## DOZEN OUT OF 20,000 SHOW THEIR INTEREST

**Twelve Lonely Hearers Comprise Audience in City Hall to Listen to Mayor and Aldermen Discuss Money By-laws—His Worship Reviews Conditions and Asks Voters to Endorse the Measures.**

It may be simple apathy or it may be that the citizens of New Westminster have the fullest confidence in the sagacity of their council that they need not bother listening to the pros and cons anent the money bylaws now before them, but the fact remains that there were only 12 present in the city hall last night, outside the aldermen, officials and two reporters.

Mayor Gray gave an admirable synopsis of the different bylaws proposed. None of the aldermen spoke, as it was felt the small attendance rendered such a procedure farcical.

At the close Mr. W. E. Sinclair put questions in reference to Burnaby's agreement in the $150,000 sewer bylaw and the Royal Columbian hospital building, which were answered apparently to the satisfaction of Mr. Sinclair, after which the meeting dispersed.

**Strong Imagination.**

Mayor Gray opened his address with the remark that he would imagine the benches full. If the citizens did not turn up in greater numbers he felt it would be a mere waste of time for the aldermen to address those present on each specific bylaw. He would therefore make a general statement.

The first he would speak on was the Electric Light Extension bylaw for $40,000. The citizens were more or less familiar with it. With the growth of New Westminster, particularly on the outskirts, one of the first applications the council received was for light. As under municipal ownership they had not capital to any great extent, they would certainly have to ask, from time to time, money from the people for extension if they were to provide light. In this department Alderman Lynch had explained that he had been unable to supply are lights, as the supply houses of the coast had been depleted by Seattle, Victoria and Vancouver. Before many months will have passed these lights, however, would be placed.

The waterworks extension bylaw required $45,000. This was just as, if not more important, than the lights for the reason that they must have it before people commenced to build. It was a paramount necessity. The light could be supplied after the buildings were completed.

They were at present providing temporary accommodation in light and water.

If the street was graded and pretty roughly graded at that, and a man applied for water and began to build, a temporary pipe, 12-inch, was laid down. If the bylaw did not receive the approbation of the people they would have to revert to the system of some years back, when more or less temporary work was done, which cost the city considerable to make permanent. It came to this, it must be either a temporary or cheap supply or none at all.

**Keeping Down Cost.**

The whole council were as one in keeping down expenditure in this and other departments.

In reference to the Street Improvement bylaw for $200,000, some of this was the city's portion to the Sapperton sewer; $45,000 had to be paid by the city at large. The remainder was for works in every portion of the city.

They had at the present time under the board of works about 130 men. These men were all ratepayers with the exception of one or two who had recently removed to Burnaby. If this bylaw did not pass that crew would have to be cut down very considerably because in their ordinary board of works estimates there was only provision made for some 30 or 40 men at the most of a permanent staff.

There was not a Monday passed but the council had applications for sidewalks and for streets to be opened up to enable buildings to be erected. There was no money left out of the general revenue to construct or open up streets. A considerable portion of the city streets were macadamized and they had to be maintained. In all $58,000 of this $200,000 was to be spent in Sapperton, the rest was to be divided in the central, west end and Queensboro areas of the city.

They had $25,000 of the unsold debentures of 1912 yet to spend, that was provided they got a fair price. Some people might say why did they put these bylaws up when they had not sold their previous bonds? A very fair question. But did they wish the council to reply to a man applying for a street to be opened up as he wished to build, that because they had not sold their bonds last year they could not open the street or extend the sidewalks, therefore, if he wanted to build he had to make the road himself.

It would take considerable time to sell these bonds and it was not the intention of the board of works, or in any of the other departments to spend any great proportion of the money received from the hypothecation of these bonds to the bank until the bonds were sold.

**Spread Over 30 Years.**

The mayor then explained the $150,000 sewer bylaw and Burnaby's position in the matter, the repayment of which was spread over 30 years. He did not expect anyone to vote against it. They had taken in 683 acres of Burnaby which drained naturally into their territory by the configuration of the country.

Burnaby would pay the whole of that sum under an agreement sanctioned by the provincial government. The only difference to them was some $8500, due to the widening of the pipe, which would be of great advantage to the city. It was one of the best bargains for the city ever made and good for Burnaby also. Burnaby paid 55 per cent for the maintenance of the sewer also.

The firehall bylaw for $25,000 was next dwelt upon. The mayor said it

(Continued on Page Four.)

## NO CHANCE FOR ANY JINGO TALK

**President Wilson Handles Anti-Japanese Bill With Kid Gloves.**

*Two Distinct Parties in Land of the Mikado, One Full of Pepper and the Other Moderate.*

Washington, May 15.—President Wilson has determined that no warships or troops shall be moved, or anything resembling a military or naval demonstration carried on by the United States while diplomatic negotiations with Japan over the Californian alien land legislation are in progress, so that no alarming interpretation can be placed on even the ordinary manoeuvres of the army and navy.

This decision of the president was announced at the White House tonight. It answered a report current in official circles late in the day that precautionary movements by the army and navy were contemplated and had been discussed at a conference between the president, Secretary Daniels, of the navy department, Secretary Garrison, of the war department, and Acting Secretary Moore, of the state department. Mr. Moore went to the White House, it was explained, to discuss the framing of a reply to the recent Japanese protest against the California land legislation, while the war and navy secretaries called to discuss routine affairs of their departments.

As was expected, further representations from the Japanese government in support of its protest against the California land legislation were forecast today when Viscount Chinda, after being informally notified of Governor Johnson's intention to sign the land bill, called twice at the state department to inquire when the governor would probably act.

**Japan in Hurry.**

After the ambassador's first visit Acting Secretary Moore went to the White House and spent half an hour in reviewing the situation with President Wilson. It is understood, however, that Mr. Moore was unable to throw any light upon Governor Johnson's intentions when he saw the ambassador later. Viscount Chinda's calls gave rise to the impression in official circles that Japan is not inclined to delay publishing her protest and that another formal communication probably will be forthcoming as soon as the California bill actually is signed. Meanwhile, President Wilson, in a preliminary way at least, has been discussing with Acting Secretary Moore the course to be pursued in framing a reply to the oriental protest. This subject will come before the cabinet meeting tomorrow, but the answer may not be immediate unless the Japanese government is insistent. On the contrary, it is known that the president is disposed to proceed with as much deliberation as diplomatic usage will permit.

**What Johnson Did.**

Though Governor Johnson apparently made a strong impression upon the administration by his presentment of various acts and proposed legislation of a national character tending to commit the government to a general policy of discrimination against the yellow races, it is declared that he had injected no suggestion into the controversy, so officials of the state department have only to consider the points already made in continuing diplomatic negotiations.

It has developed that the Japanese government has not suggested The Hague tribunal as a means of settling the issue, whence the conclusion is drawn here that Japan does not by any means regard the resources of diplomacy as having been exhausted to the point where arbitration is the only resort.

Administration officials state that the Japanese government is quite well aware of two important facts: First, that the United States government has honestly exerted itself to the extent of its resources to prevent the enactment of the legislation, and secondly that, in making treaties with the United States, a nation is expected to have in mind the respective functions of national and state government under the dual sytsem and not to expect the administration to undertake to pass beyond the constitutional limitations in its dealings with the states.

**Two Views in Japan.**

Tokio, May 16.—The announcement that Governor Johnson, of California, will sign the alien land ownership bill again has aroused the radicals, some of whom have seized the occasion to denounce the government policy. They describe the legislation as inhuman and oppressive, anad ask if the spirit represented by Lincoln, Washington, Harrison and the statue of liberty no longer exists.

Several radical parliamentarians have called a mass meeting for tomorrow, but the more responsible element among the Japanese declare they will not attend, adding that they place complete confidence in the government to settle the controversy acimably and honorably. They decry any agitation which might prove embarrassing.

**Nothing Altered Yet.**

Medicine Hat, Alta., May 15.—The judicial recount of the ballots cast in the recent election was started today, Judge Carpenter presiding. It will be finished tomorrow. So far there is no change.

## NAVAL BILL PASSES HOUSE SHORTLY BEFORE MIDNIGHT

**No Fireworks Attend Final Scenes in Commons When Historic Measure Goes Through on a Government Majority of Thirty-three—Five Nationalists Line up With Opposition and One Liberal Backs Premier Borden—Six Months' Hoist Rejected—Hon. Mr. Burrell Pledges British Columbia's Support to Policy.**

Ottawa, May 15.—The great party struggle on the Naval bill reached its final stage in the house of commons shortly before midnight when the Borden Naval bill was adopted, the voting being, Conservatives, 101; Liberals, 68, thus giving the government a majority of 33.

The motion to give the bill a six months' hoist, moved by Sir Wilfrid Laurier, was rejected by the same majority, although four more members, two Conservatives and two Liberals, arrived in time to register their votes for and against the measure.

The climax came with little surprise and was devoid of any sensational clashes which have featured the movement of the bill through the various stages since it was first introduced by Mr. Borden five months ago.

Five Nationalists stood up with the opposition in voting against the bill, while Colonel McLean, Liberal, who has supported the bill from its infancy, again lined up with the government.

The six months' hoist was moved by Sir Wilfrid Laurier at 9 o'clock after a speech of an hour.

Mr. Borden, in speaking for the bill, said his ideas of Canada's duty to the empire differed radically from those of Sir Wilfrid Laurier. The time had come when Canada should not quibble, but must come to the aid of the empire.

When the house rose there was a little cheering, the Conservatives singing "Rule Britannia," in which a few of the Liberals joined.

**Hon. Mr. Burrell.**

Hon. Martin Burrell said that this bill had been introduced in the house five months ago and that now in the course of a few hours the members would have to give their final vote. There rested upon them a deep and grave responsibility. It was a regrettable fact that a matter affecting the defence of the empire and world relationship would be made a subject of party politics. Members of the house would not be able to agree as to who was responsible for this. It was a fact, however, that no equally great question had ever been laid before parliament in a more moderate and non-partizan manner than that which marked Premier Borden's speech introducing the bill.

Mr. Burrell desired to deprecate statements to the effect that the statesmen of Great Britain are not actuated by a desire to work out the problem of defence without interfering with the overseas dominions. Mr. Borden stands out as a sincere and consistent supporter of his own views as well as of the views of the people. He believes that Sir Wilfrid Laurier would have played the better part had he decided to give his support to these proposals. In conclusion Mr. Burrell declared that the government's proposal would meet with the approval of the great majority of the people of British Columbia.

**Sir Wilfrid.**

Sir Wilfrid took the floor at 8 o'clock to make his closing speech on the bill. He had no intention of reopening the main theme—discussion had been closed on that—he said, when closure was applied at 2 o'clock Saturday morning. He rose simply to make his last protest against the bill, not in expectation that what he could say would affect the final decision of the majority, but because the problem of defence would come up again and it was well to lay down the landmarks that would guide the future.

Some surprise had been expressed at the strenuous opposition which had been made to the bill. It would have been more surprising, he said, if they had failed to oppose it. When a measure like this was introduced the people had a right to expect frankness and candor from their representatives in parliament and they would be expected to criticize until a final decision was reached. The opposition must arraign the government before the country on several counts and most important of these was that the measure proposed was without any basis.

**Opposition's Final Words.**

The Liberal policy was to place two fleet units in the Atlantic and Pacific to take the place of the squadrons which had been concentrated in European waters. The Liberals were answered by the argument that this was an emergency contribution demanded by the admiralty. The minister of finance thought he had given the coup de grace to the Liberal claims when he read in the house a statement by the first lord of the admiralty to the effect that the Canadian ships were absolutely necessary by the end of 1915. The young lord was a man of great power of expression and great versatility. In this case, the later quality had been predominant. On one occasion he had declared that British ships could meet any emergency and that whether Canada gave or not, Britain would be ready and able to face all perils.

## LAND HUNTERS OUT WITH BOLD WORDS

*Prophesy Trouble When Railway Belt Sections Are Thrown Open on Monday.*

The railway belt land hunters continue to increase in numbers and as there are already considerably more seekers after the soil than sections to go around some anxiety is being felt as to what will happen on Monday morning when the Dominion land office opens. Numbers have been distributed among those who congregated in the city hall on Wednesday and yesterday, and the recipients declare they will line up in front of the office in positions corresponding to their numbers. They also express their determination to force others to comply with this resolution. Some of the wilder spirits do not hesitate to announce that they will resort to violence, even to fire-arms, should anyone disregard this decree and attempt to get ahead of them.

They are reported to have organized pickets to patrol the lobby of the Dominion office, the stairs and entrance.

It is also stated that they will form up in line at midnight on Sunday.

**Not Healthy There.**

Pittsburg, May 15.—Frequent explosions of dynamite and powder within the last week in Western Pennsylvania, Maryland and West Virginia, and attempts to explode heavily filled magazines are causing anxiety. Since last Saturday a dozen persons have been killed, scores have been injured, some fatally, and much property has been ruined.

**Booming the 'Hat.**

Medicine Hat, Alta., May 15.—Four bylaws, granting concessions to a couple of million dollar concerns and nine smaller ones and providing a million dollars for municipal works which were presented to the burghers today for their approval, all carried by a large majority.

**Prince Sees Canada.**

Halifax, N.S., May 15.—H. M. S. Cumberland, with His Royal Highness Prince Albert on board, arrived in port this morning from Bermuda. The ship will remain here for 15 days and will then proceed to Charlottetown and possibly to Sydney on her way to Newfoundland. The ship is due in England about June 20. Prince Albert is serving as a naval cadet on the ship.

**COAST ELEVATOR WILL COME HERE**

According to reliable information received in New Westminster the grain elevator which the Dominion government proposes to build at the coast will be located in New Westminster, upon the Fraser river.

## PORT COQUITLAM RIGHT ON JOB

**From Small Beginnings It Jumps Rapidly to the Front.**

Port Coquitlam, May 15.—Notwithstanding the fact that this city was little thought of not more than two years ago, it is now a chief stopping point for 28 east, west and southbound trains—excluding about half that number of freights—daily, and is also the terminus for the Westminster branch line of the C. P. R.

These facts to a great extent emphasize the growing importance of this city as a railway centre. It is safe to say that now there are about as many C. P. R. railroad men quartered here as in Vancouver. The hotels are full of them, while the railroad company is building a substantial boarding house to accommodate its engineers and other workmen on account of the lack of accommodation in the regular hostelries. A large number of the engineers are at present quartered in a C. P. R. car.

The hotels of any city, even during an exhibition time, could not be better patronized that those of Port Coquitlam at the present. Transient rooms are about all that are available in most of the houses and cases of hotel proprietors turning down people seeking a room as a permanent location are of common knowledge.

The population of the city at the present is about 1500, but if the present influx keeps up it ought easily to exceed a total of 2000 before the year 1913 is brought to a close.

**Want Lower Phone Rates.**

The New Westminster board of trade is asking the co-operation of the Port Coquitlam business men in an endeavor to induce the B. C. Telephone company to reduce the long distance tolls between the Royal City and the new town. The rates at present are 15 cents a call, while those between Westminster and Port Moody are 10 cents a call. The Westminster board of trade are trying to have the Port Coquitlam rates made uniform with those of Port Moody.

**Under Difficulties.**

Work on the steel and concrete C. P. R. bridge across the Pitt river is progressing at a satisfactory rate, despite the inclement weather of the past weeks. The trestle over which the railway traffic will be diverted while the old bridge is being torn down is now completed, with the exception of the swing span, which will probably be installed inside the next two months.

Nearly 300 men are engaged every day on the bridge at the present time. Two hundred are in the employ of the Foundation company of Montreal, which has in hand the foundation work, and about 100 are working for the C. P. R. Despite the fact that work has been progressing while the trains have been maintaining a regular service over the old

(Continued on Page Eight.)

## TO RAISE MONEY FOR NEW HOSPITAL

*Board Discusses Special Sunday Services, Lacrosse Game and Dance.*

Arrangements to hold a hospital Sunday, to have a lacrosse game and a seires of dances in aid of the new Royal Columbian hospital, the money to be used in furnishing the wards, were discussed at a meeting of the board of management on Wednesday.

It is planned to hold special services in all of the city churches, to take a special collection on Some Sunday during October and it is understood that nearly all of the churches are agreeable to the suggestion.

Some evening during the summer months a lacrosse game will be arranged, probably between a Vancouver team and a local aggregation, or between two city teams.

The question of holding a series of dances, including a flannel dance, was also discussed favorably and some definite announcement in this respect is expected in a short time.

Mr. J. J. Johnston, chairman of the board, states that a number of the different societies and lodges in the city have been asked to assist in furnishing the private wards and very encouraging replies have been received.

