Russia Agrees to Discuss Equipment Needs in Laos

Celebrated Too Well

VANCOUVER (CP) — A police officer was demoted to sergeant Tuesday for an alleged breach of discipline while celebrating his promotion to inspector six weeks ago.

A constable who celebrated with him was dismissed from the Vancouver police department, Chief Constable George Archer announced.

Representatives of both men said the decision will be appealed to the police commission.

Chief Archer's announcement said: "No further comment is considered necessary, nor is it the practice to disclose the names of those concerned."

Kennedy Space Funds Approved

WASHINGTON (AP) — President Kennedy's request for funds to step up space efforts in a move to outdo Russia won the unanimous backing of the Senate space committee Tuesday.

The group approved an authorization for spending $1,784,300,000 during the next year for such efforts as manned spacecraft, weather and communications satellites and elaborate moon shots, including an eventual landing on the moon and return to earth.

This added more than $400,000,000 to the amount previously voted by the House of Representatives, which approved the authorizaton of $1,361,900,000.

DOLLAR HIGHER

NEW YORK (CP) — Canadian dollar 3-32 higher at 97'in terms of U.S. funds. Week ago $1.00. Pound sterling 1-16 higher at $2.79 1-16.

Graph Indicates Dollar Fluctuations Since 1916

By THE CANADIAN PRESS

Finance Minister Fleming in his June 20 budget announced measures to lower the value of the Canadian dollar.

Graph shows how the dollar has changed value since 1914. This comparison of the Canadian dollar is based on monthly average quotations.

Last month shown is May. Thus graph does not include changes which followed the budget.

The Canadian dollar has changed value for a variety of reasons.

FOLLOWED POUND

Until relatively recent years the biggest changes followed similar action by the pound sterling.

After the first world war the Canadian dollar dropped — reflecting a drop in the British pound, a drop in the price of commodities and in the total of Canadian exports, and in increased imports of consumer goods.

The Canadian currency recovered along with the pound and for most of the 1920s was close to par.

In 1931 Britain went off the gold standard and the pound fell sharply. The Canadian dollar followed — in more moderate fashion — to around 80 cents. Some banking circles felt it moght drop to 50 cents, but Americans — apparently feeling that the Canadian currency was being undervalued — bought it in large quantities as an investment and this helped steady the price.

In 1933 the U.S. devalued its currency by raising the price of gold — an anti-depression measure. The pound sterling shot up and the Canadian dollar followed.

VALUE REGULATED

From Sept. 16, 1939, to Oct. 2, 1950, the value of the currency was regulated by the Foreign Exchange Control Board.

In 1949, when Britain devalued the pound, the Canadian dollar was revalued from par to about 10-per-cent discount. This time, however, the old relationship with the pound no longer was effective. Americans started buying Canadian currency until its valuation became unrealistic.

On Oct. 2, 1950, it was set free to find its level according to market operations, but with some rein kept on dealings. Since Dec. 15, 1951, it has been altogether free.

Two Badly Burned in Fire

VANCOUVER (CP) — Two persons were in hospital with serious burns suffered in a three-alarm fire that extensively damaged one of the city's oldest roominghouses. Two others were released after treatment.

In hospital were Robert Hunt, 56, with second degree burns to the hands, arms, head and back; and Marjorie Worthington, with first degree burns and smoke poisoning.

Marjorie Fraser and Mrs Marion Teed were treated at hospital and later released.

Hunt was rescued from a second floor corridor where he attempted to fight the fire. Mrs. Worthington was rescued from the downtown building in a semi-conscious condition.

Other residents of the three-storey roominghouse were rescued by firemen, who brought the blaze under control within 15 minutes.

Damage was estimated at $20,000 by firemen. Another $30,000 damage was done to an adjoining restaurant supply house.

Firemen said it was believed the fire started in a mattress.

Forest Fires Believed Set

ST. JOHN'S, Nfld. (CP) — A magisterial inquiry was ordered Tuesday into Newfoundland's forest fires, many of which are believed to have been set deliberately.

Deputy Resources Minister Stuart Peters announced the inquiry on the strength of evidence that both the disastrous Gander Lake and Trinity-Hare Bay fires were the work of arsonists.

TRACTOR GROUP STILL AIMS TO FREE CAPTIVES

KEY WEST, Fla. (AP) — Fidel Castro's prisoner - emissaries awaited word Tuesday from the tractors for freedom committee on whether a solution could be reached in the blocked negotiations to exchange tractors for nearly 1200 anti-Castro prisoners in Cuba.

A spokesman for the 10-man delegation said all are worried because of the responsibility they have for the fate of their companions.

They were puzzled by reports on Havana Radio, attributed to unofficial sources, saying the delegation was "preparing to return to Cuba Tuesday to report on the failure of the negotiations . . ."

The spokesman said "we are not preparing to leave. This is the first we've heard of it and we're continuing to do our best to secure the freedom of our companions."

Guided Missile Fights Fire

LOS ANGELES (AP) — An electronics firm says it has successfully demonstrated the use of a guided missile to bomb brush fires with borate solution.

The Accurate Electronics Co. of North Hollywood fired the missile Saturday from a B26 bomber to a ground target area near Mojave, Calif. No fire was involved.

A spokesman said the missile can be mass produced for $300 and is capable of carrying 1,000 pounds of the chemical to areas too inaccessible or dangerous for manned air tankers to bomb.

The forest service has shown interest in the missile, the company said.

Permanent Neutrality Laos Conference Aim

GENEVA (Reuters)—Russia agreed Tuesday to discuss with Britain, Canada, India and Poland Thursday the question of equipment for the International Control Commission supervising the cease-fire in Laos.

The agreement was reached between Georgi Pushkin of the Soviet Union and Malcolm MacDonald of Britain before a session of the 14-power Laotian conference aimed at bringing permanent neutrality to the Southeast Asian kingdom.

The pro-Western Laotian government delegation made its debut at the negotiating table during Tuesday's sessions.

The government had boycotted the conference since it began May 16 to protest against the inclusion of leftist and neutral factions.

And Thailand, which walked out of the conference to back up its demand for discussion of seating pro - Western Laotian representatives, returned to the formal sessions. The Thai delegate blasted Communist attacks on the Southeast Asia Treaty Organization.

External Affairs Minister Green of Canada had proposed the meeting on equipment for the commission, made up of India, Canada and Poland, during his recent eight-day visit to the conference.

WANTS EQUIPMENT

Canada wants the commission to be supplied immediately with three helicopters, three light planes, 20 jeeps, radios and other equipment to carry out its job of supervising the shaky cease-fire.

Russia has contended that the commission could get its equipment on the spot from the three Laotian factions: the right-wing government, neutralist followers of Prince Souvanna Phouma, and the pro-Communist Pathet Lao.

The government delegation is headed by Phoui Sananikone, a former Laotian premier, who told the gathering Tuesday that peace in Southeast Asia and perhaps throughout the world depends on what is decided at the conference.

Phoui said he was speaking in the name of five Laotian political parties that form the present national assembly in Vientiane, capital of Laos.

He said Premier Prince Boun Oum is the legal Laotian premier by nomination of Laotian firmation of the national assembly.

Boun, Souvanna and Pathet Lao Leader Prince Souphanouvong agreed last week at Zurich to form a coalition Laotian government.

Souphanouvong said afterward that Souvanna, the Communist-recognized "legal" Laotian premier and Souphanouvong's half - brother, was the only acceptable candidate to head the coalition.

Further discussions on formation of the coalition, regarded as a key part of any permanent Laotian settlement, are expected to take place next month.

Eichmann Says Himmler Blocked Move

JERUSALEM (Reuters) — Adolf Eichmann said Tuesday he encouraged Jewish emigration to Palestine until Nazi Gestapo chief Heinrich Himmler stepped in and banned the move.

Himmler had blocked attempts by Jews to get to Palestine, Eichmann said, because of a pledge to the anti-Jewish mufti of Jerusalem.

The former SS lieutenant - colonel told the court trying him for complicity in the wartime murder of 6,000,000 Jews that Himmler reached "an agreement with the mufti" halting emigration.

The former grand mufti is Haj Amin el Husseini, now living in Beirut, Lebanon.

Eichmann said that until Himmler's order was given he had not stopped emigrations to Palestine. "On the contrary," he said, "I encouraged it."

Asked by his West German lawyer, Robert Servatius, why he "changed tactics," Eichmann said: "It was pointless to encourage it. In any case, they couldn't have slipped through the thick net of regulations."

Parliament Tuesday

By THE CANADIAN PRESS

The Commons budget debate continued through a third day with opposition MPs criticizing the June 20 budgetary proposals of Finance Minister Fleming.

Harold Winch (CCF-Vancouver East) said the government has brought in control of investment capital, excess depreciation reserves and excess profits.

Associate Defence Minister Sevigny said industry must try to make profit through volume of business and that labor must realize the consequences of incessant wage demands and strike threats.

H. J. Robichaud (L-Gloucester) said the Conservative government has dissipated treasury and Unemployment Insurance Fund surpluses it inherited from the Liberals.

Prime Minister Diefenbaker announced Ottawa will pay half the freight cost of moving fodder and cattle to meet the drought problem on the Prairies.

The Senate approved a government bill extending for another year the exempt-from combines action of fishing arrangements on the west coast.

JOINS UBC

LONDON, Ont. (CP) — Dr. R. H. Pearce has resigned as associate professor of patholigical chemsitry to become associate professor of pathology at the University of British Columbia the University of Western Ontario announced Tuesday.

TCA Fears Added Competition

By JAMES NELSON
Canadian Press Staff Writer

OTTAWA (CP)—A senior official of Trans-Canada Air Lines said Tuesday the crown-owned company could lose its shirt if Canadian Pacific Airlines is given competitive rights on many of its services.

"We are already in a loss position, but if we are left alone we might come out all right this year," said W. S. Harvey of Montreal, TCA's comptroller appearing as a witness before the Commons committee on government-owned railways and airlines.

"If we had any additional competition we would be in very serious financial difficulties."

Mr. Harvey's statement aroused objections from some committee members.

CPA operates one cross-country flight a day with 124 seats compared to TCA's various cross-country services with a capacity of 1000 seats.

Kidnapped Family Escapes in Wild Ride

NANAIMO, B.C. (CP)—A wild ride to freedom down a lonely mountain road early Tuesday ended two hours of terror for a 50-year-old school teacher, his wife and his son.

Mr. and Mrs. Finlay G. Dalzell and their 14-year-old son Bill were abducted from their home shortly after 11 p.m. Monday.

Two hours later, after escaping from their kidnapper, they rushed to safety in a police station in this Vancouver Island city.

Ronald Graham, 47, a neighbor of the Dalzell's, was arrested after an all-night search on nearby Black Jack Mountain and charged with abduction. A mental examination has been ordered.

No reason for the abduction was apparent. A man arrived at the Dalzell house and said he had killed a man. He was armed with a single-shot .22 - calibre rifle and ordered the Dalzells to drive him to a nearby area.

TOSSED GUN AWAY

After they drove up the mountain the man ordered Mr. Dalzell out of the car. As he got out he grabbed the gun, ran 20 yards down the road and threw the weapon into the bushes.

He was able to escape from his abductor after a brief scuffle and jumped into the car, which Mrs. Dalzell had pointed down the mountain.

"Bill had locked all the doors except the back door and that was open for Finlay to get in," Mrs. Dalzell said. "The car was moving when Finlay jumped in . . .

"The man was pounding and kicking the car as I skidded it on the gravel and tore down the road.

"It was the fastest and roughest drive I ever had."

Drought Parches Prairies

Manitoba Driest Year Since 1874

Alberta Farmers Ask Section Be Designated Disaster Area

By The Canadian Press

Severe drought in all three Prairie provinces continues to burn crops and blacken the outlook of farmers.

While rains of from one-fifth to one inch dampened northern and central areas Monday, southern Alberta, Saskatchewan and Manitoba crops withered under the weight of a prolonged scorcher.

Manitoba provincial authorities said Tuesday the 48-day dry spell represents the driest year for the province since precipitation records were started in 1874.

The Farmers' Union of Alberta Tuesday called on the federal government to declare the southastern section of the province a "disaster area."

Saskatchewan Agriculture Minister Nollet said Saskatchewan can properly be called a drought disaster area. He described the outlook for both grain and livestock production as "pretty grim."

Prime Minister Diefenbaker announced in the Commons Tuesday that the federal government will pay half the freight cost of moving fodder and cattle to meet the drought problem in the Prairie Provinces.

The announcement was made after Liberal Leader Lester Pearson attempted unsuccessfully to open a full-dress, day-long debate on drought conditions in western Canada.

PRICES FIRM

In the face of the drought which extends to the southewest United States, grain futures prices on the Chicago Board of Trade firmed Tuesday with wheat and oats advancing a cent or more at times and rye futures up nearly four cents. Government officials from the Prairie provinces were reported to have inquired about the availability of feed grain from the United States.

The Alberta Wheat Pool said the area about 40 miles west of Medicine Hat is "likely the most critical in the province" and "hopes of harvesting any crops at all are quite slim."

Hardest hit are the mustard and flax crops, some of which were being plowed under.

A wheat pool spokesman said rain is needed in the southeastern area immediately if farmers are to harvest as much as five bushels of wheat an acr. Average wheat yield in the hardest hit area between Grassland, Alta., and Medicine Hat south to Foremost is about 15 bushels an acre.

A six-point slump in the pool crop condition figure for Alberta last week brought the index to a 10-year low of 79 per cent of normal. Only scattered ineffectual showers have fallen in the southeastern area in the last month.

FUA president Ed Nelson said Tuesday the federal government will have to provide at least $3,000,000 in aid to Alberta farmers to ease the pinch caused this year by drought and grasshopper damage.

RAIN NEEDED

Although the southeast corner of Alberta has suffered the worst drought, elevator agents at central and north - central points reported some crops being used for pasture. At Wetaskiwin little more than one inch of rain had fallen since May 1.

The Saskatchewan Wheat Pool said Tuesday the wheat crop condition in the province dropped 19 points since last week, to a three-year low for the time of year of 97. A figure of 100 represents a crop which, if unchanged, would yield 15 bushels an acre.

More than 75 per cent of the points reporting to the pool said rain is needed immediately to save what remains of the parched crop. Only the northwest and west-central regions of the province reported sufficient moisture supplies to meet present crop needs.

Douglas Tells Decision Today

By SCOTT SCHILL
Canadian Press Staff Writer

REGINA (CP)—Premier T. C. Douglas is to announce today whether he will be a candidate for the national leadership of the New Party.

Persons closest to the CCF premier are inclined to believe he will run for the new post. His name has been linked with the leadership for many months.

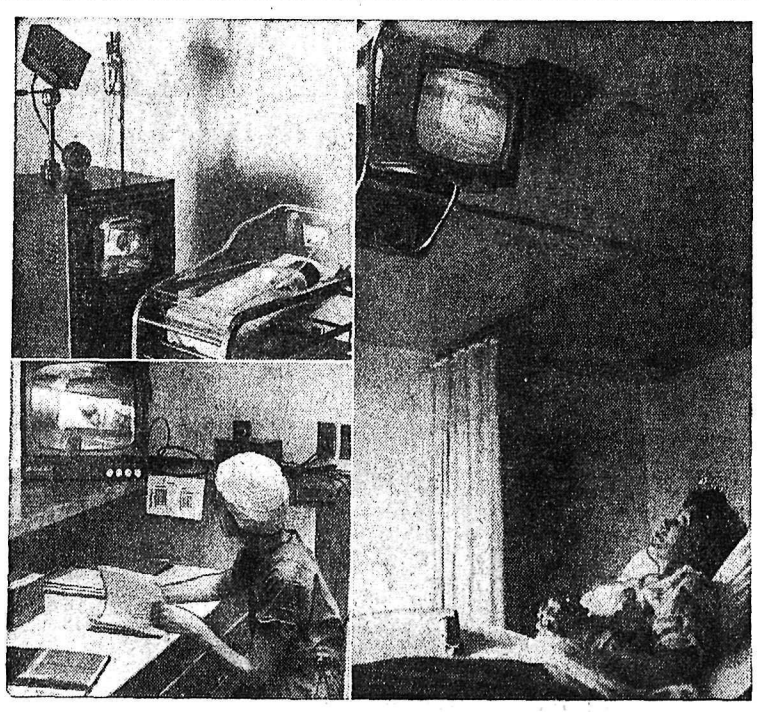
The 57-year-old Douglas has been given the green light by both the provincial CCF council, ruling body of the Saskatchewan party, and his home constituency of Weyburn in southeastern Saskatchewan.

Only one person has declared himself in the race for the New Party leadership.

He is national CCF Leader Hazen Argue, whose Assiniboia federal riding includes the premier's Weyburn provincial constituency.

The leadership is to be decided at the founding convention of the New Party in Ottawa July 31-Aug. 4.

One indication that Mr. Douglas likely will run for the leadership has been his increasing attention to international affairs and his attendance at various CCF meetings outside Saskatchewan.



