URGENT NEED OF DEPUTATION IS MADE CLEAR

J. B. Kennedy, M. P., Wires From Ottawa Asking That Action Be Taken Immediately---City Council Agrees To Bear the Expenses---Mayor Keary Will Go to Capital.

TELEGRAM

"Yes. Other side working hard. Send delegation at once."

"KENNEDY."

Such was the reply received in answer to a telegram sent to the local member at Ottawa by the president of the board of trade, asking him whether he thought that a deputation was needed in order to counteract the move taken by the Vancouver and Victoria cannerymen. The telegram was sent to Ottawa by W.R. Gilley, Thursday afternoon, and a reply was received yesterday. From the tone of the telegram, there appears to be no doubt in Mr. Kennedy's mind that a strong deputation is urgently needed at Ottawa, and that the sooner a deputation is sent the better it will be for the city.

There appear to be some opponents to the advocates of the scheme calling for the city council to bear the cost of the expenses of the deputation, namely $750. Mayor Keary stated at the committee of the council meeting last evening that he had heard on good authority that an injunction would be taken out if the council decided to furnish the funds for the deputation's trip east.

"I would not like to be the man who took such a step," said the mayor in concluding his remarks.

The information concerning the injunction did not appear to meet with the approval of the other members of the council.

Ald. Garrett wished to know whether J. B. Kennedy could not represent the city without the council having to go to the expense of sending a deputation.

Ald. Jardine replied that there was no doubt that Mr. Kennedy would do his best in the interests of his constituency.

"If he is not successful in securing what we are asking, he should hand in his resignation," continued the alderman. "He should put it to the government good and hard, and even going to the length of resigning from the support of the government. This legislation affects his constituency alone."

Ald. Johnston thought that it would be in the best interests of the city that a deputation should be sent, and sent as early as possible. The other side had a deputation working hard, and if the government passed the legislation according to the wishes of the cannerymen, the citizens would feel very, cheap indeed.

Mayor Keary said that he had been telephoned to by the president of the board of trade, who asked him to go to Ottawa as a member of the deputation. During the conversation, he had asked Mr. Gilley to wire Mr. Kennedy in order to get his opinion and the reply had been received this afternoon. The mayor thought that a strong deputation was urgently needed.

Ald. Johnston remarked that, as the mayor had not definitely declined to go to Ottawa, he would make a formal motion asking him to go on the deputation as a representative of the city.

"Why send three members on that delegation?" inquired Ald. Garrett.

Ald. Johnston explained that the minister of fisheries would be likely to require technical information that the mayor was not in a position to give, but which Mr. Mackie had at his finger ends. Mr. Mackie, on the other hand, could not explain how the legislation would affect the city in many ways, but the mayor would be able to do this. The third member of the deputation, who was a canneryman, would be there in order to convince the minister that all the cannerymen were not in favor of the majority report of the fisheries commission, as the other deputation would be apt to lead him to believe.

"There are a lot of poor men who will have to pay their share of the expenses of this deputation," remarked Ald. Garrett.

"Yes, but they will be a whole lot poorer if the canners succeed in closing up the river," commented Ald. Johnston. And Ald. Garrett concurred.

Ald. Jardine remarked that he had been told by an expert that the recommendations embodied in the majority report would not help to conserve the fish one iota.

While discussing the names of the men who should be induced to go to Ottawa, Ald. Garrett was the innocent cause of much unseemly mirth, when he said, "Robert Jardine would carry more weight to Ottawa than any man I know." And then he seemed to be surprised when the other members smiled audibly.

Mayor Keary, after some further discussion, remarked that if it were impossible to get Mr. Jardine to go to Ottawa, he would go.

"If I find that it is impossible to get what we ask for, I will ask our member to resign."

After some further discussion, Ald. Johnston moved that, in the event of an application being made to the council asking that the expenses of the delegation to Ottawa be paid by the city, the council would vote a sum not exceeding $750 for this purpose. The motion was carried unanimously.

The fisheries question was the most important business before the council, and the other matters were quickly dealt with. Ald. Johnston reported that, as there appeared to be no effort made to sell the horses quartered in the park stable by Mr. Eckhart last year, he suggested that the owner be requested to take his horses away. He was only paying $5 a month water rent, and the alderman did not think that this was fair to the liverymen of the city. The matter was left in the hands of the parks committee, with instructions to report.

A communication from Mrs. G. Gordon, asking that the Ladies' Croquet club be allowed to improve a piece of ground at Queen's park for the purpose of playing croquet. Referred to the parks committee to report.

Ald. Johnston reported that a broken drain under the park ranger's house had been responsible for a lot of sickness among that official's family during the winter. The matter was left in the hands of the chairman of the parks committee and the board of works.

Ald. Gray reported that he had received an offer of $1,400 for an old engine at the power house, and had accepted the same. The Schaake Machine works had made the offer on behalf of a client in the country, and the deal was not yet concluded.

Ald. Shiles reported that he had found the basement of the library building covered with water, owing to the plumbing having sustained some damage during the recent cold snap. Ald. Johnston, chairman of the library committee, promised to look into the trouble.

COTTON STATISTICS

WASHINGTON, Feb. 22.—America's pocketbook was enriched by practically $500,000,000 through its exportations last year of cotton and the products of that staple, according to a statement issued to-day by the bureau of statistics of the department of commerce and labor.

The exports of this product amounted to 28 per cent of the $1,773,000,000 worth of the domestic exports.

In quantity the record shows a falling off as compared with 1905, the total number of pounds shipped during that year being 4,137,154,935, while for 1906 they were only 3,850,229,030.

The falling off in the quantity, however, was more than offset by the increase in the price of cotton exports by $21,000,000.

Disastrous Rockslides Work Havoc at Lillooet

Lillooet, B. C., Feb. 19.—The most disastrous rock slides that ever occurred in this vicinity came down near the Seaton Lake hatchery, on Saturday morning, lasting from 5 to 8 a.m. Although the hatchery building escaped still considerable damage was done to the flume that carries water to the hatching house. Huge rocks struck this in many places, and the damage was so great that it could not be repaired for some days, this necessitated removing the fish at once. Luckily most of the fish were ready for planting, so a large force was put to work at once, and the fish got out before any of them suffered. One boulder smashed the lower weir and several rest in the seining sool.

