CONSERVATIVE CLEAN-UP A BIG VICTORY

The Cause of Liberalism in British Columbia Hits the Ground With a Dull Thud Last Saturday.—Machine at Ottawa Handed 'Skidoo' Ticket.

McBRIDE AND PROSPERITY WIN AGAIN

Latest Returns Show 28 Conservatives, 11 Liberals and 2 Socialists Returned, With One District Where the Poll Is Yet to Be Determined.

The cyclone which battered up the Liberal ship of state in the provincial elections last Saturday, the 2nd inst., was completely effective in the accomplishment of its purpose, and the disastrous results will certainly have a tendency to mar the harmony of the crew for some considerable time.

While the landslide for the Hon. Mr. McBride and his colleagues was very large and emphatic, still it was only what could reasonably be expected from an impartial point of view. When Premier McBride took over the reins of office three years ago he launched what has proven to be the only administration in British Columblia that could be termed confidence-inspiring or that bore any of the ear-marks of moral reliability or sincerity of purpose. It would be needless reiteration to go over the ground at this time of existing conditions when McBride started to keep shop ---the people have become thoroughly convinced of the facts during the past few weeks, if they were not aware of them before. And what right-minded person would refuse to grant the Conservative government its just measure of the credit due for at least a certain proportion of our present prosperity, harmony, industrial stability and the ever increasing development of our wonderful resources? Wise men with money are literally falling over one another to grab up British Columbia investments today, whereas they turned her down cold when they gazed upon the legislative variety performance at Victoria a few years ago. Notwithstanding, the brand of dope the Liberal executive tried to force down the necks of the electorate during the recent contest was to the effect that the McBride outfit had accomplished absolutely nothing and were simply a band of grafters imposing on the good nature of a deluded public who were basking in the sunshine of a great prosperity that was not attributable to McBride's government at all, but to Laurier---yes, Laurier; he's the smooth-tongued gent, you know, who turns the crank of that machine at Ottawa when he wants to play the tune of "Better Terms," or a few other such airs specially adapted to the British Columbian's ear. With such tactics as these being employed and the libelous canards spread broadcast on various public matters, is it to be wondered that the voters marked their ballots in such numbers for the Conservative cause? Ordinarly the large majority tendered Mr. McBride for carrying on his work might reasonably be looked upon as excessive for clean and scrupulons administration. But exceptional circumstances surround this particular election. Not only is it an evidence of supreme confidence in the men who practically took the province out of the mire and placed it in its present enviable position; not only is it a general admission that Mr. McBride it the logical man and his party the logical party to successfully combat the better terms cause. No only because of these good and sufficient reasons, we repeat; it is a united and effective stand against the slanderous, non-constructive campaign waged by the party organs, by Macdonald the Liberal leader, and by that bursting-with-patriotism political adventurer, Wandering Willie McInnes, who resigns the governorship of the Yukon to sway to the pull of the Liberal dangling strings in the East; it is a blow from the shoulder delivered by independent westerners to machine interference at Ottawa in our vested rights and privileges; it is a stand for clean, progressive politics and the sanctity of the franchise.

It is to be regretted that Yale district saw fit to return Mr. Henderson to the opposition, but, of course, we can now only hope he will display more energy than he was guilty of last term. There is real work to be done, and it is his last chance to make good. Henderson's majority was 54.

How Canada Gets Immigrants.

It is expected that a quarter of a million immigrants will settle in Canada during 1907. The immigration branch is arranging an active propaganda for the British Isles. Twenty-five farmers from the Northwest will tour Great Britain and narrate their experiences at meetings which will be specially convened.

Annual Meeting.

The annual meeting of the congregation of the Presbyterian church was held on Wednesday evening, January 30th, Rev. D. R. Allan occupying the chair.

The secretary-treasurer presented his report, which was of an encouraging nature.

The Ladies' Aid report showed a good balance in hand.

The Young People's Guild was favorably commented upon and was felt to supply a needed want in the community.

It was agreed to increase the members of the managing board from three to five. The election was then proceeded with and the following were elected for the terms of three, two and one year respectively: Geo. Murray and T. A. Rennie, Mrs. A. E. Howse and Alfred Carrington, W. Murray.

Misses Nellie Hunter and Bella McKittrick were appointed to collect for the schemes of the church.

The pastor's report showed an increase in the membership.

More regular service had been given at Lower Nicola and at Forksdale and by the attendance at these points it shows that the change is appreciated.

Congregational matters were discussed and changes made.

Rev. Geo. Murray closed the meeting with the Benediction.

D. P. Marpole, of the 22-Mile ranch, was in Nicola Wednesday evening.

Wm. Rice has returned from a visit to the coast.

MINING PROGRESS ITEMS OF INTEREST

DEVELOPMENT IS GOING AHEAD RAPIDLY.

Provincial Mineralogist Mr. Robertson Gives Some Interesting Facts in Which the Pay Streak Is Promising.

Roughly estimated two and a quarter million dollars in excess of the returns shown by last year's record will be realized from the total output of the mines of British Columbia this year. This statement was made the other day by Provincial Mineralogist Robertson. He stated that there was a much improved condition evident throughout all the mining camps.

The rise in the price of ore had made a change for the better. The majority of the properties were operating to their fullest capacity.

While the advance in ore values had stimulated the industry to a marked extent its full effect had not yet been felt. Large numbers of properties which formerly had been deemed unprofitable were being taken up and exploited. Capital has been invested in larger amounts than ever before. Outsiders were becoming interested and the prospects were that in the course of one or two years the output would be largely increased.

It was hardly reasonable to expect that any of these claims should have any influence upon the records at such an early stage in their development. It would take twelve months, or more, before the majority would be ready to make regular shipments. Once the preliminaries were overcome and they were added to the ranks of the active mines of the province, a difference in the output would be noted. He looked for this, as he had previously stated, in the very near future.

