SCIENTISTS EXPLORE ALEUTIAN ISLANDS

Expenses of Party, Amounting to About $100,000 Paid by Russian Millionaire.

Victoria, July 16.—An expedition similar to those early exploratory voyages to Alaska financed by the rich Russian merchant expeditions which resulted in the discovery of the resources of Alaska and the foundation of Russian colonies there, has reached Attu, in the Aleutian islands, according to advices by mail received yesterday from Dutch Harbor. A letter from Unalaska tells of the arrival of a schooner carrying one of the best equipped scientific expeditions that has worked in the North Pacific.

The schooner, which set out from Vladivostock in April last and has visited Kamchatka and the Kurile islands, carries eighteen scientists, whose expenses of nearly $100,000 are being paid by M. Riabushinsky, a millionaire merchant of Moscow. The expedition contains a celebrated Russian ethnographist, who is making a special study of the natives of Kamchatka and of the Aleutians and Kurile islands. There is also a meteorologist, who established three stations in Kamchatka and who proposes to establish others in the Aleutian group. There are also expert botanists, geographers, zoologists and geologists.

PORTLAND PHYSICIAN DISCOVERS NEW DISEASE

Nervous Breakdowns Often Caused by Presence of Great Quantities of Oxalic Acid.

New York, July 16.—That he has discovered a new disease of the nerves which he terms "oxaluria" before the recent international medical congress at Vienna, is stated by Dr. Gustav Baar, of Portland, Ore. Dr. Baar, with his daughter Beatrice, arrived on the Kaiser Wilhelm II. The physician was one of the representatives sent from this country to attend the biennial meeting of medical men.

"I have determined that in many cases the breaking down of the nerves is often caused by the presence of large quantities of oxalic acid in the system," said Dr. Baar. "This disease I have named oxaluria, and before the congress I read a treatise on my discoveries and recommendations as to proper treatment.

"For one thing, I believe that the so-called 'rest cure' will soon be a thing of the past as a treatment for nervous exhaustion. On the contrary, a stimulation of the muscular energies is needed and the patient would more immediately be benefited and ultimately cured."

FIRST OPEN AIR CONCERT IS LARGELY ATTENDED

After somewhat lengthy negotiations the civic band concert were at length commenced last evening at Albert Crescent. There was a large crowd present, and a sea of faces confronted the musicians from the bandstand. J. W. Rushton, the conductor, had about sixteen instruments under his control, and musically there was nothing to complain of, but unfortunately the boys present fail to realize that if the musicians are to be heard properly, quiet is as necessary as in a concert hall.

Mr. Rushton is determined to give the citizens good musical fare, and is assured of their support in this laudable endeavor. W. Morris sang "School Days" very effectively. All the other items were band pieces. They included Mabel McKinley's "Golden Rod"; a selection of national airs; a German excerpt, "Almer Weider," and a capitally played march, "Dance of the Honeybells," and "Cornsel" were two other selections.

Longboat Meets With Accident.

London, July 16.—Longboat, in trying to avoid a country cart, has met with an accident as a result of which his training has had to be discontinued.

ARBITRATORS TO ASSESS COMPENSATION DAMAGES

Right of Way for Eburne and Westminster Line Leads Through Private Properties.

An important arbitration occupied the whole day at the assize court yesterday, and will be continued today. The appelants are the Canadian Pacific, as owners of the franchise of the Vancouver and Lulu Island railway, and the respondents are owners seeking compensation for dispossession, James Campbell Bassett and Sarah L. Howay, of New Westminster, and Joseph Johnson, of Victoria. Arbitrators were selected in accordance with an order in chambers made by Mr. Justice Martin, F. J. Coulthard for the company, F. J. Hart for the owners, and Charles W. Craig, barrister, of Vancouver, as independent arbitrator.

Mr. Craig presided, and counsel engaged for the respective interests were J. E. McMullen, and W. E. Burns. A considerable amount of evidence was called to obtain an estimate of land in the vicinity of that in question, and plans of the city going back to the days of the Royal Engineers survey made by Col. Moody, were put in. No figures were stated of the values asked or offered. Several more witnesses will be called today. The arbitrators have till Sept. 1 to announce their awards.

ENGLISH PATENT LAW HITS AMERICANS HARD

Articles Protected by Law Must Be Manufactured in Great Britain in Future.

London, July 16.—It is estimated in a semi-official statement made public today that there has already been paid more than $150,000,000 into the treasury of Great Britain by American and German manufacturers because of the operation of the new patent laws.

On August 1 a large number of additional foreign patents are certain to be revoked. The new patent law makes it compulsory that patented goods must be manufactured on British soil.

DEATH OF WILLIAM ROBERTSON.

Information was received here yesterday evening of the death of William Robertson, eldest son of W. Robertson, of 318 Third avenue, at Royal Jubilee hospital, Victoria, where he had been under treatment for the past two weeks. Deceased had been suffering from hemorrhages, and had submitted to two operations in the hope of obtaining relief. For a time he seemed to improve, but a relapse early yesterday morning showed that there was but little hope of his recovery.

The late Mr. Robertson had taken part in the South African campaign, having been one of the first to volunteer for service in the contingent sent out from this city. His health had been undermined during the time he spent on the South African veldt, and he never fully recovered from a severe attack of fever contracted after a long period of exposure in the Transvaal.

