DEATH HAS SOLVED ONE DIFFI...LTY

Kaiser Wilhelm Was Da...xpected to Demand Remov... Late Archbish...

Legislative Library

Rome, Nov. 26.—...eferring to the death in Posen Saturday night of Monsignor Stablewski, Roman Catholic archbishop of Posen, a high vatican authority said to-day that no matter what complications might arise regarding the Polish school question, the death of this prelate relieved the vatican temporarily of a most difficult situation, as the pope had been in daily expectation of a demand from Emperor William for the removal of the late archbishop. This is what happened in the case of the late Cardinal Ledochowski. After his removal from Posen as archbishop, Germany exerted pressure and had a German archbishop appointed. Efforts are being made to postpone the appointment of a successor to Mgr. Stablewski, and in the meantime the auxiliary bishop, Likowski, will act as archbishop.

Record Shakespeare Price.

London, July 12.—At Sotheby's to-day a perfect copy of the fourth quarto edition of Shakespeare's "Tragedie of King Richard the Third" was sold for £1,750 ($8,750) to A. Jackson, and it is understood that it will go to America. The price paid is higher than any sum previously paid at auction for a Shakespeare quarto. The book was printed in 1605, by Thomas Creede, and was sold by Matthewe Lawe, "dwelling in Paules Church Yard at the sign of the Fox, near Austin's Gate." It consists of forty-six leaves. It is believed that only two other copies of this edition exist. One is in the British museum and the other sold by Mr. Lilly to Mr. Halliwell, afterward Halliwell-Phillippe, and is now in the Bodleian library at Oxford, England. The example sold to-day is of peculiar interest from the fact that in five places a contemporary authograph of "Wm. Penn" is found. The signature is probably that of the celebrated admiral, the father of the founder of Pennsylvania. By the way, John F. Griffith, America's leading tragedian, will appear here on Wednesday, Dec. 19, in a particularly brilliant production of "King Richard the Third."

"The Two Johns."

It is a pleasure to announce that J. C. Stewart's funny musical farce, "The Two Johns," will be the attraction at the opera house Thursday next. Musical comedies come and go, but this farce has a wonderful hold on the theatregoers everywhere, which it will probably never lose. The company this season is said to be just first-class in every respect, including such well known people as James F. Marron, John H. Burnett, Julia Burns, Chris. Green, Harry Bulkley, Chas. Barrington, Edna Burnett, Julia Burns, Grace Dare, Marjorie Maxwell, J. F. Burns, Chris. Stout and many others.

To Punch Each Other.

New York, Nov. 26.—Following a meeting of their managers here to-day, it was announced that Terry McGovern and Young Corbett had been matched for a bout of not less than fifteen rounds, to take place during the week ending Jan. 31. Each side posted a forfeit of $1,000. Tim Hurst will referee the fight, for which bids will be accepted to Dec. 3, from places desiring the honor of being the scene of the slugging match.

River Closed.

Montreal, Nov. 26.—The closing of this season of Atlantic navigation via the St. Lawrence route, is marked by the departure from Montreal to-day of the Canadian Pacific S. S. Lake Manitoba, with six hundred and sixty passengers. This is the last passenger boat sailing from Montreal this year. The royal mail steamer Empress of Ireland, the first of the winter schedule, sails from St. John, N.B., Dec. 1.

The Hamilton Strike.

Hamiltn, Ont., Nov. 26.—All quiet here to-day, and so far there is no sign of a repetition of Saturday night's disturbances. The men arrested for taking part in the disturbances appeared in court this morning and were remanded. The street railway company did not operate to-night. It is hinted that there may be a settlement to-morrow.

CITY'S RIGHTS ARE WELL GUARDED

That Seems to Be the Opinion In Respect to the Grant of Land to Vancouver Power Co.

It is too late now to make any change in the arrangements entered into several years ago between the Vancouver Power Co. and the city of New Westminster, respecting the Lake Coquitlam lands, and a communication received from the secretary of the department of the interior at Ottawa, and submitted to the city council last evening, makes it quite clear that the old agreement must stand. The communication was in part as follows: "In reply to your letter of Sept. 15, embodying a resolution dated Aug. 20, with reference to the application of the Vancouver Power Co. for a grant of certain lands at or near Coquitlam dam, I beg to state that the matter has been very carefully considered, and the department has decided that it is now too late for the department to ignore the understanding between it and the city of New Westminster and the Vancouver Power Co., which was first confirmed by the following minute of the meeting of the council on Dec. 16, 1901: 'That the department of the interior be notified that the corporation consents to the acquisition to the Vancouver Power Co. of such lands included within the grant applied for by the corporation at the Coquitlam lake as may be necessary for the dam site and tunnel, conditional, however, on the company undertaking to use the lands for no other purpose than that aforesaid.' Letters patent bearing date Nov. 16 have in consequence been issued to the Vancouver Power Co." A detailed description of the lands followed, covering three pages of typewritten matter. After the clerk had finished reading the document, Ald. Howay moved that the communication be filed for reference. The situation at present was that the Vancouver Power Co. gets the east half of the disputed land, less the Coquitlam river, which meant about 14 acres in that piece. In subdivision 2, the company got the whole legal subdivision, less a section on which a small building had been erected, while the stream running there was also not included. This piece amounted to about 30 acres, a total of about 44 acres. The bed of the stream remained in the possession of the city, and would always be available for any work they might wish to do.

Ald. Garrett enquired whether the question of the ownership of the bed of the lake had been decided.

Mayor Keary replied that it had not. The question as to who owned the bed was still a moot one, as it might be the property of either the Dominion or the provincial government. While on the subject, the mayor remarked that he had had a conversation with Mr. MacKenzie that afternoon, and had been told that the rights of the city were well guarded. The communication was then filed for reference.

The mayor and Ald. Garrett then introduced the customary little diversion by having a heated argument, the mayor contending that Ald. Garrett had said at a public meeting that the mayor had said that Mr. MacKenzie had been asked to sign a certain document, and that he had been disappointed when it had not been done. There was absolutely no foundation for such a statement.

"You said at the lake that you were very much surprised that he had not done so," replied the alderman.

"I did not say so," retorted the mayor.

"You can deny it if you like, but I remember it quite well," was the angry alderman's final shot.

A deputation consisting of T. J. Trapp and the Rev. J. S. Henderson were present in order to interest the council in the Y.M.C.A. scheme, and incidentally to see if some concessions could not be secured. E. H. Sands was also present, though not as a member of the deputation. All the three gentlemen addressed the council, outlining the scheme in detail. Mr. Trapp, who was the first speaker, asked whether the council could see its way to granting the Y.M.C.A. free light and water, and exemption from taxes for a period of ten years. The council could not promise the deputation to grant all these favors, as a by-law will have to be submitted before it can be done, but the members were all heartily in accord with the scheme, and promised to do what they could to help the movement. A referendum is to be drafted, and will be submitted to the ratepayers at the coming election. All the aldermen vied with each other in speaking in a laudatory way of Y.M.C.A. work, and in order to put their sympathies to a practical test, M. Trapp asked permission to pass the subscription list around the council chamber. His worship and Ald. Adams have already subscribed for the movement, and were not molested, while Ald. Davies was fortunately absent. All the other aldermen were roped in, and had to endorse their sentiments in a very tangible manner. After the aldermen had been duly canvassed, his worship magnanimously permitted Mr. Trapp to bring his little book for the reporters' consideration, and that energetic worker was not at all backward. The press men ponied up in the most approved fashion, but they are secretly hoping that this practice will not be continued by every applicant for civic favors.

