

MAYOR KEARY GIVES ANNUAL ADDRESS

Comprehensive Speech, Chief Magistrate Traces Progress of City During Past Year, and Urges Upon Aldermen Necessity of Working Together in Harmony

Following the time honored custom of former councils, seven aldermen imposed themselves comfortably at the first business session of the year last night to listen to the municipal speech from the throne. His worship's address, reproduced in full below, was a most comprehensive summary of the business transacted by the council of the past year, and of the requirements which the progress of the city demanded from the present civic executive. The need of development through the improvement of the waterways, the extension of the sewerage system, and the necessity for greater educational facilities were some of the important topics dealt with in the speech.

Ald. Jardine moved that the address be read upon the minutes of the meeting and that a copy be presented to each of the aldermen, and on behalf of the council as a whole, in an able speech thanked his worship for the address.

Ald. Johnston seconded the motion, which being put to the vote, was unanimously passed. Ald. Johnston complimented the mayor on the comprehensive nature of the address, which, he said, showed that his worship had paid close attention to the growth and requirements of the city, and that he had the welfare of the city always at heart. He only hoped that the good advice contained in the address would be acted upon by the council.

Mayor Keary shortly thanked the speakers for their expressions of tribute and trusted that they would ever work in harmony, despite the fact that differences must at times inevitably arise. The mayor's address follows:

Gentlemen.—It has been my custom in the past to address the new council in a general way, relative to the progress of the city during the previous twelve months, and to outline, as far as one is able to do so, the most important undertakings which this board should keep in view for the current year.

On this occasion, owing to the fact that the personnel of the council of 1907 is practically unchanged, there being only one new member, to whom I extend a most cordial welcome, it is not necessary for me to introduce my remarks with a definition of the obligations which the members owe to the ratepayers, nor the necessity for loyal cooperation in giving effect to the decisions which may be arrived at from time to time. I would, however, like to emphasize the importance of approaching every question with an open mind, dealing with the same on its merits, and of not permitting any personal feeling or outside influence to affect your action in any manner. These things are essential to good government, and the production of good results. If we depart from them, and permit personal animosity or hostile feelings to warp our judgment, then we fall in the first

principles laid down for the relation of a representative body.

The City's Progress.

The really wonderful strides made by the city during 1907 is a matter of great satisfaction to us all. The industrial development has been remarkable, and in this we see the results of the work which has been carried on for many years, with a view to draw attention to the many and superior advantages New Westminster possesses as a manufacturing centre. Without extending industrial establishments, and without first class shipping facilities by water as well as by land, we can never hope to see New Westminster the great city which Nature intended it should be. Our policy therefore should be just as liberal towards labor employing enterprises in the future as it has been in the past; and we must continue to make known abroad the attractiveness of our city from an industrial standpoint. We have keen and powerful competitors for every new industry which may be proposed to be established, and if even a little energy is directed in endeavoring to draw them here, we will lose where it was possible to win.

The large increase in population and the re-establishment of land values, are both almost entirely due to our industrial growth. Evidences of the advance made are easy to discover on all sides, but perhaps the most striking are to be found in the development of the water and lighting systems. These departments, in 1907 installed and connected as many new services as the total for the five years ending December 31, 1906.

This general growth brings with it new responsibilities and calls imperatively for a corresponding development of our public utilities. Both water and light services must be improved to meet the new demands; our leading thoroughfares should be brought into better condition, and Lulu Island bridge replaced by a modern structure to permit of industrial development in that direction; additional accommodation is necessary for the rapidly growing school population and the facilities for business in our public market added to as largely as possible.

The Water System.

With a very small margin left from the two reservoirs now in use, we shall have to arrange at once for an increased supply of water. This is not a very serious undertaking, as the original plans of the waterworks system included a low level reservoir. These plans were prepared by Mr. A. E. Hill, C. E., and fully approved by such noted experts as Professor Fanning, C. E., and A. McL. Hawks, C. E. When the capacity of the high level reservoir was absorbed by increasing population the plans contemplated the construction of a low level reservoir of larger dimensions, somewhere in the neighborhood of Queen's park. The most suitable available site, after investigation, is the northeastern

(Continued on Page Four.)

CHAIRMEN OF COUNCIL COMMITTEES APPOINTED

Ald. Garrett is No Longer on Police Board, New Alderman Being Given That Position—Appropriations Passed—Many Communications Before the Council.

Quite a large list of work, mostly routine, faced the new council at the first business session of the year, but was disposed of with commendable dispatch. Measures of organization were however, dealt with before close of the session, including the passing of appropriations for the work of the city until the passing of the estimates; and the appointment of chairmen of committees.

