Egypt Turns Down Surrender Terms

World News Briefly

By The Canadian Press

MOSCOW—Premier Bulganin warns Britain and France that Russia is prepared to use force to end Anglo-French attack in Egypt; calls on United States to join Soviet Union in Middle East intervention.

UNITED NATIONS—Security Council refuses to consider Russian request for the U.S. and Russia to halt Egyptian fighting with UN backing.

LONDON—Britain and France announce Allied parachute troops have seized control of Port Said, Mediterranean terminal of the Suez Canal.

CAIRO—Egypt says battle for Port Said still raging. Asserts British and French casualties are heavy.

OTTAWA—Prime Minister St. Laurent says special session of parliament probably will be called to deal with contribution of Canadian troops to UN Middle East police force.

WASHINGTON—U.S. government rejects as "unthinkable" Russian proposal for joint U.S.-Russian military intervention in Egypt.

VIENNA—Russia combines force with pleas and threats to stamp out last sparks of nationalist uprising in Hungary; fierce fighting still reported in Budapest.

Hungarian Patriots Ignore Ultimatum

Soviet Still Trying To Stamp Out Last Embers of Revolt for Freedom

By RICHARD KASISCHKE

VIENNA (AP)—The Russians used guns, pleas and threats against insurgent holdouts Monday in an effort to snuff out the last breath of Hungary's freedom.

A new battle was reported shaping up at Dunapentele, in the Danube Valley south of Budapest, as surviving patriots appeared generally to ignore a broadcast Soviet ultimatum demanding surrender by 6 p.m. under threat of court martial. The deadline passed at noon.

Remnants of the freedom fighters, decimated by the Soviet attacks Sunday which put most of the country again under the Kremlins thumb, fought on in isolated actions.

"STOOD THEIR GROUND"

"They have stood their ground with *honor* against the Russian troops," said rebel radio Rakoczy in pinpointing industrial Csepel Island, in the Danube just south of Budapest, the city of Kecskemet, *50 miles southeast of Budapest*, as centres of continued fighting.

But "the situation is growing desperate," it said. "Very little ammunition is left." It reported some hospitals were burning and asked, in a message relayed by Radio Free Europe in Munich, for help from the International Red Cross in Switzerland.

Whereabouts of the station, *perhaps a portable transmitter*, was unknown to Western listeners. Rakoczy was a patriot who fought for Hungary's freedom from the Habsburgs.

Radio Budapest, *under control* of puppet Premier Janor Kadar after a few days of anti-Soviet freedom, broadcast Hungarian dance music between official pronouncements.

ORDER COMES FIRST

The bulletins it carried sought to win over the Hungarians with promises of political and economic reforms, patterned on the popular pledges of Imre Nagy, *the nationalist Communist premier* the Russians deposed Sunday.

"First it is necessary to restore order," the station said.

Living Costs at Record High

OTTAWA (CP)—A near across-the-board increase in prices, particularly in foods, pushed Canadian living costs in September to a record high level.

The Bureau of Statistics said Monday its consumer price index, based on 1949 prices equalling 100, advanced .7 per cent or .8 points in the month to 119.8 from 119 in August. The previous high was 119.1 in July, reached after three consecutive monthly increases. In September, 1955, it stood at 116.9.

The bureau said the September increase was mainly caused by a 1.6 per cent boost in food costs. Other component groups making up the index also registered advances ranging from .1 to .5 per cent.

Moderate price increases for a *considerable number of products* pushed the food index to 117.4 from 115.5. Tomatoes and lettuce showed sharp advances, while most canned goods and imported fresh fruits, cereal products, *fats*, coffee, pork, canned salmon and chocolate rose moderately.

The only price decreases reported were for other fresh vegetables, *eggs* and apples.

Small increases in rents and the price of homes boosted the shelter index to 133.3 from 133.1. The clothing index also rose fractionally to *108.5 from 108.4*.

The household operation sub-index advanced to 117.7 from 117.1 as a result of higher prices for most utensils and equipment and *a number of household supplies*.

Higher fees for dental, medical and optical care and boosts in rates for prepaid health care in British Columbia chiefly were responsible for an increase in the "other" commodities and services sub - index, which rose to 121.6 from 121.4.

The index of 30 industrial material prices, based on 1935-39 prices equalling 100, dropped to 247.8 at Oct. 24 from 250 a year earlier.

CLOTHING SENT TO REFUGEES

VANCOUVER (CP) — A shipment of clothing, originally intended for vitcorious Hungarian rebels, will leave here Thursday for Hungarian refugees fleeing from their country.

Profesor Miklos Udvardy, of the University of British Columbia, said the campaign for more clothing and other goods will continue.

The clothing will be shipped via the Panama Canal and will be distributed through the Netherlands and Germany.

Deluge Drowns Scientific Rocket

FORT CHURCHILL, Man. (CP) —An emergency deluge system dumped hundreds of gallons of water on a 30-foot scientific rocket near here today after a helium sphere broke, sending clouds of acid fuel billowing from a high steel-covered launching tower.

Firing of the American - built Aerobee-Hi rocket, third of a series of rockets to be set off here in preliminary tests, was cancelled until officials could make a safety check of facilities and determine damage to the tower. No one was injured.

Aerobee - Hi launchings have rarely been without mishap. Of six such rockets fired at sites in the United States one exploded at the top of a launching tower, three only reached *10,000 feet* and two went 100 miles up, officials said.

Voting Today For Ike or Adlai

By GEORGE KITCHEN
Canadian Press Staff Writer

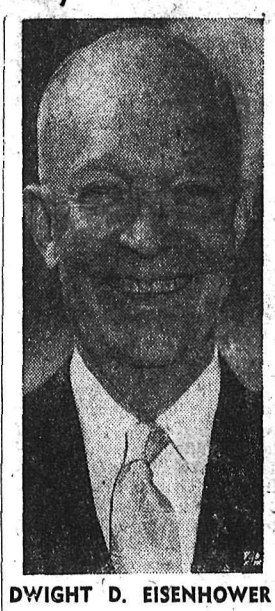
WASHINGTON (C) — Sixty million Americans vote today against the backdrop of flaming *Middle East warfare* and a savage Soviet onslaught on the freedom fighters of embattled Hungary.

The dramatic developments in the Mediterranean and central Europe gave this presidential election a climatic flavor without parallel in modern U.S. political history.

The election atmosphere was charged with tension and suspense as the American people prepared to choose a president to lead the country for the next four years and a Congress to wield legislative power for the next two years.

As the curtain came down on the six-week election campaign, the presidential choice lay between two men—President Dwight D. Eisenhower, now ending his first four years in the White House and seeking a second term, and Adlai E. Stevenson, the one-time Illinois governor taking his second crack at the presidency.

In the companion congressional contests, always overshadowed by the drama of the presidential race an equally important political prize is at stake—legislative control in both the Senate and the *House of Representatives*.



DWIGHT D. EISENHOWER

ADLAI E. STEVENSON

EARLY RETURNS GIVE IKE LEAD

HART'S LOCATION, N.H. (AP) — Three early-bird towns in New Hampshire gave President Eisenhower a 25-to-5 lead over Adlai Stevenson today in the first returns of the United States election.

For what it's worth, the same three towns gave the president a 24-to-4 margin over his Democratic challenger in 1952. New Hampshire permits its small communities to set their own polling hours and a few prefer to get it over with early.

While the president maintained his 1952 lead in the three towns combined, Stevenson had the *satisfaction* of taking one he lost to Eisenhower in 1952.

By-Election May Indicate Opinion In Britain

By KEN METHERAL
Canadian Press Staff Writer

LONDON (CP) — A by-election next week in the walled city of Chester will serve as a barometer *of national opinion on the decision* of Britain's Conservative government to employ military force in Egypt.

With typical pre-election confidence, *all three candidates* for the Chester seat predict the Middle East crisis will swing votes in their favor when electors cast their ballots Nov. 15.

The by-election is the 14th in the life of the present Parliament and the first since Britain found herself facing the censure of the United Nations and sharply and bitterly divided within herself over the rights and wrongs of military intervention.

New Bomb on Way To Vancouver

VANCOUVER (CP) — A new cobalt bomb is being sent here from Chalk River, Ont., to replace the one that has lost its potency at the British Columbia Cancer Institute, Dr. R. D. Nash, assistant director of the institute, said today.

Dr. Nash said it is normal for the thumb-sized bombs to deteriorate after four or five years so it is uneconomical to use them any longer. Deterioration made it necessary to lengthen treatments from 15 to 18 minutes.

Dr. Nash said he does not know the cost of the new bomb but one of the original ones made at Chalk River cost $40,000.

The present bomb has been in use at the institute since 1952.

SINGER REFUSED REVIEW

WASHINGTON (AP) — Paul Robeson Monday was denied a Supreme Court review of his efforts to compel the State Department to give him a passport for European travel. The department said he could ask for a review after filing of a non - Communist affidavit. Robeson declined to do this.

EIGHT KILLED IN AIRLINER CRASH

BLACKBUSHE, England (CP) —A transport plane carrying British evacuees from the Middle East crashed and burned near here early today.

At least eight persons were killed.

Four other persons were unaccounted for, an official at Blackbushe airport near the crash scene reported. Many persons were injured.

The known dead were three members of the plane crew, an unidentified adult and four children.

Pope Calls for End To Bloodshed

VATICAN CITY (AP) — The Pope pleaded Monday night for an end of bloodshed in Hungary and for, restoration of a just order among all nations.

The 80-year-old head of the Roman Catholic Church made his latest plea in an episcopal letter issued to bishops everywhere.

The recent news from Hungary, the Pope said, "has filled our soul with extreme bitterness."

MEMORIAL SERVICE

VICTORIA (CP) — A short memorial service to honor the civil servants who gave their lives in two World Wars will be held in the rotunda of the Legislative Buildings Friday afternoon.

'Steel Smelter For E. Kootenay Studied

CALGARY (CP) — Plans for the first steel smelter in Western Canada — at the eastern end of the Crowsnest Pass — are being studied by a group of French and Canadian industrialists, it was learned Monday.

The French group was represented by M. A. De Boisseleu, president of the Union Europienne Bank, Paris; M. Dhavernas, Montreal; and M. E. De Lauriston, Paris.

If established, the smelter would cost well in excess of $5,000,000 and would employ about 250 persons.

The group found that most of the required facilities were present in the area or could be made available economically.

The proposal hinges partially on the amount of co-operation that could be obtained from the governments in the form of tax assistance and in the procurement of leases and permits.

Also needed would be the co-operation to assure adequate power supply and assurances of markets in Western Canada.

Boy Killed In Shooting Mishap

QUESNEL, B.C. (CP) — Eight-year-old Lloyd Ben Lavally was accidently shot and killed at his home 35 miles south of Quesnel Sunday.

His brother Wayne, 14, could give no details of the fatal accident when questioned by police today. They said the surviving boy talked incoherently and was suffering from shock.

Death is believed to have been due to a wound from a rifle bullet.

Mine To Be Sealed Off; Dead To Be Left

By DON HOYT
Canadian Press Staff Writer

SPRINGHILL, N.S. (CP)—Cumberland No. 4 mine, ravaged by explosion and permeated by poisonous gas four days ago, will be sealed off for two months as a safety precaution.

The sad decision to block the pit and throttle its air passages was made Monday by Harold Gordon, coal chief of the Dominion Steel and Coal Corporation, a few hours after a stretcher bearing the 88th and last survivor of Thursday's underground blast was taken to a nearby emergency hospital.

Somewhere in the mine's spiderwork of clammy passageways are the bodies of 24 men.

CAN'T RISK OTHER LIVES

Visibly shaken as he made the announcement, the usually abrupt former draegerman said the lives of other miners could not be jeopardized to bring out the dead. The mine was being sealed to eliminate danger of fire and explosion.

Further attempts to search the lower levels for bodies would require the pumping of abnormal quantities of air. A greater flow of air would tend to fan still-smouldering fires into explosion proportions.

In Montreal, Lionel A. Forsyth, Dosco president, said an inquiry into the Springhill disaster will be started soon by the federal mines department.

FINAL TALLY

This is the final tally on casualties and rescued, announced officially this morning:

Dead bodies recovered 13; known to be dead (bodies underground) 24; injured 1; rescued 88.

Decision to seal the mine was the end of one of the most dramatic chapters in Canadian mining history — a chapter filled with *death, heroism, faith, sadness and joy*.

British Commandos Landing; Soviet Threatens Intervention

LONDON (CP)—The British-French high command on Cyprus announced Monday that the Egyptians in Port Said have rejected surrender terms and British commandos are landing in the area to follow up the Allied paratroop operations.

An Allied communique broadcast from Cyprus at 7:45 a.m. (Cyprus time) said French paratroopers had completed the capture of Port Fouad, opposite Port Said on the east bank of the Suez Canal's Mediterranean end.

This could be an indication that the British commandos were being landed there *from ships*, although the communique did not specify that the first seaborne operation of the British-French invasion of Egypt.

The communique said the Allied terms for the surrender of Port Said, "accepted early last night, were later rejected by the Egyptians on orders from Cairo." The communique continued:

"The capture of Port Fouad was completed by French paratroopers.

"No. 3 Commando Brigade is landing this morning to exploit British paratroop operations in Port Said."

The British and French paratroopers launched the invasion of Egypt with jumps into the Port Said area at 7:30 Monday morning. *Throughout the day* the Allied command claimed operations were proceeding successfully, Egyptian announcements in Cairo claimed the invaders were being annihilated.

Late Monday the Allied command announced the paratroops were in control of Port Said, that Egyptian police were keeping order under Allied command, and that the French-Oriental style city was under curfew.

There followed a night of confusion, during which it was first reported that the Egyptians had accepted surrender *terms*, and later that they had rejected them.

The apparent British-French triumph after 12 hours of violent fighting was chilled by a Soviet *threat of military intervention*.

Russia Threatens Use of Force

The Soviet move was made by Premier Bulganin in:

1. **An appeal to President Eisenhower for joint U. S.-Soviet military action under the United Nations in Egypt.**

2. **A threat to use military force against Britain and France if they carry on in Egypt. A similar threat was made to Israel.**

The British and French said they seized control of Port Said after heavy fighting.

Less than three hours earlier, the Egyptian army claimed the first wave of paratroops was "annihilated." It insisted a battle of annihilation was on against a second wave of parachute troops.

The first British and French paratroops from Cyprus were dropped over the canal zone at 7:30 a.m.

First resistance was reported light. It came mostly from anti-aircraft gunners.

PORT CUT OFF

The lightening thrust from the air appeared to have cut off Port Said quickly from the rest of Egypt.

The British and French seized control of Gamil airport east of Port Said. Some of the heaviest fighting raged there.