Ald. Shiles reported that a handrail and cleats had been placed in position at the market wharf, but that it had not been deemed advisable to place a float there, as it was likely that the present wharf would be enlarged early next year. The report was adopted.

Ald. Garrett reported having investigated the complaint that filth was being deposited on Tenth avenue. He had found out that a barrel had broken there while dirt was being carted away, and promised that it would not happen again.

Ald. Howay asked that the library catalogue be re-printed, at a cost of about $75. There had been an appropriation set aside for this early in the year. This matter was left in the hands of the chairman of the library committee, with power to act.

The resignation of J. C. Digby from the position of foreman of the electric light staff was received, and F. Eichoff appointed foreman in his stead. A letter of recommendation is to be given to Mr. Digby by the city council, he having been 14 years in the civic employ. P. Bowler, city electrician, reported that the repair wagon was badly broken down, and would cost about $35 to repair. It was decided to have the repairs made.

W. E. Mercer applied for and obtained permission to lay building material on Ninth street.

The following board of works report was approved of: That a five-foot sidewalk be constructed on the west side of Keary street, from Brunette street to Cabbin street, at an estimated cost of $1,220; that a four-foot sidewalk be constructed on the west side of Third street, from Third to Fourth avenue; that the rock on the lots at the corner of Fourth avenue and First street be crushed and laid on Third and Fourth avenues, from Fourth to Sixth streets; that the V., W. & Y. Railway Co. be requested to re-plank their tracks crossing Brunette street with suitable planking, and that they be asked to put in a new crossing between Front and Columbia streets.

London Election Case.

Toronto, Nov. 26.—The last of the London election conspiracy case was heard by Magistrate Denison in the police court, this morning, when four defendants, John Ogorman, Daniel Wiley, William J. Mulley and George M. Reid were committed for trial. Bail was accepted for them.

Yellow Jack.

Havana, Nov. 26.—Two cases of yellow fever were reported in this province to-day, and two more were found at Rhodas, Santa Clara province. The total of the cases now on the island is eleven.

WITTE DECLINES TO LEAVE RUSSIA

Threats Fail to Convince Him, and He Remains Prominent Figure in Politics.

St. Petersburg, Nov. 26.—A conference of representatives of Social Democrats from all parts of the empire has just ended in Finland. The conservative wing carried a resolution in favor of uniting with the constitutional Democrats at the coming elections, in places where the chances of success separately are admitted to be slight. In the Caucasus, Siberia and elsewhere, where the Socialists are strong, independent tickets will be nominated.

The delegates reported that the people generally were indifferent in regard to the elections. The monarchists and reactionists, finding that their threats have not driven Count Witte out of Russia, had a meeting at Moscow to-day and telegraphed directly to the emperor, asking for his expulsion from the empire. In spite of the campaign against him, Count Witte is looming up even larger on the political horizon.

BUSINESS BOOMS IN OLD VICTORIA

Banks Show Faith in Capital City by Investing Heavily—Several Big Deals.

Victoria, B.C., Nov. 26.—The Merchants bank to-day completed the purchase of the lot at the corner of Yates and Douglas streets, and will erect a bank building immediately. The Northern bank has purchased the adjacent lot on Yates street and will also build. The Sylvester Milling Co. took up their option on the building and lot next that bought by the Northern bank, and will complete their present premises to four storeys and install a modern milling plant. The Roman Catholic bishop's palace, a few doors further up Yates street, was sold to an English investor for $40,000 on Saturday. The Catholics will build a new palace on View street.

Missionary Month.

The programme in connection with the missionary month, which has been inaugurated by the management of the Queen's avenue Methodist church, is being most successfully carried on. To-morrow evening there will be a rally of the missionary forces of the church. The Woman's Missionary auxiliary, the Epworth league, Mission circle and Mission band will be represented, and special addresses will be given. On Sunday next the final meetings in the series will be held, and the speaker both morning and evening will be Rev. A. E. Hetherington, B.A., B.D., of Mount Pleasant Methodist church, Vancouver. Mr. Hetherington will also address the Sunday school scholars in the afternoon. The church is aiming to raise the sum of $1,000 for foreign missions and has every hope of realizing the amount aimed at.

Horse Outstrips Auto.

One of the employes of Thompson's livery stable had a race with an automobile yesterday afternoon along Columbia street, and came out on top in a double sense. He was on horseback, and the auto in question, coming up behind, caused the horse to take the bit between its teeth and hike, in spite of Scottie's efforts to dissuade him from it. The horse tore along the street in a manner terrifying to old ladies and young children, and not until he had got a considerable distance past the Merchants hotel did the rider manage to persuade the fiery steed to stop. The horse started to skidoo at a point near the C.P.R. telegraph office, and the auto was half a block behind at the end of the race.

For a Daily Two Bits.

Toronto, Nov. 26.—About forty metal polishers and buffers employed in the shops of the James Morrison Co., the James Robertson Co. and the Toronto Brass Mfg. Co., are on strike for an increase in wages from $2.50 to $2.75 per day.

Steamer Ashore.

Gerard, Cayman, Nov. 26.—The British steamer Corinth, Capt. Dean, from St. Lucia, Nov. 15, for New Orleans, is reported ashore near this island. She is in a bad position.

NEED MORE PERMITS FOR NIAGARA POWER

Question of Whether Companies Interfere with Grandeur of Falls Being Debated.

Washington, Nov. 26.—The companies protesting in the Niagara Falls hearing practically closed their case to-day, except for the filing of additional briefs. In the afternoon Secretary Taft heard reports of commercial bodies and of corporations which have developed power from the waters of the Niagara river, who insisted that the grandeur of the falls had not been interfered with perceptibly, nor the volume of water depleted appreciably. Secretary Taft said that, tomorrow, the applicants for permits would be heard. Assuming for purposes of argument that the permits will be granted, the decision will be on the subject of the distribution of the privileges to the various applicants.

Weather Forecast.

Lower Mainland—Light or moderate winds, generally fair and cold, with probable rain or sleet on Wednesday.

Regulating the Hindus.

A campaign against the unclean habits of the East Indians who are making their homes in deserted shacks in the west end of the city, is about to be started, and the police are about to investigate into certain allegations, from which it appears that the Sikhs are in the habit of taking their daily bath in the open air on Sunday afternoon, and that they can be plainly seen by anyone who happens to be passing. A house adjoining one of these Hindu tenements has lately been purchased by a family man, but he hesitates about moving in on account of the proximity of these undesirables.