Provided the general conditions continued as at present and assuming that the market maintained the prices now quoted, he looked for a long continuance of prosperous times. And, he added, there appeared to be a very slight possibility of any important change. The mines in operation would increase their outputs to meet their demands, new mines would continue to show a disposition to assist in the development of the immense mineral resources which British Columbia is shown to possess.

Railway Will Open March 1st.

A special train over the Nicola railway arrived at Nicola about 4 o'clock this afternoon. In the party were H. J. Cambie, chief engineer of Pacific Division, H. A. R. Drury, assistant engineer of Board of Railway Commissioners, Jas. Macdonell, the railway contractor. The trip up the line from Spences Bridge was made in 2 hours and 10 minutes. Mr. Drury was well pleased with the work of construction and stated that he had inspected many new railways recently and the Nicola branch was one of the best and the contractors had done excellent work. Mr. Drury returns to Winnipeg at once and will immediately submit his report and estimates that the C. P. R. would take the road over in two weeks time and by March 1st, regular trains should be running.

Carrie Turned Down.

Carrie Nation called at the White House last week. She was denied admission and harrangued the crowd regarding the treatment accorded her.

Absence makes the heart grow colder in the Yukon.—W. W. B. McInnes.

GENERAL BOOTH TO VISIT CANADA WORLD TOUR.

Manitoba Schools to Honor Flag—Mr. Bryce's Appointment as Ambassador Confirmed.—Lots of Prosperity.

Schools to Honor the Flag.

The Government of Manitoba has decided that the schools must do their part in inculcating patriotism and a love for the flag, and has instructed the trustees that it would be their duty in future to provide a British national flag for schools in cities, towns and villages, which shall be floated from 9 a. m, to 4 p. m. on every day that the school is in session.

General Booth Coming.

General Booth, the patriarchal head of the Salvation Army, although long past the allotted span of threescore years and ten; has decided on an extensive world tour

Leaving London about the middle of February, accompanied by several of his officers, General Booth will proceed first to New York, where he will remain a week to confer with the leaders of the army in the States.

The General will then proceed to Canada and intends to spend a month in this country before embarking for the Eastern countries.

Too Much Prosperity.

A Paris despatch to the New York Times says that Jacob H. Schiff, of Kuhn, Loeb & Co., New York, has given an interview to a New York correspondent of a Paris paper. Mr. Schiff says in part:

"The conditions in which we find ourselves at present appear much misunderstood, particularly in Europe. It is a fact that we are suffering from an excess of prosperity which is simply overwhelming us. Our industries cannot find labor with which to fill the orders pouring upon them. Our railroads are in need of equipment and additional facilities to handle the immense business of the country and the banks can furnish only part of the capital with which to do the unprecedented commerce that has developed. On the whole the situation is neither unhealthy nor serious."

Ambassador to America.

The foreign office has issued the following anuouncement:

"The King has been pleased to approve the appointment of the Right Hon. James Bryce, M. P., to be his Majesty's Ambassador Extraordinary and Plenipotentiary at Washington in succession to Sir Mortimer Durand, who will retire from his post next spring."

Lord Strathcona, the High Commissioner of Canada, who is now paying his accustomed yearly visit to the Dominion, interviewed before his departure from England, said there was no disposition in Canada to regard Mr. Bryce's appointment other than in a most favorable light.

It is understood that Sir Mortimer Durand will be offered a peerage on his retirement from the post of British Ambassador at Wasnington.

The celebration of Chinese New Year will commence on Tuesday evening. Local Chinese are making preparations for the event.

NICOLA, B. C., FEBRUARY 7, 1907.

The result of the general provincial elections which were held on Saturday proves beyond doubt that the McBride administration was a good one. During the campaign and before, the opposition hurled scandal after scandal on to the ministers and members of the Conservative party. The only plan in the Liberal platform was that of scandal, and the returns of the election show that the electorate had no confidence in the men of the opposition or their vaporings. As far as we can learn there are twenty-nine Conservatives, ten Liberals, two Socialists, with one place to give final returns. The premier, who came in for considerable abuse, was elected in two constituencies, and every minister of the government returned. The government has a good majority and will be able to carry on the business of the country in a very satisfactory state, which will induce capital that has been awaiting the return of a stable government, such as the McBride administration. The Vancouver and Victoria constituencies gave a solid five and a solid four candidates respectively. In the interior constituencies there were few changes, Yale riding, which is on the eve of prosperity, returning an opposition member to look after its interests, which it is to be hoped will be done better than the last three years. One thing, the repudiation of the Ottawa machine, should convince the Dominion government that it cannot coerce British Columbia and the turning down of an ex-governor and judge, with the gold cure distributed freely, should make them crawl into their hole for a time.

It must be with a sense of extreme distaste that the Vancouver World, which had its muck-rake plant in full operation, is now compelled to swallow much of the slander and scandal it published during the recent campaign. The voice of public opinion has been so clearly and emphatically sounded as to show that the ravings of the World have been received with absolute discredit. The position of that paper as a disseminator of authentic news does not rank to an enviable degree.

Now that the election campaign, with all the excitement and turmoil it necessarily entails, is well over, let us forget party and prejudice and work together to assist our executive head still further increase our prosperity and bring the rich and vast resources of our glorious province still further into prominence and developement. With everyone's shoulder to the wheel wonderful things can be accomplished for the mutual benefit of all.

The news of Smith Curtis' turndown in the Similkameen was a severe shock to many local Liberals, who believed him to be a sort of small Gibraltar in that riding.

The people have allowed Hon. R. McBride to go ahead with his Better Terms fight to the bitter finish.

HON. R. McBRIDE.
