanham, Alta., charged with the New Year's Day knife-slaying of his estranged wife.

Gorczak was convicted of murder by a supreme court jury March 28 and sentenced to be hanged June 17.

The appeal court held that Mr. Justice C. C. McLaurin did not give the jury sufficient opportunity to consider the defence of drunkenness and provocation which was offered during the trial by Gorczak's counsel.

2 New Forest Fires Blazing in Alberta

EDMONTON, May 15 (CP)—Eight new forest fires broke out in Alberta Wednesday bringing to 19 the number of new fires reported to the provincial forestry branch in the last three days. Six were out of control.

A fire reported earlier this week at the Dominion Government's bombing range 135 miles northeast of Edmonton was "still spreading." Fifteen men were fighting a new outbreak in the same sector.

NEW HAGUE JUDGE

THE HAGUE, The Netherlands, May 15 (Reuters)—Sir Arnold Mcnair, a British judge, was installed today as the new president of the International court of justice.

Business Spotlight . . .

Pend d'Oreille Giant Monolith First Step in Waneta Project

By FORBES RHUDE
Canadian Press Business Editor

The swift flow of the Pend Oreille River in Southeastern British Columbia will be blocked in spectacular fashion later this year.

A pillar, or monolith, 180 feet high and weighing 6000 tons, will be built beside the river, 13 miles South of Trail, and then tipped into it.

One side will have contours so that it will fit the river bottom. In position, it will be 25 feet deep at the deepest point, and 30 feet thick, tapering to 10 feet at the top. It will block the river through the South two-thirds of the channel, enabling construction men to bare the river bed and proceed with erection of a dam.

HIGHEST BUILT

The monolith will be the highest ever built, but not the heaviest.

One erected in Quebec's Saguenay River in 1930 was only about half as high, but weighed twice as much.

The B. C. pillar will be the first to be tipped into place. It will be pulled off balance through a cable attached to the top and powered by a winch. A steel hinge embedded in the foundation will guide the direction of the fall. Previously such pillars have been blasted from their foundations and rolled into position.

The monolith will be built by Northern Construction Company and J. W. Stewart, Ltd. It is a step in the $30,000,000 Waneta Power project, which, in turn, is part of the $63,000,000 expansion program of Consolidated Mining and Smelting Co., of Canada, Ltd.

Britain Relaxes F-M Restrictions

LONDON, May 15 (Reuters) — Agriculture Minister Sir Thomas Dugdale today relaxed the general ban on cattle movements in England and Wales as the worst appeared to be over in Britain's eight-month-long fight against foot-and-mouth disease.

Dugdale told farmers that the country-wide ban on cattle movements is to go, but area restrictions in districts hit by the disease will remain.

Earlier in the day a fresh outbreak was reported in the English county of Cheshire, but only three cattle had to be slaughtered.

Dugdale also said he hopes soon to lift movement restrictions in Scotland, worst hit by the disease, possibly by May 21.

The number of animals slaughtered since the epidemic began last November now is 16,702 cattle, 11,000 sheep, 6931 pigs and 20 goats. There have been 28 outbreaks since the disease first appeared here.

The current monthly letter of the Royal Bank of Canada, noting that universities and schools are finishing up another year, comments:

"The person who quits learning upon leaving university or school is giving in to an idea of limited usefulness, limited satisfaction and limited happiness."

PILES that Itch and Burn

If you now suffer from the itching soreness and burning pain of piles you can be helped.

Just get a package of Hem-Roid, an Internal pile treatment, at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only $1.59 for the big 60 tablet package. If you are not 100% pleased after using Hem-Roid 2 or 3 days, as a test, ask for your money back. Refund agreement by all drug stores.

Guardian Enjoys Joke On Toronto 'Painting'

MANCHESTER, Eng., May 15 (CP)—Under the heading "O God! O Toronto!" the Manchester Guardian chuckled today over the story of the picture which set a Toronto art exhibition on its ear.

As told here, a young man sent a picture to the exhibition and received high critical acclaim. Then the painting turned out to be an old bit of cardboard on which artists in a commercial studio used to clean their brushes.

The story was told by Prof. Frederic Taubes, an American critic formerly with the University of Illinois. Taubes, addressing the Royal Society of Arts, delivered a strong attack on modern art and said art criticism nowadays amounts to little more than "exercises in automatic rumination, stuff spun upon the couches of the psychoanalysts, self-dramatizations of the professionals . . ."

The Manchester Guardian story apparently referred to a "painting" sent to Sidney Key, curator of the Toronto Art Gallery, in February. Its sender, Robert Lealess of Vancouver, asked for some "constructive criticism."

He received a tactful reply:

"You are considerably interested in a variety of effects that can be arrived at through experimental use of your materials, and you seem to be aware of the accidental effects that can result from lines, calligraphy, blots and the use of a spray gun."

Color Question Confused in U.K.

LONDON, May 15 (CP) — Britain's thousands of Negroes "belong vaguely, if beautifully, to the crown —never, unhappily, to the country," says a research scholar now studying the Negro's status in the United Kingdom.

Dr. Ruth Landes, formerly of Columbia University and now a fulbright senior research scholar, said in an address to the anthropological institute she is convinced their is a newly-aroused bitterness among the Negroes over what they regard as the "naked exposure of their second-class status."

NOT CLEAR CUT

Factors, causing this feeling, she said, including South African legislation and discussions on the federation of Southern Rhodesia, Northern Rhodesia and Nyasaland.

The Negro problem was not clear-cut in Britain. There was confusion among both whites and Negroes, but there was a growing impression for Negroes to say: "Yeah, there's freedom in Britain, but a man don't have a chance."