One of these swarthy Hindus, who boasts a finished education and speaks English perfectly, informed Ald. Adams on Saturday evening that he was about to have a number of placards printed in Hindustani, calling attention to the health regulations of the city, and asking his countrymen to obey the instructions that will be given out by the police.

Official Reprimand.

Washington, Nov. 26. — Complying with instructions from President Roosevelt, Secretary Wilson, of the state department of agriculture, has administered to Prof. Willis Moore, the chief of the weather bureau, a reprimand for his action, which the civil service commission declared improper, of urging a printer named Cooper to pay certain strike assessments imposed by the typographical union. Following his refusal to pay and his expulsion from the union, Cooper was ordered by Prof. Moore to be transferred to New Orleans, but after the report of the commission had been submitted, he was ordered reinstated in the office at Washington.

East Indian Engineer.

A prominent mining engineer from Surat, India, named Nanablai D. Daru, was a visitor in the city for a few hours yesterday. Mr. Daru is one of the scientific experts whom the Indian government is sending out to visit foreign countries for the purpose of bringing back good ideas of a character workable in India. Mr. Daru has spent the past five years in England, studying in the Royal School of Mines, in London, at Gray' Inn. On his way out to the coast he visited a number of the mining districts of the province and examined the mines and their workings very carefully. He willl make a full report of his investigations to his government on his return home. Mr. Daru stated that although India had vast mining resources, they have only been worked on a very small scale up to the present time. He anticipated that on his return fuller attention would be given to developing that important branch of India's possibilities.

New Brunswick Liberals.

St. John, N.B., Nov. 26.—Hon. Mr. Emmerson has called a Liberal convention for New Brunswick, in St. John, Nov. 27. It is thought to be for party organization; but whether or not it means a general election is not stated.

Horrible Accident.

Toronto, Nov. 26.—Isaac Kilinski, Hebrew newsboy, eight years old, was literally cut to pieces by a street car which ran over him near the corner of Queen street and Palmerston avenue, Saturday evening.

QUEER LOVEMAKING.

A South American Bird Which Wins Its Mate by Dancing.

There is a bird in South America that makes love with its feet. It is a handsome creature, but walks clumsily, and the only sound it can utter is a hoarse cluck. It dances, however, in a way that wins admiration from the females of its sex, though its antics only serve as an incentive to laughter to human beings who see them.

This bird, known as the cock of the rock, lives in the northern mountainous portion of South America. It is about the size of a large chicken.

The entire bird—body, head wings and tail—is blood red in color, with the exception of the tail feathers, which have a narrow band of brown across them near the ends which are tipped with buff. On the head is a crest of feathers like a great red ball, which contracts or expands at the pleasure of its owner.

When the mating season comes seven to ten males seek some secluded spot where there is a level patch of ground and clear it of any sticks, stones or leaves, stamping down the dirt till it is hard and level.

Then they call the females, who stand at the edges of this novel arena. One at a time the males then perform a most curious dance. Each dancer will first strut up and down a few times and then, to the apparent delight of the rest, commence to caper around in an extremely ludicrous manner, spreading his tail and wings, puffing up his crest, bowing to the others and at the same time keeping up a hopping gait until he is exhausted.

When all the males have danced each female will choose a mate, and the happy pairs depart to begin housekeeping.

ARTIFICIAL FLOWERS.

Each Part of the Larger Ones Is Made by Specialists.

Artificial flowers were invented by pious nuns. In the Italian convents the altars and shrines were up to the end of the eighteenth century decorated with artificial flowers, laboriously put together, of paper, parchment and other stiff materials. In a Venetian warehouse the most wonderful productions of natural flowers are exhibited in glass cases, and in many cases, not only the richest and most brilliant colors, but the very scent of the flowers has been stolen from nature, for some of the artificial flowers are steeped in the perfume distilled from the flower which it represents. Last century a Swiss invented a machine for cutting out the leaves and petals, but it can only be used for the smaller kinds, such as are wanted for hyacinths, lilies of the valley and other small flowers. In larger petals the irregularities of manual work are preferred to the stiff and correct forms produced by machinery. This material of which the petals are made is woven in special factories. The scissors and other tools used by the girls employed as well as the presses in which the veins are traced on the leaves are of a shape specially adapted to the work. Each part of a flower is made by specialists. In one room, for instance, only stalks of flowers and leaves are made; in another, fruits and berries of all kinds are cast if they are wax or blown if made of glass. The cleverest workers are employed in making blossoms of the single petals and bouquets, wreaths and garlands of the single blossoms.—Dundee Advertiser.

First Tariff Makers.

If you turn to a map of Spain, you will take note at its southern point and running out into the strait of Gibraltar of a promontory which from its position is admirably adapted for commanding the entrance of the Mediterranean sea and watching the entrance and exit of all ships. A fortress stands upon this promontory, called now, as it was called in the time of the Moorish domination in Spain, Tarifa. The name is of Moorish origin. It was the custom of the Moors to watch from this point all merchant ships going into or coming out of the midland sea and to levy duties according to a fixed scale on all merchandise contained therein. This duty was called from the place where it was levied "tarifa," or tariff.

Arnold's Comment.

As school inspector Matthew Arnold was examining a class in geography one day, and, holding up the poker with which he was about to stir the fire, he asked if any child could tell him where it was manufactured. There was a long silence, broken by the schoolmistress, who remarked nervously that such information was not mentioned in Cornwell's geography. "No," said Arnold; "Cornwell's an ass!"

The Entertainer.

"My wife is a lecturer, and I am an entertainer," said Hobbs.

"Indeed? I knew your wife appeared in public, but I did not know that you ever did."

"Oh, I don't. I stay at home and entertain the baby."

Effect of High Living.

Goodman Conrong—Wake up, pard. Wot ye groanin' about? Tuffold Knutt (rubbing his eyes)—Gosh, but I've had a hor'ble dream! I thought I'd got a job o' work an' wuz doin' the manicurin' fur a octopus.—Chicago Tribune.

Impossible.

First Duke—Why don't you travel incognito, as I do? It's far pleasanter. Second Duke—Yes, but my wife always goes with me, and I married an American.—Pick-Me-Up.

Luck follows the hopeful; ill luck, the fearful.—German Proverb.

Timber Notices

Notice is hereby given that 30 days after date I intend to apply to the Hon. Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situated on Kildala Arm, Coast District, B.C.

No. 7—Commencing at a post planted about one mile from the head of Kildala Arm, on the south bank of the Arm, running as follows: 80 chains south, 80 chains east, 80 chains north to shore, then along shore to point of commencement.

No. 8—Commencing at a post planted about one mile up Fall creek, on the east bank of creek, running as follows: 80 chains east, 80 chains south, 80 chains west, more or less, to creek, then along creek to point of commencement.

