CIVIC COMMITTEE WILL GO ON HUNT FOR ELECTROLYSIS

Ald. Howay Moves to Protect City Property From Possible Injury by Electric Currents—Chief Watson Directs Attention to a Standing Danger.

With a laudable desire to protect the city property from any possible injury, Ald. Howay made a motion at the meeting of the city council last evening to the effect that an investigation be made of the condition of the water mains with regard to the possibility of their being injured by electrolysis. After pointing out the effects that the discharge of electric juices would have on the water mains, Ald. Howay proposed that the matter should be looked into, as he feared that the mains were being injured. In Vancouver a like investigation had just been concluded, and it had been found that considerable damage had been done to the mains, and he thought that it would be as well, even if only as a precautionary measure, to look into the matter.

The mayor said he thought the move a good one, and remarked that some time ago the matter had been looked into, when it was found that there had been a little electrolysis along some of the car lines, but not enough to cause serious damage. He thought that the proposition was a wise one, however, and said that no harm could come out of it.

Stumbling Block.

After some more learned talk among the aldermen about short circuits, return currents, and defective bonding, it was unanimously decided that Ald. Howay's motion was a good one, and that the water committee should go out and hunt for electrolysis. The proper pronunciation of the word proved a stumbling block to several of the members, some of them getting over the difficulty by giving it two or even three different sounds.

Ald. Jardine Complains.

Ald. Jardine had a complaint to make against the board of works because the location of the water sleeves had not been marked when the new sidewalks were laid down. Ald. Adams also referred to the difficulty and expense incurred in trying to locate the exact spot where the sleeves were to be placed. Being called upon for an explanation, Ald. Henley explained that the place had been marked when the sidewalks had been laid a year ago, but that the work had been so long delayed that the marks were no longer visible. After this explanation, no one seemed inclined to continue the discussion.

Why Don't the Band Play.

Ald. Davies wished to know why the band did not play on Columbia street on Saturday evening. Ald Jardine rose from his seat and explained that the band had not yet replied to the council as to whether they were willing to accept the terms offered. As regards the Fife and Drum band, they will not play on the streets until they get their uniforms. It was finally learned that the band had been present at the performance at the Opera House on Saturday last, and that this was the reason why they did not appear on the street.

In reply to an inquiry, it was stated that the gravel on Carnegie Square would be laid as soon as possible.

Hospital Work.

The mayor and James F. Johnston were re-elected to represent the council on the hospital board. After the re-election, the mayor gave some interesting figures about the hospital work, including the information that they were now entirely out of debt, while at the end of the last fiscal year, they had an overdraft to the amount of $2,248 in the bank. He also stated that the different muncipalities had expressed their willingness to contribute toward the erection of a new hospital.

Health Report.

Dr. DeWolf Smith submitted his monthly report on the health of the city showing that there were at present 17 cases under treatment, including seven from last month. These included five cases of diptheria, four of scarlatina, four of tuberculosis, and four of typhoid. The report was filed for reference.

Danger to Be Removed.

Chief Watson also submitted his monthly report showing three small fires had occurred during the month, small damage being done in each case. He also pointed out that the oil house at the far end of Columbia street had not yet been moved, although the council had decided last year that it was a menace to the surroundings. He considered that it was in a very dangerous situation, being close to the Small & Bucklin mill, and with such a quantity of inflamable matter as it usualy contained, it should not be allowed to remain there any longer. The fire committee was given power to act in connection with the oil house, while the report of the fires was received and filed.

To Meet School Trustees.

A letter from the secretary of the school trustees was read, asking the council to fix a date when it would be convenient for them to meet the representatives of the board. The council decided to meet them on Monday evening, after the regular council meeting was over.

A. Smeeton, Salvation Army brigadier, forwarded a letter, asking the council to reconsider its decision that it could not aid the army home in Vancouver financially, and giving reasons why this should be done. This was referred to the finance committee to report.

Poundkeeper Murray submitted his monthly report, which was received and filed, and a number of other reports were received from the committees, all being received without discussion.

General Meckel Dead.

Berlin, July 6.—Major General Meckel, formerly professor of military tactics in Japan, died today. He went to Japan in 1885, stayed there three years, reorganized the Japanese army and wrote a book on tactics. Field Marshal Oyama after the battle of Mukden telgraphed to Gen. Meckel ascribing his success to Meckel's instructions.

Rosenberg Arrested.

Seattle, July 6.—Associated Press dispatches from Altona, Prussia, and from London today state that August Rosenberg, the alleged anarchist who until a month ago lived in Seattle, had been placed under arrest at Altona on suspicion of being an anarchist who had come from America representing a secret organization that had planned to take the life of Emperor William.

EMPRESS OF IRELAND BREAKS THE RECORD

Demonstrates that She Is the Fastest Steamship on St. Lawrence Route.

Quebec, July 6.—The new C. P. R. trans-Atlantic liner "Empress of Ireland" arrived at Rimouski today at 4:30 p. m. upon her initial voyage. The magnificent vessel, although being detained by fog, both off the coast of Newfoundland and the gulf made a fast run across. Regarding her speed the Empress of Ireland demonstrated by her first three days at sea that she is the fastest steamship on the St. Lawrence route, eclipsing slightly the speed of her sister ship, the Empress of Britain, her runs being 451, 450, and 460 miles respectively. After landing the English mails consisting of 329 bags and 173 packages of parcel post, the Empress of Ireland left for Quebec.

PACE THAT KILLS

Chicago, July 6.—America's climate, regarded by scientists as the prime factor in the country's marvelous growth from colonial days, may be the cause of its degeneracy, according to Prof. John Mason Tyler, of Amherst College, one of the leading pedagogists of the world.

"Every day," he explained to students at the University of Chicago, "our climate has been drawing the strings on our nervous system tighter and tighter until they are now ready to snap. Physical degeneration is now noticeable in the children of business and professional men. The strain of modern life, the desire for wealth, comfort and luxury is terrible, It falls on the nervous system, not on the muscles, for we are changing from a life in the open ---a life of manual labor---to a life in the use of the brain. This tendency is going to continue and we cannot help it.

"Americans a hundred years ago lived on pork and doughnuts to a great extent, Before going to bed they were not satisfied unless they ate a large piece of mince pie. We say today: 'What a barbarous bill of fare!' We who cannot stand anything stronger than tea or crackers.

"Children a century ago went to school on the average of twelve weeks a year. Sixteen weeks was an extra long term. Forty weeks were spent on the farm in open life, studying nature, physical needs and the world. That surely was the grandest system, the best system we have had yet,

"Ten months are spent by the children today in school. And there are many of us urging vacation schools just to take the children off our hands for the other two months."

