ROOSEVELT AN EXPANSIONIST

Advocates a Greater Navy and Trade Development

Greatly Desire Peace but not Afraid of War

San Francisco, May 13.—At the Mechanics' pavilion, president Roosevelt tonight made the most important speech he has delivered since he left St. Louis.

His subject, "Expansion and Trade Development, and the Expectation of the Country's Newly Acquired Possessions in the Pacific," together with the advocacy of a greater navy, made his discourse of particular interest and aroused his audience to a high pitch of enthusiasm.

When mayor Schmitz formally introduced the president to the people of San Francisco, it was some time before the cheers subsided, and the president was able to make himself heard.

He said "Before I saw the Pacific slope I was an expansionist, and after seeing it I fail to understand how any man confident of his country's greatness, and glad that his country should challenge with proud confidence our mighty future, can be anything but an expansionist.

"America's geographical position on the Pacific is such as to insure our peaceful dominition of its waters in the future, if only we grasp with sufficient resolution the advantages of this position. We are taking long strides in this direction. Witness the cables we are laying and the great steamship lines we are starting.

"We have taken the first steps toward digging an Isthmian canal to be under our own control, a canal which will make our Atlantic and Pacific coast lines to all intents and purposes continuous and will add immensely alike to our commercial and our military and naval strength.

"The inevitable march of events gave us the control of the Philippines at a time so opportune that it may without irreverence be held providential, and unless we show ourselves weak, unless we show ourselves degenerate sons of the sires from whose loins we sprung, we must go on with the work that we have begun.

"I hope that this work will always be peaceful in character. We infinitely desire peace and the surest way to obtain it is to show that we are not afraid of war. We should deal in a spirit of fairness and justice with all nations. We should show to the strongest that we are able to maintain our rights. Such showing cannot be made by bluster, for bluster merely invites contempt. Let us speak courteousy, deal fairly and keep ourselves armed and ready. If we do these things we cannot but count on the peace that comes only to the just man armed, to the just man who neither fears nor inflicts wrongs."

BADLY BURNED.

A Peculiar and Unfortunate Accident at Anaconda.

[Special to The Daily News.]

Greenwood, May 13.—A man named David Webb, was severely burned at Anaconda late last night. Your representative was at work in an office in Anaconda about half past eleven o'clock when a knocking attracted his attention. On opening the door he found a man standing there evidently suffering extremely. The unfortunate man was quite nude, and it was plain that fire had injured half of his body, whilst blood was dripping from his burned left hand. He was taken to a nearby hotel and simple remedies were applied until Dr. Gordon arrived from Grenwood.

The grave nature of the case was immediately recognized by the doctor, who, after relieving the unfortunate man's sufferings as much as possible, had him removed to the Greenwood hospital. This morning's report is that he is doing as well as can be expected under the circumstances, but his recovery can not just now be regarded as sure. There seems to be little doubt that Webb was the victim of want of carefulness. He was seen going to the house with some groceries after his return from a 17-mile walk to Long lake and back, where he had been to see a brother employed doing assessment work near the Jewel mine. He was quite sober, as is his wont to be, and it is supposed that after getting supper he lay down, having an unprotected candle alongside his bed. Being tired after his long walk he no doubt fell asleep and slept soundly, and was not awakened untll much burned. As a partly burned shirt was found smouldering some yards from the burning house it would appear that in his frenzy Webb tore off the burning shirt and ran over the rough ground to the office above mentioned. The house and contents, which were uninsured and belonged to Thomas Webb, were entirely destroyed. The latter was sent for early this morning and is now at hand to supply his brother's needs. Another brother, Samuel Webb, is resident at 216 Keefer street, Vancouver.

MISSISSIPPI BANKERS.

Hattiesburg, Miss., May 13.—The annual meeting of the Mississippi bankers' association began here today with a good attendance of members from various parts of the state. After the address of welcome by Col. W. H. Hardy, the convention took up the discussion of various questions of particular interest to the capitalists and financiers of the state. Cotton insurance, state bank supervision and the assessment laws with particular reference to the office of state revenue agent, were some of the topics on the agenda. Tomorrow the members of the association and their ladies will enjoy an excursion to Gulfport.

THE COUNTRY'S FINANCES

SPLENDID SHOWING FOR TEN MONTHS OF FISCAL YEAR.

THERE WILL BE A SURPLUS OF NEARLY FOURTEEN MILLIONS

Ottawa, May 8.—The country's financial showing for the ten months of the fiscal year which ends on June 30th is a splendid one, and the Finance minister's prediction that the year would close with a surplus of between thirteen and fourteen millions of dollars promises to be well within the mark.

The total receipts on account of consolidated fund for the ten months were $52,361,841, which exceeded the ordinary expenditure by $17,436,167, and gave an excess of $11,064,286 over all expenditures combined. The revenue exhibited a gain of $5,761,113, while the increase in ordinary expenditure was but $1,008,649. The expenditure upon capital acccount is below that of the same period of the previous fiscal year by $2,928,707. There have been gains from every source yielding revenue to the government, the increases being: Customs, $3,732,671; excise, $627,473; postoffice, $433,618; public works, $472,578; miscellaneous, $494,775. The comparative details of the revenue statement are appended:

Revenue.	Total to Apl. 30,'02.	Total to Apl. 30,'03.
Customs	$26,229,813	$29,962,484
Excise	9,255,806	9,913,279
Postoffice	3,069,651	3,503,269
Public works, including railways	5,463,222	5,935,800
Miscellaneous	2,552,233	3,047,008
Total	$46,600,728	$52,361,841
Expenditure	33,917,025	34,925,674

The expenditure on capital account was as follows:

	Total to Apl. 30,'02.	Total to Apl. 30,'03.
Public works, railways and canals	$6,343,131	$3,445,245
Dominion lands	244,374	318,540
Militia capital	114,213	104,278
Railway subsidies	$1,980,739	1,363,480
Bounty on iron and steel.	509,709	976,424
South Africa contingent..	209,221	175,392
N. W. T. rebellion	801	2,479
Total	$9,300,588	$6,371,881

HEAVY FLOODS IN FLORIDA

THE WORST STORM IN YEARS STILL IN PROGRESS.

MUCH DAMAGE HAS BEEN DONE TO PHOSPHATE PLANTS.

Jacksonville, Fla., May 13.—A heavy northeaster has been blowing for the past few days, accompanied by driving rain. Today the storm was unusually heavy. Reports from different parts of the state say that much damage has been done to the phosphate plants.

Big tides and heavy rains have flooded the lower portions of Jacksonville and boats are being used on several streets.

The terminal station approaches are from three to five feet under water. In the railroad yards, the waters are rushing through at a speed of six miles an hour. The rain fall in the past 24 hours was 8.40 inches. No trains arrived today.

