INVADE S'TH FRANCE

INVASION FLASHES

ROME, Aug. 15 (CP-Reuter)—The record Allied airborne force which descended on Southern France early today consisted of more than 14,000 air combat men.

Striking after sunrise, seven waves of infantry splashed ashore in the first two hours and seized their initial objectives with great rapidity at many places along a 125-mile stretch of the Riviera between the great port of Marseille and Nice.

NEW YORK, Aug. 15 (CP)—The Germans have announced that Allied parachute troops have been dropped in Marseilles.

NOT A SINGLE PLANE LOST

NEW YORK, Aug. 15 (AP)—American liberty ships are being unloaded in the Southern French harbor of Cannes, George Moorad, American radio reporter, said in a pool broadcast from Rome. He added that "so far as we know not a single Allied plane was lost in the gigantic job of invading Southern France."

NEW YORK, Aug. 15 (CP)—The Spanish radio said today that one of the first Allied landing craft to arrive on a beach in Southern France "was loaded with Canadian and French soldiers." There was no Allied confirmation of the report.

AIRBORNE TROOPS PAVED THE WAY

One of the greatest airborne combat forces ever assembled paved the way for the assault and likewise carried out operations successfully far inland. Most of the airborne troops were believed to be British.

HOUR HAS STRUCK SAY NAZIS

LONDON, Aug. 15 (AP) — "The supreme hour has struck," the German radio said tonight. "It is the hour when we must throw into battle the last little ounce of our strength."

PATRIOTS MARCH TO VICHY

LONDON, Aug. 15 (AP)—The A.F.I. (Independent French Agency) reported from Berne today that 10,000 French patriots were "advancing toward Vichy," and that hundreds more are joining them as they push ahead.

The dispatch said other detachments of French forces of the Interior were advancing on Bordeaux.

SEVERAL MILES INLAND

Allied troops invading Southern France were several miles inland this afternoon, a broadcast from the invasion beachhead said.

The broadcast was made by Eric Sevareid of C.B.S., representing all American networks. Sevareid gave his location as "a pine-covered hill several miles inland from the French South Coast."

"Only a few lives were lost" in the landings, Sevareid said.

"It is now very quiet here," he related. "Where the Germans are now, the bulk of them, I cannot tell you, but you may find out very suddenly.

"They've done very little harm to this famous holiday coast."

PATRIOTS STRIKE TO ASSIST ALLIES

LONDON, Aug. 15 (AP)—Complete disorganization of Germany's communications throughout France was claimed by authoritative French sources today as Patriot forces struck with new intensity to assist the Allied invasion in the South and the sledge-hammer blows in the West.

A communique reported that French forces of the Interior killed 800 Germans, wounded 300 and took 100 prisoners during the last 24 hours while seizing the towns of Breton, Serignac, Lannion and La Clarte in Brittany.

800 BATTLESHIPS SHELL COAST

While allied bombers struck incessantly at objectives inland, the huge invasion fleet of more than 800 battleships and other warships, hurled tons of steel into German coastal defences.

British, American, French, Canadian, Netherlands, Polish Greek and Belgian warships covered the swarm of landing craft carrying American veterans of Italy, and French forces which had fought in Italy and North Africa.

"REMEMBER 1918"

"The army of France is in being again, fighting on its own soil for the liberation of its country with all its traditions of victory behind it.

Remember 1918," was the ringing declaration of the Commander-in-Chief of the invasion force, General Maitland Wilson.

'CHUTISTS LEAP BEHIND NAZIS

Thousands of allied parachutists leaped behind Nazi defenders. The full weight of allied air power in the Mediterranean theatre backed the push.

MAITLAND WILSON IN COMMAND

ROME, Aug. 15 (AP)—The immediate Commander of Allied forces which landed in Southern France today has not been identified but reports published in London naming U.S. Lt.-Gen Jacob L. Devers as the Commander were described tonight as incorrect.

The whole operation is under the direction of Gen. Sir Henry Maitland Wilson, Allied Commander in the Mediterranean, and Devers is his Deputy.

RUSH OF VICTORY BETTING

LONDON, Aug. 15 (CP)—Allied successes in France have caused a rush of victory betting and have cut the odds against the European war ending by the last of October The current popular odds are 100 to 15 compared with 100 to 7 three months ago.

Italian Land Front Quiet

ROME, Aug. 15 (AP) — A brisk engagement developed when American 5th Army patrols made contact with German patrols three miles Southeast of Pontedera yesterday but in all other sectors the Italian land front was quiet except for artillery duels, Allied Headquarters said today.

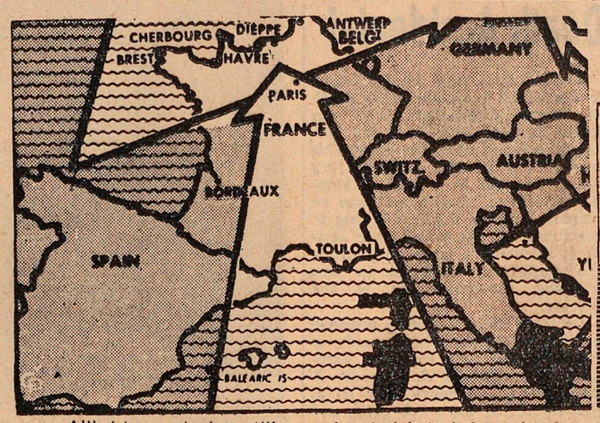
German shelling of Florence almost ceased and the Allied positions there "continues to improve steadily," Headquarters added.

Find Stolen Liquor in Cache Near Park

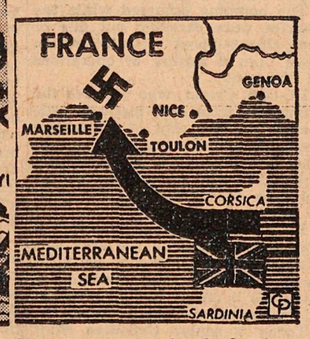
VANCOUVER, Aug. 15 (CP) — Police today found 43 of the 56 cases of liquor stolen from the Liquor Board's warehouse last night. The 43 cases were found in a cache near Little Mountain Park.

VANCOUVER BOY MENINGITIS VICTIM

VANCOUVER, Aug. 15 (CP) — An eight-year-old boy living in downtown Vancouver is the second Vancouver person stricken with meningitis Medical Health authorities reported today.



HIT NAZIS FROM SOUTH



Allied troops, tanks, artillery and material started pouring into three separate beaches in Southern France at H-Hour on Tuesday striking Hitler on a fourth major front. The landings were made along a stretch of Mediterranean beach near Toulon. A few hours after the blow was struck beaches along a considerable length of the Riveria had been seized with scarcely any ground opposition and no air opposition.

RUSS IN FORCE CROSS THE BIEBRZA RIVER

Fighter Planes Cover Troops Advancing To Prussia Border

NEXT 72 HOURS

By W. W. HERCHER
Associated Press Staff Writer

LONDON, Aug. 15 (AP) —Red Army troops have crossed the Biebrza River in Northern Poland on the last 15-mile route to German East Prussia, covered by swarms of Russian armored fighter bombers which sprayed German positions at Grajewo, only two miles from the frontier, Moscow dispatches said tonight.

The Soviet high command bulletin remained silent on this sector, where Associated Press Moscow correspondent Daniel de Luce said an invasion of Germany was likely in the next 72 hours.

One hundred miles to the Southwest another Red Army, the 1st White Russian under Marshal Konstantin K. Rokossovsky, beat down German counter-attacks East of Praga, industrial suburb of Warsaw. The Russians last were reported within 11 miles of the Polish capital.

Soviet troops fighting West of the Vistula River 100 miles South of Poland, captured several localities during the day in their steady battle against reinforced German lines.

In Estonia Russian troops in a three-mile advance West of Antsla, seized the rail station of Anne, only 14 miles from the key junction of Valga, and within 11 miles of the Tallinn-Riga railway which runs through Valga. The Russians captured 80 localities in their drive toward the Baltic Sea.

In the area of Raseiniai, Lithuanian town 53 miles Northwest of Tilsit, German East Prussian rail city, the Russians repulsed strong enemy infantry and tank attacks and inflicted heavy losses in men and material, the Soviet Bulletin said.

A broadcast by the German agency Transocean, however, declared that Raseiniai, which the Russians captured Aug. 10, was reconquered by counter attacking Germans on Monday.

The first big objective of the Russians on the threshold of East Prussia was the rail junction of Lyck, only 25 miles beyond the shattered Biebrza River line.

The twisted bodies of German dead cluttered the banks of the River in the area where the Russians bayoneted their way through the moated stronghold of Osowiec and it was said that Gen. F. F. Zakharov's 2nd White Russian Army found resistance weaker West of the River because German reserves from East Prussia had been rushed into Osowiec only to be annihilated or routed

LONDON, Aug. 15 (CP) — A special Soviet announcement said tonight that 14,000 Germans were killed on Marshal Ivan Konev's 1st Ukrainian front between July 13 and Aug. 13.

Greenwood Teacher's Appeal Dismissed

VICTORIA, Aug. 15 (CP)—Board of Reference has unanimously disallowed appeal of P. G. Wish from dismissal from a teaching position on the staff of Greenwood elementary school, Education Minister H. G. T. Perry, said today. A Cabinet meeting accepted the Board's recommendation.

Mr. Wish had been dismissed from the school by the School Board of Greenwood and appealed to the Board of Reference.

Enemy "Ceases to Exist as Army"

Canadians Only Mile From Falaise; Junction With Americans Imminent

By JAMES M. LONG
Associated Press Staff Writer

ALLIED SUPREME HEADQUARTERS, Aug. 15 (AP) — The Germans caught in the Normandy death trap were being hammered mercilessly tonight in the climactic battle for Northwestern France and an American officer declared the enemy forces "have ceased to exist as an army."

Rain, which fell in sheets across the battlefield and sent the swarms of aircraft back to bases, was the only hope of Field Marshal Gen. Guenther von Kluge, trying to extricate his forces through a shell-torn gap South of Falaise now narrowed to nine miles.

Even should the bulk of the 50,000 or more Germans believed still in the trap manage to elude the Allied armies, they will be in no condition to stand and fight before Paris for an officer declared the 7th Army had lost most of its equipment and material.

Ross Munro, Canadian Press War Correspondent, reported that the stiff enemy defences encountered by the 1st Canadian Army advancing from the North appeared to be disintegrating, and quoted a senior Canadian officer as saying that Falaise itself might be entered within hours.

At the time Munro wrote his dispatch leading Canadian columns were little more than a mile from Falaise, and Canadian artillery had for some time been able to control from high ground the roads that lead Eastward through the Germans' escape gap, now reduced to a maximum of nine miles in width.

The United States 3rd Army, pushing up from the South, was within at least eight miles of Falaise and a junction with the Canadians appeared imminent.

Meanwhile American forces in the West and British forces in the Northwest punched incessantly at the sack in which the German 7th Army has been contained, steadily driving back the encircled forces.

The area of encirclement was narrowed now to a 10-by-10 mile area, hardly half the size it was a few days ago, and Allied gains of as much as seven miles were squeezing the Germans hourly.

Inside the trap food was growing short, and among 1822 captives counted today were some who had been subsisting on mouldy bread for four days. Others angrily denounced the officers who had brought them to this debacle.

Those who had broken out of the trap and were fleeing toward Paris were travelling in small units in an effort to avoid high casualties from air attacks, ceaseless for thre days.

The "roof" of the corridor was caving in on the Northwest, where enemy forces could be seen falling back South before the charging British 2nd Army.

Canadians pressing an Falaise by storming into Epany to the East were less than a mile from the Falaise-Lisieux road of escape.

Americans on the offensive at the Western end of the corridor solidified their hold on Ger and fought on Eastward to within a mile of the highway junction of Tinchebray. American capture of Domfort. the enemy's Southern stronghold on this sector, was confirmed.

Other American forces put the stopper in a sector where German armor was reported probing Allied lines by capturing Ferte-Mace, between Domfront and Argentan.

Lashing out at the Germans still West of the Orne. British forces pushed ahead several miles South of Thury-Harcourt and were within a mile of important German positions at Conde sur Noireau.

Farther West they were only a mile North of Vassy, whose radiating highways are important to German defences in the North.

"In some places," said a British officer at Forward Headquarters, "the Germans are retreating so fast our troops are having difficutly maintaining contact, but there still is no sign of enemy panic."

BY ROSS MUNRO
Canadian Press War Correspondent

WITH THE 1ST CANADIAN ARMY IN FRANCE, Aug. 15 (CP-Cable)—A Canadian officer said tonight Falaise might be entered within a matter of hours as troops of the 1st Canadian Army pushed forward through German defences which appeared to be disintegrating.

Canadian guns are shelling the area all around Falaise, hammering roads that lead to and from the city and provide the Germans with a hazardous escape corridor from the pocket in which they have been caught to the West.

Road to Berlin

By The Canadian Press

2.—Italian front: 603 miles (measured from Florence).

3.—Normandy front: 626 miles (measured from Soignolles.)

4.—Southern France: 680 miles (measured from Cannes.)

Seize Beaches And Push Inland

PARIS WILD WITH JOY

Frontier reports said that Paris went wild with joy when news was received of Allied landings in the South of France, and that sporadic fighting between patriots and Collaborationists broke out in the streets when crowds assembled singing the "Marsellaise."

German police patrols stood by unable to control the demonstration.

3000 PLANES HIT ENEMY WITH 8000 TON BLAST

Bases in Holland, Belgium and Germany Attacked

LONDON, Aug. 15 (AP)—Three-thousand Allied planes, two-thirds of them bombers, cast 8,000 tons of explosives on a score of enemy air bases and airdromes in Belgium, Holland and Germany today, while another powerful force of Italian-based heavyweights hopped the Mediterranean to Southern France and blasted a wide path for the new ground invasion there.

A force of 1100 R.A.F. and R.C.A.F. Lancasters and Halifaxes and nearly 1,000 American heavies churned up enemy air strips, wrecked buildings, and left flaming wrecks of 180 to 270 Nazi planes caught parked on the fields.

Canadian fliers reported seeing many planes burning on runways which had been pocked by bomb explosions.

Fighters escorting the American bombers also destroyed a number of planes on the ground, disabled 62 locomotives, and destroyed or damaged 188 railway cars.

Moderate enemy opposition in the air was encountered, the bombers knocking down 13 planes and the fighters bagging 14 for a total of 27. Sixteen bombers and five fighters failed to return.

The R.A.F. and R.C.A.F. bombers smashed at five fighter air fields in Holland and four in Belgium. One R.C.A.F.' and one R.A.F. bomber were lost.

The big American bombers pounded seven air bases and five airdromes. These bases are situated in the suburbs of Cologne, at Wiesbaden, Frankfurt, Witmund, and in Badzwischenahn, Vechta and Handorf. The first three lie along the Rhine River, the others in Northwest Germany.

Aircraft maintained their stepped-up operations in support of ground forces in Western France today, flying an unceasing vigil over the Falaise-Argentan "coffin corridor" and beyond its outlet.

Dewey Says F.D.R. Trip a "Holiday"

ALBANY, N. Y., Aug. 15 (AP) — Gov. Dewey tonight classified a "holiday" President Roosevelt's trip to Hawaii and the Aleutians which Mr. Roosevelt said he undertook as a part of his constitutional duties.

Gigantic Petition to Impress Ferry Needs on Minister

Nelson Board of Trade's Kootenay Lake Ferry Committee organized yesterday for action to get the government to break the blockade in the Transprovincial highway between Fraser's Landing and Gray Creek, which is created by the lack of adequate ferry service.