Dr. Landes said that everywhere she found that Britons and especially the English, resented the sight of a negro in company with a white woman. Many felt that an alien man was being admitted to a closed society, and that the woman had violated her social trust.

B.B.C. Against Sposored Radio

LONDON, May 15 (AP) — The government announced today it will ban radio advertising for another 10 years but left the door open to commercially-sponsored television when times are better.

The announcement was made in a government white paper outlining a new 10-year charter with the government-controlled BBC. The new charter tightens top-level organization of the BBC to provide "additional safeguards against the possibility the corporation (BBC) may be subordinated to political ends."

Scotland, Wales and Northern Ireland also will have a greater voice in determining BBC programs. Many radio and TV industry representatives claim the service could be improved with private competition.

Most British TV experts believe it will be at least three or four years before the first commercially-sponsored TV program appears.

B. C. Agrees to Aid Blind Pensioners

VICTORIA, May 15 (CP)—British Columbia has entered into an agreement with Ottawa to help blind pensioners.

The agreement, approved by order-in-council, permits this province to participate in a remedial and surgical treatment scheme for remedial and surgical treatment scheme for recipients of blind allowances.

The plan started out as an experiment by the Department of National Health, and proved so successful it was adopted as policy and the provinces were invited to participate.

The provinces pay 25 per cent of the cost and the Federal Government the remainder.

Wage Increase for Coast Sugar Workers

VANCOUVER, May 15 (CP) — The Industrial Union of Sugar Workers, local 517, (CCL-CIO) announced today 330 workers in the B. C. Sugar Refining Co., plant here, have been granted a 21-cents-an-hour increase in basic wage.

The new rates will be retroactive to March 1. The increase brings the minimum wage scale to $1.37½ an hour for men and $1.18½ for women.

Saboteur Reporters Find Capital City Vulnerable

VICTORIA, May 15 (CP) — After assigning reporters as "saboteurs" the Daily Colonist decided today that five trained sabotage experts could, with two days' preparations, "leave the city and its defences in smoking ruins."

The newspaper, in a front-page story which called Victoria "an open house to attackers," told of three reporters—none of whom used press connections—strolling into defence areas and placing simulated explosives. The story added:

"Had the explosives been real, they would have included timers that would detonate them all at the same moment—5 p.m., Wednesday.

DEFENCES WEAK

"If the strike had been duplicated by a handful of saboteurs in other cities across Canada, defences from Victoria to Halifax would have disappeared in flames at the same instant.

"Five o'clock was chosen for the explosions to take full advantage of resulting panic.

"No air bombing would have been necessary.

"At 5 p.m., the city was technically without electric power, without water, without communications and without much defence.

"Starting on Tuesday morning and working until 4 p.m. Wednesday the saboteurs placed explosives in many naval and military establishments and six places on the main water supply, under all bridges, in main electrical sources, at every communication centre, in cable test pits, and in civil defence headquarters."

The story said in each case a "cover" story was rehearsed by the mock saboteurs and fictitious names used. And in most places nobody challenged the 'saboteurs.'

EASY TO ENTER

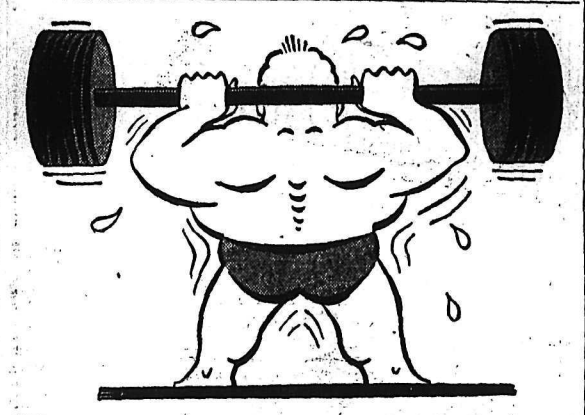
The story went on:

"A large percentage of the areas that are supposedly out of bounds to civilians were ridiculously easy to enter.

"In no case was a 'saboteur' caught or a cover story challenged.

"... information was gained mostly by phone. Public utility offices handed out detailed information as to sources of power, power units, water mains, and how the utilities were expended.

"One saboteur was told how to knock out the city's electric supply with a .22 rifle."



VI-TONE MEANS STRENGTH TOO!

For sudden-lifted spirits, there's nothing like VI-TONE! It's worth its weight in gold as a source of strength. And your liking for its delicious taste just goes up *and up*—the more you drink. VERNE GOODWIN, former U.S. Air Force lieutenant who was sentenced to two years in prison for refusing to fly, is shown with his wife and new baby at their home in El Paso, Texas, following his release. Officials in Washington who took just seven hours to free him once they got "all the facts" in his "strike" against flying. At his court martial Goodwin said that he feared flying because his wife was extremely nervous and might lose the child she was expecting in near future. However the baby was born prematurely after it was announced that Goodwin would be court martialed. Following revocation of his two-year prison sentence, Goodwin was permitted to resign from the Air Force "under conditions other than honorable."—Central Press Canadian.

Gardiner Urged to Settle Cattle Ban

WINNIPEG, May 15 (CP) — The Winnipeg Livestock Exchange today wired Agriculture Minister Gardiner urging an immediate conference with provincial government representatives on lifting the province's ban on Western cattle shipments.

In the wire, president Elva Trepel asked the negotiations begin before the Federal Government puts into effect a plan to buy Saskatchewan cattle. He said the Manitoba embargo may force independent abattoirs in Manitoba to close down, reducing competition and leaving the field open to "big packinghouses."

Unique Problem for Duncan Council

DUNCAN, B.C., May 15 (CP) — City Council is not sure whether city cases tried in police court in the last two years have been legal.

