47 Killed When Diesel Train Tips

Riotings Ease Off in Bombay

Death Toll Expected To Be 300 After 6-Day Rampage Over Bombay Split

By EUGENE LEVIN

BOMBAY (AP) — Violence in Bombay over langauge frontiers apparently burned itself out Sunday after six days of riots in which the death toll, counted by police at 56, may run to 300 or 40.

Comparatively small flareups occurred Sunday in Cuttack, capital of east coast Orissa state, where police charged mobs with tear gas and clubs and three times opened fire. No casualty figures were available there.

In Madras, to the south, there were small demonstrations against exclusion of certain Tamil-speaking areas of Travancore from the state of Madras.

In New Delhi, Tara Singh, fiery, bearded leader of the Sikh Akali party, met with Prime Minister Nehru and other government ministers on Sikh demands for formation of a Punjabi subha, a state where the Sikhs would have virtual equality with Hindus. Sikhs in the Punjab have been threatening riots as serious as those in Bombay if their demands are not met.

THREATEN TO RISIGN

M. Sanjeevi Reddi, deputy minister of Andhra state, threatened that the entire Andhra state cabinet would resign unless demands for enlargements of the state are met. Workers have been on strike for three days in several towns in the state, which was carved from Madras state to meet the demands of a linguistic group.

In this city of 3,000,000 the Marathi-speaking working masses rebelled against a plan to split Bombay state into three parts — a southern state for the Marathas, a Gujarati-speaking north, and a bilingual city of Bombay to be a federally-administered enclave. Both Marathas and Gujaratis want Bombay for their state capital.

Rioting bands closed factories and roamed the streets, stoning, looting and burning and clashing with police.

A check of hospitals by reliable sources today showed that more than 300 persons died of wounds in the mob violence. Police still listed only 56 as killed in the riots. Authorities, however, have consistently sought to minimize the magnitude of the disorders lest troublemakers be incited elsewhere.

Believe MiG Hit Deserter

VIENNA (AP) — Austrian police said Sunday night they believe a fiery collision of two Communist MiG-15 jet fighters Saturday over Austria was caused by a Soviet pilot trying to catch and turn back a deserter.

In their struggle the Russian apparently rammed the deserter and both planes crashed in flames.

The MiGs, swooping in from Communist Hungary, collided over the border province of Burgenland. One pilot died in his wreckage but the other parachuted to safety. The dead pilot's plane bore the Soviet Air Force's red star insignia.

The surviving pilot identified himself as Capt. Nikolai Konoklov of the Soviet Air Force. He told Austrian police he had been dispatched from his base in Gyoer, Hungary, to pursue "a plane of unknown nationality" which had invaded Hungarian air space.

But police and witnesses said they believed Konoklov was chasing a deserter and, failing to make him turn back, rammed him.

Little Chance of Breaking Deadlock

WASHINGTON (AP) — The United States and Red China have reached complete deadlock in their negotiations at Geneva over lifting the dangers of war from Formosa.

That is made clear in a set of six documents and a statement on American-Red Chinese talks released by the state department Saturday.

The statement, blaming the Red Chinese for the breakdown, showed that the differences between the two countries are essentially over possession of the Nationalist-held island, and not primarily over the question of renouncing the use of force.

Because of this, the prospects of breaking the deadlock appear slim.

TOBY CRADDOCK, crippled with polio since he was three years old, is shown after he received his Eagle Scout badge in a televised Court of Honor in his home town of Corpus Christi, Tex., this week. In order to meet the requirements, Toby hiked 20 miles on crutches in 12 hours. He also made five 10-mile hikes and swam 500 yards to fulfill needs for other awards.

Forming Cabinet Ticklish Job

By PRESTON GROVER

PARIS (AP) — The showdown hours arrive this week for the new French National Assembly.

About midweek the assembly, which met last Thursday for the first time, should be well enough organized for President Rene Coty to call in one of the party leaders and ask him to form a cabinet.

Highest on the list of probabilities is Guy Mollet, head of the Socialist party which is allied with the dynamic Pierre Mendes-France and his Radical Socialists. Together they have about 150 votes, by no means a majority. But at the moment it is the most cohesive group other than the Communists.

Will the Mollet-Mendes-France combination rely on the 151 Communist votes to win confirmation? Or will it be able to attract votes from right-of-centre parties, some of whose members may be willing to give the new combination a chance?

These two leaders, among the youngest in French politics, insist their program must be accepted on a "take it or leave it" basis.

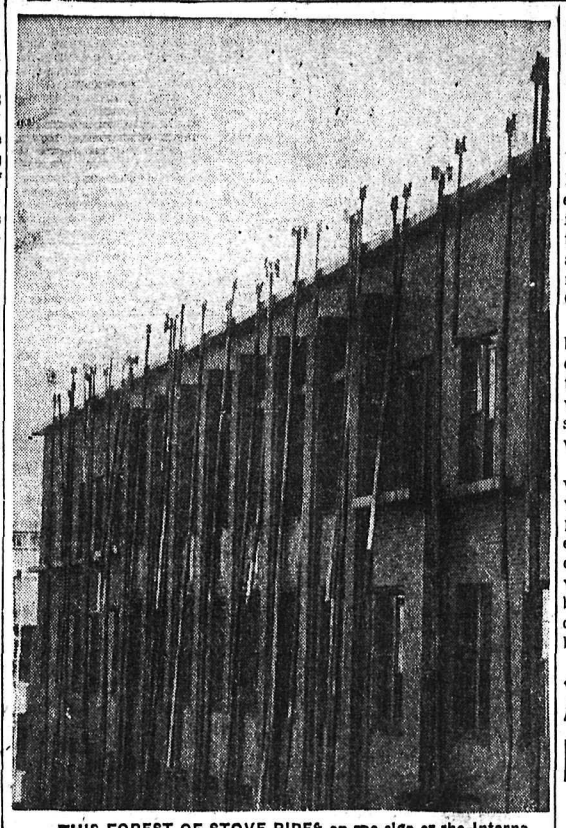
To invite into their cabinet more voices from the right, they insist, would create another of the many do-nothing cabinets that have plagued France since the war.

TO MAP OUT HEALTH PLAN

OTTAWA (CP) — Federal and provincial authorities may lay the groundwork for a national plan of health insurance at a conference opening here today.

The discussions, expected to continue most of the week, are an outgrowth of talks begun at last October's general federal-provincial conference. All 10 provinces have said they will attend.

An agenda approved by the governments following the October sessions calls for discussion on five points: Components of a health services program, expected costs, methods of financing, administration, and priorities in developing the various services.



THIS FOREST OF STOVE PIPES on the side of the International Trade Ministry building in downtown Tokyo is a sure sign of winter in the Japanese capitol. When cold weather sets in, each office brings out a wood stove and hooks it up to a stove pipe leading to the roof. Some of the pipes are 30 or more feet long. They frequently ring all four sides of a building.

Rail Merger Under Study

ST. PAUL, Minn. (AP) — A preliminary study into the possible merger of three of the U.S.'s major western railroads plus a fourth, smaller line, was announced here Sunday by the Great Northern and Northern Pacific Railways.

The consolidation, either financial or operative, would involve the Great Northern, Northern Pacific, The Chicago, Burlington and Quincy and the Spokane, Portland and Seattle Railways.

3 Die in Head-on Crash

ST. JOHNS, Que. — Three persons were killed and three young children seriously injured Sunday when two automobiles collided head-on at nearby St. Edouard de Napierville, some 25 miles southwest of Montreal.

Police said Gerald Adler, 35, his wife, Esther, 31, and 36-year-old Roger Labarre, met instant death when their car collided. All were from Montreal.

INVENTS FABRIC

FUKUOKA, Japan (AP)—Prof. Shuiku Saski of Krushu university said Sunday he has invented a new chemical fabric better than nylon or any other synthetic now in use. The new fabric is made of castor oil, coal and petroleum, he said.

Hesford Heads New Union In Okanagan

PENTICTON, B.C. (CP)—A. R. Hesford of Naramata Sunday was elected president of local 48 of the International Brotherhood of Teamsters (Ind.), until Friday known as the Federation Fruit and Vegetable Workers Union (TLC).

Leaders of the new local and the parent organization from Seattle said after the closed final day's session they hope for more co-operation between management and labor in the rich Okanagan fruit industry.

Saturday the convention endorsed a resolution passed earlier in the week by the B.C. Fruit Growers' Association to ask the federal government it appoint a royal commission into the industry. The union also endorsed requests for payment of unemployment insurance to farm workers not now covered and higher old age pensions.

TUPPER HEARING OVER SOON

VANCOUVER (CP) — Vancouver's police inquiry may end abruptly next week, royal commissioner R. H. Tupper said in an interview here Saturday, after it was announced former police chief Walter Mulligan will not reappear.

(See story Page 4 for details.)

FIREMAN DIES . . .

$600,000 Damage in Winnipeg Barracks Fire

WINNIPEG (CP) — A roaring fire ate the heart out of Minto barracks, one of Winnipeg's landmarks, and took the life of a fire department official Sunday.

Army officials estimated the damage to the 43-year-old building, the home of the 19th militia group, at $600,000.

Early Sunday night ice-encrusted firemen, working in relays, were still battling the flames, more than 12 hours after the fire began.

Battalion chief Andrew Hebenton, uncle of Andy Heberton, forward with New York Rangers of the National Hockey League, was overcome by smoke and died soon after being admitted to hospital. He was 64 years old.

Firemen rescued an elderly caretaker and his wife who were trapped on the roof of the 43-year-odl building for more than 30 minutes, in 22-below-zero weather, dressed only in night clothes. Their cries for help went unheeded until they were spotted by a passing police cruiser.

INVESTIGATING BOARD

Army officials said a board of inquiry has been set up to investigate the fire.

The fire broke out in the sergeant's mess located on the second floor in the southwest corner of the Bruck building.

Caretaker Robert Mainer and his wife were asleep in their six-room apartment located in the turret in the northwest corner.

Mr. Mainer said he awoke about six a.m. and smelled smoke. He awakened his wife, whose left leg has been lame due to an illness, and tried to get out through the building. Unable to reach their clothes closet because of the dense smoke, Mr. Mainer threw on a dressing gown and slippers and dressed his wife in his fur coat. He assisted her up four steps and through an exit on the roof where they stood shouting for more than 30 minutes in the sub-zero cold in an attempt to awaken someone in the neighborhood.

The first fire trucks had arrived on the scene before the Mainers were discovered by a passing police cruiser car.

An aerial ladder was brought to the turret and the couple, together with their dog and parakeet, were rescued. They suffered no ill effects.

The fire alarm was sounded by Bert Polson, assistant Janitor who noticed smoke seeping into the boiler room.

From the sergeants' mess the flames swept along a false ceiling on the south side, they leaped across the drill area to the north side.

ROOF FALLS

Five hours after the fire started the huge steel-trussed roof crashed to the drill area floor.

The four - foot - thick walls appeared undamaged.

Reserve and active army personnel were called out to save equipment and records. Dozens of vehicles were wheeled out of the basement garage and filing cabinets were removed from the various offices which had not yet been touched by the fire.

However many irreplaceable trophies and regiment colors and banners were lost as flames raced through the various messes.

SLUSH DELAYS TRACTOR TRAIN TO NORTH

By RICHARD ANCO
Canadian Press Staff Writer

WINNIPEG (CP) — Snow-insulated lakes and rivers across northern Manitoba and Ontario are turning to slush, delaying giant tractor train hauling operations by almost a month and holding back shipment of vital materials to the mid-Canada radar warning line.

Under the normal conditions the big ice-lift, expected to bring record loads of equipment on sleighs to sections of the 3000-mile defence wall and several northern mining sites, should have started two weeks ago.

But unusually heavy snowfalls which swept into the northern westes before freezing weather appeared have formed insulation layers, weakening the muskeg's ice coating and bogging down several vihicles. Hazardous trails are being blazed by huge bombardiers with caution and are not expected to be in full use until next month.

24,000 Aussie Dockers Strike

SYDNEY, Australia (Reuters)—More than 24,000 dock workers in 53 ports were on strike today following the breakdown of negotiations with shipowners on demands for higher pay and better working conditions.

The dock workers, who went on strike at midnight Sunday, were prepared to "dig in" for six months if necessary, an official of the Waterside Workers Federation said.

An estimated £25,000,000 ($56,000,000) worth of trade a week will be tied up by the strike which will hit hard at Australia's overseas trade in wool, wheat, meat and fresh fruit. More than 100 overseas ships will be affected.

A federal cabinet meeting was called for today to consider what action the government should take.

Consumer Credit Soared in 1955

OTTAWA (CP) — Consumer credit ballooned during the third quarter of 1955 to $2,212,000,000, up $305,000,000 from the first quarter of the year.

The Bank of Canada's statistical summary issued Saturday shows consumer credit rose steadily during the first three quarters of the year after a slight decline from the $1,974,000,000 at Dec 30, 1954.

At March 31 last year it stood at $1,907,000,000 and at June 30 had risen to $2,089,000,000.

All forms of consumer credit rose steadily during the year the summary showed. Instalment credit through retail dealers and finance companies rose to $887,000,000 in the third quarter from $844,000,000 and $762,000,000 in the second and first quarters respectively.

Says Kiernan Minimized Frost Damage

VICTORIA (CP) — R. W. Williams, president of the Vancouver Island Association of Nurserymen, Saturday accused Agriculture Minister Kenneth Kiernan of minimizing the "tremendous losses" suffered by growers during November's frosts. He said Mr. Kiernan's report to the legislature last week was "a most disappointing performance."

The minister failed completely to make the legislature aware of the extent and magnitude of the frost damage. He gave no estimate of the monetary losses involved and thereby effectively concealed the fact that the total loss amounts to several million dollars."

Growers' representatives will meet with the cabinet Feb. 17, to make a renewed plea for financial help. An earlier request was turned down.

FOUNDERS IN BALTIC

GOTEBURG, Sweden (AP) — The 397-ton German freighter Geschwister Raabe, missing for a week, is believed to have foundered in a Baltic gale with the loss of all 10 men aboard, Riga Radio said Sunday two bodies have been picked up off the Lithuanian coast wearing life preservers with the ship's name.

Los Angeles Emergency Services Rush to Aid of Santa Fe Victims

LOS ANGELES (AP) — Forty-seven persons were killed, a deputy coroner estimated, when a two-car Santa Fe diesel train en route to San Diego tipped over on a curve here Sunday night and ground along on its side for about 200 feet, crushing some of its victims under it.

The deputy coroner, Charles J. Woodward, also said 35 to 40 were injured, but hospitals treated 51.

Raymond D. Shelton, general manager for Santa Fe's coast lines, said the cause of the wreck was "undue speed on a curve."

Engineer Frank B. Parrish, 61, of San Bernardina, Calif., said he slowed the train after passing a 35-mph marker and apparently blacked out. The next thing he knew, he said, the train was tipping over.

The crash occurred near Washington Blvd. and Soto St., in the southeastern part of the city.

Injured were taken to hospitals throughout the city. Relays of ambulances from city hospitals and private firms lined up at the scene.

An emergency call was issued for doctors, nurses and plasma. Clergymen of all faiths, also summoned, circulated among the dead and injured, giving comfort and final rites.