Deceased is survived by his father and mother, a brother, Aleck, and two sisters, Mrs. T. Gifford, jr., who is now at Caledonia Springs with the Westminster lacrosse team, and Miss Mazie Robertson, of the city hall staff.

The body will be brought here today for interment. The date of the funeral has not yet been fixed.

MUST SELL ALL OPIUM WITHIN THREE MONTHS

Ottawa, July 16.—In the senate this afternoon Hon. Mr. Scott announced that the government has considered the application of Chinese merchants for six months in which to dispose of their opium stocks before the Anti-Opium bill went into effect. He said the government would not grant more than three months as announced.

Trades and Labor Council Meeting.

A meeting of the Trades and Labor council of this city will be held at the usual time and place this evening.

IMPROVEMENT TO CHANNEL IS SUBJECT OF EAGER DESIRE

Board of Trade Anxious to Learn How Soon Work Will Be Begun on River—Road to Bon Accord Well Under Way—Banquet Paid Expenses.

A meeting of the board of trade was held last evening at the City hall, J. A. Cunningham, president, in the chair. There were no communications.

Postal Improvements.

E. Goulet, on behalf of the postal committee, reported that the J. C. Bruce would carry mails to Steveston, and all lower river points. An official would visit the city shortly with reference to mail collections in the city.

This announcement was received with satisfaction, D. S. Curtis remarking that the members of the board would do all they could to support Capt. Bruce, and the board resolved to write to the captain stating that it endorsed the proposition to put the boat on the lower run of the river.

Dredge and Harrison Rapids.

W. R. Gilley reported that the King Edward dredge could not work at Harrison rapids, as there were too many boulders. The material was too heavy for a suction dredge; it was a job for a dipper dredge. He understood the work would be proceeded with, as there was an appropriation in the estimates for it, and it would be completed this fall. He asked for further time with regard to the question of the improvement of the Vancouver-Westminster road. This request was granted.

Bon Accord Road.

John Crean reported with reference to the Bon Accord road that the Dominion government had their portion nearly completed, and the Surrey authorities, who were doing the work for the Provincial government, were well advanced. He had been to Victoria to see F. C. Gamble, government engineer, and the road to Bon Accord would before long be an accomplished fact. Part would be eighteen feet wide, and part sixteen feet, the width of the bridge. He had also interviewed Capt. Hughes on the subject. A cordial vote of thanks was accorded him, on the motion of A. E. White, secretary, seconded by T. J. Trapp. Mr. Crean, in response, did not claim to be a philanthropist; he had interests which would improve by the existence of the road. He alluded to the splendid farming land which would be opened to access by the new road.

Improvement of Fraser.

A long discussion took place on the channel improvement scheme. Mr. Crean wished the board to wire to Sir Wilfrid Laurier asking him if the Le Baron improvement scheme had been adopted.

W. R. Gilley pointed out that $100,000 had been voted, and if that was well spent, it would lay the foundation for the work of several years to come.

A question being asked as to Louis Coste, consulting engineer, being on the coast in connection with the scheme, Mr. Crean declared he was here simply about some harbor works at Nanaimo. He understood Mr. Coste had no orders to report on the Fraser.

Rev. J. S. Henderson remarked that an engineer would not be on the coast without reporting on works where money was to be spent.

A. E. White hardly thought it would be a good thing to wire to Ottawa just now. The money voted would, he thought, be spent in accordance with the arrangements which had been already made. G. A. Keefer, resident engineer, was thoroughly in accord with Mr. Le Baron's report, and he thought it would be that report which would be acted upon. It might be considered outside professional etiquette to say how far the government had adopted the report of their engineers. Mr. Crean urged that their efforts after "Thirty Feet to the Gulf" should be more energetic. No motion was passed, as J. B. Kennedy, M. P., is expected here shortly. A suggestion was made that he should be asked to explain the situation to the public, through a report of a committee of that board.

Banquet Paid for Itself.

The report of the banquet committee showed that the receipts were $235, and the expenses $255.90. It was resolved to vote the difference, $20.90, from the funds.

W. T. Reid was elected a member.

SUPREME COURT DECIDES A SPIRITUALIST INCOMPETENT

Jury Declares Man Who Conversed With Unseen Friends Mentally Unbalanced—Will Broken.

Chicago, July 16.—A dispatch to the Inter-Ocean from Cassopolis, Mich., says: That a spiritualist is mentally incompetent is the holding of the supreme court in a decision rendered yesterday upholding the verdict of a Cass county jury which decided that John F. Goff was unbalanced mentally on the subject of spiritualism and, therefore, incompetent when he made his will disinheriting his only son, Leslie, in favor of spiritualists' associations.

INSURANCE PAID ON STOLEN MAIL SACKS

Los Angeles, Cal., July 16—Although postal inspectors have failed to locate the negro who is believed to have stolen, at Kansas City, a registered mail pouch, which left this city June 3, en route to New York, the remitters of currency and valuables will probably recover their losses in full. The Farmers and Merchants' bank of Los Angeles, which forwarded $50,000 in currency to New York correspondent, in the missing pouch, was today reimbursed for the loss by the Canton Insurance company, of Hong Kong, China, through its local agent.

Destroyer of Destroyers.

London, July 16.—Preparations for the speed test of H. M. S. Swift, said to be the fastest boat in the world, on the Clyde, are under way. The boat, known as an ocean going torpedo boat destroyer, is in reality a destroyer of destroyers. It is expected that she will show a speed of 39 knots an hour.