The appropriations passed were: Board of works, \$2000; bridges, \$2000; light, \$2500; water, \$5000; market, \$3500; parks, \$1000.

The chairmen appointed were: Finance, Ald. Jardine; board of works and bridge, Ald. Henley; light, Ald. Gray; fire and market, Ald. Johnston; police and health, Ald. Fader; parks and library, Ald. Garrett; water, All Shiles.

Ald. Fader, chairman of the police committee, it was resolved, should be nominated as a member of the police commissioners for the city, the provincial government to be asked to confirm the appointment.

Thomas Furness, superintendent of the board of works, submitted to the council a report of his trip to Seattle to investigate municipal methods in that city with a view to making improvements in the system in this city. He speaks enthusiastically of the reception that he received at the hands of the mayor, aldermen and civic officials, whom, he said, made his trip as pleasant and as profitable as they could.

Five different kinds of pavement were investigated under the guidance of City Engineer Thompson. Their favorite, said Mr. Furness, was vitrified brick; this was used for the business portion of the city and appeared to give good satisfaction wherever the grade did not exceed five per cent. Beyond that gradient sandstone blocks were used, since they permitted of a better foothold for horses. Granite and wood block pavements were not much used, the latter especially not being considered of much use. The residential streets were paved entirely with asphalt, with six foot cement sidewalks.

The visitor inspected the parks, the reservoirs and the incinerator, just completed at a cost of some fifty thousand dollars.

All street improvements, reports Mr. Furness, are done by contract and under the supervision of the engineer's department, and are paid for under a local improvement system. The cost of the various pavements Mr. Furness found to be as follows: Stone block, 50c a foot; vitrified brick, 40c; wood block, 40c; asphalt, 33c; and cement walks, 11c to 13c per square foot.

Mr. Furness states that he was very favorably impressed with Seattle and particularly with its people; they seemed as though they could not do enough for him. Especially he desired to express his feelings of appreciation to Mayor Moore, Engineer Thompson, Mr. Maloney, street superintendent, and Mr. Thomas, head street foreman.

The report was received and filed with a provision that the mayor and other Seattle gentlemen mentioned be tendered the thanks of the city.

Communications.

E. W. Cook wrote asking permission to erect a billboard in front of the government wharf from the end of the present board to the end of the sill next the C. P. R. tracks, making about fifty feet; also to build a new board on Columbia street opposite or nearly opposite Merrivale street, the board to be 100 feet. The communication was referred to the board of works for report.

The secretary of the board of school trustees wrote asking for a four inch water connection at the Central school and for a hydrant to be placed in the main. The request was referred to the water committee with power to act.

A. J. Hill, C. E., wrote reporting that he found the levels of the new reservoir site in Queen's park satisfactory and all the conditions fully

met, although it might be a trifle more expensive than the old site. The report was received and spread on the minutes.

Whiteside & Edmonds, bringing to the attention of the council a proposal to establish a new gas works in the city. Their clients, they wrote, were anxious to proceed with the matter without delay. The city clerk was instructed to make arrangements for representatives of the firm to meet the council.

Messrs. Ferguson and Clark, asking for the street lines of sub-block 10, lot 15, subdivision 1. This property was bought at the last tax sale and the writers thought that the city should give the streets lines free of charge under the circumstances. The communication was referred to the finance committee with power to act.

Reports.

The market committee reported that the tender of W. D. Purdy for the labor and construction of the extension to the market of \$978, being the lowest had been accepted. Also that Architect C. H. Clow had been appointed to superintend the work.

Ald. Gray reported that the committee appointed to see Dr. Doherty, medical superintendent of the asylum, re the cemetery, had made satisfactory arrangements and recommended that four acres of the cemetery be cleared and put in shape, two acres for the city and two acres for the asylum. The report was adopted with the proviso added that a road be built between the two properties.

Ald. Garrett reported that McNeeley street was now clear of undesirable, and that so far as he knew the report to the effect that the women were scattered over the city was not true.

A by-law to provide for the sale of certain lands owned by the city on Lulu Island, the proceeds to be used for the construction of a bridge, received its first and second readings.

Ald. Henley called the attention of the council to the fact that the B. C. Manufacturing Co. was trespassing on the lands of the city, by constructing dwellings on the city reserve across the bridge. The former owner had promised to have the buildings removed, but had failed to do so. He moved, seconded by Ald. Shiles, that the company be notified by the council to remove the buildings. The question caused some debate, during the course of which the mayor had occasion to remind the aldermen of the rules of order with regard to speaking. The motion was passed.

