10 CENTS PER WEEK

STEEL MAGNATE FALLS VICTIM TO ACTRESS' CHARMS

Portland Library
William Ellis Corey Deserts His Wife and Basks in the Smiles of a Young Woman of the Stage—Divorce Suit Follows.

Reno, Nev., June 12.—Mrs. William Ellis Corey, wife of the president of the United States Steel Corporation, this morning filed a petition in the second district of Nevada at this place for an absolute decree of divorce. The petition of Mrs. Corey is brief, reciting that she was married to Corey on Dec. 1, 1883, and that he abandoned her about May 1, 1905. She asks for a decree upon the ground of desertion and also requests that the custody of their minor son be given to her.

The petitioner has obtained three attorneys at Reno to prosecute her case and Corey will be represented by Pittsburg and Nevada counsel. Sardis Summerfield, representing Corey, stated that he did not know whether his client would oppose the petition or not. It is currently reported that negotiations are in progress which will result in Corey giving his consent to the divorce and his settlement upon his wife of an independent for-

tune. The attorneys decline to discuss this phase of the matter.

Mrs. Corey is attended while in Reno by the mother and sister of the defendant. She declines to see newspaper men and pays no social visits.

The fact that Mrs. Corey has begun proceedings will cause no surprise. The press, for some months, has been publishing the fact that she and her husband have separated and that it was only a question of time until divorce proceedings took place. The reason for the separation is due to the fact that Mr. Corey has become enamored of a pretty actress who lives between New York and Paris. She is said to have the steel magnate completely under her control. What she says is law with him. His friends have done everything in their power to have him return to his wife and abandon the actress, but he stands by the actress.

Mr. Corey's mother and his sister are loyal to the wife and as told in the foregoing dispatch they are with her in Reno while she is securing her decree.

TOWN THREATENED WITH DESTRUCTION

Numerous Buildings on Fire in Peebles and Communication Is Cut Off.

Fortsmouth, O., June 12.—The town of Peebles, a place of about 1,000 people, in Adams county, was threatened with destruction by fire this afternoon. The railway station, one hotel, and a number of business houses had already caught fire and were burning fiercely when communication by wire was cut off.

Brothier Arrested.

Seattle, June 12.—Desire Brothier was arrested here today, on receipt of a telegram from Vancouver, where he is wanted on five charges. Brothier has announced his intention to fight extradition, and a big legal battle is expected, as he has plenty of money with which to engage legal talent. He took his arrest calmly.

Scavengers Find Money.

Montreal, June 12.—Five thousand dollars in bank notes were found by two scavengers of the Incineration department among the ashes in their dust cart when they dumped them out at the Fullem street receptacle last night.

Baron Murdered.

Riga, Italy, June 12.—Baron Jam-pausen was murdered today and the Baroness slightly wounded by a servant. The murderer committed suicide when arrested.

Four Men Killed.

Roanoke, Va., June 12.—Four men were killed and seven badly injured by the explosion of dynamite on railroad construction work west of Roanoke today. The men killed were Roumanians.

FOR VANCOUVER ISLAND

London, Eng., June 12.—A paragraph in the Financial News says that an attempt is to be made by Italian capitalists to found an Italian agricultural colony for the purpose of vine culture, fruit farming, mulberry growing, and silk worm breeding.

Court House, New Westminster, B. C.

BOOST FOR PICNIC

A boosting campaign in connection with the proposed merchants picnic is to be commenced today, and all the merchants of the city are to be personally called upon to ascertain their views on the subject. A mass meeting is to be held in the board of trade rooms next Tuesday, when it is expected that all the arrangements in connection with the outing will be finally decided upon. In the meantime, the board of trade are to be requested to discuss the picnic at their meeting tonight, and their decision will have considerable influence on the committee appointed to carry out the final arrangements.

This the outcome of a meeting held last evening in the board of trade rooms, J. R. Gilley being in the chair. The attendance was not as large as had been expected, and for this reason, the locality where the picnic will be held was not decided upon.

J. H. Vidal, who had been appointed secretary at the last meeting, reported that he had interviewed the steamship companies, with the result that the C. P. R. had offered to place the Charmer at their disposal for a guarantee of \$300, and also ascertained that refreshments would be obtainable on board the steamer. The price of the tickets had been placed at 75 cents for adults, and 50 cents for children, but after further consideration, it was decided that the price would not be fixed until the figure for which a band could be secured had been ascertained.

Several places were named as desirable localities for the holding of the picnic, including Mayne Island, Chilliwack and Nanaimo. Dave Walker was strongly in favor of the latter, maintaining that it should be given the preference, as the Nanaimo people always patronized the exhibitions in New Westminster, and as a matter of courtesy, an excursion should be run to that place once in a while.

J. R. Gilley suggested making the picnic an annual affair, and though this seemed to meet with the approval of all present, the proposition was not seconded.

On the motion of Chief Watson, all present agreed to form themselves into a committee, the object of which was to see all the merchants and get them interested in the picnic.

Dave Walker proposed and G. McGowan seconded that the secretary be instructed to draw up a letter and forward it to the board of trade, asking their co-operation in the matter, and requesting them to discuss the picnic at their meeting tonight. This was unanimously carried.

The meeting then adjourned to meet again next Tuesday, when the full arrangements will be made.

French Cabinet Decides on Important Reforms

Paris, June 12.—The cabinet's declaration of policy was read in the senate chamber of deputies today. It elaborates numerous social and economic reforms, including an income tax, working men's pensions, and a reduction in the hours of labor, and declares that the government proposes to carry out with firmness, but without reprisals, the law providing for the separation of church and state, and to introduce a general amnesty measure covering strike and religious offenders. Concerning the movement to be undertaken at The Hague peace conference to reduce the navies of the powers, the declaration of the cabinet says: "While continuing its entire confidence in the army and navy, France hopes that the nations will gradually reorganize a basis of the solution of international disputes until universal opinion permits nations to decrease the weight of their military expenses."

UNEARTHS TRUNK CONTAINING BONES OF MURDERED MAN

J.E. Sayre of Tacoma Digs up Gruesome Evidence of Tragedy on Puget Sound—Crime Supposed to Have Been Committed Long Ago.