LITTLE BOY DROWNED BY FALLING INTO DYKE DITCH

Harold Livingston, Three Years Old, Wanders Through Open Gate and Loses Life in Water.

A sad fate befell Harold G. Livingston, a small boy, aged three years, son of H. Livingston, of Lulu island, who opened a gate on Wednesday evening leading to a ditch adjoining the dyke on Lulu island, near Ewen's cannery. He fell into the ditch, and although the water was not deep, the boy was drowned. Dr. Rothwell hurried to the scene, but could only pronounce life extinct. The body was brought up river by the Transfer and will be interred today at the Oddfellows' cemetery.

CONCILIATION REPORT FAVORS MECHANICS

Winnipeg, July 16.—The conciliation board in the railway shops dispute, has mailed its report to Ottawa. No details are given out here except that there is a compromise on some points, but the men generally receive concessions in their relation to the company. The report on the whole favors the men.

Forest Fire Under Control.

Bellingham, July 16.—A soaking rain yesterday permitted the fire wardens and rangers to get the forest fire, which has been burning for four days five miles northeast of Bellingham, completely under control. For some time the suburb of Silver Beach was threatened. The loss by Nolte Bros. and the Mogul Logging company cannot be estimated until cruisers can cover the burned over district.

WORKING HARD TO MAKE TRAMWAY PICNIC A SUCCESS

B. C. E. R. Employees Spare No Effort to Ensure Good Time for Excursionists to Langley.

The committee in charge of the preliminary arrangements in connection with the B. C. E. R. employees' picnic to Langley on Monday are working hard in order to have everything in readiness for the event by the time the day of the trip arrives. Suitable grounds have been reserved for the holding of sports and games, one of the features of the latter being a baseball match between the car shops' employees and the men employed in other departments of the company. A baby [illegible] pronounced to take place during the afternoon.

The catering on board the Ramona will be in the hands of Owen Burdette, who will have all manner of refreshments on sale during the trip up and down the river, and also on the sports grounds. The Langley church auxiliary has also arranged to dispose of ice cream and fresh fruits at fair prices to the excursionists. Two steamers have been chartered for the excursion, the Ramona and the Beaver, these leaving the C. P. R. wharf at 8 a. m. sharp and returning at 5 p. m. and 9 p. m.

FRENCH TARIFF WILL BE BETTER DEFINED

The Franco-Canadian Trade Agreement Not Intended to Favor Other Countries.

Paris, July 16.—The Journal says the remedy to the situation over the Canadian trade convention deadlock lies in the revision of the French tariff by defining each category in such detail that Swiss and German articles could not profit by the exception intended to apply only to those of Canadian origin. Under the most favored nation clause common to almost all commercial treaties, it appears that Germany is prepared to insist on the special treatment accorded Canada, and that constitutes the prime obstacle in the eyes of the French senate to putting the Franco-Canadian convention into operation. The Journal claims Canadian goods could be so described as to bar out the classification of nearly similar goods of other countries.

WILL HOLD MEMORIAL SERVICE TO WOLFE

London, July 16.—On the day of the dedication of the battlefields at Quebec there will be a stately memorial service at St. Alrege church at Greenwich, where Wolfe is buried. The lord mayor and sheriffs of the city of London will attend in official robes, and it is expected that detachments of Wolfe's old regiments will also be present.

Chairman Jackson, of the London county council education committee, is urging London teachers to bring home to children the meaning of the Canadian rejoicings.

"Gasworks" Cure for Whooping Cough

All children troubled with whooping cough are invited to take the "gasworks" cure at one o'clock this afternoon. Manager Brown, of the Westminster gasworks, making the announcement that provision has been made for the comfort of all who care to attend. Twice a month the purifiers in use at the works are changed. While this work is in progress sulphureted hydrogen is released from the big iron tanks, the inhaling of this having a beneficial effect upon all troubled with whooping cough. Ald. Garrett, whose two children are taking the gasworks cure, will be present at the treatment this afternoon, as well as Dr. Manchester, who will investigate the treatment which threatens to reduce the number of juvenile patients in this city.

Working Full Time.

London, Ont., July 15.—Seven hundred employees of the McClary Manufacturing company, who have been on short time for some time, were put on full time yesterday.

BILL AMENDED TO STOP MURDER BY MEDICINE

Senator Roy Declares More Children Die From "Dope" Drugs Than by Disease.

Ottawa, July 16.—In the Senate today Senator (Dr.) Roy gave notice of an amendment to the patent medicine bill, detailing how new medicines containing opium or derivities should be sold.

More children, he said, are killed by patent medicines loaded with opium or morphine than are killed by disease. The prohibition of the importation, manufacture and sale of [illegible] amounted to nothing if patent [illegible] containing this drug were not also covered. When parliament was forbidding cigarettes to sixteen-year-old boys, it should have forbidden the giving of opium and morphine to infants.

KING CARLOS PLUNGED DEEP INTO NATIONAL COFFERS

Murdered King of Portugal Spent a Million Dollars Belonging to the People—Sensations Due.

Lisbon, July 16.—The commission that has been investigating the misappropriations of crown property by the family of the late King Carlos, today reported that the early estimate of a million dollars will probably be too small when the entire investigation has been finished.

