Kennedy Wins Winsconsin Primary

MILWAUKEE (AP)—Senator John F. Kennedy (Dem. Mass.) won the Wisconsin Democratic presidential primary Tuesday night with a majority of the state-wide vote and six of 10 Congressional districts.

Senator Hubert H. Humphrey (Dem. Minn.) went down to a respectable defeat and was ready to claim that actually it was something of a victory for an underdog.

Vice-President Richard M. Nixon came in third in the balloting.

He had no opposition on the Republican side of the primary and never campaigned in the state.

At the moment of victory in a crucial election, Kennedy had a claim of 20 of the 30 votes in the Democratic national convention in San Francisco this summer which were up for grabs. Humphrey was reaching for the other 10.

Returns from 2,442 of 3,446 precincts give Kennedy 261,142 votes, Humphrey 231,228 and Nixon 213,843.

WARMUP EXERCISE

Confronted with returns showing him 20,00 votes behind in the state-wide vote, Humphrey said, "Well listen, I still consider this a warm-up exercise for me. I do not feel injured, I mean politically injured, by the results. I feel it is a reassuring vote."

The Minnesota senator made a race of it in the early going, but only because he was strong in the areas which counted ballots first.

Kennedy told a television audience:

"I feel good because I believe it was a successful campaign against a worthy opponent. It was a very long and gruelling campaign. After tonight I will continue to work on the other primaries."

In any event, Kennedy more than ever is the outstanding contender for the Democratic nomination.

30 Doukhobors Apply for Land

VICTORIA (CP)—The provincial government is still very anxious that Doukhobors take up its offer to sell them the lands they occupy at 60 per cent of the assessed value, Attorney-General Bonner said Tuesday.

He added that no decision has yet been made on the recommendation of Mr. Justice A. E. Lord—who made a lengthy report on the Doukhobor land situation—that the offer be withdrawn as of the end of this year.

Mr. Bonner welcomed reports that some 30 Doukhobors now have applied to buy lands under the government's offer, a slight increase since Mr. Justice Lord made his report last December.

The jurist told the government the Doukhobors didn't seem much interested in the below-value offer and therefore recommended that after the end of this year the lands be thrown open for public sale.

Some 18,000 acres are involved, mostly in the Kootenays.

Store Officials Plead Not Guilty

VANCOUVER (CP) — Shop-Easy Stores (B.C.) Ltd. and 13 of its officials pleaded not guilty Tuesday to 28 lottery charges in connection with a "bonus card" game operated by the supermarket chain.

Magistrate Gordon Scott set their trial for April 12.

The company, Wilbur Sheardown, general manager, and 12 store managers are charged with publishing and conducting a scheme to dispose of cash prizes by a method of chance.

City prosecutor Stewart McMorran said both the crown and defence have agreed to admit a statement of facts at the trial to eliminate submission of evidence.

Company lawyer Vernon Hill explained the trial will be confined to argument on the legal effects of the facts.

Contents of the statement were not revealed.

Magistrate Scott agreed to a defence request that the store officials not be required to attend remainder of the hearing.

POLICE KEPT BUSY

VICTORIA (CP)—Victoria's police radio was crackling Monday. Thefts officers were sent to check included eight engine blocks worth $40; two small trees from a Chinese church yard; an eight-foot boat; four bath towels from a clothes line, and a wooden plank from the side of a shed.

POWER FROM SUNLIGHT—The world's first solar-powered electric auto moves down a street in Chicago. Atop the roof is a big solar cell which converts light rays into electrical power. So the old 1912 Baker Electric is a new car again.

Police Seek Clues In Castlegar Bombing

Royal Canadian Mounted Police at Castlegar and Nelson are seeking interviews with every person who was in West's department store at Castlegar Friday between 3 and 9 p.m.

This investigation is in connection with a bomb explosion which occurred at the store early Saturday morning, when about $3000 in damage was caused by the blast. The explosion ripped open a wall and smashed almost all the windows in the store. Owner R. A. D. West and Mrs. West were asleep in their living quarters above the store when the bomb went off. They were not injured.

RCMP investigation is continuing, and a number of people have been questioned. They asked Tuesday that all persons who might have been in the store during those hours to contact them either at Castlegar or Nelson.

Police believe the bomb was placed in the pocket of a coat on a clothes rack. Dresses, dusters and other women's garments were torn to shreds.

It was also believed that the bomb was set by the same group which planted three bombs in the Oglow building supply store in Castlegar early in March.

Parliament Tuesday

By The Canadian Press

The civil service salary question and please for special consideration of the Maritimes' problems came to the fore in the second day of the budget debate.

Hubert Badanai (L — Fort William) urged removal of the 7½-per-cent excise tax on automobiles to help reduce imports of cars.

Prime Minister Diefenbaker announced that Trade Minister Churchill and Labor Minister Starr leave Saturday for the northern Ontario uranium town of Elliot Lake.

MARGARET SENDS 2,047 INVITATIONS

LONDON (AP) — Invitations to Princess Margaret's wedding May 6 in Westminster Abbey go in the mail this morning, all 2047 of them.

In Britain's uppercrust a lot of people are holding their breath.

The list is secret. A handful are certain they will be invited. But most of the guests just have to sweat it out.

"The invitations are issued by Queen Mother Elizabeth. The gilt-edged, seven- by five-inch cards bear the Queen Mother's crest and say simply:

"The Lord Chamberlain to Queen Elizabeth the Queen Mother is commanded by Her Majesty to invite — to the ceremony of the marriage of Her Royal Highness the Princess Margaret with Mr. Antony Armstrong-Jones in Westminster Abbey on May 6 at 11:30 a.m."

When the card is acknowledged by the favored guest, another is issued specifying the seat.

S. Africa Gov't, Armed With New Law To Crack Down

Mice Halt Train

ROSIGNANO SOLVAY, Italy (AP) — Four passenger trains and several freights braked to a halt on the main line to Rome outside this central Italian town. No one had switched on the red signals but they were red anyway.

Technicians opened the switch box at the control tower. Out scampered a family of mice that had been chewing on the wires, causing a short circuit.

Radiation Victim To Be Protected

VANCOUVER (CP)—Workmen's Compensation commissioners across Canada are working toward establishment of a central agency where the name of any person exposed to a heavy dose of radiation will be recorded, an official said here.

Brendan Carton, industrial hygienist with the Workmen's Compensation Board of British Columbia, was addressing the first course on radiation ever given to a Canadian fire department.

Fire Chief Hugh Bird said devices for measuring radiation will be installed on four district chiefs' cars by May 20.

Mr. Carton said every person exposed to 12 rems of radiation would be recorded in the central agency.

He said a roentgen is a measure of radiation intensity while a rem is absorption of the radiation.

A person was permitted to pick up 25 rems at one time, once in a lifetime.

He said more stringent and up-to-date regulations regarding the handling of radioactive materials and safe exposure limits will be embodied in the B.C. Workmen's Compensation Act within a year.

Road Work Urged

VERNON (CP) — The Vernon Board of Trade is urging the standardization of Highway 6 — the Monashee route between the Okanagan and the Kootenays. A resolution on this will be sent to the May meeting of the B.C. Chaaber of Commerce in Vancouver.

Baby Born In 'Black Maria'

VICTORIA (CP) — A baby boy was born a few minutes past midnight Tuesday — in the back of the city police's patrol wagon.

Husband Mervyn Berry put in an emergency call to police when it was apparent the baby was imminent. Police sent the "Black Maria" which rushed the expectant mother to hospital where doctor's and nurses climbed in and took over just in time.

"Ever hear a baby crying from the patrol wagon?" asked one relieved policeman. "It was the funniest thing."

Mother and son are doing well.

To Use New Power To Outlaw "Unlawful Negro Organizations"

CAPETOWN (Reuters) — The South African government was given power Tuesday night to outlaw African nationalist organizations while casualties mounted in a police crackdown on Negroes campaigning for political rights.

The Senate gave final approval to the Unlawful Organizations Bill, already passed by the lower House of Assembly, which gives the government power to outlaw the African National Congress, the Pan-Africanist Congress "and certain other organizations."

The bill was designed for "the safety of the public and the maintenance of public order."

Many nationalist leaders already have escaped underground.

Justice Minister Francois Erasmus warned that the government would not hesitate to use all available power to break an "unprecedented reign of terror."

Under the new bill, anyone convicted of working for a banned organization would face penalties up to five years in jail, a £500 fine or 10 strokes of the lash.

Meanwhile, Negroes fought with clubs and knives against police armed with guns and nightsticks Tuesday night in clashes at nearby Nyanga and Lamontville, 10 miles from Durban.

A policeman and an African were killed and dozens of others were wounded or injured. Police said they were dealing with "agitators" trying to persuade other Africans to stay away from their jobs.

FIRE ON CROWD

In Lamontville, where police Monday charged a big crowd with nightsticks, police opened fire on a crowd of 1,000 they said was waiting to waylay homebound Negro workers.

One Negro was killed and two wounded in the shooting. Other Negroes and several policemen were injured in a fight between club-swinging natives and police using nightsticks.

Earlier, Nyanga police opened fire for the second day running after a heavy mobile force moved into the township. A Negro policeman was hacked to death, two others were injured and several persons were wounded by gunfire and blows from nightsticks.

RESISTANCE AREA

A police official reported that the township was "alive with defiant stay-aways" as the campaign against the government's strict racial segregation laws went into its third week.

Armored cars, riot trucks and jeeps moved into Nyanga early Tuesday. District Police Commander J. J. Rheeder said the force was sent "to protect those who wished to go to work."

Two Injured in Crash at Radium

INVERMERE—A bad corner on the Mile Hill, located one-quarter of a mile south of Radium Hot Springs junction, sent two men to Windermere District Hospital here Tuesday night. Both men have been working in the district over the winter. They came originally from the Edmonton area last fall.

One man has been placed on the critical list, suffering serious chest injuries. His name has been withheld by RCMP pending notification of next-of-kin.

The other man, Andy Sika of Radium Hot Springs, believed to have been the driver of the 1950 vehicle, described as a complete wreck, is suffering extensive minor injuries and is hospitalized for observation.

At about 5:30 p.m. the car was proceeding in the right lane up the long hill towards Invermere from Radium Hot Springs when it failed to take the first corner, which has no guard rails, and plunged down a steep slope before being halted by a growth of trees.

The men were in such condition that they weren't moved from the wreck until a doctor, called from Invermere, arrived on the scene.

RCMP Constable Frank Leckman of Radium is investigating the accident.

Radium Hot Springs is 90 miles north of Kimberley.

Bennett To Urge Ottawa Ease Up on Tight Money

VICTORIA (CP) — Premier Bennett of British Columbia said Tuesday he is going to the federal-provincial conference in Ottawa in July with "nothing but goodwill" but will stress again the need for abolition of "tight-money" policies.

"Tight money is the wrong road," the premier-finance minister told a press conference. "What is needed are balanced budgets with an adequate money supply and reasonable interest rates."

Just back from 10-day trip to California following a January kidney operation, the premier termed the recent federal budget a "do-nothing" budget. He thought balanced budgets a good thing but said to achieve it, the federal government had had to cancel a lot of its national development policies.

The premier confirmed that the federal government had offered tentatively to let B.C. have a loan for certain works on the proposed billion-dollar Columbia River project at 1-8th of one per cent above the market interest rate.

He said that if the B.C. Power Commission — the agency designated for physical works on the Columbia — couldn't get money cheaper elsewhere "we'll take it."

But Mr. Bennett said he was still trying to get from Finance Minister Fleming a firm commitment on a quoted statement by External Affairs Minister Green that Ottawa would share half the cost.

Mr. Bennett reiterated his belief that the Columbia and the proposed private development of the Peace River could and should go forward together. B.C. had not held back the Columbia and would not do so.

There was "no controversy" between the province and Ottawa over financing, now being discussed in the federal-provincial liaison committee which meets regularly to map a united stand in negotiations with the United States. The thing was to get an international agreement with the U.S.

He welcomed federal action based on the National Energy Board's recommendations for export of natural gas from Canada. He expected the decision would increase petroleum development in this province on a wide scale.

He also said that despite all reports and rumors he's "not thinking of any election at this time."

He told a press conference he was anxious the people of the province "get their mind off an election" because the government at the moment was concerned with development of the economy.

RCAF FLYING 24 TYPES OF PLANES

OTTAWA (CP) — The RCAF now has so many jobs to perform that it is flying 24 different types of aircraft.

In the next couple of years, it will get at least four new types and hopes to get a fifth — the American twin-engine, twin-seat F-101 Voodoo jet interceptor.

For its various roles — air defence, Transport, Arctic supply, anti-submarine patrol, reconnaissance, search and rescue, and training — the RCAF has fewer than 5,000 aircrew. Total number of aircraft in the RCAF inventory is classified information but it is probably about 1,000.

Gamble, Andre Apply For Licence

DILLON, S.C. (AP) — Gamble Benedict, heiress to a Remington typewriter fortune, and her Romanian-born lover, Andre Porumbeanu, applied for a marriage licence here Tuesday.

Under South Carolina's 24-hour waiting period, they may pick up the licence any time after 3 p.m. today.

In New York, Robert Hoffman, the family lawyer who brought Miss Benedict back from Paris said:

"This time he (Porumbeanu) will not get away with it. All necessary measures will be taken to effect her return home."

Librarian Appointed

VICTORIA (CP)—Victoria University Monday night appointed a head librarian whose first duty will be to guide planning for a new $1,400,000 library expected to open on the campus by late 1962. Given the job starting July 1 was Dean W. Halliwell, at present assistant librarian at the University of Saskatchewan.

British Welcome Brings Tears to Eyes of de Gaulle

LONDON (CP)—Triumph and tears mingled in the emotional welcome of President Charles de Gaulle to Britain Tuesday.

Queen Elizabeth and her people received de Gaulle with pomp and panoply in the city that was the headquarters of his Free French forces in the Second World War.

The head of the Fifth French Republic, the most powerful Frenchman of his time, wore the uniform of a brigadier - general, his wartime rank, at the opening of a three-day state visit. He is here for pre-summit discussions with Prime Minister Macmillan.

LONG ABSENCE

It was de Gaulle's first visit to London in almost 16 years. He last crossed the English Channel June 14, 1944, eight days after D-day, on his way to Normandy from his headquarters here.

London was bright with flags of the two nations and its usually placid crowds kept up a chant of "Vive de Gaulle." An estimated 100,000 hailed him.

Twice the 69-year-old soldier, usually aloof, was moved to tears.

His eyes filled as a Coldstream Guards band struck up La Marseillaise outside Victoria Station. Queen Elizabeth glanced at him in quick sympathy, then looked down at her feet.

WEEPS AGAIN

Later, de Gaulle wept as he placed a tricolored wreath at the statue of Marshal Ferdinand Foch. He had placed a similar wreath there July 14, 1940, in the dark period after Dunkerque.

At one point, he caused near chaos and cries of delight from the crowds when he wandered across a street—after the wreath-placing ceremony — to chat with bystanders.

"Shook me properly, that did", a Cockney exclaimed after de Gaulle walked up and pumped his hand. "I never expected anything like it."

De Gaulle was back on British soil for the first time since 1944.

As he stepped from the train at Victoria Station he swept off his pillbox hat with a Gallic flourish and bowed low before the Queen, his hostess. Mrs. de Gaulle accompanied him.

One of the president's first callers later was Macmillan.

Unusually reliable sources said de Gaulle told Macmillan:

1. The United States, Britain and France would go as solidly-united friends to next month's summit meeting with Russia;

2. France would be prepared to join in any international agreement to limit nuclear explosions, provided its own minimum atomic requirements for national defence were adequately safeguarded;

3. Co-operation in aiding underdeveloped countries is necessary for world peace.

Street Corners

By PYRAMUS

Meter readers (parking) are the busiest men in town these days. Yesterday, an ardent fan of ours counted five violations in one block, with the meter reader busy with pad and pen. Our friend deplored the fact that he didn't have a pocketful of pennies with which to play the Good Samaritan.

Oh! oh! there goes a blue slip on that car across the street.

* * *

Have you heard any woodpeckers sounding off, signalling the female of the species to come and look over his collection of beetles?

One was making a hack of a row atop the Granthall's searchlight the other noon — the noise could be heard on the Nelson Bridge. He'd cackle in what he considered a seductive voice and then tattoo on the metal searchlight in an excess of anticipation. No one seemed to answer.

