Hattie Vents Rage on Belize

MIMAMI, Fla. (AP) —Radio reports said Belize, capital of British Honduras, was lashed Tuesday by a hurricane which sent the Caribbean Sea rampaging into the central American city.

The British consul at Miami said an unsigned radio message, relayed to him via Yucatan, related these results of hurricane Hattie's blow at Belize:

The ocean put nine to 10 feet of water into the town.

Only two casualties were immediately reported.

Food, clothing, medicine and building materials were required at once.

British Consul Frank Smitherman said the message reported that the Orange Walk and Corazel districts were undamaged by Hattie. There was no word from Stan Creek.

Belize, home of about 30,000 persons, is almost at sea level. *Hattie roared inland at 7:30 a.m.*

B.C. Legislature Opens Jan. 25

VICTORIA (CP) — Premier Bennett announced Tuesday the next session of the British Columbia legislature will open Jan. 25, 1962.

He said at a press conference he expects a "very quiet" session, which would convene about six months after a special session at which the government took over the B.C. Electric Company.

"I can't anticipate any particular legislation," he said, "but all legislation and all sessions are important."

He assured reporters that Hugh Shantz, member for Silmikameen, would continue to hold his job as speaker of the legislature, despite his recent criticism of the government for the manner in which it took over BCE.

"He will carry on," said Mr. Bennett. "That shows that our movement is different from others. We practice what we preach."

The premier said he will leave today to visit the government's new trade and industry promotion office in San Francisco and from there he and Mrs. Bennett will go on a short holiday.

Bigger Blast Coming?

OTTAWA (CP) — Explosion of two more nuclear devices Tuesday by Russia in the Arctic may mean that another and bigger super blast is yet to come, government sources said Tuesday night.

The explosions, confirmed by the Atomic Energy Commission in Washington, followed Monday's test which apparently went awry in that its power was greater than the Russian scientists had planned.

External Affairs Minister Green said after Monday's explosion he would not be surprised if there were further tests, and even a greater one. He made no direct comment Tuesday night on the two small tests conducted by Russia Tuesday.

Kennedy Sure Santa Safe

MARINE CITY, Mich. (CP)—When eight-year-old Miihelle Rochon heard the Russians were testing nuclear devices near the North Pole, she started to worry about Santa Claus' safety.

Michelle wrote to President Kennedy about her concern.

"Dear Michelle,

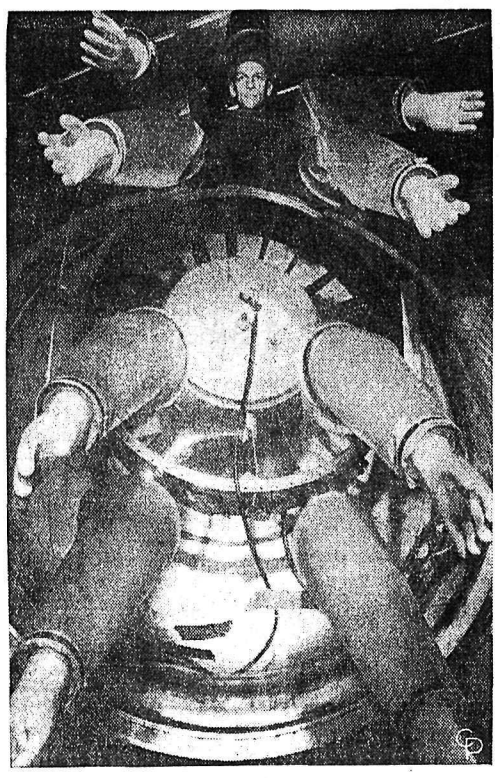
"I was glad to get your letter about trying to stop the Russians from bombing the North Pole and risking the life of Santa Claus.

"I share your concern about the atmospheric testing by the Soviet Union, not only for the North Pole but for countries throughout the world; not only for Santa Claus but for people throughout the world.

"However, you must not worry about Santa Claus. I talked to him yesterday and he is fine. He will be making his rounds this Christmas.

"Sincerely,

John F. Kennedy."



THIS MAN'S ARMY—George W. Herren, on the job at Tinker Air Force Base near Oklahoma City, Okla., is not an airman, he's just plain army. A welder, he uses those arms for precision work on titanium airplane parts sealed in gas.

Fallout Expected Over Canada Friday

Dangers Exaggerated Says U.S. Health Officer

By HAROLD MORRISON

WASHINGTON (CP) — The cloud of radioactive debris from Russia's 50-megaton nuclear bomb blast Monday is expected to drift over the Canadian west coast Friday but a United States health officer suggested there is no cause for alarm.

"The danger from this initial fallout seems to have been exaggerated," said John Villforth, director of radiation surveillance in the U.S. Public Health Service.

"We've been watching for signs of fallout from the Soviet 25-megaton explosion a week ago and we've seen virtually no signs of it anywhere in the United States," Villforth said in an interview.

The U.S. Weather Bureau had plotted the 25-megaton radioactive cloud as having moved eastward over the northern United States and the Canadian border area. Weather bureau officials said they were puzzled by the lack of new fallout on the ground. This compared with the relatively sharp and sudden increase in radioactive "readings" that followed earlier Soviet tests particularly those in the Sept. 18-22 period.

MAY FALL IN SPRING

American scientists had theorized that most of the radioactive debris including large amounts of strontium 90 had been sucked up into the stratosphere to be dumped on the northern half of the globe next spring.

"The strontium 90 can stay up in the stratosphere for years," said Villforth. "If it is there, some if it is bound to come down in the spring. But much of it can remain up there from five to 10 years."

Strontium 90, which can cause bone cancer, retains its full radioactive force for about 27 years.

The weather bureau said the cloud of radioactive debris spawned by Monday's 50-megaton bomb may skip the United States, except for Alaska, on its first trip around the northern hemisphere—if the wind patterns don't change.

The cloud was reported moving at about 50 miles an hour southeastward over central Siberia.

Press for Rogers Pass Completion

PENTICTON (CP) — The British Columbia Social Credit government Tuesday was urged to extend its budget for completion of the Rogers Pass link of the Trans-Canada Highway before the opinion of the Seattle World Fair in April 1962.

Al Garceau of Mission, near Vancouver, the B.C. representative for Century 21, made the plea to the Auto Courts and Resorts Association convention here.

Garceau said other interested groups in B.C. should petition the government for completion of the work.

The Rogers Pass route is a southern way through the western Rockies, which, when completed will eliminate the ciruitous Big Bend route, often impassable in winter.

UBC To Observe Disarmament Week

VANCOUVER (CP) — A disarmament week, highlighted by a march from the University of British Columbia to the cenetaph Nov. 11, has been called by the Nuclear Disarmament Club of UBC.

Officials of the small club composed of faculty members and students hope that 200 or 300 students will participate in the demonstration against nuclear weapons and the stationing of them on Canadian soil.

DOLLAR LOWER

NEW YORK (CP)—Canadian dollar 11-64 lower at 96 11-16 in terms of U.S. funds. Week ago changed at $2.81 31-64.

BENNETT WOULD SELL POWER TO NATIONAL GRID

VICTORIA (CP) — Premier Bennett Tuesday re-stated his offer to sell Columbia power to a national grid system for 3 mills per kilowatt hour.

"They will have the first opportunity to buy it," he said at a press conference.

The Premier said there was no conflict between the federal and provincial governments over financing of the $458,000,000 scheme. He told reporters they should read federal cabinet ministers' speeches more carefully.

"Justice Minister Fulton has said he doesn't want us to sell that power to the United States," said Mr. Bennett. "We are taking his warning very seriously because if an emergency arose we couldn't get it back."

GOES HOME TO DIE

DALLAS (AP)—Cancer-doomed Speaker Sam Rayburn of the House of Representatives left hospital Tuesday to end his days at his home town. A statement from the family said Rayburn, 79, was being taken to Bonham to be with "those friends and given me a love and loyalty unsurpassed in any annals."

All in the Family

TORONTO (CP)—Mrs. John Muttart, wife of the man shot to death by a berserk bank bandit Monday, returned from the funeral home Monday night to find a limousine and a chauffeur outside the house.

A man was waiting inside the house.

"At first I thought he was from city hall," she said. Her husband had worked for the city.

"Then he asked me to take a cheque. It was for $300. The name on it was M. Muttart. I asked him if he was a relative and he said 'with a name like that, I guess we all are.'

"The man told me he was here for a week and if I needed anything to let him know. I guess I'll use the cheque to pay part of the funeral expenses. John didn't leave much besides insurance."

The benefactor was later identified as M. D. Muttart, president of Muttart Enterprises Ontario Limited and several other firms. He is a resident of Edmonton.

He was in Toronto on business when he heard about John Muttart's death.

"I've got a strong thing about families sticking together and helping each other out so I decided to drop by and see Mrs. Muttart.

"There are only about 60 Muttart families in the whole world so we're all related one way or another. I just hope I did enough for the woman. I felt I had to do something."

John Muttart will be buried Thursday afternoon.

Japanese Greatly Aroused Says PM

By JAMES NELSON

OTTAWA (CP)—Prime Minister Diefenbaker, returning from a "just wonderful — fabulous" trip to Japan, said Tuesday night the West faces a grave problem in building up its defences to meet Russia's new nuclear strength.

Questioned by reporters at the airport on his arrival by RCAF Comet jet airliner, Mr. Diefenbaker light-heartedly dismissed speculation of an early cabinet shuffle and said he had given no serious thought to setting a date for the opening of a new session of Parliament.

On Russia's nuclear testing, he endorsed External Affairs Miniter Green' statements, and said that during his five-day state visit he found the Japanese greatly aroused.

"A tremendous antagonism has been built up against the U.S.S.R. by the flagrant abuse of testing, and the Japanese attitude is very similar to that expressed by us," Mr. Diefenbaker said.

Asked about Prime Minister Macmillan's statement that Britain might have to resume its nuclear testing, Mr. Diefenbaker said he had not read any official dispatches.

But, he added, one of the grave problems that arises out of Russia's testing is that "their unilateral act" in breaking the moratorium has put Russia "in a more invulnerable position," and the security of other nations has thereby been "greatly decreased."

Civil Servants To Take Training

VICTORIA (CP) — Premier Bennett announced Tuesday personnel will be realeased from the civil service to attend special training courses on national survival.

Their regular salaries will be paid by the government and they will receive allowances supplementary to survival plan pay and allowances.

Civil servants in Abbotsford, Alberni, Chilliwack, Courtenay, Nanaimo, Nelson, New Westminster, North Vancouver, Penticton, Prince George, Prince Rupert, Revlestoke, Salmon Arm, Trail, Vancouver, Vernon and Victoria may take the courses.

"I urge industrial management to encourage personnel, where possible, to volunteer for this training with the militia units of their areas," Mr. Bennett said at a press conference.

"The government is giving this plan 100 per cent support and I call on industry and private citizens to do the same."

The courses, which begin Nov. 6, continue through May.

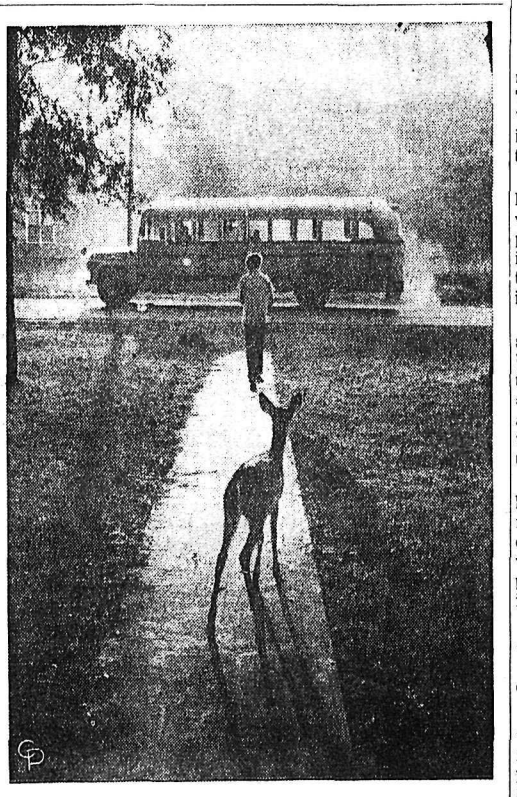
Heathman Escapes Gallows if No Crown Appeal

VANCOUVER (CP) — The B.C. Appeal Court Tuesday quashed the conviction of Charles Heathman, sentenced to hang Nov. 28 for the murder of a Vernon newsboy, Donald Oliver.

He was convicted, won an appeal and was given a new trial at which he was convicted a second time.

Defence counsel Bill Craig's latest appeal was on grounds that the conviction was based on circumstantial evidence.

Heathman is now serving an 18-month sentence on a breaking and entering charge. He will be freed on completion of that sentence if the Crown does not appeal the latest Appeal Court decision.



MARY HAD HER LITTLE LAMB and Brad Curry, 11, has his little fawn, but he can't take it to school so every morning the fawn sees him to the school bus from his front steps near Galesburg, Mich. Then the fawn goes roaming in the woods, to return at night. The Currys found it in the yard when it was few days old, and it has stayed for five months.

BETTER, THANKS—Sir Winston Churchill, 87, much better after a bout with a cold, arrives at his London home after a trip from his country estate at Chartwell.

Wenner-Gren Deadline Today

VICTORIA (CP) — Premier Bennett said Tuesday that he couldn't say anything about the future planes of the Pcific Northern Railway.

Wednesday is the deadline for the Wenner-Gren backed company to let the contracts for the clearing of the first 100 miles of right-of-way north from Summit Lake.

Transport Minister Earle C. Westwood also declined comment.

The premier, at his press conference, said that he never anticipated situations and could not say at the present time what the company planned.

The railway, which was to have been the key to the development of a 40,000 square mile industrial empire in the northern interior, was to have run from north of Prince George to the Yukon border.

The deadline was set by the government earlier this year after the plans for the railroad stalled.

A start was once made on clearing the southern terminal site but work quickly stopped.

ANTI-CANCER VACCINE SEEN BY SPECIALIST

SEATTLE (AP) — A Denver research specialist said here Tuesday the time is approaching "when it will be possible to immunize people against specific types of cancer."

Dr. Russell T. Jordan of the National Jewish Hospital said a vaccine has been developed that proves 30 to 40 per cent effective in protecting against cancer of the lymph glands when injected in mice.

He said similar tests will be started immediately on humans, but warned it would take years to evaluate. The vaccine apparently stimulates formation of antibodies in the mice, which then prevent the formation of tumors in the lymph glands.

Dr. Jordan said that each of hundreds of types of cancer will need a specific vaccine. He said development of just one of such vaccines is an "immense stepping stone" toward understanding how cancer works.

