

## AMATEURS ACHIEVE BIG SUCCESS

**A Trip to Happyland Receives Signal Endorsation From Large Audience—Everything Swings Smoothly From Start to Finish—Laughter, Applause, Encores, Bouquets**

Happyland. The name itself is synonymous with pleasure and merry laughter. This may be a busy age, but for all that, there are, thank goodness, breathing spells. Jack is not a dull boy yet, and it is pleasing to note that when the citizens of New Westminster were invited to unbend the bow awhile and take a trip to Happyland last night, they responded gladly to the call and showed by their numbers and their evident appreciation, how greatly they enjoyed themselves.

This musical tomfoolery (to quote from the programme) was produced at the Opera House and will be repeated this evening under the direction of the author, J. W. Evans, and it is not out of place here to mention how skilfully he did his work. To train a large number of performers, especially amateurs, is no easy matter, calling as it does for infinite tact and patience, unceasing energy, and a keen eye for the smallest detail. Mr. Evans' task was doubtless rendered easier by the fact that all taking part down to the smallest child, took a keen interest in the parts assigned them and worked hard to make the piece the success it undoubtedly was.

The first scene opens at the railway station at Whisperton, a junction on the D. of B. (Dispenser of Blues) railroad, and begins with a chorus of students on college life which sets the piece going with a swing which is maintained throughout. "Afloat on a Five Dollar Note," by Miss Wells and chorus, and "Oh, What a Night to Scream," by Miss Alma Corbould and chorus, were both capitally rendered and were deservedly encored. Frank Davis as Senator Doolittle, both as an actor and by the way he rendered his "Stammering Sweetheart," is a distinct acquisition to the dramatic talent of this city. Especially charming was the song "Colleen Bawn" by Miss Homer and chorus of five ladies dressed as Irish colleens, all wearing the green. The argument between Judge Who-say (Gowan Macgowan) and Inspector Schultz (C. D. Peele) about the color of the station light, was very funny, as were the latter's questions to the school children and their replies.

Frank Bildeau as Little Willie, who is always in trouble, was very good. His song, "Mother's Got the Habit Now," with chorus of children, scored quite a hit. As a relief to the comic side, Miss Weart sang "I Love You for Yourself Alone," with much feeling and gained a well merited encore, besides being presented by a beautiful bouquet of pink carnations by a pleased admirer from the audience. "A Trip to Happyland," by Miss Lind and chorus, during which there is rollicking fun with the "Army," represented by W. R. Gordon, Heap Run, E. Mills, who is (apparently) uplifted skyward in the end, brings the first act to a close.

The rise of the curtain on Act II finds the whole party happily engaged in fun making in Happyland and Senator Doolittle giving away as presents to celebrate the occasion such trifles as silver mines, railroads, steamship lines, and, finally, a ham factory. He ends by engaging the whole party to join a theatrical company as a new and speedy method of getting rid of some of his superfluous millions, and they adjourn for rehearsal. There is more fun with Judge Who-say and Inspector Schultz, who ride in a—what was it?—an automobile? Mr. Mumford does a capital song and dance, with chorus, "Got to Dance Till the Band Gets Through." This is followed by a very pretty song by Miss Lewis and chorus, "On a Warm Summer Night." Harry Davis as Captain Frank sang "The Old Brigade" in splendid style, and as an encore "Priscilla." He has a musical and well trained voice and his rendering of both songs received the appreciation it so truly deserved. He also possesses marked dramatic talent, and was most popular with the audience throughout the play.

"Hearts to Let," a duet by Miss Lewis and A. Johnston, proved to be one of the most enjoyable pieces of the evening, and was loudly applauded by the audience. The acting of J. P. Bildeau as "General O'Which," a genial warrior, J. S. B. O'Brien as

"O. B. Joyful," a railroad maggot, and C. D. Peele, as "Inspector Schultz," contributed materially to the success of the evening, each going rough his part with an ease and freedom that was most convincing. The dance given by the "Mystic Phantoms of Phiz," scored a hit, the effect of the uncanny stage settings being wonderfully fitting. Indeed, the whole of the play was so well balanced that it was impossible to give the individual members the recognition each of them so well deserves for their successful effort in producing a play that was thoroughly appreciated by everyone who witnessed it.

Right from the beginning to the end the piece went with a swing, and great praise is due to all taking part. They may feel satisfied with the result of what must have been a labor, albeit one of love, for not only have they given the greatest pleasure to those who were privileged to see and hear them, but they have the additional satisfaction of knowing that they have by their efforts materially helped those deserving charities, the Anti-Tuberculosis Society and the Royal Columbian Hospital, in whose aid the play was given.

### SMITH'S SPLENDID SHOWING.

**Attractive Styles in Latest Creations In Millinery.**

T. H. Smith's grand millinery opening took place yesterday, and from the moment the new Columbia street store opened until closing time, a constant procession of ladies invaded the newest home of Dame Fashion. A staff of assistants was kept busy all day long answering questions concerning the prevailing modes, selling the very latest creations from Glasgow and Paris, and taking orders for particular clients. And, certainly, the lady who cannot suit herself at Smith's new store must be very hard to please indeed. Scores upon scores of dainty headwear that will soon grace the persons of New Westminster ladies are tentatively displayed in attractive assortments throughout the largest and most elegantly fitted store in New Westminster today.

The millinery department is under the charge of Miss McKenney, a lady who has had a wide experience in this particular department, and who understands the science of hats to a nicety. She is assisted by an efficient staff of milliners, who have their quarters in the rear of the store, where particular styles will be made up according to customer's fancies. But, with the varied and attractive assortment displayed by Mr. Smith, there appears to be little need of anyone desiring any other design than is exhibited in the store. Although there are hundreds of hats offered, there are scarcely two alike, it being the aim of this store to provide New Westminster's fair sex with hats that will not be easily copied by other ladies.

### EMBARGO IS RAISED.

**Freight May Now Be Shipped to Points East of Whitefish.**

"Freight embargo is lifted. Ship goods to all points East." The above brief telegram was received yesterday by F. C. Meyers, local agent for the G. N. R. company, the sender being superintendent W. S. Scott, of Everett. By the raising of the embargo, freight will once again be accepted for delivery to all points east, and the great inconvenience which shippers have been suffering for the past two months will be at an end. Since January 21, no freight has been accepted for points east of Whitefish, Montana, owing to the exceptionally severe winter which has been raging in eastern Montana and the Dakotas. Thousands of freight cars have been lying idle along the railway line, and serious conditions have resulted in many small towns, on account of the inability to secure necessary commodities. The eastward freight movement from Everett commenced yesterday, the freight cars which have left that city stretching out for miles along the line.

