WEATHER FORECAST
KOOTENAY:
Cloudy. Little change in temperature. Wind light. Low and high at Cranbrook 17 and 35. Crescent Valley 25 and 38. Outlook for Sunday snow.

Snow, Wind, Sand Storms Take Toll

Winter's Blast Claims Three Lives In East; Chinook Raises Alta. Dust

TORONTO, Nov. 24 (CP)—Three persons were killed today as Ontario took the brunt of Winter's first big wallop.

Snow, ice, sleet and chill winds blew Eastward from the Rockies. The snowfall in some sections of Ontario was as much as 12 inches.

Two women were killed in a highway accident near Tillsonburg, and a workman was crushed to death when a truck skidded on an icy road near Kitchener. Scores of persons were injured—some severely, including three in Windsor, and two in Hamilton.

At Benton Harbor, Mich., three persons were killed when a light airplane crashed while trying to land during a snowstorm.

A Canadian Press survey showed Manitoba and Ontario in the grip of the storm. British Columbia, Southern Quebec and the Maritimes enjoyed comparatively mild weather, with rain or wet snow promised for B. C. and Quebec.

Oddly, warm chinook breezes pushed the mercury up in Alberta —but stirred dust storms.

Football enthusiasts, in Toronto for the Grey Cup final Saturday, took a dim view of the more than seven inches of snow in Toronto. Prospects for Saturday were a high temperature of 20 and more snow.

Provincial Police at Montreal reported finding an 82-year-old man suffering from exposure in a shack 40 miles North of the city. His legs were badly frozen.

The man, identified as J. Phillips, 82, died in a Montreal hospital later from gangrene and a lung condition.

In the Maritimes the weather remained clear with temperatures in the 30s. Outlook for Saturday was a high of 40.

SHIPPING DELAYED

Gales whipped the Great Lakes into a fury. Shipping at the head of the lakes raced for shelter or refused to battle the raging waters. Navigation was resumed late today at Sault Ste. Marie after many hours' delay. A foot of snow was reported there and at Kitchener, Ont.

Railways in Western Canada reported some delays because of snow-clogged lines but Ontario's trains were running on time. At Winnipeg a 20-minute street-car delay was caused when seven-below zero weather caused trolley lines to snap.

WINNIPEG, Nov. 24 (CP)— A weather hodgepodge of dust storms, a thaw, sub-zero temperatures, drifting snow and gales tonight left Western Canada's weather men a little groggy.

But they promised to get the flat, plains country back in the Winter groove tomorrow. Manitoba will be a bit more comfortable, though the temperature won't go above the freezing point. Elsewhere it will be cloudy and cold or very cold.

A weather mass is moving down from the Yukon where temperatures as low as 52 degrees below zero have been reported.

At the lakehead, a dozen freighters took refuge in Thunder Bay from one of the most severe storms of the season. Some ships were delayed for 24 hours by winds that reached 40 miles an hour. Almost six inches of snow fell in Port Arthur and Fort William.

MEDICINE HAT COVERED WITH SAND

A warm, 35-mile-an-hour chinook raised Southern Alberta's temperature 40 degrees through Thursday night—and covered Medicine Hat with a layer of dirty sand. Thousands of tons of dust blew from summer fallow and open fields Southwest of the city. It was 36 degrees there this morning.

Dust also swirled at Swift Current, Sask. Warm air poured Eastward from Alberta to Saskatchewan. Today temperatures were 20 degrees or more amove the Thursday level; but colder weather was due from the Northwest.

Some snow and blowing snow was expected .Saskatchewan highways were open today but side roads in many areas were blocked by drifts.

C... Removed From Mountainside

Part of the wreckage of the chartered Montreal airliner, "Canadian Pilgrim", that crashed on Mount Obiou, near Grenoble, France, while flying pilgrims, who had visited Rome for Holy Year, back to Canada.

U.N. Meeting Called On Formosa, Korea

NEW RED ARMIES SEE IN KOREA

Allies Continue Advance; Meet Up With Russian Tanks

TOKYO, Nov. 25 (Saturday) (AP) —United Nations forces, in a massive offensive to end the Korean conflict, Friday drove three tanked prongs to within 53 to 60 miles of the Manchurian border.

Enemy resistance was light in most instances but a communist counter-attack drove South Korean 1st Division elements back 1½ miles, said a dispatch from Korea. A 1st Corps spokesman at the front said "the situation was now under control."

Gen. MacArthur in a war summary Saturday said U.N. forces are advancing against light opposition. Notable gains Friday carried tanked United States troops into Chon-Ju, a vital highway hub in the Northwest.

Entry into Chonju was made by the U.S. 24th Division.

A U.S. Eighth Army spokesman said Saturday the 24th had destroyed a big Joseph Stalin Mark III tank in the first meeting in Korea with what is believed the heaviest and newest of Russian tanks.

Despite the light resistance, MacArthur, who flew behind enemy lines Friday, said "new Red armies"—apparently recent reinforcements—were deployed somewhere ahead of the advancing Allies.

As he left the front, the U.N. Military Chief told his Field Generals:

"Tell the boys when they reach the Yalu they are going home. I want to make good on mye statement that they are going to eat Christmas dinner at home."

It seemed doubtful, however, that many American troops could be moved back to the U.S. by Christmas this year, even if they started now.

In advances of up to eight miles on the Northwest front, the columns had not yet run into the new defence line believed thrown up by 100,000 Chinese and Red Koreans in the snow-clad hills.

The Allies had 100,000 men on the Northwest front for the drive that is pressing the enemy back toward the border.

Fewer than half the United Nations troops were in action. The rest were in reserve ready to exploit any breakthrough.

The U.S. Eighth Army sent one task force West to within 53 miles of Sinuijuk, bomb-shattered city on the Yalu River frontier. This force from the U.S. 24th division was clanking along the same road on which it penetrated to within 14 miles of the border four weeks ago.

The South Korean Division just to the East headed for the great Suiho power plant on the Yalu, about 60 miles North of its lead elements.

A third spearhead was aimed directly Northward on the road to Chosan, where the South Korean 6th Division reached the border last month and then retreated. This spearhead was made up of two U.S. 25th Division columns led by tanks.

Other eighth army forces thrust Northeastward in the Chongchon River Valley to protect the flank of the border-driving spearheads.

TAKE HILLS

On the Northeast front, South Korean troops seized hills over-looking the Port of Chongjin, 55 miles South of the Siberian-Korean border. However, two new Chinese Communist Divisions appeared on the Northeast front.

Unexpected Meeting Today Follows Chinese Red Delegation Arrival; Political Committee Invites Reds

LAKE SUCCESS, N. Y., Nov. 24 (AP) — The United Nations announced tonight that the Security Council will meet at 3 p.m., E.S.T., tomorrow, to take up both the Formosan and the Korean problems.

The meeting was called by Council President Ales Bebler, of Yugoslavia. It had previously been reported that the Council would not meet before next week.

Calling of the meeting was significant in view of the fact that a Chinese Communist delegation arrived in New York today and conferred with Secretary-General Trygve Lie.

The Chinese Communist Government had informed the U.N. that it would send a delegation to Lake Success to take part in discussion of the Formosan question but had rejected a Security Council invitation to take part in the discussion of Gen. Macarthur's charges of Chinese Communist intervention in Korea. The Chinese Communists, however, had insisted that the Korean and Formosan questions were linked together and had charged the United States with aggression against both territories.

U.N. officials were unable to say whether the listing of the two items on the agenda meant the questions would be discussed together as the Chinese Communists had requested or whether they were opening a way for a debate on Gen. Macarthur's charges.

The Chinese envoys told Trygve Lie they are ready to proceed at once with Red China's charges that the U.S. committed aggression against Formosa.

The Assembly's political committee, meanwhile, is starting discussion on similar charges, brought by Russia but first raised by Peiping.

The committee decided today to invite the Chinese Communists to take part in its discussion, but U.N. officials said new credentials will be needed if this delegation enters the committee debate.

The vote was 30 in favor of the invitation, eight opposed and 22 abstaining. Canada voted in favor. The United States abstained. Several delegates voting for the invitation served notice it did not constitute recognition.

MALIK ACCUSED

The committee adjourned until Monday before debating the charges. U.S. delegate John Foster Dulles accused Jakob Malik, Soviet Deputy Minister, of a trick in demanding an invitation for the Chinese Communists and then saying the committee would have to wait until Peiping arranged a delegation.

Dulles said the United States is not arguing with Communist China, which does not recognize and is prepared to debate only with the Soviet Union, which Malik is expected to lead off the sponsored the Peiping charges, verbal fireworks Monday.

Wu Hsiu-chuan, Chief of the Russian and Asian Division of the Chinese Communist Foreign Office, headed a group of four Chinese Reds closeted with Lie for 40 minutes. The five other members of the delegation rested after the long plane ride from Peiping.

Cranbrook to Vote on Parking Meters

CRANBROOK, B.C., Nov. 24 — Ratepayer vote some time next Summer will be taken on the controversial matter of parking meters in the business section of Cranbrook. The vote will follow a year's trial of the meters.

The city council has decided to take sidewalk meters out December 1 for the subsequent four months period, to facilitate regular cleanup of snow from curbs which continues through the Winter. They will be set up again for service April 1. This Winter suspension was part of the original agreement with the supplying company.

Breakdown of meter accounts for the first six months after installation in May shows total revenue from meters, loading zone and permit fees was $2673.03. Costs of preparing for metering and meterman's salary were $1019.49. A total of $1254 has been paid the meter company as its contract 75 per cent of revenue, and $345 has been the city's share.

Mining Prosperity May Top Records

VANCOUVER, Nov. 24 (CP) — Paced by the base metals boom, British Columbia's mining industry will end 1950 with an upsurge expected to top the previous year's total output of $133,000,000.

Revival of former operations and new development are boosting employment and payrolls, officials of British Columbia-Yukon Chamber of Mines said today.

They expect a year of sustained market demand and mineral development that may exceed any other year.

Old mining properties have been restaked, reverted Crown granted mineral claims have been picked up.

At least 12 new mills, big and little, are in operation, under construction or planned.

Among these are Silver Giant in the Golden area, Cork Province at Kaslo, Blue Bell Mine at Riondel, Violamac at New Denver; Yale Lead and Zinc at Ainsworth; Kootenay Belle at Retallack.

Estelle Mines near Cranbrook will be worked for the first time in 20 years with a mill of 150 or 200-ton capacity.

"HUMAN FAILURE" BLAMED FOR N.Y. TRAIN DISASTER

NEW YORK, Nov. 24 (AP)—Governor Thomas E. Dewey blamed "human failure" for the disastrous Thanksgiving Eve Long Island train wreck today as he summoned the railroad's trustees to a meeting.

Seventy-seven persons died in the crash—worst rail disaster in the United States in seven years.

Dewey summoned the two court-appointed trustees of the bankrupt road to meet with him and Mayor Vincent R. Impellitteri.

The wreck toll included 332 injured and police headquarters said 16 still are in critical condition. Fifty of the injured still are in hospital.

It was feared the death list might increase.

The Governor said findings so far indicated the express, which plowed into the rear of a stalled train, had passed through one warning signal and one stop signal at about 60 miles an hour.

The Governor and the State Public Service Commission opened one of a half-dozen investigations being made of the disaster.

11 States Shiver Under Cold Spell

CHICAGO, Nov. 24 (AP) — A cold wave, the worst of the season, spread across the Eastern two-thirds of the United States today and no real warmup is in sight.

The biting chill extended from the Rockies to the Atlantic states and Southward to the gulf. Heavy snow paralyzed traffic in some cities.

Eleven states in the Northern plains and Midwest had readings of zero or below.

Eastern seaboard states, from New York South, were warned to expect the coldest weather of the Fall during the weekend. Temperatures in some areas were expected to skid to five above zero.

The worst cold was in the Northern plains, but much of the Midwest had readings only a few degrees higher. Minimum temperatures included:

Chadron, Neb., -16; Minot, N.D., -13; Land O'Lakes, Wis., -15; South Bend, Ind., -4; Chicago, -2 and Peoria, Ill., -1.

Sub-zero readings also were recorded at stations in Montana, North Dakota, South Dakota, Minnesota, Michigan, Iowa and Missouri.

To Appeal Against B. C. Court Ruling

VANCOUVER, Nov. 24 (CP) — Special prosecutor Gilbert Hogg said today he will appeal to the Supreme Court of Canada against the ruling of the British Columbia Court of Appeal making inoperative the Habitual Offender's Act.

The B.C. Appeal Court made the ruling yesterday following discovery by Thomas Hurley, Vancouver lawyer, of a legal loophole in the legislation.

C.N.R. Suspends Two Railway Men

MONTREAL, Nov. 24 (CP) — A Canadian National Railways spokesman said here today that two railway workers have been "automatically suspended" as the result of the head-on collision of two trains at Canoe River, B.C., Tuesday.

The spokesman declined to reveal the names of the two men "because of possible legal action that might be taken against the Company". He explained that no charges had been laid against the men, and the suspension order was following "normal practice" in railway accidents.

Twenty persons were killed in the crash at the lonely mountainside stop, 312 miles West of Edmonto.

Regain Cattle Price Declines

OTTAWA, Nov. 24 (CP)— Cattle prices moved up 50 cents to $1 during the week at all centres except Toronto and fully regained the previous week's declines in which Toronto did not share, the Agricultural Department reported today in its weekly livestock review.

Volume of receipts was the smallest since early October with seasonal peak runs appearing to be about finished. Marketings were also affected to some extent in the West by colder weather.

Only minor changes occurred in calf prices and veals remained strong.

Toronto was on a basis of $29.50-$29.75, for Grade A hogs dressed and sold sows at $24 dressed, while Montreal was also about steady at $29.25 for Grade A, a few at $29.50, and sows $24-$25 dressed.

Toronto lamb prices gained 50 cents to close with good ewes and wethers $28-$28.50 and a few culls $23-$25.

Airlift to Fly Via Hawaii

McCHORD FIELD, Wash., Nov. 24 (CP) — The R.C.A.F. announced here tonight that the North Star airlift will fly to Korea by way of Hawaii starting next Friday.

Clan Tavish Chief Believed Found

WINNIPEG, Nov. 24 (CP)—The long-lost chief of the Clan Tavish may have been found.

That's the word of Winnipeg historian Mrs. A. N. MacLeod who said tonight she has written to the Lord Lyon of Scotland to confirm whether a Quebec man is the missing chief.

"I'm pretty sure he is," she said. She said she would not say at this time who the man is or where he lives in Quebec until the line of descent is confirmed.

Lay Keel for First Naval Escort Ship

MONTREAL, Nov. 24 (CP) — The keel for Canada's first naval escort ship was laid here today.

Trade Minister Howe officiated at the ceremony at Canadian Vickers Ltd., while other high-ranking government and naval officials looked on. The ceremony also marked the beginning of Canada's $71,000,000 naval shipbuilding program.

Aussie Dockers to Return to Work

MELBOURNE, Australia, Nov. 24 (Reuters — Dock workers at this big port, whose strike has held up all coastal and overseas shipping here for the last four days, today decided to return to work Monday.

In Sydney, the second major Australian port, dock workers were still on strike over a dispute on overtime pay.

VANCOUVER LAWYER TO C.B.C. GOVERNORS

OTTAWA, Nov. 24 (CP) — Ronald M. Howard, 39-year-old Vancouver lawyer, has been appointed by the Federal Government to the Board of Governors of the CBC, it was learned tonight.

He replaces Mrs. Mary Sutherland of Parksville, B.C., who resigned from the board recently when she was appointed manager of Station CHUB in Nanaimo, B.C.

Trophies for Wheat King

Ricky Sharpe, a... the youngest world champion in the history of the Royal Winter Fair wheat contests. He grew his own grain on his father's farm at Munson, Alta. These trophies went with the title: "King of Wheat." —Central Press Canadian.

Stock Market Tops 20-Year Peak

NEW YORK, Nov. 24 (AP) — In the face of heavy opposition the stock market climbed ... to a 20-year peak today.