COSSACKS KILLED WHILE ATTACKING A BOMB FACTORY

Works Blow up While Doors Are Being Forced—Reign of Crime and Terrorism Causes Police of Warsaw to Resign—Printers Cause Trouble.

Berlin, July 6.—A despatch to the Lokal Anzeiger from Kattowitz, Prussian Silesia, says that at 2:15 p. m. today twenty-five Cossacks surrounded a lime kiln at Miechow in the province of Kielce, Russian Poland, on information that it was being used for the manufacture of bombs. As the Cossacks were forcing their way in, a terrific explosion blew the kiln to pieces. Eight Cossacks were killed and five were wounded. It is not established whether the explosion was caused by bomb workers inside, or whether the kiln was exploded from a distance.

Too Hot for Police.

Warsaw, July 6.—The reign of crime and terrorism is so great here that the police have decided to resign. A few days ago, as a measure of protection against assassination by the revolutionists, the system of police beats was abandoned and the police were formed into patrols for mutual self-protection against bomb throwing, etc. But this only made it easier for the terrorists to shoot them. The governor general, when apprised of this decision of the police to resign, threatened to arrest and punish those who failed to appear for duty.

Printers' Riot.

St. Petersburg, July 6.—Rioting occurred today among the employees of the government printing office, where the plates for the paper currency are engraved and printed. The men left their work and went into the court yard of the building singing the "Marsellaise." Gendarmes and Cossacks were summoned and drove back the demonstrators into the building, where, after some parleying they returned to work.

General Removed.

Interior Minister Stolypin has removed General Kourloff, the governor of Minsk.

Gen. Kourloff was held to be responsible for, the anti-Jewish excesses at Minsk, in November last and M. Arakantseff, in the lower house of the Russian parliament, urged that he be tried on that charge. The higher Russian authorities decided not to prosecute the general.

On June 19th, Gen. Kourloff was thanked by a delegation of Jews for measures instituted by him to prevent another threatened outbreak at Minsk.

Fierce Denunciation.

During the debate in the lower house of parliament today on the Bialystok report, an orthodox priest, Father Aranascieff, a radical member from the Don province, fiercely denounced the policy of the government, which it is declared instead of being directed to pacifying the country, seemed to be deliberately provoking anti-Jewish riots and every manner of class and race strife by the spread of proclamations against the Jews and revolutionists.

Ald. and Mrs. J. Henley returned last night after a few days' visit to Seattle, where they went to assist in the celebration of the Fourth.

MRS. BRACE TALKS TO BOYS AND GIRLS ON MISSION WORK

Tells Them in Simple Language What It Means to Help Spread the Gospel in Japan and Other Far Away Countries—Summer School Proceedings.

Yesterday's meeting of the Summer School were every bit as interesting as the previous ones, and many good addresses were given. In the morning the Rev. Thomas Crosby, a veteran missionary of British Columbia, led the devotional half hour. Dr. Sipprell delivered the third of his series of addresses of the Sermon on the Mount, which was listened to with marked attention. This was followed by an address by the Rev. Dr. Forbes Stillman, of Chilliwack, who spoke on Christian Stewardship. At 2 o'clock, the Rev. Dr. Sipprell led the discussion of the Sunday School hour in regard to the future of the Epworth League and Sunday School in relation to the Summer School.

This was followed by the children's meeting at 3 o'clock, led by Mrs. Brace. She said in part:

"It is necessary to know just where our boys and girls are on the question of missions, for our boys and girls are the recruitng forces for the army of missionaries. How many boys and girls here are members of Mission Bands and Mission Circles? Almost all of you. It is encouraging to know this, because the object of our Bands and Circles is twofold, to give knowledge of mission work and then to intelligently raise money for missions. Of course a very important feature is the raising of money for this great work. Then, too, our idea is not to raise the money from father's or mother's gifts, but by self-denial and work; make and save the small amounts for mission work. One girl did without a needed hair ribbon and put the money in the missionary box; a little boy who especially loves candy denied himself and put the twenty-five cents in his mite box; another boy didn't know very well how to deny himself, and sawed wood for his share.

"So making money in this way for those across the sea naturally interests us in how they live and what their conditions are; and as we study their condition we see their need.

"Speaking of Japan, a very important country in the eyes of the world at present, conditions in the home are very different from what they are in our homes. Now if I were to tell you that in the Japanese homes very often the pigs and the chickens live with the boys and girls, you would be surprised. Yet this is true. What makes it so? (A bright boy. "Lack of civilization and Christ.") That is the secret every time. The coming of Christ in the home brightens that home and civilizes the nation.

"Now what does doing missionary work in Japan mean? Why just telling them about Jesus and the Bible. Just feeling that the little boys and girls of Japan are our brothers and sisters. Now if one little girl here was hurt, and another little girl knew how to help her and refused, you would say that she was very selfish and unkind. That is just the position of our little brothers and sisters across the seas. There is a way of making them happy, and that is the business and opportunity of the boys and girls to send them the good news of the gospel; by raising what money we can in our Circles and Bands. Our boys and girls are doing this grandly and we feel proud of them and want to encourage them to do more of this important work.

"We had here yesterday morning Miss Lena Snider, of Vancouver, who is preparing to go to Japan as missionary, and she told us that her call came to her when she was a very small child. Perhaps there are some of our boys and girls here today who knowing the need of workers will lay it upon their hearts and volunteer to give their hearts to missionary work."

Mrs. Brace varied the exercises with singing and proved her particular adaption for children's work. She held the attention of the boys and girls from start to finish, and with her fund of anecdotes and figures showed herself thoroughly conversant with missionary work and presented the matter in a very pleasant and attractive manner. Mrs. Brace is a splendid speaker and delivers her message with ease and a directness that carries conviction. A large number of the summer school visitors profited with the children by the address.

At 4 o'clock Mr. Cornish photographed the Summer School on the college lawn, after which the young people indulged in recreation, while the ministers assembled in their Financial District Meeting, the annual fall church court falling early this year on account of the departure next week of the chairman of the district, the Rev. Dr. Sipprell, for the East. The following ministers were present: Rev. J. F. Betts, Ladner; Robert Wilkinson and C. Batzold, Cloverdale; R. F. Stillman, Chilliwack; H. Wilson, Sumas; J. J. Nixon, Cheam; James Turner, Vancouver; J. Brown, Toronto; (visiting) W. H. Barraclough, J. P. Bowell, and A. J. Brace, of New Westminster. Most of the ministers being present at Summer School meant a full attendance, and financial matters for the District and Columbian College were speedily arranged. The meeting discussed the formation of a district Epworth League, and it was decided to boom the cause of missions to the extent of supporting a foreign missionary.