Other parachute forces were dropped south of Gamil and on the bank of the canal east of Port Said.

French officers back from Gamil airport said at least 70 Egyptians were killed in the first assault.

Fighting increased in intensity at midday. Both sides claimed they had inflicted heavy losses.

The smoke of battle was clearly visible in Cairo, the Egyptian capital about 70 miles southwest of Port Said.

Late in the day, the Egyptian commander asked for and was granted a ceasefire, Allied headquarters reported.

British Brig. M. A. H. Butler, commander of the parachute troop force, negotiated a ceasefire.

He announced a curfew was in force and that Egyptian police in Port Said were working under Allied control.

Then came the announcement that surrender terms had been rejected.

UN Security Council Called

Russia asked the UN security Council to serve an ultimatum on Britain, France and Israel to stop all fighting within 12 hours.

The UN Security Council in New York called an urgent session on the Soviet demand.

The UN General Assembly in New York also struggled to halt the fighting. It planned to send a UN police force into Egypt as *quickly as possible*.

Egypt accepted the police force idea.

Britain and France had said previously they were willing to make way for a police force once the situation is stabilized.

The British and French went ahead with their D - Day jumps despite a 57-to-0 vote in the UN General Assembly early Monday to throw an international police force into the Middle East pending settlements of the Israeli-Egyptian conflict and of the question of control of the Suez Canal.

The British and French turned down the UN plea that they hold their fire against Egypt, but said they would welcome the international police if Israel and Egypt accept the idea. They said they would want a hand in formation *of such a police force*.

The British, with their French allies, returned to Port Said just four months and 22 days after the last British soldier pulled out of the Canal Zone in keeping with a 1954 agreement.

The canal, nationalized by Egyptian President Nasser on July 26, already is reported blocked by nine sunken ships. The Egyptians say ships were sunk in the channel by air attack; the British and French claim the blockage is by Egyptian design. But British Defence Minister Antony Head said ships already are on the way to the Suez area to clear out the obstructions.

U.S. Turns Down Russ Proposal

WASHINGTON (AP) — The White House Monday night labelled as "unthinkable" the proposal by Soviet Premier Bulganin that Russia and the United States join in military intervention to halt what Bulganin termed British-French "aggression" in Egypt.

At the same time, a White House statement called on the Soviet Union again to withdraw its troops from Hungary, where Russia is crushing a rebellion against Moscow domination.

The White House statement was issued several hours after Moscow announced dispatch of a new Bulganin note to Eisenhower, calling for joint American-Soviet military action—backed by the United Nations—to stop the fighting in the Middle East. The White House said.

"This letter — in an obvious attempt to divert world attention from the Hungarian tragedy — makes the unthinkable suggestion that the United States join with the Soviet Union in a bipartite employment of their military forces to stop the fighting in Egypt."

Bennett Expects Liberal Defeat

VICTORIA (CP) — Defeat of the Liberal government in next June's federal election was predicted Monday by Premier Bennett.

"I'm sure the Liberals will be unseated," he said, "but I don't think any party will have an overall majority."

He also said it would be in the *interests of* B.C. if electors sent a solid bloc of Social Crediters to represent the province in the next federal House of Commons.

"In the next federal election the people of B.C. will see the wisdom of sending down 22 Social Credit members to support this provincial government which has bee nelected for the next four years."

Girls Found Not Guilty In Cemetery Case

ALBERNI, B.C. (CP) — Two teenage girls charged with offering an indignity to a human body were found not guilty in county court here Monday.

They are Jean Gibson, 17, and Doreen Lochner, 19, charged along with two youths following a ghoulish midnight raid on Greenwood cemetery here Sept. 23.

Convicted of the offence was William Harold Nelson, 18. He was sentenced to two years definite and two years indefinite after pleading guilty in magistrate's court.

Also charged is David Windsor Ferguson, 19, who has chosen trial by judge and jury. He will appear at the fall assizes in Nanaimo.

Bennett Urges Ease Credit Curbs

VICTORIA (CP) — Federal government credit restrictions Monday took another blasting at the *hands of Premier Bennett*.

"Any tightening of the money supply will hinder the provincial government's program of easing unemployment," he said. "It isn't *any good to say* the situation is better than last year. Unemployed fellows are not statistics. They are human beings."

With Canada in the north temperate zone, he said, there was no reason why everyone shouldn't be employed on a year-round basis.

"We think the seasonal slack should be taken up," he said.

EDEN, MOLLET BURNED IN EFFIGY

NEW DELHI (Reuters) — Two hundred Indian hotel workers carried straw *effigies of Prime Minister* Eden and French Premier Mollet, in a mock funeral procession through the streets of New Delhi Monday to burn them outside the British *high commission*. Eden's effigy was decorated with an empty whiskey bottle.

14-Year-Term for Drug Trafficking

VANCOUVER (CP) — Michael *John Morgan, 35, was sentenced* today to 14 years in prison on a charge of drug trafficking.

Morgan pleaded guilty after his arrest Oct. 26 when police found *16 ounces of heroin worth $50,000* in his home.

Pope Urges Defence

VATICAN CITY (AP)—Vatican Radio called upon the United Nations Monday to "perform its essential duties," recalling that the Pope has said the community of *people must be prepared to defend* themselves against "international malefactors."

Loading Zone Problem Again Worries Council

A debate on policy establishing loading and unloading zones — a perennial problem at Council meetings and one which, Ald. Arthur Foster stated, will grow as the number of vehicles on city streets increases — occupied a considerable part of Monday night's City Council meeting.

The discussion, as on previous occasions, came about through a request for designation of a new zone, this time for Liberty food store.

Liberty president G. D. Kalway, secretary, J. D. Hingwing and meat department manager Leo Whitelock spoke on behalf of the firm's written request. Supporting letters were received from Canadian Bakeries Ltd., Truck Terminus (Nelson) Ltd., Palm Dairies Ltd., and W. H. Malkin Co., Ltd.

The store's belt loading system has proved unsatisfactory, it was explained, and when used for perishable goods such as meat has created a sanitation problem.

The only alternative, in the company's opinion and in the views of Councillors who looked over the situation, appeared to be in designating a one-bay (22 foot) parking space in front of the store as a loading zone. The paralled parking space nearest to the intersection of Hall and Vernon Streets was specified.

Council, with Alderman J. W. McClelland and acting mayor Ald. C. F. Blakeman as leading advocates, acceded to the request, subject to revision and providing trucks do not interefere with pedestrian traffic on the sidewalk.

"NOT SODLUTION"

Aldermen Arthur Forest and Elizabeth Wallach, while making it clear that they were sympathetic to Liberty's appeal, voted against the action, but did not wish their opposition recorded.

A number of requests from firms in similar straits (notably those entirely lacking rear access) have come before Council this year, some of which have been granted and some refused, Ald. Wallach noted.

By making "individual concessions" which set precedents, Council was not solving the general problem, Ald. Forest said.

Both favored referring the matter to a committee for a policy recommendation affecting the entire business area. A loading zone for every block, for use of all businesses in each block, was suggested.

Other aldermen admitted that an overall policy was needed, but felt that no advantage would be gained by deferring action on Liberty's request.

Club's Vocational Service Stressed

Aspects of a club's vocational service to the community were discussed by guest speaker J. W. Loader, station manager of CJAT in Trail, at a meeting of Nelson Rotarians Monday.

"Service before self" and its indirect application to international affairs from standards of community living was noted.

"Business is an opportunity to express service in society, both spiritually and practically," he continued. "It begins with a frame of mind—a moral approach and an eithical policy.

He suggested a means of applying the golden rule to business by the "four-way test"—"Was it truth? Was it fair? Will it bring good will and friendship? Will it be beneficial to all concerned?" He illustrated his conclusions with actual experiences he had encountered in business where in this approach had dissolved enmities.

Rotarians are admitted to the club by their classification in community business and should be fairminded leaders in their fields, he said.

Guests at the meeting were M. C. Donaldson, past president of the Salmo club; Angus Fraser of Calgary and O. P. Larsen of Salmo.

Owing to the Remembrance Day weekend, there will be no meeting next Monday.

Fined $50

Steve Hecker of Nelson was charged with driving without care and attention in connection with a collision October 24 at the intersection of Willow and Front Streets. Hecker was found guilty and fined $50 and costs by Magistrate R. S. Nelson in city court Saturday. He pleaded not guilty to the charge stating he saw the oncoming car and thought he had time to make a left turn onto Willow Street. The case had been adjourned from October 25 to October 30 and then readjourned for the final decision until Saturday.

The accident occurred when Hecker, driving west on Front Street, proceeded to turn onto Willow in the path of an approaching late model English car driven by A. Neufeld. A passenger in the car, H. Neufeld suffered facial abrasions. Damages to the car were estimated at $250 and to Hecker's truck $236. Lawyer for the defence was G. B. Arnesen. Two witnesses were called.

Three witnesses testified for the Crown.

Guard Report Hit By Prisoner

VANCOUVER (CP) — Oakalla prison farm officials said Monday a prisoner hit a guard in the face with a shovel Friday night.

It was learned that two stitches were put in the guard's face.

Officials did not identify the guard nor his assailant and did not say what action would be

H. D. HARRISON CHOSEN TO HEAD CENTRAL CENTENNIAL COMMITTEE

The organization machinery has been set up for Nelson's diamond jubilee and B.C. centennial observances.

City Council Monday night appointed a committee, headed by H. D. Harrison, to serve as the nucleus organization, with power to add to their numbers.

With Mr. Harrison as chairman, the committee consists of Ald. Elizabeth Wallach, Ald. Arthur Foster, Magistrate R. S. Nelson, T. S. Shorthouse, K. D. McRae, William S. Ramsay, V. C. Owen and Nelson Allen.

The committee, in the opinion of acting mayor Ald. C. F. Blakeman, expressed to the Council, "is one that should be able to do the job".

One of the members, Mr. Shorthouse, was chairman of Nelson's successful Golden Jubilee celebration of 1947.

Juvenile Blamed For Three Fires

Investigation into three Rosemont fires revealed that a juvenile was responsible and appropriate action is being taken, authorities said Monday night.

Arson was suspected in fires at a garage owned by L. S. Gansner on Robertson Avenue, Thursday; at the residence of William Oliver at 1220 Crossley Avenue Saturday in which damage was extensive; and in a woodshed owned by Charles Ross in the 1200 block, Vancouver Street, in which a cord of wood was destroyed along with the shed.

Investigation was conducted by Cpl. Alex Borodula of the RCMP, assisted by Fire Chief E. S. Owens, and city police.

THREE COLLISIONS INVESTIGATED

THREE COLLISIONS - 5 _ Pge 2

Police are investigating three auto collisions which occurred Friday evening in Nelson.

Mrs. W. C. Murphy, proceeding east on Silica Street, and Joe Stamerra, travelling south on Josephine, collided at the intersection of the two streets. Damages estimated at $300 were incurred.

A juvenile's car proceeding south in the 600 block, Cedar Street, sideswiped a car owned by R. Ludlow parked on the west side of Cedar. The youth reportedly had been unable to change gear on the hill and lost control of the car. Damages amounted to approximately $300.

Two juveniles collided at the intersection of Davies and Fourth Streets, with an estimated $500 damages. One juvenile proceeding along Fourth Street allegedly failed to stop at the stop sign and crashed into a car travelling west on Davies Street.

ADRIEN CARMEN BORNE TO REST BY TEAM MATES

Fellow members of the Nelson Royals women's softball team, friends, and school mates attended funeral of 14-year-old Adrien Carmen Monday at the Thompson Funeral Home, with Rev. E. Hanson officiating.

Miss Carmen, a member of the championship softball team, died Thursday at the age of 14. Hymns sung were "Nearer, my God, to Thee," and "Lead, kindly light," with Mrs. W. A. Manson at the organ.

Pallbearers were all fellow team members, Betty Phillips, Dixie Barrett, Maxine Mermet, Carol Dozzi, Ruth Bambrick and Marie Stangherlin. Interment was in the Nelson Memorial Park.

FOE RITES FOR P. WINSTANLEY

Members of the Nelson aerie, Fraternal Order of Eagles, and the Ladies' Auxiliary to the Eagles, attended funeral services for Peter Winstanley, 41, who was fatally injured in a crossing collision Thursday.

Rev. E. Donovan Jones officiated at the rites Monday in Thompson Funeral Home, and interment was in Nelson Memorial Park. Graveside service was conducted by the Eagles. Many friends attended and sent flowers.

Hymns sung were "Nearer, my God, to Thee," and "Dear Lord and Father of Mankind." Mrs W. A. Manson was organist. Pallbearers were F. E. Keinholtz, S. Maco, S. Verseghy, H. J. Larson, C. A. DeFerro, E. T. Ratkowski, all members of the Nelson aerie FOE.

Council Jottings...

Ald. C. F. Blakeman, acting mayor for the last quarter of the year, conducted Monday night's City Council meeting in the absence of Mayor Joseph Kary.

The mayor left Friday for Hanna, Alta., owing to the death of his mother.

Sixty-four parking meters were repaired during September, compared with 58 in the same month last year. Three meters were repainted. The work required 108 hours of labor, a slight reduction from September, 1955.

• • •

The gas department made 1458 m.c.f. in September, and output amounted to 1397 m.c.f., compared with 1576 m.c.f. and 1207 m.c.f. in September, 1955. The gas averaged 583.9 b.t.u.s per cubic foot, slightly less than in the comparative year. The department used 8994 gallons of propane to manufacture the gas, more than in September, 1955, when 7809 gallons were used. Thirty services were cut on, and 35 were cut off, five appliances were connected, five were disconnected, and two meters were repaired.

• • •

Approval was given to Nelson branch of the Canadian Legion to conduct Poppy Day sales November 10, as is done annually.

• • •

A letter of appreciation was received from Rev. Canon W. J. Silverwood for the city's grant of $50 toward his expenses in attending the recent provincial conference on juvenile delinquency, called by the John Howard Society.

• • •

In view of its value to Nelson's tourist industry, W. E. Rusnack asked, in a letter, publicity for a trailer and tent court which he is constructing two blocks east of the West Arm bridge approach, on the North Shore. The court will handle about 30 trailers and up to 200 tents, he stated. Council referred the letter to the Chamber of Commerce.

• • •

A detailed report on fire department activities during September and October was received from Chief Elwin S. Owens, and comment on its thoroughness was made by acting mayor Ald. C. F. Blakeman. In the two months, there was no loss by fire within the city. The department answered calls from outside the municipality in which losses amounted to $250. Fifteen public buildings were inspected in September and five in October, 20 oil permits were issued in September and 40 in October, and in September five orders were issued.

