Canada To Fly Home Unhappy Hungarians

Unable to Find Work, 22 May Leave Montreal Sept. 24 for Vienna by Air

OTTAWA (CP)—The Canadian government has decided to fly back to Europe dissatisfied Hungarian immigrants who have found language difficulties and the resulting difficulty of finding employment insuperable barriers to adjustment in Canada, it was learned today.

The actual number of such cases that have reached the immigration department's attention was said to be 22, and they have been tentatively scheduled to leave for Vienna by Maritime Central Airways aircraft scheduled to leave Montreal Sept. 24. They would go from Vienna to the Hungarian frontier — a distance of about 45 miles—by bus.

The Canadian government is making the space available free on aircraft flying otherwise empty from Canada to Vienna to pick up Hungarians there desiring to move to Canada.

The government demands that each returning Hungarian possess a permit, guaranteeing his admission to Hungary and a transit visa from the Austrian government recognizing that such travellers are in transit from Vienna airport to the frontier.

About 33,000 Hungarians have immigrated to Canada since uprisings in that country last November. Although the Polish legation office here handling Hungary's affairs in Canada say about 800 Hungarians want to return home, the Canadian immigration department said the number reaching its attention is small.

So Much for That!

KAMLOOPS (CP) — Good luck on opening day of the hunting season was just too much for a golden cocker spaniel.

The dog, in his third year of retrieving and usually reliable rebelled when he had to carry a large golden eye duck, after retrieving several birds for the party.

The dog, Jeff, was fetching the bird to his owner, A. S. (Art) Wain, when he spotted a shallow hole. Jeff stopped, considered the hole for a moment, dug it a little deeper and popped in the duck.

He covered it as if it had been a bone, put away for safekeeping.

He walked away from the buried duck with a bearing of satisfaction as if a problem had been happily settled, reports Mr. Wain.

Martial Law For Thailand

BANGKOK, Thailand, (Tuesday) (AP) — A bloodless military coup placed Thailand under martial law today.

Thailand's pro-Western premier, P. Pibulsonggram, *vanished and* there was speculation he was in hiding.

Martial Sarit Thanarat, the army commander in chief, sent out tanks and troops after failing through political efforts to unseat Pibulsonggram.

Another potential target was Gen. Phoa Sriyanond, commander of Thailand's 40,000-man general police force, who resisted Sarit's efforts to take over the police.

The army radio appealed to the premier and Gen. Phoa to present themselves at army headquarters.

Tanks ringed Bangkok. They rumbled out Monday night to occupy strategic intersections.

The army's station, broadcasting at five-minute intervals, announced army, navy, and air force units had moved according to plan *to prevent disorders.*

CLARENCE E. WATSON, U.S. Army Specialist 2/c, stationed in Furth, Germany, puts his head into the mouth of a pet lion, top, to prove that the well-trained beast is harmless. At bottom, he treats it like a kitten. The animal was four months old when given to the soldiers by Watson's aunt, Mrs. Vernie Davis. The 14-month-old lion loves to ride in jeeps and has been featured in two army parades since its arrival in Germany.

NATO Support Seen In Adenauer Mandate

Russia Hurls Storm Trooper Charges; Says Election Won by Deceptions

By HERB ALTSCHULL

BONN (AP)—Chancellor Konrad Adenauer, a bigger kingpin in Europe as a result of his thumping victory Sunday in West German elections, made plain Monday he is in no mood to cater to Russia.

"West Germany's foreign policy will be a safe foundation for the policies of NATO," he told reporters after learning he received the greatest popular vote ever achieved by a German leader in a free election.

"Germany will be able to give all its political and moral weight to this policy," Adenauer said.

The West European press welcomed Sunday's results as a vote of German confidence in NATO.

East Germany's commentators bitterly assailed "Hitler storm trooper" tactics, to which it attributed the Adenauer victory. Tass, the Soviet news agency, said he won by deceptions and the the financial and political support of the United States and German *monopolists.*

OLLENHAUER TO QUIT

There were rumors that gloomy Erich Ollenhauer might step down from leadership of the Social Democratic party, the chief opposition. His party attributed defeat to the United States, Roman Catholic priests, and heavy campaign contributions from big business and unwanted Soviet support.

Adenauer, who in four months will be 82, did not stay up to hear the final returns. Smiling and joking, he rode slowly to his office Monday between jubilant crowds that pressed against his car, and told reporters waiting for him the election strengthened "the forces seeking world peace."

His aims, he said, "are a controlled disarmament, a relaxation of international tension, reunification of Germany and genuine peace for all nations."

The newly - elected Bundestag (lower house) meets in Berlin on Oct. 15. Adenauer likely will make few if any changes in his present cabinet. His Christian Democrats probably will take the small German party into coalition again, though they have an absolute majority without them.

WONDER WHO'S NEXT

But jubilant as were Adenauer's followers, there was some concern at who may be his successor. At the end of his new four-year term, he will be almost 86 years old.

The most likely choices would be Ludwig Erhard, 60, economics minister, and Franz Josef Strauss, bluff defence minister. Brentano, 53, and Vice-Chancellor Foreign Minister Heinrich von Franz Bluecher are other possible choices.

From the record outpouring of 31,000,000 votes—88 per cent of all qualified voters —. Adenauer's Christian Democrats received 14,998,754, or 50.2 per cent of the valid ballots, seven per cent higher than in 1953. Hitler's Nazis in a free vote in 1933 got only 44.1 per cent.

Commonwealth Trade Meet To Be Considered

By HAROLD MORRISON
Canadian Press Staff Writer

OTTAWA (CP) — Picture a huge $1,000,000,000-a-year market for Canadian goods around the world and you will get an inkling of the importance of the Commonwealth to Canadian prosperity.

That is one reason Prime Minister Diefenbaker wants to expand Commonwealth trade. His proposals for a full-scale conference among the 11 partners will be considered by a meeting of Commonwealth finance ministers at Mont Tremblant, Que., starting Sept. 28.

Wheat and copper, newsprint and tobacco, lumber and fish and many other basic products find their way into Commonwealth markets.

Linked by sentiment, the Crown and a system of preferred tariffs, the network holds some 650,000,000 customers, about quadruple that of the United States.

Canadians To Back Hoffa

WINDSOR, Ont. (CP) — Canadian locals of the teamsters union will support James R. Hoffa for president but will also press for a Canadian vice - president, I. M. Casey Dodds, Canadian director of the central division, said Monday night.

Mr. Dodds said he has not heard from locals in British Columbia, but locals in Alberta, Saskatchewan, Manitoba, the Lakehead, Ontario, Quebec, Newfoundland and Nova Scotia had backed Hoffa and himself as a Canadian vice-president in endorsing a general resolution to be presented by Canadian delegates to the teamsters convention in Miami, Fla., Sept. 30.

The Canadian delegation of about 40 representing 35,00 union members, will ask for four additional vice - presidents in the union with Mr. Dodds named as the Canadian, he said.

They would also ask the union remain in the merged AFL-CIO "as long as possible," providing it retained "the principles of autonomy of electing our own people," he said.

Dental Faculty Urged at UBC

VANCOUVER (CP) — Immediate establishment of a faculty of dentistry at UBC is urged by the CCF provincial council.

A resolution calling for the faculty was forwarded by Premier Bennett after being endorsed by 30 delegates from throughout B.C. meeting here during the weekend.

The council also endorsed the Murdochville strike in Quebec, against Gaspe Copper Mines. The resolution deplored "the use of goon squads by the company and the killing and wounding of innocent working men, who are striving for rights obtained by organized labor in all other parts of Canada."

Douglas Stout of New Westminster was appointed head of a committee to plan celebration of the 25th anniversary of the CCF's founding. Celebrations are planned for the first week in December.

Issues Injunction Against Kasper

NASHVILLE, Tenn. (AP) — Judge William E. Miller Monday issued an injunction barring John Kasper and nine other persons from interfering with integration of schools.

The order also applies to any who might attempt to disrupt six elementary schools where 15 Negroes were admitted to first-grade classes Sept. 9 amid pro-segregation demonstrations.

The injunction replaces a restraining order the judge issued against 12 persons last Thursday at the request of city authorities.

They requested the order after the Hattie Cotton school was dynamited early Tuesday and many teachers, parents and students at the six integrated schools reported threats if the children remained in school.

Ten of the 12 persons listed in the petition were in the courtroom. Kasper awaits trial on an indictment for inciting to riot.

12 Injured in Mill Explosion

OAKLAND, Calif. (AP) — A roaring explosion wrecked the top floor of the big Albert's Milling Company plant here Monday, it burst into flames.

More than 12 workers were injured and 14 others were reported trapped in the building.

Extra ambulances were called in from army, navy and coast guard bases.

The blast threw large chunks of concrete into the air, some landing more than 100 feet from the building.

All available city fire equipment in the area was called to the scene. A dozen ambulances from the military services soon assembled on the outskirts of the fiercely burning building.

Steacy Appointment Criticized

PENTICTON (CP) — Commenting on the appointment of Newton Steacy, Social Credit MLA for North Vancouver, as agriculture minister, Mr. Finlayson remarked in an interview here Monday:

"It is a bit unusual that the premier, who receives wide support from the rural ridings, has chosen for minister of agriculture a member from a city riding who has no intimate knowledge of the problems of agriculture. It would have been perhaps wiser to select a farm member."

PC SUPPORT GROWING —FINLAYSON

PENTICTON (CP) — Progressive Conservative leader Deane Finlayson of B. C. said Monday many people in the province feel the Social Credit Government is doing a good job. But Social Credit is not "permanent" and therefore people are joining the Conservative party "in increasing numbers," he said.

Mr. Finlayson was interviewed in Penticton on his way to address the Similkameen Progressive Conservative Association meeting in Oliver Monday night.

"We feel that Canada is returning *to the two-party system by the* evidence of the support received not only federally but provincially," he said.

DIES AFTER HIT BY CAR

CHILLIWACK (CP) — Eighty-four-year-old Joseph Burke died in hospital from injuries suffered when he was hit by a car Saturday night. RCMP said the accident happened as Burke was crossing in the middle of the block.

They said the car was driven by Cornelius Goertzen of Chilliwack.

TV for Penticton

PENTICTON (CP) — The Penticton television transmitter will begin operation about the end of *this month* on Channel 13, M. P. Finnerty, vice-president of the Okanagan Valley Television Co., Ltd., said Monday.

DOLLAR LOWER

NEW YORK (CP) — The Canadian dollar was 1-16 lower at a premium of 3 13-16 per cent in terms of U.S. funds; a week ago 4 31-32 per cent premium. The pound sterling was 1-16 higher at $2.78 5-16.

Churchill Off to U.K. To Seek Grain Markets

OTTAWA (CP) — Gordon Churchill, Canada's top wheat salesman, took off for Britain and Europe Monday to "regain our fair share of world trade in wheat and flour."

The trade minister, accompanied by W. C. McNamara, assistant chief of the Canadian Wheat Board, will make a tour of principal overseas markets before the opening of two important international conferences that may have a bearing on Canada's wheat-marketing future.

One is the Commonwealth finance ministers' conference at Mont Tremblant, Que., Sept. 28. That meeting which may set the stage for a full-scale Commonwealth trade conference early next year.

He also plans to attend the Canada - United States ministerial talks to deal with protests that the American wheat giveaway program is eating into Canadian markets. The talks are expected to open at Washington Oct. 7.

It is understood Mr. Churchill will try to persuade the Americans to reduce the impact of the giveaway so Canada will be able to export at least 300,000,000 bushels of wheat a year. This is the average of recent years. Last year exports dropped to about 260,000,000.

TO BID FOR SALES

"This mission to Europe is another evidence of the government's determination to increase exports of Canadian grain and flour," Mr. Churchill said before boarding a commercial aircraft for London.

Smelter Workers End Strike

ARVIDA, Que. (CP))— Strikers voted Monday to end a four-month walkout at the Aluminum Company of Canada here in return for a three-year contract, wage increases and a shorter work week.

The vote was taken after the National Metal Trades Federation (CCL) had outlined an agreement it was ready to sign with the company.

Formal signing was to be the signal for a return to work in the giant smelter which employs 6500 in this town 250 miles northeast of Montreal.

PC VETERAN RESIGNS SEAT FOR SMITH

OTTAWA (CP) — A veteran Progressive Conservative member of the Commons has resigned his eastern Ontario seat to give new External Affairs Minister Sidney Smith an avenue of entry to the House.

Prime Minister Diefenbaker Monday announced that George S. White, 59, has resigned as member for Hastings - Frontenac, and Mr. White later said he took this step to open the seat for Mr. Smith.

Mr. Smith, former president of the University of Toronto, became external affairs minister Friday.

Mr. White, 17 years in the Commons, may go to the Senate, though he declined to talk about this when a reporter telephoned him Monday at his home in Madoc, Ont.

New Crackdown on Drinking Drivers

VANCOUVER (CP) — City police have started a new crackdown on drinking drivers.

Every drinking motorist who can be charged, will be charged, Traffic *Superintendent Ralph Booth* said Monday.

Police will also attempt to lay more charges of drunken driving instead of impaired driving. A drunken driving conviction carries a mandatory seven-day jail term.

