LONG NEGOTIATIONS IN DEBENTURE SALE

Money Not Yet Forthcoming Owing to Technical Difficulties---Seek Legislation.

The city is finding it difficult to obtain the money as readily as was expected for the $132,000 worth of debentures purchased by Mackenzie Bros., of Toronto, last fall. It was expected to receive the money by December 1, but although the issue is an excellent one from the security of the city, and its standing for good finance, the money is not yet available.

The fault is not with the finance committee, but the solicitors for the brokers concerned have raised a number of technical objections which have to be cleared up at once, as the money is badly needed, the works already carried out having to be met from the current revenue, and the interest for this advance has to be paid to the Bank of Montreal. However the debenture coupons are in the hands of the printers, and will be issued at as early a date as possible.

An amendment clearing the position of the city on this matter will be submitted to the provincial executive this morning, and will doubtless soon pass into law, making the position unambiguous in the future. The brokers however, make it clear that they are prepared to take the bonds as soon as the coupons are signed.

Some dissatisfaction exists in commercial circles because the Sixth street sewer issue for $20,000 is secured on the property affected rather than on the whole revenue of the city, but this applies generally to funds raised for local improvement purposes. A ruling from legal authorities will be welcome, for at no distant date the city will want to sell the First and Eighth street sewer bonds, and find money for Columbia street under the local improvement plan. Three offers were made for the sewer bonds, all of which fell through from one cause or another.

BURGLARS ENTER STORES AT LADNER

Busy Night Raiders Ignore Goods in Search for Ready Money—Slight Clue.

Three burglaries occurred at Ladner on Monday night or early Tuesday morning, H. J. Hutcherson's general store, Marshall Smith's general store at Ladner, and E. G. McBride's saloon at Port Guichon being entered. In every case the cash till was opened, but no money was taken, the contents having been removed earlier in the evening. No goods, as far as could be ascertained yesterday, were taken away from any of the places entered, the thief or thieves being apparently in search of money.

Smith's store was entered by breaking a window pane. As the aperture is small, it is surmised that one of the thieves is either a boy or small man. At the McBride saloon, indications are that two men were concerned in the job, an effort being made to force the door of an inner room, lock pins taken from a wagon on the wharf being used in the attempt. The door was fastened by a Yale lock, and was so built that an able-bodied man could not have smashed it open by hurling himself against it.

From all appearances, the burglaries are the work of crude amateurs, the guilty parties being probably Ladner residents, as no strangers have been noticed in the district for the past few days, or since the boats have ceased running down river.

Provincial Constable Jordan and Municipal Constable Handford are making every effort to capture the burglars, but the clues in their possession are slight, consisting mainly of the remains of a midnight lunch wrapped in a copy of Monday's Daily News, and left behind on the doorstep of McBride's saloon.

Severe Blizzards in Dakotas.

St. Paul, Minn., Jan. 19.—With a blizzard raging in the Dakotas, the railroads are again experiencing difficulty in operating their trains. The storm is particularly severe in South Dakota.

NEWSPAPER IS ISSUED TODAY AT SAPPERTON

David Saunders Produces District Weekly in Eastern Suburb—For Social Reform.

Sapperton has from today a district paper known as "Sapperton Diamonds," the publisher being David Saunders, who formerly conducted the "Watchman" at Vancouver, and laterly sold out to H. V. Parr his jobbing business at Cloverdale.

Mr. Saunders will give special attention to the district news of the eastern suburb and will devote his paper to the interests of moral and social reform. It will be weekly, appearing on Wednesdays, the first issue being made today. At present a four-page paper will be issued, but the Gordon press upon which it is being printed enables it to be enlarged as occasion demands.

He will also do a small jobbing business, and expects to supply a want among the residents of the progressive suburb. The office is at the corner of Columbia and Knox streets.

POWER OF BIG STICK WANES IN CALIFORNIA

Lawmakers No Longer Believe White House Promises on Jap Legislation.

Sacramento, Cal., Jan. 19.—Although some of the anti-Japanese agitators in the legislature are still blustering today, vowing to let no "big stick" stop them in their efforts to frame laws hostile to the little brown men, it is generally conceded that President Roosevelt's warning telegram to Gov Gillett yesterday has had the same chilling effect on the belligerency of California law makers that a similar message had two years ago.

