NY MOULDERS STRIKE FOR MONEY

fusal to Increase Wages auses General Tie-up of ron Industry.

a result of the trouble which been brewing for some time be- n the Metal Workers' associa- and the Moulders' union, a strike been declared and no moulders ed up for work in the machine s of Vancouver, Victoria or this yesterday.

e trouble had been forseen by the l association, and at a meeting some time ago in this city, it decided that in case of a strike, requests of the moulders would he granted. Shortly after that, men demanded that a wage of $4 an eight hour day be instituted, met with a negative answer from association. No action was taken some time, but at a recent meet- of the union, it was decided to in an ultimatum to the effect unless $4 was given for a nine day, a strike would be called, 25, being the time set by the lders for it to take effect.

an early hour yesterday morn- Mr. Schaake received word from couver that the ultimatum had presented and refused, the same e was found by Mr. Schaake up- eturning to his office, but he an- ed with a refusal, the result be- that at present no work is being in the moulding establishment than that which can be perform- y helpers and apprentices.

e machine shops on the coast been paying $3.75 for nine ours, h they consider is all they can ibly afford, finding it difficult gh to compete with eastern shops he present rate of wages, and that any higher wages would er it altogether impossible to their own in competition with ern firms who can turn out the machinery at a much lower fig- than the article can be manufac- d on the coast today.

speaking of the situation yester- Mr. Schaake stated that he had little to say, the decision of the l Workers' association was that for a nine-hour day was all they d afford, and that no raise need expected. If the moulders did not back to work, the machine s would have to do the best they d.

hough no official statement has made by the members of the ciation, it is rumored that in case he men not coming to the terms he association, aid will be sought in the eastern cities, where no iculty will be experienced in pro- ing experienced men who will be of the chance to come to the t and work for the prevailing es.

he moulders who have been work- in the Schaake establishment, t twelve in number, have been e satisfied with the wage paid, do not seem very much in sym- hy with the strike, according to rts, but being members of the n have had to quit work, whether uited them or not. Should the sent state of affairs keep on for ther two weeks, it is highly prob- that the Schaake works will have close up altogether, as the machin- who depend on the moulders for r work, will by that time be out material.

A meeting of the moulders' union y be held today, either here or in ncouver, and another proposition l probably be submitted to the as- iation.

EAVYWEIGHT MONARCH MAY LOSE HIS THRONE

London, June 25.—A correspondent the Tribune says in a letter mailed om Lisbon, June 18, that King Car- s' throne is in great danger of be- g swept away by the rush of a great mocratic wave, swollen to danger- s proportions by recent acts of de- otism.

The Portugal government as a re- lt of the political agitation has osed the Republican clubs in Lis- on.

BIG GIRLS WERE SPANKED

Professor Had Salary Increased for Subduing Young Women.

Bristow, Iowa, June 25.—Because he had the courage to spank six girls, averaging 18 years of age, Professor D. L. Correll, head of the public schools here, has been re-employed with an increase of salary of $1,500 a year.

Half a dozen girls threatened to demoralize the school by misbehavior, and the professor threatened to resign rather than resort to severe measures. The school board told Professor Correll to subdue the young women, and they would stand by him. Correll accepted the order, and at the first sign of insubordination executed his spanking stunt. He has had no more trouble, and at the last meeting the school board made substantial acknowledgement of his disciplinary work.

Barriers Burst by Love.

Copenhagen, Jue 25.—A romantic love match became know today. Prince Eugen Thomas, a relation of the Princess of Schaumburg-Lippe, being thus connected with the Danish royal family, three years ago met Villy Larsen, a Danish actress, in Vienna. She was young and poor. The prince fell in love with her. He travelled extensively, striving to forget her. She arrived unexpectedly in Copenhagen and the prince proposed to her and was accepted. They will be married shortly at the prince's castle in Hungary. The prince has given his fiancee half a million kroner.

WILD OR IMPROVED LAND? JUDGE MUST DECIDE

An appeal against the assessment of a piece of land in the municipality of Burnaby brought up a knotty question which Judge Bole was called upon to solve yesterday morning. F. W. Howay and J. P. Hampton Bole appeared on behalf of the appellant, J. J. Johnston, who considers his land too highly assessed, being rated as wild land, when he claims that the land in question has been considerably improved. The point for the judge to decide is, "When does improved land revert to wild land."

Both the present assessor and the party who assessed the land in 1904 assert that it should be classed as wild, which renders it liable to taxation of fifteen mills on the dollar, while Mr. Johnston, the appellant, considers it should be taxed at six mills, which is the rate on improved land, asserting that he has performed considerable work on the place.

As this is practically a test case, and a decision will affect several other large tracts of land, Judge Bole reserved judgment until such time as he has thoroughly considered the facts, when he will render a decision.

JAPANESE STRIKERS ASSAULT REGULARS

Desperate Miners Arm Themselves With Dynamite and Create Reign of Terror.

Victoria, B. C., June 25.—Following the recent labor troubles at the Ashie copper mines and Muroran colleries, serious disturbances are reported at the Besshi copper mines near Miyanoshita, Japan. Ten thousand strikers have burned mine buildings, destroyed much property, killed the chief of police at Suimoto and attacked a regiment of soldiers sent to quell the rioting.

The miners armed themselves with rifles and ammunition taken from the mining company's magazine which they destroyed. Dynamite cartridges were also used by the rioters. Many scenes of violence were enacted and a number of fatalities have been reported. Ring leaders of the strike movement are said to be Socialists, alleged to have fomented the troubles at the Ashie mines. Damage done to the mines is estimated at more than $1,000,000.

FALCH WILL BUILD BIG BRICK HOTEL

Royal City Proprietor Proposes 150-Room Hostelry, Costing $60,000.