The session was continued last evening, the subject treated being "Women's Missionary Society." Dr. Sipprell was chairman, and the following speakers took part, Mrs. (Rev.) Betts, Miss Nichols, Vancouver, and Mrs. W. E. Pescott, Vancouver. The addresses were of high order and most inspiring. A large audience listened intently. Before the impressive service closed, Dr. Sipprell called for volunteers for the mission field should God call them and three young men responded.

Training Socialists.

Berlin, July 6.—The executive committee of the Socialistic party has announced its intention to establish a partisan war school in the autumn, with the object of preparing Socialistic youths for public life by lessons from natural economy, law, history, science, literature, the natural sciences and debating exercises.

Seriously Injured in Row.

In a drunken row which occurred at Cumberland last night one Francis struck J. Morton with a club, severely injuring him about the head and back. Morton is in the hospital in a serious condition, partial paralysis having set in. Francis has been arrested.

JAILOR ARRESTS MAN WANTED IN VANCOUVER

Frank Herman Taken Into Custody at the Great Northern Railway Depot.

Frank Hermann, a Jew who had been in Vancouver for some time, was arrested here yesterday afternoon by Jailer Hoult, who had received a telephone message from Vancouver to the effect that a man who had been forging cheques was supposed to be in this city, and was expected to leave on the Great Northern train for the south in the afternoon. Mr. Hoult located his man just as he was about to step aboard the Great Northern train. The Jew offered Mr. Hoult money and a gold watch if he would let him go, but to no avail. Detective Jackson arrived here later in the evening and returned to Vancouver with Hermann, who will be presented in the police court there this morning.

THOUSANDS OF MEN WANTED ON PRAIRIES

Manitoba Immigration Commissioner Sees Great Scarcity of Workers For Harvest.

Winnipeg, July 6.—Twenty thousand men will be needed to complete the harvesting and threshing of this year's wheat crop, says J. J. Golden, provincial immigration commissioner. The necessary labor cannot be obtained in the West, but the commissioner believes that the men can be brought from the eastern provinces, where laborers are not so much in demand. The labor famine across the border is beginning to be reflected somewhat on this side of the line, according to Mr. Golden, and although the immigration statistics will show that thirty thousand more immigrants have come to Canada this year than in any previous year, work has been found for all of them, and more are needed to carry on the industrial demands of the Canadian West.

Residences being unobtainable, large numbers of white tents and many prairie schooners dot the landscape in the neighborhood of Stettler, Alta. New settlers and their families and stock, with furniture and farm implements and machinery scattered around, are to be seen in all directions. Their white canvas temporary quarters nestling amongst the dark green foliage of the poplar and willow, and in some cases reflected in the lake just south of town, form pictures of life and beauty that it would be hard to beat in any part of the world.

AT THE HOTELS.

Guichon—A. A. Sutherland, Blaine; W. C. Bowman, Upper Sumas; M. M. Moore, Seattle; C. Norman, Langley; D. E. Allen, A. P. Maris, Vancouver; D. D. Lloyd, P. R. Carson, Toronto; F. W. Ray, Hamilton.

Colonial—W. W. Clark, Victoria; William Wolz, Chicago; A. E. Steele, H. G. Mason, Vancouver; D. J. Creighton, Yale; C. Davy, T. E. Johnson, Vancouver; John Hammond, Hammond; D. R. Ellis, D. M. Ellis, F. H. Brodie and wife, Ladner; C. E. Sexsmith, Ladner; G. A. McKinnon, Toronto; J. Alexander, Vancouver.

Windsor—C. Jorgenson, Ladner; Sam Davis, Mrs. Right, Bellingham; R. Cummings and son, Langley; J. Finnis, Vancouver; W. Walker, Lulu Island; R. Harding, Vancouver; Lewis Cuthbertson, Millside; A. E. Connor, Bellingham; M. T. Lester, Seattle; W. McAdam, Hammond; R. A. Braden, Jr., Hammond.

Depot—Mrs. J. Wade, Elgin; W. H. Ayliffe, Vancouver; H. Delaney, Everett; L. Ladner, Vancouver; C. H. Hewitt, Bellingham; R. McDonald, J. Nicol, Vancouver; G. P. Hunter, Langley; J. J. Coyle, Agassiz.

Cosmopolitan—Charles A. Zwicke, Vancouver; M. M. McDonald, Barnet; J. Broomcoon, J. S. Johnson, Ole Olsen, Millside; P. Crowe, Omaha; John Maxwell, M. Towle, Langley; C. E. Thortridge, W. J. Higgins, Daniels, N. D.; J. McDonald, Langley; W. Morrison, Langley.

Lawyer Accidentally Killed.

Belleville, Ont., July 6.—The police today found the body of W. J. Camon, a well known lawyer and prominent politician, lying at the foot of the back stairs in the Robertson block. Presumably he fell last night and broke his neck in the dark.

His brother Wesley fell off a steamer in Lake Erie some years ago and was drowned.

Too Hot for Police.

Warsaw, July 6.—The reign of crime and terrorism is so great here that the police have decided to resign. A few days ago, as a measure of protection against assassination by the revolutionists, the system of police beats was abandoned and the police were formed into patrols for mutual self-protection against bomb throwing, etc. But this only made it easier for the terrorists to shoot them. The governor general, when apprised of this decision of the police to resign, threatened to arrest and punish those who failed to appear for duty.

Aeronaut in Danger.

Providence, R. I., July 6.—The failure of James K. Allen, a well known aeronaut, to return from an ascension which he made from here on Wednesday has caused great alarm and reports from points on the south shore of Massachusetts Bay, seem to indicate that the balloon and its occupant had been driven to sea.

Sunday Law Amendment.

Ottawa, July 6.—The house today accepted the amendment to the Sunday Observance bill proposed by Mr. Duncan Ross, permitting any unavoidable work to be done on Sunday to save property. This would include work to cope with forest fires, etc.

Mr. Ross also offered an amendment to clause four. At present this gives a day off during the week to any employee who has to work on Sunday. Mr. Ross' proposal is not to apply this provision in the case of men working only eight hours a day.

Listen to the advertising man when he calls to talk to you.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

COAL—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

QUARTZ—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode, or vein.

The claim shall be recorded within fifteen days if ocated within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2½ per cent. of the sales of the products of the location.