"I will pay absolutely no attention to Roosevelt's telegram," said Representative Johnson today. "I have no fear of this 'big stick.' Two years ago we had a similar telegram and, because of promises made by the president we quit our fight. All those promises have been broken. Nothing has been done to help us or to remedy the evils which we knew existed, and personally I am not going to rely any more on promises from the White House in this matter. You can say for me that I'm going right to it."

BIG CASH BAIL SECURES FREEDOM FOR WOMAN RED

San Francisco, Jan. 19.—Emma Goldman, the widely known anarchist who was arrested here several days ago on eight counts of conspiring to incite riot, was released from prison tonight on $2000 cash bail, furnished by Attorney E. E. Kirk, of this city. Kirk said that the money had been subscribed by sympathizers and friends of Miss Goldman.

Kirk is prepared also to furnish bail for Benjamin Reitman, Miss Goldman's advance agent, who was arrested with her.

COLD SNAP IN ENGLAND WORSE THAN IN B. C.

English papers to hand yesterday contain accounts of cold spells in the old country which make the recent local weather conditions seem like a bask in the torrid zone by comparison. In a report of an outbreak of fire in South End, near London, the Daily Mail casually mentions that the fire was permitted to burn itself out, as the water froze in the hose while the fire brigade was playing on the flaming building. Mention is also made of the disorganization of railway traffic all over England, one train taking forty-three hours to complete a journey ordinarily covered in three and a half hours. Reports from all over the country indicate that frigid conditions prevailed everywhere.

MORAL WAVE REACHES BLACK HILLS COUNTRY.

Deadwood, S. D., Jan. 19.—Sheriff Plunkett and his deputies closed the twenty-three saloons of Deadwood at 11 o'clock tonight. Slot machines have been removed, and the authorities declare that no form of gambling will be allowed.

LIBERAL ELECTED IN YUKON.

Dawson, Jan. 19.—In the Yukon election held here to-day, F. T. Congdon, Liberal, was elected over Robert Lowe, Liberal, and George Black and Joe Clark, Conservatives, both parties having split. The election was hotly contested.

NINETY VOICES TO BLEND IN CANTATA "UNA" NEXT WEEK

Fine Concert Will Be Given in Queen's Avenue Church—Forty Singers Coming from Vancouver.

Under the leadership of T. R. Pearson, the cantata "Una," (A. R. Gaul, composer), will be given in Queen's avenue Methodist church on Thursday of next week by a choir of ninety voices, including four soloists from Vancouver. About forty trained singers will come over from the Terminal city to assist in the presentation, the success of which is assured by the careful and painstaking work of every person connected with the undertaking. William Hicks, one of the best bass soloists of Vancouver, and Miss Lees, a talented contralto, also from Vancouver, will take some of the leading solos, while the Mackness quartette will assist, Herbert Mackness presiding at the organ.

Hope Abandoned.

London, Jan. 15.—The Norwegian steamer Sticklestad, London for Sydney, N. S., has been given up.

PLATINUM VEINS LOCATED NEAR HOPE

Valuable Discovery in League Group of Claims - Promises Startling Developments.

William M. Williams, one of the pioneer gold seekers of British Columbia, claims to have discovered lode veins of platinum ore and gold-bearing fissure veins of quartz rock in his property in the Teague group of claims some thirty miles south of Hope, which, when developed, will startle the world. The mineral claims which were discovered by "Captain" William Teague, for twenty-eight years government agent at Yale, and his partner Williams, are situated on Ladner creek, about a mile upstream from the Hope-Nicola trail.

The geological formation of these claims is of the paleozoic period, and the rock deposit is of carboniferous slate, of which there is said to be only some eight miles of surface rock in British Columbia.

Of their discovery the locators report:

"The vein is a true fissure four feet in width, with a strike to the southeast and northwest, and a dip of 60 degrees south, and can be distinctly seen cropping out at the surface a distance of 200 feet when the veins at both ends of the strike are lost to view in the stream, to which it runs roughly parallel. The two walls of the fissure are perfect. The foot wall is of slate, and the hanging wall is fringed with above twelve inches of porphyry lying between the vein matter and the end of the slate formation, which seems to demonstrate the permanency of the high-grade gold and silver ores. Assays of the gold from this fissure have given a value of $20 to the ounce."

