Nelson Daily News

VOLUME 49 — A COPY — NELSON, BRITISH COLUMBIA, CANADA—WEDNESDAY MORNING, SEPT. 20, 1950 — NUMBER 127

WEATHER FORECAST
Kootenay— Mostly sunny, little change in temperature. Winds light. Low and high at Cranbrook and Crescent Valley 35 and 75.

Works Program to Maintain Full Employment Asked

Municipalities Urge Savings Time Plebiscite; Assessment Changes Delay After Mill Rate Struck Is Sought

A public works program designed to "pick up the slack" and maintain full employment throughout the nation at all times was asked by the Union of British Columbia Municipalities meeting at Nelson Tuesday.

It was one of 30 resolutions dealt with in a day-long session—the 47th annual Convention—at the Civic Theatre.

It urged the Federal Government to "implement its stated policy with respect to full employment; that whenever employment, national or regional, reaches an abnormal percentage of the total employable, national or regional," the works program be "immediately instituted."

Okanagan Valley Association, which sponsored the resolution, approved the amended resolution before i was put to the meeting. It said that unemployment in Canada seriously affected the health and morale of about 400,000 citizens and their dependents. Responsibility for aiding these destitute citizens was now denied by civic, provincial and federal authorities, but the federal government had recognized the character of the unemployment problem by putting into effect the provisions of the Unemployment Insurance Act.

The three-day convention continues today and Thursday.

A resolution asking for a province-wide plebiscite on daylight saving time brought strong support from Terrace, Prince Rupert, Cumberland, Saanich, Revelstoke, Richmond and other points, emphasizing views of railwaymen, steamboat men, farmers and parents.

The reply of Ald. George Miller of Vancouver that Premier Byron Johnson had indicated a plebiscite would be of little value as long as Vancouver and Victoria wanted it, brought shouts from the floor and precipitated a succession of motions and amendments that confused everyone.

Views ranged from that of Ald. Alex Sutherland of Nelson, who declared that fast time was imposed by the "will of the minority," to that of a Victoria alderman, who suggested that the province "change business hours and leave the cock-eyed clock alone."

But in the end, with delegates asserting it was time Victoria and Vancouver checked up on their views on fast time, the convention repeated its request of last year for a vote by British Columbians.

In other resolutions the municipalities asked for power to tax or collect licence fees from trust companies and authority to place benches at bus stops for the public; approved the principle of charges for loading zones, and proposed prohibition of the sale of wild flowers.

Given probably the roughest time was the New Westminster resolution asking that the superannuation age for fire chiefs, deputy fire chiefs and assistant fire chiefs be raised from 60 to 65 years. The motion was defeated, as was a movement to have a firemen's representative, Hugh Bird, speak to the meeting.

INJUSTICE TO MEN

It would be an injustice to the men, argued Mayor G. Dezell of Prince George, who spoke against the resolution. At 65, a fire chief would be at an age where he would be unable to rehabilitate himself, regardless of his pension, whereas at 60 he would be still able to go into some other activity if he wished.

A Kootenay Municipalities Association resolution asking amendment of the Motor Vehicles Act so that garbage collection trucks would be relieved from paying licences was tossed out, but in its place Port Alberni's resolution asking that municipal vehicles owned by municipalities and used exclusively to collect garbage be exempt from payment of registration and licensing fees was endorsed.

Referred to the executive was Langley's recommendation that the exemption from taxation up to $5000 on buildings for farm purposes when located on a block of land of five acres or more be extended to owners of land of two acres or more. It will receive further study and be taken up again at the next convention.

BACK ASSESSMENT STAND

Endorsed after a couple of amendments was Okanagan Valley Association's request that any decision given by the Assessment Equalization Board after the rate bylaw has been passed in each year be not applicable to that year, but made applicable to the following year. The resolution stated hardships had arisen due to interference with assessments upon which the estimates were based, caused by Equalization Board findings after estimates had been passed by municipal councils.

Two resolutions dealing with subdividing of lands were sent to a committee composed of the Union solicitor, Colin M. McQuarrie of New Westminster, and the sponsors of the resolutions from Saanich and Langley.

West Vancouver obtained approval of a resolution asking provision for appointment of municipal foresters and payment of revenue from municipal forests to municipalities concerned.

North Cowichan won its plea that forests within municipalities should become wholly municipal projects instead of separate municipal and provincial forests.

Private hospitals being in the same class as private businesses, in the opinion of Oak Bay, that municipality's proposal that they be taxed the same as private businesses won endorsation.

The meeting endorsed in principle Oak Bay's plea that the speed limit for cars in its boundaries should be 30 miles an hour, the same as in neighboring Victoria; and Port Alberni's request that agricultural societies should not be taked. They were referred to the solicitor for redrafting.

The Union will ask the Attorney General's Department "to condone and assist in the enforcement" of the Deserted Wives Maintenance Act. At present, the Alberni resolution stated, the department now grownded on enforcement of the penalties laid out in the act. When enforcement was not insisted upon, the Department of Health and Welfare bore 80 per cent of the cost of social assistance and the city the remaining 20 per cent, which "is an unfair expense to the taxpayers."

Power for municipalities in Union Library districts to tax every person over 21 years of age was asked in an approved North Cowichan resolution. A large percentage of the library subscribers were over the age of 60 and should be just as liable to taxation as the persons between the ages of 21 and 60 now subject to a tax up to $2, it was argued.

A number of resolutions were withdrawn or held over, and others were lost after considerable argument.

The convention session reopens at 9:30 Wednesday in the Civic Theatre.

FATALLY INJURED AT CRANBROOK

Indian Found on Roadside, Believed Hit-and-Run Victim

CRANBROOK, B.C., Sept. 19 — Believed victim of a hit and run driver, David Morigeau of St. Mary's Reserve was found fatally injured on the road to the reserve about 100 yards from the highway Saturday night by four boys from the reserve. The ambulance rushed him to the hospital here where he died. Constable Richard Sheill is in charge of the investigation. Morigeau was 78 years old, and was on his return trip to the reserve on foot the four miles distance from Cranbrook.

His father was Baptiste Morigeau, French Canadian and early settler in the Windermere Valley, whose marriage to Mary Kinbasket of the Shuswap Reserve in the Windermere was the first recorded marriage in East Kootenay, and was blessed by early missionary Father Pascal.

He is survived by three sons, Joseph, Louis and Toby, and one daughter, Mrs. Nick Francis, also by seven brothers, Martin, Edward, Alec, Francis, Mercallaine, Joseph and Octave, and four sisters, Nora, Louise, Rosa and Josephine.

Gen. MacArthur Watches Pre-Landing Bombardment

Courtney Whitney; Brig. Gen. E. K. Wright, assistant chief of staff; Gen. MacArthur, and Maj. Gen. Edward M. Almond. This U.S. Army photo was made by Lt. Porter, Chicago, Ill. —(U.S. Army photo via radio and AP Wirephoto.)

U. K. LUMBER ORDER FOR B. C.

$20 Million Order Expected to Assure Peak Production

VANCOUVER, Sept. 19 (CP)—A $20,000,000 lumber order from Britain was disclosed here today, the largest order in several years.

The order, Britain's third this year, totals 260,000,000 board feet and is regarded as a guarantee of continued peak production for the industry.

It is understood prices are several dollars a thousand feet below those obtained on the United States market.

The sale restores British Columbia shipments to Britain to about half those made annually in the past. Britain formerly bought most of her lumber from B.C. until dollar shortages cut purchases.

Transport Workers Set to Strike Against Airlines

NEW YORK, Sept. 19 (AP)—The C.I.O. Transport Workers today scheduled a strike Monday against three big United States Airlines unless the planned firing of 383 men is called off.

President Michael J. Quill of the union, wired the threat to President Truman and asked the White House to intervene.

Farmer Found With Bullet in Forehead

MEDICINE HAT, Alta., Sept. 19 (CP) — Paul Flemmer, 39-year-old farmer, was found on the front lawn of his home this morning, with a .22 calibre rifle bullet in his forehead. He died in hospital this afternoon.

Police said the fatal wound was self-inflicted.

Big 3 Move To End War With Germany

Warn Russia To Keep Hands Off; No National Army Needed in Zone

By DONALD DOANE

FRANKFURT, Germany, Sept. 19 (AP)—Britain, the United States and France joined today in a warning to Russia to keep hands off Western Germany.

The three powers moved to end their state of war with Germany and to strengthen her industrially and defensively, but announced that there is no call for recreating a national army in the Western zones.

Any attack upon Berlin or upon Western Germany will be regarded as an attack upon the occupying countries themselves.

This was made clear in a communique issued by Secretaries Acheson, Bevin and Schuman after their New York conferences. The text was made public here tonight.

By JOHN HIGHTOWER
INFORM GERMANS OF JOINT PLANS

NEW YORK, Sept. 19 (AP) — Britain, the United States and France announced today they had agreed to permit the Western German Government to organize "mobile police formations" to deal with possible subversive activities of the Communists.

In a final communique, Foreign Secretary Bevin, State Secretary Acheson and Foreign Minister Robert Schuman officially informed the German Government that the Western powers are considering the problem of "German participation in an integrated force for the defence of European freedom."

The Big Three laid down a half-dozen major decisions on German occupation policy, all designed to give the Western Germans greater control over their own affairs and prepare the way for them to take a greater part in the Western community of states.

PRINCIPAL POINTS

Here are the principal points of the agreement on Germany:

1. With an obvious warning of the Soviet Union, the three announced that "they will treat any attack against the Federal Republic (West Germany) or Berlin from any quarter as an attack upon themselves." They backed this up by announcing that they will "increase and reinforce" their forces in Germany.

2. All three will take the steps necessary in their domestic legislation to end the state of war with Germany, and thus "create a firmer foundation" for friendly relations between Germany and other countries and remove handicaps to which German nationals abroad are subject.

3. The powers are prepared to revise the occupation statute although continuing the occupation itself, so that Western Germany can set up a foreign ministry and establish diplomatic relations with other countries "in all suitable cases." Existing internal economic controls of the occupation powers, as well as a review system over German legislation, will be reduced or modified.

4. The Big Three further agreed to have a new look at prohibitions and limitations now imposed on German industries. Pending the completion of that study, they have already instructed the High Commission to remove all restrictions on construction of commercial cargo ships for export and to permit steel to be produced above the present 11,000,000-ton limit. This would aid the Western defence effort.

5. With respect to Berlin, the three powers will continue to provide economic aid and will liberalize allied controls in the city as much as possible.

6. On the police force the Big Three stated they had agreed "to permit the establishment of mobile police formations organized on a land (state) basis but with provisions which would enable the Federal Government" to use this special force in emergencies. No figure was given on the size of the force but it was understood that what is contemplated is an increase to 30,000 for a previously authorized emergency force of 10,000.

"These decisions," the three foreign ministers declared, "mark an important stage in the normalization of the relations (between the West and Germany) and should contribute toward the creation of an atmosphere of mutual confidence and understanding.

"They represent a major advance toward the progressive return of Germany to partnership in Western Europe . . ."

Acheson is convinced that the American proposal to incorporate German troops into a Western European defence force has fundamental agreement among the ministers who compose the North Atlantic Council—the Big Three and nine smaller states. The Council is to resume sessions here within two weeks.

OTTAWA PREPARED

ST. PATRICK, Que., Sept. 19 (CP)—Prime Minister St. Laurent said today the Frankfurt announcement that Britain, the United States and France have agreed to end their state of war with Germany was "not unexpected."

Mr. St. Laurent, who is at his Summer home in this Lower St. Lawrence resort near Riviere du Loup, said he had no other comment to make on the announcement.

OTTAWA, Sept. 19 (CP) — Government sources said today they thought it likely Canada soon would follow the lead of Britain, France and the United States in ending the state of war with Germany.

They emphasized, however, that this step would be for the Cabinet to decide.

They were commenting on a Frankfurt announcement that the three big countries have agreed to end their state of war with their former enemy and to regard any attack on Western Germany as an attack upon themselves.

Officials here noted that the decisions were in line with recent suggestions by External Affairs Minister Pearson that Germany should be rearmed so she could defend herself against possible Communist aggression.

World Record Price For Aussie Wool

BRISBANE, Sept. 19 (AP) — A new world record price for scoured wool was established at the Brisbane sales today when seven bales brought 280 (Australian) pence ($2.63) a pound.

Continental buyers were the chief bidders with support from Britain, Japan and the United States.

Market sources said a large proportion of the continental purchases are believed destined for "Iron Curtain" countries, particularly Czechosolakia and Poland.

Reds Lose Everywhere Along Southeast Front

By DON HUTH

TOKYO, Sept. 20 (Wednesday) (AP) — United States Marines poured across the Han River by the thousands today and drove on Seoul from the Northwest.

U.S. 7th Division infantrymen and tanks stood in strength on the main road leading South from the 500-year-old capital city.

One hundred forty miles to the Southeast, attacking United Nations forces pounded more dents in the crumbling Red line around the old Pusan beachhead.

Between these nutcracker jaws, 130,000 Reds tried to stem the tides from North and South.

They were losing almost everywhere along the Southeast beachhead. Truckloads of Reds had to run through a hail of aerial bombs in a race northward to aid in the defence of Seoul.

Their attempt was born of desperation for the Marines were only eight miles from the capital.

A later field dispatch from the Seoul front reported that Marines had captured a hill four miles from Seoul. On the Inchon-Seoul highway, other Marines captured Yanghwairi, two miles from the blasted Han River bridges of the Southern approach to Seoul.

The Marine crossing of the Han began at 6:45 a.m.

Big Pershing and Patton tanks and artillery were ready to cross right behind them as the Marines swarmed off amphibious vehicles on to rice fields on the East bank.

The first waves moved toward hill positions North of Seoul believed to be defended by 4000 Reds.

FOURTH NAKTONG BEACHHEAD

While this jaw of a nutcracker was extended from Korea's West coast, attacking United Nations forces put new teeth into the other jaw along the old Southeastern beachhead.

They sent two companies into Pohang, the East coast anchor. They poured steel and flame-throwery at the Southern end. In between they carved out a fourth beachhead across the Naktong River and occupied the walled city of Kasan — for long a hotly-defended high position 12 miles North of Taegu.

Truckloads of Reds from the 140,000-man army in the old beachhead risked a gauntlet of aerial bombs to rush North toward Seoul.

The sector of the old beachhead closest to Seoul is in the Waegwan area, 140 miles away. Today a U.S. spokesman said the bulk of the Reds in the Waegwan sector appeared to have withdrawn northward.

The flying truck columns of Reds were last reported within 90 miles of Seoul—with U.S. Army troops in position South of the city to block their way.

(A Navy dispatch from Korea to Pacific Fleet headquarters in Pearl Harbor said North Korean troops were in flight from Seoul and were running North and East of the capital. Marine fighter pilots reported that many trucks and smaller vehicles were caught on the open road and destroyed. Two tanks were knocked out in the Kimpo area and others damaged.

Labor Gets Go-Ahead In Nationalization Bill

Rout Conservatives by Six Votes In Seeking Control of Steel Industry

LONDON, Sept. 19 (CP)—By a margin of six votes, the Labor Government tonight defeated a vigorous attempt by Winston Churchill to force its downfall and a new general election.

The Labor Party routed out some of its supporters from sick beds to defeat 306 to 300 a motion by Churchill, Conservative Leader, to put the House of Commons on record against placing the steel industry under state control by Jan. 1, 1951.

If the Government had lost it would have meant its downfall and an immediate general election. The vote meant that now, barring accidents, Prime Minister Attlee's Government will survive with its precarious majority until some time in 1951 at least.

The nine Liberal members all voted against the Government. Labor rounded up every vote except three—one member in Tokyo, another on the high seas between Greenland and Britain and one who was too ill to reach Parliament.

The Conservative corralling of members was almost as keen. Their vote was the biggest opposition count in the Commons since 1924.

Socialists still were applauding as they left the chamber and there were more cheers from crowds waiting in the street outside as the result came through.

Result of tonight's vote means that the Government will go ahead with nationalization of iron and steel.

The bill under which nationalization will go forward actually was passed during the previous Parliament, but action was shelved until after the general election last February when the Attlee Government was returned to power.

CHARGED WITH SABOTAGE

After the vote Parliament adjourned until Oct. 17.

In the debate preceding the big vote, Churchill accused the Government of sabotaging the national-defence drive by carrying on with the nationalization plan.

"The small number of Communists in our midst cannot at present injure our defence effort so much as steel nationalization—this act of party sabotage."

He told a crowded and tense House that Attlee's administration was "secretly preparing a new and deadly blow at national unity."

Labor's main speaker, Herbert Morrison, Deputy Prime Minister, retorted that Churchill had formed "a conspiracy to stop constitutional procedure," since Parliament approved the nationalization act a year ago.

Morrison brought roars from the House when he called Conservative leaders "new Molotovs," trying a new form of veto on an act already passed by Parliament.

VICTORY PREDICTED

Attlee accepted the steel-nationalization issue as one of confidence in his regime. If beaten, he was expected to ask the King to dissolve Parliament. That would have meant a new national election, probably next month.

A few hours before the vote, odds favored a Labor Party victory.

William Whiteley, Labor's chief whip, counted up his forces—including half-a-dozen sick men who promised to make the trip to Westminster for the big division—and reported to Attlee: :

"We will win by four votes."

The Government announced last week that the state will take over ownership of the steel industry on or about next Jan. 1. The Nationalization Act permits the take-over any time between then and Dec. 31, 1951.

As the minutes of debate ticked away and the hour of the vote neared, every available member from both sides of the House — some defying doctor's orders—packed the chamber.

Spectators thronged the public galleries. Members catcalled and shouted sarcastic remarks during the speeches.

The only member who looked at ease was Attlee himself. He slouched in his seat doodling with a pencil.

In the debate, Churchill declared: "There was no need for the Prime Minister to take this hazardous course at the present time.

"One-half of the nation ought not in such circumstances to claim the right, on so slender a margin, to knock the other half about and ride roughshod over them."

He remarked that the Government has "a majority of two, three or four seats, or whatever it is."

He said the Government's action "took all of us and our friends abroad by surprise."

Rev. J. G. MacManaway, a North Ireland Member of Parliament, braved a possible penalty of £500 to attend tonight's session and vote for the Churchill motion. His right to sit in Parliament had been challenged under an 1801 law banning clergymen as members. The Privy Council has not ruled on the case.

37 DIE IN PLANE CRASHES

26 Killed in U.S. Navy Transport, 7 in Navy Bomber

By The Canadian Press

A U.S. Navy transport plummeted into the Pacific today off Kwajalein, killing all 26 men aboard, and four hours later another Navy bomber went down in Puget Sound, bringing death to seven more.

