

SETTLERS MOVING TO THE NECHACO COUNTRY

Provincial Surveyor, Gray Will Prepare Way for the Immigrants to Valley.

Settlers are moving towards the Nechaco valley in large numbers. According to reports that valley is being colonized rapidly, and will prove one of the richest agricultural sections of British Columbia's interior. The movement in that direction the provincial government is taking steps to have the crown lands of that locality all properly surveyed, necessary roads and trails constructed, and everything possible done to make it comparatively easy for the immigrants to establish new homes. With this object in view, J. H. Gray, who did splendid service for the government in the Bulkley valley, is expected to leave for the Nechaco in the near future. His departure has been delayed owing to the difficulty experienced in obtaining horses to pack the party's equipment. This being the case it is not improbable that Mr. Gray will have to wait until the spring season is well open before he can leave for the scene of his summer labor, confident of being able to accomplish his work with facility. From what can be gathered, the campaign to the Nechaco country has been started by W. P. Groesbeck, who is the British Columbia location agent for Washington, Idaho, Oregon and Montana, and whose headquarters are at Spokane, Wn. It is stated that Mr. Groesbeck has visited this part of the interior of the province, that he has obtained all available information of the possibilities of the land, and has been so favorably impressed that he has not hesitated to recommend it to the farmers of the States mentioned who wish to migrate to the Canadian side. Already fifteen men, all experienced farmers, have been taken to the Nechaco. These form the advance guard of a colony of two hundred. The latter will not move north, Mr. Groesbeck says, until they have reports from the small body who are in the country. The original locator of the land, however, is confident that the scheme will be carried through successfully because he feels sure that the soil, the general topographical conditions, the climate, and, in fact, everything will prove more than satisfactory to those who contemplate making their future homes within the borders of British Columbia.

LABOR WILL INDULGE IN BIG POLITICAL CAMPAIGN

Executive Prepares Plans to Be Followed in National Fight Between Capital and Workers.

Chicago, May 3.—The political campaign recently decided upon by the American Federation of Labor will be directed from Chicago. Plans were made yesterday by the executive board of the Chicago Federation of Labor to fire the opening gun at a mass meeting to be held tomorrow, when President Gompers, of the American Federation, will speak on "Congress and Recent Supreme Court Decisions as Affecting Organized Labor." John Mitchell, former president of the United Mine Workers of America, will preside. Following that meeting will come a series of speeches by labor leaders on the last Sunday of each month until the campaign closes next November.

"This Is My 68th Birthday"

Judge George Gray. Judge George Gray, for whom the Delaware delegates to the Denver convention have been instructed, despite his letter in which he said he was not a candidate for the presidency, was born May 4, 1840, at New Castle, Del., and has been prominent in public life for many years. He was educated at Princeton and Harvard universities, and admitted to the bar in 1863. For a number of years in his earlier career he served as attorney-general of Delaware. From 1885 to 1889 he sat in the United States senate. In 1898 he was a member of the Paris peace commission appointed to arrange a treaty of peace between the United States and Spain. Since 1899 he has been a judge of the United States circuit court. Judge Gray was chairman of the anthracite strike commission in 1902. He was appointed to the federal bench by President McKinley.

CONGO LANDS REALLY BELONG TO THE NEGROES

Socialist Leader Characterizes the Reign of Absolutism in Rubber Kingdom as Rank Robbery.

Brussels, May 3.—M. Van der Velde, the Socialist leader, in arguing today against the plan for the annexation of the Congo independent state, now before the chamber of deputies, declared strongly that he favored the right kind of annexation because he wished to liberate the blacks who have been the victims of such great wrongs. He charged that King Leopold had inaugurated a reign of absolutism, under which he bought up consciences and the press. M. Van der Velde characterized the confiscation of the vacant Congo lands as robbery, asserting that they really belonged to the negroes. He demanded a treaty assuring greater reforms than those provided for in the present treaty, and incidentally warned the Belgian government that the correspondence of the United States and Great Britain on the subject of reforms might soon be published abroad.

FARMERS PROTEST AGAINST REMOVAL

Agassiz Local is Needed by Settlers Along Line—Petition Goes to Vancouver.

Strong feeling is being expressed by the residents along the main lines of the C. P. R., who rely on the Agassiz local for their accommodation in regard to the rumored removal of that train at an early date. The small way stations are the ones most affected, the local being the only train that permits settlers to reach Westminster, purchase supplies, and return the same day without inconvenience. The farmers have now taken more active measures than mere passive objection and have sent in a largely signed petition to the railway company, protesting against the withdrawal of the local this summer. The petition having a large number of signatures, was sent to the officials of the company at Vancouver last week, and the farmers now anxiously await the decision of the magnates.

Revolutionists Busy in Peru.

Rio Janeiro, May 3.—News has been received here by telegraph from the west coast of a revolutionary outbreak in Peru. The movement is said to have started at the town of Chosica, near Lima. The revolutionists under the command of Augusto Duran, cut the wires that carry the current of the electric lighting of Lima, and they also took possession of a railroad train. Government troops were at once sent out against them, but discharges do not give the outcome. There was said to be much excitement at Lima.

Municipal Hotel for Saskatoon.

Saskatoon, Sask., May 2.—The Saskatoon citizens most emphatically decided today in favor of the forward movement inaugurated by the city council carrying all the money by-laws by a large majority. The by-laws carried provide for a municipal hotel, fire hall and equipment, and a traffic roadway on the new C. P. R. bridge, involving an expenditure of over \$200,000.

BON ACCORD ROAD IS NOW SETTLED UPON

Surrey Council Votes Sum of \$1600 to Build Portion of Badly Needed Highway.

At the regular meeting of the Surrey municipal council Saturday afternoon an appropriation of \$1600 was passed to complete the construction of the New Westminster bridge, Bon Accord road, from the easterly end of the portion to be built by the provincial government to Bon Accord. This appropriation was granted in response to the urgent representations of a large deputation of interested parties, including Mayor Keary, of New Westminster; Messrs. D. S. Curtis and A. E. White, of the New Westminster board of trade; Mr. Davis, of the Davis & Son mill; S. H. Farmer, E. J. Cream, J. Rice, W. McDonald and other property owners and residents of the district affected.

It was represented to the council that the absence of the road tied up a large area of agricultural land and some valuable waterfrontage suitable for industrial purposes, which would be at once turned into productive property upon the opening up of the road. T. Gifford, M. L. A., was also present and urged the completion of the work which the provincial government has undertaken to start and endorsed the views of the New Westminster delegation.

The road will be built in three sections, the Dominion government building the first piece; the provincial government the second, and the municipality the last section. All have now agreed to do the work, the Dominion government having let its contract to W. W. Forrester a month ago, and the others are now waiting for this portion to be built to enable them to get at their sections.

HUDSON BAY RAILWAY MEASURE IS COMING UP

New Outlet Is Needed for Rapidly Increasing Supply of Western Grain—Bill Drawn Up.

Ottawa, May 3.—The government will, according to its present intention, submit to parliament shortly a bill providing for the construction of a railway to Fort Churchill on Hudson bay, thus providing a new outlet for the rapid increase of the western grain movement.

It is understood the measure will be along the lines suggested in the Commons last session by Sir Wilfrid Laurier, and by Mr. Sifton in March last.

TWO OCTOGENARIANS AT FUNERAL OF FATHER

Portage la Prairie, May 3.—It is indeed seldom that two octogenarian sons are in attendance at the graveside of their father, yet such was the case at Poplar Point on Tuesday last when the body of the late John McNabb (aged 108) was committed to the earth. His two sons, John and James, aged 83 and 82 years respectively were present when the last sad rites were performed.

Deceased not only had a number of grandchildren and great grandchildren, but there are several of his great grandchildren resident in the district surrounding this city.

DARROW WILL DEFEND THE APPEAL TO REASON EDITOR

Kansas City, May 3.—Clarence B. Darrow, who was the chief counsel in the defense of Haywood, Pettibone and Moyer, of the Western Federation of Miners, at Boise City, Idaho, was here tonight, en route to Fort Scott, Kan., to defend Fred D. Warren, editor of the Appeal to Reason, whose trial on the charge of sending "scurrilous, defamatory and threatening" matter through the mails, will be called in the federal court in Fort Scott next Monday. Mr. Darrow has been devoting several months to the preparation for this trial.