The new plan was announced following a weekend which saw one motorist charged with drunken driving and eight others, including a juvenile, charged with impaired driving.

SPRY CYCLIST STOPS AT 'PEG

WINNIPEG (CP) — A 74-year-old cyclist from Vancouver stopped over in Winnipeg during the weekend on his 2900-mile bicycle trip from the west coast to Toronto.

Richard E. Smith who left Vancouver in early July, said he has had only one minor mishap since his trip started. On July 15, he hurtled down a steep grade in the Rocky Mountains and then sprawled head first.

He said that was what delayed his arrival in Winnipeg.

Mr. Smith, a retired veteran of two world wars who cycles for a hobby, is waiting for his old-age pension cheque to catch up with him before he leaves Winnipeg.

He is carrying a letter from the Mayor of Fernie, B. C., to the Mayor of Toronto, commending Mr. Smith for his spirit in making the cross-Canada trip.

Board to Hear Dispute at Kitimat

KITIMAT (CP) — The United Steelworkers will present their case first to a three-man conciliation board hearing the dispute between Aluminum Company of Canada and the union.

The union seeks a 30-cent hourly wage boost and fringe benefits. The company is offering 45 cents an hour over three years.

FOUND UNFIT TO STAND TRIAL

NANAIMO (CP) — Leland Miller, 30, was found unfit Monday to stand trial for murder. He was charged with murdering Mrs. Dorothy Duyvejonck, 31, in a house they shared outside Courtenay, B.C., April 2.

An all-male assize court jury took 31 minutes to find the accused insane and unfit to instruct his counsel.

Two psychiatrists including one called by the prosecution, agreed that Miller suffered from delusions. For the defence Dr. Roderick Whitman, psychiatrist at Vancouver General Hospital, considered Miller unfit to stand trial.

WAGES HIT PEAK

OTTAWA (CP) — Average weekly earnings in Canadian industry rose to a new peak to $68.31 at July 1, the bureau of statistics reported Monday. The *figure was $67.82 a month* earlier and $64.56 a year earlier.

VANCOUVER (CP) — The doors of a cathedral are open to anyone —even a thief.

Mrs. William Kirk left her purse containing $22 unattended for two minutes in a pew seat in Holy Rosary Cathedral.

"I went up to kiss the cross and when I returned to my seat the purse was gone," she told police.

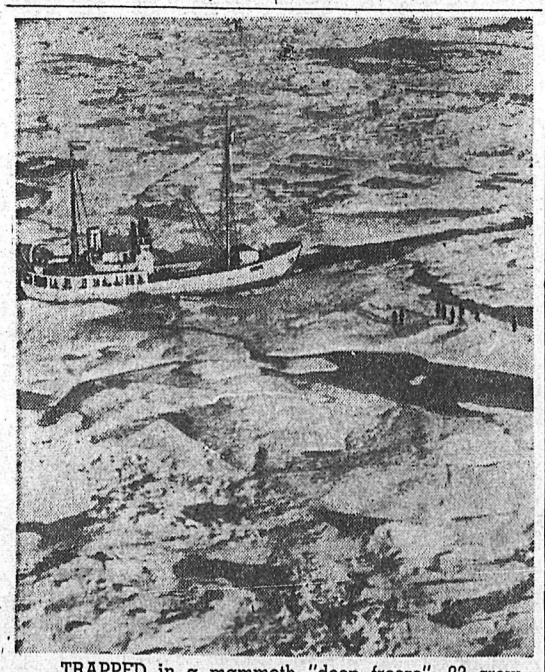
Mica Power Would Boost Okanagan Development, Says Finlayson

OLIVER, B.C. (CP) — Provincial Conservative Leader Deane Finlayson said Monday night that development of the Okanagan Valley will increase tenfold, when low-cost power is available from the Mica Creek dam.

Mr. Finlayson, addressing Similkameen Conservatives at their annual meeting, said:

"The interior is shifting from an agricultural economy to a multiple industry." He said lack of action is holding up development of the Columbia River dam.

SIR WINSTON CHURCHILL, Britain's wartime prime minister, puffs on his customary giant-sized cigar as he arrives at Cap D'Ail, near Nice, France, for a vacation. He is staying at the villa of Lord Beaverbrook and will do a little painting. Appearing in fine shape, Sir Winston said he feels better than he has for five years.



TRAPPED in a mammoth "deep freeze", 23 crew members of the Norwegian supply ship, Polarbjoern, were marooned on the ship for seven days before they were rescued by a U.S. helicopter. The ship was stalled when the wooden hull was crushed by ice off the coast of Greenland. Crew members are shown on an ice floe, right, as they await rescue 'copter which answered their SOS.

12th UN Session Faces Disarmament Question

By LLOYD McDONALD
Canadian Press Staff Writer

UNITED NATIONS, N. Y. (CP) —Delegates mapped strategy at private conferences Monday for the 12th General Assembly of the United Nations opening today.

East - West differences on the Middle East and disarmament are expected to be the key issues.

These two problems call for priority in view of the breakup of the London disarmament talks and the swing of Syria towards the Communist orbit. But there is no comparison with the crisis atmosphere which greeted the opening last fall when the Suez and Hungarian outbreaks exploded into shooting wars.

In the UN buildings, Monday looked like the long summer recess which ended a week ago with the special windup session of the 11th assembly on Hungary. Last week there was one flurry of activity as the Hungarian debate moved toward another condemnatory vote.

Most of the delegations met in working areas throughout New York City.

Only one foreign minister—from the Republic of Ireland—was on hand for the Hungarian debate. *For the 12th's opening today most* major powers are sending ministers to the delegate benches for the opening at least.

State Secretary Dulles of the U. S. arrived during the weekend and conferred with Britain's Foreign Secretary Selwyn Lloyd a few hours after the latter flew in from London. Russia's Andrei Gromyko also arrived during the weekend.

Another arrival was Sidney Smith, Canada's new minister of external affairs, who flew from Ottawa. The successor to L. B. Pearson was sworn in Friday in Ottawa.

And in This Corner . . .

OTTAWA (CP)—During the weekend two food supermarkets were robbed of some $10,000 in cash.

In newspaper advertisements Monday, the stores claimed: "Even robbers know they can do better at IGA."

COLOMBO, Ceylon (AP)—Maxwell Gluck, the millionaire merchant, Monday met the man whose name he couldn't remember.

Gluck was presenting his credentials as the new U.S. ambassador to Prime Minister Solomon Bandaranaike.

A reliable source said there was much joking between the two about Gluck's admission before a Senate committee that he did not know the names of the prime minister of Ceylon.

"You have arrived here with all your fame coming ahead of you," Bandaranaike said.

RICHMOND, B.C. (CP) — Truck driver George A. Hughes dosen't plan to attend any formal functions until after Sept. 23.

He is the victim of thieves who broke into his home and stole $600 worth of clothes from his wardrobe.

Hughes was left with only one pair of old work pants.

The police, however, recovered all the loot and arrested two men, but the case won't be heard until Sept. 23.

The clothes are being held by police as evidence. Hughes will have to wait for his clothes.

KANSAS CITY (AP)—Cleo, an expectant hippopotamus, was guest of honor Sunday at one of the biggest baby showers ever held in these parts.

Between 4000 and 5000, most of them children, gathered at the Swope Park Zoo.

Cleo waddled out of her pool and watched the opening of gifts —apples, carrots, cabbage and 21 bales of hay with red and white ribbons on each bale.

Baby bottles were the five-gallon size, with a one-gallon size for "night feedings."

Mill Saved From Blaze

Volunteers and B.C. Forest Service men worked from about 8:30 Sunday night to early Monday morning to save a mill belonging to H. R. Smith of Blewett, situated on the road to Forty-Nine Creek. Forestry officials said some slab wood was lost, and did not know the cause Monday night.

The mill, about five miles from the main highway, was said to be in a run-down condition. The fire was outdoors. Nearby houses were endangered, and neighbors turned out to help fight the blaze.

Seeks Help in Finding Man

L. R. Bruce of Royalties, Alberta, has asked City Police Chief Robert Harshaw for help in locating an old friend and old timer in Nelson, William Holmes, who left Alberta for Nelson in 1911.

Mr. Bruce was here about three weeks ago trying to find his friend. He inquired at the Nelson Hostel for Aged Men, but with no success.

Mr. Bruce believes his friend worked for the town and bought a little place with some fruit trees there. He was married and his wife was crippled some way, Mr. Bruce stated.

COMPLAINS OF DUST CONDITIONS

TRAIL — A citizen attended city council meeting Monday to complain of dust conditions and to inquire if there was any dust control method employed.

Alderman F. E. DeVito felt the gas pipeline crews had not tackled problems of clean-up in this area as quickly as they had torn things up. "I think they are remiss inasmuch as they leave quite a bit of debris lying around."

Alderman J. L. Crowe said a truck had come along Third Avenue and cleaned up and had followed with the sprinkling wagon.

"Perhaps you are at the end of the line and they will get around to you eventually," Mayor L. A. Read said.

"Yes, it usually is that way," the citizen replied as he walked out in disgust.

A draft of a bond was received from the minister of health and welfare to be executed by the city of Trail to provide for the waiving of the provincial government's share of the sale price of the old hospital site.

Dr. Speake Presents Fascinating Display

The first performance of Dr. George Speake and his "Sermons for Science" drew about 300 to L. V. Rogers High School Monday night.

The program which was the first of a five-night series continuing all week featured on-the-stage scientific demonstrations in chemicals, light, electricity and sound. Startling, entertaining, educational and carried with it a practical religious significance, it held the attention of the audience from start to finish. Man-made lightning, unexepected explosions and fascinating colorful illustrations were featured.

Dr. Speake represents the Moody Institute of Science in California.

Monday night's show revealed secrets of the color spectrum and the use of ultra violet rays in bringing things to life which cannot ordinary be seen. Dr. Speake also demonstrated the use of light frequencies in sending messages on a beam of light which is used as a security method communicating between ships in the navy.

He sent music on a visible beam which was reproduced through amplifiers, he also shone a flashlight through holes in a spinning disc producing different notes resembling a bugle call.

The program was introduced by Rev. J. N. Allan, president of the Nelson Ministerial Association. Mayor Joseph Kary also gave a brief welcome speech. It was pointed out that highways minister P. A. Gaglardi was primarily responsible for making this scientific laboratory known to the Nelson Ministerial Association.

"The program will be entirely different each evening," Dr. Speake explained.

Tonight's performance utilizing $20,000 worth of scientific gadgets is to include metal floating in space, straight lines which appear to bend, chemical demonstrations with uncanny changing of color, also an ordinary-looking suitcase which will oppose the will of audience participants, and many other unique demonstrations.

Dr. Speake operates the auditorium lights, a movie projector and automatic screen and most of his equipment from a small telephone-type dial that he carries with him.

Odds... and Ends ... by M.D.B.

A trip to Vancouver is never complete without a visit to Stanley Park. This year there was the added attraction of the new aquarium. For the modest sum of 25 cents you can see many of the interesting sea creatures, although I must admit, one look at some of them and you wonder if you really want to go swimming in the sea.

* * *

The day I was there they had just added a couple of giant turtles They were immense. If you were to clasp your fingers in front of you and make a big circle with you arms you'd have some idea of the circumference of their shells. There were all kinds of mean looking fish, but the huge starfish edging its way up the glass by means of millions of suction cups, was one of the most fascinating.

* * *

They had about twelve legs or points and were beautiful shades of mauve and coral. The sea anemones like exotic flowers were lovely to look at, but the ray fish gave me the creeps. It is a flat delta-shaped thing with a queer looking mouth on its under side flanked by a row of breathing holes that seemed to open and close and on the upper side were two mean looking little eyes. It went flapping along like a wet rag—slither and slip, and looked like something you'd encounter in a nightmare.. There were also two or three small crocodiles.

* * *

It is really a wonderful place and I have mentioned only a few of the lovely and interesting displays of inhabitants of the watery element.

* * *

Leaving the aquarium I had the joy of having a peacock eat peanuts right out of my hand. I had been pleased enough when the pigeons did so, but to have that magnificent bird deign to pick them off my palm made me all but burst with pride.

* * *

The baby seals were comical to watch as they rolled over and over in the water or tried to boost their little fat selves onto the rocks. The largest seal acted like an overgrown schoolboy, scooting around the pool and coming up blowing and puffing only to dive back down for a repeat performance.

* * *

All you had to do anywhere in the park was to drop a peanut and a flock of saucy sparrows would drop down to fight over it and snap it up. They even managed to beat the pigeons to them occasionally.

* * *

I made a second visit to the park one evening just at sundown. I did not stay long for dark falls swiftly among the trees. At the entrance I found two fishermen dangling their lines into the harbor. One caught a small crab. The other, a young boy, told me you could often catch cod there.

* * *

Lost lagoon was bathed in gold while encircling trees cut black ragged points into the sunset. They sent trembling shadows across the surface and gilded ducks headed golden arrows as they made for their homes among the reeds. In the east a sunburnt moon loomed large on the horizon, rising from a bed of haze. So much for Stanley park that continues to charm resident and visitor, ministering to a city's need for recreation.

