LOWER NICOLA NEWS.

General News in and Around Lower End of Valley.

James Woodward has returned from the Northwest. He made a trip to Ashcroft early in the week on business connected with the Newton Grange ranch.

Mr. and Mrs. E. A. Jukes and family are located at Lower Nicola for a few weeks.

F. W. Millar has been placed in charge of the Newton Grange ranch.

Barclay Bonthrone shipped twenty head of first class steers to Ashcroft early in the week.

The new bridge over the Nicola will be somewhere in the neighborhood of Canford—the exact location has not yet been decided up.

Upon good authority we can state that there is every probability of the Ten Mile creek group of claims being considerably developed this season.

After litigation and disputation extending over a period of sixteen years, Lot 158, Group 1, has passed into the hands of Henry Woodward. Capt. Flick who took up the case a few months ago, managed to convince the lands and works as to the superior claim of his client.

We regret to have to chronicle the departure of H. Gaine of the C. P. R engineering staff. He left on Tuesday for Montreal.

R C. Campbell-Johnston and Joseph Graham were up Ten Mile creek early in the week looking at mining properties.

Railhead will be twenty-eight miles out from the Bridge ere these notes appear in print.

Myrtle Woodward is well on the road to recovery—all danger, except a relapse—is now past.

Fred Woodward of "Fairview" has been laid up with a severe bronchial attack,

The concrete piers at Petit, Clemes' and Dodding's bridges are fast nearing completion—but the river has not yet reached normal high water—a fact that the contractors have yet to reckon with.

Quite a few mining men have been in this vicinity the last few days.

In Aid of 'Frisco Sufferers.

A subscription was taken up at Coutlee last week in aid of the San Francisco sufferers, the $100 collected being sent to Mayor Morley of Victoria, to be forwarded to the proper authorities. The following are those who donated:

Stuart Mannell and H. J. Cannavan, mining men from the eastern states, and H. G. Ashby of Kamloops, arrived in Nicola on Saturday evening. They went to Otter Valley on Sunday returning to Nicola on Wednesday night. Today they went up Mill creek with T. Hunter and F. Lambert to view the Peacock mines.

C.P.R. SECURE CONTROL OF TOWNSITES

Nicola to be Commercial Center of the District.—Forksdale Will Be the Mining Center.—W. Pearce, Chief Surveyor and Assistant Land Commmissioner C P. R. Speaks Highly of Nicola Valley.

W. Pearce, chief surveyor and assistant land commissioner in B. C. for the C. P. R· has been in the Valley during the past week for the purpose of making arrangements for the location of two stations on the line of railroad. The two sites selected are Nicola and Forksdale, and Mr. Pearce has been negotiating with the owners of these townsites and with the landowners in their vicinity arrangements mutually beneficial.

So far we understand an amicable understanding has been come to between the parties concerned and Nicola and Forksdale will be the two main stations on the line. In an interview, Mr. Pearce expressed himself as being well satisfied with the arrangements already made. He is highly impressed with the possibilities of this section and has nothing but praise for it. He considers that fruit of the hardier varieties ought to do well here, and forsees a great agricultural future for the district. With regard to C. P. R. plans for the future of the town of Nicola, he was unable to give any detailed information, but said that he had no doubt but that the C. P. R. would do their utmost to push Nicola to the front, and advertise its advantages thoroughly. It would be found in all likelihood that Nicola would be made the commercial center of the valley owing to its position and other advantages. It already has the Bank of Montreal and the government offices, and ere long other public buildings would be erected, which would tend to make it the financial center of the district. With regard to Forksdale its position in connection with the different coal properties and being practically the center of the coal belt, would make it a most important mining center, which would be greatly enhanced when the different properties are opened up. Stoppages will be made at Coutlee, Lower Nicola, 22 Mile House and other necessary points along the line.

It is expected that either Mr. Pearce or another representative of the C. P. R. will return to the Valley in the course of the next few weeks and make arrangements for a re survey of the townsites and have the lots placed on the market.

G. T. P. to Locate to the Rockies.

Two hundred miles of the main line of the Grand Trunk Pacific has already been located west of Edmonton, is the report made by the general manager of the road, F. W. Morse. This section will be put under contract very shortly, and will bring construction pretty near to the foothills of the Rockies.

As regards the two contracts taken by Foley Bros., and the White company, between Touchwood Hills and Saskatchewan, supplies are being accumulated along the route by these firms and during the present season the work will be vigorously prosecuted from Portage la Prairie.

It is the opinion of Mr. Morse that there will be little difficulty in competing the road from the Red river to the Saskatchewan before the end of next year. He declares that nothing short of a very wet season can prevent the Grand Trunk Pacific from being in a position to move next year's crop from its own particular area of territory. Twelve surveying parties are at work in the mountain passes, and it is hard to say where the line will be located in that part of the country. This summer, from Lake Superior to the Rockies, there will be about fifteen hundred miles of the Grand Trunk Pacific under construction.

International Football.

Scotland defeated England at the international football match at Glasgow before the largest gate ever seen in Scotland. The spectators entered the grounds at the rate of 1600 per minute, the gate amounting to the sum of $30,000. Scotland won by two goals.