Sensational revelations are looked for. The young king adheres to his determination to pay back into the treasury all the money his late father is alleged to have stolen.

CHIEF WHIPS ARE HURRYING BUSINESS OF THE SEASON

Ottawa, July 16.—The unique plan was adopted by the two chief whips some days ago of assigning a time limit for the discussion of the several matters remaining on the order paper. It has worked excellently so far, and if it is followed for the remainder of the session the House will finish its labors on Friday and prorogation will take place on Saturday, though there is a possibility of the House proroguing on Friday night, the members being anxious to get away, if possible, before Saturday.

SPAIN'S NEW FLEET WILL BE STRICTLY HOME BUILT

Madrid, July 16.—Contracts for Spain's new navy will be let to Spanish builders, according to an announcement made today. The new navy which will replace the one lost in the war with the United States, will consist of three armored cruisers, each of 15,000 tons, three torpedo boat destroyers of 350 tons, 24 torpedo boats of 100 tons, and four gunboats of 800 tons.

Seven years is the time limit set for the completion of the new navy. The vessels will be built at Ferrol and at Carthagenia.

Embargo Must Remain.

London, July 16.—According to the Westminster Gazette, Premier Asquith, in reply to a delegation yesterday, refused to consider the removal of the Canadian cattle embargo, under the present circumstances.

Monster Sturgeon Captured.

Aberdeen, July 16.—A sturgeon that broke all recent records was caught in the bay this morning by a Finnish fisherman. The big fish weighed 227 pounds and measured seven feet eleven inches from tip to tip.

This Is My 51st Birthday

Bishop Lewis.

Dr. Wilson Seeley Lewis, who was elected a bishop of the Methodist Episcopal church at the general conference held in Baltimore last May, was born July 17, 1857, at Russell, N. Y. He attended St. Lawrence university and later graduated from Cornell college. After his graduation he became a school teacher and for a time he occupied a pastorate of the Methodist Episcopal church. In 1888 he became principal of the Epworth seminary at Epworth, Iowa, and he filled that position for nearly ten years. In 1897 he was chosen president of Morningside college at Sioux City, Iowa. During the ten years and more that he continued in the presidency he established his reputation among the foremost educators in the middle west. His success in building up Morningside college was directly responsible for his being elected a bishop of the church at the Baltimore conference.

LAND DIRECTED BATTLE FOUGHT IN NORTH SEA

Positions of Warships in the Mimic Warfare Changed by Orders Via Wireless.

London, July 16.—England tried today a new experiment in naval warfare, the conducting of a battle from land by wireless.

Over three hundred vessels now manouvering in the North sea engaged in a sham battle, the movement of every vessel being kept through wireless by experts in the admiralty office in this city.

As each ship changed her position or fired on the enemy, the move was reported to the naval experts here. They sat before a map showing the situation at every minute. Markers were moved about on the map much as pieces would be moved on a chess board, the moves being flashed to the vessels by wireless. It is claimed that this system would be better in the controlling of vessels than by an admiral in action, as the men on land can receive reports and work out the problem while removed from the excited scenes of the battle.

The experts who conducted the battle from the admiralty office would not comment on the result. They simply said that it was satisfactory.

AUTHORITIES CAPTURE 500 LAW EVADING CHINAMEN

El Paso, Texas, July 16.—Almost [illegible] per cent increase is the record for capturing smuggled Chinamen by El Paso immigration authorities during the last half of the fiscal year which closed June 6.

Since December last, 500 Chinamen have been captured after having reached American soil from the Mexican side of the Rio Grande against a total of only 47 for the preceding year.

PIONEER COURT INCIDENTS.

Free and Easy Manners in Early Illinois Trials.

Most of the early Illinois courthouses were log built, but in some districts, says the author of "Lincoln, the Lawyer," the sessions were held in the barrooms of taverns, and the absence of all formality in the proceedings is best illustrated by the fact that in the circuit court of Washington county, held by Judge John Reynolds, the sheriff usually heralded his honor by singing out, "Come in, boys! Our John is a-goin' to hold court!" to which cordial invitation those having business with the law responded.

Another sheriff in Union county made laudable efforts to meet the requirements of the occasion by shouting out this singular announcement: "Oh, yes! Oh, yes! Oh, yes! The honorable judge is now opened!"

In one case a judge who desired to display his learning instructed the jury very fully, laying down the law with authority, but the jurors, after deliberating some hours, found themselves unable to agree. Finally the foreman rose and asked for additional instructions.

"Judge, this 'ere is the difficulty," he explained. "The jury want to know if that thar what you told us was r'al'y the law, or on'y jist your notion."—Youth's Companion.

A sufferer from insomnia may work hard at physical and mental labor, yet the night cometh when no man can work. The insomniac, utterly fatigued, falls into a slumber—not a sound, refreshing, dreamless slumber, but a coma, lethargy, a torpor, born of fatigue. In a few hours the demon says "Awake!" and the insomniac starts instantly into waking, with bright, staring, winkless, sleepless eyes. Is there no cure? None. Insomnia comes with age. You cannot cure your years. You used to sleep yesterday when you were young. "Not poppy nor mandragora nor all the drowsy sirups of the world can medicine thee to that sweet sleep which yesterday thou hadst."—San Francisco Argonaut.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is rejuired to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

CONDENSED STORIES.

How a Shrewd Hotel Clerk Tested an "Honest" Man.

