**WEATHER FORECAST**

Kootenay: Variable cloudiness and widely scattered showers Tuesday. A little cooler. Winds south to southwest 15 locally, rising to 25. Low and high Tuesday at Cranbrook and Crescent Valley, 50 and 75.

# Angry Berliners Again Fight Police

## Safety Steps Taken Across Canada in Smallpox Incident

By THE CANADIAN PRESS

A 14-year-old boy lay isolated under a rigid smallpox quarantine in Toronto Monday while swift measures to halt spread of the disease were taken in the United States and Canada.

James Orr, 14, contracted the disease while in the jungles of Brazil with his missionary father Rev. James Orr, who is quarantined with friends in a Toronto home.

Mrs. Orr and two other children, Joseph, 13, and Dorothy, 9, are under quarantine at the family home in Three Hills, Alta.

Health officials generally agreed there was little chance of an epidemic.

Safety measures, nonetheless, were swift and widespread:

Dr. Matthew Dymond, Ontario health minister, advised anyone travelling on the Aug. 9-12 overnight train — CPR train No. 324 from New York to Toronto via Fort Erie — to get in touch with a doctor right away.

Waldo Monteith, federal health and welfare minister, had the same warning.

**CNR ISSUE WARNING**

Canadian National Railways said anyone aboard the Super Continental on the evening of Aug. 14 — bound for Capreol, Winnipeg, Saskatoon, Edmonton, Jasper, Vancouver and intermediate points should see a doctor. It was upon this train that Mrs. Orr and her two children travelled west.

The CNR said equipment used on that particular train has been removed from service and is being fumigated, while the crew has been vaccinated.

At Trenton RCAF base, 10 miles west of Belleville, some 475 air cadets and cadet officials were vaccinated after it was discovered about 55 of the cadets from Ontario centres were passengers on No. 324.

New York City and state police and health officials launched a search for anyone who may have been in contract with the Orr family during their 6½-hour stop there on their way to Toronto. The family had travelled by plane from Sao Paulo via Trinidad.

James Orr spent more than six hours in the waiting room at Grand Central Station in New York and health officials there fear he may have come into contact with as many as 2,000 persons.

**HUNT CAB DRIVER**

Prime object of the search is the cab driver that took the family from Idlewild Airport to the station. Health officials are afraid the driver, one of about 40,000 in the city, will pass it on to other fares.

The 72 passengers on the plane which took the family to New York have been vaccinated or told to get vaccinated.

Meanwhile, a medical officer of health in Parana, Brazil, was singled out by Mrs. Orr as responsible for the family having entered the United States—and subsequently Canada—without having had a revaccination.

Mrs. Orr said the family had been vaccinated about seven years ago.

"We realized there was a requirement for a vaccination certificate to enter Canada so we went to the equivalent of the MOH in Parana State to be revaccinated and get the certificates.

"He said: 'Once you've been vaccinated you're vaccinated for life. I'll give you the certificates but I will not revaccinate you.'"

**ACCEPT PAPERS**

Mr. Orr said that at Idlewild the U.S. health department authorities accepted the vaccination papers without even asking for a translation from the Portuguese.

In New York, Dr. Erwin Dresher, chief quarantine officer at the airport, said the public health officials appear to have been lax in letting the family in.

Doctors warn that in the early stages smallpox can be confused with influenza. Two days after the rash breaks out the red spots change to more prominent postules. After eight days, if the patient begins recovery, the postules shrinke and form scabs which drop off beween the 21st and 28th days, leaving scars. The disease can hold the victim for periods ranging from three to six weeks.

## London Plans New Subway

LONDON (CP)—The Victoria line—London's first new subway in 55 years—will be built at a cost of &65,000,000 the government announced Monday.

Work is to start immediately diagonally across central London from Victoria in the south to Walthamstow on the city's northeastern outskirts.

It will stretch nearly 11 miles and serve 12 stations, filling the one remaining major blank space on the map of London's intricate subway system—direct travel between the mainline railway stations of Victoria, serving southern England, and King's Cross and Euston, serving the north and Scotland.

Building is expected to take about six years. The tubelike tunnels will be some 300 to 400 feet below the surface.

## Given 5 Years For Heroin Sale

VANCOUVER (CP) — A man who sold heroin to an undercover RCMP officer was jailed for five years Monday.

James Slater, 42, presently serving a penitentiary term for theft, was one of 42 persons charged in a round-up of suspected goofball and drug traffickers.

Slater was the second suspect of the 37 presently before the courts to receive a prison term.

Police still hold warrants for the arrest of five other persons.

Slater, who pleaded guilty to trafficking in narcotics, also admitted selling a capsule of heroin to each of the other two men at the same time he sold one to RCMP Constable James Hunt.

Prosecutor Russell Twining said the transaction took place May 9 in the washroom of an east end hotel at the time Hunt was posing as a drug addict.

Slater admitted a criminal record dating back to 1940.

Twining said Slater had spent 15 of the last 20 years in prison.

**GOVERNMENT WANTS $97**

BURNABY (CP) — The provincial government is seeking $97 of $2000 in bingo money seized in a February police raid. The government says the $97 would be for entertainment tax. Magistrate C. W. Bell will rule on the application Wednesday.

## X-15 Battles Gremlins

LOS ANGELES (AP) — Electronic gremlins struck at the X-15 again Monday, crippling part of its electronic brain while the rocket plane was streaking through the sky with its glowing hot fuselage making popping sounds like pistol shots.

Air Force Maj. Robert Rushworth said later the roll damper — a device designed to overcome rolling motions automatically — failed three times during the 3443-mile-an-hour flight.

An alternate system took over and enabled him to complete the flight safely. If this backup system, too, had gone out of order, Rushworth said, "I could have had a pretty loose airplane."

Space agency pilot Joseph Walker reported similar trouble after a flight in another X-15 last Tuesday.

Monday's flight was made from Edward's Air Force Base, 75 miles north of here.

## SECRET FILES STOLEN

LONDON (CP)—About 500 files of confidential and secret documents on jet aircraft and guided missiles were stolen from Almco Supersheen Incorporated during the weekend, police reported Monday.

The firm specializes in metal finishing for aircraft and missile manufacturers.

Raiders emptied two cabinets containing nearly 500 pounds of files at the firm's Hitchen, Hertfordshire, plant.

The haul included reports, drawings, photographs and correspondence.

Hertfordshire police said the documents related only to the firm's sales operations. They could help a trade rival but would not affect national security, police said.

## Many Decisions Faced by Synod

KINGSTON (CP) — Both the history and future of the Anglican Church of Canada will be in the minds of delegates to the 21st general synod at Queen's University here.

The 400 - odd laymen and clergy who meet Aug. 22 for the opening service in St. George's Cathedral — a stone's throw from the site of the first Anglican church in Upper Canada—later will face several important decisions.

Among topics scheduled for debate are:

A proposal to cut membership in the lower house of the general synod, legislative body of the church, from 295 to 210;

A proposed change in the frequency of synod meetings from every three years to every two;

Possible changes in the method used to elect a primate, esently chosen by a select representation known as the electoal committee;

Ratification of the Revised Book of Common Prayer, adopted unanimously by the 1959 general synod and since used with permission by many congregations.

## Spokane Couple Found Shot

SPOKANE, Wash. (AP) — A husband and wife were found shot to death in their home here Monday. Detectives said the deaths were murder and suicide.

Dead are Mr. and Mrs. Clifford O. Swope. Mrs. Swope, 55, was assistant director of the Deaconess Hospital School of Nursing.

Police said a preliminary investigation indicated Swope, 54, a retired Air Force man, shot his wife as she slept then turned the gun on himself.

## Expect 1,000,000 At Coast's PNE

VANCOUVER (CP)—Emphasis on Canadian attractions has given the Pacific National Exhibition an excellent chance for passing the attendance figure of 1,000,000 for the first time, fair president Tom Fyfe said Monday.

Schedule for the two-week fair which opened Saturday includes the RCMP musical ride, a restored western log fort serving "buffaloburgers" made from Elk Island, Alberta, buffaloes; a salmon barbecue, manned by Squamish Indians from North Vancouver, and a model mine where real gold can be panned.

## Warnings Sounded By U.S., Russia

BERLIN (AP)—Angry West Berlin crowds battled their own police, attacked Soviet vehicles and made repeated attempts to storm the Berlin wall in night riots that finally were smashed early today.

The bloody, six-hour outbreak was the fourth in four days and the most violent since the East Germans built the wall a year ago to stop the flow of refugees to the West.

Officials estimated 10,000 West Berliners, many of them youths, participated in the demonstrations along a 1½-mile stretch of the border area.

For the third straight day, demonstrators stoned a Soviet army bus taking troops to a change of the guard at the Soviet war memorial in West Berlin. One Russian soldier was injured. West Berlin youths also chased a Soviet staff car for several miles through the city.

Both the United States and the Soviet Union said that continued outbursts at the wall could have grave consequences extending beyond this divided city.

But the angry West Berliners appeared unable to contain their hatred of the wall. There had been rioting daily since East German guards shot a young refugee Friday, leaving him to die slowly on the East side while U.S. troops and West Berlin police watched from the West.

Truncheon - swinging police, supported by two water cannon, charged the demonstrators. The crowd beat them back with a barrage of rocks and firecrackers.

**SOME ARE HURT**

Several policemen and demonstrators were hurt.

The crowd in the U.S. Checkpoint Charlie area near the wall swelled as the evening went on. Youngsters were chanting "mauer muss weg—mauer muss weg" (wall must go—wall must go).

A police spokesman would not estimate the number of demonstrators hurt. Reporters saw two on the ground, being clubbed and kicked by the police.

Police succeeded in pushing the crowd back more than two blocks from the Friedrichstrasse, where Checkpoint Charlie is situated. At that point things calmed down, but tension remained high.

The attack on the Soviet bus was the third in three days. The demonstrators hurling the stones shouted "swine" and "murderers."

**SEE GRAVE DANGER**

Moscow radio said the Berlin outbursts are "directly threatening serious conflict in the heart of Europe." The Moscow broadcast, monitored in London, said conditions in West Berlin "might be the detonator that sets off frightful destructive forces."

Russian authorities in East Berlin had snubbed a written request by Maj.-Gen. Albert Watson, U.S. commandant, for talks to end violence along the wall.

The Soviet commander replied he "did not wish to discuss the contents of the letter."

Mayor Willy Brandt of West Berlin ordered a police crackdown on rioters—some of whom turned their anger on the Americans as well as the Russians—saying the demonstrators were "advancing the cause of the other side."

A U.S. government spokesman in Washington called the Friday shooting of the young refugee "barbarism" and said: "This incident is now being handled by our people on the scene." Asked whether the Americans could have sent an ambulance to his rescue, the spokesman said: "My understanding is that U.S. forces are free to move into East Berlin." He said the entire question is "very actively being discussed in Berlin right now."

## India, Canada Negotiating On Power Plant

NEW DELHI (Reuters)—India is negotiating with Canada for financial and technical assistance in building a proposed 200-megawatt nuclear power station, it was announced Monday.

An official government announcement said the reactor would be the Candu type developed in Canada, using natural uranium oxide as fuel and heavy water as moderator and coolant.

A joint Indian-Canadian team which investigated the project estimated the cost at about 320,000,000 rupees (about $72,900,000.)

The reactor, which would be India's second, is planned for Pratapsagar in Rajasthan state.

## 800 Expected At Chamber Meet

VANCOUVER (CP) — An estimated 800 delegates and wives are expected in Vancouver Sept. 17-19 for the 33rd annual meeting of the Canadian Chamber of Commerce.

Speakers will include Premier W. A. C. Bennett of British Columbia, champer president W. S. Kirkpatrick, chancellor of the University of Manitoba, and United States chamber president Ladd Plumley.

## Boy Whose Heart Stopped Released

QUESNEL (CP) — Norman Olaussen, 4, who was packed in ice after his heart stopped last week has been released from hospital.

The boy was rushed to hospital Wednesday and packed in ice to lower his temperature and lessen the risk of brain damage after he was pulled from a creek. He had been in the water almost 20 minutes.

Two doctors and volunteer firemen working 30-minute shifts revived him with external cardiac massage after artificial respiration failed.

Dr .J. W. Tompkins said the boy, a miner's son, appears perfectly all right.

## Russ Observations Show Moon Made Of Rocks, Not Dust

LONDON (Reuters) — Recent Soviet observations have shown that the surface of the moon is made up of rocks and not dust, Tass news agency said Monday.

It quoted Viktor Teifel, an astrophysicist from Kazakhstan as saying that a study of the color properties of sections of the moons' surface showed "it is not covered with a thick layer of dust, but has a porous structure, and consists of rocks similar to terrestrial basalt."

"A spaceship landing on the moon is in no danger of sinking in a sea of dust," he said.

## $5,000,000 Tropospheric System Set Up Along Coast

VANCOUVER (CP) — Completion of a new communications giant, a $5,000,000 tropospheric scatter microwave system along the B.C. coast was announced Monday by the B.C. Telephone Company in co-operation with the Alaska Telephone Corporation.

The new system, together with a conventional microwave chain previously in operation between Vancouver and Port Hardy on the north end of Vancouver Island, also provides additional communications facilities to points along the B.C. coast.

From Port Hardy the scatter system bridges the ocean gap to Alaska in two sweeps, 190 miles to Trutch Island on the B.C. coast and 154 miles from Trutch to Annette Island on the tip of the Alaska panhandle.

In announcing completion of the project, B.C. Telephone vice-president C. J. McLean, said the system initially provides facilities for 120 circuits for voice communication and data transmission for commercial and defence purposes, with an ultimate capacity of 240. BCT bore $3,500,000 of the total cost, and ATC $1,500,000.

At Annette Island it connects with a similar system operated by the United States government, which covers most of the 49th state.

Mr. McLean said planning of the tropospheric scatter system began two years ago on the premise that it was the best answer to the problem of providing increased facilities for commercial and defence communications traffic along the Pacific coast between the border and Alaska.

Under the scatter method of microwave transmission, signals are shot six miles into the troposphere, aimed in a beam just over the horizon. A small percentage of the beam is reflected by turbulent tropospheric air, picked up by supersensitive receivers, increased in strength and transmitted to the next station.

Major items of equipment in the north coast system are eight 70-ton parabolic antennas (resembling outdoor movie) screens, eight transmitters and 16 receivers.

## Tourist Travel Top Subject At Trade Meet

SEATTLE (CP) — Ways to accelerate tourist travel already stimulated by the Seattle World's Fair this year will be discused Sept. 9-11 when the Pacific Northwest Trade Association meets in Jasper, Alta.

D. C. Knapp, executive vice-president of the association, said Monday theme of the association's conference will be "recreational wealth of the Pacific Northwest."

Objective, he said, will be to formulate a plan of action to attract more visitors to the area and to promote greater use of outdoor recreational assets by residents of the region.

Premier E. C. Manning of Alberta will address the opening dinner Sept. 9. Other speakers will include experts from Canada and the U.S. in the field of tourism, camping, hunting, fishing and travel for pleasure.

John A. Carver Jr., assistant Secretary of the Interior from Washington, D.C., Edward E. Carlson, president of Western Hotels, Inc., and chairman of Seattle's World's Fair Commission, and B. I. M. Strong, director of National Park in Canada will be among the speakers.

