## BONDS ARE PLACED WITH TORONTO FIRM

Large Debenture Issue Sold Above Par—Assessment Commissioner Will Be Appointed.

Large business for the year was transacted at the meeting of the chief assessors to receive the new tender of the assessment to be sold, the commissioners commanding that a tender of one, W. A. Mackenzie, was to be accepted. No tender was made by the tender man, and the tender was rejected. The appointment of a commission will be made at a special meeting.

Definite issue.

Debates on the Assesment Law were held yesterday afternoon and evening. The council conducted its private and down-to-earth session concerned that a bill from Mr. W. A. Mackenzie would be passed in group form, and then received for the law. The council formally approved the legislation. This issue is for \$200 or words fifty year issues, the present authorized by the voters in May last at a poll.

Centre of Civic Finances.

It was decided that it would be necessary to have the appointment of an assessment commissioner who should be a permanent official of that corporation and ratepayers, as an appointment had to be made by Nov. 1. This was a most important item in the council, and the wish was to attend.

Mr. Mackenzie asked if it was to be a permanent, or to consider him.

Mr. Mackenzie remarked that it might be better to advertise for applicants. It would be the most fair.

Debate agreed, and for that reason a bill was fixed.

Public Conveniences.

A. Fader read the report of the committee which recommended the construction of a public convenience at the cost, single, of \$450, situated in the square between the P. R. depot and the old mill of S. Thompson, by W. Parsons Son. The structure would be constructed from three-eighths of timber, and built up inside to height of four feet, with tiles and composite flooring, with automatic flush apparatus. The committee discussed it with the sanitary inspector. The site would be just across the street from the Light Street sewer.

Mr. Parsons moved that the report be laid on the table for further consideration. The site was too small.

Mr. Johnson seconded. While he had advertised something of the kind through the site public, and nothing there would be objections.

Mr. Fader said nothing was one of the things for which they should be known in England, and in the great cities of the world, the public convenience was not to be public convenience, so that they desired to have something for which they could be known.

## HINDU EMBEZZLEMENT TRIAL PROCEEDING

Case for Prosecution Presented to Jury—Civil List to Be Considered Today.

## SCARCITY OF FOOD DRIVES OUT MINERS

Beans, Rice and Oatmeal Worth Fifty Cents a pound in Amok Camp.

The assize for the county of Westminister was resumed at the court house yesterday before Chief Justice Hunter, and the case of Ram Singh, accused of stealing \$100 from a fellow countryman, was taken. Robert Cassidy, K.C., prosecuted, and R. J. Russell defended. Before the luncheon interval Hazara Singh, the man from whom accused is alleged to have received the money which he kept, was on the stand and related the circumstances. A number of witnesses were called and the case for the prosecution being closed, his lordship adjourned the court till this morning. The story of the prosecution is that Hazara Singh intrusted some money he had saved to the accused, who declined to return it to him when requested repeatedly.

Harvey vs. Harvey.

Proceedings for divorce. In the absence of an important witness, the case was adjourned till Monday next.

## OIL-BURNING LOGGING LOCOMOTIVES NOW USED

Elmira, Oct. 27.—Two large oil-burning logging locomotives have been installed on the logging railroad of the Union Lumber company, located ten miles east of Elmira, and they proved very satisfactory. Wood and coal as fuel was found dangerous to use because of the danger of spreading fire. Nearly all the big fires in the Grays Harbor country have been traced to sparke from donkey engines and locomotives. With oil as fuel there is no danger whatever from this source. The oil burner introduced in the logging works of the Union Timber company are the first of their kind to be used for such a purpose in the Grays Harbor country.

It is probable that other big logging concerns will use crude oil as fuel in their engines in the future.

## AMERICAN FLEET TO RETURN TO ATLANTIC

Toledo, Oct. 27.—Although the American fleet has left here for Manila and China, the impression created by the attitude of the people of the United States toward the Japanese is still a matter of comment by the Japanese and vernacular press.