British Steamer Seized by Cuba. Havana, May 3.—The British schooner Exceed, and her crew of twenty-one men, were seized today by the authorities for illegally fishing in Cuban waters.

PAROLE OFFICER HERE TO VISIT CONVICTS

W. P. Archibald, Whose Recommendation Means Liberty to Prisoners, in Town

Dominion Parole Officer W. P. Archibald arrived in this city yesterday afternoon for the purpose of paying his annual visit to the B. C. penitentiary, where he will investigate any complaints which convicts may have to make, and listen to any pleas for clemency which may be put forth by the inmates of the big penal institution.

Mr. Archibald annually spends several days at each of the places where penitentiaries are located, devoting all his time to the adjusting of matters between the convicts and those in charge of them. Whenever he comes across a case where, in his opinion, a prisoner shows that he is desirous of leading a better life after once leaving behind him the garb of the lawbreaker, Mr. Archibald looks carefully into the man's antecedents and record, and if he is satisfied that the repentant once is sincere in his intentions, he recommends that the convict be placed on the parole list, which means that the released guest of the government is from that time to all intents and purposes a free man, with the exception that he has to report to the police at stated intervals, and satisfy the authorities that he is not drifting back into his old evil habits. If at any time the police have reason to believe that a paroled man is committing, or committing at, crime, he can be placed under arrest and compelled to finish out his sentence. According to Mr. Archibald, only a very small percentage of released prisoners prove unworthy of the trust reposed in them.

SHIPBUILDING YARDS ARE SILENT IN ENGLAND

Lockouts Decided Upon—The Industry Soon to Be at a Standstill Pending Settlement—250,000 Affected.

Glasgow, May 3.—The Clyde shipbuilders yesterday locked out 1000 woodworkers from their yards. This measure is an outcome of the dispute between the shipbuilding employers' federation and the shipworkers of the northeast coast, who struck rather than accept a reduction in wages, and who have not been able to get the federation to arbitrate their demands.

Lockouts have been decided upon at all the shipbuilding yards in the United Kingdom, and workmen in other branches are being locked out. There may be a complete stoppage of the shipbuilding industry, which would indirectly affect no less than 250,000 men.

London, May 3.—The woodworkers in all the shipbuilding yards of the country, about 15,000 men, were locked out yesterday in pursuance of the determination of the masters to close the yards unless the northeast coast strikers agree to their terms. Other workmen totalling many scores of thousands, will have to cease work before long, unless a settlement is reached.

ASSURANCE OF ADVANCE PREVENTS CAR STRIKE

Cleveland, O., May 3.—After voting 1452 to 128 in favor of a strike, the motormen and conductors of the Municipal Traction company, through International Vice-President Behner and other representatives, tonight practically reached an agreement with Mayor Johnson and traction officials that will eliminate the prospect of a cessation of work. The men failed to secure outright the two-cent-an-hour increase in pay demanded, but are assured that they may anticipate an advance after the Municipal Traction company shows a sufficient surplus.

Quarter of a Million Insurance. Winnipeg, May 3.—A. C. Flumerfelt, of Vancouver, B. C., has taken out a life insurance policy with the Great West Life Assurance company for \$250,000. This is the largest life insurance policy ever written in Canada.

TRAMP IS MYSTERY TO SURGEONS AND NURSES

Hobo Lying in Hospital Ward Quotes Latin and Greek in His Delirium—May Be Fugitive.

Tacoma, May 3.—Lying at the point of death in a local hospital is a roughly dressed tramp, who was picked up along the Northern Pacific railroad tracks near Roy nearly a week ago, and, while the physicians and nurses at the hospital do not even know his name, they say that during times he has been delirious, he has made statements which lead them to believe that he is the son of some wealthy New Yorker, and that he is a fugitive from justice.

In a pockets of the ragged clothes he wore was a picture of himself, taken in his hobo costume and very similar to the rogues' gallery pictures found at the police stations of all large cities.

At times, when delirious, the injured youth quotes Latin and Greek, speaks of college football games and of his automobiles and horses. At other times he uses the rough slang of men of the highway and appears afraid an officer will arrest him.

BITTER RACE FEELING EXISTS IN MARTINIQUE

Many More Lives May Have to Be Sacrificed Before Parties Settle Down.

New York, May 3.—The shooting with fatal results at Fort de France, Martinique, was no surprise to one man at least in that city, who, occupying a prominent position with a well known exporting firm, could not allow his name to be made public, in view of the fact that he was connected politically with one party on the island, the anti-negro element. This man received a cable message immediately after the shooting of M. Siger.

"For years there has been a race war between the negroes and the whites and the mayor has been the foremost in spreading among the negroes the doctrine of 'down with the whites,' telling them that if the white race dominated, they (the negroes) would be sold into slavery and such nonsense," said the man at his office yesterday.

"No one knows better than I," he continued, "how outside of the main centres, the agitation against a white man's regime has been conducted for years. The feeling is intensely bitter. This bitter feeling will continue, for the white race in the French possessions has determined that it will not be dominated by the blacks. I expect that more lives will be sacrificed."

One of the officers of the American Trading company which has important connections at Martinique said that the company paid no attention to the political disturbances, but he did not think it was a conflict between the white and black inhabitants.

Public Debt Increases.

Washington, May 3.—The monthly statement of the public debt shows that at the close of business April 30, 1908, the debt, less cash in the treasury, amounted to \$925,187,236, which is an increase as compared with March 30, 1908, of \$15,445,899.

Salmon Hatching Record.

Everett, May 3.—A new record was established in the state salmon hatchery at Sultan where Superintendent James Nealy has propagated 8,500,000 fish this season. This vast number of young fish will be turned into the streams within a month.

Puget Sound Navy Yard Is To Cost Two Million Dollars

Washington, May 3.—The bureau of yards and docks of the navy department today sent to the printer the specifications for the new dry dock at the Puget sound navy yard, the cost of which has been increased to \$2,000,000. The department probably will advertise for proposals in about a month. The dock is to be of stone and concrete, and the pumphouse of brick and metal. It is to be 853 feet long at the top and 770 feet on the floor, and will have an extreme width of 115 feet. The bureau also is preparing specifications for a power plant building at the Puget sound navy yard which will be a steel frame structure, 390 feet wide and 1905 feet long and 52 feet high.

NS REMAIN SOCCER CHAMPIONS

Brilliant Victory of Calgary Team Secures the People's Shield for Prairie Capital.

The People's Shield, presented by the London People, a Sunday paper of the old land, will remain in Calgary for the second year, and the Canadians of that city will still hold their title of the soccer champions of Canada. On Saturday afternoon, a series of brilliant successes was capped when they defeated the Ladysmith team, considered by most of the football men on the coast to be the strongest aggregation yet put in the field in B. C. The Calles downed them two to one, but they had to fight, and fight hard for their victory.

Recreation park held a large attendance on this occasion and the gate receipts amounted to over \$650. The ball was kicked off by his worship Mayor Bethune, the Ladysmith team winning the toss and having the hill slope in their favor. The first goal was scored for the Islanders by McKechale and placed the Calgary men on their mettle, and from that time on they shut out the coast men by their brilliant defence. The Calles made their two scores also in the first half, the first from their centre forward, Stewart, and the other from a free kick, shot by Johnson. In the second half Ladysmith was handicapped by the hill, while the Calles played more brilliantly than ever. Both sides struggled fiercely and played for all that was in them, but the prairie men were stronger in their combination work, and well balanced throughout their lineup. Ladysmith was weak in the defence.

A sensational play by "Ginger" McLean saved the game from ending in a tie. Adams, the speedy forward of the Islanders, broke away a minute before time and in a dashing play carried the ball past the Calgary backs. The goalkeeper of the Calles charged and checked the rush, and McLean saved the situation by a sensational clear. He was borne off the field in triumph by the victors.