Departing from the conference scheme, Dr. Francis G. Winspear of Edmonton, former president of the Canadian Chamber of Commerce, will discuss Canadian and United States economic relations in a speech before the final luncheon Sept. 11.

## Jet Airliner Slams Into Bay

CP from Reuters-AP

RIO DE JANEIRO — A Brazilian DC-8 jet airliner crashed in flames into Guanabara Bay Monday while taking off with 103 persons aboard.

The number of casualties was not immediately known, but dozens of persons were rescued from the water. Unofficial reports said there were 80 survivors. Some injured persons were taken to hospital.

Radio reports said the plane carried 93 passengers and 10 crew members. It was bound for London, Paris and Lisbon.

## MP Would Ask Free Trade Area

VANCOUVER (CP) — Canada should react to United States proposals for quota-supply of western lumber with a demand for a free trade area, a Liberal MP said Monday.

Jack Davis, newly-elected Coast Capilano MP, said he will propose his party make a definite stand on this point when parliament opens in September.

He said in an interview that when President Kennedy proposed limitation of Canadian timber exports to the U.S. to aid U.S. producers, he probably anticipated violent reaction here.

"He would like to see us forcefully come back with something so he could say that Canada is taking a tough line, I believe," said Davis.

## REDS FIRE ANOTHER ONE

GENEVA (AP) — The Soviet Union Monday threw cold water on a Brazilian proposal for a ban on nuclear tests in the atmosphere to end radioactive fallout and reduce international tension.

As a sombre backdrop to the stalemate at the 17-nation disarmament conference, the Soviet Union set off another big nuclear blast in its latest atmospheric test series. Swedish scientists estimated it at from 10 to 12 megatons, equal to 10,000,000 to 12,000,000 tons of TNT. Japanese scientists put it at 10 megatons.

## Umbrellas Still Up at Vancouver

VANCOUVER (CP) — Four weather stations have set August rainfall records with 11 days still to go in the month. The stations, with the old records in brackets, are: Vancouver airport 3.31 (2.97); Abbotsford 5.25 (4.63); Estevan Point 8.69 (7.73); Port Alberni 4.2 (3.96).

## Altafur Still On Sale at Coast

VANCOUVER (CP) — The antibiotic altafur, removed from sale in the United States 18 months ago because it causes nausea and vomiting, still is available here, a drug wholesaler said Monday.

He said the drug usually is prescribed for patients seriously ill with pneumonia and like infections, but not much is sold.

Dr. Tim McCoy, a spokesman for the British Columbia division of the Canadian Medical Association, said it is not unusual for a drug to be removed from the market when it is found to have undesirable side effects.

**DOLLAR DOWN**

NEW YORK (CP) — Canadian dollar 1-64 lower at 92 51-64 in terms of U.S. funds. Week ago 92 25-32. Pound sterling ⅛ lower at $2.80 23-64.

## Regier Submits Second Resignation

OTTAWA (CP) — Erhart Regier said Monday night he has submitted his second resignation as New Democratic Party member of Parliament for Burnaby-Coquitlam, paving the way for party leader T. C. Douglas to run for a Commons seat in a byelection.

Mr. Regier submitted an earlier resignation but it was returned by Chief Electoral Officer Nelson Castonguay with the suggestion that the 46-year-old member consider it in the light of certain election law requirements. Mr. Castonguay cited two federal statutes for consideration.

The first was the House of Commons Act which says no member may resign until expiration of the time limit for contesting his election on grounds other than bribery or corruption. The second was the Controverted Elections Act which fixes two such time limits: 28 days after the member's election is announced in the Canada Gazette, and 14 days after the candidate or his agent files a statement of his personal expenses as required by the Canada Elections Act.

Mr. Regier's election was recorded in the Canada Gazette July 5. And the expense statement was submitted by Mr. Regier's campaign manager Aug. 3.

He said his resignation "was mailed this morning by registered mail, special delivery."

DEMONSTRATION FLIGHT—Plane salesman Philip Larimore's craft comes to rest on Glenoaks Boulevard in Los Angeles after his perfect dead stick landing. Larimore skilfully maneuvered under power lines, and when coasting, lifted a wing to skim over a parked car. The big trouble was, however, it was a demonstration flight for his six passengers.

## *And in This Corner . . .*

**NEW YORK (AP)—That apparently strange creature whose partly decomposed body was found on the Atlantic beach near Freeport, N.Y., turned out Monday to be a sea sturgeon. (Also please see page 4.)**

**The identification was made at the Coney Island Aquarium, which at first was puzzled by the creature's furry, seven-foot-long anatomy, with its broom-like tail.**

**"From what remains of it, we've determined that it was a sea sturgeon," said Christopher Coates, the aquarium director. "It was a fairly large one, but they're common enough around here not to be considered rare."**

**He said it is not the same kind of sturgeon that provides sturgeon eggs for caviar.**

VANDALIA, Ohio (AP)—Mrs. Frances King of Atlanta, Ga., a grandmother known as the "shootingest lady in the south," Monday won the Champion of Champions race for women state titleholders as the 63rd Grand American Trapshoot opened.

Mrs. King, a veteran of the clay target sport, has been runner-up six times for the title but this was her first win. She tied three others at 96 of 100 and then broke 49 of 50 in a shootoff to nose out Mrs. Jeanette Rudy of Nashville, Tenn., by a target.

# Lloyd Frame, Popular Sports Follower, Dies

James Lloyd Frame, long an ardent Nelson sports follower, died suddenly in Sacred Heart Hospital in Spokane early Sunday morning.

The 46-year-old Nelson native had travelled to Spokane Saturday for an inter-club golf match between the Nelson Golf and Country Club and the Esmeralda Club of Spokane. He collapsed at a post-match party Saturday night.

Born April 26, 1916, in Nelson, he received most of his schooling in Nelson except for short periods at Trail and Vancouver. He was orphaned at an early age. His mother died when he was two years old, his father when he was four years old. He was raised by his grandparents.

In 1939 he enlisted in Vancouver with the Seaforth Highlanders and served in England, France and Germany. Discharged in 1945, he returned to Nelson where he worked in various capacities and in recent years worked in Nelson hotels as a bartender.

He served in executive capacity in several sports organizations.

He married the former Shirley Stevens in 1946 in Nelson.

Besides his wife he is survived by one son, James, and one daughter, Sherry.

# Brilliant Object Seen in Skies

A bluish, red and yellow-striped extravaganza which made a brief startling appearance behind Elephant Mountain early Monday has been reported to the Daily News.

Two diffierent residents said they saw the flashing object as it came out of nowhere with appearance of fireworks, "bluish red, the size of a football, with a bit of a tail," said one person. "Blue in the centre, ringed with red and yellow sort of stripes" said a second.

Both agreed it moved with tremendous speed after it "just appeared," then disappeared.

SEEK CHAHKO-MIKA TITLE. Kelly Stanley, left, holds trophy for international championship won at Arcadia, Calif., in July on a one-way race up an 88-foot pole in 21 seconds. Danny Sailor holds the world championship speed climbing trophy won at Hayward, Wis., also in July, where he set a new world record going up and down a 90-foot pole in 26.5 seconds. Both seem to be winners; question now is, who will win at the Chahko-Mika in Nelson? ***

# Troops Join Search for Abducted Girl

ALLISTON, Ont. (CP)—Troops, police and volunteer civilians criss-crossed the countryside around this community northwest of Toronto Monday for a 10-year-old girl abducted by a male motorist late Sunday afternoon.

Twelve mobile army units from nearby Camp Borden, 10 provincial police patrol cars and about 150 civilians covered the district in a hunt for blue-eyed Thomasina Baker.

Police said a man in a car lured the little girl away from her three-year-old brother Allen while the children were playing at a swimming hole near the farm home of their parents, Mr. and Mrs. Thomas Baker. The girl, her blonde hair in a pony tail, was clad only in a swimsuit when she disappeared in the car.

Insp. James Harris of the OPP criminal investigation branch in Toronto who organized the search operation, said he fears for the child's safety.

# Former Nelson Man Teaches at Agassiz

A former Nelson man, Clifford Sherlock, is teaching Effective Speaking at the Agassiz Correctional Camp, an article in the booklet "Federal Corrections," states.

Both officers and inmates of the camp, a provincial forestry camp extension of Oakalla Prison Farm, are taking advantage of the course.

Mr. Sherlock joined the Nelson Junior Chamber of Commerce in 1955 and spent a year taking a training course in Effective Speaking.

In 1956 he was selected the best speaker in the Kootenay and went to Prince George to compete in the oratorical finals for B.C. and the Yukon. He was in competition with representative speakers from all major districts and his year of training gained him a mention.

The following year, 1957, with added experience and a further year of training, he represented the Nelson Jaycees and again spoke in competition at Trail. He repeated his performance, winning the Don Brown Cup for the Kootenay. This time he went to Kelowna to compete for the Vancouver Board of Trade Cup, symbolic of the B.C.-Yukon championship.

Having won the honor of top orator for B.C. and the Yukon within the ranks of Jaycees, he was sent to Calgary to compete for the Western Canadian title against leading orators from Alberta, Saskatchewan and Manitoba. He came within two points of winning the title.

# 40 Students Write Supps

About 40 high school students began writing supplemental examinations at L. V. Rogers High School Monday. Exams continue until Friday.

Gordon Taylor, who is in charge said about 15 senior matriculation students and about 25 junior matriculation students are expected to write this week.

A wide range of departmental courses are being written by the students, Mr. Taylor said.

## Poor Weather Cuts Swim Hours

Poor weather and earlier nightfalls have forced the Nelson Recreation Commission to reduce the swimming hours at Lakeside Rotary Pool.

New pool hours are 12 noon to 7 p.m., except for the evenings of adult swim classes, which last to 8 p.m.

Gyro Park pool, due to lack of use, has been closed for the remainder of the swim season. There is a possibility the pool may re-open if the temperature climbs again and the weather clears.

**LEGENDARY PATH**

Legend says the Giant's Causeway, a series of columns extending three miles on Ireland's north coast, was built for giants to cross to Scotland.

## REWARD FOR MEDIATOR IS CLUB FINE

The city police investigation into a fight last week which involved six persons may still be proceeding but a service club has taken action.

The progress of the investigation was questioned at city council meeting by Ald. E. T. Bodard Monday night. He said there was general concern over the fisticuffs in which two residents of Second Street, A. R. Euerby and J. A. C. Laughton, attempted to pacify the brawlers. Mr. Euerby was struck and kicked and Mr. Laughton received a glancing blow on the leg from one booter.

Mayor T. S. Shorthouse assured Ald. Bodard the question would be discussed at the police commission meeting today.

He then added that a service club had already taken action, "rewarding" one of the mediators for his "good samaritan" role and sense of civic duty.

"At Rotary Friday, Jack Laughton was fined for fighting," quipped Mayor Shorthouse.

It is customary for service clubs to penalize members for acts which they lightheartedly interpret as misdemeanors.

# Follow China's Military Tactics

SAIGON, Viet Nam (AP)—Hard-core Viet Cong guerillas, following military tactics which have won China and North Viet Nam for communism, have survived a massive government offensive in the southern swamplands.

Four four days crack government troops, supported by U.S. Marine helicopters, fighter planes and armored river craft, rolled across Ca Mau Peninsula seeking 2,000 Communist guerrillas who have turned it virtually into a little Communist state.

But as weary troops returned to government security areas during the weekend, it became obvious that once again the Viet Cong used their powers of survival effectively.

The government high command was arguing with U.S. advisers over the tally of Viet Cong dead: The government claimed 124, the Americans 60. Neither figure covers the fact that the Viet Cong's main body got away again.

**WAS TO BE KNOCKOUT**

The four-day operation, which followed three months of planning, was to be the Sunday punch to the Viet Cong in Ca Mau.

U.S. advisers now are thumbing ruefully through Communist guerilla textbooks which say "when the enemy attacks retreat."

Communist guerrillas in Ca Mau, faced with an overwhelming government force, just sank into the mangrove swamps with their women and children.

As exhausted government troops pulled out, the Communists applied another guerrilla law, "attack when the enemy is tired."

Government columns moving out of the swamps met with frequent ambushes. But the Communist fire came from inaccurate old muzzle loaders and shotguns. Government dead at operation's end totalled four.

# Creston Commissioners Study Nelson Chamber

Nelson's renovated city hall was scrutinized by six pairs of penetrating eyes Monday.

The Creston Village Commission, en masse, toured the building as guests of the city and Mayor T. S. Shorthouse. After attending the city council meeting that evening, they were guests at a city reception.

Purpose of the tour was to aid the visitors in their proposed plans to renovate the Creston Chamber. Present from Creston were chairman C. W. Allan, secretary-treasurer J. K. Hocking, commissioners Tak Toyota, Erick Jacks, Dr. Keith Marling and J. DeYoung.

The meeting of the two councils was termed an "historic occasion" by chairman Allan.

"I have known your city solicitor "Jimmy" Garland here for many years," he referred to C. B. Garland, QC, the first chairman of the village when it was incorporated in 1934, and who was in attendance at the meeting on a library matter.

"He and I broke new fresh ground together around 1919 when he opened a lawyer's office in Creston.

**TO RECIPROCATE**

"I don't think in the history of the Kootenay municipalities that two councils, en masse, have met like we have here tonight. It is a pleasure to come here to see your wonderful council chamber and offices and at some future date we are going to reciprocate by extending an invitation to you to attend a Creston council meeting in our new chamber when it is completed."

The invitation to Creston arose out of a chance meeting between chairman Allan and Mayor Shorthouse a few weeks ago. At that time chairman Allan was in Nelson and after meeting Mayor Shorthouse he was taken on a tour of the renovated Nelson city hall. He expressed the desire then, that his council should see the new quarters to aid them in their own planning. The invitation followed.

Mayor Shorthouse had a more ulterior motive which he lightheartedly disclosed in his welcoming remarks.

"The real purpose of this meeting is we want to see how well off you are. We are planning to extend our borders eastwards to take in Creston," he smiled.

# Eskimos Show $38,000 Loss

EDMONTON (CP) — A net loss of $38,500 on 1962 operations was estimated today by Edmonton Eskimos of the Western Football Conference as a result of a decline in season ticket sales.

In an advertisement published in the Journal as "an open letter to our citizens," and signed by President H. (Red) McMahon, the club estimated income at $440,000 and expenses at $478,500.

"If this famed Eskimo club of ours is to survive and keep our fair city in the only league that embraces all major Canadian cities, we must have an average attendance of 15,500 people per game," the letter said.

The club lost almost $75,000 last year.

"Operational costs this year have been shaved close to $55,000," the letter said. "Despite attractive discounts offered season ticket sales are down 400 seats and revenue therefore down $30,000."

It urged support of ticket sales for the balance of the season by by businesses and citizens.

# KC's Enjoy Annual Picnic

Despite threatening weather, members of the Knights of Columbus and families participated in gaiety and fun of the club's third annual picnic.

About 150 picnickers participated in swimming, boating, fishing, races and ball games.

Many out-of-town members of Knights of Columbus were also in attendance.

Races were held in age groups from three years and up.

A basket supper was held in the evening with everyone gathered in the camp cookhouse.

The picnickers were transported to the camp on the south shore in the Camp Lourdes boat, "Lourdes."

# Death Ray May Be Near to Completion

WASHINGTON (CP) — The United States believes it is making progress in creating the long-sought "death ray" which could vaporize armies and missiles through a concentrated beam of light hotter than a million suns.