Vancouver Short On Chest Drive

VANCOUVER (CP) — Vancouver's Community Chest drive officially ended Tuesday — five per cent or $125,000 short of its $2,775,000 objective.

Chest manager Rod Hungerford said $2,650,000 was collected and blamed failure to reach the objective on a slackening off in the dying stages of the campaign after a very encouraging start.

Presidium Cut From 14 Members to 11

By ROBERT ELPHICK

MOSCOW (Reuters)—Frol Kozlov's apparent position as No. 1 man in Soviet Communist party apparatus behind Premier Khrushchev got a boost Tuesday in elections during the windup session of the party's 22nd congress.

Kozlov's name was placed directly after Khrushchev's in official lists of the new secretariat, administrative brains of the party which was enlarged to nine from five members. Other member names followed Kozlov's in alphabetical order.

The presidium, leadership group of the party's central committee, was trimmed to 11 from 14 members. Four members were dropped, one was added, three candidate - members lost their places to newcomers and two retained their positions.

Khrushchev was formally re-elected to membership in the presidium and first secretary of the central committee.

Th congress wound up with a plea of pro-Peking Albanian leaders to reject their "mistaken views" and return to the Soviet Communist fold. It also denounced the "criminal" activities of anti - party leaders Vyacheslav Molotov, Georgi Malenkov and Laar Kaganovich.

Their expulsion is now only a matter of time.

TABBED 'RISING STAR'

Among newcomers on the presidium, 50-year-old agricultural scientist Gennadi Voronov was tabbed the "rising star." His election reflected Khrushchev's concern with food production.

Mrs. Ekaterina Furtseva, only woman member of the presidium, was dropped from the body along with Averky Aristov, 57, Nikolai Ignatov, 60, and Nuritdin Mukhitdinov, 44, who was also dropped from the secretariat.

Mrs. Furtseva now is expected to concentrate on her job as culture minister.

Otto Kussinen, 80, and Mikhail Suslov became the only persons beside Khrushchev to be members of the presidium and secretariat when Mukhitdinov, whose rise in Soviet hierarchy had been meteoric, was dropped from both bodies.

Khrushchev brought in young men to the secretariat, foremost among them Leningrad party leader Ivan Spiridonov, who lent support during the congress to the resolve to remove Stalin's body from beside Lenin in the mausoleum in Red Square here.

Other secretariat newcomers are Petr Demichev, Moscow party leader; Leonid Ilyichev, Soviet "agitation - propaganda" chief; theoretician Boris Peonomarev, and secret police chief Alexander Shelepin.

TELLS OF BIG BOMB

Khrushchev wound up the congress by telling delegates that Monday's big nuclear bomb explosion in the Soviet Arctic exceeded 50 - megaton force because Russian scientists "miscalculated."

"I don't think we should punish our scientists," Khrushchev said.

The remarks on the bomb were reported by Communist sources. Western journalists were barred from the session and official Soviet news organs did not immediately report them.

World News Briefly

LONDON (CP) — The Queen opened Parliament Tuesday in a glittering ceremony clouded somewhat by talk of Russia's superbomb and the projected strengthening of Britain's military forces.

UNITED NATIONS (CP) — A move to expel South Africa from the United Nations ran into a counter - attack Tuesday night. Britain said expulsion is a weapon that would lead to the breakup of the world body.

UNITED NATIONS (CP)—Britain said Tuesday the Soviet Union is "glorying" in its power as shown by high-megaton H-bomb tests which could only be ended permanently by a treaty providing for international inspection and control.

WINNIPEG (CP) — National Liberal Leader Lester Pearson said Tuesday that new proposals for a moratorium on nuclear weapons testing may be forthcoming from Soviet Premier Khrushchev at the conclusion of Russia's bomb tests.

VICTORIA (CP) — Princess Alexandra of Kent visited the legislative buildings and city hall Tuesday, the first formal engagements of a two-day visit here.

She is staying at Government House before she leaves Wednesday to continue her trip to the Orient.

PETERBOROUGH, Ont. (CP) —Canadian General Electric Co. Ltd. announced that it has received an order to supply a steam turbine generator for the plant of MacMillan, Bloedel and Powell River Ltd. at Port Alberni, B.C.

Value of the generator is given as "close to $850,000" and the announcement says it is "the largest power package of its kind ever produced for the Canadian pulp and paper industry."

62 Per Cent Have Over $4000 Incomes Here, Survey Shows

NEW YORK — According to a nation-wide survey, Nelson has more of its families in the "over $4000" income brackets and a smaller proportion of them in the lower income groups than have most places in Canada.

Locally, the trend has been toward bigger incomes in recent years, with the result that families have been moving up to higher brackets.

How they stood at the beginning of this year is revealed by Sales Management in a copyrighted report that details, for Canada and the United States, what portion of its population falls within each of the income categories.

The report gives a clearer meaning to the term "average income" as applied to a particular community. It shows whether the average represents earnings that are well distributed or whether it represents a few families with high incomes compensating for a large number with meager earnings.

In Nelson the balance is good and the average relatively high. Some 62.0 per cent of the local households now have cash incomes, after taxes, of $4000 or more.

That is a better situation than prevails in most parts of Canada, where only 53.4 per cent of all households are in the "over $4000" bracket. In British Columbia there are 54.3 per cent.

Is the trend toward higher incomes in Canada purely a product of inflation or has it produced real gains for people? The economic reports show that there has been a substantial improvement in living standards for the average Canadian. He has more discretionary income left, after paying for the necessities, than ever before.

The current survey lists 14.2 per cent of Nelson households in the $7000 to $10,000 bracket. As a unit, they account for 21.0 per cent of all local income.

Those with cash earnings of $2500 to $4000 a year comprise 28.3 per cent of the households. They garner 16.3 per cent of the *local income.*

The 62.0 per cent who are in the groups with earnings above $4000 receive 81.1 per cent of the total income.

GALE HITS PRINCE GEORGE

PRINCE GEORGE (CP) — Winds gusting to 80 miles an hour slammed into this mid-northern B.C. city late Tuesday.

A power pole was toppled in front of the civic centre, delaying traffic.

The storm appeared to be part of a disturbance which earlier in the day disrupted communication between Terrace and Kitimat.

1 p.c. Pay Hike For Teachers Seen for '62

VANCOUVER (CP)—The B.C. School Trustees Association said Tuesday it appeared teachers' salaries would go up about one per cent in the province in 1962.

In a statement released on the deadline for negotiation between teachers and local school boards, the Association said nearly half — or 36 of 82 districts — had reported completion of agreements for the new year.

Of the 36, 14 will continue next year with the same scale while 22 districts reported increases averaging 1.4 per cent.

At this time last year only 12 districts had completed negotiation.

And in This Corner . . .

WINNIPEG (CP)—A group of would-be Scots here is trying to decide whether the bonny swish of the kilt is worth a case of frozen knees, or what have you.

The men are members of the Winnipeg militia group of the Queen's Own Cameron Highlanders. Their problem is that Canadian Army regulations have dictated that they can have either kilts or trousers — but not both.

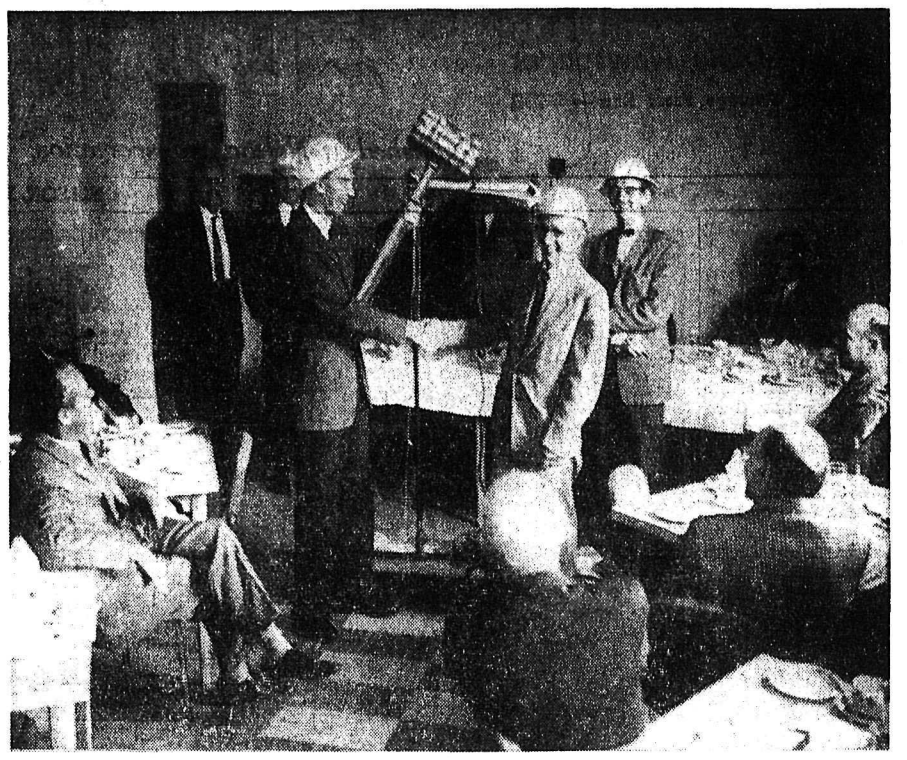
The Camerons like the kilts and that grand old Scottish tradition that Highlanders wear "nought" beneath them. That is, they like the idea in the summer, when the kilt is cool, breezy and comfortable.

But in the rigors of Manitoba winters, when 20-below temperatures and 20-mile-an-hour winds are commonplace — it's a wee bit too cool and breezy.

The Winnipeg unit has sent an impassioned plea to army headquarters at Ottawa, hoping that a loophole can be found in regulations that will permit them to keep the kilts and resort to pants when the frost on their underpinning becomes unbearable.

PLAYSCHOOL opened at the Civic Centre this week with nearly 60 pre-school children four and five years old registered. Here, Linda Gergley, 5, and Raymond Smith, 4, enjoy their first lesson with Mrs. T. H. Agnew. Other instructors are Mrs. Bernard Diplock and Mrs. R. N. Bradshaw.

—Daily News photo by Bob Blackmore.



TRAVELLING GAVEL recently handed to Nelson Rotary Club by Nakusp club was presented to the Cranbrook club yesterday. Hilarious scene is pictured at moment Nelson president Dr. C. M. Robinson made presentation to Cranbrook president William Purves. Huge gavel was dragged in by rope and the Cranbrook president hoisted it to table height by block and tackle. In Nelson party also were Bob Shorthouse, who spoke on his recent United Nations visit, Rev. H. R. Whitmore, Cornelis Van Pelt, G. A. Hoover, C. W. Ramsden, R. B. Allan, W. S. Ramsay, Thomas Whitehead and B. I. Collins of North Bay, Ont., a visitor to Nelson.

FINE PROGRESS

The number of diphtheria cases recorded annually in Canada dropped from 1,281 in 1924 to only seven in 1960.

4:00- 5:30—Minor Boys' Basketball
6:30- 8:00—Junior Badminton
8:00-11:00—Senior Badminton

Gov't Loans Available To Kootenay Farmers

Kootenay farmers are now able to receive assistance in bringing their farms up to what is termed an economic farm unit through loans from the Farm Credit Corporation, a federal government organization.

Tom Rutherford, F.C.C. advisor, told the Nelson Daily News Tuesday that because the farmers in the West Kootenay area have such limited possibilities for extending their lands to make them economically feasible, the government will lend any farmer who proves himself capable of benefitting by assistance a sum of money large enough to start him in a sideline business such as poultry or beef raising, bringing the necessary feed in from outside the area, probably through the Crow's Nest Pass.

The Farm Credit Act, of the new Agricultural and Development Plan, is designed to bring new and enlarged credit facilities to the service of Canadian agriculture. "The object of the new legislation," says Alvin Hamilton, minister of agriculture, "is to assist competent Canadian farmers in the voluntary reorganization of their industry into economic family farm units, each of which will be of sufficient size to produce, under the operation of its owner, the farm income necessary to meet all operating and maintenance costs, provide an adequate livelihood for the owner and his dependents and retire any required credit, with interest, within an appropriate term."

This is Mr. Rutherford's first visit to the Kootenays in his capacity as credit advisor. He was previously 14 years with the Veternas Land Act organization. He is accompanied on his tour of this district by W. Mackie of Creston, representative of the Veteran's Land Act in this area.

The F.C.C. is the successor to the former farm loan board. Modelled on the Veteran's Land Act organization it was set up two years ago. It is designed to offer all farmers assistance previously available to veterans only.

Main object of the F.C.C. is to assist the farmer who is struggling to make a living on what may be a limited acreage with no possibility of expansion because of the topography of the country and without economic means. The F.C.C. has in mind also the farmer who has more land available which he could buy, but for which he has no funds.

The corporation's sole purpose is to make the farms of the country economic family farm units. It strives to help the farmer make the best possible use of every bit of land.

"The small farm has to be mechanized to compete at all, and the farmer has to buy more land to make it profitable enough to be worthwhile," said Mr. Rutherford.

If a farmer can benefit by a sideline business such as poultry or beef, the F.C.C. will lend him enough to start him in business and assist him to bring in feed for the new farm enterprise. The corporation is trying to encourage beef raising.

The loans are available only to those who need them. A farm already considered an economic unit or a farmer who has sufficient funds may not make use of the loans.

Another possibility is the corporation's readiness to make a loan to a farmer's neighbor if the farmer wishes to sell his land and the neighbor is willing to buy.

"If the man has hope of getting an economic unit, we give him the money," says Mr. Rutherford.

In the past six months, the corporation has loaned $47,839,000 with an average loan of $11,450. In B.C. during the same period, $2,243,000 has been loaned, with an average loan of $14,750, the second largest average loan of any province in Canada.

A standard loan may be obtained on the security of farm lands in an amount not exceeding 75 per cent of their appraised value or $20,000, whichever is the lesser, for a single farming enterprise.

A package-deal loan (designed to cover all the long and intermediate term credit needs of capable young farmers starting with limited capital) may be obtained in an amount not to exceed the lesser of $27,500 or 75 per cent of the value of the real estate, basic herd livestock and necessary farm equipment.

Both types of loan bear interest at 5 per cent and repayment may be amortzied over a period of up to 30 years.

Museum Opens Friday

The Kootenay Museum Society's new quarters at the corner of Lake and Hall Streets will be open for public visitation Friday evening and Saturday afternoon.

Members of city council and their families will make a special preview tour of the quarters tonight.

The Society has been establishing itself in its new quarters since June 15 when they were moved out of the city hall to make way for renovation of their old quarters into city council chambers.

Cancer Film To Be Shown

Another cancer education forum "For Women Only" will be held in Nelson Nov. 8.