KEEPING TABS BY TV—Baby Gary James Hunt snoozes blissfully under the eye of a television camera, and from other rooms his mother, Mrs. Margaret Hunt, and Nurse Marguerite Glennie keep an eye on him. That's the setup at new Memorial Hospital in Buena Park, Calif., a Los Angeles suburb. The two-way TV permits nurses to keep tabs on critically ill patients without sitting at the bedside, and enables visitors to "see" and talk with patients without entering the sickroom. Hospital has over 7,000 feet of cable.

Engineer Saves Child From Train

WINNIPEG (CP)—A Winnipeg engineer, for the second time in 15 years, saved a child from in front of a moving locomotive Tuesday. A second child playing on the tracks was hit and seriously injured.

CPR engineer James W. McLellan left the cab of his engine after throwing the brake and from the foot board in front grabbed Lawrence Vincent Murray, 2, and threw him to the side of the roadbed. He suffered bruises to the head and knees.

"I couldn't reach the other one," he said later. Douglas Berry Paulson, also about 2, lost his right leg below the knee when hit by the train and received other cuts.

The train was travelling 12 to 15 miles an hour at the time.

McLellan said two other men in the locomotive cab had no time to leave the engine and reach the Paulson boy. He was struck by the engine and one car of the 51 cars in the freight.

Fourteen years ago, while he was a fireman on another run, Mr. McLellan saved a boy under similar circumstances.

Japan Plans Big Investments

VICTORIA (CP) — Mines Minister Kiernan said Tuesday Japanese interests are considering substantial investments in exploring, mining and processing iron and copper ore in British Columbia.

Mr. Kiernan, who recently returned from a three-week trip to Japan, said Japanese officials will come to the province "in the next few months" to investigate opportunities.

He said the best chances are for exploration investments, a sponge iron processing plant and a copper anode plant.

Trade relationshis depend on Japan acquiring raw materials to maintain a standard of living more attractive than that under communism, said Mr. Kiernan. B.C. must also ensure an adequate supply of mineral reserves at home and a stable overseas market.

"It seemed the logical thing that they should now give very serious consideration to setting up or participating in joint companies to do part of the processing of concentrates in this country."

Kidnapped Family Escapes in Wild Ride

NANAIMO, B.C. (CP)—A wild ride to freedom down a lonely mountain road early Tuesday ended two hours of terror for a 50-year-old school teacher, his wife and his son.

Mr. and Mrs. Finlay G. Dalzell and their 14-year-old son Bill were abducted from their home shortly after 11 p.m. Monday.

Two hours later, after escaping from their kidnapper, they rushed to safety in a police station in this Vancouver Island city.

Ronald Graham, 47, a neighbor of the Dalzell's, was arrested after an all-night search on nearby Black Jack Mountain and charged with abduction. A mental examination has been ordered.

No reason for the abduction was apparent. A man arrived at the Dalzell house and said he had killed a man. He was armed with a single-shot .22 - calibre rifle and ordered the Dalzells to drive him to a nearby area.

TOSSED GUN AWAY

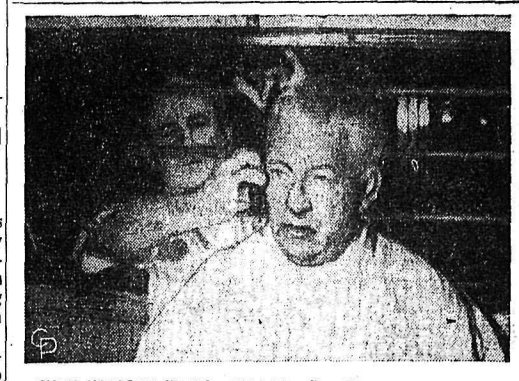
After they drove up the mountain the man ordered Mr. Dalzell out of the car. As he got out he grabbed the gun, ran 20 yards down the road and threw the weapon into the bushes.

He was able to escape from his abductor after a brief scuffle and jumped into the car, which Mrs. Dalzell had pointed down the mountain.

"Bill had locked all the doors except the back door and that was open for Finlay to get in," Mrs. Dalzell said. "The car was moving when Finlay jumped in . . .

"The man was pounding and kicking the car as I skidded it on the gravel and tore down the road.

"It was the fastest and roughest drive I ever had."



THREE YEARS IN STATION WAGON—Don Haynes sits quietly, sealed in a station wagon in St. Louis, Mo., while barber Gene Wilder reaches through the bars to do a job. Haynes got himself into this fix by being a guest on the "People Are Funny" TV show. That was Oct. 25, 1958. He gets out in Hawaii on Oct. 25, 1961, and collects $200 for each day.

And in This Corner . . .

DAYTONA BEACH, Fla. (AP)—Sometimes it doesn't pay to advertise.

Restaurant owner Tom Bass advertised fine Irish coffee on his menus.

One of the menus found its way to the state beverage department. Bass was arrested on a charge of violating the beverage code.

His beverage licence limits him to the sale of beer and wine. Irish coffee, as Irishmen and beverage agents well know, contains an ounce of Irish whisky.

BRISBANE, Australia (AP)—Rubyvale, in central Queensland, had a population of 86 and one hotel, the 52-year-old Royal.

The hotel proprietor, Mrs. Ida Fowler, wrote the state licencing commission that she was closing down and surrendering her liquor licence. She explained:

"Since two local pensioners died and one of our best customers had a heart attack and went on the water wagon, the hotel has proved unprofitable."

Thirsty Rubyvalers now must travel 12 miles for a drink.

COLONIA, N.J. (AP)—Two female peacocks are on the loose but one person who knows them well isn't too anxious to get them back.

"I wouldn't want my husband to know this," Mrs. Walter Zirpolo said Tuesday, "but I hope they stay lost."

"They are beautiful but I hate them. They make funny noises all the time and sound like a woman screaming for help."

Noted Soldier, Engineer, David Philpot Dies at 74

David Philpot of Willow Point, 74, a lieutenant-colonel in World War 1 in which he served with distinction, died at Shaughnessy Military Hospital in Vancouver Monday.

He was well known in Balfour, Nelson and Cranbrook, where he was city engineer for many years.

He was born at Ilkley, Yorkshire, July 21, 1886. In 1907 he came to Ontario where he lived for a short while before moving to Vancouver. At the coast he was engaged in the building contracting business.

He moved from Vancouver to Cranbrook in 1927 and worked there as a general contractor befor becoming city engineer.

In December, 1944, he retired after a fruitful period of service as city engineer of Cranbrook. He left Cranbrook to live at Balfour where he owned the Balfour Beach Inn and cottages. He continued this until 1947 when he moved to Nelson. In 1950 he and his wife moved back to Willow Point.

As Cranbrook city engineer he helped plan and carry out many of the civic improvements including the Cranbrook fire hall and community swimming pool, which make the city outstanding in the Kootenays.

ENLISTED AT 16

He entered the army as a boy of 16 and had a total of eight decorations.

He reverted from the rank of lieutenant colonel to major in order to take command of the 107th Battery from Cranbrook.

In England Lieut.-Col. Philpot first joined the army in 1902 as a sapper in the Royal Engineers Volunteers. A year later, by getting under the age minimum, he joined the First Battalion Scots Guards and in four years with that world-renowned regiment he became a lance-sergeant.

In Canada in 1909 he joined, as a private again, the 6th Regiment Duke of Connaught's Own Rifles at New Westminster. When the unit was changed in 1911 to the New Westminster Fusiliers, he remained with it as regimental sergeant-major, and when in 1914 on the outbreak of war it became part of the First British Columbia Regiment, the 7th Canadian Infantry Battalion, he remained with it and went overseas as regimental sergeant-major, with the second brigade of the First Division.

He got his first commission as a result of the second battle of Ypres in 1915, as a lieutenant. In September of the same year he was made a captain, and the following August a major. From that time on he was second-in-command of his battalion and alternated in leading it in action. He commanded it at Vimy Ridge and at Passchendaele among other actions.

Major Philpot won the Distinguished Service Order at Vimy and a bar at Canal du Nord, and the Croix de Guerre, outstanding French decoration for valor, at Amiens.

His other decorations, won in battle or awarded since, include the Order of the British Empire, the 1914-15 star, the general service medal, the Victory medal, the Jubilee medal of 1935 and the Coronation medal of 1937. He also wore insignia for mentions in dispatches.

After the war, Major Philpot remained out of the army until 1932, when he entered the militia and organized the Kootenay Regiment in Cranbrook and Kimberley, with the rank of lieutenant-colonel. In 1936 that regiment was re-organized as the 24th Artillery Brigade and Lt.-Col. Philpot retained command.

Of that brigade, the 107th and 111th went overseas. Lt.-Col. Philpot remained in Canada as OC of recruiting.

In civil life an engineer, he helped to build the Grand Trunk Pacific Railway across Northern Ontario in the years 1907 to 1909.

He served as manager for the week-long Cranbrook Pioneers' Reunion of 1938, marking the 40th anniversary of the railway there and surveying of the city site.

He married the former Jane Whittaker of Cranbrook in 1929.

He is survived by his wife at Willow Point, one son, Joseph Henry, Cranbrook; three daughters, Mrs. J. H. Rule, Victoria; Mrs. J. K. Pearson, Nelson, and Mrs R. H. Carswell, Vancouver; three sisters, Mrs. Violet Baker, Pleasanton, Calif., Mrs. H. Haigh, Vancouver, and Mrs. G. Jeffrey, Vancouver; and eight grandchildren.

Presentations Mark Boys' Choir Program

Thirty-seven boys, members of Mrs. T. J. S. Ferguson's Boys' Studio Choir, sang five selections before a gathering Tuesday night in St. Paul's-Trinity United Church as their closing exercise of the year.

Mrs. Ferguson presented to each individual member a picture of the choir and a piece of music.

Money earned at the recent 30th Anniversary Choir Festival made possible further presentations, including gifts of a portion of tuition fees to the Nelson Summer School of Fine Arts to nine boys and girls.

Attending the summer session in music under the partial sponsorship of the choir will be Karen Gibson, Doreen Speirs, Judith Foster, Melvin Maglio, Nedene Ward, Martin Horswill, Valerie Fair, of Salmo, Sharon Harshaw and Mernie Shaw.

A sum of $50 also earned by the festival will be donated to the "Save the Children Fund" and will go to help children in Korea.

Mrs. Ferguson presented a "token of appreciation" to the choir accompanist, Beverley Matheson.

Treble Clef pins were presented to six boys who have graduated from grade six to junior high school. They were Donnie Stewart, Kenneth Kuhn, Glen Morton, Robert Adderley, Dennis Currie and Kenneth McBride. Vernon Ronmark, a recent addition to the choir and a grade seven student, also was given a treble clef pin.

For long service in the choir, David McElroy and Derrick Bennett were given awards. David was given expense money for a trip to Vancouver where he will sing Sunday in the Queen's Avenue United Church.

Mrs. Ferguson noted a sum of $14 remained as a balance and will be used to buy music for next year's study.

"It is a privilege to train your youngsters to express themselves," Mrs. Ferguson told the gathering of parents.

"I regard it as a privilege to find out the talents your children possess. They so often remain hidden."

CLOSING EXERCISE was performed by 37 boys, members of the Boys' Studio Choir, in St. Paul's-Trinity United Church Tuesday night under the direction of Mrs. T. J. S. Ferguson. Treble clef pins were presented to about six boys who graduated from grade six to junior high school. Each boy was given a picture of the choir and a piece of music. Proceeds of the 30th Anniversary Choir Festival made possible educational grants to a group of boys and girls to attend the summer music session of the Nelson School of Fine Arts.—*Daily News photo.*

Maritimer Burns Leather On Historic Marathon Trek

A Maritimer is returning home the hard way — on foot.

Passing through Nelson last week was W. E. "Bill" Pollock of Pettitcodiac, New Brunswick, located near Moncton, a man who hopes to footprint his name into Canadian history by becoming the first person to walk from Victoria to St. Johns, Newfoundland. In other words literally from coast to coast.

Others have attempted cross-Canada marches. (Remember Kevin Griffin of Toronto last fall?) Their steps fall short of Pollock's ambition as they generally started from either Montreal or Toronto, then to Vancouver, excluding the Maritimes as poor cousins of the main massive Canadian landform.

Waiting in St. John's for the 48-year-old ex-serviceman will be no sponsors benevolence, no financial benevolence, only the North Atlantic weather. When his hardened feet will be required to brace him against this weather is also indefinite. He calculates it may be early in the new year and, by his years in the New Brunswick bush country, he is prepared to mush along during the winter season to reach his goal.

CARRIES LETTER

Pollock's reasons for the hike are several-fold. He is athletically minded, having been a renowned semi-pro baseball pitcher in the Moncton area in his younger days. He is carrying a letter from E. C. Westwood, minister of recreation and conservation in British Columbia. The letter recognizes his achievement in the spirt of Canadiana adventure and it will be presented to the Premier of Newfoundland when the trek is completed.

There is the fact that the trek has never been done before and, naturally, there is the resulting fame and financial reward of an interested public. This is his pot of gold, replacing the sponsor.

Pollock's sole source for the necessities of life stem from the area's hospitality. On leaving Trail he shuffled along in a new pair of athletic supported footwear and a financial donation from Mayor L. A. Read.

With the hot weather nearing its zenith, he received a donation of a set of men's shorts and woolen socks from a large retail store, a brief case to carry his growing letters of introduction and a shoulder bag from Mayor T. S. Shorthouse. These house the 25 pounds of gear carried in his battered handgrip.

25 MILES DAILY

The wiry grey-haired walker has been on the road 27 walking days, averaging 25 miles a day, a pace he hopes to maintain cross Canada. His schedule calls for six walking days, with the seventh devoted to rest.

To date he has worn out three pairs of footwear. One pair was cast aside after he completed the 40-odd isolated miles of the Blueberry-Paulson highway cut-off, now under construction, of the southern transprovincial highway. He lays claim to being the first person to walk the cutoff, which is expected to be open to the public this fall.

The scheme for the marathon stroll is his own and materialized while he was unemployed in Penticton this spring.

At first he planned to start from Vancouver but, after counsel, started from Beacon Hill Park in Victoria. On the coastline of Juan de Fuca straits he was presented with the minister's letter and a monument was erected marking his starting spot.

Though his age and the fact that the only marching he had done previously was in the Canadian Army during World War II appear to be against him, he thinks differently. Pollock believes the experience of his age and background will offset the stamina of youth.

Only the endless trail of footprints heading east will tell.

Mayor Convinced Attempt To End Terrorism Genuine

Mayor T. S. Shorthouse believes the Fraternal Council of Reformed Doukhobors is sincere in wanting to find a solution to the terrorism keeping the Kootenays on edge.

The mayor and two representatives of the Chamber of Commerce, J. H. Coventry, president, and John Learmonth, met with five members of the Fraternal Council in two hours of "frank" discussions.

Mayor Shorthouse termed the meeting "a genuine attempt by this group to assist in the solution to the many problems connected with the terorrism. I am hopeful and of the opinion there is an area in which we can work together in a spirit of understanding and cooperation to bring some sort of relief to the serious and unsolved problems of depradation in the Kootenays."

"I feel there is genuine desire to help," he said. "We can do nothing less than accept their cooperation."

His worship recalled the recommendation of the Association of Kootenay Municipalities in Marysville last month that federal, provincial and municipal authorities meet in this area to discuss means of attacking the problem.

"We hope the attorney-general's department, whose responsibility it is to call such a meeting will act quickly, before it's too late. We think we are heading for a serious period and the government should be pressed for a meeting."

The meeting arose as the result of an emergency conclave between members of the Fraternal Council at the home of John Podmoroff in Blewett last Sunday.

Peter P. Elasoff, secretary of the Fraternal Council proposed, "In view of the continuation of terrorist activity and the doubtful efficiency of current police investigations, a review of the history of terror in the Kootenays be undertaken, and the Fraternal Council establish whether or not it can be of assistance to Mayor Shorthouse."

This was accepted.

Several members of the Council made reports on what they had been able to uncover with regards to the bombings. It was uanimously decided that immediate action be taken.

Mike W. Hadiken proposed a delegation of five consisting of Mr. Elasoff, Fred W. Chernenkoff, Bill Babakaiff, Mike Verigin and John Podmoroff meet the mayor.

They were instructed to prevail on the mayor to renew demands for a responsible, impartial, Federal investigation or commission to undertake a study of the terrorism problem as "the methods and means employed by the RCMP are proving wholly incompetent."

The petition was signed by about 40 members of the Council.

Family Off to New Home in Old Bus

By HAL LEIREN

What started out as a joke has turned into an odyssey of the kind most people only dream of for an Iowa couple and their four youngsters.

Don L. Taylor and his wife *Diane of Council Bluffs are on* the last 500 miles of a school-bus ride that has already taken them over 2200 miles of mountain and prairie.

With them are four smiling children, done to a turn in the prairie sun and having the time of their lives. They are Kerry, 12, Cherl, 10, Jeannie, 4, and Julie, 3.

Mr. Taylor said he has had a yen to live in Canada since travelling through the country on the way to Alaska two years ago.

He lived for a time in Seattle and liked the Coast so well he decided to come back. He wanted, however, to come to Canada where he feels "life is a little more leisurely and people are not as interested in chasing the almighty dollar."

"We feel Canada is still a young country where there is a chance to build a new life."

FIND FRIENDLINESS

"We think Canadians must be the friendliest people in the world," he said, his wife and youngsters seconding his sentiments enthusiastically.