In this chapter of military research in the race with Russia, the U.S. is attempting to develop the laser.

The laser, known technically as light amplification by stimulated emission by radiation, is a relatively new discovery of disciplining and controlling a high-energy beam of light so that it can travel over vast distances with precision.

Gen. B. A. Schriever, chief of the U.S. Air Force Systems Command, says the laser may prove to be a greater discovery than the ballistic missile.

One of his aides said millions of dollars is being spent in attempts to use the instrument in a way that could shoot a powerful beam on an incoming intercontinental missile, to burn out and destroy its nuclear warhead. This then would become an anti-missile defence far more effective than any missile that could be sent to block the attacking weapon.

Sweeping over a military battlefield, the death ray could vaporize whole armies, along with weapons and tanks.

But the laser can also be formed into a powerful peacetime tool, to spot-weld tiny severed nerves in the human body; embroider chemical bonds of molecules in industrial materials and drill the tiniest of holes, even in diamonds.

A leading research figure in the air force, Schriever detailed some of the later possibilities in a little-publicized speech before a meeting of photographic engineers.

In effect, he said, the laser makes it possible to place the energy of the sun in every laboratory with the laser capsule of creating "temperatures millions of times hotter than the surface of the sun."

**GREAT POTENTIAL**

One of its great civilian potentialities, he said, is that it will open up vast new broadcasting ranges.

"In the next few years lasers will open more than 1,000,000 times the present communications spectrum," Schriever said. "This presents the opportunity for a vast expansion—including television relay and lunar and interplanetary communications."

Schriever hinted at the death ray possibilities.

"With an increase in the energy level of a laser beam, or with more precise aiming techniques, it might have increasingly destructive and lethal effects and perhaps could be used to degrade or destroy the sensors and structure of the space vehicle at which it was directed."

An aide later added that one of the problems in application of the laser is that it seems to work best in a vacuum—such as in space—but that the atmosphere tends to weaken and distort some of its power. One possibility being studied is that if the laser could be harnessed into a death ray, it might be sent aloft in a space vehicle which could orbit the earth as a space policeman, ready to fire its lethal beam at an oncoming enemy missile.

## Austerity Hits Defence Program

OTTAWA (CP)—The Canadian defence buildup announced 11 months ago as part of NATO's response to the Berlin crisis will be only partially implemented because of the government's austerity program, officials said Monday.

The planned manpower increase in the army to 59,000 from 48,000 will be halted at the current level of about 52,000 men.

Other belt-tightening measures in the defence department are planned.

# Moojelsky Rapped By John Verigin

The leader of British Columbia's Orthodox Doukhobors publicly chastized one of the Sons of Freedom's top leaders for blaming the Orthodox leaders for Kootenay terrorism, in the groups weekly publication, "Iskra."

John J. Verigin of Grand Forks was answering Freedomite high-erup Bill Moojelsky on remarks allegedly made by Moojelsky in a letter to Verigin while Moojelsky was in Oakalla Prison.

Verigin originally answered Moojelsky at a public gathering of Orthodox Doukhobors at Brilliant August 5.

His speech to the gathering was printed in the latest issue of Iskra.

In Moojelsky's letter to Verigin, datelined Oakalla, June 1, the writer blamed previous Doukhobor leaders, John Verigin, and Peter Maloff, for counselling terrorism.

Verigin said, "He has the right, if he so wishes, to speak about his own double-facedness, of what he and others like him present to the outside world, and what they really are. That is their own business. For ourselves we can say that we are not and have no intention of being double-faced."

He continued, "Yes, Mr. Moojelsky! We see all this horror before our eyes. A youth is killed handling a bomb intended for a post office; his comrades are seriously wounded. Another is killed in an explosion near an automobile; his comrade loses his eyesight. A woman is burned to death. Watchmen at the tomb (the tomb of a previous Doukhobor leader, Peter The Lordly Verigin) are beaten to a point that it leads to their untimely death. A caretaker at the tomb is shot at and wounded in the hand. A crippled woman is brought to such a state by terrorism that in her over-wrought condition, she drowns her infant granddaughter. A million dollars worth of hard toil is destroyed in a moment, that which had taken good people so long and through such hard toil to build. Killers and destroyers explain their deeds with words such as,—'God told us; In the name of Christ; In the name of Doukhoborism. For the sake of emigration; To save ourselves and our children.

"While those who build, in addition to destruction of the fruits of their labor, have to endure sleepless nights to guard against their so-called brothers.

"Women also have to take their turn. Children's hair stands on end at the mention of the word 'Freedomites.' They are not taught to be afraid. They themselves note what is going on, and come to their own conclusions.

"Let me ask you, Moojelsky, whose hands are responsible for these frightful deeds?"

Space limitations prevent the publishing of Verigin's entire speech but he continued in the followng vein, "Moojelsky, you are really out of bounds in falsehood, and are trying hard to believe your own lies . . . You, having lost the last vestige of your conscience, without cause, vainly, are striving to slander me . . . In the past my biggest concern has been the clearing of the honorable name of Doukhobors from the mire in which such persons as you, Moojelsky, or the likes of you, with their wiles, treachery and slander have tried to bemire and dishonor . . . You have the habit of justifying your dirty deeds, and equating yourselves with our great and honored forefathers."

"In answer to your charge, and absolutely to the contrary — neither I, nor you, nor the Doukhobors know anything of the sort, and cannot possibly know, for the simple reason that these are not the deeds of Verigins. Quite likely you have become confused in your leaders. It is not among Verigins you have to look, but somewhere else for your culprits. I am not the cause of the circumstances you are in, whatever they may be, because I did not and do not have anything in common with you."

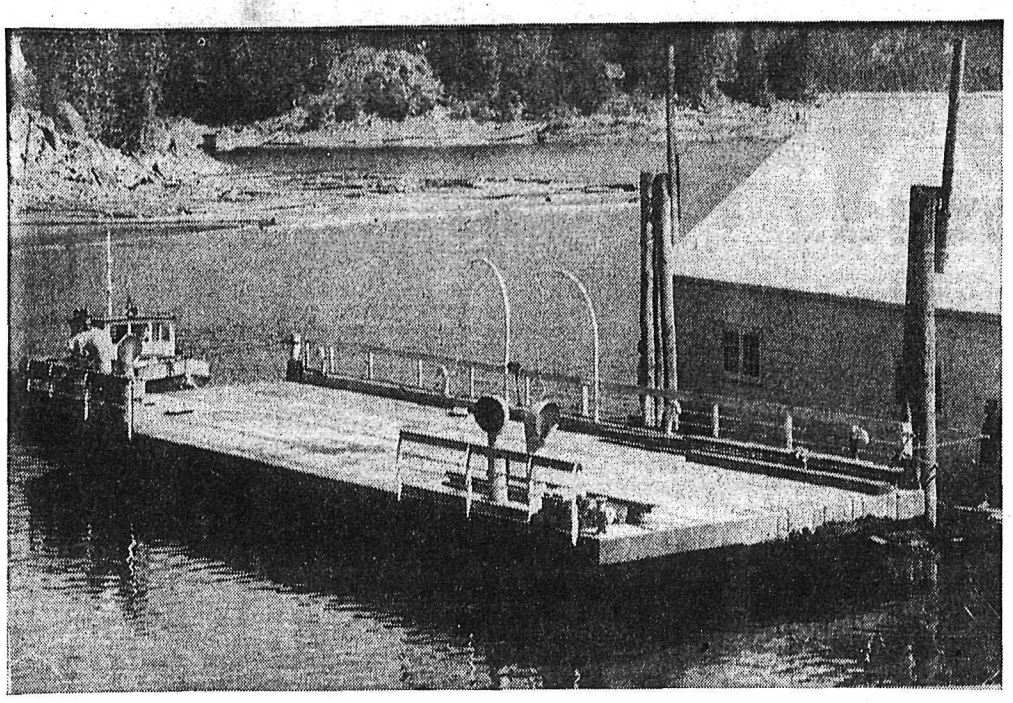
## Travel Adviser

JIM VIPOND says:

It is not a bit too early to be making plans to take in one of the most popular events in Hawaii, "ALOHA WEEK", in late October. Most of the hotel accommodation is booked but we were advised this week that the tour people still have space available so that you can make the 16-day trip for about $400 with everything included except meals and incidentals. Transportation from here to Vancouver is not included.

"Aloha Week" is one of the most colorful pageants in the Pacific and becomes a better show each year. Make your plans immediately to take in this wonderful event.

**VIPOND For TRAVEL**
Trail Nelson Cranbrook
Your PLEASURE Is Our BUSINESS



OLD FERRY HAS NEW USE — At present being used by the B.C. Forest Service for transportation of men and equipment along Kootenay Lake, the old Harrop ferry is shown as it arrived in Kaslo for use in the Kaslo Ranger District. Forestry personnel hope that the barge will be equipped with its own power unit eventually but at present it is being pushed by the forestry launch. Its area extends to Crawford Bay, Tye and halfway to Lardeau.

# Assets $100,000 by End of This Year Anticipated by Salmo CU

SALMO (NDN Bureau)—Starting with 10 members and total assets of $200 seven years ago, the Salmo-Ymir Credit Union, with headquarters in Salmo, now has a membership nearing the 300 mark and assets which, it is anticipated, will reach the $100,000 mark by the end of this year.

These figures, emphasizing the acceptance of the Credit Union idea here and the general prosperity of the community, were obtained this week by the Nelson Daily News from A. Almaas, president of the local credit union.

It was on May 11, 1955, that 10 men gathered at the Royal Canadian Legion hall in Salmo, with the object of forming an organization in which their pooled savings could be loaned to members at a low interest rate. They heard how, with a credit union, they could obtain insurance on their life savings and their loan balances, participate in the credit union endowment savings plan, and contribute to the growth and prosperity of the community.

The result was that the group decided to secure a credit union charter. Each year since then has seen a substantial increase in membership, with the biggest jump about double any previous year — coming in the past 12 months.

During its seven years, the local credit union has made 609 loans, totalling $55,615.39, in personal loans and $19,511.06 in endowment savings plan loans.

Personal loans were made to members for such purposes as: clearing up accounts, purchasing household equipment, for medical expenses, home improvements, real estate and automobile purchases, vacations, weddings, funerals, taxes, insurance, education and other needs.

Directors of the local organization are:

O. Almaas, president; W. Lange, vice-president; Mrs. Judy Wells, secretary-treasurer; E. C. Jackman, B. Chernoff and H. Holmes, directors.

# Accidents Take 53 Lives In Week-End

By THE CANADIAN PRESS

Two Ontario accidents that claimed a total of nine lives sent the province's weekend fatality toll to 23 and helped push the total for Canada to 53.

Of the 39 traffic victims across the country, 17 died on Ontario roads. In one accident, five persons—four of them members of one family—were killed near Hanover, 25 miles south of Owen Sound.

A Canadian Press survey from 6 p.m. Friday to midnight Sunday also showed fire claimed one life in Ontario and one man drowned. Four men were burned to death when their light airplane crashed into a hydro pole while they were taking off near Clinton, 35 miles northwest of Stratford.

Quebec, with seven traffic deaths and two drownings, had the second highest toll. There were eight deaths in British Columbia, all on the roads.

Four lives were lost in traffic and one person was drowned in Manitoba. Traffic accidents accounted for the one death each in Nova Scotia and New Brunswick. Saskatchewan had three drownings. Alberta reported one traffic death and one drowning. A plane crash claimed one life in the Yukon. Prince Edward Island had no weekend deaths.

The survey does not include natural deaths, industrial accidents, slayings or known suicides.

## Science Now Shrinks Piles Without Pain or Discomfort

**Finds Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids**

**Toronto, Ont. (Special)**—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.

In case after case, while gently relieving pain actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne)—discovery of a famous scientific institute.

Now this new healing substance is offered in *suppository or ointment* form called *Preparation H.* Ask for it at all drug stores—money back guarantee.

## *Win Silver Medals In Music Exams*

CRESTON — For the first time in the history of Creston, two Creston music students tied for top music honours in grade 11 piano in the Toronto Conservatory of music exams.

The two pupils are Miss Ciana Eyre, daughter of Mr. and Mrs. Jack Eyre, and Danny Miller, son of Dr. and Mrs. Jack Miller. These two students had the highest marks, 88 per cent, in their grade in the province and are entitled to the Conservatory's Silver Medal, which will be presented this fall.

Both also won the Frederick Harris Scholarship valued at $25 each, which is to be used in furthering their musical studies.

The two students received their instruction from Sister Mary of the Cross, Holy Cross Convent.

## Freak Fire Destroys Field Of Wheat, Truck

CRESTON — A freak fire caused considerable damage on Nick's Island Wednesday night at about 6 p.m. on the farm of Alf Berg and Herman Adams.

A truck driven by Ken Hill, loaded with wheat, backfired through a plugged exhaust and started a fire in the stubble.

The fire quickly consumed the truck and its load of wheat, then spread to an adjoining field of winter wheat, destroying 20 acres.

It is reported the truck and crop were insured.

## Eight Lives Taken in B.C. Accidents

By THE CANADIAN PRESS

Traffic accidents on B.C. highways took eight lives during the weekend. Two other British Columbians died in a crash in Washington State.

Worst accident occurred on the rain-slicked Lougheed Highway, 10 miles east of Mission late Saturday. Four members of one family — Mr. and Mrs. Patrick Madden, their son Michael, 8, and daughter Lynda, 2, all of Haney—died in a head-on crash with another car.

Cheryl Lee, 6, was the only member of the Madden family to survive the crash. She was in fairly good condition in hospital.

Police said the occupants of the second car were Mr. and Mrs. Raymond Denardo, a young couple on a honeymoon from their home in Los Angeles. They were in good condition in hospital.

Other victims:

Gordon Riley, 7, struck by a car while running across a Vancouver street to see the Pacific National Exhibition parade Saturday;

**TOT THROWN FROM CAR**

Janet Rydeen, 3, of Lantzville near Nanaimo, thrown from her father's car in a collision near her home Saturday;

Walter Walters, 55, killed when his panel truck collided with a car in Burnaby Saturday;

Gail June Smith, 21, a Vancouver typist, killed when a car in which she was a passenger crashed into the rear of a slow-moving navy truck on the Deas Island Highway Saturday.

Mr. and Mrs. Lawrence J. Carson of Trail died early Sunday when their pickup truck rolled over an embankment near Northport, Wash., a point of entry just south of Trail.

# Resign as Commission's Solicitors

CRESTON — The village commission will accept the resignation of the firm of Cooper and Vogel as its solicitors on receipt of the firm's account.

The decision was made following receipt of a letter from the firm tendering its resignation as the commission's solicitors. The resignation, it was indicated, was brought about by the commission's actions in dealing with the matter of a wire sent to the lawyer for Columbia Gas without consultation of the city's lawyers.

The firm has received its usual $500 retaining fee for this year, and the commission decided to engage its services during the remainder of the year only if the need arises on a particular matter.

# Fatal Crash Result of Argument

NORTHPORT, Wash. (CP)—Police said Monday a survivor of a Sunday truck crash which killed a Trail man and his wife told them it was caused when the woman stepped on the gas pedal and grabbed the wheel of the vehicle her husband was driving.

John Connell, 32, of Trail was quoted as saying her actions followed sharp words with her husband.

