CANNERS EXPECT EXTENSION OF SEASON

Practically Certain Closed Season Will Be Postponed if Demand is Made.

The Fraser River Canners' Association is now taking active steps to have the fishing season this year extended beyond August 25, the regular date of closing.

Confer With Minister.

Some time age it was intimated that if the run did not pick up considerably the canners would endeavor to have the close season postponed, and now it is announced that the poor catches of the last few days have induced them to take the matter up with the Dominion government. W. D. Burdis, the secretary of the Fraser River Canners' Association, and R. N. Venning, deputy minister of fisheries, who is now on the coast, had a conference in Vancouver yesterday and in the afternoon Mr. Venning paid a visit to this city in the course of which he conferred with local canners on the necessity of an extension.

As a result of his enquiries, Mr. Venning stated yesterday evening that he would give the matter his consideration. He leaves for the east within the next few days, but informed Mr. Burdis that in the event of their desiring a close season it would only be necessary for the canners to wire him, and not to write giving the facts in extenso, inasmuch as he himself had familiarized himself wit hthe subject.

To Close on September 3.

The canners regard this statement

BURNABY RESIDENTS HAVE NARROW ESCAPE

Mr. and Mrs. C. Guard Barely Get Away With Their Lives When House is Burned.

Mr. and Mrs. C. Guard, of Burnaby, narrowly escaped with their lives when their residence at Edmonds, opposite the Burnaby municipal hall, was destroyed by fire early yesterday morning.

The fire started at about 3 o'clock when Mr. and Mrs. Guard were both asleep, and when finally discovered had made such headway that it was all that the inmates of the house could do to get downstairs and away from the blazing building.

So rapid was the conflagration that Mr. and Mrs. Guard were able to save absolutely nothing, and having escaped themselves were forced to witness helplessly the destruction of their house and all its contents.

The house was a frame structure, two stories in height. The loss is partly covered by insurance.

The fire is thought to have been caused by mice nibbling a box of matches in the pantry.

Miss Santa Claus Kills Herself.

Philadelphia, Aug. 11.—Miss Elizabeth Phillips, widely known as "Miss Santa Claus," committed suicide today by inhaling illuminating gas. She was found in a room in her home with a gas tube in her mouth. No motive is known for her self-destruction.

Balloon Breaks Height Record

Milan, Aug. 11.—The balloon Albatross, piloted by Lieutenant Mina, ascended to a height of 11,800 meters, or more than seven miles, which is believed to be the world's record.

ARISTOCRATIC HORSES PAY VISIT TO CITY

Splendid Shipment of Animals From Scotland Now at Queen's Park Stables.

Thirty horses, all of them possessed of the very bluest of blood, are at the present time housed in the R. A. & I. Society's stables at Queen's park. The animals arrived in this city yesterday and are the property of Messrs. O'Neal & Co., of Vancouver, by whom they were exported direct from Scotland.

Delayed En Route.

It had been the intention of Mr. O'Neal to exhibit the animals at the Vancouver horse show, but owing to a delay of five days upon the voyage caused by fog off Newfoundland, the horses arrived too late to be got into shape for the event. Immediately on their arrival in Vancouver, Mr. O'Neal had them sent over to New Westminster, believing that the accommodation which he has secured for them here at Queen's park is better than any that he could get in Vancouver.

The shipment consists of eighteen hackneys and twelve Clydes. Among the hackneys are a number of ponies, suitable for saddle work, the like of which have seldom been seen in this province. The Clydes are all splendid animals, and among them are three remarkably handsome stallions.

The animals were selected in Scotland by Peter Crawford of Dargavel, Dumfries. The hackneys Mr. Crawford bought from the farm of A. Morton, the well known breeder at Gowanbank, while the Clydes were picked up from various studs throughout Scotland.

Have Long Records.

The three stallions are the noted prize horse Crusoe (13428) and Marcellus Junior (14758), both got by the Cawdor Cup champion Marcellus (11110), one of the truest kind of Clydesdales exhibited for some years. The dam of Crusoe was got by the big Top Galant horse Boy in Blue (5578), and the dam of Marcellus Jr. was by the big well-bred horse Lord Stewart (10084), out of a Macgregor mare. This mare was a prize winner in the Northeastern shows. The third stallion, Rossendale (14331), is by the successful breeding horse Sir Hugo (10924), while his dam was by the noted H. and A. S. prize horse Pride of Blacon (10,837), own brother to the celebrated champion mare Cheshire Princess.

Nearly all the horses in the shipment carry a more or less long list of medals and ribbons won at various shows throughout the United Kingdom.

COAL ON LINE OF TRANSCONTINENTAL

G. T. P. Will Tap Rich Deposits Between Edmonton and Pembina.

Edmonton, Aug. 11.—The G.T.P. tracklaying machine, which a week ago was in this city, has now reached Stoney Plain, the second town west of Edmonton, and is pushing the steel ahead as rapidly as possible toward Pembina, the reaching of which will terminate the steel laying for this year. The company is very anxious to reach this point, as here lies the enormous coal fields of the Pacific Pass Coal company, which is supposed to belong to the G.T.P. Announcement has been made that the company intended to secure its coal from these mines for the driving of their trains on the western as well as the Edmonton division.

Plenty of Good Coal.

Prospectors have been in the field for sevral months, and reports which have emanated from the wilderness state that the coal which they have discovered, and which is found outcropping on the 5,000 acres controlled by the company, is of the very best bituminous and very much superior to the lignite coal of the Edmonton district for engine purposes.

The Pacific Pass Coal company has its machinery under order, and the first G.T.P. train to pass over the line to the west of Edmonton will carry the machinery which is to be used in the development of the largest coal mining camp in Alberta.

Will Work Large Area.

The estimated expenditure on the works during the next year has been placed at $500,000 and as rapidly as possible new machinery will be installed until the entire acreage under the control of the company is being worked. By the first of December this year the company expects to be delivering 1,000 tons per day, and after that date much larger shipments, as fast as the requisite machinery can be installed.

To Abolish Seasickness.

Berlin Aug. 11.—Elmer A. Sperry, an American inventor from New York, is in Berlin carrying on negotiations to sell the rights of an invention which will revolutionize the steamship traffic of the world, men-or-war as well as passenger vessels.

The invention is an apparatus to keep ships from rolling. Mr. Sperry says it will render them absolutely proof against the heavy motion of the waves. Two navies are already investigating the system with a view to its adoption.

SUCCESSFUL HARVEST WILL BE SHOWN AT FAIR

Mayor Keary Makes Extensive Tour of West in Interests of Provincial Exhibition.

Mayor Keary has returned from his eastern visit. He attended the annual meeting of the Canadian Union of Municipalities at Medicine Hat, and then went on to the exhibitions at Regina and Moosejaw. At Edmonton and Strathcona he made arrangements for the usual exhibit, and on his return to British Columbia after a busy campaign in the interests of the Royal Agricultural and Industrial Society, he went on to Vernon, and addressed meetings in the Okanagan valley. Fruit, and district exhibits from those towns which usually assist the exhibition will be on special lines this year, and particularly attractive.

His worship finds also there will be particularly keen competition for potato classes at the coming exhibition.

SETH LOW SLATED FOR COURT OF ST. JAMES

Chicago, Aug. 11.—A Washington special to The Tribune says:

The name of Seth Low, former mayor of New York, and once head of Columbia University, is being seriously considered by President Taft in the selection of Whitelaw Reid as ambassador to Great Britain.

Since the declination of the post by Emeritus Eliot of Harvard, Mr. Taft, it is known, has been looking around carefully in his search for a representative American, intellectually fitted to hold the post at the court of St. James and rich enough to stand the expense and yet not too wealthy.

The President, it is declared, is convinced that Mr. Low is the possessor of all the desired attributes and it is probable that he will be offered the post.

BLACKIE SPIT IS MAGNET FOR PICNIC

Excursionists Spend Merry Day By Seashore—Bathing and Sports.