Firemen said many victims were trapped inside steel coaches. They used axes and sledges to smash openings into the cars, which later were righted with heavy cranes.

Bodies of dead and injured were strewn along the right of way in the wake of the sliding cars.

The Red Cross sent 100 pints of whole blood to General Hospital and 18 pints to California Hospital and said it had a total of 1500 pints available.

About 150 persons were believed aboard the train, a railroad spokesman said, about 40 per cent of them military personnel returning to San Diego from weekend leave. The train had just left here a few minutes earlier, at 5:30 p.m. PST.

Two hundred policemen were assigned to divert traffic from the area, which became quickly jammed by spectators.

Medical crews from the marine air station at El Toro, near Santa Ana, were rushed to care for injured service personnel. A base hospital was set up beside the wreckage to care for the most seriously hurt.

As a big wrecker upturned the last car, gasps came from those watching the rescue. One body, mangled, was hanging out a jagged window. At the rear door were remnants of two or three other bodies.

Deputy coroners quickly put tags on the white sheets as rescue workers bundled up the victims. Within a matter of three minutes after the car was turned up there were seven white-sheeted piles laid onto the roads near the tracks. At least five other bodies could be seen under the upended car.

Workers went to work with acetylene torches to free them. Crew members had smashed holes in the top of the cars to facilitate rescue operations.

Regular trains of the Santa Fe were routed right past the wreckage. Many spectators narrowly escaped being hit by trains, some of them with sleeping babies in their arms.

Conductor G. P. Spickard said the train "suddenly tipped over. . . . That's all I know." He was in the rear car of the two-unit train.

Fourtheen bodies were laid in a roped-off area near the track.

BODIES UNDER CARS

Eight bodies or parts of bodies were underneath the cars when they were raised.

The cars' exteriors were not badly battered. Inside they were a shambles, covered with bloodstains.

The train's flagman, Bill Hines, said his life was saved because he happened to be sitting on the right side of the rear car.

"I was sitting in the back seat on the high side," he said. "That's why I came out of it. The people sitting on the left side were sucked right out of the windows and caught on the ties when the train crashed on its side."

Hines, of Carlsbad, Calif., added: "Those people didn't have a chance. The side just sheared off and there was a big pile-up in the front of the car."

TWO REVIVED

VANCOUVER (CP) — Two women were revived in hospital here Sunday after being found unconscious in gas-filled rooms. They were Mrs. Beatrice Hodge, 40, and Mrs. Marie Simmons, 32. Saturday, Vancouver recorded its seventh domestic gas fatality this year, when the body of Mrs. Teresa Wise was found in her home.

LEON BALCER, MP for Three Rivers, Que. was named president of the Progressive-Conservative Association following resignation of George Hees.

40 KILLED IN BORDER CLASH

Assassinations, Kidnappings Mark Night of Terror

TUNIS, Tunisia (AP)—Forty persons were killed Saturday in a night of violence that spread across both sides of the Tunisian-Algerian border. Nine others were reported wounded.

The violence included military clashes, political assassinations and kidnappings. The latest casualties brought to nearly 200 the number of persons killed, most of them nationalist rebels, in tense French North Africa during the last 10 days.

Two big clashes occurred Saturday night between security forces and rebel bands.

French forces fought a battle with Algerian rebels and some Moroccans from across the nearby border south of Nemours, near the coast. Fifteen rebels and five French were killed, and eight other French were wounded. Twenty-two rebels were captured.

Tunisian security forces raiding the village of Redeyef, a few miles from the Algerian border, caught a band of Tunisian and Algerian rebels. Fourteen rebels were killed. The security forces' casualties were two killed and one wounded. Eighteen rebels were captured.

Justice J. W. Estey of Supreme Court Dies, 66

OTTAWA (CP) — Mr. Justice James Wilfred Estey of the Supreme Court of Canada died Sunday in hospital, following a two month's illness. He was 66.

Mr. Justice Estey, former Saskatchewan attorney - general and education minister, entered hospital with a fatal malignancy Nov. 23. He was appointed to the Supreme Court in October, 1944.

The white-haired, soft - spoken judge, a native of Keswick Bridge, N.B., near Fredericton, was known as one of the friendliest and most approachable members of the Supreme Court. His death causes the only vacancy on the nine-judge court.

During his more than 25 years as a member of the Saskatchewan bar in Saskatoon, his colleagues said he never allowed himself to be led away from a common-sense interpretation of the law by "fancy legal phraseology."

Those who knew him best said this characteristic remained dominant throughout his years on the bench. His opinions in cases which he heard were written in plain language which permitted laymen to understand better the law and its interpretation.

In Ottawa, he made hundreds of friends. He liked most sports and often discussed the latest scores with messengers and elevator operators in the Supreme Court building.

JUSTICE J. W. ESTEY

Boer War Vet Dies

PRINCE RUPERT (CP) — William J. Raymond, 77-year-old Boer War veteran and columnist of the Daily News, died in hospital here Saturday after a brief illness.

He was employed by the Prince Rupert Evening Empire until the paper's name was changed to the Daily News in 1947. Mr. Raymond continued writing a daily column after his official retirement in 1952 until a week before his death.

Goes To Aid of Ice-Bound Sealer

LONDON (CP) — The Canadian sealer Theron, participating in the British Antarctic expedition, is fighting to shake off the grip of grinding ice which has been holding the 829-ton craft in the desolate Wedell sea for three weeks.

Messages received by the admiralty here Saturday said the Royal Navy net layer, Protector, had fought her way through the floating ice around Graham Land peninsula in some of the most dangerous water in the world and had entered the Weddell sea in an effort to go to the Theron's assistance. But at last reports the Protector was still 700 miles from the Theron.

MOSCOW (Reuters)—Diplomatic sources said Saturday Russia will sell India 20,000 tons of wheat to replace stocks depleted by last fall's floods in northern India. The Russian government told India the wheat will be delivered in February.

And in This Corner . . .

EDMONTON (CP)— An Edmonton man forfeited his bail when he failed to appear in court on an intoxication charge in 1951. He was arrested by police here last week on a warrant issued in 1951.

"I trust you have sobered up by now," said magistrate Walter Dupre as he dismissed the charge.

WINNIPEG (CP) — A Winnipeg court room these days is being filled with the familiar scent of a fish market. Some 385 pounds of stuffed and preserved sturgeon have been brought into provincial police court as evidence in the trial of three men charged with illegal possession of the fish, each weighing less than 10 pounds.

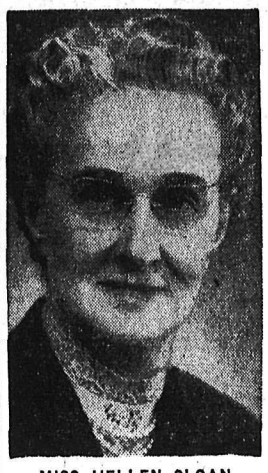
Charged are Ray Wold of Winnipeg and James Hirst and Lawrence Malmgren, both of Lac du Bonnet, Ma. They were arrested last Oct. 21 near Pointe du Bois where RCMP found the fish in their car trunk.

The case has been remanded to next Thursday when the sturgeon, preserved by a provincial government biologist but still smelling, will be brought back into court.

Tonight Thru Wed. Shows 7:00-9:00

CIVIC A FAMOUS PLAYERS THEATRE

Miss Sloan, 46 Years With B. C. Telephone, Retires January 31



MISS HELLEN SLOAN

Miss Hellen Sloan, B. C. Telephone Company district traffic chief, will retire at the end of January, completing the longest career of any woman in the company's history.

Born in Seattle, Miss Sloan came to the Kootenays at an early age and was educated in Nelson and Grand Forks. Her 46-year career with the telephone company began in September, 1909. when she joined the operating staff at Grand Forks. A year later, she became chief operator and in 1917 assumed the duties of agent-chief operator. In January, 1929, 27 years ago, Miss Sloan moved to Nelson where she was promoted to the position of supervising chief operator. She was appointed district traffic supervisor in March, 1945, and became district traffic chief in 1949.

A keen sportswoman, Miss Sloan enjoys playing golf and was, at one time, a member of the Grand Forks ice-hockey and basketball teams. She is active in the service club of Trinity United Church, president of the Nelson Soroptimist International, and a charter member of B. C. Chapter 53, Telephone Pioneers of America.

Cyril Lamb of Kinnaird Dies

Kinnaird resident, Cyril Lamb died Friday night in Trail-Tadanac hospital. A veteran of World War II, he enlisted with the South Saskatchewan regiment, 2nd Division at Weyburn, Sask., and served overseas from 1940 to 1945.

On his return to Canada Mr. Lamb went to reside in Trail where he was employed by the CM&S., moving to Kinnaird in 1950. He is survived by his wife, Bridget Christina and a daughter Bernadette at home in Kinnaird.

Minor League Standings

Nelson Minor Hockey Association's standings of their various leagues, Bantam, Midget and Juvenile as of Saturday show the Rangers well out in front in the Bantam section, the Bantam Reps ahead in the Midget division and the Canucks enjoying a similar position in the Juvenile League.

In the Bantam League the Rangers who are top heavy in scoring power have gone undefeated so far in their 20 games and have amassed a terrific total of 163 goals while having only 21 scored against them.

In the Midget league the Bantam Reps have won 14 of their 18 games to date. In the Juvenile League the top running Canucks have had to hustle to keep ahead of the second place Royals who are only six points behind. Standing follow:

BANTAM LEAGUE

	GP	W	L	T	Gf	Ga	P
Rangers	20	20	0	0	163	21	40
Redwings	21	10	8	3	56	68	23

Large Crowds See St. Saviour's Films

A large, appreciative audience saw the first program of the Cathedral Film Series Sunday night at St. Saviour's Memorial Hall

Films shown were "Lincoln Cathedral" in color, "Elizabethan England" in color, and "World Without End", a prize-winning documentary on UNESCO in Thailand and Mexico.

Tragedy Averted At Fruitvale

TRAIL — A tragedy was possibly averted by the opening up of windows in a car. Three children of the family of R. Underwood of Fruitvale received monoxide poisoning while waiting in the family car Saturday afternoon Mr. Underwood said later that it was only because the windows of the car had been opened up that they were saved.

Mr. Underwood was bringing eight-year-old Shirley, six-year-old Ronald and four-year-old Freddy home from the movies in Trail when he noticed something wrong in the car. He immediately opened the windows, and with the car acting in a sluggish manner slowly made his way to Fruitvale.

He stopped at the home of Mr. and Mrs. A. H. Godins in Fruitvale to pick up his wife and two other children and when he came out he said the children in the car looked "very delirious" and were practically unconscious.

Oxygen equipment from the Trail Fire Department was rushed to the scene.

Mr. Underwood believes that monoxide poisoning was caused by snow being stuck in the car's exhaust pipe. The children are resting comfortably.

St. Joseph's to Present Comedy

"Murder in a Nunnery" a three-act mystery comedy revolving around the murder of a wealthy domineering Baroness in a select English boarding school for girls, has been chosen by St Joseph's High School students for production this week. The play is a dramatization by Emmet Lavery of the novel of the same name by Eric Shepherd, and was presented by the Catholic Theatre Guild in Los Angeles in 1942.

Work on St. Joseph's presentation, begun early in December, continued during the Christmas vacation, and is now timed for a finished performance Thursday and Friday.

Leads are being taken by Frank Matovich as Inspector Pearson of Scotland Yard, and Aileen Trainor as Reverend Mother Superior of Harrington School for Girls in Southern England. Parts of the other nuns are being played by Delphine Poulin, Georgette Major, Gail Bonacci and Diane Lang. Companion and ward of the mysterious murdered Baroness are Mrs. Moss, played by Margie Tedesco, and Miss Venetia Geza, played by Virginia Troyan. Parts of the girl boarders are taken by Josephine Catenacci, Margaret Tschauner, Margie Gallicano and Maxine Walsh. Part of the detective sergeant is played by George Buckley, the newspaper reporter by Bob Sturgeon, the gardener by John Cristofanetti and the Baron by Andrew Zielinski.

Set for the performance is being constructed by the boys in St. Joseph's High School under the direction of Leonard Buckley and Andrew Zielinski, and costumes are being designed and made by the students under the direction of Sister Mary James.

Nelson Girl Just Misses Queen's Throne

A Nelson girl, Miss Maureen Kennedy, missed being University of British Columbia's annual Mardi Gras queen by three votes.

The third-year commerce student was one of nine candidates in the contest, representing various sororities. Miss Kennedy was the choice of Alpha Delta Phi, into which she was initiated this season.

Crowned king and queen were Maurice Gibbons and Miss Pat Shippobotham, both of Vancouver. More than 500 attended the Mardi Gras.

Miss Kennedy is the daughter of Mr. and Mrs. A. J. Kennedy, 324 Houston Street. She attended Nelson Junior and Senior High schools and was an outstanding student and sports enthusiast.

Mrs. Calbick Dies at Trail

Mrs. Wesley (Julia) Calbick, formerly a Nelson resident for 20 years, died Saturday in Trail-Tadanac Hospital. She had resided in Trail for the past eight years.

Mrs. Calbick was born in England and came to Canada 53 years ago. She was a staunch member of the Anglican Church, and was active in St. Andrew's Women's Auxiliary at Trail and the Church of the Redeemer WA in Nelson. She was once on the WA Central Board for the Diocese of Kootenay. She was the "Mother of the Year" in Trail in 1953, an honor awarded by the Eagles Lodge of Trail. She lived for five years at Vancouver before residing at Nelson.

She is survived by her husband, Wesley of Nelson; two daughters, Mrs. Alexander Mitchell of Trail and Mrs. C. J. Calbick of Chatham, New Jersey; one son, R. B. Elwood, of Blueberry Mountain, Alta., one brother, Percy Lucas in England; nine grandchildren and four great-grandchildren

Rossland Light Opera Players Coming Here

Rossland Light Opera Players will perform Gilbert and Sullivan's "The Yeoman of the Guard" when they appear in Nelson next month. They will be sponsored by Nelson Junior Chamber of Commerce.

This season's operetta will be performed in Rossland February 17, in Nelson February 18 and in Trail February 24 and 25.

According to John Roberts and Winston Churchill of Rossland, stage director and musical director, respectively, rehearsals are going well and production results to date are on schedule. The orchestra is already taking part in rehearsals with the cast, after working out on their own since early in December.

Charles Sutherland of Trail, stage manager, reports that work crews are active on scenery and that most of the scenery will be completed by the end of the month. Costumes have been on order for some time and will add greatly to the effectiveness of the Player's presentation of this picturesque operetta with its uniformed warders of the Tower of London.

This is the fifth year of presentation of Gilbert and Sullivan operettas by this group. The Players appreciated the opportunity to see, rather than take part in, a Gilbert and Sullivan light opera this winter, when The American Savoyards presented "The Mikado" in Trail.

The Gilbert and Sullivan operettas are the best known of all operettas originating in England. Although there was no native opera there during the 19th century, England's achievement in the light opera field has been second to none. The famous partnership of William S. Gilbert and Arthur Sullivan produced a string of gems in which, to quote Joseph Machlie (Associate Professor of Music, Queen's College of New York), "the rapier thrusts of Gilbert's lyrics are wedded to the heartfelt tunes of Sir Arthur Sullivan with incomparable felicity. For wit, fantasy, and masterly handling of the English language, both spoken and sung, they have never been equalled."

