

CRUSHED TO DEATH  
IN SAD ACCIDENT

Robert Powell Meets Sudden End While Moving Furniture on Port Moody Road.

Death came to Robert Powell yesterday morning in one of its most sudden forms, without an instant's warning of the impending disaster. Powell was the owner of a farm on the Port Moody road, but had just left his place and was moving the furniture from the residence on the property to the barn, only a short distance but over a very rough trail. The furniture was loaded on to a wood horse and hauled by a single horse, a large but well broken animal. At the time of the accident, Stephen, the son of the deceased, was walking alongside the jolting sled, driving the horse with one hand and steadying the load with the other; his father was seated in the front holding on to the driving desk. A sudden pitch in the road threw the desk and the man and the feet of the horse. Apparently the horse kicked him, for the back of the skull was crushed in; the unfortunate animal then bolted, dragging the load over the unfortunate man and dislocating his neck, causing instant death. The son, who was sitting before the horse got away from the completely, but suffered no severe injuries. The runaway was stopped by a neighbor named Harrison, and a message was sent to Dr. Roth, who hastened to the scene, pronouncing the victim of the accident to be past help.

The body was brought to Murchie's undertaking parlors, where it will be held by the coroner Capt. Pittendrigh, although it is unlikely that an inquest will be held.

Robert Powell was 53 years of age and a native of St. Johns, Newfoundland. He came to British Columbia some 24 years ago, taking up his residence at Armstrong, in the Okanagan, where until a year ago he resided. He was also a prominent member of the Odd Fellows and the lodge of that city. He leaves a wife in this city, Rev. J. P. Bowler, a nurse of Columbian college, five sons, Stephen, Walter, Frank and George, in this city, and William in Armstrong, and two daughters Mrs. Smith of Armstrong, Emma and Alice of this city. Mrs. Powell of Boston, is the step-mother of the deceased and a step-sister also resides in that city. There are five step brothers and several nephews and nieces, two of the former and all the latter reside in this city.

Daughters of England Entertain.

Last evening the Daughters of England entertained the members of the house of Columbia lodge, of the Sons of England, at a social in the K of P hall. The ladies turned out in full dress and spread delicacies sufficient to feed a small army, in fact, did their utmost to make the evening a success, and in this they did not fail. They expressed some disappointment at the number of the male sex present. An excellent program of songs and recitations was rendered by the ladies, with instrumental numbers by a full orchestra. Among the contributors to the program were: Miss Collins, Miss Turnbull, Messrs. A. B. Blackman and R. Disney and two recitations by Miss Annie Tidy. The evening concluded with refreshments and games.

"This Is My 61st Birthday"

Lord Rosebery.

The Right Honorable Archibald Philip Primrose, Earl of Rosebery and former Premier of Great Britain, was born in London, May 7, 1847, the son of the late Archibald Lord Dalmeny. He received his education at Eton and Christ Church college, Oxford, and succeeded to his title in 1868. He first spoke in public in the House of Lords in 1871, when at the opening of Parliament he was selected by Mr. Gladstone, then Prime Minister to second an address in reply to a speech from the throne. This he did with great tact, and evoked from Mr. Gladstone a reference to his extraordinary promise. In 1874 Lord Rosebery was elected Lord Rector of Aberdeen University, and in 1880 Lord Rector of Edinburgh. In 1881 he was appointed Under Secretary of State for Foreign Affairs. Early in his career he had three ambitions in life: To win the Derby, to marry the richest heiress in England, and to become Prime Minister. His ambitions were fulfilled. In 1878 he married the daughter of the great banker, Baron Meyer de Rothschild. In 1894 he became Premier and a year or two later he saw his colors win the race in the great annual event at Epsom Downs.

LACROSSE RIVALRY IS  
DUE TO START TONIGHT

Reginas and Westenders Cross Sticks on Queen's Park Oval in First Game of Season.

With the face off of the ball at Queen's Park this evening at a quarter after six o'clock, the struggle for intermediate lacrosse supremacy will be on for the season. The contending teams will be those old rivals, the Reginas and the Westenders, each putting a strong line up on the field for the first game of the season.

Practices have been well attended by nearly all the boys, most of whom are in first class shape for the clash tonight. Very few new men will be on the lineup of either team this year, according to present indications; although a couple of dark horses will be given a tryout.

This is the way the men will stand on the field:

GOVERNMENT WILL ISSUE  
TELEPHONE DEBENTURES

Scheme to Raise Money to Carry Out Public Ownership Undertaking in Saskatchewan.

Edmonton, Sask., May 6.—The government telephone policy was outlined in the legislative assembly yesterday afternoon by Mr. Calder, who stated that the government would own and operate the trunk, or long distance lines, the cities and towns would own the local exchanges and the municipalities would be given the right to purchase or construct rural systems. The government held out little hope, however, that the municipalities would take up the work and so the alternative provision is made for the local companies to be organized to provide rural systems, government assistance being given for that purpose.

The leader of the opposition came out for a policy of straight government ownership of the telephone system throughout the province, and claimed that in its proposals the government was providing the luxury and shirking the necessity.

For the purpose of raising money to carry out the telephone scheme the government will issue 40 year debentures, bearing interest at four per cent.

Smokefest on Wednesday.

A joint smoker will be given on Wednesday of next week by the Cigar-maker's Union, Local No. 456, and the Bartender's Union, Local No. 784, in the Eagles hall, when all union members in the city will be invited to attend and join in the festivities. A varied program of songs, music and recitations, interspersed with unusual attractions, will be provided by an energetic committee in charge of the entertainment. A full program of the attractions will be drawn up at a joint meeting to be held on Friday evening.

WORK OF MANY YEARS  
BRINGS RICH REWARD

After Operating Mine for Five Years, W. Waldie Sells for \$175,000.

Nelson, May 6.—Patient perseverance, intelligently directed, seldom fails in missing its mark. The truth of this adequately shown in the sale of the Queen mine at Salmo to Wisconsin capitalists by William Waldie, who has realized, after five years of work, a comfortable fortune through the disposal of his property. Yesterday the Queen mine was sold to Wisconsin men for \$175,000, \$50,000 being paid down and the remainder to be paid at the end of thirty months. In the meantime the purchasers will pay 15 per cent. of the mint and smelter returns to the vendors, the amount thus accruing to be installments upon the purchase price.

But Mr. Waldie has not forgotten his men who have been working under him for so many years past. The deal falls through and the property reverts if the payments fall in arrear or if the mine is closed down for a period of 60 days.

The deed was signed yesterday, on behalf of a syndicate of Wisconsin people, by A. D. Westby.

Just now the property is being opened up by a force of 38 men and a mill of 10 stamps is in constant operation. On the railway siding, awaiting the opening of the roads, are 10 more stamps, which will bring up the capacity of the mill from 135 to close to 400 tons a week.