The only thing serving to make the citizens' picnic anything but a complete success yesterday was the comparatively small patronage accorded by the Westminster citizens to the great annual outing. In fact, there were more country people and citizens having tents at the chosen resort, Blackie Spit, in the holiday crowd than those who travelled in the special train which left the market slip for Crescent at 9 o'clock in the morning.

Otherwise there was nothing to mar the happy day, and the committee were well satisfied with the pleasure afforded the parents, and particularly the children, by the arrangements made, which have caused many weary hours in bringing to a successful conclusion.

A Delightful Spot.

The beach and surrounding are admirably situated for a basket picnic, with a broad bay gently dipping to the Gulf of Georgia and a setting of trees in the background with a broad playing field close at hand and meadow land within easy reach. The tide proved suitable for bathing, and hundreds took advantage of the opportunity for a dip in the salt water, which was quite warm. A clam-digging contest was another feature of the beach, while the visitors were able to see the business developed by the Crescent Oyster company across the bay.

Tents for retiring and for bathers had been erected and a platform for the band, Rushton's being engaged. There are 55 tents on the ground, exclusive of those brought down by the picnic party, representing an adult

Calls on *President Taft* *To Use Veto on Tariff*

New York, Aug. 11.—A despatch to the American from Philadelphia says: Definite charges that the wool trust paid to prevent changes in the wool tariff schedules, that contributions were made by the trust to the campaign funds of Congressional incumbents or candidates in doubtful districts, and that Speaker Cannon promised the trust immunity from adverse tariff changes are made by H. J. Hamill of Philadelphia ,director of the Carded Woolen Manufacturers' association, in a letter to President Taft.

Demands Use of Veto.

The charge of corruption of individual prospective members of Congress is contained in a letter forwarded to the President, in which the Philadelphia demands a veto of the Payne bill on several grounds, among them being:

That there has been no actual revision of the woollen schedules.

That various forms of protection are furnished the trust.

That the woollen schedule alone, as it now stands, constitutes a broken pledge by the Republican party to the American public for honest and actual tariff revision.

Accuses Speaker Cannon.

Mr. Hamill's letter to President Taft declares that upon a trip to Boston last summer in company with Representative McKinley of Illinois, Speaker Cannon met representatives of the wool trust and gave assurances that the woollen schedule would not be changed.

It is further charged that the wool trust subsequently made a large contribution to the Republican Congressional Campaign committee through McKinley, the treasurer.

Washington, Aug. 11.—Speaker Cannon declines absolutely to make any reply to the charges contained in the Hamill letter. But Representative McKinley of Illinois, who was said to have been with the Speaker when the representations of the wool trust were met and the corrupt bargain made not to change the woollen schedules, emphatically denied the story.

ALBERTA WOOL CLIP IS RATHER LIGHT

Climatic Conditions Last Fall and Winter Are Responsible—Good Prices Secured.

Winnipeg, Aug. 1.—The shearing of Alberta range sheep shows a rather lighter clip than last year, both in the total and in the yield per sheep. The total will be in the neighborhood of 400,000 pounds. The fleece is not as heavy as last year owing to the character of the winter. The fall was rather dry and sheep did not meet the hard weather of the new year in very good heart. The spring was late and the grass slow and naturally the wool suffered. The whole of the clip has not been sold. The best yet bid is 13 1-2 cents for the lot of wool, about 25 per cent. of the Alberta clip, at the three shearing pens. There is a possibility that the wool may go to Boston buyers even in the face of eleven cents per pound duty. Thirteen cents has been bid for three hundred thousand pounds of the clip by a Great Falls house, but the growers feel that there should be stronger talk coming from Canadian buyers. The price this year is two cents higher than last year, but the advance is relatively much behind the prices in both English and United States markets this year.

JAMES J. HILL OFFERS BIG PRIZES TO FARMERS

St. Paul, Aug. 11.—These are the prizes offered in gold by James J. Hill for the best exhibits of small grains and grasses grown in this state and within twenty-five miles of the Great Northern railroad, to be shown at the National Corn Exposition to be held in Omaha December 6 to 18. Threshed grain, one pack to each exhibit.

A first prize of $15, second of $7 and third of $3 will be awarded in each of the following classifications:

Spring wheat, Fife, bluestem and Durum; winter wheat, red or white; oats, any variety; barley, any variety; field peas, any variety; flax; corn, flint, 10 years; corn, dent, 10 ears; timothy seed; common red clover seed; alfalfa seed.

A first prize of $6, a second prize of $4, and a third of $3 will be awarded in each of the following classes of sheaf exhibits, which may not be less than four inches at top band.

Wheat in sheaf, any variety; oats in sheaf, any variety; barley in sheaf, any variety; flax in sheaf; corn in stalk, any variety; timothy, in sheaf; common red clover in sheaf; alsike clover in sheaf; alfalfa.

MODERN ORGANIZATION IN I. C. R. MACHINE SHOPS

New Buildings in Place of Those Destroyed by Fire Are Now Open—Promotion by Ability.

Ottawa, Aug. 11.—The department of Railways and Canals has received notice that the new shops of the Intercolonial at Moncton to replace those destroped by fire some two years ago have been completed and that the bulk of the employees have been transferred from the old to the plant. It will, however, be some months before the new shops will be worked to their full capacity.

An important departure decided upon by the new board of management of the government railways is the appointment of an expert organizer to distribute the work of the employees so that the different machines in the various departments may be so manned as to expediate the work. A modern system of organising the shops and introducing methods of handling the work will be applied, having in view the greatest efficiency combined with the highest economy in productive capacity. The aim will be to produce the best results, to organise the workers by their ability and to secure a system of co-operation which was impossible under the old haphazard plan.

POLICE STOP STRIKERS FROM SMASHING CARS

Pittsburg, Aug. 11.—The strikers at MsKee's Rock were active today patroling the entrances to the Pressed Steel Car Company's plant. Police reserves were called out when the men began to stop the street cars to search for strike breakers, and the state troops were busy dispersing the crowds. A foreman, going to work, fired in the air when he supposed he was about to be attacked. Following a meeting of the strikers, the executive committee came to Pittsburg.

Plan to Bring Egypt *Uuder Rule of Turkey*

Constantinople, Aug. 11.—The chief of the Egyptian Nationalist party, Fehmi Bey, has had numerous interviews with members of the Young Turk Committee, as well as with certain influential deputies, with a view to organizing a congress to discuss the introduction of a constitutional regime in Egypt, and to call upon the Khedive in the role of a Mussulman Prince and vassal of the constitutional Sultan to conform to the new regime in the Ottoman Empire.

M. P.'s Will Circuit.

According to certain reports the Egyptian Nationalists have been assured of the support of a number of members of the French and British Parliaments, who have formally promised to take part in the congress, which will be held at Geneva at the end of August. The names of six members of the British Parliament with the two chiefs of the Irish party who will do their best to enliven the situation in Egypt, are mentioned. There will also be five members of the French Chamber.

Might Arouse India.

A member of the Egyptian deputation who attended the anniversary of the proclamation of the Turkish constitution, stated that Sir John Eldon Gorst, the present British Diplomatic Agent in Cairo, is personally not opposed to the aims of the Nationalists. But his opinion is far from being shared by the Foreign Office, which fears the effect such a result might have in India.

At the same time it is hoped that in view of the excellent Anglo-Turkish relations a compromise may be arrived at, giving satisfaction not only to the Egyptian nation, but also to Turkey, which desires a single political regime for the whole empire.

U. S. GOVERNMENT FINDS WORK FOR 3000 MEN

Department of Commerce and Labor Sends Unskilled Workmen to Wheat Fields.

Washington, Aug. 11.—Work has the last six weeks through the information division of the department of commerce and labor. Most of them have gone to the wheat fields of the northwest.

The division on information under a ruling by Assistant Secretary McHarg is confined in its operations to unskilled labor, the labor organizations having protested against the activity on the part of the government looking to the employment of skilled labor.

Lad Perishes in Quicksands.