A report from Washington to me effect that President Roosevelt has ordered the Pacific fleet to proceed to the Atlantic ocean to partake in the spring maneuvers, thus temporarily vacating the Pacific ocean, has created a profound impression here. The newspapers all comment on this action as an indication that the American people have confidence in the sincerity of the protestations of friendship on the part of Japan.

Campbell is a picturesque character like "Swiftwater Bill" Gates, who gained and spent \$2,000,000. He has prospered in every mining district in the west for many years.

Yreka, Cal., Oct. 27.—Dean Hazel, who was to have been sentenced on Tuesday for the murder of Joseph Silva, last night effected his escape from the county jail, leaving R. A. Dudley, the jailor, locked in his cell. For half an hour Dudley attempted to make known his plight, and in the meantime the convicted murderer was fast making his way to the hills.

Dudley was standing behind the cell door in the darkness when Hazel fed a squad of trunks into the cell. As the jailer stepped in, Hazel stepped out and turned the key in the lock. A posse of twenty men in pursuit of the fugitive.

## HEAR HYMNS OF DEAD SUNG FROM PHONOGRAPH

New York, Oct. 27.—Although he has been dead for several months, the voice of Jim D. Bankey, the noted evangelist, was again heard Sunday night in the Simpson Methodist church in Brooklyn. Bankey's thronged the large congregation heard the notes of the well known voice reproduced from a phonograph into which Mr. Bankey, using a number of hymns a short time before he died, had recorded his voice. "The Ninety and Nine," "Hold Thou Thy Cross," "There Is No Death Here," and "Jesus of Nazareth Is Passing By."

## ELECTRIC LIGHT NOW USED AT CHILLIWACK

Half Hundred Homes in the Valley City Have Modern Lights Installed.

Last evening the British Columbia electric railway company inaugurated an electric lighting service in Chilliwack which will be continued until the required equipment in connection with its New Westminster-Chilliwack franchise is installed. The present plant is of a temporary character, operated by steam power, and was installed at the request of the residents of Chilliwack, who desired lighting service pending the completion of the tram line.

The foregoing statement was made yesterday by A. G. Madson, of the United States geological survey, who had returned from the North.

I have been in the Anoka district a good part of the summer," said Madson, "and while the district undoubtedly offers good returns for the miner, it is never a successful camp until transportation becomes cheaper. Most of the provisions are shipped in to the district by the way of Faribault, and by the time the freight reaches the town of Ophir the transportation cost has reached the enormous sum of \$500 a ton. From Dresserak to Ophir, a distance of about 190 miles, the cost of transportation on general merchandise is 20 cents a pound.

"N mining district in the world will stand such prices for food, particularly when it is still in a prospecting stage. The Anoka eventually will become a good camp.

The prospectors were driven out of this country last winter by the scarcity of food, and undoubtedly will be forced to leave again this winter."

## FAITHFUL TO PARTY SINCE CONFEDERATION

Fourteen Seats Have Never Changed Political Complexion in Forty Years—Seven Each Side.

Ottawa, Oct. 27.—A survey of all constituencies of the Dominion on the eve of yesterday's contest showed seven which had returned none but Conservative members since Confederation and seven others which have been represented throughout the same period by Liberals.

What changes have occurred elsewhere in the past year, none of these fourteen districts even swayed in support of party allegiance they have so long cherished.

Carleton, South Lanark, East Middlesex, East Grey, South Simcoe and East Hastings, in Ontario, and Sherbrooke, in Quebec, are still the same strongholds for the Conservatives they have been throughout the past forty-one years.

Carleton county, at the door of parliament, has never returned a Liberal member since it received a parliamentary representative over seventy years ago.

On the other hand, Lotbiniere, Berthier, Chateaugay and St. Johns, in Quebec, and North Oxford, South Oxford and South Perth, in Ontario, have been equally constant in their adherence to the Liberal cause.

