Nelson Daily News

VOLUME 47 — 5 CENTS A COPY — NELSON, BRITISH COLUMBIA, CANADA—THURSDAY MORNING, AUGUST 5 ,1948 — NUMBER 89

WEATHER FORECAST

Kootenay: Cloudy with occasional showers and thundershowers Thursday, clearing Thursday evening. Winds light increasing to Northerly 20 Thursday afternoon. Cooler. High Thursday at Cranbrook 70, Crescent Valley 75.

Three-Day Liberal Session Opens

Over 4000 Gather in Lansdowne Park for Third National Convention; St. Laurent Leadership Favorite

By GEORGE KITCHEN
Canadian Press Staff Writer

OTTAWA, Aug. 4 (CP) — The pulse of this capital quickened tonight as more than 4000 visiting party supporters awaited the opening of Canada's No. 1 political show—the national Liberal Convention.

The big Liberal gathering opens at 10:30 a.m. EDT Thursday at the Coliseum in Ottawa's Lansdowne Park for three days of hard-hitting sessions. The party organization will be whipped into shape, a new platform will be hammered out in debate and a new leader chosen.

It will be a historic party occasion—the third national Liberal convention in history and the second since Prime Minister Mackenzie King, about to put aside 29 years of leadership, won the top spot in 1919.

The big item in convention gossip was the vital topic of the party leadership. A fresh flurry of speculation swirled about the three men who thus far have placed themselves in the running—External Affairs Minister St. Laurent, 66, Agriculture Minister Gardiner, 65, and Hon. C. G. Power, 60, Wartime Air Minister.

There was talk, too, about the possibility of late starters getting into the race. Those who might run include Heath Minister Martin, Transport Minister Chevrier, Trade Minister Howe, Finance Minister Abbott, Defence Minister Claxton, Premier Macdonald of Nova Scotia and Premier Garson of Manitoba.

BALLOTING SATURDAY

However, it was learned in authoritative circles that Mr. Garson will not be nominated. Instead, he will move the nomination of Mr. St. Laurent. Mover of Mr. Gardiner's nomination will not be decided until tomorrow.

There was an under-current feeling that Mr. St. Laurent would emerge from the balloting as the future Prime Minister. Mr. Gardsecond and Mr. Power third.

iner was believed running a close

During Thursday's opening proceedings, the delegates will hear speeches by party prominents, including Mr. King, and select election committees and determine procedure. Friday will be devoted to study of platform resolutions while the leadership balloting will take place Saturday afternoon.

On the streets, down its quiet thoroughfares and through its crowded hotels, Ottawa knew it had become a convention capital.

Big black headlines, predicting a swing or support to this or that candidate, blossomed out on the front pages of the capital's newspapers.

There was a heavy traffic of delegates, wearing big red-ribboned convention badges from hotel lobbies up to Parliament Hill and the rooms of Liberal members of Parliament.

There was leadership lobbying aplenty. Delegates committed to one or other of the candidates gathered in the traditional smoke-filled hotel rooms and sought to win support for their favorites.

Colin Campbell, one-time Works Minister in the Ontario Cabinet, opened "unofficial" headqaurters of a Gardiner-for-leader movement and threw a cocktail party for the more than 200 press and radio men assembling here to cover the convention.

"PAUL MARTIN" TRAIN

There was a report that Mr. St. Laurent was preparing to hold a luncheon for delegates and newspaper men and that party members pulling for Mr. Martin as a candidate were laying plans for a large scale cocktail party. A "Paul Martin" train was due to pull into Ottawa tomorrow morning with delegates from Western Ontario ridings.

Batteries of typewriters, desks and telephone and radio booths filled the over-sized press and radio quarters back of the Coliseum. Twelve microphones were lined up on the speaker's rostrum.

With no precedents to go by, the broadcasters made their arrangements with crossed fingers. When the last Liberal convention was held in 1919, radio was in its infancy. This time, the proceedings wil lbe broadcast over three CBC networks, the CBC's international short-wave service and 15 private stations. One United States network, the Columbia Broadcasting Corporation, has made plans for special coverage.

RESOLUTIONS

Aside from the leadership, the platform resolutions will be a major item. They will be based on motions sent in from Liberal groups across the country and screened by a 110-man Resolutions Committee which will be selected on the convention floor tomorrow.

Friday, the committee will place a selected group of resolutions before the convention with the recommendation that they form the new party platform.

Awarded Wage Raise

VICTORIA, Aug. 4 (CP)— In a majority decision released at the Parliament Buildings today, a Conciliation Board has awarded employees of Island Mountain Mines Company, Ltd., of Vancouver, across-the-board pay increases of 10 cents an hour.

The board recommended also that the employees members of the Wells Miners' Union, be granted two statutory holidays a year with pay.

It refused union requests for a close shop, and for a 30-day re-opening clause in its contract. In the latter, the majority report stated, it would not be practicable for the company or the union to re-open negotiations as to wages possible every 30 days.

ENVOYS DISCUSS NEXT BERLIN STEP

By EDDY GILMORE

MOSCOW, Aug. 4 (AP)—British, United States and French envoys conferred for three hours tonight on their next step in negotiations with Russia for a settlement of the Berlin crisis and perhaps East-West differences in all Europe.

Walter B. Smith, United States Ambassador, and French Ambassador Yves Chataigneau went to the British Embassy where Frank Roberts, special British envoy, received them.

It was reliably reported that at least one of the three embassies—which one was not specified—has already received the first official reaction to the talks with Prime Minister Stalin Monday night.

The three envoys possibly discussed whether to seek another appointment with Stalin in order to communicate to him the views of their home governments.

Reliable sources here said there is a good chance for "an agreement" between the Western powers and the Soviet Union but they did not specify its nature.

(See also story page 3).

RUSSIAN SPY SYSTEM RIVALS NAZI GESTAPO

Police Watch Over Execution of Soviet Orders IN 5 STATES

BERLIN, Aug. 4 (AP) — The Russians have built up a German spy system in Eastern Germany rivalling the Nazi Gestapo, says the "Neue Zeitung" official German language newspaper of the United States Military Government.

A political police section has been set up in the criminal police headquarters of each of the five states of the Soviet-occupied zone, the newspaper asserts. The purpose, it adds, is "to watch over Democratic reconstruction and the execution of Soviet orders."

This development parallels German reports of a tightening control of the telephones and mail in the Soviet occupation area since the Soviet military administration sealed off its zone. Germans say mail from the Soviet zone frequently bears a Russian censorship stamp.

"Neue Zeitung" said the German political police set-up has been greatly expanded and carries out the following secret orders for the Russians:

1. Watching over all persons who enter the Eastern zone from the West with a close questioning of the purpose of the trip.

2. Secretly registering all radio dealers, draftsmen and printers with a file on their political reliability and strict investigation of all "politically-unreliable elements."

The Roman Catholic bishops have protested to the Allied Control Council that many former prisoners-of-war were being rearrested by the Russians and used as forced labor.

MAKES PORT SAFELY

HALIFAX, Aug. 4 (CP) — The tiny yacht Whisper, reported missing on a voyage from Yarmouth to Chester, N.S., made harbor safely at Chester today.

NEWFOUNDLAND PRICES FOR MARGARINE

ST. JOHN'S, Nfld., Aug. 4 (CP) — If a pending Supreme Court judgment rules in favor of production and sale of margarine in Canada, a price policy may be formed on the basis of current prices in Newfoundland.

Margarine now sells here at 36 and 37 cents a pound, about half the price of butter in Canada.

Political observers here say that if the Canadian court approves margarine, it will become a Provincial responsibility and it is considered possble that Newfoundland's system will provide a working basis.

Freight Charges Refund Promised; Probe Adjourns

OTTAWA, Aug. 4 (CP) — The Prices Commission, concentrating mainly on technical aspects of the fertilizer business, today completed its examination of Canadian Industries, Ltd., and adjourned until next Tuesday.

Much of the questioning by H. A. Dyde, Commission Counsel, and members of the Commission dealt with inventory reserves, freight rate differentials and dealers' commissions.

H. Greville Smith, Executive Vice-President of C.I.L. explained that in certain areas the company will give dealers a refund on freight charges to meet competitive prices. The situation arises, he said, when a competitor has a plant closer to the buyer than the nearest C.I.L. factory.

$1.50 REFUND

Mr. Smith said C.I.L. was prepared to refund as much as $1.50 a ton on the freight charges.

When Prof. C. A. Curtis, Chairman of the Commission, described this as "essentially a discriminatory price practice" Mr. Smith disagreed. He thought it was a good thing for manufacturers to compete in each other's territory.

Mr. Smith said that the practice of setting up inventory reserves to protect the company against a decline in the value of its stocks had never led them to seek higher profits to provide the reserve.

He was followed on the stand by John Ritchie, an Ottawa feed merchant who is C.I.L.'s local dealer for fertilizer. Mr. Ritchie said he was offered fertilizers cheaper than C.I.L.'s products but only occasionally. He didn't think the lower price would last if he switched his business.

He presented figures showing that his margin of profit this year ranged from $4.48 to $4.90 a ton on fertilizers from which he had to pay railway charges. Asked if he had calculated what profit this left him, Mr. Ritchie replied:

"I don't think I'd better do that—I'd get out of the fertilizer business."

District Co-Op Council to Meet at Fruitvale

West Kootenay District Council of Cooperatives will meet in Fruitvale Friday, with some 40 to 50 delegates expected from all parts of the District. H. W. Herridge, M.P., will be a speaker.

Fruit growers, poultry and egg producers, dairymen, consumers and transportation men will be represented.

Main business will be to pass a constitution and to receive reports from delegates to the Kelowna conference last February of the B.C. Cooperatives' Union.

Mr. Herridge will outline legislation affecting cooperatives dealt with at the last House of Commons session.

Present officers are A. Crossley, President; Ralph Berry, Vice-President, and Mrs. H. Whitehorn, Secretary, all of Rossland. S. W. Edey of Nelson is Second Vice-President.

Report Polio Case At Cranbrook

VICTORIA, Aug. 4 (CP)—Poliomyelitis has taken a second life in British Columbia.

Death of William Charles, 32, of Fort St. John was reported today by the Provincial Health Department.

First death of the year was reported Tuesday. Victim was a nine-year-old Alberta boy visiting Aldergrove with his mother. He died in a Vancouver Hospital.

Another case has been reported from Cranbrook to bring the total for the year to 47.

At this time last year three persons had died and there were 83 cases under treatment.

VICTORIA, Aug. 4 (CP)—Gilbert T. Hatcher, 34, who has been acting as officer in charge of the Provincial Bureau of Economics and Statistics, today was appointed Director with James E. Brown as his assistant.

COMMUNISM IN UNIONS TOP DISPUTE ISSUE

May Challenge T.L.C.-Affiliated Leadership OPENS TODAY

OTTAWA, Aug. 4 (CP)—Communism in Canadian unions may develop as a front-line issue in the two-day meeting of Trades and Labor Congress of Canada groups on the lake shipping dispute opening here Thursday, labor quarters indicated tonight.

One Congress source predicted some T.L.C. unions might challenge the leadership of the T.L.C.-affiliated Canadian Seamen's Union, storm centre of the swirling lake controversy.

Four shipping companies have refused to sign new contracts with the C.S.U., contending it is Communist-ridden at the top level.

The Congress has given some apparent recognition to its claim by taking the unusual course of offering — with the C.S.U.'s consent—to do the collective bargaining on behalf of the C.S.U. with the companies.

SUPPORT DISPUTE

However, the Congress executive is strongly supporting the union in the dispute and has joined with it in condemning not only the companies but the Federal Government for failure to bring about a settlement.

The session opening here tomorrow was called by the T.L.C. with a view to devising ways and means of bringing about a settlement.

Those invited include affiliated T.L.C. unions across the country, along with Provincial Federations of Labor and local Trades and Labor Councils.

One spokesman said the Congress would welcome an airing of the Communist issue. Noted for its conservative views, the T.L.C. executive has been under considerable embarrassment as the result of the controversy over Reds in its affiliate.

"Fake" Story Still Elusive Murder Clue

CALGARY, Aug. 4 (CP) — An alleged "fake" newspaper story tonight remained an elusive clue in the 19-year-old murder of Calgary teamster-broker Thomas Charles Hall.

Hall's body was found in a mummified state under the bedroom floor of a "spook-ridden" cottage here July 10. Police say they believe he was bludgeoned to death in the ramshackle cottage in March, 1929, but the body was so well preserved identification was possible.

Latest information concerning the newspaper story was given police this week by William J. Gibbs of Grand Forks, B.C., close friend of the dead man.

Mr. Gibbs said he saw a story in a Calgary newspaper in 1929 or 1930 which told of the death of Hall and one of his three sons in a motor accident in North Dakota.

STORY FROM SLAYER

Police believe the story may have originated from the unknown slayer to hide the crime. However, repeated checks through the files of both Calgary newspapers have failed to uncover any trace of the story.

Police first learned of it from Hall's estranged wife, Mrs. Camilla Rose Hall, of Vancouver. Their eldest son, Fred Hall of Cadillac, Que., also told police that he had heard of the story from friends.

Both flew to Calgary to assist police investigations after the body was discovered by a new owner of the building. He was checking the house following complaints from his young children that "spooks" were present.

Gibbs also told detectives he visited Hall's home in Northwest Calgary on several occasions after his friend's sudden disappearance, only to find the cottage unoccupied. The doors were open and furnishings still intact.

Must Make Demand For Restoration of Lost Italian Lands

OTTAWA, Aug. 4 (CP) — The External Affairs Department in a statement today warned Canadians who lost property in Italy as result of the war that in order not to risk forfeiture of their rights under the peace treaty with Italy they must make a demand for restoration of such property before Sept. 15. The demand must be made to the Government of Italy and may be sent directly to: Ufficio Beni Allati E Nemici, Ministero Del Tesoro, Rome.

STOCKS CLIMB

NEW YORK, Aug. 4 (AP)—Stock prices climbed rapidly in late trading today after a halting early ascent. The market colsed with gains runnings from fractions to a top of 4 points in the most decisive advance in two weeks.

VANCOUVER, Aug. 4 (CP)—Officials of the Vancouver Merchants' Exchange today announced 85 deep-sea vessels will load here during August and September.

The announcement is held by shipping officials as indication that activity which has been quiet, will pick up.

Nelson Electricians Favor Strike Vote

Members 90.5 Per Cent Agreed; No Date Set; Deadlocked Over 35 Per Cent Raise; Meeting Tonight

Members of Local No. 1003 of the International Brotherhood of Electrical Workers, deadlocked with the City of Nelson over wage increases, voted 90.5, per cent in favor of a strike Wednesday afternoon.

No date has been set for the strike.

The strike vote was completed around 5:30 p.m., in the presence of A. C. A. Baker of Kelowna, Labor Relations Board officer.

Mayor T. H. Waters said Wednesday night that a meeting would be held Thursday night between the City and the workers in an attempt to avert a walkout.

The Union members chose to take a strike vote following rejection by the City Council of a unanimous award by the Conciliation Board through the Labor Relations Board, that all wages be raised 35 per cent.

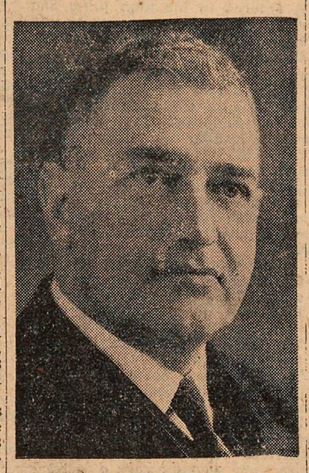
The Council has stuck to its original offer of a $15 increase.

Employees at the Nelson Hydro-Electric Plant, substation operators and line crews would be affected by a walkout.

Negotiations date back to February when the Brotherhood presented a schedule of wages to the Council applicable to expiration of their contract with the City April 1.

GOV'T ACTION ON NEWFIES HIT BY ANSCOMB

Provinces Should Have Had Power of Decision PEOPLES RIGHT



HON. HERBERT ANSCOMB
Minister of Finance

VICTORIA, Aug. 4 (CP)—Finance Minister Herbert Anscomb of British Columbia today attacked the Liberal Government at Ottawa for its "arbitrary action" in accepting Newfoundland into confederation without consulting the provinces.

Mr. Anscomb said confederation is a union of independent provinces under terms acceptable to each of the parties. Any change in that status, he said, should be a matter for the provinces to decide and not the Federal Government.

The people of Newfoundland were given the opportunity of deciding whether they wished to join in the Canadian federation. As a matter of right, Mr. Anscomb said, the people of the provinces should have been given the chance to say whether they wished to add another province to the Dominion.

The exact terms of the proposal should have been referred to the Provinces for their approval, he claimed.

"Mr. King is retiring; new policies not approved by the people are being fabricated and among these endorsed at the last general election was no proposal to enlarge the boundaries of the Dominion. In short, Parliament has no mandate to absorb Newfoundland.

"The citizens of Newfoundland were recently given an opportunity of expressing their will; why should an equal democratic process on such a large issue be denied Canadians," he declared.

Wage Disputes Close Met

NEW YORK, Aug. 4 (AP) — The world-renowned Metropolitan Opera today cancelled its 1948-49 season because, it said, demands for union wage increases could not be met. It would be the first time in 50 years that the "Met" has closed for a season.

The Opera Association said its decision was caused by "failure to reach agreements with all of the 12 unions representing the employees."

Shortly after the announcement, Local 802 of the American Federation of Musicians (A.F.L.) said it had reluctantly withdrawn demands for a wage boost in an effort to reach a settlement with the opera. This union said the only point it had continued to insist on was establishment of unemployment insurance and old-age benefits.

The opera's stars had not yet signed contracts for the next season. A spokesman for the Met said this was one matter which was held up by the wage disputes.

However, most of the soloists who sang last Winter were expected to be engaged again. Among them were Lily Pons, Helen Traubel, Lauritz Melchior, Jan Peerce, Lawrence Tibbett, Bidu Sayao, Ferrucio Tagliavini and Leonard Warren.