Burglar Shoots Policeman.

Denver, Colo., May 3.—Making the last round of his watch, Charles M. Beck, a policeman, was shot through the heart and instantly killed in the store of the Denver Photograph Supply company, into which store he had crawled in pursuit of a burglar, at 3 o'clock this morning.

REVIVALIST TURNS EDITOR, BUT JUST FOR ONE DAY

Benjamin Fay Mills Devotes First Page to Messages From Leaders on How to Be Kind.

Minneapolis, May 3.—The Daily News was edited by a revivalist, Benjamin Fay Mills, yesterday. The half of the first page was devoted to messages from noted leaders in various walks of life on "How to Be Kind."

The vice-president of a prominent local bank got into a fight with his brother-in-law and had him arrested. Mills would not allow the paper to use the story. He cut out all the references to prize fights, but praised baseball.

Frank Gotch, the wrestler, wrote an editorial, saying that there is no vindictiveness in sports.

In the story of the Catholic celebration in New York Mills wrote this head-line: "Greatest Celebration of Greatest Church." The dynamiting of the train in Montana he "played up," Mills demanding that the single word "dynamite" be used as the head.

METHODISTS FACE RACIAL QUESTION

Fight at Coming Conference Will Rage Around Election of Colored Race Bishops.

Baltimore, May 3.—The advance guard of delegates and visitors to the general conference of the Methodist Episcopal church, which opens in this city next Wednesday, has already arrived. From remote parts of the world, India, China, Africa, Japan and every spot on the globe where the Methodist church has a foothold, delegates, ministerial and lay, are hastening hither. Few countries where civilization has penetrated will lack representation when the opening session is called to order.

The general conference convenes once in every four years. It is the governing body of the church and combines the legislative, executive and judicial powers of the organization. The gathering this year will consist of about 1000 delegates. The general conference has been a delegated body only since 1812. Before that year every minister of the Methodist church was entitled to a seat and a voice in the deliberations of the body.

Several important subjects are to come up for discussion and action at the general conference this year. Legislation will be framed and adopted for the colleges and universities and officers appointed for the various benevolent organizations, missions, church extension, Sunday schools, tract society, freedmen's aid, education, etc. Secretaries will be appointed for the various church enterprises and editors chosen for the fourteen or more periodicals of the church.

The great fight of the session is expected to be over the amendment for the election of race bishops. The indications are that the amendment is doomed to defeat. Those opposed to the amendment declare that the negroes have expressed no great desire for it, while the white people, particularly in the south, are bitterly opposed to it. It is further pointed out that while the scheme would probably operate to the advantage of the scope of the present board of bishops as to make the change at present undesirable. It also would necessitate an enlargement of the present house of bishops, it is asserted, beyond the requirements of present conditions, and that the ends attained are not sufficiently urgent to warrant the change.

Bole Will Not Run.

Winnipeg, Man., May 3.—D. W. Bole, M. P., for Winnipeg, has written T. H. Johnson, M. P. P., president of the Liberal association here, that owing to his removal from Winnipeg to Montreal, he will not be a candidate for re-election in this city.

Wasn't Delicate at All.

A young man not regarded as a very desirable suitor had called upon a young lady a number of times, each time to be told by the maid that "Miss Florence is not well today."

One day, in response to his card the young lady's mother, who was a recent accession to the newly rich ranks and whose education was not as sure as it might be, appeared and explained once more to the young man that the daughter was not well. "I am very sorry, indeed," said the young man as he rose to go, "that your daughter is so delicate." "Delicate?" sniffed the mother. "Florence delicate? Not at all. Why, she is the most indelicate girl you ever met."

His Scheme Worked All Right.

It is related that a certain man was recently very sad because his wife had gone out of town on a visit, which she would not shorten in spite of his appeals to her to come home. He finally hit upon a plan to induce her to return. He sent her a copy of each of the local papers with one item clipped out, and when she wrote to find out what it was he had clipped out he refused to tell her.

The scheme worked admirably. In less than a week she was home to find out what it was that had been going on that her husband didn't want her to know about.

Followed His Pipe.

An old Hungarian countryman had smoked the same pipe for more than fifty years and as a natural consequence had grown to love it as a companion. One day, however, his infant grandson smashed the pipe beyond all hope of repair. The old man was so broken hearted at his loss that he hanged himself on a peg. In his pocket was found a scrap of paper on which was scribbled, "My pipe is dear, and I must go too."

BOOKS AND BINDINGS.

A Critic's Comparison of the Modern With the Ancient.

"One of the strangest things about the early printing is the fact that the paper and binding were so much better than we have nowadays," said a St. Louis collector.

"I have books on my shelves printed and bound by presumably reputable firms, and yet after six or eight years of careful use the paper is coming to pieces and the bindings are gone, while side by side with them are books 300 years old with paper intact and the bindings as good as new. The difference is of course in honesty of material and work. In the old days a hide was allowed to lie in the tanner's vats for a year before it was thought fit for use. Paper was hand-made of real linen rags. Now book leather is ready two or three weeks after the calf has been skinned. Paper is machine made of heaven knows what. Of course there may be honestly made paper and strong binding now, as there were then, but a couple of hundred years ago good binding and paper were the rule. Now they are the rare, also the costly, exceptions. It is true that the high temperatures of the houses, the gases and coal fumes may have something to do with impairing leather bindings, for, as everybody knows, a stout cloth or canvas binding is better than the leather now used. The same influences may also damage the paper, but still the fact remains that neither the temperature nor the gases affect the work of the old printers, so the difference, after all, is one of quality."—St. Louis Globe-Democrat.

A COINCIDENCE.

Peculiar Combination of Events Related by Andrew Lang.

As to "the long arm of coincidence," it may be as long as is necessary. Nothing is impossible to coincidence. An instance of my own experience, said Andrew Lang, convinces me of this fact. I had been reading a foolish book, "Out of the Hurly Burly," and some of the rhymes ran in my head. They began:

Bury Bartholomew out in the woods

In a beautiful hole in the ground.

In the afternoon I drove with a party of friends, and we took the refreshment of tea at a house where there were several other guests, all unknown to me even by name. As two of these lived at a place on our homeward route, they accompanied us in our vehicle. As we passed a wood on a hillside one of these anonymous strangers said to me, "This is the burial place of the Murrays of Glendubrac." I absently and automatically replied:

Bury Bartholomew out in the woods

In a beautiful hole in the ground.

A kind of chill blight settled on the party, though one of them tactfully asked me what poet I was quoting.

When we had set down our two strangers at their own home I was asked whether I knew the name of the gentleman on whom I had expended my poetical quotation? Of course I did not know, and of course his surname was Bartholomew, while, as he seemed in bad health, my citation had an air of brutal appropriateness. "This does fortune banter us," for Bartholomew is a most unusual name in Scotland.

Superstitious.

A well known New Yorker, while dining at his club one evening, observed that his order of oysters on the shell was not complete, there being only eleven bivalves instead of the dozen it was his custom to order. On reflecting that his waiter, an Irishman, was a newcomer, he decided to let the matter pass, but when on the next evening the same thing occurred he became a trifle impatient.

"See here," exclaimed he to the waiter, "what do you mean by bringing me eleven oysters when I order twelve? This is the second time that this thing has happened."

"Sure, sir," quietly responded the Celt, "I didn't think you would want to risk being thirteen at table, sir."

When Life is Wasted.

Life is wasted every time one gives away to gloomy, selfish angry or revengeful thoughts; when resentment or a grudge against man or fate is allowed to find root in the heart; when the temper is let fly loose over a trifle; when one goes to pieces nervously when obliged to repeat a remark and the voice is allowed to rise in anger; when one forgets that a loose temper is a sign of vulgarity and lack of culture.—Philadelphia Press.

Julius Caesar.

The consensus of learned opinion is to the effect that history's all around greatest man was Julius Caesar, the originator of Roman Imperialism. Caesar was great as a general and great as a writer and speaker, but greater as a statesman. Could he have been spared the assassin's dagger and been permitted to live ten years longer he might have set civilization ahead a full thousand years.—New York American.