Handicapped Society Annual Meeting Tonight

Reports of what has been done in the past, what is now being done, and news about important developments expected in the near future will be given at the annual meeting tonight in the Eagles Hall of the Nelson branch, Kootenay Society for Handicapped Children. Election of officers and other annual business will also be transacted.

NELSON MAN'S MOTHER DIES

A Nelson resident for 15 years, Mrs. Harry Logan died at the age of 87 at a rest home in Vernon. While in Nelson she and her family made their home at 519 Cedar Street prior to her moving to Kimberley in 1934. While here she was a member of the Pythian Sisters.

Mrs. Logan was born at Fall River, N.S., and came with her husband to New Denver in 1913 where she took active part in community, playing the church organ and teaching Sunday school. The family moved to Nelson in 1919.

Her husband predeceased her in 1948 at Kimberley where she continued to reside until entering the nursing home several months ago. She is survived by two sons, Herbert of Nelson and George of Vancouver and a daughter, Mrs. A. Muddyman of Kimberley, six grandchildren, one great grandchild and a sister, Miss Alma Taylor of Stewiacke, N.S. Funeral services were held at Kimberley.

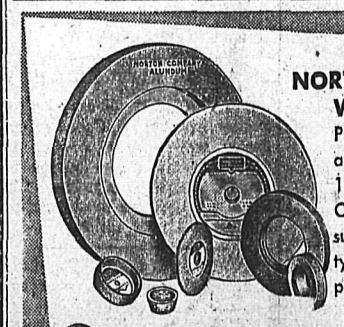
Nelson, Cranbrook To See Musical Ride

The world famous Royal Canadian Mounted Police musical ride and band will appear in two Kootenay centres—Cranbrook and Nelson—during British Columbia's centennial year in 1958.

Dates have been announced by Attorney-General Robert Bonner.

The ride and the band will not always appear together. The combined ride and band will appear at Cranbrook on July 23 and in Nelson on July 25.

The band only will appear at Fernie and Kimberley on July 22; Trail July 26 and Grand Forks July 27.



NORTON GRINDING WHEELS and Abrasive Products for all industrial applications. Each of the 16 F-M branches across Canada is a complete supply centre for all types of industrial supplies and equipment.

Capt. H. Hincks, Formerly Here, Dies at Coast

Capt. Henry Hincks, O.B.E., formerly of the Lardeau, Crawford Bay and Nelson, died Saturday in Shaughnessy Hospital at Vancouver.

A veteran of the First World War, he was born in England and settled in the Lardeau at Howser in 1907 and ranched there. He married in 1927 to Nancy Trail. An invalid for many years, she predeceased him about six months ago.

Later he moved to Crawford of years. He was well known throughout the Kootenay Lake Bay, living there at Commander Harrison's ranch for a number

The family moved to Nelson bird hunter.
area. He was a keen fisherman and from Crawford Bay about 15 years ago, living here 10 years. They lived on Kokanee Avenue and later on View Street.

He and his wife, the former Nancy Trail, moved to the Coast about four years ago.

Survivors include one son, Henry Alleyne, in Calgary; one daughter, Mrs. Harry L. Cantlon of Vancouver, and two grandchildren.

His two brothers, Major Thomas Hincks and Commander J. S. Hincks, who also lived at Howser, both predeceased him.

Rites Held For Richard Bell

Private funeral services were held Monday morning in Church of the Redeemer for Richard Geddes Bell, 13, of South Slocan, who died in a hunting accident Saturday near Beasley Bluffs. Rev. Canon W. J. Silverwood officiated, and cremation followed.

Pallbearers, fellow members of the first Bonnington troop Boy Scouts, were George Penniket, Gary Jacobson, John Soukeroff, Howard Ridge, Daniel McKim, John Decker, James McDougall, and Stephen Brewster.

Hymns were "There Is a Happy Land" and "Onward, Christian Soldiers," with Mrs. Allan Muir at the organ.

In lieu of flowers, the family asked that donations be sent to the Kootenay Society for Handicapped Children, Box 432, Nelson.

MRS. LOFSTEDT FUNERAL HELD

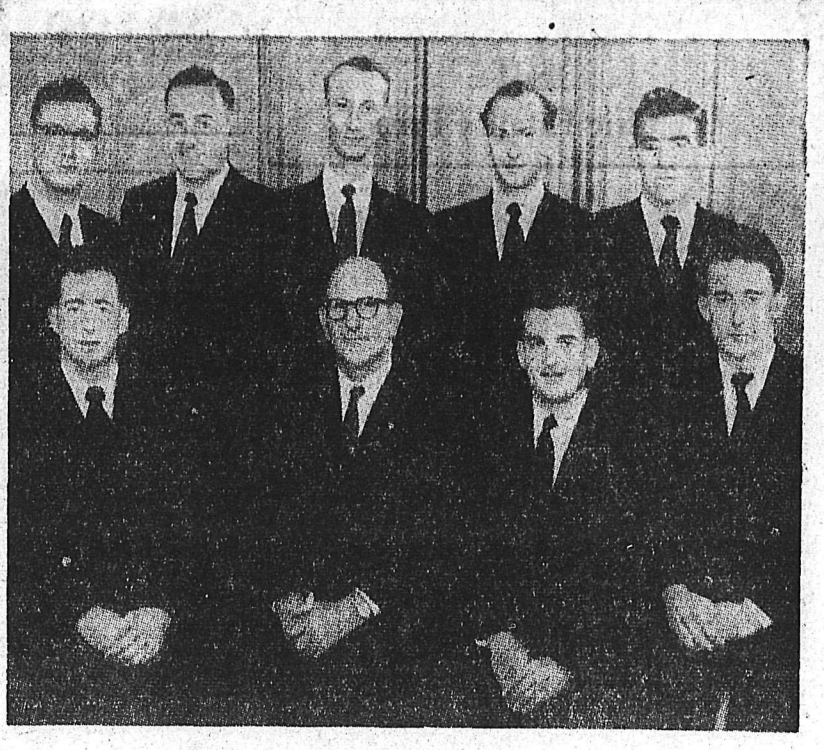
Funeral services were held Monday afternoon for Mrs. Augustus Marie Anne Lofstedt, 89, of Kaslo, who died Thursday in Kootenay Lake General Hospital. Rev. Dr. H. K. Johnston officiated in St. Andrew's United Church at Kaslo, and interment was in the Kaslo Cemetery. Pallbearers were A. Tapanila, W. Dunn, E. Augustine, C. T. Jones, C. White and R. Hughes.

The congregation sang "Abide With Me" and "Nearer, My God, To Thee", with Miss Elizabeth Giegerich at the organ.

Mrs. Lofstedt was born June 7, 1868, in Norway, and lived in Kaslo for many years.

Mrs. Lofstedt was predeceased in 1918 by her husband, and has no relatives in this area.

Batiste, made of fine linen or cotton lawn, was invented by a textile worker of Cambrai, France.



Young New Zealanders to Visit District Under Rotary Scheme

As a Golden Anniversary Project in 1935 the Rotarians of District 39 New Zealand developed a plan for Centennial Youth Exchange. They called it the Rotary Overseas Travel Award or "Rota" for short.

During the year they sent a group of young men and a Rotarian leader on a two-month study tour of Great Britain. This group was so well received that two districts in New Zealand have combined in sending young men and their leader to Canada and the U.S.A.

When past district governor J. H. Coventry of Nelson was at Lake Placid last year he met Stewart Hayton Governor from New Zealand.

He told Mr. Coventry about Rota and it appealed to him so much that work on a visitation to District 508 was started.

After getting approval of the District Advisory Committee the two Rotarians started interesting other districts in the visit. All the districts were enthusiastic and cooperation of present district governor Jack Barre of Walla Walla was given.

On August 27, eight young men and their leader arrived in Vancouver and during their stay they will visit B.C., Idaho, Washington, Oregon, California, leaving San Francisco for home on October 29.

Mr. Coventry said the purpose of Rota is to encourage good citizenship through travel under the guidance of Rotary. It gives opportunities to young men to understand the peoples of other countries and in so doing to become better citizens of their own, and better citizens of the world.

The young men are selected for good character, vocational skill and interest in community activities. The age group is from 21 to 25.

Two of these men will visit the Nakusp club Monday, the Nelson club Tuesday and Trail on Wednesday.

The balance of the group will arrive in Trail Wednesday afternoon. They will visit CM & S plants and other places of interest and will arrive in Nelson Friday evening.

Nelson Rotarians will billet them Friday and Saturday nights and they will be taken to Spokne Sunday evening.

Nanaimo Funeral Thursday for Harry McLean

Legion funeral service for Harry McLean, 67, formerly of Nelson, will be held Thursday afternoon at Jenkins Funeral Home at Nanaimo with Rev. Thomas B. McMillan of the United Church, Ladysmith, officiating. Interment will be in Cedar Valley Memorial Garden.

Mr. McLean died suddenly at his home, Boole Road, R.R. 1, Ladysmith, Sunday morning, only three weeks after he had retired and moved there with Mrs. McLean. She is primary school teacher at North Oyster School.

Mr. McLean served in the First World War from 1914-16 in the Fourth Canadian Mounted Rifles. He was Legion member and a member of Nelson Lodge No. 23, AF & AM. Office manager for 24 years at Palm Dairies, he later had been accounting on his own and also worked at Star Grocery, Superior Motors, Star Auto Service, Fleury's Pharmacy, Towler's and J. R. Ramsden's.

He is survived by two sons, Neil of Nanaimo and Norman Douglas of Nelson; two daughters, Mrs. Leonard Brown of Nanaimo and Margaret Alice at home; two sister, Misses Katherine and Janet McLean of Boston; and one grandchild, Karen.

Funeral Held For D. W. Guy

Funeral services for Raniel William Guy, 68, who died suddenly Wednesday at his Nelson home, were conducted Monday morning by Rev. Canon W. J. Silverwood in the Thompson Funeral Home. Interment was in Nelson Memorial Park. Pallbearers, several of them also veterans and Canadian Legion members, were F. N. S. Thompson, C. H. Robinson, B. C. Affleck, W. Bennett, J. Dingwall and A. S. Horswill.

Hymns were "The Old Rugged Cross," and "Abide With Me," with organist Mrs. W. A. Manson.

Salmo Chamber Organizing Proposed Trek Over Cutoff

SALMO — Tentative plans for organizing a proposed trek over the Salmo-Creston cutoff by the Associated Boards of Trade and Chambers of Commerce of Southeastern B.C. were made at a recent executive meeting of the Salmo District Chamber of Commerce.

Representatives from the Rossland, Trail, Castlegar, Nelson and Salmo Chambers are to travel from Salmo toward Creston, while representatives from the Kimberley, Cranbrook, Invermere and Creston Chambers follow the route from Creston toward Salmo. The parties will meet at the summit.

An advance party went over the route on th eweekend.

'Flu Outbreak Hits Oakalla Prison Farm

VANCOUVER (CP) —An outbreak of "mild" flu has overtaxed hospital facilities at Oakalla prison farm, it was reported Monday.

A prison official said the "epidemic" broke out about six days ago and reached a peak with 89 prisoners ill.

Victims now total 52 and the flu "appears to be holding its own, or perhaps on the wane," said the official.

Canada Also Opposed To New Libby Scheme

Low Dam Now Proposed In Bills Before Congress

By JOHN E. BIRD
Canadian Press Staff Writer

OTTAWA (CP)—Approval of a new United States proposal to build a power dam on the Kootenay River at Libby in Northern Montana could wreck Canada's plan to generate millions of kilowatt hours of electricity in the British Columbia portion of the Columbia River and adjacent basins.

The new American scheme to build a low dam at Libby is proposed in bills introduced in Congress by Montana and Idaho members. Although apparently designed to do so, it fails to meet Canada's strong objection to an earlier U.S. plan for a high dam at Libby.

The Americans proposed originally that a $280,000,000 dam be built, impounding 5,000,000 acre feet of water at the power site, providing flood control downstream along the Kootenay and Columbia Rivers to the Pacific Ocean. This dam would have created a reservoir 150 feet deep at the boundary and extending 42 miles into Canada.

FOR WATER CONTROL

The contemplated power plant would have had an installed capacity of 800,000 kilowatts. However, the main purpose was to dam the Kootenay to regulate the flow of water feeding the big American power plants on the lower Columbia.

The Kootenay rises in eastern B.C., flows across the international boundary north of Libby, swings back into Canada and enters the Columbia at Castlegar.

Because the Libby dam would raise the level of the Kootenay at the boundary, flooding the river valley in Canada, its construction required approval of the International Joint Commission which has jurisdiction over boundary rivers.

CANADIAN ATTITUDE

Canadian members of the commission have not approved the application, taking the view that Canadian studies are incomplete and might prove that the flow of the Kootenay could be used more effectively by diverting the river into the Columbia at Canal Flat.

The bills now before Congress are designed to overcome Canada's objection to raising the level of the Kootenay 150 feet at the boundary, flooding 42 miles into this country.