BUTTER STOCKS UP

OTTAWA, Aug. 4 (CP)—Stocks of creamery butter in nine Canadian cities totalled 27,600,000 pounds at Aug. 1, compared with 16,334,000 July 1 and 38,608,000 Aug. 1, 1947, the Bureau of Statistics said today.

Cheese holdings at Aug. 1 amounted to 31,053,000 pounds, compared with 21,599,000 July 1 and 26,918,000 Aug. 1 last year.

BEER PRODUCTION UP, LIQUORS DOWN

OTTAWA, Aug. 4 (CP) — The Bureau of Statistics today reported that production of beer in Canada jumped during last June.

The monthly output was 17,510,000 gallons, compared with 15,280,000 in May.

Manufacture of liquor in June decreased, however, to the lowest point since last September. Output was 2,100,000 proof gallons, compared with 2,260,000 in May.

Fire Forces 11 Families From Homes

EDMONTON, Aug. 4 (CP)—Isolated Blueberry at Mile 101 of the Alaska Highway is a pile of ashes tonight after a wind-swept forest fire destroyed the 11 houses in the hamlet. Only a nearly-abandoned army maintenance depot nearby and a repeater station of the Northern communication system are reported standing.

It is not known what the 11 families forced from their homes are doing for accommodation but the depot barracks may provide shelter.

Men and bull-dozers battled the flames, but when these spread to muskeg the fight became hopeless. Only rain could have stopped the smouldering muskeg. A back-fire at Mile 91 also was unsuccessful.

The communication system's repeater station was evacuated during the worst of the fire and delicate equipment was carried to safety. Somehow, though, the station escaped damage and vital land lines to the Yukon and Alaska were maintained. The system has stations every 100 miles along the highway to boost signals and keep them from fading.

Relief measures taken are not known in Edmonton.

FREIGHT RATE INCREASES BRING RECORD EARNINGS

OTTAWA, Aug. 4 (CP)—Reflecting the 21-per-cent freight-rate increase, the earnings of Canadian railroads reached record heights in May. But so did operating expenses, the Bureau of Statistics said today.

May earnings totalled $71,000,800, compared with $66,864,000 in May, 1947. Freight revenues were up 7.8 per cent — from $52,831,000 to $56,967,000 — despite a 5.9-per-cent reduction in tons carried and a 14.7 per cent drop in revenue-ton-miles. Average freight receipts increased from 1.018 cents a ton-mile to 1.288 cents. Passenger revenues fell from $6,802,000 to $6,369,000.

This was the other side of the picture:

Operational expenses increased from $58,576,000 in May, 1947, to $63,031,000. Net operating revenues were reduced from $8,288,000 to $7,970,000 and operating income from $4,752,000 to $4,337,000.

Political Spy Sets Up Office At Convention

By DOUGLAS HOW
Canadian Press Staff Writer

OTTAWA, Aug. 4 (CP) — They were getting their conventions crossed in Room 541 on the Chateau Laurier today. No. 541 is the headquarters of Karl Kenneth Homuth, politician, Sunday school teacher and political spy.

Although outnumbered 4000 to one and hopelessly vulnerable to recognition, the Progressive Conservative Member for Waterloo South cracked into the thick of the Liberal leadership convention during the day and set up business in political espionage.

Not even the mobile legions of little Chicago—the Liberal pepper group that wages regular parliamentary war on him—could keep him away.

MIGHT EVEN ATTEND

The boisterous Mr. Homuth confessed he was here to ponder convention conduct as a prelude to his own party's leadership tournament next month. He might even go so far as to attend the deliberations themselves, but mainly he'll operate from the hotel with both ears open.

People came and went from 541, some of them Tories, some tolerant grits, some reporters. There was nor formal collision with Little Chicago, but the conversation was takin gscrewy turns.

"Who do you like for the leadership?" a reported asked once.

"Diefenbaker," gravelled Mr. Homuth.

"No, no, that's next month."

"How many do you think will run?" someone pursued.

"Well," the spy offered, "Drew hasn't said one way or the other. Now Diefenbaker. . . ."

A reporter started out the door.

"Come on down to the lobby, Karl," he said. "We'll find some of the Little Chicago boys around."

"Not on your life," roared Mr. Homuth. "Not without a gun."

$6,475,000,000 FROM BANKS DURING JUNE

OTTAWA, Aug. 4 (CP)—Canadians, cashing checks against individual accounts, drew $6,475,000 from banks during June, the Bureau of Statistics said today. The total was an increase of more than eight per cent over the June, 1947, figure of $5,975,000,000.

The June totals in Western areas, with last year's comparative figures in brackets:

Prairie Provinces $1,129,456,000 ($1,085,181,000); British Columbia $575,660,000 ($412,230,000).

DIES FROM HEMORRHAGE

VANCOUVER, Aug. 4 (CP) — A. Les Morgan, bus drver who has given 10 blood donations to the Red Cross since 1942, died today when he failed to recover from a hemorrhage despite several blood transfusions.

Power Project Gets Under Way

Miners engaged on the Whatshan Lake power project are shown above driving a shaft which will take them to the level of a lower tunnel.

Photo shows solid rock which has to be blasted out. (See story on page two.)

At left, G. P. Moe, Resident Engineer, and H. Fletcher, Assistant Engineer in charge of operation for the B.C. Power Commission. At right, J. W. Scott, Superintendent for Miners' Western Ltd., and W. Mydaski, Mechanical Superintendent, in charge of tunnel project.—Photos by Albert Brown.

"TROPICAL ISLAND" IN BARREN NORTHLANDS TO BE INVESTIGATED

THE PAS, Man., Aug. 4 (CP)

Game officers of Manitoba and Saskatchewan are to investigate a "tropical island"—a reported oasis of grass and tall timber amid far Northern barren lands.

The island was discovered on an air trip West of the Hudson Bay port of Churchill. It is in a lake about one mile long and its trees are reported to be so large they cannot be cut with the light camp axes carried by natives and the few white travellers.

Pending investigation, actual location of the oasis is not being announced. But Harold Wells, supervisor of registered traplines for Manitoba, described it as being "not far North of Manitoba's Northern boundary."

This presumably would place it somewhere in the Southern stretches of the district of Keewatin, Northwest Territories.

Mr. Wells said a mineral spring or deposit must supply the vegetation with powerful fertilizer to permit such luxuriant growth in the short Arctic Summer—and on an ordinarily treeless waste.

Whether the timbered oasis has attracted odd strains of animal or bird life is also to be investigated.

Mr. Wells said the towering pines and other trees on the island have limbs which appear to start at ground level, some as thick as a man's waist.

Saturday is the deadline for entries in the "P.N.E. BEATY CONTEST"

Netherland Woman Scores 2nd Victory

Smashes World, Olympic Record in Hurdles; McFarlane in Semi-Finals

By JACK SULLIVAN

OLYMPIC STADIUM, Wembley, Aug. 4 (CP) —Fanny Blankers-Koen, The Netherlands' one-woman track team, scored her second victory of he 14th Olympics today, smashing world and Olympic records in the process.

OLYMPIC STADIUM, Wembley, Aug. 4 (CP)—Canada's Bob McFarlane of London, Ont., qualified for the semi-finals of the Olympic 400-metre run. McFarlane finished third in the second preliminary heat he ran today. In the first heat he was second, and just made the qualifying spot each time. Three qualifiers advanced from the second heats into tomorrow's semi-finals.

Bob's brother Don and Ernie McCullough of Calgary were eliminated in their heats, both finishing third.

Mrs. Blankers-Koen streaked over the 80-metre hurdles in 11.2 seconds to trim one-tenth of a second from the world mark she shared with Claudie Testoni of Italy.

First "double" of these games, 30-year-old Mrs. Blankers-Koen, mother of two small children, also is entered in the high jump and relay, giving her a chance to win two more gold medals before the Games end.

In another final, Kaj Rautavaara of Finland won the men's javelin-throwing title. Canada's Leo Roininen of Sudbury, Ont., failed to pass the qualifying round.

Capt. W. O. G. Grut, versatile Swedish artillery captain, became Olympic Pentathlon champion with a record score of 16 points in the five events. The Swedish team took the combined championship in this event.

Four Danish swimmers smashed the Olympic 400-metre relay record of 4:36, held by The Netherlands, by winning their preliminary heat in 4:33.5—only to have The Netherlands take it back again in 4:31.3.

The Canadian team was sixth with a time of 5:04.5 and failed to qualify.

Bill Porter of the United States won the 110-metre high hurdles. American runners placed 1-2-3 to score their second sweep of a track and field event.

Porter skimmed over the high sticks in 13.9 seconds for an Olympic record, subject to ratification, chipping two-tenths of a second off the previous mark of 14.1 set by another American, Forrest Towns, at Berlin in 1936.

Clyde (Smackover) Scott and Craig Dixon of the United States team placed second and third. Both were timed in 14.1, equalling the old record.

Bob MacFarlane's heat time was 50 seconds flat for the 400 metres, slow time for the big Londoner. He ran with a knee bandaged to protect an injured muscle.

He was in the lead for most of the race but on the last bend. H Kunnen of Belgium moved in front and stayed there to the tape.

ATHANS 16TH

Dr. George Athans of Vancouver, still suffering from a bad cold, placed 16th in the high diving competition at the end of four compulsory dives. Four optional dives complete the contest tomorrow.

Dr. Sammy Lee of Pasadena, Calif., led with 51.51 points and Bruce Harlan of Ohio State University, Olympic springboard champion, was second with 48.95. Dr. Athans had 38.41 points.

The diving will be completed tomorrow with four optional dives.

"My cold isn't an alibi," said the physician-diver. "I don't know if I would have done any better had I been feeling okay."

He has been bedded down since completing the springboard diving Saturday in ninth place.

Today's dives off the tower were the swan, back somersault, full-gainer and hand-stand.

V. Gyarmati of Hungary won the women's broad jump title. Miss Gyarmati won with 18 feet, 8¼ inches.

Elaine Silburn of Victoria failed to qualify in the preliminary of the women's broad jump. Mrs. Blankers-Koen, given a good chance to win by Stadium tipsters, withdrew to avoid the risk of aggravating an injury.

Miss Silburn's best jump was 17 feet, 1½ inches, against the qualifying distance of 17 feet, 4½ inches. At the Olympic trials in Montreal she made 17 feet, 7½ inches.

After her try today she said her leg, injured while training for the Olympic Games, was "okay, and I have no alibi."

"I was running fast enough, but couldn't get any lift on my jumps."

Canadas yachtsmen continued the racing program opened yesterday at Torquay, Devon. John Robertson and Dick Townsend of Hamilton, Ont., placed second in their Swallow Class contest; Paul McLaughlin of Toronto was ninth in the Firefly Class; and Bill Gooderham and Gerry Fairhead of Toronto 15th in the Star. All continued in competition.

Eric Jubb of Victoria and Peter Mingie of Montreal were eliminated from the 100-metre back stroke swimming, placing fifth in their respective heats.

Jack Wild of South Africa took the first heat in 1:08.5, Bruce Bourke of Australia the second in 1:11.3, and John Brockway of Britain the third in 1:0.

Jubb was in the South African's heat.

The 17-year-old from Victoria said afterward he was competing against "really mature men." Both he and Mingie were "pretty young," he told The Canadian Press. "But I'm glad I beat two guys anyway."

He was timed in 1:14.3.

Mingie, also 17, said only, "I put everything I had into it — and it just wasn't good enough."

All three of Canada's entrants in the preliminary heats of the 1500-metre run were eliminated in their first starts.

Bill Parnell of Vancouver withdrew from his heat while trailing far behind.

Jack Hutchins of Vancouver and Cliff Salmond of Victoria were earlier victims of elimination.

Parnell knelt at the side of the track apparently in pain.

He was assisted to a field bench and then to the dressing room by other competitors.

H. Ericksson of Sweden was the heat winner in which Parnell ran.

Hutchins placed fifth in his heat, won by W. F. Slijkhluis of Holland in a field of nine.

Micheline Ostermeyer of France won the women's shot-put title.

Her throw was 45 feet, 11½ inches. All the first six were Europeans.

Miss A. Piccinini of Italy was second with 42 feet, 11½ inches, half an inch ahead of P. Schaefer of Austria.

Jean Huhan of France today won the men's individual-foil Olympic fencing title.

Miss Harup broke her own record in winning the heat. Yesterday she was timed in 1:15.6 to beat the old mark of 1:15.6, made by Nin Senff of The Netherlands at the 1936 Berlin Olympics.

Ukelele Bill Smith of Honolulu and Ohio State University today won the men's Olympic 400-metre free-style swimming championship.

The 24-year-old Hawaiian, who supposedly had passed his swimming prime during the war, led 17-year-old Jimmy McLane of Akron, O., to the touch in new Olympic record time of 4:41.

In the heats last Saturday, young McLane with a time of 4:42.2 broke the old Olympic record set at 4:44.5 by Jack Medica of Seattle, in the 1936 Olympics. McLane's time in finishing second to Smith was 4:43.4.

Canada lost a chance for the basketball championship when the strong Brazil team defeated the Canadians 57-35.

It was the second reverse for the Canadians, who dropped a 37-36 decision to Hungary last Monday. They won their first games against Britain and Italy.

In earlier games today Italy defeated Britain 49-28 and Iran defeated Eirie 49-22. Belgium won from Chile 38-36 and the Koreans ran wild in conquering the weak Iraq team 120-20. Uruguay won from Hungary 49-31.

Giant Whatshan Project Under Way

12,000-Foot Tunnel To Carry Water To Powerhouse

260-FOOT SHAFT

(By A. BROWN)

B.C. Power Commission project at Needles, B.C., is finally beginning to take shape after almost two months holdup through floods and supply troubles. Under the direction of G. P. Moe, Resident Engineer, and H. Fletcher, Assistant Resident Engineer, work has started on the project which is intended to provide power for Vernon, Kamloops, and the North Okanagan. There will be a surplus of electrical district from the first development.

The project will necessitate the storing of all water over a draining area of 155 square miles in the Whatshan Lake area and the first development will raise the level of the water in Whatshan Lake, 14 or 15 feet which will mean the removal of the Summer camp operated by Coates Brothers to higher ground as the Power Commission is buying out all private land in the area of the project. The water is to be stored through means of a dam to be built ½-mile South of Whatshan. The water is to be diverted to the powerhouse by means of a tunnel over 12,000 feet in length. At the time of the second development it will mean diverting Barnes Creek into Whatshan Lake by means of a dam at Barnes Creek which will raise the level of the Whatshan water to a maximum of 30 feet above its present level. The original tunnel will be constructed large enough to handle the total amount of water for both developments, but it will be necessary to add an additional two units at the powerhouse. The initial development will produce approximately 30,000 h.p., the ultimate development will be approximately 55,000 to 60,000 h.p. There will be two units in the first development and two in the second.

There will be a permanent crew of five men at the plant when it begins operating sometime in 1951. Construction of homes for the crew and a staff house to take care of Commission men from Victoria is also under way.

2-MILE MAIN TUNNEL

The contract for the driving of the tunnel has been undertaken by Miners Western Limited who have been doing preparatory work on a 16-hour day prior to starting on the actual tunnel which will be started soon on a 24-hour, 7-day week, 3 shift basis. Time has been taken up building roads and camps and driving a shaft from the surface at the level of the Arrow Lakes where the concrete and steel powerhouse is to be situated. The shaft will travel down until it reaches the level of the first tunnel and then will continue into solid rock directly into the mountain for a distance of 1200 feet where this tunnel will meet a vertical shaft 570 feet deep running from the main tunnel which is to be slightly over two miles in length on a slight grade which will link the Whatshan Lake water with the powerhouse below on the Arrow Lake level.

Before the tunnel may be completed a coffer dam will have to be constructed at the Whatshan Lake to prevent water going into the tunnel where the miners are working to tap the bed of the lake. At this point a reinforced concrete intake is to be built and pipes will carry the water for a short distance into the tunnel. Reinforced concete will be used to bolster all points of strain in the tunnel and at the portals. The size of the tunnel is to be 12 feet in diameter. J. W. Scott, Superintendent and W. Mydaski, Mechanical Superintendent of Miners Western are in charge of the tunnel project.

The miners will also have to drive a vertical shaft about 260 feet in depth to meet the main tunnel running from the Whatshan Lake to act as a safety valve in taking up pressure of the water going through the tunnel. Both lower and upper tunnel are to be on a one per cent grade.

A Nelson firm has contracted to build homes and bunkhouses for the miners with a total of 16 units including four cottages, 10 bunkhouses and cookhouse and a washhouse under construction.

The project when completed will have cost approximately $5,000,000. Some of the equipment will be difficult to bring in as there is no direct rail service into the area. The only means of bringing in materials is by lake steamer, barge or road; and the engineers term it the worst place in the province to get supplies into. It is virtually impossible at present to get the transformers and generators in as the bridges and barges are not meant to handle such heavy loads. Generators weighing as much as 45 tons and transformers at 25 tons will have to be brought in. It is expected that some of these troubles will be overcome by the time they are needed.

The development will compare with others that have been built and others that are under construction at Bridge River, which is to supply the Vancouver area, and at Lake Buntzenn.

STUDIES POWER SOURCES

Mr. Moe, a veteran of many construction jobs where water and hydro-electric production are concerned, has travelled extensively the last three years studying sites for the possible production of power for the B.C. Power Commission. He has been with the commission for the last three years and before that with the West Canadian Hydro-Electric Commission before their being absorbed by the B.C. Power Commission. In 1921 he was sent to study hydraulic fill construction of dams at the Miami Conservation district near Dayton, Ohio. He also spent some time on the Mississippi studying the diking that had been done there. He was active in the Fraser Valley and the only dyke left standing above Fort Langley after the recent flood was one on which he was the engineer. Mr. Moe is directly responsible for the mapping out of the project at Needles and other plants throughout B.C.

Needles with a population in normal times of about 100 has increased to almost 150 with about 40 men working for the mining company and about 16 for the Commission. It is expected to reach about 300 before the plant is completed. Needles is situated about 76 miles Northwest of Nelson on the Lower Arrow Lake. The project is about three miles North of Needles and has extended the outskirts by almost two miles.

