25 BURN TO DEATH IN SEATTLE

ADY TO START WORK ON A. & G.W. RAILWAY

nditions Governing Build- ng of Road Have Been Materially Altered.

monton, June 10.—During the forty-eight hours some rather ational developments, which will n a complete change in the plans e railway development, including immediate constduction of a rail- under more satisfactory condi- s than those under which it was commenced, are expected to oc- as the result of the return to the of E. James, general manager of A. & G.W. Railway company, who a conference with the president, R. Clark, in Winnipeg. Mr. Clark present living in Minneapolis. om what is considered to be very horitative sources it is learned that ngements have been completed to e the big contracting firm of Foley, ch & Stewart take over the con- ction of the Alberta & Great Wa- ys railway under the present tract with the government. It is orted that this contracting firm, ch is known to be one of the most able and most wealthy contracting s in Canada, is prepared to com- nce construction on the road im- diately the necessary arrangements e been completed and the new ar- gements have received the ap- val of the new administration of province, and in this connection is reported that little difficulty is ed for.

AMERICAN KILLED.

dier of Fortune Slain in Nicara- guan Battle.

Milwaukee, June 10.—Charles E. senthal, of this city, has received nfirmation from the United States nsul at Bluefields, Nicaragua, that son, Louis E. Rosenthal, had been led in a battle in Nicaragua be- en the insurgents and the govern- t forces at Fort La Cleba. m a letter to his father, dated April oung Rosenthal said that he had n appointed first adjutant to Gen- l Corrales.

Price Movement Mounting.

New York, June 10.—Bradstreet's port on the state of trade tomorrow ll say: The week's price movement towards a higher range. Business Canada for the week terminating th Thursday shrdlu shrdlu aonnn towards a higher range. Business lures in Canada for the week ter- nating with Thursday number irty-six, which compares with eight- n for last week and twenty-nine in e like week in 1909.

ARLOAD OF EDUCATION IS VISITED BY BIG CROWD

oducts of Western Orchards, Which ave Astonished Easterners, Were Seen Here Yesterday.

The Great Northern railway exhi- tion car, which was sidetracked in ront of the market all day yesterday, tracted a large number of visitors. he car contains samples of the prod- cts of Washington, Oregon, Idaho nd Montana, and the display, al- though it has been on the road for bout a year, is exceptionally fine. The car has just returned from an ducational and advertising trip east nd is in charge of O. A. Atwood and . C. Morrison, who explained mat- ers and supplied information to in- ending settlers back east. The tour tarted from Seattle and ended in New York, stopping at all the im- portant towns on the line of the Great Northern in the east and occa- sionally getting off the Great North- ern when reports were received that people in adjacent towns were seek- ing information.

For people who live in British Co- lumbia and know what land, such as they have in Washinton can produce, the display is nothing extraordinary but it must have been a revelation to the residents in the east.

Yesterday the car was visited by W. J. Brandrith, of Ladner, exhibition commissioner, who was pleased with the display, but wanted to see more British Columbia products shown. He talked to the men in charge and will correspond with them in reference to having the province properly rep- resented at the next tour of the kind. In the fall the car will receive a fresh supply of produce and will be en- tirely remodelled, when it will return on another immigration trip.

The car was merely taken to New Westminster and Vancouver out of courtesy of the railroad company, and not with any idea of attracting immi- grants from here to Washington. It left for Vancouver last night.

COLORED PORTER IS FOUND GUILTY OF USING KNIFE

Sentence on E. M. Bryant Reserved Until Monday—Prisoner Previously Bore Good Character.

After a trial lasting most of the day yesterday E. M. Bryant, a colored porter, was found guilty of wounding Alfred McKernan, a C. P. R. sleeping car conductor, but Jodge Howay re- served sentence until Monday. In the meantime the police will look up Bryant's record and character, which several witnesses yesterday testified were exceptionally good. Bryant's wife and two daughters were in the court room during the progress of the trial.

The prisoner's story is to the effect that there was an argument in which McKernan attacked him and when he had him on the floor and pounding him he used the knife he had in his hand.

The conductor's story designates Bryant as the aggressor. There were no witnesses to the actual affray.

NEW YORK FLORISTS SELLING NEW VARIETY

New York, June 10.—New York flor- ists have added to their stock a new variety, the straw flower, which after two years' experiment has been suc- cessfully transplanted from Europe to this country.

It is a variety of the immortelle family and is described as of a pecul- iarly elusive beauty, by reason of the silver gray sheen which covers its ex- terior. The petals are of a cerise shade and the center of the flower a deep yellow. The blossoms are half an inch in diameter. The stems are long and slender.

HEALTHY CONDITION SHOWN BY WEEKLY BANK CLEARINGS

New York, June 10.—Bradstreet's weekly bank clearings:

COAL SEAM FOUND WHILE SINKING FOR WELL

Alberni, June 10.—While sinking for water just behind Roy Hanna's new house in Port Alberni workmen cut into a seam of coal, and the discovery is of sufficient importance to justify practical prospecting operations in the vicinity.

Samples of the coal were taken to Victoria by Alfred Carmichael and sub- mitted for scientific test. Interesting developments are expected within a few days.

The lot on which the find was made is No. 21, in block 125. It is about five blocks back from the waterfront and two hundred feet above sea level.

The well diggers had only gone down twelve feet when the surprise happened. They kept on drilling and found the seam to be four feet deep.

This is not the first time that coal has been discovered in the new town, but it is the most promising find that has been made.

The coal rights on the townsite be- long to the Alberni Land company.

Coal lands, recently acquired by Mackenzie & Mann, adjoin the town- site.

SPRECKELS WILL STUDY GRAFT PROBLEM ABROAD

New York, June 10.—Rudolph Sprec- kels, of San Francisco, who gave his time and money toward hunting down graft in his home city, and who is now engaegd in an effort to organize a national association for the sup- pression of graft, sailed today on the North German Lloyd line George Washington, and will study the graft situation in Europe. When asked if he would continue the fight on graft in San Francisco, Mr. Spreckels replied:

"I am in the fight to stay. The con- ditions in San Francisco are worse than ever, and I believe the grafters will go so far that they will kill them- selves. Their shameless disregard of the rights of the public will cause a general revolt and the grafters will be swept away.