* * *

SEEN IN PASSING — Miss Kathleen Hollington going into the shoemaker's . . . Max Kasper glueing a piece on the inside of a shoe . . . Mrs. Frank Di Bella talking animatedly to a friend as they came out of the grocery store . . . Mrs. W. Cliffe of Ymir talking to Mrs. F. W. Cartwright on the street corner . . .

* * *

The sports car owner was giving his friend the first ride in a new foreign import which was low-slung. After they had been driving a while the friend appeared to be puzzled, so the driver asked him what was wrong.

"I can't figure out what that long wall is we've been passing."

"That's no wall," snapped the driver. "That's the curb."

DOLLAR UNCHANGED

NEW YORK (CP) — Canadian dollar unchanged at $1.04 27-64 in terms of U.S. funds. Week ago $1.04 61-64. Pound sterling 1-16 higher at $2.80 15-16.

HOUSES BURN AFTER PLANE CRASH — A row of homes burn at Little Rock, Ark., Thursday after a flaming six-engine jet bomber exploded and rained debris and death in its plunge near the state capitol. At least five persons, including three crewmen, perished in the disaster. The flaming debris set seven or more houses afire. The B-47 was on a training flight.
—AP Wirephoto.

And in This Corner . . .

DETROIT (AP)—The election wasn't fixed, but it sure smelled.

Voters in suburban Hamtramck went to Copernicus Junior High School Monday to cast ballots for a mayor and other city officials in a municipal election.

Unknown to the voters or to election and school officials, a skunk lurked in the school's heating room — right next to an opening in the ventilating system.

But when the skunk was spotted and police called, an officer shot and killed the animal. And before it died it discharged its aroma into the ventilating system.

HELL, Calif. (AP)—It was 98 degrees in Hell Monday.

But this little community of six persons wasn't quite as hot as nearby Thousand Palms, where a temperature reading of 99 was recorded in early afternoon.

The weatherman said it would be slightly cooler Tuesday.

LONDON (Reuters)—Brigitte Bardot Tuesday was ordered confined to quarters by the French navy during President de Gaulle's visit to Britain.

The order affects two French naval frigates sent here for three days in connection with the president's visit.

Because the ships will be open to the public, sailors were ordered to take down their pin-ups of Miss Bardot and hide them in their lockers until the ships sail from London.

"After all," a French navy officer said, "the British public will be coming aboard."

FAIR DATES CONFIRMED

VICTORIA — Confirmation of dates for district fairs and exhibitions has been given by the provincial Department of Agriculture. Nelson Agricultural and Industrial Exhibition will be held Sept. 15-17, Castlegar and Creston Sept. 16-17, while Grand Forks will be held Sept. 9-10.

Nelson Vet Returns From Battlefield Tour

A Nelson war veteran has just returned from a tour of European battlefields on which he once fought.

Denis C. Coen, who served with the Seaforth Highlanders in World War II, travelled across the Italian Island of Sicily in the Mediterranean, Italy, France, Belgium, Holland and Great Britain on a 30-day trip.

D. C. COEN

Wherever they went they were greeted by servicemen's groups and a reception was also enjoyed at Canada House in London.

The tour was one of two arranged by the University Travel Club of Toronto, one party visiting World War I battlefields. There were 10 in Mr. Coen's group.

The tours of battlefields and war graves were strenuous, Mr. Coen said, but there was also time to visit the cities and parts of the countries they had come to know during the war.

Most outstanding were their visits to Rome and London, Mr. Coen said. He continued:

"We found Europe enjoying great prosperity. This was most surprising after what we had seen during the war years. It was especially surprising in Great Britain, where they now have total employment. Money in Italy was sound."

The party took off from Toronto in a Comet IV jet on an inaugural flight, March 1. The journey took seven hours. It was "a lovely flight, but it felt as though we were on a roller coaster when the jet took off," said Mr. Coen.

Family Left Homeless by Saturday Fire

WINDERMERE — Emergency Red Cross assistance was given to the Jensen family here Tuesday after a fire had completely destroyed their one-storey house Saturday afternoon.

A blaze of undetermined origin broke out at approximately 1 p.m. The volunteer fire brigade answered the emergency but their efforts had little avail on the roaring blaze.

No damage figure has yet been released and the building was not covered by insurance.

Highways Relatively Quiet in Past Week

Ten accidents and two prosecutions were reported by the Nelson RCMP subdivision for the week ending April 3.

For the whole province there were two fatalities, 202 accidents and 94 prosecutions. The previous two weeks had not seen a fatality.

The Room That Be Above Reproach . . .

SPRIG HAS SPRUG — Well, you know, those of you who haven't been down with the recent round of 'flu, that "Spring Is in the Air." To prove it a Daily News cameraman yesterday took a jaunt around the town, and everywhere he went found homeowners and gardeners hard at work getting ready for the new season. In the above composite shot can be seen (top left to right) F. R. Deakin, Gerald Barry and R. A. Matheson, and in the lower photos, R. A. Hyssop, J. H. Clarkson and young Paddy Barone. With rakes, hammers, paint scrapers and other garden tools Nelson is making way for another season of bright gardens and enjoyable puttering around the flowers as they come up.—*Daily News photos.*

To Call Tenders Soon For School

Tenders for the new South Nelson Elementary School are to be called soon members of the Board of Trustees of School District No. 7 learned Monday night.

Correspondence from architect D. F. Fairbanks stated that architectural and structural engineering blueprints were placed in the hands of the board on March 31 and at the same time duplicate prints were forwarded to the Provincial Department of Education and the fire marshall for approval.

Tuesday, secretary-treasurer J. S. Livingston said that the department had phoned the board office, stating that they had received the plans and appear ready to give full approval to them.

The school was originally scheduled to be finished by September 1 and will handle on its completion 400 students, 100 more than the old school.

It was also learned Tuesday from board chairman R. Phillips that the board has appointed a new auditor for the 1960 financial year, Shankland and Company.

No reason was given for the dropping of long-time school board auditor Charles Hunt, other than it was the board's prerogative to name each year an auditor by April 1.

OTHER BUSINESS

School student photos this year will not be taken at the schools. L. V. Rogers High School Principal Gerald Lee said that the schools didn't profit much by contracting with national photo companies who supplied schools with free file, identification card photos of each student.

Junior High School Principal B. B. Crawford and principal of the South Nelson Elementary School, E. K. Evans supported Mr. Lee's stand that if the students wanted photos taken, they could do so on their own time in local studio.

"We don't want school time taken up," said Mr. Lee. "The student has enough free time to go down to the studio."

The rental committee under Trustee Dr. J. G. McMurchy recommended that the board allow the Kiwanis club to rent the board's 750 school chairs for their gigantic car bingo set for the end of the month.

The board agreed to the request after trustee Gordon Sutherland pointed out that the Kiwanis had used the chairs last year under a satisfactory arrangement and were relying heavily on the board's permission this year to help fill the need for 1000 chairs.

Shriners and the Student's Union of the Salmo school were granted permission to use that school's auditorium to present a Stars of Tomorrow Concert on May 7th with the proceeds being donated to the "Crippled Children's Fund."

Permission was granted to the West Kootenay Medical Association to use one room of the Salmo school on April 28 for the educational section of the program of the Association's convention.

Former L. V. Rogers teacher Guy Hubbard notified the board that he will be unable to return to the high school following the termination of his one-year leave of absence soon. Attending Stanford University in California, Mr. Hubbard has been awarded a scholarship and has elected to continue on in the fall semester of 1960 toward his doctorate degree.

Another teacher currently enjoying a one-year leave of absence, Hugh Herbison informed the board through correspondence that he will be returning to Nelson this fall.

Trail Council All For Mayor

TRAIL (CP) — City council has given two readings to a by-law which would increase the mayor's annual salary by $500 to $3000. One thousand dollars would be tax-free. Aldermen are not considering increasing their own $850 a year stipend.

FIREMEN DOUSE BLAZE QUICKLY

Nelson Fire Department made quick work of a small grass fire Tuesday afternoon.

Called out at approximately 3 p.m. to 320 Chatham Street by a woman who had started a small fire to burn off the grass, the fire crew returned to the fire hall 20 minutes later, after dousing the flames which were threatening a power pole.

Minor fire damage was reported by Chief E. S. Owens.

"I Wasn't Lost, Mummy But Glad You Found Me"

A two-hour search for the parents of a three-year-old pony-tailed and jean-clad pretty little miss ended about 6:30 p.m. Tuesday with outstretched arms, a happy smile and a tiny little scream, "Mommy!"

At 4:30 p.m. Mrs. Robert Clark of 913 Hall Street found pretty young Karen Koehle, the daughter of Mr. and Mrs. Fritz Koehle of 815 Latimer Street, wandering in front of her home apparently quite lost. Mrs. Clark had no idea who the little girl was and blonde-haired, blue-eyed Karen wouldn't talk. A phone call to the police and radio station proved fruitless as no little girls had been reported missing.

The radio station announced twice that a little girl had been found but Mrs. Clark had not received a phone call, until shortly before 6:30 p.m. Meanwhile, Karen showed a little shyness but was coaxed with cookies and milk until her mother arrived.

Mrs. Koehle, a look of strain and worry in her eyes, but overjoyed at finding her daughter, said that Karen plays outside during most of the day but has never been lost before. She had been playing with Karen shortly before going in to prepare supper and did not worry about her because Karen's older brother said she was playing at a neighbor's.

Later the mother began to worry and the search was on. Karen couldn't be found. Then someone told her of the radio broadcast and after a call to the police, fire and radio stations she found out where her daughter was and a short time later they were re-united.

And how far did Karen wander? Only a block from home!

College Play Big Success

By RONNIE DARLING

Months of rehearsing, sweating and worrying over opening night for a cast of over 20 Notre Dame College students paid their dividends Tuesday evening when the curtain fell at the end of a three hour production and the cast was called back on for encore after encore in appreciation for the splendid performance which they displayed.

The play, "Saint Joan," written by George Bernard Shaw displayed a quality of acting that Nelsonites were justly proud of Tuesday night.

The fifteenth century setting was brought right into the laps of the audience as much of the acting was done in the aisles.

The most striking scene was the last, which lasted an hour in itself, where Joan d'Arc was on trial for being a heretic and a witch.

REALISTIC INTERPRETATION

An interpretation of Joan's traits, feelings and personage was realistically portrayed by Nola Landucci.

Realism of Joan's tragic death was given the audience, although the burning at the stake could not be seen, when smoke billowed across the stage and the pungent smell of burned wood filled the theatre.

Skillful acting throughout the entire play was displayed by the following students: leading characters, Nola Landucci, Ian Wishaw, Terry Bressanutti, Larry Zimmerman, Dennis Roth; supporting actors, Anne Wasylw, Ken Cablarca, Dianne Sachko, John Russell, Nora Hynes, Nina Cosco, Louise Sjoberg, Gerry Della Mattia, Ron Pazder, Jack Dunois, Gordon Kilbride, Hugh Montgomery, Peter Carlin, Bill Brown, Jim Hurst, Robert Fabro and Wayne Highland.

Civic Choir Starts New Season Tonight

The 30-member civic choir will give its first performance of 1960 this evening in the Capitol Theatre when the annual Civic Choir Concert will be held.

The voice-blending group under conductor Angus Fraser will present 15 numbers ranging from Bach to contemporary numbers like Stanford's "Bluebird" and Lorne Williams' "Linden Lea."

Guest pianist Agnes Herbison will play Schumann's "Carnival Suite" and two of Brahms' intermezzos.

The group will present a concert in Balfour this Friday before participating in the Nelson Music Festival in May.

EVERYBODY WELCOME

Munro Again To Head Chest Drive

R. A. Munro was re-elected president of the Nelson Community Chest at a directors' meeting Tuesday night. Mr. Munro is in his third year as a director.

J. J. Morey was elected vice-president; A. W. Gibbon secretary and L. S. Gansner treasurer. P. O. Bird is executive secretary.

This year's Community Chest campaign will be held from June 6 to June 10, it was decided. June 6 will be "blitz night."

Named campaign chairman was a new director, W. C. Wicken. Serving on his committee will be D. V. Askew and W. L. Clark.

L. S. Gansner was named chairman of the budget committee, which also includes S. T. Rogers and J. J. Morey.

A. W. Gibbon and R. A. Munro form the publicity committee.

The new officers hope to see last year's successful results in the special drive on pledges repeated. "The regular contributors are the backbone of the Community Chest," commented the new budget chairman, Mr. Gansner.

Agency applications were received for study from the Nelson branch of the Canadian Mental Health Association; the Children's Hospital at Vancouver, and the Pentecostal Camp. If accepted, these groups would bring the total number of beneficiary agencies to 22. Last year, 19 agencies were fully paid out of campaign funds of more than $15,000.

R. A. MUNRO

FOUR EASTER DAYS

VICTORIA (CP) — Deputy Provincial Secretary L. J. Wallace Tuesday announced Provincial Government offices will be closed from 5 p.m. April 14 until 8:30 a.m. April 19 in observance of the Easter holiday.

You Can Depend On

When kidneys fail to remove excess acids and wastes, backache, tired feeling, disturbed rest often follow. Dodd's Kidney Pills stimulate kidneys to normal duty. You feel better—sleep better, work better. You can depend on Dodd's. Get Dodd's at any drugstore.

Schools Share In Kootenay Awards

CRESTON—Miss Dianne Bender, who acted as a reporter in the play "Fantastic Flight", by Sidney Box, the entry presented by the Prince Charles Junior-Senior High School from Creston, won the coveted best actress award on Saturday.

John Ogden was chosen as best actor in the role of Stephanos in the entry "The Robe of the Galilean" by John McGreevey which was presented by the Mount Baker Junior-Senior High School of Cranbrook.

Barry Abbott, another student from Wynndel, was given honorable mention in his portrayal of Heatherfield in the same play presented by Creston.

All of the above awards were in the senior division. Mrs. J. H. Nicholson, well known in drama circles from Trail, was the adjudicator. Her very kind but constructive criticism will be of great assistance to students and instructors alike.

A total of nine plays were presented at the two-day festival.

The Fernie Elementary - Senior High School presented the play "Where the Buffalo Roam" by Dora Hooper, with a cast of six portrayed by Grant Polomark, Jim Polomark, Sandra Scales, Colleen Wilson, Leonard Kosiec, Lucille Misisco. A. Simcoe was director with Walter Gotzy as stage manager.

"Private Eye" by D. Payton was chosen as the entry by Jaffray Junior-Senior High School with the cast portrayed by Brian Warwicke, Evelyn Olsen, Fred Goodman, Lillian Schepens, Gayle Hall, Ted Goodman. Director was Daniel G. Warwicke with Joyce Bolen stage manager.

Sparwood Junior - Senior High School presented "The Storm" by Donald Payton, with the following in the cast: Peter Lancaster, Gail Baskell, Peter Cossarini, Janice Lyne, and Gail Reghenas. N. A. Gill was director with G. M. Sofko stage manager.

"The Displaced Baby Sitter" by Lois R. Boli was the presentation of the David Thompson Junior-Senior High School of Invermere, with Marion Tegart, Bob Walker, Sigrid Sattman, Jackie Tegart, Beth Schmid, Brian Hollingsworth, Ralph Young in the cast and Dorothy Worsley as director with Heidi Hromadnik stage manager.

McKim Junior High School of Kimberley presented excerpts from "A Midsummer Night's Dream" by William Shakespeare with the largest cast of actors: Barry Wheeler, Eleanor Glanville, Terry Marusyk, Maurice Freer, Albert Kemp, Lorne Wheeler, David Coupland, Bruce Hall, Cecil Edwards, Francis Reed, Judy Rose, Janice Tapp, Michele Neve, Christine Griswold, Shirley Shonsta, Anita Fugina and director J. E. Dickens with Garry Wong as stage manager. Simple but very effective scenery and beautiful costuming was noted in this show.

Prince Charles Junior - Senior High School entry of "Fantastic Flight" by Sidney Box had as its cast Ron Brummond, Gayle Smith, Genovene Caldwell, Barry Abbott, Donna Tarbet, Diane Bender and Wayne Langlois, and director J. Robinson and Ronnie Brummond as stage manager. Barbara Carr was script holder.

"The Stolen Prince" by Dan Toherod was presented by the David Thompson Junior - Senior High School in the senior division and was a Chinese play with Carol Sholinder, Tom Weatherby, Jarye Osterloh, Jim Gibb, Donna Koski, Ken Roder, Gary Dalke, Ray Wilder, Mary Ann Hallbauer, Lorraine Florence, Marianne Powitz and Sharon Anderson in the cast, with Dorothy Worsley as director and Gail Florence stage manager.