The Navy said the Kwajalein crash, surrounded by mystery, was believed the Pacific's worst military air accident.

The big four-engined plane crashed almost immediately after takeoff and burst into flames outside Kwajalein lagoon. The tower operator said no warning had been received from the plane before the crash.

Crash boats found no survivors and picked up only four bodies in the wreckage-strewn waters. Seven of the 26 persons aboard were crew members and the rest passengers. All were Navy personnel.

The plane that plunged into Puget Sound was a Navy Privateer four-engined bomber carrying a crew of seven on a training mission. It crashed soon after radioing its Seattle base at 2:08 p.m. that it was climbing from 3000 to 6000 feet. It had reported no trouble. An accompanying plane saw it go into a spin and crash into the sound.

Boats searching the area found a wreckage-strewn oil slick but no survivors.

Another plane, a private four-seater, crashed near Bland, Va., killing four persons, all from Dekalb, Ill. The plane apparently was trying to land in a meadow.

VANCOUVER, Sept. 19 (CP) — Wreckage of a crashed plane was brought to the surface tonight at Bowen Island but bodies of two men believed entombed in the cabin were not found.

Killed in the crash—two passengers escaped with a shaking-up—were Allan N. Beach, the pilot, and N. J. Lebans. They were Vancouver men on a chartered flight upcoast.

Rains Delay Harvests; B. C. Favored

OTTAWA, Sept. 19 (CP)—Rains during the last 10 days have delayed harvesting in Manitoba and Saskatchewan, but ideal harvesting conditions are reported from Alberta, the Bureau of Statistics said today in a summary of crop conditions.

The Bureau said that while yields of cereals will be above average the quality of crops, particularly of wheat, will be "generally poor." Extensive areas have been affected by frost with the result that a "large portion" of Western Canada's wheat crop will grade No. 5 or lower.

Warm weather in British Columbia has favored the harvesting of grain and seed crops. Threshing is in full swing in the Southern sections of the province and elsewhere harvesting is general. In the Interior, good crops are reported on the irrigated lands but in the non-irrigated areas yields are poor. The apple crop in the Southern Okanagan Valley is sizing well but lacks color.

Ontario Boosts Liquor Prices

TORONTO, Sept. 19 (CP) — Liquor-price boosts of from 15 to 35 cents a bottle were announced tonight by the Ontario Liquor Control Board.

Canadian rye whiskies now selling at about $4 are boosted 25 cents on a 26-ounce bottle; $3.40 lines are up 35 cents; bottles at $3.20, $2.95 and $2.85 are up 30 cents. Canadian gins generally are increased 25 cents. The new prices go into effect Thursday.

The boosts are the result of price increases by some Canadian distillers and of the recent hike in Federal tax on spirits, Brig. J. C. Spragge, Liquor Control Board comptroller, said in a statement.

Permit Washington Hunters to Keep Game

SEATTLE, Sept. 19 (AP)—Hereafter hunters will be able to keep game birds, elk or deer meat as long as they like, the State Game Commission has decided.

The Commission, in session here yesterday, decided to lift the long-time ban on keeping birds after March 1 and deer and elk meat after June 1.

To Fly Dafoe From London to Edmonton

LONDON, Sept. 19 (AP) — Allan Grant Dafoe, 29-year-old accountant from Edmonton, today was remanded for two weeks on his own surety of £100 ($310).

The remand was granted in a London court on condition Dafoe surrender himself to police in Edmonton where he is to answer charges of forgery.

Police said Dafoe, working in Worthing, Sussex, admitted cashing five or six checks for about £500 while employed by an Edmonton lumber company.

Arrangements are being made to fly Dafoe to Canada.

Uranium Found in Australian Jungle

CANBERRA, Australia, Sept. 19 (Reuters)—Scientists have made a third uranium find in the jungle area of Australia's Northern territory. Richard Casey, Minister of National Development, said shafts have been sunk at East Finnis, the most promising of the other finds.

Water Levels
Nelson 7.79 (Monday 7.75)

And in This Corner—

NASHVILLE, Tenn., Sept. 19 (AP)—W. B. Shofner, Federal Alcohol Tax Unit agent, says his men caught a Chattanooga bootlegger pouring legal whisky into a jug so he could sell it as moonshine.

Shofner said the man reported contraband liquor sells better in wet Chattanooga than the legal brands.

HOF, Germany, Sept. 19 (Reuters)—A German smoker kept a five-cent cigar burning here today for almost three hours—a world record, he says.

The smoker, Christoph Woelfel, was one of 75 competitors who got together to see who could keep a cigar burning the longest. Given only one match and a cigar each, the competitors started the contest in a special air-tight room to avoid draughts.

But before the smoke-fest ended, doors had to be opened to keep spectators from fainting.

GODERICH, Ont., Sept. 19 (CP)—Annie is a saddle horse. When Trainer Babe Arbour hitched her to a sulky today and tried to make a harness racer of her, she—

Dumped Arbour and galloped into the centre of town;

Lowered her head and charged between a telephone pole and a guy-wire, smashing the sulky to bits;

Pounded and snorted around the town square, scattering pedestrians in all directions;

Raced into a lumber yard, played hide-and-seek with Arbour, finally calmed down and—

Got a solemn promise from him that he'd never, never try again to make a harness horse of Annie.

FAIRBANKS, Alaska, Sept. 19 (AP)—In this far-Northern trapline country, they're putting out bait to lure co-eds to the girl-shy University of Alaska.

The Fairbanks Retail Merchants Association took action after an appeal from a delegation of male students. The collegians want more girls on the campus; they are tired of the ratio that gives them only every fourth dance at parties.

The Association responded with an offer to pay travel costs of any Alaska lass "of reasonable age" who will enroll as a student. The offer is good until Oct. 1. The Association assures part-time jobs if needed.

PARIS, Sept. 19 (Reuters)—Stanislas Kudy, a rustic hermit who used to live in a packing case in the forest near Dijon, has decided to change his ways.

For years Stan has eaten "delicious" meals of acorns, grass, herbs and mushrooms. He always refused "civilized" food.

The happy-go-lucky existence ended when he was asked yesterday to report to police for investigation of his health. Entering the station, the hermit got a whiff of beefsteak and potatoes being fried in butter.

He was offered a bite, and before he finished eating, he had ordered several plates.

Today he decided to leave vegetarianism. To ensure the daily filet, he took a job with a butcher.

Woman Has Name Of Oakes' Slayer

MIAMI, Fla., Sept. 19 (AP) —A Nassau detective left by plane today for Oakland, Calif., armed with the name of a person given him as the murderer of Sir Harry Oakes seven years ago in his Bahamas mansion.

The name of the alleged slayer of the Canadian millionaire miner was supplied by Mrs. Hildegarde Hamilton, prominent Fort Laueerdale, Fla., portrait artist. Later she told reporters she didn't want to become too involved in the investigation "because it may not be safe for me to visit" in Nassau again.

Mrs. Hamilton said she repeated a story told her two years ago by Edward Majava, 31-year-old Oakland mechanic. She told the story Monday night to Asst. Supt. Augustus Roberts of the Nassau Police and Police Chief Roland of Fort Lauderdale.

Majava had told Oakland police Monday that he knew "the inside story" of the bizarre Oakes murder case and identity of the killer. Oakes, who discovered the rich gold vein at Kirkland Lake, Ont., was bludgeoned to death in 1943.

Asked by a reporter why she didn't want to become involved in an Oakes murder investigation, she replied:

"Do you remember the murder of an American woman last year in Nassau, whose body was found at the bottom of a well?

"It is generally believed that the woman knew something about the Oakes murder."

Miss Betty Renner, 37-year-old Washington, D. C., lawyer, was found dead in a well last Winter. The mystery of her death was still unsolved.

Mrs. Hamilton said she met Majava three years ago in Fort Lauderdale when he came to purchase a painting of Morro Castle. A year later, she told reporters, he came back to her studio and related the story of Oakes' killing.

Majava, she related, told that he got his story from a "blonde woman in Miami." At the time, Mrs. Hamilton continued, he told her the name of the man who supposedly killed Sir Harry.

"I told police all I knew about the story Majava told me," Mrs. Hamilton said.

Majava, arrested in Oakland on Sunday on a drunk charge, said it was Mrs. Hamilton who told him the name of the killer. Mrs. Hamilton said it was the other way around.

She refused to tell reporters the name, but said "he does live in Nassau and is a prominent man."

In New York, meanwhile, Count Alfred de Marigny, tried and acquitted on a charge of slaying Sir Harry, said he "fervently hopes the mystery can be solved.

In an interview De Marigny said that until the murderer of the Canadian millionaire is found his life will "continue to be a hell."

"People still believe I murdered Sir Harry, although I did not, and was found innocent," he said. "Finding his killer is my only chance for a 100-per-cent clear bill."

Dt Marigny, formerly a resident of Montreal, was Sir Harry's son-in-law at the time the latter was slain in the Bahamas. His wife, Nancy Oakes, stood by him during the trial but later obtained an annulment of their marriage.

De Marigny said he had been living in seclusion here for two years, denied a steady job "because everyone thinks I'm wrong."

Several pertinent facts about the celebrated slaying never have been revealed, he said, adding that the murderer "could be found in the Bahamas-Palm Beach area if they wanted to find him." He would not elaborate on whom he meant by "they."

Many Former Nelsonites At Convention

The Union of British Columbia Municipalities Convention has brought many former Nelsonites back to the City.

Three of them are city clerks — Gordon M. Berry of Duncan; H. Denis Thain of Prince Rupert and George M. Robertson of Ftrnie. Mr. Berry left Nelson in 1934 for Trail, and in 1946 moved to Duncan where he has been Clerk for three years. Mr. Thain is a son of Mr. and Mrs. H. E. Thain of Nelson. Mr. Robertson was some years ago on the Nelson City Hall staff.

"My old home town," remarked Ald. F. G. Mulliner of Victoria, one of a group that rode to the afternoon sessions at the Civic Centre in a Nelson Fire Department truck. Alderman Mulliner said he started work with the Canadian Pacific Railway here years ago. He has been in Victoria many years now, and was especially interested in Nelson's fire truck, for his Fire Warden's Committee had just purchased a new pumper. A new firehall is being opened next week in the James Bay district. Others on his committee— Ald. Mrs. Hilda Baxter and Ald. W. F. Pinfold, also rode on the Nelson truck.

Ald. Halford D. Wilson of Vancouver is also a former Nelsonite. He was a bank clerk here in the late 20's.

One of the 300 delegates to the Union of B. C. Municipalities Convention must have disposed of a lot of cigars Tuesday.

He was Alderman W. M. Skillings of Victoria, who on his arrival here Monday night, was greeted with the telegraphed news that his wife had presented him with a new son—their *fifth*.

No, there are no girls in the family!

TADANAC REEVE LOSES MOTHER

TRAIL, B.C., Sept. 19 — Word has been received here of the sudden death at Vancouver of Mrs. Elora A. Robertson, mother of A. G. Robertson, Reeve of Tadanac.

Mrs. Robertson was predeceased by her husband, George W. Robertson, Aug. 13 this year. Besides her son here, she is survived by a daughter, Mrs. Frank Peto of Vancouver.

Mr. and Mrs. Robertson have left Tadanac for Vancouver to attend the funeral service.

PHONE 144 FOR CLASSIFIED

Improvements Made to Nelson Schools During Summer Months

A detailed report of the program of building, repairs, redecorating and re-lighting at all schools in School District No. 8 during the Summer months was given at the meeting of the School Board Tuesday night.

At the Senior High School the lower main hallway, stairs, one classroom and passage adjoining were re-decorated while electric circuits were installed to supply current for outlets in one room and the commercial room. The stairs leading to the auditorium were also repaired. The men's room was enlarged to provide cloakroom accommodation. There were many other minor repairs.

Guards on machines in the woodworking and metal shops were installed in the Junior High School and small repairs were carried out in the home-economics room. Boys and girls showers were altered. The old wooden fire escape was replaced with a new iron escape. New lockers were installed and redecorating was done in five classrooms, medical room and home-economics rooms. A new automatic stoker was also installed.

At the Central School there were repairs to the floor of the gymnasium; flourescent lighting installations in three rooms and the lower hall; six classrooms and lower hallway redecorated and a baseball back-stop constructed on the Northwest corner of the school grounds.

CONVERT ROOM

Hume School saw the redecoration of three rooms and the lower hallway; an automatic stoker installed; florescent lighting provided for three rooms and the music room converted to a classroom.

Considerable work was done on school buses during the holidays. All motors were checked thoroughly and new parts were installed where necessary. Bodies and fenders were repaired and all paint was gone over. Seats were repaired and all buses were inspected and passed by Constable Scales, Inspector of Motor Vehicles. Application for the operation of such buses for the coming year were made out. Temporary changes were made in the bus schedule until the delivery of a new school bus.

It was moved that a table, chair and camp cot be supplied in the Willow Point School for use by the Public Health Nurse.

The Girl Guide Association at Salmo was given permission to use the annex of the High School for their activities.

New Hours for Bank Sub-Agencies at New Denver, Kaslo

New hours for sub-agencies were put into effect at Kaslo and New Denver this week.

The hours now are 12 to 3 p.m. Monday and Thursday at New Denver and 12 to 3 p.m. Tuesday and Friday at Kaslo.

Before the change the services were provided Thursday afternoon and Friday morning at Kaslo and Monday afternoon and Tuesday morning at New Denver.

Joint Certification For Trail, Kimberley Locals

TRAIL, B.C., Sept. 19—Kimberley and Trail Locals of the International Union of Mine, Mill and Smelter Workers have been granted joint certification it was announced today.

Albert King, President of Trail's Local 480, said this morning that the B.C. Labor Relations Board had approved joint certification of the two locals, effective Sept. 15.

Application for the joint certification was made in late July. The two unions will continue to bargain collectively, Mr. King said, and the certification "will prevent division of the two locals either by management or labor."

LETHBRIDGE, Alta. (CP)—The largest single-unit grain elevator in Alberta was opened recently three miles South of here. Costing $80,000 it has a capacity of 120,000 bushels.

EDMONTON DISTRICT COAL MINERS WILL NOT BE LAID OFF

EDMONTON, Sept. 19 (CP) — There is no immediate danger of miners in the Coal Branch 200 miles Southwest of here being laid off due to a shortage of railway box cars, railway officials said today.

The officials were commenting on reports that some 3700 miners have been laid off in the Crow's Nest Pass due to a rail car shortage.

Under Roman civil law arson was punishable by death.

WAKE UP YOUR LIVER BILE—
Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out about 2 pints of bile juice into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then gas bloats up your stomach. You get constipated. You feel sour, sunk and the world looks punk.

It takes those mild, gentle Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills. 85¢ at any druggists.

184 Voting Delegates Here

There are 184 accredited delegates at the 47th annual convention of the Union of B.C. Municipalities at Nelson.

Of these, 93 are from 32 cities; 69 are from 21 districts, and 22 are from 16 villages.

There are also 52 guests.

Many others are attending the meetings and nearly 150 wives accompanied their husbands here.

From May, 1949 to May, 1950, 398,288 immigrants arrived in Israel.

Municipalities Urged to Guard Overspending, Uphold Fine Record

Last year more civic governments indulged in overspending than in years, the Union of B.C. Municipalities convention was told at Nelson Tuesday.

More disturbing, however, said B. C. Bracewell, Deputy Minister of Municipal Affairs, was the "apparent lack of appreciation of the seriousness of the situation on the part of some municipal auditors and some municipal officials."

It had been suggested there should be more definite penalties on treasurers who failed to inform the councils or boards of commissioners of the actual facts or the likely outcome of decisions. As a former official who always saw to it that the council was made aware of any attempt at overspending and of other unlawful expenditures, he was inclined to think there should be definite penalties provided against auditors who treated their duties lightly.

There were engineers who argued that there was no obligation on them to stay within estimates nor to satisfy themselves that appropriations had been provided to cover unavoidable overexpenditures.

Likewise, there were treasurers who presented checks for signature and issued them for payment when funds were not available. According to the Municipal Act, municipalities must definitely live within their income. Revenues were "revenues collected" and should it be necessary to expend funds not collected, the municipality had the power to borrow against pledging of uncollected taxes. If these uncollected taxes were insufficient to finance a project, it required no stretch of imagination to decide that the project must not proceed.

SCORES DRAFT USE

To get over this limitation, bank drafts were resorted to. There might be some excuse for these under certain circumstances, but when current liabilities were in the ratio of five-to-one over current assets, there were "not enough valid excuses available. Apart from the legal aspects, to follow such a course is unfair to succeeding administrations."

Some auditors were inclined to gloss over expenditures in excess of lawful authority so long as personal dishonesty was not present. It should not be overlooked that the auditor "has little security of tenure and councils have been known to change auditors after receiving an adverse report."

Mr. Bracewell said he knew the majority of municipal representatives were concerned with preserving "the splendid record which municipal government enjoys in this province. Such record speaks for itself, but unfortunately can be spoiled by the few. Might I suggest that those who are convinced our principles of municipal government are sound and worthwhile give the inexperienced the benefit of wise counsel so that none shall be able to question either the motives or the standards of the municipalities and their officials?".

Holland's Queen Juliana Warns Of Defence Needs

THE HAGUE, The Netherlands, Sept. 19 (AP) —The Dutch people were warned today they would have to increase their own defence efforts.

Opening the Dutch States General (Parliament) session, Queen Juliana read the speech from the throne. The speech said:

"It is an established fact that a great effort will have to be made by the whole population to meet the changed circumstances.

"On the free peoples rests the task to ensure collective security in closest cooperation and to protect the costly heritage of liberty against any possible assault from without and undermining action from within."

Found Guilty of Attempted Murder

VANCOUVER, Sept. 19 (CP) — Alexander Cameron, 41, charged with attempted murder, today was found guilty by an assize court jury. He was remanded for sentence.

He was charged with the ice-pick wounding of Mrs. Cameron Ryan, 35, the "woman I was in love with."

He claimed in court he had suffered a "mental blackout", after Mrs. Ryan had told him to "keep away."

Protests Proposed Freight Rate Hike

REGINA, Sept. 19 (CP) — W. J. Ball, President of the Saskatchewan Federation of Agriculture, said today he has wired the Board of Transport Commissioners at Ottawa protesting the proposed increase in freight rates. The increases are effective Oct. 2.

British Anxious Over American Air Competition

WASHINGTON, Sept. 19 (AP)—The British Government today was reoprted concerned that a forthcoming shift in trans-Atlantic air service may result in top-heavy competition from United States airlines.

The new set-up is scheduled to to go into effect when Pan American World Airways aborbs American Overseas Airlines.

