COAL OPERATIONS

ACTIVE PROSPECTING GOING ON IN THE DISTRICT.

Option Taken On Properties At Lower Nicola.—Drilling To Be Commenced Soon.—Coal Areas May Extend Further.

Last week options were granted on several properties located at Lower Nicola and vicinity for the coal rights. It has been known for some time that there was every probability of coal being found in that locality, but this is the first time that options have been obtained in this part of the valley. A drill has been placed on the ground and it is expected that active operations will be started on one of the properties at a very early date. It shows the keen interest which is being taken in coal properties in this valley by outside capital, that there was some competition with regard to the options which were given.

Prospecting for coal is being energetically carried on in many parts of the valley at the present time, and although complete results are not yet to hand, there is every possibility of the coal areas of the Nicola valley being proved to extend much farther than was previously thought possible. The importance of this industry to the valley and its residents cannot be too much insisted on. and the work now being carried on will, it is hoped, prove the existence of a large and well defined body of coal which, with the bodies of coal that have already been opened up, will give the Nicola valley one of the foremost places in the province as a high grade coal producer.

Sharples Tubular Cream Separator.

The Tubular Separator Bowl has revolutionized cream separators — made "back numbers" of all competitive machines.

The Tubular Separator Bowl has a small diameter—all others have large diameters. This small diameter bowl is protected by patents—other manufacturers cannot make or imitate it. It is light—others heavy. Dairy Tubular bowls have no contraptions inside—all others have. They are guaranteed to skim closer than bowls filled with cones discs, vanes or other inside parts — produce better, sweeter, frothless cream, cause less work, need fewer repairs. They are far ahead of all other separator bowls.

The Tubular bowl is set differently from all others. It is hung from a single ball bearing—all others are set on top of a couple or triple bearing spindle —will wabble and bind, because top heavy. The Tubular bowl is set right.

The new milk enters the Tubular bowl at the bottom—all others are fed from the top. The Tubular bowl does not mix the whole milk with the partly skimmed milk—permits the supply can to set low, saves time, power and your back. The Tubular bowl certainly has made great changes, all to the advantage of the farmer and dairyman. It has gone a long way ahead of other separator bowls, much to the disadvantage of the other fellows, because they still make bowls that are "back numbers."

Be sure and see a Sharples Tubular Cream Separator now on exhibition at the Stage Office, Nicola.

Address all communications to Dr. C. W. Cross, agent, Ashcroft, B. C.

G. B. Armstrong's new store at Merritt is now practically finished, and a new and up to date stock of summer goods and staples are on sale at moderate prices.

Irrigation Convention.

A convention to consider and discuss the matter of irrigation to the fullest extent will be held at Calgary on the 17th of July. There will be a large and representative gathering from Alberta and British Columbia, and there should be some representation from this district. The question is of the utmost importance to the ranchers in the valley and it is to be hoped that a strong effort will be made to have Nicola valley represented at this important meeting.

LOCAL NEWS.

Line up for the garden party.

M. Adams, of Coutlee, was visiting in Nicola today.

Nicola has neglected to produce any June brides so far.

J. Graham, of Coutlee, was a visitor to Nicola yesterday.

Remember the Methodist picnic at Lower Nicola tomorrow.

J. Guichon, jr., of Quilchena, was a Nicola visitor Wednesday.

J. Chapman, of Lower Nicola, visited in Nicola on Thursday.

Miss Moore and Miss Lauder are visiting in Nicola this week.

H. H. Price was in town from Aspen Grove the first of the week.

Mrs. Carrington returned on Wednesday from a visit to Victoria.

J. G. Thynne and Mrs. Thynne returned from the coast Wednesday.

John Murray returned yesterday from spending a couple of weeks at Aspen Grove.

H. Goodisson and H. W. Sutcliffe, of Coutlee, were visitors to Nicola on Wednesday.

A. Stevenson, road superintendent for Yale district, was in the valley this week on a visit.

J. Woodward returned to Nicola on Monday last after spending a couple of weeks in Kamloops.

Sheriff Evans, of Rossland, returned home on Wednesday, after spending a short holiday in the valley.

The A. E. Howse Co., Ld., are erecting a warehouse in the station yard, close to the siding on the south side.

Rev. J. Thompson will hold services on Sunday next at Quilchena at 2 p. m. and at St. John the Baptist church, Nicola, at 7.30 p. m.

Young man, be sure and cinch a date with your dovey-ovey for the garden party Wednesday evening, and set the other chap back a few pegs.

W. H. Armstrong, of the Nicola Valley Coal & Coke Co., Ld., arrived at Coutlee on Monday, and after a visit to the company's property on Tuesday and Wednesday, left for the coast on yesterday's train.