In "The Robe of the Galilean" by John McGreevey, which was presented by the Mt. Baker Junior-Senior High School of Cranbrook, the following were in the cast: Joanne Vanlerber, Lou Sullivan, Bud Kilberg, John Ogden, Gail Petterson, Janet Epp, Jack Mozell, Janet Donavan, Allan McLeod, Dan Wurzer and directors Paul K. Zubick and Paul Dickeson, with stage managers Lola Pascuzzo and Verne Erickson.

There were no prizes for the types of plays chosen and awards were for individual actors and actresses. This festival, under the auspices of the Community Programs Branch and the department of education, gives an opportunity for students and teachers alike to see presentations of other top plays in the areas and also hear the adjudication of each. The wide variety in the types of plays chosen from the Shakespearean drama, the sensitively presented Robe of the Galilean, the Chinese and modern and early Christian plays gave the audience a refreshing and interesting two evenings of dramatic entertainment. Quite a large crowd was present for both evenings.

A presentation by the Selkirk High School was not available in the program listing.

J. S. "BUD" JOHNSTON of Cranbrook represents Kootenay insurance agents on the provincial council of the Insurance Agents' Association of B.C. He was elected to a two-year term at the recent convention of the 450-member association in Vancouver.

Crowsnest Towns Unite In Presentation on Coal

FERNIE—A joint brief representing all the coal-producing towns of the Crowsnest Pass was recently presented to the Royal Commission on Coal sitting in Calgary.

Mayor Frank Abousaffy of Coleman and Mayor James White of Fernie, representing the Joint Crow's Nest Pass Towns' Committee consisting of the City of Fernie, the towns of Coleman and Blairmore and the villages of Frank, Bellevue and Lundbreck as well as the Boards of Trade and Chambers of Commerce of these communities, presented a brief before the Royal Commission on Coal sitting in Calgary.

50 YEARS PRODLUCTION

The brief points out that the area was originally built and sustained for over 50 years on coal production and employing more than 3000 persons. It states that production has fallen in Alberta from 8,616,983 in 1949 to 2,500,000 tons in 1959. Reasons given for this reduction are attributed to the development of oil and gas fields in Western Canada and their displacement of coal in its natural markets.

The CPR which in normal times purchased 70 per cent of the coal produced in the area, is now completely dieselized and purchases no coal for locomotive fuel, says the brief. Power companies, cement plants, paper companies and many other coal burning institutions in central and western Canada have now converted to fuel oil or natural gas, with disastrous effects on the coal industry.

"Should this trend continue," it proceeds, "the overall result will be that Canada's coal industry will be forced out of business which, in the opinion of many competent authorities, would be nothing short of an industrial and national calamity."

COAL UNLIMITED

It then went on to argue that oil and gas are still regarded as being in limited supply while the deposits of coal are almost unlimited. With the continued trend toward industrial expansion in the West, the ever-increasing demand for energy will run a parallel course, thereby creating a situation where unlimited amounts of coal will become necessary to complement the supplies of petroleum products rather than compete with them.

Metallurgical industries are in the development stages in Western Canada and it is fully recognized how much such industries depend on an available supply of coal, coke and power, irrespective of how much fuel oil and gas is available. Without a Canadian supply of suitable coal, the development of such industries could be retarded unless the required coal be imported from the U.S.A.

The mining towns, facilities and the industry should be preserved to prevent loss of employment, homes and property as well as to assure an expanding industry of a supply of fuel, said the brief, and "since the survival of nearly every industry of consequence depends on either subsidy or protection, we in the Crow's Nest Pass fell that further to bolster the coal industry, thereby stabilizing the economy of the coal minin gareas, are in the interests of the country as a whole."

SUGGESTED SOLUTIONS

It requested equitable freight rates, the maintenance or increase of present subvention assistance, use of coal in government buildings, that the Dominion Coal Board be maintained, co-operation between the Dominion and provincial governments in promoting research for further uses for coal and the use of coal for generating thermal power as probable solutions to the industry's problems.

In, conclusion the submission said: "This area wishes to extend its thanks and appreciation to the government for its subvention assistance which enabled Western coal to enter the Japanese market, thereby increasing production and enabling the mines to keep in operation."

SCHOOL INTEREST HIGH

PENTICTON (CP)—More than 1,100 persons taking night school courses here last winter made the program the largest in B.C. outside metropolitan Vancouver, said Director Frank Laird. Students came from Oliver, Keremeos, Cawston, Olalla, Kaleden, Summerland, Naramata and Penticton.

Council Rejects Offer For Kaslo City Lot

KASLO — At the regular meeting of the Village Commission held Monday evening, March 28, the members of the board rejected a bid for a lot on Front Street giving the reason that in view of the assessed value of the property the tender was too low.

A letter was read from the Minister of Municipalities stating that the village was not liable to operate weight scales. After considerable discussion it was decided to put the present scales up for bid and that they be removed by the bidder to another site within one year.

An application from Mrs. J. A. Jardine to tear down the rear entrance lean-to of her property, the Grandview Rooming House, was granted.

Cameron Clark was granted permission to remove a tree along the sidewalk near his residence on Fifth Avenue.

An application from R. Haering to make a lean-to addition to his chicken house was approved.

The matter of supplying power to L. T. and H. Sawmills was discussed and tabled awaiting further developments concerning power.

A letter was ordered sent to Mr. Kitto of Meredith, Bruce, Baldwin and Kitto asking him for further details as to why fees for auditing village books were to be raised.

On request from the B.C. Forest Ranger Les E. Stillwell, Fire Chief R. E. Green was appointed Fire Prevention Officer for the coming fire season. May 1 is the begining of the season and all persons burning after that date must have a permit which will be available through the FPO.

A letter was read from the B.C. Fire Marshal's office stating that an assistant fire marshal course is scheduled to be held at the coast next month. Information is being sought as to the duties of the assistant fire marshal in a municipality.

A discussion took place regarding the general plan of improvements to the park and a number of good suggestions were offered.

North American Bronc Championship May 20

INVERMERE — Alfred Tegart of Winderemere was elected president of the Lake Windermere Stampede Association at the annual meeting. Vice-president is Mrs. Jim Tegart of Brisco. A. J. Dobbie jr. (Sandy), Invermere, is again secretary-treasurer and is assisted by Mrs. Henry. Campsall of Windermere.

Directors of the association are E. E. Trethewey and Albert Cooper of Windermere, Jim Tegart of Brisco and Jim McKay of Invermere.

The second anual amateur matched saddle bronc ride for the North American championship will take place May 20 at Windermere. Ted Scharl of Arlee, Montana, will defend his last year's championship title won at Windermere, May 1959. Winner gets $700 cash and a trophy buckle.

The spring stampede will feature also calf roping, bareback bronc riding and stake racing for children on horseback.

Fine Arts Show To Aid Fund for Banff Scholarship

KIMBERLEY — April 8 is the date for the annual fine arts display, sponsored this year by the high school PTA. Proceeds will, as usual, go to the $175 Dorothy Callaghan Memorial Scholarship in fine arts awarded annually to a Grade XII student for use at Banff School of Fine Arts, or with any accredited instructor in music, art, drama, journalism or dancing.

In addition to displaying night school work, the PTA will present a 23-picture display of work by Hungarian-born artist Endre Boszin, obtained through the Nelson Fine Arts group.

Mrs. A. E. Oliver is convener.

ALDERMAN RESIGNS

ARMSTRONG (CP)—Ald. S. R. Heal, chairman of public works committee, resigned at stormy session. Council Ald. William Parker head of the works committee.

Golfers Ready At Kimberley

KIMBERLEY — Election of officers at the Kimberley Golf Club has seen the following elected: President Ralph Redding, Secretary Don Maddocks, Treasurer Don Bond, membership committee chairman Fred Holmes, house committee chairman Dr. Morley Shaw, greens committee Oscar Johnson and Laurie Nicholson.

Phil Redford and Rod Clark will be in charge of entertainment and tournaments and C. D. M. Chisholm of publicity. Harry Pearson will again be pro-greenkeeper.

Longtime Logger Dies at Cranbrook

CRANBROOK—Romuald Joseph Blouin of Wycliffe died at St. Eugene Hospital Saturday after a short illness. He was 76 years old.

Born at Ste. Henri de Levis, P.Q., he came west to this district about 50 years ago and engaged in logging work at Lumberton and then in other district operations until his retirement in 1951. He is survived by a sister in Quebec.

For the past several years he had lived in a cabin on the Fred Pattinson ranch at Wycliffe, and a few months ago was the hero of a spectacular incident there. The pet pig on the ranch broke into the dirt cellar of the Pattinson house and fell into the well there when the family was away. Mr. Blouin roped the animal as it threshed around in the mud and water, then summoned help from a neighbor to pull it out.

"NEVER PAY 70¢ AGAIN" SAY HOUSEWIVES AFTER TASTING NEW MARGARINE

Hundreds of women taste-tested completely new, completely different Imperial Margarine and the great majority of them agreed: "You can't tell the difference between Imperial and the high-priced spread."

Like the 70¢ spread, Imperial is sold only under refrigeration. Look for it in the refrigerated counter at your grocer's today!

At last! The taste that's been missing in margarine—

Imperial

has real natural taste

TRY THIS TASTE TEST FOR YOURSELF! Spread a piece of toast with completely new, completely different Imperial and another with the "high-priced" spread. Taste them both. See if you don't agree with hundreds of other housewives who couldn't tell the difference between Imperial and the "high-priced" spread.

TRY IMPERIAL ANY WAY YOU LIKE—on fresh bread, on muffins or on hot vegetables. The answer is always the same—Imperial has the taste that's been missing in margarine—real natural taste!

YOU'LL FIND IMPERIAL SUPERIOR IN MANY WAYS. It gives your family the same nourishing quality all year round. It stays fresh longer. It spreads smoother and easier.

SO WHY PAY 70¢ EVER AGAIN for a table spread, when you can enjoy Imperial's real natural taste for so much less.

Libraries Are Tool of Progress

Sir John Wolfenden, CBE, noted British educator, says that two levels of education are developing in the United Kingdom. The smaller and highly literate group is composed of 28 per cent of the population, while the large group, 72 per cent of the population, is sinking into increasing illiteracy in the broader sense of the word.

According to Sir John, 7 to 8 per cent of the people in the British Isles attend the exclusive public schools and go on to Oxford and Cambridge universities. Another 20 per cent are scholars at the publicly operated grammar schools which give just as good an education and many of these go to the lesser universities.

These comprise what is called the governing class, while the others who are academically unfitted are drifting into another world where they read different papers, have different interests and have little interest in public affairs.

With the English education so systemized it is easy to make such divisions. It is not so easy in Canada where education goes in one broad stream with the university as its goal. Nevertheless it is probabe that the same conditions are arising here. It is clear from Sir John's speech that the ultimate test is reading. Those with the higher levels of intelligence read extensively, while those with the lower level read seldom and of a low level of material.

This is a good time to discuss the matter, for this is National Library Week and if we know the number of those who have library cards in use we shall arrive at some approximation of the literate as opposed to the less literate.

During the past year 1970 persons belonged to Nelson Library. Taking the population here as 7000, then this is 28.01 per cent of the population, which is close to the figures given by Sir John.

This is what one might expect, since education and intelligence in Canada are undoubtedly equal, but with this difference, that the two levels are not observable here. That they exist, these figures show, and a visit to the library will convince you that the standard of literature is much higher there than the trash which is purchased.

A public library therefore stands as a great educational institution dedicated to raising the standard of literacy of its readers. In these days when education is becoming increasingly important and we are in danger of being swamped with people merely literate we should make more use of it and encourage young children to join as soon as they can read.

Interpreting the News

By JOSEPH MacSWEEN
Canadian Press Staff Writer

South African Ambassador Bernardus G. Fourie, a man of medium stature, quick movements and steady courage, has an alert and keen look in United Nations debates.

During the Security Council vote on the South African racial issue on Friday, Fourie kept his eyes fastened in obvious suspense on Sir Pierson Dixon, the British ambassador to the UN.

It was as if the South African saw in the British delegate the only hope for softening the imminent diplomatic blow against his country.

When Dixon's hand went up in token of abstention on the vote criticizing South Africa and demanding an end to its apartheid (racial separation), Fourie smiled and relaxed. He later put on a front for reporters that was almost gay, and he exchanged banter with them after hurrying over to talk with Dixon.

Fourie apparently saw the abstention by Britain and France as the best that could be salvaged in the face of bitter denunciation of his country's racial laws. Corridor gossip had predicted accurately that France, criticized earlier by the UN for Algerian policies, would follow the British lead. All other countries in the 11-member council denounced South Africa.

Observers saw a touch of irony in that the South African government, which is considering changing the country to a republic, posisbly outside the Commonwealth, nevertheless looked hopefully for British support for its legal position in the debate.

This legal argument is based on the UN charter's provision that "nothing contained in the present charter shall authorize the United Nations to intervene in matters which are essentially within the domestic jurisdiction of any state."

The UN has condemned South Africa a number of times and about the only thing new in Friday's resolution was that UN Secretary-General Dag Hammarskjold was instructed to take a personal hand in the matter.

No precise steps for Hammarskjold were set out and observers feel he may well be hoping that pressure within the Commonwealth itself will help his task. So far, South Africa has refused to co-operate in UN recommendations.

Commonwealth prime ministers are scheduled to meet in London on May 3 for their eighth post-war conference and it appears that Prime Minister Hendrik Verwoerd of South Africa will attend.

Since every Commonwealth country is free to handle its own affairs, there is no possibility of a joint public roasting of Verwoerd but it's certain that some of his fellow prime ministers will speak frankly to him in private.

Any South African steps to withdraw from the Commonwealth would tend to remove the restraint that some Commonwealth spokesmen now feel.

Although Britain supported South Africa's legal argument in the Security Council, Ceylon—the other Commonwealth member—took the opposite view. Sir Claude Corea said South Africa suffers from a "deep malaise" which endangers international peace. Ambassadors from such other Commonwealth countries as India, Pakistan and Ghana spoke in equally bitter terms.

Gems of Thought

NATURALNESS

The perfectly natural is the perfectly spiritual.—Mary Baker Eddy.

* * *

How majestic is naturalness. I have never met a man whom I really considered a great man who was not always natural and simple.
—Charles G. Dawes.

* * *

Naturalness in its deepest sense is the criterion of worth in this world.
—Sam Campbell.

* * *

Natural objects themselves, even when they make no claim to beauty, excite the feelings, and occupy the imagination.
—Karl W. Humboldt.

* * *

Nothing so much prevents our being natural as the desire of appearing so.
—La Rochefoucauld.

* * *

What is true, simple and sincere is most congenial to man's nature.—Cicero.

Watch Your Language

TORTUOUS — (TOR-tu-us) — adjective; full of twists; bent in different directions; winding; deceitful. Origin: Latin—torquere, to twist.

TOUR DE FORCE — (toor de FORS) — noun; a feat of skill or strength; an ingenious accomplishment. French.

Letters to The Editor

Letters to the editor on any topic of genuine interest are welcome if they are brief, accurate and fair. They may be published over a nom de plume, but the name of the writer must be given to the Editor as evidence of good faith. Anonymous letters go into the wastepaper basket. Typewritten letters must be double-spaced.

Let Mayor and Council Do Their Job

To the Editor:

Sir—I feel impelled to express through your columns yet another opinion in the city hall question. This being a free country, every person is entitled to his own views, and it is most unfortunate that some people cannot concede to their opponents the right to differ, even if they disagree with their point of view.

It is my opinion that the mayor and the majority of the council, who are being labelled "dictators" and so forth by the pressure group, are nevertheless sincere and honest in their beliefs, that they are working for the best interests of the city, that they are not undemocratic, and that they have as great a stake, if not greater, in the future of Nelson than the leading figures in the opposing group. They realize full well that anything which harms the city harms them as well.

It is true that the majority of those who voted on the bylaw, new city hall vs post office renovation, voted in favor of the latter. I think that this is to the everlasting shame of Nelson. Here is a city with a marvelous future, in spite of what the crepe hangers say, which needs a new city hall, not just for 1960 and 1961 but for all time to come, but without the vision and the spirit and the courage to build one. Be that as it may, the majority of those who voted voted not so much for the post office, I feel, as they did against a new city hall.

Now, regarding the post office, I consider it to be a most unattractive building. It is dungeon-like, with poor natural light which cannot be changed, built right out to the sidewalks, at the intersection of two busy highways, with no adornment of trees, flowers or grass, no parking space, no possible accommodation for police office and jail, and with nothing to recommend it as an office building. After all, the federal government owned it and, while needing a building for the RCMP saw it for what it is, and sold it for practically the value of the lots, then proceeded to build a new building.