The greatest damage was done to the Seaton Lake sawmill, but luckily no one was injured. Mr. E. S. Peters who was in charge, had a narrow escape as a rock carried away the back porch of the house he was sleeping in. Mr. Peters fled to safer ground across the creek.

The rocks played queer pranks. One broke the floor of the mill dropping the planer into the boiler room, and the rock itself rests a few feet from the main boiler. Another smashed the side of a tool house and lodged in the centre of the room. One lumber pile of many thousand feet, was smashed to splinters, while one rock smashed into a lumber shed from the front, another, of many tons, passed round one end of this building and then rolled back crushing the building in from the other side; another, of many tons, rests square on the top of another pile. One or two houses of lesser importance, were completely demolished.

The rocks started very far up the mountain side and on their way down cut down many trees many feet in diameter as if they had been so many match sticks.

Seaton Lake has been frozen over for the past week. This is the first time it has frozen over for the past forty years.

The Fraser river has also been frozen over in some of the widest places, a thing also unknown for a number of years.

This has been the coldest winter since 1886. The coldest being 22 degrees below zero.

This has been a very hard winter on stock, but the farmers have got off very well here so far, as they were well supplied with feed and shelter for their cattle.

Spring seems to be opening up, and the miners are ready to go to work but they will have to wait until the trails are in better shape before supplies can be got in to the outlying creeks.

WILL BUILD NEW TUG FOR FERRY SERVICE

Canadian Pacific Company Awards Contract for Steel Vessel to Ply Local Waters.

Victoria, Feb. 22.—The Canadian Pacific company has just awarded the contract for a steel tug to be built for ferry service between Ladysmith and Vancouver to the British Columbia Marine Railway company at Esquimalt. The tug will be built under Lloyd's inspection as are the other steamships constructed at the Esquimalt yard, which comprise the steel quarantine ship Madge to replace the tug Earle now in use at William Head, the hydrographic steamship for survey service of the Dominion government in British Columbian waters, and the Canadian Pacific Railroad steamship Princess Royal, under construction for the Northern route.

Ten tugboats are building or are planned at Vancouver, the machinery for all of which has been ordered in England.

Municipal Power for Nelson.

Nelson, Feb. 22.—The city will take over the control of the municipal plant on February 27, provided that the city engineer and city superintendent of electric lights report favorably. The Allis-Chalmers-Bullock company undertakes to install a satisfactory governor and to make it work to the entire satisfaction of the city officials, and at as early a date as possible.

The third and final payment upon the machinery, however, will not be made, nor will the company's cheque for $5,000, now in escrow, be released, until the while plant, governor and all, is accepted by the city as complete and satisfactory.

CLEVER SWINDLERS CAUGHT AT LAST

Whisky Firm Placed Subterranean Pipes From Distillery to Duty Paid Warehouse.

London, Feb. 22.—A gigantic scheme on the part of a firm of whisky distillers to defraud the revenue is reported to have been unearthed by inland revenue officers.

The latter, it is aserted, discovered a system of underground pipes by which whisky was conveyed from the distillery to the duty-paid warehouse, whence it was distributed to the trade, thus escaping the tax of $2.75 per gallon. The revenue authorities are said to have demanded the payment of a fine of $300,000 on the smuggled liquor. The matter probably will be brought up in parliament.

CALGARY WILL HAVE VERY CHEAP POWER

Three Companies Offer to Supply City With Electric Fluid at Cut Rates.

Calgary, Feb. 22.—This city may have the cheapest power of any city on the American continent. It has in operation a steam plant generating power from cheap coal, and there is the proposition before the people of the Alberta Portland Cement Co., to develop power at Radnor, at the spot where Messrs. Alexander & Budd, who will supply electric power, are harnessing the Bow Rover. The cement company intend to generate 4,000 horse power, using about 2,500 themselves with the balance for sale in the city.

Another big company is being formed to develop power by gas producer method. While the Natural Gas Co. is quite confident that it is only the matter of a few hundred feet before gas is struck in the well here. The company has already secured the right to distribute gas for light, heat and power in the city.

With three water power companies one gas producer, one natural gas and one steam plant, the city will be well supplied with cheap power, and no power will be at more than $24 per horse power.

Baby's Awful Death.

Nanaimo, Feb. 22.—Douglass Galloway, 8-months-old son of Alex Galloway, of Cedar District, died last night as the result of a terrible scalding Wednesday. The little fellow was sitting at the breakfast table when he seized a pot of boiling coffee and accidentally poured it over himself.

ROCKEFELLER IS MUCH POORER THAN SUPPOSED

Legislative Library

Instead of Having Annual Income of a Hundred Million Dollars, His Entire Fortune Does Not Exceed $300,000,000---Owns 20 Per Cent Of Standard Oil.

New York, Feb. 22.—Replying today to questions as to the size of John D. Rockefeller's fortune, Fred B. Gates, Rockefeller's agent, said:

"There have been many misstatements on this subject.

"Quite recently a statement has been made and published throughout the country that his annual income exceeds $100,000,000. Now the facts are that Mr. Rockefeller has at various times himself authorized a statement that his fortune cannot exceed two hundred and fifty to three hundred millions of dollars.

"Furthermore, his income, instead of being $100,000,000, cannot in his most prosperous year have exceeded fifteen to twenty million dollars. The public generally is under the impression that he owns a majority of the Standard Oil company's stock. The facts are that Mr. Rockefeller's holdings of Standard Oil stock are about 20 per cent."

Directors of the Standard Oil company recently declared a quarterly dividend of $15 a share. This compares with a dividend of the same amount in the corresponding quarter last year and with $10 a share three months ago.

The capital stock of the Standard Oil company is $100,000,000, of which John D. Rockefeller owns 20 per cent., or $20,000,000 worth, according to the statement of his agent. Of the $15,000,000 to be disbursed this quarter Rockefeller will receive $3,000,000 as his share of the profits.

