

WHITE WOMAN WEDDED TO CHINESE "CHRISTIAN"

Rev. C. W. Houghton Officiates at Mesalliance—Celestials Express Contempt for All Concerned in Rush Ceremony—First Event of Its Kind to Take Place in New Westminster.

With a flourish, a white girl about twenty years of age, and Nip Sue, a Chinese storekeeper, were married yesterday afternoon at the residence of Mrs. J. Mercer, 147 Tenth street, by the Rev. C. W. Houghton, rector of St. Barnabas church. A daughter of Mrs. Mercer attended as bridesmaid. No other guests were present.

The international alliance was contracted at something like record speed, the girl coming over from Vancouver during the afternoon and after a consultation with her Chinese lover, deciding upon a hasty marriage. Adjutant Gossing, of the Salvation Army, was requested to act, but after learning that the prospective bridegroom belonged to an alien race, he declined to officiate. Rev. Mr. Houghton, on being appealed to, consented to tie the knot after being informed that the girl was of legal age and had no guardian in this part of the country.

Very few people were aware that such an unusual wedding had taken place yesterday, and considerable difficulty was experienced by the news in gathering the details. A reporter, on receiving a tip that such an alliance had been contracted, went down to Chinatown, visiting a large number of stores before securing any information, a majority of the Chinamen interviewed on the subject affirming that no wedding between a white woman and a man of their race had taken place. Several expressed the deepest contempt for all parties who would be concerned in such a mesalliance.

The bridegroom was finally discovered in a store belonging to Sing Lee, fronting on Columbia street, in which Nip Sue had an interest. On being questioned, Nip readily admitted that he had that day been married to a white girl whom he called Edith. He did not know her last name, but she was at the time awaiting his arrival at their residence on McInnes street.

"Are you a Christian, Nip?" inquired the reporter. To this query the bridegroom answered, "I think so."

Further inquiries elicited the interesting information that Nip had no wifes in China, although he would not say that he had never been married before. His knowledge of the English language was too limited to permit of his expressing an intelligent opinion

BURIED BENEATH BOXES OF ORANGES IN COOL ROOM

**Laborers Escape Serious Injuries
When 8000 Boxes of California
Fruit Topped Over Them.**

Los Angeles, May 14.—Buried beneath 8000 boxes of oranges seven Russian laborers in the Los Angeles Ice and Cold Storage plant at Seventh and Santa Fe avenue escaped injury this afternoon. The men were working in the cooling room piling boxes of fruit, when one tier toppled over and the seven men were buried. Before they could struggle free another tier fell and then the entire pile came down in a heap.

Immediately a hurry-up call was sent in to the police and ambulance with three doctors were rushed to the scene. On the way every policeman met was pressed into service. The buried workmen were located by the yell for help and were soon dug out. Aside from minor injuries every one of them escaped.

African Methodists Squabble

Norfolk, Va., May 14.—The A. M. E. general conference today decided to elect five new bishops. A strong minority wanted only three. A resolution that two of the bishops be stationed in America was adopted. There were wild scenes during the discussion and many allegations of falsehood.

TORIES PERSIST IN OBSTRUCTION TACTICS

Civil Service Pay May Be Withheld Owing to the Coarse Tactics of Tories.

Ottawa, May 14.—"Right or wrong, we surrender," is the determined attitude taken by the opposition members after another caucus this morning on the present deadlock over the election bill. The government believes the position wrong and while disposed to accept with open minds any suggestions from the other side of the house, which might lead to a way to solve the present impasse and allow the business of parliament to proceed is equally determined not to be bulldozed and will insist that the rights of Liberal electors be safeguarded equally with those of Conservative electors. The opposition asked last night that for today the debate be dropped.

What the outcome will be no one can now say. In the corridors there is still some talk of dissolution as the only constitutional way to meet the continued obstruction.

WESTSIDE SCHOOL PLANS DISCUSSED BY TRUSTEES

Name of Successful Designer Will Be Known Today—Eight Room Building Will Cost About \$21,000.

The school trustees were occupied for several hours last night with the competitive plans for the new Westside school, and the committee room looked like a drawing office for most of the time, the total number of plans submitted being ten. The trustees decided as follows: One, "Progress"; two, "Mystery"; three, "Fleur de Lys." The envelopes containing the names will be opened by Trustee Thorburn today.

The school will cost in the neighborhood of \$21,000, and as soon as possible the work will be commenced. The school will contain eight rooms, having accommodation for about 320 pupils. A large amount of routine business was also transacted.

FAMOUS MESALLIANCE IS RECALLED BY FATHER'S WILL

Chicago, May 14.—A dispatch to The Record-Herald from Pittsfield, Ill., says:

Mrs. Howard Gould, wife of the multi-millionaire New Yorker, and her sister, Mrs. Sun Yue, wife of a San Francisco Chinese, were bequeathed one dollar each by the will of their father, Solomon Perry Clemens, filed here yesterday. His estate, which is valued at \$6000, is left to his widow during her life time, with the exception of the two dollars mentioned.