No. 9—Commencing at post planted about one mile up Fall Creek, on east bank of creek, joining No. 8 claim on west line, running as follows: 160 chains south, 40 chains west, 160 chains north, 40 chains east to point of commencement.

No 10—Commencing at post planted about 4 miles up Dala River from its mouth, on the north bank of river, then running as follows: 40 chains west, 80 chains north, 120 chains east, 40 chains south, more or less, to river, then along river to point of commencement.

No. 11—Commencing at post planted about 6 miles up from the mouth, on the north bank of Dala River, running as follows: 40 chains north, 80 chains east, 40 chains north and 80 chains east, 40 chains south, more or less, to river, then along river to point of commencement.

No. 12—Commencing at a post planted about four miles up from the mouth of the Dala River, on south bank, running as follows: 40 chains east, 40 chains north, 120 chains east, 40 chains north, more or less, to river, then along river to point of commencement.

No. 13—Commencing at a post planted about one mile from the head of Kildala Arm, on south bank, running as follows: 40 chains south, 40 chains west, 40 chains south, 40 chains west, 40 chains north, 40 chains west, 40 chains north, more or less, to shore, then along shore to point of commencement.

No. 14—Commencing at a post planted about one-half mile from the head of Kildala Arm, on the north bank, running as follows: 40 chains north, 40 chains east, 40 chains south, 120 chains east, 40 chains south, 120 chains west to shore, then along shore to point of commencement.

No. 15—Commencing at a post planted about one mile up from the mouth of the Dala River, on east bank, running as follows: 80 chains east, 40 chains north, 40 chains east, 40 chains north, 40 chains east, 40 chains north, more or less, to river, then along river to point of commencement.

No. 16—Commencing at post planted at the mouth of Dala River, Coast District, on west bank, running as follows: 40 chains west, 80 chains north, 120 chains east, 40 chains south, more or less, to river, then along river to point of commencement.

No. 17—Commencing at a post planted on the west bank of the Kittimat Arm, about twelve miles south of Kittimat Indian Village, opposite Goat Island, at mouth of Kildala Arm, running as follows: 40 chains north, 40 chains west, 40 chains north, 40 chains east, 40 chains north, 40 chains east, 120 chains to point of commencement.

No. 18—Commencing at a post planted about 20 chains south of post of Claim No. 17, running as follows: 40 chains west, 80 chains south, 40 chains west, 80 chains south, 40 chains east, then along shore to point of commencement.

No. 19—Commencing at a post planted about one mile up from the mouth of Deer Creek, on Devastation Channel, situated about eight miles south of Kildala Arm, running as follows: 40 chains east, 80 chains north, 40 chains east, 40 chains north, 80 chains west, 120 chains south, to point of commencement.

Oct. 24, 1906.

WHY PAY RENT?

An Englishman's home is his castle. No doubt every man's home is the same, and if you have not got one of your own, give us a call. We can find you one, with a small payment down and balance made easy like rent; but with more satisfaction than paying to a landlord each month. We have a good list, all parts of the city and district. The farms we have for sale are the best.

Investors, Investigate

20 acres water front, 660 ft. on Fraser River, 800 ft. on Brunette, just above the can factory, Sapperton. Price **$10,000**, $2000 cash, bal. at 7 per cent. The only water front on the market this side of the river within the city limits.

James Inlet, three square miles, at $6.00, half cash, balance easy.

480 acres, Maple Ridge, Sections 28, 29 and 32, Township 9, one-half prairie, rest brush and some small trees. Prices: Section 32, $45 per acre; Section 29, $60 per acre; Section 28, $55 per acre. Telephone at Hammond; telegraph station, Pitt River Bridge. Terms, half cash, balance one and two years at 7 per cent. Exclusive agency.

67 acres, Hornby Ranch, Nickomekl, house cost $2,500 when built, 20 acres cleared. Price only $3,000, half cash, balance easy.

TABLE NAPKINS.

They Came Into General Use In the Fifteenth Century.

Curiously enough, that article, now considered almost indispensable, the table napkin, was first used only by children and was only adopted by elder members of the family about the middle of the fifteenth century. In etiquette books of an earlier date than this among other sage pieces of advice for children are instructions about wiping their fingers and lips with their napkins.

It seems that the tablecloth was long enough to reach the floor and served the grown people in place of napkins. When they did begin to use napkins they placed them first on the shoulder, then on the left arm and finally tied them about the neck. A French writer who evidently was conservative and did not welcome the napkin kindly records with scorn:

"The napkin is placed under the chin and fastened in the back, as if one were going to be shaved. A person told me that he wore his that way that he might not soil his beautiful frills."

It was a difficult matter to tie the two corners in the back, and it is said that thence originated our expression for straitened circumstances, "Hard to make both ends meet." This custom led to the habit of table waiters carrying a napkin on the left arm.

Tennyson's Astronomy.

In Tennyson's "Palace of Art" occur the lines:

She saw the snowy poles and moons of Mars.
That mystic field of drifted light
In mid Orion, and the married stars.

This at first looks like a literary parallel to Swift's well known fortuitous forecast of the discovery of the Martian satellites, and J. S. Stevenson, writing from Mairavon, Norwood, Ceylon, points out that Professor H. H. Turner quotes it in "Modern Astronomy" as having been written in 1835. This, however, appears not to have been the case, for Mr. Stevenson on reference to the biography of the late poet laureate by the present Lord Tennyson has found the note: "The 'Moons of Mars' is the only modern reading here. All the rest are more than half a century old." Scientific discovery was thus not anticipated by Tennyson in the mention of Martian satellites.—Nature.

In Good Season.

In a place in New Jersey the town officers had just put some fire extinguishers in their big buildings. One day one of the buildings caught fire, says the Philadelphia Ledger, and the extinguishers failed to do their work.

A few days later at the town meeting some citizens tried to learn the reason.

After they had freely discussed the subject one of them said, "Mr. Chairman, I make a motion that the fire extinguishers be examined ten days before every fire."

CHINESE HATRED BREAKS OUT ANEW

Threatened Lien Chow Missionaries Supposed to be Priests, Not Presbyterians.

New York, Nov. 26.—Dr. Arthur Judson Brown, secretary of the Presbyterian board of foreign missions, was shown the Associated Press despatch from Canton, China, relative to the renewal of hostile demonstrations against missionaries in the Lien Chow district. He said that so far as the board knows there are at present no Presbyterian missionaries in Lien Chow, other than Chinese converts. He said:

"I think that undoubtedly the demonstrations, if such exist, are directed against French Catholic missionaries, there being several priests stationed in and about Lien Chow. I know of no other religious bodies at work about Lien Chow. Our missionaries since the outbreak of October last year have been in Canton."

"Jerry from Kerry."