The popular new film "Time and Two Women" will be repeated, and another important educational film, "Breast Self-Examination," also will be shown.

More than 300 women attended a similar forum in Nelson last fall. Roy Pollard, president of the Nelson unit of the Canadian Cancer Society, urges all women who missed seeing "Time and Two Women," then to attend the repeat showing.

"The film tells how a simple annual test promises to eliminate one important form of women's cancer as a cause of death," says Mr. Pollard. "No woman over 20 should be without this information."

Doctors will once again be in attendance to answer questions submitted anonymously from the audience following showing of the films at the Capitol Theatre.

The forum is being presented as a free community service by the Nelson unit of the Cancer Society, which is an agency of the Community Chest.

Mrs. Berry Retires From Harrop Store

A leader in the Longbeach-Harrop community for years and a familiar figure in her store and post office in Harrop, Mrs. A. F. Berry spent her last day in the tiny store Tuesday.

She is planning to live with her daughter, Mrs. G. Hilliard, in Midway for a while and will then leave to make her home in England.

Mrs. Berry came from the old country 31 years ago. She and her husband were connected with the store from the time they arrived in Harrop. They ran the store and post office for 16 years and Mrs. Berry has carried on alone since her husband died 11 years ago.

The community honored Mrs. Berry recently at a gathering in the community hall at Harrop, when they presented her with a gift. Others extending their appreciation for her many years of service to the community included the Women's Institute and the Women's Auxiliary to the Harrop United Church. Mrs. Berry was one of the instigators of the women's organization in Harrop and Longbeach and has been a mainstay of the auxiliary.

Mrs. Harold Atkinson of Longbeach has taken over the store and post office.

Public To Be Informed On Radioactivity

If radioactivity indicates a threat to health, there would be no hesitation in taking appropriate measures and informing the public.

This advice has been given all Civil Defence coordintors in British Columbia by the provincial coordinator.

The information was issued in response to queries from the public on effects of radioactive fallout from the current U.S.S.R. tests. Monitoring of radioactivity is covered in Canada by the federal department of national *health and welfare, and current* radioactivity does not indicate danger to health, the coordinator said.

All official statements concerning peacetime fallout hazards will be issued by the federal department.

FORMER EAST KOOTENAY MAN PASSES

Roy Max, formerly of Marysville, died in Nelson Tuesday morning, age 66 years.

Born in Poland, he came to Canada in 1912 and to the East Kootenay in 1918 and worked at various centres there.

He came to Nelson in 1950. A bachelor, he has no surviving relatives.

Four Clergymen Participate in Hankin Rites

A capacity filled church of friends from Nelson, North Shore and Trail Tuesday paid their last respects to Henry Warwick Hankin, who died Friday.

Three clergymen assisted in the funeral service at The Church of the Redeemer. Interment followed in the IOOF plot in Nelson Memorial Park.

Officiating clergymen were Rev. W. Edington, Vicar of the Parish of Kokanee; Rev. F. D. Wyatt, St. George's Anglican Church at Rossland and Rural Dean of the West Kootenay and Rev. Canon W. J. Silverwood of the Church of the Redeemer who pronounced the benediction.

Holy Communion was held at St. Andrews-by-the-Lake Tuesday morning.

Also in attendance were officers of Rebekah Lodge, officers and members of Kootenay Lodge No. 16, IOOF of Nelson, and Enterprise Lodge at Trail.

The Rebekahs formed an honor guard at the church service.

Hymns sung were "Holy, Holy, Holy! Lord God Almighty!" and "The Day Thou Gavest, Lord, Is Ended."

Honorary pallbearers were J. Twells, C. P. Jones, F. C. Wilby, E. Johnson, N. Denny, J. Learmonth, G. R. Pickering and G. Ludgate.

Active pallbearers were R. E. Powell, Eric Denny, Joe Mitchell, H. Learmonth, G. Wilby and F. Wilby.

Nelson Student Wins Scholarship

Ronald Ebdon, son of Mr. and Mrs. Walter Ebdon of Nelson, has received a $200 scholarship in his first year of dentistry at the University of Alberta in Edmonton.

Mr. and Mrs. Ebdon have just received word of the award, which is named the Arthur D. Cumming scholarship.

Police Collect Rifles; Sons Protest Report

RCMP said Tuesday they are rounding up .303 rifles from Doukhobors in this area in an attempt to find the gun used in the shooting up of an unmarked police car.

Five weapons have been collected so far from members of both Orthodox and radical Sons of *Freedom sect Doukhobors in* the Castlegar and nearby Pass Creek areas.

Bullets will be fired from the guns, officers said, to compare with empty shells found in a clump of bushes near the scene of the police car ambush on a *highway about six miles east of* here Saturday.

Two bullets fired by the hidden gunman hit the police car in the trunk area and one punctured a tire. The two plainclothesmen riding in the unmarked car were not injured.

Meanwhile, protest of press coverage of the event was expressed by Peter P. Elasoff, secretary of the Sons Fraternity Council.

Description of the area of the shooting in a Canadian Press story as territory of the radical Sons of Freedom sect often blamed in the past for violence was protested.

Mr. Elasoff sent a telegram to Attorney-General Bonner stating "coverage of this kind is totally false and slanders this group. We suggest immediate action by your department. Our information is that this is an orthodox Doukhobor settlement."

Treat Chemistry Sets With Care

Chemistry sets with a sodium ferrocyanide labelled bottle in them are on sale, Selkirk Health Unit director, Dr. A. S. Arneil, said Tuesday.

He said store managers have been approached and will cooperate, he felt. He said, however, a warning to the public was necessary as sets may already *have been purchased.* It is believed the substance could become poisonous under certain circumstances.

Mixed with acid or sometimes water in certain receptacles, it becomes a deadly gas, experts explain.

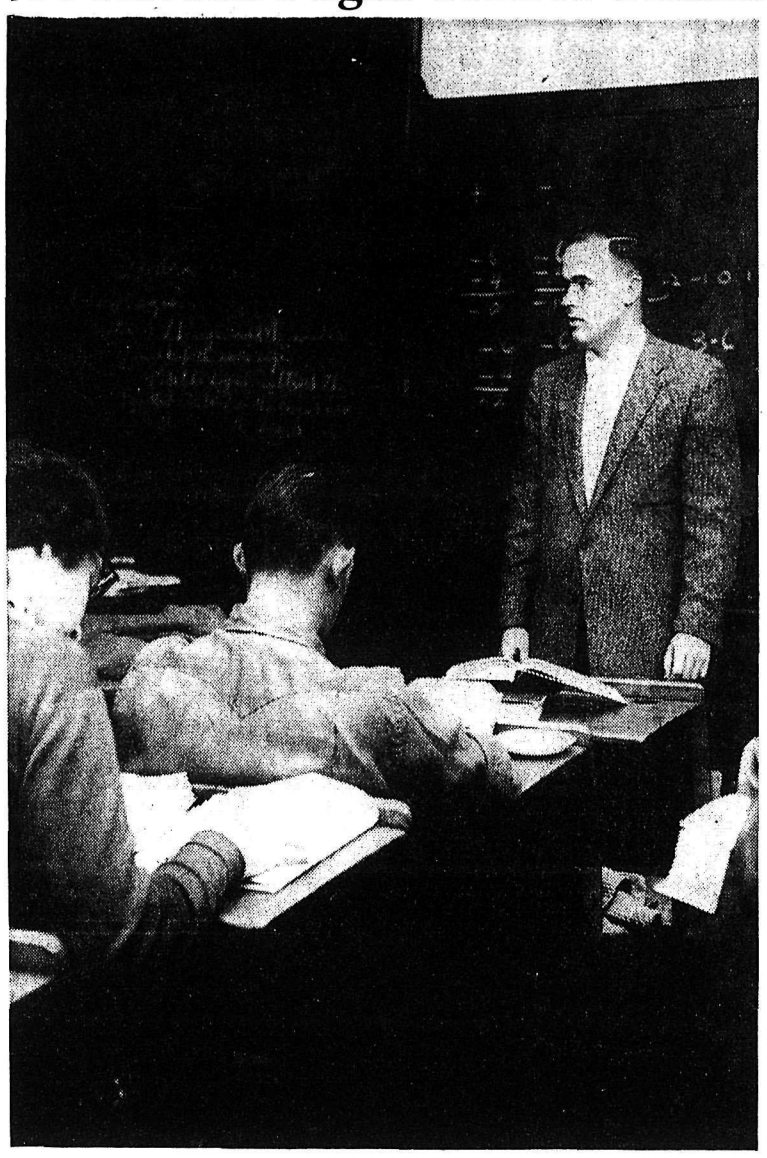
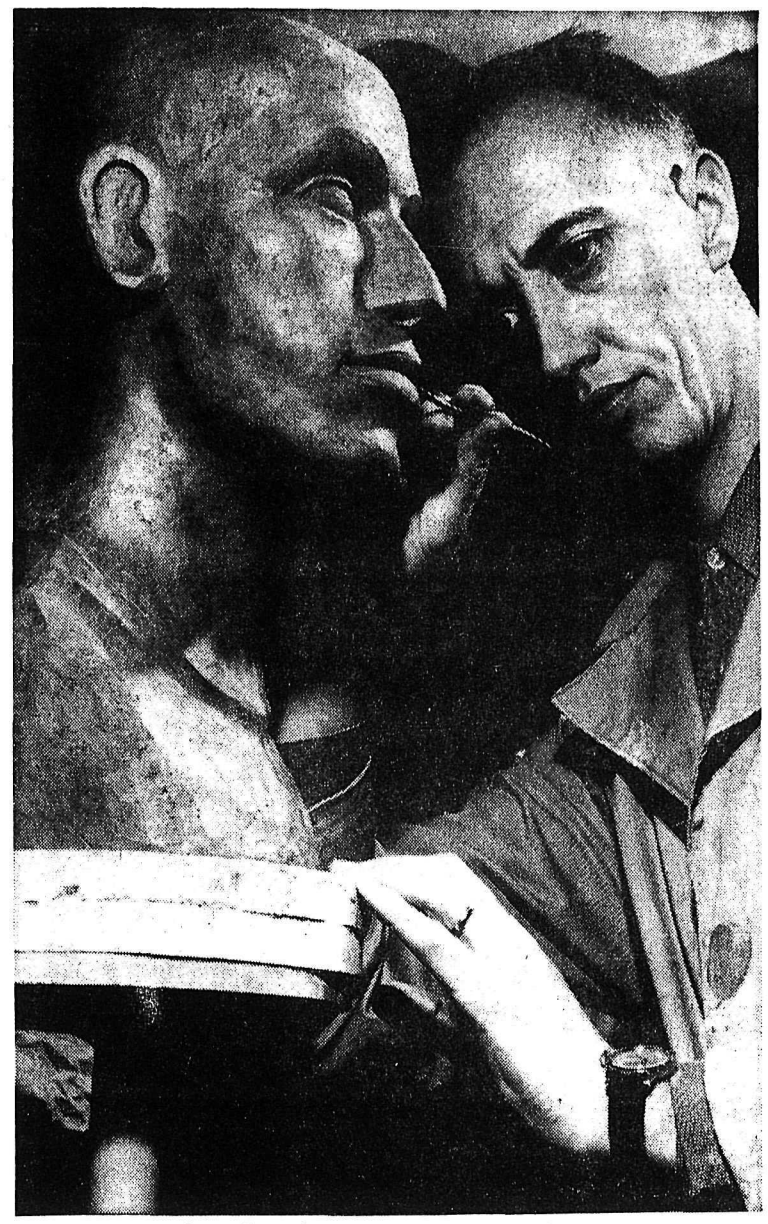
400 Attend Night School Classes



Instructor James Todd addresses mathematics class.



Barry Bacigalupso, sculptor, works on bust.

Mrs. M. Watson does woodcarving with tools from Sweden.

More than 400 adult students have taken advantage of an opportunity given them by the Nelson School District to further their education by means of night school classes.

Nelson and Salmo School facilities and 20 instructors offer the adult students courses from high school mathematics to square dancing each week.

Zeljko Kujundzic has a class of 16 students for Painting and Composition and a long waiting list for the formation of a second.

Sculpture and Ceramics, taught by S. Mignosa, has a full class of 16.

Twenty-two men and women are registered in the typing course under the guidance of Miss Emily Hamson while a starting class of 10 is enrolled in woodcarving taught by J. Martin. Another class of 14 is taught the craft by M. Roberts.

P. Klassen instructs a class of 14, many of whom are business people, in bookkeeping.

J. Abbott tutors a class of 16 in Bridge for Beginners while E. Mansouri coaches 45 in the Women's Keep Fit Class.

A group of 14 men and women whose daily jobs bring them in contact with Russian speaking people are taught Russian For Beginners by B. Kositsin.

Sponsored by the Interior Lumber Manufacturers Association, some 50 students are taking the lumber grading course directed by M. Gelzinis.

A group of 40 is registered in choir singing under A. Fraser while 75 men and women receive instruction in square dancing and round dancing from Mr. and Mrs. J. G. James.

On the interrupted school program grade 10 Mathematics and Science is taught by J. Todd; grade 10 English and Social Studies by G. Tayolr; grade 11 and 12 mathematics by R. Tait; grade 11 and 12 English by R. Green. Mr. Crawford, who is also principal at the Junior High School, said that this year's enrolment tops all other years the night school classes have been held.

In previous years 100 to 150 adult students have registered.

An industrial first aid course will begin in January, sponsored by St. John's Ambulance and the Workmen's Compensation Board.

The interrupted school program has just begun and space is still available in the class for more students. It is the first class of its kind to be held in British Columbia and is a special venture by the school board under an advisory committee composed of C. Cuthbert, superintendent of schools; R. Palmer, board member; J. Lee, principal of L. V. Rogers High School; and B. Crawford, superintendent of night school.

Courses offered at the Salmo night school are badminton, sewing and paint for pleasure. About 50 students are registered. N. *McNeil, vice-principal of the high* school is in charge.

Two Women Cross Mountain Ranges on Horseback From Alberta to Howser, B.C.

INVERMERE — An historic and unique accomplishment has been completed with the return to High River, Alta., of two adventurous women who crossed the Rockies from Alberta on horseback, then penetrated the Selkirks and crossed the Earl Grey Pass over to Howser, on Duncan Lake. They encountered snowstorms on their late summer and early fall trip.

The trip was undertaken by Miss Catherine McDowall, well-known to many in the Windermere District for her paintings of valley landscapes, and Miss Mary Kennedy. They were joined for the journey through the Selkirks by Mr. and Mrs. Robert Coates.

On her arrival back at D-Ranch in High River, she said "to have made this trip for me fulfills a long-fostered dream, but instead of satisfying me, it only whets the appetite."