Seattle, June 12.—Gruesome evidence of a tragedy, which was probably enacted years ago, has been found on Maury Island, in the southern part of Puget Sound. A trunk, containing the skeleton of a murdered man, was unearthed Sunday by J. E. Sayre, a Tacoma druggist, while working at clearing off a tract of land recently acquired for a summer home. The discovery was made in King county and Coroner Carroll will promptly investigate it, although there is slight hope held of ever securing a solution of the mystery.

"I believe the man was murdered," said Mr. Sayre. "There was a small hole in the skull and both of the arms had been broken. The body was probably dismembered in order to place in the trunk.

"It has probably been buried there for years, although the wooden trunk is in a good state of preservation.

did not investigate it very closely but I am of the opinion that some slight clues, such as buttons, shoes,

small articles of jewelry or something of the sort will be found on a closer examination."

Mr. Sayre promptly notified Coroner Carroll and the latter will give the case his immediate attention. The exact point of discovery was about 300 feet from the Manzanita beach landing at Quartermaster Harbor on Maury Island, the latter really being a peninsula jutting out from Vashon Island.

YOUTH TRIES TO KILL COMPANION'S PARENTS

Fires Contents of Shot Gun Into Bed Where They Are Sleeping.

Bingham City, Utah, June 12.—Edward Sorenson, aged 18 years, and Henry Woodland are under arrest here charged with attempted assassination of young Woodland's parents, at Willard, a few miles south of here.

It is charged that Sorenson entered the room where Mr. and Mrs. Woodland were sleeping and fired the contents of a double barrelled shot gun into the bed. Mrs. Woodland's arm was blown off and she received other terrible injuries. It is feared that she cannot recover.

Mr. Woodland, who is an invalid, escaped serious injury.

Young Woodland had quarreled with his parents over a land transaction.

Presbyterian Sunday Schools.

London, Ont., June 12.—The report of the committee on Sunday schools was presented at last night's session of the Presbyterian assembly. It was of a fairly encouraging nature.

A. O. U. W. Meeting.

Montreal, June 12.—The thirty-third meeting of the supreme lodge of the Ancient Order of Workmen was held this afternoon at Stanley hall.

Col. Dupont Elected.

Dover, Del., June 12.—The Delaware legislature in separate session today elected Col. H. A. Dupont as United States senator.

Half Holiday.

The city merchants and their clerks will enjoy the second weekly half holiday this afternoon.

STAY OF EXECUTION

Canton, Ohio, June 12.—Justice Day, of the United States supreme court this afternoon granted a right of appeal and consequently a stay of execution to Attorney Lindsay on behalf of Albert Patrick of New York. It will be heard by the supreme court in October.

**POLICEMAN SHOOTS
AND STOPS STANDER**

Antonius of Klondike Fame Attempts to Escape Service of Divorce Sui Papers.

Seattle, June 12.—Antonius Stander, Klondike millionaire and otherwise famous, added another chapter to the story of his varied experiences since he became a man of wealth, yesterday evening, and now he knows how it feels to be a target. Stander attempted to evade service of summons in the divorce proceedings brought by his wife by running away from the process server, and was halted in his flight by a bullet from a revolver in the hands of Constable Sam Klein.

The story of the commencement of the divorce proceedings by Mrs. Stander was told yesterday and shortly before 5 o'clock in the evening Stander and his business agent, F. M. Jordan, were standing in the barroom of the Stander Hotel perusing the account of the affair. There Constable Klein found them. Klein did not know Stander, but he had had that gentleman pointed out to him by the bartender.

"Is this Mr. Stander?" pleasantly asked the constable.

"No my name is not stander, it is Smith," was the reply.

Constable Klein then turned to Mr. Jordan, addressing him, but again the officer was deceived. He started to explain what he knew, but a glance showed him that Stander was making his exit, and passing Mr. Jordan up for the time being Klein started for his man.

Stander started down an alley followed by Klein flourishing his papers. Coming to a fence Stander started climbing over the obstruction to his flight, but was seized by the constable. Stander finally landed on the other side, however, leaving a section of his shirt in the grasp of the constable and continued his run.

Constable Klein decided that he had had all the exercise he needed on an empty stomach and drew his revolver, sending a bullet into the ground behind the fleeing millionaire. Puffing somewhat himself, Stander came to a standstill and when the constable came up he consented to close his fingers around the documents thrust at him.

His duty accomplished Constable Klein bade Mr. Stander good evening and went his way.

Upon the showing made by Mrs. Stander to the effect that she feared Antonius and his business agent were conspiring to dispose of the property and defraud her of her rights, Superior Judge Griffin issued a temporary restraining order preventing a transfer of the property until Friday, at which time the court will decide whether or not the order shall be made permanent.

PORT HAMMOND NEWS NOTES.

Port Hammond, June 11.—The strawberry crop which is the smallest for several years, will soon be over for this year, and the merry laugh and cheerful smile of the fruit grower is conspicuous by its absence. The clerk of the weather, too, has for some reason turned his hand against the berry growers and is dispensing moisture in large and undesired quantities.

The dry kiln at the Ohmstead Shingle Mills, Port Haney, was totally destroyed by fire on Friday of last week. The mill was saved by almost a miracle; had the wind been in any other direction than it was, nothing could have saved the whole works from destruction.

Mr. Ohmstead has commenced rebuilding the dry kiln and expects to have the mill running again in a few days. The loss is estimated at \$1,000.

The Ainslee and Selkirk mill on the Lillooet river is progressing favorably, a few boards have been cut as a starter; work on the flume and water wheel begins this week. The promoters are rather hampered in their operations by the lack of labor, men being very scarce at present.

Entrance examination to the high school is being held in the Maple Ridge school today. Those striving for honors here are Evelyn Latty, Pearl Chatwin, Fred Miller, Walter Reddecliff, Alice Murgatroyd, Stella Sharpe, Violet Ray and John A. Pape.

No Longer the "North" West.

In the Saskatchewan Assembly the other day, Premier Scott made what is considered in the West an excellent suggestion. He urged the people of his province to cease referring to their province as being the north west of Canada. The Winnipeg papers have taken the suggestion and are insisting that their readers should remember that they live in western Canada and not in "north" western Canada.