PLACER MINING—Manitoba and the N. W. T., excepting the Yukon Territory: Placer mining claims generally are 100 feet square, entry fee $5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the Rivers of Manitoba and the N. W. T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below any low water mark, and subfor first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of the mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1000 feet in length, aand if the party consists of two, 1500 feet altogether, on the output on which no royalty shall be charged the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the ject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee can dredge to high-water mark on each alternative leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction thereof is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent. collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of 20 years; also renewable.

The lessee's right is confined to the submerged bar or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile Yukon Territory to be paid to the comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been abandoned, anad open to occupation and entry by a free miner.

Berths on their sleepers are longer, higher and wider than in similar cars on any other line. They protect their trains by the Block System.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropiated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely, 1280 acres, will be sold at the rate of $3 an acre, subject to royalty at such rate as may be specified by Order in Council.

FRIDAY'S MARKET REPORT

The fine weather of yesterday was responsible for an early rush to Lytton Square, and the city market was a busy centre for a time, although it quieted down again after a while. The official report says that it was "fairly good," which is an improvement on last week, when it was simply "fair." As usual the briskest trade was during the early morning, the busy housewives preferring to do their marketing before the heat of the day should melt all the butter.

There was a good supply of beef, but owing to the hot weather, the demand was not very strong. Lamb was in fair offering, with a good demand. Mutton was in fair offering, with a demand equal to the supply, while veal was not so plentiful, although there was a good demand. There was a very small supply of pork, and the demand was also very limited. The continued warm weather is responsible for the scarcity of this class of meat.

A good supply of eggs was offered and all was sold at quotations. Broilers were only fair, and the demand was restricted to well grown birds. Ducks were very few and far between, and there was almost no demand.

New potatoes were pretty freely offered, but the buyers were not anxious to buy until they get riper Those offered yesterday were hardly ripe enough to tempt an epicure.

T. J. Trapp's usual weekly auction sale was conducted, and quite a number of stock was disposed of. Here are a few of the sales and prices realized:

Bicycle, $8; horse, $20; horse, $150; cow, and calf, $44; cow, $31; cow, $36.

Market Prices.

Beef, hind quarters, per pound 8@9c.
Beef, fore quarters, per pound, 5@6c.
Lamb, per pound, 12@13c.
Mutton, per pound, 10c.
Pork, per pound, 9@9½c.
Potatoes, new, 1¼c.
Hay, per ton, $10.
Eggs, per dozen, 30c.
Butter, per pound, 25c.
Fowl, per dozen, $6.50@7.50.
Broilers, per dozen, $3@4.
Ducks, per dozen, $5.50@6.50.
Gooseberries, per pound, 6c.
Raspberries, per crate, $1.75.
Cherries, per pound, 8c.
Black currants, per pound, 5c.
Red currants, per pound, 8c.

Makers of Shoes.

Mr. Swaysland, a shoe trade expert who made a tour of the United States on behalf of the Northampton shoe industry, reports that English shoemakers need not be frightened by an invasion of American shoes. The American makers have no direct advantage over their English competitors, while they were seriously handicapped by the fact that the cost of production in America was five per cent more than in England. Nevertheless, Mr. Swaysland says, he found the Americans far superior in push, sharpness and organization, while the operatives have a whole-hearted belief in the superiority of their workmanship and system.

At an afternoon reception not so very long ago a young woman met Charles G. D. Roberts for the first time. Putting on a baby stare she asked in a manner so naive that it could not possibly deceive any one, let alone a poet of several New York seasons, "Are you the great Mr. Roberts?"

The author was equal to the occasion. "Ia don't know," he replied, gently, "there are so many of us. I am the one with the most initials."

Mr. Gotsum—Maria, how long has that young Smoothley been coming here to see Nellie?

Mrs. Gotsum—"Let me see. You remember when the papers published that story about your having sold a gold mine for half a million? Yes? Well, as nearly as I recall it, that's the time when he began coming."

UNION LABEL

SATURDAY, JULY 7, 1906.

THE GROWING TIME.

Our friends of the Conservative "machine" are not the only people who are dissatisfied with the immigration policy of the government at Ottawa. Hear the New York Evening Post:

"From Minnesota to Washington, the States on Canada's frontier have begun to discuss plans for nullifying the effects of the siren voice of Manitoba, Alberta, and Saskatchewan. The Republicans of Minnesota have nominated for Governor a man who has pledged himself to head a campaign of State developing and advertising. Newspaper advertising of the sort that California has used, and Colorado is now essaying, is being recommended all along the border. Irrigation projects in the Northwest are graphically pictured and written about as if they were exactly what is required to forestall another famine in Egypt. Agricultural experiment stations are urged to explain that Minnesota wheat is the most profitable in the world, and that North Dakotta live stock pays better than ranching near Calgary. 'Seed gospel' trains are made up by the railroads and the State universities to show the farmers how to increase their yields. Everything that can be suggested to keep a man satisfied in his own country is being attempted. Still, Canada goes on calling Americans over the border, and the case is regarded as desperate."

The Post then quotes the nominee for governor, as follows:

"Unfortunately, we have fewer farmers in the State today then we had twelve months ago. The last census shows that there are fewer people, outside of the villiages and cities, than there were ten years ago. In one of the northern counties of the State, fifty carloads of emigrant movables left the State this spring from a single station. From another small station fifteen families have gone, and from every county in the State, save one, where I have made inquiries, and I have made the inquiry general, there is more rural population gone by far than has come . . . Farmers worth $100,000 who have earned a life of ease, are now compelled to toil from morn till night, in order that their property shall operate as an asset instead of a liability. It is next to impossible to get desirable tenants or employ farm help at other than ruinous prices."

They are off to Canada, you see, and when they get there, two-thirds of them promptly take the necessary steps to turn themselves into good Canadian citizens. The Post further explains that "a single letter of enquiry will bring a paid agent of the Canadian government to a farmer's door, with tales of fortune to be quickly won across the border," and it asks what chance, in such circumstances, "has the humble agent in the United States to secure buyers and add to the glory of the republic and his own bank account?"

THE CIVIC SPIRIT IN GLASGOW.

Glasgow's municipal ownership policy is often sneered at, and attempts are made to represent it as a failure; but the following extracts from a recent article in Scribner tell a different story; nor should it be forgotten that the civic spirit and "canny" foresight which are evidently at work now in the perfecting of the policy of municipal ownership, are precisely the qualities which, translated into action, turned the Clyde at Glasgow from a shallow and muddy estuary into the magnificent waterway it is today.

