The New Westminster Times.

No. 1. vol. iii. New Westminster, Saturday, September 22, 1860. Price, 1s.

THE SYRIAN MASSACRE.

(From the London Times.)

We cannot find in any supposed reconciliation of the Lebanon tribes a reason for dissuading France and England from making their appearance in Syria, exacting a heavy vengeance for what has been done, and taking precautious against a repetition of the crime. These have been above everything perfidious and cruel. There may be those who think that they arose only from the feuds of two tribes, both equally savage and obstinate, although one of them affects the doctrines of Christianity. We do not say that the Druses were instruments in the hands of some Machiavellian Pasha, and that they were prevailed upon to attack their neighbors in order that the Mussulmans might be excited to a general massacre; but we do say that, according to all that has transpired concerning these events, there has been so much complicity between the non-Christian races that the Druses ought not to be held solely responsible, and the Mussulmans acquitted. The spirit which has extended itself for the last three years through the country has been one of bitter resentment against the European States which have saved Turkey, and of spite against the Christians. The Mussulmans have been most subject to these emotions, and if one party has learnt of the other it is the Druses who are the pupils. The war is essentially one between the two great religions that divide mankind, and unless the Mussulmans now receive a lesson the massacres of Syria will soon recommence, and follow the same course as those which have stained with blood other portions of the Empire.

The interference of the Western powers is therefore amply justified, nor do we regret to see France enter upon the enterprise with her usual energy. Turkey has shown her inability to keep order in this province, from which Mehemet Ali was driven by English arms only twenty years ago. The states which signed the convention of eighteen hundred and forty, and those also which took part in the treaties of eighteen hundred and fifty-six, are responsible for the well being of the region which, on the former occasion, they transferred to Turkish authority, and which four years ago they agreed to guarantee to the Sultan, together with the rest of his dominions. When Christians are put to death under the eyes of Turkish Kaimakans, and when their arms are carried away by order of Turkish officers, it is high time to interpose. Turkey has so much to do in other quarters, and is so slow in her movements, that with the best intentions she would be unable to do much. France is accordingly about to send a body of troops to the coast, and England will co-operate by sea. It may be that the knowledge of these facts will stir up the Porte to more than usual energy, and that Fuad Pasha will endeavor to bring things into order before the combined squadrons commence operations. The news of peace being estabiished between the two tribes seems a move in this direction. But Europe is not likely to be imposed upon by any such shallow artifices. It will be the duty of Christian nations to occupy such points of the coast as will compel the Mussulman races of the country to recognise the necessity of keeping their fanaticism within bounds. It will also be their duty to insist that the Porte shall punish the chiefs and their accomplices, even though some of the culprits are to be found in the Sultan's own army. The political arrangements by which these ends are to be attained appear to us of inferior importance. It is decidedly advisable to treat the Porte as a Government independent and equal with our own, and to occupy the country only under a convention with that power; but if such an arrangement cannot be made, then in the name of humanity let us disregard etiquette, and put an end at once to these horrors.

DR. ROSENBAUM'S STOMACH BITTERS!

For the cure of Dyspepsia, Indigestion, Constipation Loss of Appetite or any Billious Complaints arising from a morbid action of the Stomach or Bowels.

All of these diseases you will soon be relieved of, by use of these Bitters, as per directions on the Bottles. This great anti-dyspeptic is the result of profound and elaborate study of one of the most celebrated physicians of the present century, in the accomplishment of which he has spent both time and money. We do not hesitate to affirm that where Dr. Rosenbaum's Stomach Bitters are used, a case of Fever and Ague cannot occur. It has been analyzed by the most scientific chemists in the Medical Faculty, and is now prescribed by nine-tenths of the Physicians of the land. Try them—test them—on your constitution, and go your way rejoicing.

Are you dyspeptic?—take these Stomach Bitters.

Are you billious?—try one of these bottles and be relieved at once.

Are you annoyed by indigestion or constipation?—remove the cause by a free use of the Bitters.

Have you fever and ague?—cure and prevent this destroying disease by the free use of these Bitters.

The superiority of these Bitters has induced many to put up a spurious article. To prevent deception in future, each cork will be branded, "N. B. JACOBS & Co." And the labels will bear our own signature, without which, none are genuine.

CAUTION.—Consumers of Rosenbaum's Bitters are cautioned against the many counterfeits now afloat in the market, and especially against a cheap and worthless article called Rosenschf's Bitters, put up in this by Messrs. Turner Bro.'s, with the avowed intention of preying on the well-earned reputation of Rosenbaum's Bitters, as a remedial agent in all cases of Dyspepsia and similar diseases. The genuine Rosenbaum has our name branded on each cork, and our signature on each label.

N. B. JACOBS & Co., Proprietors

New Westminster Times.

NEW WESTMINSTER, SATURDAY, SEPTEMBER 22

WE see by Tuesday's Colonist that the British Columbia petition for Representative Government was presented in the House of Commons by Mr. Roebuck. The date of the presentation is not given. We have all the late numbers of the London Times, but we confess that nothing of the kind is mentioned in the Parliamentary proceedings. It is time however to hear of the reception of the petition, and we may be expecting, by the next mail or the one following, to learn something more definite regarding its fate. The amount of work before the House of Commons, by last advices, was so great that bills were being hurried through with little or no debating, and others of less importance shelved altogether. We sincerely hope, however, that the British Columbia petition will not meet with an untimely fate, through this crush of business. So far as the Government party in the House of Commons are concerned, there is every reason to believe that Representative Government will be at once granted. In no other Administration has there ever been so large an element of enlightened and progressive principles. Sir Bulwer Lytton almost stood alone in the last government as an exponent of a liberal policy towards the colonies; but amongst the members of the present Cabinet we have men who would have been deemed, not very many years ago, almost ultra-radical in their ideas of the rights and privileges of Englishmen. We therefore rely with confidence on the Home Government in this matter, and we hope that, when the question is brought before the House, British Columbian affairs generally will form an important topic in the debate.

There is only one argument that the enemies of progress would likely bring forward against the petition, and that is the large proportion of foreigners in the colony of British Columbia. Yet, how futile this appears when the subject is narrowly looked into: what can be more evident than that the very want of representative government has produced this result? Englishmen, generally speaking, do not care to make those countries their homes in which the people have no voice in the construction of the laws; and it is consequently futile to expect any large immigration, under our present condition, from the British Isles. The foreign population come to this colony almost solely through the love of gain, and can on no account be deemed as permanent residents; for just so certain as their occupations cease to become what they think profitable, so certain will they leave the country. The same rule applies, no doubt, to a certain extent, to the Englishman, but then the original intention of the latter is to settle in the colony, and his calculations are all based on this object. The one class, as a general thing, does not care a fig for the country so long as its books show a certain balance in its favor; the other class, along with its individual acquisitiveness is interested in the prospective as well as the present well-being of the colony. We are far from feeling inclined to reproach our foreign population for the characteristic we have attributed to them: it would be unnatural were they otherwise. The same result is visible in every country in the world, and in none more so than the neighboring Republic. But we wish to see our foreign population turned to some account, instead of being repeatedly cast in our faces as a bar to our political rights. Commercially speaking, were it not for foreigners and foreign capital British Columbia might collapse to-morrow. It is not the policy of this or any new country to throw obstructions in the way of this class; every inducement should, on the contrary, be held out for the investment of foreign capital: for from the moment a man invests his money in any country he is, for the time being, as much interested in its welfare as the most patriotic inhabitant. But what guarantee or security is there for foreign capital in British Columbia, under the present state of non-representation? The whole ramifications of commerce may be seriously affected in a single day without the knowledge or consent of the inhabitants, Customs duties may be raised or lowered, and men enriched or irretrievably ruined at any moment. Of course the good faith and integrity of the Government will always prevent such results; but people unfortunately do not always place implicit faith in the capacity or trustworthiness of their rulers; and so long as things remain on their present unsettled basis, no very great amount of capital will ever be embarked in trade in the colony. It is not necessary to have want of confidence in the government to produce this effect; the bare fact of Acts being proclaimed as law, without debate or sanction by the people is sufficient in itself to cause the most unsatisfactory state of affairs in any country. With representative government foreign as well as English capital would be induced, and a healthy immigration of British subjects encouraged. Whether the question be entertained this session of Parliament or not, we hope His Excellency Governor Douglas will improvise some Legislative system in the meantime until such period as general representation shall have been obtained.

