late Andrew Kirk came to Brit- olumbia from Manitoba last De- r and settled in the Okanagan having purchased a farm from James Rae, of that place. After living on the farm for a while and having paid five hundred dollars on account, he decided that he had got the worst of the deal, and refused to pay any more on the place. Suit was brought against him in February of this year, and a judgment was obtained by Rae for $4,106.70. The case was heard at Vernon. Mr. and Mrs. Kirk then came to New Westminster, and a short time later an execution was placed in Sheriff Armstrong's hand to collect the money from Mr. Kirk, but the defendant persistently refused to settle on the ground that the farm had been misrepresented to him. He was taken before the court on May 14, as a judgment debtor and then it was found that all the property was in Mrs. Kirk's name, and the money could not be collected. It is understood that the matter is still being pressed, and that Mr. Rae's attorney is seeking to learn whether the Kirk property was transferred to Mrs. Kirk in order to avoid payment of the Rae account, and that if it is found that such is the case action may be taken to recover payment from her.

Whether the loss of the $500 paid to Rae on account of the farm or the troubles over court matters affected Mr. Kirk's mind is not known. Mrs. Kirk affirms that her husband did not worry about business, and in fact since his coming to New Westminster he had in several deals more than made up the loss sustained in the farm property.

A Pleasing Affair.

A delightful "at home" was tendered, yesterday afternoon, by Mrs. W. I. Rogers at her residence, 112 Sixth street, in honor of Mrs. Sullivan, a relative who returns home to San Francisco this evening.

The reception took the nature of a lawn party, an interesting feature of which being a conundrum contest. The first honors were carried off by Miss Vera Gilley, while the booby prize went to Miss Henry. Dainty refreshments were served during the afternoon.

Those present were: Mesdames—Berry, Sullivan, G. Levar, S. Levar, Cormac, Benson, R. Wintemute, G. W. Gilley, W. H. Kelley, Wilber Smith, F. M. Eddy, J. A. Clark, L. Netherby, Jackson; Misses—Vera Gilley, Henry, Milberry, and others.

HABEUS CORPUS CASES DECISION IS RESERVED

Two Habeus Corpus applications were made yesterday in supreme court chambers before Mr. Justice Clements and decision was reserved in each case.

One was in behalf of Cheslatta Jack, an Indian who was sentenced to serve one year in jail for stealing a rifle and mink skins from other Indians near Bella Coola. The case was tried at Bella Coola on the first of July by the local magistrate. The ground for the application was defect in committment. W. J. Whiteside appeared for the crown and J. P. H. Bole for the applicant.

The other application was made on behalf of Dr. Charley, another Bella Coola Indian who was committed to serve six months by a Bella Coola magistrate on the charge of stealing a cow. The grounds for the application in this case was also defect in committment.

The chambers list contained an important case in which Fort Langley people are concerned. J. D. Kennedy applied on behalf of Mrs. Carter of Langley for an order authorizing the cancellation of townsite plans of a certain street in Langley which runs through her property. Mr. Catrer has purchased the four lots which flank the street on each side and is anxious to have the street cancelled thereby making her property into one piece. Decision was reserved.

CHINESE MUST PAY.

Charley Sing, Contractor, Objects Gets Thirty Days, Then Pays up.

For several years past, the Chinamen employed in canneries and ranches along the river have refused point blank to pay the road taxes, and until this year, no steps had been taken to enforce payment. Charley Sing, a contractor who supplies the Chinese workers at the St. Mungo and other canneries, was summoned this week for refusing to pay $46 taxes for himself and his men, and sentenced by the police magistrate at Ladner to spend thirty days in jail. Sing refused to part with the money until he heard the prison doors open to receive him, when he produced a fat roll and separated from the necessary amount. He was allowed his liberty. Several other Chinese contractors will be dealt with in the same way during the course of the next two weeks.

Vigilant Stops a Bullet.

London, Ont., Aug. 22.—Agnes Thomas shot and instantly killed Phillip Gilbert at Wiarton, Ontario, last night. The Thomas woman and another were conducting a house of ill-fame on the Docks, a residential portion of the town, and the citizens not desiring their presence, formed a vigilance committee and attempted to drive them out, when the Thomas woman drew a revolver and shot Gilbert dead. The woman was arrested.

JUDICIAL DECISION STOPS CONSTRUCTION

Railway Took Too Much Right-of-Way Land---Suit Goes Against It.

As a result of the decision handed down yesterday by Mr. Justice Clements in the Weaver vs. Victoria Terminal Railway & Ferry company case, there is a probability that construction on the New Westminster-Blaine cut-off, which the Great Northern railway is in reality building, will be held up for months and possibly till next spring. The ruling of the court was that the railway company should not proceed in its designs to acuqire more land than the prescribed 100 feet for a right-of-way pending the trial of the case by the courts.