Mrs. Gadsby—I'll get even with Mrs. Gabbie. Mrs. Gabbie—What has she done to you? Mrs. Gadsby—She told me that Mrs. Guffy wasn't at home, so I hurried over to make a call on her, and she was at home, after all.—Cincinnati Leader.

Friends Now.

Tom—Have you had any spats with your girl lately? Dick—No. We're great friends now. Tom—How's that? Dick—We've broken off our engagement.—Philadelphia Press.

It is less to suffer punishment than to deserve it.—Ovid.

BRING BIG RETURNS

THE PEOPLE'S PAPER

A CIVILIAN HERO.

He Served His Country as Truly as Any Soldier in Battle.

At the close of the Franco-Prussian war a hasty conference was held by the German leaders to decide upon the amount of indemnity which should be exacted from France. Bismarck, differing from Von Moltke, telegraphed to Berlin for a financier in whom he had unbounded confidence. The man was a Hebrew and was for some reason disliked by the great Prussian general. When, therefore, he gave his opinion that the amount demanded should be so many thousand million francs Von Moltke exclaimed impatiently:

"Albion! It is too much!"

"I know the resources of the French people," said the financier calmly. "They can pay it."

"It is a monstrous demand!" repeated Von Moltke angrily. "If a man had begun when the world was created to count he would not have reached that sum now."

"And that is the reason," interrupted Bismarck quickly, his eye twinkling, "that I got a man who counts—from Moses."

Von Moltke and the Hebrew tried to look grave, but both laughed, and the storm was averted.

The sequel to the anecdote has a deeper meaning. The financier, when he received the summons to the conference, was undergoing treatment for some affection of the eyes which required confinement to a dark chamber. His oculist warned him that if he obeyed the summons the exposure and delay in the treatment would almost inevitably result in loss of sight.

He was silent a moment and then said: "I think that I am needed. I have no right to consider my sight. I will go."

He went, and the results which the oculist had feared ensued. He became blind for life.

Von Moltke, when the story was told him, said briefly: "I wronged the man. He has served his country as truly as any soldier on the field."

"Earthquakes are a sign of planetary vitality. They would seem to be characteristic of the terrestrial phase of development. Effete globes like the moon can scarcely be subject to the stress to which they are due, nor can they be very suitably constituted for the propagation of elastic waves. In chaotic worlds, such as Jupiter and Saturn, are still less likely to be the scenes of reverberating concussions. Their materials have not yet acquired the necessary cohesion. They are pasty or fluid, if not partially vaporous. On the earth the seismic epoch presumably opened when, exterior solidification having commenced, the geological ages began to run. It will last so long as peaks crumble and rivers carry sediment, so long as the area distribution of loads fluctuates and strains evoke forces adequate for their catastrophic relief."

RAISING CHURCH FUNDS.

The Kaffirs Mix In a Lot of Fun With Their Generosity.

The gentle Kaffir when he does become Christianized has his own ideas of the best method of raising funds for the support of the "cause." From the subjoined description of a native meeting sent home by a missionary it would appear that native generosity, although of a rough and tumble character, is distinctly productive of ways and means.

"Recently I attended a native tea meeting, at which more than 112 were raised by this very poor congregation. Their way of doing it was characteristic and amusing. They paid 2 shillings to sit down to tea. Then some one would pay 3 shillings for such and such a man to be required to get up again and leave the table. The man thus assailed would pay 3s. 6d. for leave to sit down again. There was a special table at which six could sit, paying an extra shilling each for the privilege. They had just got seated when a man paid 7 shillings to clear them out, and they paid another 5 shillings to sit on, and so it went on. They arranged all this themselves, and this is their way of giving to the cause. One man had a tin of sloop. He said he would pay 2 shillings to pour it over another man's head who had got himself up well in a large collar, etc.; this man paid 3 shillings to be let off, the first man 4 shillings again to do it, the other 5 shillings to escape, the first 6 shillings to do it—and did it, and, oh, the laughter and the mess!"

THE SACRED CODFISH.

Famous Emblem That Adorns the Massachusetts Statehouse.

A codfish carved in wood hangs on the white mahogany wall of the Massachusetts hall of representatives in the statehouse in Boston. Between two classic pillars it occupies a place of honor, directly opposite the desk of the presiding officer. This wooden fish is the renowned original sacred codfish of the Old Colony, and it has assisted at the deliberations of the lawmakers of Massachusetts for more than a century and a half, gathering sanctity year by year. It is a relic of the old building which preceded the present statehouse, and great is the dignity of this symbol of colonial art and industry.

The following account of its origin is given in a Boston paper:

"Captain John Welch of Boston was the creator and carver of the celebrated fish. He was a wood carver of renown for his time and in 1747 established his business in Dock square. He belonged to the Ancient and Honorable Artillery company and afterward became its captain. He was called upon to contribute to the decoration of the colonial assembly hall, and as at that period codfish was the colony's main article of export Captain Welch conceived the idea of immortalizing the fish of the Massachusetts waters. When completed the carving was finished off and colored so as to be a fair simile of life and was hung on the wall of the assembly hall."

A Fool's Identity.

Some of the best known people pass unrecognized by those to whom they should be known. Harold Frederick sat one night at dinner next a man whose very silence and taciturnity caused him the more closely covertly to survey him. Not a word was exchanged between the two. "Who was that hopeless idiot that I sat next to at dinner?" asked Frederick at the close of the meal. "That hopeless idiot was Cecil Rhodes," he was answered. It was the fact. The Colossus had been in one of the moods in which he would not talk, and Frederick, though he had seen his portrait a hundred times, had not recognized him.—St. James' Gazette.

Sagacity of the Ancients.

Many quotations came from the works of Thales, the Greek philosopher and one of the seven wise men. It was he who said, "Know thyself." "Few words are a sign of prudent judgment." "Search after wisdom and choose what is most worthy." "There is nothing more beautiful than the world." "Time is the wisest thing, for it invents and discovers all things." He also said that it was the hardest thing in the world to know oneself and the easiest to admonish another. In his youth Thales was urged to marry, but he said, "It is too soon," and later in life upon being urged again he said, "It is too late."

Where the Relief Would Be.

Dr. Story, the late principal of Glasgow university, taking a holiday in the country once, was met by the minister of the district, who remarked: "Hello, principal! You here? Why, you must come and relieve me for a day." The principal replied, "I don't promise to relieve you, but I might relieve your congregation."

Coming and Going.

"What kick have you against married life?" "Well, if I don't keep my wife dressed in the height of fashion I have trouble with her, and if I do keep her dressed in the height of fashion I have trouble with her dressmaker."—Houston Post.

Her Loss.

Gladys—Edith is so sorry she took Herbert's ring back to price it. Paula—Why so? Gladys—Why, the jeweler said seeing Herbert hadn't been in to settle for it, as he promised, he guessed he'd keep it.

Just the Other Way.

She—Did you ever take your mother-in-law to pieces to see how it was made? He—Well, not exactly. I have taken it to pieces to see how it was made.

CLASS LITIGATION.

Attention is called by the Columbian in its Saturday issue to the fact that a suit who had secured a verdict for \$1000 on the trial of his case, abandoned it when the corporation he was suing appealed, because he was a poor man and afraid the costs would ruin him. They were \$2000 for the first trial. It instances this case as a sample of what the judicial system of Canada accomplishes for the poor man, thus placed in the hands of a wealthy corporation, i.e. the Canadian Pacific Railway Company, when he may have a case at law. Now we cannot conceive why the Conservative Government, in whose hands the matter rests of framing the rules of courts within the Province, and the affixing of the tariff of costs to the court of procedure, does not do something for the poor man. The Government at Victoria is always posing as the friend of the working man, then why does it not act in the interests of their "poor" friends. The interests of the hardy sons of toil is forgotten when his ballot is cast, and the Government throws its influence in favor of, or withholds action that could give even-handed justice to the poor man against the wealthy corporations that bought the Government the power to control the scales.

We agree that \$2000 is preposterous as costs, on obtaining a verdict in a case where many claimants joined issue as being effected by one and the same case, and we cannot see why the McBride Government does not seriously take the matter in hand and make a change.