ON Sunday last the barques Vickery and N. S. Perkins arrived at New Westminster from San Francisco, the former vessel having on board 270 tons of freight and the latter 140. A more enlivening sight never presented itself at the capital of British Columbia since New Westminster was first surveyed. On Tuesday evening a dinner was given to the respective captains, by the mercantile inhabitants of the town, a report of which will be found in another column. We hope that the enthusiasm displayed by our towns people will not rest here, but only be taken as an earnest demonstration of their determination to have a systematized direct communication with San Francisco. There is no diversity of public opinion on this head. Every person is satisfied with the necessity of the case. All it wants, therefore, is a combined effort on the part of the different towns of the interior with New Westminster, to bring about the rapid consummation of the subject just spoken of. It is a question which has always occupied a foremost position in our advocacy of British Columbian interests, and until something really tangible in its result takes place, we shall continue that advocacy untiringly. It is scarcely possible to overrate the importance of direct communication with San Francisco or with any other great commercial depot. The two cargoes, of which we have spoken, amounting collectively to 410 tons, are brought here, at the lowest computation, $10 a ton cheaper than they could be received through Victoria. So in this one instance alone a sum of $4,100 is saved, with the additional advantage of having something like a mercantile marine in our port. Nothing gives greater publicity to a place, in a commercial point of view, than its shipping. And nothing, we are certain, has so retarded the growth of our marine more than the want of knowledge which has hitherto existed with regard to the navigation of the mouth of Fraser River. The statement made at the dinner by the pilot, Mr Titcomb, that vessels drawing 20 feet of water can enter our harbor with the utmost ease and safety, only corroborates what we have previously stated concerning the navigable capacity of the mouth of Fraser River. But the total absence of serious risk in crossing the bar, even should a vessel, by mismanagament, get out of the proper channel, is sufficiently demonstrated by the fact of the steamer Otter lying on the sand bank at one time for a number of hours, under a heavy gale, without suffering the slightest injury. The entrance to the Fraser affords, consequently, a striking contrast in this respect to the rocky and dangerous outlets of those ports that have hitherto evinced such alarming eagerness to grasp the British Columbian trade. With all these advanteges, however, in our favor, it will require the most energetic and untiring action on the part of our inhabitants to make anything like headway against the efforts that will be brought to bear against New Westminster. Not a property-holder in Victoria, however insignificant, but will use his influence towards keeping the relative positions of New Westminster and that town unchangeable: and the great landed proprietory—the Hudson's Bay Company—will not be the least indefatigable in their endeavors to crush any attempt to make New Westminster commercially independent of Victoria. What we require is the utmost publicity given in England and elsewhere of the capabilities of New Westminster as a shipping port. The Harbor Committee appointed by the Municipal Council will, no doubt, be able to present to the public some important facts in connexion with this subject, and the presence of our absentee Harbor Master, who would do his utmost towards furthering the interests of the port, will also assist materially in placing New Westminster in that prosperous condition, with regard to trade and commerce, which its geographical position would certainly warrant.

THE MINES.

There were few passengers came down on the Col. Moody last night, and but two or three miners. One of these has $1,800 in gold which he made in a comparatively short period. The expresses brought down a considerable quantity principally from the Carriboo. The gold is exceedingly coarse; several large pieces weighing between $20 and $30 were obtained previous to the express leaving the upper country. Numbers were on their way to the Carriboo despite the approach of winter. The latest accounts from this quarter describe the miners as being in the best of spirits, and all in the hope of making their 'pile,' on the return of spring. Few, if any, holding claims will leave during the winter. Several rich specimens of quartz have been sent to New Westminster by Dr. Forbes' exploring party along the Harrison river country. A number of other valuable discoveries have been made which in a few days will be brought to light. The express had not arrived at Fort Hope from Rock Creek when the Col Moody left, but the latest accounts are not so flattering as interested parties had so extravagantly promulgated. Numbers have left and are continuing to leave until the expiration of the winter months, but Shimilkomeen is attracting a number of them. From this quarter the news is more encouraging, but the Carriboo seems to be the principal point of attraction, and will no doubt absorb the greater bulk of the population on the approach of spring. From Lytton accounts still continue good, and in fact all along this portion of Fraser River the miners are doing well, and few complaints are made. There is nothing new from the silver mines, but the experimental assay of 800 lbs. sent to San Francisco is looked forward to with much impatience and anxiety on the part of the owners of the claim. On the whole the news from the mines is good, if for no other reason than that it is when authentic exceedingly scarce.

LOCAL INTELLIGENCE.

PUBLIC DINNER.

On Tuesday evening last a public dinner was given at the Colonial Hotel, by the merchants and citizens of New Westminster, to the Captains of the barques Vickery and N. S. Perkins, to commemorate the established fact of the practicability of the largest description of merchant vessels reaching New Westminster with the utmost ease and safety. Among the invited guests were Col. Moody, R. E., Capt. Grant, R. E., Captains Callot and Bunker, of the barques Vickery and N. S. Perkins, and Messrs. Titcomb and Broderick, the Fraser River pilots. After due justice had been done to the excellent viands which Mr. Prosper Greeley knows so well how to supply, the usual standard toasts were drunk, including the President of the United States. Next in order came the health of Col. Moody, who in response said, he felt proud at being present on such an occasion. He strongly advocated direct communication with San Francisco, and condemned the attitude of Victoria with regard to New Westminster. Victoria had her due mission to fulfil, and so long as she devoted herself to that mission her career would be prosperous; but if she should continue to look upon New Westminster with the eye of an envious rival, and strive to obtain that which does not naturally belong to her, she will only create a feeling that will defeat her warmest hopes. Commerce has its geographical boundaries and channels and no artificial power can long restrain it from following its natural avenues. A most important point in this connexion he wished to bring before the notice of those present. In laying out the site of the town he had two objects in view—commercial and political—and he believed that the occasion of the present meeting fully justified the course he had taken in choosing this site, and made ample amends for many an anxious thought. The Colonel enlarged on the benefits of Representative institutions, stating that in him they had a constant advocate, and sat down amidst much applause.

'The healths of Captains Callot and Bunker' was next proposed, who in a few and appropriate remarks feelingly expressed their sense of the honor that was done them, and only hoped that commerce would call them back more frequently to this port.

'The Civil Service of the colony' was next proposed coupled with the name of John Cooper, Esq., of the Treasury, the senior officer present, who most suitably replied.

'The road-maker of British Columbia' was drunk with much applause, and responded to by Capt. Grant.

