IRISH HOME RULE BILL IS DRAWN

Dublin Paper Asserts That the Essential Points of the Measure Are Settled and Have Been Submitted to Irish Leaders.

Dublin, Nov. 8.—The Evening Herald declares that it has reliable information to the effect that, at a recent conference of Irish leaders, Sir Antony Patrick McDonnell, under secretary to the Earl of Aberdeen, lord lieutenant of Ireland, read the draft of a plan for the reorganization of the government of Ireland. The draft provided for the establishment of a central board, an educational department and a department of agriculture, and for the transfer of land. It creates an Irish council with between two-thirds and three-fourths of its members elected on the existing parliamentary franchise, and the remainder on a restricted franchise or nominated. Clergymen of all denominations are eligible for membership in the council. Ireland is to retain her present representation in parliament. The judiciary will remain unaffected. The measure is not complete, but the essential points have been definitely settled.

Reservoir Free From Dirt.

Contrary to the expectations of certain parties, the city reservoir was found to be entirely free from any foreign substance when emptied yesterday forenoon. Near the intake pipe a small black sediment had gathered, no doubt brought through the pipes while the building of the dam at Coquitlam lake was in progress, and on the walls there was also a slight coating of mossy matter. The lower end of the reservoir was entirely free from sediment of any kind, the bottom showing out clear and clean when the water was drained off. A large number of trout were removed from the reservoir and placed in a tank for a few days while the cleaning is going on.

RATEPAYERS TALK ABOUT CIVIC MATTERS

And Freely Criticise the Present City Administration, Particularly Respecting School Affairs.

The school question, the social evil, the gambling scandals and the Coquitlam land deal, were some of the interesting topics discussed at last night's meeting in Cunningham hall. The present administration of civic affairs was almost unanimously condemned, and some of the measures adopted by the city council within the past few months were adversely criticized in a very open manner. Plans for the improvement of the city in the future were discussed, and suggestions galore were made by every speaker who opened his mouth on civic politics.

When the hall had partly filled with waiting men, the meeting was called to order by the Rev. J. S. Henderson, after which J. M. Kenny was elected to the chair. The first speaker of the evening was A. Hardman, who briefly stated the object of the meeting. He said that they had no cut and dried programme to bring before them, but that everyone was free to come forward and express his opinion on topics of interest in connection with municipal affairs. He thought that public matters should be taken into consideration at a meeting of this kind previous to the elections, so that the elector could be well posted when the election came around. Personally, he thought the time had arrived when a change in the city council was desirable, and he would like to see a ticket drawn up at the meeting, nominating candidates for the several offices.

Mr. McNab expressed his dissatisfaction with the administration of public affairs, and believed that the time was now ripe for a change. He dealt at some length with the Coquitlam lake deal and with the educational question. In connection with the schools, he expressed his opinion that the schools should be in all parts of the city, and he thought that the population warranted it at the present time.

J. A. Lee, the next speaker, expressed himself strongly in connection with the administration of public affairs, saying that he was far from satisfied with the way things had been running lately, and that he firmly believed the city would be the better for a change in the administration. He did not believe that there was any radical change needed for the purpose of improving civic matters; it would be sufficient if the by-laws at present in existence were properly enforced. He was aware that some of the clauses were so ambiguous that it was hard to secure convictions for infractions, but these could easily be amended. In his opinion, there were enough right thinking residents in New Westminster to see that law and order should always prevail.

Another suggestion brought forward by Mr. Lee was that in future all deals with corporations in which the city of New Westminster is interested should be submitted to the public before being ratified. If this had been done in the past, it would have done away with a lot of hard feeling between people and those at present in authority, on account of certain deals which had been conducted privately. These sentiments appealed to the audience, and Mr. Lee's concluding remarks were loudly cheered.

J. W. Creighton was the next speaker to make his bow before the public. He agreed in the main with Mr. Lee's remarks that things had not been going on in the way they had a right to expect. Being a school trustee, he dealt more particularly with the school question than with the others. He complained that when they went to the council and informed them of their grievance on account of the small accommodation at their disposal, they could not get any satisfaction. The members of the council were very courteous, but that was all. The mayor appeared to be "It," and the aldermen merely assented to everything he said. Mr. Creighton characterized the schools as a disgrace to any community, saying that they were in a deplorable condition, and that the citizens ought to be ashamed of them. The city had now enough money to build new schools, and this should be done. Children are the most valuable asset a city could have, and the greatest amount of money should be spent on their education. Last summer they were refused the money they badly needed on account of some legal quibble. A lot of talk was heard about the city's good financial standing. If this was the case, why was not some money spent on the schools? Every candidate for the forthcoming election should be asked the question, "Are you prepared to do all you can for the schools?" and on his answer should depend the result of his election.

Cries of "Sandy Garrett!" brought the worthy alderman to the front. He commenced his spiel by saying that he was sorry that the other members of the council had not been invited to be present, as he would then have felt freer to discuss the questions at issue. Ald. Garrett dealt at some length with the Lake Coquitlam transaction, saying that he could claim a good part of the credit for not allowing the deal to go through, as he had opposed it all along. He also touched upon the moral reform, saying that he was entirely in accordance with any movement for the suppression of vice. The restricted quarter of the city he described as "hell's half-acre." He concluded his remarks by a reference to the prevalence of gambling in the city during fair time, mentioning that even on the fair grounds all kinds of games of chance were in operation.

M. W. Minthorne suggested that all expenditures be made in accordance with the amount collected in the several districts. He would also like to see a new school house in the west end of the city.

School Trustee Peck complained of the apparent lack of public interest as regards the schools. The proposal of disseminating the schools over the city appealed to him, but this would not bother him after this year, as he would would not run again for re-election. He was also strongly in favor of graded schools, saying that the best results could be obtained from these institutions, and that it was impossible to properly instruct the children when several classes were working in one room at the same time. Concerning the vexed question of school sanitation, Mr. Peck said that a lot of improvement would have to be done next year. The first thought of a family man was for the health of his children; their education came next.

The Rev. J. S. Henderson did not think that the meeting could properly form a slate or build a platform that night, but suggested the naming of a committee who would secure the names of candidates for the positions, and report at a later meeting.

E. Goulet having made a formal motion to this effect, the following were named as the committee: Rev. J. S. Henderson, J. A. Lee, J. Carter-Smith, A. Hardman, E. Goulet. Immediately after the naming of the committee, the meeting adjourned, bringing to a close the first political gathering of the forthcoming civic elections.

Russian Barbarity.