The police building is situated in North Cowichan, and now council is wondering if it must build a court in the city in order to have cases tried in the jurisdiction where offenses were committed.

Discussion of the problem arose with the confirmation of the appointment of Col A. C. Sutton as police magistrate for the city.

Baby Trout Not Finicky Eaters

PULLMAN, Wash., May 15 (AP)—Baby trout may not be such finicky eaters as has been supposed, Ed Langworthy of Coeur d'Alene, Ida., told the fourth Northwest Wildlife Conference yesterday.

He said initial experiments at the hatchery he manages in Coeur d'Alene indicate the trout can get along very well on something other than the usual diet of beef livers.

A diet including a quantity of ground blueback carcasses and some vitamin boosters in place of the more expensive meat proved to be just as satisfactory for Cut-Throat trout at his hatchery, he said. And it costs about 25 per cent less.

Turning Point in Potato Shortage

OTTAWA, May 15 (CP) — A turning point has been reached in Canada's potato shortage, federal agricultural officials disclosed today.

Shipments of new potatoes from California and Alabama are helping to overcome a scarcity which sent potato prices to a record high.

Officials said the U.S. shipments likely will ease prices slightly, but no sharp price fluctuation is expected.

Ottawa Debates Exchange Centre

OTTAWA, May 15 (CP) — Canada can make a start in lifting interntional monetary restrictions by setting up a trading centre for the exchange of soft currencies into gold, the Commons was told.

Rodney Adamson (PC-York West) said Wednesday that move would make Canada one of the great international banking centres of the world.

Debating a resolution to extend the government's emergency gold-mining aid through 1953, Mr. Adamson, a mining expert, said his proposal would be of great use to countries with blocked currencies. If soft-currency—sterling — countries were given machinery for converting their monies into gold through a Canadian market, he said, they would have a useful standard. The productivity of the sterling area would make a market for their currencies.

Mr. Adamson said he did not claim that would overcome existing embargoes or currency restrictions, but it would be "a step along that path."

The Eisenhowers Lunch at Palace

LONDON, May 15 (AP)—General Eisenhower came to London today for farewell talks with government officials and a lunch with the Queen at Buckingham Palace.

The Queen and Queen Mother received Eisenhower and his wife.

Eisenhower, in obvious high spirits, waved to a crowd of 300 that awaited his arrival.

The visit is part of Eisenhower's farewell tour of North Atlantic Treaty Organization capitals as retiring Supreme Commander of Allied forces in Europe. He will return next month to the United States, where he is a candidate for the Republican presidential nomination.

The Shetland pony of today is substantially the same type as it was in the days of the Roman occupation of Britain.

Movie Gossip

Japanese Classic Theatre Gives First Rate Shows to Enthusiasts

By BOB THOMAS

HOLLYWOOD, May 15 (AP)—A United States movie company, just back from filming in Japan, reports that entertainment is flourishing there, from American movies to native strip teases.

Tom Ewell, who is a serious student of the theatrical arts despite wacky film roles, has returned with a survey of entertainment in Japan. Along with a U.-I. film troupe, he travelled to the reestablished island country for location scenes of "Willie and Joe Back at the Front."

"I found the Japanese enthusiastic about all forms of entertainment, from the classic theatre down to burlesque," reported Ewell. "Many of the entertainments are amusing, and even startling adaptations of American styles.

COPY HOLLYWOOD

Advancing up the theatrical ladder, Ewell remarked that the Japanese musicals appear to be patterned after Hollywood films. The dances, costumes and plots are the same, but the shows use old music instead of writing new tunes. Japanese lyrics are set to anything from "Parlez Moi d'Amour" to "Come on a My House."

The classic theatre, or Kubuchi, is really impressive, the actor contheatre I have see in any part of the world."

"The theatre gives two performances—at 11 in the morning and 4:30 in the afternoon. The stage is enormous and the place holds 4500 people. Shows last 4½ to five hours and include a three-act, two-act and one-act play, plus four or five dances. There are intermissions for lunch and dinner, and everyone eats in restaurants in the theatre."

So effective is the theatre that the Kubuchi is being brought to New York next season, Ewell reported.

A FORGETFUL CUSTOMER sent a pair of pants away to be cleaned by an establishment in Winnipeg and in so doing forgot to remove $475 in cash which had been stowed away in one of the pockets. Upon discovering the money, Mrs. Hedwig Dennis, a clerk in the store, telephoned the customer long distance in Riverton, Man., who promptly came in and picked cash up. — Central Press Canadian.

CARD OF THANKS

The Sisters of St. Ann of Mount St. Francis extend their sincere thanks and appreciation to the Uphill Circle for Mount St. Francis, the City Council, the dairies and bakeries and the ladies of the lodges and service clubs for their generous support in making Open House such a successful occasion.

FUNERAL NOTICE

CAMPBELL—Funeral service for the late Robert Campbell will be held Saturday, May 17, 1952, at 2:30 p.m., from St. John's United Church, Grand Forks, B.C. Rev. D. L. Greene will officiate. Interment in family plot, Grand Forks cemetery. No flowers by special request. Clark's Funeral Chapel in charge of arrangements.

Harbor Bill Gets Speedy Reading

OTTAWA, May 15 (CP) — The Commons Railway Committee today gave speedy passage to a bill to grant a $1,250,000 federal loan and extend the boundaries of the busy New Westminster harbor in British Columbia. The bill went through in about 30 minutes.

K. K. Reid, chairman of the New Westminster Harbor Commission, explained that there was a growing demand for ship dockage space at the harbor and present facilities were inadequate.

The loan would be used to build new docks and lay down any new rail trackage needed.

MEMBER SUGGESTS TERMINAL PLAN

George Murray (L-Cariboo) suggested that while the committee is on the bill consideration should be given to plan a new C.N.R. terminal in the New Westminster area to ease the congestion in the heart of Vancouver.

