GAS COMPANY HAS SPLENDID PROSPECTS

Cheap Industrial Gas Will Induce Many New Industries to Locate Here.

Interviewed by a Daily News reporter yesterday, General Manager W. Thomas, of the Royal City Gas Improvement company, was found optimistic as regards the prospects of the gas company.

Speaking of the need of an extended service at a low price, Mr. Thomas pointed out that people desiring to heat here are immediately confronted with a charge three times as much as it has been their custom to pay in prairie towns, and even then all the time limited upon the very liberal lines of mains, at present existing can enjoy this absolute household necessity. It is the intention of the company to bring the gas within the reach of all at a price that will favorably compare with solid fuel.

Enlarging upon the possibilities of cheap gas, Mr. Thomas said it was the intention of the company to not only provide cheap gas for the customer, but also return a handsome dividend to the investor. To make sure of this it is the intention of the company to adopt the very latest methods in the production of gas both in design and operation. The practice of horizontal retorts in general use will not be seen in the plant of the Royal City Gas Improvement company. Instead of shoveling coal into a horizontal retort and periodically pulling the coke out with rakes (which practice can be seen throughout British Columbia to-day) the vertical retort will be used the operation of which the charging and discharging is automatically performed with ease and comfort, thus effecting a saving of at least 50 per cent. in labor. It also produces the maximum candle power of gas for a minimum consumption, a saving of 40 per cent. on coal.

Speaking upon gas engines for the household, Clay Products company, who is in the city looking over the situation making plans, etc., for the erection of two benches of vertical retorts in a bench. Although the vertical retort is such a step in advance over the old method, it is not in any way an experiment, as the following list of actual users will show:

	No. of Retorts.
Berlin	150
Cologne	210
Hannover	100
Duisburg	90
Solingen	30
Ludwigshafen	30
Zurich	100
Dusseldorf	70
Hamburg-Grasbrook	50
Aschaffenburg	8
Halle	60
Dessau	60
Potsdam	48
Berlin-Oberspree	48
Berlin-Marienfelde	84
Berlin-Tegel	10

Other installations are in course of construction as under.

	No. of Retorts.
Offenbach	80
Brandenburg	60
Trieste	20
Elberfeld	120
Frankfort-Rockenheim	120
Bremen	60
Mannheim	80
Chemnitz	60
Worms	30
Potsdam	40
Mannheim	72

Another observation entering into the manufacture of Royal City gas is the production of heat for the carbonization of coal from an outside source viz., waste wood products and coal refuse, thereby saving the whole of the residual coke for sale instead of, as at present is customary in British Columbia, using from 40 to 60 per cent. of the coke produced for fuel purposes. The crude coal tar will also be distilled giving refined coal tar, creosote, pitch, etc. Ammoniacal liquor now running to waste in every gas works in British Columbia will be concentrated and manufactured into a marketable product.

The manufacturing site is of ample size and favorably situated for the handling of raw material and coke, the company's offices, etc.

Questioned concerning industrial

(Continued on Page Two.)

TROUBLES OF IMMIGRANTS TO UNITED STATES

Miss Murcutt Lectures on Early Days in Dominions of Uncle Sam—Perils of the Newcomer.

In spite of the bad weather last evening there was again a large attendance at the opera house where Miss Ada Murcutt lectured on the immigrant question in the United States.

F. B. Maxwell presided, and after the opening hymn the lecturer dealt in an exhaustive way with her subject, here theme being to show the difficult conditions under which the new immigrant enters the country, and the means taken to save him or her from the vicious influences of an advanced civilization.

The lecture was admirably illustrated with a number of stereopticon views. At the outset Miss Murcutt explained the conditions of landing in New York from European countries, and the means taken to prevent diseased and pauper persons entering the country.

She showed that many came without friends to look after them and were all to liable to fall by the wayside, a large proportion drifting down to the poorer quarters of Gotham, where the saloon is as busy as ever. The women's missionary organization was doing a great work in rescuing the waifs, and training them in useful occupations. Pictures of the children before and after thus being taken charge of were thrown on the screen, and the scene then shifted to Philadelphia and Boston, two other great immigrant ports.

From the white immigration the lecturer turned to deal with the Oriental influx, the bulk of which passes through San Francisco, into the dominions of Uncle Sam, and spoke of the resene and preventive work among the Japanese and Chinese girls in the Pacific ports. The condition of these girls, not understanding a word of English, is naturally full of danger, and to prevent this homes have been established to house them till suitable employment has been found.

The lecturer concluded with a brief reference to the new dominions of the United States, particularly the Hawaiian Islands and Porto Rico. The evil influences due to the introduction of Milwaukee beer into the Spanish and half-breed homes in the West Indian islands were tellingly depicted, and in some respects she described the position of the people to be worse than before the island was taken under the eagle's sheltering wings.

FLOATING PONTOON DOCK TO TRAVEL 11,000 MILES

Tugboat Leaves Gravesend for Callao, Peru, Towing Large Dock—Feat Is Exciting Interest.

London, Nov. 15.—Two tugboats left Gravesend with a Tyne built floating pontoon dock for Callao, Peru. The work of conveying the dock to its destination will constitute one of the greatest feats in towage annals.

The journey will necessitate a voyage round the south coast of America through the treacherous waters of the Strait of Magellan.

The distance to be traversed—11,000 miles—has been exceeded only once by tugboats, viz., when the famous Dewey dock was conveyed from America to Manila bay, in the Philippine Islands.

Steamships Cutting Rates.

Honolulu, Hawaii, Nov. 15.—Within the past three months all of the American steamship lines plying between the Pacific coast and the Territory have reduced their first class passenger rates about 20 per cent. The cut was started by the Matson Steamship company which cut the rate from $75, one way, to $60, or $110 for the round trip. The Oceanic line followed suit by cutting the rate to $65 and $110, and the Pacific Mail S. S. company has announced that after this month its steamship China will carry passengers at this rate also. Within the past week the Canadian-Australian line has met the cut also, reducing its rate from Vancouver to $65 with 10 per cent. off this to families of three adults, and 20 percent. less to four adults or more in one family. The rate formerly was $75.

CELTICS EASILY BEATEN BY ROVERS

Visitors Proved No Match For Westminster Boys—Other Results and Tables.

