

This Is My 50th Birthday

Eben S. Draper.

Eben Sumner Draper, lieutenant-governor of Massachusetts and probably the next governor of that state, was born in Hopedale, Mass., June 17, 1858. After graduating from the Massachusetts institute of technology he entered the great cotton manufacturing firm of which his father was the head. For a number of years Mr. Draper has been one of the leaders of the Republican party in Massachusetts. He was chairman of the Republican state committee in 1892, and chairman of the Massachusetts delegation to the national convention at St. Louis in 1896, where he had a prominent part in securing the strong declaration of the platform in favor of the gold standard. He was chairman of the Massachusetts commission to the Nashville exposition in 1897, and was elected in 1897 as a McKinley and Roosevelt elector from the Eleventh Massachusetts district.

BRIGHT SHINING GOLD COMES FROM KLONDIKE

Quarter of a Million Dollars in Bars and Bricks Reach Vancouver—Going to Mint

Vancouver, June 16.—A quarter of a million dollars in nice, bright, shining, yellow gold was stacked up in bars and bricks of various sizes at the local branch of the Dominion government assay office on Hastings street this morning.

It represented the first large shipment of the year and was all Klondike gold. Dust and nuggets to the value of a little over the sum stated was brought down on the steamer City of Seattle yesterday by mine owners who have recently been having their spring clean-up in the north. The shining metal that men have such hardships and risk their lives for made a very attractive-looking pile as it was stacked up inside the steel bars ready to be weighed and checked over.

Manager Middleton and his staff have had a very busy time during the last few days and expect to be still busier for the next few weeks when the Atlin and Tanana shipments commence to come out. This consignment brought by the City of Seattle and turned in to the local assay office because the majority of northern miners known that they get relatively better returns for their gold than on the American side, weighed in the neighborhood of 15,000 ounces Troy.

Just what disposition will be made to the present shipment of gold has not been decided on yet. A considerable portion of it will go back east to the new Canadian mint at Ottawa from whence it will be re-issued in bright, new gold coins. Some will be sent to the American side where bullion is always in demand. Later on, when the Canadian mint gets working to its full capacity it will require all the gold from the north that it can get.

In addition to this quarter of a million from the various creeks in the Klondike district, and which Manager Middleton says assayed a very high average for that district, the local assay office has also handled about \$30,000 in a couple of small shipments from Atlin. Some large consignments from that district are expected in the course of the next few weeks which will probably run close to the half million mark.

Notice re Water Rates

The following resolution was passed at the regular meeting of the City Council on June 1, 1908:
"That the water rates to be paid by consumers be amended as follows:
(1) That the water supplied to Chinese houses and all other houses and offices in connection with sawmills or other industries be charged at the household meter rate, that all sawmill stables be charged at the schedule rate per horse. (2) That the minimum charge to household meter services be increased to \$1.87 per month, subject to the usual rebate. (3) That the minimum meter charge to business meter services be increased to \$2.00, subject to the usual rebate. (4) That the irrigation rate per 100 cubic feet. (5) That the meter rent for one half inch and three-quarter inch meters be 25 cents per month, nett."

W. A. DUNCAN, City Clerk. City Hall, June 4, 1908.

DOLLAR FARE FROM VANCOUVER TO SEATTLE

Rate War Likely to Be Prolonged Far Into the Summer--Both Sides Active.

Vancouver, June 16.—The C. P. R. will meet any cut in the steamship fares made by the Inland Navigation company, on the steamers to Seattle. E. J. Coyle has announced that the dollar rate on the direct run to and from Seattle would go into effect at once on the Princess Royal.

Mr. Coyle also stated that any further reductions made by the opposition steamers would be promptly met. The fare of \$2.50 to Victoria will remain the same for the present. Mr. Coyle did not state whether the Princess Royal would go on the direct run to Seattle from Vancouver instead of going by Victoria, but it was expected that arrangements would be made with that purpose in view.

It was evident to the C. P. R. officials that the C. P. R. steamers would not get the traffic at the old rate, as shown by the large number on the Iroquois, and the comparatively small number on the Princess Royal.

The rate war is evidently to be bitter and prolonged, for private advices from Seattle this morning brought word of the unmistakable intention of the Green company to fight it out all summer.

ANCIENT HISTORY.