OIL TANKS EXPLODE, WITH HEAVY LOSS OF PROPERTY

Albuquerque, May 14.—Storage tanks of the Continental Oil company at Deming, N. M., exploded today, causing a fire loss that will run into thousands of dollars. J. G. Clark, manager of the oil company, received injuries from which he died. Rolling stock and tracks of the Santa Fe railroad and the storage house of the Anheuser-Busch Brewing company suffered considerable damage.

New Port Moody Station

A new station has just been completed at Port Moody by the C. P. R., which intends to discontinue the old depot in future, using only the new station, which is centrally located opposite the McCormick mill. The change has been made in response to the many requests of the residents of the townsit.

Lacrosse Match Tonight

A levy of ten cents will be made on all persons attending the big lacrosse game tonight at Queen's park between the Humphreys and the Sweetees, teams consisting of senior and intermediate players. Play is due to commence at 6:30 o'clock, C. D. People having consented to fix his life by officiating as referee.

BURNABY TO HAVE POTTERY INDUSTRY

Victoria Company Secures Option on Land Wanted For Manufacturing Site.

An option on several blocks of land adjoining Lakeview Gardens, on the Burnette river, Burnaby, has been taken by the B. C. Pottery company, of Victoria, which proposes establishing a manufacturing industry at the point, where valuable deposits of pottery clay have been located, samples of which have been tested with very satisfactory results.

Several tons of clay were taken from this district last year, pipes, bricks, tiles and sewer pipes being manufactured at Clayburn, the tests being satisfactory in every respect. The company is said to be backed by several wealthy Victorians, including the Hon. James Dunsuir, lieutenant-governor of the province.

Active work on the building of the necessary plant will be commenced as soon as the preliminary transactions are completed.

AMERICAN POACHER IS CAPTURED BY KESTREL

Vancouver, March 14.—Found fishing inside the three-mile limit at the north end of Vancouver island, the American steam halibut schooner Francis Cutting, owned by the Seattle Fish and Cold Storage company, was seized by the Canadian fisheries cruiser Kestrel and brought to Vancouver this morning.

The Kestrel left recently for her summer station, but Commander Newcombe kept a watchful eye and early yesterday morning sighted the Francis Cutting with her dories out engaged in hooking the British Columbia halibut into American boats. The Kestrel ran alongside and claimed the steamer as a prisoner. No resistance was made and Commander Newcombe put one of his officers in charge of the prize. The dories were heaved aboard and a line made fast and the long tow to Vancouver started.

FIVE ARE SENTENCED TO LONG TERMS IN PRISON

Vancouver, May 14.—The Vancouver assizes closed yesterday when the following cases were disposed of:

Roger Vietto, allowed his liberty, the evidence being insufficient to convict him with the murder of Clementine Nahu—proceedings stayed.

H. P. Bowen, manslaughter of Darrah Singh, ten years.

William Street, shooting and wounding his father-in-law, Daniel Woodward, ten years.

Joseph Bulec, killing Phillip Masender by a shot aimed at Henry Gelbilhoff, a rival lover, seven years.

Hashinaki, the Japanese who admitted stabbing and wounding a fellow countryman, five years.

Dug Wing, the Chinaman found guilty of shooting at a police officer in an attempt to escape arrest, five years.

MINERS SET OUT FOR LAND OF VIRGIN GOLD

Dying Miner's Story Sends Three Hardy Argonauts Into Lands of Far North in Search of Fabulous Wealth—Expedition Equipped at Cost of \$20,000.

Fairbanks, Alaska, May 14.—Information has just come from one of the interior camps that James Burnfield, John Blosie and M. J. Lawderback, three of the hardiest pioneers of the north, have departed for the Arctic slope in search of the land of "pure gold." Somewhere along the Mackenzie river and the Arctic ocean in the region of Herschel island, it is reported that a fabulously rich paybreak exists, for the story of the "Lost Cabin Mine," made famous by Jack London, will not down.

Making their plans known to very few persons, the trio of doughty miners have taken to the trail, determined to spend at least three years in search for the fountain head of virgin gold. The region which they will penetrate is practically unknown, but this has no terrors for them as they have forced their way through almost impossible places. None knows the methods of northern travel better than these men.

Burnfield is an old timer from the Yukon Territory, having made some money in and about Dawson in its hey-day. Blosie was one of the first prospectors on Vault creek; while Lawderback, better known as "Sambo," has done well on Slate creek. These men have laid by \$20,000 to spend on this expedition, which it is estimated will carry them through the three years.

The information inspiring the hegra into the unknown country was imparted to Lawderback a year ago by a grizzled old miner, who had been following the gleam for a quarter of a century. In his dying breath he spoke of a spot where a fortune could be picked up in a day. His narration was not of a rambling nature and Lawderback proceeded to investigate as best he could, several thousand miles away from the supposed Goldconda.

The three men satisfied themselves that there was some foundation for the dying gold hunter's promise and they began to shape their plans at once to make an early start this spring. Leaving Vault creek the middle of April, they headed for Circle, where an outfit will be taken on. As soon as navigation opens, the party will take a boat to the Porcupine river. That stream will then be ascended to its headwaters. On crossing the divide they will drop down one of the tributaries of the Mackenzie to begin their search for the land of pure gold.