Reports from other parts of the state say all railroads have been flooded. The storm is the worst in years. Many houses in the negro section were washed away.

THE RECHLIN CASE.

Noah Spradling , a Bartender, is Placed Under Arrest and Put in Sweat Box.

Lorain, Ohio, May 13.—The most important move made by the authorities in the Rechlin case since the release of Rev. Ferdinand Walzer, came today when Noah Spradling, the bartender who sold the gallon of whiskey to Casimir Rechlin directly after the murder, was taken to police headquarters.

Spradling is said to have divulged important information regarding the murder and will be held as a witness for the grand jury under heavy bail. Spradling was subjected to a sweat-box examination today, and at its conclusion detective Mintz demanded that the whole case be reopened. Mayor King, and prosecuting attorney Stroup have not as yet reached a decision in the matter.

TIDE OF EMIGRATION.

More People Leave for Canada Than for All Other British Possessions.

London, May 8.—The board of trade returns of emigration during April show that 9,763 Britishers left for Canada during the month as compared with 3,095 in the same month last year. During the first four months of the year 21,643 British emigrants left for Canada, as against 6,554 in the same period last year. The totals of British and foreign emigrants combined were 34,911 for the four months, as compared with 17,819. More emigrants have gone to Canada than to any other British possession, the totals for Australasia being only 3,324 and for South Africa 18,811.

LATE JUDGE MILLS BURIED.

Ridgetown, Ont., May 13.—The remains of the late Mr. Justice Mills, were interred here yesterday.

By a special proclamation issued by the mayor all places of business were closed during the transit of the remains through the town. The cortege was followed to the cemetery by several hundred citizens.

WOULD STAKE POLITICAL LIFE ON COMPLETING THE GRANTS

[Special to The Daily News.]

Victoria, May 13.—Two points of special interest developed out of the cross-examination of Wells, by Helmcken and McPhillips, which ended with the chief commissioner's dismissal from further attendance upon the Columbia & Western committee.

The first was with reference to Eberts' part in the negotiations for the acquisition of blocks 4,593 and 4,594. The second development arose out of McPhillips' endeavor to show that bill No. 87, of last session as drafted to enlarge the selection power, was in reality a cunningly concealed plan to carry out a promise of legislation to give away blocks 4,593 and 4,594 despite the cancellation; this promise being alleged in Brown's letter of March 22nd, to be made by Wells.

The latter matter followed a long interrogation as to why the railway company should not have been confined to the selection of lands from continuous reserves for such specific purpose, made at the company's suggestion. Wells admitted that within their distinct statutory rights the company could not have objected to take these lands. Still he held the government should not insist on this. The company was entitled to receive a land subsidy and presumably value therein. Morally the governmental obligation would not be satisfied by a gift of valueless mountain peaks.

"Do you know or think" McPhillips asked, "that it was the intention of the government in bringing in bill No. 87 to get round the difficulty by enabling the company to secure possession of blocks 4,593 and 4,594?"

"I did not," was the reply.

"Did you not give Brown assurance that legislation could be brought in which would in effect accomplish this?"

Again the witness gave a negative answer.

"You notice Brown makes a very bold statement to that effect in his letter of March 22nd?"

"I thought it was a very bold statement," said Wells.

Taking up Wells' letter in response to that of Brown's, McPhillips enquired if studying in sequence Brown's reminder to Wells that he had not been given assurance that blocks 4,593 and 4,594 would be secured to the company; Wells' intimation that it was "impossible for the government to go beyond the legislation it intended to bring down" and then this bill No. 87 (redemption of that promise) the natural inference was not that this bill had for its covert object the enabling of the company to get these particular lands?

Again Wells said no. The inference to his mind was the reverse. His letter to Brown stated emphatically that the company could not have these blocks. It could not have anything more than the reinstatement promised and intended to be given by bill No. 87.

The chief commissoner had hesitation in saying that Brown, throughout, had shown especial anxiety to secure these particular blocks, and Eberts had at all times supported the grant, and maintained the authority of the government to thus deal with the lands.

To come to recent events, Eberts had pressed him (Wells) upon his return from Montreal to make delivery of these patents, and he had said that if these grants were given the company "the government would have to go."

Eberts had answered: "Let us go then."

The attorney-general had been quite prepared to stake his political fortunes on completing the grants. He had not on other occasions shown such inclination to risk the going. Not even when McBride left the cabinet or Prior stepped into the premiership. This conversation was previous to the cancellation by order in council, from which Eberts dissented.

Eberts had also disapproved of bill No. 16 of the present session. This bill was drafted in the attorney-general's office, but materially changed in the house at McPhillips' suggestion. As it had come from the attorney-general's office, it had referred to the grants as executed, whereas delivery had not been completed. With the knowledge of Eberts' feeling in the matter the witness agreed that it would have been proper to have seen to it that bill No. 87 was drafted with special care, so as to carry out the intentions of the government, and make sure that Brown should not be able to carry out his "sinister scheme" with respect to blocks 4,593 and 4,594.

Brown's question as to whether the bill would "come in as drafted" suggested that Brown had drafted it. The witness was well aware that Brown was very anxious and would endeavor to secure as favorable legislation as possible. Full responsibility for the bill No. 87 rested in the attorney-general's office. The attorney-general had said there would be no difficulty, as under it the government would still have full power of control as to granting or refusing any selections that might be made.

To other questions during the examination, Wells said Creelman's objection to Greenshields acting as counsel for the province appeared to rest on personal grounds.

Had Shaughnessy agreed to the added conditions with respect to guaranteeing the building of the Midway-Spence's Bridge line, he would have felt justified in delivering the patents for blocks 4,593 and 4,594, although the preliminary agreement was subject to ratification at Victoria.

After his return from Montreal, Dunsmuir had said to him: "Brown is pressing for these grants again," and had asked "Why not give them to him?" Although the demanded concessions had not been allowed the premier and the other ministers wished the delivery to be made at that time.

No doubt the government, in canceling the grants was largely influenced by the Taylor incident, of which the witness had made no report to Shaughnessy. He was quite satisfied that Shaughnessy had no knowledge of the agreement for the transfer of the grants from the B. C. Southern to the Columbia & Western. He (witness) had become impressed with the fact that through this substitution the Crow's Nest Pass Coal company could be deprived of its selection or lands under the agreement shown by Shaughnessy with the B. C. Southern. In other words, the purpose of the substitution would be to defraud the Crow's Nest Pass Coal company out of 20,000 acres.

With respect to Hunter's opinion the witness had furnished a presentment of the facts and it had been complete. The witness had deferred to the majority when the granting order-in-council was passed. He had no information at the time of the particular value of the substituted lands. The policy of the government with respect to the licenses in these blocks was not yet decided. When the applications had been received, they with the money accompanying them, had been returned. There had been no determination as yet as to whether or not priority would be recognized.