The late ex-Senator Mahone of Virginia was trying to effect a settlement with a man who he knew to be dishonest. The man declared he was above suspicion and wanted the ex-senator to be careful and not accuse him of double dealing. "I won't accuse you," the ex-senator drawled, "but I'll tell you a story of a man who knew himself to be thoroughly honest. This fellow registered late at night at a popular hotel in a big city. His sporty look and general demeanor made the hotel clerk wary, and he promptly said that every room was occupied. 'Aw, come off,' said the sport, 'I'm just as good as anybody, and I must have, at least, a bed to sleep in.' The

"WHY, THAT OLD MAN IN MY ROOM IS DEAD!"

clerk said he had one bed not occupied, but the man who slept in it must be not only honest, but above suspicion. In strong language the sport asserted that he was all right and had never done a dishonest act. Then the clerk explained that he had a room with two beds in it, and the farther one from the door was occupied by an old man, an eccentric millionaire, who insisted upon sleeping with a bag of precious stones under his pillow. This old man retired early, slept soundly, and got up late. If the sporting man would agree not to strike a light, not to disturb the sleeper, but to undress quietly and get up early, he might occupy the bed near the door. He readily agreed, saying he had often slept in rooms where other parties had great wealth in gems lying around loose. Three hours after he had been shown to the room he rushed downstairs in his pajamas, quivering with excitement, and exclaimed to the clerk.

"'Why, that old man in my room is dead; dead as a doornail!'

"'Yes, I know it. How did you find it out?' queried the clerk."—Leslie's Weekly.

THE FLEETING MOMENT.

'Tis gone, 'tis gone forever,
The moment that is past.
Lost in that whirling eddy,
Eternity, the vast.
But why should we regret it
Or sadly of it speak?
There'll be another coming
And several more next week.

And, pray, who would delay it
Or bid the moment stay?
We might as well be cheerful
And speed it on its way.
Of course the gem is priceless,
But, pray, what would you do
If it should take a notion
To loaf an hour or two?

We see the moment going
And say: "Alas, that one;
We never shall behold it
Again. Its race is run."
But if it stayed an hour
Instead of sixty winks
'Twould be too long till breakfast
And also between drinks.

Then do not get excited,
Although the moments fly,
For if you waste a couple
Another one is nigh.
And really it is silly
To take the thing to heart,
For they're so much like brothers
You can't tell them apart.

Birds' Wages.

In the garden there are a thousand small offenders that he who tills the soil for pleasure would willingly forgive. If it be granted that the thrush and the blackbird steal a certain amount of fruit, still their presence is so beautiful and their song so sweet that what they take may, gladly be accorded as wages.—Country Life.

Practical Training.

"Deduction is the thing," declared the law student. "For instance, yonder in our yard is a pile of ashes. That is evidence that we have had fires this winter."

"And, by the way, John," broke in his father, "you might go out and sift that evidence."—Louisville Courier-Journal

SUFFRAGETTES DECIDE ADVERTISING IS BEST

Roughhouse Tactics Abandoned by Vote Seekers—Campaign of Publicity.

London, July 16.—The Suffragettes today adopted a new plan of action by which their belligerent tactics will be abandoned and they will undertake a campaign of advertising and education.

The organization announced that stands would be erected in all public resorts and places of amusement, where suffragette orators will address lectures on all occasions and exhort the people to join them in their warfare for equal suffrage.

The motto "Votes for Women" will be painted and stamped on sidewalks and bare walls throughout London and other cities of the kingdom. Hundreds of Suffragettes today are using bicycles, riding through the streets, each bearing a banner with the organization motto and other legends of their campaign.

The National Women's Suffragists organization announced that it will conduct a house to house canvass on behalf of the women, which will extend to the remotest corners of the Empire.

The leaders say they have come to the conclusion that their belligerent methods would continue to produce nothing but failure, and it is impossible for them to cope with the authorities, and they have received little aid through the martyrdom of their members who have gone to jail.

DO NOT FORGET.

Do not forget that the Liberal Government has taken the civil service out of politics, and advancement in same will go by competitive examination and not political pull.

"Thirty feet to the gulf."

PROVINCIAL LICENSES TO JAPS.

The Columbian and Attorney-General Bowser, Minister of Fisheries of the McBride Government, have been loud in their proclamation that the Provincial Government was at least keeping the Japanese out of the fishing business on the Fraser River.

Now what are the facts?

Japanese who could not produce naturalization papers as British subjects were refused licenses at Steveston and New Westminster by the Dominion Government officials have been granted licenses at so much per by the Provincial Government officers, and now that this has leaked out they are rustling to get these licenses returned, but the wily Japs do not understand and refuse to give up these scraps of official paper.

What is the Columbian and Mr. Bowser going to do about it? According to the Columbian brand of argument, the Minister is responsible. If so why does it not censure him and demand his resignation.

We can give names, dates, etc., etc., if the Columbian will make the demand for the Minister's resignation.

"Thirty feet to the gulf."

A COINCIDENCE.

Happenings that mark dates as historic should never escape the memory of a political leader. July 8, 1896, was the day on which Sir Charles Tupper handed to the Queen's representative the seals of office of himself and his comrades in that historic mission to get the country to endorse the remedial bill compelling Manitoba to adopt the separate school system which so utterly failed.

July 8, 1908, was the day chosen by the Conservative Opposition in the House of Commons, to bring on the discussion of the so-called "Hodgins' scandal."