Co-operation a Success.

Ottawa, Jan. 19.—About a year ago the members of the government work men's association instituted a co-operative purchasing scheme and made arrangements with a company for 1000 tons of coal on which the members saved $1 a ton. Later they purchased butter and saved $205. Altogether by their co-operation plan they saved about $1500 and have made arrangements to extend their operations.

Russian Cholera Spreading.

St. Petersburg, Jan. 19.—Fifty-nine cases of cholera have been reported in the last twenty-four hours, and twenty-one deaths.

CANADIANS ARE PROMPT IN SETTLING ACCOUNTS

High Compliment Paid to Business Men of B. C. by American Organization.

Seattle, Jan. 19.—That fewer poor accounts are contracted and less money lost in British Columbia than on this side of the line, although American firms cannot collect bills in Canada unless they are registered there, was the statement made last night by several speakers at the credit men's meeting at the Rainier-Grand hotel.

Several stated that the British Columbia risks were in most cases moral risks, but that they had in most instances found them even safer than legal risks in this country, where collections could be made under the law.

The discussion was brought up as a result of the decision of the British Columbia courts that C. H. Lilly & Co. of Seattle, had no legal right to use the Canadian courts to collect $12,000 bill contracted by a British Columbia customer.

BIG LAND FRAUDS EXPOSED IN WEST

Secretary Garfield Finds Peculations of $110,000,000 in Public Domains.

Washington, Jan. 19.—Startling information of astounding frauds upon the public lands has come into the possession of Secretary Garfield through special agents. The allegation is made that approximately $110,000,000 worth of lands in states principaly west of the Mississippi river have been acquired fraudulently within the last two years by corporations and individuals.

Secretary Garfield also submits a statement of H. H. Schwartz, chief of the field service, showing over 32,000 distinct cases of alleged land frauds demanding further investigation. Of such cases awaiting investigation there are, in Oregon, 1462; California and Nevada, 1409; Washington and North Idaho, 1325; Montana, 3605; Colorado, 8621; Arizona, 496; Wyoming, 21,155; Utah, 1482; and New Mexico, 1209.

LILIOUKALAMI THINKS SHE WILL BE FAVORED

Washington, Jan. 19.—Lydia Kamekana Lilioukalini, former Quen of the Hawaiian Islands, who is here making an appeal to congress for compensation for the crown lands, which she lost when the islands were annexted to the United States, said yesterday in an interview with the Associated Press that she believes congress will make some reparation for her great financial loss.

She says she is now reconciled to the change of government in Hawaii.

JAPANESE FATTENED FISH ON NANAIMO SEWERAGE.

Nanaimo, Jan. 19.—Medical Health Officer Dr. Drysdale has ordered destroyed a large number of fish unfit for consumption which Japanese fishermen had been fattening on sewerage running into the inlet. The fish were being kept in crates sunk in the inlet.

Wanguard a Total Wreck.

Buenos Ayres, Jan. 19.—The German steamer Wanguard, from Seattle and Tacoma which went ashore at Punta Mogates, is a total wreck. There are about 2000 tons of cargo apparently in good condition, and salvage arrangements are being made.

FIFTY ACRES SOLD FOR FIFTY THOUSAND DOLLARS

Big Deal in Suburban Real Estate Closed Yesterday—Property Is Close toi Tramline.

Fifty acres of land on the electric tramline between Eburne and New Westminster, known as the Daniels' place, and a portion of the old Daniels' estate, was sold yesterday en bloc at the rate of $1000 an acre. This deal is reported to fix a new standard of prices for land in that locality. The transaction is one of the largest to occur in property along the Eburne railway line for many months.

Wedding at Ladner.

A quiet wedding was solemnized on Tuesday at the residence of Mr. and Mrs. W. J. Frederick, when their second daughter, Florence Isabelle, became the bride of Frederick homas Arthur, Rev. E. R. Bartlett, of All Saints church, performing the ceremony. The bride was given away by her father, and was supported by her sister, Miss Grace Frederick, and Gordon Frederick, brother of the bride, acted as best man. The groom's gift to the bride was a gold watch and chain, to the bridesmaid a broch set with pearls and to the groomsman a gold stickpin. The wedding repast was served in the dining room, which had been prettily decorated for the occasion with ivy and flowers Mr. and Mrs. Arthur are at present spending their honeymoon in the East.