Mr. Reid said he would be glad to help the C.N.R. in any way he could and Howard Green (PC-Vancouver-Quadra) said he hoped that didn't mean that New Westminster was going to try to take some of the railway business away from Vancouver. Mr. Reid hastily replied that it did not.

The harbors bill goes back to the Commons for a third reading before being passed along to the senate for approval.

For Stamp Collectors

OTTAWA, May 15 (CP) — The post office announced today it will issue a special four-cent stamp in July to commemorate the international Red Cross conference, to be held in Toronto.

The conference, which meets approximately every four years, is the supreme governing body of the Red Cross. It will be its first meeting in Canada and the first in North America since the Washington conference of 1912.

The stamp is being printed in blue and red—first by the line engraved process in light blue and then superimposed by the Red Cross by the offset process.

The process will show rays of light with a "sunburst" centred by the Red Cross.

TENDER AWARDED

OTTAWA, May 15 (CP).—A $5,788,880 tender has been awarded Northern Construction and J. W. Stewart Company of Vancouver for the rock-fill work on the Canso causeway, Transport Minister Chevrier announced in the Commons today.

DEATHS

By the Canadian Press

Quebec — Forrest Edward White, 61, chief purchaser for the Quebec Legislative Assembly.

Montreal — David A. Pritchard, 66, a pioneer of the alkali industry in Canada and former technical manager of Canadian Industries Limited Chemical Division.

Rome — Prince Antonio Constantine Paleaologus, 86, who claimed to be the last descendant of the emperors who ruled the Byzantine empire from Constatinople in the 15th century.

Rochester — Charles (Red) Dollin, 71, former catcher and manager of the National League Philadelphia Phillies.

Astronomers Meet At Coast, June 25

VICTORIA, B.C., May 15 (CP) — Arrangements are being made for a joint meeting in Victoria next month of the American Astronomical Society and the Astronomical Society of the Pacific.

Tentative dates for the three-day session are June 25 to 28.

WHILE LONDONERS JAM THE SIDEWALK OUTSIDE, a doctor is seen going through the motions of performing a surgical operation in a London shop window. The idea was to demonstrate the various functions of a hospital to give impetus to a national hospital service recruiting campaign now under way in England. The "patient" is a student nurse.—Central Press Canadian.

WATER tells the truth about... WHISKY

Put Seagram's "83" to the water test. For water (plain or sparkling) is your most reliable guide to the whole truth about any whisky. Water adds nothing, detracts nothing, but reveals a whisky's true, natural flavour and bouquet.

Say SEAGRAM'S and be SURE ... of the finest

English Coal Miners Are Sold on Baseball

By ALAN HARVEY
Canadian Press Staff Writer

AYLESHAM, Kent, England, May 15 (CP)—Thanks to the never-say-die spirit of a French-Canadian named Romeo Vincent, baseball has ousted cricket from some at least of the playing fields of Britain.

Instead of the lazy Summer sounds associated with cricket, a slow-moving game that is supposed to be a reflection of the British character, this quiet community now resounds to the sharp crack of bat on ball and cries of "Slide, Kelly, Slide!"

The man responsible is Romeo Vincent, a 30-year-old ex-soldier from Granby, Que., who came back to Britain after the war because his English wife, Lucille, was homesick. Romeo decided that cricket was popular here only because there was nothing else to do, so he started promoting baseball.

It was tough, at first. His mates in the mines at nearby Snowdown Colliery, where Vincent works as a "diesel sitter" didn't take to the game and the Canadian had to be, in his own words, "very stubborn." But using a blackboard and other borrowed equipment, he gradually taught the pitmen the fundamentals of baseball.

SOFTBALL AT FIRST

When they were ready to take the field he started them on softball, then switched over to hardball.

Now the Snowdown Magpies, as Vincent calls his pitmen's team, has started their first season in a six-team league. Canadian management methods seem to have worked wonders, for the Magpies won their first game 37-7 and their second, an abbreviated five-inning affair, 14-1.

There are two United States airmen on the team but the rest are English miners. Vincent doesn't play because of an old war wound, but he's excited about the progress the club is making.

"It's all a matter of enthusiasm," he says. "All the men are very, very keen. If a man has a shift starting at two the afternoon the chances are you'll find him out there practising at 10 o'clock in the morning."

Vincent, who was a corporal in the Fusiliers Mont Royal, was married in 1943 while stationed in England. He came back here to please his wife and plans to stay—for the time being, anyway.

"I like it very much here, but I would rather have our own way of life—not necessarily the French-Canadian way of life, but Canadian life in general."

Westlake, Sisler Swapped in Four-Man Deal

CINCINNATI, May 15 (AP) — Cincinnati Reds and St. Louis Cardinals may have solved a couple of their most pressing problems with a four-player swap.

Gabe Paul, Cincinnati general manager, announced last night the Reds were sending outfielder Dick Sisler and shortstop Virgil Stallcup to the Cards in a straight exchange for outfielder Wally Westlake and infielder Eddie Kazak.

The key figures in the deal appeared to be Sisler and Westlake.

The Reds have been sorely in need of a centrefielder since rookie Wally Post failed to hit and then had to have an operation. Westlake is supposed to plug that hole and let Johnny Wyrostek, a right-fielder by trade, go back to his regular spot from centre.

St. Louis needs a first baseman. Yesterday they sent bulky Steve Bilko back to the minors and they've been using Stan Musial at first. Sisler played considerable first base with the Cards in his first hitch with them and again at times with the Philadelphia Phils.

As a result, he'll take over first base and let Musial get back to the outfield which he prefers.