Peoria, Ill., Aug. 11.—Adam Ross, eight years old, son of Nicholas Ross, of this city, while on a fishing expedition with other members of his family yesterday waded into Farm creek near its mouth, and the Illinois river, and was swallowed up by quicksands. The boy's body was recovered only after strenuous and incessant labor.

General Charles Louis Tremeau has been appointed commander-in-chief of the French army in succession to General De LeCroix.

By a vote of 587 to 77 Calgary decided in favor of Sunday cars on its municipal car line.

Pastor Denounces Parishoners *Who Starved Him and Family*

Cincinnati, Aug. 11.—Rev. J. Spenser Smith, pastor of the Methodist Episcopal church of Winchester, O., in a sermon denouncing the "pillars of his church" last night, told from the pulpit a story of privation and want that amazed his hearers.

"Because of the way you have treated me for days at a time I have had to live on butterless bread and water, I was forced to go eight weeks without receiving a penny from you. For three days, when my wife lay in bed with her newly-born babe, I went without a bite so that she might get nourishment to keep her child alive with the bread and tea, all we had left.

"Because of your treatment my wife's mind temporarily gave way, and she would now be an inmate of an asylum had I not made a study of medicine.

"In twelve weeks I received but $14 from you on my salary, long overdue. You neglected me. You were all aware of my condition. You seemed to think that because I am a preacher I could live on wind."

These are some of the charges hurled in the village church by Smith at his congregation. A profound sensation exists, and the outcome is expected to be a church trial to lay the blame on those responsible.

The Lacrosse Riot.

At the Vancouver police court this morning W. Matheson, captain of the Vancouver Lacrosse team, will appear charged with an assault on Percy Peele, judge of play in Saturday's game. H. L. Edmonds is acting for complainant and W. E. Burns of Burns & Walker defends.

ENGLISH RECHABITES WILL WORK WITH CANADIANS

London, Aug. 10.—At the biennial conference of the Independent Order of Rechabites, complaint was made of failure to maintain touch with members in Canada, and support their efforts. The president said the difficulty was that when members went to Canada they rarely heard any more of them. The directors were prepared to advance the money necessary to launch forward a movement in Canada, but the unsettled state of the law regarding friendly societies was a serious obstacle. There was great opportunity in Canada, and he believed that if they stuck to their guns, they would place the order ahead of any similar organization in the Dominion in a very few years. Brother Gordon, who had been visiting in Toronto, reported that there was a glorious field there for the order when the powers that be condescended to allow it to exist. Young men were enthusiastic, and the most temperate lot he had ever met.

URGES CO-OPERATION OF PUBLISHERS AND UNION

Chicago and Cincinnati Speakers Are Given Floor in I. T. U. Convention.

St. Joseph, Aug. 11.—At today's session of the International Typographical Union the freedom of the floor was extended G. L. Berry of Cincinnati, president of the International Printing Pressmen and Assistants' Union, and A. N. Kellogg, of Chicago, commissioner of arbitration for the American Newspaper Publishers' Association.

Berry pleaded for co-operation between the printers' and pressmen's organizations; Kellogg urged harmony between printers and publishers for their mutual benefit.

Spending Large Fortune *Is Health Destroying Task*

Geneva, Aug. 11.—The editor of a Swiss paper, who has been staying at Aix-les-Bains for the last few weeks, propounds the question whether all Americans of the wealthier class who come to Europe for the cures suffer from rheumatism, gout, or dyspepsia.

"Mrs. W. K. Vanderbilt, Jr., Harold Vanderbilt, Mr. and Mrs. George Gould, Stephen Sands, Mr. and Mrs. N. L. Amster, Mrs. W. Gordon Crawford of Boston, Frederick Baldwin, and Charles Robinson were some of the American visitors who were taging the baths during my stay," he writes.

"If you glance at the names," the Swiss editor adds, "you cannot fail to notice that the highest American society is leading a too strenuous life or is suffering from hereditary diseases, but, on the other hand, are the representatives of American society taking the fashionable cure only to pass the time? It is hard work, the work of a navvy, to spend millions, with little satisfaction.

ARCHBISHOP WANTS SABBATH OBSERVANCE

Highest Dignitary of Catholic Church in Montreal Takes Up Question.

Montreal, Aug. 11.—His Grace Archbishop Bruchesi has taken up the question of Sunday labor and asked Ald. Proulx, chairman of the police committee, to have the law regarding Sabbath observance enforced. In consequence the order was issued today that the police were to be prepared, next Sunday, to take action against all persons for contravening the provisions of the Lord's Day act, and any city bylaws bearing on the subject.

Several large contractors will be affected by the order, as, under the plea that it was necessary they have carried on building operations incessantly seven days a week. Many stores are kept open on Sunday that, if the strict letter of the law is observed, must be closed. These, in some cases have heard of the new order and are filled with consternation at the prospect although they can scarcely believe that the police will really act after years of tolerttion.

Then, the Jewish section of the city is seriously affected. Large quantities of food, including such staples as bread and meat are dispensed and delivered on Sunday, the understanding being, according to their interpretatio of the act, that if they observe Saturday as their Sabbath they may do certain things on Sunday. They see where certain hardship will fall upon them if idleness is enforced on Sunday as well as Saturday.

Deputy Minister Coming.

Ottawa, Aug. 11.—M. J. Butler, deputy minister of railways and canals, will leave for the west tomorrow on a tour of inspection of railways under construction which will draw subsidies from the government.

He will go as far west as Vancouver and Victoria.

Canners Expect Extension of Season

(Continued from Page 1.)

of Mr. Venning's as a practical assurance that the extra open season will be granted when asked for. Unless the run picks up considerably tomorrow or next day, it is almost certain that the canners will ask for an extension of the season up to September 3.

Recent investigation throws some light upon the reason of smallness of the run up to the present. Advices from the gulf are to the effectthat on opening fish caught there, it has been found that the spawn is considerably less mature than it usually is at this time of year. The fish will not go up the Fraser until the spawn is mature, and this is regarded as accounting for the small run. It is anticipated that once the spawn is properly ripened the fish will commence to ascend the river.

Cold Weather the Cause.

The cool weather is regarded as being responsible for the late maturing of the spawn.

The report of the Canners' Association for yesterday is as follows:

Bellingham—Canners have a fair supply of fish on hand today. Some humpbacks showing up.

Anacortes—Got 50,000 from the gulf and seiners yesterday. The traps are reported to contain considerable sockeyes today and some humpbacks.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the railway belt in British Columbia, may be homesteaded by any person who is the sole head of a family or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land on each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the commissioner of Dominion lands at Ottawa of intention to apply for patent.

Coal.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

POLICE COURT DISCLOSES BRAND NEW TRADE UNION

Is Called Society of Professional Beggars and Its Members Toil Not, Neither Do They Spin.

London, Aug. 11.—Of all the remarkable societies in London the strangest is that which Myer Paradise a Russian alien, who has been living in the East End for eight years as the guest of this country, honors with his membership. When he was accused at the Thames Police court of begging he gravely informed the magistrate that he belonged to the International Society of Professional Beggars.

"The society forbids me to work," he added, "I simply conform to the rules;" in fact, he had never been known to seek work.

"He lives in a notorious lodging house in North East passage, Shadwell," the detective stated. "The place is wholly occupied by professional beggars."

After Paradise has been imprisoned for one month with hard labor he will be recommended for deportation.

A somewhat similiar society, but only a local one, was mentioned during the hearing of a case at the West Ham police court in 1904.

SMOOTH EXPLANATION OF BUFFALO BLUNDER

United States Authorities Try to Salve Public Opinion for Risking Life of Dying Canadian.

Washington, August, 11.—In defending the immigration service of Buffalo from the imputation of acting inhumanely towards Frank Scopic, a Canadian, on July 11 last, Mr. Keefe, commissioner of immigration, in a memorandum issued today, sharply criticizes George B. Snyder, a Canadian physician, and "cautions" Inspector Sparklin to meet such cases with better judgment in the future.