Committee members told of case after case of tourist and business traffic which had been blocked by failure or inadequacy of the service

To impress upon the government at Victoria the importance of immediate action, a giant petition is proposed. Copies are to be sent for signature at convenient places throughout the District from Fernie to Grand Forks, and the public will be urged to sign promptly

Hon. H. Anscombe, Minister of Public Works, will be in Nelson early in September. It is proposed then to present to him the petition at a public meeting at which the whole district will be represented.

By telephone yesterday members of the committee contacted residents of a number of points in the District and the plan was greeted with enthusiastic approval. Vigorous cooperation was promised. Copies of the petition are being prepared and will be sent out immediately.

Mrs. D. Bennett was appointed Secretary of the Committee, which consists of C. F. McHardy, Chairman; G. A. Hoover, President of the Board of Trade, R. D. Barnes, R. A. Peebles and Gordon Williams

125 Mile Front

By NOLAND NORGAARD
Associated Press Staff Writer

Rome, Aug. 15 (AP)—Thousands of Allie troops swarmed onto the South Coast of Franc today on a broad front between Marseille ar Nice, seized and extended firm beachhea against inconsequential German oppositic and drove Northward with the avowed inter tion of joining the Allies in Northwester France.

An Allied communique at 10:40 p.m. said French a American troops before Dawn took the Sentinel Islands of P Cros and Levant, 10 miles off the Coast, and seized Cap Neg on the mainland due North of the Islands and 28 miles E of Toulon.

Other specific locations were not given, the beach being placed merely in the 125-mile strip of coast between Marseille and Nice.

The Germans said the focal point of the Allied invasion was at St. Raphael, 30 miles Northeast up the Coast from Cap Negre, and also said there were landings West of Toulon and at Bormes, 25 miles East of Toulon.

Allied airmen who flew over the beaches late in the day said there was no sign of any concerted enemy opposition and that allied vehicles were "running all over the countryside."

The official night statement said: "On the beaches of the mainland, where landings were successful against light opposition, the operation is proceeding satisfactorily," adding: "Substantial numbers of allied troops, together with guns, munitions and supplies, had been landed across the beaches of Southern France by dark this evening.

"The beachhead has been extended and widened during the day's operation.

"Enemy opposition remains sporadic, and no enemy air attacks have yet been reported."

Word from the beaches indicated that German prisoners taken in sporadic, light fighting showed almost total demoralization, primarily as a result of the allied breakthrough in Northwestern France.

Thousands of allied parachutists and airborne troopers, many of them British, landed well inland at 4.30 a.m., also against scanty opposition, following the important opening blow against the offshore islands. A picked force had neutralized the island's big guns silently to pave the way for the tactical surprise of the main seaborne landings which followed.

Backed by more than 800 warships of all sorts including some Canadian—one of the greatest naval forces ever assembled in the Mediterranean—the first seaborne troops went ashore in broad daylight at 7.30 a.m. at several unidentified points between Marseille and Nice—a 125-mile stretch of rocky coast.

Heavy aerial bombardment preceded the invasion in a final instalment of the aerial softening up process that had been in progress for three days.

The Germans apparently already had been forced to pull a large part of their troops Northward even though they themselves had been predicting the Mediterranean landings for more than a week.

Allied headquarters said the landings had been made successfully "along a considerable part of the Coast between Nice and Marseille."

Allied heavy bombers this morning bombed the road leading from the beach to Frejus, near the mouth of the Argens River, two miles from St. Raphael. Medium bombers struck heavily during the morning at beach and gun installations in a 30-mile sector from West of Cannes to East of Toulon the great naval base where much of the scuttled French fleet lies rusting.

Other heavy bombers bombed five highway bridges over the great Rhone River between Valence and Avignon, along the natural pathway towards Northern France.

In the last coastal bombings, the planes used small bombs designed to destroy whatever German troo and guns remained, without creati craters large enough to impede thrust inland.

That it was not impeded was dicated by a field dispatch from H bert L. Matthews of the New Yo Times, who wrote tonight:

"A flabbergasted American ar numbering many thousands is w into Southern France this aft noon and going fast. It has be virtually without opposition a with amazingly small casualties

"The Jerries were caught co pletely by surprise, and what f there were waiting for us have be scattered or captured. Men, tan artillery and material of all kin have been pouring into three s arate beaches since H-hour. And now we have built up such stren that it went off so easily."

Along with their hundreds of t of small bombs the Allied pla dropped 44 tons of leaflets urg German troops to present themse es to allied lines for surrender a calling on French citizens to do erything in their power to help invaders. The Southern front under Gen. Wilson's supreme co mand. The designation and com sition of the invading armies mained military secrets. Their co mander also was not identified.

Authoritative sources emphasi that the entire invasion operat was complementary to the ope tions in Northwestern France had been planned for many weeks dovetail with the over-all plans the French campaign.

LONDON, Aug. 15 (AP) — T Germans said tonight that the lied invasion of Southern Fra was in full swing along a 125-m stretch of the Mediterranean co between Cannes and a point W of Toulon.

The propaganda agency Tra ocean asserted there were landi at (1) Bormes, East of Toulon, the St. Raphael area, and (3) tween Cannes and Nice. Transoc declared "German troops launcl immediate counter-attacks and gaged invading troops in he fighting." D.N.B. said the Bor landing was "frustrated."

In a dispatch to the control press outside Germany, DNB s the St. Raphael-CapDramont fig ing "cannot yet be called a coher action on a broad front."

In another dispatch DNB descr ed the fighting area as a coas stretch 15 miles in length where beaches are flat only at some poi and the foothills of Alpes Prove ales rise more than a mile hi These slopes, the agency said, w heavily fortified.

Invasion Area on Resort Coast

Marseille, a city of more t 800,000 population, is 25 miles E of the Rhone mouth and at edge of a large triangular coas plane where many important bases are located.

Nice is less than 20 miles fr the Italian frontier. Coming do almost to the coast along t stretch are the mountains a hills of Provence, and betw these two points are the great val base of Toulon, burial grou of most of the French fleet; resort of Cannes, and many ot famous resorts.

acAvity Committed for Trial n Jail Breaking Charge

John Francis MacAvity was com-ted by Magistrate William wn in City Police Court Tues-, for trial on the charge of "un-fully by force and violence aking jail by assaulting Walter Sheppard, a jail guard with in-t to set himself at liberty."

MacAvity, who was handcuffed en escorted to the court room, en asked by the Magistrate if he nted a summary trial or prelim-ry hearing, chose the latter.

Guard Sheppard, when examined C. B. Garland, testified that on night of July 15 last he went on y at 15 minutes to 12 midnight relieve Guard Charles William rlow. After checking the pris-rs, one of them being MacAvity, going about his usual line of y, he had lain down on a bench the laundry.

RUCK BY SOMETHING

was somewhere between 3:30 4 a.m. on July 16, while rest-on this bench, that he was ck with something; he did not w what it was but said that it like the building had fallen on . He thought he had shouted fought after being struck, and ld remember someone tugging at . When he finally realized what happening, someone was hold-his throat, and MacAvity was ng his hands. Then whoever was ding him by the throat let go put his knee on his throat.

One of the two, Breen or Mac-vity, said

"Don't struggle and we won't urt you." Breen held Sheppard y the shoulders while MacAvity ed his feet. At this time Shep-ard said, "MacAvity, you'll never et away wih this!" One of them icked up the keys while the ther tied a towel around Shep-ard's mouth.

TURNS FOR KEY

he two men then left Sheppard, it was just a few moments when cAvity returned and went ough his pockets in which he had key to the jail office door. This was kept separate from the er keys, which had been on a ring. Later on, when the guard ked in his pockets, he found this was gone.

Sheppard struggled and rolled und till he moved two or three to where he knew there was a of scissors. He managed to get d of these scissors with his hands, ch had been tied in front of him, cut the cord that was holding feet together.

RESPONSE

e then went up the stairs to the n office door, which he found ked. He knocked on the door h the scissors, shouted, and rang office bell. On getting no re-nse he turned to go, and hit on steam pipes which led through building where the Senior rd lived. At the bottom of the rs he found the keys on the ring which had been taken away from him. He unlocked the door, going into the exercise yard, and then the one going out into the jail yard. From there he unlocked the door into the corridor in front of the residence of the Senior Guard, Alex Tulloch. He kicked on Tul-loch's door and rang the bell be-fore going on into the jail office to phone Corporal John White. About this time Tullock came and cut the cords from Sheppard's hands.

The two men found the key to the main jail office door on the desk in the office. Then they unlocked the door and went down the stairs leading to the large cell block. On investigating they found the two doors, both the iron gate and the wooden door, leading into the cell block—open. The door in the cell which had been occupied by Mac-Avity was also opened.

After searching the block they went into the laundry. Here Shep-pard said he saw blood on the floor, which he said must have come from his nose and mouth and a place on his forehead where the skin had been knocked off. These injuries he said had occurred during the strug-gle with Breen and MacAvity, as he had not had them before.

Cross-examined by MacAvity Sheppard stated he did not require medical aid for these injuries.

THOROUGH SEARCH

Alexander David Tullock, senior guard, testified that MacAvity had been in custody in the Nelson jail on a charge of unlawfully breaking and entering a Nakusp drugstore.

He told how he and Sheppard had made a thorough search of the cell block and had found the door into MacAvity's cell open. He searched the remaining cells but could find no trace of the prisoner. They then went and searched the kitchen and laundry. In the laundry Tullock said he also observed some blood on the floor. They also searched the police garage, motor vehicle build-ing, and the grounds around the Court House, but found no trace of MacAvity. He said Sheppard point-ed out to him some foot prints on the ground below the jail office window.

Other witnesses were Charles William Harlow, guard at the Pro-vincial jail, who had locked Mac-Avity in his cell about 7 p.m. of July 15; Sergeant William James McKay of Cranbrook, who had found MacAvity and Breen in the Cranbrook beer parlor on Aug. 7, and who along with Constable A. Roberts, also of Cranbrook, had es-corted the two men to the Provin-cial jail at Nelson the following morning; and Corporal John White of the British Columbia Police, sta-tioned at Nelson, the latter testify-ing that the jail was in Nelson in the County of Kootenay.

MacAvity, asked by the Magis-trate, said he had nothing to say.

Beer made from barley was drunk in Babylon in 5000-6000 B.C.

Civilian Airgraphs May Now Be Sent to Australia

OTTAWA, Aug. 15 (CP) — An extension of civilian airgraph ser-vice to Australia and New Zea-land was announced today by Postmaster General Mulock. Pre-viously only Service personnel could send airgraphs to the An-tipodes. The extension will start immediately. The postage rate will be the same as to other coun-tries: five cents to the Armed Forces and 10 cents to civilians.

Landings Signal for Maquis Attack in South

MADRID, Aug. 15 (AP) — French Patriots, spurred to fight-ing action by Allied landings in Southern France, have begun what may be their final offensive against demoralized German gar-risons in the path of the invading armies, advices from the interior said tonight.

At the same time, Vichy's Civil Administration was tottering throughout Southern and Central parts of the country, with collab-orators hurriedly surrendering their positions.

A few hours after the Allies land-ed, Maquis forces sent an ultimatum to the German Commander at Pau, near the Spanish frontier, and while it was ignored it was understood the Commander was asking for per-mission to withdraw.

A neutral diplomat arriving at Irun from Pau by automobile to-night said he would have been un-able to make the trip were he not known to Maquis laders so com-pletely are they in control.

Reports reaching Irun said the landings were the signal for the Maquis to attack under a pre-ar-ranged plan, and by sundown a score of towns had been surround-ed, including Auch, Agen, Montau-ban, Rodez, Perigeux, Tulle, Auril-lac and Limoges.

Serious resistance was expected at Limoges, just South of the Loire Rice defences. The other towns mentioned were manned by garri-sons of less than 1000 each.

Even Toulouse, capital of the whole South-Central area, was threatened. The German Comman-der received an ultimatum, but the Germans are believed to have sev-eral thousand troops in that key city It was not known whether the Ger-mans had decided to fight or move out.

William Evans Laid to Rest

ROSSLAND, B. C., Aug. 15 —Fun-eral of the late William James Evans was held Monday afternoon at 2 p.m. from the St. Andrew United Church Rev. H. K, Johnston officiating. There were many beautiful flowers.

The hymns sung were "Blest be the Everlasting God," and "For-ever with the Lord,"

Interment was in Sunnyside Cem-etery. The pallbearers were John Triggs, William Trembath, W. Trev-erton, J. F. Cooper, J. L. Urquhart, and E. Chesham.

King Tells F.D.R. British Will Help Beat Japan

LONDON, Aug 15 (CP) — In a message of congratulations on the liberation of Guam, King George told President Roosevelt tonight that the British Commonwealth "will make an increasingly power-ful contribution" to "the utter de-feat of Japan."

Inquiries About Discharged to Be Handled by N.S.S.

OTTAWA, Aug. 16 (CP) — Em-ployers addressing inquiries to the Armed Forces for services of men and women about to be discharged will, in future, find their inquiries handled by National Selective Ser-vice, Director Arthur MacNamara announced today.

10,000 Civilian Casualties in July

LONDON, Aug. 15 (CP)—July air raids on the United Kingdom cost nearly 10,000 civilian casu-alties, the Ministry of Home Se-curity announced today. Of the number 2,441 were listed as killed or missing and 7,107 injured and detained in hospitals. Presumably most of the casualties were the result of flying bomb attacks.

Bracken at Coast

VANCOUVER, Aug. 15 (CP) — John Bracken, National Conserva-tive Leader, spoke briefly at a par-ty reception here today. He said his party recognizes the importance of Vancouver as Canada's gateway and plans post war development of the port. Mr. Bracken will attend a party gathering tomorrow at Courtenay on Vancouver Island.

BRITISH BOMBS FALL ON CANUCK LINES

700 Bombers Go Astray in Attack on Falaise

WITH THE 1ST CANADIAN ARMY IN FRANCE, Aug. 15 (CP-Cable)—Apparent miscalculation of position over the smoking, dusty slopes North of Falaise caused R.A.F. heavy bombers to unload some bombs into the 1st Canadian Army area Monday while the Army's second major operation was in progress.

A preliminary estimate was that casualties among personnel of Al-lied formations in the accidentally bombed area were minor but the number of injured is expected to be raised following a checkup.

In addition some of our equip-ment was damaged.

The bombing occurred while the heavies were carrying out one of the close-support attacks which have been a feature of operations in Normandy.

Lt.-Gen. Crerar, who watched the bombing from an aircraft, esti-mated 80 per cent of the bombs were dropped in the enemy area. The last formation of Lancasters and Halifaxes were ordered to can-cel their flights before they cross-ed the Channel.

Reaction of the Canadian, British and Allied troops in the area was dismay. However, except for tem-porary disruption of communica-tions the bombing had little effect on the advance toward Falaise.

Today a senior Canadian Staff Officer said the pattern of roads, woods and ground features where the bombs fell was an approximate duplicate of the actual target area behind the enemy lines.

Efforts are being made to devise a system of giving bomber crews ground guidance and preventing a repetition of the tragedy.

TORONTO, Aug. 16 (Wednesday) (CP)—Ralph Allen, Globe and Mail War Correspondent in France, said today in a copyright story that an estimated 500 loads of bombs fell prematurely from R.A.F. support-ing aircraft yesterday on Canadian positions North of Falaise, and that "many" were killed, "many" wound-ed and "some" shell-shocked.

