PLANS COMPLETED FOR UP-TO-DATE DOCK

E. J. Fader Has Let Contract for Extension to His Wharf.

E. J. Fader is planning further extensions to his wharf, beyond the New Westminster bridge. He stated yesterday that the contract for the extension of the wharf to the property recently acquired by the Vulcan Iron Works had already been let, although the contractor does not wish his name made public as yet, as there are several details to be perfected before he proceeds with the work.

The new dock, according to the plans drawn up for Mr. Fader, will be one of the most up-to-date, if not the most up-to-date, in New Westminster, and will be equalled by few in Vancouver. There is provision made on the dock for two lines of rails, one next the water and the other adjoining Front street. The warehouses will occupy the space in between, making it possible to unload into the warehouse from either side the boats or cars and equally convenient in loading.

The tracks will connect with the Vulcan Iron Works site and will be so arranged that the latter firm can use Mr. Fader's dock for loading or unloading its machinery.

Since Mr. Fader has retired from his position as alderman he has been able to devote more time to his private enterprises and will devote his energies in the next month or two to the construction of the first docks in British Columbia.

DOG TRAINS REACH GIMLI WITH FURS

Gimli, Man., Feb. 24.—A number of large dog trains have reached here lately, bringing in large quantities of raw furs which dealers have purchased from the northern Indians. They report furs to be exceedingly plentiful and of an extra fine quality. The prices paid are higher than they have been before and the competition among local buyers is keen. The largest quantity brought in yet consisted of eleven dog trains with furs valued at $10,000. These consist of fisher, lynx, fox, ermine and muskrat. Wolves in the north are reported as scarce and deer of all kinds are very plentiful.

ALTERNATIVE SCHEME FOR MANCHURIAN ROAD

Russian Proposal Is Different From American Suggestion—Need Diplomacy

St. Petersburg, Feb. 24.—An alternative for the railroad plans set forth by United States Secretary Knox in his recent note to the powers may be expected from the Russian government soon.

The American memorandum, in addition to proposing the neutralization of the Manchurian railway, announced that a syndicate composed of Americans and Englishmen had secured from China a concession for the construction of a railroad from Aigun, in northern Manchuria, to Chin Chow, and that the governments of Great Britain and the United States proposed to support the enterprise diplomatically.

Russia rejected the neutralization proposals, but took the second suggestion under further advisement. Russia will suggest that, instead of the proposed Aigun-Chin Chow railroad, there shall be constructed another trans-Mongolian line further westward, striking the trans-Siberian railway extension from Pekin to Kalgan, which will traverse Urga and Kiakhta, avoiding the desert between Kalgan and Urga by a wide detour west of Puyuan Chen.

This route would be open to the same strategic objections as the Aigun line, since it touches the Russian railroad at a point where Russian troops could be easily assembled. The foreign office professes to believe that the line suggested would be far more profitable than the Aigun project, since it would follow the great caravan route over which all land exports to Europe pass.

The interested powers will be sounded as a preliminary to the advancement of the formal proposal.

The Russo-Chinese relations are rather strained as a result of the railway and other problems in Manchuria.

Bar Slates and Sponges.

Pittsburg, Pa., Feb. 24.—Slates and sponges have been eliminated from the schools of McKeesport, by order of health officers, because of prevalence of scarlet fever. Officials maintain that they are germ breeders and are, in a great measure responsible for many cases of disease in the city.

INVESTORS CONSIDER SAPPERTON PROPERTY GOOD

Movement Toward East End of City Has Been Decidedly Pronounced During Past Few Weeks.

Sapperton seems to be the seat of the real estate movement these days. Several conditions combine to make this district attractive to the speculator at the present time, but probably the most powerful influence is the well founded rumor that the new tram line from Hastings will be constructed through to Sapperton to connect with the city line some time in the near future.

Another reason is the activity of the Western Canada Box Board company. This company has now a force of men engaged in clearing the site and progress on the construction of the buildings will be rushed as soon as the weather conditions make it possible.

The new school there is also progressing rapidly and residential property in the vicinity of the site is in great demand.

Mr. Cook, of the firm of Wilson, Cook & Co., yesterday stated that he had a tremendous number of inquiries from investors who were anxious to secure property in Sapperton. He had expected that the bad weather would have an effect on the real estate business, and so it had had, so far as property in other sections of the city was concerned, but in Sapperton the interest was as great for the past few days as it had ever been before.

SIX COSTLY MICE.

Valuable Rodents Shipped from London to a Boston Professor.