There is some reason in this madness, even if most people do think that where the thermometer drops to forty below, it is north enough for

any one. As a matter of fact, the western provinces are no longer in north western Canada, for the same reason that London is no longer in Western Canada. It is not a great many years since letters to points in western Ontario were directed to Western Canada. The time has again come when the people of this country must revise their conception of the West. The people themselves seem to be proud of being called "Westerners," but let no man call them "North Westerners." It is doubtful if the Peace River country is in the north west although it is 500 to 600 miles north of the international boundary. A writer a few years ago persisted in calling Southern Alberta "South West Canada," and the only North West acknowledged is the Yukon Territory.

Winnipeg is only a few miles north of Victoria where the roses bloom all winter, and the Maritime provinces are nearly as far north as the capital of Manitoba, but you go down east, over to Victoria, and up to Winnipeg. To be sure it is colder in Winnipeg than it is in Toronto, but in the West there is this great advantage that "you don't feel it," which is quite an advantage for a busy man once said "you are no busier than you think you are," so you are no colder than you think you are. And there are parts of Ontario further north than Winnipeg, and no one thinks of associating the name of Ontario with disagreeable winter weather.

To the people of Manitoba, at least, that province is neither north nor west. If anything it is east. It is significant that many of the new settlers of the new western provinces are young Manitobans, just as twenty years ago Manitoba was settled by young men from Ontario. A minister in southern Manitoba said the other day that his young people were moving west. It is true of many parts of Manitoba just as it is of many parts of eastern Canada, that her young men are feeling the lure of the West. —Presbyterian.

Shingle Mill Burned.

Tacoma, June 12.—The mill of the Alpena Shingle company at Kapowsin, twenty-five miles south of here, burned last night. Loss \$5,000, insured. The dry kilns were saved.

THE NATURAL CENTRE.

For a number of years New Westminster has been more and more distinctly marked out by circumstances as the natural site for the provincial university, when the time should come for its establishment. With few, if any, exceptions, the pupils going from its high schools to Eastern universities have acquitted themselves with credit; and in many cases with distinction. The same thing is true, of course, of pupils from other provincial high schools, but the percentage from New Westminster has been larger far. Years ago, the Methodist Church established here its college, denominational in name it is true; but outside the theological course, a public, nonsectarian college to all intents and purposes; and that college, fully affiliated with the great university of Toronto, has had the honor of carrying through to graduation by its own teaching and within its own class rooms, the first British Columbians who have attained such standing without leaving their native province. In other ways also; by its preeminence in clean, non-professional athletics, by its central situation, by its equal climate, by its healthful conditions, by its high moral tone, by its steady avoidance of the "wide open" policy in civic matters, New Westminster has earned and established its claim to be considered the natural educational centre of the province. That this was fully recognized by certain people who had the ear of the government was clearly shown by the act of last session, which was simply a sneaking attempt to capture the headship in educational matters for Vancouver, the danger of killing the provincial university altogether not being a matter which "cut any ice" in the estimation of the powers at James Bay.

We are reminded of this matter by news which has reached us from Toronto of the progress of three of our high school students who have been at the university there this season—Messrs. T. Larsen, L. J. Ladner, and S. Dyke. While all have acquitted themselves with credit, Mr. Larsen has done more than that. "He led the whole class. Men from 21 to 28 years of age, who have been studying hard from October to May, went down before him—a mere lad of 18."

Nor has he been a man of one idea. Outside his academic work he has gained an enviable reputation as a writer, both of prose and poetry." Our informant adds that an article on the death of Ibsen, from Larsen's pen, will appear in an early number of the Canadian Magazine—a recognition of which a young fellow may well be proud. "The solid foundation" of his education received at the New Westminster high school, accounts, in the opinion of our correspondent, for such part of his success as, without such training, no natural ability could secure.

ACROSS THE LINE.

It looks as if the democratic party of the United States had made up their mind, or were making it up very rapidly, to choose Bryan as their standard bearer at the next presidential election. He is their strongest

man, and if the president sticks to his announced determination not to accept renomination, the republicans will find it hard to put up a man who can face Bryan with a "fighting chance" of being elected. The latter has certain limitations which have told against him in the past; but this appears to be less true of him now than it was when he first emerged into the fierce light of a presidential contest. As a New York paper puts it "he has an intellect which often goes astray after shallow remedies." That is perhaps a little too sweeping, but it expresses the popular view of Bryan as he was some years ago, which deprived him of that completeness of command of the confidence of the people which, had he possessed it, would have carried him into the white house in spite of all the barrels of dollars which were used against him. He has overcome that to a large extent, and the recent successful challenging of certain strongholds of plutocracy, coupled with the feeling that the president is not pressing home the fight against the big corporations as it should be pressed, is marking out Bryan as the man who has the will, the courage, and the ability to fill the post of leader in the popular cause.

"Comrade" Hawthornethwaite, leader of the Socialist party, opened the campaign of the party in preparation for the coming provincial election, in a speech delivered at Nanaimo last Saturday. Red flags and the motto "Arouse ye Slaves" decorated the platform. From the brief report in the Free Press it appears that the Socialists expect to elect ten or twelve representatives at the next election; and it would also appear that they intend to work in conjunction with the McBride government. At least, as Mr. Hawthornethwaite went out of his way to defend that government and to misrepresent the Liberal party, it is a fair inference that his understanding with the government is satisfactory to both parties.

To whatever criticism army systems may be open, it would appear that those whose business it is to see that Britannia shall continue to rule the waves have their heads screwed on the right way. The naval officer is to know his business from the bottom up. When he joins the service, at about 13 years of age, he is allowed to have what most boys delight in, a chance to handle tools and machinery. As "Midshipman Easy" and his contemporaries grew into a thorough familiarity with the whole (to a landsman) complicated system of sails and ropes, so the middy of today grows into familiarity with cylinders, pistons, turbines, and all the rest of it, until he is master of the whole business.

The city of Nanaimo is up against a problem in finance. The court of revision made a general, all round cut of 20 per cent. in the assessment of city property, which will mean, unless the rate is raised, a reduction of some \$2,000 in the year's revenue, and as funds were already inadequate to meet the expenses of civic government, the council has a knotty problem to solve.

When our Conservative friends are discussing the "Arctic scandal" they ought to stick to the cold facts.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

COAL—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

QUARTZ—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode, or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one ad-

ditional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at \$1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2½ per cent. of the sales of the products of the location.