The Daily Reporter, Minot, N.D., says: The production last evening at the opera house of "Jerry from Kerry" was in simple words a "crackerjack." The evening's entertainment was one of the best ever witnessed in our city, and it is safe to say that there was not a dissatisfied person in the audience. Besides the troup they carry a fine band and orchestra, whose music was very much enjoyed by the citizens of Minot.

Big Fire.

Sturgeon Falls, Ont., Nov. 26.—The McArthur block, the chief business structure of the town, was destroyed by fire last Saturday. Loss $40,000; partially covered by insurance.

AT THE HOTELS.

THE FISHERY RECOMMENDATIONS.

As we anticipated, the Columbian sees in the proposals of the fishery commission nothing but a chance to make political capital against the Ottawa Government, and to work off a little personal spleen. In order to do this, it tries to persuade its readers that the time for protest has passed. We shall have more to say as to that by and bye; but in the meantime, we wish to emphasize the point that the time for protest is NOW. The fact that the "minority commissioner" is the managing director of this paper would discount to a certain extent any protest which came merely from the Daily News; and for that reason we do not care to enter into the matter more fully now. He must be a blind man, however, who does not see that the effect of the proposed extension of close time on the river would be very prejudicial to the interests of New Westminster, and the sooner the citizens take steps to defend their interests, the better.

FAIR PLAY'S A JEWEL.

The South African football team, touring the old country, have made, so far as the score goes, as good a record as the New Zealanders, up to last advices, and in the matter of their manner of playing, a much better one. There were few games of the New Zealanders which were not followed by sharp discussion and bitter feeling; but the case is very different with the men from the Cape. Here is what a paper which gives a full record of their performance so far, has to say on that point:

"One point alone remains to be noted. The methods of the South Africans are scrupulously fair. They play, it is true, a keen and vigorous game, but their footer is as honest as it is hard. Their success thus leaves none of the bitterness and calls for none of those comments which the similar success of the New Zealanders compelled conscientious critics to make in the interests of 'the good old game,' which, splendid exercise as it is, is not worth playing except in the proper spirit. That spirit is playing fair for sheer love of fairness, and playing hard in all good nature and good fellowship. All this the South Africans do."

And so doing, set an example worthy of imitation in other things besides football.

The letter of "Englishman" cannot be published unless the writer sends us his name. If his statements were challenged, the Daily News would be unable to give any authority unless it knew from whom the statements came.

We wish to call attention to the ending of the case of Rex vs. Morrison. At present we have time only to note that Mr. Morrison, a well-known and responsible citizen, has been subjected to a great deal of expense, trouble and annoyance by a Government prosecution which ends by the announcement that the Government has dropped the case. The Daily News was sneered at and denounced for describing this prosecution as a piece of political malice; if it had any better foundation, why has it been dropped?

Proverbs of Assam.

Here are some rather clever proverbs of Assam: "The best crops grow on others' fields, but the best sons are at home." "A bird is a little thing, but it builds its nest on a lofty hulung tree." "Buy land which slopes to the middle, and marry a girl who has a good mother." "The biggest jack fruit always hides under the leaves." "If a man slips down it is always his eldest wife's fault, but if his youngest wife makes a mistake he says he will see about it." "A hasty cook, a hasty broom, and the husband goes fasting; a slow cook, a slow broom, and the husband eats three meals a day."

For the table, get WINDSOR TABLE SALT. Every grain a perfect crystal. Absolutely pure, clean and never cakes.

PASSING OF THE LION.

Once Mighty Brute Losing Ground Before Civilization.

The lion, like the other great cats, is a relic of a dimirishing race and dominion. In the early stone age the "cave" lion roamed throughout the southern half of Europe, and it is believed that along the Mediterranean, at least, its extinction was due to prehistoric man.

The battle has gone on ever since. Long ago lions were exterminated from Afghanistan, Baluchistan and northern Persia. A century ago they were more or less prevalent on northwestern India, but now none remain save a few in the Gheer, a wooded hilly tract of Kattiawar, where they are "to some extent preserved by the nawabs of Joonaghoor;" Farsistan, where the marshes about Niris lake afford shelter and the hosts of pigs feeding on the acorns of the oak forests furnish subsistence.

Similar conditions enable a few lions to maintain themselves along the lower Euphrates and Tigris, but they were long ago exterminated from all Asia Minor, Syria, Arabia, Egypt and Algeria. From Abyssinia and the southern Sahara southward to the Orange river lions still exist except in the most populous districts, and in some places are very numerous.

There seems never to have been more than one species, nor, in spite of the former belief in the "maneless lions of Guzerat" and the "black maned" ones of other places, is any variety well localized. Lions with full manes have been shot in India as well as those with hardly any, and "out of fifty male lion skins scarcely two will be found alike in color and length of mane."—Ernest Ingersoll's "Life of Mammals."

THE FLAG REVERSED.

A Fisherman's Emblem That Tells of Distress and Hope.

One of the frequent sights in the ports along the eastern coast is that of a fishing schooner coming into the harbor with an American flag hoisted at the mainmast head in its reverse position. To the interested spectators that flag always brings a pang of distress, for it means that one or more of the crew are "missing" through some calamity of the sea. But to the members of the craft itself the signal is not always an emblem of woe. The flag is hoisted, from their viewpoint, to notify those concerned that the complement of the ship is not full, and they live on hope for a long time before they acknowledge that the men who have disappeared are really lost.

A stranger to seafaring ways asked the skipper of one of these fishing schooners the other day what the distress signal meant, and he was set right by the captain, who remarked in the most cheerful way in the world:

"They're missing out of th' crew, of course, but we haven't given them up by a long sight. Ye see, they may have been picked up by some other boat an' carried off to th' other side. Oh, no, we don't give them up just because we've missed them! It's more than likely they'll turn up yet."—New York Press.

He Went.

"Like most men," he said, "I have my shortcomings, I suppose, but"—

"Oh, it isn't your shortcomings father objects to!" interrupted the girl. "It's your long stayings."

His Fatal Blunder.

"Why did you think he had been drinking? He didn't show it."

"Not until he went out of his way to prove that he hadn't."—Philadelphia Press.

FARMERS!

The Fraser River Tannery PAYS THE HIGHEST PRICE FOR HIDES.

Local News Briefly Told

Bulbs of all kinds and cut flowers, at S. G. Tidy's, phone A184. dcf

A. Hardman has opened up temporary business quarters in the premises formerly occupied by Mallins & Coulthard.

James Feeney and C. G. Washburn, of Hazlemere, sub-contractors in connection with the G.N.R. extensions, were in the city yesterday on business.

The Queen City left port yesterday forenoon with a full cargo of general merchandise and live stock. Among other things was a large consignment of live sheep for Victoria.

William Powers, of Sapperton, was placed under the drunkards protection act in the police court yesterday morning, having been proved to be an inebriate within the meaning of the act.

Sauerkraut for sale at Reichenbach's.

On account of the removal from the district of a large number of the residents of the Boundary school district, the advisability of removing the school building to Abercrombie's corner is discussed.