## TAXATION BILL IS CRITICIZED

**SOCIALISTS ARRAIGN THE GOVERNMENT—SPECIAL CLAUSES FOR SALMON CANNERIES.**

Parliamentary Press Gallery, Victoria, March 14.—Yesterday in the legislature was almost exclusively devoted to consideration of the contents of the taxation reduction bill, at the committee stage, trenchant criticism being offered in connection with several important features of the measure, and the government coming in for vigorous arraignment by the leader of the Socialists, who declared emphatically that there had been wilful breach of faith with the small farmers throughout the country. Incidentally the finance minister introduced the promised special clauses dealing with the taxation of salmon canneries, which were incorporated in the bill, in order that they might be printed in their proper place and then receive due consideration.—Hon. Mr. Taitow giving the assurance that these sections of the bill would be reconsidered at the next stage of the measure.

Shortly prior to the day's adjournment, the return of the writ for Atlin was announced by the clerk of the House—the deputy provincial secretary having accepted telegraphic notification from the returning officer—and Hon. Mr. Young was introduced to Mr. Speaker with the premier and finance minister as sponsors, taking his seat before the assembly rose at six o'clock.

### Funeral of C. W. S. Jagers.

The remains of the late C. W. S. Jagers, who on Saturday last succumbed to typhoid fever, were interred in Ross Bay cemetery, Victoria, on Wednesday. The funeral took place from the residence at 2:15 p.m. Services were later conducted in St. James' church by the pastor, Rev. J. H. S. Sweet and His Lordship the Bishop of Columbia. Rev. J. H. S. Sweet also officiated at the grave. The pallbearers were: Howard Cochrane, of New Westminster; George Windsor, of New Westminster; Kenneth P. Morrison, James McArthur, Darrell Vincent and Arthur D. Belyea of Victoria. The C. P. R. steamers in port all had their flags at half mast in respect to the deceased, and a number of the officers of the steamship company, in which deceased's father was in his lifetime also a popular officer, attended the funeral.

### Three Drowned in Ohio.

Zanesville, Ohio, March 14.—Three Hungarians were drowned here as the result of the flood this morning. A score of foreigners were living in a house that was surrounded by the Muskingum River, which overflowed during the night. When they started to wade to land three were caught in the current and swept out into the river.

Flood conditions throughout Muskingum County are unprecedented and growing worse hourly. The Muskingum and Licking rivers are out of bounds in this city. It is believed that 300 families will be homeless here by tomorrow.

## HILL-HARRIMAN CONTEST CLOSES

**LONG STANDING STRUGGLE BETWEEN RIVAL RAILWAY MAGNATES ENDED AT LAST.**

Portland, Ore., March 14.—The Oregonian says today that after a fight of a year and a half duration the Columbia Valley railroad, a Harriman subsidiary, has apparently given up the contest with the Portland and Seattle railroad, a Hill railroad, over the right-of-way down the north bank of the Columbia River, the only remaining vestige of the rivalry between the Hill and Harriman interests being an action pending in the Vancouver, Wash., land office. The Oregonian adds that the officers of the Columbia Valley road have scattered the construction gangs paid off and discharged the men and sold the construction materials. The contest is said to have cost the Harriman road \$300,000.

## GUN CLUB HOLDS BUSINESS MEETING

**OFFICERS FOR CURRENT YEAR ELECTED—PRIZES PROMISED BY SEVERAL MEMBERS.**

Last night's meeting of the Westminster Gun club was poorly attended, owing partly to the performance of the local amateurs at the Opera House. Notwithstanding the small attendance, the members present went into the business in hand with a vim that showed the keen interest taken in the welfare of the club.

At 8:30 the meeting was called to order, with Dr. T. B. Smith in the chair. The secretary, J. H. Vidal, stated that he was happy to report the most successful season for a number of years. The finances were in good shape, and the list of new members showed a decided increase, though he regretted to report the loss of several old timers. The club, he said, was at present in possession of 2,500 birds, and had ordered a new Leggett trap, and hoped that the same interest that had been taken in the past would mark the deliberations of the club during the coming year. The prize committee reported five prizes for the Good Friday shoot, and Mr. Vidal stated that he was in receipt of a silver spoon, to be awarded in the same contest.

Several communications were before the meeting, one in particular, relating to the matter of sending a delegate to the Victoria convention, to represent New Westminster, was discussed and was referred to the executive to act.

The \$10 donated by C. G. Major, to be distributed in prizes for 1906, was disposed of as follows: Capt. Garland, \$5.00, highest day's average, \$8.51%; Dr. F. P. Smith, highest season average \$2.75.

A joint donation of \$20, for the purpose of procuring a suitable trophy for 1907, was received from Messrs. Vidal and J. P. H. Bole. The club will decide at next meeting as to the manner in which the trophy will be contested for.

The highest number of rounds shot during the season was 1703 by Mr. Vidal, Capt. Garland coming second with a record of 1,050.

The treasurer's report ending March 14, 1907, read as follows: In hand, March 12, 1906, \$33.63; membership fees and dues, 1907, \$26.50; weekly and holiday shoot, \$390.69; total, \$450.73. Expenditure: Birds, \$175.00; Trappers, \$27.35; prizes, 174.70; repairs and sundries, \$42.29; total, \$419.25; balance in hand, \$31.48.

The officers for 1907 were elected as follows: Hon. president, C. G. Major; president, His Hon. W. Norman Bole; vice-president, H. B. Smith; secretary, J. H. Vidal, treasurer, Dr. Hacking; solicitor, J. P. H. Bole. Executive committee, Frank Reichenbach, Clancy MacLean, W. Wardwick, Alex. Turnbull, J. Eagles, Frank Trapp, B. Galbraith, J. Meyers; auditors, L. B. Lusby, J. Eagles.

George Cunningham reported that it was not probable that the Leggett trap would be here in time for the Good Friday shoot, as he had been obliged to order it from Cleveland, O. Votes of thanks were tendered to Secretary Vidal and Treasurer Hacking and the meeting adjourned to meet March 20.

### \$3,000,000 Mine.

Globe, Ariz., March 14.—The Inspiration mine here has been sold to the Lewisohn interests for approximately \$3,000,000, constituting the largest deal ever made in the Globe district. The General Development Company, Adolph Lewisohn president, and J. Parke Channing consulting engineer, is the purchaser. The cash consideration is \$1,500,000, and the stock consideration is \$1,700,000. The stockholders will ratify the deal at a meeting in Globe on April 8.

### Miners Stamped.

Victoria, March 14.—Steamship Tees, which arrived yesterday from Northern British Columbia, reports that a stampede of American mining men has been taking place in Ketchikan to Queen Charlotte Islands.

In the last few weeks a large number of mining locations have been made by arrivals from Ketchikan. They came to the islands by gasoline launches, returning after making their locations.