Mrs. Taylor said she had expected a little more "foreignness" as this is her first trip outside the United States. She had come to the conclusion, however, that "the line was drawn by men and not by God."

The bus the Taylors are travelling in is a veritable home on wheels. Two double bunks have been installed along each wall. Mom and Dad have the lower bunks. The children sleep feet to feet in the uppers.

All the cooking is done in the bus which has had all except two of the front seats removed. About 12 to 14 hours a day, including meal stops, are spent on the road. They get about 10 miles to a gallon of gas. A little less if there is a headwind or uphill road.

Asked how they came to decide on a school bus for their travelling, they said they had thought about a station wagon or a truck until Mrs. Taylor jokingly suggested they buy a bus.

"It seemed a terrific idea," and after some shopping around they found one for $200.

Mr. Taylor, "being something of a mechanic," put it into shape, knocked out the seats and painted it. The whole renovation program took about a month.

They have been on the road since June 19.

STOP FOR REPAIRS

In Nelson a too-steep hill took the rear-end out of the bus Sunday and they had to stop for repairs.

At a garage little Julie was bitten in the cheek by a dog. She was taken to a doctor in town by the owner, for whom the Taylors had nothing but praise. "We got a lot of extra help that he might have charged for and didn't."

They got back on the road Tuesday evening and hoped to make Grand Forks before daylight.

"The usual comment from people when they learn how we are travelling," said Mr. Taylor, "is, 'It must be a comfortable way to travel'."

"Most of them seem quite envious of us," he said.

Aside from a breakdown about 200 miles from home, which Mr. Taylor fixed himself, "nothing unusual has happened on the trip. But we have been enjoying the scenery along the way and think it is wonderful."

Mrs. Taylor said she is having a great time. "The children get a little cranky now and then, but as long as we're rolling they're fine."

When they get to Vancouver they want to settle somewhere on the outskirts within driving distance of the city.

Mr. Taylor has 11 years experience working for telephone companies and hopes to get work in that line.

Asked why he wouldn't take the U.S. route rather than the hazardous Rossland to Grand Forks highway, he replied, "We want to see as much of our new country as possible."

Punish Juveniles For Break-in, Liquor Party

Five juveniles were given sentences ranging from a $20 fine to a year's probation on various offences before Juvenile Judge William Evans this week.

Two juveniles were each put on 12 months probation Tuesday men found guilty of breaking into St. Joseph's School June 16.

Three juveniles appeared before Juvenile Judge Evans Monday, charged with illegal possession of liquor. One was sentenced to six months probation. The others were fined $20 each.

The charge arose from an early Sunday booze party in Gyro Park.

Police were summoned by a citizen complaining of the noise of breaking bottles.

M. S. Pistak of Rossland was fined $10 in stipendiary magistrate's court Monday for following too close to another vehicle.

Harry W. Popoff of Brilliant had his case dismissed when he appeared on the same charge. The court was of the opinion he should have been charged with driving without due care and attention.

John Nestoroff of Slocan was fined $25 when he pleaded guilty to driving without due care and attention.

J. P. Markin was fined $15 on a speeding charge when he appeared in police court before Magistrate R. S. Nelson Tuesday.

Mrs. Laithwaite Passes at 90

Mrs. John (Eleanor) Laithwaite of Kelowna, a well-known Nelson resident and visitor since 1924, died Friday at Kelowna, aged 90 years.

She was born in Liverpool, England, in 1870. Her family came to Canada in 1909 to live at Fernie. She and her husband accompanied them.

She is survived by three daughters, Mrs. Lillian Gray of Kelowna, formerly of Nelson; Mrs. H. T. Anderson of Vancouver and Mrs. J. N. Bridgeman of Calgary; one son, Leslie, of Nelson; 10 grandchildren and 10 great grandchildren. One son, John, of Coleman, died in 1941.

She was buried in Lakeview Memorial Cemetery, Kelowna, Monday.

SPORTS CAR

The Austin-Healey sports car got its name from designer Donald Healey and the producers, Austin.

BARREL DERBY winners were presented their prizes Tuesday night at the regular meeting of the Nelson Rod and Gun Club. George Clerihew, left, barrel derby chairman, is shown giving a movie camera to Nancy Turner, 4½, daughter of Mr. and Mrs. George J. Turner. Nancy was second with a guess only 15 seconds out. At right is A. H. Ronmark who won a complete camping outfit for two persons with a guess that was only nine seconds out. Third place winner, not present, was Mrs. I. E. Kraft. The barrel floated from Harrop to the Nelson bridge on the weekend in 18 hours, 22 minutes and 31 seconds. James Milne tallied the tickets. Harry Horton was official timer.—*Daily News photo.*

First Interior Arts Conference Held At Tadanac

TRAIL — Speakers at the first Kootenay Arts Conference, held in Trail during the weekend, emphasized the importance of encouraging the arts among young people of the community.

While commending local high schools for opportunities they present in art and music study, the University of British Columbia speakers felt that more attention should be given in the district to provide these studies at the primary level of education.

From various West Kootenay centres, an estimated 60 people attended sessions held at Tadanac. This is the first time a conference of this kind has been held in the Interior of the province and the general feeling of those present was that the discussions had raised many points of interest in developing the arts at the local level.

Professor Sam Black complained that there had been "an abyssmal ignorance" of arts and fine arts education shown in the recent Chant Report. He said that young children in the elementary grades learning to paint and draw should be allowed full reign for expression. At a later stage would come the development of skills, he commented.

Dr. G. W. Marquis felt the teaching of music locally should start at an earlier age. He commended to Trail's attention a system practised in the Okanagan, where a music supervisor tours elementary schools, and conducts a program designed to prepare students for the more advanced musical instruction they will receive in high schools.

SUGGESTS CIVIC ORCHESTRA

Dr. Marquis went on to suggest that Trail was large enough to support an orchestra of its own. He maintained that 20 or 25 players could form a group to present regularly programs of chamber music. Music provided by an orchestra would also add to local stage productions, he pointed out.

Conductng a session on the dance, Gordon Brandreth urged that creative dancing should be started in Grades One, Two and Three. He suggested, too, that a dance studio was indispensable in the community and he asked that Trail participate in an experiment that would bring teachers here from the extension department of UBC.

Professor Black said it was obvious from the interest shown in the conference that the lie could be given to claims that Canada was not interested in culture. To the contrary, he said, people living in the smaller cities of Canada were often more exposed to culture than those who lived near the big centres of Europe.

Big Program For Arena Opening July 8

KIMBERLEY — The municipality, clubs, organizations, boards and individuals are all getting into the ipcture for opening day of Kimberley's new arena, July 8, which has been designated as Civic Center Day.

Kimberley Jaycees are in charge of publicity; Kimberley Parks board has allocated a promotional budget to attract people from outlying centers; high ranking dignitaries have been invited to the preliminary official ceremonies and a program embodying many performances by local talent is in the making.

Kimberley Lions club has gone all out in its offering of Liono prizes, with the total sum of $2500 at stake. There will be two $1000 prize winners, a $200 prize and three $100's. Proceeds are for the Lions club project, building of a third unit at Pioneer Lodge for Senior Citizens.

Kimberley fraternal order of Eagles has been granted the refreshment concessions for the day.

POSTPONED

MATSQUI (CP)—A scheduled strike by 25 Matsqui-Sumas truck operators has been postponed. Negotiations have been re-opened and union officials said Monday local 31 of the General Truck Drivers' and Helpers' Union has demanded adoption of a minority conciliation report recommended a 30-cent-an-hour pay increase.

POWER INCREASE

Norwegian hydro - electric plants produced 31,300,000,000 kilowatt hours in 1960.

This family is the victim of hot weather stalling—one of the infuriating troubles that can strike your car on sizzling days. Super Shell's *Hot Weather Blend* fights three of them

HAPPY JULY 1st?

Fight hot weather stalls with Super Shell's Hot Weather Blend. Famous 9-ingredient formula now adjusted for top performance when highways sizzle.

Summer heat can make gasoline bubble. This can stall you dead. It can also cause hard starting and rough idling.

Read how Super Shell's Hot Weather Blend fights these heat wave problems. It just might save you a lot of trouble this weekend. You can get it at any Shell station on your route.

ENGINES, like people, can suffer from heat prostration. Especially in the kind of hot and heavy traffic you may face during the weekend ahead.

Here are some infuriating troubles that are caused by excessive heat—and what Super Shell's *Hot Weather Blend* does to fight them.

1. How Super Shell fights hot weather stalls

If your engine sputters and dies on a hot day, it may have an ailment called *vapour lock.*

Vapour lock strikes when heat makes a volatile gasoline start to boil right in the fuel line. This produces bubbles that can choke off the fuel supply.

Shell scientists attack vapour lock by revising Super Shell's 9-ingredient formula in summer. This reduces its volatility.

This is a hot weather blend of Super Shell that's not likely to boil in your fuel line—it cuts the chances of hot weather stalling to a minimum.

2. How Super Shell fights hard starting

Here's what can happen when you try to restart your car after a hot drive. With the fan stopped and the cooling system idle, intense heat under the hood can actually make gasoline *percolate* in your carburetor. Just like coffee in a pot.

The gasoline spills over, floods your engine—and makes starting difficult.

Super Shell's *Hot Weather Blend* is formulated to stand high temperatures without percolating. You can get quick starts even after a long, hard, hot drive.

3. How Super Shell fights rough idling

The same trouble that causes summer starting difficulties can give your car the shakes every time you stop for traffic lights.

Super Shell's *Hot Weather Blend* attacks both problems the same way. Its formula is adjusted so that it's in no hurry to boil and bubble. Result: smooth idling in hot weather.

4. Some engine problems Super Shell can't solve

Super Shell fights hot weather stalling but it cannot correct mechanical defects in your engine. Your Shell dealer *can.* Here are a few things that cause overheating in your engine, and how your Shell man can help:

1. A plugged radiator stops the free flow of cooling air. Have your Shell dealer clean out bugs and dirt, install a bug screen.
2. A slipping fan belt doesn't move the fan fast enough. Have your Shell dealer check your fan belt, install a new one if yours is cracked, slack.
3. A faulty fuel pump can aggravate vapour lock. Your Shell dealer can check fuel line pressure in a few moments.

Keep Super Shell's *Hot Weather Blend* in your tank. You'll really be set for top performance.

The 9 ingredients in Super Shell—and what they do to give your car top performance

#1 is TCP* for power, mileage, and longer plug life.
#2 is "cat-cracked" gasoline—for extra power.
#3 is anti-knock mix to resist all kinds of knocks.
#4 is heavy alkanes to control "high-speed knock."
#5 is Butane for quick starts.
#6 is mixed pentanes for fast warm-ups.
#7 is an "anti-icer." (*Added in cold weather.*)
#8 is gum preventive to keep carburetors clean inside.
#9 is Platformate for extra mileage.

*SHELL'S TRADEMARK FOR THIS UNIQUE GASOLINE ADDITIVE DEVELOPED BY SHELL RESEARCH. PATENTED 1955.

Time to Look to New Water Sources

Nelson requirement that within ...t-too-distant future must chal- the attention of community ..., planners and public is that ...litional water source.

...lavish is nature in this area ...o easy the matter of turning a ...at this is a matter that seldom ...much public discussion. Only the Summer sun is more per- than usual, as it was in 1958, ...he average property owner be- ...much aware of or much con- ... about the community water ...s. Sprinkling restrictions then general attention to the matter. ...wever, there are those—owners ...as where supply is not always ...nerous as in most parts of the ...ublic officials responsible for ...pply of services, and persons ...rimary interests in fire protec- ...nd community safety — who ...ore constantly conscious of the ... for the present and the future. ...wever, the problem is sufficient- ...ite to warrant a more wide- ...awareness.

...lson has two water supplies, ...om Five-Mile Creek watershed ...g into the main 5,500,000 gallon ...oir above the Great Northern ...y station through a single sup- ply line, and the other Anderson Creek, with a 500,000 gallon daily capacity. In the 1958 dry period daily flow available was 1½ million Imperial gallons from 5-Mile and 300,000 gallons from Anderson Creek.

The system supplies 9400 persons, including about 1600 in homes outside the boundaries. In Nelson's actual experience usage ranges from a 180-gallon per person per day average to a 352-gallon peak day average. For 9400 persons this implies a need of from 1,692,000 gallons a day to 3.3 million gallons a day.

The National Board of Fire Underwriters, additionally, recommends certain further supply beyond the per capita daily usage to assure "fire flow" water when needed.

With a dry period flow of 1,800,000 gallons a day available, it is evident that careful water use management can at times be required with the present supply.

With these figures before them, and with Nelson looking forward to growth with the industrial Kootenay and Columbia development, it can be well seen why those responsible for community service must give thought to water source and distribution problems.

A First Glance

...r a number of years now Cana- ...drug manufacturers and re- ... have been suspected of profit- ... at the expense of the con- ... On more than one occasion ...blic outcry has been raised ...st their alleged practices.

...e preliminary study made by ...nes investigation director D. H. ...enry and tabled recently in the ... of Commons by Justice Min- ... Davie Fulton indicates at first ...e that these suspicions have ...well grounded.

...effect, the report states that the ...facturers and retailers are sole- ...blame for drug prices in this ...y being among the highest in ...orld by deliberately creating a ...poly to fix the prices of Cana- ...drugs to virtually eliminate fair ...etition.

...result of this, according to the ... is that the cost to the consumer ...nada runs to about 11 per cent ... than the United States level ...hich is itself under severe con- ...rtion as exorbitant by the United ... congressional committee.

...spite the fact that the drug man- ...ring companies and their retail ... have so far met this increas- ...lticism with only the weakest ...ences, it may yet be too soon ...oo unfair to pass immediate ...ent upon them.

...e combine investigation di- ...s report is only a study to pro- ...ackground material for a future ...ale enquiry—and should there- ...ot be taken as conclusive proof ...y action directed against the ...e of the public.

...e hearing will commence in ...a on July 4 and it is at that time ...e drug makers and sellers will ... the opportunity to state fully ...ide of the case.

...nay be found that they are jus- ...in conducting their operations ... present manner and if this is ...se public confidence in them ...e restored. If, however, it is ... they cannot support their ac- ...then there is every reason for ...overnment to take whatever ...res it considers necessary to ...t the rights and interests of the ... of Canada.—*Victoria Colonist.*

It's Been Said

... past is the sepulchre of our dead ...—Christian Bovee.

Smoking

In view of the renewed concern about smoking in Canada and the suggestions as to what can be done about it, we wonder if the problem is not, as it clearly has been for a number to centuries, insoluble. The *medical profession today is not the* first body to abominate smoking (for other people?); in fact abomination has a long and even royal history. James I of England called it a loathsome custom and we were interested to read in the current issue of Scientific American an account of the work of Shah Abas the Great of Persia in discouraging smoking in the Seventeenth Century. The Shah had the hookahs of several distinguished visitors to his palace filled with horse droppings instead of tobacco. He asked his guests at intervals what they thought of his tobacco; they invariably pronounced it first-class. In the face of such determination to smoke, one must conclude that, historically, smokers are incapable of yielding to either reason or abuse for their own good. It is a desperate situation which will require the attention of the foremost thinkers of our times.

—*Peterborough Examiner.*

Fish Story

The next time you see a dedicated fisherman buying a "chaw" of tobacco, don't think the hours of solitude at the end of a fishing rod have taken a toll.

Researchers report tobacco juice is one of some eighteen "extracts, flavors and oils" which produce an "active response" on the part of fish.

In fact they suggest it is not "unreasonable" to expect that some of *the tested flavors, and others, might* well be used to attract fish to commercial nets.

The list of flavors which set the fish in motion included beef extract, liver extract, coffee, earthworms, imitation maple flavor, molasses, sugar, tobacco juice and saliva.

And it led to the researcher opinion: "Perhaps spitting on the bait does have some basis in fact."

Now let's check our fishing gear: line, lunch, sunburn lotion, water jug, plug-tobacco, soaked in molasses, sugar, beef extract, liver extract and coffee. . . .—*Winnipeg Tribune.*

Letters to the Editor

Letters to the editor on any topic of genuine interest are welcome if they are brief, accurate and fair. They may be published over a nom de plume, but the name of the writer must be given to the Editor as evidence of good faith. Anonymous letters go into the wastepaper basket. Typewritten letters must be double-spaced.

Mr. Strachan Said Misrepresented

To the Editor:

Sir — Your editorial of June 20th "Opinion and Politics" completely misrepresents both Mr. Strachan and Columbia River development. What Mr. Strachan was asking Prime Minister Diefenbaker to do was that the federal government not allow Premier Bennett's request that B.C. be allowed to sell power generated in the U.S. as a result of water *storage dams in Canada*, 50% of which was to be returned to B.C. under terms of the treaty, back to U.S. The sale of this power to the U.S. would mean the industry would be in the U.S., not B.C.

You say in your editorial "Mr. Strachan must realize that he cannot clearly define the point when his political opposition to the Columbia power development is separated from the economic." While quibbling, whether it should be political or economic you are inferring Mr. Strachan is opposed to power development of the Columbia. This is certainly not so. All the political parties in the last B.C. election were for power development of the Columbia.