Boston, Feb. 24.—Huddled up asleep in a small wooden box and appearing not unlike the white mice so common in this country, six little orange-colored rodents, valued at $1,666.66 each, made up the interesting consignment aboard the steamer Anglian, which arrived here from London.

The animals are for a college professor in this city, who is to use them in experiments.

The $10,000 mice are a species of dormouse, or sleeping mouse, that live out of doors in the summer and remain torpid during most of the winter season. Their high value is caused by their great scarcity of numbers. They are about the size and build of a squirrel.

Banquet Tonight.

The second annual banquet of the Men's and Women's Own Clubs of Queen's Avenue Methodist church will be held this evening in the Sunday-school room, where covers will be laid for about 150. The banquet will be served at 7 o'clock, and will be followed by an interesting program, which will include addresses by Mayor John A. Lee and Rev. Dr. Sipprell. The Queen's Avenue Sunday-school orchestra will be in attendance. Rev. C. W. Brown will officiate as chairman.

Nova Scotia House Meets.

Halifax, Feb. 24.—The Nova Scotia legislature convened today. In the speech from the throne Lieutenant-Governor Fraser expressed his pleasure at the termination of the difficulties between the Dominion Coal and the Dominion Iron and Steel companies.

Sir Wilfrid Receives Callers.

Ottawa, Feb. 24.—Sir Wilfrid Laurier, who has been suffering from the effects of a cold, has so far recovered as to be able to receive callers at his office today.

WILL FLY TO CANADA

Texas Aeronaut Expects to Spend a Week on the Trip North.

San Antonio, Tex., Feb. 24.—Weather conditions permitting, Clifford B. Harmon, an aeronaut, will start from San Antonio on Friday in the effort to break all long-distance balloon flight records. He expects to land in Canada. In anticipation of cold weather Mr. Harmon will be provided with heavy clothing and furs. He will also carry food and water enough to last a week. His aide, George J. Harrison, will arrive from Los Angeles today.

MINTO CUP MUST STAY IN CANADA

St. Paul Can Not Challenge For Mug But May For World's Championship

It will be a surprise to many lacrosse fans to learn that the Minto cup is not emblematic of the lacrosse championship of the world. By the rules governing the competitions for the mug no foreign or British teams are allowed to compete. This fact came to light when the Mohawk club, of St. Paul, applied to the trustees for permission to challenge for the famous piece of silver.

In reply to their letter Managing Trustee P. D. Ross referred them to the first rule governing the Minto cup games, which states that the cup is for competition among Canadian teams. However, Mr. Ross informed the Mohawks that they were at liberty to challenge New Westminster for the championship of the world, as the Salmon Bellies' claim to that distinction is not at present disputed.

Secretary Ryall yesterday received a letter from the St. Paul Indians regretting that they could not have a chance to carry off the cup, but suggesting that a game might be arranged for the championship of the world.

"That certainly sounds well," writes A. H. Dafoe, secretary of the Mohawks.

The letter concludes: "I hope you beat that Montreal bunch. We would like to repeat the dose you give them on their return trip, if games can be arranged."

No reply has yet been sent to the challengers for the world's championship, but the chances of seeing them here this year are rather slim at present.

Goldwin Smith Sinking.

Toronto, Feb. 24.—Dr. Goldwin Smith passed a bad night, but is reported to be resting easier this morning. Two nurses are in constant attendance, and the family physician, Dr. Grassett, spends every night and a considerable portion of the day with the patient. Dr. Irving H. Cameron, a noted surgeon, has been called in consultation.

WILL SPEND MILLIONS TO IMPROVE PORT

Comprehensive Plan Afloat to Spend Large Sum at Victoria's Inner Harbor.

Victoria, Feb. 24.—A company is being formed to acquire and develop the south shore of the inner harbor of Victoria, from the chemical works on the east to Raymond's wharf on the west. It is proposed to secure the whole area fronting on Belleville, Montreal, Kingston, St. Lawrence and Erie streets, reclaim the shoal places to a depth of twenty feet at low water, an average depth of twenty-five feet, and give an additional twenty-seven or twenty-eight acres to the commercial development of the port of Victoria.

The proposition involves an expenditure of probably five millions. It is proposed to remove Laurel point, on which the British Columbia Soap & Paint Works is located. The removal of this rock, which would cost in the neighborhood of $400,000, would provide an additional 200 feet in the channel. There would be but one break in a straight line of 3,600 feet of wharf frontage, solid cement dockage, on which, as development required, warehouses and electric or hydraulic cranes would be built to handle freight.

Sold Liquor to Longboat.

Deseronto, Ont., Feb. 24.—For selling liquor to Tom Longboat, the runner, T. A. Stewart, proprietor of the Queen's hotel here, was today fined $50.