Killed when their pickup truck went over an embankment near this border checkpoint were Lawrence Caron, 38, and his wife, Lena, 37 of Trail.

Sheriff Dutch Holter of Stevens county said Connell told him that the Carons had been arguing. During the drive home the husband speeded up and the wife was quoted as saying: "well, you might as well kill us all and get it over with."

Connell said she then jammed her foot on the accelerator and grabbed the steering wheel, twisting it sharply. The truck veered and rolled over three times as it smashed into an 18-foot deep ditch at the side of the road.

The Carons died instantly. Connell suffered head injuries and is in Rossland Hospital.

# *Koolaree Echoes*

Gosh mom, it seems as if we just got here, and they're sending us home.

We were put in the following cells:

Behind the bars at "Batty Hollow" are leader Diane Caldwell, with Janice Riley, Patrice Watson; Shirley McClean, Jeanette Robertson, Brenda Robinson, Juliana Dahlquist, and Sheilah MacKinnon.

Down the river are "Simon's Explorers" headed by Claire (Simon) Fraser. They include Mary McGready, Sharon Truscott, Judy Moore, Marnie Honeyman, Carolyn Nelson, Christine Turner, Diane Bivar and Marie Hewgill.

Round the bend at "Curly Cues Corner" topped by Joyce (Curly) Linville, are Donna Holloway, Lynn Thomson, Nora Harrison, Kathleen Landucci, Louise Hanic, Maureen Pommier, Georgina Gleam and Debbie Lehman.

Over the hill at "Sleepy Hollow" with Arla Robinson in charge, are Cheryl Cowland, Janice Starchuck, Elaine Ferguson, Kathy Hagan, Susan Koltthammer, Jill Olson, Josephine Bandy and Wendy Price.

Up in the rocks at "Bruno's Den" under Nadiene (Bruno) Ruckstuhl, are Janet Martin, Carol Palyga, Shelley Wilson, Louise Dawson, Joanne Filleul, Sharon Morton, Maeve Koe, and Sharon Pollard.

Here in "The Nut House" are the Crazy 8's under Christine (Chester) Jackson. They include Barbara Moen, Lynn Dimock, Pamela Wade, Jackie Banton, Victoria Dahlquist, Carol Moore, and Mary Turner.

Down in the swamp is "Turtle's Shell," and it is two-headed, with Elaine (Turtle) Hirtle and Sandra (Silts) Irvine. The girls are Judy Metcalfe, Ada Robinson, Susan Cairns, Anne Atewart, Wendy Axworthy, Sheila Heighton, Linda McDonald, and Laurie Vogelsang.

Director for our camp is Mrs. W. A. Bennett of Trail. Camp Mother is Mrs. R. J. Welton, Trail, and the nurse is Mrs. E. Truant of Trail. Senior leader is Claire Marlatt, and Sporty is Margaret Yolland. We were unfortunate in losing our nurse when her little girl was ill.

On Saturday we had a picnic over at Chapel Beach, our first good weather. The fare was complete with watermelon, hot dogs, cake, fruitade and, of course, swimming.

Maryke Harts, Jo Ann Langridge, and Diane Ingledew arrived on Sunday to spend a few days as leaders-in-training. We hope they will return next year as full-fledged assistants.

The winner of water-sports held on Monday was Cabin 3.

In honor of the three girls who had birthdays at camp, the cooks baked two huge birthday cakes and we all exchanged presents.

On Tuesday Cabins 3 and 6 won the land sports, and that evening at campfire we had a talent night.

For the morning of the last day the girls exchanged places with the cabin leaders, who had to do the breakfast dishes such as they had never been done before. Cabin 2 then gorged themselves on the watermelon they won for the treasure hunt. At noon we held a Monk's Dinner, at which not a sound was heard (?). All the leaders dressed as monks. The seven campers who broke the silence rule had to sing at campfire.

Jo Ann was really tough with morning jerks at 7 a.m., but the campers got back at all the leaders on Girl's Day. Awards were given at supper on the last evening, Cabin 3 taking the big blue K's. Those receiving large red K's for Bible study were, Janet Martin, Elaine Ferguson, Maeve Koe, Louise Hanic, Pamela Wade, Carolyn Nelson and Sharon Morton. Our Chief Camper for next year is Sharon Morton,

Although the weather was not exactly summery, and we were not able to swim as much as we had hoped, it was a wonderful camp. We were busy with Bible study, handcrafts and sports, and of course we all took turns at "chores." We had Chapel every morning after breakfast, and rest-time after "tuck" in the afternoon.

The highlight of every camp is the bonfire at nigh, and alhough the weather only permitted us to have one fire outdoors, the large log lodge has a huge fireplace. So every night you could almost feel the roof rise with all the singing we did.

After we are all home again, there will be very many pleasant memories of old Koolaree.

# Will Be No Senior Matric at Kimberley

KIMBERLEY — The School Board has decided to discontinue the senior matriculation class at Selkirk High School this September.

So far only 12 students have applied for Grade 13 subjects. This fact, plus the difficulty in obtaining a senior mathematics teacher led to the Board's decision.

The Board is investigating the possibility of arranging transportation to Cranbrook High School for those students who wish to continue their studies in the higher grade. Facilities are available at Cranbrook, and students are advised to register at Cranbrook as soon as possible.

There are 19 vacancies on school staff in Kimberley. To date the board has received 205 applications. However, most of the applaciations received are for elementary and junior high school positions. There are still vacancies to be filled on the senior high school staff.

**SWAP WITH CITY**

In return for the City Council agreeing to lower the fire hydrant pipe at the Selkirk School site, the Board has agreed to exchange a piece of land next to the substation. The property is of no use to the School Board, and is required by the City to provide access to a proposed three-lot residential area. The cost of replacing the hydrant pipe is estimated at $180 which the Board feels is a fair exchange.

# Funeral Held For Young Truck Driver

CRESTON — Following the funeral service Friday at Holy Cross Church for William Paul Walton, 18, interment took place in Forest Lawn cemetery at Erickson.

Rosary was said Thursday evening for the young man who died at Nanton, Alberta, following a truck collision last Tuesday.

He was driving a semi-trailer truck hauling cement when he reportedly sideswiped a truck loaded with lumber. The other driver was unhurt.

Born at Calgary, he had received his education at Coleman, Alta., and Creston. He worked for a time at Johnston Bros. sawmill at Kitchener before driving for his brother, Phillip, of Creston and latterly of Calgary for the past two years.

Surviving are his parents, Mr. and Mrs. James M. Walton of Creston, five brothers, Jim, of the RCAF at Cold Lake, Alta., Thomas, Michael and Kevin of Creston; five sisters, Mrs. J. (Carol) Gilmour, Mary, Ethel, Theresia and Susan, all of Creston.

## *Cooperation, Explorati on Will Keep Milk Industry in Operation*

Every business, and the small dairy farmer runs a business, is subject to changes and varying conditions. The Palm Dairy's announcement that it intends to cut its purchasing price of milk is one of those unfortunate things which occur in one form or another in all businesses.

Obviously the 10 per cent cut in the gross revenue a farmer receives for his milk means a loss to him. It is understandable that in the first flush of his anger the farmer should declare that he intends to quit.

This is not the time to quit but to stand up and fight — not necessarily the Palm Dairies but the conditions which influence the farmers' business. As the provincial veterinary inspector, Dr. Cunningham, says, "This is not the time to panic and walk out." As a dairyman who went through the same thing in the Fraser Valley, he says that these things rectify themselves if given time.

Along with the time must go a consolidated effort to assess every phase of a farmer's business, the determination to discover everything which affects his business, to find the best and cheapest means of producing it and of selling it. This can only be done by co-operation between the milk producers.

To do this they must set up a committee to deal with the matter but they must be prepared to consult experts and take the advice of those who have had experience of such matters. Most likely the Fraser Valley Milk Producers would be only too glad to assist and recommend men qualified to speak on such matters. Dr. Cunningham, we presume, would also be only too ready to help.

To ask the Milk Control Board to come in and take control should be the last thing considered. Before that producers might well consider the formation of a larger co-operative. The Kootenay Valley dairy co-operative seems to do reasonably well and an all embracing one for the whole Kootenays would speak with authority for all producers.

The Kootenays cannot afford to lose one farmer and everything possible should be done to enable them to make a fair living. Before any of them decide to sell out, every possible avenue should be explored, for, as has been pointed out, they would sell at a loss on a falling market and would still have to face the difficult matter of adjusting themselves to new conditions in some other place.

## Thank You, We Have Enquired

A spokesman of the Sons of Freedom fraternal council now calls for a public inquiry into the Doukhobor problem. The council may seek to lay its case before members of the Legislature. "The council," he says, "intends to keep on discussing things."

Let us remind the Sons of Freedom there is no Doukhobor problem in British Columbia.

There is a Sons of Freedom problem.

The great bulk of B.C. Doukhobors have adjusted themselves to life in this province.

Many of them are well-known and respected citizens. In the last federal election, one of the major political parties was happy to be represented by a member of a pioneer Doukhobor family as a candidate.

There have been sufficient inquiries into the Sons of Freedom problem. Informed British Columbians are aware of the facts. The facts are readily available to those who are not informed.

The problem is that a small dissident Doukhobor sect refuses to obey the laws of the democratic community in which it resides. It has, apparently, no intention of obeying them.

It resorts to theft, murder, arson and sabotage out of sheer malicious megalomania.

It perpetuates itself by refusing to allow its children to be educated in the public schools of the province.

It hides behind the name and the catch-words of a religion it does not practice.

It commits crimes and claims martyrdom when it suffers punishment.

It violates the rights of other citizens. It is contemptuous of the democratic liberties in which others take pride.

For the first time in half a century the Sons of Freedom are being subjected to the due processes of the law which apply to all citizens as a matter of course.

That is the Sons of Freedom problem.

But it is their problem — not ours.

All the necessary inquiries have been made.—*Vancouver Sun.*

## Vanished Chivalry

Some observer of modern manners and customs has said that chivalry began to disappear from life when a man picked up a handkerchief dropped by a lady and discovered that it was a piece of Kleenex. Other observers might set an earlier date, perhaps about the time when streetcars became the common mode of transportation. Women themselves, unless they are quite elderly, no longer seem to expect a man to relinquish his seat to them as a matter of course.

The custom of doffing the hat when a lady enters an elevator still is recognized by most men when the elevator is in a hotel, but it does not seem to apply any longer in office elevators. This is a sensible dropping of a custom, for the rush hour in most office buildings so crowds the elevators that hat-doffing becomes impossible.

The pace of modern life perhaps has something to do with the deterioration of manners. People, particularly in a city, are always in a hurry to get somewhere else, so much so that they have no time for the minor niceties of conduct, if their parents have ever taught them what these should be. Try to edge a car away from the curb into a stream of traffic, and you will discover that only one driver in twenty will give you a break, although the drivers all know that they will be stopped by a traffic light within the next minute or so.

Freedom of competition is admirable in business, but it need not be carried into all departments of life. It may sometimes be more profitable to let the competing motorist push his way through traffic. That way he may sooner arrive at an accident that will remove him from the roads.

—*Nanaimo Free Press.*

### It's Been Said

Such it hath been, and shall be, that many still must labor for the one: it is nature's doom.

—George Gordon, Lord Byron.

## National Youth Orchestra Gets Great Ovation

STRATFORD, Ont. (CP) — The National Youth Orchestra ended its fourth annual session here Sunday with a performance that drew a standing ovation from the audience and glowing critical praise.

The 91-member orchestra — made up of youthful musicians from across Canada under conductor Victor Feldbrill of the Winnipeg Symphony—was giving its third concert this year. Previous appearances were in St. Catharines and Buffalo, N.Y.

John Kraglund of the Toronto Globe and Mail wondered whether the performance could not be listed as the outstanding one of the Stratford season, despite the appearance of numerous professional musicians.

He praised the "precision, intonation, tone, attack and musical dedication" of the young musicians and found the concert "almost entirely devoid of the minor, professional type flaws."

Molly Graham of the Stratford Beacon-Herald said the performance was, "in the opinion of many, the best concert of the year here."

## Report From Victoria

By HON. W. D. BLACK, Provincial Secretary, Minister of Municipal Affairs, Minister of Social Welfare.

Last week brought forth the sad news of the passing of Hon. Buda Brown, Minister Without Portfolio. Mrs. Buda Brown had represented the constituency of Vancouver-Point Grey in the Legislative Assembly since 1956. She was appointed to her Cabinet post in 1960.

Mrs. Brown's death was a shock to the members of the Legislaitve Assembly and especially to her colleagues in the Cabinet. She represented the woman's viewpoint in Government circles and, because of her wide experience in the field of home and family service, her views were always received with respect.

Mrs. Brown spent most of her life in public service. During the war years, as Chairman of the Vancouver United Services Centre, she arranged hospitality in homes for more than 10,000 Commonwealth servicemen on leave. Although born in the State of Washington, Mrs. Brown spent most of her life in British Columbia working tirelessly in the interests of young people.

As Minister Without Portfolio, the first to hold such a position in British Columbia in 30 years, Mrs. Brown continued to concentrate on the problems of our younger generation.

For a time, she was Executive Director of the Mayor's Youth Service Committee in Vancouver. While in that position, she worked constantly to curb juvenile delinquency in that city.

From 1948 to 1956, Mrs. Brown was Vancouver's only woman Park Board Commissioner. During her term of office, she accompanied the gardeners and the 300 employees on their rounds, taking a personal interest in all phases of park work. She also became the first woman president of the International Northwest Parks Association.

Mrs. Brown was always a supporter of penal rehabilitation and fought for improved conditions in penal women's quarters. During her constant active public life, she was a director of the Vancouver Girls' Club Association, president of the United Church Home for Girls and a supporter of the Kiwassa Club's "big sister" movement. In 1953, she was awarded the Kitsilano's Good Citizen trophy.

This week has been darkened for many people who have been associated with Mrs. Brown during her active life and British Columbia has lost an ardent worker.

## Ed Sullivan Recovering From Surgery

ROCHESTER, Minn. (AP)—Ed Sullivan, television personality, is expected to be here 10 to 12 days following gall bladder surgery at the Mayo Clinic.

Sullivan was reported getting along well Monday at St. Mary's Hospital. The surgery was performed Saturday, about a week after Sullivan arrived for a checkup.

## *Residents Predict Good Future For Dawson City*

By J. D. R. TAYLOR

DAWSON CITY, Y.T. (CP)—Residents of this Klondike town are generally agreed that a bright future is in store for the Dawson City Gold Rush Festival which ended its first seven-week run Saturday.

However, it may take some time and a "lot of hard work." This year's effort, regarded by many as too ambitious an undertaking, had its difficulties, financial and otherwise. These problems will be studied in the weeks ahead as the Festival Foundation's board of directors meets to plan for next year.

Some of the troubles which beset the festival following its July 1 start are unlikely to recur. For one thing, restoration work on the Palace Grand Theatre and the Keno riverboat, feature attractions of the festival, was not completed in time for the opening. Make-shift accomodation and eating facilities were unable at first to cope with the heavier flow of visitors to the town. Even at the festival's end visitors complained of delays in obtaining service in cafes.

**MAJOR JOBS DONE**

Next year the Palace Grand and the Keno will be in shape at the start of the festival for whatever activities are planned. Local manpower, a strictly limited resource, will be available for other jobs.