"You seem to be proud of your city," I suggested invitingly. "Of course I am," my friend responded. "Glasgow sells me gas at two shillings a thousand; it gives me telephone service at little more than half what it used to cost from a private company; it sells me water and electricity, and does a lot of other things. As for the Glasgow trams, they beat the world." "And the tax-rate?" I inquired. "Is very low," was the reply.

I asked Mr. Dalrymple if his (street car) men were in politics; if their unions had ever endeavored to influence the council or had tried to coerce the city. "Never within my knowledge," he said. "The city is the best union they can have, for the city pays good wages, better than the private company did. The city gives the men a nine-hour day, it provides them with free uniforms; they have five days' holiday a year on pay, and get sick benefits when off duty. They do not need any union."

"I hold," said the Lord Provost, Sir John W. Primrose, "that everything that it in its essence a monopoly and is essential to the well-being of every citizen of every degree, should be owned by the community. . . . Every man uses water and gas; every one rides on a tramway. These things lie at the heart and well-being of every citizen of the community. I don't believe in going too fast, however, I don't believe in three volcanoes at once, I believe in evolution—which means that each undertaking must be perfected before the next one is begun."

Here was a city which knows no boss but itself; which takes the merit system as a matter of course, and without any law enforcing it; a city which keeps its officials in office as long as they will stay or as long as they will serve the convictions of their constituents; a city which makes its enterprises pay, and pay big, and watches its finances as prudently as the most conservative banking house. . . .

Here, too, is a city which knows no favor, no friendship, no politics in the choice of its servants. "Wanted, a Town Clerk. The Corporation of Glosgow'—so the newspaper advertisement runs— 'invites applications for the office of Town Clerk, which is about to become vacant. The salary will be $10,000 a year.' Here was the most important salaried office within the gift of the Council, an office which combines the duties of the city solicitor, as well as all the clerical duties of the city, hunting for the man much as a German city looks for a lord mayor, or an American college or church searches for a president or minister.

The city's properties are worth $95,000,000, and the annual revenues from reproductive undertakings alone exceed $15,000,000.

Glasgow says it would be just as absurd for the owner of a skyscraper to permit a private elevator company to collect fares from its tenants, or for an outside plumber to own the fixtures and collect for light and heat, as it is for a city to turn over its streets to private tramways, gas and electric lighting companies. Glasgow prefers to do its own plumbing and run its own elevators.

The motive of it all? "Men like to be in the midst of big things. They like to serve the community that serves them," said Dr. Robert Crawford, one of the city's most distinguished citizens, a man who had served with distinction on the Council and had promoted its big health and clearance schemes.

"It's a sense of noblesse oblige," said Lord Provost Primrose; "an ambition to make the city a cleaner, healthier, happier, more comfortable place to live."

"It's my city," says the man on the tram.

The scandal mongers have got a new one. They figure out that the allowance of $15 per day, in lieu of travelling expenses, to members living more than 400 miles from Ottawa will mean a net profit to the recipients of over $140 in the case of men from B. C. But in these days, the railways carry members free as a matter of law, and there is no question of paying their travelling expenses. The government pays only for the Pullman and, we presume, the living. A man from B. C. cannot draw more than $75 on the $15 a day plan, and his bare expenses would run to $40, no matter how economical he was. His extreme "profit" therefore would be about $35, which may or may not be too big a margin; but is certainly a long way under the scandal mongers' figures. The whole matter is a very small one, but it is useful as showing how these gentlemen figure.

THE CASH STORE

The Excellence of Smith's Stock

is due not to any single circumstance; but to a combination of many. Every successful stroke of merchandising, in this store, is the result of harmonized forces, acting under the direction of central authority.

For example, the fortunate purchase in a home or foreign market, which brings to our customers an entirely new price quotation, is not a mere piece of luck; it is the outcome of careful planning.

One thing that pleases us highly is to get a line of goods that people want—and get it so cheap that we can turn around and sell it to our customers—at a real substantial saving. This we have fortunately accomplished—recently—in regard to several lines of muslins, silk skirts, etc.

Silk Petticoats

As a price making event as well as an introduction of the newest styles and color effects this sale is by far the most interesting event of the spring season in this section.

The savings are largely realized through unusual purchases.

Ladies' stylish petticoats of fine shot taffeta—in effects of green, blue and brown—and smart accordeon pleated ruffle—the kind you'd expect to pay $10.00 for, you may buy for $5.95

Colored Muslins

One-third off the price in some cases. These were picked up by an enterprising buyer over in the old country—A manufacturer had made too many of a kind and was glad to turn them over at a discount of about one-third—hence we can offer you pretty sheer dress muslin in fawn—with pale blue, with red, with green and with self color stripes, worth easily 20c yard, for 12½c

Also a fine lot of organdy muslin with pretty red, blue, green and black dots and sprays 12½c

Ivory Japanese Silk

Soft pure finish, full yard wide ..... 50c Yard

Ivory Shantung Silk

Similar in finish to the brown pongee—but bleached—a good ivory shade, our regular $1.00 line for ..... 75c Yard

Local News Briefly Told

H. Leaf, of Whonnock, was in the city for a short time yesterday.

System stenography and typewriting. The Province office, Armstrong block, 'Phone 62.

The work of mowing the long grass and weeds down on the Albert Crescent was completed yesterday.

Men's clothes will be selling at $4.95 a suit at the Westminster Clothing company's store this morning.

B. McEwen left for Dease Island cannery on the Transfer yesterday, where he will be employed throughout the coming season.

The Schaake machine works shipped another fish cooking retort yesterday to the Great West Packing company of Steveston.

The maximum temperature in New Westminster yesterday was 80 degrees above zero. At Kamloops it was 100, Walla Walla 104, and Red Bluff 106.

The tug Olive arrived back from Boundary Bay yesterday, where it has been engaged during the past few weeks by the canneries of that vicinity.

Twenty-one Hindoos left on the Transfer for Ladner yesterday, where they have been engaged by the Patterson Lumber company of that place.

H. DeWett and H. Wallace, of Seattle, who are visiting British Columbia, were passengers on the steamer Transfer to Steveston yesterday afternoon.

A man who gave his name to the police as Sam Davis was arrested yesterday afternoon on a charge of vagrancy. He will appear before the magistrate this morning.

Mrs. D. Welsh and daughter returned last evening on the Great Northern flyer from Bellingham, where they spent the past week in visiting relatives.

White canvass shoes not only look cool, but are cool on the feet. The price at which they are being sold at Johnston's Big Shoe House gives everybody a chance to own a pair.