## RAGING WATERS SWEEP MANY TO DEATH

**Pittsburg Plants Are Paralyzed by Floods—Victims Now Number Fourteen—Street Cars Not Running—Water Rises Six Inches Every Hour—Damage, \$1,000,000.**

Pittsburg, March 14.—With business paralyzed, all the large industrial plants along the river closed, traffic between Pittsburg and Allegheny and on all the local railways almost at a standstill and with nearly 100,000 men temporarily idle, Pittsburg is suffering today from the worst flood in her history.

At 2 o'clock a stage of 33.3 feet was registered with the expectation that 34 feet would be reached late this afternoon. This will be the highest in seventy-five years. The water is rising at the rate of six inches an hour.

Fourteen deaths have been reported at a result, and already the loss from the closing of the mills and manufacturing plants and damage to property is estimated at more than a million dollars.

The flood reached Pennsylvania avenue and Sixth street in this city and all the Point district was inundated. The lowlands of Allegheny and the South Side were submerged. The residents of lower Allegheny were caught unawares. The greatest excitement prevails and scores of people were taken from their homes in skiffs. Street cars between Pittsburg and Allegheny were forced to stop running.

Every tributary along the upper ri-

ver is swollen and discharges from all sections of Western Pennsylvania report the smaller streams are beyond their banks and the surrounding districts submerged.

Warm heavy rains throughout the entire section for nearly two days, added to by the melting snow from the hills and mountains, caused all the streams to rise with alarming rapidity. Until an early hour today, however, a flood of unusual proportions was not expected and the rushing waters caught the people unprepared.

### Electric Sprinkler.

Victoria, March 14.—The B. C. Electric Railway company has now ready for operation the electric sprinkler ordered by the city council last year, and within the next few weeks it will be in use on the streets of the city. The car is arranged in the form of a large boiler on trucks fitted with high pressure pumps, making it possible to throw a good stream of water fully sixty feet. Although the car has not yet made its appearance it has gone through a test under the supervision of the officials of the company and has been proved to be a huge success. It is confidently expected that the dust nuisance will receive more attention this year than ever before.

## PROTESTANT PROTEST REACHES ROOSEVELT

**CATHOLIC CHURCH AND JEWISH SYNAGOGUES INCREASE IN GAY, GIDDY, GOTHAM.**

Washington, March 14.—The decline of religious interest in New York, particularly among working men, was the subject of a conference at the White House yesterday between the President and Dr. Walter Laidlaw, secretary, and Dr. Sage McDonald Mackey, representing the Federation of Churches of that city.

The visit was for the purpose of enlisting the President's aid toward arousing a greater interest in religion in New York and thereby effecting the establishment of additional churches. The President's visitors told him that the number of these edifices were disproportionate to the population. It was pointed out that there are less Protestant churches in New York than there were six years ago, although there are six more Catholic churches and eighteen more synagogues.

The President displayed deep interest in the matter and promised to aid the cause in every way possible.

### Keffer Heads Institute.

Toronto, March 14.—Frederick Keffer, of Greenwood, B. C., was elected president of the Canadian Mining institute today.

## YAKIMA CONSTABLES ARREST TRAIN CREW

**FREIGHT TRAIN BLOCKADES TRAFFIC—CONDUCTOR GIVES BAIL FOR APPEARANCE.**

North Yakima, March 14.—Chief of Police Miller, and one policeman yesterday arrested the crew of an extra east-bound freight train which blocked one of the principal street crossings in the city and held teams in waiting. The train was held up for several hours and traffic was blocked here pending instructions from Superintendent Beamer at Spokane.

By noon the matter had been temporarily adjusted and Conductor Jas. P. Aldrich, after giving a \$25 bond to appear for trial March 20, on a charge of violating a city ordinance, was permitted to proceed with his train. Complaints have been filed on other occasions, but this is the first time the matter has been carried to an issue.

## SALARY INCREASE IS VERY DOUBTFUL

**TRUSTEES DECIDE THAT MINOR CHANGES ONLY CAN BE MADE—TOO MANY EXPENSES.**

The school teachers will probably be disappointed at the outcome of last night's school board meeting. The trustees having gone into the salary question, came to the conclusion that apart from a few minor changes in the salaries, they could not see their way clear to make any general increase. This will doubtless come as an unpleasant surprise to the teachers, as several have been confidently figuring on an increase. The probable reason that there will be no increase in salary this year, is, that in view of the anticipated cost of the proposed new school building, the trustees are endeavoring to keep down expenses as much as possible. It appears to be generally understood that next year the question of increased salaries will be one of the first matters to receive the consideration of the board.

Owing to the absence of Trustees Peck and Peebles, a considerable amount of work was laid over until the next meeting. Those present were: Trustees Thornber, Trapp, and Curtis. The monthly accounts were gone into, and passed, the plans for the new school, which were to have been discussed, were laid over, as were a considerable number of minor matters. The business which was not settled last night, will be brought up at the next meeting of the board, which has been called for Thursday, March 21, in the old Tourist association room of the city hall.

### GASOLINE BOATS NUMEROUS.

**Many Fishermen Decide to Install Engines This Season.**

Inquiries along the waterfront show that a large percentage of the Fraser river fishermen have decided to install gasoline engines in their boats this season, and many boats are now being fitted up in order that they may be in readiness when the heavy run of fish commences. The men who are adopting the new style of motive power say that they will be able to make many more drifts with the gasoline boats than could possibly be done with the assistance of a boat puller, and the cost in the long run will be more than repaid by the increased catch of salmon. A gasoline engine of the type which will be generally used by the fishermen costs from \$300 to \$400 and will last for several seasons.

Drunkards Under Arrest Are Released on Condition That They Sign Pledge.

London, March 14.—The authorities at various places in England and Ireland are trying to adopt the plan used by Judge Pollard, of St. Louis, Mo., of discharging prisoners arrested for intoxication on their taking the pledge to abstain from drinking, and the National Independent Temperance Party is advocating legislation along this line.

In several places markedly good results have followed the application of the method. In one instance in Leicester a confirmed drunkard has become a "teetotaler" and has been reinstated in a position from which he had been discharged because of intemperance.

**AUSTRALIA FEARS JAPS.**  
Commonwealth Undertakes Vast Colonization Scheme.

Melbourne, March 14.—The agreement between the Commonwealth Government and the South Australian Government with regard to the annexation of the northern territory will have far-reaching results. It implies vast developments with regard to the settlement of the people on the land and for the irrigation of the interior and in the improvement of the defenses against a possible invasion by the Japanese. In addition, the construction of a transcontinental railway from Adelaide to Port Darwin will be undertaken nationally.