She tells of her adventures:

"The expedition originally started out from the D-Ranch on August 18 and consisted of Mary Kennedy and myself and four horses. We started off by going up the Highwood, crossed over to the Elk, coming down to Fording Pass and then down Aldridge Creek; up the Elk River to Kananaskis Lake, and from there up the Kananaskis River and over the North Kananaskis Pass."

The two women then travelled down LeRoy Creek to the Palliser and down the Palliser to the Kootenay. They crossed the Kootenay on the bridge at Andersons but failed to find the trail up Bear Creek and across to Windermere and therefore finished the trip to Windermere by the Settler's Road and Sinclair Canyon.

JOINED BY FRIENDS

At Windermere, Miss McDowall and Miss Kennedy stayed two days at Akiskinook resort, where they were joined by Mr. and Mrs. Robert Coates. The four, with eight horses, set out for the Jumbo Pass, intending to continue to West Kootenay. However, after looking the country over, they decided that it was not suitable for horses and returned to Toby Creek.

They camped below the Upper Falls on Toby, did some mountain climbing and decided to cross Earl Grey Pass to Hamil Creek. They accomplished this successfully although the country on the descent proved to be also unsuitable for horses. Miss McDowall said the old pack trails have completely disappeared.

She said they were much impressed by the magnificence of the scenery, mountains, glaciers and waterfalls, and by the *abundance of game. The jungle*-like aspect of the valleys posed a problem. They had no difficulty finding the old trail down to Howser, but abandoned the idea of following it when, after five miles, they found the trip would be too long and tedious a task without a power saw to cut away windfalls.

They then cut a new trail out of Howser and back up to Earl Grey Pass. This also proved an arduous task made more difficult because of snow storms which prevented them from seeing where they were or where they were going. The trail was completed in four days, and they returned by it to the pass.

After a day's rest, they went up Toby Creek once more, this time following South Toby, which they described as a lovely valley. From South Toby they crossed to Dutch Creek and again found themselves in a snow storm.

This proved to be a very tough pass.

They followed Dutch Creek down to the Royal Antler Ranch, then on to the hoodoos on the main road and back to Windermere.

INTO OCTOBER

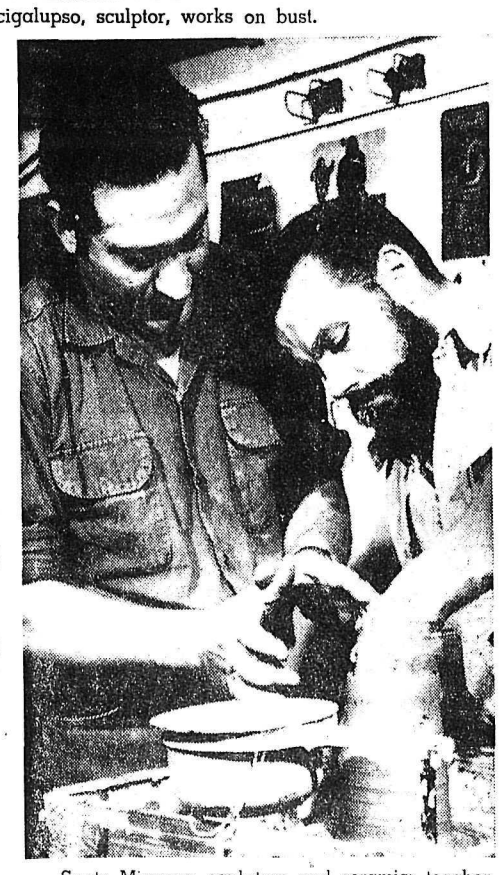
There still remained the trip back across the Rockies and October was past its first week. Mrs. Coates left the party at Windermere to return to her children, and her place was taken by Ann Vale.

This time, the group succeeded in crossing from Windermere to the Kootenay, coming down Bear Creek. They went up the Cross River, thenthe Mitchell and over Assiniboine Pass. Going down Briant Creek, they had considerable trouble pushing their way around the southwest side of Spray Lake to Saints' Creek. They went up Saints' Creek and down Smith to Kananaskis Lake then onto the Kananaskis Road, over the Highwood Pass and *finally back to High River.*

Miss McDowall comments that the weather was not favourable for much of the trip, but was no worse than to be expected so late in the season.

She said feed for the horses was the worst worry on the last laps.

The entire trip took eight weeks, with Miss McDowall and Miss Kennedy being the only two to make the round trip.



Santo Mignosa, sculpture and ceramics teacher, aids Gunter Mende.

Typing student John Parker is helped by Miss Emily Hamson.

Garbage Bylaw Complaints Heard at Natal Council

NATAL—Natal Village Council spent about an hour of its last meeting in dealing with complaints of various kinds regarding the garbage bylaw.

Chairman Orlando Ungaro explained the necessity of a systematic garbage pickup from the standpoint of public health and cleanliness, stating that everyone, including householders and businesses, came under the bylaw. He agreed, however, that unfairness might exist in some cases and these would be given consideration soon.

A census taken locally revealed a population of 910 as compared to the figure of 812 compiled by Dominion government census takers in the summer. In view of the estimated $1400 difference in grants involved, the village will ask for an official recount.

A letter was read from Vans Hulbert, secretary of the Natal-Michel Curling Club, asking for assistance in meeting the club's final payment on the recently installed artificial ice plant, which is due Nov. 30. After scrutinizing the revised budget for the balance of the year, Council decided that some of the expenditures might be cut down and voted to loan $200 to the club.

An offer was received from Len Musil to sell the village close to 10 acres of land, adjoining the cemetery, for $2500. The price would include some improvements. Council regarded the offer as a basis for negotiations and will inform Mr. Musil accordingly.

ESTIMATE BOMB'S SIZE

STOCKHOLM (AP)—Swedish scientists estimated the Soviet superbomb exploded in the Arctic Monday was 15 feet long, nine feet in diameter and possibly *more than 15 metric tons* in weight. They said the bomb probably was fired into the upper atmosphere by a booster rocket similar to those used in Soviet space flights.

Kassian Enters Trail Campaign

TRAIL — William Kassian announced Monday night he would allow his name to stand for candidate as alderman in the forthcoming civic election.

Mr. Kassian made the announcement at the regular meeting of Shaver's Bench Improvement Association, stating he will run as an independent.

He has lived in Trail since 1938 *excepting for four years while in* the service. He is director of Trail District Recreational Project Society, an organization which he has served for many years.

Mr. Kassian also spent many years as president of Trail Property Owner's Association and several years on both the Ross*land and Trail, and West Koo*teany, Social Credit Association.

In 1957 he ran in a byelection but was beaten by 18 votes. Mr. Kassian is married and has four children.

What The Investors Say

When Montreal investment dealer Bruce Kippen announced that his firm had suspended buying of British Columbia provincial bonds, in protest against the province's expropriation methods in the B.C. Electric takeover, his statement received only a peremptory snort from B.C.'s attorney-general, Robert Bonner. "Kippen & Co. is a very small eastern firm which at no time has dealt with the B.C. government in issuing bonds," he said.

Mr. Kippen shouldn't feel slighted by such prompt dismissal of his protest. Mr. Bonner and his boss, Premier W. A. C. Bennett, have cheerfully shrugged off the complaints of much larger firms, both in Canada and abroad, who have expressed outrage over the government's refusal so far to permit arbitration or court review of the takeover terms.

What the premier and his attorney-general cannot shrug off so easily, however, is the drop in market prices of B.C. provincial securities since the takeover. Investors large and small are showing their displeasure by demanding a higher return on any money they put into bonds backed by the province. The bonds formerly sold on a yield basis close to those of Ontario and Quebec. Now they are barely competing with those of the second smallest province, Newfoundland.

Every resident of British Columbia is hurt by the higher interest rates on the province's securities. It means that schools, hospitals, roads, and other projects which bear the provincial guarantee, will cost millions more. It means that if Premier Bennett insists on pushing ahead with his pet Peace River power project, he may well find that interest rates will make it a very expensive undertaking, indeed.

Not too many in the investment community are prepared to take the public stand that Bruce Kippen took. Most contend it doesn't accomplish anything to argue with the politicians publicly. They prefer to restrict their opposition to action in the marketplace, by avoiding B.C. issues or by demanding tougher terms on B.C. loans.

Whether the protests are public or private, the significance is the same. If Mr. Bennett doesn't reverse his field soon, and allow a court test of the fairness of his takeover deal, the consequence for the whole province — and to a lesser extent for the rest of Canada — will be even more costly and lasting.—*Financial Post.*

Canadian Upturn

A favorable trend in the Canadian economy has been noted in the second quarter of 1961. Two reports issued at Ottawa show that increased exports have pared our unfavorable trade balance and that Canadian gross national product has continued the upturn of the first quarter.

It is indeed fortunate that we hear this good economic news at a time to counter the dire straits that are forecast if Canada is pinched by Britain's entry into the European Common Market. However, Canadian industrial ingenuity and governmental efforts, particularly through its wheat sales, have brightened the picture.

Perhaps the most reliable indicator of progress is the advance of the gross national product, the total of goods and services made and offered by Canadians. Extended to the yearly basis the second quarter product was $36,280,000,000, an increase of 1.7 per cent over the first quarter. Major advances were in a 13 per cent rise in corporation profits and 1.5 per cent gain in labor income.

Greatest benefit to our employment situation is the upturn in production, particularly by extension of our export trade. . . . There was a 40 per cent advance in sales to other overseas countries, many of them new markets. Of course the sale of more than 300 million dollars worth of grain to China gave impetus to this trend, but Canadian wheat sales to other nations also are showing improvement.

—*London (Ontario) Free Press.*

In the Stockpile

We knew there were some weird items in the nation's so-called strategic stockpile of materials critically needed for defence. But we hadn't realized, until Delaware's Senator Williams made a point of it recently, that the cache includes considerable quantities of feathers and down.

Mr. Williams considers the feathers-and-down program another instance of government waste, mismanagement and stupidity. He is not least annoyed by the refusal of officials to disclose to him just how much of the light-weight stuff the stockpile contains.

As he puts it, "They seem to think Mr. Khrushchev will win the cold war if I am told how many feathers we have in the stockpile. What are we going to do, have a pillow fight over Berlin?"

It's a good question. We can think of a couple of others. What are feathers doing down in a "strategic" stockpile? To put it another way what are they, horsefeathers? And is the stockpile a stockpile or just another featherbed?

—*Wall Street Journal.*

The Rose or The Name

A rose called something else would smell as sweet, as the poet affirmed, but some federal civil servants in Ottawa seem to think their status would be increased if they were called government employees. They would like to be so designated.

This is very much a status age, when fancy titles are fashioned for old-time but honorable occupations. Just as though the rose counted less than its name. Whether a civil servant would rise in public estimation by being known as a government employee instead of by his traditional title is very much a moot point.

Time was certainly, and one had not deemed the time past, when to be a civil servant was considered a rather enviable position. It connoted a class of individuals entrusted with the administration of a country's business. It stood for certain qualities of education, knowledge, and integrity. It had a cachet.

The top-level civil servant in most countries, for instance, was regarded as a figure of importance. This attitude permeated downwards, and a civil servant of almost any level was recognized as belonging to a special national group.

One wonders therefore at the desire for a change. It was said by one Ottawa civil servant that this term takes away from the good job most civil servants do. This is an argument hard to follow, for the term government employee is so all-embracing it may include all kinds of employees, some far removed from the usual concept of civil servant.

The latter is one rose that surely doesn't need its name changed.

—*Victoria Colonist.*

Diefenbaker's Visit To Japan Smashing Success

TOKYO (CP)—Prime Minister Diefenbaker left Japan Tuesday with the cheers of thousands of school children ringing in his ears, the key to metropolitan Tokyo in his pocket and other convincing evidence that his five-day state visit here was a smashing success.

The Canadian leader earlier had told a press conference that he was shocked by Russia's disregard for the thinking of humanity in exploding the superbomb.

This was done despite the overwhelming vote in the United Nations calling on Russia not to go ahead with the test.

"If that will not stop Premier Khrushchev there is little hope that the ordinary processes that motivate man operates in his case," the prime minister said.

Khrushchev's threats had united NATO to a greater degree than ever before. As for Berlin, "the explosion of a 50-megaton bomb will not alter the conviction of NATO that negotiations should continue for an amicable settlement there."

NATO's resolve to guarantee the rights of West Berliners to determine their own political future and to retain the right of Western access to Berlin would not be altered by threats or explosions of bombs, however great.

Diefenbaker reacted sharply to a reporter's suggestion that Canada, by selling large quantities of wheat to Communist China, may be hurting rather than helping the fight against communism.

The prime minister said he was shocked by any suggestion that alleviation of starvation amounts to assistance to communism in any way.

"Mankind has never been coerced or starved into freedom," he said.

As far as trade with China is concerned, Canada has always followed the course that as long as this was not in strategic materials there was no reason why there should not be the fullest possible trade.

On his last day in Japan, Diefenbaker held final talks with Prime Minister Ikeda and visited a school.

Informants said the unscheduled talks with Ikeda covered trade problems and the like. It gave the Japanese an opportunity to speak in relation to Diefenbaker's speech here Saturday in which he outlined Canada's view on trade with Japan. Previously, their talks were almost entirely on the international situation.

During the Canadian leader's stay, officials said, an unusual rapport was developed between Diefenbaker and Ikeda, but it was the younger generation with its spontaneous welcome which appeared to delight the Canadian most.

The highlight of his busy last day in Japan was a rally of 3,500 school children at Setagaya Ward Auditorium arranged by the Canadian Nsei Association of Japan.

The Nisei Association is composed of about 125 persons of

By GRAHAM TROTTER

born in Canada and who have maintained their Canadian citizenship.

Many of the Nisei here were dislodged from their British Columbia homes and occupations by the former Liberal government as a security measure when Japan entered the Second World War against the Allies.

Diefenbaker has repeatedly spoken out against this action. It was one of the motivating factors behind his introduction at the 1960 parliamentary session of the Canadian Bill of Rights, which is intended to guarantee the freedom of individuals from persecution regardless of race, color or creed.

A choral group from the Cherry Tree secondary school sang the song Red River Valley and the prime minister recalled that his great-grandparents had gone to the Red River Valley as pioneers 150 years ago.

Partly through Nisei influence, Setagaya Ward of Tokyo has taken a particular interest in Canada and has established an informal "sister city" relationship with Winnipeg under which there have been exchanges of children's school paintings.

EXCHANGES HELP

Diefenbaker told the children he hopes these exchanges with Japan can be extended across Canada because "nothing is more helpful than for each of us to understand the other."

While Canada and Japan are far apart geographically, he said, "we're together in the best things of life."

Among the students, mostly ranging from eight to 13 years, were young reporters for more than a score of school newspapers. As he left the rally, Diefenbaker and his wife paused to answer their questions and give them autographs.