Oliver at the resumption of the house on May 20th will ask the following questions:

1.—How many applications for coal and oil prospecting licenses in blocks 4593 and 4594 are made by agents claiming to act for applicants?

2.—Have agents signing the above applications satisfied the government that they were authorized to sign the above mentioned applications?

3.—What steps, if any, do the government intend to take to ascertain if these applications by agents are or are not fraudulent?

4.—Is it the intention of the government to recognize the claim to priority of location by the discoverers of coal and oil in southeast Kootenay?

ATHABASCA-VENUS STRIKE

MANAGER GRACEY CONFIRMS THE RECENT RUMORS.

VEIN PROVED CONTINUOUS AND VALUES ARE HIGH.

It has been rumored for some time that a strike of some magnitude had been made at the Athabasca-Venus mine but the management declined to make any statement of the matter until yesterday when superintendent Gracey confirmed the report. He said that while good looking ore had been reached several days ago he did not care to say anything about it until more work was accomplished and he was able to give some definite particulars.

Mr. Gracey says that the strike was made at the end of No. 1 tunnel which was being driven in along the lead. About three hundred feet from the surface a new vein of very rich ore was struck. It was not thought at first that this would prove of any size, hence his hesitancy about mentioning it, but subsequent development tends to prove that the vein is continuous. None of the ore from this new vein has been shipped to the mill, but trial assays made have shown that it is very rich.

Mr. Gracey was not prepared to give out yesterday the figures of the trial assay, nor would he commit himself as to the probable size of the newly found ore body, but the information will be shortly available, after further work is done.

DR. PARKIN'S VIEWS.

Thinks the Colonies and Motherland Should Combine For Mutual Defence.

Montreal, May 13.—A Witness' London cable says: Major Harold Parsons' chief ordinance officer at Natal read a paper before the royal colonial institute last night, in which he held the colonies should not expect to share the sea power of Great Britain, until they were willing to assume a share of the burden of maintaining the British navy.

Sir John Colomb, who followed, discussed the paper, and urged strongly in favor of the mother country and colonies combining for imperial defence.

Dr. Parkin, of Toronto, was given a great reception. He was strongly in favor of the colonies contributing towards the cost of naval defence. His remarks were chiefly confined, however, to a comparison of the United States and the British empire. In the former, each state had its own government, yet acknowledged the chief government at Washington. A similar arrangement was suggested for the colonies and the motherland.

A SWELL LOT COMING.

Toronto, May 13.—A News' London cable says: In the course of an interview this morning, lord Lyyden said that Dr. Lunn, the rival of Cooks' tourist agency, was leaving for Canada on June 13th to make final arrangements for the details and programme of the tour of the British parliamentary party through Canada.

His lordship further stated that a number of distinguished representatives of British industries were desirous of joining the party also. Many of the government's supporters were booked for the tour.

STRIKE AT VALPARAISO.

Several Buildings Were Burned and Ten Persons Were Killed.

Santiago, Chili, May 13.—The strike of dock laborers at Valparaiso is becoming more serious. The strikers after setting fire to the quay, as well as to the offices of the South American Steamship company, had a number of encounters with the police, during which ten persons were killed, and two hundred were injured.

A detachment of 6,000 troops has been dispatched to Valparaiso to quell the disturbance.

(Later)—Owing to the measures taken by the authorities and the government, the rioting at Valparaiso has subsided.

The damage is heavy. Several buildings were burned to the ground and the esplanade was destroyed.

Complete calm prevails today at Valparaiso.

Santiago, May 13.—Rioting at Valparaiso continued today, owing, however, to the strong represive measures taken by the government the outbreaks were less intense than yesterday. Martial law still prevails. Revised reports place the number of rioters killed at 20. The property damage is great

NATIONAL CIVIC FEDERATION

Trying to Bring About Harmony Between Labor and Capital.

New York, May 13.—In line with the work started last winter the executive committee of the National Civic Federation began a special meeting in this city today to further discuss ways and means for bringing about harmony between labor and capital. This is the committee of which senator Hanna is chairman, and among the members are Samuel Gompers, of the American Federation of Labor, former president Grover Cleveland, Cornelius N. Bliss, archibishop Ireland, president Eliot, of Harvard, bishop Potter and other men of note.

The special purpose of the present meeting, it is understood, is to agree upon some satisfactory plan by which strikes may be averted. It is said that suggestions will be made by the members to appoint arbitration boards in the various districts. These arbitration boards will be composed of representatives of all interested parties. Any trouble that arises between employer and employee will be referred to the board for settlement. If the board fails to reach an agrement satisfactory to both sides, then the matter will be placed in the hands of a higher arbitration board. The civic federation, it is understood, will suggest that it act as the higher board. It is further suggested that while the dispute is in the hands of the boards no strike can be declared.

THEY DENOUNCE CARNEGIE

BRITISH PRESS RESENT HIS ATTACK ON CANADA.

SAY HE IS DENSELY IGNORANT OF DOMINION'S CONDITION.

Montreal, May 13.—The Star's London cable says: Andrew Carnegie is evidently being found out by the British press, which, hitherto semed to regard him as a kind of beneficient fairy queen.

His wanton attack on Canada finds no sympathizers here, while even the Scottish papers reproduce the onslaught, made upon what is called "The bastard individualism of his Pittsburg-carrot-bonus-philanthropy."

The Canada Gazette, in an article entitled "Carnegie Vinegar," shows that Carnegie is ignorant of the elementary facts of Canada's present condition, and prays that Canada may be delivered from Carnegie's benefactions.

TETUAN HOLDS OUT.

Rebels Have Been Repulsed But Loss Was Great on Both Sides.

Madrid ,May 13.—A despatch from Ceuta, Morocco, announced that the tribesmen who attacked Tetuan on Monday, were repulsed. They stubbornly fought their way through the suburbs to the foot of the walls.

The imperial troops eventually gained their lost position and drove off the rebels with heavy losses on both sides.

A later despatch from Ceuta, says a courier who has arrived there by sea from Tetuan states that the battle was suspended in order to allow the opposing forces to bury their dead, numbering 300. Many heads are displayed on the walls. Tetuan still has three days' supply of ammunition. Advices from Tangier announce that the imperial forces have routed the rebels near Fez, inflicting great losses on the enemy.

LARGEST BATTLESHIP.

The Latest Addition to Britain's Navy Successfully Launched.

London, May 13.—The Commonwealth, the largest battleship afloat was launched at Govan on the Clyde, this afternoon. She is the first battleship in the British navy to have her ten inch guns protected by an extended barbette, instead of by casemates. Her other armament consists of four twelve inch guns, four 9.2 inch guns and twenty-four small guns.

The new battleship's speed is 18.5 knots per hour, and she will carry a crew of 755 men.