"I hold that the stockholders of cor- porations are principally responsible for graft. They are content to sit still and take their dividends without inquiring into their business, which enables a few persons to run the busi- ness. This neglect of business an- alies to both public and private af- fairs."

AWFUL HOLOCAUST WHEN EIGHT BLOCKS ARE RAZED

Worst Disaster Known in Queen City for Many Years Spreads With Alarming Rapidity and Takes Terrible Toll of Life—Tenants Hemmed in by Flames

Seattle, June 10.—(Special to The Daily News)—The most disastrous fire which has visited this city since 1889, when Seattle was practically de- stroyed, razed eight blocks to the ground tonight and did damage amounting to well over a million dol- lars.

Twenty-five lives are reported to have been lost. This number may be increased later. No official count is available.

A feeling akin to panic swept through the crowd gathered to wit- ness the awful spectacle when the report that ten lives had been lost was first bruited.

A few minutes later the number of reported victims grew to forty, but this was shortly after reduced to twenty-five. This is as near an actual estimate as is possible at the present time.

Almost every fireman in the city was called out to battle against the fire fiend. For a time it seemed as if a whole section of the city was doomed, and only by almost superhu- man efforts were the flames confined to the eight blocks destroyed.

The fire started shortly after nine o'clock, and after burning briskly for some time, but without any indica- tion that it would assume serious pro- portions, the flames seemed to break out in a dozen different places at once and before the firemen had time to master the incipient outbreaks, these had grown to individual confla- grations of serious importance.

Several members of the fire brigade proved themselves heroes, endanger- ing their lives in rescuing hapless peo- ple imprisoned in the burning build- ings.

Three firemen are missing, but whether they are dead or have been taken to temporary hospitals cannot be ascertained.

The city of Seattle was almost com- pletely destroyed by fire in June, 1889, when the damage amounted to over thirty million dollars. The city did not recover from the disaster for many years.

The police had great difficulty in maintaining a cordon at a safe dis- tance from the burning buildings. so great was the pressure of the crowd, anxious to watch the conflagation. The danger from flying embers was great, three policemen and nearly a dozen firemen being Injured.

Some trouble was experienced with two of the fire engines, a delay ensu- ing which permitted the flames to gain considerable headway in the early stages of the conflagration.

The water pressure, owing to the condition of the reservoirs, was not as strong as it should have been, some of the streams failing to reach the upper stories.

At half past two o'clock the fire was under control, but owing to the dan- ger of falling walls no search of the ruins for bodies of victims will be commenced until daylight.

KANGAROOS ARE OUT FOR DICK BURDE'S TIMEPIECES

Boys Under Fourteen Years of Age Form Team and Will Have Try for Watches.

The first team to enter for the com- petition for the R. J. Burde watches handed the names of the players to H. Ryall last night. They call them- selves the Kangaroos and are strictly within the age limit of fourteen years or under. The names are: Winslow Crouse, Arthur Newman, Arthur Owen, Douglas Diamond, John Ellis, Angus Matheson, William Rodgers, Jimmy Ellis, M. Agar, George Gil- christ, Hunter Fader, Leonard Sax- ton, Willie Cameron and David Boyle.

The watches are open to competi- tion for all teams in the city within the required age limit and the trus- tees wish the teams to hand in the names of the players as soon as pos- sible, as the games will be played at an early date. The watches are on exhibition in Gifford's store and are well worth having a try for.

ESCAPED CONVICT IS CAPTURED AT SUMAS

Bellingham, June 10.—Darby Thiel- man, member of the Maybray "big stores" gang of fake wrestlers and fight promoters, who escaped from the Orthopedic hospital in Seattle last Sunday while in custody of Deputy United States Marshal Fred M. Lathe, was arrested by Marshal Sine at Su- mas, just south of the Canadian bor- der yesterday afternoon.

The arrest of Thielman was brought about by Thomas Lapoint, of Sumas, who recognized Thielman as he was passing the Central hotel. Thielman was sitting on the porch reading a newspaper. Lapoint immediately no- tified the authorities, and Marshal Sine apprehended Thielman in front of the postoffice.

According to a telephone despatch from Sumas, Thielman had nothing to say when he was taken into cus- tody. Lapoint recognized the man from a photograph sent out by the federal officers.

GOLDWIN SMITH WEALTHY.

Late Author Had Estated Valued at Million Dollars.

Toronto, June 10.—Although it was known that the late Goldwin Smith was in comfortable circumstances, the amount of his wealth was not even guessed at. His wife was the owner of The Grange, the beautiful home in which he resided since locating in Toronto, and she was also in posses- sion of a comfortable income, but Dr. Smith was worth half a million dol- lars when he arrived in Canada from England and his simple style of living did not begin to dissipate the inter- est. At the time of his death it is stated on good authority that he was worth approximately one million dol- lars.

C.P.R. PLANS DOUBLE TRACK FROM PORTAGE TO BRANDON

Contract Is Let for Extension of Two- Line Road West of Winnipeg.

Winnipeg, June 19.—The C. P. R. company is preparing to continue the double tracking of its line between Portage la Prairie and Brandon. J. C. Hargrave & Co., who recently com- pleted the subgrade work on the sec- tion of the line from Winnipeg to Portage, have been instructed to con- tinue west, and will proceed at once.

This announcement was made yes- terday by William Whyte, second vice president. The completion of this piece of work will give the C. P. R. 522 miles of double track from Fort William west and it may be taken as one of the important steps in the railway problem of Western Canada.

A glance at the railway map of Manitoba will show that there are several important branch lines and connections at both Brandon and Portage, and the completion of this section of double tracking will more than treble the capacity of the main line, at the same time increasing the effectiveness of motive power and equipment generally.

The amount of grain handled over the double track east of Winnipeg last year, during the brief fall season, is a criterion of what may be accom- plished in the way of freight han- dling.

LEPROSY SPREADING.

Neglect of Quarantine Laws May Have Serious Results.

St. Louis, June 10.—Officers were elected at the sixty-first annual session of the American Medical association yesterday and the standing commit- tees announced by President William H. Welch were confirmed by the house of delegates. In the section of derma- tology, a paper by Doctors Isador Dyer and Ralph Hopkins, of New Orleans, contained the announcemnet that lep- rosy was spreading to nearly every state in the union and that no con- certed method of caring for lepers was practiced. Officials were accused of neglecting the quarantine laws.