British anxiety was disclosed by key officials privately after a third company, Trans-World Airline, asked the Civil Aeronautics Board to delay completion of the Pan American-Overseas merger on the ground that objections by foreign governments would prevent the start of services planned for Sept. 30.

In general, the three United States airlines now carry almost two-thirds of all air traffic across the Atlantic. A little over one-third is divided among British, French, Dutch, Scandinavian and other foreign airlines.

The merger was approved by President Truman with a requirement that the two remaining lines —Pan American and T.W.A. — be given competitive routes to major traffic points in Europe.

DEATHS

By The Canadian Press

Jackson, Miss. — Martin Sennett (Mike) Conner, 59, Governor of Mississippi from 1932 to 1936.

New York—City Magistrate Morris Rothernberg, 66, former President of the Zionist Organization of America.

Labor Members Escape Injury In Car Accident

LONDON, Sept. 19 (Reuters)—An automobile accident that might have caused a national election in Britain occurred in London late last night.

Four Labor members of Parliament, whose votes will be desperately needed in Parliament tonight if the Labor Government is to survive the Conservative censure vote, were involved in an accident while driving home from a late House session.

Their car crashed through an iron railing and teetered over a sunken basement entrance.

All four escaped injury.

Salt Drink Cure For Alcoholics

NEW HAVEN, Conn., Sept. 19 (AP) — Take a drink of salt water when you reach the stage of really craving alcohol, say two New York doctors who have made a study of the problem.

Because, it is explained, your body is really craving salt, even though your palate says alcohol. There's nothing imaginary behind this sensation, the study indicates. It's a purely physical reaction which fools your senses.

The study is reported by doctors W. D. Silkworth and M. Texon of the Knickerbocker Hospital, New York, in the quarterly journal of alcohol. They analyzed the blood of persons who had been drinking heavily enough to be sent to hospital. In all cases they found the salt (chloride) reduced.

The recommended salt drink, says the report, is two grams of salt in 30 cubic centimetres of water, followed by a 200 cubic centimetre of water. Or a small teaspoonful of salt in a little more than an ordinary glass of water.

Atlantic Council Rejects Turkey's Pact Application

LONDON, Sept. 19 (Reuters)—The Atlantic Pact Council has turned down Turkey's application for full membership in the alliance, usually-reliable sources said here today.

Reason is that most members of the Council are unwilling to stretch the obligations of the pact during the present international crisis, these sources said.

Failing full membership, the Council is understood here to have proposed that Trukey, and also Greece, should maintain continuous contact with the military chiefs of the Atlantic Pact powers concerned in the defence of the Mediterranean.

Rockingham Honors Canada's Brigade

OTTAWA, Sept. 19 (CP)—Training among the various regiments making up Canada's special brigade force is proceeding so well that soon the entire force may be concentrated in one area and trained as a single unit, Brig. John M. (Rocky) Rockingham said today.

The Commander of Canada's special brigade which may see action in Korea or elsewhere told a Lions Club luncheon:

"In the near future, it is our intention to concentrate the Korean force and train it as a unit.

"The place of concentration and the date on which we will bring the unit together as a single force is not yet decided."

Brig. Rockingham called on Canadians to honor and respect the men of the special force "for their service."

"They have come out of quiet homes and volunteered for duty where they can expect nothing except the opportunity of having their heads blown off."

Certainly, none of the men deserved the description of "dead beats, unemployed, or those who sought to run away from family responsibility."

Firemen Succeed As Doctors Fail

LONDON, Sept. 19 (CP) — Firemen called to St. Olave's hospital succeeded where doctors and surgeons had failed.

The firemen received an emergency call and arrived with full fire-fighting equipment to find that they were required to remove a ring from four-year-old Cheryl Eyles' finger.

The doctors had tried almost everything — hacksaws, files and grease but the ring proved too tough for them.

Put on their mettle, the firemen screwed a grindstone to an operating table, and while Cheryl was under anaesthetic, ground away at the metal ring.

An hour later Cheryl was restored to her worried parents, none the worse for her experience.

Transfers Property To Native Churches

TORONTO, Sept. 19 (CP)—General Council of the United Church of Canada decided last night to transfer all the Church's property in China and India to native churches.

Rev. D. H. Telfer of the British Columbia Conference told the General Council:

"We are transferring great properties to the Church of China, recognizing that the time has come to hand over not only our work but also properties into which we have poured hundreds of thousands of dollars."

Venezuela's current oil production is about 1,500,000 barrels a day.

N.Z.'s Korean Volunteers Begin Five Weeks' Training Program

By J. C. GRAHAM
Canadian Press Correspondent

AUCKLAND, N.Z., Sept. 19 (CP) —Although volunteers for New Zealand's force for Korea are now in camp and training, there is still a great deal about the force and its role that has not been announced, presumably for security reasons.

It has been announced by Defence Minister T. L. MacDonald that the New Zealand unit will be the artillery component of a British Commonwealth brigade, and will include, in addition to artillery, signals, electrical and mechanical engineers and other ancillary units. The original statement of its size was that it would probably be from 1500 to 2000 men.

FIVE WEEKS TRAINING

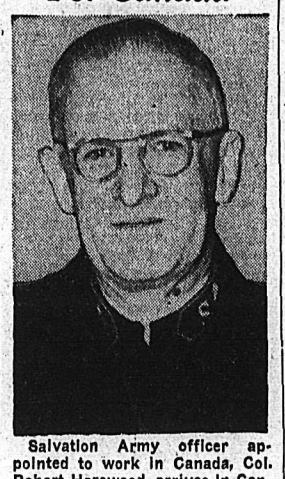
Brig. K. R. Park, a First World War soldier who was chief New Zealand liaison officer in London in the Second World War, has been appointed overall commander of the force. He will be concerned with administration duties and will not have operational command. Lt.-Col. J. W. Moodie will command the artillery unit.

The volunteers entered camps at three centres on Aug. 29 to begin five weeks' basic training. Later the force will be concentrated at a single camp to complete its artillery training.

A proportion of the men are ex-servicemen but, as a large number have had no previous experience, a full training program is needed. No announcement has been made on the length of the course of the likely date of departure.

Fortunately New Zealand has a ready-made training organization available. Under the Dominion's conscription scheme, a keen and enthusiastic training cadre has been built up. A draft for 18-year-olds had just vacated the training camps, so that all facilities were immediately available to start the Korean force men on a proved and up-to-date training schedule.

New Officer For Canada



Salvation Army officer appointed to work in Canada, Col. Robert Harewood, arrives in Canada from Australia. Col. Harewood becomes second-in-command of Salvation Army in Canada and Bermuda, succeeding Col. William Dray, O.B.E., appointed to London, England. Col. Harewood will hold office in Toronto.
—Central Press Canadian

Canadian Warships On Anti-Sub Course

LONDONDERRY, Sept. 19 (CP)—Three Canadian warships, ending a stiff two-week anti-submarine training course, will leave this North Ireland port for Rosyth, Scotland, second port of call on a three-week European training cruise.

Included in the Canadian squadron are the aircraft carrier Magnificent and the destroyers Huron and Micmac. The two-week course carried out by the joint Royal Navy-Royal Air Force anti-submarine training school will provide the basis for future Canadian warship training to deal with the U-boat menace.

Most of the exercises were held at sea in rugged ocean weather, including fog, low clouds and winds of gale force.

Discusses Defence In South Pacific

MELBOURNE, Australia, Sept. 19 (Reuters) — Gen. George Kenney, wartime American commander of the Allied Air Forces in the Southwest Pacific, said today arrangements may soon be made for American and Australian Air Forces to exchange "ideas and personnel".

Complimenting Australia on her air training system, Kenney said the Russian Air Force "has the numbers and the equipment, but man for man I do not think they are as good as Allied airmen; we have the best pilots and the best planes.

"The Anglo-Saxon 'gang' — comprising America, Canada, Britain and Australia — have facilities to learn quicker, fly faster, and do a better job."

British Mayor to Demonstrate How To Make Traditional Cornish Pasty

By WILLIAM BOSS

FALMOUTH, England, Sept. 19—(Reuters)—Mayor Albert Baker's mouth is watering already.

Mayor Baker's a baker, and for 10 years the Cornish pasties he's been turning out — "well, not as good as pre-war, you know."

Pasties—pronounced pasty, with the "a" flat as in "appetite"—are traditional Cornish specialties, lush meat-filled pastry shells.

Mayor Baker—Cocked hat, red plush robes, chain of office and all—leaves Sept. 26 on a tour of the United States, Canada and Jamaica. And the plastics he's going to make . . .

Perhaps the Western hemisphere will include them in its diet as a result of his trip.

Besides carrying greetings to the 11 Falmouths and three Truros (good Cornish names both) he's going to visit, his worship is going to demonstrate pasty-making.

Highlight will be his demonstration in Chicago to the annual conference of the National Cooks' Association. Daughters of the Empire in Windsor, Ont., also will be shown the secret.

ALL THE TRIMMINGS

"Over there," Baker said, "I'm going to make Cornish pasties with all the trimmings. Here we have been sadly hampered by rationing of fats and meat."

The "trimmings", if you follow the mayoral recipe (hallowed by tradition) means:

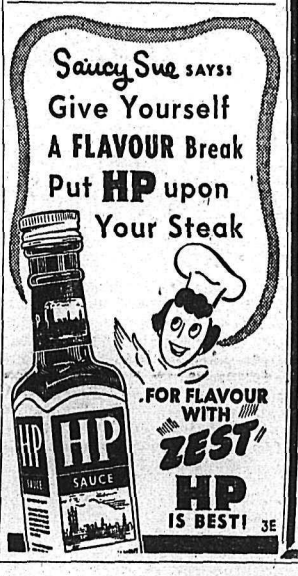
Half quantity lard to flour for the pastry. For filling, fairly-fat steak and kidney to half the weight of the potatoes when peeled.

Chop the meat small, "but don't use a mincer or you'll lose the juices." Add chopped onion and a little turnip and seasoning.

Warning: "The filling must be put in raw."

"When done, the pasty should ooze gravy. Do not use a knife and fork. Bite off the left-hand corner and eat your way slowly through the pasty, which should be about the size of a dinner plate."

About 60,000 school children in British Columbia have enrolled in school forestry clubs sponsored by the B.C. Branch of the Canadian Forestry Association.



Labor Members See Marshal Tito

BELGRADE, Sept. 19 (Reuters) Marshal Tito last night received three British Labor Party officials at the conclusion of their 10-day visit to Yugoslavia. The three were Sam Watson, Chairman of the Labor Party, Morgan Phillips, General Secretary, and Harry Earnshaw, Executive Committee member. They spent two hours with Tito, and then dined with him.

PHONE 144 FOR CLASSIFIED.

Toronto Teachers Appeal for Raise

TORONTO, Sept. 19 (CP) — Toronto's 800 secondary school teachers last night asked Board of Education for a raise in pay. Board officials said later that any revision of salary schedules would automatically include 2000 public school teachers.

The present salary schedule, put into effect 20 months ago, provides for a minimum of $2000 a year for high school teachers with no experience and a maximum of $4800, reached by increases of $200 a year. The public salary range is from $1800 to $4000.

The secondary school teachers want a $2800 minimum and a $5800 maximum. For 1951 only, they propose that the annual increase be at least $600 and possibly $1000, instead of the usual $200.

The average salary for Toronto high school teachers this year is said to be about $4000.

The only "Instant" coffee backed by 85 years of coffee experience

Movie Gossip—

Jeff Corey Requests Oscar For Hollywood Make-Up Men

By BOB THOMAS

HOLLYWOOD, Sept. 19 (AP)—An actor's best friend is his make-up man ,says Jeff Corey, who asks for an Oscar to reward the craftsmen of the grease paint.

"Sometimes the make-up man contributes 50 per cent of an actor's performance,' 'says Corey, who is perhaps the busiest character actor in town. "He is just about the only creator in motion pictures who is not given an academy award. I think it's time he received some recognition.

"Make-up men are creators in every sense of the word. Many of them are fine sculptors and painters. They study the script carefully and devise the right make-ups for the historical period and the dramatic effect."

CAREER INSURANCE

Make-up men are career insurance for character actors, Corey says. During 1950 alone, he has portrayed a sun-baked Indian, a grizzled frontiersman, a working man, a New York cop, and has just started a role as a bearded Moslem.

"In some roles, I have so much make-up on that you can't recognize my real face," he said. "In that way the public doesn't get too tired of my face and I can play as many roles as I want."

The actor said that movie make-up men have reached the height of a craft that began in the sixth century B. C. In the days of Thespis, presumed originator of drama, Greek actors sought ways to project themselves to the balcony seats.

They wore raised shoes to make themselves taller (as some actors do today). They raised their belt lines to their chests for the same reason. And they wore masks—different colors and expressions to denote different moods.

SLAP IT ON

Movie men have revolutionized make-up in recent years, he added. "When I was first on the stage, it took 20 to 30 mintues to put on simple make-up. Nowadays, it all comes in one tube and you just slap it on.

"The studio men have also made great strides in the use of plastic and rubber products for facial features."

He illustrated with some of the great make-up jobs of past and recent Hollywood history: Boris Karloff as Frankenstein; Irene Dunne as Queen Victoria; Jose Ferrer as Cyrano; Lon Chaney as the Wolf Man; Ann Blyth as a mermaid.

"Achievements like these are certainly worthy of academy awards," Corey said.

Dress Up With Marian Martin

9091 ONE SIZE, MEDIUM

Miss Jean Elder of Nakusp was a visitor of Mrs. A. D. Kelsall.

Mrs. Thomas R. Flint visited friends in Nelson, accompanied by Mrs. May Crellin, who visited her son and daughter-in-law, Mr. and Mrs. David Crellin.

Miss Miyo Yokoyama of Rosebery returned from Nelson where she visited Mr. and Mrs. Charles Isakson and son, Eddie.

Lindsay Carter of Sandon visited his parents, Mr. and Mrs. A. E. Carter.

Mrs. William E. Rowe returned from Nelson where she visited her sister-in-law, Mr. and Mrs. L. Cote.

Mrs. Thomas R. Flint and grandson, Bobbie Steenhoff, left for Rossland to visit the former's son and daughter-in-law, Mr. and Mrs. Ivan M. Flint.

Constante Stedile returned from Vancouver where he was for two months.

Mrs. Lance Emerson of Trail was visiting her aunt, Mrs. C. J. Sinclair and also her sister, Mrs. Frank Mills of Silverton, a patient in Slocan Community Hospital.

Lardeau

LARDEAU, B.C. — Mr. Lockwood, Mr. Cherrington, and Mr. Johnson, officials of the C.P.R. were visitors to Lardeau.

Mr. and Mrs. Ernest Alexander and son left on holidays last week for Castlegar from whence they flew to Alberta to visit friends and relatives.

Bombazine cloth was first introduced into England by the Dutch.

Do you suffer from hot flushes, nervous tension, upset emotions—due to 'change of life' during that period when fertility ebbs away, when embarrassing symptoms of this nature may often betray your age?

Start taking Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. No other medicine of this type for women has such a long record of success. Taken regularly, Pinkham's Compound helps build up resistance against such middle-age distress. A fine medicine made *especially* for women. *The woman's friend!*

NOTE: Or you may prefer Lydia E. Pinkham's TABLETS with added iron.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

"Prayer of the Right Sort Way to Overcome Trouble," Audience Told

A lecture on Christian Science entitled "God's Antidote for Trouble," was delivered by Paul Stark Seeley, C.S.B., of Portland, Ore., member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., at the Capitol Theatre Tuesday night.

The lecturer spoke substantially as follows:

One of the commonest things in the world is trouble. Nearly everyone has some of it. There are many kinds. A few are sin. sickness, sorrow, fear, lack, discouragement, strife, and world problems. One thing all men can agree on: they would all like to be rid of trouble. It is mankind's number-one enemy. Trouble takes the joy out of life; it robs us of happiness, health, and peace. The common need of everyone, everywhere, is to learn how to get rid of trouble. Christian Science provides this know-how.

FREEDOM FROM TROUBLE

The purpose of Christian Science is so intimately to acquaint men with their source, God, that they can utilize the forces of the loving intelligence which God is, to free themselves from all trouble. Because its teachings have proved they are a reliable antidote for trouble, the Christian Science movement has grown from a single organization in Boston, Massachusetts, in 1879 to over thirty-two hundred organizations in forty countries in 1950.

All should know that Christian Science is based on the Bible. It teaches nothing which is at variance with the Scriptures.

Says Mrs. Eddy on page 91 of Science and Health: "Let us rid ourselves of the belief that man is separated from God, and obey only the divine Principle, Life and Love. Here is the great point of departure for all true spiritual growth." Our freedom from trouble appears in the measure that this ridding ourselves of the belief we are separated from God is accomplished.

TIME HAS NO EFFECT ON TISSUES

A group of physicians and surgeons recently announced that "years alone have no effect in bringing about the degenerating disorders. Time has no effect on human tissues. Those who develop a time neurosis (a fear of time)· subscribe to the prevalent superstition that time is in some way a poison exerting a mysterious cumulative action."

It is not time that brings decrepitude. It is mortals' ignorant belief that time can deplete them that needs to be overcome. Life is immeasurable; Life is God. "This is life eternal," said he who knew, "that they might know thee the only true God, and Jesus Christ, whom thou hast sent" (John 17:3). In other words, eternal life comes by knowing God as the only true Life and by understanding Christ Jesus' work as the demonstration of man's sonship with the Father, Life, superior, as is God, to time and destructive forces.

If we are to get rid of trouble, here is a point to remember: God causes us and also governs us.

Can you imagine the principle of mathematics giving up control of any number? No more can causative Mind ever yield jurisdiction over man, which it exercises through its moral, spiritual, intelligent forces, or laws. What God makes, God governs, primarily, presently, eternally. From this standpoint Christian Science refuses to budge.

Christian Science is a revelation; its source is the one Mind. The revelator, Mary Baker Eddy, discerned the true ideas of God and man because, like the spiritual-minded prophets, her thought was less darkened with mistaken material concepts than the thought of those about her. When there is a rift in the clouds, the sun shines through.

MATERIAL SELFHOOD AN ENEMY

The worst enemy you and I have is the material sense of self, which we have been educated to believe is our true self. The Bible portrays two concepts of man: first, the man God makes in His likeness; second, the man who was begotten by Adam and Eve, the mortal, material sense of man, of whom Paul said, "They which are the children of the flesh, these are not the children of God" (Rom. 9:8).

Sometimes it is said Christian Science is good for nervous troubles but not for organic diseases. But one trouble rates no higher with God than another. God heals them all as Christian Science is understandingly applied.