It was resolved that the chairmen of the finance, parks and by-laws committees respectively be appointed to represent the city on the directorate of the Royal Agricultural and Industrial society.

It was resolved that the clerk be authorized to advertise for a plumbing inspector, applications to be in by January 20.

Ald. Shiles gave notice of motion that the council proceed at the next meeting to elect two license commissioners for the city for 1908.

Ald. Jardine gave notice that he would ask for leave at the next meeting to introduce a by-law to provide for a temporary loan for 1908.

On motion it was resolved that in future committee meetings would be held on Friday evenings instead of after the regular council meetings.

WILL OPEN BIG C. P. R. HOTEL NEXT MONDAY

The Empress hotel, new hotel of the C. P. R. in Victoria, which has been erected at a cost of a million dollars, will be formally opened next Monday. There will be no ball, fuss or feathers when the hospitality of the big inn which overlooks James bay is extended to the public.

The opening arrangements are in the hands of Manager Gordon and George H. Ham. The latter is busily engaged in planning a campaign to blazon to the entire continent the glad news that Victoria at last possesses a hotel which may rank with the best in Canada and the United States.

MANY APPLICANTS FOR POSITION OF JANITOR

At a special meeting of the New Westminster school board held in the city hall last evening, it was resolved that a new school be built in the west end this year, and that tenders be called for the clearing and grading of the property. The school is to be an eight room structure with a stone foundation.

Twenty-five applications were received for the position of assistant janitor. The first choice of the board was Richard Benson, the second choice, J. C. Adams.

The chairman reported on a consultation with Principal Coatham relative to the case of a boy attending the Central school, but desirous of attending at the west side. Special circumstances in the case induced them to accede to the request, with a recommendation that in the future

HAD LIVED A LIFE OF SUCCESSFUL FRAUD

London, Jan. 13.—William Oliver, the picturesque adventurer who under the name of Marquis De Leuille, burst into New York society in 1886, died recently at Brighton. Oliver was the son of a barber. He arrived in New York seemingly with proper credentials, was welcomed heartily and became very popular. He was finally exposed, however, and had to leave the city. From New York he went to Paris, where he had a successful career, posing as the Marquis De Leuille until the fraud was discovered in that city. He then established himself in London, where he was warmly welcomed by certain credulous women, and for a long time held the leadership of the local Bohemians.

WOMEN'S COUNCIL HOLDS ITS ANNUAL MEETING

Largely Attended Sessions Held Afternoon and Evening --Reports Read from Affiliated Societies--Speeches Heard from Mayor and Aldermen.

The two sessions held yesterday afternoon and evening at the annual meeting of the Local Council of Women clearly showed the progress which has been accomplished by this organization during the past twelve months, every report presented by the different heads of committees breathing progress and encouragement.

After the opening exercises, Mrs. E. L. Webber in the chair, the election of officers for the current year was proceeded with, the following being the result of the ballot: President, Miss L. Davis (elected on Mrs. S. J. Pearce declining the honor); first vice-president, Mrs. S. J. Pearce; second vice-president, Mrs. Marshall Sinclair; third vice-president, Mrs. A. H. Gordon; fourth vice-president, Mrs. John Forrester; fifth vice-president, Mrs. F. O. Canfield; recording secretary, Mrs. R. J. Benson, corresponding secretary, appointment left over until a future meeting; treasurer, Mrs. James Anderson.

A vote of condolence was passed to Mrs. Benjamin Burr, the council expressing its deep sympathy with her in her recent bereavement.

Among the public officials to address the meeting were W. H. Keary, mayor; and Ald. J. J. Johnston and Ald. Garrett, all three commending the ladies for the good work they were doing in the city.

As secretary and manager of the R. A. & I. society, Mayor Keary suggested that a committee of ladies be named for the purpose of revising the conditions governing the fancy work exhibit at the annual provincial fair. Acting on his suggestion the following ladies were named a committee to look into the matter: Mesdames A. J. Hill, L. Thornber and J. Forrester.

Speaking on behalf of the board of managers of the Royal Columbian hospital, of which he is secretary, Mayor Keary declared that he was pleased to inform the ladies present that at last a start in the work of building the new Royal Columbian hospital had been made. The maternity cottage and nurses' home was now well under way, and would be ready for occupancy on or about April 1. He assured the members of the council that their efforts tending towards lightening the labors of the board of managers had been greatly appreciated, their decision to take upon themselves the charge of furnishing the maternity cottage having been especially welcome. He was pleased to say that at no time had a patient been refused admittance at the hospital, this assertion being called forth by a remark made earlier in the day by one of the ladies, who had made a statement which might be taken to interpret that this had been the case.