## UNCLE SAM WAS USED AS A FENCE

*So Canada Contends in Claim Now Before the International Arbitrators.*

Washington, May 15.—Whether the United States, as the receiver of stolen property, is responsible for the value thereof, is a question that the international arbitral tribunal, which is passing upon British-American claims, was asked to decide today. The Canadian government demands about $500,000, the value of 68,500 feet of lumber used in 1900 to construct the military barracks at Eagle City, Kas.

Canada alleges that the United States bought this lumber from a man named Howard Mountain, who cut it from Canadian domains without a permit and without payments. He is alleged to have left the country later.

**From Windy City.**

Lethbridge, May 15.—Mr. Joseph P. Tracy arrived in the city this morning to take up the duties of commissioner of commerce and manufactures for the city of Lethbridge. He has been especially engaged for carrying on the usual campaign of the city on a three years' contract at a salary of $6000 per annum. Mr. Tracy came from Chicago.

## IMPORTANT BODY CHANGES ITS NAME

**Fraser Valley Municipal Bureau Now Is Development League.**

*Richmond Gets Bouquets at Gathering Yesterday When Several Outsiders Speak.*

At a meeting of the Fraser Valley Municipal bureau held in Steveston yesterday afternoon it was decided to change the name to the Fraser Valley Development league, following a favorable vote taken by the different municipalities that comprise the organization.

Another feature of the meeting was the report made by Secretary Wilkie that he had, during the last ten days, directed ten settlers to the Fraser valley who represented $150,000 in capital.

The next meeting of the league will be held in the board of trade rooms, New Westminster, on Tuesday afternoon, May 23, when an executive meeting will be held previous to the general meeting.

A drive over the roads of Richmond was taken by the members in the morning which was followed by a luncheon tendered the delegates by the Richmond municipal council in the Sockeye hotel, Steveston.

**The Speakers.**

Reeve Bridge, of Richmond, was in the chair, and in a brief speech welcomed the delegates of the league, stating that they had visited Chilliwack and other points in the valley, but now they had come to the mouth of the Fraser, the municipality which was last, but by no means least on the list.

Dr. E. S. Rowe, secretary of the Vancouver Progress club, was the first speaker on the list and, while commenting on the admirable location of Richmond in the matter of industrial sites, laid stress on the fact that it is up to those who had made fortunes out of the unearned increment of the land to patronize local industries to the fullest possible limit.

Reeve Churchill, of Point Grey, and Alderman Lynch, of New Westminster, both mentioned the cordial feeling that existed between Richmond and Point Grey in one instance and Richmond and New Westminster in the other. The Royal City guest pointed out that Richmond was supplied with water through New Westminster mains and both municipalities were working hand in hand for betterment.

**Some Advantages.**

Ex-Reeve J. W. Weart, of Burnaby, pointed out that Richmond was the municipality west of Coquitlam with a greater acreage, most fertile soil, greater waterfrontage both salt and fresh, the lowest assessment by fourths and the lowest tax rate. Mr. Weart recalled the prophesies made by the late Mr. Steeves, the founder of the townsite of Steveston, as to its location for development.

President E. H. Heaps, of the Development league, also recalled the happenings that took place at the luncheon held in Steveston when the fishing village was first opened up.

New Westminster was represented at the gathering by Alderman Frek Lynch, Secretary Wilkie and Mr. C. H. S. Wade.

## COPS ARRESTED ON THEFT CHARGE

*Regina Policemen Accused of Stealing from Stores While on Night Duty.*

Regina, May 15.—Two members of the city police force, Constables Ogilvie and MacAulay, were arrested yesterday by order of the police commission on a charge of theft. Chief Zeats was the chief prosecutor. He stated that the men had come to him from Winnipeg with the best of references and he had sworn them in. They were put on night duty. One of the duties of a night man is to try all the doors in the business section to see that they have been secured. It is a prevention against burglary. One of these constables, it is alleged, had found the door of a clothing store open, had entered and helped himself to a Panama hat, a raincoat and a suit of clothes. The other, finding the door of a warehouse open, had, it was alleged, taken a supply of candies. Having heard of the affair, the commission lost no time, but promptly dismissed both the men and instructed the chief to swear out warrants charging them with theft. The men were arrested by their own companions. They will come up in the police court tomorrow morning and will be charged with theft while on duty.

**Wants Quite a Chunk.**

Calgary, May 15.—J. Turnbull, Alberta agent of the Canadian Townsites, Limited, is bringing suit against the company for $150,00, representing 5 per cent of the profits of the company. The case will be heard in London shortly.

## SOME HEN MUST HAVE AMBLED FAR

*Howard Said He Found the Eggs in the Bush, But He Got One Month.*

Yesterday morning the charges of stealing merchandise from a freight car in the B. C. E. R. yards, Sixteenth street, laid by the police against John R. Greenfield, post office inspector, Vancouver district, was in the city yesterday, and as a result of his visit new departures with reference to mail collection in the business districts will be initiated forthwith.

Exact details as to this arrangement will be announced almost immediately.

Mr. Greenfield has just returned from a trip up the Fraser valley, the main object of which was in connection with the new post office at Chilliwack, an institution of which the citizens of that town are justly proud. The inspector states that the office there is one of the finest in the province and that ample provision has been made for any extensions that the immediate future is likely to bring into demand. Mr. Samuel Mellard is in charge of the office at Chilliwack.

Mr. Greenfield's department—he has two assistants and eight clerks—covers a very wide range of territory, in fact his district takes in the whole mainland of British Columbia from the summit of the Selkirks to the coast, and stretches away north farther than he himself can state.

He has been in the postal service for the past 40 years and has occupied his present position since 1904.

Yesterday morning the charges of stealing merchandise from a freight car in the B. C. E. R. yards, Sixteenth street, laid by the police against John Howard and William Rowlance, were altered in the police court to receiving stolen goods. Howard pleaded guilty and Rowlance denied the accusation.

Detective Burrows gave evidence to the effect that he found about 15 eggs in the shack occupied by both accused. Howard said he found them in the bush. Rowlance admitted to him he knew where the eggs had come from. The shack was about 30 yards from the yards.

John Donald, freight agent, gave evidence as to the frequency of these thefts. Over 20 dozen eggs, nine boxes of cigars, nine tins of pine apples and a trunk broken open and rifled were some of the depredations within the past week.

Rowlance was found guilty and sentenced to two months and Howard one month hard labor.

Martin Antone, for the actual theft, received 12 months hard labor, and D O'Hara 10 months for the same offence.

A gang of small boys were brought up in a juvenile court held in camera on charges of pilfering from B. C. E. R. cars and, after a severe lecture, they were discharged on suspended sentences.

A young man was fined $1 and costs for driving a team over the side walk on Keary street. He produced a conditional permit from City Engineer Blackman, but had not complied with the conditions attached to it.

**Introduce Politics.**

Calgary, May 15.—Six foremen of the city public works department, James Wilson, Nick Serro, Fred Stephenson, Jack Yard, James Grosse and Fred Towers, are accused of manipulating their departments to exclude Liberals from city work, by 12 former city employees who have made affidavits to their accusation.

## MAIL SERVICE IS TO BE IMPROVED

*Post Office Inspector Recognizes Need for Better Facilities in Business Districts.*

Brisk and business-like, Mr. John R. Greenfield, post office inspector, Vancouver district, was in the city yesterday, and as a result of his visit new departures with reference to mail collection in the business districts will be initiated forthwith.

Exact details as to this arrangement will be announced almost immediately.

Mr. Greenfield has just returned from a trip up the Fraser valley, the main object of which was in connection with the new post office at Chilliwack, an institution of which the citizens of that town are justly proud. The inspector states that the office there is one of the finest in the province and that ample provision has been made for any extensions that the immediate future is likely to bring into demand. Mr. Samuel Mellard is in charge of the office at Chilliwack.

Mr. Greenfield's department—he has two assistants and eight clerks—covers a very wide range of territory, in fact his district takes in the whole mainland of British Columbia from the summit of the Selkirks to the coast, and stretches away north farther than he himself can state.

He has been in the postal service for the past 40 years and has occupied his present position since 1904.

The New Westminster News

*An independent morning paper devoted to the interests of New Westminster and the Fraser Valley. Published every morning except Sunday by the National Printing and Publishing Company, Limited, at 63 McKenzie Street, New Westminster, British Columbia. ROBB SUTHERLAND, Managing Director.*

*All communications should be addressed to The New Westminster News, and not to individual members of the staff. Cheques, drafts, and money orders should be made payable to The National Printing and Publishing Company, Limited.*

*TELEPHONES—Business Office and Manager, 999; Editorial Rooms (all departments), 991.*

*SUBSCRIPTION RATES—By carrier, $4 per year, $1 for three months, 40c per month. By mail, $3 per year, 25c per month.*

*ADVERTISING RATES on application.*

FRIDAY MORNING, MAY 15, 1913.

## FARMERS AND CITIES.

It is always best to look upon the bright side of the shield and therefore the advent of sunshine will serve to cheer the farmers in our neighborhood after the long period of rain just passed. But even rain has its advantages, and, while the agriculturist proper may have given vent to some growling, the dairyman and fruit farmer have had no reason to complain.

But if there is one thing that will redound both to the credit of all the farmers and incidentally help to swell their bank accounts it is organization along the lines sketched out at the recent market convention in this city.

Why is any city, or any country for that matter, interested in farmers and their doings? It is because the basis of all wealth, the first and foremost industry is that connected with the soil and what can be won therefrom.

No country in the world has a better heritage than have we in British Columbia, but just as one cannot steer a battleship with an ordinary tiller, so it is necessary that the present system, under which our farmers have striven to market their produce in the face of organized competition should now give place to a better form of machinery.

In instituting this machinery the farmer himself is the main spring. Without his active sympathy and interest and work there can be little accomplished. The government may send organizers, communities may spend unlimited sums, but all true progress comes from within and the farmer has to realize within himself that the new move planned out for the Fraser valley is to his interest and through him is to the interest of the whole country.

We in New Westminster have a very long record of years during which we can point to the fact that we have never allowed the interests of the farming community in our neighborhood to be overlooked. Our market, in its present state, is the envy of many other cities possessing greater populations. But we also desire to progress and just as farmer must co-operate with farmer, so city must co-operate with country and together march onwards.

Westminster stands ready to aid the farmers of the Fraser valley in whatever way may be found best to meet the new conditions, to fit in with the new machinery which must eventaully be brought about. The farmers can help themselves by accepting her offer, or they may refuse it. In either event the responsibility rests with them. We are ready to do our share.

A meeting with the provincial government executive will take place early in June upon the question of appointing an organizer for the Fraser valley, but in the meantime the farmers can help themselves and assist those who wish to help them by getting together in their own districts, by talking co-operation and again co-operation, and by striving to work out their own salvation along those lines.

### FARMERS MUST ORGANIZE.

In dealing with the banks the agricultural classes are up against their own unorganized condition.

Manufacturers and certain other industries are often leagued together in such a way as to be able to gain recognition. There are other powerful interests that can bang the banks a smash on the head if they don't give them a semblance of a square deal.

Although owning a large proportion of the aggregate wealth of the country, the agriculturists are obliged to take all the jabs that the banks give them, just because they are defenceless.—Kaslo Kootenaian.

### THE FRUIT INDUSTRY

In forming themselves into a joint stock company working along co-operative lines the fruit growers of the Okanagan have adopted a course that should be effective in overcoming the *difficulties of marketing* which have resulted so disastrously to the industry.

The decision to pool their interests in a joint stock company was only reached by the growers after mature consideration of every plan that could be applied. The result is that already the details of procedure have been carefully defined and the organization should have its business in good shape before the fruit marketing season arrives.

Fruit men of British Columbia have held for several years that their produce was unduly discriminated against not only by railway and express tariffs but by jobbers and retailers. The co-operative selling plan should overcome entirely the trouble with jobbers.

The establishment of distributing centres at all important points in the prairie provinces will permit of direct dealing with retailers, or, if the producers desire, it will be possible to conduct the branches in such a way that the consumer may buy from the growers' warehouse.

The one certainty is that there is a big market for the goods. The growers can afford to give fruit to the consumer much cheaper than he has been getting it and at the same time the grower will get more for his produce than he has ever secured.

With the twenty per cent. reduction in express charges that will be in effect before the season of ripe fruit arrives there is every reason to hope that the fruit industry will be stimulated to a marked degree this year.—Calgary Herald.

### THE TRACTOR IN AGRICULTURE.

It is estimated that in Manitoba, Saskatchewan and Alberta 6500 motor tractors have been breaking new ground this spring.

As their average per day is said to be about ten acres, their annual working period about 60 days, the area broken by them if working every day, would be about 3,900,000 acres in a year. This would be a very substantial addition to the crop area in the west, and if seeded, would give a great addition to the harvest to be reaped next fall.

There are several reasons why the gasoline tractor has proved of such remarkable utility on western farms. As in the east, there is an embarassing shortage of farm labor in the west. Plowing by the ordinary method would not only call for a much larger number of agricultural workers, but would require a supply of horses far larger than the west has got, or ordinarily has need for.

Such a small part of the western prairie suitable for cultivation has been broken—not more than 10 or 15 per cent. at the most—that investment in these powerful machines is likely to be a solid asset for some decades.

The use of the tractor, and its large scale method of tilling, is facilitating the rapid utilization of good land, and though it is conducive to grain growing exclusively as against mixed farming, it is no unimportant insurance to the west against risk of a diminishing crop yield. At the present stage of western development, it is especially gratifying that much new land is being added to the area for the 1913 crop.—Toronto Mail and Empire.

### Queen's Changes Hands.

Toronto, May 15.—Mr. Henry Winnett, for many years part owner and manager of Toronto's famous old hostelry, the Queen's, on Front street, becomes its sole proprietor. Mr. Winnett has acquired the interest of the McGaw estate in the property at a cost of about $400,000.

### THE MANAGER'S CORNER.

The importance of this whole question of publicity to the consumer is growing on the manufacturer. He sees his competitor or some man in another line turning the trick of publicity and he sits up and thinks. He is gradually realizing that localized, crystalized publicity in the home is what pays best and that he can only get that through the daily newspaper.

## IN CANADA'S STORY

### MAY SIXTEENTH.

Upon this date, May 16th, 1629, occurred the second marriage of a woman from whom many distinguished Canadians trace their descent.

Marie Rollet was the maiden name of this first "Canadienne," but she came to Canada in 1617 as Madame Hebert, wife of the apothecary, Louis Hebert, noted as the first farmer of this great agricultural country. He died in 1627 from the effects of a fall; but his widow lived twenty years after becoming the wife of Guilliaume Hubou. Oddly enough, however, she is still referred to, after her second marriage, as Madame Hebert.

From little glimpses of her in the Jesuit "Relations" and elsewhere, it appears that she was a good, kind, thrifty woman, and "mother of a family of beautiful children." Her house stood near the fort, and when Champlain surrendered Quebec in 1629, at his solicitation, the English commander set a special guard over this "oldest house in the country," and the mission chapels.

When Quebec was restored to France, the Heberts' "substantial cottage," was still the only dwelling house in the settlement worthy of the name; and there, on the return of the French, the priests celebrated the first mass at Quebec.

Charles Melville Hays, the great Canadian railway executive, who lost his life in the Tttanic disaster, was born in Rock Island, Ill., fifty-seven years ago today. He was only seventeen when he began his railway career as a clerk in St. Louis. His connection with the Grand Trunk began on January 1, 1896, when he was made general manager with headquarters in Montreal.

At that time the Grand Trunk was usually referred to in railway circles as "the Dead Line," but under the management of Mr. Hays the system speedily took on an appearance of life. His hardest task was to convince the London stockholders' board of the necessity of proposed improvements, but he finally succeeded. In 1901 Mr. Hays resigned from the Grand Trunk management to accept the presidency of the Southern Pacific, but in a few months returned to Montreal as second vice-president and general manager of the Grand Trunk.

The Grand Trunk Pacific project was inaugurated by Mr. Hays, who assumed the presidency of the company in 1910. The new transcontinental line of steel, for the building of which Hays raised a hundred millions of private capital in addition to a similar amount from the Canadian government, is a lasting monument to the genius of one of the world's greatest railroad builders.

At the time of his heroic passing from the world's activities, Mr. Hays was president, not only of the Grand Trunk lines, but of the Canadian Express company, the St. Clair Tunnel company, the International Bridge company, the Montreal Warehousing company, and other corporations.

Isaac Broome, the eminent sculptor, was born at Valcartier, Lower Canada, seventy-eight years ago today. This is the anniversary of Quebec's conflagration of 1889, in which some six hundred houses were destroyed.