"The Yeomen of the Guard" is the most like an opera of any of the Gilbert and Sullivan vehicles and in some ways is the most difficult the Players have tackled to date.

District Socreds Meet in Nelson

Nelson-Creston Social Credit Association held their January meeting in Nelson over the weekend. Representatives from all over the riding attended: Mrs. W. Van Maarion, chairman, of Nelson; Frank Merriam of Wynndel, A. Wiens of Creston, zone director; Floyd Searle and Fred Lowe, vice-presidents of the North Shore; Mrs. R. H. Bradley, constituency treasurer of Nelson; Ralph Daile and Frank Berger, group presidents from Salmo; T. West, zone director of the North Shore, J. O'Genski, group president from Apex; George Talbot, zone director of Nelson; Mrs. L. Hanic of Nelson, constituency secretary; A. T. Richards, constituency membership secretary of Nelson; Rex Little of Nelson, president of the West Kootenay Federal Association.

Reports were heard from all zone directors and vice-presidents and resolutions dealing with local and provincial matters were discussed, and will be forwarded to the respective cabinet ministers for consideration. Tentative date was set for Noel Murphy, president of the B.C. Social Credit League, to visit this constituency, in the latter part of February.

Tape recording of Social Credit policies and principals are being obtained from head office in Vancouver for use in the organization of study groups.

LEG CUT WON'T STOP TENLEY

CORTINA D'AMPEZZO, Italy (AP) — World figure skating champion Tenley Albright returned to the ice Sunday despite her gashed right leg.

Smiling and apparently happy, the pretty Newton Center, Mass., champion said, "The leg hasn't given way or shown any lack of control like it did for the first 48 hours." She cut her leg in practice three days ago.

Her father, Dr. Hollis Albright, who flew here from Boston, said earlier that Tenley will be fit to skate in the forthcoming winter Olympic Games.

Trail All-Stars Take Nelson 8-5

Trail All-Stars, leading 6-0 after two periods, weathered a five-goal third period comeback by Nelson Intermediates, to win the first West Kootenay intermediate hockey game of the season 8-5 at the Civic Arena Saturday night.

Trail scored five times on Nelson's goalie Gerry Koehle in the first period. Jones hit the twine twice, and Norm Hyssop, Secco and Nichol, once each. Nichol and Secco each drew two assists, Hyssop, Lund and Palone, one each, in the opening stanza.

Pinoke MacIntyre from Palmer was the only scoring play of the middle session.

Nelson came to life in the third period, playing-coach Shorty Malacko scoring from Marsh Severyn at the 2:45 mark. Lund, on a play with MacIntyre and Jones again gave Trail a six-goal lead at the 6:45. Just past the half way mark of the period, Nelson scored twice in a space of 40 seconds. Bill Haldane, ex-Nelson Maple Leaf senior, scored on passes from Malacko and Severyn and Garth Lipsack made it 7-3 on a play with John Bachynski and Sid White. Norm Hyssop, younger brother of the Leafs' Lee, finished the Trail scoring by potting his second goal of the night at 13:06, Secco assisting.

Bachynski finished the Nelson scoring, scoring from Red Koehle and White at 16:02 and again from Neil McClenaghan and George Barefoot with 48 seconds remaining in the game.

Trail drew six of 10 penalties assessed by officials Don McGregor, Fritz Koehle and Bill Vickers.

Lineups: Trail — Margoreeth, goal; Klitt, Hamilton, Crowe, Palmer, Secco, Hyssop, Lund, Mailey, Jones, McKinnon, Nichols, MacIntyre, Tamoline and Palone.

Nelson: G. Koehle, goal; White, Malacko, Bachynski, Severyn, Maglio, Barefoot, McClenaghan, Haldane, Benedetti, Lipsack, Harrison, Burdette, R. Koehle.

Final:
Leeming, Ne, 9, Moir, Tr, 8.

Socreds Elect T. West, Favor Rose Pass Road

LONGBEACH — T. S. West was elected new zone president, succeeding A. W. Heibey, when the West Arm Zone of the Social Credit League held its annual meeting at the home of Mrs. Feller here.

Mr. West drew members' attention to the great success the public picnic ground at Kokanee has proven, but explained that a need had now arisen for a trailer camping ground. Land should be found before the summer tourist rush starts, he said.

Need of a Rose Pass road before a Jumbo Pass highway was built was to be put before the public works department.

Resolutions were read and enlarged on from the annual convention at Vancouver. A motion was endorsed urging the local executive to handle all small matters and grievances pertaining to this locality.

SPIRITUAL QUALITIES' IMPORTANCE NOTED

Why the spiritual qualities of honesty, unselfishness and obedience are important to an understanding of Truth was brought out at Christian Science services Sunday.

Scriptural selections read in the Lesson-Sermon entitled, "Truth", included Jesus' parable of the sower and his explanation of its meaning for his disciples (Luke 8).

Among the correlative passages read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy was the following: "The spiritual sense of Truth must be gained before Truth can be understood. This sense is assimilated only as we are honest, unselfish, loving and meek. In the soil of an 'honest and good heart' the seed must be sown; else it beareth not much fruit, for the swinish element in human nature uproots it."

The Golden Text is from Psalms (86:15): "Thou O Lord, are a God full of compassion, and gracious, longsuffering, and plenteous in mercy and truth."

ANCIENT SITE

The town of Baghdad, now the modern capital of Iraq, was built in the eighth century on the site of older settlements.

G. B. Thompson's "Endless Devotion" Noted

EMERALD MINE — A large congregation gathered in the Community Hall at Emerald Mine to honor the memory of one of the Emerald's most respected residents and community workers, Gardner Burns Thompson, who recently died in Vancouver.

The impressive service was conducted by Rev. William Edington, assisted by Rev. T. M. Karpoff, both of Fruitvale. Mr. Karpoff read the Lessons. Hymns sung were "The Strift Is O'er" "The Lord Is My Shepherd", "O for a Faith That Will Not Shrink", and "For All the Saints."

Mr. Edington, in his address, spoke of the "endless devotion" of Mr. Thompson to his home, church, and community, and of his utter faith and confidence in God. "He looked for a city with foundations whose maker and builder is God," he said.

Trail Organ Dedicated

TRAIL—The new organ recently installed in St. Andrew's Anglican Church, Trail, was dedicated Sunday morning to the glory of God and in remembrance of those who gave their lives in the last war.

The war memorial plaque, placed below the organ loft and behind the console, reads:

"To the Glory of God, St. Andrew's Church remembers with pride and gratitude, Walter W. Cooper, John E. Diamond, Cyril D. Green, Thomas B. Hill, John H. Kitchin, Frank W. Latham, C. Ivor Lewis, George A. Long, Arthur W. Mitchell, William T. Shannon, Ralph B. St. G. Smyth and R. Frederick Woods. They sacrificed themselves in war for peace."

The service began by using the old organ for the first hymn and Psalm 150, then after the dedicatory prayers the keys of the organ were handed to the organist by the people's warden, J. B. Harrison who then opened the organ. The first notes played were the "Te Deum", the hymn of praise which has been sung by the Christian church from the early ages. The congregation joined in singing the hymn: "We praise Thee O God, all the earth does worship Thee O Lord."

The service of dedication was conducted by the Rector, Rev. Canon J. Rogers, Ven. Archdeacon F. H. Graham was the preacher. The organ is the gift of the Tadanac Guild toward the building of the new church. Offering plates were also dedicated in memory of Alfred T. Rowe, who had been for many years a faithful worker, serv- on the church committee and as rector's warden.

A public organ recital will be held Wednesday. Donald King, ACCO, organist at St. Mary's Church, Kerrisdale, Vancouver, will be the guest organist and M. Patricia Cross, contralto, the soloist.

1956 Fruitvale Fair Board Is Elected

FRUITVALE—Officers and directors of Fruitvale Fair Association were elected by acclamation at the annual meeting held at the home of Mr. and Mrs. C. H. Paterson.

Anthony Sandrin of Montrose was elected president, John Newton, vice-president; Mrs. C. H. Paterson, secretary-treasurer; J. Pargeter, Fred Dann, Alex Webster, Mrs. F. M. Peitzsche, Mrs. John Newton, board of directors.

Retiring president F. M. Peitzsche gave a resume of last year's fair and expressed his thanks to members for their help in making the fair a success and expressed special thanks to Mrs. W. Veitch for her help at the trophy presentation night.

Mrs. Paterson presented an interim report on the financial standing of the Association. This revealed that the association had another successful year, which after all expenses had been met left them with a fairly good working capital to start the 1956 fair plans. Principal expenditure last year was the prize list awards which totalled $667.25, an increase of approximately $100 over the previous year.

For the benefit of new members Mrs. Paterson gave a brief history of the association since it was formed four years ago. Jack Pargeter, a former member of the fair committee under the Farmer's Institute, compared the fairs under that regime to those under the Fair Association and felt that the Fair Association had acquitted themselves exceedingly well during the four years of fairs

Mr. Sandrin, on taking office, asked for the help and co-operation of the members in carrying out the duties of his office.

The standing committees were then appointed with their first task being to review the fair book and prepare it for printing. Tentative date for the issuing of the book was set for mid-April.

Committee in charge of the Fair book, advertising and women's sections lists — Mrs. C. H. Paterson, Mrs. F. M. Peitzsche and Mrs. John Newton.

Arts and Crafts — John Newton and Mrs. C. H. Paterson.

Vegetables, flowers and fruits — Jack Pargeter, Alex Webster and Fred Dann.

The 1956 fair will again be held on Labor Day, which falls on Sept. 3rd. The fair will be presided over by a queen. Present queen is Miss Marion Scheive.

The members set the third Thursday of each month as their regular meeting night for the balance of the year. All committees are asked to have their prize lists ready by the next meeting for approval.

D. G. R. SARGENT

Sargent Again Kaslo-Kokanee Parish Warden

BALFOUR — D. G. R. Sargent, who has served as district warden for the last 10 years, was re-elected to office and given a hearty vote of thanks for his faithful service when the annual meeting of Kaslo-Kokanee parish of the Anglican Church was held at the Sargent home at Longbeach. Kaslo was represented in spite of snowslides on the highway. The parish includes Kaslo, Riondel, Crawford Bay, Gray Creek, Queen's Bay, Balfour, Longbeach and Procter.

Rev. W. S. Beames of Kaslo, vicar, reported on his work for the year, thanking wardens and guilds for their services and urging greater work for the parish.

The financial statement showed a deficit which was reduced at the meeting by donations from representatives.

C. C. Feenie of Gray Creek was elected as delegate to the Synod, with T. Jenkin as alternate.

It was proposed that parish meetings be held twice a year, to enable parishioners to keep in closer touch with the parish as a whole.

Besides making substantial contributions to the block assessment, the guilds also gave financial help to insurance, light, janitor services, fuel, purchase of oil heater, gifts, church literature, hymn and prayer books, Sunday schools and Dorcas pledges. Money was raised by bazaars, teas, sales of work and a harvest dinner. St. Mark's Woman's Auxillary at Kaslo mailed its report to the diocese. Others submitting reports were Mrs. D. Eaton, Longbeach; Mrs. A. W. Lymbery, Gray Creek; Mrs. W. Fraser, Kootenay Bay; Mrs. H. Haverstock, Crawford Bay; Mrs. J. James, Balfour; and Miss J. Hirst, Queen's Bay.

Use Tray to Study Rivers

EDMONTON (CP) — Scientists at the University of Alberta need only one week to predict the behavior of a river over a 30-year period.

The secret lies in a river tray, the only one in Canada. It permits study of rivers over an area only 20 by 50 feet. Six-mile stretches are studied at a time, scaled to one foot for 1000 feet of width and one foot for 100 feet of depth.

Typical fine and coarse river sand fills the tray. In the course of each study, its bed of sand is smooth and level. Then water with sand is allowed to pour "downstream."

By varying the amount of water and sand circulated in the tray, conditions are developed closely paralleling those found in such rivers as the north and south Saskatchewan and the Fraser.

By use of artificial obstructions, such as tin strips, a particular section of a river can be developed.

A motion-picture camera takes one picture a minute every hour, every day for a week.

When projected on a screen, the film reveals what could happen in 20 or 30 years to the six-mile stretch of river.

SEEKING CLUES

DAVENTRY, England (CP) — Thieves raided the home of Albert Osborn, a factory security chief in this Worcestershire town, and stole £15.

BACKACHE

Quick, complete satisfaction or money back. Don't suffer another day without asking your druggist for CYSTEX.

80 Employees at St. Eugene . . .

First Contract Signed For Hospital Workers

CRANBROOK—Only 1956 management-employee hospital contract in the province has gone into operation effective at the start of this month at St. Eugene Hospital between the board of management and the institution's 80 lay employees. The contract negotiated with Local 180, Hospital Employees Federal Union, has resulted in wage increases ranging from minor to $70 a month to bring the scale in line in general with wage level of Okanagan Valley hospitals. Prior to this lay employees of St. Eugene Hospital were not organized. General changes under the new agreement have reduced visiting hours at the hospital and have resulted in strict enforcement of working schedules for employees.

General report on the first three weeks was given at the monthly meeting of the Cranbrook sub-local of the Union with its president, Mrs. Charles Wakaluk, chairman. The sub-local will have its annual meeting Feb. 21.

Meanwhile the Kimberley Hospital sub-local, chartered and certified as bargaining agent late in 1955, has applied for appointment of a conciliation board following failure to reach settlement concerning its initial contract with Kimberley Hospital Board of management, and unsuccessful efforts of conciliation officer G. Carmichael.

Tarry's Society Marks Year of Great Activity

TARRYS — The great need for continuation of the Society's work for the benefit of the community was stressed by William Perehudoff and C. Loff when they gave summaries of the year's activities at the annual meeting of the Tarrys District Improvement Society.

The honorary treasurer gave a report on finances, and almost everyone was surprised to hear that the year had not left them in the red.

Mr. Hyson, guest speaker, complimented the Society on its fine work and co-operation with district teachers and the Castlegar School Board.

The honorary treasurer of last year, Eddie Bayoff and George Popoff, were elected to the executive committee to replace F. Kalmakoff, P. Konkin and William Perehudoff. Mr. Loff, chairman, welcomed the new executive members.

A pot luck supper was held at the Tarrys school Friday. It was suggested by William Zeibin to commemorate a year of activity with festivity.

FUNERAL HELD AT MICHEL FOR R. B. MYLES

NATAL — Funeral for Robert Bruce Myles, who died after a long illness, was held at Michel, the service being conducted at the Michel Anglican Church by Rev. Canon R. E. M. Yerburgh of Fernie.

Mr. Myles, 76, was born in Edinburgh, Scotland. He left the old country for Canada in 1923, coming to Michel where he resided for the past 32 years. He worked in Michel mines until 1932 when he was forced to retire from the mines due to an injury received in 1925. He was predeceased by his wife two years ago.