In the first home game of the Rovers in the Vancouver District league, the Celtics were badly beaten on Saturday at Moody Square by the decisive score of five goals to nil. The conditions of play were far from pleasant, fog settling down on the ground, and at no time was the far goal to be seen from the opposite end. The teams were representative. Lock going goal, and as Leamy came late, J. Craig deputised at back, and played an excellent game. The home team put up the best display of the season so far, the forwards showed some really fine passing, and the backs put in good work. McGowan passed much more freely than usual, and altogether there was more judgment shown in the kicking. For the visitors the backs gave a good display of defensive work, especially Ross, but Hayes beat his man almost every time, getting the ball away. The Celtic forwards were slow, and did not advance in any well ordered system. Their halves too, especially Knowles, of whom much is expected, were decidedly off color.

Robertson showed himself too selfish with the ball.

In the first half the play was divided at the start, but when Westminster took the aggressive McGowan succeeded in scoring from a rush. The next goal came from Brice, who played a capital game, and the kick which carried it through was a fine one. The latter part of this period favored the Celtics, and Lock brought off some fine saves. Although several times it looked as if the Vancouver men would equalise, nothing came of the attacks, and the teams crossed over with the Rovers leading well. The game had hardly restarted before Caydzien got in a fine kick which rebounded from the goal post, and Lumsden completed the effort. A fine piece of passing almost sent in Hayes, but Horn was equal to the occasion. From a penalty McGowan scored the fourth goal. At the opposite end J. Craig broke up a concerted attack, and the ball returning to the other posts, a number of corners followed from which the visitors were lucky to escape, but at last they put the ball away. The left home wing was very active, and Lumsden ran up twice, at last a corner being awarded against the visitors, the home centre goaled, the peculiar feature being that, to

(Continued on Page Seven.)

BIRTHDAY HONORS FOR PROMINENT CANADIANS

London, Nov. 15—Among the honors announced in connection with the king's birthday' are the following Canadian honors:

E. S. Clouston, of Montreal, baronetcy.

General P. H. N. Lake, Ottawa, Knight Commander of St. Michael and St. George.

Brigadier-General D. A. Macdonald, of Ottawa, Commander of St. Michael and St. George.

Hugh Graham, Montreal, Knight-Bachelor.

Developments Along B. C. E. R. Line.

The construction of the new B. C. E. R. line to Chilliwack has already influenced considerable developments in the district through which it runs. On the road between Langley Fort and Langley Prairie, parallel with which the line travels for a considerable distance, two large new general stores have been opened, one of these, near the church and school at the corner of the diverging road to the prairie settlement belonging to H. A. Macdonald, of that place. To Cloverdale the new electric railway and the Great Northern Kootenay line will mean a great deal. Already a large new hotel is being erected here by Westminster capitalists. The building will be three stories high and contain seventy bedrooms. It is situated adjacent to the B. C. E. R. station, which together with a spacious freight depot will occupy the site of the old creamery. The new G. N. R. station will also be quite close.

WOMEN BECOME PREY OF ENGLISH UNEMPLOYED

Men Driven to Extreme Measures by Starvation—Haldane's Plan Opposed.

London, Nov. 15.—The unemployed problem, which the government is trying to grasp, has a strange side to it which for some strange reason has not been made public, but which is the subject of agitated whispers at every tea table in the west end of London. During the past week there have been scores of cases of well dressed women stopped and waylaid by starving desperate men in the broad light of day. These cases have nearly all occurred in the narrow little streets of Mayfair. Women who are thus stopped in the street either give money or run to the nearest doorway and ring the bell whether they know the occupants of the house or not. Husbands and fathers are now agitating for more police and many nervous women are afraid to venture out alone.

Purses and watches are snatched daily, not by common thieves, but by men driven mad by want. A society woman, who lately set up a millinery establishment, was terrified by a respectable looking man who walked quietly into her shop and demanded the right to clean the windows or do anything. Out of sheer fright the woman handed over the petty cash. The man took only one shilling, returned the rest and walked out as hastily as he came in.

Cabinet Minister Haldane's proposal to place 24,000 of the unemployed in the special army reserve for the winter months is praised by the majority, but is deeply resented at the service clubs where officers declare that it will bring the army into worse contempt than ever.

HAZING OF THEOLOGUE IS RESENTED BY VICTIM

Student Plunged Fully Dressed Into Fountain at Queens Park—Columbian College Notes.

The hazing of a freshman at Columbian college towards the end of last week provoked dire resentment on the part of the victim, a theologue, who has entered a protest against the indignities to which he considers he was submitted to the officials at that institution. The means adopted by the second year students to initiate the newcomer were drastic enough. He was taken, fully dressed, to the large fountain in Queens park and plunged into the ice cold water, whence he emerged shivering and breathing vengeance against his tormentors. To make his protest against the actions of the students effective, he interviewed one of the heads of the college within a few minutes after taking the involuntary plunge, his clothes bearing mute evidence to the treatment he had received. Whether any action will be taken in the matter is not known.

The matriculation and science teams were victorious in the basketball games at Columbian college Saturday evening, the former winning from the intermediates by 20 to 8, and the latter from the faculty by 15 to 2. This afternoon the commercial and intermediate teams will clash.

The date for the debate between the Wesley Methodist church of Vancouver and the college has been set for Nov. 27.

On Friday evening of this week a track meet will be held in the gymnasium between the business men's class, which is conducted evenings in the school gym, and the students. There will also be a basketball game between the college and the night class.

OCTOGENARIAN MARRIES WOMAN 71 YEARS OLD

Spokane, Nov. 15.—James Smith, of Kahlotus, Wash., aged 80 years, and Mrs. Elizabeth Houghton, of Genesee Idaho, aged 71, were married at Moscow, Idaho, Thursday afternoon. Mrs. Houghton is one of the pioneers of this part of the state, having lived in the little Potlatch since 1879, and has five grown sons and eleven grandchildren.

STREET LETTER BOXES TO BE IN USE THIS WEEK

Contract for Collecting Mail Awarded to Alex. Rae for $840 Per Year—Three Collections Daily.

Alex. Rae, who for many years past has collected the mail in this city, has been awarded the contract for the conveying of the mail matter from the forty-three letter boxes which are to be installed within the next few days, official notification to this effect having reached here on Saturday evening. Mr. Rae's tender, $840 per annum, was the lowest of about twenty sent in to the postal department.

The drop letter boxes, which reached here last week, will be placed in position this week, J. McMurphy having been deputed to do this work. Of the forty-three receptacles, sixteen will be of the "Fleury" pattern, these being located in the business section of the city; the remaining twenty-six will be of the "Bullesworth" style, and will be distributed throughout the residential sections.

Three collections will be made daily, the first at 10 a.m., which will include the entire city, the second at 1 p.m., which will take in all boxes on Third avenue and south, and the third at 6:30 p.m., which will include Agnes avenue and points south. Sapperton will be included only in the first collection of the day.

