Nelson Daily News

NELSON, B.C., CANADA—SATURDAY MORNING, JULY 23, 1955 — No. 78

WEATHER FORECAST

Kootenay: A few clouds and isolated thunderstorms tonight. Otherwise sunny and warm. Low-high at Cranbrook and Crescent Valley 45 and 85. Outlook for Sunday: Little change.

Ontario Fires Worst in Years

115 Fires Burning Over 200,000 Square Mile Area; Hope for Rain

TORONTO (CP) — More than 4000 men, scattered through 200,000 square miles of smoke-clouded bushlands Friday, battled Ontario's biggest fire menace in seven years.

Officials said never before have so many fires threatened over so wide an area. They said no overall plan of action is possible as men and machinery are constantly being diverted from one partially controlled fire to another threatened area.

T. E. Mackey, chief of the Ontario lands and forests department's division of fire protection, said only rain can put an end to the 115 fires licking through bone-dry timber and bush and burning low in undergrowth.

Mr Mackey's department, inundated with constant calls from hard-pressed areas for more men and equipment, is counting on rain Sunday or Monday to aid firefighting crews.

Officials of the photographic survey corporation said, despite excellent flying weather, aerial photography has been made impossible in many sections by thick smoke.

In many areas people were reminded of the big fire of 1948 in the Mississagi and Chapleau districts which consumed almost 1,000,000 acres and sent up smoke which drifted as far south as Texas.

Mr. Mackey said fires this year have consumed approximately 250,000 acres of forest and bushland, only a quarter of the area covered by the 1948 blaze. But he said firefighting expenses are expected to be higher than ever before for the province, with a likely year's end total of more than $1,000,000.

Some 200,000 square miles of bushland was closed as out-of-bounds to all but forest workers. Fire districts closed to the public were Kapuskasing, Cochrane, Swastika, Gogama, Chapleau, White River, Sudbury and Sault Ste. Marie.

More than 60,000 acres, including stands of valuable pine, balsam and assorted hardwoods, have already fallen victim to the week's largest fire, still burning out of control near Blind River, east of Sault Ste. Marie.

Mingling of Peoples Urged by Ike

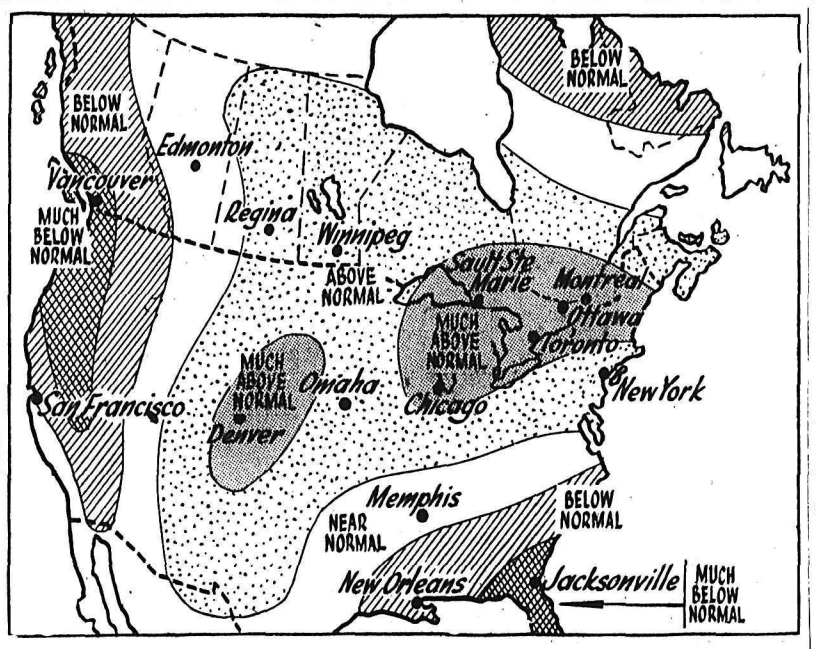
Buy Wives on Time Payment

LAGOS, Nigeria (AP)—The sale of wives on the instalment plan may return to eastern Nigeria.

A government committee, inquiring into the current prices paid to parents for brides, Thursday recommended a price freeze of £30 and a return to instalment buying.

After the war inflation was rampant in the marriage mart through soldiers returning from the wars with enough money to buy wives outright and pay above the norm. But the committee recommended rationing too.

Henceforth, it said, polygamy should end and every man be content with one price-controlled wife.



TEMPERATURES WILL range from much above normal in the east to much below normal in the west for the next 30 days, according to the long-range forecast. Eastern Canada, hoping for rain to end a bad drought, was given no reason for hope.—Central Press Canadian.

Freer Trade, Exchange Of Ideas Seen as Way Of Removing Tension

By ALAN HARVEY
Canadian Press Staff Writer

GENEVA (CP)—Premier Edgar Faure and President Eisenhower Friday laid before the Big Four conference plans for piercing the Iron Curtain and reducing international tension by permitting freer contact between the peoples of East and West.

"Closer relations between peoples are an essential element in relaxation of international tension," Faure told a 1¼-hour meeting at which he proposed a nine-point plan.

Eisenhower's three-point proposal envisaged elimination of mutual distrust, increased trade and a friendly exchange of ideas and peoples as a means of removing barriers on "the paths toward the objectives we commonly seek."

Prime Minister Eden and Premier Bulganin did not speak at this sixth session of the conference. Another meeting, expected to be the last of the conference, is scheduled for this morning.

LIMITED TO TOP MEN

Today's session will be restricted, with only the leaders, foreign ministers and two assistants for each group present. Each side has had 10 or more persons present for previous meetings.

By remaining silent Friday, Bulganin passed up an opportunity to give Russia's reaction to the plan advanced by Eisenhower Thursday for a mutual exchange of military information between the Soviet Union and the United States.

The only indication of Russia's attitude on this was given by an unidentified member of the Soviet delegation who circulated a report that Russia is unlikely to go along with Eisenhower's suggestion for exrhange of blueprints and air inspection of military establishments.

The Russian spokesman said the reason is that it makes no provision for abolition of atomic and hydrogen bombs. Bot, he added, the Soviet delegation does not doubt the sincerity of Eisenhower's plan and feels it might be possible to study it if it were linked with the prohibition of nuclear weapons.

BOG DOWN

Meanwhile, the pace of the talks slowed as the foreign ministers bogged down in attempts to reach agreement on statements about the German problem.

The foreign ministers met until late Friday night but failed to break the East-West deadlock on the program for future negotiations on German unity and European security.

Marathon talks lasting all day failed to resolve the problem, which has overshadowed the five days of "summit" talks, and the ministers sent it back to the heads of government who meet in secret session today.

An American official said Friday night the situation was "far from hopeless."

He told a press conference after the meeting that there were four or five points of differences, but "we believe they are largely of a procedural nature. Admittedly some are important, but we also believe and hope that these differences will be resolved tomorrow when they are submitted to the heads of government."

OUTLINE OF PLAN

Faure's plan for increasing East-West contacts, the final item on the agenda, included these proposals:

1. Facilities for individual tourists from East and West to visit each other's countries.
2. Cultural exchanges among professional, scientific, technical and artistic organizations.
3. An exchange of professors, students and lecturers.
4. Free access to the sources of information, particularly for the press, in all countries, and an undertaking by each of the big four heads of government to permit full publicity in their own countries for declarations by any of the other three on international affairs.
5. An exchange of statistics on the economic and social situation in the four countries.
6. The development of international commercial relations in the common interest, including particularly trade in goods for civilian use and ao progressive lowering of trade barriers.
7. The establishment of a joint investment fund to finance works of general public interest from which all countries would derive mutual benefit.

Union Jack May Not Deter Nationalists From Bombing Ships

By Spencer Moosa

TAIPEI, Formosa (AP)—Sources who should know said Friday the Chinese Naitonalists are anxious to avoid incidents with British shipping but nevertheless might bomb vessels flying the Union Jack rather than allow them to deliver cargoes to Chinese Red ports opposite Formosa.

The sources refused to be identified. They are familiar with high policy decisions.

Use of air power to deter British ships from entering such ports as Foochow is considered probable in the event—and possibly before—any large-scale hostilities break out in the Formosa strait.

Use of planes has apparently been considered because of the British threat to use the Royal Navy to protect British merchant ships trading with Red China.

The Nationalists are evidently convinced that, while Britain might use warships to protect her merchantmen, London would hesitate to order the RAF to afford similar protection.

The thinking here seems to be that this would, as one quarter put it, make Britain "too much an open ally of Mao Tse-tung," the Red Chinese leader.

HANDLING OF INDIAN AFFAIRS CRITICIZED

VICTORIA (CP) — An advisor on Indian affairs has left the British Columbia government after a disagreement with Labor Minister Lyle Wicks.

T. R. Kelly, former secretary of the provincial Indian advisory committee and only native Indian in the civil service, said Friday: "Where a civil servant differs with the minister, the civil servant goes."

He also said in a letter to Mr. Wicks, released to the press, that the government, which "really hasnt' done anything" to help the natvie Indian could increase its services.

PGE Route Not Set—Bennett

VICTORIA (CP) — Premier Bennett said Friday that no decision has yet been made on the route the Pacific Great Eastern Railway will follow from Prince George to the Peace River district.

He was commenting on a report from Prince George that the Pine Pass route had been selected, in preference to Peace Pass.

"We have quite a way to go yet before we have to decide," he said.

The premier said engineers have not yet made their recommendation to the government.

Army Pilfering Statement Soon

VANCOUVER (CP) — Defence Minister Ralph Campney said here Friday a full statement on army pilfering in this area will be made within a few weeks.

Mr. Campney described the losses as "petty thieving" and added: "There is very little in it. Only a few people are implicated."

Brig. George Kitching, army commander in B.C., disclosed the thefts in a press conference last March.

He said he could not say the value of equipment stolen in the last decade from No. 11 works company of the Royal Canadian Engineers stationed here and at Chilliwack, 05 miles east.

A Few Too Many

WASHINGTON (AP) — Senator John Kennedy (Dem. Mass.) says he has learned that the United States Army sought recently to sell as "surplus" a $450,000 supply of stiff-paper file folders"—enough to supply the entire federal government's need for the item for 15 to 18 years." Kennedy said the folders probably would be a 50-year supply for the army, and he will ask for some explanation of why a stock that big was bought.

ACTOR CLARK GABLE and his bride, the former Kay Williams Spreckels, pose for their first pictures at Gable's Encino, Calif., ranch home since their elopment to Minden, Nev., July 11. They returned to the ranch July 19.—AP Wirephoto).

Parliament Friday

By The Canadian Press

Transport Minister Marler said he doesn't think the St. Lawrence seaways ocean-going ships will squeeze out the Great Lakes grain carriers.

Opposition Leader Drew charged the transport department with complacency in development of adequate terminals for air passengers.

Harold E. Winch (CCF-Vancouver East) said present railway freight rates on grains are a grave injustice to British Columbia.

External Affairs Minister Pearson said President Eisenhower's blueprints-exchange proposal is "most imaginative, important and constructive."

Worst Heat Wave Scorching East

By The Canadian Press

Hot weather records fell in central Canada again Friday as one of the worst heat waves in several years continued.

Toronto reported a high of 94 degrees, which made the day the hottest July 22 on record in that city.

Hamilton, which had expected to see the temperature hit 100 as it did Thursday, also recorded 94 by late in the afternoon.

Rockcliffe airport, in the Ottawa area, put both cities in the shade with a sizzling 98.

Montreal reported an afternoon peak of 95.

However, some relief was in sight.

The weatherman said a cold front from the northwest is expected to lower the boom Saturday night on the heat wave which holds most of Ontario and a small part of Quebec in its grip.

NATO FORUM TO BE CALLED

PARIS (Reuters) — Legislators from the 15 Atlantic pact countries Friday decided to call for an annual "Atlantic pact forum" to foster closer relations between pact authorities and member countries legislators.

The decision was taken by the 180 legislators from the NATO countries who have been meeting here for the last week under chairmanship of Senator Wishart Robertson of Canada. The invitation to send delegates to the annual forum will be sent to speakers and presidents of the member countries' legislatures.

Nanaimo Has First Polio Case

NANAIMO (CP) — Nanaimo's first polio case since January was reported Friday by central Vancouver Island health unit. A four-year-old boy is the patient.

The four-year-old was below the age of those for whom Salk anti-polio vaccine innoculations were provided in May and June.

DIES AFTER ACCIDENT

BURNABY (CP) — Clifford Hurst, 28-year-old salesman injured in a July 1 accident on the Hope-Princeton highway, died in hospital Thursday He had been in a coma since his car left the road and plunged into a stream, killing Charles Walter Connell.

PERON AIDE RESIGNS

Peron Position Still a Question Mark

By DOUGLAS CLARK

BUENOS AIRES (Reuters) — President Juan Peron's right-hand man resigned his party job in a mass shakeup of the regime announced Friday.

But there still was no indication how the 59-year-old president would emerge from behind-the-scenes manoeuvres among leaders of the Argentine armed forces, believed to be seeking the gradual breaking down of the Peron regime.

The man who resigned is the country's vice-president, Rear-Admiral Alberto Teissaire. He quit his job as chairman of the supreme council, or titular leader, of the Peronista party backing the president.

The 64-year-old admiral told a press conference he was giving up the job to concentrate on his task as vice-president of the country.

At the same time, he announced that all other members of the party's supreme council also had offered their resignations to make way for the election of new officials—part of the political shakeup decreed by Peron after he survived, with the help of the army, a navy-led attempt to oust him last month.

Polio Picture Improved to Date

OTTAWA (CP)—Polio cases this year have reached only half the 1950-1954 average in Canada, a health department report showed Friday.

Cases to July 16 totalled 167—100 of them with paralysis—compared with a five-year average of 335—163 with paralysis.

There were eight deaths so far this year, compared with a five-year average of 36.

Judges Have Tough Job in Naming Miss Universe

LONG BEACH, Calif. (AP)—Fifteen potential winners of the Miss Universe crown were set to meet Friday night in the final judging of the international beauty contest.

Among the 15, all so beautiful that the 10 judges are expected to take five hours choosing a winner, is brunette Cathy Diggles of North Bay, Ont., chosen to represent Canada after winning the Miss Toronto title.

Most of the girls themselves say that Miss Sweden, statuesque Hillevi Rombin, will be the winner. She is a college-educated blonde who speaks five languages.

However, the crowd pleasers in Thursday night's preliminary judging were Miss Ceylon, exciting Maureen Hingert; Miss El Salvador, Marilyn Monroe-like Maribel Arrieta; Miss England, voluptuous Margaret Rowe; and Miss U.S.A., Honey-blonde Carlene King Johnson of Vermont.

Special Sling Takes Injured Man To Switzerland

VANCOUVER (CP) — Three brothers saved their money and a safety-device expert designed a special casualty sling to make possible the flight home of a Swiss-born logger who broke his back two years ago.

Hans Wyssen, 23, of Vancouver Friday was carefully placed in the light aluminum alloy carrier slung between two seats behind the pilot's cabin of a Canadian Pacific Airlines plane that is taking him to Bern, Switzerland.