The signing of this agreement constitutes a turning point in Australian history. Lord Northcote will tour the northern territory in April in company with the Federal ministers.

**COFFEE KING SELLS.**  
Resents Government Order and Decides to Retire From Business.

Cheyenne, Wyo., March 14.—John Arbuckle, the New York coffee king, has ordered the manager of his big "P. O." ranch containing 55,000 acres, and lying north of this city, to sell the stock, which consists of \$125,000 worth of cattle and horses.

The sale is due to the recent action of the government in forcing Arbuckle to tear down forty-five miles of fences erected on government lands, and the absence of a land-leasing law. Arbuckle has no place to range his livestock. Arbuckle has been offered \$200,000 for the property.

**Japs Return to School.**

San Francisco, March 14.—The San Francisco board of education has adopted the resolutions agreed upon at their conference with President Roosevelt in Washington, rescinding their action in segregating Japanese pupils in the public schools. # Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

**COAL**—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

**QUARTZ**—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim of 1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode, or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at \$100 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a royalty of 2 1/2 per cent. of the sales of the products of the location.

**PLACER MINING**—Manitoba and the N. W. T., excepting the Yukon Territory: Placer mining claims generally are 100 feet square, entry fee \$5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the Rivers of Manitoba and the N. W. T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below any low water mark, and sub- for first year and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1000 to 200 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of the mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1000 feet in length, and if the party consists of two, 1500 feet altogether, on the output on which no royalty shall be charged the rest of the party ordinary claims only.

Entry fee \$10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the lode to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee can dredge to high-water mark on each alternative leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction thereof is sufficient. Rental, \$10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent. collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of 20 years; also renewable.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental \$100 per mile Yukon Territory to be paid to the comptroller.

The lessee's right is confined to the submerged bar or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and

paying fee of \$2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$300. A certificate that work has been abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

**Petroleum**—An unappropriated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of \$1 an acre, and the remainder of the tract reserved, namely, 1280 acres, will be sold at the rate of \$3 an acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY.

Deputy of the Minister of the Interior.

### SUCCULENT BIVALVES

### NOT BADLY DAMAGED

Oyster Beds at Anacortes Suffered But Little From Frosty Weather.

Anacortes, March 14.—Investigation shows that the oyster beds of Semilk Bay, not far from this city, were but slightly damaged by the freeze this winter. The bivalve is found in good condition, showing every sign of thrift.

The statement given out that a logging road now under construction down the Skagit Valley will terminate at Semilk Bay on Fidalgo Island, is causing some uneasiness among oystermen, but those most largely interested say the dumping of logs into the bay will not interfere with the oyster beds, as the log booms will be one-half mile away. The road in question is the English-Dempsey logging railway, which extends from the vicinity of Lyman to Mount Vernon and vicinity, but its destination is salt water, and the only available and feasible point is Anacortes or Semilk Bay, about three and one-half miles from the city.

### Fire Rages in Pittsburg.

Pittsburg, March 14.—A four-storey building in Second avenue, occupied by the Pennsylvania Door and Sash Co., and the Pennsylvania Paint and Glass Co. was destroyed by fire early today. An explosion in the cellar caused the collapse of the rear part of the front and one side wall. Several firemen had narrow escapes. The loss was \$125,000.

**THE DEADLY CIGARETTE.**

Mr. Kennedy touched the heart of the matter when, in a recent debate in the Dominion house, he declared that a better example and not legislation is necessary if the country is to combat the cigarette evil. Mr. Blaine's motion did good in calling attention to the enormous increase in the consumption of cigarettes. The number of cigarettes manufactured in Canada has increased from 85,994,400 in 1895 to 270,877,350 in 1906, and, making allowance for exports and imports, the approximate consumption in 1906 was 277,420,850.

This increase, however, has been in spite of many provincial laws which are apparently more honored in the breach than in the observance. Members upon both sides deplored the evil, but the House was not prepared to commit itself to any definite action. Sir Wilfrid Laurier agreed with the mover of the motion that the question was not one which should be relegated to the Sunday schools. It was a practical one and he was largely, but not altogether, in agreement with the view Mr. Blain had presented. If his information were correct the smoking of cigarettes was injurious to immature youths, as was any form of using tobacco, but absolutely innocuous to grown people. He would ask, therefore, if it were fair to ask the House to pass such a drastic resolution, which would deprive of their smoke those to whom the use of tobacco was not injurious. If he might express his own feelings there was nothing more offensive than to see a young boy of ten or twelve years of age with a cigarette in his mouth. That, he thought, should be a matter for police regulation and parental influence, and every possible means should be adopted to stop young boys smoking. The motion, however, went too far, and he did not think that such legislation would be beneficial, unsupported as it must be by a large section of the community.

Hon. Mr. Fisher deprecated hasty action but he was hardly warranted in his assertion that the influence of the home, school, and church had lessened in Canada in regard to bringing up their youth.

Though there may be homes when, as one member asserted amid laughter, more money is spent on raising a bull calf than on raising a baby boy, yet the influence of home, school, and church, has been the only check on the growth of the habit, and, if the remarks of the members are to be trusted, it will continue to be the only check for many a long day to come.

With a cabinet minister, Dr. Pyne, arranging for private interviews between Dr. Noble, ward healer, and Mr. Wilson, chairman of the license commissioners, with Dr. Beattie Nesbitt, as chief beneficiary, the Toronto License Law seems to be in the hands of the physicians. And if the revelations continue the Whitney Government will probably be sick enough to require their united services. Indications are that the retaining fees have been fat ones.

**Lord Charles Beresford.**  
Seattle, March 14.—Admiral Lord Charles Beresford, commander of Great Britain's channel fleet, is in Seattle today, having come here in the course of a trip from Mexico to Medicine Hat, Alberta. The visits to both places is in connection with the administration of the estate of his brother, Lord Delaval Beresford, who was killed in a railroad accident in North Dakota while on the way home to England to spend the Christmas holidays.

Admiral Beresford is in company with Orlando Hammond of New York, who is in charge of the estates left by Lord Delaval in Mexico, and is also Lord Beresford's man of business in America. Hammond stated this morning that the visit to Mexico was

**Salt-life in every grain—delicate, piquant—perfect crystals—absolutely pure—**  
**WINDSOR SALT.** 137

made to settle the vast estate left at Chihuahua by the dead brother, who lived in this country under the name of D. J. Beresford. He asserts that the estate was settled amicably and that there was no serious controversy with the negress, Flora Wolf, who after Delaval's death, claimed that she was his widow.

The Wolf woman is now living on one of the farms belonging to the estate and also received a sum of money from Delaval before he died. These gifts were made, it is asserted, to settle claims she made for having once nursed the dead man through an attack of yellow fever.