There is one place where you and I can overcome trouble. That place is in our own consciousness. Only there did Jesus say the kingdom of God can be found. The first lesson each of us needs to learn is that "each individual is responsible for himself" (Miscellaneous Writings by Mary Baker Eddy, p. 119). Each has the ability to control his thoughts, which in turn control his life. So if the trouble-making thoughts of mortal mind knock at the door of your consciousness, tempting you to be sick or sinful, fearful or discouraged, you do not have to keep company with them. Rather see and declare their complete unrelatedness to you as the son of God, and you to them.

Christian Science practitioners are to give aid to those whose understanding of Christian Science needs support in some particular need, but to get into the habit of leaning on a practitioner whenever error knocks at your door is to delay your advancement Godward. The major part of the work of spiritualizing one's consciousness and life canot be delegated to others. How willing are you to work? What is more important for you to understand than from whence you came and whither you are bound?

Jesus taught us to come to God by thinking rightly of God as the Father, Spirit or Mind, of man as His son, or expression, one with the Father, of love for God and man as the most essential thing in life, of meekness, purity, and good will as qualities indispensable to real manhood. He taught and proved that in these simple truths is God's antidote for all trouble.

WHERE PRAYER COMES IN

Prayer of the right sort is the way by which to overcome trouble—not the prayer that asks God for personal favors as though He liked to be implored, and then to grant or withhold His favor as suits His fancy. "Prayer," writes Mrs. Eddy, "cannot change the Science of being, but it tends to bring us into harmony with it" (Science and Health, p. 2). This is the motive of prayer, to bring our thought into harmony with, into agreement with, God and His law. In the degree this is done we benefit.

The student must turn thought completely away from the material scene. He must find God, His allness, the perfection and harmony of God's kingdom and man, and then realize that in this spiritual reality is the truth that reverses and nullifies error's lie that may be arguing to him.

FUNERAL SERVICE FOR W. J. MAHAN HELD AT LISTER

CAMP LISTER, B.C., Sept. 19—Funeral services were held here from All Saints Anglican Church last Wednesday for William John Mahan, 42, who died at his home Sept. 10. Rev. McNeill officiated.

He is survived by his wife and son in Camp Lister and six brothers and two sisters.

Born in Donegal County, Ireland, Jan. 19, 1908, Mr. Mahan came to Canada in 1926, residing at Aneroid, Sask. In 1944 he took up farming in Camp Lister where he resided with his family at the time of his death.

Pallbearers were W. K. Beard, R. W. Graber, A. H. Donaldson, A. Milne, E. W. Staite and K. Demster. Interment was in the Camp Lister Cemetery.

Alta. Spends Heavily In Polio Treatment

EDMONTON, Sept. 19 (CP)—More money has been spent by the Canadian Foundation for Poliomyelitis in treatment of post-polio cases in Alberta than in any other province except Ontario, Horace Brown of Toronto, executive director of the foundation, said in an interview today.

Mr. Brown said $2381 had been spent on polio in Alberta so far this year and another $1000 will be presented Thursday to the University Hospital in Edmonton.

Representatives from Edmonton, Calgary and Lethbridge will meet with Mr. Brown Thursday to discuss formation of an Alberta chapter of the foundation, which will take over a fund of more than $3000 if it is created.

Johnson's Ldg.

Obstetrical Care Makes Big Gains

WINNIPEG, Sept. 19 (CP)—Winnipeg General Hospital, in a brochure celebrating opening of its new maternity pavilion, recalls that its first maternity section more than 60 years ago had only 17 beds.

"In 1888 custom dictated that all women who could were delivered at home," writes Dr. Ross Mitchell, head of the hospital's honary consultant staff.

"This left for a maternity hospital only four classes—unfortunate girls, the destitute, rural patients who had no friends with available homes in the city, and those whose labors were expected to be extra difficult or hazardous."

Today Winnipeg has seven maternity hospitals with 282 beds.

REAPPOINTED TO ALTA. LIBRARY BOARD

EDMONTON, Sept. 19 (CP)—Louise Riley of Calgary and Flora Macleod of Edmonton have been reappointed to two-year terms on the Alberta Library Board, it was announced today in the Alberta Gazette.

The Missouri River is 3047 miles long and 3000 feet wide where it joins the Mississippi.

NO GLAMOR TO "PERLONS"

NOTTINGHAM, England, Sept. 19 (CP)—Perlon stockings, made from a synthetic German yarn, were tried out by British scientists here.

Guinea pigs were women members of the staff.

Verdict: they look like cheap, shiny, plated rayon. They are so hot to wear they give a prickly heat in 10 minutes.

Opinion of an onlooking male: "They haven't got glamor."

The name Austria is derived from Oesterreich, or Eastern Kingdom.

Ferrier's Voice Hailed As "Superb"

LONDON, Sept. 19 (CP)—Kathleen Ferrier's voice is "simply superb," says Leopold Stokowski.

Commenting on her performance in Mahler's "Das Lied van der Erde," the renowned conductor said the English girl's voice was "full and beautiful, the intonation perfect, the phrasing so elastic and the interpretation so eloquent."

In this particular work, Kathleen sings the mezzo-soprano part, but she ranges through soprano and contralto with equal facility.

Her singing career started as the result of a bet.

While working as a telephone operator, she entered an English music festival as a pianist. For a wager, she also competed in the singing division and won a first prize.

RAPID SUCCESS

A period of training led to her professional debut and success followed success. Her reputation spread rapidly and she found herself singing in the leading opera houses and concert halls of the world.

Among her outstanding performances was that in "Das Lield van der Erde" at the first Edinburgh Festival, which led to an invitation to sing the work under Bruno Walter in New York.

At this year's Edinburgh Festival, she sang Brahm's alto rhapsody for contralto and orchestra.

Born and brought up in Lancashire, Kathleen left school at the age of 14. She entered the post office as a telephone operator, studying piano with little idea of a music career until the wager which won her international acclaim.

Britain plans to buy three times as many Brazil nuts this year as she did in 1949.

Marion Zeznik Reigns Over Fair

One of the highlighting events of the West Kootenay Exhibition here was the colorful queen crowning ceremonies which brought the event to a close Saturday night. Miss Marion Zeznik, attractive Nelson miss, was enthroned for 1950-51.

Miss Zeznik is pictured receiving the congratulations of Mayor N. C. Stibbs who escorted the queen to her throne. She was crowned by Miss Barbara Serres, retiring queen.

Miss Vivienne Monteleone and Miss Dorothy Wassick were princesses and Miss Helen Sutcliffe, Miss Lorraine DeGirolamo and Miss Noreen Elphick, attendants. Flower girls were Betsy Mosher, Sheila Morris, Joyce Lefeaux, Sandra Ryalls and Nancy McAdams while Tommy Barton was page boy. Also pictured above are Walter Hendricks, M.L.A. for Nelson-Creston who escorted Miss Serres, H. A. D. Greenwood, Kinsmen deputy governor, and George Gelinas of the Kinsmen Club committee. Kinsmen sponsored the queen contest.—Photo by Dick Mulloy.

Delegates' Wives Entertained at Tea

More than 100 wives of delegates to the Union of B.C. Municipalities convention in Nelson attended a tea Tuesday afternoon at the home of N. C. Stibbs, Mayor of Nelson, and Mrs. Stibbs, 306 Silica Street.

Mrs. Stibbs and Mrs. G. S. Baker of Kaslo, wife of the president of the Association of Kootenay Municipalities, received the visitors, and Mrs. W. A. Gordon, Mrs. Joseph Kary and Mrs. Robert Riesterer invited them to the dining room.

A lace table cloth, centred with a bowl of sweet peas, covered the tea table, and floral decorations were to be seen throughout the reception rooms.

Pourers were Mrs. E. G. Fletcher, wife of Trail's mayor; Mrs. R. E. Sang, wife of Cranbrook's mayor; Mrs. Walter Hardman, wife of Revelstoke's mayor, and Mrs. E. V. McGauley of Rossland.

Caterers were members of the Women's Missionary Society of St. Paul's and Trinity United Churches in Nelson.

A number of the women toured Mount St. Francis, newly-built home for Kootenay-Boundary's aged and inform, in the afternoon. Today the delegates' wives will be entertained at tea by the West Kootenay Power and Light Company at South Slocan.

Rossland Circle To Assist at "Open House"

ROSSLAND, B.C., Sept. 19—Martha Circle of St. Andrew's Church has made plans to assist the Women's Auxiliary with an "open house" tea and rummage sale, both scheduled for October.

Members made the arrangements at a meeting at the home of the president, Mrs. Fraser Mitchell. Refreshments were served by the hostess.

The name of the card game Faro originated from the picture of an Egyptian king or "pharoah" on the back of one of the cards of an old French pack.

Kimberley Rotarians Attend Inter-City Meet at Kalispel

KIMBERLEY, B.C., Sept. 19 — Kimberley Rotarians attending the inter-city meet held in Kalispel early this week were E. Taylor, M. Garden, F. Holmes and E. Whistlecroft.

The program included a tour of the Hungry Horse dam, a boat ride on Flathead Lake, and a ride on the Whitefish chair lift.

Kimberley will be host to the inter-city meet next September.

The Bakhra Dam in India, which will irrigate some 3,500,000 acres of land, will be in operation in 1956.

Famed Soprano To Open Trail Concert Series

DOROTHY MAYNOR

Trail and District lovers of fine music will be in their element this season, when the Celebrity Concert series gets under way November 9 with the first of four concerts by famous artists.

The series, sponsored by Trail and District Celebrity Concert Association in Trail will be introduced by Dorothy Maynor, internationally famous soprano, who has sung with such great symphony orchestras as the New York Philharmonic, the Boston Symphony, the Philadelphia Orchestra and the Chicago Symphony.

The three remaining Celebrity events will bring Geza de Kresz, Hungarian-born violinist, and Norah Drewett, piano-accompanist, in a sonata recital on November 22. Amparo Iturbi, renowned pianist, will take to the stage December 18, and Kenneth Spencer, bass-baritone of Broadway's "Show Boat" fame, will be heard on March 23.

The Trail and District Celebrity Concerts have, this year, been booked by Celebrity Concerts (Canada) Limited, who have been presenting concerts of celebrity calibre for a great many years.

WARDNER FARMER, D. J. GARRETT, DIES

CRANBROOK, B.C., Sept. 19—Farmer in Wardner district since 1942, David Jack Garrett died at the hospital here Sunday after a week's illness. He was born 71 years ago at Ripley, Ont., lived in the United States as a young man, and returned to Canada in 1908.

He had lived alone on his Wardner farm for the past eight years.

Surviving relatives are a niece, Mrs. Helen Booth of Cleveland, Ohio, and a nephew, Jack Graham of Goderich, Ont.

R. Smith Presented Gifts From Wynndel Fellow Workers

WYNNDEL, B.C., Sept. 19—Dave Taylor, manager of the Co-operative Fruit Growers, Wynndel, presented Roy (Hap) Smith with mementos from the office staff, directors and staff of the shed on the occasion of his leaving the staff.

He served as engineer and mechanic for many years. The gifts were suitably acknowledged.

The exploration of the whole coast of Australia was made in the years 1837-53 by Darwin in the Beagle.

Newlyweds To Live In Rossland

ROSSLAND, B.C., Sept. 19—Amelia (Millie) Sdao, younger daughter of Frank Sdao of Rossland and the late Mrs. Sdao, and Reeves Storey, son of Mrs. Henrietta Storey of Blairmore, Alta., and the late Mr. Storey, exchanged marriage vows in a quiet ceremony in Colville, Wash.

The bride was attired in a white wool gabardine suit with a red felt hat and gloves, and gold accessories. Her ornaments were a gold necklet and a corsage of red carnations.

Attending her sister was Mrs. Murray McLellan of Rossland, who had chosen a powder blue gabardine suit, worn with grey felt hat and accessories. Her corsage was of pink carnations.

Mr. Murray McLellan was best man.

When they return from a honeymoon in Spokane, the couple will make their home in Rossland.

JOURNAL TELLS OF ADVANCE OF G. FORKS GAZETTE

A policy of progressive improvement of his business has won mention for Stanley Orris, publisher, and his newspaper, the Grand Forks Gazette, in Linotype News, printers' trade paper.

The Gazette building, housing one of Kootenay-Boundary's top weeklies, and Publisher Orris are pictured. Says the News:

"Since he purchased the Grand Forks (B.C.) Gazette from T. A. Love, M.L.A., five years ago, Stanley Orris, a native of Winnipeg, has had the building remodeled and he has wrought many improvements in the business.

"He has installed a new newspaper press, a new jobber, and several additional type faces for his linotype, and as well has branched out in the stationery business.

The Gazette has been enlarged until it is now a 12-page paper, and Mr. Orris has brought distinction to Grand Forks through the winning of several newspaper awards.

P-C's ELECT DELEGATES TO COAST MEET

Delegates to the B.C. Progressive-Conservative Association convention in Vancouver Oct. 6 and 7 were named at a meeting of the Nelson-Creston Progressive-Conservative Association in Legion Hall Tuesday night.

They are Rufus Gilday, Mr. and Mrs. R. B. Allan, Mr. and Mrs. L. M. McBride, Mrs. J. O. Dolphin, Mr. and Mrs. E. E. L. Dewdney, W. Forrest and F. N. Emmott.

Crystal Ball Gag Pulled on U.B.C.M. Secretary

R. R. F. Sewell of Saanich, secretary of the Union of B.C. Municipalities meeting in Nelson, can now go into the fortune-telling business—and all because of the Association of Kootenay Municipalities.

A crystal ball was presented the secretary at Tuesday's opening session by P. C. Stewart of Tadanac, the inspiration being last year's convention request to Mr. Sewell for bulletins on the fate of resolutions presented to the government, with reasons for rejection where they failed.

Mr. Sewell had told the 1949 convention that he'd need a crystal ball to give the reasons for rejection.

GBS More Talkative

LUTON, England, Sept. 19 (Reuters)—George Bernard Shaw, who underwent an operation for a broken thigh a week ago, was described today by hospital officials as "bright, cheerful and even more talkative than yesterday."

Last night he had to be ordered to turn off his bedside radio and go to sleep. A radio version of one of his own plays, "Saint Joan," was being broadcast.

LONDON (CP) — Nurses at London's King's College Hospital have double trouble in the maternity section. Four sets of twins were born in one ward.

One-Time Slocan City School Marm at Confab

Blonde, attractive Mrs. J. Arthur Cameron, who is attending the Union of B.C. Municipalities convention for Richmond, is back in old stamping grounds.

Mrs. Cameron was a school teacher in Slocan City in 1929-30, and as she says, "stayed there long enough to marry." Her husband is a Slocan City man, and his father operated a stage service between Nelson and Slocan City.

What's more, she hasn't missed an opportunity of returning to the Kootenays for a visit each year. "I know a lot of people here," she explains.

Besides her role as Richmond Councillor, Mrs. Cameron is publisher and editor-manager of the Marpole Richmond Review. She has been a school trustee four or five years, and was on the executive of the B. C. School Trustees Association. Mrs. Cameron is right in Richmond community life. "When you run a paper, you have to be," she said.

Mrs. Cameron is one of a few women aldermen or councillors attending the convention, and doesn't hesitate to speak her mind when issues of concern to her municipality arise.

Just ask Mrs. Cameron if she's in favor of women taking an active part in civic or community affairs.

"I definitely am!" she'll reply.

Missionary Society Hold Tea, Bake Sale at Kimberley

KIMBERLEY, B.C., Sept. 19—The Women's Missionary Society of St. Andrew's Presbyterian Church held a successful tea and cake sale in the Mark Creek last Saturday.

Mrs. E. Coulter, president, presided at the lace covered tea table with its centrepiece of sweet peas.

The tea was served by Mrs. G. Musser, Mrs. H. Hepper, Mrs. L. Colvin and Mrs. M. Hagen. Home cooking was sold by Mrs. R. Armour.

$100,000 Credit Balance In Trade With U.S.

OTTAWA, Sept. 19 (CP) —Trade between Canada and the United States moved ahead to new peaks during July, the Bureau of Statistics reported today in its monthly trade summary.

It produced a small credit balance of $100,000 for Canada — the first this year—compared with a debit balance of $54,200,000 in July last year.

The adverse balance for the seven months ended July was cut to $87,500,000 from $362,500,000 a year earlier.

Canadian exports to the U. S. in July reached an all-time peak for the month of $168,200,000 compared with $104,400,000 a year ago, while imports, also at a new top, totalled $170,600,000 against $160,300,000. Foreign exports through Canada which totalled $2,500,000 produced the $100,000 credit.

In the seven-month period, exports to the U. S. came to $1,087,700,000, compared with $806,600,000, while imports totalled $1,175,200,000, compared with $1,169,000,000.

For the world as a whole, the value of Canada's merchandise imports exceeded the value of exports by $2,700,000 in July. This compared with credit balances of $9,300,000 in June and $12,800,000 in July last year.

During the seven-month period, the deficit on foreign trade was $7,700,000, compared with a credit of $41,900,000 a year ago.

In trade with the United Kingdom in July the favorable balance fell to $2,600,000, down from $41,700,000 last year. In the seven-month period, it fell to $52,600,000 from $215,800,000.

Imports from all countries in July totalled $259,500,000, compared with $230,900,000, and in the seven months the aggregate value was $1,712,500,000, compared with $1,640,300,000.

Canadian Korean Support Nothing To Be Ashamed of Says Hume Wrong

WASHINGTON, Sept. 19 (CP)—Canadian Ambassador Hume Wrong today predicted that the Korean war will end shortly, and he expressed hope the United Nations will organize a standing police force to end promptly any future "aggressions by proxy."

The Ambassador addressed a luncheon of the American and Canadian Bar Associations, holding a joint meeting for the first time in many years.

He expressed belief that Canada would strongly endorse formation of such a police force which he said will be proposed at the Fifth General U. N. Assembly.

He noted that Canada has offered planes, ships and men in support of the U. N. action in Korea but he said he believes the fighting there will be over before Canadian ground troops arrive.

Canadian support in Korea was not as large as that of some other countries, but it was certainly nothing "to be ashamed of."

If Canadian support had been greater it might have resulted in "indecent exposure" of defences in the Far North.

He devoted the major portion of his address to three recent developments, all of which "would have been impossible 20 years ago," that gave him cause for cheerfulness and even optimism:

(1) The North Atlantic Treaty, (2) The unified and prompt action taken by the United Nations in Korea, and (3) the assumption of world leadership by the United States.

Russia's Top Comedian

By TOM WHITNEY

MOSCOW, Sept. 19 (AP) — The leading figure of the current Moscow stage is Leonid Utesov, orchestra leader, singer and comedian. He is playing at the Stage Theatre of the Hermitage Garden to packed audiences.