Scopic was struck on the head with a stone near Niagara Falls, Ont., and received a compound depressed fracture of the skull. In charge of Dr. Snyder, resident physician at Ridgeway Scopic was rushed on a boat to Buffalo to be operated on. It was alleged that the injured man was detained by the immigration authorities for five hours after arrival at the Buffalo wharf, but Mr. Keefe, as the result of an investigation, declares that the man was detained only three hours.

The blame for the happening of this regrettable incident by no menas rests on Inspector Sparklin," declared Mr. Keefe, "for had Dr. Snyder devoted more of his energies to a reasonable explanation of the situation and his intentions in the premises and less to airing profanely his opinion of the ispector and the laws, and also had he taken the alien aboard in a proper and regular manner, the trouble encountered would in all probability have been averted."

Praise is given to Inspector Sparklin for his energy and intelligence.

ENGLAND WELL OFF FOR WAR AIRSHIPS

This is the Opinion Recently Expressed By a New York Paper.

New York, Aug. 11.—The New York Tribune has the following editorial on the recent decision of the English government in regard to airships:

Announcement is Satisfactory.

"Englishmen who regarded with impatience the apparent indifference of their government to the possible uses an enemy might ake of airships will doubtless find satisfaction in an announcement made by Mr. Haldane, secretary for war, in the house of commons recently. Three dirigible balloons and two aeroplanes are already being constructed at Aldershot, for the army, and one dirigible has been ordered for the navy from Vickers, Sons & Maxim, builders of ships and manufacturers of ordnance of world-wide reputation. Within a few months therefore, England bids fair to be three times as well equipped with military airships as the United States, which now has one representative of each of the principal types. Besides those built at home, moreover, England may soon have two dirigibles built in France, for which a popular subscription was recently started, one of these having been ordered a few weeks ago from the Lebaudy brothers, who have constructed several for the French government.

Will Compare Types.

"The experiments which the English government may soon be expected to undertake will not be the first by any means which it has been able to make but they may easily prove more instructive that the earlier ones. It will be feasible, for instance, to compare the rigid dirigible balloon—a comparatively recent development—with the flexible and semi-rigid dirigibles. No doubt, too, the aeroplane will be carefully studied with a view to discovering whether such drawbacks as its inability to reach considerable elevations can be overcome or are offset by advantages not possessed by the kind of airship the Lebaudys are building. It is probable that not merely fitness for reconnoissance will be considered by England's military experts but that the desirability of devoting aerial vehicles to other kinds of service will also receive their attention. It their conclusions are made public other countries may be able to profit by them."

MARK TWAIN AS HORRIBLE EXAMPLE

Medical Journal Says He Shows Evil Effects of Excessive Smoking.

New York, Aug. 11.—Mark Twain is quoted in the current number of American Medicine as a horrible example of the depths to which tobacco can drag a man. It cites his conduct in smoking contrary to the rules at Oxford University, while awaiting the conferring of his degree, and continues:

"Mark Twain, by the praiseworthy use of his intellect, had become a very distinguished honor to the literature of the world. Oxford, one of the most noted institutions of learning which the world had produced, was ready to stamp his merit with the highest expression of the institution's appreciation.

"If the prohibition of smoking was nothing more in fact that a senseless whim of tradition, it nevertheless existed and was part of the thought of the institution which gave him his degree.

"The question is, What was in his mind which caused him to not follow the ordinary course of the gentleman, but to smile benignantly, though defiantly, at the will, or tradition of Oxford, and as Hammond says, get the tobacco if he could?

"Personal liberty by its forced morally unworthy associations, has become a malodorous thing, but, in its best sense, is defined as 'a decent respect for the opinions of mankind.'"

HUNG UP CHILD BY HANDS FROM RAFTER

Extraordinary Tale of Cruelty to Her Own Offspring Alleged Against Montreal Woman.

Montreal Aug. 11.—What is alleged by Constable C. Archambault of No. 16 Station, to be a case of the most appalling cruelty, resulted in the arrest of Mme. de Francesca, of 22 Fulford street.

The woman, with her husband, appeared before Judge Leet yesterday morning in the arraignment court to answer to the charge of cruelty to her 13-year-old son Antoine. She was remanded for trial until Friday.

According to the evidence given by the constable, on Saturday night at 6:30 o'clock, he was summoned by the neighbors, who told him that a woman was misusing her child at No. 22 Fulford. The constable entered the house and found the child hanging from the rafters by his hands which were fastened by a half-inch manila rope. The rope was also twisted round his neck, so that the constable at first thought the boy was being hanged.

He cut the lad down and found he was in a critical state.

The neighbors said that the woman had been beating the child with a three-foot strap of metal and the contusions on his body seemed to bear out the tale.

The parents stated, in explanation, that they had only fastened the child by the hands, not by the throat and that they were punishing him for being out all day from 5 in the morning until late at night.

They pleaded not guilty to the charge of assault.

OWEN SOUND MAKES MONEY FROM LIQUOR LAWS

Owen Sound, Aug. 11.—Fines totalling $1,150 were collected today from three hotels and one drug store for selling liquor contrary to the local option by-law, as the result of the campaign by chief inspector John Ayerst. Wm. Duncan and Donald McQueen of the Duncan house had two convictions each registered against them, and were assessed $100 on each. Herb Wilkins of Central and his barkeeper were assessed $250, $100 on the first charge and $150 on the second. T.C. Hatton, druggist pleaded guilty of two charges and was assessed $200 on each. John Corget, of Royal hotel was convicted and assessed $200 on one charge. The costs were added in each case.

CALM PREVAILS THROUGHOUT SWEDEN

Indications Are That General Strike Will Collapse in the Next Few Days.

Stockholm, Aug. 11.—Perfect calm prevails throughout the country and there are further evidences that the general strike inaugurated a week ago will result in failure. The Answer, the organ of the trades unions, is the only newspaper published in regular form. The other journals have issued small hand-printed editions. Efforts are being made with some success to improve the local street car service, and the street car employees have called a meeting to consider a proposal to return to work. The company has given them until noon tomorrow to take up their old positions. The merchants of Stockholm have announced their intention of running their delivery wagons, and it is expected that the cab service will be resumed.

Ships Bring Stevedores.

Foreign steamers are overcoming the dock strike by bringing with them their own stevedores.

Thee has been a big demonstration of 20,000 strikers at Gothenberg. In this city the labor leaders control all the vehicles. Physicians requiring an ambulance to remove a patient to the hospital are referred by the police to labor headquarters.

Ten Days Today.

Of course it is still impossible to foresee the end of the strike, which has been in progress for nine days. However, perfect orde is being maintained and no signals are visible of the special measures that have been taken to prevent outbreaks. Food again is plentiful and prices are becoming normal. There has been no serious decline in the prices of securities on the Bourse. The theatres are filled nightly, and the cafes and restaurants are being well patronized. From industrial centres throughout Sweden come reports of more or less complete resumption of work.

Rode Into Hotel.

London, Aug. 11.—Frank Jay Mackay, the well known California and Chicago millionarie, who has resided chiefly in England for a number of years, was fined $10 and costs in the Leamington police court for riding a horse on a footpath.

Mr. Mackay declared that he had made a wager that he would ride into the local hotel and around the billiard table, and, having won the wager, he was satisfied to pay the fine.

AS OTHERS SEE US.

The London Times has an interesting review of a new book entitled "Deutschland und England," by Von Karl Bleibtreu; a popular German writer whose works include a history of English literature. The object of the volume, says the Times, appears in the first sentence of the book: "The Englishman and the German are more closely related to each other than are any two nations on earth," Yet probably there are no two which regard each other, just at present, with so much suspicion and animosity. This feeling Bleibtreu considers to be absolutely unfounded on both sides. Into the immediate causes which have led to it he does not inquire at any length; but one standing cause he devotes himself to removing —the false and ignoble picture which each presents to itself of the character of the other. To the ordinary German view the Englishman appears to be the incarnation of selfish arrogance and vainglory, inordinately proud of a history in which his success has been largely fortuitous, a "shopkeeper" with the eye bent fixedly on the main chance, and only now and then throwing up by some unaccountable accident a fiery genius like Shakespeare or Byron, who stand out brilliantly against a background of petty, materialistic minds, devoid of all sense of the ideal. In the present day this nation is regarded as well-nigh bankrupt in all moral and material power not depending directly on the control of money, and even that control is fast disappearing. The army is a laughing stock, only fit to be clapped into prison if it showed itself on German soil; the fleet, undermanned and wretchedly constructed, is being rapidly outstripped by the young marine of Germany.