### EGG LAYING CONTEST.

#### Barred Rocks Get Overtime in During Dark Hours.

Victoria, May 15.—The progress of the second international egg-laying contest, held under the supervision of the provincial department of agriculture, at the exhibition grounds, Victoria, is as follows:

Average price of eggs per dozen during month, 30c. Pen temperatures highest, 82 degrees; lowest, 28 degrees; mean, 51 degrees. Rain fell on six days; three days with high winds. Considerable dull weather occurred, the sun shining on only 12 days during the month.

Some hitherto daily records were smashed this month by a pen in each class. Pen 14, white leghorns, laid 7 eggs on the 25th, and Pen 33, barred rocks, did even better than this. They laid 8 eggs between 6 p.m. on the 11th and 11 a.m. on the 12th.

Two perfect eggs were laid on the droppings-board during the night, and six additional were laid before 11 o'clock, the first collection period. On the 20th they laid 7 eggs, one being found on droppings-board, and on the 24th they again repeated the performance.

Record day's production for month—170 eggs. Total eggs for month—4,798.

Comparison with other contests for five months:

North American, total average egg yield per hen, 47.5; English contest, total average egg yield per hen, 43.8; International, total average egg yield per hen, 71.7.

During the month, daily (omitting Sundays), each pen has received approximately, one and a half pounds of dandelion leaves, for which they have evinced a great liking.

## METHODIST COLLEGE NEEDS MORE FUND.

### Governor's Report to Conference That $210,000 Has Been Collected—Site and Principal.

Vancouver, May 15.—According to the report of the governors of the Ryerson college, which was submitted to the Methodist conference tonight the sum of $210,000 has been subscribed towards the building and endowment fund, leaving ta balance of $190,000 to make up the required amount of $400,000.

"In October last," says the report, "the campaign for the building and endowment funds for the college was inaugurated at a banquet given in the city of Vancouver in honor of the Rev. Dr. Chown. Banquets or receptions of a similar nature were tendered the general superintendent in Victoria, New Westminster, Chilliwack, Kelowna, Penticton, Vernon, Armstrong and Salmon Arm.

At all of these gatherings the aims of Ryerson college were laid before the people by the Rev. Dr. Chown and by the conference educational secretary, Rev. E. W. Stapleford, B. A., and afterwards a canvass was made for funds. We are glad to report that up to date $210,000 has been subscribed for this work.

"We are profoundly thankful to God and to our people for the interest thus manifested. We are aiming to raise $400,000, one-half of which is for the building fund and the balance for the endowment fund. This report shows that we have a little more than half of this amount subscribed. Your board greatly appreciates this splendid response, given, as it has been, during a period of financial stringency.

"We recognize that this result represents sacrifice and consecration on the part of our supporters. We believe that all our people throughout this conference wish to share in the founding of Ryerson college, and we hope that before another year has rolled around that the full amount will have been attained."

#### Problem of Principal.

Early in the year the board dealt with the problem of principal for the proposed college and a deputation went to Toronto and asked the general superintendent, Dr. Chown, to occupy the position.

After careful consideration Dr. Chown said that he could not see his way to give up the work to which he had been called by the church at large to become principal of the college.

It was then proposed that Dr. Chown move his headquarters from Winnipeg to the coast and, in addition to his ordinary duties, give special thought to the educational work. Dr. Chown agreed to abide by the decision of the general conference special committee. The committee met last July in Toronto and the following resolution was passed:

"That this general conference special committee views with approval the proposal that the general superintendent, Rev. S. D. Chown, D.D., should reside in Vancouver with a view to the shaping of the educational policy now at a critical stage in that conference."

The report proceeds:

"In October last, the general superintendent took up his permanent residence in Vancouver. The presence of Dr. Chown in our province has been a great inspiration, not only to our educational work, to to every department of our church life.

#### Question of Site.

"Another important problem with which the board has had to deal was the question of the site of the college at Point Grey. In February a strong deputation representing the Presbyterian, Congregational and Methodist Church, waited upon the provincial government with the request that 25 acres of land be set aside at Point Grey for the educational work of the three churches named.

"As it was understood that the government intended to grant each denomination a site of five acres, it was suggested that the additional ten acres asked for should be sold to the negotiating parties. It was further proposed that the land should form part of, or lie contiguous to, the campus of the university, and that a title in fee simple should be granted.

"The government expressed appreciation of the magnitude of our plans, and promised to assist in every possiway. An amendment to the University Act was passed, granting to the corporation of the university, with the approval of the lieutenant-governor-in-council, the power to sell, transfer, lease for not more than 99 years or otherwise dispose of their lands, but the final settlement of the question of our site was deferred until the newly appointed president of the university could be consulted.

"We have great hopes that the board of governors of the university, and the government will recognize the very important contribution which we will make to the university, and that a suitable site in fee simple will be granted us. We wish to place on record our special appreciation of the good offices of our general superintendent in our negotiations with the government."

## LABOR APPRECIATES WORK OF PRESS

### Enter Vigorous Protest Against Brandon City Council Excluding Press from Meetings.

Brandon, May 15.—The labor men as represented by the Trades and Labor Council of this city registered a vigorous protest against the action of the city council in excluding the press from the committee meetings of the council at a thoroughly representative meeting held here a few nights ago. Speaker after speaker rose up and declared that, if the aldermen were not doing something which they preferred hidden from the public, the press would be admitted.

It was strongly held that in view of the fact that important money by-laws were to be submitted it was of special importance that full publicity should be given to the work of the council committee, otherwise the ratepayers would be reluctant to vote on matters on which they were not fully informed.

The resolution passed was as follows: Proposed by R. Rember, seconded by A. McDonald, and resolved, that whereas the press and public have been shut out of the committee meetings of the council be it therefore resolved that:

"(A) Our council must have taken advantage of the power which we have conferred upon them for the transaction of our business seemingly that they may cover up their activities in our affairs and pull the wool over our eyes by telling what they please, knowing that we cannot get the facts to disprove them.

"(B) We wish to strongly recommend the stand taken by three of the aldermen elected last year, viz. Bourke, Carter, and Shillinglaw, who as their actions show, have nothing to conceal from the public.

"(C) Owing to the above showing it is a good policy to annually elect some new members unless the old are staunch supporters of publicity in our affairs.

"(D) The thanks of this council and workingmen generally, should be given to the press for the information given us in the short time they were allowed the freedom of committee meetings, knowing that a full account of the causes and manner of the firing and hiring of the old and the new superintendent of our street railway is much preferable to what would have been handed out for publication as well as other matters which the conscientious endeavors of the press have brought forth in a more complete form than would otherwise have been possible."

### STEAMBOATS TO START.

#### Opening of Navigation on Shuswap Lake and Thompson.

Chase, B.C., May 14.—According to J. E. Griffith, provincial public works engineer, steamboat service on Shuswap lakes and Thompson river will begin as soon as possible. That doubtless means as soon as the removal of the C. N. R. trestle at Kamloops will allow the passage of the boat.

The time table to be used is not the one adopted at the meeting at Chase on April 3rd, to which objections were made by some of the places interested, but one submitted by Mr. Murray of the Arrow Lakes lumber company. The adoption by the engineer of this latter schedule is, however, only tentative, and is authorized for two months unless otherwise directed by the department of public works.

### LAND REGISTRY ACT.

**Re Lots 3 and 4, Block 5, of Section 35, Block 5 North, Range 3 West, Map 529, in the District of New Westminster.**

Whereas proof of the loss of Certificate of Title Number 16574F, issued in the name of Alexander Allan, has been filed in this office.

Notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, in a daily newspaper published in the City of New Westminster, issue a duplicate of the said Certificate, unless in the meantime valid objection be made to me in writing.

N. GWYNN,
District Registrar of Titles.
Land Registry Office, New Westminster, B.C., April 30, 1913. (1206)

### DOMINION LANDS, RAILWAY BELT

#### New Westminster District.

The following applies only to the New Westminster Dominion Lands Agency.

Squatters on Dominion Lands in the New Westminster Agency who are not located in Timber Berths will be given until Monday, the 19th day of May, 1913, within which to appear and make application for entry.

Squatters whose claims have been allowed, who have not yet secured homestead entries, will be notified by the Dominion Land Agent at their last known address. In the event of any such squatters failing to appear and make application before the date mentioned, their claims will lapse and the lands will be otherwise disposed of on and after that date. If, however, good reason is shown for failing to appear and the improvements on the land are of substantial value a further period of protection may be allowed by the Agent in cases of merit. Claims not yet dealt with must be filed immediately.

Squatting on Dominion Lands without the authority of the Department will not henceforth be allowed and will result in loss of claim and forfeiture of improvements.

S. MABER,
Supt., B. C. Lands.
Ottawa, 9th April, 1913. (1089)

BOARD OF TRADE—NEW WESTMINster Board of Trade meets in the board room, City Hall, as follows: Third Friday of each month; quarterly meeting on the third Friday of February, May, August and November at 8 p.m. Annual meetings on the third Friday of February. C. H. Stuart Wade, secretary.

### SYNOPSIS OF COAL MINING REGULATIONS.

COAL MINING rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee will be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

# Live Topics in World of Agriculture

## BEWARE BURGLARS IN MILKING HERDS

**Dairy Commissioner at Ottawa Ready to Assist Farmers in Determining Animal's Value.**

Ottawa, May 15.—The marked increase of interest in cow testing is one of the good signs of the times.

With a simple record system, there is no valid reason why a dairy farmer should harbor the type of cow that is reluctant to pay her way; with systematic records of the yield of each cow, he is in a position to build up a herd in which each individual pays a good profit.

Would you not rather keep cows giving thirty dollars profit than those giving only one dollar's profit? Milk readers, are still supplied free on application to the dairy commissioner, Ottawa. State in your letter whether you want forms for keeping daily weights or only three days per month.

Send for record forms and insure yourself against the modern burglar cow that steals the credit and the profit made by the good cow.

## CITIZENS BANQUET COCKNEY FARMERS

**Adversity Made J. C. Hill and Sons Prosperous—Twice Won World's Prize for Oats.**

Lloydminster, May 15.—The little town of Lloydminster, which might be called "the town that is neither here nor there," because it is half in Alberta and half in Saskatchewan, was en fete on Thursday evening, the occasion being a banquet tendered by the board of trade to J. C. Hill and sons for the accomplishment in winning for the second time the Colorado trophy for the best oats grown on the continent.

The banquet was well attended by about 125 persons, and amongst the speakers were such well known men as the Hon. Walter Scott, premier of Saskatchewan; the Hon. W. R. Motherwell, minister of agriculture, Saskatchewan; George Harcourt, deputy minister of agriculture, Alberta; Prof. Hutton, superintendent government farm at Lacombe; C. A. Speers, of the government immigration department; W. A. Brown, general superintendent C. N. R.; Norman S. Rankin, representing the C. P. R.

**Barr Colony Anniversary.**

The banquet was also commemorative of the tenth anniversary of the arrival of the Barr colony, and was attended by practically every farmer in the district.

Mr. Hill, in responding to the toast stated that he had been in the country ten years, knew absolutely nothing about agriculture when he came here from London, Eng., and that there are times in a man's life when adversity is better than prosperity, for had it been possible he would have gotten out, but it was not possible; he had stayed and made a success, and he was proud that he was the means of bringing this honor to the town of Lloydminster and the provinces of Alberta and Saskatchewan.

The C. P. R. representative congratulated Mr. Hill and Lloydminster on winning the trophy and in reply to remarks that it had been won along the main line of another railway, said that it made no difference, and that the Canadian Pacific railway was just as pleased and just as much interested in the success of the farmers along the lines of the C. N. R. and the G. T. P. as it was in those of any other part of the province.

**"Abundance" Oats.**

Mr. Hill's oats weighed 54 pounds to the bushel, were in the ground 104 days, and are of the "Abundance" variety. The trophy is a handsome silver cup standing three and a half feet high, and will, in all probability, become the property of the winners, as they have now carried it off twice in succession.

Mr. Hill said that he was not done with the oats competition business, and that he had learned something last year which he would bring into play in next year's exposition. He pointed out in conclusion that there was no possible question as to the fertility of the soil in the Lloydminster district because he had twice been able to win the world's prize for the best oats.

## FAFMERS OF ALL LANDS TO GATHER IN GHENT

Ghent, Belgium, May 15.—His majesty the king of Belgium has just granted his high patronage to the tenth international agricultural congress, which is to be held in Ghent in 1913. The Belgian government and the provincial administrations, as well as the city of Ghent (Belgium), have promised their co-operation in this congress.

Foreign governments are solicited to send deelgations. In the principal countries propagandist committees are being formed. The agricultural exposition, "the modern village," and numerous excursions will impart to this congress a special interest.

The public administration, agricultural associations, professors of agriculture, and agriculturists from all parts of the world are invited to adhere to this congress, whose reports and discussions will form an agricultural encyclopedia of six volumes, comprising all the questions of the day.

This congress will be held from the 8th to the 13th of June.

## PIG WELL EQUIPPED BUT FAILED TO LIVE

London, May 15—At South Normanton a sow has recently had a litter of 15, the third being a remarkable freak of nature, which only lived a short time.

It had eight legs, in addition to the usual four, and four ears, and from the centre of the body there were two perfect hind quarters, with two tails, and it had two noses.

## THE INDIGNANT FARMER.

"I'm just as mad as I can be!"
An angry farmer said;
"Those early strawberries of mine
Desire a folding bed!
And my potatoes have declined
To ripen underground,
Unless, to keep dust from their eyes,
Smoked goggles I have found.
The cabbage heads among themselves
Indulge in secret chats;
But I have overheard them, and
They vow they'll have straw hats!
Such foolishness I cannot stand;
And now—just as I feared—
Each single stalk of wheat demands
A barber for its beard!
The squashes, too, are getting proud;
It almost makes me smile;
They want the very finest neckwear,
Of the very latest style!
But now the very limit's reached!
I learn, with stifled groan—
Each ear of corn insists upon
A private telephone!"
—Harper's Weekly.

## BETTER MARKETING PROFITS VANCOUVER

**Profesor Hill-Tcuth Favorably Received—South Vancouver Wants Municipal Gas.**

Vancouver, May 15.—As a result of the appearance of Professor Hill-Tout of Abbotsford before the markets and industries committee of the city council yesterday the move instituted by New Westminster towards improving farming conditions is to be backed by Vancouver.

Mr. Hill-Tout stated that the object was to benefit the fruit growers and agriculturists of the province by providing means for the proper marketing of their produce, and by so doing encouraging the growing of those products which the province imports to the value of millions of dollars annually to the detriment of the home industry.

**Approach Government.**

Organization and co-operation was what was wanted in addition to proper market facilities for handling the produce from grower to consumer, and in order to secure this it was desirable that the provincial government should be approached and asked to appoint organizers and instructors in the various producing sections of the province to organize and to conduct a system of co-operation among the farmers in the marketing of their produce.

If this plan met with the approval of the government and came into effect it would be necessary for Vancouver to have a large central market equipped with cold storage facilities, as well as a number of distributing markets.

A committee will be appointed to co-operate with New Westminster for the purpose of securing the objects as outlined by Mr. Hill-Tout, the matter being left to Alderman Trimble, chairman of the committee.

**Big Paving Scheme.**

South Vancouver has decided upon a big paving proposition and passed a resolution that notice of motion be given to introduce a local improvement bylaw at the next regular meeting of the council in respect to the paving of Main street and Fraser avenue and that the engineer be instructed to submit an estimate covering the cost of paving Main street and Fraser avenue from the city boundary to the river, and that the B. C. E. R. be notified accordingly.

The council was able to undertake this large contract owing to the fact that the Dominion Creosoted company have consented to take the bonds of the council in payment, the whole of the work to be completed by August, 1914.

**Gas Plant Projects.**

The lead of the Royal City in respect to municipal gas plants has been closely watched around Vancouver. North Vancouver has paid a visit to New Westminster and South Vancouver council on Wednesday resolved that Messrs. J. Coates and S. Hancock be appointed consulting engineers to report upon the cost of construction, operation and general advisability of a municipally-owned gas plant.

**Chase Over Roofs.**

In an attempt to evade the clutches of Detectives Scallion and McLaughlin then engaged in raiding an alleged opium joint at 253 Keefer street, Chin Sing, a diminutive but athletic Celestial, at 9:45 o'clock last evening crawled through a slightly enlarged stove pipe hole in the outer wall of a room, crept over two roofs and then made a flying jump to a ledge of a building some twenty feet below, finally being hauled back to the arms of the law.

The sudden separation from the ledge was accomplished by a violent heave, landing Chin in a surprised heap in the hands of the officers.

He was placed under arrest as the inmate of an opium house and taken to the "bastile," where bail of $100 being furnished, he was allowed his liberty until court time this morning.