The Opposition must have nearly exhausted their material for use in obstruction when they are compelled to dig up correspondence between an itinerant missionary named Pringle and the Government, which is dated six years ago, and deals with ancient affairs regarding the Yukon Territory which have long since been remedied.

Upon ordinary occasions one would give weight to statements made by a minister, but in this particular incident one must approach the matter differently. It is necessary to a proper understanding of the charges to know something of the man who makes them.

The Rev. Pringle mentioned is not only a minister of the gospel, but he is an active partisan politician and an energetic gold prospector.

Mr. Pringle first circulated stories with respect to Yukon matters many years ago, long before he ever saw the country. These statements he afterwards acknowledged were not based upon facts. Upon his arrival in Yukon he became ambitious, and sought both wealth and political honors. He is the owner of a number of claims, notably one upon Christmas Creek. In this connection it must be observed that Mr. Pringle was the discoverer of gold on this creek, and as the fortunate circumstance took place on Christmas Day, Mr. Pringle named the creek Christmas Creek.

Here we have a gentleman whose presence in Yukon was supposed to be in the interests of home missions, employing his time in searching for gold, and his name appears in the public records as the owner of several other mining claims.

Politically Mr. Pringle was also ambitious. He stumped the creeks, requesting nomination for the Yukon Council. He publicly stated that if elected he would bring about reforms and denounce immoral public servants. Well, he was elected, and for a year he was a member of the Council, and during that time he sat next to Messrs. Litgow and Girouard, also members of the Council, and never once questioned their morality, neither did he make any reflections upon the purity of their private lives.

This gentleman therefore cannot be regarded so much as a minister as a politician and gold seeker, and it is in this light that his communications must be regarded.

Mr. Pringle is a soured and disappointed politician. He sought, but failed to secure a second nomination for the Yukon Council, and afterwards he sought and failed to secure the nomination to the Dominion House, and his last failure was with regard to the pulpit of the church which he temporarily occupied. The people of Dawson did not regard his services as of any permanent value, and they declined to respond to his application, and it is now understood that he proposes to take the stump on Yukon affairs at the approaching elections in the Conservative interest. Should this be the case, Mr. Pringle will encounter men who have crossed swords with him in Yukon, and he will not be able to repeat such wild allegations as appear in the correspondence between himself and members of the Government.

The statement was made in the House that Pringle, in some sense, was the mouthpiece of the people of Yukon. There never was a greater mistake made. Pringle wrote his letters without the knowledge of any other person in Yukon. Neither does it appear that he took the advice of, or consulted with any people of Yukon with regard to the matters in question.

Among the men whom he describes as of bad reputation and members of the gang are found the names of gentlemen occupying high positions of trust in the Yukon, one of whom was the editor of the leading paper in the country, who took a prominent part in all matters of public interest, both in the columns of his paper and on the public platform, and another an official of the very church in which Pringle was "supplying" for it must not be forgotten that Pringle was not attached to any church as a pastor.

As to the first gentlemen mentioned, Pringle would not have dared to mention his name in any sense reflecting upon his personal character, if the gentleman had been within reach. Pringle having had experience of the ability of that gentleman to take care of himself. As to the other gentle-

man, when the matter comes to his knowledge, he will be heard from. This man is one of the wealthiest and most respected citizens of the country and he may be surprised to know that at the time Pringle was writing letters to the Prime Minister, in which he referred to him as one of a gang, he, Pringle, was shaking him by the hand, and treating him as a respected member of his congregation.

Should Pringle carry out his intention of stumping the country and continuing his well-known methods in his search for notoriety, he will find beside him on the platform at least one of the gentlemen referred to, and with the well known reputation of that gentleman as a public speaker, coupled with his intimate knowledge of the Yukon from its very earliest day, and his close association with Yukon public affairs, together with his special knowledge of Mr. Pringle, the latter gentleman will first be invited to explain certain matters before he can claim the right to influence the minds of the people of Canada, or pose as a censor of public morality.

ORCAS ISLAND RANCHERS BOTHERED BY RACCOONS

Bellingham, June 16.—So numerous are raccoons becoming on Orcas Island that the ranchers are becoming alarmed, after having their gardens partially destroyed by the small animals that prowl about in the night time. Raccoons are more numerous on the island now than ever before, and the hunting is furnishing good sport for the residents. Almost any night the howl of the raccoon dogs may be heard.