'The trade, commerce, and the port of New Westminster' was then proposed, and duly responded to by Messrs. Wright and Homer, after which

'The health of the pilots,' responded to by Mr. Titcomb, who, in returning thanks for himself and brother pilot, stated that the difficulty represented by the Victoria correspondent of London *Times* was a regular bugbear, He was gratified to state that vessels drawing 20 feet of water could cross the Fraser River bar with ease and safety, and without risk to the owners. He should only be too glad if the merchants of New Westminster would charter one of this dimension, when he would stake his existence on bringing her up without scratching her bottom—steam tugs being unnecessary. He further entered into a detailed account of his knowledge of the channel of Fraser River, suggesting several necessary improvements to enable any one to enter with or without a pilot.

'The Municipal Council' was responded to by Mr. Councillor Armstrong, in a neat speech.

'The foreign residents' responded to by Mr. Elsesser.

'Mrs. Moody,' the Colonel returned thanks.

'The Ladies'—Mr. Holmes responded.

'The legal profession' was acknowledged by Mr. Walker.

'The pioneers of New Westminster' was then drunk, and Mr. Scott, the old pioneer, returned thanks.

'The Press' was replied to by Mr. Armstrong, in the absence of any member thereof.

The company then separated.

A ROYAL PRINCE.—On Tuesday evening last, His Royal Highness, brother of King Kamehamehah, of the Sandwich Islands, landed at Victoria. We hope our island neighbors will give the Prince a reception worthy of his rank. The trade between Victoria and Honolulu is second only to that between the former port and San Francisco, and is rapidly on the increase. The Victorians will, therefore, have an opportunity of not only showing their appreciation of the visit of a member of the Royal Family of the Sandwich Islands, but of drawing closer the commercial ties between the two countries.

BRITISH COLUMBIAN PRISONERS.—Several weeks have now elapsed since the completion of the New Westminster jail, but up till the present the British Columbian prisoners have not made their appearance. We can easily understand the efforts of the Victorians to keep, if possible, the British Columbian trade within their grasp, but it is certainly a new phase even in the aggrandizing characteristics of that town to make the vice and crime of a neighboring country subservient to her local interests by retaining the prisoners of this colony in her chain gang, while British Columbia has to pay for their support. Victoria can have all our criminals with pleasure, if she will only provide for their expenses, but so long as this country has to feed and clothe them we have no idea of allowing their services to be made available by another colony. This is carrying the absentee doctrine to a rather extraordinary stretch; but we hope that the Vancouver Island Government will see fit only to retain our principal officials and let the poor wretches of prisoners have an opportunity of benefitting the country whose laws they have outraged.

THANKS to Mr. W. F. Herre, of Victoria, for a good supply of California, Atlantic, and English papers, and for the *Dublin University Magazine*. A large assortment of periodicals always on hand at the News Depot, Yates-street, Victoria. Our thanks are also due to Mr. S. T. Tilley, of New Westminster, for *Bell's Life* and the *Illustrated London News*, and to Mr. J. Sullivan, of San Francisco, for New York, Boston, and San Francisco journals.

MUNICIPAL COUNCIL.—The council met pursuant to adjournment, on Thursday last, for the purpose of hearing appeals against the municipal assessment. A large number of protests were entered, after which the council proceeded to revise the list. About six o'clock an adjournment took place till the following day at one o'clock, when only four members of the council attended. The meeting was then adjourned in consequence till half-past seven o'clock on Monday evening. The gentlemen who were absent were the President, and Messrs. Homer and Brown. We hope that the important business of revision will be no further delayed through the absence of councillors. A great deal of attention will have to be given to the subject, and the more heads devoted to the object the better. Considerable reductions are being made on the original assessment roll, and we have no doubt that when the revision is completed there will be few property-holders that will have any cause for complaint.

ABSCONDING DEBTOR.—A merchant named Crainor trading between Cayoosh and Alexandria ran away some days ago with about $15,000 belonging principally to merchants in Victoria.

VEGETABLE PRODUCTIONS.—We were shewn some very fine potatoes the other day by Mr. Kennedy that were grown on his farm on the south side of the river. They are very large and of good flavor; and Mr. Kennedy informs us that he has bestowed no care on them from the time they were planted until he dug them from the soil. This speaks well of the capability of the land to produce at least good potatoes.

THE MARIA.—This steamer is at present undergoing repairs at the foot of Lytton square. She will, in a few weeks, be prepared to replace the Col. Moody. The Maria only draws about 13½ inches, and will in consequence be enabled to travel at the lowest stage of water.

MYSTERIOUS DISAPPEARANCE.—A boatman in the employ of Messrs. Wright, Scott, and Nelson, of Port Douglas, who plied between Cayoosh and the Big Kanyon, disappeared one day last week with about $1000 belonging to that firm.

COL. MOODY attended the proceedings of the Municipal Council, for the first time, on Thursday last, and imparted to the members a great deal of valuable information in connexion with town surveys, grading, &c.

WE are under obligations to Ballou's and Jeffray & Co.'s Expresses for several favors.

CORRESPONDENCE

Under this head we shall allow our readers full liberty to express their sentiments on all questions pertaining to the public good or interest, whether we coincide with those opinions or not. We will, consequently, not be responsible for anything contained in our "correspondence." We would, at the same time, however, remark that all communications must have BONA FIDE *signatures, and written on one side of the paper only. Brevity also should be adhered to.*

ROCK CREEK.

To the Editor of the New Westminster Times.

SIR,—I write you a few lines as I promised. I am situated on the banks of a creek, about 13 miles from where the mining operations are principally carried on at Rock Creek. The place in question is only a few hundred yards from the boundary line. Nothing very great has been struck here as yet; but gold is found all along the creek. At Rock Creeck several claims are paying well—one claim about ten days ago took out for several days in succession $100 a day to the hand. A number other claims are doing extremely well, but the best portion of the ground is all taken up, and there is little show for new comers. All the creeks round about, however, afford good chances by prospecting. We have got anything but a desirable population here just now, and nothing is wanted more than some protective force to teach the rowdies a lesson, and enable order-loving people to get along in some kind of peace and quietness. I could single out a dozen or two individuals who would be valuable acquisitions to your chain-gang (if you are so far advanced as to possess one). A few months hard labor on bread and water would entirely cure them of their anti-British rowdyism. It is the wish of all the decent inhabitants of Rock creek—Americans as well as English—that a magistrate and constabulary should be at once established at that place. The sooner this is done the better, in order to check the growing lawlessness in the bud. Your papers for the last four or five weeks have not come to hand, and I learn from a friend that mine along with the others is still lying in the store of some individual named Hotchin, at Fort Hope. I do not know whether the person mentioned is the cause of the detention. Please make an alteration in this respect, for, at any rate, the Pony Express of Dunbar is a complete farce—the man is half his time peddling in horses, and does not attend to delivering the paper.

Rock Creek, Sept. 10, 1860. VERAX.

HUMBUG SUBLIMATED,

The Philadelphia *Public Ledger* perpetrates the following:—

'MR. DALLAS AND LORD BROUGHAM.—The power of silence was never more admirably illustrated than in the recent conduct of Mr. Dallas to Lord Brougham. The latter was so clearly and grossly in the wrong that it was difficult to notice it. It was not merely Mr. Dallas as a private gentleman whose character had to be maintained, but the representative of the United States, whose peculiar situation in regard to the African race was directly aimed at. It would, no doubt, have been highly edifying to the Statistical Society to have drawn out one of those philippics for which Lord Brougham is so famous. But there is no replying to silence, and what Sydney Smith calls an eloquent flash of this was the most powerful of all cuts upon the garrulous old peer.'