The boys of Queen's Avenue Methodist church defated the boys of St. Andrew's Presbyterian church by 22 runs to 2 in the baseball match played at Queen's park last evening. The St. Andrews and Baptist teams will meet next Friday evening.

An excursion to Bridal Veil Falls, Pitt Lake, will be run by the steamer Beaver this afternoon under the auspices of the Summer School. All citizens are cordially invited to patronize the excursion, which will start at 2 o'clock.

The Millside industry has been practically closed down all this week, the management having decided that as the employees were entitled to two holidays during the week it would be as well to make a whole week of it, and have some necessary rearrangements in the mills made in the meantime.

Owing to the Brockton Point grounds being reserved this afternoon, for the lacrosse match, the cricket match between the New Westminster C. C. and the Burrard C. C. has been postponed. There will be a practice game this aftrenoon in Moody Square, all members being requested to be present at 2 o'clock.

The steamer Ramona arrived from the upriver ports yesterday afternoon with a large cargo of freight, among which was a large shipment of cherries from Chilliwack for the New Westminster Fruit Packing company. The following passengers arrived: From Chilliwack, F. Waring, R. Smith, D. H. McEachern, Rev. Nixon, Miss F. H. Hornby and W. Carter; from Whonnock, W. N. Draper; from Langley, Mrs. Malloir, Mrs. Rollinson, and J. B. Payne; from Bonson's landing, J. Sprott.

AN ODD SEA FOOD.

Virtues of the Gigantic Marine Snail Known as the Abalone.

Though the flesh of the abalone is a nutritious and wholesome article of food, highly esteemed by the Chinese and Japanese, few people in the United States know anything about the abalone except that it has a large shell with a bright, pearly interior. The abalone is a gigantic sea snail, whose natural home is the deep water off a rocky coast. The whole coast of central and lower California, from Cape Mendocino to Cape St. Lucas, abounds in abalones, the supply being absolutely unlimited. As fast as an area of fishing ground is depleted it is repeopled by full grown abalones coming in from the ocean. Three months after a piece of ground has been thoroughly cleared by the abalone fishers the supply is as abundant as ever. The contents of the large abalone shell weigh as much as two pounds.

Long ago the Chinese and Japanese discovered the value of the meat as a wholesome and digestible food. The supply of abalones in Chinese waters is, however, small, and the fishing grounds off the coast of Japan were so heavily drawn upon that they became exhausted. The people are forbidden by an imperial edict from taking them. The Japanese and Chinese in California dive for the abalones, which crawl about the rocks at the bottom of the sea in deep water outside the surf. The divers bring them ashore and spread them out in a sunny place to dry. This process reduces the abalone to about one-third of its original bulk, leaving a tough, horny product. The dried abalones are sent to the orient, where they are soaked and stewed or ground into powder and used for making soup.

In the pure, deep water of the ocean the abalone lives, and as it is a clean feeder its flesh is always sound and wholesome, being superior in this respect to that of oysters and clams, which live near shore and are often contaminated by sewage and other impurities. The viscera of an abalone, unlike those of the clam or oyster, which must be swallowed whole, are quite separate from the muscular or edible part and can be detached by a single stroke of a knife.—Chicago News.

ARNISH ROCK.

A Lighthouse Which Is Without a Light of Its Own.

The most extraordinary of all lighthouses is to be found on Arnish rock, Stornoway bay, a rock which is separated from the island of Lewis by a channel over 500 feet wide. It is in the Hebrides, Scotland. On this rock a conical beacon is erected, and on its summit a lantern is fixed, from which night after night, shines a light which is seen by the fishermen far and wide. Yet there is no burning lamp in the lantern, and no attendant ever goes to it, for the simple reason that there is no lamp to attend to, no wick to train and no oil well to replenish.

The way in which this peculiar lighthouse is illuminated is this: "On the island of Lewis, 500 feet or so away, is a lighthouse, and from a window in the tower a stream of light is projected on a mirror in the lantern on the summit of Arnish rock. These rays are reflected to an arrangement of prisms and by their action are converged to a focus outside the lantern, from which they diverge in the necessary direction."

The consequence is that to all intents and purposes a lighthouse exists which has neither lamp nor lighthouse keeper, and yet which gives as serviceable a light, taking into account the requirements of the locality, as if an elaborate and costly lighthouse, with lamps, service room, bedroom, living room, store room, oil room, water tanks and all other accessories, were erected on the summit of the rock.

Not Difficult.

High Priced Doctor—You are now convalescent, and all you need is exercise. You should walk ten to fifteen miles a day, sir, but your walking should have an object. Patient—All right, doctor. I'll travel around trying to borrow money to pay your bill.

Not to Be Repeated.

"Yes," an old Indian fighter was saying, "the Sioux done something to me that they could never do again."

"What was that?"

"They scalped me."

NOTICE.

The members of L. O. L., No. 1150, are requested to meet in the lodge room on Sunday, July 8th at 5:50 p. m. to attend the annual church service. All members will kindly attend if possible.

EXPLAINS METHODS OF EQUITABLE LIFE

Paul Morton Appears Before Select Committee of British House of Lords.

London, July 6.—Paul Morton, president of the Equitable Life Assurance Society and Emery McClintock, vice-president of the Mutual Life Insurance company of New York, appeared today before the select committee of the House of Lord on life insurance companies. Mr. Morton explained the methods by which the Equitable was conducted and called attention to the special provision made for the security of British policy holders by the $500,000 deposit in the Bank of England. He considered that the investigations had clearly shown the sound financial position of the society, but he admitted that confidence in it had been retsored more in America than abroad.

Development of Fisheries.

The Nanaimo Free Press of July 4, has the following:

Prof. Prince, chairman of the fisheries commission, arrived in the city on the Georgia last night and today was at Departure Bay where some dredging was done with a view to obtaining information relative to the habits of the fish in these waters. Much work of this kind will be done in the British Columbia waters in the next few years in line with the gradually increasing importance of the fisheries of the province.

In all this work the fishery men find themselves more or less hampered for a basis from which to carry on their operations. Sooner or later a biological station will be required and the work at Departure Bay today is looked on by many as the initial step in establishing the station here. Departure Bay is granted as the most central point and in many ways the most desirable place for such a station, and it is only a question of time when it will be erected there.

Prof. Prince is still as enthusiastic as ever over the possibilities of the Nanaimo herring industry. He does not believe that our people have begun to realize just what an opportunity can be taken of Nanaimo's herring heritage. The most successful results anywhere in the Dominion were obtained in Nanaimo by the visit of the Scotch experts, where their valuable teaching is now being very generally followed.