Such is the image which Bleibtreu sets himself to demolish with many a heavy hammer stroke. He tells his countrymen plainly that they are under a dangerous delusion if they imagine that England can be made little in any sphere, intellectual or material. Germans are apt to excuse the lateness, as they think it, of their development in power and civilization by a series of misfortunes—the Thirty Years War, and so forth. Let them consider the case of England!

"If Germany allowed itself to be depressed by such circumstances while England, under the most difficult conditions, struggled indefatigably upward—an extraordinary achievement for a nation originally owning but one eighth the population of Germany—what can this denote but a great intellectual moral, and physical superiority? Has any German ever had a true conception of the bitter toil that it has cost to bring the British worldpower to its bloom? Good luck? A nation of three millions under Cromwell, of ten millions at the time of Napoleon, ventures on a war to the knife with the Corsican giant who controlled in France alone a force of forty millions, and had forty millions more as his obedient vassals in Europe."

Nor will any German reader of this book easily delude himself with the idea that this once mighty power is now exhausted and the Titan grown too weary for her burden. According to the author, England could not, indeed, play a serious part at present in a land war on the continent, but it is "leeres Gerede" to say that she has not plenty of good stuff available for the repelling of any possible invasion, while Germany must for ever toil in vain to reach the magnificent development of the British fleet, which is superior to that of the whole of Europe. "Not only on sea," but, relatively to her needs, on land as well, England is stronger and better equipped than ever before."

In comparing the spiritual and intellectual development of the two countries Bleibtreu again shows no mercy to the cherished illusions of the German chauvinist. Far from being a nation of unpoetic materialists, the really striking thing about the English is the artistic turn, the sense of form, which pervades all their literary work:

"Even the well known military history, Napier's History of the Peninsula War," reads so eloquently, is pervaded with such a veritable breath of poetry, that no similar German or French work can be compared with it. And herein lies the incredibly comic side of the international legend which pictures the British as essentially a people of dry and cold intelligence, practical, but altogether unpoetic. Little as they resemble a 'nation of shopkeepers,' but rather, at all times, a politic and warlike folk of the Roman stamp, yet there is implanted in them a notable artistic impulse which a certain loftiness of spirit ever tends to turn inward, to the things of the soul—in a word, to poetry. Even in their works of science and of philosophy an artistic handling of the matter often makes itself agreeably felt."

We have quoted enough, adds the Times, to show that Herr Bleibtreu has approached his task in the spirit of sincerity and candor, and has shown a courage in dealing with his countrymen's misconceptions which is worthy of our respect, and, we shall add, of our imitation. We can therefore bear to let him show us the other side of the picture. His main complaint of us—a complaint to which he recurs again and again, and supports by a shower of instances drawn from the sayings (or silences) of the Duke of Wellington down to the stories of Mr. Fitchett—is the self-complacency, the niggardly recognition of the high qualities or achievements of alien races (Mr. Kipling's "lesser tribes without the law") which distinguish the Briton, and which, according to temperament, causes so much irritation on the continent. Let us frankly admit—the candid critics on our own hearth have often said no less than Bleibtreu—that he has here hit an undeniable blot, a weakness, an unworthiness, in the national character and the national intelligence Bleibtreu, writing in his own slashing and spirited manner, has certainly sometimes pressed his case too far. It is not for instance, true that English historians "invariably" suppress all mention of the two Hanoverian regiments which formed the second line of advance at Minden. Carlyle, for one, gives them full credit—a great deal more than the defeated French general did, who puts down to the first line alone the credit for the amazing feat of war performed on that day. Again, the Duke of Wellington (whose remark to the German Legion under his command in the Peninsula, "You are worthy to be Britons" was perhaps an unfortunate form of laudation), when advocating the Militia Bill in Parliament called attention to the fact that the British armies "which had so well served the State" were never more than one-third British; and he expressly mentions the services of the German troops. Nor do boys' stories like Mr. Fitchett's, to which Bleibtreu recurs again and again with deep disgust, seem quite important enough to stir up national animosities. Still, he is in the main right; we do need, all of us, more intelligence, more generosity, and less of national self-conceit, in our attitude toward the foreigner—and especially the German foreigner; for here, as Bleibtreu points out, our ignorance is deepest and our need of true knowledge and sympathy certainly not least.

CATHOLIC PRIEST WILL HEREAFTER CARRY GUN

Utica, N.Y., Aug. 11.—Complaining that he had for months been continually persecuted by members of an opposition faction in his congregation, persecutions which culminated in an unsuccessful effort to kidnap him last night, Rev. Father Suck today appeared in the city court, and made application for a permit to carry a revolver. In granting the permit, city judge James K. O'Conner said: "Take it Father; keep your gun loaded, and don't be a bit backward about using it to defend yourself should you again be attacked by any of these ruffians." The police have been making a searching investigation in an effort to apprehend the kidnappers, and have succeeded in locating the cabby who figured in the affairs. He claims that his services were hired and paid for in advance by strangers, with instructions to convey his fares to the New York central depot. He did not know, he says that it was to be a kidnapping.

CLIMBED OVER GLASS IN EFFORT TO ESCAPE

London, Ont., Aug. 11.—Robert Colboy, brought from Clandeboye on July 24th, made a sensational attempt to escape from the jail this morning. About 8:30 he climbed upa water pipe and managed to get on the wall, which is 12 feet high, and is covered with broken glass, which cut his nose and hands, leaving a long trial of blood. While running along the top of the wall he was seen by the turnkey, who got after him and quickly chased him down. Colby had been committed to the asylum at Orillia.

P. O. Clerk Stole Letters.

Montreal, Aug. 11.—For some time letters have been missed at the postoffice on St. Catharines street, and the staff fell under suspicion. A watch was inaugurated yesterday afternoon, and a postoffice inspector detected John Kane, 19, a sorter, pocketing several letters, and swore out a warrant and the youth was arrested. He was taken privately before Judge Leet and searched, and six purloined letters were found. He was remanded for trial. The number of missing letters is unknown, but the complaints indicate that a considerable number were taken.

STRINGENT RESTRICTIONS ON IMMIGRATION TO U.S.

Washington Aug. 11.—A bill providing for very stringent exclusion of immigrants was introduced in the House yesterday by the representative of Austin, Tenn. It provided that all Asiatics except public officials, merchants, students and travellers, shall be prohibited from coming into the United States Porto Rico, Hawaii or the Philippines. It also excludes European adults who cannot read or write who are not industrious and who have criminal records, as well as all members of so-called "black-hand" or similar organizations.

NEW BRUNSWICK PUTS BAN ON "FREE SPEECH"

St. John, N.B. Aug. 11.—Two men were arrested here tonight charged with selling copies of "Free Speech," a Moncton publication barred from mail privileges Large bundles of the paper were also seized by the police. The paper for weeks past has contained attacks on prominent citizens.

At this afternoon's session of the city council a by-law was unanimously passed making it a misdemeanor for any person to print or circulate any book, pamphlet or newspaper of a scrilous nature. The move to legalize boxing bouts of fifteen rounds was killed by the council today.

Some Finance Here!

Decreasing the fee for climbing Brock's Monument from 25 to 15 cents has been a profitable change for the coffers of the Ontario government. The receipts so far this season amount to over $1200. Last year brought in something over $1100. The best year under the late Liberal government only produced slightly over $300.—Toronto World.

