Church Social.

The members of the congregation of Holy Trinity church will hold a social in St. George's hall this evening, commencing at 8 o'clock. There will be music and refreshments. Strangers and recent arrivals are invited to attend and get acquainted.

AN EXPLANATION.

Owing to an accident on the Fraser Valley line of the B. C. E. R. yesterday morning, the publication of the Daily News was delayed until a late hour, causing considerable annoyance to our subscribers, many of whom failed to receive their paper.

The trouble was caused by a tree falling across and breaking the high voltage wires on the Chilliwack line, this break resulting in a short circuiting of the system, all power being shut off for several hours.

DAILY GRAPHIC AFTER LONG DISTANCE RECORD

English Balloonists Trying to Travel From London to Russia—Gaudron is Pilot.

London, Nov. 2.—The "Daily Graphic" balloon, the largest built in England, left the Crystal Palace at 4:45 o'clock this afternoon for Russia in an attempt to beat the long distance record.

Gaudron is the pilot of the balloon and there are four passengers aboard.

In 1908 the Daily Graphic dispatched a balloon on a record breaking voyage to Siberia. This balloon was compelled to descend after about thirty-six hours on account of a gale, having travelled 1,150 miles.

The long distance record is now held by the American aeronauts, Alan R. Hawley and Augustus Post, who recently flew from St. Louis, Mo., to a point in Northern Quebec, a distance of 1,355 miles.

WESTMINSTER LADIES BACK FROM LONG TRIP

Mesdames Insley and Sharpe Return Home After Travelling About 12,000 Miles in Fifty Days.

Back from a pleasure trip of something like twelve thousand miles, Mrs. J. E. Insley and Mrs. Sharpe are home again, returning to Westminster on Sunday evening, the last stage of their journey from Seattle having been made by boat, this being a pleasant variation of their travelling of the past fifty days, most of which had been by rail.

Mesdames Insley and Sharpe left Westminster on September 10, travelling via Moose Jaw to St. Paul, where the first one-day break was made. After seeing the sights of the Windy City, Chattanooga, Atlanta and Maretta, Ga., were visited and then Norfolk, Vt., and nearby resorts, at one of which they enjoyed the famous Lynn House oysters.

While in Georgia Mrs. Insley met a nephew, whose home is in Everett, Wash., but who happened to be visiting the same relatives in the east.

The next trip was to Laurel, Del., and thence to Seaford, Bridgeville, Woodland, Bethel, Cannon Hall, Cambridge and Baltimore, and then to Washington, D. C., where George Washington's old home at Mount Vernon was visited. Some time was spent at Alexander, where the church in which Washington and the General Lee family worshipped came in for considerable interest. Another trip to Washington was made, the White House, Washington monument, and all the other places of interest being visited.

Buffalo was the next point of call. From this New York city the tourists went to Niagara, N. Y., crossing the boundary line into Canada at this point. A trip on one of the lake steamers brought the ladies to Toronto, some time being spent in viewing the attractions and interesting places of the Queen City.

A second visit was paid to Chicago, this city being made the temporary headquarters while trips were made to Rock Island, Peoria and other Illinois cities. After spending a few days in Chicago, Mesdames Insley and Sharpe started on their homeward journey, making calls on the way at Kansas City, Mo., Denver, Col., Salt Lake City and Ogden, Utah, Portland and Seattle, from which city they took the boat for home on Sunday.

NANAIMO MILL SOLD.

Property of Red Fir Lumber Company Brings $65,000 Cash.

Nanaimo, Nov. 3.—The local holdings of the Red Fir Lumber Company were purchased yesterday by the Ladysmith Lumber Company, the cash consideration being in the neighborhood of $65,000. The mill, which has been closed for the past month, will be overhauled and new and additional machinery installed, making the plant more modern in every respect. On or about January 1 the entire plant will be started up with the expectation of keeping it in operation the year round, at its full capacity.

MILLIONS OF FISH IN NEW HATCHERIES

Superintendent Cunningham Tells of Work Being Done on Vancouver Island.

After making an extensive inspection of the three new fish hatcheries which have just been completed on Vancouver Island, F. H. Cunningham, superintendent of fish culture for the Dominion of Canada, returned to the city yesterday. He is accompanied by his son, C. Cunningham, who is also somewhat of an expert on fish culture.

The superintendent set out from Nanaimo with Inspector E. G. Taylor, of that city, and spent about three weeks at the different hatcheries.