ITEMS OF INTEREST

GARDEN PARTY UNDER AUSPICES OF CHURCH OF ENGLAND.

Province Takes Steps To Control Her Own Fisheries.—Fire At Diamond Vale.—Henderson Appointed Yukon Governor.

A treat is in store for Nicola people on Wednesday evening of next week when the ladies of St. John the Baptist church will give a garden party on "Pine-hurst" lawn, at the residence of A. E. Howse. Strawberries, ice cream, charming smiles and other delicacies of the season will be served by the ladies. Besides, there will be lots of fun and amusement during the evening, and unless you are sick in bed you cannot afford to miss this event. The garden party is gotten up more from a social than a mercenary spirit, but if any profits should accrue they will be devoted towards the new vicarage building fund. The evening of enjoyment will be fittingly topped off with a dance in Pooley's hall.

Fire At Diamond Vale.

Fire broke out in the dining room of the Diamond Vale Coal Co. early on Sunday morning. This, the latest building put up by the Diamond Vale Co., was but recently completely finished, and no cause can be assigned for the origin of the outbreak.

The total loss sustained has not yet been ascertained, bnt it is expected it will be considerable, as there was a large quantity of lumber stored beneath the building, while nearly a month's food supply was stored in the kitchen connected with the dining room. No further damage was done and work on a new dining room has already been started and will be pushed to completion without delay. More men have been engaged at the coast and will be up this week, so that the new building will be ready for occupancy at an early date.

B. C. Controls Her Own Fisheries.

The important announcement that the fisheries of British Columbia have now all been taken under the control of the provincial government is made in a very formal manner in the last issue of the B. C. Gazette. It is stated that the British Columbia Fisheries Acts and Amendment Acts of 1901, 1902 and 1907 are proclaimed as coming into force by the lieutenant-governor in council.

Ashcroft Hotel Sold.

The Ashcroft Hotel, formerly run by Al. Johnson, and up till lately by Messrs Fletcher & Dickson, has been sold to George Ward and James Veasey for the sum of $9,000.

Plans are being prepared for much needed improvements to the hotel, which will make it one of the best in the upper country.

Henderson Rewarded.

Alexander Henderson, who for several years was county court judge for Vancouver, has been offered and accepted the commissionership of the Yukon, which has been vacant for nearly six months.

Two weeks from Monday is Dominion Day.

There seems to be an unusually well developed amount of inactivity among the young men of Nicola as regards organizing for a line of summer sports.

New Hotel at Quilchena.

Work on the new hotel for J. Guichon at Quilchena is now well under way, much of the masonry work for the foundations being already well forward. Some idea of the structure can be formed from the progress already made. The building will cover an area, exclusive of outbuildings, of 76 feet by 54 feet. Large and roomy cellars, with a large boiler room, will be in the basement. On the ground floor will be the dining room, reading room, bar, lavatories, etc. The upper portion of the building will be devoted to bedrooms, sitting room, etc. The hotel will be steam heated throughout, and will be in every respect a first class and up to date hostelry, worthy of the unequalled summer resort in which it is situated.

Prize For Article On Cattle Industry.

The Ashcroft Joornal is offering a prize of $50 for the best article on the cattle industry of the Cariboo and Lillooet districts. The article is to become the sole property of the Journal. Writers who intend to compete must signify their intention of competing within four weeks if they cannot supply the article before.

The Derby Winner.

Richard Croker's Orby. ridden by Johnnie Reiff, won the blue ribbon of the turf, the Derby stakes, last week at Epsom. Wool Winder came second and the favorite, Slieve Gallion, finished third, while Lord Roseberry's Bezonian ran fourth. The winner was bred in Ireland.

R. L. Clark paid a visit to Douglas Lake last week.

J. Guichon of Quilchena, was visiting in Nicola today.

E. G. Walker, of Coldwater, was a visitor to Nicola last Friday.

Don't let it slip your memory—about that big garden party and dance next Wednesday evening.

D. Grimmett, who has been visiting his brother the past two weeks, returned to Vancouver Tuesday.

S, J. Bate came down from Aspen Grove last week, and left Saturday on a visit to eastern points.

J. Elton, who had his hand badly hurt at Canford last week, is progressiug very favorably.

H. H. Schmidt, of the Big Sioux mine at Aspen Grove, was in Nicola on business last week.

BUSINESS LOCALS.

Call at the Cash Store and see the Edison Phonograph and Columbia Graphophone and hear them play. — J. Q. LEONARD, Agent.