Let us consider the foregoing in the light of a few undeniable facts:—

I. The Republic of Hayti is treated by every European state—even by France from whom she wrested her independence in fair fight—as an equal and independent power, whose good will she desires to conciliate and preserve, whose trade she seeks to secure. This country alone refuses to acknowledge the existence of and maintain diplomatic relations with our sister republic—the oldest, next to our own, in America—simply because her people are negroes.

II. The Republic of Liberia was founded and is to-day mainly peopled and wholly governed by natives of and emigrants from this country. Its trade, like that of Hayti, is already valuable and steadily increasing; but it is compelled to desert our ports and seek those of Great Britain, by the refusal of our Executive to acknowledge its independence, and maintain diplomatic relations with its Government, because its people are negroes.

III. Natives and life long residents of our country who have education, culture, character, probity, fortune, and social consideration in other lands, ask our Government to give them passports enabling them to travel in foreign climes, and are flatly refused—because they are negroes.

IV. They take passage in British steamships to cross the Atlantic, and are denied the common privilege of decently-behaving human beings, for which they have contracted and paid—not that the owners or managers of those vessels choose to make this odious and unjust discrimination—not that their British or other European passengers insist on it—but simply that the *American* passengers will have it—because these proscribed fellow passengers are negroes.

V. Everywhere it is insisted that negroes—no matter how educated, how *intellectual*, how distinguished for moral worth and good works—must be proscribed and hunted from all association on terms of equality with white Americans—because they are negroes.

—In full view of these notorious, undeniable facts, a Statistical Congress is assembled in London, and Mr. George M. Dallas, our Minister Extraordinary at the British Court sees fit to attend its sitting. Lord Brougham, a British peer, and one of the most eminently useful and honored men of his time also attends. So does one Mr. Delany, a fellow Pennsylvanian with Mr. Dallas, worthy and esteemed, but who had the misfortune to be born of the least desirable color. Lord Brougham, seeing these two representatives in juxtaposition, and believing with most enlightened Europeans that our national negrophobia is a compound of prejudice and hypocrisy begotten by slavery, could not resist the temptation of calling Mr. Dallas' attention to the fact that one of his fellow members was a negro. The allusion was of course jocular, and, if it stung, Slavery and American humbug, not Lord Brougham, gave it all its point. It was a just and timely rebuke to our national inconsistency, illiberality, and hypocrisy. That it was difficult for Mr. Dallas properly to notice it, we fully realize. That 'silence' was his best possible resource, is very certain. If that portion of our American Press which sympathises with him in his embarrassment had had a like conception of the wisdom of saying nothing, when there is really nothing to say, it would have been better for Mr. Dallas and for the reputation of our country.—*N. Y. Tribune.*

THE PRINCE OF WALES AT QUEBEC.

Latest advices bring the Prince of Wales down to Montreal: the subjoined details of his movements in Quebec will be read with interest:—

QUEBEC, Aug. 21.—Amid a pouring rain, the Prince left the Governor General's house, to take up his residence in the Parliament Buildings. At the levee, all the Roman Catholic Bishops in the Province were presented separately, next the Judges of the Superior Court of Lower Canada, then the members of the Legislature and Council, the Speaker of which read an address in French and English, to which the Prince replied. At the conclusion, the Speaker was desired to kneel down, and the Prince, taking an unsheathed sword from the Duke of Newcastle, struck the Speaker lightly, saying 'Rise up Sir Narcisse Belleau.' The members of the Lower House were then introduced, and an address was read by the Speaker, Wm. Henry Smith, on whom the honor of knighthood was also bestowed. After this the officers of the garrison were presented, then the Anglican Bishop and clergy, who presented an address and received an appropriate reply. About 1000 gentlemen were then presented. A number of addresses from National Societies were presented. After the levee, upwards of 50 members of the Legislative Council and Assembly, partook of a *dejeuner* with the Prince. In the afternoon the Prince drove to Montmorenci Falls. There were a dozen arches on the way, and the houses were dressed with flags, &c. Crowds on the road cheered lustily. The Prince was delighted with the Falls. He visited the Natural Steps, and returned to town to dinner at seven o'clock. A select party comes off at Music Hall to-night.

Government Notices and Proclamations.

NOTICE.

Colonial Secretary's Office, 31st August, 1860.

THE GOVERNMENT GAZETTE for British Columbia, heretofore published in the Colony of Vancouver Island, having been discontinued as a separate pamphlet, notice is hereby given that from this date and until further notice all Government advertisements and Proclamations, and other matters useful and necessary for general information and guidance, will be published in the columns of the NEW WESTMINSTER TIMES newspaper; and such publication shall in all cases be taken and deemed as publication in the *Government Gazette.*

By command of his Excellency.

WILLIAM A. G. YOUNG,
Acting Colonial Secretary.

NOTICE TO MARINERS.

Colonial Secretary's office,
10th September, 1860.

THE BUOY on the North Sand Head at the entrance to Fraser River having disappeared, notice is hereby given that the same has been replaced by a new Spar Buoy, painted in vertical lines black and white, and surmounted be a basket Beacon painted red.

The buoy is in the same position as indicated in Captain Richard's notice, of 24th September, 1859, but is now in 12 feet water at low water.

WILLIAM A. G. YOUNG,
Acting Colonial Secretary.

OFFICIAL NOTICE.

GOVERNMENT ASSAY OFFICE,
NEW WESTMINSTER, BRITISH COLUMBIA.
September 1st, 1860.

ASSAYS OF GOLD BULLION are made on the following terms, and under the following conditions:—

1. A receipt will be given to the Depositor for the exact gross weight of his deposit.

2. The resulting ingot will be delivered to any party returning the aforesaid receipt, whether the Depositor or any one else, and the party returning the receipt will be required to cancel it by his signature at the time of receiving the ingot.

3. Each ingot will be stamped with its *number*, corresponding to its number in the official records, with its *weight*, in ounces and decimals of ounces, and its *fineness* in thousandths; also with a Government Cipher, at present a crown over the letters VR.

4. With each ingot will be given a certificate, signed by a Government officer, of the weight of the deposit before melting; its weight after; the fineness; the charge for assaying; and such certificate will have tables of British Mint valuation and of the latest San Francisco valuations, whereby parties may calculate for themselves the value of the bar for English or American markets.

5. For all bars not exceeding 50 ounces in weight, a charge of seven shillings and six pence (7s. 6d.) sterling will be made, and for every additional 10 ounces a fraction of same, one shilling and six pence (1s. 6d.).

All clips are retained in the Government Assay office; but on bars not exceeding 10 ounces in weight, allowance will be made off the assay charge, for the value of the clip.

ASSAYS OF ORES are made at the charge of One Pound (£1.) for each specimen experimented upon.

FOR A COMPLETE ANALYSIS OF ANY MINERAL, Two Pounds (£2.) is the charge.

W. DRISCOL GOSSETT.

BEG to call the attention of readers of English newspapers in Vancouver Island, British Columbia, and California to the advantage of subscribing to the "Evening Mail" newspaper, which is a reprint published three times a week, of all the leading articles, essays, correspondents' letters, and news of "The Times" London newspaper, everything but the advertisements, and can be sent *post free* to all parts of Vancouver Island, British Columbia, and California, via the United States, for £1 1s per quarter, or £4 per annum, paid in advance; thus being "The Times" at HALF PRICE.