A $60,000 hotel will shortly be built on the property adjoining the Royal City hotel by E. Falch. The new hotel will front on three streets, will be built of brick, and will be the three stories high, and will have 150 rooms. Work will be commenced within the next couple of months. The preliminary plans are now in the possession of Mr. Falch, but several alterations will have to be made before they are accepted.

Seen yesterday by a News man, Mr. Falch detailed his plans fully, and gave his reasons for the building of the new hotel, which will be the biggest in the city.

"Every day and night," remarked Mr. Falch, "I am compelled to turn away from six to twenty people from this place, and as I hate to lose all this custom, I came to the conclusion that the only thing to be done was to build a larger place. I had the land at the rear of my present premises lying idle, and after due consideration, I decided to build a hotel that would be big enough to take care of all the trade that is likely to come my way for some time. On account of the proximity of the Royal City mills, I will be obliged to build of brick, as there is always a certain amount of danger from flying sparks, and I do not intend building a place for the sake of collecting insurance money. I am building a hotel for the purpose of accommodating the travelling public, and the structure that I I put up will be one of the very best in every sense of the word. It will be bigger than any other hotel in New Westminster.

"At the present time, my quarters are altogether too cramped. I am not able to handle a great part of the business that comes my way, and every night other hotel men are telephoning here to know whether I am able to put up two or three of their guests, as their accommodation is all taken up. It is a fact that a large number of the hotel keepers and their help have been sleeping on cots four nights out of every seven for some time past in order to accommodate some of the regular guests who have arrived after all the rooms have been taken up. This state of things does not appeal to me at all, and as I see no reason why hotel trade should drop in the future, I am going to cater to it in every possible way.

Replying to questions, Mr. Falch remarked that he had been established in his present quarters for about six years, and had built the Royal City hotel only three years ago. As there are only 35 rooms there, the accommodation is altogether too limited. He bought the property for $5,000 from the Guichon estate. Since he acquired the property, he had had many tempting offers made to him, but he has always refused to sell. Three months ago, an eastern hotel man, who declined to make his name public, offered him $45,000 for the hotel and the property but even this tempting offer could not induce Mr. Falch to retire.

"What would I do with only $45,000, and no income to follow," inquired the hotel man. The reporter agreed with him that such a small sum would be of very little use to anyone.

The new hotel will be strictly modern in every respect, and will have all the latest improvements installed. The dining room, office, bar room and store room will be on the ground floor, while the two upper stories will be devoted exclusively to the sleeping quarters. The location is one of the best in the city, being close to several important industries employing hundreds of men.

Logs Pass Prince Albert.

Prince Albert, June 25.—The logs which escaped from the booms at Edmonton began to pass here last night. The river is about nine feet above normal, it having risen about seven feet last night. The drift wood and rubbish covered the water from shore to shore. Captain Deacon is catching all the logs south of the lower island, where the current is not very swift. He will, however, only get a very small percentage.

TUBERCULOSIS COWS.

Chairman of Quebec Health Board Makes Startling Statement.

Quebec, June 25.—Dr. A. N. Hall, chairman of the health committee, made an important statement in course of an interview regarding tuberculosis in relation to the milk supply, a subject which has been frequently discussed in Montreal of late. He said:

"To my personal knowledge, 163 tuberculosis cows have been shipped from the city of Quebec to Montreal to be sold for milk purposes. They were cows giving a large flow of milk and not fit for slaughter. In other words, Quebec has taken advatage of the fact that no legislation exists in Montreal against tuberculosis to make Montreal the 'dumping ground for the tuberculosis cows.

Explosion Blinds Man.

Saskatoon, June 25.—While blasting a boulder at Ferry Landing a premature explosion occurred, badly injuring Wilson Dafoe and his son William. The elder Dafoe had his left hand shattered and may lose the sight of both eyes, the face being badly lacerated. The hand was amputated. The son had his face seriously injured by the powder, and his sight is also threatened.

St. John, N. B., June 25—Since 1893 no less than nine employees in the St. John post office hae gone insane. There are forty-five employees in the city office. Frequent complaints have been made that the sanitary arrangements of the office are bad. Owing to the cramped quarters the staff is small, and concentration of work is necessary.

WINNING PUPILS RECEIVE PRIZES AT COLLEGE

The awarding of the premiums to the students of St. Louis college took place yesterday morning in the principal study hall. It was presided over by Rev. Father E. Lambot, director, D. Ph., assisted by Rev. Father O'Boyle, D. D., Rev. Father Maillard, and the teachers of the college. The list of prizes is as folows:

Prize for good conduct and deportment, awarded to Thomas Cleasby, (Lower Nicola). The prize has been awarded to him by the votes of more than two-thirds of the students. Testimonial card for good conduct awarded to L. Gregory (city).

Prize for politeness and good manners, awarded to L. Fagan, (city). Testimonial card to J. Hamilton (city).

Prize for application awarded to J. Guichon, (Quilchena). Testimonial card to M. Swenceski (Vancouver).

Prize for attendance and regularity, to M. Fitzgerald (city).

Prizes for Christian Doctrine.

First prize: J. Hovan, (Fernie), average marks, 95; second price, L. Gregory (city), average marks, 90; third prize, J. Macdonald (city), average, 88.

Prizes for General Proficiency.

Senior grade: First division, prize awarded to G. Morrow, (Sapperton). Second division, M. Swenceski, (Vancouver).

Intermediate grade: First division, first prize, R. Frizzell, (Port Essington); second prize, A. Lavell, (city). Second divison, first prize, J. Gulchon (Quilchena); second prize, Thomas Cleasby (Nicola).