Hans' brothers, Peter, Jacob and Chris, all of Vancouver, were on hand at International airport with Ralph Fuller, builder of the safety 19-pound sling.

SEAWAY COST

OTTAWA (CP) — Cost to Canada of building the St. Lawrence seaway canal is $208,182,000 at the latest estimate, Transport Minister Marler informed the Commons Friday. All but $33,500,000 of the cost is in the Montreal area.

Trail To Get Peace River Gas

WASHINGTON (CP)—The Canadian government has authorized a western Canadian pipeline company to export up to 125,000,000,000 cubic feet of natural gas a year for use in the U. S. Pacific Northwest, a federal power commission hearing was told Thursday.

D. P. McDonald of Calgary, vice-president and general counsel for Westcoast Transmission Co. Ltd., testified the authorization was granted last month and runs for 20 years. It covers exports of gas from the Peace River bloc of northwestern Alberta and northeastern British Columbia.

Some of the gas would be re-exported back to Canada for sale at Vancouver and Trail, B. C., until Westcoast itself was able to serve the B. C. markets directly with Canadian gas.

New Phone Dial System for 'Peg

WINNIPEG (CP)—Greater Winnipeg is going modern—with its telephones.

In an initial step to the future direct, continent-wide, long-distance telephone hookup, area residents Sunday will begin the "two-five" system of dialing.

The new scheme involves a two-lettered prefix plus five figures; for example, SUnset 3-1100. Preparations for the changeover started in January, 1949, and it is expected that all Greater Winnipeg phones will be converted by 1958.

Until now Winnipeg telephone callers have used a five- or six-figure code.

The two-five dialing plan, being installed by the Manitoba Telephone System, is part of a city-by-city changeover going on across North America. MTS officials say it is "hastening the day when the toll or long distance operator will dial your party for you anywhere in Canada or the United States."

The next step will then be "customer toll dialing"—a system that will permit anyone in, say Winnipeg, to dial his party in New York, Vancouver or any other centre on the continent without the intervention of an operator.

Coast Campers Warned Woods Dry

VANCOUVER (CP) — Officials of the Vancouver Forestry district have asked campers and fishermen to use extreme caution during the weekend in extinguishing camp fires and cigaret butts in any wooded area.

The assistant forester for the Vancouver area, Lawrence Boulton, warned that the woods are drying out rapidly.

About 29 small fires are still burning in the province, none on Vancouver Island. Fighting fore fires has cost B.C. taxpayers $91,315 so far this year, not including the value of burned timber.

NEW YORK (CP)—The Canadian dollar closed Friday 1/16 higher at a premium of 1 23/32 per cent in terms of U.S. funds. Pound sterling 1/16 lower at $2.78 11/32.

Europe Press Hails Ike's Peace Gesture

By JAMES F. KING

LONDON (AP) — Astonishing . . . gratifying . . . grand . . . somewhat bizarre . . .

President Eisenhower's offer to trade military blueprints and aerial reconnaissance with the Russians struck the imagination of Europe Friday in all these ways and more, even among those who admitted they didn't expect anything to come of it.

Only the Russians—and their Communist supporters in the West—were gingerly cautious in their reaction. They gave signs of being caught off guard.

"Ike Rocks the Big Four" was the banner front-page headline in Lord Beaverbrook's Daily Express, one of Britain's big newspapers.

RAISES HOPE FOR PEACE

Underscoring the Eisenhower plan was the hope it raised among the European peoples looking longingly to Geneva for a foundation to lasting peace. Some newspapers said it seemed too much to hope for complete success, however.

The London News Chronicle said "had it come from anybody else we might have caught a whiff of a political manoeuvre; but it is plain from all who were present that here was a man truly saying what he deeply felt."

"Its chances of acceptance must be almost nil . . . If Soviet Russia in the next 48 hours agrees to the proposal, then times have changed indeed.

"But what the speech accomplishes is suddenly to raise Geneva from the clammy folds of petty technicalities, from the orders of priority on this or that agenda, to what is in fact the true summit—the idealism which is prepared to fight for peace at any cost."

Fire Destroys Oil Storage Tank

TORONTO (CP) — A stubborn two-hour fire Friday destroyed a 6000-barrel oil storage tank in the heart of Toronto's waterfront refinery section.

Lorne Wotton, 42, was injured. Wotten, a self-employed welder formerly of Winnipeg was working on top of the tank when a spark from his equipment apparently caused an explosion inside the tank, officials said.

Firemen battled in 95-degree heat to confine the fire to the one tank. Nearby storage tanks contained other oils and highly-inflammable naptha.

The flaming tank contained about two feet of heavy asphalt primer, an ingredient in the construction of roadbeds, company officials reported.

Newsman Dies, 79

BRIDGEPORT, Conn. (AP) — Finlay MacKenzie, 79, who retired in 1943 after 60 years as a newspaper man in the United States, Canada and his native Scotland, died Thursday night of a heart ailment.

In Canada, he was on the staffs of papers in Montreal, Toronto, Victoria and Vancouver before becoming city editor of the old Winnipeg Telegram.

And In This Corner . . .

DETROIT (AP)—While temperatures bubble around 100, Eddie Wojtowicz is troubled with icicles on his chin.

Eddie, a technician at a Detroit tank arsenal, works in an icebox as big as a garage where they test tanks to be used in Arctic regions.

Eddie was reasonably comfortable. It was only 71 below zero.

"It drops to 105 below on cooler days," puffed Eddie, amid a thick cloud of frosty vapor.

Eddie is most popular during the current heat wave. "Everybody wants to come down and help us," he says. "They volunteer to do errands without pay.

Eddie, who works in an army arctic suit weighing 24 pounds, has just one gripe with his job: He has to leave at the end of the day.

RICHMOND, Va. (AP)—When sailor Joseph O'Connel of Jacksonville, Fla., survived the crash-landing of a navy patrol bomber near here Wednesday it marked the third time he had escaped injury in a plane mishap

Thursday, the 36-year-old reservist asked the local navy recruiting office for transportation home—by train. His request was granted.

HAGERSTOWN, Md. (AP)—The burglar who broke into the Maugansville Lumber Co. Wednesday night never had it so good. He found the combination printed in bold letters on the door of the safe.

Byran Boward, an office employee who discovered the theft Thursday, said the burglar got away with a little over $100.

Boward explained that the safe had taken such a beating at the hands of would-be safecrackers that about a year ago company officials decided to put the combination where burglars would have no trouble finding it. They rarely left any money in the safe, but Wednesday night a truck driver checked in too late to have his proceeds taken to the bank.

PROTEST CUT TO LIBRARY

PENTICTON — A slash of almost $4000 in the annual grant to the Okanagan regional library board will be protested to the B. C. Library Commission and the provincial government. The grant was cut to little more than $9,000. The board said there was an increasing demand for services and a need for salary bosts in the library staff.

LEAPS TO DEATH

VANCOUVER (CP) — William Baird, 74, leaped to his death from a third-floor window of Vancouver General hospital Friday. A hospital spokesman said the man, in hospital since July 13, would have been going home in a few days. Nature of his illness was not disclosed.

Joseph Sturgeon On Honor Roll

Joseph Sturgeon, a Nelson boy, was listed on the Gonzaga university spring honor roll released by the Rev. Francis Gubbins, S.J., registrar.

Sturgeon, son of Mr. and Mrs. W. J. Sturgeon, 618 Silica, was recently graduated in engineering from the Spokane, Wash., school. He is a former Notre Dame College student.

KILBURN SIGNS WITH V'S

PENTICTON — Doug Kilburn, starry winger with the world champion Penticton Vs, renewed his contract Friday with the Okanagan Senior Hockey League club.

Kilburn was one of the top goal-getters on the team last year. Others who have signed contracts are playing coach Grant Warwick and goalie Ivan McLelland.

SALMON FISHERMEN SEE POOR YEAR

VANCOUVER (CP) — A fish packer said here Friday that only a miracle will save salmon fishermen from their poorest year in history.

The packing company official said the sockeye pack—biggest item in the total salmon fishing picture—is less than 70,000 cases and represents a drop of more than 50 per cent from a comparable cycle of four years ago.

Ainsworth Man's Rainbow Tops in June

C. Peterson of Nelson still leads the Rainbow section of the 1955 version of the Kootenay Lake trout derby, although he was nearly nudged out of top spot in June by an Ainsworth angler.

Weightiest Rainbow caught for the month was a 20 pounder which fell for Frank Dumas' pearl pink plug opposite Cedar Creek June 12

Peterson's 20 pound, 13 ounce Rainbow caught in May off the Lime Quarry is still the leader, after three months of derby competition.

A new Dolly Varden pace setter arrived last month, however, in the person of Q. A. Carlon of Malden, Wisc. His even 20-pounder, caught at the Outlet June 20 on a Luckie Louie Herring scale, far exceeded the previous leader, a 13-pound, 12-ounce Dolly boated in April at Queen's Bay by Jack Rollow of Spokane.

As the month's winners, Dumas and Carlon will be awarded prizes at a season's wind-up, probably a dance to be given by the sponsoring Nelson Rod and Gun Club. The derby runs until November.

Besides coming a close second to the Rainbow victor of June, Mrs. Frank Wilson, wife of the Trail doctor, became the derby's leading woman contender. She and a Barco spoon got the better of a 19-pounder at Kaslo June 18.

Only other entries in the 'teen-pound class were a 17-pound, 10-ounce specimen caught on a plug at Kaslo June 9 by Luke Black of Spokane, and a 13-pound, seven-ouncer which went for a highliner pearl pink tossed out in North Bay June 20 by Riondel fisherman C. D. Truscott.

Another Riondel man, Vic Gendron entered an 11-pound, three ounce Rainbow, which succumbed to his pearl pink No. 5 between North Bay and Woodbury Creek in mid-lake, on June 12.

Adding to the numbers of United States visitors filling in entry forms was Clem Woodard of Clarkston, Wisc. His catch — a seven pounder at the outlet June 12, on a silver mac plug.

Other Dollies in the month's list were a 12 pounder of Steve Seneff of Colbert, Wash., caught on a plug at the Outlet June 11; and two seven and a quarter pounders, coincidentally caught by the Heightons of Procter. Robert A. Heighton's was on a silver scale Gibbs Martin plug at Queen's Bay June 3, and A. C. Heighton's on a No. 4 Gibbs Stewart off the Lime Quarry June 7.

The Weather

By The Canadian Press

The weather was sunny and warm throughout southern B. C. Friday.

Representative afternoon temperatures were: Victoria 66, Vancouver 72, Kamloops 9, Penticton 98 and Cranbrook 90. The Cariboo was sunny with afternoon temperatures in the 80s. Under cloudy skies, north coast thermometers remained in the 60s.

The weather today will be similar to Friday's.

On Sunday, weather in most sections of the province will show relatively little change. However, a little cloudiness is expected to creep across the south coast during the day.

Says Chinese Need Grain

TOKYO (AP) — One of Communist China's 10 vice-premiers admitted Friday "a tense situation" had developed over the country's grain supply, but denied reports of famine.

Chen Yun's address before the National Peoples Congress was rebroadcast by Peiping radio.

Many Come on From Banff, Radium . . .

Tents, Trailers—Even Boats—Fill Shady Spots in Tourist Park Here

Tents, trailers and even the odd cabin cruisers snuggle in the shade of giant trees at Nelson's Tourist Park, three days, and visitors from far points jot their names into the register.

Over 109 have visited the camp since May 1, and any night this week up to 20 parties have occupied the grounds. Last night there were 14 tenting parties and three trailers.

In the May to July period last year 146 registered.

Calgary parties so far have predominated as they did last year. Many had come on to the Kootenay after visits in Banff and Radium. Traveller from the most distant point was a woman motorcyclist from England who was en route across Canada.

Travellers from California, and Wyoming also have registered.

Frank Burton Found Dead

Frank Burton, resident of Nelson for many years, was found dead outside his home at 113 Morgan Street between 1 and 2 a.m. Friday.

A heart attack was believed to be the cause of Mr. Burton's death, city police said Friday. An inquiry is being held. Mr. Burton was found by Wes Motion on the road bank near his house. He was over 60 years of age.

Mr. Burton was a plasterer, bricklayer and stone mason by trade. He has no family here but attempts are being made to locate a sister in White Rock.

SPECIAL SERVICES TO BE HELD BY NISEI CAMPERS

Sunday evening service at the Presbyterian Church will feature an unique service of witness by the Nisei Campers who have been enjoying their outdoor activities at the Kootenay Nisei Kamp, during the past week.

Special speaker will be Rev. Kimeo Kano of Tokyo, Japan, who will speak of conditions in Japan and its need of the Christian Gospel. Others participating will be Rev. Roy Sano, of California, and a student of Union Theological Seminary, Rev. C. Bayley, pastor of the Nisei Church in Lethbridge, and Miss Margaret Ridgway, a long time friend of the Niseis and an ardent Christian missionary amongst the Niseis.

Special music will be provided under the direction of Miss Mable Sharples and Sam Hoshizaki.

SETTLEMENT OF STRIKE EXPECTED

PORT ALBERNI, B.C. (CP) — Hope has been expressed by officials of Local 1-85, International Woodworkers of America (CIO-CCL) that a dispute, which resulted in fallers and buckers at Camp B, Franklin River, walking off the job July 11, will be settled by Monday.

The union did not disclose terms of a plan suggested to officials of MacMillan and Bloedel Limited and expected to eliminate the problems which have left the large operation without falling crews.

Timber Scale Up 60 Per Cent

Nearly 60 per cent more timber has been scaled in the Nelson Forest District to date this year than in the same period of last year.

Statistics from the B.C. Forest Service for the first seven months of 1955 show the scale as 217,715,577 feet board measure as against 130,091,332 at this time a year ago.

Scale for the last three months with 1954 comparative figures in brackets was: May, 36,773,194 (15,881,112); June, 17,814,413 (23,289,779) and July, 27,586,663 (30,712,906).

Fir, spruce and larch contributed the greatest individual amounts to the totals. Over eight million f.b.m. of fir was scaled in July, over six million in June and over 10 million in May. During the three months over 20 million f.b.m. of spruce were scaled and nearly 14 million f.b.m. of larch.

Other species contributing to the totals were cedar, lodgepole pine, hemlock, balsam, white pine, yellow pine, birch and cottonwood. Minor products produced in July included 126,906 lineal feet of poles and piles, 226,515 lineal feet of mine timbers, 212 cords of mine props, 1416 hewn ties, 203 cords of cordwood and 660 cords of fence posts.

Warfield Home Destroyed

TRAIL — Flames raced through the home of Mr. and Mrs. William Heslop in the nearby village of Warfield Friday, almost destroying the premises before the village fire department put it out.

The fire was believed to have started in the living room. Cause of the blaze and estimate of damage were not immediately determined.

INQUEST SET FOR AUGUST 1

Inquest into the death of Albert Ernest Marshall, West Kootenay Power and Light Company employee electrocuted at the company's high tension switch yard at South Slocan Thursday, has been adjourned until August 1.

The coroner's jury viewed the body in Nelson Friday before the adjournment.