TWO-STAGE-PROJECT

Under the proposed legislation the Libby dam would be built in two stages, the first stage to back water up to, but not over, the Canadian border. It would be designed so that its height could be raised in the event the two countries agree eventually on the original Libby proposal.

However, it is evident from comment in Ottawa that Canada is just as opposed to the new scheme as the old one.

The view here is that the U.S. seeks to secure a right to the maintenance of the flows of the Kootenay in Montana in place of allowing them to be used more advantageously by Canada in the Columbia. The difference in favor of Canada under the Canadian plan would be nearly 500,000 kilowatts of generation.

Diversion of the Kootenay into the Columbia at Canal Flat would permit utilization of the resulting increased flow in the development of nearly 3,500,000 kilowatts of power in Canada.

Canada hopes it will be possible to show the Americans they will get greater benefits from the Canadian plan, particularly in the reduction of the flood menace, than from a Libby dam.

FOR FLOOD CONTROL

A recent report of the U.S. Federal Power Commission said the U.S. requires some 21,000,000 acre feet of water storage in the Columbia basin for flood control.

The Libby project would provide only 5,000,000, compared with a total of 27,000,000 under the Canadian plan. In view of this, sources here find it difficult to understand why certain U.S. interests keep backing the Libby project,

Diversion of the Kootenay into the Columbia at Canal Flat would be necessary to get full value from the 11,800,000 acre feet of water storage which would be provided by a power dam at Mica Creek. If the flow is used at Mica it cannot be used at Libby.

Another aspect of importance to Canada is that in the years to come, the diversion of the Columbia into the Fraser River may be required for power production.

This would produce as much as 15,000,000,000 kilowatt hours of energy at plants on the Fraser and North Thompson. Storage of Kootenay and Columbia River water at Mica and, at Luxor on the Kootenay would be essential to this plan.

Creston Man's Brother Dies

CRESTON — Christopher Francis Sarsons, 69, of Kelowna, brother of Phillip Sarsons of Creston, died in Kelowna hospital. Also surviving are a daughter, Mrs. John Swaisland; one son, Geoffrey Sarsons, both of Kelowna; and two brothers, William of Vernon and Matthew of Brooks, Alta.

Name Date For Skating Contest

VANCOUVER (CP)—The Western Canada Figure Skating Championships will be held here Feb. 13, 14, and 15.

The western region extends from Victoria to Port Arthur, Ont.

UBC Appoints New British Teacher

VANCOUVER (CP) — Prof. Harold V. Livermore, a former educational director to the Hispanic Council in England, has been appointed to the staff of the department of romance studies at the University of B.C.

He will teach a survey course in Spanish literature and a course on the history of Spain.

Communities Completing Plans for Centennial Projects, Celebrations

British Columbia's Centennial Year, during which "100 years of sensational progress" will be celebrated, is less than four months away.

Every community will take part in the year-long celebration, making it the "greatest show on earth with a cast of 1,500,000, thousands of settings and 366,000 square miles of stage," the central committee in Victoria publicizes.

Official slogan of the Centennial is "A Century to Celebrate."

A special green and gold licence plate was designed; a commemorative postage stamp will be issued and special centennial coins will be put into circulation; an official history of the province is in preparation and will be published and an anthology of B. C. writers, artists and photographers is being compiled for publication.

KIMBERLEY FIRST

The first community celebration so far scheduled for 1958 will be a centennial snow festival planned for late February as "the greatest in western Canada at Kimberley." The one-week spectacle of world-famous skiers, skaters and movie stars will be held in part in a new arena, according to Kimberley centennial committee plans.

Kimberley's gala celebration will be only one of many planned for the entire year, across the province, as communities finalize plans for permanent memorial project and Centennial celebrations.

British Columbia with co-operation from Junior Chamber of Commerce and the Centennial officials will be given a thorough "spring cleaning" for its 100th birthday party. A drive will begin early in the spring to clean up, paint-up and beautify homes, businesses, streets and parks in every community. Contests will be held on a comprehensive population basis, with the emphasis on community effort.

"No community can attend its own birthday party with a dirty face," suggested Elton Harwood, president of the B. C.-Yukon Junior Chamber of Commerce.

Galloway, in the East Kootenay, is planning junior logging competitions with contestants ranging from five to sixteen years. Creston plans a Veteran's Day and Armed Services Dy along with pioneer-honoring ceremonies.

The officials consider Fernie is worthy of special mention for their Veteran's Home for the Aged project. "In every way, a truly worthwhile project," commented Mr. Wallace.

Invermere is offering big prizes for the first person to swim around Lake Invermere which is 20 miles long and 5 miles wide, also prizes to the first to walk around it. Sports minded residents of the Michel-Natal-Sparwood district will be treated to a new curling rink and bonspiel in the Spring of 1958.

TO SEAL CAPSULE

Marysville will get an unusual face - lifting with false fronts, swinging doors and hitching posts to hide the "unromantic 20th century architecture." Residents will also construct a tent street, since Marysville began as a tent town.

Trail, Tadanac and Warfield are joining for a Dedication Day, residents hope to have all religious groups participating at this day of prayer and thanksgiving.

Mrs. Lois Haggen, MLA and Centennial committee member, reports that Grand Forks and Greenwood have plans under way to commemorate the discovery of placer gold in that area 100 years ago. They will seal a capsule containing the history of the communities from 1858 to 1958, it is to be opened 100 years later.

SILVER TO PIONEERS

More than 300 pioneer honoring ceremonies will be held in B.C. in 1958. One hundred silver dollars will go to pioneers who have been here since B.C. entered Confederation in 1871.

Many areas will hold their celebrations in conjunction with Fall fairs.

An attempt will be made next year to scale 15,300 foot Mount Fairweather, highest peak in British Columbia, and one of the highest coastal mountains in the world. It has been reached only once, in 1931, by two American alpinists.

Many communities will soon be setting up hospitality committees for the Centennial year, Victoria reports. The job of these groups will be largely to survey housing, dining, recreation and other facilities in each area. During heavy tourist periods, these committees will be able to direct visitors to the best places to stay and to places of historic or special scenic interest.

40,000 Apples Put To Latest Tests

RUTLAND (CP)— Forty thousand boxes of top - quality McIntosh apples were "put to sleep" Monday in special experimental chambers of the Kelowna growers exchange.

It is another step in continuing work on "controlled atmosphere" storage, designed to give nature a helping hand in keeping fruit fresh and flavorful for longer periods than now is possible.

The new method slows down the respiration of the fruit by controlling the carbon dioxide - oxygen content of the air in the storage room.

Cake To Bear 50 Candles, Penticton

PENTICTON (CP)—Fifty candles on a 50-foot-long anniversary cake will be lit by 50 past presidents and old-time members at the board of trade's golden anniversary celebration Thursday.

Trail Maintains Traffic Record

TRAIL (CP)—Another accident-free weekend has raised to 1005 the number of days this city has gone without a traffic fatality. It is the best record for major B.C. cities.

OBTAINS DEGREE

GRAY CREEK — Culminating nine years at summer schools, George Petrescu has fulfilled the requirements for his bachelor of arts degree. Mr. Petrescu attended the University of Saskatchewan for two summer schools and the remaining seven at University of B.C. He is principal of Crawford Bay Superior School.

GOOD SCOUTS

MALDEN, England (CP) — A group of Canadian Boy Scouts presented the mayor of Malden with gold cuff links, and his wife with a Maple Leaf brooch, as a tribute for the hospitality they received before going on to the jamboree at Sutton Coldfield.

Cominco Lead Business Good, Journal Reports

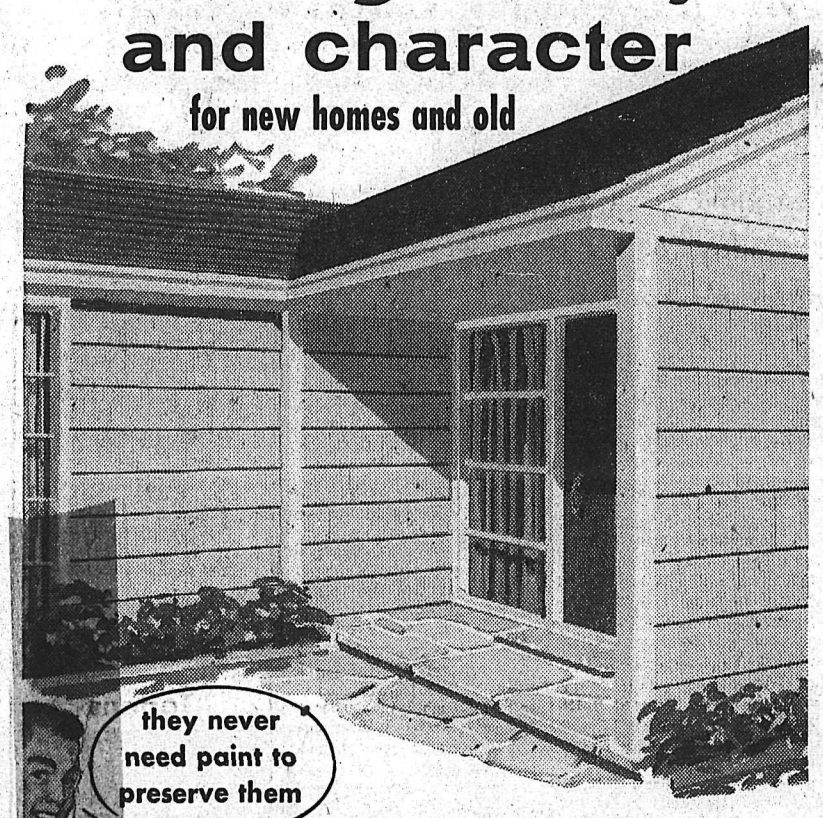
TRAIL — The Consolidated Mining and Smelting Company finds lead sales good and the market firm, zinc slow and sales only fair, and fertilizers higher in price but business at an inactive season of the year, The Northern Miner reports.

No change in operational rates is reported since cutting off of the Sullivan open pit and the shutting down of the Tulsequah. These result in about a 19 per cent cutback on zinc but scarcely affect lead output. Earnings are off because of lower zinc-lead prices and should these persist to the end of the year a substantial drop from last year's net of $1.83 per share can be expected. Lead is down £40 a ton from last year, zinc £60. Cominco produces around 50,000 tons of lead a year, and this year may produce about 175,000 tons of zinc. The company started the year in strong financial shape, having about finished with a big program of plant expansion and replacement. Net cash assets were $82 million.

Fertilizer firms in the American West raised ammonia nitrate prices at mid-year after a big spring business. Cominco got in on this better business and enjoys the firmer price level in the fertilizer market.

The Northern Miner further states it understands that the company could sell more lead if it had it. This indicates that demand is not too bad. Zinc is upheld by U.S. stockpile buying. The company has no copper.

Lasting beauty and character
for new homes and old



Johns-Manville
COLORBESTOS
SIDEWALL SHINGLES

Whether you're building a new home or planning to make your present home look bright and new again, J-M Colorbestos Sidewall Shingles will provide complete charm with sound economy.

Available in beautiful colors, these asbestos-cement sidewall shingles are fireproof, weatherproof and rotproof. Silicone-sealed, they repel water instantly . . . the colors remaining bright and fresh for years.

FREE BROCHURE shows Colorbestos Sidewall Shingles in full color and illustrates various ways in which they may be applied to achieve excitingly lovely effects. Your J-M dealer will give you a free copy of this brochure or write direct to Canadian Johns-Manville, 565 Lakeshore Road East, Port Credit, Ontario.

TWO ATTRACTIVE STYLES
Striated design (left)—vertical, random-ribbed with straight butt lines. In three pleasing shades — Red, Green and Blue.
Cedargrain design (right) — has the grained appearance of weathered wood. Wavy or straight butts in Pastel Green, Blue Gray, Dover White, Graytone and Honey Yellow.

Ratepayers Will Gain by Voting Yes On Hospital Bylaw

The Hospital Board and directors have proved these points:

1. Nelson needs more hospital accommodation than in the present hospital. Voting Yes in the bylaw Wednesday will give it to us.

2. BCHIS is still willing to pay $2 for every $1 on this project. If you vote No on the bylaw, we will not get this generous grant when through dire necessity we have to build the extra floor possibly in the next year or two —so voting Yes will save the property owners' money.

3. Fixtures and equipment are needed. A Yes vote will get them and will divide the cost over all taxpayers, not just a few who cannot or would not say "No" to a fund-raising canvasser.

4. Accommodation for staff is vital, especially for technical staff that is liable to call at any hour of the day or night. A yes vote will give the basic accommodation necessary.

Any project worth doing is worth doing well. Vote Yes and get the whole job done now. That is the recommendation of this newspaper.

West Can Beat Long Range Missile

Air Marshal Slemon of the RCAF says that for some time to come the manned bomber will be the main threat to North America, though steps should be taken to counter the intercontinental ballistic missile.

The Russians have made much of their achievement in producing a long range missile with the intent to frighten the West. Curiously enough the West does not seem very frightened and it begins to look as if there comes a point of saturation where one ceases to have imaginative fear. Nevertheless, for the time there is really little to fear from this long range weapon.