Temple in One Piece.

Chicago, Oct. 27.—The only temple in the world whose walls, floor and roof are of one single piece, was opened yesterday at Oak Park. It is built of reinforced concrete, on the Edison plan of continuous material with no seams. The temple belongs to the Unity congregation.

Damage by Typhoon.

Monte, Oct. 27.—Official dispatches received from sections visited by the typhoon recently, place the death toll at 800 and the damage to property at \$10,000,000. There were no reports of injuries in the city.

The election returns to date are as follows:

## BOYS ORGANIZED INTO ATHLETIC ASSOCIATION

Physical Training of Young Lads Object of Club Formed Yesterday Officers Elected for 1909.

The boys of St. Andrews Presbyterian church were yesterday evening organized into an athletic club with twenty-two members, the object being to provide a meeting place for boys with athletic tendencies, and the buying of gymnastic apparatus to be used as headquarters, which will be in the lecture room of the church. In addition to indoor exercises the boys will be encouraged to take part in the outdoor games, special attention being paid to baseball for the next few months. Football and possibly lacrosse will occupy the spare moments of the boys during the summer.

The following were elected the first officers of the new association, which is to be known as St. Andrews Presbyterian club: Rev. J. S. Henderson, honorary president; Ross Lane, president; George Trapp, vice-president; Jim Sinclair, secretary-treasurer; Steve Murray, Kenneth Gunn, Harry Weston, John Armstrong, Don Trapp, executive committee. The club will meet every Tuesday evening. Negotiations are now in progress for securing the services of a competent trainer and physical drill instructor.

## FEARFUL SUFFERINGS IN DEATH BY THIRST

Los Angeles, Oct. 27.—Dying of thirst in the desert west of Death Valley, R. F. Pratt, a prospector of the Grape Vine district, in Argus mountains, round by another miner, left the record of his sufferings on the pages of a diary found by his side.

Pratt, after being informed that the trip was a dangerous one, started for Mojave and for several days succeeded in finding water. He finally entered a region completely destitute of moisture and lost his way.

Here the pages of the diary contain entries fast become illegible that read as follows:

No water today—Must get over the next range to find my trail back. Things ahead look bad.

Can't find my trail. No water now for two days. Am about all in. Will be able to hold out through tomorrow.

I can't stand the pace. Have left my grub and blankets. Am going blind with sun and headache; lips and tongue cracked and bleeding. Must get water today or I'll cash in.

This is the last legible entry although Pratt had previously foreseen his fate and left a request that notification of his death be sent to his brothers.</

BONDS ARE PLACED  
WITH TORONTO FIRM

# \$1 per week buys 50-foot Residential Lot in Grandview Beautiful view---Property on two tram lines

Every lot in Grandview overlooks the Fraser River and the Gulf of Georgia. The cut off line between New Westminster and Vancouver, over which all of the interurban trams will run, passes right close to this property. You can secure a lot, fronting on this tram line, if you come early.

Grandview will be scarcely five minutes ride from New Westminster by car---a five cent fare. The Eburne line, which is now in course of construction and will be completed immediately after the first of the year, runs past the front of Grandview.

It will readily be seen that the property has excellent car service, a beautiful view of the river and the surrounding country and wide streets.

All lots in Grandview have 50 ft. frontage on the street and are 120 ft. deep. Grandview is the coming residential suburb of the city of New Westminster, the two trunk lines provide the very best of car service night and day.

Those who buy at Grandview now, will be able to sell their lots at a handsome increase in price just the moment the car commences running over either of these two lines. When the cars are running on both tram ways the lots will be worth and sell for at least \$500 each.

The terms on which I am selling these lots are exceptionally easy. Almost anyone can buy a lot in Grandview since only \$10 cash is required and the balance of the purchase price is payable in instalments of \$1 a week.