GARDINER WON IN THE 12th.

Louisville, Ky., May 13.—The Southern Athletic club had to seat an immense crowd in the auditorium tonight when Marvin Hart of this city and George Gardner of Lowell, came together for a 20-round bout. The two fighters were considered among the best of the light heavyweights. Gardner has won over every prominent aspirant for championship honors in his class. Hart likewise has a long string of victories to his credit and the result of tonight's meeting between the two was awaited with interest by the followers of pugilism throughout the country. The men met at catchweights, which was regarded as a slight advantage to Hart. Gardner was given the decision over Hart at the end of the 12th round, Hart giving up, claiming his arm was broken.

REPORTED LE ROI STRIKE

DIAMOND DRILLER GOT GAY AND TALKED TOO MUCH.

NEW PLANS ARE PREPARED SAYS DIRECTOR McMILLAN.

Rossland, May 13.—Anthony J. McMillan, managing resident director of the Le Roi company left tonight for England on a two months trip.

He says a comprehensive plan of operations has been drawn up in connection with the Le Roi plant and smelter, but he is in duty bound to report the same to the directors first.

Asked as to the reported ore discovery in the diamond drill hole one hundred feet below the 1350 level, Mr. McMillan said he was not in a position to discuss the matter at present.

The discovery leaked out through alleged revelations of a diamond driller, while partially intoxicated.

DUNSMUIR WAS OBDURATE

REFUSES TO RECOGNIZE ANY KIND OF UNION AMONG HIS MEN.

LABOR COMMISSION'S EFFORT TO OBTAIN A SETTLEMENT.

[Special to The Daily News.]

Victoria, May 13.—The labor commissioners had a long conference with Dunsmuir today and a strong effort was made to effect a settlement of the unfortunate strike situation.

The Ladysmith conference was private but it is generally understood that but little real progress was made.

Dunsmuir was obdurate and refused to recognize any kind of union among his men.

GREENWOOD ITEMS.

[Special to The Daily News.]

Greenwood, May 13.—Mrs. St. Amand, of Eholt, wife of O. D. St. Amand, a blacksmith, who has been in the Boundary for about five years, died last night in the Greenwood hospital after a lingering illness. Deceased came from Ottawa some three years ago to join her husband. She leaves one child, a boy 10 years old. The funeral will take place tomorroy, the interment taking place in the Greenwood cemetery.

John McEwen, superintendent for Manitoba, the Northwest territories and British Columbia, for the Norwich Union Fire Insurance company, has just completed an inspection of Greenwood and vicinity in the interest of his company. He was shown around by the local agents, Elkins & Hodges.

THE END IN SIGHT.

Toronto, May 13.—At the afternoon session of the Gamey enquiry chancellor Boyd asked the counsel when they would be ready to proceed further.

Chief justice Falconbridge—"You will be able to tell us whether you are going to call Gamey?"

Mr. McPherson replied that Mr. Blake was considering the advisability, and added that there were some other witnesses from Manitoulin, but he did not know if they were on the way.

The enquiry was adjourned till Thursday.

AGED MINISTER DEAD.

[Special to The Daily News.]

Sarnia, Ont., May 13.—Rev. Dr. Thompson, for over thirty years pastor of St. Andrew's Presbyterian church, Sarnia, died here last evening. He suffered an attack of heart failure in the morning, but attending physicians thought his condition somewhat improved, but very suddenly last evening he was stricken with a second attack and passed away almost immediately.

He was 69 years of age, Mrs. Thompson who survives, was the only child of the late Hon. Alexander Mackenzie.

MICHIGAN PYTHIANS IN SESSION.

Saginaw, Mich., May 13.—Saginaw is gay with flags and the emblems of the Knights of Pythias in honor of the delegates to the annual grand lodge meeting of the order in session here. All sections of the state are represented at the meeting which is one of the largest ever held by the grand lodge. Business sessions were held today and will be continued and concluded tomorrow.

A BLAZE AT BUFFALO.

Buffalo, May 13.—The Diamond Mills and Storehouse formerly the Lake Shore transfer house and an elevator, all owned by Churchill &Co., 20 freight cars and several small dwellings, were burned early today. Loss $200,000, partly covered by insurance.

THE BAGDAD RAILWAY.

Paris, May 13.—The Bagdad railroad project which was recently agitated by the powers is likely to be revived in an important, new form, internationalizing a new route to India somewhat similar to the international status of the Suez canal.

HE GOT OFF EASILY.

Berlin, May 13.—Dr. Schlamp, the wine grower of Nierstein, who has been on trial at Mayence, charged with wholesale adulteration of his products, was today sentenced to pay a fine of $375 or undergo three hundred days' imprisonment.

THE STRIKE DEFERRED

Great Northern Men Now Hope for a Settlement

Concessions Have Been Made and Conference Resumed

St. Paul, Minn., May 13.—No strike was declared on the Great Northern railway tonight, and affairs have assumed a much more encouraging aspect.

The negotiations between the committee representing the men and the officials of the road, which were broken off on Tuesday, have been renewed and the outlook tonight is for an early settlement.

Neither side will say what concessions, if any, have been offered by the road, but that concessions have been offered, and that they are more favorable than any previously offered is pointed out by the fact that the calling of a strike has been deferred until after the conference tomorrow.

THE OUTLOOK IS GOOD.

Large Payroll at Morrissey Mines—A Building Boom in Progress.

[Special to The Daily News.]

Morrissey Mines, May 13.—The new town of Morrissey Mines is rapidly coming to the front and gives promise of being one of the best and largest towns in the interior of British Columbia. Three large hotels will be built at once, two of which will be three storeys in height, and one to cost $20,000. Many business men from Fernie and other points are preparing to go into business here, and lumber is being rushed in at a lively rate. Plans are out for an extensive system of sidewalks, the machinery for the installation of an efficient electric light plant has been ordered and a large water main will be at once laid to connect with the splendid water system installed at the mine.

At the mine itself there are over 600 men at work. The present daily output of coal is about 800 tons. This will be increased to 1,000 tons a day within a few weeks' time, and the increase thereafter will be steady and continuous. More men are being put to work as fast as they can be secured and utillized. The Great Northern railway want 5,000 tons of coal a day from the mines here, and while it may be some little time before this tonnage can be produced, it gives an idea of what may be expected in this section in rapid growth of industrial activity. The payroll of the Crow's Nest Pass Coal company at this point amounts to $40,000 monthly, and the management say this will increase to $100,000 within a comparatively short time.

Between the mines and the new town 250 coke ovens are in course of construction, at a cost of about $250,000.

The coal measures are practically inexhaustible, the country hereabouts being underlaid with coal for many miles.

THE ROSSLAND SITTINGS.

[Special to The Daily News.]