Since 1898 the company has paid out $330,000,000 in dividends and by the end of the present year the total will reach $400,000,000, or four times the total capital in nine years. During this period John D. Rockefeller has reveived in all about $100,000,000.

HARRIMAN BUYS FORTY-FIVE ACRES

Will Expend Much Money on Improvements in Portland and Construct Tunnel.

Portland, Ore., Feb. 22.—The Harriman lines have bought forty-five acres at University Park, at a cost exceeding $200,000, which will be utilized as the north entrance to a double-track railroad tunnel to extend through the peninsular. The tunnel will be 5,400 feet long. It will enter the Columbia river side at Newark and Dana streets, coming out on the Willammette River side, just under the Willamette Boulevard, forming a connection with the present line from St. John's which will be double-tracked to the steel bridge, providing that no other crossing on the Willamette is supplied.

The tunnel will enable the Harriman companies to bring traffic from the Seattle extension and the main line from the East into Portland on a water grade, making it possible for the Union Pacific to do business on as large a scale and as economical a basis as the Hill system.

Liberals Elect Officers.

The officers of the New Westminster Liberal association for the current year were elected at a well attended meeting of the association last evening, the election taking place in the Liberal club rooms. President Howay occupied the chair, and most of the retiring officers were present. After a few introductory remarks the business was proceeded with, the following being declared duly elected: Honorary president, J. B. Kennedy; president, J. Reid; first vice-president, Robert Jardine; second vice president, H. Gilley; third vice president, C. B. Dean; secretary, J. W. McDonald; treasurer, J. McMurphy; executive committee, R. Buckland, R. Fenton, Captain Mayers, D. Adams, H. Halcrow. After the transacting of business the meeting was adjourned.

Dupont Block is Sold.

The old Dupont block changed hands yesterday, the purchasers being a syndicate of New Westminster men who can see a marked advance in the price of real estate coming within the next few months. The exact figure at which the block changed hands is not given, but it is understood to be in the neighbourhood of $50,000. The Dupont block was owned by a Vancouver capitalist, who acquired it a short time ago. The block is a two story brick structure, facing on Columbia, McKenzie and Front streets. On Front street the building has three stories. Every store in the building is rented, so that even if the buyers do not care to sell immediately they are sure of a good interest on their money.

SEALERS RECEIVE HARSH TREATMENT

Captured by Gunboat of Uruguay They Spend Forty Days in Six Filthy Jails.

Victoria, Feb. 22.—Four members of the crew of the sealing schooner Gertrude were lost in a fog and seized by a Uruguayan gunboat, have returned to Halifax and a letter has been received from one describing the cruel treatment accorded them in South America. The four were William Ryan, brother of Captain Mat Ryan of this city; Harry Schreider, John M. Artney and J. W. Keating of Halifax.

They were picked up by an Uruguayan gunboat and were held as prisoners for forty days, during which time they were placed in half a dozen jails and received vile treatment. After being taken on board the gunboat they were taken to Paloma, a coast port to the north of Montevideo, on the Uruguayan coast. From Paloma, they were hauled across the country in carts to a place called Rocha and thrown into prison, thence they were carted to Montevideo and jailed amongst criminals of all kinds.

There were six inches of water on the floor and for cellmates the sealers had a murderer, a Spaniard, who had killed twelve persons. After forty days' imprisonment they were released and reached Halifax via Liverpool.

Siwash Act in Oregon.

Grant's Pass, Ore., Feb. 22.—Grant's Pass has solved the habitual drunkard problem in a novel way that it satisfactory to all concerned. When a man begins to make a nuisance of himself by drinking the city attorney drafts an ordinance enacting that John Jones is an habitual drunkard, the city council passes it and John Jones' name is forthwith posted in all the saloons, which are forbidden under penalty of losing their license to sell him liquor.

Deputation for Ottawa.

The three gentlemen who will make the trip to Ottawa in the interest of the fishing industry will be Mayor Keary, representing the city of New Westminster; George Mackie, representing the fishermen, and Henry Doyle, representing the independent packers. The deputation will most probably leave on Sunday, and will be away at least two weeks.

Will Abandon Dewdney.

Victoria, Feb. 22.—It has been finally decided that Mr. McBride will retain his Victoria seat, and that he will resign his seat at Dewdney forthwith. Mr. Manson, a relative of Mr. Manson, the defeated candidate for Alberni, will be nominated to represent the Conservative interests in Dewdney.

Eberts will be Speaker. Price Ellison and Cotton are pressing for the chief commissionership.

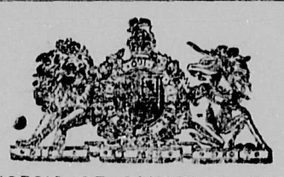
By C. R. McLaughlin, Pres., M. D.



SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

W. W. CORY,
Deputy of the Minister of the Interior.

PAYS THE HIGHEST PRICE FOR HIDES.

THE PASSION PLAY.

Its Origin, According to the Tradition of Oberammergau.

According to local tradition, the origin of the Oberammergau Passion play was as follows: When in the year 1633 a deadly plague threatened to depopulate the districts of Partenkirchen, Escheloke and Kohlgrub, which are separated from Ammerthal, or the valley of the Ammer, by a rampart of mountains, the Ammerthalers succeeded for a time in protecting themselves against the dread contagion, but one day a native who had been working all summer at Escheloke evaded the quarantine and entered the Ammerthal by a secret path in order to celebrate an annual church festival with his family. Two days afterward he was a corpse, and in less than three weeks the plague had carried off eighty-four of the Ammerthalers.

Despairing of all human succor, the terrified survivors addressed themselves to God and registered a solemn vow that if he heard their prayer and removed the scourge they would represent, every ten years, "for thankful remembrance and edifying contemplation, and by the help of the Almighty, the sufferings of Jesus, the Saviour of the world."

Not a single person died of the plague after the vow was made, though many were affected by it. The first representation of the Passion play in fulfillment of the vow of these simple villagers took place at Oberammergau in the following year, and it has been repeated every ten years without a single omission.