"For periods ranging from a few minutes to the full hour and five minutes it took to call off an at-tack by more than 700 bombers that had somehow gone astray, trops as much as four miles behind the tar-get area felt the full weight of the most devastating weapon in mili-tary history," Allen said.

The first squadron of R.A.F. Lan-casters dropped its bombs with per-fect accuracy on German positions in the vicinity of Quesney Wood, 2½ miles from an observation post where he was watching, Allen said. Then, somehow, the British heavy vies changed their course slightly and the bombs began falling in the Canadian lines. He and some score other persons tumbled into a dugout.

"I counted 100 bombs that fell within what I judged to be an area of 100 yards of the dugout," Allen said.

110 DIVORCES HANDLED BY SENATE

OTTAWA, Aug. 15 (CP) — The Senate Divorce Committee has this year established a new record in the number of divorces handled, but with Parliament adjourned there is no indication of action on re-peated suggestions that steps be taken to relieve the Senate of its divorce work.

The Senate Divorce Committee—a nine man group with three as a quorum—functions on almost identi-cal lines to a court in handling di-vorce applications from Quebec and Prince Edward Island.

All other Provinces have em-powered their own courts to handle divorce actions.

This year's new high of 110 di-vorces dealt with by the Committee compares with 92 the previous sea-son and 73 in 1943.

Latest available figures are for 1942 and show a total of 3,089 di-vorces. With a few minor excep-tions the trend has been steadily upward since 1918. In that year divorces totalled 114 for all Canada, by 1928 they had climbed to 790 and in 1938 to 2,226.

FORMER SECRETARY OF STATE DIES

MONTREAL, Aug. 15 (CP)—Hon. Charles H. Cahan, former Secretary of State in the Conservative Govern-ment of Rt. Hon. R. B. Bennett, died here today in his 83rd year.

Mr. Cahan held the seat for St. Lawrence-St. George until the 1940 general election when he was de-feated by Brooke Claxton, Parlia-mentary Assistant to Prime Minis-ter King.

Howe Nominated

PORT ARTHUR, Aug. 15 (CP)—Munitions Minister Howe, Liberal Member of Parliament for Port Ar-thur constituency tonight was nom-inated unanimously as the Party's candidate in the next Dominion el-ection.

Accepting the nomination Mr. Howe predicted the fight in the next election would be between the Liberals and the C.C.F.

Kuriles Bombed

WASHINGTON, Aug. 15 (AP) — Pounding the North Pacific Kurile Islands on two consecutive days, American bombers blasted shipping, airfield installations and defence po-sitions on Paramushiro, Shumushu and Araido Islands Friday and Sat-urday.

Dummy 'Chutists Fool Nazis

STOCKHOLM, Aug. 15 (AP)—Swedish correspondents reported the Germans were fooled by Al-lied dummy parachutists which dropped in the Marseille area in the Southern France invasion to-day and that Nazi troops had been diverted to the area "in the high-est state of excitement" to round them up.

Other dispatches quoted a Ger-man military spokesman as pre-dicting a "fifth Allied front" — a landing on the Dalmatian Coast, as a result of the meeting between Prime Minister Churchill and Mar-shal Tito in Italy.

Coroner's Jury Says C.P.R. Man's Death Accidental

TRAIL, B.C., Aug. 15—No blame was attached to anyone in the death of George Legebokoff, who was killed Tuesday, Aug. 8, at the tun-nel, 23 miles West of Castlegar. This was the verdict of a coroner's jury which brought in a verdict Mon-day afternoon. Legebokoff was an employee of the C.P.R. working in the tunnel at the time of the acci-dent, in which a large rock struck the scaffolding on which he was working, knocking him to the ground.

Dr. J. S. Daly, Coroner, presided at the inquest at which evidence was given by J. D. Heighton, fore-man of the B. and B. gang, M. E. Autifaev, F. J. Bedry and N. J. Sherstoboff of the work gang, and Constable J. L. Devoin, Provincial Police officer who investigated the accident.

Members of the jury were Percy Jones, Leadore Muzzin, Dominic Da-laise, Gordon Redgrave, Leo Levey and Cliff Morgan.

The text of the verdict was as follows:

"We, the jury, find that George Legebokoff came to his death Tues-day, Aug. 8, at about 11.05 a.m. at the West portal of the tunnel locat-ed at Tunnell, B.C., cause of death being that he was thrown from the top of a scaffold to the rails below, striking his head on the rails and causing a compound fracture of the skull. This accident was caused by a large rock falling from the roof of the tunnel, thereby causing the scaffold to derail.

"We are satisfied that every safe-ty precaution had been taken and no blame can be attached to any-one."

Huron Crew Home on Leave

AN EAST COAST CANADIAN PORT, Aug. 15 (CP) — Veterans of hot action from the Murmansk con-voy route to the flanks of the Nor-mandy invasion flotilla, members of the crew of the Canadian Tribal class Destroyer Huron have return-ed to Canada on leave and the enemy will probably be happier to learn this.

For while they were hunting up trouble up and down the channel coasts, they sank two of the enemy's ships—trawlers—shared in the de-struction of two of his carefully-hoarded destroyers and did damage to several others. In return, their ship absorbed nothing more than a few splinter holes from near misses.

On invasion day and afterwards, the Huron's job was to prowl the Western end of the assault area to intercept any German surface ves-sels trying to get into the Eng-lish channel.

"We didn't run into a thing on in-vasion day," said Cmdr. H. R. Ray-ner, D.S.C., R.C.N., Huron's young skipper, "although we did get a tremendous thrill out of watching scores of planes carrying the air-borne troops passing over us a few hours before the dawn of D-day."

Among her officers is Lieut. W. H. Howe, son of Munitions Minister C. D. Howe, He is torpedo control and signals officer.

High School Girls Up in Third Place

CRANBROOK, B. C., Aug. 15 — High School Girls pulled into third place from their cellar position to-night in their 9-7 win over Central, their third win of the season. Errors accounted for most of the runs. Final bobbypin league game is Thursday when league leading Wives meet tail end Towners while the Lumber-jacks versus Hotel semis start to-morrow.

Berlin Blasted

LONDON, Aug. 16 (Wednesday) (CP)—R.A.F. Mosquitoes blasted Berlin last night for the second successive night, it was announced today.

Strange Diet Fatal for Calf

PUTNEY, Vt., Aug. 15 (AP) — While Leon O. Wood was milking a cow he dropped his wallet contain-ing $100. A calf promptly ate it, Wood killed the calf and brought the evidence to a bank which iden-tified the remnants of $75, which he received. He also recovered a darn-ing needle, two fish hooks, a driver's licence and his "A" gasoline book from the voracious calf.

CAPE TOWN (CP)—Senator C. F. Clarkson, South African Build-ing Controller, has announced that all requests to build houses must wait six months in view of the lim-ited materials available. Two-thirds of building permits will continue to be allotted for housing and houses required for personal occu-pation of soldiers will be given pre-ference.

Leslie Craufurd, Pioneer in Nelson Civic, Music, Church Life, Dies

LESLIE CRAUFURD

A career of service in industry, in music, in amateur stage produc-tions and in civic and church life came to a close Tuesday night when Leslie Craufurd, well known Nelson pioneer, died at Kootenay Lake General Hospital.

Only recently, Mr. Craufurd had received tribute as a "good citi-zen" and for his many contributions to civic life from the City Council and School Board members when he resigned from the School Board after 11 years' service and retired to live at Robson. He went to Rob-son in the latter part of June and was brought to Hospital at Nelson on July 28.

Leslie Craufurd, only son of Rob-ert Craufurd of Ardmillan, Ayr-shire, Scotland, was born in Dublin, Ireland. Educated at Edinburgh Academy, he came to Canada in 1904. In 1907 he married Agnes Bod-wedd, sister of E. V. Bodwedd of Victoria, B.C. He is survived by his wife and daughter, Ruth, who mar-ried R. V. Waldie of Robson, B.C. The only son, Clifford, was killed by enemy action in England, 1942.

BUILT MINE MILLS

Mr. Craufurd was engaged in the Old Country in 1904 to come to the Slocan with C. Fernau and build mills for the Monitor and Ajax mines.

After his experience at Rosebery in the Slocan, Mr. Craufurd was as-sociated with the old Bluebell mine at Riondel and the Pilot Bay smel-ter, operated by the Canadian Metal Company organized by Fernau. Mr. Craufurd was at Frank a short time where a zinc smelter was con-structed.

In 1906 he took up residence in Nelson, headquarters of Canadian Metal Company, remaining with the company until 1909. In that year Mr. Craufurd joined R. W. Hinton in a partnership operating the Nel-son Iron Works. The following year W. M. Cunliffe joined them and a company was organized that func-tioned until dissolution of the firm in 1940. Latterly before his retire-ment, Mr. Craufurd was with the H. E. Stevenson Machine Shop.

WIDE INTERESTS

For nearly 2 5years of his 39 in Nelson, Mr. Craufurd served as peo-ple's warden at St. Saviour's Church, retiring in 1939. He was twice chairman of the School Board here, a former second Vice-Presi-dent of the B.C. School Trustees Association and in 1943 a Director and representative on the Associa-tion of Kootenay Municipalities of that body. He was a member of the Nelson Library Board for many years.

In 1910 he was a member of the party which accompanied the late Lord Baden-Powell's first inspection of a Scout troop in Canada.

A member of Clan Johnson, now Clan McLeary, Mr. Craufurd held the office of Chief in 1914 and he served as Secretary and Financial Secretary at various times. He was a member of the committee which organized the Kootenay Kilties Band.

He was in great demand as an en-tertainer for many years as a singer of comic songs.

Keenly interested in amateur stage productions, he took an ac-tive part in the Nelson Operatic Society in its best days, contribut-ing in casts, as a director and in all offices. He held at one time or an-other almost all offices of the Nel-son Little Theatre Association.

In 1942 he was elected President of the Nelson Music Festival Asso-ciation, component part of the music festival movement in the Koote-nay in which Mr. Craufurd had been widely interested.

FINAL COUNT GIVES S.C. 51 MEMBERS

EDMONTON, Aug. 15 (CP) — Premier E. C. Manning's Social Credit Government will seat 51 members in the next Legislature, it was shown today after complete re-turns from all 49 Provincial con-stituencies were tabulated by elec-tion officials.

Total Opposition membership in the new Legislature will be six—three Independent Party represen-tatives, two from the C.C.F., and one Veterans' Candidate member.

Three Social Credit candidates were declared elected today in Veg-reville, Okotoks-High River, and St. Paul.

In Vegreville, Michael Ponich was declared elected after the sec-ond count showed he received 1,923 votes, compared to 1,493 for William G. Porayko, C.C.F. candidate.

St. Paul Constituency returned J. W. Beaudry to the Legislature for the third successive term.

Ivan Casey, Principal of High River Public School, won the Oko-toks-High River seat, obtaining a 1,077-vote majority on the second count.

Striking Welders Return to Work

VANCOUVER, Aug. 15 (CP) — More than 200 welders who went on strike at Burrard South Shipyards yesterday and early today returned to work this afternoon. A com-pany official said the strike was illegal and that the men agreed to resume their duties when peaceful negotiations were re-established be-tween bargaining agents, the com-pany and Government labor offi-cials.

AUSSIE AIRMEN TO STAY IN SOUTH

SYDNEY, Australia, Aug. 15 (AP) —Training of Australian air crews in future will be limited to the needs of the Southwest Pacific, Air Minister Drakeford announced to-night, and no more fully trained R.A.A.F. pilots will leave Australia for the United Kingdom, Middle East or India.

Winners at C.C.F. Partner Whist

High score at the C.C.F. partner whist Monday night in Eagle Hall went to Mrs. Van Ruyskenvelde and Mrs. R. Mills. Mrs. D. McGinn and J. Leeming took the second prize. There were eight tables in play.

Temperatures

Precipitation at Nelson for the 24 hours ending at 5 p.m. Tuesday amounted to .065 inch, all of it dur-ing the morning hours. The per-iod's temperature extremes were 52.8 and 76.8 degrees.

SAVE ON Children's Wear at Fink's LADIES' WEAR

Many at Funeral for A.S. Hunden Nelson Pioneer

Requiem High Mass as sung for A. S. Hunden by Rev. Luke Powle-son, O.F.M., of Spokane, at the Ca-thedral of Mary Immaculate Tues-day morning. Many friends and rel-atives attended the funeral for Mr. Hunden, Nelson pioneer who died Saturday morning at Kootenay Lake General Hospital after a lengthy ill-ness.

A. Jeffs, J. J. McIntyre, J. Reister-er, R. Sharp, D. Maglio and J. Ko-pala were pallbearers. Burial was in the Catholic plot in the Nelson Mem-orial Park.

Rosary was recited at the Thomp-son Funeral Home Monday evening by Father McSherry.

Negro Soldiers Beat Up Italians

SEATTLE, Aug. 15 (AP)—Twen-ty-four Italians, members of a ser-vice unit at Fort Lawton, were in-jured in an attack by Negro troops last night, the Army's Seattle Port of Embarkation Command announc-ed today.

The body of one Italian was later found hanging from a nearby tree.

Fort Lawton is a unit of the Port of Embarkation Command and the Italian Service unit, made up of for-mer prisoners of war who pledged allegiance to the Allied cause, were barracked there.

The statement, which was the only information available tonight, said the attack occurred about midnight Monday and lasted but a few min-utes. The Negroes, who attacked with rocks, were not identified ex-cept that they were soldiers.

The statement did not say that the Italian found hanged, whose name was Guchielmo Olivanta, was hanged by the attacking party.

Do You Suffer Distress From Monthly FEMALE WEAKNESS

With its Nervous Tired Feelings?

At such times—if *you* suffer from cramps, backache, feel tired, nervous, restless, a bit moody — when due to functional peri-odic disturbances—

Start at once—try Lydia E. Pink-ham's Vegetable Compound to relieve such symptoms. Pinkham's Compound *helps nature!* It helps relieve such distress because it has a soothing effect ON ONE OF WOMAN'S MOST IMPORTANT ORGANS.

Thousands upon thousands of wom-en and girls—rich and poor alike—have reported benefits. Follow label directions. Pinkham's Compound is *worth trying!*

Kiska Anniversary Sees Tables Turned on Japs

By NORMAN BELL
Associated Press Staff Writer

AN ALEUTIAN ISLAND BASE, Aug. 15 (AP)—A year ago today United States and Canadian troops occupied the Aleutian Island of Kiska, and the anniversary finds American forces carrying a many-pronged drive toward Tokyo with repeated trip-hammer blows at Japan's inner defences and home islands.

In evacuating Kiska, the Tokyo war lords, their dream of dictating peace in Washington blasted, acknowledged to the world that they were unable to hold what they had seized.

Since then their forces have been beaten or by-passed in the Solomons, New Guinea, Gilberts, Marshalls, Carolines and Marianas.

Their homeland has been bombed repeatedly—along the Kurile chain by Leutian-based Allied planes, and in destructive blows at the industrial heart of their empire farther South by superfortresses.

The Japanese flight from Kiska followed their finish battle at Attu three months earlier. They had held the two islands slightly more than a year.

Not a single enemy was found by the United States and Canadian amphibious force which swarmed ashore and over the sandy beaches and tundra hills of Kiska. But they found abandoned supplies and facilities of all sorts. The Japanese had barely got away, probably by submarine or fog-hidden surface craft, with the shirts on their backs.

It was believed the Japanese may have had as many as 10,000 soldiers and sailors on Kiska at one time.