With the completion of the project it will be possible for the surrounding district that now depends on gas light to have the comforts that the people of most of the remainder of the province enjoy. The writer has spent 10 days on a farm in the actual area in which the power site is to be located and knows that it is almost impossible for anyone who has not seen the actual work being done to realize the immensity of this project. The coming of electricity to the valley may mean an increase in the amount of fruit production as it will be possible to put in storage and packing sheds that will compare with others in the Okanagan and the Fraser Valleys. Time alone holds the answer to the vast riches that may be tapped with the coming of the power and the possible construction of better roads over the Monashee. As the power line will run along the road from Needles to Vernon over the Monashee Highway, it will be necessary to keep the road open in the Winter in the event of power line troubles but that is in the future.

J. V. Rewers, Prominent in Fernie, Passes

FERNIE, B. C., Aug. 4 — J. V. Rewers, prominent Fernie citizen died suddenly this morning while holidaying at McBain's Lake, 32 miles from the city.

He was 55 years old.

Mr. Rewers was magistrate and mortician for many years, and was active in community affairs. He was a member of the Executive of the Fernie Board of Trade, Past President of the Associated Boards of the Fernie Rotary Club 1947-48, of Trade of Eastern B.C., President Past Master and Secretary Elk River Lodge No. 35, A. F. and A.M. He also held offices in that Grand Lodge of B. C. He was also a member of the I.O.O.F. and Rebekahs.

He left his widow, two daughters and two boys, Margaret of Fernie, and Edith, Doug and Jack of Vancouver, who will arrive Thursday by plane.

Walkers to Hold Meet in Canada

ST. CATHARINES, Ont., Aug. 4 (CP)—The International Walkers' Association—whose members habitually walk from six to 25 miles a day—will hold its annual convention here Sept. 1-8. It will be the first time the convention will be held in Canada.

Set Date for Tourist Publicity Bureaux Meet

VICTORIA, Aug. 4 (CP) — The 16th convention and 14th annual general meeting of the Canadian Association of Tourist and Publicity Bureaux will be held in Quebec City, Oct. 14-16, it was announced today by E. G. Rowebottom, Association President.

SUDBURY, Aug. 4 (CP)— David Van Norman, 22, a sampler helper at the International Nickel Company, was fatally injured Tuesday in an explosion of a molten matte in the convertor building of the company's smelter at Copper Cliff.

The blast occurred when a ladle of bessemer matte tipped on its side as a crane crew were preparing to move it away from a convertor. As the molten matte spilled on the floor it exploded.

SUMMER STORM LASHES NELSON; TREES FELLED

Lights Out in Rosemont for Hours; Park "A Mess"

20 MINUTES

Trees were blown down, a portion of the City was in blackness and a gas shed was tossed into the air Wednesday evening when the fury of a midsummer storm lashed Nelson.

A cloudburst, accompanied by a strong wind and electric storm, hit Nelson at approximately 7:40, breaking trees and throwing huge boughs 50 to 100 feet. The fury of the storm lasted only 20 minutes, and during the day almost half an inch of rain fell.

Trees at Lakeside Park were felled and communications at the park cut off completely.

"The park's a mess," a woman living nearby reported. A tree fell onto the concession booth, but damage was not extensive.

ROSEMONT LIGHTS OUT

Trees fell onto power lines and a transformer was struck by lightning, darkening Rosemont. In the area from McQuarrie Avenue, beyond the Rosemont bridge, lights went out at 7:50 and were still off after midnight. Substation officials however, said they expected to have the lines repaired before morning.

North Shore line was also out, but work crews expected to have it fixed by morning.

Tree tops were blown onto C.P.R. tracks and work crews were sent out to clear the road for the East bound train.

Wire communications into Nelson were tangled.

The home of A. G. Kemmerling, 515 Fifth Street, was struck by lightning. A bolt entered the bedroom, striking a bed lamp and dousing lights. The lamp shade was "burned to a cinder," Mrs. Kemmerling said, but fire did not break out.

At the City boat houses, a frame gas shed was picked up by the winds and tossed against a boat house. Damage to the boat house was not heavy.

COAST HOUSE STRUCK

VANCOUVER, Aug. 4 (CP) — Lightning struck a house in the electrical storm here early today, just a few feet from the window of the bedroom in which the owners slept.

With a crack "like an atom bomb" it knocked out power and telephone connections, did extensive structural damage to the kitchen and scared Mr. and Mrs. T. H. Ingram and their family of three out of their beds.

"It was terrific. Beyond description. Horrible. The whole place lit up and the noise was like a bomb, plane and heavy truck had hit us all at once," Mrs. Ingram said.

Time of the strike was recorded by the stopped electric clock at 1:53 a.m., at the height of the storm.

LOS ANGELES, Aug. 4 (CP) — "Worthless, eh?" said Georre Leingang as he had his named cleared yesterday of a theft conviction.

Leingang, 53, was convicted in 1944 after two men had charged he had sold them valueless oil property. Recently, however, a rich strike was made on the property and it now is valued at nearly $1,000,000.

Legion Youngsters To Be Guests at Children's Picnic

An afternoon of races, free ice cream and eats will feature a picnic for youngsters of Legion members at Lakeside Park Sunday. Organized by the Legion Entertainment Committee, the picnic is primarily for the children, who will be the guests of the adults.

It is expected that over 200 will attend the picnic.

Races will be strictly for the youngsters of 12 and under. Events will range from sack races to dashes.

Buying Important To World Trade

By The Canadian Press

If a Canadian sells an American a piece of lumber and gets back a crate of oranges, it obviously raises the standard of living of both.

One already has more than enough lumber, the other more than enough oranges. If they exchange, the Canadian can have his orange juice and the American can fix up his verandah.

That, in a capsule, is international trade.

Not so long ago countries thought most of virtue was in selling, and little of it in buying. Fortunately for the hopes of world trade, the view is changing, but there is room for further change, perhaps particularly in the United States which has been the classic seller and non-buyer.

It worked for her for a while for a variety of reasons. But now, partly because of the war and partly because of her past tariff policy, she is in effect virtually giving away many things instead of getting back goods for her citizens.

The current monthly review of the Bank of Nova Scotia deals at length with the United States tariff. It finds that she has made substantial reductions since her higher-tariff days, but concludes that she needs to make further changes if Canada is to maintain a high level of purchases from her.

"The principle of automatically extending tariff concessions to all other countries which follow the same practice is in itself highly desirable. If, however, it is to serve its intended purpose, abandonment or relaxation of strict bargaining procedures on the part of the United States appears to be essential."

MARKETS TUESDAY

New York Stock Exchange prices made a minor gain Tuesday, the Associated Press 60-stock average advancing .1 to 68.2. Toronto industrials gained about a half-point but golds, base metals and Western oils were slightly down. Montreal was narrowly irregular.

Grains were stronger in Chicago and Winnipeg. New York cotton closed 15 cents a bale higher to 15 cents lower.

Fined $25 for Reckless Driving

CASTLEGAR, B.C., Aug. 4 — James Larry Boyd of Trail was fined $25 and costs in Provincial Police Court at Castlegar Tuesday for reckless driving. He appeared before Stipendiary Magistrate S. Humphries.

The charge was laid following an accident at Blueberry July 23 when a car driven by Mr. Boyd left the road on a curve and was damaged to the extent of about $100.

that his headlights were not very

In his defence Mr. Boyd stated bright, and on approaching the curve he met a car with bright headlights which momentarily blinded him, and drove off the right hand side of the curve.

Fire Destroys Coast Warehouse

VICTORIA, Aug. 4 (CP)—Fire early tonight on the inner harbor waterfront destroyed a warehouse filled with machinery, an upholstery shop, and did extensive damage to a machine shop on Montreal Street.

Starting in the warehouse, owned by McKay and Cormack, Ltd., who recently purchased the shipbuilding yard of Falconer Industries Ltd., the fire razed the upholstery shop of Einar Tangas, next door, partly destroyed a small boat on the ways next to Wilby's machine shop and caused extensive damage to the plant of that firm.

The warehouse leased by Wagner, Stein and Green, was filled with machinery taken from dismantled warships. Loss could not be determined tonight.

Cinders from the blaze carried for two blocks and set fire to the roof of one house and grass and bush in a nearby park.

BLOOMINGTON, Ill., Aug. 4 (AP)—S. Clyde Hibbens, police chief, says he can't find any motorists doing courteous acts.

Hibbens agreed to judge a traffic courtesy contest. He prowled the streets with a $5 bill to give to a courteous driver.

VICTORIA, Aug. 4 (CP)—S. S. Princess Joan limped back to dock shortly after midnight this morning after she was caught by a gust of wind and fouled her port propellor in the inner harbor.

Cranbrook Attains Objective of City Operated Street Facilities

CRANBROOK, B. C., Aug. 3—City Works Committee objective of the past 18 months of complete city operated facilities for building and surfacing streets was attained in mid-July when the plant and city crews began operations which resulted in resurfacing several avenues and cross streets, and general patching. Weather and equipment shortages delayed the program which is now in full force.

Surfacing of most streets in the city has been accomplished over the past 15 years through the method of gravelling, then spraying with asphalt. It produced good temporary surface, but Winter weather and general wear have damaged some beyond repair. New methods of building have been undertaken with completion of the city plant.

A grizzly has been constructed to crush gravel from the city owned pit near the racetrack to specified size. The gravel is trucked a short distance downhill to the mixing plant. A 7000-gallon asphalt tank feeds warmed asphalt into a mixer with the gravel turning out mulch to specifications. The mulch is stockpiled further down the hill for use as it is required. Eight men handle these operations which utilize gravity, electricity and tractor power.

Street building crews take the mulch from the stockpile for specific projects. City owned street building equipment includes ditcher, bulldozer, grader, trucks for spreading mulch, and roller for the final pressing. Each of the avenues rebuilt required only a few days if the weather remained favorable. Emil Erickson, City Engineer, was in charge of assembling the plant and is supervising the road construction. Patching on less badly damaged streets is also being effected with the city-made mulch.

SECRETARY TO VISIT CANADA

OTTAWA, Aug. 4 (CP) — James Forrestal, U.S. Secretary of Defence, will visit Ottawa for two days starting Sunday, Aug. 15, Defence Minister Claxton announced today.

The visit will be "informal and will provide an opportunity for him to meet and discuss mutual problems with Canadian Cabinet ministers and senior defence officers," Mr. Claxton said.

The mutual problems could embrace such subjects as standardization of arms, provision of arms for Europe's Western Union and Northern defence.

OTTAWA, Aug. 4 (CP)—The CBC will broadcast some of the speeches from the Liberal, Progressive Conservative and C.C.F. Party conventions and will provide some special broadcasting time to the Social Credit Party during the next two months, A. D. Dunton, Chairman of the CBC Board of Governors announced today.

Queen Spends Birthday at Home

LONDON, Aug. 4 (CP)— The Queen today spent her 48th birthday at home in Buckingham Palace.

No official visit has been planned and the Queen has no public engagements. She decided to spend the day quietly with the King and Princess Elizabeth and Margaret.

Italy Ready to Lead In European Union

Is Willing to Surrender National Sovereignty in Hope for Peace

By JOHN P. MCKNIGHT

ROME, Aug. 4 (AP)— Italy is ready to take the lead in surrendering national sovereignty to bring about European Union, Foreign Minister Count Carlo Sforza said today.

The bearded, 74-year-old statesman urged union now as the only cure for the continent's post-war economic and political ills and the sole hope for peace.

To bring it about and to do away with "archaic frontiers and archaic customs duties," he declared in an interview, Italy is ready to "accept curtailment of its political sovereignty, even in the most unexpected aspects."

There was but one condition: "That others do the same."

A long-time advocate of unity, Count Sforza had his hand strengthened last week when the Senate, in approving the European recovery program accords, urged their early development into effective union.

Only Communists and fellow-travelling Socialists demurred.

The question of national sovereignty has been and is one of the primary stumbling blocks in the way of a united Europe.

"To say that European countries ought to federate," the Foreign Minister said, "is to say that they must restrain in their economic life useless competition and divergent efforts.

"It means renouncing progressive areas of sovereignty, customs barriers, freeing restrictions, anti-economic distribution of tasks and functions."

It is necessary "to reopen Europe to the (free) circulation of goods, of labor and of ideas."

Bread and work are not enough; "peace also is needed." And also that a European federation "must join together to defend where necessary, peace and our thousand-year-old civilization.

"The Association which binds the countries adhering (to E. R. P.) already is a basis of attraction toward that European unification which alone can assure peace.

BUYS AND WHYS BY Barbara Brent

A weekly shopping and information service for today's woman

MONTREAL, August 5th—What a mistake it is to overlook the importance of well-groomed hands and how much a beautiful shade of nail polish can contribute to hand beauty! And when you wear lipstick to match ... what a very "elegant" look it gives you! Do ask to see that gorgeous Fashion Pink set of Peggy Sage Nail Polish with Lipstick to match. You'll be delighted, as I am, with the versatility of Fashion Pink. It looks so very beautiful with the soft-spoken shades of summer — completely perfect with pastels! Miss Sage has chosen "Fashion Pink" to introduce her new "Sheer" polish. You'll simply have to see it to believe it ... it's translucent, "sheer" flattery for your hands! So look for PEGGY SAGE'S "SHEER" Polish and matching "SHIMMER" Lipstick ... in "FASHION PINK"!

Have you a Sink that stubbornly refuses to look white and gleaming? Scrub as you may, it still has that "tell-tale" yellow look. Chances are your drain is slow and sluggish ... grease and sediment stay in the sink too long and sink-cleaning is twice as difficult — takes twice as long. Here's what to do about this sad state of affairs:—Make a weekly habit of cleaning out drains with GILLETT'S DRAIN CLEANER. Fast-acting and thorough, just two tablespoons a week of this magical cleaner keep drains clear and free from clogging sediment ... save you time, trouble and plumber's bills. Just a few of the many good reasons why thousands of homemakers now use Gillett's Drain Cleaner!

Isn't it Lucky they *taste so good?* I mean Kellogg's Bran Flakes, for I can think of no pleasanter way to help keep you "regular"! In fact, Kellogg's Bran Flakes is one of the tastiest dishes I've encountered in many a moon! Actually, it's not *luck* — but good management that put the flavour, deliciousness and freshness, into Kellogg's Bran Flakes. They're an inspired breakfast food made by people who know what they're doing and how to do it! KELLOGG'S BRAN FLAKES are delicious and it's really true that "some of the people need Kellogg's Bran Flakes *all* of the time. All of the people need Kellogg's Bran Flakes *some* of the time." And how nice it is for us that they do *taste so good!*

Pickling Is Never Really a Picnic ... but it *can* be a *pleasant* job if you pickle in smaller batches ... with HEINZ WHITE VINEGAR. Don't try to be a one-day mass-producer — use only fresh young vegetables and fruits — be careful about your choice of spices, cooking kettles and containers ... and be very, very careful about sealing. And, remember — quick-pickling with Heinz Distilled White Vinegar insures your canning success, makes it much, much easier! Crystal-clear Heinz vinegar safeguards the natural colours of your choice vegetables and fruits ... its mellow, aged in wood pungency adds zest and piquancy to pickles. Reasons enough for stocking up on Heinz White Vinegar come pickling time!

Grand Cook-savers on a Summer day are "all-in-one" supper plates. *My* favorite is assorted sandwiches and fresh fruit tarts, along with a cool, shimmering mould of JELL-O — *any* of the seven famous "locked-in" flavors. Add fruits for a sweet mould ... vegetables when that fits better into your menu. Here's a delicious recipe for those times when your taste runs to something savory — Fresh-Vegetable Mould: Dissolve Lemon Jell-O in 2 cups hot water; add 1 tablespoon vinegar, 1 teaspoon salt. When slightly thickened, add chopped raw spinach, carrots, celery, onions, pickles — about 2 cups in all. Chill until firm. Deelicious! And like all Jell-O dishes, so *economical*.

When You're Buying Supplies for your country cottage ... or summer holiday ... do remember to take along one of the finest Summer playtime companions I know — Sno-Mist! This new-type powder spray deodorant is truly a "personal friend" when the August sun blazes down on you! For it's *so easy* to banish "perspiration gremlins", when you can slip into a dressing-room and spray your way to freshness *in a matter of seconds* ... with Sno-Mist! It's absolutely harmless to clothing ... and can be sprayed inside socks or shoes. So you can see why fastidious women make SNO-MIST their personal buyword. Men like it, too. Neat and quick as a wink!

This Is "Be Kind To My Budget" Week ... which is why I was so pleased with this tip from a friend about sewing-at-home. It certainly is a boon and a blessing to a shaky budget ... particularly when you make the most of fine fabrics with CORTICELLI NYLON SEWING THREAD! There's real value for your money in this strong, durable thread. It's elastic, you see ... so seams sewn with Corticelli have the necessary "give" to make them *extra*-long-wearing! And such a rainbow variety of colours to choose from! I know you'll like this wonderful thread. Make a note to yourself to look for it next time you're shopping ... Corticelli Nylon Sewing Thread!

Enthusiastic Note from a Reader, who writes: "My husband demands a breakfast cereal that's smooth and creamy, so I made up my mind to switch to 'Cream of Wheat' after reading your column. You're right! It is *smoo-oth!*" Yes, and 5 Minute "Cream of Wheat" is so very easy to prepare ... just five minutes of boiling make it completely digestible. And *good!* It's fairly brimming with blood-building Iron ... and it provides extra Calcium and Phosphorus for diets deficient in these elements. No wonder "CREAM OF WHEAT" is a favourite in thousands of Canadian homes ... it's so chuckful of nourishing goodness and "just-right" flavour, too!

Keeping Up-to-date on home appliances, I discovered these excellent Extension and Replacement Cord Sets of VINYLITE plastic. Another successful use for Vinylite plastics, I thought to myself. And, sure enough! These sets are everything they should be and more. Clean and neat as a whistle — and they stay that way! For they combine the longer-wearing, non-cracking and chemical resistant properties of Vinylite insulated wire ... with unbreakable, moulded-on, matching plugs. What's more, they're available in a wide range of matching colours to blend beautifully with your rug or baseboard. And, remember, the Vinylite Plastics trade-mark is your assurance of finest quality.