FEMININE INFLUENCE.

Nowhere Is It More Felt and Less Recognized Than In France.

There is still in every Frenchman a great deal of the oriental way of looking at woman.

And the French wife knows it, but she goes on helping her "man," be she duchess or midinette. She will forgive again and again; she will let him squander her dot and will learn how to do with fewer frocks (the delight of every Frenchwoman) in an ever pitiful attempt to patch up the fortune and happiness he has wrecked. If she happen to be a shopman's wife he needs no bookkeeper or manager; she will be there from morning till night, the slave of the ledger, careful of every centime, while he, too, often will leave the heavier part of the business in her capable hands and turn his attention to a domino party at the nearest cafe. If she be a peasant's wife no one on the farm will slave harder than she. There is scarcely any labor which she will not undertake.

In every sphere woman is too often the man of the house. Nowhere is feminine influence more active, more felt and less recognized than in France, and nowhere among the civilized nations is man more dependent on woman, more attached to her and less respectful.—London Mail.

A STUDY IN EYES.

Michael Angelo had hazel eyes.

Mohammed had coal black eyes.

Milton had gray blue eyes, clear and round.

Beethoven had small brown eyes, very mobile.

Dante had, according to Boccaccio, large black eyes.

Isaac Newton had blue eyes, small, bright and piercing.

Cowper, physically timid, had weak blue eyes devoid of animation.

Harvey, the discoverer of the circulation of the blood, had small eyes, full of spirit.

Carlyle's eyes were described as "the very handsomest ever seen in a man's head—dark blue."

Bismarck had eyes of steely gray, deep sunken, almost hidden under bushy eyebrows.

Dr. Johnson's poor health so affected his eyes that they were dull and lifeless, of a watery blue.

Speed of Sounds.

"Judge David Torrence of Derby, Conn.," said a New Haven man, "uttered many an epigram from the bench. In a case concerning a noise nuisance a scientist was once testifying before him about the speed of sound.

"'Sound,' said the man, 'travels at the rate of 400 yards a second.'

"'All sound?' asked Judge Torrence.

"'All,' replied the scientist.

"The judge smiled.

"'I'm sure you're wrong,' he said. 'I have noticed a great difference between the speed of certain kinds of sound. Thus, slander travels at the rate of quite 1,000 yards a second; flattery, 500 yards, while truth makes only a few feet a second, and, slow as its progress is, truth often fails to reach the goal, no matter how short the distance.'"—Indianapolis Star.

The Persians.

Socially I found the Persian people a great improvement on the other orientals of the farther east whom I had met. They are of a happy disposition and bright imagination, doubtless produced by the dry, clear air of their high table lands, which relieves from dullness and depression. They enjoy a joke and laugh heartily, and they are able to see that most things have their amusing side. I was struck with much among all classes which showed that their manners and ways had been favorably touched and turned by a softening civilization of ancient date.—General Gordon's "A Varied Life."

The Woman of Poise.

It is the creed of the up to date woman never to give herself away. A cup of coffee may be spilled over her delicate silk gown; she simply holds the breadths together and goes on with her flow of feminine talk. "Enfant terrible" makes agonizing remarks, a rival gives some cruel stab; all is met with the same absolute immobility of countenance.—London Lady.

THE PUBLIC INTEREST.

The Toronto Globe, discussing some aspects of that exploitation by "capital," which is of the warp and woof of the policy of the McBride Government says:

"The time has gone by when the public could afford to allow charters of all kinds to be granted to private individuals or private corporations without careful scrutiny of the rights and powers involved. The growth of corporations and the extent to which public services of all sorts have become the monopolies of private companies are prominent among the features of modern development on this continent. At this moment the problem of the generation and distribution of electric energy from water powers belonging to the Crown touches the prospects of Ontario at a dozen important points. The terms of the charters granted to private companies, the oportunities allowed for over-capitalization, the control of rates for services rendered, are all questions of first importance to the public. Over-capitalization is the curse of modern enterprise, and the burden of paying dividends on watered stock must ultimately rest on the public. Excessive fares and rates will be charged and the public will have to pay.

LIGHT YET STRONG.

Mr. Charles Marcil, M. P., deputy speaker of the Commons, put the case gracefully, fully and forcibly when he said, at a publishers' dinner in New York, night before last,

"Canadians today, regardless of their origin or their creed, are one people, faithful in their allegiance to their motherland, but loyal first and above all to their native country.

"Canada is independent today, and in every sense of the word a nation. The slender ties which link us with Great Britain grow from common names, from kindred blood, from similar privileges and protection. They are ties which though light as air, are strong as links of iron.

We rely upon the friendship of the United States and hope to achieve a share of their success, a success that has dazzled the world."

Before the election, the Daily News said that Mr. McBride, if elected in both Victoria and Dewdney would abandon the latter. This was contradicted, but a despatch from Victoria, yesterday, says that the choice has been made as the Daily News predicted—if "predicted" be not too big a word to describe such an easy guess. It is added that Mr. McBride is to hand over the seat to his faithful henchman, Mr. Manson. No doubt the "independent electors" of Dewdney will do as they are told and obediently elect the nominee of the man who has no further use for them at present, but desires to have the seat kept warm for him in case of accidents.

The Sunday papers—or some of them—are growing apprehensive as the first of March approaches. The Sunday Observance Act goes into force on that date, and it forbids the publication of newspapers on Sunday. If we recollect rightly, however, there is a provision in the Act that the Attorney-General of the Province must consent before any prosecution under the Act is undertaken. If we are right as to that, the papers may dismiss their apprehensions. No Attorney-General likely soon to be in office in British Columbia would give his consent to prosecuting the Colonist or the News-Advertiser, unless of course, he thought that the prosecution would fail on some technical point. Then the House meets March 7, and—again if our recollection is right—it has the power to legalize any particular violation of the letter of the Act which it may think should be legalized in the Province. The new House will no doubt think it right that the Colonist and the News-Adver-

WINDSOR SALT—ought to cost more—so pure, fine, well-savoured. Goes further, too. But not a cent dearer. 141

tiser should be allowed to break the law with impunity. They would be both ungrateful and inconsistent if they did not. Did not a majority of the members applaud them for breaking the moral law—smashing it to smithereens—during the election?