Airmen Dismissed on Theft Charges

VICTORIA, Aug. 15 (CP) — Charges of theft of R.C.A.F. property, laid against seven Canadian airmen, were dismissed by Justice of the Peace F. J. Baker at the conclusion of preliminary hearings in Sidney Police Court today.

"Tea in Brest" Patton Vows

SUPREME HEADQUARTERS, ADVANCED COMMAND POST IN NORMANDY, Aug. 15 (AP)—Fresh tales concerning Lt. Gen. George S. Patton Jr., the gravel-voiced tank commander, are spreading in the wake of his swift manoeuvers through Normandy and Brittany.

As soon as his Third Army had smashed into Brittany, according to a front line story, he vowed: "I'll have tea in Brest Sunday, even if I have to slow down."

The following Sunday tank spearheads actually penetrated the outskirts of the harbor city, but had to retire before heavy fire.

A military policeman at a village street intersection was berated by a Colonel for a traffic jam.

"Please sir, don't talk that way to me," the M.P. said and cringed. "Gen. Patton's just been through here.

Gen. Dwight D. Eisenhower said today he talked with Patton by telephone earlier in the week and asked why he didn't get the lead out of his feet. The Supreme Commander did not repeat the explosive reply that poured from the other end of the line.

WASHINGTON, Aug. 15 (AP)—The Senate confirmed today the promotion of Lt.-Gen. George S. Patton, Jr., to the permanent rank of Major General a few hours after disclosure of his leadership of the American Third Army in Normandy and Brittany.

B.C. CHINESE ASK RIGHT TO VOTE

VANCOUVER, Aug. 15 (CP) — Enforcement of draft regulations for Chinese in British Columbia has brought a request from Hoysun Ninghyng Benevolent Association members in Vancouver that Chinese in the Province be given the right to vote.

Foon Sein, President of the Association sent a message to Premier John Hart today asking that the necessary legislation be passed by a special session to correct a situation "which prevents our voting here." The message said that the Chinese had made large contributions to the war effort against Japan and that many Chinese were voluntarily serving overseas.

Weather Forecast

KOOTENAY — Light winds, cloudy and mild with a few scattered showers. Partly cloudy and mild Wednesday.

Mackenzie King to Broadcast Today

OTTAWA, Aug. 15 (CP) —Prime Minister Mackenzie King will make a half hour Dominion-wide broadcast over the CBC Wednesday night from 8:30 p.m., to 9 p.m., EDT, it was announced today. It was understood that his speech would deal mostly with the War Services Gratuities Bill passed at the last session of Parliament.

The broadcast will be part of the free time granted by the CBC to allow national political parties to outline their platforms and plans. The broadcast will be the third by Liberal Party supporters since the free-time policy was inaugurated in June.

Kaslo Jap Not Given Admission to Edmonton

EDMONTON, Aug. 15 (CP) — Two applications from Japanese for permission to take up residence in Edmonton were rejected by city council last night.

One application from Tsukishima of Stirling, Alberta, Canadian-born Japanese, was for six weeks' temporary residence to enable him to complete a course in automotive engineering.

Council felt that in making any allowances for temporary residence a precendent would be set which would make it difficult to refuse other applications.

The other request came from Sampel Sigiura, who has been residing in Edmonton for the last two years. He asked permission to bring to the city, his wife and six children, who are at present at Kaslo, B. C. Man and wife were both born in Japan but the children are all Canadian born.

$5000 ASSORTED LIQUORS STOLEN AT VANCOUVER

VANCOUVER, Aug. 15 (CP) — Cutting through five layers of brick last night hijackers looted the Liquor Control Board warehouse in downtown Vancouver of $5,000 worth of assorted liquors.

Approximately 672 bottles of rye and Scotch whiskey were included in the loot. Police said the liquor would be worth as much as $10,000 on the black market.

The theives used a stolen grocery truck for their getaway after they had emptied if of its load of salad dressing and other foods.

Earthquake Shocks Cause Damage on Vancouver Island

VICTORIA, Aug. 15 (CP)—Some damage was caused by earthquake shocks at the Sisters Lighthouse, near False Bay on Lasqueti Island, Nanaimo area, last week, it was learned today.

Shocks, which probably centred in the Queen Charlottes, were recorded on Wednesday last, but the damaging shocks at the Sister's station preceded these, occurring early Tuesday morning.

The report of the light keeper stated seven panes of glass in the lantern were broken and that the masonry foundation of the lighthouse was fractured in 15 places.

The Department of Transport is checking with other lighthouse keepers to determine whether damage was caused.

The Sisters light keeper's report described a heavy shock about 4:50 a.m. Department officials said they checked with the Dominion observatory here and the 1 a.m. shock was confirmed by the seismograph, but there was no record of a second shock.

$75000 ANONYMOUS GIFT FOR WEST POINT GREY RINK

VANCOUVER, Aug. 15 (CP)—R. Rowe Holland, chairman of the Vancouver Park Board, said today that he had received an anonymous gift of $75,000 for establishment of an ice rink at West Point Grey.

Vernon Doesn't Like Handling of Japs

"A certain amount of dissatisfaction" was expressed recently by the Vernon City Council on the handling of the Japanese question by the Dominion Government, the Vernon Council stated in a letter which was received and filed by the City Council Monday night. The letter concluded:

"We are of the opinion that Japanese residents in Canada, if all were shipped back to Japan would (if our Western civilization and education is staple in them) be splendid missionaries and exponents of our doctrines of peace and goodwill.

"We're Still a Long Way From the Rhine" Gen. Eisenhower Warns

AN ALLIED SUPREME HEADQUARTERS COMMAND POST IN NORMANDY, Aug. 15 (AP)—Gen. Eisenhower warned today against expecting that the end of the European war would come in a matter of weeks. At a press conference the Allied Supreme Commander summarized the situation in one of the war's most critical periods—for the Germans.

"This week is marking a very definite climax in one phase of the operational plan that has been in effect since D-Day," the Supreme Commander said. "Just what will be the result in the sum total no one can say. It is certain that German forces congregated on our front are taking a sound beating. In the campaigns lying ahead numbers of such tactical victories must be won because, even if we realize our fondest hopes in a situation such as this, we are still a long way from the Rhine.

"All of us are keyed up on intensifying our efforts to the moment of final victory—no matter how long it may take."

The Supreme Commander appeared guardedly optimistic over the trend of the fighting and again cited the coordination of the Army, Navy and Air Forces and the Supply Services.

Paying particular tribute to the R.A.F. and the U.S.A.A.F., Gen. Eisenhower said the Allies now are realizing opportunities that they had expected to have all through the campaign, because they had expected good weather.

Gen. Eisenhower said, however that a man who attempts to measure the length of the war remaining in terms of weeks is not attempting to use any logic, but merely hunches and wishful thinking.

Hitler has nothing to lose by fighting to the last man, he continued, and with the people fighting under the heel of a despot, there is no reason to expect them to quit until the bitter end.

Asks Distribution of Power by Cities Be Retained

A resolution asking recognition of priority rights of cities and municipalities now distributing electric power and being sponsored by Courtenay, B. C., at the Union of B. C. Municipalities convention, was endorsed by the City Council Monday night. The motion declares:

Whereas it appears to be the policy of the Provincial Government to take over the source and distribution of electric power in the province;

And whereas a number of cities and municipalities now controlling distribution of electricity in respective cities and districts owing to the proximity to consumers and knowledge of local conditions, are in a better position to render prompt and efficient service than would a provincial system centralized at one point;

And whereas those cities and municipalities which distribute electricity already have trained staffs equipped to handle every detail of such distribution:

Therefore be it resolved that this convention go on record as recognizing the prior rights of such cities and municipalities as are now distributing electric power and recommend to the Provincial Government that such rights shall not be taken away from them.

To Build Concrete Crossing on Josephine Street

Construction of a concrete crossing on Josephine Street between the Ramp Body Works and Victoria Street was approved by the City Council Monday night. Recommendation that City Engineer H. D. Dawson proceed with the work was made by the Committee of the Whole Council.

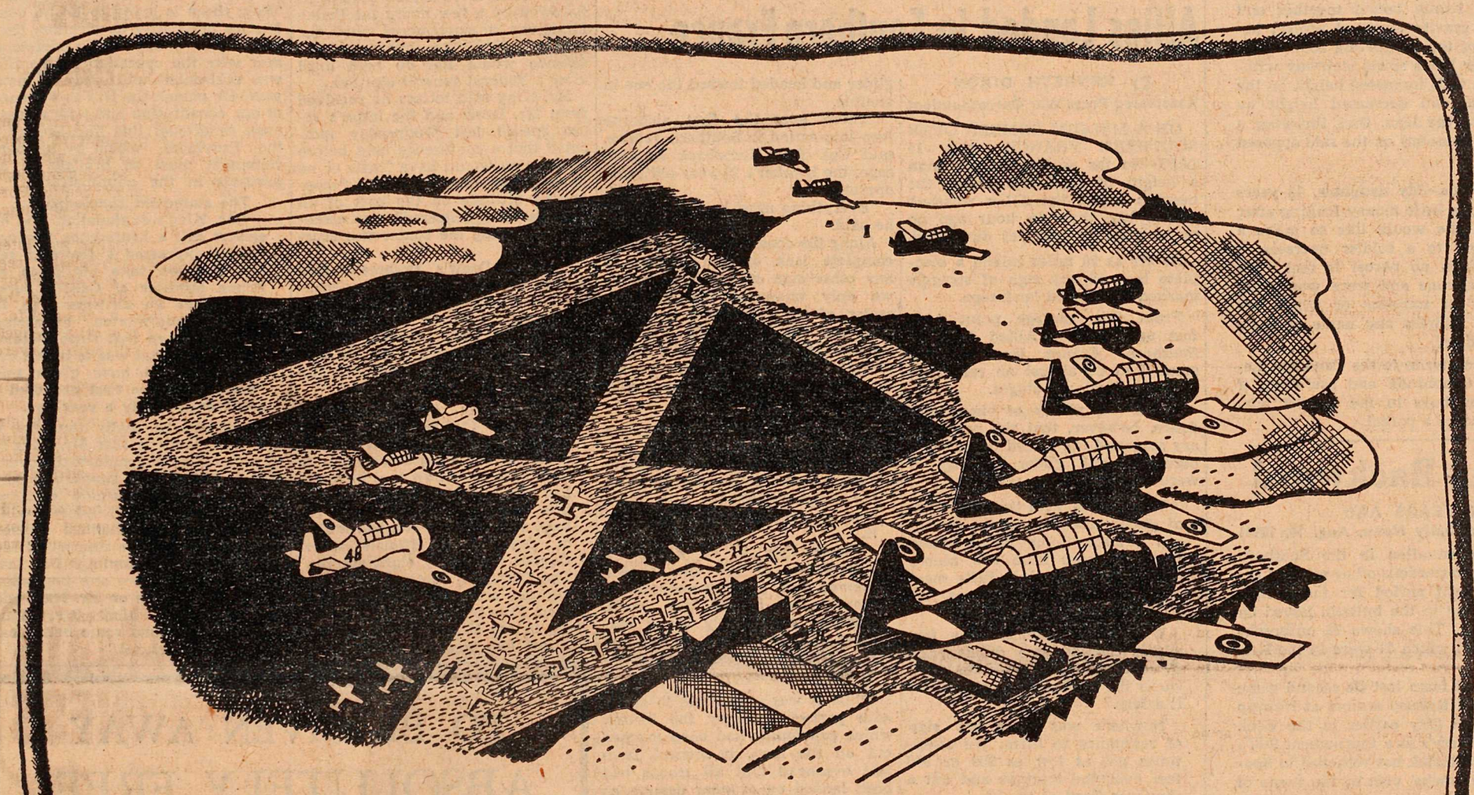
MEASLES REPORTED NEAR CHURCHILL

CHURCHILL, Man., Aug. 15 (CP) —A number of measle cases among Indians and Eskimos near the Churchill townsite has caused military officials to place the Northern Manitoba seaport out-of-bounds for personnel at the air base here. One Indian child was reported to have died from the disease. Number of cases in the area was not determined immediately.

In Tibet, rice is a luxury, eaten only by the wealthy.

Mill to Pay Meter Water Rates

City Council Monday night approved the recommendation of the Committee of the Whole Council that the Paterson Lumber Company pay meter water rates provided for in the City Water Rates Bylaw.



Every day 400,000 gallons GO INTO THIN AIR!

Air power eats up gasoline—on a scale never known before. Every day R.C.A.F. airfields here in Canada consume an average of more than 400,000 gallons; in one 30-day period alone they used an average of 548,000 gallons a day. It takes as much aviation gasoline to train one pilot as to run a car for 18 years.

Air power eats up gasoline: In one day's raid on the German cities of Wilhelmshafen and Dusseldorf, approximately 5,000,000 gallons were used. Three tons of aviation gasoline are needed to "deliver" every one-ton bomb. Every Mosquito that raids Berlin consumes 900 gallons. The equivalent of your year's "AA" ration would last a Lancaster bomber only ½ an hour!

Air power eats up gasoline: In this war the demand for aviation fuel alone exceeds the total demand for *all* petroleum products during the last war. Here in Canada this demand has jumped from 5,453,930 gallons in 1939 to 176,298,570 gallons in the year ended March 31, 1944—more than 32 times as much!

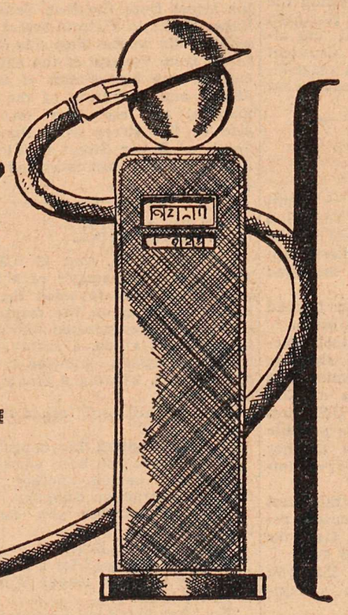
Air power eats up gasoline: Yet the needs of the Air Forces are only part of the story. In every field of war activity petroleum powers the attack. The Army needs it . . . the Navy needs it . . . war industry, agriculture, essential transportation operators need it. And every single drop of it must come from the same common pool as the gasoline for your car.

* * *

Can you wonder that there is a very real shortage of gasoline here in Canada? Can you wonder that there is little gasoline left for civilian use? Can you wonder that a very real need exists for stringent economy by every gasoline and fuel oil user? Remember—every gallon we can go without here at home means that much more for fighting man!

LESS CIVILIAN GAS MEANS MORE "FIGHTING GAS" FOR THE FORCES

NO. 7 OF A SERIES OF ANNOUNCEMENTS ISSUED BY THE DEPARTMENT OF MUNITIONS AND SUPPLY, HONOURABLE C. D. HOWE, MINISTER



Answering YOUR QUESTIONS about the GASOLINE SHORTAGE

Does the manufacture of aviation gasoline reduce the production of automobile gas? . . . Yes over twice as much petroleum is needed to make a gallon of 100 octane aviation gas as to make automobile gas. *Why do aircraft need 100 octane gasoline?* . . . It enables them to take-off and climb more quickly; it increases speed and range; it enables them to fly higher and carry a heavier bomb load. *How much aviation gas is needed to ferry a bomber from Canada to England?* . . . Over 2,500 gallons.

MS-74

When Children's Eyes Are Bigger Than Their Stomachs...