Ald. Garrett, in his address, which was given in his characteristic manner, dwelt more particularly upon the necessity of making New Westminster a moral city, and touched upon the recent cleanup campaign which had taken place during the closing weeks of the past year. Quoting figures, Mr. Garrett declared that over 60,000 young women annually took the downward path to a life of shame, and he had pledged himself to do all in his power to check this awful condition of things. The only way that this could be accomplished, according to the speaker, was by co-operation between all right thinking people, who should do their utmost to minimize the traffic in liquor, cigarettes and cards, the three great gates to hell.

Ald. Johnston, in a polished address, dwelt upon the good work which the ladies were doing, and assured them that he would do all in his power, both as an alderman and as a private citizen, to assist them.

Reports and Communications.

From the local W. C. T. U.—A petition from this body to the provincial government was received for endorsement, the petitioners demanding that all hospitals receiving government grants be compelled to provide isolation buildings for the treatment of patients suffering from contagious diseases who had passed the stage called curable. This was laid over,

discussed, and finally withdrawn after it had been stated that such patients were not excluded from the Royal Columbian hospital.

From the Ladies' Aid society of the Olivet Baptist church—Collections for the past year had amounted to \$50.45, sixteen meetings had been held with an average attendance of 17. Members elected to represent that body in the women's Council were Mesdames James Anderson, G. H. Bent and H. A. Belyea.

Ladies' Aid of St. Paul's Reformed Episcopal church—General report of work accomplished during the past year. The society is in a flourishing condition at the present time.

Treasurer's report—Showing a balance to the credit of the council in the Bank of Montreal of \$40.95, disbursements during the past year having amounted to \$515.

Queen's avenue Methodist church Ladies' Aid—Requesting the endorsement of the action taken by Ald. Garrett with respect to the suppression of vice in the city, and requesting the 1908 council to carry out the same policy and enforce every law bearing on the matter in future. Endorsed.

New Westminster branch of the Needlework Guild of Canada—Reporting the distribution of 281 garments to persons being cared for by the Children's Aid of Vancouver and the New Westminster Benevolent society.

R. T. of T. Council No. 1—Reporting work accomplished during the past year.

West End Methodist church Ladies' Aid—Reported receiving during the past year from various sources \$153.05, of which \$23 still remained on hand, and the giving of a number of entertainments.

Reports were also received from the president, Mrs. E. L. Webber, and the secretary, Mrs. L. G. McKam. These will be published in tomorrow morning's issue.

WIRELESS MESSAGES TO CROSS PACIFIC

Marconi Announces His Intention of Connecting Vancouver with Hong Kong.

Halifax, Jan. 13.—The question of erecting wireless stations in Vancouver and Hong Kong, by which messages could be practically flashed all around the world, is one reason that is taking Signor Marconi away from his experiments at Glace Bay, and before sailing for England the inventor declared that when he returned to Nova Scotia, which would be in about two months, he would have a definite announcement to make. Whether the station will be located in Winnipeg, and an attempt made to capture the inland business, is one of the questions which will be decided by the present trip of Mr. Marconi.

"There will be absolutely no difficulty in transmitting messages from Glace Bay to Vancouver," said Mr. Marconi, "and the erection of a station in Winnipeg will depend upon whether we decide to compete for the inland business."

Mr. Marconi said it has not been definitely decided where the station in Asia would be erected, but mentioned Hong Kong as the possible place. This also will be decided by his visit.

"Glace Bay and Clifden stations are working well," said he, "within three weeks we will be taking any business that offers, but at present only a small amount of press matter, about 1500 words a day, is being handled. It will take a week for me to get over. I will likely lose another week before I get everything in readiness there for handling general business. I am sorry that more Canadian papers are not using wireless. So far only one paper, the New York Times, has a regular service from us. Some Canadian papers have messages sent by wireless, but only spasmodically."

RAISULI HAS JOINED ANCIENT ENEMY

Notorious Bandit Will Throw In His Lot With Mulai Hafid.

Paris, Jan. 13.—A special despatch to the Matin from Tangiers says that Raisuli, the bandit, has joined Mulai Hafid, and that he still persists in his refusal to give up Kaid Sir Henry McLean, except by order of the new leader.

Advices from Rabat to the Matin state that Abdel Aziz's court is terror stricken by the news that Mulai Hafid has been proclaimed the Sultan. The Matin understands that recent conferences between Premier Clemenceau and the French representatives at Berlin and Tangiers make it practically certain that it will be absolutely unnecessary to modify the French policy in Morocco.