The three new hatcheries which during the summer have both been in course of construction at Cowichan Anderson Lake and Kennedy Lake, are now practically completed and are already in operation.

There are 200,000 eggs at Cowichan, a million and a half at Anderson Lake and almost an equal number at Kennedy Lake.

Mr. Cunningham stated last night to a News reporter that he had found that the hatcheries had been well and quickly built, considering the difficulties that had been encountered in getting the building materials to the almost inaccessible sites of the buildings. Although the buildings are in good shape now a great deal of work in clearing the surrounding land will have to be done, and that will be undertaken by the regular employees early next summer.

According to Mr. Cunningham, Cowichan Lake is not frequented by the sockeye salmon in any large quantities, but it is the home of the Cohoe and spring salmon and is also well stocked with steelheads and all species of British Columbia trout. This lake is a favorite resort of anglers.

On the spawning beds at Anderson and Kennedy lakes, at the time of Mr. Cunningham's visit, there were large numbers of sockeye, dog and spring salmon, and the cohoes were just beginning to enter the lakes. These latter fish did not spawn as early in the year as the others: in fact they seldom go up the creeks until after the first freshet.

In Anderson Lake the eggs at present being incubated are all sockeyes, at Cowichan all springs and at Kennedy Lake all sockeyes.

It is the intention of the Dominion government, stated Mr. Cunningham, to send out the eggs of eastern brook trout and Atlantic salmon to be incubated at Cowichan. The resultant fry will be liberated in Cowichan Lake and add additional varieties to the numerous species of tourt found there now.

The new hatcheries are all under the direction of competent men, who have been employed in the service for some years and who have been gradually promoted to the positions they now occupy.

Mr. Cunningham has some work here that will keep him in the city for a few days and then he will leave for his home in Ottawa, visiting the Harrison Lake hatchery on the way back. Today he will pay a visit to the Bon Accord hatchery across the river.

PLAN FEDERATION OF BOARDS OF TRADE

Meeting to Unite All Publicity Bodies of Fraser Valley to Be Held Here on Tuesday.

A meeting which may mean much to the development and improvement of the Fraser Valley will be held in the board of trade room here at 2 o'clock next Tuesday afternoon, when steps will be taken to form a federation of the boards of trade throughout the length of the Fraser Valley.

If the meeting is successful in its object all the different publicity organizations in the future will act in concert and it is expected that the results will be far beyond those which are now obtained by individual effort.

It has been maintained for a long time by many of the members of the board of trade here and by progressive residents in other parts of the valley that the interests of the whole lower Fraser Valley are identical; what helps one part will help the other and what is detrimental to one part will have a deterrent effect on the others.

Publicity Commissioner Wade has the matter in hand and he has sent out requests to all the boards of trade in the valley to send delegates to the city. It was the idea at first to have the meeting in fair week, but owing to the fact that the unfavorable weather kept many of the district men at home, it was decided to postpone it.

Favorable replies have been received from nearly all those who were requested to attend and it is expected that one of the most representative bodies of men that have ever gathered from this district will be present on Tuesday.

Delegates are expected from Delta, Richmond, Burnaby, South Vancouver, Surrey, Langley, Coquitlam, Matsqui, Sumas, Maple Ridge, Mission, Chilliwack and Dewdney. It is also possible that some delegates from further up the river will attend.

DELTA WATERWORKS SYSTEM INVESTIGATED

Committee Reports on Arrangements Entered Into By Council and Contractors

At a joint meeting of the ratepayers of the Delta, held at Ladner on Tuesday, with P. O. Dennis in the chair, the following report was read by John Oliver, chairman of the committee appointed to enquire into the construction of the water works:

"Your committee appointed to enquire into the matter pertaining to the construction of the water works, have interviewed the municipal council and every facility was accorded us.

"We believe that another by-law should be at once passed, providing for the acquisition of all necessary lands, and matters defining and increasing the power of carrying out and construction.

"We have examined the original contract for supplying pipe and digging and filling trenches in which the pipe was laid, and with the excuse that they do not provide the securities for the carrying on of the work out of the contract is one objection.

"We do not think that any loss is now likely to occur on account of the lack of security above mentioned.

"We find that no written contract was executed for excavating for the reservoir and no security given; we understand that the council are paying one man's wages, and team hire, as well as the money earned by the contractor, but we have no contract showing whether or not the contractor had earned enough money to discharge all his obligations.