LOSS OF IONS IS BIG BLOW TO INDIANS

Tecumsehs Are in Hard Luck This Season—Graydon and Pickering Out Again.

Toronto, Aug. 11.—The absence of Ions will prove a big loss to the Tecumsehs, for the Indians' defence, which is the strong portion of their team this season, will go on the field in a very battered condition. Graydon and Pickering are out again, but both of them have to take things easily, so as to save their strength. It was encouraging to see them taking part in the workouts at the island both yesterday and this morning. Querrie has been taking osteopathic treatment for his sore knee and it appears to have worked wonders.

EASTERN ATHLETES ARRIVE AT SEATTLE EXPOSITION

Seattle, Aug. 11.—Apparently unaffected by their long trip across the continent, the eastern track stars who will represent the New York Athletic Club, the Boston Athletic Club and the Chicago Athletic Association in the A. A. U. championship track and field meet at the stadium of the Alaska-Yukon-Pacific exposition Friday and Saturday, arrived in a special train from Chicago Wednesday.

Several well known athletes accompanied the delegation of track stars unattached to any athletic association.

Accompanying the Chicago team is E. Cook, the world's champion pole-vaulter, who was able at the last minute to arrange his business affairs so as to take part in the meet. Cook tied for first place with Gilbert at the London meet last year and he is practically conceded first place in the pole vault as he is clearing the bar regularly at 12 feet 6 inches. Campbell, of the New York team, is also doing considerably over 12 feet and will probably be Cook's closest rival.

Erickson, the high jumper who defeated Porter this spring, is another last minute entry in the meet. As Porter won first place at London last year, Erickson is looked upon as the probable winner in this event.

The athletes kept up a regular system of training on their trip west. At the stations they took sprints around the train to keep themselves from becoming stiff. A regular system of exercises, which was devised by Manager Halpin of the American Olympic team last year, was used with good effect.

MAY CHANGE DUTY ON AMERICAN RACE HORSES

Ogdensburg, N.Y., Aug. 11.—Customs officers here are awaiting instructions from the treasury department on a clause in the tariff bill which involves the future of horse-racing in Canada. The Canadian tracks depend largely on American owned thoroughbreds for their sport, and hitherto entries owned in the United States have passed free across the border and back again. Collector Daniels, however, finds no provision in the new law for the re-entry free of duty of American horses entering Canad for exhibition or racing. His interpretation is that all returning live-stock must pay full duty. Pending the arrival of advices from Washington, several horses consigned to the Montreal race track are held here.

Final Test Match.

London, Aug. 11.—In the second innings of the final test match, Australia vs. England, the former had made 253 runs with the loss of only one wicket at the lunch hour. In the afternoon the Australians, after making 339 for five wickets, innings declared. England made 304 for five wickets and the game was drawn.

EAST AND WEST END WILL CLASH TONIGHT

If Reginas Win This Evening They Cinch the City Championship—Interesting Game.

What may prove to be the deciding match in the city intermediate, or rather senior amateur league will take place at Queen's park this evening when the East and West End aggregations will clash. If Reginas win tonight's game it means that they also clinch the championship, and the result of that would probably be that there would be no more of the intermediate matches this year.

The Reginas have won four games out of six played this year, one game having been drawn and the other won by the West Ends. Of late the men from the West End have been playing in hard luck. For tonight, however, they state that they have a strong team, and hope to be able to hold the East Enders down.

The Reginas will line up as follows: Goal, Coutts; point, Pearson; cover point, Patchell; defence field, Gifford, K. MacKenzie, H. MacKenzie; centre, Fitzgerald; home field, A. Smith, Kenny, C. Smith; outside, Purdy; inside Hume.

T. J. Mahoney and W. Gifford will act as officials. Play will start at 6:15 o'clock sharp.

SECOND DIVISION CLUBS ORGANIZE FOR SEASON

Vancouver, Aug. 11.—The organization meeting of the second division clubs of the Vancouver District Football league was held last evening at the National Sports Club when the league was started on its 1909-1910 career. Eight teams were represented at the meeting last night, comprising the Shamrocks, Thistles, Y. M. C. A., Westham Island British Columbia Electrics, C. P. R., Central Methodists and Coquitlam.

The league had trouble finding anybody willing to accept the office of secretary and Dave Leith consented to act for a few weeks till his successor could be secured. All applications for admission to the second division league must be in the hands of the secretary by Tuesday, August 17, when the next meeting will be held.

All clubs will be required to forward to the secretary along with the entrance fee the sum of $5 as a guarantee that they will fulfil all scheduled games, the same to be refunded at the end of the season if the guarantee has been fulfiled.

Articles Signed.

Chicago, Aug. 11.—Sam Berger, representing Jim Jeffries, and Jack Johnson, signed articles for a fight, at 1:27 o'clock this afternoon.

EDDIE MARINO WINS OUT AT NORTH VANCOUVER

Eddie Marino, of Seattle, was declared to be the victor in his fight with Young Nelson, of Vancouver, at North Vancouver, last night. The fight opened up well and had gone for nine swift rounds when an old scar on Nelson's chin opened up. The blood flowed into his mouth, interfering with his breathing, and he was obliged to stop. Jimmie Hewett, the sporting editor of The Province, who acted as referee, accordingly gave the decision to Marino.

The preliminary bout which had been booked to take place between Oscar Mortimore, the colored heavyweight, and "Tommie Burns," the Vancouver amateur, failed to come off Mortimore for some reason refusing to enter the ring. As a substitute Lauder and Diver Miller put on a six-round exhibition bout.

Catcher Lapp, of Newark, has been recalled to the Philadelphia Athletics. That explains the hurry call from Manager Wolverton for young Hopten of Montreal.

G.T.P. TRAIN CRASHED INTO HERD OF CATTLE

Brantford, Ont., Aug. 11.—A peculiar accident happened at St. George at midnight on Wednesday. Thirty head of cattle belonging to a farmer named Simpson, wandered through a defective fence on the farm between St. George and Paris, and bunched on the Grand Trunk track for the night. A freight crashed into them, killing 12 outright, and so badly injuring four more that they will be killed. A gang of men was necessary to dig a trench a hundred feet long to bury the dead cattle, where they fell alongside the track.

EXPOLICEMAN HID EARNINGS IN MATTRESS

New York, Aug. 11.—Seventeen thousands of dollars in dull old eagles were found today concealed in a mattress in the former Brooklyn home of Daniel Applegate, an eccentric, expoliceman, who died in New Jersey a month ago, after having lived for many years the life of a hermit. Relatives who had believed that the old man was in almost destitute circumstances, and who had at various times helped him with gifts of money and provisions, will divide the find.

Blackie Spit Is Magnet For Picnic

(Continued from Page One.)

population of about 200. About 400 attended the picnic from Westminster and another 300 came in from the Delta and Surrey, included in the party being Reeve Bose of Surrey. The committee were disappointed that more did not take part in the picnic after all the arrangements had been made.

A Welcome Arch.

Refreshments had been provided on the ground, and this accommodated those who had not brought baskets. At the entrance to the tents of Alderman George Adams was a "Welcome" arch of oyster and other shells and evergreens, everything being produced locally except the bunting. This had been erected by the Adams and Hardman families.

Sports of a simple character were held, the principal attractions being the baseball match in the morning and the tug of war in the afternoon. The baseball match was between the Maple Leafs and the Balmorals, the game being left drawn after ten innings with a score of nine all.

Baseball Teams.

The Balmorals went to pieces in the fifth, but the game was never serious. The teams were:

Balmorals—Howard p, McTavish c, W. Cunningham 1b, W. E. Sinclair 2b, Bowers 3b, Cutcheon ss, Canfield lf, O'Sullivan cf, Munn rf.

Maple Leafs—Corbett p, Hanford c, McLaughlin 1b, A. Sinclair 2b, Jamieson 3b, Silver ss, Dikman rf Robertson lf, Brennan cf. Silver changed places with Corbett later.