Stallcup, the Reds' regular shortstop since 1948, was beaten out of his job this year by the fancy fielding Roy McMillan. He has been at bat only once.

Kazak hit .304 with the Cards in 1949 but slumped to .256 in 1950. He was shipped off to Houston in the Texas league early in the 1951 season and compiled another .304 batting average there.

VANCOUVER, May 15 (CP) — The Vancouver Olympic Club will stage its fourth annual Vancouver relays at the University of British Columbia Stadium June 7. There will be 26 events and three awards, the Hon. E. W. Hamber Trophy to the high team, Eilers Award for the best individual performance and the Olympic Club Trophy for the athlete scoring the highest number of points.

TRUCKS TOSSES NO-HITTER

By The Canadian Press

Virgil (Fireball) Trucks turned on the steam Thursday to hurl the first no-hit, no-run game of the current major league season for Detroit Tigers against Washington Senators.

Vic Wertz' last-minute home run, with two out in the ninth inning, gave Detroit the victory, 1-0.

Trucks struck out seven. Washington players and allowed only three men to reach first base. He walked one runner in the eighth inning and hit two batters with pitched balls in the third and sixth.

The 33-year-old righthand pitcher hadn't won a game this year until he uncorked Thursday's brilliant effort. It was matched for a time by Bob Porterfield, who had a no-hitter going for 6 2-3 innings.

Boston collected only three hits, but one was a pay-off single by Ted Lepcio for a 1-0 American League victory over Chicago White Sox in a thrilling pitchers' duel which ended a six-game Red Sox losing streak.

Ray Scarborough registered his first victory against two defeats by limiting the White Sox to four hits.

The hard-luck loser was Ken Holcombe, making his fourth start in quest of his first victory against two losses.

Holcombe was nicked for Boston's lone run in the fourth after he yielded the fourth of his five walks in the game to Gaye Thorneberry with one out.

Thorneberry stole second, went to third on catcher Phil Masi's wild throw to centrefield. Lepcio then lashed his game-deciding single to left field, scoring Thorneberry.

LOES WINS 4TH

Billy Loes, a 22-year-old bonus pitcher of Brooklyn Dodgers, made his first start a good one by knocking down the lowly Pittsburgh Pirates 2-0 on six hits in a night National League game.

Loes had won three games in relief earlier in the season and the start was his reward for the good rescue work. His record now stands at 4-0.

Robin Roberts and Philadelphia Phillies downed Cincinnati Reds 5-1 in another National League night game for Roberts' sixth triumph in seven decisions. Roberts allowed one less hit than Loes—five—but he was deprived of a whitewash by Joe Adcock's home run in the sixth inning.

Jackie Mayo hit a homer off the slants of Ewell Blackwell, the Red Legs' top elbowman.

At St. Louis, Alex Kellner tossed Philadelphia Athletics a 6-0 American League victory over St. Louis Browns. The A's southpaw dealt out only four safeties to the losers. Tommy Byrne went the distance for the Browns and it wasn't one of his nights. He was rapped for 14 hits.

For Kellner, it was the second time in eight days he shut out the Browns. He helped his own cause this time with three straight hits.

Basil McDonnell Heads Red Mountain Ski Club; $5800 Surplus in '51-52

ROSSLAND, B.C.—Basil McDonnell was elected president, E. M. Stiles was elected honorary president, Windy Williams of Trail vice-president, Herman Shneidrich of Trail and Herb Osing of Rossland directors; treasurer, Eric Caldicott, at the annual meeting of the Red Mountain Ski Club Tuesday, May 13, in the Rossland high school cafeteria. Bob Greene remained as secretary.

Bill Nicholson is the retiring president, Basil McDonnell the retiring vice-president, and Sam Baird the retiring treasurer.

Bill Nicholson reported that the upstairs rooms at the ski lodge had been painted and that fire doors and evit lights had been installed in line with instructions from the fire chief.

He also disclosed that 10 new chairs had been added to the ski tow for a total of 240 chairs. Most of the rope tow material is on hand and volunteer help is expected this Summer to put it in. The ski patrol was active. Booty Griffith helped the jumpers.

Saul Rothman reported that the tournament committee had helped the high school in their meet.

George Merry told of his trip to Oslo, Norway, for the Olympic skiing. He picked up his equipment at Montreal, practiced there for awhile then flew to London and then Norway.

The big problem in Norway during the Olympic skiing was the lack of snow. Rocks, sticks and stumps made the courses rather difficult. There were 160,000 spectators watching the Olympic jumping.

Merry toured central Europe after the Olympics and took part in tournaments in Austria and Switzerland. He competed in eight tournaments in Europe.

Al Currie reported on parking and traffic and recommended that a wider parking area be made available at the ski lodge.

Sam Baird reported that the surplus of income over expenditure was $5863.35.

Basil McDonnell reported that the R.C.M.P. had purchased land on Red Mountain, belonging to the ski club, to instal a radio transmitter. He said that the Trail ski cabin was in very poor condition and it was decided to sell it. He said that volunteer labor was needed this Summer to repair the roof of the ski lodge, to instal the rope tow and to put the tower footings in.

It was decided to have a nine-man board of trustees with the president being the ninth man. E. M. Stiles will be asked to appoint (subject to the approval of the ski club) their successors. Refreshments were served at the close by young ladies of the club.

Western Wins College Cage Title

LONDON, Ont., May 15 (CP) — Sparked by the brilliant 26-point scoring effort of diminutive Bill Pataky, University of Western Ontario Mustangs tonight won the Canadian college basketball championship, beating University of Alberta Golden Bears 75-62.

The win was the third straight for the Mustangs in the best-of-five series. Western won Monday night 53-47 and again Tuesday night 64-45.

