## 20 Farmers Massacred

### Algerian Nationalists Catch French Forces by Surprise, Raze 40 Farms

ALGIERS (AP)—Algerian nationalist forces striking at midnight hurled their heaviest single attack against European colonist farmers Monday, slaying more than 20 in a savage massacre along a fertile coastal strip of western Algeria.

The well-co-ordinated series of killings and burnings apparently caught massive French forces in the region by surprise.

More than 40 farms in an area about 14 by 16 miles were overrun and the buildings burned during a seven-hour attack. The area centres on Ain Temouchent, a marketing centre of 20,000, 40 miles southwest of Oran and 50 miles from the Moroccan border.

Sketchy French reports of the incident listed about 20 Europeans and five Moslems killed by the rebels. The Moslems presumably worked for the farmers. Details of the attack were slow because the Nationalists cut communications lines as they swept along.

**A FAVORITE TARGET**

Farms run by Europeans—mostly French—long have been a favorite target of the rebels.

The 1,200,000 European colonists in Algeria occupy most of the choice coastal farm land in Algeria, while the 8,000,000 Algerians have been left with marginal area to the south, bordering on the Sahara desert. The French government has begun a program of agricultural reform to aid the Algerian farmers.

The Ain Temochent region has extremely rich black soil and is important orange growing country.

The French dispatches made no mention of any French forces engaging the rebels, although troops were sent to the area after the attacks were reported. All leaves were cancelled. The French have more than 300,000 troops in Algeria and the Oran department (county) has a good share of them since rebel attacks there have been numerous of recent months.

**SCATTERED CLASHES**

Monday's rebel action was about 16 miles west of Sidi Bel Abbes, headquarters of the French Foreign Legion.

Elsewhere in Algeria, scattered clashes were reported between rebel and French forces. The latest was a rebel ambush of a detachment of eight Algerian troops in the French forces.

The eight were burned in the truck in which they had been riding.

## No "Nice Young Man" Answered

MONTREAL (CP) — The notice said that only nice "young" men in their late 80's mid 90's or early 100's need apply.

An Ontario brewery advertised in Montreal newspapers Monday that it is looking for such a man, and added that the gentleman probably would have been a guzzler of "fine brews" for many years.

The ad also speculated that "he'd like to tell us about it and about himself."

"Does this sound like you, or someone you knew?"

At last count, no one over 100 had answered the ad.

## *Parliament Monday*

By The Canadian Press

CCF leader Coldwell tried, unsuccessfully, to open a special Commons debate on fnancing of the Prairie leg of the cross-Canada gas pipeline.

External Affairs Minister Pearson said the NATO council was encouraged by recent Paris talks on economic and political co-operation.

The Commons passed a bill extending for two years beyond May 31 the powers of transport controller Roy W. Milner.

A bill increasing the size of loans made by the Canadian farm loan board was passed after a flurry of opposition attempts to broaden it.

**BAIL SET AT $20,000**

VANCOUVER (CP) — Bail of $20,000 was set in police court here Monday for Louis Bronson, 34, charged with possession of 90 capsules of heroin. He was remanded until May 15.

UN SECRETARY-GENERAL Dag Hammarskjold is accompanied by Undersecretary Vittorio Badini Confalonieri of the Italian Foreign Office, centre, across Rome's Ciampino Airport during stop on his trip back to New York from the Middle East. Man at right unidentified. Hammarskjold's success in reaffirming cease-fire between Israel and her Arab neighbors has boosted both his personal prestige and the rating of his office.—AP Wirephoto via radio from Rome.

## Need for Change in CBC Financing Seen

By JOHN LeBLANC
Canadian Press Staff Writer

WINNIPEG (CP)—A change in the method of financing the CBC is needed, chairman R. M. Fowler of the royal commission on broadcasting said Monday.

The present system of providing revenue for the publicly-owned agency does not provide it with the money it considers it needs to carry out its planned programs, Mr. Fowler said as the commission opened western hearings.

"There has to be some change," he said, in discussing with witnesses how the CBC is to be financed — a major point in the terms of reference of the royal commission.

Hsi statement was made in the light of evidence from the CBC at Ottawa last week that its contemplated schedule for the current fiscal year ending next March 31 will result in a $20,000,000 deficit unless it slices television drastically or gets emergency help from the government.

The CBC now gets the bulk of its income from a 15-per-cent excise tax on radio and television receivers. It has indicated dissatisfaction with this.

The chairman did not indicate any specific way of eliminating the CBC's prospective losses, but the three-man commission heard some ideas from witnesses appearing in support of briefs from eight organizations Monday.

**SET INNOCULATION DATE**

VANCOUVER (CP) — The 1956 polio vaccination program in schools in the Greater Vancouver area is scheduled to begin May 22. Delivery delays set back the starting date for inoculations by a month and Dr. Stewart Murray, city health officer, said only 43,000 instead of the proposed 60,000 children would receive the Salk vaccine because future deliveries have not been fully guaranteed.

## Magistrate Backs Up Sailors

CAPETOWN, South Africa (Reuters) — A magistrate here Monday struck a blow for liberty that should warm the hearts and stomachs of sailors everywhere.

He ruled that just because the navy cooked the food for a sailor doesn't mean he has to eat it.

If he wants instead to throw his mess tray down the ship's alleyway, that is his business.

Or if he wants to dump it into the cabin of the chief steward, that is all right too.

The magistrate said once the food is given him, it is his property and he can do with it what he likes.

He thereupon acquitted three British merchant seamen accused by their chief steward of doing these very things. They had been charged with wilfully damaging ships stores.

The men, Walter Bard, 23, Edward Marr, 20, and Leonard Perry 19, said they just didn't like the food.

## Tito Talks Peace in Paris

By JOHN BUSH

PARIS (Reuters) — President Tito of Yugoslavia, who arrived here Monday on his first visit to Paris in 18 years, said Monday night that "guilty men" must never again be allowed to play with the fate of the world.

**The method of solving differences by war should be rejected, Yugoslavia's top Communist leader added at a dinner given in his honor by President Rene Coty.**

Eighteen years ago Tito lived in Paris as a hunted Communist agent recruiting Yugoslav volunteers to fight for the Republican side in the Spanish civil war. He carried false papers and had to dodge police.

Monday he returned with his attractive wife, Jovanka, in his own armored train for a six-day official visit and talks with French statesmen. And 20,000 police, soldiers and firemen were on duty to protect him.

**In his speech at the state banquet, Tito declared that world statesmen, particularly of countries which were the victims of aggression, should learn the appropriate lessons from the Second World War.**

## Man Doomed by Cancer Dies

RAYMOND, Alta. (CP)—Grover Nelson, 32, of Raymond, whose disappearance last winter set off a widespread search that ended at a Vancouver hospital died Saturday in hospital in Toronto, it was learned here Monday.

Mr. Nelson, a construction foreman at Vancouver for several years, suffered lung cancer. Several months ago he left his wife and two young children in Raymond to go to a job at Camrose, Alta. Shortly after, he disappeared.

Mr. Nelson was found in a hospital at Vancouver after an extensive search.

## Talks Five Hours With Prisoners As Razor Held to Guard's Throat

VANCOUVER (CP)—Three prisoners Monday held an Oakalla prison guard hostage for almost six hours before surrendering him to the city editor of the Vancouver Province.

The prisoners were Bob Tremblay, Marcel Frenette and Charlie Talbot.

The guard, Ernie Loveless, 38, was held hostage in a barbering space at the end of a 90-foot corridor. A razor was held at his throat and a pair of shears at his back.

He was released at 7:25 p.m. He was taken hostage at 1:40 p.m. while the three prisoners were on their way to the barbering quarters.

No other prisoners were involved.

The prisoners kept armed guards at bay with the threat: "Stay back. We have nothing to lose through cutting his throat. We've got 20 years and another charge waiting."

The three were recently convicted of attempted murder in the beating last June of Thomas Kinna. The trio is also charged with narcotics violations.

Tremblay, key man in the trio, asked to see Bruce Larsen, Province city editor, after they had held the guard for about an hour.

Tremblay told Mr. Larsen the facts had not been brought out during their trial and asked him to run the complete story in the Province.

**Mr. Larsen agreed to write what he could if Tremblay removed the razor from the guard's throat. He promised to publish an extra in return for the guard's freedom.**

**The extra edition was due to hit the streets shortly after 9 p.m.**

Mr. Larsen met Tremblay about a year ago when he collected $97.50 for a Province camera that had been damaged.

The unusual interview with Tremblay produced many demands, most of them jumbled, Mr. Larsen said in his story.

Lawyer Larry Hill sat in on the long session and agreed with Mr. Larsen's suggestion that Mr. Loveless be freed.

**The guard's wife and two children, at his request, knew nothing of the incident until 15 minutes before he walked in the door of his home.**

**That was the only message he was allowed to give from the hostage room, Mr. Larsen said.**

Warden Hugh Christie and his senior officers stood at the far end of the corridor throughout the interview.

Four of the five men, Tremblay, Talbot, Lucien Mayer and James Malgren, accepted their 20-year sentences with stoic indifference when sentenced in December.

In contrast, Frenette was dragged screaming and kicking from the B. C. court of appeal Monday after his appeal was rejected. (See also story Page 12).

## Diesel Truck Retrieved From Christina Lake

CHRISTINA LAKE — P. F. Law Construction Company has got back its $37,000 diesel truck which underwent a dunking in Christina Lake — but not without a considerable amount of difficulty.

The truck, used to haul sand and gravel for the firm which is constructing the Christina Lake-McRae Creek portion of the Blueberry-Paulson cutoff, went into the lake Friday night when the road caved in. The driver escaped, but the truck descended to a depth of 70 feet.

Tadanac fireman George Cady, wearing frogman equipment of oxygen mask and tank, took a line down but found the truck out of his depth.

Next day came experienced Kimberley diver Fred McKim, well known through the Kootenays for his underwater repair jobs. In diving suit, he attached a cable to the submerged truck after an hour's labor.

Law's hoist started pulling the truck up, and then the cable snapped. McKim went down again. this time for half an hour, and repeated his act. The truck was raised successfully.

The truck was driven the 10 miles into Christina Lake and is now being examined for damage.

## 'Three Wise Men' Plan Fast Action

OTTAWA (CP)—NATO's Three Wise Men plan to move swiftly in devising ways of welding the Atlantic alliance into a more cohesive economic and political force.

External Affairs Minister Pearson, selected as one of the three, estimated Monday that the massive job of mapping out a line of strategy, designed to counter Russia's coexistence tactics, will be completed by next Fall.

It then will be up to the governments of the 15-power council to decide whether to bring the strategy into operation. He said the work of the three man committee will be "not unlike a royal commission." It will make a comprehensive, searching examination of the ways of strengthening non-military co-operation among Atlantic Pact countries.

Arriving from Paris aboard the special RCAF C-5 plane, Mr. pearson told reporters at nearby Uplands airport that he accepted the appointment subject to Prime Minister St. Laurent's approval. Among federal authorities close to the scene there was no doubt that approval will be given.

## SEAMEN VOTE FOR STRIKE

MONTREAL (CP) — An official of the Seafarers International Union said Monday night some 1500 seamen employed by two Great Lakes shipping companies have voted to strike Thursday noon to back up demands for wage increases and other benefits.

The official said seamen will be called off 60 ships operated by the Upper Great Lakes and St Lawrence Navigation Company and by N. M. Paterson and Sons, Ltd.

He said tabulation of a strike vote among members of the SIU showed strong support for strike action to back up union demands

## 500 Expected at Technical Meet

CALGARY (CP)—More than 500 delegates from western Canada are expected to turn out for the two-day seventh annual technical meeting of the petroleum and natural gas division of the Canadian Institute of Mining and Metallurgy which starts here Thursday.

The eight speakers from Canada and the United States will present papers on topics covering the engineering, geological exploratory, geophysical and processing aspects of Canada's oil and gas industry.

## "Thought of Chance To Free Guard"

Larsen said Monday night he thought of nothing "but the chance I had to free that guard" during his five-hour interview with the three prisoners.

"Although I was frightened throughout the action, I knew, because Tremblay had asked for me, that there was a hope I could talk him out of it.

"I guess I didn't really think about anything else but the chance I had to free the guard."

Larsen said that after Charlie Talbot, 36, one of the three prisoners, had a final message session with Warden Hugh Christie, the third prisoner, Marcel Frenette, 28, unbuckled the handcuffs which held the guard.

"Strain showed all over Loveless' reddish face," Larsen said.

When Loveless had been released to Mr. Larsen and the two men were walking down the 90-foot corridor from the barber shop, the city editor said:

"It's damned fine to see you walking."

Mr. Loveless, his clothes rumpled and his walk unsteady, replied:

"It's wonderful and I thank you . . ."

"My legs were a little weak, my throat too dry," Larsen said. "I tried to speak but Loveless was allowed to come with me. We shook hands."

**OLD BOMB KILLS SIX**

VIENNA (AP) — Radio Warsaw announcd Monday a Second World War bomb exploded in a Wroclaw Breslau suburb, killing six children, aged 4 to 7, who were playing with it.

## Congress Urged To Invest $4.9 Billion in Foreign Aid

By WILMOT HERCHER

WASHINGTON (AP) — The Eisenhower administration urged Congress Monday to invest an additional $4,900,000,000 in foreign aid as insurance against "augmented dangers to the free world."

"Military assistance is still needed and defence efforts cannot be relaxed in any degree," John Hollinger, director of the International Co-operation Administration, told the Senate foreign relations committee.

"Although today Soviet tactics are placing greater emphasis on economic overtures to the less developed nations, there is no indication that the danger of military aggression is over.

"Communist military build-up in many parts of the world and communist distribution of modern weapons provide augmented dangers to the free world."

The administration is asking foreign aid funds for the fiscal year beginning July 1. Its new budget is $2,200,000,000 more than Congress voted last year. Hollister, who runs the foreign aid program, said about $3,000,000,000 worth of the new money would be used for military assistance.

Under questioning, the foreign aid chief said "there always is danger" of a renewal of fighting in Korea.

Without American help, he said, Korea cannot "maintain in the field the largest free world army in Asia, facing a strong enemy across a narrow demilitarized strip.

"That enemy may strike in new aggression at any time," Hollister testified.

Around Formosa, too, he said, the communists may, "for their own reason, decide at any time to attack."

## 25 Countries Map Tariff Cuts

OTTAWA (CP) — Canada and 24 other countries likely will make public in two weeks details of the first general round of tariff reductions in four years. Authorities here feel it may be the last general round for years to come

The concessions hammered out in four months of Geneva horse-trading among the 25 countries will not be "spectacular," authorities said. But they may help Canadian exporters increase sales to the United States, Canada's top market, and other outlets.

They also may increase the flow into Canada of imports that now are at an all-time high, for Canada had to agree to reduce its own tariffs in order to get reductions from the U.S. and other countries.

## Soviet Plan Would Hit NATO—Nutting

By EDWIN SHANKE

LONDON (AP) — Minister of State Anthony Nutting said Monday Western acceptance of Russia's proposals for drastic cuts in the world's major armies would mean that the United States no longer could maintain her defence commitment within Europe.

Nutting told the House of Commons that adoption of the Soviet plan would mean disruption of NATO which the West could not contemplate until Europe's problems are solved. He was reporting on the recent East-West disarmament talks in London which wound up without any firm agreements.

Opposition Leader Hugh Gaitskell immediately challenged the wisdom of the Western policy of linking disarmament to political settlements. He demanded a debate "at the earliest possible moment."

Nutting explained the West was prepared "to take certain steps in the way of partial disarmament prior to a settlement of the German and other outstanding political problems."

"But," he said, "what we cannot be expected to do is to go down to the comprehensive level of 1,500,000 and 650,000 for the five major powers (proposed by Russia), until the political problems have been resolved."