It is 12 years since the mine was located. It has not, however, been worked continuously from that date. There have been many vicissitudes. Six years ago it was leased and 12 months later W. Waldie took hold of the property and has worked it continuously ever since.

BASEBALL GAME TONIGHT  
ON PARK AT SAPPERTON

The Sapperton baseball team is in line for a mauling this evening, the Columbian college boys meeting the aggregation at Sapperton park at six o'clock. Judging from previous showing made by these two teams, the lads from the educating establishment will have no difficulty in filling up their score column, while the Sappertons will doubtless be thankful for the pointers they will receive by playing what is either the best or second best team in the city. The real baseball match of the week will take place on Saturday, when the city seniors will alternate with Columbian college in warming the bench at Queen's Park.

Amend Chinese Act.

Ottawa, May 6.—The amendment of the Chinese Act provides for the deportation of Chinese who are found to have been smuggled into Canada. This is due to the fact that twenty Chinese who got into Cape Breton from Newfoundland, after being fined one hundred dollars, had to be let go on payment of the fines, as there was no authority in the law to deport them.

INDIANS ARE DESERTING  
WHALING DEPOT FOR FRASER

Nanaimo, May 6.—Dr. Rasmiller, of the Pacific Whaling company, who was in the city yesterday, stated that at Page's Lagoon station they are temporarily shut down, as many of their Indian fishermen wished to go over to the Fraser for a try at the salmon fishing. He states that in a few weeks they will return, as they can do better fishing for his company than they can fishing for salmon unless there is a lucky run for a few days of the latter fish. Dr. Rasmiller says that his company will bring over from the west coast a lot of the natives and that many Indians from this vicinity will also be engaged shortly for the dog fishing, and he expects this to be a permanent business here. At the west coast the whale fishing is going on famously, and many of the deep sea leviathans are being captured and converted into useful products.

ARBITRATION WITH  
JAPAN IS SIGNED

Treaty Between Washington and Tokyo Will Take Issues to The Hague.

Washington, May 6.—A general arbitration treaty between the United States and Japan was signed today by Secretary Root and Ambassador Takahira. This treaty follows the lines of the several arbitration agreements which have been negotiated between this country and European nations during the winter in accordance with the idea adopted at the recent Hague conference. It will permit the arbitration at The Hague of nearly every class of dispute which may arise between the signatory powers.

BIGGEST DREDGE ON COAST  
LAUNCHED ON THE FRASER

A large assemblage of interested citizens gathered on the Lulu Island bridge yesterday morning to witness the launching of the largest dredge of the Pacific. The launch was most successful, no hitch of any description marring the proceedings. Gradually the shores were knocked away and the huge steel hull lowered on to the well greased ways. For a moment it seemed to hesitate, then, as the men scrambled from beneath, glided easily and with increasing momentum into the water, while at the same moment the shutters of numerous cameras ready trained for the splash snapped. The vessel swung of its own volition out to the centre of the channel in a long curve, and was picked up by the government tender Petrel, and towed to the government wharf. The vessel was gaily decorated with strings of flags along her whole length, the Union Jack waved at her peak and Blue Peter at the stern, while a round of cheers arose from the crowd as her bows churned up the foam.

McBRIDE WILL NOT ATTEND  
EAGLES' MEMORIAL SERVICE

The annual memorial service of the Fraternal Order of Eagles, Aerie No. 20, will be held in this city on May 31, the last Sunday of this month, services being held in the Eagles hall. A telegram was yesterday received from the Hon. Richard McBride, who is a member of the order, announcing that he would be unable to be present at the annual ceremony. Following the service in the hall, all of the 175 local members of the order who can attend will march in parade order to the Sapperton cemeteries, where flowers will be placed on the graves of the thirteen members of Aerie 20 who have passed away since the lodge was established. The city band will lead the procession.

ENGLISH CATHOLICS  
WANT REPRESENTATIVE.

Ottawa, May 6.—The Deputation from the Irish League, including a number of prominent English Catholics from Toronto, waited on the premier regarding representation in the Dominion cabinet. Since the appointment of Hon. Chas. W. Fitzpatrick to the supreme court bench, Hon. W. Scott has been the only English Catholic representative in the cabinet.

LABOR UNIONS TO CONDUCT  
HOSPITAL FOR WORKINGMEN

Chicago, May 6.—Chicago is to have a workingmen's hospital. It is to be an institution managed co-operatively by the labor unions, in which free treatment and medicine will be given the families of workingmen in time of sickness. The plans for the hospital have been drawn and negotiations for the purchase of a site are already under way. Through the sale of annual memberships at \$3 each it is planned to realize a fund of \$95,000, which will cover the establishment of the institution and the first year's work.

Winnipeg Firm Assigns.

Winnipeg, May 6.—The Amalgamated Press of Canada, Ltd., doing business in Winnipeg for the past year under the management of John MacLean assigned yesterday with liabilities of \$25,000. So far as can be ascertained the assets of the company will reach about \$15,000. Some of the heaviest creditors are in the east.

HEROIC RESCUE OF  
DROWNING YOUTH

Walter Davis Jumps Into Fraser and Saves W. Cambridge from Watery Grave.

Overbalancing in an attempt to hand a newspaper to a customer on the new dipper dredge at the C.P.R. wharf about seven o'clock yesterday evening, young W. Cambridge, son of Thomas F. Cambridge, of 251 Fourth avenue, a clerk at the provincial asylum, fell between that vessel and the wharf, disappearing beneath the icy waters of the Fraser almost instantly. Several persons witnessed the accident and rushed at once to rescue the drowning lad, who had already sunk for the second time before Walter Davis, a young Englishman staying at the Depot hotel, who had leaped into the river as soon as he realized that the lad was in danger, managed to secure a hold on the drowning boy and keep him above water until assistance was secured and the two were brought safely to shore.

Young Cambridge was apparently none the worse for the experience, being hurried home in a hack and placed under the care of his parents. His rescuer, after seeing the lad in safe hands, made his way to the Depot hotel in order to change his clothing. Davis has only been in the city a short time.

LONDON IS READY FOR  
MONSTER EXPOSITION

Franco-British Exhibition Biggest Undertaken in England Since Crystal Palace Fair.

London, May 6.—After months of preparation, the Franco-British Exhibition is practically complete and ready for the opening. All London and Paris as well is looking forward eagerly to the event. The exhibition is the most ambitious affair of its kind that has been attempted in England since the great Crystal Palace exposition.

The Franco-British Exhibition occupies a tract of nearly 150 acres at Shepherd's Bush, a suburb of North London. Scattered over this vast area are some huge exhibition palaces dedicated to the science, art and industry of France and Great Britain. The buildings are spacious and artistic structures, built for the most part of steel, iron, concrete and plaster. The giant of the palaces is the Machinery Hall, which is said to be the largest building of its kind ever erected. It covers an area of over six acres, which, with the balconies, gives it a total floor space of over eight acres.