Tonight's contest was by far the best of the three. Once again Alberta's lack of reserve strength showed itself. They lost both Steve Mendryk and Don Newton via the foul route while Ed Lucht and Geoff Mortimer, first and second-string centres respectively, each played with four fouls. Lucht gathered his four fouls early in the game and sat out most of the second period.

The lanky centre played the last two periods with four fouls but his stint on the bench in the second quarter hurt the chances of the Golden Bears considerably. It enabled Western to come from behind an 18-13 first quarter deficit to go ahead 37-36 at the half.

Down 61-47 going into the final period, Alberta came back with a rush and pulled to within five points at 65-60. Western spurted for 10 straight points to assure the win.

Alberta added two free throws in the dying minutes and waived three others in an attempt for possession but time ran out before they could rally for a basket.

GUARDIANS OF PEACE

Canadian Soldiers in Germany

The front lines of Canada's security lie not only on our immediate borders but in Europe and Asia.

Canadian troops overseas, with the Soldiers of other freedom-loving nations, stand as our bulwark against threats of aggression.

In Germany, the 27th Canadian Infantry Brigade Group has impressed all with its qualities as a unit and . . . with the spirit and training of its soldiers.

Take your place with Canada's frontline soldiers. Serve with the most important men in the Army — the Infantry.

You are eligible if you are 17 to 40 years of age, physically fit and ready to serve anywhere.

Apply now to the Army Recruiting Depot nearest your home:

No. 11 Personnel Depot,
4201 West 3rd Avenue, Vancouver, B.C.

SMOKIES DOWN TIGERS 5-3 IN OPENER

Nelson fans got their first good look at the 1952 local baseball club last night and although the Tigers lost 5-3 to Trail Smoke Eaters, more than 300 came away well satisfied with the calibre of ball displayed.

The Tigers managed only six safeties off their old nemesis, Pete Boisvert who went the seven innings for the victory, but it was errors that proved their downfall with the visitors breaking a 3-3 tie with two unearned runs in the final inning.

Joe Postnikoff took the loss after relieving starter Les Hufty in the sixth inning. Hufty was forced to retire in the fifth when he sustained bruised ribs in a collision with first baseman Ray Hamilton.

Hufty had hurled good ball until his departure, getting in trouble only in the third inning when Smokies bunched three hits, including a triple by Luis Corrado, for the first two runs of the game.

Errors by Gare, Bob Koehle and Severyn got Postnikoff in trouble in the sixth, allowing the third Trail on a single, overthrow sacrifice and fielder's choice.

Boisvert sailed along smoothly, holding the Tigers to one hit until the fifth when Dunc Kennedy lined a double along the right field foul-line. Les Hufty reached first on an error and Kennedy moved to third, scoring on Bob Koehle's outfield fly. A single by Haldane produced the tying run.

They tied it at 3-3 in the sixth when Gare walked, was sent to third on Red Wassick's pinch hit single and scored on an error by Harold Jones.

Postnikoff quickly loaded the bases in the seventh when he walked Hamilton, gave up a scratch infield hit to Bilesky and hit Kenny Nicol.

WINNING RUNS

With the sacks filled and nobody out, Tinling called in Marsh Severyn who got a 2-2 count on Jones before he lofted one to centre field and allowed Hamilton to score after the catch. An overthrow at third allowed Bilesky to score the second run before the righthander fanned Zanier and Boisvert to retire the side.

Boisvert bore down in the Tigers' seventh, whiffing Christensen and Larsen to leave two men stranded and kill the rally. Over the route, he struck out 11 men.

The Tigers play a return game in Trail next Tuesday while both teams will journey to Kettle Falls and Colville Sunday for a two-way doubleheader with the Washington teams. All will be exhibition games with league plans still indefinite.

Tennis Club Opening Sunday

Nelson Tennis Club will hold its official opening Sunday with a combined work party and open house session planned.

Two of the three courts are in good shape following several previous work parties and recent rains. The two courts have been rolled and smoothed and are now in shape for play while the third requires more touching up and will be worked on Sunday.

Also planned is a meeting to elect officers for the new season and the club looks for a good turnout of present and prospective members.

$30 Top Price for Robinson-Maxim Go

NEW YORK, May 15 (AP)—Promoter Jim Norris today set a top price of $30 for the light-heavyweight title bout between middleweight king Ray Robinson and the 175-pound champion Joey Maxim at Yankee Stadium, June 23.

Other reserved seats will sell for $5, $10, $15 and $20. Norris said it was the same price scale as for last year's Robinson-Randy Turpin bout which grossed $750,000.

Seats will go on sale May 23.

Youngster Tosses Perfect No-Hitter —Fans All 27

BRISTOL, Tenn., May 15 (AP)—The sensational pitching of rookie righthander Ron Necciai, coupled with the floundering of Pittsburgh Pirates, may land the 19-year-old strikeout artist in the big leagues quicker than he intended.

Necciai (pronounced netch-eye) has whiffed 77 batters in 31 innings in posting three straight victories for the Bristol Twins of the Class D Appalachian League.

His latest feat was 27-strikeout, no-hit 7-0 win over Welch, W. Va., in a nine-inning game Tuesday night. He faced 31 batters and allowed four to reach first base—one on a hit batsman, one on a walk, one on an error and the fourth on a strikeout pitch which got away from the catcher.

Necciai, a towering 185-pounder, is the property of the Pirates, now deep in the National League cellar.

Johnny Longden Achieves Goal

INGLEWOOD, Calif., May 15 (AP)—Jockey Johnny Longden rode his 4000th winner today, the second man in racing history to reach the mark.

The 42-year-old veteran of 25 years on the turf brought in Fleet Diver in the third race at Hollywood Park.