Further advices received at Tangiers states that Mulai Hafid was proclaimed sultan on condition that he abolish taxation, make an alliance with the sultan of Turkey, and suppress all relations with Europeans except those "prescribed by custom and rules."

Couriers have been despatched to Morocco City to summon Mulai Hafid to Fez. That city is reported to be in an uproar. The residents are armed and are fearful lest outbreaks of pillage or a massacre occur.

THE WEST.

The United States of America is of such vast area when compared with the area of other great nations approaching it in the number of their inhabitants that it has been found convenient for designation to divide it up in geographical sections. It was long the custom in speaking of any portion west of the Alleghany mountains as "out west." Until as late as 1832 the state of Illinois was considered a border state. During the settlement of such states as Kansas, Iowa and Colorado those states were known as "the west," but of late years they have become known as "midwest." In fact, the west has disappeared. The extreme west, those states beyond the Rocky mountains, are spoken of as the states of the "Pacific slope." Poor's Manual, the great railway authority, divides the United States into sections and refers to them as New England, middle Atlantic, central northern, south Atlantic, gulf and Mississippi valley, southwestern, northwestern and Pacific states, which division seems likely to be the one to be generally adopted.—Washington Star.

A Reproof.

"Did you not have your nails polished by a blond lady on Tuesday morning?" asked the attorney.
 "I decline to answer," said the witness.
 "Did you not have your hands massaged by the same blond lady Wednesday afternoon?" persisted the lawyer.
 "I decline to answer," again said the witness.
 "Did you not have your nails polished by the same blond lady on Thursday?" inquired the lawyer.
 "I decline to answer," declared the witness once more.
 "But why do you refuse to answer?" interposed the court.
 "Because he asks too maniaculous questions," stated the witness and immediately fell from the chair in a faint.—Judge.

E. A. Paig... Managing Director

TUESDAY, JAN. 14, 1908

HIS WORSHIP'S ADDRESS.

The aldermen will have to seriously apply themselves to the work of the council during this year if they carry out the very comprehensive program outlined by Mayor Keary at last night's meeting. The rapid development of the city has increased the area demanding efficient fire protection and to his worship's suggestion of additional hydrants might have been added an extension of the "alarm system."

The proposed reservoir at Queen's park, when built, will aid our citizens to keep fresh and green the beautiful surroundings of our homes, give added fire protection, and the overflow, if any, could be utilized to good advantage in Queen's park. The Lulu Island bridge scheme will be in the hands of the ratepayers very soon, and on that question we shall waive consideration until the by-law is framed.

We thoroughly endorse the mayor's view that Columbia street should be improved out of the general revenue as the property owners on Columbia street should not be required to provide sidewalk accommodation any more than the owners on the residential streets and avenues. We question, with the large expenditures proposed, whether the city can carry out permanent work other than the sidewalks this year. The macadamizing of Eighth street between Queen's and Third avenues might reasonably be deferred and the macadam placed on a section higher up where it is more necessary. The proposed section to be macadamized on Sixth street badly needs this work. The new West End school will not come one day before it is needed and we hope there will be no delay in getting the building under construction. The sewerage extension is also necessary so that our city may be clean and healthy. We had hoped that some of our wealthy citizens would have been generous enough to present an ambulance to the city and in view of the heavy calls on the city treasury we hope to be able yet to chronicle such a praiseworthy gift.

While enforcing in the main the program as laid down by his worship, there may be details in connection therewith that we shall feel called upon to criticize as they come up.

Distribution of printed matter was yesterday made from house to house in this city by a Vancouver firm in the endeavor to draw trade, at this usually dull season, to the Terminal City. To the residents of New Westminster the merchants look at this time for a square deal. The large city that nature intended New Westminster to be can never be an accomplished fact, if the money earned in this city is to be taken away to enrich the larger city on the inlet. Hardly a good word can be heard for the Royal City or any of its interests, in the city of Vancouver, and there are thousands of residents of that city who would gladly see New Westminster blotted from the map. It was so after our great fire, it is so today, and the sacrifice of the business of this city means the sacrifice and the abandonment, as recommended by the Vancouver press at that time, of our beautiful homes. Be loyal to your city, stand by the men who had the courage to make New Westminster what it is today, purchase what you need in your home town and falling to find what you require here (which will be very seldom) then you are justified in going elsewhere. A few cents saved now may cost you many dollars indirectly in the future.

On enquiring at the Vancouver office we were informed that the special cars for the firm's excursion had been chartered by them and that they were personally conducting the same, charging the low fare of 25 cents.