The next largest edifice is the Indian Court, for the display of the products of the Indian Empire. The hanging space for pictures in the Fine Arts Palace is greater than that at the World's Columbian Exposition in Chicago in 1893. There will also be various amusement features, including an Irish village, scenes from French peasant life and an Indian village from Western Canada.

Orchard Granted Reprieve.

Portland, May 6.—A special from Boise says: Harry Orchard, angered at his attorney, Frank Wyman, because of the latter's efforts to save him from execution, has dismissed Wyman. Governor Gooding, nevertheless, this morning gave Orchard a reprieve to July 2. The board of pardons meets on July 1.

Hundred Thousand Visitors in  
Seattle When Fleet Arrives

Seattle, May 6.—The reception to the fleet committee is receiving hundreds of requests daily for seats in the huge reviewing stand which will be erected between Pine and Virginia streets and between First and Second avenues. A. Forrester Deveraux has been placed in charge of the work of reserving the seats, and he has devised a system whereby requests are made by mail.

The reviewing stand will seat 10,000 persons, and the indications are that it will be sold out long in advance of the arrival of the fleet. According to the plan in vogue, reservations are made until May 20, when, if the seats are not paid for, the reservations will be cancelled. The price charged is \$1 a seat.

The reception committee estimate that there will be 100,000 visitors in Seattle during the four days when the battleship fleet will lie at anchor in Elliott Bay. This multitude with the population of the city which will see the magnificent naval and military parade, will make enormous crowds. It is in anticipation of this throng that the public is looking forward now to secure seats in the official reviewing stand.

The board also agreed to supply the pastor with money up to thirty dollars for advertising, printing and other incidentals.

## Western Crops Are In Fine Condition

Winnipeg, May 6.—In speaking of the crops in Western Canada, Premier Roblin said he had never in the past thirty-one years, seen the wheat crop in such good condition. Weather conditions were perfect and everything pointed to a good year.

"Reports from all over the country are the same and Premier Rutherford, of Alberta, was telling me that out there conditions were fine for both grain and cattle. Premier Scott is receiving reports from all over his large domain and they are just the same. There is plenty of moisture in the ground and the top is dry enough for the grower to get to work on the land."

### BILLINGS-GATE.

Markets seem the natural abode of Strong Language.

The unpolished phraseology, native though not peculiar to this quarter of London, has given rise to the proverbial use of the name Billingsgate. "One may term this the Esculapian gate of London," says old Fuller. "Here one may hear linguas jurgatrices." The seventeenth century references to the "rhetoric" or obscene language of the market are frequent, and hence foul language itself is called "billingsgate." In "Vanity Fair," too, Thackeray tells us how Mr. Osborne cursed Billingsgate with an emphasis worthy of the place.

It is curious how markets are the natural abode of strong language. Thus the French equivalent for "You are no better than a Billingsgate fish-fag" is "Your compliments are like those of the Place Maubert," the Place Maubert being noted for its market.

In the good old days the Billingsgate porters seem to have thoroughly enjoyed themselves, for one Bangford, writing in 1715, says: "This being to my mind another ancient custom that hath been omitted of late years. It seems that in former times the porters that plied at Billingsgate used civilly to entreat and desire every man that passed that way to salute a post that stood there in a vacant place. If he refused to do this, they forthwith laid hold of him and by main force bumped him against the post. But if he quietly submitted to kiss the same and paid down sixpence they gave him a name and chose some one of the gang for his godfather. I believe this was done in memory of some old image that formerly stood there, perhaps Belus or Belin."

The original porters of Billingsgate belonged to one of the oldest labor guilds in the country, the Fellowship of Porters, and at one time the carrying work both at Billingsgate and from the wharfs to the warehouses of the city within a certain radius was entirely performed by them.—London Globe.

Montreal, U. S. A.

A lady applied the other day for tickets for the royal inclosure at Ascot for self, daughters and for a Miss X. of Montreal. She received tickets for herself and daughters, with a communication that Miss X. of Montreal should apply for a ticket through the American ambassador. The only parallel we can think of to this grip of geography on the part of the powers that be is the reply of the celebrated Duke of Newcastle, who, on being informed that Newfoundland was an island, shook hands warmly with his informant and said: "Thank you, thank you. You always bring us good news."—London Globe.

### Punishing a Court Fool.

Ivan the Terrible, Peter the Great and the Emperor Paul had rough ways with their fools. A dagger thrust would follow a poor joke and banishment any sign of declining wit. Once when Fougere, the jester of Czar Paul, offended his royal master he was permitted to depart in peace. In the middle of the night, however, he was aroused and ordered to get up and prepare for immediate banishment to Siberia. In vain the unhappy man pleaded. He was bundled into a dark van and driven away on his long journey. Day after day, week after week, it lasted. Upon arrival he stepped out into the presence of the czar. All the time he had been driven not toward Siberia, but around and around St. Petersburg.

### Proverbs of Assam.

Here are some rather clever proverbs of Assam: "The best crops grow on others' fields, but the best sons are a home." "A bird is a little thing, but it builds its nest on a lofty huling tree." "Buy land which slopes to the middle, and marry a girl who has a good mother." "The biggest jack fruit always hides under the leaves." "If a man slips down it is always his eldest wife's fault, but if his youngest wife makes a mistake he says he will see about it." "A hasty cook, a hasty broom, and the husband goes fasting; a slow cook, a slow broom, and the husband eats three meals a day."

## FIRST TIME OUT.

He's not an awkward schoolboy, He's not a bashful lad, No; he's a man of forty, And several times a dad, But he is dazed and tongue tied, His words all out of reach And for the first time trying To make a public speech.

It seemed a simple matter For him to do the part When he was in his study And learning it by heart. Now, meeting friends and neighbors In public face to face, He wishes that an earthquake Would swallow up the place.

He stammers, and he stutters; He fumbles at his coat; A lump much like a football Arises in his throat; His knees begin to wobble; His voice begins to fail, He'd rather take a licking Or forty days in jail.

Though large and fat and husky And feeling fit to fight, He cannot face the music And in it take delight. He knows if he survives it To brave those harmless men, That money wouldn't hire him To try the thing again.

## College Hazing.

A man who is fifty-eight years old, has rheumatism in his left leg and no hair on the top of his head, can hardly see what pleasure there is to be extracted from such rough house play as hazing.

With a boy it is different. Having a few surplus quarts of animal spirits to work off, it seems to him like the rarest sport on earth to paint green stripes on a fellow mortal and stand him on his ear to dry.

The professors may sit in imposing conclave around a table, with their spectacles nicely adjusted and solemnly abolish hazing, but the chances for it to stay abolished more than a day and a half are not good.

In plain United States the boy is a savage, and the harder you make it for him the more pure joy he will find in working at that trade.

## A FLY IN A WEB.

The Way a Tiny Spider Imprisoned His Big Victim.