The other 4000-man is England's Gordon Richards, who rang up No. 4431 today.

Longden opened at Hollywood Park's new meeting Tuesday needing only three wins to reach 4000. He got only one that day, and one yesterday. The crowd gave Johnny a huge hand. All have been following his widely-publicized approach to the figure.

The track presented Longden with a large, solid silver English tea tray and a huge blanket of roses. This was the second floral offering. The first one withered away since Tuesday. Each cost $150.

DETROIT, May 15 (AP)—Detroit Tigers cut their roster to the major-league limit today by sending first baseman Ben Taylor, shortstop Alex Garbowski and pitcher Wayne McLeland to their Buffalo farm club in the International League.

Savoie, Brisebois Battle to Draw

MONTREAL, May 15 (CP)—Armand Savoie, Canadian lightweight boxing champion, and Rocky Brisebois fought to a 10-round draw in the main event of a boxing card here tonight. The title was not at stake in the all-Montreal bout.

Savoie weighed 137 and Brisebois 145.

Savoie, although under a weight disadvantage, finished strong to earn the draw after Brisebois had opened strong with heavy body blows.

Savoie had Brisebois through the ropes for an eight count in the second round and also had him in trouble in the fifth. But Brisebois weathered the storm.

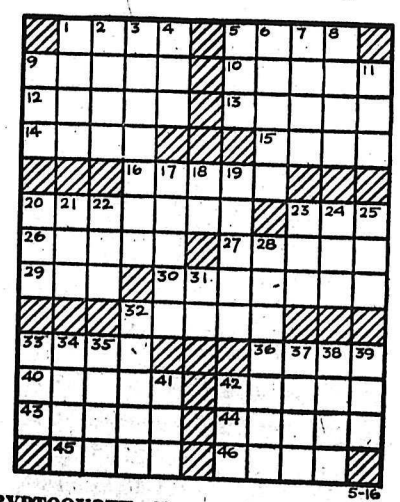
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is L for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

D C T V C J K O L N R D T N E K J C E L O V R P.
O K T P Q C H H C J O N R O B C Z — Z P J P K Q P S.

Yesterday's Cryptoquote: BUT WHEN TO MISCHIEF MORTALS BEND THEIR WILL, HOW SOON THEY FIND FIT INSTRUMENTS OF ILL!—POPE.

Market Trends

NEW YORK, May 15 (AP) — Stocks wavered uncertainly on the downside. Scattered gains were largely fractional but a few went up to around a point.

Volume was estimated at 1,000,000 shares.

Canadian issues were lower. McIntyre dropped 1½, Canadian Pacific fell ⅜, Hiram Walker lost ¼, International Nickel and Distillers Seagrams each slipped ⅛. Dome Mines remained unchanged.

On the curb, Royalite Oil was off ⅜, Lake Shore fell ¼, and Giant Yellowknife lost ⅛.

TORONTO (CP) — Prices drifted steadily lower toward the session's close.

Industrial dealings spread slightly from leading issues but few golds, metals or oils attracted speculative interest. Bristol Oil was an exception as it traded more than 100,000 shares. However, it made little headway. Volume for the session was about 2,100,000 shares.

MONTREAL (CP) — Prices drifted downward. Changes were limited to less than a point in either direction. Many issues traded at Wednesday's closing rates.

Senior metals, senior oils, steels, carriers, papers and miscellaneous industrials moved downward.

LONDON (Reuters) — Signs of deterioration were in evidence.

Most sections failed to encounter any extension of improved buying interest.

Gilt-edged stocks showed losses down to 3-16.

Calgary Livestock

CALGARY, May 15 (CP) — Trade was active on the Calgary livestock market today and prices were steady to higher. Receipts were light, 350 cattle and calves.

Light butcher steers and heifers, and fed calves, recovered most of Wednesday's losses. Heavy butcher steers were selling at support prices. Good light cows and bulls were fully steady, but heavy cows were discounted $3 to $4. Stocker and feeder steers were in good demand at steady prices. Veal calves were steady.

Hogs gained 15 cents Wednesday, to close at $24.25. Sows were steady at $12.

Good to choice light butcher steers 22.00-23.50; common to medium 17.00-21.50. Good to choice heavy butcher steers 22.50-25.00. Good to choice butcher heifers 21.00 22.50; common to medium 20.00-22.00. Good heavy cows, 1200 pounds and up, 10.00-12.00. Good light cows 14.50-15.50; common to medium 12.00 14.00; canners and cutters 9.00-11.50. Good bulls 14.50-15.50; common to medium 12.00-14.00. Good stocker and feeder steers 18.00-20.00; common to medium 14.00-17.50. Good to choice veal calves 25.00-28.00; common to medium 20.00-24.50.

NON-POLITICAL RAID

VICTORIA, May 15 (CP) — Social Credit party's headquarters here was broken into overnight, officials discovered today. About $20 in cash and a considerable quantity of stamps were stolen along with some official membership documents.

"The thieves apparently were financially, not politically minded," an official said. "They took the money but didn't touch our Social Credit literature. The pamphlets would have done them some good."

Increase for Road Workers Recommended

VANCOUVER, May 15 (CP) — Wage increases ranging from 16 to 35 cents an hour for employees in British Columbia road construction have been recommended in a conciliation board's unanimous report.

The board also recommended that Saturday afternoon and Sunday be treated as overtime, but it made no recommendation on the union demand for a 40-hour week.

The recommendation was made in a dispute between the Emil Anderson Construction Company and the International Union of Operating Engineers, Local 115 (A.F.L.), but any settlement will affect 400 men employed by 13 major B.C. road construction firms.

Union business agent Al Scott said a poll will be taken of union members. Operators will meet Tuesday to vote on the award.