JOE MARTIN BREAKS WITH PREMIER ASQUITH

Fiery Westerner Shocks Old English Parliamentarians—Wants Leader to Resign

London, Feb. 24.—"Mr. Asquith must go."

This is the plain English of Mr. Joseph Martin's letter to the Times. With almost brutal bluntness he charges the prime minister with bad faith in repudiating his pre-election pledge that he would demand the royal prerogative, and Mr. Martin forswears allegiance to Mr. Asquith.

Old parliamentarians are shocked at Mr. Martin's precipitancy, as a new member is generally modest and retiring, but the younger ministerialists who mean something more than the mere party game acclaim Mr. Martin as a man of insight and courage. The Radical Star says:

"Mr. Martin speaks with colonial directness, and the fact that he has been goaded into the use of language so plain shows how stern and immovable is the determination of the Liberal members to brook no more shuffling on the part of the cabinet. They want to clear the board for an instantaneous lead against the veto of the lords and against nothing but the veto, and unless they get it the government is doomed. We did not fight for the strengthening of the lords. We fought for our elementary rights, and we are not going to let our affection for any Liberal minister lead us to surrender what we fought for and won."

This is the new fierce personal note that Mr. Martin's letter has imported into the Radical revolt. What especially irritates the revolters this morning is the elaborate arguments of Col. Seeley, under secretary for the colonies, made at Ilkeston yesterday in favor of reform of the lords. Most of the revolters want the lords to be weakened, not strengthened, if not abolished altogether.

Sir Henry Dalziel has put down an amendment to the address adopting Mr. Martin's contention that the government has no mandate to reform the lords. In fine, the ministry is being pushed down the road to ruin.

LIGHTS WENT OUT FOR THE LAST TIME

Barring Accidents, "Juice" Will Not Be Shut Off In This City Again.

A costly experiment was brought to a dismal termination early this morning, when the voltage at the power house was reduced from 40,000 to 20,000, a staff of men, under the guidance of Superintendent Bowler, being at work for three hours altering the transformers to effect this change.

A month ago yesterday the voltage was doubled. Since then there has been a succession of troubles at the power house, as a result of which the city has been in darkness on several occasions. Transformers have been blowing out at intermittent periods. One burst last Friday, another blew out on Wednesday afternoon, but the climax came yesterday, when no less than four of these went to the bad.

It was then that Mr. Bowler decided the time was ripe for a change.

A Record Snowfall.

Utica, N. Y., Feb. 24.—From the records in the geological department of Hamilton college it is computed that the fall of snow here thus far this season has been ninety-three inches. This is a record for central New York.

STEAMER GOES TO PIECES ON TREACHEROUS GOODWINS

Tugs and Lifeboats Making Efforts to Rescue Crew of Ill-Fated Craft of Dover.

Dover, Eng., Feb. 24.—Five tugs and three lifeboats are struggling desperately today to rescue the crew of an unidentified steamer, which is being broken to pieces on the Goodwin Sands.

The sea is running high and it appears improbable that the live-savers will be able to reach those on board the vessel.

The steamer is supposed to have been driven upon the sands during the night. A heavy wind has been blowing and the tugs and lifeboats are driven back every time they approach the wreck. On account of the mist and the high seas which are washing the steamer, her name has not been learned.

CANADA MAKES CONTRACT.

Dominion Arranges for Service to Antipodes from Montreal.

Ottawa, Feb. 24.—Canada has made a contract with the New Zealand Steamship company to give a monthly steamship service between Canada, Australia and New Zealand. At the present time business between these ports of the British empire must pass through the port of New York. The Canadian ports of call will be Montreal in summer and St. John and Halifax in the winter.

CABLE COMPANY WILL LAY SIXTH CABLE IN ATLANTIC

New York, Feb. 24.—George G. Ward, vice president and general manager of the Commercial Cable company, announces that in view of the public demand for increased cable facilities and greater speed of transmission the Commercial Cable company will proceed at once to lay an additional trans-Atlantic cable.

This will be the sixth cable which the Commercial Cable company will own between Europe and America, and will greatly accelerate the trans-Atlantic cable service.

INDICTMENTS READY.

Rsult of Long Trust Investigation to Be Known Today.

New York, Feb. 24.—After weeks of investigation by a grand jury in Hudson county, N. J., indications are tonight that fifteen indictments will be handed up before Justice Swayne in the supreme court at Jersey City tomorrow against the great packing interests of the country maintaining cold storage plants in Jersey City.

The plants under investigation have been those operated by the National Packing company, Nelson-Morris company, Swift & Co., and Armour & Co.