St. Petersburg, Nov. 9.—The Riga correspondent of the Bourse Gazette has sent in harrowing details of the execution by shooting of three boys who had been condemned by a court-martial for robbery. Four other persons were executed at the same time. The firing party was completely unnerved at the sight of mere children before them for execution and fired wildly, and it was only after several volleys that all the prisoners were killed.

WEST MUST LOOK TO ITS LAURELS

Laurentine Mine, at Wabigoon, Ont., Said to be the Richest Ever, Having Immense Body of Ore Going to $25,000 a Ton.

Winnipeg, Nov. 8.—Anthony Blum, principal owner of the Laurentine mine, south of Wabigoon, Ont., undoubtedly the richest gold-bearing property on the continent, was in the city yesterday. In speaking of the recent offers made to him for the property, he said that he has refused to part with the controlling interest. He stated, however, that he is negotiating with a company with a capital of $5,000,000, which proposes to take over a fractional interest. They will take over and operate the mine, but Mr. Blum will hold the controlling interest. The discovery of the existence of rich ore in the mine dates back nearly three years. Quartz was struck at the 25-foot level which assayed $25,000 per ton. At the 30-foot level the rich ore body was again struck, when a single blast loosened $5,000 in gold. Ore was encountered on the sub-level which was so rich that the machine drill could not penetrate it. Samples which have been sent out run from one-half to one-fourth of fine metal. At the present time the developing work is being steadily pushed, the main effort being directed toward locating the whole vein. It has been found that the ore body is from four to fourteen inches in thickness and some thirty feet in width. The shaft is now down 280 feet, with no falling off in quality. The adjoining rock is the Keewatin formation, and it is confidently expected that the vein will continue to the junction with the Laurentine rock, the depth of which is not known.

In speaking of the possibilities of the whole district adjoining his property, Mr. Blum said that he did not believe that he had the only property by any means. There had been a great renewal of mining activity, and the Summit Lake Co. had already struck a fine ore body on their property. Taken throughout, he feels that this district is good for a general revival of mining activity.

M. N. WOODS TALKS ABOUT ATLIN

...es the Daily News Some Interesting Items About Northern Mining Camp.

M. N. Woods, a former resident ...this city, who has been practicing ...in Atlin for the past six or seven ...rs, arrived here yesterday on a ...t to his old home. Mr. and Mrs. ...ds will divide the winter months ...een the coast cities and the east. Woods stated that the past season ...been a most successful one in the ...t, and that a great change was ...ng over the mining interests of ...portion of the province. Where ...a few years ago the country was ... of small, independent mining ...ns which were being operated on ...all scale, the whole district, ac...ing to the present outlook would ...wned and operated by about five ... and wealthy syndicates in the ... future.

...spite of the fact that the ther...eter occasionally runs down very ... the Pine Creek Power Co. was ... going ahead with the work of ...g when Mr. Woods left, and ex...d to complete the work on hand ...e 16th of the present month. ...e Atlin Consolidated Mining Co., ...hich the Guggenheims were inter...d, only stopped the operations of ... immense steam shovels for the ...n a few weeks ago. The system ... placed in operation about last ..., and had had a most successful ...on.

...e Spruce creek claims were now ... worked with excellent results, ...e new steam shovel was soon to ...t in operation to facilitate the ... of securing the coveted gold. ...artz mining was entirely depend...or its future on the Conrad mines ... Yukon. The boundary line lies ...en Conrad and Winton, and the ... outlook by long odds was on ...Canadian side of the line. Capi...as looking very closely towards ...wo places mentioned, and also to ... Arm and Taku Arm, where ... were admirable prospects for ...ng. The chief difficulty at the ...nt time was the question of ... The Dominion had done good ... and assisted as much as possible ... that line during the past sea...son, and had built a trail from Caribou to Conrad, so that the two places are now connected by both road and water. As soon as Uncle Sam woke up to the needs of his own territory and started upon the work of road building in his usual thorough manner, the Canadians would benefit by it in no small measure. Mr. Woods predicted a great future for the Atlin district and also for the New Westminster district. He remembered the days in this city when people just let their land holdings go because they did not consider them worth the taxes, and knew many who would be wealthy men to-day if they had their old holdings back again.

The Scotch Concert.

Miss Jessie Maclachlan, the Scottish songstress, who sings in New Westminster on the 15th of November, when at Balmoral was commanded to sing before Queen Victoria, who expressed her royal appreciation by presenting to her a superb bracelet. For nearly two and a half centuries no Highlander had been summoned by the throne, the latest one being a MacCrimmon piper who in 1651 had the honor of performing before the King and kissed his hand.

Miss Maclachlan's voice is a rich, full soprano, vibrant with feeling and dramatic power. It is not the mere singing, the mere succession of pure liquid notes, that rouses her audiences; it is the magnetic force of her personality, her absorption of the spirit of the song that carries the words from the heart of some Scotch poet of centuries ago to find their echoing note in the hearts of his twentieth century fellow-countrymen.

Nut and Bolt Strikers Win.

Scranton, Pa., Nov. 8.—The strike at the nut and bolt works, which began last June, was ended to-day, the company granting the demands for a 12½ per cent. increase in wages. The settlement of the strike will, it is believed, result in similar concessions to the men in all eastern nut and bolt mills where the men have been on strike.

The Cotton Crop.

Washington, D.C., Nov. 8. — The amount of cotton of the crop of 1906 ginned up to Nov. 1, according to a bulletin issued by the census bureau to-day, was 6,892,597 bales, counting round bales as half bales, as against 6,457,595 last year.

SOME DOUBT YET EXISTS AS TO LIEUT.-GOVERNOR

Of New York, But the Democrats Take All the Lesser Offices.

New York, Nov. 8.—With the official vote of but three counties missing to-night, Lewis Stuyvesant Chanler apparently is elected lieutenant-governor on the Democratic-Independence league ticket by a plurality approximating 1,700 votes over M. Lynn Bruce, Republican. To arrive at these figures, Bruce's probable pluralities in the counties of Essex, Ontario and Niagara are based on the vote for the Republican gubernatorial candidate.

While slight changes may be made in the returns from several counties, it is not believed they will materially reduce Chanler's lead, but on the contrary will increase it.

It appears late to-night that all the other candidates on the Democratic state ticket are elected by small but safe pluralities.

A Growing Business.