Admiral Beresford when questioned as to what action would be taken in regard to the woman, in case she persisted in her claims, was extremely reticent and would have little to say except to assert emphatically that there was not a word of truth in her assertion that she had been recognized as the common law wife of Delaval.

Admiral Beresford stated that as soon as he could settle the estate in Medicine Hat he would hurry to England, as he had been assigned to take command of the Channel fleet.

**WEAK EYES.**

**School Board Superintendent Suggests Giving Glasses Free.**

New York, March 14.—A school census just completed shows that there are 688,427 children attending schools in Greater New York, and that 953,485 persons between 4 and 18 years, the school age live here. The number of foreign born children enrolled is 113,740, more than 18 per cent of the entire registration of the schools.

Probably the most startling thing in the report is the statement that out of 58,948 children whose eyes were tested, 17,928 were suffering from defective sight. Supt. Maxwell, head of the school board, recommends that the city supply glasses to poor children who cannot afford to purchase them.

**Negro Candidate.**

Kansas City, March 14.—Joshua W. Voorhees, a negro, filed a petition signed by 678 members of his race, with the city clerk in Kansas City, Kan., yesterday, asking that his name be placed upon the ballot for mayor on the independent ticket to be voted for at the coming municipal election.

Voorhees was born a slave in Nashville just before the close of the Civil War. He has been a member of the police force and a deputy street commissioner, and now is in business for himself.

"Do you expect to win?" was asked of him.

"Sure I do. Wouldn't have entered the race if I had not. No man ever lost yet that I backed for office. I can push myself in the same way."

**Strikebreakers Run Cars.**

Louisville, Ky., March 14.—The fifth day of the street railway strike showed some improvement over yesterday's meagre service. About forty cars ran this morning. All were manned by imported strike breakers.

The cars were screened with heavy wire netting to prevent motormen and conductors from being struck by the missiles of the strikers. Automobiles and wagons continued to carry most of the passengers.

Police Captain Riley was ordered today to put six of his men on a car leaving the East Broadway barns, but refused, telling Chief Gunther over the telephone that the strike breakers aboard the cars were thieves and thugs and all were armed. He was thereupon suspended and his men assigned to other districts.

**Hotel Trust.**

New York, March 14.—To save profit that now goes to the middleman, proprietors of large hotels and restaurants of this city are considering the organization of a co-operative corporation which will deal in all kinds of hotel and restaurant supplies. Aaron Bodenweisen, of Montreal, has been in this city for two weeks interesting them in the plan, and it is expected that a company with \$10,000,000 capital will be organized. Stock in this corporation will be sold only to proprietors of hotels and restaurants.

Milan, March 14.—In the town of Borsano near this city, 2,000 persons have been made homeless by a fire which destroyed the greater part of the village. The people were indifferent to the spread of the flames because their property was insured and the authorities were obliged to force peasants to work to check the fire.

**BUTTE BATTLE IS FAR FROM SETTLED**

**PRINTERS AND PUBLISHERS CAN NOT COME TO TERMS—NEWSPAPERS NO LONGER APPEAR.**

Butte, Mont., March 14.—Local members of the International Typographical Union voted down the proposition of the Butte and Anaconda newspaper publishers that the compositors return to work at last year's scale, which would mean a reduction of 50 cents a man a day.

When the pressmen struck, one month ago last night, the printers were necessarily locked out. Later, the pressmen were willing to arbitrate, but the publishers demanded that the printers accept the scale of 1906, which the latter refused to do. After two weeks of delay the printers decided to arbitrate but the publishers' demand was renewed and the question was finally disposed of last night.

This action leaves the newspaper situation where it was 30 days ago with no immediate prospect for a resumption of daily paper service.

**Herring is Lost.**

The recent wreck of the Great Northern's mammoth steamer, the Dakota, the finest boat on the Pacific, had a great deal of interest for certain residents of Nanaimo. On the steamer were two thousand tons of herring, or 9,000 cases in all, making about one-fourth of the total catch of herring made at Nanaimo last year.

**FISHERMEN COMPLAIN.**

**Adequate Landing Stages Desired at Street Ends.**

Although the fishing season is now formally open, there has been nothing done towards the bettering of the approaches to the river's edge at the street ends, and the fishermen are loud in their complaints. One of them, Mr. Falk, called at the News office yesterday, on behalf of a number of his fellow workers, and pointed out that the present landing stages were in a deplorable condition, and that, as far as he could see, nothing was being done to remedy this state of affairs. Mr. Falk specially mentioned three things which the fishermen were agitating for: Firstly, the placing of floats at the street ends at present used by the fishermen; secondly, the keeping of the street ends clear of scows, etc., and thirdly, the erecting of a derrick at the foot of Sixth street. This derrick is needed for the purpose of lowering heavy loads on the boats, and would be found most useful this season, in view of the number of gasoline boats which will be in use. The float at the end of Eighth street, Mr. Falk remarked, was much too small, besides being often inaccessible.

The fishermen also ask that slips should be constructed in such a manner that they will be safe to walk upon, and that they be not allowed to

become covered with grease and dirt, rendering it a difficult task to keep one's balance while going to and from the boats. Slips are wanted at the market wharf, at the foot of Sixth and Eighth streets, and at the Royal City landing stage. A petition is now being signed and will be presented to the city council shortly.

## THE FORMAL OPENING

OF THE

### Exclusive Millinery Store

.. 271 Columbia Street ..

IS ANNOUNCED FOR

FRIDAY AND SATURDAY,

March 15 and 16.

.. .. You are hereby extended a cordial invitation to attend .. ..

#### WE'RE STILL IMPROVING

When we open our new Millinery Store, next door to our present quarters, we will have enlarged our premises four times.

During the past five and a half years we have advanced by rapid strides, adding improvement to improvement and betterment to betterment, until now it requires no rose colored glasses to make people believe this is the best store in town.

One year ago we made alterations allowing additional space for dressmaking and alteration departments. Now we are adding another store to our already large quarters.

This new store, which is next door to the old one, will be connected by archways, and will be devoted exclusively to millinery and children's headwear.

The services of one of the best milliners on the coast have been secured and she will have entire charge of the new store.

We appreciate your custom and have gone to considerable expense and pains to make this store the best equipped one in the province. Come to our opening and see if this is not so.

We import genuine Parisian pattern hats as well as New York patterns, and get up artistic creations to your order in our own work room. Much latitude is allowed this year in the matter of color, light

shades, of course, leading, especially greyish blues, electric blue, champagnes, wine shades, lavenders, coral pinks, greys, brown s and castor shades. Hats this spring are set at all angles and this is one of the secrets of the wide variety seen, for the poise of the hat makes a wide difference in the appearance of the shape.