## Maddison Returns Fund Donations, Witnesses to Pay Judy's Expenses

TURNER VALLEY, Alta. (CP) —William Maddison and fellow Jehovah's Witnesses said they will go it alone to pay the cost of providing medical treatment for his five-year-old daughter, Judy.

Mr. Maddison Monday returned all the money he has received so far to the co-ordinated council for crippled children in Calgary.

Turner Valley residents stopped donations to the fund and bitterly attacked Maddison's religion after it became known the oil company worker would not permit a blood transfusion for his daughter.

Mr. Maddison said donations from individuals will still be accepted, but said he wants no part of an organized drive to raise money. Any donations must be given with no strings attached.

Mr. Maddison returned $125 to Clive Willmott, head of co-ordinating council.

The receipt he received from Mr. Willmott said "none of the co-ordinating council's fund of easter seal donations has been used at any time for Judy Maddison."

**SUPPLIED WITH HELP**

Mr. Maddison said in a statement he has been assured that the "New World Society of Jehovah's Witnesses have now taken over and will see that Judy is supplied with all the necessary help, financial and otherwise."

Residents in this district have promised to write to Premier Manning of Alberta to ask that the five-year-old girl, now at the Mayo Clinic awaiting specialists' reports on whether she will undergo a heart operation, be made a ward of the government.

Deputy Attorney-General H. J. Wilson said in Edmonton that he doubts if the province can do anything about the case of the five-year-old child, unless there is evidence Judy has been neglected.

The Jehovah's Witnesses sect say receiving blood is contrary to the sect's teachings.

TRI-STATE CONVENTION of the Fraternal Order of Eagles here on the weekend drew representatives from Washington, Idaho and Montana who were hosted by Nelson Aerie. Above convention personalities pose with Nelson civic officials who were guests of the Eagles at a banquet and dance, highlight of the two-day affair. Eagles standing are C. Olson of Coeur d'Alene, past Idaho state president, who was banquet chairman; Ralph Goodman of Vancouver, provincial grand lodge representative; R. C. Catton, Nelson Aerie president; Irwin Grant of Spokane, Washington state president; and E. B. Christian, of Coeur d'Alene, Idaho state president. Seated are guests Fire Chief E. S. Owens, Mayor Joseph Kary and Police Chief Robert Harshaw.—Daily News photo.

## *And in This Corner...*

**PORT STANLEY, Ont. (CP)—Mrs. Florence Hogg has received a Christmas card in the mail. The card took 137 days moving from Hamilton, 80 miles northeast of here. Roger Short, 14, of Burlington mailed the card last Dec. 18. Nobody seems to know what caused the delay. The envelope was correctly addressed and stamped.**

HAMILTON (CP)—Talk about biting the hand that feeds you. Police said thieves made an unsuccessful attempt during the weekend to break into the offices of the Hamilton branch of the John Howard Society.

The society is dedicated to the rehabilitation of freed convicts.

**LONDON (Reuters)—Big Ben was about to toll the hour on the usual country-wide broadcast Friday when a Cockney voice heard by millions called out: "Where's Ernie?"**

**It came from one of the workmen on the scaffolding of the clock tower which is being repaired. He had violated the order for silence during the live broadcast of the time.**

KITCHENER, Ont. (CP) — Duke, a black and white cocker spaniel, caused a mild sensation when he visited Kitchener Monday with his owner, Benson Kassel of Toronto.

He is no ordinary dog. Besides being the only animal who has permission to eat in Toronto's Royal York Hotel at any time, he habitually walks the streets with a pipe or cigar in the corner of his mouth.

# Sea Cadets Win Praise From Naval Officer

"Well turned out, clean and shipshape," in the words of the inspecting officer was the Hampton Gray VC Sea Cadets Corps Monday night.

"You have a good corps here," said Capt. M. R. P. Welland, DSC (bar), CS, RCN, Victoria, who conducted the inspection, aided by Lt.-Com. D. H. Tye, RCN. area officer, formerly of Nelson.

He reminded the cadets that "the only reason you exist is because of the enthusiasm of two groups of people—the Navy League committee and your officers. Your officers give up a lot of their time and considerable effort to make the corps possible. It is your duty to co-operate and support your corps."

A sudden emergency call to "action stations" in the midst of the inspection was of much interest to parents who were watching the proceedings.

The boys sprang to their stations instantly and entered into an "engagement" with a lurking "submarine." They were required to chart the sub's course and determine ranges and instruct their helmsman where to steer their ship in order to track down the submarine. Battery telephones were used for communication.

During the inspection they also demonstrated signals, bends and hitches, boat work, steering and other sea duties.

Among observers were C. R. Higgens, president of the Canadian Legion, and G. E. MacNeill, commanding officer, and N. G. MacLeod, adjudant, of the Air Force Cadets.

# Nelson Rotary in Fore at Meeting

Best represented of all visiting clubs, Nelson Rotary figured prominently in the recent district conference in Spokane, members learned at their Monday luncheon meeting in the Hume.

The conference, for which there were 1100 registrations, confirmed choice of J. H. Coventry of Nelson as district governor nominee for consideration at the Philadelphia convention. It was the last meeting of the Rotary District 153, which will be divided into two districts, 153 and 156. Nelson club will belong to the latter district, and it is also this district for which Mr. Coventry's governorship is proposed.

C. B. Mutchler described "pioneer of pioneers" at the conference, was elected prsident of district 156 Pioneers at the traditional Pioneers' Breakfast. A Rotarian for 46 years, he has been extremely active in its affairs elsewhere and in Nelson where he is now club secretary.

Reports on different phases of conference activities were given by Mr. Mutchler, R. H. Dill, Jack McMillan and D. P. Fairbank. Mr. McMillan noted that all sessions were well-attended, and that good weather favored the event.

Mr. Fairbank spoke on social functions, highlights of which were the governor's banquet and ball. The hosts, Spokane Valley and Spokane clubs, did a "top-notch job" of seeing that everybody enjoyed their visit. Mr. Fairbank, as incoming president of the Nelson club, extended invitation to hold the 1957 conference in Nelson.

Luncheon guests were Merrill Barrow of Nakusp, Ross Young of Kamloops, George Baerg of Fruitvale, Barry Harford of Castlegar and Fraser McNaughton of Vancouver. President K. D. McRae presented a gift to V. R. Neill who is leaving Nelson shortly.

# Organ, Vocal Recital Friday

Friday night a musical recital will be held at St. Paul's Trinity United Church, featuring Rev. Elgar Roberts of Edmonton at the console of the church organ and the Hammond electric organ, in aid of the First Baptist Church memorial organ fund.

Mr. Roberts is a versatile musician. He was organist and choirmaster at First Baptist Church, Calgary; he was organist for the Greater Edmonton Christian Crusade, last Fall; and he also played the organ at some of the home games for the Grey Cup champion Edmonton Eskimo football team.

His numbers include: "Jesu, Joy of Man's Desiring" by Bach; "We Worship God," by Handel; "Arm, Arm Ye Brave" by Handel; Tocatto and Fugue in D Minor" by Mach; "Welsh Rhapsody" by Parry; selections from Student Prince, and others.

He will be assisted by four gifted local artists, Mrs. J. B. Stallwood, Mrs. Fred Joyce, H. R. Anderson and Norman Gibson.

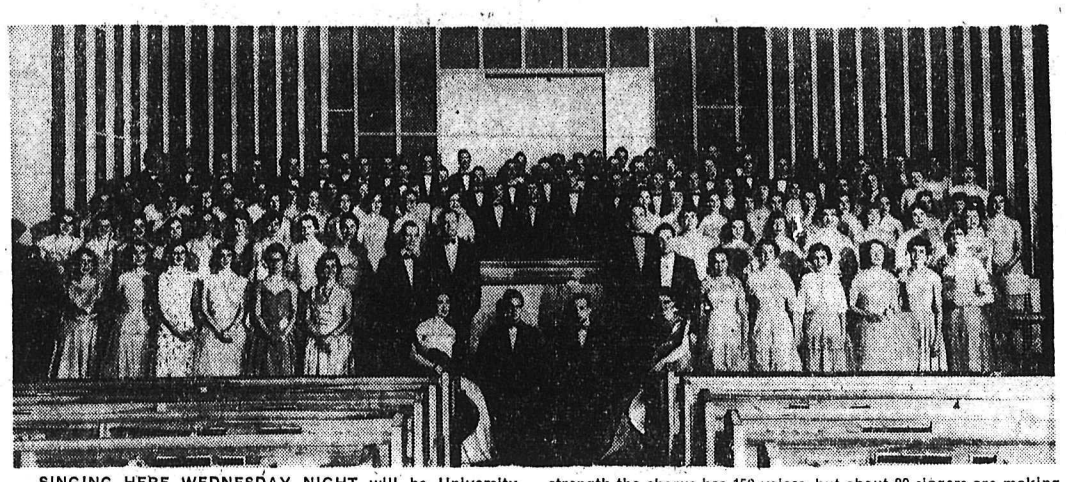
Mrs. Stallwood, soprano, will sing, "Hear Ye Israel" from the Elijah by Mendelssohn and "To Music" by Schubert. She and Mr. Anderson, will sing a duet, "Love Divine, All Loves Excelling."

Mr. Anderson, tenor, will sing "If With All Your Hearts" from the Elijah and "Where Ere You Walk" by Handel.

Mrs. Joyce, soprano, will sing "I Rather Have Jesus" by Rhea Miller and George Beverly Shea and "Irish Lullaby" by Alicia Adelaide Needham.

She will sing a duet with Mr. Gibson "Prescious Hiding Place" by Avis Christiansen and Wendell Loveless.

Mr. Gibson, baritone will sing, "Think on Me" by Hopkins and Emdee and "Blind Ploughman" by Margar Radclyffe Hall and R. Clark.



SINGING HERE WEDNESDAY NIGHT will be University of Alberta Mixed Chorus, pictured here. The chorus is being sponsored by the Junior-Senior High Schools Parent-Teacher Association and students of L. V. Rogers High School. At full strength the chorus has 150 voices, but about 90 singers are making the tour of the Kootenays. Conductor R. S. Eaton is standing near the organ, lower right, and behind him is President Don Robertson.

# Jaycees Turn Firemen as Part of Campaign; Modernize Day Today

Sirens screeched, "firemen" piled out of the big red truck and poured into a Baker Street jewelry store.

There was no fire, though. The six firemen, replete in helmets boots and black coats, ransacked the shop for boxes of flammable materials.

The hijinks were part of the Junior Chamber of Commerce Clean-Up Paint-Up committee which is making an all-out bid to put Nelson in glamor robes for the coming tourist season. Monday was the campaign's safety and fire prevention day.

**For Ernie McLachlin, manager of Sutherland Jewellers, the move came as a complete surprise. He was transported bodily on the street, "revived" in a mock display and given a tongue-in-cheek lecture on clearingeup fire hazards in business premises.**

The "firemen," all Jaycees, were Clifford Sherlock, chairman of the campaign committee: George Kaiway, Nick Voykin, Peter Siemers, Earl Wilson and Jim Muir. The Nelson Fire Department co-operated by lending the equipment for the noon-time act.

**RADIO TALK**

Mr. Sherlock spoke over CKLN at night on the benefits to be derived by Nelson by householders co-operating by sprucing up their properties. With a record tourist season anticipated, the civic house cleaning should pay big dividends, he pointed out

Today is the campaign's repair and modernize day with Jaycee Fred Westfall as chairman.

In urging support the campaign today, Jaycees make the following statement:

"You may have thought of the cost of fixing up and decorating your home during the coming Clean-Up Paint-Up Light-Up program. But do you realize that a small outlay of time and money is going to actually pay you large dividends.

"A house and yard that have been thoroughly cleaned, repaired and planted will give you added realty value should you wish to sell. Clean premises will considerably reduce the chance that you will ever stand over a rubble of what was once your home and your cherished possessions, gutted by fire.

"Your family will enjoy better health as mosquitoes, flies and rats lose their favorite homes of filth. There will be fewer chances of accident to toddlers and elderly persons since you will have followed clean up safety suggestions

"Your children will learn the thrill of working together for a common goal in contrast to challenging society as juvenile delinquents. And you will have increased enjoyment from living in clean, attractive surroundings

"You can't afford not to Clean-Up Paint-Up Light-Up starting right now."

# W. E. STANIER OF YMIR PASSES

William Edward Stanier, 79, of Ymir died Monday morning in Kootenay Lake General Hospital.

Born in Shropshire, England, he came to Canada at the age of 12. He had lived in British Columbia for the past 15 years. Mr. Stanier was carpenter by trade.

He is survived by a daughter, Mrs. Myrtle Johnson of Winnipeg and also a son. Funeral services will be at Winnipeg.

# Odds... and Ends ... by M. D. B.

Couldn't help feeling Monday was a bit of a bonus. I had been all prepared for cloud and showers as the forecast had predicted and when it turned into such a "sun-and-light-wind" sort of day it seemed almost too good to be true. It was the sort of day you felt like counting your blessings.

• • •

Fruit trees these days are strung with popcorn and the japonica shrubs are just about to come into their own. The snow on Mount Nelson has all but vanished and when it goes it will be almost as though Winter had never been.

• • •

I notice another of those funny little buildings going up, that have become the hallmark of the used car lot. For the life of me I cannot look at them without thinking them a sort of double edition of the little building that used to sit half way between the house and barn.

• • •

Workmen have begun turning over the soil in our stringbean boulevards and already they are taking on a look of importance. Mr. Holt says they are to be planted with geraniums — that bright splash of color in the midst of the concrete ought to be quite attractive and perk the street up no end

• • •

No, this is not a gardening column, but gardens do provide a good deal of interest these days and most everyone has a garden of sorts.

• • •

Was chatting with Mr. Pennoyer as he was hosing his garden. He said of the close-to-a-hundred roses he had he thinks he's lost about 90 per cent. This was sad news indeed, for in rose season it used to be a pleasure to pass their garden, a feast for both eyes and nose, as it were.

• • •

For a beautiful patch of lawn you ought to see the one at 1223 Front Street, it's one of the nicest I've seen so far, being a lush green, practically weed-free and with the neatest edges imaginable.

# Council Jottings...

City Council at its Monday night meeting accepted recommendations of the committee of the whole council to purchase $33,781.90 worth of public works equipment, a portion of that provided for by an $80,000 bylaw approved by ratepayers April 27.

The tender of Central Truck and Equipment Co. Ltd. for three gravel trucks at a cost of $15,981.30 was accepted along with one from Wiginton Motors Co. Ltd. for a garbage truck chassis for $3753.02, one from Peebles Motors Co. Ltd. for one Electric Department truck with upped tire capacity for $2938.95, one from Columbia Trading Co. Ltd. for a one Car Wood Model LP213 13 yard body mounted for garbage department for $6455.50 and one from Mel Buerge Motors Ltd. for one pick-up truck at $2128.13. Recommendation that the city purchase a Dodge V8 at $2525 from Superior Motors Ltd for use in the Fire Department, was also accepted.

• • •

A request from the Kootenay Kiltie Pipe Band for a grant to assist with the Highland Games to be held in conjunction with the Mid-Summer Bonspiel July 14, was referred to the finance committee for a report.

The band organization estimates six or eight bands will take part in the games and explained to council that "quite a substantial prize" is needed to attract the bands to Nelson. The band is asking different organizations for donations owing to its "poor financial position."

• • •

Re-application from the "Royal Canadian Shows" for a licence to operate in Nelson May 14 to 16, was refused by council. The dates the midway would be in Nelson conflict with the Kootenay Music Festival and council felt, as the festival is being held in Nelson this year, "it should make every endeavour to support it to the utmost."

• • •

Licences were granted to Heino Zylstra of Blewett for building contracting; to Ernest Gare, 424 Third Street, for chimney sweeping and to John W. Birch, 2113 Stanley Street, to operate a new and used store at 307 Baker Street.