Scott said the recommendations would wipe out coast and interior wage differentials for equipment operators. Rates now range between $1.30 and $1.80 an hour.

Tears, Idle Tears

LEWISTON, Idaho, May 15 (AP) —Everybody in the block cried when they got wind of what happened at the state liquor store here.

The manager of the store, Wade Keane, found an old tear gas bomb in the rear of the store.

Keane and his employees decided to destroy it on the sidewalk outside the store. A small rap with a hammer on the bomb's pin did the trick.

Then they all wept—Keane and his cohorts, the occupants of a hardware store, the liquor store, a nearby club, a barber shop, a cafe and even the students in a second floor business college.

DR. JAMES ENDICOTT, former United Church minister, is seen with his wife following their return from a visit to Communist China. Dr. Endicott has denied he implicated Canada in germ warfare alleged by him to be carried out by the United Nations against Red China mainline.—Central Press Canadian.

Metal Producer Pilots New Extraction Methods

NEW YORK, May 15 (AP)—New ways of extracting copper, nickel, cobalt and other important metals from ores by chemical rather than the usual smelting and refining methods were announced today by Chemical Construction Corp.

Maj.-Gen. William N. Porter, president, described the processes as "basically new and revolutionary" and said they are the result of seven years of research by the company, a subsidiary of American Cyanamid Co., and four years of research and pilot plant work by Sherritt Gordon Mines, Ltd., a Canadian nickel producer.

"Compared with conventional methods," he said, "our piloting experience has shown that production cost, from ore concentrates to pure metals, should be considerably below current costs."

Other savings may be achieved by trimming transportation and personnel costs and by reducing the time lag between mining and pure metal "from months to a matter of hours," he said.

Several applications of the new techniques already are scheduled for commercial use, Porter added, each of which required specific technical adaptation and pilot-scale data for engineering design.

"In collaboration with Sherritt Gordon Mines, a nickel-copper-cobalt process has been researched and piloted for that company's Lynn Lake (Northern Manitoba) properties," his announcement said. "Also, in view of the United States' urgent needs for cobalt, processes were tailored for the cobalt concentrates of Howe Sound Mining Co. and the National Lead Co."

Details of the development work have been carefully guarded by the sponsoring companies for years, and today's announcement described the new techniques only in general terms. It was clear, however, that the processes relied heavily on high pressures and on the action of chemicals on metals in solution.

An ammonia leach process developed by Sherritt Gordon will be combined with Chemico's nickel-reduction process at a $17,000,000 nickel refinery under construction for the nickel firm at Edmonton, to begin operation in the Fall of 1953.

Strike Threatens Grain Elevators

VANCOUVER, May 15 (CP) — Federal Labor Department officials are attempting to settle a dispute which is threatening a strike of 225 workers in five lower mainland grain elevators.

The workers have declared they will stop work at 8 a.m. Saturday unless granted demands for a 30-cent hourly pay increase and a 40-hour week.

A meeting between the union and officials of the elevators involved was called for today by federal labor relations investigator George Currie.

It is believed he may have a concrete proposal to bring a settlement in the dispute.

Shipyard Workers Reach Agreement

LONG BEACH, Calif., May 15 (AP)—A 15 cents an hour pay increase, effective July 1, was agreed upon today for 20,000 skilled Pacific coast shipyard workers at the close of the Pacific Coast Shipbuilding Conference.

Representatives of 14 American Federation of Labor unions asked a straight 25 cents an hour raise, but the 15-cent figure was reached after 10 days of negotiations.

READ THE PAPERS

BLANDFORD, Dorset, England, May 15 (Reuters) — An amnesia patient was given a newspaper to read in hospital yesterday. Suddenly he shouted for a nurse. "That's me," he cried and pointed to a news item reporting the disappearance of Harold Jarvis, 48. Police checked and found he was right.

U. K. Statesmen Not Photogenic

LONDON, May 15 (Reuters). — The problems of getting Britain's top statesmen to appear as such in newsreels—and not as escaped convicts or henpecked husbands—was bemoaned last night by a leading newsreel producer.

Clement Attlee, though cooperative, lacked that photogenic gift—"There was the poor little gentleman sitting there and all he could do was look very bewildered," British Pathe's Howard Thomas said at a banquet.

The irascible Winston Churchill, though oozing glamor from every pore, wouldn't hold still long enough to let the camera men put him in the best light.

And Hugh Gaitskell, former Labor treasury chief, was given up as a bad job. "He invariably looked like nothing so much as a refugee from Sing Sing," said Thomas.

Actress' Arrest Order Cancelled

LOS ANGELES, May 15 (CP) — An order for the arrest of Judy Garland was withdrawn today after she appeared in court—two hours late—and testified as to her financial arrangements with Sid Luft, her fiance and business advisor.

Superior Judge Louis H. Burge issued a bench warrant for Miss Garland's arrest after an attorney for Luft's ex-wife complained that she was behaving "like a Prima Donna."

Miss Garland was subpoenaed to testify in the suit of actress Lynn Bari, former wife of Luft, who is seeking more support for their son, John Michael Luft, 3.

Miss Garland explained she was not present when court opened because her attorney, Robert B. Agins, told her she need not appear until called by telephone.

LOWER BAMBOO CURTAIN

HONG KONG, May 15 (Reuters) —The Communists have lowered the bamboo curtain on Scotch whisky lovers, if there are any left in Communist China, it was disclosed today. J. F. MacGregor, chairman of the Calbeck MacGregor Company said his firm's Shanghai branch has not been allowed to import or sell—forcing Chinese tipplers to fall back on local versions of the foggy dew.

The term hurricane developed from the Portuguese description "huracan" applied to winds of more than 72 miles an hour.