"Some 2,600 yards of earth have been excavated, leaving 1,400 yet to be excavated.

"We find that the engineer's remuneration is fixed at three per cent. of the cost of the work, and includes payment of the assistant engineer.

"We find that an agrement for the purchase of the whole of the N.W.¼ of section 12, and 20 acres of the

PORTUGAL AND CANADA.

How the Revolution Affects the Dominion.

London, Nov. 3.—The recent events in Portugal and France coming at a time when there is a growing feeling of unrest among the masses here must tend to accelerate the drift of capital towards Canada, indeed not only capital but capitalists. It is not sufficiently realized that any revolutionary movement or radical change in the taxation of land tends to hit the smaller property holder and the manufacturer with a limited amount of capital first. The much-talked-of "dukes" in most cases can afford to be as indifferent as the millionaires whose investments are practically untouched by the budget.

Unless the portents are altogether misleading the old country is in for a very serious bout of political warfare which may have far-reaching consequences, though we can not compare the leaders of the most advanced political parties here with those who have toppled over the ancient dynasty of Braganza in such an ignominious manner.

BODY FOUND DOWN RIVER IDENTIFIED AT INQUEST

Accidental Drowning Is Verdict Returned at Inquiry Into Death of W. E. Burnett, Half-Breed.

The body found floating a short distance below Ewen's cannery on Monday was yesterday identified as that of W. E. Burnett, or Barnard, a half-breed who has been missing since the latter end of September, the identity being established at an inquest held yesterday at Steveston before Coroner Jeffs, of Vancouver.

The drowning is believed by the jury to have been accidental and must have occurred about six weeks ago, judging from the condition of the body.

Burnett, who was about thirty-three years of age, was a married man, but had no children. His home was in Lytton or Nanaimo, he having lived in both places.

The body has been sent to Vancouver for interment.

Burnett was last heard of on September 20, when he was reported to have been engaged in a fight with other breeds on the Tenth street slip. The city police were later notified by a man named McKay that one of the fighters had fallen or been thrown into the river.

SHAREHOLDERS MUST MEET LIABILITIES

Surprise Sprung Upon Ontario Band Shareholders By Official Receiver.

Toronto, Nov. 2.—Official Receiver Kapelle has called upon the shareholders of the defunct Ontario bank to deposit the sum of $800,000 to the credit of the liquidators.

The fiat is a disagreeable surprise to the shareholders, who had hoped they were absolved from further responsibility.

The order of Receiver Kapelle must be obeyed within a period of time to be specified later.

Sues for Big Sum.

Winnipeg, Nov. 2.—Edward Brown, former Liberal leader, is suing John Hanbury, a wealthy lumberman of Brandon and Vancouver, for $80,000. Brown alleges misrepresentation in the prospectus of the New Hanbury Lumber company.

RAILWAY MAIL CLERKS SEEKING INCREASE OF PAY

Matter of Higher Salaries to Be Again Brought Before Attention of Dominion Government.

Railway mail clerks in all sections of Canada are preparing to submit to the Dominion government, in readiness for the forthcoming session, memorials urging an increase in the rate of wages paid them. Last January a petition from the railway mail clerks was presented to the prime minister and the postmaster general, urging increased remuneration. At that time the government made a general promise to look into the matter, and, towards the close of the session, in reply to an inquiry made in parliament, the postmaster general intimated that it might be possible for the government to take up this question and reach a decision during the parliamentary recess. The memorials which are now being drafted, and which will be signed by all the railway mail clerks in Canada, are designed to bring the matter anew to the attention of the government in the hope that speedy action may thereby be taken.

Mail Clerks' Proposition.

What the mail clerks say in support of their request for an increase is that they have no hope of promotion, that their work is of so trying a nature that they are compelled to retire at an early age, and that there are certain dangers incidental to a railway life. They state that according to the last report of the postmaster general the average salary of a mail clerk was slightly over $700 and the average mileage $300. The mileage is intended to cover the actual expenses of the clerk while away from home, and as a rule the allowance does not more than cover the expense. They ask that such increase should be made as the parliament of Canada should deem just, that the superannuation system should be restored, that clerks on railway service should be permitted to retire at the end of twenty-five years' serice in non-hazardous employment.

Support for Mail Clerks.