Many fire prevention activities were carried out including special drills in public, smoke fire drills in all schools, essay contests, school poster competitions and an aerial leaflet drop.

"The objective of our year-round fire prevention campaign . . . is to emphasize to the public the ever present danger of fire to human life and property. The educational approach has its limitations and must be supported by the application of modern techniques of construction, protection and statutory requirements," the chief stated.

• • •

Immediate action will be taken to temporarily remedy a problem created by unevenness of the Ward Street sidewalk at the Madden Hotel. The concrete surface slopes badly, owing to settling into the bed of Ward Creek which once coursed through the area. In winter and spring, water which should flow down the gutter streams down the dip in the sidewalk, affecting the hotel. The law firm of McBride and Allan wrote for action on behalf of the hotel, repeating a request made in the Spring.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain. Thousands have been relieved—without resort to surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®) — discovery of a famous scientific institute.

Now you can get this new healing substance in suppository or ointment form called *Preparation H®*. Ask for it at all drug stores. Satisfaction guaranteed or money refunded.

Open House Wednesday At New Nelson School

Public inspection of the new South Nelson Elementary School is planned Wednesday night, George Mermet, chairman of Nelson District No. 7 School Board, announced Monday.

Completion of renovation and alterations of the building, for 50 years of the Nelson High School, marks an end to projects planned under the $2,150,000 schools building bylaw passed late in 1952 by the ratepayers of city and district.

The old school was vacated in March upon opening of the new L. V. Rogers High School. Rebuilding was carried out at an approximate cost of $100,000 by Stange Construction Company, and the school was ready for classes by Sept. 1.

Mr. Mermet said that the new elementary school still requires "a few finishing touches" which will have to await the next budget.

He felt the public would be proud of the school, which "is functioning well and has provided much needed relief to the overcrowded Central Elementary School."

The staff is headed by Principal F. K. Evans, who enrolls Grade VI; and other members are Floyd Searle, Grade V; N. Thompson, Grade IV; Mrs. W. Burbidge, Grade III; Miss M. MacDonald, Grade II; Mrs. G. Phillips, Grade I, and Mrs. P. J. Barnes, opportunity class. Relief teacher is Mrs. V. DeLong.

Total enrollment is 222.

STILL NEED ROOMS

Mr. Mermet said future building or extensive renovation will have to await another bylaw, although the department of education allows a school district to spend $30,000 yearly on capital outlay without going to the ratepayers. This amount, however, is not sufficient for the board to proceed with any extensive work.

Problems facing the board in the "not too distant future," Mr. Mermet said, are additional rooms for Nelson Junior High School, now "bulging at the seams," enlarging of the manual training shops at L. V Rogers High School, extra classrooms throughout the district, and, if it proves economical, renovation of Central School. The entire district is being studied by the board.

Mr. Mermet said that cost of building had risen since passage of the building bylaw, but by careful planning, the board had been able to complete all building promised without having to go back to the ratepayers.

During the "open house" Wednesday night, the Parent-Teacher Association will serve refreshments.

Trial of Youths Continues

Complainant in a rape case involving six Trail district youths finished about seven hours of testimony at noon Monday before His Lordship Mr. Justice T. W. Brown in Assize Court at Nelson.

The 16-year-old school girl claims to have been attacked about five times on May 22 by George A. Aitken, William R. Gallamore, Brian D. Milne and Robert N. McLaren. Wayne McLaren and Newton C. Smith are said to have assisted them. Crown prosecutor is Leo S. Gansner and defence counsel are Michael E. Moran of Castlegar and Donald L. Brothers of Trail.

After the noon adjournment, counsel and jury inspected Smith's car in the Court House parking lot. An RCMP officer who had seen the vehicle May 23 described it for the Court record.

A scientist from the crime detection laboratory in Regina said she had examined the clothing, and found stains on some of the girl's clothing. A floor mat, seat cover, and cushions from the car were also examined.

Further RCMP testimony was that there was little traffic on the Summit Road leading to Christina Lake, along which the alleged attack occurred. However, the officer admitted to Mr. Moran that he could not accurately say how much trafifc would use the road.

Referring to statements exhibited from Gallamore and Aitken, the same officer told Mr. Moran that Gallamore was "willing and cooperative" in telling about the incident, but that Aitken was "hesitant at first". The policeman said he had "no way of knowing" whether they were telling the truth. Attempts to present statements from Bobby McLaren and Brian Milne were interrupted by Mr. Gansner, and the jury was excused for the day while the two lawyers had a brief "trial within a trial". His Lordship will hand down his decision before the case resumes at 10 a.m. today. Sittings are expected to last until about 9 p.m. tonight in order to speed up proceedings.

About 50 jurors, including two women, from whom a panel will be chosen to try a Salmo man for attempted rape, reported Monday morning, but were excused until this morning.

Scottish Dancing Classes Planned

If you think you can catch the smell of the heather around Nelson's Civic Centre these days you're right! It's Joe Johnson, recreational director, getting ready for classes in Scottish country dancing.

Classes will be arranged on a convenient night, and there will even be an opportunity for the youngsters to learn the Sword Dance and other dances from the Highlands in a junior group.

Loaded Gun Costs $25 Fine

Having a loaded hunting rifle in his car cost Clifford Warnock $25 and costs Monday.

He also pleaded guilty to having no licence for the gun, and paid another $15. Penalties were imposed by Stipendiary Magistrate William Evans in provincial court.

JUVENILES REMANDED

Three coast juveniles appeared Monday before Stipendiary Magistrate William Evans in provincial court, charged with passing worthless cheques. They were remanded until the parents can appear in court.

Civil Defence Officer Resigns, J. R. Bailey Named by Council

Appointment of J. R. Bailey as civil defence officer for the city was made by City Council Monday night, following acceptance of W. N. Bowcock's resignation from the post.

A letter of appreciation for his services will be sent to Mr Bowcock.

Mr. Bailey was recommended for the position by civil defence co-ordinator E. W. White, who discribed him as an active and enthusiastic worker in civil defence in a letter to Council.

Ald. W. S. Smith spoke in favor of the appointment.

Troup Audience Overwhelmed

A brilliant performance by Malcolm Troup at the grand piano in the Capitol Theatre Monday night gave an appreciative audience a musical feast.

An impeccable performance of Brahms' Variations on a Theme of Pagnini, Op. 35, and Bach's "Partita in B Flat Major" were heard.

As tribute to his teacher, the late Walter Gieseking, he played Ondine, by Ravelli.

Canada was typified in "Variations of God Save the Queen", composed by Troup and dedicated to the Imperial Order of the Daughters of the Empire, for their "remarkable kindness in promoting the careers of young people".

In a straight-backed chair instead of the usual bench, he musically relived the Legende No. 2, "St. Francis Walking on the Waves", by Liszt, and played three Jazz Preludes by Gershwin, including a sensuous blues.

Troup will perform in Trail tonight. Several enthusiastic members of the Nelson audience stated they would be making the trip to hear him again.

The only discord in an otherwise captivating evening was the small audience.

NEW PARKING RULES ON VERNON

Parking meters limited to 15-minute intervals have been installed in front of the post office in the 500 block Vernon Street. The meters are expected to relieve parking congestion in the area.

Parallel parking has also been designated for the 500 block, Vernon Street. Cars are now permitted to park on both sides of the boulevard and along the curbs.

Scooter Driver In Fair Condition

CASTLEGAR — In fair condition at Trail-Tadanac Hospital is Charles Romano of Castlegar, who was seriously injured in the collision of a scooter and car near here late Sunday afternoon.

Mr. Romano was driving the scooter when it was in collision with the rear end of a motor vehicle driven by Robert Hunter of Castlegar, who was turning into his driveway at the time.

Scooter passenger V. Antignani and his six-year-old son Gerry were only slightly hurt. RCMP are still investigating.

Pick Wednesday Store Closing

CASTLEGAR — Castlegar villagers chose Wednesday as their favorite closing day in a referendum vote here Monday.

In a light vote, 189 voted for Wednesday retail store closings, and 141 for Monday. Possible vote was 832, and only 336 voted. Six ballots were rejected.

Retail Merchants Association has been split on the issue. With Wednesday closings, it is planned to close the stores only in the afternoons.

More Girls Needed For Rock and Roll

Civic Recreation Director Joe Johnson reported a good turnout at the first rock and roll dance session Friday night. However, he said there was a shortage of girls.

A committee was set up last week to organize the sessions, but Mr. Johnson has decided to conduct them himself, at least until he can tell which members are actively interested in the group.

Rites at Spokane For Miss H. Estby

Burial will be at Mica Creek Cemetery at Spokane for Miss Hannah Estby, 89, who died at Mount St. Francis Infirmary Friday. Funeral services at Nelson were held Saturday in Thompson Funeral Home, Rev. E. D. Jones officiating. Hymns sung were "Lead Kindly Light" and "Abide With Me". Mrs. Estby was a pioneer resident of Nelson and Spokane.

SPEEDER FINED

Jake Wiens of Fruitvale paid $10 and costs when he pleaded guilty to speeding at Balfour. The charge was made before Stipendiary Magistrate William Evans in provincial court Monday.

Former Creston Man Remanded On Charge of Murder in London

LONDON (CP) — Richard Rhodes Henley, 26, of Creston and Dartmouth, N.S., was remanded Monday until November 13 on a charge of murder in the death of Alan Robinson in a Soho bookshop October 27. Henley was a crew member of the destroyer Iroquois.

Reports in Creston indicate that Henley was a student at the local high school for part of the 1945-46 term in grade 10. He came to the district from Langley Prairie.

Bland North Shore Area Representative

WILLOW POINT — Charles Bland of Nelson was elected rural representative for the North Shore at a well attended meeting of the Willow Point attendance area of Nelson District No. 7 School Board Monday night. Mr. Bland is at present industrial representative on the board.

Mrs. Gordon Sargent, trustee for Longbeach, read the school board report on activities over this year.

George Mennet, board chairman, J. S. Livingstone, secretary-treasurer, F. N. Emmott and Mr. Bland and Inspector Nelson Allen attended from Nelson.

Chairman was R. D. Beaton. Many questions were dealt with at a question period following the meeting.

Ottawa Makes Changes In Defence Units

OTTAWA (CP)—Changes in the status of most harbor defence militia units on the east and west coasts were announced Monday by the army.

The army previously had announced that most units would be converted to other duties or disbanded. The single exception is the 15th harbor defence troop at Halifax, which remains in its present role.

The east coast harbor defence battery and the 5th west coast harbor defence battery will disappear as such.

Detailed changes for the west coast:

The 60th and 75th harbor defence troops at Victoria become the 5th independent medium battery, and the 120th harbor defence troop at Prince Rupert, B.C., becomes a detached company of the Seaforth Highlanders of Canada, a Vancouver unit.

The changes were effective Oct. 25.

VICTORIA (CP) — Premier Bennett announced Monday that the provincial government will again supply unemployment relief this winter if necessary.

He said the province would contribute 80 per cent towards municipal relief allowances to the unemployed, a plan initiated three years ago. Payments would be on the same basis as social assistance allowances he said with municipalities paying 20 per cent.

Harrop Child Rescues Tot From Water Hole

HARROP — Little Gloria Brooks, 18-months-old daughter of Mr. and Mrs. Glen Brooks of Harrop, probably owes her life to the presence of mind of her sister's playmate, Lois Anderson, 4, daughter of Mr. and Mrs. Roland Anderson, owners of Erindale Farm.

Gloria, accompanied by her sister Cecille, 3½, and Lois, were playing in the pasture when Gloria fell headlong into a hole filled two and a half feet deep with irrigation water.

Mr. Anderson, assisted by Mr. Brooks, his employee, were busy repairing a tractor when they heard frantic screams. Looking toward the pasture, Mr. Anderson saw his young girl's heroic struggle. With grim determination, she tugged and pulled young Gloria by one leg, until she had dragged her bodily from the hole. Mr. Brooks raced to the scene to find the baby coughing up water.

Gloria was wearing a snow suit, thus adding extra weight for Lois to cope with.

The baby was given a hot bath and wrapped in blankets, and is none the worse for her adventure.

The diminutive heroine, after realizing how dangerous the situation had been, sobbed brokenheartedly.

A FOUR-YEAR-OLD with an alert mind is Lois Anderson, above, who dragged an 18-months-old baby from a water-filled pit at Harrop. Lois is shown here holding her young brother, Dale William.

MAY CALL FOR SUPERVISED STRIKE VOTE

FERNIE — Latest figures on Thursday's coal miners' vote on the acceptance of an arbitration board recommendation are, Yes 1464; No 1830.

Two small locals are still to report but the vote from these cannot change the miners' rejection of the recommendation.

The situation as it now stands is that if the operators and union cannot get together, then a government supervised strike vote may be requested.

Soil-Type Storage Basin First In B.C.

PRINCE GEORGE CP)—First large compacted-soil type reservoir ever constructed in central British Columbia, this city's 2,500,000 gallon water storage basin is filled now for the first time. The $100,000 reservoir is located atop a hill a half-mile south of the city.

Terrace, Kitimat Still Without Communication

TERRACE, B.C. (CP) — The northern British Columbia communities of Terrace and Kitimat were still cut off from communicating with the outside by telephone or telegraph Monday night and officials said the silence would last "two or three days."

Some 100 poles of the Canadian National Telegraph line bewteen Terrace and Prince George were knocked down by a severe weekend storm which dumped 4½ inches of rain and a foot of snow on the area, some 250 miles northwest of Vancouver.

Following the storm, 12 washouts and 12 slides had been reported on 7-mile stretch of track centred by Terrace. A branch line from Prince Rupert, 95 miles west of here to Kitimat, further down the B.C. coast was also severed.

The near-record precipitation caused up to seven inches of frozen snow and rain to cling to telephone and telegraph lines, pulling down the telegraph poles.

An unidentified 12-year-old Terrace boy was electrocuted when he touched a high voltage power line brought down by the storm.

SMITHERS, B.C. (CP) — Eleven inches of snow fell Saturday and Sunday in the Bulkley Valley of Northern B.C. The fall isolated Smithers.

Telegraph and telephone service east to Prince George was restored Monday afternoon but lines were still down to Terrace, Prince Rupert and other western points.

Highway 16 was open both east and west but conditions were described as hazardous.

ON SUCCESSFULLY completing the air interception course, Flight Cadet R. B. (Ron) Hallstrom, above, son of Mr. and Mrs. E. Hallstrom of Riondel, recently received his wings from Air Commodore W. A. Bennett, CD, chief of personnel, Air Force headquarters, at RCAF station, Winnipeg.