The coroner's jury viewed the body in Nelson Friday before the adjournment.

A well-known South Slocan man, Mr. Marshall died in Kootenay Lake General Hospital after coming into contact with 60,000 volts. An electrical utility man, he was doing maintenance work at the time.

SAFETY BELTS FOR NON-SWIMMERS URGED

VANCOUVER (CP)—A coroner's jury urged Friday that non-swimmers wear safety belts when working on booms in deep water. The jury returned a verdict of accidental death on drowning victim Charles E. Willman, 23.

Koolaree Echoes

HAPPY DAY NO. 5—It's been many a moon since we have had such perfect weather for so long at Koolaree during the boys' camp. John Norris has taken to sleeping on the beach, Kenny Bryden rising very early to fish, of course no luck, but he does catch one of the grayling variety just after supper, so why get up early? Gary Van also caught one off the wharf this morning.

This was the day for boating and we found cabins 6 and 7 and an exchange rowboat ride to the Ferguson point, while Cabins 3 and 4 went through the narrows on a launch and hike exchange, the remainder of the camp went to one of the nearby beaches for a swim.

Something new has been added, Art Van and Mr. and Mrs. Vern Cheney arrived at supper time bringing along a new buggy for hauling the express and baggage into the kitchen, the old wheelbarrow, built many years ago by Wesley McKenzie of Rossland, might complain about being surplanted for it still gives good service and affords lots of fun falling apart on sports days. While Art was here we managed to get the gable ends for hospital building cut before he took the power unit back to town.

The big hunt was staged by cabin three: hunters Richard McLean, Duncan Sample; Indian Jimmy Little; The Rock, Donny McInnis, and Mel Chandler. In this dramatic effort, we have Indian Jim leading hunters McLean and Sample through the woods to big game. It was discovered when the rock they had been going around was a blanket covering Donny and Mel in a card game.

Jack Steed taught the boys the badger pull tonight in the demonstration by the cabin leaders McLachlan gained to pulls over Jim Sadler; in the little chief effort Don Stewart and Michael Piper pulled to a draw, while Peerless outpulled Bruce Smith.

The boys are always reluctant to leave the campfire, but it is necessary to have taps about nine p.m. if we are to maintain our long-time standing of early to bed, early to rise and plenty of good food makes us healthy, happy and wise. Goodnight, Mom and Dad.

Surgical and orthopaedics specialist, Dr. John McCabe, has joined the Nelson Medical Associate Clinic. Former chief of surgical staff of the Hotel Dieu in Windsor, he has become a member of the medical staff of Kootenay Lake General Hospital.
—Vogue photo.

Munroe Leaves Forest Service

Assistant Forester Don Munroe of the B.C. Forest Service in the Nelson Forest District will leave the service at the end of August to take a position with B.C. Interior Sawmills Co. at Kamloops.

Mr. Munroe has been with the service for four years having started with the survey crew in Victoria before coming to Nelson as assistant forester.

FORGERY CASE ADJOURNED

Case of John Schmidt, former Hume Hotel employee, charged with forgery and theft was adjourned again Friday. The forgery case is adjourned until Tuesday and the theft case will re-open today.

Three witnesses were heard in connection with the forgery case Friday. Emil Schumaker, hotel proprietor testified giving Schmidt a signed blank check to be used to purchase beer from the provincial liquor store. Schmidt, it was alleged, filled in the check amount as $2500 and cashed it at the Bank of Montreal. On the checkbook stub corresponding to the check, the name of Palm Dairies Ltd., was filled in and the amount $69.15 but a Palm employee, Mr. Hill, testified that such a check had not been received by his firm. Schmidt allegedly filled in the stub. Miss D. Allan, Bank of Montreal teller, who cashed the check for Schmidt, testified she remembered cashing the check. She had cashed cheoks for him on previous occasions.

Schmidt also faces a separate charge involving theft of $700. R. B. Allan is counsel for the defence and B. K. Arlidge is crown counsel, the case being heard by Magistrate William Brown.

FLOOD DANGER OVER

NEW WESTMINSTER (CP) — Danger of serious flooding on the Fraser river is over for 1955, Jock MacDonald, provincial diking commissioner, said Friday.

NEW HOTEL CONSIDERED

NEW WESTMINSTER (CP) — City Council is considering plans for a 108-room, $2,000,000 hotel to be built at the north approach to Pattulo bridge. The eight-storey building is being financed by William Cox.

GRATEFUL SIGN

ASHINGDON, England (CP)—A plaque has been placed on one of 20 timber houses as a mark of appreciation to the people of Norway, who presented the houses to residents of this Essex town made homeless by floods a few years ago.

SLIGHT DELAY

COLCHESTER, England (CP) — Work on a new bus station here has been postponed while archaeologists excavate the site. They believe it was the residential quarters of an old Roman camp.

Giant Drive-In Screen Among B.C.'s Biggest

A 90-foot long and 43-foot high cinemascope screen, as large as any in B. C., is being erected at the Starlight Drive-In on the North Shore.

The new cinemascope equipment installed by owner Thomas Hetherington is valued at $8400. A Kaslo contractor, Thomas Baba, is doing the construction work. Contract was for $4500.

Outside framework for the screen, which is large enough to accomodate an 800-car drive-in, has been completed and workers began Friday putting the fretwork up and applying the screen face.

Mr. Heatherington expects the screen will be completed Wednesday and plans the first cinemascope picture Wednesday night.

A new plastic cover paste specially designed for outdoor screens, will be used on the big surface. It allows the screen to expand and won't crack. The North Shore drive-in will be the first to use the new product in Western Canada.

The cinemascope lens is also a new product and is among the first put out by a British company.

The lens and machine parts are valued at $2400 and the screen at $6000.

Preparatory work on the screen started a month ago at Kaslo.

The old screen was 50 feet by 37½ feet.

Fernie Navy Man Promoted

OTTAWA — The promotion of Chief Petty Officer Kenneth M. Crookston, 34, of Fernie and Halifax, to the rank of acting commissioned engineer (AE) was announced recently by Naval Headquarters.

Mr. Crookston was born in Fernie on March 8, 1921. He entered the Navy in September, 1946, as an acting aircraft artificer, after having served three wartime years with the RCAF.

Most of his service in the RCN has been at HMC Shearwater, the naval air station at Dartmouth, N. S.

Mr. Crookston will take an officers' divisional course at HMCS Cornwallis, the Royal Canadian Navy's training establishment near Digby, N. S., after which he will return to Shearwater for duty in the School of Naval Aircraft maintenance.

Kelowna Move Pleases Stukus

KELOWNA, B. C. (CP)—Annis Stukus, coach of the B. C. Lions, told reporters that the move to Kelowna "was the best we've ever made."

"The workouts are far ahead of last year's schedule and the team is rounding into excellent shape," he said. "We'll really roar this year."

Lions, making their debut in the Western Inter-Provincial Football Union last fall, finished bottom of the six-team loop.

"We're glad we decided holding a training camp away from Vancouver and we'll definitely have another one next year," Stukus said.

President Don McKenzie said, "Although the team would like to return to Kelowna the decision is up to the executive."

The two-week training camp is scheduled to end today after an inter-squad game.

Stukus hinted about 10 players would be dropped the first week back in Vancouver. He said he will have 45 players on hand for the first exhibition game against the Toronto Argonauts Aug. 10.

Walls, Johnson in Open Air Bout

VANCOUVER (CP) — Canadian heavyweight champion Earl Walls of Toronto will meet Jack Johnson of Los Angeles, California heavyweight champ, in an open-air bout at Capilano Stadium here Aug. 9.

Promoter Earle Kalani said the semi-final will be between heavyweights Duke Sabedong of Hawaii and Howie Turner of New York.

DOG FOOLED HIM

WHITBY, Ont. (CP)—A sadist who tied a dog to Canadian National Railway tracks in this area was outwitted by the animal. The dog, a German shepherd, managed to strain within its bonds as a train roared past so the rope was cut, freeing the dog.

Ray Mondini A Queen Scout

Scouts, parents and members of the group committee and Granite Road Women's Institute met at Shirley Hall to witness the presentation of awards to boys of the First Granite Road Scout Troop.

Awards were given by Scoutmaster Norman Johnson to the following: musicians badge, Ted Archibald; religion and life, Fred Olson, Jim Cullinane; pathfinders badge, ambulanceman's badge and first class Scout badge to Raymond Mondini.

Receiving service stars were John Olson, Larry Ryan, Eric Johnson, Jim Cullinane, Fred Olson, Doug Farenholtz, Tom Smith and Ted Archibald.

Cubmaster Ernie Cook presented Dennis Lehy and Malcolm Stewart with their first aid badges.

Highlight was the presentation of the Queen's Scout badge to Troop leader Raymond Mondini by Commissioner Don Ure. Raymond Mondini spent three years with the Nelson Sixth St. Saviour's troop under the leadership of Larry Urquhart, later taking over as troop leade rof the First Granite Road Scouts.

Commissioner Ure spoke on the Scouts' good turn.

Cranbrook Jaycees Launch Address Renumbering Campaign

CRANBROOK — A campaign to correct a longstanding error of 100 in all addresses in the city South of Baker street, proposed by the City Council is on the edge of launching by Cranbrook Jaycees who hope to have it completed in August. The city has prepared a new map with official correction of the numbering of more than half its properties and turned it over to the Jaycees.

Sheldon Hinchey is Jaycee chairman for the job, and has blocked the map out into a number of sections. Two members will be assigned to each section to call at every property and notify the occupant of his changed address, then offer him the new numbers for his premises and install them for him. Original Jaycee proposal was to supply number plates for the new housing of the city of recent years not yet numbered, and their plan was extended to this large-scale numbering revision at the request of the mayor and City Council who had been endeavoring for some years to correct the basic error.

JUBILEE PROMOTERS

Second main concern of the Jaycees at present is their assignment to advertise and promote the Cranbrook Golden Jubilee celebration August 31 to September 5. Preliminary work in this connection includes their distribution of envelope stickers for the event being suplied on request for all mail going out of the city, and supplying of bumper banners about the event, particularly for highway vehicles with special reference to commercial trucking lines which cover a wide area. Peter Graham is chairman of this committee.

He is planning a series of whiskered costumed Jaycee cavalcades to Spokane, Coeur d'Alene, Lethbridge and possibly West Kootenay with stops at intermediary points for distribution of posters and general invitations to attend and help Cranbrook celebrate its 50th birthday as a city.

Telephone Crew Has Village of Own at Procter

PROCTER — For the past two months, a B.C. Telephone Company crew from head office, Vancouver, has been working out of Procter, or perhaps into Procter.

The men go by railway speeder to a point 18 miles from Procter and daily get closer and will meet a crew from Nelson which is working its way as far as Sunshine Bay.

The foreman, Warren Godfrey, says they are "transposing," which is re-stringing new cables on the trans-Canada and CBC lines. As the insulation weathers, it cracks and lets moisture in and it is this that causes the "crackle" on the line. Nine tons of freight consisting of brackets, glass insulators, bolts and wire were shipped into Procter ahead of the work crew and six tons of salvage will be shipped out.

The crew works all over B.C., though each city maintains a crew of its own. Jobs take the men away from home for weeks, or sometimes months, at a stretch so wives with pre-school children generally accompany their husbands. Some, of course, are not foot-loose and remain in Vancouver, except when school is out. The foreman and four men are registered at Holiday Inn, but the other men and their families have a little community of their own in Brady's cabins and in trailers. The children are completely happy playing on the beach and never tiring of watching the rowboats, speedboats, the lake ferries and the sternwheeler at this picturesque holiday spot.

COMPACT HOME

A five-and-a-half-month-old baby has never known any home but a trailer. This compact but cosy accommodation is owned by Mr. and Mrs. King and it boasts hot and cold running water, a four-burner propane gas stove, complete with oven, a tiny refrigerator and a radio as well as fluorescent lighting. There is a bedroom, and the baby carriage doubles for a crib and fits snugly in the living room beside a settee that makes into a bed for guests. From the outside the trailer is deceptively small but the door is wide enough to let the carriage through. The screen door is on the inside and Venetian blinds at the windows and a bowl of flowers on the buffet give a homelike atmosphere. An electric cable plugs in to connect the current.

Some trailer camps have restrictions against clotheslines but Master King demands one daily and here has had one.

The wives don't all happen on such happy conditions as they encountered in Procter. They come from widely scattered parts of Vancouver and rarely if ever see each other there. The recent windstorm in the district brought down trees between the cabins and the trailers making the telephone wives wonder for a while just why they left home to roam.

The men and their families have enjoyed fishing and boating as well as both water and sunbathing during their stay.

The crew finished work at Creston before coming to Procter and will move on to Rossland at the completion of their job this weekend. They all have a desire to see Kitimat and live in hopes of being sent there some time.

Inquiry Held in Shotgun Death

CRESTON — Dr. J. V. Murray, coroner, is holding an inquiry into the death from shotgun wounds of Kenneth Sillers, 22, of Crawford Bay. He is expected to make an announcement about the middle of next week.

Sillers had been living alone in a cabin on the property of his sister, Mrs. Ray Draper, and was found by her. The shooting is believed to have occurred at 6:20 p.m. Wednesday. He was rushed to Creston Hospital by ambulance from Riondel and died there four hours later from abdomen wounds.

He had been working for Kootenay Granite Products, but was unemployed at the time of his death.

OF GREAT IMPORTANCE TO Kootenays, particularly to area pictured in map above, was Hon. R. E. Sommers' announcement earlier this week that Celgar Development Company has agreed to erect a 300-ton pulp mill at Castlegar at an estimated cost of $30,000,000. He signed agreement with officers of the company the same day for a forest management licence covering 857,000 acres in the Columbia River and Arrow Lakes Region. Work on the mill is to start before March 1, 1958, and will be completed by March 1, 1961. Entire initial project will employ more than 1000 persons.

Grand Forks Host to Field Day Wednesday

GRAND FORKS — Grand Forks is extending invitations to all interested people to attend its 12th annual Field Day, an annual major event in the Boundary city. It will be held Wednesday.

Highlight will be presentation of prizes to winners of the Better Farms Competition, sponsored by the Field Day committee. The grand aggregate trophy will be awarded, and prizes for the various classes which include best farms according to acreages, and the farmstead improvement competition. Judges will be Fraser Carmichael and Peter Podovinnikoff, last year's grand aggregate cup winner.

Tour of the Sunshine Valley is always a favorite with Field Day goers. The cavalcade of cars will assemble at the Grand Forks Co-Operative Growers' Exchange and leave at 9:30 a.m., proceeding to points of interest in the farming area. The crowd will view foundation seed potato crops, vegetable and flower seeds, dairy herds, forage crops and potato silage.

EXPERIMENT

The potato silage is in the experiment stage, being tried in the valley for the first time. It involved cooking potatoes to ensure good storage, to be fed to cattle and swine the next Summer. Fertilizer trials on alfalfa are also being carried on.

The tour will end at the school grounds, where lunch will be served at 1 p.m.

Hon. Kenneth Kiernan, B. C.'s agricultural minister, will be guest speaker at presentation of prizes.