Final prices showed gains running to around $1 a share ... most motor, chemical, ... and an assortment of lower ... issues did better than ... Aircrafts and steels, on the other hand, tended to drag.

Sales volume piled up to 2,220,000 shares.

Escapee Surrenders After Free ... Years

CALGARY, ... 24 (CP) — Cyril Hallan, alias ... Taylor, 39, who escaped from ... Ontario reformatory at Mimico ... while serving a sentence for armed robbery, has surrendered to police at Turner Valley.

He is being held pending arrival of an escort to return him to Ontario.

R.C.M.P. said they are at a loss to explain why Hallan gave himself up other than that he wished to return to his home in England ... could not travel under ...

RAILWAYS ASKED FOR FREIGHT RATE SPECIALS ON SHIPMENTS TO FAIRS

TORONTO, Nov. 24 (CP) — The Canadian Association of Exhibitions today asked Canada's railways to restore concessionary freight rates on cattle shipments to fairs and exhibitions.

Delegates from the Western provinces led the representations made to officials of both the Canadian National Railways and the Canadian Pacific Railway during the Association's annual meeting.

They said later that their request was favorably received but that any possible adjustment in rates would have to be approved first by the boards of both railways.

TO BE REGULAR SERVICE

VICTORIA, B.S., Nov. 24 (CP) — Jet-propelled transport aircraft, flying at 50,000 feet, will be in regular service within 18 months on trans-Pacific rotes out of Vancouver, Grant McConachie, President of Canadian Pacific Airlines, said today.

Mr. McConachie said this was the most favorable operating altitude for the jet transport planes on order in England. He was speaking at a ceremony aboard the ... weather ship St. Catharines ... will shortly be in action ... West coast.

Canada "Bitterly Hurt" Over British Newsprint Contracts

LONDON, Nov. 24 (CP)—Parliament was told today that Canadians were "bitterly hurt" by Britain's action in cancelling newsprint contracts this year.

"I would warn the House about this," said F. P. Bishop, Conservative Member. "They had reason to be hurt."

Thus, Bishop told the Commons, there should not be too much confidence in a possible approach to Canada to restore the supply lifeline.

Bishop spoke in a debate on a private Member's motion brought by Henry Price, Conservative. The motion, which called on the Government to take appropriate steps to increase raw materials for paper making, was carried without a division.

Harold Wilson, President of the Board of Trade, defended the Government's handling of the newsprint contracts with Canada. He also announced that British representatives now are in Ottawa trying to get contracts on a long term basis.

Wilson warned that if the voluntary system of priorities in the paper industry does not work, and that if the paper user is squeezed out, controls may be reinstituted.

(Because of the newsprint shortage, British newspapers have had to return to a wartime rationing system).

Beverly Baxter, Canadian-born Conservative member, pleaded with Government members to honor any future newsprint contracts with Canada.

Friday, 7.78.

Sunrise, Saturday 7:37 a.m., sunset, 4:21 p.m. P.S.T. at Nelson.

New R.C.M.P. Head Here

INSPECTOR J. B. HARRIS

. . . who has come to Nelson from Winnipeg to succeed Inspector R. S. Nelson as R.C.M.P. chief here. He has served 19 years with the force: two years in Winnipeg subdivision; two years previously as sub-divisional commander at North Battleford, Sask., and the year before with the Criminal Investigation Bureau at Ottawa. He went overseas with the R.C.M.P. during the Second World War, after eight years duty with various Ontario detachments. He was appointed a sub-inspector in 1946 and an inspector in 1948. He is married and has a three-year-old son.—Vogue photo.

200 Die in U. S. Holiday Accidents

CHICAGO, Nov. 24 (AP) — At least 200 persons — an all-time-record high — died in accidents in the United States during the Thanksgiving holiday Thursday.

To Pack Parachutes

OTTAWA, Nov. 24 (CP) — A new Canadian army ordnance depot, to be concerned for the time being at least only with the packing and maintenance of army parachutes, now is being organized at Shilo, Man., army headquarters announced tonight.

It will be known as No. 25 Central Ordnance Depot and will be commanded by Maj. R. N. Brooks, 36, of Ottawa, a paratrooper who served in Italy and at army headquarters as a staff officer.

PRICE SUPPORT FOR EGGS UNDER DISCUSSION

OTTAWA, Nov. 24 (CP) — An agricultural expert said today that the question of future price support for Canada's egg industry now is under Agriculture Department review and that a decision likely will be announced Nov. 30.

Two Survive Crash-Landing

CALGARY, Nov. 24 (CP) — An R.C.A.F. Harvard training plane crash-landed tonight at the Municipal Airport after missing a runway in a dense fog. The two occupants of the plane, both R.C.A.F. men, were not injured.

The aircraft was badly damaged.

The Air Force men were returning from a flight to Edmonton when the heavy ground fog rolled over the Calgary area, cutting visibility to near zero.

Pilot of the plane, belonging to the Calgary-based 403 Reserve Squadron, was FO. C. Ferris, D.F.C. His passenger was Flt. Lt. D. C. Bullock, D.F.C., Officer Commanding the R.C.A.F. recruiting centre here.

Fall, Death Result From Choking Fit

LONDON, Nov. 24 (Reuters) — A cup of coffee led to the death yesterday of Sir Frederick Bain, Deputy Chairman of the British Imperial Chemical Industries, it was disclosed at an inquest today.

One-armed Sir Frederick Bain, 61, was attending a dinner 10 days ago in honor of Lewis Douglas, retiring Untied States ambassador when he choked over his coffee.

He fell to the floor fracturing five ribs.

Cornorer C. W. Roberts said death was due to intestinal obstruction accelerated by the fall.

And in This Corner —

DUBLIN, Nov. 24 (AP) — James J. Delaney, 28, was ordered held for trial in district court today for kissing an angel.

A policeman said traffic was tied up when Delaney shinneyed up a monument and wrapped his arm around the unresponding figure of an angel.

He refused to come down and police had to break up the embrace.

"I didn't see any offence in kissing an angel," said Delaney, who admitted he had "taken a few beverages."

DAYTON, O., Nov. 24 (AP) — Five Dayton trash collectors received equal shares today in suburban Oakwood's "trash-pile treasure" of $7,220.

Judge Don. R. Thomas gave the five rubbish men the money they found in an Oakwood trash pile last February — a $1,444 Christmas present to each.

The men were making a routine collection of trash when they found the money.

The City of Oakwood laid legal claim to it to force a decision and Judge Thomas decided finders were keepers.

LONDON, Nov. 24 (AP) — Are you trying to quit smoking? Then be sure you have a pack of cigarets in your pocket.

The British Medical Journal offered this free advice today in its question-and-answer column.

Explaining that the first week of a smoking cure is the hardest, the Journal said:

"During this period some people find it helpful to carry a packet of cigarets about with them and to finger them from time to time.

"The presence of cigarets in the pocket has a quietening effect and may prevent the panicky rush to the nearest shop which often follows the realization that no cigarets are immediately to hand."

MEXICO, Mo., Nov. 24 (AP) — Why shoot quail when you can catch 'em?

William Davis says he caught one of the birds in flight last Saturday, just like baseball. Explained Davis:

"We were in pretty thick cover and this bird jumped up ahead of the dogs.

"I stood there watching it fly straight at me. I didn't want to shoot because the bird was low . . .

"Just as it came by my shoulder I stuck out one hand and . . . wham, the bird hit.

"I clamped down on it the way you do on a fast grounder. My hand was numb and the bird was out cold."

Movie Gossip—

Search for Equality With Men Mistaken, Says Italian Star

By BOB THOMAS

HOLLYWOOD, Nov. 24 (AP)—American women are on the wrong track in their search for equality with men, says Marina Berti, Italian glamor girl.

This observation came out when I asked the actress about the future. Here to play a role in "Up Front", she has been offered a seven-year contract if she will stay in Hollywood. She turned it down.

"My husband is more important than a contract," she explained. "His work is in Rome, so I must stay there with him."

Her husband is Claudio Gora, actor-director, and they have two children. Her movie caree ranks second to the family, she said, in contrast to some Hollywood stars.

"That's the way it is in Italy," she remarked. "The family is most important and the man is the head of the family. From what I have seen here, American women don't believe that. They seem to want to be equal. I think they will only make themselves unhappy because of that."

WASH DISHES?

Miss Berti was astonished to learn that American husbands have to help wash the dishes. And that some of them even help with the cooking and housework.

"The Italian husband never enters the kitchen," she said.

The subordination of the wife does not mean that families have no arguments.

"Fights add the spice to marriage," she said. "No one is perfect and when youth fight, you work out your differences and learn to live with each other. You are more in love when you make up after a fight."

Strengthen West Europe Defence

FRANKFURT, Germany, Nov. 24 (CP)—British and American military men moved today to strengthen West Europe's defences amid Allied and German political wrangling over West German participation.

These developments highlighted the row over defence plans:

At Heidelberg, American troops in Europe were put on a combat basis.

In the British zone, authorities announced two new airfields are to be built West of the Rhine River near the Dutch border and a new Belgian division is being assigned to Germany.

In Berlin, 300 more U. S. Infantrymen arrived to bolster the Soviet-surrounded garrison.

In Bonn, Chancellor Konrad Adenauer was reported to have told the Allies privately they have only themselves to blame for German disunity on rearmament. Later a Government memorandum to the Western Allies said West Germany was ready to contribute a contingent to an international West European army.

In Kiel, U. S. High Commissioner John J. McCloy told the Germans the United States is making tremendous sacrifices, that Germany must face the defence issue and "no one can preserve your freedoms for you."

In Bavaria, Socialists campaigning for the State Parliament on an anti-rearmament platform put on a closing drive of a type similar to those they staged in winning victories in Hesse and Wurttemberg-baden last Sunday.

These events developed as the European Consultative Assembly —the Lower House of the Council of Europe—considered at Strasbourg, France, a resolution providing for a European Army, including German units, linked to the North Atlantic Treaty powers.

Trail Mountie to G. Forks for Month

TRAIL, B.C., Nov. 25 — Corporal F. H. Steele of the R.C.M.P. detachment in Trail left Thursday for Grand Forks where he will relieve a member of that detachment who is taking a special training course.

Cpl. Steele served with the old city force, and the B.C. police before the R.C.M.P. took over. He is expected to return in about a month.

The Weather

SYNOPSIS:

An extensive mass of very cold air is still well entrenched over Alaska and the extreme Northern portions of B. C. However, a series of weather disturbances moving across B. C. from the Pacific is keeping the cold air confined to its present location and giving mild weather to the major portion of B. C.

Rain is expected along the coast with cloudy skies and some showers for the Interior.

GERMAN PART IN JOINT DEFENCE FORCE CALLED

STRASBOURG, France, Nov. 24 (AP)—The European Consultative Assembly tonight called for German membership in a joint defence force under a permanent European security organization.

The assembly adopted a resolution recommending a European army linked with the North Atlantic treaty powers. The vote was 83 to 7 with 19 abstentions.

Count 76 Dead

NEW YORK, Nov. 24 (AP) — New York City has counted 76 dead and 333 injured in the Long Island railroad's Thanksgiving eve crash—one of the bloodiest in the nation's history.

Even before the last of the wreckage of the two passenger-jammed commuter trains was cleared and mangled bodies removed a public outcry demanded investigation and drastic remedy.

Slocan Students Enter New School Monday

High school students from South Slocan and up the Slocan Valley to Vallican will be attending school in a brand new building from next Monday on.

The school is the new $34,680 construction at the Slocan Highway junction.

The two-classroom high school has not yet been completed and work is still going on. However, beginning Monday, some 41 students from South Slocan and the valley will occupy its classrooms.

Electrical, plumbing and heating equipment has been installed in such a way that additional rooms may be added without additional installations.

Work on the structure began last July. It is one of three new schools in the valley. Others are under construction at Slocan City and New Denver.

The school will house students of grades 7, 8 and 9 and next year will include grade 10. The following two years grades 11 and 12 will be added.

At present many of the high school students are transported to classes in Nelson and will continue to come here until the close of the term.

The interior of the building has been attractively painted while the exterior will be finished with stucco

It is expected that the official opening of the school will not be held until early next year when, it is hoped ,the Slocan City and New Denver schools may also be officially opened by Hon. W. T. Straith Minister of Education for B.C.

Music Festival At Trail in April

The Kootenay Music Festival committee Friday announced that the 18th annual festival for the district will be held in Trail April 17 to the 21.

John Clements, F.R.C.O., of London, England, and Filmer E. Hubble, A.C.C.O., of Winnipeg, will judge the instrumental and vocal classes.

Mrs. Dorothy Dunbar, L.T.C.L., of Victoria, will adjudicate the elocution classes and Edwin S. Henderson of Spokane the folk dancing.

Official accompanist for the five-day festival will be Mr. Lindsay Cross of Trail.

Mr. Hubble has travelled around the world extensively as a music adjudicator. A widely-known Canadian adjudicator, he officiated at the festival held here in 1948.

Mrs. Dunbar judged elocution classes at the festival in Nelson last Summer and Mr. Henderson visited Trail this year with a group of Spokane dancers.

Vie for Football Hall of Fame

By JACK SULLIVAN
Canadian Press Staff Writer

A Canadian football Hall of Fame, a permanent shrine to honor the immortals of the gridiron and officials associated with its development, may became a reality in 1951.

Football officials, queried by the Canadian Press on their views about formation of such a memorial, generally favored the idea.

"It is a wonderful idea and it would be an honor and a tribute to the great players of the game and to the people who have fostered it through the years," Eric Cradock of Toronto, President of the Interprovincial Union, said.

Cradock added he would recommend formation of the Hall of Fame to the Canadian Rugby Union Board of Governors at the C.R.U. annual meeting next February.

Trail Curling

TRAIL, B. C., Nov. 24— Results of Friday night's games in the Trail Curling Club's Crown Point Competition follow:

Stan Gray 9, R. Robb 12.
C. D. Stuart 6, R. P. Dockerill 9.

NANAIMO 5 VERNON 4

VERNON, B.C., Nov. 24 — Nanaimo Clippers downed Vernon Canadians 5-4 here tonight in an Mainline Okanagan Amateur Hockey League Game.

Summaries:

First period—1. eVrnon, Rittson (Turner) 7:30; 2. eVrnon, Davison 19:25; 3. Nanaimo, Petrovick (Ohara, Rucks) 15:32.

Penalties—McKay, Shamlock.

Second period—4. Nanaimo, Petrovick (Rucks) 9:50; 5. Nanaimo, Warwick (Gordeau) 11:06.

Penalties — Carr, Clovechak, Lundmark.

Third period—6. Vernon, Jakes (Lucchini, Rittson) 13:07; 7. Nanaimo, Lundmark 15:14; 8. Nanaimo, Colley (Warwick) 19:38; 9. Vernon, Rittson (Stecyk, Jakes) 19:57.

Penalty—Holmes.

Mining Men Meet Tonight

A get-together dinner for mine operators and miners of this district sponsored by the Chamber of Mines of Eastern British Columbia, will be held tonight in the Hume Motel.

Among speakers will be Sydney Norman, mining journalist, W. G. Jewitt, manager of the mines department of the Consolidated Mining and Smelting Company of Canada Ltd., at Trail, and R. O. Oscarson, secretary-manager of the Northwest Mining Association of Spokane.

The dinner, designed to foster good relations between employers and employees, will bring operators and miners from the Slocan, Salmo, Sheep Creek, Remac and the Pend D'reille.

Advance ticket sales are going well, Frank Pennoyer, Chamber of Mines secretary, said Friday.

Jr. Eagles Enjoy Oldtime Dancing

Members of the Junior Eagles Club swung their partners to the tune of familiar oldtime melodies in the Eagle hall Friday night during one of their semi monthly get-togethers.

Supervised by Eagles Lodge members, the teenagers turned out in large numbers for the square dancing sessions.

Winner of the door prize was Miss Pauline Chernenko.

Johnny Evans Most Valuable Player

TORONTO, Nov. 24 (CP)—Johnny Evans, 23-year-old middle for the University of Toronto Blues has been awarded the Johnny Copp Memorial trophy as the most valuable player to the Intercollegiate Senior Football Union Club for 1950

Claxton in L.A.