The tug of war between the ranchers and the townspeople ended after great excitement in a draw. The contest was far from a fair one, as the spectators crowded around and would not give the men a chance. Only one pull was allowed by the judges, and, the men having been permitted to prepare deep holes, it was almost impossible to move them.

Executive Committee.

The executive committee responsible for the arrangements were: E. W. Cook (chairman), Capt. Wooster, Geo. S. Blakeley, W. Davidson, W. A. Gilley, O. W. Orinston, F. Jackson, F. P. Maxwell, R. Wintemute and D. E. Mackenzie (secretary). As this is the fourth picnic held, the committee have ripened in experience as managers, but it is doubtful if there will be another basket picnic after the comparatively small support given by the citizens. The majority of people attending were those whom the promoters had invited but did not assist the finances of the picnic.

During the evening the band played for dancing. By eight o'clock the country residents had almost all left, and there were many tired little faces among the children when the train arrived in the city at ten p. m. All reached the city without mishap.

City Closes Up.

Among those present were noticed T. S. Annandale, J. A. Lee, Angus Munn, F. J. Coulthard, Alderman Adams, A. Hardman, J. S. Bryson, J. A. Rennie, Marshall Sinclair, J. H. Todd, T. H. Smith and many other prominent citizens. Business was universally suspended in the city and the clerks in the various stores were all out in force. The special was composed of seven coaches and a baggage car. About 390 tickets were issued, exclusive of children under five. About $420 was received from the sale of tickets.

ABANDON CHASE AFTER TWO ESCAPED CONVICTS

Edmonton, Aug. 10.—The chase after Convicts Atkinson and Johnson, now three weeks at liberty, from Edmonton penitentiary, was entirely abandoned by the R. N. W. M. P. and the men have disappeared from view as if they had been swallowed up by the earth.

A week ago Tracker Williams gave up the chase but later a report was received that a negro and white man had crossed the Saskatchewan above Edmonton and were in the district west of Stoney Plains. The police were immediately put upon the trail and succeeded in running the men down. It turned out, though answering the description of the escaped convicts, it was not the looked-for men.

Live Stock Insurance

Live stock insurance has fast become recognized as one of the best kinds of insurance in existence, and an ever-increasing number of stock owners are protecting themselves against the serious losses which they have had to suffer in the past. I represent the only strong, reliable Canadian company carrying this class of insurance, and as they do not handle any insurance but live stock they are able to fulfil their obligations to the greatest satisfaction, and every legitimate loss which has occurred on any of the company's policies since they started business, has been promptly paid, cheques usually being forwarded within a day or two, and the following letter is an instance:

New Westminster, June 23, 1909.

A. W. McLeod, Agent British American Live Stock Ass'n Ltd., New Westminster, B. C.

Dear Sir,—I beg to thank you and your company for the prompt settlement made for the loss of my mare "Nell," for although my claim form was only completed yesterday I have already received cheque for $200.00 in full payment.

Yours sincerely,
(Sgd). J. A. GIBSON.

Advertising Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Four Thousand ($4000.00) Dollars for the purpose of advertising the City.

Whereas, it is expedient to expend the sum of Four Thousand ($4000.00) Dollars in advertising the City and that the said sum should be raised on the credit of the Corporation.

And Whereas, It appears that if the sum of Four Thousand ($4000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Two Hundred and Thirty-Five and 46-100 ($235.46) Dollars.

And, Whereas, in order to raise the said yearly sum of Two Hundred and Thirty-Five and 46-100 ($235.46) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Ninety-four Thousand ($394.000.00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Four Thousand ($4000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Four Thousand ($4000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Two Hundred ($200.00) Dollars for the payment of interest thereon, and the sum of Thirty-Five and 46-100 ($35.46) Dollars to provide for the repayment of the principal

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Advertising By-law 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Received the assent of the electors on the.....day of.....1909.

Reconsidered and finally passed in open Council the.....day of..... 1909.

City Clerk. Mayor.

NOTICE.

Take notice that the above is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster one month from the date of the first publication thereof in the "Daily News" and "Daily Columbian" newspapers, which first publication took place on the 22nd. day of July 1909, and that a vote of the electors of the City will be taken on the said proposed bylaw on the 25th day of August, 1909, between the hours of nine o'clock a.m. and five p. m., at the following places, namely: The Council Chamber, civic building; the Fire Hall, Sapperton; and the Waterworks Storehouse, Eleventh street.

W. A. DUNCAN,
City Clerk.

City Hall, July 22nd, 1909.

City Gaol Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Six Thousand ($6000.00) Dollars for the purpose of building a City Gaol and Police Court Room.

Whereas, it is expedient to erect a building to be used as a City Gaol and Police Court Room, and to use that portion of the Civic Building, now used for those purposes, for other purposes and to expend in the erection of the said building the sum of Six Thousand ($6000.00) Dollars, and that the said sum should be raised on the credit of the Corporation.

And Whereas, it appears that if the sum of Six Thousand ($600.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Three Hundred and Fifty-three and 19-100 ($353.19) Dollars.

And, Whereas, in order to raise the said yearly sum of Three Hundred and Fifty-three and 19-100 ($353.19) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster.

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Ninety-Two Thousand ($392,000.00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Six Thousand ($6000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Six Thousand ($6000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. 4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Three Hundred ($300.00) Dollars for the payment of interest thereon and the sum of Fifty-Three and 19.100 ($53.19) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "City Jail Debenture By-law, 1909."

Waterworks Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Two Hundred and Thirty-Four Thousand ($234,000.00) Dollars for the purpose of increasing the capacity of the City Waterworks System.

Whereas, it is expedient to construct an additional Main Pipe Line for the City Waterworks System from Coquitlam Lake to the Queen's Park Reservoir, and also from the Reservoir to the City limits on Lulu Island, and for that purpose to expend the sum of Two Hundred and Thirty-Four Thousand ($234,000.00) Dollars.

And Whereas, It appears that if the sum of Two Hundred and Thirty-Four Thousand ($234.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Thirteen Thousand, Seven Hundred and Seventy-Four and 52-100 ($13,774.52) Dollars.

And, Whereas, in order to raise the said yearly sum of Thirteen Thousand Seven Hundred and Seventy-Four and 52-100 ($13,774.52) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Sixty-Four Thousand ($164,000.00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Two Hundred and Thirty-Four Thousand ($234,000) Dollars, and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Two Hundred and Thirty-Four Thousand ($234,000) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Three Hundred ($300.00) Dollars for the payment of interest thereon and the sum of Fifty-Three and 19.100 ($53.19) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "City Jail Debenture By-law, 1909."

8. This By-law before the final passing thereof, shall receive the assent of the electors of the said City in the manner required by law.

Hospital Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of Thirty Thousand ($30,000.00) Dollars for the purpose of granting the same to the Royal Columbian Hospital.

Whereas, it is expedient to grant the sum of Thirty Thousand ($30.000.00) Dollars for the purpose of assisting in the erection of a new building for the Royal Columbian Hospital in this City.

And Whereas, It appears that if the sum of Thirty Thousand ($30,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Seventeen Hundred and Sixty-Five and 96-100 ($1765.96) Dollars.

And, Whereas, in order to raise the said yearly sum of Seventeen Hundred and Sixty-Five and 96-100 ($1765.96) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Three Hundred and Sixty-Eight Thousand ($368,000.00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears.

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

1. It shall be lawful for the Mayor of the said City to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same on the credit of the debentures, hereinafter mentioned, any sum or sums of money, not exceeding in the whole the sum of Thirty Thousand ($30,000.00) Dollars and to cause the same to be paid into the Treasury of the said City for the purposes mentioned herein.

2. It shall be lawful for the Mayor to cause any number of debentures to be made, not exceeding in the whole the sum of Thirty Thousand ($30,000.00) Dollars, for such sums of money as may be required, not less than $100.00 each, or an equivalent expressed in pounds sterling of the United Kingdom of Great Britain and Ireland, at a value of 4.866 to the pound sterling; and all such debentures shall be sealed with the Seal of the Corporation signed by the Mayor and countersigned by the Treasurer thereof, or by such other person or persons as may be thereunto lawfully authorized.