Work can continue on a less frantic pace on the restoration of Dawson City as a national historic site. Costs are also less of a problem. Restoration of the Palace Grand and the Keno cost about $400,000. Building of a few false fronts for existing buildings and the restoration of half a dozen other structures—the post office, the presbyterian church and a number of old stores—is expected to run to $100,000, of which part may be paid by interested private donors.

Another problem which not likely will have to be faced next year is that of paying for an expensive musical production like Foxy. The show, starring veteran comedian Bert Lahr and a New York cast, ran to poor houses at the Palace Grand and, when all the bills are paid, will have had a net cost of more than $400,000.

Comments here and reports from Ottawa indicate that a less expensive feature attraction will appear next year.

One of the main problems is increasing the number of festival visitors to the point where tourist dollars will pay off the investment made by the government and local businessmen.

Allan Innes-Taylor, festival general manager, estimates there were 18,000 visitors this year. He predicts an attendance of 25,000 to 35,000 within three years.

CIVIL DEFENCE

Hospital and school plans are integral parts of municipal plans and must be given consideration when the overall plan is being drawn up.

## The What-Is-It Has Folk Beat

NEW YORK (AP)—What is seven feet long, weighs 50 to 70 pounds, has a furry coat, a tail like a straw broom and swims?

Give up? Well, don't feel too bad. The experts at the city aquarium don't know the answer to the riddle either. Trouble is, they're stuck with the body of an animal, or fish, answering just that description.

The creature was spotted floating in the Atlantic Ocean near a pier in Freeport, N.Y., during the weekend by three fishing enthusiasts. It was partly decomposed, had cavities where the eyes should be and had no teeth.

A sanitation truck carted it to the aquarium at Coney Island, where Director Christopher W. Coats and his staff plan to dissect the creature in an effort to find out what it is.

Coates, who suggested the creature may be "something from the deeper ocean washed up a very long time ago," described it like this:

"The back end of it looks like a fish, but I don't know what the front end looks like."

**HUBERT**

"She's very hard to please—especially under fifty dollars."

## West Berliner Calls for New Demonstration Along Red Wall

BERLIN (AP)—A red-haired young West Berliner called for a new demonstration alongside the Communist wall Monday after thousands marched, shouted and threw stones at Russians, Americans, the wall, East German border guards and their own West Berlin police.

Police on both sides also hurled scores of tear gas grenades during the violent demonstrations. A Communist water cannon streamed for 20 minutes.

Huge slingshots fired the tear gas grenades from the Communist side.

The young redhead, who was not identified, spoke through the loudspeaker of a West Berlin police truck. The truck was escorted by about 500 demonstrators from West Berlin's city hall down Kurfuerstendamm, the city's main street. Hundreds of cars followed, tooting their horns.

Honking cars appeared near Checkpoint Charlie, at U.S. headquarters and at Bernauerstrasse — the border street where many refugees have leaped to the street, some to their deaths.

**SEEKS DISPERSAL**

It was nearly midnight, and the yoing man asked the demonstrators to go home for the night. Some did. Others went back toward the border, shouting "the wall must go."

There have been demonstrations in West Berlin every day since Friday, when police of the East German Communist regime shot an 18-year-old refugee just as he was climbing the wall. He fell back on the Communist side, mortally wounded.

For almost an hour the boy lay there, and nobody came to help.

Many Berliners were indignant at the U.S. forces in Berlin. Their major post on the wall, Checkpoint Charlie, is only 200 yards from the site of the incident. Many felt the Americans should have given the wounded youth medical aid.

Maj.-Gen. Albert Watson, the U.S. commandant in Berlin, protested to the Russians. He told the West Berliners, through an official spokesman, that the U.S. mission shared their sense of outrage and frustration.

**DEFY WEATHER**

Demonstrations Saturday and Sunday morning were dampened by rain. Still the marchers, most of them young men and women, managed to break the windows of a Soviet bus and unfurl some anti-American banners.

Sunday afternoon the sun came out, bringing thousands of young people into the street. Stones and bottles shattered more Russian bus windows. U.S. cars and vehicles were jeered at. Despite an official denial, eye-witnesses insisted that Americans were stoned, too.

At U.S. insistence, West Berlin police reluctantly cleared demonstrators 300 yards back from Checkpoint Charlie. At one point, a group of U.S. military police helped out, with bayonets fixed.

Police diverted about 5,000 demonstrators to the West Berlin city hall. There Mayor Willy Brandt warned them against giving joy to the Communists by going against the Western allies.

## *Berlin Police To Crack Down On Rioteers*

BERLIN (AP)—Mayor Willy Brandt Monday ordered West Berlin police to crack down on rioters "with the necessary vigor" after wild weekend demonstrations at the wall brought attacks on Americans as well as Russians.

East and West Berlin police also were involved in the melees and Brandt appealed in a radio speech for calm.

Thousands of angry West Berliners marched, shouted and threw stones at Russians, Americans, the wall, East German border guards and their own police Sunday.

Tear gas grenades were fired by huge slingshots into the mob from the Communist side.

The rioting was in protest against the shooting Friday by East German guards of a young man trying to escape to the West. He was left to die slowly on the east side of the wall while U.S. troops and West German police watched from the other side.

**REDS REFUSE TALKS**

Maj.-Gen. Albert Watson, the U.S. commandant, disclosed the Russians had refused an invitation to discuss the increased tension with American, British and French commandants at U.S. headquarters. Watson had offered to lift a ban on the Soviet commandant visiting the U.S. sector.

A spokesman for the three Western powers deplored the Soviet refusal and declared:

"The irresponsible actions of the East German regime in the Soviet sector and their murderous use of fire on defenseless individuals have produced a grave situation.

"The acting Soviet commandant, cannot, by refusing to discuss the situation, divest himself of his direct responsibility."

The spokesman said Gen. Watson sent a letter to the acting Soviet commandant at the height of Sunday night's rioting.

**SEES GRAVE DANGER**

Watson warned a situation was rapidly developing that "could have grave consequence extending far beyond the city itself."

The spokesman said Watson's letter suggesting a conference was returned to U.S. headquarters "with the statement that the acting Soviet commandant did not wish to discuss the contents of the letter."

A red-haired West Berliner called Sunday night for another demonstration today.

## Bombs Thrown Spanish Papers

MADRID (Reuters)—Spanish government opponents Monday set off bombs at three newspaper offices in Madrid and Barcelona.

The Barcelona independent newspaper La Vanguardia was shaken this morning. One man was slightly injured but little damage was caused.

Earlier, similar blasts shook the labor union newspaper Pueblo and the Roman Catholic daily Ya in Madrid. Damage was slight in both cases and there were no injuries.

An explosive charge outside the walled San Sebastian estate of head - of - state Francisco Franco Sunday shattered windows in a nearby convent but caused no damage to the estate.

The explosions were the latest in a spate of bombings during the last three months which police have blamed on the anti-government "popular liberation front" movement.

Franco's wife, Carmen, was in the summer residence at the time of the explosion, but the 70-year-old Spanish leader was believed fishing in the Bay of Biscay.

Since June, bombs have been set off in a Madrid bank, universities, government buildings, and buildings of the Catholic Church.

## Cancer Vaccine Not Developed

MONTREAL (CP)—Dr. A. B. Sabin, developer of the anti-polio vaccine which bears his name, said Sunday night there is no possibility of producing a vaccine against cancer in the foreseeable future.

Dr. Sabin is in Montreal to attend the week-long eighth International Congress of Microbiology.

"There is simply no evidence that any type of human cancer is caused by a virus," he said in an interview.

"Because some animal cancers have been caused by viruses, we can't transpose these findings to humans. The only cancers induced in animals have demanded controlled and somewhat extraordinary conditions that aren't likely to be found in humans."

**LABOR CENTRES**

The first public employment bureau in England was opened in 1855 and a national system was formed in 1909.

## *Proposal To Halt Nuclear Test Rejected by Russ*

GENEVA (AP) — A Soviet spokesman Monday rejected proposals for a nuclear test ban treaty which would not include underground test explosions.

The Russian told reporters before the opening of the 72nd session of the 17-power disarmament conference that a partial test ban "will not settle the problem" of ending the nuclear armaments race "because the Americans would continue testing weapons underground."

The spokesman added that the Soviet Union remains "dedicated to the neutralist eight-power memorandum" which it accepted as the sole basis of negotiating an American-British-Russian treaty banning all tests.

The spokesman claimed that the idea of a partial test ban—raised so far by Brazil, Sweden and Italy in the disarmament conference—has not been presented as a formal proposal. Therefore the Soviet government has not yet reacted officially to the idea within the meeting, he said.

The three nuclear powers' inability to agree on methods of enforcing a ban on underground explosions—the most difficult to detect and identify—revived the idea of a partial test ban.

Brazil, Sweden and Italy proposed such a pact as a step toward a comphrensive agreement banning all tests in all environments. The Western nuclear powers favor such a comprehensive accord.

Because of mounting neutralist pressure, the U.S. government has been weighing the idea of a partial ban.

## Rescuers Find Lost Woman

PRINCETON (CP) — A woman from Kirkland, Wash. spent 24 hours in rugged bushland after she lost her way while hunting for rocks Saturday.

Mrs. Wilma Jean Reckling, 37, followed a creek bed to the Similkameen River where searchers found her Sunday night.

Police and about 25 volunteers started the hunt after she failed to return to the Reckling family campsite in nearby Manning Park.

Mrs. Reckling, tired cold and hungry but otherwise unharmed, said she spent most of the night in a rock crevasse which sheltered her from overnight rain.

## B.C. Highlights

**SEARCH FOR DOG**

VANCOUVER (CP) — City Pound officials are looking for a large German shepherd dog that attacked two youths in a park Saturday. One of the youths, Don Cummings, 17, was bitten on the arms and shoulders and was treated in hospital.

**BIG CLOTHING HAUL**

VANCOUVER (CP) — More than $4,000 in clothing was stolen during the weekend from George Hayes clothing store here. Police said the thieves forced the rear door.

## Fisherman Hurt By Savage Shark

BROWNSVILLE, Tex. (AP)—A critically injured man with a badly mangled right leg said Sunday he was attacked by a shark while fishing in the Gulf of Mexico.

Hans Fix, about 40, of McAllen, Tex., had been surf fishing near Port Isabel, Tex. He was conscious when rescuers pulled him from the water but he died about 20 minutes after reaching a hospital here.

Fix was on an outing with his wife and five children on Padre Island, a thin strip of land that extends along most of the Texas Gulf Coast.

Bob Lauer of Harlingen, Tex., was swimming near where Fix was fishing and heard him scream.

"The water was boiling around him," Lauer said. "as I pulled him from the water he said the shark hit him once on the leg, and again."

Lauer placed a tourniquet on the leg and held it while Fix was taken by ambulance to the office of Dr. J. A. Hockaday for emergency treatment.

Dr. Hockaday said Fix was in shock but managed to tell him how he "fought the shark with his fishing rod."

The physician said he felt there was no doubt Fix was attacked by a shark. He said Fix was bitten at least three times on the leg and death was due to loss of blood.

Dr. Hockaday said that while surf fishing, Fix probably carried a stringer of fish attached to his belt that dripped blood into the water and attracted the shark.

## Today In History

By THE CANADIAN PRESS

Aug. 21, 1962 . . .

Oil was struck in what is considered the first commercial well in the modern sense 103 years ago today—in 1859. The 69-foot well drilled by Edward Drake at Titusville, Pa., touched off a boom that grew into the modern gasoline age.

1947—Russia cast its 18th Security Council veto in stopping admission of Italy and Austria to the United Nations.

1951—The U.S. Navy announced awarding of a contract to build the world's first nuclear-powered submarine.

## Gaglardi Explains Why Hospital Construction Formula Changed

KAMLOOPS (CP) — Highways Minister Gaglardi said Sunday the provincial government's hospital construction grant formula has been changed to protect municipal taxpayers against high interest rates.

"A hospital loan is always a long term loan," he said in an interview. "If the interest goes above 5.5 per cent, we don't feel that it is economically feasible."

"If it goes to six per cent it stifles the taxpayer with a tremendous amount of exhorbitant taxes."

Premier Bennett said last week the government will no longer guarantee hospital construction loans if the interest goes above 5.5 per cent.

**DISTRICTS PROTEST**

The provincial government pays 50 per cent of rural hospital construction costs as an outright grant and the federal government contributes 12 per cent.

Previously the provincial government either loaned or guaranteed loans from other sources to raise the remaining 12 per cent.

"The only change is that we used to go to the money markets on behalf of the districts," said the highways minister. "Now, they have to find the backers themselves."

Since the policy change, several districts have said it will make it difficult, in some cases impossible, for communities to build hospitals.

OFF FOR THE CONTINENT — From Nelson and Trail, these travellers are shown in the picture above as they boarded a plane at Calgary for Amsterdam. Standing on the ramp of the CPA jet flight are Mr. and Mrs. J. G. Watson and Mrs. Daniel Davies of Nelson and Mrs. M. Townsend, Mrs. D. S. McGibney and Mrs. J. C. Vipond of Trail. Extreme left is Miss O'Connor, stewardess, and waving is Don Prior of Trail, CPA representative. The travellers from Trail are joining Mrs. Don Sutherland in London for a month's tour of the Continent.

**FIRE DAMAGES HOME**

VANCOUVER (CP) — A fire Saturday damaged the Richmond home of Mrs. Dan Fisher, who was preparing to leave with her daughter Thursday to join her husband at Holberg on Vancouver Island. Mrs. Fisher said she lost $100 that she had hidden under a chair in the living room.

## Manitoba Girls Arrive In Singapore for Tour

SINGAPORE (CP) — Two Manitoba schoolgirls have arrived here to prepare for a month-long speaking tour of Malaya, followed by visits to Rome, Paris and London.

Norma Amerancia Ruse, 18, of Flin Flon, and Elizabeth Antonina Kozakiewics, 16, of Brandon were selected as Rotary Club exchange students between District 555 in Manitoba and 330 in Southeast Asia.

Two Asian students will visit Manitoba later.

In Malaya, Norma and Elizabeth will address Rotary clubs on Canadian historical, economic, geographic and cultural aspects.

On their way home they will touch at Rome, Paris and London.

When the girls return, they will visit the 34 clubs in District 555 to report on their good will trip.

Elizabeth is known as Nina at St. Michael's Academy in Brandon, where she is a speech student. For the last five years she has scored honor marks in her examinations for Trinity College, London.

Norma has received most of her schooling in Flin Flon and recently won a $200 undergraduate scholarship for continued study in education and arts at the University of Saskatchewan.

# Principals Abfalter-Cowan Wedding to Live in Germany

MR. AND MRS. RICHARD FREDERICK ABFALTER

Red and white gladioli ornamented the Church of St. Michael at RCAF Station Rockcliffe, Ottawa, for the wedding ceremony uniting in marriage the former Yvonne Pauline Cowan, daughter of Mr. and Mrs. Herbert Cowan of Picton, Ont., and Mr. Richard Frederick Abfalter, son of Mr. and Mrs. F. A. Abfalter of Nelson.

Rev. Father Burke officiated at the 10 a.m. marriage service on July 25.

Wedding music was played by Flying Officer M. Robert, who also sang "Ave Maria."