"One morning when busy in my workshop," says a naturalist, "a large fly, double the size of a bluebottle, was caught in a spider's web in the window close to where I was at work. It was held by two of its legs only, and for some time the spider, which was about the size of the fly's head, proceeded to strengthen its hold by attaching numerous extra lines to the two captive limbs, carefully keeping out of reach of the others, which were letting out in all directions in frantic efforts to escape.

"During a short respite in the captive's struggles the spider cautiously approached and with its hind legs got several turns of its tiny rope round one of the limbs that were free. These tactics were carried on till all the legs were firmly bound. It then injected poison into one of the legs. This soon showed itself, for its denuding effects reduced the victim's struggles in a marked degree. The poison paralyzed, but does not kill.

"Shortly after a second bite resisted, and the victor settled down to suck the juices of its fallen prey. The struggles lasted quite an hour. Next morning the fly was alive, and the spider was still sucking out its lifeblood."—Chicago News.

### WIFE'S SUCCESS.

She Knew Just How to Jolly Her Husband Along.

"My dear," said the housewife as she filled her husband's cup a second time from the coffee machine and passed it to him, "you can't possibly wear that old suit again this spring."

"Why?" asked the man. "What's the matter with it?"

"You ought to have a new one."

"Shucks!" said the man. "All it needs is a little pressing and it will look well enough. It's a long way from being worn out."

"Now, isn't that just like you! Just because it isn't rags you think you have to keep on wearing it. Jim, I want you to go to your tailor tomorrow and pick out a nice piece of goods and have a suit made of it. It really is a shame the way you go about."

"Nobody's mistaken me for a tramp so far. Strangers seem to be decently civil to me."

"Oh, you know I don't mean that. I know you look well. You'd look well in overalls and you would command respect, as far as that goes. Nobody would ever mistake you for a tramp, even if you did dress like one."

"You won't ever lose anything by that," said the man.

"I'm not joking. I want you to order that suit. And don't go to any cheap tailor, either. Go to a good one, even if you do have to pay a little more. It's worth it. And get a gray. I love to see you in gray. I think it becomes you more than anything else. Won't you go tomorrow and see about it?"

"Why, no, my dear," said the man. "I think I can get along very well with the suit I've got."

"Yes, you can get along with it."

"Well, then, what makes you want me to get a new one?"

"You'd look so much better in a new one. Mr. Benton was wearing a new suit the other day, I noticed, and I just thought when I looked at him what an improvement it made in his appearance. He was looking simply awful before. Of course, dress means more to him than it does to you with his figure and poor carriage, and then, you know, he has to try to impress people. Still—"

"I don't believe I need a new suit, Myrtle."

"But you do need it. I want my husband to look his best always—his very best, and clothes really do help. That's why I always love to see you in evening dress. You look so distinguished. You look distinguished anyway, dearest, but clothes really do help."

The man rubbed his chin. "Of course they do," he admitted.

"Certainly they do. Now, don't be obstinate, dear. I know perfectly well what you are thinking of. You think I need new spring clothes and a new hat, and you're willing to sacrifice yourself just to make your ugly wife beautiful. I don't want you to think of me at all. I want you to get yourself the things you need so badly and not always be denying yourself on my account."

"Do you need spring clothes? I thought—"

"Jim, I tell you I don't want you to think of me. Why, of course I need clothes. I haven't a thing fit to wear. But never mind that. I'll get along somehow. I'm going to have my poor, abused husband have his clothes this time. I'll wait till business improves."

"Well," said the man, "maybe the business might stand it if you don't strike me too hard. I don't know but I will get a new suit myself. How much will fix you out?"

"You dear!" exclaimed the lady. "Well, if you insist on it, I'll tell you. But I want you to have your suit."—Chicago News.

### Couldn't Help Himself.

"Higson is going to marry the widow Woods."

"Indeed! I always thought he had an eye on her daughter."

"So he had, but the mother had an eye on him."—Mail and Express.

### A Remarkable Letter.

A young lady of very extraordinary capacity lately addressed the following letter to her cousin:

"We is all well, and Mother's got Mr. Terris, brother Tom is got the Hupins, Kaugh, and sister Ann has got a babee, and I hope these few lines will find you the same. Rite sune. Your affectionate Kuzzen."—Judge's Library.

### Animals That Roam.

"Now, Johnnie," asked his teacher, "when you go to the country in summer what animals do you see roving about?"

"Boarders," was the prompt reply.—Judge.

THURSDAY, MAY 7, 1908.

## A SESSION OF SLANDER.

From the opening of Parliament on November 28 of last year, the Conservative opposition, having little or no regard for the business of the country, occupied most of the time down to the present day with slander and the making of groundless charges against the government of Sir Wilfrid Laurier, thus delaying effective legislation at a time when many of the members wished to give some oversight to their personal business in view of the stringency of the money market and the consequent unrest in business circles.

The main estimates were brought down on December 11, and up to March 24 only \$4,583,415.06 out of \$94,556,939.90 had been voted. As the fiscal year ended March 31, 1908, and the public service for the year, commencing April 1, could not be carried on without supplies being voted, one eighth of the main estimates remaining for the year 1908-9 were voted without discussion. On the same date the extra supplementary estimates for the year ending March 31, 1908, were presented. Although these represented five million dollars made during the current fiscal year beyond the amount authorized by Parliament they were passed practically without discussion. Last year the main estimates were presented on February 7th, and received the Royal assent on April 7th. This goes to show that the time of the House is frittered away in the starting of slander, making charges that in no sense have been proven, for the purpose of filling Hansard with campaign literature, which, although the charges are proved to be false, will be read "from Hansard" without the context upon the hustings, in an endeavor to mislead the electors. If the Conservatives had anything but the "rubber policy" on which they could ask the support of the electorate, then they would not have to resort to such tactics, but their failure to enumerate any fixed policy has compelled them to enter the campaign strewing their path to defeat with innuendo and falsehoods which like the anarchistic bomb will prove disastrous to the manufacturer. It would be the more mainly way for the press which has circulated these false charges to at least give the admission of their leaders in the cases where they acknowledge they have broken down and that they had no more evidence to submit. Such a course would appeal to the country as an evidence of British fairplay, whereas the course being pursued by the Conservatives will only bring condemnation by every fair minded man upon themselves.

## MORE DIRTY TACTICS.

No more harm is done in this world than by innuendo, and it is nothing else the Columbian is a past master of this art.

The report of the revising of the voters' list in Tuesday's Columbian contains the following sentence: "Others in the room were Messrs. Jas. Leamy of the Dominion Crown Timber office, etc." There can only be one conclusion drawn from this, viz., to try and drag in public officials as interfering or dabbling with politics.

Mr. Leamy is too well known for the report referred to to injure him in any way and when seen on the matter laughed, but on interviewing Sheriff Armstrong we are informed by him that Mr. Leamy called at his office to see him concerning some timber dues on logs seized by the Sheriff at Pitt Lake, and not finding him in his office was informed that that official was in the court room, where it happened that the court of revision was sitting.