This year, as during the last two years, Utesov's program abounds with sharp jokes and remarks directed at the United States and its government.

He gets big laughs with a ditty which deals with alleged plans by U.S. authorities for bacteriological warfare.

After ridiculing Emperor Hirohito of Japan for failing to get infected fleas into the U.S.S.R., Utesov depicts the Japanese fleas being sent to the United States for review by Generals Marshall and Eisenhower. The song goes on to suggest that the American Government is preparing to replace its regular soldiers who are "bad" with Hirohito's cholera-infected fleas.

Utesov gets applause when he signs a translation of the American song "Brother, Can You Spare a Dime?" On the program it is titled "Song of the Unemployed."

Utesov puts on a skit showing an American worker sitting under the Statue of Liberty and reading a newspaper. When the worker calls Gen. Omar Bradley an idiot a policeman comes up and disposes of him for having the temerity to refer to free speech in the shadow of the Statue of Liberty.

In another scene Utesov reads an article by Maxim Gorky condemning the dissonances of American jazz—"music of the far men" — while his orchestra illustrates with a cacophony of discords.

Longest Mercy Flight for RCAF Takes Off Today

EDMONTON, Sept. 19 (CP)—An R.C.A.F. ski,wheel and jato-equipped Dakota aircraft from the communications and rescue flight R.C.A.F. station Edmonton will take off tomorrow on the longest mercy flight in the history of the R.C.A.F.

A request for medical assistance and possible evacuation of Charles Leroy Havens, Federal Transport Department employee at Eureka Sound weather station, 680 miles South of the North Pole, was received today at North West Air Command headquarters. Havens is reported suffering from a hand infection that has not responded to treatment.

Proceeding to his assistance aboard the Dakota is Sqdn.-Ldr. J. R. Jackson of Edmonton, an R.C.A.F. para-rescue doctor, and two R.C A.F. para-rescue men, Cpl. K. W. Clarke, Edmonton, and Lac. A. M. Smith of Prince, Sask.

Eureka Sound weather station lies more than 1500 miles North of Churchill, Man. To reach it, the Dakota will fly a route of approximately 2150 miles via Baker Lake and Resolute Bay in the Northwest Territories.

With the exception of Resolute Bay, the weather along the route is expected to be generally fair but zero and sub-zero temperatures are forecast. Resolute Bay this afternoon reported a heavy snowstorm with a 600-foot ceiling. If the weather there does not clear, the Dakota will land at Thule, a Danish weather station on Greenland's West coast.

Reports from Eureka indicate the aircraft may be able to make a safe landing on an improvised snow-covered runway. If this is done, the jato—jet assisted take-off equipment—will be used to become airborne again.

Should the aircraft be unable to land, however, it is proposed to parachute Sqdn.-Ldr. Jackson and the two para-rescue men to the ground—a possibility which may result in their isolation for an indefinite period until conditions are suitable for their evacuation.

Pilot and crew of the mercy-flight aircraft will be Sqdn. Ldr. J. F. Mitchell, Officer Commanding Communications and Rescue Flight, Edmonton; Flt. Lt. R. B. Trephewey, co-pilot; Flt. Lt. M. G. Utas, navigator, FO. E. G. Law, radio officer; and Lac.'s J. C. Fkjott and W. A. F. French, crewmen.

Also making the trip will be Flt. Sgt. D. E. E. Stankey, a photographer.

Secretary of Dr. Sanders Found Dead

HOOKSETT, N.H., Sept. 19 (AP) —The pretty young secretary of Dr. Herman N. Sander was found dead today after she disappeared Monday. Her body was found in a brook behind her farm home.

The girl was Helen A. Maciolek, employed for seven years as secretary for Dr. Sander, acquitted last March of a charge of murder in the death of a cancer patient.

Officials said cause of death was not known immediately.

The attractive aid to Dr. Sander since she was graduated from high school in 1943, vanished in woods near her home. Her pet dog, an Eskimo Spitz, returned without her.

Searchers, including Dr. Sander, tramped through the underbrush throughout the night without success. They were ordered out of the woods today by police who said they might trample clues which a bloodhound could scent.

"She was a wonderful secretary," Dr. Sander said at his home. He said he was told by police she had been found but knew no other details.

"Others told me that she appeared emotionally upset in the past few days," Dr. Sander said.

The girl's father, Thomas' Maciolek, said "She was nervous about something, but we don't know what was bothering her."

Dr. Sander was acquitted of a murder charge in connection with the death of a 59-year-old cancer patient, Mrs. Abbie Borroto. The state charged that the 42-year-old physician caused her death by injecting air into her veins.

START CHARGING 15 CENTS FOR CUP OF COFFEE

MONTREAL, Sept. 19 (CP) — Some restaurants in Montreal today began charging 15 cents for a cup of coffee—"should have done it long ago," they said.

The increase from 10 cents was blamed on the soaring price of coffee.

News Broadcaster Returns Here

TELFORD K. OLIVER

A new voice will be heard on the air today when news broadcast specialist Telford Oliver returns to Radio Station CKLN.

Mr. Oliver was a favorite of radio listeners during two years, 1946-68, at the CKLN microphone previously. Since he has had wide experience in stations in other British Columbia centres. His return to Nelson is another move in CKLN's bid to raise programming standards. He will be heard especially in news broadcasting and specialized programs.

Son of Mr. and Mrs. R. L. Oliver, Elwyn Street, and a product of Nelson schools, Mr. Oliver went from Nelson to Radio Station CJAT at Trail in September, 1948, to specialize in news announcing and later to become chief announcer. Earlier this Summer he joined the staff of CHUB, Nanaimo, as news broadcaster.

Flying and singing are his interests. He became holder of a private pilot's licence while at Trail. In Nelson he was a member of St. Paul's choir and in Trail of the Trail Presbyterian choir, a group heard in Sunday night broadcasts and whose recordings were heard regularly at Nelson, Vernon and Dawson Creek. —Vogue photo.

Harvesting of Seed Crops Almost Complete

The harvesting of seed crops is rapidly nearing completion under ideal weather conditions, the horticultural newsletter from Grand Forks reports. The onion head cutting is finished and nearly all carrots have been pulled for drying and some fields have already been threshed. The yields promise to be considerably better than in the last two years. Lettuce is being pulled for drying and a little has already been threshed.

Onion bulbs continue to move to market, but no potatoes or carrots have been dug, the potato crop is ripening fast and some devining has started.

In the fruits section, Empire Reds have moved to market and Wealthy apples are just starting but the size "is hard to get".

Size is also lacking in the McIntosh apples which are coloring well. First orchards are getting started on picking at present. It appears that Winter injury to these orchards has caused early ripening. The prunes are just ready for picking.

The weather has been bright and generally warm for this time of year, but the nights are getting cool and a few are close to frost. A few low pockets have received their first frosts already. No rain has fallen throughout this period.

The Weather

Synopsis—The extended spell of fine weather which has been so persistent over B.C. appears to be slowly drawing to an end as a series of storms batter against the Northern B.C. coast. The path of these storms is expected to extend Southward along the coast in the next twenty-four hours.

Cloud is general over all of the Western province and is expected to spread over the remainder. Light rain which is falling over the North coast will spread into the Northern Interior and a little also is now expected to fall over the South coast.

Southeast gales are forecast for exposed coastal waters off Northern Vancouver Island and the Charlottes. Freshening Southeast winds are also expected over the South coast.

U.S. BALANCE FOR B.C. EXPORTERS

Less Selling Abroad, Little More Buying

VICTORIA, B.C., Sept. 19 (CP) —British Columbia exporters had news today—for the first time in peacetime history the province has a favorable trade balance with the United States.

A report from the Bureau of Economics and Statstics showed B.C. exports now exceed U.S. imports, and the long-time unbalance between B.C.-United Kingdom trade is steadily being reduced. There are two reasons:

1. Huge U.S. purchases of B.C. timber—$61,900,000 in lumber, pulp and paper, and other wood products during the first six months of 1950.

2. Heavy purchases of English-make cars, the six-month shipments being valued at $11,000,000.

Total exports to the U.S. for the six-month period were valued at $99,000,000 with wood products alone showing an advance of $35,000,000. This was 55 per cent over exports to the U.S. in the first half of 1940.

It gave B.C. a favorable balance of $33,000,000. In 1949 the province had an unfavorable balance of $6,000,000.

The bureau reported in the overall trading picture B.C. did a little less selling aboard and a little more buying. The export total dropped from $235,245,187 to $211,964,405. Imports increased from $108,203,529 to $122,329,157.

TWO DELEGATES TO CONVENTION B.C. HOSPITALS

Two delegates will represent the Kootenay Lake General Hospital at the annual convention of the B.C. Hospitals Association October 26 in Vancouver, Board of Directors decided at their meeting Tuesday night.

The meeting was short owing to the absence of George Turner, President, and Walter Hendricks, director. C. H. Hamilton took the chair.

George Pease volunteered to take charge of the annual fruit and vegetable drive which will be staged in mid-October. Lyall Cruikshank will assist Mr. Pease.

Young Farmers Held On Hold-Up Charge

VANCOUVER, Sept. 19 (CP) — Two holdup suspects, described by police as young farmers, were arrested today two hours after a service station robbery at Maillardville in the Fraser Valley. The holdup men escaped from the station with $35.

Police captured the suspects after a brief chase. They found two loaded revolvers and two handkerchief masks in the car.

MacDonald Urges Municipalities to Take Long Look at Grants Received

It's time for B.C. municipalities to take stock of the financial aid they receive from the provincial government, Hon. R. C. MacDonald, Minister of Mines and Municipal Affairs, told delegates to the Union of B.C. Municipalities convention Tuesday.

He told them flatly it was time to stop asking the government for more help for schools and social services, and reminded them the original purpose of granting them the one-third of the three-per-cent sales tax was to assist in meeting the cost of education of social services.

With increasing sales tax and other grants, they would do well, he said, to "leave well enough alone."

"The government may be stupid at times, but it is not altogether blind," Mr. MacDonald declared. Some cities, as a result of increased government aid, had been able to reduce tax rates.

Mr. MacDonald forecast a sales tax distribution of nine million dollars this year.

Presenting an education department breakdown of sales tax grants and education costs, he said many municipalities were receiving more from their share of the sales tax than they were paying out for education. These figures, however, were not adjusted for social service costs.

Government grants to municipalities had increased nine times in eight years to reach a total of $27,000,000 this year, Mr. MacDonald said. Were it not for this aid, municipalities would have had to increase tax rates 43 mills.

Mr. MacDonald had praise for municipalities on their improved financial position. He stated that the total of assessed land and improvements in B.C. this year is $1,104,000,000 and taxes are levied upon $622,000,000 of this, an increase of $48,50,000 over last year. Debenture borrowings in 1949 amounted to $6,375,000. No municipality at present had a sinking fund shortage.

He doubted whether the present system of voting on money bylaws was fair, since a small percentage of land owners often approved loans.

Other opening convention speakers, who extended welcomes or greetings, were Mayor N. C. Stibbs; Mayor G. S. Baker of Kaslo, president of the Association of Kootenay Municipalities; Morris Callaway of Sumner, Wash., representing Washington municipalities; Walter Hendricks, M.L.A. for Nelson-Creston; Dr. C. E. Bradshaw, member of the executive of the B.C. School Trustees Association; B. C. Bracewell, Deputy Minister of Municipalities, and J. E. Brown of Victoria, provincial Housing Administrator.

Cooler Nights Retard Vegetable Maturity, Creston

The Creston horticultural newsletter reports that cooler nights are developing good fruit color, but are retarding vegetable maturity.

Size, quality and yield is high in Wealthies, and McIntosh apples are developing satisfactorily. Harvest will likely commence today.

The Rochester peach harvest is complete and early prunes are being gathered. Bradshaw plums are over and late varieties are being picked.

The Bartlett pear harvest, which is completed, yielded well and was of good quality. The Flemish harvest began this week.

Local vegetables of all kinds are in good supply, the report said, but with the advent of cool nights tomatoes, peppers, corn and eggplant are slow in ripening.

Three Baptists Sentenced to Jail

VAL D'OR, Que., Sept. 19 (CP)—Three Baptist lay preachers yesterday were sentenced to one month in jail after being found guilty of obstructing traffic while conducting an open-air service Saturday night.

Rising Costs Said Hard on Newspapers

CHICAGO, Sept. 19 (AP)—The rising costs of publishing newspapers call for "judicious adjustments" in their price scales, the Comptrollers Institute of America was told today.

T. F. Mowle, comptroller of Dow-Jones and Company, publishers of the Wall Street Journal, said:

"Newspapers have a sales tool in their advertising space so valuable to American business that it cannot be ignored. It is not being ignored. We should price it accordingly with apologies to none."

Mowle, in a prepared talk at the Institute's annual meeting, traced the rise in labor, newsprint and other costs in the last decade.

"Newspapers, as a whole, are earning less each year despite an annual increasing volume of gross revenue," he said. "Several great newspapers have closed their doors within the current year. Sixteen mergers of competing newspapers or printing plants have taken place so far this year for economy reasons and more are in the offing.

"The standard reason given for the attrition has been 'costs rising faster than revenue.' . . . What is the deeper cause? . . . The answer is whether we have met the problem presented with proper pricing technique."

ROSSER, Man. (CP) — More than 300 persons received chest X-rays when the Manitoba Sanatorium Board's Travelling Tuberculosis Clinic visited the town.

Await Word on Apple Order From U.K.

KELOWNA, B. C., Sept. 19 (CP) —Growers of the Okanagan Valley today awaited word from Ottawa on a possible apple order from the United Kingdom.

Federal authorities now are considering a request for a $1.25 a box export subsidy, A. K. Loyd, President of B. C. Tre eFruits, marketing organization, reported here. Decision may be known within the next few weeks.

Cortisone, Acth Not Said To Cure Disease Symptoms

CALGARY, Sept. 19 (CP)—The drugs cortisone and acth cause a lessening or disappearance of disease symptoms although they cannot be said to cure them, Dr. R. K. Thomson of Edmonton, director of rheumatoid arthritis for Alberta, said in an address today.

More than 40 airlines have regular services to Cuba.

IN 50 YEARS ALUMINUM HAS GROWN TO BE A LARGE PART OF CANADIAN LIVING

"Daddy, what makes it hum?"

"HARNESSED RAINDROPS, SONNY!" It's a true answer...

In Shipshaw powerhouse you are awed by the hum of twelve gigantic generators. They are driven by rain and snow which fill Lake St. John and pour down the Saguenay River.

The water is channelled to a man-made lake on top of a hill. Then it rushes down tunnels chiselled through solid rock to dash against turbines like the model at which the boy is peering — but weighing 50 tons.

The turbines drive generators. The electricity they generate speeds to nearby Arvida. There it refines shining aluminum out of bauxite from British Guiana.

Over 1000 Canadian companies form aluminum into all sorts of useful articles. All this means work for Canadians. This country supplies nothing but the raindrops — and the brains, hands and enterprise to harness them.

The hum in the power house at Shipshaw is a hymn of progress. It is a sound of Canada's standard of living going up...

ALUMINUM COMPANY OF CANADA, LTD.

200 Alberta Villagers Watch Fearful Fire

NEWBROOKE, Alta., Sept. 19 — (CP) — The 200 residents of Newbrooke watched fearfully today as fire in 300 square miles of muskeg licked hungrily at three sides of the small Northern Alberta village.

The fire broke out yesterday, and soon was out of control. Newbrooke, about 60 miles North of Edmonton, has no fire fighting equipment, and its only source of water is a few limited wells.

A change of wind direction and a highway construction crew operating four bulldozers stopped the flames at the very edge of the town yesterday.

Residents armed with wet rags beat out burning embers as they landed within the village limits.

NO PANIC

There was no panic. Twice before, last year and in 1939, the people prepared to abandon their village in the muskeg country, which is almost habitually afire. This year's threat is "the closest ever".

Even at the height of the holocaust yesterday, school students remained in their classes although the blaze was only two blocks away and sparks were falling into the school yard.

The small band of fire fighters wore wet handkerchiefs and respirators while working in the choking fumes and dense smoke. The fire fight is being led by R.C.M.P. from the detachment at nearby Thorhill, Alta.

Farmers and the village lumber dealer have moved stooked grain and lumber piles to safer places.

Elevator agent Eddie Pollard said "this fire may burn for months. I've seen them burn all Winter under the snow. We've got to keep it in the ground where we can go after it with bulldozers and shovels."

Ships That Sail and Ships That Stay Drop Anchor in Paris Seine

By ERNEST SANDFORD

PARIS (Reuters) — Thousands of people daily may glance down at the half-dozen ships tied up in a stretch of the River Seine without suspecting the stories behind them and their skippers.

The ships, flying the flags of many nations in the heart of Paris range from scow-like houseboats to knife-prowed yachts. The captains of these vessels are equally varied.

One of the latest adventurers to cast off from this "quay of adventure" was 28-year-old Marcel Bardiaux, who set out in his tiny sloop, Four Winds, to sail single-handed around the world.

An incoming craft was the bulbous Dutch barge, De Brave Hendrix, belonging to Jack Bilbo. This black-bearded giant is already well-known in many lands for his "adventures" in art and literature.

He is the sculptor of the largest nude statue in the world, painter of a thousand incomprehensible canvases and author of "I Carried a Gun for Al Capone."

Son of a German circus-owner, he had been drifting around the Mediterranean with no other object than to "sail on and on while the boat stands it."

SAILS ALONE

A French adventurer who moors frequently at the quay is Jean Saint-Maur, a former naval man who sails alone in an old submarine chaser rechristened Tao.

When ashore, he paints murals, organizes art exhibitions and prepares the decor and costumes for ballets. He says that his curious, combined profession of painter and sailor once saved his life.

Captured by the Japanese during the war, he was already facing a firing squad when the officer in command asked his profession. When he replied "artist," he was reprieved and allowed to study Japanese lacquer painting.

But of all the craft that come and go at the quay of adventure, none is stranger than that of Miss Isabel Perrin, an American girl who has made Paris her home.

Her craft is simply a small wooden hut floating on empty oil cans, and edged with window boxes filled with flowers. A ladder links it to the shore and there is a dog kennel on the roof. Miss Perrin's favorite pastime is to sit at the wide windows of her floating home and watch other adventurers sail by.

About 30 new businesses are springing up each month in Brazil's two leading cities, partly due to increased consumer demands.

Attlee Receives Ministers From Commonwealth

LONDON, Sept. 19 (Reuters) — Prime Minister Attlee today received Ministers of nine Commonwealth countries before they began informal discussions on trade, economic and financial problems.