PLACER MINING—Manitoba and the N. W. T., excepting the Yukon Territory: Placer mining claims generally are 100 feet square, entry fee \$5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the Rivers of Manitoba and the N. W. T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below any low water mark, and subject for first year and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of the mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The discoverer of a new mine is entitled to a claim of 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output on which no royalty shall be charged the rest of the party ordinary claims only.

Entry fee \$10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the object to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee can dredge to high-water mark on each alternative leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction thereof is sufficient. Rental \$10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent. collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of 20 years; also renewable.

The lessee's right is confined to the submerged bar or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental \$100 per mile Yukon Territory to be paid to the comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of \$1 an acre, and the remainder of the tract reserved, namely, 1280 acres, will be sold at the rate of \$3 an acre, subject to royalty at such rate as may be specified by Order in Council.

GETTING FOUND OUT

We would do even more business if more people were "clothes-wise."

The more we get found out, the bigger our business grows.

The fact that our business is increasing so rapidly is one proof that the clothes we sell are dependable. We are getting found out---and very glad we are. However, we want more people to find us out, and as our skirt stock is too large, by a couple of hundred, are going to put the prices down to a very low notch, and see if they won't come and examine the goods for themselves.

Girl's Skirts \$1.05

Eight only, light grey, and novelty, tweed, navy; cheviot and serge skirts, were \$2.50 and \$3.00 each,

=\$1.05=

Women's Skirts \$1.95 & \$2.45

Nice lot of pretty light and dark tweeds and cheviots—smart cuts—good fitting.

Worth \$3 and \$3.50.

Worth up to \$4.50.

\$1.95

\$2.45

Ladies' Skirts \$3.65

A very fine range of smart new stock, in popular colors, of popular goods. Many of these Skirts were made to our order from selected goods—goods built for wear and at the regular prices were worth up to \$6,

=\$3.65=

About two hundred skirts will be cleared during this sale. The best snaps are often picked up first, so if you want a skirt or two, this is a fine chance to secure them below value.

Mail Orders Filled and Satisfaction Guaranteed.

Send Length of Waist Band and Length of Skirt.

Cannot Fill Telephone Orders for These Goods
Nor Send Goods on Approval.

Local News Briefly Told

D. Grossman left last evening for Harrison Hot Springs, where he will enjoy a few days rest from business.

William Gay returned on the Transfer to Sunbury yesterday afternoon after spending the morning in the city.

The Carnarvon street bridge was opened for traffic last evening, the workmen having finished the new structure.

There will be a meeting of the executive of the Westminster Lacrosse Club at Ryall's office Thursday (tomorrow) night at 8 o'clock.

The steamship Charmer arrived from Victoria yesterday with a large cargo of freight, some of which was consigned to this city, and some to Chilliwack and other up river ports.

A fine of \$10 and costs was imposed yesterday morning in the police court on James Watts, who was charged with kicking a woman of the red light district on Monday night. The fine was paid.

Sydney Smith posted a water application in the government agent's office yesterday for five inches of water from a small stream on his property in Surrey municipality. The water is to be used for agricultural and domestic purposes.

A little difference of opinion at the Schaeke Machine Works yesterday morning resulted in a charge of assault being laid against one of the workmen, who had emphasized his argument with his fists. The affair is not considered as serious, and will likely be settled out of court.

The Women's Auxiliary of Holy Trinity church held a very successful sale of work and ice cream festival last evening in the St. George's hall. The object of the ladies was to raise funds for the purpose of clearing the balance of the debt that remains on the hall, and a considerable sum was realized for this purpose.

Capt. J. W. Troup of the C. P. N. service, left for Steveston yesterday afternoon for the purpose of inspecting the steamer Transfer on the down river journey. He was accompanied by J. McGregor, assistant superintendent of the C. P. R. steamships, who also intended to take observations during the trip.

A Japanese patient at the asylum, Yashuhiro Odan, died on Monday morning at that institution, the cause being given as general debility. The deceased was about 40 years of age, and had been a patient for some time. W. E. Fales was in charge of the funeral, the body being buried yesterday afternoon in the Douglas Road cemetery.

The upriver steamer Beaver arrived yesterday afternoon from Chilliwack and the upriver districts with the usual load of farm produce and the following passengers: E. Lance, R. McKenzie and Mrs. Chadsy, from Chilliwack; Mrs. Hawkins, from Mount Lehman, R. Hutton and wife from Whonnock; F. Menton, J. Russell, Mrs. Elliot, Mrs. Walcock, from Langley; Mrs. Pigeon, T. Marshall, and D. O'Bryne, from Port Hammond.

Arthur McEvoy, city clerk of Vancouver, was granted a record of 250 inches of water yesterday, from Shone Creek, which empties into the North Arm of Burrard Inlet, opposite the E. C. E. R. power house. The water is to be used for agricultural, domestic and industrial purposes, but Mr. McEvoy was not prepared to make known his plans yesterday, merely making indefinite remarks about a proposed saw mill, and hinting that he might turn over his rights to Vancouver city.

The street railway employees picnic, which is to be held next week is looked forward to by a large number of people this year as the event of the holiday season, and from all indications, there will be a sufficient variety of entertainments to suit the most fastidious. Ganges' Harbor, the place selected for this year's picnic, is an ideal spot, with fine sea bathing and boating. The roads are reported in fine condition for cycling, and wheels will be carried free on board the steamer. R. C. Purdy, the well known caterer will accompany the picnickers, and supply lunches to all who do not care to burden themselves with baskets.

Six months in jail was the sentence imposed yesterday morning by Capt. Pittendrigh upon a youth named William Dark, who was brought up before him on a charge of stealing a quantity of wearing apparel, miscellaneous goods and old coins from Richard McClure, of Matsqui, with whom he had been living for some time. Dark, who is only 16 years of

age, did not seem at all upset to find himself in the dock, and as he expressed it to Chief Constable Spain, "If you hadn't got me for this, you would have nabbed me for something else later, so what's the use?" With the exception of the old coins, all the stolen property was recovered.

IN THE COUNTY COURT.

Phair V. Sutherland.

The application herein is to change the venue from Lillooet to New Westminster on the ground that Mr. Caspar Phair, the Registrar of the Court at that place is the real Plaintiff. The Plaintiff is a near relative of Mr. Phair's. The 70th Section of the County Court Act provides for a change of venue when an officer of the Court sues in his own right but as the weight of positive evidence seems to point to the conclusion that Mr. Casper Phair is not the Plaintiff, I am confined to deciding whether the defendant is entitled under Section 68 to a change of venue from Lillooet to New Westminster. The Plaintiff has a right to select the place of trial, a right not to be lightly interfered with where the place has not been vexatiously chosen, and the onus is upon the defendant to show that the preponderance of convenience is against the place selected.