A brief history of the case is as follows: John Weaver conveyed to the railway company a right-of-way through his land which lies between Blaine and Olivers. The width of the right-of-way was to be approximately 100 feet, but narrow in some places and wider in others. The survey of the line runs along the sea shore over Mr. Weaver's property and for some distance it parallels a dyke which Mr. Weaver and associates built for the purpose of draining the mud flats. On the 15th. inst., the railway company entered into possession of the property and commenced throwing earth with the steam shovel, not only from the 100 feet which had been conveyed to them in the Weaver agreement, but taking in fifty feet extra on each side of the 100 foot right-of-way which practically would give them a two hundred foot right-of-way.

On the 16th. inst. W. J. Whiteside on behalf of Mr. Weaver, applied for an ex-parte injunction restraining the company from taking possession of the extra fifty feet on each side. The injunction was made effective until yesterday, when Mr. Whiteside applied to have the injunction continued till the date of trial. This was agreed to by the court. R. L. Reid, acting for the company, stated that his clients were very anxious to proceed with construction and that he would be willing to put up any reasonable amount of money as a guarantee, but Mr. Whiteside took the stand that he had no authority from Mr. Weaver to waive any rights that he might have, and as the matter stands the company will simply have to cease work until exappropriation proceedings shall have been carried out. In commenting on the case the court stated that the company should have secured the extra fifty feet on each side of the dyke or whatever property they required before taking possession.

STOLE A BOAT.

French Canadian Chagrined to Find Small Craft Missing.

Teddy Le Blanc, a French Canadian who walks about on crutches, having had a leg broken a few months ago, was yesterday the victim of a theft, his boat, which he had left tied up near the C. P. R. wharf, having been stolen, supposedly by young lads who wanted to enjoy an outing on the river.

Le Blanc has promised to make things interesting for the culprits if he can manage to catch up to them. In broken English he informed the News yesterday that he would hurt the boys so badly that the staff at the hospitals would be overworked in consequence.

Shots at Ringling's.

Seattle, Aug. 22.—Angered because a canvassman ejected him from the menagerie tent at the Ringling Bros.' circus last night, Lee Waldon, a laborer, drew a revolver and made an attempt to murder the show employe. The bullet missed the canvassman and passed through the animal tent and into the big tent. Fortunately the bullet struck no one.

After an exciting chase, in which four shots were fired at Patrolman Paul F. Haubris, the officer caught the assailant, who had been shooting in the direction of a crowd in front of the main entrance. Waldon was sent to the police station and locked in a cell. No charge has been placed against him.

KEEFER'S CHART SHOWS HIGH WATER MARKS

Accurate Record Dates Back Thirty Years---Low Point Touched This Year.

A chart showing the rise of water in the Fraser during the freshets for the last dozen years has been presented to the city by G. A. Keefer, resident engineer for the Dominion government. It also shows the high water mark recorded during the high years since 1876. All measurements were taken at Mission bridge, and comprise an entire record during the months of May, June and July.

The highest point recorded in the last 30 years was 25 feet 9 inches, this height being reached on June 5, 1904. Next comes June 14 1882, when the water raised 23 feet 10 inches, and six years before, June 29 1876, a height of 22 feet 9 inches was reached.

The chart reveals a fact in connection with the 1907 high mark that rather dashes the reputation of prophets who predicted last winter that the present would be another flood year. Far from 1907 being a flood year, the highest point touched at Mission bridge was lower than the record rise during any other year since 1894, with the exception of 1902, 1905 and 1906. The 1906 record was the lowest, being only 13 feet 6 inches.

Following are the dates and measurements of high records during the last thirty years:

1876 June 29, 22-9; 1882, June 14, 23-10; 1894, June 5, 25-9; 1895, June 13, 19-8; 1896, July 9, 21-9; 1897, May 24, 18-5; 1898, June 16, 18-6; 1899, July 13, 19-1; 1900, June 27, 21-1; 1901, June 3, 19-6; 1902, July 7, 17-6; 1903, June 18, 22-6; 1904, July 11, 18-1; 1905, June 12, 16-3; 1906, July 13, 13-6; and 1907, June 4, 17-8.

The chart will be framed and placed on view in the Carnegie library.

Rabbi Hirsch Turned by Russians.

Paris, Aug. 22.—Very few persons are in Paris just now against their will, but such is the position of Dr. Hirsch of Chicago, one of the foremost rabbis and workers for the benefit of Russian Hebrews. Dr. Hirsch came from Chicago to make a special endeavor on their behalf, but was turned back when he reached the Russian frontier. He returned to Paris and is now at the Grand hotel debating what next to do.

Sam Preston, who has been under treatment in the Vancouver hospital for some weeks past for inflamatory rheumatism, returned to the city yesterday afternoon.