Novelty games and competitions will take up the rest of the afternoon.

A banquet and dance in Christina Lake Community Hall will entertain crowds at night.

Kaslo Awaits Word on Aid for Flood Damage

KASLO — In reply to its requests for help in repairing flood damage, Kaslo City Council has been informed by Hon. W. D. Black, municipalities minister, that the problem can still be worked out.

No word has been received from the B.C. Power Commission, nor from Hon. P. A. Gaglardi, highways minister, as to possible provincial aid for repairing damage to the main Kaslo creek cribbing, power line and fresh water dams on Kaslo and Kemp creeks.

The lifeguard at the swimming beach reported classes were well under way. A notice board was set up, and first aid kit supplied, under Miss Murphy who is doing a splendid job.

GOV'T BUYING LAND

Regarding Public Works Equipment storage, engineer N. C. K. Struve had intimated to Mayor W. V. Drayton that he is ready to finalize the purchase by the Department, of land South of Kaslo River, under the Golf Links Hill, which was under negotiation a few years ago. There would be ample storage room for equipment, which would be moved from the centre of the city.

The new cost of policing the city was discussed and will amount to $1180 from May until next June, an increase of $180.

It was decided to replace the Kemp Creek pressure tank on a cement base, and that necessary eight-inch extension pipe be ordered when required length is learned. Access road to the Halleran property is to be cleared on Wardner Street and a new culvert put in.

Foreman W. J. White reported on various public works projects. The cemetery had been receiving attention, driveways are still to be cleared of grass and weeds. The hatchery pool has been oiled for mosquito control, but more is needed and would be applied.

The recent storm had again littered Vimy Park area with broken branches which are to be cleared away. New ladders and planks had been put on the bathing beach float where needed and water line to the slide.

Following the flood damage on Kemp Creek dam, the gate had finally been lifted but the jammed in boulders cannot be removed until the river subsides.

Reporting for the electric department, Louis Shutty and George Palmer said that work had progressed on the repair of supports for the 36-inch pipe line just below the dam. Several sets of timber had been installed and where this was not possible a 50-foot cribbing had been put in underneath it. It is safe now, but more work will be necessary before high water. The caterpillar road has been plowed out just above this work and is about a 100 feet from the dam, giving much better access than before and simplifying the matter of getting these much faster with men and materials. This work will be stopped for the present and the men will be employed setting up new light standards which are being fabricated.

A letter from the Kaslo Theatrical Society requesting permission to use the upper hall in the City Hall as of last year until December 31, was granted.

A letter was read from the inspector regarding inspections of domestic installations by the government inspection department, and council decided to leave the matter as it stands.

Two permits for remodelling homes were granted.

Campers Go on Overnight Trip

TRAIL — The first boys' camp at YMCA Camp Minto went on an overnight trip, leaving the camp at 4 p.m. The boys crossed the lake in groups of eight plus equipment, in the camp launch. Landing on the other side, they hiked two miles downstream, setting up camp across from Pine Beach.

Pat Murphy acted as cook and the menu consisted of weiners, pork and beans, cinnamon buns, oranges, flapjacks cooked over an open fire, and cocoa.

The overnight campers were Ian Burgess, Roy McLeish, Roddy Rysen, Dick Ablett, Colin Rogers, Robert Evans, Terry Jordan, Richard Jordan, Wayne Clayton, Stewart Irwin, Donald Johnson, Maurice Simister, Dayle McKerracher, Bob Powers, Gerry Gangur, Wayne Green, Donald Barker, Paul Kendrick, Kenny Uzeloc, Johnny McMynn, and Melvin Shannon. They spent the evening in "stalking games" and returned to camp for the noon meal the next day.

Other programs of the camp consisted of a horse-shoe tournament won by cabin 3, paper chase won by cabin 2 and a table tennis tournament now in progress.

The weather continued hot and an all-day cook-out is planned for today. The first boys' camp is due to close on Sunday, but nine of the boys are planning to stay over for the next camp. Registrations are still being taken at the "Y" centre in Trail.

Cranbrook Jubilee Event . . .

Select 200 Will Be Invited to Banquet

CRANBROOK — Invitation list for the Old-Timers Dinner, most exclusive event planned for the Golden Jubilee of Cranbrook's incorporation August 31 to September 5 is being drawn up by the Cranbrook Soroptimists.

It is believed no more than 200 will be eligible and available for this part of the program, since qualification is residence in Cranbrook in 1905, year of incorporation, or before. Addresses of those qualifying, particularly former residents are being sought by the Soroptimist club and Mrs. Stanley McNeil is accepting them at post office box 850, or at a public mail box which is set up in front of the city hall.

Each qualifying guest will be allowed to bring a partner. Scandinavian Sisterhood is in charge of arrangements for the dinner which will be in the auditorium of the Mount Baker School on Wednesday, August 31, to open the five-day celebration. As part of the after-dinner program scrolls will be presented to those among the guests whose residence has been continuous since 1905.

GAY NINTIES BALL

Appropriate stage program in the auditorium on a turn-of-the-century theme, a Gay Ninties Ball open to the public will follow in the school auditorium with the Knights of Columbus in charge of arrangements. Guests coming to the program and dance are being urged to wear appropriate costumes of the period to honor the residents who established the city in 1905.

No One to Blame In 'Forks Death

GRAND FORKS—No blame was attached to any person or persons Friday by a coroner's jury which investigated the death of well-known Doukhobor choir sololst Paul Chernoff.

The verdict stated that sudden death was caused through partial closing of the left coronary artery.

Mr. Chernoff died on his first day of work at the Grand Forks Sawmills, after he had been on shift only two hours. He became ill, and collapsed and died in a matter of minutes. Dr. E. E. Tomashewsky, coroner, presided, and jurymen were Carl Wolfram, J. Roeman, Fred Popoff, Gordon Clifton, Joe Altomare, George Chahley and H. C. Messenger.

J. T. Bavis, safety inspector for the Workmen's Compensation Board, was also present.

GERMAN RECORDINGS

West Germany manufactured 25,000,000 phonograph records in 1954, compared with 7,000,000 in 1950.

Neglected Blocks in City Centre Reflect Against Street Policy

There are two street sections in the West end of Nelson's centre area that are crying for attention. They are the 600 block of Kootenay Street and the 400 block of Falls Street. Both are in far worse condition than any secondary street, in the farthest reaches of the community, and neither in recent years has seen attention from city crews.

The Falls Street section gives access to two garage businesses and is therefore used heavily by motorists, it leads to a busy delivery lane and a small residential section.

The Kootenay Street section is a link to Baker Street, the only unpaved block of the Street between Carbonate and Vernon. It is one of the few full blocks lacking surfacing in the city's centre, the difficult Cedar Street being one of the others.

Neglect of these streets so close to the town's heart reflects poorly on the city's road improvement policy.

Gems of Thought

RIGHT MOTIVES

There is no man, no woman, so small but that they cannot make their life great by high endeavor.—Thomas Carlyle.

* * *

The true motives of our actions, like the real pipes of an organ, are usually concealed; but the gilded and hollow pretext is pompously placed in the front for show.
—Caleb C. Colton.

* * *

Right motives give pinions to thought, and strength and freedom to speech and action.—Mary Baker Eddy.

* * *

Never ascribe to an opponent motives meaner than your own.—James M. Barrie.

* * *

However brilliant an action, it should not be esteemed great unless the result of a great and good motive.—Rochefoucauld.

Family Histories

Here for the recent Ontario Historical Association meeting, Miss Lucy Swanton Doyle of Toronto spoke regretfully of the decline of interest in family histories. Family records, she said, are the basis of history. Certainly regional history, in particular, would be dull and colorless without them.

Miss White, a retired newspaper woman, blames such modern distractions as radio, movies and television for the modern lapse in recording of family histories. That could be true, to a degree. But the melting pot that Canada has become also is a contributing factor.

Those who have lived in older parts of Canada, settled over long periods by persons whose forebears came mainly from the same areas of the Old Country, will recall their high level of interest in family history. Every oldtimer was a genealogist. At the mention of a name, even a child's, he could trace it back for generations.

It isn't the same today. The oldtimers are for the most part gone, and the younger generation may represent several racial strains. This does not justify a thinning-down of family chronicles. It should, in fact, make them all the more colorful and eventful. The problem is in selling the idea to active people who are more interested in tomorrow than yesterday.—Windsor Star.

Your Horoscope

Your fortunes should greatly improve in the year ahead, even if you should encounter some delays and obstacles. Look for a clever, sympathetic character in today's child.

FOR SUNDAY, JULY 24: People celebrating birthdays today would gain by publicity and social prominence, which would aid in expanding business. Look for originality, good temper and keen judgment in today's child.

It's Been Said

I have lived to thank God that all my prayers have not been answered.—Jean Ingelow.

Hearts in Quebec

In gratitude for medical services rendered by the Royal Victoria Hospital, Montreal, an American aircraft worker has given it his heart, for scientific study. He was treated there for angina pectoris, with remarkable results. When he died a short while ago, it was from other causes.

The organ, packaged and labelled "Human Heart—No Value", has been received by the hospital.

The incident can start a chain of recollection, especially in Quebec. It is not the only human heart to figure in a dramatic tale of that province. There is, for instance, the story of Count Frontenac's heart.

Doughty Frontenac, one of the greatest of our early Canadians, was estranged from his much younger wife. Perhaps the rigors of the hard frontier her husband loved were the real cause of their domestic differences. At any rate, she found France the more congenial country, and lived there.

At his death the old count directed that his heart be encased in a suitable container and sent to her. She rejected it, with the explanation that as she never possessed his heart in life, she did not want it in death.

The heart was returned to Quebec City for interment with the man it had served so stoutly. The American workman, Charlie Adams, perhaps knew little of Frontenac. But he never had reason to wonder whether his last gift would be acceptable.

No Longer Old

"It seems that society finds it hard to grasp the fact that preventive medicine has so increased the expectation of life that old people are no longer old," writes Dr. Gordon Bates in an editorial in Health Magazine, official publication of the Health League of Canada. "Since 1900 the average duration of life has increased in civilized countries from an average of 50 years to nearly 70, and one authority has predicted that by 1970 the average in Canada will be about 80."

"Even newspaper columnists, generally quick on the trigger, have scarcely sensed the change," says Dr. Bates. "Their constant references to the aging Sir Winston Churchill is an evidence that they haven't caught up with the times. It is probably a source of annoyance to a great statesman, who, in his 80s, has still more wit, energy and wisdom than any of them."

Dr. Bates says that it was Sir William Osler who said that man is as old as his arteries. "What he said in effect was that chronological age and physical age are two different things. This fact has not yet been realized by either universities or industry. Universities still throw out their best professors at 60 or 65 to make room for less effective youngsters, and industry sacrifices its own interests by retiring men who have grown wise in experience to rust and deteriorate."

Dr. Bates says that work is the great tonic. "Woman's work is never done," he says. "The expectation of life for women is generally several years greater than the expectation for men. Some people will think that this has its significance."

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. QUESTIONS WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

M. G., Robson—What schools in Canada teach radio engineering?

Institute of Technology, Calgary, Alta.; Sprott-Shaw Schools, Vancouver; Vancouver Vocational Institute, Pender and Hamilton, Vancouver.

M. L., Nelson—What qualifications are necessary to get social service welfare work?

Preferably positions in the Social Service Welfare Branch are given to those holding Bachelor of Social Work degree or Master of Social Work degree. To obtain Bachelor's degree a five-year course is required; for Master's, six years. Due, however, to extreme scarcity of such trained social workers, the Department has developed, over the last nine years, its own in-service training course. Applicants must be under 40 years of age and over 21. It is to their advantage if they have a B.A. degree, but the Department will accept Senior Matric. Good health is necessary, also ability to drive over good and bad roads anywhere in B. C. Finally, by interview, it is determined whether applicants have the personality suitable for such a responsible job.

A. J., Trail—Is there a Swedish newspaper published in Spokane? Where in ancouver can cotton and wool clothing be sent to be made into blankets?

We do not know of a Swedish paper published in Spokane. Can other readers help. Fairfield Woolen Company, 3176 Kingsway, Vancouver, is the address you request.

W. F. D., Cranbrook—Is it necessary to have a will registered?

No.

Move to the Rear, Please

By M.D.

There is little opportunity to be standoffish on Nelson buses these afternoons. If you are one of the fortunate ones sitting down, you will probably have some small person on your lap or the shopping bag of a "stander-upper" to hold.

By the time the bus leaves the city centre terminus at 1:30 bound for Fairview and Lakeside Park there would seem to be little room left for another passenger.

However, at various points as it rolls its tortuous route it stops, and amid good-natured groans and gasps from those aboard, a few more mothers and small fry wedge their way on. The "ding" of the bell is greeted throughout the bus with a chorus of voices: "Oh, someone's getting off-" And an answering, "That'll help a bit." However, likely as not when two or three alight there are four or five at the same stop waiting to get on, which evokes an even greater moan from the steam-bathed passengers.

It's surprising, though, how such crowded quarters lend themselves to conversation. After all, with your elbow jabbing your neighbor's ribs you feel the need to apologize, and in return receive a good-natured comment which generally starts conversation going.

Crowded buses may not be the most comfortable, but they certainly are the most friendly.

Mr. Coldwell

Mr. Coldwell affirms that reports he is to retire are incorrect, and we are glad to hear it. He is the leader of a party which upholds Socialist doctrine, and he has tilted at windmills with the best of them. But Mr. Coldwell is an ornament of Parliament, a gentleman of eloquence, good humor and sincerity. All who disagree with him—and they are not a few—never fail to honor the idealism and self-safrifice which have governed his career since he left a Regina schoolroom as a teacher and spread the faith of a new party to every part of Canada.

Perhaps people thought of Mr. Coldwell retiring when they read that Clement Attlee, the United Kingdom Labor Party chief, was speaking of making way for younger men, and Hugh Dalton, another of the old brigade of U.K. Labor, announced he would take his ease. But Mr. Coldwell today appears to be in good health and is faithful in his attendance in the House, where, as it should be, the voices of varying opinion sing the melody we call democracy.—Ottawa Journal.

They'll Do It Every Time

By Jimmy Hatlo

Today's Bible Thought

The memory of the just is blessed.—Prov. 10:7.

A clear conscience is a good companion. A bad conscience is a miserable bed fellow. We will have time to think at last.

Cursed be he that taketh reward to slay an innocent person.—Deut. 27:25.

Aunt Het

I don't see nothin' wrong with selfish prayers because they are the only ones that are certain to be sincere.

Dividends

By The Canadian Press

Bridge and Tank of Canada Ltd., pfd. 72½ cents Sept. 1, record Aug. 15.

Crown Zellerbach Corp. 50 per cent stock dividend on common shares Sept. 6, record Aug. 19.

American Airlines, Inc., 3½ per cent pfd. 87 ½cents; Com. 20 cents Sept. 1, record Aug. 15.

Market Trends

NEW YORK (AP) — The stock market jumped ahead Friday under strong leadership and pushed to within a shade of a record high mark

Canadian issues were mostly higher. Canadian Pacific added ⅝. International Nickel and Hiram Walker were both ahead ¼ and McIntyre was up ½. Dome Mines slipped ⅛ and Distillers Seagram remained unchanged.