A NERVOUS CANDIDATE.

The Liberal nomination in this constituency seems to have a disturbing effect on the poor lamb who has placed himself a willing victim to suffer on the Conservative altar of ambition. This poor, innocent, kind, truthful, fair-minded creature of circumstances, is suffering the tortures of nervous prostration at the dread of meeting an able bodied, genial, yet matter of fact, man in opposition to him on the hustings.

We pity this poor Conservative aspirant whose vision of settling in a seat at Ottawa to represent the constituency becomes hazy and dim as the day of occupancy by him becomes more distant. If his delusion could become reality, how happy he would be. If at his next defeat he takes it manfully, without resentment and bitterness, and makes that defeat but a stepping stone for possible future success, winning over his opponents, and not driving away his friends, then the person opposing him will not disturb him in the least, and with a new Conservative leader and a sane policy and Sir Wilfrid off the scene of action there is a remote possibility of his warming a seat at Ottawa.

If the responsibility for the action of a few Doukhobor fanatics must rest upon the Laurier administration, then why not give the same Government credit for the success of the immense number of these people who have been comfortably settled, and who are thrifty husbandmen, thoroughly law abiding, and who have taken on the best points of our civilization and are thankful they are removed from the cruel experiences of their native land.

NOME TO PROVIDE
BIG GOLD OUTPUT

Nome, May 3.—Staking on Nome's gold belt begins today. There has been a sudden thaw and it rained yesterday. Leading operators interviewed say the output this year will exceed that of last year.

The average estimate of the Tundra wealth alone is \$3,500,000. The new sub-marine, now partly worked, will turn out \$300,000. More gravel has been hoisted than ever before. Water is running everywhere. The breakup of ice is expected early.

Japan is Keeping Faith.

Ottawa, May 3.—First reports have been received by the government from Special Agent Drury, sent out to Japan two months ago to watch how the agreement as to restricting emigration to British Columbia is being carried out. Mr. Drury reports that every indication so far goes to show that Japan is faithfully observing the assurances given to Hon. Mr. Lemieux. No passports have been issued for Canada except to those to whom no objection can be taken by the Dominion.

WOMEN IN CATHOLIC
CHOIRS SUDDENLY OUSTED

Ottawa Archbishop Forbids Presence of Women in Choir Loft in Future—Churches Inconvenienced.

Ottawa, May 3.—Archbishop Duhamel has issued a positive order against women singing in the choirs of Catholic churches in the city. A year or so ago, an order came from Rome to eliminate the musical masses and resort to the Gregorian chant, and incidentally, to do away with female singers, where male voices were obtainable. This rule has been followed in many of the churches in Ottawa, including the Basilica, St. Joseph's and the Sacred Heart, where choirs are exclusively male, but some others secured a relaxation to permit of other arrangements, and meanwhile women have figured in the choirs.

His grace on Saturday, however, issued an order that the rule of the church must be followed.

UNION COOPERS WIN
A STRIKE AT SPOKANE

Spokane, May 2.—The union coopers employed by city breweries, who went on strike yesterday, returned to work today, the employees having signed the new scale which provides for increases of 25 to 40 cents per day per man. Unions have scored another point in the announcement that the Inland Empire Railway company has granted the concessions demanded by the street car men's union, including time and a half for overtime and an advance for shopmen from 27 1/2 to 30 cents per hour.

Grain Elevators Busy.

Port Arthur, May 3.—Never in the history of this port has there been witnessed such a rush of grain as there has been the last few days. At the head of the lakes today is a fleet of forty-three boats with a carrying capacity of four and a half million bushels. It is believed that by the close of today over a million bushels of wheat will have been shipped from here. The elevators are lined with vessels waiting to get under the spouts.

This Date in History.

MAY 4.

- 1471—Edward, Prince of Wales, son of Henry VI. of England, killed at the battle of Tewkesbury.
- 1747—William of Nassau appointed Stadtholder of the Netherlands.
- 1776—Rhode Island declared itself free of Great Britain, the first of thirteen American colonies to take such action.
- 1799—Serampatam taken by the British and the empire of Hyder Ally extinguished by the death of his son, Sultan Tipoo Sahib.
- 1804—Dutch surrendered the island of Surinam to the British.
- 1886—Six policemen killed by anarchists in the Haymarket riots in Chicago.
- 1907—Ernest H. Haffner, legal adviser to the governor of New York, committed suicide.

Rain on Saturday afternoon interfered with the proposed baseball game between the city seniors and Columbia college. Tomorrow evening Sapperton will send its bunch of swatters for the first match of the season in which they will figure, the opposing team being recruited from among the college athletes. Oswald will twirl for the Sapperton team.

The trade finds it both satisfactory and profitable to sell "B. C." and "Old Sport" cigars.

The funeral of the late Mrs. Sophie Lindstrom, whose demise occurred on Thursday, took place on Saturday afternoon at 2 o'clock at the I. O. O. F. cemetery. The casket was covered with flowers and floral emblems, and a large number of friends of the deceased attended to pay their last respects. The pall bearers were P. Poulson, A. Swanson, H. Gorenson, P. Nelson, N. Larsen. The services were conducted by Rev. J. S. Henderson.

The two final heats of the roller skating race between J. Coleman, of Vancouver, and C. F. Perry, of Westminster, were faced on Saturday evening at the Clarkson roller rink, Coleman winning both in easy style. Although he lost some distance by falling twice during the first heat, the winner managed to gain a considerable distance on Perry, while in the final, Coleman gained half a lap over his opponent, but was unable to pass him.

A band of street preachers, connected with the Mission on Eighth street, conducted services yesterday evening at the corner of Begbie and Columbia streets.

Grand masquerade next Monday night at the roller rink. Four prizes will be offered. Westminster cornet band in attendance.

A meeting of the South African Campaigners resident in this city will be held in the Armouries this evening, when business of importance will be up for discussion.

Small house (new) on fully cleared lot; with magnificent view of river and surrounding country; near Sapperton car line; only \$700. Abbott & Hyde.

Four carloads of halibut arrived on the halibut steamer yesterday from the northern fishing grounds, and after being packed in ice at the Columbia Cold storage, were loaded into cars for shipment to the eastern and New York markets.

Buy your May Day tie at Kyle & Sons; finest assortment in town; 20c or three for 50c.

The assessment roll for the Burnaby municipality shows the total assessment to be \$1,665,533, an increase of \$53,750 over the previous year, when the figures were \$1,611,783. The court of revision will be held on the last Saturday of this month.

New consignment of silverware just arrived at Kyle & Sons. Coupons given away with every cash purchase.

Tomorrow the C. P. R. steamer, the R. P. Rithet, will arrive in port for the first time this season, leaving the following day for Victoria and way ports. The R. P. Rithet will carry passengers and freight during the summer season, coaling at this port three times a week.

For \$150 down and the balance (\$1200) payable \$15 per month you may secure a comfortable five room furnished house with good garden, stable for three horses. This property is close to the car line, is in good repair and affords an opportunity, not often found, to buy a convenient cosy home on the easiest of terms. White & Shiles, 260 Columbia street, city.

The steamer Favourite will again be in commission this morning, leaving the Brackman-Ker wharf at 10 o'clock, and at the same time on every Monday, Wednesday and Friday hereafter. The boat will run to Mission picking up freight and passengers at the way points thus relieving the pressure on the Ramona and the Beaver, and enabling them to run on better schedule time. The Favourite will leave Mission at 7 a.m. on Tuesdays, Thursdays and Saturdays.

The work of grading and travelling Tenth avenue, between Fourteenth and Twentieth streets, undertaken jointly by New Westminster and Burnaby municipalities, is now completed and will be passed upon by representatives of the two councils early this week. The opening of this piece of road has considerably increased the value of adjoining property, and has also resulted in the building of several residences now tenanted by men working in the west end of the city.