BACK OF BRITISH
BOYCOTT IS BROKEN

Shanghai, Jan. 13.—The movement to boycott British goods which arose over the Chinese loan dispute, points to a collapse owing to the measures taken by the Chinese government. Two arrests have been already made of prominent Chinese implicated in the movement and others are pending. Their trials will begin today on the charge of endangering the public order of the community and countenancing agitation. It has been ascertained that the recent riots near Kashing arose over local discontent, and were not directed against foreigners.

MAYOR KEARY GIVES ANNUAL ADDRESS

(Continued from Page One.)

portion of the reserve joining the boulevard. The elevation is 250 feet from city datum and the head from the intake at the lake, 192 feet, as compared to 42 feet at the present reservoir. This will give a discharge of 1,311,000 gallons per day compared with 618,000 gallons as at present. The capacity of the new reservoir will be 2,500,000 gallons. This with our present reservoir capacity, would supply a population of 18,000 and in addition allow for a proportional increase in the present consumption of water for manufacturing purposes. The cost of this work will be about \$25,000. The proposed site belongs to the crown, but we have an assurance from the premier and members of the provincial government, that the whole of the park will shortly be conveyed to the city.

Fire Department.
It is efficient as far as it goes, but I present for your favorable consideration, the desirability of a small fire hall in the vicinity of Queen's park, with one hose wagon and four paid men. Sapperion should have a one-horse wagon, with three permanent men. Those have been recommended by the chief of the department; we should make every effort to comply with his most reasonable request.

Thirty hydrants should be installed for fire protection; the increased population demands it.

City Market.
One of our most valuable assets, and I can assure you I am very pleased that last year's council awarded the contract for extensions and additions which were necessitated by the growing demands, and with your assistance, gentlemen, further improvements can be added, which will be popular with the farmers from adjacent municipalities.

Lulu Island Bridge.
This structure, in its present condition, is a serious drawback to the industrial development of the city. Many of the present remaining factory sites on the river, are within the city limits on Lulu Island, but at present very limited use can be made of them on account of the weakness of the bridge over which only light loads can be hauled, making transportation of manufactured goods much

WINDSOR SALT—because it's pure, fine, clean, dry, piquant—is used by most people all the time.

more expensive than it should be. The present bridge is eighteen years old, and to attempt repairs would be a useless waste of money. It is better to face the problem of a new steel structure at once. This can be erected with a much wider draw-span than the present, for about \$50,000. The provincial government has very generously agreed to contribute \$15,000 towards the erection of a bridge of this class, and I am of the opinion that the sale of a portion of the city's lands on Lulu Island would easily produce the balance required. These lands were reserved for factory purposes, and their sale in this manner will not only realize the original intention, but at the same time provide a public convenience without which they must always remain valueless. The whole proposition will, with your approval, be submitted to the ratepayers, for their sanction, at an early date, when I trust they will give it hearty endorsement. If approved, current revenues need not be touched, or the city's debt increased by a dollar.

Street Work.
Since the year following the great fire, in 1898—now almost ten years ago very little money has been spent in improving the condition of the business portion of Columbia street. The time has now arrived, I think, when this should be energetically taken in hand. Nothing adds to the appearance of a city so much as good streets, and one of the best evidences of a prosperous and growing city is to be found in the class and condition of its streets and sidewalks. The business men expect us to make a forward move in this matter, and I will ask the council to at once prepare and put into execution a plan for the improvement of Columbia street, modest perhaps in its way, as the amount expended will have to come out of general revenue, but sufficiently comprehensive to do justice to its splendid proportions. Eighth street should be macadamized to Third avenue and Sixth street from Front street to Third avenue.

Electric Light.
The poles and wires of this department stand in need of considerable

CITY NEWS

Replies to advertisements are at this office for the following: K. Y. (2), A. R. P. T. H., Box 6.

Practice between the basketball players of the militia teams will take place at the armouries tomorrow night, the boys being in training for a match against the V. A. C. team on Saturday.

A favorite of the elite smokers, the "Brilliant" cigar.

The funeral of Mrs. M. Z. Melander, who died at Peardeville on Saturday morning, will take place this afternoon, the remains to be interred in the Aberdeen cemetery. W. E. Fales has charge of the funeral arrangements.

The time for the receipt of tenders for the construction of the addition to the Columbia Cold Storage plant has been extended until Saturday, the work being of such an extensive nature that the time given was deemed insufficient for estimates of the work to be completed.

Will the party who advertised in this paper for store 16 or 20 by 10 please call at office.

The remains of Harry Matsqui, the Indian whose body was recently found floating in the river, have been exhumed by request of the chief of the tribe to which he belonged and will be removed by him to the reserve at Matsqui for burial. The chief and another Indian of the tribe were in the city yesterday making the necessary arrangements.