**Orangemen Rally.**

The Orangemen, Royal Scarlet Knights, Royal Black Knights of Ireland, Lady Orange Benevolent Association and the Royal True Blue lodges of Vancouver will celebrate the anniversary of the Battle of the Boyne on Saturday, July 12.

Promises of attendance at the demonstration have been received from lodges of Victoria, New Westminster, Port Moody, Port Hammond, Steveston, Edmonds, Central Park, Cedar Cottage, Aldergrove, Gibson, Ladner, Eburne, Coquitlam and Merritt, B. C.

**Beauty Pays.**

Vancouver's decision to adopt the rose as its civic emblem, as decided by the City Beautiful Association, and the proposal that this city should organize an annual rose festival, has aroused much favorable comment from the various other cities of the Pacific coast, which are anxious to have Vancouver enter the sisterhood of cities engaged in the preparation of annual attractions for tourists.

## INCUBATOR CHICKENS.

**Must Be Properly Cared for After They Are Hatched.**

The trouble with the most of those who are not successful with incubator chickens is not in the hatching. Anybody with reasonable care can hatch chickens successfully with an incubator. But most of those who fail are not prepared to take care of the chicks after they are hatched.

Some efficient substitute for the soft, warm body of the mother hen must be provided to hover the chicks and protect them from the cold. This hover may be made at home in various styles, some using artificial heat from lamps and some so constructed as to utilize the body heat of the baby chicks. Brooder coops that can be kept perfectly dry and warm must also be provided. Brooder and hover must be kept clean and supplied with fresh air and sunshine when possible.

With hens to do the laying, an incubator to do the hatching, brooders and hovers to care for the baby chicks and reasonable care on the part of the person in charge, a satisfactory measure of success ought to be the reward of any breeder. But an old box and a piece of worn out quilt are not a successful substitute for the mothering of the hen.

## HELPING SUMMERLAND.

**Big Cannery Will Be Built Some Time Before Fall.**

Summerland, B. C., May 15.—The question of how to dispose of the over-ripe soft fruits and surplus stock as well as late tomatoes, has been a difficult problem for orchardists, and for some time negotiations have been pending with the Dominion Canners, Ltd., an eastern Canadian concern operating nearly all the canneries of Ontario, to operate also in Summerland.

Two representatives were sent here to look over the district and its possibilities and report to the directors. A very favorable report was made, and the directors voted in favor of establishing here.

As it was feared that it was too late to build this season it was suggested by the board of trade that the company operate a small cannery on the wharf this season, putting in some additional machinery.

Negotiations are still pending for this latter proposition, and it is understood that the directors are favorably disposed to thus meet the request of the fruit growers made through the board of trade.

**Wheat Up Four Inches.**

Moose Jaw, Sask., May 14.—About an inch of snow fell here last night and was very beneficial to the grain. In places the wheat is up as high as four inches and was needing moisture.

## FIRST TWO WEEKS COUNT FOR MUCH

**Careful Dieting and Plenty of Grit Will Ensure Healthy Broods of Chicks.**

Feeding the chickens and giving them the right kind of a start is a subject in which all poultry raisers are, or should be, much interested.

The first two weeks of the chick's life have a great influence on its future, and determine whether it will become a sound, profitable specimen or a helpless runt. If care has been taken to select the hatching eggs well cared for, a good hatch of strong, sturdy chicks may reasonably be expected.

When eggs have been shipped to you, if you do not get a chick for every egg you must not always blame the breeder, as sometimes the carrying company is apt to handle them not very gently.

Fortunately, nowadays, the expressmen are more careful than formerly. But where a breeder uses the latest and most aproved boxes and knows his business thoroughly in packing, ordinary rough handling should have but little effect.

**Easy to Lose.**

After one has his chicks hatched it is a very easy matter to feed every cent of his prospective profits away, says a writer in the Canadian Countryman. He can drop all of it in some of the mixed chick feeds that are sold at such high prices, and the codimental foods, so called, that have a few cheap drugs or a little red pepper, Venetian red or gentian mixed in to give them "the right sort of a smell."

There is not enough of the stuff put it in to do any harm to the birds, neither to my knowledge is it in any way beneficial. It merely gives mixers an excuse to double or quadruple the selling price.

When soft, easily digested foods are used, there is a tendency on the part of the chick's digestive organs to slight their natural functions, and in many cases the walls of the gizzard will not become toughened early enough, and are soft and flabby.

When hard, dry grains are used—which is nature's way of feeding—the digestive juices are called into full play, and the muscles of the gizzard are given plenty of exercise. This means strong, healthy, wel-developed digestive organs for the chicks, and a chick so developed from the start has a great advantage over its less favored brother.

**Feeding Methods.**

There are a number of good methods of feeding chicks. No chick should be fed before say the fourth day after hatching, when they will have been transferred to the brooder.

Giv but one feed the first day, composed of a little rolled oats rubbed fine, or a little stale breadcrumbs and a chopped hard-boiled egg, to every twenty-five of the "peepers." The secsecond day give three similar meals and after two or three days have passed feed them oftener, giving less egg at each meal, and at the end of a week's time feed no egg at all.

Along with the rolled oats or bread crumbs give the chicks hard mixed grains scattered in the chaff, cracked wheat, cracked corn and hulled oats, to which in equal measure should be added a half measure of millet seed.

With this diet and p lenty of small grit, you are not likely to lose two per cent. of the brood.

## Reasons for Cow Testing Given Here at a Glance

Ottawa, May 15.—A circular issued by the department of agriculture gives the following reasons why cow testing should be done.

**Individual Cows.**

Cow testing enables one to find out the poorest cows, those not paying for their feed, so that they may be got rid of.

In many cases one-quarter of the cows in the herd have been discovered to be not worth keeping, in some cases half the herd and even as high as three-quarters have been turned out.

This means certainly in dairying, no more guess work as to individual performance.

Cow testing shows that many cows considered only average are really the best in the herd.

Cow testing points out definitely which cows are the best producers, both in milk and butter fat.

Cow testing proves that many cows considered the highest in test are really the lowest.

Cow testing saves good cows from being beefed, they are found to be profitable when actual yield and cost of feed are considered.

Cow testing shows that many fine looking cows do not bring in much cash from the factory.

Cow testing helps to discover the great difference in persistency of flow.

Cow testing brings to notice the slightest variation in flow and urges one to seek for the cause of the shrinkage.

**Herds as a Whole.**

Cow testing helps to increase the total yield of milk and fat from the same number of cows.

Cow testing brings in larger returns from fewer cows.

Cow testing helps to build up a profitable herd quickly because heifers can be selected from the best cows.

**Matter of Feed.**

Cow testing allows more discrimination in feeding, apportioning the grain according to the yield of fat.

Cow testing exercises the benefit of liberality in feeding succulent, digestible food stuffs.

Cow testing abundantly proves that it pays handsomely to give dairy cows the best of care and kind treatment; this includes regularity as to milking, early stabling in the fall, protection from cold rains, spraying to protect from flies; and above all, particular attention to cleanliness, light and ventililation in the stable.

Cow testing demonstrates that many good cows can be kept at a smaller cost of feed. This is not stinginess but economy.

**The Dairyman Himself.**

Keeping records makes one more observant of all those little details that go to make up success.

Because cow testing develops this faculty of observation and induces reading and study, members of associations are becoming far better dairy men.

There is a great stimulus received from comparing notes and results with other members.

The hired men take more interest in the cows, consequently they give them better attention and get more milk.

Neighboring farmers who originally scoffed at the idea of cow testing have become impressed with the results obtained by members.

A great measure of personal satisfaction results from studying each cow, as an individual performer, not as a mere machine.

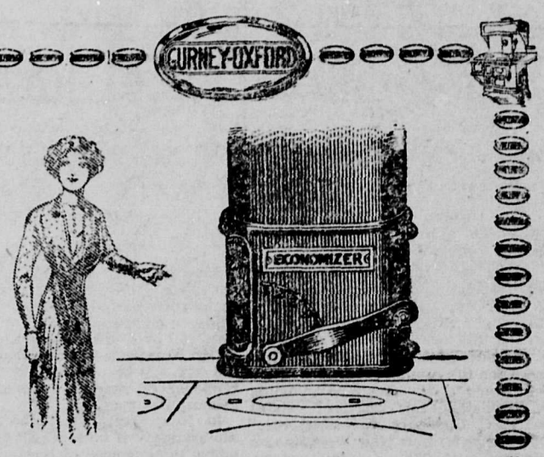
**Pleasure for All.**

Cow testing increases one's love for good cows, and creates infinitely more pleasure in the work on the farm.

The definite knowledge obtained from the regular monthly testing is much more satisfactory in every way than getting an occasional result only once or twice a year.

Financially cow testing is of very great benefit; young bulls sell for higher prices. Cows sell for double the old prices when buyers see records.

Cow testing not only interests the boys and girls more and more in farm life, but materially assists in providing additional home comforts for the women and children.



**The Economizer Will Pay For the Stove**

It will not take long for a Gurney-Oxford range to pay for itself. The Economizer will do it.

This device saves 1 ton of coal in every 6 ordinarily consumed, enabling the thrifty housewife to have a thoroughly efficient range with exclusive features at practically no cost.

The dividends represented by the lower consumption of fuel will pay back the original investment in a very short time.

Pages written about the Economizer could not tell of its real value to the household as has been proven by the most scientific tests.

You owe it to yourself to investigate the Economizer before concluding your purchase of your new range.

There are other vital points known only in this Gurney-Oxford, such as the Divided Flue, the New Special Grate and the Broiler attachment.

All these scientific improvements lead the housewife to perfection in the art of cooking.

Her uniformly heated oven works with her and gives her the baking results she is striving for—light delicious biscuits, flaky wholesome pastry and evenly baked bread.

The bright and shining appearance of this stove with its nickel trimmings and polished top which requires no black lead charms the heart of every good housekeeper.

She realizes that the Gurney-Oxford can fulfil here every need.

# GOVERNMENT PARK NEAR REVELSTOKE

Ex-Mayor of Interior City Tells of Prospects There—More Trade with the Coast.

"What with the large amount of improvement work being done by the C. P. R., the reservation by the Dominion government of 10,000 acres for a park, the opening of an auto road to the new park, and the bright prospects for the mining industry and the fruit crops, things should be humming in Revelstoke this summer," states Mr. F. C. Lindmark, an ex-mayor of that city, who is in New Westminster, together with Alderman James Johnstone, of Nelson.

"On account of the double tracking of the C. P. R. and the construction of the big tunnel at Rogers Pass, a short distance from Revelstoke, and the opening of the tourist road up Mount Revelstoke, we anticipate a great activity in industrial and real estate circles.

"The mining prospects are good and the saw mills are working full force.

"Further," went on Mr. Lindmark, "the opening of the railway belt for settlement by the Dominion government will be followed by a large influx of settlers.

"Word has also just been received from the Dominion government that 10,000 acres has been set aside on Mount Revelstoke for park purposes and an auto road is already being constructed for the benefit of tourists. The park is at an elevation of 7000 feet above the sea level.

Fruit Orchards.

"The fruit orchards are in splendid condition and a bumper crop is expected. This year, however, considerable attention is being paid to the strawberry industry, for which the Columbia valley in the vicinity of Revelstoke is noted. The reduction in the express rates in the west has also given a stimulus to fruit growers.

"Revelstoke has at the present time considerable trade with the coast cities, but we hope that this trade will greatly increase. At the present time the business is rather one-sided. Revelstoke mrchants purchasing on the coast, but shipping their produce to the prairie markets, but it is hoped that in the near future it will be found profitable to market our produce in the coast cities."

# ROYAL GEORGE WILL RESUME OLD RUN

After Thorough Overhauling Atlantic Liner Will Once Again Be Seen in Montreal.

Montreal, May 15.—Mr. Ernest Sanderson, assistant to the marine superintendent of the Canadian Northern steamships at Avonmouth, arrived in Montreal on the Royal Edward on his first visit to Canada. He announced that the Royal George had during the winter undergone a thorough overhauling at Birkenhead and would be shortly seen again at Montreal on her old run.

"We did a great year's business last year," he said, "but traffic this year looks like being heavier than ever. In fact, practically all the immigrant accommodation on our boats is already booked up till midsummer and tourist traffic will also undoubtedly be heavy. Personally, it seems to me that this St. Lawrence route will become more popular with travellers every year; it affords such a vast and tremendously impressive panorama."

## FERNIE'S NEW CHIEF.

Police Commissioners Appoint J. C. Brown of Lethbridge.

Fernie, B. C., May 15.—J. C. Brown, who has been on the police staff of Lethbridge for the last four years, will succeed Chief J. Broughton Hall, whose resignation takes effect on the last day of this month.

Mr. Brown was acting chief in the Alberta city for four months and considered that he was entitled to a permanent appointment. As the commissioners of that city did not engage him for the position he will enter the employ of Fernie and will take charge of the local force on June 1.

### New G. N. R. Depot.

Salmo, B. C., May 15.—Stone for the foundation of the new depot to be erected here by the Great Northern is being unloaded and the carpenters are already on hand. Before commencing the depot the gang will build a water tank at Erie.

### Esquimalt Sells Bonds.

Victoria, May 15.—Esquimalt has succeeded in making an early sale of its school bonds, the announcement having been made at the meeting of the council, so that henceforth there need be no further trouble between the municipal body and the school trustees regarding the rate of progress at which contracts are let for the extension of the Lampson street school. The bonds amounted to $27,000 and they have been taken by the Bank of British North America, at 93, carrying a 5 per cent. rate.

### Nursery for Nelson, B. C.

Nelson, May 14.—With the object of developing a nursery, D. P. Buchanan, formerly manager of the Mitchell nurseries in Winnipeg has purchased 50 acres of land at Kootenay Orchard on the east side of Kootenay Lake, near Kaslo. The land is located near Fry creek. He proposes to plant 100,000 next fall.

### Moose Jaw's Price.

Moose Jaw, Sask., May 15.—The school board has awarded the sale of its $150,000 debentures to Wood, Gundy & Co., of Toronto. The price is 94.

# HARDY NORSE WILL CELEBRATE

Ninety-Ninth Anniversary of Norway's Independence—Nation of Democrats.

Saturday, May the 17th, will be the 99th anniversary of Norway's declaration of independence and her union on a basis of equality with Sweden. All over the world wherever the hardy Norsemen most do congregate the day will be observed as a day of rejoicing or marked in some commemorative manner.

In New Westminster the form of celebration will be a social gathering, under the auspices of the local lodge of the Sons of Norway, in St. Patrick's hall, tomorrow night at 8 o'clock. There will be vocal and instrumental music and patriotic addresses ad lib, and refreshments will be served.

Norwegians have played an important part in the development of America, which they, with good reason claim to have been discovered by their forefathers over 500 years before the landing of Columbus in the West Indies. Their sturdy descendants have at any rate done much to bring the virgin northwestern provinces as well as the United States into the great wheat producing centres they have become.

In 1841 the people were imbued deeply with the principles of the French revolution. In the redistribution of Europe in Napoleon's time, Norway was transferred to the sovereignty of Sweden from the domination of Denmark.

The event to be celebrated next year resulted from the treaty of Kiel. The latter country was then under the domination of Marshal Bernadotte who, although he has not yet ascended the throne, was crown prince in name and ruler in fact. On May 17, 1814, the Norwegians issued their declaration of independence, and shortly afterward a Swedish army was dispatched by Bernadotte to quell the "rebels." Towards the latter part of the year a compromise was reached whereby the Swedish monarch was to be also king of Norway, although the latter country was to remain "a free, independent, indivisible and inalienable state." This arrangement continued until 1905, when, after a period of strained relations between the countries, the union was dissolved, a plebiscite electing Haakon VII as king of Norway. King Haakon is a son of the late king of Denmark.

In 1821 it is a noteworthy fact, as showing the democratic spirit of the people, that all titles of nobility were abolished. Even the prefix "Mr." or its equivalent is only used by townspeople.

### Sporting Financiers.

London, May 15.—A Mexican government loan of $25,000,000 for the restoration of the railroads in that country is understood to have been practically arranged here and in Paris. The terms have not yet become available, but it is stated that they are high. The Mexican agents are endeavoring to secure fifty million dollars more to be utilized for governmental purposes. Lord Cowdray has been active in the negotiations, but not through Coats' bank as previously reported

### Get Clear in Seattle.

Seattle, May 15.—Charlie Louie and James A. Ralston, accused of conspiracy to smuggle opium, were acquitted by a jury in the United States district court today after a trial lasting three days. Ralston, who was arrested in Portland, Ore., March 6, with a trunk in his possession containing $7500 worth of opium, will be taken to Portland to stand trial there on a charge of smuggling.