Your Eyes work hard for you every single day ... and even though you may not realize it, they're bound to get tired! That's why I suggest that you give them the care they deserve. Frankly, I use MURINE night and morning, and could hardly exist without the quick, welcome relief it brings ... helping to relieve that tired, used-up feeling when eyes get weary! Containing seven ingredients that blend perfectly with the natural fluids of the eyes, Murine cleanses and soothes delicate eye tissues gently as a tear. Just put 2 drops in each eye! Ask your Druggist for Murine today ... use regularly even before your eyes complain!

The Number of Swims and warm weather week-ends is limited. That's why I'm going to tell you again about Tampax and how you can keep so carefree and confident *every* day, you needn't miss a single one of them! As a matter of fact, by using this modern, *invisible* sanitary protection, you needn't take time out any time because of "do-nothing" days-of-the-month. Shower or tub in the morning ... a sunning at noon, and wear your briefest swim or sun suit, since Tampax, worn *internally*, eliminates the need for bulky pads, belts and pins and makes you feel so comfortable "those days" will sail by like any others! TAMPAX comes in three absorbencies—Regular, Super or Junior, at all drug and notion counters.

Summer Slipcovers — gay and lovely though they are — have a way of becoming a little soiled after a month or two. But this is no problem when you have ENERGINE Cleaning Fluid handy! Handy is the word for Energine! You'll find, as I have, that grease stains disappear like magic when you clean with this oh-so-effective cleaning fluid! It keeps slipcovers and upholstery—hats and dresses—stain-free and looking like new! And it's so easy to use — so very, very safe! Just follow the directions and it cleans without a trace of a tell-tale ring! Ask for Energine to-morrow ... it's a household buyword in literally thousands of Canadian homes!

British Leaders Talk Over Berlin Crisis

Robertson Gives Bevin First Hand Report; Constitution Race Begins

LONDON, Aug. 4 (Reuters)—Gen. Sir Brian Robertson, British Military Governor in Germany, went straight to the Foreign Office on his arrival here today from Berlin for talks with Foreign Secretary Bevin on the German crisis.

Sir Brian is expected to advise on the next step for Britain to take, in conjunction with the United States and France, after Monday's Berlin talks with Prime Minister Stalin, first move for a Four-Power settlement.

He may also discuss progress being made in the three Western zones of Germany towards setting up a parliamentary assembly by Sept. 1. This was decided on by the recent six-power London conference and described by the Russians as a "splitting move."

No plans have been made yet for Sir Brian's return to Berlin. Diplomatic quarters presumed he would stay in London until it was decided whether the reports of the Western envoys' meeting with Stalin made it worth while trying to secure full four-power talks on the crisis.

These reports, sent separately by each envoy to his own government, were said to be also under closest study in Washington and Paris today.

By LYNN HEINZERLING

BERLIN, Aug. 4 (AP)—Communists in Eastern Germany raced to beat the West today in producing the country's first post-war constitution. Both groups have set September target dates.

The Communist - controlled People's Council, after discussing vote draft for a "German democratic republic" yesterday, ordered it Constitution Committee to complete the document by the middle of September. It will then be laid before the Communist People's Congress for approval.

The Constitutional Assembly as proposed by the Western powers is tentatively scheduled in Western Germany for early September. The Communist constitution will be drawn up to include all Germany.

There were indications of a compromise solution to Berlin's currency snarl.

The German city magistrate and the Soviet-dominated Eastern Economic Commission have proposed to the West a compromise in which Soviet currency would be designated as the only legal tender for taxes while permitting Western currency to circulate in the Western sectors.

GUNMAN SHOOTS SELF IN FIGHT WITH POLICE

Takes Own Life After Attempt At Holdup Fails

TRAPPED ON ROOF

MONTREAL, Aug. 4 (CP) — Cornered in a North-end building as several hundred citizens dodged a fusilade of bullets, a 25-year-old gunman fatally shot himself today after a gunfight with police.

The man was unidentified.

He took his own life a few minutes after police, following him after an attempted holdup, surrounded him in a Berri Street building and sent out a call to headquarters for tear gas.

Police said the man entered a restaurant-grocery store owned by Damien Bertrand on Foucher Street and brandished a .38 calibre revolver. He told Bertrand to "hand over your money."

Instead Bertrand moved around the counter, kicked the gunman in the stomach. The gunman fired a shot which missed Bertrand. He then ran from the store with Bertrand's son, Francois, in pursuit.

Francois saw Capt. Gerard Brodeuer, of the City Police Traffic Department, on a motorcycle, and told him the bandit had attempted to rob his father. Brodeur called to him to stop.

Instead, the bandit again pulled his revolver, and told Brodeur "if you want to play, we'll play."

"I saw him facing me with his gun," Brodeur said. "I pulled mine and fired a shot."

The gunman shot back, and then ran into a lane.

Brodeur fired a second shot and the gunman dodged and climbed the stairs of a building to the third floor, and with his gun still in his hand, broke into the home of Mrs. Edouard Paquin.

"I was frightened," Mrs. Paquin said. "More for my 16-months-old baby than for myself. I told him to please leave us alone and slammed the door in his face."

Shutout in the shed again the gunman tried to make his get-away, and Brodeur fired another shot. Three radio patrol cars under Sgt. Stanley Wiseman, and four detective office cars, packed with heavily-armed plainclothesmen headed by Det.-Capt. Jos. Bedard were dispatched to the scene.

Brodeur then began climbing the stairs towards the gunman, still dodging the bandit's bullets. The desperado tried to reach the roof, and Brodeur told him:

"If you go any higher I'll shoot." The gunman's answer: "That's what I want."

The gunman took refuge behind a door, and fired two shots towards a surging group of policemen.

The shooting died down for a few moments, and then another shot pierced the silence. Policemen closed in from every side, with drawn guns, and found the gunman lying in a pool of blood, bullet through his temple.

MALAYA TROOPS REACH RED STRONGHOLD

Test Insurgent Strength in Southern Region

2 WOMEN VICTIMS

SINGAPORE, Aug. 4 (CP)—Gurkhas, experienced jungle fighters of the Burma campaign, and detachments of the Malay Regiment advancing under R. A. F. Spitfire cover, reached Pulai, Malayan Communist stronghold, today despite insurgent resistance.

The force had advanced nine miles South from British-held Guamusang testing insurgent strength in the South Kelantan area, reported to be the centre of Communist resistance.

Insurgents who yesterday ambushed a military column with machine-gun and rifle fire three miles North of Pulai, in South Kelantan, have killed one Gurkha, according to official reports reaching Kuala Lumpur.

This is the area where the insurgents are believed to be trying to gain enough territory to hoist the red flag and proclaim the first Communist Republican "state" in Malaya.

Entrenched on both sides of the road, the Guerrillas held up the column for a time, but it later drove ahead supported by cannon and rocket-firing Spitfires.

Two Chinese women, wounded by a rocket which was accidentally fired from a Spitfire as it took off from an airfield here, died in hospital, bringing the death toll in two such accidents in the last four days to four, all women.

The R. A. F. is investigating the incidents which are believed to be caused by a short circuit in the rocket-firing electrical equipment.

Russia Presents Plan for Danube Control

By OSGOOD CARUTHERS

BELGRADE, Aug. 4 (AP)—The Russians today presented their draft plan which would give Communist-ruled states of Eastern Europe exclusive control over the Danube.

Delegate Andrei Y. Vishinsky presented the proposal to the Danube conference ,where the Russian bloc outvotes Britain, the United States and France seven to three.

He demanded what he called "protection" of the sovereign rights of the Danubian states over the 1800 mile waterway, the major one in Central Europe. Each participating country would have immediate control of the waters of its own borders.

Vishinsky explained the Soviet draft point by point. He asserted it would do away with the "privileged position" given non-Danubian states by the 1921 Paris convention for control of the river's shipping.

He asserted the Russian plan would "fully satisfy the requirements of justice, safeguard sovereign rights and withhold unjustified privileges for non-Danubian states."

The word "sovereignty" has been a keynote of Russian policy and the policy of her satellites in most international negotiations since the war. Eastern insistence on sovereignty might well nullify the power of any international commission which might be created to regulate free shipping on Central Europe's main waterway.

First hint of this came the opening day of the conference when the Eastern bloc defined its idea of free navigation as "the Danube to Danube countries." In taking that stand, the bloc indicated it felt that Danube shipping could reach other lands only through individual agreements with various Danube countries.

The Russian proposal will not permit Austria to become part of any control commission until she has a peace treaty. Vishinsky has said he hopes to have the new convention in working effect before an Austrian treaty is signed.

Of most important interest is the fact that the proposed convention places control of the entire maritime Danube from the Suluna Canal to the Black Sea under a special river administration made up of representatives from Romania and the Soviet Union.

The historic "Iron Gates," whose steep cliffs form a natural barrier along the navigable part of the river, would be under special administrative control of Yugoslavia and Romania.

Snow Reported Twice in July At Cranbrook

CRANBROOK, B. C., Aug. 4 — Visual evidence of a cool Summer-residue of snow on the Western face of the Rockies and new snow twice during July—is borne out by the Dominion Meteorology statistics at the airport here for the month.

Mean temperature was 60 degrees, compared with 65.4 for last July which was average. Low point in July was 35.3 degrees accompanied by streaks of frost in the valley. Last July's low was 35.5 degrees. Highest reading last month was 87.6 degrees compared with 93.8 last July.

Rainfall was four times normal at 1.38 inches compared with .33 inches last July. It brought 1948's rain to 9.90 inches, nearly 8 inches of which fell since May 1. With 24.38 inches of snow the first four months of the year, 1948 precipitation of 12.34 already nears the average total for a whole year.

Cardinal Dies At Age of 87

VATICAN CITY, Aug. 4 (AP)—Enrico Cardinal Sibilia, 87, oldest member of the College of Cardinals of the Roman Catholic Church, died today at Anagni, his birthplace, it was announced here.

Cardinal Sibilia was Bishop of Sabina and Poggio Mirteto. His death leaves 11 vacancies in the College of Cardinals, which at full strength has 79 members.

He had been ill with heart trouble for months. Ordained a priest in 1884, he was Chaplain of Rome's St. Agnes Church until he entered the Vatican diplomatic service in 1890.

His first assignment was auditor of the Nunciature in Bogota, Colombia. Subsequently he served in Vatican diplomatic posts in Brazil, Belgium and Spain. For a time he was Apostolic Delegate to Chile.

In 1908, Pope Pius X created him Tutular Bishop of Side. He served for some years as Vicar of Rome's Patriarchal Basilica of Santa Maria Maggiore and after the First World War became Papal Nuncio to Austria. At the Consistory of Dec. 16, 1935, he was made a Cardinal by Pope Pius XI.

By virtue of his age and seniority he was entitled to the office of Dean of the College of Cardinals, a post vacated by the death last February of Gennaro Cardinal Granito Pignatelli di Belmonte. Cardinal Sibilia never was able to assume the post, however, because of ill health.

Sweden Optimistic She Will Win Norway Over to Neutrality in War

By GUSTAV SVENSSON

STOCKHOLM, Aug. 4 (AP) — Working hard for the neutralization of Scandinavia, Sweden is optimistic that she will win Norway over to her course in any war between East and West.

While Norway has been eager to keep her doors open to military co-operation with the Western powers, Sweden has repeatedly proclaimed her intention to maintain "armed neutrality" in any Third World War.

Across this dividing line of neutrality a tug-of-war has been going on for some time between the two governments. It is watched with some anxiety by both the Western powers and by Russia, which has for several decades been blasting away with its big propaganda guns against the idea of a "Nordic block."

Discussions for a Scandinavian defence alliance, initiated by Sweden, have been in process since May.

The Western powers are understood to have repeatedly, although informally, expressed their concern to Sweden over her attempts to win Norway for neutrality.

Swedish sources say Foreign Secretary Bevin told the Swedish Ambassador to London, Eric Boheman, on June 21, that Scandinavia's chances or remaining neutral in a new war were slight.

Meanwhile political circles in Stockholm believe Russia is modifying her traditional opposition to a Scandinavian defence block, regarding this as "a lesser evil," providing it can prevent Scandinavia from entering any military agreements with the Western powers.

Reorganize Sask. C.C.F. Cabinet

REGINA, Aug. 4 (CP)—A reorganization of the Saskatchewan C.C.F. Cabinet — promised soon after the June 24 election — was disclosed today by Premier T. C. Douglas in a press release.

The statement announced that J. H. Brockelbank, Minister of Municipal Affairs, is the new Resources Minister while J. H. Sturdy, Minister of Reconstruction, has taken over the heading of the Social Welfare Department.

Mr. Douglas has said that either Mr. Brockelbank or L. F. McIntosh, Cooperatives Minister, would succeed J. L. Phelps as Resources Minister. Mr. Phelps was defeated in the recent election along with O. W. Valleau, Welfare Minister.

It was also announced that the Cabinet had been cut from 12 to 11 members with J. A. Darling, member for Watrous, given a newly-created post of Public Works and Telephones.

Under the shuffle, six departments—Health, Treasury, Attorney-General, Natural Resources, Education and Agriculture — remain on the same basis.

Mr. McIntosh assumes, including the Cooperatives Department he holds, the portfoilio of Municipal Affairs left by Mr. Brockelbank. C. C. Williams retains the labor portfolio but assumes in addition the provincial secretaryship formerly held by Mr. Valleau.

J. T. Douglas, Highways Minister, will turn over Public Works to Mr. Darling who also will direct telephones—previously under Mr. Williams.

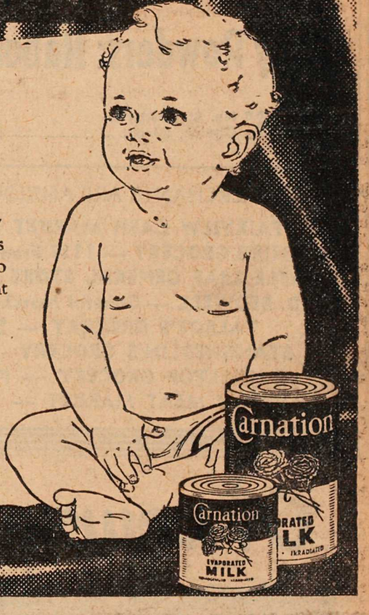
The statement said the Reconstruction Department will go to the Public Works division while Mr. Sturdy will continue to deal with rehabilitation matters through his new position.

The Premier's statement said legislation to effect cessation of the present Department of Reconstruction and Rehabilitation likely would be passed at the next session.

18 Die as Heavy Rains Swell Streams

CARACAS, Venezuela, Aug. 4 (AP)—Heavy rains today swelled streams at La Guaira Harbor, causing the deaths of 18 persons and heavy damage, La Guaira Prefecture reported. The Federal Government sent assistance.

"On Velvet" WITH Carnation Milk



Yes, off to a good start on the road of life ... that's the lucky baby whose feeding formula is prepared with Carnation Milk.

Carnation is such *good* milk for babies — and for older children. It's *safe*, protected by its air-tight container. It's *nourishing* as milk can be — and specially increased in vitamin D to 400 units per pint. It's a heat-refined, homogenized milk, wonderfully easy to digest. No other milk is so widely used in infant feeding.

WRITE for "Your Contented Baby" — 36 pages of helpful suggestions on baby care, along with recipes. Ask also for the "Velvet Blend Book" of grand recipes for family meals and party occasions. It is free. Address Dept. N2, Carnation Company Limited, Toronto or Vancouver.

"from Contented Cows"

Tasty Recipes

By ALICE DENHOFF

Fruit is always such a good idea, especially in Summer, when salads, beverages, desserts and frozen fancies are all lined up for our enjoyment. Offered today are some fine fruity recipes which we hope may prove interesting enough to essay.

First is a delicious raspberry ice cream, a nice company special. To serve 6, combine one cup milk and ½ tablespoon cornstarch. Beat 2 eggs, and add to 1-3 cup light corn syrup. Cook over hot water until thick. Cool. Mash one cup fresh raspberries with ½ cup sugar. Chill; strain. Combine with custard. Beat ½ cup heavy cream; fold in 1½ tablespoons lemon juice. Partially freeze in tray of automatic refrigerator. Beat smooth. Finish freezing.

Tropical Delight uses nut meats, dates and bananas and adds up to a really super special sweet. For 5-6 servings, soften tablespoon gelatin in ¼ cup cold water. Add one cup hot coffee (made with 2 level tablespoons coffee to one cup water). Stir until gelatin is dissolved. Add 1-3 cup sugar, ¼ teaspoon salt and tablespoon lemon juice. Mix well. Chill until thickened.

Add ½ cup cut pitted dates, ¼ cup nut meats and 2 ripe bananas, peeled and diced. Whip ½ cup whipping cream and fold into gelatin mixture. Turn into individual molds. Chill until firm. Unmold and garnish with 2 bananas, sliced. Serve with additional whipped cream, if desired.

WITH MEAT COURSE

Nice with the meat course is a fruity freeze! To serve 4-6 combine ¼ cup chopped maraschino cherries and a No. 2 can grapefruit sections and juice. Pour mixture into freezing tray of automatic refrigerator. When nearly frozen, stir lightly. Serve in sherbet glasses with meat course. It is easily made, with an impressive taste delight.

Frozen Apple-Jam Snow adds up to a pleasing dessert. Beat 3 unbeaten egg whites, ¼ teaspoon salt, ½ cup strained red raspberry jam (blackberry or currant jam are good too) and ½ teaspoon grated orange or lemon rind with rotary egg beater until stiff and creamy (¾ minute). Fold in one cup strained, unsweetened apple sauce. Turn mixture into freezing tray of mechanical refrigerator. Freeze without stirring with temperature control set at coldest point, 2 to 2½ hours.

The Doctor

By HERMAN N. BUNDESEN, M.D.

First Reactions to Meniere's Disease Is Extreme Dizzines, Ringing in Ears

Meniere's disease is one of the strangest of the many disorders now thought also to be due to allergic reactions.

People afflicted in this way are apparently well unless they eat some food or come in contact with something to which they are allergic and then a most unpleasant episode ensues. The first reaction is likely to be extreme dizziness and impairment of the hearing in one ear, the sounds of the outside world being replaced by a persistent and annoying ringing in the affected ear. During an attack, the patient grows pale and often suffers from cold sweats, sickness at the stomach, and vomiting.