Given in marriage by her grandfather, Mr. A. O'Brien, the bride wore a floor-length gown of silk organza over taffeta and a headpiece of white organza held by a fingertip veil of tulle. She carried a white satin prayer book covered with a bouquet of white baby carnations.

Mrs. W. M. Speight, matron of honor, was gowned in crystal blue silk organza over taffeta. Miss Alice Cowan, sister of the bride, chose pink silk organza over taffeta for her gown. Their small veils were held by tiny crowns. The matron of honor carried a nosegay of yellow flowers and the flower girl carried a basket of yellow baby carnations.

Mr. Bernard March, of the Canadian Army, stationed at Picton, was best man and usher was Mr. Brian Cowan, brother of the bride.

For her daughter's wedding, the mother of the bride chose a navy blue and white linen suit with white hat and accessories and pink carnation corsage. The mother of the bridegroom wore a pale blue linen sheath with matching duster, white hat and accessories and pink carnation corsage.

The reception was held at the home of the bride's aunt in Ottawa. The bride's table was centred with a two-layer wedding cake flanked by white candles in crystal holders.

For travelling, Mrs. Abfalter changed into a two-piece sheath of pale pink satin brocade with white picture hat and white accessories. She wore a corsage of white baby carnations.

The newlyweds will reside in Germany, where the bridegroom is a member of the Canadian Armed Forces (Army).

Out-of-town guests attending the wedding included the parents of the bridegroom, Mr. and Mrs. Abfalter of Nelson; his sister, Miss Hilda Abfalter of Calgary; the bride's grandparents, Mr. and Mrs. A. O'Brien of Trenton, Ont., and her mother, Mrs. H. B. Cowan, Alice and Brian of Picton.

**MADE HISTORY**

Mariana Jodoin of Montreal became the first French-speaking woman in the Canadian Senate in 1953.

# Women in B. Guiana Active Politically

MONTREAL (CP) — Mrs. Winifred Gaskin, a politician, journalist and housewife, takes much of the credit for the new, vigorous role women are playing in British Guiana's public life.

Mrs. Gaskin is chairman of the People's National Congress of British Guiana.

"But I'm not unusual," she said in an interview while on holiday in Montreal.

"There are many women doctors, lawyers and teachers in my country, as well as many women who hold high offices in government and commercial fields."

Many British Guiana women stay home "not because it's expected of them, but because there are not enough jobs."

Mrs. Gaskin was instrumental in forming a group in 1946 known as the Women's Political and Economic Organization. Although it folded in 1952, its efforts to educate women in politics succeeded.

**GOOD WORKERS**

"Women now hold many positions in political parties as well as being among the voting population," said Mrs. Gaskin. "They are more articulate . . . and such good workers the politicians make an obvious bid for their support.

"The men help on election day by voting," she said. "It is the women who do the campaign work from day to day."

Mrs. Gaskin was one of two women defeated in the August, 1961, election in British Guiana, a country of 600,000 on the northeast coast of South America.

"Canada is a country bursting open," said Mrs. Gaskin who is editor of a trade paper with a circulation of 25,000. "But things have ground almost to a standstill in British Guiana." The country has 20,000 unemployed.

She has one regret. Her husband is a civil servant and as such is unable to participate in politics.

Helps You Overcome
FALSE TEETH
Looseness and Worry
No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTEETH, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Avoid embarrassment caused by loose plates. Get FASTEETH at any drug counter.

Among those from the Anglican Diocese of Kootenay attending the general Synod of the Anglican Church of Canada to be held from August 22 to 30 are Rt. Rev. W. R. Coleman, Bishop of Kootenay; Archdeacon F. W. Wyatt of Rossland, Archdeacon D. S. Catchpole of Kelowna, Rev. Canon R. M. Yerburgh of Kimberley, Col. Jack Reynolds of Kimberley, James Bryden and Stanley Mawdsley of Trail, and Magistrate Stanley Dawson of Salmo. The synod is being held on the campus of Queen's University in Kingston, Ont.

* * *

A lawn party was held at the home of Mrs. J. A. Curran, 920 Third Street, who entertained a few friends of her granddaughter and grandson in honor of their three cousins, Douglas, Barbara and Jerry Curran of Toronto, who have been their guests and will be returning home soon, after spending their holidays in Nelson.

* * *

Mr. and Mrs. Earl Jorgensen and family have returned from Eugene, Oregon, where Mr. Jorgensen has been attending university for the past year, to resume residence at their home, 424 Sixth Street.

* * *

Enjoying a holiday at the home of Mr. and Mrs. R. A. Grimes of Willow Point are Mr. Grimes' daughter, Mrs. F. W. Benton and her daughter, Frances, and his granddaughter Miss Janice Laidlaw, all of Victoria.

* * *

Lanny Gibson, son of Mr. and Mrs. Norman Gibson, formerly of Nelson and now of Calgary, has been spending the past couple of weeks in Nelson guest of Mr. and Mrs. R. B. Walkley, 510 Fifth Street.

* * *

Mr. and Mrs. Gerald Cone and children of Edmonton are guests of Mrs. George LaPointe at her home on the North Shore.

* * *

Mrs. M. Saunby had as guests at Balfour during the weekend Mrs. M. Wilson and Mrs. L. Kirby of Nelson.

* * *

From High River, Alta., Mr. and Mrs. Louie Bradley and daughter Jan were guests of Mr. Bradley's brother and sister-in-law, Mr. and Mrs. R. H. Bradley, 419 Maple Street.

## Engagement Announcement

Mrs. Helen Butling and Mr. G. A. Butling of Nelson, announce the engagement of their daughter, Pauline Mary, to Frederick James Wah, eldest son of Mr. and Mrs. F. Wah of Cranbrook. The marriage will take place at 2 p.m. at the Church of the Redeemer, Nelson, on Saturday, September 8, 1962. Rev. Canon W. J. Silverwood will officiate.

## Lipstick One Basic Necessity

PARIS (AP) — Lipstick will henceforth be one of the necessities of life in the official French minimum wage scale. The government disclosed Saturday it is revising the list used in determining basic minimum wages — a sliding scale tied to living costs known as the SMIG. This is short for Salarie Minimum Interprofessionnel Garanti (minimum interprofessional guaranteed salary.)

The announcement said that as of October 1 the present list of 179 articles used in determining living costs will be replaced by a larger list of 232 articles, including costs of women's wear and cosmetics. This is because the government is changing the "SMIG" basis from the needs of a bachelor worker in the Paris region to those of a married couple without children.

## Wars Against "Tripe" With Pot of Glue

CHICAGO (AP) — Mrs. Violet Palumbo's weapon against books she doesn't like is glue.

But she has called off her crusade — reluctantly.

Mrs. Palumbo, 51-year-old mother of two teen-agers, was arrested in her home on complaints of neighborhood merchants who said they were stuck with volumes of glue-sealed paperbacks.

The complaint, by Mrs. Sophie Rodin, a book and card shop owner, was dropped Friday in the municipal court of Judge Joseph Butler. Mrs. Palumbo promised not to do any illegal book-binding in future.

Mrs. Palumbo said she had been glueing together the pages of books displayed on shelves of a drug store and a card shop — books she contended shouldn't be sold to youngsters but are.

Her campaign, carried on quietly for three months, was attributed by retailers at first to pranksters. Eventually, clerks spotted her. She was traced to her home and arrested.

"How can you compare destroying a book with destroying a child's mind?" she asked.

"I saw children buying them. We never serve garbage to our children. Why should those places?"

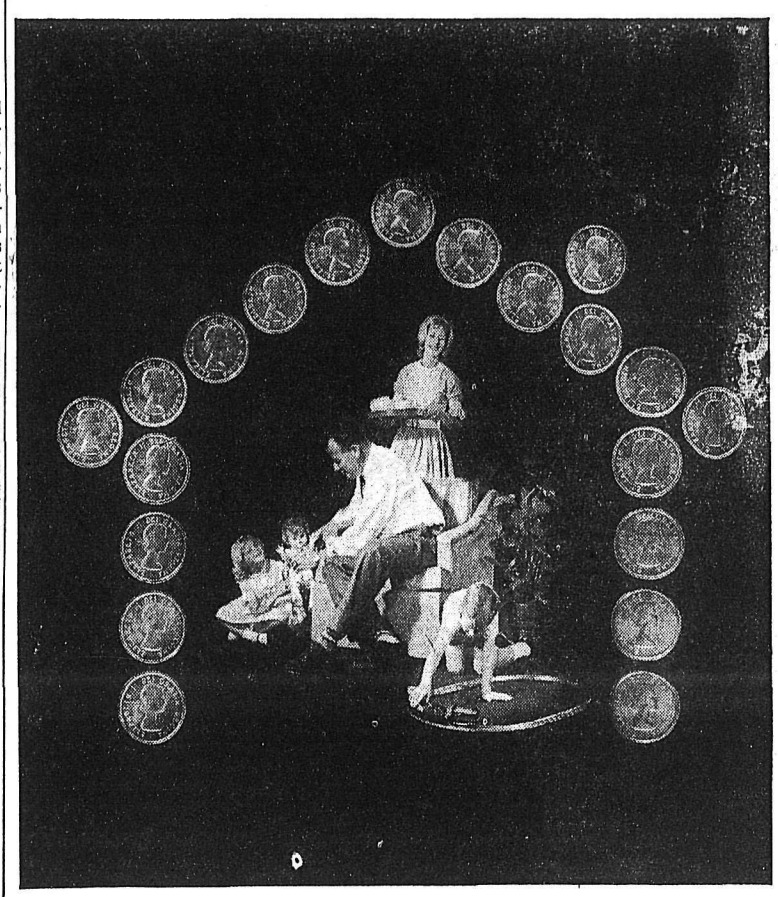
**PRINTED PATTERN M478 SIZES 10-18**

FALL NEWS SHAPES UP NOW in the crisp flare of the scissor-pleat skirt, the fitted waist of Printed Pattern M478 by that favorite designer of the sophisticated, young set — Mr. Mort. The look is slim-hipped and dashing — emphasized by a single row of buttons (no buttonholes) and handy pockets. No waist seams — a nice boon to home couturiers! For an unruffled transition from Summer into Fall, choose cotton, rayon or Dacron blend in a ribbed weave, texture or smart paisley print. Later on, consider faille, jersey, sheer wool.

Printed Pattern M478 is available in Misses' Sizes 10, 12, 14, 16 and 18. Size 16 requires 3 yards 45-inch fabric.

Send **ONE DOLLAR** for Printed Pattern M478 to N.D.N. Prominent Designer Pattern Dept., 60 Front St. W., Toronto, Ont. Please print plainly **YOUR NAME, ADDRESS, STYLE NUMBER** and **SIZE.**

For as little as Twenty cents a day



You can enjoy the comfort and convenience of Modern **Esso** oil heat

Less than 20 cents a day can bring the magic of modern Esso oil heat into your home. Clean, dependable and completely automatic. Esso oil heat will put an end to all your home heating problems. You simply set a dial and Esso oil heat will do the rest automatically, whether you're at home or away for a weekend or a holiday.

If your home is presently centrally heated, perhaps a storage tank and conversion burner is all you need. It may cost you as little as three hundred dollars. You can pay over a period of up to 6 years—less than 20 cents a day!

Winter is getting closer but it's not too late to call your local Imperial Esso Agent or Distributor.

*Spend winter in the wonderful world of* Esso *warmth*

# Roughriders Chill Eskimos

## B.C. Lions Bottle Up Stampeders, Win 12-4

CALGARY (CP)—British Columbia Lions bottled up Calgary's offensive attack here Monday night and defeated the Stampeders 12-4 in a Western Football Conference game played before 16,200 fans.

Joe Kapp, the former California star who went to the Lions from Calgary last season in a heralded four-for-one trade, pitched strikes throughout the game and ran a porous Stampeder pass defence ragged. His display gave Lions a wide territorial margin in the game.

It was Lions' second victory in three league starts and left them in a first-place tie with Edmonton Eskimos and the Saskatchewan Roughriders. Both B.C. and Edmonton have played three league games, while Saskatchewan has played four.

The victory also avenged a B.C. loss to Calgary last Thursday, when the Stampeders bombed the Lions 35-20 in their home park.

Stampeders jumped into a first-quarter 3-0 lead, but the Lions moved ahead 8-3 in the second, stretched it to 9-4 in the third and added another three points in the fourth while holding Calgary at bay.

Kapp threw an 11-yard touchdown strike to Mack Burton, a former speedster at San Jose State, for the game's only touchdown. Guard Vic Kristopaitis of Dayton University converted the touchdown, kicked a 50-yard single and booted a field goal.

Larry Robinson kicked a field goal for Calgary in the first quarter and Walt Weaver added a third-quarter single to account for the Calgary scoring.

The Stampeders threatened to score touchdowns only twice against the sharp-hitting B.C. defence.

The first time Robinson climaxed a march from the Calgary 52 with his field goal. The Stampeders set up the score by moving the ball to the Lions' 15 on runs by fullback Earl Lunsford and halfbacks Ed Buchanan and Jim Dillard.

The second came during the final minutes when Eagle Day, seeing his first action this season after being sidelined by a pinched spinal nerve, directed the Stampeders from their own 43 to the B.C. 11. Kristopaitis blasted through the Calgary line and pinned Day for an 11-yard loss and stall the drive.

Statistics:

| | B.C. | Calgary |
|---|---|---|
| First downs | 20 | 14 |
| Yards rushing | 166 | 128 |
| Yards passing | 211 | 113 |
| Passes made/tried | 15/23 | 8/27 |
| Passes intercepted by | 0 | 0 |
| yards | 8/459 | 10/43 |
| Punts/average | | |

DIDN'T MAKE IT—A Canadian girl, 16-year-old Claudia MacPherson, adjusts her goggles as she began her English Channel swim but rough waters forced her to quit seven miles out of Dover. She had been in the water 12 hours.

## Indians Obtain Twins' Collum

CLEVELAND (AP) — Cleveland Indians announced Monday they have obtained Jackie Collum, a left-handed pitcher, plus an undisclosed amount of cash and a player to be named later from Minnesota Twins in exchange for right-hander Ruben Gomez.

## Saskatchewan Bulls Way Through Esks Defense

REGINA (CP) — Saskatchewan Roughriders unleashed their strongest ground attack in three seasons here Monday night and upset league-leading Edmonton Eskimos 17-9 in a Western Football Conference game before 12,682 fans.

It was Saskatchewan's second victory in four starts this season, both at home. For the Eskimos it was their first loss in six league and exhibition starts this season. Edmonton had won their first two league tilts and three pre-season games.

Roughriders, behind the running of fullback Fred Burket and halfbacks Ray Purdin and Joe Gray, ran for 374 yards on the ground compared with 79 by the Eskimos, who played without starry fullback Johnny Bright.

Saskatchewan got 27 first downs compared with Edmonton's 13.

Purdin from Northwestern and Gray from Maryland counted one touchdown each and Burket kicked four singles. Guard Reggie Whitehouse added a convert.

**CONVERTS OWN T**

Tommy-Joe Coffey, Edmonton end switched to halfback for the game because of Bob Walden's leg injury, kicked a single and converted his own touchdown. End Vic Chapman punted for a single.

Saskatchewan took a 2-0 lead in the first quarter on two of Burket's booming punts. Roughriders extended the lead to 8-0 on Gray's touchdown and Edmonton tied the score 8-8 before halftime. Saskatchewan led 9-8 after the third quarter.