Such weapons are extremely costly to make, they demand great accuracy of their working parts and they are as temperamental as prima donnas. They cannot be turned out in mass and a stockpile of such weapons would grow very slowly.

It takes scientists to create such weapons, technical skill of a very high order to produce them and numbers of equally skilled personnel to fire them. Russia may have all these skilled personnel, but it is still doubtful if they could all fire off these rockets without previous training. They could not afford to expend many on training.

It seems to be taken for granted that such a missile once launched must inevitably reach its target. There is no evidence of this inevitability. If the missile is directed by electronic means, then it is to be presumed that it will be subject to the same interference as are our radio communications by sun spots and the aurora. Distance from the target alone adds unpredictability to the missile reaching it.

But if the West can, for the time being, afford to ignore the possibility of attack by long range rockets it should not cease in its efforts to find a counter to them. There seems to be a great deal of pessimism about this and a feeling that it is impossible that it is impossible to deal with them. It is just as well to remember that all through history man has been improving his weapons only to find that they have inevitably been countered by others. There is no reason why the long range rocket should be an exception to the rule.

Long Range Forecasts

Anybody who has thought about it at all must have wondered why amateurs, with no meteorological training, can blithely give a forecast for a coming winter or summer without batting an eye. In contrast, the professionally trained forecaster never attempts more than a day or two specifically, and beyond that only generalities. The reason, of course, is that the amateur weather forecaster is, consciously or otherwise, a fake. You just can't forecast a season in specific detail in advance.

In the face of all this the professional forecasters have maintained a dignified but torrid silence. Now, through the president of their organization of 6500 members, they have issued an official statement of what any trained forecaster, not a tribal medicine man, can do in the way of tabbing the upcoming weather.

Weather forecasts, they say, can be prepared in some detail for two or three days in advance. That's all. Even then the reliability of the prediction decreases progressively after the first day. Forecasts three to seven days in advance must be issued in less specific terms, and are ordinarily restricted to a statement that the temperature should be higher or lower than normal.

For periods of one week to one month in advance the average temperature and precipitation for the period can be compared with the norm for that period with some skill. But the present status of meteorology does not permit a forecaster to specify, day by day variations in the weather, more than one week in advance.

The position of the American Meteorological Society is that individuals or organizations that publish forecasts for conditions more than one month in advance mislead the public, if they do not clearly describe the forecasts as experimental and of unproven value.

Now we offer a long-range forecast—not on the weather, but on the amateur forecasts. We predict four months in advance that, despite the American Meteorological Society, about next November amateurs will start saying, "They say we're going to have a rough winter this year." Or, "They say it will be warm and unhealthy." Or, "We'll pay now for all the heat we got last summer." Or, "Fellow up in Granby (or Winsted, or Simsbury, or Glastonbury) says the ducks have got unusually long bills this year. That means more snow than we've ever seen."

One of the unerring earmarks of the amateur and untrained prophet is that he is never bothered by facts or previous records.—Hartford Courant.

Letters to The Editor

Letters to the Editor on any topic of genuine interest are welcome if they are brief, accurate and fair. No letter will be inserted in whole, or in part, except over the signature and address of the writer. Unsolicited correspondence cannot be returned.

Council's Action Criticized

To the Editor:

Sir—Your column under name of F. B. Pearce of September 10 is very thought provoking and worthy of comment. No doubt our Council are called upon at times to make momentous decisions and planning that should have far reaching results.

At times under pressure nerves and temper can become frayed, nor can many of us realize just how much a word of thanks is appreciated.

But the letter over the name of Rev. T. J. S. Ferguson of September 11 bears meat of a much more thoughtful nature, and is well worth anyone's while looking up, if you have missed it.

It seems that City Council is determined to go ahead with their plan of clearing Vernon Street, come hell or high water.

I have heard no comments favoring such a move. Many, too many, just don't care, and those who do care are ignored and classed as trouble makers. Are we coming to a case of dictator rules that must be carried through?

A new Council might think different.

J. R. ANDREWS.

214 Innes Street, Nelson.

Spanking

Visiting Rome, Police Commissioner Kennedy spoke of spanking. The juvenile crime rate was lower in his youth, he said, "perhaps because parents applied corporal punishment more liberally."

He shied from official endorsement of spanking, but said: "As a father, though, I'm not against applying corporal punishment when strictly necessary."

Well, we'll not make a blanket endorsement of spanking, either, because there are sadistic parents who seize any justification for letting fly with the strap, whether the kid needed it or not. Indiscriminate, brutal spanking is not only cruel but usually pointless. Too much spanking is worse than none at all.

All the same, Mr Kennedy has a point because he's speaking of intelligent, strategic spanking which is directly related, in time and measure, to the child's offence and is truly for his own good — not just a cover-up for parental sadism.

We've no doubt that a smack in time has averted many a crime — and that a lot of youngsters wouldn't be hoodlums today if their parents had known how to impose respectable authority, backstopped by the threat of a spanking "when strictly necessary."—New York World Telegram and Sun.

There is neither Jew nor Greek, there is neither bond nor free. There is neither male nor female, for we are all one in Christ Jesus. Galtians 3:28.

We grow like those we love, and those who have Christ in the heart have found their very countenances change.

Aunt Het

You can make yourself do anything you desire to do, but alas! you can't make yourself desire to do it.

Actress Denies Red Reports

NEW YORK (AP)—Myrna Loy denies a Communist charge that she used her sex appeal to influence the United Nations.

"That sort of thing is so typical of the Communists," the film actress said Sunday at her home, here.

Miss Loy, 52, said the Hungarian press report was "an obvious attempt to belittle the seriousness of the petition which was supported by many men in all walks of life."

She visited UN headquarters last Thursday as a member of a non-governmental group which presented a petition to Secretary-General Dag Hammarskjold and Prince Wan Waithayakon of Thailand, president of the UN General Assembly.

The petition asked the UN to implement its resolution condemning Soviet aggression during the Hungarian revolution last year.

The Hungarian report, published in a Communist newspaper, said "the charming film star used her finest smile for the occasion, and emphasizing her female charms was undoubtedly designed to influence the president of the General Assembly."

The newspaper added: "According to some reports, Miss Loy's sex appeal had a deep effect on the prince."

Prince Wan is 66.

German Election Shows Strength

BONN (AP) — The comparative strength in the West German parliament before and after Sunday's election:

Comer's Return Gets Headline

LONDON (CP) — Scarfaced Jack (Spot) Comer, back from a 2200 "holiday" in Canada, says there just isn't any justice.

Comer, who has styled himself as a London gangland boss, sailed for Canada early this month but was deported as an undesirable. He arrived back in Britain Sunday aboard the Norwegian liner *Skaubryn, full of indignation.*

"My holiday cost me £200 for nothing," he told a reporter. "The immigration boys grabbed me as soon as I got to Quebec."

Comer said Canadian police authorities received anonymous letters from Manchester and London saying Comer planned to establish a chain of betting shops, illegal in Canada.

"And all the time I was simply over there for a short holiday, and to visit my sister - in - law. *There's just no justice.*"

Comer's short-lived cruise provided a neat cue for a Daily Sketch headline writer, who apparently knows his Shakespeare. "Out, damned Spot" was The Sketch head on the story of Comer's deportation.

Date For Play Competition Set

VICTORIA (CP)—The deadline for entries in the one-act playwriting competition of the B.C. *Centennial committee* is Oct. 31, Dr. Malcolm McGregor, chairman of the committee's creative and cultural sub-committee, reminded prospective entrants Monday.

Open to present and former B.C. residents, the competition carries a $500 first prize, a $300 second prize and a $200 third prize.

REWARDS OF GRATITUDE TO GOD DISCUSSED

The rewards of active gratitude to God were brought out in the Lesson-Sermon on "Substance" at Christian Science services Sunday.

Readings from the King James Version of the Bible included the following (I Timothy 6:17): "Charge them that are rich in this world, that they be not high-minded, nor trust in uncertain riches, but in the living God, who giveth us richly all things to enjoy."

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy included the following: "Giving does not impoverish us in the service of our Maker, neither does withholding enrich us."

The Golden Text is from Hosea (12:6): "Turn thou to thy God; keep mercy and judgment, and wait on thy God continually."

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars,

For Wednesday, Sept. 18, 1957

MARCH 21 to APRIL 20 (Aries) — An unusually fine day for those who emphasize smart management, mental keenness and good judgment. Keep emotions under control and show an interest in all things. Don't overtax yourself but do maintain a steady pace.

APRIL 21 to MAY 21 (Taurus)—Helpful Venus and Mercury vibrations should stimulate new and unique ideas and activities. Add "different" packaging to put them over.

MAY 22 to JUNE 21 (Gemini) — Bang-up aspects for your special kind of work, activities, talents. This can be a really interesting and heart-warming period, with assurance of munificent returns in the future for your best efforts NOW. Much depends upon you.

JUNE 22 to JULY 23 (Cancer) — Your Moon, Mercury and Uranus, *being well-positioned now, there* should be smooth sailing in all matters for which you have talent, training, liking. Be agreeable about tedious tasks, too.

JULY 24 to AUGUST 23 (Leo) — Geniality and enthusiasm can play a big part in your advancement now. You possess the mental equipment and other assets to achieve success, so keep on the job, but don't force matters.

AUGUST 24 to SEPTEMBER 23 (Virgo)—Heed Gemini now. There are ideal indications for an intriguing and profitable day on the whole. But do some preparatory work where needed. Be careful about small, but important, details.

SEPTEMBER 24 to OCTOBER 23 (Libra) — An abundance of helpful ideas and good lears should be available to you now — all leading to eventual gain. Waste nothing of value, including time, energy. Be moderate, too.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — This could be a progressive day but it will be important to put forth your best efforts. Don't be haphazard about anything; calm and thoughtful judgment will be needed.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — You may be better, achieve more if you stay within your own sphere of activity now. Your keen mind should be doubly inspired today. Don't waste precious talents or time.

DECEMBER 22 to JANUARY 20 (Capricorn) — Keep on with original plans, but make changes where they are essential to improvement. Try some new activity that may increase income, benefits.

JANUARY 21 to FEBRUARY 19 (Aquarius) — You can expect assistance from superiors, employees and family if you display initiative and stick-to-it-iveness in *important affairs — both business* and personal. Conserve energy.

FEBRUARY 20 to MARCH 20 (Pisces) — Start with — and maintain — faith and cheer. While this day's influences are not wholly generous in business or personal matters, they are good for spiritual gain, self-development.

YOU BORN TODAY have a liking for literature, the sciences, home-making, medicine, acting, and other arts. You may do well in real estate, building, secretarial work. Correct a tendency to worry needlessly, especially over family and finances. Guard health, but do not worry over it. Get proper rest, recreation. You enjoy and gain much from intellectual people and can rise higher and higher in your station in life if you so desire. Avoid contentious associates, and don't be hypercritical. Birthdate: Samuel Johnson, Engilsh writer; Trajan, Roman emperor.

King Features

China Faces UN Setback

UNITED NATIONS, N.Y. (AP) Communist China's bid for a seat in the UN is reported headed for another rebuff.

India has proposed that the General Assembly put the subject of "the representation of China in the United Nations" on its agenda for the 12th session which starts Tuesday.

Diplomats say the assembly will vote overwhelmingly to sidetrack the bid for another year.

Jack Turnbull To Drive Coach

VICTORIA (CP)— Jack Turnbull, one of B.C.'s most colorful horsemen, will drive the 1958 Centennial stage coach run from Victoria to Barkerville, the B.C. Centennial committee announced Monday.

Turnbull's career spans more than three decades of ranching in the Cariboo and Fraser Valley.

Schedule and final details are *still to be worked out.*

Mountaineer Falls Dies Below Cliff

NORTH BEND, Wash. (AP) — An experienced young mountaineer died before dawn Monday as he lay unconscious at the foot of a Cascade mountain's cliff over which he had tumbled in the darkness Sunday evening.

Life ebbed away from Gene Todd, 25, of Auburn, Wash., as rescuers toiled to reach him.

Todd, member of the Mountain Rescue Council, had been hiking with several friends and they were *returning just after dusk,* reportedly without flashlights.

Skirting the top of a 300-foot cliff, Todd apparently took a misstep and plunged over the side.

Forest Hazard Eyed Closely

The British Columbia Forest Service reports that for the week ending Sept. 13, there has been fairly *intense drying throughout southern* parts of the province resulting in moderate forest fire hazard in some areas.

If this drying trend continues, as expected, a sharp increase in hazard over the southern Interior will result.

In Nelson district there have been 337 forest fires thus far in 1957 at an estimated cost of $55,023. Hazard is considered to be low.

Last year in the same period there were 361 fires which cost $79,644 in the Nelson district.

Throughout the province there have been 1390 fires this year at an estimated $139,063, last year there were 2726 fires in B. C., at a cost of $447,406, during the same 8½-month period.

There were 29 new fires last week, 32 fires extinguished and 27 fires still burning.