The prime minister's day started at Tokyo city hall where he received a gold key to the city and a certificate of honorary citizenship.

The key to Tokyo was the first city key Diefenbaker has received outside Canada.

While the prime minister was at city hall, Mrs. Diefenbaker was visiting 2,000 children of the Canadian Girls Mission at Tokyo Elwa school. Among the students was 14-year-old Princess Fumiko Higashikuni, grand - daughter of Emperor Hirohito.

"British Columbia's most pressing need in education right now is to develop, and recognize, first class teaching. It is time to stop talking about it and get down to cases." R. E. Lester, new president of the B.C. School Trustees' Association, states that his association will work in this direction during 1961-62; and in doing so will seek the active cooperation of other major groups in education.

French Plastic Bombs Kill Two Algerians, 16 Others Injured

By ANDREW BOROWIEC

ALGIERS (AP)—French settlers cheered Monday night as their underground army exploded a record number of plastic bombs in Algiers. Two Algerians were killed and 16 others injured.

More than 60 plastic bombs went off, and Europeans greeted each blast with cries of joy from their balconies. It was the biggest number ever set off in the Algerian capital in one evening.

The bombs were planted by the Secret Army Organization of right - wing French settlers which is trying to whip up another uprising against President de Gaulle and his plans to give Algeria independence. No arrests were reported.

A few hours earlier machine-gun bullits apparently fired from a moving car killed Louis Pelissier, a French police commissioner. He was the fourth police officer slain in Algiers in the last six months. It was not known whether Pelissier was the victim of French or Moslem terrorists.

KNIFE ALGERIAN

In Oran, kidnappers—apparently French—seized a 21-year-old Algerian and left him in the woods with serious knife wounds.

A secret army radio broadcast came on the air in Oran Monday night after transmission cables of the French television station were cut by one bomb blast. A message in Arabic over the wave length of the television voice band called on Moslems to stay off the streets Wednesday, on the seventh anniversary of the Algerian rebellion.

The upsurge of terrorism added to the worries of officials already jittery over the possibility of a blood bath on the anniversary.

The rebel National Liberation Front (FLN) has called for the Moslems to demonstrate in an effort to speed up the resumption of peace and independence negotiations between the French and the FLN.

Troop reinforcements were moved into both Constantine an FLN strongpoint, and the Algiers region. A force of 30,000 was to be on hand.

White House Denounces Test as Device To Start Fright, Panic

WASHINGTON (AP) — Russia's huge nuclear burst—which may double the fallout coming from all the current Soviet tests —has been denounced by the White House as a device to incite "fright and panic."

The immediate fallout from the blast is expected to reach North America in three to five days.

The White House statement said the Soviet effort to spread fear will be repelled — "not only by the steadfastness of free men but by the power of the arms which men will use to defend their freedom."

The test, said the White House, does not affect the nuclear balance of power. It said the United States has "ample military power to destroy any nation which would unleash thermonuclear war."

There was no official word on what bearing the explosion may have on the possibility of the United States resuming tests in the atmosphere.

Meanwhile, the shadow of Monday's 50 - megaton explosion — the invisible cloud of radioactive fallout — began its wind - borne sweep around the world.

U.S. weather bureau specialists said wind patterns indicate the immediate fallout was being carried southeastward from its point of detonation in the Soviet arctic.

Robert List, one of the bureau's fallout specialists, said the mass of radioactive ash would likely swing east ultimately and would "reach the North American continent in three to five day, depending on the winds."

The blast was estimated by the U.S. Atomic Energy Commission at 50 megatons. Until Monday, the Russians were estimated to have detonated bombs with a total yield of more than 50 megatons of energy yield — including the big Oct. 23 explosion which U.S. scientists now estimate at 25 megatons. A megaton is equal to 1,000,000 tons of TNT in energy.

Thus, with a single 50-megaton bomb, the Russians almost equalled the explosive force of more than two doen earlier tests. And the blast could have created almost as much lingering fallout as all the previous tests, depending on how "dirty" it was.

Interpreting the News

By DOUG MARSHALL
Canadian Press Staff Writer

Western seers have been working overtime recently on a favorite 20th-century pastime—trying to divine the real meaning of Russian policies.

Winston Churchill once defined the problem as "a riddle wrapped in a mystery inside an enigma." Today this seems more true than ever.

On the one hand Khrushchev appears bent on a policy designed to lose fair - weather friends and alienate uncommitted peoples.

His deliberate quarrel with Albania, the public display of discord in Russian-Chinese relations and Monday's explosion of the 50 - megaton nuclear bomb indicates a self - confident contempt for world opinion.

INTERNAL FIGHT

However, the decision to investigate the purges of the 1930s, the attack on Khrushchev's "anti - party" opponents and the decision to cast Stalin's body from the Red Square tomb suggest an internal conflict in Soviet politics.

British observers think Khrushchev faces two basic problems. At home, he wants to get his 20-year expansion program on the road. Abroad, belated Allied toughness has convinced him the West means business over Berlin.

He realizes that Stalin's authoritarian doctrines, currently being championed by China are out of date, along with the idea that war is inevitable.

To get his economic development plan into high gear he has been forced to decentralize authority in industry and agriculture.

NO SHOWDOWN

At the same time Khrushchev has no desire to force a showdown over Berlin and risk blowing up all that Russia has achieved.

Thus Khrushchev has resurrected the 1930s' purges to show that Stalin's "iron hand" methods were monstrous and silence China's criticisms that the Kremlin is "soft."

The mighty megaton explosion had a dual purpose. It diverts the Communist world's attention from a possible Berlin "defeat" and flourishes the supremacy of Khrushchevism over Stalinism.

The victory has cost Khrushchev something. Rigid Communist control inside Russia has been slackened and a period of readjustment will follow. This, observers think, makes the future a little brighter for the West.

Wealthy Coast Man Held In Arms Charge

VANCOUVER (CP) — A 21-year-old who inherited $100,000 in June was described Monday in police court as an irresponsible smart-alec and "a young man who hasn't grown up."

Wayne Arnold was remanded in custody for a week for sentence on charges of giving unregistered revolvers to others.

Gerald Parent, 26, was sentenced to two years for receiving one of the weapons and Thomas Goodall, 20, was remanded for a week on a similar charge.

Arnold's counsel described his client as an irresponsible smart-alec who had some idea of starting a gun collection.

"A week in jail would do him more good than a lecture. . .," said the magistrate.

Arnold, who pleaded guilty, received the inheritance from his parents who were killed in the London blitz.

ENGINEERS STRIKE

VICTORIA (CP) — Government stationary engineers who have voted to strike to back up wage demands will meet with the civil service commission Employees' Association will pre-engineers employed in hospitals and government buildings.

Intl. Machines Doubles Space

REGINA (CP) — International Business Machines Co. Ltd. announces that it is doubling its office space here.

A new building is expected to be ready for occupancy next spring and a move will be made from the present premises which occupy 3,000 square feet.

The new two-storey building will be owned by A. K. Holdings Ltd., with whom IBM has signed a long lease. IBM will occupy the first storey.

Television is like a miracle to me, but it seems a shame to use it to advertise medicines for stomach ailments, 'specially when I'm havin' company for supper.

HUBERT

"This also empties all the change out of his pockets."

Angry World Protests Russia's Latest Bomb

LONDON (CP)—Waves of angry protest and alarm swept across the non - Communist world Tuesday in the wake of Russia's explosion Monday of the biggest man-made blast of all.

Indian Prime Minister Nehru said the Soviet action was highly regrettable and "no amount of argument that it was done in self-defence could wash off the wrong."

Japanese Prime Minister Hayato Ikeda cabled a strong new protest to Premier Khrushchev.

Prime Minister Diefenbaker of Canada said he was "greatly shocked by the degree with which Mr. Khrushchev has shown such a monstrous disregard for humanity in general."

He warned that if the Soviet nuclear tests are intended to cause divisions in NATO, they have not succeeded.

In Russia there was not a word of the blast. Moscow newspapers carried only one paragraph on nuclear tests and that referred to an American underground explosion in Nevada.

Governments prepared to test milk, green vegetables and other foods for radioactivity. British officials made plans to issue emergency supplies of dried milk for babies should fresh milk become dangerously contaminated.

The British government denounced the latest Soviet test as "wanton disregard for the welfare and safety of the human race."

Demonstrators staged a sit-down outside the Soviet Embassy in London. Twenty - four were arrested.

Similar demonstrators were staged in central Europe and Scandinavia.

Some 5,000 anti - bomb Danes marched to the Soviet Embassy in Copenhagen with a protest letter expressing "deepest contempt" for the Kremlin. But the Soviet ambassador refused to accept the letter because of the harsh references to the Russian government.

FINDS ONE BACKER

In the British press, only the Communist Daily Worker defended the test.

The Daily Mail said the Russians' object was "to frighten the peoples of the earth, especially the 'neutral' nations, and also, perhaps to warn the Chinese what might happen to them if they do not behave themselves."

Rome's independent Il Giornale d'Italia called Khrushchev "a super - Cain who has committed genocide."

Denmark's Belingske Tidende called it the "doomsday blast." The government newspaper Ak- "madness" and said it is vital that the Western powers do not lose their temper in the face of the Soviet test.

In Paris, Figaro said the Kremlin's purpose was "to assure itself of the supremacy of arms through fear, in brief, to obtain what no potentate, what no tyrant, even in the most extravagant delirium ever imagined."

"The bomb tests," said Stockholm's Dagens Nyheter, "have developed into a means of terror in order to scare the many (small nations) to silence while the Soviet Union prepares to expand its positions."

DISREGARDS OPINION

Said Swedish Premier Erlander:

"It is highly deplorable that the Soviet Union pays so little regard to world opinion, an opinion which has been expressed through the United Nations in a way that cannot be misunderstood."

West German Foreign Minister Heinrich Von Brentano called the blast "a conscienceless play with the health of millions of people."

The Dutch government charged the Soviets with "full responsibility" for the poisoning of the atmosphere which results from this useless explosion."

Nationalist Chinese officials said the Soviet aim was to wring concessions on Berlin and other issues from the West and to terrorie the so-called uncommitted nations of Asia and Africa into following a policy of pro-Moscow "neutrality."

Japanese Prime Minister Ikeda, in his protest to Khrushchev, told the Soviet premier he had "aroused the indignation of the Japanese people to an indescribable pitch."

Finnish Cabinet Calls Session To Discuss Russian Arms Pact

HELSINKI (Reuters) — The Finnish cabinet Tuesday headed into an emergency session to discuss a Russian note Monday proposing a Soviet-Finnish defence pact against West ermany and its NATO allies.

Meanwhile, Foreign Minister Ahti Karjalainen was flying home from Honolulu to discuss the note with Soviet officials. Karjalainen and Finnish President Urho Kekkonen were in Hawaii at the end of a United States tour.

The note also was scheduled to be disclosed at cabinet meetings of the Swedish and Danish governments in Stockholm and Copenhagen.

Swedish Premier Tage Erlander said Monday the Soviet note was "so serious" he could not comment on it without first consulting with his cabinet colleagues.

Sweden has a 350-mile border with Finland and is separated from Russia by less than 175 miles of Finnish territory.

The Russian note said leading circles in neutral Sweden underestimated the danger of West German military preparations in northern Europe.

CALLS FOR TALKS

The note, handed to Finland's ambassador in Moscow Monday by Foreign Minister Andrei Gromyko, called for the Finnish-Soviet defence talks under the mutual defence pact between the two countries. A copy also was handed to the Swedish ambassador.

It said the European north and the Baltic "have now been drawn into the orbit of dangerous military preparations of West German militarism and as a result might turn into a potential focus of an armed conflict."

The note pointed to Norway and Denmark, both NATO members, and said they risked "becoming against their will direct accomplices in the realiation of the criminal designs of Bonn's militaristic circles."

The note said West Germany was prepared to use northern Europe and the Baltic as a "springboard for new military gambles" against Finnish and Soviet territory.

Under the terms of the mutual assistance pact, Russia can call for consultations any time it feels it is threatened by a German attack through Finnish territory.

The note suggested the time and place of the consultations could be worked out through diplomatic channels.

BRITISH COLUMBIA — CIVIL DEFENCE

Every home should have a battery radio. Civil Defence advises, so that in case of power breakdowns, radio stations may then advise them of necessary action and precaution.

Mrs. Crozier-Smith Heads Anglican Deanery WA Meet

CASTLEGAR—Mrs. D. Crozier-Smith was unanimously elected chairman at the 17th West Kootenay Deanery WA to the Anglican Church annual meeting held in the parish hall. Mrs. H. Bobroske was elected vice-chairman and Mrs. B. Hope of New Denver offered her services again as secretary-treasurer. Both Mrs. D. Crozier-Smith and Mrs. Bobroske are members of the St. Saviour's WA in Nelson.

The theme for this year's meeting was "the joy of the Lord is your strength" and was attended by 54 delegates from 17 branches of the WA in the West Kootenay.

Holy Communion was celebrated ni St. Alban's Church. Venerable Archdeacon E. H. Patterson was celebrant and Rev. A. Appleton Packard, Order of the Holy Cross Prior from California, preached at the service.

Opening the morning session in the parish hall, Mrs. F. Sindell of Trail, deanery chairman, asked all assembled to observe a minute's silent prayer in memory of both the late Rev. E. Hope and the late Maud Dougan.

Rev. Bruce Pellegrin of Nakusp led the opening prayers. This was followed by an address of welcome by Mrs. J. Toogood, president of St. Alban's WA, which was host for the occasion.

CAMP REPORT

A report on this year's activities at Camp Galilee was given by Rev. P. N. O'Flynn of Trail. Six camps had been held this year for both boys and girls of varying ages. Rev. O'Flynn asked the WA members to do whatever they could to help to publicize the camp more. He pointed out that there were some areas from which alarge number of campers come, but other areas in the West Kootenay did not send any children to camp and he tought that perhaps the delegates should discuss this matter to find the reason behind the position.

The question of taking over an area at Rosebud Lake near Nelway as a campsite was being considered, Rev. O'Flynn said. This site has great possibilities and there is at present room for 100 campers with good recreational facilities.

It is not possible to expand Camp Galilee, he said, and the recreational area there is limited. It would be sad to see Glilee closed, especially with its beautiful surrounding scenery but the vast possibilities offered at Rosebud Lake were well worth serious consideration.

Miss Betty Picton, parish worker of Trail enlightened the delegates present of the work carried out with the JA and GA. Our prime concern, she said, was to help the girls to become intelligent Christian citizens. In concluding, she reminded her audience of the close connection that these groups have with the WA.

Rev. W. Edington, Willow Point opened the afternoon session with prayers. Mrs. G. S. Moore of Trail, diocesan president, hten gave a detailed report on the WA annual held this year in Regina.