Salt!

Prince Rupert, Feb. 24.—They were literally scooping herring out of the harbor on Saturday. So numerous were the schools, that it was possible for men in a boat, with no other device than a six foot stick, edged with nails, to toss the fish from the water into the boat.

TO LEARN TELEPHONING.

French Minister of Telegraphs Sends Girls to America.

Paris, Feb. 24.—Paris fondly, almost prayerfully, hopes that the delegation of telephone girls who are about to go to New York will learn how to run a telephone.

M. Millerand, minister of posts and telegraphs, is telling the young women that they may study the New York telephone system and watch the "hello girls" in action at the telephones there.

Here the operators are government employees and so are inclined to be indifferent to mere civilians. The Paris "hello girls" work on the principle that "time was made for slaves." They never hurry. A man sometimes loses his temper after waiting thirty or forty minutes to get the person he calls up.

BRADSHAW SUCCEEDS CHIEF McINTOSH

Head of Police Department Resigned Yesterday—Detective is Promoted.

After five years' service as chief of police of the city of New Westminster, J. W. McIntosh has resigned to be able to devote his whole attention to his business interests elsewhere, chiefly in the Queen Charlotte Islands. His position will be taken by Detective George Bradshaw.

The acceptance of Mr. McIntosh's resignation and the appointment of Mr. Bradshaw was the business transacted by a meeting of the police commissioners held yesterday afternoon in the city hall. The chief's resignation has been in the hands of the mayor since January 31, but no action was taken until the commissioners for the year were named, which was only a few days ago. At yesterday's meeting the commisioners unanimously asked the chief to reconsider his resignation but Mr. McIntosh was determined to leave. Mayor Lee, T. S. Annandale, Alderman J. Carter Smith and City Clerk Duncan all expressed deep regret at losing his services.

It was the opinion of the commissioners that if a man on the force was deserving of promotion to the position of chief, he should get it, and Detective Bradshaw was considered by all of them to fill this requirement. He will have charge of the force from March 1. So far no one has been appointed to succeed him.

For the past five years New Westminster has been fortunate in having for chief of police a man who was without a superior in the province. Before taking the present position Mr. McIntosh was eleven years on the Vancouver police force, part of the time on patrol work but most of it as desk sergeant. He has been a resident of British Columbia for twenty-three years and was the first white man who ever saw some of the northern rivers which are only now becoming well known.

Detective Bradshaw, the new head of the department, was chief of police of the city of Rossland before he came here four and a half years ago to take the position of plain-clothes man, or detective, as he is generally called. Prior to going to Rossland he was jailer in the county jail at Lindsay, Ontario, for several years, and is well posted on all branches of police and detective work. Since coming here he has won the confidence of his fellow workers and of the public, and will undoubtedly make an efficient successor to Chief McIntosh.

GOVERNMENT WINS ON FIRST DIVISION

Liberals Defeat Chamberlain's Fiscal Amendment By Majority of 31 Votes

London, Feb. 24.—The first trial of strength in the new parliament occurred tonight at a crowded session of the house of commons, when Austen Chamberlain's fiscal amendment was rejected by a vote of 285 to 254.

Speeches were made by A. J. Balfour, leader of the opposition; Chancellor Lloyd-George, Walter Runciman, president of the board of education, A. Bonar Law and others, none of whom, however, have any new aspect to the fiscal controversy.

Although victorious only by the narrow majority of 31, the government may regard the result as satisfactory inasmuch as there was no cross-voting and no evidence of any intention on the part of the discontented groups to overthrow the ministry.

All the Nationalists, the O'Brienites, as well as the Redmondites, abstained from voting. The lords voted with the government, and three Liberals—Hilacree Belloc, H W. Bottomley and J. C. Wedgwood—abstained.

The premier having given notice that he would move on Monday that government business would take precedence over all other business until March 24, the house adjourned.

This will depend upon the production of a plan satisfactory to the Nationalists and the radicals for dealing in a drastic manner with the house of lords.

SIFTON MAY NOT RUN IN BRANDON AGAIN

Brandon, Feb. 24.—There is a current and well founded report here that Hon. Mr. Sifton has disposed of his interest, a controlling one, in one of the leading newspapers in this riding. Liberals say this means that Mr. Sifton has decided that he will not again contest Brandon. After this parliament he will not again represent a western riding.

Revival of Anti-Asiatic Movement in San Francisco Creates Consternation In Land of the Rising Sun

Tokio, Feb. 24.—Special despatches to the newspapers from the United States report a recrudescence of the anti-Japanese movement at San Francisco. Today all the local papers featured the speech of Leslie M. Shaw, former secretary of the treasury, in which he is reported to have said that war between the United States and Japan was inevitable. The speech has caused a most gloomy impression among Japanese and foreigners alike.