The importance of the prevention of infant mortality was impressed on the delegation at the section on preven- tive medicine and public health. Doc- tors Gottfried Kohler and C. S. Claire Drake, of Chicago, reported that one third of all deaths of children in Chi- cago were among children under five years old and a large percentage of these were from preventable causes. Seven other sectional meetings were held.

Dr. C. W. Stiles, president of the association, told the delegates to the convention that John D. Rockefeller's gift of $1,000,000 for the eradication of the hookworm meant a new south.

Dr. Stiles said the cause of the dis- ease was unsanitary conditions.

LEMIEUX ANXIOUS TO USE ONLY BRITISH BOATS

Letter Marked "Via New York" Will Be Thing of the Past in Not Distant Future.

Montreal, June 10.—Hon. Rodolphe Lemieux, postmaster general, who was in the city today, stated in an inter- view that he was doing all he could to hasten the day when no letters would leave Montreal marked "Via New York." The minister stated that he had as yet made no arrangements with the Canadian Northern and the White Star Dominion companies, but he expected there would be an ar- rangement in the near future by which three mails will leave each week for Great Britain.

The contract with the Allan line, shared with the Canadian Pacific, will not expire until 1912.

While no definite arrangements had yet been made it would certainly be possible, Mr. Lemieux said, to have a regular tri-weekly mail service from this port very soon. Mails had already been sent by the White Star Domin- ion line, and no doubt all of the lines who put on fast boats would get mails to carry, as he would much rather pay money to Canadians for doing Canadian work than to strangers.

LOCUSTS AND REVOLUTION.

El Paso, Texas, June 10.—Yucatan, in addition to its revolution, is suffer- ing from a plague of locusts which threatens to destroy all the crops in a large region.

The insects have come in clouds that in some places literally obscure the sun, and panic reigns among the planters. Fruit trees and in fact every kind of vegetation are destroyed.

ARTIFICIAL RUBBER IS MADE IN GERMANY

Kiel Chemist Says Perfect Imitation Can Be Sold at One-third Cost of Genuine.

Washington, June 10.—Special Agent Henry Studniczka writes the following from Birmingham, Eng., con- cerning the production of artificial rubber and its effect on the rubber in- dustry and trade, should all that is claimed for it prove true:

"There is quite a stir among the directors of leading rubber importing and manufacturing firms here regard- ing the reported invention of artificial rubber by a German professor at Kiel, and they seem to be very optimistic, as the inventor enjoys an unquestion- ed reputation as an authority on all matters pertaining to rubber. The in- vention is based on the boiling to- gether, under certain conditions of is- oprene with acetic acid in a closed tube, the result being the creation of a gray composite possessing all the properties of pure rubber and capable of being vulcanized in the same man- ner as gutta percha. At present this artificial rubber has been produced only in small quantities, but it is the inventor's opinion that when his meth- od has been fully developed it will permit of the placing on the market of an article at one-third the cost of real rubber.

"Practical experiments in this branch of chemistry have advanced so rapidly that there can be no doubt that within a few years an artificial substance will be produced which will bring down the inflated price of rub- ber.

"The shortage of the world's rubber supply and the steadily growing con- sumption of caoutchouc, especially in the making of airships, accounts to a great extent for the boom in rubber, and should this inventor, who has patented his method, be able to create a commercial substance, the effect will be sensational.

"The other experts of Germany are jubilant over this invention. They are pointing out the fact that the realiza- tion of the plans of the Kiel professor would signify a greater demand for rubber articles, and therefore a great- er industrial activity in this commun- ity would be the result. At present, owing to the exorbitant prices of rub- ber. the industry is suffering tremend- ously."

RUSSIAN TOWN DESTROYED.

St. Petersburg, June 10.—Fire yes- terday destroyed a large part of the commercial and residential quarters of Borissov, a town of about 15,000 population, most of them Hebrews. Over one hundred and fifty buildings were destroyed, including three syn- agogues.

Many of the people are camping in the open fields but the extensive bar- racks have been thrown open for the homeless. The fire has been attribut- ed to an incendiary.

FREIGHT ENGINE JUMPS INTO LAKE SUPERIOR

Three Trainmen Lose Their Lives When Rock Derails Train—Track Torn Up.

Fort William, June 10.—Three train- men lost their lives when an east- bound freight train left the tracks early this morning near Port Cold- well, about 175 miles east of here.

The dead are:

Frank Wheatly, engineer.

J. McMillan, brakeman.

E. Clark, fireman.

All are of Schrieber, Ontario.

The engine, which struck a rock, rolled down an embankment into Lake Superior, forty feet down, and is still lying there with the corpses of Wheat- ly and Clark in seventy-five feet of water.

McMillan, who was found near the rails with a broken neck, is thought to have jumped.

Rails and telegraph poles were torn up for a considerable distance.

Only a few of the freight cars left the track. None of the men were married.

The train carried with it many feet of permanent way, thus interrupting direct communication. A wrecking train was hurried from Schrieber. The north track here runs along the fa- mous North Shore, within a few feet of Lake Superior, the rock sloping down abruptly into the water.

AIM BIG.

Incorporated Firm Seeks to Do Any- thing in Writing Line.

The Canadian Press Association, Limited, a firm which has just been incorporated in Vancouver, contains items in its articles of incorporation which are of interest to others be- sides newspaper men. The follow- ing are some of the powers sought by the new company under its char- ter:

(a) To establish, prepare, print, and publish daily, tri-weekly, weekly, semi- weekly, monthly, quarterly, or yearly newspapers, journals, magazines, books, or other publications, and par- ticularly to establish, print, and pub- lish at Vancouver, British Columbia, or elsewhere a book to be known as "Who's Who in Western Canada";

(b) To establish and carry on an association to promote helpful inter- course among active newspaper writ- ers and artists by the establishment of clubrooms and by issuing fraternal publications, and to hold loan and sale exhibitions of original drawings and paintings by the members or asso- ciate members of the association in the various cities of the Canadian provinces and in foreign countries.

TEXAS SNAKE SEASON OPENS WITH PROMISE

Owner of Famous Serpent Farm Near Brownsville Says Prices Will Rule Much Higher.