That the report of the Columbian will act as a boomerang, and do the Conservative candidate harm when the time comes is more than certain, by the unqualified condemnatory remarks of prominent Conservatives in this city of such dirty tactics.

## Charities and Correction.

Richmond, Va., May 6.—Nearly 1,500 earnest men and women drawn together by their common interest in methods for the cure and uplift of the unfortunate classes are assembled in this city to take part in the thirty-fifth annual meeting of the National Conference of Charities and Correction. Preliminary conferences marked the opening of the gathering today. A welcome meeting has been arranged for tonight and the regular program of papers, addresses and discussions will be taken up tomorrow morning and continued during the next five days.

## VICTORIA DOES NOT WORRY OVER PLAGUE.

Vancouver, May 6.—Harbormaster McLeod has returned from a trip to Victoria where he went to consult with Capt. Gaudin, agent of the department of marine and fisheries, regarding regulations against the incoming of the bubonic plague. Capt. Gaudin expressed the hope that there would be no friction between the harbormaster and the city officials. Capt. McLeod also had a chat with Harbormaster Clark of Victoria, who said that he had heard of no regulations whatever dealing with the matter. The department had not sent any instructions whatever.

## TROOPS CALLED OUT IN TOBACCO DISTRICT

Columbus, Ohio, May 6.—Threats to burn the towns of Aberdeen and Hixonsport, emanating from unknown sources, but resulting from the bitter warfare in the Hurley tobacco district of Ohio and Kentucky, are responsible for an order issued by Gov. Harris last night to Adjutant Critchfield, to despatch troops to the towns mentioned.

## Dredge Cut Long Channel.

The dredge King Edward returned to the city yesterday, after cutting a sixty foot channel through an island below Mission, for the use of tugs. Preparations were immediately commenced for the clearing out of the basin at the government wharf, where the new dredge is to lie while receiving its machinery. The work at Mission was of a very heavy nature, so much so that the heavy steel cables have been worn almost through. Measurements were taken yesterday for an entirely new equipment.

## Guests of Provincial Jail.

Constable Champion, of Vancouver city police, yesterday afternoon brought to the provincial jail three prisoners. A Krug, charged with thefts of two sums of money, \$108 and \$96, while purser of a boat, will await trial. Patrick O'Reilly stole a shirt from a Jew in Vancouver and resides in the jail for thirty days. Victor Price, the third of the trio, broke into a till, and though he only secured \$1.50, yet his intentions were there and he will make this city his residence for six months.

Go to Kyle & Sons for Amber tea. Stevenson will hold a grand celebration on the twenty-fourth of May.

The most convincing argument in favor of "B. C." and "Old Sport" cigars is the cigar itself.

J. H. Brownlee, C. E., Dominion and B. C. land surveyor, has opened an office in the Gulch block. Phone 338.

A meeting of the Westminster branch of the Asiatic Exclusion league will be held on Friday evening of this week at the Eagle's hall.

To dispute the superiority of "Brilliant" cigars is to question the value of quality.

Five hundred different patterns of washable ties at Kyle & Sons; 20c each.

For operating a logging engine at Pender harbor without a license from the boiler inspector, John D. Gillis was yesterday morning fined \$100 and costs in the district court.

The trade finds it both satisfactory and profitable to sell "B. C." and "Old Sport" cigars.

Addison, for several years one of the most prominent musicians of this city, left yesterday for the east, where he joins the Kilbuck band, an aggregation of musicians which is about to start on a continental tour. A large number of friends assembled at the C.P.R. depot to say au revoir to the popular musician.

A large malleable range, the finest and most up to date on the coast, has just been installed at J. M. Kenny's restaurant by A. After giving the range a thorough test, Mr. Kenny estimates that it will save him at least a dollar a day in fuel.

Work was commenced yesterday on the repairs to the Lulu Island bridge, when employees of the electric light department of the city, and of the telephone company commenced the removal of wires from the upper portion of the bridge. It is the intention of the board of works to remove the upper works entirely, these having been a menace to traffic. The bridge will then be strengthened by piling.

There is dissatisfaction, it is said, in the ranks of the local Carpenter's Union, which will be brought to a head tonight at a meeting to be held. The cause of the trouble is that a number of the union men finding work somewhat difficult to get at this time of the year, have taken jobs at a rate below the union scale, rather than leave their families without support. The union it is said will at the meeting tonight, demand that these men either throw up the jobs or leave the union.

## ATOMIC WEIGHT OF SILVER.

One cannot be too often reminded of the fact that in science it is the little things, sometimes the littlest of things, that are frequently of the greatest importance. An instance is furnished by the recent redetermination, upon the invitation of the international committee on atomic weights, of the atomic weight of silver. The work was done by P. A. Guye and G. Ter-Gazian, who after many experiments have concluded that the atomic weight of silver should be expressed by the number 107.89 instead of 107.93, the number heretofore employed. This apparently insignificant change demands a corresponding alteration in the figures representing the atomic weights of many other substances, and by increasing the exactitude of chemical knowledge it may result in future discoveries of great importance.—Youth's Companion.

## The Coopers' Curse.

Not a great many years ago Bayonne, N. J., was thronged with coopers. All oils were exported in barrels, and thousands of experts were employed in their manufacture. Then along came the "bulker," which is to the ocean what the tank car is to the railroad. It carried oil in bulk and soon put the coopers out of business; hence it became locally known as the "coopers' curse." An enormous saving was effected by the bulkers. At the Hook the barrel making business is practically a lost art. Nearly every gallon of oil that goes to European countries goes in bulk, and that which goes to South American republics and small states is shipped in five gallon tin cans.—New York Press.

## Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 29, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

Deputy of the Minister of the Interior.