He leaves a sister, Mrs. L. Rothel at the Coast; a daughter, Mrs. C. Kozler of Michel, and a son John Myles of Natal. Until the time that sickness forced him to discontinue attending meetings of various organizations, he was an active member of the RAOB, fraternal Order of Eagles, Canadian Legion and the local union of Natal-Michel. These organizations paid their final tribute to him by holding services at his home and at the graveside. These services were led by I. R. Hughes, representing the RAOB lodge; J. K. Mitchell representing the Eagles, J. F. Mitchell representing the Canadian Legion branch and Simon Weaver representing the local union. Better known as 'Old Rob', Mr. Myles is missed through out the community. Pallbears, chosen from the organizations to which he belonged, were Alex Walker, Tom Findley, James Grocutt, J. K. Mitchell, Tom Slee and Andrew McGovern. There were many floral tributes.

Craig Elected By Fernie Group

FERNIE — Robert Craig was elected president of the Fernie Boy Scout Association at its annual meeting held in the City Hall. Other officers elected were Frank Amantea, vice-president; Evaristo Naccaratto, secretary; Jack Baker, treasurer, and Jack Irvine, Badge secretary.

Four Fernie Boy Scouts, Michael Hudock, Stuart Dicks, Grant Maffioli and John Craig have been invited to attend a Boy Scout Investiture at Government House, Victoria. They will be presented with Queen Schout badges on April 5 by Lieutenant-Governor Frank Ross. During their stay at the Coast the four scouts will be guest of Scout families in Vancouver and Victoria.

HEATING FOR HEALTH

Why is it that ill-health is associated with Winter? Because too few home owners provided a good heating system in their homes.

Councillors' Report Encouraging

As Alderman Foster says, the City of Nelson, with an annual revenue of over a million dollars is big business and it is only right that, from time to time, the ratepayers should know how this business is operating. The council's talk to the Rotary Club has some points which are well worth considering.

In view of the increased business of the city, everyone is by now convinced that a new city hall is a necessity. The only thing that now remains to be done is for the council to satisfy the ratepayers that they have made the best possible selection of site and design.

With the great and growing demand for electricity it was to be expected that there would be a need for replacement of transformers and for new circuit breakers, but what will be a matter of deep concern to the ratepayers is that the power plant will soon be operating at capacity and that there will be a need to purchase additional power to supply the demand. It is to be hoped that the council knows where and how it will get this additional power.

Natural power today holds the spotlight as a source of cheap heating. The chairman of the gas committee, Alderman McClelland, says that his committee is investigating the possibility of replacing the present propane gas with butane for cooking.

Butane is a waste product of natural gas and can be purchased very cheaply. However, it cannot be used in bottles but must be piped to the consumer. The present gas mains are 50 years old and in very bad shape. If butane is to be used new mains will have to be laid, but if natural gas should come to this district, as seems likely, and we should be very alert to this possibility, these mains could be used.

If the change is to be made it must be done quickly since it is desirable that pipe trenches be dug before the extensive road program envisaged by the Council is commenced.

Before the road improvement program can begin it will be necessary that all sewer and storm sewer as well as water pipes are in proper shape. Under some previous administration the maps of these services were neglected, but they are now almost up-to-date. Accurate maps of these services are an essential for future planning and economical operation. The map purchased from the appraisers should be of great value as a source of information to future councils and it is well worth the money.

In general, it would seem that council is meeting its work with enthusiasm and we shall look forward with interest to more such accounts. In this connection the council might well consider following the example of the Trail council in throwing open its committee meetings to the press, for background and information purposes.

The Canadian Flag

A high official at Ottawa has pointed out that it is altogether proper to use and regard the Canadian Red Ensign as the official flag of this country.

As an official flag, it has the approval of many individuals and groups. It has history. It has tradition. It has beauty and distinction.

Nothing better by way of design can be seen anywhere than the red field containing the Canadian coat of arms with the Union Jack in the corner. The one is representative of the nation as it is; the other a recognition of lineage. Nothing could be more appropriate.

The one thing to be regretted is that the Federal Cabinet in its order-in-council of September 5, 1945, was following the safety first idea with an escape clause; as if it knew the Red Ensign was best but was somewhat timid about saying so. It was authorized for official use "*until such time as* action is taken by Parliament for the formal adoption of a national flag."

It has been good enough through the years. It was good enough for Canadian soldiers to carry and honor in different wars, of which there have been four in this century: South Africa, two world wars and Korea. It is distinctly Canadian in conception and design. Several attempts have been made to design and popularize a substitute. All have failed.

The time has come to make the Red Ensign the Canadian flag—and no quibbling.

It seems almost impossible to get agreement on what has been called " a distinctive Canadian flag", so it might be prudent to "leave well enough alone".—Nanaimo Free Press.

Growing Fast

It was in the early part of this century, when Canada had a population of 5,000,000, that oldsters thought we would never reach the 6,000,000-mark.

Now we're growing at the rate of more than a million every three years.

Estimate of our population at December 1, made by the Federal Bureau of Statistics, was 15,792,000. The past year we grew at the rate of 2.2 per cent. Barring some unforeseen catastrophe, from here in we'll grow at better than 335,000 a year—or more than a million every three years. And each year the addition will be progressively greater. In the next 15 years we'll grow more than the 5,000,000 people all Canada had in the first year of the 20th century. By 1970 we may expect to have well over 20,000,000 population.

And we could have a lot more than that *if the world stays at peace and if Canada* embraces a liberal immigration policy to match our tremendous natural resources.

—Lethbridge Herald.

Watch Your Language

RESOLUTE — (RES-o-lute)—adjective; having or characterized by a decided purpose; determined; resolved, hence bold; firm; steady. Synonyms — steadfast, constant, perservering, unshaken. Noun—one who is resolute in daring. Origin: Latin—Resolutus, past participle.

It's Been Said

Many good purposes and intentions lie in the churchyard.—Philip Henry.

J.U., Nelson—What is the meaning of the initials BTU?

British thermal unit, which is the amount of heat required to raise the temperature of one pound of air by one degree.

E.D., Trail—For our own information we would like to know the statistics of the male and female life-span of the human being.

Of 100,000 born alive, average remaining life-span would be as follows: aged one, male 66.6, female, 72.6; one-to-five, male 67.6, female 73.3; five-ten, male 64.6, female 69.6; 10-15, male 59.2, female 64.8; 15-20, male 54.4, female 59.9; 20-25, male 49.7, female 55.1; 25-30, male 45.1, female 50.3; 30-35, male 40.5, female 45.5; 35-40, male 35.9, female 40.8; 45-45, male 31.4, female 36.1; 45-50, male 27.1, female 31.6; 50-55, male 23.0, female 27.2; 55-60, male 19.3, female 23.0; 60-65, male 16.0, female 19.1; 65-70, male 13.0, female 15.4; 70-75, male 10.3, female 12.1; 75-80, male 8.0, female 9.2; 80-85, male 6.2, female 6.9; 80 and over, 4.6, female 5.1. The latest reference book gives these life-span figures for 1951.

S.E.T., Kimberley—I am doing a job study this year and would appreciate if you would give me address of places to write to for information on architectural designing, also training for commercial airlines pilot.

For information on architectural design, write to The Secretary, Architectural Institute of B.C., 17 East Broadway, Vancouver. Regarding commercial airline pilots, write, Trans-Canada Airlines, Ottawa, Canada; Canadian Pacific Airlines, Vancouver, B.C.; and Pacific Western Airlines, Vancouver, B.C.

Mrs. W.R., Nakusp—Is there a school of motoring in Nelson, and how much would they charge to teach driving?

There is no school of motoring in Nelson or district but most garages will give instructions to anyone buying a car, whether new or a used one.

Monopoly Needs Breaking

(Regina Leader-Post)

When TCA was launched, the justification for the government going into the aviation business rested on the failure of attempts of private companies to provide the service on a trans-continental basis. To keep step with growing aviation progress, Canada needed such a service. As an alternative to heavy subsidization, the government undertook the venture, and TCA's record has been such that Canadians are warranted in having pride in it.

But the situation has changed.

There is ample reason for believing that the time long since has passed when there is enough business to support private enterprise competitors who operate along with TCA, much the same as the Canadian Pacific and the Canadian National share Canada's railway business. The competition would be beneficial to the TCA by keeping it on its toes, and Canadians would benefit from the competitive service, and from competitive rates.

Socred Dividends

Among Social Crediters, the basic dividend of $25 a month, promised back in 1935, has long been a sore spot—one of those things that isn't mentioned in polite society.

It comes as rather a surprise, therefore, to find the Alberta Credit League calling upon the provincial government to pay "individual participation dividends" to Albertans.

There are some important differences between this scheme and the original plan of 20 years ago.

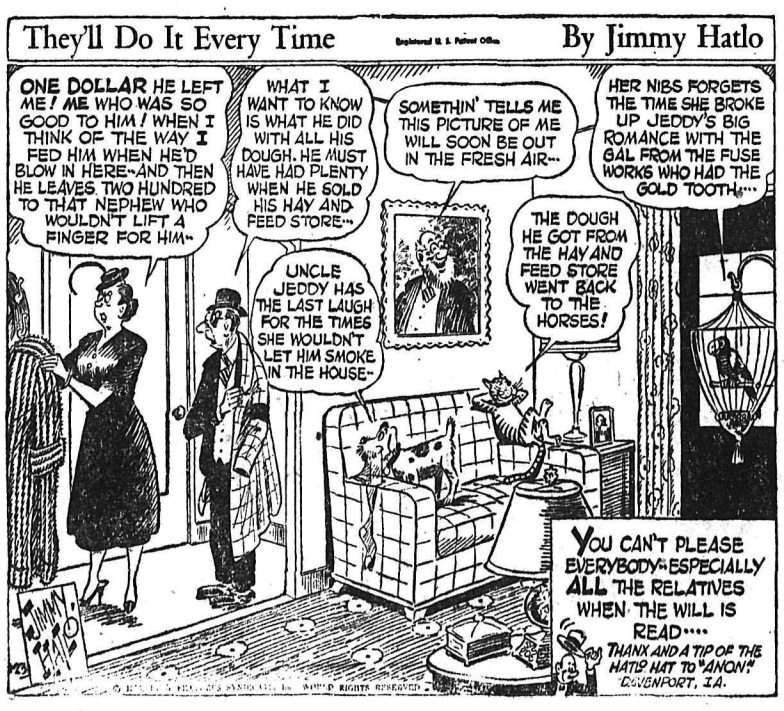
In those days the dividends were to come out of thin air—"created with a fountain pen" by a mysterious and unexplained process known as "monetizing the cultural heritage".

Now the Social Crediters are apparently seeking a more mundane foundation; they propose to draw their "individual participation dividends" *from the surpluses the province* derives from the administration of natural resources, particularly gas and oil.

—Edmonton Journal.

They'll Do It Every Time

By Jimmy Hatlo



Today's Bible Thought

For freedom did Christ set us free, stand fast therefore, and be not entangled again in the yoke of bondage. Galatians 5:1.

A yoke is a sign of slavery. Sin is a cruel task master. We should denounce all sinful thoughts and impulses.

Aunt Het

The dog on the end of a leash leads nothing but a man's life.

POWERHOUSE ON WHEELS—One of two new B.C. Power Commission mobile generating units, first of their type in the province. The 500-kilowatt capacity "is as large as anything on rubber on the continent." Units, assembled in Vancouver, will be available for immediate dispatch to any part of the Commission's province-wide system for emergencies or to handle peak loads while permanent generating additions are being installed.

Former Chief Mulligan Leaves Canada to Live in California

VANCOUVER (CP) — Walter Mulligan, former police chief of Vancouver, has moved to Los Angeles, his lawyer said Saturday.

John Gould said it was not expected Mr. Mulligan would testify before the R. H. Tupper royal commission on police affairs.

"Mr. Mulligan is a landed resident of the United States," said Mr. Gould. "He has moved to Los Angeles and will go into business for himself there."

J. G. A. Hutcheson, commission counsel, said the former chief "certainly was" scheduled to appear as a witness before the commission where he has been charged in testimony with accepting underworld playoffs.

CAN'T BE SUBPOENAED

"But we can't subpoena him if he's out of the country," said Mr. Hutcheson.

Mr. Gould was counsel for Mr. Mulligan when the two strode out of the commission hearing last Oct. 12 in protest to another adjournment by Commissioner Tupper.

Mr. Gould then said Mr. Mulligan's usefulness as chief had been "destroyed" by the acceptance of "hearsay upon hearsay evidence" by Mr. Tupper.

Later, Mr. Mulligan asked the police commission to fire him on similar grounds. New police chief *Isl George Archer, former super*intendent of the RCMP in Vancouver.

Pipeline Expects Big Business

EDMONTON (CP) — The 1800-mile crude oil pipeline from the Edmonton area to Sarnia, Ont., expects to operate at capacity of 214,000 barrels daily this year.

T. S. Johnston of Toronto, president of Interprovincial Pipe Line Co., said in an interview that new markets for the line are being opened.

For the first time the company will deliver Canadian crude to Michigan, said Mr. Johnston, in Edmonton on an inspection tour. Deliveries to Michigan will begin in February.

A capital outlay of $9,000,000 is planned this year covering extension of line facilities in Manitoba and Minnesota, he added. A 129-mile line would run east from Cromer, Man., linking the main line with oil fields in southern Saskatchewan and Manitoba.

Line deliveries during 1955 had averaged 90,000 barrels a day, a substantial increase over the previous year, the first year of operation to Sarnia.

Protest Price Of Gasoline

PORT ALBERNI, B.C. (CP) — A protest against the price of gasoline here has been made by the Alberni District Joint Labor council.

John A. Heineman, council president, said in a signed statement a committee has found a "definite indication" of inequalities in the pricing of gasoline in the Alberni district compared with points elsewhere on Vancouver island and the mainland.

He said prices ranged from 36 cents to 39 cents a gallon for regular gas in the Vancouver area compared with 44 cents in the Alberni valley.

Stove oil, he said, costs 2.1 cents more here than in Vancouver.

Quite a Meal . . .

MARSEILLE, France (Reuters) —A small shark, a dozen tuna fish, several seals and a small school of tiny fish were found inside the stomach of a 1½-ton shark captured by three local fishermen near here.

TAUNTON, England (CP) —A fox being hunted near this Somersetshire town hid in a furniture truck until the hounds passed and then scampered away.

Itch..Itch . . . I Was Nearly Crazy

Very first use of soothing, cooling liquid D. D. D. Prescription positively relieves raw red itch—caused by eczema, rashes, scalp irritation, chafing—other itch troubles. Greaseless, stainless. 39c trial bottle must satisfy or money back. Don't suffer. Ask your druggist for D.D.D. PRESCRIPTION

R. H. Tupper to Issue Report

By BRUCE LEVETT
Canadian Press Staff Writer

VANCOUVER (CP) — The first report from the R. H. Tupper royal commission, which began its inquiry into Vancouver police affairs last July and held its 36th sitting Friday, will be made public this week.

Despite some startling testimony during the sittings, both Mr. Tupper and Attorney-General Robert Bonner, who appointed the Vancouver lawyer as a one-man commission, indicated the interim report will provide no sensational disclosures.

However, it will be the first summing up of Mr. Tupper's findings on the efficiency and administration of Vancouver's strife-ridden 750-man force.

SECRET TESTIMONY

Another report which will be made public during the week is the testimony given last week behind locked doors by a man with a severe heart condition.

A transcript of the evidence of Panell Johnson, 45-year-old real estate salesman, "will be handed to the press Monday or Tuesday," Mr. Tupper said.