Brownsville, Tex., June 10.—The snake season has opened with prom- ising prospects for a good summer's business at the snake farm of F. B. Armstrong, situated on the outskirts of Brownsville. Armstrong has been handling rattlesnakes and other rep- tiles for twenty-eight years, and is well known among museum and cir- cus people and chemists all over the world. He is an ordinary type of business man and looks after his big pens of venomous snakes in much the same manner as a farmer tends to his hogs. The fatter the snake, the big- ger the price it will bring, and Arm- strong therefore devotes no little at- tention to providing plently of rats and mice for the voracious reptiles.

The high price of living has affected the snake market. Formerly rattle- snakes sold for twenty-five cents to fifty cents a pound. The price for the better class of snakes for circus and museum purposes now ranges from fifty cents to one dollar a pound, and there are some snakes that bring much higher prices than one dollar a pound.

Armstrong has many Mexicans con- stantly employed in catching rattle- snakes and other varieties of reptiles common to South Texas and Northern Mexico. These Mexicans were form- erly well satisfied if they received ten to fifteen cents per pound for the live snakes, but now they have to be paid twentyfive to fifty cents per pound. They claim that it costs them more to live, and that the snakes are be- coming scarcer.

Armstrong's farm consists of about ten acres of land, surrounded by a tight and high board fence to prevent the snakes from escaping should they happen to get out of their pens.

Trapp Block Phone 714

THE TIME

to buy real estate is now, during the lull before the storm, while prices are stationary long enough to see them plainly. For instance, for a few days we can offer: Lot 6, Block 22, Royal Avenue, at $5,000; half cash. Be wise in time. Some day this lot will be worth $20,000.

THE PLACE

to buy is a matter of opinion. We suggest the West end, Surrey, and Sapperton. We have a bargain in each. Agnes Street, 6-room cottage on full sized lot, $4,200; $1,500 cash. This will undoubtedly be business property.

Five acres in Block 5 of Section 36, Surrey; $800 per acre; third cash.

Columbia Street, Sapperton: Two new modern houses on four lots; $8,000 for the outfit, or separately; third cash.

AND

80 acres, Mount Leman, $5,200. The soil will grow anything the climate will stand for. Note the terms, $1,600 cash, 1, 2 and 3 years, 7 per cent.
As for

THE GIRL

she won't love you the less if you have a good piece of real estate going up like a sky-rocket.

BRITISH PUBLIC IDEALIZE CANADA

Financier Thinks Dominion Needs Buying Brokers—Empire Capital Coming.

Winnipeg, June 10.—The Hon. John Gordon, the son of one of Britain's greatest lawyers, and himself a public man of considerable eminence, reached Winnipeg last night from the west where he has been looking over things with a view to investing money.

Mr. Gordon is a member of the London Stock Exchange, and in addition to offering some interesting views on the Imperial affairs, had some interesting observations to make concerning Canada. He declared that the great midle and upper classes of Britain idealized Canada. They regarded it as the perfect country, the land of moral homes, a land of sturdy people who worked hard and enjoyed plenty. The same idealized view was taken regarding Canada's financial projects.

The reason that the heads of great industries were able to go to Britain and in the course of a week or so pick up a dozen millions was that this sentiment towards Canada prevailed. It was most important to the Dominion that nothing should be done to cause a different opinion to be held by the British investor.

Buyers Wanted.

Mr. Gordon said he had personally met with no experience during his stay in this country to justify the implied stricture, but he thought Canada suffered for the want of agents who are ready to take the buyers' point of view. He explained that everyone connected with the sale of real estate, for instance, is a seller.

Whereas in Britain it was always possible to employ an agent, who would take absolutely the side of the purchaser and who would act on his clients behalf as if it was his own affair. He thought that a large number of investors were likely to be bitten from the want of this class of commercial men in this country.

This was the only criticism Mr. Gordon had to make of the country which he has visited several times, and in whose future he has the most unbounded belief.

He said one effect of the uncertain state of affairs in Britain was that the men who had made money in all parts of the Empire—India, Ceylon, Straits Settlements—who used to take home their money to invest in Britain, were now looking towards Canada, which they regarded as financially safer than the United Kingdom.

A Great Lawyer.

Mr. Gordon is the son of Lord Drumearn, the first legal life peer ever created in England. The house of lords is the ultimate appeal for all legal matters in the British Isles, and in 1876 it was rendered possible to create peers to adjudicate cases.

In the case of ordinary peers it is necessary for a man to have sufficient fortune to be able to maintain his son befittingly to his position, and this rule would have kept many great lawyers with small incomes and large families from being members of the most important legal body in the country, so the act was passed making it possible to create life legal peers. Mr. Gordon's father was lord advocate for Scotland in one of Lord Beaconsfield's cabinets, attorney-general for the same country, and at the head of the criminal organization.

Roosevelt Good Subject.

Mr. Gordon was a member of parliament for ten years for Elgin and Nairnshire, but in 1906 retired form the county in which he lived for forty years and fought the English constituency of Brighton, where he was defeated in 1906.

He is in entire agreement with what President Roosevelt said about Egypt, and thinks that the sentimentality of the English democracy, which has been stimulated by Lord Morley in the past and Keir Hardie in the present is the greatest danger to British rule in the countries where the Empire is responsible for the order, welfare and peace of subject races. People did not realize the dark thoughts, the strange ideas, the totally different outlook on life of the dusky myriads of India and the savagery that swept up from the depths of Africa up the Nile. The ignorant imagined such countries as Egypt to be governed like a homogenous democracy like England. Wild talkers like Keir Hardie did not know the dangers they stirred up.

CHARGES OF REFUGEES MAY BE INVESTIGATED

Washington, June 10.—Stories of alleged persecution of political refugees from Mexico in the United States were related by Representative W. B. Wilson, Democrat, of Pennsylvania, before the rules committee of the house today, urging the adoption of his resolution providing for a congressional investigation.

Wilson's resolution recites that it has been charged freely that prominent Mexicans residing in the United States have been persecuted by United States officers at behest of Mexican officials. The resolution says there has been a continuous and systematic persecution of Mexican political refugees, who had opposed the administration of President Diaz.

It was charged that the Mexican government maintains a system of espionage on political refugees in the United States and that they are repeatedly arrested by American officers and thrown into jail on various pretexts.

Wilson submitted a list of names of persons who, he said, were willing to testify that federal agents in California and Arizona had been improperly used in Arizona by the Mexican government.