Subscriptions received at the office of the "New Westminster Times," New Westminster, British Columbia. m2-1y

J. B. PAINTER,

(SUCCESSOR TO O'MEARA & PAINTER)

THANKFUL for the past favors shown the late firm would respectfully inform Printers that owing to increased facilities, and recent instructions from the Foundry, he is now prepared to sell Plain and Ornamental Type, Presses, Printing Material, Paper, Cards and Printers' Stock generally, 132, Clay-street, near Sansome, San Francisco.

DR. ROSENBAUM'S STOMACH BITTERS!

For the cure of Dyspepsia, Indigestion, Constipation Loss of Appetite or any Bilious Complaints arising from a morbid action of the Stomach or Bowels.

All of these diseases you will soon be relieved of, by use of these Bitters, as per directions on the Bottles. This great anti-dyspeptic is the result of profound and elaborate study of one of the most celebrated physicians of the present century, in the accomplishment of which he has spent both time and money. We do not hesitate to affirm that where Dr. Rosenbaum's Stomach Bitters are used, a case of Fever and Ague cannot occur. It has been analyzed by the most scientific chemists in the Medical Faculty, and is now prescribed by nine-tenths of the Physicians of the land. Try them—test them—on your constitution, and go your way rejoicing.

Are you dyspeptic?—take these Stomach Bitters.

Are you bilious?—try one of these bottles and be relieved at once.

Are you annoyed by indigestion or constipation?—remove the cause by a free use of the Bitters.

Have you fever and ague?—cure and prevent this destroying disease by the free use of these Bitters.

The superiority of these Bitters has induced many to put up a spurious article. To prevent deception in future, each cork will be branded, "N. B. JACOBS & Co." And the labels will bear our own signature, without which, none are genuine.

CAUTION.—Consumers of Rosenbaum's Bitters are cautioned against the many counterfeits now afloat in the market, and especially against a cheap and worthless article called Rosenschi's Bitters, put up in this by Messrs. Turner Bro.'s, with the avowed intention of preying on the well-earned reputation of Rosenbaum's Bitters, as a remedial agent in all cases of Dyspepsia and similar diseases. The genuine Rosenbaum has our name branded on each cork, and our signature on each label.

VICTORIA PRICES CURRENT AND SHIPPING LIST.

PUBLISHED every fortnight in time for the California Mail Steamer. The prices Current contains the correct and authentic rates and prices of all descriptions of articles in the Victoria market, as well as reliable reports of the state of trade, shipping, &c. It is as invaluable as an index and commercial authority to every merchant and tradesman as it is a desirable medium for advertising. Printed for A. F. MAIN at the office of the V. I. *Gazette*, Victoria.

FOR PURIFYING THE BLOOD,

AND FOR THE CURE OF

Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt Rheum, Fever Sores, Erysipelas, Pimples, Biles, Mercurial Diseases, Cutaneous Eruptions, Liver Complaint, Bronchitis, Female Complaints, Loss of Appetite, General Debility, &c.

A plentiful supply of pure blood is as essential to animal life as light, heat, and genial showers are to the vegetable kingdom. When the proper circulation of the vital fluid is impeded, sickness is the inevitable consequence, the secretions become unhealthy, the liver becomes clogged with impure bile, which, forced into the system, vitiates and inflames the blood, engendering scrofula and cutaneous and biliary disorders. The experience of sixteen years has fully established the high reputation of this invaluable medicine: its curative powers have been thoroughly tested in long-standing and obstinate cases, with such invariable success as to call forth the most flattering commendations from eminent physicians throughout the country.

MEDICAL TESTIMONY.

The following recommendation is from one of the oldest physicians in New London, Conn.

Messrs. A. B. & D. SANDS: Gentlemen,—Your Sarsaparilla has been very extensively used in this city and the neighboring towns, and so far as my knowledge extends, uniformly with success. In a great variety of diseases of long standing, and of a very distressing and dangerous character, which have resisted a long list of remedial agents, it has been used—in many of them with complete success, and in all with decided benefit. It is regarded by the medical profession as a medicine of great efficacy in a numerous class of diseases, such as inveterate constitutional complaints, when the system has been long diseased; in cases of long use or abuse of mercury; in rheumatism of long standing; in obstinate diseases of the skin; in enfeebled conditions of the system; in chronic abscesses, attended with profuse discharges; diseases of the bones; obstinate ulcers; chronic pulmonary affections; enlarged glands, and various other maladies connected with a depraved state of the system. Its use is usually followed with improvement of appetite and digestion, increase of strength and flesh, better rest at night, the production of a more healthy state of mind, and complete restoration to health.

Truly yours, WM. STERNE, M. D.

IT NEVER FAILS!

CROSSMAN'S SPECIFIC MIXTURE

FOR THE CURE OF

CERTAIN DISEASES, WITH WHICH UNFORTUNATELY MANY ARE AFFLICTED.

Of all the remedies yet discovered for such complaints, this is the most certain, and leaves no injurious effects.

It makes a speedy and permanent cure, without the least restriction to diet, drink, exposure, or change in application to business. One bottle is generally sufficient to cure an ordinary case, which not unfrequently disappears after six or eight doses.

Prepared and sold by **A. B. & D. SANDS,** Wholesale Druggists, 100 Fulton-street, corner of William, New York.

For sale by DEWITT, KITTLE & Co., H. JOHNSON & Co., and REDINGTON & Co., San Francisco; RICE & COFFIN, Marysville; R. H. McDONALD & Co., Sacramento; and by Druggists generally.

SANDS' SARSAPARILLA,

FOR PURIFYING THE BLOOD,

AND FOR THE CURE OF

Scrofula, Mercurial Diseases, Rheumatism, Cutaneous Eruptions, Stubborn Ulcers, Liver Complaint, Dyspepsia, Bronchitis, Salt Rheum, Lumbago, White Swellings, Hip Disease, Enlargement of the Bones and Joints, Fever Sores, Female Complaints, Erysipelas, Loss of Appetite, Pimples, Biles, General Debility, &c., &c.

It has long been a most important desideratum in the practice of medicine, to obtain a remedy similar to this, and accordingly we find it resorted to almost universally in all those tormenting diseases of the skin so trying to the patience, and injurious to the health. It is a tonic, aperient, and disinfectant. It acts simultaneously upon the STOMACH, the CIRCULATION, and the BOWELS, and thus three processes, which are ordinarily the result of THREE different kinds of medicine, are carried on at the same time through the instrumentality of THIS ONE remedial agent. Its great merit is, that it meets and *neutralizes* the active principle of disease itself, and when that is gone, the symptoms necessarily disappear. *The rapidity with which the patient recovers* health and strength under this triple influence is surprising.

REMARKABLE CURE.

LYNN COUNTY, Oregon Ter., March 11, 1855.