Remember that the Grandview lots have a 50 foot frontage, twice the size of the ordinary subdivision lots. The present price is away below that which is asked for lots farther out.

## A Grandview Lot is a Life Insurance

Come to my office and see the plan of Grandview. I will be pleased to take you in one of my rigs to see this property so that you can judge for yourself as to the advantages of Grandview.

If you buy now you will have the advantage of an early choice---you can buy a lot now fronting on the tram line.

### THE AFTERMATH.

The jubilation of both parties of Monday gave place yesterday morning to serious thought. As the reports came in from the constituencies not heard from on the night of election, a pall seemed to fall over this city, realizing as it did, without party distinction, what an error we had made, in placing ourselves in opposition with a member who has not the faculty of meeting the other side, or even those of his own party who differ with him in any way, in a manner that would indicate that they have any right to differ with him. No more offensive partisan could have been found to take up our cause when as a constituency we declare we are not in accord with the policy of the government. Many Conservatives realize now that it is too late, that a mistake has been made, and that the progress we had hoped would continue, will be long deferred, and values quickly begin to tumble.

The bitter attack upon this paper with respect to our reports of meetings held during the campaign, shows that the serpent has not lost his sting. At the outset we secured an able man as reporter, who is a newcomer to Canada, a man with credentials of which any newspaper man might be proud. He was instructed to send in faithful reports of Mr. Jardine's meetings, uncolored in any way, so that we might present purely the news what occurred. We have every reason to believe that he carried out those instructions to the letter, because we have received new subscriptions from old-time Conservatives on account of the truthful reports given, one gentleman from Chilliwack, who has for twenty years cast his ballot on the Conservative side, closing his letter with the statement that "he was tired of reading Tory trash." We leave the citizens of this city to judge for themselves which papers give the correct reports of the meetings, and we have no fear as to the verdict. In no case was a report edited, and that which is considered editorial comment was not allowed to be made by the reporters, but reserved for the editor whose right it is to make such comment in the editorial column. That the attack is on a par with what has been handed out to our members-elect, for years, goes without saying; but we had thought, now that the struggle is over, that the tiger would have been tamed into docility, but the electorate can see plainly just what it can hope for when the untamed reaches Ottawa to snarl and snap, especially when the dyspepsia is most violent. We can realize what we can expect as a result if the Liberal government holds the same view as that held by a Conservative premier, Col. Prior, when in power, and we elected an opposition member and were looking for needed grants, "that he would not feed the brute that snapped his hand." This was said when we elected a gentleman, in the person of our present member, Mr. Thomas Gifford, who has the happy faculty of greeting his opponents with the same courtesy as he does his supporters, and by it has made many friends. What would Col. Prior have said if we had sent a man like Mr. Taylor's at position?—the tigers would have revolted against receiving it! The member-elect may find some relief, of which we may benefit in proportion, by being closer to us or supply of some of the fortification deceptions he advertises in his speech, when he reaches Ottawa. Of course there is the contingency that he may be frozen during the winter months of the session, or may be may succumb from cholecystitis at any rate, there is the consolation that the city will be rid of him for another year, and that will be extremely welcome.

The final returns will show Sir William Laurier to have increased his majority in the House. We believe this prediction will be verified and will be much nearer the mark than the prophecies of the News-Advertiser of Sunday, that the Conservatives would have 29 seats out of the 35 in the Maritime Provinces, and possibly as they secured in all eight, its estimate of Ontario showed that it was grossly misinformed.

We would call our readers' attention to the fact that each of the semi-districts was visited, with the exception of Mr. Foster, who

turned a safe Conservative seat into a very doubtful one. Mr. James Davies Taylor will please take notice, and while doing so, remember that every one of the villainized ministers are fully endorsed by the electorate, with the exception of Hon. Mr. Templeman, and even he will sit for Victoria, if we are not greatly mistaken. This must be very gratifying to the members of the Cabinet.