Standard Drain Pipe Co. v. Fort William, 16 P. R. 404; Wood v. Kay, W. N. (1879) 206; Madegan v. Fordland, 17 P. R. 124; Green v. Bennett 50 I. T. 706; Noad v. Noad, 6 P. R. 48; Bridcut v. Duncan, 7 Times 514; Dowie v. Partio, 15 P. R. 314. Now I cannot say that the defendant has satisfied me that the venue should be changed and I must refuse the application. Costs to be costs in the cause.

Plumbers and Plumbing Regulation By-law, 1906.

A By-law to license and regulate plumbers and to provide for the appointment of plumbing inspectors and to provide for the plumbing and drainage of buildings.

Whereas it is desirable and necessary to license and regulate plumbers in the City of New Westminster, and to provide for the appointment of a plumbing inspector, and to provide for the effective plumbing and drainage of buildings;

Therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. The Council may from time to time, as occasion may require, appoint an Inspector for plumbing and any such Inspector shall be under the supervision of the Board of Health and be given renumeration for his services as the Council shall determine.

2. A Board of Plumbing Examiners shall be appointed annually by the Council. The Board shall be called together by the Plumbing Inspector, who shall be Secretary of the Board, at such times as the Council may find necessary.

3. In case any dispute arises under this By-law as to whether any person or persons employed by any licensed master plumber is a regularly educated practical and experienced plumber, as in this By-law is provided, the Plumbing Inspector may notify the said workman to appear and be examined before such Board of Examiners, whose decision as to the competency of such workman shall be final and conclusive.

4. Certificates of competency may be granted by the Board of Examiners to any plumber producing proof satisfactory to them that the applicant has undergone satisfactory training and due examination, and in absence of such proof to any applicant who shall after an examination before the said Board be considered by them to be competent, and such certificate shall be recorded in the office of the plumbing Inspector, the person receiving the same paying a fee of \$1.00 therefor, and such plumber shall be a registered plumber of the city.

Provided that the Chairman of the Board may grant, on being satisfied with the competency of any journeyman plumber applying for the same, a temporary permit to such plumber for a period not exceeding thirty days, which permit shall confer on such plumber the same privilege for that period only as if he held a certificate from the Board of Examiners.

5. Under and immediately after the passage of this By-law, and in every ensuing year on or before the first day of July, any persons desiring to carry on business or trade as a master plumber within the City of New Westminster shall take out a license, which license shall be posted up in the office or shop of the master plumber at all times, for which he shall pay at the time of the issuing thereof sum of \$20.00. Except as hereinafter provided, any person may take out a license under the provisions of this By-law on behalf of a partnership, firm or company of which he may be a member.

6. No person shall receive such a license unless he has a place of business within the City of New Westminster, and furnishes a bond binding himself to the amount of \$500.00 with at least two sureties in the sum of \$250.00 each to the satisfaction of the Finance Committee, or a bond to the same amount from a guarantee company, that he will employ only registered plumbers who have received and hold a certificate of competency from the Board of Examiners to do all such plumbing work as he may engage to do, and whether he is a practical plumber himself or not, will not permit or allow any such work to be done in connection with the business except by such registered plumbers, and that he will not violate any of the terms and conditions, rules and regulations contained in this By-law, or in any other By-law which shall come into force from time to time in the City of New Westminster respecting plumbing, drainage, sanitary matters and water works within the said City.

7. Every person desiring such license shall file with the Inspector of Plumbing, a petition in writing giving name of applicant, and in the case of a partnership, the name of each member thereof, together with the place of business, and asking to become a licensed master plumber, and said petition shall be accompanied by the bond and fee hereinbefore mentioned.

8. Any change in firm or location of the business shall be promptly reported to the Plumbing Inspector, and the license shall be kept in a conspicuous place at the location of the business.

9. When any member of a partnership or company is licensed individually for the partnership or company, the license may be issued in the name of the firm, co-partnership or company, the said license setting out the

names of the members of the firm, co-partnership or directors of the company and the date the license was granted, and no license so granted shall be transferable except with the permission of the Plumbing Inspector.

10. All licensed master plumbers shall be held responsible for all acts of their employees in connection with their business for which such bond and license is issued.

11. Every such bond and license shall be for the year current at the time of the granting thereof, and shall expire on the 15th day of January next succeeding the date of issue.

12. Upon satisfactory evidence furnished to the Plumbing Inspector that any master plumber has been twice convicted by the Police Magistrate, or a Justice of the Peace, of any violation of the provisions of this By-law, or any of the By-laws respecting plumbing, drainage, sanitary matters, or water works, his license shall be ipso facto, forfeited and returned to the Inspector.

13. Any master plumber whose bonds and license may become forfeited shall not again be entitled to a license until the said declaration of forfeiture shall be revoked by the Plumbing Inspector and if such master plumber is carrying on his business in co-operation, or as a member of a company, the co-partnership, or company shall not carry on the business of plumbing from the date of such cancellation.

14. Before proceeding to construct, alter or change any portion of the plumbing, drainage or ventilation of any building, the owner, his agent, or the master plumber constructing the same shall file in the office of the Plumbing Inspector an application for a permit therefor, and such application shall be accompanied with a specification or abstract thereof, in a blank form prescribed and supplied for that purpose by the Plumbing Inspector, stating the nature of work to be done, and giving the size, kinds and weights of all pipes, traps and fittings, together with a description of all closets and other fixtures, and a plan with a description of the locality sufficient for identification, and showing the drainage system complete. Plans must be legibly drawn in ink on a scale of 1:8 in. to the foot; provided, however, that this clause shall not apply to small repairs which do not alter the plan of the plumbing.

15. A permit shall be granted or refused within seven days from the time of filing of the application, and the permit of the Plumbing Inspector (if granted) shall be valid for six months from the date of issue.

16. If the Plumbing Inspector shall find that the said plans and specifications do not conform with the rules and requirements laid down in respect to plumbing and drainage in the By-laws of the City of New Westminster, he shall not issue any permit for the plumbing and drainage, and it shall be unlawful to proceed therewith.