# Do You Intend Building?

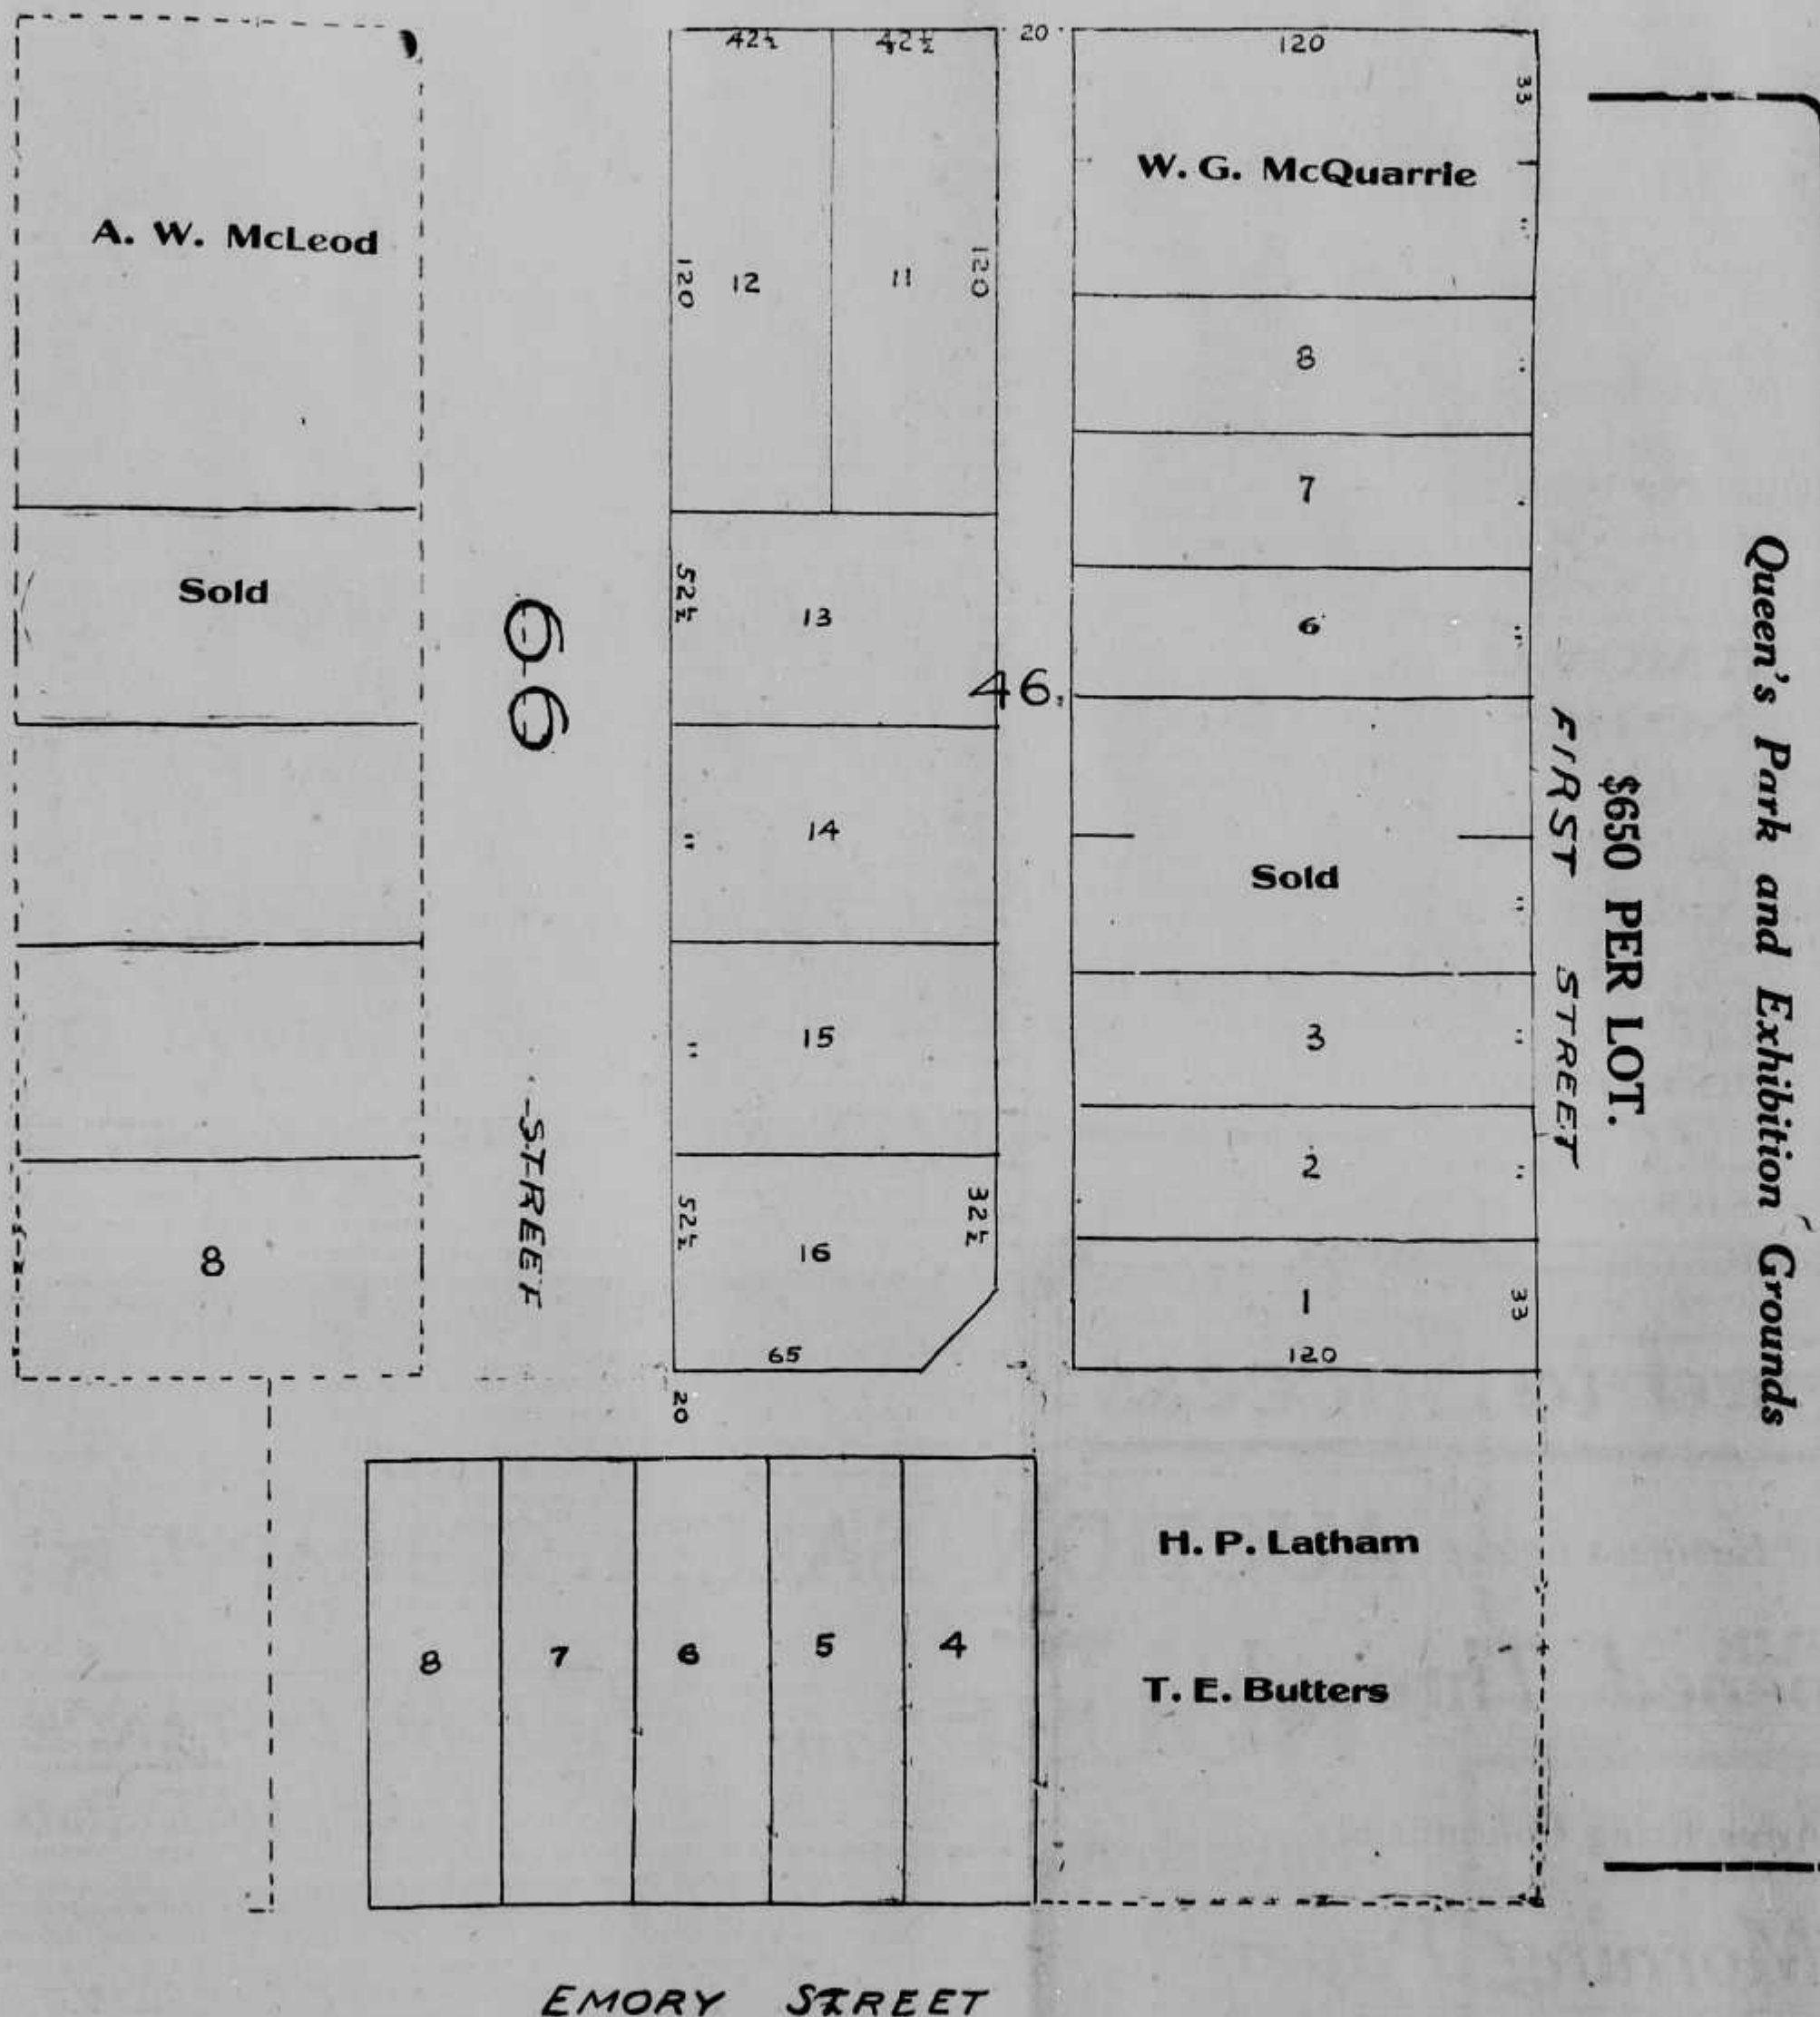

"There is no time like the present" is an old saying but more especially does this apply to building operations at this moment. LUMBER HAS GONE DOWN to a very astonishing extent. It is, however, very questionable if it will remain so much longer. Labor is also much lower and more available than it was this time last year. Make inquiries and convince yourself. DON'T PROCRASTINATE until prices go up again.

Of course you will have to procure a lot and this is where WE CAN BE OF ASSISTANCE TO YOU. We have been given the EXCLUSIVE SALE of what is beyond the least shadow of doubt the most desirable property in the City of New Westminster. WE DO NOT MEAN AWAY OUT IN THE SUBURBS where it is necessary to use fancy names in order to attract prospective purchasers BUT IN THE VERY HEART OF THE BEST RESIDENTIAL SECTION OF THE CITY.

It is situated on FIRST STREET between SECOND and THIRD AVENUES. FACING ON THE BEAUTIFIED PORTION OF QUEEN'S PARK, it commands a magnificent view of the Fraser River and the Pitt Mountains. You can also see all the LACROSSE MATCHES and other sports without going out of the house. Be sure to look at these lots before buying elsewhere. Nearly every lot faces on a 66-foot street and has a lane at the rear. Below is a plan of the property which you might cut out and take with you when you go to pick out your lot. If one lot is too small for your purposes you can take two or three and have just as large a frontage as you want. If you cannot afford to buy lots facing on the Park look at the back lots, the prices of which are absurdly low. Remember: WE ARE THE ONLY FIRM IN THE CITY WHO CAN SELL THIS PROPERTY.

## A SISTER'S COURAGE.

Presence of Mind of an Eighteenth Century Irish Woman.