There can hardly be any doubt that the Liberals have entered upon another twelve years of power, possibly more, and by the time the general election comes again we may have repented of our folly—if we do not get the opportunity much earlier.

### HOLY CITY PRESENTED BY STRONG COMPANY

Play Founded on Greatest Tragedy of  
All Ages Brought Tears to Eyes  
of Many.

"The Holy City" was presented at the opera house last night in a moving manner by a strong company of Shakespearean actors. In the first act, Salome's dance of death was the chief and almost startling incident, and Miss Lulu Morey certainly knows the art of effect. The familiar names of John, Mary Magdalene, Herod, Calaphas and others were personified, if not to the exact life as pictured in the minds of Bible students, still in such realistic force as arrested and called forth the admiration of the audience and in some cases the tears of the spectators of what may be safely termed a faithful representative of the Divine tragedy, the central figure of which was by a thoughtful provision only indicated by "Ecce Homo" in limelight effects. The whole play was well staged and well acted, but mention must be made of the beautiful finale consisting of a transformation scene of the Resurrection.

Gamblers Won This Time.  
New York, Oct. 27.—Sol. Lichtenstein, Orlando Jones and five lesser known frequenters of the racetracks were discharged from custody, and the charges of violating the Agnew-Hart anti-gambling laws were dismissed yesterday by Magistrate Geleman, of Brooklyn.

Injunction Against Labor.  
Boston, Mass., Oct. 27.—The supreme judicial court of Massachusetts, making a permanent injunction against several labor unions today, ruled that labor unions cannot impose fines on their members in order to force them to go out on strike.

Orville Wright Almost Recovered.  
Washington, Oct. 27.—Orville Wright, the aeroplane, who narrowly escaped death during a flight at Fort Myer, Va., five weeks ago, will soon be able to leave for his home at Dayton, Ohio.

Plague Epidemic in Azores.  
Lisbon, Oct. 27.—The bubonic plague has broken out with redoubled violence in Terceira, one of the Azores islands.

# LUMBERMEN OF PACIFIC COAST ARE WORKING FOR FREE TRADE

Americans and Canadians Interested in Trade Are at One on the Question—Deputation Goes to Ottawa to Press Claims.

Sydney, Oct. 27.—Lumbermen are uniting to fight for free trade with the United States, and have sent a committee to Ottawa to urge their claims before the Dominion government. Washington, Oregon and California lumbermen are organizing their fight opposing free trade, and special committee of ways and means of congress.

Efforts are to be made to gather accurate statistics as to exactly the number of lumber mills, with the number of employees and the annual payroll, in each of the three Pacific coast states. These statistics will be presented, with statements of the effect that the lumber business of the coast will be gained in case the tariff is removed.

The lumbermen will further argue that in British Columbia, Oriental labor is used, at such low wages that American mills employing white labor only can hope to compete. They will argue further that the cost of logs is far lower in Canada and that the Canadian Pacific railroad gives cheaper rates to the middle western states than do either the Hill or Harriman railroads, on which the American lumbermen depend to ship their lumber to that territory.

**Canadian Millmen's Committee.**  
The Pacific Coast Lumber Manufacturers' association has received information that John Hendry, of the British Columbia Mills Timber and Trading company, of Vancouver, and R. H. H. Alexander, secretary of the British Columbia Lumber and Shingle Manufacturers' association, of Vancouver, have gone to Ottawa to represent the lumbermen before the Dominion government, and that the Canadian Merchants' association, of Ottawa, has been employed to represent western Canada in the tariff fight. The Canadian lumbermen's argument in

## JUST OUT OF COLLEGE

**First Ade to the Misuse of the English Language.**

Most of the slang expressions of the day come originally from the minds of playwrights. George Ade's "Fables in Slang" fame, has certainly been the genesis for a great portion of the slang dictionary. Here follow a few of the bright things heard in "Just Out of College."

"Young man, have you ever done any work?"