Branch reports from all WA were given, these included those from the newly formed groups at Montrose and Rossland. An invitation was extended at this time by Fruitvale WA to hold next year's deanery meeting in their parish.

An informative talk on programming was given by Mrs. Crozier-Smith. Canon G. W. Lang of Nelson then conducted a group discussion on various problems which are of vital interest to WA members.

In memory of the late Rev. Hope it was decided to make donations to both Camp Galilee and the Divinity Student Fund. A donation is also to be sent to the order of the Holy Cross to which Father Packard belongs.

Closing prayers were said by Rev. F. Wyatt of Rossland. Members of the St. Alban's Evening Guild served the luncheon that was convened by the St. Alban's WA. Afternoon tea was served by St. John's WA of Kinnaird.

Seasonal Tones in CWL Tea Motif

At the recent tea and bazaar of the Blessed Sacrament Catholic Women's League in the North Shore United Church Hall, convened by the St. Gerard Circle of the North Shore, the large number of guests admired the complementary floral decor and Hallowe'en murals ornamenting the hall for the occasion.

Chairman of the St. Gerard Circle is Mrs. Peter Klassen and Mrs. S. A. Moisey, president of the Fairview C.W.L., received the tea guests. Floral decor was in charge of Mrs. B. K. Arlidge and Mrs. Roy Pollard and Mrs. B. Schneider looked after arrangements. Mrs. Jack Burns was in charge of the hall arrangement.

A striking new C.W.L. crest of purple and silver made by Mrs. P. D. McInnes was on display with the C.W.L. motto, "For God and Canada."

Mrs. E. M. Gare was cashier.

Presiding at the tea table, which was centered with white and yellow 'mums and orange tapers and covered with a lace cloth, were Mrs. Mary Jordan, Mrs. W. R. Hunter, Mrs. Louis Coletti, and Mrs. A. J. Poty. Individual tea tables were centered with orange 'mums and green and orange candles.

Mrs. A. E. Tremblay was in charge of the serviteurs who were Misses Valerie Rusnack, Anne McKinnon, Karen Granoski, Doreen DeFerro.

St. Anne's Circle convened the sewing table, which was looked after by Miss Rita Campbell, Mrs. B. M. Klein, Mrs. Angelo DeMeo, Mrs. G. A. Yates and Mrs. L. A. Chase.

Sales at the bake table, which was convened by Our Lady of Perpetual Help Circle, were looked after by Mrs. A. L. Gustafson, Mrs. H. S. Wickstrom, Mrs. Cornelis VanPelt and Mrs. J. C. Eckmier.

Christmas cards and plants were sold by Mrs. George Trainor and the cake contest was in charge of Mrs. E. J. Darwin. The cake was donated by Mrs. G. R. Coletti.

Music during the afternoon was supplied by Mrs. McInnes.

The kitchen committee included Mrs. J. B. Horrigan, Mrs. W. E. Rusnack, Mrs. H. Neufeld, Mrs. L. J. Ellis.

DENTAL HELPERS

"Detergent" foods, such as crisp, crunchy celery, carrots and radishes, can do much in cleaning teeth by removing sticky foods.

MR. AND MRS. WALTER APOSTOLIUK of Nelson.—*Photo by Renwick Studio.*

Principals of Apostoliuk-Whitelock Wedding Make Nelson Their Home

A picture in her lovely bridal gown of brocade satin as she stood before the altar of Fairview United Church, Marilyn Anne Whitelock was given in marriage to Mr. Walter Apostoliuk by her father at a pretty late afternoon ceremony.

The bride is the daughter of Mr. and Mrs. Leo N. Whitelock and the bridegroom is the son of Mr. and Mrs. James Apostoliuk, all of Nelson.

Rev. H. R. Whitmore read the double-ring marriage service, before a large attendance of friends and relatives.

The bride's gown, in a damask rose pattern, featured a scoop neckline nad lily point sleeves as style points of the bodice and the gracefully darper, bell-shaped full skirt swept into a chapel train. A delicately-styled tiara of cut crystal beads on her dark hair held a bouffant veil of silk net and she carried a crsecent shape bouquet of red Rapture roses dotted with white stephanotis and tied with long white ribboon streamers.

She was attended by her maid of honor and bridesmaids gowned alike in aurora blue velvet, a charming contrast to the bridal white. Their softly-styled street-length frocks, with scoop neckline and elbow-length sleeves, featured the long torso line, with skirts gathered to the dropped waistline. They wore matching pumps and chic, rose petal hats, trimmed with nylon net and ribbon.

They carried colonial bouquets of blue and white 'mums, with lacy net streamers.

Maid of honor was Miss Dulce Whitelock of Trail, cousin of the bride, and bridesmaids were Miss Renee Leitch of Lethbridge, also a cousin of the bride, and bridesmatron Mrs. W. MacDonald.

Mr. M. Apostoliuk of South Burnaby supported his brother as best man and ushers were Mr. George Bruce and Mr. Stan Martin.

Vocalist Miss Jane Pearson sang "The Wedding Prayer," accompanied by organist Angus Fraser.

Assisting in the receiving line at a reception held in the Lord Nelson dining room, the mother of the bride wore a sheath-style gown of ruby claret with matching accessories, and the mother of the bridegroom chose royal blue for her gown of lace over crepe with matching accessories.

Mrs. J. Milne was in charge of the guest book.

During the evening, a four-tiered wedding cake made by the bride's aunt, Mrs. E. C. Whitelock, was cut by the newlyweds.

Mr. Gordon Wakeham was master of ceremonies at the reception and Mr. E. C. Whitelock, uncle of the bride, proposed a toast to his niece.

The bride presented her bouquet to her aunt, Mrs. K. Fisher, to give to her cousin, who was to have been bridesmaid but was unable to get leave from the hospital where she is in training.

A cablegram was read from the bride's uncle and aunt Mr. and Mrs. Lorry Whitelock, in London, England.

For a wedding trip to Sopkane, Seattle, Vancouver and Victoria, the bride changed into a magenta wool boucle suit with white hat, featuring Maribou trim, and black patent accessories. The newlyweds are making their home in Nelson, where the bride is employed at the Land Registry Office and the bridegroom is on the staff of the Shop Easy Store.

Out of town guests included Mr. and Mrs. J. Titsworth and Mr. and Mrs. S. Mathewson and Monica of Trail; Mrs. W. Kopmehl and Mrs. G. Shalenburger of Spokane; Mr. and Mrs. P. Shankarok and Mr. and Mrs. J. Prcevich, Vic and Cathy, of Creston; Mr. and Mrs. M. Apostoliuk of South Burnaby, Mr. and Mrs. K. Fisher and Mr. and Mrs. K. Leitch and Renee of Lethbridge and Mr. and Mrs. Roy Staples of Riondel.

Lister Notes

LISTER — F/O Clarence Lang of Gimli, Manitoba, is visiting his parents, Mr. and Mrs. A. Lang.

Mrs. R. Domke from Libby, Montana was a recent visitor of Mrs. M. Domke.

Mrs. J. C. Helme and son, Ted, were visiting relatives at Fernie.

Mr. and Mrs. Ken Huscroft and children were business visitors in Spokane.

HONEY VARIES

The color and flavor of honey vary with the kind of flower nector gathered by the bees.

About the Town

PHONE 1844

A surprise baby shower was held at the home of Mrs. W. C. Nowlin of the Granite Road for Mrs. H. Sanders. Co-hostesses were Mrs. R. Welbourne, Mrs. R. Rolick and Mrs. R. Lewis. Bingo was enjoyed by the 20 guests attending.

* * *

Rev. and Mrs. Peter W. Faris, 315 Silica Street, have as their guest, Mrs. Faris' father, B. I. Collins of North Bay, Ont.

* * *

After spending the past six weeks at the coast, Mrs. H. Clements, 717 Mill Street, has returned home. Mrs. Clements visited her granddaughter, Mrs. T. C. Piete and Mr. Piete in Victoria and her eldest daughter, Mrs. M. Ling, also her son, Ted Clements, both of Vancouver.

* * *

After two weeks spent in eastern Canada, Mr. and Mrs. D. M. Disney of the North Shore have returned home. Mr. Disney attended the first national conference of local office managers of the Unemployment Insurance Commission at St. Adele, Quebec.

Mine-Mill Dance Draws Many From District Centres

RIONDEL — The annual Mine-Mill Union cabaret dance was recently held with a record crowd enjoying dance music provided by the "Kootenaires" orchestra of Nelson.

Attending were many from Trail, Nelson, Kimberley, Creston and Balfour, as well as the surrounding district centres of Crawford Bay, Kootenay Bay and Gray Creek.

The door prize was won by Mrs. A. Buie and the spot waltz dance prize went to Mr. and Mrs. J. Bauer.

Riondel Notes

Mr. and Mrs. Ian MacDonald have as their guest Mrs. MacDonald's mother, Mrs. G. Waterstreet, of Salmo.

Mr. and Mrs. J. Lloyd Crowe of Trail spent the weekend with their son-in-law nad daughter, Mr. and Mrs. George Page.

Visiting the Milton Hoopers' were Mr. and Mrs. Jack Monroe, and Dale Owen, Mrs. Hooper's nephew, all of Nelson.

Mr. and Mrs. L. Ennis had as their guests recently Mrs. Ennis' sister and family, Mr. and Mrs. W. Smith of Magrath, Alta.; also her brother and sister-in-law, Mr. and Mrs. R. Thibert and family of Coleman, Alta. The Smiths and Thiberts also visited their brother-in-law and sister, Mr. and Mrs. Robert Hepple.

Mr. and Mrs. Doug Houndle and daughter, Carol, of Trail were weekend guests of Mr. and Mrs. George Cormack.

Eight Girls Enrolled in Guide Company

RIONDEL — The Riondel Girl Guides and Brownies held recent ceremonies at which eight girls were enrolled into Guides, and ten young girls have joined the Brownies.

Girls graduating from Brownies to Guides were Harriet Walters, Patsy Nelson, Dianne Childress, Bonnie Page, Roswitha Fruhling, Frances Gendron, Carol Pompu and Marlene Sarver.

Brownie "Tweenies" are Elaine Pompu, Caprice Collier, Barbara Villeneuve, Barbara Pasiechynk, Theresa Ramage, Maureen Bothamley, Laraine Innes, Joan Wachter, Donna Wallinger and Sandra Bartels.

KRAFT'S PARKAY MARGARINE

British Think Of Driving On The Right

By MILTON MARMOR

LONDON (AP) — The British are thinking about making a big switch—to driving on the right hand side of the road.

Britain is one of tre few countries where motorists still drive on the left.

Transport Minister Ernest Marples is studying what would be involved in a change. If Britain enters the European Common Market and if a tunnel or bridge spans the English Channel, it would be an advantage to have traffic move as it does on the Continent.

The problems involved are many.

Britain's 78,000 buses have exits on the left side. A change would mean passengers would get off or on in the middle of the road.

To replace the buses with left hand drive and doors on the right would cost $1,400,000,000, according to one estimate. The bus bodies could be rebuilt at lesser cost.

Family cars would be similarly affected. Garages estimate the cost of changing the steering, dashboard and foot controls at about $420 a car.

The bottom would fall out of the used car market, as existing cars would become out of date.

Direction signs would have to be moved to the other side of the road. "Keep left" signs would have to read "Keep right."

Re - educating people would be a formidable task.

Road codes would have to be revised and people would have to be taught all over again.

Children now are taught: At the curb, look right, left and right again.

If the changeover takes place they would have to learn: look left, right and left again.

Coast Doctor To Head Ont. Hospital

TORONTO (CP) — Dr. D. M. Whitelaw of Vancouver has been appointed physician-in-chief and head of the department of medicine of Princess Margaret Hospital, M. W. McCutcheon, chairman of the Ontario Cancer Institute, announced Tuesday.

At the same time, the University of Toronto announced Dr. Whitelaw's appointment as associate professor of medicine. He has been senior physician, department of medicine, Vancouver General Hospital and medical director of its out - patient department, professor of medicine at University of British Columbia and medical consultant to the B.C. Cancer Institute and Shaughnessy Veterans Affairs Hospital.

Dyno Mines Announce Copper Find

TORONTO (CP) — Canadian Dyno Mines Ltd. Tuesday announced "the discovery of an important copper-bearing structure" on 55 claims held by Duncan Range Iron Mines, 70 miles east of James Bay and 260 miles north of Mattagami Lake Mines in northwestern Quebec.

The discovery outcrop, the announcement said, was recently sampled by Dr. W. N. Ingham, consulting geologist. It adds:

"The one, 44 feet in width, including 10 feet not assayed and included as nil, returned 8.1-per - cent copper and 1.13 ounces silver. The full width of the one has yet to be determined."

Diamond drilling is expected to start in late November.

The announcement says Dyno will own more than 75 per cent of the issued capital of Duncan Range if all options are exercised. Dyno has also acquired, on its own behalf, a block of 59 claims adjoining the west of the discovery, and 26 claims adjoining the west of the discovery, and 26 claims adjoining the east, giving over-all five-mile control.

Commercial value of an ore deposit depends upon a number of factors including grade of ore, size of deposit, transportation and value of associated metals.

Your Individual Horoscope

Look in the section in which your birthday comes and find what your outlook is, according to the stars,

For Thursday, Nov. 2, 1961

MARCH 21 to APRIL 20 (Aries) —No matter how difficult the day may start out, You personally can change many aspects of it, can run interference for good will and surely interfere with gloom. Big dividends for tact.

APRIL 21 to MAY 21 (Taurus) —Purpose, intent and manner of procedure very important. Keep everything on the up and up, without misgivings. Discuss, confer, but stand firm for right principles, not vacillating.

MAY 22 to JUNE 21 (Gemini) —Small "fixins" needed here and there. You can do better than just good if you try. Don't be a late starter, nor miffed if offerings are not accepted. Keep at it.

JUNE 22 to JULY 23 (Cancer) —If you can get your duties attended to promptly without needless deviation or discussion, you will be well ahead of some competition and equal with the best. So your best!

JULY 24 to AUGUST 23 (Leo) —Strong Sun configuration here augers for personality conquest, agility, and general affability (the latter to be thoughtfully directed.) Receive and give with Leo's true graciousness.

AUGUST 24 to SEPTEMBER 23 (Virgo) — A number of factors apply toward making day successful, so so, or miserable, mostly if you don't co-operate and use your gifts as intended. Presentation, interpretation and tact count.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Little meanies plague the surest of us at times, so go about your affairs in composed manner, with your innate dignity and faith, and quelch rumor.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Perseverance and patience will serve you, as others especially now when tension is so easy. Eliminate anything detrimental to healthy progress and healthy being: gear to big doings.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — How you accomplish rather than what amount is first rank. Also how you understand others, human frailties. A chance to mend an old rift, or start a worthy project be eager at either.