Mr. Bennett went one better and said we could have both the Peace and Columbia development. What Mr. Bennett is saying now is that we cannot even have water storage development of the Columbia unless power generated in the U.S. as a result is allowed to be sold in the U.S.

It would indeed be a precedent if the present federal Conservative government endorsed Mr. Bennett's failure to keep his promises to the people of B.C. The past federal Liberal government by act of Parliament prevented the B.C. Social Credit government from committing the Columbia to water storage.

I don't think your readers have been correctly informed that instead of one of the greatest power *development projects in the world* we are being manoeuvered into water storage development of the Columbia. By a misinformed public opinion are we setting the stage for a sellout of the greatest natural resource we have in the Kootenays, Columbia River power development?

H. DRAKE.

West Arrow Park.

New Way of Life Sought

To the Editor:

Sir — I would like to clear up any misunderstanding which now exists. Last January we left the Sons of Freedom group and renounced S. S. Sorokin as our leader. Since then, we have taken no part in any of their activities and have joined the Spiritual Community of Christ (Lebedeff's group).

Recently we have suffered the loss of our home and belongings [illegible] a short time later our car in mysterious fires, seemingly involving us as taking part in the present outbursts of fires and bombings.

The members of the Spiritual *Community of Christ (Lebedeff's)* are against any kind of violence including fires and bombings and are striving to form a new way of life where there could be no private ownership or force of any kind as peace could only come through equality, love and understanding and not through the power of force.

POLLY CHERNOFF.

Winlaw, B.C.

U.K. Announces Plans For North Rhodesia

LONDON (Reuters) — Britain made public Monday its long-*awaited constitutional plan for* Northern Rhodesia but left unanswered the key question of whether whites or Negroes would control government of the central African protectorate.

Under the plan, Negro representation in the legislative council would be increased substantially. But the complicated electoral and other procedures embodied in the plan give no guarantees of a majority for either the Negro or white-led political parties.

The plan adhered to a previous government document which called for a 45-seat legislature, made up of 15 upper roll, or chiefly white, seats, 15 lower roll, or chiefly Negro, seats, and 15 "national" seats, elected from mixed white-Negro voter rolls.

Colonial Secretary Iain Macleod presented it to Parliament. Details of the constitutional proposals were recommended by Northern Rhodesia Governor Sir Evelyn Hone.

The object of the "national" seats, Macleod says, is to attract candidates who could muster bi-racial support.

Alaskan Airline Seeks to Expand

OTTAWA (CP)—An Alaskan airline has applied to the air transport board for a licence to extend its operations into the Yukon territory, it was announced Tuesday.

Cordova Airlines Incorporated of Anchorage seeks to operate a non-scheduled charter service between four Alaska bases and points in the Yukon, principally Dawson city.

The board announcement said persons wishing to oppose the application should file their objections by July 26.

"He doesn't really need them . . . just trying to impress the other dogs on the block!"

Report From Victoria

By HON. W. D. BLACK, Provincial Secretary, Minister of Municipal Affairs, Minister of Social Welfare.

A complete study of family spending habits was made by the *Dominion Bureau of Statistics in* 1957. The results of this study are reflected in a revised Consumer Price Index, which became effective this spring.

The old index was based on expenditure patterns of 1946 and, with 1949 equal to a basic figure of 100, demonstrated the measure of price changes as they affected families in cities having more than 30,000 inhabitants.

With the new index being based on the 1957 survey, several interesting changes over the previous index are apparent. Less weight will be given in the new index to food, which apparently now takes a smaller proportion of the consumer dollar than it previously did. According to the Dominion Bureau of Statistics, food took only 28 per cent of the family budget in 1957, as compared with 32 per cent in 1948.

On the other hand, there was an increase from 25 per cent to 32 per cent in the share of the family budget spent on a wide variety of goods and services, among which we find transportation, health, recreation and tobacco. More weight is also given to the cost of operating a car. Also the cost of fuel oil as opposed to that of coal in the 1948 index basis.

The old index measured a total of 225 items which accounted for the bulk of consumer spending in 1948. The new index adds 38 items, bringing the total to 263. Among the additions may be found electric sewng machines, toys, sports equipment, television repairs, jewelry, air travel and admissions to hockey, football and baseball games.

MORE FOOD ITEMS

A number of food items are included in the new index for the first time. These cover such items as tomato ketchup, salad dressing, canned pineapple, fresh strawberries and peaches. Also included are restaurant meals which are claimed to take approximately 10 per cent of food spending.

Some of the items missing from the new index are the cost of brooms and mops, laundry soap, ice and men's overalls. The 1957 survey indicated that such *things play only a minor role in* the average city family budget as compared with 1948.

Thus the figures of the Dominion Bureau of Statistics point to changing habits of our Canadian people during the past decade. It will be interesting to witness the changes that may occur in the following ten years.

Gov'nor-General Visits Three Races in Arctic

By BRUCE LEVETT
Canadian Press Staff Writer

INUVIK, N.W.T. (CP)—Governor - General Vanier crossed the Arctic Circle Monday to visit an area where three races of people are making their future together.

The vice-regal party was to spend two days in Inuvik—most northerly stop on a 6,000-mile *tour of northwestern Canada.*

Shortly after their arrival, Knut Larg, member of the Northwest Territories council for Mackenzie Delta, welcomed the Governor-General and Mme. Vanier on the steps of the Inuvik federal school.

Below them were gathered many of the 560 children who attend the school. Some wore *kuluiuks and parkas for the 40-* degree weather. Others shivered in poplin.

Mr. Lang said Eskimos, Indians and whites are all living peacefully together in Inuvik, "an enviable situation."

The Governor - General said the "boys and girls of the (Northwest Territories) are the children of men who have developed the best means of living in a difficult, sometimes hostile environment. Canada needs them. She offers ample scope for their vison and hardihood."

"The word Inuvik comes from the Eskimo and means place of man. What a happy name. For this is a town created from the wilderness by human foresight and skill."

The vice - regal party flew *here from Norman Wells,* N.W.T. one of the last persons the Governor-General met there was Angus Sherwood, 70, who has met five governors-general, all of them along the Mackenzie River.

"I met Lord Byng in 1925 at Fort Simpson," he said.

At that time Mr. Sherwood was post manager for the Northern Trading Company, a fur-buying firm. He was a sawmill operator near Fort Norman when Lord Tweedsmuir came through.

At the time of Lord Alexander's *visit, he was working in* Norman Wells, and it was at Norman Wells in 1956 that he met Vincent Massey.

SET BACK

VERNON (CP)—The building program for school district 22 has been set back a month because of a delay in receiving building plans. Probable cause of the delay is usual demand for school building plans caused by a grade seven switch from high school to elementary school effective next term.

Ottawa To Increase Mobile Columns for Rescue Action

By DAVE McINTOSH
Canadian Press Staff Writer

OTTAWA (CP)—The number of army mobile columns which would go into rescue action in event of nuclear bombardment of Canada will be trebled to some 200, official sources said Monday night.

The threefold increase will require enlargement of the 42,000 - member Canadian militia. Exact size of the increase has not been determined but it will run into thousands.

The army, in its expanding national survival role, will also *establish target area headquarters* some 30 miles from the 15 or so prime nuclear targets in Canada, mainly big cities. This work will begin this fall.

The army's original plan for radiation detection, reconnaissance, rescue and re-entry into bombed areas called for formation of 66 mobile columns by the regular and reserve army.

COLUMNS INADEQUATE

It was soon found the number was inadequate. A city the size of Ottawa—260,000 population—would require at least six mobile columns.

The army went back to the government with its revised plan for more columns, a bigger militia and target area headquarters. These all now have been approved by the cabinet and details are being worked out by army commands across the country.

A few mobile survival columns will be composed of regular army personnel entirely.

The big majority of columns will have regular and reserve army personnel as nuclei but they will have to be fleshed out with civilian volunteers.

WON'T CONSCRIPT MEN

When and how these volunteers are obtained has not yet been explained. All the government has said specifically on the subject is that it won't conscript persons for civil defence.

The militia will be expanded particularly in areas adjacent to target cites.

The point is, of course, that militia units on the fringes of target areas would be in the best positon to carry out rapid re-entry and rescue operations.

Militia units within cities are not being downgraded, however.

The defence department has never tried to hide its belief that the armed forces combined —120,000, not counting reserves —could not handle the casualties in a nuclear attack.

Usual Safety Warning Out for Dominion Day

By THE CANADIAN PRESS

Fun, formality and violent death, the usual components of a Dominon Day holiday in Canada, may be curtailed this year because the anniversary of Confederation falls on a Saturday.

Last year the July 1 weekend saw 122 persons killed in accidents, the worst three-day holiday toll in Canada's history.

Ontario led with 41 deaths including 24 road fatalites and 14 drownings. Quebec had 33 accidental deaths, including 20 in traffic and 12 in water mishaps. Prince Edward Island was the only province without a fatality.

The toll in other provinces: Newfoundland, 3; Nova Scotia, 5; New Brunswick, 2; Manitoba, 12; Saskatchewan, 2; Alberta, 7; British Columbia, 17.

WARNINGS ISSUED

Safety organizations have issued the usual warnings. If the death toll is low, however, it may be primarily due to the fact that many Canadians will not have three days off as they had last year with a Friday holiday.

The Federal Act proclaiming Dominion Day a holiday makes no special provision for it falling on a Saturday. Those who normally have Saturday off may get an extra day—*in some cases* Friday or Monday—depending on where they live, how the local and provincial governments feel about it, or whether their union or employer feels an extra day is due.

Montreal has no official celebrations planned, but stores and offices will be closed Saturday. In Quebec City, main event will be a celebration at the Champlain monument where various groups will place flowers and Premier Robichaud of New Brunswick will speak.

STAGE HUGE PICNIC

The Winnipeg Caterers' Association will celebrate its 75th anniversary by staging a picnic expected to attract 10,000. Most retail stores in Winnipeg will be closed July 1, but will make up for it by remainng open Friday and Monday nights. Licensed premises will be open, but liquor stores will be closed.

Provincial track and field championships at the annual Highland games will highlight Edmonton's observance. At Fort Macleod Ottawa's Mayor Charlotte Whitton will be guest at a rodeo and will be made an *Indian princess.*

Sporting events will hold the spotlight in British Columbia. Harry Jerome will try to break the world record of 9.2 seconds for the 100-yard dash at the Vancouver police sports day. Mission City will hold its annual Western Canada soap box derby. Canoes will race 140 miles down the rapid-studded waters of the Stuart, Fraser and Nechako rivers for $2,000 prize money as part of Prince George's Simon Fraser days celebrations.

Your Individual Horoscope

By Frances Drake

Look in the section in which your birthday comes and find what your outlook is, according *to the stars.*

For Thursday, June 29, 1961

MARCH 21 to APRIL 20 (Aries) — Neither stimulating nor a depressing day. Much will depend upon your demand schedule. You will have to work harder if you need to, but do those usual duties and tasks without strain.

APRIL 21 to MAY 21 (Taurus) — Very friendly day for especial interests and activities you enjoy. Fine period for the arts, scientific study, and many family and other personal matters with which God has blessed us.

MAY 22 to JUNE 21 (Gemini) — Not all benefic for brain work, originating new ideas, making unusual improvements generally. But keep your interest and ambition high, don't shirk tedious tasks, you will advance.

JUNE 22 to JULY 23 (Cancer) — Personal restrictions may be necessary now to make things easier, run smoothly. Accept what must come your way cheerfully. It is good to have periods for *reflection, checking scores.*

JULY 24 to AUGUST 23 (Leo) — Similar indications to Cancer now. Be your genial, helpful self, attend essential tasks and activities without complaint. Day will pass quicker and returns will be greater.

AUGUST 24 to SEPTEMBER 23 (Virgo) — Not a "push-over" period according to planet Mercury. But this can be an interesting, challenging day if you accept it as such. You have spunk, can overcome obstacles with intelligence and will.

SEPTEMBER 24 to OCTOBER 23 (Libra) — Happy, helpful influences from "your" Venus. Make the most of fresh opportunities, new openings through which you can gain. Confer with superiors, those qualified to assist and advise.

OCTOBER 24 to NOVEMBER 22 (Scorpio) — Waning influences from Mars still linger and they can be helpful, stimulating, especially for arduous work, activities *requiring vigor, endurance,* courage. Faith! You can win.

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — Benefic influences between two very good planetary days. You should *have renewed impetus and desire* to achieve in a big way. Make wise plans and with your cleverness go to work.

DECEMBER 22 to JANUARY 20 (Capricorn) — Get out that old enthusiastic effort to accomplish in endeavors where you have knowledge. Some matters may be anticipated to get good start. Romance, personal, family affairs rate.

JANUARY 21 to FEBRUARY 19 (Aquarius) — Seek direct results in straightforward, energetic action. Farming, industry, building, domestic matters among top sponsored. Get into swng of things, offer your services.

FEBRUARY 20 to MARCH 20 (Pisces) — Some uncertainties bear watching. Forewarned is forearmed. Adequate preparation, a sensibly smart program can be key to gain today. Be serious, but not forceful beyond needs.

YOU BORN TODAY are the proud possessor of a hatful of talent which must not remain dormant. You have a persuasively assertive disposition; are keen, a good judge of business matters in general. A fearless nature mostly; can overcome difficult conditions. The acquisition of more and vital knowledge comes easily to you, and you rarely lose retentiveness though you absorb much and readily. Are kindly, with a real feeling for those less fortunate, and desirous of lending a helping hand. Stay steadily alert, soundly ambitious. Birthdate of: Peter Paul Rubens, Flemish painter; G. W. Goethals, builder of the Panama Canal; Wm. E. Borah, political leader.

Idealism Needed In Salesroom Or Garage Says Ford Executive

ST. ANDREWS, N.B. (CP)—It is no use paying lip service to idealism in church, service club or local council if it is not practiced in the salesroom or service garage, John D. King, vice-president, marketing, Ford Motor Company of Canada Ltd., said Monday night in an address to the Atlantic Provinces Auto Dealers Associatons.

Stating that "idealsm" should be part of the "so-called hard - boiled automotive business," Mr. King added:

"A general belief, however erroneous, seems that to be successful a dealer and manufacturer must be capable of bending slightly in the direction of the unethical.

"The very nature of our product makes us an open target for public criticism and complaint. It represents both a major investment and a depreciating possession. A man will install a new heating system in his house and write it off as an investment. Not so when he is called upon to foot the bill for repairs to his car."

REQUIRE SERVICE

Prescribing a course for dealing with the public, Mr. King urged:

"Let us recognize the continuing service needs for Canada's 5,250,000 vehicle owners. Since Canada sells close to 500,000 new vehicles a year, for every new purchaser there are close to 11 owners requirng service. *We are often prone to forget* those 11 in our desire to make an immediate sale.

"For the average person one of the major expenditures of his lifetime is the purchase of an automobile. It is no longer the status symbol it was. If a family is to have the fullest possible life an automobile is a necessity.

"However, the customer is relying on you for help and guidance. In a used car, particularly, you are the expert who knows what really lies under the hood. Sell him a car you wouldn't buy yourself and you are handing him a headache tht aspirins won't cure. You are also making an enemy for the whole industry."

Mr. King's comments were contained in a text made available to the press in advance of delivery.

Vets Identify Soldier Who Captured 2000

KITCHENER (CP)—Veterans of the Highland Light Infantry of Canada said Tuesday the late Major Gordon Sim was "almost certainly" the Canadian who single-handed took 2,000 German prisoners during a Second World War battle at the Falaise Gap.

The major, known as Susie to men of the Galt-Kitchener unit of the 9th (Highland) Infantry Brigade in Northwestern Europe, was killed soon after the Falaise battle near Rouyn.

The identity of the Canadian has been sought by Abbe Launday, the parish priest of the French village of Tournai - surdive. It was Abbe Launday who convinced the German major to surrender and who accompanied the German soldiers to the Canadian lines. His story was told in an edition of Paris Match.

About the Town

PHONE 1844

After spending the past three years in Nelson as teacher of English and history at L. V. Rogers High School, Miss Joan Gallant leaves this weekend for her home in Sydney, Nova Scotia, where she will visit before taking up a teaching post at Baden Baden, Germany, with the Department of National Defence at the Royal Canadian Air Force base there. Miss Gallant will spend two years at this station. She taught at Kamloops and Creston Junior High Schools before coming to Nelson. She has been associated with several high school drama productions while here, as assistant director.

* * *

Motoring across Canada from Noranda, Quebec, Mr. and Mrs. David H. Brown and their children Donald, Allan, and Lesley arrived in Nelson Saturday to visit Mr. Brown's brother and sisters-in-law, Mr. and Mrs. R. E. Brown, 901 Third Street, with whom they are staying, and Mr. and Mrs. Norman A. Brown, 111 Houston Street. They will leave today for the Coast where they will visit Mr. Brown's father, G. A. Brown, fromerly of Nelson, and Mrs. Brown's mother in Vancouver. They will return to Noranda after a month's holiday.

* * *

Miss Margaret Baker, teacher for the past year at L. V. Rogers High School, leaves in mid-July for Europe to spend two months travelling before returning to Vancouver in September to enter University of British Columbia for further study. She will visit friends in England and then will tour the Continent including the Scandinavian countries and as many other European centres as she has time for. She has taught physical education and health and personal development at the high school here as well as general program math.