Junior grade: first division, first prize, J. Macdonald (city); second prize, A. Swenceski (city). Second division, prize M. Fitzgerald (city).

After all the prizes were awarded, and the happy winners had received beautiful books and pictures, Rev. Father O'Boyle, D. D., addressed the pupils with a few words to congratulate them for their good application and real success, which he had noticed since his arrival in the country.

The Rev. Father Director wishes to thank those who have kindly contributed to the feast by presenting prizes, and especially His Lordship Bishop Dontenwill, who gave the three prizes for Christian Dostrins. Rev. Father O'Boyle, D. D., Rev. Father Larden, D. D. former director of the college, J. J. Mackay, Mr. Morey, and others who presented the prizes for general proficiency.

The classes at the college will reopen again on the first Monday of September.

BELLINGHAM IS NOW FAVORED FOR PICNIC

Advantages of Rail and Water Excursion Discussed—Decision Tuesday.

The members of the transportation committee of the citizens' picic organizors met last night in the board of trade room to report on the result of their interviews with the different transportation companies.

An option has been secured on the Princess Royal for Plumpers pass or Sydney, and though a water excursion seems to be the most favoired, several strong arguments were advanced against both these places.

J. H. Vidal wanted to know what terms the railroad companies offered but nothing had been done along this line. Sydney, Nanaimo, Howe sound and Bellingham were all discussed, but of the lot Bellingham was the most popular, and after some time spent in discussing the facilities of transportation both by boat and rail, it was practically decided to hold the excursion to that place either by boat or rail.

This having been satisfactorily settled, the members of the committee were instructed to interview the railroad companies and get some estimate of what the trip would cost, and also see E. J. Coyle, C. P. R. passenger agent in Vancouver, and get his figures on the trip by boat. The result of their enquiries will be reported at a meeting next Tuesday, or sooner, if the chairman sees fit. The members of the committee who were on hand last night were W. A. Gilley, E. W. Cook, J. H. Watson, H. Davidson, Capt. Rogers, sr., G. Blakeley and R. H. Benson.

STREET SWEEPERS STRIKE.

Broom Pushers and Dump Men Object to Dismissals.

New York, June 25.—As a protest against the action of the department officials in laying off some of their fellow workers, the employes of the street cleaning department in Manhattan and Bronx boroughs went on strike today. The men on strike are cart drivers, sweepers and dump men.

It has been the custom in the street cleaning department to cut down the regular working force during the summer months. Under this system some men who have been regularly employed through the winter at $2.50 a day are put on the extra list and are allowed $1.97 a day when they work. The strikers want all the men retained at the regular rate of wages.

DARING PLOT FAILS.

Victoria, B. C., June 25.—A plot to steal $50,000,000 from the Russian government office at Tschita, where the money was kept for enterprises in Siberia, has been discovered and thirty Russians arrested.

They had made a tunnel 120 yards long from a hotel to the safe and when the plot was ripe it was disclosed, almost all of the plotters being captured.

OWNERS DISCREDIT CONSTANCE WRECK STORY

Strenuous efforts are being made to confirm or disprove the report to the effect that the tug Constance, with its captain and crew, are at the bottom of Rivers inlet, but so far nothing of a definite nature has been learned. As yet the boat has not been located, no vessels from the north which have come down during the past few days report having seen her, but the crew of one vessel state that some Indians report having see a tug stranded on a reef during a very heavy fog, shortly after which it turned turtle, but as to the fate of the crew they were unable to say.

The manager of the P. C. Packers' association to which company the Constance belongs, states that no official report has yet been received of the disaster, and though not cognizant of the whereabouts of the boat he is confident that she will turn up allright before long, as he considers that had anything happened, the company's agent at Rivers inlet would have notified them before now.

KILLED HIMSELF "ROOTING."

Baseball Fan Becomes Oxer-Excited and Dies.

Binghampton, N. Y., June 25.—G. Arnold Chaplin, a marble dealer, 50 years old, dropped dead as he returned home from the baseball game between Binghamton and Wilkesbarre teams this afternoon.

After the sixth inning, when things warmed up for Binghamton, he was one of the loudest "rooters," and became so excited and warmed up that he died from heart disease, superinduced by his baseball excitement.

Wants $50,000 From G. T. P.

Brantford, June 25.—The city council tonight passed a resolution instructing the city solicitor to take action against the Grand Trunk to enforce an agreement made in 1902, upon violation of which the company agreed to refund $50,000 to the city. It is claimed that the company has violated the agreement by refusing to take passengers on the International Limited from Toronto to Brantford and from Brantford to London.

To Advertise Dominion.

Ottawa, June 25.—The immigration branch is about to renew the experiment carried out so successfully three or four years ago, and bring out about a dozen representative newspaper men from the British isles to tour Canada from coast to coast. They will land in the Dominion the first week in August, and, after visiting the Maritime provinces, will then proceed west, reaching the prairie districts in harvest time.

HUMPHREY JONES, HERMIT, ENTERS HOSPITAL AT LAST

Humphrey Jones, the aged hermit of the west end, who has for some time back firmly refused to enter a hospital or home, has at last been persuaded to allow himself to be taken to the Royal Columbian hospital.

The old man, who has been many years a resident of this city, has no relations of any kind here, and though possessed of quite a fair sum of money, lived in a state bordering on starvation, and was unable to come to the city, having all his purchasing done through the kindness of the neighbors, on whom he depended for a great many of the necessities of life. Some time ago the case was drawn to the attention of the police, following which Chief McIntosh and Detective Bradshaw paid a visit to the old man's shack, and strong inducements were held out in an endeavor to persuade him to leave his home and become an inmate of one of the hospitals, but all in vain, Humphrey Jones steadfastly refused to leave the place, and the police were obliged to depart leaving the old man still in possession.