A start will be made in collecting from the boxes as soon as a number of these are installed; there will be no waiting until all are in position before the receptacles are in use. As soon as the collector familiarizes himself with the route, and is able to judge the exact time at which he will be at any particular box, a collection time indicator will be placed in position. In the meantime the public will be guided by the hours of collection as noted above, the hours mentioned being that a which the mail must be delivered at the post office.

MAIL STEAMSHIP ASIA ENCOUNTERS TYPHOON

Vessel Experiences Terrible Seas in Midocean and Loses Part of Her Upper Deck.

San Francisco, Nov. 15.—In the throes of a terrific typhoon in the middle of the Pacific, on the night of Nov. 1 and morning of Nov. 2, the Pacific mail liner Asia tumbled and plunged and took breaking seas aboard that tore away lifeboats, doors and screens, ripped sails from gaskets and nearly ruined the upper works of the steamship, which for hours was virtually submerged by the storm-lashed breakers.

During this time—six full hours—all the 113 Chinese passengers on the Asia were locked in the steerage quarters, where, in spite of the darkness that prevented them from witnessing the boarding of the waves and resultant damage, the Mongolians cowered and whined. The cabin passengers, in their several rooms, needed no directions, but, braced in their bunks or lying on the floors, awaited the passing of the storm.

ALBERTA LEGISLATURE TO BE DISSOLVED SHORTLY

Winnipeg, Nov. 15.—The provincial legislature of Alberta will be dissolved within the next few days and an election will be held in Alberta on Dec. 15. Premier Rutherford has at present twenty-three members of a possible twenty-five. The government holds all seats except High River, where A. J. Robertson, Conservative, was elected, and Rosebud, where C. D. Hiebert sits for.

It is understood that all the cabinet ministers will seek election and that most of the sitting members will also ask the electorate for renewed confidence.

The conference which was called for Nov. 9 between the premiers of Manitoba, Saskatchewan and Alberta, and the executives of the different farmers' institutions of the west for the purpose of discussing the question government ownership of elevators and other questions incidental to the success of the grain trade in the west has been indefinitely postponed.

MARKET PRODUCE PRICES COMPARED

Some Details of Cost of Living Here Contrasted With Other Cities.

One of the first things a man asks when he comes to settle in a new district, especially one which, like Westminster, boasts a good home market, is, "What will be the price of the produce I shall need, and the articles which I require to furnish my breakfast table?"

The records of prices at the local market are carefully preserved by the market clerk, D. E. Mackenzie, and a fair average is struck each month. Some of the present prices are most startling when an examination is made. Take the case of eggs, one of the most necessary of all poultry products. They were quoted last week on the local market at 30 cents wholesale, and 35 cents retail. This is five cents higher than the corresponding period of last year, and ten to twelve cents dearer than in Alberta, in a ranching country like the district round Calgary, while in Seattle the price to the retailer will be 47 cents this week, or about 50 to 55 cents to the consumer. It is not at all improbable there will be a reaction against this high price, and like the meat, an importation will follow. With high prices there is always a fear that eggs will begin to accumulate on the jobbers' hands, and a drop in price will ensue, all thus loosing.

Most of the dairy butters are selling at 40 cents and the creameries at 35 cents, while prices at the local market hung firm at 40 cents. In November last year butter was down at five cents lower than this figure. A number of causes tend to keep the market firm.

There seems to be a very good supply of poultry available on the coast at the present time, and prices for live poultry of all kinds corresponding practically to the same months last year. As feed runs high no doubt, it is certain there will be an effort to market early.

Meat, as would naturally be expected, is cheaper on the prairies, although practically in the hands of the trust, the very existence of which is denied by the wholesalers. Beef is a cent dearer per pound this year than last locally, while mutton and lamb have fallen. Medium veal is scarce, and ruling throughout the coast markets at 11 cents. Competition with Alberta beef is likely to change the whole meat question at the Westminster stalls.

A feature in which the Westminster market shares with all the coast markets is the limited call for potatoes, which went at $11 a ton on Friday, as against $18 last year, while in Vancouver fair samples are making $14. Everywhere the local prices favor the consumer. The demand for fancy apples has been more satisfactory this season than in the past, and for other qualities $1 has been a fair price. One dollar to $1.25 may be regarded as a fair average for apples per box locally in the market at this time of the year.

C. P. R. TRAIN DERAILED AT SAPPERTON SATURDAY

The incoming C. P. R. local train was derailed a short distance this side of the signal tower at Sapperton on Saturday afternoon shortly before five o'clock, the engine, tender and one car running off the metals. The accident is alleged to have been caused by the engineer running past the danger signal, (which he failed to read owing to the heavy fog and also on account of having some trouble with his engine when near the Brunette mills), and on to the extension rail thrown open by the signalman, this precaution being taken to avoid collisions between C. P. R and G. N. R. trains at the crossing about twenty-five yards west of that point. The damage caused by the derailment was inconsiderable, the train being replaced on the metals in a few hours.

The Notable Dead.

Paris, Nov. 15.—The death is announced of Achille Luchaire, the French historian, and member of the academy. He was born in 1846.

GAS COMPANY HAS SPLENDID PROSPECTS

(Continued from Page One.)

gas, Mr. Thomas stated that the introduction of this gas meant more to this city than is at present realized by the citizens. The gas must not, however be confused with the ordinary town gas manufactured from coal and supplied by the ordinary methods.)

In Staffordshire, England, producer gas from coal mine waste is manufactured by the Mond process and distributed over an area of thirty square miles by means of 48 inch gas mains, giving cheap heat and power to all kinds of industries located there. It is proposed to later take up this branch of the business, laying down a separate line of large gas mains along the river front, thereby offering the greatest inducement for industries of all kinds. Cheap power is the vital factor in all industrial enterprises, the first and most important consideration.

After giving further details concerning the advanced method of gas production, Mr. Thomas remarked that New Westminster must, because of its situation and natural facilities, become a larger manufacturing centre, the advent of cheap power gas will advance the progress of the city by at least ten years, placing it immediately on a par with the leading centres of the United States and eastern Canada.

International Copyright.

Berlin, Nov. 15.—The international copyright congress held its last session in this city today. The new constitution adopted contains thirty articles and covers such matters as the following: Conformity of the rights of translation with the rights of the original; the inclusion of political articles in newspapers in copyright protection; the abolition of the reservation regarding musical and artistic works on mechanical instruments, such as the photographer-cinematograph, except where the manufacturers have already obtained rights.

HINDUS FOR HONDURAS IS WELCOME INFORMATION

Arrangements for Transportation of Sikhs Are Almost Completed—Coolie Labor in Demand.