* * *

Mr. and Mrs. D. R. Hoffman, formerly of Nelson and now of Vancouver, are visiting Mrs. Hoffman's parents, Mr. and Mrs. Toefle Buttnor, 24 Ymir Road, and many friends while here.

* * *

The Associated Canadian Travellers and their families held their annual picnic at Kokanee Park last Sunday, with races and boating enjoyed by the children. William McIlvena and Dale Ellefson were in charge of refreshments, P. S. Cook the children's races and Ray Wood took the children boating.

* * *

Miss Clare Williscroft has returned to Vancouver after spending holidays with her parents, Mr. and Mrs. G. M. Williscroft of the North Shore. Miss Williscroft plans to attend summer school at University of British Columbia, working towards her Master's degree.

* * *

RCMP Inspector and Mrs. F. W. Joinson, 415 Fourth Street, have had as recent guests, Mrs. Joinson's nephew and his bride, Mr. and Mrs. H. E. Urness, both of whom are graduates of University of Arizona this year. Mr. and Mrs. Urness, who were on their wedding trip, were en route to Regina, where Mr. Urness will join the Regina Roughriders for the coming season.

* * *

Mrs. Wayne Lloyd Wharton, whose marriage to Lieut. Wayne Lloyd Wharton of the Royal Canadian Engineers took place recently in Kingston, Ont., is visiting her husband's parents, Mr. and Mrs. Lloyd J. Wharton, 512 Anderson Street, while Lieut. Wharton is on manoeuvres at Camp Wainwright, Alta. for three weeks, after which he will come to Nelson to join his wife and visit his parents.

Many Topics Discussed at Robson WI

ROBSON — The regular monthly meeting of the Robson Women's Institute was held at the home of Mrs. O. B. Ballard with the president, Mrs. Scott, in the chair and a variety of topics discussed.

In the agriculture committee report, given by Mrs. Waldie, members heard that a letter has been sent to school children telling why the Institute was unable to have a garden contest this year. The citizenship committee report by Mrs. Chalmers pointed out the good citizenship of Robson residents during the high water crisis, and she expressed appreciation for kindness and help offered when having to vacate her home.

The Institute Park came up for discussion, and a number of members were unsure of the location. The secretary was requested to write the department of agriculture and inquire if the Institute may own land.

Mrs. Grant gave a tip on how to clean glasses — dip a piece of cleaning tissue in cologne, clean them with this and they will not fog up in the winter, she said.

Refreshments were served by the hostesses, Mrs. Waldie and Mrs. Evans.

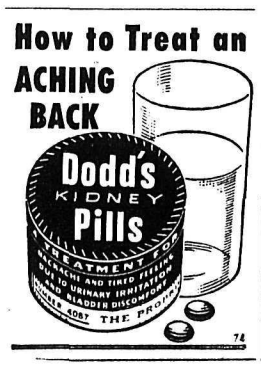
Third Nelson Guides Receive First Aid Kits

Looking back on success in recent first aid competitions, the Third Nelson Guide Company received first aid kits at their final meeting of the season held at the Memorial Hall Monday.

District commissioner Mrs. J. McDonald presented the kits to the Guides. During the year, badges have been won for cooking, hostess, fire-fighting and first aid. The Robertson - Hilliard - Cattell shield for Guide companies was won in competition at a meet held at Kokanee Park. The team also entered the Mine Rescue trials held recently, and won second place in the novice first year class.

Leaders of the company are Captain Miss Greta Curwen and Lieutenant Miss Audrey Allen.

W. F. Dalling was the Guides' first aid instructor.



Heads S. Slocan Community Club

SOUTH SLOCAN — The South Slocan School and Community Club held its annual meeting in the elementary school with Mrs. R. Wiest elected president.

Other officers are Mrs. J. Street, vice-president; Mrs. A. K. Ross, secretary only until the September meeting, and Mrs. W. Conkin, treasurer.

Mrs. D. Axworthy is refreshment convener and Mrs. H. Nixon agreed to go on the phoning committee. Other committees will be elected at the September meeting. Refreshments were served by the hostesses.

Family Key to Peace Security, WIs Told

By H. L. JONES
Canadian Press Staff Writer

VANCOUVER (CP) — The Federated Women's Institutes of Canada convention was told that the family can be a greater force for world peace and security than any "prohibitive action."

The speaker was Dr. Nancy Adams of Ethelton, Sask., area vice-president of the Associated Countrywomen of the World. Speaking to the closing session of the second national convention of the Canadian institutes, she said:

"If we can build peace and security in the family it will grow to be a force more powerful than any prohibitive action for peace and security and in this respect we must accept our responsibilities.

"We are training our women for a world that is one world, training them to understand and to know the women in other countries of the world."

She told the cheering delegates that everyone wants freedom, peace and security, but "let us not confuse freedom with the free and easy." There was work to be done.

400 DELEGATES

Her address was a highlight of the closing session of the institute's five-day national convention which drew some 400 delegates from all parts of Canada.

By resolution the convention urged expansion of its work in the north among the Eskimos and Indians, lauded the federal government's recently - announced probe into the price of drugs and urged a review of the Immigration Act to ensure that immigrants would make desirable Canadian citizens and to ensure that any deportation practices are fair.

A controversial resolution demanding that family allowances not cease for children at the age of 16 but continue until they finish high school, was defeated by a show of hands. Most delegates argued continuation of the payments for children beyond the age of 16 might result in parents keeping backward children in school just to collect from the federal government.

The institute, mainly a body of farm women, heard a report from Mrs. Grant Floyd of Sussex, N.B., that clubs across Canada indicated an optimistic outlook on the part of rural women. They were interested in the changing trends in agriculture, industry, farm management, safety, forums, credit and even artificial insemination.

In another report Hilda Ramsay of Indian River, P.E.I., stressed the need for more adult education in Canada.

HEADS JUNIOR CHAMBER—New national president of the Junior Chamber of Commerce is Bob Conger, Jackson, Tenn., who poses in convention regalia with his wife Virginia after his election in Atlanta, Ga. Conger is a lumber executive.

Fairview United Church Scene of Thielmann-Mermet Wedding Event

Traditionally gowned in chantilly lace and embossed net over taffeta, Maxine Colleen Mermet was a picture as she walked down the aisle to exchange wedding vows before the altar of Fairview United Church with Mr. Ervin Aaron Thielmann on Saturday, June 17, at 7 p.m.

Lovely in a floor-length princess-styled gown, the daughter of Mr. and Mrs. George Mermet of Nelson was given in marriage by her father to the son of Rev. and Mrs. George Thielmann of Chilliwack.

Rev. H. R. Whitmore read the double ring marriage service. The interior of the church was decorated with bouquets of roses for the well-appointed wedding ceremony.

The bride's gown, with gracefully sweeping skirt, Sabrina neckline trimmed with sequin and seed pearl-sprinkled lace medallions, and lily-point sleeves, was complemented by her billowing, fingertip illusion veil, held in place by a lace cap with pearl drop on the forehead.

She carried a cascade bouquet of American Beauty roses.

Attending her sister as matron of honor, Mrs. James Corwell of San Francisco chose white lace over apple green taffeta, with matching headpiece, and her colonial bouquet was of white carnations.

Bridesmatron Mrs. Henry J. LeMoigne of Nelson, cousin of the bride, was gowned in lilac lace over taffeta with matching headpiece, and she also carried a colonial bouquet of white carnations.

The bridegroom was supported as best man by Mr. Henry J. LeMoigne, cousin of the bride, and Mr. George Thielmann of Chilliwack, brother of the bridegroom, was usher.

During signing of the register, Miss Jane Pearson sang "The Wedding Prayer."

At a reception held in the Hume Hotel, the bride's mother assisted in the receiving line attired in a blue lace gown with three-quarter length lace coat, pink accessories and pink carnation corsage. The mother of the bridegroom assisted also in a mauve and white floral jersey suit with white accessories and white carnation corsage.

A three-tiered wedding cake was cut and passed by the bride's sister to the wedding guests. Mr. LeMoigne proposed a toast to the bride.

The newlyweds are making their home in Vancouver, where the bridegroom has been transferred by the Household Finance Company. The bride was formerly an employee of the Canadian Imperial Bank of Commerce.

Out-of-town guests attending the wedding were Rev. and Mrs. George Thielmann and daughters, Margaret and Betty; Miss Charlotte Thielmann and Mr. George Thielmann of Chilliwack; Mr. and Mrs. James Corwell of San Francisco.

MR. AND MRS. ERVIN AARON THIELMANN OF VANCOUVER.—*Photo by Renwick Studio.*

Teen Dancers Entertain at Willow Haven

BALFOUR—The teenage group, the Balfour Beaux Belles, entertained patients at Willow Haven with a selection of difficult square dances called by J. G. James of Nelson.

A two-step, "Siesta in Sevilla" and the Three Penny Waltz added variety. Feet were tapping, and many happy smiles noted when the number "Old Fashioned Girl" was performed.

Mr. and Mrs. James were greatly applauded for their performance of a Hungarian folk dance.

Those participating were Nancy Craigdallie, Pat Webber, Loretta Sammartino, Anne Wellwood, Harry James, Mike Malloy, Norm Kuhn, Dale Sweitzer and Britt Bowles.

Little Helpers Party Held at Invermere Home

INVERMERE — The annual Little Helpers party with the Women's Auxiliary of Christ Church in Invermere as host, was held at the home of Mrs. Clarence Degerness of Invermere, with 35 Little Helpers and 17 mothers attending. All had the pleasure of meeting the Rev. Gavin Rumsey, recently arrived at the Parish of Windermere.

South Slocan

Mrs. A. Mech of Berlin, who has been a guest of her sister, Mrs. N. H. Brewster, has left for Calgary where she will visit her brother before returning home.

Miss Jean Street, student nurse at Vancouver General Hospital, is spending a month with her parents, Mr. and Mrs. J. Street, of South Slocan.

Mrs. V. Brewster has returned from Ontario, where she visited her son-in-law and daughter, and also attended the graduation from college of her granddaughter.

Nelson WI Assists District Children

Through the Mary Esling Davidson Memorial Fund, three children from Rock Creek and five from Westbridge have received assistance in buying glasses, it was reported at the final meeting of the Nelson Women's Institute for the season.

Mrs. H. E. Thain, fund convener, gave the report at an Institute meeting held at the WI room at the Civic Centre.

Final plans were made for entertaining 30 blind citizens.

The Institute will reconvene in September.

A get-well card was sent to member Mrs. J. B. Brown, who is in hospital at present. Letters of thanks from the Solarium and the Children's Hospital for donations were read.

Tea hostesses for the afternoon meeting were Mrs. E. Lawrence and Mrs. B. C. Affleck.

BALFOUR GUIDES ENJOY HIKE UP BALFOUR BLUFFS

BALFOUR—First Balfour Company of Girl Guides enjoyed a hike and picnic, final activity for the season, under the supervision of Captain W. Nelson and Lieut. Mrs. J. Heuston.

They followed the old logging road through the MacKay property and ate their lunch on Balfour Bluffs. Judy Anderson was awarded the religion and life badge, and Lynne MacNown the child nurse badge.

Games and singing completed the day.

Boswell Notes

Miss Mabel Elliott and Miss Diane Webb of Edmonton are spending a holiday in Boswell, visiting with friends and staying at Destiny Bay.

By TRACY ADRIAN

There's a quaint air, reminiscent of Grandma's pinafores when she was a little girl, about this charming print frock. Made of burnt orange print cotton, the dress has a dainty white collar, puff, elbow-length sleeves and a full skirt. Trimmed with white ric-rac, it is designed with a co-ordinated solid underskirt and side pockets.

Fernie Pioneers Observe 50th Wedding Anniversa

FERNIE — Mr. and Mrs. John Bella, long time residents of Fernie, celebrated their fiftieth wedding anniversary here.

Mrs. Bella, the former Elizabeth Hovan, is one of Fernie's oldest residents, having come here in the fall of 1898 and moving into the first house in Coal Creek, site of the first coal mines in the area. Mr. Bella came to Fernie in 1909.

They were married in Fernie June 19, 1911, and raised a family of 14, five boys and nine girls, all of whom are living.

Mr. Bella was employed by the Crow's Nest Pass Coal Company in Michel and Coal Creek for 45 years before his retirement about eight years ago. He served as alderman on the Fernie city council for several years, following the return of local autonomy to the city in 1945. He was a charter member of Fernie Council, Knights of Columbus, which was established in 1920.

Mrs. Bella has been an active member of the Catholic Women's League since its organization many years ago.

Observance of the day began with a solemn anniversary High Mass at 10 a.m. in the Holy Family Church, Fernie, with Rev. J. Barnes as celebrant, Rev. Father Healy of Cowley as deacon, and Rev. Father Fleming of Coleman as subdeacon. Peter George was master of ceremonies.

Following Mass a family breakfast was served in the family home, during which many messages of congratulation were read including one from Gov.-Gen. and Mrs. Vanier.

In the evening, a large number of friends paid a surprise visit to the Bella home, where the honored couple were presented with gifts.

Members of the family attending the celebrations were all five sons, Allan S., John and wife, Henry, Tommy and wife, all of Penticton; and Jerry of Trail; daughters Margaret, a lieutenant in the RCN at Esquimalt; Carmen of Edmonton, Mrs. Jim (Delphine) Kennely and husband of Cranbrook, Mrs. Rudy (Patricia) Gigliotti of Cranbrook, and Monica, Rita and Peggy at home; a grandson, John Bella, of Vancouver; Mrs. Bella's sisters, Mrs. Susan Windle of Vancouver and Mrs. Mary Janostak of Grand Forks; a brother, Capt. Hovan of New York, and a brother, J. S. Hovan and Milk River, Alta.; Mrs. Kenelly of Cranbrook, and Mrs. George Bella of

The club adopted a c Italy for the second year auspices of the Save the C Fund.

Guild Admires Simpson Garden

GRAY CREEK — Gray Creek and District Garden Guild held a successful meeting at the home of Mr. and Mrs. Fred Simpson at La France. In the absence of the Guild Master, Mr. Bayliss was elected to the chair.

Members toured the Simpson garden, admiring particularly the begonia-bordered pool, the galtonia and giant foxgloves.

Reports on acheme growth were varied. Mrs. Simpson showed a hanging basket line with moss, filled with soil from which the plants grew, on the point of blooming.

There were three guests, all recently arrived from England, Mrs. Hurst of Hendon, Mrs. A. Clarke of Petersfinger, Salisbury, and Mrs. Lloyd of Coombe Bissett, Wiltshire.

Mrs. Lloyd's two cousins, Major Rigby and Mrs. Russell, once made their home in Boswell.

Eagles L.A. Observ Anniversary Night

Charter members and past presidents attended the 14th anniversary of the Ladies' Auxiliary to the Fraternal Order of Eagles, Nelson Aerie.

A large decorated cake, decorated and glowing with candles, was cut and served. The cake was made and decorated by President Mrs. J. Ludwig.

Charter members attending were Mrs. W. Smiley, Mrs. Louis Santor, Mrs. Alberina Trinca, Mrs. C. A. DeFerro, Mrs. G. A. Edwards, Mrs. F. W. Cartwright, Mrs. M. A. Peloso, Mrs. Ludwig and Mrs. D. H. foot.

Past presidents attendin Mrs. Edwards, Mrs. J. Nabb, Mrs. C. A. Jensen C. R. Catton, Mrs. J. M and Mrs. Proudfoot.

The Eagles L.A. will with the annual Eagles' and also plan to entert blind in the district.

Mrs. Morrison gave a re the provincial convention Vancouver.

Polio Victim Awarded $600,000

LOS ANGELES (AP) — A jury awarded $500,000 to Bryan John May, 11, whose crippling polio attack six years ago was blamed on faulty anti-polio vaccine.

An additonal $75,000 was awarded Monday to his widowed mother, Mrs. Norma Marie May, 41, for her own suffering and medical expenses.

The suit against Cutter Laboratories of Berkeley, Calif., claimed Bryan was paralyzed with the disease in April, 1935, shortly after vaccination with Salk-type serum produced by the firm. Live polio virus was found in the serum, it was testified.

The verdict was the largest sum ever awarded in a U.S. personal injury suit, the boy's lawyers said.

Bryan was almost completely paralyzed when he was 5. He can now move two fingers of his right hand and the toes of his right foot.

Jewish Mayor Chosen In Ireland

By MICHAEL ROONEY

DUBLIN (AP)—For the second time in five years Dublin has the same Jewish lord mayor.

He's Robert Briscoe, of course, the ardent Irishman and orthodox Jew whose election as Dublin's first Jewish mayor created something of a sensation.

In 1956, he became mayor when his name was pulled from a black bowler to break a tie. By the same traditional draw the next year, he missed re-election.

But in the city council election Monday night Alderman Briscoe drew 22 votes against a total of 21 for his three opponents. The public galleries burst into applause, and Briscoe took the gold chain from a member of another minority group in this overwhelmingly Catholic capital, Maurice Dockerell, a Protestant.

Now 67, Briscoe is probably the best known mayor Dublin has ever had.

MADE ROUSING TOUR

He followed his first election with a rousing seven-week visit to the United States and Canada in 1957.