Plumes are in vogue to a certain extent this season, especially ostrich, vulture, paradise and marabout. Many of the smartest hats this spring are of the "Mushroom" style, while others are toques, turbans, etc.

#### About the New Dress Goods

The wide variety, that is the prominent feature in the trade at the present time, extends also to the dress department, and it is just a little difficult to say what is the leading color.

The demand is for novelty, and there never was a season when the range of materials and colors selling was so big. Blacks are selling freely at present followed by browns, greens, blues and reds, while nearly all the mixed colors are light. White and black checks, creamy, grey and fawn shaded plaids, tweeds, worsteds and hopsackings all are having due prominence.

#### About the New Garments

What is said of the piece goods may be applied practically without any change to all kinds of garments, unless that the majority of suits being sold are of light colored tweed.

Fancy Bolero and Eton jackets are prominent in the coat suits, while all lengths are shown in the separate coats. Many of the skirts are pleated; some of them having knife pleats, while others have knee pleats and panels.

The new blouses have many innovations and are prettily made with eyelet embroidery, valenciennne lace and insertion.

#### About the New Accessories

Our stock of Valenciennes and Maline laces and insertions now include more than three hundred patterns. Needless to say we expect a good season.

Wash collars, chiffon collars, lace collars, gold, silver, steel, elastic, silk and leather belts, beads buckles, fancy pins, combs, handkerchiefs, lace ties, fancy silk lisle, cashmere and cotton hosiery, suspenders.

#### About the New Wash Goods

This is to be a white season, so say the leading fashion journals; a season in which white will be very prominent. White in fancy weaves, stripes, dots, etc., white with colored flowers, white with black and colored checks.

We have nearly as much white this season as we had in all colors combined last season, besides many beautiful conceptions in cotton voiles, flowered; French organdies, flowered; Dimities, flowered; chambrays, plain and embroidered; gingham, checked, striped and embroidered; also black lawns, mersildas and organdies.

## The Daily Details

For cut flowers, bridal bouquets and funeral designs, phone Tidy, the Florist, A184.

Only two more men are now needed to complete the crew of the Chelmsford, and Capt. Watt is in hopes that he will be able to weigh the anchor by Saturday or Sunday at the latest. The crew comprises twenty-eight men.

Mrs. J. H. Diamond will sing that typical Irish song "The Kerry Dance," at the Irishman's concert.

Replying to an invitation tendered them by Mayor Keary, the Grand Lodge of the A. O. U. W., which is at present holding sessions in Victoria yesterday telegraphed announcing that a decision to hold their next session arrived at.

The scarcity of potatoes has made the price of that necessary product soar upwards and farmers who are lucky enough to have a supply on hand, are taking advantage of the rise. Over 800 sacks were shipped from Chilliwack this week consigned to Vancouver and Victoria firms.

Messrs. Davis, Gurney and Bildeau will contribute melody to the Irish concert on St. Patrick's Day.

Charles Munroe, a logger who arrived in New Westminster after an absence from city life for some months, on Wednesday afternoon was unfortunate enough to sustain a serious fall during the evening. A dislocated shoulder will keep the unfortunate man from returning to his camp for some time.

A telephone call from Magistrate Corbould's house brought the boys from No. 2 fire hall out on the run, yesterday afternoon. One of the flues from the furnace had become overheated, and being in close proximity to a wooden joist, had started a blaze. With the aid of an extinguisher, the blaze was quickly subdued.

His Worship Mayor Keary will render "Father O'Flynn," and Mr. Roche will recite "Shandon Bells" at the entertainment on March 18.

The death of Mrs. Mary Jane Blair, aged seventy-six years, took place at the residence of her daughter, Mrs. C. Keir, 1176 Howe street, Vancouver. The deceased leaves two daughters and four sons. The funeral will be held from the above address this morning at 9:30. The interment will take place at Sapperton cemetery, New Westminster, at 12 o'clock. The Reverend Mr. Morden will officiate.

Commencing on Monday next, Ald. J. J. Johnston will enter upon his new duties as manager of the insurance department of the firm of F. J. Hart and company. When Ald Johnston resigned from the position of assistant assessor, he intended to embark into the real estate business on his own account, but he has reconsidered his plans, and decided to devote all his energies to developing the insurance business.

C. Hodd made his ninth appearance yesterday morning before the throne of Justice. Hood has just completed a term of 15 days in the provincial jail, and evidently was celebrating his return to freedom, when the arm of the law gathered him in. His Worship taking pity on the penitent(?) aspect of Mr. Hood, suffered him to depart with some sound advice. Two other erring ones enriched the treasury to the tune of \$2.50, and costs.

For cut hyacinths, carnations and funeral designs, telephone T. Davies & Son, florists. Tel., B298.

Up to the present no one has appeared in person to complain of the assessment at the city hall, although a few complaints have been received by letter. As far as can be learned, the majority of the people are satisfied with the assessment as it is at present, and have no desire to see any change. In the opinion of many, property has not been assessed at its proper value for years past, and a change will most likely be made next year.

Two Hindus, fully armed with wood horse and buck saw, invaded the wood shed of a west end resident yesterday afternoon, and vigorously attacked the cord-wood pile. The lady of the house informed the Asiatics that she was not in need of any assistance in that line, but the foreigners persisted in their efforts. It was only after threatening to call a constable, that the workers decided to quit work, and, gathering up their tools, vanished up the street.

"If there is any place better than heaven, it is New Westminster and district," is the terse way in which George A. Dominey, a well-to-do resident of Red Deer, Alta., expresses his satisfaction with the climate and surroundings of this city. Mr. Dominey paid New Westminster a visit a short time ago, and was so impressed with the climate and future of this place that he decided that he would never again spend a winter in "Sunny Alberta." He intends to sell out his property around Red Deer within a short time, and remove to the coast.

Scotchmen are invited to hear Mr. Cameron, of Darcy's orchestra, play Irish melodies, and see Messrs. Matthews and Henderson dance a jig next Monday. Reserved seats, 50c, now on sale at Ryall's drug store.

At the National Sports club, Vancouver, this evening, Arthur Wise, of New Westminster, and John Taylor, of Vancouver, will wrestle for the intercity championship. Both lads are in good training, and a hard tussle is anticipated before the result is decided. Wise has been training at No. 1 fire hall for the past two weeks, and is in splendid condition. The match is for a \$200 purse, but in addition to this, there are numerous side bets, and a considerable amount of money will change hands after the referee announces his decision this evening. Wise has won every contest in which he has entered this season, and he will make every effort to maintain his record.