INSPECTOR SWORD BACK FROM TRIP TO CAPITAL

Discussed Regulations to Be Enforced During Coming Season With Authorities.

C. B. Sword, Dominion inspector of fisheries, has just returned from Ottawa, wher he spent some time in conference with the Department of Marine and Fisheries with reference to the fisheries of this province, and the regulations to be enforced during the coming season, which is of special importance as it is the great salmon run in the river.

Mr. Sword had nothing special to state, saying that he had simply made sugestions to the deputy Minister of Marine about amendments he hoped to see gazetted before the opening of the fishing season. What line they would take he could not say, the government giving the inspector no idea of the intentions of the department.

The progress of the action of North vs. Kendall had been watched in the courts with great interest in Ottawa, as determining an important constitutional issue.

SNOW SLIDE ENDANGERS LIVES OF THREE MINERS

Nelson, B. C., Jan. 19.—A snowslide at the Kootenay Bell mine, Sheep creek, yesterday afternoon, came near causing the death of three men, Jack Moen, foreman, and Jeff Steel and Samuel Strongman. While at work timbering an open cut to prevent the slides from entering the mine, a slide came down the hill and carried the men with it. Moen and Steel managed to get out with slight injury but Strongman was dropped over a bluff some fifty feet deep and wedged in an open cut. He was quickly got out and was found to be badly bruised.

He was brought into Ymir where he is resting easily at the Ymir hospital and it is expected that he will be around shortly. The injured man had only been at work for four days.

BIG BEAR RUNS OFF WITH PET KANGAROO.

Tacoma, Jan. 19.—"Pickles," a pet kangaroo, a present from Lord Farnham, of Melbourne, to E. J. Bowes, of Tacoma, and by him placed in Regents park, was last night abducted by a big bear. With one sweep of his paw the bear made a large hole in the netting, and "Pickles" was at his mercy. There is no sign of a struggle, the bear evidently killing the kangaroo with one blow of its paw and then dragging it off.

COAL MINERS IN B. C. EXPECTED TO STRIKE

Expiration of Agreement in March May Result in Labor Troubles.

Winnipeg, Jan. 19.—There is likely to be a general strike of all the coal miners of British Columbia and Southern Alberta, beginning April 1. This will affect some 5000 men, and may block all local sources of steam, coking and domestic coal with the possible exception of some of the lignite mines. Shortage of coke supply in the mining districts woud necessitate the closing down of many plants and would throw 15,000 men out of employment.

The reason for anticipating a strike is the expiration of the two-year agreement signed by the miners on May 5, 1907, which will expire on March 31. The men refuse to continue longer under the terms of that agreement hand have asked for a rate of increased wages which the companies involved feel that they cannot pay under existing contracts. Men are standing pat, and though no formal notifications have yet been issued, as demanded under the Industrial Disputes Investigation act, there is at present no hope of settlement in sight.

The mines involved have a total daily output of 10,000 tons and are: The Crow's Nest Pass Coal company, Fernie and Michel; Canadian-American Coal company, Frank; International Coke & Coal company, Coleman, Alta.; Western Canada Collieries, Lille and Bellevue; Pacific Coal company, Bankhead; Hillcrest mines, Hillcrest; Breckenridge Coal & Coke company, Lundbreck; Galt mines, Lethbridge; Tabor mines, Tabor; H. McNeill Coal company, Canmore, and several smaller properties.

YOUNG AUSTRALIANS HAVE RADICAL IDEAS

Advocate Owning and Controlling Commonwealth---Work for White Australia

London, Jan. 19.—According to Australian newspapers the national committee of the Young Australian party has incorporated some radical planks in its advanced platform, among which are the following:

1. Australian citizens to own, rule and control the commonwealth.
2. The national government to acquire the right to make treadies with any power and appoint consular agents to any country.
3. An Australian built and manned navy, in absolute control of the commonwealth, and the consequent abolition of the naval subsidy to Great Britain.
4. Legislation clearly defining Australian citizenship, with the object of preserving a "White Australia," and safeguarding the British race.
5. Only Australian citizens so defined to own lands or mines.
6. Abolition of all titular distinctions.