"Yes, at home, before I went to college, I used to pick cherries."

"Young man, you are now passing through the darn fool period of your life. I think you are on the level—you don't know enough to be anything else."

"What do you think of Professor Bliss?"

I think he's the most ladylike man I ever met."

"It's strange you never told me about your aunt."

"No, I never talk about her. I never did talk about my mother; that's why she left me all her money."

"Why did you marry him?"

"Oh, I don't know. I had a car and he did. I was lone—"

The above seems to indicate that Ade has duplicated the success of "The College Willow" in his more recent work "Just Out of College," which comes to the Opera house Oct. 28, for one night only.

### Bold Diamond Robbery.

Sydney, Oct. 27.—Valuable diamonds worth \$5,000 were stolen last night from the residence of Mrs. Finch, a wealthy woman of this city. Many people were in the house at the time of the robbery, which is said to have been one of the boldest in the history of the city.

synopsis of Canadian Homestead Regulations.

Any even numbered section of Dominion lands in British Columbia, Alberta, Saskatchewan and Manitoba, excepting those not reserved, may be homesteaded by any person who is the sole head of a family, or any male over the age of 16 years, more or less.

Application for entry must be made in person to the Commissioner of Dominion Lands Agency or to an agency for the district in which the land is situated. Entry may however, be made at an agency under certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months upon and cultivation of the land each year for three years.

(2) A homesteader may, if he desires, perform the required residence duties by living on the land owned solely by him for less than eighty (80) acres in extent in the vicinity of his homestead. His ownership in land will not affect requirement.

(3) If the father or mother or father is deceased, of a homesteader has permanent residence on land owned solely by him for less than eighty (80) acres in extent in the vicinity of the homestead, or on a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties living with the father or mother.

(4) The term "vicinity" is defined in preceding paragraphs as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above will be with parents or on farming land owned by himself must notify the Commissioner of the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, Ontario, to apply for patent.

# A PLUM PUDDING!

The cost of the pudding is in the nature of it, and to judge from the way the bare-blown-in-on South Westminster subdivision are being pushed up, the investing public recognises really good things when they see it.

"It is a big peach," said one man who bought about two weeks ago, "and only exceeding his price to the time of offering, and I would not take double what I paid for it. You do not know me enough about your splendid subdivision. It is by far the best thing advertised in any of the papers."

Each house to make a home at my leisure time, and will commence building early next year. I consider all houses in a very short time to just as valuable as will alone the Victoria-Westminster road.

This is the only case of the many developments around Vancouver in division, and so far as we can see, no statements are based on fact and will be investigated, as the business. When we buy the new Chilcotin farm there, and have no fixed station, in the event of the roads to will be found exactly as we represent. We make this point to offer it possible the few small improvements correlated upon effort to sell certain other lands, that the new roads are there, and when, as a matter of fact, an old discarded trail may be the only track to certain and a present route, where actual construction is rapidly advancing, is unknown. This will be done before road and stage distance on the northern part of the coast.

In the other excellent and variously named orchards, gardens and apple groves are all right in their kind place, but are not in the same class with ours. This is evident to all.

The principals have control of all the real land at the South Westminster, and of the Chilcotin country, and this here that the wise ones are now investing, recognising that our choice orchards and gardens well admirably suited to fruit culture, and can be purchased for \$100 per acre—the same price asked for large blocks situated from 10 to 20 miles distant from town.

This subdivision has only been on the market a few weeks, but during that short time we have sold over 100 acres. This fact speaks for itself.

If these farms are worth \$100 per acre 15 miles from town, what should they be worth two miles away, where you have all the conveniences of city life? This is the way the question is being figured, and the result is very much in our favor.

Just put it off, but come right along and buy a block. You'll never regret it. We're only a hundred miles to go at present prices. When rains commence running prices will advance 100 to 200 per cent.

Our carriages go over every day. Any hour will suit us. It only takes half an hour to drive over.