TWO INDIAN CONVICTS EMULATE BILL MINER

Pining For Freedom, Prisoners Steal Only Boat on Wright Island, Carry Off Pigeon Post, and Sail Away to Liberty---Officials Feel Much Annoyed At Escapade.

Two more convicts took French leave from the custody of the penitentiary officials late Wednesday evening and are still going, although a dozen guards are on their trail determined to run them to earth. The escape took place from Wright island, in Pitt river, where the men were employed on the wood-cutting gang, in charge of guards Tomilson and Sullivan.

The escaped men are Louis Kelly, a full-blooded Indian who was sentenced to two and one half years for robbery at Quesnel in October 1906, and William Brewer, a half-breed who was sentenced to serve four years, the committment having been made at Vernon dating from December 6, 1906. Both were young men, Kelly being 24 and Brewer 19 years of age.

Wright island comprises a small patch of wooded land about twenty-five miles from the city in Pitt river. Thirteen trusties and two guards were stationed on the island and were engaged in cutting wood for the penitentiary.

The two fugitives were not missed until 9 o'clock the regular retiring time, on Wednesday evening. On discovering the two of their charges were nowhere to be seen, the guards went to the boat house and found that the padlock had been broken from the boat and the craft taken away. On running to the carrier pigeon coop to send a winged message to the penitentiary, it was discovered that the conivcts had, with admirable forethought, taken the birds with them, to prevent the guards from notifying outside parties of the escape.

By means of a rough raft hastily constructed the guards pushed down the river to a logging camp where they secured a boat and continued their way to this city via the river, arriving here yesterday morning and notifying the acting warden of the escape.

Officers were immediately started out on the chase for the prisoners and none of them have as yet returned. It is thought that by watching the Pitt and Fraser rivers and by making inquiries of parties residing along the streams a clue may be obtained.

ROLLER ON THE MAT.

Seattle Medical Athlete Returns After More Honors.

Seattle, Aug. 22—After having given every assurance that he would never wrestle professionally again, Dr. Roller, the Seattle champion, has found the call of the mat too strong for him, and he has consented to meet Emil Klank for $1000 or more, the bout to be held in private in this city.

Otto Floto, of the Denver Post, authorized by Klank to issue the challenge, sent it to Roller Monday, and last evening he arrived at a decision, and his response was a willingness to meet Klank.

The local wrestler stipulated in his reply that the match must be held in private; that he had promised never to appear again professionally as a wrestler after his win over Frank Gotch last fall, and that he would live up to that announcement in that he would not agree to wrestle in public.

The $1000 a side suggested by Klank not only met with Roller's approval, but he suggested that the bet be made larger, and that the match be pulled off as soon as possible, in this city.

HOLBROOK HOTEL MEN FACE CHARGE IN COURT

Proprietors Said to Have Served Drunken Man Who Was Also Siwashed.

The proprietors of the Holbrook hotel did a poor stroke of business on Wednesday, according to Chief McIntosh, who has laid an information against them for serving liquor to an intoxicated man, to wit, George Stein, who in addition to being a lover of the cup, is also under the ban, having been Siwashed some months ago. The police claim to have evidence to the effect that Stein was served with liquor at the Holbrook while in a drunken condition, and Stein, who was charged yesterday morning with having been drunk and incapable, was remanded in order to have his evidence at the hearing this morning.

This will be the first case of this nature brought against a hotel keeper for some months, although other offences of a like nature are reported to have taken place recently. This is the first time the Holbrook is in trouble since the present proprietors, McDonald and McNiven, took possession.

Another liquor case will also be heard by the police magistrate, a woman from the mire section being the accused in this case. Another unsavory case from the same district will also be heard in the court.

AFTER THE FAT MAN.

Heavyweight Monarch of Europe Marked by Anarchists.

Madrid August 22.—The explosion of a bomb at Lisbon today, which killed two persons and fatally injured two others, brought to light a plot hatched by Republican conspirators to assassinate King Carlos and Premier Franco and to seize the government of Portugal.

The police allege that the head of the conspiracy is Jesse Bettencourt, a medical student. In searching his apartments they found a number of letters and papers which resulted in the arrest of thirty republican leaders. They have been placed on ships and are heavily guarded.

Bettencourt lives in the tenement district of Lisbon and his rooms have been headquarters for republican agitators and conspirators. The explosion occurred in Bettencourt's rooms and the men killed and those injured were conspirators against the king and the government.

The noise of the explosion was terrific and when the police rushed in they found the room a wreck. They at once made a search and found many documents telling of the conspiracy against the king and premier.

A mooley cow, captured on Front street yesterday afternoon by Officer Johnston, is at present in the market stables awaiting the arrival of the owner.

ANSWER TO PROTEST IS DELAYED IN TRANSIT

The ninth lacrosse match of the league schedule will be played tomorrow afternoon when the Maple Leafs and Vancouvers will come together at Brockton Point, Vancouver. Quite a number of New Westminster people are arranging to go over and see the match.