The press of the Dominion has sustained, to a large extent, the mail clerks in their requests. Discussing the matter the Globe, of Toronto, said: "The Globe does not hold to the view that civil service positions should in all things compete with the service of private corporations. But that does not mean that the salaries of those who carry on the public services should be kept as near as possible to the starvation point. These salaries should be reasonably adequate in all cases. In cases of special discomfort, and of personal risk and danger, as with the railway mail clerks, the salaries should be even liberal. At the present time, $400 for a minimum, and $1,200 as a maximum, is penurious for men doing responsible public service under conditions unattractive and full of peril. Substantial increases are due."

Cheap Gas.

Toronto, Nov. 2.—The price of gas in February next will be reduced to seventy cents per thousand cubic feet. The cost of this commodity in Winnipeg is exactly double this amount.

Morse Has New Job.

Montreal, Nov. 2.—Frank Morse, former vice president and general manager of the G. T. P., has been appointed general manager of the Chicago, Alton and Clover Leaf railroad.

BRIAND RESIGNS, THEN RESUMES OFFICE

French Cabinet Quits in a Body—Leader Trying to Form New Ministry.

Paris, Nov. 2.—Following the unexpected resignation of the Briand cabinet today, President Fallieres requested Premier Briand to retain his office and form a new ministry. This task is proving difficult.

In making up the new combination the premier has been in consultation with former leaders, such as Leon Bourgeois, M. Clemenceau, whom M. Briand succeeded in office, and Jean Sarrven, ex-premier and ex-minister of justice.

It is probable that no announcement of the personnel of the cabinet will be made until tomorow.

M. Briand must choose a ministry satisfactory to the changing majority. A number of radicals are not attracted by what they term Briand's tendency to extra conservatism.

The Temps insists upon the imperativeness of a broad program of social and republican defense against anarchy with legal means of the settlement of labor conflicts without referring to strikes.

It is believed the following ministers will be retained at Briand's request in the new cabinet:

Minister of Public Works, Millerand; Foreign Minister, Pinchon; Minister of Commerce, Dupuy; Minister of War, Brun; Minister of Marine, Payrere, and M. Cheron and Bujardin-Beaumetz.

REPUBLIC OF PORTUGAL IS FACING TROUBLE WITH ARMY

Soldiers Demand Promised Promotions and Pensions Immediately for Part Played in Uprising.

Lisbon, Nov. 2.—The new republic of Portugal is threatened with a military revolution. The Second and Fifth regiments today addressed a "round robin" to Provisional President Braga declaring that they were prepared for an insurrection if they were not granted the promised promotions and pensions for helping overthrow the monarchy.

The government probably will yield.

The royalists who have adhered to the republic demand the same rewards as the revolutionists proper seek to exact.

The revolutionary crew of the cruiser San Raphael, which bombarded the royal palace during the revolutionary outbreak, has been dismissed. The crew of the cruiser Adamaster, which also fired upon the home of King Manuel, has refused to leave the vessel unless the men are guaranteed a pension of $100 a month each for life. In order to avoid disorders it is likely that the government will grant all of these demands.

A secret committee representing an element that is dissatisfied with the course of the new government has been planning a revolution for some time. Last night it held a meeting to protest against the leniency shown by Braga and his associates toward the members of the old regime.

There are also troubles in the provinces where the people refuse to recognize the government's appointees to positions of trust on the ground that the new officers are incapable. Disorders in the provinces on the occasion of election for members of the constitutional assembly are feared.

Teixeira De Sousa, Abreu Malheiro and Reymao, former members of the Franco cabinet and jointly charged with Franco with having issued illegal decrees were arrested today.

Indian Fighter Killed.

Rawlings, Wyo., Nov. 2.—Charles S. Perkins, a pioneer scout and Indian fighter, was crushed to death today by a log.

BIG PUBLICITY SCHEME.

Nelson, B. C., Nov. 2.—At a public meeting here today it was resolved to adopt an aggressive policy for the attracting of settlers. The scheme will entail an annual expenditure of $15,000 and includes the maintenance of an office in London, England, and the broadcast distribution of publicity literature.

It is expected that all the districts adjacent to Arrow lake will co-operate in the scheme.

CONSTIPATION MUNYON'S PAW-PAW PILLS

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are thirty-two feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism and kidney ailments. No woman who suffers with constipation or any liver complaint can expect to have a clear complexion, or enjoy good health.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weakening; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope, they are soothing, healing and stimulating. They school the bowels to act without physic. Price 25 cents.