Tabloid editor Ray Muhro earlier identified Mr. Johnson as the man "who could tell all about the lottery racket if you talked him out of the fear that he would get killed if he did."

Mr. Johnson's lawyer and doctor both testified that he suffers a severe heart condition which, when he becomes emotionally aroused, sends his pulse count from "60 or 70 up to 262."

New Refinery for Dawson Creek

DAWSON CREEK (CP)—A new oil refinery with a daily capacity of 2000 barrels will go into operation sometime during February, officials of the Ex-Cell Refinery Co., said. Construction work on the new plant began last May and employed 70 men.

DEATHS

By The Canadian Press

London — Physicist Alexander O. Rankine, 74, who helped develop fog dispersal apparatus "Fido" used by the RAF in the Second World War.

Gerard's Cross, England — Louis Oppenheimer, 85, member of the wealthy South African diamond mining family.

Hollywood — Louise Carver, 87, one of Hollywood's first comediennes and a 60-year veteran of vaudeville, opera and the stage.

London — Sir Alexander Hutcheon, 64, a senior foreign office civil servant.

Leavenworth, Kas.—Ollie Kirkmayer, 65, former major league baseball pitcher with New York Giants and St. Louis Browns.

Worcester, Mass. — Charles Dingle, 68, character actor in films and television.

Saskatoon — Dr. D. S. Dix, 79, prominent United Church clergyman.

Comics Amuse Fitton in Cell

TORONTO (CP) — Police said Saturday Robert Fitton, 23, has maintained a nonchalant and indifferent attitude since being charged with the sex slaying of 13-year-old Linda Lampkin.

Guards at Don jail said the mail truck driver sits in his cell reading comic books with his feet propped against the wall. He was remanded in custody Friday to Jan. 27. Linda's body was discovered late on Wednesday night in the east end waterfront district. An autopsy showed she had been strangled and raped.

Police said Fitton is confined to a single cell and is kept under constant scrutiny by a special guard. Fitton's relatives, meanwhile, said they had to have their telephone numbers changed to stop crank calls.

Mrs. William Fitton, his mother, and his 19-year-old wife, Florence, said they have been hounded by callers for the last two days.

Fitton's wife is under a doctor's care after collapsing Friday night.

Book Review . . .

Province's Early History Will Fascinate Reader

All those who automatically concede that the colorful frontier days belong solely to the United States should read Pamela Stephen's book, "Winged Canoes of Nootka", to restore their pride in B. C.

The book sparkles with heroic deeds of B. C.'s early days and gives fascinating and often amusing caricatures of some of the most romantic and historical figures of the Wild West who lived right here in B. C. And when the last page has been closed the reader will be astonished at how much of B. C.'s early history has been painlessly absorbed.

The reader will meet Captain Cook on his first visit to Vancouver Island, the first white woman to visit Pacific waters, Alexander McKenzie, and Ned McGowan, who waged his own private war in the Fraser Valley, and also read the story of Wild Horse mining camp in the East Kootenay in this factual and imaginatively written book of 24 short stories by Pamela Stephen, a Vancouver resident for many years and a keen student of B. C.'s early history.

The 227-book is published by J. M. Dent and Sons (Canada) Ltd.

Mrs. Franklin D. Roosevelt accepts a special medal commemorating the 250th anniversary of the birth of Benjamin Franklin in Philadelphia from Mayor Richardson Dilworth. Mrs. Roosevelt was honored for her contribution to international understanding. In center is George M. Neil, president of Philadelphia's Poor Richard Club which spearheaded a citywide observance of Franklin's birth. The medal to Mrs. Roosevelt was the second given in the past week. The first recipient was Winston Churchill, who received his in London.—AP Wirephoto.

Fruitvale WA Branch Plans Church Supper

FRUITVALE — Plans were completed for a potluck supper to be held prior to the Annual Vestry meeting of St. John's Anglican Church when "B" Branch of St. John's WA held its meeting.

The Vestry meeting is being held Tuesday, members were informed. Plans were also completed for a bake sale February 8 in a local Store.

Favorable reports were also heard from the committees. The mincemeat sale held early in December was successful, all the mincemeat made being sold.

Lemon Desserts Popular in Winter

By ALICE DENHOFF

The tart, fresh flavor of citrus fruit is always appreciated but never more so than during the winter months.

Lemon has always been well-known as a pick-up for flagging appetites. Its sharp, tangy taste adds zest to bland foods.

And so, to counteract all the rich desserts and goodies we have had recently and to help the cause of good health, here are some delicious desserts bright with lemon.

LEMON SPONGE

Baked Lemon Sponge to serve six: Sift ½ cup sugar with ¼ cup sifted, all-purpose flour and 1/16 teaspoon salt.

Beat three egg yolks with one cup milk and add to flour mixture. Stir in two tablespoons melted butter, two tablespoons grated lemon rind and ¼ cup fresh lemon juice.

Beat two egg whites until stiff, into which gradually beat ¼ cup sugar. Carefully fold into liquid mixture.

Turn into an ungreased one quart casserole. Place in pan of hot water. Bake at 325 deg. for 46 min. or until a knife inserted in the center comes out clean.

For 10 meringue treats, prepare meringues as follows:

Combine four egg whites and 1/16 teaspoon salt. Beat until foamy. Add ¼ teaspoon cream of tartar and beat until stiff. Gradually beat in one cup sugar. Drop in mounds, a heaping tablespoon at a time, onto brown paper. Make a depression in center of each with the back of a spoon. Place on a wooden board.

Bake in very slow oven (275 deg.) 2 hours or until done. Remove from paper and cool.

Fill center with lemon cream filling just before serving.

If desired, garnish with unsweetened whipped cream and grated lemon rind.

For filling, combine 4 egg yolks, ½ cup sugar, 1/16 teaspoon salt and ¼ cup fresh lemon juice in top of double boiler. Cook over hot water until thickened, stirring frequently.

Remove from heat and cool. Stir in ½ teaspoon grated lemon rind. Fold in ½ cup heavy cream, whipped.

Pile mixture into meringue shells.

$250 Bequeathed To Kaslo PTA

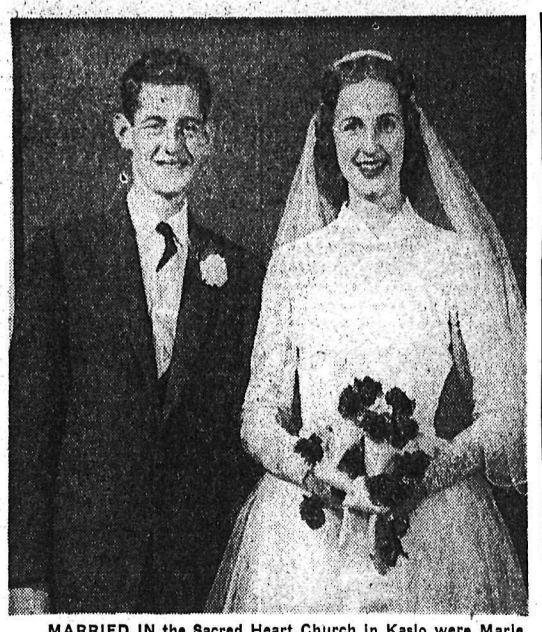
KASLO — A bequest of $250 to the Parent-Teacher Association by the late A. J. Curle, known as "Uncle Curle" to youngsters, was announced at the PTA meeting in the school auditorium before an exceptionally large turnout. The money will be used to best advantage in Mr. Curle's memory.

Miss O'Shaughnessy's room was awarded the pennant for having the largest number of parents present. Miss O'Shaughnessy was appointed to represent the PTA at the next Kaslo Recreation Commission meeting January 27.

The President, Mrs. Sawszuck was appointed to act on the advisory Board to the auditorium, replacing the publicity convenor, Mrs. McLeish, who has left the city. Secretary Mrs. A. Jardine was appointed to act on this committee.

Principal Don Kay gave a report on the Christmas concert, stating that the proceeds go toward permanent equipment for the School. They now have 60 permanent costumes, 35 hats and different stage properties for future use.

The PTA was informed that Dr. H. T. Lowe, Selkirk Health Unit director, in Nelson, would address the PTA on polio, on January 31.



MARRIED IN the Sacred Heart Church in Kaslo were Marie Kuit, youngest daughter of Mr. and Mrs. W. Kuit of Kaslo, and Gordon Herman Hulberts of Nelson, son of Mr. and Mrs. A. Hulberts of Obdam, Holland. Rev. Father S. Berrigan officiated. —Renwick photo.

Dad's School Not Like This

MONTREAL (CP) — School wasn't like this in Dad's day.

Radios, movie projectors, recording machines and gramophones are being used regularly in schools to augment the fundamental ABCs.

"We've got to compete with so many outside attractions that it's up to us to make school as interesting and challenging as we can for our students," says Douglas E. Pope, education officer for the Protestant School Board of Montreal.

"Audio-visual techniques and teacher aids serve as helpful breaks to routine, while increasing the pupil's interest in a specific subject."

But they will never take the place of a good classroom teacher, warns Mr. Pope. However, almost all the board's schools now use movie projectors and recording machines and most units built since 1949 contain a special room for audio-visual study.

Equally enthusiastic about teaching aids is Dr. J. T. McIlhone, director of the English section of the Montreal Catholic School Commission. It spends $100,000 annually on equipment.

But he also stresses that care must be taken in using it, since incorrect application can defeat the purpose.

One machine widely used here is a delineascope which projects images of book pages to a screen providing corrections in student compositions, and valuable reading and writing instruction.

Television hasn't arrived in Montreal schools yet, but is being watched closely.

"We have experimented with it, but we don't think the medium of TV can offer us anything beyond what films and radio can," says Mr. Pope. "They have the advantage of time flexibility."

Officers Chosen by Fernie Legion LA

FERNIE — The Ladies' Auxiliary to Fernie branch of the Canadian Legion installed newly-elected officers at its monthly meeting Thursday night.

The officers installed were president Mrs. William Vanbuskirk, first vice-president Mrs. Margaret White, second vice-president Mrs. Margaret Humphries, secretary Mrs. Ada Howarth, treasurer Mrs. Laura McLaren and executive, Mrs. Mary Brown, Mrs. Mary Kast and Mrs. Daisy Tymchuk.

SASKATOON (CP) — A "muscle multiplier" to give substitute mechanical power to polio victims with no muscle power or control of their arms is under construction at the Vocational Rehabilitation Centre here.

The machine will help persons so stricken they cannot feed themselves or turn the pages of books.

With the person's arm supported by a special rest, a series of motors connect it with an electric control system.

Foot pressure on control pedals will direct the movement of the arm and give handicapped persons at least some independence.

KIMBERLEY MAN PLANS BALL IN PARENTS' HONOR

MEDICINE HAT, Alta. (CP) — The party was a big surprise for Mr. and Mrs. Robert C. Baumback, and the guests were too many to be accommodated in a house.

So their 76 descendants hired a hall and staged a ball to mark the couple's 50th wedding anniversary.

"We didn't know anything about it," said Mrs. Baumback. "The surprise party was organized about three months ago by our blind son, Abe, at Kimberley, B.C. He wrote to everyone."

During the party Mr. Baumback, 70, and his 68-year-old wife surveyed the 13 children, 39 grandchildren and 24 great-grandchildren, then offered a word of advice for newly-married couples:

"Work hard and have lots of children—and you won't have time for fighting."

Seek Cause of Fluid in Lung

MONTREAL (CP) — A team of McGill University physiologists has undertaken a research program aimed at finding out how fluid gathers in the chests of humans, and how to get rid of it painlessly.

The fluid, called the pectoral fluid in medical circles, has puzzled scientists since it was discovered centuries ago. Little is known about it, but it is believed to be a major contributing factor to many human illnesses.

Findings of the research team, headed by Dr. O. Brian Stewart, are expected to be applicable to a wide range of ills—diseases of the heart, pneumonia, pleurisy, tuberculosis, cancer and certain liver and kidney diseases.

Dr. Stewart, a British-trained physician and former RAF fighter pilot, is teamed with Prof. A. S. V. Burgen of McGill's physiology department. The Royal Edward Laurentian and Montreal General Hospitals are co-operating with McGill.

Promise Rare Plant To Coast Aquarium

VANCOUVER (CP) — This *city's new public aquarium* will house part of one of Japan's national treasures when it opens some time in April.

The Japanese government has promised the Public Aquarium Society here it will send six marimos as a gift.

Marimos are a plant growth found only in Lake Akan and are protected as a national treasure. The ball-shaped plants lie on the lake bottom until their oxygen supply is exhausted, then they pop to the surface. As soon as they have replenished their oxygen they sink to the bottom again.

It will be the first gift of marimos to an aquarium outside Japan.

Pythian Sisters Slate Installed At Michel Rite

NATAL — A full slate of officers was installed at a recent meeting of Pythian Sisters of Alexander Temple, Michel. They are Mrs. Margaret Rothel, chief; Mrs. Peggy Howe, past chief; Mrs. Alvera Camilli, senior; Mrs. Thomasina Lyon, junior; Mrs. Grace Sivall, manager; Mrs. Gwen Myles, protector; Mrs. Hilda Hughes, guard; Mrs. Edna Grocutt, secretary; Mrs. Margaret Grocutt, treasurer; Mrs. Agnes Penman, pianist; Mrs. Agnes Phillips, grand senior; Mrs. Helen Venzie, grand manager; Mrs. Peggy Howe, grand representative; Mrs. Agnes Phillips, alternate representative, and Mrs. Grace Sivall, Press correspondent.

Mrs. Ellen Smith of Michel was the installing officer. During the installing ceremonies Sister Mrs. Peggy Howe of Michel was presented with her past chief certificate, pin and ring. Mrs. Phillips, chairman of the recent March of Dimes campaign undertaken by the Pythian Sisters throughout the Natal-Michel district, reported that her committee had turned in the sum of $393.85.

A ceremony of re-obligation was also conducted for Mrs. Helen Taylor. The evening ended with a potluck supper.

Antiques Find Home in Tavern

TORONTO (CP) — Articles familiar in bygone days, now becoming rare, adorn a reproduction of a typical pioneer Ontario inn which has been established at a modern brewery in Toronto.

A team of researchers tracked down articles which graced historic taverns, including a spit clock — the spring device which turned the roast on a spit for the estimated time needed for proper cooking.

Among pewter mugs, bellows and other items are an innkeeper's lantern with horn windows, clay pipes that were rented to customers and a hinged tobacco cutter, used for preparing a bowlful of tobacco for the pipe smoker.

Old posters on the walls include a proclamation containing extracts from a Lord's Day Act of Upper Canada in 1845. Among other activities then prohibited on the Sabbath were tippling, fishing, and the use of weapons "except in defence of his, her or their property from any wolf or other ravenous beast or bird of prey."