A few days ago word was sent to the police that Jones had fallen down and broken his leg, and again the chief paid a visit but the same reception met him as before, Jones refusing to have anything to do with him. The chief was despairing of being able to get him to the hospital without using force, when the invalid changed his mind, and he finally consented to be removed to the Royal Columbian hospital.

TIMBER BRINGS MUCH MONEY INTO TREASURY

The provincial fiscal year will end on June 30, and it is officially estimated that the total revenue for the year 1906-7 from timber sources alone will reach $800,000. This revenue is derived from timber licenses, leases, royalties and export taxation, and as the cost of collection amounts to practically nothing, this large sum may be said to be clear profit to the government.

The revenue of the timber department for the fiscal year almost closed will be several hundred thousand dollars in excess of that of the preceding fiscal year, and will make a new record. The increase is due in great measure to the activity in timber during the past twelve months, the government having received an enormous amount of money from license fees on newly staked limits.

JUNE WEDDINGS

In the spring a young man's fancy turns to thoughts of love, and in June he gets married. We have now a splendid new assortment of

Cut Glass

including Bowls, Pitchers, Vases, Water Bottles; and a magnificent selection of

CIRCUS FOLLOWERS LAND IN CITY JAIL

Man Accused of Housebreaking Implicates Partner - Caught in Victoria.

Owing to the energetic work of Chief McIntosh, ably seconded by Detective Bradshaw, all the property which was purloined from the houses of Messrs. Sharpe and Blakeley during circus time has been recovered, one of the miscreants placed behind the bars in this city, while a suspect is held in Vancouver.

The work of these two police officers in running the criminals to earth and restoring the property to its rightful owners, has been a clever piece of detective wok. When the robbers decamped, not a clue was left behind, the only facts for the police to work on being that the houses had been robbed, and among other articles several pieces of clothing; one of which was the ultimate cause of their apprehension.

When Conerly, the young man now in the police station, went through Mr. Sharp's home, he took a coat belonging to a certain suit, but forgot to take the vest, and when the news was reported at headquarters, Chief McIntosh made a trip to Vancouver with the vest, looking for a man who would be wearing a coat of a similar pattern. For some time his search was futile but later word was received from Vancouver that the police there had gathered in a hanger-on of the circus wearing a coat which resembled the one missing.

Detective Bradshaw immediately proceded to Vancouver, where the man was held, but was informed by the chief there that there was no use of his seeing the prisoner, as he absolutely refused to say anything and could account for the coat in his possesion. Bradshaw determined to see the young man, and was accordingly admitted, where after a short conversation with him, he so represented the enormity of the offence and the advisability to make a clean breast of the matter that Cornerly confesesd all, implicating the other man who was then in Victoria.

The next step was the recovery of the stolen goods, some of which had been disposed of in Japanese camps across the river, and several other places. After a couple of days looking around, the goods were eventually located and restored. Conerly was up before the police magistrate yesterday and remanded until Friday, by which time it is expected that the man held by the Vancouver police will be brought over to answer to the charges laid against him by Conerly.

FEAR INDIAN UPRISING.

Girl Exercising Great Influence to Detriment of Missionaries.

Fort Berthold, N. D., June 25.—Under the leadership of Annie Enemyheart, a new religion, or rather a recrudescence of the old heathen practices, has sprung up among the Indians of the Fort Bethold reservation, and is causing considerable excitement.

Recently a horse belonging to the father of the woman died, and she has succeeded in making the Indians believe that the spirit of God has entered into the dead body of the horse. She caused the head of the horse to be cut off, and this she dressed with bright pieces of calico.

Offerings are brought daily to the horse's head, and these are offered as burnt sacrifices during all of the ceremonies.

Many of the Indians have become convinced that the woman is a prophet of the Great Spirit, and they obey her every whim. She advises her folowers to turn their backs on the white man, and to live for the Indians alone.

Missionaries express fear that the influence of the woman may cause trouble.

JERRY BUILT HOUSE COLLAPSES, KILLING 7

Ramshackle Tenement Tumbles to Ruins in the Night Sleepers Warned.

New York, June 25.—Seven persons, six of them members of an Italian family, were killed today in the collapse of a ramshackle tenement in the downtown Italian quarter. Three other members of the same family rescued from ruins, including father and mother, are in a hospital internally injured but will recover.

Some exciting scenes followed the accident, one of which was the rescue of an old man from a two-foot ledge forty feet from the ground, this portion of the fallen building having adhered to the adjoining structure long enough to permit the firemen to get to the scene, raise a ladder and take the man, Jacob Reigley, a lodger, safely to the ground. Almost immediately afterwards this portion of the building also fell into ruins.

The seven persons who lost their lives were buried under tons of debris and it was not until the firemen and volunteers had worked for four hours that the bodies were recovered. Some of them had been instantly killed, but others escaped death in the first crush only to be smothered by bricks, broken timbers, plaster and dirt.

George Blumenthal, the contractor who had charge of the recent repairs of the building, was charged with homicide.

That many more persons did not lose their lives in the collapse of the building was due to two of the other occupants of the home having attended an Italian celebration last night. The boys reached home shortly before 2 o'clock this morning, and, warned by the severe shaking and creaking of the house, ran through the building and warned the sleeping tenants of impending disaster. Dozens of persons ran into the street in their night clothes, many of them had scarcely gained the street before the crash came. The work of the firemen was attended with great danger because of the shaky walls which threatened to fall on them. Chief Calvin and Lalderman Sammet were badly hurt by the collapse of a wall while other firemen were cut and bruised but continued at work.

HALTED BY DEATH SIGN.

Terrified Witness' Lips Sealed by Black Hand Signal.