3. The said debentures shall be payable on the first day of July 1959, at such place or places as the Council of the said Corporation may from time to time appoint, with the approval of the holders thereof, and shall have attached to them coupons for the payment of interest at the rate of five per centum per annum on the amount thereof, which interest shall be payable half yearly on the first of January and the first day of July, in each and every year, and the said coupons shall be signed by the said Mayor.

4. A special rate on the dollar shall be levied and raised in each year, in addition to all other rates, on all rateable property of the City, sufficient to pay the interest on the debentures, and to create a sinking fund for the payment of the principal thereof when due, subject to any Act or enactment respecting the same.

5. Subject as aforesaid, there shall be raised annually by special rates as aforesaid, during the currency of the said debentures, the sum of Eleven Thousand Seven Hundred ($11,700) Dollars for the payment of interest thereon, and the sum of Two Thousand and Seventy-Four and 52-100 ($2074.52) Dollars to provide for the repayment of the principal.

6. The proceeds of the sale of the said debentures shall be applied as follows, and not otherwise: Towards paying the cost of the passing of this By-law and the issue and sale of the debentures therein referred to.

7. This By-law shall take effect on the 25th. day of August 1909, and may be cited as the "Hospital Debenture By-law, 1909."

Street Improvement Debenture By-Law, 1909.

A By-law to enable the Council of the City of New Westminster to raise by loan the sum of One Hundred and Four Thousand ($104,000.00) Dollars for Street Improvements.

Whereas, certain sums of money have this year been expended out of the general revenue of the City for the construction, improvement and repair of certain streets and sidewalks, and it is expedient that certain additional sums be spent in like manner, amounting in all (with sums already so spent) to the sum of One Hundred and Four Thousand ($104,000.00) Dollars.

And Whereas, It appears that if the sum of One Hundred and Four Thousand ($104,000.00) Dollars be appropriated from the general revenue of the City for the current year the rate of taxation will be excessive, and it is expedient that such excessive taxation should be avoided, and the said sum should be raised on the credit of the Corporation, and that debentures should be issued for that amount.

And, Whereas, for the payment of interest on the debentures proposed to be issued under this By-Law, and for creating a sinking fund for the payment of the said debentures when due, it will be necessary to raise by special rates, in addition to all other rates, each year during the currency of the said debentures, the sum of Six Thousand One Hundred and Twenty-two ($6,122.00) Dollars.

And, Whereas, in order to raise the said yearly sum of Six Thousand One Hundred and Twenty-two ($6,122.00) Dollars an equal special rate on the dollar will be required to be levied on the whole rateable property of the City of New Westminster;

And, Whereas, the whole rateable property of the said City, according to the last revised assessment roll thereof, is Five Millions, Three Hundred and Ninety-One Thousand, Four Hundred and Forty-Five ($5,391,445.00) Dollars.

And, Whereas, the total amount of the existing debenture debt of the said City is One Million, Two Hundred and Nineteen Thousand, One Hundred ($1,219,100.00) Dollars irrespective of the sum of Two Hundred and Ninety-Four Thousand ($294,000.00) Dollars proposed to be raised under the "Hospital Debenture By-law 1909," the "Waterworks Debenture By-law 1909," the "Street Improvement By-law 1909," the "Incinerator Debenture By-law 1909," and the "City Gaol Debenture By-law 1909," of which none of the principal or interest is in arrears

Now therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows:

VAST INCREASE IN GRAIN CROP

Canadian Fields Will This Year Yield 50,000,000 Bushels More Than Last.

Winnipeg, Aug. 11.—According to the bulletins issued by the census and statistical office at Ottawa yesterday the grain yield for this year will exceed that of last year by almost 50,000,000 bushels.

For Manitoba, Saskatchewan and Alberta the estimated yield for this season is placed at 157,464,000 bushels, as against 110,524,000 last year. The timely rains at the end of June, and the frequent showers during the month of July proved very helpful to the crop and only a very few localities were found where the crop was below the average.

Autumn wheat has done well in the parts of Ontario where it is chiefly grown. It was cut early and gathered in fine condition. Reports of threshing already made show averages ranging from 20 to 35 bushels per acre, and the estimated average for the province is 23 1-2 bushels for an area of 581,000 acres in crop.

Alberta is the only other province growing a considerable quantity of autumn wheat, and there fully one-third of the area shown was killed by the hard winter weather. The 81,000 acres harvested has an estimated yield of 23.4 bushels per acre. It was too early at the end of July to get estimates of spring grains for the maritime provinces, but for Quebec, Ontario, Manitoba, Saskatchewan and Alberta with an area of 7,022,200 acres in spring wheat the estimated yield is 22.07 bushels per acre, which makes an aggregate of 159,662,000 bushels. Spring and autumn wheat in the five provinces show a total of 175,220,000 bushels, grown on 7,684,300 acres. Last year the area in wheat in the same provinces was 6,610,300 acres, and the estimated yield at the same date 130,263,000 bushels. For Manitoba, Saskatchewan and Alberta the estimated yield this year is 157,464,000 bushels, as stated above.

The barley crop of the five provinces has an area of 1,846,900 acres, as compared with 1,726,700 acres last year, and an estimated yield of 57,722,000 bushels as compared with 51,690,000 bushels at the same date last year. For the three northwest provinces the estimated yield is 34,553,000 bushels, as compared with 28,597,000 bushels last year.

The estimated yield of hay and clover is 8,984,000 tons.

BLACK HAND GANG CAUGHT BY DREAM

One Member of Gang of Desperadoes Gets Sentence of Twenty-eight Years.

New Haven, Conn., Aug. 11.—Calling him the most desperate and dangerous criminal he had ever come in contact with, Judge William H. Wilas today sentenced Vincenzo Sabatassae to twenty-eight years in states prison, and all of Sabatassae's lieutenants and members of his gang were given from three to twenty-five years, the sentences varying with the enormity of the offense.

Sabatassae was the leader of a Black hand band which has terrorized Connecticut and especially the large Italian section of New Haven for the past five years. He had been convicted of murder in Italy, but had escaped to New York. Throughout the trial a handsome Italian woman, Annie Taddeo, came daily to see Sabatassae and the best lawyers procurable appeared for him and the other members of the gang. When Sabatassae was sentenced the woman broke down.

His connection with the many Black Hand cases was discovered through the dream of Etta Cocvalu, the widow of an Italian who had kept a "fence" at a farm in the town of Orange. After his death the Italians continued to come there and leave bundles which she never opened. One night she had a dream that Frank Guido, a member of the gang, with four others, bound and robbed an Italian who was possessed of a large sum of money. She asked Guido the next day about it and he confessed to her. In great fear she told the police, and by following Guido they procured the evidence which convicted Sabatassae and all his gang.

Civic War in Montreal.

Montreal, Aug. 11.—Ald. Giroux, chairman of the civic road committee this afternoon succeeded in forcing through the city council reports recommending the giving of contracts for paving streets and sidewalks to the extent of $1,300,000. There has been big opposition to the reports.

WORK BEGINS ON HOWE MONUMENT

Shaft to Honor Memory of Three Brothers Whose Inventions Are of Great Utility.

Boston, Aug. 11.—Within a few days work will be begun on the foundations for the monument which is to be erected to the three Howes, inventors, all of the same family, who were born in Spencer in the south part of town.

The monument, which is being modeled by Paul Winters Morris, of New York, will occupy a position in the grass plot in front of the town hall. It bears upon its face bronze portrait medallions of the three inventors of the sewing machine—William Howe, inventor of the truss bridge, and Tyler Howe, inventor of the spring bed.

Fire at Hanlan's Point.

Toronto, Ont., Aug. 11.—An unidentified young woman was burned to death, another perhaps fatally burned, and property damage of $500,000 was caused by a fire that swept through Hanlan's island, an amusement resort, two miles across the bay from Toronto, yesterday afternoon.