Editorially the papers repudiate the suggestion that Japan is seeking control of the Pacific and declare that American competition will be welcomed.

Washington, D. C., Feb. 24.—Major General Bell, chief of staff, was shown the Associated Press despatch from Tokio quoting him on the authority of certain special correspondents to the effect that war between the United States and Japan was likely to break out at any moment.

In the presence of Secretary of War Dickenson, who gave his approval of the statement, General Bell denied emphatically that he had ever anywhere made any such declaration. There was no justification for it, he added.

San Francisco, Feb. 24.—While there has been nothing in the nature of a renewed anti-Japanese movement in this city or state, the special despatches from San Francisco mentioned as having been received in Tokio are believed to have been inspired by a resolution adopted by the labor council, advising all unions "not to unionize nor permit their members to work in houses where Oriental labor is employed."

The adoption of the resolution followed a discussion of a proposal to boycott saloons where Chinese and Japanese help is employed, and the action was designed to extend the scope of the movement to embrace all houses employing Orientals.

San Francisco, Feb. 24.—Complying with the recommendation of the labor council, the Waiters' union adopted today a resolution preventing its members from wearing the button in restaurants where Japanese waiters are employed.

Secretary Beck, of the Waiters' union, today said that if the council would finance a general boycott against the restaurants and cafes employing Orientals the union would call out its five hundred men now employed in such places.

The Anti-Asiatic league is endeavoring to secure assurance that Asiatics will not be employed by the Panama-Pacific exposition directors.

C. P. R. SEEKS CONTROL OF QUEEN CHARLOTTE COAL

Capture of Nanaimo Deposits By C. N. R. Makes Rivals Go Further Afield for Fuel Supply.

There is a movement afoot to acquire the Queen Charlotte Island coal fields, and it is generally believed that the C. P. R. is behind it. For a long time it has been well known that there are very extensive coal beds beneath practically the whole of Graham Island. The seams are thick and it is thought are not as badly broken as they are on some parts of Vancouver Island. The only thing that has delayed the development of the coal beds has been the fact that up to quite recently the market for coal has been fully supplied from the Vancouver Island mines, says the Victoria Times.

Today the situation is changed. MacKenzie and Mann moving to acquire the Dunsmuir mines, from which the C. P. R. as present draw their supply, that corporation is intensely interested in securing a supply for themselves which they will be able to control for their own advantage. They do not look with favor on the Nanaimo mines, and the Pacific Coast mines are not yet fully developed. The C. P. R., it is believed, have turned their attention to the Queen Charlottes. Whether the deal for these coal rights will go through it is impossible to say.

CONVERT CRUISERS INTO BATTLESHIPS

Germany Now Has Fifty-eight First Class Ships of War Under Construction

London, Feb. 24.—Colonel Gaedke, a well known German naval and military authority made some striking admissions this morning. He says that the last naval law fixed the number of German battleships at thirty-eight, but that actually the German admiralty is engaged in building a fleet of fifty-eight battleships because the new armored cruisers, which were originally intended for strong scouting vessels and expeditions against small and weak states, are being constructed as first class battleships with the same heavy artillery and vastly greater speed. The cost of these cruisers will probably be heavier than the cost of battleships.

Gaedke says that the time is gradually approaching when the German fleet will be superior to all the fleets of the world with the single exception of the British.

"Between 1898 and 1903 the German naval expenditure on new ships was 24,095,000 pounds," he says. "During the succeeding six years we spent 39,095,000 pounds on new ships, or vastly more than either France or the United States.

"Until 1914 at least German disbursements for new vessels and armaments will be still more strongly emphasized. In 1911, for example, the program calls for some 130,000,000 pounds. In the last twelve years Germany has spent on new ships alone 63,200,000 pounds, and between now and 1914 will spend another 57,500,000."

Music and Drama

Charles B. Hanford comes to the Westminster Opera house on Thursday, March 3, and the play will be "The American Lord" which is the combined work of George H. Broadhurst and Charles T. Dazey, two men whose individual efforts as playwrights have been productive of such good results that one is inclined to expect something out of the ordinary from them in collaboration. The play is in four acts, opens in North Dakota, then takes its characters and story to England. The idea of dumping a "wild and wooley" westerner in England after compelling him to take a title that is his by inheritance, is not without its humorous possibilities and the authors are said to have made the most of it. Mr. Hanford as John Breuster and Miss Marie Drofnah as Mrs. Westbrooke have succeeded in modern comedy roles to an extent that must be gratifying to their many admirers who have witnessed the inimitable performances they have given of the classics. The production is both elaborate and complete and the cast one of excellence throughout.