### After Horse Rustlers.

Calgary, May 15.—Mounted police are scouring the country north of Calgary for horse rustlers, who a few days ago rode into a field in the Dog Pound district in broad daylight and drove off a herd of horses. The thieves obtained permission of a rancher to corral and change horses. Ten minutes after their departure the pursuing owners rode up, but the rustlers had gotten a good start and at a late hour last night had not been captured.

### Back from Pole.

San Francisco, May 15.—Two members of the relief party that recovered the body of Captain Robert Scott, overcome by a blizzard on his return from the South Pole, arrived here today on the royal mail steamer Tahiti from Sydney. They are Charles S. Wright, of Toronto, and Frank Debenheim, a graduate of the University of Sydney, Australia.

## LILLOOET GOES AHEAD.

Electric Light Plant Assured—Many Contracts Arranged.

Lillooet, May 15.—Installation of an electric light plant for Lillooet is now practically assured. Actual construction is expected to commence next week.

To commence work on the job the Lillooet Light and Power company required signatures to contracts for 300 lights. This requirement has been much more than met, over 424 lights having been already contracted for, with a considerable number of others promised as soon as the plant is in operation.

Two or three contracts for the supply of power for machinery have also been signed on in abeyance.

## PUGILISTIC ANNALS.

1784—Daniel Mendoza, first Jewish champion, defeated Harry the Coal Heaver in England.

1900—Kid McCoy stopped Dan Creedon in sixth round at New York.

1905—Stanley Ketchel knocked out Paddy Hall in first round at Butte.

1906—Roy Bronson and J. Stein fought eight round draw at Peoria.

1909—Frankie Burns defeated Tibby Watson in six rounds at New York.

1911—Al Delmont and Jimmy Walsh fought 12 round draw at Boston.

# DANCING AND SOLO NOT CHURCH WORK

Eastern Presbyterians Do Not Approve of Them at Their Socials.

Prescott, Ont., May 15.—The question of whether dancing and card parties could be legitimately considered as a part of the work of the church was raised at the morning session of the Presbyterian synod of Montreal and Ottawa today.

Among the recommendations it was suggested that all churches should have young peoples' societies and that in rural districts ministers should attempt to build up a fuller religious and social life.

Mr. Lenox asked whether the social life referred to meant the holding of dance and card parties under the auspices of the church. He heard that a part of the social service in connection with some churches included these. He could see no sin in dancing a highland fling or playing cards, but they must consider the environment. Did such an environment make for Christianity?

There was a chorus of "Nos." The recommendations were accepted.

## BANK CLEARINGS.

Toronto, May 15.—Canadian bank clearings for the period of 1913 are:

| City | May 15, '13 | May 15, '12 |
|---|---|---|
| Montreal | $ 56,576,475 | $ 57,520,897 |
| Toronto | 43,963,274 | 49,103,309 |
| Winnipeg | 28,977,789 | 29,925,066 |
| Vancouver | 11,591,930 | 12,192,531 |
| Calgary | 4,088,261 | 5,590,050 |
| Ottawa | 3,453,467 | 5,456,376 |
| Edmonton | 4,504,738 | 3,612,457 |
| Victoria | 3,488,704 | 3,612,457 |
| Hamilton | 2,388,133 | 3,258,777 |
| Quebec | 3,102,401 | 2,481,569 |
| Saskatoon | 2,294,127 | 2,561,360 |
| Regina | 2,177,154 | 2,153,508 |
| Halifax | 1,720,626 | 1,887,857 |
| St. John | 1,470,591 | 1,717,657 |
| London | 1,967,615 | 1,572,920 |
| Moose Jaw | 1,132,955 | 1,116,507 |
| Ft. William | 918,395 | 937,047 |
| Medicine Hat | 680,043 | ..... |
| Brantford | 650,321 | 618,423 |
| Brandon | 629,697 | 779,020 |
| Westminster | 612,032 | ..... |
| Lethbridge | 442,034 | 630,546 |
| Totals | $175,894,562 | $187,396,750 |

### Money in London.

London, May 15.—The weekly statement of the Bank of England shows the following changes: Reserves decreased £219,000; circulation decreased £295,000; bullion decreased £513,661; other securities decreased £584,000. Other deposits decreased £276,000; public deposits decreased £530,000; notes reserve decreased £131,000; government securities unchanged.

### A Canadian Chicago.

Calgary, May 15.—Negotiations which, if carried to a successful termination, will make this the meat packing centre of Canada, are now being conducted between representatives of the city council, the Canadian Pacific, the Canadian Northern and the Grand Trunk railways, in Calgary. It is proposed to carry out an enormous union stock yards scheme which will include a huge abattoir and packing plant. If the union plan is agreed upon yards will be laid out after the order of the union stock yards at Chicago.

### Brick Heavers' Demands.

Moose Jaw, May 15.—The bricklayers' situation is hung up for a few days. The builders' exchange has met and appointed a committee to confer with the men, whose demands are 75 cents an hour, with eight hours per day and four on Saturday.

Scout orders by Scout Master R. P. Day, commanding the 1st New Westminster Troop Baden-Powell Scouts:

Headquarters,
New Westminster, B.C.,
May 14, 1913.

The troop will parade at the Armouries on Wednesday next, May 21, at 7:30 p.m.. Dress "drill order."

In future scouts will bring bandages to all parades and classes.

All boys who are still in arrears with their payments for uniforms, etc. are requested to attend to same as early as possible. By Order

FREDK. J. SIMPSON, ..
Asst Sct. Master and Adjutant.

# CERTAINLY HAD IMMORTAL CINCH

Chicago Lawyer Clairvoyant Ran a Double Header at Big Profit to Himself.

Chicago, May 15.—Interesting evidence of the operations of Charles De Alvandros, alleged leader of the clairvoyant ring, now under investigation, was presented to the grand jury today.

According to State Attorney Hoyne, De Alvandros led a dual existence, posing as a lawyer and operating as a seer. As a lawyer he had an office down town; as a clairvoyant, he is said to have maintained three mystic parlors in which he appeared disguised to those who had met him in his capacity as an attorney. As a lawyer, he is alleged to have directed his victims to consult the seer. Thus he was able to make surprising disclosures to his victims. The less important cases were handled by assistant necromancers.

He is said to have acted as chairman of weekly meetings held by clairvoyants where the "white envelope fund" was collected for distribution to the politicians and detectives who protected their operations.

De Alvandros owed his leadership largely to his legal ability and usually handled court matters for members of the ring when they ran afoul of the law.

He is at large and the police are searching for five other clairvoyants, among whom are Frank S. Ryan, alias Professor Robert L. Milton, whose brother James is in jail here and has furnished the district attorney with a great deal of evidence being used by the grand jury.

## Dozen Out of 20,000 Show Their Interest

(Continued from page one)

was for two new firehalls in Sapperton and Queensboro, and the necessary apparatus.

The Exhibition Buildings and Fence bylaw was criticized in some quarters. They did not seem to know what the exhibition meant to New Westminster. However they might disagree with other publicity work, they must admit that the R. A. & I. society put up the best exhibition in Canada from the farmers' point of view. It showed what the Fraser valley and B. C. generally could do in agriculture, horticulture and live stock. There was only one paid official in that society, the directors gave their time and services free.

The money was to repair the buildings; there was only one roof that was not in bad condition. Some of the buildings required to be moved to other locations to beautify the park; $15,000 would cover that.

The arena was built last year for $28,000 and the city would be reimbursed for that expenditure.

The City Stables bylaw would enable the corporation to buy oats, hay and horse feed in large quantities at the proper time and more cheaply, by providing store accommodations. They would thus avoid fluctuating prices.

The School bylaw for $57,000 concluded this portion of the mayor's address. The money was required for the maintenance of the present schools and the improvement of the grounds. The trustees had deferred the building of a new school in consideration of the stringency of the money market.

The mayor then summarized the financial situation of the council in regard to last year's money bylaws.

### Water Extensions.

The Water Extension and Parks bylaws had no connection with those of last year.

They had been advised, proceeded the mayor, by the best financial companies in Canada and the States, by their bank manager and other financial experts to place a bylaw before the people asking them to change the rate of interest on their bonds from 4 1-2 to 5 per cent. The council was preparing a bylaw to that effect and it would be submitted in about a month. He believed once the people understood the situation they would vote for it.

Reverting to the Sapperton Sewer $150,000 bylaw the mayor said if it did not go through there would have to be a re-assessment. Some one had said at their Sapperton meeting that he had been assessed 22 cents a front foot which raised his taxes $23 a year. It would be the best $23 he ever spent in his life. If the bylaw did not pass it would cost him more than $23 and it would not be the same sewer.

The council were not expending $1 that could be avoided.

In conclusion he recommended all citizens to give careful and intelligent consideration to all the bylaws and he was confident once they grasped them thoroughly they would endorse them.

## HUGHIE GIFFORD OUT OF THE GAME

**Injures His Knee, Takes to Bed and Team and Fans Wear Crepe—Much Doping.**

A serious blow was administered to the Salmon Bellies yesterday morning when it was known that Hughie Gifford, the star player with the Minto cuppers during last season, was laid up with injuries that will probably keep him out of the game until midseason.

Gifford has been training with the team since the workouts were commenced and appeared to be in good shape for Wednesday evening except for a slight twinge in one of his knees.

Yesterday morning the injured member became worse and a surgeon was consulted, who at once ordered the youngster to take to his bed and stay there until further orders. It now develops that one of the ligaments of the knee has either been broken or torn which will require careful nursing if the youngest member on the team hopes to help his fellow players defend the world's championship trophy.

Hughie's injuries were the topic of conversation among the fans on the street yesterday and already some of the pessimists can see the trophy wending its way to Vancouver whence it was brought last fall.

Just who Manager Tommy Gifford will put on the line-up in place of his brother is yet unknown, and although there are several players all ready to jump into the game the star fielding display made by the younger Gifford will render Vancouver's chances in the opening game as very promising.

### PORT COQUITLAM BALL TEAM WILL HAVE BUSY WEEK END

Port Coquitlam, May 15.—Saturday and Sunday will be a busy day for Port Coquitlam baseball enthusiasts. On Saturday the team of this city will travel to North Vancouver to meet the aggregation representing that city in a B. C. baseball league scheduled game, while on Sunday they will play the Fraser Mills on the later's yard in another league feature.

Though they lost their game in the summer's series the boys are confident that they will make a much better showing the two coming fixtures. They have been training very hard for the events and are now about properly rounded into form. It is expected that a large contingent of fans of the city will accompany the team to North Vancouver on Saturday and Fraser Mills on Sunday.

An arrangement is at present pending between the regular city team and a scrub team of railroad men to play an exhibition game at an early date.

## UMPIRE FIRED AND BROWN SUSPENDED

**Vancouver Baseball Magnate Creates a Little Feature in Game at Seattle—Champs Win.**

NORTHWESTERN LEAGUE.
Standing of the Clubs.

| | W. | L. | Pct. |
|---|---|---|---|
| Seattle | 19 | 9 | 678 |
| Vancouver | 16 | 9 | 640 |
| Tacoma | 14 | 16 | .467 |
| Victoria | 12 | 17 | .413 |
| Spokane | 12 | 17 | .413 |
| Portland | 10 | 15 | .400 |

Seattle, May 14.—Seattle outhit Vancouver today and won the game five to three. The locals won the game in the fifth inning when with the score 2 to 2, two singles, a base on balls, wild pitch and an infield out netted Seattle two runs.

The exciting feature of the game came in the fourt hinning when Manager Brown, of Vancouver, and Umpire Eddinger engaged in a fight on the field after Brown had been ordered out of the game for talking from the bench. The fight was stopped by players before either contestant was hurt. After the game League President Fielder Jones, who was in the grandstand, announced that Eddinger would be discharged and that Brown would be indefinitely suspended and fined. The score:

| | R. | H. | E. |
|---|---|---|---|
| Seattle | 5 | 7 | 1 |
| Vancouver | 3 | 5 | 1 |

Batteries: Gipe and Cadman; Doty and Konnick.

**Bees Drop Another.**

Portland, Ore., May 15—Eastley got off to a bad start today in the game between Portland and Victoria, and was nearly batted out of the box. After that, however, he settled down and held the visitors within bounds. Furthermore he was of material assistance in Portland's half of the first inning in tieing the score.

Wilson was generally ineffective when hits meant runs. He was batted hard in the first and again in the fourth when Portland added four runs to their score.

| | R. | H. | E. |
|---|---|---|---|
| Victoria | 4 | 9 | 0 |
| Portland | 6 | 10 | 2 |

Batteries: Wilson and Meek; Eastley and Murray.

**Watch Tacoma Climb.**

Tacoma, May 15.—A double by Burrell, a single by Neighbors, errors by Altman and Wagner with a double steal sandwiched in in the ninth inning, gave Tacoma two runs today and a victory over Spokane.

| | R. | H. | E |
|---|---|---|---|
| Spokane | 1 | 4 | 4 |
| Tacoma | 2 | 4 | 3 |

Batteries: Kraft and Ostdiek; Kaufman and Harris.

| St. Louis | 12 | 18 | .400 |
| Detroit | 9 | 19 | .321 |
| New York | 7 | 18 | .280 |

Yesterday's Games.

**Frank Chance in Chicago.**

Chicago, May 15.—Frank Chance, erstwhile "Peerless Leader" of the local National league club, returned to Chicago today as manager of the New York American league club, and opened a four game series by losing to Chicago 2 to 3.

The game was a pitchers' battle between Scott and Schulz, with the former having a shade the better of the argument. Schulz's wildness coupled with daring base running and Sweeney's error, enabled the locals to make three runs. Scott's only pass coupled with a single gave New York their first run and Chase's triple and Midkiff's double gave them their other run, in a ninth inning rally.

The New York team was warmly greeted when it took the field today, and the friends of Chance cheered the team repeatedly.

| | R. | H. | E. |
|---|---|---|---|
| New York | 2 | 7 | 3 |
| Chicago | 3 | 5 | 1 |

Batteries: Schultz and Sweeney; Scott and Schalk.

**World's Champs Run Amuck.**

St. Louis, May 15.—Boston batted Weilman and Adams all over the ball yard today, winning from St. Louis 15 to 4. Joe Wood was unsteady, passing seven men. Boston scored four runs in the second on a double, a sacrifice, a passed ball, triples by Wagner and Hooper and two singles. In the third Boston made three more runs.

In the sixth a base on balls, a single and Yerkes' home run counted three runs for the visitors.

Boston bunched five singles with a base on balls and an error in the ninth for five runs.

St. Louis scored three runs in the fourth on a double, an error, a wild pitch, a base on balls and a single. Pratt's single, a passed ball and Justin's single netted the locals their last run in the fifth.

| | R. | H. | E. |
|---|---|---|---|
| Boston | 15 | 16 | 2 |
| St. Louis | 4 | 5 | 2 |

Batteries: Wood and Nunamaker; Weilman, Adams, Agnew and Crossen.

**Naps Beat Athletics.**

Cleveland, May 15.—In the first appearance here this season, the Philadelphia club lost today's game 2 to 0. Cy Falkenberg gained his seventh straight victory, allowing but three hits, one each to Murphy, Oldring and McInnis. McInnes hit a two bagger.

Plank was replaced in the third inning by Wyckoff after Cleveland had scored two runs in the first two innings. Wyckoff held Cleveland to one hit for the rest of the game, but was replaced by Bush, who pitched the eighth inning.

| | | | |
|---|---|---|---|
| Philadelphia | 0 | 3 | 1 |
| Cleveland | 2 | 5 | 2 |

Batteries: Plank, Wyckoff, Bush and Lapp; Falkenberg and Carisch.

NATIONAL LEAGUE.
Standing of the Clubs.

| | W. | L. | Pct. |
|---|---|---|---|
| Philadelphia | 15 | 7 | .681 |
| Brooklyn | 17 | 9 | .653 |
| St. Louis | 14 | 13 | .518 |
| Chicago | 15 | 14 | .517 |
| New York | 12 | 13 | .480 |
| Boston | 10 | 14 | .416 |
| Pittsburg | 11 | 17 | .392 |
| Cincinnati | 8 | 19 | .296 |

Yesterday's Games.

**Honus Wagner Back.**

New York, May 15.—Pittsburg, with Wagner's starring at the bat and in the field, won the first game of the series from New York today, 7 to 2. Demaree was knocked out of the box in two innings, the visitors scoring five on three pases, two singles, a double and a triple, aided by two errors by Murray and one by Meyers. Wiltse also was hit hard. The score:

| | R. | H. | E. |
|---|---|---|---|
| Pittsburg | 7 | 11 | 2 |
| New York | 2 | 7 | 1 |

Batteries: Robinson and Simmons; Demaree, Wiltse and Mayers and Hartley.