The weekly Gun club shoot will in future be held on Tuesdays, commencing tomorrow evening, when three prizes will be given to the men making the most points. The trophies, which were left over from the big shoot on Good Friday, consist of two hams and some fishing tackle. The change in the meeting date has been made in order to accommodate the lacrosse players who belong to the club, but who were unable to attend on Wednesdays owing to they being required at practice on that day.

This evening the city council will, it is expected, have the draft of the by-law prepared by the solicitor of the Royal City Gas Improvement Co., Ltd., before it for consideration. W. J. Whiteside, acting for the company, will in all probability be present to look after its interests, but there will be, it is anticipated, a lively debate on some of the clauses. The mayor has

expressed his intention to fight any agreement that will injure the lighting business of the city, and the company will likely be requested to confine its attention to the supplying of gas for power and heating purposes.

An exchange was made yesterday between the pastors of the St. Andrew's Presbyterian church and the First Presbyterian church of South Bellingham. Rev. J. S. Henderson preached in the southern city while the pulpit of St. Andrews was occupied by the Bellingham pastor, Rev. J. M. Wilson. At the evening service Dr. Wilson took as his text the appearance of Christ to the disciples on the road to Emmaus, and from this story drew many lessons applicable to the present day. He also expressed his pleasure at being enabled to address a Westminster congregation, and believed that the Bellingham people would listen with great pleasure to Rev. Mr. Henderson.

BLACK ROSES ARE
GROWN IN RUSSIA

St. Petersburg, May 2.—Florists and fancy horticulturists here are much interested in specimens of black roses which have been produced by Serafimoff, a master gardener of Voronezh.

He claims to possess the secret of growing these freak roses, which scientific gardeners here have been trying for generations to produce.

The rose is not jet black, but has the slightest possible brownish tinge. By itself it is not decorative, but when mixed with other flowers it brings out their hues effectively.

To Set Type by Wireless.

London, May 2.—That he has already perfected an invention by which he can set type in an ordinary linotype machine in Paris by wireless waves thrown from London, was the surprising statement made in the Hotel Cecil tonight by Hans Knudsen, Danish inventor, famous for his achievements with liquid air, after giving his first public demonstration of long distance wireless photography. "I shall probably demonstrate my new wireless typesetting invention within a few weeks," said Mr. Knudsen.

THE GREAT REMOVAL SALE

Commenced on Tuesday, April 14, 1908

at J. A. Lee's Mammoth Furniture Emporium

Having secured the large four storey building opposite Lorne street, and just six doors below our present premises on Columbia street, we shall move our business location as soon as possible. We have therefore decided to clear out our immense stock of Household Furniture now on hand at give away prices rather than move it, as we have eleven cars of new, modern, up-to-date furniture to place right in the new premises as soon as the decorators are through.

This is the chance of your life if you want cheap furniture. Heavy discount allowed on any article you choose to pick out.

Do You Intend Building?