LOS ANGELES, Nov. 24 (CP)—Brooke Claxton, Canada's Minister of National Defence, arrived here today on an inspection trip connected with the integrated North American defence plan of Canada and the United States.

LAVENHAM, Suffolk, England (CP)—Dairy farmer R. H. Knox decided to move from his farm in Scotland because it rained so much there. When he got here it was pouring.

Found Guilty Of Bayonne Equipment Theft

John L. Thomas of Sheep Creek and Alexander Rollick of Nelson and Salmo were found guilty of theft by a Supreme Court jury Friday in Nelson.

In announcing its decision the jury added a recommendation for leniency in the sentence of Thomas.

The men had been charged jointly with stealing a quantity of tools and equipment from the Bayonne Consolidated Mining Company between October 3 and 16 of this year.

Sentence was remanded to the end of the Assizes by Mr. Justice John V. Clyne following a request by Defence Counsel A. G. Cameron to present character witnesses on behalf of the accused.

W. W. Ferguson of Nelson appeared on behalf of the Crown.

Ten witnesses were called during the trial, five appearing for each of the Crown and the Defence.

First witness called by the Crown was Constable Robert Kidd of the R.C.M.P. Nelson detachment. He reported proceeding to a cabin at Tye, 47 miles East of Nelson, on October 11 and arresting the accused following a request for an investigation from Howard Moore, representative for the Bayonne Mine.

The mine is about 23 miles Southwest of Tye.

Constable Kidd testified to finding two large packing cases containing an assortment of heavy tools and machinery in the possession of the accused. This was identified by Mr. Moore, who accompanied the Constable, as belonging to the Bayonne Company.

Both Thomas and Rollick admitted to having brought the equipment down to the Tye cabin from the mine, but solely for the purpose of buying it, they testified.

Testimony offered by the defence was that both men had discussed the purchase of this equipment during the Summer while they had been working at the mine.

Further evidence offered was that both the accused had discussed the buying of the equipment with Mr. Moore early in the Summer when the latter had been visiting the mine. They said they had been told to take what they wanted down to Tye for his appraisal when snow forced the closing of the mine.

Moore denied knowledge of any such conversations and also produced a telegram sent to the leasers which stated that none of the mining equipment was for sale.

Both Rollick and Thomas testified that they had not seen the telegram.

Other leasers, James Gibbs, Reginald Lefevre and Frank Latoria, admitted to having seen the telegram but all said they had no knowledge of either of the accused's intention to buy any equipment.

John Thomas testified that he "thought he had permission to buy the stuff," and also that he had done a lot of work for Moore for which he had not been paid.

"I thought I could take some equipment as pay," Thomas said.

Other witnesses appearing on behalf of the defence were Mrs. John Thomas, wife of the accused, their daughter Edith, and son John.

All testified that discussions about purchasing the equipment by the accused had been "common talk around the mine."

Upon receipt of the jury's decision following an hour's deliberation, Mr. Justice Clyne said he agreed with the verdict, adding that "you have taken the proper course in the recommendation you have made for leniency on behalf of Thomas."

The case was the last of three criminal cases brought to a hearing at the present Assizes.

Court was adjourned at noon Friday until early next week when several civil suits and divorce actions will be heard by Mr. Justice Clyne.

Those serving on the jury for the final criminal trial were Arthur Reid, foreman; Gerald Gullivan, D'Arcy Hughes, Joseph Francella, Stewart Grant, Jack Causey, Joseph Brown, Henry Gay, Robert Gardner, D. D. Burns, Reuben Buerge and Eugene Nadeau.

DEATHS

By The Canadian Press

NORTH BAY, Ont.—Arthur Morley Fellman, 66, pianist, organist and choirmaster.

ST. AUGUSTIN, Fla.—Robert K. Boyt, 102, Confederate Army veteran.

LEMMON, S.D.,—John Franklin Waggoner, 92, Old West rancher and soldier, maker of Chief Sitting Bull's coffin after the Sioux Medicine Man was slain by Indian police.

LONDON — Sir Frederick Bain, 61, top-ranking British industrialist and joint-chairman of the Anglo-American Council of Productivity.

TORONTO—James Duke Lyness, an inspector with the Bank of Nova Scotia.

FOLKESTONE, England (CP)—Schoolboy Alan Taylor did so well on Saturday and Sunday in a three-day fishing contest that school officials were persuaded to let him have Monday off too.

Drought Adds To Tito's Worries

(Editor's note: Premier Tito, symbol of the break in the chain of Communist solidarity, stands at a crossroads today. With Yugoslavia suffering from the worst drought in her history, the big question today is: can Tito hold out against his economic troubles and the heavy pressure of Soviet Russia?

(In this exclusive interview, veteran AP Correspondent Alex H. Singleton probes into Tito's views of his own position and his prospects for the future.)

By ALEX H. SINGLETON

BELGRADE, Nov. 24 (AP) — **Premier Josip Broz Tito said Yugoslavia never will be conquered "except over the dead bodies of its people." He asserted that "if our independence is threatened even more" by the Russian-led Cominform countries "we shall buy arms from the West.'**

In an interview with the Associated Press, Tito expressed his appreciation for prospective American aid, but said he hopes it will come soon to relieve the hunger resulting from one of the worst droughts in the country's history.

Dapper in a light-grey pannel suit, Tito showed no signs of worry over the possibility that Russia or the Cominform countries under Satellite control will invade this country soon.

At no point did he show any sign of retreat from his opposition that Yugoslavia must be regarded as an "equal partner" in any relations either with the East or West on political or economic questions.

While he talked, Tito chain-smoked from a small pipe holding a home grown cigaret. He discussed frankly Yugoslavia's current situation.

MEASURES TAKEN

Some questions and answers follow:

Q. How much does the country need in addition to the $105,000,000 worth of foodstuffs requested from the United States?

A. Of course, the $105,000,000 cannot make up for everything we lost in this year's harvest, but the application of measures we have undertaken, like economy drives and reducing supplies, will make it possible for us to get through this period until the next harvest, although not easily.

Q. There has been considerable speculation in the United States Congress over what would happen in the event of a Russian attack upon Yugoslavia. I would appreciate your views as an expert in dealing with a somewhat comparable situation during the Second World War.

A. When talking about an attack no country, of course, would allow itself to be attacked willingly. It is a well-known fact that the Yugoslav people have, in the past, put a high value on their independence and that they have endured the greatest sacrifices in order to preserve it. If attack comes our people would know how to defend themselves . . .

Q. In the event of a Cominform attack, what steps would Yugoslavia take? Would the Government invite United Nations intervention?

A. That is understood.

Q. If Russia would now approach you and offer 'equal rights', would you consider a rapprochement?

A. We could not reject it if the Russians were to offer at least bearable relations such as they have with other countries.

Among Nobel Winners

Two American doctors and a Swiss professor were awarded the Nobel Prize for Physiology and Medicine in Stockholm. The joint award went to Dr. Philip S. Hench, above, and Dr. Edward C. Kendall, both of Rochester, Minn., and Professor Tadeus Reichstein of Sitwerzland. On Sept. 20, 1948, a team of medical research workers, headed by Dr. Hench, made a dramatic test on a woman suffering from rheumatoid arthritis that may go down in medical history. They used cortisone by injection, and after eight days the sufferer appeared greatly improved.

Big Four All-Stars

By JACK SULLIVAN
Canadian Press Staff Writer

TORONTO, Nov. 24 (CP) — The all-round power of the inter-provincial football union and the increasingly-dominant role American imports are playing in the Canadian game is apparent with announcement tonight of the 1950 all-Eastern team. It is an exact duplicate of the big four all-stars.

Writers and coaches from the big four, intercollegiate and Ontario Rugby Football Union cities, who selected the team and a second-string line-up for the Canadian Press voted 11 Americans and one Canadian to the 12 starting berths. In addition seven other imports were called for the second team, a blend of players from the three senior leagues.

Here are the two mythical teams:

FIRST TEAM:

Rod Pantages, Alouettes, flying wing; Bill Gregus, Tiger-Cats, half; Ulysses Curtis, Argos, half; Edgar Jones, Tiger-Cats, half (sec.); Frank Filchock, Alouettes, quarter; Ed (Buckets) Tirsch, Argos, snap; Ray Cicia, Alouettes, inside; Vince Scott, Tiger-Cats, inside; Herb Trawick, Alouettes, middle; Ralph Sazio, Tiger-Cats, outside; Bill Stanton, Riders, outside.

SECOND TEAM

Johnny Chorostecki, Sarnia, flying wing; Carl Galbreath, Balmy Beach, half; Virgil Wagner, Alouettes, half (sec.); Al Dekdebrun, Argos, quarter; Dwight Follin, Balmy Beach, snap; Bruce Matingley, Sarnia, inside; Jack Carpenter, Tiger-Cats and Fred Black, Argos, inside; Oatten Fisher, Balmy Beach, middle; Jack Kerns, Argos, middle; Ralph Toohy, Alouettes, outside; Keith Fisher, Sarnia, outside.

Lanky Bob McFarlane, University of Western Ontario Mustangs halfback who led the intercollegiate union in scoring this season, was the only collegian to make the second-string squad. Last year, three of the intercollegiate players gained berths.

Extension 'Phones Now Available In Limited Quantity

The Telephone Company is once again installing extension telephones, but the number of telephones available for this purpose is limited.

Subscribers who wish to obtain extension telephones are asked to notify the Telephone Company business office now, and the work will be done as soon as possible.

As there are still many people without telephone service of any kind, those waiting may wonder why we are able to install extension telephones at this time.

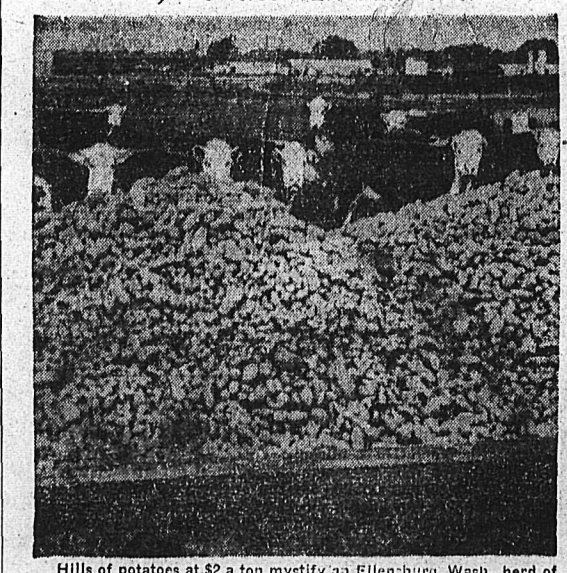
The answer is that telephone instruments alone will not provide new main service. It also depends on central office equipment and cable. Right now we are able to obtain telephone instruments faster than we can add cable and central office equipment. This makes it possible for us to divert some instruments for use as extensions.

Installing an extension telephone simply means connecting an extra telephone instrument to a subscriber's existing line.

The providing of main service continues to be our principal concern.

BRITISH COLUMBIA TELEPHONE COMPANY

Fodder, Fodder All Around . . .



Hills of potatoes at $2 a ton mystify an Ellensburg, Wash., herd of Hereford steers, who can't get used to having their spuds dyed blue. Ranchers pay that price to the Government for fodder spuds, dyed blue to prevent resale.—Central Press Canadian.

Wide Margin of Disagreement Continues in Constitutional Talks

OTTAWA, Nov. 24 (CP) — The day appears to be still some distance away when the federal and provincial governments will agree on a formula for amending the Canadian constitution without a reference to the United Kingdom parliament.

A committee composed of Justice Minister Garson and the attorneys-general of the provinces tonight ended two days of discussions on possible amending formulae. While some progress was made, the margin of disagreement still is fairly wide.

The committee met privately behind closed doors and little information was issued. But delegates in brief talks with newspaper men gave some indications of what went on and what difficulties were met.

A report of the work of the committee, established last January when the federal and provincial governments started their constitutional discussions, will be prepared. It will be submitted to the heads of the 11 governments when another plenary session of the constitutional conference is held next month following the federal-provincial conference on fiscal and other matters.

None of the delegates appeared surprised that this second series of meetings of the committee ended without full agreement being reached. They stressed the complexity of their task and said it was not the type of work that could be rushed. Good relations among all governments prevailed through the discussions.

Explaining Secretive Atom to Puzzled Layman Not So Simple

By DOUGLAS HOW
Canadian Press Staff Writer

OTTAWA, Nov. 24 (CP) — Dear Boss: You're a tough guy, Boss, wanting an explanation of this latest declassification of atomic information in terms the layman can understand. Naive, too.

Don't you know, Boss, that the layman has been getting mentally cross-eyed for five years trying to get down to friendly terms with the atom? It's like trying to understand women.

Well, this new announcement of declassification of dope about how to build low-power research reactors isn't going to make it any easier for him. But, like you suggested, Boss, we called an atomic expert and threw some of his own sentences back at him and asked him to come clean, to make it plain and simple.

We picked up the announcement and read paragraphs at him:

"Of most general interest is the fact that the low-energy thermal neutrons are captured in appreciable quantities by U235 without causing fission. A significant fraction of all thermal neutrons colliding with U235 are captured to form U236. Engineers designing uranium reactors must keep this fact in mind since those captured neutrons are not available to continue the chain reaction."

"Well," said the atomic expert, "this is about highly-technical information largely of use for advanced courses in reactor physics. We've tried to explain it as simply and broadly as possible."

ATOMIC KNOTS

That nearly did it, Boss, but we lured that expert into deeper ground and tied ourselves into atomic knots, and this is the way he said it is:

Thermal neutrons are slow research neutrons as contrasted to fast neutrons used in the bomb. They are the nuclear bullets used to split the atom, that is to cause fission by exploding the nucleus of an atom of Uranium 235 in two.

In this energy-releasing process of splitting or fission, more neutrons are turned loose, and they in turn attack more atoms of U235 and split them. This is the chain reaction. It takes place inside a reactor.

Now, before this it was assumed that all those neutrons turned loose went right to work and split more atoms. Now the scientists know they don't. Some turn U235 into U236, which isn't any good in the atomic process. So they're lost.

The expert says they're not greatly worried because while this is going on some of the atoms of another form of uranium, U238, are getting mixed up with some of the neutrons and that produces plutonium, and plutonium is just as good as the original U235 for fission.

He says they just figured anyone interested in how a reactor works ought to know that this is so, and that the scientific details will soon be published.

After this explanation, Boss, we know you can hardly wait.

The OLD MASTER PAINTER says...

FRESH, COLORFUL PAINT MAKES CHRISTMAS BRIGHTER

To help the traditional life and gaiety of the Christmas season, smarten up your home with fresh colorful paint. Walls and woodwork newly finished in properly blending tones can add a feeling of warmth and charm well worth the slight cost.

If you are uncertain about the best color combinations, see your paint dealer who will help you with suggestions. He will show you, for instance, how to use the modern scheme of deep tones with color accents . . . how, in fact, colors can be combined to give any desired effect.

If you prefer to have the work done for you, call in your painter and decorator for advice and service.

Sawmills Complete Successful Season

CRANBROOK, B. C., Nov. 24 — Completing seven months of successful operations this year, Cranbrook Sawmills Ltd. stationary mill closed down recently for the Winter. At its Cranbrook plant the planer and greenchain will continue to operate throughout the Winter.

Some of the laid-off mill employees were transferred to the Gold Creek Logging Company camp 24 miles East of Cranbrook where a second portable mill was recently set up to keep the Cranbrook planer supplied.

Allan Verch, formerly in charge of the Cranbrook plant, has been transferred by the company to the former Alton sawmill and planer plant at Parson in the Columbia Valley which was recently bought by Cranbrook Sawmills Ltd. H. C. Falconer is in charge of the Cranbrook plant.

IRISH CLERGYMAN HUMBLY APOLOGIZES

LONDON, Nov. 24 (Reuters)—The House of Commons today found Edmund Warnock, Northern Ireland Attorney-General, guilty of a breach of Parliamentary privilege—an offence which could involve a jail sentence.