The King's Chauffeur.

The King is probably the only motorist who has ever been regularly driven by a policeman. For some time past His Majesty's motor car has been in the hands of the police, if in that form it may be explained that the King has been employing skilled policemen chauffeurs from Scotland Yard. His Majesty, as is well known, is accompanied by policemen wherever he goes. When he is making a motor tour it is not easy or convenient to have his police attendants following in a second car behind him, and in the royal car no place could possibly be given to a policeman. The difficulty has been overcome by engaging drivers who combine the positions of police attendants and chauffeurs. The men who have driven the King have been chosen from among those chauffeurs who drive the Scotland Yard official motor cars. At the same time His Majesty has been assured of having a chauffeur of tried experience and thoroughly steady character.

Young Stanhope Suicides.

Riverside, Cal., July 6.—E. Spencer Stanhope, son of a wealthy English family, committed suicide last night by cutting his throat. The body was discovered at noon today at the Holyrood hotel. It is said here that Stanhope's father is a member of the British parliament.

BOVRIL

Every ounce of BOVRIL is prepared under the most hygienic conditions as required by the laws of Great Britain.

In the preparation of BOVRIL absolutely nothing but the choicest lean beef is used, our main source of supply being the Argentine Republic, where cattle are so plentiful and the consuming population so small that the best parts of the beef can be obtained by us at a very reasonable cost.

BOVRIL is a specialty, not merely a bye-product of a packing house like many meat extracts.

Synopsis of Canadian Homestead Regulations

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans.

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY.
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

NOTICE TO CONTRACTORS
TENDERS FOR RAILWAY TIES

Sealed tenders addressed to the undersigned, marked on the envelope "Tender for Ties, 1906," will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa, until twelve o'clock noon, of the 12th day of July, 1906, for five hundred and thirty-five thousand (535,000) Railway Ties, in accordance with the specifications of the Commissioners.

Sealed Tenders addressed to the undersigned, marked on the envelope "Tender for Ties, 1907," will also be received as above until twelve o'clock noon, of the 4th day of September 1906, for one million and ten thousand (1,010,000) Railway Ties, in accordance with the specifications of the Commissioners.

Tenders must be made on the forms supplied by the Commissioners which, as well as the specifications, may be obtained on application to Hugh D. Lumsden, Chief Engineer, Ottawa, Ont., to A. E. Doucet, District Engineer, Quebec, P. Q., or to A. E. Hodgins, District Engineer, Kenora, Ont.

Full information in regard to deliveries required is given on form of tender.

Each tender must be signed and sealed by all the parties to the tender and witnessed.

The successful tenderers will be required to sign a contract in form satisfactory to the Commissioners, and to furnish an accepted cheque on a chartered bank of Canada, payable to the Commissioners of the Transcontinental Railway for a sum equal to ten per cent. (10 per cent.) of the amount of the tender, as security for the due and faithful performance of the contract.

No tender for less than five thousand ties will be considered.

The right is reserved to reject any or all tenders.

By Order,
P. E. RYAN,
Secretary.

Stories of Henry Irving.

In his Reminiscences of the late Sir Henry Irving, Joshua Hatton gives some anecdotes which show the great actor in the role of a humorist. Two of these we repeat:

A certain man, says Mr. Hatton, used to go about purloining, as it were, an occasional glint of Irving's fame by dressing as much like him as he could, wearing his hair long in the Irving manner, and getting as near as he could, with economy, to the style of his hat. One day this gentleman stopped Irving in a quiet street, and, with a touch of pride, said:

"Mr. Irving, I find myself a good deal embarrassed by being so often mistaken for you."

"Cut your hair, my friend; cut your hair," was the prompt reply.

The second anecdote is characteristic of Irving's generosity, as well as showing his quiet sense of honor.

A widow of an old Lyceum servant applied to him for some sort of occupation about the theatre, whereby she might earn a living. Irving appealed to Loveday, his manager.

"There is absolutely no vacancy of any kind," said Loveday.

"Can't you give her a job to look after the theatre cats? I think we've too many mice about, not to mention rats."

"No," said Loveday; "there are two women already on that job."

"Hum, ha, let me see," said Irving reflevtively, then suddenly brightening with an idea: "Very well, then give her the job of looking after the two women who are looking after the cats."

The widow was at once engaged on the permanent staff of the theatre.

SAYS TRADE OUTLOOK IS REALLY FLATTERING

Bradstreet's Weekly Report on Canadian Business—Failures and Bank Clearings.

New York, July 6.—Bradstreet's tomorrow will say: "Seasonable quiet rules in Canadian trade, but the underlying features are largely favorable, and the fall trade outlook is really a flattering one. Crop accounts are of the best. The production and demand for dairy products and prices hold steady. Warm weather has helped retail trade in the territory tributary to Montreal. Summer dry goods are moving better at Toronto and canned goods are firm on light stocks. Canadian woolen mill owners are reported using foreign material, owing to high prices for domestic article. Collections are fair to good. In the northwest, weather conditions have helped the wheat crop, which promises to be a bumper one.

Failures for the week number 23, as against 22 last week and 22 in this week a year ago. The following are the clearings for the week:

Montreal, $27,488,516, decrease 1.6 per cent.

Toronto, $22,744,899, increase 7.9 per cent.

Winnipeg, $8,928,171, increase 14.4 per cent.

Ottawa, $2,192,562, increase 1.6 per cent.

Halifax, $2,658,116, decrease 25.9.

Vancouver, $2,232,253, increase 20.5.

Quebec, $2,242,637, increase 3.9 per cent.

Hamilton, $1,841,054, increase 37.3 per cent.

St. John, N. B., $1,034,621, increase 4.2 per cent.

London, Ont., $1,332,468, increase 32.9 per cent.

Victoria, $568,282, decrease 20.7 per cent.

Calgary, $1,015,823.

Drowning Accident.

Nanaimo, July 6.—A sad drowning accident attended by a heroic attempt at rescue occurred at Courtney last night. The victim, a young man named Fred Smith, with a number of companions, was bathing in Tsoleum River. Smith being an expert swimmer ventured out much farther than the rest, when he was seized with cramps, and quickly sank out of sight. His companions swam out to his assistance, but before they reached the spot Smith had gone down for the last time. One of the party dived several times, but was unable to locate Smith. The body was recovered some hours later.

Montreal Blaze.