Vancouver won both their matches with the Maple Leaf team this season, and there is a strong possibility that they wil ldispatch the Mount Pleasant bunch again tomorrow. If Vancouver wins tomorrow's match and are also awarded the match of August 10 as a result of their protest, they will lead New Westminster by one match in the run for the championship, with three more games to play.

No statement has yet been received by Secretary Ryall of the New Westminster lacrosse club from the B. C. A. L. A. as to the decision of the committee in the Vancouver-New Westminster protest. As only forty hours is given the committee to hand down a decision, the document will have to be forthcoming before 2:30 o'clock this afternoon.

Post Office Inspector.

CLEVER CRACKSMEN CAN OPEN ANY SAFE

Cool Criminals Use Chemicals to Melt Sides of Cashboxes--Remedy Suggested

Washington, Aug. 22.—Expert cracksmen can enter any safe the manufacturers put on the market.

This claim is made in a consular report received at the state department, in which it is declared that steel fuses under the blowpipe flame of an acetylene generator charged with calcium carbide, water and compressed oxygen are now being used by the cracksmen. The flame is so intense that it eats through steel as an ordinary gas jet does through lead.

Reading like a novel, the report recounts the daring deeds of a bold safe-blower, who secured a room in a hotel directly over a jewelry store. By drill and saw a circular piece of the flooring was removed. A thick cement ceiling was disclosed, but the intelligent thief was not daunted. With a chisel he removed enough of the cement to lower an umbrella, which was opened and held suspended by the handle to catch the particles of cement and prevent them falling to the floor of the money changer's office while the hole was being enlarged sufficiently to permit the passage of the cracksman.

By means of a rope ladder the robber lowered himself and brought with him two cylinders of compressed ozygen and an acetyline generator charged with calcium carbide and water, also several heavy blankets. The latter he used in erecting a tent around the safe so thick that no ray of light could pass through. The rest of the work was simple enough. He did the job, returned to his room and vanished.

Declaring that it is impossible to construct a safe which will withstand the flame that can be generated, the government is officially advised by its consul that unless safes can be placed under the vigilant eyes of policemen where all sides may be seen, it will be necessary to pack between the steel linings a chemico-mechanical device which will render it either fatal or physically impossible to remain in the vicinity of the safe or vault when the fierce oxy-acetylene blowpipe is doing its work of eating steel.

The consul suggests that potassium cyanide and sulphuric acid might be used to generate the deadly fumes of prussic acid; that the volatilization of a few drops of ethyl-dichloracetate would cause profuse and persistent weeping or that a tube of liquid ammonia would render the immediate withdrawal of the cracksmen imperative.

In the great battle between the cracksmen and the manufacturers of safes and vaults each progressive step is offset. Now that the burglar is able to melt the sides of the strongest safe, he must be defeated by some chemical or mechanical device to punish him for his wrongdoing and render his work ineffective.

The consul remarks in closing his report that "eventually the daring burglar with sufficient training might venture to face the unknown dangers of a safe well provided with more or less effective neutralizing agents for the concealed possibilities of defense."

GOLD ROBBERY.

Big Plot for Stealing From U. S. Mails Suspected.

Fairbanks, Alaska Aug. 22.—What is believed to be the biggest plot for robbing the United States mails is now in operation in Alaska. Only yesterday word was received from the coast that the third pouch missing in a month had been reported at Skagway. The sack contained $45000 in gold dust addressed to Seattle banks.

Postoffice inspectors already in the north working on the two former robberies have taken up the latest loss. It is almost certain that the sacks were stolen while in transit on the Yukon river steamers between this point and Dawson. Several men are under suspicion, but no arrests have been made. Reliable clews are scarce.

Uniform Building Laws.

Montreal, Aug. 22.—The Congress of Canadian Architects, now in session here, has adopted a resolution to the effect that in view of the great range of architectural activity involving erection of buildings in widely separated centres, of the great losses involved by conflagrations among poorly constructed buildings, and of the danger of serious accident "The Institute of Architects of Canada do hereby urge upon the various municipalities of the Dominion the desirability of the enactment of uniform building by-laws which can be graded to suit the reuqirements of Canadian rural communities, villages, cities and towns."

NAPOLEON BOWSER PREPARES TO FIGHT

New Commissioner of Fisheries Announces Decision To Force Fisheries Issue.

Victoria, Aug. 22.—The inevitable clash between the province and the Dominion for the control of the fisheries of British Columbia will be advanced one step nearer today by the appointment of Attorney General Bowser as commissioner of fisheries. He will be gazetted to that position today.