Something Doing This Year

All the indications show that there will be greater developments in the next few months than in any similar period of the Royal City's history. More people, more railroads, more capital from all corners of the world are being attracted by our great resources.

The man who invests his money in any of the following will participate in this great bounty of prosperity, for real estate is absolutely essential to every coming improvement whether domestic or commercial.

Fifth Street Lot, $600

This fine lot is between Sixth and Seventh avenues, a superb location close to car line. This is such a buy as requires but one advertisement, because it is big value. ONE-THIRD CASH.

Double Corner, $1,350

Here's a corner partly cleared at Seventh avenue and Fifth street, one block from car line. Twelve months is going to double the value of this property—it simply can't miss it. We don't put anything in the paper except what we know is good value, and will be recognized as such. You can handle it with ONE-THIRD CASH.

Corner on Ninth, $1,000

This lot is at Ninth and Cornwall, and embraces a charming view of the river. This is a homesite you will buy if you are in the market for such, and besides offers certain profit as an investment. ONE-THIRD CASH.

Tenth Avenue Lot, $350

Being one block west of Twelfth street car line. This lot is bound to make money for the man who is fortunate enough to own it this year. It can be very easily cleared. ONE-THIRD CASH.

Dublin Street Lot, $450

The stumps have all been blown off this and the logs cut, making the remaining clearing very simple. Values half block away up to $600. Two blocks from carline. In a very few days this price is going to be raised. At present it can be bought for ONE-THIRD CASH.

Corner Lot on Eighth, $1,000

Between Third and Fourth avenues, in a good residential section, close in. Has good view, and is easily cleared. Not more than five blocks from Columbia street. ONE-THIRD CASH.

Two Fourth Street Lots, $300 Each

These are near Eighth avenue close to car line, and the clearing is quite simple. Both for $600. ONE-HALF CASH.

If you want some exceptional acreage buys on and close to the Chilliwack tram in South Westminster and Surrey, better see me. W. J. KERR.

COMMERCIAL PEACE.

The new tariff arrangement with Germany, which comes into force on Tuesday next, marks a very important step in the trade relations of Canada with the great industrial nations of the world. The agreement, which has excited widespread interest, really possesses an importance that confers upon it the dignity of an historical event.

The removal of the surtax upon German goods by Canada and the admission into Germany of Canadian goods at the conventional tariff or minimum rate, which is the basis of the new arrangement, will be certain to produce a considerable expansion of trade in both countries. The hostile tariff which has been in force since 1898 has not been advantageous either to Canada or Germany, and the mutual understanding that has now been arrived at, has naturally met with a general welcome. France already enjoys a like advantage, or rather a greater advantage in regard to her exports to this country, under the commercial treaty that was signed last year, whilst Great Britain is not in any way prejudiced, because her manufacturers enjoy the privileges conferred by the preferential tariff. But it is quite likely that the removal of the German surtax will be objectionable to American commercial interests, for Germany is a keen competitor with our neighbors in very many articles of every day use.

It may be however that the United States government will think better of their long-continued refusal to remove the obstacles to better trade relations between their country and ours, and one day see fit to climb down, just as Germany has now done, and confer upon Canada the advantages of the Payne-Aldrich tariff. But whether they do so or not, it is certainly a gratifying circumstance that Canada is now enjoying commercial peace with all the other great industrial nations of the globe and will profit accordingly.

The story connected with this happy resumption of better trade relations with Germany is both interesting and amusing—amusing because the trouble that gave rise to the surtax was of a character that reminds one rather of the insane quarrels of little children. The difference which rose between Canada and Germany in 1898 was due to the granting of the preferential tariff to Great Britain in the previous year, in connection with which the Mother country, at the instance of Canada, denounced the existing treaties which guaranteed to Germany that no higher duties should be levied in British Colonies on the products of Germany than on the products of the United Kingdom. Thereafter German goods came into Canada under the general tariff. But Germany, like a spoiled child, resented this and penalised Canada by subjecting her products to the higher duties of the German tariff, instead of the conventional one which had up to then applied. The Canadian government naturally remonstrated, and pointed out that the tariff relations between Great Britain and her colonies were matters of domestic concern with which no foreign country could reasonably interfere; that Germany could not fairly expect, as she asked, the same privileges that were granted by Canada to the Motherland, and that this country was granting to Germany the same terms as were enjoyed by other countries. However, Germany would not recede from her demand for the same treatment which Canada had accorded Great Britain, and it was found necessary to apply, by way of retaliation, the surtax upon German imports into this country. But all's well that ends well, and though the new arrangement is to some extent provisional, it is altogether unlikely that there will ever be another tariff war between Canada and Germany.