* * *

A Winnipeg family, Mr. and Mrs. William Carr and their daughter Mrs. Richard Booth, have been visiting Mr. Carr's brother-in-law and sister, Mr. and Mrs. Bennie Monteleone, 314 Hart Street, and Mr. Carr's mother, Mrs. A. P. Davies; his niece, Mrs. Norman Hyssop, and his daughter's in-laws, Mr. and Mrs. Robert Booth in Trail. Mr. Carr enjoyed a fishing trip with Mr. and Mrs. Monteleone, on Kootenay Lake Saturday, Mrs. Monteleone catching a six-pound Rainbow trout, and several smaller fish being caught by the party.

* * *

Mr. and Mrs. David Montgomery of Cloverdale are visiting Mr. and Mrs. R. H. Bradley, Maple Street.

* * *

Engagements

Mr. and Mrs. Armond Larabie, 706 Observatory Street, announce the engagement of their daughter, Barbara Ann Gates, to Mr. Gordon Edward Anderson, only son of Mr. and Mrs. Paul Anderson, 908 Vernon Street. The date of the wedding will be announced later.

Crawford Bay PTA To Give Bursary

CRAWFORD BAY — The first Parent-Teacher meeting of the new school term was held in the Crawford Bay school. The group unanimously endorsed as its main project of the year establishment of a bursary of $75. This would go to a pupil leaving grade 11 and continuing grade 12 either in Creston or elsewhere. In the case of a tie there would be two $50 bursaries.

Early this summer the sixth class room was finished in the Crawford Bay Superior School. This, with the additional attendance, necessitated another teacher, bringing the teaching staff up to six.

In a short time the Creston School Board built a two-apartment teacherage on newly-acquired land next to the school. Two new teachers, Mr. Jaffe, formerly of Vancouver, and Mr. Colter, formerly of Edmonton, have taken up residence with their families in these modern apartments.

Card Parties To Be Resumed At Ymir

YMIR — The ways and means committee, during the six-month term it was in office, raised $67 here, a recent meeting was informed.

It was decided that before the new committee takes over in October, the outgoing committee would hold the first card party of the season September 27.

Ymir Notes

YMIR — Mr. and Mrs. W. Anderson have as their guests the latter's parents, Mr. and Mrs. A. Cathers of Vancouver. They are former residents of Nelson.

LAW Marion Halvorson of Vancouver is visiting her parents, Mr. and Mrs. R. Halvorson.

Mr. and Mrs. N. Gould were recent visitors to Spokane. They were accompanied by Mr. and Mrs. S. Barclay of Nelson.

Mr. and Mrs. J. Johnson are entertaining Mr. Johnson's parents, Mr. and Mrs. M. A. Johnson of Wardner, also Mrs. P. Keyndawy of Cranbrook.

Mr. and Mrs. Swan Lundgren have returned from a brief visit to Spokane. Mr. Lundgren is just home from a month's holiday in Sweden.

Mrs. A. Williams and daughter Judy visited friends here. Former residents of Ymir, they now reside in Bowness, Alta. Miss Marguarite Beaulieau returned with them.

Mr. and Mrs. John Lundstrom of Vancouver are visiting Mr. and Mrs. Matt Burgess.

Science Now Shrinks Piles Without Pain or Discomfort

Finds Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.

In case after case, while gently relieving pain actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne)—discovery of a famous scientific institute.

Now this new healing substance is offered in *suppository or ointment* form called *Preparation H.* Ask for it at all drug stores—money back guarantee.

Pythian Sisters Grand Chief Visits Salmo

SALMO — Mrs. Fern Blankley of Vernon, Grand Chief of the Pythian Sisters, made her official visit to Twin Temple here on Saturday. There were 11 visitors from Fruitvale and Trail Temples.

The sisters of Twin Temple put on their degree work and conducted the business of the evening. The Grand Chief then gave an inspiring address on the principles of the order.

Mrs. June Reid, chief of Twin Temples, presented the Grand Chief with a corsage in the colors of the order and an evening bag.

Mrs. June Reid won a booster prize which was donated by Mrs. Iva Lindow of Banff and Mrs. Payette of Fruitvale won a prize donated by Twin Temple.

After the meeting a buffet luncheon was served. The tables were covered with a lace cloth on which were tall taper candles and vases of fall flowers.

KILTED Alison Grant, nine, curtsies before Queen Elizabeth after she presented the Queen with a bouquet at the royal box from which the Queen and her family viewed the traditional Scottish Highland games of the Braemar Royal Highland society. Princess Anne stands beside her mother and kilted Prince Charles is casting an amused glance at the ceremonies.

Ideal Secretary Says She Tells "Little White Lies" For Boss

By HAL BOYLE

NEW YORK (AP)—Should the ideal secretary be willing to fib for her boss?

"Oh, yes — if they're simply little white lies," said Miss Sheila Ward of Montreal, who is ideal in several ways. "You have to do that to get him off the hook.

"But a secretary should never tell one to her boss—that wouldn't be good teamwork — and he shouldn't tell her any. How can she help him if he doesn't tell her the truth?"

Miss Ward, who is 34, blonde, pretty and blue-eyed, last July won an international contest for secretaries.

MANY-SIDED GIRL

In or out of the office, Sheila, secretary for R. A. Neale, a vice-president of Canadair Limited, is quite a girl.

She holds a degree in advertising and merchandising from McGill University. She has been a corporal in the RCAF. She can sing, play the piano and violin. She likes skiing, tennis and swimming.

She is an inventive cook. She can speak and write English and French and can also get along in Norwegian, Danish, German, Italian and Spanish. She can write speeches.

What perhaps makes her even more unusual as a secretary is that she can also type fast and spell well.

OFFICE RULES

Here are a few tips she has for girls who aspire to be ideal secretaries:

1. Dress neatly. Don't wear hangle, gingerbread jewelry.

2. Take as much as possible of your boss's work load off his shoulders. You should be able to handle 50 per cent of his routine correspondence without taking dictation.

3. Stay on good terms with the people you work with.

4. Leave your personal troubles and grievances at home.

Miss Ward, who likes to lunch at her desk, says the biggest mistake most secretaries make is that "they are clock watchers and think too often of their pay cheques.

"I'm afraid also that too many of them abuse the coffee break. A girl goes to the washroom and spends 15 minutes getting herself all rigged up. Then she sits for 30 minutes in the cafeteria, and goes back to the washroom and takes another 15 minutes to repair her face.

"This means she's away from her desk for a full hour."

HOW BOSSES ERR

What about the mistakes made most often by bosses?

"They go away without telling their secretaries where they can be reached," said Sheila. "Some also fail to show proper office courtesy, or neglect to praise a girl for a job well done. But I have no such problems myself."

Miss Ward believes women in business can hold secrets better than men.

"At cocktail parties women can always think of something to talk about besides their work," she said, and added smiling:

"We also don't feel we have to talk big to feel important. Men sometimes do."

CAMPAIGN BUTTONS

COLOGNE (AP) — American-style campaign buttons are being distributed before the Sept. 15 West German elections by Chancellor Adenauer's Christian Democrat Party, known as the CDU. Under a picture of Adenauer the inscription says: "Ich Waehle CDU" (I'm Voting CDU).

Do FALSE TEETH Rock, Slide or Slip?

FASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, pasty taste or feeling. FASTEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter

Nakusp Newlyweds To Live at Robson

NAKUSP — Robertson United Church in Nakusp was the scene of a lovely wedding when Catherin Ada Howitt, only daughter of Mr. and Mrs. C. C. Howitt of Brouse, became the bride of David Stewart, son of Mr. David Stewart and the late Mrs. Stewart of Robson.

Three pretty attendants preceded the bride down the aisle. The bride looked lovely as she entered the church on the arm of her father, Rev. R. Booth officiated and Miss K. Hamer was organist for her 68th bride. The church was decorated with late summer flowers. The bride chose a floor length gown of white lace and net over satin, with fingertip veil, stand-up tiara, trimmed with sequins and lace jacket with lily point sleeves. She carried a bouquet of American Beauty roses.

Matron of honor was Miss Joyce Gebert of Nakusp who wore a three-quarter length gown of blue lace and net over satin with white cap, blue shoes and gloves. Her bouquet was of yellow and white carnations. The two bridesmaids were Miss Judy Hascarl of Brouse and Miss Sharon Larson of Vernon. The former chose a three-quarter length gown in blue lace and net over satin with hat and shoes in white. Her bouquet was of yellow and white carnations.

Miss Larson was dressed in yellow net over satin with cap to match and white shoes. Her bouquet was of blue and white carnations. Both bridesmaids wore lace jackets similar to the one worn by the bride. All three attendants wore a silver and rhinestone cross on a chain, a memento of a happy occasion, their gift from the bride.

The bride's mother chose an afternoon dress of coral and grey pleated terylene with white accessories and wore a corsage of white carnations. The groom's stepmother wore a blue woollen afternoon frock with accessories to match a corsage of yellow carnations. The bride's grandmother wore a grey and white afternoon dress with a black and white hat and white gloves and a corsage of pink carnations. The groom's brother, Gerald, acted as best man and Stanley Howitt and Mr. Keith Waldie were ushers.

A wedding breakfast followed at the home of the bride's parents for 45 guests. Mr. Warren Larson of Vernon proposed a toast to the bride and groom. Best man proposed a toast to the bridesmaids and the matron of honor. A three-tiered wedding cake topped by a miniature bride and groom, baked and decorated by Mrs. Gordon Haines, centred the bride's table. The knife used for cutting the cake has been a possession of the Stewart family for four generations. Mr. and Mrs. James Murphy, Mr. and Mrs. John Drebit and Annie Koval assisted in serving.

An open reception followed at the Brouse hall which was decorated with cedar boughs and pink and white streamers. Music for dancing was supplied by the Nakusp orchestra and Roy Hanson. Mr. Gordon Haines was master of ceremonies. Refreshments were served at midnight with Sharon and Beverly Rogers, Eileen and Cecelia Sirr, Patsy Bennie and Karolyn Henke as helpers.

For her going-away costume the bride chose a grey tweed suit and wore a corsage of white carnations with one pink rose. Before leaving on their honeymoon, the bride presented her wedding bouquet to her mother. The couple spent a honeymoon at Spokane and B. C. points and on their return will take up residence at Robson.

Out of town guests were Miss Annie Koval of Penticton, Mr. and Mrs. A. Casagrande, Rossland, Mr. J. Webster of Robson, Mr. G. Hipson of Castlegar, Mr. and Mrs. W. Larson and Sharon of Vernon, Mrs. Peter Belinski of Nelson, Mr. and Mrs. David Stewart of Robson.

Boswell Club Holds Dutch Auction

BOSWELL — When the Boswell Women's Club held their monthly meeting at the home of Mrs. H. Morley, attendance was not as good as usual for various reasons.

It was agreed to draw for a blanket, donated by the president, Mrs. B. Cummings, before the next Club meeting when arrangements will be made to forward a donation to the Handicapped Children's fund. A Dutch auction was enjoyed.

Rotation Plan Works In Kamloops Area

KAMLOOPS (CP) — A plan to alternate grass and tomatoes in rotation instead of continuous cropping and cultivation is reported a success in the Kamloops district.

Eric Butcher, production man for a New Westminster packer, worked out the rotation plan.

For years the canning tomato yield in B.C. has been declining, and now it is hoped by planting on a rotation basis production will be boosted.

WELL ACCOMPLISHED

Sonja Kovalesky, the Russian mathematician who died in 1891, wrote novels as well as mathematical works.

Group Discusses Clothing Aid

The clothing aid, its main project, was discussed at the first fall meeting of the Good Companions, St. Paul's-Trinity United Church group, held at the home of Mrs. H. Golberg, 711 Mill Street.

The group conducted the aid for July. Plans were made for carrying on for the rest of the year with the co-operation of the other church groups.

Co-hostess was Mrs. S. Conne.

Salmo Notes

SALMO — Miss Joan Scribner left to join the staff of the Sacred Heart Hospital in Spokane, after spending an extended holiday at the home of her mother, Mrs. D. Scribner.

Ed Avery is a patient in Kootenay Lake General Hospital, Nelson.

Mrs. Jack Webster and family returned to Uranium City, Sask., after visiting Mrs. D. Scribner. She was accompanied by her sister, Mrs. Russel Market and daughter, of Ensign, Alta.

Mr. and Mrs. S. Peters left on a hunting trip to the East Kootenays. While in Kimberley they will visit Mr. Peters' brother-in-law and sister, Mr. and Mrs. James Greenwood.

Mr. and Mrs. Sid Howell of Sceptre, Sask., visited Mr. and Mrs. H. Adams. They were accompanied by Mrs. L. Olson of Penticton.

William Scribner left for Nanaimo where he is taking a welding course at the vocational school.

Mr. and Mrs. Vernon Smith returned from a honeymoon trip to Vancouver.

Miss Shelagh Greitchfield returned from a trip to Vancouver, Victoria and Nanaimo.

Boswell Notes

BOSWELL — David Purser and Mr. and Mrs. H. Johnson of Calgary, who have been visiting Roy Purser, have returned to their home.

Mrs. Neily's brother, Warren Ayres of Devon, Alta., has been staying for a few days with Mr. and Mrs. G. Neily on his way to the Coast.

Mr. and Mrs. K. Wheatley and son who have been spending the Summer in Boswell, have left for their home in Vancouver. Mr. Wheatley will return later.