Now, if we must have a made-over building, the old hospital site has the advantage of being spacious, of having accommodation for jail and police quarters, parking space, a beautiful setting, and grounds which can be made into a show place. All this, as far as I can see, at no extra cost over the old post office project.

I believe that the use of the old post office as a city hall will mark Nelson as a city of unprogressive, uninspired, penny-pinching people, and yet I believe that in Nelson there are many who have vision, and a progressive spirit, and face the future with optimism.

There is still a use for the old post office, for with its square interior, it can lend itself admirably to use as a library, museum and various other civic functions. Notre Dame College could have the use of the old isolation building and nurses home to assist them in their housing problem, remembering that they will abandon them at the earliest opportunity, for their own buildings.

I believe this also should be said: Mr. Affleck offered himself as mayor, with the avowed intention of using the old post office for city hall (and of keeping the war memorial in the centre of the highway). Mr. Shorthouse, on the other hand, was known at the same time to oppose the use of the old post office as city hall, and yet was elected mayor by a good majority. It is up to the citizens who elected him to stand behind him, and to let him and the council do the job that they were elected to do.

N. E. MORRISON, M.D.

Secret of Youth

Youth is not entirely a time of life—it is a state of mind. It is not wholly a matter of ripe cheeks, red lips, or supple knees. It is a temper of the will, a quality of the imagination, a vigor of the emotions, a freshness of the deep springs of life. It means a temperamental predominance of courage over timidity, of an appetite for adventure over love of ease.

Nobody grows old merely by living a number of years. People grow old by deserting their ideals. Years may wrinkle the skin, but to give up interest wrinkles the soul. Worry, doubt, self-distrust, fear and despair, these are the long, long years that bow the head and turn the growing spirit back to dust.

Whatever your years, there is in every being's heart the love of wonder, the undaunted challenge of events, the unfailing child-like appetite for what next, and the joy and the game of life.

You are as young as your faith, as old as your doubt; as young as your self-confidence, as old as your fear; as young as your hope, as old as your despair. In the central place of every heart there is a recording chamber; so long as it receives messages of beauty, cheer and courage, so long are you young.

When the wires are down and your heart is covered with the snows of pessimism and the ice of cynicism, then, and then only, are you grown old.—*From a speech by General MacArthur.*

Report From Victoria

HONOURABLE W. D. BLACK, Provincial Secretary, Minister of Municipal Affairs, Minister of Social Welfare

While taking part in the Debate on the Speech from the Throne *during the recent sitting of the* Legislative Assembly, the Honourable R. W. Bonner, as Minister of Industrial Development, Trade and Commerce, disclosed some interesting facts regarding the growth of our Province.

Mr. Bonner was describing at the time the growth of British Columbia during the 1950's, and on the basis of actual figures, projecting that growth into our present decade of the sixties.

As we entered the 1950's, 1,137,000 people lived here. Today that figure is just short of the 1,600,000 mark. Then the personal income of our population was $1,398,000,000. Today, it is $2,790,000,000 — about double. In 1950 our population burned up 157 million gallons of gas. Today they are burning gasoline at the rate of 321 million gallons annually. Finally, in the consumption of electric energy, we consumed last year 12,350 million kilowatts of electrical energy, almost three times our electrical consumption as we entered the *decade of the 1950's.*

Entering the 1950's with a rate of investment for capital purposes and repair to capital structures of less than $600,000,000 a year, that rate of investment rose steadily to the point that by 1955 a $1,000,000,000 worth of capital was coming into the Province each year. This rate has continued, including the year 1955, to the present time.

Continuing, construction assumed new dimensions during the past decade. From a figure of $292,000,000 in 1950 it had doubled by 1955. It reached $830,000,000 in 1956 and has not been below that figure since. The whole period was marked by a diversification of our industry and an increase and intensification of manufacturing. In 1950, the selling value of our factory shipments was at $1,133,000,000 whereas in the year closed — 1959, that figure was just short of the $2,000,000,000 mark.

In reference to these figures, Mr. Bonner went on to say that anyone who would have stood in *the House in 1950 and predicted the* totals relating to this Province which were recorded during 1959, would not have been believed. The doubters ten years ago would have been the majority, but in point of fact time has proven the doubters to be wrong, and everywhere we find the same mistake being made — a widespread unwillingness to grasp the sense and the impact of events which are everywhere around us, events which cannot fail but to have a marked effect upon *the future development of this* Province. A future not less, but more promising than the record of the past.

Your Individual Horoscope

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

For Thursday, April 7, 1960

MARCH 21 to APRIL 20 (Aries) — Not so stimulating and inviting as yesterday (benefic Mars' rays) but still some good vibrations linger and Moon and Jupiter aspects are auspicious. Show your initiative, perseverance.

APRIL 21 to MAY 21 (Taurus)— A time for careful judgment and direction. You can gain now if you show your fine managerial sense. Don't fret about obstacles that may never appear. Accept guidance.

MAY 22 to JUNE 21 (Gemini)— Mildly favorable with matters requiring vigor to be handled carefully. Don't strain as you work. Study, research, investigations, secretarial interests require smart caution.

JUNE 22 to JULY 23 (Cancer)— Benefic rays from your Moon. Be acquisitive, ambitious. Introduce new, valuable ideas and methods and "up" youn status by showing your own talents, capability.

JULY 24 to AUGUST 23 (Leo)— Do not exceed budget nor go to extremes in anything. Avoid obligating self to long-contract payments. Give a good example of yourself at your best. No emotional upsets! Be your cheeriest.

AUGUST 24 to SEPTEMBER 23 (Virgo) — You can and should do a fine day's work but it may be trying, irritating at times. Don't permit your usual serene disposition to be thwarted by any unexpected happenings. Carry on!

SEPTEMBER 24 to OCTOBER 23 (Libra) — You may have to dig into your bag of tricks for new ideas to enhance your work today. You can do it. In maneuvering for strategic positions you may find new values yourself.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Moderation and temperance in all endeavors your best course now. Some days can be made more satisfactory if handled wisely, without strain or worry. Your best now.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — Benefic rays from your Jupiter and the Moon. Financial transactions, sound investments, sales, important buys honored. Should be a good period for monetary acquisition.

DECEMBER 22 to JANUARY 20 (Capricorn) — While you should carry on with your prearranged schedule and improve matters wherever you can, nevertheless be cautious and avoid needless errors, misjudgment. You are capable.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Today initiative and impetus are essentials for you who are sometimes indecisive. If your program is a full and hard one, the more should you be eager to tackle it.

FEBRUARY 20 to MARCH 20 (Pisces) — You have similar indications now to Capricorn. Be up *and doing and make opportunities* where they are not. It can be a challenge day — meet and conquer its drawbacks.

YOU BORN TODAY: Great leadership qualities, talent for writing, poetry, entertaining. You can originate new ideas and ways for doing better in many fields. Are a keen student and seek *knowledge to improve yourself and* your interests. Make brilliant actors, poets and writers of fiction, plays, etc. Don't fret if your plans do not materialize rapidly, sometimes you have better results if things move slower but more efficiently. Do not be too set in opinions and standards. Listen to and heed others' ideas, *suggestions. Accept guidance. Birthdate:* St. Francis Xavier, "Apostle of the Indies."

Talkin' a blue streak about nothing may be a sign of old age, but it don't prove Emily old. She's been doin' it ever since she wore pinafores.

U.S. Air Force Chief Denies Bomarc "Bail Out" Charges

By HAROLD MORRISON
Canadian Press Staff Writer

WASHINGTON (CP)—A member of a congressional subcommittee has suggested that the U.S. Air Force wants to continue Bomarc missile production merely to "bail out" the manufacturer, Boeing Airplane Company of Seattle. The air force has denied the charge.

The transcript of testimony shows the exchange occurred March 24 when Gen. Thomas White, chief of the U.S. Air Force, presented the subcommittee with a revised continental air defence plan based on reduced use of Bomarc-A and Bomarc-B anti-aircraft missiles.

Representative Jamie L. Whitten, Mississippi Democrat, said it is hard for him to decide how much of the new plan is based on military need and how much is based on pressure by the manufacturers.

BOMARC WILL WORK

White countered that he had been in uniform 40 years and had no political motives. He was convinced the Bomarc anti-aircraft missile would work.

On the point that the advanced Bomarc-B missile, of which Canada is to get two squadrons, had failed in its first seven flight tests, White said: "We have had failures with Bomarc just as we have had failures with every other one of these new systems. But they can be worked out and they will be worked out."

Whitten indicated he was not impressed with White's remarks.

"I still have not had one line of testimony about what has happened between last year and this year in Bomarc which might add any support to your belief," he said.

ALMOST DROPPED

He recalled that last year "this subcommittee gave serious attention to refusing to go along on further procurement of Bomarc on the ground it had not been proven."

"There is no evidence here this afternoon yet that it has been proven, even now. There was a close vote in the committee last year as I think is publicly known. All the hotels in town made a lot of money out of Boeing people down here, so I am told, to get the procurement contracts through.

Whitten said the defence department realized it might have trouble with Congress over the appropriations for the Bomarc program so it scaled back production "but kept enough on order to maintain appearance of defence and bail out Boeing."

Business Spotlight . . .

Banks Silent On Names of Those Who Help To Capture Robbers

By BERNARD DUFRESNE
Canadian Press Staff Writer

MONTREAL (CP) — The Canadian Bankers' Association, usually silent about its rewards to citizens who help in the capture and conviction of bank robbers, has opened its files of true crime stories.

But it will allow only a peak at the incidents surrounding payments totalling almost $560,000 in *the last 35 years. No names, please.* Just the bare facts.

A bulletin prepared by the association tells of one bank robbery in which 12 men and women received rewards for the capture of four robbers.

WOMAN GIVES ALARM

It happened this way:

Four men robbed a bank, three of them escaping in an automobile. As the fourth, armed and carrying the loot, tried to get away a woman rushed out of the bank and screamed there was a holdup.

A teamster tried to trip the gunman, who dropped some of the money. A bookkeeper hit the gunman on the shoulder, forcing him to drop more of the loot. A third man chased him. A fourth tried a flying tackle, missed, and landed in the mud. A fifth joined the chase. The sixth man, a carpenter, leaned over a fence and hit the fleeing gunman on the head with a hammer, causing him to drop the rest of the money.

A taxi driver forced the thief to drop his gun. An eighth man whacked him with a shovel. A ninth man spotted the car with the three other bandits. A street car motorman threw his iron switch bar at the car. This confused the trio and the motorman got their licence number, permitting police to make arrests later.

CHASE ENDS QUICKLY

Meanwhile, the case for the lootless, gunless bandit was ended quietly. An 11th man called the police. They had no difficulty arresting the suspect. He was practically out on his feet. The second woman and the 12th man in the case were able to identify the bandits.

Not all cases are as hectic as this one, though some have involved many more individuals. In one case 29 persons received individual rewards and in another 21 shared $14,350.

In one instance rewards amounted to $26,000, including $11,000 to a man who made a 10-minute phone call leading to the breakup of a notorious gang.

In 1959, the association bulletin said, 53 individuals, excluding special rewards to police officers, received amounts for assistance in solving 27 bank holdups. Rewards totalled $37,500.

NO SPECIFIC AMOUNTS

The association stresses that its offer of reward mentions no amount. Rewards, if approved, are paid only after a robber's conviction.

The association pays no reward to bank employees, leaving recognition of employees' actions to the individual banks.

The association says its reward offers, first made in 1924, have encouraged individuals, even in the underworld, to volunteer information about bank robberies.

Its policy of mailing reward cheques without publicity or disclosing the names of recipients is designed to prevent criminal reprisals and ensure that potential sources of information do not dry up or become useless.

It sometimes offers special rewards. One such offer of $5000 was made after a bank manager in British Columbia was killed by a robber. It was paid six years later when a store manager recognized the wanted man from a newspaper photograph.

22 of 24 Crew Members Walk Off Freighter

VANCOUVER (CP) — Twenty-two of 24 crew members of the *Canadian-owned, 10,000-ton freighter* Sunjarv walked off the ship in Vancouver harbor late Monday, charging they "were treated as less than humans" by the captain and officers of the ship.

The men, who belong to a union affiliated with the independent Seafarers International Union, attended a regular SIU meeting after leaving the ship and listed their grievances against the captain.

They claimed he provided no medical treatment or facilities; they said the food was impossible to eat; working hours were too long, and the officers too harsh.

A spokesman told the meeting: "We have all served on ships before this one but never under such terrible conditions."

PROMISE SUPPORT

The 300 SIU members at the meeting voted unanimously to give the Negro sailors — all of whom joined the ship in Trinidad — "all the support possible to see justice done."

Ship's officers were unavailable Monday night for comment.

The men will report to immigration authorities Tuesday to find out what their next move must be.

The 10 officers and two crew members left aboard the Sunjarv took the ship from its berth and anchored it near the middle of the harbor.

It had been scheduled to sail at 6 p.m. Monday for San Francisco.

Officials of the ship's agents, Anglo-Canadian Shipping, said late Monday they knew nothing of the walk-off or of the conditions complained of, but will investigate Tuesday.

Prince Philip Observes Jewish Customs

LONDON (AP)—Prince Philip put a black yamulkah—the Jewish religious skullcap—on his head as he sat down to dinner Monday night.

The Prince, a banquet guest of the Jewish Board of Deputies, *wore the cap during the saying* of grace as required of all orthodox Jews.

The Prince, a member of the Church of England, also adhered to orthodox Jewish dietary requirements—he did not mix his meat with his dairy dishes.

"Don't raise up! The cabinet's open."

SPECIAL BANQUET — Fresh as spring, young members of the Nelson Bethel No. 10 Job's Daughters entertained their mothers at a special banquet at which Grand Guardian Mrs. John Bennett of Vancouver was guest of honor. Tables ornamented with yellow tapers and daffodils were laid out in the Memorial Hall for the event.—*Daily News photo.*

"Try To Do Your Best Each Day" Speaker Urges Bethel

With the theme "Just For Today," Mrs. John Bennett of Vancouver, Grand Guardian of the International Order of Job's Daughters for B.C., spoke to Nelson Bethel No. 10 and their mothers at a special banquet in the Memorial Hall Monday night honoring the distinguished visitor.

Mrs. Bennett urged her listeners to "try to do your best, very best each day" and not to try to cram a whole life into 24 hours. She also exhorted the young girls to spread good cheer each day if they could.

Guests to the banquet were welcomed by Mrs. W. B. Christie, guardian of Job's Daughters Bethel No. 10 who introduced them to the honored guest.

At the banquet, Miss Marilyn McEwen, chaplain, said Grace. A toast to the Queen was proposed by Honored Queen Carol Waldie, to the Grand Guardian by Miss Sheila McGovern and to the mothers by Sue McAdams, replied to by Mrs. I. L. Hendrickson.

Convener of the banquet was Mrs. A. E. Stromstead, who also arranged the spring-like table decor with yellow tapers, daffodils and serviette holders representing the Job's Daughters crown.

Later, at initiation ceremonies at the Bethel, five new members were initiated — Terry Fyfe, Veronica Irving, Wendy Webb, Cheryl Smith and Loreen Browell.

BRIDGE, WHIST WINNERS NAMED

KIMBERLEY — Job's Daughters, sponsors of the Leukemia bridge and whist parties have announced the following winners: In bridge high scorer was Mrs. R. O. McWhirter, with Mrs. R. Olsen winning the hidden and score and Mrs. D. Bush and Mrs. G. Brown tied for consolation prize.

In the whist Mrs. Don Waites of Marysville was winner with second prize going to Mrs. D. H. Fatum of Marysville. Consolation prize went to Mrs. E. Coulter with Mrs. Robert Fisher winning the lucky prize. Convenor of the successful project was Miss Barbara Archibald.

Nelson Nurses To Attend Dinner Tonight

Nelson Chapter of the B.C. Registered Nurses Association met in the Board Room of Kootenay Lake General Hospital and discussed, among other matters, attendance at the West Kootenay annual meeting and the provincial annual meeting.

Tonight ten members of the Nelson chapter and one nurse from New Denver will motor to Rossland for the annual West Kootenay BCRNA dinner meeting.

At the annual provincial conference to be held in Kamloops in May, Mrs. D. E. Hunter will represent the Nelson chapter.