The conferring of the commissionership on Hon. Mr. Bowser is significant, and it is expected that developments within a short time will precipitate a fight in the courts. The Dominion has given to certain fishing interests on this coast licenses to operate in waters which the province has declared shall not be entered upon. These private parties will either have to bow to the provincial dictum or carry their fight to the courts in an effort to secure relief.

The appointment of Attorney General Bowser as commissioner of fisheries is in accordance with powers conferred by the provincial Fisheries act of 1902.

TREASON IN MOSQUE.

Soldier to Pay Penalt yof Folly With His Life.

Tangier, Aug. 22.—A sensational incident occurred during the celebration of noon-day prayers at the Grand Mosque of Djidid at Fez yesterday. A soldier suddenly shouted "May Allah render our master, Moulay Mohammed, victorious."

Mohammed is the Sultan's brother, and as the proclamation of a new Sultan in a mosque while the Sultan is living is traditionally the signal for a revolution, the faithful who were at prayers fled in fright into the streets, creating a panic.

In a short time all shops were closed and the Jews barricaded in their residences. The troops on duty at the mosque seized the soldier who created the disturbance and he was found to be a converted Jew and was beaten unmercifully and taken, covered with blood, to prison where he will probably be beheaded. Later, order was restored in the city.

Huge Paper Mill Merger.

Appleton, Wis., Aug. 22.—To meet the great need of the future in the paper trade, sufficient pulpwood timber the immense merger of paper mills now being formed will endeavor to secure about 100,000 acres of pulpwood in the province of Quebec. The combine is almost completed, and will have a capitalization of $20,000,000 to $30,000,000.

George A. Whiting, president of mills at Menasha and Stevens' Point: states that the merger will not stop with print paper and pulp mills, but will take in practically everything in the paper manufacturing business in the Middle West, except the book and finer paper mills.

Berlin, Aug. 22.—Much indignation has been caused throughout the country by the treatment meted out to Herr Wicky, editor of the Socialist Volkszeitung in Muelhauser. Herr Wicky was in jail undergoing a sentence of seven days' imprisonment for insulting the authorities. Only six hours of his sentence were unexpired, when he was informed he had to appear in court as a witness against a man named Gandner, who was alleged to have defrauded to the extent of 50 marks.

Before Herr Wicky left his cell he was handcuffed, and in this condition appeared before the court to give his evidence. When he protested, the jailer informed him he was only acting according to his written instructions.

Such tactless and unnecessary severity could only be extended to Socialists, and it will doubtless have the effect of largely increasing the number of Socialists in Muelhausen and vicinity.

EXAMINATIONS.

The modes and methods of the education department have come in for some criticism of late in the press of the province, and it may be of interest to people here to know that British Columbia is not the only place in which the question is a live one. That they have it on the carpet in Ontario also is evident. The Brantford Expositor says:

"The complaints regarding the character of the departmental examination papers this year will, it is thought, lead to a lowering of the standard set for students. Why should the standard be lowered? Keep up the standard, but use a little common sense in setting the papers. Let the examiner keep in mind the spirit of the saying that a fool can ask questions that a wise man cannot answer. Papers constituting a fair test do not include catch questions—questions which the examiner himself may not be able to answer without consulting his library."

The St. Catharines board of trade is opposed to the proposal to coin a "penny" in Canada. By a penny is meant a coin of the value of two cents—that is to say as near the value of the British penny as we can come. The board says there is no use for a penny, by which it probably means to express the idea that a multiplication of small denominations of coins would be more confusing than useful. There may be somethin in that.

Uncle Sam now ranks as the second naval power in the world, but he has discovered that there is a very serious defect in his battleships. The arrangements for passing the powder up to the big guns from the magazines down below the water line have been designed with a view to speed and the important factor of safety has been ignored. Already some disastrous accidents have occurred, and people are asking what advantage there would be in saving a second or two of the time between shots, if after a few had been fired, the ship and crew were sent to the bottom by an internal explosion. As an addition to naval tactics, hari-kari is not held to be advantageous.

EIGHT HUNDRED JAPS COMING NEXT MONTH

Vancouver, Aug. 22.—Eight hundred more Japanese have been booked for passage from Honolulu to Vancouver on the steamer Indiana, and the option of a second voyage from the island to this port in the charter party of the Indiana has been taken up. This news was receiver today from San Francisco, where the Indiana is owned. She is now on her way from Vancouver to Honolulu to pick up the Japanese. It is likely that more than eight hundred will come as booking is still open. The Indiana should arrive about September 10.

Tomorrow night another mass meeting of the Asiatic Exclusion league will be held in the auditorium of the Labor hall, Homer street.

Hon. H. Nosse, Japanese consul general at Ottawa, declared last night that he could not believe reports from this coast to the effect that his countrymen were being brought to Canado under contract in violation of the Alien labor law.

Waiting at the Church.