Ottawa, Nov. 15—Advices have been received by the government that the governor of British Honduras, General Swayne, will come to Canada shortly in connection with the proposed plan of transporting the Hindu population of British Columbia to British Honduras to work on the sugar plantations and to meet the demand for coolie labor there. General Swayne will ascertain if the two or three thousand Hindus now in British Columbia are of a class suitable for the requirements of the labor market of British Honduras, and if his report is favorable arrangements will be made for their prompt transportation.

Mr. Harkin and the deputation of Hindus who went to British Honduras last month to arrange for the proposed migration to that colony will arrive back in Vancouver next week.

VOLUNTEER BOUNTY ACT, 1908.

WARNING TO PURCHASERS.

Every assignment of the right of a South African Volunteer entitled to a land grant must be by way of appointment of a substitute and must be in the form provided by the Act.

Special attention is called to Subsection 3 of Section 5 of the Volunteer Bounty Act, 1908, which provides that no assignment of the right of a volunteer by the appointment of a substitute shall be accepted or recognized by the Department of the Interior which is not executed and dated after the date of the warrant for the land grant issued by the Minister of Militia and Defence in favor of the volunteer.

J. W. GREENWAY,
Commissioner of Dominion Lands, Ottawa.

28th September 1908.

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or subagency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on the land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY
Deputy of the Minister of the Interior.

LACROSSE MAKING STRIDES IN ENGLAND

Alex. Turnbull Startles the Natives With His Sensational Fraser River Rushes

(By B. S. in the Standard of Empire.)

The Olympic games are still proceeding. But, truth to tell, they are not taking a tight grip of the public. They have given us the opportunity, however, of seeing a particularly fine exhibition of lacrosse, and it aroused greater enthusiasm than any of the winter sports that are to follow are likely to create. We have some 150 lacrosse clubs, the game, especially in the North of England and the Midlands, enjoys much popularity. And it is growing. The schools are taking it up with much seriousness, but the man in the street knows little about it; he doubts whether it is a game for strong men; he is apt to ridicule the idea that it represents the strenuous life. But the match between Canada and the United Kingdom has wrecked popular and mistaken notions. People went to the Stadium more out of curiosity than because of any liking for the sport, but in the end they had wholly succumbed to its charms, its vigor, and ever-changing character. It was all so much manly toil, every moment of the encounter pulsated with life; it completely captivated. We acknowledged the superiority of the Canadians; we regarded the match as a pleasant holiday for the visitors; we doubted the ability of our players to make more than a tolerably good fight. But the men of the United Kingdom, chosen judiciously and with much care, astonished every one by their play; they were almost the equals of their redoubtable opponents. The result hung in the balance until the very end; it was always touch and go.

First the Canadians took a tremendous lead; then the Englishmen, beautifully combined, opportunists every one of them, each and every player on his toes, rallied wonderfully. The character of the game changed as if by magic. The Canadians were the first to score, mainly through the skill of Turnbull, but the Englishmen quickly equalized, and their play reached such a high level of excellence that in the game's infancy it was obvious that the battle would be a rousing one. But the Canadians, greatly indebted to their captain, Brennan, by supreme tact, each man knowing to a nicety what the other could do, led by five goals to one when the ends were changed, and at half way they were in front by six to two. From this stage there was really little to choose between the two teams, and when the score in the third period was nine all the spectators were fired to a high pitch of excitement. But the Canadians held to the uncertain position with grim determination, and through Gorman, Turnbull and Brennan ran out victors by fourteen goals to ten. Everybody was sorry when the end came. The game, witnessed by a distinguished crowd, including Lord Desborough, Lord Roberts, Mr. A. J. Balfour and the Lord Mayor of London, was a succession of thrills. Nothing like it has been seen at the Stadium since the stirring days of July.

Let me offer special praise to the New Westminster veteran, A. Turnbull. Such a player has probably never been seen in England before. Together with his captain, Brennan, he had more to do with the defeat of the United Kingdom than any other player. He was really great. Lacrosse, as played by the Canadians, is essentially one to be exploited by the youth at home, and now we are quite sure that it offers a rare spectacular treat. And I would add that the game was fought in the best possible sporting spirit. It was all that was chivalrous.

PROSPECTUS

Pitt Lake Brick and Cement Company, Ltd.

NEW WESTMINSTER, B. C.

Having been authorized by the Company to sell stock of the above Company I hereby submit to the public the following particulars: Capital, $100,000. One thousand shares at $100.00 each at par.

Subscription list is opened today for $50,000 only there being applications already made for $40,000, and the list will remain open for ten days when it will be closed. Should the amount be over-subscribed by the public there will be issued to the subscriber his proportion of shares applied for.

The following gentlemen have interested themselves previously to the registration of the company:

E. J. Fader	$20,500.00	Thomas Freeman	500.00
H. P. Naylor	10,000.00	T. S. Annandale	500.00
Dr. R. E. McKechnie, Vancouver	1,000.00	Percy Shadforth	500.00
E. P. Bishop	1,000.00	John A. Montgomery	500.00
Dr. J. W. Thompson, Vancouver	500.00	Charles E. Doherty	500.00
W. H. Keary	500.00	Mrs. F. P. Bishop	100.00
T. S. Hall, M. D.	500.00	Miss Eagle	100.00
W. G. Schroeder	100.00	Edwin R. Fitzgerald	500.00
J. E. Allan	500.00	White & Shiles	500.00
Joseph Reichenbach	500.00		

NO APPLICATION WILL BE RECEIVED AFTER TEN DAYS FROM THE ABOVE DATE.

The offices of the Company will be at the Northern Crown Bank, 248 Columbia Street, New Westminster, B. C.

Present Directors of the Company are:

E. J. FADER, Lumberman, President and Managing Director.
J. REICHENBACH, Wholesale Meat Merchant, Vice-President.
J. E. ALLAN, Bank Manager, Secretary-Treasurer.
H. P. NAYLOR, Vice-President Berg Machinery Manufacturing Co.
W. J. WHITESIDE, Solicitor.

BANKERS—NORTHERN CROWN BANK.

The Solicitors of the Company are Whiteside & Edmonds, New Westminster, B. C.

Any person subscribing $5000 or over may become a Director of the Company upon application, subject to the approval of the Board.

It is proposed to issue the stock on the instalment plan, 20 per cent. upon application, and 20 per cent. monthly until fully paid.