But the House accepted a cabled apology and decided against further action.

Warnock had called the disqualification of a Northern Irish clergyman from sitting in the Commons a "dirty political trick."

You, too, like thousands of other young fathers, can provide for your children's start in life by setting up for them our popular "5,000 Series" Security Plan; for a cost as little as $1.00 a week . . .

Grand Forks Grower Is Again B. C. Potato King

British Columbia's potato king for 1950 is a farmer from Grand Forks.

Pieter Tjebbes won the coveted Green Valley challenger trophy and a cash prize of $150 as grand championship award at the tenth annual B.C. Coast Vegetable Marketing Board's show in Vancouver.

The 40-year-old Hollander, who came to Canada in 1926, nosed out all competitors with the exception al quality of his exhibit and high field ratings obtained during the year.

In announcing the award, Seed Potato Inspector H. S. McLeod noted that the top five places went to growers whose crops averaged more than 24 tons to the acre.

"This indicates how close the competition was," said Mrs. McLeod. "In dry matter content, the winning potatoes ranged from 21.2 for the highest to 19.3 for the lowest in the first seven,"

Tjebbes' farm is located in the high Sunshine Valley, two miles from Grand Forks. Much of his success is credited to dry climate and regulated irrigation. However, he admits that with proper selection of seed and the correct use of fertilizers, good potatoes can be grown anywhere.

Winning top award is no new experience for the potato grower from Holland. In 1946, he won the championship yield award for B.C. with an average of 28.2 tons and in 1947, the reserve championship for late varieties in the Toronto Fair. In 1948 he won the B.C. potato king prize, a feat which he repeated this year with an average of 24.12 tons per acre.

Second prize of $75 went to A. C. Gilmore of Richmond, and third place winner of $50 was H. R. May, also of Richmond.

PETER TJEBBES

PEACE AT MANCHURIAN BORDER WILL ELIMINATE DANGER OF GREATER WAR

By DEWITT MACKENZIE
Associated Press News Analyst

We are told that the great offensive launched by Gen. MacArthur with United Nations forces in Northwest Korea is aimed at ending the war.

Achievement of that goal would in itself be a wonderful Christmas present for a war-weary world. But it strikes me that a quick victory might have a result even more important.

If the final phase of the conflict can be confined to Korean territory South of the Manchurian border, it might eliminate the danger of war between Communist China and the United States. This would be on the basis of convincing a suspicious China that the U.S. has no designs on Manchuria.

One of the gravest developments which could grow out of the Korean upheaval would be war between China and the United States, which doesn't want and couldn't afford such a development. A military victory still would leave her with a political black eye in Asia, and thus she would lose even if she won.

However, Washington officials have indicated that they are ready to "talk turkey" with the Chinese Communists, and might even bargain. It is possible, for instance, that buffer zones on both sides of the Korean-Manchurian border might be arranged.

China has kept her designs much to herself, but there is no indication that she wants an all-out war with the United States. Without doubt she is working in partnership with Moscow, but there is a real doubt whether Gen. Mao, the Red Chinese leader, would allow himself to be pushed into a major war which he didn't want.

U. S. Subsidy Hurts B. C. Fruit Growers

VANCOUVER, Nov. 24 (CP) — Subsidies paid by the United States Government to its apple growers for exports, and heavy freight rates are termed by A. L. Loyd "the most formidable obstacles to progress of the industry in British Columbia."

Mr. Loyd, General Manager of B.C. Tree Fruits, Limited, a grower-owned selling agency, said:

"For the past two years the United States has paid its producers a subsidy of $1.25 a box on apples and some varieties of pears exported.

"Such a subsidy is beyond competition and has the effect of sealing us off from dollar markets, developed by ourselves, which are anxious to get our product."

Dress Up With Marian Martin

Nestiuk Verdict Accidental Death

NATAL, B. C., Nov. 24—The inquest covering the death of Andrew Nestiuk, general laborer of Michel, B. C., who was fatally injured at the by-product coke ovens Nov. 19, was held at the Ungaro Hall. Witnesses who gave evidence included Dr. L. R. Amundsen, Celester DePaoli, who drew a plan of the scene of the accident and by-product plant foremen Jack Paul and Grayson Commons.

The verdict brought in by the jury was that Andrew Nestiuk came to his death Nov. 19 by falling from the top of a loaded coke car while in the act of extinguishing a fire at the coke oven storage track, falling on his head. Fracture of the skull caused instantaneous death.

No blame was attached to anyone, death being accidental.

Coroner L. F. Cheston of Natal presided at the inquest, while the jury consisted of Foreman H. C. Beard, W. Rothel, A. Lees, L. Ungaro, P. J. Chala and H. Cameron.

Two Natal Families Leave the District

NATAL, B. C., Nov. 24—Since the first of the month a change in business at Natal took place, when the Union Meat Market changed ownership, with the joint partnership of Andrew Krall and Neilo "Red" Quorin of Natal taking over from J. Smolek, who has left for the Interior of B. C. The new Union Meat Market owners are well known Natal-Michel boys, taking a first try in business. Both were members of last year's Red Sox Baseball Club.

In the meantime the radio shop situated next to the Natal Post Office has been vacated by Fred Keeling, who has left with his family for Calgary. Since coming out of the Air Force after the last war, Mr. Keeling has done considerable jobs in his shop besides radio work. It is hoped that he will succeed in his new endeavors.

ARMED SERVICE PAY RATE DISCUSSED

FORT LEWIS, Wash., Nov. 24 (CP) — Defence Minister Brooke Claxton said today new rates of armed services pay are "under active consideration" at Canadian Army Headquarters in Ottawa.

Power for Slocan Liberal Topic Delegates Report

NEW DENVER, B. C., Nov. 24 — Power for the Arrow Lakes-Slocan areas and expedition of the provincial highway program were dealt with by the British Columbia Liberal Association meeting at Vancouver, Slocan delegates reported on their return.

Thomas M. Leask of Silverton and James Draper of New Denver attended.

One resolution asked that the B. C. Power Commission be urged to reconsider its policy of transporting power out of the Arrow Lakes-Slocan areas without first supplying the needs of these areas themselves. Upon completion of the Whatshan power project at Needles the B. C. Utilities Commission plans to serve Okanagan centers with additional electricity.

Another resolution asked the Provincial Government to expedite completion of the main highway program and to make better provision for improvement and maintenance of the secondary and lateral roads throughout the province.

Popular Bank Member Leaves Cranbrook

CRANBROOK, B. C., Nov. 24 — Member of the Royal Bank staff here since 1936, R. P. Owen, accountant, has been transferred to the main branch in Vancouver. Mrs. Owen and their three children will join him there soon.

He came here in 1936 as teller, and joined the Army in 1940. Following four years overseas service he returned to the Cranbrook branch as accountant in 1946. He is a long-time Gyro, serving as an officer, and was also Treasurer of the Empire Day Committee and a member of the Canadian Legion.

Succeeding him here as accountant is Neil Miller, formerly assistant accountant here. George Scott has been transferred to the Cranbrook branch from Barons, Alta., to be assistant.

TAIPEI, Formosa, Nov. 24 (AP) —The Chinese Nationalists said today they smashed a huge Communist underground ring in Formosa in June. They said the leader was Lo Yao-wen, 28, member of the Defence Ministry's Political Warfare Board. Others named included top-ranking Army and Foreign Office officials.

France Offers To Merge With German Army Units

By PHILIP CLARKE

STRASBOURG, France, Nov. 24 (AP)—France today offered to merge her army in a supra-national European defence organization which would include German units.

The offer was made by Foreign Minister Robert Schuman, who said there were no strings attached.

Germany's resurgent Socialists flatly rejected any European defence organization which does not provide full and equal German representation.

Schuman told the European consultative assembly that "there is no other solution posible for Germany's security." To rearm Germany with a national army would provoke a reaction in the East of great importance.

CITES OWN PLAN

Outlining France's project for a European army, Schuman said that with units intergrated in the European force, renewal of conflicts between national armies would become "defintely and effectively" impossible.

The Foreign Minister cited his steel and coal resources and said own plan for pooling European "we must follow the same method in the military domain."

Schuman did not mention a proposed size for German units in the projected European army, an issue which has divided France and the United States in current Atlantic pact talks on the French plan. He said, however, that some countries would naturally have to have larger military establishments beacuse of their own political situation.

Germ..an spokesmen have said they will contribute troops to a European army only on a footing of complete equality.

Schuman whose remarks were greeted with loud applause, declared France is determined to push for European unity in political, economic and military spheres.

"To unite Europe is our immediate and direct task—that was the idea of the Council of Europe," he said. "No other policy can save Europe."

BLAME ALLIES FOR DISUNITY

BONN, Germany, Nov. 2 (AP) — West German Chancellor Konrad Adenauer today told High Commissioner Andre Francois-Poncet of France that the Western Allies have only themselves to blame for German disunity over rearmament, a qualified German source disclosed.

The source said the Chancellor called on Francois-Poncet to complain that he had been "let down" by allied failure to agree on the question of the German contribution to Western defence.

His Socialist opposition had seized on th euncertainties surrounding the subject to make a hot internal political issue, in which Adenauer lacked full allied support to fight back, he was quoted as saying.

Cranbrook Pushes Plan To Get New Housing

CRANBROOK, B.C., Nov. 24 — Provincial housing commission market survey is being asked by the City Council following its own municipal survey of housing needs. Sixty-six applications for imporved housing in a housing project were received by the city in its survey, which is considered sufficient response to pursue the matter.

Proposed plans is a joint Dominion-Provincial-Municipal project to satisfy housing needs of the general public now that the veteran's needs have been filled. Its special purpose is to provide rental or long-term purchase homes for those steadily employed but unable to meet initial cash payment terms of Dominion Housing Act or private construction.

The commission is being asked for an early market survey here so that definite plans can be made for practical action.

Moving Chairs Can Be Fun

Here are some suggestions for arranging your chairs. They should not interfere with traffic.

Group two chairs, with a small table between them, near a window. Or arrange a similar grouping in an unused corner.

A pleasant conversational grouping is arranged with two chairs at each end of a sofa. A coffee table might be set between. Or use a pair of chairs to flank a secretary or breakfront.

If your dining room is large, why not add another pair of host chairs with upholstered backs and arms? These can be used for bridge or canasta since they're also at home in the living room.

A pair of small scaled upholstered chairs flanking a conosole in the entrance hallway makes an effective grouping. Or you may prefer to line up three or four matching chairs to create a settee.

If your sectional sofa is made up of chair-size armless centre sections, buy several extra sections. They can be used as chairs. Or they can make a long wall or a corner arrangement with end sections.

It's economical, and adds a "custom" touch to your room.

The Off-Centre Fireplace Problem

An off-centre fireplace sometimes poses a problem to the housewife planning her furniture arrangement, but it need not be a difficult one.

When a fireplace is off-centre plan a balanced furniture arrangement at the fireplace end of your room. Use the other end for dining space, console tables or chests — a study group.

Set a good heavy piece of furniture, like a sofa or love seat, right opposite the fireplace. Don't even try to centre the sofa on the wall or it will be out of line with the fireplace. The arrange the room as a square or oblong around the sofa-fire-place balance.

Many Causes To Look for If Paint Peels

Good paint should not peel! If it does, it is most necessary to look for causes other than the paint itself. Usually the damage is due to moisture that has become trapped under the paint film, and about 80 per cent of all paint failures are caused by this factor.

For example, if siding is painted while the wood is still wet, something like this happens. As the house heats up, the moisture is driven out through the wood and forms blisters. Or perhaps they will be created by a warm day after a severe winter. The blisters, when thy burst letting the water escape, fall back against the wood and remain unnoticed for a time. Eventually, wind, rain and sand remove them as curling flakes of paint and expose the underlying wood.

Tight construction that tends to trap rather than shed water, is often harder on the paint job than slightly loose construction. At all should be kept free of the ground to avoid blistering and staining.

Something the average householder doesn't realize, however, is that water can get into a wall from the inside as well as from the outside. High humidities from cooking and washing, for example, will introduce moisture into a wall. Such moisture can be removed by a suction-type fan in a kitchen window. Similarly this situation can be remedied in a bathroom by opening the bathroom window slightly whenever taking baths and showers.

Frequently poor carpentry can spoil an otherwise good paint job. Split clapboard, for example, if allowed to remain on a house is like asking for trouble. In the case where such condition exists the broken wood will allow water to enter either directly, or as it drains from the roof. To remedy this situation it is merely necessary to nail down the dried-out, split board, seal all crevices with fibred roofing cement or caulking compound, and then properly prepare the surface before painting. Where siding is used vertically, proper preparation beforehand will save much serious trouble later. All clapboards should be cut slightly short so that they do not actually touch the roof. Then their butt ends should be primed with paint, and adequate flashing should be installed at the junction of roof and siding.

Advocates "Live" Vaccine for Newcastle Disease

VANCOUVER, Nov. 24 (CP) — Use of "live" vaccine to fight Newcastle disease in poultry was urged in a resolution endorsed at the British Columbia Federation of Agriculture meeting here.

The resolution condemned the policy of slaughtering affected aske dthat "live" vaccine be used in time for the 1951 season.

A Saanich fruit-growers resolution, approved, asked protection against low-priced import berries for processing. It said Dutch strawberries and raspberries imported in barrels had broken the market this year for certain B.C. berries.

Sunday School Bell Awakens Far Echoes

VICTORIA, B.C., Nov. 24 (CP)— John McNaught sought to have church bell ringing on Sunday mornings reduced, and started a first-class controversy.

First he wrote Mayor Percy George asking the city to do something about "prolonged ringing of the bell of Wesley Victoria West Church every Sunday.

The church's pastor, Rev. S. H. V. Redman, then wrote the Mayor suggesting the complaint should have been taken to the Church Board.

Meanwhile, pro and anti forces have been getting up steam, with Mr. McNaught the unwilling central figure.

"I didn't expect such a furore," he said. "I have been upset and embarrassed by letters and phone calls. I like a church bell as well as any man—just can't see the need for ringing it 100 times for Sunday school."

He concluded: "I remember when the church was being built, playing around it with the other boys. I probably rang the bell myself."

New Radioaction Material Found

PRINCE ALBERT, Sask., Nov. 24 (CP)—John C. Rogers, Toronto consulting engineer, said that about 1,000,000 tons of radioactive material have been indicated to a depth of 18 feet on the Saskatchewan concessions of La Ronge Uranium Mines, Ltd.

He said grab samples from the bottom of a trench have revealed an average value of $2.5[illegible] oxide, as compared with $6.48 returned in surface sampling.

Gypsum Plays Important Part In Modern Home

One of the most important items in the construction of a modern home is gypsum—a mineral. It is used both in plaster and in precast wallboard panels, often called plaster boards, sheet rock and dry walls.

Both forms of gypsum are fireproof. Walls built of gypsum lath and plaster stop the passage of fire for 45 minutes. A half-inch thickness of gypsum wallboard stops the passage of fire for 40 minutes. The minimum standard requirement for residential building is 30 minutes.

The development of modern wallboads of this type has brought about widespread economy in home building. This drywall construction eliminates the time and labor involved in applying seperate coats of plaster and waiting months for them to dry thoroughly.

Dry-wall construction is now being used in homes where the most expensive walls could easily be afforded on a straight investment basis. New methods of covering joints result in surfaces so smooth that detection is virtually impossible after painting or papering.

An added advantage of gypsum it its resistance to cracks caused by framing movements, vibration or settlement. It is possible to use the finest wall covering on initial decorating jobs.

The elemination of wet plaster tends to minimize considerable swelling and shrinkage of lumber induced by the tremendous amount of moisture held in a new house for long periods.

Available in large sheets, these wallboards are a boon to house remodelling, the finishing off of extra attic rooms and other additions.

Save Costly Garden Tools By Checking Winter Rust

KEEP YOUR GARDEN TOOLS IN A HANDY RACK. IT IS ECONOMY.

A good gardener takes care of his tools, and knows that the most dangerous time for them is the season of idleness. Careful cleansing in the Fall and storage over Winter will prolong their useful life.