Immigration Act Amended.

Ottawa, June 15.—The amendment to the Chinese Immigration act has passed its second reading. This gives the authorities power to deport Chinese who have got into Canada without the payment of the head tax, and also prevents Chinese over seventeen years of age coming in as students and thus avoiding the payment of the \$500 tax.

Port Douglas Excursion Planned.

The steamer Beaver will run an excursion to Port Douglas, at the head of Harrison lake, on June 26, when a large number of people are expected to make the trip. In the early days

water trips to this point were quite frequent, but since the building of the C. P. R. and the consequent quicker service, there has been no occasion for the continuance of the river service. The trip is made annually during the high water run.

SATURDAY TO BE CIRCUS DAY

The Barnum & Bailey circus played an extended engagement at Madison Square Garden, New York City this spring.

The Ringling Brothers circus began their season at the Coliseum, Chicago. It is reported that their business was very large.

The Greater Norris & Rowe circus, museum, menagerie, hippodrome and congress of nations, began their season in San Francisco this year. In thirty days the big show played to 272,873 paid admissions. The press of the city were enthusiastic in their praise of the new big show.

By arrangement of the three big circuses, each of them opened their season in the metropolis of the various sections of the country that they will play. Barnum & Bailey circus will play the New England states; the Ringling Bros., the middle west and southern states, and the Greater Norris & Rowe circus the territory west of the Rockies. Thus each section of the country will have one of the big shows this year.

It is estimated that with the three big circuses of the country, the Ringling Bros., the Greater Norris & Rowe, and the Barnum & Bailey shows, that there are 1800 people, 1000 horses, 100 elephants, 175 cars, besides hundreds of other animals used. It cost about \$12,000 a day to operate these shows. They are about of equal size and importance this year.

The Greater Norris & Rowe circus will exhibit at New Westminster on Saturday of this week.

Lulu Island Land Sale By-Law, 1908.

A Law to Authorize the Sale of Certain Lands on Lulu Island.

synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,

Deputy of the Minister of the Interior. N. B.—Unauthorized publication of this advertisement will not be paid for.

shall be devoted in part payment of the cost of construction of the said steel bridge or otherwise on Lulu Island as the Council may by resolution determine.

(2) This By-law before the final passing thereof, shall receive the assent of the ratemakers of the Municipality of the said Corporation in like manner as is requisite for the issue of debentures for the raising of any loan.

(3) This By-Law may be cited as the "Lulu Island Land Sale By-Law, 1908."

Done and passed in open Council this 20th day of January, 1908.

Received the assent of the ratemakers this day of 1908.

Reconsidered and finally passed this day of 1908.

City Clerk, Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-Law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the first publication thereof in the "Daily Columbian," and "Daily News" newspapers, which first publication took place on the 29th day of May, 1908, and that a vote of the electors of the City will be taken on the said proposed By-Law on the 22nd day of June, 1908, between the hours of nine o'clock a.m. and five p.m., at the following places, namely, the Council Chamber, Civic Building, the Fire Hall, Sapperton, and the Light Station, Tenth street.

W. A. DUNCAN, City Clerk.

City Hall, May 20th, 1908.

PART IV.

"WATER CLAUSES CONSOLIDATION ACT, 1897."

1. This is to certify that the Vancouver Power Company, Limited, (hereinafter called the "Power Company") specially incorporated pursuant to Part IV. of the "Water Clauses Consolidation Act, 1897," on the 25th day of January, 1898, for the purpose of exercising the rights, powers, privileges, and priorities in and by Part IV. of the said Act created, granted, and conferred, has, in addition to its undertakings heretofore approved of by the Lieutenant-Governor in Council by Certificates of Approval, dated the 14th day of February, 1902, and the 18th day of May, 1906, submitted its further undertaking to the Lieutenant-Governor in Council for approval, and that the said further undertaking, as shown by the documents and plan duly filed in pursuance of the said Act, has been approved, and that the same is as follows:

The construction, equipment, operation, and maintenance of a line or lines of electric railway, tramways, or street railways, with all necessary pole lines and overhead and other construction with all necessary slides, switches, and branches for the conveyance of passengers and freight from some point or points at or near Lots one (1) and two (2), City Block four (4), in the City of New Westminster, to and throughout the streets of the City of Chilliwack, passing through the municipalities of Surrey, Delta, Langley, Matsqui, Sumas and Chilliwack, and the Townships of Abbotsford and Huntingdon, and throughout the District of New Westminster and over and along any of the public roads in the said Municipality or any of the intervening public roads, or such other rights of way where the public roads are not used, as may be acquired by the Power Company; the erection, construction, operation and maintenance within the said City of Chilliwack and the said Municipalities and District of New Westminster, of electric works, power houses, generating plants, pole lines, overhead and other construction, and such other appliances and conveniences as are necessary in and throughout the said City of Chilliwack, the streets thereof, and in and throughout the said Municipalities and the public roads thereof, and in and throughout over the public roads of any Municipalities that may hereafter be formed within the area thereof, with public and private lighting and heating and power for manufacturing and industrial purposes, and in connection therewith; the construction, operation and maintenance of all necessary and required overhead pole and transmission and other lines necessary or required in connection with the said undertaking from any of the power houses, sub-stations or transmission lines of the Power Company throughout the whole area, as is hereinafter set forth. Together with all such rights, powers and privileges as may be necessary to effectually carry out the terms and conditions of the several agreements made between the Corporations of Surrey, Delta,

Langley, Matsqui, Sumas, and Chilliwack and the Power Company, which agreements were duly ratified and confirmed by by-laws regularly passed by the Municipal Councils of the said Corporations, the agreements between the Corporation of the Township of Chilliwack and the Power Company being also ratified and confirmed by "The Chilliwack City Incorporation Act" (1908).

The waters at present recorded by the Power Company from Lake Coquitlam and from Lake Buntzen will be utilized to generate the power required to operate the said further undertaking of the Power Company, and it is proposed to transmit such power, light and heat through and by means of pole and transmission lines from any of the power houses, sub-stations or transmission lines of the Power Company throughout the whole area within which the further undertaking of the Power Company is to be carried on, and as is hereinafter defined:

2. And this is further to certify that the first part or portion of the said undertaking and works hereby approved, will be the line of electric railway from the said City of New Westminster to the said City of Chilliwack and the necessary pole and transmission lines in connection therewith;

(3) And this is further to certify that the Power Company shall have duly subscribed before it commences the construction of the said further undertaking and works, or exercises any of the powers in that behalf conferred by the "Water Clauses Consolidation Act, 1897," Part IV., one thousand (1000) shares of one dollar (\$1.00) each. The further amount of capital required to fully complete the first part of the said further undertaking and works is to be provided by the sum of two million four hundred and ninety-nine thousand dollars (\$2,499,000) to be made by the British Columbia Electric Railway Company, to be secured by mortgage bonds of the Power Company in sterling or decimal currency carrying interest, or by such other form of security as may be agreed upon between the said Companies;

4. And this is further to certify that the time within which the said further capital to be subscribed, namely, one thousand dollars, in addition to capital already subscribed, is fixed at two months from the date hereof, and the time in which the first part of said further undertaking and works, as set forth in paragraph two hereof, is to be commenced shall be before the expiration of three months from the date hereof; and the date at which the remainder or any portion of the said further undertaking and works hereby approved may be commenced is fixed at five years from the date hereof, or such further time as the Lieutenant-Governor in Council may hereafter approve.

Dated this 19th day of May, 1908.

FRED J. FULTON,

Clerk of the Executive Council.

FIFTY MILES OF TIMBER SOLD IN QUEEN CHARLOTTE GROUP

Purchase Involves Payment of Nearly \$200,000—American Capitalists Are the Purchasers.

The Moresby Island Lumber company, an American corporation operating in the Queen Charlotte group, has just completed the purchase of fifty additional miles of timber limits there, increasing its holdings to nearly one hundred square miles. These limits are located on Graham and Moresby islands. The new purchases involve payments of nearly \$200,000. The money will be divided among Victoria and Seattle people, who had the timber staked over a year ago. The vendors include Captain Oliver, of Victoria, and A. Butler, of Seattle, who sold the Moresby Island Lumber company its first holdings of forty limits. The company is now erecting a large sawmill and will have it completed early this fall.

HEART STITCHED.

Delicate Operation Performed on Woman in Roosevelt Hospital.

New York, June 16.—Two physicians in the Roosevelt hospital last night performed the delicate operation of sewing up a human heart that had been cut open by a dagger thrust. The victim, it is said, has a chance to recover. Two stitches were taken in the heart of Susan Crane, who had been stabbed by another woman.