The Small & Bucklin Lumber Co. has been awarded the contract for supplying the lumber for the buildings and stables required by the contractors who are working on the Cloverdale extension.

H. M. Vasey, of Ladner, has left for Kamloops, where he expects to collect over 100 head of range stock, which he will bring back and distribute among his neighbors in the Delta district for winter grazing purposes.

Several instances of horses slipping on the frosty roads up the hill have been reported during the past few days, and careful teamsters are having their horses "sharpened" in order to escape all danger of an accident.

The big freshet which has been keeping the river full for the past six weeks has commenced to drop off almost as fast as it came. The river was lower yesterday, and the tide ran in more strongly than it has done for weeks.

Our lard is the extract of pure hog fat. It is as pure as it is white. Try it. Reichenbach & Co.

The Fraser River mills were compelled to close down yesterday morning owing to the fact that there were no logs available. With the rising tide in the afternon a boom was brought in, and the big saws buzzed once more.

P. Bowler, the city electrician, has received a telegram announcing the death of his father at Montreal on Sunday last. The deceased gentleman had reached the advanced age of 82, and had resided in Montreal for the past 45 years.

According to the Delta Times, the veteran reeve, William Ladner, of Ladner, is to be given a good long run for his money at the forthcoming municipal election at that place. H. M. Vasey is being pushed forward by his friends to run for the reve's chair.

Waldo E. Holmes, representing the Seattle Fir Company, was in the city a couple of days ago on business in connection with his company's contract for supplying ties for the Cloverdale extension. The company has a large number of men at work in the Cloverdale district.

Sauerkraut for sale at Reichenbach's.

The residence of William Holmes, of Crescent island, has been destroyed by fire. The flames made such rapid headway that the residents were only able to save the clothing they stood up in. he fire occurred just after dark on Friday, and is supposed to have been due to a defective chimney.

The snag boat Samson was coaling up at Gilley's wharf yesterday and will leave to-day for Port Haney and Port Hammond. A pile driver and a supply of piles will be taken along, and the banks of the river and wharves at the two places mentioned are to be repaired and put in shape generally.

A meeting of all the supporters of the Liberal party is called for in the Liberal Club rooms on Thursday night. The object of the meeting will be to select a candidate to represent the Liberals of this city in the forthcoming Provincial election campaign, and also to deal with any other matter of business which may be brought before it.

Our lard is the extract of pure hog fat. It is as pure as it is white. Try it. Reichenbach & Co.

The committee in charge of the proposed Y.M.C.A. building have communicated with the directors of the Y.M.C.A. at Revelstoke, requesting that the plans of that building be sent to them so that they may be able to glean pointers on the proper construction of the building. The plans are expected to arrive within the next few days.

A meeting of the G.C.T.U. will be held to-morrow at 3 p.m. at the residence of Mrs. F. P. Maxwell, corner of Seventh street and Fourth avenue. All the members are requested to be presnt, as important business is to be discussed. Among other matters to be attended to will be the appointment of superintendents of the various departments.

The people of Chilliwack are getting very anxious on the question of their boat landing. The slackening off of the freshet has barred them out from their regular landing stage on account of sand drifting in. The various passenger boats are finding it necessary to make their landings at a point a considerable distance this side of the regular wharf.

Sauerkraut for sale at Reichenbach's.

George Grimstone, of the B.C.E.R., has been cherishing a secret for nearly two weeks, and his chums consider that they have a grievance against him. Another daughter was born into his family about two weeks ago, and his friends are insinuating that he has been keeping the secret locked within his manly bosom because he wants to keep out of putting up the treats.

An engine, apparently new, appeared at the C.P.R. station yesterday, numbered 131. The tones of the bell sounded very familiar, and it did not take the habitues of the water front long to discover that the engine was the same old No. 20, with a new dress and a new number. Old No. 20 is one of the oldest engines on the system, has seen many years of active service, and is still good for a great many more years.

The government dredge, the King Edward, came into port yesterday and tied up at the government wharf. The old pump, which has done duty for a number of years, will be removed and a new one will be installed. he work of installation will take about three weeks, after which the dredge will be in shape to stand several years of efficient service. The action of the dredge on the completion of the repairs is not yet a public matter, but it is understood that the work on the Annieville bar will be continued, until the job has been made as near complete as possible. The pontoons with the pipe conveyers are left at the scene of action, in readiness for the resumption of work.

A MEETING

Will be held at the

Liberal Committee Rooms

—ON—

Thursday, Nov. 29th

For the purpose of

Nominating a Candidate

to represent the Liberal interests at the next election.

All friends and supporters of the party cordially invited to be present.

THE JEWELER Columbia Street

THE GOLDEN FLEECE.

Most Highly Prized of the Surviving Orders of Chivalry.

Of all the orders of mediaeval chivalry which have survived the shock of successive revolutions on the continent of Europe since the great cataclysm of 1789, that of the Golden Fleece is perhaps the most distinguished and the most highly coveted by personages of royal birth or of illustrious patrician lineage.

The badge of the order is the figure of a sheep in embossed gold suspended from a heavy chain of gold. The full robes consist of a long mantle of crimson velvet, cut in the fashion of a sacerdotal cope, richly embroidered at the borders with emblematic devices of stars, half moons and fleeces in gold and lined with white satin, over a doublet and hose of crimson damask. The full robes also comprise a "chaperon," or hood, with a long flowing streamer of black satin, but this headgear has in modern times been generally dispensed with.

Originally the robes of the order, which was founded in 1429 by Philip the Good, duke of Burgundy, were of crimson cloth lined with white lamb's wool, and this circumstance has somewhat strengthened the theory that the golden fleece was instituted by Philip the Good in grateful recognition of the immense treasures which the Duke of Burgundy had acquired from the wool of the flocks reared on his vast estates in Flanders. Be it as it may, the woolen costume was changed in 1473 at a chapter held at Valenciennes for the more costly materials of velvet, taffeta, damask and gold embroidery.—London Telegraph.

City Elections.

Notice is hereby given to the Electors of the City of New Westminster that I require the presence of the said Electors at the City Hall, on

Monday, the 3rd day of Dec., 1906

at 11 o'clock a.m., for the purpose of electing a Mayor and three School Trustees for the year 1907, and at 12 o'clock noon of the same day, for the purpose of electing seven persons as Aldermen for the said year of 1907.

The mode of nomination shall be as follows: Each candidate shall be nominated in writing; the writing shall be subscribed by two persons as proposer and seconder, who shall be duly qualified electors and residents in the city; and such nomination paper shall contain a statement signed by the person nominated, that he consents to such nomination. The nomination papers shall be delivered to the Returning Officer at any time between the date of this notice and (in the case of Mayor and School Trustees) 12 noon of the 3rd day of December, or (in the case of Aldermen) 1 o'clock p.m. of the same day.