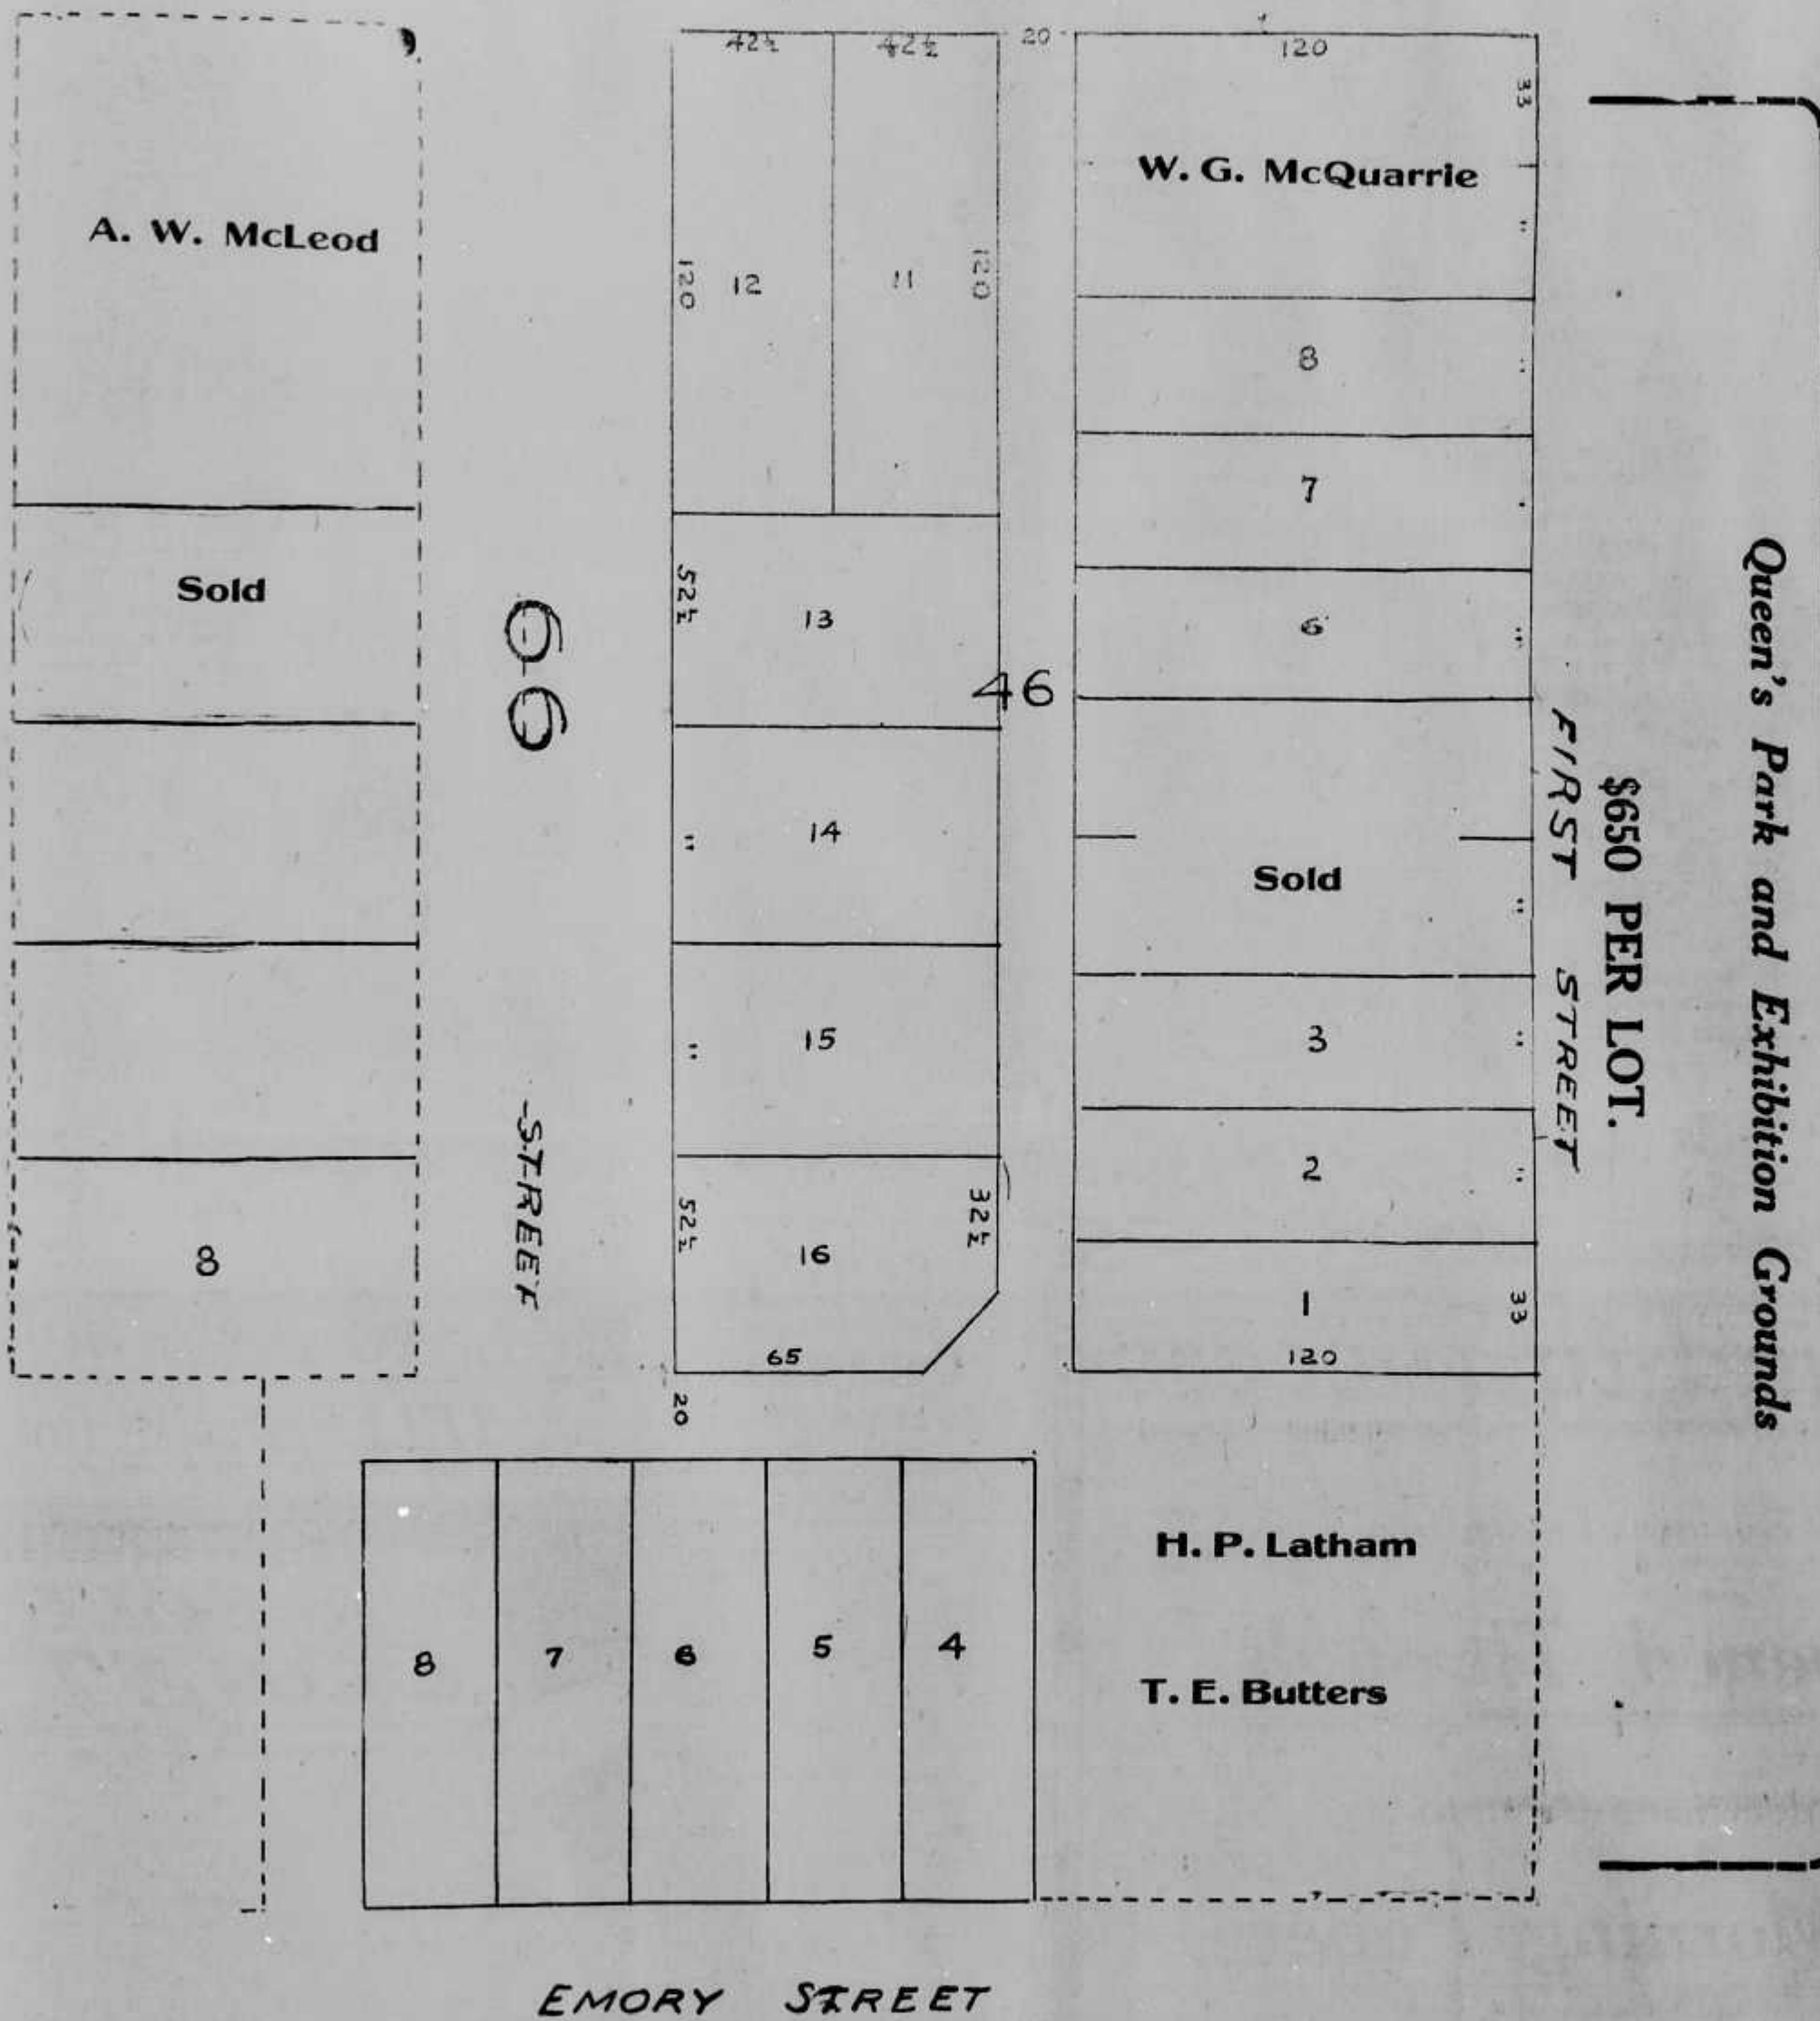

"There is no time like the present" is an old saying but more especially does this apply to building operations at this moment. LUMBER HAS GONE DOWN to a very astonishing extent. It is, however, very questionable if it will remain so much longer. Labor is also much lower and more available than it was this time last year. Make inquiries and convince yourself. DON'T PROCRASTINATE until prices go up again.

Of course you will have to procure a lot and this is where WE CAN BE OF ASSISTANCE TO YOU. We have been given the EXCLUSIVE SALE of what is beyond the least shadow of doubt the most desirable property in the City of New Westminster. WE DO NOT MEAN AWAY OUT IN THE SUBURBS where it is necessary to use fancy names in order to attract prospective purchasers BUT IN THE VERY HEART OF THE BEST RESIDENTIAL SECTION OF THE CITY.

It is situated on FIRST STREET between SECOND and THIRD AVENUES. FACING ON THE BEAUTIFIED PORTION OF QUEEN'S PARK, it commands a magnificent view of the Fraser River and the Pitt Mountains. You can also see all the LACROSSE MATCHES and other sports without going out of the house. Be sure to look at these lots before buying elsewhere. Nearly every lot faces on a 66-foot street and has a lane at the rear. Below is a plan of the property which you might cut out and take with you when you go to pick out your lot. If one lot is too small for your purposes you can take two or three and have just as large a frontage as you want. If you cannot afford to buy lots facing on the Park look at the back lots, the prices of which are absurdly low. Remember: WE ARE THE ONLY FIRM IN THE CITY WHO CAN SELL THIS PROPERTY.

SOME PASS HOLDERS.