UNPLEASANT SYMPTOMS

The exact reason why an allergy should take this form in some people is yet to be found, but the unpleasant symptoms can be accounted for by the fact that the reaction brought about by the allergy involves the blood vessels supplying the ear, which is not only the organ of hearing but also houses the body's balancing mechanism.

A number of different forms of treatment have been employed. One of the most recent consists of the use of histamine diphosphate. When persons are allergic, histamine is formed in excessive amounts in the body. Hence the object of this treatment is to make the patient less sensitive to histamine.

In employing the treatment, the histamine diphosphate is given slowly at the rate of 40 to 60 drops a minute by injection into a vein. The histamine diphosphate is dissolved in about a half pint of salt solution.

The treatment is given daily for ten days. At the end of this time, if no improvement is noted, the process is repeated for another 10-day period. Then, the preparation is given by injection under the skin, starting with a small dose which is gradually increased until some discomfort is produced. Reactions may consist of flushing of the face and a feeling of heat.

More than a hundred patients were treated in this way, and about three-fourts of them were completely relieved of the ringing in the ear, while the remainder had marked improvement. The hearing was improved in nine out of ten cases, and the dizziness relieved in about the same number.

In older patients who had signs of deficiency in vitamin B-complex as shown by redness of the tongue and lining membrane of the cheek, the vitamin B-complex was given by injection into a vein three times a week. Later on it was given by mouth.

Of course, treatment of this type must be carefully carried out under the direction of the physician who will determine in just what cases it may prove of value.

British Note Report of Park For Royal Home

By JAMES McCOOK
Canadian Press Staff Writer

LONDON, Aug. 4 (CP)—British sources are interested in reports that the Ottawa Board of Control has under study a proposal to set aside a 50-acre park there for a Royal residence. But they could not speculate as to when the King and Queen would be able to spend a yearly period in the Canadian capital.

Ever since Prime Minister Mackenzie King said he looked forward to Their Majesties residing in Ottawa part of each year, sources here have reiterated that this is a logical expectation. When it will be possible is another matter.

The Royal program is arranged far ahead and present emphasis is on the Antipodes next year.

This change from the tradition of Royal residence in the United Kingdom involves weighty consideration. There are limitations on the amount of travel the King and Queen can endure even with the aid of aircraft, and it probably would have to be understood that annual residence in Canada would not involve strenuous yearly coast - to - coast tours.

The visit to New Zealand and Australia next year will complete the Royal tours of all the senior Dominions and there then will be the question as to whether Their Majesties will visit the younger Dominions of India, Pakistan and Ceylon and some colonial areas before they consider establishing an Ottawa residence.

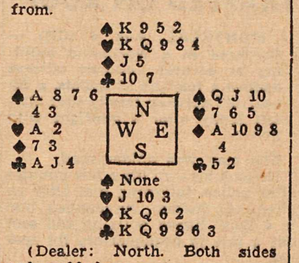
BARCLAY ON BRIDGE

By Shepard Barclay

"The Authority on Authorities"

LEAD TOWARD TENACES

"TENACE" IS an important word in the bridge language. It is based on the Latin verb "tenere," meaning to hold. In bridge a tenace is something a player should hold while leading toward it from the opposite hand or else hoping the opponents will lead up to it. The ace-queen of a suit is usually called the "major tenace," the king-jack the "minor tenace," the ace-queen-ten the "double tenace," the ace-jack and similar combinations "imperfect tenaces," and such set-ups as a guarded ace opposite a guarded queen as a "combination tenace." And guarded single honors lower than an ace are said to be in "tenace position." All of these are usually better when led toward than from.



(Dealer: North. Both sides vulnerable.)

North	East	South	West
Pass	Pass	2 ♣	2 ♠
3 ♥	3 ♠	Pass	4 ♠
Dbl.			

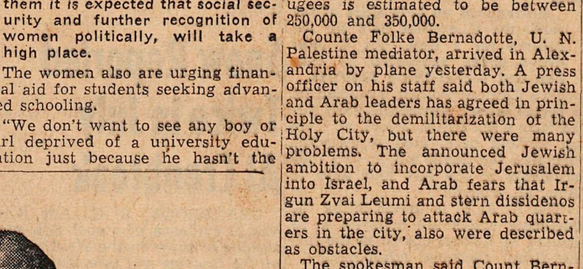
That bidding was by the players at a table where North-South used the Vanderbilt club convention, 1-Club meaning a generally strong hand without indicating anything about the club suit, so that 2-Clubs would show the suit but perhaps in a hand of shaded honor strength. Natural bidding, however, resulted in the same final contract at most tables, the spades being doubled in most cases.

Every 4-Spades declarer failed to make his contract. Some, however, were set two tricks and and others only one. The difference was due chiefly to play of the club suit. Note how it was botched by one West. He won the heart K lead and laid down the club A, after which he gave up a club to the defenders. His idea was to ruff his third club, which he later did. But by this form of play he lost one trick in each side suit, one to the spade K and one to an over-ruff of the third diamond when he led it toward his own hand.

Another declarer, after winning the heart lead, led to the diamond A and brought a club forth from the dummy, letting the Q win. After losing a heart, he ruffed the next and gave a trump to the spade K. He lost a diamond then, ruffed the next, took two trumps in dummy, finessed the club J, scored the spade A to strip North, and the rest of the tricks were his, without ever using a dummy trump for ruffing a club.

• • •

Tomorrow's Problem



(Dealer: East. Neither side vulnerable.)

In a match-point pair duplicate, what would you do in the South over East's 1-Heart if you knew your opponents as aggressive bidders and doublers?

CANADIAN WOMEN TO THROW MUCH WEIGHT AT NATIONAL LIBERAL MEET

By KAY REX
Canadian Press Staff Writer

OTTAWA, Aug. 4 (CP)— There's no doubt about it—the "weaker" sex will toss plenty of weight around at the National Liberal Convention opening here tomorrow.

From as far West as Dawson Creek, B. C., and as far East as Charlottetown, more than 200 women will attend as delegates and alternates.

And this doesn't include several hundred wives who will accompany their husbands.

Noting that the number of women attending unofficially is nearly four times the number present at the convention 29 years ago, Mrs. S. C. Tweek of Ottawa, Assistant Director of the National Liberal Federation, said the increase was evidence of growing interest by Canadian women in the affairs of their country.

More than 50 women nominated from Federal constituencies will attend as full delegates.

Officials of women's Provincial Liberal Associations attending the convention are Mrs. Gwen Morris, Vancouver; Mrs. Harry Perry, Regina; Mrs. J. W. Cadwell, Winnipeg; Mrs. Lorne Lee, Aurora, Ont., Mme. Tancrede Jodoin, Montreal; Mrs. R. K. Kelley, Halifax; Mrs. D. J. Riley, Charlottetown.

Several resolutions will be presented to the convention by the women's organizations and among them it is expected that social security and further recognition of women politically, will take a high place.

The women also are urging financial aid for students seeking advanced schooling.

"We don't want to see any boy or girl deprived of a university education just because he hasn't the money," said Mrs. Tweed. She added that she hoped to see the day when there would be a Federal grant to the provinces from which an honor matriculant could borrow money to attend college. She noted that Saskatchewan had such a fund brought in during the Liberal regime in that province.

Manning Promises Alberta Electors Low Powers Costs

EDMONTON, Aug. 4 (CP)—Premier Manning told Alberta electors last night the Alberta Government Power Commission would "produce and distribute electricity at the lowest possible cost" if entrusted with

In an election campaign broadcast, the province's rural electrification.

the Social Credit Premier weighed rural power development under private and public owned systems. If returned to power in the Aug. 17 Alberta general election, his Government would be guided by the electorate's answer to the rural electrification plebiscite posed at the same time, Premier Manning said.

In other speeches last night, Liberal Leader J. Harper Prowse offered a plan for more home building under the National Housing Act and C. C. F. leader Elmer E. Roper said the election offered a choice between the C. C. F. and the Social Credit Government.

DARWIN, Australia (CP) — A stone used by a Darwin newspaper man as a paperweight, now is in the Sydney Museum instead of on his desk. Found on Melville Island, it is 10,000 to 15,000 years old.

Fight Typhoid Threat Among Arab Refugees

ALEXANDRIA, Egypt, Aug. 4 (AP) — United Nations and Red Cross officials took measures today to fight a typhoid epidemic they fear may strike among Arab refugees from the Palestine War.

Sir Rafael Cilento, an Australian who represents the refugee division of the Social Affairs Depatment of the U. N., said last night there was grave danger fo such an epidemic. He said the refugees are homeless and eye infection is widespread.

The Red Cross has prepared a large quantity of typhoid vaccine and doctors have innoculated more than 20,000 against the disease in Ramallah. The number of Arab refugees is estimated to be between 250,000 and 350,000.

Counte Folke Bernadotte, U. N. Palestine mediator, arrived in Alexandria by plane yesterday. A press officer on his staff said both Jewish and Arab leaders has agreed in principle to the demilitarization of the Holy City, but there were many problems. The announced Jewish ambition to incorporate Jerusalem into Israel, and Arab fears that Irgun Zvai Leumi and stern dissidenos are preparing to attack Arab quarters in the city, also were described as obstacles.

The spokesman said Count Bernadotte may hold separate meetings with Arab and Jewish experts in Jerusalem during the next few days.

A U. N. official said last night "it may be December before demilitarization (of Jerusalem) is effective, even if negotiations are speeded up."

Steel Buyers Turn Against Rails For Transportation

NEW YORK, Aug. 4 (AP)—The Iron Age, metal working trade weekly, reported today that American "steel buyers" are turning in droves from rail to other forms of transportation wherever they can."

Fabricators facing higher charges all along the line are finding this a fruitful field for cutting costs, the publication said.

"Using trucks to dodge high rail rates sounds good but has its bad points," said the Iron Age. "Many steel mills can't move more than 20 per cent of their output by truck."

Operations of the steel industry this week were placed by the Iron Age at 93.5 per cent of rated capacity, up slightly from the previous week.

The weekly said more voluntary allocation of civilian and military steel is a certainty.

Pig iron prices were stronger this week, the Iron Age said, setting its composite at a post-war high of $43.94 a gross ton. It pointed out this was still about $4 below the record $47.63 set in September, 1920.

VANCOUVER (CP)—A landlady called police when she found an ax under the pillow of one of her roomers. He told police he was a logger and would be in town for the next three months. The ax was just part of his equipment.

Beauty Hints

By IDA JEAN KAIN

Some Scientific Facts on How the Reducer Can Eat to Beat the Calories

The bulk of overweights think of calories as in corpulence. And with solid evidence to back such reasoning, it's understandable. But if you'll get a friendly feelin' toward calories, it will help you get the best of the pounds!

Calories are not something to eat. They are simply a unit for measuring the energy value in food. By the calorie you can measure the fattening potentialities of any food, and in this way you can make a game of juggling the menus to see how many of your favorite foods you can include and still call on stored fat for enery and reduce.

Let's say your activity would be classed as average, which sets your reducing number of calories around 1200 a day. That number allows for right good eating ,and lets you lose between one and two pounds a week.

To show what can be done by using the calorie yardstick. I'll take a universally favorite food—cheese—and give the specific calorie content for the various kinds. The suggestion came from an overweight who writes that if she could have plenty of cheese in her diet she could reduce happily.

Well, she can have cheese every day and lose. It is an excellent source of protein, calcium and phosphorus, all nutrients which must be included in the reducing diet in normal amounts. What's more, cheese sticks to the ribs and helps the dieter feel satisfied.

Take your choice of the following cheeses . . .

American—Slice 3" x 2" x ¼", 118 calories.

Camembert—2" wedge, 1" thick, 122 calories.

Cottage—¼ cup, 50 calories.

Cream—Piece 2" x 1" x ⅜", 103 calories.

Edam—1" cube, 61 calories.

Liederkranz—Piece 2" x 1¼" x 1", 119 calories.

Limburger—Slice 2½" x 2" x ½", 155 calories.

Parmesan—1 tablespoon, 16 calories.

Roquefort—1¼" wedge, 1" thick, 156 calories.

Swiss—Piece 4½" x 3½" x ⅛", 113 calories.

Now let's round out the luncheon, including a liberal serving of cheese, say 200 calories, which may be almost a double portion. With this the dieter could have a hard-cooked egg for more protein; 2 thin slices of rye or pumpernickle bread, lightly buttered; a sliced tomato with water cress, and some hot or cold tea with lemon and sugar—all for a total of 450 calories. All that and streamlines too!

That still leaves 500 calories for dinner and 250 for breakfast. See, counting calories can be fun when it means more to eat while reducing!

Nakusp Forms Committee to Push $80,000 Bylaw for New School

NAKUSP, B. C., Aug. 4 — A special meeting of the Parent Teachers Association was called in the Parish Hall with special speakers to discuss school bylaw No. 4, seeking authorization of a money bylaw to erect a school at Nakusp.

Mrs. R. S. La Rue was Chairwoman. W. J. Claridge of Arrow Park said he was at a "loss to know why the three previous plebiscites had been defeated." He spoke of "Dr. Cameron's report," saying that possibly the people were not quite ready for it.

"However," the speaker said, "the present board elected were responsible to do something about the deplorable situation now in existence, with regard to the absolute necessity of school room space for the ever growing population of Nakusp and down lake points of District No. 10."

On the advice of the Minister of Education and School Inspector, the School Board had drawn up the bylaws.

Dr. Frank Allan, former Professor of Science of the University of Manitoba, Winnipeg, next addressed the meeting, speaking on conditions of world development and the future education of the children. It was imperative that a modern education be given he stressed.

The world was "so tangled up with all nations that we must make sure the children of today are prepared to meet world developments of the future."

Speaking of Nakusp, Dr. Allan said he had noted on his visits, the population had grown from 300 to the present 1100 and was continuing to grow.

"The new power development of the district has altered the outlook. Where there is power there will be new industries and Nakusp is being talked about in the industrial world," he said.

"People will come in with families and it is imperative to begin to prepare the way for a school system which should be adequate with modern conditions so urgently required."

Dr. Allan said he had had the opportunity of meeting the students on many occasions and he knew they were of high calibre, necessitating the best of skilled and highly trained teachers," in a world which was developing so rapidly."

Mr. Lucas, School Inspector, was present and gave much required information.

A campaign committee was formed to work on the forthcoming plebiscite with V. Smith, Rev. B. S. S. Hartley, F. Rushton and Mrs. R. S. La Rue, President of the P. T. A. and Mrs. P. Hurry, Vice President of P. T. A.

The bylaw is to authorize the Board of School Trustees of School District No. 10, Arrow Lakes, to raise by way of loan, the sum of $80,000 for school purposes.

Movie Gossip

James Mason in Real Life Seems Soft-Spoken; More Handsome than Pics

By BOB THOMAS

HOLLYWOOD, Aug. 4 (AP) — This may come as a shock to you, but James Mason isn't the James Mason type.

I mean that Mason in real life doesn't much resemble the arrogant dame-slugging character in which his public identifies him. When I took tea with him, he seemed soft-spoken, solicitous of his wife's condition (pregnant) and generally as normal as a movie star can be.

The Masons live in the Plushier District of Beverly Hills. Upon entering the place, you encounter a variety of the famed Mason cats. When the tea was brewed and the cats cleared out, I asked the actor if he were put out at being pegged as the "James Mason type."

"It doesn't bother me," began Mason. "Actually, I have played only four such parts in some 30-odd pictures.

"There is a type of fan who conceives of a player in a standard type of clinche. I am not interested in that type of fan. I don't care if the so-called fans see me in something different and say, 'Nyah, he stinks.' I have always figured I would be able to find some kind of acting work."

Mason is slighter than I expected and more handsome than he photographs.

The actor hasn't made a picture since "The Upturned Glass" two years ago, but the absence doesn't worry him.

His wife accused him of picking his films by such caprices as the nearness of the studio to home and the possibility of disposing of some cats among the company.

The long-range Mason plan is to make films on both continents. He'll make "The King's General" here after the Enterprise film.

RECOVER BODY OF SAANICH BOY FROM LAKE

VICTORIA, Aug. 4 (CP)—Saanich Police recovered the body of 17-year-old Raymond Henderson from the waters of Prospect Lake yesterday.

Henderson, son of Mr. and Mrs. Frederick Henderson, 2701 Belmont Avenue, drowned Saturday when he lost his hold on a rowboat which was towing him.

The body was found in about 30 feet of water, and about 25 feet from where Henderson's companion, 14-year-old Allan Davies, indicated the tragedy occurred.

LONDON (CP)—A recent quesetionnaire sent to school children in Britain, showed that the majority of boys liked playing football best in their leisure time, with cycling next. Most children liked reading, but movie-going did not take top place as a favorite pastime.

Of course it's first choice!

(It's finest!) Say: "Best Foods" and get the top-selling *real* mayonnaise—not just salad dressing!

Best Foods has no starchy filler. But it does have the freshest eggs, added fresh egg yolks, fresh salad oil, mild vinegar and choice spices perfectly blended and *double-whipped!* Smoothest eating you've ever tasted!

George Haddad returned to his home here Monday by car from Rochester, Minn. His father, who underwent eye treatment at the clinic, accompanied him, and is continuing to his home at Kelowna accompanied by Miss Velma Haddad.

Adjust Freight Rates on Export, Import Rail Traffic

OTTAWA, Aug. 4 (CP)—Freight rates on international and export-import trail traffic in Canada have been adjusted in a new order of the Board of Transport Commissioners.

However, a Board spokesman today described the general effect of the rate changes as negligible. They consist of both increases and reductions on a great variety of commodities on certain types of hauls.

These include traffic between Canadian and United States points, between U.S. points by way of Canadian territory, and export and import hauls between Canadian ports and inland stations.

A warlock in Northern England or Scotland is a wizard, sorcerer or magician. The Old English word means a "liar against the truth."

South Slocan . . .

SOUTH SLOCAN, B. C.—Douglas Davis of the Fleet Air Arm service at the Naval Station at Dartmouth, N. S., where he is an air plane mechanic, is home on a two month's leave, visiting his parents, Mr. and Mrs. Douglas J. Davis.