New York, June 25.—In the shadow of the ermine itself the Black Hand sign of death proved potent. Ignazio de Leonardo, convicted of kidnapping little Salvatore Siatta, offered to testify against his accomplice, Pietro Pampinella, to get a lighter sentence. As he was about to speak, Pampinella leaned forward and brought his hands, one on each side, down from his temples until they met under his chin.

De Leonardo's eyes bulged out in terror and he was unable to speak, the muscles of his throat working convulsively.

"What is the trouble?" cried Judge O'Sullivan. "Are you ill?"

"Yes, I'm sick," mumbled De Leonardo with a slack jaw, "I cannot testify."

"I have seen the sign of death." De Leonardo answered, jerking his words out as though in pain. "Pampinella has just given me the sign of death. It is 'Il Mano Nero—the Black Hand.' I will not testify."

It took the jury only two minutes to convict both men.

French-Spanish Understanding.

Paris, June 25.—The official text of the French-Spanish understanding was published today. It declares that each government is firmly resolved to maintain intact its insular and maritime possessions in the Mediterranean and Atlantic, and binds each country in circumstances arising which threaten to modify the status of one to consult the other with the view of "common action."

LAKE FLEETS

Eastern papers warmly praise a resolution adopted by the Methodist conference deprecating the movement now on foot to abrogate the treaty which prevents both Britain and the United States from keeping war vessels on the international waters. The treaty, which was concluded April, 1817, consented to 1818, and proclaimed on April 28, 1818, provides that: "The naval force to be maintained upon the American lakes by His Majesty and the Government of the United States shall henceforth be confined to the following vessels on each side; that is, on Lake Ontario to one vessel not exceeding 100 tons burden and armed with one 18-pound cannon; on the upper lakes to two vessels not exceeding like burdens each, and armed with like force; on the waters of Lake Champlain to one vessel not exceeding like burden and armed wtih like force. All other armed vessels on these lakes shall be forthwith dismantled, and no other vessel of war shall be built or armed"

There was also the usual provision that either side could abrogate the agreement by giving the other six months' notice of its intention to do so; and now, after ninety years, certain people in the United States—chiefly the ship-building interests, with the backing of some naval enthusiasts and "jingoes"—are urging that notice be given and the treaty terminated. The excuse is that the great lakes furnish a most excellent place for "training ships." Of course neither country would allow the other to outbuild it in ships. Millions of dollars would be spent on vessels which, aside from the flimsy pretext of "training," could have no use except in case of a war which the civilization of our day has agreed to call "impossible." We all hope that war with our cousins across the line is, and will continue to be impossible; but if there is one thing more likely than another to lead to such a war, the presence of rival fleets on the great lakes would seem to be that thing.

The people in the eastern provinces who are and have been the most strenuous advocates of Protection, and to whom we owe all of Protection which still remains in the tariff, were also the most pronounced opponents of Chinese exclusion. The other day, the Globe gave them a very neat dig in the ribs. Here it is: "It is certainly a hardship that a Chinese student is not allowed to visit Canada. But think how he would be received if he attempted to bring anything good or useful into the Dominion."

Says the Halifax Chronicle: It will come as a surprise to most Canadians to be told that one voter in every ten in the State of Massachusetts was born in the Dominion of Canada; yet that is the statement made by so good an authority as The Boston Transcript. Is it therefore any wonder that the politicans of that state are interested in trade relations with Canada and that it is a regular issue in the gubernatorial campaigns?

It is the governor of one of them who says that the United States have gone mad in their zeal for the interests of the seller, and have abandoned the buyer to the tender mercies of monoply and commercial graft.

SPITE OF HEAVY TAX MANY CHINESE ARRIVE

Vancouver, June 25.—With a head-tax of $500 apiece on all fresh Chinese immigrants to this country they still continue to come, and the list on the Empress of Japan, which reached port last night from China and Japan, eclipses all previous records by about 500 per cent., fourteen Chinese being the highest number on any single liner previous to this who have paid the $500 head tax. The total amount paid by the Chinese arriving on the Japan, was $35,500.

Before the Japan left Hongkong the tax was collected from fifty-nine Celestials, and twelve more paid at Victoria, and it is expected that when all have been examined there will probably be a few more who will make their contribution to the government.

Although five hundred and twenty-one Chinese came over on the Empress of Japan, two hundred and thirty-two of these will leave in bond for the east tonight. They are bound for the West Indies, Trinidad, Havana, Mexico, as well as Eastern Canadian and United States points. Others are returning to United States Pacific coast points, and two hundred and fifty Canadian registered Chinese returned on the steamer.

MAN IS LOWERED INTO BOILING WATER

Mistake in Signalling Costs Foreman's Life — Flesh Came Off in Patches.

Nelson, June 25—Achilles J. Rainville, the well known foreman of the Eureka mine, to the west of the city, died yesterday afternoon as the resultof a distressing accident which befell him. On Thursday evening when about nine o'clock Rainville and another miner went down the shaft of the Eureka to the 150 foot level.

The shaft was being pumped out and the water on Thursday night stood about 20 feet below the 150 ft. level. The exhaust from the pump is discharged into the water in the shaft and this had raised the water's temperature near the surface to the boiling point.

Rainville and his companion took down some extra lengths of pipe and intended adding to the pipe already in place. At the 150 foot level the men halted, and Rainville went on alone in the bucket to the water level. He rang the signal, one bell, to stop and a moment later signalled two bells, calling for the bucket to go on down. The second call was obeyed and almost immediately a shriek of agony came up the shaft. Rainville's companion instantly made his way down the ladder and on reaching the water level found that the unfortunate foreman had been completely immersed in the boiling water. He got him on the ladder and Rainville, notwithstanding the agony he was in, made his own way up the ladder to the 150 foot level and later to the surface. When his clothes were take off, large patches of the man's skin came with them and it was seen what a terrible plight he was in. Stewart Campbell applied oil and everything possible was done to alleviate Rainville's sufferings, which at this time were intense.