The show this year will be held in the new horse show building which is being erected at the corner of Gilford and Georgia strets. Seventy-five men are engaged in the construction of the new building.

Seven Burn to Death.

Johnstown, Pa., Jan. 19.—Seven foreigners, who are said to have been stupefied from liquor, secured at a wedding celebration, were burned to death in a fire which destroyed one of the houses at Goodtown today. When one of the men arose this morning to light the fire, he used oil. An explosion and fire followed.

VANCOUVER LIBERALS TO BANQUET NEXT WEEK.

BRAHMINS TO TURN OLD DAIRY INTO TEMPLE

Scheme to Purchase Building Backed by Delhi Bank—Hindus Will Pay Cash for the Premises.

Victoria, Jan. 19.—Devout Brahmins are firm in their belief that the cow is a sacred animal. A syndicate of Hindus has approached the Victoria Creamery company with an offer to buy its abandoned premises on the Carry road for use as a temple. The building has been abandoned since the company moved its plant into the city, following its dispute with the Saanich council over the disposal of waste products.

The local East Indians have expressed indignation that a building formerly devoted to the disposal of the products of the cow should be treated with disrespect, and purpose making it a holy place. Financed by a Delhi bank, they are prepared to pay cash for it, and the surrounding ground.

"WATER CLAUSES CONSOLIDATION ACT, 1897, AND AMENDING ACTS."

Vancouver Power Company, Limited

NOTICE is hereby given that two weeks after date application will be made to the Lieutenant-Governor in Council by the Vancouver Power Company, Limited, for a further Certificate of Approval of its further undertaking in the matter of the construction of a dam at the outlet of Coquitlam Lake in the District of New Westminster.

The works intended to be undertaken by the construction of the said dam and in connection therewith are the following:

The erection of a hydraulic earth-filled dam about 650 feet in length, with a crest width of about 20 feet and a thickness at the base of about 430 feet at the upper end of the main upper channel; the dam to be of a sufficient height to raise the waterlevel of Coquitlam lake by about 60 feet; a spillway channel to be made about 150 feet wide, 12 feet deep to carry away surplus water.

And all such necessary and incidental works that may be necessary to fully and effectually carry out and complete the aforesaid further undertaking.

It is intended to instal a 24-inch concrete pipe extending from the upstream toe of the dam up into the lake for a distance to be agreed upon with the City of New Westminster, and to erect a tower for the gates and screens at the toe of the dam, and from this toe to carry a 24-inch cast-iron pipe surrounded with concrete in a deep trench underneath the dam to a connection with the present pipe in New Westminster.

The area which will be flooded by the raising of the water level is 1200 acres, of which the commercial value would not exceed $1.00 an acre, and the approximate estimate of the quantity of timber on this flooded area would not exceed 1500 feet B.M. per acre.

It is proposed that the waters at present recorded by the Company from Lake Coquitlam and from Lake Buntzen be utilized to generate the power required to operate the said further undertaking of the company and also under the said record the waters so to be conserved by the execution of the aforesaid further undertaking shall be utilized in the operation of and the carrying out of the undertakings of the Company previously hereto approved by Certificate of Approval of the Lieutenant-Governor in Council, and that the Certificate of Approval of which notice is hereby given do so provide.

The estimated cost of the undertaking is about $200,000.

The Power Company will have duly subscribed before it commences the constructions of the said further undertaking and works or exercises any of the powers in that behalf conferred by the Water Clauses Consolidation Act 1897 Part IV, one thousand (1000) shares of one dollar ($1.00) each, and the further amount of capital required to fully complete the said undertaking will be provide by a loan of one hundred and ninety-nine thousand dollars ($199,000) to be made by the British Columbia Electric Railway Company, Limited, to the Power Company to be secured by Mortgage Bonds of the Power Company in sterling or decimal currency carrying interest or by such other form of security as may be agreed upon between the said parties.

The time within which the said further capital of one thousand dollars ($1,000) is to be subscribed is two months from the date of obtaining a certificate of approval of the undertaking and works.

The said undertaking and works are to be commenced before the expiration of three months from the date of obtaining a certificate of approval to the same and the said works shall be in operation within two years from date of commencement of the same.