The greatest enemy of tools is rust. This attacks the metal parts during the Winter when the tools are in storage, and does more damage then than in the Summer, when they are in constant use.

To check the rust, first clean all outside metal parts by washing thoroughly. Caked mud should be softened and removed. Then dry, and cover the metal with a thin film of lubricating grease, or oil. All bearings of wheel tools should be oiled. It is possible to obtain new handles, where the old ones have broken, and these should be set in place this Fall.

Spraying and dusting equipment should be cleaned thoroughly of all old spray materials. Take the nozzles of sprayers apart and clean. Oil the pumps of sprayers, and set them away without screwing down the tank caps, so that the rubber gaskets are not compressed. Dusters should be cleaned and the outside metal parts oiled, but instead of oil, powdered graphite should be used on the inside.

Make a resolution when your tools have been cleaned, to keep them clean in the future. A rack in which every tool has its place will be found well worthwhile.

MOVING
ANY-WHERE

A hurried move to another city, a temporary transfer, should present no problem for your furniture and valuables. Simply phone West Transfer and a trained representative will supervise the packing and moving of your entire household.

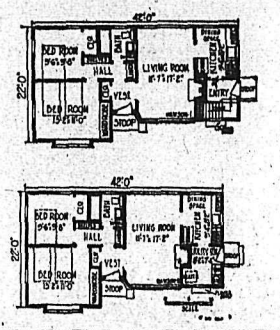
The Modern Home

THE DAWSON



Although this compact two-bedroom plan gives the impression of great width, it is really a small, compact, four-room home designed for maximum convenience at low cost. Exterior walls are of frame construction, with the materials skillfully varied. The large living room, natural fireplace and abundant closet space are featured in this home. Plan 1, with basement; Plan 2, with utility room.

Immigrant Loses All In Fruitvale Fire

TRAIL, B. C., Nov. 24 (CP)— An immigrant of less than a year, Mike Niccola, lost his shoe repair shop in a fire at Fruitvale this morning. Fruitvale is 10 miles East of Trail.

Fire, which started inside the one-story frame building at 9 a.m., completely gutted the structure, including shop and living quarters.

Mr. Niccola opened his shop last December after coming out from Italy. His wife and children still are in Italy.

Easy to Keep Glow in Wood

The proper care of wood furniture is so simple and so rewarding that it's difficult to understand why it's so often neglected even by efficient home makers. Fine cabinet woods grow more beautiful as they age, for they acquire the rich color and soft, glowing finish that only time can accomplish.

To preserve the beauty of your wood pieces, follow these simple rules:

Dust every day with a clean, soft cloth.

Remove sticky spots with mild soap and water, and allow to dry before polishing.

Use two clean cloths when polishing—one for dusting first, and the other to apply the polish. Rub with a circular motion to obtain the best results.

Remove stains and spots caused by food or liquids by applying a solution of water mixed with a few drops of ammonia. Then rub the spot until it is thoroughly dry.

For heat or burn stains, use a cloth saturated with oil of camphor. Follow this application with a vigorous polishing.

Remove alcohol stains with turpentine or alcohol. Allow it to remain on the spot only a few seconds, then rub the spot dry with polish.

Ranch Prefab Hit In Berlin Exhibition

WASHINGTON — Nearly 50,000 Germans inspected an American-made, prefabricated house displayed at the Berlin Industrial Exhibition.

Sponsored by the United States Department of State to show what the average American wage-earner lives in, the six-room home was the hit of a two-weeks exhibition.

It was a typical, ranch-type house. It was manufactured, trucked to New York, loaded aboard ship and bound for Germany within two weeks after the order was placed.

In Germany, it was assembled in 10 days. Visitors to the exhibit averaged 3000 to 3500 a day. Many of them were Germans from the Russian Zone in Berlin.

High windows in a bedroom give good ventilation and light. Below, there's plenty of space for furniture.

INCREASED CARLOADINGS

OTTAWA, Nov. 24 (CP) — Carloadings on Canadian railways rose to a new record for the week ended Nov. 18 to 88,284 cars, compared with 85,170 cars for the previous week, and 82,950 cars for the corresponding week a year ago.

SELL THE CLASSIFIED WAY

VANCOUVER, B. C., Nov. 24— (CP) — Two were injured today when a car filled with University students was struck and carried 30 feet by an Interurban tram.

Susan Schaeffer and Ian Turnbull of Vancouver were injured.

The driver, Phyllis Grant, and two others escaped unhurt. The car was badly wrecked.

● Little Jimmy Warrell, son of Mr. and Mrs. J. Warrell, 711 Victoria Street, has left the Kootenay Lake General Hospital where he was confined with bronchial pneumonia.

Pentecostal Ministers Meet Here Next Week

Nelson will be the meeting center for Pentecostal ministers from Fernie to Grand Forks for a District ministerial session next week.

The meeting will open on Tuesday and continue through until Dec. 1.

Guest speaker will be Rev. Hans Bretschneider of San Jone, Calif. The minister has travelled extensively throughout the United States and in parts of Canada.

Rev. T. S. Jones, District Superintendent from Vancouver, will also be here together with ministers from the East and West Kootenay and Boundary. Business meetings will be conducted in the Bethel Tabernacle.

Oldtimers Recall Fred H. Smith

BY R. G. JOY
Historian, Nelson and District Oldtimers' Association

I met Bill Wasson on Baker Street Friday evening.

"Hello, tranger," said I.

He said, "Another oldtimer gone."

"What, another oldtimer, who is it this time?" I asked.

"Our old friend Fred Smith."

"Yes, I read it in the News this morning."

He deserved a story for he was one of the oldtime residents of Mill Street when many of Nelson's leaders resided up the hill.

Fred Smith was a likeable chap and knew most of us by our Christian names.

Oldtimers will remember when he had charge of the Dominion express company office in the old Griffin Block which burned down several years ago and is now the site of the Fink Block.

Fred would work 15 hours many a day, always ready to sell you an express order. I remember when he bought fruit land at Sunshine Bay and he and his wife and daughter, Nina, lived there for many years. He later went to Vancouver to reside and periodically paid a visit to Nelson.

About one year after my wife died, I was in a restaurant when I felt a hand on my shoulder and heard "Hello, George." It was Fred, back for a visit.

Fred Smith was one of those oldtimers in whom the bond of friendship did not change over the years, and many who read this will say "good journey Fred."

SHE'S ONLY GIRL IN CLASS OF 93

TORONTO, Nov. 24 (CP)—Abbyann Day, 21, doesn't think it strange that she is the only girl among 93 boys in the Pontifical Institute of Medieval studies at St. Michael's College here.

"Every Friday," she says, "there is a tea for the professors and students, and they gratefully escort me into the kitchen, glad ot have that burden where they feel it belongs."

A native New Yorker and a graduate Cum Laude in chemistry and mathematics at Manhattanville College—which she entered at 15—she spends 22 hours a week in class and most of the rest of the time studying.

She is in her second year of a five-year course for her master, licentiate and doctor degrees in philosophy at the institute, only one of its kind in the world. It was formed primarily to study the thought, life and culture of the Middle Ages.

"I have always been interested in writing," Abbyann said in an interview, "and I'm quite sure I don't want to teach. Any research I would do would be on my own, and although I certainly plan to maintain an interest in the work, I don't plan to devote my life to a career."

Slocan Park Wedding Principals

MR. AND MRS. HAROLD CHERNENKOFF

Slocan Valley interest attaches to the wedding in Slocan Park of the former Anne Kinakin, daughter of Mr. and Mrs. John Kinakin, and Harold Chernenkoff, son of Mrs. H. Chernenkoff. Bridesmaid was the bride's sister, Miss Nellie Kinakin, and Pete Cheveldave was best man. Reception place was Eagle hall in Nelson. Mr. and Mrs. Chernenkoff are making their home in Slocan Park.

—Vogue photo.

Women's Guild Holds Gay Tea and Sale

With gay Christmas decorations as their motif, the Young Women's Guild of the First Presbyterian Church transformed the church hall Friday afternoon in a successful and delightful tea and sale.

Red and green Yule decorations gave the hall a colorful appearance while the tea table was centred with a red and green centrepiece of imitation flowers set on a mirror, flanked on either side with red candles.

Mrs. Thomas Murphy received the many guests at the door. There were about 10 individual tea tables.

Tea was poured by Mrs. D. T. Heddle and Mrs. A. N. Winlaw while serviteurs included Mrs. B. McCreight, Jr. Mrs. K. D. Carmichael, Mrs. W. A. Manson, Mrs. A. McKay and Mrs. J. W. Birch. Cashier was Miss M. McLaren.

The sewing table, convened by Mrs. F. E. Laing, was laden with children's clothing, aprons, novelties and numerous other articles, while looking after the bake table were Mrs. Harold Speers, and Mrs. Ross McCulloch.

Decorating of the hall was done by Mrs. W. A. Manson.

Schuylar Club Has Annual Banquet

Schuylar Club of the Past Noble Grands of Queen City Rebekah Lodge No. 16, I.O.O.F., held its annual banquet Thursday night at the Club Cafe.

After the dinner the members met at the home of Mrs. Walter Fisher, Baker Street. A bingo game followed the business session.

Higher Teachers' Salaries Sought

WINNIPEG, Nov. 24 (CP) — A resolution to raise salaries of qualified school teachers with one year's training to a $1800 minimum and a $3000 maximum a year was passed today by heads of the Teachers' Associations of the four Western provinces at the final session of a three-day meet.

Card Party Enjoyed At Willow Point

WILLOW POINT, B.C., Nov. 24—Mrs. B. Townshend and Mrs. R. Hankin were co-hostesses at a card party in the church room sponsored by Willow Point Women's Institute.

Mrs. A. T. Townshend and Mrs. I. C. Campbell were bridge prize winners and Mrs. W. S. Ashby and Mrs. T. G. Ludgate won whist prizes.

Camp Lister...

CAMP LISTER, B.C.—Mrs. G. Mahan and son Willie have left to spend the winter months in Creston.

Mr. and Mrs. Bob Harvey and daughter of Nelson are visiting Mr. and Mrs. Charles Huscroft.

Mr. and Mrs. R. P. McKee and children of Kingsgate visited Mr. and Mrs. D. J. McKee.

Andy Sikora returned to Moyie after visiting his parents, Mr. and Mrs. Jas. Sikora.

Mr. and Mrs. C. Olson are visiting Tacoma, Wash., guests of Mr. and Mrs. Maurice Anderson.

Sirdar...

Mr. and Mrs. Haynes are visiting the former's sister, Mrs. Bolton at Gabriola Island. They expect to stay for the Christmas holidays.

Bob Wagner has his father from Saskatchewan visiting him for a few days.

Mr. and Mrs. Oscar Ofner of Kaslo, were weekend visitors here.

Irwin Norine and Harold Keener of Scottsbluff, Neb., are the guests of Mr. and Mrs. P. A. Rohde for a few days.

TELLS OF LIFE IN NORTH B. C.

The Mission Covenant Ladies Aid group heard an interesting talk on "Christianity in the North Country" at their meting Thursday by Mrs. E. Playdon.

Mrs. Playdon told the group that when she lived in the Peace River country there was no church for a number of years. Finally, a church was erected and the homesteaders of the district were helped greatly by the ladies aid group and church work.

She also gave them an interesting account of the first train that arrived in their community. It was the first locomotive ever seen by most of the young people. When they saw the engine they were terrified and fled to the nearby bushes for saftey.

Following the business meeting and talk, a social hour was held.

Five Divorces Granted in Week's Assizes

Five divorces have been granted by Mr. Justice John V. Clyne at Fall Assize hearings in Nelson during the past week. They were to:

Jimmy Deck, petitioner, from Mary Ellen Deck; decree absolute and costs, custody of two children reserved pending report from Social Welfare Branch. R. E. Read appeared for petitioner, L. S. Gansner for respondent.

Florence Ellen Irene Miller, petitioner, from Alfred Charles Miller; decree of dissolution and costs. C. H. Clegg appeared for petitioner.

John Joseph Parks, petitioner, from Dora Martha Parks; decree of dissolution. C. H. Clegg appeared for petitioner.

Clarence Alfred Manchester, petitioner, from Dorothy Manchester: decree of dissolution, no order for costs, liberty to apply regarding custody. C. H. Clegg appeared for petitioner.

Duncan M. Ferguson, petitioner, from Helen Joyce Ferguson: decree of dissolution and costs. P. Williams appeared for petitioner.

Trinity C.G.I.T. Busy With Plans

Trinity C.G.I.T. is extremely active this month with preparations for coming events.

Each group is busy with its particular handicraft project such as belts, feltwork and rag dolls, and each group is also arranging a skit or play for January.

Arrangements are also being made for the annual vesper service at Christmas.

Cayo group gave a special worship service at which white gifts were presented by the girls for overseas parcels.

Kaslo...

KASLO, B. C.—Mrs. J. M. Allen of Kaslo is a patient in the Trail-Tadanac Hospital.

Miss Anne Surina of Shutty Bench is back from Vancouver, where she attended the funeral of her aunt. On her return she was accompanied by her sister, Miss Sophie Surina, who has been visiting relatives at the Coast for several weeks.

Mr. and Mrs. John Surina were visitors in Nelson during the weekend.

Miss Elizabeth Carpenter of Arrow Park is visiting her aunt and uncle, Mr. and Mrs. Claude Carpenter, at Shutty Bench.

Yule Treats Expensive In Britain

LONDON, Nov. 24 (CP) — British shop shelves are laden with half-forgotton delicacies as Christmas approaches, but rising prices may prevent millions of working families from noticing any appreciable change in Christmas fare.

Small price increases on such goods as Christmas puddings, cakes, cookies, eggs, butter, bacon and coffee will mean less money for luxeries like crystallized fruits, fruits, nuts and French fruits bottled in syrup.

A housewife planning a decorated Christmas cake will find all, or almost all, the materials she needs, but the price tag may be prohibitive. For the first time since before the war such things as preserved violets and roses, glace cherries, silver dragees, icing sugar, almond paste and sugared figurines are all easily obtainable—but the price may daunt some shoppers.

TURKEYS COSTLY

No. 1 headache in a Christmas which will be the lightest rationed since the defeat of Germany, is the cost of turkeys. Starting at 6s 6d. (97 cents) a pound they have have mounted in some instances to 8s and 10s. All other poultry prices now free from government control for the first time, are well in advance of last year and Maurice Webb, Food Minister, has announced there will be no Christmas bonus on the meat ration.

Other price problems are provided by Christmas trees and decorations. Trees that pre-war cost 2s 6d. are now 15s. Decorations cost about the same but customers will not get the same value for their money.

A 100-per-cent purchase tax remains on Christmas cards, calendars and dairies. This means average cost around 10d, and something "a little different" ranges upwards from 1s 6d.

GLOVES KEYNOTE SMART COSTUMING

NEW YORK, Nov. 24 (CP) — The right choice of gloves, designers say, is essential to the well-dressed look. And to be "right" the gloves must be in tune with the costume in color, style and quality.

A number of top-flight designers have co-operated with the glove industry by selecting gloves to complement costumes of their own design. In almostt every case their selections, as shown in current displays here, are marked by absolute simplicity of design.

For a black wool afternoon dress with sculptured lines, Molyneux chose simple, close-fitting gloves of yellow kid teamed with a head-hugging little yellow felt hat.

Jacques Fath designed for daytime wear a hand-sewn double-woven cotton glove with flaring turned-back cuffs. It is featured in a rust tone combination with a flower-pot black felt hat designed by Mr. John.

Requiem Service Held for Primate

A special requiem service of Holy Communion and special prayers from the burial office was held for Most Rev. G. F. Kingston, D.D., Primate of Canada, at St. Saviour's Pro-Cathedral Thursday morning. The Primate died in Toronto earlier this week.

Right Rev. F. P. Clark, Bishop of the Kootenay, conducted the service assisted by Very Rev. T. L. Leadbeater, Dean. Members of the parish and of the Church of the Redeemer attended the requim.

On Sunday, Memorial prayers will be said in all churches of the Diocese in tribute to the memory of the Primate.