What a coincidence! How it failed to add to the strength of the Conservative party! And why? Simply because as in the ill-starred case of Sir Charles Tupper, born in what Sir Mackenzie Bowell dubbed "a nest of traitors" the party paid as little heed to the existing conditions as it did in the case which Sir Charles so eloquently led to defeat.

It was a peculiar coincidence indeed that the anniversary of the final act in the fall of the Tupper Ministry should have also witnessed the utter collapse of the one big "sure-to-go-off" scandal on which the Conservatives in the House and in the country had their hopes raised high, and on which, in their jubilation, they relied for the downfall of the Laurier Government.

At no period in the history of this great Dominion since the days of Confederation has there been a greater "debacle" of political ambitions. It only required a plain statement of fact as given in the convincing arguments of Messrs. Carvell, Geoffrion and Macdonald to utterly shatter for all time the sensational charges on which the Conservative party trusted for political life.

So conclusive was the array of facts that the great unwashed in the gallery felt instinctively that someone had played the Conservative party, and made or attempted to make Major Hodgins the medium through whom and on whom they depended to give color of wrongdoing, and that they had landed in a bottomless morass from which rescue could not eventuate. The facts were so very plain and simple: Major Hodgins had been dismissed from a position he felt himself qualified to fill, he was sore, and under the sting they felt it would be easy to use him to bolster up a charge so that it would be broadcasted over the Dominion. Under the conditions, with no possibility of other redress, it was easy to get him to see the opportunity at his hand to attract attention to his case, in the press of the country, and in this mind he may have seen a distant vision and dropped a word or two which was immediately taken up and made a story of, and a letter handed him to sign, the contents of which he could never have read or his denials of all knowledge of facts of that letter would never have been made.

Then in comment on this outrageously false epistle, editorials were written and published in a determination to prove how much worse the Liberals were than the Conservatives, the whole Conservative press, the Columbian included, chuckled over it, gloated over it, saw a silver lining to their twelve years cloud, felt a chinook melting the frigid shades of opposition, and when the whole Conservative support in the country had been warmed up, so to speak, the Conservatives in the House brought the matter up. In this action lay their fatal mistake.

The Commissioners of the Transcontinental Railway very naturally resented this aspersion upon their honor, and therefore asked for an immediate inquiry by a committee of Parliament, as being the most speedy means to get at the facts so that the matter could be cleared up while the House was in session. That enquiry was at once granted, with the result that when Major Hodgins had been examined and cross-examined he had to admit his misconception of the contract between the Government and the Grand Trunk Pacific, and that he fully realized that if there was any difference as to classification it was a matter which should, under the contract, be settled by arbitration. As a matter of fact an arbitration on these classifications was in progress, and Major Hodgins knew it was in progress, before he allowed the Colonist to use him to bring the charges to the public ear.

Now, was it surprising therefore that the anniversary of the "great finale" of Conservative rule for a generation should have seen the final obsequies of the last of their "scandals"?

Notwithstanding their unability to prove anything resembling wrong-doing on the part of the Commissioners of the Transcontinental Railway the enquiry did good, in that it afforded an opportunity to prove to the country how absolutely above-board all the transactions of the construction of the new national highway have been, and are, and how impossible under the Act of 1903 it is for any illegal advances to be made to any contractor because of the iron bound conditions of the contract.

May we hope that this final venture of the Opposition, given as it was on so great an anniversary so spectacular a funeral, may teach it a lesson that such tactics will never aid it to get a hold on the purse strings of the country.

A Famous Old Building.

Evensong was held the other day on the site of the ancient oratory of St. Gwithian, one of the many Irish saints who descended upon Cornwall in the fifth and sixth centuries. In a waste of sand near the Godrevy lighthouse, which marks the eastern horn of St. Ives bay, lie what are regarded as the remains of the oldest Christian building in England. The nave bulges with sand to the level of the plain and through a grass covered hillock over the demolished altar protrude a few rough stones. During a stormy night of 1828 the sand shifted and revealed the lines of a structure about forty-eight feet long by twelve feet wide, with a priest's doorway, a small window, traces of stone benches and an altar of masonry now gone as the result of the building being forthwith used as a cowshed.—London Globe.

MAKING WAMPUM.

A Process That Requires Both Patience and Skill.

With certain tribes wampum is still highly prized and necklaces are worn by men, women and children when they are the fortunate possessors of them. To make wampum various kinds of shells are used, white and those having a lavender hue being most liked.

The thin shells are broken into little pieces and by aid of nippers are made as nearly round as possible. When each piece is drilled in the center, the old time fire kindling style of drill being used, the shells are then strung and rolled with the hand on a flat stone, which grinds them until they are smooth and even.

Comparatively few Indians among those who prize wampum beads most highly have the skill or patience to make them, even though they had the materials. The fact is there are but few wampum bead makers in the country, and it often happens that long pilgrimages must be made to secure the requisites for really fine beads, and, as with the white man's trinkets, that which is "far fetched and dear bought" is most sought after for ornamentation.

Around some of the ancient ruins in the southwest the little disks of wampum are often found in the sand, and it is probable that they were deposited in the graves in very early times and washed out or exposed by the wind's action. These ruins are in the best state of preservation of any in the country. Absolutely nothing is known of their builders, and the origin of these ruins was as much a mystery when Coronado first saw them in 1540, when he made his famous invasion, as it is to the people of the present day.—Indian's Friend.