In the event of a poll being necessary, such poll will be opened on the 10th day of December, 1906, at 9 o'clock a.m., and will remain open until 5 p.m. of the same day, at the following places: The Council Chamber, City Hall; the Fire Hall, Sapperton; and at the Light Station, Tenth street.

Of which every person is required to take notice and govern himself accordingly.

Given under my hand at the City Hall, New Westminster, the 22nd day of November, 1906.

W. A. DUNCAN,
Returning Officer.

220—10d

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

COAL—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

QUARTZ—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode, or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2½ per cent. of the sales of the products of the location.

PLACER MINING—Manitoba and the N. W. T., excepting the Yukon Territory: Placer mining claims generally are 100 feet square, entry fee $5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the Rivers of Manitoba and the N. W. T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below any low water mark, and subfor first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of the mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1000 feet in length, aand if the party consists of two, 1500 feet altogether, on the output on which no royalty shall be charged the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the ject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee can dredge to high-water mark on each alternative leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction thereof is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent. collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of 20 years; also renewable.

The lessee's right is confined to the submerged bar or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile Yukon Territory to be paid to the comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been abandoned, anad open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropiated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely, 1280 acres, will be sold at the rate of $3 an acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY.
Deputy of the Minister of the Interior.
Dept. Interior.

Synopsis of Canadian Homestead Regulations

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans.

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY.
Deputy Minister of the Interior.

PART IV.

"WATER CLAUSES CONSOLIDATION ACT, 1897"

Whereas the Stave Lake Power Company, Limited, a specially incorporated company within the meaning of Part IV. of the "Water Clauses Consolidation Act, 1897," incorporated on the 15th day of September, 1899, was granted a Certificate, dated the 7th day of December, 1904, approving the proposed undertaking of the Company, namely:

To erect works for generating power and light on the west half of Section 19, Township 18, east of the Coast Meridian, and on the east half of Section 24 of Township 15, east of the Coast Meridian; to construct a dam at Stave Lake, in the District of New Westminster, on the north half of Section 14 of Township 4 of Range 3, west of the 7th Meridian, for impounding a reserve of water; to transmit power and light by wire along the Stave River from the power station to the centre section line of Township 15; thence along the centre section lines of Townships 15, 12 and 9 in a westerly direction to the New Westminster Trunk Road, and following the Trunk Road until west of the Pitt River; thence to the Cities of New Westminster and Vancouver or to such other point as may be found advisable. To use water from the said Stave River at a point immediately above the Falls, about six miles from the mouth of the river. The said water to be diverted by means of a cofferdam and a sluice dam at the entrance to the east branch of the said river; also of a dam with a bulkhead and inlet works at the entrance to the west branch, where the water will be conveyed in steel pipes to the powerhouse, and returned to the said river at a difference of elevation of 100 feet; and

Whereas the Company commenced operations in the early part of 1906 which have been prosecuted continuously; and

Whereas the Company has obtained an extension of time for the completion of that portion of the undertaking authorized under the said certificate, which is now in progress; and

Whereas the Company has intimated that a change in the plans of the undertaking specified in the said certificate has been decided upon, and has filed with the Clerk of the Executive Council data for the purpose of obtaining a further certificate and a general plan of the works:

1. This is to certify that the undertaking as submitted has been approved, and that the same is as follows:

To erect works for generating power and light on the west half of Section 19, Township 18, east of the Coast Meridian, and on the east half of Section 24, Township 15, east of the Coast Meridian; to transmit power and light by wire along the Stave River from the power station to the centre section line of Township 15; thence along the centre section lines of Townships 15, 12 and 9, in a westerly direction, to the New Westminster Trunk Road, and following the Trunk Road until west of the Pitt River; thence to the Cities of New Westminster and Vancouver, or to such other point as may be found advisable. To use water from the said Stave River at a point immediately above the Falls, about six miles from the mouth of the river. The said river to have a sluice dam at the entrance to the east branch of the said river; also a dam, with a bulkhead and inlet works, at the entrance to the west branch, where the water will be conveyed in steel pipes to the power-house and returned to the said river at a difference of elevation of 100 feet.

2. And this is further to certify that the Company proposes to begin their undertaking by the necessary excavation and the construction of a cofferdam across the mouth of the west branch of the Stave River, in accordance with the plans prepared by William Kennedy, Jr., Hydraulic Engineer, and filed with the Clerk of the Executive Council.

3. And this is further to certify that the amount of capital of the Company which will be duly subscribed and paid up before the said Company commences construction of that portion of their undertaking in the preceding paragraph mentioned, or further exercises any of the powers of the "Water Clauses Consolidation Act, 1897," Part IV., in that behalf, is hereby fixed at the sum of $100,000, and the further amount of capital to be subscribed and paid up above the cost of the first-mentioned portion in respect of the remainder of the undertaking before the same is commenced shall be $200,000.

4. And this is further to certify that the time within which the said capital, viz., $100,000, is to be subscribed, is fixed at June 1st, 1907, and the time in which the said undertaking and works are to be commenced is fixed at June 1st, 1907, and the date by which a portion of said work shall be completed so as actually to furnish and deliver 5,000 electrical horse-power, is fixed at November 1st, 1908, and the date by which all the said proposed works shall be in operation is fixed at November 1st, 1912.

Dated this 31st day of October, 1906.

FRED'K J. FULTON,
Clerk of the Executive Council.

WOMAN ATTEMPTS PUBLIC MURDER

Fashionable Paris Promenade Startled by Shooting of Prominent Diplomat.

Paris, Nov. 26.—Pierre Merlou, who was minister of finance in the Rouvier cabinet, and who was appointed French minister to Peru last September, was shot on the Boulevard des Italiens to-night by a woman named Allemagne. The woman fired four shots from her revolver at M. Merlou, two of which struck him in the fleshy part of one of his legs, but the wounds are not dangerous. The woman was arrested and declared her act was one of vengeance. The police believe Allemagne is the same woman who attempted M. Merlou's life several years ago, and who created a scandal in the chamber of deputies while he was serving as finance minister.

The Westminster Bridge.

To the Editor of the Daily News:

Sir,—References, in the press, show that many persons would gladly make the bridge across the Fraser at New Westminster free to the public, at least that part of it used by vehicles and foot passengers. This question is of provincial importance, as it affects the annual income derived from exacting a toll from all who travel on foot or otherwise. It is said the income, after paying the salaries and other expenses, amounts to something like $6,000 annually, a small matter in the total revenue of the province. Perhaps 75 to 85 per cent. of this amount is a direct tax levied on the farmers who live on the Surrey side of the Fraser. This means that children crossing to make small purchases for their parents; women carrying a few dozen eggs or pounds of butter to market; men with cabbages, potatoes, straw and other products, and others who for the most part are poor people struggling for a living, must pay a tax that bears heavily upon them. The result is, first, a burden that presses on those who labor to produce the foodstuffs required in New Westminster and Vancouver; second, an increase in the cost of food supplies to the consumer; third, a positive hindrance and annoyance to those crossing the bridge. In cold and rain, people walking or riding do not relish waiting until those in front of them pay and receive the proper change. This at times is the cause of discomfort and injurious delay. The province is wealthy and prosperous enough to do away with the toll, and throw the bridge open freely to the public. Vancouver as well as New Westminster would profit by such a change. Perhaps if the government were properly approached the suggested change could be secured without delay.