Queens Bay

The Queen's Bay Church Guild held its regular monthly meeting at the home of Mrs. K. R. Attree. A tentative date of July 30 was set for the annual tea and sale of work.

Mrs. Selma Erickson of Vancouver was a recent visitor to the Bay, looking over her property and visiting friends. She is at present staying in Nelson, a guest of her son-in-law and daughter, Mr. and Mrs. Sidney Palmer.

Hon. Basil A. Aylmer is a patient in Kootenay Lake General Hospital.

Londoners Gleefully Prepare For Influx

By STEWART MaLEOD
Canadian Press Staff Writer

LONDON (CP) — If you're coming to London around the time of Princess Margaret's wedding, it's time to start worrying about a place to stay. The city's hotels—all 1,800 of them—are going to be packed.

Already many of the better-known hotels are booked solid for several days around May 6, and others are filling up fast. The British Holiday and Travel Association says it's obvious that many visitors are going to be disappointed.

Apart from the supreme attraction of the royal wedding, the Football Association Cup final is being played in London that weekend, and at least two exhibitions will be in full swing. And the ordinary tourist season is usually pretty well under way by then.

Travel officials expect the greatest rush since the Coronation in 1953—and London loves a rush.

Plans are already well advanced for arranging private accommodations, keeping pubs open far beyond normal hours, renting window space along the procession route, and selling a virtual flood of souvenirs and trinkets. There should be fireworks galore.

Inquiries are pouring in to the travel association and a spokesman says most must remain unanswered until all wedding details are known. Tourists, mainly Americans, are asking for information on the procession, seats available along the route, and for rooms in high-class hotels.

The association says it has one letter from a Canadian mother—she went to Canada as a war bride 14 years ago—who is coming home "on a shoestring" to see the princess married. Her request for an inexpensive hotel has been looked after.

It is still fairly easy to get hotel rooms at 17 shillings a night away from London's west end.

CLOSE RIVAL

The wedding will certainly be the biggest drawing attraction for Britain since 1953, and will probably be a close rival to the Coronation in color and splendor.

This type of thing has always had a magnetic effect on overseas visitors.

Tibet, under control of the Chinese Communists since 1951 covers an area of 470,000 square miles.

Legion Honors Ryalls Rink At Banquet

Legionnaires, fellow-curlers and friends gathered in the Canadian Legion Hall during the weekend to honor M. B. Ryalls and his rink at a banquet and dance.

A large crowd attended the event for the rink, which holds the Canadian Legion provincial curling championship and has recently returned from the Dominion championships at Summerside, P.E.I.

A Chinese dinner was served by Fred Wah, assisted by members of the Canadian Legion Ladies' Auxiliary. President A. P. Jeffery proposed a toast to the Queen. Mr. Ryalls spoke of the Dominion 'spiel and public relations work carried out by his rink.

Guests enjoyed dancing following the banquet.

Service Club Has Success With Sale

Discarded garments, knicknacks and miscellaneous were sorted over and purchased at the Church of the Redeemer Service Club rummage sale in the Capitol Theatre during the weekend.

Mrs. A. L. Furman and Mrs. C. J. Hughes were in charge of arrangements, and saleswomen during the two-day successful sale were Mrs. Fraser Tees, Mrs. H. F. Lake, Mrs. R. Roberts, Mrs. N. H. Collett, Mrs. W. K. Evans, Mrs. R. O. Christie, Mrs. J. F. Taylor, Mrs. J. S. McIntosh and Mrs. Robert Foxall.

New Denver

Mr. and Mrs. Roy Yokoyama of Bassano, Alberta and the former's brother, S. Yokoyama of Rosebry and brother-in-law Sueo Mori of New Denver, left to visit relatives and friends in Vancouver.

Mrs. B. Dickson of Field, B.C., was visiting her brother, T. Steenhoff and two sisters, Mrs. W. Knihnicki and Mrs. Harold Witt.

Dr. and Mrs. E. A. Baja returned from three weeks motor trip in the United States.

Mrs. John Hogan and son returned to Invermere after visiting for two weeks with her parents, Mr. and Mrs. S. E. Thomlinson and brother Edwin.

Mrs. Agnes Mathewson who spent the winter months with her son and daughter-in-law, Mr. and Mrs. J. W. Mathewson, left for her home in Edmonton.

Mrs. G. A. Forsyth and Sandy and Dawn returned from Winnipeg, Manitoba, where they visited for three weeks with her parents, Mr. and Mrs. J. G. Ormrod.

Couple To Reside At Hope, B.C., Following Wedding In Nelson

MR. AND MRS. GERALD COOPER OF HOPE, B.C.
—*Photo by Vogue Studio.*

Hope, B.C., where the bridegroom is employed at the Giant Nickel Mine, will be the home of Mr. and Mrs. Gerald Cooper, who were wed recently at the First Presbyterian Church manse in Nelson.

The bride is the former Wanda McLeod, second eldest daughter of Mr. and Mrs. William McLeod of New Denver, and the bridegroom is the eldest son of Mr. and Mrs. Arthur Cooper of Hope.

Mr. E. A. Hircock officiated at the service for the young couple, who were attended by Miss Wilma McLeod, sister of the bride, and Mr. Ian McLeod, her brother.

The bride wore a tan tweed suit with white accessories and white carnation corsage. Miss McLeod chose a black and white suit with tan accessories and pink carnation corsage.

Turkey dinner was served at a reception for 20 at the Nelson Hotel. The three-tiered wedding cake was decorated in white and silver. A toast was proposed by Mr. Hircock.

The newlyweds left on a honeymoon trip to Grand Coulee Dam before returning to Hope to reside.

Kaslo Notes

KASLO — Mrs. E. L. Brandon, who has spent the past few weeks visiting her son and daughter-in-law, Mr. and Mrs. M. N. Brandon of Nelson, made a trip through to Gerrard last Monday with J. A. Jardine, returning to Kaslo Hotel again Wednesday. They were accompanied by Russ Fletcher of Nelson.

Mr. and Mrs. C. F. Pangburn and Joy, and Mrs. J. A. Jardine were Nelson visitors this week.

Mr. and Mrs. Cye Bickel have returned from a week's holiday in the United States. Noel Bacchus was caretaker at their property at Schroeder Creek during their absence.

Wynndel Notes

WYNNDEL — Mr. and Mrs. W. Mather accompanied by son Ivan, and Mrs. E. Mather, Sr., are spending a few days at Champion, Alberta, with their relatives, Mr. and Mrs. E. Nowlin.

Dr. G. A. Gibson of the East Kootenay Health Unit will be leaving shortly for Vancouver Island, where he is being transferred.

Mr. Alfred Freed has returned home from Vancouver, where he was receiving medical treatment.

New District Commissioner In Windermere

INVERMERE — Official announcement has been made by Girl Guide division commissioner Mrs. H. M. Keys of Kimberley of the appointment of Mrs. Joe Ficken as district commissioner for the Windermere district. Mrs. Ficken will be in charge of all Girl Guide and Brownie groups from Spillimacheen to Canal Flat.

The new district commissioner has been Brown Owl of the Edgewater Brownie pack for several years and has shown a keen interest in all guiding activities in the district. Her husband has been cubmaster of the Edgewater Cub pack for some years.

"Come Back When You're Ripe" Is Comment on Green Lipstick

By ELIZABETH MOTHERWELL
Canadian Press Staff Writer

OTTAWA (CP)— There's more psychology to green lipstick than meets the eye.

Carleton University co-eds here wore it to test the pressures of for a spring essay on Conformity, but the lipstick's clinical purpose was a secret of the psychology class.

Campus reaction of observers—and observed—surprised even the psychology professor, Dr. F. R. Wake. "I expected teasing, not strong comment," he said.

It showed that Carleton isn't as free-thinking as the professor or students had believed.

UNEASY WEARERS

Green lipstick blossoming among the knee-sox crowd did not start a fad, and participants in the demonstration of applied psychology found being different was harrowing.

"Girls noticed faster than fellows," it was reported to the professor. Girls also were more cutting. "Is that the only way you can get attention" was one barbed co-ed missile.

"Honestly, it doesn't do justice to your looks," was the kindest female comment.

"Go away and come back when you are ripe," quipped an unimpressed male.

Pretty brunette Lorna Fielding, 19, started what the demonstrators thought would [illegible] into a fad by pretending she had received a tube of green lipstick from a relative in the United States.

"It's the rage down there . . . I like it very much," she said bravely to the girls in the washroom. Two others asked if they could try it, wore it to one lecture, then said they felt too conspicuous.

Next day, classmates joined Lorna wearing green lipstick to give the impression the fad was catching fire. But they were disillusioned by the campus reaction.

Darienne Soucy, a dark-haired beauty who might be expected to get away even with green lipstick, said she was subjected to "cruel comment" and would never try anything like that again.

"You should be able to wear a toga at a university and not be noticed," said Ron Ward, one of the psychology class boys who was in on the secret. "It is remarkable that a small thing like green lipstick would cause a commotion."

"It is not a small thing when you are wearing it," said Lorna. "You think of nothing else."

"Maybe it would have worked at a bigger university," said Bill Robinson. "Here we're all friends."

At the end of a week those using green lipstick were being told: "Take it off—we all know." This proved one fact—psychology students are no better than anyone else at keeping secrets.

HOW YOUR LIVER BILE HELPS BREAK DOWN FATS

IN THE DIGESTIVE TRACT

Laboratory tests have now proved that liver bile emulsifies fats . . . actually breaks them down. It is an established fact that when liver bile is added to fatty solids, the fats are broken down and form a smooth, easy-flowing mix.

In your digestive tract, liver bile helps break down fats the same way. Many of the foods you eat reach the digestive tract as undigested fatty solids. Your golden liver bile helps break down these fats . . . for easier and more complete digestion.

Carter's Little Liver Pills' exclusive formula of vegetable ingredients relieves irregularity gently and effectively. At the same time, it actually improves the flow of liver bile needed to break down fats in your digestive tract.

So when you feel sluggish, headachy, nervous and need a laxative, take Carter's Little Liver Pills.

Remember, Carter's not only relieve irregularity, but actually improve the flow of liver bile. Get Carter's Little Liver Pills today!

EDUCATION MINISTER Leslie Peterson presents coveted Calvert Trophy to Mrs. K. D'Arcy Goldrick, president of Vancouver Little Theatre Society as award for the best play entered in the B.C. regional finals of the Dominion Drama Festival at Victoria.

AT THE RACES — Princess Margaret and her fiance, Mr. Antony Armstrong-Jones (left) chat with a friend at the Newbury race meeting in Berkshire, England. They were attending the afternoon races in company with Queen Elizabeth, the Queen Mother. Princess Margaret chose a pale fawn coat and a brown beaver fur hat. Mr. Armstrong-Jones wore a single-breasted grey-green check suit.

California To Get Taste of Pro Hockey

PRAIRIE 'BALL LEAGUE TO FOLD

REGINA (CP) — After several weeks of indecision, the Regina Senators have decided to withdraw from baseball this season and it is possible the proposed Western League will fall with them.

President Con Bissett said Tuesday the original plan to include Edmonton, Calgary, Lethbridge, Medicine Hat, Saskatoon and Regina in a league was the best one and when it went by the boards the future of any other setup did not look promising enough to warrant a try.

Calgary interests were lukewarm at the first meeting and John Ducey, who operated the Edmonton franchise in previous years, felt it would be foolish for him to come in without Calgary.

A new league was proposed with the other two Alberta centres and Saskatoon, Regina and Lloydminster. Medicine Hat backers came in at first then later withdrew. Finally another attempt was made to get Edmonton and Calgary in but when Calgary asked for subsidization the Senators decided it was useless to continue with the efforts to form a league.

Bissett stated Tuesday that the other managements had been informed of his club's decision.

PLAY IN TORONTO

TORONTO (CP) — Three Toronto businessmen said Monday night they have arranged for an exhibition game here Monday, Aug. 15 between New York Giants and Chicago Bears of the National Football League and have guaranteed each team $25,000 or 33 1-3 per cent of the gate.

PARTING OF THE WAYS—Holding a trophy awarded him in Philadelphia as the "most outstanding" player in the National Basketball Assoc. in 1959-60, Wilt Chamberlain, the 7-foot star of the Warriors, sits with Eddie Gottlieb, owner of the club with whom Wilt has parted company. Wilt announced he will never play NBA basketball again.

Nanaimo Wins in Overtime

NANAIMO (CP)—Nanaimo Labatts whipped Lacombe Rockets 6-4 in overtime Monday night to take a 2-1 lead in the best-of-five Western Canadian intermediate hockey semi-final.

Don Smith, assisted by Arnie Dugan, scored the fifth and winning goal at 37 seconds of the 10-minute overtime period. With one second to go, Don Ashbee scored the insurance goal, with Dugan again the playmaker.

Lacombe led 2-1 in the first period, but was outscored 2-1 in the second for a 3-3 tie. The teams each got one goal in the third period.

Buddy Dumont scored two goals for Nanaimo and others went to Bruno Furlan, George Wilgress, Smith and Ashbee.

John Young led the Alberta champs with two goals, singles going to Ed Young and Jim Hawkins.

Next game in the series is tonight.

Seen as First Giant Step in Promoting Canuck Game for Prospective Franchises

By JIM PEACOCK
Canadian Press Staff Writer

VANCOUVER (CP) — Vancouver Canucks and Victoria Cougars headed for Los Angeles Tuesday to give California its first taste of professional playoff hockey since 1950.

Western Hockey League directors hope it will be the first step toward full league membership for the southern California city.

The WHL finalists will meet twice in the new 16,000-seat Los Angeles Arena, playing the second and third games of their best-of-nine series tonight and Thursday.

Cougars won the opener 3-2 in overtime here last Saturday night.

EXPANSION EXPERIMENT

The unprecedented shift of the playoff games to Los Angeles is in the nature of an experiment from which league directors hope to get a good picture of the possibilities of expanding into California, perhaps by this fall.

Moves to establish franchises in Los Angeles and San Francisco were made last year but were stymied by several temporary obstacles.

The game-site shift marks the first time in league history that the final has been played outside the home rinks of the participating teams, and while the promoting Los Angeles Junior Chamber of Commerce has made worthy financial guarantees — including $6,000 for division among the players — the idea was entertained largely because of the desire to expand southward.

NON-COMMITTAL REPLY

League president Al Leader, who headed the circuit when as the Pacific Coast League it included five California cities, was non-committal when asked if he expects the experiment will bring Los Angeles into the WHL by fall.

But representatives of the present league teams — Calgary, Edmonton, Winnipeg, Vancouver, Victoria, Seattle and Spokane—planned to be on hand for the games and the results there no doubt will influence the conversation at the WHL's annual meeting in Calgary next month.

Last spring in Seattle, the league considered applications from Los Angeles, San Francisco and Portland — each with arena facilities for seating 12,000 or more—but lack of artificial ice in San Francisco's Cow Palace and the timing of Portland's entry set back the California move.

NEW ARENA READY

Portland's new 12,000 - seat arena wasn't ready last fall, but it will be this fall and that city will field a team for the 1960-61 season.

If San Francisco's ice situation can be overcome, the two California cities might be brought into the league at the same time.

If that happens, California will have its first pro hockey entries since San Francisco, Los Angeles Fresno and San Diego quit in 1950, a year after Oakland folded. The league changed its name in 1952, two seasons after Prairie entries were brought in.

General manager Coley Hall and his assistant manager-coach Art Chapman of Vancouver Canucks left for Los Angeles Sunday to get a preview of the situation there.

The teams will return Friday and resume the final in Victoria Saturday night, playing the fifth game in Vancouver the following Tuesday.

Throneberry's Bat Rings As Siever's Successor

By MIKE RATHET
Associated Press Staff Writer

Washington's fearsome foursome minus one, shopping around for a new partner to aid in the war against organized pitching, today began checking the credentials of Faye Maynard Throneberry.

Throneberry continued his torrid hitting along major league baseball's exhibition trail Monday, driving in the winning run with a seventh inning single as the Senators edged Kansas City 3-2 in the only game played.

With slugger Roy Sievers traded to Chicago White Sox for catcher Earl Battey, first baseman Don Mincher and $150,000, Throneberry may be just the man to fill the depleted ranks.

A 28-year-old Tennessean who has knocked around the aoerican Peague since he came up with B,ston in 1952, Throneberry crashed the Washington lineup last season and compiled a .251 batting average in 117 games. The outfielder-first baseman hit 10 home runs and accounted for 42 runs batted in.