TORONTO (CP) — Industrial issues hit three new index highs and base metals went over the top twice Friday to spearhead a steady stock market advance. Some support came from golds, western oils and holding companies, but uraniums had a softer tone throughout the session.

Papers, motors, financial institutions, utilities and refining oils were prominent in the forward movement.

MONTREAL (CP) — High tendencies were shown by industrial issues at the close of moderately active trading on the stock market Friday.

Ford climbed 2½ points to 129 while Rollan dgained 2 points to 68. In a slight 15 share movement. International Power jumped 5 points to a new top of 170.

LONDON (Reuters) — Prices reacted on a broad front in stock markets on nervousness in advance of the chancellor of the exchecquer's statement on the economic situation expected next week.

Dollar stocks responded to the overnight strength of Wall Street. Widespread losses were sustained in the industrial maret. Higher purchase finance shares were sharply lower on fears of a tightening of instalment-buying restrictions. For the same reason the stores, radio and motor shares were depressed.

Calgary Livestock

CALGARY (CP) — On offer up to 11 a.m. on the Calgary public stockyard: 200 cattle, five calves. Thursday's sales: 717 cattle, 31 calves, 544 hogs, 51 sheep.

The bulk of Friday's light receipts were medium quality butcher steers.

Good to choice butcher steers were about steady at the week's average demand, though not quite as active as Thursday afternoon.

Fair to medium kinds were under pressure and easier in spots. All classes of dry fed butcher heifers were meeting fair demand at steady rates. Medium quality grass heifers were slow sellers and were sharply discounted. Cows and bulls were generally steady.

Choice dry fed steers 19.25-20; good 18.25-19 medium 16.50-18; common 14-16; choice dry fed heifers 17.50 to 18.25; good 16.50 to 17.25; medium 15 to 16; common 10 to 14.50; good cows 11 to 12; fair to medium grass cows 7 to 9; canners and cutters 4 to 8; good bulls 12 to 13; common to medium 9 to 11.50.

Light receipts of stocker, feeder steers being cleaned up at steady prices. Good stock steers 15.50 to 16.50 with odd sales topping at 17; common to medium 12-15.

Grade A hogs sold steady on Thursday at 23.75 sows were unchanged 13.10 to 13.50 liveweight.

Good spring lambs 20 to 20.50.

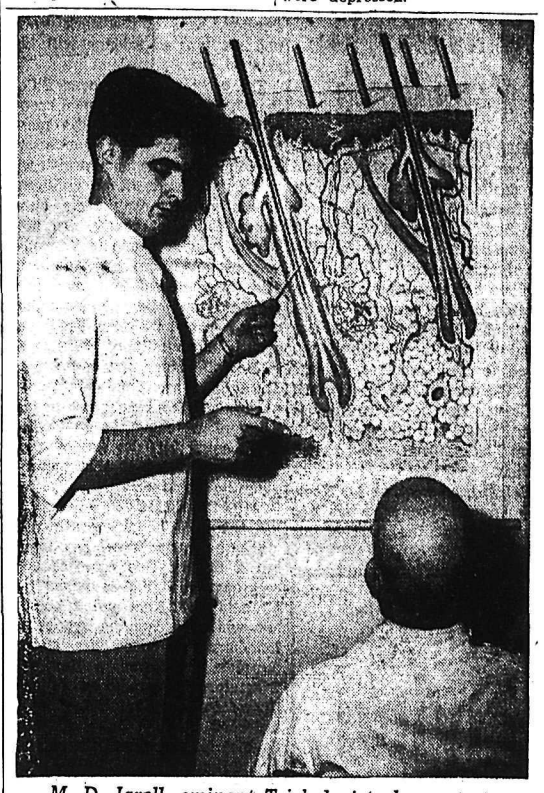
CAMERA NEWS

By: Bill Ramsay

Now and then we run across photographers who are prone to tag their lenses with the blame for pictures which do not have quite the sharpness they would desire. Often times the trouble can be traced to the manner in which they hold their camera. An unsteady shooting stance results in camera motion which is not, as it might seem, an uncommon error in photography.

The shooting stance and actual handling of the camera will vary with the different types; box cameras, single or twin-reflex, press and folding-type cameras. However, they all have to be held rock-steady while you squeeze the shutter release. Your hands, elbows and feet are the points to concentrate on to assure pictures which won't blur with motion as though you had shot them from astride a pogo stick.

By the way . . . whether you walk, ride, thumb, or jump down on a pogo stick . . . at RAMSAY'S CAMERAS you will find just about anything under the sun in the photographic line. From free expert advice to the finest new camera in the field . . . make RAMSAY'S CAMERAS, 497 Baker St., your first step. Phone 106.



M. D. Jarell, eminent Trichologist, demonstrates causes of baldness and how it can be prevented.

How To Have Hair For A Lifetime To Be Demonstrated Here By Famous Trichologist

OFFERS WRITTEN GUARANTEE

An exclusive interview by Ward Allen

LONDON, Ont. (Special) — M. D. Jarell, Director of Jarell Hair Experts of Canada exploded the "myth of baldness" today in an exclusive interview.

"Baldness is unnecessary, costly, and a plague to mankind," says Jarell. "No man need be bald. No man need suffer the stigma of premature old age that is forced upon him because he is losing his hair. The Jarell method of hair and scalp treatment can prevent baldness—can turn colorless fuzz into healthy, growing hair—can make your look youthful again."

DEMONSTRATION TO BE HELD IN NELSON

This revolutionary method of home treatment for the hair and scalp will be demonstrated in Nelson, Wednesday only, July 27, at the Hume Hotel. Trichologist L. J. Zajic will conduct the private, individual interviews from 12 noon until 9:00 p.m. on July 27 only.

There is no cost or obligation, and you need no appointment.

REASON FOR BALDNESS

"There is always a reason for baldness," continued this nationally known authority. "Hair cannot grow through a scalp that is infested with dandruff, excessive oilness, or extreme dryness. A scalp that has never been exercised cannot be expected to produce healthy hair." Men, and yes, women too, walk the streets today, completely devoid of nature's greatest ornament—hair. Simply because they were not taught the basic rules of hair and scalp hygiene while they were growing up. "The simple answer," emphasized this expert is that children should be taught the same simple basic rules of hair and scalp hygiene that they are taught for the proper care of their teeth. If this were the case, baldness would be a rarity today!"

HEREDITY NOT INVOLVED

Trichologist Jarell dodged no issues. He quickly took up the most widely spread theory of baldness — heredity. "Mankind's unrealistic belief that baldness is hereditary stems from a misinterpretation of the theory of genetics. Theory does not state that any person must be bald because baldness exists in the family. What it does say, is that in some families, a tendency exists towards an undernourished scalp." The purpose of Jarell Hair and Scalp Experts is to teach the methods of strengthening the weak scalp and nourishing it to a healthy, vigorous condition. A healthy scalp will grow hair, if it is not already completely bald," assures Jarell.

IS THERE HOPE FOR THE COMPLETELY BALD?

In his travels throughout the United States and Canada, Jarell has collected hundreds of testimonies of his ability to develop weak fuzz into healthy, mature hair. All of his clients have started with a private examination, hair and scalp analysis, and a diagnosis of the disorder. Jarell is quick however, to tell a hopeless case that he cannot be helped. "We strongly advise," says Jarell, "that no person who is completely bald hold any hope whatsoever of regrowing hair. If there is any fuzz at all, we can restore a healthy scalp condition and the hair will grow normally again as nature intended."

OFFERS A GUARANTEE

"Jarell Hair Experts of Canada, offer a guarantee to any client who enrolls for treatment. If he or she is not completely delighted with results at the end of 30 days, the money invested will be graciously refunded," pledged Jarell. "We must have satisfied clients. We must regrow hair. After all, it is our best advertisement."

IS YOUR HAIR HEALTHY?

If you have a scalp disorder, or if you are worried about your hair, call Trichologist L. J. Zajic at the Hume Hotel in Nelson Wednesday only from 12 noon to 9:00 p.m. The public is invited. The examinations are private and open to men and women. You do not need an appointment, and you will not be embarrassed or obligated in any way.

Kaslo Notes

KASLO—Recent visitors in the city were Mr. and Mrs. J. J. Noble of St. Paul, Minn. Mr. Noble looked up early day school mates and old friends, this being his first visit to Kaslo in many years.

Mr. and Mrs. A. W. Anderson of Penticton, also early day residents of Kaslo, spent a few days here recently.

Mrs. P. McCauly and Mrs. A. Carlson of Vancouver, en route to Spokane, were guests of old friends for a few days.

Mr. and Mrs. F. S. Chandler have as guests their son and daughter-in-law and family, Mr. and Mrs. W. D. Chandler of Tulsequah, B.C.

For Parents . . .

Child Should Be Taught First Aid

By Garry Cleveland Myers, Ph.D.

It is a fortunate thing for a child if his mother has taken a first aid course. It would be even better if these courses were offered to children from the first grade upward, adapted in content to the respective age levels.

Parents well-grounded in first aid can the more easily win the co-operation of their child in an emergency and enlist his interest in and readiness for doing the safe thing in emergencies before they arise.

With children, it's easier to alert them to the dangers to a younger child than the dangers to themselves. There's always the feeling "It couldn't happen to me, though it might happen to my baby brother or sister." Besides, there's good moral exercise in thinking of the safety of a younger person and protecting him from dangers.

Where there are several growing children in the family, they might very well enjoy discussion at the dinner table of what one should do in case of possible emergencies.

ACIDS AND POISONS

The mother might ask, for example, "What would you do, George, (say he is eight-, if while alone with your baby sister her dress caught fire? Or if she swallowed some poison or something you suppore is poisonous?

What would you do if she got into some acid or alkali cleaning fluid?"

An older brother or sister who had learned at school that acids and alkali are opposite in chemical effect and that one tends to negate the other, might conclude that putting some vinegar diluted with water on the surface or hands of the child would bring relief from the alkali before the doctor arrived or the child could be rushed to the hospital. The vinegar being an acid, negates or "kills" the alkali.

Also, this big brother might suggest that if it were acid that burned his baby sister's face or hands, bathing them in baking soda, dissolved in water, would help. The baking soda, being an alkali, negates or "kills" the acid.

This big boy knows that ammonia, lye, caustic soda, drain cleaner and the like are alkali. Also that certain garden sprays and cleaning fluids have acids in them. He inclines to study the labels on all such materials about the home, noting the antidotes and finding out why each one is effective. And if the parents have some basic knowledge of chemistry the family discussions should grow especially interesting nad useful.

Besides, the life or death of some member of the family might be at stake.

Recipes . . .

Today's Picnicker Has All the Accessories

By MARGARET CARR

Call it a picnic, call it a barbecue, call it an outdoor supper—all the world loves to eat in the open air.

From the Ancient Greeks to the Proper Victorians, people have forgotten the salt, wrestled with the fire, fought off the bugs and loved every minute of it.

We, in this day and age, are lucky. Did the Ancient Greeks have insulated plastic bags to keep their food fresh when they went picnicking far away? No! Did they have shining portable grills to provide the wherewithall for a barbecue in their own backyard? They did not. And they didn't have two-inch steaks or frankfurters or shiny copper coffee-pots either. But since you have all these outdoor eating accessories and access to the most scrumptious picnic foods, don't let the summer slip by without at least one outdoor supper.

A thick, juicy steak, charcoal-broiled to sizzling perfection, is our idea of the ultimate in open-air eating, and well worth a budgetary splurge. Anointed with a Garlic-Butter Steak Sauce, accompanied by hot rolls, chilled fresh tomatoes and slices of onion and cucumber, it provides an easy-to-prepare meal of the highest nutritional standard. And oodles of real, steeped picnic coffee is a "must."

STEEPED PICNIC COFFEE

Here's the way to make steeped coffee so that it's every bit as good as the coffee you make indoors. (It always tastes better, of course, but that's just the magic of the great outdoors.- Boil as much water as you will need in a big, clean pot, remembering that it takes three-quarters of a measuring cup of water for each serving of coffee a quart and a half of water will make eight servings. Move the pot to one side so that the water is not quite boiling. Add two level measuring tablespoons of coffee for each serving and stir vigorously for half a minute. Then let the brew stand for 10 minutes to steep and settle. Don't let it boil! A few drops of cold water will settle the grounds once and for all.

GARLIC-BUTTER STEAK SAUCE

2 large garlic cloves, crushed
¼ pound butter
1 tablespoon Worcestershire sauce
1 tablespoon horseradish

Combine all ingredients; whip until creamy. Spread lightly on hot steak after broiling. This sauce keeps well and may also be used for preparing garlic bread.

Crawford Bay Has Interest In Coast Rites

CRAWFORD BAY — Roses and peonies formed the setting for the wedding ceremony in Evangelical Free Church at White Rock in which the former Kathleen Beryle Norris, youngest daughter of Mr and Mrs. James Norris of Ocean Park, became the bride of Reginald Arthur Jameson, son of Mrs James Dobie and the late Mr Jameson of Crawford Bay.

The couple pledged their vows before Rev. W. J. Collings under a moss-covered arch decked with roses.

Given in marriage by her father, the bride was attractively gowned in a ballerina-length dress of white lace and net over taffeta. The matching bolero had lily-point sleeves. An imported fingertip veil was held in place with a dainty beaded bandeau. The bride carried a white Bible mounted with red roses and stephanotis, and red rosebuds adorned the white satin ribbons which fell from the Bible

Mrs. Betty Keen, sister of the bride, was matron of honor. She wore a yellow gown of net over taffeta with a matching lace bolero, a halo-type tiara of pale yellow roses, and carried a white Bible, a gift from the bride. The Bible was mounted with a corsage of white carnations and mauve sweetpeas.

Miss Linda Steinke, senior bridesmaid, and Miss Verona Jones junior bridesmaid, wore gowns of net over taffeta, with matching boleros, in mauve and pale green respectively. Floral tiaras and corsages on white Bibles, also gifts from the bride, completed their ensembles.

BROTHERS ACT

Mr. Sydney Jameson, brother of the groom, was best man, and Mr Ross Norris and Mr. Jack Norris, brothers of the bride, were groomsmen. Mr. Bob Norris, Mr. Ritchie Norris and Mr. Jim Norris, other brothers of the bride, ushered.

Little Jeanne Giesbrecht, as flower girl, was charming in an ice blue nylon dress over a crinoline. Her hair was adorned with a spray of white blossoms, and she carried a basket of rose petals which were strewn in the path of the bridal couple. She was escorted down the aisle by the ring bearer, Peter Harvey. Miss Frieda Geisbrecht was guest soloist.

A buffet supper was served on the lawn at the home of Mr. and Mrs. A. Stehgard.

For the wedding, the groom's mother wore a navy two-piece dress with white accessories, and the bride's mother chose a grey dress flecked with black and white accessories. Both wore corsages of red roses and white carnations.

A four-tiered wedding cake centred the bride's table and was flanked by bouquets of flowers. Rev. Ray Webb of Fort Langley proposed the toast to the bride.