The residents of Sapperton are again making a bold bid for the building of a park in that flourishing suburb of New Westminster, and with this end in view, a meeting has been called for this evening in the fire hall Sapperton, where the matter will be discussed at length by various speakers. The Sapperton people have often been promised that the park will be laid out, but as time goes on, and nothing is done, they are getting tired of promises, and have decided to act. What the outcome of the meeting will be is a matter of conjecture, but a strong appeal will most likely be sent to the city council asking that body to take steps towards the clearing of the land set apart for the park.

Miss Weart will sing "Killarney," and Miss Lewis will render "Tipperary," at the St. Patrick's Day concert.

The expenditure of the New Westminster Benevolent Society for the last month was the heaviest for some considerable time past, the treasurer reporting at the monthly meeting held yesterday afternoon that the sum of \$100.30 had been expended since the last meeting. There still remains a balance in the bank of \$49.32, to the credit of the society. A considerable amount of routine business was transacted at the meeting, which was better attended than usual, there being present Mrs. Hill, vice-president, in the chair; Mrs. Tupper, treasurer; W. A. Duncan, secretary; and Mesdames Pearce, Cameron, Sampson, Feeney, Collister, Siewwright, Johnston and Welsh. During the past month, two needy families have been assisted, and the society is assisting one family at the present time.

### THE INDISPENSABLE MAN.

An Event That Moved Him to Take a Trip to Europe.

He was one of those men who believe that if they let up for a moment the whole world will go to smash. Especially was this so about his own business. When his wife wanted him to go to Europe for a rest he said:

"Impossible to get away from the office. Why, if I were to stay away six weeks there's no telling what would happen. No, I must be there all the time."

So they didn't go to Europe. Instead he got sick, good and sick, too, the kind of sick that kept him on his back for nearly a month and didn't let him get back to his desk for still another week.

The day came for his return to business, and he plunged for the office. All the way downtown his mind danced with the visions of the wreck of business that would greet him. He expected to find the staff demoralized, the business gone to pieces, the cobwebs thick on the order books and an air of gloom hanging over all which could be dispelled only by his triumphant entrance. He fancied himself picking the business out of the mire and putting it on its feet again.

But did he? Not quite. He entered the office. The boy was there and looked up at him as though wondering if the boss were not a little bit late. The cat rubbed against him as she always did. His desk was opened as usual, and on it was no pile of mail, the accumulation of all these weeks. The clerks were at their places as usual. In fact, nothing was apparent of the awful disaster that he had expected; hardly any one seemed to know that he had been away.

He stopped for a moment, breathless, and then managed to call one of his men to him and ask about something. The man began to tell him what had been going on. They had been transacting business just as though he had been there—answering mail, filling orders, taking reports from traveling men and sending them out again—in short, the little particular world of his business had gone on just as though he had been there all the time.

He heaved a sigh—a sigh of humility. In fifteen minutes he had telephoned his wife to make plans for a European trip, and that he would accompany her. Thus do matters make us see how small we are.—New York World.

### SENTENCE SERMONS.

No one is defeated until he gives up. Hard times has a good many relatives. It is the twin brother of the blues.

That man has failed who has not been able to keep a good opinion of himself.

Self control will succeed where self indulgence will fail with ten.

What the superior man seeks is in himself. What the small man seeks is in others.

There is no disgrace in unpreventable poverty. The disgrace is in not doing our level best to better our condition.

Poverty itself is not so bad as the poverty thought. It is the conviction that we are poor and must remain so that is fatal.

Confidence is the Napoleon in the mental army. It daubles and trebles the power of all the other faculties. The whole mental army waits until confidence leads the way.—Success.

### The Hazel Tree.

A curious survival of the days when the magicians of Europe sought fate for the philosopher's stone is the superstition that attaches to the hazel tree. The old alchemists used to make their divining rods out of hazel twigs, and they fostered the belief that it would mysteriously direct its owner to hidden treasures, if it was manipulated with the absolute faith that was required in all those occult enchantments of the middle ages. As time went on, the "rod of Jacob," a branch of hazel was universally known, gathered new powers. Not only would it lead to the discovery of buried hoards, but it would also act as an infallible agent in locating runaway servants and escaped criminals. It was a sure guide to underground springs as well, and was an unfailing charm against the lightning.

### Curious French Market.

There is a curious old market near Paris in which everything is sold at secondhand. Working girls can find themselves out there from head to foot. As a writer says: Mimi can sell her old felt hat and buy a straw one; exchange her old dress for a new one; and, if she likes, buy a steak and a salad for her dinner, a paper bag of fried potatoes, sweets and some flowers for her window. Democracy is king here, and no more attention is paid to the millionaire who is looking for something marvelous which he may pick up cheap than to the man with a wooden leg who wants a new boot in exchange for a dozen sardine tins, five gloves and a stocking.

### Can't Stand by Themselves.

A great many plants are not strong enough to stand upright by themselves, and as they cannot get enough sun if they lie on the ground they are obliged to clamber up their neighbors.

Look in the garden and see if you can find a climbing plant, such as a honeysuckle or convolvulus, twisted tightly around a stick to keep it in an upright position. Doesn't it hold on firmly? If you pull it off you will probably break the poor thing off, and it will die.

### TIMBER NOTICES.

NOTICE IS HEREBY GIVEN that 30 days after date, we intend to apply to the Honorable the Chief Commissioner of Lands and Works for a special license to carry away timber from the following described lands in the Coast District:

No. 1. Commencing at a stake planted on shore of Tsi Bas Lagoon, near N. W. Cor. T. H. 6829, thence north 50 chains, east 128 chains, south 50 chains, west 128 chains to point of commencement.

### LAND REGISTRY ACT.

TAKE NOTICE that application has been made to register Edgar L. Webber as the owner in Fee Simple, under a Tax Sale Deed from the Reeve and Clerk of Surrey, to Edgar L. Webber, bearing the date 5th day of January, A.D. 1901, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as Lots 1 and 2 of Block 10, subdivision of South East quarter Section 10, Township 1.

You and each of you are required to contest the claim of the tax purchaser within thirty days from the date of the first publication of this notice, otherwise I shall register Edgar L. Webber, as owner thereof in fee. And I hereby order that publication of this notice for fifteen days in a daily newspaper published at New Westminster will be good and sufficient service thereof.

DATED at the Land Registry Office, New Westminster, Province of British Columbia, this 17th day of January, A.D. 1907.

### C. S. KEITH.

District Registrar.

To Thomas Jeffries, Esq.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

TAKE NOTICE that an application has been made to register James Lord as the owner in Fee Simple, under a Tax Sale Deed from the Mayor and Treasurer of the City of New Westminster, to Patrick T. Bowler, bearing date the 18th day of August, A.D. 1902, of all and singular that certain parcel or tract of land and premises situate, lying and being in the City of New Westminster, in the Province of British Columbia, more particularly known and described as Lots 10 and 11, Block "D" St. Patrick's Square.