• • •

Application of Mike M. Androsoff, 806 Robson Street, for a sewer connection to a city main which runs by his property, was refused and council passed a resolution to abide by its policy that further connections would not be made to the city sewers from residences outside the city.

# Rules for Public Use of School Grounds Urged

Review of regulations governing after-school use of school grounds was suggested to Nelson School District No. 7 Monday night. B. B. Crawford, principal of the Junior High School, made the suggestion to the Board and was backed by F. T. Middleton, principal of the Junior-Senior High School in Salmo.

While there was no actual abuse of the grounds, Mr. Crawford pointed out, there was occasionally some damage to the covered-in play area. Salmo school suffered more damage during the evening that it did all during the school days, Mr. Middleton said.

While there must of necessity be some regulations for the grounds, trustees said, use of them as play areas was generally common. "Children in cities have to have some place to play."

"It's the same situation we have in our own homes, "Trustee Otto Larsen said. "Children play around the house . . and we pay for it. As long as damages are not extensive, well just have to take the consequences.

**A major reason for complaint, however, was the use of school grounds for car parking and as a driveway. One trustee reported a car speeding "round and round the Hume School like it was on a race track. Mr. Middleton told of Salmo district drivers using the grounds as a "short cut. Restricting chains will be installed as a remedy.**

Hazard of the drainage area on the Hall Street side of the junior high would only be increased by erection of a fence, Maintenance Supervisor A. I. (Bob) Collinson felt. He was answering to a petition from uphill residents that the area be fenced. Danger was negligible now that the plugged inlets had once more been cleared, he added.

**PETITION**

Petition from householders said a two-years-old has been rescued from the drainage ditch . . . "soaking wet and dirty and asked that it be fenced in and cleaned up to protect the children from danger.

Water problem arose after children, who often play in and around the ditch that is drainage for a retaining wall, clogged the inlets with rubbish. Several weeks ago the drains were plugged enough to back up 14 inches of water under the school gymnasium floor; water in the ditch, however, was only four inches at its highest level.

The ditch is periodically cleaned, Mr. Collinson reported.

The underground railways in London, Eng., have 1,500,000 customers every day.

# ANGLICANS TO MARK ASCENSION DAY THURSDAY

A joint service of witness will commemorate Ascension Day when St. Saviour's, Church of the Redeemer and St. Andrew's Willow Point congregations gather in St. Saviour's Pro-Cathedral Thursday. Very Rev. T. L. Leadbeater will conduct the service with Canon W. J. Silverwood preaching the sermon. United choirs will sing two anthems, "The Radiant Morn" and "Hail the Day."

Following the services, ladies of the congregation will serve refreshment to a fellowship gathering in the church hall. This event is in reciprocation for the Good Friday observances when the Church of the Redeemer was host.

**FAMED STAMPS**

The first adhesive stamps, the penny blacks and two-penny blues of Britain, were issued in 1840.

# Hospital Meet Repeats Plea For Attention to Chronics

NEW DENVER — Resolutions of district and provincial scope were endorsed here Saturday at the meeting of West Kootenay Regional Council of the B.C. Hospitals' Association.

Delegates called for provision of adequate care for chronic patients, and amendments to present legislation to make provision allowing for payment of chronic patient expense in acute hospitals until proper accommodation is available. Other resolutions request continuation of laboratory services provided at the Trail-Tadanac Hospital, establishment of standards in training of auxiliary nursing personnel, and approval or amendment of hospital budgets by the B.C. Hospital Insurance Service by May 1 instead of July 1 if found possible.

Officers elected were H. L. Christian of Rossland, chairman; J. H. Hargraves of Trail, vice-chairman, and Miss V. B. Edit of Trail, secretary. Miss Edit was appointed voting delegate from the Council to the B.C.H.A., and she designated D. G. Stevenson as alternate as it may not be possible for her attend.

After invocation by Rev. W. F. Bushe and address of welcome by James Draper, chairman of New Denver's Village Commission, three separate groups—Women's Auxiliaries, trustees and administrators—met for divisional conferences. Each group brought in summaries of their discussions to the main meeting in the afternoon.

Dr. W. S. Huckvale, speaking on hospital-medical staff relations, outlined the medical staff set-up at Trail and their responsibilities to the people as represented by the board of management, and to their patients.

Main requirements of a radiological service for a district were enumerated by Dr. G. R. Callbeck of Nelson, who said that the federal health scheme might affect X-ray services in hospitals, but to what extent is yet unknown.

Dr. L. Duggan spoke briefly on main services that should be provided by a pathological laboratory, under four headings: tissue histology, bio-chemistry, bacteriology and hematology, and recommended standardization of lab procedures in the region.

Mrs. G. C. Chandler of Vancouver, chairman of the trustees' division of the B.C. Hospitals' Association, gave an inspiring address on the duties and responsibilities of trustees, stating that trutees should know their hospital well so that when matters come before boards for decision, they may base their decisions on facts and knowledge. "Service on a hospital board calls for high qualities of sincerity, patience, hard work and high ideals," she said.

Attention was called to the annual meeting of the B.C. Hospitals' Association to be held in Vancouver June 15 and 16, following a five-day institute for administrators and administrative nursing to be held at UBC June 9 to 15. R. H. Procter, administrator of Kootenay Lake General Hospital in Nelson, is attending the Institute and will represent the board of directors at the Associations annual meeting.

**Delegates visited the home or the aged at New Denver and the dormitory for Sons of Freedom children who are wards of the government while attending school here. The children were playing happily in the sun, and the visitors were impressed by the extensive alternations which are under way in order to provide better segregation of age groups at the school, and some accommodation for supervisory personnel.**

The day ended with supper in the Legion hall prepared by the Slocan Community Hospital Auxiliary.

Those attending from the district were:

Trail-Tadanac Hospital — D. G. Stevenson (Administrator) Miss V. B. Edit, (Assist: Administrator) — J. T. Kitchin, Mrs. J. Bryden, E. H. Gautchi (Trustees); Dr. W. S. Huckvale, Dr. L. Duggan (Medical Staff); Mrs. Gladys McBey, Mrs. Phyllis Gautchi (Women's Auxiliary); Msr. E. I. Morris (R.N. Representative).

Rossland — Mater Misericordia — Mr. H. L. Christian (Trustee).

Kootenay Lake General Hospital — Nelson — R. H. Procter (Administrator); Mrs. E. S. Bucknell (Superintendent of Nurses); Dr. G. R. Callbeck (Medical Staff); Mrs. M. E. Drew (Secretary).

Arrow Lakes Hospital — Nakusp — V. Smith (Trustee); R. Cook (Administrator); Mrs. A. E. Maxfield, Mrs. F. A. Maxfield, Mrs. M. Blyth, Mrs. Robt. Joy, (W. Auxiliary); Mrs .W. A. Keys (Matron).

New Denver Community Hospital — Miss J. I. Taylor (Matron); Miss M. Halushka (Nurse); Mr. T. W. Clarke (Trustee), W. F. Sugler (Trustee), J. L. Irmin (Trustee), E. A. Creer (Trustee); J. W. Butlin (Administrator); Mrs. M. H. Butlin Mrs. J. A. Gille.

Grand Forks Community Hospital — K. Scheer (Administrator); Miss E. Scheer (Women's Auxiliary); Mr. E. B. Mitchell (Trustee); Mrs. M. Mitchell (W.A.)

## Manslaughter Case Under Way At Cranbrook

CRANBROOK—Spring Assizes with Chief Justice Sherwood Lett presiding opened here Monday with appearance of C. R. Christianson, 38, of Creston, charged with motor manslaughter in the death October 28 of Walter Pighin of Kimberley a few hours after a car collision near Irishman Creek.

Dr. W. G. Vosburg of Vancouver testified to the eastbound Christianson car striking his west bound car on a curve, then plowing head on into the Pighin car which was following the Vosburg car. Mrs. Vosburg gave corroborating evidence.

The two passengers in the Christianson car were among today's witnesses, Edmund Kastelen and E. A. Mohlen of Yahk whose evidence concerned speed of the Christianson car immediately before the collision.

Other witnesses were RCMP investigating officers, surveyor S. V. Shayler, and George Worobey of Castlegar who was in the first car following the collision administered first aid and took pictures. Alan Graham, QC, is prosecutor and Harry McKay of New Westminster is representing the defendant. Four more witnesses are scheduled for today before the case goes to the jury.

## BOSWELL MOTEL CHANGES HANDS

BOSWELL — Mr. and Mrs. L. Shulaika of Vedder Crossing, B.C., have sold their Boswell motel to Mr. and Mrs. Jack Ireland of New Westminster. All were in Boswell Saturday completing the sale.

Mr. and Mrs. Ireland have two daughters, Alice and Eileen, who will attend the consolidated school at Crawford Bay. Mr. and Mrs. Doug Bruce, who have been in charge of the motel and cafe for the past year, have not yet decided where they will relocate, and are presently the guests of Mr. and Mrs. D. Macfarlane.

## Trail Choir Tops Festival

TRAIL (CP — The Trail Cecilian Choir Saturday won the Kelly Cup at the Okanagan Musical Festival in Vernon.

Adjudicator Leon Forrester congratulated the musicians for their spirit and talent. Dr. Havelock Nelson, an assistant adjudicator, said there was no lack of high school talent in Canada.

## New 'Phone Line Being Installed

BOSWELL — In answer to numerous requests for improved telephone service by lake residents, the B.C. Telephone Company is stringing a new line which will be in use soon.

Subscribers will not have to wait long to ring district centres such as Nelson or Creston.

## Five New Canadians Pledge Allegiance Before Judge Colgan At Cranbrook

CRANBROOK — Oath of allegiance was taken before His Honor Judge H. W. Colgan here by five successful applicants for Canadian citizenship. They were Steve Krucz of Cranbrook, formerly Austrian; Mario Ortis of Kingsgate, formerly Italian; Mike Wynnyczuk of Kimberley, formerly Polish; Mrs. Marta Yadianuk of Cranbrook, formerly Russian, and Ivar Nillson of Cranbrook, formerly Swedish.

Eight additional applications were reviewed and candidates examined at the same session. Recommended for citizenship as a result were Sofie Sylver, Kimberley, German; Herbert Wenger, Invermere, Swiss; Gino Bernara, Cranbrook, Mrs. Elvira Mollo and Orlando Mollo, Alina Marin, Salvatore Alessio and Marino A. Perri, all Italian, and all of Kimberley.

## Lewis Owen of Cranbrook Dies

CRANBROOK—Rev. F. D. Wyatt officiated at the funeral at Christ Church Monday morning for Lewis Owen, longtime railwayman who died suddenly at his home here Friday.

Born 71 years ago at Langwith, Nottinghamshire, Eng., he came to Canada in 1906 and began Canadian Pacific Railway employment at Calgary. He came here in 1916 as fireman and later became engineer. He continued at this until his superannuation in 1950. Since then he continued his home here, but had recently been in failing health. He was a member of Cranbrook Lodge No. 34, AF and AM.

He is survived by his wife at their home here, and a brother, Walter in England. Burial in the Westlawn Cemetery followed the service.

## Roosville Goes On Longer Hours In June

CRANBROOK—Inland revenue and customs collected by Cranbrook and Roosville offices of the port of Cranbrook last month came to $44,940.64, slightly down from the previous month's total of $45,824.52 but almost double the amount collected for the same month last year.

Rossville border station plans to move to its extended summer hours of 8 a.m. to 10 p.m. starting June 15 to handle its steadily increasing summer traffic from the Southern Transprovincial highway at Elko. At present its off-season hours are 9 a.m. to 6 p.m. with a noon interval.

## Goat Creek Being Shored Against Flood

BOSWELL — A big job is in progress at Goat Creek near Boswell to make it safer against flooding.

A bulldozer starting at the lake shore is digging a wide channel and piling up high banks of rock and gravel. At present an island just below the road is being pushed aside and the material added to the protective banks.

## Trail Cadets to Be Inspected May 15

TRAIL — Trail's Royal Canadian Air Cadets will hold annual inspection on May 15 in the Cominco Arena.

This year the ceremonial review will be entirely under the command of the cadets with NCO's taking executive officer positions. Featured at the inspection will be the squadron's precision drill team now undergoing training in preparation to compete in the B.C. annual air cadet drill competition.

The inspecting officer will be Group Captain McNabb from Air Defence Headquarters. Accompanying him will be Flight Lt. A. Carling, A.C.L.O., and members of the provincial committee of the Air Cadet League of Canada. During the day the cadets will fly in a Dakota aircraft, and after the inspection will attend the annual banquet in the Legion Hall.

## A. M. ROBB OF RADIUM DIES

CRANBROOK — Long-time resident at Radium Hot Springs where he served as assistant postmaster until his retirement, Alexander McNabb Robb died at St. Eugene Hospital here Friday. After retirement he had continued his home at Radium until illness brought him to the hospital here in February. He was born 75 years ago in Ontario and established his residence in British Columbia in 1920. Surviving relatives include a sister, Isobel Robb in Toronto, a second sister in England, and a brother, A. P. Robb in Houston, Texas.

Burial in Windermere Cemetery will follow the funeral service which has been set for Invermere United Church today.

FLAG BREAKING CEREMONY marked Decoration Day program at Nelson Memorial Park Sunday. Here Canadian Legion members and Navy, Army and Air Force cadets stand at attention as Norman Brown, Legion past president, breaks out the flag. —Daily News photo.

## New Control for Trail Bus Lines

TRAIL (CP) — Joe Melatini, owner of an airline service here, said Monday he has taken over operation of all existing routes held by Interior Stages bus lines.

Mr. Melatini said he will assume control of the operations May 16. Schedules will be reorganized if necessary following a 30-day survey of existing routes. Interior Stages now operates bus services to Rossland and Nelson.

He said he does not plan any immediate action on Trail city routes, although a survey will be undertaken. Trail has been without a city bus service since Feb. 1 when drivers went on strike over wage demands that Interior Stages said it could not meet.

## Reassessment Program Starts at Cranbrook

CRANBROOK—Residential area reassessment program for Cranbrook has been started by city assessor J. M. Stropky with assistance of R. L. DeArmond on a part-time basis. They hope to have the task completed this year. Reassessment of the whole city on the basis of 60 per cent of the 1953 values is required by the provincial Assessment Equalization Act in all organized territory to be completed by 1959.

Mr. Stropky recently reported to the City Council that the 1956 assessment roll for Cranbrook records taxable assessed value of land at $723,733, up $46,879 compared with 1956, largely due to value adjustment in extension areas, and improvement assessments total $4,054,331, increased from 1955 by $249,826 mainly through new construction.

Result was to increase the amount one mill of city tax raises for general purposes by $234.25 to a new high of $3764.48, on the basis of full value of land and three-quarters of value of improvements.

ZONING BYLAW

His report to council also outlined desirability of a zoning bylaw for Cranbrook which has already been recommended strongly by National Housing and regional planning authorities. Purpose would be to analyze property according to its use, location and desirability to appraise its actual value for best use for various purposes.

He reported a current vacant land inspection under way in the city as lots change hands, with information as to price and purpose of purchase being compiled to establish a unit-foot value of specific areas as an aid in establishing proper assessment level.

## Kimberley Miner A. H. Huber Dies

KIMBERLEY—Funeral service for Albert Henry Huber took place at McPherson Funeral Chapel here Monday afternoon, with Rev. F. A. McPhee officiating. He had been a miner for Cominco in Kimberley for the past nine years, and was found dead at his home here Thursday afternoon. An inquest was started but was adjourned to a later date.