Jackie Parker quarterbacked the first half, but Don Getty moved to the quarterback position early in the third quarter and operated from the spread formation. Parker completed eight of 13 passes for 167 yards. Getty got five for 13 for 75 yards.

Bob Ptacek, a three-year quarterback who last year became an all-star linebacker, quarterbacked an entire game—the first time he has done so in two seasons. He completed seven of 12 passes for 67 yards.

Parker passed to Coffey for Edmonton's single touchdown. Gray and Purdin got their touchdowns on the ground. Gray ran the ball 16 times for 143 yards, while Purdin got 139 yards in 16 carries. Burket got 84 yards in 14 carries.

Burket, 28, a Southeast Oklahoma graduate, boomed his punt-scoring punts in the opening quarter from the Eskimo 45 and his own 54.

The victory was Saskatchewan's first in three seasons over the Eskimos.

## No Word Received by Flying Tigers

Confirmation of the Flying Tigers representation in the Canada Fitness Council festival at the Canadian National Exhibition is still up in the air.

Instructor Alec Ross said Monday no word had been received from the council. A confirmation was expected Monday. "We are still hoping and as of yet have not heard otherwise," said Mr. Ross.

Dick McKeen, founder of the Flying Tigers, attempted to contact Jim Patton, B.C. recreation executive in Victoria Monday, but was unsuccessful.

The Flying Tigers is a gymnastic team, composed of 10 versatile younthful gymnasts.

## New Denver Dumps Nakusp In Semi-Finals

NAKUSP — New Denver-Silverton moved into the finals of the Kaslo-Slocan Senior Baseball League Thursday edging Nakusp 10-9 in a sudden-death semi-final match.

The New Denver-Silverton nine now meets the league champions from Winlaw for the league title. First game will be played Aug. 25 and the second Aug. 26.

The twin city club collected the victory on 12 hits and four errors, compared with Nakusp's 14 hits and three miscues.

The winners marched three hurlers to the mound, H. Elsmore, C. Towgood and J. Kelley, with Elsmore being credited with the win. Nakusp pitched H. Wilson and G. Patterson, with Wilson the loser.

## RAIN HALTS JUNIOR BALL CONTEST

Nelson Texans' bid to tie the West Kootenay junior baseball finals with Rossland Junior Capilanos at one game apiece was washed away by the rain Monday.

The game, which had Rossland leading 3-2 in the second inning, will be replayed Sunday at the Civic Centre grounds as the first half of a doubleheader with the mountain-top club.

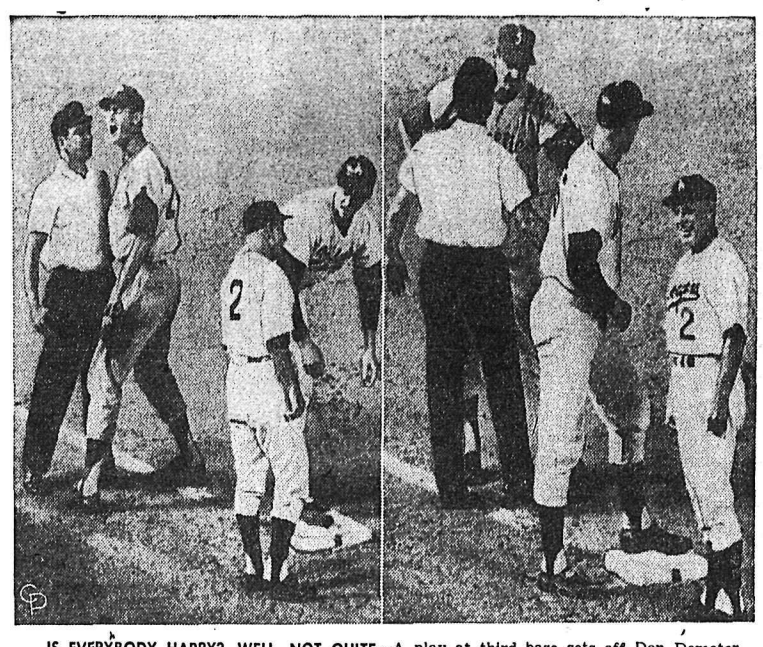
## Kootenay Anglers Dominate Fish Derby

All three prizes in the annual Kinsmen Fish Derby remained in the Kootenay it was learned Monday.

B. Freed, of Trail, who was said to be from Vancouver in Monday's paper, finished second in the derby. Ken Nodding, Mirror Lake, topped the fish competition. Third was B. Joyce of Nelson.

**FAMOUS TROTTER**

Hambletonian, the great American trotting horse, was foaled at Chester, N.Y., in 1849 and lived for 27 years.



IS EVERYBODY HAPPY? WELL, NOT QUITE—A play at third base sets off Don Demeter of the Phils who gives umpire Ed Vargo a hard time (left). However, both Frank Howard of the Dodgers, the runner, and coach Leo Durocher of the Dodgers are happy about the whole thing (right). Scene is Los Angeles.

## Football Roundup

MONTREAL (CP) — Coach Perry Moss and his hot-and-cold Montreal Alouettes jumped on the quarterback merry-go-round again Monday with the acquisition of import quarterback Dave Grosz and the release of Gerry Thompkins, last year's top signal caller.

Grosz, waived out of the Canadian Football League by Saskatchewan Rough Riders earlier this month, will be used as a back-up man behind starting quarterback Sandy Stephens and as a corner linebacker on defence.

Thompkins, who finally won out among a host of candidates as the Al's quarterback last year, was placed on waivers since he could not be used defensively. Dressed but not used for the team's first two league games, he took up a valuable import spot.

Grosz, a 23-year-old, 205-pounder from the University of Oregon, will be in the lineup for the Alouette clash with Hamilton in Montreal Friday night.

OTTAWA (CP) — Ed Ryan, 22-year-old quarterback from Michigan State, has been put on waivers by the Eastern Conference Ottawa Rough Riders, the club announced Monday.

Ryan was picked up by Riders when Toronto Argonauts put him on waivers.

## Babe Ruths Upset Slocan Seniors

SLOCAN — Boys ranging from the ages of 12 to 15 upset the men Sunday as the Babe Ruth League Slocan Braves trounced the Slocan senior baseball nine 18-6.

Braves, reinforced by pitcher Larry Ward, outhit and outplayed the experienced veterans.

Ward went the distance for the Braves, scattering 10 hits while striking out three and walking none. R. Bjerg and Win Storgard shared the losers' pitching duties, giving up 14 hits including a home run to T. Fujibayashi and a triple to Ken Murakami. Bjerg and Storgard walked eight and struck out three.

Murakami paced the Babe Ruthers with his triple and three singles, accounting for six runs. Storgard clouted a triple for the losers.

The victory gave Braves a record of 12 wins and 15 losses for the season.

## LITTLE LEAGUE PLAYOFFS START SEPT. 7

Nelson Little League playoffs will begin Sept. 7, it was announced Monday.

Four teams, Rotary, ACT, Lions and Kinsmen, will compete in the best of three semi-finals with the two winners meeting for the Little League championship.

Following is the semi-finals schedule:

Sept. 7 — 5:30 p.m., Rotary vs. ACT.

Sept. 8 — 1 p.m., Kinsmen vs. Lions; 3 p.m., ACT vs. Rotary.

Sept. 10 — 5:30 p.m., Lions vs. Kinsmen.

Sept. 11 — 5:30 p.m., Rotary vs. ACT.

Sept. 12—5:30 p.m., Kinsmen vs. Lions.

**CLEAN HABITS**

The raccoon, found in all provinces except Newfoundland, generally swishes all its food in water before eating.

## Junior Tennis Titles Decided

OTTAWA (CP) — Three closed titles were decided Monday as the Canadian junior tennis championships went through the fourth day of play at the Rideau Lawn Tennis Club.

Only two of the eight closed titles — open only to Canadians — still have to be decided.

Faye Urban's win in the girls' 18 event was the day's big upset. Faye, a 16-year-old blonde from Windsor, Ont., toppled Vicki Berner, 17, of Vancouver, winner of the championship for the last two years.

The 6-1, 6-2 score was a fair indication of the edge Faye had over her opponent. She defeated Vicki earlier this year in the Pacific coast regional championships and again in the Oregon State women's championships.

Terry Leach, 14, of Ottawa defeated Peter Richardson, also 14, of Montreal, 8-6, 6-4 for the boys' 14 closed championship.

Rosemarie Fletcher 16, of Ottawa, the favored player in the girls' 16 event, won the championship 7-5, 6-1 against Andree Martin, 14, of Montreal.

## Schedule Decided at Annual Soccer Meet

TRAIL—A. Johnstone of Grand Forks was named secretary-treasurer of the Western Intenational Soccer League at the annual meeting here August 5.

The meeting was attended by representatives from all but one of the five member teams. Attending were Grand Forks, Trail, Nelson and Cranbrook. Spokane was missing.

It was decided at the meeting that the league schedule would open August 26 and that all players must be registered with the league by that date.

A motion was passed that all league players be given membership cards, proclaiming their membership in the WISL.

Following is the WISL schedule.

August 26—Spokane vs. Cranbrook at Cranbrook Nelson vs. Grand Forks at Grand Forks.

Sept. 9—Grand Forks vs. Cranbrook at Cranbrook; Trail vs. Nelson at Nelson.

Sept. 16 — Nelson vs. Spokane at Spokane; Cranbrook vs. Trail at Trail.

Sept. 23—Trail vs. Grand Forks at Grand Forks; Spokane vs. Nelson at Nelson.

Sept. 30—Grand Forks vs. Spokane at Spokane; Grand Forks vs. Nelson at Nelson.

Oct. 14 — Cranbrook vs. Grand Forks at Grand Forks; Nelson vs. Trail at Trail.

Oct. 21—Spokane vs. Nelson at Nelson; Trail vs. Cranbrook at Cranbrook.

Oct. 28—Grand Forks vs. Trail at Trail; Nelson vs. Spokane at Spokane.

Nov. 4— Spokane vs. Grand Forks at Grand Forks; Nelson vs. Cranbrook at Cranbrook.

# Yankee Drive Halted

By THE CANADIAN PRESS

Roger Maris slammed a three-run homer for New York Yankees in the first inning Monday but their attack sputtered out after that and Kansas City Athletics defeated the Yankees 7-3.

The victory, which gave the Athletics the series 3-2, was played before a crowd of 13,721, bringing the series attendance to 101,720, an all-time Kansas City record.

In the day's only other American League game Harmon Killebrew hit a two-run homer in the last of the sixth to give Minnesota Twins a 6-4 victory over Boston Red Sox at Minneapolis.

The Athletics started their rally against the Yankees in the fourth inning when they scored two runs on Bob del Greco's single, an error, Norm Siebern's single and Manny Jimenez' sacrifice fly.

**GET TWO HOMERS**

Bill Bryan tripled home a run in the fifth and scored himself on a double by del Greco. Ed Charles homered over the left field fence and the score was 6-3. The other run was Jerry Lumpe's homer in the eighth.

Killebrew's 33rd four-bagger of the season gave him the American League lead in the league - leading runs batted in total to 93. Minutes before, Lu Clinton had given Boston a 4-3 lead with a two-run homer off Twins starter and winner Dick Stigman (8-3).

In the National Frank Robinson hit a grand slam home run in the 10th inning to give Cincinnati Reds a 7-3 win over Los Angeles Dodgers.

The victory left third-place Reds 5½ games behind leading Los Angeles and gave them an even split in a four-game series.

**METS DOWNED TWICE**

At New York the wobbly Mets had their latest losing streak extended to 12 games as Pittsburgh Pirates swept a double-header from them 2-0 and 6-3.

Bob Friend allowed only four singles in the opener to boost his record to 14-11. An unearned run in the fifth on an error by loser Jay Hook (7-14) and Smokey Burgess' seventh inning homer accounted for the runs that won it.

In the nightcap, rookie Al McBean won his 13th against eight losses with help from Pirates' bullpen pair of Diomedes Olivo and Roy Face. Skinner hit a two-run inside-the-park home run in the first inning and scored another run after opening the eighth with a triple.

Philadelphia Phillies defeated the Houston Colts 7-1 in the first game of a twinight doubleheader for their 13th victory in as many meetings with the Texans.

Wes Covington and Clay Dalrymple hit back-to-back home runs in the Phillies' half of the fifth inning after two were out.

The second encounter was rained out.

Milwaukee Braves offset a barrage of four San Francisco homers with a 15-hit attack for a 9-4 victory.

Southpaw Warren Spahn survived a pair of homers by Orlando Cepeda and one each by Harvey Kuenn and Felipe Alou in earning his 13th victory of the season and No. 322 of his career.

The simple truth about car prices is that Rambler American is the lowest priced Canadian built car...by $68.20!

RAMBLER AMERICAN CUSTOM FOUR-DOOR SEDAN

Automotive manufacturers often get into price comparisons. More often than not, these comparisons tend to confuse the public. Let's set the record straight. The Rambler American is the lowest priced Canadian built car. In fact, the Rambler American sells for $68.20 less than its nearest competitor, regardless of size or model!

But price alone doesn't make the Rambler American the value it is. You also get the features for which Rambler is famous! The Rambler American is the most completely rustproofed car in the world. It gives you a Ceramic-Armoured muffler that is guaranteed for as long as you own the car. You also get two year guarantees on both the radiator coolant and on the battery. The Rambler American, has, as standard equipment, self-adjusting Double-Safety brakes. These allow the front and rear brakes to operate independently—for a double margin of safety. No other Canadian built car offers this feature. And there are many more exceptional features to add to Rambler's value.

Yes, value is the reason for Rambler's success. A success so great we've gone into a second shift to meet the demand for new Ramblers. We feel we've developed a formula for success: economy, worthwhile features and the lowest price of any Canadian built car. See your Rambler dealer soon. Test drive a new Rambler American. Find out for yourself why we say it's Canada's best all 'round car value.

# MARKET TRENDS

NEW YORK (AP) — Aerospace stocks moved up again Monday and carried the market to a fifth gain the last six sessions. Heavy selling in the final half-hour trimmed most of the plus signs, however.

A defence department contract award for the Titan III space vehicle launcher program, anticipated all last week, helped the electronics and aircraft issues. The entire Titan III program may involve $500,000,000.

The Associated Press average of 60 stocks rose 1.2 at 22.41. The Dow Jones industrial average gained 2.84 to close at 612.86, its highest reading since 613.36 on May 31, three days after the big market break.

Martin - Marietta, named prime contractor for the Titan III project, led the market in activity for the third straight session. The stock gained ⅞ at 25¼ on 179,500 shares.

Brunswick Corp. fell ¾ to a .962 low of 19⅝ on 98,500 shares as second most active. Korvette was third, up 3 at 45½ on 95,500 shares.

Steel production reached a three - month high and U.S. Steel, Bethlehem, Republic and Jones and Laughlin were fractionally higher.

Ford, which previewed its 1963 line, led motors upward with a & gain as seventh most active stock.

Gainers of the Canadian list included Distillers Seagrams, up ½, Aluminium Ltd., ¼, and Hudson Bay Mining, ⅛. Dome Mines was off ¼ while losses of ⅛ each were taken by Canadian Pacific, International Nickel and Walker Gooderham. also closed higher. Among Canadians, Jupiter Corp. added ⅛ while Canadian Marconi declined ¼ and Brazilian Traction ⅛.