A man was despatched at once to the city for help and Dr. Rose and J. J. Malone set out for the camp. They left the city about 11 o'clock, but the road is a hard one to travel over and it was nearly 1 o'clock before they reached the sufferer.

Dr. Rose at once gave Rainville opiates to partially relieve his agony and dressed his wounds staying with him until the end came, early yesterday afternoon, when the doctor and Mr. Malone returned to the city.

It is supposed that Rainville intended to give three bells at the time he gave the second signal, which would have called for the bucket to be raised. In some way only two bells sounded and the man was lowered into the boiling water.

Rainville bore his suffering most manfully and heroically, but he had no chance for recovery, and death put an end to his agony. The deceased came west from a little French-Canadian village in Quebec nearly 15 years ago and was very well and most favorably known to the majority of Kootenay miners and operators. He was 42 years old, a member of the Knights of Pythias, and unmarried.

Biggest Placer Merger on Record.

Dawson, Y. T., June 25.—Records in the gold commissioner's office show that one of the biggest placer mergers ever known, has been consummated in Dawson whereby the Guggenheim interests have taken over properties from A. N. C. Treadgod, the Northwest Hydraulic company and the Yukon Consolidated Gold Fields Companies and other smaller concerns. By the deal the Guggenheim people have absorbed all the placer properties in the Klondike watershed, which have been worked by old methods. Hundreds of claims on Eldorado, Bonanza, Hunker, Bear creeks, their rich hillsides and tributaries are included in the deal. It is estimated the claims have cost the company $10,000,000.

RIGHT THIS WAY EVERYBODY FOR THE BEST SHOES

HOT WEATHER SHOES

A Few Suggestions for FOOT COMFORT During the warm weather:

.. For LADIES ..

Canvas Shoes are probably the most comfortable of any summer footwear. We have them in colors white, blue, pink and brown, all of the very nicest American makes. Our prices on them run from $1.50 to $3.50

Tan Oxfords are much called for this season. We carry a complete line of these in both light and dark shades, prices running from $2.50 to $4

For MISSES and CHILDREN

The demand is great again this year for Barefoot Sandals, White Canvas Shoes, Tan Slippers and Oxfords. Our stock is immense in these lines, the prices ranging from ..... 75c to $1.50 a pair

.. For GENTLEMEN ..

We strongly recommend for a nice, comfortable shoe, a pair of White or Brown Canvas Shoes, either high or low cut. We keep the non-squeak kind which sell for ..... $1.50 to $2.75 a pair

Another shoe that is popular is a Vici Kid or Gun Metal Oxford, made on lasts of three different widths. These run in price from $1.75 to $4

We'll guarantee you Foot Comfort if you buy your Shoes from us.

"The Farm Land Specialists," *New Westminster*

CITY NEWS

The Fingal arrived yesterday with a large consignment of baled hay for the Brackman-Kerr Co.

The fisheries cruiser Georgia leaves this afternoon for Comox and will not be back before the end of the week.

Judge Morrison will preside at the session of the supreme court here today, and much business is expected to come up before his honor.

Charles Dynes, of Sapperton, has bought the grocery store formerly conducted by George Mooney. The new owner intends to thoroughly remodel the premises, and will conduct the business on up-to-date principles.

Cut flowers and Pot Plants. Ring up Tidy, the florist. 'Phone A184.

Driver James Best, who has been away on his holidays, returned yesterday, and is again at his post in No. 1 hall. "Jimmy" reports having had a pleasat time, having visited friends in Langley and several other places.

The Albatross, one of the old torpedo boats which has been remodelled has been undergoing repairs at the Schaake works this week. The strange looking craft has had a thorough overhauling and left yesterday afternoon.

Mrs. David Gilchrist, who has been in a poor state of health for some time past, returned to the city a couple of days ago from Vernon, where she has been recuperating. The visit seems to have been beneficial, as the lady appears to have improved considerably in health during her trip.

A meeting of those interested in the auto bus transportation scheme between here and Port Moody will be held tonight in the board of trade rooms. Reports regarding the practibility of the proposition will be heard, and it is probable that some definite action wil lbe taken.

The fireman on the Favourite had a narrow escape on the trip up to Harrison lake last week. While throwing ashes over the side of the boat, he lost his footing and slipped into the water. The boat was going full speed at the time and the man was a considerable distance off by the time they managed to stop. He was finally picked up in an exhausted condition, his escape being due to the fact that he was an expert swimmer.

An application for 200 inches of water was granted yesterday by Government Agent C. C. Fisher to Chauncey E. Eckert, of Chilliwack. The water is to be taken from a point on Elk creek and returned into the Fraser river about five hundred feet from the point of diversion, and is intended to be used for manufacturing, domestic and agricultural purposes on the N. E. quarter of section 24, township 26, New Westminster district.

E. Goulet, C. P. R. agent, has now received the summer excursion tickets to the American coast cities and the east. Up to last year, the tickets did not include New Westminster, only Victoria and Vancouver, but on Mr. Goulet protesting, New Westminster now figures as a booking center. The result is obvious, as on all the placards advertising the summer excursions distributed throughout the Dominion and the coast cities, the name of the Royal city has a prominent city.

A message from R. T. Reid, superintendent of the Western Union Telegraph company, was received in this city yesterday advising the local telegraphers that messages for all points in the United States would only be accepted at sender's risk and subject to heavy delay. The telegraphers' strike in San Francisco and Oakland is responsible for the trouble. Chicago is two days behind in all its messages, while in every large city, the efficiency of the telegraph offices is greatly impaired on account of the trouble.