He was born 41 years ago at Ganela, Sask., and lived in Saskatchewan until he came here in 1947. Surviving him are his wife, Dorothy in Vancouver, five sisters, Mrs. Ella Flieschman and Mrs. Ruth Vona at Lipton, Sask., Mrs. Betty Grouse and Mrs. Marjory Blenkencroft, of Toronto; and Mrs. Irene Kruitzer at Plymouth, Man., and four brothers, Herbert in Kimberley, and John, Jack and Ernest in Regina.

## Funeral Today for Accident Victim

TRAIL (CP) — Funeral service for Miss Selma Reimann will be held in Medicine Hat, Alta., today. Miss Reimann died Saturday night of shock following a head-on collision between two Canadian Pacific passenger trains 25 miles southwest of the Alberta town.

*Look them over carefully.* Most of these important safety features were pioneered by Chevrolet — the car that has *ALWAYS* taken your safety seriously.

18 Safety Firsts . . . by Chevrolet . . . a vital demonstration of Chevrolet's consistent, many-sided leadership. Leadership, you will note, not merely in protective safety features — but in *PREVENTIVE* features. Features which bring you surer, safer control of your car . . . new ease, precision and security of handling under all conditions. This is no new concern of Chevrolet engineers, and it has always been gratifying to find other cars eventually adopting so many of Chevrolet's contributions to your motoring safety. Directional Signals, Safety Padded Instrument Panel and Seat Belts with Shoulder Harness, all are available to you with Chevrolet. The largest-selling, most trusted car in the world MUST take a conscientious and a comprehensive view of your safety. And it does. Look over the record of Chevrolet Safety Firsts. ## Canada Must Revise Her Ways

Recent visitors to Australia and New Zealand have expressed disappointment at the comparatively low standard of material comfort enjoyed by the people of those countries. They are agricultural and pastoral countries and though their wealth is considerable, wages tend to remain relatively stable and at a comparatively low level. These conditions are, however, offset by climatic, social and other factors which make life in the Antipodes pleasant, but it is undoubtedly true that highly industrialized nations enjoy more of the products of industry which make life easier and more pleasant.

There is no more striking example of this than the progress of the United States in the past half century during which she has become the leading industrial nation. There seems to be no limit to the number of new machines and articles which she manufactures, nor opportunities for establishing new industries.

One result of this has been the high wages which have been enjoyed by the workers and which have done so much to attract Canadians and others to the United States. There seems to be a general recognition in that country of the idea that all are entitled to high wages and this has brought to her shores the best of Europe's scientists, artists, actors and authors as well as taking from Canada many she can ill spare.

Canada is now passing from a predominantly agricultural country to one where industry will have the first place. Her natural resources are now being utilized more fully than ever before and the trend towards industrialization is likely to grow. The development of the St. Lawrence Seaway, the building of the Trans-Canada pipeline, the gas line to Vancouver will all be aids to this development.

If Canada is to succeed in her industrialization she must to some extent revise her way of thinking. As an agricultural nation she thought in terms of low wages, in an industrial era she has to compete with other countries. To do this successfully she must be prepared to pay the price. It is not sufficient to appeal to patriotism or to assure young people that they are wanted at home. They are apt to compare wages and remuneration and disregard other considerations. If we are to compete successfully with the United States for our own citizens we shall have to make it worth their while. The necessary step to this is to begin thinking in terms of higher remunerations.

## Prejudice in Ottawa

In Toronto, Rabbi Abraham Feinberg told a Negro audience that Canadians could not afford to be self-righteously critical of race prejudice in the Southern United States. He instanced four examples of race prejudice in Canada:

Callous immigration bars against Chinese families, consistent reluctance to admit West Indians, cavalier indifference to the squalid poverty and educational deficiencies on some Indian reservations and the cruel treatment of Japanese citizens during World War II.

Callous, yes; cavalier, yes; cruel, yes. But should not these reproaches be directed toward the Canadian people? It was by the government's order that the Japanese-Canadians were persecuted and plundered during the war. It is by the government's order that Chinese families and West Indians are excluded from Canada. As for the Indian reservations, they are directed by the government, and the people living on them are government wards.

There is a fair body of evidence that the Canadian people—as distinct from the Canadian government—don't go along with all this. It was public opinion, which this newspaper is proud to have had a part in shaping, that finally won some element of justice for the Japanese-Canadians.

It was public opinion that in several recent cases brought about a reversal of heartless and discriminatory Immigration Department rulings.

We can think of no newspaper in this country that supports racial prejudice, and of only a few unimportant organizations that do. As for individual acts of discrimination, they are so rare in most parts of Canada as to make the headlines and arouse public wrath. There is, in fact, only one place where racial prejudice is powerfully entrenched and racial discrimination sweepingly practiced; and that is in official Ottawa. Which goes to show what the Canadian people think and do is one thing, what their government thinks and does is another.

—Toronto Globe and Mail.

## Gems of Thought

**FAULTS**

It requires the spirit of our blessed Master to tell a man his faults, and so risk human displeasure for the sake of doing right and benefitting our race.

—Mary Baker Eddy.

* * *

It is a proof that one is very imperfect indeed when one is so impatient with the imperfections of others.—Fenelon.

* * *

Before you flare up at anyone's faults, take time to count ten—ten of your own.

—Anonymous.

* * *

Be sure that they who tell you of others' faults will tell your faults to others.

—Saadi.

* * *

To my mind, the best and most faultless character is his who is as ready to pardon the rest of mankind, as though he daily trangressed himself; and at the same time as cautious to avoid a fault as if he never forgave one.—Pliny the Younger.

## Press Comment

What's wrong with having the world's second highest living standard, asks the Smiths Falls (Ont.) Record-News? "It so often appears that living in the gigantic shadow of their southern cousin, Canadians suffer an inferiority complex from being only second best. An honest appraisal would likely convince most of them there is little to complain of."

## It's Been Said

Refinement creates beauty everywhere. It is the grossness of the spectator that discovers anything like grossness in the object.

—William Hazlitt.

## ?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. QUESTIONS WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy.

J. C., Salmo—To settle an argument, have the Nelson Maple Leafs won the Savage Cup in the past twenty years? If they did, who did they beat in the finals and which team (outside the province) did they oppose for the final title?

Nelson won the Savage Cup in 1937 for the first and only time, defeating Vancouver Canadians. They opposed Edmonton Dominions for the B.C.-Alberta title. Leafs were eliminated by Dominions.

P. B., Nelson—If the party of the first part (A) takes a tape-recording of his conversation with the party of the second part (B) without making attachment in any way with the phone, is it regarded as a foreign attachment and if so could B press charges against A for doing such a thing? Also, what would the minimum and maximum penalties be for such a thing?

The recording of telephone conversations either by physical wiring or by induction, or any other method, would be regarded by the authorities as a foreign attachment unless voice-recording connector equipment service is obtained from the authorities. One of the conditions covering the installation of the service states that 'voice recording equipment to be connected with the company's lines either by direct physical connection or by inductive coupling, acoustic coupling, or otherwise, will only be permitted when the connecting unit is furnished, installed, and maintained by the company This recorder connector equipment produces a distinctive recording tone which is repeated at intervals of approximately fifteen seconds.' We can assure you that any other manner of recording a telephone conversation, whether fixed to the phone or not, would be contrary to rules and regulations and would be subject to any enforcement as therein provided. Regarding penalty for such infringement we have no information but believe it would be severe.

R. G. W., Ainsworth—Please explain how the headwaters at Columbia Lake run uphill for a short distance before flowing into the river? What other places have this contrary motion?

We can only explain this as an optical illusion. The various authorities we have connected explain that as Columbia Lake is on the height of land, the river will flow downwards very slowly. We do not know of this phenomenon you mention being seen elsewhere. There are, of course, reversible falls at Connel Ferry on the west coast of Scotland, and also on the Saint John River in New Brunswick.

J. H., Nelson—When was the old post office here built?

1902.

## Expensive Half-Inch

American auto buyers like their cars to have a long, low look. To accommodate this taste, designers have done many ingenious things with bodies, frames and springs to bring the roof-lines down. But along with such refinements they have made regular use of the most obvious device, reduction in wheel size.

Back in the early '30s the orthodox automobile wheel had a 17-inch diameter. Later the 16-inch wheel, with the famous 6.00x16 tire, became the standard for low-priced cars. Just after World War II most cars switched to a 15-inch wheel. Now there is word that the 1957 models will be using a 14-inch wheel, with 13-inchers expected in another five years.

Cutting the wheel size an inch, of course, lowers the car only half an inch. But it means a lot to the automotive industry. Tiremakers will need new molds, wheelmakers must revise their stamping machines and automakers will have to design and manufacture new brakes and drums. It is estimated the change-over will cost the industry about $50,000,000.

That's an expensive half inch.—Portland Oregonian.

## Watch Your Language

COMMEMORATE—(ko-MEM-o-rate) — verb transitive; to call to remembrance or serve as a memorial of. Synonym—celebrate Origin: Latin—Commemoratus, past participle, derivative of Com plus memorare, to mention.

## Spelling, And Giving

F. B. PEARCE

Alright! Alright! there is no such word as "alright" I should have known that, for I was told it by my teacher when I was eleven, but apparently it did not stick. It should be written in two words, so, all right, let us get it all right. Of course this is a case where dictionaries lag behind popular usage, meaning my usage of course. They can inflict a word like "finalize" upon us, but they have not yet caught up with the fact that its use has now become idiomatic in the sense that when one says, "Alright. I'll do it." it has no reference to anything being all right.

When I said that adults do not make spelling mistakes, I was leaving it to the reader's conscience. A great many adults do not even write letters and others have secretaries. In general it can be said why children seem to spell while adults do not. At that I am quite sure that if I could have one of my classes of thirty years ago back again, whole and entire, they would still find some mistakes in spelling to make. No. I don't think all adults spell well when I think of the parent who registered his daughter as Lousey. When asked, he said her name was Lucy but, the teacher remarked, it was a lousy way to spell Lucy.

I notice my friend says about adult spelling, "We wonder." Now this is a very bad habit into which to get. Is it the royal "We" or the editorial variety? or is he by chance including his wife in on this, or out?

But let us leave this learned dissertation and talk of other things. I do get letters which are not critical and here is one which gave me a great deal of pleasure. It was written by a little girl in grade two and the only mistake is in my name.

Dear Mr. Pearse,

I hope you are feeling well. Anytime you want me to do something just tell me. I will be glad to do anything. I like to take anything. Now I want to write to Mrs. Pearse. Goodbye.

Yours truly,
Kathy.

When I say that there was only one mistake I must also say that she spelt just "jvst" but little ones often find the "v" and "u" confusing, but the piece was properly punctuated and the writing was good. It is a small piece of evidence that the schools are keeping up the standard.

**RULE OF GIVING**

Her letter to me was the outcome of an errand to her principal that she had done for me, but the letter to my wife was an entirely different matter. That was an expression of the enchanting quality children. Time has not yet put its restraints on their impulses and there are times when their liking and affection wells up and they have to show it. This same quality seems to persist strongly in some but most adults cover it with inhibitions, which is a pity, for generosity of affection can make the world so much happier.

Most people want to be liked and are all the better for it but so few seem to realize that it comes with giving. Nobody is going to like you if you don't like others and the more you like the more liking there is in return.

That rule of giving and receiving seems to work in many ways. I once asked a friend what he had paid for an expensive motor lawn mower and he replied that he had had it given to him. Then he went on to say that it seemed a funny thing to him but he had found that, so often, when he had done little things for others, sometimes years later, they would respond with some gift which was out of all proportion to the kindness he had done them. My impression was that it was not the value of the service but the kindness which lay behind it.

## Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars,

**For Wednesday, May 9, 1956**

MARCH 21 to APRIL 20 (Aries) — A lot will depend upon HOW you react to due orders and obligations; also the cheerfulness with which you follow your schedule. There's no need to strain or grow irritable. Your best!

APRIL 21 to MAY 21 (Taurus) — Your Venus, in propitious aspect, promises achievement, perhaps new gains in your special interests. But the position of Mars suggest that you avoid needless contention.

MAY 22 to JUNE 21 (Gemini) — The present position of the Moon and Sun cautions against sharp remarks and needless impatience. You can accomplish by working faithfully, pleasantly.

JUNE 22 to JULY 23 (Cancer) — Lunar aspects now stress sensible caution in home and other affairs. Clever handling of matters generally, especially in personal contacs, will aid greatly. Be gracious, eareful; you will win.

JULY 24 to AUGUST 23 (Leo) — Take wise precautions in all activities now and you can keep things running without friction and achieve good results. Day has advantages and will bring remunerative returns for good efforts.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Red Gemini but don't permit your enthusiasm or ambition to run low. It is a day to help one's self and to double effort if need be in some spots. Do relax after work is done.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Notations to Taurus also pertain to you now. Be your innately clever, patient self and you will profitt. But use self-restraint and be cooperative with others.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Day calls for watchfulness, patience, obedience to proper authority. You will have to be sharp mentally but not sharp of speech. Recognize your opportunities and take advantage of them.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — This day's rays are not entirely favorable but neither are they too unfriendly. A great deal depends on your schedule and how you manage it. You can have best returns by being careful to detect wrong leads and not wasting time or energy.

DECEMBER 22 to JANUARY 20 (Capricorn) — Saturn, though not particularly stimulating, it not too unfavorably aspected; you may have to show more initiative than usual and maintain an even disposition. Make no unreasonable demands but use intelligent persuasion.

JANUARY 21 to FEBRUARY 19 (Aquarius) — As with most of us now, the day calls for smartest management and keen planning. But confusion need not arise; all will go better if you keep calm and are alert to real advantages.

FEBRUARY 20 to MARCH 20 (Pices) — You often do better than many on a "catchy" day like this. Your perseverance and patience and your keenness in jugdment will stand you in good stead. Have faith.

YOU BORN TODAY are among our most likeable, enduring and dependable of folks. You have great talent for mechanics, science, medicine, architecture, building, any of the skilled trades. You also have innate talent for acting, perhaps oratory, singing. Taureans also make wonderful teachers, musicians and religious. High principles, gentleness, graciousness and tremendous will power and inner strength are your assets. You may tend to worry and keep troubles too much to your self. This is not good for anyone. Share your troubles with loved ones, pray always for God's help.

King Features.

## Cool Nights Lessen B.C. Flood Threats

VICTORIA (CP) — B.C.'s hot days and cold nights weather pattern during the past month has substantially reduced the possibility of floods.

An official report from the office of provincial water rights comptroller A. F. Paget said Monday: "The weather content of the snow pack has decreased markedly from that reported last month."

"Except in local coastal areas, the water content is within 20 per cent of the mean, with some areas being very close to the mean.

"While this does not preclude the possibility of some flooding," said Mr. Paget," it is believed that, provided normal weather conditions exist, no serious flood will develop."

## First Salk Orders Arrive in Victoria

VICTORIA (CP) — First shipments of Salk polio vaccine arrived in Great Victoria Health Centres Monday and innoculation of an estimated 18,000 children will start Wednesday.

Medical Health Officer for Victoria - Esquimalt Dr. Elizabeth Mahaffy said her office received enough vaccine to give first doses for all pupils up to grade nine, where parents permission is obtained

It was learned that vaccine had also been received by health units at Saanich and Oak Bay.

About 7200 youngsters will receive the vaccine in Victoria and Esquimalt, about 7000 in Saanich and about 4000 in Oak Bay.

## Caution Delays H-Bomb Test

By ELTON C. FAY

ABOARD U.S.S. MOUNT McKINLEY, Bikini Atoll (AP) — Cautious American testers again Monday postponed the air-drop of a hydrogen bomb.

Dr. William E. Ogle acting scientific test director, said the test might take place Thursday. Bikini time — Wednesday in North American time zones — but he also told reporters he would not be surprised if the blast is delayed until May 15.

The blast originally was slated tentatively — in Bikini time—for Tuesday, and then for Wednesday Weather conditions were blamed for each postponement.