Portland, Ore., Aug. 22—Miss Annie Conroy, a bride-to-be, was left waiting at the church at Arleta, a Portland suburb, tonight. Dexter Day was to be the groom, and eight was the hour set for the wedding. The time arrived and no groom, so the police were notified. They searched without result.

Two hours later Day appeared at the church showing plainly the effects of too close association with John Barleycorn. The indignant bride declared the wedding off, but the assembled guests greatly enjoyed the nuptial ice cream which was ready at the home of a neighbor.

There's no reason why you should buy "cheap" imported Salt. WINDSOR SALT costs no more — is absolutely pure — and goes farther. Get WINDSOR.
193 W

ARREST ALL RUSSIANS WAS STARTLING ORDER

Detectives Start Rounding Up 2000 Men When Officer in Charge Goes Insane.

Copenhagen, Aug. 22.—The entire police force here got a startling shaking up last night. Every officer received a sudden telephone order from Second Officer Tureben for the whole force to turn out and arrest every Russian in Copenhagen, a great plot against the czar having been discovered. The order was immediately complied with. The detectives who were accessible were hurried off in all directions, and steps were taken to rouse those who were off duty It occurred to only one of the nine subchiefs who received the order to doubt its accuracy. He reflected that there were more than 2,000 Russians in the city, and concluded that there must be a mistake somewhere. He telephoned to the first officer, who hastened to headquarters and found that Truben had gone suddenly mad. The order was cancelled in time to save the liberties of the Russians.

Three applications for water records were granted yesterday by water commissioner C. C. Fisher. The Surrey Shingle Manufacturing company of Cloverdale applied for a record of 50 inches from Johnston creek, and the entire amount was granted. It will be used for floating shingle bolts down a flume. David T. Oswald of Sapperton was granted a record of two inches from a small stream located along the Port Moody road. The water will be used for agricultural and domestic purposes. Herbert P. Butterfield of Squamish, B. C. applied for a record of 85 inches from a stream flowing into Squamish river. His application was granted, and the supply will be used for agricultural and mechanical purposes.

JAPANESE WRESTLER IS MOUNTAIN OF FAT

Nipponese Expert Tips Scale at 240 Pounds, Although But Five Feet Tall.

Victoria, Aug. 22.—The famous Hitachiyama, Nippon's champion wrestler, a mountain of fat and muscle, weighing 240 pounds, though but five feet high arrived in Victoria by the steamer Kaga Maru yesterday from Japan on his way to the United States. Three other heavyweight wrestlers, and a jiujitsu teacher from the Waseda university all accompany Hitachiyama, and all the necessary requirements for wrestling matches have been brought. It is not intended to give public exhibtions, but the Japanese wrestlers expect to give a performance at Washington before President Roosevelt. They were registered at the Driard yesterday and leave for Seattle today.

The big fellow created much interest on the streets yesterday as he strolled about in company with the other members of the party. He did not impress those who saw him as being particularly athletic with his elephantine girth, but he has a long record of successes on the mat in Japan that belies his looks. In this respect he resembles the late "Terrible Turk" who met an untimely death off the coast of Nova Scotia by the sinking of the ship on which he sailed. The Turk appeared to be just a big bundle of flesh, but as a wrestler he was in a class by himself, possessing abnormal strength.

Hitachiyama was clad in Occidental costume, wearing a grey tweed suit that ill becomes him. The other members of the party were dressed in Japanese costume.

CITY NEWS

Royal Crown soap, 8 bars for 25 cents at Kyle & Son, Front street.

The Windsor hotel dining room will re-open to-day, after having been closed nearly two weeks while alterations were being made in the kitchen.

Money to loan on mortgage on approved security. White & Shiles, Columbia street, city.

The funeral of Mary A. Fry, a seven year old girl, took place in the English church cemetery yesterday afternoon, the Rev. C. W. Houghton officiating.

For all kinds of cut flowers and potted plants, see Tidy, the florist.

Paglan Alexander Lindquist, the one year old son of Mr. and Mrs. Lindquist, of the North road post office, died yesterday morning after a short illness. Dr. Walker attended the child. The funeral will take place at two-thirty o'clock on Saturday afternoon in the Masonic cemetery.

Fruit and poultry farm in Surrey, five miles from New Westminster, good house and well; 15 acres cleared, balance part Alder bottom. Price $25 per acre. Easy payments. White & Shiles & Co., 260 Columbia Street, New Westminster. 8-16-7

Something like five hundred persons attended the open air concert at the Albert Crescent yesterday evening, the several selections being heartily encored. The club swinging demonstration by James Summers proved to be a pleasing novelty, and the clever young man was greeted with loud and long plaudits at the conclusion of his turn.

We are selling two dozen bottles of lemon and vanilla extract for 15 cents per bottle at the Good Cheer Store, 255 Front street.