He brought with him a ton of Irish goods, including shillelaghs, glassware, Irish whisky and the like. At social functions he would raise a glass of his country's spirits and offer a toast—in Hebrew.

Briscoe visted the U.S. first in the 1920s to plead for support for Irish independence. He was one of the Irish Republican Army youths who seized the Irish Free State consulate in New York until a police riot squad drove them out.

Though a devout Jew himself, he does not impose his will on his children. Of his four sons and three daughters, two of the girls, Elise and Joan, have been converted to Roman Catholicism. Elise entered a convent last year to become a Carmelite nun.

One daughter lives in Canada. She is Dr. Frances Joan O'Reilly, wife of Dr. Hugh O'Reilly of Kingston, Ont.

Typhoon Cora Withdraws From Japan

TOKYO (Reuters)—Typhoon Cora weakened and moved off the coast of Western Japan Tuesday after three days of death and destruction.

Police said 23 persons were killed, 31 missing and 45 injured. More than 82,000 persons were homeless.

Three persons were reported killed as flood hit Manila amid heavy Monsoon rains in the northern Philippines.

Eighty per cent of the city was estimated to be under water after overnight rains and gusty winds.

MAIL VOTE

VERNON (CP)—North Okanagan milk producers have decided to ask for a vote by mail on a proposed revised milk quota system. In Armstrong producers met in stormy debate on the subject. A resolution asking for the vote by mail was proposed by Jack Armstrong, president of the Armstrong Cheese Co-operative Association.

the Bay have fun Outdoors

Answer the Call of the Great Outdoors . . . at Home or on the Go. Make Play While the Sun Shines, Longer and Warmer Each Day. For What It Takes, See Us!

The Mosport track, described as one of the finest in the world, drew a crowd of 40,000 on the weekend. Moss won the feature event easily.—*TNS photo.*

Chuvalo Clobbers Besmanoff in Fourth

TORONTO (CP) — Canadian heavyweight champion George Chuvalo blasted Germany's Willi Besmanoff into helplessness Tuesday night, scoring a knockout in the fourth round of a scheduled 10-rounder at Maple Leaf Gardens.

The Toronto fighter, scoring the most impressive victory of his career, belted Besmanoff to the canvas seven times, six in a wild second round.

The seventh and final knockdown came at 1:29 of the fourth round and it was the end for Besmanoff, who had never before been knocked off his feet in 98 professional fights.

Chuvalo weighed 212½, Besmanoff 203½.

A crowd estimated at 5,000 screamed as Chuvalo delivered a round-house left hook that caught Willi flush on the side of the jaw. Besmanoff slumped to the canvas and referee Billy Burke tolled the count of 10.

ANTI-CLIMATIC FINISH

But this was the anti-climax. After a mild first round in which both men felt each other out, Chuvalo went to work in the second. He landed a hard right to Besmanoff's head and the 28-year-old native of Berlin went down for a five-count.

Chuvalo charged in and unleashed a two - handed attack that drove Willi through the ropes for a mandatory eight-count. Besmanoff was hardly back in the ring when bull-shouldered George slugged him through the ropes again with a vicious right to the head.

Chuvalo dropped Willi again seconds later with another clubbing attack. Besmanoff, by this time almost out on his feet, came back gamely but was punched through the ropes for the third time.

Then, with only seconds left in the round, Chuvalo connected with a solid left to the head that felled his opponent in the middle of the ring for a count of six.

Chuvalo went after his man in the third round, but Besmanoff managed to clinch his way out of trouble. Then came the fourth when Chuvalo applied the clincher.

RANKS FIFTH

Chuvalo, 23, and ranked the fifth leading heavyweight contender in the world, posted the 16th victory and 11th knockout of his brief professional career. He has lost five and drawn once.

Besmanoff appeared ring-rusty. The 28-year-old German had not fought since February and now combines boxing with selling stocks and bonds in New York. He suffered his 27th defeat. He has won 66 and fought five draws.

After the fight matchmaker Jack (Deacon) Allen, who also serves as Chuvalo's adviser, said there was "an outside chance" of George meeting world champion Floyd Patterson in the fall.

"I hear that Patterson might fight this guy McNeeley in Boston. But he's not even ranked. Patterson won't have anything to do with Sonny Liston or Henry Cooper. And Johanssen won't get another chance."

Reds Come From Behind for 11th

By THE CANADIAN PRESS

Four Cincinnati pinch batters produced two singles, a walk, and a base - cleaning triple as the Reds came from behind to defeat Chicago Cubs 10-8 Tuesday. It was the National League leaders' 11th victory in the last 13 games.

The Reds had two on and two out in the seventh when veteran Gus Bell blasted a run-making lief, drew the loss, his sixth against four victories.

10,000TH TIME

Bob Buhl pitched a six - hit shutout and Eddie Mathews hit a two-run homer, giving Milwaukee Braves a 3-0 victory over St. Louis Cardinals.

About the only bright spot for pinch single. Gordy Coleman also stroked a pinch single good for the second run.

Rookie catcher John Edwards, recalled from Indianapolis of the American Association Monday, drew a base-filling walk.

Jerry Lynch then batted for Jay Hook, second of Cincinnati's three pitchers, and tripled to the foot of the right field foul line to clear the bases.

Hook was credited with the win, his first among three decisions. Bob Anderson, starter Dick Ellsworth's immediate re the Cardinals was the performance of Stan Musial, who celebrated his 10,000th time at bat by hitting a double to centre field.

Only four players, Ty Cobb, Tris Speaker, Honus Wagner and Walter Maranville, have gone over the 10,000 mark in at bats.

Curt Simmons, the Cardinals' hard-luck pitcher, took the loss. Simmons had two hits, both of the infield variety, as he tried to do something in his own behalf.

San Francisco Giants overwhelmed Philadelphia Phillies 12-5.

Giants pitcher Juan Marichal held Philadelphia to four hits and no runs through eight innings but the Phillies knocked him out of the game with a five-run ninth inning rally. Marichal was the winner.

CEPEDA STARS

Orlando Cepeda had two singles and a double to pce the Giants 13-hit attack. Tom Haller drove in three runs with a double and single and Chuck Hiller, Willie Mays and Willie McCovey all helped themselves to two hits each.

John Buzhardt was the loser.

Los Angeles Dodgers and Pittsburgh Pirates pounded out a total of 30 hits and the Dodgers emerged with a 9-5 victory.

John Roseboro sparked the Dodger's 16 - hit attack with three singles, a sacrifice fly and three runs-batted-in. Jim Gilliam also singled three times.

The Pirates collected 14 hits, but couldn't catch the Dodgers in the run department. Roberto Clemente batted out four singles for the Buccos.

Dick Farrell, the second of three Dodger pitchers, was credited with the victory, his sixth against five defeats.

Pirate starter Bob Friend was charged with the loss and is now 8-8.

QUELLS TIGERS

In the American League Juan Pizarro quelled Detroit Tigers on five hits in the second game of a double bill as rampaging Chicago White Sox stretched their winning streak to 12 games with 6-5 and 11-1 victories.

Minnesota Twins swept a doubleheader from Boston Red Sox although the Twins had to survive a three-run uprising in the ninth for a 6-3 nightcap victory. The Twins won the opener 6-5.

Marv Throneberry, Jim Gentile and Ron Hansen hit home runs for Baltimore as the Orioles twice downed Kansas City Athletics 5-3 and 7-2.

Veteran Eddie Yost, who had batted in only two runs all season, drove in four with a single and a game-winning homer as Los Angeles Angels defeated New York Yankees 7-6.

3rd Girls' Team Formed by 'Summer Heads

Formation of a third girls' team and decision to run a separate girls' division of the Nelson Midsummer Baseball tournament, was announced last night by Cy Jackman, tournament manager.

The girls will play a schedule among themselves, and will not compete with the boys' teams, excepting for a possible grand championship play-off at the end of the double tournament.

It was felt the girls aren't ready to play against the boys this year but some of the younger ones may be in another couple of years. To put them in against the boys this season would throw the individual performance statistics of the boys out of kilter, and this would not be advisable when there are trophies at stake for best batter, pitcher and all-around players.

The two girls' teams previously entered are the Kooteneers and Whiteley's. The third team is looking for a sponsor. It is hoped to have a separate trophy for the girls' championship.

The Kooteneers girls and Woolworth's boys will still open the tournament at Queen Elizabeth park on July 4, with an exhibition game, but under tournament rules.

A few players can be added to the Whiteley's and the new girls' team, and a last call is being issued for any girls of any age who would like to join to be at the Civic grounds this morning at 10:30 or tomorrow afternoon at 4 p.m. All who have already registered are asked to be on hand both days, also.

Redmen on Top In KSALBL

SLOCAN — The Slocan Redmen moved into sole possession of first place in the Kaslo-Slocan-Arrow Lakes Baseball League Sunday afternoon in a come-from-behind 9-8 victory over the Kaslo Seniors.

The victory, coupled with Winlaw's 15-6 defeat at the hands of Nakusp All-Stars, gave the Slocan nine the only team with an undefeated record. The Redmen now have a 3-0 won-lost record.

In the game at Slocan, Dan O'Neail was the winning pitcher while D. McPherson took the loss.

Slocan got nine runs on 12 hits and made four errors. Kaslo got eight runs on 15 hits and committed three errors. O'Neail fanned 19 and walked none, while McPherson struck out nine and gave up five free passes.

Slocan's next game is June 28 when they play host to the Nelson Outlaws in an exhibition tilt in the Redmen camp.

Standings:	P	W	L	Pts
Slocan	3	3	0	6
Winlaw	3	2	1	4
Nakusp	2	1	1	2
Kaslo	2	0	2	0
Denver	2	0	2	0

Play - For - Fun Meet Scheduled

A play-for-fun softball meeting will be held Thursday in the Civic softball park at 8 p.m.

The meeting will get under way following the Homelite - North Shore Tigers ball game. All teams must be represented.

Main point of business will be plans for an all-star softball game and re-alignement of the league.

Sandlot Schedule

Sandlot Mighty Might baseball schedule for Wednesday: Tigers vs. South Slocan, Cardinals vs. Hawks, Yankees vs. Mounties, Dodgers vs. Beavers.

Tee Time

Thirty-one women golfers took part in the weekly women's night at the Nelson Golf and Country Club Tuesday night.

Two hidden hole prizes were won by Shirley Tesluk and Gene Koehle.

Club president Gwen Miller announced July 11 as the Trail women's day in Nelson. Nelson women golfers will host their sister city rivals with nine holes of golf in the morning and nine in the afternoon. A luncheon and a supper will also be held.

First big dance of the season will be held July 1.

Kelly Wins Memorial Cup

TORONTO (CP) — Red Kelly was named winner Tuesday night of the J. P. Bickell Memorial Cup, awarded annually by Maple Leaf Gardens to the player on the National Hockey League Leafs showing outstanding merit.

Kelly scored 20 goals and got 50 assists for 70 points last season.

Program to Streamline Minors

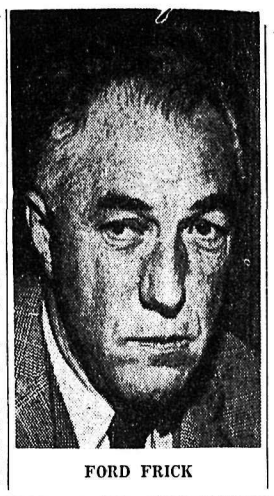
CHICAGO (AP) — The two major baseball leagues, in an 80 - minute joint meeting, Tuesday shaped a program to streamline the minor leagues, squelch excessive bonuses and gird for future expansion.

Meanwhile, the National League congratulated itself on its "slide" formula for supplying talent to its two new 1962 members, New York and Houston.

Commissioner Ford Frick said it would require up to 10 years "to put our house in order."

Frick also announced Washington Senators were awarded the 1962 all-star game.

Frick said he will appoint a committee shortly to deal with the bonus problem—a situation which for years has annoyed all owners but yet failed to deter them from shelling out $100,000 payments for high school and college stars.



FORD FRICK

COSTLY PURCHASES

Under the National League plan, New York and Houston can buy up to 20 players from the eight old clubs.

They must take a total of 32 players at $75,000 each. Then, they can select one player at $50,000.

The real kicker in the program, and one which caused most debate, is the requirement that each established club make two "premium" players available for purchase.

One league official said it is conceivable that Houston and New York could go to spring training next year with more established major leaguers than any of the eight holdover clubs.

I-H Wins 4-Inning Pre-Tourney Game

Don Amatto's International Harvesters from the uphill area served notice last night they'll be a factor to be reckoned with in this year's Midsummer Baseball tournament when they eked out a 5-4 victory over the Buckhorns in a pre-tournament exhibition four-inning game.

Buckhorns got off to a good start holding a 3-0 lead at the end of the first inning and a 4-3 margin at the end of the second. They were held scoreless in the third and fourth while the I-H squad added a pair in the third.

John Smiley went the route on the mound for I-H, while Larry Black and Bob Jeffs shared the

3 Members of All-American Team Among Canuck Entries

By PETER FRASER
Canadian Press Staff Writer

SASKATOON (CP) — Three members of the 1961 all-American trapshooting team will be among an expected 100 contestants competing for the laurels at the annual Canadian championships to start at the Saskatoon Gun Club today.

American Trapshooting Association all-stars attending the shoot will be ATA past president Cec Rienders, Calgary's Vera Holdsworth and Howard Morton, Jr., of Sharon, Ont., who also is 1960 Dominion junior champion.

Sure starters in the Canadian Trapshooting Association events will be two of Canada's better-known shots — Saskatoon's Dr. George Genereux and Calgary's Floyd Nattrass.

Genereux, Canada's only gold medallist in the 1952 Helsinki Olympics, won the Saskatchewan singles and doubles titles at Regina June 18 while one of Nattrass' best recent performances was breaking 199 of 200 clay pigeons at a shoot last month in Reno, Nev.

Preliminaries will be run off today in two events with each shooter firing at 100 targets from 16 yards in the morning and aiming the 12-gauge shotguns at 50 double clays in the afternoon session.

In all events from the preliminaries through to the handicap shoot Sunday, the final day, each participant will fire at 1000 clays. At least 120,000 rounds of ammunition have been ordered for the shooters.

WILL PROVIDE LIST

An exact list of entires will be made available when the preliminary shoot is completed.

Holdsworth, considered Canada's top female shot, will be one of about 20 entries expected from Calgary, including Nattrass' son, Brian.

The younger Nattrass will go against Saskatoon's Dale Beavis who took the 1961 Saskatchewan handicap and junior title. Beavis broke 188 targets out of 200 for the singles and won the handicap after a shoot-off to break a three-way tie.

CTA president Tom Oliver of Toronto is not expected to compete at the events because of a recent eye injury.

Winnipeg's Al Smith, 1960 Manitoba singles champion and president of the provincial trapshooting association, is expected to be Manitoba's chief threat.

Winnipeg's Harry Simpson, president of the Manitoba association and Brandon's Fred Mansoff, on winner lists of handicap events across the prairies, will round out the Manitoba contingent.

EXPECTED FROM B.C.

Four shooters from British Columbia have definitely stated they will attend the Dominion finals: Earl Caldwell, North Vancouver and three Vancouver entries, Jim Logan, George Crossley and Betty Crossley.

B.C. entries will be few because of a Pacific shoot taking place on the same weekend.

Four pioneers of trapshooting on the Prairies, Saskatoon's Jimmy Girgulis, Jack Evans, Paul Schwager and Dr. Eddie Nagle, will be at the club where they have been members for at least 35 years. The four were members of a five - man Canadian championship team in 1941.

Canadian Hopes Sag In Davis Singles

LONDON (CP) — Canada's hopes in the men's singles at the Wimbledon tennis tournament went glimmering Tuesday.

Bob Bedard, Canadian Davis Cupper from Sherbrooke, Que., sent down to defeat 6-3, 6-2, 6-4 at the hands of Michael Sangster of Britain in a first-round match.

Francois Godbout of Waterloo, Que., the only other Canadian entered in the men's singles, was knocked out in his first-round match Monday.

Bedard, out of touch for most of the first two sets, struck his best form in the third when he battled for 30 minutes and saved three match points on his own service in the ninth game before Sangster clinched it in the 10th. Sangster, a strapping former soccer player, was on Britain's Davis Cup team this season.

Sangster had a more powerful service and, except for two successive double faults in the third game of the first set, his service was accurate.

Bedard, who had flashes of brilliance with some forehand passing shots, said later:

"I didn't expect miracles. This is only my second tournament since last September."

McKINLEY WINS

In other first-round play in the men's singles, delayed by rain Monday, Chuck McKinley of St. Louis, Mo., defeated Italy's Sergio Tacchini 6-2, 6-2, 4-6, 6-4 and Ramanathan Krishnan of India downed France's Francois Jauffret 6-0, 6-4, 6-1.

In women's play, Victoria's Susan Butt won her first-round match against Italy's Lea Percoli 6-4, 6-3.

Margaret Smith, 18, of Australia defeated Nancy Richey, 18, of Dallas, Texas, 3-6, 6-3, 6-4.

Top-rated Sandra Reynolds of South Africa took only 24 minutes to win her opening match 6-1, 6-0 against England's Mrs. Lorna Cawthorn, 28.