ST. CHARLES EVAPORATED CREAM

There is nothing so good for the baby as St. Charles Cream. The result of analysis by prominent expert chemists shows that St. Charles Cream, when properly reduced with **pure boiled water**, is almost identical in every respect with **human milk**. It differs from other milk products in that it is sterilized by heat alone.

St. Charles Cream does not curdle when used on acidulous fruits and imparts a rich, delicate flavor. It is **humanized milk**. It is not only best for mother and infant—it is better than the best ordinary milk for all purposes.

Sold by best grocers everywhere.

CANADIAN RETURNS FROM THE PHILIPPINES

Filipinos Not Fit To Govern Themselves, Declares T.W. Stanley—Labor Troubles.

Calgary, Nov. 2.—Back in Canada for a four months' vacation after spending the last six years in the Philippines, T. W. Stanley, now of Manila, but formerly of Winnipeg, was in the city for a few hours last night on his way east. Mr. Stanley came from the islands by way of Hong Kong and thence by the Empress of Japan to Vancouver. Mrs. Stanley is with her husband, and although they regard life in this country as the real life, both state that life in the Orient is much more pleasant and agreeable than what they expected, and that it is considerably different to what the people who have never been there expect.

"The Europeans in the Philippines are now mostly Americans," said Mr. Stanley. "We went there expecting to stay only three years, but we found the life so pleasant that we have already been there six years and are going back again. This is the case with almost everybody you see over there. They stay much longer than they first anticipate."

Mr. Stanley is a great booster for the islands he now calls his home.

"In my opinion, it is the best hemp-growing country in the world," he said, "while tobacco, sugar, rice and cocoanuts are grown throughout the country in abundance."

According to Mr. Stanley, the labor question is the most troublesome one in the Philippines, and as soon as this is settled the islands will make great forward strides.

"The hemp-grower and the sugar planter are up against the labor problem, because the Filipino is not a good workman," he said, in discussing this question. "He can easily make a poor living, and in the majority of cases this suits him only too well. In the city he will do good work, for he is willing to work with a crowd, but in isolated cases in the country, where there are few people, he is willing to do only enough to eke out a bare existence. Hemp stripping is one of the hardest jobs the Filipinos have to do, and in order to get men in, the planters tried the experiment of paying higher wages for this kind of work. The only result, however, was to cause the men who were already at this work to work fewer days than they did before. They just want enough to live on, and on the hemp and sugar plantations are paid from 40 to 50 cents per day, which is considered good pay for the average Filipino of the lower class."

Mr. Stanley stated that it was because of these low wages that common labor was never performed by Americans in the Philippines.

"The American laborer cannot possibly compete with the Oriental for such low wages," he said. "This makes the Chinese laborer the most desirable to get, as he is cheap and can be made to work. However, the exclusion laws are very strong and there are very few Chinese in the Islands at the present time."

Not Fit to Govern Themselves.

When questioned concerning the government of the islands, Mr. Stanley gave some very interesting facts. He is strictly against allowing the Filipinos to govern themselves, as he does not think they are fit to undertake that work, although they have already been granted local self-government by the United States.

"The ordinary Filipino is well satisfied with the form of government given him by the American government," he said. "The average native likes a great deal of display. He is fond of joining in parades and marching in any kind of celebration, while a uniform is his greatest delight. The love of these things makes him susceptible to persuasion, and he will follow an agitator as long as he can walk. Labor troubles are brought about to a large extent by these agitators, who work on the vanity of the ordinary Filipino. However, the general sentiment of the islands, as I have found it, is that independence, as the Filipino expects to get it, is a long ways in the distance as yet, if it ever comes at all. The Filipino is not fit to govern himself, at all, because as soon as he would take charge the agitators would get busy and every locality would have a revolution against the existing government. The only thing that keeps the agitators down now is the strong arm of the American government, backed up by the troops that are quartered there."

Regarding the city of Manila, in which he lives, as a residential place for Europeans, Mr. Stanley said that he did not think that anybody would really care to live there all his life, but that if he ever felt that he did not desire to return to America, Manila would be a good place to live. The temperature there is mild, and the climate very healthful, while the city itself is modern and up-to-date in every respect, having a well-equipped street car system, an extensive electric light system and a modern sewerage system which has only just been completed. The streets there are kept swept clean all the time, and altogether the City of Manilla leaves a very pleasant impression on the traveller who just goes over there for a short time.

Mr. Stanley left for his old home in Winnipeg on the early train.

THE ENGLISH VIEW.