The Schaake Machine Works will commence the erection of a new office and pattern shops in the course of a few days, in order to meet the growing needs of their rapidly increasing business. The new building will be 66 feet square and two storeys in height. The present offices are altogether too cramped for the efficient carrying on of the business, and the new ones will be large and commodious, embracing a general office and private office for the manager. In the present pattern shops the men are too crowded for comfort, and the demands on storage and floor space are continually growing. The new building will be arranged with a view to supplying the needs of the business for some years to come.

Legislature Must Elect.

Concord, N.H., Nov. 8.—Complete returns from every city and town in the state show that the next governor of New Hampshire will be selected by the legislature. None of the candidates has received a majority vote, as the law requires. Floyd, the Republican candidate, has a plurality of 2,994, but lacks ten votes of the majority needed to elect him.

LILLOOET THRIVES ON BIG GAME AND GOLD

Our Correspondent Gives Some Interesting Details About Hunting and Mining.

Lillooet, Nov. 6.—One of the finest mountain sheep rams ever killed in this district was got within sight of town by one of the Manson boys.

The effect of the game warden's good work is already beginning to tell, as goats and sheep can now be seen from town on all sides, while deer are often seen within the town limits. Grizzly bears also feel the change, as a couple have taken up their abode on Seton Lake trail, and more than once made travellers turn back.

Arthur Maltley and Henry Schwartz, big game guides, started out with their second party for this fall. Maltley secured the biggest ram of the season on his first trip, while Schwartz's party brought in four nice heads.

W. G. C. Manson, British Columbia's star big game hunter, returned with his second party, and has now gone out again. They made a very nice bag, securing six rams (mountain sheep), eleven goats, two deer and a bear.

The Indians are now hunting for their winter's meat. One party brought in twenty deer and have again started out for more.

Messrs. C. W. Walker and Fergusson, who are largely interested in Bridge river, opening up properties, both hydraulic and quartz, are in town. They both have had experience in mining, as they spent several years in Atlin, but after spending a few weeks in the Bridge river district, concluded that there were better chances here to make mines out of the prospects. Mr. Walker is satisfied with the government trails, etc., but thinks that they would save money by putting in a bridge at Jack's Landing instead of subsidizing a ferry. The cost of a bridge would not be very great; the amount paid the ferryman would soon pay for it, besides being so much more convenient for the public.

The Chilliwack Progress records the death of William Chadsey, one of the pioneer residents of the valley, and a man well known and highly respected throughout the district.

...overnment Says "Go As You Please"

...don, Nov. 8.—The house of lords ...nues to hammer the education ...ut of all semblance to its original ... To-night, numerous alterations ... made to clause 5, dealing with ...ls from local authorities to the ... of education, and clauses 6 and ...erring respectively to new vol...y schools and the allowance of ...dance during the time of secular instruction only, and were deleted. While Unionist peers are eager for a battle at each sitting, the Liberals now treat all the opposition amendments with almost careless indifference. They are apparently dominated by the idea that after so many drastic changes, there is no use in contesting further alterations, and are letting the opposition go as it pleases. There is as yet no suggestion of a compromise.

Election Set For December Thirteen

Yesterday evening the Daily News was informed by a citizen whose veracity is beyond question that the provincial election was to take place Dec. 13. Our informant said that his autority for the statement was good, and that he believed the information to be correct. Corroborative evidence of the truth of the report is found in the fact that the Province, a government organ, had a similar statement, except that the date was not mentioned, in a special despatch from Victoria a few days ago.

Demands Heavy Bail.

Toronto, Nov. 8.—Magistrate Denison this afternoon agreed to accept bail for Charles McGill, former general manager of the Ontario bank, in $25,000 on each of two charges, namely, theft and signing false reports.

WE HAVE DECIDED TO CONTINUE

OUR BIG SALE

Until First Day of January, 1907

Every article iu the store must be sold, and we are offering them at prices never before heard of. All of our fall and winter stock (just arrived) will be included in this sale.

Come and see what we have to offer, and be convinced that we are offering the greatest bargains ever put before the public of New Westminster.

INSURANCE FRAUD TRIALS ARE TO BE PUSHED

District Attorney Jerome is Moving in the Matter of Bringing Directors to Book.

New York, Nov. 8.—District Attorney Jerome to-day asked Justice Greenbaum, of the supreme court, to fix a date for the trial of Frederick A. Burnham, president of the Mutual Reserve Life Co., his brother, George Burnham, and Geo. Eldridge, vice-president of the company, who have been indicted on charges of forgery and grand larceny.

Mr. Jerome said he hoped to proceed with the insurance cases in a few weeks. Assistant District Attorney Nott will conduct the cases.

Foreign Insurance.

Washington, D.C., Nov. 8.—The policyholders of San Francisco have appealed to the state department to aid them to enforce a settlement with three German insurance companies and one Austrian company that refused to pay for any of the property destroyed by fire and earthquake, which damages aggregate about $14,000,000. Attorneys representing the policyholders to-day laid the facts before Assistant Secretary of State Bacon, who told them that it would scarcely be possible for the American government to make the matter a subject of a formal demand on the German government, but he will give them letters of introduction to the American embassy in Berlin, and will instruct Ambassador Tower to render them assistance. Mr. Bacon later on took up the matter with Count Hatzfield, the first secretary of the German embassy.

"The Sign of the Cross."

A Pittsburg critic, referring to Manager R. G. Craerin's production, "The Sign of the Cross," said: "The vitality of Wilson Barrett's religious drama, 'The Sign of the Cross,' is remarkable. When first brought to America, it was predicted that it would not live the season out, for the religious play was not just then in vogue. But now, after a half dozen or more years of successful life, the drama is still drawing thousands of interested theater and church goers, who regard this simple but pathetic story of the sufferings of the early Christian martyrs as the best of all the recent attempts to put biblical history upon the stage." The company that will appear is the same that has been meeting with such remarkable success. The play will be presented here on Monday evening next at the opera house, with all the magnificence of scenery and costumes that have elicited the unanimous praise of critics and theatergoers during past seasons.

RUMORED CABINET CHANGE.

A cable despatch from London to the Ottawa Free Press has a rumor of interest both to the colonies and to Irishmen. It is that Winston Churchill is likely to leave the Colonial office and become Irish Secretary, Mr. Bryce, the present Irish Secretary, going to the House of Lords. T. J. McNamara, a Canadian by birth, is named as a probable successor to Winston Churchill in the position of Under-Secretary for the Colonies.