**George Johnson Again.**

Boston, May 15.—Cincinnati pounded Boston pitchers in every direction today, winning easily by the score of 11 to 5. Johnson held the locals to nine well scattered hits.

Marsans fell in attempting to get Connelly's long fly in the fourth inning, and injured his neck. He fainted, but revived and finished the inning. Almeida then took his place. Connelly's drive went for a home run.

The batting of Becker, Bates and Hoblitzell were features, Becker getting a hit and a run each of the times he faced a Boston twirler.

| | R. | H. | E. |
|---|---|---|---|
| Cincinnati | 11 | 19 | 1 |
| Boston | 5 | 9 | 3 |

Batteries: Johnson and Clarke; Hess, Dickson, Gervais, Strang and Whaling.

**Dodgers Just Win Out.**

Brooklyn, May 15.—Brooklyn took a hard fought game from St. Louis today 8 to 6. Both teams batted heavily, but the visitors threw away many runs by running wild on the bases.

In the fifth, St. Louis cut down the lead to two runs and in every inning afterward, except the sixth and ninth, came within one run of tieing the score.

Brooklyn, just as regularly as the visitors scored, also tallied a run to maintain their two run margin. Rucker was called to the rescue of Ragon in the eighth, and Sallee relieved Perritt in the same inning.

| | R. | H. | E |
|---|---|---|---|
| St. Louis | 6 | 14 | 0 |
| Brooklyn | 8 | 15 | 1 |

Batteries: Steele, Perritt, Sallee and Wingo and McLean; Ragon, Rucker and Miller.

At Philadelphia (10 innings)—

| | R. | H. | E. |
|---|---|---|---|
| Chicago | 5 | 10 | 4 |
| Philadelphia | 6 | 13 | 0 |

Batteries: Overall and Archer; Alexander, Rixey, Brennan, Seaton and Killifer.

## SPORT CHATTER.

(By the Potter.)

The pros. began to mix it in real earnest at the work out last evening. With the defence and home playing against each other, the contest became strenuous at times. Leo Gregory getting a nasty crack over the nose when checking Doughy Spring, while the latter did not emerge unmarked from the fray.

The opening game of the City baseball league has been put over until next week when the Moose and Canadians will probably lock horns.

Efforts were made yesterday to have the B. C. A. A. U. meeting which is scheduled for this evening, put over until next week, as the date clashed with the soccer smoker to be held in the Colonial hotel tonight. Just why the magnates who control the amateur sport in this city do not take kindly to such suggestions remains a mystery to many of the fans.

It should be some battle at Fraser Mills on Sunday afternoon when Coquitlam and the Circle F. nine lock horns in an inter-city league fixture. The new diamond laid out by the officials of the Canadian Western Lumber company is about completed and holds its own with anything in the line of baseball on the lower mainland, with perhaps the exception of the park owned by Bob Brown in Vancouver.

Fred Lynch and George Tuck will be the officials in the Victoria-Vancouver amateur game at Athletic Park, Vancouver on Saturday afternoon. This marks the opener of the coast lacrosse season of 1913 with the Mann cup-holders having a slight lead in the betting.

### BIG SOCCER DINNER.

**Association Devotees Will Live High Tonight.**

The soccer event of the season outside the playing patch, will be staged in the Colonial hotel dining room this evening when all the teams of the city will combine to pull off the second annual smoker of Westminster soccer.

All the teams of the city, the Rovers included, have been working hard towards this event and there are bright prospects of their being a large crowd on deck.

The committee in charge have spent considerable time during the past two weeks perfecting the arrangements and, with the commissiary department working full blast, assisted by the musical committee, who have lined up every male singer of note in the city, there will be something doing in the way of jollification.

The invtation is extended to any person who takes an interest in the great old winter game of association football and those who have not been seen personally are cordially invited to be right on the job when President Herb Ryall yells out "Order, gentlemen."

This is to be no benefit affair, but is gotten up to cement the good feelings that have existed during the past winter and outline what can be expected for the season of 1913-14.

The consideration will just about cover expenses.

## WEST END TRIMS SUBURBAN BOYS

**East Burnaby Has no Chance with the Brigade in Green Shirts Last Night.**

Standing of the Teams.

| | W. | L. | Goals F. | Goals A. |
|---|---|---|---|---|
| West Ends | 1 | 0 | 12 | 3 |
| Sapperton | 1 | 0 | 5 | 1 |
| East Burnaby | 0 | 2 | 4 | 17 |

Hopelessly beaten from pillar to post, the East Burnaby team in the intermediate lacrosse league suffered a bad licking last evening at the hands of the West Ends, who ran away with the contest to the tune of 12 goals to 3.

At no time during the four quarters were the suburbanites in the running, with the exception of a sporadic spurt in the closing stages, when they scored two pretty goals.

The West Ends were a surprise to the fans present and will undoubtedly give a close battle to the Sappertons before the season is over. The green shirts are strong on the home and defence, the players apparently knowing each other and what to expect at the right moment.

The shake-up in the East Burnaby line did not improve the team work and unless Manager McMurphy signs up several new players and drills his present roster into better condition, the fans are of the belief that they stand little show of holding their own against Sapperton or the West Ends.

The West Ends started the ball rolling by scoring three goals followed by one for East Burnaby by Savers.

Five more goals were secured by the green shirts before Sandy Gray blew his toot for half time. The third quarter was a repetition of the former quarters, the West Ends scoring three more, all from the stick of Storme, while Murray added the twelfth in the opening of the last quarter. Dawe and Feedham managed to score one goal each in the closing stages, leaving the score 12 to 3.

A good crowd attended the evening session, the covered stand being well filled during the progress of a rain storm which had no effect on the play.

Sapperton meet the West Ends on Thursday, May 29. The goal scorers in last night's game were: West Ends, Murray 6, Storme 3, Battson 1, L. Sangster 1, Huff 1; East Burnaby, Dawe, Sayers and Feedham one each.

**Cricketers Over the Inlet.**

The New Westminster cricket eleven will invade North Vancouver on Saturday afternoon, when a friendly game will be staged with the aggregation comprising the new team of the Ambitious City.

The win over Cedar Cottage on Saturday last is regarded as a good omen by the local knights of the willow and, with no dearth of available material turning out to practice on Tuesdays and Thursdays, a strong line-up will be placed in the field when the Vancouver and District league matches commence.

The players on Saturday will leave on the 12:45 car for Vancouver.

## SPORTOGRAPHY.

(By "Gravy.")

**Husk Chance Was a Hero in Playing for the Cubs.**

Windy City fans do well to honor Frank Chance by setting aside a special holiday, scheduled for tomorrow, that will be about the most gorgeous event of its kind ever pulled off in the city made famous by Pop Anson, Old Roman Comiskey—and Husk Chance. If ever a baseball player was a hero, said hero was Frank Chance in a Cub uniform.

In fulfilling Chicago's motto, "I Will," Husk took more risks than many a soldier in battle. He suffered more accidents than any other man in the game, all due to his determination to win. In his early days with the Cubs he had a way of anchoring himself to the plate which made it practically impossible to dodge a fast inshoot, and on one occasion this batting bravery sent him to a hospital with a badly damaged oranium.

Fingers, feet, arms, legs—all of these members bear scars of battle, acquired in the service of the Cubs. He pilfered bases like a mad man, and was often a mass of bruises from head to feet, caused by sliding into stations head or feet first, as seemed most desirable.

It was this absolute determination to win, regardless, that fired the Cubs to a fury of achievement, and transformed the Chicago team into a pennant winning aggregation that would not be denied. The bow-legged warrior who was the general of the Breezetown Bearcats is entitled to all the applause that Chicago has on tap.

Twenty years ago today Wilkesbarre and Springfield, Mass., then in the Eastern league, pulled off one of the queerest contests in the baseball record books. In the very first inning the Pennsylvanians chalked up ten runs, which would seem to have made them a safe betting proposition.

With the game thus apparently refrigerated, however, the Wilkesbarre team lost in the end and was beaten by Springfield 16 to 13. Another interesting game was pulled off in the Pacific Northwest league 22 years ago today, when Seattle and Tacoma played 22 innings. Donahue twirled the entire session for Tacoma and finally won, 6 to 5, while Seattle used two pitchers, Keenan and O'Neill.

This record was broken later in the same year when Grand Forks and Fargo, N.D., played 25 chapters to a 0-0 tie. This record stood until 1909, when Bloomington and Decatur, Ill., played their celebrated 26 inning game.

**Changes His Mind.**

Saskatoon, May 15.—R. W. Shannon, who has acted as city solicitor ever since such an official was appointed in Saskatoon, and who turned in his resignation in April to take effect the first of May, has reconsidered and will continue to hold down the position.

Amateur Night Friday

## At the Theatres

**AT THE ROYAL.**

The show at the Royal theatre last night was enjoyed by every one present. The big feature is the Gerat Buckner who presents an exciting cycle act in a new and novel manner. His act is put together wonderfully and the apparatus he carries represents a large investment and weighs a ton, so it is figured Manager Gillis is paying a large sum for this attraction. Rayton and DeVoy are a lady and gentleman who sing, dance and also play a little on the piano. To say the least, it is one of the classiest and most refined singing and dancing turns ever seen at the Royal. Pete Murphy, the good, old "stand-by," is with us again. He sang a late popular Irish number which brought forth rounds of applause. The moving pictures were excellent, one reel showing the Montreal fire department in action, was very interesting.

**"IS MARRIAGE A FAILURE?"**

After an absence of two nights the Vin Moore Stock company will be seen again at the opera house this evening, when they will put on one of their famous comedies entitled, "Is Marriage a Failure?" This has had a successful New York run and is all about the troubles of a home. Those theatregoers who miss seeing this production will pass up something that is first-class. The same bill will be played on Saturday evening, with a special children's matinee on Saturday afternoon.

**Della Clarke in "Introduce Me."**

The next road show that will be seen at the local opera house will be here next Thursday evening, when that famous star and author, Miss Della Clarke, will be seen with a first class company in a play entitled "Introduce Me." The last time Miss Clarke was seen here, last year, was in "The White Squaw." Miss Clarke is not only the star in this production that is coming next week, but she is also the author. The seat sale for this show goes on next Monday morning at the box office at Tidy, the florist's.

# LINKING PORT MANN TO THE DRY BELT

Nineteen Steel Bridges of Varying Lengths in 243 Miles of New Transcontinental.

Kamloops, May 15.—An inspection of grading done by the C. N. R. between Port Mann and Kamloops has just been completed, and according to authoritative statement given out it is expected that over this part of the road the company will be able to equal the time of the C. P. R. and it is thought that even better time can be made.

In the 243 miles of the C. N. R. road between these two towns there will be nineteen steel bridges from 70 to 981 feet in length. The tracklaying and bridge construction over this line, according to a leading official of the engineering department, will be completed by the end of next December.

In regard to the bridges which are being built by the C. N. R. on their line east of Kamloops, one of them is 809 feet long across the Niagara river.

Gangs are now working both east and west of Kamloops. Only a sixty-mile gap separates them, and there is not much difficult work to be accomplished inthat distance. It will take nearly all the year of 1913 to complete it. Eighty-nine per cent. of the road through the mountains has now been completed.

# HIGH SCHOOLS COSTLY THERE

Startling Figures in Toronto—$690 Per Pupil is Bill in One Institution.

Toronto, May 15.—That in one high school of the city it is costing $690 per year to teach and provide accomodation for each upper school pupil, and in that in all but one or two collegiates this cost exceeds $100, was the statement made by Trustee Fairbairn at the meeting of the management committee of the board of education the other day. Mr. Fairbairn, in advocating the centralization of matriculation students in one or two institutions, produced statistics to prove the economy of such a move, and his figures showed that the cost of providing for each pupil in the upper school per year was: In Malvern high school, $690; in North Toronto, $320; in Riverdale collegiate, $190; in Oakwood, $167; in Humberside, $153, and at Harbord, $140. The average cost for pupils of all grades was the lowest at Riverdale, where it stood at $69.

IMPROVEMENTS PLANNED FOR VICTORIA SALOONS

Victoria, May 15.—Another improvement in the saloons of Victoria is foreshadowed in an application which W. Ridgway Wilson has made to the city authorities in connection with the Bank Exchange, a well known house at the corner of Langley street and Yates street.

Mr. Wilson will consult with the board of supervisors with regard to altering the premises to conform with the licensing act, which abolishes saloons after the beginning of next year.

Several other licensed houses of this character have already applied for permission to rebuild for purposes of improvement, and to qualify in order to obtain hotel licenses.

# NORTHLAND AWAKING TO CALL OF SPRING

Yukon River Opening Up—Dredges Running Full Capacity—Camps Hum With Activity.

Dawson, May 15.—The Yukon river opened up at Dawson at 5 o'clock Wednesday afternoon, and it is expected that the waterway will be clear from Labarge down within a week, when the first steamers wintering here will start for Fairbanks for fresh supplies.

Summer activity has been renewed everywhere in the Klondike camps. There is plenty of labor available.

All the dredges in the district are now runing in full blast. The season has been very backward and the hydraulics are just starting.

Snow has scarcely started to leave the high hills and valleys.

Gold is now coming in from the creeks very plentifully and first shipments to the coast will be made as soon as the river opens sufficiently to permit navigation.

Bill McPhee, a pioneer of the district, was found dead this morning, while Mrs. Charles Redmond and Mrs. Dan Cronin died within the last few days.

The Sidestreams Navigation company today officially advertised a cut in the rates of passenger fares between Dawson and Whitehorse. This will reduce the rates 50 per cent from the tariff of last year.

Expect Bumper Fruit Crop.

Victoria, May 15.—Attending the executive meeting of the board of horticulture, C. F. McHardy is in the city from Nelson, accompanied by Mrs. McHardy. He states that the season, while somewhat late in the Kootenays, promises a successful crop and that the fruitgrowers of the interior are looking forward to a good year. After a somewhat strenuous period with school troubles and other domestic issues, Nelson is enjoying a prosperous time, he says, and business is looking up well.

# TRAPPERS HARD ON WANING INDUSTRY

Hudson's Bay Man Complains of Treatment of Fur—Taking Business

Edmonton, May 15—Ernest B. Flemming, who was stationed in Northern Alberta for six years as representative of the Hudson's Bay Company, said in an interview in Edmonton that while the fur industry in the north is not dying out, there are some trappers who have no consideration for those who come after them.

"Naturally," he added, "the animals are being driven further north. Civilization is creeping towards them and their haunts are rapidly being settled by farmers.

"In the north the Hudson's Bay Company continues to barter and trade with the redskins and trappers, and last year's catch of furs has been estimated at millions of dollars. The silver fox continues to be the most valuable pelt but on the smaller animals there is always a good profit, and the forts are kept busy all the year round. The furs are trailed south to the Landing and shipped direct to London, England. It may not be generally known, but none of the fur taken by the Hudson's Bay Company is placed on local markets, all being shipped to London."

# GRAND FORKS GETS AID OF TELESCOPES

Decision of Forest Department to String Wires to Lynch Creek Immediately.

Grand Forks, May 15.—News was received in the city this week from Victoria that the forest department has decided upon the immediate construction of a telephone line from Grand Forks to Lynch creek, twenty miles up the north fork of Kettle river.

It is stated that orders have been placed for poles and other necessary material and that construction will be under way in a short time.

The necessity of telephone communication into the north fork district has been urged for some time by fire wardens and those interested in lumbering in the district. The matter was again taken up this spring by local representatives of the forest department and the Western Pine Lumber Co., with the result that a new line will be built at once.

Besides being of great assistance for the fire wardens to keep in touch with the district covered, which has been isolated in the past, the new telephone line will undoubtedly prove an important acquisition to the region to the north, where in the past lack of such communication has been keenly felt.

# ENGLAND PUTS END TO OPIUM TRAFFIC

Trade in Poppy Dope Between India and China is Practically Dead.

London, May 15.—We are at last within sight of the end of the pernicious opium traffic.

Sir Samuel Montague, representing the Indian office, has told the house of commons that not one ounce of the poppy would be exported during the current year. This means that at last the opium trade between India and China is practically dead, and thus a great blow has been struck at a great evil, weighing down the nation that is now making heroic efforts to rise to western ideals.

Lord Roberts has signally failed in his campaign to work up enthusiasm in favor of conscription.

The country is as convinced as ever that conscription is not only unnecessary to the safety of the empire, but harmful to the best and truest interests of o liberty-loving people.

Body Recovered.

"SEWERS DEBENTURE BY-LAW, 1913."

By-Law No....

A By-law to enable the Municipal Council of the Corporation of the City of New Westminster to raise by loan the sum of One Hundred and Fifty Thousand Dollars ($150,000.00) for the purpose of constructing sewers.