BAPTIST W. A. ADDRESSED ON MISSIONARY WORK

Miss Clara LaPond of Nelson addressed the Young Women's Auxiliary to the First Baptist Church at its monthly meeting at the home of Mrs. Joseph Kary.

The speaker told of her missionary work among West Kootenay Doukhobors during the Summer months.

Musical selections by Audrey Wright and Lois Wheeler were enjoyed.

Turkish Students Wear Western Garb

ISTANBUL, Nov. 24 (Reuters)—when the English high school for girls was founded here 100 years ago this month, a few timid, heavily-veiled, guarded girls were the first Turkish pupils.

Today the Turkish pupils at the school wear gym bloomers, white blouses and badge-adorned hats, much the same as girls in British and Canadian schools. They go around unveiled, and their steps has the vigor of the untrammelled modern miss in any civilized country.

The elder pupils differ in only one fashion from other Turkish girls—they wear no make-up. At least, not in school hours. The English headmistress, Miss D. E. Thompson, says "we have only one rule about make-up: "None".

Alberta Oil Paying Dividends to People

People of Alberta are to benefit more directly from their great oil resources than those of other Provinces have been doing from their natural resources. Sale of oil leases and rental charges are swelling Alberta's treasury and providing funds which can be spent on education, health, highways and other advantages for Alberta citizens.

In the fiscal year 1949-50, oil revenues were $32,370,000, an average of $46 for every man, woman and child in Alberta. Even after meeting all expenditures, $70,248,000, the Alberta Government had a surplus of $29,838,000.

In the first eight and one-half months of this fiscal year, oil revenues were $32,353,000, and if they are maintained for the remainder of the year, the total should be about $45,000,000. This would work out at about $70 per person in Alberta. Because of these revenues, the Social Credit Government is spending $112,000,000 this year.

Empire Lifeline

The Suez Canal has been one of the great lifelines of the British Empire. It is natural Britain should not wish to cede physical control over it by the withdrawal of troops from the zone, there for its protection.

This is particularly so since Britain has an agreement, dated 1936 and good for 20 years, with Egypt. It is this treaty Egypt wishes to renounce.

The Egyptians, notes The Windsor Daily Star, are touched by the nationalism now prevailing from the Near to the Far East. They would like to see the last of British troops, get control of the Suez and take over Anglo-Egyptian Sudan.

The Suez is important in peacetime to Britain and all other trading nations. Traffic through it is too important to be interrupted at the whim of unstable Egyptians.

Once it was a vital lifeline in wartime. Its future usefulness in war is very doubtful. Even in World War II, the Mediterranean became virtually impassable until the Allies cleared out North Africa. Most shipping had to go around the Cape, the long way. What a couple of atom bombs would do to the canal can be imagined, and it is within easy striking distance of Soviet bombers.

It's Been Said

No ideal is as good as a fact.—Dr. Richard C. Cabot.

Your Horoscope

Slow but steady progress should be made if orthodox business methods are followed. Today's child should be very clever.

FOR SUNDAY, NOV. 26: You should enjoy a fair measure of success, and may indulge in literary and other intellectual activities. Artistic, musical and literary abilities are indicated for the child born today.

LETTERS TO THE EDITOR

Letters may be published over a nom de plume, but the actual name of the writer must be given to the Editor as evidence of good faith. Anonymous letters go in the waste paper basket.

Catholic View Given

To the Editor:

Sir—In view of the publicity given to the Very Rev. Dean Leadbeater's remarks on the attitude of Catholics towards the Virgin Mary, I would beg a little space to present some of my thoughts on the questions raised.

May I say first of all that I believe Dean Leadbeater is doing his duty as a minister of his faith when he explains to his people the view of his Church on this matter. Paradoxical as it may seem, ultimate union of the churches will take place, if it does, not by a watering down of our respective positive beliefs, but by a continuous deepening of faith according to the best light that God and the circumstances of life may furnish to us. Through living the faith we shall become transformed by love which will light up the darkness which blinds us to the Truth.

But love involves tolerance, and tolerance involves respect for the sincerity of the believer with whom we may not agree. To see that he has some rational grounds for what he believes makes respect for sincerity easier.

We regard faith as a divinely infused virtue whereby the possessor has the power of accepting a divinely revealed knowledge that surpasses understanding. Therefore in our view faith presupposes an authority. But what authority? God Himself or anyone to whom He has delegated His authority in matters of faith. We believe, on what we consider to be very solid grounds, that Christ did delegate the power to define our faith to St. Peter and his successors. This does not mean that the Popes have the power to invent new beliefs, but only to define and clarify what is already a part of Catholic belief.

If one does not accept the above doctrine he just is not a Catholic. If he does accept it, then all the doctrines of the Catholic Church follow logically.

Now as to the Catholic attitude towards the Mother of God, may I clear up some erroneous implications presented by your article?

Catholics do not deify the Mother of God. They regard her as a human being.

We do not consider Mary as a "fount of grace", but as a mediatrix of grace in the sense that we ask her to pray for us in the same way that an Anglican might ask Dean Leadbeater to pray for him. The big difference is that we do it oftener. Experience tells us that she seems to have a lot of influence with her Divine Son.

In his letter to you, Dean Leadbeater says in effect that adhesion to the doctrine of the Assumption implies that we enthrone Mary as an equal with Christ. This is not the case. The very term "assumption" is used in order to avoid such confusion. Jesus ascended into heaven by His own power. Mary was assumed or taken up by the power of her Son. Thus our terminology exalts the power of God in describing an honor bestowed upon His mother.

It seems to me there is a similar confusion in the statement that by honoring Mary we detract from the Incarnation. The essence of the Incarnation is the hypostatic union of a Divine Person with a human nature. The perfection or wickedness of his mother would be quite accidental. We believe that it fitted God's design that she be sinless and that in honoring her we also honor her Son.

The article implied that Catholics began to honor Mary through the influence of paganism (History read backwards is not a complete judge of theology). But, even if this were the case (which it is not), it would not be unreasonable. As a living organism can absorb foreign substances and transform them into itself, so the Catholic Church has absorbed many pagan customs and transformed them for the service of the true God. Pagan priests may have deified the virtues of woman in order to civilize men. If this worked, would it not have been a good idea for the Church to have held up Mary as an exemplar of Christian virtue and then to have gone back to tradition for a study of every detail of her life?

The statement that the Catholic Church wishes to cooperate with other churches is ambiguous. As I understand the position of the Church it is this: We believe that we are the true Church, possessing the whole of the original deposit of revelation, which we defend and develop, although many of us are very weak on practice. We also believe that for various reasons (often because of defects of our members) branches broke off, carrying parts of the whole Christian Faith, which parts they proceeded to make into the whole of their respective religions. Once the branches broke away, the twigs attempted to make their minute parts into the whole. Every Christian sits upon some part of this dismembered tree. Prejudices and the circumstances of life make a grafting job at this time rather impractical. The next best thing is to encourage the life that exists in each branch and twig by a cooperative effort to nourish all forms of positive spirituality through writing, education, discussions, mutual respect, etc. From a speculative point of view this is as far as we can go at present.

In the practical sphere, Christian Charity should lead us to cooperate in common projects for the betterment of the community. Achievements of this order would give us a taste of that feeling of unity which we have lost for so long.

The mathematician knows that many contradictions are resolvable in mathematical infinity. We attain the Infinite not by understanding, but by love. Thus if we love the Christ in Himself and in our fellowmen ("What you do for the least of My brethren you do for Me"), we shall gradually find through our love the resolution for the seeming paradoxes which now divide us. Christian love implies cooperation. The Catholic must cooperate.

A. L. CARTIER.

Nelson, B. C.

(Editor's note: The Letter's to the Editor column has now provided an expression of both views on this subject, and it is not the intention to publish further correspondence).

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

V. M., H., Elko—Can you tell me of any firm selling basket furniture?

Most furniture stores carry a small supply of wicker chairs, etc. Sterling, Home, Freeman, all of Baker Street, Nelson, could give you information on this; and you might find pieces in good condition at second-hand stores such as J. P. Morgan, Baker Street; Home Furniture Exchange, Hall Street, also of Nelson.

Mrs. J. H., Kaslo—Please give me address of the Electrolux agent in Nelson.

The agent is Gordon Fraser, 1104 McQuarrie Avenue, Nelson.

M. J. L., Farron—Is there a health food store in Nelson? If not, please give name and address of one store in Vancouver.

There is no store in Nelson that specializes in health foods. The Health Supply Centre, 1075 Granville, Vancouver, would supply you.

Looking Backward

10 YEARS AGO

From The Daily News of Nov. 25, 1940

Thomas Brown was elected Chairman of the Association of Professional Engineers, Eastern District, held here Friday. Others elected were Roy Pollard, Honorary Secretary; H. D. Dawson, J. F. Coates, Fred J. Donkin, Harold Lakes, S. S. McDiarmid of Trail and E. S. Ellis of Sheep Creek, Advisory Committee.

25 YEARS AGO

From The Daily News of Nov. 25, 1925

The Kootenay Central Women's Institutes will hold their annual two-day conference here today, with delegates being present from throughout the Kootenay. Morning, afternoon and evening sessions will be on the agenda. Mrs. R. W. Chalmers of Thrums, Chairman, will make her opening address during the morning session, while Dr. W. O. Rose will give an address on tuberculosis in the afternoon. Final speaker of the first day's session will be P. H. Sheffield, School Inspector, who will address the gathering in the evening.

40 YEARS AGO

From The Daily News of Nov. 25, 1910

Accommodation of the City Public School building, which is being increased by one-third, and instead of the present 12 classrooms in use will have 16 available, is expected to be ready in a few weeks. The remodelling of the old building which provides the additional rooms is now practically completed.

President J. E. Taylor of the Nelson Street Railway Company yesterday received a telegram from Ottawa stating that the new wheels which will make it practicable to operate the extension along Latimer and Cedar Streets were shipped a few days ago, and should arrive soon.

Today's Bible Thought

It is darkest before the dawn. Faith can move mountains. You must learn to make the sun stand still.—Will the Lord cast off forever? and will he be favorable no longer?—Psa. 77:7.

Aunt Het

Most everybody will get to Heaven unless they die sudden. They all repent of their sins when they get sick.

Calgary Livestock

CALGARY, Nov. 24 (CP)—Cows were in good demand on the Calgary livestock market today, but other classes were weaker. Trading was fairly active, with 1228 cattle and calves on offer. A good cleanup for the weekend was indicated. Yesterday's sales were 1000 cattle, 473 calves, 229 hogs and 55 sheep.

Butcher steers were steady; heifers 50 cents lower for the week. Cows, 50 cents higher. Bulls, $1.50 lower for the week, and calves, around $2 lower.

Hogs and sows advanced 25 cents yesterday, the former to $28.25 and the latter to $19. Good lambs held at $26, and good ewes at $13.50.

Good to choice butcher steers, $26.50 to $27.50; common to medium, $22 to $25.

Good to choice butcher heifers, $25 to $26; common to medium, $21 to $24.50.

Good cows, $19.25 to $19.75; common to medium, $17.25 to $19; canners and cutters, $14 to $17.

Good bulls, $21 to $22; common to medium, $18 to $20.50.

Good to choice veal calves, $26 to $28; common to medium, $21 to $25.50.

Good stocker and feeder steers, $26 to $27.50; common to medium, $22 to $25.50.

Yugoslav Editor Labels British Communists as Cominform Agents

By RONALD PRESTON

BELGRADE, Nov. 24 (Reuters)—Factual, friendly and almost entirely favorable reporting has characterized several articles on Britain appearing in the press here recently.

The articles were written by Yugoslav Communist journalists when they returned from Britain after a three-week visit as guests of the Foreign Office.

The articles are regarded here as reflecting improving relations between Britain and Yugoslavia, and expressing Marshal Tito's new party line of judging British social democracy on its merits instead of following the Cominform in condemning it on principle as "Social Fascism".

FRIENDLY EDITOR

Moroslav Vitorovic, assistant editor of Borba, official organ of the Yugoslav Communist Party, in a lecture to a crowded meeting of Belgrade journalists, also stressed the friendliness and hospitality the six-man delegation had met with in Britain.

Everywhere they went, he said, the delegation had found interest and sympathy for present-day Yugoslavia. Members of all three British political Parties had expressed their belief in the need for closer cultural and economic relations between the two countries.

Speaking of general conditions in Britain, Vitorovic said his impression was that considerable success had been achieved since the war in raising the standard of living.

Vitorovic attacked the British Communist Party as a "mere agent of the Cominform" and commanding no support among the British workers because it "served foreign interests".

GAITSKELL STARTS FINANCIAL WORLD HOPING FOR RISE IN PRICE OF GOLD

By FORBES RHUDE
Canadian Press Business Editor

Will gold some day be given a higher value than its present $35 an ounce (U.S.)?

The question becomes lively every once in a while, dies down and then comes up again. But it is never far from the thoughts of people who own shares in Canadian gold mines.

The answer would seem to lie in the extent to which gold will continue to be used as a yardstick for measuring the value of world currencies.

In the great activity of the last war and the years since, we have become accustomed to operating both nationally and internationally in sums of money undreamed of in real gold-standard days.

There have been some interesting recent comments in regard to all this from Britain's Chancellor of the Exchequer, Hugh Gaitskell, from The Times of London, and from The Economic Record, issued by the United Kingdom Information Office in Ottawa.

Speaking in London, Mr. Gaitskell said that Britain's gold reserves are too low, measured by prewar needs, and added that in terms of relative prices of goods the normal prewar proportion of reserves to total sterling-dollar turnover was two or three times as high as the proportion today.

The Economic Record comments:

"As the United Kingdom's gold reserves were, in 1937, just over $4,000,000,000, a logical extension of Mr. Gaitskell's argument would be that the United Kingdom needs about $10,000,000,000 today as compared with her actual $2,756,000,000."

And The Times of London had this comment:

"Allowing for the normal supply of gold to non-monetary uses, it would take the world's gold output considerably more than half a century to bring up the world's gold stocks, at the present dollar price of gold, to this figure; and by that time, no doubt, the monetary value of the world's trade turnover would probably have doubled again.

UNIVERSAL DEVALUATION

"In fact there is only one way in which Mr. Gaitskell's implied requirement could be met—a universal devaluation increasing the price of gold in all countries by over 100 per cent . . .

"It might be statesmanlike to plan ahead for two separate stages respectively of redistribution and upward revaluation of gold."

It is difficult to say whether these comments from Mr. Gaitskell, The Times and The Economic Record are entirely good for gold. On their face they would seem to be good, and probably are, if it is found that a solution to the problems raised can be found through gold.

If, on the other hand, it should be found that gold cannot give the solution, then in the long run gold might lose a lot of its place in the world.

At the moment, however, the regard for gold is so bred into the human family that any departure from it as a measuring stick is likely to be slow; even as our departures to date have been slow and under stress.

The line of the discussions cited seems to suggest solutions through upward gold revaluation. We may hear a lot more about it before long, and Britain's emphasis on her gold reserves seems to have significance.

Market Trends

NEW YORK, Nov. 24 (AP)—The market coasted along at its top price level of the year.

The market opened strong on a burst of demand, took a breather around mid-session when buying trailed off a bit, and then picked up speed again in the last hours of the session.

Canadian issues gained, with McIntyre climbing 1½, Hiram Walker 1¼, and International Nickel and Canadian Pacific each ⅛. Distillers Seagrams fell ⅜. Dome Mines was unchanged.

On the curb, Lake Shore and Royalite Oil were unchanged.

TORONTO (CP) — Industrials closed firm.

Following two days of strong advance they opened firm, became depressed in mid-session, and then firmed again at the finish. Activity was brisk, and volume was about 2,450,000 shares.

Steels, refining oils and manufacturing companies showed a majority of gains in the groupings, and the rest of the board was mixed. Good advances were recorded by Walkers, Abitibi, Canada Wire A, Lnternational Metal and Toronto Iron.

Western oils advanced for the third straight session, with small gains. Anglo-Canadian, Calvan, Central-Leduc and Commoil Petroleum were leaders that were ahead. Mid-Continent was the most active issue of the entire board, but remained almost unchanged.