The outfit will consist of grub for two years and a full set of tools for prosecuting the work. Twelve dogs will be taken along. Connections have been established with persons on the project, who will send in another expedition on the expiration of a year, if nothing is heard of the argonauts, to take more tools and more grub. As soon as definite results have been obtained word is to be sent out. The members of the party are confident that they are on the right track for all the natives from the Far North tell of a region of virgin gold on the Arctic.

BLAZING AUTOMOBILE CALLS OUT FIRE BRIGADE

Aberdeen, May 14.—Reaching lower F street in response to a call about midnight last night the fire department found a blazing automobile and the chauffeur, Erick Iokanian, in flames. The man had attempted to fill the gasoline tank of the machine while holding a lighted lantern in his hand, when the gasoline took fire, destroying the machine with the exception of the running gear and engine. It was insured for \$800. Three women seated in the auto jumped and escaped injury. The burns of the chauffeur proved slight.

DISTRICT DELEGATES KEEN FOR COMING FIGHT

The prospects for Liberalism in the constituency are most encouraging, as was shown by the hearty enthusiasm at the meeting held at the club rooms last evening, over which J. W. MacDonald presided. The business was of an informal character, but the delegates from the country reported that the candidature of Mr. Jardine was very popular all through the Fraser valley. Especially was this the case at the meeting at Mission this week, when Mr. Jardine and the chairman attended. The district associations were becoming very keen for the fight.

Dividends for Harriman Lines

New York, May 14.—The regular dividends of 2 1/2 per cent. quarterly on Union Pacific common stock, of 1 1/2 per cent. quarterly on Southern Pacific common and of 3 1/2 per cent. semi-annually on Southern Pacific preferred stock were declared by the directors of those companies yesterday.

HERBERT GILLEY HAS SWELL NEW AUTOMOBILE

Car is One of Best Appointed on the Coast—Negotiates all Hills with Ease.

The ranks of New Westminster automobile owners have been swelled by Herbert Gilley, who has just received a fine new car from the east, and it is now being duly tested on the local roads and hills. The car parts are of American manufacture, being the output of the Buick Manufacturing company, of Flint, Michigan, one of the best known motor car designers on the other side. The parts were assembled on the Canadian side at the works of McLaughlin Co., Ltd., the famous carriage builders of Oshawa, Ont., and there put together with great skill, special attention being given to the finish.

It is a four-cylinder car, of from 24 to 28 horse power, and is fitted with a three-speed gear, with one reverse. The highest velocity is thirty-five miles an hour, but Mr. Gilley has no wish to reduce the city's population by running his maximum speed. The intermediate, about eight to ten miles, is found quite sufficient for any of the local hills, in fact, Mr. Gilley himself drove the car up the Scott road hill on Saturday at the intermediate speed. Two systems of ignition are used, the dry cell, and storage battery. Besides the two brakes on the back wheels there is one on the transmission.

Armstrong Waterworks

Fifteen hundred feet of two-inch pipe, supplied by the Dominion Pipe Works, of this city, have just been laid down as an addition to the Armstrong waterworks service. The ditching and pipe laying was done under the direction of Contractor J. Smiley.

MEDIAEVAL PAGEANT REPRODUCED IN GERMANY

Scenes of Olden Days Recalled When Long Retinue Troops Up to Reconstructed Fortress.

Berlin, May 13.—The emperor and empress, attended by a large retinue, today were present at the mediaeval pageant held to mark the opening of the reconstructed fortress of Hohenzollernsburg. The ancient keep, which lies in the heart of the Vosges mountains, was first built by a prince of Austria, changed hands many times during the Thirty Years' war, and finally came into possession of the neighboring town of Schlettstadt, which gave it to Emperor William. The latter had it rebuilt in its original condition under the direction of the Berlin architect Bodo Ehardt.

Today's ceremonies reproduced the formalities used at one of the changes of possession when the three sons of a knight of Sickingen were invested with the estate. The chief feature of the pageant was a procession up the winding road leading to the fortress, with the three knights in full panoply riding at its head and a splendid retinue of equerries, banner bearers, men at arms, archers and varlets in the costume of the time following them.

Jailbreakers Shot Dead.

Ekaterinoslav, Russia, May 13.—The prisoners in the government jail here made an attempt to break out yesterday afternoon. Their efforts were in vain and were attended with a heavy loss of life. After making a breach in the wall of the guard room with a bomb, the prisoners lined and made a rush to get through the opening.

In the meanwhile the guard had been summoned and ten of the prisoners, who had succeeded in getting outside the walls, were speedily shot to death. A number of other mutineers were either killed or wounded in the interior of the prison.

MIXING AGAIN.

The poor dyspeptic must have had them bad, and his food must have been tangled up so as to make life a misery, and the many patients must have failed. We draw these conclusions from what appeared in the leader in the Columbian last night and while not caring to advertise the news padded advertisement sheet we are sorry so few read it, because effusions like that of last night will turn more votes to the Liberal side than a dozen able orators or ten barrels of Peruna. If such mantical nonsense and adder-like poison is shot out now, what will be produced when the Conservative lamb is sacrificed on the altar of his own ambition. It would appear that he is exercising now just to get his hand in, and if he survives the stunning defeat he will surely get, we may look for the resurrection of ancient cuss words, that never were known to the present generation, and the compounding of a mixture of green eye and jaundice prepared so that the very atmosphere will be blue when it is handed out.