The property the Company proposes to take over is known as Timber Berth No. 400, and situated on Pitt Lake, covering an area of 214 acres tributary to New Westminster and also two mineral claims situated in the middle of said property, covering an area of about 2000 feet by 1500 feet wide, and known as the Silicon Mineral Claim No. 1, and Silicon Mineral Claim No. 2, which when Crown granted entitles the Company to all the mineral rights therein under the Laws of the Provincial Government of British Columbia. The timber berth covers all the rights to all the timber thereon the said area mentioned which has abundance of timber to supply the plant with fuel and timber for many years to come.

The property is situated adjacent to the shore of Pitt Lake which is a distance of about twenty-eight miles from the City of New Westminster, and affords navigation all the year round for steam boats and river boats and barges and has an ideal harbor where the said plant will be erected to operate on the ground. On this property there is a large deposit of clay of a cement nature which is very accessible, the bench of clay being over fifty feet high above the level of the water, which affords easy access to excavation. The clay bank mentioned is between 2000 and 3000 feet long by from 200 to 800 feet wide and affords a natural incline for transportation from the bank to the plant which will be a distance of about only 400 feet from the lake shore. The clay has been thoroughly tested by the Berg Machinery Manufacturing Company, of Toronto, which was reported on in report hereto as follows by H. P. Naylor.

The Pitt Lake Brick & Cement Company, Limited, New Westminster, B. C.

Gentlemen,—I hereby beg leave to report to you that I have on the 4th day of October, 1908, examined the property above mentioned in your prospectus on Pitt Lake and have found the material on the property to be the same as that sent to us for testing by Mr. E. J. Fader, of New Westminster, which has given the following results, that is to say: Some few months ago samples were sent to our Toronto plant by Mr. E. J. Fader for testing. We found on analysis that this clay contained properties of a very unusual nature containing almost every mineral necessary for the making of Portland Cement. We found by drying in a rotary kiln and pulverizing and pressing that we could make brick from it without burning that was superior in our opinion to any brick manufactured in Canada, being perfect in appearance, extremely hard and of great fire resistance, and also non-porous, such as we have furnished the Pitt Lake Brick and Cement Company and stamped "Berg," which speaks for itself. My Company, namely the Berg Machinery Manufacturing Company, Limited, has guaranteed to the Pitt Lake Brick & Cement Company the manufacture of these brick at a cost on the ground not to exceed $4.00 per thousand as per exhibit. The brick was tested in the School of Practical Science of Toronto and the crushing test was 3,749 lbs. to the square inch. (Signed) H. P. NAYLOR,
Vice-President Berg Machinery Manufacturing Company.

The following is the report of J. O'Sullivan as to the fire test: Vancouver, B. C., June 29th, 1908.

E. J. Fader, Esq., New Westminster, B. C.

Dear Sir,—I beg to report that the present silica brick submitted by you for fire test was subjected to a white heat in my wind furnace i.e., to a temperature ranging between 1300 and 1400 degree centigrade, or 2372 to 2552 degree Fahrenheit for 1¾ hours without disintegration. The only effect of this great heat was to cause a slight crack in the brick due mainly to the escape of steam from the water of combination of the plastic material of the brick. In my opinion a building constructed of this brick would withstand the destructive action of fire, and can therefore be used with perfect safety. Yours faithfully, J. O'SULLIVAN, F. C. S.

It can readily be seen from the above report that the brick intended to be manufactured by the Pitt Lake Brick & Cement Company, Ltd., can be placed on the market at such a price that no other pressed brick manufactured in Canada can compete with it.

It is the intention of the Company to proceed with the erection of the plant at the earliest opportunity and place the brick upon the market of British Columbia and other places where a market can be had. Mr. E. J. Fader has agreed to sell to the Company the whole of his interest in the said property as above mentioned for the sum of $30,000, payable as follows: $2000 in cash, and $28,000 in stock in the Company. Apart from this Mr. E. J. Fader subscribes to the Company for $20,000 treasury stock, which he agrees to pay within two years.

This proposition, without exception, is believed by most expert men to be one of the best brick propositions that has been placed upon the local market, considering the fact that the brick in question is a waterproof brick, which as far as we know, cannot be found in the whole Dominion of Canada, and has all the qualities of a first class brick. As you will note from the above report by Mr. H. P. Naylor, it has a crushing test of 3749 pounds to the square inch, which it is doubtful if any other brick made can equal. Apart from this, it is a handsome brick and will make a very pretty finished building.

The subscriber can easily judge from the cost of the manufacture guaranteed by the Berg Machinery Manufacturing Company, namely $4.00 per M what an enormous profit there must be made from the proposition, considering the fact that our local pressed brick and Seattle pressed brick is placed upon the market above $30.00 a thousand, places us in a position as you will readily see to cut those prices in two, if necessary, and then make 300 per cent. on our output, and I see no reason why the people of New Westminster should permit the outside public to take up this stock when they have at their door a proposition which cannot be surpassed by any which have been formed in British Columbia. I have already formed several companies here that the public of New Westminster know, and have made for foreign capitalists enormous sums of money which really should have remained at home. This is the first time that I have formed a company in New Westminster and asked the present public to subscribe, and I want you to plainly understand that I am not doing so with the object of coaxing you into the proposition. I am merely offering it to you as a good, solid, bona fide investment, and I am giving you the first opportunity to subscribe and at the same time knowing that the stock will be readily subscribed within thirty days in the East. I therefore consider those who have the money to invest should not lose the opportunity as there is not the slightest doubt that this Company will pay enormous dividends. Work commenced on the ground last week, and a gang of men is now clearing a site for the plant and opening large cuts into the clay, so that visitors may have an opportunity of visiting the property and seeing for themselves at any time.

The Company anticipates having the plant running within six months from the above date, and you therefore should not miss the opportunity of getting in your application at an early date.

Samples of the brick and clay may be seen at my office at the Northern Crown Bank, New Westminster, and any further information that any subscriber wishes to know, I shall be pleased to give them such particulars at my office.

Ladies or gentlemen are invited to subscribe. (Signed.) E. J. FADER, Promoter.

PITT LAKE BRICK AND CEMENT COMPANY, LIMITED.

To the Directors of the Pitt Lake Brick & Cement Company, Limited, New Westminster, B. C.

Gentlemen,—I hereby make application for .... shares in the above named Company of One Hundred ($100.00) Dollars each, and request you to allot me that number of shares; and I hereby agree to accept the same or any similar number that may be allotted to me, and pay for the same as follows:

Twenty per cent. on the signing of this application; and 20 per cent. monthly until paid. And I authorize you to register me as the holder of the said shares.

THE DAILY NEWS

Published by the Daily News Publishing Company, Limited, at their offices, corner of Sixth and Front streets, New Westminster, B. C.