17. After a plan or specification has once been approved no alteration or deviation from the same will be allowed, except with the written consent of the Plumbing Inspector.

18. From and after the passing of this By-law every owner, or agent of an owner, of any building, doing or causing to be done, any plumbing in such building shall, on the same being passed by the Plumbing Inspector be granted a certificate that such plumbing has been done in accordance with the City By-laws, and on being requested to do so shall deliver such certificate to any person proposing to purchase or occupy such building.

19. No part of any plumbing or drainage work shall be covered or concealed in any way until it has been examined and approved of by the Plumbing Inspector, to whom notice must be sent when the work is sufficiently advanced to be inspected, unless in the case of drainage below the surface of the ground, which the Inspector has failed to inspect within the five working hours next ensuing after being notified, then the ground may be filled in, in case of an emergency affecting the public safety.

20. All materials must be of good quality and free from defects and the work must be executed in a thorough and workmanlike manner.

21. The arrangement of soil and waste pipe must be as direct as possible.

22. The soil, waste and ventilating pipes and traps must, where practicable, be exposed to view for ready inspection at all times and for convenience in repairing. When necessarily placed within partitions or in recesses of walls, soil, waste and ventilating pipes must be covered with woodwork so fastened as to be readily removed. In no case shall they be so placed as to be absolutely inaccessible unless under written permission from the Plumbing Inspector.

23. When the ground is made or unsound the house sewer shall be of medium or standard cast-iron or brass pipe, with joints properly caulked with lead.

24. In sound ground, providing it is

outside of the building, hard salt, glazed, vitrified pipe may be used; each length shall be wetted before being laid and the space completely filled with cement mortar, made in the proportion of two of good, clean, sharp sand and one of the best Portland cement, except in wet ground, when a gasket shall be placed around the spigot and forced down to the bottom of the socket and finished with mortar cement, as described above. Each pipe must be cleaned out with a mop after being laid. The different lengths must be laid in perfect line on the bottom and sides. All connections must be through "Y" junctions.

25. Any soil pipe passing through a building, or beneath the floor of a cellar or basement, shall be of cast-iron or brass as in section 23, and shall extend to at least five feet outside the building, and no wall shall be built leaning solidly upon the same.

26. Every vertical soil pipe shall be cast-iron or brass, and shall extend a sufficient height above the highest window, roof, or coping, or light shaft, to the satisfaction of the Plumbing Inspector.

27. No rain water down pipe, or chimney flue shall be used as a ventilator for any sewer trap, soil or waste pipe, or as a soil or waste pipe.

28. Each building in which a water closet is placed shall be provided with a main ventilating pipe of cast iron or wrought iron pipe, galvanized, of not less diameter than four inches, which shall be carried at least two feet above the highest window, opening or light shaft.

29. Soil or main ventilating pipes in an extension must be carried to and above the roof of the main building, when otherwise they would open within 40 feet of any openings of the main or adjoining house.

30. No soil pipe shall be less than four inches in diameter. A waste pipe receiving the discharge of five or more sinks shall not be less than three inches in diameter and shall have two-inch branches.

31. When lead pipe is used to connect fixtures with vertical soil or waste pipe, or to connect traps with main ventilators, it shall not be lighter than:

1 1/4 inches in diameter, 5 1/4 pounds per yard.

1 1/2 inches in diameter, 7 pounds per yard.

2 inches in diameter, 8 pounds per yard.

2 1/2 inches in diameter, 10 1/2 pounds per yard.

3 inches in diameter, 13 1/2 pounds per yard.

4 inches in diameter, 24 pounds per yard.

Trap vent pipes shall be of brass, lead, cast or galvanized wrought iron. All traps and fittings shall be equal in quality and thickness to the pipes to which they are attached.

32. All cast-iron pipes must be of the best clean grey metal, free from sand cracks, honeycomb, porous places, air holes, or other defects, and of the grade known as "Standard" which may be used below all fixtures, and for ventilating pipes the grade known as "Standard" of the heavy quality. In buildings over three stories in height the lower three stories must be fitted with the grade known as "medium." The following will be accepted:

Standards 2, 3, 4, 5, 6 inches in diameter.

Below fixtures 3, 4 1/2, 6 1/2, 8 1/2, 10, 20 pounds per foot.

Above fixtures 3, 4 1/2, 6 1/2, pounds per foot.

Medium 5 1/2, 9 1/2, 13, 17, 20 pounds per foot.

All fittings used in connection with such pipes shall correspond in weight and quality. All such pipes and fittings to be coated inside and out with tar and asphaltum.

33. Before being accepted, all plumbing work shall be tested by water or other test approved by and made in the presence of the plumbing Inspector. All defective material shall be removed and replaced, and bad workmanship made good, at the expense of the master plumber doing the work.

34. All joints in iron or brass sewer pipe, soil pipe, waste pipe and ventilators shall be made with a gasket of oakum, and lead, hand caulked, and be perfectly gas tight.

35. All connections of lead with iron or brass pipe shall be made with a brass ferrule of the same diameter of the lead pipe, put in a hub of the iron pipe and caulked with lead. The ferrule shall be connected with the lead pipe with a wiped joint. Vent and flush pipes of water closets shall be connected with brass couplings.

36. All connections of lead, waste and vent pipes shall be made with wiped joint.

37. All water closets, urinals, sinks, basins, wash-trays, baths, and all tubs or sets of tubs, and hydrant waste pipes shall be separated and effectively trapped, except when a sink and washtub immediately adjoin each other, in which case the waste pipe from the tubs may be connected with the inlet side of the sink traps. Urinal

platforms if connected with the sewers must also be properly trapped, vented and automatically flushed with water from a supply tank.

38. Tanks shall be placed as near the fixtures as practicable, and in no case shall a trap be more than two feet from the fixture. All traps must have a cleaning out screw on the under side.

39. All waste pipes from fixtures other than water closets shall be provided at the outlet with strong metal stringers, and all sinks shall be provided with approved grease traps, except when such fixture is to be used for other than household purposes.

40. The waste pipes from no other fixtures shall be connected with a water closet trap.

41. All traps shall be protected from syphonage by a ventilating pipe leading from the highest and outer portion of the trap, either separate or joining the main ventilating pipe, above the highest fixture, or by a sealed siphon preventer, which will only be allowed if in the opinion of the inspector it is impracticable to provide otherwise.