For their motor and trailer trip through the Okanagan and Northern B.C., the bride chose a black suit flecked with white, with white accessories.

Mr. and Mrs. Jameson will make their home in White Rock.

Clarence Picard Honored at Nakusp

NAKUSP—A social evening was recently held by the staff at the Arrow Lakes Hospital when members bid farewell to Clarence Picard, who has been maintenance man for several years and is now leaving to take up the position as groundsman for the Golf Club at Vernon.

Hospital administrator R. Cook made the presentation of a gift of money to be used to purchase a music case.

By TRACY ADRIAN

PAT BLAKE, beautiful young actress, who makes her screen debut in a newly released film, finds it lots of fun to relax in comfort during her leisure hours. One of her favorite costumes is this three-piece lounge outfit in sophisticated pink and smoke gray cotton chambray. The tight pants are studded with pink diamond prints three-quarter sleeves and a pink collar.

All the refrigerator space you need with automatic defrost. • All the freezer space you need (on the bottom, where it belongs). Stores 220 lbs. of frozen foods. All in one beautiful space saving unit.

FREEMAN'S

New Denver

NEW DENVER — Mrs. Polly Baba of Toronto is visiting her mother, Mrs. F. Ujiye.

Mr. Jack Cornwell and nephew Trevor Parker of Ashcroft Manor, Ashcroft, are the guests of Herbert Crellin and his two sisters, Mrs. Dulcia Pearson and Mrs. Belle Pendry.

Mr. and Mrs. William S. Henderson returned from their holidays in Calgary. They attended the stampede and visited Mr. Henderson's uncle and aunt, Mr. and Mrs. S. Henderson and in Nanton, Alta., they visited Mr. and Mrs. Hay and Mr. and Mrs. J. Sawley.

Mr. and Mrs. W. S. Ellis and son Clyde of Vancouver are holidaying in New Denver and visitting friends. This is Mrs. Ellis' hometown.

Sho Inose of Toronto is the guest of Mrs. F. Ujiye and daughter, Mrs. Polly Baba for three weeks.

Mr. and Mrs. Anthony E. Thomas have as their guests, Mr. Thomas' two brothers, W. S. Thomas of Castledale, B.C., and Robert G. Thomas and their families.

TEA, SALE HELD AT NEW DENVER

NEW DENVER — The St. Stephens Anglican Church Woman's Auxiliary annual tea and sale, held in the Sunday school rooms, was, as in previous years, very successful both socially and financially.

The tea tables were centered with vases of roses.

Committees were: refreshments, Mrs. S. E. Thomlinson, Mrs. M. O'Reilly and Miss M. H. Butlin; serviteurs, Miss Erna Meinardus, Mrs. T. G. Hill, Mrs. H. Yolland, Miss Barbara Thomlinson; work table, Miss Gladys L. Reynolds, Miss Lena Meinardus and Mrs. E. A. Reynolds; bake table, Mrs. Quintin A. Forsythe, Mrs. Dulcia Pearson and Mrs. J. Stokes, cashier Mrs. Ada L. Levy

Welcoming the guests was Rev. W. F. Bushe.

FAITHFUL PARISH

DUNTON, England (CP) — The 65 residents of this Buckinghamshire hamlet raised £300 in the last three years towards the cost of restoring the parish church.

Nakusp Pioneer Back From U.K.

NAKUSP—Ralph Islip, who this Spring retired from the grocery business in which occupation he was one of Nakusp's pioneer businessmen, has returned from an eight-week holiday in England. Mr. Islip made the round trip by air.

The weather on the trip, Mr. Islip reports, was excellent. In fact, he decided that he had to go to England to find the sunshine.

An exciting and anxious time was experienced on the return flight when nearing the destination, Montreal. While flying over Northern Quebec the plane filled with smoke and passengers became fidgety, but the stewardess soon explained that the smoke was from forest fires burning in that area.

On arrival at Montreal airport the passengers alighted to a very oppressively humid atmosphere, with the thermometer registering 94. Coming farther West, the stopover at Calgary found a slightly lower temperature of 88. In Calgary Mr. Islip was the guest of Dr. and Mrs. J. S. Gardner, and with them took in the final evening performance of the Stampede.

Mr. Islip reported that unemployment is practically unknown in England and that the Old Country is enjoying a term of prosperity. Every village, hamlet or city has its particular industry and each industry is working to capacity.

Arrow Park WI Tea Aids Girl Guides

NAKUSP — The Arrow Park Women's Institute sponsored a tea in aid of the transportation fund for the Arrow Park Girl Guides to attend camp at Camp Galilee on the Slocan Lake.

The tea was held at the home of Mrs. J. Lee. Contests and a play entitled "The Fatal Quest" provided entertainment. Capt. Kunze thanked the WI and Mr. and Mrs. J. Lee for making the event possible.

Spiral Floor Screws Can Stop Squeaks

Before refinishing floors, be sure that sagging floors are levelled and that squeaks are remedied. Most squeaks can be eliminated by countersinking spiral floor screws through the offending strips. Then a good sanding job will make the floor as attractive and useful as it was when originally laid.

Create 3-D Feeling

An L-shaped living room with dining area gives you a splendid opportunity to use one of the new wallpaper murals on part of the dining area, creating a three dimensional feeling. Or you might use a matching wallpaper and drapery fabric in the dining ell, or wallpaper and a printed sheer, carrying the fabric into the living room.

Does Your Kitchen Have These Features?

A check list of good kitchen design has been developed.

A roomful of gadgets does not always make a good kitchen. Good design is more important, whether the kitchen is in a new or old home.

Check these design features:

Layout of equipment—Be sure that no major appliance—range, refrigerator or sink—is way off in a corner by itself. Be sure too that other traffic does not cut through the traffic lanes between important work centres.

Storage Space—A good kitchen has six to eight lineal feet of wall storage and 11 to 14 feet of base cabinets. This is exclusive of room for dinnerware. Work surfaces should adjoin each work centre.

Doors—Beware the kitchen that has more than two doors. They cut up the room and rob it of essential storage. Be sure they do not interfere with the use of kitchen equipment.

Space Between Work Surfaces and Wall Cabinets—Studies show that the lowest shelf on wall cabinets need be only 15 inches above base cabinets or work counters. If there is more, essential storage in cabinets is lost.

Relation to Other Areas—The kitchen should be near the garage or carport so that groceries can be brought in easily. The mother also should be able to supervise the children from the kitchen.

Natural Light — The window areas should be at least 10% of the floor area. If it equals 15 to 20 per cent, so much the better.

Permanent Materials — Stain-proof, burnproof and waterproof material should be used on counter tops and work areas.

Pleads Guilty To Thefts

VANCOUVER (CP)—Union secretary-treasurer Glen Langner, 30, pleaded guilty to the theft of $1,875.50 in union funds during a one-year period.

Langner was secretary of local 207 of the International Wood, Wire and Metal Lathers International Union (TLC) between July 1, 1954 and May 13 last.

Prosecutor Paul Delaney said the thefts came to light last May 15 when the international headquarters of the union suspended the local for non-payment of dues.

"The books were falsified and the money deposited to his own account," Mr. Delaney said.

The union called a meeting the following day but Langner failed to appear. He later wrote a letter from Tacoma, Wash., offering to repay the funds.

Mr. Delaney said Langner had recently gone into bankruptcy and had used the money to pay off debts of his former business.

Magistrate Oscar Orr remanded him to next Friday.

Doctors Call For A-Ban

LONDON (Reuters) — Doctors from nine countries, members of an international commission set up to investigate the medical and biological effects of atomic explosions, have called for a ban on atomic and hydrogen explosions.

The call is made in a preliminary report published in The Lancet, one of Britain's leading medical journals.

The commission met in Tokyo, Osaka, Hiroshima and Nagasaki in Japan. The doctors came from Britain, South Africa, France, West Germany, Chile, Russia, China, Belgium and Czechoslovakia.

The report says:

"We consider that the persistence of radioactive contamination of the sea, rain and atmosphere is the most important feature of experimental H-bomb explosions, for we are afraid that the cumulative effects of increased irradiation over widespread areas may result in unfavorable genetic changes among the populations of those areas."

POOR LIGHTING STRAINS EYES

Judging from the number of headboards now sold that feature bookshelves, reading in bed is growing more and more popular. This type of headboard outsells all others.

But lighting experts say that few people take proper eye precautions while they read in bed. Eyes are exposed to strain through improper lighting arrangements.

For best results, the space between the surface of the bed and the source of light should be 30 inches. The bulb should be shielded. Another light should be left burning in the room to prevent "pool" lighting which is tiring.

The reader's back should be almost straight, but comfortable. One or two pillows carefully propped usually does the trick here.

Backyards Can Be "Transformed"

Comparatively simple and inexpensive garden construction can add immeasurably to the convenience, comfort and all-round livability as well as appearance to any home property.

Uninteresting "backyards can be turned into beautiful outdoor rooms with the introduction of the new outdoor cedar screens, trellises or free-growing hedges.

There are hundreds of types of fences from which to choose, but keep in mind that today's trend in fencing is not to follow the property line. Place it where it's needed to give privacy, to be decorative and act as a windbreak.

In general, landscape architects point out, shiny surfaces should be avoided in outdoor garden construction. However, suitability must be considered.

MAKES FIREPLACE MORE ATTRACTIVE

One way to convert an ungainly fireplace into an interesting focal point of the room is to paint the entire brick facing black or white.

Painting the brick to match the walls also is effective.

Proportions of the old-fashioned fireplace can be changed by removing the heavy mantlepiece.

Use of textured wood wall panelling above the fireplace is popular because of the beautiful swirling grain and dimensional effects of the wood. It comes in panels or squares, easy to apply. Just nail it directly over existing wall and stain or paint as wanted.

Cargo Cult Takes Hold of Aussie Aborigines, Causing Six Deaths

SYDNEY (CP)—Australian administration officials are strengthening patrols in the island of New Britain following an outbreak of "cargo cult" among natives there. The outbreak has led to the death of six natives and the wounding of several others.

"Cargo cult" is the name given to a belief among the natives that if they isolate themselves from white people they will make miraculous gains.

ALL IS FREE

Hills will flatten out and become plains, roads will form themselves, the spirits of their forbears will drive jeeps laden with food and trade goods to the villagers, and everything they want will be free.

There are many variations of this theme. A more simple form has it that Europeans have intercepted ships coming from the land of the dead with cargoes of riches and have stolen the cargoes.

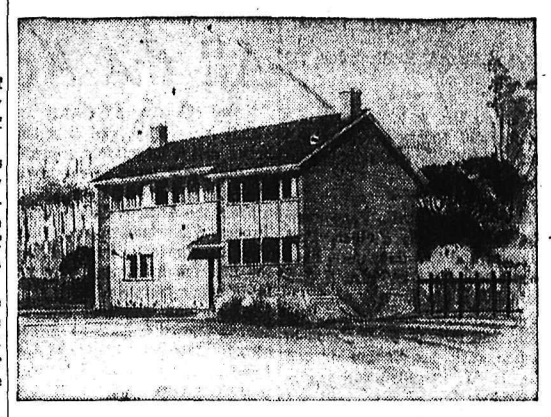
The trouble started this month when two village headmen among the North Baining natives refused to join the cult. One wac knocked unconscious and the other murdered with a tomahawk.

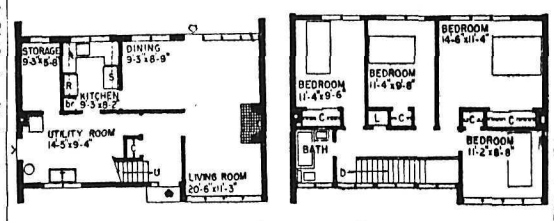
ASSISTANCE SOUGHT

The unconscious man recovered and staggered for five hours through the jungle to seek assistance. He told the story to a Roman Catholic missionary, Father Hagen, who reported to the authorities.

A patrol sent out to investigate was attacked by a crazed group of Bainings. The patrol at first fired over their heads, but the tribesmen ignored the warning. They continued to attack and latest reports from New Britain say that five were shot dead and five others wounded.

The Modern Home





NHA SMALL HOUSE DESIGNS—Architect Edward Ross, of Toronto, had the requirements of the larger family in mind when he designed this two-storey basementless house. The plan, which is suitable for a shallow lot, provides for four bedrooms and is constructed along rectangular lines for economy.

All rooms in the house are well-lighted and this is particularly true of the L-shaped dining and living room, which also features a fireplace with tile hearth. The kitchen is conveniently arranged with a U-shaped work area that should appeal to the housewife while the master bedroom measures 14 feet, six inches by 11 feet, four inches and contains a double clothes closet.

The total floor area of the house is 1,547 square feet while the cubic measurement is 16,740 cubic feet. The exterior dimensions are 24 feet by 36 feet. Working drawings for the house, known as Design 603, may be obtained from Central Mortgage and Housing Corporation at minimum cost.

Pastels Popular Bedroom Color

Choosing a color scheme for a bedroom is different from that of other rooms in the house.

In decorating a living room and dining area, you've had to plan schemes that would please everyone. In the bedroom it's different.

To be successful, a bedroom need please only the one who uses it, however if two of you use a bedroom, don't forget the man in the house when choosing the decor. Numerous features are being designed exclusively with men in mind.

What's the best color for a bedroom? The favorite color of whoever sleeps there.

Pastels have been popular, because they're restful. But don't hesitate to use a drak green or brown, if that's what the occupant likes.

As for furniture, never have you had such freedom in furnishings. If you want a complete bedroom suite, but it. But today, it's no more necessary than a matched suite in the dining room. There's such variety in headboards, there is something for every taste.

Bathrooms Without Windows Enable Wider Scope in Planning

Interior bathrooms with no windows are scheduled to be one of the main features of new houses.

They enable a wider range of ideas in remodelling.

The development of new building materials and new architectural designs make it possible for an interior bathroom to have daylight even without windows.

They can be better ventilated than bathrooms with windows.

They can be warmer in winter and cooler in summer. They can give you a better planned house with more outside walls for windows and light in the rooms you use the most.

Interior bathrooms are approved by some cities' building by-laws providing some approved system of mechanical vent is used and the exhaust vent extends outside and not into dead roof spaces.

Prismatic glass blocks for skylights have given a big boost to interior bathrooms in the one-storey house.

These contain reflective prisms which keep out the heat in summer when the sun is high and admit the heat in winter when the sun is low in the sky.

Filtered light is admitted at all times.

Don't say you wouldn't like an interior bathroom. A window in a bathroom, when the wind is blowing toward that window, ventilates only through the rest of the house.

On the other hand, interior bathrooms are mechanically ventilated, drawing air from the house and exhausting it out of doors.

VENTILATION AND HEAT

Mechanical ventilation in the form of blower type exhaust fans, now used in many modern exterior bathrooms, insures ventilation especially through the roof where winds can be controlled.

An interior bathroom can be easier to heat, because it draws warmth from the rooms around it.

The elimination of a window has various advantages. In the small bathroom, where the tub is inevitably under a window, there is a draft on the bather. Eliminate the window and you have no draft.