Rossland, May 13.—The case of G. V. Hopkins vs. the Gooderhams, for damages for wrongful dismissal from the managership of the Silica concentration works, which was commenced yesterday before Mr. Justice Martin and a jury at the supreme court sittings here, lasted all day.

Manager E. B. Kirby, chief accountant Jenkins, of the War Eagle staff, and many other witnesses gave testimony to show that the plaintiff would not obey instructions and was incompetent, hence his dismissal.

Judge Forin, of Nelson, was examined on behalf of the plaintiff, his honor testifying of the excellent work done by Mr. Hopkins for the Yellowstone mine, the judge being one of the directors of the company owning that property. There are several cases to be disposed of yet but one of importance was struck off the list, this being the long standing action of Clarke vs. Collom, which was brought into special prominence by the arrest, and subsequent imprisonment of William McAdams, editor of the Sandon Paystreak, for remarks which appeared in his publication touching the conduct of the judges in postponing the trial of the action on several occasions.

The case has now been withdrawn counsel stating that a settlement had been reached between the parties. No particulars are given out.

WHAT EBERTS SAID.

Victoria, May 13.—W. C. Wells, chief commissioner of lands and works, completed his evidence today at the investigation into the south Kootenay land scandal.

He said that D. M. Eberts, the attorney-general, had pressed him to deliver the grants for the two blocks of land to the C. P. R. on his return from Montreal.

Wells had then said: "If the grants are delivered the government will have to go."

Eberts replied: "Let us go, then."

Wells' evidence inferred that the attorney-general was at the bottom of the whole affair.

MINTO AT DETROIT.

Detroit, Mich, May 13.—For two hours this evening lord Minto, governor-general of Canada, lady Minto and lady Eileen Elliott, their daughter, accompanied by major Maude and captain Gresham, the governor-general's aides-de-camp, were the guests of the city of Detroit. Thousands of people enthusiastically cheered the governor-general and his party as they drove through the streets to the Russell house where a reception was held at the close of which the distinguished visitors were tendered a luncheon.

HUDSON'S BAY COMPANY.

INCORPORATED 1670.

THE GREAT STORES OF THE GREAT WEST

THE ALL-RED CABLE.

It appears that the Canadian-Australian cable does not pay. It is only a few months since it was completed and opened for business, and yet in that brief space of time a deficit of $460,000 has accumulated, and of this amount Canada is responsible for $130,000, since Canada is a five-eighteenth shareholder in the cable enterprise. Canada and the United Kingdom have faithfully adhered to the bargain into which they entered, and so has New Zealand, but the same cannot be said of Queensland, New South Wales and Victoria, who are co-operating partners in the affair. Of these offenders New South Wales is the most culpable. That state insisted upon making certain concessions to the Eastern Extension company, the rival to the Pacific cable, and the New Zealand Herald comes out plainly and asserts that the reason is to be found in the influence the Extension company has been able to exercise over some legislators. It says:

> Since then, there have been repeated indications of the influence acquired by that company over Australian statesmen, especially since the federal government took over the telegraphic interests of the various states. The culmination has been reached by the proposal to make a ten years' agreement between the federal government and the Eastern Extension company, this agreement according to that company the right to open offices and conduct land lines as well as to practically monopolize the government cable business.

By entering into this agreement the government of New South Wales have deliberately broken faith with the other partners, and in the dominion senate Hon. Mr. Scott, secretary of state, recently pointed this out and at the same time expressed his opinion that the imperial government had not supported Canada fairly in this matter. Had it not been for Canada there would not have been the all-red cable, and the protest sent by sir Wilfrid Laurier to sir Edmund Barton on behalf of Canada is entitled to a more hearty backing by Great Britain than it seems likely to receive. The suggestion offered by sir Mackenzie Bowell, that the Canadian commissioner at Sydney be authorized to appoint agents, as the Extension company has done, and run up business for the Canadian-Australian line, is one that might be adopted with some advantage. New Zealand is backing up Canada loyally, but the support of the home government is needed to clinch the matter if the injustice to Canada is to be corrected.

THE COLONY OF NEWFOUNDLAND.

Although Newfoundland has declined for the time being to enter into and round off the confederation, the development of that colony is none the less a matter of considerable interest to the dominion, and it is satisfactory to know that its prosperity is steadily becoming better known and understood, and the total trade of the island has increased in the last four years at the rate of 65 per cent. It is no longer known as a mere fishing ground for the festive cod, but its other products are coming more to the front. The minister of finance for the colony gave some interesting figures in his budget speech at the beginning of the month, which go to show how favorably the better trade relations are becoming established. The imports have increased from $5,182,044 in 1898 to $7,836,685 in 1902, and during the same period the exports have grown from $5,224,633 to $9,501,493. Fish and their by-products are the chief items of export, the value of these being $7,356,000. It is important to note that the exports of minerals now amount to $1,282,000, copper and iron contributing almost the whole of that amount, some 82,000 tons of copper being mined during the year, while no less than 730,000 tons of iron ore have been shipped by the Dominion Iron & Steel and the Nova Scotia Steel companies. There is still a falling off in the lobster fisheries.

The fiscal condition of the colony is satisfactory considering all things. The public debt is a little over 19 million dollars, with a revenue of $2,193,217, and an expenditure of $2,129,528, a surplus of $64,000. For the current fiscal year it is anticipated that there will be a surplus of $25,000 after defraying the cost of the naval reserve recently established, and of the survey of the coal areas by an expert. This is a good showing and reflects credit upon the administration. The debt is a large one, but with a continuation of the increasing prosperity there will be a possibility of reducing that within the course of a few years. Altogether the outlook for the ancient colony is decidedly hopeful.

DAWSON IS BOOMING.

Navigation Is Expected to Open This Week.—Rich Finds Made.

Dawson, Y. T., May 12.—The opening of navigation is conceded to now be but a question of a few days and the ice in the Yukon, it is confidently expected, will go out this week. It has begun to break and the complete opening of the river can be delayed but a very short time longer.

At Five Fingers the river is open to Yukon crossing. From Le Barge to below Hootalinqua it is open, and it is also open at the mouth of the Stewart. At Ogilvie, the river is clear for about five miles.

The junction of the Klondike river and the Yukon, in front of Dawson, is open and open water shows on both sides of the ice in the Yukon.

At Ogilvie bridge, on the Klondike river, a big jam has been blasted out.

Forty thousand dollars were cleaned up in one day and $80,000 in two days by four laymen on 28 above, Bonanza. The claim is the property of the N. A. T. & T. Co. It is one of the best clean-ups in the camp.

Sluicing is now under way on all the creeks. Dawson is daily receiving deposits of gold dust.

Reports from Duncan creek show that it will be one of the best producers in the country. The claims are being worked for 20 miles, and fabulous pans are being found.

The first rain of the season was recorded here this morning. The creeks are all rising and the Klondike is the highest it has been so far this year.