E. A. Paige.....Managing Director

MONDAY, NOV. 16 1908.

THE RACE AND CREED CRY.

The Toronto News seems to be descending in tone and influence. Its power at one time had to be respected, but fallen from grace as it is, we did not expect that in explaining away the failure of its insincere and furious campaign methods to sweep Ontario, it would resort to the race and creed cry in an effort to start sectional strife. The starting of this little camp fire may be the cause of devastating every branch of our Canadian Commonwealth, social, religious, and commercial, and finally result in bloodshed and pillage. It is so easy to start a fire but it is sometimes difficult to control one, and we are glad to find the Montreal Gazette (Conservative) denouncing the policy of the Toronto News and those eager for place and power who are behind it, and who would rather disrupt Confederation than remain in opposition.

Those whose memory runs back to the evils that existed under the old Union of Upper and Lower Canada do not wish to see a recurrence. The News-Advertiser in a calm, dignified article in yesterday's issue says: "The country must be regarded before party; peace and harmony between the two races must be a consideration superior to any political advantage." The fact is that the Toronto News started out with assertions for which up to the present it has not furnished a particle of proof. Amongst other things it says: "Moreover the Prime Minister has developed a fine cunning in his method of appealing to the French sentiment, and it may be just as well bluntly stated that he has become a professional trader in race feeling." Mind you this is not supported by the naming of a single instance, and is at variance with the views expressed by the same writer in his "Life of Sir Wilfrid Laurier" on an address delivered by Sir Wilfrid at a time when it was considered by the ultra-montanes to be a mortal sin to vote for a Liberal. In his comment Mr. J. S. Willison says: "He had to face the frowning front of the autho rities of his church, to respect the conservative instincts of the English-speaking people of his Province, to consider the racial sensitiveness and religious feelings of the French Canadians, and to command the favorable judgment of the great body of Liberals throughout Canada." And again on the vital part of Sir Wilfrid's speech Mr. Willison declares, "that he declared uncompromising resistance to the arrogant assumptions of the Ultramontanes, and boldly affirmed the right of the Catholic elector to control his own franchise, rest in his own judgment, and exercise all the freedom and authority of independent citizenship. Here he struck the very root of clerical pretension, and calmly confronted influences before which even Cartier has succumbed, and which all men deemed invincible in the Province of Quebec." Mr. Willison, since the days when he chronicled the unflinching stand Sir Wilfrid took against clerical interference or coercion, has found bad companionship, his good manners have been corrupted, his words now have not the honest ring they had when he was free to praise the right and condemn the wrong. It is belittling his ability to say he is compelled to write as he is now doing at the bidding of his masters. If the control of the News cannot see the appalling error being made in raising the race and creed cry, then we think the editor is lacking in patriotism in not pointing it out to them.

There can be no doubt that the French Canadians are proud of Sir Wilfrid Laurier. Bred at their own hearthstone, making his way against the heaviest odds a public man will ever have arrayed against him in Canada, to be its greatest Commoner and to stand out as he does one of the greatest nation builders Great Britain has seen in a century, a credit to Quebec and its predominant race, an honor to Canada, and a pillar to the Empire, why should not the French Canadians be proud of him?

Because a little temporary work is being done at the mouth of the river to allow some vessels to come in in safety, it is being held up, to ridicule in the member elect's paper, the Columbian. For the information of that journal, we would say that the Fruhling dredge is upon the high seas, and will take nearly three months to make the voyage under good weather conditions, and if we mistake not will be in operation on the river long before the C. P. R. is double tracked west of North Bend, and it is possible will have completed the work on the river before the bricks are made for the Land Registry Office. In the heat of a political battle it was claimed by the Conservatives that the Fruhling wireless was only a joke of some light headed irresponsible and should not be made to tell against the great work of deepening the channel, but now all these kicks make it the more difficult to get the department to view those effusions in that light and the fool catcher should get busy if the people wish the Government to continue the work on the river. The Columbian is on file in the Senate and Commons libraries and in the Department of Public Works, and such ridicule can be made an excuse for cutting off the work while even as a news item it could not possibly do any good.

SNOW IS FALLING OVER MIDDLE WESTERN STATES

The Beautiful Is Reported from All Quarters—Fourteen Inches at Muskegon, Michigan.

Chicago, Nov. 15.—Winter is here. Snow fell in Chicago yesterday and in the afternoon lights were necessary in all the homes and offices to dispel the attendant darkness.

The snow fall was general throughout the middle west.

Continued cold weather all over the middle west is predicted and there possibly will be snow flurries enough to give the ground and foliage a real winter aspect. There is no prospect of warmer weather for several days.

The first heavy snowstorm of the season raged along Lake Michigan. Fourteen inches of snow is reported at Muskegon and street car traffic is interfered with. Ten inches was reported at Grand Haven.

The Austrian Cabinet Crisis.

Vienna, Nov. 15.—Baron Richard von Bienerth, minister of the interior who was directed a few days ago by the emperor to form a new cabinet has failed in his endeavor, and has suggested that the emperor appoint a temporary cabinet. The Austrian cabinet resigned on account of dissensions between the German and Czech ministers regarding recent racial conflicts in Prague and other towns.

A meeting of the officers, non-commissioned officers and men of H company, Sixth D. C. O. R., will be held in the armouries on Tuesday evening at 8 p.m. at which every officer, non-commissioned officer and man is expected to attend.

The Westminster Liberal association meets in the club rooms, corner Columbia and McKenzie streets, every second and fourth Thursdays at 8 p.m. Visiting Liberals welcome. A. E. Kellington, president; J. W. MacDonald, secretary. **

James Green, of Penlin, Cal., is spending a few days in this city visiting his brother-in-law, Alex. Ferguson, of Third avenue, having come here from North Yakima, Wash., where he enjoyed a lengthy summer vacation. Mr. Green is engaged in the nursery business.

The inquest on the victims of the interurban accident of Nov. 7 will be held this afternoon in Center & Hanna's rooms, Vancouver, at 1:30 p.m. All the necessary witnesses are expected to be able to attend. The injured are going on satisfactorily and except two with broken legs, will be able to leave the hospital ths week.

This evening a rally of the Epworth Leaguers and their friends from Sapperton, the West End and Queens avenue, will be held in the school room of Queens avenue church at eight o'clock. The Rev. R. M. Thompson, of Sapperton, who spent the first four months of this conference year in the Nechaco and Bulkley valleys and went as far as Hazelton overland in the interests of the Methodist church, will give an address on what he saw in that part of British Columbia.