Montreal, July 6.—A blaze that broke out at 2:30 o'clock this morning completely gutted the five-story building at 16 Cote street, occupied by Desbarats & Company, engravers and advertising agents; B. Plow & Company, bookbinders; Smith & McKeown, shirt manufacturers; Scott & Hayward, printers, and J. E. Holdsworth, cloth finishing works.

The damage is estimated at $90,000. A fireman was injured by the collapse of a fire ladder.

Mackenzie's Bibical Victory.

Old-time Liberals still like to recall the way in which Sir John Macdonald once quoted Scripture to the Hon. Alexander Mackenzie to his own discomfiture. Mr. Mackenzie had brought up an inconvenient subject, and Sir John sought to close off the discussion. 'Art thou he that troubleth Israel?" he asked, forgetting that he was using the words of Ahab the wicked king.

But Alexander Mackenzie was well up in his Bible and promptly replied in the words of Elijah: "I have not troubled Israel, but thou and thy father's house, in that ye have forsaken the commandments of the Lord and have followed Baalam."

"When you go to New Zealand I wish you would inquire after my great-grandfather, Jeremiah Thompson."

"Certainly," said the traveller, and wherever he went he asked for news of the ancestor, but without avail.

One day he was introduced to a fine old Maori of advanced age. "Did you ever meet with an Englishman named Jeremiah Thompson?" he asked.

A smile passed over the Maori's face. "Meet him?" he repeated. "Why, I ate him!"—Dundee Advertiser.

Mrs. Talkmuch (at Niagara Falls)—Isn't it grand? I love to hear its roar.

Mr. Talkmuch—So do I. Just keep quiet for a while and we'll both hear it

HEADQUARTERS FOR

Today's Lacrosse Match.

This afternoon's lacrosse match at Brockton Point should be particularly interesting owing to the fact that two of last year's men are to play for the first time this season; Sandy Gray will defend the net, while Harry Latham will handle the stick at third home. The lineupof the New Westminster team is as follows: Sandy Gray, goal; D. Digby, point; C. Galbraith, cover point; T. Gifford, Geo. Rennie, J. Feeny, H. P. Latham, W. Turnbull, I. Wintemute, Bert Henry, and John Bryson, B. Galbraith, spare man.

School of Music.

The Dominion Music company will open a school of music in room 2, Holmes' block, New Westminster, Monday, July 9th. The first term will be a thirty lesson course, two lessons a week for $15, payable $1.00 per week and give you a violin, mandolin or guitar free. This is a special opening offer, so be sure and call Monday in order to get one free. They have 200 pupils in Vancouver, also large schools in Victoria and Calgary.

A surprise party was paid by about thirty members of the Rebekahs Beulah R. S., No. 5, I. O. O. F., on Thursday evening to Mrs. C. S. Keith, who is leaving today for Winnipeg. After a speech had been made by W. Coatham, past grand, Mrs. John E. Insley presented Mrs. Keith with a beautiful gold jewel. The rest of the evening was spent in a social manner, with singing and music.

Mayor Keary was notified yesterday by J. D. Kennedy, of the firm of McBride & Kennedy, that J. E. Hughes, proprietor of the Lytton Hotel, had instructed his firm to proceed with the suit for slander against the mayor that was threatened as a result of the remarks made at a recent meeting of the license commissioners.

Here Is Your Chance!

Eighty acres of first-class land, situated on a good gravel road, four miles from Westminster; 15 acres under cultivation; 7 acres of good hay, now almost ready for harvest.

Dwelling, 3 rooms, barn and stable and three new houses. This is an extra good buy.

Burnaby Homes

I have a number of small acreages adjoining New Westminster on easy terms. This property is extra well situated.

Nine acres of good soil near town.

SERIOUSLY INJURED IN RUNAWAY ACCIDENT

Wife of Chilliwack Indian Has Leg Almost Torn Off by Wagon Wheel.

Suffering from serious injuries sustained in a runaway accident last Thursday, the wife of Indian David of Chilliwack, was brought to the city on the steamer Ramona yesterday afternoon and placed in St. Mary's hospital. Mrs. David and six other Indians were returning to Chilliwack from Sumas when the team attached to their wagon bolted and upset all the occupants. Mrs. David was caught in one of the wheels, and her right leg was almost torn off. The injured woman was taken into Chilliwack and attended by Dr. Henderson, who sent her on to the hospital in this city. Here she was attended by Drs. Hall and Drew, and hopes are entertained for her recovery.

NANAIMO'S APPRECIATION.

The people of Nanaimo are showing their appreciation of the fact that the citizens of New Westminster have decided to hold their annual picnic in the Coal City, and have promised a joyful welcome to the party that will go from here on July 18. The following letter has been received by the secretary:

Nanaimo, B. C., July 5, 1906.

J. H. Vidal, Esq.,
Secretary, Citizens' Picnic Committee, New Westminster, B.C.

Dear Sir:—I am directed by His Worship Mayor Planta to acknowledge the receipt of your letter of the 29th ult., regarding your citizens' picnic to be held in this city on the 18th inst.

I am desired to say that His Worship the Mayor and the Alderman will be pleased to do everything in their power to render your visit to our city, one of pleasant memory. You are welcome to use our park and the water front terrace; but if a programme of field sports is prepared, these grounds will not be large enough, in that case arrangements will be made for the use of the Cricket field for you, these grounds are about one and a half miles from the wharf, and as you know, we do not have any car service, if the weather continues warm, it might be too far for your people to go.

I am desired to say that if there is anything at this end that we can do to assist in your arrangements for the day, we shall be pleased to hear from you. It is intended to change our weekly half holiday to Wednesday, so that our people may be able to receive any friends that may be among your excursionists.

Trusting that your visit to our city may be one of much pleasure to all your people.

Respectfully yours,
S. GOUGH,

Tent Meetings.

Held by the Church of Christ on Moody Park. Meetings each night during the week except Saturday, at 8 p. m. and Sunday at 11 a. m. and 7 p. m. A cordial invitation is given to all to come and investigate the scriptures with us. Preaching by L. J. Keffer. *

You Cannot Afford to Miss It

Our Farm Pamphlet

Free on Application

It's the Talk of the Fertile Fraser Valley

It bristles with interesting data on farming. It's a mine—a great mine of useful information for people who are thinking of investing in B. C. farm lands.

It contains 64 pages, likewise a very comprehensive map of South Westminster district, and 32 views showing fruit growing, haying, dairying and mixed farming scenes.

It gives market prices of all produce, weather statistics, amount of crop raised to the acre, etc.

YOU WANT THIS PAMPHLET

It will interest and entertain you.