MONTREAL (CP)—No trend was established, but trading remained active.

A few issues moved around a point or more near the close, while a wide section remained unchanged.

Consolidated Smelters brightened a narrow senior metal group, with a 1¼-point jump in active trading to a new high of 128½. A small list of utilities and senior oils was steady to firmer, but banks were mainly unchanged to a share easier.

LONDON (Reuters) — London ended the week on a cheerful note with sentiment assisted by Gen. MacArthur's "end-the-war" attack in Korea.

Improvements were fairly widespread, but were most marked in Far Eastern bonds. Leading industrials and commodity shares were slightly harder where changed.

British funds improved by 1/16, and there were advances of a few pence in many of the industrial groups. Hudson Bay shares were again outstanding.

New Pipeline Route Sought

OTTAWA, Nov. 24 (CP)—A new pipeline route to feed natural gas from Alberta to the Pacific Coast is being sought by West Coast Transmission Company.

The Company, one of a number incorporated to pipe Alberta gas, plans to abandon proposed Southern routes over the Rockies and traverse the mountains through Pine Pass in the North.

In a new route application filed with the Board of Transport Commissioners this week, the company seeks permission to deliver gas from Northwestern Alberta to Vancouver by way of Dawson Creek and Prince George, in Northern British Columbia.

New Corporation to Deal With Defence

OTTAWA, Nov. 24 (CP) — Trade Minister Howe tonight announced creation of a new crown corporation to deal exclusively with government contracts for defence construction.

R. G. Johnson, 37-year-old construction expert from Calgary, who recently was appointed consultant to the government's Canadian commercial corporation, is appointed president and general manager of the new organization. It is to be known as Defence Construction Limited.

The Sports Eye

By CLIVE FLEMING

Somebody say they wanted to make a little fast money? Just bet your best enemy that something is going to be done about the manner in which some of the W.I.H.L. referees officiate. I refer here to the handling of players as exhibited by Referees Jimmy Morris and Jimmy Anderson of Trail.

It is a well known fact that referees should not and are not supposed to touch players, just as the players are not allowed to put their hands on the men with the whistles. Thursday night in Trail, when the Leafs dropped another game to the front running Smokies, Eddie Wares was given a minor penalty. He knows the rule book inside out, and proceeded directly to the penalty box, so he wouldn't contract a misconduct penalty.

Just as Eddie was stepping into the penalty box, Anderson gave him a strong push, so Wares told Jimmy to keep his hands off him. Anderson hastily called a misconduct penalty.

Again when Ron Collings and Bobby Schmied were fighting, the referee stepped in and held Collings. No one was bothering about Schmied.

The one which really topped the works happened in Nelson's previous match in Trail. Ernie Gare was trying to rough it up with Trail's Dave Nicol. At one time when they were on the ice, Referee Jimmy Morris pounced in, grabbed Gare, and biffed him on the jaw. I was so surprised that I thought it an accident at the time. No referee has authority to handle a player the way he did.

Nothing became of the Gare-Morris incident. But mishandling can not be expected to go on unchecked. Walter Duckworth, one of the W.I.H.L. representatives was among the fans, and saw the Thursday incident fully.

After the game, Wares, who seldom gets highly irritated, was boiling. To two representatives of the press, he commented: "You'd think that these guys getting paid to referee, would at least familiarize themselves with the rules." Pulling out the rule book, he pointed to: "Any coach drawing a misconduct penalty is suspended for the remainder of the game."

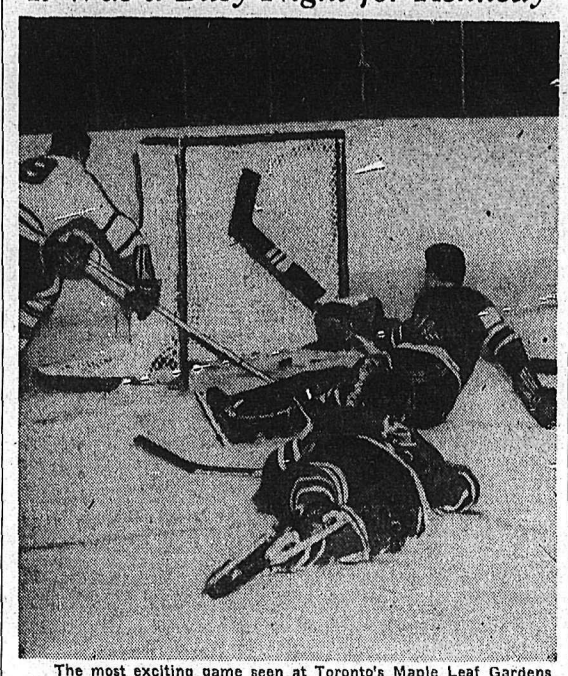
It's bad when a player tries to rough up a referee, but worse when an arbiter tries to exercise force. If a player roughs a referee, he gets severely rapped. We can not see that it should be different when the referee is the offender.

Today's the big day for Canadian football, as the Winnipeg Blue Bombers tee off against the Toronto Argonauts in the Dominion Grey Cup final. Despite the terrific record of the Argos in their numerous meetings with the Peggers, in which Toronto captured the Grey Cup on each occasion, this scribe is going along with Butch Larson's Jack Jacobs and company to topple to Argos for their first time in Grey Cup history, and bring the trophy to Winnipeg.

Max Kaminsky, who came through Nelson on his scouting tour of Canada for Eddie Shore after the Oakland Oaks, whom he coached until they folded up last season, is back in the hockey picture. Max who was one of the most popular and best liked figures in the American Hockey League as a player, coach and manager, has been appointed by Coach Johnny Mitchell ot the St. Louis scouting staff.

Dynamiters Win Overtime 6-5

It Was a Busy Night for Kennedy



The most exciting game seen at Toronto's Maple Leaf Gardens so far this season, saw the Leafs come from behind a 4-2 deficit to hand the New York Rangers a 5-4 loss. Captain Ted Kennedy was in on every score but the last, and that one was ably handled by defenceman Jim Thomson, who scored his first goal in 96 games. Here Kennedy is seen scoring in third period following preventative measures taken by Eddols, left, Raynor.—Central Press Canadian.

McNiven Tallies Three, Livingstone Raps in Winners

By CLIVE FLEMING

Eddie Wares drove a pair of goals while his Nelson Maple Leafs fought gamely to win their first start in five games, but instead they dropped a 6-5 overtime match to the Kimberley Dynamiters. Speedy rookie Ray McNiven fired three goals past Bobby McNabb, while linemate Gerry Barre added another for the Dynamiters. Livingstone scored the winner.

Fireworks broke out in the third period, sparked by Red Koehle and Doug McDonald who started swinging while on their way to the penalty box. Instantly players swarmed into a big mixup. Fritz Koehle and Sandy Sanderson also received minors. Almost every third Dynamiter was dripping blood from his nose or cheek after the fracas.

McNiven slid a long iced shot into the Leaf cage after 22 seconds of the first period as Kimberley had a speedy rush, putting the Dynamiters ahead 1-0. Nelson was dangerously close early in the period, but Fritz Koehle slapped a relay pass behind Dave McLay to even the count at 16:25. Before the period had ended, McNiven nipped the short corner with Barre again assisting, to boost the Dynamiters to a 2-1 lead.

Eddie Wares knotted the score early in the second period when he drove a blinding sizzler high over McLay. When the Leafs had a man advantage for the first time, Fargher took a pass from Allen and Steele and coolly put the Leafs ahead 3-2 for the only time in the game.

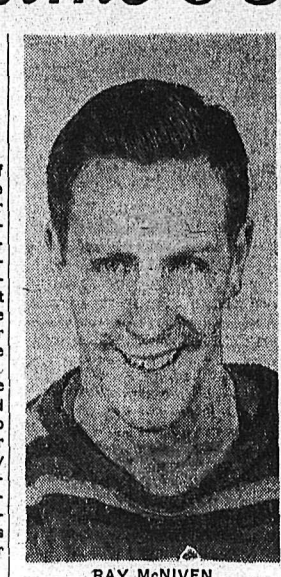
THIRD TIE

Gerry Barre used Wares as a screen to fire a low drive to the close corner half way in the second period, tying the score for the third time, and shortly before the end of the period, McNiven completed his three goal performance with another iceshaver, while Nelson had two men in the penalty box, and Kimberley one.

Dave McLay was handed a holding penalty, Sandy Sanderson serving as his proxy in the penalty box. Only six seconds elapsed before Billy Hryciuk raced away with the puck, and fired the rubber into the open net after McNabb came out to meet him. Red Koehle got the goal back on the same penalty, pushing the loose rubber under McLay at 8:55.

Eddie Wares paid off on a Leaf power play with three minutes to go in the third period, blazing a screened shot into the Dynamiter net to tie the score 5-5 and send the game into overtime.

Although the Leafs monopolized the play in the ten minute extra session, Dave Livingstone raced away with two wingers, and only Wares back, to score the winner. McNabb just partially blocked the flip shot half way in the period. Nelson pressed as McNabb was pulled for the last seconds of the game, but though the Leafs made it hot at the net, the Dynamiters emerged with a 6-5 triumph.



RAY McNIVEN
. . . Scores three

Stops by goalies:

McLay	7	6	6	4	—23
McNabb	7	9	12	6	—34

Linups:

Kimberley — McLay; Tatchell, James; Barre, Portarello, McNiven. Cruickshank, Barker, Bell, Hryciuk, Sanderson, Livingstone, Calles, McDonald.

Nelson—McNabb; Wares, Gare; R. Koehle; F. Koehle, McClenaghan. Steele, Collings, Allen, Haldane, Fargher, Willock, McBeth, Zuback.

Referees—Al Eurby and Johnny Lang.

Summary:

First period—1. Kimberley, McNiven (Pontarello, Barre) :22; 2. Nelson, F. Koehle (R. Koehle, McClenaghan) 16:25; 3. Kimberley, McNiven (Barre) 18:36.

Penalties—Collings.

Second period—4. Nelson, Wares 7:11; 5. Nelson, Fargher (Allen, Steele) 8:35; 6. Kimberley, Barre (Pontarello) 11:50; 7. Kimberley, McNiven 19:35.

Penalties—Collings, Hryciuk, Collings, Hryciuk, Zuback, Gare, Barre.

Third period—8. Kimberley, Hryciuk 7:59; 9. Nelson, R. Koehle 8:33; 10. Nelson, Wares (Haldane, McClenaghan) 17:00.

Penalties — McLay (served by Sanderson), R. Koehle, 5 mins., McDonald, 5. mins., F. Koehle, Sanderson, F. Koehle, Cruickshank.

Overtime—11. Kimberley, Livingstone (McDonald, Tatchell) 5:16.

Penalties—Cruickshank, Pontarello, 2 min. plus 10 min. misconduct, Allen, 10 min. misconduct.

Weather Main Concern For Grey Cup Classic

BY JACK SULLIVAN
Canadian Press Staff Writer

TORONTO, Nov. 24 (CP)—Nearly everything about Saturday's Grey Cup classic has a familiar tune to it. The weather, the betting odds and even the teams — Winnipeg's powerful Blue Bombers and Toronto Argonauts — are reminiscent of many previous East-West football clashes.

The weather and condition of Varsity Stadium field was the main concern of the clubs as they went through final training licks at the Bloor St. Bowl this afternoon and early tonight for the 23rd East-West final. And prospects are not rosy.

A day-long snowfall that dumped some seven inches on Toronto by dusk Friday is expected to continue Saturday with an estimated eight inches or more covering the city at the 12:45 p.m. kick-off.

The prospects of a night-long fall had officials worried. Stadium authorities said tonight they have arranged with city officials to start cleaning the field at 6 a.m. Saturday with snow-plows, tractors and blowers. Varsity has no field cover.

Bombers had a light workout this afternoon and found a coating of ice down the centre of the field with other spots greasy from the heavy, wet snow. This was the condition of the ground last year when Montreal Alouettes whipped Calgary Stampeders 28-15 — and repercussions of the treacherous footing are still heard.

The blue and gold team, rated by many football experts as the "greatest thing to come out of the West," are under-dogs in this all-important game, just as they have been in their previous five meetings against the Argonaut double blue. There is little even-money betting, most of it changing hands at odds on Argos ranging around 6½ to 5 and 7 to 5.

THREAT TO CROWD

Ticket scalpers still were getting $20 and $25 for a $2.30 ticket tonight but it was likely they would take a beating before game time if the weather forecast is correct An estimated gate of $80,000 is assured but it is likely the all-time record crowd of 27,054 fans to watch a football game in Canada, set at Varsity last Oct. 21, will stand.

Many ticket-holders may try to dispose of their tickets tomorrow if bad weather continues.

TWO INJURED

Two Bombers are on the injured list, but they will take their regular positions. Ian Gibb, 24-year-old hard-tackling half, has a broken knuckle in his left hand protected by a cast and Johnson's left arm is bothering him.

Argonauts, who have been practising behind closed doors and under the floodlights since they defeated Toronto Balmy Beach, their farm club, in the Eastern finals last week, followed Bombers at Varsity today. Duie to condition of the field only signal drills, offence and defence formations were held, followed by a chalk talk.

Doug Smylie, 200-pound Toronto-born, back, is the only double blue casualty, and an unlikely starter. He was injured in the final Big Four games and has not taken his place o nthe backfield since.

PRAIRIE HOCKEY PLAYOFF SET-UP TO BE REVIEWED

REGINA, Nov. 24 (CP) — The playoff set-up of the Western Canada Senior Hockey League will be reviewed at an executive meeting to be held in Calgary Sunday. President Al Pickard of Regina will be the chairman.

Last season the top three clubs at the end of the schedule participated in the playoffs. The second- and third-place teams met in a best-of-seven semi-final, with the winner going against the league-leaders in another best-of-seven series.

Shoemaker, Culmone Definitely To Race Monday

BOWIE, Md., Nov. 24 (AP) — A match race here Monday definitely will be for the leading jockeys in the United States, Willie Shoemaker and Joe Culmone, and not the horses.

The two horses, Chiloe II and Curruhuinca, selected today for the ace jockeys to ride are anything except outstanding. They should call out the best riding skill in the jockeys who have been waging a transcontinental duel, for 1950 laurels.

The jockeys will draw straws for Chiloe II and Curruhuinca in the 1½-mile race.

EDMONTON BEATS QUAKERS 5-2

SASKATOON, Nov. 24 (CP)—Edmonton Flyers walked further out in front of the Western Canada Senior Hockey League pack tonight as they waited till the third period—then dumped second-place Saskatoon Quakers 5-2.

The close-checking and hard-played contest was even until the third. Then it broke open before the 3500 fans.

Colin Kilburn, Mac Colville, Alex Pringle, Doug Anderson and Freddie Smitten scored Edmonton markers while Al Staley got both Saskatoon's.

The victory gives Edmonton 28 points—12 more than Saskatoon. Calgary has 14 and Regina eight.

Edmonton Defenceman Bill Pettinger crashed into the boards with two minutes remaining after a hard check by Howie Milford. He was taken to hospital where X-rays were taken of a spinal injury between the shoulders.

Favorite Wins

INGLEWOOD, Calif., Nov. 24 (AP)—Sickle's Image, the favorite in a field of 10 two-year-old fillies, raced through the fog at Hollywood Park to win the $25,000 Lassie Stakes today.

Kid Hockey Roundup

Scores in the Nelson Amateur Hockey Association games played up to Friday follow:

Bantam Maple Leafs 1, Rangers 1.
Midget Rockets 2, Red Wings 5.
Juvenile Tigers 0, Rockets 1.
Bantam Red Wings 1, Canadiens 3.

Schedule next week follows:

Monday—5-6 p.m.—Bantam Rep Practice.

Tuesday—8-9 p.m.—Midget Rep practice.

9-10—Juvenile Rovers vs Tigers.
10-11 p.m.—Big Four

Thursday 10-11 p.m. Juvenile Rep practice.

Friday—5-6 p.m.—Bantam Maple Leafs vs Canadiens.