Creston Curlers In Action Next Week

CRESTON CURLERS 2-7 ... Pge 3

CRESTON — Curling enthusiasts will take up rocks and brooms here for the start of the curling season Friday.

A week-long mixed bonspiel will enable members of former seasons and new curlers to get in stride. Next event will be the Legion mixed bonspiel November 17 and 18.

LASTING POSSESION

BRISTOL, England (CP) — Two Tawton sisters, Janet, 2, and Irene, 8, tussled for possession of a brooch. Janet won and swallowed it. She was taken to hospital for doctors to retrieve it for her.

PASS EMPLOYEES BUY BONDS

Crowsnest Pass coal employees are showing the way in the Kootenays for payroll deduction buying of the current 11th series Canada Savings Bonds.

So far, 229 applications have been made for $68,800 which puts the company ahead of last year's final figure. In series 10, 228 purchased $60,000 worth.

The Kootenay division, organized by W. L. Clark of Nelson, now stands at 89.5 per cent of last year. The B.C. region has reached about 75 per cent.

Creston People Rally To Build Home for Young Polio Victim

CRESTON — Albert Ward, 21-year-old son of a well-known Arrow Creek family, who was stricken with polio in 1955 is receiving considerable help from district citizens and a committee under J. Robinson is arranging for the construction of a home for Mr. Ward.

A local resident and former student at Creston schools, Mr. Ward spent several days in hospital at Nelson following his attack of polio. He was then flown by emergency plane to Vancouver. After long difficult months he was returned to Creston. He is at present confined to a wheel chair, incapable of the use of any of his limbs except for limited movement in the left hand.

A great deal of kindness and assistance was shown him by various province-wide agencies which make such cases their special concern.

Mr. Robinson reports that a permanent, small home is the immediate desire of Mr. Ward, his wife and young son.

Already a lot 300 yards south of the John Veregin residence has been donated, the basement has been bulldozed, footings poured and part of the forms erected. Materials in the form of lumber, cement, gravel and windows have been received. Logs have been cut from the bush and await sawing by a local operator.

RUB AWAY THROBBING PAIN
Arthritic and Rheumatic Aches
Here is how to prove it yourself!
Just massage the aching spots briskly with Buckley's White Rub. Right away you feel a comforting, glowing, warmth which means the circulation is being stimulated, and local congestion broken up. '57 FORD TAKES
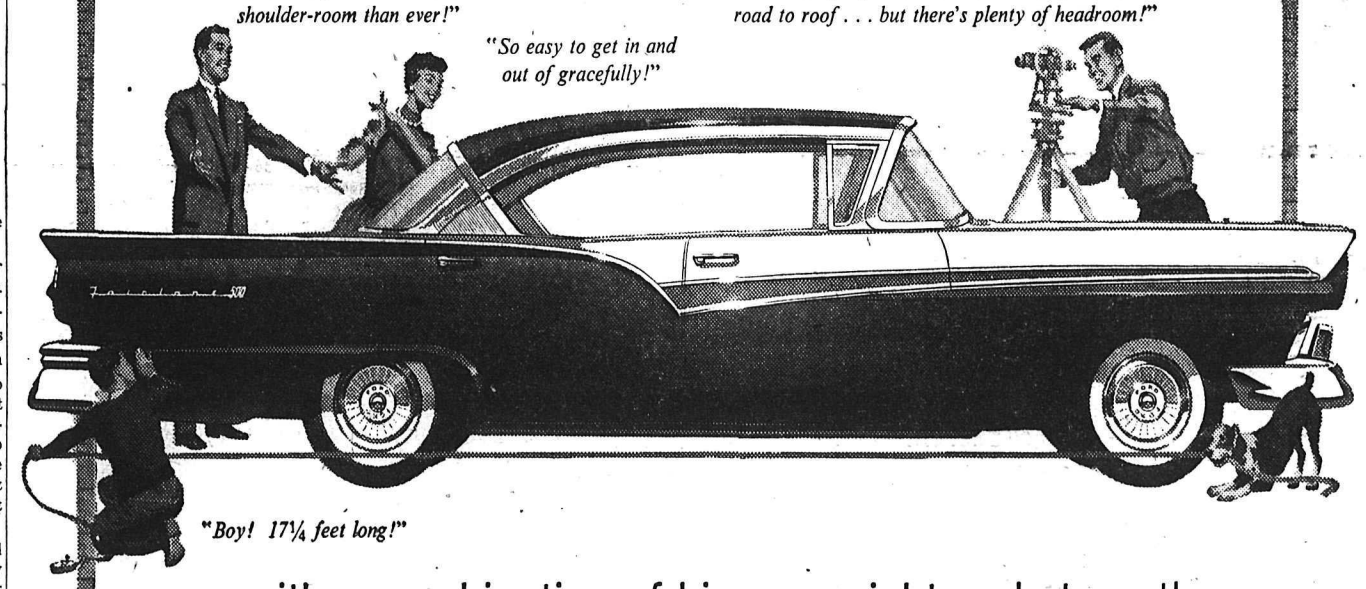
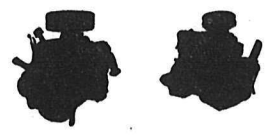
THE MEASURE OF THEM ALL



with a combination of big-car weight and strength, length and lowness, no other car can match for the money!

The new kind of Ford for '57 takes the measure of the whole field . . . and the facts and figures prove it! It's the *longest* car in its field—with over 207 sleek, speed-filled inches from bumper to bumper! It's wide enough to hold six brawny football players, with plenty of room for broad shoulders and long legs! It's a mere 4⅔ feet from tread to rooftop . . . so low that two men can easily shake hands over the roof . . . yet there's hat-wearing headroom inside! It's the *big* car of its field, too . . . a solid car, a heavy car. Some models are as much as *200 pounds* heavier than last year! The new miracle of engineering called the "Inner Ford" embodies a whole new concept of frame and body construction . . . with more brawn and muscle, more strength and rigidity, than *any* competitive car can offer you! Ford's amazing Even-Keel ride stands alone for comfort, handling ease and safety! Any way you look at it, Ford takes the measure of them all—drive it and get the *proof!*

TAKE THE MEASURE OF FORD FOR POWER AND PERFORMANCE! You can have a Silver Anniversary V-8 up to 245-Hp., with the blazing power that has always characterized the world's most famous V-8 . . . and along with it you'll get the very newest engineering advancements from the world's most experienced V-8 builder! If you prefer a Six, you can have Canada's liveliest, thriftiest and most powerful—the road-proved Mileage Maker Six, available in a wide range of models. Whichever you choose, you'll take the measure of them all when you trigger the accelerator of a '57 Ford!



18 styled-for-tomorrow models on 2 new, longer wheelbases

9 FAIRLANES . . . 118-in. wheelbase

4 CUSTOMS . . . 116-in. wheelbase

5 WAGONS

(Certain features illustrated or mentioned are "Standard" on some models, optional at extra cost on others.)

An Opportunity Lost

Nero fiddled while Rome burned and the United Nations assembly talks while Hungary perishes. Let us by all means join in the condemnation of the British and French — and nothing is easier — but let us also remember that they acted in an emergency with which the United Nations was not prepared to cope. Whether they were right or wrong is of small account beside the fact that they were prepared to face the censure of a world which puts peace before honor and of nations which have divested themselves of responsibility by means of the United Nations.

They went to war to stop a war and the fact that they could do so shows that they have not lost their ancient courage and resolution — and that, in a world which has frightened itself into impotency, should be a cause of satisfaction rather than condemnation. For what is the use of beliefs without the courage to uphold them and power which is not unused even in a good cause?

Hungary lies bleeding at the foot of the cruel Russian conqueror and all the voices of the world are raised in condemnation, but what are voices in a world where armed force is still the dominant argument? Tanks do not stop rolling, nor aeroplanes cease from bombing, nor armies cease to move because a myriad of voices are raised against them. Only force can meet force and if that force is not exercised in time the battle is lost.

There is a tide in the affairs of nations as in men's lives which leads on to fortune. There are opportunities which once offered can never again occur, there are decisions which if not made, alter the course of history. Such a tide was flooding in the Russian satellite nations. The opportunity came with the revolt of Hungary and the decision which could have altered the fate of Europe was left unmade.

Russia is ringed with NATO bases. A large American carrier fleet is based in the Mediterranean. There is force in plenty, but that force was not used. America, by herself could have saved Hungary, but she failed to appreciate and take advantage of the situation. Had she, like Britain and France, met the emergency first and looked to the United Nations later, she would have warned Russia that if her tanks and troops were not withdrawn she would land troops by air and bomb any Russian troops within Hungarian borders. It might have precipitated a general war, but far more likely it would not; but of what value is peace which comes from fear and selfishness and sacrifices a multitude of patriots on the altars of expediency?

Hungary has been betrayed. She has been betrayed by our greed for peace to enjoy our material possessions, by the Christian nations which have forgotten their faith and left her to the mercy of the barbarians and by our lack of courage and resolution.

Riondel Sportsmen Suggest Four Point Program To Revive Kootenay Lake Fishing

To the Editor:

Sir—The Riondel Rod and Gun Club would like to add its voice to that of Mr. Johnson of Kaslo, and others who have written to the News in the past few months regarding the fishing on Kootenay Lake. We are tired of hearing that Kootenay Lake is would like to see some positive action regarding the fishing on Kootenay Lake is not a "big fish lake," that it does not produce enough feed to raise large numbers of trout to the cannibal stage, that it has "levelled off" to its "normal" productivity.

Granted, there are far more fishermen than there were 20 years ago, but something must have brought them here. Certainly not the reported catches of the last two years. Are we doing anything to help put back that which we have robbed in the past? What of the millions of eggs that were taken from fish at Gerrard and shipped all over the continent? Certainly they were then considered the best stock to be had. Was Kootenay Lake not a "big fish" lake then? May we now admit that was a horrible mistake? Shouldn't we try to undo the damage that was done? Please let's not import eggs from inferior stock to repopulate our lake. Let's get the eggs from the best stock in the country, from Kootenay Lake. At the same time, let us not forget that better fishing on the lake will bring more fishermen, so that we will have a never ending fight, first to get the fishing back where it belongs, secondly, to keep it there.

There are, in our opinion, four all important tasks to be done to bring Kootenay Lake up to its "normal" productivity.

1. There is only a three mile stretch of Lardeau River suitable for Kamloops spawning. This must do for both Trout and Kootenay lakes. Let us go to work on these spawning beds and put them back in at least as good condition as they were before logging removed some of the natural baffles which were an aid to spawning.

2. Mr. Maber has stated that Kootenay Lake does not produce enough feed for small trout to bring them up to size quickly. If this is true, then let us improve these conditions by fostering Howser and Duck lakes as feed producing areas. These are shallow, warm water lakes which could produce an abundance of feed. Foremost here is that the government must stop the dyking of any more feed producing areas on the south end of the lake. Maybe, if the coarse fish were poisoned off here, these areas could become the natural rearing ponds we require.

3. The Gerrard hatchery should be reopened in order to build up the stock of "big fish" eggs from the few large Kamloops left.

4. We believe that we have four major potential "fishermen's paradises" within the area. These are Arrow, Slocan, Kootenay, and Trout lakes. We need, and should not give up agitating for, at least one fully qualified biologist to institute and supervise closely intelligent programs designed to give us back good fishing.

We do not criticize the actions of the present biologist, who lives in Cranbrook. We don't think it is humanly possibly for one man to follow closely enough the fish culture programs for the whole of south-eastern B.C. The fishing speaks for itself.

We appeal to the fishing public, to the business men who have so much to gain and so little to lose, to get behind this program. If the Game Department will not cooperate, then let us go to the government which holds the purse strings, which is ultimately responsible, and which will get credit for any good work done.

We should all awake to the immense changes which will be brought about by more large power dams in our area. We should see that the fish culture side of these proposals gets adequate consideration along with other major items.

Let's all get together to make sure of good fishing in the future.

Riondel Rod and Gun Club.

Riondel, B.C.

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. QUESTIONS WILL NOT BE ANSWERED BY MAIL except where there is obvious necessity for privacy

Curious, R.R. 1 — How can I obtain the address of an authority on old oil paintings?

Your best plan would be to write to the Vancouver Art Gallery, Georgia Street, Vancouver, B.C.

M. B., Montrose — In checkers when one player has an opportunity to jump (in his turn) but does not jump because of a better play, should his opponent take the "man" off for not jumping — that is, the "man" that should have jumped? Is this compulsory?

It is compulsory in official matches to remove the offending "man" but in friendly competition the players usually decide on such issues before the match begins.

B. T., Salmo — Would you please give me the address where I could send garden soil to be analysed?

Take about half-a-pound of the soil to be examined and mail it, carefully packed, to the Field Crops Branch, Department of Agriculture, Victoria, B.C.

Interested, Trail — Is the Banff School of Fine Arts open to any students or only to those who have won scholarships?

It is open to any student of high school age and on. For fees, accommodation, etc., write to the Director, Banff School of Fine Arts, Banff, Alberta.

T. T., Kelowna — If one has a barber's certificate issued in Spokane, could one practice in British Columbia?

Not without applying to the Barbers' Association in B.C. 207 West Hastings, Vancouver, B.C.

The Answer Is More Teachers

The engineer shortage is so great in the United States that recruiting staffs at college graduations sometimes outnumber the graduates. Canadian and American industries have recruiting teams in each other's countries and roving Western Europe.

Where are the engineers to come from? The causes of the shortage go deep into the educational organization of North America.

In some areas of Canada and the United States, teacher shortages have caused the high school courses in mathematics, physics, chemistry to be dropped. The encouragement of future engineering students disappears in such areas. This is where the problem begins, in the high school.

The key to the whole matter seems to be the status of the teacher, economically and socially, in the community. If teaching were made more attractive, a great part of this and associated problems might be solved.

—Montreal Gazette.

Watch Your Language

CRISIS — (KRI-sis) — noun; Medical — that change in a disease which indicates whether the result is to be recovery or death; the decisive moment; turning point; a crucial time, specifically the culminating point of a period of business prosperity following which a period of liquidation ensues. Origin: Latin from Greek — Krisis, from Krinein, to separate.

Eating Fish

. . . F. B. PEARCE

Prime Ministre St. Laurent says that Canadians should eat mo." fish. He made the comment when he was presented with a pickerel, a cod and four tins of British Columbia salmon as part of National Fish Week observances. "Fish is good for you and you should eat more of it." he said. "I always eat fish twice a week."

I take this opportunity to pass the prime minister's words on to you though I must admit it is the first time that I knew there was a National Fish Week or that there was such a thing as a national fish. I am perpared to believe anything bad about fish including the fact that they have nationality. I have always been aware that salmon are divided into two classes, B.C. and others and that our home raised variety is infinitely the best. But even with that there can be doubts. What can be said for a can which boldly declares the contents are British Columbia salmon and also states it is a product of Japan.