Roy Purser and Kenneth Wallace have left on a trip to the Lardeau country. They intended to go on to Trout Lake for fishing, and possibly extend their trip as far as Revelstoke.

These four 22,000-ton luxury liners were specially designed for the Canadian service. They are part of the largest fleet of passenger ships on the Atlantic which sets a standard of ocean travel that is second to none.

Enjoy the ease and luxury of these great trans-atlantic liners, all equipped with stabilizers for smooth sailing. And there's 'round-the-clock' fun for you . . . movies, dancing, sports . . . plus Cunard's superb cuisine and service. A perfect way to travel—arrive at your destination relaxed and refreshed.

Remember . . . When You Go Cunard . . . Getting There Is Half The Fun!

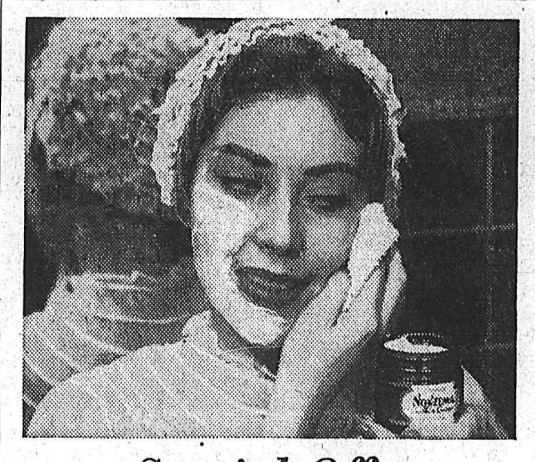
STAR WEEKLY



Special Offer

to introduce *you* to the wonderful "NOXZEMA CREAM WASH!"

• Ever tried "cream washing" your face with Noxzema? It's better than soap! It's better than oily cream! Your face feels "soap clean" . . . but so soft, smooth and tingling fresh.

Simply wet your face with warm water. Slather on Noxzema . . . scrub gently with your wet washcloth . . . and rinse clean!

Greaseless Noxzema dissolves away dirt and skin-clogging impurities. Mildly medicates to help clear your skin. You'll notice the difference in only a few days . . . your complexion will be smoother, softer, lovelier than you ever dreamed possible.

E. Germans Try To Hide Gloom

BERLIN (AP) — Communist East Germany Monday gloomily told its people of Chancellor Konrad Adenauer's victory and attributed it to "terror in the style of Hitler's storm troopers."

The Communist radio declared Adenauer's triumph in West Germany's federal election will widen the gap between the two Germanys and "threaten peace in Europe."

East Berlin's radio, speaking in funeral tones, asserted that the Roman Catholic Church and big business teamed up "to buy power for Adenauer."

Even as West Germans voted, the East German regime kept up a propaganda attack on Adenauer. Banner headlines in Communist newspapers screamed "strike down Adenauer whose policy means atomic war."

Signs and Portents

VANCOUVER (CP) — Thirty-two persons were injured here in 52 weekend traffic accidents. Nine persons were arrested for traffic offences.

A traffic official said Monday: "We could tell Friday evening that we were going to be in for a big weekend. Night liquor stores were jammed."

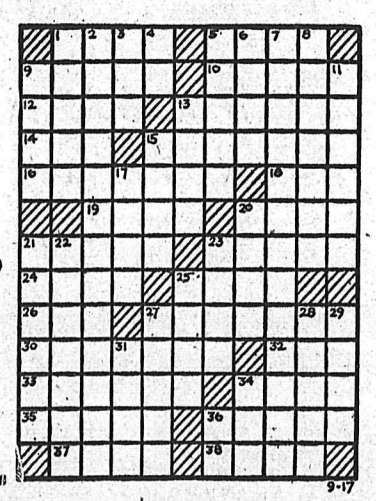
Yesterday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

E T M L I F T O O F L F U M L O V I
N R T F V, I S V C U H E L O I E Z L I O
V L I F Y I N W — Z H D W T S.

Yesterday's Cryptoquote: IT IS GENERALLY BETTER TO DEAL BY SPEECH THAN BY LETTER—BACON.

Took Television Too Seriously

HARTFORD, Conn. (AP)—Television viewers within a 40-mile radius of here took for real a civil defence telecast Sunday. About a hundred of them telephoned newspapers, the station and Hartford police in alarm.

The program showed a civil defence notion of what would happen during an air attack by "enemy planes" from the north pole region. Live studio news reports by announcers were intermingled with films showing a U.S. Army missile base and the U.S. Air National Guard in action.

Many persons apparently did not hear an announcement before the program went on the air that said it was a mock air raid test.

"I had no idea it would be so effective," said writer - director Dan Morris of WHCT-TV.

Many Memories Haunt Gay Gold-Rush City

By FORBES RHUDE
Canadian Press Business Editor

Much of Dawson City is gone, but much remains.

When our group of the Commonwealth Mining and Metallurgical Congress caught our first glimpse of the gold-rush city of nearly 60 years ago, we at first had some feeling of disappointment.

Were these scattered and mostly dilapidated-looking buildings, populated by some 800 people, all that was left of the lusty city of 25,000 to 50,000 which for a few years packed more human drama than any other place on earth?

As our few hours there passed, however, and we delved into one thing after another, we wished we had more time to look into the rich color that was around us, and we left knowing that we really knew little about Dawson.

To the delegates from many countries, it was a point of their Canadian tour to which all looked forward.

GOLD SOUVENIRS

E. A. Arvidson of Sweden bought an ounce of gold in small nuggets, weighed out to him in a bank — for the streams around Dawson still yield their quota of gold and placer miners still bring in their pannings.

H. Z. Stewart of Garden City, N.Y., bought a moose-hide gold-dust poke—a slim bag about 18 inches long which some miner long ago may have filled with gold dust in the creeks and emptied in the dancehalls.

To one visitor, however, Dawson was a place of memories rather than souvenirs.

He was G. L. Fraser of Australia, who had come in in the gold rush of 1898.

He had stayed for five years with the exception of one trip back home to Australia when, as he put it, "we did well in 1899."

Since leaving the Yukon in 1903, he has been engaged in mining enterprises in Australia.

"It stirs many memories," he said "and it makes me a bit sad. But I know what old mining camps are, and they always make you sad."

Individual Dawson citizens took delegates around in groups of four or five.

BOOM MEMORIES

Sydney May, former Royal Canadian Mounted Policeman who took part in the hunt for "mad trapper" Albert Johnson in 1932, was guide for our group. He took us to the places that still stand, and pointed out the sites of those which have disappeared.

The plush - chaired Royal Alexandra Theatre for instance, was pulled down only three years ago when its permafrost foundations wobbled. Building after building —relics of the past—preceded it in demolition.

But the Auditorium Theatre remained—only theatre of the gold-rush days which could boast two balconies, a theatre whose stage saw many budding entertainers who later became famous. We were told that Douglas Fairbanks senior and Marjorie Rambeau were among them.

The post office, where many homesick men and women waited for letters that didn't come, is also there.

There is the Dawson museum—a rich but sorrowful - looking repository in ancient surroundings of relics of the gold rush and later years.

terest in Dawson, in fact, look

Most things of gold - rush insad and unless something is done, chance burst of smoke and can be wiped out quickly in a flame, unless some one does something to ensure that what is worth while is preserved.

Mild Form of 'Flu Keeps Doctors Busy

By THE CANADIAN PRESS

A rash of influenza cases in various parts of Canada has kept doctors busy, sufferers in bed and youngsters out of school.

Despite the large number of cases reported within the last few days, medical authorities said they are not alarmed because the flu seems to be mild. Only one person—an elderly man in Sault Ste. Marie, Ont.—has died from the flu. Doctors termed it a rare occurrence.

Cases of Asian flu, which has appeared in the United States, have been positively identified in Canada, says Federal Health Minister Monteith.

However, only six of the many thousands of flu cases reported have been identified as of the Asian flu type. The six reported were all girls who attended a world girl guide camp at Doe Lake, Ont., last month. Four of the girls were from Dutch Guiana, two from Canada. They were sent home after treatment in Toronto.

SASKATOON OUTBREAK

In Saskatoon, 140 of 220 students at St. Paul's High School were reported to be suffering from flu. While health officials awaited results of tests on virus specimens, school authorities didn't dismiss the possibility that some of the 140 were taking advantage of the outbreak to skip school.

Dr. W. F. Brown, Ontario chief medical officer of health, said vaccine will not be available before October. He said supplies would be limited and the vaccine probably would work in only about 50 per cent of the cases.

Ontario localities have been taking a beating from the flu virus. In Sudbury and nearby Capreol a total of 4,200 cases have been reported.

In Mattawa, 40 miles east of North Bay, high schools have been shut down for the coming week.

At Fort Frances the flu rate is reported to be higher and more severe than in previous years. Many Indians are reported to have been affected by the disease.

Few cases have been reported west of Fort William and Port Arthur.

NAVAL BASE HIT

An outbreak of 250 cases at the naval training base at Cornwallis N.S., is being investigated. Fifty students at a Trois-Rivieres seminary were reported ill last week. In Quebec City 67 passengers were taken off the liners Ivernia and Homeric for treatment or as possible flu carriers. All but four now have been released.

Doctors in Halifax said that 20 persons, including 12 children taken from the liner Vulcania may have Asian flu. All are being treated in hospital.

Health officials said the disease could strike during periods of depressing conditions such as cold and fatigue, mental or physical. The disease causes high fever, upset stomach, diarrhoea and excessive perspiration.

A German visiting in Winnipeg was taken to isolation hospital as an Asian flu suspect. He developed symptoms of the disease, his physician said, and tests were being made to confirm the diagnosis.

In an effort to aid doctors, medical authorities said that persons suffering a mild type of influenza in outbreak areas should go to bed, take the usual home remedies, plenty of fluids and light foods. The upset usually lasts 48 hours, they said.

Welcome Diefenbaker To U.K. Privy Council

LONDON (CP) — The Times welcomes the appointment of Prime Minister Diefenbaker to the Privy Council as something more than formal acknowledgment of his office.

The Times notes that it has been customary for some time to include some Commonwealth government leaders in its membership.

"If it does not yet bear the name of a council of the Commonwealth," The Times adds, "It is safe to say that the Queen would welcome to its board the prime minister of any of her realms that wished for this token of close association with the throne."

The Times editorial says the prime minister plainly looks forward to the Queen's forthcoming visit as "an occasion for asserting the dignity of Canada among her neighbors" and properly refers to it as a "time of residence" rather than a visit.

The Times adds that it will be primarily as Queen of Canada that she continues her journey to Washington.

The Manchester Guardian also hails the Diefenbaker appointment as continuing the "agreeable and sensible custom" of Commonwealth representation on the Privy Council.

"The sovereign these days is the Canadians' sovereign as well as ours," The Guardian says. "Mr. Diefenbaker's appointment is a recognition of that easily-forgotten fact."

Cuba Arrests Ten Suspects

HAVANA, Cuba (AP)—Military intelligence agents announced Monday the arrest of 10 men accused of attempting to start a revolutionary outbreak in the suburbs of Havana at the same time as the recent abortive uprising of sailors at the Cienfuegos naval base.

The agents said a plot to black out suburban Marianao and attack public buildings on Sept. 5 was spoiled by extra security precautions taken after one conspirator betrayed his associates and informed police.

Most of those arrested were said to have confessed. They had planned to create widespread disorder by using phosophorus to start big fires and by dynamiting electric power plants, schools, transport centres, cinemas, theatres and the Havana Country Club.

Intelligence agents said the insurrectionists then planned to attack banks and police radio car headquarters and had marked high police officials for assassination. Arrest of the 10 marked the first big roundup in Havana and suburbs of rebels for complicity in the now apparent plan for armed uprisings throughout Cuba simultaneous with the attacks on Cienfuegos.

The Bayeux tapestry, 11th century work depicting the Norman invasion of England, is 20 inches wide, 231 feet long.

Braves Break Jinx; Boost Lead to Three

By The Associated Press

Milwaukee's Braves, swinging free and easy for a change, rapped 14 hits and beat Philadelphia 5-1 Monday night, junking their losing streak at three games and gaining a three-game National League lead over idle St. Louis.

The victory reduced the Braves' pennant - clinching magic number to nine. Any combination of Milwaukee victories and St. Louis defeats totalling nine gives the flag to the Braves. Both have 11 games to play.

The numeral combination that would officially end Brooklyn's chances for a third consecutive pennant slimmed to four as the Dodgers lost a 10-inning game 3-2 at Cincinnati. It was the only other NL game scheduled.

Two games were slated in the American League and both were rained out. The game between Chicago's second place White Sox and Washington was put on the shelf, to be rescheduled should it be necessary to determine the pennant.

As it stands, the New York Yankees, who were not scheduled, lead by 5½ with 10 games left. They have "7" for a magic number since the White Sox have 13 games remaining.

Buckshot Too Much for Golfer

TRAIL (CP) — Bob Fleming, pro golfer from Victoria, had something else to contend with besides the usual gallary chatter and a tough shot on the second hole of the Rossland-Trail golf course Sunday morning.