LOCAL IMPROVEMENT NOTICE.

The Municipal Council of the Corporation of the City of New Westminster having by resolution determined and specified that it is desirable to carry out the following works, that is to say:

To construct cement concrete sidewalks on both sides of Tenth street from Sixth avenue to Tenth avenue, except on the east side of said street between Sixth and Eighth avenues, also on both sides of London, Edinburgh, Dublin and Hamilton streets, Eighth and Seventh avenues between Tenth and Twelfth streets.

And that the said works shall be carried out in accordance with the provisions of the Local Improvement General Bylaw, 1909.

And the City Engineer and City Assessor having reported to the Council in accordance with the provisions of the said bylaw upon the said works, giving statements showing the amounts estimated to be chargeable against the various portions of real property to be benefited by the said works and other particulars and the said reports of the said City Engineer and City Assessor having been adopted by the council.

Notice is hereby given that the said reports are open for inspection at the Office of the City Assessor, City Hall, Columbia street, New Westminster, B.C., and that unless a petition against the proposed works above mentioned, signed by a majority of the owners of the land or real property to be assessed or charged in respect of such works representing at least one-half in value thereof is presented to the Council within fifteen days from the date of the first publication of this notice the Council will proceed with the proposed improvements under such terms and conditions as to the payment of the cost of such improvements as the Council may by by-law in that behalf regulate and determine and also to make the said assessment.

Dated this 9th day of June, A.D., 1910.

W. A. DUNCAN,
City Clerk.

A Kitchen shower was given on Tuesday evening for the benefit of Miss Mazie Robertson, one of the coming June brides, at the residence of Miss Minnie Johnston, Ninth street, when the following congratulated the popular young lady on her approaching marriage: Mrs. W. Morris, Miss Florence Walmsley, Miss Alice McLeod, Miss Mabel Wells, Miss Rena McLean, Miss Eunice Pride, Miss Margaret Livingston, Miss Julia Gifford, Miss Alma Cunningham, Miss Iola Fisher and Miss Florence McLeod.

DIVERS IN NEW JERSEY SEEKING JEWEL TRUNK

Hackensack, N.J., June 10.—Divers and amateur boatmen are hunting with grappling irons for a trunk containing jewels that Morris W. Maxwell, an assistant baggagemaster of the Pennsylvania railroad, says he threw from a train into the Hackensack river here.

The trunk belonged to J. R. Willing of Philadelphia. After looting it of part of its contents, Maxwell, fearing detection, pushed it off the baggage car. The searchers thus far have been unsuccessful.

Millionaire Gets City Job.

New York, June 10.—Frederick T. Parsons, retired coffee importer whose wealth is estimated at $5,000,000, yesterday accepted a position as deputy water commissioner of Queens with a salary of $3,000 a year. His action was prompted, it was said, by his interest in civic affairs and his desire to get the water department in the borough where he had lived for years out of politics.

GERMANY AGAIN.

In the midist of the turmoil and excitement connected with the constitutional struggle that existed in Great Britain just prior to the death of King Edward, the question of the German menace was for the nonce forgotten. But interest in this question has been revived by a powerful article from the pen of Mr. H. W. Wilson, a well known British publicist, in the last number of The National Review. The article, which bears the significant title of "The Real Crisis," strikes a very grave and certain note of warning, and coming so soon after Mr. Blatchford's startling revelations on the same subject, has naturally caused a good deal of talk and comment.

Mr. Wilson administers a strong reproof to the political contestants and says:

"The people which concentrates its whole attention upon internal quarrels in an hour of danger from without is taking tremendous risks. In normal times it may be a proper amusement for our parties to quarrel among themselves. But if the very life of the nation is threatened, then it is the plain duty of all patriotic men to close their ranks and prepare to meet the attack. Today, however, in this unhappy country our politicians and our public talk and think of nothing else but the crisis deliberately provoked by the Ministry on the question of the House of Lords. Yet grave though that issue is, the real crisis for the nation lies not there. It lies in the steady gathering of the German Dreadnoughts in the North Sea.

"The greatest of Greek historians declared that Athens had gone down before Sparta solely because her people fought among themselves. The same epitaph hereafter may be written of the United Kingdom. Nearer and ever nearer comes the danger from Germany. It is privately admitted by responsible statesmen. They will confess, when out of the limelight, that nothing can avert war, though on the platform and in the House of Commons they shower misleading assurances upon the public, and refuse to take any effective steps to meet it. If they can silence the Opposition by some verbal quibble, they imagine that all is well. Half-measures, feeble compromises, irresolute preparations, begun and abandoned for want of money, and then recommenced under pressure of panic—such are Britain's methods of arming for a conflict graver than any in her past.

While Germany is preparing to strike, Britain is getting ready to be struck."

This is certainly putting the danger in a very plain and unmistakable light, but the writer goes further and condemns the people themselves for their indifference in regard to the real position of affairs. He also points out that Great Britain is not maintaing her superority over the fleets of the Triple Allance, nor building up to the standard of two to one against the strongest continental power. Further, he ridicules the dock extension works that are now being carried out as being utterly useless and inadequate in the event of a naval engagement in the North Sea, and remarks upon the backwardness in regard to aeronautical matters.

Pointing out that the Navy and Army is the guarantee of the English people's bread and butter, Mr. Wilson observes:

"But the people do not see or understand. It may be that only calamity will burn the knowledge of the truth into their minds. It took Jena to awaken Prussia, and Sedan to stir France. Is the ignorance of the British people and their leaders doomed to be disclipined and punished in the same fearful way?"

We are glad to see that the Council has at last become awakened to the danger and nuisance of the custom of burning refuse in or upon the public streets in this city, and have decided that persons doing this shall in future be prosecuted. But it is somewhat hard on the citizens to expect them to cart all their inflamable rubbish down to Sixteenth street, when the Council, as the sanitary and administrative authority, is supposed to provide the necessary means and facilities for the prompt clearance of all garbage and rubbish.

OYEZ!

We have bona fide enquiries for Port Mann property, and also for a few lots on Sixth Avenue west. If you have anything to sell, get busy!

FARMER LECTURES TOMBS PRISONERS

Course in Agriculture Proves Decided Success, According to Jail Authorities.