DECEMBER 22 to JANUARY 20 (Capricorn) — Your natural talents fit this sort of day remarkably and if you recognize the difference between the chaff and the wheat, and apply measures beneficial to all, you will bound ahead.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Gaining a foothold on a new level, and establishing fresh honors should be your aim (you have the ready ability). Concentrate, deliberate, keep quality and good humor on top.

FEBRUARY 20 to MARCH 20 (Pisces) — You can glean a lot by quick impressions (but ruling out personal prejudices), inspirational touches, artistry. Neptune favors activities related to chemistry, the sea, unravelling mysteries.

YOU BORN TODAY: Scorpio, ruled by both the eagle and the scorpion. You can soar high above worldliness, intrigue, pettiness, hazards, also can be shrewd, wily, sting an opponent at strategic moments. By developing only your finer side, you will assist others readily, easily, and reach new heights. This Sign is a builder, co-ordinator, industrious worker for good will. Can be powerful disciplinarian, helpful critic (if you keep sarcasm out, you can alter the course of many.) Commercial enterprise offers scope for your wide talents, but for whatever you like you will find a way for success. Don't be downed by pessimists or carelessly carefree people. Don't strain; eat simply as a rule, pray. Birthdate of Jas. K. Polk, 11th U.S. president; Daniel Boone, Amer. scout-frontiersman; Winthrop W. Aldrich, banker, and many statesmen, musicians, authors.

DEATHS

By THE CANADIAN PRESS

Rome—Senator Luigi Einaudi 87, president of Italy from 1948, when the country became a republic, until 1955.

Montreal — Leslie Gordon Barnard, 71, well-known Montreal writer whose novel Jancis won a Quebec government award in 1940.

Vancouver — Frank Willard Townsend, 76, playing coach of the Regina Roughriders football team in 1913-14.

Hamilton — George Herbert Carter, 88, a retired fruit farmer and former captain of the Montreal Britannia football team.

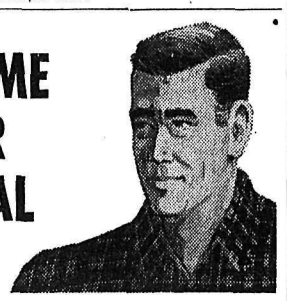
KYLE TO DON UNIFORM AGAIN

SAINT JOHN, N.B. (CP) — Walter (Gus) Kyle, 39, new coach of Saint John Oilers, said Tuesday night he may play hockey this year.

The Oilers plan a 20-game season of exhibition games followed by provincial and Maritime senior playoffs.

The 230-pound former coach of Calgary Stampeders of the Western Hockey League last played in 1956.

TAKE TIME OUT FOR SURVIVAL



Earn as you Serve under the Special Militia Training Programme

The Army wants to train 100,000 men this winter, to enable them to take their place with the Militia on its vital task of organizing our national survival. These citizen soldiers will be trained to the required standard by a special series of courses, each lasting six weeks.

During his course the new Militiaman will be given all-day training for five days a week. He will live at home and receive the same pay as a regular soldier, plus a separate living allowance.

If you're between 18 and 50 and reasonably fit, here's your chance of making a man-size contribution to Canada's defence, the safety of your family and your own future. Dates of courses are: Nov. 6 - Dec. 17, 1961; Jan. 8 - Feb. 18, 1962; Feb. 26 - Apr. 8, 1962; Apr. 16 - May 27, 1962.

For full information and enrolment details, visit your local Armoury, without obligation, at the address below which is most convenient for you.

NELSON ARMOURY

NELSON, B. C.

MAKE SURE THAT CANADA CAN CARRY ON!

Terrible Ted Ponders Eastern Hockey Offer

A United States amateur hockey team has approached Nelson Maple Leaf policeman Terrible Ted Leboda with the possibility of finishing out the season south of the 49th parallel.

Johnstown of the Eastern Hockey League, has made an offer to Leboda for his services on their blueline.

It is the third, and the largest offer yet, that the big rear-guard has received from the team.

Leboda had not indicated Tuesday night if he would accept the offer but is expected to make known his decision in the next 48 hours.

In other Leaf news, club officials are hopeful that Saturday against the Kimberley Dynamiters here, forward Doug Kilburn, formerly of the Penticton Vs, will we in uniform to add scoring punch to the Leaf attack.

Both Kimberley and Nelson, sharing the WIHL cellar, will be seeking their first victories of the season. Nelson has lost three games, Kimberley two.

Kilburn's presence, it is hoped, will add some polish to the Leaf attack. The lack of this factor was evident in both of Nelson's defeats to Trail Smoke Eaters. In both cases Leafs outshot their opposition, and had ample opportunities in front of the cage but failed to capitalize on them.

Provost Gains in NHL Scoring Race

MONTREAL (CP) — Claude Provost, a fleet Montreal Canadiens right winger, picked up five points in three National Hockey League games last week and climbed into sole possession of second place in the league's individual scoring race.

Official NHL statistics released today show Andy Bathgate of New York Rangers still leads the field with 17 points—two more than Provost.

Bathgate had only one goal and one assist in three games last week, giving him five goals and a league-leading 12 assists.

Provost scored twice and helped set up three other goals for a 7-8—15 season slate. He is tied with teammate Ralph Backstrom for the league lead in goals.

Eddie Litzenberger of Detroit Red Wings was held to two assists in three games and fell into a three-way tie for third place with Montreal's Bernie Geoffrion and Johnny Bucyk of Boston Bruins. Each has 14 points.

BOWER BEST IN NETS

Litzenberger now has six goals and eight assists while Geoffrion and Bucyk each have four goals and 10 assist. Geoffrion collected six points last week and Bucyk five.

Johnny Bower of Toronto continues to lead the goaltenders. Bower, nearing his 40th birthday, has a brilliant 1.86 goals-against average for seven games. Jacques Plante of Montreal is second with a 2.62 average for eight games.

Montreal defenceman Lou Fontinato is the most penalized player with 24 minutes while Detroit is the most penalized team. Detroit players have spent 120 minutes in the penalty box in nine games.

The leaders:

Final Period Goals Sink Hawks

Rigney Retains Most Valuable Lineman Award

REGINA (CP)—Tackle Frank Rigney of the Winnipeg Blue Bombers has been awarded the Becket-Demarco Trophy as the most valuable lineman in the Western Football Conference.

It marks the second straight year that the award has gone to the six-foot-three, 235-pound line star. The announcement was made Wednesday by R. H. (Bob) Gillies of Regina, secretary-treasurer of the league.

Coming to the Bombers from the University of Iowa four years ago, Rigney, 25, has been an all-star choice at offensive tackle for the past two years. He led by a wide margin in the balloting. Runner-up was teammate Herb Gray, a veteran in the Bomber line who has been a perennial league all-star at defensive end.

Third place in the voting went to Tony Pajaczkowski, a Canadian guard and defensive end with Calgary Stampeders who was runner-up to Rigney for the laurels a year ago.

Canuck Rally Falls Short In Edmonton

EDMONTON (CP)—Edmonton Flyers scored goals with their first two shots of the game Tuesday night and stopped a third period rally to win a 6-5 Western Hockey League decision over the Vancouver Canucks.

The game, Flyers' sixth victory in a row, was watched by 2575 fans.

Roger DeJordy scored two goals to lead Edmonton while singles went to Len Lunde, Ed Joyal, Warren Hynes, and rookie Larry Jeffrey.

Ray Cyr had two goals for Canucks. Dave Duke, Larry Popein and Phil Maloney had one each.

Edmonton held a 4-0 lead after one period and a 6-1 margin after two.

Lunde caught DeJordy in the clear behind the Vancouver defence as Edmonton opened scoring at eight seconds. Sixteen seconds later Lunde roared in from the right boards to make it 2-0.

Irishman Retains European Ring Championship

LONDON (AP)—Johnny Caldwell of Ireland retained his European version of the world bantamweight boxing championship Tuesday night by outpointing Alphonse Halimi of France in a 15-round bout at Wembley Indoor Stadium.

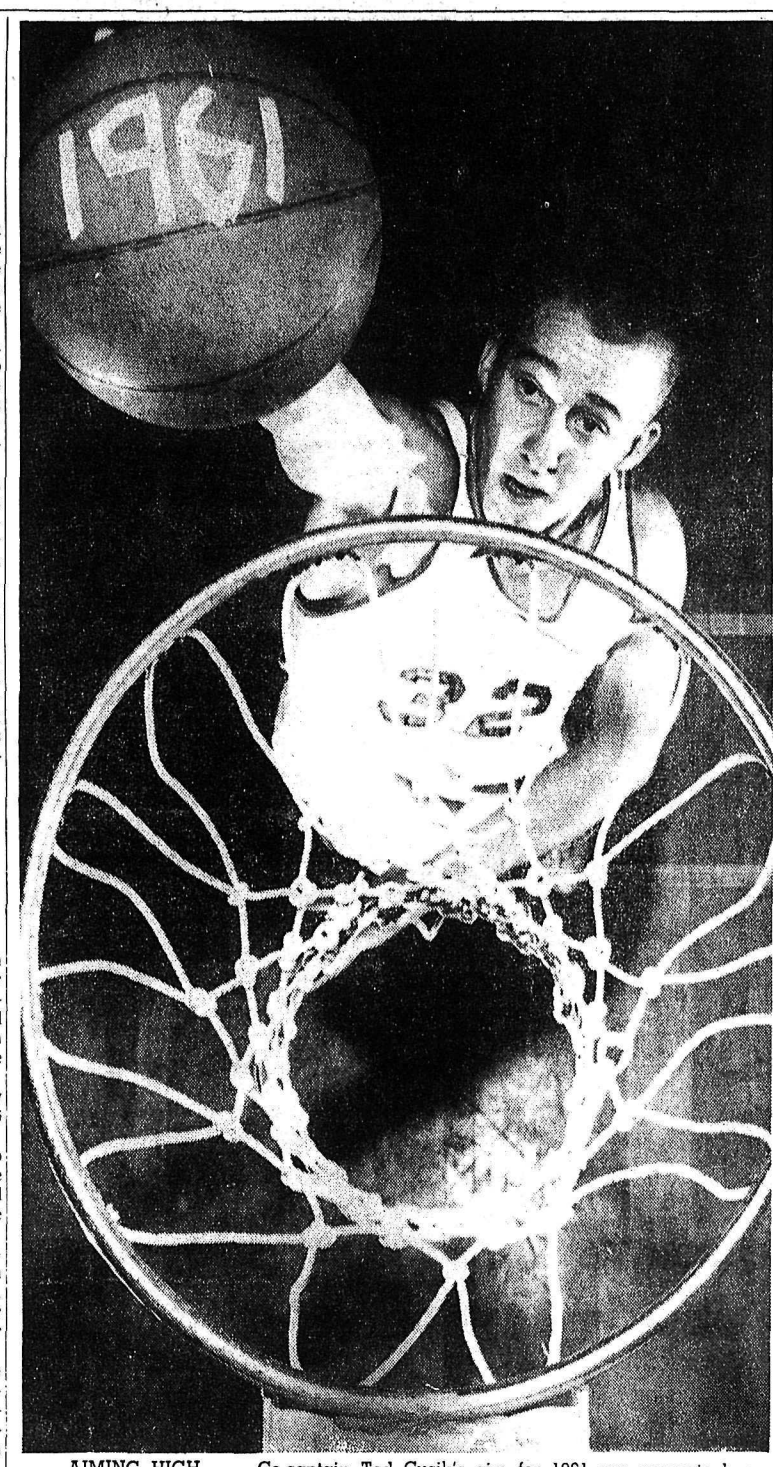
Caldwell weighed 117, Halimi 117½.

The victory is expected to earn Caldwell a shot at Brazilian Eder Jofre, recognized as world champion by the U.S. National Boxing Association.

It was Caldwell's 25th victory in an unbeaten career as a professional. Halimi now has lost five times in 40 fights.

There were no knockdowns in a fight in which both men threw a lot of punches but seemed unable to hurt each other.

In a semi-final bout, Brian Curvis, 145¼, of Wales retained his British and British Empire welter crown by knocking out Mick Leahy, 146, of Ireland, at 2:10 of the eighth round of a scheduled 15-rounder.



AIMING HIGH . . . Co-captain Ted Cusik's aim for 1961 are accurate baskets for the L. V. Rogers High School Bombers in their quest for the West Kootenay High School Basketball League championship. Coach Moe Slater has been drilling his squad of ten eager hoopsters for the last few weeks in preparation for the team's opening game in the near future.

High Flying Blueshirts Notch 4-2 Win

CHICAGO (AP) — Vic Hadfield and player - coach Doug Harvey scored in the final period to give New York Rangers a 4-2 victory over Chicago Black Hawks in a penalty-filled National Hockey League game Tuesday night before 7,644 fans.

The triumph boosted the hustling New Yorkers to within a point of league-leading Montreal Canadiens, who were idle. Chicago with only one win in its first 10 games, remained in a tie for fourth place.

The Rangers, playing without Harry Howell, who was injured, and Dean Prentice, who was at the bedside of his ailing father, scored first at 2:07 of the first period when uy Gendron beat Chicago goalie Glenn Hall from 10 feet out. The Hawks' Reg Fleming was in the penalty box at the time.

EVANS TIES IT

Two men from both teams were in the penalty box a few minutes later when Chicago defenceman Jack Evans threaded his way to the net to beat Gump Worsley with a five-footer.

Chicago moved into a 2-1 lead in the opening minutes of the final period on a power play goal by Ab McDonald while New York's Larry Cahan was in the penalty box.

At 3:23 of the final period Hadfield tipped in a long shot by Junior Langlois to pull the Rangers even. Harvey's goal came a few minutes later, once again with the Hawks shorthanded.

Andy Hebenton topped off the scoring in the final minute.

Blades Yield Lead, Game To Spokane

SPOKANE, Wash. (AP) — Los Angeles Blades gave up a 2-1 second-period lead here Tuesday night as Spokane Comets came up with a 4-2 Western Hockey League victory before 2,257 fans.

The result left Comets three points out of first place in the league's southern division standings. Blades were five points further back.

Del Topoll, Gerry Brisson and Colin Kilburn hit for Comets in the one-sided third. The first two goals wereonly 43 seconds apart. Steve Witiuk had opened for the hometowners early in the first.

Jim Powers fired the first for Los Angeles and Danny Belisle's 30-foot slap shot at 3:35 of the second put the Blades briefly ahead.

Parker's Footwork Opening Door to WFC Scoring Title

By THE CANADIAN PRESS

The odds are heavy as the Western Football Conference season closes this weekend that Jackie Parker, the pay-cheque quarterback of Edmonton Eskimos, will take home his second scoring title in eight years in the league.