Unusual is the child who does not get sick or upset at times from overeating candy and other rich goodies. But, Mother, there is no need now to administer drastic, old-fashioned laxatives which may shock a child's system and leave them feeling weak and listless. Try the new modern help—Children's Own Tablets—made especially for children from runabout age to 15 years. They go to work at once to help sweeten the stomach, relieve distress and bring about a thorough performance of the bowels in a *gentle* manner. You never know when you will need the help of Children's Own Tablets—so be on the safe side—get a package today. Only 25¢ at your druggist. Made by the makers of Baby's Own Tablets—your guarantee of a reliable product.

You can have Softer, Smoother Skin in just 14 Days!

HELP YOUR SKIN RETAIN YOUTHFUL ELASTICITY!

How often a woman wishes . . . that her face looked as young as shoulders. You see, shoulders smooth, soft, *elastic*—while faces h pores clogged with make-up, un to breathe for hours at a time. when pores can't breathe, skin beco wrinkled and prematurely ag But this needn't happen to *your* c plexion. Palmolive offers a *pro* way to help keep it young and love

You can look younger in 14 day Each time you wash, (use a fa cloth) massage warm, rich, vitalizin Palmolive lather thoroughly int your skin for . . . one full minute Now, a quick rinse and pat dry. Palmolive's *60-second* Beauty Massage has been scientifically tested by 2,301 women and 36 doctors. Their reports prove conclusively that . . . in just 14 days, it brings lovelier complexions.

Norwegians in Germany Among Those Who Await Liberation

Official Norwegian circles in Lon- state that altogether about 7000 rwegian men and women have been ported to Germany where they are ng kept captive. There are five main egories of prisoners, who are eagy awaiting their approaching libera-n:

About 1500 prisoners-of-war, almost being officers arrested in August, 3. They are interned in camps, prinally in Posen.

About 3000 political prisoners, inding about 100 women, interned in ious concentration camps, particuly in Oranienburg near Berlin.

Another 700 political prisoners are d in prisons in Germany after being victed by German military and po- courts in Norway. The majority in Fuhlsbottel Prison near Hamg.

About 700 Norwegians of Jewish gin who were deported in Novem-, 1942, and February, 1943, and sent Obersthlesien or Poland.

About 700 students deported in Denber, 1943, who have been interned Thuringia and Alsace-Loraine.

As regards prisoners-of-war, no ieral deportation of Norwegian solrs to Germany took place after the upation of Norway. The Norwegian icers were deported to Germany last ar on the pretext that they had ken their promise not to participate underground activities.

The Norwegian political prisoners Germany are only part of the total Norwegians held by the Germans political reasons. Many more thousls are held in concentration camps various parts of Norway.

The Norwegian prisoners in Gerny are of practically no labor value. prisoners-of-war nearly all have icer-status and are thus not obliged work, and the political prisoners are sidered too dangerous to allow to mingle with workers outside the entration camps.

There is now no known Norwegian or force in Germany. The Germans e never thought it advisable to conipt Norwegians for work in Gerny. The only scheme in existence is voluntary one, and the negligible nber of Nazi sympathizers who volneered soon discovered more profite careers than working as laborers Germany.

An Objective View of Canada's War Effort and Future

Canada is doing a magnificent job the war. Its industrial production, farm production, its financial ef-, and the heroic record of our air-n, our sailors and our army overs give all of us plenty of reason for le. We can justifiably feel that le without in any way lessening determination to continue and exd our efforts until victory has been n.

The London Times in a recent edial wrote of Canada's part in the and touched in a broad way on ada's future position in Empire world affairs. Said the Times:

'In industrial production Canada eady ranks fourth among the ted Nations and she has by no ns reached the limit of her expan-. The facilities which her geographposition gives for the development ir transport and the proved skill her airmen make it certain that ada will have a leading part to in the future of civil aviation.

'The establishment of air bases in Arctic Circle will continue to bring into increasingly intimate contact n Russia; her special and cordial tions with the United States, to ch President Roosevelt alluded retly in a message to the Canadian ne Minister, will obviously be an ortant factor in the destinies of n countries.

'In every field the broad outlook he Canadian people is well adapted hat new conception of empire which is giving purpose to the policies of all the nations of the Commonwealth. Closely bound to the three great allies, rich in material resources and industrial skill and equipped with a clear doctrine of responsibility towards the world, Canada is sure to maintain, in the counsels of the nations, a position of authority commensurate with her contribution to victory."

Word in Season

By G. S. REES

An Okanagan friend recently sent me an illustrated booklet containing excerpts from wartime speeches by Winston Churchill. Rereading them recalls the tremendous assault made upon the emotions at their original utterance by the Prime Minister of the Mother Parliament, and further reveal his prophetic vision. One remembers well his promise of nothing but blood, tears, toil and sweat, yet victory at the end of the road, despite all terror . . . the thrilling flinging of the gauntlet full in the face of Der Feuhrer—"We shall fight on the beaches, fields and streets, until in God's good time, the New World with all its power and might, steps forth to the rescue and liberation of the old." There was his historic utterance to fallen France—"Good night, sleep to gather strength, for the morning will come, brightly will it shine on the brave and the true" (the morning has come). And last, but not least, the spiritual quality of his thought—"In the past we have had a light that flickered, in the present a light which flames, in the future, there will be a light which shines over land and sea."

"WE SHALL NEVER SURRENDER"

All such and many more were spoken on momentous occasions by this one-time Cassandra of British politics during the darkest days of his beloved country's thousand-year-old history. He stood like another Leonidas at the pass of Thermopylae! His valiant efforts are written in letters of gold upon the never fading scroll of human endeavor. It is fitting once again, to acknowledge our debt of gratitude to this reat English gentleman, the resurrected spirit of Elizabethan England, the pattern John Bull of the century.

Even as America's Abe Lincoln grows greater in stature through perspective of passing years, so will Britain's Churchill loom even larger in the colorful tapestry of our Anglo-Saxon chronicles. Dorothy Thompson earlier in the war wrote of him—"Around you . . . is a gallant company of ghosts. Elizabeth is there, Shakespeare and Drake, Raleigh and Wellington . . . Burke, Walpole and Pitt. Byron also, with Wordsforth and Shelley. I think Washington is there too, and Hamilton, two men of English blood whom gallant Englishmen defended in your Parliament; and Jefferson, who died the other day again—in France! All the makers of a world of freedom and of law are there and among them is the Shropshire lad, to whom his ghostly author call again—'Get ye the men your fathers got, and God will save the Queen'!"

This man of whom I write, British to the core and democratic in thought through aristocratic in lineage, fashioned his people through mortal storm of steel and fire into an anvil on which, regardless of time and treasure, could be hard-hammered a victory that would justify their uncountable sacrifices. Of him, it can truly be said, "One who never turned his back but marched breast forward . . . never doubted clouds would break, or right would triumph."

SPRINGS OF GREATNESS

Cult of hero-worship is undesirable, but we can admire and respect the manifold qualities of sterling character he so admirably reflects. Generous with praise and magnanimous in action, his fortitude, foresight and resolution have been beyond compare. Fully conscious of what he termed the grand proportions of history in relation to other-worldly values, and when none could calculate the future, he settled the issue on the ground of honor and of duty, serving truth and not transitory theories. No fortuitous happening brought him to the helm of the Ship of State, as it surged starkly into the storm that was to sink it without trace—almost, not quite!

TWILIGHT OF GODS

And now, as his reward, no more than he has ever asked, he glimpses the sunlit uplands for Britons everywhere and their allies, as the winds of Victory strongly stir our Empire banners. Hitler and his Huns have surely commenced to walk the long last mile in blood and horror as an unutterable darkness settles over the unhappy misguided Vaterland. One wonders whether the rim or the centre of Germany will crumble first!

Churchill of England will come to his own hour when he proudly proclaims in phrases of his own inimitable fashioning wherein he reduces great issues to simple terms

"Two Englands in my day have been
England burning, England green,
But God has shown a third to me,
England agleam with victory!"

War — 4 Years Ago

By The Canadian Press

Aug. 16, 1940—Admiralty announced Britain had lost 47 naval units to date. Britain and U.S. conferred on acquisition by U.S. of British naval and air bases in Western Hemisphere. Seventy-five German planes downed in bombing of Thames estuary. Greek Government ordered partial mobilization.

Test Yourself

1. What is the next line after "As idle as a painted ship"—?

2. Complete this line: "Where the bee sucks—"

3. What comes after "'We are lost!' the captain shouted—"

TEST ANSWERS

1. "Upon a painted ocean." From the "Rime of the Ancient Mariner," by Coleridge.

2. "There suck I," from "The Tempest," by William Shakespeare.

3. "As he staggered down the stairs." from "The Captain's Daughter," by James T. Fields.

W. H. T., Rossland—Will you please give the recipe for removing water stains from a mahogany top teakwood antique table?

White spots on polished tables are removed in the following manner: Coat the spot with oil and pour on a rag a few drops of "mistura balsamica oleosa," (another name for pine oil) and rub on the spot, which will disappear immediately.

Another method given is: Stains and spots may be taken out of mahogany with a little aquafortis and water, or oxalic acid and water, rubbing the part by means of cork, till the color is restored, observing afterward to wash the wood well with water, and to dry and polish as usual.

A Reader, New Denver—Could you tell me the name and address of any shoe store or stores in Spokane where a person, whose feet are crippled, could have shoes made to order?

We have no address on file of such a store in Spokane, but we can refer you to the Pierre Paris Store, 51 Hastings Street West, Vancouver, B.C.

S. F., Nelson—Why doesn't the Leaning Tower of Pisa fall?

The fact that the Leaning Tower of Pisa stands depends on the law of statics which ensures the stability of the leaning buildings whose parts are firmly bound together and whose centre of gravity does not project beyond the limits of the supporting foundation. The leaning tower has a spiral stairway within, which is built with increased height on the sides of the lean and decreased height on the sides opposite the lean, thus throwing a greater weight of masonry on the side opposed to the lean.

M. C. M., Marysville—My daughter, 13 years old, is making a little money looking after children and she would like to make a parcel to send to a soldier overseas, a soldier to whom no parcel is sent. We don't know anyone and were wondering if you knew of someone or where we could get an address and name of some lonesome soldier?

We suggest you write to the Canadian Legion Branch at Cranbrook and ask them if there aren't some boys in the district who would like to receive a parcel.

Looking Backward

TEN YEARS AGO
(From the Nelson Daily News, Aug. 16, 1934)

Although the situation in the Southern Interior continued hazardous other parts of the province had a light period for forest fires last week, according to the bulletin issued by the Forest Branch. This shows 78 outbreaks during the week of which 51 were in the Nelson District.

The junior ball team lost its second game in 16 played to the Nakusp seniors at Nakusp recently. At Slocan City earlier in the week the juniors beat Perry's in a tournament 9-8.

Mrs. W. W. Philbrick has returned to Spokane after a five weeks' visit at the home of her son-in-law and daughter, Dr. and Mrs. G. A. C. Walley, Oak Street.

TWENTY-FIVE YEARS AGO
(From the Daily News, Aug. 16, 1919)

General Arthur Currie, who commanded the Canadian troops in France and Belgium, arrived in Victoria yesterday on the Cunard liner Caronia. He was met by military, naval and city officials.

Sergt. Waters of Nelson, returned to the city last evening on the Crow boat from overseas.

Two young ladies in a boat belonging to E. P. Mills, of Kokanee, assisted yesterday afternoon in the task of managing the big drag seine with which C. H. Robinson, fisheries overseer, was sweeping squaw fish in the shallows of the Kokanee.

FORTY YEARS AGO
(From the Daily News, Aug. 16, 1904)

Sunday a team came into Nelson from the Ymir mine to play the local baseball team, the result being 26-5 in favor of Ymir team.

Miss Tuck of St. John, niece of Sheriff Tuck of Nelson, arrived in town last night.

The worst fires in the District now are raging West of the S. F. & N. railway track between Nelson and Ymir. The fires East of the track are not close nor at present dangerous.

Gems of Thought

HUMILITY

"True humility is not an abject, groveling, self-despising spirit; it is but a right estimate of ourselves as God sees us."—Tryon Edwards.

"There is no humiliation for humility."—Joseph Roux.

"They that know God will be humble; they that know themselves cannot be proud."—Flavel.

"Human pride is human weakness. Self-knowledge, humility, and love are divine strength."—Mary Baker Eddy.

"Lord of all life, below, above,
Whose light is truth, whose warmth is love,
Before Thy ever blazing throne
We ask no luster of our own."
—Oliver Wendell Holmes.

Today's Horoscope

You are conscientious in details, slow and generally accurate. You are a sympathetic person, a devoted parent, a loving mate, and loyal friend. In fact, you are a general favorite with your friends and associates. A love or domestic disappointment, as well as a plesant surprise will be important features of the year just starting for you Be tactful and tolerant, and do not quarrel with an old friend or lover. The child who is born on this date will possess many fine traits and have a pleasing personality. He or she will be successful in the chosen profession.

Glider Disintegrated in Mid-Air as Allies Landed in Southern France

By KENNETH DIXON
Associated Press War Correspondent

ON A MEDIUM BOMBER OVER SOUTHERN FRANCE, Aug. 15 (AP)—So far as I could see from a height of 1,000 feet above the beaches where the Allies smashed ashore less than an hour ago no major fighting had yet developed.

As far as 20 miles inland a complete lack of any sign of struggle marked the rugged landscape

From this vantage point 1,000 feet up the new Allied blow at Southern France this morning seemed to be almost no resistance in the preliminary stages.

There was plenty of visual evidence, however, that the preliminary stages of the Allied operation—parachute and glider landings—were carried out successfully.

We came in with the first wave of glider troops to strike Southern France. Some miles inland they cut loose from tow planes and glided down into little meadows between rugged crags just inside the coastline.

With the exception of a few which crashed into ditches and fences or turned over on their backs the gliders seemed to make it safely.

Nowhere was there any sign of resistance to them. We sometimes got as low as 200 or 300 feet over the treetops and not a shot was fired at us.

The first sign of movement as scores of gliders skidded to a stop in clouds of dust came from near an overturned glider which apparently was badly wrecked. A small machine moved beetle-like from under the wing of a nearby glider and headed toward the one in trouble.

"There goes the first airborne jeep into action in Southern France, said Cpl. Billy Luneback of Chicago, the bomber's 22-year-old radio operator.

"Everything must be going okay," he said.

Along the coast at sea there was a complete lack of gun flashes or any other sign of action. Although we only traversed the Northern sector of the beachhead and, due to fleecy clouds and the low altitude could not observe the entire assault area, still we were unable to note anything resembling stiff resistance.

Once we thought we were in a flak zone when one glider apparently disintegrated in the air. This, however, was still far from the coast of France and there was no apparent explanation for it.

Pieces flew in all directions. The bodies of the men aboard seemed like giant scarecrows as they were hurled into space, standing out starkly for a moment against the red sunrise and then tumbling down to splash into the quiet sea.

While it was impossible to check with perfect accuracy the terrain which previously had been marked out on the map, it seemed from just overhead that all troops had been landed on or near designated spots.

As we flew over the inland area every previously planned landing spot already was well-marked. However, most of the marking was unnecessary because of the thousands of parachutes outlining the areas.

Former U.S. Envoy to France Joins French Army

ALGIERS, Aug. 15 (AP)—William C. Bullitt, former American ambassador to France, yesterday joined the French Army as a commandant, equivalent to the rank of major in the U. S. Army, the French Information Ministry announced today.

Bullitt, an honorary citizen of a number of French towns, established that he could retain American citizenship and serve in the French Army.