When the prime minister says that we should eat more fish because it is good for you he is going the right way to decrease its consumption. It sounds like mother in the good old days when the porridge was burnt and she urged us to eat it up because it was good for us. We always wondered if occasionally there was not something that we liked to eat which was also good for us. I don't know that we ever found out. In fact it still seems to be the rule that anything you like is on the dietary forbidden list. As for taking Mr. St. Laurent's admonition and eating it twice a week once a month is enough for me.

TOO EXPENSIVE

But if fish eating is good for us it is not so good for the pocket-book. Fish is far too expensive. I can understand people eating fish when the pocket-book is flat but not when beef is cheeper. It seems ridiculous that when fish raise themselves in the boundless ocean at no cost to anyone and are scooped out in large lots we should have to pay so much for it. One would think it was a delicacy, carefully cultivated under hothouse conditions.

Fishing is a very ancient occupation. From the fact that no record is extant of the stores that Noah took aboard to feed his precious family it is probable that the whole raft of them put in their forty days fishing. That may seem a very boring pastime but I know some men who would willingly do that. Indeed in business hours they can often be fish dreaming with their hands flicking a rod and line or spread apart as if they are measuring the one which got away. We hear mention of fishing in the Bible and even on one occasion there is a hint of the way it was cooked, "baken on the coals." from which it is evident that they had barbecue pits even in those remote days.

There are fish of high and low degree, though they all smell alike when they are long dead. The herring is a common fish which the British disguise by smoking and turning them into bloaters, kippers and good red herring. On the east coast of Canada poor families have been known to live for months on potatoes and herring and when times were even worse on potatoes and point which is a tribute to sense of humor even in adversity. The Cockney likes shell fish and particularly whelks which look like nothing more than snails. With a paper bag of these and a pin extract them he liked nothing better, in the good old days of buses, than to sit in the front seat, extract and eat the whelk and throw the shell at the horses. A much tamer pastime was to eat shrimps and throw the heads at passersby. Cockney liked stewed eels too and it was after making a pig of himself with a dish of these that King John died of a surfeit, which is a very polite way of saying that he died from acute indigestion. And not at all regretted by anyone.

Aristocratic fish are all served with sauces. As the French chefs say, the sauce is the thing. I'd rather have the sauce.

SURPLUS PROFITS

SOUTHEND, Eng. (CP) — Officials of this Essex resort are going to ask Canadian authorities what to do with £3500 realized from the sale of surplus timber provided as a gift after the 1953 east-coast floods.

WOMEN OFFERS PRAYERS at caskets, piled one atop the other, containing the bodies of some of the 85 Hungarians shot down by Communist gun fire in the town of Magyarovar. The citizens were shot by order of secret police before the anti-Communist rebels could take over the west Hungarian town. Three Red police were also killed in the rioting.

Your Individual HOROSCOPE

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Wednesday Nov. 7, 1956

MARCH 21 to APRIL 20 (Aries) — Use caution if you would avoid needless errors and get the most of this day's efforts. Don't be rash or arrogant and don't seek the unreasonable.

APRIL 21 to MAY 21 (Taurus) — Advice to Aries could be helpful to you now. You can advance some — at least in your occupation and other familiar activities — but don't be disappointed if quick or big returns are not forthcoming immediately.

MAY 22 to JUNE 21 (Gemini) — You may have to concentrate more than usual to put over clever, bright ideas now, but steady achievement is possible. Just do your best.

JUNE 22 to JULY 23 (Cancer) — This should be a good day for management and planning — even if not wholly favorable for immediate or showy gains. There are some days which require that you be a self-starter rather than wait for a "push." This is one of them.

JULY 24 to AUGUST 23 (Leo) — Patience, accuracy and faith are needed assets if you would solve immediate problems and plan properly for future action and accomplishment. The day's tasks can move smoothly; it's mostly up to you.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Heed advice to Gemini. Don't lose heart if you don't achieve aims quickly. Do things in your usual efficient manner but not with unwise pressure. Proper planning will get things moving briskly.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Familiar activities, domestic and other personal matters are favored now. Rays are not particularly stimulating but neither are they unfriendly. Much depends on you and what is expected of you.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — The position of Mars in your horoscope suggests that you eliminate red tape and get things done quickly. Fine results are possible now with your clever efforts.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — Sensible caution in all things advised. This is no time for extremes, foolish darin gin risking assets, income, etc. It can be a productive day but the slow, steady peace will pay off.

DECEMBER 22 to JANUARY 20 (Capricorn) — Your influences stress patience, calm judgment and a reasonable amount of optimism if you would get over and by the barriers possible now. Avoid nervous anxiety; commonsense and cheerfulness will help you to achieve.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Your influences are similar to those of most of us now. Extra care, thoughtfulness and commonsense will be your aids. Don't overwork; don't worry.

FEBRUARY 20 to MARCH 20 (Pisces) — Artistic and familiar pursuits may be more successfull than mechanical and unusual matters now. Judge wisely when considering essentials and non-essentials.

YOU BORN TODAY are strong in character, self-willed, very efficient (especially in emergencies) and usually have a charming and magnetic personality. You may be opinionated at times; this can cause others to lose sight of your finer qualities. In friendships and other associations be careful of a tendency to domineer. You have the ability, mental equipment and many talents needed to make marked success.

Birthdate: Marie Curie, co-discoverer of radium.

King Features

DEATHS

By The Canadian Press

Paris — Jean Metsinger, 73, a painter of the cubist school.

St. Noel, Que. — Joseph Dufour, 82, representative for Matapedia County in the Quebec provincial legislature from 1919 to 1939.

Buffalo — Robert J. Woods, designer of the rocket-powered X-1, first plane to fly faster than sound; director of engineering and sales for Bell Aircraft Corporation's aircraft division.

Manchester, England — Alfred Powell Wadsworth, 65, who retired last Wednesday as editor of the Manchester Guardian.

Burlington, Vt.—Most Rev. Edward F. Ryan, 78, Roman Catholic bishop of Vermont for the past 11 years.

Montreal — Lady Ames, widow of the late Sir Herbert Ames the politician and authority on international relations.

Critics Enthuse Over Canadian Girl Violinist

NEW YORK (CP) — Canadian violinist Betty Jean Hagen made an extraordinarily successful appearance Sunday with the New York Philharmonic Symphony in Carnegie Hall.

Playing Lalo's "Symphonie Espagnole" with the orchestra, conducted by Dmitri Mitropoulos, Miss Hagen earned rave reviews from music critics of the Times and Heral-Tribune.

The Times says her rendition of Lalo's concerto was "a masterly performance."

The review concluded: "If Miss Hagen can play other composers as well she should have a fine career ahead."

The Herald-Tribune critic predicts that the Canadian violinist, winner of the 1955 Leventript award, will be extremely popular in the United States.

Miss Hagen, who made her debut in New York six years ago as winner of the Naumburg Foundation award, has played widely in Europe with such noted orchestras as the Amsterdam Concertgetbouw, the London Philharmonic and the Orchestre de la Suisse Romande of Switzerland.

The Highways

No. 3: Cascade, Rossland to Goatfell — no report. Goatfell, Cranbrook, Fernie, Crowsnest — generally good, construction work Ryan to Aldridge and Moyie to Green Bay. The section at Moyie open all day but subject to two-hour closures from time to time for blasting operations.

No. 6: Nelway, Nelson, South Slocan, Nakusp, Needles, Monashee — no report. Monashee, Vernon — carry chains, new snow at summit — plowed and sanded.

No. 95: Kingsgate, Cranbrook, Golden — construction work Ryan to Aldridge and Moyie to Green Bay, section at Moyie open all day but subject to two-hour closures from time to time for blasting operations.

Alaska Highway — Generally good, snow on summits, carry chains.

Rev. H. R. Whitmore officiated Sunday when three children were christened in Fairview United Church. They were Glenda Christine, three month old daughter of Mr. and Mrs. W. G. Macintosh, Robert Ian, 18 months old son of Mr. and Mrs. H. C. Round, and Donald Robert, 13 months old son of Mr. and Mrs. I. M. Way.

* * *

A miscellaneous shower was at the home of Miss Mildred Crissall, 224 Gore Street, honoring Miss Sylvia Cox who was married last Saturday to Leonard Bay. Many useful gifts were presented to Miss Cox in a decorated basket. Co-hostess was Miss Elaine Ogden.

* * *

Mr. and Mrs. Harold Pinchbeck of Slocan City were recent visitors at the home of Mr. and Mrs. G. S. Strong, Second Street.

Attending a convention of Canadian Institute of Mining Engineers at Vancouver are Mr. and Mrs. William Peck, Mr. and Mrs. N. R. Sardich, Mr. and Mrs. Vincent Killeen, Mr. and Mrs. J. S. MacIntosh, Roy Hunter and E. W. Florendine.

* * *

Mr. and Mrs. Peter Klassen and daughter, Lorraine have moved into their new home on the North Shore.

* * *

Mr. and Mrs. E. Creed Johnson of Christina Lake were weekend guests at the home of Mr. and Mrs. P. O. Bird, Observatory Street.

* * *

J. H. Coventry, Governor of District 156 of Rotary International, accompanied by Mrs. Coventry, has just completed his official visits to the 24 Rotary clubs in the district. These clubs extend through Southern B.C. to Western Washington and Eastern Idaho.

* * *

Harald Raig, 509 Fourth Street, has left Nelson to reside in Victoria where he has been transferred by the Forestry Service.

* * *

At the Hospital Auxiliary Tea held Saturday afternoon in the Silver Room at the Hume Hotel, also assisting with serving were Mrs. Elsie Marshall, Mrs. W. Clark and Mrs. George Thompson.

* * *

Mrs. Niels Sorenson of Rosedale is visiting her sister and brother-in-law, Mr. and Mrs. F. Neill.

* * *

Mrs. C. E. Haycroft of Willow Point was a recent Vancouver visitor.

* * *

J. Williamson of Nelson and Mr. and Mrs. Percy Hanson of Trail were guests at the recent Fitchett-Iwanik wedding in Procter.

* * *

Rev. and Mrs. E. Donovan Jones will be "at home" to their congregation in the manse Friday from 2:30 to 5 and 7:30 to 9 p.m.

WINDERMERE WI ELECTS OFFICERS

INVERMERE — The annual meeting of the Windermere District Women's Institute elected as officers president, Mrs. Thomas Seaton, Wilmer; vice - president, Mrs. George Duthie, Invermere; treasurer, Mrs. W. A. Hayden, and director at large, Mrs. Ralph Stick. The secretary will be appointed.

Conveners are Miss Dorothy Worsley for citizenship, Mrs. F. E. Coy for social welfare, Mrs. Charles Osterloh for agriculture, Mrs. Edwin Hoglund for home economics and one other to be appointed.

Mrs. Duthie, retiring president, reviewed the activities of the past year which included a Christmas party for all district children, Christmas gifts for elderly people, a reception for Miss Mary Pack of CARS, a booth at the Fall Fair, sponsorship of the Salvation Army campaign, a tag day for the Queen Alexandria Solarium, a showing of films on child development with an address by the senior public health nurse Miss Nancy Lee, a musical program conducted by Rev. Father Agnellus and an address on turkey by Mrs. Marian Pennington. A donation was made to the Women's Institute Scholarship Fund.

Baptist Young People Enjoy Colorful Party

The Young People of the First Baptist Church held a Hallowe'en party in the basement of the church. Games were played and refreshments served. Elaine Ogden won the costume prize. Special guest at the masquerade was Miss Grace Barrett, director of children and teenage youth groups for B.C. Baptist churches.

Use Paddle If Child Needs It, Parents Advised

By Dr. Garry Cleveland Myers

In a certain junior high school, two boys from so-called good homes slipped out from school early one day and went downtown exploring. They did not return to school that day. The principal apprised the parents next day of this fact and gave the boys a lecture. Neither the home nor the school did more than talk.

Several days later one of these boys was told to remain after school for being a nuisance in the halls. He deliberately disobeyed and went home. The teacher and principal did no more than talk to this lad. They seemed to suppose it was the home's responsibility for administering discipline for these offenses. Nonsense.

That school should do something more than talk and should let the home know what it has done.

SUPPORT SCHOOLS

The parents should assure the school they are back of it in discipline. Moreover, these parents should make sure that lad obeys them at home. They might also do what some of his grandparents used to do, give him a paddling at home in addition to the one he got at school, thus demonstrating their backing of the school.

Well do I remember, when I was about thirteen, hearing my father say to my teacher one day, "If Garry needs a flogging at school give it to him and I'll give him another at home."

I didn't risk the need of either. I was impressed that it was a serious matter.

For a few boys in the upper grades and junior high school some good, sound paddling would be very desirable. Every principal should have a good broad thin paddle in his office, with a few extra ones on hand.

When a lad wilfully violates an essential school regulation he clearly knows about or defies his teacher, he should be paddled, preferably by the teacher in the principal's presence. The word would soon get around and the effect on the attitude of all the students toward teachers and school regulations would greatly improve. A lot of boys would also be saved from becoming juvenile delinquents.

EARLIER GRADES

Fewer paddlings would be needed so late if teachers were allowed and encouraged to use a paddle occasionally on the recalcitrant youngster in the earlier grades. And fewer would be needed if nore parents used a paddle when they should at home.

Of course, a paddle rarely or never would be needed at school at any age if parents used the bare flat hand effectively to restrain the child before he was old enough to go to school, substituting milder measures like chair-sitting for a definite period once this child had learned to respect No as final.

GOLDEN WEDDING

ST. PACOME, Que. (CP) — Mr. and Mrs. Elzear Grandmaison, believed to be the only family in Canada to have three sons in the White Fathers Missionary Order, have celebrated their golden wedding anniversary.

Danish Princess Being Prepared For Throne

By PHILIP BARNES

COPENHAGEN (Reuters) — After a year at an English girls' boarding school, 16-year-old Princess Margrethe of Denmark has started the final phase of her education to prepare her for a throne which she did not expect to inherit.

Although the eldest of King Frederik and Queen Ingrid's three daughters, until just over three years ago she had no chance of inheriting her father's throne. Succession was through men only, and should there be no male heir, a new sovereign could in theory be elected. In May, 1953, however, Denmark adopted a new constitution and succession law, sweeping this 1000-year-old tradition away.

Thus, Margrethe replaced her 56-year-old uncle, Prince Knud, as heir to the throne, and pushed her 16-year-old cousin, Prince Ingolf, further down the line of succession.