WHEREAS on or about the Thirtieth day of January, 1913, an agreement was made between The Corporation of the District of Burnaby of the first part and The Corporation of the City of New Westminster of the second part, which agreement is in the words and figures following, that is to say:—

THIS AGREEMENT made in duplicate the Thirtieth day of January One Thousand Nine Hundred and Thirteen.

BETWEEN:

THE CORPORATION OF THE DISTRICT OF BURNABY,

of the FIRST PART;

AND

THE CORPORATION OF THE CITY OF NEW WESTMINSTER,

of the SECOND PART:

WHEREAS the parties hereto have agreed upon a joint sewerage scheme to provide sewerage accommodation for both Municipalities for the area shown upon the plan hereto annexed.

AND WHEREAS the Party of the Second Part has agreed to construct the said sewer from the Fraser River to Tenth Avenue as shown upon the said plan and to make the sewer of a size sufficient to accommodate the sewerage requirements of the section of Burnaby shown on the said plan.

AND WHEREAS the acreage of Burnaby that will be benefitted by the said sewer amounts to Six Hundred and Eighty-three (683) acres and the acreage of the City of New Westminster that will be benefitted by the said sewer amounts to Five Hundred and Sixty-four (564) acres.

AND WHEREAS the Party of the Second Part has agreed to pay the cost of the construction of the said sewer from the Fraser River to Tenth Avenue as shown upon the said plan which cost is estimated at Three Hundred and Twenty-six Thousand Dollars ($326,000.00) less Fifty-five Thousand Dollars ($55,000.00) the value of Government labor.

AND WHEREAS the Party of the First Part has agreed to pay to the Party of the Second Part Fifty-five per cent. (55 per cent) of the cost of the said sewer (the share however of the Party of the First Part not to exceed the sum of One Hundred and Fifty Thousand Dollars ($150,000.00) in thirty yearly payments that will be sufficient to pay the interest and sinking fund on the share of the Party of the First Part of the cost of the said sewer calculated upon the basis of thirty (30) years with interest at five (5) per cent. half yearly.

AND WHEREAS the Party of the First Part has agreed to pay to the Party of the Second Part fifty-five per cent. (55 per cent.) of the cost of maintenance of the said sewer.

NOW THESE PRESENTS WITNESS that the Party of the Second Part covenants and agrees with the Party of the First Part its successors and assigns that the Party of the Second Part will within four (4) months commence and prosecute to completion and have completed on or before the first day of January, 1915, (unless prevented by strikes or other causes) a sewer from a point on the Fraser River to a point on Tenth Avenue of the location approximately as shown on the plan hereto annexed, such sewer to be constructed of concrete pipes of a diameter of not less than fifty-four (54) inches at Tenth Avenue and Sixth Street.

AND the Party of the Second Part will construct lateral sewers from the said main sewer running from the main sewer to Tenth Avenue aforesaid as shown on said plan.

THE Party of the First Part its successors and assigns shall have the right to connect its drainage and sewerage on the area of Six Hundred and Eighty-three (683) acres as shown on the said plan with the said sewer and to drain into the said sewer surface water and ordinary sewerage and to use the said sewer both as a sanitary and storm sewer.

AND if it is found that the said sewer will provide sufficient fall to take sewerage from outside the boundaries of the said Six Hundred and Eighty-three (683) acres as shown upon the said plan the Party of the First Part may with the consent of the Engineer of the Party of the Second part extend its sewerage works outside the said area.

THE Party of the Second Part covenants with the Party of the First Part that the said Main Sewer constructed by the Party of the Second Part and Sewers constructed by the Party of the First Part to connect with the said Main Sewer shall be constructed under the joint supervision and to the mutual satisfaction of the Engineers of the Party of the First Part and of the Party of the Second Part.

THE Party of the First Part covenants with the Party of the Second Part its successors and assigns that the Party of the First Part will pay to the Party of the Second Part its successors and assigns after completion of the said sewer from Fraser River to Tenth Avenue fifty-five per cent. (55 per cent.) of the cost of the said sewer (the said fifty-five per cent. (55 per cent.) however not to exceed the sum of One Hundred and Fifty Thousand Dollars ($150,000.00) and such payments to be made in half yearly payments on the Thirtieth days of June and December in each year as will provide a sinking fund for payment of said sum in thirty (30) years with interest at five (5) per cent. half yearly.

AND the Party of the First Part covenants with the Party of the Second Part that the Party of the First Part will pay to the Party of the Second Part fifty-five per cent. (55 per cent) of the cost of maintenance of the said main sewer such payments to be made yearly on the Thirtieth day of December in each year.

IN WITNESS WHEREOF the parties hereto have caused their Corporate Seals to be hereunto affixed.

"D. C. McGREGOR."

(SEAL) Deputy Reeve.

"ARTHUR G. MOORE." Clerk.

"A. W. GRAY," Mayor.

(SEAL)

"W. A. DUNCAN." Clerk.

AND WHEREAS in addition to the amount which it is proposed to assess as a local improvement against such property in the City of New Westminster as will be immediately benefitted by the said work it will be necessary to provide for the payment of the sum of One Hundred and Fifty Thousand Dollars ($150,000.00) to carry out the work mentioned in the said hereinbefore recited agreement.

AND WHEREAS it appears that if the said sum of $150,000.00 be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided and the said sum should be raised on the credit of the Corporation and that debentures should be issued for that amount.

AND WHEREAS for the payment of interest on the debentures proposed to be issued under this By-law and for creating a sinking fund for the payment of the said debentures when due it will be necessary to raise by special rate in addition to all other rates each year during the currency of the said debentures the sum of Ten Thousand Six Hundred and Fifty-three Dollars ($10,653.00).

AND WHEREAS in order to raise the said yearly sum of $10,653.00 an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

AND WHEREAS the whole rateable property of the said City according to the last revised Assessment Roll thereof is Seventeen Million One Hundred and Fifty-seven Thousand Nine Hundred and Forty Dollars ($17,157,940.00).

AND WHEREAS the total amount of the existing debentures debt of the said City is Four Million Thirty-eight Thousand Five Hundred Dollars ($4,038,500.00) Irrespective of the sums proposed to be raised under this By-law and the "Streets Improvement Debenture By-law 1913," "Waterworks Extension Debenture By-law 1913," "Fire Halls Debenture By-law 1913," "Exhibition Buildings and Fences Debenture By-law 1913," "Public Schools Debenture By-law 1913," "City Stables Debenture By-law 1913" and "Light Extension Debenture By-law 1913," of which none of the principal or interest is in arrears.

NOW THEREFORE the Municipal Council of the Corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the Mayor of the said City to raise by way of loan from *any person or persons body or bodies corporate* who may be willing to advance the same on the credit of the debentures hereinafter mentioned any sum or sums of money not exceeding in the whole the sum of $150,000.00 and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made not exceeding in the whole the sum of $150,000.00 for such sums of money as may be required, not less than $100.00 *each or an equivalent expressed in pounds* sterling of the United Kingdom of Great Britain and Ireland at a value of $4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debenture shall be payable on the first day of July, 1943, at such place or places as the Council of the said Corporation may from time to time appoint *with the approval of the holders* thereof and shall bear interest at the rate of Five per centum per annum payable half yearly on the first day of January and the first day of July in each and every year and the debentures shall have attached to them coupons for the payment of interest which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year in addition to all other rates on all the rateable property in the City sufficient to pay *the interest upon the debentures and to* create a sinking fund for the payment of the principal thereof when due, subject to *any* act or enactment respecting the same.

5. Subject as aforesaid there shall be raised annually by special rate as aforesaid during the currency of the said debentures the sum of Seventy-five Hundred Dollars ($7,500.00) for the payment of interest thereon and the sum of Three Thousand One Hundred and Fifty-three Dollars ($3,153.00) to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows and *not otherwise*,—Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to and all expenses connected with the issuance of the said loan and the balance shall be paid over from time to time as required by the City Treasurer to the several persons to whom moneys are payable.

7. This By-law shall take effect on the first day of June, 1913, and may be cited as the "Sewers Debenture By-law 1913."

8. This By-law before the final passing thereof shall receive the assent of the Electors of the said City in the manner required by law.

DONE AND PASSED in Open Council on the 5th day of May, 1913.

RECEIVED the assent of the Electors on the day of 1913.

RECONSIDERED and finally passed the day of 1913.

..... .....
City Clerk. Mayor.

TAKE NOTICE that the above is a true copy of the proposed By-law upon which the vote of the Municipality will be taken on the 20th day of May, 1913, between the hours of Nine o'clock a. m. and Seven o'clock p. m. at the following places, viz.:

"EXHIBITION BUILDINGS AND FENCES DEBENTURE BY-LAW, 1913."

By-Law No....

A By-law to enable the Municipal Council of the Corporation of the City of New Westminster to raise by loan the sum of Twenty-five Thousand Dollars ($25,000.00) for the purpose of improving the Exhibition Buildings and Fences at Queen's Park in the City of New Westminster.

WHEREAS it is necessary to provide for the construction, removal and repairs of Exhibition Buildings at Queen's Park in the City of New Westminster and the construction of fences at the said Park at a cost of Twenty-five Thousand Dollars ($25,000.00).

AND WHEREAS it appears that if the said sum of Twenty-five Thousand Dollars ($25,000.00) be appropriated from the general revenue of the City for the current year, the rate of taxation will be excessive and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation and that debentures should be issued for that amount.

AND WHEREAS a petition signed by the owners of at least one-tenth of the value of real property in the said City (as shown by the last revised Assessment Roll) has been presented to the Council requesting them to introduce a By-law for such purpose.

AND WHEREAS for the payment of interest on the debentures proposed to be issued under this By-law and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rate in addition to all other rates each year during the currency of the said debentures the sum of One Thousand Seven Hundred and Seventy-five and 50-100 Dollars ($1,775.50).

AND WHEREAS in order to raise the said yearly sum of One Thousand Seven Hundred and Seventy-five and 50-100 Dollars ($1,775.50) an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

AND WHEREAS the whole rateable property of the said City according to the last revised Assessment Roll thereof is Seventeen Million One Hundred and Fifty-seven Thousand Nine Hundred and Forty Dollars ($17,157,940.00).

AND WHEREAS the total amount of the existing debenture debt of the said City is Four Million Thirty-eight Thousand and Five Hundred Dollars ($4,038,500.00) irrespective of the sums proposed to be raised under this By-law and the "Streets Improvement Debenture By-law 1913," "Waterworks Extension Debenture By-law 1913," "Fire Halls Debenture By-law 1913," "Light Extension Debenture By-law 1913," "Public Schools Debenture By-law 1913," "City Stables Debenture By-law 1913" and "Sewers Debenture By-law 1913," of which none of the principal or interest is in arrears.

NOW THEREFORE the Municipal Council of the Corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures hereinafter mentioned, any sum or sums of money not exceeding in the whole the sum of Twenty-five Thousand Dollars ($25,000.00) for such sums of money as may be required not less than $100.00 each or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of $4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof or by such other person or persons as may be thereunto lawfully authorized.

2. The said debentures shall be payable on the first day of July, 1943, at such place or places as the Council of the said Corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of five per centum per annum payable half-yearly on the first day of January and the first day of July in each and every year and the debentures shall have attached to them coupons for the payment of interest which said coupons shall be signed by the said Mayor.

3. A special rate on the dollar shall be levied and raised in each year in addition to all other rates on all the rateable property in the City sufficient to pay the interest upon the debentures and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

4. Subject as aforesaid there shall be raised annually by special rate as aforesaid during the currency of the said debentures the sum of One Thousand Two Hundred and Fifty Dollars ($1,250.00) for the payment of interest thereon and the sum of Five Hundred and Twenty-five and 50-100 Dollars ($525.50) to provide for the repayment of the principal.

5. The proceeds of the sale of the said debentures shall be applied as follows and not otherwise,—Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to and all expenses connected with the issuance of the said loan and the balance shall be paid over from time to time as required by the City Treasurer to the several persons to whom moneys are payable.

6. This By-law shall take effect on the first day of June, 1913, and may be cited as the "Exhibition Buildings and Fences Debenture By-law 1913."

7. This By-law before the final passing thereof shall receive the assent of the electors of the said City in the manner required by law.

DONE AND PASSED in Open Council the 5th day of May, 1913.

RECEIVED the assent of the Electors on the day of 1913.

RECONSIDERED AND FINALLY PASSED the day of 1913.

"FIRE HALLS DEBENTURE BY-LAW, 1913."

By-Law No....

A By-law to enable the Municipal Council of the Corporation of the City of New Westminster to raise by loan the sum of Twenty-five Thousand Dollars ($25,000.00) for the purpose of erecting Fire Halls at Sapperton and Queensborough and purchasing apparatus therefor.

WHEREAS it is necessary to provide for erecting fire halls at Sapperton and Queensborough in the City of New Westminster and for purchasing apparatus therefor at a cost of Twenty-five Thousand Dollars ($25,000.00).

AND WHEREAS it appears that if the said sum of Twenty-five Thousand Dollars ($25,000.00) be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive and it is expedient that such excessive taxation should be avoided and the said sum should be raised on the credit of the Corporation and that debentures should be issued for that amount.

AND WHEREAS a petition signed by the owners of at least one tenth of the value of real property in the said City (as shown by the last revised Assessment Roll) has been presented to the Council, requesting them to introduce a By-law for such purpose.

AND WHEREAS for the payment of interest on the debentures proposed to be issued under this By-law and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rate in addition to all other rates each year during the currency of the said debentures the sum of One Thousand Seven Hundred and Seventy-five and 50-100 Dollars ($1,775.50).

AND WHEREAS in order to raise the said yearly sum of One Thousand Seven Hundred and Seventy-five and 50-100 Dollars ($1,775.50) an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

AND WHEREAS the whole rateable property of the said City according to the last revised Assessment Roll thereof is Seventeen Million One Hundred and Fifty-seven Thousand Nine Hundred and Forty Dollars ($17,157,940.00).

AND WHEREAS the total amount of the existing debenture debt of the said City is Four Million Thirty-eight Thousand and Five Hundred Dollars ($4,038,500.00) irrespective of the sums proposed to be raised under this By-law and the "Streets Improvement Debenture By-law 1913," "Waterworks Extension Debenture By-law 1913," "Fire Halls Debenture By-law 1913," "Light Extension Debenture By-law 1913," "Public Schools Debenture By-law 1913," "City Stables Debenture By-law 1913" and "Sewers Debenture By-law 1913," of which none of the principal or interest is in arrears.

NOW THEREFORE the Municipal Council of the Corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons body or bodies corporate, who may be willing to advance the same on the credit of the debentures hereinafter mentioned any sum or sums of money not exceeding in the whole the sum of Twenty-five Thousand Dollars ($25,000.00) for such sums of money as may be required not less than $100.00 each or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of $4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation, signed by the Mayor and countersigned by the Treasurer thereof or by such other person or persons as may be thereunto lawfully authorized.

2. The said debentures shall be payable on the first day of July, 1943, at such place or places as the Council of the said Corporation may from time to time appoint with the approval of the holders thereof, and shall bear interest at the rate of five per centum per annum payable half-yearly on the first day of January and the first day of July in each and every year and the debentures shall have attached to them coupons for the payment of interest which said coupons shall be signed by the said Mayor.

3. A special rate on the dollar shall be levied and raised in each year in addition to all other rates on all the rateable property in the City sufficient to pay the interest upon the debentures and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

4. Subject as aforesaid there shall be raised annually by special rate as aforesaid during the currency of the said debentures the sum of One Thousand Two Hundred and Fifty Dollars ($1,250.00) for the payment of interest thereon and the sum of Five Hundred and Twenty-five and 50-100 Dollars ($525.50) to provide for the repayment of the principal.

5. The proceeds of the sale of the said debentures shall be applied as follows and not otherwise,—Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to and all expenses connected with the issuance of the said loan and the balance shall be paid over from time to time as required by the City Treasurer to the several persons to whom moneys are payable.

6. This By-law shall take effect on the first day of June, 1913, and may be cited as the "Fire Halls Debenture By-law 1913."

7. This By-law before the final passing thereof shall receive the assent of the Electors of the said City in the manner required by law.

DONE AND PASSED in Open Council on the 5th day of May, 1913.

"STREETS IMPROVEMENT DEBENTURE BY-LAW, 1913."

By-Law No....

A By-law to enable the Municipal Council of the Corporation of the City of New Westminster to raise by way of loan the sum of Two Hundred Thousand Dollars ($200,000.00) for street purposes.

WHEREAS it is necessary and expedient that provision be made for the following purposes:—

(a) For clearing, grading and macadamizing streets generally.

(b) For constructing culverts, ditches, crossing, sidewalks, and any other works necessary in connection with same.