A large number of fishermen attended a meeting called in their interests at Hardman hall on Saturday afternoon, when the chair was taken by T. Weldon, president; P. Peterson attending to the duties of secretary. The men were in session for over two hours, the press being excluded from the meeting by ruling of the chair. According to statements made by officials after the meeting, legislation affecting the interests of the Fraser river fishermen was discussed, but no definite action was decided on. Another meeting will be held on Saturday, Nov. 28, when certain drastic measures now under consideration will be finally decided upon.

ADVERTISE IN THE NEWS

WOULD-BE MURDERER COMMITS SUICIDE IN POLICE CELL

Morris Haas, Who Attemped to Kill Graft Prosecutor Heney, of San Francisco, Ends His Life in Dramatic Manner—Mystery Surrounds Shooting.

San Francisco, Nov. 15.—Morris Haas, who on Friday attempted to assassinate Francis J. Heney, last night committed suicide by shooting himself through the middle of his forehead with a pistol he had concealed about his person. Haas went to bed at eight o'clock at the county jail and covered up his face a blanket. At 8:40 a shot was heard from his cell and when the guards entered it was found that he had rolled out of bed and was lying dead on the floor, with a bullet hole in his forehead. A 41-calibre single shot derringer was grasped in his hand. His left trouser leg was pulled up and examination showed a mark on his leg where the weapon had rested while concealed in his left shoe.

Haas wore gaiters with elastic sides, which made this possible.

After he shot Heney Haas was searched by Police Captain Duke, Detective Burns and a police officer. After he had been taken to the county jail, he was searched again, but at neither time were his shoes examined.

Find a Cartridge.

District Attorney Langdon, Detective Burns and Rudolph Spreckels, on their arrival at the county jail, after the suicide of Haas, searched his clothing, and in one of his trousers pockets found a cartridge of the same calibre as the deringer with which he shot himself. The weapon that Haas used in his attempt to kill Heney was a 38-calibre, and the cartridge found in his pocket could not have been used in that.

Detective Burns said that Haas was thoroughly searched when he was taken in the court room, and also when he was received at the county jail, and that the cartridge and deringer could not have been upon his person. He expressed the opinion that the pistol had been passed to Haas since he was taken into custody.

While in the county jail Haas was in the charge of the police, and Policeman Boyle was standing within two feet of his cell door when he shot himself.

Haas' wife called at the jail yesterday to see him, and two stories are told as to where the interview took place. One story has it that Haas talked to his wife through his cell door, and the other that they were allowed to go into another room. The conflicting stories could not be reconciled. A rigid investigation will be made by the authorities.

Haas' body has been removed to the morgue.

Makes No Disclosures.

A report to the chief of police was made by Detective Thomas F. Burke, who slept in the cell where Haas was last confined. The contents have not yet been made public, but it is known that the prisoner made no disclosures regarded as important. Upon the matters included in his statement of last night he talked freely when questioned, but at times he rambled as if unconscious of what he was saying and again he lapsed into moody silences, broken only by meaningless mutterings. The detective declared that Haas acted like a man intoxicated and expressed a belief that he was at least partially demented.

Haas was questioned closely about his possession of the revolver with which the shooting was done, and of a number of extra cartridges found in he pocket. He said that he had owned the weapon since 1901, that it had been in his pocket since Thursday, and that he had carried it at various times during the past few years.

In discussing the motive for his attempt upon the life of Mr. Heney, Haas continually made reference to the disgrace of his exposure by the prosecution, and his answers conveyed the idea that he had brooded over the public reference to his past life to a considerable degree.

TENDERS

Sealed tenders addressed to the undersigned, and endorsed "Tender for Public Building, Vernon, B. C." will be received at this office until 4:30 p.m. on Friday, November 27, 1908, for the construction of a public building at Vernon.

Plans and specifications can be seen and forms of tender obtained at this Department, and on application to the Postmaster at Vernon.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 per cent.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

NAP. TESSIER,
Secretary.

Department of Public Works, Ottawa, Oct. 20, 1908.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

PHILLIPS, *THE WARDROBE CLOTHIER*

209--211 Columbia Street

Synopsis of Canadian Homestead Regulations.

Any available Dominions lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

THE STAGE

"Hip! Hip! Hooray."

Laughter comes with such rapidfire force and spontaneity in Rice and Cady's "Hip! Hip! Horray!," which will be seen here at the Opera House on Wednesday night, November 18, that it is generally conceded one one of the funniest evening's entertainment ever shown by a piece of the Weber-Field type. As a matter of fact it ran all last season at Weber's Music Hall. It is interesting to note that the same wonderful production will be seen here. Rice and Cady are supported by a company of 60 people, including May Phelps, Belle Dale, Rose Leslie Mazie Trumbull, William Mack, Harry Shunk, Thos. Lynch and Wellington Cross. Edgar Smith, the author has dished up character studies and fitted each one perfectly and no musical farce in years has met with more encouraging reception from the start. All the foibles of the youthful frivolous are revealed in many moods. There is as much literary quality to "Hip! Hip! Horray!" as it is intended that any Weber show should have. Gus Edwards' musical numbers are all encore winners and the staging by Julian Mitchell has been crowded with novelties.

On Parole.

No; a few people will appreciate the sense of humor in the following incident occuring in the earlier life of William Mack, who is staring in "On Parole," appearing at the Opera House on Friday, November 20.

At the beginning of his stage career, Mr. Mack essayed to break into the profession (as it were), by calling upon a certain manager whom he believed would give him encouragement. He was doomed to disappointment, for the theatrical man, after listening to the youthful, would-be Thespian tell of his hopes, tried to dissuade him from following his natural bent, in the following characteristic words: "You will find it a most unhappy lot, my boy; it is like wearing a high collar—you always try and smile and look happy, while the pesky thing is galling the life out of you."

Sir Edward Clouston, general manager of the Bank of Montreal, who has been the recipient of a baronetcy, was one of the guests who accepted Mayor Keary's invitation to the recent exhibition but was unable to attend. He has contributed liberally to the pageant fund for the future commemoration of the worthies of British Columbia.

As far as is known the first prosecution under the opium laws enacted at the last session of parliament on this coast will come up in the city police court this morning. The case is that of Ben Long, a Chinaman, who will be charged with selling the drug to a white man. The paraphernalia was seized by the police, and will probably be confiscated. It is not yet known under which section the man will be charged. As the white man is a material witness, he is being detained in custody.

A large number of Westminster people interested in temperance work will be going over to Vancouver on Wednesday of next week, when delegates from all parts of the province will be in attendance. Three meetings will be held, one in the morning at which all representatives of temperance leagues will be admitted, the second in the afternoon in the Odd Fellows' hall, this being in the nature of a public demonstration, and the third in the evening, when a monster rally will take place. Local option will be the issue discussed at all three meetings.