The statements given in support of the truth of the rumor are, that Bryce—who is 68 or 69 years old—feels that his strength is not equal to steering a devolution bill through the Commons, and that Churchill, besides being next for promotion to full Cabinet rank, has the courage and ability, as well as the mere capacity for physical endurance, necessary for the work. While that may be all true enough, it must be remembered, on the other hand, that Churchill has been a strong opponent of home rule, while Bryce has remained true to that cause from the first, and that the latter would be much less likely than the former to rouse antagonism among the Irish members or the Irish people.

If the change is to be made, it is likely that the reasons lie deeper. We heard the other day that Campbell-Bannerman himself was likely to go to the Lords, and he may, shrinking from the sacrifice, have persuaded his colleague to take his place, feeling that the Liberals need to be strengthened there. On the whole, however, it is likely that the rumor is little, if anything, more than one of those guesses to which the gossip of the clubs gives rise from time to time.

FRENCH MINISTER OF WAR.

In George W. Stevens' "Tragedy of Dreyfus" there is an excellent pen picture of Picquart, the new Minister of War in France, and an interesting study of his personality. The honor Clemenceau has done Picquart is not only deserved, but one that should have been his years ago. Before he became mixed up in the Dreyfus affair, Picquart, according to good critics, was about the most promising soldier in France. He is an Alsatian from Strasburg, and has seen service in Africa and China. At 32 he was a major, and at 40 a lieutenant-colonel. Most of his time in France, up to 1894, had been spent at the Ecole de Guerre in the study of the theoretical side of his profession. He was a remarkable linguist, speaking at least half a dozen European languages, besides knowing the tongues of parts of Africa and Asia. There was nothing to which he might not well have aspired before the great affair. That he deliberately sacrificed such prospects for the sake of justice, in standing by Dreyfus when that officer was in disgrace, proves him a man of sterling character. Picquart's connection with the case began when he was transferred to the intelligence department, which was after Dreyfus had been convicted. In that capacity he received one day a post-card that made him suspicious of Esterhazy, the chief accuser of Dreyfus. He decided to investigate the matter and did so, coming to the conclusion that Esterhazy was guilty and Dreyfus innocent. All efforts on the part of his superior officers to hush up Picquart's discoveries failed, and he insisted on making them public. Arrest, trials, convictions, persecutions did not daunt Picquart. Backed up by Zola, he continued to denounce Dreyfus' accusers and demand justice for the Jew. The final result everyone knows, and that Dreyfus to-day is a free and an honored man is due chiefly to Picquart, one of the most courageous, as he is the most distinguished, soldiers of France.

God save our gracious king,
Long live our noble King;
God save our King.
Send him victorious,
Happy and glorious,
Long to reign over us,
God save our King.

To-day, King Edward, "The Peacemaker," is the recipient of congratulations from all over the world on the attainment of his 65th birthday.

The News-Advertiser says that it cannot see any force in the tu quoque argument as applied to the London election case. The Tories may have been just as corrupt, it admits, but that does not excuse Liberal corruption. That is quite true; but has the tu quoque argument been used to "excuse" the corrupt acts of certain Liberals? We think not. For vigorous, telling condemnation of those acts, no Tory paper comes near the Toronto Globe. They shriek more and splutter more; but for the calm, judicial verdict of guilty—the quiet, purposeful insistence upon the necessity for stamping out the evil, the Globe is easily ahead. The "you're another" argument comes in only in reply to the Tory assumptions that all the corruption is among the Grits, and that the Tories are immaculate—sort of little tin angels with brass wings.

New Westminster is suffering one small penalty of growth—the sneak-thief is abroad in the land. Portable articles of any value should be kept indoors. The missing article, referred to in an advertisement elsewhere, is an umbrella, and it may be that the moisture distinctly noticeable in the atmosphere lately, set up a temptation to appropriate that particular article which proved too strong for the virtue of some one not habitually dishonest.

August.

"August," the name of the month, is accented on the first syllable. "August," the adjective, is accented on the second syllable. This is due, no doubt, to the fact that, though both started from the Latin "augustus," they have arrived by different routes. The adjective is the French "auguste," while "August," commemorating the Roman emperor's title, is the French "août" and the middle English "augst" or "aust." "July" used to rhyme with "duly," even in Johnson's time, as it had done centuries earlier and as it does in southern Scotland to this day.

In the Air.

Farmer Greene (who has been knocked down by a balloon anchor)—Gol dern 'em! I'll hev th' law on 'em! Whar's th' sheriff? Farmer Brown—No use kicking, Josh! Them critters is above the law, I reckon!—Houston Post.

It is not enough to run; one must start in time.—French Proverb.

Satisfactory Place to Buy Bed Clothing Now

Wool is dear; Cotton is dear; as one housewife figured it out: "My bedclothes cost me fully a third more than they did five years ago." And she's very nearly correct in her reckoning.

Well, here's relief. Satisfactory bed clothing, every needed item, the lowest price for the quality. Read the list and save by ding. Descriptions are brief, because being just simple, honest exact, they can be brief. An honest tale speeds best when briefold. Our stock includes:

"Chinook Brand" Blankets, in white and grey, finished with pink blue. Chinook Blankets are warranted all wool and of good me- weight Canada fleece wool.

56 x 76	$3.75
60 x 80	$4.50
64 x 84	$5.00

"Ane Saxony Brand" Blankets, in white and grey, finished with or blue. These also are all wool and of a very high grade, beknown as Pine fleece wool. The $8.50 blanket is a very high de, and is guaranteed to weigh ten pounds.

60 x 80	$4.75
64 x 84	$5.50
66 x 86	$6.50
70 x 88	$7.25
74 x 90	$8.50

Silkaline covered Comforters, large size, 72 x 72, filled with pure ton batting, which is corded into cross laps, giving extra strength buoyancy; large assortment of colors and patterns.....$2.75

er Comforters at $1.50, $1.75, $2.00, $6.50, $9.50 up to.....$15.00

Local News Briefly Told

Bulbs of all kinds and cut flowers, at S. G. Tidy's, phone A184. dtf

A pure bred fox terrier from E Hunt, of Steveston, who makes a specialty of raising canines of that species, was received at the C.P.N. office yesterday and was re-shipped aboard the Beaver this morning to C. Grossman, of Chilliwack.

A small fire in the restricted area of the city gave the brigade a run yesterday noon, the blaze being extinguished before any serious damage was done. The firemen from both No. 1 and No. 2 halls responded, and the whole affair lasted only a few minutes.

A small contingent of Sikhs is to leave this city this morning for Seattle, where they are going to work for the Seattle Lumber Co. Before being allowed to cross the boundary, each turbanned traveller must be provided with a clean bill of health and at least $40 in cash.