THE SINS OF THE MOTHER.

A professor at Bonn university has discovered in tracing the posterity of habitual drunkards, 834 descendants from a woman who was for 40 years "a thief, a drunkard and a tramp," and whose miserable life came to an end in the last year of the eighteenth century. The professor has traced the lives of 709 of this woman's descendants from youth to old age, 132 were beggars, and 64 more lived on charity. Among the women, 181 lived disreputable lives, and there were in the family 76 convicts, including seven murderers. The professor estimated that in 75 years this family has cost the German authorities in almshouses, law courts, prisons and other institutions, about £250,000.

RAILWAY LABOR DISPUTES

MULOCK'S CONCILIATION BILL BEFORE THE HOUSE.

MOVER EXPLAINS MEASURE AND ANSWERS OBJECTIONS.

Sir William Mulock's bill "to aid in the settlement of railway labor disputes" has created much discussion at Ottawa, when it came up in the house for its second reading.

Sir William explained the holding over of the bill from last session, in order that the parties interested might become thoroughly acquainted with its provisions and make what suggestions they thought fit. The present bill differed from the bill of last session in three respects. While the bill of last session provided for arbitration only, this bill provided for an intermediate procedure, namely an attempt at conciliation, and, failing that, arbitration. Under the bill of last session the award of the arbitrators was enforcable by legal process to a certain extent, the measure providing legal penalties for those who disregarded the award. The present measure departed from that position, and, instead of providing legal penalties or compulsion through the tribunals of the courts, left the award to the enforcement of such influence as might be effected by public opinion. The original bill provided for a board of arbitrators elected by the parties, to remain in office for a certain term of years. The present bill, intead of a permanent board, provided for a special board to deal with each case. Sir Willian bore emphatic testimony to the desire of the railway employees with whom he had conferred to arrive at a settlement of the labor question, so far as they were concerned, and to their unqualified loyalty to the companies they served. It was gratifying to have the men's assurance that so far as they were concerned they would loyally stand by the awards of a board of conciliation. The bill, while it could not be said to have received the hearty support of the railway companies, had been looked on hopefully by some of them. In referring to the requests that had been made to him to extend the provisions of the bill to other callings, sir William suggested that an effort should be made to bring together a representative committee of men and employers to thrash out the whole question on the lines indicated in the present bill. If, after such a conference, a general measure were adopted, it would have the support of the goodwill and the moral force of public opinion, and so would be effective practically in all cases of industrial war. Sir William left the bill in the hands of the house, feeling assured that if it became law it would in nine cases out of ten give satisfaction to all concerned.

W. R. Brock, M. P. for West Toronto, attacked the bill and said some severe things about organized labor generally.

A. W. Puttee thought that compulsory arbitration was better than any other method, for the reason that strikes were a source of loss to the workingman, defeats being disastrous and victories too costly. He concurred in the suggestion of the leader of the opposition that the operations of the bill might with advantage be extended to other industries than railways, and mentioned mining as especially susceptible to the beneficial application of its provisions.

W. A. Galliher supported the bill.

Mr. Ingram pointed out that the labor unions did not all favor strikes. For instance, the railway conductors forbade strikes. The engineers, too, were opposed to strikes. He resented the insinuation that the unions were cowardly.

Sir William Mulock replied to the various objections that had been urged to the bill. He pointed out that a number of strikes in the United States had been settled by arbitration of the kind now suggested, even when the two parties were not willing to have it. He doubted if Mr. Brock meant just what he said in reference to organized labor. In answer to Mr. Osler's objection, sir William said he thought it was better than to the policeman and the sheriff. Sir William insisted that there was nothing in the bill which affected property and civil rights, or was contrary to the British North America act. It simply provided for an investigation. There was nothing in the technical objections offered which would deter him from asking the house to allow the bill to go to its second reading.

Hon. J. I. Tarte also supported the bill, which was given its second reading.

HE TARRIED LONG WITH US.

Upper Sandusky, Ohio, May 13.—Peter Stansley died here yesterday, aged 110 years. He is survived by a widow, aged 106, to whom he had been married 85 years.

THE CUP DEFENDER.

Bristol, R. I., May 12.—The re-fitted sails of the cup yacht Reliance were sent up today and showed a much improved set. Work on fittings is progressing rapidly.

"Let the GOLD DUST twins do your work"

FOR WRONGFUL DISMISSAL

G. V. HOPKINS SUING THE WAR EAGLE COMPANY.

WAS MANAGER OF CONCENTRATING WORKS AT SILICA.

Rossland, May 12.—The supreme court sittings opened this morning at 11 o'clock with Mr. Justice Martin on the bench, the first case being called being that of Gerald V. Hopkins, against the War Eagle and Centre Star companies for wrongful dismissal on December 23rd last. C. R. Hamilton appeared for the plaintiff and A. C. Galt for the defence. The jury sworn were A. A. McMillan (foreman) R. A. O. Hobbes, J. P. Harper, M. Simpson, R. A. Allan, R. T. Evens, D. Mackenzie and N. F. Townsend.

C. R. Hamilton in opening for the applicant, said that manager Kirby on behalf of his companies had acquired an option on the Silica mill on August 4th last, and had then engaged Hopkins as superintendent for one year at $100 a month, with an additional $100 which was to be paid if the works were discontinued. On December 23rd last Hopkins was called to the office of Kirby and there and then informed that his services were no longer required, offering him $200 for the month of December, and $700 for the remaining time of his contract. This Hopkins refused, wanting $200 per month.

Letters were produced, together with certain evidence tendered by Kirby, under examination for discovery, showing that the above statement was substantially correct.

A. C. Galt for the defence urged that the additional $100 was merely a monthly contract, and that Hopkins was discharged for incompetency, unreliability and disobedience. Hopkins, who thoroughly knew the machinery, had promised to have the mill running within a week, but three months elapsed, at a cost of $6,000 to the company. Again a plumb bob was once wanted and instead of telephoning for it Hopkins sent three miles to town for it, thereby delaying the whole mill for three hours.

One of the witnesses examined for the defence stated that when he would be talking to Hopkins, the plaintiff, he would break off and start on a different subject. Plaintiff would talk in a languid sort of manner. Witness could not do justice to Hopkins' drawl. Witness was an American, plaintiff an Englishman. This drawl was why witness said plaintiff was devoid of energy in conversation.

The examination of witnesses occupied the whole of the day, and the case was not concluded when the court rose, and will be continued tomorrow.

FOR STOMACH TROUBLES.

Something That is Better Than a Doctor's Prescription.

Mr. J. W. Turner, of Truhart, Va., says that Chamberlain's Stomach and Liver Tablets have done him more good than anything he could get from the doctor. He recommends them to everybody. This medicine is being sold in almost every town and city in the United States and this is only one of the hundreds of testimonials being received from people who have been benefitted by them.