A statement appears in the Vancouver press that the Y. M. C. A. basketball team of that city has accepted the challenge of the Westminster boys. This season's team has issued no challenge, and the statement arises from the fact that the local boys issued a challenge last year which was not taken up, although the Westminster team offered to play under the Y. M. C. A. conditions. No answer was sent to their request for dates, but if the Vancouver team want a match the local team is quite ready, and will not let the game drop for lack of getting dates from outside teams.

After having been expected for three years, a cabinet built specially for holding the trophies won by the Westminster Lacrosse club has at last been installed in the Carnegie library, thanks to the initiative of C. A. Welsh, who decided some weeks ago to take the responsibility of carrying out the instructions issued by the club early in 1906. Six cups, including the Minto and Kilmarnock championship trophies, as well as the Dewar shield, have been encased in the cabinet, but there are still a large number of other championship cups in private houses which the executive committee of the lacrosse club is desirous of adding to the collection.

An enjoyable time was spent at the home of Mr. and Mrs. A. Hardman, Ash street, on Saturday evening, the occasion being the silver anniversary of their wedding. Friends to the number of twenty-six were entertained, the early part of the evening being spent in games and social intercourse. At ten o'clock the company adjourned to the dining room, where an elaborate repast had been prepared. A number of after dinner speeches, complimentary to Mr. and Mrs. Hardman, were delivered by the guests, reference being made to the esteem in which the couple is held, as instanced by the many valuable presents tendered them that day. Included among the invited guests were Rev and Mrs. F. A. Magee, Mr. and Mrs. George Adams, Mr. and Mrs. George Cunningham, Mr. and Mrs. Tupper, Mr. and Mrs. Kenny, Mr. and Mrs. J. McClughan, Mr. and Mrs. A. E. Etherington, Mrs. W. Ac Gilley, Miss Deans, Miss L. Davies, Miss M. Forman, Mrs. Trowse, A. James and J. W. MacDonald.

Popular Goods

at LOWER THAN USUAL PRICES

The following list of goods contains prices and descriptions of lines which are in great demand at present. We endeavor to meet these demands with reliable merchandise, availing ourselves of every opportunity to buy at prices for cash that enable us to offer specially low prices.

Long GLOVES at Short Prices

$1.95 per pair

For regular $2.75 and $3.00 values

Sixteen button suede gloves, Reynier's make; an unusually large stock of this style makes this sacrifice necessary. You profit by buying a pair of these gloves while you have the chance. All sizes; grey and black only; special price $1.95

An Attractive Line of ***TINSEL BELTS***

25c Each

Five dozen ladies' silk and tinsel belts in [illegible] and [illegible] shades; widths [illegible] 2 and 1½ inches; sizes 24 to 30 inches. Regular values [illegible], our special price, each 25c

EXTRA WIDE NECK RUCHING

An abundance of dainty [illegible] ruching in all widths [illegible]. The great difficulty has been to obtain this popular ruffling wide enough. See the new stripe colors, sky, pink, cream, two-tone, black and white, sold by the yard or by the neck length.

Dainty White Muslin WAISTS

It used to be that these muslin waists were sold only during the summer season. Probably the reason why this is changed and they have become so popular all the year around is because the styles have been so improved. At any rate white waists are in great demand. The new styles being shown are remarkably attractive; they are generously trimmed with embroidered fronts, lace yokes, tucks and plaits. Each $2 to $6.75

Children's Wool Combinations

Sizes 2 to 10 years; fine ribbed all wool combinations, soft finish, non-irritating to the tenderest skin. For children's wear these combinations are particularly adapted. They are a great deal less trouble than two-piece undergarments and they are more comfortable. Prices according to size, each ..$1.00 to $1.50

Children's Plush Sleeping Suits

Made of heavy plush fleece-lined material of exceptional warmth; suits have roll collar, button front, pocket and feet of same material; sizes for children from two to seven years of age. Each ....60c and 65c

Plush Slip Waists made of the same warm material as the sleeping suits; a great protection and cold preventer for the children. Each 35c

STYLE and COMFORT assured in the wearing of a new

Jersey or Golf COAT

The attractive appearance of the new styles together with the quality is making these garments the hit of the season. Hundreds of ladies, misses and children have provided themselves with a comfort giving garment and are unanimous regarding the satisfaction they give. You can have them in Norfolk coat style with pockets and belt with vest or high collar effect.

LIGHT FITTING BEST STYLE OR BLOUSE STYLE

In all colors and sizes, and there are no garments so economically priced. Ask to see them in the ready to wear department.

NEW DESIGNS IN STAMPED CUSHION TOPS

Many a new design in dainty homelike patterns in these cushion tops, floral conventional, souvenir designs, and at lower prices than usual. Each 25c to 75c

Ready to Use Cushion COVERS

All ready for the cushion form made of such materials as linen, duck, sateen, cretonne, colored muslin, white muslin, all nicely made with frills and worked designs; all colors. Each ....50c to $1.50

Lithographed and Tapestry TOPS, 25c each

Fifteen dozen of these serviceable and economical cushion tops bought by us at a specially low price enabling us to offer the greatest cushion top value possible in this price. Included in this lot are several dozen tops from our regular stock which have become the least bit soiled. All one price to clear, each 25c

CUSHION GIRDLES AND FRILLS

Cushion Cords in new [illegible] lengths and finish. Each 25c, 45c to $1.00

Fancy Scrim Frills, 4½ yards long with drawstring; ground in plain color with colored stripes, in different shades; widths 4 to 5 inches. Each ....75c to $1.00

Striped Ribbon Frills, 4½ yards long, similar in style to scrim frills, but made of stiff satin ribbon, 4 and 5 inches wide. Each ......$1.35 to $2.00

UMBRELLAS *New Handles to select from*

The same old reliable coverings, such as umbrella sateen, Gloria Taffeta finish, but with dozens of novel and attractive handles. A new range has been received which includes our complete Christmas showing. Many gold and silver mounts are shown, a great number of which have space suitable for name engraving. Select from these early and be ready.

Men's Umbrellas, self opening variety, equipped with strong, quick action spring. Each ....$1.25 to $3.75

Men's Plain, open yourself style with strong, durable tops. Each ....$1.00 to $8.75

Ladies' Umbrellas, in gold and silver, metal, pearl, bone and rustic handles. Each ....85c to $15.00

Children's School Umbrellas, a new lot with fancy bone and wood handles. Each 75c

W. S. Collister & Co.