Amity lodge, No. 27, I.O.O.F., will hold a special meeting on Monday at which a number of degrees will be conferred. At the close of the session a social time will be spent. A programme of vocal and instrumental music will be rendered and refreshments will be served.

The B. C. Packers' boat, the Hong Kong, which is under charter by the Japanese dog salmon curers, came into port yesterday from Little Qualicum, where the crew has been busy collecting fish. The dog salmon run is about over, apparently, for this season, and the numbers being caught are too small to be of much account.

As a result of the many scathing remarks which have been made about the siren with which the tow boat Goliath is fitted out, Messrs. Gilley Bros. have the boat laid up, and when it once more ploughs the waters of Father Fraser, the siren with its woeful squeals will have given place to a melodious whistle.

J. Smith, of Ladner, has placed a large shipment of crated potatoes on the C.P.N. wharf, whence they will be re-shipped to the east as an experiment. If the demand is good, the shipment of potatoes in 100 pound crates to the eastern market may become a recognized industry among the Delta farmers.

The application of A. L. Lazenby for one inch of water from a small stream which traverses the Port Hammond town site, was considered yesterday before Water Commissioner C. C. Fisher, and finally granted. The application of Robert Blackstock for a record on another stream in the same district was also considered and laid over for one month.

The residents of the flourishing little agricultural centre of Chilliwack are looking forward to incorporation as a town. A petition has been widely circulated and has been signed by a large proportion of the ratepayers. They are now awaiting a report on the exact assessed value of the area to be taken in, after which the matter will be proceeded with in correct form.

James Brew was charged in the police court yesterday morning with supplying liquor to Indians, but as he pleaded not guilty to the charge, the case was remanded until this morning. Later in the day, an Indian woman, Mary Moody, was escorted to the lock-up, and will be held as a witness against Brew this morning. This is the first supplying case to be brought before the court for several weeks.

The medical officer of health was busy yesterday analyzing samples of milk taken from the different milkmen in the city. Eleven samples were analyzed, the milk being pure in each case. No preserving ingredients were discovered in any of the samples. These tests are to be carried on once a month, at irregular dates, the samples being collected from the milkmen in the morning while delivering on their morning rounds.

After two days of ticklish work, the flag staff outside the provincial court house has been once more fixed. Some of the wires which support the upper section of the staff and were attached to the cross trees were broken by the recent stormy winds, and some of the guy ropes had worked slack. The work was performed by an old sailor assisted by jail talent. The big flag staff is now snug and taut and fit to meet the most blustery of the November gales.

There is an unusually heavy demand for coal this season, and the local dealers are kept busy to keep their bunkers full enough to supply the local market. The steam tug Flyer yesterday came into port with 370 tons for Gilley Bros. The weather outside is particularly treacherous and the gulf presents half a dozen different moods in as many hours. A number of small boats have been tied up at Steveston during the past few days on account of the unsettled condition of the weather.

The cinematographic reproduction of the Gans-Nelson fight at the opera house last evening attracted a considerable number of local sportsmen, though the house was far from full. The pictures were very good, standing out clearly and distinctly on the canvas. Two minute intermissions were given at the end of every four rounds, so that the eyes of the spectators would not be overstrained by watching the moving pictures too closely.

The ladies who were appointed to take the religious census of the city, under the supervision of the Ministerial association, commenced their work yesterday and covered a large proportion of the territory. They were deterred from completing some sections by the inclemency of the weather. The plan adopted was that of appointing about seven ladies from each of the churches, who were made responsible for certain sections of the city. It is expected that the work will be fully completed by the end of the week.

The usual monthly meeting of the Westminster Benevolent society was held yesterday afternoon in the board of trade room, Mrs. A. J. Hill in the chair. Mrs. Tupper, treasurer of the society, gave an account of the financial standing, showing that the expenditure for the past month amounted to $57.20, with a balance of $74.47 in the bank. Other routine business was also transacted, after which the meeting adjourned until Dec. 13. Those present at the meeting were: Mesdames A. J. Hill, W. Johnston, S. J. Pearce, C. A. Welsh, J. Forrester, H. Tupper and W. A. Duncan. The secretary, W. A. Duncan, was also present.

Generous Subscription.

W. H. Keary, secretary of the board of managers of the Royal Columbian hospital, yesterday received a cheque for $1,000 from E. J. Fader, manager of the Torpedo Freighting and Tug Co., Limited. In a letter accompanying the gift, Mr. Fader stated that he gave this in the hope that others would follow, and so help in the good work of building the new hospital.

FOR SALE — Bedroom suite, wood Davenport bedstead. Apply Cook's wall paper store, Columbia street. 206-6

PLEASE—Will the lady or gentleman who borrowed Mr. C. A. Welsh's umbrella, when no one was looking, from his front door on Sixth street, kindly return same after using.

THE BLAST FURNACE.

In Cleaning One It Is Necessary to Use Dynamite.

The function of a blast furnace is the reduction of ores to metallic iron. The iron ore, like stone and coke, is put in at the top and the iron and slag are drawn off at the base. The temperature of the interior of a blast furnace when in operation varies according to circumstances, but the molten iron when drawn off is about 1,500 degrees F., indicating a much higher temperature inside.

To withstand such terrific heat, which is maintained by a powerful blast of air which acts much in the same manner as a forced draft on a boiler, the furnace is lined on the inside with a fine grade of fire brick thoroughly burned. This wall of noncombustible material is about four feet thick, outside of which is the steel jacket of the furnace, about one-quarter of an inch thick.

The lining of a furnace will last from two to six years, according to the nature of the material smelted, the furnace being in continuous operation during that time. It takes about six weeks to reline a furnace.

After a furnace is "blown out," or ceases to be used, there is a quantity of iron which cools and solidifies at the base of the furnace. This is called a salamander, and it is necessary to use dynamite to loosen this material and get it out of the furnace so that repairs can be consummated. Salamander has a ready sale, as it is a fine grade of pig iron.

As a rule, when trade conditions are good a blast furnace is never allowed to cool down or be taken out of blast except at intervals of several years for relining.—Baltimore Sun.

Took the Wrong House.

On one of the southern railroads there is a station building that is commonly known by travelers as the smallest railroad station in America. It is of this station that the story is told that an old farmer was expecting a chicken house to arrive there, and he sent one of his hands, a newcomer, to fetch it. Arriving there, the man saw the house, loaded it on to his wagon and started for home. On the way he met a man in uniform with the words "Station Agent" on his cap.

"Say, hold on. What have you got on that wagon?" he asked.