Bullitt said his offer of active military duty had been rejected twice by U. S. Secretary of War Stimson because of his age.

Not Bad for "Decadent Democracies"

ROME, Aug. 15 (CP) — The Canadian Army newspaper, Maple Leaf in an editorial column praising the tactics of the Americans in Normetn France declared today that "our allies from another of the 'decadent democracies' have done a magnificent all-round job. They have what it takes in large doses."

ONE WAY OF FINDING OUT

LONDON, Aug. (AP) — Gault MacGowan, veteran New York Sun correspondent, was reported by the Germans today to have been captured near Chartres on the road to Paris.

Apparently he ventured beyond the Allied lines once too often.

The Germans said they took MacGowan to Paris after a shooting scrape in which a companion was wounded. Correspondents usually travel in pairs on the U.S. first army front and it is quite possible that his companion was another American correspondent, yet unnamed.

In his recent trip across the Brest Peninsula, MacGowan discussed reports that virtually no Germans were defending Paris and said:

"I wonder if it is true that you can drive into Paris in a taxi-cab?"

MacGowan always was going to the front lines and beyond in search of colorful material.

To Improve Kootenay Street Section

Improvement of Kootenay Street between Baker and Victoria Streets as recommended by the Public Works Committee, received the approval of the City Council Monday night, and it was decided to ask City Engineer H. D. Dawson to begin the work as soon as possible.

During discussion of the project, Mayor N. C. Stibbs called attention to the great difficulty the City was meeting in obtaining asphalt for roadwork. Transportation problems were responsible for this, he said.

The Kootenay Street improvement recommendation called for construction of a concrete sidewalk on the East side from Baker Street to the lane South of Baker; construction of concrete curbs on each side of the street from the lane South of Baker Street to Victoria Street, and additionally on the West side of the Street from the end of the existing curb to the lane South of Baker Street; and preparing of the submaterial and asphalting on each side of the street from the lane South of Baker Street to Victoria Street, the total cost estimated to be $1057.

A MERE GIRL

LONDON, Ont., Aug. 15 (CP) — The personnel manager of a large local firm today revealed the following sidelight on the manpower situation. There appeared before him in search of a job, a sturdy, suntanned youngster, somewhat in need of a haircut, wearing a man's shirt and overalls.

"How old are you?" asked the official.

"Twelve," replied the youngster.

"Where have you been working?"

Applicant named another local firm, a construction company.

"How much were you earning there?"

"Sixty cents an hour."

"That's pretty good for a kid your age. Why did you leave? Was the work too hard?"

"No. They found out I was a girl."

Dakota is a Sioux Indian word meaning "alliance of friends."

Flying Frenchmen Support Landing

WITH ALLIED AIRFORCES ATTACKING SOUTHERN FRANCE, Aug. 15 (AP)—Flying Frenchmen of the famous Layfayette Escadrille and sister squadrons unleashed their thunderbolts over their native land today, supporting the Allied sea and airborne invasion which struck France's Southern shore.

Each pilot of the fighter planes, which had tricolors painted on the tails, carried a leaf from a tree in France next to his heart as he flew.

The French major who commands a fighter-bomber group supplied the leaves. He was strafing a train over France not long ago and swept so low he hit a tree. But the powerful plane plowed on through and brought him back—with a big bunch of leaves decorating his plane. He divided them among his fellow pilots.

No Cooperation Says Drew

TORONTO, Aug. 15 (CP)—Premier Drew of Ontario said today that Prime Minister Mackenzie King's explanation in the House of Commons "of his refusal to meet the Provinces in a Dominion-Provincial conference is completely divorced from the truth." He added in a formal statement: "I have offered the utmost cooperation but cooperation has been refused."

The Ontario Premier's statement followed by a few hours the Prime Minister's announcement that the projected Dominion-Provincial conference would not be held until after a Federal general election.

Mr. King said letters he received from Mr. Drew and the latter's radio speech last Wednesday indicated that a conference held before an election would have "little or no hope of success." He said a "cooperative attitude on the part of all Governments concered" was essential to making the conference asuccess.

Premier Drew's statement said that at the time Mr. King was making his announcement to the House, Provincial Treasurer Frost and Provincial Secretary Dunbar of Ontario were in Ottawa to discuss various aspects of the conference and "Mr. King knew that."

"I became convinced a few weeks ago that Mr. King had no intention of calling this conference," said the statement, adding that "it is clear now that he never had the slightest idea of calling this conference and that he has been wasting the time and money of Department officials across Canada for nearly eight months."

The Dominion faces a grave constitutional crisis, the statement continued. Five bills introduced by Mr. King in the House of Commons in the last two weeks involve a total expenditure of $1,500,000,000 over ordinary expenditures and "all of them will depend upon tax payments which called for a readjustment of our Dominion-Provincial taxing arrangements before they were introduced."

Mr. King said in the House of Commons that the Dominion Government planned to discuss the administration of the Family Allowances Bill with the Provinces at a Dominion - Provincial conference. "Now there is going to be no conference until after an election. Perhaps the public will understand now why the operation of the Bill was post-dated until July of next year. He passed the Bill in defiance of our constitution and now refuses even to discuss this measure with the Provinces, which by his own statement must be brought in as partners in the administration."

The statement concluded:

"Mr. King's explanation that he cannot call a conference because I have expressed a desire to see Mr. Bracken take his place as Prime Minister of Canada surely reaches an all-time high in pure, unadulterated hypocrisy. He has known that since December, 1942. If that was to be his excuse he could have given that reason when we first proposed a conference nearly a year ago.

"It would be really touching if one could believe that Mr. King is so affected by the sudden discovery that I will not be supporting him in the next Dominion election. Does he think Mr. Duplessis will? Is he under the slightest illusion that he will get the support of Mr. Douglas or Mr. Manning? For that matter can he have any hope that either Mr. Garson or Mr. Hart will be supporting him? Mr. King should have found some better excuse for his refusal."

Asks $500 for Damages to Land Near Intake

Recommendation by the Committee of the Whole Council that a letter from Mrs. B. E. Miller asking for the sum of $500 for alleged damage to her property near the five-mile intake be referred to City Solicitor C. B. Garland, was approved by the City Council Monday night.

The Council also approved recommendations that a letter from the firm of Brown & Dawson regarding Carmin Maglio's water rates be filed; that the question of renting the city house occupied by R. Tarling, be referred to the City Solicitor for advice; that the Council approve application of James Howard Duck to secure two tires for his car so that he may relieve an operator at the City power plant, and that the matter of loose rock above the Hospital road be left with City Engineer H. D. Dawson to investigate.

John M. Craigie, Creston Pioneer Dies

CRESTON, B.C.—Death came to one of Creston's pioneer citizens, John Minto Craigie, aged 80, last Sunday at the family residence at Erickson. He is survived by his wife Florence Anette Craigie, four daughters Mrs. B. Hindy, Trail; Mrs. T. Hindman, Bader, Wash.; Mrs. M. Weir, London, Ont.; Mrs. R. Chandler, Yahk, B.C.; and two sons, Gerald at Copper Mountain and Erick at home.

Mr. Craigie was born at Peterborough, Ontario, in 1864. In 1892 he married and came West in 1898 to Enderby where he resided a few months. In the same year he moved to Greenwood where he was employed as a carpenter. He later owned a small sawmill in the district.

In 1912 he came to Creston with his family and operated a fruit ranch successfully. During the sawmill era of the valley he built ten or twelve mills and constructed the first portable sawmill in the valley for F. V. Staples.

Great believer in cooperatives, he was Director of the Creston Cooperative Fruit Exchange for many years and a trustee of the East Creston Irrigation District.

He was well known throughout the East Kootenay for his kindly manner and effort in any community project.

Funeral services were held from the family residence Wednesday, Rev. Partington officiating and Masonic last rites at the cemetery.

Canada's Roll of Honor

OTTAWA, Aug. 15 — Names of eight British Columbia men appear on the 548th casualty list issued tonight by the Canadian Army as follows:

KILLED IN ACTION:

British Columbia Regiment—

Hudson, Alan Gray, Lieut., Vancouver, B.C.

Bousfield, William Sylvester, Pte. Oliver, B.C.

Charge for Engagement Announcements on this page is $1.50

DOBIE—PICKERING

● A pretty wedding took place on August 12 at the Rectory of St. Paul's United Church when Agnes Dobie, third daughter of Mrs. Bertha Dobie and the late James Dobie of Maple Creek, was united in marriage to Bert Arthur Pickering, son of George Pickering and the late Mrs. Pickering, Granite Road, Nelson. The bride was attended by her sister, Miss Eva Dobie and the groom by his brother, Robert Pickering. Following the ceremony a reception was held at the home of the bride's brother-in-law and sister, Mr. and Mrs. E. R. Clark, Granite Road. The table was centred with a lovely three-tiered wedding cake and the rooms were decorated with lovely Summer flowers. The hostess was assisted by Mrs. Robert Pickering. Mr. and Mrs. Pickering left for a short honeymoon East. On their return they will live on Granite Road.

WALLACE—HUDSON

● The home of the officiating clergyman, Rev. James Hood, 465 Grafton Street, Victoria, was the scene on Saturday evening, July 29, of the wedding between Lillian Hudson, only daughter of Mrs. Mabel Hudson and the late Mr. George Hudson, Victoria, and Sapper Richard F. Wallace, R.C.E., son of Mr. and Mrs. A. Wallace, Nelson, B.C. Wearing a grey dressmaker suit with pink flower headdress composed of pink roses, and a corsage bouquet of gardenias and Talisman roses, the bride was attended by Mrs. Bert Bryden, matron of honor, wearing a two-tone blue redingote. Sapper Ted Grantham, R.C.E., was groomsman. Following the ceremony a reception was held at the home of the bride, 1051 Victoria Avenue, where Mrs. Bert Abbot assisted Mrs. Hudson in receiving the guests, including those from out of town, Mr. and Mrs. Len Long and family, New Westminster; Mr. and Mrs. A. Connop, Vancouver. The honeymoon will be spent at Nelson, and for travelling the bride wore a black pinstripe tailored suit, with smart black hat and red accessories. Sapper and Mrs. Wallace will reside at 1051 Victoria Avenue.

● Mrs. Norbert O. Choquette, Stanley Street, has left to attend the marriage of her sister, Miss Simonne Bourgeois whose marriage to Arthur McCann takes place in Vancouver, Wash., this morning. Mrs. Choquette, who was accompanied as far as Spokane by Mr. and Mrs. George Dodson, will visit while away with her brother-in-law and sister, Mr. and Mrs. Joseph Gallipeau in Portland, Ore.

● Mr. and Mrs. Percy Jeffrey, Hall Mines Road, leave this morning for Vancouver where they have been called by the serious illness of Mr. Jeffrey's father.

Mr. and Mrs. G. Noel of Corra Linn have as guests, their son-in-law Major M. Harrison of Medicine Hat for two weeks leave and their daughter Mrs. Harrison, who has been with them on an extended visit.

Noted Soloist at Nakusp Church

NAKUSP, B.C.—United Church held special services on Sunday Aug. 15, the Rev. Dovey conducted the evening service speaking on "Prayer". Special soloist for the evening was Dr. Rodger Manning, noted musician and soloist of the University of Saskatchewan.

"The British Children's Prayer" was his first solo and "Through the Night" the second. The Church was filled to capacity to hear the noted singer.

Creston Review Wins Trophy for Fourth Time

CRESTON, B.C., Aug. 14—Canadian Weekly Newspaper Association officials announced today that the Creston Review won the Edey Memorial Trophy, representing the best editorial page in its class throughout Canada, for the fourth successive year.

Official comment from the Managing Director of the Association was ". . . this is an honour of which you and your staff may well feel proud."

In the best-all-hound newspaper competition the Creston Review placed fourth, but was high in the news value category.

Since the Eedy Memorial Trophy has been in competition five years ago, the Creston Review has won it 1941-42-43-44.

The Canadian Weekly Newspaper Convention is now in progress at Winnipeg.

The Creston Review is owned and edited by Herbert K. Legg, and has one of the youngest staffs in Canada.

Street Cars Nearly Double Passenger Totals During July

Street car passenger totals and receipts in July were almost double those of July 1943 it was reported to City Council Monday night. Passengers carried last month totalled 62,087, while last year 39,017 passengers were carried. Receipts this year were $2585.25 compared to $1667.95 last year.

Of the total passengers, 50,136 were adults and 11,951 were students. Last year passengers carried included 34,851 adults and 4166 students. Receipt from adult fares were $1448.75, students $320.25, compared to $1042 and $110 last year.

Nelson's city payroll for July totalled $22,231.02.

Induction Service for New Minister at Nakusp

NAKUSP, B.C.—Induction service was held Wednesday evening in the Robertson United Church for the new minister, Rev. W. Dovey. Rev. G. Boothroyd of Nelson conducted the service. Flt. Lt. W. J. Keys, who is holidaying with his parents, sang to a most appreciative audience "Beside Still Waters" accompanied by Miss R. Hamer at the organ. After the service refreshments were served in the Sunday School rooms

WOMEN'S RED CROSS WAR WORK

Following are the finished articles received at the Nelson Red Cross Work rooms during the last week;

Blewett City Plant—6 child's combinations and 8 pairs service socks.

West Arm Auxiliary—14 pairs of service socks, 1 balaclava helmet, 1 ribbed helmet, 3 aero helmets, 2 sleeveless sweaters, 1 boys sweater and 24 handkerchiefs.

Mrs. Williams' Group: 1 pair pyjamas, 10 property bags and 2 boys shirts.

Purchases Butcher Business in Kaslo

KASLO, B.C.—Eric Aldous has purchased the P. Burns butcher business in Kaslo, where he has been manager for several years.

PENSHURST, England (CP)—Lord Hardinge of Penshurst, Viceroy of India before the First Great War, died at his home in this Kentish village at the age of 86. In 1912, two years after becoming Viceroy, Lord Hardinge was severely injured in an attempted assassination at Delhi.

Gnr. Davidson of Shoreacres Wounded

Mrs. C. B. Davidson of Shoreacres, received word on Saturday that her youngest son, Gunner Hugh L. Davidson, had been wounded in action on August 5.

Gunner Davidson left Nelson in the original 111th Battalion, going overseas in 1939. It is presumed that he was on the Normandy battlefront when the accident occurred.

Sgt. C. W. A. Barwis, Well Known Here, Again in Nelson

Sgt. C. W. A. Barwis, well-known in Nelson where he was twice stationed with the Provincial Police, is again in the Nelson Divisional Office, relieving Staff Sgt. H. N. Wood, who is on leave.

Sgt. Barwis left Nelson two years ago this Summer and has since been serving at Cranbrook, Peace River and lately at Vancouver. From the Summer of 1936 to the Fall of 1938 he was District Corporal here, and from the Summer of 1939 to the Summer of 1942 he was in charge of the West Kootenay District.

TODAY'S MENU
Broiled Liver
French Fried Onions
Scalloped Potatoes
Green Salad
Hot Biscuits
Coconut Orange Mousse
Tea or Coffee

Broiled Liver, French Fried Onions

1 pound lamb liver, sliced thin, 3 large sweet onions, flour, salt, milk.

Peel and slice onions ½ inch thick and separate rings. Let stand in milk ½ hour, then drain and dip in salted flour. Fry to golden brown in deep hot fat kept at a temperature of 360 to 370 degrees F. Meanwhile, remove skin and veins from liver, dip slices in bacon drippings and place on broiler rack 3 to 4 inches under heat unit. Broil only 4 or 5 minutes to the side. Season and serve surrounded by the fried onions. Serves 4.