COSTLY RAZORS.

Some Gold Handled That Sell For $50. Handles of Silver and of Ivory.

If a man were content to shave himself with a razor having a hard rubber handle, as indeed most men are, he could buy one with a blade of very excellent quality for a dollar, but there are razors far more expensive than this.

Thus there are sold razors with handles of 18 carat gold and of plain smooth finish that bring $50 each. A pair of such razors in a plain silver box can be bought for a hundred dollars.

But $50 is not the limit of what one may pay for a gold handled razor. If the handle were elaborately chased its cost might mount up to twice that, or $200 for a pair.

There are also sold, among those more expensive, silver handled razors which range in price from $6.50 to $30 each, $6.50 being the price for one with a plain silver handle, while those more costly have their handles more or less elaborately chased or carved.

A man who did not altogether like a hard rubber handled razor might find his fancy suited with one having a handle of ivory, and an ivory handled razor need not necessarily be expensive. A razor with a plain ivory handle can be bought for $2. Of course any carving would add to the cost.

Costly razors are usually sold for gifts.—New York Sun.

The Age of Marriage.

The age of legal capacity to marry in England is much lower than in Italy. The English law has adopted in this respect a law of Roman and even Athenian origin, by which the ages of fourteen and twelve were fixed as the marriageable ages of males and females, respectively. In Italy the age is fixed by the civil code at eighteen and fifteen. Formerly the age of spousals in England was as low as seven for both sexes, but such marriage was not considered perfect, for the parties might disagree to it when they arrived at the mature age of twelve or fourteen.

Newspaper Advertising Best

The Retail Merchants' Association of Chatham is a level-headed organization. At a recent meeting newspaper advertising was discussed, and the general opinion of the members was that newspaper advertising was the best, and program and other advertising of that class was almost useless.

Fire Debenture By-Law, 1908

By-Law to enable the Council of the Corporation of the City of New Westminster to raise by a loan the sum of Six Thousand Five Hundred ($6,500.00) Dollars for the erection and equipment of a Fire Hall at Queen's Park and for improvements and equipment for the Fire Hall at Sapperton.

Market Debenture By-Law, 1908

A By-law to enable the Council of the Corporation of the City of New Westminster to raise by loan the sum of Six Thousand ($6,000.00) Dollars for extension to Market Building.

WHEREAS, certain sums of money have this year been expended out of the general revenue of the City for the construction of an extension to the Market Building, and it is expedi- ent that certain additional sums be expended in like manner, amounting in all, with the sums already so ex- pended, to the sum of Six Thousand ($6,000.00) Dollars.

AND, WHEREAS it appears that if the said sum of Six Thousand ($6,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxa- tion will be excessive, and it is ex- pedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

AND, WHEREAS for the payment of interest on the debentures proposed to be issued under this By-law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rate, in addition to all other rates, each year during the currency of the said debentures, the sum of Three Hundred and Fifty-three and 20-100 ($353.20) Dollars.

AND, WHEREAS in order to raise the said yearly sum of Three Hundred and Fifty-three and 20-100 ($353.20) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

AND, WHEREAS the whole rate- able property of the said City, ac- cording to the last revised assessment roll thereof, is Four Million One Hun- dred and Fifty Thousand, eight hun- dred and eighty ($4,150,880) Dollars.

AND, WHEREAS, the total amount of the existing debenture debt of the said City is One million, eighty-seven thousand, one hundred ($1,087,100) dollars, irrespective of the sum of One hundred and twenty-six thousand ($126,000.00) dollars proposed to be raised under the "Waterworks De- benture By-Law, 1908," the "Fire De- benture By-Law, 1908," the "Public Schools Debenture By-Law, 1908," and the "Street Improvement Debenture By-Law, 1908," of which none of the principal or interest is in arrears.

NOW, THEREFORE, the Municipal Council of the Corporation of the City of NewWestminster enacts as follows:

(1) It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be will- ing to advance the same on the credit of the debentures hereinafter men- tioned, any sum or sums of money not exceeding in the whole the sum of $6,000.00, and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

(2) It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Six Thousand ($6,000.00) Dollars for such sums of money as may be required, not less than One hundred ($100.00) Dollars each, or an equivalent expressed in pounds ster- ling of the United Kingdom of Great Britain and Ireland at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation, signed by the Mayor and countersigned by the Trea- surer thereof, or by such other per- son or persons as may be thereunto lawfully authorized.

(3) The said debentures shall be payable on the first day of July, 1958, at such place or places as the Coun- cil of the said Corporation may from time to time appoint with the appro- val of the holders thereof, and shall have attached to them coupons for the payment of the interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half-yearly on the first day of January and the first day of July in each and every year, and the said coupons shall be signed by the said Mayor.

(4) A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all the rateable property of the City sufficient to pay the interest upon the debentures and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

(5) Subject as aforesaid, there shall be raised annually by special rate as aforesaid, during the currency of the said debentures the sum of One thou- sand, six hundred and twenty-five ($1,625.00) Dollars, for the payment of interest thereon, and the sum of Two hundred, eighty-eight and 13- 100 ($288.13) Dollars for the repay- ment of the principal.