The bathroom window always is a decorating problem. You might tile the wall all around the window, but still there is the wooden or metal frame vulnerable to damage by water or steam.

The elimination of windows in an interior bathroom leaves additional space for shallow built-ins, such as medicine cabinets and attractive glass shelves.

Even without a skylight, an interior bathroom can be bright, cheerful and sanitary. Modern lighting fixtures can provide better illumination than can be obtained from a window. They make the lack of daylighting unimportant because artificial lighting is always needed anyway for shaving and making up.

If you wish to insulate the under side of the first floor floorboards of an older home, first give them two coats of a liquid asphalt paint. Be careful to cover the ends of the joists.

Then place a moistureproof blanket against the under side of the floor, between the joists.

If there are any cracks at the top of the foundation walls, these should be packed with oakum and caulking compound.

SPORTS

Kelowna Signs Moe Young as Hockey Coach

KELOWNA — Kelowna Packers of the Okanagan Senior Hockey League have signed Moe Young as coach.

Young, formerly with Tacoma Rockets of the Pacific Coast Hockey League, was playing coach of Trail Smoke Eaters of the Western International League two years ago and played with the Smokies last season.

Young replaces former New York Ranger star, Alex Shibicky, who coached Packers last season. Shibicky and Packers terminated a three-year contract by mutual agreement.

Bolt, Palmer Head Field of 16

By HUGH FULLERTON Jr.

DETROIT (AP) — Johnny Palmer and Tommy Bolt scored a pair of notable victories in the second round of the United States PGA championship Friday as two "sudden death" rounds reduced the field to 16 players.

Palmer, a finalist in the 1949 PGA championship, ousted defending champion Dick Harbert 1 up. Bolt trimmed three-time winner Sammy Snead 3 and 2.

The Bolt-Snead match, a replay of their heated 39-hole quarter-final duel at St. Paul last year, drew the bulk of a crowd of about 3000 at the Meadowbrook course. Bolt threatened to quit in the middle but Friday he was ahead all the way as Snead was troubled by erratic putting.

The tournament was left without a single ex-champion as it moved into the 36-hole stage beginning today.

Not only did Harbert and Snead go out, but Walter Burkemo, 1953 champion and runner-up to Harbert last year, was beaten in the first round by Cary Middlecoff, leading money winner of the pro golf season, and older ex-champions Gene Sarazen and Vic Ghezzi went out in the second.

NEW ENGLAND PEAK

Highest point in the New England states, Mount Washington in New Hampshire reaches 6,288 feet.

Marciano Offered Bout Against Europe Champ

ROME (AP) — The sports paper Corriere Dello Spot said Friday that an Italian promoter has offered world heavyweight champion Rocky Marciano $500,000 for a title bout with European champion Franco Cavicchi.

The paper, in a dispatch from Bologna, said promoter Renato Torri made that offer with the backing of a group of financiers.

Cavicchi won the European championship last June 22 at Bologna from German Heinz Neuhaus. His hometown is near Bologna.

Outlaws Take On Priest River Here Sunday

On the Nelson baseball front this weekend the Outlaws take on Priest River, Idaho in a double header Sunday afternoon.

These two clubs split a double bill recently in the American centre by the close scores of 3-1 and 6-4.

Wendy Keller has lined up with the Outlaws and should prove a valuable acquisition to the Nelson club's pitching staff along with Win Storgaard, Stan Grill and Johnny Misuraca.

With a win over Metaline Falls, Washington, last Wednesday the Outlaws will be striving for a double win on Sunday.

Sugar Ray Wins Split Decision

SAN FRANCISCO (AP)—Sugar Ray Robinson, bouncing off the canvas after a sixth-round knockdown, won a split decision over No. 1 middleweight contender Rocky Castellani in a 10-round fight Friday at the Cow Palace.

Robinson weighed 159¾ pounds; Castellani 160.

Robinson, on the comback trail after a shot at nightclub entertainment, was in almost complete command except for the sixth round when he was knocked to his knees by a left hook and a right to the head. He made a three-point landing, then got to his knees and took the nine count.

Judge Frank Carter scored it 56-54 for Robinson and referee Jack Donie had the same figures. Judge Jack Silver gave it to Castellani 56-54.

Reese Cheered . . .

White Sox Jump to Top Spot in American League

By The Associated Press

The go-go Chicago White Sox went-went right into first place in the American League Friday night when they clubbed Boston Red Sox 10-7, while the lowly Kansas City As were whipping New York Yankees 3-1.

The White Sox thus lead the Yanks by two percentage points, although they're all even in the games behind column. The defending champion Cleveland Indians also stayed in the picture by downing Baltimore Orioles 2-0 to climb to within two games of the leaders.

In the only other American League game between two of the have-nots, Detroit Tigers smothered Washington Senators, 11-3.

Brooklyn Dodgers continued to stretch their National League lead when they turned back the runner-up Milwaukee Braves 8-4 to make Pee Wee Reese night a success for 33,003 Flatbush folk who showed up to honor the Brooklyn shortstop.

The Brooks now lead the Braves by 14½ games, New York Giants, only 1½ games back of the Braves, turned back Cincinnati Redlegs 6-3 on rookie Gail Harris' two-out home run with two on in the 14th inning.

SNAP WIN STREAK

Philadelphia and St. Louis divided a twi-night doubleheader, the Phils winning the first 6-3 and the Cards the second 8-1 to snap an 11-game Philadelphia winning streak. Pittsburgh Pirates turned back Chicago Cubs 3-1 in the other National League game.

Vic Raschi, the old New York ace, turned on his old mates and in the process snapped a 10-game losing skein by the As. He needed help in the ninth from Tom Gorman, another ex-Yank, but got credit for the triumph. Raschi was tapped for 10 hits but was tough when it counted. The loss was the Yanks' 12th in their last 17 games.

The White Sox scored five runs in the first inning and five more in the third but still had to fight off the Red Sox. Morrie Martin, fourth White Sox pitcher who stemmed the tide after the Red Sox had scored four runs in the seventh, got the triumph. Tom Brewer was the loser.

The Indians were held to only four hits by Jim Wilson, but one was a fourth-inning home run by Al Smith, which was enough for victory. Herb Score held the Orioles to seven hits until the eighth when he was struck in his left arm by a single by Dave Philley. Ray Narleski finished.

Ray Boone, who had been ill, hit two home runs to lead the Tigers to their decision over the Senators. Ned Garver had it easy after the Tigers scored five runs in the second.

SHOWERED WITH GIFTS

Reese, who was showered with gifts, including an automobile, by his well-wishers in Brooklyn, was involved in three of the Brooklyn runs and that made the night complete for the spectators. He had two doubles. Two big birthday cakes were rolled to the infield and the lights turned out midway in the game while the crowd sang "Happy Birthday to You" in honor of Reese's 36th birthday today.

Dodger president Walter O'Malley announced that President Eisenhower had sent Reese his regards.

Rookie Roger Craig got credit for the Brooklyn victory although he was tapped for home runs by Del Crandall (2), Hank Aaron and Joe Adcock. Craig was taken out for a pinch hitter in the seventh and Ed Roebuck finished. Gene Conley was the loser.

Harris' homer sent the Redlegs down to their sixth straight defeat, and enabled reliefer Marv Grissom to hang up his fourth success. Joe Black went the first 10 innings for the Redlegs before giving way to a pinch hitter in the 11th. Wally Post and Ted Kluszewski homered for the Redlegs. Rudy Minarcin was the loser.

Harvey Haddix ended the Phils' winning streak and did it easily as the Cards got away to a three-run lead in the third and tallied three more in the sixth. In the opener, the Phils broke out for six runs in the fifth inning, three on Bobby Morgan's home run, to wrap it up for little Murray Dickson.

Roy Face was the big man in the Pirate triumph, setting the slumping Cubs down with seven hits. The Bruins now have lost 13 of their last 15 games.

Passmore Beats Castlegar Cubs

PASSMORE — Castlegar Cubs fell before the heavy hitting of the Passmore nine in an exhibition fastball game here Friday night, 7-2.

Passmore scored their seven runs on 11 hits while the Cubs had five hits to go with their pair of runs.

It was a tight, scoreless ball game until the last of the fourth frame, when after two were out and Jack Voykin was on first on an error, Paul Kinakin of Passmore walked. The game then blew wide open. Osachoff, Stoochnoff, Lakten, Konkin and Zaytsoff followed at the plate with four of them blasting singles and Bill Konkin slamming a triple to score six runs.

In the fifth, Bill Osachoff knocked a three-bagger to score Fred Schukin for Passmore's final run. Thereafter, Gerranazo, relieving Mackortoff on the mound in the sixth, kept Passmore scoreless on only one hit.

Atcheson, Kazakoff and Kanigan each singled in the fifth to score the Cubs' two runs. For the remainder of the game, Castlegar was unable to solve the sharp fielding of the Passmore club and the effective pitching of Paul Kinakin, who fanned 12 men.

HOAD, ROSEWALL BOOST AUSSIES TO 2-0 LEAD

LOUISVILLE, Ky. (AP)—Australia's strong young men, Lew Hoad and Ken Rosewall, ran up against surprising Brazilian savvy Friday but survived to give the Aussies a 2-0 lead in American zone Davis Cup semi-finals.

Hoad especially had his hands full as he battled from behind to take the measure of powerful Bob Falkenburg 3-6, 8-6, 7-5, 6-1.

Rosewall took Jose Aguero 7-5, 6-0, 4-6, 6-3, but only after stopping a comeback bid by the game little swinger from south of the border.

Coast Rowers Emulate UBC

VANCOUVER (CP)—Eight navy reservists, after visits to their bank managers Thursday, boarded a CNR day coach here late Friday bound for the Canadian Henley Rowing Regatta at St. Catharines, Ont.

The determined crew, poor in pocket but rich in desire, will be seeking to emulate the Cinderella University of British Columbia eight-oared crew which took its first step to fame at this event last year.

"They would be willing to sling their oars over their shoulders and start to walk to St. Catharines, they are that keen," says their coach, Lt.-Cmdr. A. C. Penley of the HMCS Discovery base here.

When the navy decided last week that it couldn't pay for the trip, the men set out to raise the funds themselves.

TOOK PERSONAL LOAN

Each man took out a $500 bank loan.

Some of the money went toward shipping a shell borrowed from the Vancouver Rowing Club. Another $400 was used to buy a new set of oars.

Making the trip are rowers Alex Webster, bow, Jim Tayler, No. 2, Paul Harris, No. 3, Ian Muir, No. 4, Herb Shepherd, No. 5, Ed Roach, No. 6, Val Stewart, No. 7, and Bert Holt, stroke.

Coxswain is Barry Macdonald, 12-year-old sea cadet. Coach Penlet will also travel with the crew.

The crew has been training in Coal harbor alongside the UBC crew for the last five months and is interested in major competition.

Humes Thump Maddens 10-1

	W	L	T	Pts
Passmore	15	2	0	30
Hume	11	5	1	23
Riondel	10	10	1	21
Transfer	10	8	0	20
Salmo	8	10	0	16
Madden	4	14	0	8

Humes routed Maddens 10-1 in a Nelson District Fastball League game Friday night at South Slocan.

George Barefoot and Maurice Renwick scattered five hits in gaining the victory for the second-place Hume club. He lost his chance for a shutout when Madden scored their lone run in the ninth.

Frankie Hufty led the Humes 14-hit attack on Madden pitcher Kieth Loewen. In five times at bat, Hufty collected two singles, a double and a homer. Jimmy Lowe, Red Koehle and Mickey Maglio had two hits each.

DUST-OFF PITCHES DRAW GILES FIRE

BROOKLYN (AP)—Buzzy Bavasi, Brooklyn vice-president, has demande daction from National League president Warren Giles against dust-off pitches thrown at his Dodgers which have "happened too often to be accidents."

Bavasi said he filed his protest in the form of a letter to Giles. He said he told the league prexy "either your umpires are incompetent, or they just aren't paying attention to orders."

Baseball rules call for an umpire to warn a pitcher the first time he is suspected of throwing at a hitter, and to eject him the second time.

Bavasi noted that his league leaders have "been hit 32 times in little more than half a season."

In Cincinnati, Giles had "no comment" on the Bavasi letter.

More Hunting For All but B.C.

OTTAWA (CP) — Hunters will have a longer shooting season for migratory birds in all provinces except British Columbia this year.

The resources department announced Friday extension of hunting seasons in the Atlantic provinces, Quebec, Alberta and Saskatchewan.

Ontario's season also is lengthened but only by one day. A new game species was added to the Ontario sportsman's bag. An open season was declared on mourning doves—with an eight-bird bag limit—for the first time since 1917. They still can't be shot in other provinces.

Open season on some game birds was lengthened in Alberta and Saskatchewan because late spring seeding increased the possibility of duck damage to crops.

Alberta is divided into two areas this year, roughly on a line from the Saskatchewan border to the British Columbia border through Lesser Slave Lake.

Game-type, area and season: Ducks, gees, rails and coots, except wood ducks and Ross's geese, northern zone, Sept. 1-Nov. 30; southern zone, Sept. 7-Dec. 10. Wilson's snipe, northern zone, Sept. 1-Sept. 30; southern zone, Sept. 7-Oct. 8.

Daily bag limits are 10 each ducks, rails and coots, five geese and eight Wilson's snipe.

Daily bag limit in B.C. is 10 ducks, if at least two are pintail on widgeon, 25 coots and eight Wilson's snipe. There is a two-day possession limit on ducks. Daily limit is five geese except in the provincial electoral district of Nelson-Creston where it is three.

Open season for ducks and geese begins Sept. 1 north of the 57th parallel and Oct. 15 in the southwestern part of the province and the north and south Okanagan electoral districts. Wilson's snipe season begins in all districts on the same day as the waterfowl season.

Open season on band-tailed pigeons will be Sept. 3-Oct. 2 in the area west of the summit of the Cascade mountains and south of the electoral district of Atlin.

The Irrawaddy river, principal waterway in Burma, is navigable 900 miles from the sea.

Main, Bedard Put Canada 2 Up in Second Round Cup Tie

By HENDERSON WARD
Canadian Press Staff Writer

MONTREAL (CP) — Canada's first- and second-ranked tennis players—Lorne Main and Bob Bedard — lived up to expectations Friday as they handily won two singles matches against British West Indies to give Canada a 2-0 lead in the second-round Davis Cup tie.

Bedard, from Sherbrooks, Que., defeating playing captain Ian McDonald of the B. W. I. team 6-2, 3-6, 6-4, 6-2, in the first match and Toronto's Lorne Main beat Frank Mott-Trille in straight sets in the second match 6-3, 6-1, 6-1.

Canada can win the tie, a best-of-five affair, by taking the doubles event today. Bedard and Don Fontana of Toronto will face McDonald and Mott-Trille on that event.

McDonald had difficulty with his service in the first match, double-faulting three times. He employed a spinball-slice service but Bedard, a speed player, handled McDonald with ease, getting into trouble only when he tried to play McDonald's slower game.

Bedard's fast serve made a good part of the difference in the match and his overhand drives held McDonald to the back court most of the time.