42. For traps in water closets the branch ventilating pipe shall not be less than two inches in diameter, and not less than three inches for a building of three stories or more in height. Where a bath or basin, or both, are in the same room with a water closet, the vents for the same may join the closet vent above the fixture. In no case shall more than three water closets communicate with the same ventilating pipe unless it is over two inches in diameter.

43. Overflow pipes must discharge into the open air and may have a flap on the end to keep out draught.

44. Every safe under a wash basin, bath, urinal, water-closet or other urinal, water-closet or other fixtures, shall be drained by a special pipe unconnected with a sewer, waste or soil pipe, discharging into the open air.

45. No drain pipes from refrigerators shall be directly connected with any soil pipe, waste or sewer.

46. Water-closets shall not be placed in an unventilated room or compartment. In every case there shall be an opening to the outer air. All water-closets shall be supplied with water from special tanks, and the water from these shall not be used for any other purposes. No water-closets shall be directly supplied from the water mains or service pipes. Water closet cisterns shall be fitted with ball taps, etc., to prevent waste.

47. Where the trap of a closet is above the floor, the connection with the soil pipe shall be made with brass and rubber approved floor flanges.

48. Overflow or discharge pipes from tanks for drinking water shall never be directly connected with any soil, vent, waste pipe or sewer.

49. No closet or any other convenience which allows the escape into the house of air or gas which has been confined in any part of it or from the drain or soil pipe, or which allows the accumulation of filth in or about it shall be fitted up or used.

50. All water pipes must be protected from injury or settling.

51. The plumbing inspector shall have the power to enter upon any premises and examine the plumbing, ventilation and drains, and should the same, in his opinion, be in an unsanitary condition, may notify the owner, or his agents, to have the same put in sanitary condition, and any person neglecting to do so forthwith, to the satisfaction of the plumbing inspector shall be liable to the penalties of this by-law.

52. The plumbing inspector is also authorized to receive and place on file drawings and descriptions of the plumbing and drainage of buildings executed in the City of New Westminster, prior to the passage of this by-law, and examine and give a certificate, if in accordance with the provisions of this by-law, upon request by owners of said buildings.

53. Any person guilty of an infraction of any of the provisions of this by-law shall be liable, on conviction, to be fined in any sum not exceeding \$100, inclusive of costs, and in case of non-payment of the fine and costs the same may be levied by distress and sale of goods and chattels of the offender, and in case of non-payment of the fine, and there being no distress found out of which the same can be levied, such offender shall be liable to be imprisoned for any period not exceeding two months.

This by-law shall come into force from and after such date as may be named by the council by resolution.

54. This by-law may be cited as the "Plumbers and Plumbing Regulation By-law, 1906."

Done and passed in open council the 4th day of June, 1906.

GASOLINE SCHOONER IS TOTALLY WRECKED

Huge Sea Swamps Craft and One Passenger and One Sailor Are Drowned.

Eureka, Cal., June 12.—While crossing Humboldt bar last evening and attempting to navigate through the south channel, the gasoline schooner Corinthian, Walter Coggeshall, managing owner, Captain Atwater, master, took aboard a huge sea, causing her to become a total wreck.

Andrew McCarrey, student at the University of California and Ole Carlson, sailor, were drowned.

The list of the rescued is as follows: Captain Atwater, R. M. Boyle, mate; Edward Webb, chief engineer; August Johnson, assistant engineer; Geo. Simpson, sailor; Carl Edmundson, sailor; Fred Johnson, sailor; Pete Adgate, cook; W. D. Linton, passenger.

The Corinthian is now upon the beach between the shipyards and New Era Park just beside the hull of the ill-fated steamer Newboy, which was wrecked two months ago.

Before the eyes of the persons on board Ole Carlson, a sailor, was dragged down and out to sea by the strong waves so stoutly that they were able to reach shore. One was seized and landed safely by Alexander McLean, of the McLean Launch Company, and the other who had left his clothing aboard managed to crawl ashore himself, to receive attention and clothing and a good place beside a blazing bonfire.

The Diary of a Much Abused Man.
Monday—Have just been violently attacked in a magazine article entitled "Corporation Greed." All twaddle, just to make circulation. Finished organization of syndicate to take over the Jerkwater Southern railway for \$60,000,000. Will issue \$75,000,000 common and \$75,000,000 preferred stock and work it off gradually on public.

Tuesday—A fearful attack on me in morning papers. This craze of assailing the property interests of the country is becoming epidemic, but I suppose it appeals to the rabble and makes circulation.

Put in morning with Senator Shark, who agrees to vote for railway rate bill if I appoint his son special counsel at \$25,000 a year. Made private agreement with two prominent shippers to give rebates on certain shipments.

Wednesday—A public massmeeting held last night to condemn my methods of finance. The people are going crazy about what they call the greed of the corporations. The newspapers are to blame for exciting the country to the state of frenzied hostility to the solid institutions. If it hadn't been for them we should have escaped this disastrous insurance muddle that has done so much to disturb the business of the country.

Cornered the supply of coal in the middle west and am in a position to make consumers come to my own terms.

Thursday—Preachers have joined the hue and cry about me; say my money is tainted, etc. They're all notoriety seekers, eager to get into the papers. The country's gone mad on the subject.

Had lunch with Judge Jones today and casually gave him the straight about the litigation against my railroad that comes up in his court before long. Have promised to support him with campaign contribution at the next election.

Friday—The Supreme Court has just decided that my new bonding project is illegal. The president also has come out in a severe arraignment of my coal corner. Pretty soon the whole country will be infected by this disease of indignation against the property interests, but as long as they don't fool with the tariff I'll not complain.

Was on witness stand today, but said "I don't remember" to every question they asked me. It was none of the public's business, anyway.

Saturday—The grand jury is threatening to indict me. I don't know what the country is coming to. One of my weak-kneed directors called in this morning and says we've got only ourselves to blame for this

HEADQUARTERS FOR STRAWBERRIES

We have made our arrangements for supply. As usual you will be able to secure the best the market affords right here.

Some extra value in New Zealand Jam in self-opening tins at 50c—the best yet.

Ripe Tomatoes, 15c per lb. Cabbage—splendid stock, only 5c per lb.

Everything the best at the lowest prices.

The Outlook

for New Westminster and district is better today than it has ever been at any time within the past ten years.