At the nominations for municipal offices held yesterday morning at Ladder, John Patterson was unanimously elected reeve. The office of councillor for the various wards will be hotly contested at the election, which is to take place on Saturday. Those in the running are P. T. Gibbs, Alex. Davie, J. Gilchrist, Sam Morley, L. W. Embree, F. Parnier and three others.

All kinds of pot-plants and cut flowers at Tidy's. Phone A 181.

Yesterday morning there occurred at the home of P. Warren, Fourth street, the death of Robert Freeland from heart failure. The deceased appeared to be in the best of health and spirits, but suddenly was stricken down while climbing the stairs in the house. The remains will be held at Murchie's parlors pending instructions from relatives in the east, when it is expected the body will be shipped to the family home in Ontario for interment. Mrs. H. T. Kirk and Messrs. M. and P. Warren are cousins.

The two local companies of the D. C. O. K. are endeavoring to organize a strong hugh band. They already have good nucleus, formed, some eight in number, but desire to bring the strength up to fourteen or sixteen as early as possible. Six more lads between the ages of 14 and 18 are required at once to learn. They will not, of course, receive any monetary remuneration other than the usual grants to militiamen, which is used for the benefit of the company as a whole.

ARE YOU

Interested in Soap? We have just loaded our window with this every day necessity at prices to suit anybody. For example, Guaranteed Pure Castile at twenty-five cents a bar. Old Brown Windsor at twenty-five cents a dozen. A big cake of tar at five cents each. Other kinds at any price up to One Dollar a cake. It will pay you to inspect our stock. P.S.—Hand Bags at reduced prices.

CURTIS'

Drug, Spectacle & Seed Store

F. W. Heath, late of Ottawa, in charge of the Optical Department.

Four Swashes were arrested by the police yesterday evening, having been found in a state of intoxication, some of them having liquor in their possession.

Mrs. N. B. Gauvreau, of Sapperton, received for the first time since her marriage on Wednesday and Thursday of last week. In future she will be at home every Thursday afternoon.

Sold by the leading distributors, the "B. C." cigar.

John Morris and John Miller, convicted yesterday morning of stealing blankets from a shack, were sentenced by Stipendiary Magistrate Pittendrigh to three months in jail with hard labor.

Cheap excursions are announced over the B. C. Electric company's interurban line to Vancouver for Wednesday next. On that date the return trip will be two-bits only, by special arrangement between the railway company and the David Spencer Co. of Vancouver. The latter company announces that the excursion is for the purpose of enabling the ladies of New Westminster to attend their sale of whitewear on that date.

\$200 cash secures a \$4200 house! Ten rooms, two full lots in lawn and garden. All modern and beautifully finished. In the heart of the best residential part of this city. Payment can be extended over four years! Abbott & Hyde, next Glendon hotel.

On Thursday evening the Liberals of the city will travel to Central Park in force to attend the meeting of the Central Park Liberals. Another large contingent is expected to attend from Vancouver. The meeting will be addressed by Mr. McIntosh, Liberal organizer for British Columbia, while Robert Jardine, the candidate for this city in the coming election, is also expected to speak. The visitors from this city will leave by the 8 o'clock car, returning on the last car.

The "Auto" cigar is becoming a favorite smoke.

Work on the construction of the V. & E. line, which had in some parts been abandoned owing to the failure of the B. C. General Contracting Co., will be resumed on Thursday of this week, the G. N. R. company having decided to continue the work without the assistance of outside contractors. An expensive outfit, to be used in the clearing and grading work, is being shipped to this point, and will be taken out to the camps tomorrow, that in use by the B. C. company not being deemed suitable by the men in charge of the work at the present time.

GYPSY SMITH'S CONVERSION SUBJECT FOR TONIGHT

Large audiences are continuing to attend the union evangelistic services in Queen's avenue Methodist league room. Sunday was a record day, the large church being filled to its utmost capacity both afternoon and evening. Mrs. Gordon is certainly a talented woman, and the influence of her message on Sunday afternoon will not soon be lost.

Last evening Asa Gordon gave the story of his conversion. He was laboring under a severe strain, having been ill most of the day, but the story told in a plain and simple fashion, without any attempt at unnecessary elaboration, brought conviction to those who listened. The impressive application made by his talented wife, deepened the conviction already aroused. In the after meeting some dozen or more professed to have found pardon through believing in Christ.

The Bible readings will be continued this week in the league room at 3 p.m. A business man's prayer meeting will be held at 7 o'clock in the league room.