Ten are Saved.

Hook of Holland, Feb. 22.—Ten of the persons who passed the night on the afterpart of the wreck of the Berlin have been saved. Furious seas and a heavy snowstorm raged all night long, making it impossible for tugs or lifeboats to connect with the wreck. The cold was so intense during the night that it was thought that those who were still alive last night must have been frozen to death, but daylight revealed the fact that eight or ten persons had survived the terrible experience.

After over thirty hours of almost ineffectual efforts the Dutch lifeboat men succeeded in rescuing the ten survivors on the afterpart of the Berlin. Buffeted and driven back time after time the sturdy Dutchmen refused to relax their attempts to rescue the handful of shipwrecked persons, and throughout yesterday, last night, and this morning, they launched their boats repeatedly, only to be foiled by the mountainous seas. In the early afternoon the lifeboat again went out. The receding tide and some improvement in the weather gave better hope of success, and after a hard tussle with the seas, the few persons still living were safely off at 3 o'clock.

Langley Items.

J. G. McAdams, of lower Langley, had the misfortune to lose a valuable horse the other day. The horse had been sick for some time, but was the last two weeks, gradually getting worse until it died last Monday morning. He lost two cows last fall and nine small hogs, so his loss has been heavy.

Miss Lizzie Wilkinson, formerly teacher of Port Kells school, left for New Westminster on Monday. She will stay in Westminster a day and will then continue her journey to Vernon, where she will train for a nurse in the Jubilee hospital there.

W. G. Brice has once more started his Sunday school in the Port Kells school.

Mr. and Mrs. Horace Wright, of Vancouver are visiting at Mrs Hines' for a few days.

The directors of the Langley Agricultural association held a meeting in the Town Hall, Langley, on Saturday last. It was agreed that the Langley Fair would be held on the Wednesday preceding that of New Westminster. Special prizes will be given for the best collection of cut grasses; 1st prize, $7.50; 2nd prize, $5.00; 3rd prize, $2.50. The prizes for sheaf grain have not yet been decided upon. It is the intention of the association to make a district exhibit at the Westminster Fair if conditions are favorable.

The recent spell of mild weather has rendered roads in this section very soft and muddy.

Miss Ida Fleming, of Langley, is visiting in Vancouver and New Westminster.

The Difference.

Small Boy—Pa, what is the difference between a pessimist and an optimist? Pa—Well, let me see if I can illustrate. You know I am often discouraged, and things don't look to me as if they'd ever go right. Well, at such times I can be said to be a pessimist. But years ago, when I was a young man, everything looked bright and rosy, and I was always hopeful. Then I was an optimist. Now, my son, can you understand the difference between a pessimist and an optimist? Small Boy—Oh, yes; one is married and the other isn't.—Harper's Weekly.

Cause of His Joy.

"What are you looking so happy over, old man?"

"I am rejoicing over the birth of twins."

"Great Scott! I congratulate you!"

"Don't congratulate me. Go and congratulate Evans. He's the lucky man. I never did like him."—Philadelphia Inquirer.

THE REICHENBACH COMPANY, LIMITED

The Daily Details

Chilliwack is to have a tennis club.

For cut flowers, bridal bouquets and funeral designs, 'phone Tidy, the Florist, A184.

The Burley Lumber company is preparing to open up an office in this city.

The Flyer came into port yesterday with a scow load of coal for the gas works.

The Torpedo Freighting and Tug company's small tug, the Orillia, was in port yesterday.

Two hundred hogs were brought in by the Beaver on its last trip for local Chinese dealers.

Take in W. J. Kerr's auction sale tonight and get a bunch of Sapperton lots. Sale at 8 o'clock, Cunningham Block, 272 Columbia street.

An Indian from Cultus Lake arrived in Chilliwack last week bringing in his sleigh a cougar which he had killed. The animal measured 6 feet 7 inches in length.

Burnaby Municipality. During Assessment Period the office will be open on Monday and Friday only in each week, from 9:30 a.m. to 2:30 p.m. until March 15th, next. B. G. WALKER, C.M.C.

Ald. Henley has not yet been able to purchase a suitable team of horses for the board of works, although he has been travelling for two days, and has seen about fifty horses during the time. The chairman of the board of works has just about decided that the team he needs is at Ladner, and he will make another trip there for the purpose of making a purchase.

For a nice bunch of Violets or Carnations, telephone T. Davies & Son, Florists. Tel. B208.

The B. C. Power & Electric company, limited, has filed an application in the water commissioner's office for 3,000 miners' inches of water. The water it to be taken from the Squamish river and the Jeackamisth river and its tributaries. The water is to be used in the carrying out of a plan which the company has formulated of building and operating a huge plant for generating electricity, for heating, lighting and power for manufacturing, industrial and mechanical purposes. The difference in altitude is about 300 feet, and the water will be conveyed to the required spot by means of dams, pipes, flumes and ditches.

This afternoon's football match between New Westminster Rovers and the Westham Islanders promises to be one of the best games of the season. Both teams are in good condition, and have been training hard for the fray. The local team will be somewhat handicapped on acount of some of the regular players being unable to appear on the field, and having to draw upon the intermediate team for spare men, but even with this drawback, they expect to beat the boys from the island. Locke, the reliable halfback, is laid up in the hospital, suffering from an injury to his leg, and his absence will be noticed before the game has been very long in progress. The team has not yet been selected, but the following players will take part in the match: Davidson, A. Turnbull, L.Turnbull, Peele, Anderson, Canfield, Ambrose, K. C. Brown; Johnston, and others. The game will start at three o'clock sharp.

Market Visitors.