"My chicken house, of course," was the reply.

"Chicken house be jiggered!" exploded the official. "That's the station!"—Ladies' Home Journal.

His Promotion.

A somewhat turbulent private wrote to his mother: "I am sorry you had no letter last week, but I am a defaulter and it gives me a heap of extra work." The good woman in reply begged him not to be too hard on the others, but to remember he had been a private himself. I regret to say that he roared with laughter and read the letter aloud for the benefit of all who shared his room.—Miss M. Loane, a Queen's Nurse, in Contemporary Review.

Old Country Boot Store, Columbia St., New Westminster.

BEST ON EARTH
THE MONARCH RANGE

It utilizes all the heating power of the hard coal, soft coal, wood or coke. Ordinary steel and cast iron ranges are fuel wasters. They may work well until the bolts become loose where steel is bolted to cast iron. The Monarch range is different. It is constructed with malleable iron frames, to which the steel is rivetted, not bolted. It is only in this way that absolutely air-tight joints can be made. There is no stove putty in Monarch air-tight seams—no danger of leaks.

VANCOUVER, B. C.

LAND REGISTRY ACT

outh Part of Lot 3, Block 3, New Westminster Suburbs.

ertificate of indefeasible title to above property will be issued to Brunette Sawmill Company, Limited Liability, on the 15th day of November, 1906, unless in the meantime an objection thereto be made to me in writing by a person or persons claiming an estate or interest therein, or any part thereof.

C. S. KEITH,
District Registrar of Titles.

Land Registry Office, New Westminster, B.C., Oct. 10, 1906.

LAND REGISTRY ACT.

Take notice that application has been made to register John Kennedy as owner in fee simple, under a Certificate of Indefeasible Title issued from Sidney A. Fletcher to John Kennedy, bearing date the 15th day of December, A.D. 1901, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as Lots 1, 2, 3, 4 and 5, Block 45, part of Lot 26, Group 1. Lots 28 and 29, Block 5, subdivision of Lot 202, Group 1, and the northerly four-fifths of Lot 2, Block 5, subdivision of Section 13, Township 12, Range 29th, West of the 6th Meridian.

And you and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice, and in default of a caveat or certificate of lis pendens being filed within such period, or in default of such opposition before registration, I shall register John Kennedy as owner in fee simple in fee. And I direct that publication of this notice for one month in a daily newspaper published in New Westminster shall be good and sufficient service.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 15th day of October, A.D. 1906.

C. S. KEITH,
District Registrar.

To Mrs. Elizabeth Kathleen Black, William Knight and Jed G. Blake.

The persons served with this notice, and those claiming through or under them and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

Department Militia and Defence.
Clover Point Rifle Range,
Victoria, B.C.

NOTICE TO CONTRACTORS.

SEALED TENDERS, marked on envelope "Tenders for Construction of Stop-Butt, Rifle Range, Victoria, B.C.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 10th of November next, for the construction of a stop-butt for the rifle range, Victoria, B.C.

Plans and specifications may be seen and full information obtained at the offices of the District Officer Commanding, Military District No. 11, Victoria, and the Director of Engineer Services, Headquarters, Ottawa. Tenders must be made on the form supplied by the Department, and accompanied by a cheque on a Canadian chartered bank for 10 per cent. of the amount of the tender, payable to the order of the Honorable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

E. F. JARVIS,
Acting Deputy Minister of
Militia and Defence.

Department of Militia and Defence,
Ottawa, 10th October, 1906.

Tenders for Debentures

SEALED TENDERS will be received by the undersigned up to the 19th day of November, 1906, for the purchase of debentures of the Fourth street sewer, City of New Westminster, B.C., amounting to twenty thousand dollars ($20,000.00), and bearing interest at the rate of five per cent. per annum, payable half-yearly, the principal and interest being payable at the office of the Bank of Montreal in New Westminster, B.C.

The tenderer must state the net price he will pay here.

The Corporation does not bind itself to accept any tender.

W. A. DUNCAN,
City Clerk.

City Hall, New Westminster, B.C., November 3, 1906.

Purchase Notice

Notice is hereby given that 60 days after date I intend applying to the Chief Commissioner of Lands and Works for permission to purchase the following described land, situated at the mouth of the Kildala river, Coast district: Commencing at a post marked W. M.'s N. E Corner planted on the south bank of the Kildala river at the mouth, running as follows: 40 chains south, 40 chains west, 40 chains north to the shore line, thence following shore line to place of commencement, containing 16 acres more or less.

Aug. 27, 1906.

Locator, W. MOODY,
Per FRANK VANDAL, Agent.
Oct. 24, 1906.

Synopsis of Canadian Homestead Regulations

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans.

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY.
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Public Building, Edmonton, Alta.," will be received at this office until Wednesday, November 28, 1906, inclusively, for the construction of a Public Building at Edmonton, Alta.

Plans and specification can be seen and forms of tender obtained at this Department, on application to Mr. R. J. Manson, Clerk of Works, Edmonton, Alta., and Mr. J. Greenfield, Supt. of Public Works, Winnipeg, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order.

FRED GELINAS,
Secretary.

Department of Public Works,
Ottawa, October 29, 1906.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

FRASER RIVER SALVAGE CO.

COUNT BONI PROCLAIMS HIS UNDYING LOVE

The Great Divorce Case is Adjourned for a Week, When Decision Will Be Given.

Paris, Nov. 8.—The final word today in the divorce proceedings brought by Countess de Castellane against her husband, was Maitre Bonnet's assurance of Count Boni's undying affection for his wife, and the demand that the case be adjourned for a fortnight, in order to give the countess an opportunity to reflect upon the advisability of a reconciliation. This the court refused, and adjourned for one week, when its decision—either the ordering of an enquiry or the granting of a divorce—will be handed down. To-day's proceedings largely were confined to tilts between opposing counsel over the charges made yesterday against Edmund Kelly, of counsel for the countess. Mr. Kelly has denied these charges indignantly, and makes the counter charge that the count himself hatched up a conspiracy for the purpose of making his wife believe that he, Kelly, had organized a plot to bring about the count's political destruction.

Suit About a Horse.