In looking over some family papers and bundles of old letters I discovered one by Mrs. Jeffereys of Blarney castle, County Cork, which contains an account of a circumstance interesting in itself as an instance of heroism on the part of the narrator toward her brother, the Earl of Clare, and so valuable as bringing to light a remarkable event connected with the history of those troubled times that I feel I am only discharging a duty in submitting it to the notice of the editor.

The letter is dated 3 Molesworth street, July, 1807, and, among other matters, Mrs. Jeffereys writes as follows:

"On the day Lord Fitzwilliam was recalled, when my brother (as chancellor) was returning from the castle after having assisted at the swearing in of the newly arrived lord lieutenant, a ferocious mob of no less than 5,000 men and several hundred women assembled together in College green and all along the avenue leading to my brother's house. The male part of the insurgents were armed with pistols, cutlasses, sledges, saws, crowbars and every other weapon necessary to break open my brother's house, and the women were all of them armed with their aprons full of paving stones. This ferocious and furious mob began to throw showers of stones into my brother's coach, at his coachman's head and his horses. They wounded my brother in the temple in College green, and if he had not sheltered himself by holding his great square official purse before him he would have been stoned to death before he arrived (through the back yard) at his own house, where with several smithy sledges they were working hard to break into his hall door, while others of them had ropes ready to fix up to his lamp iron to hang him the moment they could find him. When I arrived, disguised in my kitchen maid's dress, my blue apron full of stones. I mingled with this numerous mob and addressed a pale, sickly man, saying: 'My dear Jeyl, what'll become of hush! I am after running from the castle to tell yeas all that a regiment of hos is galloping down here to thrample hush, etc. Oh, yea, yea, where will we go?' Then they cried: 'Hurry, hurry, the hos is coming to charge and thrample hush! Hurry for the custom house.' And in less than a moment the crowd dispersed.