E. Ferguson & Co. are agents for Pabst Beer; keeping quality when opened, superior to any other.

FUEL RETURNS.

April Record Was Good and May Promises To Be a Record-Breaker.

The returns of the Crow's Nest Pass Coal company for the month of April are very gratifying when it is considered that work was only resumed on April 1st after the long strike. Michel again reaches its highest mark and far exceeds each of its competitors in the output of coal for the month.

The figures for three collieries are as follows:

Morrissey, 12,000; Coal Creek, 16,000; Michel, 20,087. Total, 48,087.

This monthly output has been exceeded only once in the history of the company the highest record being in January, 1903, when 54,600 tons were mined.

The coke ovens at Morrissey are now under way and they are contracted to be finished by October 1st. Many will be ready for use before that date.

Under steady improvements going on at Morrissey Mines it is expected that the daily output will reach 1,000 tons by the middle of the month.

Malt Breakfast Food

Is the Best Food for Children of Any Age After Infancy

If your children are weakly and frail and have not the snap and vigor of healthy boys and girls, we say, have them use Malt Breakfast Food for breakfast and supper. The usual starchy foods so commonly used for children lack the nourishing elements which they need to develop muscle and bone, and put life and vigor into the blood. In Malt Breakfast Food the Malt changes the starch of the wheat to maltose, the most nutritious food element, and this with the gluten and phosphates of the wheat give a muscle-building and bone-forming food of unequalled value Ask your Grocer for Malt Breakfast Food.

CONTRACT LABOR LAW.

New York, May 12.—An appeal was filed with the United States immigration authorities today from the decision of a special board of inquiry which had ordered the deportation to Greece of L. M. Lompes, nephew of the president of the National bank of Greece.

Lompes came to this city to establish a branch of the Greek Currant company, it is alleged, in violation of the contract labor law.

A GOOD ONE.

"A Wise Woman," which has been secured for one night some time in the near future at the Nelson Opera House, is headed by a young woman who for the past three years has been a member of Augustin Daly's company, and has attracted an amount of attention from the critic that rarely falls to so young an artist. The young lady referred to is Marie Lamour.

E. Ferguson & Co., Nelson. B. C., is agent for Kootenay country for the famous "CASCADE" BEER—"the Beer without a Peer."

BIOSTONIAN WON.

London, May 12.—At the second spring meeting at Newmarket today the Newmarket handicap of 1,000 sovereigns for three year olds and upwards, distance one mile and two furlongs, was won by Biostonian, Patron Saint was second, and Valenza third. Ace-Full the American Derby candidate was not placed.

WARRANT EVERY BOTTLE.

If troubled with rheumatism, give Chamberlain's Pain Balm a trial. It will not cost you a cent if it does no good. One application will relieve the pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, frostbites, quinsy, pains in the side and chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price 25 and 50 cents. For sale by all druggists and dealers.

E. Ferguson & Co., Nelson. B. C., is agent for Kootenay country for the famous "CASCADE" BEER—"the Beer without a Peer."

DRANK FLORIDA WATER.

Two Indians Who Tried a New Kind of Fire Water—Both Died.

Vancouver, May 12.—The steamer Princess May, which arrived from Skagway Monday morning, brought news from Ketchikan of the leath of two Indians under strange circumstances. They bought a quantity of florida water from a general store, and died as a result of drinking the perfume to excess. Another Indian is expected to die.

The storekeeper and his wife are reported to be under arrest.

From Skagway the steamer brought news that the ice has gone at White Horse the Yukon being now open to Lake Le barge, and the river steamers were being launched from their winter quarters and made ready for service. Navigation was expected to commence within a week or ten days from when the steamer left.

GREATLY ARLARMED.

By a Persistent Cough, but Permanently Cured By Chamberlain's Cough Remedy.

Mr. H. P. Burbage, student at law, in Greenville, S.C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by all druggists and dealers.

To put elasticity into your step—new blood into your veins—new hope into your heart—new life all through you—drink CASCADE.

A SUPERSTITIOUS LOT.

Berlin, May 12.—A report of the Prussian health department just issued, deals severely with a kind of "American invasion" known here as the "prayer cure" under the leadership of Mrs. Seal. This sect has again opened its headquarters in Berlin. It has gained many followers among superstitious people.

A FARMER CURED OF RHEUMATISM

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism, I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely, and if not satisfied after using it he need not pay a cent for it," says C. P. Rayder, of Pattens Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar, saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by all druggists and dealers.

E. Ferguson & Co. have just received a car of Pabst Beer in quarts and pints.

NORTH POLE EXPEDITION.

New York, May 12.—Anthony Fiala, leader of the second polar expedition sent out by Wm. Zeigler in search of the north pole, sailed on the Kron Prinz today for Trondeheim, Norway, where his ship the Ama, is awaiting the arrival of the scientific staff, of the expedition which will go with Fiala. The remainder of the party has received orders to report here on May 27th to Wm. T. Peters, representative of the national geographical society who will go with Fiala as second in command.

IN MEMORY OF M. SEVERO.

Paris, May 12.—The Pax disaster, which occurred one year ago today, and in which M. Severo, the Brazilian aeronaut, and his assistant, Sache, met their death, was commemorated today by the unveiling of a memorial tablet placed on the house on which the balloon fell. The tablet, which was provided by the Paris municipal council, bears an inscription relating the circumstances of the disaster.

JUST WHAT YOU NEED.

Chamberlain's Stomach and Liver Tablets are just what you need when constipated; when you have no appetite, feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by all druggists and dealers.

Hold your glass of CASCADE up to the light and note its clear, amber-like color—its freedom from sediment. It's a drink for the gods.

GREETED THE KING.

Edinburgh, May 12.—The city of Edinburgh was in holiday attire today and immense crowds of people warmly greeted king Edward and queen Alexandra as they proceeded from Dalkeith castle to Holyrood palace, where they held a court and a levee, the first of such functions to be held in the history of the palace for 80 years. On their arrival at the palace the king and queen received a number of public addresses. Presentations to their majesties followed.

THE WONDERFUL BASSO ASSISTED BY PARLOVITZ THE EMINENT POLISH PIANIST WILL APPEAR AT THE

OPERA HOUSE THURSDAY EVENING

SEATS ON SALE AT McDONALD'S

Curse -OF- DRINK CURED BY COLONIAL REMEDY

No taste. No odor. Can be given in glass of water, tea, or coffee, without patient's knowledge.

Colonial Remedy will cure or destroy the diseased appetite for alcholic stimulants, whether the patient is a confirmed inebriate, "tippler," social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

INDORSED BY MEMBERS OF W. C. T. U.