To Take Three-years' Walk.

Toronto, June 16.—Two young Englishmen, Arthur David Hadley and John Wynne Harley, started from the city hall here today on a three-years-walking tour. The wager for which they are walking is over \$10,000, and their itinerary is Toronto to Vancouver, to Seattle, to New York, to Halifax, to Toronto.

According to the conditions of the wager they must finish within three years, and not rest more than a month between each section. They must earn their expenses en route, sleep every night in a tent, draw their baggage in a hand cart, and obtain the signatures of some official in every town and village through which they pass.

Yaquis Reject Peace Terms.

Nogales, Ariz., June 16.—As predicted in the dispatch from Hermosillo last Friday, the body of Yaqui Indians assembled there for several weeks to discuss terms of surrender to the Mexican government refused to give up their arms, as demanded, and negotiations for a peaceful settlement are broken off, at least temporarily.

THE PEOPLE'S GROCER

SURGEON WILL CUT AWAY

CHILDREN'S STUPIDITY

Chicago, June 16.—To transform dull pupils in the public schools of Chicago into bright, alert boys and girls by means of a simple and harmless surgical operation—that, in brief, is one of the prime objects of the campaign of inspection inaugurated in the grammar schools today by the city health department. The dullness of pupils that are bright enough to attend public schools, scientists have found, is due in a large percentage of cases not to natural mental deficiencies, but to the growth of adenoids at the base of the nasal passage, which is known as the post-nasal tract. A surgeon cuts the adenoids—just like removing a tonsil—and his knife banishes the apparent stupidity of the child. That's the theory.

Catholic's Annual Picnic.

The party of school children, and others which left the C.P.R. depot, in connection with the Catholic excursion to Mission spent a most enjoyable day yesterday. Of the children there were 190, and a special car was attached to the 7:15 a.m. east-bound. On their arrival a visit was paid to the little chapel of the Indian mission, and a short service held. The children of the Industrial school there shared with the Westminster youngsters the pleasure of the day. A basket dinner broke up the morning's amusements and in the afternoon sports were held. All kinds of fun employed the children, and before returning supper was partaken of. It was a happy but tired crowd which filed out of the car attached to the 8:40 p.m. on their return to the city. Father O'Boyle had an energetic committee to help him. It may be mentioned that during the day a parade was held of the various Catholic societies represented.

Extra Values in

Hosiery

Boys' Girls' and Ladies' High-class silk hosiery

Plain and fancy lace silk hose. Those who have worn silk stockings pronounce them the most cool and comfortable hose to wear. A new lot now on display; colors pink, grey, sky, heliotrope, champagne, cream, white and black. Per pair \$1.35 to \$2.50

New ribbed hose for boys and girls

White, tan and black ribbed hosiery and plain white socks and hosiery just in by express today. American made, new lines with rib but they look good and are exceptional value. Ask to see them.

Women's cotton hosiery

Seamless feel-ribbed tops. We have been asked on hundreds of occasions for seamless feet in cotton hosiery. We regret that we have not had them in sufficient numbers to meet the demand. We have them now plain black and with white feet, perfectly seamless. Per pair .25c to 45c

Mendings, All kinds

It seems impossible to prevent the holes coming in the stockings. Only one thing to do—mend them. We carry in stock at all times all wanted shades in wool, cotton, silk and silk mendings.

Fancy white blouses, a new lot

Style, quality and serviceability are the strong characteristics of the blouses. They wash perfectly, better than silk; are stronger and the trimmings are as dainty and serviceable as can possibly be used. Every waist is becomingly trimmed with shadow embroidery, Swiss insertion, medallion applique, or Valenciennes lace and insertion. All sizes, 32 to 42. The nicest blouses this season. Each .50 to \$10

Travelling Rugs, Each \$1.75 to \$3.00

Dark colored shawls and rugs in plaid designs; mostly in demand for travelling or camp use; large sizes; fringed on edge. Special values this week.

Another special in white wash belts, each 25c

Ten dozen new embroidered wash belts, new designs, pearl buckles and metal buckles; all sizes.

All linen napkins, each 10c

Fifteen dozen only, fine all linen napkins; size 19 by 19 inches. Regular price \$1.50 per dozen. On sale this week, each 10c