The case of Lakin vs. Laduke, in which a horse deal is involved, and which should have come up yesterday for hearing, has been adjourned to a date to be fixed by the judge. W. E. Lakin, of Cloverdale, the plaintiff, seeks redress from J. Laduke, of Sapperton, who is said to have induced Lakin, who cannot read, to put his mark to an agreement which he misrepresented. Lakin had a horse to sell, which he valued at $250. The defendant was desirous of purchasing a team, and told Laking that he would buy the horse, provided he could get another one to mate it. The other horse was secured, and then Laduke asked Lakin to give him an agreement to the effect that if the horse went lame within three months, from natural causes, he would take the animal back. Before the three months had expired, the horse went lame and the buyer wished the seller to take it back. The plaintiff refused to do so, as he claimed that the horse had gone lame through neglect, and not from natural causes. The agreement to which Lakin had attached his mark, being unable to read or write, was produced in court, and was found to be minus the words "natural causes," on which the plaintiff based his case. He stated that he had taken the defendant's word for the contents of the agreement, and had not asked a disinterested party to read it for him. The case will be threshed out in court as soon as the judge sets the date.

Switchmen Arrange a "Modus."

Chicago, Nov. 8.—The switchmen today accepted the offer of the managers of the western roads for an increase of 3c an hour in wages. The demand for a further increase of 3c an hour will be determined by arbitration. The switchmen at first demanded a five cent increase and an eight hour day. Later they changed this request to one for an increase of 10c per hour.

Maple Ridge Council.

The regular meeting of the Maple Ridge council was held on Nov. 3.

The following communications were received and dealt with:

From Rev. Mr. Reid, asking for hire of hall for course of lectures. Granted at the rate of $1 per evening.

From medical health officer, re inspection of schools. Filed.

From Agricultural association, asking for payment of grant to the association. Voucher ordered to be issued for amount of grant.

From F. West, re crossing at junction of Lillooet and Trunk roads. Referred to committee.

From N. Ferguson, asking for a further extension of time on his contract. Time extended to Nov. 24.

From A. Larty, requesting that a duplicate voucher be issued to replace one lost by him. Granted.

From Mrs. Carr, requesting that ditch at foot of Slide Hill be cleaned out. Referred to Councillor Breton.

The following accounts were received and ordered paid: R. Blake, $7; R. Stephens, $25.75; W. Baillie, 75c; W. E. Birkett, $5.50; G. Kendrick, $4; A. Stevenson, $15; J. Best, $10; T. Davison, 75c; R. Blackstock, $8.75; C. Empey, $3.50; J. Jamieson $7.25; E. W. Beckett, $19.35; Brunette Saw Mill Co., $16.94; E. Pope, $6.15; K. P. Stark, $6; F. West, $6; E. W. Beckett, $1; E. Salo, $4; D. C. Webber, 50c; W. Haskett, $2. The following bounties were ordered paid: P. Dockstader, $2.25; J. Baillie, 50c; J. C. Blaney, $1.50; H. Webster, $1; H. Smith, $1.50; W. H. Ansell, $1; A. Batterham, 75c; P. Stoney, 25c; J. Webber, 25c.

Collections for October, $452.69.

The collector was instructed to enforce the collection of license fees from agents selling fruit trees.

REBATING RAILWAYS ARE INDICTED

Big Corporations and Firms Which They Favor Are Charged With Breach of the Law.

Minneapolis, Minn., Nov. 8.—Eleven indictments covering the paying of rebates by certain railways, and the receiving of the same by grain firms and individuals, were handed in to-day. The corporations against which the indictments were returned are: The Great Northern Railroad Co., four indictments and about 75 counts; the Chicago, St. Paul, Minneapolis & Omaha railroad, one indictment and 50 counts; Wisconsin Central railroad, one indictment and 17 counts; Minneapolis & St. Louis railroad, one indictment and five counts. The indictments against the railroads charge the giving of rebates; and under the head of receiving rebates, the following true bills were returned: W. H. Deveraux Co., McCaul, Dinsmore Co., Minneapolis; Ames Brooks Co., of Duluth; Duluth Milling Co.

Some of the special specific charges contained in the indictments were against the Great Northern railway, two indictments for giving rebates for the Spencer Grain Co., one for giving rebate to the McCaul, Dinsmore Co., and one for giving rebates to the Spencer Grain Co. The Chicago, St. Paul & Omaha and the Wisconsin Central were charged with favoring the Spencer Grain Co.

Besides the corporations, indictments were returned against eleven individuals as officials of the railroads named, buf U. S. Attorney Houpt said he would not consent to the names being given out for publication, owing to the fact that no service had yet been obtained on them. The general offence alleged in the railroad indictments is absorption of grain elevation charges.

Seedless Apple No Good.

Toronto, Nov. 8.—The Fruit Growers' association this morning received a report from the committee appointed to inspect the Spencer seedless apple. The report condemned the apple, and said there was a great loss of flesh, and that the cavity inside was a receptacle for insects, and recommended the purchase of trees only as curiosities.

Birthday Honors.

London, Nov. 8.—King Edward's birthday honor list, which was announced to-day, is without any feature of particular interest. Henry Norman, M.P., is raised to the rank of knighthood. No peerages are created. The regular list is to be left over for the year.

Musical Note.

A gentleman at a musical party where the lady was very particular not to have the concord of sweet sounds interrupted, seeing that the fire was going out, asked a friend in a whisper "How could you stir the fire without interrupting the music?"

"Between the bars!" replied the friend.—Home Notes.

There is no duty we so much underrate as the duty of being happy.—Stevenson.

SOCIAL AND PERSONAL

Matter intended for this column should be addressed, "Social Editor, Daily News, P. O. Box 402, New Westminster."

John Kelly, chief engineer of the steamer Gleaner, on Taku Arm, is down from the north, and was in town yesterday.

The bridge club met yesterday afternoon at the residence of Mrs. Alexander Bell. The members present were Mrs. Holt, Mrs. DeWolf Smith, Mrs. Gordon, Mrs. Youngling, Mrs. Brymner, Mrs. Coulthard, Mrs. Malins, Mrs. Cotton, Mrs. Graeme, Mrs. Gaynor and Mrs. Hannington.

Mr. Charley Creighton gave a very enjoyable progressive euchre party last evening.

Mr. and Mrs. E. M. N. Woods, of Atlin, have returned from Victoria, and are the guests of Mrs. R. Dickinson.

F. C. Gamble, of the provincial public works' engineering department, was in the city yesterday. This was the first trip he had made for some time on account of ill-health. He came to the city on departmental business.