The new shot will be exploded several thousand feet in the air, and radiologists say that will reduce the degree of contamination in the cloud.

The new delay was announced as the Japanese press commented temperately Monday on the need for conducting the tests, but expressing the firm conviction that all such tests should end.

# Soroptimists Present Three Braille Watches

CASTLEGAR—Braille watches, gifts from the Soroptimists, were presented to three women when the Castlegar - Robson - Kinnaird Soroptimist group held its monthly dinner meeting Friday night at the home of Mrs. Lila Fenner of Kinnaird.

Mrs. Malnarick, Mrs. Udall and Miss Berg were given the timepieces. Mrs. Laura Briggeman, president of the Society, made the presentations.

The Soroptimists also made plans for their coming fashion show, "The Parade of Brides." The event will be held in June in the High School auditorium.

For Parents . . . .

## Always Let Child Know What To Expect of You

By DR. GARRY C. MYERS, Ph.D.

You have often read of little children who died in a burning building while the mother was away for a few minutes on an errand.

There's another, more frequent type of tragedy, that of the little child who is left alone while he is sleeping and wakes to discover in panic that no one is there. Or else he finds a strange baby-sitter there but mother and father gone.

Even if a familiar person is with him then, he may be shocked to learn that his parents have gone without letting him know beforehand. Such experiences cause a *child no end of unhappiness* and tend to build worries and anxieties in him.

Always, as far as reasonably possible, let your child know what to expect of you and what will happen next.

**BECOMES A HABIT**

Taking your tot in bed with you tonight may comfort him. If you do this once or twice he will want to make a habit of it.

If he fusses at bedtime and you pick him up and rock him, he will soon go to sleep. So, too, if you sit beside him and pat him or hold his hand.

But the more you do these things, the more he will expect them. Then when you try to slip away, the creaking chair, bed or floor may awaken him. He will cry until you repeat the attention. He hardly will go back to sleep promptly and he may awaken more readily because of the growing fear that you might leave him.

**REPEATED TRIALS**

Many mothers write about such experiences. They say they are not able to leave the youngster's room until after many repeated trials which stretch over hours and hours. But they never seem to realize why this is.

If, as often happens, the mother in desperation resolves to let the youngster cry it out, she may suppose it just won't work. The longer she has continued such attentions, the longer he will cry.

**PAY THE PRICE**

She may have to decide whether to pay the price and listen to the child's violent cries till the matter is settled or to go on doing as she had done before. Certainly there's no sense in letting him cry for short or longer periods and then surrendering to him. Why let him cry at all if she is not sure she will see it through?

The wise mother will never give such special attention, except in an emergency, unless she cares to keep on giving it indefinitely. No judge ever had so great regard for precedent as a baby or young child.

Keep in Trim

## Exercise Is Surest Way To Keep Slim

By IDA JEAN KAIN

An ultra slim woman with that stylishly starved look remarked to your dietitian, "One can't hope to keep her face young and her figure slim too, can she?" That mistaken notion is all too common. The reason back of such thinking is that we overlook the importance of exercise, both for reducing and for weight control. In fact, we have sold exercise short.

A small amount of regular exercise is important at every stage of reducing, and is also essential for keeping weight normal. In the first place, without the help of exercise, reducing calories must be kept to almost starvation level. That's no way to enjoy life. A daily walk and a few easy stretch-bends stir the circulation into brisk action and let the dieter have a couple of hundred more calories. On 1100 or 1200 calories daily, dieting fare can be good eating.

Then, too, even in the best of regulated reducing programs, there comes a lull in losing. That is when exercise can save the day. By adding exercise, the slimming and toning goes right on even if the pounds remain stubbornly fixed for a few weeks. The emergency measures at this point are to increase the protein and step up the exercise just a little, since both measures stimulate the body to burn more fuel.

At the finish of a reducing routine, exercise is the firmest way to keep slim. Right after reducing, the metabolic rate is lower and there is a tendency to regain the lost pounds as diet fare is abandoned. Well, that need not happen. Continue the daily walk and an easy routine of toning slimnastics. Firm muscles not only discourage fatty infiltration and thus stave off a gain, but with toned muscles the figure is more shapely.

This is the perfect time to answer the inquiry from a spirited lady of 61 who, after reducing 20 pounds, asked if walking would help her keep slim. She just loves to walk 2 or 3 miles a day, regardless of the weather. "Very little is said in health columns about walking. My husband says planned exercise is better," she writes.

For keeping healthy and happy, looking young and controlling weight, there is nothing that beats a spirited 2 to 3 mile walk a day. In fact, walking constitutes one of the finest forms of exercise. In this machine age, walking has become a lost art—to our detriment.

**URANIUM SEARCH**

SANTIAGO, Chile (AP) — The U. S. and Chile may join in exploring Chilean territory for uranium. An exploration agreement has been approved by the defence and mines ministries.

SCENE FROM "CANDLELIGHT", the play which Nelson Little Theatre will present Thursday and Friday at Capitol Theatre is shown above. Players shown are Herb Dahlquist, Hewitt Ferguson, who won honorable mention in the recent Kootenay Drama Festival at Trail, Barbara Dahlquist, who was judged "best actress" in the festival, and Dorothy Pringle. Director of the play is E. J. Levegue.—Daily News photo.

# Woman Director of Travellers' Aid Takes Overtime Work in Her Stride

By GILLIAN PRITCHARD
Canadian Press Staff Writer

MONTREAL (CP) — While seeing friends off at Windsor station here Mrs. Jean Henshaw overheard a railway official say a boat train from Toronto would be six hours late.

Although she'd already put in a long day at the office, the grey-haired director of the Montreal Travellers' Aid Society went into action.

"If a train is six hours late, connections are bound to have been missed and that means trouble," Mrs. Henshaw explained in an interview at the society's downtown headquarters.

Several hours later she had helped four people arrange flights to Halifax in time to catch a ship for Europe. One was a young girl with only $18 who was going home to Scotland to visit her sick father. The others were a mother and two children going to join a serviceman in Germany.

**BUSY IN SUMMER**

While the organization works hard all your round, its busiest season gets under way as the port's summer traffic speeds up.

Seventeen men and women are employed by the Montreal Travellers Aid, which since its reorganization four years ago has increased its annual budget to $54,000 from $10,000.

Montreal is the biggest of the 30 Travellers' Aid branches throughout Canada. Last year it helped 21,478 persons in difficulty on their way through the nation's biggest city.

"We help old ladies and children on to planes and trains, give money where it's needed and do all the obvious things people expect from Travellers' Aid. But our help is often more far-reaching than that" declared Mrs. Henshaw.

**PERSONAL CRISES**

"We get runaways—men, women and children—and all kinds of people who have come to a crisis in their lives. We try not to let them go without solving their problem for them—and that's often a hard job when they are passing through Montreal and only in our hands for a few hours," she said.

Children could be psychologically affected for the rest of their lives if they are badly frightened by getting "lost" while travelling.

"So often people appeal to us after the children are lost, instead of consulting one of our branches first, then we will see the child right through to its destination," she said.

Mrs. Henshaw became head of the Montreal branch in 1952 after 30 years of social work. She is married with three children and six grandchildren.

# Family Reunion Held at Trail

TRAIL — Members of a family who had not been together since the death of their parents 35 years ago, joined in a surprise reunion recently at the home of Mr. and Mrs. D. Boyle.

Among those present were brothers, sisters and sisters-in-law of Mrs. Boyle, Mr. and Mrs. L. Nelson of Kimberley, Mr. and Mrs. Roy Nelson of Costa Mesa, Calif., Aldein Nelson of Rosemount, Minn., sisters Mrs. E. E. Holgerson of Haney, Mrs. W. Selby of Milk River, Alta.; Mrs. O. A. Benson of Calgary, Mrs. Paul Captain of Taber, Alta., and Mrs. Boyle's nephews LeRoy Nelson of Costa Mesa, Alfred Nelson and his wife of Trail and Mrs. Boyle's son, AC1 Lee Boyle, RCAF station, Claresholm, Alta.

The guests spent four days with Mr. and Mrs. Boyle who live at Casino, a few miles out of Trail.

## Salmo Notes

SALMO — Mr. and Mrs. Frank Burger have returned home from attending the Rotary convention in Spokane.

Mrs. N. W. Armstrong entertained at a dinner for Mrs. Doris Meyers and Mrs. Irene Woodburn of Trail, prior to Mrs. Meyers leaving to take up residence in Vancouver. Mrs. Armstrong also had as a visitor, Mrs. W. Robinson of Saskatoon.

Mrs. Bud Adams has left for Dawson Creek to look after her property there.

Eric Drugge is home from UBC in Vancouver. He drove down to Seattle and spent two days visiting Clayton Crowe, who is attending the University of Washington there.

Mrs. Bert Lundeberg has returned after six weeks in Scotland.

Mr. and Mrs. C. Hansen have left to visit their daughter Marion who is in nurses training. They expect to be gone about a week.

Rusty Gibbon, a recent patient in the Kootenay Lake General Hospital, is now home.

## Magnificent Back

HALIFAX (CP) — The aircraft carrier Magnificent arrived here Monday from NATO manoeuvres in the Atlantic with other Canadian warships and ships of the United States and British navies The destroyer Huron docked Sunday after taking part in the same operation. The Magnificent' left here in February and the Huron in March for Canadian fleet exercises in the Caribbean sea with ships of the Atlantic and Pacific commands. Later they joined in NATO exercise "New Broom V," which began last Tuesday.

Recipes . . .

# Vegetables Best Cooked French Style

By ALICE DENHOFF

A good chef doesn't look down upon the humble spud, cabbage, the beet, the spinach. Instead he prepares them, even for the simplest service, with expert care.

In topflight French restaurants, chefs like to drop the prepared fresh vegetable into a small amount of sizzling butter, saute just enough to coat well with the butter and draw out the natural juices and flavor, then reduce the heat to just a glimmer, cover the cooking utensil and simmer until just tender.

This method is also good for frozen vegetables. Usually, though, it is wise to defrost these for a few moments in a very small amount of boiling water before cooking.

Here are two recipes in which fresh vegetables are used.

Fresh Spinach and Shredded Beets is a dish with appeal.

To serve 8, heat oven to 325 degrees F.

Cook 2 pounds fresh, washed spinach in covered saucepan without water, over low heat, until done. Chop fine.

Add three tablespoons butter, ½ teaspoon each salt and sugar, ¼ teaspoon black pepper, teaspoon chopped onion and 2 well-beaten eggs.

Pack into buttered 8-inch ring mold. Set in pan of hot water. Bake 25 to 30 minutes or until firm.

Unmold onto large plate. Fill center with shredded beets.

To prepare the beets, cook 3 cups shredded raw beets in ¼ cup boiling water and ½ teaspoon salt in covered saucepan until tender; about 5 minutes.

Add tablespoon each fresh lemon juice and butter or margarine.

Spoon into center of spinach ring.

How about a nice salad making use of *leftover green snap beans?*

Chill and serve with a tangy vinaigrette dressing made from French dressing, sieved hard-cooked egg, minced onion, parsley and dill pickle.

Any sweet potato in the left-over line-up?

Mash and mix with a little salt, pepper, grated lemon rind and beaten egg. Shape into balls around a marshmallow. Roll in cornflakes, bake till brown.

In 1938 she joined the CBC. —CP photo.

## Creston OES Chapter Celebrates Birthday

CRESTON — Kootenay chapter, Order of the Eastern Star, celebrated its 18th anniversary with Mrs. M. Ross, worthy matron, welcoming the guests.

A special cake decorated in Star colors was served. Candles were lit by, or for, past matrons. The list of former matrons is as follows: 1938, Mrs. Alta Kirk; 1939, Mrs. Doris Langston; 1940, Mrs. Lavonne Kirk; 1941, Mrs Edna Fraser; 1942, Mrs. Madge Joyce; 1943, Mrs. Perdita Weir; 1944, Mrs. Mabel Robinson; 1945, Mrs. Edith Telford; 1946, Mrs. Rose Palmer; 1947, Mrs. Lillian Hendren; 1948, Mrs. Theresa Young; 1950, Mrs. Genevieve Clark; 1951, Mrs. Grace Millin; 1952, Mrs. Lorraine Hendren; 1953, Mrs. Peggy Gidluck; 1954, Mrs. Gidluck; 1955, Mrs. Edith Currie.

Buy, Sell, Trade the Clafflfied Way

Married 50 Years . . .

# Church, Lodge Honor Pioneer Fernie Couple

FERNIE — Mr. and Mrs. Fred Woodhouse have been guests of honor recently at a testimonial dinner, a house party and a church gathering, the occasions being the celebration of their golden wedding aniversary.

Fred Woodhouse and Mary Jane Neville were married at Goole Parish Church, Yorkshire, England, on April 28, 1906. The following month Mr. Woodhouse came to Canada, settling in Fernie. His wife joined him in June, 1907. Mrs. Woodhouse had been a teacher at Lofthouse Church of England School. Mr. Woodhouse worked for MF and M Railway for 15 years, then for 18 years before his retirement he tended the gardens of the late W. R. Wilson and H. P. Wilson.

The couple were feted at a banquet sponsored by the Esther Rebekah Lodge at which 130 Odd Fellows, Rebekahs and friends were in attendance. Mr. and Mrs. Woodhouse were also being honored for 43 years membership in the IOOF and the Esther Rebekah lodges respectively.

Mayor James White congratulated the happy couple. The toast was proposed by Mrs. Wesley Owen who has been a Rebekah Lodge member for 43 years. Presentation of money and an inscribed book was made by Mrs. Dolly Hardy. Mrs. Woodhouse also received a basket of carnations. Interesting items on the evening's entertainment program were a mock wedding and a magician show given by Harry Harrison of Hillcrest, Alta., an old friend of the Woodhouse family. William Thomson was master of ceremonies.

Later Mr. and Mrs. Woodhouse were honored at a house party at the home of Mr. and Mrs. Fred Crabtree. Out-of-town guests included Mr. and Mrs. Wilfred Woodhouse and sons, Allan and Terry, of Rossland, Mr. and Mrs Harry Harrison, Hillcrest, Mr. and Mrs. Erick Erickson of Spillimacheen, Mr. and Mrs. Fred Norton and children, Wayne, Wendy, and Judy of Edmonton. In addition a score of old local friends were present.

Following the evening services, members of the United Church and friends gathered in the lower auditorium of the church to present a chair and lamp to Mr. and Mrs. Woodhouse. Dr. Nora L. Hughes, the pastor, presented Mrs. Woodhouse with a carnation corsage and Mr. Woodhouse with a white carnation boutoniere. Frank Britney, the master of ceremonies, spoke briefly on the deserving qualities of the honored couple. The musical program included vocal solos by Mrs. Frances Lees, Marion Lees, and a vocal duet by Beverley Chester and Colleen Gibson.

Tea Council

# She Was A Real Tartar

**"Queen of the Tartar," might have been the nickname of a famous queen of the past ages, for history tells us that her natural teeth were so heavily bound together with tartar that she could remove and replace them at will, like an artificial denture.**

Deposits of calculus (tartar) are a major cause of unhealthy gums. Other causes may be the irregularities resulting from early loss of foundation or permanent teeth; use of overcooked foods with resulting lack of exercise and stimulation; unbalanced diet, containing too much refined starchy and sugary matter, and a combination of these factors.

**Unhealthy and diseased gums affect underlying bone of the jaws. Bone isn't solid and unchangeable; it absorbs — withdraws from sick, sluggish gums. And as it withdraws, its grip on the teeth is lessened. Teeth do not grow out of jaw bone; the bone absorbs, withdraws from the teeth.**

The predicament of the royal lady was an extreme example. Perhaps she was fortunate, for there were no artificial dentures to be had, in those days. But the odor around Her Majesty must have been such that there would be little difficulty keeping her subjects at a respectful distance.