OLDEST KINGDOM

Denmark claims to be the oldest, uninterrupted kingdom in the world. Even England had a brief interregnum as a republic in the 17th century under Oliver Cromwell's Commonwealth.

Not only will Princess Margrethe be the first Queen Regent in Danish history, but she also will break a tradition which normally confuses foreigners. For more than 400 years, a Ferderik has alternated with a Christian as the name of Denmark's ruling sovereign.

In the modern tradition of Scandinavian monarchy, King Frederik and Queen Ingrid have tried to bring up Princess Margrethe as much like a normal child as possible. She has lived in no artificial isolation. Her education has not been exclusively in the hands of private tutors as was that of Britain's Queen Elizabeth and her sister, Princess Margaret.

EXCLUSIVE SCHOOL

At the age of seven, when all Danish children begin school, Princess Margrethe started school. But in a nation where nearly everyone goes t othe state schools, Princess Margrethe went to the most exclusive girls' school in Denmark — Zahle's, a private day school in Copenhagen founded by a Danish woman educational pioneer, Nathalie Zahle, nearly 100 years ago.

Here, the other girls were told to call her "princess," but not "royal highness."

In addition, Princess Margrethe had an English governess, a French teacher, lessons in swimming at the state gymnastic institute, in riding from cavalry officers at Christianborg Palace, and dancindg lessons at one of Copenhagen's best dance schools.

In September, 1955, Princess Margrethe went to North Foreland lodge in England to perfect her English and live a community life with other girls of her age.

On her 18th birthday on April 16, 1958, Princess Margrethe automatically becomes a member of the council of state and will preside with her father over formal meetings of the Danish cabinet. Her serious apprenticeship for the throne then will have begun.

BOOK LEARNING

LONDON (CP) — Lambeth district municipal council received an urgest request from the Johannesburg, South Africa, library for a booklet. Entitled "Did You Know?" it explains how the council's money was spen.

BEST METHOD

Correct teeth brushing should be done up and down, not horizontally over the surface.

Tea, Bake Sale Aids Hospital Project

INVERMERE—One of the most successful Hallowe'en events was the annual tea and cookery sale of the Windermere Ladies' Social Club.

Convenor was the president, Mrs. Lloyd Tegart. Feature of the event was the home cooking table. The Social Club has undertaken assisting with the furnishings for the new Windermere Hospital Solarium as a project this year.

PTA Sponsors Masquerade

WILLOW POINT — Games and dancing were enjoyed by residents of Willow Point when a masquerade party sponsored by the Parent-Teacher Association was staged in the St. Andrew's Church Hall. The hall had been decorated in a Hallowe'en motif.

Games for the smaller children were arranged by Mrs. H. McLean and Mrs. W. D. Hamilton, and convenors for the older children's activities were J. L. MacMath and C. Rutherglen.

Costume judges were Mrs. P. Harbottle, Mrs. McLean, T. Ludgate and H. W. Hankin. All preschool children were given prizes. Others awarded were: for grades 1 and 2, Billy Hamilton, Barry Brinley, David Whiteside, Sherry Stewart and Sylvia Fuller; grades 3 and 4, Doug Moore, Peter Offerman, Roberta Maynard, Linda Lee, Harriet Wassick and Angela Offerman; grades 5 and 6, Peter Falkner, Keith Moore, Pat Mayers, Victor Corrie, Joan Heddly and Irene Sodlosky; grades 7 or over, Pat Hamilton, Dick McElroy, Norman Aitchison, Barbara Falkner, Donna Hamilton and Betty Maynard.

Prize for keeping their identity secret for the longest time was given to Roberta Maynard and adults, Mr. Hankin, Mrs. J. Brinley and C. Rutherglen. Fiona Burrills received a special prize.

Of special note at the party was a comical act for the younger children performed by Mr. Hankin, who was dressed in a clown costume.

MOUSE PROBLEM

WELDON, England (CP) — The rector of this Nottinghamshire parish, Rev. Arthur Higginson, appealed to residents for 50 white mice. He wants them for a white-mice derby to be held at a church party. One parishioner had specially bred 70 mice, but three cats broke into their cage and none were left.

DELAYED RIGHTS

Women in Britain could vote for county council in 1888, but were not given the national vote until 1918.

The Doctor . . .

Medico Has Good Reasons For Actions

By Dr. Herman N. Bundesen

While the witch doctor of dark Africa may cavort around his patient in weird, meaningless dances, the modern physician has a reason for every action he performs in the course of a physical examination.

Many of you, however, undoubtedly wonder what on earth a doctor can learn simply by tapping your chest with his fingers, listening with his stethoscope, taking your pulse or peering into your eyes.

Let's say that you go to your doctor for a heart examination.

One of the first things he probably will do will be to tap your chest at various points. He does it to determine the size of your heart. It's based on the same principle that you use when you tap a wall to find the studs. When the doctor taps the part of your chest occupied by the airfilled lungs, he hears a clear sound. But tapping over the dense muscle of the heart produces a dull and flat sound.

NOISE OF VALVES

With the aid of his stethoscope, he can listen to the noise your heart makes as the valves open and close. These sounds often tell him whether the valves are functioning properly, whether you were born with a defective heart and other things that might be amiss.

The doctor can find out a lot about your heart simply by taking your wrist in his hand.

He feels the radial artery to see how the heart is pumping blood through the arteries. He can tell whether your pulse is weak or strong, fast or slow is regular or irregular in rhythm. The rhythm of your pulse reflects the rhythm of your heartbeat.

BLOOD VESSELS

When the doctor looks into your eyes, he also is checking your heart and your blood vessels.

With the aid of a bright light he peers at the tiny blood vessels in the back of your eyes. Many times the condition of these vessels give him a clue to important changes that may have occurred in your circulatory system.

As you can see, a doctor can tell a lot about your insides from the outside.

TIP FOR DIPLOMATS

LONDON (CP) — Alderman Cuthbert Ackroyd, Lord Mayor of London, describes a diplomat as a man who "always remembers a woman's birthday, but never her age."

Anglo-French Reply to U.N. Given to Public

LONDON (AP)—Text of a joint Anglo-French reply to the United Nations on the Suez question, as made public Monday by the British foreign office:

The governments of the United Kingdom and France have studied carefully the resolutions of the United Nations General Assembly passed on 3rd and 4th November.

The warmly welcome the idea which seems to underline the request to the Secretary - General contained in the resolution sponsored by Canada, and adopted by the Assembly at its 563rd meeting, that an international force be interpolated as a shield between Israel and Egypt pending a Palestine settlement of the question of the Suez Canal.

But according to their information, neither the Israeli nor the Egyptian government has accepted such a proposal nor has any plan for an international force been accepted by the General Assembly or endorsed by the Security Council.

The composition of the staff and contingents of the international force would be a matter for discussion.

The two governments continue to believe that it is necessary to interpose an international force to prevent the continuance of hostilities between Egypt and Israel, to secure the speedy withdrawal of Israeli forces, to take the necessary measures to remove obstructions and restore traffic through the Suez Canal and to promote a settlement of the problems of the area.

LIMITED OBJECTIVES

Certain Anglo - French operations, with strictly limited objectives, are continuing.

But as soon as the Israeli and Egyptian governments signify acceptance of, and the United Nations endorses, a plan for an international force with the above functions the two governments will cease all military action.

In thus stating their views, the United Kingdom and French governments would like to express their firm conviction that their action is justified. To return deliberately to the system which has produced continuing deadlock and chaos in the Middle East is now not only undesirable but impossible.

A new constructive solution is required.

To this end they suggest that an early Security Council meeting at the ministerial level should be called in order to work out an international settlement which would be likely to ensure this together with the means to enforce it.

West Berlin Students Protest Russian Attack on Hungarians

BERLIN (AP) — Hunderds of West Berlin students shouting "down with the Russian murderers" and "freedom for Hungary" broke through police cordons and swarmed around the Russian war memorial Monday in this divided city.

The students carried signs in Russian proclaiming freedom for Hungary and marched to the British and French public buildings in West Berlin denouncing "aggression against Egypt."

West Berlin riot police threw up a road block about 1000 yards from the war memorial in an effort to hold the marching students, but when the students saw the police they shouted: "Hungary, Hungary," and surged through and around the helpless police.

Rusisan tommy gunners, nervously fingered their weapons. The Russians made no move as several of the students marched forward from the curb and placed a wreath on the sidewalk in front of the memorial, protesting "the rape of Hungary".

A bus carrying Russian soldiers and civilians passed through the Brandenburg gate, apparently on a sightseeing tour. The students hurled rocks at the bus and pounded the sides with their fists, shouting "go home, go home."

Low Temperatures Hard On Growers

VERNON (CP) — Fruit trees in the Okanagan Valley have suffered more damage from low temperatures than from any other factor, according to the Okanagan Agricultural Club's winter injury committee. A study of weather records from various parts of the Okanagan showed potentially damaging frosts have occurred 12 times since 1900. Severe damage has not occurred 12 times because trees are not always dormant at the same time each year.

Queen, Finder May Share $54,000

WINNIPEG (CP) — Deputy Attorney-General O. M. M. Kay said that if no one establishes ownership of $54,000, found by a carpenter in a black briefcase hidden in a Winnipeg home, it will become "treasure trove" and divided between "Her Majesty the Queen and the finder".

The money was found Friday by Lionel Wuckert while he was remodelling a bedroom closet in the home of W. H. Rice. The briefcase was hidden under a fixture in the closet. It contained seven envelopes with $10, $20 and $100 bills packed inside and $700 in bonds.

Police said the money now is in a safety deposit box in a bank.

The Rices bought the home about six weeks ago from Mrs. Henras Rousseau who claims she knows nothing about the money.

Coaches Debate *The Pass vs. Split-T*

Doug Walker, coach of the Montreal Allouettes, who lost the Grey Cup twice to Edmonton Eskimos, sticks to the *forward pass as his offensive* weapon. Frank Ivy of the Eskies sticks to the Split-T — and why not? Read their reasons in the sports feature —"Split-T vs The Pass" in this week's NEW Star Weekly. The paper that interests all the family.

1. NOW — FUEL INJECTION
The greatest engine advance since overhead valves! Chevrolet engines with Ramjet fuel injection, ranging up to 283 h.p. are offered in Corvette and passenger car models at extra cost.

2. NEW TRIPLE-TURBINE TURBOGLIDE
Exclusive new Turboglide* is the last word in automatic drives. There's even a new position on the selector — HR (Hill Retarder) — for safer control on the steepest grades!

3. PERFORMANCE REACHES NEW HIGHS
In addition to Ramjet fuel injection, there's a six and four silken V8's with up to 270 h.p. to suit every driving need.

4. DARING NEW FRONT END DESIGN
Chevy's beautiful new bonnet and bold new grille set a new style for '57!

5. NEW, DEEPER WINDSHIELD
You get better, safer seeing! The windshield is deeper and the hood is lower.

6. HEADLIGHT-HOOD AIR INTAKES
Here's a smart idea — ventilation air intakes cap the headlights for a fresh new note in styling. And it's clean, high-level air, too.

7. BUMPER-TAILLIGHT UNIT
Taillights, spotlights and provision for accessory back-up lights are styled to blend into the massive new bumper.

8. NEW SIZE WHEELS AND TIRES
Chevy now has 14-inch wheels, 7.50 x 14 tubeless tires. The velvety ride is even softer because air pressure is reduced to a new low of 22 pounds.

9. HIGH-FASHION REAR FENDERS
Here's a saucy new slant on style! The slim, trim trailing edge of the left rear fender conceals the gas cap.

10. LOOKS LONGER AND IT IS
Those longer, lower lines are no illusion. The '57 Chevy measures up to them!

11. COMMAND POST CONTROL PANEL
A deeply hooded cover, directly in front of the driver, houses all instruments, controls and gauges. Control knobs are recessed for greater safety.

12. AN EVEN FINER POWERGLIDE*
The world's best liked automatic transmission — proved by millions upon millions of owner miles is even finer for '57. New refinements give even greater durability.

13. FAMOUS 3-SPEED SYNCHRO-MESH
Standard driving at its best — *improved* for greater operating ease.

**Optional at extra cost.*

Riders Enter Finals On First-Game Victory

WINNIPEG (CP)—Saskatchewan Roughriders lost a 19-8 verdict to Winnipeg Blue Bombers Monday night but won the two-game, total-point Western Interprovincial Football Union playoff semi-final 50-26 and a berth into the final against Edmonton Eskimos.

Riders, who captured the first game 42-7 at home Saturday afternoon, will open the best - of-three final at Regina next Saturday afternoon. The second game will be played in Edmonton Nov. 12, with the third, if necessary, also in Edmonton Nov. 17.

Going into the contest with a 35-point cushion from the first game, Riders played just as coach Frankie Filcock *forecast*—"conservatively.' They took no chances, giving Bombers no more opportunity than was necessary.

Despite the big handicap, Bombers never quit trying on the mud-splattered field. The closest they came was at the end of the third quarter when they cut the overall lead to 22 points.

End Bud Grant, quarterback Eagle Day and halfback Buddy Leake scored Bombers touchdowns. Leake converted one.

Riders points came on kicks and a safety touch. Reg Whitehouse booted a field goal and accounted for a single. Larry Isbell kicked two singles. Defensive end Doug Killoh caught Day behind the Winnipeg line for the other two points.

Nelson Minor Hockey Season Starts Tonight

Two exhibition hockey contests will highlight Nelson Minor Hockey *Association's first hockey night* of the season tonight at Civic Arena. Canadien Bantams will oppose Rangers in the opener while in the nightcap Midget Reps tangle with Juvenile Reps.

Both representative units are preparing for exhibition games tentatively scheduled for exhibition games in Kimberley this weekend.

Juveniles are expected to be stronger this season under the coaching of Gary Allbright. Don Holmes will handle goal-tending chores, with Don Ball, Gordon Jeffs and Harry Hufty on defence.

Bernie Monteleone, Lloyd McMaster and Don Trozzo will form the attacking forces for juveniles.

Dave Grundy or Dave Nielson will protect the pipes for the midget club. Ernie Wah, Dan Lang, Jerry Poulin and Fred McLelland will handle defensive duties.

Clare Palmer, Bob McCandlish, Hugh Hooker, Bill Lipsack, Wiggy Cameron, Dean Carmen, Bernie Arcuri, Gerry Wilson, Dave Skapple and Dan O'Neil will supply the majority of the offensive potency.

FALSE TEETH
With Little Worry

Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEETH holds plates firmer and more comfortably. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause nauses. It's alkaline (non-acid). Checks "plate odor" (denture breath). Get FASTEETH at any drug counter

Canadiens Cop Peewee Opener

Canadian Peewees won the opening League game at the Civic Arena Monday afternoon as they defeated the Black Hawks.