It is the only school that gives you direct personal criticism, no form  
letters being used. Instead, the work of every student is thoroughly  
examined.

When you go to the only school that is conducting a successful advertising  
school and is known up by leading merchants in the position. It  
is highly popular to work at the school, because it costs very little  
and is making some of the most successful advertisements written by its  
students.

By writing an advertisement to each to be corrected by not only the leading  
merchants and manufacturers but by the greatest experts and publishers.

For over one year a complete, ordinary school education and expense will  
not cost over \$200 per month, or in our case the more lucrative profession to be  
world wide.

For complete information go over "Where in Store," recently published  
and see if thoroughly qualified that the "Commercial Register" indicates  
that you want to go to in the field you are interested in.

## TENDERS

Budget tenders addressed to the  
Administrator, and Clerk of the  
Public Building, Vernon, B. C.,  
will be received at the above address  
till 10 a.m. on Friday, November 20,  
1908, for the construction of a bridge  
across the North Arm of the Fraser  
River at the site of the present fish  
plant bridge in this city.

Plans and specifications can be seen  
and forms of tender obtained at the  
Department, and on application to the  
Administrator of the Public Building.

Tenders submitted are invited and  
will be considered after  
noon on the eighth day preceding  
the date of the opening of the tenders  
and sealed with their names attached.

Each tender must be accompanied  
by an accepted cheque on a chartered  
bank, made payable to the name of the  
Administrator of the Public Building,  
equal to the sum of ten per cent (10 per  
cent) of the amount of the tender,  
which will be forfeited if the person  
submitting the same fails to enter into a con-  
tract when called upon to do so, or  
if he fails to complete the work con-  
tracted for. If the tender is not ac-  
cepted the same will be returned.

The Department does not bind itself  
to accept the lowest or any tender  
By order,

NAP. TESSIER,

Secretary,  
Department of Public Works, Ottawa,  
Oct. 20, 1908.

Newspapers will not be paid for this  
advertisement if they insert it without  
the authority of the Department.

## LUMBER SUPPLY TO COME FROM WEST

At Paul Martin, G. F. Martin,  
Man and Ross, I am told by the other members who constitute the  
congressional committee investigating the supply of lumber, yesterday  
confirmed their journeys into the timber districts, and in relation to the  
present manufacturing interests of the country.

Patrick W. McNamee, the  
multi-millionaire firm of dealers, gave  
them of starting timber and the future  
supply. Asked about the best way to  
secure the better, Mr. McNamee  
said the main object is to prove  
this. He said the state should  
take over the ownership of trees, and  
the transportation of timber as federal  
lands. That, apparently, he believed  
no one thought serious but any value  
according to the future supply of lumber  
to the United States. He said that  
there was an immense stock of it in  
the far west. This is where it would  
come from in the future.

## PLOT TO DUST MANUEL FROM PORTUGUESE THRONE

Convents Transformed Into Veritable  
Armies by Supporters of King  
in View of Revolution.

London, Oct. 27.—The revolutionaries  
are publishing startling details of an  
alleged Republican plot to overthrow the  
government, and the counter-  
plots made by the Monarchists to retain  
King Manuel on the throne.

It is asserted that the Monarchists  
supported by the clerical party, are  
stocking large quantities of arms and  
ammunition. In various convents here,  
knowing that the authorities would  
use this to subject these traditions to  
fusillade.

The Monarchs' forces consist of twenty  
thousand men, constituting 700 officers  
who were trained in the style of the  
convent of Lelos. The Lelos and the  
Pousa declare that 500 officers and a  
large quantity of cartridges are stored  
in the convent of Monchique, and Quedas,  
and that the Jesuit College of  
Carmo, is a special arsenal.

The Monarchs' officials are  
continuing to denounce that the situation  
is extremely serious, and the  
official organ, Correio do Norte, says  
that the authorities must take stringent  
measures to prevent a conflict. At  
the convents and the Jesuit college  
are arsenals to occupy.