With deep water vessels and steamers coming up the Fraser river and giving New Westminster her rightful place in the shipping world.

The coast Kootenay railroad a long felt want is now an assured thing and will open a vast tract of country for settlers in the near future. The opportunity for acquiring sites for homes as evidenced by the result of the sale of property held by the city last week, is unsurpassed by any city on the Coast, justly entitles New Westminster to be called the city of beautiful homes.

The country round is fast settling up with from five to twenty acre holdings, of which class of property we make a specialty and have a large number for immediate sale.

We have forty-two acres fronting on the Fraser river and Great Northern Railroad connection, deep water, price only

\$75.00

an acre. Grand site for an industry.

ST. BARNABAS' CHURCH.

To the Editor of the Daily News:
Sir—I was much interested in your article on St. Barnabas' church, which appeared in your issue of June 8th, especially as for nearly five years I was closely identified with the parish. Some interesting facts were omitted, while in one matter a misstatement occurs which I hasten to correct. No mention was made of the building of the church fence, and the paying off of the first debt of \$1,000; two efforts which, to my mind, far exceed anything hitherto accomplished, as in those "hard times" it meant genuine self-sacrifice. Well do I remember building that historic fence. The movement was inaugurated by Mr. W. T. Cooksley, at that time a most active worker, and the whole congregation turned out "en masse," children and all, to help build it. In less than a week it was finished, all of us feeling proud of the work, and it still stands today, after seven years' service, as a memorial of the energy and enthusiasm so characteristic of St. Barnabas.

Miss B. Laidlaw was the first to appear before the audience, contributing a piano solo, which was well received. A solo by Mrs. Vermilyea of Vancouver was loudly encored. Mrs. Alex. Cunningham and Miss Vass next obliged with a piano duet. A solo by Miss Munn was the next item on the programme, and this was also well received.

A one act comedy by thirteen members of the bible class was staged and acted in a pleasing manner, and the applause that followed the skit showed clearly that it was appreciated by the audience. The comedy was entitled "A Village Scare" and depicted the terrors of a number of people over the supposed outbreak of smallpox in the neighborhood.

The entertainment was brought to a close by a contribution from the orchestra, which consisted of Miss Vass, piano; Fred Jackson, O. K. Smith and Arthur Insley.

Ice cream and strawberries, cake and other delicacies were served and thoroughly enjoyed, after which the gathering broke up about 10 o'clock, apparently well pleased with the evening they had spent.

At St. Barnabas Tonight.

In addition to strawberries and cake, the following programme will be rendered tonight at the St. Barnabas' parish hall:

Orchestral selection, under the leadership of Prof. Judges.

Piano duett, Miss Doris Chute and F. Major.

Picolo solo, A. S. Leslie.

Reading, O. Wilkie.

Vocal duett, Mrs. Frith and Mrs. Emmett.

Guitar solo, Frank Lewis.

Piano solo, Mrs. Frith.

Song, A. Johnston.

Plano duett, Miss Muriel Cotton and Miss Vera Corbould.

Concert flute solo, A. S. Leslie.

Banjo solo, H. Lewis.

Leslie's celebrated Fife and Drum band will be in attendance and will play selections on the lawn.

Freshly made candy every day at the Star Candy Factory next to DeGrey's barber shop.

at \$5,000.

Sporting News and Comment.

Juniors Play Lacrosse.

The Junior Reginas failed to turn out in force for the lacrosse match scheduled to take place between that team and the West End Tecumsehs last evening, and a scrub team had to be formed for the purpose of having some sort of a game. As might have been expected, the exhibition put up was pretty poor, but the proceedings were enlivened by a couple of small fights between the players. These were not serious, and medical assistance was not summoned. The teams lined up as follows:

Tecumsehs—Goal, Munn; point, D. Eastman; cover point, D. Marshall; first defence, R. Cormack; second defence, H. Johnston; third defence, R. Sangster; centre, H. Sangster; third home, Hal Johnston; second home, W. Sutherland; first home, Joe Feeney; outside home, A. Spring; inside home, V. McPhadden.

Reginas—Goal, Julian; point, Fitzgerald; cover point, J. Houle; first defence, R. Hamilton; second defence, H. Archibald; third defence, John Brown; centre, W. Betts; third home, W. Miller; second home, W. Keary; first home, O. Swanson; outside home, H. Allum; inside home, J. Buckland.

Junior Baseball.

The junior baseball team of the Royal Columbia hospital and the junior nine of the Columbian college will play the last game of their season's schedule at the Queen's park this evening if the weather conditions are favorable. The following is the standing of the three teams:

Columbian College—Played three, lost two, won one, to play one.

High School—Played three, lost one, won two, to play one.

Public School—Played four, lost two, won two, to play none.

Boosting Baseball.

Bellingham, June 12.—Manager A. H. Clemens, of Stanwood is in the city today arranging to form a baseball league to include Bellingham, Everett, Vancouver and Victoria. He was made an offer by Vancouver people to put his team in at that place.

AT THE HOTELS.

Guichon—James Goulay, Nicomen; F. W. Graham, Seattle; T. F. Townley, Toronto; W. Murphy, Toronto; J. J. McArthur, Ottawa; J. J. Buchanan, Moosomin; J. Sheasgreen, Vancouver; J. J. MacKay, Vancouver.

Colonial—G. W. Campbell, Victoria; A. W. Lane, Mission; Mrs. Wilson, Seattle; C. J. Sexsmith, Alluvia, U. S.; L. Horner, Nicomen; E. Burnitt, Hornby; Minnie Copeland, Seattle.

Windsor—John Anderson, Everett; E. T. Moody, G. H. Watts, T. Franzen, Everett; P. Kemp, San Francisco; James Browne, Ladner; A. Wilson, Vancouver; W. Young, Boston; E. B. Turner, Vancouver.

Cosmopolitan—George Milne, Ladner; John R. Anderson, Nicomen; Tom Keegan, Sumas; R. M. Eburn, Mount Lehman; Wm. Read, Ladner; J. A. McCallum, City; Johann A. Rosengren, Vancouver.

Dalton—J. Daly, R. F. Stroud, K. Muti, Joe Wilson, Blaine; Martin McKenzie, Belleville; W. J. Lewis, Pitt River; A. McGregor, Vancouver, Geo. Milne, Ladner.