Later the Ministers met to draw up an informal agenda for the discussions which are expected to last about four days.

Countries represented are: Canada, Australia, New Zealand, South Africa, India, Pakistan, Ceylon, South Rhodesia, Northern Ireland and the United Kingdom.

Canada is represented by George McIlraith, Parliamentary Assistant to Trade Minister Howe; and Graham Towers, Governor of the Bank of Canada.

The Ministers are likely to discuss ways of counteracting inflationary tendencies which may arise from the rearmament programs of some Commonwealth and Western countries and the United States.

The sterling-dollar position will be reviewed, and the Ministers will examine how they should develop inter-Commonwealth trade.

Cat Follows Family 1600 Miles

DENVER, Sept. 19 (AP) — The cat Mr. and Mrs. Robert Lundmark left behind 18 months ago in New York is back in the Lundmark household after a 1600 mile cross country trek.

The Lundmarks said the big black cat named Clementine was left with relatives in Dunkirk, N.Y., when they moved to Denver.

Four months ago Clementine disappeared in Dunkirk.

When Clementine appeared at their Denver home, Mrs. Lundmark said "we were thunderstruck. We just coudn't believe it."

Mrs. Lundmark added this: "She looked pretty rough when we opened the door for her. And she's still awfully wild and jumpy."

Ex-Police Officer Faces Two Charges

OTTAWA, Sept. 19 (CP)—Ernest Keays, Police Constable arrested last week after brandishing an automatic pistol in County Court, has been adjudged "sane" by psychiatrists and will face trial next week on two charges.

He appeared in Magistrate's Court today and was formally charged with unlawful possession of a weapon capable of being concealed and with unlawfully wearing a police officer's uniform.

Keays, whose charges — later found unsubstantiated—sparked a Royal Commission investigation into Provincial Police activities last year, pleaded "not guilty" and elected trial by magistrate. The case was adjourned for a week at the request of Crown Attorney Raoul Mercier. Bail was set at $50 on each count.

Red Troops Capture French Outpost

HANOI, Indo-China, Sept. 19 — (AP) — Communist-led Indo-Chinese guerrillas have captured the important French outpost of Dongkhe, about 100 miles Northeast of here. About 2500 Viet Minh troops had been attacking the post since Saturday.

French losses, the semi-official French news agency said, were about 50 killed and 100 wounded.

Larger numbers of Viet Minh forces were reported concentrated to the Northwest, near Laokay on the Chinese border. French and American sources a fortnight ago said a new crisis was expected to develop soon in Indo-China, but French sources said yesterday they did not believe the Viet Minh's Communist leaders were ready to launch a general offensive yet.

CHEVROLET

is *FIRST* in

VALUE

POPULARITY

SALES

A Big, impressive, powerful car — with generous room for six . . . Canadian engineered for Canadian conditions *and* for economical operation — all this at a price that's *far, far* lower than the cost of *any* comparable car!

With value like Chevrolet's it's no wonder that in a recent impartial survey among thousands of motorists from coast to coast, Chevrolet proved to be in greater popular demand than any other car.

More Chevrolets are sold in Canada than any other make! In the past five years, Canadians have bought over *50,000* more Chevrolets than any other make — and the lead is growing every day, in all parts of the country!

LOW FIRST COST · REPUTATION · ECONOMY

LOW FIRST COST

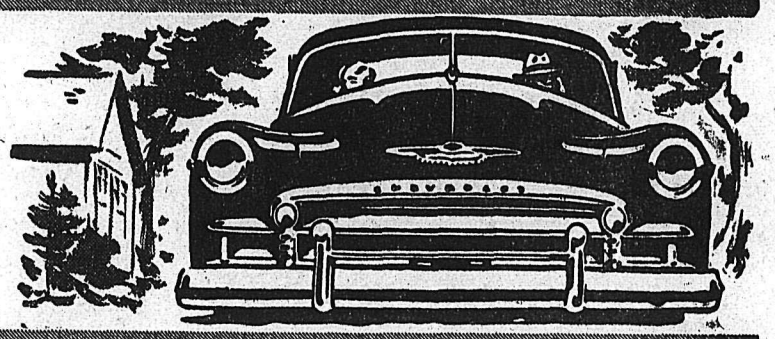
Compare price tags first! Then examine the car — inside, outside, under the hood. Chevrolet is priced among the lowest of all — far below *any* comparable car! And it's a full-sized six-passenger car — safe, impressive.

REPUTATION

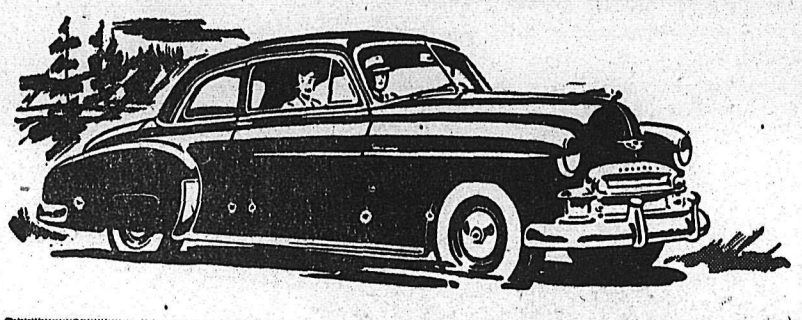
Thousands of motorists recently named *Reputation* as the leading reason for voting Chevrolet their favorite motor car, in a survey conducted from coast to coast, among owners of all makes.

ECONOMY

Chevrolet's highly-improved more powerful engine features a new carburetor that not only steps-up performance but means even greater economy of operation. And owners agree that Chevrolet costs less for maintenance service than other cars.



STYLING · PERFORMANCE · DEPENDABILITY



STYLING

Inside and out, Chevrolet's a style star! Above all, the new Chevrolet's lines have a quality look — the look of a big, impressive motor car . . . and that's just what this Chevrolet is!

PERFORMANCE

This year, *as every year,* Chevrolet clearly out-performs its rivals . . . on super-highways, on back concessions, in stop-start traffic. And Chevrolet's performance *stays* brilliant!

DEPENDABILITY

Complete dependability — that's the Chevrolet by-word! Superb engineering for Canadian conditions, plus skilled service at modest cost by authorized dealers everywhere keep maintenance costs *down,* dependability *up!*

SAFETY · ROOMINESS · TRADE-IN VALUE

SAFETY

Chevrolet gives you greater safety! Powerful, heavy steel box-girder frame . . . new more rigid Bodies by Fisher . . . big wraparound bumpers . . . exclusive Certi-Safe Hydraulic Brakes . . . and ample power to pull you out of danger in a tight spot!

ROOMINESS

Chevrolet's a six passenger car, *for sure!* There's no more squeezing in, but room aplenty for six grownups to ride in comfort on extended trips. And Chevrolet's convenient trunk has amazing capacity—it's bigger than ever before.

TRADE-IN VALUE

Because Chevrolet is first in the low-price field with all the qualities that Canadians want most . . . *because* it's renowned for long life, Chevrolet is the favorite among used-car buyers as well as new. That means a higher trade-in value for you!

New Moderator

Dr. Clarence M. Nicholson has been elected Moderator of the United Church of Canada, a top position in the religious life of this country. Since church union 25 years ago this office has been filled by a succession of eminent churchmen, democratically chosen.

Cape Breton-born, of staunch Scot-Presbyterian stock, Dr. Nicholson is only 46. Already he is known throughout Canada for his devout abilities. He will be a worthy successor to those who have gone before. Having worked in the coal fields to help put himself through university, he retains the common touch, an attribute which The Windsor Star describes as essential in the church as elsewhere.

The fine type of Moderators elected has contributed to the success of church union. The solid and strong position of the United Church of Canada is a tribute to their endeavors. The United Church has been able to produce great leaders, and Dr. Nicholson will prove himself worthy of the duties and honor placed upon him.

Income Insurance

In its ninth annual report concerning activities for the fiscal year ended March 31, 1950, the Unemployment Insurance Commission draws attention to certain remarkable contrasts in the 12-month period. Canada, the report states, "achieved the highest level of employment in the history of the country, and also encountered the most serious unemployment since this organization was established." The report states that during the Summer of 1949 Canada's total labor force rose to approximately 5,200,000, while during the Winter of 1949-50 the number of persons seeking employment exceeded 375,000.

The report points out that from November, 1949, until nearly the end of March, figures of unemployment increased. Of course this was the period of seasonal unemployment, but there were other factors which were not seasonal in their nature. The situation was such that, during the 1950 session of Parliament, provision was made for amending the Unemployment Insurance Act so as to provide for payment of supplementary benefits. The amending Bill also made provision for raising the insurable limit for salaried employees covered by the Act from $3120 to $4800 a year.

On March 31, 1950, the Commission reports, the balance in the unemployment insurance fund amounted to $582,646,972. The fund has continued to grow year by year, and crossed the half-billion mark in the fiscal year 1948-49.

Canadian taxpayers, employees and employers, are making an important contribution toward future security by their investments in jobless insurance.

Everything for which democracy stands is based on religious faith.—Elbert D. Thomas.

LETTERS TO THE EDITOR

Letters may be published over a nom de plume, but the actual name of the writer must be given to the Editor as evidence of good faith. Anonymous letters go in the waste paper basket.

Thanks for the Exhibition

To the Editor:

Sir—Our Exhibition is over, and I want to express myself, and, I believe, all our citizens:

Our sincere thanks to everyone who worked so nard in every detail to make one of the finest displays that we've ever had. Especially to those who collected all the historical pieces, pictures, papers, mementos, etc., reminding us all of what our pioneers have done in the past to make our beautiful city what it is today, and what we all enjoy.

For myself, I have lived here 40 years and I'm not ready to leave yet.

—. T. ANDREWS.

Nelson, B. C.

Pioneer Recalled

To the Editor:

Sir—The following is an outline on one of the pioneers of the Kootenays, "Rocky Mountain Dick", Richard MacClure by family name. Being an oldtimer, I am prompted to give him favorable mention as a worthy who helped to blaze the trails of the Kootenays.

When the Crow's Nest Pass Railway was building into Cranbrook in 1897 and 1898 and Westward to Nelson, "Rocky", as he was familiarly called, was one of the boys. As leader—being full of pep—he took part in sport, and dancing found him stepping off a clog or jig to the delight of the onlookers, while square dancing, waltzes, polkas and the French Minuet were his long suit. A favorite with the feminine fraternity, he was kept occupied to the fullest extent tripping the light fantastic. The opposite sex wore the habiliments of Mother Hubbard and the Grecian bend of '98 vintage, while the men wore tails with low vests and plug hats or opera sky pieces, if permissible.

Now Rocky is crippled and somewhat blind, which condition necessitated his removal to a home for the infirm. Thus a man representative of an era has disappeared from our midst.

JOHN H. McDONALD,
Cranbrook oldtimer since 1911.

Looking Backwards

10 YEARS AGO

From The Daily News of Sept. 20, 1940

C. Sladen was elected President of the Rossland Horticultural Society at its formation Wednesday night in the City Hall. Other members of the Executive are Honorary President, S. H. Hopkins; Vice-President, Murray McKenzie, Secretary; Fred Fletcher and Treasurer Miss Betty Gilmour.

Leigh McBride, Hoover Street has returned for a week's visit in Vancouver where he was a guest of Dr. and Mrs. John Gansner, formerly of here.

Mrs. Ned Rhodes and Mrs. Campbell Cutler of Trail spent yesterday in town.

25 YEARS AGO

From The Daily News of Sept. 20, 1925

Mr. and Mrs. J. R. Hunter and son, Mr. and Mrs. C. H. Bean, P. Peebles, and Miss Dawney were among Nelsonites who attended the Slocan City Fair on Saturday.

A. H. Binns of Toronto is the guest of Mr. and Mrs. H. M. Vincent of the North Shore and will leave Tuesday next for Kaslo where he will visit with Mr. and Mrs. J. J. Binns.

40 YEARS AGO

From The Daily News of Sept. 20, 1910

A Gordon French left for the Coast yesterday morning. On his way West he will visit the Slocan Star mine at Silverton and upon his returns will establish a smelter for the reduction of low grade mine ore here.

One of the biggest foreign jobs ever executed in the Kootenays has just been completed at the Centre Star blacksmith shop at Rossland. It is the rudder stock for a lake steamboat and weighs some 500 pounds. The big steam hammer at the Centre Star weighs 600 pounds and can strike a terrific blow. The rudder stock is nine feet long and was manufactured out of a piece of six-inch square stock.

MOTORCYCLES

A motorcycle has the power of a car, but it affords its riders no more protection than does a bicycle. When it is driven with the speed of an automobile and an accident occurs, the results are disastrous.—Saskatoon Star-Phoenix.

M. Y., Creston—Is there anyone in Nelson who can fix a barometer?

Write to E. Collinson, 561 Baker Street, describing barometer.

L. C.—Who is Canada's fastest runner and what was his record?

Bill Parnell is the fastest miler. He marked up B.C. Championship August 5, 4.14 and four-fifths.

R. B., Trail—What is the present day value of a one dollar silver coin in good condition, dated 1935?

Just the face value.

Curious, Appledale—Are medals from the war 1914-18 worth anything in cash? I believe they are bronze.

They have no cash value.

Verse

Little Son

Little son, I know the time will come.
When you must try your wings and fly alone,
To take your place among the worldly throng
And pit your strength against the vast unknown.

I pray the Lord that this will not be soon,
For youth and childhood is God's gift to man,
To cherish and enjoy while time allows.
This blessing has been ours since time began.

A mighty weight your shoulders soon must bear.
The load of life, I warn you, is immense.
Make strong your will, let love of God prevail.
Sleep, little son, the sleep of innocence.

—HELEN ANDREWS.

Lardeau, B. C.

Rural Electrification For Arrow Lakes

It seems that Mr. Weston in 1945 caused the people of this district to believe that the Government's plan of rural electrification would soon be effective in the Arrow Lakes. People without electricity, who had planned on putting in their own plants, had hesitated to do so, due to the optimism expressed at that time. That was five years ago. Patience is wearing thin. False hopes have been aroused.

The status of Arrow Lakes farmers in the electrical field is obscure, in spite of the fact that it is Arrow Lakes power that is being developed.

Recent inquiries seem to indicate that Edgewood and Needles may get power. Let's hope so. Maybe when the smoke clears we will find that we are also on the slate for power, throughout the length and breadth of the Arrow Lakes District. It will be a happy day for us all when it comes.—Arrow Lakes News.

Press Comment

"GOAT" IN RAILWAY NEGOTIATIONS

The attack made on Donald Gordon, President of Canadian National Railways, by C.C.F. leader Coldwell, union leaders and others, over the recent negotiations to avoid the Canadian railway strike, has brought an editorial statement from The Toronto Globe and Mail that what it calls this attempt to make Mr. Gordon the "goat" for failure to prevent the strike has failed. "There is," The Globe and Mail says, "only one goat." It is the public of Canada.—St. Thomas Times-Journal.

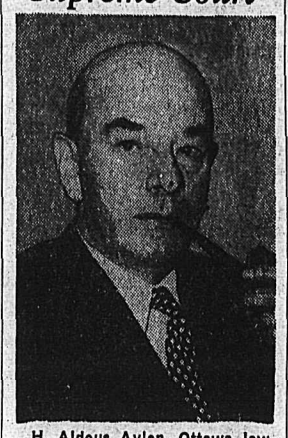
It's Been Said

Make but few explanations. The character that cannot defend itself is not worth vindicating.—Frederick W. Robertson.

Your Horoscope

Despite some business and/or financial anxiety, the year will later improve and progress be steady, with elders and young associates helping. The child with a birthday today will be more fortunate if born P.M., when judgment will be less liable to error and success easier of attainment.

Ottawa Lawyer Becomes Justice of Supreme Court



H. Aldous Aylen, Ottawa lawyer, has been named a Justice of the Ontario Supreme Court. He has been practising law in the capital for 30 years, and is a graduate of McGill University and Osgoode Hall.—Central Press Canadian.

Montreal Jittery Over Broadcast

MONTREAL, Sept. 18 (CP) — Radio Producer Jean Bradley—the man who likes to shock the public—did it again last night.

Mr. Bradley produces a French-language show on local station CHLP called "C'est Arrive Demain" ("It Happened Tomorrow"). Last night's broadcast dealt with the life of Joseph Stalin—and in the middle, an announcer broke in with a fake news bulletin saying that the Soviet leader was dead.

Radio listeners started telephoning newspapers and broadcasting station asking about the death. To confuse things even more, another local station, CFCF, carried in its regular news report an item about Radio Actor Fernan Picora dying of a heart attack. Picora was widely known here for his portrayels of Stalin on the air.

Mr. Bradleys previous productions have featured such sensational hoaxes as the dropping of an atomic bomb on New York City, the slaughter of United Nations troops in Korea and the capture of Montreal by Soviet paratroops.

A CHLP official said listeners are warned before the program starts that it is fiction, but the production is so realistic that many listeners fel that it is factual.

The Hats and Caps were political parties in Sweden who alternated in power from 1738 to 1772, when both parties were abolished.

Buzz Butler Leads Trinidad Council

PORT OF SPAIN, Trinidad, Sept. 19 (CP)—Trinidad got a no-Party Legislative Council last night when the results of her general election, quietest in the island's history, were announced.

The Home Rule Party of Tubal Uriah (Buzz) Butler, the hymn-singing fanatic who started labor troubles in 1939, got six seats, the largest single group.

The Labor Party elected two men, including Raymond Quevedo, calypso-singing "Attila the Hun". The Liberals and Socialists also elected two men apiece, and six Independents were successful.

Besides the Legislative Council, this colony is ruled by an executive body, with Governor Sir Hubert Rance at its head.

Election of Butler, self-styled chief servant of the British Citizens and Workers' Home Rule Party, poses something of a constitutional problem for political observers. It is assumed he will try to move the colony away from Britain.

Arctic Attack Said Not Considered As Likely as Before

NEW YORK, Sept. 19 (AP)—Lester B. Pearson, Canada's Minister for External Affairs, said tonight his Government is not so worried about attack over the Arctic as it was several years ago.

Pearson, questioned by United Nations correspondents on the ABC's "United or Not" program, was asked about the "scorched ice" plan to put air bases along Canada's Arctic border.

He replied that his talks with military men gave him the impression that an attack over the Arctic is not now considered as likely.

He said these opinions apparently were based on the "scale of attack" necessary for such an operation.

Clergyman Sued For Being Member Of Parliament

LONDON, Sept. 19 (Reuters)—A British voter today sued a Church of England clergyman for being a member of Parliament.