On the adjacent court, a top rival, Britain's Christine Truman, defeated 26-year-old Australian Margaret Hellyer 6-4, 6-4 in 42 minutes of play.

Hall Not Official Yet

Bathgate, Prystai Here for Sure

Skeptics and general worry-worts have been asking if Andy Bathgate and Glenn Hall will really be coming this year to take part in the Midsummer Bonspiel hockey game.

"I remember the last two years," one critical complainer cracked, "they promised to come but didn't make it."

Fred Boates, manager of the Nelson Civic Centre, assured the Daily News Tuesday night that "Bathgate and Metro Prystai will definitely be here this year. Hall is the only one who hasn't officially agreed to play in the game . . . but I'll know for sure within the next couple of days."

An added incentive has been offered by the Civic Centre in the form of three hockey scholarships for "needy hockey hopefuls." One each will be given to midget, juvenile and bantam leagues.

The scholarship is actually a free tuition to the National Hockey Clinic which will be held here for two weeks following the Midsummer Spiel.

Applications for the scholarships must be made before Friday at the Civic Centre.

George Vogan, founder of the clinic, said registration at Nelson has doubled that of Rockton, Illinois, the site of the second session.

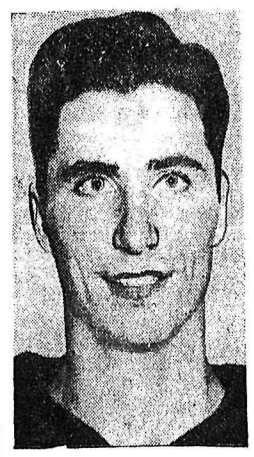
Mr. Vogan said, "interest in this part of the country is very gratifying."

The clinic will be "two weeks of hard work" for the boys who have registered. They will be living in the centre's badminton hall with their instructors.

Two inter-squad games have been planned, one on each of the Saturdays included in the 12-day training camp. A scout from the Detroit Red Wings will also be on hand to look over the future prospects.

At least 60 boys will be taking part in the Clinic . . . "possibly as many as 75 altogether," Boates said.

The annual hockey game will be sporting the finest collection of hockey names in Canada this year.



ANDY BATHGATE

Besides the three clinic instructors, there will be the Nelson Maple Leafs, Western Canada Allan Cup finalists, and the Trail Smoke Eaters, who need no introduction.

Bobby Kromm, coach of the world - famous Smokies, told Boates that he will be bringing the original Smoke Eaters . . . not a team packed with intermediates.

Kromm said if Trail is to send a representative-team of the Smoke Eaters, it will be the originals . . . not a facsimile.

Cecil Hughes, spokesman for the Maple Leafs had little to say regarding Nelson's club. He did say, however, that only two of last years' regulars, Don MacKenzie and Vic Poirier, will be missing from the lineups.

They will be replaced by Gordon Andre and Kennie McTeer of the Cranbrook Rams.

New Business Block for Castlgar District

Building Features 30 Plywood Finishes

CASTLEGAR — A new $100,000 2-storey building now houses the progressive Oglow Brothers Building and Supply Company firm of Castlegar, marking the completion of a major construction step in the community.

Strikingly different in design, the building has an interior completed of 30 different plywood finishes incorporated into the wall of a peg board which has been painted 16 different colors.

Owner of the building is Oglow Holdings Ltd., who rent it to the building and supply company. It stands on property adjacent to the Castlegar elementary school. A laundry and dry cleaning building was demolished to make way for the new structure. It is set some distance back from the street for safety parking.

The new building has a frontage of 87 feet. An additional 115 feet of modern building is taken up adjacent to the firm's one-storey structure.

Each floor is about 7000 square feet in size. The basement is used for storage and a ramp has been provided to floor level for trucks.

The main floor has one office. Major portion of the space has been designated for display of imported plywoods, doors, wall finishes and other materials. These were formerly stored in the company's warehouse and sold in the former store.

The warehouse now provides accommodation for the displaced laundry and has been renovated for one other store. The store formerly occupied by Oglow's has been rented to Boundary Electric.

For the present the top floor of the new structure will remain unfinished. An office for the company's construction branch is planned. The rest of the floor will eventually be finished in offices.

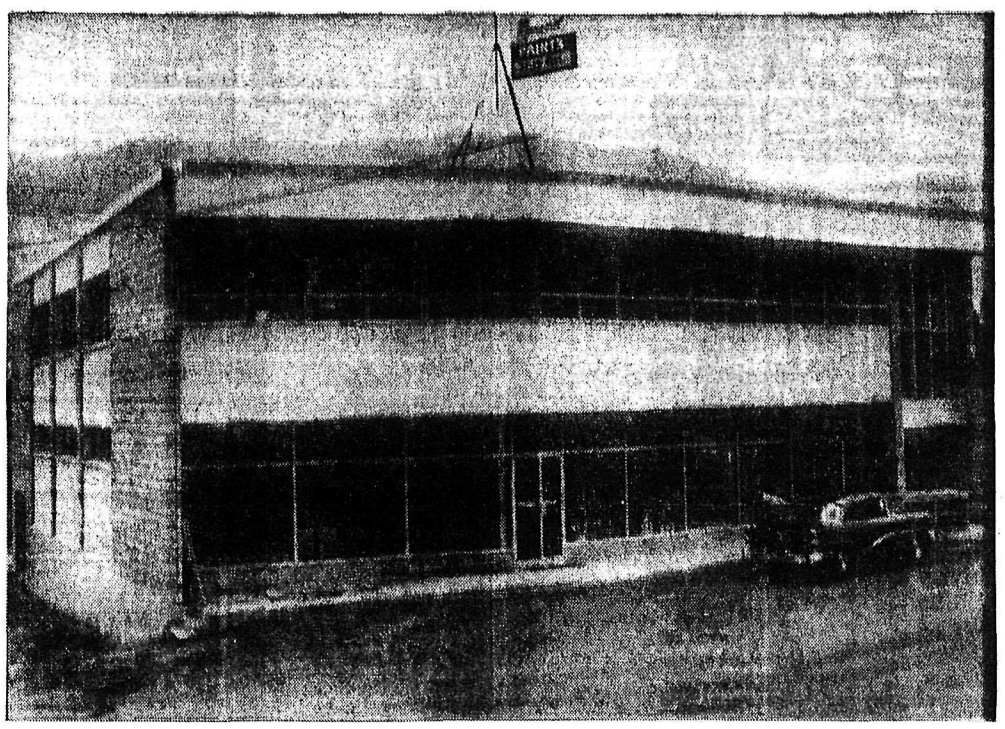
GLASS FRONT

Smartly modern in design, the building has an all-glass front. The main structure is of steel columns and beams with Roman tile of champagne buff on the outside facing.

N. T. Oglow, the company's office manager, also Castlegar's village chairman, said the company is attracting considerable business from Trail and Nelson. He said the company expects to draw even more business from those two centres now that the new building with its added display space is completed.

"The building is of unique design and will continue to attract attention and business," Mr. Oglow said Tuesday.

Associated with N. T. Oglow in the business are his brothers, William and Peter, who act as construction superintendents for the company, and a third brother, Paul, who is supplies and equipment manager.



NEW $100,000 STRUCTURE to house the firm of Oglow Brothers Building and Supply Company is one of the major building projects at Castlegar this year. The new building has a frontage of 87 feet and each floor will be close to 7000 square feet with the basement used for storage and a ramp provided to floor level for trucks. Crystal Laundry and Dry Cleaners will be housed in what is now the Oglow warehouse, its former home being demolished. The warehouse will also provide space for one other store.

—Daily News photo.

Life in Stanleyville Surprises Foreigners

STANLEYVILLE (AP) — Life in this Congo stronghold of slain Patrice Lumumba's followers is much more pleasant and peaceful than outsiders imagine.

Foreigners who visit the northeast Congo city are surprised to find that despite rumors of chaos and famine, food is plentiful and many whites still live here.

About 300 Belgians, many with wives and children, dwell in the jungle community on the banks of The Congo River. They run shops and hotels and work in local business firms. Several are employed by the provincial ministry of education.

Other European colonies include Greek, Italian, West German and Portuguese. The Greeks are strongest; about 5,000 of them are scattered throughout Oriental province.

Most of the Greeks stayed on during the hectic days after independence, when many Belgians fled as Lumumba sent his vice-premier, Antoine Gizenga, here to make this the bastion of his faction.

GREEKS STAYED

The Greeks continued to stay after Gizenga took over the reins and set up his Communist-supported regime at odds with the Leopoldville government. They say the Congolese never bothered them.

Keeping to their business tradition, the Greeks run groceries, beauty parlors, hotels, restaurants and department stores.

Although economic conditons in Oriental province are bad in general, virtually all commodities and foodstuffs can still be found in Stanleyville shops.

There are still ways to amuse yourself. Stanleyville has two cinemas and three cabarets. A popular hangout for Europeans is the Hotel Stanley, operated by a Belgian. Another is The Congo Palace, a luxurious hotel opened by Greeks three months ago.

MISSING

VANCOUVER (CP) — Three players were missing Monday when British Columbia Lions opened their 1961 Western Football Conference training camp. Delayed enroute were Washington Rosebowl hero Bob Schredt and Brigham Young graduate Gary Dunn, quarterback candidates and Ed O'Bradovich from Chicago.

Prairie Ministers Seek Sources for Cattle Feed

Manitoba and Saskatchewan agriculture ministers searched separately Monday for sources of cattle feed for drought-stricken livestock and dairy farmers while 2,500,000 acres of Alberta's wheat crop were described as "beyond the point of recovery."

Drought speculation sent prices to seasonal highs on the Winnipeg Grain Exchange. Then a forecast of rain for the west-central prairies brought a selling wave and dropping prices before the Monday session ended.

But the Dominon weather office in Edmonton said later there would be "very little rain except scattered showers. And it looks as if the drought belts will be missed again."

George Hutton, Manitoba agriculture minister, sent a telegram to United States Agriculture Secretary Orville Freeman asking about the availability of feed from land now lying idle under the American soil bank program.

A bill now before Congress would free such hay supplies, not normally cut for feed, for drought disaster areas in the Dakotas.

DROUGHT HELP

Mr. Hutton placed Manitoba's claim for any surplus to Dakota needs which might be available when the bill passes.

Mr. Hutton said he asked federal Agriculture Minister Alvin Hamilton for federal participation in a plan to transport feed to drought areas.

Manitoba's early market garden crops were in critcal condition, the manager of a growers marketing company said.

Bill Dalman, manager of a plant handling crops for 125 growers, said crops not fed by irrigation were in "pretty grim shape."

He said almost half the head lettuce crop has rotted and in most parts of the province canning vegetables, including cucumbers and sugar beets, have not germinated properly.

MAKES APPEAL

Saskatchewan's agriculture minister, I. C. Nollet, appealed to farmers to "harvest and gather every scrap of available forage "to meet the livestock feed shortage" which he said was "approaching emergency proportions."

The Saskatchewan government announced it would guarantee at least 75 per cent of rail freight costs for transporting fodder and pay four cents a ton-mile for feed carried by truck to meet the emergency.

Mr. Nollet said because of widespread drought conditons across Western Canada and the northern United States, there was no question supplies would have to be found within the province.

Alberta agriculture department statistician R. E. English said the entire drought-ridden south of Alberta would yield only about five bushels of wheat to the acre. The 35-year average for wheat in the Medicine Hat district was about 14 bushels an acre.

Mr. English said "no amount of rain now would help the southern crops recover." Crops in east-central Alberta were still "promising" and only those in the north were considered "good."

PHONE 1844 FOR CLASSIFIED

OUR INVITATION
We cordially invite everyone to drop in and visit our new business block in Castlegar. We will be happy to show you around.

Imam Ahmed Not Intending to Resign Throne

CAIRO (AP)—A spokesman for the Arab kingdom of Yemen said Tuesday the ailing Imam Ahmed, who recently turned over the reins of government to his reform-minded son, has no intention of stepping down permanently.

The spokesman said Crown Prince Mohammed Al - Badr, about 35, will run the government until his 70-year-old father recovers from wounds suffered in an assassination attempt last March.

LABORATORY

CULTUS LAKE (CP) — A start has been made on construction of a $150,000 research laboratory for the International Pacific Salmon Fisheries Commission. Research—in this Fraser Valley community— will be directed at determining water conditons most favorable for salmon mass-production.

Yesterday's Answer

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

G U W P U R N R P G W N D F G D P Q C G U W H N W F W Y G R M W D F P N R K D Y M P N W J E O D G Z — J D F N R W O D.

Yesterday's Cryptoquote: 'TIS ALWAYS MORNING SOMEWHERE IN THE WORLD—HORNE.

(© 1961, King Features Syndicate, Inc.)

Open Drive Fo Nfld. Fire Sufferers

ST. JOHN'S, Nfld. (CP)—P mier Smallwood Mon launched a province-wide dr to raise money for victims Newfoundland's forest fires.

MARKET TRENDS

NEW YORK (AP)—A continued stock market decline met some support late Tuesday with the result that closing prices presented a mixed picture, based on the popular averages.

Turnover picked up enough to yield a total of 3,090,000 shares compared with Monday's 2,690,000, the lowest since last November.

Sentiment was depressed early in the day by the 2,750,000-share offering of Ford stock by the Ford Foundation — the latest in a series of off - the-board stock sales which have sopped up a lot of purchasing power in Wall St. Reports were, however, that the offering was being well received and this indication of underlying financial strength proved an encouragement as the day wore on.

Among Canadian stocks on the New York Exchange, International Nickel rose 1⅛ and McIntyre Porcupine ⅜ while Distillers Seagrams lost ⅞, Hudson Bay Mining ¼, Walker Gooderham, Aluminium Ltd. and Dome Mines ⅛.

American Stock Exchange prices were generally lower on volume of 1,270,000 shares compared with 1,180,000 Monday. Shawinigan lost 1½ and Molybdenite ⅛ while Canadian Marconi rose ¼, Preston ⅛ and Fargo Oil and Sapphire Petroleums smaller fractions.

TORONTO (CP) — The stock market fell heavily during moderate trading Tuesday, with foods, steels and banks leading the way down.

On index industrials fell 4.63 to 586.50, golds .83 to 82.42 and western oils .98 to 93.77. Base metals made a late-day recovery and rose .01 to 196.39. The final volume was 2,053,000 shares compared with 2,058,000 Monday.

One feature of Tuesday's action was a special-sized transaction of 21,567 shares of Canadian Hydrocarbons at $11, a total of $237,237.

The base metals market was poor during the earlier part of the day, but some gains went to selected seniors near the close. Small losses went to Steep Rock, Ventures and Consolidated Mining and Smelting.

Gold trading was light amid falling prices. Giant Yellowknife Hollinger and Dome were all down.

The western oil market fell on all fronts. Central Del Rio, Canadian Devonian, Pacific Petroleum, Home A and B and Bailey Selburn A were all down fractionally, while a small gain went to Great Plains.

MONTREAL (CP) — All sections of the Montreal and Canadian Stock Exchanges declined in dull trading Tuesday. During the afternoon stocks lost major fractions to bring losses down to more than a point.

Papers declined moderately as the U.S. dollar settled at a premium of 3 1-16 to 3 3-32 in terms of the Canadian dollar. Great Lakes lost ⅝, Consolidated Paper and Abitibi each lost ½ while International Paper improved ½.

Base metals moved irregularly.

Banks and utilities declined in major fractions to more than a point. Royal Bank lost 1½, Nova Scotia 1¼, Bell Telephone ⅞ and Shawinigan ¾.

Among the major industrial losers were stells.

Mines joind the decline with mainly fractional changes.

On index, banks were off 0.56 at 64.79, utilities off 1.6 at 145.7, industrials off 2.5 at 325.3, combined off 2.1 at 265.5, papers off 3.2 at 500.0 and golds off 0.43 at 78.59.

Industrial volume was 162,800 shares, mines and junior oils 196,500 shares.

Science at Work

INSIDE YURI'S SPUTNIK

Yuri Gagarin says the cabin of the Soviet spaceship that orbited him around the earth was much more spacious than an airplane's cockpit.

The cabin had all of the controls needed for observing earth, keeping contact with people on the ground, controlling the flight and if necessary, piloting the ship independently.

To his left, Gagarin wrote in the newspaper Pravda, were controls for the radio telephone, cabin temperature, manual operation and re-entry engine. To the right were a radio, food containers, and spaceship controls. Before him was the instrument panel, and below was a porthole for observation of earth, and a television camera to observe the astronaut.

SPEAK SOFTLY

People do speak louder on long distance telephone calls than on local calls, a Bell Telephone laboratories survey shows. Voices rise about one decibel or sound measurement unit for every 1,000 miles the voice has to cover.

In addition, men talk louder than women. And New Yorkers talk louder than other people. Women, while they speak more softly, make more social calls, while most male calls are on business.

CAVE INN: VACANCY

Every year bats head for summer homes in the pleasant coastland from Rhode Island to Cape Cod—and now a Vermont scientist has found a cave that the bats use as a, sort of motel along the way.

As many as 3,000 of the small brown bats can be found in the cave during April and May. But at least every three days there is a complete turnover in the cave's population.