Editor Burde of the Alberni Pioneer News, is coming in for a good thing. He has passed the word around the district that it would be a good thing for each sportsman to leave the first grouse shot when the season comes in at his office, and for each farmer to send the first ripe apple to his desk. Albernists are proud of their first paper, and are going to follow the hint.

If you require good towels for 40 cents each, go to Kyle and Son, Front street.

Complaint has been made recently that some of the campers on Westham island have been behaving in a most unbecoming manner, insulting passers-by and using vile language while ladies were within hearing. The attention of the police has been called to this state of affairs, and one party, who is considered as being the ringleader in the trouble, will be closely watched in future.

35 acres at Hammond with four acres cleared and in fruit. New six-roomed house. Bargain for $2,600, terms to suit. Abbott & Hyde, next Guichon hotel.

Thomas Brooks complained to the chief of police yesterday that he had been held up by a disguised individual on the North Arm road in the early hours of the morning. Brooks could not give a good description of the handsup man, but stated that he wore a false beard and a ferocious look. Brooks parted from about $1.85 in cash, and would have given the bewhiskered man more money had he happened to have it handy. After taking away some of the root of evil, the highwayman shook hands with his victim and bade him a fond farewell. Brooks is now anxious to renew acquaintences.

Two small size fire proof safes now on hand. Abbott & Hyde, next Guichon hotel, agents for Victor Safe company.

John Russell, a youthful apprentice employed in the Archibald Plumbing shop, received a number of bad burns the other day while playing with gasoline and matches. He accidently spilt some of the liquid onto his clothing and then evolved an idea. He would see whether the soaked cloth would burn. Striking a match he applied it to the saturated parts of his clothing and was quickly convinced of the result. He was seriously burned on several parts of his body before the flames were extinguished and he had to be removed to the hospital for treatment. The boy was given preliminary attention in Ryall's drug store by Dr. Jones and Mr. Ryall before being taken to the hospital. Last evening's reports were that the boy was improving satisfactorily.

Choice creamery butter at 30 cents per lb. at Kyle & Son, Front street.

Horace Dorer yesterday installed a number of handsome new fixtures in his jewelry store, two massive wall show cases being the principal additions.

7- room modern house, close in; convenient to Central public school, immediate possession. Snap $1370; terms. Abbott & Hyde, next Guichon hotel.

The regular weekly market will be held this morning. Quite a large quantity of produce arrived at the wharf during the last few days consigned to the market clerk for sale on commission and a great quantity more will probably be brought to the city today.

Wayfarers between the hours of 3 and 3:30 a.m. for the past two mornings, if their eyes were inclined heavenward, might have caught a glimpse of a celestial visitant. A comet, boasting a most gorgeous tail many yards in length emitting balls of fire from time to time, is paying a flying visit to the ether lying above this uqarter of the globe. The comet was first discovered by Professor Daniels, of the Princeton observatory, June 9. Since then it has been sweeping towards the earth at the rate of about 1,000,000 miles a day. It is at present about 90 or 100 million miles distant. It will be nearest the earth according to astronomers early in September when it is expected to sheer off at a tangent.

Columbian College

New Westminster's MUSIC HOUSE

MUSIC WAS MORE THAN TIN SI COULD STAND

Sad Celestial Tries to Enter Heaven by Many Routes to Escape Musical Jingling.

Paris, Aug. 22.—Tin Si Hu, a Chinaman in the service of Mme. Varadesse, the opera singer, wanted to commit suicide, and he tried to do it three times during the last fortnight.

He first swallowed arsenic, but an emetic prevented him from dying. Then he took a large dose of opium, but again he was thwarted.

He made a third attempt last night by throwing himself from the second floor window of Mme. Varadesse's flat. Once more his luck was out, for he fell on the cushions of a passing motorcar, and escaped with only a slight injury.

He was taken to the police station, where he explained why life had become such a burden to him.

"Mme. Varadesse howls too much," he said. "She howls all day long, and I want to die to get out of it."

Mme. Varadesse expressed sympathy with Tin Si Hu, and promised to send him back to China.

Fish Drowned the Chinamen.

Cumberland Aug. 22.—A double drowning occurred in Courtenay river yesterday by which two Chinamen one known as "Baby" and the other as Mar Ching Chung, lost their lives. From what can be learned it appears they went out to fish in a small skiff on the river and after fishing some time one of the Celestials caught a huge fish, which after a struggle he succeeded in bringing to the surface. In attempting to land the fish the skiff upset throwing the occupants into the water, and not being able to swim, both went to the bottom before aid could reach the spot.

The bodies were later recovered, and from the position in which they were found indicates that one tried to rescue the other, and in doing so was dragged to the bottom by his compatriot.

Blow in Four Smelters.

Grand Forks, B. C. Aug. 22.—A good supply of coke enabled the Granby smelter to blow in four furnaces yesterday and another two furnaces will be blown in today. Everything now points to a continuous run for the plant for at least six furnaces as the coke blockade has been broken.