A combination of a milking pail and somebody else's cow has been proving a paying proposition for an unknown party in the neighborhood of Fourth street and Fourth avenue for some time past. Bovines belonging to Henry Kerr, William Beadle and several other parties, have been found to be dry almost every day for the past two weeks when the owners went out to milk them of a morning. A watch is being kept for the man who is running the small dairy on the cheap, and his apprehension will be followed by strenuous exertions on the part of the owners of the cows.

The tug Brunette left yesterday afternoon for Howe sound to bring up a boom of logs.

For cut flowers, bouquets or funeral designs telephone T. Davies & Son. B 208.

A few salmon still keep coming into the city. The Alicia came in yesterday afternoon with a good consignment, gathered up-river, and left again for another trip.

W. McFadden, champion clam baker of the Pacific coast, is now camping at Boundary Bay, and entertaining a large number of guests every week end. Mr. McFadden is always pleased to see his old friends, and all are welcome at his camp.

FOR SALE—Timber limit on Pitt lake, containing about eight million feet of fir and a quantity of cedar. For further particulars apply to J. ROSS SHARPE, Box 502, city.

Nine tenders were received by P. O. Bilodeau for the construction of the addition which he proposes building to the Windsor hotel. Owing to some of the lowest offers not having all the specifications covered, the award was not made yesterday, but will be announced sometime tomorrow.

Moody Square was the scene of a most successful ice cream and strawberry social yesterday afternoon and evening, the ladies of the West End Methodist church being the prime movers in the open air fete. One of the features of the evening was a baseball game between the bachelors and the benedicts of the congregation, while races and other sports were also indulged in.

Provincial Constables H. C. O. Abney and H. Des Barras arrived in the city yesterday morning from Cranbrook, in charge of two men, one, named Wolf, for committment to the asylum, and the other, W. Rymick, who was turned over to the penitentiary authorities. Both men were landed in the police station about three in the morning and left in charge of Jailor McInnes.

Judging from the conversations heard regarding the races at Ladner today, many of New Westminster's citizens will take in the event. Arrangements have been made for connections with Steveston and Vancouver, and the Transfer will leave here this morning, landing passengers at Ladner in time for the races, returning fom there at six p. m. The event is expected to be one of the most successful held for many years.

James Walmsley, C. P. R. night watchman, and also trainer for the baseball team organized by the railway company, is putting himself through a severe course of physical training in order to be better able to handle his colts. In order to thoroughly understand the best means of training a baseball team, Jim has been coaching the Sapperton junior ball players, but these unappreciative youngsters yesterday showed their disapproval of Mr. Walsmley's methods by turning a water hose on him.

Donald McLean, a farmer of Coquitlam, lost a $4000 barn on Monday afternoon through a disastrous fire, which, in addition to destroying the barn, also consumed a quantity of hay and other farm produce. The fire was first noticed about three o'clock in the afternoon, and although a determined effort was made to master the flames, everything was in vain. The origin of the fire is unknown, but an investigation is to be made into the circumstances surrounding the outbreak.

Mr. McKinley, a well to do farmer of Gravenhurst, Ontario, recently came to this city on a visit to his son, and was so impressed that he has returned to Ontario for the purpose of selling out his farm. He will later take up his residence in this province. Mr. McKinley has a son who is employed at the Pacific Lumber company's sawmills, Port Moody, a daughter is head nurse at the hospital in Nelson, while another son is employed by the Dominion Express on the run between Moose Jaw and Calgary. Mr. McKinley intends to buy a farm in Langley.

Cabinet Has Resigned.

Caracas, via Willemstadt, Island of Curacoa, June 25.—The cabinet resigned Saturday owing to the action of Venezuelan congress in condemning the policy of the ministry of finance. The heads of the departments are transacting the government business.

CRIMINAL SOCIETY DOOMED TO DIE SOON

Notorious Comorra Broken Up by Police—Priest Implicated—Sixty Arrests.

Naples, June 25.—The criminal association known as the Camorra, which has flourished since time immemorial in Naples and has been regarded almost as a national institution, seems doomed to disappear. Italians doubt whether it will, and foreigners accustomed to visit Naples will regret its disappearance, as to them it had one advantage. If their watches or pocketbooks were stolen, a frequent occurrence to foreigners at Naples, their guide or courier by applying to the Camorra could have them returned for a consideration, while it is a well known fact, that the police in such cases were powerless either to catch the thief or to recover the stolen property.

The Camorra, owing probably to this characteristic trait, is styled the Honorable society. Evidently the Naples police recognized the advantages offered by it, as they never made any effort toward its extermination, but the carabineers thought differently and arrested about sixty prominent heads of the Honorable society, among them a priest, the spiritual director of the association.

All the prisoners are more or less implicated in a double murder committed in Naples by the Camorra. Since the carabineers succeeded where the civil police had failed it has been suggested that the latter were in league with the Camorra, and favored its exploits. The government has been questioned in parliament as to whether this was true, and the question was not answered on the plea that a trial was pending, and it was not considered right to refer to the Camorra until judgment was rendered, but the question did not provoke a denial, and this leads to the belief that the police were really allied to the Camorra.

DATES OF FAIRS, 1907.

Official List of Exhibitions Throughout the Dominion.

New Westminster Realty

is advancing in price. Owing to the many new settlers arriving from the eastern prairies, lots are in big demand, and prices can be realized that were not dreamt of a year ago, and still they are below their real value. Manufactories bring in their train more families; these have to be housed, and paying rent is obsolete.