"I then procured a surgeon for my brother and a guard to prevent another attack, and thus I saved Lord Clare's life at the risk of being torn limb from limb if I had been recognized by any of the mob."—London Actes and Queries.

## Care of Hairbrushes.

A good way to clean hairbrushes is with spirits of ammonia and warm water. Take a tablespoonful of ammonia to a quart of water, dip the bristles up and down in the water without wetting the back, rinse in clean warm water, shake well and dry in the air, but not in the sun. Soap and soda soften the bristles and will turn an ivory backed brush yellow.

## NOTICE

IN THE MATTER OF THE RAILWAY ACT, and in the matter of the Vancouver, Westminster and Yukon Railway Company and of the Vancouver, Victoria and Eastern Railway and Navigation Company. ## COLLEGE GIRLS WILL GIVE ENTERTAINMENT

Young Ladies Arrange for  
Big End-of-Term Celebra-  
tion—Boys to Buy Badges

The Columbian College Y.W.C.A., with which most of the ladies of the school are affiliated, will give the last collegiate entertainment and social of this season on Friday evening in the gymnasium. Preparations are being made to have it a fitting send off for the most brilliant year of the institution.

The concert will consist of a large variety of numbers, all lively and interesting. These include a scarf drill by some of the pretty college maids; selections by the orchestra, which is very favorably known all over the city; musical numbers, both instrumental and vocal, by members of the College Conservatory of Music. Miss Burns, the Vancouver pianist, will give several readings. A special feature of the program is a whistling solo, which is a novelty in this place, but is considered a great attraction at eastern recitals.

A lot of Columbian banners and pennants made by the members of the association, will be on sale at a booth and if any are left to be sold after the concert opens, it will be because the price the girls set on their remembrances exceed the pocket money papa allowed his boy. As a help to conversation during the social part of the evening, the boys may buy ice-cream and cake.

Every effort is being put forth by the ladies to make this a brilliant success, and smiles and joys await everyone who attends. The proceeds are to be devoted toward furnishing the reception room in the ladies dormitory.

The Y.M.C.A. at the College held a meeting last night in the gymnasium which was addressed by the President, Dudley Anderson. A vocal duet was given by Messrs. Hobbins and Watson. The room of the association in the gym, which has been just lately furnished, makes a very home-like place for the meetings, and adds much to its attractions.

This afternoon the Sapperton baseball nine are scheduled to oppose the college boys. Prospects seem bright for the school lads, for they defeated the Painters nearly as bad as the brush wielders whipped the suburbanites on Tuesday. The fight for the league championship seems to lie between the city and the College, and until these meet for the first time this year on Saturday, no good opinion can be formed on the outcome between them.

No bitterness in WINDSOR  
TABLE SALT. It is piquant  
in saltiness—but delicate, giving just  
the right savour. Use no other.

## W.S. Collister & Co THE STORE FOR WOMEN'S WEAR

## "It's Turned Bad!"

This will be the constant complaint of many careworn housewives in  
New Westminster this summer. Is it going to be yours, Reader? Why not  
study economy this summer by keeping your foodstuffs in a handy sized  
refrigerator, and not to deliberately throw away your money by allowing  
the heat to turn good food into unwholesome and distasteful rubbish. Why  
not always have the food crisp and tasty, both for yourself and your guests?  
To counteract the effects of heat by a modern convenience is the true and  
practical economy. Why not call and see us about an inexpensive re-  
frigerator? We have both the galvanized and porcelain lined in great  
variety.

And say, isn't it time to think about Fly Netting, Mosquito Doors and  
Window Screens.

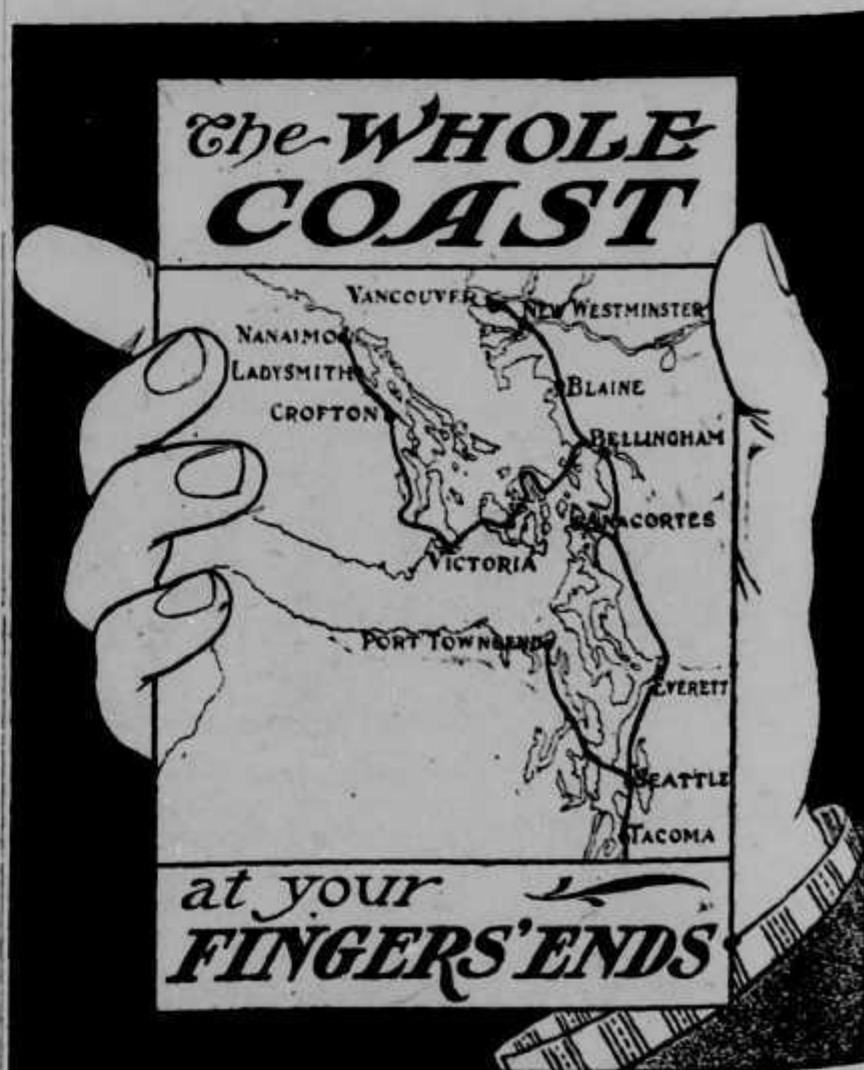

Now, we shall be pleased to see you and to cheerfully show you the  
goods, whether you buy or not.