Just as a start we would like to know why the good temperance electors in the district are being told that the Conservative nominee is a Royal Templar when old time members of the order in regular attendance on lodge nights declare that he has never been honored by being accepted as a candidate for initiation, much less is his name found upon the roster. We have a few more questions to ask later.

In the meantime we hope the poor invalid will survive this last spasm, take a nerve tonic, retire early, take exercise on any part of the Dewdney-trunk road that is passably safe and as a purifying agent take Burdock's Blood Bitters.

ORANGEMEN'S CONFIDENCE.

The Orange Sentinel seems to have no doubt as to the issue in the general elections being a sure return to power of the Laurier administration. Of course the "Sentinel" is the mouth-piece of the great Orange Order and no doubt is posted from sea to sea as to the probabilities. We give it in full as hereunder:

The extraordinary patience which the Conservative party has shown toward the Province of Quebec during the past twelve years is one of the striking phases of Canadian politics. There seems to be no possibility of stirring the Conservative leaders to the point of resentment. The corporal's guard of representatives who sit behind Mr. Borden dominate the party. They give color and direction to its policy, notwithstanding the hopeless minority in which they have stood since 1896. Rather than run the risk of offending the French-Canadians the Federal Conservatives suffer any indignity that is put upon them. They dare not say their souls are their own when any question affecting Quebec or a French Minister is before the House. To please Mr. Bergeron and Mr. Monk the men from Ontario and the other Provinces must sit mum when every instinct of a real man demands straight talk to the people of that Province. This is degrading. There is no thing more demoralizing to a political party than an apologetic attitude to an aggressive and intolerant opponent. It takes the spirit out of the representatives in Parliament, and cools the ardor of the rank and file in the constituencies. What heart has a man to fight for a party or for leaders who dare not stand four square to the kind of treatment the Province of Quebec has given the Conservatives since 1896. It is the one discouraging feature of Mr. Borden's leadership. He opposed the Autonomy Bills, although he had to do so against the will, and without the votes, of his Quebec squad. For that the country owes him a great deal. It is regrettable that he has not pursued that policy a good deal further. In the vain hope of winning support from Quebec the party has been humiliated all over the Dominion. Better for to let Mr. Bergeron and Mr. Monk take the chances of an open conflict with the French-Canadians than humiliate the party in every other Province.

What hope of profit is there in this policy? Conservatives have adhered to it with singular faithfulness. Two general elections have been held since the Province first went solid for the Liberals. What was the result? Every school boy knows that the allegiance of the French to Sir Wilfrid has not wavered a least de-

gree. It is a dark prospect still, on the eve of another general election. Then what is the explanation for this strange conduct, and what is hoped from it. Why this craven fear of antagonizing the French-Canadian when he is wrong? It is not self-respect, and it is futile as a matter of tactics.

There is no hope of Quebec going Conservative so long as Sir Wilfrid Laurier lives. When he dies there will be no hope of the Liberals holding it. Conservative success at the present is impossible; Conservative success in the future does not hinge on a subservient attitude now.

Mr. Borden would occupy a much stronger position if he had shown a more resolute spirit in dealing with Quebec. If he had taken up the gage thrown down by the French Ministers, and fought every issue regardless of the racial sentiment of Quebec he would have stirred up the enthusiasm of his party everywhere, and he would have excited the gravest anxiety in that Province. No policy will be found so effective in combatting the clamorousness of the French-Canadian as one of straight, open attack at every vulnerable point. There is nothing that the French leaders have so much reason to fear as a combination of the English-speaking Provinces against them. That would mean the destruction of French influence in the Federal Parliament. Before any party is driven to that course the Quebec Hierarchy will come down, and the domineering spirit now so flauntingly displayed will change to one of conciliation. The one thing needed is a little more courage in dealing with a section of the electors who have had their own way too long, even if it does involve the termination of two or three political careers which have brought no strength to the party led by Mr. Borden.

Owners of the Townsite of Port Mellon, Howe Sound, 25 miles from Vancouver.

We recently offered for subscription the first 100,000 shares of the Preferred Stock of this corporation at \$1.00 per share. Each 100 shares entitled to a bonus of 25 shares of Preference stock. The first 100,000 shares was immediately taken up.

We now offer the balance of the second 100,000 shares of Preferred Stock at \$1.00 per share, each hundred shares entitled to a bonus of 15 shares of Preferred Stock.

All subscriptions must be received on or before the close of regular business, May 30th

First allotment on second 100,000 will be made May 19th, final allotment May 30th. All subscriptions should be in the office of the Company by 6 o'clock, May 19th.

In order to treat all applications large and small alike, and to make no discrimination, all subscriptions received prior to final allotment, May 30th, will be allowed pro rata on the second 100,000, and balance on third 100,000. There will be no bonus stock, however, allowed, only on preference on third issue.

The preferred stock now being offered is entitled to an annual dividend of 7 per cent., commencing November 1st, 1905, but sublimited as to further dividends. That is, after 7 per cent. has been paid upon the preferred and common, both stocks thereafter participate equally. There is no reason why this stock should not pay from 30 to 50 per cent. dividends.