Consulting engineer Fred L. McGhee entered a claim for £1500 against Rev. James Dogfrey MacManaway, Unionist (Conservative) member for West Belfast.

Since the last general election Mr. MacManaway's position has often been in doubt because of a last-century act disqualifying Church of England parsons from becoming M.P.s.

Britain Unveils Secret-List Planes

Britain unveiled several of her hitherto "secret" fighter and bombing planes at the recent annual show of the British Aircraft Constructors at Farnborough. A carefully screened guest list included Members of Parliament, armed services chiefs and airline executives, but did not include representatives from Russia or her satellite countries.—Central Press Canadian.

Royal Commission Discusses T-V Coast Licenses

VANCOUVER, Sept. 19 (CP)—A. Davidson Dunton, chairman of the Canadian Broadcasting Corporation board of governors, said here today that the board will not consider applications for television from private stations until after the royal commission on radio makes its report.

He said in an interview the commission was prepared to consider T-V applications from groups of stations, but so far no such applications have been received.

The commission is here for a two-day meeting, opening tomorrow, on a number of applications for new radio stations, power increases, and changes in control of private stations.

Ultimatum From N. Z. Government To Longshoremen

AUCKLAND, N.Z., Sept. 19 (CP)—The government today issued an ultimatum that unless work is resumed in all New Zealand ports tomorrow a state of emergency will be proclaimed under the Public Safety Conservation Act.

A longshoremen's strike has paralyzed all ports since last Friday. The strike began in Wellington following a dispute over extra payments for handling lamp-black cargoes. Later works at all ports were called out in support of the Wellington strikers.

The first diesel locomotive was built in 1912.

Cranbrook, Kimberley Open New Lacrosse Play This Weekend

CRANBROOK, B. C., Sept. 19 — This Province's two newest lacrosse teams of Kimberley and Cranbrook are putting the chips down in scheduling their first game for both teams at Kimberley Arena Saturday evening. The game will test the support available for this whizz-bang game locally and the teams hope to enroll for Senior B league play in the Province if interest is sufficient.

Cranbrook team sponsors itself with each of the 15 players outfitting himself except for the donation of equipment brought out from attics and cellars stored 15 years or more when lacrosse was discontinued here. For the past ten days they have had the advantage of expert coaching by Al Bianco, former top Coast League scorer now located at Kimberley, and also use of the Kimberley Arena for practices. Otherwise their training under organizers John McCutcheon and Holly Hutton has been outdoors. Johnny Adams coaches Kimberley.

Both Kimberley and Cranbrook clubs in their efforts to plant lacrosse interest are carrying out advance ticket sales campaigns.

Cranbrook team has even chartered a bus for that evening which will take game ticket holders to Kimberley and back at half price with the club paying the difference.

Tigers Blast Athletics 12-4

By STEVE ROBERTSON
Canadian Press Staff Writer

Chicago's White Sox stopped the Yankees in a night game, slicing New York's American League lead to two percentage points over Detroit and Boston.

Nelson Fox's two-run triple in the seventh inning did the damage to the Bronx Bombers' pennant hopes, giving Chicago the game 4-3.

Charlie Keller and Pat Mullin went on a hitting spree as Detroit Tigers blasted Philadelphia Athletics 12-4 Tuesday to move back into a tie with Boston for second place in the American League race.

The victory left the Tigers one game behind the pace-setting New York Yankees, who played Chicago last night.

Boston was rained out at Cleveland in the afternoon.

Keller, used solely as a pinch-hitter up to yesterday, slammed four hits, including his first two home runs of the 1950 campaign, and batted in five runs.

Mullins, the Tigers' No. 2 pinch-hitter, had started only a couple games, but he too made it a big day with a double and his second homer of the year.

CROWD SMALL

The Tigers snapped out of their hitting slump with a bang as they boomed out 19 hits off three pitchers and led 11-0 at the end of five innings.

A Briggs Field crowd of only 5322 saw the Tigers explode as they let off some of their wrath after dropping series to the Yankees and Red Sox.

Art Houtteman gave two home runs to the Athletics as he eased up with an 11-0 lead, Elma Valo tagging him for No. 10 and Pete Suder getting No. 6.

Hank Wyse, who lasted only two innings for the A's, was charged with his 14th loss.

The Tigers scored in six of the eight innings in which they went to bat.

DODGERS WIN TWO

Brooklyn Dodgers strengthened their grip on third place in the National League by taking Pittsburgh Pirates in both ends of a doubleheader before 2637. The 14-3 and 3-2 triumphs made it nine in a row for Brooklyn over Pittsburgh and 17 of 20 games.

It was a day for home run hitting with two each by Duke Snider and Gil Hodges, who drove in 11 runs for Brooklyn, and Ralph Kiner hitting Nos. 44 and 45 in the first game. Meanwhile Don Newcombe coasted to his 18th victory, one more than he won in his freshman season last year.

Home runs by the bench brigade, Ed Miksis and Tommy Brown, who hit three Monday, gave the Brooks three runs in the first inning of the windup. Erv Palica, winning his 10th game, had some trouble protecting that lead after Wally Westlake spoiled his shutout with a homer in the eighth.

Two infield hits and a base on balls to Kiner loaded the sacks with one out in the ninth. Gus Bell hit a clean single to centre scoring Tom Saffel but Bob Dillinger was out at the plate on Snider's perfect throw.

In a night game at Philadelphia Hank Sauer's 30th home run and two-hit pitching by Frank Hiller gave Chicago Cubs a 1-0 victory over the league-leading Phillies and thwarted Robin Roberts' effort to become the first 20-game winner for the Phils since 1917.

Roberts pitched four-hit ball, good enough to win most ordinary ball games, but the 30-year-old Hiller hurled in magnificent fashion for the Cubs. In winning his 11th victory of the season against five defeats, Hiller faced but 27 batters.

A crowd of 20,404 saw the fastest game of the year at Shibe Park as Roberts and Hiller completed the game in one hour and 35 minutes. Roberts suffered his ninth loss in trying for the second time to gain his 20th victory, a feat last accomplished by a Phillies' pitcher when the famed Grover Cleveland Alexander won 30 and lost 13.

The Yankee loss, permitting both idle Boston and victorious Detroit to gain a half-game in the frenzied race, was doubly expensive because it cost them the services of Vic Raschi, their 20-game winning pitching ace.

Raschi, sailing along behind a 3-2 lead, suddenly left the game at the start of the last half of the seventh inning. It was announced that his arm "didn't feel right."

It was not known immediately if he would miss a turn.

Tom Ferrick, who took up the burden, failed. A single by Chico Carrasquel to left field with one out was followed by Gus Niarhos' booming double to left. Ferrick made Bob Cain ground out but Fox, a .239 hitter, poled a long triple to right centre between Joe DiMaggio and Hank Bauer. Before it could be retrieved, both runs were in. That was the ball game.

Joe DiMaggio's 31st homer in the fourth inning and Yogi Berra's 24th in the sixth with Phil Rizzuto on base gave the Yanks all their runs. But it wasn't enough to stand up after Raschi left.

In a night American League game, Washington Senators had easy going with 15 hits off Ned Garver and defeated St. Louis Browns 5-3. Joe Haynes held the Browns to six hits until he was routed in the eighth inning, and Mickey Harris stood off a ninth-inning threat by St. Louis.

Tommy Holmes' scratch single with two out and the bases loaded in the ninth enabled Boston Braves to pull out an 8-7 victory over St. Louis Cardinals to protect their National League second-place standing. The Boston triumph was registered despite five infield errors.

Louis Expects Charles Bout to Be a Knockout

POMPTON LAKES, N. J., Sept. 19 (AP) — Joe Louis said today he doesn't expect his heavyweight championship fight with Ezzard Charles a week from tomorrow night to end in a decision.

"It'll be a knockout one way or the other," he said firmly. "Charles, he stands and fights. He doesn't run away like Joe Walcott did."

Brimsek Believed To Be Retiring

NORTH BAY, Ont., Sept. 19 (CP) —Bill Tobin, President of Chicago Black Hawks of the National League, said today he believes goalie Frankie Brimsek intends to retire from hockey.

He was commenting on a report that Coley Hall, owner of the Pacific Coast League Vancouver Canucks, wants to hire Brimsek "at a salary which shouldn't be hard to take."

"I gave Hall permission to negotiate with Brimsek," said Tobin at the Hawks' training camp here. "But I still think Frankie will retire. However, if he decides to play for Vancouver, I will be willing to negotiate with them for his contract."

Rightwinger Breaks Leg; Out of Hockey For Two Months

SAULT STE. MARIE, Mich., Sept. 19 (CP) — Nelson Podolsky, rightwinger with Indianapolis Capitals last season, suffered a broken leg in a practice at Detroit Red Wings camp today.

He will be out of hockey for at least two months.

Too Valuable To Be Ruined by Football

TORONTO, Sept. 19 (CP) — Whipper Willy Watson is too valuable a hunk of property to get tangled up with a bunch of bruising football players. For that reason, he won't play in any Edmonton Eskimos home games this season.

The Whipper, pride and joy of Toronto wrestling fans, signed a contract with the Eskimos last June and planned to take his place on the line when the Western Canada Interprovincial Football Union club played at Edmonton. But the idea was nixed by Toronto promoter Frank Tunney.

"Ten guys jumping on you with cleats can do a lot of harm," Tunney explained today when he announced that the Whipper would confine his mayhem to the wrestling ring. Tunney has a five-year contract with Watson, and it has two more years to go.

Robinson Signs To Defend Title

PHILADELPHIA, Sept. 19 (AP)—Sugar Ray Robinson today signed to defend the Pennsylvania version of his middleweight title against Carl (Bobo) Olson of Honolulu.

Robinson, welterweight champion, agreed to meet Olson in a 15-rounder here Oct. 26.

Elsewhere in the world Jake LaMotta is recognized as middleweight king.

EDMONTON STADIUM TO INCREASE SEATING FOR FOOTBALL GAME

EDMONTON, Sept. 19 (CP) — The seating capacity at Clarke Stadium will be increased to almost 11,000 persons with the addition of portable bleachers for Saturday's football game between the Calgary Stampeders and Edmonton Eskimos. The bleachers will seat 1800 fans.

Bill Ezinicki Tired, Mentally, Physically

By AL VICKERY
Canadian Press Staff Writer

WINNIPEG, Sept. 19 (CP)—**Wild Bill Ezinicki, Toronto Maple Leaf rightwinger who failed to report to the Leafs' training camp, says he is tired—both mentally and physically.**

The sturdy forward was found at the Elmhurst golf course, near Bird's Hill, Northeast of Winnipeg. He was at the 16th green, playing in a foursome.

"Well, I can guess why you're here," were his first words. He explained his absence from the Leafs' training camp in two words:

"I'm tired."

When asked if he meant tired of hockey, Bill stopped long enough between putts to explain:

"Gosh, no. I'm just tired mentally and physically. And I'm between 15 and 20 pounds underweight."

OUT OF SHAPE

After a nice tee shot on the short 17th, Bill went on:

"I'm badly out of shape, and if I reported to camp right now I wouldn't be any good. I'll be better off just to hang around here for a while and take things easy."

He two-putted the green for a par three, then continued:

"Conn (Conn Smythe, general manager of the Leafs) is right when he says I'll find myself back on the fourth or fifth line."

Ezinicki was referring to a report from St. Catharines, Ont., where the Leafs are training, in which Smythe said the black-haired winger probably had "body-checked himself back to the fourth or fifth line" by failing to attend the opening practice Monday.

Walking along the fairway after a good drive on the long 18th, Ezinicki said: "I want to give my best when I go out to camp. Right now I know I can't do that. I was underweight last year when I started out and I had a poor beginning.

"Maybe the club won't agree with me, but I need a rest."

He hooked to the right of the green on his iron shot but chipped on to within 10 feet of the cup.

Waiting for the others to putt, Bill said: "Hockey has become a year-round job. It's a gruelling schedule and a player should take it easy all Summer. I know I've been going at it too hard and now I'm paying for it."

Ezinicki is a golf pro at a club in New York state and competed in numerous tournaments during the Summer months.

"This type of golf doesn't hurt me. I can relax and put on weight slowly."

His putt stopped on the lip of the cup and he was down in a par five.

He said he hadn't communicated with the Leafs, but "I'll phone them either tonight or tomorrow.

"I hope they'll see things my way."

Strikes 'n' Spares

Pins are flying in all directions on the local bowling alleys with leagues in full swing in the new season's play.

In Mixed Commercial League games, B. Riddell of the Nationals squad spilled the pins for high single of the evening, a 276 in the second game. He also rolled the high aggregate of 750. High team spot was taken by the Cuthbert keglers who smashed the pins for a winning 2843 score.

Scores were:

NATIONALS—B. Riddell 750, B. Moore 591, L. Page 422, L. Gri 556. Total 2319.

NEWS—D. Kidd 451, I. Sanders 410, B. Jarbeau 471, L. Johnsen 499, L. Gagnon 586. Total 2417.

CUTHBERT — E. Niven 503, C. Ronellenfitch 490, E. Macrae 625, Ted Perry 568, D. Macrae 657. Total 2843.

ALF'S—J. Edwards 560, M. Hood 449, A. Edwards 504, S. Coskey 475, L. Hood 608. Total 2596.

HUDSON'S BAY—B. McCubbin 665, B. Perdue 497, H. House 444, L. Casemore 513, B. Fowler 622. Total 2741.

ROYALS—F. Yearly 575, J. Brinley 485, D. Chursinow 462, K. Loewen 500, C. Chapman 484. Total 2506.

IAC'S—B. Birks 426, M. McGinn 445, E. Relkoff 404, E. Jorden 514, H. R. Mills 496. Total 2285.

PALM NO. 1—W. Day 512, K. Zabawa 490, S. Zabawa 417, H. Stoutenberg 344, M. Stoutenberg 540. Total 2303.

MILWAUKEE, Sept. 19 (AP)—W. Brock Fuller, 65, well-known horse show judge died here.

Savold Intent on Meeting Winner Of Louis-Charles Bout Next Year

NEW YORK, Sept. 19 (AP)—Lee Savold returned from Britain today full of plans for meeting the winner between Joe Louis and Ezzard Charles in a "million dollar" outdoor fight next Summer.

The Paterson, N.J., heavyweight has been abroad since last April and has been recognized in Britain as the world champion since he knocked out Bruce Woodcock in London in June.

Among those who met Savold when the Queen Elizabeth docked was Hary Markson, Managing Director of the International Boxing Club, which is promoting next Wednesday's title bout between Louis and Charles at Yankee Stadium.

Queried by Markson as to his plans, Savold said he would engage in no fights, tune-up or otherwise, until he meets Louis or Charles next June. Such a fight, he decleared, can't help drawing a $1,000,000 gate either here or in London.

"If I don't get a fight for the championship on this side, I'll go back and fight Tommy Farr for my title in London," he said affably. "That would draw $1,000,000, too."

Television Blamed For Possible Sale Of Baseball Team

By RIP WATSON

JERSEY CITY, N. J., Sept. 19 (AP)—Television was blamed for another minor league club's difficulties today as New York Giants baseball club disclosed the possible sale or transfer of their Jersey City farm team.

Charles Feeney, Vice-President of the Giants, said no decision had been reached on the status of the International League club which attracted only 70,000 paid admissions this season while finishing fourth.

"There were a variety of factors responsible for the low attendance, but television was important," Feeney said. "Most people apparently preferred to see a major league game televised rather than come out to our games."

Main Wins First Round Matches in National Tennis Meet

BERKELEY, Calif., Sept. 19 (CP) —Lorne Main, the youthful Davis Cupper from Vancouver, drubbed Argentina's Hernan Molina 4-6, 6-2, 6-1 today in a first-rouhd men's single match of the national hardcourt tennis championships.

Creston Meets Kimberley Sunday In Baseball Play

KIMBERLEY, B.C., Sept. 19—The Creston baseball team meets the Kimberley Elks here on Sunday in the semi-finals of the East Kootenay championship. The winner of the series will meet the Sagle, U.S. team for the league championship.

Sagle has 14 wins in the regular league games, Kimberley, 13, and Creston, 12.

Toss-Up for Order Of Playoff in American League

CHICAGO, Sept. 19 (AP)—A coin-tossing ceremony will be held tomorrow to determine the order of playoff in the American League in the event the pennant race winds up in a two- or three-way tie for first place.

The New York, Boston and Detroit clubs have agreed to the procedure. The ceremony will be in the office of Will Harridge, American League president.

Lots of Pep in Old Chassis

More than 100 ancient cars steamed, chugged and rattled from Montreal to Gananoque en route from Lake Placid, N.Y., to Rochester. Some of the models dated back to 1901. Here a Chalmers, one of the many makes of cars long forgotten, is shown as it passed through Cornwall.—Central Press Canadian.

All-Canada Council Elects Church Head

Newly elected Moderator of the United Church of Canada is Rt. Rev. Clarence M. Nicholson, shown as he was presented with the robes of office by retiring Moderator, the Rt. Rev. Willard Brewing. Son of a Cape Breton coal miner, at 45, Dr. Nicholson is one of the youngest men ever elected to the office. Nearly 350 delegates from all parts of Canada attended the 14th General Council in Toronto to elect the new Moderator.—Central Press Canadian.

Introducing Bren Gun to U. S. Soldiers

British soldiers, now fighting with United Nations forces in South Korea, check over a Bren machine-gun with two of their U.S. comrades-in-arms. The Tommies (left to right, without shirts) are: Pte. Philip Orton, Birkenhead, England, and Hugh Morrison, Dundee Scotland. The Yanks are Pte. Kenneth Dutchen, of Sacramento, Calif., and Pte. Earl Long of Tyler, Tex.—Central Press Canadian.

Calls Turn in Korea

General J. Lawton Collins (right), Army Chief of Staff, pointing to a map of Korea showing present front lines, told Senator Chan Guerny (Rep., S.D.) of the Senate Armed Services Committee, during a hearing in Washington, that from now on United Nations forces will go forward, not backward. The military chief appeared to give the committee a military review of the world situation. —AP Wirephoto

Met

Foreign Ministers of the U.S., Great Britain and France attended the opening session in New York of a two-day meeting of the North Atlantic Treaty Council. Left to right, top: T. A. Charlton, Secretary for the North Atlantic Council, and Secretary of State Dean Acheson of the U.S. Centre: Foreign Minister Robert Schuman and Deputy Herve Alphand of France. Bottom: Foreign Secretary Ernest Bevin and Sir Derrick Hoyer-Miller, his Deputy, of Great Britain.—AP Wirephoto.