FRUITS. — Strawberries, Peaches, Apricots, New Apples, Bananas, Grape Fruit, Pineapples, Oranges and Lemons at LEONARD'S this week. 1

The demonstrations given by Dr. Cross during the past week with the different sizes of the Sharples Tubular Cream Separator have convinced the most skeptical that for simplicity in operation and results obtainable the above machine is without a peer. Several local purchasers have nothing but the highest praise for the Sharples. 1

FUTURE OF NICOLA

ENVIABLE POSITION AS REGARDS COAL AND COPPER.

Not Depending Entirely On Its Mineral Resources.—Its Agricultural Possibilities a Valuable Asset. —On Dairy Farms.

He would be a wise man who could foretell what lies in the future for the Nicola valley. Seemingly, the prosperity of the district is bound up with so many diverse industries that it would almost seem impossible for the future of the valley to be other than prosperous. There cannot be the slightest doubt that the prospects for the future of the district are of the rosiest, although it may be some time before signs of it become evident. In many ways, however tnis might be hastened, and advantage taken of the many natural resources, in which the district is so abundant, to creat an active interest in the valley and its possibilities. It is bound to take time before either the copper mines or the coal fields are in a position to employ a large force of labor, although it is probable that with the progress which is being made with coal operations, a large body of men will soon be at work on the latter. With the copper properties, however, a large amount of development work has to be done in the majority of cases before the shipping of ore in anything like quantities can be done.

In its coal and copper properties the Nicola valley is in rather an enviable position, there being in the case of both products properties ready to ship, or which. with a very little work, could be got ready in a very short time.

While the district depends largely for its future growth on its mineral resources, it must not be lost sight of that in its agricultural possibilities it has a most valuable asset, one, too, which is independent of any ring or clique, and whose products find a ready market. With the railroad at our very door steps there cannot now be any excuse that a market is unable to be reached, or that the freight rates would absorb all the profits, and there is therefore no excuse if those engaged in agricultural pursuits do not take advantage of the opening which has been given them.

There is plenty of room for various industries connected with the soil, and none are so badly needed as a few dairy farms, it being hardly to the credit of the district that it depends almost entirely on outside sources for its butter. In the matter of early vegetables, too, it is a customer where it could easily be a seller, there being in the valley more than one place where early vegetables have been successfully grown, and not as an experiment either.

It should be the object of those resident in the district to make the very most of its natural resources, and to develop them as far as possible, as only in this way can visitors see that our district has the advantages claimed for it.

A. W. Strickland and Mrs. Strickland paid a visit to the coast this week.

R. H. Lee, of Kamloops, has been busy this week surveying the townsite of Merritt.

J. B. Greaves, of Douglas Lake, and George Bent left on Tuesday's train on a visit to the coast.

E. A. Seeton left on Tuesday's stage for Otter Flat, where he will take over the management of H. L. Roberts' new store.

EDITORIAL NOTES.

It is but just that the provincial government should assume control of the fisheries and the proclamation in last week's issue of the Gazette is the first step in this direction. There is no doubt that this action will receive the hearty support of the people of the province, and more especially of those actively engaged in the fishing industry. Being as it is one of the most important of the industries of the province, it is but right that the supreme control should lie in the hands of the provincial authorities. The privy council has given the decision that the fish rights are with the province, although the Dominion has the right to frame regulations for the conduct of the fisheries. A large revenue accrues to the Dominion from the sale of licences, a great deal more than is expended on the supervision of the fisheries. The provincial government has expended large sums in one way and another in connection with the fisheries, although it derives up to the present no direct benefit from them. In now asserting its rights, as did Ontario several years ago, an attempt is made to end the unsatisfactory position that our fisheries occupy under present circumstances, and the action of the provincial government should be heartily endorsed by all residents of the province.

There is evidently an indication among many of the residents of the valley to realize the possibilities in store for this district in the way of dairying, fruit growing and kindred pursuits. While there are not many orchards, and fewer dairy farms, most of those engaged in cattle raising aud agricultural pursuits are slowly coming round to the opinion that in the very near future they will be compelled to take up one or other, or a combination of these industries. Nor need any fear be entertained that this will be the beginning of the end. On the contrary, it will be only the beginning of an era of prosperity, that other districts, either more blessed or more wide awake than our own, are now feeling the benefit of in a very marked degree. In Alberta the day of the open range has passed away, to give place to the wheat farmer and the dairy farm, and already in this province the first signs of this change are to be seen, which will make British Columbia the banner province of the Dominion.

TO AMERICAN SUBSCRIBERS.

On account of the increase in second-class postage rates between Canada and the United States, on and after this date the subscription price of The Nicola Herald to subscribers resident in the United States will be $2.50 per annum. This includes new and renewed subscriptions, and is merely the additional postage that must be paid for American delivery.