**More teeth are lost because of diseased or unhealthy gums than for any other reason—and almost always unnecessary.**

Gums need exercise—the stimulation from chewing substantial fibrous foods. But our food, too often, is reduced by various means to a mushy pulp. After tartar is removed, exercise and stimulation must be produced artificially — by daily brisk massage of the gums with brush, or a special massaging instrument. Your dentist will tell you what is best for your particular needs.

Becoming a Queen or Prince of the Tartar may have its advantages—no need to have teeth removed and the cost of dentures is avoided. But as a means of winning friends and influencing people (favorably), it leaves something to be desired.

## Announce New Way To Shrink Painful Hemorrhoids

**Science Finds Healing Substance That Relieves Pain—Shrinks Hemorrhoids**

**Toronto, Ont. (Special)**—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain. Thousands have been relieved—without resort to surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne*) — discovery of a famous scientific institute.

Now you can get this new healing substance in suppository or ointment form called *Preparation H**. Ask for it at all drug stores. Satisfaction guaranteed or money refunded.

*Trade Mark Reg.

**SKILLED WORKERS**

About 3,000,000 watches and 5,000,000 clocks are manufactured every year in Britain.

## Term Aachen Peace Award "Tactless"

BONN (AP) — A group of refugees from the German territories taken over by Poland and Russia plan to protest what they call the "tactless" award of the Aachen peace prize to Sir Winston Churchill.

The Association of Expelled Germans said a mass meeting will be held at the Aachen war memorial Thursday at the same time the city is presenting the former British prime minister its Charlemagne prize for his contribution to European unity and peace.

Two refugee members of the West German parliament have already protested to the Charlemagne (prize) committee. They termed the award to Churchill "*regrettable and odd*" because of his role at the Yalta and Potsdam conference which divided Germany and put the eastern provinces under Russian and Polish rule.

## Market Trends

NEW YORK (AP)—The stock market declined Monday with late selling contributing to the fall.

Steels, most motors, coppers, chemicals, rubbers and radio-television shares were lower. Other divisions were steady to mixed.

Canadian issues were mostly unchanged to lower on the New *York exchange. Aluminium Ltd.* fell 3¼, McIntyre lost 1¼, Hudson Bay Mining dropped ⅞, Canadian Pacific fell ⅝ and Granby Mining lost ⅛. International Nickel was up ⅞.

---

TORONTO (CP) — The stock market scored a modest advance Monday with strength in a few divisions lifting the average level of prices. The refining oils and pipelines continued to attract buyers though on the whole individual industrials were sought out rather than groups.

Western oils advanced on fractional gains in the senior group. Mines were the only decidedly weak division, but a few standout gains dotted the list.

---

MONTREAL (CP)—Prices held higher levels in most sections of the industrial list at the close of active trading Monday on the Montreal and Canadian stock exchanges. Some earlier gains were narrowed by profit-taking as trading slowed in the afternoon.

Interantional was the feature in a stronger paper group. The issue held 2¾ points of an early 4¼ point jump. Shawinigan gained 1¼ and BC Power a point in a firm utilities section.

**THIS FLOAT, suggesting what all Nelson people should be doing during the current two-week clean-up, paint-up campaign, was entered in Saturday's parade by L. V. Rogers High School girls basketball team, the Bomberettes. The sign on this untidy truck suggested Nelsonites clean up by being "like the old woman who lived in a shoe, get everyone out, then see what you can do." Other floats were entered by the Bombers and Nelson Junior Chamber of Commerce who, with the City of Nelson, are sponsoring the campaign.—Daily News photo.**

## Would Eliminate Sunday Business

VICTORIA (CP) — Positive local or provincial legislation to end Sunday work is asked by Victoria Trade Unionist E. T. Staley, secretary of provincial council of carpenters.

*He said there is a tendency for* the gradual break-down of the day of rest, and only "service stations, eating places and drug stores should be allowed to stay open.

Mr. Staley has invited co-operation in spear-heading a drive aimed at governments from Victoria Contractors' Association, who protest unjustified extension of the 44-hour week in construction projects.

"You can drive through the city on Sunday afternoon and find 50 stores open," many of them offering a variety of goods on the pretense of operating a coffee bar, the Union leader said.

"If it continues the way it is going, soon there won't be a Sunday. "I think the commercial aspect of Sunday should be done away with entirely."

## Five Universities To Raise Fees

By The Canadian Press

Students of at least five Canadian universities will have bigger tuition fees to pay next fall. McGill, Toronto, Manitoba, Laval, and McMaster.

A Canadian Press survey shows the increases will range from five to more than 11 per cent. Most universities gave mounting costs as the reason for the boosts.

Four other colleges — Ottawa University and Carleton College of Ottawa, the University of Montreal and the University of British Columbia — said no increases are contemplated.

McMaster University in Hamilton plans to raise the fees for its arts course to $360 from $305 last year to offset increases in salaries of its administrative staff. Science students will pay $395, up from $332.

Cornelius O'Brien, Roman Catholic archbishop of Halifax who died in 1906, was a former president of the Royal Society of Canada.

Recipes . . .

## Cream Puffs Delicious With Chocolate Top

By MARGARET CARR

I had a call recently from a housewife who wanted help in making cream puffs. Her big difficulty apparently, was in getting them off the pan without breaking them after taking them from the oven. For the life of me I couldn't remember having had that difficulty, and looking back over my columns, I found it was small wonder I had forgotten, for I don't believe I have made cream puffs since the fall I flew to Paris and returned with those interesting French recipes. And that was three years ago!

As a matter of fact, I had never had too much luck with cream puffs until I tried the recipe for Pate a chou which I brought back with me. That recipe is very easy to follow and if done so exactly, I don't believe there should be any difficultes. I made them again that afternoon after the telephone call, and they turned out perfectly, coming off the baking sheet quite easily.

Because I feel the recipe is an exceptionally good one, I am going to repeat it here today.

**CREAM PUFFS**

½ cup butter or other shortening
1 cup boiling water
1 cup sifted pastry flour
½ teapsoon salt
4 eggs.

Melt butter or other shortening in the boiling water in a saucepan. Add sifted flour and salt all at once. Cook over medium heat, stirring constantly, until mixture leaves sides of pan and is smooth and compact, about two minutes. Remove from heat; cool about one minute. Blend in eggs, one at a time, beating vigorously after each until mixture is smooth and glossy. Drop by teaspoonfuls on to greased baking sheets. Bake in hot oven (424 deg. F.) 18 to 20 minutes until golden brown. Do not underbake. Turn off oven. Prick puffs with sharp knife for escape of steam; leave puffs in oven for 10 minutes to dry out centres. Cool. Split and fill with a cream filling. Frost tops with chocolate glaces.

**CREAM FILLING**

½ cup sugar
¼ cup flour
2 tablespoons cornstarch
¼ teapsoon salt
1 egg yolk
½ cup milk
2 cups hot milk
1 tablespoon butter or margarine.
2 teaspoons vanilla

Combine sugar, flour, cornstarch and salt in top of double boiler. Beat egg yolk slightly. Add ½ cup milk. Blend in dry ingredients and stir until smooth. Blend in two cups hot milk. Cook over boiling water, stirring constantly, until thick Cover and cook for five minutes. Remove from heat. Add butter or margarine and vanilla. Cover and cool.

**CHOCOLATE GLACEE**

Cream two tablespoons butter or margarine. Blend in 1½ cups sifted icing sugar. Add one egg white; beat until smooth. Blend in ½ teapsoon vanilla, one square melted chocolate and ⅛ teaspoon salt.

**Don't Neglect Slipping FALSE TEETH**

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. FASTEETH, an alkaline (non-acid) powder to sprinkle on your plates, keeps false teeth *more firmly set.* Gives confident feeling of security and added comfort. No gummy, gooey, pasty taste or feeling. Get FASTEETH today at any drug counter.

**SAFETY is everybody's business**

In the forests and in the mills, carelessness can make any job a dangerous job. And carelessness is hard to fight. It calls for combined operations—unflagging interest, determination and effort on the part of every person involved.

We of Celgar are proud of the safety records which, since 1952, have won for us national recognition and two major safety awards. Without the cooperation and interest of all concerned these achievements would not have been possible.

We pledge our continued efforts to make every week a safety week, every year a safer year, in our mills, and in the forests entrusted to our care.

The Doctor . . .

# Women More Susceptible To Migraine

By DR. HERMAN N. BUNDESEN

Sometimes there seems to be an advantage in getting old. While some of the body's machinery begins to run down as we pass the half century mark, certain ailments which we might have had throughout our earlier life tend to clear up.

Migraine headaches are an example.

This disorder which usually begins around the age of puberty tends to diminish after the age of 50. Still, you can't wait until you outgrow migraine. You have to do something about that miserable pain a lot earlier.

Women appear to be more susceptible to migraine than are men. And the disorder is particularly likely to be found in conscientious or emotionally unstable persons Heredity also appears to be a factor.

Individual cases may follow eyestrain, fatigue, emotional strain, the menses or ovulation. Eating certain foods may cause allergic migraine.

UNTREATED ATTACK

An untreated attack may last for several hours or even for days Some victims experience several attacks a week, others may have only one or two a year. Generally attacks diminish during pregnancy. And they may cease entirely after the menopause, but this, of course, is not true in every case.

Once you've had an attack, you should try to prevent another by avoiding nervous and emotional disturbances whenever possible Keep regular hours, get plenty of sleep and avoid eyestrain. If you wear glasses, have them checked to make sure you have the right prescription.

Keep you bowels normal by eating the proper foods, not by taking laxatives. And be alert for an allergy to any specific food which might bring on an attack.

At the first symptoms of a migraine headache, you might lie down in a quiet, darkened room. Wet cloths, either hot or cold, or a hot water bag or an ice bag, may be applied to your head. Try both heat and cold to determine which is best for relieving the pain.

A tight bandage around your head at the forehead might help, too. And you can try plunging your hands into ice water for one minute. Repeat this three times at half hour intervals.

One or two aspirin or empirin compound tablets may bring relief. But it is always best to see your doctor. He has numerous drugs at his disposal, which can bring prompt relief.

## PRIEST'S REMARKS SAID "FANTASTIC"

SAULT STE. MARIE, Ont. (CP) — A Roman Catholic priest, who said Saturday a Communist "phantom council" is waiting its chance to take over Sault Ste. Marie administration, was the target of indignant denial and disbelief Monday.

Rev. R. Venti of Coniston, Ont., told the Canadian Associated Travellers at Sudbury that "a complete set of experts is ready to . . . occupy the post of mayor, chief of police, radio and television executives and heads of industrial departments."

Officials here were quick to reply.

John Barker, international representative of the United Steelworkers of America (CLC), said the statement is "irresponsible."

"I don't know of any activity in our community or union like this — unless they're keeping everything very quiet."

Alderman Peter King described the report as "fantastic."

"The man who made the statement may have inside information but other aldermen and myself know nothing."

Police chief Irwin Robertson said no evidence has been found to arouse suspicion of Communist activity in the area.

## Safety Awards To MacMillan-Bloedel

PORT ALBERNI (CP) — MacMillan and Bloedel Ltd. has been given three major Workmen's Compensation Board safety awards for a low accident frequency rate in 1955.

The company received the multiple logging award, Group A, for a combined accident frequency rate of 43.30. The industry wide rate for 1955 was 106.03.

The Sproat Lake division won the Group C award for logging camps with 300,000 to 700,000 man hours per year.

The Menzies Bay division won the Group D award for camps with 100,000 to 300,000 man hours.

The awards were presented by E. V. Ablett, Compensation Board commissioner.

Not Likely To Lose Sales To U.S. . . .

# Industrialist Urges Canadians To Increase Trade With Britain

TORONTO (CP) — Increased Canadian buying from Britain to enable Britain to continue a high level of buying in this country, is urged by James S. Duncan, chairman of the Canadian dollar sterling trade council and chairman and president of Massey-Harris-Ferguson Ltd.

Mr. Duncan's appeal is contained in an article entitled Our Trade with Britain: an Urgent Problem, released here Monday.

Decreased British purchases in Canada wrote Mr. Duncan would be an immediate direct loss of *income to export industries and* agriculture, and even more serious would be the long-term effects of a permanent shift of British procurement away from Canada.

The United States market was the largest and richest in the world, and Canada was fortunate that both her location and resources were favorable to supplying it. There seemed little doubt that it would continue to be Canada's largest export market.

DANGER IN RECESSION

However, there were dangers in concentrating export trade too heavily in that direction.

"Even a mild recession in the U.S. might see a drop in her purchases from us far out of proportion to the drop in her total consumption," Mr. Duncan noted.

A serious barrier to a wider development of Canadian export markets had been the post-war inability to exchange dollars for sterling freely. Accordingly, anything that added strength to the position of sterling in world money markets was helpful in the long run to the sale of Canadian goods throughout the world.

## Woodworkers To Ask 19 Cents Pay Boost

VANCOUVER (CP)—Joe Morris, district president of the International Woodworkers of America, said here Monday Interior woodworkers will ask for a 19 cents-an-hour pay increase to bring their rates into line with coastal workers.

Mr. Morris said the demands, worked out at a meeting in Kelowna during the weekend, will be presented June 1 to the Northern and Southern Interior Lumber Manufacturers' Associations.

Other requests will be for six paid statutory holidays, double the present number; a medical plan; an increase to 6 cents from 4½ cents an hour in differential between second and third shifts; and a vacation clause which was not announced.

For the Southern Interior, the union wants a 40-hour week instead of the present 44, leave of absence and changes in seniority provisions. The Northern workers already have a 40-hour week.

RELIGIOUS PORTION

The Norwegian radio broadcasting system carried a total of 450 religious services in 1955.

## Dress Up With Marian Martin

# Competition Keen in Opening Nelson Soccer League Games

Rangers, Celtics, Wolves and Mr. Clarkton's team, which still hasn't a name, registered victories last week during the first week of Nelson Junior Soccer League competition. Rangers scored twice in the last half to edge Wanderers, 2-1; Celtics downed Hotsuprs, 2-0; Wolves triumphed over Mr. McKinnon's team — also still unnamed — 3-0; and Mr. Clarkson's team edged Mr. Tood's squad, 1-0.

Closest game of the week was the first one—played by Rangers and Wanderers last Wednesday. Rangers played throughout with a one-man disadvantage, but kicked two goals behind Wanderer guardian Gordon Kleef in the second half. Bill Cameron scored for Wanderers in the first half.

Wanderers carried the play but lacked the ability to finish off plays. Cameron, the scorer, was one of the smallest—and quickest—players on either squad.

Hotspurs, also playing with a one-man disadvantage, were less fortunate in their game. They succeeded in keeping Celtics off the score sheet until late in the second half, primarily bcause Dick Holgame.

The steady Celtic attack paid off, however, when Vic Smith and Ken Peerless counter once apiece. Rangers, Wanderers, Celtics and Hotspurs are all junior squads, while the others—those without names other than the names of their coaches—are midget aggregations.

Fisher, Rogers and Johnson each scored once in Wolves' triumph, passing well and continually perplexing the opposition defense. Goalie Dave Borch had little chance on any of the goals. Rogers' effort, especially, was a dandy. He blasted a penalty shot that reminded by-standers of a miniature Stanley Matthews.

Lone goal in the final game was scored by Bob McCandlish. The tally was slightly tainted as he pushed the ball and the goalie over the goal-line. It was perhaps the least spectacular of all the goals. Keiver, Frederiksen and Ingledew all played well, but on the whole, the game was rather lax.

Recreation Director Thor Andreassen said after the game that all boys were especially weak in trapping the ball and pointed out that the only way they will learn is by continued practice. Midget games are played every Saturday morning at Civic Centre Grounds.