The following were noticed in attendance at yesterday's market: A. Childs, Langley; H. Leaf, Glen Valley; J. Patterson, Mount Lehman; A. Megregor, J. McKenzie, Langley Prairie; A. J. Peschke, Halls Prairie; S. Gray, Scott Road; J. Wiggins, H. Hanson Halls Prairie; A. LeLion, Silverdale; C. J. Anderson, Surrey; J. Johnston Scott Road; George Hardy, Tynehead; R. Reese, Woodwards; James Anderson; Langley; J. Jack, Scott Road; B. Harty, Bon Accord; D. Ketzel, T. Bothwell, Langley; J. Pillatt, Bon Accord; Hans Volsand, Surrey; W. Heaton, Ladner; T. Forster, Glen Valley; R Rice, Bon Accord; R. Stoney, South Westminster; J. Murphy, Cloverdale; J. Kerry, Kensington Prairies; D. Dove, Sunbury; C. A. Carncross, Kensington Prairie; Mrs. E. Crawford, East Delta; S. Potter, Ladner; C. Brookland, Port Moody; J. Leiser, Delta; H. J. Ford, East Delta; C. E. Harris, Barnston Island.

The Scarlet Mysteries.

This concert company from London, England, is to occupy the local boards next Thursday. They are a clever combination of artists who have earned for themselves a brilliant reputation in England, where they have enjoyed an unbroken record of sucesses.

The company includes the following prominent English artists: Roland Henry, a musical sketch comedian from Daly's theatre, London, who will be remembered as having been associated with the Canadian tour of the Meister Glee Singers; Thomas Walls, a character artist whose humorous Scotch impersonations are highly spoken of; Percival Mackenzie,a lightning cartoonist, who also gives impression pictures in colored chalks in the record time of 60 seconds; Penderee Price, a magnificent tenor who has toured with Madame Patti; Ben Calvert of the Carl Rosa Opera Co.; Henry Luscombe from the Savoy and Terry's theatres; Gavin Wood of the Royal Opera House, Covent Garden, and a very clever pianist, David Morton.

A Barricaded Ballroom.

In order to prevent couples from "sitting out" at a dance given recently by a Preston Tennis club,the novel expedient of placing barbed wire across the corridors leading from the ball room was adopted. This was keenly resented by many of the guests while others treated it as a joke.

It eventually became known that the wire was not placed there by the managers of the dance, but was the outcome of a practical joke on the part of some of the young ladies.

FRIDAY'S MARKET REPORT

The market yesterday was well attended and was very near being up to the old-time standard. The market building was pretty well taxed and the throng of buyers was much larger than it has been for the past few weeks. The various river boats which are now in full running order, all came up to the market wharf and contributed a share of produce of various descriptions.

There was as usual a good offering of beef which found a ready sale. Last week's prices prevailing.

A few carcasses of mutton were offered and found quick purchasers. A number of the Fraser Valley ranchers are becoming wide awake to the great and growing demand for mutton and are planning to increase the numbers of the flocks of sheep on their ranches.

Pork was offered in fair quantities and the price paid was the same as that of last week. Veal was somewhat more plentiful than it has been and the top price dropped a quarter of a cent. Demand was good.

As forecasted last week, eggs were numerous and wholesalers loaded up their crates and baskets at 25c per dozen. The retail price also dropped to 30c per dozen, 15c lower than last week's lowest price. The warm sunshine has had a good effect on the members of the hen population and they are working hard to make up for lost time.

There was a fair offering of fowl for market purposes which were easily sold and a quantity of good breeding birds were also offered. There was one pen full of excellent brown leghorn roosters, a number of which were sold.

A few ducks were offered for sale and were greedily snapped up by Vancouver buyers.

A number of boxes of choice apples were offered and were sold at prices quoted. There was a fair offering of potatoes, some of the stock being of excellent quality. There was a good demand for good potatoes untouched by frost.

The florists' stands were gay with various flowers, among which were noticed the fragrant violet, chrysanthemums and snowdrops.

Quotations.

Beef, hind quarters, 8½c to 9c lb.
Beef, fore quarters, 5½c to 6½c lb.
Veal, 11c to 11½c lb.
Pork, 10c to 10½c lb.
Mutton, 13c to 14c lb.
Potatoes, $18, to $20 ton.
Eggs, 30c dozen.
Butter, 30c to 35c lb.
Fowl, $8 to $9 dozen.
Chickens, $7 to $8 dozen.
Ducks, $11 to $12 dozen.
Geese, $1.25 each.
Apples, $1.20 to $1.50 box.
Onions, $1.50 sack.

New floors have just been laid in the stalls at No. 1 fire hall, the firemen putting in a busy day yesterday finishing up the job.

DRINK MORE, EAT LESS.

Advice For Those With Rheumatism, Gout, Eczema and Neuralgia.

If people would take less nutrition and drink more water, there would be less rheumatism, gout, eczema and neuralgia in the world. The most frequent cause of these derangements is an excess of nutritive materials. The blood is surcharged with salts that are not needed in the system.

The doctors are trying to remedy these diseases by giving something to eliminate the salts, such as purgatives, diuretics and solvents of various kinds. The rational way, however, to cure such affections is to stop the cause. Drink more water; eat less meat and concentrated foods. This shuts off the supply of urates in the blood.

Those who take active exercise in the open air every day require a greater amount of nutrition. Not only do they use up the nutritive materials in muscular exercise, but the amount of oxygen inhaled because of their activities thoroughly oxidizes the urates and changes them in urea. If the blood is loaded with urates they are very likely to crystallize, especially in those portions of the body where the circulation is the least and the temperature is the lowest, such as the elbows, ankles, the toes and fingers.

Drink more water; eat less food. This is a prescription that is worth more to such people than all the drugs in the world. Shut off the source of urate poisoning and the effects of urate poisoning will disappear.—Exchange.

Took Him Down a Peg.

The young doctor to whom the Æsculapian oath was Greek looked contemptuously at the old woman who had come to the uptown hospital where he was an interne to inquire about her son.

"He has cerebro neurosis, I told you once," he said.

"Oh, dear," said the woman, for she was not as ornately educated as the young physician, "is it as bad as that? Now—what do you call it?"

"Neurosis," said the surgeon. "Don't I talk plain enough for you?"