PATTERN A703 by Oldric Royce

PROMINENT DESIGNER

The new portrait neckline; see how it makes the most of a feminine figure, in this lovely dress designed by Oldric Royce! With a sure fashion hand, this internationally famous couturier creates an elegant new silhouette; graceful lines flowing on through the bodice, and easy fullness of skirt. In lustrous silk taffeta (the fabric original), it presents a beautiful appearance on the early spring scene. Or, for an even longer fashion life, you might prefer a soft shantung, pongee, or one of the fine new blends of cotton. Magnificent in any fabric — when it's an exciting, exclusive Oldric Royce Original! Pattern A703 is available in Misses' Sizes 10, 12, 14, 16 and 18. Size 16 requires 4¾ yards 45-inch fabric. Send FIFTY CENTS (in coins) plus three cents tax for Pattern A703 to N.D.N. Prominent Designer Pattern Department, 60 Front St., W., Toronto Ont. RIDING THE WAVES — Oarsmen battle to keep their craft upright on a big wa[ve] during a surf carnival near Sydney, Australia. They were successful and finished second in r[ace]

Lord Grand Aggregate Winner

Grand Challenge to Ross Rink of Trail

Curling is a Scotsman's game and it took a native Aberdonian, Trail's Scotty Ross, to foil a clean sweep by Nelson skip Don Lord of the Diamond Jubilee Bonspiel's three primary events.

Lord downed Ross 9-7 in the Silver City final Sunday night to win the second primary and total the highest Grand Aggregate, 10 wins and one loss. Ross handed Lord his only defeat, winning the West Kootenay Grand Challenge, 11-9.

The windup of the primary events brought to an end the five day Diamond Jubilee Bonspiel, the first annual spiel of the West Kootenay Curling Association. The Trail Curling Club is to host the event next year.

It took Ross three hours and 15 minutes to defeat Lord in the grand challenge final. His raspy shouts of direction to rinkmates Fred Wendel, third, Santo Del Puppo, second, and Murdo Cameron, lead, were in sharp contrast to Lord's clearly voiced outburst.

The contest was stretched into a thirteeth and when a takeout rock thrown by Ross reduced Lord's end count to two points. Walt Tozer, Lord's third, later commented that they had been one inch of the winning point at the twelfth end.

Lord, a lanky 23-year-old, is no stranger to bonspiel competition. He played third for Roy Forsythe, 1955 Manitoba champion, when he placed runner-up to Garnet Campbell, Saskatchewan's winner of the Canadian Championship last year.

Two products of Nelson high school curling, Bob Nuyens, 21, and Morris Van Sacker, 17, play second and lead on the Lord rink. Nuyens skipped two Nelson rinks to the provincial high school final. Tozer, often observed in close conference with Lord when the chips were down, joined the rink shortly before the start of the bonspiel.

PLAYOFF AT TRAIL

The final game of the Red Mountain Event, secondary to the Silver City primary, will be played in Trail this week between Reg Stone and Chess Chesser. Chesser won his way to the finals Sunday defeating Nelson's Jim Harvey who conceded after Chesser's rink had counted four in the eighth end to score 11-7

Winner of the Kokanee Park secondary, a Nelson rink skipped by Milt Ryalls, carried off four hostess chairs as their share of the $1350 in bonspiel prizes. Ryalls edged Gil Lemoel of Trail 7-6 in the final.

The Twin Rivers Consolation winner was Jim Leeming, a Nelson skip, who defeated Salmo's Gordon Moir 9-8 after an extra end.

Pups Split Two Okanagan Game

KAMLOOPS—The Notre Dame Pups picked up the first victory of their Okanagan basketball tour as they defeated the Kamloops Red Devils 66-31 on Saturday night in Kamloops. The Pups dropped their opener to the South Okanagan high school team in Osoyoos Friday night.

It was a happier story for the Pups in Kamloops as they lead 20-7 at the end of the first quarter, 31-13 at half time and 49-22 at the end of the third.

Larry Wolfe has been Johnny-on-the-spot for 23 points so far in the tour. Paddy Bell and Hank Turik are also showing up well Roy Englund was out of the line up on Saturday owing to a finger injury sustained in the South Okanagan game.

The chartered bus bearing the Notre Dame team, cheer leaders and fans will be stopping in Kelowna for a game tonight and Grand Forks tomorrow.

The game against South Okanagan was a close contest until the last quarter when the lanky sharpshooters from Oliver and Osoyoos picked up 24 points against nine for Notre Dame to bring the game to a 62-49 conclusion. Victory was especially sweet for South Okanagan as it was the first game in their brand new gym and a capacity crowd was rooting them on.

The Pups led 11-9 at the end of the first quarter, 24-20 at half time but trailed 40-38 at the end of the third. Hocksteiners was top scorer of he night, netting 17 points for South Okanagan. Turik picked up 11 Notre Dame points, Max Gordon and Larry Wolfe, 10.

READ THE CLASSIFIED DAILY

Elks, Canadians OSHL Winners

KAMLOOPS (CP) — Kelowna Packers, who have yet to win a game here this season, suffered their seventh straight defeat on Kamloops ice Saturday night when the Elks won 8-4 in an Okanagan Senior Hockey League game before a crowd of 2021.

The Kamloops win broke a third-place tie between the two clubs and returned Packers to the league basement.

Ed Kassian paced Elks with four goals, Billy Hryciuk scored two and singletons went to Johnny Milliard and Don Slater.

Brian Roche scored three and Joe Kaiser two goals for Kelowna.

PENTICTON (CP)—The league-leading Vernon Canadians poured it on Saturday night, overwhelming Penticton Vs, former world amateur champions, 10-5 in an Okanagan Senior Hockey League game before 2700 fans.

Walt Trentini garnered six points, scoring two Vernon goals and assisting on four others. Coach George Agar and Don McLeod also scored twice and other Vernon marksmen were Frank King, Odie Lowe, Art Hart and Johnny Harms.

Coach Grant Warwick, Joe Malo, Bill Warwick, Hal Tarala and Jack Macdonald scored Penticton goals.

Tied 1-1 at the end of the first period, Vernon lead 5-2 at the end of the second and fired in five more counters against three for Vs in the final period.

Stone, Peerless Championship Finalists

Trail's favorite, Reg Stone, and Len Peerless, Nelson skip, stand as contenders for the right to lead the West Kootenay to a 1956 B.C. curling championship. The semi-final of the 16 rink competition for the district crown was played Sunday at the Diamond Jubilee Bonspiel in Nelson.

Peerless and Stone will play the final next Sunday in Nelson. Stone, five times winner of top provincial curling honors, is the underdog, needing two wins over the Peerless rink to take the district title.

Stone piled up five straight wins in the competition after losing his first game to the Castlegar entry skipped by Carl Loeblich. Peerless recorded four straight in the A-event of the competition.

Nelson's Milt Ryalls, runner-up to Reg Stone in last year's provincial championships, was eliminated from the double knockout event after losing to Peerless and Stone in the semi-finals.

Here are the final standings and scores

	W	L
Peerless, Ne,	4	0
Stone, Tr,	5	1
D'Amour, Tr,*	4	2
Ryalls, Ne,*	3	2

Smokies Split Two Games on Weekend

Beat Kimberley 5-4

TRAIL — Gerry Penner's second goal of the game broke a 4-4 tie here Saturday night and gave Trail Smoke Eaters a 5-4 win over Kimberley Dynamiters.

Penner's game winning tally, only goal of the third period, came at the 16:45 mark and snapped a two-game Smoke Eater losing streak.

Kimberley opened scoring but Smokies came back to tie it up 1-1. Dynamiters then replied with two unanswered goals to lead 3-1 entering the second session.

Smokies scored three straight in the second to go up 4-3 but Dynamiters came back to tie 4-4 before the end of the period.

Penner and Mike Shabaga with two each paced Smokies attack. Alex Birukow scored the other goal.

Cal Hockley, Ken McTeer, Claude Bell and Gerry Barre scored for Kimberley.

Claude Bell shot Kimberley into a 1-0 first period lead, slapping in Buzz Mellor's pass from six feet out. He had goalie Reno Zanier completely fooled on the play. Alex Birukow tied it up at 14:50 when he drove in Ray Demore's pass after they had filtered through the defence to land on goal tender Earl Betker's doorstep.

Ken McTeer took Gerry Barre's pass from the corner at 16:07 to shoot Kimberley into the lead again. Although he was partially checked he managed to get his shot away and beat Zanier from 10 feet out. Cal Hockley put Kimberley up 3-1 when he split Smokies defence and beat Zanier with a high shot at 17:42.

SMOKIES COME BACK

Smokies opened fast in the second session but did not hit the scoresheet until 11:29, Mike Shabaga deflecting in Joe Conn's slapshot from the blueline. Twenty-three seconds later Kimberley defenceman Gordon Andre received a penalty and Smokies were on their way to tying up the game.

The goal was a duplicate of the second, Joe Conn letting go a slapshot from the blueline after taking Lenardon's pass from the corner and Shabaga deflecting it past Betker at 12:52. Kimberley had just returned to full strength when Trail struck again to take a 4-3 lead. Harry Smith backhanded a pass to Alex Birukow at the side of the net. Birukow flipped out front and Morris Saplywy tipped it to Gerry Penner who slapped it in.

Barre tied it up at 15:27 when he broke out with only defenceman Yogi Kraiger and Zanier to beat. He beat them both to set the stage for Penner's game winner.

LINEUPS

Kimberley — goal: Betker; defence: Andre, Craig, Lebioda, Jones.; forwards: Larson, Mellor, Hockley, Bell, Barre, Knippleburg, McTeer, McNiven.

Trail — goal: Zanier; defence: Conn, Kraiger, Smith; forwards: Shabaga, Demore, Saplywy, Penner, Lenardon, Burikow, Turik, Kromm, Smith.

SUMMARY

First period: 1, Kimberley, Bell (Mellor) 9:08; 2. Trail, Burikow (Demore) 14:50; 3. Kimberley, McTeer (Barre) 16:06; 4. Kimberley, Hockley (Mellor) 17:42. Penalties: none.

Second period: 5. Trail, Shabaga (Conn) 11:29; 6. Trail Shabaga (Lenardon, Conn) 12:52; 7. Trail, Penner (Burikow, Smith) 14:22; 8. Kimberley, Barre 15:27. Penalties: Andre 11:52; Conn 16:56.

Third period: 9, Trail, Penner (Smith) 16:46. Penalties: none.

Flyers Win 10-3

SPOKANE, Wash., (CP) — The front-running Spokane Flyers increased their Western International Hockey League lead to three points over second place Trail Smoke Eaters here Sunday with a 10-3 win over the Smokies.

Gino Rozzini beat Reno Zanier for the winner on a three-way play with Art Jones and Bruno Pasqualotto.

After Yogi Kraiger's second marker for Trail in the first period, the Flyers scored six unanswered goals.

Lorne Nadeau, Carl Cirullo and Frank Kubasek scored two each for the winners with singletons going to Art Jones, Gino Rozzini Jackie Miller and Jack Lancien. Harry Smith was the other Trail marksman.

A brief fracas followed the game when fans began taunting Trail forward Bobby Kromm and before it was over involved Trail club manager Louis Demore and WIHL vice-president Butch Marchant of Spokane. Spokane-manager-coach Roy McBride separated Demore and Marchant after both had exchanged blows.

SUMMARY

First period: 1. Trail, Smith (Lenardon) :17. Penalties: Luke 1:28, Rozzini 2:16, Kraiger 11:47, Jones 15:49.

Second period: 2. Spokane, Jones (Pasqualotto, Cirullo) 3:46; 3, Spokane, Nadeau (Miller, Lancien) 6:47; 4. Spokane, Cirullo (Kubasek) 7:19; 5: Trail, Kraiger (Kromm, Conn) 7:55; 6. Spokane, Rozzini, (Jones, Pasqualotto) 8:12; 7, Trail, Kraiger (Penner, Burikow) 11:59; 8. Spokane, Kubasek (Cirullo, Lancien) 15:55; 9. Spokane, Miller (Nadeau, Cirullo) 17:44. Penalties: Kraiger 5:37, Smith 10:51.

Third period: 10. Spokane, Kubasek (Miller, Nadeau) 1:46; 11. Spokane, Cirullo (Toole, Rozzini) 8:35; 12. Spokane, Nadeau (Miller, Kubasek) 13:18; 13. Spokane, Lancien (Star, Kubasek) 16:25. Penalties: Miller 7:32, Nadeau and Smith (majors) 19:53.

Selkirks Take ABC Puck Lead

CRANBROOK — Selkirks took over the Alberta-British Columbia Intermediate Hockey League lead on Cranbrook ice Saturday by a single point when they had a 9-5 win over visiting Coleman Grands in their first appearance here.

Selkirks have four wins and one tie in seven games played.

Cranbrook got a 2-1 lead in the first period on goals by Dick McBurney and Brian Casey, against Grand's single by R. Tynchyna. R. Fraser tied it for visitors early in the second, but Cranbrook went four goals ahead before the period ended. Scoring was even at three goals each in the final period in which tempers rose and at one point the Grands were withdrawn from the ice after protesting a referee decision.

Selkirks' other goals were by Tillio Fabbro, John Walmsley, Ray Armstrong, Tom Dooling and Dennis Nelligan and repeats by McBurney and Casey. Grands' scorers were J. Beguin, T. Collins and S. Gettman.

Penalties were seven for Coleman, including a ten minute misconduct and three minors for Cranbrook. Kimberley plays in Cranbrook Monday in the A-B-C schedule adjustment which moved the game ahead from its original Wednesday date.

Canadiens Lengthen Lead to 14 Points

By The Canadian Press

Montreal Canadiens swept their two weekend National Hockey League games to build their lead over the nearest rivals to 14 points. They overcame New York Rangers 3-1- in a spirited battle Saturday night then pounded Chicago Black Hawks into 6-2 defeat Sunday night.

Detroit Red Wings moved into a tie for second-place with New York by whipping Toronto Maple Leafs Sunday night after dropping a 4-2 decision to the Leafs the night before.

The Rangers failed to make a point during the weekend. They followed their Saturday night loss to Montreal by bowing 3-1 to Boston Bruins.

The Canadiens took the lead in the penalty-filled contest at Chicago midway in the first period when Henri Richard converted on passes from his big brother Maurice and Dickie Moore. Montreal was never headed thereafter as Doug Harvey, Jean Beliveau, Rocket Richard, Jean Talbot and Claude Provost rattled pucks past Chicago goalie Hank Bassen.

Johnny Wilson and Ed Litzenberger fired the Black Hawks' goals. Wilson's was his 20th of the season.

Lee Fogolin of Chicago and Bernie Geoffrion threw punches in the first period. Fogolin and Tom Johnson also battled in the final minutes of play but only Fogolin was penalized. Gus Mortson and the Rocket made menacing gestures all during the game.

Gordie Howe regained his scoring eye with two goals and Ted Lindsay matched his output in the Red Wings' victory at Detroit. All their goals were fired against Harry Lumley, who was injured and replaced for the final 13 minutes in the Toronto net by Ross Wilson, Detroit's assistant trainer and practice goalie.

Lumley suffered a twisted knee when he dropped to block a drive by Ted Lindsay at 6:59 of the final stanza.

Souchak Takes $12,500 Purse

TIJUANA, Mexico (AP) — Power-hitting Mike Souchak, with a gallant come-from-behind performance, captured the $12,500 Caliente open golf tournament Sunday with a final round 71 and a 72-hole score of 281.

The popular, 28-year-old Souchak clipped one stroke off par 72 and was seven under regulation figures for the distance in a rousing duel with tall Tommy Bolt, the leader by two strokes going into the final round.

Bolt finished two strokes behind Souchak, registering a disappointing 75 for 283.