You and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice, otherwise I shall register James Lord as owner thereof in fee. And I hereby certify that publication of this notice for thirty days in a daily newspaper published at New Westminster will be good and sufficient service thereof.

DATED at the Land Registry Office, New Westminster, Province of British Columbia, this 1st day of February, A.D. 1907.

### C. S. KEITH.

District Registrar.

To Henry Elliott, Esq.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

## SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

### W. W. CORY.

Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

### LAND PURCHASE NOTICE.

## DETERMINING LEVELS.

Method by Which Every Man May Be His Own Surveyor.

A simple way of roughly determining levels, and one which can readily be practiced by any one and which has the advantage of not requiring any special apparatus, is by means of a spirit level and a board with a straight edge. The way to go about it is this: First determine on two points the levels of which you wish to know and drive stakes into the ground. Then take a board with a straight edge and tack it to a tree, if one happens to be available, in a line with these two stakes. Put the board at such a height that you can readily sight over it and carefully level this board by means of the spirit level. Then sight it over toward one of the stakes, having some one at that stake who will, by means of a small piece of paper, locate the point at which your line of vision cuts it—in other words, where a line projected from your sighting board would strike the stake. Make some sort of mark at this point and then sight to the other stake in the same way and mark the point where the line would strike it. By measuring distances that these two points are above the ground you can get the difference in levels with reasonable accuracy. For instance, if your line of vision has cut one stake eight feet from the ground and the other one five feet from the ground, then obviously the difference in level is three feet, or, in other words, the vicinity of the stake on which the mark is five feet from the ground is three feet higher than the other stake, and you will have a three foot fall from draining from this point to the other.—Farming.

## THE ELOQUENT NUDGE.

An Incident Illustrating a Trait in Woman's Nature.

"Do you see the woman walking in front of us there?" asked the man with the fashionable tie to the friend who was strolling up Broadway with him. "Do you notice anything particularly striking about her? Nothing, except that she is very well dressed? That's what I would say. Now, I'll bet you half a dollar that when she passes the three women walking just ahead of her all three will nudge each other simultaneously."

The woman behind was walking faster than the three in front and she soon passed them. The three women looked her over from foot to head, then nudged each other with their elbows as if possessed with the same thought.

"How did you know it?" inquired the friend as the other pocketed the half dollar.

"I didn't know it," was the reply. "If I had it would have been taking an unfair advantage of you to bet. But I was reasonably certain of it. There is a certain indescribable something in some women's manner, appearance and carriage that causes all other women to nudge each other at sight of her. I couldn't tell you just what it is, but I'm ready to put up a wager on it every time. The nudge is simply a part of women's sign language which means something that cannot be put into words, but which every other woman understands."—New York Press.

## The Word "Crank."

Crank in the sense of an eccentric person is a new word. The very first written instance of crank in the modern sense that could be found for Dr. Murray's dictionary was in the reports of the trial of Guiteau, President Garfield's murderer. Guiteau's reference to somebody as a crank gave the word a vogue that has gone on spreading. But the adjective cranky was known in 1787 as meaning sickly (the German "krank"), and to Dickens in the senses of cross and crochety. In all its meanings it springs from the root idea of crookedness, as does crank in its sixteenth century sense of a deceitful trick, as in "quips and cranks."

## The History of Tacitus.

The entire history of Tacitus, as we have the work, was regained from a single copy found in the fifteenth century in a monastery of Westphalia. That we should owe the works of this author to one copy is a remarkable circumstance, for the Emperor Tacitus, who claimed to be a descendant of the historian, had copies of the history placed in every library of the empire and each year had ten copies transcribed for presentation to scholars. All, it seems, perished, save the Westphalian copy.

## The Great Difficulty.

"One-half of the world's happiness is solved when a person learns to mind his own business." "Yes, but it's the other half that causes the most trouble." "What's that?" "Getting other people to mind theirs."—Home Notes.

## No Kick Coming.

Mrs. Jones—Do you appreciate what that is you are eating? Tramp (with his mouth full)—No! Mrs. Jones—Well, that is angel cake with wine jelly and whipped cream. Tramp—Oh, well, anything tastes good when a fellow's hungry, mum!—New York Press.

## How He Knew It.

Fair Passenger—They say you can't fool a street car conductor with a plugged nickel, but I worked one off on him a few minutes ago. The Other Passenger—I know it, madam. He gave it to me in change just now.—Chicago Tribune.

**Sons of Scotland Entertainment.**

Active preparations are being made for the entertainment to be given by the Sons of Scotland on Tuesday of next week, when an elaborate programme will be rendered by well known amateurs. The entertainment will be held in the Knights of Pythias' hall and will commence at eight o'clock. The vocal and musical programme is as follows: Mr. Campbell, violin selection; Duncan McRae, pipe music; Mr. and Mrs. Stevenson, duet; —, bass solo; G. Sutherland, recitation; A. Innes, song; J. Forrester, reading; I. Muirhead, song; Mr. Knight, song; Miss McNiven, song; Mr. Ross, song; J. N. Aitchison, Gaelic song; J. McNiven, song. At this stage the presentation of jewels to past grand masters will be proceeded with, to be followed by the discussing of a light repast, which will be provided by the members. After the good things have been duly disposed of, the evening will be brought to a close by a musical selection by Peter Peebles, junior.

**The Show Me Girl.**

A plain story of a plain people plainly told is the real heart of literature and a play founded upon such a subject must, of necessity, contain the heart interest that is the desideratum of the playwright.

Mr. Fred Raymond has embodied in his beautiful home story of The Missouri Girl that essential element, and an evening spent at the theatre witnessing this play is as beneficial as it is entertaining. It is a true story of the simple people who inhabit that region of Missouri where the Ozark Mountains rear their wooded heads. It is most naturally told and each act of the play is generously equipped with all the special scenery that can be utilized. This play will be seen at the Opera House on Monday, March 18.

**Correct Styles  
in  
Ladies' Suits**

A woman's Suit or Dress is scanned most critically by the people she meets.

A new shipment of Spring Suits opened out this week,

and an examination will reveal to any person that the proper style is the first consideration.

Material and workmanship add all that is to be desired in an up-to-date costume. Among the new showing are:

Black Venetian and Broadcloth Suits, each..... \$16.50, \$18, \$25  
Navy Brown and Green Broadcloth Suits, each \$18.50, \$25 and \$27  
Grey Tweed Suits, each..... \$18, \$20, \$21.50, \$24 and \$25  
Cream Serge Costumes, each..... \$27.50  
Cardinal and Navy Repp Cloth Suits. A distinctive costume of great beauty in finish and style, each..... \$22

A new lot of skirts showing this week.