The Wearing of Hats.

More or less of a modern habit is the constant wearing of hats. Even as late as 1759 Horace Walpole mentions as a matter of course that he never wears a hat. "Remember," he says, writing to a friend notoriously careless about his dress, who was expected home from Holland, "everybody that comes from abroad is supposed to come from France, and whatever they wear at their first reappearance immediately grows the fashion. Now if, as is very likely, you should through inadvertence change hats with the master of a Dutch smack in a week's time we shall all be equipped like Dutch skippers. You see, I speak very disinterestedly, for, as I never wear a hat myself, it is indifferent to me what sort of a hat I don't wear."

Napoleon's Tomb.

The windows in the Chapel of the Invalides in Paris, where the great Napoleon lies buried, are of a singularly translucent amber glass. When the sun shines full upon them the rays are transmuted into gold, and they fall like a ladder of light upon the bronze sarcophagus of the conqueror until he seems glorified from the skies.

The Purse.

The invention of the purse was doubtless contemporaneous with that of money. The purse is mentioned in Old Testament history as a part of a traveler's outfit. When the disciples, spoken of in the gospels, were sent forth to preach they were commanded to take neither gold nor silver nor brass in their purses.

Navigating the Air.

Nantes, France, Nov. 26.—Lebaudy's dirigible war balloon, La Patrie, made another flight to-day from here, covering a distance of nearly sixty miles.

Our lard is the extract of pure hog fat. It is as pure as it is white. Try it. Reichenbach & Co.

SOCIAL AND PERSONAL

Matter intended for this column should be addressed, "Social Editor, Daily News, P. O. Box 402, New Westminster."

A dance will be given in St. George's hall on Friday evening by the dancing class which has been conducted during the past few weeks by Mrs. Watson and Miss Peele.

H. Downing, of Hazlemere, was a visitor in the city on Sunday. He was the guest of Mr. and Mrs. P. Stephens. He returned home to Hazlemere yesterday, where he is engaged in getting out ties.

Mrs. Holt gave a small bridge party on Saturday evening. Those present were Mrs. Coulthard, Mrs. Gaynor, Mrs. Yeungling, Mrs. DeWolf Smith, Mrs. Gordon, Mrs. Graeme and Mrs. Malins.

The young ladies' sewing club met yesterday at the residence of Miss Alma Lewis and accomplished a large amount of work. The articles made at these meetings and their destinations are, of course, shrowded in mystery, but it is safe to say that there will be many pleasant surprises on Christmas morning. The members present were Miss Eleanor Brown, Miss Veda Leamy, Miss Constance De Wolf Smith, Miss Muriel Shildrick, Miss Muriel Cotton, Miss Lillooet Armstrong, Miss Vera Corbould, Miss Josephine Martin, Miss Alice Rickman and Miss Gertrude Brown.

The engagement is announced of Miss Lorne Ross to Dr. William Workman. The wedding ceremony will take place in St. Andrew's church on Dec. 5.

Stanley Spring, who was injured by an explosion last Friday, is progressing favorably.

A. Clarke, of Stave River, a member of the firm of Clarke Bros., loggers, was in the city yesterday on business.

C. C. Cliff, manager of the Western Canadian Can factory, will leave today for Calgary on business.

Arrangements are being made by the young people of St. Peter's cathedral for the holding of the annual Christmas party on Dec.26, and a committee is about to be drawn up for the purpose of arranging details in connection with the entertainment and Christmas tree which always accompanies this function.

Water Application Dismissed.

The application of Murdoch McLean for 200 inches of water from Nicholson's slough for lumbering purposes came before Water Commissioner C. C. Fisher yesterday afternoon and was dismissed. The applicant was very late in appearing, and the water commissioner was just about to dismiss the application when McLean appeared. D. Nicholson, James Ryder and August Schroeder were present to protest against the application being granted on the ground that it would injure their property and would make it difficult to get logs out of their bush. The granting of the proposed application would block them out of their privileges and would injure their properties. In view of these objections, Mr. Fisher dismissed the application. McLean said that he thought that he might be able to make some other arrangements in order to meet the needs of the case.

ADDITIONAL LOCAL NEWS

Mr. and Mrs. W. H. Smith were somewhat anxious yesterday about their son Malcolm. The youth, who is about fifteen or sixteen years of age, left home on Sunday afternoon to visit his aunt in the Blue Mountain district. So far as they could discover, he had not visited at his aunt's, and he had not arrived home last evening. The lad had his Sunday clothes on and had no money in his pocket when he left home.

H. Holman, of Gladstone, Man., was a visitor in the city yesterday. He stated that he had had a very successful year on his stock farm near the town of Gladstone, and that stock was now bringing a higher price on the market than it had done for the past two years. He proposed returning to Manitoba in February, and he might possibly move his family west before another year if he succeeded in selling out at a suitable figure.

The case of Ray, the alleged cheque forger, came up before the police magistrate yesterday morning, when the accused elected to apply for a speedy trial before a judge. Ray was identified as the man who passed bogus cheques by James Cunningham, D. S. Curtis, A. McDonald and G. O. Boutillier. Ray was sentenced to five years' imprisonment in Whatcom for forgery in 1904, but was liberated on parole last March, and he is known as a man with a bad record.

An insane woman from Vancouver island named Mrs. Robbins was brought in to the lunatic asylum yesterday in a straight jacket. The poor creature is suffering from some religious mania, and is very violent at times. She has been in the asylum several times before, and each attack seems to be more serious than the preceding one. The woman's hallucination yesterday was that she was Maud, the famous Arizona kicker. She called attention to her long ears and indulged in frequent hee-haws.

Definite steps toward the formation of a chess club are to be taken at a meeting of all interested in the Royal game which is to be held at the library on Wednesday evening at 8 o'clock. Permission has been granted to the club to have the exclusive use of one of the two rooms used for chess and checker games at the Carnegie library on two or more evenings every week, and it is expected that on Wednesday evening a regular association will be formed, and officers elected. All interested in the game of chess are particularly invited to be present.

The plant of the Chilliwack Lumber Co. was sold yesterday by the owners to Joe Cameron, of Sapperton. The mill stood near the Vedder creek, and the recent floods had caused some uneasiness as regards its safety, but all danger from that source is now past. It is Mr. Cameron's intention to have the machinery moved to Mission, where he has large timber holdings, and he will commence to take away the plant shortly after Christmas. The partners in the company were H. Pollard, J. Rannie and G. S. Blakeley, all of this city. The price was in the neighborhood of $3,500.