Payments, 10 per cent. on application; 15 per cent. in 30 days; balance in eight monthly payments.

Hereafter no subscriptions will be received by telegraph or long distance telephone, unless accompanied by the application payment of 10 per cent.

We are rushing work on the first unit of this great plant, the entire plant when complete will have a weekly capacity of 100 tons of newspaper, and 270 tons of wrapping. No better site for a great modern paper mill could have been selected than Port Mellon, only 25 miles from Vancouver; unexcelled drainage and magnificent deep water harbor. We have secured the water rights of Rainy River, which flows through the property, and have also placed a 20,000-inch water record on Clowhorn Falls for the purpose of manufacturing ground wood pulp. These two sources have a combined volume of over 20,000 horse power.

Those interested are cordially invited to visit Port Mellon and inspect the progress of the work up to date. It will not be long before we are turning out 80,000 pounds of wrapping paper per week.

The public are also invited to visit the demonstrating plant of the company, 313 Cordova street, Vancouver, and witness the manufacture of wood pulp and paper.

Office of the company open Wednesday and Saturday evenings until 9 o'clock.

One Sweet Red Rose as the Rent For a Pennsylvania Farm.

The public is generally conversant with the annual custom of paying "one red rose" as ground rental in eastern Pennsylvania churches to the descendants of those who gave the ground for the edifices, but it is not generally known that hundreds of owners of farms are under a similar obligation, says the Cincinnati Commercial Tribune.

"Red rose rent" is yearly paid every second Sunday in June in the Lutheran church at Manheim, Lancaster county; in the Tulpehooken Reformed church, about sixteen miles west of Reading, and in several edifices in Lebanon county, while several congregations in Berks are entitled to observe the event, but do not.

Roses paid on these occasions to representatives of families whose ancestors made such provisions are treasured as priceless heirlooms, and at Manheim they have come from many states.

It is known to few that more than 100 years ago great tracts of farm land were sold around Reading with the same stipulation. It is estimated that at least 20,000 acres of land in Berks are subject because of a clause in the original deeds to an annual ground rent of one red rose.

Records of the Berks courthouse show that many years before Baron Stigel provided for the payment of red rose rent by the church at Manheim Caspar Wistar sold land containing the same clause.

Red rose rent is mentioned in connection with land in Tulpehooken, Marlon, Maratany, Oley and other townships. It dates back to 1738.

The Tulpehooken Reformed church is built on land that is subject to "one red rose" quit rent. The land was owned by Caspar Wistar, brass button manufacturer of Philadelphia. The red rose rent has been paid to the Philadelphia descendants of Caspar Wistar for some years. The most notable observance was in 1902, when thirty prominent Philadelphia Wistars attended the services and were paid 157 red roses in payment of arrears of rent.

John Page, described as "a gentleman from London," was another extensive real estate speculator in the early colonial period. He planned to establish a feudal barony along the Tulpehooken in 1735. Every deed of land sold by him contained the red rose clause.

"Now, dear," said the hero of the elopement as they boarded the train, "we are safe from pursuit." "And also," said the young girl radiantly, "safe from starvation. Here's a check pa made out to your order."—Exchange.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

- (1) At least six months' residence upon and cultivation of the land in each year for three years.
- (2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.
- (3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).
- (4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.
- (5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

The Road to Success

In All Business Enterprises

Is Opened Through

The Advertising Columns of

The Morning Paper

The morning daily paper is first in the field for sales; the information in the advertising columns rule the purchases for the day. The thrifty housewife examines the morning paper carefully before telephoning her orders, and reads the advertisements carefully before purchasing home necessities.

So That You

Mr Businessman should take advantage of, and advertise in the *Morning Daily News*, and secure the orders that the heavy purchasers of stock make imperative to large profits and quick returns.

Do You Intend Building?