Messrs. A. B. & D. SANDS, New York: Gentlemen,—In the spring of 1853, while on our way from Indiana to this place, our eldest boy was seized with a swelling and severe pains in the legs, which day by day grew worse, until his legs contracted, and became so painful that he could not walk, and we had to carry him about like an infant. We reached Albany on the 3d of October, completely worn out by fatigue. By this time he was reduced to a perfect skeleton. Here we were enabled to consult a physician (Dr. Hill), who honestly confessed he could not cure him, although he could give him medicine that would relieve the pain. In this exigency something must be done, or death was inevitable. Being recommended to try your Sarsaparilla, I procured a bottle. After taking some, he appeared worse; but persevering with it, I obtained a second bottle, which seemed to grapple with the disease, and caused a marked improvement: the swelling and pain in the legs were reduced, his appetite improved, and his color began to return. Thus encouraged, I purchased a third bottle; while taking it, the swellings in his legs broke, and some pieces of bone one-eighth of an inch long came out, after which his legs straightened and healed up. He is now perfectly recovered, has no appearance of being a cripple, and can perform most kinds of common labor, as all our neighbors can certify. Yours, respectfully,

CALEB DAVIS.

ROMAN EYE BALSAM,

FOR INFLAMED EYELIDS.

The delicate structure of the eyelid renders it peculiarly sensitive and liable to disease. When, from any cause, it becomes affected, the inner membrane rapidly inflames, and the eyelid evinces the strongest predisposition to attract to itself humors from all parts of the body. Hundreds of persons of scrofulous habit are disfigured by rawness or redness of the eyelids, commonly called sore eyes, and tortured with apprehensions of impaired vision, who, by using this BALSAM, may obtain almost immediate relief. In all cases, the earlier this remedy is applied the better.

READ THE FOLLOWING EVIDENCE.

NEW YORK, July 15th, 1856.

Messrs. A. B. & D. SANDS: Gentlemen,—I have been troubled for years with an affection of the eyelids, and have tried a number of remedies without experiencing any decided benefit. A few weeks since I obtained some of your ROMAN EYE BALSAM, and applied it according to the directions. The first application produced a decidedly beneficial effect, and I had not used it a week, before my eyelids were entirely free from inflammation, which had not been the case before for many years.

Yours, &c. G. B. WILLIAMS, 262 BROADW

MUSIC OF OCEAN.

Lonely and wild it rose,
That strain of solemn music from the sea,
As though the bright air trembled to disclose
An ocean mystery.

Again a low, sweet tone,
Fainting in murmurs on the listening day
Just bade the excited thought its presence own,
Then died away.

Once more the gush of sound,
Struggling and swelling from the heaving plain,
Thrill'd a rich peal triumphantly around,
And fled again.

O, boundless deep! we know
Thou hast strange wonders in thy gloom conceal'd,
Gems, flashing gems, from whose unearthly glow
Sunlight is seal'd.

And an eternal spring
Showers her rich colors with unsparing hand,
Where coral trees their graceful branches fling
O'er golden sand.

But tell, O, restless main!
Who are the dwellers in thy world beneath,
That thus the watery realm cannot contain
The joy they breathe?

Emblem of glorious might!
Are thy wild children like thyself array'd,
Strong in immortal and uncheck'd delight,
Which cannot fade!

Or to mankind allied,
Toiling with woe, and passion's fiery sting,
Like their own home, where storms or peace preside,
As the winds bring?

Alas for human thought!
How does it flee existence, worn and old,
To win companionship with beings wrought
Of finer mould!

'Tis vain—the reckless waves
Join with loud revel the dim ages flown,
But keep each secret of their hidden caves
Dark and unknown.

LATEST INTELLIGENCE.

News from Liverpool to the 14th of August, per Arabia, states that there had been ov[illegible] hundred arrests at Damascus, of persons implicated in the late horrible massacre. Immediate trial was had of all the culprits, and those found guilty were speedily executed.

The city was tranquil, and the authority of the Sultan, under the effect of vigorous measures, was restored.

In the British House of Commons, Sir C. Wood gave notice of a resolution authorizing the Secretary for India to raise by loan £3,000,000, for the service of the Government.

Lord John Russell explained the position of the question of making Spain one of the great powers. The movement, he stated, was first intimated by the French Government. Suggestions were also under consideration that Sweden, and perhaps Portugal and Sardinia, ought also to be added to the great powers. Lord John Russell said the concert of the great powers on various questions had tended materially to preserve the peace of Europe.

London, Aug. 8.—A correspondent at Naples writes on the 4th, that appeals to arms have been publicly posted up. The reactionary party at Gaeta hesitates in the presence of the attitude of the country, and is alarmed at the very populace which was formerly its instrument. The *Court Herald* has the seal of the populace and of the inferior classes of citizens in its favor.

A recent interview between the Kings of Denmark and Sweden, gave rise to a report that the Scandinavian kingdoms intended to form an alliance against Germany. The Swedish press, however, combats the idea of any aggressive policy, and the people are represented to be decidedly opposed to anything of the kind.

No movements are reported in Naples and Sicily. The *Paris Patrie* says that Garibaldi, in a letter to the king of Sardinia, said he considered it a sacred duty to deliver Venetia, and that the possession of a powerful navy like that of Naples would enable him to do it. Provisions were excessively dear in Sicily. A duty on salt, imposed by the Dictator's Government, was said to be very unpopular.

Gen. Lamoriciere had suppressed a demonstration in favor of Garibaldi, at Lodi, and levied a war contribution of £44,000.

The latest dates from Damascus report all quiet there, but murders were still committed in the surrounding country. Three thousand Christian women were sold at twenty piasters apiece, and were detained in harems.

The Emperor Napoleon has given 300,000 francs in aid of the fugitives from Syria.

LATER FROM AUSTRALIA.

The ship Electra arrived at San Francisco, Aug. 24th, from Sydney, with dates to the 29th of June.

The amount of the gold yield in the colony of Victoria continues to decrease. The amounts sent by escort to Melbourne from the 1st January to the 15th of June, during the last five years, have been as follows:—1856, 1,248,634; 1857, 1,089,478; 1858, 1,040,119; 1859, 1,013,631; 1860, 907,114.

The Snowy River diggings have proved to be rich and extensive.

Twenty-five camels had arrived at Melbourne, imported by the Government, which has also obtained a herd of alpacas from Peru.

The New Zealand war is still in progress.

JAPAN AND CHINA.

The news by the What Cheer, from Japan is unimportant. Dates from China are to the 13th of June. The town of Loochow had been taken by the rebels and sacked. A large body of Imperialist soldiers deserted and joined the rebels. The carnage was fearful, and the rebels, it was supposed, was marching on Pekin by way of the Grand Canal. The English and French fleet and army had gone to the Gulf of Peechell, on the way to Pekin. The American ship Intrepid had been lost in the Chinese seas.

The following is a report of the remarks made by Lord Palmerston, which excited so great a sensation throughout Europe and led to the writing of Napoleon's letter:—

"In the House of Commons, on the 23d July, Lord Palmerston stated the intentions of the Government relative to the defences of the country. He proposed that the recommendations of the present Commissioners—whose report has been published—should be substantially carried out. The defence of the various dock-yards is the principal position, and the estimated outlay £9,000,000 sterling, which is intended to be raised by means of terminable annuities, expiring in 30 years. The requirement for the present year is £2,000,000, which it is proposed to raise at once, with a view to the immediate prosecution of the works, and to raise from year to year such additional sums as may be required.

"Lord Palmerston expatiated on the danger to which the country was exposed fram invasion, and after pointing to the large army maintained in France, which is always ready for aggressive purposes, he declared that England ought not to be dependent upon the forbearance of another Power for its freedom from attack.

"The consideration of the subject was postponed till the 30th of July.

"The proposition was generally received with favor, particularly by the Tory party. The peace party regard Palmerston's speech as a manifesto of distrust towards France."