## GRAND FORKS SERVES NOTICE ON GAMBLERS

Grand Forks, Oct. 27.—The board  
of police commissioners express their  
disapproval of the presence in this  
city of professional gamblers, and all  
holders of retail liquor licenses in this  
city will be responsible for the presence  
of professional gamblers on their  
premises; and further, that the commissioners  
will suspend the license of any householder who is found guilty  
of permitting gambling on his premises.

**BOWLING**

The bowling match between Bryson's and Muirhead's team last evening resulted in a win for the latter's team by 126 pins. Silver made the highest score, 157.

Thursday night Hughes' and Sutherland's teams will meet.

A team will leave here on the 28th to compete with Vancouver this evening, consisting of Emery, Hughes, A. E. Hale, Rutherford and Carver.

Tonight the much-heralded game between the C. P. R. boys and The Daily News' staff takes place.

**Post Office Employee Arrested.**

Bellingham, Oct. 27.—Accused of having robbed the registered mails at the local post office for the past three or four months, A. W. Hadley, 50 years old, for the last three years letter carrier of Bellingham, was yesterday arrested and placed in the city jail. According to the Police, Hadley admits his guilt, but will not say what he did with the money stolen. Hadley merely vouchsafes the information that he "doesn't know why he stole."

**Election in Switzerland.**

Berne, Switzerland, Oct. 27.—The election of members to the National council was held yesterday, and the result leaves the present political complexion of this body practically unchanged. The radical left wing retains a large majority. The Socialist representation remains the same. The people have accepted a constitutional amendment giving the government increased authority and control in the matter of the development of water-power in Switzerland.

**To Decide Status of Caviar.**

New York, Oct. 27.—Importers of caviar have brought another test case before the board of general appraisers in an effort to finally decide the status of that article under the customs laws. A recent case was decided against the importers, who claimed that the authorities erred in listing caviar as fish. They claimed that caviar, while the eggs of sturgeon, was no more fish than hens' eggs are poultry.

MUST BE ABLE TO SEE INTO SALOONS

Bellingham, Oct. 27.—If an ordinance introduced in the city council at the request of Prosecuting Attorney Peringer is passed, the saloons of this city will have to hire a few carpenters and make some radical changes in their doors and windows. This ordinance demands that all doors and windows be so arranged that on Sunday and other days on which the saloons are required to close, anyone may be able to see the entire floor of the bar room, with the exception of boxes constructed in accordance with the ordinance.

**TEMPLEMAN WILL INSIST ON RECOUNT IN VICTORIA**

Victoria, B. C., Oct. 27.—No protest has yet been entered against Barnard's election by a majority of five, as the official declaration of the poll will not be made until this afternoon. If Templeman is not declared elected his executive committee decided last night to enter protest.

It is rumored that affidavits are being prepared alleging crooked work on the part of two well known gamblers who by means of a blank ballot and money bribed some thirty or forty longshoremen.

**FARMERS ORGANIZE TO RUN COAL MINE**

Silverton, Ore., Oct. 27.—Believing that the hills south of Silverton contain a rich vein of coal, several farmers have organized a company and will sink a drill within a few days with a view of locating the vein. They have leased 1200 acres of land adjacent to the city for a term of twenty years. Prospecting is in operation under the supervision of Chief Engineer Berry, who recently established the Scott's Mills mine.

**DUNSMUIR YACHT AT SAN FRANCISCO**

San Diego, Cal., Oct. 27.—The steam yacht Dolaura, owned by Lieutenant-Governor James Dunsmuir, of British Columbia, arrived here today. The Dolaura left Quebec August 6, and made a successful voyage around Cape Horn. Among those on board are Robin Dunsmuir, son of Lieutenant-Governor Dunsmuir, and Sir Maurice Bromley. After calling the Dolaura will go to Victoria.

**Three Cardinals for America.**