The pass at old Thermopylae. According to the story, Was held by men of Greece, and much it added to their glory. In modern times the congressman And officeholding classes, As resolute as any grand Old Grecian, hold the passes. You know the tale of ancient days, For doubtless you have read it. The way they stuck to that old pass Was greatly to their credit. But now to hang on to a pass We think is simply awful— A thing no gentleman would do And very much unlawful. The way they stuck to that old pass Was really quite a wonder. For where could one observe in it The smallest bit of plunder? The modern statesman if he had A pass like that would chuck it. And kick for one that called for rides Until he kicked the bucket. But while you're talking every one In just about that boat is; There's something strange about a pass That makes us all take notice, And statesmen are not all the ones Who try to cut the upper; We all of us are reaching for That precious bit of paper.

Profitable to Be Right.

In the great society function which is to be pulled off in New York in the form of a murder trial the insanity experts can be depended on to lead science in by the halber and prevail on it to say a few good words for the defendant with a bank account. The insanity expert can be depended on to know on which side of his bread the oleomargarine is spread. He can easily convince himself that black is white, or at least a very pale gray, if thereby his bank account will look as though it had been playing the races and won on a 40 to 1 shot.

People who have examined them closely, looked at their tongues and felt of their whiskers assure us that the insanity expert is human, which may be the reason why he can always find a man with money insane when politely requested to do so.

Average Length of Sentences.

"The English sentence grows shorter and shorter," says an essayist. "Spencer, Sir Thomas Moore, Lyle and Sydney used sentences of the average of fifty-five words. Nowadays the sentences of the average journalist are only fifteen words long. Bacon introduced the short sentence. At a time when everybody else was using fifty words he took to twenty-two. Praise be to Bacon. Macaulay used a very short sentence. Its average length was twenty-three words. Dickens' average was twenty-eight. Thackeray's was thirty-one. Matthew Arnold's sentences are long, but beautifully balanced. They are thirty-sevens. Henry James' are longer and, though intricate, are well worth puzzling out, for in each of them a wonderful meaning is concealed. They are thirty-niners. Kipling's sentences are twenty-ones. George Moore's are twenty-fours and H. G. Wells' are twenty-threes.

The Same Thing.

Pa Twaddles—Well, what's the matter now? Tommy Twaddles—Ma says I mustn't never say a word while she's in the room. Ma Twaddles—Why, no, I didn't, dear. I said you mustn't interrupt while I'm talking. Tommy—What's the difference? — Cleveland Leader.

BOYCOTT IN CHINA MAKES JAPAN SQUIRM

Appeal to England for Dip-
lomatic Assistance Not
Likely to Be Heeded.

Shanghai, May 3.—Japan has finally
asked England to help her persuade or
compel China to call off the anti-Jap-
anese boycott. Though it is said the
request has been made through regu-
lar diplomatic channels, no formal an-
nouncement has been given out.
The Japanese foreign office hopes
the Mikado will not have to openly
argue the matter.
British commercial interests are
quietly doing their best to influence
their government against interference.
It is conceded that the boycott is an
effective weapon. Europeans in the
east have suffered so much from Jap-
anese business methods, however, that
they favor risking future trouble for
themselves for the sake of seeing the
Japanese humbled.
In the meantime the Japanese com-
mercial craft is literally pounding on
the rocks. Already cramped for
money, the boycott has put in the fin-
ishing touch to the country's financial
distress.
There is no doubt that the Mikado
would resort to force were it not for
the certainty that it would do no good.
The Chinese government does not like
the boycott itself, but it cannot stop it.
It is simply a popular movement and
neither the Japanese nor the Chinese
governments can put a finger on the
right spot to check it.

HOLY ROLLERS PROPOSE STARTING OWN COLONY

Notorious Sect Weary of Being Made
But of Ridicule and Will Remove
to Secluded Spot.

Tacoma, May 3.—Weary of "per-
secution" at the hands of the police,
civilians and religious denominations
of Seattle and Tacoma, the Holy
Rollers of the two cities have ac-
quired a large tract of land near
Ozette lake, on the Olympic peninsula,
and there propose to start a colony of
Holy Rollers where "divine guidance"
can manifest itself in whatever man-
ner it may, and the believers in the
faith will be entirely free from all
harrassing.
At a meeting of the Holy Roller
sect in Tacoma last night, Arthur A.
Budding, a well known Tacoma car-
penter and a leader of the local
branches of the Holy Rollers, an-
nounced the details of the colonization
scheme which has been planned by
the foremost members of this sect.
Said Budding:
"Our gracious God has been with us
during the many months we have been
fighting the demons of sin and
iniquity in Tacoma and Seattle. We
have fought against great odds. The
devil has been everywhere present.
The Evil Spirit has inspired rough
boys and young men to throw stones
into the windows of our meeting
houses and to break up our religious
services. We have complained to the
police, but they have refused us aid."
"We have decided to establish a
beautiful spot in the Olympics a new
city, a city which will be built by the
direction of the true God and in which
God will live."

The speaker continued in detail to
narrate a colonization plan agreed
upon by the leaders of the Holy
Roller sect. He stated that God will
chase all the officers of the colony,
and that only the true believers will
be admitted as citizens. The languages
and strange tongues given by God to
the Holy Rollers will be spoken on the
streets; prayer meetings will be held
daily and missionaries will be sent
from this sacred colony to the outer
world of the United States where the
people are unbelievers and where the
Holy Rollers are destined to convert
the people to the true faith.
Budding stated that \$10,000 has
been subscribed by members of the
Holy Roller faith to purchase a town-
site and a considerable tract of farm-
ing and agricultural property. He
urged every Holy Roller in this city
to remove to the shore of Ozette lake
and promised him a life of successful
endeavor with the assurance that he
will ultimately become a perfect man
and one of the privileged holy ones
who will enjoy the pleasures of the
hereafter. Nearly a score of Holy
Rollers entered into the colonization
organization to the close of the meet-
ing.

placed to the credit of the province.

RAILROADS ACCUSED OF ISSUING PASSES

Many Lines Centering in Chicago May
Be Prosecuted for Violations of
the Federal Law.

Chicago, May 3.—Prosecution of a
dozen big railroads for issuing passes
in violation of the interstate com-
merce law is expected being made by
operatives of the government secret
service.
Four detectives assigned to special
work under instructions of the com-
missioners have been gathering evi-
dence for several weeks against a
number of the lines centering in Chi-
cago. The Rock Island, New York
Central, Illinois Central, Cincinnati,
Hamilton & Dayton, Pere Marquette
and Monon roads are mentioned in
connection with the investigation.
Passes are believed to have been
issued to state legislators, aldermen
and others whose goodwill might be-
come an asset to the railroads.
One of the abuses complained about
is the promiscuous issuance of passes
to caretakers for perishable freight.
It is charged the railroads have given
such passes to many persons not en-
titled to them.

Public Ownership League.
Toronto, May 3.—At a meeting last
night the executive of the Canadian
Public Ownership league passed reso-
lutions that "this league has learned
with satisfaction the action of Mani-
toba, Saskatchewan and Alberta in
establishing public ownership of tele-
phone systems. We consider the time
has arrived when the province of
Ontario should take steps in the same
direction. It is the opinion of the
league that no further aid should be
given either by federal or provincial
governments for the construction of
lines of railway, either in the nature
of a cash bonus, lands or guaranteeing
bonds, and that where colonization
roads are necessary they should be
built, owned and controlled by the
people."

"It's Turned Bad!"

This will be the constant complaint of many careworn housewives in
New Westminster this summer. Is it going to be yours, Reader? Why not
study economy this summer by keeping your foodstuffs in a handy sized
refrigerator, and not to deliberately throw away your money by allowing
the heat to turn good food into unwholesome and distasteful rubbish. Why
not always have the food crisp and tasty, both for yourself and your guests?
To counteract the effects of heat by a modern convenience is the true and
practical economy. Why not call and see us about an inexpensive re-
frigerator? We have both the galvanized and porcelain lined in great
variety.
And say, isn't it time to think about Fly Netting, Mosquito Doors and
Window Screens.
Now, we shall be pleased to see you and to cheerfully show you the
goods, whether you buy or not.