"Is it anything like nervous prostration?" inquired the woman. "You will pardon me, sir. My education was along literary rather than scientific lines."

"That's what some call it," said the young physician as he got ready to make a run for the ambulance at the door.—New York Telegram.

Feeling Overcrowded.

It was doubtless Mrs. Howe's "sympathetic nature," to which she constantly referred, that made her carry so many burdens which did not belong to her. Her sufferings were many, but the statement of them often roused her family to mirth.

"How's your head this morning my dear?" inquired Mr. Howe one morning in a properly solicitous tone.

"It's no better," came in a hollow voice from behind the teapot. "It won't be any better while I can't get Cousin John's lungs and Mary's china and mother's eyes and Harriet's wisdom teeth out of it for one minute."

LAND REGISTRY ACT.

TAKE NOTICE that application has been made to register Edgar L. Webber as the owner in Fee Simple, under a Tax Sale Deed from the Reeve and Clerk of Surrey, to Edgar L. Webber, bearing the date 5th day of January, A.D. 1901, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as Lots 1 and 2 of Block 10, subdivision of South East quarter Section 10, Township 1.

You and each of you are required to contest the claim of the tax purchaser within thirty days from the date of the first publication of this notice, otherwise I shall register Edgar L. Webber, as owner thereof in fee. And I hereby order that publication of this notice for fifteen days in a daily newspaper published at New Westminster will be good and sufficient service thereof.

DATED at the Land Registry Office, New Westminster, Province of British Columbia, this 17th day of January, A.D. 1907.

C. S. KEITH,
District Registrar.

To Thomas Jeffries, Esq.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

LAND REGISTRY ACT.

TAKE NOTICE that an application has been made to register James Lord as the owner in Fee Simple, under a Tax Sale Deed from the Mayor and Treasurer of the City of New Westminster, to Patrick T. Bowler, bearing date the 18th day of August, A.D. 1902, of all and singular that certain parcel or tract of land and premises situate, lying and being in the City of New Westminster, in the Province of British Columbia, more particularly known and described as Lots 10 and 11, Block "D" St. Patrick's Square.

You and each of you are required to contest the claim of the tax purchaser within forty-five days from the date of the first publication of this notice, otherwise I shall register James Lord as owner thereof in fee. And I hereby certify that publication of this notice for thirty days in a daily newspaper published at New Westminster will be good and sufficient service thereof.

DATED at the Land Registry Office New Westminster, Province of British Columbia this 1st day of February, A.D. 1907.

C. S. KEITH,
District Registrar.

To Henry Elliott, Esq.

All persons served with this notice, and those claiming through or under them, and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," shall be forever estopped and debarred from setting up any claim to or in respect of the said land so sold for taxes as provided by the "Land Registry Act."

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

COAL—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2000 pounds shall be collected on the gross output.

QUARTZ—Persons of eighteen years and over and joint stock companies holding free miners' certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of $7.50 per annum for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end of the line of the lode, or vein.

The claim shall be recorded within fifteen days if ocated within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of a Royalty of 2½ per cent. of the sales of the products of the location.

PLACER MINING—Manitoba and the N. W. T., excepting the Yukon Territory: Placer mining claims generally are 100 feet square, entry fee $5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, not exceeding 1000 feet. Where steam power is used claims 200 feet wide may be obtained.

Dredging in the Rivers of Manitoba and the N. W. T., excepting the Yukon Territory—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below any low water mark, and subfor first year and $10 per mile for each subsequent year. Royalty same as placer mining.

Placer mining in the Yukon Territory—Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line of general direction of the creek or gulch, the width being from 1000 to 2000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of the mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1000 feet in length, aand if the party consists of two, 1500 feet altogether, on the output on which no royalty shall be charged the rest of the party ordinary claims only.

Entry fee $10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the ject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee can dredge to high-water mark on each alternative leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction thereof is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent. collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory—Six leases of five miles each may be granted to a free miner for a term of 20 years; also renewable.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental $100 per mile Yukon Territory to be paid to the comptroller.

The lessee's right is confined to the submerged bar or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200. A certificate that work has been abandoned, anad open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Petroleum—All unappropiated Dominion Lands in Manitoba, the Northwest Territories and within the Yukon Territory, are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 1920 acres for such period as he may decide, the length of which shall not exceed three times the breadth. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well, will be sold to the prospector at the rate of $1 an acre, and the remainder of the tract reserved, namely, 1280 acres, will be sold at the rate of $3 an acre, subject to royalty at such rate as may be specified by Order in Council.

W. W. CORY.
Deputy of the Minister of the Interior.
Dept. Interior.

THEATRICAL TEMPESTS.

The Way a Rainstorm Is Produced on the Stage.

Probably not more than one person in a hundred stops to consider how a rainstorm is produced on the stage. Few perhaps have ever given the subject any serious thought.

During the coming up of the storm there is seen vast clouds of dust, the wind blows a gale, and suddenly the rain comes down in torrents. It is an effect so natural that one almost imagines the elements are genuinely on the warpath. Yet, though the rain is real water, not a person is actually drenched, because the water comes down at the very front of the stage, while the players are well back and not at all exposed to its moisture.

It might be thought that to produce a storm many intricate bits of machinery would be necessary, yet such is not the case, for the simplest devices produce the effect desired. These are some gas pipes punctured by myriads of holes, through which the water runs from small barrels, each about half full, at either end. The sound of the wind is made by a revolving barrel which touches a heavy piece of canvas in its rounds. The thunder effect is caused by the artistic manner in which a man beats a bass drum, and the gusts of dust are blown across the stage by an electric fan. The flashes of lightning come from an electric battery connected by wires which when placed in contact throw out the dazzling flashes. A metal plate, which had been specially prepared by first being heated to white heat and then scratched by a knife, is placed in a calcium light machine and gives the effect of lightning in the distance.—New York Mail.

POETICAL DEATHS.

Welcoming the Grim Reaper With a Greeting In Verse.