And upon such application all the usual and necessary powers to fully and effectually carry out the said proposed further undertaking will be applied for.

Dated at the City of Vancouver, in the Province of British Columbia this 24th day of December, A. D. 1908.

Synopsis of Canadian Homestead Regulations.

Any available Dominions lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

INTERMEDIATE EDUCATION.

The public has welcomed the announcement that the school trustees intend to do their best to turn the intermediate educational curriculum into the channels of practical instruction, rather than to the arts side, for after all not above one in ten can ever hope to make use of the present studies in the High School in after life. There is, of course, the argument which has been used by advocates of the classics ever since the present system of education was evolved from mediaeval mysticism, that the education given in such establishments is the only genuine touch of culture some can ever obtain.

But it is an unfortunate fact that while the province is calling aloud for trained engineers, skilled mechanics and clever artisans the educational standard has been drifting to the art side.

The majority of people think that the commercial course would turn out a collection of poor clerks, and be of no advantage to mechanical trades upon which the future of the province depends so much. The course which the trustees would like to see introduced would direct attention to those branches of study which would also benefit other kinds of manual labor. There is no intention, nor would the government permit any, to interfere with the arts course, which is very desirable for young people going to normal schools or to the universities, and to those whose school days develop no certain inclination of a suitable career, but it is common knowledge that in a country like British Columbia there is little scope for what is called "culture," but a very heavy call for bright intelligent boys and girls.

Money must be forthcoming for such an alteration and we do not think the parents will cavil at a small fee, because those parents and guardians who can afford to keep their children at a High School are quite in a position to pay a small fee. It will prove a boon to many and afford a change to a system under which one course of training is followed to the practical exclusion of others.

The decision of the provincial department of education to the requests, which will be preferred to them by a deputation from the British Columbia school trustees this week, will be watched carefully by organizations seeking to place intermediate education in the province on a more equitable basis to the general ratepaper.

HARBOR BOARDS.

At the present session of the state legislature at Olympia for the neighboring state of Washington, Senator Cotterill, one of the senators from King county, which includes the great seaport of Seattle, has charge of a bill which he wishes to see enacted into law. It affords an interesting piece of legislation which might with advantage be enacted by this province. The proposal is to give first-class cities a separate port authority where a river front is concerned, entrusting them with all improvements on the waterfront in building wharves, docks and harbor works, and enabling them to charge their expenses on the general district tax. Criticism is naturally directed along three channels of thought, the extent of territory, which shall be embraced in one authority, as often the frontage extends beyond the city limits, secondly, the means taken to raise funds, and again the complexion of the controlling body.

On the lower mainland of this province there are three cities bidding for industrial sites, to say nothing of some of the neighboring municipalities just awakening to their heritage, and the waterfront is held by large corporations, as the Canadian Pacific Railway on Burrard inlet, by the city, as New Westminster and North Vancouver, and by private parties, as at False creek, Vancouver.

Nearly all large cities with an ocean access are controlled by a harbor board, even where a railway owns the docks, which has absolute management of the affairs of the port, but it has beome an axiom that where a board is elected to perform specific duties of a commercial nature the members must be paid to do the work. Where harbor commissioners exist they generally represent the various interests using the docks, and are practically the spokesmen of certain corporations.

The Westminster City Council has been wise in dealing with water lots as leasehold property held for short terms on conditions of improvement, and conditions here are too small at present for a board similar to that suggested across the line, but as Mayor Keary states, there are fifty sites for industries on the Fraser within two miles of the city, now is the time for a comprehensive scheme to be drawn up dealing with the whole problem. A deep-sea channel to the Gulf of Georgia will add enormously to the importance of the port, and with vessels coming up to the big mills, Westminster wants to look ahead, plan wisely, and act well for the advantage of the only fresh-water port on the North Pacific coast.

PIONEER COURT INCIDENTS.

Free and Easy Manners In Early Illinois Trials.

Most of the early Illinois courthouses were log built, but in some districts, says the author of "Lincoln, the Lawyer," the sessions were held in the barrooms of taverns, and the absence of all formality in the proceedings is best illustrated by the fact that in the circuit court of Washington county, held by Judge John Reynolds, the sheriff usually heralded his honor by singing out, "Come in, boys! Our John is a-goin' to hold court!" to which cordial invitation those having business with the law responded.