The revolution in Portugal, according to the Spectator, is an event which may conceivably have grave consequences and profoundly affect the general European situation. Before, however, discussing this aspect of the matter, it may be as well to state one or two considerations which, though obvious in themselves, may very possibly be overlooked. In the abstract it matters nothing to the people of this country whether the Portuguese have a republic or a monarchy, a king or a president. We have neither the right nor the wish to dictate the form of government to be selected by our neighbors. Though we have chosen the monarchial system for ourselves, we can be as friendly with a republic as with a kingdom, with France and Switzerland and the United States as with the empires and kingdoms of the continent. Again, we are no blind worshippers of the "status quo." It is not our concern if states like to change their form of government. As long as they carry out the change with a proper respect for the dictates of civilization, their action is not our business. But though we have no right to protest against revolution "per se," even if revolution leads to civil war, we have a right to protest against assassination. For example, we had no right to object to a change of dynasty in Servia, but ample right to protest against the cruel butchery which took place in the palace at Belgrade. We admit that such protests may not be of any great avail, but still they undoubtedly do have some effect. A revolutionary government always wishes to get itself recognized by the great powers, and the fact that such recognition is not easily obtained from Britain by governments which have pursued methods of barbarism undoubtedly gives a certain incentive to revolutionaries to act with humanity.

Beyond this, the main principle which we ought to follow, and no doubt shall follow in the present instance, is that the question of internal government is the affair of each nation, and that no other nation has any claims to interfere as long as its essential interests and the rights and persons of its subjects are respected. Not only abstract considerations, but considerations of expediency, forbid one nation to dictate to another. Whenever such interference has been attempted it has failed, as in the case of the French revolution, or has merely led to the conquest of the nation interfered with. National independence and national sovereignty are absolute conditions and cannot be enjoyed with limitations.

If the republic finally triumphs in Portugal, as would seem to be likely, it will have to ask recognition of Britain. We would urge Sir Edward Grey very strongly to use this opportunity to obtain a clear understanding from the "de facto" government of Portugal that the conditions of slavery prevailing in the cocoa islands shall cease, and with it the slave-raiding and slave-trading which now disgrace the West African possessions of Portugal. Portugal is already bound to us by treaty to put an end to slavery and the slave trade, and unless we allow her to relieve herself from carrying out these obligations by altering the name but not the thing—i. e., merely by calling slaves indentured laborers—we have a right to see that this treaty is carried out. Hitherto when strong action has been demanded we have been told that our government dare not take such action. If they did, it has been urged, they would precipitate a revolution in Portugal. But the revolution has now come, and therefore this excuse for doing nothing falls to the ground. What unquestionably we ought to do is to withhold recognition from the new government till we have obtained assurances—that the Portuguese flag shall no longer be disgraced by protecting slave-traders and slave-raiders from the treatment which we accord such persons in the Red Sea or the Persian Gulf. A republican government which on the face of it stands for liberty and enlightenment could hardly refuse such a promise, or expect us, the promise having been made, not to insist upon its being kept in the spirit as well as the letter. Sir Edward Grey has a great opportunity to strike a blow against slavery, and we sincerely hope that he may sieze it.

A mistake in correcting the proof of our editorial yesterday made it appear that perhaps the mayor's remarks on the management of the R. A. & I. society might be well worth considering. Such is not the case. The paragraph in question should have read: "Were a question before the council of voting a grant to the R. A. & I. society, perhaps his remarks might be in order, but having already voted the grant, the mayor only stultifies himself by his now rather cowardly attack." There is a big difference between remarks being in order and being worthy of consideration.

WATCH REPAIRS

Probably that watch of yours is not giving you proper satisfaction. You have had it in the repair shop, but, while it is running, will not run accurately. The reason for dissatisfaction is that the man who did the repairs is either incapable or doing good work or is not conscientious in his work, or, in all probability, he is gifted with both of the faults mentioned.

We have been fortunate in securing the services of a first class watch man who has taken charge of our watch repair work. A man who will tell you the truth in regard to the condition of your watch, and will repair it properly, and, as a consequence, it will not only run, but keep accurate time.

ROLLER HOCKEY MATCH AT PYTHIAN RINK TONIGHT

First of Series of Games Will Be Pulled Off Between Teams Captained by Sharpe and Tidy.

The first roller hockey match of the season will be played at the Pythian rink tonight between two teams to be picked from the best skaters on the ice. Lorne Sharpe will captain one team, and Harry Tidy the other. The match will be pulled off at ten o'clock, after the regular skating program.