THE MORNING PAPER TELLS THE NEWS FIRST

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

In the Matter of the "Trustees and Executors Act," and in the Matter of the Estate of Augustus William Lundbom, Deceased.

All persons having any claims or demands against the estate of Augustus William Lundbom late of Surrey Centre, British Columbia, deceased, are hereby requied to file with the undersigned their names and addresses and full particulars of their claims, and the nature of the securities (if any) held by them, duly verified, on or before the 31st day of August, 1907.

Notice is hereby given that after the said date the executors will proceed to distribute the said estate amongst the parties entitled thereto, having regard only to the claims of which they shall then have had notice, and they will not be liable for the proceeds of the estate, or any part thereof, so distributed to any person of whose claim they had not notice at the time of distribution thereof.

Dated this 24th day of July, 1907.

F. W. HOWAY,
Solicitor for John McKenzie and John Churchland, executors of above estate.

LAND REGISTRY ACT.

TAKE NOTICE that application has been made to register Margaret Robson as the owner in Fee Simple, under a Tax Sale Deed from The Corporation of the Township or District of Surrey, to Margaret Robson, bearing date the 7th day of November, A D., 1901 of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as lot 7, subdivision of Northwest quarter of Section 19, Township 2.

You and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice upon you, otherwise I shall register Margaret Robson, as owner thereof in fee. And I hereby direct that publication for thirty days in a daily newspaper published at New Westminster of this notice will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 18th day of July, A.D., 1907.

C. S. KEITH.
District Registrar.

To Fredrick Throssell and H. Burton.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

LONE PROSPECTOR IS LOST ON LAKE

Abandoned Horses and Outfit Discovered, But No Trace of Man is Seen.

James Wilson, a prospector in the Cariboo country, is lost somewhere around Horsefly lake, without boat, horses, provisions, tent, food or any accommodation whatever.

Wilson is one of the many lone prospectors in this part of the country, and had been living for some time in a cabin near Spanish lake. About three months ago he informed some packers who passed his way that he intended to move in the direction of Quesnel lake in the near future. This was the last seen of him. A party of men, passing Wilson's cabin a few weeks later, found a note pinned on the table by a rusty jack-knife, stating that the owner had gone out to Horsefly lake, and would be back in three weeks. As the note was at the time dated six weeks back, some of the party, when Horsefly lake was reached, organized a search, the result of which was the finding of Wilson's boat, horses and outfit. Nothing was seen of Wilson, and there was no sign of his having been in the vicinity for several days past. The horses were running wild, and had trampled over the scattered outfit several times. One of the party was left in charge of the horses at the lake, while the others continued the search for three days, during which no trace was seen of the man.

TWO MODERN STEAMSHIPS FOR NEW ZEALAND RUN

Vancouver, Aug. 22.—Two modern steamships, each of them of eight thousand tons carrying capacity, are to be placed on the run between Vancouver and New Zealand ports. A company to operate this new service has been formed, and preliminary arrangements will, within a few days, have advanced to that stage where the names of the steamers can be announced.

It is expected by the promoters that one of the steamships will be ready to make the initial sailing from this port some time in October.

During the past two years the transportation trade between Vancouver and New Zealand ports has grown tremendously and although two steamers are now on this route it is felt that there is ample traffic for other craft of even larger tonnage than those at present in service. The new liners will also make calls at Australian ports.

Exile and Death.

St. Petersburg, Aug. 22.—It is reported that 274 persons throughout the Russian empire were exiled for political offenses during the month of July, and it is officially stated that 54 Russian officers and 95 privates were killed and that 47 officers and 52 privates were wounded, while maintaining order during the same month.

Nature's Object Lesson

How many in this life are like the butterfly who lives in the enjoyments and pleasures of the present, with no thought of the morrow, and how few, comparatively, are like the ant which continually labors, preparing for that rainy day or cold weather which is sure to come—

No, the "Butterfly" man is not a success. It takes a "Hustler" to get on in the world. Start it now. We can show you choice investments in City and Farm Properties. Now is the time to start. Buying now will insure good profits. We can show you how, by buying right, 'tis easy to make

REASONS WHY YOU SHOULD BUY BUSTER BROWN BLUE RIBBON SHOES FOR THE LITTLE FOLKS.

FIRST---Because they find in this shoe all the distinctive characteristics of the high grade shoes worn by their fathers and mothers.

SECOND---Because the varied selection enables them to choose a style which pleases them.

THIRD---Because they are made in sizes, widths and shapes that will fit the foot of any boy or girl and affords them the maximum of comfort, which in turn keeps them pleasant and happy.

FOURTH---Because they find in this shoe the name dear to little one's hearts, Buster Brown, friend of every boy and girl.

W. E. SINCLAIR