SOME DIFFERENCE

Now he's the sensation of the Senators' training camp with his .462 batting average, and has been outshining fearsome holdovers Harmon Killebrew, Jim Lemon and Bob Allison.

Killebrew (42), Lemon (33), Allison (30) and Sievers (21) slugged 126 home runs during the 1959 campaign and a little more power from Throneberry could make up for the departure of Sievers.

While Throneberry drove home the clincher against the A's, Killebrew and Lemon started the Senators on their way to their seventh victory in 20 games by driving home two runs in the first inning with sacrifice flies.

The A's tied it in the second when Bob Cerv homered — his fourth of the spring—with a man on. Then, in the seventh, Lennie Green singled, advanced on a ground out and came around on Throneberry's clutch hit.

WORK ON LINEUPS

Meanwhile Cincinnati manager Fred Hutchinson and Charlie Grimm, field boss of Chicago Cubs, took advantage of the open date to get their starting lineups in shape for the National League's opening program a week from today.

Grimm named rookies Sammy Drake and Lou Johnson to his probable starting lineup at third base and right field, respectively. Drake batted .292 at Burlington, Iowa and .303 at San Antonio last season. Johnson hit .316 at Lancaster, Pa., and .327 for San Antonio during the 1959 campaign.

Other clubs continued paring their rosters to get down to the required limit. The only surprise came from San Francisco Giants, who asked waivers on infielder Danny O'Connell, a 10-year major league veteran.

SUDBURY WOLVES ENTER PRO FINAL

SUDBURY, Ont. (CP) — Sudbury Wolves played themselves into the Eastern Professional Hockey League finals Monday night, scoring a 6-4 win over Hull-Ottawa Canadiens in the last match of their seven-game semi-final series.

Sudbury will meet either Trois-Rivieres or Montreal in the final.

Trois-Rivieres, currently leads Montreal 3-2 in their semi-final series.

Golfing With ALEX MORRISON

LESSON No. 1

MORRISON POINTERS FOR 1960

An aid toward swinging in a plane is aiming to raise your arms no higher than your shoulders in the backswing at finish.

ANY PLAYER can swing and score better just as soon as he gets the right mental picture about the correct swing. As part of this he must learn to readily distinguish a true swinging action from all other types of action such as steering, pushing or jabbing the club.

The correct swing is one smooth flowing motion without interruption from start to finish. It is the type of motion you produce when whirling a weight attached to a cord. Only through producing such an action can any player consistently strike the ball with the force and accuracy needed to score better.

When swung with a true swinging action the clubhead, like the weight on a cord, travels in the proper plane from start to finish.

As an aid toward swinging in a plane you should aim to raise your arms no higher than your shoulders in the backswing and follow through.

Jolly Jack Happy With 1960 Wings

By DAVE DILES
Associated Press Staff Writer

DETROIT (AP)—Jack Adams, general manager of Detroit Red Wings, settled back comfortably in his Olympia Stadium office and a smile creased his face.

"We've had a lot of championships," he said pointing around the room to pictures of some of the Wings' great teams of the past. "But you know, I got a real kick out of our team this year. We didn't win anything, but we turned a lot of boys into men.

"They wrote us off—a lot of them did, anyway. We went down the ladder—from first to third and then to last. We took a lot of abuse—I did and the players did, too. I said when we hit bottom that we'd be back. I told them not to give up on us.

"I hope they haven't, because we're on our way. Yes sir, I'm proud of these kids this year. They gave 100 per cent. The road up ahead is quite a bit brighter."

Fourth place in a six - team league may not seem like much of an accomplishment but its quite an improvement over the 1958-59 campaign when the Wings finished last for the first time since they got into the National Hockey League wars in 1926-27.

It was Adams who predicted a few seasons ago that Montreal Canadiens would dominate the league for a while, just as the Wings had done for so long.

"Things are beginning to even themselves out now," said Adams.

"The Montreal string is ending. Someone will catch those Canadiens before long. It might be us. We need a couple more good hockey players to do it."

Detroit players dropped around to the offices throughout the day Monday, saying goodbye, picking up travel money to go to their homes.

"I'm proud of all of them and I told them so," said Adams. "I had some pleasant surprises—Gary Aldcorn, Murray Oliver and Pete Goegan—and a couple of disappointments. We thought Len Lunde would score 15 or 16 goals and he scored only six. But he started to play well near the end of the season. We still have great plans for him.

"Oliver should get the rookie-of-the-year-award. He missed 18 games and still scored 20 goals—that's like hitting .300 in baseball, you know."

Rains Favor Muscle Men In Masters Golf Tourney

AUGUSTA, Ga. (AP)—Drenching rains have turned the 24th Masters golf tournament into a prospective battle of muscle men and one of the most eminent of these, Sam Snead, says it could be his year.

"The way I'm playing, I just might do it," the three-time winner from West Virginia said Monday. "I don't know when I've hit the ball better. I'll tell you one thing—as heavy as this course is, no short knocker is going to win it."

The 72-hole event starts Thursday over the giant Augusta national course, which measures 6,980 yards.

One of the game's strongest players, Arnold Palmer, has been established as the advance favorite. Most of his competition is expected to come from such powerful hitters as Snead, Cary Middlecoff, Mike Souchak and perhaps Jackie Nicklaus, United States amateur king.

Nicklaus, a 200-pound package of power from Columbus, Ohio, truged around the course in a driving rain Monday in 69, three under par. It was the best score of those brave enough to buck the elements. No amateur has won the Masters.

Snead played 18 holes and was even par as he experimented with his long irons. Veteran Ben Hogan gave up after eight holes and said, "I don't have a chance."

"There's no possibility that the course can dry out by the weekend," Snead said. "More rain is forecast for today. It's going to be very slow."

BIGGEST BOATING VALUE EVER AT SCOTT DEALERS...

COMPLETE SCOTT-POWERED COMBINATION

ONLY $1,049.00!

COMPLETE—READY TO GO!

Powerful new 25 HP SCOTT...13-foot Sapphire moulded plywood boat... and Sapphire trailer... normal value $1305.50...YOU SAVE $256.50!

This sensational combination offer saves you $256.50! And look what you get—*a matched set*, matched in size, appearance, and boating efficiency!

25 HP SCOTT—with race-car getaway. Large-bore design develops more thrust quicker, for real ski-power lift and acceleration, yet it throttles down to a mile an hour without any sputtering! Exclusive Bail-a-matic bails up to 300 gallons an hour automatically! Full gear shift—Forward, Reverse, *and* Neutral! Regular List Price $567.00!

13-Ft. Sapphire Boat can skim you along at speeds to 27 mph! Roomy—63-inch beam—and ultra-smart in styling, with sparkling red and white finish, topped by an African Mahogany deck. Passenger seat has reversible back for safe observation of water skier. With built-in steering controls, remote controls for gear shift and throttle, and 17-inch tinted windshield. Regular List Price $599.00!

Sapphire Trailer in matching red and white baked enamel. Phosphatized all-steel construction, fully rust-resistant throughout. Demountable wheels have high-speed tires and tapered roller bearings. Complete with fully matched features to fit the Sapphire and balance the load, and with safety chains, tie-down straps, etc., etc.—Regular List Price $139.50!

SAVINGS! At regular list prices this Sapphire outfit would cost at least $256.50 more. *See your Scott dealer!*

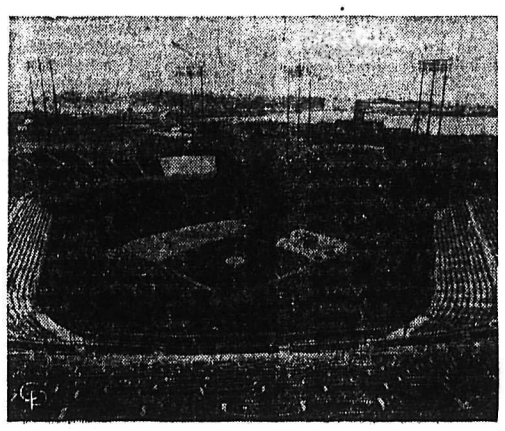
New Candlestick Park in Frisco Should Fly Pennant Says Experts

By JACK HAND

NEW YORK (AP) — A pennant should fly over San Francisco's new Candlestick Park next October because of key moves the Giants made during the off season to bolster their pitching and tighten their infield.

The addition of Billy O'Dell and Billy Loes, a southpaw starter and a righthanded relief man, plus the acquisition of second baseman Don Blasingame figure to give the Giants what they lacked last year when they blew the pennant in the last 10 days.

Milwaukee is given the best chance of beating the Giants in this book with the Dodgers making it a three-way fight. Powerful Cincinnati with added pitching from Cal McLish and Bill Henry has an outside shot at the flag.



SLICKED UP, AND READY—The San Francisco Giants' new home, Candlestick Park, is being slicked up for the opening game to be played here April 12 against the Cardinals.

REST OF PACK

Pittsburgh, hoping for a solid comeback by Bob Friend, figures to fight it out with St. Louis for fifth, if Stan Musial can hold his spring training form for 100 games. Chicago's young pitching must continue to improve and Richie Ashburn and Frank Thomas must bounce back from bad years if the Cubs are to improve. The Phillies appear headed for another term in the National League cellar despite a generous injection of new blood.

Here's the way it looks from here:

1. San Francisco
2. Milwaukee
3. Los Angeles
4. Cincinnati
5. Pittsburgh
6. St. Louis
7. Chicago
8. Philadelphia

The Giants, of course, still have problems. Their defence was shoddy last year and still lacks finesse with Willie McCovey on first base and first baseman Orlando Cepeda in left field. It remains to be seen whether Loes will be the answer to Rigney's bullpen problems. If erratic Billy fails, the club could be in serious trouble.

Kelly Big Threat Claims GM Selke

By W. R. WHEATLEY
Canadian Press Staff Writer

MONTREAL (CP)—Managing Director Frank Selke of Montreal Canadiens Tuesday sized up the opposition in the coming Stanley Cup final and declared Toronto Maple Leafs a much improved club.

Acquisition of Red Kelly has helped the Leafs tremendously, said Selke, whose highly favored Canadiens polished off the Torontonians 4-1 in the best-of-seven final a year ago.

"Kelly is an intelligent player," said Selke. "He is the type of player whose work improves that of his mates. But even without him, the Leafs are an improved club. They just sneaked into the playoffs last season. Throughout virtually all this season they have been a second-place club.

"The Leafs have also been helped by goalie Johnny Bower, whose work I believe has been even better this season than last."

Coach Toe Blake was in full accord with Selke's views.

"There's no doubt that Kelly has helped the Toronto club immensely," said Blake, who is gunning for his fifth straight cup title since taking over Canadiens. "The Leafs seem more at ease in their play."

At the same time Blake said he is not considering any particular line of play against the Toronto line spearheaded by Kelly, whose three goals and six assists played a big part in the elimination of Detroit Red Wings in the Toronto-Detroit semi-final.

"I don't know yet how I'll work my lines," said Blake. "I'm not putting any special guy on anybody in particular. We have some fellows the Leafs will have to look after. That's their problem. "I'm not trying to conjure up any great strategy."

OPEN ON HOME ICE

Canadiens rule 16-to-5 favorites to win the series. The first two games are scheduled for Thursday and Saturday in Montreal. The next two are in Toronto next Tuesday and Thursday. Further games, as necessary, will be played singly in each city.

Blake Tuesday sent his club through a stiff 80-minute scrimmage session.

Of the three current casualties, Blake is more concerned about Jean Beliveau. The giant centre has not fully recovered from a groin injury, and club physiotherapist Bill Head said the injury will continue to bother the big fellow, who scored only a single goal in Canadiens' four straight wins over Chicago Black Hawks in the semi-final.

Left - winger Marcel Bonin is still bothered by a gimpy ankle and defenceman Doug Harvey also has groin miseries plus an old ankle injury that has refused to heal properly.

High Caddy Costs Amaze Tee Artists

AUGUSTA, Ga. (AP) — "Santa Maria!" exclaimed Angel Miguel of Spain. "Six hundred pesetas for a caddy — I could hire a bag boy for a month with that in Madrid."

"And sixty-five cruzeiros for a cup of coffee," said Mario Gonzales of Brazil. "In Rio, I buy two pounds of the finest Brazilian coffee for that — two hundred cups, maybe."

In Spain, 600 pesetas amount to $10, the average per diem cost of a bag-toter in the Masters golf tournament here. Sixty-five cruzeiros — in the Brazilian exchange — is 40 cents, the price of a cup of coffee at the Augusta National Clubhouse.

These two examples emphasize the economic strain — particularly on foreign invaders — of the Masters, the most luxurious golf tournament of them all.

"In Brazil, I get a caddy for 50 cents for 18 holes," said Gonzales, who has played all over the world. In Spain, Miguel pays his bag-toter 80 cents. Australians here are accustomed to shelling out 20 bob ($2.50), the British a pound ($2.80) and the South Africans 7 shillings ($1.00).

Caddies at the Masters are no more expensive than in other U.S. tournaments — $5 a round with a $1 for shagging balls — but, just because this is the Masters, they expect a good tip at the end of the tournament, which makes it run to roughly $70 for the week.

Bird Tourney Near

CRESTON — A committee of five members of the Creston Badminton Club have been named to make arrangements for an approaching badminton tournament in Creston.

No date has yet been set for the tournament, however, the selected committee will be accepting names of entries until April 7.

Committee members are Miss Sharon Mepham, Miss Frances Rhodes, Harry Ellip, Ted Swales and Don Logan.

SMOKIES MEET TRUE TEST

Kilgour in 'Cat Net; No Changes for Trail

TRAIL — Trail Smoke Eaters are expected to get a true test of the mettle of the Port Arthur Bearcats tonight in Cominco Arena in the second game of the best-of-seven Western Canada Allan Cup final.

Despite Trail's 6-0 win in the opener of the series Monday, another large crowd is expected to be on hand when the clubs square off at 8 p.m. Though Smokie fans are quite confident that their club will be hosting the eastern champs in about 14 days, many believe that tonight's contest will be the turning point.

Strange surroundings, coupled with a long rail ride did as much to defeat Port Arthur in the opener as the pads of goaltender Seth Martin in the Trail nets.

Tonight the 'Cats will have had a couple of days rest, have become acquainted with their ice surroundings through the game and two practices.

LONG WORKOUT

Coach Gil Carlson had the 'Cats out for a long strenuous practice Tuesday afternoon. After the workout he reported that the practice had ironed out a few needed details.

Carlson has indicated that he will make two changes for tonight's game. Returning to the nets will be the man who was largely credited with 'Cats three straight victories over the Saskatoon Quakers in the semi-finals, Bob Kilgour. Bert Brooks played the opener.

Kilgour sat out last season with a one-year suspension for failing to stay in Scotland where he had signed to play. Prior to that he had been the teams regular netminder for several seasons.

Another new face in the 'Cat lineup will be that of Buddy Whitney, who will take over left wing position of the team's top scorer Al Jorgenson on the third line. Jorgenson suffered broken blood vessels in his left foot in the Saskatoon series and indicated in Monday's game he has not yet recovered full strength in the foot.

Following Wednesday game, the Thunder Bay crew will have a new coach, as Carlson will have to leave Trail for the Lakehead due to business pressure.

The team is undetermined right now who will succeed Carlson, general manager Russ Poole or veteran defenceman Steve Hyrmnak. Up until Carlson was injured in December Hyrmanak, who has made professional stops at St. Louis, New Haven, Chicago, Edmonton, and New Westminster, was regular coach.

Trail coach Bobby Kromm was conservative in his club's chances on nailing down the series. "We'll be out to make it two in a row tonight," said Kromm.

After Monday's game Kromm said, "they (the Bearcats) were good for a period and a half but after that they just seemed to fade. They must be a better club or they wouldn't be in this final."

"It'll take the same kind of effort from everyone Wednesday if we hope to repeat. When they get a day's rest and become a little more accustomed to the surroundings they'll be tougher to beat," he said.

Rumors prior to the first game indicated that the 'Cats were having a tough time acclimatizing themselves to Trail's altitude, and drinking water. Coach Carlson hinted that there was some truth in the rumors.

As for his club's showing Monday night he said, "We just didn't put on a good show. Our big line (Harris, Johnston and Arnold) just wasn't digging or skating. Maybe they were tired or something, but after a rest Tuesday we should be back in high gear for Wednesday's second game."

HULL, Que. (CP) — Amherst Ramblers romped to a five-goal first-period lead here Tuesday night, then held on for an 8-7 victory over Hull Legionnaires in the second game of their Allan Cup quarter-final series.