The teams will be picked from the following players: Wright, Beattie, Fisher, Peck, Burr, Swanson, Sinclair, Adams, Keary, Huff, Rowe and Gouiet.

LACROSSE PLAYER SHOT.

A Hamilton Hit by Shot Fired During Row.

Montreal, Nov. 2.—Andrew Hamilton, residing at 28 Walker avenue, a member of the Montreal lacrosse team, was shot in the right leg during a scuffle which took place on Windsor street, early on Saturday evening, between Ferdinand Duchesne, an usher in the Bijou Dream moving picture show, 111 Windsor street, and a young man who had been ejected from a theatre. During the row a shot was fired, and the bullet embedded itself in Mr. Hamilton's leg, just above the ankle. Mr. Hamilton, who had just been passing at the time, fell to the pavement, from which he was picked up and carried into the Vancouver Hotel, where an ambulance carried him to the Royal Victoria hospital. His wound was not found to be serious, and he was able, after having the bullet extracted, to return home.

Constable Mooney arrested Duchesne on a charge of wounding, though he denies having used his revolver, and claims some one else fired the shot which lodged in Mr. Hamilton's leg.

It is not thought that the accident will affect Hamilton's lacrosse playing.

New Owner of Wanderers.

Ottawa, Nov. 2.—Eddie McCafferty's action in purchasing the franchise of the Wanderer Hockey club from Mr. Doran, the Montreal stevedore, is making things take shape for the coming National league season. Everybody was satisfied to see the Wanderers go under the ruling of other parties, and no less a personage than George Martel, the Renfrew man, whose pirating of Fred Taylor last season aroused the entire hockey fraternity, states that the sale of the champions will improve hockey. Mr. Martel thinks that the new management will look after the interests of the team better, while in the Arena the Wanderers will draw bigger crowds, and should increase as an attraction now that they hold the title of champions. The Renfrew magnate would not state the intentions of the Creamy Town executive, but recent advices have it that the red and white all stars will have a grand team this winter. Fred Taylor and Bert Lindsay are the nucleus of the team, but once the committee get bidding for the stars, there will be a big scramble of the steel-bladed stars to sign up with one or the other of the teams.

WOLGAST TO MEET BAT.

Promoter Blot Arranges Match Between Champion and Dane.

San Francisco, Nov. 2.—Preliminary arrangements for a twenty-round return match on December 34 between Lightweight Champion Ad Wolgast and Battling Nelson were completed tonight, according to Promoter Louis Blot. Blot stated that the men would sign articles tomorrow.

He would say nothing of the financial arrangements beyond stating that the men had agreed to the terms proposed.

GOTCH HAS RETIRED.

New York, Nov. 2.—Frank Gotch, champion heavyweight wrestler of the world, has refused to accept Zbyszko's challenge, backed by a $10,000 wager and a Buffalo club's offer of a $20,000 purse. Gotch says he is through with the game.

The roller hockey match between the Stanley Cupers and the Cobalt Leaguers will be worth seeing at the Pythian Roller Rink tonight. **

In the last heat of the amateur roller skating races at the Pythian rink last night Dug Wright won from a field of seven. The race between him and George Monk was one of the best of the season. The winners of the different heats, Johnson, Peack, Pasco and Wright, will race on Wednesday night for the medals put up by Edwards, the jeweller. There is a gold medal for the winner and a silver one for the second man.

Delta Waterworks System Investigated

(Continued from Page One.)

S.W.¼ of the same section for the sum of $13,500 has been arrived at, but the papers in connection therewith have not yet been completed. The timber on this land is excluded from the sale.

"We find that pumping machinery has been ordered and not yet delivered.

"We find that it is intended to operate this machinery by electric power, but that no contract for the supply of power has yet been entered into.

"We believe that the pipe line will be so adjusted as not to interfere with the drainage, we think that precautions will be taken to prevent the water pipe from damage by frost.

"We think that the pipe line from the railway should be lowered to allow for the subsiding of the land.

"We think that the digging of trenches should be restricted to the extent of only digging the trenches to the extent to keep the pipelayers occupied.

"We think that pipes should only be distributed as required for immediate laying.

(Signed.) JOHN OLIVER.
THOMAS ROBERTSON.
CHRISTOPHER BROWN."

The report was unanimously adopted and ordered to be sent to the municipal council.