Saturday—9-10 a.m.—Bantam pool
12:30-1:30—Bantam pool.
1:30-2:30 — Bantam Ranger vs Maple Leafs.
2:30-3:30—Midget Rockets vs Dynamiters.

Sunday—1:45-4 p.m.—Big Four.

Blue Bomber Fans Roll Into Toronto

TORONTO, Nov. 24 (CP) — The first contigent of Winnipeg football fans rolled into Toronto today with a blast of Wintry weather, confident their Blue Bombers would conquer Toronto Argonauts tomorrow in the East-West classic for the Grey Cup and the Canadian championship.

About 415 fans were on two special trains and probably another 100 came in on regular trains and planes. Roughly another 225 are due to arrive on special trains tomorrow.

Todays' arrivals were quiet until a Toronto welcoming committee, accompanied by the St. Andrew's Girls pipe Band, went aboard their train at West Toronto station. The Winnipegers burst into song, "We are going to win the Grey Cup," to the tune of John Brown's body.

They whopped it up again at the Union Station were they carried a 16-foot banner bearing the words "Let's Bring the Grey Cup Back to Winnipeg."

Some of the fans arrived without tickets for the game, hoping that by tomorrow the scarce pasteboards would be more plentiful.

They ran into scalpers on the way down. One said that a man boarded the train at Sudbury and asked $50 a pair. Another asked $30 for a single ticket.

U.S. COLLEGE

Miami (Fla.) 14, Iowa 6
Louisiana State 13, Villanova 7,

Rex Layne Whips Tired Jersey Joe

NEW YORK, Nov. 24 (AP) — Young Rex Layne, a blood-splotched farm boy from Lewiston, Utah, scored the fight upset of the year tonight with a unanimous 10-round decision over cagy old Jersey Joe Walcott, Camden, N.J. veteran. Layne a 5-1 underdog, weighed 192, Walcott 200.

Fans surged to ringside to cheer the 22-year-old kid, who only started fighting pro 18 months ago. He whipped 36-year-old Jersey Joe all the way.

His left eye a red circle of blood from the fourth round on, Layne carried a relentless body attack to the tired veteran. Jersey Joe never showed anything like the form he displayed in his two fights with Joe Louis in 1947 and 1948.

The judges, Frank Forbes and Bert Grant, scored the fight the same way with Layne a 6-3 winner with one even. Referee Ruby Goldstein gave it to Layne 6-2 with two even. Walcott lost the eighth round for backhand punching after two warnings.

BOOSTS RATINGS

Layne's New York debut, witnessed by only 5995 fans who contributed $19,676, boosted him among the top ranks of the young heavyweights. It was only his 29th fight and he has lost but once.

The kid was obviously tight and nervous in the first round, a little awed by Walcott's reputation. But that was the only time. He bulled to the attack from the second round on, winging that straight right under the heart until Jersey Joe had to hold on.

Walcott opened a slice over Layne's left eye in the first and his seconds never stopped it from bleeding completely. It was an old cut, first suffered in a battle with Andy Walker at San Francisco.

By the time the fourth round arrived, the eye was a smudge of red. Dr. Vincent Nardiello, the Commission doctor, twice inspected the cut between rounds but found Rex able to continue.

A good looking, curly-haired lad who used to work on his dad's sugar beet farm in Utah, Layne easily weathered Walcott's periodic spurts.

Hardly another Jack Dempsey, but still a mighty-promising young fighter, the kid made a fine impression.

Hyssop Scores 6 In Sons 15-3 Win Over Tigers

MEDICINE HAT, Alta., Nov. 24 (CP) — The leading Lethbridge Native Sons tonight walloped the tail-end Medicine Hat Tigers 15-3 in a Western Canada Junior Hockey League game.

The win over Joe Fisher's helpless, outclassed Tigers kept intact Native Sons' three-point lead over the second-place Regina Pats. It was the Cats' 14th loss in 14 league games and the third game in which they had 15 goals scored against them.

Lethbridge went wild after building up a 7-2 lead in the first two periods, ramming home their last eight goals in the final stanza.

Big Normie Hyssop had a field day with six goals and one assist. It was the first time a league player had scored six goals in a single game this season and may have been a league record.

Sharing the spotlight with Hyssop was flashy centre Guyle Fielder who scored two goals and assisted on si xothers. Steve Arisman tallied three times and Jack Yucytus, Billy Dea, Jerry Towle and Howard Yonosik punched home singletons.

Ron Craven, Dino Maniago and Murray Swanson scored for the losers.

Medicine Hat captain Len Haley, well up in the scoring race despite his team's lowly position, was taken to hospital mid-way through the first period. He suffered a bad fall against the boards and fainted when he returned to the players' bench.

Hyssop was the complete show as the Native Sons showed power galore, out-shooting the 'Hatters 60-30. He scored five of his six goals in the last period, four of them coming in succession within four minutes and 33 seconds.

REGINA, Nov. 24 (CP) — Two goals in the third period tonight gave Regina Pats a 4-2 victory over Calgary Buffaloes in a Western Canada Junior Hockey League game.

Eddie Litzenberger and Garry Edmundson sniped the tie-breaking markers in the last 10 minutes. For Edmundson, the Edmonton hockey product it was his second of the night.

The other Regina goal was scored by defenceman Joe Sauve.

Ray Kinesawich and Bob McGhee tallied for Calgary.

Calgary lost the services of Norm Schriner with a leg injury when he was checked heavily into the boards by Tony Schneider in the second period.

NEW YORK, Nov. 24 (AP) —The Pincher, which races for Henry Hecht of Baltimore, won the $10,000 added William P. Burch Memorial by a head at Bowie today.

DeGirolamo Rink Wins Knock-Out Play in Ladies Curling Friday

Mrs. J. M. DeGirolamo and her rink mates, Mrs. A. Olson, Miss E. Openshaw and Mrs. O. T. Valentine, walked off with the winning honors of the Knock Out Competition, the season's opening event, Friday. The DeGirolamo quartette swept their way to a clean victory over the Mrs. H. M. Whimster rink.

A new competition, for the Collinson Cup, will get under way Monday when nine rinks take to the ice lanes.

Rinks in order of skips, thirds, seconds and leads follow:

Mrs. T. S. Jemson, Mrs. R. Little, Mrs. R. Bush and Mrs. E. Wares.

Mrs. J. M. DeGirolamo, Mrs. M. Kubin, Mrs. T. Scales and Mrs. D. T. Valentine.

Mrs. C. Taylor, Mrs. W. Hipperson, Mrs. J. Thom and Mrs. R. Buerge.

Hoopsters Meet In Nelson Today

Annual meeting of the Kootenay Basketball Association will be held in Civic Centre at Nelson today.

Representatives from Trail, Rossland, Nelson, Creston, Kimberley and possibly Cranbrook will elect officers and make plans for the coming season.

President is Bill Lucas of Trail, and Secretary, Eric Bishop of Trail.

Tying Goal in Ranger, Canadien Game Disallowed

MONTREAL, Nov. 24 (CP) — President Clarence Campbell of the National Hockey League announced today that the protest of New York Rangers over the tying goal scored by Montreal Canadiens Oct. 29 has been disallowed.

The game, in New York, ended in a 2-2 tie.

The Ranger protest was on two grounds:

1. A Canadien player was in the goal crease when the goal was scored.

2. A referee George Gravel failed to stop play when Rangers' goalie Chuck Rayner was injured in the play.

Sportsman's Park Auditor Lent Money In Old Family Tie

CHICAGO, Nov. 24 (AP) — The Illinois Racing Board today heard a Sportsman's Park auditor testify he loaned $80,000 for farm improvements to a reputed former Capone-Guzick syndicate chieftain because of an old family friendship.

The Board hearing was to sift charges and reports of irregularities of officials, employees and stockholders of the Cicero, Ill., racing plant.

Hugo Bennett, auditor for Sportsman's Park, told the Board he advanced two loans of $40,000 each to Paul (the Waiter) Ricca, reputed rackets boss of the Capone-Guzick syndicate.

Bennett said the loan, secured by mortgages on property owned by Ricca, was made because Ricca needed the money for improvements on a 1100-acre farm in Illinais and his father and Mrs. Ricca's father were old friends in Italy.

Bennett denied he had any connection with the wire syndicate distributing racing news. Bennett said one $40,000 loan was secured by a first mortgage on Ricca's house at Long Beach, Ind., and the other by a second mortgage on Ricca's farm.

William H. Johnston, President of the National Jockey Club which operates Sportsman's Park, said he had loaned $20,000 to Bennett without knowledge Bennett was loaning it in turn to Ricca at six-per-cent interest.

Coast Boxer Scores Knockout Victory

VANCOUVER, B.C., Nov. 24 (CP) —Jimmy Langston of Haney, B.C., last night scored a fourth-round knockout over Grover Jackson of San Francisco in a scheduled 10-round bout here.

Time of the knockout was 2:15 of the fourth. It was a comeback for Langston, who lost his last fight to Billy Fifield of Toronto.

Kenny McPhee of Vancouver scored a fifth round kayo over Carl Arakaki of Honolulu in the six-round semi-final.

Rangers' "Secret Weapon" in Action

Psychology and hypnotism may do wonders for some people, but it just won't work for the hapless New York Rangers. The Broadway Blues, who hired Dr. David Tracy, noted psychologist and hypnotist, to "instill confidence" and make them a National Hockey League winner, wound up on the short end again when they were forced to bow to the equally hapless Boston Bruins, 4-3, during a mid-week game in New York. It was the 13th straight game in which the Rangers have failed to win. Here the hypnotist is seen giving some of his "psycho treatment" to Tony Leswick, Ed Slowinski and Chuck Raynor.—Central Press Canadian.

Society of Friends at Work in Germany

Reconstruction work in Frankfurt, Germany, is being aided by the voluntary labor of members of the Society of Friends. Here European and American Friends, together with an Indian adherent, donate their time and labor to building homes for refugees.—Central Press Canadian.

ENGINEERS TAKE OVER—Philip West, of North Hollywood, (behind engine) moves his English-type locomotive to main line at Golden Gate Live Steamers Club meet near Oakland.

No One Allowed to Go Unsearched

An obviously nervous mother, with papoose tied tightly to her back, is the object of a close search by an M.P. in the Hungnam area in Korea. The mother's makeshift ensemble includes beanie, long trousers and wooden shoes. All civilians are rounded up in an effort to reduce guerrilla activity in the path of advancing U.N. troops. Many of the civilians, including women, have been supplying guerrillas with ammunition and grenades.—Central Press Canadian.

Killed While Target Shooting

On his way to Northern Ontario with a friend for a day's hunting, Nicholas Romanik, Toronto lawyer, stopped near Richmond Hill for target practice in a forest. The friend, Joseph Renaud, said he heard a shot while he was tying a target to a tree, turned around to find Romanik dead, killed by accidental discharge of the deer rifle.—Central Press Canadian.

Directs Clinic Of Legal Help

Secretary of the Law Society of Upper Canada, W. Earl Smith has been appointed director of a plan whereby free legal clinics will be established throughout Ontario to aid persons who cannot afford legal counsel. The plan calls for volunteer work by local lawyers who will form panels to hear the cases of persons in need of assistance.—Central Press Canadian.

C.I.O. President

CHICAGO, Nov. 24 (CP)—Philip Murray today was reelected to his 11th term as C.I.O. President by acclamation.

The action sent Murray into his second decade as head of the second largest labor organization in the United States, claiming some 6,000,000 members.

Tears for Eton Hats

HARROW, England, Nov. 24 (Reuters)— Winston Churchill has directed his powerful talents to the solution of a new crisis which now is (gently) rocking Britain: The shortage of top hats for Eton boys.

Churchill addressed a gathering of members of his old school, Harrow, here last night and shed crocodile tears for the boys of Eotn, the rival school.

"At present," he said, "they go about like shock-headed Peters. They have my deepest sympathy."

The traditional Harrow straw "boater" was "very fine" because it kept off excessive sunshine and would also, on the whole, stand up to rain.

"But look at our friends at Eton," said Churchill, wringing his hands in anguish. "They have not been able to get hats at all."

The top hats they were accustomed to are not made now.

"I wonder some old Etonian does not endow a factory to make top hats for them."

Advises Placing Hospital Cars Across Dominion

WINNIPEG, Nov. 24 (CP) — A Canadian Army doctor said today there should be six to eight railway hospital cars strategically spotted across Canada to handle disaster emergencies.

Lt.-Col. G. L. Morgan-Smith, medical officer of Prairie Command, told the Red Cross Disaster Services Institute that with such a setup there could have been "surgery on the spot in a short time" in Tuesday's troop-train wreck at Canoe River, B. C.

He said there should be more trained personnel to move stretcher cases, more stretchers and loading ramps in railway stations ready for use in such emergencies.

R.C.M.P. Manual Makes Statement On Red Doctrine

OTTAWA, Nov. 24 (CP)—The R. C. M. P., in a manual on world Communist Doctrine, states that Communists are, on principle, "traitors to everything sacred to Canadian Democracy."

"They have been so in the past, are now, and may be expected to be in the future. Those who follow their lead are either fools or traitors. There is no other choice."

The statement is made in a 227-page book, entitled "law and order in Canadian Democracy." Compiled in 1949, it includes 20 lectures covering every aspect of police duty in Canada.

SPY RINGS

No one should have been surprised, says the R.C.M.P., that nearly all the Canadians involved in Russian espionage were either leaders, or sympathizers of the Labor-Progressive Party. They were leaders in the spy ring which came to light in the Royal Commission investigation of 1946.

As for the National Federation of Labor Youth "let no one be under any illusions about that."

It is an integral part of the Young Communist International, under direct Moscow control," says the R C. M. P.

India Sends Grain To Bihar Province

PATNA, India, Nov. 24 (Reuters) —The Indian Government has sent 16,000 tons of grain to Bihar Province, threatened by widespread famine after a 10-week drought.

Army engineers have been posted to the vast province of 40,000,000 persons, India's main industrial region, to harness all available water to irrigate the parched land.

Ontario Divorce Rate Drops

TORONTO, Nov. 24 (CP) — Ontario's divorce rate has dropped to one in every 20 marriages, as against one divorce in every 10 marriages just after the war, figures released by the Registrar-General showed today. This year 2285 couples have been granted divorces, compared with 2452 in 1949. There were 44,488 marriages in 1949 and 37,558 so far in 1950.

Chevrier Opens North Pacific Weather Service

VICTORIA, B. C., Nov. 24 (CP)—Canada's new North Pacific Weather Service was officially opened here today by Transport Minister Lionel Chevrier aboard the new weather ship St. Catharines.

The service will begin next week at Station "P" for Peter, 900 miles Northwest of here.

Surface and upper air information thus supplied will provide forecasts for air routes and shipping on the North Pacific and aid meteorologists to give earlier warnings of storms along the coast and as far inland as Winnipeg.

Three ships will be used—the St. Catharines, the Stonetown and the St. Stephen, the latter a standby vessel. Ships will spend six weeks on station and then be relieved.

Judge Vows to End Juvenile Robberies

VANCOUVER, B. C., Nov. 24—(CP)—Notice that juvenile "joy-riding in hot cars" must stop has been served by Judge Mackenzie Matheson in Juvenile Court.

Fifteen 'teen-agers were convicted yesterday of stealing and attempting to steal cars. All but two of the boys, ages ranging from 13 to 17, were arrested last weekend when 50 cars were stolen in the city in less than 48 hours.

Parents were blamed and bitterly criticized by Judge Matheson for "their alarming lack of discipline".

"Most of the offenders cannot justify their actions with the usual excuses of broken homes, deprivation or emotional problems," he said. "They all seem to be swept along on a wave of wilful abandonment."

GOLD PRICE INCREASES

OTTAWA, Nov. 24 (CP) — The Canadian price of gold moved up slightly this week.

The Finance Department announced today the price in Canadian dollars for gold deposited with the mint this week will be $36.40, against $36.35 last week.

The average exchange rate for the Canadian dollar is used as the basis for determining the week-to-week gold rate. The average dollar rate this week was $1.04. The price of gold in United States dollars is $35.