TORONTO (CP) — The stock market crawled through a sluggish session Monday, brightened only by a slight show of industrial strength near the close.

The main list dropped more than a point on index in the first hour, then spent most of the day struggling to regain its position of last Friday. In the final hour, buying boosted inother sections were mixed to lower.

Shortly after the opening of trading, the exchange announced it had restored trading privileges to shares of SKD Manufacturing Co. Ltd. an San Antonio Gold Mines Ltd.

Exchange president Howard Graham said the suspensions Wednesday occurred because the shares had been heavily dealt in by one individual and there was a danger that his holdings would be put on the market in such volume as to create unstable market conditions.

**PRICES DOWN**

SKD opened today at $4.25, ranged between $4.50 and $3.50, closing at $3.50. Before suspension, the stock had sold at $16.50. San Antonio opened at 75 cents and fluctuated between 89 and 68 cents, closing at 71 cents. Last Tuesday it sold at $1.50.

Banks were midly depressed. Montreal fell ⅝, Royal ⅛. Toronto-Dominion ¼ and Canadian Imperial Bank of Commerce ¾.

Gainers included Alberta Gas, Algoma Steel, Interprovincial Pipe Line and Moore Corporation, all ahead ½.

In the western oils list, Calgary and Edmonton climbed ⅞, Home B ¼ and Hudson's Bay ⅛, while Dome and Home A each slipped ⅛.

MONTREAL (CP) — Trading was extremely light among industrials and heavy in mines on the Montreal and Canadian exchanges Monday. Prices were generally mixed.

Base metals were higher. Aluminium at 25¾ and International Nickel at 70 each gained ⅜ and Asbestos was up a point at 32.

Banks were generally lower. Canadian Imperial Bank of Commerce fell ¾ to 57½ and Royal Bank at 68¾ and Bank of Montreal at 58¼ each lost ¼.

Price fell ⅜ to 45⅛ among papers and Stelco was off ¼ at 16⅞ among steels. Industrial Acceptance added ⅛ to 23⅝ and Hudson's Bay Company was unchanged at 11.

Mines were unusually active, $2.05 in heavy trading by Mount Pleasant Mines. Kiena Gold fell seven cents to $1.88, Saucon rose 2½ cents to 27 cents and Bruneau rose eight cents to 50 cents.

On index, banks were off 0.30 at 61.01, utilities off 0.1 at 132.0, industrials off 1.4 at 308.8, combined off 0.9 at 249.9, papers up 0.6 at 478.3 and golds off 0.24 at 78.09.

# Sarah In Trouble Again

BRIGHTON, England (Reuters)—Actress Sarah Churchill was taken to a hospital here Monday shortly before she was due in court on a charge of drunkenness and disorderly conduct.

A doctor called early this morning at the house where she and her husband were staying on holiday. Then she was taken to hospital and put in a private room after treatment in the casualty ward.

There was no immediate report on the reason for her trip to hospital.

# Yelling Gang Blocks London Street

LONDON (AP)—A dancing, yelling gang of 40 kids formed a human chain across a London street Sunday and ordered out every car that came their way.

Drivers were prevented from parking. The kids just massed around them and refused to budge until they backed out.

The youngsters were defending Montclare Street in the grimy north London suburb of Shoreditch. It is the only place they have to play.

The nearest public park is nearly two miles away.

The children explained they were fed up with cars parking there every Sunday so the owners could visit a nearby street market.

Why should we lose our play space to parked cars?" said 14 - year - old Janet Lammin.

# Your Individual Horoscope

*By Frances Drake*

Look in the section in which your birthday comes and find what your outlook is, according to the stars,

**For Wednesday, August 22, 1962**

MARCH 21 to APRIL 20 (Aries) — You cannot do better than your best, so go on with tasks and interests as though you were going to gain the highest benefits, and you will be close. Scrutinize all propositions carefully.

APRIL 21 to MAY 21 (Taurus) — Before you begin day's schedule, make sure you do have all data and details, and that your procedure will be adequate for the work expected. Be explicit but not sharp in dealing with others.

MAY 22 to JUNE 21 (Gemini) — Insure results by capitalizing upon your fine energies, and keep your pace constant but not hectic. Make the necessary gestures to placate those who may be irritable, tense.

JUNE 22 to JULY 23 (Cancer) — Forget yourself and give all your attention to your job and to those who are working with you. Laborious work, daily chores need updated methods.

JULY 24 to AUGUST 23 (Leo) —Bona fide investments in order, but shun speculation. In making plans, have alternatives ready. Do your best with everyday matters, cope philosophically with the variety of dispositions met.

AUGUST 24 to SEPTEMBER 23 (Virgo) — A reliable method of conducting business should not be overthrown for something new unless the latter has proved itself, then Do quickly accept. Place security and good health before all else.

SEPTEMBER 24 to OCTOBER 23 (Libra) — When one has little enthusiasm, efforts show it. You may have the grit today, but things may seem dull. Counteract by putting forth greater energy. Science, education, farming advance.

OCTOBER 24 to NOVEMBER 22 ((Scorpio) — Your Mars one of the few planets in splendid aspect today. This does not mean other persons can't surpass you through sheer vim and vigor. So be alerted. Give all activities the "perfect touch."

NOVEMBER 23 to DECEMBER 21 (Sagittarius) — Mining, agriculture, engineering, all work with the earth and its products should advance now. Study others' systems; know specifics.

DECEMBER 22 to JANUARY 20 (Capricorn) — Day may seem unmanageable, but with calm demeanor and efforts commensurate with obligations this diamond-in-the-rough period can be polished beautifully.

JANUARY 21 to FEBRUARY 19 (Aquarius) — You can discreetly elbow competition out of position. A worthy enterprise is too often marred by small errors, emphasize precision, adroitness. Apply some novel innovations.

FEBRUARY 20 to MARCH 20 (Pisces) — Good planetary influences for all matters having to do with chemicals, liquids and sea-faring. Emphasize reliability and self-discipline. The day is calculated to please.

YOU BORN TODAY are keen about order and intelligent plans; are frank, efficient, and come up with new ideas to put fresh impetus in any undertaking. You do especially well in business dealing with many people. Once you overcome fault-finding and holding too rigidly to certain plans and minute details, you stride swiftly toward high and estimable goals and position. Birthdate of: Samuel P. Langley, pioneer in aviation, science.

## Craigmont Mines Report Eighty-One Cents a Share

VANCOUVER (CP) — Craigmont Mines Ltd. reports an estimated net profit of $4,113,264 or 81 cents a share for the three-months ended July 31.

For the nine-month period ended July 31, the firm shows an estimated cumulative net profit of $8,874,937, equal to $1.74 a share. This period goes back to the opening of the mine last year.

The financial report said no provision has been made at this time for depreciation depletion or amortization of pre-production expenses.

Because Craigmont is in a tax-free period, no provision is required for income taxes.

Total indebtedness in the form of bank loans and redeemable preferred shares stands at $9,992,000.

# SKD, San Antonio Gold Mines Are Reinstated on Trading List

TORONTO (CP) — Shares of SKD Manufacturing Co. Ltd. and San Antonio Gold Mines Ltd., suspended from trading on the Toronto Stock Exchange last week, were reinstated to the trading list Monday.

The two companies were suspended along with Chromium Mining and Smelting Corporation Ltd. last Wednesday. Chromium was reinstated the following day.

At the time of the suspension share and San Antonio $1.50. The two opened trading Monday at $4.25 and 86 cents a share respectively.

Howard D. Graham, president of the exchange, said the suspensions took place because the exchange "was investigating the trading of one individual in the shares of these companies; this procedure has been used on other exchanges as a stabilizing method when it is feared that the market might be unduly disturbed."

SKD Manufacturing, located at Amherstburg, Ont., produces metal stampings and assemblies for cars, farm equipment and steel folding doors.

San Antonio, with head office at Bissett, Man., owns a gold producing property in that province's Rice Lake area.

# French Troops Guard Pasteur Laboratory

ALGIERS — French troops mounted guard around the Pasteur Serum Institute Monday after a series of Moslem attacks against the laboratory's personnel.

The institute head, Edmond Sergent, said he requested French military protection to safeguard the life of a handful of employees who remained in Algeria to care for animals inoculated with typhus and plague.

Lack of proper protection of the institute could spread disease and plunge Algiers into a major disaster.

Algerian police officials made no comment on the attacks on the institute.

The attacks began on the night of Aug. 14-15 when a group of uniformed and civilian Algerians invaded the institute building and kidnapped a French driver. His body was found two hours later.

Meanwhile, it was reported nearly all top nationalist leaders Monday were listed as candidates for Algeria's first parliamentary elections Sept. 2.

The National Liberation Front (FLN) published a partial list of the 196 candidates for the 196-seat parliament over the state-controlled radio and the full list was expected to be issued later in the day.

The list is tantamount to the election result, since FLN candidates are unopposed.

The list, deposited Saturday with the Franco-Algerian provisional executive which is to conduct the election, included three European members of the provisional executive and thirteen women, including two more Europeans.

# Winters Not Returning To Politics

TORONTO (CP) — Former federal works minister Robert Winters said Monday he has no plans to return to politics from business to seek the leadership of the Nova Scotia Liberal party.

Mr. Winters, president of Rio Tinto Mining Company of Canada, commented at his office here on a published report that he might seek leadership of the party at a convention in September.

Mr. Winters represented the Nova Scotia constituency of Queens - Lunenburg before his defeat in the 1958 federal election.

# Bronchitis Breaks Out In Bogota

BOGOTA, Colombia (AP) — An epidemic of bronchitis broke out today after floodwaters swamped the jungle town of and leaving 136 missing.

The avalanche, set loose by a burst dam on the River Hacha, swept tree trunks and huge boulders into the sleeping town early Saturday. About 3,000 of the 20,000 inhabitants were left homeless.

Capt. K. W. Vansandt, a member of a U.S. team making a geodetic survey in the area, said: "It was a nightmare. Streaks of lightning from flashlights were all that illuminated the darkness as groups of people ran wildly crying and screaming."

More than 1,000 cattle were killed and 30,000 tons of rice were destroyed, dealing another blow to the town, which had experienced the most severe winter in years.

VANCOUVER (CP) — Daniel Busby, 18, was charged Saturday with causing bodily harm with intent to wound. The charge was laid after Amarjit Brar Singh, 14, was shot in the knee with a .32-calibre bullet while riding a bicycle.

# Negroes Go Canny With Hard Liquor

JOHANNESBURG (AP)—The first weekend on which South Africa's Negroes could buy liquor at bottle stores on an equal basis with whites passed today without the drunken orgies and street fighting that had been predicted.

Johannesburg police said there was no unusual number of complaints.

Previously, Negores were allowed to buy liquor rations only if they had a special permit and such permits were rare.

# Business Briefs

OTTAWA (CP) — Production of crude petroleum rose 6.5 per cent in May to 20,023,633 barrels from 18,863,426 in the same month last year, the bureau of statistics reported Monday.

Output in January - May climbed 19.3 per cent to 102,785,906 barrels from 86,168,939 in the corresponding period of last year.

# Soustelle Ordered To Leave Italy

ROME (Reuters)—A police spokesman said Monday French anti - Gaullist leader Jacques Soustelle was taken to the Austrian border Saturday after being expelled from Italy.

"We do not know whether he is in Austria now, but it is certain that we accompanied him to the Austrian border on Saturday," the spokesman said.

In Vienna an interior ministry spokesman said Soustelle would be banned from entering Austria as a "temporary measure" pending the return of Interior Minister Josef Afristche from vacation.

Soustelle, if he chose, could return to France where no charges have been laid against him despite his alleged ties with right-wing extremists plotting against the government of President de Gaulle.

Soustelle was arrested last Friday in Milan on charges of using a false passport. He subsequently was declared an undesirable foreigner and ordered expelled from Italy.

Another anti-Gaullist leader, Robert Pesquet, also was picked up by Italian police and ordered out of the country. He left Italy during the weekend by the port of Genoa en route to Spain, where several other anti-Gaullist leaders have taken refuge.

Soustelle, a former French governor - general of Algeria went into exile after the abortive military revolt in Algeria in April, 1961, and has lived in Italy most of the time since.

## Prepares For Unique Career

VICTORIA (CP)—A Victoria scholar, awarded a master of science degree at Stanford University, has reached the halfway point in his pursuit of a rare vocation.

Francis N. Hamilton hopes to make a career of medical electronics. He received his master's degree in electrical engineering.

Next fall, Mr. Hamilton will enter the University of Washington medical school on a $1,000 scholarship.

An unusual combination of electrical engineering and medical degrees will qualify him for advanced medical research as a career. He won scholarships for three consecutive years before graduating last year with a bachelor of science degree from the University of Washington.

Mr. Hamilton took his post-graduate training in electrical engineering at Stanford on a $3,600 scholarship. He is already in the field of medical research, working the summer months with an open-heart surgery research unit at the Providence Hospital in Seattle.

# Feeley's Counsel Questions Commissioner's Jurisdiction

TORONTO (CP)—Counsel for gambler Vincent Feeley Monday challenged the jurisdiction of Ontario's royal commissioner on crime as the commission prepared to call Feeley at the start of hearings after a summer recess.

Lawyer Walton C. Rose called on Mr. Justice W. D. Roach to disqualify himself on the grounds that he had held a "secret" hearing during the recess, but the commissioner refused.

Mr. Rose then asked the commissioner to place the issue of his authority to continue hearings before the Ontario Court of Appeal, and Mr. Justice Roach also refused to do this.

Feeley's lawyer—who earlier this summer lost an appeal to the Supreme Court of Canada which would have restricted the gambler's evidence — read an affadavit by Feeley complaining that Mr. Justice Roach had secretly interrogated a witness under oath without giving notice to his lawyer, despite the fact that Mr. Rose had obtained full status as counsel in a previous application to the Ontario Appeal Court.

The witness was Ralph Clark, who has been mentioned in exhibits before the commission as a long-time Toronto gambler.

Feeley's affadavit said Clark had been examined under oath by the commissioner in the presence of commission counsel and Sgt. John Anderson of the provincial police anti-gambling squad contrary to the Public Inquiries Act.

Can you find something our inspectors missed?

There's one inspector in the Volkswagen factory who is in charge of door jambs. Another makes sure the upholstery is put together with the right number of stitches to the inch. We even have a man who listens to the sound of the horn.

This detailed inspection goes on along the whole production line. And to do it properly we employ 5,000 full time inspectors.

Why not drop in to your Volkswagen dealer's showroom and see if our inspectors are doing their job?

If you don't know what to look for, we'll give you a few hints.

First, look closely wherever two parts come together. For example, where the door on the glove compartment meets the dashboard.

Do the same with all the doors and trunk lids.

And whenever you open something, take a close look around the hinges. Is the whole area smooth and evenly painted? (Door jambs may not seem important, but they give you an idea of how the whole car is put together.)

Take an inside look at the fenders. The underneath is painted like the outside. Four coats. (Have you ever noticed that Volkswagens seldom rust?) Inspect the inside of the luggage compartment. Are there irregularities that have been patched with putty or paint?

When you're all through looking, you'll know why we've sold five million Volkswagens around the world.

Be a Volkswagen inspector at the Pacific National Exhibition. All our models, including our new 1500, will be on display.