(6) The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise, towards paying the cost of the passing of this By-Law and the issue and sale of the debentures therein referred to, re- couping the treasury of the City such sums as have been this year expended on the said works, or may be so ex- pended until the proceeds of the sale of the said debentures have become available; and paying the cost of the completion of the said reservoir and connecting mains.

(7) This By-Law shall take effect on the first day of August, 1908, and may be cited as the "Waterworks De- benture By-Law, 1908."

Mackenzie King Opens Inquiry Into Grievances of Cotton Workers of Quebec—Union Aggrieved.

Montreal, July 16.—W. L. Mackenzie King, deputy minister of labor, sitting as a special commissioner, appointed by the Ottawa government, opened an inquiry here yesterday into the labor conditions in the cotton industry. The principal witness heard was Wilfrid Pacquette, a former secretary of the union, who entered the charge that the last strike of the operatives had been wilfully provoked by the manage- ment of the two companies interested, solely for the purpose of breaking up the union, in which purpose it had succeeded. The companies also de- sired to increase their profits at the expense of the workers. They had assisted in the formation of rival union and had done everything in their power to make the union a failure. They objected to the union because it meant an upward trend to wages.

GRANDE LODGE CONDUCTS FUNERAL OF R. B. KELLY

Large Number of Masons Follow Body to Grave—Many Floral Tributes Placed on Casket.

The funeral of the late Robert Brenton Kelly, of this city, who died suddenly on board his launch on Sunday, was largely attended by Masons from Vancouver and Westminster, the whole proceedings being on the lines of a grand lodge funeral, as Mr. Kelly had held high office in the order. The presence of a beautiful wreath from Coquitlam was a reminder that the deceased was the first reeve of that municipality. The Masonic floral tributes were as usual very choice.

A service was first held at the residence, Douglas lane, Rev. A. Shildrick officiating, and at eleven o'clock the coffin was removed to the Masonic temple. Here an emergent meeting of grand lodge was called, and the burial order of the Masons read by Rev. H. Fiennes Clinton, grand chaplain, the service being subsequently completed at the graveside. Among those present in the large gathering, numbering some sixty-five Masons, were Dr. R. E. Walker, Vancouver, acting grand master; F. Burde, grand junior warden; Dr. W. A. DeWolf Smith, acting grand secretary; W. E. Vanstone, acting grand senior warden, and W. Ashley, grand marshal, who was assisted by T. A. Muir, as director of ceremonies. The family of deceased was fully represented, including T. A. Kelly, brother, of Kamloops. Others present were W. Manson, M. L. A., and J. J. Walker, Vancouver.

The pallbearers were J. S. Clute, past grand master; Angus Munn, W. M. of Union lodge No. 9; Nels Nelson, W. M. of King Solomon lodge No. 17; Henry Hoy, P. G. S. W. of No. 9; George Brine, P. M. of No. 9; and M. McKercher, P. M. of No. 9.

As the deceased was grand treasurer of the Royal Arch Chapter, as well as past grand senior warden, the Royal Arch Masons headed the procession. At the graveside at the Masonic cemetery, the ceremony was simple, lilies from Mr. Kelly's own garden being thrown in.

The flowers were numerous, sprays were received from the sons, "Tom and Arthur," Mr. and Mrs. A. Adams, Mr. and Mrs. Crouse, Paul Corrigan, Alice Cunningham, Mr. and Mrs. Cooksley, Mrs. Digby, Mr. and Mrs. C. P. Eastman, Mr. and Mrs. E. Eichoff and family, Mrs. Eichoff, Miss Flox, Mr. and Mrs. W. A. Gilley, Mrs. J. Hyndman (Vancouver), Mr. and Mrs. A. M. Herring, Mr. and Mrs. J. A. Montgomery, Mr. and Mrs. A. Matheson, Ina Morrison, Mr. and Mrs. John Morrison (Port Moody), Mr. and Mrs. D. E. Mackenzie, Mrs. and Miss Murchie, Mrs. Murchison and R. McMurphy, Mr. and Mrs. George Mead, Mrs. Morrison and sons, L. R. Scott (Coquitlam), B. S. Scott, Mr. and Mrs. Sharpe, Mr. and Mrs. W. Turnbull, Mr. and Mrs. S. Woods, Captain and Mrs. Young, and Mr. and Mrs. J. R. Scott (Coquitlam).

Wreaths—Hon. and Mrs. Richard McBride (Victoria), Mayor and Mrs. Keary, Mrs. and Miss Emerson, Mr. and Mrs. John Hendry (Vancouver), and Miss Lehman.

Crosses—Mr. and Mrs. L. K. Irwine (Coquitlam), Mr. and Mrs. Rowland (Coquitlam), Mr. and Mrs. Rickman and Mr. and Mrs. D. Starrett.

Anchors—Mr. and Mrs. F. A. Kelly (Kamloops), and W. Scott (Coquitlam).

Cut flowers—Mr. and Mrs. A. B. Forrest (Vancouver).

The public tributes were:

Grand lodge A. F. & A. M., of British Columbia, a circle of various colored flowers.

Emblem, Royal Arch Chapter, scarlet and white carnations.

Union lodge No. 9, emblem of masonry, in white and purple.

King Solomon lodge No. 17, emblem in pink and white carnations.

Coquitlam council, "First Reeve, Coquitlam," words picked out in purple flowers.

Employees city lighting department, wreath.

Non-commissioned officers, A and B companies, D. C. O. R., wreath.

D. Murchie was the undertaker.