The London *Daily News* says no one could take exception to Lord Palmerston's tone, when he touched upon the critical foreign relations of a constitutional government with a despotic neighbor.

The London *Herald* remarks that the earnestness of Lord Palmerston's tone is a pretty good guarantee that the work to be taken in hand will be well done, and that the government had at last been roused into something like vigilance and solicitude respecting the national defences.

The London *Times* says Lord Palmerston means nothing more than that with 600,000 men under arms or on furlough, within sight of our shores, aided by a fleet almost equal to our own, both wholly unnecessary for defence, wielded by the changeable government of an excitable people, we have to look to ourselves.

The London *Daily News* describes the reception given to the measure. It was greatly cheered on the Tory side, and this fact is noted by that journal as the indication of a deliberate purpose amongst that party, to foment discord between France and England.

THE AGE OF EGYPT.—Leonard Horner, an English Engineer, has been trying to discover "the age of Egypt," by counting the number of earth layers made by the annual overflowing of the Nile. Mr. Horner's researches were made by sinking a number of shafts, ninety-two in all, across the Nile valley, nearly in a line with and crossing the site of the ancient city of Heliopolis. In every case the alluvium was found to be regularly divided into layers, and the average of many measurements indicated the rate of vertical increase of sediment was about three and one-half inches per century. One of these shafts, in particular was sunk close to the great monolithic statue Rameses II, at Memphis, and it was found that there were nine feet four inches of Nile sediment between eight inches below the present surface of the ground and the lowest part of the platform on which the statue stands. Now this statue has been determined by Lepsius and other Egyptian scholars, to have been erected 1361 years before Christ, and this date add to 1858, gives therefore 3218 years, during which the above mentioned depth of sediment accumulated; a rate of increase in strict accordance with the results of the measurements before alluded to. Below the platform of stone on which the statue rests, the shaft was driven thirty-two feet; but the lowest two feet consisted of sand, thus leaving thirty feet of true Nile sediment in an undisturbed condition below this foundation. At the base of the sediment, or at the depth of thirty-nine feet four inches from the present surface of the ground, fragments of pottery were found in a good state of preservation, and exhibiting some considerable artistic skill. Allowing, now, that the thirty feet of sediment covering these remains (below the platform of the statue) were deposited at the rate of three and a half inches per century, we have in the fragments of pottery a record of the existence of man 12,500 years before A. D. 1858, 11,500 years before the Christian era, 7,600 years before the commencement of the reign of Menea as assigned by Lepsius; of man, moreover, in a state of civilization sufficiently advanced to be able to fashion clay into vessels, and harden it by heat.

THE BLESSING OF HEALTH
BY
HOLLOWAY'S PILLS.

Why are Diseases so Fatal in Tropical Climates?

Merely because we prescribe for their effect, instead of their cause, and try to relieve symptoms instead of striking at their root. The action of these Pills is precisely the reverse. They expel from the secretive organs and the circulation the morbid matter which produces inflammation, pain, fever, debility, and physical decay; and the basis of disease being removed, its manifestations vanish. While ordinary remedies only afford a temporary respite to the sufferer, whereas these Pills annihilate the disorder.

Ill Health in Hot Countries.

Frequently arises from nervous disorders affecting the action of the heart and deranging the whole animal economy; these fine Pills will restore the nervous system however deranged, and bring back health and spirits when all other medicine has failed.

Bilious and Liver Complaints.

Frequently lead to the worst phases of human suffering, yet how many in the East and West Indies, and most of our Foreign Possessions, are thus afflicted, unknowing the means of cure placed within their grasp; such should take a few boxes of these Pills according to the directions given in the books, and their ailments will quickly leave them.

Dropsical Swellings and Turn of Life.

This is a most disastrous period in woman's history, it destroys thousands, the whole of the gross humors collect together, and like a tide sweep away health and life itself, if not timely and powerfully checked. The most certain remedy for all these dangerous symptoms is Holloway's Pills. Armed with this great antidote, the fiery ordeal is passed through, and the sufferer is once more restored to the possession of unimpaired health. These Pills are equally efficacious in all female complaints, and obstructions at the dawn of womanhood.

Stomach and Liver Complaints.

These are complaints of the million, particularly of those in warm latitudes; few escape them; and, if neglected, they lead to innumerable dangerous maladies. But why neglect them when Holloway's Pills will eradicate them as certainly as water extinguishes fire? They relieve the bowels, purify the fluids, and invigorate the system and the constitution at the same time. They are admitted by virtue of special decrees into the dominions of despotism, and thus have become a great household remedy.

Dysentery and Bowel Complaints.

These famous Pills should be taken once or twice a week by all classes in this part of the world, by which means, none need fear the attacks of these direful scourges.

A Word to Females.

The local debility and irregularities which are the special annoyance of the weaker sex, and which, when neglected, always shortens life, are relieved for the time being and prevented for the time to come, by a course of this mild but thorough alterative.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Billious Complaints	Erysipelas	Stone and Gravel
Blotches on the skin	Female Irregularities	Liver Complaints
		Lumbago
Bowel Complaints	Fevers of all kinds	Piles

AN ASTONISHING REMEDY!

HOLLOWAY'S OINTMENT.

It Expels Disease!

It is said that all productions of human skill have their day, and are superseded by new inventions or discoveries. Not so with this remedy. "It is not for a day, but for all time, and in all countries." And Why? Because it strikes at the generic root of all diseases in the blood, and medical art can accomplish nothing beyond that. The Ointment penetrating through flesh and fibre, like water through a porous substance, reaches the germ of disease, such as scrofula, erysipelas, cancer, tumor, and all eruptive and ulcerous discharges in the circulation, and eradicates the taint at once and forever in this climate.

Bad Legs.

This Ointment will cure any case of Bad Leg even if of twenty years standing, or however hard or discolored the flesh may be, or if swollen the size of a person's body, provided the Ointment is well rubbed into the whole of the parts affected twice a day in large quantities, and the parts kept covered with linen rags thickly spread with the Ointment; from this mode of treatment, a plentiful discharge of unhealthy humor will follow, until the wounds are all healed on the leg, or other parts assume their natural appearance.

Old Wounds, Sores, and Ulcers.

The most inveterate cases of bad legs, scrofulous, or other sores, are cured, if of 20 years standing, by the joint use of the Ointment and Pills. The effect of this unrivalled remedy upon virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterwards complete, are safe as well as permanent. It has a wonderful effect in the cure of sores occasioned by mosquetos, sand-flies, or giggers.

Piles.

This Ointment will cure the worst cases of Piles if used according to the printed directions even if of 20 years standing.

Eruptions on the Skin.

Blotches, pimples, dry eruptions, and all irritations of the skin, fade and disappear after a few applications of Holloway's Ointment. In these cases brisk friction is indispensable. Many of the ordinary eruptions are caused by suppressed perspiration, and as this penetrating unguent at once opens the pores, and invigorates the absorbents, it dissipates the inflammation by a double process. Ladies whose faces or arms are disfigured by cutaneous diseases, may readily remove the blemish and restore to the skin its natural tint, flexibility, and softness, by the use of this safe but powerful counter-irritant.

King's Evil, Fever Sores.

In cases of King's Evil where medicinal waters, lotions, and every recipe of pharmacopœia have proved useless, the Ointment will accomplish a thorough cure. Fever sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

Rheumatism, Scrofula, Erysipelas.