OVERCOMBE, England (CP) — "No idea who should be in it," said police when a lidless coffin was washed up on the beach of this Devonshire town.

Buerges, Civics NCHL Winners

Reuben Buerge Motors and Civic Hotel clubs came through with wins in Nelson Commercial Hockey League action at the Civic Arena Sunday. Buerges edged Glade 4-3 while the Civics doubled the score on Queen's Hotel 8-4.

Arnold Sherwood scored twice for Buerges, George Traynor and Rod Carmichael, once each. Traynor and Sherwood assisted twice and Rudy Boates once. For Glade, George Sherstobitoff scored once and assisted on John Hadikin's goal. Walt Latkin scored once and assisted on the other Glade goals. Each team drew two penalties. Buerges outshot Glade 36-31.

Shorty Malacko was the big cog in the Civic machine scoring four times and assisting twice. Bill Richardson scored a brace and Gord Rain and Keith Harrison, once each. Syl Benedetti assisted three times and Harrison got one helper. For Queens, Dund Jamieson and Bill Wicken each scored and assisted once. Irwin Black and Swede Larson also blinked the red light, while Ron Gorsline drew an assist.

Each team drew two penalties Shots on goal were even at 36 each.

CANADIENS TIE FOR 4TH PLACE

Playing one of their best games of the league so far, the Canadiens came through with a close 3-2 win over the third-place Black Hawks in a league fixture at the Civic Arena last Saturday afternoon. The win shoved the Canadiens into a tie with the Bruins for fourth place in league standings.

The Hawks led 2-1 at the close of the first period. In the second neither team was able to score and in the third the Habs slapped in two unanswered goals to win the game. For the Hawks it was Dave Neilson from Peters and Wes Arnot from Turner. For the winners it was George Steed from Paterson, Jay Paterson unassisted and Billy Dyer from Paterson and McEachern.

The winners received two penalties and the Hawks one. Wayne Farenholtz and Bill Harrison were the referees.

Olympic Torch on Way to Games

ROME (AP) — The Olympic torch Saturday started on its way from the temple of Jupiter to Cortina d'Ampezzo's $2,000,000 ice stadium for the opening ceremonies of the winter Olympic Games four days from now.

Rome's Mayor Salvatore Rebecchini lit the torch in the Campidoglio, Rome's city hall, in which the ancient temple of Jupiter is located, and gave it to Adolfo Consolini, former Olympic and world discus champion.

Consolini sped down the broad flight of stairs designed by Michelangelo to a waiting automobile, carrying the torch high over his head.

Escorted by more than 100 blue-clad motorcyclists wearing white crash helmets, the automobile drove to Ciampino airport.

The flame will be flown to Venice, from where it will start its overland trip to the site of the Games.

Runners in one-day stages will carry the symbolic flame, each with a different torch, from Venice to Treviso, Belluno and thence to Pocol.

From Pocol, a monutain hamlet near Cortina, a skier will take over and carry it into the ice stadium for the start of the ceremonies.

COLORFUL EVENT . . .

Marr Skips Oldtimers Foursome to Victory

Additional Sport On Page 2

"Once a champion, always a champion." With these words, Scotty (The Earl of) Marr described his victory Sunday over skip Earl Hunt in the final of the Oldtimers' competition at the Diamond Jubilee Bonspiel.

The colorful event was staged by the West Kootenay Curling Association to spotlight the bonspiel's theme, 60 years of curling in Nelson. Oldtimers' rinks were restricted to curlers over 60.

Rookie of the 13 curlers taking part was Nelson Harold Hinitt, 60, who said that he had been curling "for only 27 years." Howard Bush, 84, a retired Nelson merchant, was the oldest of the oldtimers.

Trail lawyer, Donald MacDonald, for many years an ardent promoter of West Kootenay curling, skipped the Trail entry in the competition. His rinkmates were Les Wood and Tim Teehan, of Trail, and Scotty Marr.

After Hunt's 8-6 win over MacDonald in the first game played Saturday Scotty was called back into the limelight, again by the Nick Sardich rink which had dismissed him the day before allegedly for over imbibing.

The second oldtimers' game, a match between Scotty Marr and Doc Parrish, was the most reminiscent of curling in the early days. Going into the tenth end, there were 14 rocks in the house, a situation occuring only when "chip and lie" exponents are at work.

A draw rock, thrown by Howard Bush forced the game into an extra end but the cocksure play of Scotty Marr made the 11-9 difference coming home.

Kimberley Rink East Kootenay Curling Champs

CRESTON — A Kimberley rink won the East Kootenay curling playdowns here Sunday to advance to the B.C. championships at Victoria.

The Jordan rink of Kimberley defeated Spiers of Creston 11-5 and Bob Eagle of Cranbrook 11-2. In the other game the Creston rinks edged Eagle 8-7 in 13 ends. Fernie, the other entry, did not appear for competition.

With plenty of support from his rink mates, Jordan was right on his game, chipping and rolling with deadly accuracy, in the preferred knockout style of play. Other members of the winning quartet were Livingstone, Moscovitz and Beatty.

With Spiers were H. Eastman, B. Bishop and A. Sutcliffe. Eagle curled with Grant, Irwin and Carston.

Here's the kind of event that always seems to take a little more money than you have on hand . . . when borrowing seems both a necessary and sensible solution. And that's just the time to take your problems to the leader in the consumer finance field, to ask the help of the best trained staff anywhere. Thousands of men and women have found that Household Finance can be relied on to give them prompt money service. If you have a steady income and can make regular monthly payments, no endorsers are needed.

Interest Waned in Several Mining Stocks During Sluggish Business

By PATRICK FELLOWS
Canadian Press Staff Writer

Prices on North American stock markets sagged last week as doubts grew that President Eisenhower will seek a second term.

Although Eisenhower's name has been mentioned almost every time the market has risen or fallen since his heart attack last September set off a major decline, observers differ as to just how much this week's setback was due to the president's decision.

Prices on Canadian stock exchanges have to some extent resisted declines at New York in recent weeks. This week, however, the pressure proved too much. At Toronto, prices pursued a sluggishly weaker course until Thursday. Then, reacting to a sharp burst of selling at New York, the market ran into its heaviest setback since the big plunges of September and October.

Volumes on stock exchanges at Toronto and Montreal fell away as interest waned in mining stocks. The dullness of industrials brushed off on mines which had little to stimulate them except a brief mid-week flurry of underwritings.

ENDED ON DECLINE

The market tried hard to close the week with a rally, but after scoring some gains Friday, it buckled and finished on the decline.

Declines far outnumbered gains. Confederation Life was down $35 at $160 on a 60-share turnover. Losses ranging from $3 to $4.50 were marked up by other industrials.

Toronto and Montreal brokers reported an extremely active interest in the new Ford issue, priced officially at $64.50 and quoted up to $69.50 in its first selling day.

Senior mining stocks at Toronto lost up to $3.75, International Nickel leading.

Western oils followed the market trend but there was some resistance in the higher price group.

Week's index losses at Toronto: Industrials 9.08 to 432.55, golds 1.08 to 87.28, base metals 8.35 to 219.90 and western oils 3.09 to 118.18.

Week's volume: 22,691,000 shares against previous week's 29,696,000.

At New York, The Associated Press average of 60 stocks was down $7.10 at $172.20.

Week's index losses at Montreal: Banks off 0.14 at 50.61, utilities off 2.0 at 135.3, industrials off 6.4 at 285.1, combined off 6.2 at 235.2, papers off 2009 at 1345.67 and golds off .45 at 78.49.

Best Oil Export Market May Be Pacific Coast

WINNIPEG (CP) — Export markets must be developed to keep pace with the rapid developments in the western Canadian oil industry, James Richardson and Sons, Winnipeg investment dealers, say in their 10th annual survey of the industry now published.

FOUR MARKETS

The firm sees four new export areas where Canadian oil could be sold at a competitive price without reducing the field price. The first is the Montreal market, with a potential of 220,000 barrels a day. However, this area is ruled out for the present because of the availability of cheap tanker-borne crude from South America and the Middle East which can be delivered at prices lower than those for pipelined oil.

The Detroit area is seen as a potential market because of its geographical location with the interprovincial pipeline. However, its 400,000 barrels a day potential is already supplied by highly competitive sources of oil.

The markets in Minneapolis and the Lakehead are considered superior, with their availability of 225,000 barrels a day.

PACIFIC COAST GOOD

The best market potential, the booklet says, appears to be the Pacific coast. Rising import needs in California, estimated at 100,000 barrels a day in 1955, indicate that Canadian oil could find an outlet there because of its price parity with Middle East oil.

The recent shipment of 118,000 barrels of crude by tanker from Vancouver to San Francisco, although it is not seen as the start of a major sales program in the major sales program in the near future, does demonstrate the potential.

Moscow Pupils Learn English

MOSCOW (Reuters) — The 609 boys and girls of School No. 1 in Moscow are learning to think and talk as well as read and write in the English language.

Beginning with the alphabet at the age of eight, these hand-picked children work through an ordinary secondary school syllabus which is based on English until they are proficient enough to take lessons in such subjects as geography, anatomy and literature without using a word of Russian.

The idea of this English-language school is to turn out groups of bilingual youngsters who may afterwards take jobs as translators or in posts where a good knowledge of English is an asset.

School No. 1, founded in 1949, is so named because it is the first of three foreign-language schools the others study French and German now operating in Moscow. More such schools are to be opened.

Among silver-medallist graduates this year were Andrei and Georgi Malenkov, sons of Russia's former premier. Both now are at Moscow University, Andrei studying physics and Georgi, geology.

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars,

For Tuesday, January 24, 1956.

MARCH 21 to APRIL 20 (Aries)—Worry, irritability and impatience are foes to contentment and accomplishment. Tabu them; calm judgment and keenness are especially needed. Seek competent advice.

APRIL 21 to MAY 20 (Taurus)—While some hours today may be difficult for many, it need not be anything but inspiring and challenging for you. Remain calm, serene, and do be understanding, pleasant.

MAY 21 to JUNE 21 (Gemini)—Day inviting to your natural diversity of talents and assets, but it urges impartial and patient judgment and you can then gain more than many. Clever ideas, creative genius honored.

JUNE 22 to JULY 23 (Cancer)—Heed advice to Taurus, your inclinations similar now. Best to look ahead progressively, cheerfully, and not to worry about possible obstacles. Fresh advantages, new leads indicated.

JULY 24 to AUGUST 22 (Leo)—Don't permit resentment, pique or fear any room in your plans or doings, substantial trades, industries and professions are strongly sponsored. Your specific capabilities highly favored.

AUGUST 23 to SEPT. 23 (Virgo)—Basically this is a go-getter day, and it does also urge sensible allocation of tasks to avoid overcrowding at any one time. Smooth tempo with some periods of reset should gain.

SPTEMBER 24 to OCTOBER 23 (Libra) — Some extenuating circumstances may occur today. Be the innate well balanced and intelligent judge you can be of what to do and say; where, when to say it.

OCTOBER 24 to NOVEMBER 22 (Scorpio)—You may be exposed to irritating people and restricting elements. Neither can beat you if you are your true, steady, ambitious self and start the day with a prayer. Determine to do your best.

NOVEMBER 23 to DECEMBER 22 (Sagittarius) — All ways and means may not be ehtirely palatable now. Give things proper flavor with your gracious, helpful manner and you can make day and schedule likeable, profitable.

DECEMBER 23 to JANUARY 21 (Capricorn)—Model a smart, progressive pattern for your efforts and you will receive benefits and greater security for later as well as establish greater ability to handle exacting as well as small matters.

JANUARY 22 to FEBRUARY 20 (Aquarius)—Vicissitudes? We all have them. Instead of letting them get you down, use them to strengthen your will to attain the worth while, to better understand others' foibles and conquests over trials.

FEBRUARY 21 to MARCH 20 (Pisces) — Paramount to real achievement now are sound determination, having wise plan and purposeful objectives. Don't stay in the background; come forward with your God-given talents to achieve.

YOU BORN TODAY are a promising combination of intelligence and talents. Interspersed are some wavering tendencies, as indecision, lack of staying determination. Take you in hand and urge yourself forward constantly and with evenness of purpose, that you may attain the top achievement that can be yours. Curb desire of pleasure and at times extremes. Prayer, keeping usefully busy are sure safeguards against our weaknesses, are our instruments to accomplish. Many talents and versatility are yours; use them daily, rightly.

Birthdate: Many noted humanitarians; Charles James Fox, English statesman.

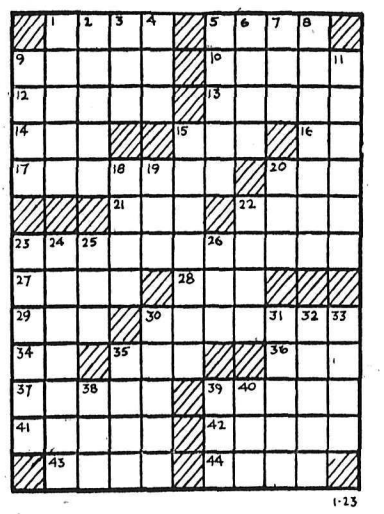
Saturday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

G R O S G U R G J Q W F Y Q G W Y J D Y R Y Z S D Y J Q C R P G D Q Y D F T W G G W N F E H H N W F F W J R O G Q M W G U W N — P R N • O Z O W .

Saturday's Cryptoquote: FOR THE HUMAN HEART IS THE MIRROR OF THE THINGS THAT ARE NEAR AND FAR—CAREY.

Believe It or Not They Want Horses

CALGARY (CP)—Hardy Salter of Calgary, secretary of the Alberta Peroheron Association, says Canada's horse population now is a mere 974,454, the lowest since 1898.

But he says there is no cause for concern.

The demand for draft horses has increased considerably during the last five months, mostly from lumber companies interested in paper pulp.

They have found that small tractors could not operate in bushes as horses could, he said.

Prices for any kind of draft horse now are much higher than last August, and Mr. Salter expects them to advance.

Removal of Dust and Grime Shows Beauty of Parliamentary Library

OTTAWA (CP) — The renovation of refurbishing of the parliamentary library, gutted by fire in August, 1953, has revealed the beauty of the 90-year-old entrance to the structure.

Workmen, who expect to have the library ready for occupancy in the spring of 1956, have removed dust and grime of years from the archway to reveal one of the finest examples of gothic archwork in Canada.

The library was the only part of the original Centre Block saved from destruction in the 1916 fire, the newly-revealed entrance of grey stone and cylindrical red granite pillars now is one of the few parts of the original building where the Prince of Wale, later King Edward VII, laid a cornerstone in 1860.

Framed in the stonework is the old arched wooden doorway of the library. Carvings made 80 to 90 years ago depict typical Canadian wildlife on the lower part of the door.

THE GOLDEN DOG

On the gothic-arched top panel of the doorway carvers' tools have retained for posterity the old French legend of the Golden Dog.

The carving shows a dog chewing a bone with another wolf-like animal looking on. The figures are set in the centre of an intricate design of rosettes and other decorations.

The carving resembles one said to have been put outside a Juebec City home by the widow of a merchant murdered by a marine lieutenant in 1748.

The floor of the renovated library is being raised to the same level as the main floor in the Centre Block. The floors were found to be out of kilter when the two buildings were joined after completion of the present Centre Block in 1919.