Main, originally a two-handed player but using a one-handed style in Davis Cup competition for the first time, handled Mott-Trille with ease, dropping lobs and backhand placements for points almost at will.

Field of 100 Expected for Willingdon Cup

CALGARY (CP) — Famed for its annual stampede which attracted more than 500,000 persons last week, Calgary now becomes Canada's golf capital for a week starting next Saturday.

Interprovincial play for the Willingdon Cup starts July 30 along with play for the Canadian junior championship. The week-long Canadian amateur championships start Aug. 1.

A total of 32 players — four representing each of eight provinces —will compete for the Willingdon Cup. Another eight juniors will represent the provinces in junior title play.

British Columbia won the Willingdon Cup last year while Grant Dearhaley of Montreal captured the junior laurels.

A field of more than 100 is expected for the Canadian Amateur.

Don Bistelinghoff of Orlando, Fla., one of the top amateurs in the United States, has filed entry for the tournament. He reached the finals of the French amateur and the semi-finals of the British Amateur earlier this year.

LONGDEN SAVED FROM FALL, WINS

INGLEWOOD, Calif. (AP) — Veteran jockey Johnny Longden was saved Friday from what might have been a fatal accident during a race at Hollywood Park. Two fellow jockeys pulled him back up on his mount as he was falling to the track.

Movies of the race showed Longden falling from Amblingorix after Japanese-American jockey George Taniguchi's mount Infantry brushed him. Longden's left foot was flipped out of his stirrup.

Longden fell forward but Taniguchi grabbed his left arm and hauled him back into his saddle with the help of Panamanian jockey Rogelio Trejos, on the other side of Longden's mount. Trejos helped steady Longden while he got his feet in the stirrups.

Longden went on to win the race by three lengths.

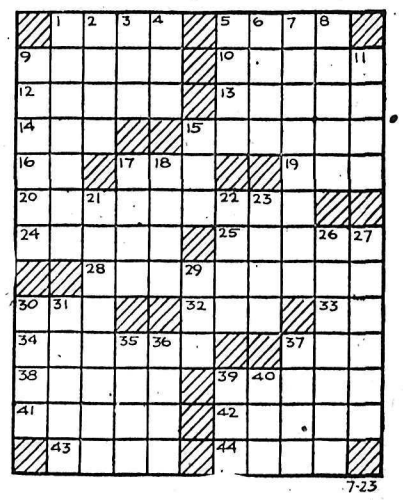
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

LHR CNEKVYG NLKN IGV, RLH YBUMG NLG ATHBYL, CLHBTM SKUT NH YBUMG NLG AGV—JEKWWG.

Yesterday's Cryptoquote: EVERY PHYSICIAN, ALMOST, HATH HIS FAVORITE DISEASE—FIELDING.

Cameramen in Brawl Before Russian Villa

GENEVA (Reuters) — A fight broke out among photographers at stood on the porch trying to greet Prime Minister Nikolai Bulganin the Soviet villa Friday as Soviet his dinner guest, Sir Anthony Eden.

More than 100 photographers surged toward the two statsemen when they appeared on the porch of Marshal Bulganin's villa, La Pastorale, not far from the Palace of Nations.

WITHDRAW FROM SCENE

Tempers flared and blows were struck as the photographers fought for the best places. Bulganin and Eden stood for a few moments, then went indoors, leaving the crowd outside still arguing.

Centre of the squabble was a man accused of masquerading as an accredited photographer. The others said he spoiled their "shots" by getting in the way.

They chased him from the grounds and cornered him in the street outside, but the argument subsided when he broke away and sought protection of a Swiss policeman.

Police Force Cut at Coast

VANCOUVER (CP)—The police department here will continue to operate the rest of the year 17 men short.

City council Friday formally notified the police commission that the 1955 budget, cut by $122,000, has been approved.

Total cost of the 735-man force will be $3,500,000—$102,000 more than last year despite the cut to the estimated figure.

Jail Divorcee For Spying

FRANKFURT, Germany (AP)—Ursula Schmidt, pretty 29-year-old German divorcee, returned here from Canada to stand trial, was convicted Friday of spying on the U.S. Army for Russia. She was sentenced to 17 months in jail.

The Hesse state Supreme Court found, after a nine-hour trial from which press and public were barred on security grounds, that she had "treasonable" relations with Soviet intelligence in East Germany from 1951 to 1955, while she was a stenographer at a U.S. airbase here.

Mrs. Schmidt emigrated to Canada in 1953 and returned to Germany last August.

Canadian authorities started deportation proceedings after she was named by two Germans convicted of espionage by U.S. high commission courts.

Extend Term For Burns

UNITED NATIONS, N.Y. (CP) — Secretary-General Dag Hammarskjold announced a one-year extension in the term of Canada's Maj.-Gen. E. L. M. Burns as chief of the United Nations truce supervision organization in Palestine.

At the same time Hammarskjold made public a letter to the 58-year-old Ottawa officer in which he expressed appreciation for Burns' efforts "to maintain and to strengthen" the work of the truce organization.

U.K. Hotel Rates Higher in 1956

LONDON (CP) — Visitors to Britain will find hotel rates slightly higher next year.

Hotels and caterers have agreed to increase prices to meet rising costs. The average increase is expected to be about 10 per cent, and it will generally come into effect next April, the normal opening of Britain's booming tourist season.

Students Cast Off Regular Moslem Robes

CAIRO (AP) — Students at Al Azhar, oldest religious university in existence, are casting off their kuftans and ummas, traditional robe and headdress of the Moslem sheikhs, and donning Western clothes.

The students nearly clashed with police recently when one of the ulemas, or instructors, barred from his lectures those who did not wear the traditional dress.

Today many of the 4000 students on the campus wear ordinary shirts and trousers instead of the usual flowing robes. Until recently such a thing was unheard of.

The system of teaching at Al Azhar is unique. Students sit cross-legged on a straw mat on the ground in a semi-circle while the ulema squats in the middle. There are no conditions of admission or fees imposed but applicants must be Moslems and able to recite half the Koran from memory.

A student can stay at the university as long as he wishes, until he deems himself fit to attempt the final examination. Some students are 80.

Interested in Medical Services

VICTORIA (CP) — Provincial government employees want the B.C. government to let them in on any medical service plan arising from legislation passed at the last session of the legislature.

A delegation of the B.C. Government Employees' Medical Services met Provincial Secretary Wesley Black this week to discuss the new plan as it affects 7000 civil servants already covered by their own medical plan.

The government act provides for government contribution to medical services for government employees, members of the legislature and cabinet ministers.

Officials of the BCGMS say they received assurance from Mr. Black that before any new plan is put into effect they will have a chance to compare it with coverage already provided under their own plan.

Two Ministers Direct Firms

OTTAWA (CP) — Two cabinet members, Mines Minister Prudham and Transport Minister Marler, are still directors of companies, both of which are family-owned corporations.

Stanley Knowles (CCF-Winnipeg North Centre) asked in the Commons Friday whether any other cabinet members are company directors in view of the announcement Wednesday that Revenue Minister McCann resigned June 20 as a director of Guaranty Trust Co.

Prime Minister St. Laurent replied that he has made no special investigation but thinks that one minister is connected with a family firm created before the minister entered cabinet.

STILL DIRECTORS

Later, Mr. Prudham and Mr. Marler told a reporter they still are directors of companies. The mines minister is president and director of Prudham Building Supplies Ltd. of Edmonton. The transport minister, as executor of the will of a relative, is director of Hutchins Investment Corp. of Montreal, a family-owned investment company.

Mr. Prudham said his company is a small one with only three shareholders, one of whom is his wife. He said he sold a construction company he owned before entering the cabinet in 1950.

Test New Life Saving Method In N. Zealand

NEW PLYMOUTH, N.Z. (CP) — A new method of life saving has been demonstrated on beaches here with great success. Lifeguards who have tried it believe it will spread all over the world.

If it does, lifeguards in future may look more like fishermen, and a surf casting rod will become an essential part of their equipment.

The standard method of life saving on surf beaches throughout Australia and New Zealand is by means of a reel and rope operated by a team of lifeguards. When a swimmer gets into difficulties, a lifeguard swims out with a belt attached to the rope. After he has reached the person to be rescued, the two are drawn in by a winch attached to the reel, while the rope is tended by members of the team stationed at intervals along its length.

TEAM REQUIRED

The new method needs a maximum of two lifeguards, and the equipment consists of only a surf casting rod and a light nylon line. Lifeguards have been amazed to find how effective this is even in strong currents and broken water. The tug of the rod on the light line has been proven sufficient to draw in a lifeguard and rescued swimmer from surprising distances out to sea and to have a remarkable effect in keeping them high in the water.

In some cases of a swimmer in trouble near shore, a cast can even be made direct before a rescuer can swim out.

Packinghouse Workers to Take Ballot

KELOWNA, B.C. (CP) — Fruit and vegetable packinghouse workers will take a government-supervised strike vote throughout the Okanagan valley next week to back demands for a 10-cent hourly pay boost.

The strike ballot will be taken in 32 plants in which certification is held by the Federation of Fruit and Vegetable Workers' Union (TLC), according to Bryan Cooney, FVWU's director of organization.

A strike could affect some 4000 workers at the height of the packing season which usually comes about the middle of September.

Wage rates were last revised in 1953 when male employees were granted $1.05 an hour after 60 days and women received 80 cents hourly after a similar period.

The present contract expired May 30. The strike ballot follows rejection of a conciliation board report which turned down the 10-cent hourly boost.

Ike Speech of Importance, Says Pearson

OTTAWA (CP) — External Affairs Minister Pearson Friday described President Eisenhower's proposal that the United States and Russia exchange blueprints of their military establishments as "most imaginative, important and constructive."

However, he told the Commons in reply to a question that the statement is far too important for him to give an 'unconsidered analysis or opinion of it."

UNWELCOME INTRODUCTION — This tigress showed displeasure as a photographer got too close with a camera on the animal's arrival in South Perth, Australia, Zoo.

"Send Banks Home," Says Mr. Herridge

OTTAWA (CP) — Tactics of a controversial labor leader who came to Canada to destroy the Communist-led Canadian Seamen's Union and stayed as head of another union have been attacked in the Commons.

William Hamilton (PC—Montreal Notre-Dame-de-Grace) said Thursday that Harold Banks of Montreal, president of the Seafarers' International Union (TLC) is a labor racketeer who is trying to extend his control to government ships.

H. W. Herridge (CCF—Kootenay West) said Banks should be turned out of Canada. He added that there should be a government investigation of Banks' personal funds "in order to protect our seamen, the best interests of this country and the good name of organized labor."

Their criticisms were made during an all-day study of transport department estimates, which resumes today.

It was not the first time Banks' name has been before the Commons.

Mr. Herridge said Banks "should be told he is not welcome and had better clear out."

"This is an importation from the United States of a type of labor racketeering that we have never had in this country."

Hogarth Painting Said Not Original

NEW YORK (CP) — The Metropolitan Museum of Art has written Mrs. Edith Side in Wallaceburg, Ont., that it has not been able to recognize a painting belonging to her as a work of the 18th century English painter William Hogarth. Mrs. Side furnished the museum with a photograph of the painting which she believed might be the last of Hogarth's series of six titled "A Harlot's Progress." A museum spokesman said the orginal paintings of this series are lost.

Boys Mauled By Alta. Bear

WATERTON LAKES, Alta. (CP) Two boys were mauled Thursday when a bear broke into their cabin.

Duane Clayton, 11, suffered scalp lacerations and was bitten on the shoulder. Garland Erickson, 12, suffered a scalp laceration. Both from Warner, Alta., they are recovering in Cardston hospital.

The boys, along with five others, were sleeping in a cabin at Camp Inuspi when the bear broke in. The animal was driven off by screams.

Park superintendent J. H. Atkinson said a warden shot the black bear Friday.

We wish to extend our sincere thanks to our friends and neighbors for their kindness and sympathy shown to us and for the beautiful floral tributes received during our recent bereavement. A special thanks to Rev. G. W. Payne and to Dr. Smythe who was so kind to our little girl during her short life with us.

Ben and Margaret Bourgault.

Ottawa Loses Interest in Coast Airport

OTTAWA (CP)—Transport Minister Marler indicated Friday the federal government no longer is interested in acquiring the civic-owned Vancouver airport at Sea island.

He also told the Commons during debate on transport department estimates that he personally is sympathetic to arguments opposing establishment of an auxiliary airport for light planes at Spanish banks, a beach in the University of British Columbia area.

Harold Winch (CCF-Vancouver East) asked Mr. Marler whether there have been any recent developments in the proposal to transfer the Vancouver airport from the city to the federal government.

Mr. Marler said the government offered to buy the airport but that the sale was rejected by taxpayers in a referendum. Since then the government had not pressed the city.

Howe To Meet Alberta Premier

OTTAWA (CP)—Trade Minister Howe said Friday he expects to confer on natural gas pipeline developments with Premier Manning of Alberta on Aug. 1.

Mr. Howe told a reporter he plans to call on the premier at Edmonton while he is in Alberta on other matters that include his being made a chief of the Blood Indians at a reserve near Lethbridge July 29.

He said he plans to inform Mr. Manning on developments here in conection with now-stalled plans for the transmission of Alberta natural gas to eastern Canada.

Mr. Howe said he does not know when the cabinet will reach a decision on which of a number of pipeline proposals is to be proceeded with.

Juvenile Tactics Prove Successful

TORONTO (CP) — Suburban Scarborough police Friday described the technique of two boys, age 12 and 15 charged with several housebreakings. Police said one boy engages a member of the household in conversation at the front door while the other enters by the rear. The boys appeared in juvenile court and were remanded a week in custody.

Russ Visitors Ask Questions

AMES, Iowa (AP)—"Who controls this college from Washington?" asked Soviet farm chieftain Vladimor Matskevich.

He was putting the question to Dr. Floyd Andre, dean of agriculture of Iowa State College, who had been giving a lecture to the visiting Soviet farm group on the college's organization and work.

"Nobody!" was Andre's answer. Andre went on to explain that, as far as federal government funds were spent at Iowa State College, Washington would inspect to be sure they were used for the purposes and in the way intended.

Matskevich and his 11 Soviet colleagues spent their entire day at the college, hearing about its work, looking at some of its buildings, and inspecting its agronomy farm stock.

To Study India's Insurance Firms

NEW DELHI (AP) — Indian government officials are stulying the possibility of nationalizing this country's insurance industry.

Finance ministry sources say there is no immediate prospect of taking over existing insurance firms. They add that "other ideas" have taken preference, including a proposal for a state-controlled firm to provide low-cost policies of a general nature, especially life and health, to low-income groups.

In April the government extended low-cost post office life insurance to any Indian wishing to buy it. Previously this insurance was available only to government employees.

SAME BUT DIFFERENT

VANCOUVER (CP) — Magistrate Oscar Orr quietly corrected a detective testifying in police court here in case of possession of burglar tools.

Detective Bob Hooper said he had talked to a suspect in "the interrogation room at police headquarters."

"I don't like the sound of 'interrogation room.'" the magistrate interjected. "Shall we say, rather, consultation room?"