## SEATTLE KEGLERS TAKE EARLY LEAD

SEATTLE (AP) — A sharpshooting pair of youngsters from Seattle took over the open doubles lead of the Northwest Intenational Bowling Congress Tournament Sunday.

Bob LaMar, 21, and 20-year--old John Guenther fired a 1247, with Guenther posting a 660 series.

Herb Libin and Max Hillsbery of Seattle, took over the No. 2 spot in the open doubles with a 1225 and the Coeur D'Alene duo of Les Laurance and Ken Bro annexed the third position with a 1205.

Bill Coates and William Holness of Victoria moved into the commercial doubles lead with a 1203. Bob Hendrickson and Chuck Abbey of Pasco moved into the second spot with 1156.

Still heading the open singles is Gary Hougton of Everett, who fired a sensational 702 series a week ago Sunday. Red Russell of Yakima took over second spot behind Hopghton with a 653 series Sunday, sparked by a 259 game.

# Pick Players for Minor League Baseball Teams

Following is the list of successful candidates for teams in Babe Ruth and Little Leagues:

**BABE RUTH LEAGUE**

Mc & Mc — Dave Grundy, Bill Turner, Harry Adcock, Wayne Carmen, Lawrence Threatful, George Paxton, Phillip Bond, Mike Engledew, Bob McCandlish, Doug Florio, Gary Kilpatrick, Bob Moisey, Dave McGowan, Monroe Holmes.

## Expect Many At Funeral

GLENDALE, Calif. (AP) — A former champion said today he expects many old-time fighters to turn out for the funeral Wednesday of veteran boxing manager Charles (Pop) Foster.

"Pop was a grand fellow," said Jimmy McLarnin of his former manager. "I'm sure a lot of the old-timers will want to say goodbye."

Foster died last Saturday at 82.

McLarnin, one of the greatest fighters ever to hold the welterweight crown, said he did not know if Foster left him a portion of the estate.

"I suppose Pop left me a bit," McLarnin said. "We were very close. But I won't know until his will is probated."

Foster, a native of England, also managed Joe Gans and Abe Attell, among other fighters.

**GREAT COMPOSER**

Born in 1840, the great Russian composer Tchaikovsky died of cholera in 1893.

## Aussie Posts Warning Signs

ROME (AP)—Australia's husky Lew Hoad served notice Monday that he'll be a tough man to beat at Wimbledon when he stormed into the men's singles final of the Rome international tennis tournament, then grabbed off a share of the men's doubles title.

Hoad called on his big game to dispose of little Herbie Flam of Beverly Hills, Calif., after losing his first set of the tournament in the semi-final. The scores were 4-6, 6-0, 8-6, 6-1. In the final he will meet Sven Davidson of Sweden, who gained a straight set victory over sore-armed Budge Patty of Los Angeles and Paris, 11-9, 6-2, 6-3.

Hoad joined with Jaroslav Drobny, 1954 Wimbledon champion who lives in London but is a citizen of Egypt, to win the men's doubles title. Calling on a pair of powerful services they belted over Europe's best doubles team, Orlando Sirola and Nicola Pietrangeli of Italy, 11-9, 6-2, 6-3.

Australia also took the women's doubles title when Thelma Long and Mary Hawton turned back Darlene Hard of Long Beach, Calif., and Angela Buxton of England, 6-4, 6-8, 9-7.

## BID FOR MATCHES

NEW YORK (CP)—Strong bids have been made by Victoria and Denver for the second round of the North American Davis Cup tie between Canada and the United States, but no decision has been reached, a U. S. official said today. The matches will be played July 26-27-28.

Alrick Man, Jr., a member of the Davis Cup committee of the U. S. Lawn Tennis Association, said a lot would depend on each city's ability to stage the tourney properly and what drawing attraction the matches would have.

Canada completed a 5-0 rout of the West Indies Saturday to win the first round of cup play.

## Pirates and Cards Exchange Pitchers

ST. LOUIS (AP) — St. Louis Cardinals today traded lefthanded Luis Arroyo to the Pittsburgh Pirates for Max Surkont, 33-year-old righthanded relief pitcher.

Arroyo, a 28-year-old Puerto Rican, was recalled from Omaha of the American Association for today's trade, announced as a straight player deal. Surkont had a 7-14 record and a 5.58 earned run average last season.

# School Marm Is Trapshooting Artist

RENO, Nev. (CP) — Iva Pembridge, a sharpshooting Kansas school teacher, has won the $20,000 Golden West Grand American Handicap trapshooting championship.

It was the first time a woman shooter had walked off with a major event in shooting against men.

She shot 99 out of 100 targets from the 22-yard line and wound up with 864 out of 900 for the five-day tournament which ended Sunday—only five targets down from the high over-all mark of Dan Orlich, Reno all-American.

Winner in the women's competition was Claire Schroeder of Van Nuys, Calif., at 94 from 21 yards. Matthew Miholovich of San Jose, Calif., won the men's junior title with 94 at 20 yards.

**WESTERNERS' RESULTS**

The western Canada contingent, including George Generux of Saskatoon, the Olympic titlist, failed to make the top winners' circle. Generux wound up Sunday with 92 from 26 yards, Keith Blanchett of Edmonton had 91 from 23, George Blanchett of Edmonton 90 from 21, James Girgulis of Calgary 91 from 23 and Jim Finlayson, Calgary, 95 from 22.

In Saturday's shooting the Canadian handicap scores were: Gen-ereux 91 from 26; Girgulis, 83 from 23; George Blanchett, 94 from 21; Finlayson, 89 from 22; H. F. Herron, Calgary, 90 from 22; Mrs. Vera

## Here's John Speaking on SHORT SPORT

If you are looking for a reason behind this morning's incoherence, you can find it simply by looking at the four pictures opposite this column.

Now do you know why I am babbling so? If you don't you are either married, engaged, infatuated, 86 years old or fading rapidly. Or possibly you are female. Or a confirmed woman-hater. There are no other reasons that I can think of.

You may ask what four such pictures are doing on a sports page. I am too busy looking at them to explain, even if I knew. But I will yield to my superior's wishes and raise no complaints.

Possibly, though, they are on this page because the four girls shown are finalists in the Midsummer Bonspiel Queen Contest. That is the possibility I prefer. I would rather not think the bosses are seeking to restore lost readership.

* * *

It would be unfair—and very unwise—to attempt to compare the four. All are lovely (stop making understatements, Short. It isn't like you.) lasses, with personalities to match. I will endeavour to describe each without gushing or drooling, but it appears to be a big chore.

* * *

VALERIE DENYER: Youngest of the group, Val is a 17-year-old Grade 12 student at L. V. Rogers High School. She is also the tallest—"almost five-foot-seven"—and the only one of the foursome still going to school.

How her male classmates manage to do any work when she is in the room is a phenomenon I will not delve into because of space limitations.

Sponsored by Nelson Curling Club, Valerie likes to bowl, dance, skate and play the piano, to name only a few of her hobbies. She took piano lessons for six years and dropped them only two years ago. Her ambition, she says, is "to finish grade 13 and go into nursing."

* * *

MURIEL LAUDER: Muriel completed grade 10 before going to work a few years ago. Now 19, she works at North American Life Assurance Company and is sponsored by Silver King Ski Club.

Muriel also likes to dance, with an apparent preference for jiving. She loves music of all kinds and has a personality to match her beauty. Muriel dislikes to have people mispronounce her first name and disclaims any relationship with her namesake — Sir Harry Lauder.

Muriel spends most of her evenings—now at any rate—preparing posters which she hopes to display "all over the place." The "girl-next-door" type, Muriel is exceptionally friendly and has a good word for everyone.

* * *

HILDA ABFALTER — Only blonde of the group, Hilda is also by all odds the most rabid hockey fan. Recently named secretary of the Nelson Maple Leaf Booster Club, Hilda passed her grade 11 examinations a few years back, and now works for T. D. Rosling and Son, Ltd.

Standing 5'5¼" in height, Hilda is of German descent, and was born in Vancouver. She moved to Premier Mines, she said, at the age of two months and stayed there until seven years when she came tho Nelson. She is sponsored by CPR Brotherhood Unions.

Hilda, the eldest of the group at 20, also likes to ski, bowl, play badminton and do needle-work. I can see where it is going to be a pleasure working with the Booster Club next winter.

* * *

BARBARA McCANDLISH — Barbara is one of two in the group born outside B.C. She was born in Edmonton 19 years ago, and came to Nelson in December of 1951, from Red Deer, Alta. A stenographer in the Veteran's Land Act office, Barbara completed Grade 12 in Nelson Senior High School two years ago.

She was also Minister of Social Affairs at Nelson High, which attests to her popularity with teachers and school-mates. She is sponsored by the Lumberman's Woodworkers' union.

Bob, her younger brother, calls her "Queenie" because she has done so well in the contest. "She doesn't get mad," Bob says. Which proves, I think, that she has excellent self-control. Or maybe she's as excited as the rest about the contest, which starts when the tickets are released today.

DOESN'T HELP . . .

# Rookie First-Baseman Bangs Homer, Double and Single

By The Associated Press

Bill White busted into major league baseball with a bang and whacked a home run, a double and a single in his first game with New York Giants, but it wasn't enough to overcome a rather fantastic sixth inning that gave St. Louis Cardinals a 6-3 victory Monday night.

The triumph boosted the Cards into a second place tie with idle Cincinnati and by way of some mathematical gymnastics a half game ahead of first place Milwaukee, which knocked off Brooklyn 3-1 in the only other National League game scheduled.

Only two games were played in the American, too, with Boston beating Cleveland 5-1 behind Tom Brewer's four-hitter and Baltimore edging Detroit 4-3 on Hal Smith's bases-loaded single in the ninth. Wet grounds postponed Kansas City at Washington. New York and Chicago weren't scheduled.

White, called up Monday from Minneapolis of the American Association in exchange for Gail Harris in a first base switch, became the 26th player to hit a homer in his first major league at-bat. It was a solo job off righthander Ben Flowers. White's double, in his second time up, just missed being a homer.

The Cards, now tied with Cincinnati at 11-6 and 53 percentage points behind 7-3 Milwaukee, overcame a 3-1 New York lead in a five-run sixth. They did it with three singles, two of them bunts, three walks, a wild pitch, a hit batsman and a sacrifice fly against starter-loser Windy McCall and reliefers Hoyt Wilhelm and Marv Grissom.

BUHL DUMPS DODGERS

Righthander Bob Buhl, with the help of two doubleplays, turned back the Dodgers on six hits as the sun showed up in Milwaukee for a change. Del Crandall drove in two runs and Hank Aaron homered for the Braves, who had been idled by seven rainouts in 10 days. Carl Erskine was the loser.

Cleveland only had two hits in eight innings off Brewer, who issued two of his three walks in the ninth when the Tribe scored its run on Al Smith's sacrifice fly. Brewer, who fanned nine in his third victory, had plenty of support as the Red Sox nailed Mike Garcia for 11 hits and four runs in the first five frames. Dick Gernert and Norm Zauchin homered for Boston.

Reliefer George Zuverink's second pitch ended Detroit's ninth-inning rally as Harvey Kuenn hit into a doubleplay, after Frank House's pinch-single tied the score off Baltimore starter Bill Wight. Al Aber, in relief of Virgil Trucks, was the loser. He loaded the bases with three walks before Smith broke it up to hoist the Orioles into sixth place.

## Baseball Standings

By The Canadian Press

| Chicago | 4 | 10 | .286 | 5½ |

(Games behind figured from Cincinnati and St. Louis, the won-lost leaders).

## End Tip Logan Quits Football

TORONTO (CP) — Tip Logan of Hamilton Tiger-Cats, a field goal and convert kicking specialist who became known as the "automatic toe" of the Big Four Football Union, has retired from football, it was reported here Monday night.

The 28-year-old Logan, with the Tiger-Cats five seasons after playing with Queen's University, is giving up the game for a career as an insurance salesman.

The news of his retirement came as it was reported that Hamilton and Toronto Argonauts had virtually completed a trade in which Logan would come to the Argos in exchange for flying wing Ken Foster, suspended near the end last season in a dispute with Argo coach Bill Swiacki.

An insurance regulation which prohibits a salesman from playing in professional sports killed the deal.

Logan, an end, led the Big Four in scoring in 1951 with 51 points. He was second in 1952 with 57. Last season, handicapped with a foot injury, he counted only 30 points for 12th place.

He is in third place in the Big Four's all-time scoring list with 254 points, topped only by Virgil Wagner's 398 for Montreal Alouettes and Joe Krol's 291 for Argonauts.

## To Dispose of Three Negroes

NEW YORK (AP) — The assistant minor league farm director of New York Giants said Monday three Negro baseball players had to be dumped by the Lake Charles La., club because the Evangeline League found them "undesirable."

Five Negroes—three with Lake Charles and two with Lafayette, La., were cut from the rosters of the class C league Saturday night, easing a segregation problem that threatened to wreck the circuit.

Ray Mullins, president of the league, said the segregation question had nothing to do with the shifts. He said the two Lafayette players, Sam Drake and Manuel Tradous, had received promotions. Lake Charles dropped three players, Mullins said, because they weren't good enough.

The Lake Charles players were Felipe Alou of the Dominican Republic, Ralph Crosby of New York and Charles Weatherspoon of Pineland, Texas.

## AGING ARCHIE TO ABDICATE

LONDON (AP) — World light heavyweight champion Archie Moore said Monday he will give up his title if he whips Yolande Pompey here June 5, and concentrate on winning the vacant world heavyweight title.

Moore arrived in London from New York to begin training for his twice-postponed title defence at Harringay Arena against Pompey, who hails from Trinidad.

The true age of the overstuffed light-heavyweight—called a cruiser weight in Britain—finally was established, but his current weight remained a mystery.

Moore, who has claimed a dozen different birth dates in his long career, is 39—born Dec. 13, 1916. He had to tell the truth to get his passport.

As for his weight, Archie appeared to be a 210-pounder if he weighed an ounce. But he only said, "The last time I weighed myself, I was 190 pounds."

He added he couldn't remember when he weighed last.

## Leafs Schedule Practice Today

Frank Hufty, manager of Nelson Maple Leafs, announced Monday that Joe Postnikoff, Lee Hyssop, Swede Larsen, Marsh Severyn, Jim Todd, Les Hufty, Bob McNabb, Bob Koehle, Lorne Bay, Leonard Bay, Bernie Clarkson, Frank Hufty Jr. and Don McKinnon will turn out tonight for a scheduled baseball practice at Civic Centre Recreation Field.

Hufty, Sr., will be in Trail Wednesday to discuss the possibility of entering a league with Colville Air Force Base, Fruitvale, Trail and Rossland.

PHONE 1844 FOR CLASSIFIED

## Grocutt Returning President of Crow's Nest Football League

FERNIE, B.C.—James Grocutt, of Michel was re-elected president of the Crows Nest Pass Football League at that organization's annual meeting held in Michel Saturday. Dave Howells of Lethbridge was elected first vice-president. The second vice-president is Walter Barber, Kimberley. Roger Pasiaud, of Michel agreed to continue as secretary treasurer until the semi-annual meeting in July. Each club will name two members to the executive. All last year's clubs, Lethbridge Leion, Lethbridge ANAF, Michel, Fernie and Kimberley, were represented.

James White and Joe Sherbo attended the meeting as representatives of the recently formed soccer club at Cranbrook. Their club was willing to enter the league but would prefer limited participation during its first season by playing home and home games against Fernie, Kimberley and Michel, and foregoing the long trips to play the two Lethbridge clubs. The meeting passed a motion that Cranbrook's entry be accepted but the club would have to accept full schedule of games. Mr. White and Mr. Sherbo told the meeting that they would have to report to their club but assured the meeting they felt Cranbrook would enter the league.