New York, June 10.—A course of lectures on agriculture delivered in the Tombs prison may seem an odd combination, but it is being tried and is pronounced a decided success by the prison authorities. All prisoners in the institution heard the first lecture of the series yesterday and were much interested in it. The lecturer was George E. Manchester, a practical farmer of Winsted, Conn. He pointed the way for those who wish to turn from their old ways and go "back to the soil," after their release.

Not long ago, Rev. Charles P. Tinker, a Protestant Episcopal clergyman, a regular visitor at the Tombs, decided that he could interest the prisoners in a series of technical lectures. The plan was approved by the department of corrections and it will be made in other prisons and reform institutions throughout the country.

The lecturer in his introductory address told the men of the coming revival of farming and laid particular stress upon the fact that the demand for farm labor is so great now that so long as a man does his work honestly, the farmers do not ask about his past. A general discussion followed and one of the prisoners made a long speech on farming in the west.

PROVINCE WILL HELP.

Edmonton, June 10.—Satisfactory assurance that the province would come through with their grant of $175,000 towards the C. P. R. high level bridge in conjunction with the grant from Edmonton and Strathcona and the Dominion government for a traffic bridge were given this morning by Premier Sifton to F. W. Peters, assistant to the second vice president of the C. P. R., who reached the city from the east this morning. Afterwards Peters said preparations were being made to proceed at once with the big structure. Tenders will be called for the substructure at once, and the bridge completed in a year and a half, together with the big depot in Edmonton and other terminal buildings.

MARKET REPORT

The presence of a fair amount of strawberries at the market yesterday gave the place the appearance of having more for sale than it has had for a long time. There were not very many brought in, just enough to supply a good retail demand, but from now on the quantity will increase and next week's market ought to have a first class supply of the first and best of all the fruits.

The market was well attended by both buyers and sellers and good supplies of almost every seasonable product found ready sale at satisfactory prices.

Beef showed a slight tendency to decline in price, but pork, under the stress of a weak supply and a strong demand, came up a little, selling at 14 and 15 cents a pound.

The wholesale price of butter, which has not varied for the past four months, came down three cents a pound. Large quantities were offered for sale.

The price of potatoes again showed a tendency to break. In about a month now the new stock will be coming in and the farmers are anxious to get rid of their holdings, as last year's tubers will not be able to compete with the new potatoes. The price yesterday ranged around $12 a ton.

Parsnips, per sack	75c

The Casualty List.

If the Salman Bellies issued a health report before each game it would read something like this today: Tom Rennie, broken shoulder; George Rennie, strained ditto; Grumpy Sprlag, quinsy; Punk Wintemute, broken finger; Bill Turnbull, weak ankle; Tom Gifford, three teeth shy. "Things like that, you know, must be, to win a famous victory."

TEN YEARS' TEST OF ECZEMA CURE

During its ten years' test, oil of wintergreen as compounded in D. D. D. Prescription has thoroughly, absolutely proven its merits for skin diseases.

Though on sale only a short time in Canada, it is rapidly duplicating here its remarkable success in the United States. Cure after cure, and the testimony of the world's leading skin specialists, show plainly that the way to cure the skin is through the skin; not, however, by means of a salve reaching only the outer skin, but with a penetrating liquid that gets in to the inner skin, killing the germs and soothing the healthy tissue.

D. D. D. does just this. It cures—and it relieves instantly. If you have never tried it write the D. D. D. Laboratories, Department N.N., 23 Jordan street, Toronto, for a free trial bottle. We know you will be more than pleased with the result, Frank McKenzie, Druggist.

FRENCH OFFICERS MAKE LONG FLIGHT WITHOUT STOP

Paris, June 10.—Officers Marconnet and Feguent of the French army aviation corps flew today from Chalons-sur-Marne to the gates of Paris, a distance of 105.6 miles, in two hours and fifty minutes, without a stop.

This constitutes a distance record for an aeroplane carrying two persons. M. Marconnet took observations and photographs while M. Feguent piloted the machine.

NOTED WOMAN EXPLORER DIES IN NEW YORK CITY

New York, June 10.—Mme. Alice Le Plongeon, widow of August Le Plongeon, Comte De Couqueville, writer and explorer, and herself a writer of note, is dead at a hospital in this city, after a long illness.

She was fifty-eight years old.

Mme. Le Plongeon was widely known as a lecturer on Central and South American subjects and was the author of several books on travel in Spanish-American countries.

SPORTING NEWS

STAR HOME MAN NOT ABLE TO PLAY

Grumpy Spring is on Sick List and Latham or Gifford Will Substitute.

The Westminster team will in all probability be weakened today by the absence of Grumpy Spring, who showed up so well last Saturday. Grumpy has been in bed with an attack of quinsy and the doctor has refused to let him take a chance today. However, it is reported that Spring is anxious to play and he may turn out with a red sweater and a scoring eye. Pat Feeney will probably play inside home and Latham or Hughie Gifford will go on at third hime. However, there may be half a dozen changes made today. Con has got all the players placed and although the Vancouver papers are giving the new team their support there is not much doubt that it is a weaker team than Vancouver has had in the field this season.

Bob Dewar, of Victoria, has been appointed referee by Lionel Yorke, president of the association.

The Teams.

Vancouver		Westminster
Clarke	Goal	Gray

Adamson	Inside	Feeney

Referee—R. Dewar, Victoria.

JOHNSON, SCENTING WORK, GETS BUSY WITH BUBBLES

Big Smoke Now Has Nightwatchman Guarding His Slumbers—Little Affair Not Troubling Jack.

San Francisco, June 10.—With two days of hard work ahead of him Saturday and Sunday, Jack Johnson skinned the gymnasium in the afternoon and busied himself with his automobiles, both of which were in need of repairs. He was out on the road as usual in the morning. He took his twelve-mile course in good fashion completing the distance in about one hour and thirty five minutes. His best time over the course, said Trainer Tom Flanagan, was one hour and twenty-one minutes.

Johnson tested himself on that day but the fight is too far off for him to be continually sprinting. The last week he will be cutting down the distance and speeding up.

Former Manager George Little warns the promoters, Mrs. Muirhead, who conducts the training quarters, and others interested, again paying Johnson any money before the twenty-five per cent claim is adjusted, but this does not seem to bother Johnson.

"I am not worrying about this," he said today. "George Little knows that he has not a chance to beat me in that fight, and unless he slows down I will do some talking that he will be sorry about.'