There have been numerous instances of poetical deaths. The Emperor Adrian made a poetical address to his own soul as death was casting the seal of final silence over his lips, and Margaret of Austria while almost within the grasp of death in a terrific storm at sea calmly sat down and composed her epitaph in verse. The ship weathered the gale, however, and the epitaph was not needed.

Philip Strozzi when imprisoned and awaiting death on the gallows resolved to commit suicide. Before he killed himself he carved with the sword upon which a few minutes later he impaled himself the following verse from Virgil on the wall: "Rise some avenger from my blood."

The Marquis of Montrose when he was condemned to have his limbs nailed to the gates of four cities said that he was sorry that he did not have enough limbs to nail to all the cities in Europe, and this he put into beautiful verse as he was walking to his execution.

Patris, a poet of Caen, finding himself at the door of death, composed a poem, and De Barreaux, it is said, wrote while on his deathbed a well known sonnet which was soon afterward translated into English.—New York Tribune.

His Horse's Finish.

"Dear me, cabby," said an old lady as she alighted from a four wheeler at Liverpool street station, "your horse's knees are bad."

"Don't you go and think it's becos 'e's got into a silly 'abit of tryin' to stand on 'is 'ead in the street, ma'am, 'cos it ain't," was the reply. "That there 'oss is a serious thinkin' 'oss, 'e is, ma'am. A werry prayerful animile 'e is too. 'E's been prayin' this last six year as 'ow 'is pore old master'll one o' these days come across a kind 'earted party what'll give 'im a copper or two over 'is bare fare, but, Lor' bless yer, ma'am," he added as he looked at the shilling the old lady had handed him, "'e's losin' faith fast, and unless somethink soon 'appens 'e'll die a bloomin' hinfidel."—London Tit-Bits.

Why We Get Indigestion.

Recently a medical man gave it as his opinion that the oven was responsible for more dyspepsia than any other household contrivance. The modern cook finds it much easier to bake than to roast. The spit dog has almost gone out of existence, and there is seldom any one in the kitchen to take its place. It follows very reasonably that any food cooked within a confined space will not be so digestible as that done before an open fire, where all gases have freedom to escape.—Country Life.

A Jolt.

"Did you tell your teacher that I helped you with your French exercise, Sidney?"

"Yes, father."

"And what did he say?"

"He said he wouldn't keep me in today, 'cos it didn't seem fair that I should suffer for your ignorance."

How We Do Change!

"Aha!" exclaimed Mr. Jellus. "Been treasuring another man's picture all these years, hey?"

"Not exactly," answered his better half. "That's a photo taken of you, dear, when you had hair."—Washington Herald.

Brought Home to Him.

Crusht—After all, right doesn't always make might, does it? Frankman—I don't know about that. The matrimonial rite seems to have made a mite of you.—Richmond Dispatch.

Hear, Hear!

"Pa."

"Well?"

"What's women's rights?"

"Everything they want. Run away."—Cleveland Leader.

SOCIAL and PERSONAL

Matter intended for this column should be addressed, "Social Editor, Daily News, P.O. Box 402, New Westminster."

James Scott, of Blaine, arrived in the city yesterday morning, having been called here on account of the serious illness of his wife, who is undergoing treatment at the St. Mary's hospital.

D. J. Scaife and family will shortly leave for Victoria to reside. Their furniture and effects have already been shipped on ahead.

A number of New Westminster people went over to Vancouver on Thursday night for the purpose of attending the celebration of the Silver wedding of Mr. and Mrs McNaughton of 1,001 Burrard street. The celebrants were the recipients of a large number of useful silver articles which will serve as souvenirs of the occasion. The evening was very pleasantly spent in music, cards and dancing.

Mrs. W. Brown, of Vancouver, has been spending a few days in the city, the guest of her son J. A. Clarke.

Mrs. Turner, mother of Mrs. W. T. Cooksley, is seriously ill at her home in this city. Her life is despaired of.

Mr. and Mrs. Alex. Lamb entertained a party of friends last night at their residence, Third avenue.

Mrs. Street, of Chilliwack, is in town on a visit to friends.

D. Barnes, grand organizer for the Canadian Order of Chosen Friends, was a visitor in the city yesterday. At the present time he is giving his assistance to the Vancouver branches of his order.

Enjoyable Evening.

Under the auspices of the Epworth League of the Queen's avenue Methodist church, a very enjoyable time has been planned for Monday evening, February 25, consisting of

Indian Picture Writing, ...
Prof. E. M. Burwash

The Canadian Indian.

"There is something in the Indian which if properly developed and brought out would make him a useful and desirable citizen of the Dominion," said Mr. Frederick Pedley, of the Indian Department, in the course of his address to the members of the Canadian Club at a recent luncheon.

Mr. Pedley's experience in connection with the Indian Department of the Government is of the very widest description, and he held the close attention of his numerous auditory throughout the course of his remarks on what he himself described as "a subject which has lost much of the spectacular glamour it possessed in the days painted in the brilliant pages of Parkman and of Fenimore Cooper, but which still is very interesting and important one for Canadians."

For convenience in the handling of his subject Mr. Pedley divided the Indians of Canada into four groups: the eastern group, comprising the Indians of Quebec and the Maritime provinces; the central group comprising those of Ontario, southern Manitoba, Saskatchewan and Alberta; the western group containing the Indians of British Columbia; and the northern group comprising those in the northern regions of the Dominion, stretching from Labrador to the Yukon.

After a brief survey of the conditions of life amongst the Indians of each of these different groups, Mr. Pedley summarized his statements by the declaration that on the whole the Indians were in a prosperous position. They were very largely self-supporting, and looked to the Indian department for but little. They were earning large sums of money by their hunting, fishing, agriculture, and Indian manufactures, and were every day becoming better fitted to sustain themselves against the competition of the white man. The only part of the country in which the Indians held at all to the customs of their ancestors was in the northern section where they still roamed with their original freedom. But even here they were gradually being brought under more civilizing influences through the course of trade, and had proved themselves very tractable and docile.

THE POINT

WE wish to emphasize is this—Money can seldom be put to work in such GOOD REAL ESTATE as that which we are at present offering.

See us and get our timely tips on some good bargains.