Mrs. Moore, Superintendent of the Woman's Christian Temperance Union Ventura, Cal., writes: "I have tested Colonial Remedy on very obstinate drunkards and the cures have been many. In many cases the Remedy was given secretly. I cheerfully recommend and indorse Colonial Remedy. Members of our union are delighted to find a practical and economical treatment to aid us in our temperance work."

Sold by druggists everywhere and by mail.

NELSON'S NEWS OF THE DAY

Mrs. E. B. McDermid and children left yesterday for a month's visit to Spokane.

The lake is now seven feet above low water mark. The water has risen exceptionally slowly this season.

P. E. Wilson, of the firm of Galliher & Wilson, has been appointed as crown prosecutor for the assizes here commencing next Monday morning at the court house.

The steamer Kokanee yesterday took up a large quantity of groceries for the Lardeau country. The outcoming freight is transferred on car barges from Lardo to Procter.

Robert Irving and wife, of Kaslo, who have been at the coast for the past few weeks, passed through Nelson last evening on their way home, arriving on the train from Spokane.

At the regular meeting of the Eagles last evening eight new members were initiated. The Nelson aerie was inaugurated in June, 1899. The total local membership now amounts to over four hundred.

A sale of work was held yesterday afternoon at the parlors of the Presbyterian church, under the auspices of the Ladies' aid. Refreshments were served during the sale, which was in aid of the general fund.

Bruce White, G. B. McMillan and J. Devlin left yesterday for Crawford Bay, to visit the iron properties north of Crawford creek. The snow is still deep in that locality, but they expected to find some of the ridges bare.

Charles A. Waterman has returned from California, accompanied by his mother, who will reside with him. He states that business conditions throughout California and other coast states are extremely good at the present time.

A raffle of the clock, which was presented by J. J. Walker, the jeweler, to the Jackson relief fund some months ago, will take place this afternoon at the store at 3 o'clock. Subscribers are invited to be present when the drawing takes place.

E. G. Warren, manager of the Greenwood Electric Light company, who has been in the city for the past few days returned home yesterday after completing a contract with S. S. Fowler for the Cascade Power company, to supply power and light to Greenwood.

The regular monthly meeting of the board of trade will be held this evening in the board rooms. The principal business to come up will be the passing of a resolution on the question of a bonus for the lead industry. This has not as yet been formally brought before the board, but at tonight's meeting some definite action will be taken.

The Congregational church was well filled last evening to witness the exhibition of limelight views by J. Crowley, of the volcanoes of the world, and also a number of pictures of the Frank disaster. Mr. Crowley has lived for a large number of years in volcanic countries and has a well selected asortment of photos taken by himself, of their wonders. These photos, transferred to lantern slides were exhibited last evening, and provided a most interesting exhibition.

The christening of the new steamer Ptarmigan, now plying between Golden and Windermere, has been postponed until the arrival this summer of Mrs. Paulding Farnham. Mr. Farnham, a partner in Tiffany's, New York, and the man who controls the Ptarmigan mine near Windermere, has offered to present the steamer with an elaborately designed eagle, and the offer has been accepted. Mr. and Mrs. Farnham will arrive from the east early in July when the eagle will be presented and the steamer duly christened.

On Monday morning next the Royston Gold Mines, Limited, will start a force of men to work ground sluicing the surface of some of their claims on the north slope of Morning mountain. While only rich float and some small, though rich, leads have been found on the ground in question, so far, the owners of the property believe that some large leads will be discovered with proper development work, and finally decided on the method in question as the best way to prospect the claims. This will be done by damming up the headwaters of Smelter creek over the ground to be explored, and releasing the pent up water when sufficient head is accumulated. This will wash the loose rock and debris of the mountain side and make a thorough inspection possible.

Postoffice inspector W. H. Dorman arrived last evening from Vancouver, on his regular visit of inspection.

J. A. Baker, of Slocan, one of the executive of the W.F.M., arrived last even- from Nanaimo where he has been giving evidence before the labor commission.

The C. P. R. had some trouble with their wires last night owing to the thunder storm which prevailed over a portion of the province. The A. P. report was late in coming and exceedingly meagre when it did arrive.

J. J. Malone and T. G. Roy returned last evening from a trip to Alberta, where they visited some of the coal measures along the south fork of Old Man river, near the south Kootenay pass. They report that the snow is all gone on the eastern side of the mountains, except in the corners of some of the deeper coulees.

Complaints still pour into police headquarters regarding the breaking of windows in vacant buildings by mischievous boys. In some houses over thirty dollars worth of glass has been destroyed by boys quite old enough to know better. The police have well grounded suspicions as to the identity of the perpetrators and some arrests are likely to follow.

A social was held last evening at the residence of Mrs. T. Madden, Stanley street, under the auspices of the Catholic Ladies' Aid. Tea was served in the afternoon from 4 to 6, and in the evening a very interesting programme of musical and elocutionary selections was rendered. The affair was the third of the series which is being given by the ladies of the church.

J. Fred Hume, who is anxious to add to the large cabinet of mineral specimens he has placed in the reception room of the Hume hotel, yesterday received by express from Sandon, a wooden box labelled "handle with care." Thinking it was a case of specimens he opened it, but after unrolling about a foot of wrappers all that was inside proved to be a small stone axehead, labelled "George Washington's hatchet." It has been added to the collection.

The baseball season here will be opened next Sunday afternoon by a match between the local team and one from Northport. Arrangements were completed by Dr. Armstrong, president of the Nelson club, yesterday for the game, which will be called at 3.30 sharp in the recreation grounds. Both teams are fairly strong and the Northport aggregation have the advantage of having already played some matches this season, while Sunday's game will be the first one of the year for the home team.

DR. MUNGO FRASER DEAD.

[Special to The Daily News.]

Hamilton, Ont., May 13.—Dev. Dr. Mungo Fraser, late pastor of Knox Presbyterian church in this city, died last evening. He had been in poor health for a long time.

BRITISH SHIP ASHORE.

Shanghai, May 13.—The British ship Pembrokeshire which sailed from here yesterday for New York, is ashore on the North Saddle rocks. Lighters and steampumps have been sent to her assistance.

HE WON'T BE HANGED.

Toronto, May 13.—Romaine, the negro, charged with the murder of Louis Goldsmith, his partner in the tailoring business, on February 16th, has been found guilty of manslaughter.

GONE UP IN SMOKE.

Winnipeg, May 14.—The Northern Iron works, machine shops, foundry and moulding shop and smelter, and adjoining buildings were burned early this morning. Loss about $20,000.

J. S. CRERAR DEAD.

Winnipeg, May 14.—J. S. Crerar, dominion imigration agent at Yorkton, died at St. Boniface hospital at midnight, aged 60.

SHAMROCK WILL SAIL MAY 30th.

Gourock, Scotland, May 13.—The dismantling and refitting of the two Shamrocks will be accomplished in record time.