The game was closer than the score would indicate as the Hawks lost several chances of scoring. Neither team was able to score in the first period but in the middle frame the Canadiens ran up a fast 4-1 lead and in the last period they added one more.

For the winners it was Harry Mason unassisted, Bobby Steed from Bill Armstrong, Timmy Allen from Armstrong, Dave Brown unassisted and Bernie McCabe from Armstrong. Fred Olson drove in the lone Black Hawk goal after a solo effort.

Leafs Protest Officials' Call

MONTREAL (CP) — President *Clarence Campbell of the National* Hockey League said Monday Toronto Maple Leafs have advised him they are protesting disallowance of a Toronto goal which would have given Leafs a 2-2 tie Saturday night with Detroit Red Wings.

The goal came just as the game ended. Referee Frank Udvari and linesmen *George Hayes and Bill* Morrison ruled the goal came after the game-end light flashed and bell sounded.

RANGER PEEWEES EDGE OUT BRUINS

Ranger Peewees grabbed a narrow 3-1 victory over Bruins in a hard-fought exhibition encounter at Civic Arena Saturday afternoon.

Rangers scored the only goal of the first period when Colin Tanner slapped the puck home, with Day assisting. They went ahead 2-0 *in the middle frame* when Ron Apiers tallied.

Dave Beck, with an assist from Lang, put the eventual winners on top by three goals early in the third period but Bruins retaliated with Mark Hennig drilling one past Ranger cage custodian Garry McCandlish.

Swiacki Will Not Return

TORONTO (CP)—Managing director Lew Hayman of Toronto Argonauts of the Big Four football union said Monday that chief coach Bill Swiacki will not return to the club in 1957.

He said Swiacki had left him a note saying he had "other plans" for 1957 and had returned to his home at Southbridge, Mass.

Hayman said Swiacki told him in a telephone conversation later that he found it necessary to return home immediately to set up his 1957 plans. The regular season ended Saturday.

TWO-YEAR CONTRACT

Swiacki signed a two-year contract with the Argos in 1954.

Asked if there was any chance that Bill Earley, former assistant coach, would be considered for the job, Hayman replied: "He was fired. I don't know any more than that, right now."

Early, from Notre Dame, was fired last month in what club directors said was "the best interests of the club."

RANGERS SUSPEND BALKING MURPHY

NEW YORK (CP)—Left-winger Ron Murphy was suspended indefinitely Monday by New York Rangers of the National Hockey League for failing to report to the team's American Legue farm club at Providence.

Murphy was one of three Rangers sent down to Providence last week. But instead of going to the minor league club, he went home to Hamilton, Ont.

General manager Muzz Patrick said Murphy had been scheduled to report at Provindence Saturday. "When he didn't report on time, Murphy's pay automatically stopped," Patrick said.

"Today I made the suspension official, and sent him a telegram to that effect. When he reports to Providence and shows he is in shape to play the suspension will be lifted."

The 23-year-old forward, who ordinarily is a fast starter each season, sprained an ankle in training. He missed the first two games and played the next five before being sent to Providence.

WIFU Attendance Up Over 1955

EDMONTON (CP) — Teams in the Western Interprovincial Football Union's five cities played to 13,783 more fans during the 1956 schedule than they did during 1955.

With each of the five clubs having eight home games, a total of 63,087 persons turned out at the gate this year, compared with 649,304 for the same number of games last year.

British Columbia Lions had the biggest year, setting a Canadian record mark of 208,795 customers, more than 11,000 more than the previous record of 197,589, set in 1955 at Vancouver, where Empire Stadium can seat up to 35,000.

WINGS FARM McCARTHY

DETROIT (AP) — The Detroit Red Wings Monday farmed out left wing Tom McCarthy to their Edmonton farm club in the Western League for a month.

One of the brightest prospects in the wing training camp, McCarthy underwent an emergency appendectomy and has never been able to return to playing shape.

Egan Reinstated, To Play Against Spokane Wednesday

Nelson Maple Leafs, whose defensive play at Civic Arena Saturday night was more often sloppy than effective, may find themselves in a more profitable situation Wednesday night at Spokane Coliseum.

Pat Egan, a playing-coach who has done his only playing during Leafs' thorough practices at Civic Arena almost every evening, is expected to be one reason for the resurrection. The stocky ex-Vancouver Canuck received his re-instatement from the Canadian Amateur Hockey Asociation Monday morning.

Dave Stewart, if he's available, will add his bit of lustre to the dull defense. Dave is expected to be returned from New Westminster Royals of the Western Hockey League after playing the third game of his WHL tour of duty in time to fly from New Westminster to Spokane before game-time.

Leaf officials are expected to notify Stewart today to fly directly to Spokane Wednesday instead of going to Castlegar.

According to information received from an observer close to the New Westminster hockey setup, Stewart has played exceptionally well during his stay at the Coast, although his inexeperience has harmed him occasionally.

Dave received a minor penalty in each game, one for holding and the other — in the second game — for roughing with Colin Kilburn. Two seconds after Dave picked up his first game assessment, Victoria scored.

During the return game at New Westminster Saturday, Dave was reportedly trapped up the ice in the second period to give Victoria a goal. But Royals' Coach Hal Laycoe has expressed satisfaction with his performance.

Laycoe is reported to have indicated willingness to carry Stewart all season, but has promised to return him so he will be given more opportunity to play.

Egan's reinstatement and the return of the willing Stewart assure that Pat will lop off two present playing members of the squad. He would not release the players' names, pending further developments.

The Wednesday game is a battle for first place. Currently, the clubs are in a deadlock on the Western International Hockey League ladder's top rung.

Leafs are also seeking to regain the momentum that carried them to four successive victories before they dropped a 5-2 verdict to Trail Smoke Eaters here Saturday.

TWO SCORING RECORDS FALL

TORONTO (CP)—Two all-time senior Canadian football records and one Big Four mark were broken Saturday when the Big Four and Ontario Rugby Football Union completed their regular schedules.

Billy Graham, brilliant halfback with Kitchener - Waterloo Dutchmen of the ORFU, scored 24 points in his team's 42-20 victory over Toronto Beaches to bring his 1956 point-total to an all-time Canadian high of 157.

Montreal's Pat Abbruzzi of the Big Four ran his season's touchdown total to 20, an all-time record, and his points to 120—a Big Four high. The previous record was 108 set by Edgar Jones of Hamilton Tiger-Cats in 1950.

Graham, playing in his 11th game of the season, scored three touchdowns for a total of 19.

PATTERSON SECOND

Statistics compiled by the Canadian Press show him also with three field goals, 32 converts and two singles. Abbruzzi's touchdowns were scored over 14 games and he ended the regular schedule 42 points ahead of team-mate Hal Patterson who ended with 78 points on 13 touchdowns.

Arm Improving

OSAKA, Japan (AP) — Don Newcombe, the Brooklyn Dodgers' 27-game winning pitcher, said his throwing arm is better than a week ago but still hurts when he throws a curve ball.

The pitcher said he injured his arm in Brooklyn's last game of the National League season against Pittsburgh but told no one about it until after his arrival in Japan.

HARRISON, McDOWELL BIG GUNS AS COMMERCIAL LEAGUE OPENS

Keith Harrison scored five goals and Barry McDowell added three at Civic Arena Sunday morning as Civic Hotel defeated Reuben Buerge Motors 14-3 in the opening game of the first doubleheader of the Nelson Commercial Hockey League schedule.

Charlie Burdette scored three goals to pace Queen's to a 7-2 victory over Glade Beavers in the second game.

Gerry Kinnon and Shorty Malacko scored twice for Civic in the opener, with Don Benedetti and Bill Burns adding singles.

Arnold Sherwood scored twice and Neil McClenaghan once for Buerges, who trailed 6-3 after the first period and 11-3 after the second.

Roy Peloso, Dunc Jamieson, Gord Pickering and Ken White tallied once each for Queen's. Nick Denisoff and Bill Laktin whipped one goal apiece for Glade.

Hungarians Receive Tempting Offers From Italians

VIENNA (AP)—European soccer clubs Monday were reported pursuing with big money offers a group of Hungarian stars who are safely outside their revolution-torn country.

Vienna reports said the Italians had offered Hungarian star Ferenc Puskas the equivalent of $200,000.

Some 16 top Hungarian footballers now are out of the country as members of the military team Honved, which is in West Germany for scheduled games.

ABBRUZZI PLANS TO BE READY

MONTREAL (CP) — Pat Abbruzzi, the Big Four's leading scorer, will be ready for action Saturday in the first game of the league's two-game final against either Ottawa or Hamilton, Montreal Alouettes' officials said Monday.

What was feared to be a shoulder dislocation turned out to be only a bad bruise and although Abbruzzi's shoulder is still sore, it is not expected to hamper his play.

Quarterback Sam Etcheverry, who suffered a knee injury early in last Saturday's game against Toronto, also will be ready for Saturday.

NOTRE DAME HOOPSTERS WIN

Notre Dame College Pups recorded their first victory of the still-young season when they defeated Salmo High School seniors 47-24. The Notre Dame basketballers showed much better form during their victorious effort than they had in absorbing two losses previously.

Pups led 13-8 after the first quarter and stretched their edge to 27-12 by half time. Score after three periods was 35-20 and Pups extended their margin to 47-24 before the final buzzer.

Fred Fedorak paced Notre Dame hoopsters with 14 points while Chuck Kronbauer added seven. Mike Postnikoff led Salmo with eight.

Men, Women Both to Start Curling Soon

Because registration is taking up more time than expected, a "get - acquainted" curling bonspiel will be held for men at Nelson Curling Club Wednesday, Thursday and Friday of this week.

Women curlers, too, are preparing for action. Nelson women's curling club has carded an open house for Thursday afternoon and hope the veteran curlers will be joined by as many newcomers as are willing to learn the game.

The entry committee of the men's club has arranged to have one new curler playing on each rink. Less than two hours after the bonspiel was first announced *Monday afternoon, 10 entries had* been handed in to Jack Lang and Ron Nash.

Regular men's curling will not begin until Monday due to the delay in registration. Women's curling will be held every Thursday afternoon.

PHONEY money from Formosa

Chinese Nationalists have a new twist in their psychological warfare. They are dropping from the air "silver" dollars that turn out to be aluminum discs urging mainland Chinese to join the Formosa forces.

While this money was phoney, real aluminum coins are widely used — in France and Italy, for instance. A fraction the weight of other metals, and perennially bright and shiny, aluminum pays off as small change. It also pays off for Canada, as an industry that converts raw materials and waterpower into purchasing power in the world markets.

Calgary Livestock

CALGARY (CP) — The receipts were much lighter than usual on the livestock market. On offer were 800 cattle and 250 calves.

Bulk of the offering comprised good butcher steers and heifers.

There were insufficient early sales of good to choice butcher steers to establish reliable quotations. The prices were generally steady.

Choice steers 19-20; good 17-18.50; medium 14-16; common 8-13; medium to good grass and cover crop steers 15-18; good heifers 14.50-16; medium 11-13; common 8-10; medium to good grass and cover crop heifers 13-15.50; good cows 7.50-8.25; medium 7-7.25; common 6-7; canners and cutters 4-6; good bulls 9.50-10.50; common to medium 7 - 9; good feeder steers 15-16.50; good stock steers 14.50-16; common to medium 10-13.50; good stock steer calves 15-17.50.

Hogs closed steady last week at 26.50 A grade; sows 14.50 liveweight.

DIVIDENDS

By The Canadian Press

British American Oil Co. Ltd. 25 cents, Jan. 2, recorded Nov. 30.

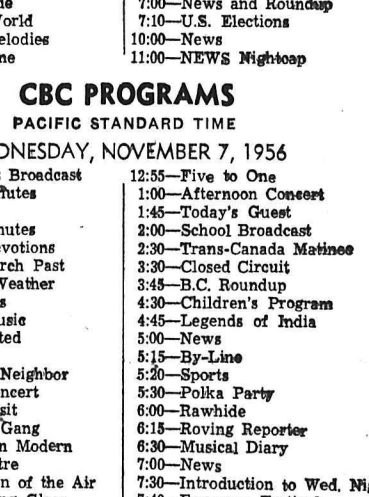
Yesterday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

G M Q Q O B L W G U O S I A F J S U A "Y B J-
X N J A !" N I A Q O B L W G W Y B J W F J S U A
"G N F E !" — W N F N M P N Z .

Yesterday's Cryptoquote: SEE THE CONQUERING HERO COMES! SOUND THE TRUMPETS, BEAT THE DRUMS!—LEE.

Doctor Raises Age Of Educational Peak

NEW YORK (AP) — Dr. Nancy Bayley, head of the child development section of the National Institute of Mental Health, says man probably reaches his peak of intelligence at the age of 50. Her theory, advanced at a meeting here, runs counter to the general belief of educational testers that the peak is reached at about 21.

Market Trends

NEW YORK (AP)—An election eve rally was staged by the stock market with trading the heaviest since June 8.

Most Canadian issues on the New York exchange were higher. Aluminium was up 1¾, Hudson Bay Mining was ahead 1½, International Nickel was 1⅛ and McIntyre Porcupine was up 1. Granby Mining was fractionally lower.

TORONTO (CP) — The stock market recorded a solid advance but trading, although improved over Friday, was still at one of the slowest paces in two years.

Investors were scared away from the trading post at the open following weekend news of the troubled international situation. But in afternoon dealings activity stepped up a bit.

MONTREAL (CP) — Scattered gains ranged to two points as the Montreal and Canadian Stock Exchanges closed on higher ground again. Trading was moderate.

St. Lawrence Corporation added 5½ in the papers. International gained two and Consolidated one in the section. The base metals showed Asbestos ahead two points while International Nickel up one and Noranada ahead 1½.

Southam Net Profit $3.00 Per Share

TORONTO (CP) — Southam Company Ltd. had net profit in the nine months ended Sept. 30 of $2,257,499, or $3.00 a share, compared with $1,885,491, or $2.47 a share, in the corresponding period last year.

Profit was after depreciation provision of $828,773, compared with $512,913; interest on debentures of $135,000, unchanged; and income tax provision of $1,920,000, compared with $1,582,000.

Gross revenue was $25,274,753, compared with $22,053,083; and general operating expense $20,133,481, compared with $17,967,679.

Canada Keeps Watch on Effects Of Middle East Conflict on Oil

By FORBES RHUDE
Canadian Press Business Editor

TORONTO (CP)—Canada, consuming some 700,000 barrels of oil a day, seems to have no immediate cause for alarm about her supply, regardless of what happens in the Middle East, according to opinion here.

This is because she gets only about 30,000 barrels a day from Middle East sources and present indications are that this could easily be made up from Western Hemisphere suppliers.