Participating in the $1000 Rossland-Trail Open, Fleming was not too disturbed when wild B.C. hunters on the second day for the season started blasting away further up on the wooded mountain at game.

But when buckshot rattled through the trees above his head, he indicated this was a horse of another color.

Cards' Manager Orders Tickets

ST. LOUIS (AP) — St. Louis baseball fans, their fingers crossed, are running a World Series fever.

The Redbirds in the last two weeks already had cut Milwaukee's 8½ games lead in the National League pennant chase to just 2½ games Monday.

If the Cardinal fans hadn't become excited before, Sunday's double victory over Pittsburgh was enough to do it. It was enough for the Cardinal front office, too.

Frank Lane, the Cardinals' rugged general manager, decided to put off no longer the expense of having World Series tickets printed. And, he wasted no time neither in dispatching two scouts to keep track of New York Yankees.

The Cardinals' field manager, Fred Hutchinson, is a tough baseball realist. But even he began to talk pennant for the first time.

"We're close enough that by winning the Brooklyn series here tonight and Wednesday we'll have a chance to beat Milwaukee ourselves over there next week," he said.

Former Big League Pitcher Dies

LOGAN, W. Va. (AP) — Max Butcher, who pitched for Brooklyn, Philadelphia and Pittsburgh during a 10-year career in the National League, died Sunday. He was 46.

His best season was a 17-12 mark with Pittsburgh in 1941. He won 95 games and lost 106 in the majors.

Trailite PNGA Zone Member

TACOMA (AP) — Reorganization of the Pacific Northwest Golf Association through formation of four seven - man zone committees was completed at a meeting here Saturday.

J. Gordon Bowers, Vancouver, was elected executive director and chairman of the board.

The 1958 PNGA tournament will be at Fircrest Golf Club, Tacoma.

Zone members for B.C. and Alberta are:

Bowers, J. C. McLean, Arthur B. Christopher and Alan F. Campbell, Vancouver; Alex Hendry and William H. Yardley, Victoria; and Buzz McGibney, Trail.

RUGBY SCORES

LONDON (Reuters)—Results in Monday night's British Rugby Union and League games:

SHAMROCKS WIN

BRAMPTON, Ont. (CP) — Victoria Shamrocks returned to form Monday night to defeat Brampton Excelsiors 8-7 and even at two games each their best-of-seven Canadian junior lacrosse final series for the Minto Cup.

LONDON (CP) — The strength of the Civil Defence Corps in England and Wales on June 30 was 323,912, says the Home Office.

Lions' Hopes Dimmed; Riders Drub Stamps

By The Canadian Press

Winnipeg Blue Bombers practically snuffed out British Columbia's hopes of gaining a Western Interprovincial Football Union playoff berth, defeating the Lions 41-21 Monday night before 22,218 fans at Vancouver.

Meanwhile at Regina Saskatchewan Roughriders kept their playoff hopes alive by trouncing Calgary Stampeders 44-27 in a Western Interprovincial Football Union game on slippery Taylor Field before 11,500 fans.

Bombers, now in second place with five wins and two losses, handed the last-place Lions their seventh straight defeat. The Vancouver club has had only one victory in the first half of the League schedule—and that the first game.

Although Lions held a 14-7 lead at half time, they lost all their punch and power in the second half when Bombers scored five touchdowns to one for B.C.

The victory was Riders' second in seven games and left them two games behind the third - place Stamps, who took their third straight defeat after four consecutive wins.

Bilko PCL Most Valuable

LOS ANGELES (AP) — Steve Bilko has been named most valuable player in the Pacific Coast League for the third consecutive year.

The slugging first baseman for the Los Angeles Angels, who hit 56 home runs, was chosen Sunday by a 6-2 vote of the eight Writers Association. The other two chapters in the PCL Baseball votes went to San Francisco's Leo Kelly who ran up a 21-6 record pitching almost entirely in relief.

Named to an all-star PCL team by the 60 baseball writers and broadcasters participating in the voting were:

First base, Bilko; second base, Ken Aspromonte, San Francisco, (now with the Boston Red Sox); third base, Jim Baumer, Hollywood; shortstop, Buddy Peterson, Vancouver; left field, Bill Renna, San Francisco; center field, Len Green, Vancouver; right field, Joe Taylor, Seattle; catcher, Bill Hall, Hollywood; pitchers, Kiely; Morrie Martin, Vancouver; Jim Grant, San Diego and George Witt, Hollywood.

Snead Wins 96th Tourney

DALLAS (AP) — Sam Snead, already the greatest winner in golf history, took his 96th tournament Monday with a three-under-par 68 that gave him 264 and first money by 10 strokes in the $40,000 Dallas Open.

The famous slammer from White Sulphur Springs, W. Va., had it easy over the 6328-yard Glen Lakes Country Club course.

Those who might have contended for first place faltered and as the tournament finished three players who were down the list Sunday surged into a tie for second place.

Toronto's Al Balding was eliminated Sunday after shooting 83 on the third round for a 225 total.

The cutoff for the professionals was 218.

Timbermen Refuse To Play

VICTORIA (CP) — The first game of the Canadian senior lacrosse finals was called off Monday night when Peterborough Timbermen refused to play Victoria Shamrocks because their scoring ace Bobby Allan was declared ineligible.

Pete King, an executive of the Peterborough club, emerged from the Timbermen's dressing room some 40 minutes after the game was scheduled to start and said:

"We're leaving: We're going home. We're tired of being pushed around."

Earlier the executive of the Canadian Lacrosse Association had delivered an ultimatum to the Timbermen: play without Allan or forfeit the game.

The CLA executive had met Monday and declared Allan ineligible because he signed playing forms with both the Peterborough Timbermen and the Nanaimo Timbermen, whom Victoria eliminated to enter the Canadian finals.

It was not known immediately what disposition will be made of the scheduled best-of-seven series for the Mann Cup in the light of Monday night's cancellation.

About 45 minutes after game time the announcer in Victoria's Memorial Arena announced the Timbermen refused to play and the game was cancelled.

Fights

Bangkok — Pone Kingpet, 111, Thailand, outpointed Hitoshi Misako, 110¼, Japan, 12. Oriental flyweight title.

Hats Off To Steam

Many of our customers have been astonished at having their hats taken from them and returned in a few minutes looking a whole lot better.

It's all done with a steam whatchamacallit and a brisk brush.

This is a service we will perform on request, on any make of hat. — We don't pretend that this takes the place of a full treatment. If your hat is really tired we will be delighted to sell you a new one. But if it could do with a little rejuvenation, by all means bring it in.

EMORY'S LTD.

"THE MAN'S STORE"

Outlaws Win Two at Creston, Cop Trophy

Nelson Outlaws with only an 11-man roster won both ends of a doubleheader from Creston Crusiers, 7-6 and 7-4, at Creston Sunday.

By virtue of their twin win, Outlaws brought home the Creston Valley Trophy, won by Creston last year.

The opening game wasn't decided until the ninth inning. Outlaws plated their seventh run in the top of the frame to take a two-run lead but Creston cut the margin to 7-6 and had the tying run on second with one out when Les Hufty bore down to strike out the last two batters.

Hufty, the winner, had relieved starter Stan Grill in the sixth, and limited Creston to three hits and a run. Grill allowed six hits and five runs. Hufty fanned seven.

In the eighth, Hufty proved tough in the clutch when with the bases loaded, two out and a 3-0 count on the batter, he threw three strikes, the first two being fouled off.

FIVE-HITTER

Leo Petty paced Nelson in the first game with two singles and a double, Don Hoffman had a single and a triple and Frankie Hufty and Al McDonald two singles each. Roemer had two hits for Creston.

Lefty Blair Olson pitched a five-hitter in the seven-inning second game in which Outlaws scored four in the first inning, only to have Creston tie the game at 4-4 with four in the third.

Creston contributed to Nelson's early lead with three errors in the opening inning. Roemer's home run and Page's triple highlighted Creston's big rally.

Outlaws scored their winning run in the fifth when Petty, who again had three hits, doubled home Frankie Hufty who had walked. Outlaws added two more in the seventh. Hoffman, who played third base, again had two hits.

Creston pitcher Wayling fanned six Nelson batters, including Ken White three times. White, however, had made his contribution to victory in the opening game by stealing home in the fourth inning.

Line scores:

Nelson	000 302 011—	7	11 5
Creston	112 010 001—	6	9 3

Grill, Hufty (6) and Nash; M. Folkman, Roemer (7), Messenchuk (9) and L. Folkman. W — Hufty; L—Messenchuk.

Nelson	400 010 2—	7	10 1
Creston	004 000 0—	4	5 5

Olson and Holmes; Wayling and L. Folkman. HR: Creston, Roemer.

Moore-Anthony Bout Friday

LOS ANGELES (AP) — After numerous feints and false starts, Archie Moore finally will defend his world light heavyweight title here Friday night against Tony Anthony, a New York youngster.

Archie, who will be 41 officially in mid-December, settled for a $90,000 guarantee to risk his crown in this 15 - round match that originally was scheduled for early summer in Detroit.

Anthony, 22, has been the favorite since the match was made but many expect Moore to be the choice if he makes the 175-pound weight limit without too much trouble. Although Archie has been over 202 pounds and weighed 187 for his last start in Germany, June 2, he always managed to make the weight.

The 15-round match will be carried on radio and TV.

CANADA ROUTS HAWAII WITH 11-6 VICTORY

DETROIT (AP)—Canada eliminated Hawaii from the global world series Monday, banging out 14 hits in an 11-6 victory.

The triumph boosted the Canadians into Tuesday night's semi-final. The team from Edmonton now has won two straight since suffering a 3-2 defeat by Japan in the first round.

Hawaii is the third team to be eliminated, joining Holland and Colombia on the sidelines. Teams from five countries remain in the running.

Hawaii	014 100 000—	6	4 6
Canada	301 320 11x—	11	14 3

In another night game, undefeated Japan dealt the U.S. its first defeat of the series, edging the U.S. champions 3-2. The Japanese team is the only club to win three straight games. The United States has won twice.

Mays Nudging Musial In NL Batting Race

NEW YORK (AP) — Willie Mays of New York Giants has moved to within three points of Stan Musial in the exciting National League batting race.

With Ted Williams' return to the Boston lineup indefinite, the NL competition has taken the play away from the American League derby in which Mickey Mantle will have to make up a seven point deficit with two weeks remaining in the regular season.

Here's the way the contenders stood Monday:

	AB	H	Pct
Musial, Cards	477	163	.342
Mays, Giants	552	187	.339
Williams, R. Sox	402	151	.376
Mantle, Yankees	461	170	.369

Mays, a strong finisher, gained five points in last week's games with nine hits in 19 tries. Musial returned to action Sunday after resting a shoulder injury. The St. Louis' star had three hits in six

SPLINTER ILL

trips in the doubleheader against Pittsburgh.

Williams, plagued by a chest cold, has not played since Sept. 1. Mantle got back into action Friday and has had five hits in 14 at bats since. His average did not change.

Roy Sievers of Washington virtually clinched the American home run crown. He slammed three last week, giving him 39 for the year. Mantle is second with 34. Sievers would be the first Senators' player ever to lead in circuit blows.

Vic Wertz of Cleveland is challenging Sievers for the runs batted in lead. The Indians' slugger drove in 12 runs last week. This gave him 98. Sievers has 106.

In the National League, Ernie Banks of Chicago hit six home runs to tie Milwaukee's Hank Aaron for the top spot. Each has 40. Aaron remained comfortably ahead in RBI's with 120. Musial and teammate Del Ennis are deadlocked for second with 98.

KNOW THE FACTS

Question:

HOW MUCH LOCAL LABOR IS EMPLOYED BUILDING THE NEW HOSPITAL?

Answer:

The general contractors have supplied the following information.

1. ALL PERSONNEL EMPLOYED BY THIS COMPANY, WITH THE EXCEPTION OF THE SUPERINTENDENT, ARE LOCAL HELP.
2. The current payroll on the project,—that is to say direct payroll in respect of carpenters and laborers employed by this company, stands at approximately $10,000 per month, and will increase until a peak should be reached about the middle of September, at which time it should level off and then decrease sometime after the New Year to a minimum of approximately $5000 per month up to completion.
3. Sub-contracts placed locally at the present time total in excess of $200,000, and through these subcontractors employ approximately ten men on the average throughout construction up to finishing stages, at which time it will probably cut back to approximately four.
4. One local sub-contractor has completed his work in an amount of approximately $25,000 OVER AND ABOVE the figures quoted in Item 3, and employed a number of machines requiring services and petroleum products from local suppliers and ALL LOCAL LABOR (Excavation work).
5. Indirect and miscellaneous expenditures by this company in the area are and will average approximately $3000 per month throughout the term of the contract.
6. Materials exclusive of concrete embraced in Item 3 will probably cost the company approximately $75,000 from local sources.
7. THE INCLUSION OF THE FOURTH FLOOR WILL, THROUGH ALL TRADES, MEAN A FURTHER $25,000 PAYROLL TO BE FED BACK INTO THE COMMUNITY.
8. It should be remembered that all sub-trades coming into the district will be employing as much local help as possible as a matter of policy.