(c) For paying a proportion towards the cost of permanent improvements to streets, including paving, kerbing, facilities for lighting, storm sewers and any other works necessary in connection with same under Local Improvement By-laws.

(d) For paying a proportion towards the cost of constructing sanitary sewers under Local Improvement By-laws.

(e) For commuting the City's proportion of the Assessment for Local Improvements on City property fronting on streets where permanent improvements are made under Local Improvement By-laws.

(f) For the purchase of such plant and equipment as may be necessary for street improvement work and for maintenance, repair and cleaning streets.

AND WHEREAS for the purposes aforesaid the sum of Two Hundred Thousand Dollars ($200,000.00) will be required.

AND WHEREAS it appears that if the said sum of $200,000.00 be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided and the said sum should be raised on the credit of the Corporation and that debentures should be issued for that amount.

AND WHEREAS for the payment of interest on the debentures proposed to be issued under this By-law and for creating a sinking fund for the payment of the said debentures when due it will be necessary to raise by special rate in addition to all other rates each year during the currency of the said debentures the sum of Eleven Thousand Seven Hundred and Seventy-three and 10-100 Dollars ($11,773.10).

AND WHEREAS in order to raise the said yearly sum of $11,773.10 an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

AND WHEREAS the whole rateable property of the said City according to the last revised Assessment Roll thereof is Seventeen Million One Hundred and Fifty-seven Thousand Nine Hundred and Forty Dollars ($17,157,940.00).

AND WHEREAS the total amount of the existing debentures debt of the said City is Four Million Thirty-eight Thousand Five Hundred Dollars ($4,038,500.00) Irrespective of the sums proposed to be raised under this By-law and the "Waterworks Extension Debenture By-law 1913," "Fire Halls Debenture By-law 1913," "Exhibition Buildings and Fences Debenture By-law 1913," "Public Schools Debenture By-law 1913," "City Stables Debenture By-law 1913," "Sewers Debenture By-law 1913" and "Light Extension Debenture By-law 1913," of which none of the principal or interest is in arrears.

NOW THEREFORE the Municipal Council of the Corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons body or bodies corporate who may be willing to advance the same on the credit of the debentures hereinafter mentioned any sum or sums of money not exceeding in the whole the sum of $200,000.00 and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made not exceeding in the whole the sum of $200,000.00 for such sums of money as may be required, not less than $100.00 each or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland at a value of $4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorised.

3. The said debentures shall be payable on the first day of July, 1963, at such place or places as the Council of the said Corporation may from time to time appoint with the approval of the holders thereof and shall bear interest at the rate of five per centum per annum payable half yearly on the first day of January and the first day of July in each and every year and the debentures shall have attached to them coupons for the payment of interest which said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year in addition to all other rates on all the rateable property in the City sufficient to pay the interest upon the debentures and to create a sinking fund for the payment of the principal thereof when due, subject to any act or enactment respecting the same.

5. Subject as aforesaid there shall be raised annually by special rate as aforesaid during the currency of the said debentures the sum of Ten Thousand ($10,000.00) Dollars for the payment of interest thereon and the sum of One Thousand Seven Hundred and Seventy-three and 10-100 Dollars ($1,773.10) to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows and not otherwise,—Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to and all expenses connected with the issuance of the said loan and the balance shall be paid over from time to time as required by the City Treasurer to the several persons to whom moneys are payable.

7. This By-law shall take effect on the first day of June, 1913, and may be cited as the "Streets Improvement Debenture By-law 1913."

8. This By-law before the final passing thereof shall receive the assent of the Electors of the said City in the manner required by law.

DONE AND PASSED in Open Council on the 5th day of May, 1913.

RECEIVED the assent of the Electors on the day of 1913.

# LIVES OF MINERS SAFER IN EUROPE

Death Rate is Four Times Higher in States Than in Belgium—Work of Bureau.

Washington, May 15.—The first governmental recognition of the unnecessary waste of human life in American mining operations resulted in the organization of the United States Bureau of Mines, under a law approved by congress three years ago tomorrow.

Several experimental stations for studying the problems of mine safety were established. At the principal station the work in the laboratories on mine accident problems is supplemented by experiments conducted in a small coal mine under the conditions of actual mining.

The bureau also conducts an educational campaign in behalf of mine rescue and first aid to the injured work. As a result of the bureau's work it is expected that mining fatalities will gradually be reduced to the rate prevailing in European countries, where government has long inforced stricter regulations for the protection of life and limb.

The first English act for the regulation of mines was passed over half a century ago. A comparison for one year shows that, of every thousand miners employed, 4.70 were killed in the United States and 1.31 in England. In the same year 2.40 out of each thousand were killed in Prussia, 1.10 in France, 1.07 in Austria, and 1.03 in Belgium.

The last named country affords better protection to its miners than any other, the average for several years past being less than one killed for each thousand employed, while the average in the United States is about four.

# CASE OF WALKING TO MANITOBA POLL

Hardy Pioneers North of Winnipeg Think Nothing of 55 Mile Jaunt To Nearest Market.

Winnipeg, May 15.—Thomas H. Johnson, M. P. P. for West Winnipeg, who is "stumping" the provincial constituency of Gimli, in the interest of the Liberal candidate, tells a very interesting story illustrating the hardships new settlers even within a radius of 100 miles of Winnipeg have to contend with.

"I arrived at Inwood, a little, but flourishing, village, 15 miles northwest from Toulon on the famous 'Sand Pit Line' a few days ago," said Mr. Johnson, "and I confess to being a little tired after a long and tedious drive.

"I had not slept very much for three nights, so I was very sleepy, but neither had I anything to eat for about 12 hours, so I had to satisfy the demands made upon me by my stomach.

"Accordingly I went into the dining room and took a seat at a table at which were already seated an elderly couple. I told them who I was, and found out in return that they were Peter Berglund and his wife, Brynhild Peter is a Swede by birth while his wife is a Norwegian.

"To make a long story short, these people lived near Fisherton, a place situated about 55 miles north of Inwood. There is no railroad going into that sparsely settled country and as they themselves had no horses or even oxen, and there being no chance to get a 'lift' with any neighbor, they simply had to walk to Inwood if they wanted to reach Winnipeg and be able to get back again to their homestead in time to vote at the election next Monday.

"And this man and his wife, both being nearer 50 than 40, I think, had walked the 55 miles and sat there eating their supper as though nothing unusual had happened. 'My wife is, of course, a little tired,' said Berglund during our conversation, 'but then you see, she is not at all as strong as she used to be.

" 'She has been sickly of late and has had to undergo six operations, so it is not much wonder that she gets a little tired,' he said by way of explanation.

"I think this little episode will be of interest to people in the cities," concluded Mr. Johnson. "It is not anything very unusual in the everyday life of our frontier people. But it is just that kind of hardy men and women which will make our future Canada the great country it is destined to be.

## PINK AND WHITE DOWN IN NIAGARA BELT

St. Catherines, Ont., May 3.—The leading fruit growers in the Niagara district declare that prospects were never better for a bumper crop. The cool weather has kept back growth.

The peach orchards are all in pink and white blossom just now, and the growers say there is little likelihood of frost damage.

"We should have the biggest peach crop in our history this year," said one leading peach grower.

Two cases where persons left grips and parcels uncared for in the B. C. E. R. depot and these have disappeared during their absence have been reported to the police during the past few days. None of the articles taken away have been recovered.

Try the 15c and 35c summer lunches at the Nutshell, Room 3, Dominion Trust building. (1246)

Mr. John A. Lee, president of the board of trade, has accepted the invitation extended to him by the Vancouver Progress club to be the speaker at a banquet to be held in that city on June 21 next. "New Westminster and Its Development" will be the theme of Mr. Lee's address.

A Hardman, the cake man. Get good bread. Eighth Street Bakery. Telephone 231. (1205)

A small boy on a bicycle had a narrow escape about 3 o'clock yesterday afternoon, when he was nearly run over by an automobile. The auto swerved in the frog of the B.C.E.R. tracks near the depot, and had righted itself, when the boy crossed in front, on his wheel, the auto demolishing the bicycle, but leaving the boy uninjured.

"Summer Butterick Fashions" just arrived. A free pattern with every copy, 25c. W. S. Collister & Co. (1325)

Raymond sewing machine for sale, in first class order, only $15.00. C. N. Edmondson & Co., corner Sixth avenue and Twelfth street. (1275)

Yesterday saw the completion of the fitting up of a rest room in the Y. W. C. A. which is for the use of out of town women doing shopping in the city, especially on Fridays, market days. Practically all the rooms in the building are now fitted up and the committee are loud in their praise of citizens who aided both financially and personally. Yesterday noon about 24 girls sat down to the first luncheon served in the building, which is now planned to be a daily affair.

"Kingsway" flannelette sheets, the best at the price. W. S. Collister & Co. (1325)

Building material, cement, lime, hard plaster, gravel, sand, crushed rock, fuel oil and all kinds of towing. Apply the B. C. Transport Co., Ltd. Phone 826. Wharf phone 880. (1202)

The building committee of the city council met yesterday and took further evidence in regard to the condemnation of Mr. Speck's building on Front street, adjacent to the B. C. E. R. depot. The committee decided to refrain from taking further steps for a month to enable Mr. Speck to bring forward some alternative proposition to the demolition of the building, which will safeguard the property and contiguous structures. The building itself was condemned as a fire trap by Building Inspector Turnbull and Fire Chief Watson in a report to the city council.

See 25c window of curtainings, curtain poles, Turkish bath towels, etc., at W. S. Collister & Co's today. (1325)

Floridora for the hair, fragrant and effective, 35c. Frank Jeal, 1427 Seventh avenue. Telephone 339 City. Canvassers wanted, ladies or gentlemen. (1309)

All arrangements have been made for the banquet at the Royal cafe tonight to the mayors and reeves of the newly incorporated cities of Port Moody, Port Coquitlam, and the municipalities of Fraser Mills and Coquitlam. Mr. John A. Lee, president of the board of trade, will preside and the toasts of the new corporations will be responded to by the mayors and reeves of their respective constituencies. A large attendance of citizens is expected. The committee charged with the arrangements are Messrs. W. J. Kerr, D. S. Curtis and George Small.

Mr. A. M. Insley has opened up a rubber stamp business at Room 9 Guichon block, corner Columbia and McKenzie streets, where he is prepared to turn out anything in this line. Linen marking outfits a specialty 50c up. (1320)

A memorial service as a tribute to memory of the noted pioneer divine, Bishop Cridge, will be held in St. Paul's church, Royal avenue, on Sunday next, at 7 p.m. As the late venerable bishop had a large circle of admiring friends in New Westminster a large congregation is expected. The bishop's favorite hymns will be sung, and a special sermon will be preached by the rector. (1300)

Resumption of service on the Twelfth street line of the B. C. E. R between Tenth avenue and Edmonds is expected in the very near future. The tracks have been laid as far as Edmonds and the setting of a new line of poles on the south side of the track is all that is required to start the service.

### No Blame Attached.

A verdict of accidental death, with no blame attached to any person, was brought in by a coroner's jury convened last evening to hold an inquest over the body of Carmine Ciolli, the Italian who was killed in a gravel slide at Coquitlam on Wednesday morning. A rider, however, was attached, recommending that careful watch be kept on the work in rainy weather to prevent a recurrance. Several witnesses were examined by Coroner McQuarrie, the majority of whom were working at the gravel pit where Ciolli met his death.

## SOCIAL *and* PERSONAL

Mr. P. Bowler, city electrician, accompanied by Mrs. Kerfoot, his sister-in-law, left on Wednesday for Montreal and New York on an extended visit.

## WEDDING BELLS

### CUNNINGHAM-JOHNSTONE.

A pretty wedding of interest in New Westminster took place in Vancouver on Wednesday evening when Miss Jean Hazel Johnstone, daughter of Mr. and Mrs. W. A. Johnstone, Burnaby street, Vancouver, was united in marriage to Mr. Walter Maltby Cunningham, son of Mr. and Mrs. J. A. Cunningham, of Fifth street, this city.

Rev. Leslie Pidgeon performed the ceremony in St. John's church, which was prettily decorated with dogwood blossoms, lillies and spiraea.

Pretty little Miss Jeanie Nickerson preceded the bridal couple into the church.

The bride, who was given away by her father, looked charming in a gown of white brocaded crepe over white charmeuse embroidered with seed pearls. She wore as her only ornament a platinum chain and pendant set with diamonds, the gift of the bridegroom.

Miss Frankie Gillespie, the bridesmaid, wore a dainty gown of pearl grey chiffon over satin, with a large picture hat in black trimmed with ping feathers. Mr. W. Pottinger supported the groom. Mr. Milne, the church organist, played the wedding march. The ushers were Mr. R. W. Ellis and Mr. Kenmuir.

The groom's gift to the bridesmaid was a silver novelty chain; to the best man, a pearl stickpin; to the ushers cuff links, and to the little flower girl, a ring set with pearls.

After the ceremony the bridal patry and guests drove to the home of the bride's parents, where a reception was held. Mrs. Johnstone wore an exquisite gown of heliotrope satin trimmed with maltese lace. With it she wore a large picture hat, trimmed with plumes in soft corn colored shades. A buffet supper was served. Mrs George Taylor and Mrs. J. A. McAlpine presided over the table and Mrs. A. E. Lee cut the ices.

Mr. and Mrs. Cunningham left for a short trip and will spend the summer at Sunnyside. The bride travelled in a suit of toque cloth, with a becoming straw hat trimmed with French feathers.

### ALL POINT ONE WAY

Scows and Pile Drivers Being Built for Harbor Work.

The second scow built for the New Westminster harbor improvement works by Messrs. Stead, Rose and Parsons, Brunette mills, is receiving its finishing touches and will be launched today. The material for a third scow is on the ways and it will be commenced immediately.

Another firm, Messrs. Wilson and McKaine, Vancouver, who have also rented a portion of the Brunette mills property, are busy at the preliminaries of a pile driver for the harbor work.

## PORT COQUITLAM RIGHT ON JOB

(Continued from page one)

bridge, no accident of a serious nature has occurred.

### Everybody Happy.

Much general satisfaction is expressed at the passing of the money bylaws on Wednesday. The result is taken to indicate that the citizens hold great confidence in the future of Port Coquitlam and that they are heartily in accord with the progressive policy of Mayor Mars and his council.

His worship himself was particularly delighted at the passing of the measures, while surprise was expressed by President Seabrook of the board of trade that even so many as seven had shown objection to the water bylaw and 33 to the school bylaw.

Arrangements for the issuance of the debentures authorized by the ratepayers will probably be made at a special meeting of the council to be held tomorrow.

### Getting Into Line.

A movement is on foot here to have the business men of the city join the Vancouver Progress club. A number of citizens already are members of that organization and they are inducing others to join. The matter was brought up at the last meeting of the board of trade, when it was urged by President Seabrook and others that as many as possible become members of the Vancouver organization.

### Rushing Shipbuilding.

Despite the fact that the yards are being operated shorthanded, progress is being made on the steam auxiliary sailing craft at present under construction at the plant of the Coquitlam Shipbuilding company. The wooden keel has already been laid and work has been started on the stern portion of the frame. A model of the big ship, which, when completed, will be the largest ever constructed on the lower mainland of British Columbia, has been placed in the exhibition rooms of the Progress club, Vancouver.

### Killing No Murder.

Kamloops, May 15.—The trial here yesterday of James Murno Teaff, who was charged with murder at Tete Jaune Cache in November resulted in an acquittal. The evidence showed that Julius Landree, the man Teaff was accused of killing, was a bad man of herculean build, who had treated other men with great violence and had broken the jaw of one witness. Teaff declared that he had acted in self defence. When the foreman of the jury announced that a verdict of not guilty had been reached there was a burst of applause in the court room. Chief Justice Hunter said he agreed with the findings of the jury.

### SAPPERTON

A public meeting is called for Friday, May 16, at 8 o'clock p.m., at the People's Trust rooms, Welsh block, Sapperton, for the purpose of forming what may be termed the Sapperton Ratepayers' Association.

This association is being formed for the discussion of civic affairs in general, Sapperton in particular. All ratepayers are cordially invited.

## TOO LATE TO CLASSIFY

Graphophones and Grafonolas are without a peer in the musical world. They are capable of reproducing not merely one class of instrumental music, but every class of instrumental music with a fidelity that is no less than flawless—the violin, the 'cello, the harp, the flute, the clarinet, the cornet—all the wind instruments, all the instruments of bands and orchestras—all the instrumental music of all the world.

Not only this, but the human voice is now so perfectly recorded and so flawlessly reproduced that the home without a COLUMBIA has become as incomplete as a piano without a keyboard. "HEARING IS BELIEVING."