Nevertheless, the Middle East now supplies about 21 per cent of world demand, and if it were removed it would set up world-supply strains which might reach across the Atlantic.

COULD CAUSE SHORTAGE

American sources have estimated that if either the Middle East pipe lines, or the Suez Canal, were to be blocked, Venezuela and North America could make up for the world loss. However, if both went out, there would be a shortage.

Canada herself is producing oil at a current rate of more than 500,000 barrels daily, but about 100,000 barrels of this goes to the United States.

The balance of Canada needs is met largely from Venezuela and other Caribbean countries — virtually all for use in Quebec and the Atlantic provinces.

Production in Alberta now is held down to about 50 per cent of what it could produce if markets were available.

In case of need this could be stepped up, but present transportation facilities would not be able to handle any sharp increase.

The pipe line which carries Western oil to Ontario is operating at about capacity and there is a little spare space in the transmountain pipe line to British Columbia.

Predicts More Construction By U.K. Firms

LONDON (CP) — The board of trade expects "further opportunities" ahead for British construction firms in Canada.

In a summary of overseas construction, the government department estimates that £87,200,000 ($24,400,000) worth of work was done in the year ending March by British firms abroad.

Of this, £19,000,000 was in the dollar area — and most of it in Canada.

It mentions, as an example of building projects undertaken by the United Kingdom companies abroad, the City Park Apartments in Toronto, the biggest project of its kind ever started in Canada.

In Canada, there has been a large increase in both work completed and new orders received. As a result, the value of work in hand throughout the dollar area rose to £15,700,000 at the end of March, compared with only £4,700,000 on the same date last year.

Tighter Mortgages May Lead To Slow-Down in Demands for Homes

By H. L. JONES
Canadian Press Staff Writer

OTTAWA (CP)—Canada's multi-million dollar house-building industry faces a two-fold problem — a tightening mortage money market and a slackening in demand for new homes.

That is the way Stewart Bates, president of Central Mortgage and Housing Corporation, sized up the situation at a recent roun-table conference here with 40 of Canada's housing contractors.

Mr. Bates suggested one course builders could follow would be to cut housing costs to the bone to attract more home owners from the lower income brackets.

ANTI-INFLATION MOVE

The head of the government house-financing agency said the mortgage situation — the banks have tightened lending operations as an anti-inflationary move at the request of the Bank of Canada—will be uppermost in builder's minds in 1957.

Mr. Bates estimated that if investment intentions by business, utilities and governments are up by 10 per cent for next year, "pressure on mortgage lending will continue and private lenders, as in the past, will make the decisions as to the distribution of available funds."

Houses completed in the first nine months of this year total 65,601 compared with 63,303 in the same period of 1955 when a total of 127,929 homes were completed. Federal officials expect total completions this year may reach a record of 135,000 but point out that many of these are homes financed and started last year before credit tightened.

EXPECT SLACKENING

On the other hand 70,830 homes were started in the first nine months of this year, against 74,444 for the first nine-month period of 1955 and a further slackening is expected.

Construction expenditure for the first half of 1956 was up to $658,500,000 from $587,700,000 in the first six months of 1955. The 1956 total undoubtedly will go beyond the 1955 aggregate of $1,386,100,000 but officials agree that part of the rise will be due to inflationary trends such as the higher cost of labor and building materials.

Mr. Bates, in his talk to the builders, gave no indication as to whether any government steps are planned to ease credit so far as housing is concerned.

37 in Fourth Nelson Cubs

Fourth Nelson First Baptist Clubs held their largest investiture since receiving their charter three years ago when 17 new members were installed into the organization Friday evening in the Baptist Church.

At the end of the artificial moon-glow and candle lit ceremonies the pack totalled 37 members. Tenderpads are Bruce Walton, Kenneth McInnes, Pat Kennedy, Gregory Ozeroff, Jimmy Openshaw, Doug Walkley, Donald Webb, Bill French, Jimmy Rapley, Michael Jones, John Burns, Bob Phillips, Michael Balderston, Tommy Grieve, Billy Ogden, Teddy Towgood and Kenny McDae.

Approximately 70 parents attended. Noted guests at the event included President of the Nelson District Boy Scout Association, J. J. McEwen; Secretary of the Fourth Nelson First Baptist Cub Group Bob Walton; Cubmaster Len McIsaac of the First Nelson group and Cyril Kershaw.

Assisting in the induction were F. S. Aikins, Rev. K. Imayoshi, Robert Walkley, Fred Joyce and Gordon French.

'56 Contribution To Red Cross Largest Since War

Largest contribution to Red Cross funds since the war years was reported by Col. W. G. Swan, chairman of the 1956 B.C. campaign committee at a meeting of the provincal executive of the Society in Vancouver. To date $633,854 has been received 95 per cent of the 1956 quota and $18,000 than collected during the preceding year.

Col. Swan will again act as campaign chairman when the 1957 appeal is made in March. Rear-Admiral Victor Brodeur and Judge Harry Sulivan will serve as vice-chairman, it was announced by Eric Marsden provincial Red Cross president.

Local Beef Marketing Facilities Suggested

A suggestion that some method be implemented to market beef locally was made to the annual meeting of West Kootenay-Boundary Central Farmers' Institute here Saturday by delegate F. Storgaard of Winlaw.

Mr. Storgaard said he knew of farmers selling beef cattle to Calgary plants for as little as eight cents a pound.

Arnold J. Allan, district agriculturist at Nelson, thought the solution would be a small packing plant and slaughter house similar to that operated in Haney. P. Romaine of Deer Park said they might have a co-op plant like one in Surrey. Stricter government regulations were necessitated because of the unsanitary methods of killing cows on the farm, also because some farmers tried to sell diseased cows.

Regarding President John Cochran's suggestion that the Chamber of Commerce try to interest some person in setting up a slaughter house and meat packing business locally, P. Paterson of Kaslo recalled an eastern town where a man had started a small meat packing plant some years ago, and large companies closed him out just when the business was going nicely. Mr. Cochran suggested that Mr. Storgaard contact the Okanagan packing house.

H. A. Young, deputy minister of public works in Ottawa, in a letter of reply to the Central Institute, said dredging of the Kootenay Lake and river came under local or provincial authorities, and Col. Webster of the B.C. Public Works Department in Vancouver had examined the situations once. The Board of Trade is also supporting the matter.

W. W. Wadeson, Trail hydrologist, stated in a letter that flood control on the Kootenay Lake and river had been discussed since about 1880. Gauge levels show the channel is not silting up. The proposed Libby Dam in Montana, which the American government has mooted, would control more water than one at Canal Flats, he thought, benefiting the Creston to Trail area. One delegate thought Canada would stand firm "until the U.S. gives a little". There may be some action after the coming U.S. election, and the meeting decided to refer the matter to the Provincial Government.

NEW BOARD

F. H. W. Chanter of Willow Point said a temporary board has been set up to replace the vegetable marketing board, which resigned last summer. Earl Shannon of Willow Point has been appointed to contact businessmen, and a proposal that farmers sell directly to wholesalers only may be re-introduced.

A "thank you" letter will be sent to the B.C. minister of agriculture for increasing lime and stumping powder subsidies by $1 to farmers. Lime subsidy is now $3 per ton, stumping powder subsidy $3.75 a case. Mr. Allan said refined gypsum from the U.S. would cost just about as much as lime.

The Public Works Department is cleaning out most creeks to prevent flash floods, but little has been done on a request for weed-spraying, the meeting was told.

Robert Foxall of the Associated Growers said he couldn't get any satisfaction from Hon. Kenneth Kiernan, former B.C. minister of agriculture, on measures against alienation of good agricultural land for commercial and residential purposes.

First item of business during the afternoon session was a resolution from the Grand Forks Institute, which was not represented at the meeting, requesting action for mandatory supplies of power by companies to areas within their franchise district, even if it would mean lost profits to the companies for at least the first few years. If sale of power to isolated areas at a fair price was not possible, the B.C. Power Commission should buy power from the companies for supply to rural areas, and so help to raise the standard of rural living, it was stated. Mr. Cochran said that "continual pounding" has brought electrical power to Nakusp and other nearby centres.

Mr. Wallace will find out how many people and how large an area the Grand Forks farmers were considering before forwarding the resolution.

EROSION PROBLEM

Another Grand Forks resolution dealt with corrective methods for erosion in the Kettle River and other bodies of water. John White of Balfour proposed a subsidiary resolution calling for similar protective measures on Beaver and other creeks "where it affects agricultural land". The matter will be sent to Victoria. Mr. Paterson said "it's too bad the people who sponsor these resolutions aren't here to discuss them."

The meeting was told roads and road signs are in very poor condition near Vallican and Passmore. Each winter snow plows throw the snow against the side of the road on which residences are built, blocking entrances to farms. Public works crews are instructed to plow only the main roads, leaving farmers to clear their own entrances. However, since many Vallican and Passmore residents are older folk, a suggestion was made that the department plows clear the snow from in front of driveways. Crews have poured gravel in a creek near Passmore, but it requires a culvert to keep it under control.

Institutes have tried for many years to get more CBC booster stations in the area. Nakusp is "fairly sure" of getting one soon, Mr. Cochran said. He had been told by A. R. Ramsden, manager of Nelson Radio Station CKLN, that a projected jump from 250 to 1000 watts would likely increase coverage in Slocan and Kootenay Lake areas.

The Associated Boards of Trade are also interested in getting better Kootenay radio coverage, and Mr. White moved that the group forward a "very strong protest to the CBC about the way we have been ignored for the past two years."

R. Oborne of Robson, and C. Newcomen of Winlaw, were also at the meeting.

Fulton Urges Asylum To Hungarians

KAMLOOPS, B.C. (CP) — E. Davie Fulton, Progressive-Conservative member of parliament for Kamloops, said that Canada should offer "immediate and unrestricted asylum" to refugees forced to flee from Hungary because of Soviet aggression.

"We are all in full accord with the resolution of the United Nations Assembly condemning this latest act of butchery on the part of the Soviet," said Mr. Fulton, a candidate for the national leadership of the Progressive Conservative party.

"But is is essential that the free nations do something to prove to those who risk their lives for freedom that their efforts are supported by more than the passing of resolutions."

He suggested that offering Hungarians asylum was "the least we can do," and might encourage other nations to take similar action.

"It would help keep alive the spark of freedom in the hearts of those who might otherwise wonder if there is any use in continuing the struggle."

Dulles' Condition Reported Excellent

WASHINGTON (AP) — State Secretary Dulles was reported in "excellent" condition today in his recovery from surgery for the removal of an intestinal cancer. The state department said Dulles may return to his desk sooner than expected.

A department spokesman said in a 1 p.m. EST (11 a.m. MST) medical bulletin that Dulles spent "a very comfortable night and the secretary's spirits are high."

Issue Summary of Mine Dead, Saved

SPRINGHILL, N.S. (CP) — This is the official summary of casualties and rescued in last Thursday's Cumberland mine explosion:

Dead (bodies recovered) 13; missing and known to be dead, 24; injured 7; rescued 88.

Two of the dead were rescue workers.

Odds . . . and Ends

. . . by M. D. B.

As I start this column it is just 12:15 a.m. Monday morning. We have just "put front page to bed" as the saying goes and after editing down the world news gleaned from the teletypes, to say nothing of listening to radio broadcasts late Saturday night, early Sunday morning and afternoon, I find it difficult to find something cheerful or facetious to say.

* * *

I can still hear the Hungarian diplomat, a little out of breath, his voice shaking with emotion as he told the UN emergency meeting Soviet forces had turned on his native land. If ever you had felt far removed from this little country and its struggle for freedom, his words were enough to bring the picture into sharp focus.

* * *

I must admit I had taken rather a jaundiced view of Britain's action in Egypt, but as I listened to the United Nations broadcast I was aware of how ill equipped UN was to handle any sort of aggression and I found Eden's speech reassuring, to say the least. That there is to be a UN police force to take over in the Mideast, should solve the continual bear-baiting that has gone on between Israel and Jordan, to say nothing of saving the United Nations from disintegration.

* * *

Hearing the heartening news that so many miners had been rescued in the Nova Scotia mine explosion, I could not help thinking "Here is a miracle." I could picture the town, its people drawn close together by the common grief and anxiety. That it has turned out happily for so many, will lighten the load of grief a little.

* * *

Now, in different vein . . . A friend of mine was telling me on Hallowe'en when she ran out of treats she stopped answering the door. She has a "Leave a note" box on her door and next morning in childish scrawls she found "Trick or Treat" written across the page several times and across one corner was the admonition "You weren't home."

* * *

In the restaurant the other night I ordered a steak sandwich. This makes an inexpensive light meal, if you are lucky. The piece of steak as a rule measures about 2½" x 2½" give or take and it can be any degree of toughness. Occasionally I am lucky and get a tender morsel, but the other night was not one of those times. If ever a piece of beef had been around, it had. If ever a steer had been known as a tough hombre of the range, it must have been the one that grew that steak. I always thought it was the hide of the animal they used for leather, now I begin to wonder.

Car Damages Lead Insurance Claims

WINNIPEG (CP) — Automobile damage claims have replaced fire losses as the greatest outlay by Canadian Insurance firms, R. W. Harris of the All-Canada Insurance Federation said Monday.

He told a service club meeting more than 2,500 Canadians are killed each year on highways and about $100,000,000 is paid out annually for car accident claims.

Fires, however, are responsible for 500 deaths a year and nearly $90,000,000 in claims.

MAN'S SELFHOOD SERVICE THEME

Man's real selfhood as the spiritual image and likeness of God, not subject to sin and sickness, was emphasized at Christian Science services Sunday.

Scriptual reading in the Lesson-Sermon entitled "Adam and Fallen Man" included the followng (GENESIS 1:27): "So God created man in his own image, in the image of God created he him; male and female created he them."

The unchanging perfection of God's man was brought out in passages read from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, including the following: "When speaking of God's children, not the children of men, Jesus said, 'The kingdom of God is within you; that is, Truth and Love reign in the real man, showing that man in God's image is unfallen and eternal."

FUNERAL NOTICE

CLOUGH — Mrs. W. Clough will be buried at 2:30 p.m., Wednesday, Nov. 7, from the Presbyterian Church in Slocan City.

CARD OF THANKS

We wish to thank our many friends, relatives and neighbors for their acts of kindness and sympathy, and for the beautiful floral tributes and all cards received by us in the loss of our darling daughter and sister Adrien. Special thanks to Drs. Callbeck and Barrett, and assisting doctors and nursing staff of Kootenay Lake General Hospital. Many thanks to Rev. Hanson for his consoling words.

Mr. and Mrs. Ross Carmen and family.