COCONUT ORANGE MOUSSE

1 cup orange juice, ⅛ cup honey, ½ cup shredded coconut, 1 cup evaporated milk, 2 tablespoons lemon juice.

Remove seeds from orange juice, but do not strain. Add coconut cut into small pieces. Cover closely and let stand several hours, or preferably over night in a cool place. Add honey. Whip chilled milk stiff, add lemon juice mixture quickly. Pour at once into cold freezing trays and freeze. Makes 1 quart.

VANILLA BAVARIAN PUDDING

2 cups milk, 5 teaspoons gelatin, ½ cup sugar, ½ cup cream, 2 whites of eggs, 2 teaspoons vanilla.

Soak gelatin in 1 cup milk, boil rest of the milk and sugar, When boiling remove from fire and pour slowly on the milk that has been gelatin, and place on ice to cool. When cool and before it sets, mix in vanilla, the cream, and egg whites beaten firm. Mix well on ice until it thickens somewhat then pour into small or large jelly molds and place in refrigerator to set, about 1 hour. Serve with soft custard.

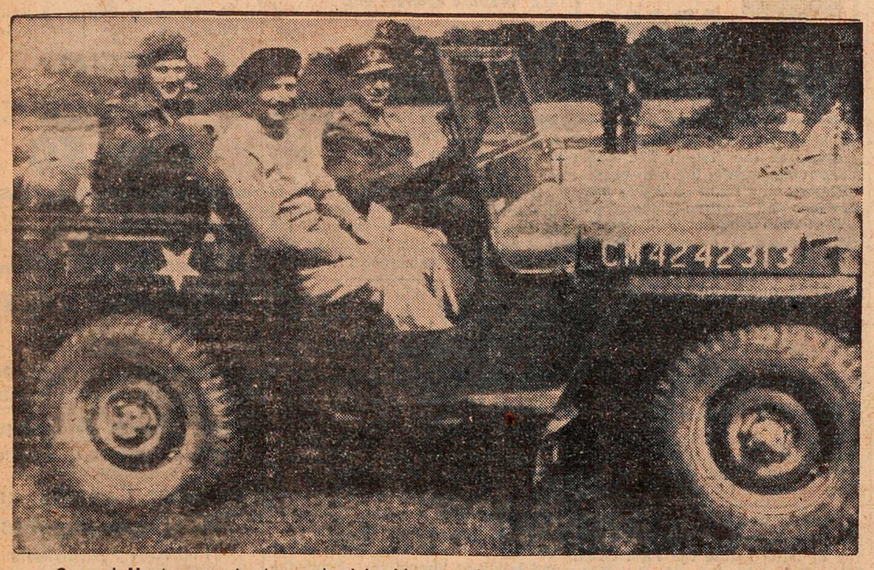
TODAY'S News Pictures



General Montgomery having arrived by his own plane to attend an army and air staff conference is driven off the field by Lt.-Gen. Crerar. (Canadian Army—W.I.B. Radiophoto.)

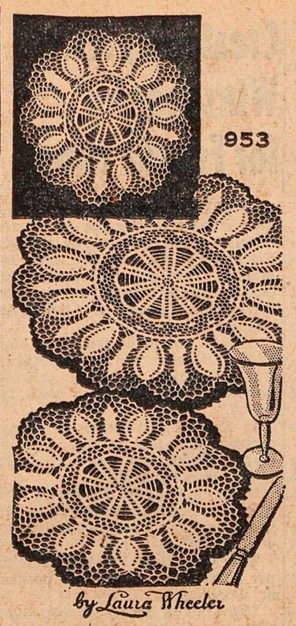
When boys with Canadian flashes talk their own language French folk get thrill, gather eagerly for conversation. Above Bayeux gendarmes chat with Montrealers Lac. N. A. J. Shower, left, and Lac. Jean Clermont; interested Frenchman on left watches. (R.C.A.F.—W.I.B. Radiophoto.)

QUEEN VISITS A. T. S.: The Queen paid a visit to the A. T. S. of Southeastern Command in England. During her tour she saw A. T. S. officers plotting with maps and compasses, and A. T. S. bakers at work. Here the Queen watches an A. T. S. girl wheel away bread for the oven.

SIX NIPS DOWNED IN ONE DAY: Holding up his fingers to indicate his one day score of Jap planes downed in June 19th air battle off Saipan Island, Lieut. Alexander Vraciu, U.S.N.R., is shown as he returned to his aircraft carrier. He is now the U.S. navy's top-scoring ace with 19 Japs to his credit.

CRACKS WORLD MARK: First American woman swimmer to crack a world mark in more than a decade, Ann Curtis, 18, of San Francisco, now is the unofficial holder of the 880-yard swim record. Ann negotiated the distance in 11:08.6 to crack the former world mark of 11:16.1, set by a Danish girl in 1937. Ann is shown above.

"CHIEF WREN PILOT": During preparations in England for invasion, Leading Wren Pat Turner, 21, earned the unofficial title of "Chief Wren Pilot" at a West coast port where she piloted flotillas of invasion craft up and down the river near the port. She joined the service four years ago without any knowledge of boat handling. Now she is coxswain of a large craft. She is shown at the wheel of the craft.



by Laura Wheeler

HEIRLOOM CROCHET: This doily set, inspired by a popular design of antique glass, will make any table a thing of beauty. It's heirloom crochet.

Classic design makes choice crochet. Pattern 953 contains directions for woolies; illustrations of stitches; list of materials.

Send 20 cents for this pattern to The Nelson Daily News, Needlecraft Dept., Nelson. Write plainly pattern number, your name and address. Patterns will be mailed to your home in about 15 days. There may be some further delay in delivery because of the large increase in orders during the present season.

Marion Martin

TODAY'S PATTERN: A neatly tailored skirt and jumper with a variety of fresh blouses. Pattern 9092 makes a thrifty wardrobe for your active little sprite.

Pattern 9092 comes in sizes 2, 4, 6, 8, 10. Size 6, jumper, 1⅜ yds. 39-in.; blouse, ¾ yd. 39-in.; skirt, 1 yd. 54-in.

Send 20 cents for this pattern to The Nelson Daily News, Needlecraft Dept., Nelson. Write plainly pattern number, your name and address. Patterns will be mailed to your home in about 15 days. There may be some further delay in delivery because of the large increase in orders during the present season.

Market Trends . . .

LONDON, Aug. 15 (CP).—The stock market steadied following news of Allied landings in Southern France but prices finished mostly lower.

NEW YORK—Low-priced motors and other stocks with peace possibilities attracted bids while some war-benefitted issues suffered from mild liquidation. Canadian Pacific slipped but other Canadian issues held firm.

MONTREAL—Brisk selling in C.P.R. featured today's session. A drop of 1⅜ to 12 followed the Company's decision to defer an expected dividend. The industrials group was active in mixed trading.

TORONTO—Stocks weakened moderately while trading in comparatively light volume. The gold group posted mixed gains and losses and some of the base metals displayed mild weakness.

VANCOUVER—Bidding on mines and oils was down.

WINNIPEG—Favorable news from the Southern France invasion beaches stimulated the rye market with prices climbing 2⅜ cents at times.

CHICAGO—The grain futures market took the new invasion news in stride and concentrated instead on the drought-dwindling corn crop. Oats and rye gained more than 2 cents at times and barley was up almost as much. Wheat rose in sympathy. Wheat closed ⅛ lower to ½ higher than the previous finish, September $1.53⅞, oats were up ⅛ to 2⅛ cents, September 71¾-⅞, rye was 1⅜ to 2 cents higher, September $1.05⅞-1.06, and barley was up ⅞ to 1½ cents, September $1.12⅜.

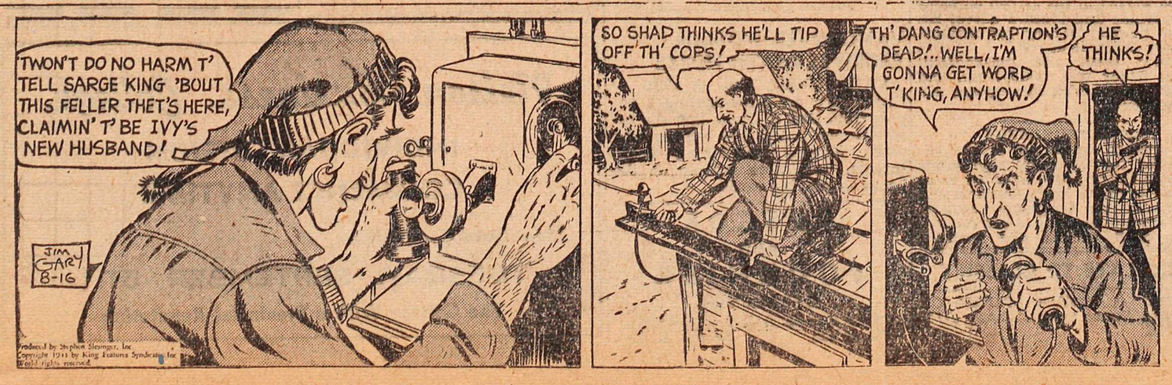
KING OF THE ROYAL MOUNTED



Browns Nose Red Sox to Maintain Lead

BOSTON, Aug. 15 (AP)—St. Louis Browns, paced by a grand slam swat by Shortstop Vernon Stephens, defeated the Red Sox 6-5 today and maintained their American League lead of 6½ games. The victory also gave the Brownies an even division in their four-game series with the Sox.

Yank Terry sailed along nicely, apparently secure with a 5-0 lead, until the fifth when the Brownies scored one run. But in the sixth the roof fell in on Terry, when the Browns scored five runs on four hits and two passes. Milt Brown led off with a walk, Don Gutteridge scratched a double into left and George McQuinn walked. Then Stephens drove the first pitch into the left screen for his second grand slam home run of the year against the Sox.

Red Barrett replaced Terry, and was greeted by Gene Moore's single. Moore scored the winning run on Al Zarilla's double.

St. Louis	6	8	1
Boston	5	7	0

Jakucki, Shirley (2) Caster (6) and Mancuso; Terry, Barrett (6) Ryba (7) and Wagner.

YANKS BEAT WHITE SOX

NEW YORK, Aug. 15 (AP)—Wild Bill Zuber, who hadn't started a ball game since July 22, when he defeated Chicago White Sox, hurled New York Yankees to another victory over the Sox today, 3-1. He allowed only three hits. Frank Crosetti homered for the winners in the second, his first of the year.

Chicago	1	3	1
New York	3	7	1

Haynes and Tresch; Zuber and Hemsley.

NEWHOUSER WINS 19TH

PHILADELPHIA, Aug. 15 (AP)—Hal Newhouser joined his teammate, Dizzy Trout, as a 19-game winner today when Detroit Tigers defeated Philadelphia Athletics 3-2 in 11 innings, squaring their American League series.

Newhouser went in as a relief pitcher in the eighth, when the A's scored twice, tying the score. He became the winner when Joe Orengo led off the 11th with a single, advanced on a sacrifice and a scratch hit by Roger Cramer, and scored on a long fly by Eddie Mayo.

Detroit	3	6	2
Philadelphia	2	9	2

Overmire, Trout (8) Newhouser (8) and Richards; Hamlin, Berry (9) and Hayes.

ONE RUN IN 12 INNINGS

WASHINGTON, Aug. 15 (AP)—Ken Keltner's single in the 12th inning gave Cleveland a 1-0 American League victory over Washington tonight, breaking up a pitching duel between Al Smith and Dutch Leonard.

Keltner's blow scored Orris Hockett who got on base on Johnny Sullivan's error and advanced to second on Pat Seerey's sacrifice, the first Cleveland runner to get past first.

Cleveland	1	4	2
Washington	0	4	2

Smith and Rosar; Schlueter (3), Leonard and Ferrell.

Pirates, Reds Neck and Neck in National

PITTSBURGH, Aug. 15 (AP) — Pittsburgh Pirates made it nine in a row by defeating Boston Braves, 7-5, here tonight, sweeping a series of five games.

A three-run rally in the eighth inning provided the Bucs, hotly engaged with the Cincinnati Reds in a battle for second place in the National League, with the margin of victory.

Boston	5	7	0
Pittsburgh	7	10	0

Cardoni, Hutchinson (4) Hutchings (8) and Hofferth; Cuccurullo, Rescigno (2) Strincevich (9) and Lopez.

DE LA CRUZ ENDS WITH WIN

CINCINNATI, Aug. 15 (AP) — Tommy de la Cruz pitched and won his last game for Cincinnati Reds tonight, defeating New York Giants 6-3.

Stan Musial singled to score two runs, and a third was scored on an outfield fly. Tom Warren replaced Webber during another three-run Cardinal uprising in the fifth and blanked the champions in the last three innings.

Brooklyn	3	6	2
St. Louis	6	5	1

Webber, Warren (5) and Owen. Wilks and W. Cooper.

JAYS THROUGH AT CHICAGO

CHICAGO, Aug. 15 (AP)—After losing the first three games of the National League series, Chicago Cubs captured an abbreviated finale, 4-1, from Philadelphia Phils today. The game was called after six innings because of rain.

The game ended the Phillies' 1944 chores in Chicago, giving them a record of eight victories and three defeats here.

Philadelphia	1	6	0
Chicago	4	10	2

Gerheauser, Karl (5) and Peacock; Vandenberg and Holm.

The 19-year-old Cuban is to leave Saturday for Miami, Fla., where he said he would enlist in the Armed Forces.

His victory kept the Reds deadlocked with the Pittsburgh Pirates in second place in the National League, since the Pittsburgers defeated Boston tonight. It also marked a clean sweep for the Reds over New York in their current four-game series.

New York	3	9	1
Cincinnati	6	9	1

Feldman and Lombardi; De la Cruz and Mueller.

CARDS WIN FROM BEHIND

ST. LOUIS, Aug. 15 (AP) — St. Louis Cardinals came from behind to win their fourth straight game from the last-place Brooklyn Dodgers tonight, 6-3. Ted Wilks, the National League's leading pitcher, won his 11th game of the year against one defeat.

Les Webber blanked the Cardinals for two innings, but opened the third with three consecutive walks.

Yellowknife Boom "Beyond All Expectations"

EDMONTON, Aug. 15 (CP) — More than 72 Canadian mining concerns—mostly organized in Eastern Canada—have prospectors and executives in the Yellowknife District searching for gold, L. E. Drummond, Secretary-Manager of the Alberta and Northwest Chamber of Mines and Resources, revealed today.

"The Yellowknife boom is beyond all expectations. It has gone ahead by leaps and bounds despite the government's restrictions on allotting men for gold mining. The great development has taken place since March of this year when the giant Yellowknife firm made important discoveries," he said.

SPORTS

Nelson Wins Medal Honors With 2 Round Total, Six Under Par

SPOKANE, Wash., Aug. 15 (AP)—Byron Nelson, the Toledo, O., shotmaker, and his buddy, Harold McSpaden of Philadelphia, ran one-two today in the 36-hole qualifying trials of the 1944 United States Professional Golfers Association Championship.

Nelson, the tournament favorite, was in the last threesome to finish and he took the Manito Course to pieces with a 69 to win medal honors with a two-round total of 138, six under par. His score today was the same as yesterday—36 on the front nine and 33 on the back stretch. It gave him a two-stroke bulge over McSpaden, who had finished earlier with two 70's for a 140.