League play will commence on May 20, with Lethbridge ANAF at Kimberley. The following day the Lethbridge club will play at Cranbrook. Other clubs swing into action the weekend of May 26.

In his annual report president Grocutt stated that mainly due to adverse weather, attendance throughout the league was down. Fernie United won the league trophy, the Central Cup went to Lethbridge Legion and the Crahan Cup to Kimberley Canadians. The All-Star game between the rest of the league vs Fernie United, 1954 League winners, was won by the United, 3-1.

It was reported that there was a balance of $33.19 in the league treasury. As no financial statement had been prepared the meeting passed a motion that such statement be drawn up, a copy forwarded to all clubs and action on the statement taken at the July meeting.

## Bolt, Gene Littler Pace Yanks To Early Lead Over Canadians

By HAROLD V. RATLIFF

FORTH WORTH, Tex. (AP) — Tommy Bolt and Gene Littler led the United States to a 5½-3½ victory over Canada Monday in four-ball play opening the fifth annual international team golf matches.

Bolt and Littler walked over Bill Mahhinney of Vancouver and Murray Tucker of Toronto 6 and 5 with a best ball of 61 to score three points for the U.S. Mawhinney, 27-year-old former Canadian amateur champion, and Tucker won only two holes.

Doug Ford and Ted Kroll beat Bill Kerr, a Montrealer playing in his fifth international tournament, and Stan Leonard of Lachute, Que. one-up and got 2½ points to ½ point. Kroll and Ford had a best ball of 66, Kerr and Leonard 67.

Al Balding, 32 - year - old 1955 Canadian Professional Golf Association champion and captain of the Canadian team, worked with Gordon Brydson and they were too much for Mike Souchak and Cary Middlecoff of the United States in the third match. The pair both from Toronto, took the full three points in winning 5 and 4. The Canadians posted a best ball 64 compared to 68 for Souchak and Middlecoff.

After the first nine holes the teams were tied with 1½ points each. Under the scoring system of the four-ball matches each team got one point for winning the first nine holes, one for the second, and another if they won the match.

## Winnipeg Grain

WINNIPEG (CP) — Winnipeg grain cash prices :

Oats, No. 1 feed, 79.

Barley, No. 1 feed, 1.19½.

## Calgary Livestock

CALGARY (CP)—Trading was active and prices generally steady on the livestock market Monday. On offer were 930 cattle and 20 calves, bulk of the cattle medium to near-choice butcher steers and heifers, the remainder mostly cows of medium quality.

Good to choice butcher steers were steady with last week's strong close, grade and quality considered.

One load of hogs sold Friday at 15.70 liveweight for eastern shipment; balance unsold, buyers bidding 20 A grade; sows 11.

Choice butcher steers 17-17.50; good 16-16.75; medium 15-16; common 13-14.50; choice butcher heifers 15.75-16.25; good 14.50-15.50; medium 13-14; common 11-12.50; good cows 11.50-12.50; medium 10.75-11.25; common 9.50-10.50.

Canners and cutters 6-9; good bulls 12-12.50; common to medium 9-11.50; good feeder steers 15.50-16.50; good stock steers 15.50-16.75; common to medium 13-15; good to choive veal calves 19-22; common to medium 13-18.

Britain's ship-building and ship-repair industries had 205,000 employees at the end of 1954.

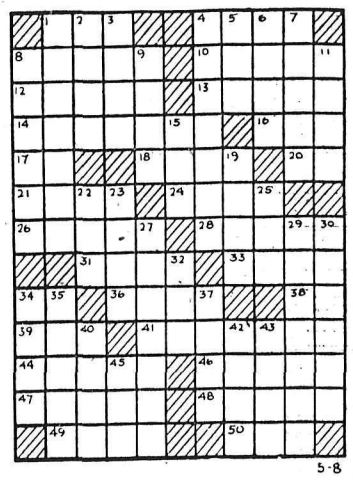
Yesterday's Answer



5-8

**DAILY CRYPTOQUOTE — Here's how to work it:**

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints Each day the code letters are different.

**A Cryptogram Quotation**

PHJX, ZDM GPXCKG MLN IXCNG CZCI, GDCKK G-PXCK MLN EKXCG-LNXG PMM—JMMNX.

Yesterday's Cryptoquote: THE HUNGRY SHEEP LOOK UP, AND ARE NOT FED—MILTON.

## Authorize PGE To Borrow $9,200,000

VICTORIA (CP) — B.C. cabinet Monday authorized the Pacific Great Eastern Railway to Borrow $9,200,000.

The funds will be used to pay outstanding notes, and to enable construction of portions of the northern and southern extensions. The PGE has legislative authority to borrow up to $60,000,000 and had obtained cabinet authorization to borrow $22,878,757.

The new authorization brings the total authorized to $31,987,757.

## Red Cross Will Take Part in United Appeals

TORONTO (CP) — The Canadian Red Cross Society Monday announced it will permit its branches to join in joint fund-raising appeals under certain conditions.

The society said branches may join in united campaigns only on an equitable basis, with the campaign carried out in the names of the Canadian Red Cross Society and other organizations involved.

The Red Cross would remain autonomous and would retain control of its own budget and campaign objective. It would retain the right to conduct emergency campaigns and the annual month-long appeal for support in March. Each person donating to the united appeal, out of which contribution the Red Cross received $1 or more, would receive Red Cross membership.

Leslie G. Mills, chairman of the society's central council, announced the new policy at a press conference. He said: "It must be appreciated that the Canadian Red Cross has 1223 branches from Newfoundland to British Columbia. The majority of these are in areas where, so far, there has been no suggestion of a joint appeal, and where indeed it would be difficult to envisage one . . ."

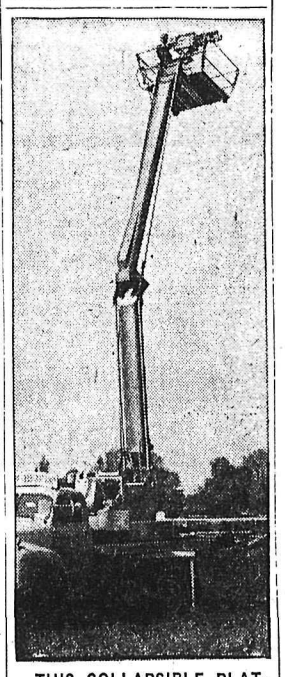
## Okanagan Pioneer Honored by Marker

PENTICTON, B.C. (CP) — A marker was unveiled Sunday at nearby Windsor subdivision in emory of Tom Ellis, known as "Father of Penticton" and "Cattle King of British Columbia."

The marker stands on the original site of the Ellis homestead, carved out of the bush by Mr. Ellis when he came here from Ireland in 1866.

His cattle ranch grew to cover thousands of acres between Penticton and the International border.

His daughter, Kathleen Ellis, unveiled the marker bearing the inscription: "Ellis Homested. On this land in 1866 Tom Ellis, the first white settler in Penticton, built his ranch house. Here, helped and encouraged by his wife Wilhelmina, he raised his family, planted the first fruit trees in Penticton, and established his famous cattle ranch . . ."



THIS COLLAPSIBLE PLATFORM is being used in Britain to enable television cameramen to cover horse-racing events. It's called a crow's nest and is mounted on a truck.

## Narrow Escape For Richmond Man

RICHMOND, B.C. (CP) — A Richmond man had a narrow escape from being killed Sunday when a stray .22-calibre bullet lodged in his head without causing serious injury.

RCMP said Orron Neil Hamilton was on the foreshore in Steveston at the time.

He was facing in the direction from which the bullet came, they said, because it hit him near the ear, and embedded itself just under the skin. He was treated in hospital, but not detained.

Police have not traced the person who fired the shot.

## Pink Goose Spotted

EDMONTON (CP) — Persons seeing pink or green geese need not doubt their eyesight, says R. A. Lister, Department of Zoology, University of Alberta.

The birds have been dyed with rhodamine "B" by California scientists to trace their migration to breeding grounds. The chemical spray will remain on the birds until moulting occurs in September.

The first pink goose was spotted at Beaver Hill, Alta., April 22.

Three more were reported Monday by an Edmonton woman who thought she had seen swans.

No reports of sighting green geese have yet been received.

## Dragged From Appeal Court

VANCOUVER (CP) — Marcel Frenette, 28, of Montreal, was dragged kicking and shouting from British Columbia Court of Appeal Monday after his plea against a 20-year attempted murder sentence was rejected.

Four RCMP officers struggled with him as he attempted to address the Court after his appeal and those of four others were thrown out.

Convicted with Frenette in the beating last June of Thomas Kinna were Charles A. Talbot, 36; Lucien Mayers, 49; James Malgren, 28; and Robert Remblay, 33. All but Talbot are from Montreal and all were sentenced to 20 years.

Frenette was the only one to appear in appeal court. As Mr. Justice Sidney Smith rejected the appeals, Frenette asked if he could speak.

When the judge said he could not, the prisoner stepped forward and called:

"This is not a court. It's a Kangaroo court. This is a frameup from beginning to end."

He was still struggling as RCMP dragged him from the room.

Mr. Justice Smith directed that Malgren's 20-year term be made concurrent with the unexpired portion of the 10-year sentence he is serving on a narcotics charge.

## POPULAR COAST LINER SOLD TO JAPANESE

VANCOUVER (CP) — The three-funnelled passenger liner Prince Rupert, built for the old Grand Trunk Railway 46 years ago, has been turned over to Japanese buyers.

Sale of the well-known vessel which provided service as a Canadian National steamship between Vancouver and Prince Rupert until 1954 was negotiated by Empire Shipping Company Ltd. for unnamed Japanese agents on a "sight unseen" basis.

The steamer has been lying idle since September, 1954. A stipulation of the sale is that she is not to operate in any Canadian waters.

The Prince Rupert was built at Wallsend-on-Tyne, England, in 1910. She is 307 feet long by 42.2 feet beam, with gross tonnage of 3379. Her sister ship, the Prince George, was destroyed by fire at Ketchikan, Alaska, in 1945.

DEEP SUBWAY

At 5425 feet underground a small railway carries workers more than two miles to working stations in the Creighton mine near Sudbury.

## Well-Known Calgary Businessman Dies

CALGARY (CP) — Eneas McCormick, 80, former alderman and associated director of the Calgary Stampede, died in hospital here during the weekend. He was a partner in a leather goods store noted for its fine saddle making.

It was his store which fitted the Prince of Wales, now the Duke of Windsor, with a cowboy outfit when he bought his ranch in the 1930s.

He was born at Deer Park, Glen Arm, County Antrim, Ireland and came to Canada when he was about 12.

He was the last living member of this city's original Knights of Columbus.

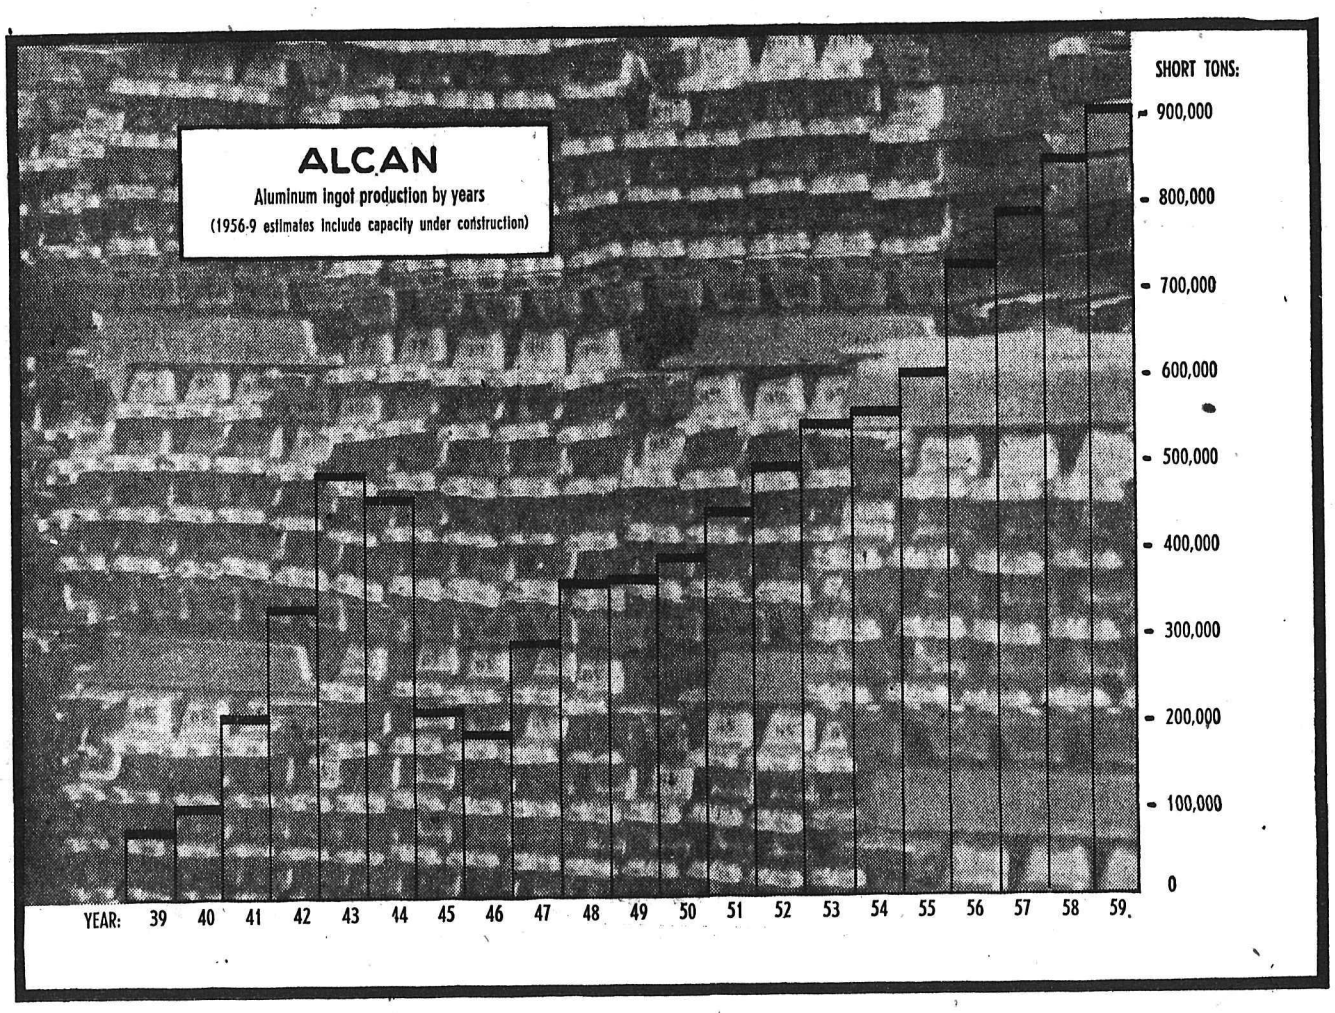
CANADIAN ALUMINUM

1955 capacity to be expanded 50% by 1959

EXPANSION PROGRAMME LARGEST IN THE INDUSTRY



Its matchless combination of qualities — lightness, durability, strength, appearance — has made aluminum second only to steel in world markets. New uses — for both civilian and defence purposes — keep increasing the relentless demand. The world demand for aluminum is presently in excess of supply and the immediate prospect is that, like other basic materials, aluminum will be a scarce metal during the months ahead. Despite continuing expansion of producing facilities, as shown in the chart above, the fact is that the demands go up at a rate faster than new production can be pushed to completion at Isle Maligne in Quebec and Kitimat in British Columbia.

Steady increase in productive capacity has been accompanied by a corresponding increase in employment and payroll. Today in Canada there are 20,500 Alcan employees.

The payroll at the rate of $70,000,000 a year contributes to all phases of Canada's standard of living.