Another sheriff in Union county made laudable efforts to meet the requirements of the occasion by shouting out this singular announcement: "Oh, yes! Oh, yes! Oh, yes! The honorable judge is now opened!"

In one case a judge who desired to display his learning instructed the jury very fully, laying down the law with authority, but the jurors, after deliberating some hours, found themselves unable to agree. Finally the foreman rose and asked for additional instructions.

"Judge, this 'ere is the difficulty," he explained. "The jury want to know if that thar what you told us was r'al'y the law, or on'y jist your notion."—Youth's Companion.

FIRE BREAKS OUT IN RUINED MESSINA

Odor of Burning Flesh Adds Horror to Conflagration---Soldiers Fight Flames.

Messina, Jan. 19.—A serious fire broke out here today among the ruins of the earthquake-wrecked city. The remains of Pennesi palace fell in and added to the conflagration. The flames are spreading in spite of the work of the soldiers to control them and the situation is serious. An odor of burning flesh is mingled with the smoke and it is feared that persons still alive are being consumed.

The flames did not stop at the Pennesi palace but spread over the ruins of the city, the long tongues of fire leaping upward and the sparks falling in a heavy shower for a considerable distance. The heat was very great. The alarm was sounded, while the warships in the harbor blew their fog horns and soldiers were hurried to the scene.

The Duke of Genoa made a heroic rescue of a demented woman who insisted upon forcing her way into a burning pile of ruins to save her husband.

We represent the above old established and reliable companies, which have paid dollar for dollar in all great fires since their incorporation. They paid over fifteen millions to policy holders after the great San Francisco fire. In the New Westminster district they have settled all claims promptly, honorably and without trouble, to the assured. As example see the following fires:—

At Burnaby

August 26th, 1908.

On Sept. 8 Mr. Clayton acknowledged receipt of cheque for payment of claim in full and arranged to insure his new house with us.

At Central Park

January 29th, 1908.

Mrs. Sandell, the assured, wrote on Feb. 13: "Your cheque for the full amount of the insurance was received this morning."

At Coquitlam

June 24th, 1907.

Donald McLean, the assured, on June 28, acknowledged payment of loss: "Thanks for cheque, dated June 28, in settlement for loss in full."

At Sapperton

Sept. 9th, 1908.

Writing from Winnipeg, Man., shortly after the destruction of the Dynes store on Columbia street, Mr. T. E. Herron acknowledged "receipt of cheque in full settlement of his loss on the building."

In each of the above cases and in every other case where we have had a fire loss claim made upon us, the policy holders have been so well satisfied with the prompt and adequate settlement made by the companies we represent that they have placed their subsequent insurance with us.

SIXTY WOMEN FLEE FROM BURNING BLOCK.

New York, Jan. 19.—Fire starting on one of the three upper floors of a building on Broadway near Twelfth street today will probably result in the total destruction of the building, which is very inflammable. Sixty women were employed by a factory on the three upper floors, and all of them so far as known, escaped.

The funeral of the late John James Lulu Island on Friday, took place yesterday to the Oddfellows' cemetery. Rev. J. S. Henderson officiating.

The funeral of Janet Shearer, aged 72, who died on Monday at Port Moody, will take place this morning to the I. O. O. F. cemetery. Deceased was a native of Scotland.

The regular meeting of the Board of Trade will be held tomorrow night.

The new room at the High School is ready for the entrance class and a teacher is being now engaged, all children who passed into the High School at the recent entrance examinations can commence studies at 9:30 a.m. tomorrow.

In county court chambers yesterday before His Honor Judge Howay, an application was made for payment out and for order absolute garnishee and costs in the Hemphill vs. Blair & Hemphill, garnishee, action. This was made by Mr. Ford, and J. D. Kennedy acted for defendant. The order was granted.

With reference to the hire of the Newington from E. J. Fader for ice-breaking on the river, the City Council has passed a vote for seven days on application, instead of five as already guaranteed from day to day. Gilley Brothers and the Western Fuel Company, who brought up scows of coal for sale during the cold snap, will be asked to assist, and there is little doubt that either will cavil at the request, in fact, W. R. Gilley has stated that his firm would not hesitate to help keep the river open should the governments not assist with pecuniary aid.