SAPPERTON

9 Lots corner of Brunette St. and Distillery St., subdivision 4, 5, 6, 7, 8, 9, 10, 11 and 12 in lot 13, Sub.B. 1, Sapperton. Price $1500, half cash, balance 6 and 12 months at 7 per cent.

TENDERS FOR DERRICK, SCOW, BOILER AND ENGINE.

TENDERS addressed to the undersigned at Ottawa, and marked on the envelope "Tenders for Scow, Steam Engine, Boiler and Derrick for buoy service, British Columbia, or tender for scow alone," will be received up to the

20th DAY OF JULY, 1907.

for supplying and delivering at Victoria, a wooden scow and the erection on board of a steel derrick with hoisting engine, boiler and other accessories according to specification; also for supplying and delivering at Victoria where directed, a double cylinder tandem hoisting engine, winch to have four hoisting drums and two winch heads, an upright steel tubular steam boiler of 30 horse power capacity, and a structural steel derrick.

Specifications of the machinery and plans of the derrick can be obtained at the Department here, at the agency of this Department, Victoria, at the Customs House, Vancouver, and the Customs House, New Westminster, B. C.

Tenderers must furnish plans of the boilers and engines offered, and state the earliest possible time in which they will agree to make the delivery.

Separate tenders for the three articles, viz., engine, boiler and derrick will be received, and separate tenders for the scow or tenders for all together.

An accepted cheque on a chartered Canadian bank equal to 20% of the whole amount of the tender must accompany each tender. The cheque accompanying the tender accepted will be forfeited if the party tendering declines to enter into a contract or fails to complete the work contracted for, and each cheque will be returned immediately in case of non-acceptance of a tender.

The Department does not bind itself to accept the lowest or any tender.

Newspapers inserting this advertisement without authority from the Department will not be paid.

F. GOURDEAU,
Deputy Minister of Marine and Fisheries.

Ottawa, Canada, 28th May, 1907.

NOTICE TO CREDITORS.

In the matter of the estate of Charles Blair, late of New Westminster, B. C., deceased.

NOTICE IS HEREBY GIVEN pursuant to the "Revised Statutes of British Columbia" 1897, Chapter 187, that all creditors and others having claims against the estate of the said Charles Blair, who died on or about the 20th day of April 1907, are requested on or before the day of June, 1907, to send by post, prepaid or deliver to the undersigned solicitors for Roderic Sample and Dr. Edwin J. Rothwell, executors of the last will and testament of the said deceased their christian and surnames, addresses and descriptions, the particulars of their claims, the statements of their accounts and the nature of the securities (if any) held by them.

AND FURTHER TAKE NOTICE that after such last mentioned date the said executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that the said executors will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by them at the time of such distribution.

Dated this 22nd. day of May, 1907.

ONE MAN IS SAVED BUT NINETY DROWN

Wreck of Santiago One of the Worst Marine Disasters For Years.

Santiago, Chile, June 25.—It is officially announced by the Pacific Steam Navigation company that only one passenger was aboard the Santiago, which was wrecked in a heavy squall five miles north of Corral, and he was drowned. The only survivor was the fourth officer, while the rest of the crew numbering 90 persons and including twelve English officers perished, so far as can be ascertained. Only one boat was launched and it was dashed to pieces on the rocks after drifting for several days.

The Pacific Steam Navigation company has received a cablegram confirming the loss of the steamer Santiago. The vessel was engaged chiefly in freight trade and her passengers were mostly traders between west coast ports. The crew were mainly South Americans. When wrecked the Santiago was proceeding to Valpariso.

The Santiago left Corral with her engines out of order as a result of the storm, and instead of proceeding to Anound she started to return to Valpariso, a much greater distance. She carried one passenger and a crew of ninety.

Ireland's Case.

To the Editor of the Daily News.

Sir: I was surprised to find in your paper of this morning the heading "Redmond Tells England he Hates her Bitterly." I had noticed headings of similar purport over substantially the same dispatch in the World and Province; but I thought the Daily News had more sense than those yellow Vancouver sheets.

Ireland is still governed to some extent as a conquered country. The liberty of the subject does not mean in Ireland exactly what it means in England and Scotland. The difference in these later days is not nearly so great as it was, say, twenty years ago, but it exists and it keeps the old sore irritated and inflamed.

That is what Mr. Redmond meant when he spoke of the bitter hatred of the Irish towards—not England—but English rule; or, in other words, the persistent determination of Britain to rule Ireland as a conquered country is ruled.

Surely the bitterness is not strange. It is but the other day that London rang with the praises of the Irish regiments in the Transvaal; "There is nothing too good for the Irish," we were told. Now, the Transvaal has full self-government under the British flag, which Ireland is held as a conquered country, and told she must remain so.

As old Rome, tolerant of all other religious, instinctively hated Christianity, so the landed aristocracy of Great Britain instinctively dread home rule, and the body of the voters allow themselves to be misled by these and by clever people like Chamberlain who opposed home rule because it was his interest to do so.

To my mind, sir, that open sore in Ireland is one of the few real danger spots—and the worst one—in the empire today. That the grant of home rule would turn it into a source of strength, those know best who best know Ireland.

They are, therefore, the truest "Empire-builders" who seek to bring about that result.

CAVE HILL.
New Westminster, June 25, 1907.

Dynamite in a Steamer.

Halifax, June 25—Two sticks of dynamite were found in the hold of a steamer from Montreal by a coal trimmer, and were taken to the Dominion Coal Company's shipping office. They are supposed to be a relic of the longshoremen's strike at Montreal.

Soap and water does not mar it.
It wears as well on Outside as Inside Floors.
Use it on your Inside Floors, Veranda and Porch Floors, Outside and Inside Stairs or Steps, and wherever you want a durable
High Gloss Enamel Finish.