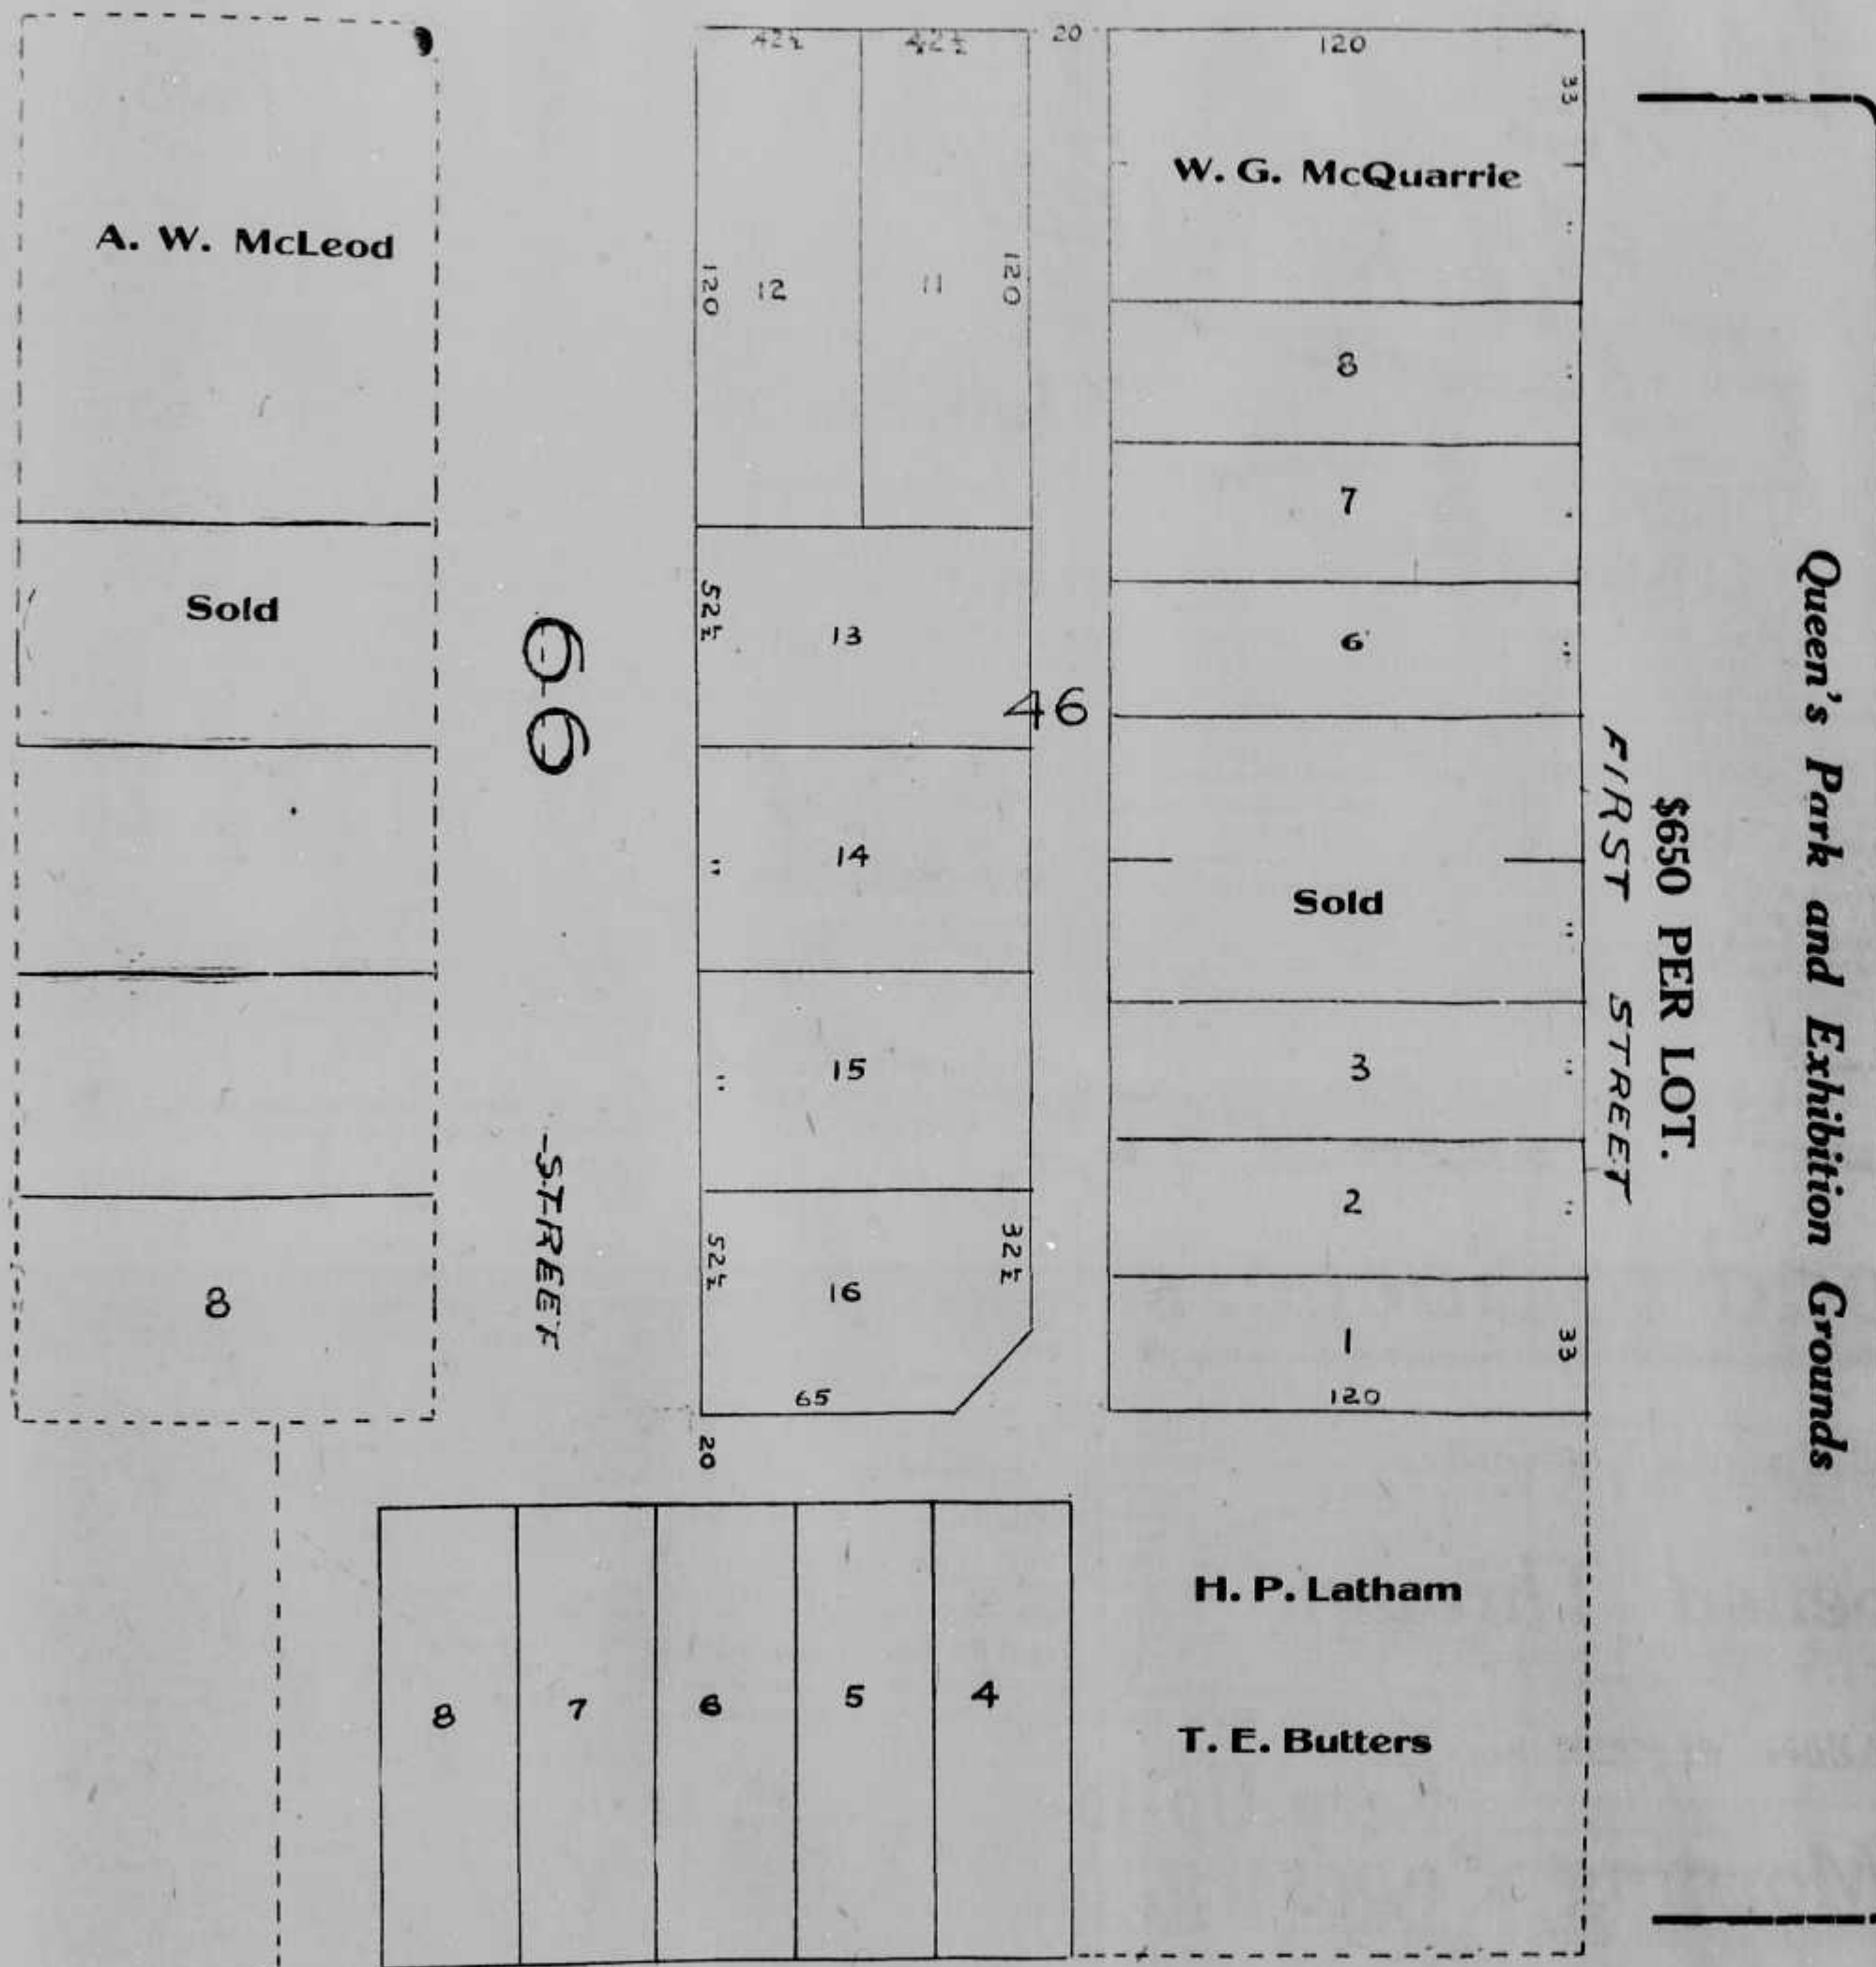

"There is no time like the present" is an old saying but more especially does this apply to building operations at this moment. LUMBER HAS GONE DOWN to a very astonishing extent. It is, however, very questionable if it will remain so much longer. Labor is also much lower and more available than it was this time last year. Make inquiries and convince yourself. DON'T PROCRASTINATE until prices go up again.