ESTIMATED REVENUE BELOW EXPENDITURE

Bowser Proposes Spending $7,702,769 This Year—Revenue $7,000,226

Victoria, Feb. 24.—The estimate of revenue and expenditure for the fiscal year commencing on March 31, 1910, were brought down in the legislature this afternoon by Hon. W. J. Bowser, minister of finance.

The estimated expenditure is in excess of the estimated revenue by a little over $700,000, the estimated expenditure being $7,702,769, and the estimated receipts $7,000,226.

The sum of $150,000 is provided to finish construction of the new courthouse in Vancouver, and an additional $50,000 is granted for the purpose of building a new wing to the structure.

Road construction in Point Grey has been allotted $150,000, and $250,000 will be given to assist in the construction of the bridge over the Second Narrows of Burrard inlet. This grant is conditional on the Dominion government making a grant in aid of the same work.

Under the head of estimated revenue the conservative sum of $1,500,000 is allowed for land sales.

Under expenditures civil salaries are shown to amount to $456,100. The grant to hospitals totals $200,000, while $80,000 is to be given toward the cost of building hospitals.

The vote for education amounts to $745,742. This is stated to be an increase of over $100,000 as compared with the vote last year on this count.

The sum of $4,256,805 is to be devoted to public works, not very much short of double the expenditure last year in the same connection. For a new asylum for the insane at Coquitlam $150,000 is provided. The sum of $100,000 is to be granted for the protection of river banks. For the further construction of the Vancouver island trunk road $150,000 is allowed. Land surveys claim $300,000. A courthouse site is to be bought for Grand Forks and $20,000 is set aside for that purpose, and $20,000 for government offices at Kaslo. Subsidies are proposed for ferries in the interior and northern districts, and there are general increases in the appropriations for all districts.

Appropriations for the expense of conducting various departments of the government have been increased in a number of cases owing to the fact that the operations of the departments have been greatly extended and a number of new offices created.

There is a vote of $30,000 for immigration purposes. In the miscellaneous vote are included $75,000 for forest protection, $10,000 for the revision of the statutes, forestry commission, $10,0000 board of investigation under the water act $30,000, insurance commission $3000, university commission $2000.

There is also a vote of $117,000 for agriculture, and of this sum a portion may be devoted to assisting the Vancouver exhibition association.

Scotch Whisky

Choose Your Brand Carefully.

A Scotch address on the label does not always mean genuine Scotch Whisky in the bottle. There are many brands trading on the reputation of Scotland's Highlands as a whisky producing country beyond compare—brands put up under fictitious names, and which, though bearing Scotch addresses, never saw Scotland at all, much less the Highlands.

Choose as *your* beverage, a brand with a reputation back of it.

Watson's Scotch Whisky has been distilled in the Highlands of Scotland since the year 1815. It is not only a pure, and genuine Scotch; it is a Whisky exceedingly agreeable to the palate. This is due primarily to the fact that we distil by the old-fashioned Pot Still method—slowly, carefully, skilfully.

Moreover, we age our Whisky in Sherry wood—age it for years, until it is thoroughly matured and mellow to the taste.

Insist on Watson's

JAPANESE WRESTLERS TO HOLD NORTHWEST TOURNEY

Oriental Athletes to Gather in Seattle Early in March to Settle Mat Championship.

Seattle, Feb. 24.—Japanese wrestlers from all over the northwest will gather in Seattle next month for a tournament which will determine the championship of this section of the country. More than a hnudred husky Orientals are now training for the affair.

It will run four nights, March 2, 3, 4 and 5, and is to be under the supervision of Prof. Tokukoro Ito, the jiu-jitsu expert, who has performed in public twice in the last few months and is now negotiating with Julius Johnson for another match. Prof. Ito conducts a big Japanese athletic school in this city.

Ito is now training about twenty of his strongest and most agile young men to take part in the northwest championships. Ito is one of the best known jiu-jitsu artists in the United States and ranks high in the list of experts in this peculiar game. Japanese wrestling, however, is not to be confused with jiu-jitsu. The two styles of physical contests are as different as boxing and catch-as-catch-can wrestling. Ito is skilled in both. He received his training under the masters in Japan and some of his pupils in America have become proficient.

Tournament wrestling is popular with the Japanese. The bouts go through preliminaries and semifinals up to the finals on the last night.