Another strange finding: In April, 95 per cent of the bats are female. By the end of May all the bats in the cave are male, says Professor Wayne Davis of Middlebury College.

SHIPS ON ICE

For naval ships patrolling the frigid waters of the polar areas, ice is a real problem. It coats decks and bulkheads and the added weight sometimes affects the stability of the ship.

Now the U.S. Navy is working on new polysiloxane paints that hold promise. Ice won't stick to them.

LIMITED TOTAL

In 130 years, only 32,077 foreigners have been granted Mexican citizenship.

Prairie Provinces May Benefit From Ikeda's Talks With P.M.

By JAMES NELSON
Canadian Press Staff Writer

OTTAWA (CP) — A major expansion of specialized industry in the prairie provinces may be a long - term result of talks held here Monday by Prime Minster Diefenbaker and Premier Hayato Ikeda of Japan.

The two government leaders agreed in a joint communique that closer economic and trade ties should be developed. Establishment of a Japanese - Canadian ministerial committee to exchange visits and study economic relations was agreed on in principle.

One aspect of closer co-operation was contained in a communique reference to the establishment of Japanese industry in Canada, and the entry of some Japanese nationals to direct the operation.

Japan has been quietly investigating the Canadian raw materials supply and marketing picture for 18 months or more, with an idea of establishing branch - plant operations in Canada, aided by Japanese technicians.

There is no thought of bringing large numbers of Japanese workers into Canada, an informed source emphasized. Local labor will be employed if the plans work out as envisaged now.

A Japanese trade delegation toured Western Canada a year ago, and was welcomed by Saskatchewan Premier Douglas.

"The Japanese are the largest purchasers of Canadian wheat in the oriental market," Mr. Douglas said. "They've got to get dollars to pay for the wheat. One of the ways to earn dollars is to put up industry here."

The Japanese were reported to be looking for locations for new industries based on supplies of water power and natural gas. They looked into northern Saskatchewan and northern Alberta supplies of iron ore which normally would not be regarded as economically sound for traditonal lines of North American industry.

NOTES INTEREST

Monday's communique said simply that Mr. Diefenbaker "noted the Japanese interest in the possible establishment and development of Japanese investments in Canada."

Mr. Diefenbaker "indicated that mutually satisfactory arrangements would be made for the entry to Canada of Japanese nationals required in connection with certain of the operations of these enterprises," the communique added.

It was understood that several criteria are to be considered by the Canadian government before making concrete moves. The government will want the Japanese industries to be new and not in competiton with present Canadian industries. They must employ Canadian workers in significant numbers.

New Zealand Badly Needs Car Industry

By J. C. GRAHAM
Canadian Press Correspondent

AUCKLAND (CP)—New Zealand is trying to find ways of easing its acute shortage of cars. There have been long queues waiting for cars for 20 years.

New Zealand is classed as one of the most highly - motorized countries in the world but has no car manufacturing industry of its own. It depends on imports, which are strictly controlled. Quotas become more rigid at times of exchange stringency, as at present.

As a result, figures of New Zealand vehicle ownership are somewhat misleading. Politicians frequently claim New Zealand ranks second only to the United States in vehicle ownership per head of population, with one vehicle for every 2.7 persons.

Visiting Canadians retort: "No wonder. Most of the cars on the roads would have gone to the scrap heap 10 years ago in Canada."

The actual figures of vehicles registered are: Cars, 523,347; commercial vehicles, 331,272; motorcycles, 39,290; total, 894,409.

MANY OLD CARS

But half of all the cars are more than eight years old. The proportion of ancient jalopies is so high that even visiting Russians have expressed surprise.

Capt. A. B. Udovich, of a Russian research schooner, remarked a few months ago: "I do not want to offend in saying this, but I have never seen so many old cars anywhere."

And he added that New Zealand mechanics must be very good to keep them on the road.

Customers must often wait a year or more for a new car. Some dealers refuse to accept orders except from old customers. Many insist on receiving a trade-in when delivering a new car, and they fix such a low value for the old car that they are sure of making a substantial profit on it as well as getting their commission on the new car.

The situation leads to endless rackets in the sale of second-hand cars. Even cars two or more years old often fetch mor than the list price of a new car.

Typical examples of used cars advertised in current papers are: Hillman (list price new $2,700), 18-month-old car offered at $3,000; Morris Minor (list price $1,800), year-old car offered at $2,150.

CONTROL FAILS

The government acknowledges that the only real answer is to supply sufficient cars to eliminate the backlog and cut second-hand prices to realistic levels. Various efforts at control have produced little effect.

But foreign exchange funds are low and a substantial increase in car imports would bring them down to danger levels.

Two steps have been taken to improve the position without undue strain on exchange. One is an extension of the "no remittance" system. Under this arrangement, citizens who have assets abroad may use them to import cars over and above the normal quota.

In addition, the government is providing incentives for car firms to increase the local content of cars by at least 10 per cent. This will be achieved by using more New Zealand components in upholstery and fittings and by assembling cars in New Zealand from a more elementary stage, thus employing more local labor. Firms which do this will be given an increased import quota.

Farm Machine Makers Keep Eye On Dollar

HAMILTON (CP)—A price increase on imported farm machinery may result if the Canadian dollar remains at a marked discount but no decision will be made until there is more definite indication of the exchange level, a spokesman for the International Harvester Company of Canada said Tuesday.

Harvester officials are watching the day - to - day exchange rates to assess the impact on retail prices of the higher cost of equipment or purchased in the United States.

The impact would be slight on Canadian farm machinery in which there is a relatively small U.S. content and studies in this area will be continued, the spokesman said.

New equipment bought by the heavy construction industry will carry price tags reflecting the premium on payment in U.S. funds. Special purpose motor vehicles imported from the U.S. also will see a nominal price increase, based on the exchange level.

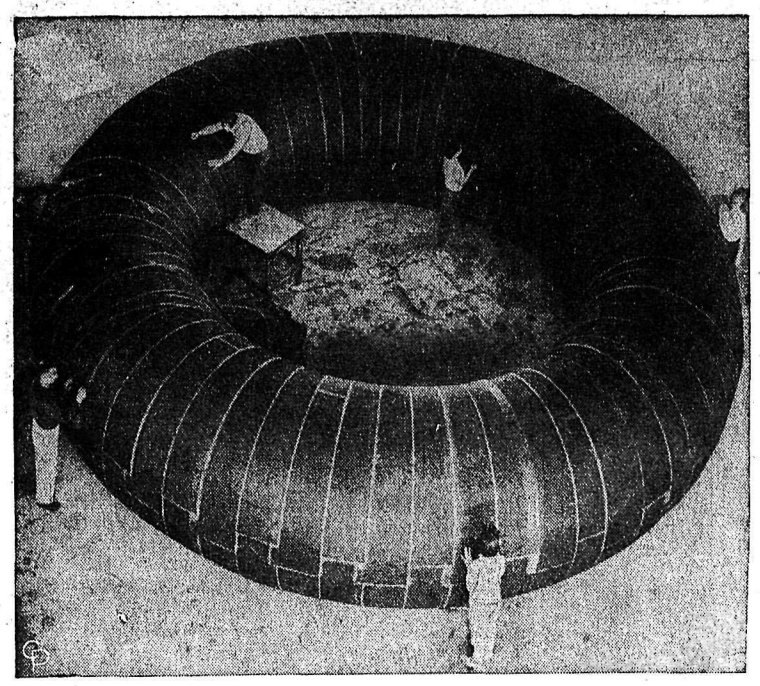
Business Briefs

OTTAWA (CP)—Shipments of Canadian-made motor vehicles in May dropped 4.8 per cent to 41,234 units from 43,334 in the same month last year, the Dominion Bureau of Statistics reported Tuesday.

This decrease, together with decreases in the four previous months, left shipments in the January-May period almost 15 per cent below figures for the same 1960 period. This year's five-month total was 175,983 units compared with 206,690 last year.

Production of steel ingots in the week ended June 24 rose 2.2 per cent to 128,386 tons from 125,632 in the preceding week.

Department store sales in the week ended June 17 were up 9.7 per cent in value from the corresponding 1960 week. All provinces contributed to the rise with increases as follows: Atlantic provinces, three per cent; Quebec 14.6; Ontario 15.1; Manitoba 6.2; Saskatchewan, nine; Alberta 5.3; British Columbia 2.1.



'OUTERTUBE'—This giant innertube-like thing at the Goodyear plant in Akron, O., really is an "outertube," a 30-foot expandable space station which could be inflated to permit one or more persons to live and work inside while orbiting around Earth. Goodyear built a 24-footer for NASA to experiment with, and this one the company will use in similar tests. A doughnut like this could be 100 feet in diameter, they say. *(Central Press)*

Interpreting The News

By HAROLD MORRISON
Canadian Press Staff Writer

Adlai Stevenson's 18 - day swing through 10 Latin American countries has brought home to the Kennedy administration the extent of the damage done to United States prestige by the ill-planned Cuban invasion attempt.

The shrewd and discerning Stevenson obviously was sent into South America not so much to test reaction to Kennedy's $500,000,000 program of economic aid as to measure how much friendship and support of U.S. foreign policy there is in South America in the wake of the Cuban invasion.

He came away depressed. Stevenson told a National Press Club luncheon in Washington Monday that he found the U.S. had suffered a "black eye" in organizing, arming and encouraging the Cuban exiles in an unsuccessful bid to overthrow Fidel Castro.

More than that, he found evidence of increasing Communist influence among the impoverished Latins covering a continent that the U.S. for many decades considered part of its own back yard.

NOT ENOUGH

It will take more than the $500,000,000 program, says Stevenson, to overcome the poverty, social dissatisfaction and the lack of education that continue to promote and foment revolution.

Perhaps one part of the answer, he suggests, may lie in commodity stabilization agreements. An increase of just one-half cent a pound in the price of coffee may have more economic benefit than all the dollar loans the United States would be able to make under the $500,000,000 program, he said.

Even so, it will take years—perhaps as much as a decade—before the Latins can hope to overcome economic despair at home.

Meanwhile relations between the Latin Americans and the United States may grow worse. A point is the continuing wide gulf in views on the Cuban issue.

Despite all that Kennedy has said about Castro representing a Red dagger at the heart of the entire continent, Latin Americans view the Cuban problem as mainly a fight between Castro and the American government, Stevenson found.

Moreover they don't like American attempts to intervene in Latin domestic politics. They've said as much in the past. Apparently they said it with even more vocal force in Stevenson's presence.

RIO PACT RECALLED

Back in 1947 the United States signed the Rio pact on non-intervention in Latin affairs, except through collective agreement of the Latin countries. Stevenson was told the United States should stick to this agreement.

Under such circumstances Stevenson suggests the question of whether the bulk of Latin countries would agree to collective action against Castro would better be put off until after the Monteveido, Uruguay, conference on the $500,000,000 aid program. This to take place July 15 or be put off until Aug. 5.

State of Emergency Reported by Kuwait

By SAYID NOORI

BAGHDAD, Iraq (Reuters)—A state of emergency was reported in effect in Kuwait Tuesday as Iraq pressed its claim to the oil - rich Persian Gulf sheikdom of 80,000 people.

Kuwait radio Monday night broadcast a statement saying the sheikdom would defend its borders and expressing confidence that sister Arab states would support its week - old independence.

The Egyptian-sponsored Middle East news agency said a state of emergency had been announced in Kuwait, formerly under British protection.

It also claimed Arab reaction was generally opposed to Iraqi Premier Abdul Karim Kassem's claim that Kuwait s an itegral part of Iraq and its sheik, 66-year-old Sir Abdullah as-Salim As-Sabah, is governor only at the plesure of Iraq.

CONFER WITH BRITISH

(In London, diplomatic observers said Anglo-Kuwait discussions under way in the sheikdom were clearly designed to determine whether Kuwait wants British aid in meeting Iraq's move.)

The Iraqi foreign ministry Monday handled all diplomatic missions copies of a government memorandum claiming the 5,800-square-mile sheikdom sandwiched between Iqaq and the Persian Gulf.

Baghdad radio Monday night extended its broadcasting hours, playing martial music and carrying intermittent statements by a speaker declaring: "Abdul Karim Kassem has said the borders of Iraq extend to the south of Kuwait."

Baghdad radio also broadcast a stream of telegrams supporting Kassem, many from high-ranking army officers vowing willingness to lay down their lives for Iraqi-Kuwait "reunification."

Kuwait radio broadcast a statement declaring the sheikdom is an independent Arab state with full sovereignty, recognized internationally.

CLAIMS ARAB SUPPORT

Kuwait radio also claimed the sheikdom had support from King Ibn Saud of Saudi Arabia, who would preside over a cabinet meeting today to consider the situation.

It quoted Saud as saying Kuwait and his kingdom are "one country," that "what affects the kingdom and what affects the kingdom affects Kuwait."

Support for Kuwait from Jordan and Iran also was reported.

In Cairo, Arab diplomatic sources said the United Arab Republic was unlikely to favor Iraq's claim.

Kuwait, the worlds second-largest oil producer with revenues of $50,000,000 a week, became fully independent June 19 after 62 years under Britsh protection.

Britain Toys With Plans For Berlin

LONDON (Reuters) — The Times reports a growing belief in Britsh quarters that the West should propose negotiations on the Berlin issue.

It says "there is really no doubt in the minds now of many Western representatives" that Soviet Premier Khrushchev will announce a separate peace congress in Moscow in October—unless East-West negotiations have been arranged meanwhile.

"The question therefore, is whether it is better to forestall this process, by proposing negotiatons, or whether it s wiser to leave Mr. Khrushchev to make the dangerous running by himself."

KHRUSHCHEV RENEWS PLAN

BERLIN (AP) — Premier Khrushchev has assured East German Communist leaders anew the Soviet government "will do everything" to have a German peace treaty signed by the end of the year.

Khrushchev repeated his pledge, made several times in recent weeks, in a message Monday night replying to an East German telegram nothing the 20th anniversary of the Nazi invasion of Russia.

Remand Former MP In Bribery Charge

OTTAWA (CP) — Raymond Bruneau, former Liberal member of Parliament for Glengarry-Prescott, Tuesday was remanded until July 11 on charges of bribery and obtaining $10,000 by false pretences while serving as an MP.

Remanded to the same date was Abe Bergeron, Cornwall service station operator charged with giving a $10,000 cash bribe to Bruneau.

Bruneau's lawyer told the court that his client will plead not guilty to the charges. Bergeron made no statement.

Crippling Construction Strike Near Settlement

TORONTO (CP) — A breakthrough has been reached in the turbulent strike which has crippled Metropolitan Toronto residential construction for 28 days. There may be a return to work this week.

A basis for settlement was reached Monday night between negotiating committees for the Masonry Contractors' Association and the Bricklayers' and Laborers' Unions, under the leadership of bricklayers' organizer Bruno Zanini.

The peace formula is to be submitted today to a membership meeting of housing locals of the two unions. Marble, tile and terazzo workers are to vote on the terms tonight.

Mr. Zanini said the proposals presented to the union committee by Leonard Eden, vice-president of the association, will be given to the membership for discussion. But he emphasized any agreement will require ratification by the 162 contractors in the masonry associaton.

DEVELOPMENT SUDDEN

The development came several hours after a mass rally by 16,000 construction workers and on the eve of the appointment by Premier Frost of a royal commission to inquire into labor-management relations in the construction industry.

The dispute started May 28 when 7,500 construction workers, many of them Italian immigrants, went on strike and demanded that contractors pay them union rates as laid out in agreements signed last summer.

Sympathy walkouts have closed the new subway project and virtually stalled construction on the Gardiner Expressway on Toronto's lakeshore and the new Toronto international airport at suburban Malton. The walkouts extended Monday to an Ontario hydro project and Bell Telephone contract jobs.

It is believed union contractors will attempt to bring non-union contractors into the union fold.

TO RATIFY TERMS

The Masonry Contractors' Association, largest representative group of contractors in the housing field, is to meet Wednesday to ratify the settlement terms. This would clear the way for a return o work Thursday if the other trades fall into line.

The rally at the Canadian National Exhibiton grandstand was one of the largest demonstrations by organized labor seen in Canada.

Police and courts, contractors and the Ontario Labor Relations Act were critcized to the cheers of the crowd. But the main purpose of the rally appeared to be to underline the building trades unions' solidarity and potential politcal power.

The Toronto Builders Exchange said Monday night 24 additonal commercial projects were hit when union members left to attend the rally. These workers were expected to return to their jobs today.

Broken Bones Mended With Rib Strips

NEW YORK (AP) — Broken bones which refuse to knit are being mended with thin strips of the person's own rib, bone specialists said Tuesday.

The ribbon of rib stimulates new growth of bone, usually within two to three months, said Capt. James Dineen of the Oakland, Calif., Naval Hospital, and Lt. - Cmdr. Richard Gresham, National Naval Medical Centre, Bethesda, Md.

The ribbon of rib contains a layer of particular cells, the periosteum, which promotes bone regeneration, they said in an exhibition presented to the American Medical Association convention.

The rib ribbon is laid alongside, or sometimes inside, the broken bones. Wires, rods or plaster casts are used to keep the bones immobile.

The rib cells then stimulate new growth of bone to unite the broken pieces. Later, the rib strip is absorbed by the body.