These are among the most terrible and agonizing diseases, yet in their worst forms and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing antidote to pain and inflammation.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Contracted and Stiff Joints.	Scalds.
Bad Breasts.		Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquetoes and Sand-Flies.	Gout.	Scurvy.
	Glandular Swellings.	Sore-heads.
Coco-bay.		Tumors.
Chiego-foot.	Lumbago.	Ulcers.
Corns (soft).	Piles.	Wounds.
Cancers.	Rheumatism.	Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilised world.

GROVER & BAKER'S
New style noiseless
FAMILY SEWING MACHINES,
From $75 upwards.

THEY were awarded Two Premiums at the State Fair! One for machine sewing, and the only Premium for Fancy Quilting and Embroidery.

These machines sew from two spools, as purchased from the store, requiring no re-winding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

The new machines introduced by the Grover & Baker Sewing-Machine Company, are of elegant finish, and their operation is rapid and very quiet. The ease with which they can be managed is a distinguishing feature, and the stitch is the strongest, handsomest, and most elastic of any made.

Send for a circular. All machines warranted.
Silk, cotton, needles, etc., always on hand.

BRITISH COLUMBIA.

PROCLAMATION.

By His Excellency JAMES DOUGLAS, Companion of the most Honorable Order of the Bath, Governor and Commander-in-Chief of British Columbia, Vice-Admiral of the same.

WHEREAS, under and by virtue of an Act of Parliament, made and passed in the session of Parliament held in the 21st and 22nd years of the Reign of Her Majesty Queen Victoria, intituled an Act to provide for the "Government of British Columbia," and by a Commission under the Great Seal of the United Kingdom of Great Britain and Ireland, I, JAMES DOUGLAS, have been appointed Governor of the said colony, and have been authorised by Proclamation under the Public Seal of the said colony, to make laws, institutions, and ordinances, for the peace, order, and good government of the same, and

WHEREAS by a certain Indenture dated the 17th day of this present month, and made between Richard Clement Moody, Chief Commissioner of Lands and Works in British Columbia, of the one part, and Edgar Dewdney of New Westminster of the other part, the said Edgar Dewdney has contracted to construct a certain trail or road, and works as described in the said Indenture, and within the time, and on the terms, and subject to the approval therein mentioned, for the price of Seventy-six Pounds per mile, to be paid in such proportion as the said Chief Commissioner shall determine, and as to One Thousand Pounds part thereof in cash, and the remainder by means of British Columbia Treasury Bonds bearing interest at the rate of Six per cent. per annum, of which Bonds Eight Hundred Pounds are to be redeemed on the 31st day of December, 1860; One Thousand Pounds on the 31st day of December, 1861; and the remainder on the 31st day of December, 1862.

And whereas it is by the same Indenture provided that one-fifth of the value of the works executed shall be retained until three months after the date of completion and acceptance of the whole by the said Chief Commissioner, or his agent.

Now, therefore, I, JAMES DOUGLAS, do hereby declare, proclaim, and enact, as follows:—

1. On the production of any certificate of the said Chief Commissioner stating his approval of any portion of the said works as determined by him and the price of such proportion according to the said recited agreement, there may be delivered from time to time by the Treasurer of British Columbia to the Chief Commissioner of Lands and Works for the time being such a number of Treasury Bonds in the form set forth in the schedule hereto, each Bond being for the amount of 50l., and bearing interest at the rate of 6 per cent. per annum from the date thereof as shall in the aggregate amount to four-fifths of the price of the whole proportion specified in such certificate.

2. At the expiration of three calendar months from the completion of the whole of the said works certified and accepted as aforesaid, and on the production of a certificate of approval and acceptance thereof, signed by the said Chief Commissioner and stating the entire length of the whole of the said trail or road and works and the entire price thereof there may be delivered by the said Treasurer to the said Edgar Dewdney, his executors, administrators, or assignees such an additional number of the like Bonds as shall with those already delivered under clause 1 make up the full price of 76l. per mile on the entire length so certified to be approved and accepted.

3. All the said Bonds shall be numbered in a regular series according to the natural numbers, beginning with No. 1 according to the order in which the same shall be issued.

4. The Bonds numbered 1 to 16, both inclusive, shall be payable by the Treasurer with interest in cash on the 31st December, 1860. The bonds numbered 17 to 36 both inclusive shall be payable by the Treasurer with interest in cash on the 31st December, 1861. The remainder of the said bonds shall be payable by the Treasurer with interest in cash on the 31st December, 1862. All of the said Bonds shall be dated as of the days on which they shall respectively be issued.

5. The Treasurer for the time being of the colony is hereby ordered and directed to pay the amount of every such Bond and interest out of any moneys belonging to the colony in his hands, at the time when such bond shall be presented to him for payment, according to the tenor thereof.

6. The schedule hereto shall be deemed to be part of this Proclamation.

7. This Proclamation may be cited on all occasions as "The Shimilkomeen Roads' Bonds Act, 1860."

[L. S.] Issued under the Public Seal of the said colony, at Victoria, Vancouver Island, this twentieth day of August in the year of our Lord, one thousand eight hundred and sixty, and in the twenty-fourth year of Her Majesty's reign by me

JAMES DOUGLAS.

By command of his Excellency.
WILLIAM A. G. YOUNG,
Acting Colonial Secretary.

SCHEDULE.
TREASURY BOND.

PROCLAMATION 1860.
Shimilkomeen Road.
No. £50 day of 186
Payable 31st December, 186

The Government of British Columbia is hereby bound to pay to the bearer hereof on the 31st December, 186 , at the Treasury of British Columbia, the sum of 50l. together with interest thereon from the date hereof, after the rate of 6 per cent. per annum.

Treasurer.

By order of his Excellency the Governor.

Colonial Secretary. [L.S.]

BRITISH COLUMBIA.

PROCLAMATION.

By His Excellency, JAMES DOUGLAS, companion of the most Honorable Order of the Bath, Governor and Commander-in-chief of British Columbia, Vice-Admiral of the same, &c., &c.

Proclamation having the force of law in Her Majesty's colony of British Columbia.

WHEREAS, under and by virtue of an Act of Parliament, made and passed in the session of Parliament held in the 21st and 22nd years of the reign of Her Majesty Queen Victoria intituled an Act to provide for the "Government of British Columbia," and by a Commission under the Great Seal of the United Kingdom of Great Britain and Ireland, I, JAMES DOUGLAS, have been appointed Governor of the said colony, and have been authorised by Proclamation under the public seal of the said colony, to make laws, institutions, and ordinances, for the peace, order, and good government of the same,

And whereas it is expedient in some respects to alter the rates of duties of customs now leviable upon goods and other articles and things imported into British Columbia, and to make further provision for the levying thereof.

NOW, therefore, I do hereby declare, proclaim and enact as follows, viz:—

1st. That so much of the Proclamation dated the 2nd of June, one thousand eight hundred and fifty nine as imposes a duty upon the several articles specified in the schedule hereto, shall as to the duty thereby imposed be repealed from the 15th day of October next.

2nd. That the duties specified in the said schedule shall be paid on the articles thereon specified from the said 15th day of October next.

3rd. This Proclamation may on all occasions be cited as the "Customs Amendment Act, 1860."

[L. S.] Issued under the public seal of the said colony, at Victoria, Vancouver Island, this twentieth day of August, one thousand eight hundred and sixty, in the twenty fourth year of Her Majesty's reign, by me

JAMES DOUGLAS.

By his Excellency's command.
WILLIAM A. G. YOUNG,
Acting Colonial Secretary.