There was a play-off for last place among the 32 qualifiers for the match-play rounds starting tomorrow. The two who had to fight it out were friendly rivals from Salt Lake City—John Geertsen and George Schneiter. They had tied at 149. Schneiter beat his friend on the second extra hole to stay in the tournament.

Harry Cooper of Minneapolis three-putted himself out of the tournament on the 18th hole of his round today.

Cooper wasn't the only big timer left out. Olin Dutra of Los Angeles former United States Open and P.G.A. champion, failed to qualify.

Trailing Nelson and McSpaden was Sam Byrd, the ex-New York Yankee baseball player, who brought in neat 69 to couple to his opening round 72 for a 141.

He shared a third-spot tie with Joseph Zarhardt of Norristown, Pa., one of the surprise performers.

Willie Goggin, White Plains, N.Y. was an easy qualifier at 70-72, just ahead of Craig Wood of Maroneck, N.Y., who holds the United States Open title for the duration. Wood made a fine comeback after yesterday's 74 to click with a 69 for his two-round 142.

The first-round leader, Fred Anon of Mammaroneck, N.Y., who topped the field yesterday with his 68, four strokes under par, found his putter failed him in the pinches today. The result was a 40 on the outgoing nine and 37 coming home against par 36-36—72 but his 148 enabled him to qualify easily.

Novelties Seen in Junior Board Softball Fray

ROSSLAND, B. C., Aug. 15 — Bolstered by an imported pitcher, the Trail Junior Chamber of Commerce scored a 17-9 win over the Rossland Junior Board of Trade in a softball game at the Rossland Park Friday night.

Long distance hitting was the order of the day, with Brooks of Rossland and McGibney of Trail showing the way. The outfielders had a big night, fine catches were made by both sides, particularly Hahn of Rossland and Evans of Trail. There were also several varities of running and rolling not previously considered orthodox in the game, Clegg of Rossland showed outstanding possibilities in the latter. Lineups were:

Trail—Smith c, McGibney, p; Horswill, 1b, Santano 2b, Causey 3b, Marshall ss, Vance rf, Armstrong cf, Evans lf, Creighton cf.

Rossland—Welykochy c, Davidson p, Nicholson 1b, Corfield 2b, Woodhouse 3b, Brooks ss, Rolph rf, Hahn cf, Clegg lf.

Hume, Boeings Still Tied When Game Called

Boeings and Humes local softball squads were still all tied up with their city final playoffs at the Recreation grounds Monday evening, when with the score tied six-all at the end of the fifth, Umpire-in-Chief Walt Trozzo called the game on account of poor light. An otherwise close game with plenty of nice fielding was continually spoiled with squawking and interruptions over the Umpire's "calls." The largest crowd of the season was on hand and was about evenly divided in support of the two teams.

The Boeings scored two in the first two in the second and two in the fifth. The Humes scored three in the first, two in the third and one in the fourth. The Humes were charged with four errors, and Boeings with two. Boeings collected four hits off Les Trainor on the mound for Humes. Hume touched Wally Collins for four hits and Rusty Gibbon one. Les Trainor hit the only big one in the short game a three bagger but he was left at third when Denis Ball flied out in the Humes' last half of the fifth.

Scorers for Boeings were Dinsmore, with two, Nash, E. Gibbon, R. Gibbon and Collins one each. For the Humes Maglio led with two runs, Culley, Seaby, VanKoughnett and Leinweber one each.

Batteries were Hume—Trainor and Seaby; Boeings, Collins, R. Gibbons, and E. Gibbon.

Umpires were Trozzo and Chrishop. Scorer was Slim Porter.

Next game of the series is slated for Wednesday at 6:30 sharp, and both teams have agreed to a seven inning game so as to avoid future argument.

Greenwood to Mark Labor Day

The City of Greenwood is again making plans for its annual Labor Day celebration on September 4.

Baseball, fastball, races for men women and children, with novelty races will feature a full day's program of sports, culminating with a dance in the evening. At night a grand drawing will take place when over 100 prizes will be distributed.

The celebration is held under the joint sponsorship of the Greenwood Board of Trade and the Red Cross the proceeds going to the latter organization.

The first newspaper was probably the Roman Octa Diurna in 69 B.C.

JAPANESE WOMAN DIES AT NEW DENVER

NEW DENVER, B.C., Aug. 15 — Mrs. Kyuichi, who came to New Denver from Mission, B.C., in April, 1943, died in the sanitarium here this morning. An inquiring found that her death resulted from suicide by hanging while of unsound mind.

Big Bend Highway Now Open for Travel

The Big Bend Highway is now open for travel the Department of Public Works announced here Tuesday. The temporary repairs on the part of the road that was washed out have been made and traffic has been resumed. The repaired section has a restriction load limit of eight tons. The second and heavier washout, which took out about 300 feet of roadway, occurred Thursday.

BATHURST, Gambia (CP)—Yellow Fever Inoculations now confer more enduring protection than formerly—four years instead of two—and the Inoculation Against Yellow Fever Ordnance has been amended accordingly.

Interpreting

The War News

By KIRKE L. SIMPSON
Associated Press War Analyst

Pinched now between Allied forces in Normandy and in the French Riviera, Hitler's clutch on all France from the English Channel to the Mediterranean and West of the Seine and the Rhone Rivers is in process of being torn loose.

There were intimations that a sweeping German retreat in the West to shorten defence lines and conserve dwindling reserves might already have begun, thus accounting for the surprising lack of opposition to the Allies in the South when the first waves hit the beaches.

Nazi reports placed the scene of operations between Toulon and Nice with its centre of gravity along a 30-mile strip of Coast between St. Rafael and Cap Dramont.

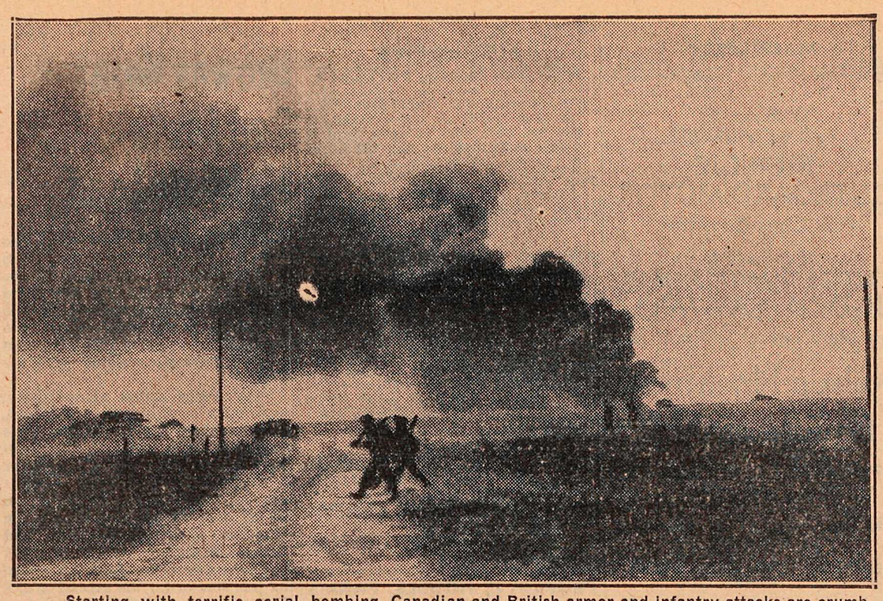
That would cover the better landing sites on the French Riviera Coast, at best a difficult region for a major invasion effort. Beaches are narrow and backed by sharply rising mountains. Even enemy token resistance would have proved costly in Allied casualties. That makes it all the more significant that there was no organized effort to beat back the invasion drive and that residents of the region reported the Germans had been pulling out for days, taking heavy portable guns with them.

Despite the obvious physical difficulties confronting Gen. Wilson's troops behind the Riviera beaches, there are certain other definite advantages in the Allied selection of that theatre for the stroke rather than farther Westward in the Rhone Delta.

For one, the invasion of the French Riviera is certain to have an immediate impact on the German defensive deployment in Italy.

It is only in Italy that troops could be found to bar the road from Southeastern France into the Italian plains in rear of the Gothic defence line above the Arno. And there is every evidence that Gen. Alexander, Allied Field Commander in Italy, is shifting his forces for a new smash at the Gothic Line.

Another advantage gained by the Allies in picking the Riviera site is the scope and strength of French Maqui resistance to the Germans in that region. French underground forces have all but dominated the mountainous area East of the Rhone.



Starting with terrific aerial bombing Canadian and British armor and infantry attacks are crumbling and forcing enemy to fall back towards Falaise.

Alexander Tells Men Big Drive Coming

WITH THE EIGHTH ARMY IN ITALY, Aug. 15 (CP)—The second phase in the Summer campaign in Italy will fall soon upon the German divisions that have gathered themselves together after the storms of May and June and made July and early August days of plodding unspectacular advance for the Allied armies.

Gen. Alexander himself presaged these forthcoming actions in the message to his troops that told of "an extensive regrouping in order . . . to proceed with the second and perhaps final stage of the destruction of the German armed forces in Italy." But the frontline soldier could feel them coming before his Chief told him so.

The great drive had lost its momentum. Most of the fruits had been plucked from one of the best-planned, best-executed battles of the entire war. The German who had ...ed 150 miles North from Rome in a month had been a stern enemy fighting masterful rearguard actions in excellent defensive country since the third week of June.

The logical layman's conclusion to be drawn from Gen. Alexander's words is that he is preparing his divisions for the battle of the Gothic Line.. Any great immediate land action must bring them into conflict with these mountainous positions.

To turn against the impending blow the Germans are known to have at least 26 divisions in Italy. Six divisions have been drawn to the theatre since the assault on the Gustav line began May 11 and more generous flow of reinforcements has been coming through the Brenner Pass recently.

MacPhail of Nelson Shoots Down Dornier on last Operational Trip

WITH A CANADIAN NIGHT FIGHTER SQUADRON—A blazing Dornier 217 crashing before their guns over Caen was a grand wind-up to the operational tours which FO. Alan MacPhail, Nelson, B.C., pilot, and his observer, FO. Pat Smith, Bannsley, Yorkshire, have just completed.

When the two Nighthawk Squadron Mosquito fliers returned from the operation, their Commanding Officer informed them their tours were over and they were posted to operational training units in Britain to teach newcomers the tricky of night fighting.

Flying wth the Nighthawks for several months, FO. Smith has seen lots of excitement on his operational sorties and has been credited with three "kills." He is the Nighthawks' highest-scoring observer, and the squadron, since D-Day has shot down 16 enemy aircraft.

One thing their last trip did for MacPhail and Smith was to show them what tremendous powers the Mosquito possesses when "the heat is on."

Before blasting the Dornier, MacPhail had chased a Junkers 88 night-fighter, but lost him in a cloud. Later, while circling to confirm the Dornier "kill", the same Junkers picked the Mosquito up and started a high-speed dog fight, MacPhail weaved and dived the "Mossie" through all the evasive tricks in the book, but the Junkers hung on until the Mosquito went into a vertical climb and peeled off at the top of it into a steep 400-m.p.h. dive which shook off the Hun.

Flying Officer MacPhail is the son of Mrs. Ernie MacPhail of Prince George and the late Mr. MacPhail, former accountant for Trail-Tadanac Hospital and one-time employee of West Kootenay Power & Light Co. Ltd. His wife and infant son live in Nelson. He attended High School in Trail.

To Experiment on B.C. Softwoods

VICTORIA, Aug. 15 (CP) — Research into possibility of compregnated wood from B. C. softwoods will be started soon by the B. C. Industrial and Scientific Research Council.

With special equipment attempts will be made to treat chemically, B. C. softwoods so they will be made to equal any hardwood now on the market.

IN MEMORIAM

'God walked in His garden on Monday morning and plucked one of His fairest flowers to keep for Himself, and now Patsie is at rest."

Forever loved and remembered: "Mom, Daddy and family; Mr. and Mrs. Eric Bainbridge; Mrs. Spence and Grandparents."

CARD OF THANKS

We wish to express our sincere appreciation for the many kind words and acts of sympathy extended to us in the loss of our loving husband and father. Also for the many beautiful floral tributes received at the funeral.
Mrs. A. S. Hunden and family.

Cary Grant and Barbara Hutton Have Splitup

HOLLYWOOD, Aug. 15 (AP) — A marital rift has occurred in the home of Cary Grant and his heiress wife Barbara Hutton Grant, and as a result the actor left home for two days, Perry Leiber, a representative of the RKO studio said today.

Lieber first announced that the couple had separated but later added that he understood that Grant returned home last night.

They were married July 9, 1942. Mrs. Grant was wed previously to Alexis M'Divani, Georgian prince, and Court Haugwitz Reventlow, former Danish nobleman.

Mrs. Grant, heiress to a fabulous dimestore fortune, has engaged recently in a controversy with Haugwitz-Reventlow over custody of their 9-year-old son, Lance, whom the father took to Vancouver in June.

Fleming Fined $60 at Cranbrook

Fines totalling $60 were imposed against Stuart Fleming, 27 who recently escaped from Burwash Industrial Farm in Ontario and was captured by Provincial Police in the Cranbrook District Sunday, when he appeared in Provincial Police Court at Cranbrook Tuesday on two charges.

He was fined $50 and costs for possessing a false registration certificate and $10 and costs for failure to have a driver's licence.

An 80-mile chase over rough cross-country trails of the Cranbrook District preceded his capture Sunday. A former resident of that District, he was well acquainted with little known trail routes through the area. He had been serving a sentence for breaking and entering at the Ontario jail.

To Study Use of Electricity Instead of Gas in Nelson

A recommendation by the Committee of the Whole Council that City Engineer H. D. Dawson in conjunction with the gas works and electrical superintendents bring in a report on the feasability of using electricity in Nelson instead of gas was approved by the City Council Monday night.

The Council also approved the recommendation that the gas plant retorts be renewed.

VANCOUVER WOMAN RECEIVES DEATH NOTES

VANCOUVER, Aug. 15 (CP) — City Police are investigating a report from Mrs. S. Crane that she received two notes, one Sunday, the other Monday, containing death threats. Both were written on the backs of playing cards.

ATTENTION HUNTERS

The following are extracts from the official order issued by the Administrator regarding small arms ammunition for this Fall:

The Allotment

(a) Every person possessing a registered Rim Fire rifle is entitled to 100 Rim Fire cartridges. Persons possessing more than one Rim Fire Rifle are still entitled to only 100 Rim Fire cartridges.

(b) Every person possessing a registered shot gun is entitled to 50 shot shells. Persons with more than one shot gun, irrespective of gauge, are entitled to only 50 shot shells. Withi nthis limit of 50 they may purchase some of each gauge.

(c) A person possessing both registered Rim Fire rifles and registered shot guns is entitled to a maximum of 100 Rim Fire cartridges and 50 shot shells, irrespective of the number of Rim Fire rifles and shot guns he possesses.

(d) No person with a registered Centre Fire rifle is entitled to Centre Fire cartridges for sporting purposes.

(e) Essential users are entitled to apply for ammunition for sporting purposes in addition to their allotment for essential purposes.

The Hunter

(a) No hunter is entitled to ammunition unless his firearms are registered.

(b) Application must be made to the Local Ration Board. The applicant must present both his gun registration certificate AND his ration book or card.

(c) If the Local Ration Board is satisfied with the application it will issue a Hunter's Purchase Permit for Small Arms Ammunition.

(d) Permits will be issued from August 15th to September 30th inclusive. No Hunters' Purchase Permits for Small Arms Ammunition will be issued after September 30th.

(e) Hunters may use the permits for purchasing ammunition from September 1st to December 31st, 1944, inclusive.