On Saturday and Sunday afternoons Johnson announces he will box four rounds with Alf Kaufman, in addition to several rounds with his regular sparring partners.

The latest at the Johnson camp is a nightwatchman, one-time catcher for the Cincinnati baseball team, who patrols the beach from dark until sunrise. His path is directly under the rooms occupied by Johnson. It is admitted that Jack does not take any chances with strangers strolling around unknown to him.

SALMON BELLIES ARE A WICKED LOT OF MEN

Los Angeles Dispatch Tells of "Roughhouse Champions of America"—"They Eat 'em Alive."

A dispatch from Los Angeles on lacrosse mattrs makes interesting reading for New Westminster fans, who may safely be trusted to digest it properly, in time. The Salmon Bellies never knew before what a bad lot they are, but they cannot but believe this story:

Los Angeles, June 10.—The Montreal lacrosse team, champions of Canada, may play in Los Angeles in July, in a series of games with a team being organized by Manager Mines.

The Montreal team is arranging for a series of championship games with the New Westminster team of British Columbia, and after that proposes to tour the coast cities, including in the schedule games at San Francisco and Los Angeles.

Although Manager Mines has no hopes of winning the championship from the visitors, he says there are enough good players here to form a strong team, which is to be included in a league to be formed with Los Angeles, Santa Barbara, Ontario, Riverside and possibly others.

The game was played rather extensively three years ago, and an attempt was made to revive it last year which resulted in arousing enough interest to start things going nicely this season.

The New Westminster team has the reputation of being the roughhouse champions of America, and by unsportsmanlike tactics defeated Montreal last season. This year the easterners are coming west to regain lost laurels. If there are enough of them left to fill out a team after the New Westminster game, in all probability they will come south.

Tommy Burns, the heavyweight boxer, who is on his way to America from Australia to fight Sam Langford, was a professional lacrosse player before taking up pugilism, and he will be invited to play in exhibition games, although he will be barred from the strictly amateur events.

DAY OF THE ODD MAN NUMBERED IN ALBERNI

Price of Drinks to be Fixed and Immovable in Future —Two Months Grace.

One drink 15c; two drinks 25c; three drinks 40c; four drinks 50c; five drinks 50c; six drinks 75c; seven drinks 75c; eight drinks $1. All sizes of drinks, the same price.

Such is the bar-room schedule of charges that is in force today, and has been in force for many years, in Alberni and elsewhere in British Columbia. Parts of this peculiar schedule, which has successfully puzzled all experts in finance, are elastic. For instance, one drink may be sold for ten cents if the exact change is put up and the customer can nerve himself to meet the indignant stare of a silent and sensitive bartender. Then again, if business is good, and the crowd is drinking together, the bartender may let ten or twelve go for an even dollar.

This manner of business began in the care-free days of long ago when drinking men disdained to pick small change off a bar, and hotel keepers saw that it would be popular and profitable business to display the same indifference to wealth. The only reason it was not long since changed in accordance with the economic spirit of the times is that human nature is weaker in a bar-room than in other places of business.

These are features of the schedule that hurt, and parts that please, the average customer. If one enters a bar-room alone he fails to relish his drink when it costs him fifteen cents and he knows that he could have a friend join him at the small extra cost of ten cents. For that reason the second person, if it has to be an odd stranger or even the bar-tender, is generally invited in. Then there happens along a third party, who has to be treated, and the one-for-fifteen-cents sting is registered again with the smiling on the dispenser's side of the bar. The timely arrival of a fourth congenial soul provides an opportunity to even up again, while a fifth is more than welcome to the man who is doing the buying, five drinks costing the same amount as four. The wise man who is buying five drinks will have his change made quickly for in the event of a sixth dropping in before payment has been completed he will be stung for twenty-five cents for that one exvtra.

The habitual bar-room customer can be relied upon to work the fixe-for-fifty part of the schedule systematically. Any time he feels disposed to buy three drinks, which cost forty cents, he will gleefully avail himself of any opportunity to line up two more consumers at a cost of only five cents each.

The alleged justification of the change in favor of the vendor is that the ancient economic theory that the consumer pays the taxes must be upheld. The latest amendment to the Liquor License act provides for a raise of the license fee from $125 to $200 a year, and this has to be met without a reduction of the license holder's profits.

We have for exclusive sale, lot on Regina street, between First and Second streets, only $650. One-third cash; balance in 6 and 12 months at 7 per cent.

W. J. KERR

ADVENTUROUS LAD IS DROWNED IN RED RIVER

Boy Who Travelled Alone for Thousands of Miles Meets Death While Boating.

Winnipeg, June 10.—After travelling thousands of miles by himself in strange lands without money, Stanley Condor, the fifteen year old son of Mr. and Mrs. Harry Condor, 407 Chalmers street, Elmwood, was drowned at River pary yesterday afternoon.

With Harry Richardson, Vaudreuil avenue, and Jack Smith, 278 Johnson avenue, he went to the park yesterday afternoon and shortly after five o'clock the trio decided to go on the river, Stanley taking a boat himself, his two companions sharing another. Before they had gone far from the boat house Stanley was seen to rise from his seat apparently for the purpose of propelling the boat with one oar from the stern. He lost his balance, falling into the water and had disappeared before aid could reach him.

The life-saving apparatus was at once put into use and the city police notified, nine constables, the father and a number of other men dragging the river until late, but without success. It was soon found that the life-saving apparatus was inadequate for the purpose for which it is intended and the police sent to a hardware store for other appliances.

Since reaching three years of age, Stanley Condor has shown a roving disposition and from then until he was four and a half years of age, when he was brought to this country, he frequently strayed from his home, but was always found unharmed at the house of some friend. As he grew older his wanderings increased in length despite all efforts of his parents to keep him at home.

When he was twelve years of age he decided to again see the land of his birth and started off eastward. How he managed to make the journey without money is not known, but he eventually reached the Naval school at Portsmouth and remained there for three years. The first his parents heard of him was last fall when they received a photograph of him taken on board the "Chloe," and in that way they discovered his whereabouts and communicated with the naval authorities, and Stanley was sent home. However, during his naval life he was not taught to swim.

Macleod Man Suffocated.