Mr. and Mrs. Willard Foster and family have returned from a month's holiday at Grand Forks.

The Forgotten Man

By a twist of fate some men are forgot- n while the fame of others, perhaps more outstanding, lives down through story.

For example, Tuesday news came that e Tinker, famous shortstop on the famous nker-to-Evers-to-Chance infield of the old icago Cubs, had died. The repute of this mous double-play combination is known every ardent baseball fan.

Immediately the question arose as to ho played third base along with these ree notables, and the question stumped me sports writers and sports editors.

Harry Steinfeldt was the third baseman, d a good one too. But because his position d not lend itself to such frequent partici- tion in double-plays, he is the forgotten an when baseball fans speak in awe of nker-to-Evers-to-Chance. Steinfeldt mere- had the bad luck, insofar as lasting re- te is concerned, to play third instead of ort, second or first.

Postponed Romance

As pretty a story as has hit the press ires in months is that of the Polish woman route to Northern Alberta to marry the an her parents wouldn't let her wed 23 ears ago.

The whole story is a rip-snorting ro- ance, with chance—and newspapers, bless m—playing their own special roles. Maria araniuk advertised in a Canadian news- aper for word of a cousin in Canada. Her ne-time sweetheart, Robert Yanczura, saw ie advertisement and wrote her that her ousin was dead—and renewed his 23-year- d proposal of marriage.

There's been plenty of tragedy for Mrs. araniuk in those 23 years. When her sweet- eart left for Canada, she married another. er husband died in 1928. One of her two ons died in a Russian labor camp. The ther is married happily and settled in ritain.

Now, finally, Maria gets a break. It can appen here.

Danger to Corncob Pipe

From Washington, Missouri, principal eat of the corncob-pipe industry, comes a pecial dispatch to the Wall Street Journal hich shows that the triumph of hybrid orn is not without a threat to a special reed of pipe smokers.

Hybrid corn does not produce a cob suit- ble for use in making corncob pipes, and at he present price of corn there is no advan- age to farmers in growing corn for cobs ather than for corn. The progress of hybrid orn has been steady since its introduction. Nothing seems likely to stem its advance. But those men who consider the corncob ipe the sweetest smoking of all pipes, who re convinced that it helps to make them the ildest and most amiable of human beings nd philosophers to boot, will be disquieted t this news.

Doubtless the danger is exaggerated. Perhaps progress and placidity can exist in he same world. A few altruistic farmers of he Missouri River bottom lands doubtless vill continue to produce corn for cobs, even hough higher profits might be made from ybrid corn. The flow of homespun philoso- hy will not be brought to an end.

Looking Backward

25 YEARS AGO

From The Daily News of Aug. 5, 1923

Donald McKinnon of Nelson received a broken aw in a logging mishap at Kitto's Landing.

Over the weekend seven girls and boys taking wimming lessons at Lakeside Park swam the lake. They were Moira McLeod, Evelyn Wallace, Bruce Orr, Sybil Archibald, Florence Lauritz, Walter Skin- ier and Merle Archibald.

Carl C. Janzow was last night inducted as new Pastor of the Lutheran Church.

40 YEARS AGO

From The Daily News of Aug. 5, 1908

Work has commenced on the reestablishment of Fernie, which was practically erased from the map by a disastrous fire Aug. 1. Moyie has raised $2500 for the refugees, 250 more having arrived in that community yesterday.

The Kootenay Jam Co. have under consideration plans for the immediate enlargement of their plant at Harrop.

A car of concentrates was shipped from the Granite Mine yesterday.

A race has been arranged at Rossland for Aug. 15 between George Ferguson's Kootenay Belle and a horse belonging to J. Carr of Trail.

?Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except when there is obvious necessity for privacy.

L. P., Shoreacres—Please print a recipe for Ripe Cucumber Pickles.

Eight large cucumbers, one-eighth of a pound of stick cinnamon, one ounce of whole cloves, three pounds of sugar, one and one-half pints of vinegar.

Pare the cucumbers, quarter and take out the seeds, then cut the quarters into medium-sized pieces. Scald in salted water (two tablespoons salt to one quart of water), then drain and simmer in clear water until they are tender but firm. Drain well. Tie the spices in a bag and boil them with the vinegar and the sugar for five minutes. Pour this mixture over the cucumbers, cover the jar and set away. The next day pour off the syrup, boil for 10 minutes and pour over the cucumbers again. Flavor is improved by repeating the process several times. Place the pickles in clean, hot jars and seal.

Mrs. J. C., Cranbrook—Could you give me the name of any firm at which I could get rugs made out of old woolens?

Saskatchewan Wool Products, Moose Jaw, Saskatchewan, or Fairfield and Sons Limited, 797 Notre Dame Avenue, Winnipeg, Manitoba.

Uncertain, Castlegar—Please answer the following questions: (A) where should I apply for a birth certificate in Manitoba? (B) where should one apply for a deed to land in Nelson?

Acting Recorder of Statistics and Registrar of Births, Department of Health and Public Welfare, Winnipeg, Manitoba. (B) The Land Registry Office, Court House, Nelson, registers deeds to land.

Inquiring, Rossland—Could you please give me the addresses for obtaining Christmas subsriptions to the magazine "Saturday Evening Post" and "Ski Illustrated." Also the prices for year's subscriptions?

Any newstand in your city will be able to give you the above information.

Mrs. G. S., Creston—Could anyone give me the formula for giving wood a light finish?

A white polish for wood is made as follows: White lac, 1½ pounds; powdered borax, 1 ounce; alcohol, 3 pints. The lac should be thoroughly dried, especially if it has been kept under water, and, in any case, after being crushed, it should be left in a warm place for a few hours, in order to remove every trace of moisture. The crushed lac and borax are then added to the spirit, and the mixture is stirred frequently until solution is effected, after which the polish should be strained through muslin.

R. S., Trail—What is it called when one player wins a game of cribbage before his opponent is halfway?

When one player reaches his game-hole before the other turns the corner, it is called a lurch, and counts two games.

LETTER FROM BRITAIN

By EDWARD HODGKIN

The population of the United Kingdom has, for the first time (according to Britain's "Monthly Digest of Statistics") passed the 50,000,000 mark. It is an interesting, and, for some, an unexpected piece of news—unexpected, since fears of a falling birthrate had been voiced on occasion in Britain recently.

Losses through emigration have been offset by the immigration of stateless persons—Poles and Balts for the most part. Britain has let about 50,000 displaced persons in to work since World War II ended, and there has been little serious opposition from the trades unions—or anywhere else. In the years immediately before the war more than 80,000 refugees found safety in Britain, most of them coming from Germany and Austria. Most of these have settled down happily and are on their way to becoming British citizens. But what has final and decisive effect on Britain's population is that the birthrate is rising.

One sort of immigrant from the Continent which we in Britain emphatically do not welcome is the Colorado beetle. If this sinister little winged potato pest, the size of a fingernail, and dressed in black and yellow stripes like the Demon King in a pantomime, succeeds in crossing the English Channel in large numbers, he can guarantee to destroy the pototo crop; and all that he needs to help him across is a strong South wind. A few days ago four cross-Channel steamers, from Dunkirk, Ostend and Boulogne and Calais, met a crowd of the beetles in the middle of the sea. Many alighted on their decks and were quickly hosed into the water; a few made the crossing, and the fear that others may follow accounts for the day and night watch which is being kept along the Southeast coasts of England today.

Until recently Britain has been particularly fortunate as regards the Colorado beetle. It has never established itself, and for that we in Britain have two things to thank. First, there is the Channel, which in this respect proves as useful in peace (in other respects) as it was in war. Second, there are strict laws for stamping out any of these pests which set foot on English soil; these have been in force since 1877, and were tightened up in 1933, when Parliament gave the beetle a law to itself which treats it as a felon; anyone who harbors one runs the risk of jail. Last year a man who had been on holiday in Belgium brought a Colorado beetle back with him in a matchbox. He appeared in a police court and was fined heavily.

DAMAGED DOCKS

All this beetle-talk of "invaders over the Channel" would sound to Londoners familiarly like the old days of the Blitz. One result of that Blitz—the damage caused to harbors—still affects life in Britain today. War damage to ports is a cause of much delay in unloading ships. An importer whose cargo has to wait three days outside a port before the ship carrying it can be berthed feels naturally irritated (to say the least), but his irritation might be lessened if he remembered that as a result of bombardment Liverpool (for example) lost half its warehouses and transit-sheds, London lost a third, and Southampton and Hull as much as 60 per cent (Hull, in addition, losing a dock). Recently a working-party (which is a sort of streamlined Government Commission) has been trying to see what can be done to widen this bottleneck. As far as possible, ships will be routed to the less crowded ports—such as those in the Clyde, Scotland, and the Bristol Channel—but

Trail Production Committee Changes Made

TRAIL, B.C., Aug. 4—L. S. Piper, Chairman of the Trail Joint Production Committee, today announced changes in the personnel of the Committee, as a result of the recent annual elections held by Local 480 and appointments by management.

New Committee members representing Local 480 will be: George Bishop, Tadanac Machine Shop; Reg. German, Tadanac Instrument Department; J. Callen, Carpenter Shop; George Webb, Electrolytic Ammonia Plant, and J. Scott, Zinc Tank Rooms.

Representatives for Management will be: Lloyd Williams, Superintendent of Shops; J. Morris, Supervisor of Analytical Laboratories; J. M. Douglas, Superintendent of Phosphate Plant, and D. Griffiths, Acting Assistant Superintendent of Roasting Plant.

Permanent members of the Committee are: Chairman, L. S. Piper, Supervisor Labor Department; Secretary, D. Sutherland, Safety Advisor; G. W. Wheatley, Chief Inspector Safety Department, and Investigator, G. E. Hewgill.

Trainman News Tells of Nelson Lodge Jubilee Plans

Golden Jubilee celebration plans of Kootenay Lodge 558, Brotherhood of Railroad Trainmen, are described in the current issue of "Trainman News." The Lodge, one of the oldest, if not the oldest, labor organizations in Nelson, will observe its Golden Jubilee Aug. 26 with a banquet and dance in the Civic Centre.

Trainman News is published at Cleveland, Ohio.

The celebration and a history of the Nelson Lodge are described in a story under a two-column heading, referring to the possibility of attendance at the affair by President A. F. Whitney, Cleveland. Invitations went to other Grand Lodge officers and members of all Canadian and American Lodges, and 350 are expected to participate at the banquet.

Finds Perfume Easy Bait for Beavers

DENVER, Aug. 4 (AP)—The Colorado Game and Fish Department has discovered what makes a beaver eager. It's perfume. Like lots of two-legged animals, he's a sucker for a scent.

That makes the Department's beaver-trapping program a cinch. The department traps beavers because they damage irrigation projects.

Herman Wilson, a trapper, noticed at a stock show that whenever a heavily-perfumed woman passed the cages the beavers dropped whatever they were doing and started sniffing.

Another time, a beaver wandered into downtown Denver and was captured by Rangers. He wouldn't have anything to do with the men around the department but when cologne-wearing Georgia Diana, a Secretary, came around he snuggled up in her arms.

That gave Wilson a slick idea for beaver trapping.

When Wilson started sprinkling perfume on his traps the beavers came running.

Wilson won't give out the department's recipe for beaver perfume. He's afraid poachers would swipe the idea.

Deaths

VERSAILLES, Ky., (CP) — John Hampton Morris, 93, Dean of United States thoroughbred breeders and trainers.

Miss Marjorie Whitmore, Matron of Kaslo Hospital, New Superintendent

Miss Marjorie Mildred Whitmore, R.N., Matron of the Victorian Hospital of Kaslo for the past 10 months, has been appointed Superintendent of Nurses at Kootenay Lake General Hospital.

She succeeds Miss Mary N. Murray, and will begin her new duties around October 1. Until that time Miss Vera Hayden, Assistant Superintendent, will have charge.

Miss Whitmore, who was graduated from the Vancouver General Hospital School of Nursing in 1939, has had considerable nursing experience. Besides being case room nurse at the Vancouver General, she saw service in World War II before coming to Kaslo.

She spent 4½ years with the Royal Canadian Army Medical Corps during World War II, serving in England, the Western European countries and Canada. She was overseas three years as an operating room nurse, and during one year in Canada was a supervisor.

She was in England almost two years. She returned to Canada in 1945 and received her discharge from the R.C.A.M.C. in 1946.

Saskatchewan-born, Miss Whitmore was educated in Regina. Her home at present is Vancouver, where her parents, Dr. and Mrs. A. E. Whitmore, reside.

Miss Whitmore has her A.T.C.M. in piano from the Toronto Conservatory of Music. Her playing is one of her chief interests. She is also fond of outdoor sports, and is a member of the Kaslo Golf Club.

VICTORIA, Aug. 4 (CP) — The beer licence of the Columbia Hotel, Vancouver, was suspended today by Liquor Commissioner W. F. Kennedy, effective immediately. No reason was given for the suspension.

Mount St. Francis Plans Ready For Tender Soon

Working plans for Mount St. Francis, home for the aged of Kootenary-Boundary, will be ready for submission to tender within three or four weeks.

This was the word Wednesday of Mrs. Ilsa J. C. Williams, Architect.

The sketches have been held up for some time because of shortages of certain building materials. These difficulties having been overcome, the drawings for all trade are being rushed to completion.

Egg Prices Advance Five Cents

Wholesale price of eggs in Nelson has advanced five cents a dozen, bringing Grade A large eggs to 62 cents a dozen.

The increase is in line with a recent jump in Coast egg prices.

With the lifting of the Dominion Government's subsidy on oils and fats Sunday, shortening and lard prices have shot up 10 to 11 cents a pound.

Okanagan peaches, apricots and plums are reaching the City, and next week cantaloups can be expected on store counters.

Grain men received two cars of hay only during the week.

Cards Whip Giants Twice; Bosox Lose

By STEVE ROBERTSON
Canadian Press Staff Writer

Boston Braves are coming back to the pack with a rush that promises to give the National League as hot a pennant-race as the four-team scramble going on in the American loop.

The Braves lost their third straight to the seventh-place Cincinnati Reds last night and saw their league-leading margin trimmed to four games.

St. Louis Cardinals took over the second position from New York Giants by whipping the Giants in both ends of a double-header. The Giants plummeted into fourth place when Brooklyn Dodgers won their single game to take third a half-game behind the Cards.

The Reds defeated the Braves, 4-2, at Boston before a crowd of 18,916. A fast double play choked off a ninth-inning Boston rally after one run had been scored.

For four innings Lefty Ken Raffensberger, starting and winning Cincinnati pitcher, hurled a perfect game, facing only 12 batters. Then Bob Elliott, first Boston batter in the fifth, powered a home run out of the playing field in right centre.

Boston's only other run came on three successive singles in the ninth when Harry Gumbert replaced Raffensberger and quieted the incipient Reds.

Voiselle, starting Boston pitcher, pitched shutout ball until the top of the fifth when Ted Kluszewski hit a home run, his seventh of the season.

The Reds added another run in the sixth and Danny Litwhiler's two-run homer, his 11th circuit clout of the campaign, gave them their other two.

At New York, the Cardinals got two brilliant pitching performances for their double win. The one by Harry (The Cat) Brecheen was almost perfect. He shut out the Giants, 3-0, on two singles in the second half of an afternoon-night twin bill. He allowed only three runners to reach first.

In the opener, big Red Munger went the route for the first time since May 18 for a 7-2 triumph. He scattered 10 hits, giving up six of them in the first three innings.

The Dodgers won at home over Chicago Cubs, 5-4, when Bruce Edwards singled home the winning run with two out in the ninth.

The winning run came the hard way. Jackie Robinson singled off Bob McCall with one out and Gene Hermanski doubled. However, Robinson was out at the plate on the outfield relay. The hit derricked McCall in favor of Jess Dobernic who three exactly one ball. Bruce Edwards singled sharply into left field, and that scored Hermanski.

The Dodgers scored two in the first, one when Robinson stole home. This set off a fierce argument by the Cubs and starter Russ Meyer was banished.

Rain postponed the Pittsburgh at Philadelphia game and also washed out two games in the American League, where only one contest was played.

BROWNS WIN

The one American League game resulted in Boston Red Sox temporarily bowing out of the virtual four-team tie for first place. The Sox went down, 9-8, to the Browns at St. Louis and fell into fourth position a half-game behind the three leaders.

Hard singles by Jerry Priddy and Whitey Platt with two men out in the ninth scored two runs and gave St. Louis the victory.

Men's Open Match Golf Starts at Trail This Weekend

TRAIL, B.C., Aug. 4—This weekend 60 golfers from the Kootenays and the United States will tee off for the annual men's open tournament on the greens of the Rossland-Trail course.

Early this week the entry list at Trail stood at 40 and another 20 were expected on the scroll by Saturday. Last year 70 golfers participated in the competition.

Of the entries so far received, 15 are from out of town points, which include Nelson, New Denver and Spokane. Spokane will send four of their top flight golfers: C. W. Chronister, Al Appleton, Hal Eustis and Carl Gill.

All are top flight, low handicap performers and Chronister is one of Spokane's leading professionals.

The tourney will get under way Satuday. Over $300 in prizes await the winners.

Olympic Standing

OLYMPIC STADIUM, Wembley, Aug. 4 (CP)—Unofficial standing by countries participating in the 14th Olympics, after final competition in 43 events:

United States 297
Sweden 110
France 90½
Hungary 72
Turkey 54
Netherlands 50
Australia 48
Finland 48
Italy 33
Austria 27
Britain 27
Denmark 25
Switzerland 24
Norway 22½
Czechoslovakia 18
Belgium 15
Peru 11
Jamaica 11
Argentina 9
Panama 8
Yugoslavia 7
Canada 6
Poland 6
Ceylon 5
Mexico 3
Brazil 2
Spain 1

(Points are given in most events on basis of 10 for first place, with 5, 4, 3, 2 and 1 for the next five places; but some, such as wrestling, are scored only for the first three places.)

COAST PLAYERS INTO SEMI-FINALS

VANCOUVER, Aug. 4 (CP)—Two Vancouver and two Victoria players moved into the semi-finals of the British Columbia ladies' golf championship at Capilano Golf Course today.