Bear Creek Mines.

Charles F. Law, secretary of the Similkameen Mining & Smelting Co., Ltd., arrived in Coutlee on Monday and spent a few days looking over coal properties near the Forks in which he is interested. He leaves for Bear creek tomorrow. The wagon road partly constructed to the mines at Bear creek last year is to be finished this year, the government bearing part of the expense. Mr. Law is expecting men by tonight's stage who will accompany him to Bear creek and push development on the property of the mining company there.

F. Lambert and T. Hunter returned from Princeton on Wednesday afternoon.

CRICKET MATCH.

Interesting Game Between Local Enthusiasts.

The return cricket match between Coutlee and Nicola was played at Coutlee on Saturday. A large crowd turned out to see the event. The following were the scores:

Good Prospects in Nicola.

Isaac Eastwood, of Nicola, left on his return to this promising mining country on Friday last, says the Vernon News. Mr. Eastwood is largely interested in the Aspen Grove group of copper claims. He states that they have been developed to such a point as to make it evident that the property is valuable. The Copper Standard has received the most development work and it is now held at high figure. The mines have been favorably reported upon by experts, and the fact that the projected line of railway passes within a short distance of the property, greatly increases their value. A party of capitalists is shortly expected to visit the property, preparatory to bonding the group, Mr. Eastwood has the greatest faith in the prospects of the whole district. Everything, he says, depends upon transportation facilities, as the mineral is found in the form of smelter ore. There is no question, however, as to the wealth of the district. Mr. Eastwood came to Vernon to arrange with a number of local people interested in the claims, the price to be set and the terms to be asked, in view of the likelihood of a deal in the near future.

E. A. Jukes returned from the coast on Saturday accompanied by his family and is staying at Lower Nicola.

Mr. and Mrs. J. N. Moore of the Beaver ranch, leave next week for the coast to spend several weeks.

Mrs. Stanley Kirby of Quilchena, will leave tomorrow for the coast to be absent some time.

Church of England services will be held on Sunday May 6th: Coutlee, 3 p.m. Nicola, 7·30 p. m.

NICOLA, B. C. MAY 3, 1906

THE LAW SOCIETY.

Joseph Martin, K. C., in a published letter attacks with his usual vigor the Law Society and its methods. He says "the fact that a man has passed through the course prescribed by the Law Society and been called to the Bar or admitted as a solicitor under their regulations is no guarantee whatever that he has the necessary qualifications to protect the interests of prospective clients." He goes on to say that ability is not made a test, as the examinations are a farce and owing to the fact of the regulations calling for the embryo lawyer to put in five years in a lawyer's office, or if he is a graduate, three years, bars other than wealthy men's sons from taking up the profession, the more so as the salaries paid are extremely low. More than this, under the present system, the laws which affect the practice of the profession are really drawn up and lobbied through the legislature by the Law Society and these laws are in this province at any rate, very much against the interest of the general public, and in the interest of those members of the profession who, under a free and competitive system, would get no business whatever. The tariff of costs, he says, is three times as great in British Columbia, as in any other province of Canada, that is a law suit which in Ontario or any other province would cost both sides $300, would cost $900 in B. C. In his conclusion he says, "Another reason given for the existence of the Law Society and other similar bodies is the discipline which they enforce against their members. So far as the Law Society of this province is concerned, it is a mere question of pull. No matter how guilty the person may be, if he has the right kind of friends, he is never punished. On the other hand, no matter how honorable the career of a lawyer may be, if he is in the black books of the society, the slightest technicality will suffice for them to inflict upon him dire punishment."

It need hardly be said that Mr. Martin's serious charges against the Law Society and the legal profession generally, if they cannot be refuted, ought to be made the subject of a careful enquiry. It is a grave indictment of members of a profession, and as opinion on the same lines as Mr. Martin's is often expressed, for their own sakes, the members of it should take steps to remedy the evil.

Word was received at Ottawa last week from Washington, that the United States government would not accept the Dominion contribution of $100,000 for the relief of San Francisco sufferers. The money was voted, however, and probably will be sent direct to Mayor Schmidt.

The Nicola District.

Henry Murk left on Monday for Penticton, says the Vernon News, where he and his brother are going to build a 30x50 business block, next door to the B C. Hotel. The building will include p emises for a first class barber shop, with baths and the most up-to-date appliances, to be run by Mr. Murk, and for a shoemaker or millinery establishment. Mr. Murk has just returned from a sojourn of some months in the Nicola district and speaks with much enthusiasm of the future of that fine section. Irrigation on a comprehensive scale is a necessity, but there is plenty of water and no difficulty is found in making it available. The climate is unsurpassed, and the country a paradise for sportsmen.

Fire at Kelowna.

The Kelowna sawmill was totally destroyed by fire last Thursday night; loss about $17,000; insurance $4 500. The nightwatchman had a narrow escape from being burned to death. A lot of glass was destroyed in business blocks from explosions of dynamite used in blowing up the dry kiln and lumber piles.

Edmonton the Capital.