The many-talented product of Mississippi State University

JACKIE PARKER
. . . Seeks 2nd crown.

added seven points to his total as the Eskimo downed Calgary Stampeder 20-8 Monday night, giving him 98 with one game left to play.

Parker's total looks unsurmountable for fullback Gerry James of Winnipeg Blue Bombers, who is in second place with 77 points, also with one game remaining. James lost a chance to gain when an infected leg kept him out of Bombers' game against Saskatchewan Roughriders Monday night.

Parker has scored the bulk of his points with 33 converts and 13 field goals, tops in both for the WFC. He also has collected four touchdowns and two singles.

James boasts four touchdowns 25 converts, eight field goals and four singles.

ENDS FAMINE

Edmonton fullback Johnny Bright finally ended a six-game scoring famine Monday night with a touchdown in the Edmonton victory. It was his 11th, and kept him in third place, six points ahead of Saskatchewan's Reg Whitehouse. The Saskatchewan tackle finished his methodical climb Monday, scoring six points against Winnipeg in Riders' 19-13 victory for a total of 60.

Whitehouse put together 20 converts, 12 field goals and four singles for his total. Roughriders have played all their 16 games.

Tied for fifth place are Earl Lunsford of Calgary Stampeders and Nub Beamer of British Columbia Lions, both with 54 points. Each has scored nine touchdowns.

The leaders:

	TD	C	FG	S	Pts
Parker, E	4	33	13	2	98
James, W	4	25	8	4	77
Bright, E	11	0	0	0	66
Whitehouse, S	0	20	12	4	60
Lunsford, C	9	0	0	0	54
Beamer, BC	9	0	0	0	54
Hansen, C	0	21	9	4	52
Fleming, BC	8	0	0	0	48
Lewis, W	8	0	0	0	48
Funston, W	8	0	0	0	48

Soccer Deadlock

VIENNA (AP) — Defending European Cup champion Benfica of Lisbon and Austria of Vienna drew 1-1 Tuesday night before 70,000 fans in a second round match of the 1961 soccer tournament.

SUITS OVER BEAR BITE

BELGRADE (AP)—Muharem Dautovic is suing the Yugoslav government for damages because a bear attacked his wife. His wife, Nura, was badly mauled while herding sheep near the village of Subin, in Bosnia. Muharem contended in court that because of the game preservation laws, the bears have so multiplied that they have become a danger to both man and livestock.

MARKET TRENDS

NEW YORK (AP)—The stock market moved up raggedly in moderate trading.

Republic Aviation, the most active stock, was up 2 at 50⅛ on 36,500 shares. On top of sharply higher earnings, the company proposed a 2- for -1 stock split.

U.S. Steel closed unchanged after erasing a fractional gain. The steels were fairly buoyant early in the day but backed away from their best prices in late trading. After the close U.S. Steel announced lower quarterly earnings compared with a year ago and also the previous quarter.

Selective gains among aircraft-missiles, electrical equipments, tobaccos, and drugs boosted the list.

The Dow Jones industrial average rose 2.83 to 703.92. The Associated Press average of 60 stocks rose .30 to 258.80.

Volume was 3,350,000 shares compared with 3,430,000 Monday.

Issues on the Canadian list generally advanced. Granby Mining added ⅝. Hudson Bay Mining ½ and Aluminium Ltd., Mines ¼ each. McIntyre Porcupine eased ⅛.

Prices advanced narrowly on the American Stock Exchange. There were few changes among Canadian issues. Shawinigan added ⅛ and Jupiter Oils lost the same amount.

TORONTO (CP) — Industrials and speculatives gained heavily in a late-day burst during heavy trading Tuesday.

Canadian Dyno announced that chip samples in a copper-bearing structure 70 miles east of James Bay have shown high copper values. The stock, which took off about three weeks ago, Tuesday turned over 101,616 shares and gained 28 cents to $2.53 to post the largest individual rise among speculatives.

Industrials were led higher by widespread fractional gains among foods, utilities and banks and financial institutions. MacMillan Bloedel sparked papers by reaching a new high of 18½ in heavy trading, but later backed down to finish at 18⅜, ahead ¼.

On index, industrials rose .65 to 596.98, golds .91 to 90.87, base metals .27 to 199.72 and western oils 1.38 to 102.15. Final volume was 3,876,000 shares compared with 3,772,000 Monday.

Western oils leaped to the forefront with unhearalded strength as Home A and B led the pack higher. Home A and B rose 80 to 60 cents respectively, while Hudson's Bay Oil reached a new high of 16 with a gain of ⅜, all three in heavy trading. Calgary and Edmonton advanced ¼ and Dome Petroleum both advanced ⅜ respectively, while Bailey Selburn A finished on the daily most active list and rose 10 cents.

The senior base metals list was strong with Hudson Bay Mining and Smelting, Consolidated and Noranda all ahead as much as ½.

Lake Dufault followed with a 25-cent rise to $5.25 on 60,803 shares.

Gold trading was strong towards the close with Madsen Red Lake, McIntyre Porcupine and Giant Yellowknife all ahead to 40 cents.

MONTREAL (CP) — The banks average rose to a new yearly high Tuesday on the Montreal and Canadian stock exchanges for the sixth time in the last seven sessions. Other sections were narrowly mixed.

Trading was light among the industrials, at 104,600 shares, and heavy in mines, totalling 875,900 shares.

Toronto-Dominion led the upward trend in banks with a gain of 1¼ to 67½.

Base metals were mixed to slightly higher. Hudson Bay added ⅜ to 52⅜, Consolidated Smelters at 22 rose ¼ and Aluminium improved ⅛ at 27¾.

In papers, Bathurst A fell a point to 53, B.C. Forest rose ¾ to 13¾, Bathurst B at 38¼ and Brown at 15 each declined ¾ and Price gained ⅜ to 53 on a volume of 6,815 shares, the highest volume among industrials.

In mines, Jubilee Iron fell 40 cents to $3.50, Lake Dufault rose 35 cents to $5.20 on only 100 shares.

FOUR DIE IN FIRE

STAMFORD, Tex. (AP)—Four children were killed Monday night when fire destroyed their home just outside this west Texas town. They were Willie Ray Fields, 9; Ruth Fields, 6; Gwendolyn Fields, 5; and Carolyn Fields, 4. Their mother, Mrs. Georgia Mae Fields and a three-year-old son, Clarence, said Mrs. Fields was separated from her husband.

The Record Rack

by The Sour Notes

I LOVE PARIS (Pete Fountain) . . . The Pied Piper of the French Quarter of New Orleans is the Sixties' answer to Benny Goodman of the Thirties in restoring to public popularity the flighty tones of the clarinet.

Backed by the Charles Bud Dant orchestra, the Lawrence Welk alumnus struts jauntily through the streets and byways of Parisian musical life, saluting its sweetest melodies. His spirited tones knife through shimmering strings on title song, **Autumn Leaves, La Vie En Rose, April in Paris,** but its emotional rapport is best on **C'est Magnifique, Two Loves Have I** and a percussion tinged **Mon Homme (My Man).**

Listening supports the album's title.

JOIN BING IN A GANG SONG SING ALONG (Bing Crosby and His Friends) . . . Fifty melodies etched in the sentiments of North America are breezed through by the granddaddy of the crooners and a chorus conducted by Jack Halloran.

Bing's "pop" vocals have been rare of late but his famed pipes hold up well in these tunes, as does the renowned rapport always associated with his audience. A spirited whistle and, another trademark, a few boo boo bah boos inject variety into a type of music which is rapidly becoming deadly monotonous.

By singing brief versions of tunes with varied tempos, Crosby's group trys to avoid the repititious arrangements of sing alongs.

In case of sing alongs, too much of a good thing is as bad as too little.

SOUNDS BROADWAY, SOUNDS HOLLYWOOD, SOUNDS GREAT (Merrill Staton Voices) and may we add sounds loud. The virile voices of Merrill Staton in an uninhibited performance pay tribute to two of America's most prolific composers, Irving Berlin and Frank Loesser.

Assissted on several selections by female voices, overall effect is a lively spectacles of sound as the female voices match the exuberance of their male counterparts.

Though the bulk of the material is from Loesser's "Guys and Dolls" and "Charley's Aunt," the Voices resurrect with gusto three of Berlin's less performed melodies. They are **Let's Take An Old Fashioned Walk, You Keep Coming Back Like a Song** and the old Fred Astaire toe tapper, **Top Hat, White Tie and Tails,** in an arrangement which stimulates the excitement of Astaire's nimble footwork.

JUST A LITTLE SENTIMENTAL (Marty Robbins). Mr. El Paso returns from the west to a field of recording which originally brought lustre to his name.

Backed by the Jordanaires, the Arizona native sets aside his popular western ballad formula to concentrate on a dozen pop ballads including two of his own compositions, **Clara** and **Guess I'll Be Going.** These are joined by the likes of title song, **To Each His Own, Answer Me My Love, Half As Much, Unchained Melody, Too Young.**

Though performed with professional adroitness, they fall short of other recordings of the same material.

For Marty Robbins fans only.

GOLDEN PIANO HITS (Ferrante and Teicher) . . . Two pianists, each with a flair for elegance, combine to recreate faithfully a dozen keyboard favorites in a highly entertaining recapitulation of the past.

Melodies like **Near You, Quiet Village, Canadian Sunset, Misserlou, Warsaw Concerto** and a rolling left hand version of **Begin the Beguine** are million sellers whose arrangements are adhered to, but glow anew through the lustre of the polished performance of two pianos.

Providing an exciting musical background is an orchestra of lavish strings and tempered brass conducted by Nick Perito.

A la Roger Williams twice over in nostalgic rumblings.

No Great Rush For Survival Training

By DAVE McINTOSH

OTTAWA (CP)—There hasn't been any rush to the colors for national survival training.

The first six - week national survival militia course for 25,000 recruits starts next Monday. Officials said late Monday that so far only "about 5,000" have volunteered.

The government plans to have 100,000 trained in survival—the new term for civil defence—by next May 27. The four six-week courses designed to train 25,000 in each are scheduled to start Nov. 6, Jan. 8, Feb. 26 and April 16.

The scheme was announced Sept. 7 by Prime Minister Diefenbaker but recruiting did not swing into high gear until a couple of weeks ago.

Officials said that even if the 25,000-man quota is not filled for the first course, they hope the same quotas for the other three courses will be met.

In some localities, such as in the Atlantic provinces, resopnse has been good, official said. In others it has been poor.

Because the recruiting is done by local militia units across the country, figures are elusive. Officials said they could not supply a breakdown by provinces, cities or towns of the figure of "about 5,000" recruited to date.

For the first course, the Atlantic provinces had a quota of 2,500 men, Quebec 7,500, Ontario 8,750 and the four Western provinces 6,250.

The quotas are not specifically related to population.

The recruits will be paid about $40 a week and will train in militia armories between 8:30 a.m. and 5 p.m. Monday to Friday. They will be issued army uniforms but will live at home, not in barracks.

Quotas of more than 800 for the four courses, by cities:

Montreal 9,300; Toronto 7,600; Quebec City 3,080; Vancouver and Hamilton 3,000; Edmonton 1,840; Winnipeg 1,800; Calgary 1,440; Victoria, Saskatoon, London, Windsor, Ont., Guelph, Ottawa Sault Ste. Marie and Sydney 1,200; Kitchener, Owen Sound, Cornwall, Peterborough and Trois Rivieres 1,000; Levis 980; Halifax 960; Fredericton and Moncton 900.

All other cities, towns and villages where there are militia units have quotas of under 800.

Swedish Jets Patrol Katanga Frontier

LEPOLDVILLE (AP) — The United Nations Command said Tuesday five Swedish jets are patrolling the Katanga frontier to "deter" Katanga planes from attacking forces of the central Congo government.

The announcement by UN spokesman Norman Ho did not make clear, however, whether UN forces would take any action against central government troops which the Katanga governments claims have invaded the secessionist province and are raing villages and murdering women and children.

Premier Cyrille Adoula announced a virtual declaration of war against Katanga Monday. The premier said the Leopoldville government had launched a "police action" to liquidate Katanga's secession.

Reports from Elisabethville, capital of Katanga, said Katangan planes had gone into action Monday to help a company of troops fighting bout 500 central government invaders at Kiamba, a border town in the northern part of the province.

SET VILLAGES AFIRE

UN officers reported two Kasai province villages in central government territory were set afire by two Katanga bombers north of the fighting one Monday.

Gen. Joseph Mobutu, commander of the Leopoldville army, informed the UN Command his troops were attacked four times early today by Katanga aircraft.

The UN spokesman said the patrol of the frontier by the Swedish planes was a measure of "self - protection and deterrent."

Despite the reports from Katanga, observers doubted that the Leopoldville forces had launched an invasion of the province on any scale. They considered such a complex operation beyond the capabilities of Mobutu's army and that an increase in border attacks was the most that could be expected.

RANCH MERGING

KAMLOOPS (CP) — Consolidation of the 4,200 acre Bullman ranch at Kelowna with the Casorso Ranch was announced here Monday by a real estate firm. Jim Stewart of the Casorso becomes general manager of the ranches and W. T. J. (Bill) Bullman will act as superintendent.

FAIR CONDITION

VICTORIA (CP)—Robert Torrance, 51, the British Columbia assistant deputy lands minister, is in fair condition in hospital here after suffering a heart attack. Mr. Torrence, who joined the department as a messenger boy 34 years ago, was appointed assistant to the deputy in 1955 and assistant deputy minister in 1957.

HUNTER SOUGHT

KITIMAT (CP)—Police and volunteers are intensifying the search for a missing hunter following the discovery of his auto late Monday. Hans Ruck's car was found near a road 17 miles west of here. The 32-year-old man who was reported missing at the weekend was travelling alone.

TOURISM BOOMING

PENTICTON (CP)—A member of the British Columbia travel bureau says tourism, now the province's fourth largest industry, will soon become the second or even the first. R. Colby Monday night told the Auto Courts and Resorts Association convention more than $50,000 has been spent in B.C. on tourist promotion and more will probably be spent in the future.

wanted 200 new dentists NOW

British Columbia needs 200 new dentists – and needs them *now.* So acute is the shortage of qualified men that many areas of B.C. have no readily available dental service at all. And the trouble is – dentists are not trained overnight. It takes at least six years of intensive University study to become a dentist. Although the University of British Columbia does not as yet have a Dental Faculty, there are several excellent schools in Canada to provide such training. B.C. dentists have a big job on their hands. Are you willing to help? If so, write for our pamphlet, *Dentistry As a Career.* No other profession will offer you greater opportunities to help your fellow men. And none is quite so vital to your community *now.*

B.C. DENTAL ASSOCIATION