Oak Bay star and defending champion Mrs. Margaret Todd ousted Mrs. Phil Godden of Vancouver 4 and 3 while Mrs. Todd's club mate and sister-in-law, Miss Marjorie Todd, defeated Mary Cowan of Vancouver 4 and 3.

Vancouver city champion and last year's B.C. finalist, Rena O'Callaghan of Quilchena, romped by Mrs. McIlraith of Vancouver Shaughnessy 6 and 5 and Helen Cleat upset Babs Davies of Vancouver Marine Drive 3 and 2.

In tomorrow's semi-finals, Mrs. O'Callaghan faces Marjorie Todd and Mrs. Todd opposes Helen Cleat.

Regatta Ribbons To U.S. Splashers

KELOWNA, B.C., Aug. 4 (CP) — Two speedy American splashers captured the red ribbons today at the 42nd annual Kelowna Regatta. Dick Campbell of Seattle, and Jean Juniper, 20-year-old from Spokane, won the men's and women's senior aggregates. But Old Man Weather broke a 32-year-old record, delivering more rainfall in three days than the amount that fell during the entire month of August, 1916.

Pat Whiteside, Vancouver, and Jim Portelance, Ocean Falls, B.C., took the junior aggregates. Competition was keener this year as many of the Pacific Northwest's outstanding splash artists now are attending the Olympic Games.

First-placers were:

400-yard relay, free style junior girls—Vancouver (Pat Whiteside, Doreen Liddicoat, Dorothy Cook, Diane Johnson).

50-yard back stroke, junior boys, B.C. championship — Art Inglis, Victoria.

200-yard free style, senior men, B.C. championship — Dick Campbell, Seattle.

200-yard free style, senior ladies, B.C. championship — Jean Juniper, Spokane.

50-yard back stroke, senior men, B.C. championship — Ted Willson, Vancouver.

One mile, senior ladies, B.C. championship — Jean Juniper, Spokane.

Free style, girls 16 and under, open—Pat Whiteside, Vancouver.

100-yard breast stroke, senior ladies, B.C. championship—Ina Salmon, Victoria.

One mile, senior men, B.C. championship—Star Taylor, Ocean Falls.

100-yard free style, junior boys, Interior B.C.—Walter Koenders, Trail.

50-yard free style, senior ladies—Beverley Sabine, Spokane.

100-yard breast stroke, senior ladies—Ina Salmon, Victoria.

200-yard relay, free style, junior boys, B.C. championship—Victoria, (Ray Jubb, Barry Cavinias, Stan Powell, Art Inglis).

50-yard free style, girls 16 and under—Pat Whiteside, Vancouver.

400-yard relay free-style, senior ladies' B.C. championship — Vancouver (Doreen Liddicoat, Marilyn Matchett, Norah Kirkpatrick, Betty Brett).

200-yard free-style junior boys, B.C. championship — Jim Portelance, Ocean Falls.

50-yard free-style, boys 14 and under, Interior B.C. — Bill Morrison, Kimberley.

50-yard back-stroke, senior ladies B.C. championship—Norah Kirkpatrick, Vancouver.

100-yard free style, junior senior girls, B.C. championship — Pat Whiteside, Vancouver.

100-yard free-style, senior men, B.C. championship—Dick Campbell, Seattle.

Senior men's fours, championship of Okanagan Lake — University of Washington.

BOATING

Class 135 hydroplanes, Loyd Cup —Miss-B-Havin (George Baldwin).

War canoe, junior girls—Kelowna

Boats with pepped up motors, Occidental Fruit Trophy — Yellow Jacket, (A. Way) Vancouver, Mercury II, (S. Morton) Vancouver, Stolen Time (J. Lecam), Vancouver.

War canoes, senior ladies—Penticton.

Byng Strengthens Third Place Hold In Cranbrook League

CRANBROOK, B. C., Aug. 4 — Byng heated up their winning streak last night with a hair breadth 5-4 win from Zenkeys to latch tight to third place in City Softball League while Zenkeys slid to within a half game of bottom. Only the top four will make playoff position. Schedule ended last night with eight postponements to play.

Fruitvale, Nelson Game Rained Out

A West Kootenay Baseball League game scheduled for Wednesday night at Fruitvale was rained out. Nelson Tigers made the first leg of the trip to Salmo where word was received that Fruitvale was in the centre of a cloudburst.

The game will be played here Sunday. In the other two corners of the loop things will be quiet over the weekend.

BARRON STROKE AHEAD OF RALPH GULDAHL

CHICAGO, Aug. 4 (AP)—Herman Barron of White Plains, N. Y., 1946 champion, surged into the halfway leadership of the $50,000 all-American golf tourney today with a four-under-par 68 for a 36-hole aggregate of 136, eight under standard.

Barron's second straight 68 over windswept Tam O'Shanter course gave him a one-stroke lead over Ralph Guldahl, whose record-breaking 64 gave him the opening-round lead yesterday in the 72-hole medal play test.

Guldahl cooled off today with a one-over-par 73.

In third place, two strokes off the pace in professional phase of Tam's three-ringer carnival, was South African Bobby Locke.

Elected President Of Hockey Hall of Fame

KINGSTON, Ont., Aug. 4 (CP)—William J. Watts, prominent Kingston sportsman, has been elected President of the International Hockey Hall of Fame.

A vote by mail named him successor to the late Mayor J. Stuart Crawford. Magistrate J. B. Garvin becomes first Vice President, succeeding Mr. Watts.

Fencing:

Epee teams—Alf Horn, Robert DesJarlais, Georges Pouliot and Roland Asselin, all Montreal.

Yachting:

Firefly class—Paul McLaughlin, Toronto.

Star class—Bill Goodeman and Gerry Fairhead, Toronto.

Swallow class — John Robertson and Dick Townsend, Hamilton, Ont.

Basketball:

Canada's team meets Uruguay.

List of Canada's entries in Olympic track and field events and their best performances:

400-metre run — Olympic record, 46.2 seconds set in 1932 by W. Carr, United States, Canada's entry 3544; Bob McFarlane, London, Ont., 47.3

Women's 200-metre dash—creates Olympic record. Canada's entries: Diane Foster, Vancouver, 25.5; Millie Cheater, Vancouver, 25.9; Donna Gilmour, Vancouver, 26.2.

Decathlon — Olympic record, 7900 points made in 1936 by Glen Morris, United States. Canada's entry: Lionel Fournier, Montreal, 6448.

Vancouver Seeks 1950 British Empire Games

TORONTO, Aug. 4 (CP)—Vancouver may nose Toronto out in the bid for the 1950 British Empire Games, Robert Somers, Secretary of the Canadian Amateur Athletic Union, said today.

"They have more representatives at the Olympic Games to lobby the British Empire Games Association," he told a meeting of local and Hamilton sportsmen here. "We know they are trying very hard to get them." Hamilton has also bid for the Games.

Somers outlined the arrangements entailed in holding the Games. It would cost about $150,000, although revenue to the city would amount to more than $300,000, he said.

Those attending the meeting here indicated they are solidly in favor of having the Games in Toronto. They passed a motion assuring the city of cooperation and participation.

If the Games are held here the track and field events probably will be run off at the Canadian National Exhibition grounds. Either the 1,000,000-gallon Sunnyside swimming pool or a portable pool could handle the aquatic events.

County Cricket

LONDON, Aug. 4 (Reuters) — Close of play scores today in county cricket matches:

Yorkshrie vs Leicestershire. Leicestershire first innings 300. Yorkshire first innings 20 for none.

Glamorgan vs Gloucestershire. Gloucestershire first innings 139 for eight.

Lancashire vs Essex. Essex first innings 366 for five.

Somerset vs Sussex. Somerset first innings 249. Sussex first innings 117 for two.

Derbyshire vs Surrey. Surrey first innings 164; second innings 13 for one. Derbyshire first innings 83.

Kent vs Nottinghamshire. Kent first innings 390 for eight, Nottinghamshire first innings 23 for one.

Northamptonshire vs Middlesex. Northamptonshire first innings 213. Middlesex first innings 87 for two.

Worcestershire vs Hampshire. Worcestershire first innings 223. Hampshire first innings 16 for one.

Warwickshire vs Australian Tourists. Warwickshire first innings 138. Australians first innings 90 for two.

Fights

By The Associated Press

LOS ANGELES—Tommy Campbell, 137, Rock Island, Ill., stopped Tony Mar, 134¼, Hermosillo, Mex. 6.

PORTLAND, Ore.—Bill Petersen, 200, Seattle, stopped Roy Hawkins, 182, Portland, Ore. 9.

SEATTLE — Bobby Jones, 148, Oakland, outpointed Billy Tierney, 152, Seattle, 10.

Better Golf

By SAM SNEAD

The finest physical equipment in the world will not of itself make you a good golfer. You must think a good swing and think a good game. And, that is the secret of golf's popularity. More people play golf than actually play all other sports added together. And I think it's the combination of muscle and brain that gives golf it's great appeal to the millions of golfers. Every time you step up to a ball, you have to use your brains to judge the distance, wind, roll hazards and decide what club is correct under the circumstances. From there on, you should think only of the swing and how you're going to make it. If you'll let your mind stray away from making a good swing to concern over the result and too much eagerness to see the ball in flight, you're finished. If you think a good swing, you'll tend to make it. And, if you make a good swing, the ball will take care of itself.

Cyclist to Challenge Ruling of British Olympic Committee

MANCHESTER, England, Aug. 4 (Reuters)—Reg Harris, world sprint cycling champion said today he will challenge the British National Cyclists' Union Olympic Committee's right to drop him from the British Olympic team.

The Committee cancelled his nomination last night because he left the official track training quarters at Herne Hill, London, a week ago to train on roads near Manchester, and failed to return at the stipulated time last night.

NEW LISKEARD, Ont. (CP) — The New Liskeard Council recently received a proposal from a local golf club that the town should take over and operate the club as one of the activities of the Recreation Committee.

At the Olympics Today . . .

By The Canadian Press

OAKLAND BEAVERS BEAT NATAL 6-3

NATAL, B.C., Aug. 5—Playing before a record crowd the touring colored team, the Oakland Beavers from California defeated the Natal Sports Club 6-3.

This was the first colored nine to show their wares at Natal-Michel in many years. The veteran Tom Krall pitching his second complete game in two years, had the colored boys bewildered after the first inning when they scored three runs on three hits and two walks.

The game was close and exciting especially in the last of the sixth when the Natal team, being four runs down, went to work and filled the bases followed by a base cleaning triple by Began Krall. The inning ended with the score 4-3 in favor of the colored team.

The visitors put the game away in the ninth inning when they scored two runs on two hits and an error. The game ended in a thrilling finish when pinch hitter J. Krall poled a double and was called out on a close play as he tried to stretch it into a triple.

Fisher pitched masterful ball for the Oakland team allowing but seven hits while striking out an even dozen batters.

T. Krall was nicked for eleven hits while striking out nine batters.

Hicks and Watkins with two hits apiece led the attack for the winners while Salahub and Chala with two hits each were the big guns for the losing Natal team.

The game was umpired by P. Zeith of Natal and J. Katrichak of Michel.

Lineups:

Natal—Quorin, E. DePaoli, Chala, Scott, Salahub, A. Krall, D. DePaoli, Turyk, T. Krall.

Oakland Beavers—Dixon, Hicks, Green, Watkins, Grey, Olia, Bruleson, Hamilton, Fisher.

Silver Medal to Calgary Marksman

LONG BRANCH, Ont., Aug. 4 (CP)—Sgt. Maurice Norman of Calgary captured the "Our Friends" Trophy match and silver medal at the annual Ontario Rifle Association meet here today. He defeated Maj. F. J. Goodhouse of Ottawa, 24-22, in a tie shoot-off.

The two marksmen were tied for first place for the O.R.A. silver medal at the end of shooting yesterday, although Sgt. Norman had already taken top money of $25 with a stronger finish.

To Probe Newfoundland's Mineral Fields; Set Tentative Union Date

By D'ARCY O'DONNELL
Canadian Press Staff Writer

OTTAWA, Aug. 3 (CP)—Newfoundland's entry into Confederation is expected to intensify the search for minerals on the island and its dependency, Labrador.

The Canadian Government, in outlining what it would do if Newfoundland joined Confederation, said it would send officers into the field to investigate known mineral deposits and to search for others.

Much of the officers' attention may be concentrated on Labrador, the 110,000 square miles of practically unpopulated territory which sits on the Northeastern boundary of Quebec.

LARGE DEPOSITS IRON ORE

Canada's External Affairs Department notes that Labrador's resources "have not yet been thoroughly surveyed, but there are large deposits of high-grade hematite ore in the area bordering on Northern Quebec, and huge water-power potentialities at Grand Falls and substantial stands of small timber." It says that "production of iron ore within the predictable future, however, is a distinct possibility."

The Labrador iron ore deposits are believed to be an extension of those discovered a few years ago in the Ungava District of Northern Quebec.

Besides iron ore, the island produces small quantities of lead, zinc, fluorspar and limestone.

Gold, silver, copper, chromite, manganese, antimony and nickel are believed to exist in various parts of Newfoundland, but investigations so far indicate their quantities to be too small to warrant development.

Coal also has been found on the East Coast of the island, but the deposits are believed to be only the outcroppings of the Nova Scotia coal fields.

UNION JULY 1

Officials of the Mines and Resources Department believe they can put mineral research officers into the field shortly after union of Newfoundland with Canada is consummated. No date has yet been set, but July 1, 1949, is mentioned as the likely date for the island's entry into Confederation.

Vic Raschi, star sophomore pitcher of the New York Yankees, did himself proud in the recent All-Star game, when he pitched and hit the American League to a 5-2 win over the National League.

AMUSED— Actress Ingrid Bergman smiles during reception she attended at residence of the U.S. ambassador in London.

Managers Scarce For N.Z. Mines

GREYMOUTH, N. Z., (CP)—Miners in New Zealand are now being paid more than the mine managers in some instances. Few men working on the coal face earn less than $2900 a year at the present time. This is more than twice the wage earned by the average skilled tradesman in the Dominion.

As a result a serious shortage of mine managers is developing as it is difficult to get men to study for their mine manager's certificates. They argue that they can earn more in the mines, working a 35-hour week while the mine managers have the responsibilities of the mines on their hands 24 hours a day, seven days a week.

To overcome the shortage, schools of mines are planning special inducements for students, such as allowing them to spend part of their working time at the schools at miners' rates of pay.

THE ANSWER, QUICK!

THE ANSWER, QUICK!

1. What is the name of the heroine of Shakespeare's tragedy Hamlet?
2. What does the Latin phrase Ex Libris mean?
3. Who was the author of the lines, "Life is real. Life is earnest. And the grave is not its goal"?

HOW'D YOU MAKE OUT?

1. Ophelia.
2. From the books of.
3. Longfellow: A Psalm of Life.

YOUR FUTURE

Better take a serious approach to things at this time. It will pay. In the year just starting for you, forge ahead with all your plans. Hopes and ambitions should now be realized—financial expansion, recognition and great happiness are within your grasp, so seize these splendid opportunities.

IT HAPPENED TODAY

On Aug. 5, 1945, the Japanese city of Hiroshima was blasted by an atomic bomb dropped by the United States Air Force. This is also the date of the battle of Mobile Bay in the American Civil War, in 1864, with Admiral David Glasgow Farragut the Union commander.

IT'S BEEN SAID

Bad laws are the worst sort of tyranny.—Burke.

MODERN MANNERS

In church, if you must leave before the service ends, it is permissable to sit next the aisle and let others pass you. If you are staying for the entire service, move to the end of the pew so that others coming later may be seated without having to push past you.

POSTERS SHOUT DEFIANCE

TOKYO, Aug. 3 (AP)—Japanese Communists today plastered Tokyo with posters shouting defiance of the Government and the occupation.

"We hereby declare war against Fascism and third party interference which are running berserk," said the posters. The "third party" is the Communist way of referring to the occupation.

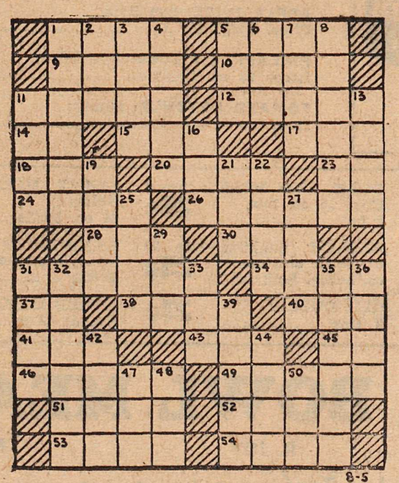
Yesterday's Answer



DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

IYZUIV TS ORL ALIVUED OU DLL ORL CUHSE FIAYD ZHS DGUZOTSE IYUHO—BIOOD.

Yesterday's Cryptoquote: WHERE NIGHT, DEATH, AGE, CARE, CRIME, AND SORROW CEASE—YOUNG.

TENDERS

Sealed tenders will be received by the undersigned until 2:00 o'clock P.M., Regina Time, August 27th, 1948, for the diversion of Portage Creek and for channel improvement work on the Lillooet River between Lillooet and Tenasse Lakes.

The work is located in Lot 5536, New Westminster District, being Indian Reserve No. 1A, and in Lot 3612, New Westminster District, being covered by Timber License 9316P and on a strip of land between Lots 5536 and 3612. The general site of the works is approximately twenty-seven miles South of Pemberton, British Columbia, at the South end of Lillooet Lake.

Tenders must be submitted on the forms attached to the specifications, in the envelope provided. Bids are to be made in a LUMP SUM as provided for in the specifications.

The following are the main items of work.

Clearing—63 acres.

Channel improvement—632,000 cu. yds.

Diversion channel—2,200 lin. ft.

Extra work—15,000 dollars.

Plans, specifications and form of contract are on view at the following places:

Burnett and McGugan, Consulting Engineers, 644 Clarkson St., New Westminster, B. C.

P.F.R.A. Office, 118 Victoria St., Kamloops, B. C.

P.F.R.A. Office, 418 Public Building, Calgary, Alberta.