'Trying to Forget'

Mimi Medart, 17, of St. Louis, Mo., wears a smile and dark glasses as she leaves a plane in London after a flight from Paris. She said she was "trying to forget" King Farouk. Her name was linked romantically with the 30-year-old Egyptian Monarch's when it was reported they met last month at a French resort hotel. She said the King is going to Cairo for Christmas and "friends" have invited her to go there, too. Her mother said they would spend Christmas in either Egypt or India.—AP Wirephoto.

DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Whitewater Output $41,000 in Month

KASLO, B.C., Sept. 19—Kootenay Belle Gold Mines, Ltd., reports August gross production value at Whitewater was $41,000 compared with about $40,000 in July. Kootenay Belle has installed a second sink-float unit at Sandon to treat tailings along Sandon Creek acquired outright by Kootenay Belle. Shipments from other owners will be handled on a customs basis.

Calgary Livestock

CALGARY, Sept. 19 (CP) — The cattle market was active at the Calgary stockyards this morning with 216 cattle and 40 calves plus 379 head of cattle held over from Monday on offer this morning.

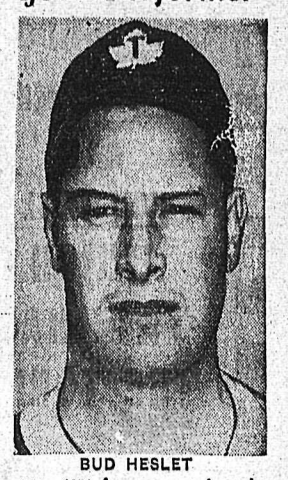
Heavy butcher steers and cows were generally steady at Monday's decline of 25 cents. Bulls and veal calves were steady and in keen demand, and all classes of replacement cattle remained at fully steady prices.

Hogs were 50 cents lower than Monday's average, and sold at $30 A grade at yards. Sows sold at $18.75 liveweight at yards. Good lambs at $25.75 and good ewes at $13.50.

The Dominion Livestock Market Service reported Monday's saleable receipts; 770 cattle, 107 calves, 172 hogs, 91 sheep. Today's saleable receipts; 216 cattle, 40 calves.

Good butcher steers 28-28.50; common to medium 22-27.50. Good butcher heifers 26.50-27.50; common to medium 21-26. Good cows 21-21.75; common to medium 18.50-20.50. Canners and cutters 15-17.50. Good bulls 23.50-29.25; common to medium 21-27. Good stocker and feeder steers 27-28; common to medium 21-26.

Good Performer



BUD HESLET

The 1950 season may long be remembered with distaste by most of the current edition of the Toronto baseball Leafs, but it's been a big year for at least one fellow. That, of course, is Bud Heslet, catcher turned outfielder. Heslet, acquired in a mid-Winter trade from Newark, via Springfield, for southpaw pitcher Al Porto, has now hit 21 homers, tops on the team, and his 68 R.B.I.'s are second only to Bill Glynn. His average to date is .288, a mere 60 points better than his mark last year when he hit 22 homers and plated 75 runs.

Market Trends

NEW YORK (AP) — A labored rally got rolling late today following a slow early decline.

Losses were reduced in most cases and some issues managed to swing into the plus column. Changes either way were limited mostly to less than $1 a share.

Among Canadian issues Hiram Walker fell ¾ and International Nickel ⅛ while Canadian Pacific and IDstillers Seagram each climbed ⅛.

TORONTO (CP) — Price settled into a narrow path at slightly lower levels today. A burst of selling early in the day pushed market leaders downwards following an attempted continutiong of recent gains. The market settled at the lower prices despite late recovery moves.

Activity slow considerably following the downtrend. Volume was about 1,656,000 shares.

Industrials sagged from yesterday's climb to new highs. A late recovery move reduced some of the losses. Papers, utilities, liquors, financial institutions and agricultures showed majorities of losses in the groupings. Most changes were held to small fractions. A few steels held firm.

MONTREAL (CP) — Securities fell back today, following bold advances for more than a week.

The loss, however was comparatively small.

A moderate list of utilities, senior oils and banks were also unchanged to weaker. Base metals contributed largely to the trend of the market. Consolidated Smelters fell 2½ points at 117, while aluminum was off nearl ytwo points. Noranda lost a strong fraction.

Mines moved lower with the security market, while Western oils were largely unchanged.

LONDON (Reteurs)—Small gains were widespread in many sections and followed some bear covering and investment buying. Nevertheless there was an aunderlying note of restrain while awaiting the vital stel debate in Parliament.

Leading industrial issues closed with many gains that were particularly marked in building and kindred issues. British Government stocks were hesitant and mainly easier in early trading but later improved to close firm.

VANCOUVER, Sept. 18 (CP) — Trading was mixed.

Golds today showed gains with Bralorne up .10 to 6.85 while Hedley Mascot and Sheep Creek showed small losses.

Base metals also showed losses today. Pend Oreille down .05, and Reeve MacDonald down .10 to 4.50.

DOW JONES AVERAGES

30 industrials—225.78 off 1.00.
20 railroads—66.32 off .41.
15 utilities—39.52 up .02.
65 stocks—80.88 off .33.

"Poor Man's Legal Law Charter" Means Free Counsel for Britains

By ASTLEY HAWKINS

LONDON, Sept. 19 (Reuters)—The poorest Briton soon will be able to take a case into the most expensive court in the land, and let the government pay all costs.

Under a socialized legal plan, which starts Oct. 2, the state will foot the bill for carrying a civil case to the high court and the Court of Appeal. But the new law—known as "the poor man's law charter"—stipulates that in actions for libel, slander, seduction and breach of promise, the citizen is strictly on his own.

The scheme, which marks the latest development in the country's widespread social services, is expected to benefit Britain's poorest 12,000,000 persons — about one-quarter of the country's population.

When the plan is in full operation, the Government will be prepared to back both sides financially—plaintiff and defendant—in a genuine civil case. Facilities will be available for a suit to be carried all the way to the Judicial Committee of the Privy Council.

For the time being, a litigant must continue to pay his own way through the lower and less-costly courts.

On an appeal to the higher courts, litigants will be entitled to counsel free or a reduced rates on a sliding scale, depending on the individual's income. Later, when Britain's financial position eases, this will also apply to suits in the lower courts and to criminal cases. A system of state-run legal-advice centres will also be established.

The British Law Society, which has been cooperating with the Government in drawing up the scheme, believes introduction of the act will mean more business for the legal profession. But they have warned the public that getting legal help will not be as simple as going to a doctor and getting free medicine under the health insurance scheme.

Critics of the scheme believe the new act, when fully applied, will start an avalanche of litigation throughout the coutnry. Framers of the legislation disagree, saying the system provides for plenty of checks to balance any rush.

An increased number of genuine divorce or domestic cases may be ventilated under the full act, it is believed, but impartial advice from state legal advisers may at the same time divert many people from the courts.

In large towns and cities it is planned to have legal-advice bureaux open every day, and in the evenings as well for the convenience of working people all towns and villages will have bureaux open on certain days or by appointment. Servicemen overseas will have their own advice bureaux. Bed-ridden citizens can have advice brought to their bedside.

"Get Tough"

"We must get tough—tough with ourselves," Gen. Dwight Eisenhower said in a nation-wide broadcast from Denver, launching the Crusade for Freedom. He called for "Spartan frugality" in non-essentials to assure victory. Eisenhower is shown as he spoke at the Denver City Auditorium. —AP Wirephoto

New Dangerous Position Looms Ahead as Offensive Continues

By DEWITT MACKENZIE
Associated Press News Analyst

Continued success of the powerful United Nations offensive in South Korea will mean that ultimately the peace organization will have to face the dangerous question of whether its forces shall cross the 38th Parallel and occupy Northern Korea.

One uses the expression "dangerous question" advisedly. Invasion of Northern Korea could produce an Asiatic upheaval. And with the major Powers preoccupied in the Far East, there might easily be an explosion in Europe.

The U.N. goal, of course, is not only to smash the Red invasion of South Korea and restore peace, but to unite North and South Korea under one Government, chosen by the people. As far as one can see now, that must call for temporary military occupation of North Korea

Gen. MacArthur's Chief of Staff, Maj. Gen. E. M. Almond, yesterday explained that if the enemy is destroyed in South Korea the 38th Parallel becomes a political question

SERIOUS CONSEQUENCES

It strikes me that this immediately poses a fresh problem of how long it could remain a political question. Occupation of Northern Korea by U.N. troops might bring neighboring Chinese Communist forces in great strength to the rescue of the Korean Reds.

Apropos of this, two big Chinese armies are sitting on the border of North Korea watching developments. Other Chinese and Manchurian troops are available, and Russia has been feeding much military equipment to the North Koreans.

As for Russia, just as she has avoided becoming directly involved in the present Korean war, so she might be expected to pursue that policy if U.N. troops occupied Northern Korea. However, should Red China go to the rescue of the Korean Communists, with Moscow's blessings, it could produce a major upheaval in Asia.

EUROPE FOREMOST

And why should Russia steer clear of entanglement? Well, for the good reason that the European theatre is of much greater importance now than is the Far East. Moscow certainly would hesitate to commit vast strength to an Asiatic campaign while Europe is rapidly becoming an armed camp.

Moreover, that's an argument that cuts two ways. The Western Allies certainly have no desire to get heavily involved in Asia at this juncture. They are in process of building their defences in Europe against any upheaval there, and can't afford to weaken that effort.

Canada Faces Traffic Jam Owing to Highway Delay

WINNIPEG, Sept. 19 (CP)—The President of the Canadian Good Roads Association said today that Canada faces " a national traffic jam" because highway construction has not kept pace with the output of automobiles.

Errick F. Willis, former Manitoba Cabinet Minister in charger of highways, said in a prepared speech at the opening of the Good Roads Association's annual convention that the lag in road construction would "slow down progress, discourage tourists and cost us all money."

He said that Provincial Highway Ministers need behind them a strong body of public opinion "demanding and insisting" that an adequate proportion of public expenditure be allocated to roads,

He said that in recent years the marshalling of public opinion on health matters had resulted in greatly expanded government expenditure on health and public welfare.

"Quite to the contrary, no effective block of public opinion has been created in support of the continuous building of modern highways," the Association President said.

NO PUBLIC BODY

"In times of difficulty, expenditures on government departments such as health are said to have become 'permanent' and "inescapable,' whereas those on highway construction are said to be 'easy to eliminate,' because there has been no public body organized to effectively protest."

He suggested that trunk highway construction be stabilized so as to maintain a more or less equal annual program through the years.

Mr. Willis said that to make the Association more representative of highway affairs, direct representation on the executive had been given equipment distributors, road contractors and supply men.

During the present year W. Beattie Ramsay, Regina, has represented the contractors, Walter Kane of Winnipeg the equipment distributors and Ross Harstone of Hamilton, Ont., the supply men.

Helicopter Still Hunts for Lost Lorraine Smith

EDMONTON, Sept. 19 (CP)—An R.C.A.F. helicopter flew from Edmonto to Jasper today to scan the beds and banks of the Athabasca and Maligne Rivers for a trace of 2-year-old Lorraine Smith, missing in the National Park since Sept. 2.

The aerial search is made possible due to the exceptionally low level of the two rivers at this time.

Aboard the helicopter was Inspector William Chisholm of the R.C.M.P.

CFA Opposes Latest Rail Freight Boost

OTTAWA, Sept. 19 (CP)—The 400,000-member Canadian Federation of Agriculture today asked the Board of Transport Commissioners to block the rail freight rate increase on livestock which goes into effect Oct. 2.

The federation said in a statement that it is informed that a number of provincial governments are considering similar action and are preparing to oppose the latest boost.

The proposed rate hike would vary from point to point, but in the main might amount to a general increase of from 15 to 17 per cent.

The federation asked suspension of the new rates until a full board hearing could be held. It asked the board to fix a date for such a hearing.

"The word "of" is the only modern English word in which "F" is pronounced as "V".

PAY BOOST FOR WEST COAST LONGSHOREMEN

VVANCOUVER, Sept. 19 (CP) — The 1950 contract for West Coast Longshoremen, signed today, will give the workers an 18-cent an hour pay boost.

A spokesman for the British Columbia Shipping Federation said the new pay rates will be $1.73 an hour for straight time and $2.60 for overtime.

The men are members of the International Longshoremen's and Warehousemen's Union and the International Longshoremen's Association.

Smiling Vishinsky Works for Peace

NEW YORK, Sept. 19 (AP)—Foreign Minister Andrei Y. Vishinsky of Russia arrived today aboard the Queen Elizabeth to attend the United Nations General Assembly.

Smiling and genial, he told reporters that the Soviet delegation would work for "strengthening of peace and of cooperation and friendship among peoples."

While newsreel cameras ground and photographers flashed their cameras, Vishinsky read from a statement that said:

"It is good will and the resolve to act in the interest of universal peace and the security of nations that are needed above all for the success of the work.

"In its work at the General Assembly session that is to open today, the delegation of the U.S.S.R. will invariably be guided by the principles of Soviet foreign policy aimed at the strengthening of peace and cooperation and friendship among peoples."

SANTA MONICA, Calif., Sept. 19 (AP)—John H. Grant, 32, convicted of attempting to murder his wife, two children and three other persons by placing a gasoline bomb aboard an airliner, was sentenced Monday to one to 20 years in prison.

How Many People Make Buttons? See Answer in Canada Year Book

OTTAWA, Sept. 19 (CP) — Perhaps you are among those people who don't particularly care to know that, in 1947, there were only 33 bassinets in all the Yukon and Northwest?

Unless you are a Canadian quizkid with a high sensitivity, you might not even have at your fingertips a description of the coat-of-arms of Newfoundland, figures on the average temperature, wind, precipitation and humidity at The Pas, Man., or what is Canada's highest mountain or the third longest river flowing into the Arctic Ocean.

It doesn't much matter, because you can find it out in the latest edition of the Canada Year Book which will also tell you about canal and harbor traffic, the growth of water-power development, statistics on air lines, and the progress of the forest industry since 1871.

The 1950 edition ($2 at The King's Printer, Ottawa) is going out now to the offices, businesses, libraries and other organizations which regard it as a standard reference work.

It's been coming out since Confederation, and yet a large proportion of Canadians either don't know it exists, or haven't much idea of what it contains.

The flyleaf of this year's 1238-page number lists some of the authors of material (not duplicated this year) in previous editions. Sections on agricultural topics, for instance, are written by G. S. H. Barton, special assistant to the Agriculture Minister. Senator W. A. Buchanan, publisher of the Lethbridge Herald and a former President of The Canadian Press, has an article on "the democratic functioning of the press."

R. A. Gibson, retiring head of the Lands, Parks and Forests Division of the Resources Department, writes an authoritative Arctic export, and a section on "legislation respecting combinations in restraint of trade" is by F. A. McGregor, who recently retired after distinguished service as Canada's Combines Commissioner.

The Year Book doesn't repeat itself too much, but it has an index of articles used in previous years which will stand up. These are still available in reprint form for minor prices.

The book puts the calipers on just about every phase of Canadian life, industry and government that can be measured.

Herbert Marshall, the Dominion statistician, edits the book. For layman or business man, it's a mine of information on the history and comparatively-recent trends of almost every business in Canada.

And you never know when somebody will ask you how many Canadians were employed making buttons, artificial ice or neon signs in 1946.

Pakistan Exports More Cotton Bales

KARACHI, Pakistan, Sept. 19 — (AP)—Exports of cotton by Pakistan reached a new peak of 1,240,000 bales in the year ending Aug. 31, official figures show. This compares with 790,000 bales export in the previous 12-month period. Hong Kong was the largest buyer, taking 250,000 bales.

Alberta Oil for Saskatoon Nov. 1

EDMONTON, Sept. 19 (CP)—Alberta oil shipped through the interprovincial pipeline to Regina and refined there should be delivered in the Saskatchewan capital about Nov. 1, officials of the Interprovincial Pipe Line Company said here today.

Construction of the 775-mile Canadian section of the 1127-mile pipeline from Edmonton to Superior, Wis., is within a few days of completion. The American section will take several more weeks.

Cattle Round-Up, 1950 Pattern

EDMONTON, Sept. 19 (CP) — Shades of the Wild West! A police posse today is hunting for a motorist who tied a Jersey cow and a Holstein calf to the bumper of his car and then drove away from an Edmonton district farm in broad daylight.

ANNOUNCES WITH PRIDE THE 1950-51 SERIES

DOROTHY MAYNOR, *Soprano*, Thurs, Nov. 9

DOROTHY MAYNOR, the great Negro soprano was a "find" of the famed conductor, Koussevitsky. Miss Maynor has sung with all the leading symphony orchestras of America; The New York Times' critic Olin Downes said of her: "She has virtually everything needed by a great artist—superb voice—exceptional musicianship, accuracy of intonation—emotional intensity and communicative power . . . one of the leading concert singers of her generation."

GEZA De KRESZ, *Violinist*, Wed., Nov. 22

With Norah Drewett, Pianist

GEZA DE KRESZ and his wife NORAH DREWETT constitute a violin-piano team unequalled in Canada today. The De Kresz' have concertized in London, New York, Montreal, Toronto, Vienna, Berlin, Budapest, Salzburg, etc. and have played under such distinguished conductors as Richard Strauss, Nikisch, Busch, Dohnanyi, Wood, etc. Mr. De Kresz was one of the founders of the late great Hart House String Quartet in 1924. His international repute is proven by the many invitations he receives to judge the great internation musical competitions at Geneva, Paris, etc.

AMPARO ITURBI, *Pianist*, Mon., Dec. 18

AMPARO ITURBI, since her arrival in America from her native Spain, has been heard by millions of enthusiastic admirers from coast to coast in her piano recitals, via the movies in which she has performed with her brother Jose Iturbi, and by way of radio broadcasts and concertos with symphonies. The Montreal Gazette said of Mme. Iturbi: "She is one of the most outstanding pianists ever heard in this city. The intellectual power, musical intelligence and technical equipment of this extremely handsome woman are extraordinary."

KENNETH SPENCER, *Bass-Baritone*, Mar. 23

KENNETH SPENCER, distinguished Negro bass-baritone stands 6'4" and has a magnificent voice to match his physique. "One could listen for a long while to such effortless resonance . . . There is something almost bewitching in its soft, mellow quality and it is under fine control," said the Cleveland Plain-Dealer. Spencer's annual tours of Europe, the U.S. and Canada—in concert and as soloist with the major symphonies; his starring role on Broadway as "Joe" in "Show Boat"; his two movies, "Bataan" and "Cabin in the Sky" and his notable radio broadcasts definitely mark him for the artist he is—one of the "greats" of today.

Artists selected in cooperation with A. K. Gee, President Celebrity Concerts (Canada) Ltd.