It was the second straight win for the Maritime Senior hockey champions, who now have a chance to wrap up the best-of-five series in the third game here tonight. Ramblers won the opening game Sunday 8-2.

STRIKES 'N' SPARES

Results of the Senior Ladies' League: Waterer 3, Hirds 1, Parker 3, Wicken 1, Stewart 0, Koehle 4.

High single Lena Koehle 290, high aggregate Dot Waterer 755. Team high single and aggregate, Koehle, 1075 and 2860.

Only other top scorer was Billy Moore of Koehle 717.

Ten Pin League results: S. S. Hydros 1, Algars 2, Oldtimers 3, Lucky Strikes 0, IOOF 1, Dimers 2.

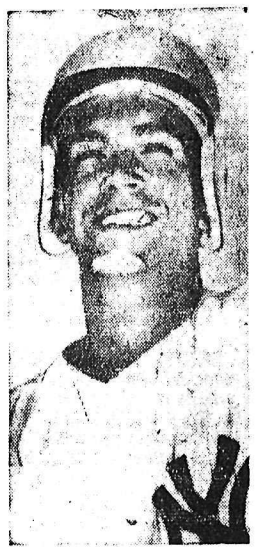
High single Dave Stewart of Dimers 222, high aggregate Joe Dowes of S. S. Hydros 557.

Team high single and aggregate Oldtimers 850 and 2356. Only other top scorer Gary Rosling, 211.

Fullmer To Meet Canadian Kerwin

MIAMI BEACH, Fla. (AP) — Jay Fullmer and Gale Kerwin of Ottawa, a couple of unranked welterweights, meet in a 10-round match tonight in the Fontainbleu Hotel's grand ballroom.

The ballroom seats 4,800 but admission will be by invitation only, so the average fan may see it only on ABC television, starting at 8 p.m. MST.



GRIDIRON STUFF — The New York Yankees' Bobby Richardson models a new type plastic protective headgear for baseball players. It has padded covering around the ears and resembles somewhat a football helmet.

MOTOR TROUBLE—A nasty spill during the Lakewood 100-mile stock car race at Atlanta, Ga., sent Don Bitner of Chicago to a hospital with severe injuries. The flip of his car is seen. Bitner was trapped in the car for 10 minutes as rescue workers attempted to extricate him.

Snead Throws Golf Match To Avoid Embarrassment

NEW YORK (AP)—Sam Snead was caught in a dilemma so he threw a golf match which, according to the rules, he had already lost.

This strange incident in the career of the drawling West Virginian was related Tuesday by Harold Weissman, sports columnist of the New York Mirror, and he quotes Snead himself as authority.

Snead, Weissman says, was playing in Bermuda last December as part of a filmed television series. Sam did not identify his opponent, but through deduction Weissman concluded it was young Mason Rudolph.

SAM'S STORY

They came to the 15th hole of the Mid-Ocean course all square, Weissman relates, and lets Slammin' Sammy take it from there:

"The 15th was a par 5 and after hitting my drive I went into my bag for a spoon," Weissman quotes Snead. "As I reached for it, I noticed three wood clubs instead of the two I usually play, along with a No. 1 iron. There was an extra driver in the set! That gave me 15 clubs, which is illegal.

"Wow! Now I got me a dilemma. Cain't touch off a rhubarb by admitting it to the producer. If I do that, I force the cameras to stop grinding and there's no TV show. Because under the rules I've got to forfeit the 15 holes we've played with the illegal number of clubs. Now I can't try to win the match either 'cause that's dishonest. So here's what I do:

GAVE IT BACK

"I four-putt the 16th to put my opponent one up. Then he gave it back to me on the 17th in spite of anything I could do that wouldn't be too obvious on the screen. Now I got to sweat out No. 18.

"I got a wedge to the green and deliberately hit it short enough so it wouldn't look funny when I took three putts to guarantee losing the hole and the match."

Weissman said when Snead's match with Rudolph was on TV last Sunday he checked Sam's story and found the description of the last three holes coincided with Sam's version.

GET A HORSE!—But Eddie Arcaro had one, and he's just returning to the weigh-in station through a sea of mud at Aqueduct race track, New York, where the weather hasn't cooperated.

Canadians Enter Intermediate Finals

FORT FRANCES, Ont. (CP) — Fort Frances Canadians scored with less than two minutes remaining in regulation time Tuesday night to defeat Dauphin Kings 2-1 and win their best-of-five Western Canada intermediate hockey semi-final series in straight games.

The Thunder Bay champions, who won the first two games by scores of 4-1 and 7-1, now will meet either Lacombe, Alta., or Nanaimo, B.C., for the Western Canada crown.

Able To Win Cup Says Brash Punch

By BEN WARD
Canadian Press Staff Writer

TORONTO (CP) — Toronto Maple Leafs galloped through an hour of scrimmaging at Maple Leaf Gardens Tuesday and coach Punch Imlach pronounced them "ready to take the Stanley Cup."

"It's going to be one heckuva series but we'll fool the experts by winning," the Leaf coach confidently predicted.

Imlach, ignoring the fact that practically everybody has conceded Montreal Canadiens a fifth straight Stanley Cup championship, said his Leafs are at their peak, better than they've been all season.

The best-of-seven final opens with games Thursday and Saturday at Montreal, swinging back to Toronto next Tuesday and Thursday.

CANADIENS 5-1 FAVORITES

The Leaf coach appeared to be happy in the underdog role. But he said Toronto bookies who have established Canadiens as 5 to 1 favorites to take the opening game are "pretty foolish."

"I said last September in Peterborough that our objective this year was to take the Stanley Cup from Canadiens. We are entering the final phase of that campaign."

Imlach said last year's series, in which Canadiens eliminated Leafs in five games, shouldn't be considered in looking at the upcoming set of games. Leafs are in better physical shape this year and have acquired better balance and bench strength, he added.

During the regular season Leafs defeated Canadiens three times in 14 games with one tied.

NOW AT THEIR PEAK

Imlach doesn't consider that record a factor, either. Leafs had just come through a tough series in dropping Detroit Red Wings 4-2 and were "right at their peak now."

"We're better at centre, have more depth up front and our young fellows have picked up the necessary playoff experience," the Toronto strategist maintained.

How will Leafs handle the Canadien lineup, which is packed with top scorers?

"I play it by ear," Punch replied. "I'll see how the series goes and map my strategy to fit the situation."

WAKEHAM WINS IN FIRST ROUND

VICTORIA (CP) — Bill Wakeham, 1959 defending champion, has won the first round of the Victoria Times Vancouver Island Open Gold tournament.

Wakeham, who is also 1957 Canadian junior champion, Monday defeated Gordie Jones 4 and 3. Both are from Victoria.

Saturday he will play Laurie Carroll, 1958 champion, in the second round of the tournament.

Mantle Wields Big Stick

By The Canadian Press

Mickey Mantle is still the big man in the New York Yankees attack and he proved it Tuesday in the Yanks' 9-3 exhibition victory over Chicago White Sox.

The Mick, plagued by salary and physical troubles this spring, hit a two-run, first-inning triple and added a single and another run batted-in later in the game.

Boston Red Sox found the answer to replacing catcher Sammy White, who retired. Haywood Sullivan drove in three runs with a homer, double and single in the 12-9 victory over Chicago Cubs.

12-RUN INNING

Elsewhere, Detroit used a 12-run first inning — all of the munearned — to down Baltimore Orioles 14-4; Pittsburgh beat Philadelphia Phils 7-5; Kansas City bombed Washington Senators 13-5; Cleveland defeated the world champion Los Angeles Dodgers 8-4; and a flock of ex-Giants helped the St. Louis Cards win over San Francisco 9-5.

Mantle hurt his knee shortly after reporting to the Yanks' camp and has had to play intermittently. Bobby Richardson also had four hits for the Yanks, including a home run while Al Smith hit his fifth homer in four games for the Sox.

Sullivan, counted on to take up for White, who retired rather than be traded to Cleveland, matched the Cubs' Ernie Banks who homered, doubled and singled for three RBI. Pitcher Jerry Casale also hit a home run for Boston.

WALKED SIX

Rookie Steve Barber, who walked six, was the victim in Detroit's big first inning. Neil Chrisley and Steve Bilko homered later on for Detroit and Ron Hansen had one for Orioles.

Bob Skinner's three-run homer in the ninth helped Pirates break a six-game losing streak while Ed Bouchee, Frank Herrera, and Bobby Del Grecco homered for Phils. Ray Herbert became the first Kansas City pitcher to go nine innings and also hit a grand slam home run. Dick Williams added one for the A's, while Bob Allison had two doubles for the Nats.

Rocky Colavito had a home run and a double and Woody Held had two doubles in his first spring appearance for Cleveland. Duke Snider, Johnny Roseboro and pitcher Larry Sherry homered for the Dodgers.

Former Giants Darryl Spencer, with a tie-breaking ninth-inning homer, Bill White's two hits, Leon Wagner's single and two walks and winning pitcher Ernie Broglio all combined to beat their former mates.

Jim Davenport, Orlando and Willie McCovey hit home runs for Giants, with McCovey getting his first.

Correspondents Report Clubs Used On Negroes

LONDON (Reuters) — Correspondents for British newspapers reported Tuesday that South African police were indiscriminately beating up Negroes on the streets of Capetown with clubs and whips.

"A heartbreaking sight," wrote The Daily Mail correspondent of the whippings. "I saw women and elderly men, apparently innocent passers-by, caught up."

The Liberal News Chronicle, under the banner headline "Reign of Terror," says Prime Minister Hendrik Verwoerd's "uniformed bully boys" have "launched 'kragdadigheid'—a beastly word that means precisely what the Nazis meant by 'beastliness.'"

The Chronicle and other newspapers report that a weeping nurse at Nyanga native township, near Capetown, telephoned friends for emergency supplies of bandages Monday and told them: "The police are beating up everybody. Blood is everywhere."

White South Africans were reported to have flooded switchboards with protests about the police action, and The Daily Sketch quotes a white man as saying she plugged her ears to keep out the anguished cries of the Negroes.

REFUND FEE

REGINA (CP)—The Saskatchewan legislature Monday voted 31 to 16 to refund the $150 fee paid by the Saskatchewan branch of the Canadian Protestant League for presenting a private bill.

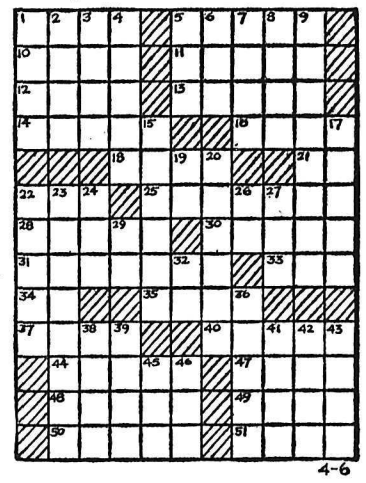
Yesterday's Answer



DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

WIWM GIOM DSM EMCCMWBMV
ZSI NVRWBC NLF WMZC—CIKSIUGMC.

Yesterday's Cryptoquote: WE OFTEN DESPISE WHAT IS MOST USEFUL TO US—AESOP.

Canada's Population Close To 18 Million

OTTAWA (CP)—Canada's population reached an estimated 17,732,000 on March 1 after a one-year gain of 392,000 or 2.3 per cent, the Bureau of Statistics reported Tuesday.

The bureau said the gain in the nine months up to March 1 was 290,000 — an indication that the country's population will hit the 18,000,000 mark around year's end if that rate of gain continues.

The March 1 estimates showed two provinces reached milestones in the previous 12 months, Ontario passing the 6,000,000 mark and Quebec topping 5,000,000.

Population of Ontario rose by 170,000 to 6,057,000 and Quebec gained 133,000 to 5,088,000.

Alberta had a 45,000 rise to 1,273,000 and British Columbia a 38,000 gain to 1,601,000.

Other provincial changes in the 12 months to March 1: Saskatchewan, up 10,000 to 906,000; Manitoba, up 17,000 to 895,000; Nova Scotia, up 6,000 to 721,000; New Brunswick, up 13,000 to 597,000; Newfoundland, up 11,000 to 457,000; and Prince Edward Island, up 2,000 to 103,000.

Populations of the territories remained virtually unchanged, the Yukon at 13,000 and Northwest Territories at 21,000.

Prince Philip To Take the Family Camping

LONDON (Reuters) — Prince Charles and Princess Anne Tuesday were reported to have won a campaign to get Prince Philip to take them camping.

That is the purpose of the Royal Family's unseasonal visit to Sandringham next week, The Daily Express says.

The Queen, Prince Philip and their two oldest children will spend a week at Sandringham before moving to Windsor Castle for the Easter holidays.

Six-week-old Prince Andrew, it is reported, will remain at Buckingham Palace until April 14 when he will join the family at Windsor.

The Daily Express columnist gives his opinion that "Prince Philip has been overcome by a nagging campaign conducted by his son and daughter to take them camping."

The plans are to cook over an open fire, eat outdoors and sleep in sleeping bags. However, the sleeping will be done under the roof of a royal chalet, not under the open sky.

Napoleon III Still Lies In British Soil

FARNBOROUGH, England (AP) — There's a Napoleon of France buried here in this quiet little corner of England, and royalists in France think it's about time he goes home.

Among all the affairs of state occupying President Charles de Gaulle on his visit to Britain III is the one on which the today, the problem of Napoleon French royalists want action.

The small but determined group of French royalists are reported to have asked de Gaulle to drop a few discreet hints in Britain that a Napoleon belongs in France.

Napoleon I and Napolean II both died outside of France, but their bodies were returned to Paris later.

Napoleon III — nephew of Napoleon Bonaparte—died near here 87 years ago and was buried in Farnborough.

After the disastrous end of the Franco - Prussian war in 1870, Napoleon III was exiled here.

Toronto Star, Newspaper Guild Agree On Terms

TORONTO (CP) — After almost 16 hours of continuous negotiations the Toronto Star and Toronto Newspaper Guild agreed on a proposed contract early Tuesday providing a 14-per-cent wage increase over a 34-month period.

A guild spokesman said the contact will give key classifications a wage on a par with craft unions by April, 1961. It will amount to a $14.25 increase the first year and raise the top reporter minimum to $135 weekly from $120.75.

The contract has yet to be ratified by the 1015 editorial, realty, advertising, circulation and delivery employees represented by the guild.

Other terms include payments to each employee of three per cent of gross earnings retroactive to Dec. 1, 1959, and increases of three per cent April 1, 1960, three per cent Oct. 1, 1960, four per cent April 1, 1961, and four per cent Jan. 1, 1962, for a total of 14 per cent.

Guild membership approved strike action last week after rejecting a unanimous conciliation board recommendation for a nine per cent increase over 28 months. The Star had accepted the recommendation.

The guild spokesman said editorial exclusions and other issues were satisfactorily resolved. On the question of excluding 10 senior editorial employees from the guild The Star dropped six during bargaining, held out for four and agreed to ask the Ontario labor relations board for a ruling on the four.

GOVERNMENT SCEPTICAL

SASKATOON (CP) — Resources Minister Hamilton said in an interview Monday that the federal government is not convinced western farmers want deficiency payments on wheat, oats and barley. Letters indicated there is a growing feeling acreage payments are a better solution.

14 Paper and Foil Bag Firms Accused in Combine Report

By ALAN DONNELLY
Canadian Press Staff Writer

OTTAWA (CP)—Fourteen manufacturers of specialty-type paper and foil bags in Eastern Canada were accused in a combines report today of having tried to prevent price competition among themselves in supplying some of their customers.

The commission's findings covered certain types of bags usually made to order from kraft paper, aluminum foil for cellucine and glassine—two special types of paper. It did not involve grocery bags or bags made from plastics.

NAME COMPANIES

The report is based on a statement of evidence submitted to the commission last year by combines investigation director T. D. MacDonald naming these companies:

Appleford Paper Products Limited and John Dickinson and Company (Canada) Limited, both of Hamilton; Associated Paper Mills Limited, International Envelope Limited, and the MacGregor Paper and Bag Company, Inc., all of Montreal; W.J. Bell Paper Company Limited, Bradshaw's Limited, canada foils Limited, Dominion Envelope Company Limited, Kilgour's Limited, Quality Paper Bags Limited, E. S. and A. Robinson (Canada) Limited, and Wedlock Bag Company Limited, all of Toronto; and Continental Paper Products Limited, Ottawa.

Justice Minister Fulton, who made public the commission's report, said he will consider what further steps ought to be taken.