P.F.R.A. Office, 910 McCallum-Hill Building, Regina, Sask.

Plans, specifications and tender forms for bidding may be obtained from P.F.R.A. Offices at Kamloops, B. C., and Regina, Sask., upon the deposit of Ten Dollars ($10.00) cash or a certified cheque for that amount, payable to the Receiver General of Canada, which deposit will be redeemable upon return of the plans and specifications in good order within one month after tenders have closed.

Any tenders which are not prepared strictly in accordance with the "Instructions to Bidders" may be rejected.

The lowest or any tender not necessarily accepted.

BY ORDER,
L. B. Thomson,
Director of Rehabilitation,
910 McCallum-Hill Building,
REGINA, Saskatchewan.

GOVERNMENT LIQUOR ACT (SECTION 28)

NOTICE OF APPLICATION FOR CONSENT TO TRANSFER BEER LICENCE

Notice is hereby given that on the 9th day of August next, the undersigned intends to apply to the Liquor Control Board for consent to transfer of Beer Licence No. 7859, issued in respect of premises being part of a building known as the Royal Hotel, situate at 330 Baker Street upon the lands described as Lots Two (2) and Three (3) in Block Twelve (12), City of Nelson Official Plan, Nelson Land Registration District, in the Province of British Columbia, from Julian Kopala and Joseph Mikita to Royal Hotel (Nelson) Ltd., of Nelson, British Columbia, the transferee.

Dated at Nelson, B.C., this 10th day of July, 1948.

ROYAL HOTELS (NELSON) LTD.
Per Jean Soloway,
A Director of Applicant and Transferee.

Over 4,000,000 yards of tweed—about 2300 miles or almost one-tenth of the Equator's length—were produced in Britain in 1947.

Market Trends

TORONTO (CP) — All groups strengthened in light trading. Action perked up considerably as industrials and golds moved ahead steadily on good gains. Base metals and Western oils were quiet with gains outnumbering losses.

NEW YORK (AP)—An upward trend slowly gained momentum.

Moving ahead in response to only light demand, leading issues tacked on gains of fractions to an outside of three points. Rails, oils and steels were the most popular groups.

LONDON (Reuters)—Trading was quietly firm with volume down due to the holiday season.

MONTREAL (CP) — Dominions, Provincials, Municipals and Corporations remained firm and unchanged in dull trading on the bond market.

Invermere . . .

INVERMERE, B. C.—Johnny McQuaig of Wood River near Golden arrived Tuesday to spend his birthday with his mother and stepfather, Mr. and Mrs. Carlo Svenson.

Fenton Smith of Windermere left Thursday for Creston to visit his son and daughter-in-law, Mr. and Mrs. George Smith.

Mrs. John MacDonald and daughter, Elizabeth of Kimberley who have been the guests of Mr. and Mrs. Fenton Smith at Windermere have left.

Miss Chrissie Watson of Kimberley was the guest of Mr. and Mrs. Ian Weir this week.

Miss Marion Pietrosky returned Friday from Cranbrook where she has been visiting friends.

Mr. and Mrs. L. S. Oulton and their house guests, Mrs. F. A. Harris, R. B. Harris and Miss Justine Garwood, have returned to Windermere from Grand Forks where they attended the display of seed crops.

Rev. Father Robert McGuinness of Banff and his sister, Miss Kathleen McGuinness of Liverpool, Eng., left Wednesday after spending a week as the guests of their brother and sister-in-law, Mr. and Mrs. O. A. McGuinness. Miss McGuinness plans to return for a longer visit shortly.

Mrs. N. Orme Catt, who has been the guest of Mr. and Mrs. T. N. Weir for the past three weeks left Friday for Fairmont Hot Springs to visit Mr. and Mrs. R. W. Bartman before leaving early in the week for Prince Rupert.

Mr. and Mrs. Fred Morgan and children of Calgary are the guests of Mrs. Morgan's brother-in-law and sister, Mr. and Mrs. Gilbert Taynton.

F. O. Jim Ashworth visited his parents, Mr. and Mrs. Arthur Ashworth Saturday. He was on his way to the Coast after taking a course in Eastern Canada.

Robert Dezall of Windermere has been discharged from the Lady Elizabeth Bruce Memorial Hospital.

Robert Nasadyck is a patient in the local hospital.

Mr. and Mrs. Wallace Faulkner of Calgary and Mr. and Mrs. Ike Hanna of Trochu have been guests of Mr. and Mrs. Melvin McArthur at the White House, Windermere, this week.

Mrs. Eric Smith of New Westminster is spending a two weeks' visit with Mr. and Mrs. John Meredith at Radium Hot Springs. Mrs. Smith has been visiting her two sons in Calgary.

Mr. and Mrs. Stanley Green and sons of Calgary are the guests of Mr. and Mrs. Lloyd Tegart at Windermere.

Blood Donor Clinic Date Set For Windermere

INVERMERE, B.C., Aug. 4—Both the Red Cross Mobile Blood Donor Clinic and the Travelling Chest X-Ray Clinic are scheduled to serve the Windermere District in mid August.

Arrangements for the Blood Donor Clinic are being made by the Windermere District Branch of the Red Cross. Two hundred donors are needed in the District to fulfil the quota. More than half this number have already registered as prospective donors and it is anticipated that more will come forward to fill the need.

The clinic is scheduled for Aug. 20 and the Community Centre at Invermere will be used as clinic headquarters.

Tentative schedule of the Tuberculosis Unit also announces Aug. 20 as the Invermere date, with Canal Flat, Windermere and Edgewater also to be visited that week.

Kimberley Liquor Store Moves to New Location

KIMBERLEY, B.C., Aug. 4—Kimberley's long outgrown frame Government Liquor Store has been abandoned for the new stucco and marble store next door across from the Wallinger Avenue and Howard Street intersection which was recently completed. It covers a 120 by 30 foot area and is more appropriate to the huge volume of business done here annually.

The building provides increased customer facilities in space and counters, plenty of stockroom space, office, washroom and a furnace room with automatic stoker and hot air system. It was designed by L. W. Hargreaves, Provincial Government Architect, and was built on contract with local supplies by Fabro Building and Supply.

Vendor and assistant continue to be G. G. Musser and W. Richardson.

Last Rites Held For Young Natal Businessman

NATAL, B.C., Aug. 4—The funeral of John Press took place at St. Michael's Church where funeral services were officiated by Father E. Brophy of Michel.

Mr. Press, who was one of Natal's younger businessmen, died suddenly at his home from a heart attack. He was 42 years of age, born in the small town of Zuberech, Orafska Zupa in Czecko-Slovakia. He arrived in Canada with his parents when only a few years old in 1906 and had lived in Natal-Michel and at Corbin, B.C.

He is survived by his mother, a sister, Mrs. H. Eberts, a brother, his wife and four children.

HIGHWAY PATROL PROGRESSES AT NATAL-MICHEL

NATAL, B.C., Aug. 4—The highway throughout Natal, which has been under repair for the past few weeks, is rapidly being raised and levelled.

The raising of the highway throughou the town is over two feet in places. This is part of the road building program set by the Provincial Government.

It is expected that as soon as the highway throughout Natal has reached its proper level the work of hard surfacing will take place.

IT'S A RED FALL FOR MILADY

By FLORENCE MILLS

PARIS, Aug. 4 (AP)—It's going to be a red Autumn if French designer Caeven has her way.

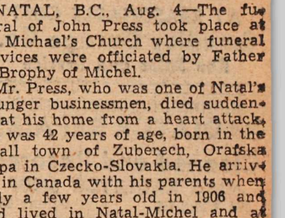
In her Fall collection she exploits every conceivable hue of red—from deep tomato to fire-engine red.

Main silhouette in the show lays the emphasis on tiny waists and draws attention to hip detail.

Main line of interest falls around the middle of the torso. Caeven divides nearly all her dresses into three sections. They comprised bodice, which reaches to just below the waist; a wide waist-yoke, molded to the waist by discreet panelling of darting, sometimes by a belt, and finally, a skirt which picks up where the yoke finishes. The skirt frequently has gathered or unpressed pleated fullness.

Each section is invariably defined by threaded velvet, soutache embroidery, jet beading or fancy seaming.

Saucy jackets introduce a new waistline.



You're as Young as You Feel

It's amazing what a flower in your buttonhole and a colorful necktie will do for you.

Just like the color jobs we turn out, letterheads, flyers, circulars, posters, etc.

For attractiveness, nature uses color with a lavish hand. Why not try it? Expertly carried out, our "color jobs" are always in good taste.

Overnight Storm Strikes Coast

VANCOUVER, Aug. 4 (CP) — A fishing vessel was reported aground today, a steamer temporarily disabled and two homes struck by lightning during an overnight wind and electrical storm which struck British Columbia coastal areas.

Nelson Bros.' fishing vessel Audrey B was reported aground near Steveston, at the mouth of the Fraser River. The vessel was not believed seriously damaged.

The Canadian Pacific Steamship Princess Joan limped back to her Victoria dock shortly after midnight when a 30-mile-per-hour wind swung the ship in the inner harbor causing her to foul her port propellor.

At Princeton, lightning struck the home of Mrs. William Thomas. Mrs. Thomas, who suffered minor injuries, put out three fires started by the bolt.

In Vatpver, the home of Mr. and Mrs. T. H. Ingram was struck and plaster knocked from the walls but none of seven occupants was injured.

The storm was also blamed for the burning out of a teletype circuit in a Vancouver radio station. Transformers were burned out in Vancouver's East end and power still was off today in parts of Lulu Island.

Ask Toronto Police Aid in Locating Missing Hope Tot

TORONTO, Aus. 4 (CP)—Toronto police have been asked to help locate four-and-a-half-year-old Bobby Kirkland, believed kidnapped from his home in Hope, B.C. He has been missing since July 17.

His parents are convinced his disappearance is "a straight case of kidnapping" and cling to a belief that a tourist passing through Hope on the road across the Rockies took him.

2 Severely Burned In Refinery Fire

LEBEC, Calif., Aug. 4 (AP)—An explosion and fire at the General Petroleum Corporation refinery here early today severely burned two men. There were no fatalities.

The fire was brought under control within 40 minutes of the blast. Damage was confined mainly to truck sheds and a loading dock.

The blaze followed explosion of gasoline being loaded into a tank truck, it was reported. Refinery crews immediately shut off pipe lines carrying gasoline into the plant, thus preventing greater damage.

CONCILIATION BOARD FOR LOGGERS DISPUTE

VICTORIA, Aug. 4 (CP)—The Labor Relations Board today announced a conciliation board will act in the dispute between the I. W. A. and certain logging operators.

By the Starting Gate

. . . Stress "Land" in Name "Newfoundland" . . . Only Maritimers Are Right Now

Darwin, in his chapter on the struggle for existence, published nearly 100 years ago, illustrated the fine balance of Nature by tracing a fantastic but definite relationship between the propensity of men in a village to propose, and the success of the local crop of red clover.

The links in his chain of reasoning went something like this: The more old maids, the more cats; the more cats, the fewer field mice; the fewer field mice, the fewer brood combs of humble bees (our bumble bees) destroyed; the more successful the hatch of humble bees, the more heads of red clover visited by the only insect with a probosis capable of probing the long tube-like corolla for its nectar supply, and therefore the more heads of red clover fertilized.

Using somewhat similar logic, but with fewer links, I can see a clear relationship between the wide distribution of Newfoundland dogs in the Maritime Provinces—due partly to proximity to Newfoundland, and partly to the exceptional quality of those fine splendid animals—and the fact that the people of the Maritimes are the one section of the Canadian people who as a whole pronounce the name of Newfoundland correctly.

I'm not familiar with present day canine conditions in Nova Scotia, and cannot guess what facts a modern dog census in that sea-girt province would reveal, but in my boyhood days the most prominent breed of dog in my home county—Kings County, the heart of the Annapolis Valley—was certainly the Newfoundland breed.

In actual count, there were probably more fox terriers—I had one when a small boy. But the most numerous large dog, alike in town and country, was certainly the familiar black curly-coated Newfoundland, well proportioned, powerful, intelligent, and a famous swimmer—just the dog perfectly adapted to a maritime area.

To a Nova Scotia boy, the typical dog was a Newfoundland. It was a perfect family dog, a perfect watch dog, a perfect farm dog. It typified faithfulness and competence. In stories of rescues by dogs, it would be the dog drawn by the artist. I remember a picture in one of the Royal Readers of a shark turning on its side to engulf a swimming dog, a Newfoundland of course, but at the critical moment the captain's rifle spoke, and the ship's favorite was saved. More than once on my uncle's farm I watched old black Rover shake the life out of a skunk, and then take off for a few hours in the Gaspereau River.

As I recall, Charles G. D. Roberts played up the Newfoundland in his wild life stories, mostly based in New Brunswick. In 1896 I tramped as a book agent all over York County, and I could have been at home as far as dog conditions were concerned. I've no doubt the Newfoundland was similarly "top dog" in Prince Edward Island.

Quite naturally through the Maritimes there was one universal pronunciation of the name, "Newfoundland," as the name was in our mouths all the time, from the familiar presence of our husky, black-coated, curly-haired, friends, who were never completely out of sight, apart from other reasons. Maritime fishermen met Newfoundlanders on the Grand Banks and in the port of Boston, and Maritime sailors met them in every port in the world.

We pronounced the name as the Newfoundlanders themselves do, with the accent on the "land." Once in a long time there would be a minority voice for stress on "found," supposed to be of Yankee origin.

CANADIAN PRESS TOLD HOW

The day that Confederation finally assumed the lead in the recent plebiscite count in the Ancient Colony, a Canadian Press correspondent, cabling from St. John's, gave Canadians a few snappy pointers about the new member-elect of the Canadian family, and among other items, emphasized that the accent is on the third syllable, the "land," both in Government circles, and all other circles. The Oxford Dictionary was all wet with its "Newfound-l'nd," emphasizing "New." That was a bright, newsy story; it hit essentials.

I guess the radio people didn't read that dispatch — the Canadian radio people.

Take Saturday and Sunday for example.

Saturday, on the first news summary of the day, there were two versions, both wrong, in the first minute. The first version put the accent on the "found,"—NewFOUND!'nd, but it was corrected to the Oxford Dictionary "NEW-f'ndl'nd" before the sentence was out.

Then came the C.B.C. summary from Vancouver an hour later—the Oxford Dictionary version.

Newfoundland came into the news all through the day—except possibly in the two or more stroke-by-stroke broadcasts of the Canadian tennis championships. We had "NEWf'ndl'nd" from Toronto, we had it from the Canadian Henley at Port Dalhousie, Ont., and, yes, we had it from Bill Herbert, covering the Olympics at Wembley Stadium, London.

Whether the broadcaster was dealing with Prime Minister King's statement on Newfoundland, or was just mentioning incidentally the good news, every man Jack had to use the fantastic Oxford Dictionary mispronunciation.

ROSS MUNRO RUBBED IT IN

Came Sunday, and with it a learned on-the-spot disquisition from the famous Ross Munro, right from St. John's itself, talking from a Newfoundland studio, in the presence no doubt of Newfoundland radio officials and technicians.

"Here," thought I, "will be a break. He'll caution Canadians to revise their pronunciation of the name of this grand old land that is to be Canada's new Atlantic flank!"

In his gloomy review of all the animosities, some internal, and some directed toward the Canadian Government, aroused by the plebiscite fight, Munro followed the Oxford Dictionary "out of the window"—in a 15-minute talk it was "NEWf'ndl'nd" all the way. And when he had occasion to refer to Newfoundlanders, he called them "NEWf'ndl'nders."

So I'm mad.

Nobody likes to be called "out of his name."

Let's emphasize this point, that we shouldn't try to teach Newfoundlanders a new and better way to pronounce the name of their Ancient Colony; it's too much like teaching our grandmother to suck eggs. The new member of the family has a right to hear himself correctly addressed.

HOW WOULD WE LIKE IT?

I would not blame Newfoundlanders coming our way on sightseeing visits, if they applied gentle and indirect suasion on us, by casual references to "British Columboya," "Albert-ah," "Manitobah," and "Ontarrio." It wour perhaps sink in.

It is not necessary that we give full value to every consonant and vowel in the name "Newfoundland." Provided we bring out the "land" syllable good and strong, Newfoundlanders will be satisfied. If we say "Newf'ndLAND," or "Noo-f'ndLAND" — like "Flatbush Avenoo" in "The Moon Over Brooklyn"—or even "Newf'n'LAND," eliminating the middle "d' sound, will get by. The main thing is to build on the right model.

Earth Tremors Shake Atlantic City

ATLANTIC CITY, N. J., Aug. 4 (AP)—A slight earth tremor shook parts of this resort city yesterday. Residents reported dishes rattled and their houses vibrated but no damage was caused.

Better System In Business Accounting Sought

OTTAWA, Aug. 4 (CP) — The Prices Commission in a two-hour morning session today returned to the problem of industrial inventory reserves which the Parliamentary Prices Commission explored extensively and dealt with in its recommendations.

The Commons Committee recommended action requiring fuller disclosure of inventory reserves and Federal leadership in establishing a more uniform system of business accounting.

In questioning H. Greville Smith, Executive Vice-President of Canadian Industries Limited and examining his company's records, the Commission headed by Prof. C. A. Curtis came across an item of $125,562 for inventory reserve set up by the company in 1947 in its agricultural chemicals division.

Commission Counsel H. A. Dyde suggested that in a period of rising prices the practice of establishing inventory reserves might tend to force prices still higher. His suggestion was based on the idea that withdrawal of a sum for inventory reserve from a firm's profit might induce the company later on to raise its prices to get the profits back to a level it considered satisfactory.

Release Control On Marketing Flax

WINNIPEG, Aug. 4 (CP)—Marketing of flax, under Federal Government monopoly since early in the Second World War, has been released from control, it was announced today by the Winnipeg Grain Exchange.

The ceiling price control has been removed so that buyers and sellers will be able to trade freely above the support levels established by the Government. The support price, a floor price set by the Government, has been set at four dollars a bushel for the new season.

Chinchillas, aristocrats of the rodent family, are related to guinea pigs, rats, squirrels and rabbits.