Of course you will have to procure a lot and this is where WE CAN BE OF ASSISTANCE TO YOU. We have been given the EXCLUSIVE SALE of what is beyond the least shadow of doubt the most desirable property in the City of New Westminster. WE DO NOT MEAN AWAY OUT IN THE SUBURBS where it is necessary to use fancy names in order to attract prospective purchasers BUT IN THE VERY HEART OF THE BEST RESIDENTIAL SECTION OF THE CITY.

It is situated on FIRST STREET between SECOND and THIRD AVENUES, FACING ON THE BEAUTIFIED PORTION OF QUEEN'S PARK. It commands a magnificent view of the Fraser River and the Pitt Mountains. You can also see all the LACROSSE MATCHES and other sports without going out of the house. Be sure to look at these lots before buying elsewhere. Nearly every lot faces on a 66 foot street and has a lane at the rear. Below is a plan of the property which you might cut out and take with you when you go to pick out your lot. If one lot is too small for your purposes you can take two or three and have just as large a frontage as you want. If you cannot afford to buy lots facing on the Park look at the back lots, the prices of which are absurdly low. Remember: WE ARE THE ONLY FIRM IN THE CITY WHO CAN SELL THIS PROPERTY.

EMORY STREET

INDEFEASIBLE TITLE given with every lot. EASY TERMS CAN BE ARRANGED.

ALSO

Six lots and a house facing Fourth Avenue between Pine and Third Sts. House is seven roomed with modern improvements. One lot corner of Sixth street and Fourth Avenue. Price.....\$1200.

CLIFF VINEYARDS.

The Farmer on the Rhine and the Difficulties He Surmounts.

Going down the Rhine you get a lesson in farming. If you wanted to buy a farm in America you would go out with a pick and spade and dig holes all over a 100 acre tract to make sure the soil was so and so and that there was not more than one stone to 100 rods. On these cliff vineyards along the Rhine it looks to you as if there was not more than a bushel of earth to the rod and that the rest was all stone.

In America you wouldn't buy a farm on the perpendicular surface of the Grand canyon, yet you imagine the bluffs of the Rhine seemed almost impossible before the enterprising grapevines got a start there. There may be a few inches of space on the cliffs where some German has not made a terrace big enough for a bunch of grapes, but if any such spot has been overlooked you failed to discover it with your binoculars.

There are advantages in owning a vineyard on the Rhine. Next to the financial returns, the chief advantage lies in the glamour of romance that hangs over the bluffs. Frowning cliffs look down on you from the most inaccessible peaks.

"Who lives in that big brownstone house?" you ask a German passenger on your steamer as you round a bend.

"That is the castle of an old nobleman who kidnaped a beautiful maid and held her prisoner," you are informed. "When the knights of those days tried to rescue her, the old nobleman would simply drop a big stone or two upon them as they attempted to climb the cliff. One day while rolling a stone down upon a knight the noble man fell off and was killed."

"And now," you observe, "I suppose the place is for rent. Do you know how much the administrator wants for it?"—Chicago Post.

MATSQUI CELEBRATION POSTPONED TO LABOR DAY

To discuss the annual celebration of the Matsqui Farmer's Institute a meeting was held at the residence of T. H. Lehman on Wednesday. Reeve Merryfield was voted to the chair. As the Orangemen are holding a big picnic there on July 12, a proposal was made to adjourn the celebration to some future date, Labor Day being mooted. President Phillips objected to any change from Dominion Day, when the celebration has usually been held, but it being agreed that the district could not support two picnics so close together, a resolution was adopted to hold the event on Labor Day, and votes of thanks concluded the proceedings.

UNAUTHORIZED TESTIMONIAL AND PICTURE COST \$6000

New York, May 14.—Because a patent medicine concern published her picture and a testimonial which she said she did not give, Miss Frances Wynne, a saleswoman in a department store, has recovered \$6000 damages. Miss Wynne stated that the publication of the advertisement made her life unbearable. Her friends and fellow employees made fun of her and she was finally compelled to resign her position.

"Our globe is by its elasticity kept habitable. The separation of sea from dry land is thus not otherwise maintained. The alternations of elevation and subsidence manifest the continual activity of this reserve of energy. The dimensions of the globe we inhabit depend upon the balance of pressure and expansiveness. Relaxation or enlargement of either instantly occasions a bending inward or an arching outward of the crust. Just by these sensitive reactions the planet itself shows itself to be alive, and celestial thrillings are the breaths of 'fate.'"—Current Literature.