The commission said actions of the group were likely to operate to the public detriment, but said it wasn't possible to express any conclusion as to the actual consequences on competition of their actions.

"The group was . . . relatively short - lived and whether with a longer life it would have such troublesome. When one of these ceeded or failed in the questionable objectives referred to above could only be conjectured."

CENTRAL FIGURE

The report showed the central figure in the group was Paul S. Newell, president of Dominion Envelope.

Evidence was that the companies drew up a list of customers with whom competition was most troublesome. When one of these customers asked one of the manufacturers for a price quotation on some speciality bag, the matter would be referred to Mr. Newell who would tell the manufacturer the most recent price for the product.

Mr. Newell said at a combines hearing that this was done to stop the circulation of wrong price information by some customers who were trying to push down prices.

The commission said, however, that evidence made it clear that members of the group were interested not only in stopping a price decline but in securing higher prices.

"The statement of evidence describes at some length the running out of a particular contract for the supply of bags to a potato chip manufacturer at $5.85 (a thousand) and the exchange of information among members of the specialty bag group in an effort to ensure that no member would offer a new supply at less than $6.80."

TORONTO VISITOR

PRAGUE (Reuters)—Czechoslovakia's minister of health, Josef Plojhar, now received Dr. J. K. W. Ferguson, director of the Connaught Laboratories in Toronto, the Czech news agency Ceteka reported. Ferguson is on a visit here.

PCs Favor Voting Privileges To All Voters Away Election Day

OTTAWA (CP) — Commons PC members indicated Tuesday they are in favor of granting advance voting privileges in federal elections to all voters who know they will be away from home election day.

"Conditions seem to be favorable now for advance polls for everybody," Gordon Aiken (PC—Parry Sound-Muskoka) told the Commons privileges and elections committee.

The advance polling privilege in federal elections now is limited to members of the RCMP, commercial travellers, fishermen and those working in transportation services.

Committee members indicated they were opposed to the introduction of a system of absentee voting under which voters could cast ballots in another constituency on polling day. Such a system also would involve the preparation of a permanent list of voters.

Nelson Castonguay, chief electoral officer, said there were 256 advance polls in the March 31, 1958, election costing $36,264. He estimated that to extend the privilege to all voters would require 1,634 polls at a cost of about $188,000.

Mr. Castonguay said the initial cost of a permanent list of voters would be between $6,000,000 and $7,000,000. It would be necessary, he said, to bring the list up to date at least every two years at a cost of $2,000,000 to $2,500,000.

Acting State Secretary Balcer told the committee that the government hopes to introduce legislation this session to amend the Canada Elections Act. He did not elaborate but said any recommendation by the committee would receive careful study by cabinet.

An official source said he expects that the only major amendment to the act will be an extension of advance polling privileges to all voters.

No Evidence of Fraud In Dance Studios

ST. LOUIS (AP) — A circuit court grand jury declared Monday the Arthur Murray and Ray Quinlan dance studios in St. Louis systematically "pressure their students to sign expensive contracts for dance lessons."

The grand jury said, however, it found no evidence of fraud. "You cannot outlaw gullibility or stupidity," its report stated.

"We find that these studios exist in large measure to satisfy the needs of people who are lonely and the giving of dance lessons is purely incidental," the report continued.

"The lonely hearts club and the dime-a-dance ballroom of yesterday have reemerged in this polished up facade."

Arthur Murray, whose organization licences 450 studios throughout the United States and 10 other countries, declined an invitation to appear before the grand jury but defended the integrity of his business.

"On occasion, as is normal in any international organization, individual employees of its licensed studios may have engaged in isolated practices not approved by the organization," Murray said. "But when reported these isolated practices have been corrected."

French Finish Nuclear Blasts

UNITED NATIONS, N.Y. (AP) — The French delegation has circulated among other delegations a document indicating that no further nuclear tests are planned by France in the immediate future.

French sources said the document consisted of excerpts from French newspapers and French news agency reports based on official information.

These sources said the two tests held by France had achieved the purpose intended — showing that France now could begin producing nuclear weapons.

PARIS (Reuters) — Jacques Soustelle, French cabinet minister dismissed after the Algiers settlers' revolt in January, is heading a new information centre here on problems of Algeria and the Sahara, it was announced Monday.

Macmillan Deplores South African Issue

LONDON (Reuters) — Prime Minister Macmillan said Tuesday the events in South Africa are "a source of deep regret to me."

But he said Britain must not "lightly throw away or injure" the Commonwealth by precipitating a crisis within it.

Macmillan spoke in the House of Commons after Opposition Leader Hugh Gaitskell said South African police action has brought "a shock of horror" to the British people.

Gaitskell said he did not want to raise the "difficult issue" of South African attendance at the coming Commonwealth prime ministers conference. But this "should not be allowed to prevent us from making a frank expression of our horror at the racial policies of the South African government."

Macmillan replied: "The British Commonwealth has had a very great past and I believe it has the possibility of a great future.

"It will outlast the particular people who preside over the fortunes of any country at any given time. We must bear this in mind and not lightly throw away or injure what I am certain in the years ahead will be a great instrument for good."

Gaitskell asked for full discussion of the situation at the Commonwealth conference in May and Macmillan said Britain would use her influence to steer things in a good direction.

Russ Accuses Bonn Minister Of War Crimes

LONDON (Reuters)—The Soviet Union Tuesday accused ex-Nazi Theodor Oberlaender, West German refugees minister, of war crimes that included the slaying of prisoners.

Tass news agency reported from Moscow that a special state commission announced it regarded as "proved" allegations and crimes against humanity" during Germany's wartime invasion of Russia.

The commission made its announcement at a press conference attended by several persons who claimed they had witnessed crimes committed by the 55-year-old Oberlaender, Tass said.

The announcement was the latest in a series of Communist attacks on the Bonn minister, who has denied committing any atrocities while with the German army.

A West German prosecutor is investigating charges by the West German association of victims of Nazism accusing Oberlaender of complicity in wartime slayings in the Soviet Ukraine.

Auto Workers Favor Canadian Car Co. Buses

WINDSOR, Ont. (CP) — The United Auto Workers (CLC) Tuesday asked Toronto Transit Commission Chairman Clarence Downey to choose the bid for 50 buses from Canadian Car Company of Fort William, Ont., rather than General Motors, Flint, Mich.

Tenders will be opened Wednesday.

George Burt, UAW Canadian director, said in a telegram to Mr. Downey: "Livelihood of many Lakehead families depends upon Canadian Car keeping its bus production facilities in Fort William. The Toronto order will be the best winter works program Fort William ever had."

The 1,200 members of local 1075 was recently cut by 50 per cent because of production cutbacks. The company is subsidiary of A.V. Roe Company Limited. Last year a joint union-company effort resulted in enough orders to keep the plant working. A.V. Roe announced prior to the orders it was shifting the operation to Montreal.

Instrument Makes Mouth-To-Mouth Method Easier

TORONTO (CP) — A new instrument to facilitate the controversial mouth - to - mouth method of artificial respiration was described Monday to delegates to the annual convention of the Industrial Accident Prevention Associations.

The inventor, Dr. Morris H. Brook of Saskatoon, said his "Brook airway" has overcome main drawbacks of the direct mouth-to-mouth method — revulsion to physical contact with a person who may be dead and the risk of infection.

More than 2,000 delegates from Canada and the United States heard evidence that the effectiveness of the mouth - to - mouth method of resuscitation is being increasingly recognized.

William E. Stevens of Guelph, Ont., said he used the method to revive a boy more than seven minutes after he sank in a swimming hole.

HONORS KING GEORGE

PARIS (Reuters)—The Cross of the Liberation today was conferred posthumously on King George VI in a decree published in the official journal. During his visit to London, President de Gaulle is expected to ask Queen Elizabeth to accept the cross—rarely bestowed on anyone but a French citizen—on behalf of her late father.

Eisenhower Underscores Richard Nixon

WASHINGTON (AP) — President Eisenhower fired a new broadside at Democratic party critics of his defence policies, saying "only the ignorant and the blind" insist the United States is not the most powerful nation in the world.

At the same time, he underscored his endorsement of Vice-President Richard Nixon to succeed him.

In a speech billed as a "Republican victory campaign kick-off" and prepared for the eighth annual Republican women's conference, Eisenhower made wide claims of achievement for his government.

But some of his most pointed phrases were aimed at Democrats who have been contending his defence policies threaten to open the United States to missile attack—and destruction—by Russia.

Eisenhower said he is "convinced that our whole defensive structure has been accurately tailored in the light of national needs and operational efficiency."

Asylum For Negroes Considered

LONDON (Reuters) — Home Secretary R. A. Butler said Monday the government is examining the question of granting asylum to Negro fugitives from South Africa.

He was replying in the House of Commons to questions by Opposition members about Oliver Tambo, acting president-general of the African National Congress, and Ronald Segal, editor of the magazine Africa South.

Both men have requested political asylum in Britain after fleeing from South Africa to Bechuanaland, a neighboring British protectorate.

"In the case of British citizens or British protected persons, which those two gentlemen would no doubt be able to claim, there is no question of difficulty regarding entry into the United Kingdom," Butler said.

A Labor member asked whether Britain would give refugees from South Africa the same rights of political asylum as were given to fugitives from Hungary or Nazi Germany.

Butler said that is "a question of considerable complexity" which now is under active consideration.

Intelligent Life On Many Planets Astronomers Say

By ALTON BLAKESLEE

GREEN BANK, W.Va. (AP)— Once upon a time man believed he lived in the vary centre of the universe, supremely alone.

But today's astronomers are confident that intelligent life and civilizations thrive on possibly millions of planets.

And somebody out there, they think, could be astonishingly far advanced by having lived and invented for hundreds, thousands or even a billion years longer than man has been on earth.

Scientists on earth have only recently developed sensitive antennae and radio amplifiers able to pick up signals beamed from planets thousands of billions of miles away.

LISTEN TO SPACE

These are prime reasons for attempting now to listen for signals from space, using the gleaming radio telescope—85 feet in diameter—at the National Radio Astronomy Observatory here. It is somewhat similar to the pioneer radio telescope at Jodrell Bank, England.

There are compelling reasons for hoping for success ultimately if not immediately, explains Dr. Frank D. Drake, astronomer directing project Ozma.

Our sun is one of perhaps 200,000,000,000 suns or stars making up a great galaxy, the milky way. The milky way is only one of billions of galaxies, some with more and some with fewer stars.

Many astronomers now think that somewhere between one and 50 per cent of all stars have planets wheeling around them.

To support life, a planet must be neither too close nor too far from its star. Earth is fortunate this way, and life developed here.

WITHIN REACH

But possibly millions of stars have favorably located planets, and have shone long enough at constant intensity to develop intelligent life. Many of these could be in the milky way, potentially close enough for radio contact despite the vast reaches of space between almost all stars.

There's little hope of ever hearing from planets in other galaxies, for the galaxy closest to us is 1,500,000 light years away. A message would take that long to reach us, our reply another 1,500,000 years to speed back.

But there is reasonable hope of comunicating with planets in the milky way, itself so vast that it takes light or radio waves up to 100,000 years to cross its expanse. But many stars are relatively nearby.

There is evidence that our son was born about 5,000,000,000 years ago, after the explosion of a first "father" or progenitor star.

Gradually, processes on the cooling earth built up complex organic chemicals. Then about 2,000,000,000 years ago the first simple life appeared, evolving until modern man came on the scene some 50,000 years ago or more.

But planets around other stable suns could have formed much earlier. If evolution occurred on them as on earth, their life is far more advanced scientifically.

BORN IN COURT

CHICAGO (AP) — A teen-age expectant mother, in court awaiting arraignment of her husband on burglary charges, gave birth to a three - pound, 7¾ - ounce daughter Monday in a jury room. Mrs. Rita Eakes, 17, felt the first labor pains when she arrived in the criminal courts building for arraignment of her husband Frank, 20, an unemployed machinist. The husband was remanded.

MARKET TRENDS

NEW YORK (CP)—The stock market advanced Tuesday with motor shares in demand on news of good auto sales.

The Dow Jones industrial average rose 3.65 to 622.19 and the Associated Press 60-stock index was up .80 to 215.20.

American Motors was the most active issue, up 1¼ to 26½ on 132,300 shares. Total transfers were 2,840,000 shares.

In the Canadian list, gainers included Aluminium Ltd., Canadian Pacific, Distillers - Seagrams and International Nickel. Granby Mining dropped ¼.

American Exchange prices were irregular on turnover of 870,000 shares. Scurry - Rainbow Oil, Preston East Dome and Shawinigan improved among Canadians. Canadian Marconi lost ¼.

TORONTO (CP) — Industrials made a small rally but still took the stock market down at the close of light trading Tuesday.

Western oils dropped throughout the day and bore no resemblance to their gain after the natural gas export decision was announced. Final volume was 1,482,000 against the 2,133,000 shares traded Monday.

British-American Oil led the industrial losers with a drop of ⅞ at 32⅜, with Alberta Gas off ¾ at 24. On the plus side, Canadian Wallpaper A and B gained three points at 36 and 40, and Ford of Canada was up two points at 149.

Mines were lower but Steep Rock bucked the trend and gained ⅛ at 10¼. Senior uraniums also were lower. Western oils reversed Monday's early success, with Calgary and Edmonton off 1⅛ at 18¼, Bailey Selburn down 35 cents at $7.20 and Home Oil B ½ lower at 10. Royalite slipped 25 cents at $8.95, and Home Oil A and Hudson's Bay both were down ⅛ at 11 and 13⅜.

Pacific Petroleum registered the only gain, up ⅛ at 11⅞.

Index changes: Industrials off .38 at 496.27; golds off .10 at 89.24; base metals up .50 at 158.63 western oils off 2.20 at 99.36.

MONTREAL (CP)—The Montreal and Canadian stock exchanges ended a dull session Tuesday with four of six averages up amid light turnover.

Index changes: Banks up 0.12 at 54.34, utilities off 0.2 at 138.2, industrials up 0.4 at 286.6, combined up 0.2 at 237.1, papers off 0.4 at 425.6 and golds up 1.07 at 76.88.

Pipelines cut some earlier losses. Interprovincial closed at 58⅛ up ⅛, after being down ½, Trans-Canada eased ½ at 23½ after going to 23 and Trans Mountain dipped ⅛ at 9¾.

BA Oil dropped 1 at 32½, Imperial fell ½ at 33⅛ and Canadian Oil gained ⅛ at 23.

Calgary and Edmonton toppled 1¾ at 18½ in western oils and United Oils fell 10 cents at $1.65.

Dominion Bridge was up ½ at 19½ in constructions.

Hudson Bay increased ½ at 45¼ in base metals and International Nickel improved ¾ at 100½.

Power Corp. was up ⅝ at 48 in utilities and Union Gas down ¾ at 13¼.

Industrial volume was 90,900 shares, mines and oils 190,700 shares.

Alberta Aims To Control Oil Sands Exploitation

By THE CANADIAN PRESS

Measures to control private exploitation of Alberta's potentially-rich Athabasca oil sands were introduced in the Alberta legislature Monday.

A bill introduced by Premier Manning would require a company to obtain permission from the Alberta oil and gas conservation board to recover oil from the sands.

The board would control production of oil from the sands in relation to the market in Alberta. Great Canadian Oil Sands of New York has proposed using hot water to extract the oil. An underground nuclear explosion has also been suggested by experts.

Six of the country's 10 legislatures are in session.

BLAME MINISTER

Discussion in the Ontario house of an inquiry into the recent five-death tunnel accident in Toronto led to a demand for the resignation of Labor Minister Daley.

CCF Leader Donald C. MacDonald said the labor minister must bear responsibility for his department's failure to enforce safety regulations in the tunnel, where the five Italian immigrant laborers were trapped.

Attorney-General Roberts announced a three-part investigation into whether charges should be laid as a result of the accident, into allegations that immigrant workers are exploited, and into safety regulations.

In Saskatchewan the legislature's law amendments committee heard testimonies in a study of the CCF government's proposals to outlaw trading stamps. Government and opposition members accused each other of a biased reception of witnesses.

The committee heard the only brief in support of trading stamps—among 16 so far received—from the Saskatchewan Retail Merchants' Association. The Pharmaceutical Association and the Motor Dealers' Association expressed misgivings at the sweeping proposals in the bill, aimed at other promotional gimmicks as well as trading stamps.

In Prince Edward Island, provincial Treasurer McQuaid introduced a bill to fix the province's sales tax rate at four per cent. Exemptions cover mostly items affecting farming and fishing.