The morning prayer meetings will be held this morning in the following homes: William Thomas, East Burnaby; John Reid, Agnes street; Mrs. Moulton, Brunette street, and M. E. Fripper, corner of Fifth avenue and Tenth street. Tonight Mrs. Gordon will tell the story of Gypsy Smith's conversion.

SCIENTISTS PAY TRIBUTE TO KELVIN

New York, Jan. 13.—Men distinguished in various lines of scientific work, all of which has been part of the life work of the late Lord Kelvin, were speakers at a memorial meeting in memory of the scientist held yesterday in the Engineers' building. Andrew Carnegie was among those on the platform. Resolutions expressive of the admiration in which Lord Kelvin was held was adopted.

The suction dredge King Edward has been moved opposite the Royal City hotel, and is now again at work filling with gravel from the river bed the vacant lot adjoining the hostelry.

The May Queen and her subjects extend a hearty vote of thanks to Messrs. Jackson and Smith for gift of badges from the river bed Ward Supporting society.

SUFFRAGE SEEKERS CLASH WITH POLICE

Bandaged Heads and Broken Limbs General in Berlin as Result of Trouble.

Berlin, Jan. 13.—There are few signs to be noticed this morning of the scenes of yesterday, when the demonstration for a general suffrage in Prussia resulted in a series of encounters with the police, excepting a certain effervescence in the districts of the city where the working classes live. There is here and there a workman with a bandaged head or a woman limping, as a result of a blow from a sabre or being trampled upon by the horses of the charging police.

The city ambulances brought over a hundred wounded. Of these 28 persons, including three policemen, were seriously injured. It is estimated that one hundred others proceeded to their homes, where they dressed their own injuries. The police yesterday had a most difficult task in overcoming the tactics of the infuriated women among the demonstrators who clung to the bridles of policemen's horses in order to stop the affair. It was learned today that the entire garrison of the capital was confined to barracks under arms throughout Sunday in order to be prepared to assist in the work of suppressing the disorders in the event that the police should find themselves unable to cope with the situation. The assistance of the military proved unnecessary owing to the thoroughness with which the police handled the situation.

Despatches received here from the provinces declare that the demonstrations yesterday, all in favor of the suffrage, were most enthusiastic. Largely attended meetings passed resolutions in favor of manhood suffrage, and copies of these were telegraphed to Prince Von Buelow, the prime minister of Prussia. In Essen 10,000 people paraded the streets singing the "Marseillaise," and the "Songs of Freedom." The police made ineffectual attempts to bar the progress of the agitators.

ROYAL CITY FISH CO.
 Telephone 40.

Notice to Builders.

SEALED TENDERS will be received by the undersigned up to noon of January 25, 1908, for the completion of B. C. Telephone building, on Clarkson street. Plans and specifications may be seen at my office, corner of Sixth and Clarkson streets. Lowest or any tender not necessarily accepted.
 C. H. CLOW, Architect.

Here's Your Opportunity

\$4200 buys a fine two storey, 10-roomed dwelling in the heart of residential New Westminster. The house is beautifully finished inside and outside, and well built. It is up-to-date in every respect.
 Two large lots go with the house; one having garden and considerable large and small fruit, the other is in lawn.
 To the right party buying, we can deliver on payment of \$200 and the usual costs incidental, and no other payment will be required for about a year. The total price is \$4200, and the house is at present rented for \$25.00 per month.

DOESN'T THAT LOOK GOOD TO YOU?

LEMIEUX RECEIVED ASSURANCES FROM JAPAN

Ottawa, Jan. 13.—The statement published on the Pacific coast that the new immigration order for the direct ticketing of immigrants is a violation of article 1 of the treaty between Canada and Japan is not correct. Corporations and their mountaineers, who are in search of Japanese labor, were expected to put up this plea. As a matter of fact Japan has no objections to the new regulation, as it is not directed against Japan more than any other country, although there is no doubt it was specially passed to stop the arrivals from Honolulu.

The new regulation is now law and immigration officials will see that it is enforced, and steamship companies will be notified that they cannot land any such immigrants. Lemieux has not yet reported to the government, but he has had a general talk with his colleagues on the subject.

Hon. R. Lemieux has received the assurances from Japanese authorities that Canada's wishes in regard to immigration will be observed. These assurances were given in a manner that ought to have all the force of a treaty. Three or four months' trial will show, and few would ask the denunciation of the treaty without the trial of the assurances. If the arrangement is as satisfactory as Hon. R. Lemieux and the government say it is, everyone will be satisfied. On the other hand, if it is not satisfactory the treaty can be abrogated.

Another boy has been added to the family of C. B. Deans, the stork making his visit on Sunday last.