To remedy the situation the works department put in a step, but it was replaced by a ramp after Sir Robert Borden, then prime minister, failed to notice the step and slipped and fell. His injuries were painful and kept him confined to his home for several days.

Rip Van Winkle Not Only One Who Slept

VICTORIA (CP) — The United States would own half of Vancouver island if the author of "Rip Van Winkle" had not gone to sleep on the job, Bruce A. McKelvie, historian and author, disclosed in a recent book.

In his book, "Pageant of B.C.," he says that the "second Nootka treaty" between Great Britain and Spain, negotiated in March, 1795, divided the area 50-50 between those two powers.

Then, in 1819 the U.S. purchased Florida from Spain and included in the purchase was title to all Spanish treaties, rights and claims west of the Mississippi and north of the 42nd parallel.

The purchase gave the U.S. the right to the Spanish half of Vancouver island, but for some reason they forgot about it.

ASLEEP ON JOB

In 1843 Washington Irving, author of "Rip Van Winkle," was minister for the U.S. in Madrid. He was ordered to check on Spanish possessions in North America in a search through Madrid archives.

"But Mr. Irving was too busy writing his Spanish romances and went to sleep on the job," wrote Mr. McKelvie.

In 1846 the U.S., still ignorant of its claim to half of the island, signed a boundary treaty with Britain which cancelled for all time U.S. claim to the island.

Store Arteries In Hospital

MONTREAL (CP) — A bank dealing in life-saving arteries is being set up in Montreal to serve hospitals throughout Quebec.

The bank, operated by Royal Victoria Hospital, sterilizes and preserves arteries taken from persons shortly after death.

Previously the bank served only the needs of the hospital itself but Dr. J. Gilbert Turner, executive director of the institution, says the demand for "new arteries for old" has become so great that it was decided to expand it to meet the requirements of the whole province.

Hospital officials said results of a new technique to replace arteries have been spectacular and many limbs have been saved which formerly would have had to be amputated.

The technique also permits the removal of aneurysms — dilated and weakened sections of arteries —which might rupture and cause sudden death. The diseases section now is removed and replaced or bypassed with an artery from the bank.

AFRICAN CENTRE

Lagos, capital of Nigeria in West Africa, is a thriving commercial centre of 250,000 people.

Some Key Lines Set Record High, Others Slowed on New York Market

By WALTER BREEDE Jr.

NEW YORK (AP) — Business, which smashed all records in 1955, slowed its breakneck pace last weeks. But there were signs that the boom will be rolling in high gear again by spring.

Most striking evidence of retrenchment was in the auto and construction industries. There was hesitation, too, in Wall street. The stock market experienced its sharpest fall since President Eisenhower's heart attack.

Other key lines, however, continued to hum at a record clip. Steel set a weekly production high of 2,428,000 tons. Production and refining of crude oil held close to peak levels; manufacturers of furniture and home appliances stepped on the gas.

For a psychological shot-in-the-arm, industry unfolded plans for record expansion programs which added up to a new multi-billion-dollar bet on good times ahead.

PLAN EXPANSION

General Motors Corporation announced it will plunk down $1,000,000,000 for machinery and other new facilities in 1956.

The steel industry backed up its belief in continued prosperity with plans for a $3,000,000,000 fog expansion that will add 15,000,000 tons of new steel-making capacity by the end of 1956. It's the biggest expansion the steel industry has ever undertaken in peace-time.

Also indicating confidence in the future was President Eisenhower's budget message. In the fiscal year starting July 1, he estimated, the U.S. tax intake should total $66,333,000,000—a gain of $1,750,000,000 over the current fiscal year. If the estimate is correct, wages, salaries and profits will have to go higher too, because that's where most of taxes come from.

Here's how the general pattern of business in 1956 shaped up this week: Auto sales and home construction will be down from last year's peaks, but rising activity in other lines will more than take up the slack.

The upward trend of general business showed up on steel producers' books this week, despite cutbacks in the auto industry. Fighting for all the steel they could get were such big users as home appliance makers, freight car builders, and producers of oil and natural gas.

By spring, the heavy construction industry would be demanding huge tonnages of steel for highway, bridge and commercial building projects.

If your child catches more than one cold a winter-
SHE NEEDS RELIEF from suffering that
DOES MORE THAN WORK ON CHEST
She needs Vicks VapoRub—the proved medication that *acts two ways at once.*
When you rub it on, VapoRub quickly relieves muscular soreness. *At the same time,* VapoRub's medicated vapors bring relief with every breath.
Soothing vapor medication travels deep into your child's nose, throat and large bronchial tubes. Congestion starts breaking up. Coughing eases. Warming relief comes, lasts for hours.
So when colds strike, depend on—
VICKS VAPORUB
Rub on Relief...Breathe in Relief
Vicks and VapoRub are Reg. Trade Marks.

Travel Agents Blast Controls

LONDON (CP) — Britain's exchange controls were criticized at a meeting of British travel agents.

James Maxwell, chairman of the British Travel Association, said it is easier for a British traveller to take a holiday behind the Iron Curtain than in Canada and the United States.

Holidaymakers are allowed to take £100 to Russia but are limited to a stay of only a few days due to the stiff rate of exchange imposed by the Russians, Maxwell said. "But so far as holidays are concerned, Canada and the United States are behind a dollar barrier which is still as impassable as it was 10 years ago."

BRITISH LOVE LUCY

"After all we do allow token shipments of things costing dollars, such as American cosmetics and Canadian cars. As things are people in Britain can learn about life in America only from the films and TV's 'I Love Lucy.'"

LONDON (Reuters) — British manufacturers will attempt a maritime "invasion" of the coveted dollar market next May. A London firm is fitting out a 258-ton ship as a floating trade fair to carry displays of British goods to the North American west coast including Vancouver, and the Gulf of Mexico.

Blames Forest Licences for Sawmill Layoff

PORT ALBERNI, B.C. (CP) — Government action in approving a forest management licence for B.C. Forest Products Ltd. is the reason another company is laying off a shift of 70 men, Jack Moore, financial secretary of local 185 of the International Woodworkers of America (CIO-CCL) said here.

Mr. Moore said the men will be laid off Feb. 1 as the Tahsis Co. Ltd's supply of logs from the Clayaquot public working circle will be cut 21,000,000 board feet a year by the new licence.

The secretary suggested a meeting with company officials to discuss employment changes which will increase as pulp and paper mills continue absorbing more and more wood for by-products usually handled in sawmills.

Insurance to Cover All Civilian Flyers

WINNIPEG (CP) — Great West Life Assurance Company has announced it will provide aviation accident insurance, previously only available to crews of Trans-Canada and Canadian Pacific Airlines, to a broad group of other Canadian and United States civilian flyers.

Changes include:

1. Crew members of all Canadian and U.S. licenced commercial airlines will be covered on a world-wide basis. Up to now the company covered only TCA and CPA flyers operating in Canada and the U.S.

2. Crew members of company-owned aircraft; certain classes of private pilots; and professional pilots operating charter aircraft or engaged in sightseeing, photographing, surveying or forest protection flying will be considered for domestic coverage in Canada and the U.S.

3. Reduction in the annual premium rate charged TCA and CPA crew members for accidental death coverage.

Fly Freight Cars Over N.Z. Straits

WELLINGTON, N.Z. (CP)—To meet sudden demands in one or other of the islands of New Zealand, railway freight cars are being flown across Cook strait between the two islands.

It is believed to be the first time anywhere that railway rolling stock has regularly been transported by air.

The most remarkable aspect of the operation is that under conditions existing in New Zealand it is far cheaper to send the freight cars by air than by sea.

Second Jet Fighter Crashes Into English Village Killing Four

LONDON (Reuters) — A jet fighter crashed into an English country village Saturday, wrecking two houses, less than 24 hours after another had exploded in the centre of another village in southern England.

The crash was at Crowmarsh, on the River Thames in Oxfordshire.

An RAF Swift jet fighter plunged straight into a house. The house was demolished and another was severely damaged.

The pilot, who was dragged from the wreck severely injured, was believed to have been the only casualty.

Friday a jet crashed into the street of the village of Wadhurst, Sussex. The toll rose to four in that crash with the death Saturday of a critically injured villager.

Saturday's fatality was 70-year-old Thomas Stemp, occupier of one of the destroyed houses.

The other casualties were 60-year-old Emily Reed, Stemp's housekeeper, and the two crew members of the jet, Flying Officers L. S. Stoate, pilot, and A. W. Paterson, navigator.

Sudden disaster had come once before into Stemp's life. On June 13, 1932, his wife, 13-year-old daughter and mother-in-law were shot dead by a crazed soldier while they were on a picnic.

Movie Gossip...

Television Teaches Hollywood To Waste Less Time in Making Films

By BOB THOMAS

HOLLYWOOD (AP) — Now the tail is wagging the dog.

Television used to be a dirty word among the movie studios. Film bosses spoke of the tiny screen only in terms of disdain.

Look at them now! The studios are scrambling to cash in on the TV gold. Most of them are making films for TV, several are selling their features and shorts to the new medium, and all are using it to exploit their new pictures.

The most TV-conscious of the lots is RKO, which has already sold its old pictures to TV. Heading the studio is Daniel O'Shea, former Selznick executive most recently with CBS. His production chief is Bill Dozier, another film veteran who served with CBS.

OUTSPOKEN PRAISE

Dozier is outspoken in his regard for TV as an aid for films:

"I believe that television is the greatest developer of talent this country has ever known. Even more than vaudeville, which developed mostly entertainers, TV has provided training ground for actors, writers, directors, producers in comedy, drama and all fields.

"And look at the material TV has produced. MGM alone has bought 'The Rack,' 'The Catered Affair,' 'The Last Notch' and 'Fearful Decision.'

"The most outstanding example is 'Marty.' I hope it wins the Academy Award this year; it deserves to. Perhaps that will convince the producers of the value of TV."

SETS TOO BIG

But it's not only TV talent and material from which movies can profit, added Dozier.

"Most film sets are too big. You catch only a glimpse of them in the long shot, then the camera comes in for closeups. You spend a lot of useless money in building those sets, plus the expense of lighting them and filling them with enough extras so they won't seem empty.

"Of necessity, TV learned to do without big sets. It was impossible to have them in the early days. So if you had a scene in a restaurant you showed a booth, not the whole place.

"And the public didn't care. They're interested in the characters and what is said, not in how big the set was.

"Also, I think we can learn a lot from TV in speed of shooting. Too much time is wasted in the making of a movie."

Plan Program For TB Indians

EDMONTON (CP) — An experiment in the rehabilitation of young Indians who have been treated for tuberculosis has been undertaken by the Charles Camsel institute here.

The program, still in its initial stages, is sponsored by the federal government. If successful, it could set a precedent for a national policy.

The idea is focused mainly on the restoration of former TB patients so they may play as full a part in community life as their disability permits.

Since traditional Indian occupations such as hunting, trapping, bush work and such, are too strenuous for former tuberculosis patients the new program deals with vocational training in the city after discharge from hospital.

Nine young men have been placed in a rehabilitation boarding home and 11 young women in another. Aid is given towards completion of school studies and when qualified the Indians enter vocational classes.

Plan To Resume Logging Operations

CHEMAINUS (CP) — MacMillan and Bloedel Ltd. hopes to resume logging operations in the Chemainus area by next month, a spokesman said. The company has begun clearing roads into the logging area and unless bad weather interfers, a portion of the camp, closed since November, should be operating by the first of the month.

Sad Tale of a Pet Raccoon

MONTREAL (CP)—It's only circumstancial evidence, but Jack Wilkinson is convinced a Canadian National Railways train chopped off the tail of his pet raccoon.

Writing from Kish-Kaduk lodge in Ontario's Algonquin park, Mr. Wilkinson duly advises the CNR he now has raccoon No. 2, presumably properly equipped.

All Mr. Wilkinson asks of the CNR is that engineers lay off the throttle when passing his place. Chopping off the tail of a raccoon hurts the tourist business — to say nothing of the raccoon.

Said Mr. Wilkinson in his letter:

"A couple of winters ago a raccoon started picking up scraps around our veranda. By spring he had become quite a pet and during the summer quite a big attraction for the tourists.

FOUND LATER

"Early in December we mised him for a few days. When he finally showed up he was minus his tail. I found the tail later near the CNR tracks which pass by my place.

"This has been a serious loss to my tourist business. Undoubtedly one of your engines is responsible. All I ask is that you reduce the speed of you locomotives when they pass by my place. I think I have found another and wouldn't like this to happen again."

Weather Could Not Dampen Jamboree

MELBOURNE, Australia (CP)—The Pan Pacific Boy Scout Jamboree ended as it began — in heavy, constant rain.

About 16,000 students attended the jamboree, including contingents from 20 countries.

The chief scout of the British Commonwealth, Lord Rowallan, said: "This camp has been memorable for three things — fun, mud and happiness. The weather washed out displays and made things rather trying. But I have never seen more cheerful or happier faces."

The world jamboree coincided with Melbourne's wettest December-January weather since proper meteorological records were started 100 years ago.

Surveying and making the U.S.-Canada boundary from the Pacific to the Rockies was done between 1858 and 1862.

Carol Gaser is shown with the quintet calves born to one of the Holsteins at the Gaser farm in Valley City, Ohio. Experts say the chances are about once in 14,500,000 births — about as rare as quintuplets being born to humans. The calves were born prematurely and weighed only 20-25 pounds, one-fourth of the weight of normal Holstein calves. Alfred Gaser, the owner, saved them by feeding them milk — starting with fingers of a rubber glove and later through nipple nursing pails.—Central Press Canadian.

Unexpectedly Detained

VANCOUVER (CP) — Nick Badik, 30, failed to return last week to the witness stand at the R. H. Tupper royal commission on police affairs.

Badik, who admitted to 14 convictions for various offences, testified earlier in the week that he saw top police officers drinking in a bootlegging establishment.

Thursday night he picked up his 15th conviction when he was found guilty of impaired driving and fined $125. The commission waived his return.

Britain Ready For Tourists

LONDON (CP) — Britain looks to 1956 as her greatest tourist year —even better than record-breaking 1955.

Tourist officials expect more visitors this year than the 1,000,000 who thronged to the United Kingdom in 1955. And they hope this year's influx will be equally as profitable.

Last year, visitors spent more than £100,000,000 in Britain's hotels, restaurants and shops.

CANADIANS VISIT

More Canadians travelled to the U.K. in 1955, too. Early estimates place Canadian visitors at about 53,000, and their spending at about £12,000,000.

The board of trade, aware of the dollar earnings of tourism, has studied the economic implications to show Britons how the business of being a good host to visitors pays off.

Some of the results:

Out of every pound spent, nine shillings go to hotels, four shillings to shops, four shillings to inland transport and three shillings to entertainment and miscellaneous services.

In 1954, the tourist industry earned enough dollars to pay for all the tobacco and all the wheat imported from the United States.

Russ To Send Atom Power Model to UN

LONDON (Reuters) — Russia will exhibit a model of her atomic power station at a proposed exhibition in the United Nations building, New York, Tass news agency reported Saturday. The permanent Soviet UN delegate, A. A. Sobolev, says Russia has agreed to Secretary-General Dag Hammarskjold's proposal to organize an exhibition of the peaceful uses of atomic energy.