Mrs. Andrew Lake, of Winnipeg, is the guest of her sister, Mrs. H. Lawrence, of Leopold place. She arrived in the city yesterday afternoon, and will possibly spend several months in the west, dividing her time between Mrs. Lawrence, and her daughter, Mrs. J. J. Johnston, of Third street. The visit of Mrs. Lake was a delightful surprise to Mr. and Mrs. Johnston, who were not expecting her. Mr. Johnston went out to the Junction to meet Miss H. Smith, who was due to arrive from Winnipeg on a visit to Mrs. Johnston, and on the arrival of the train he found that Mrs. Lake had accompanied Miss Smith with a view to giving her daughter a pleasant surprise.

Griffin Fletcher, who recently sold out his ranch in Alberta, arrived in the city yesterday and will in all probability locate on a ranch in the New Westminster district. His crops were a failure in Alberta last season, and he resolved to seek out a choice spot in the west wherein to labor.

Mr. and Mrs. J. Dixon, of Winnipeg, are among the most recent arrivals in the city. Mr. Dixon proposes staying in the west, and at the present is filling the position of saw filer at the Fraser River mills.

Mrs. A. Ferguson, who has been suffering from fever since her return from California five weeks ago, is again on the road to complete recovery, and was able to take a short walk yesterday for the first time.

H. A. Lacey was admitted to the Royal Columbian hospital yesterday evening, having developed a mild attack of typhoid fever.

Mrs. James R. Sharp, of Vancouver, was a visitor in the city yesterday, the guest of Mrs. J. I. Insley.

Dougall Mathelon, who recently left the Royal Columbian hospital, where he had been under treatment owing to an accident while logging, will leave for Blaine this morning.

S. Winkler, of Millside, intends to leave for Bellingham on Saturday. He will remain in that city for an indefinite time.

John Peck, provincial boiler inspector, will leave for Cumberland to-day, and expects to be away for about two weeks.

Capt. D. Patterson, who has been operating a passenger and freight boat in the Yukon during the past summer, has returned, accompanied by Mrs. Patterson, and a few days ago left for Chilliwack, where they will spend the winter.

J. Purdy, who arrived in the city a few days ago, has purchased ten acres of land in the vicinity of the reservoir. He is already rushing up a small house for the accommodation of his family.

E. David, a former student of Columbian college, is now living in Victoria, and has secured a position in the employ of the David Spencer company.

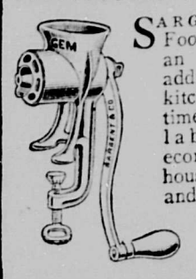
Economy



SARGENT'S Gem Food Chopper is an economical addition to any kitchen. It saves time and lessens labor, and thus economizes the housekeeper's time and strength. With it many attractive and appetizing dishes can be made from what might be wasted if it were not for the Gem.

It chops food of all kinds—meats, vegetables, fruits, bread, crackers, etc. It does not mash, squeeze, tear or grind, but chops the food as you want it—fine, coarse or medium. Easy to operate, self-sharpening. No kitchen complete without it.

ANDERSON & LUSBY

DEEP SEA FISHES.

There Being Nothing Else to Eat, They Live Upon Each Other.

"All the deep sea fishes are enormous eaters,' says a naturalist. "There being nothing to eat but the life about them, they live upon each other. Every facility for killing and devouring is provided—luminescence to dazzle, swiftness and strength to overtake and overpower, knife blade teeth for tearing, abnormally large jaws for crushing. Whatever the prey or however large it may be, there is little trouble in swallowing it. The mouth yawns like a cavern, and the stomach distends to hold a body even larger than the swallower. The appetite in fishes seems never wanting, and complete digestion with some of them is only a matter of half an hour." For this reason slaughter goes on unendingly. Usually it is produced only by hunger, but some monsters, like the bluefish, even when gorged, kill for pure love of killing.

Of the eternal warfare that goes on beneath the surface of the waves the same writer remarks: "They follow the prey like packs of wolves, and in turn are followed, band succeeding band increasing in size as they decrease in numbers. The herrings eat the smaller fish, even their own young; they are harried by the bluefishes until a trail of blood stains the water, while following the bluefishes come the insatiate porpoises. Nothing saves the weaker ones but breed. Many thousands of eggs are spawned that a dozen or more may be hatched and brought to maturity. Billions are lost; yes, but millions survive.

"The herrings move on the sea in uncountable numbers—in banks that are miles in length and width, in windrows so vast that they perhaps keep passing one given point in unbroken succession for months at a time. Just so with the menhaden. A catch in a purse net of 500,000 is not infrequent. Such numbers are sufficient to withstand all the ravages of the natural enemy. The bass, the haddock and the pollock may kill to their hearts' content, and still the menhaden will hold their own."—Chicago News.

The Old Great Eastern.

The last days of the Great Eastern were certainly sad, considering the purpose for which she was designed and the great work she did in cable laying. For some time before she was broken up on the mud of the river Mersey, near Liverpool, she was on view as a show ship. One firm of Liverpool clothiers hired her for a season, and in addition to using her for its advertising purposes made use of her for catchpenny shows. In the large cable tank a circus was fitted up and performances given at so much a head, while other exhibitions of the Coney Island type were spread all over her deck.

The Eastern Eye.

The eyes of the yellow people are not oblique, notwithstanding that they appear to be. The line adjoining the commissures of the eyelids divides the eye into two equal parts, and is exactly at right angles with the axis of the nose. It is not always so; the exception is much less frequent than in the whites, for, as a general rule, it is in the latter that the eyes are not at right angles with the axis of the nose.

When death, the great reconciler, has come, it is never our tenderness that we repent, but our severity.—George Eliot.

WE SELL

Crompton's and Bias Filled Corsets

In Styles Suitable for Any Figure.

Girdles, Military Fronts, Long Hips, High Busts, Nursing, Full Figure for stout women, Long Waists, Bias Filled for slender or stout figures, Ladies' and Children's Hygeian Waists, Infants' Bands, etc., in the many ranges of each style.

CORSETS

There is no article of woman's apparel that lends so much to her appearance as the corset. A good fitting corset that gives the figure a perfect fashion-contour is absolutely essential to a prepossessing form. Corset making of to-day is a science, and the innumerable shapes offered are calculated to remedy all defects in form, and enable women to attain a symmetrical shape so essential to a stylish figure.

Ask to see any of these lines, and remember, Crompton's Corsets are boned with non-rustable lining—surely an advantage.

Horse Clipping Machines

WE have a line of light and compactly built POWER CLIPPERS of special durability, suitable for small and large stables. Our 20th century is cheap and good. Our clippers work easier, clip faster and take a thicker coat, leave a finer finish, wear longer than any other on the market. We have the STEWART SHEEP SHEARING and a great labor saver. Call and see them at