DURABLE DANE WILLING TO MEET CYCLONE THOMPSON

Reno, Nev., Feb. 24.—Battling Nelson today said that he would meet Cyclone Thompson in a forty-five round fight at San Francisco the last week in April or the first week in May. He said that the fight would be held in a new building which is to be constructed for that purpose.

GOVERNOR WARNER VETOES KETCHEL-CAPONI FIGHT

Lansing, Mich., Feb. 24.—Governor Warner said today, when his attention was called to the proposed fight at Kalamazoo between Ketchel and Caponi: "These men are professional fighters, and they can not fight in Michigan under the guise of a boxing contest. The sheriffs of all counties have been notified to act accordingly."

ABERDEEN HAS NO CHANCE TO GET BACK IN LEAGUE

Seattle, Feb. 24.—Aberdeen has lost her fight to continue in the Northwest league. Judge Mitchell Gilliam of the superior court of King county, yesterday ruled that the directors of the league had good and sufficient cause for the dropping of the Aberdeen club. This means a four-club circuit this season, composed of Spokane, Seattle, Tacoma and Vancouver. The Aberdeen club first applied for an injunction to restrain the league from drawing up a schedule on a four-club basis. This was refused and the Black Cats took the second step, decided yesterday.

Varsity Boat Race.

London, Feb. 24.—A memorial to the O. U. B. C. and C. U. B. C. presidents, asking that the boat race date shall be altered from Wednesday in Holy week is now under consideration. There is little hope that this can be arranged, however. The tide would not suit a week earlier, while exigencies of term intervene later.

For Three-Cushion Title.

Denver, Feb. 24.—Champion Fred Eames of Denver and Tom Hueston of New York will meet on March 15 and 16 in a three-cushioned billiard tournament for the world's title. Eames announced last night that he would insist on the match beting held in Denver.

Bettinson Bitter.

Manager Bettinson of the National Sporting club of London declares the Jeffries-Johnson match is not worth a $5000 purse. Bettinson is bitter about American boxers. He says they are too slippery for one to deal with, most of them being keener on doing you than fighting for your money, so there are no big purses for them over there.

SMOKER

Under the auspices of the Young Conservative Association a Smoking Concert will be held in the St. George's hall on Saturday evening, the 26th inst., at 8 o'clock. EMPLOYERS' LIABILITY

Why You Should Insure Against Lawsuits

WORKMEN can sue you without cost to themselves, and they have EVERYTHING to gain and small chance to lose by so doing.

PERSONS other than employees accidentally injured about the premises invariably sue for damages.

REGARDLESS of their own responsibility for the accident, or the existence of negligence on the part of others.

ON the slightest pretext employees may sue you, even for accidents caused by the negligence of a fellow-workman, and

THE suit may be brought against you long after the occurrence of the accident by which he was injured.

EMPLOYERS and business men can ill afford to assume the risk of this ever-increasing and uncertain liability.

CREDIT of otherwise responsible manufacturers and business firms is sometimes seriously impaired by such damage suits.

TO go to law means loss of time, money, endless annoyance and worry.

YOUR profits may be seriously curtailed as a result of accident unless you are insured.

ONLY insurance against such risks will enable you to fix and reduce your expenses to a minimum.

UNDER the protection of a Liability Policy in the Railway Passengers' Assurance Company you will save money and time and be relieved from all such annoyances.

DEPARTMENT OF MILITIA AND DEFENSE, OTTAWA.

Sealed tenders (in duplicate) for the supply of coal and fuel wood required to heat the Military Buildings at Victoria, Vancouver and New Westminster, B. C., for the year ending March 31, 1911, will be received up to Monday, March 14, next. Each tender is to be marked "Tender for Fuel," and addressed to the Secretary of the Militia Council, Ottawa.

Printed forms of tender containing full particulars can be obtained from the Secretary of the Militia Council, Ottawa, or at the office of the District Officer Commanding, Victoria, who will furnish all information required.

Each tender must be accompanied by an accepted cheque, on a Canadian chartered bank, payable to the order of the Honourable the Minister of Militia and Defense, for five per cent of the amount of the tender, which will be forfeited if the party making the tender decline to sign a contract when called upon to do so. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

Fine Swiss Embroideries

Another shipment of Embroideries and Insertions just received. This time they come direct from a Swiss manufacturer. As a result of special buying privileges we are enabled to offer our customers a more attractive and worthy display than ever before at much lower prices. With this shipment were exceptionally fine Sheer Spot Muslins and Dimities. Several lines of Crossbar and Striped Muslins are shown with embroidered fronting and skirting embroidery to match. All neatly shown in sample books, marked in plain figures.