Macleod, Albt., June 10.—James Graham, a workman employed laying cement sidewalks, was suffocated here yesterday by the cave-in of a bank at which he was digging. Another man, Robert Keen, who was working beside him, is in the hospital.

LAURIER'S VISIT TO WESTERN CANADA

Itinerary of Trip Through to Coast to be Made by Premier During July.

During July Sir Wilfrid Laurier will make a trip through Western Canada. He will be accompanied by Hon. Mr. Graham, minister of railways, E. M. Macdonald, M.P., and F. Pardee, the Liberal whip and possibly several others. The following is the itinerary of the trip as arranged at present, but several minor changes are possible:

Leave Ottawa, Thursday, July 7, via C. P. R., to Port Arthur. Port Arthur meeting, Saturday, July 9, leaving Port Arthur via C. N. R., Sunday, July 10.

Meeting in Winnipeg on Monday, July 11, thence by C. N. R. to St. Anne for meeting on Tuesday or Wednesday, thence back to Winnipeg, thence by C. N. R. to Morden, meeting there on July 15.

From Morden back via C. P. R. to Morris, thence by C. N. R. to Somerset, Saturday, July 16, and on by C. N. R. to Brandon; meeting in Brandon on Monday, July 18.

From Brandon, take C. P. R., via Chater, Rapid City, and Minnedosa to Yorkton, meeting there on Wednesday, July 20.

From Yorkton take C. P. R. line to Melville; meeting there on Friday, July 22; thence back to Yorkton by C. P. R., to Lanigan; meeting there on Monday, July 25.

From Lanigan take C. P. R. to Saskatoon and from Saskatoon take C. N. R. to Prince Albert; meeting there on Wednesday, July 27.

From Prince Albert take C. N. R. to Saskatoon for meeting there on Friday, July 29.

From Saskatoon take C. N. R. to Regina, take C. P. R. to Stoughton, thence to Weyburn via C. P. R. for meeting there on Wednesday, August 3.

From Weyburn take C. P. R. to Moose Jaw; meeting there on Friday, August 5.

Thence from Moose Jaw back to Regina via C. P. R. and by C. N. R. via Saskatoon and Warman to Battleford, two hours, and on to Lloydminster, stopping for a few hours.

Thence via Canadian Northern to Vermillion, Vegreville and Fort Saskatchewan, stopping at each place for an hour or two.

Thence to Edmonton for a meeting there on August 8.

On Tuesday, August 9, take C. P. R. to Wetaskiwin, stopping there for an hour, thence to Red Deer; meeting at Red Deer on Wednesday, August 10.

From Red Deer take C. P. R. to Calgary, meeting there on Friday, August 12.

Leaving Calgary on Saturday, August 13, via C. P. R. to go to Banff for Sunday, August 14.

On Monday, via C. P. R. to Golden, stopping there for an hour, thence on to Vancouver for meeting, Tuesday, August 16.

Then meeting in Victoria on Thursday, August 18.

From Victoria to Prince Rupert, and back to Victoria by August 24.

Meeting in Kamloops on the night of August 26.

From Kamloops to Nelson for meeting on August 28.

From Nelson back to Crows' Nest Pass, back to Lethbridge for meeting, August 30.

From Lethbridge back to Medicine Hat, via C. P. R., for meeting on September 2; thence via C. P. R., to Ottawa.

READS THAT HIS WIFE IS SOUGHT AS WIDOW

San Francisco, June 10.—Imagine the surprise of William Miller Graham, one of the new oil millionaires of California, when he read in one of the daily papers last Sunday the following cablegram from London:

"Lord Robert Osborn Innes-Ker is said to be desperately smitten with Mrs. Miller Graham, a fascinating widow from San Francisco, who makes her home here. She is reported to be worth a million or more. Lord Robert is a younger brother of the Duke of Roxburghe who married May Goelet, of New York. Mrs. Miller Graham rents Lord Nunburnholme's house in Grosvenor Square and entertains sumptuously. She has a son and daughter, both small," and so on.

The Mrs. Graham alluded to is Graham's wife, the well-known society woman and amateur actress of this city and Santa Barbara. She went to London several months ago and rented the house in question with the intention of doing much entertaining during the London season. The death of King Edward has spoiled her ambitious social plans, the same as it has those of a good many other people. Graham humors the social ambitions of his wife, but personally does not care for society. He is hard at work here attending to his business affairs and can be seen daily at the Palace hotel.

CHICAGO LAYMEN WILL MAKE RECORD CENSUS

Chicago, June 10.—The census bureau of the States is to be given a lesson in census taking. The Chicago Laymen's Evangelical Council has completed arrangements to have every residence in the city and county visited within the short space of two hours.

Not only are the residences to receive a visit from two Sunday school workers, but these two visitors are to find out all about the family's religion, history and present church relationship. The supervision of this visitation department of the International Sunday School association is the superintendent of this department.

Better Clothes

If the clothing we offer you is better than you're used to,—you ought to know it.

Shortage of Farm Hands.

Winnipeg, June 10.—That the supply of farm hands is totally inadequate to meet the demand, is the firm conviction of J. Bruce Walker, the chief immigration agent. Mr. Walker states that he could place 5,000 farm hands tomorrow, and he fears when harvesting time arrives there will be a scarcity of men which may cause grief to some farmers.

CORPORATION OF BURNABY.

LAND REGISTRY ACT.

Take notice that an application has been made to register Duncan Bell Hall as the owner in fee simple, under a Tax Sale Deed from E. A. Wilmot, Inspector of dykes, to Duncan Bell Hall, bearing date the 13th day of June, A.D., 1907, of all and singular that certain parcel or tract of land and premises situate, lying and being in the District of New Westminster, in the Province of British Columbia, more particularly known and described as part 3.60 acres of the southeast quarter of Section 18, Township 3, Range 29, west of 6th Meridian.

You and those claiming through or under you and all persons claiming any interest in the said land by virtue of any unregistered instrument, and all persons claiming any interest in the said land by descent, whose title is not registered under the provisions of the "Land Registry Act," are required to contest the claim of the tax purchaser within forty five days from the date of the first publication of this notice upon you and in default of a caveat or certificate of lis pendens being filed within such period, or in default of redemption before registration, you and each of you will be forever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register Duncan Bell Hall as owner thereof in fee. And I hereby order that publication of this notice for thirty days in a daily newspaper published in New Westminster will be good and sufficient service thereof.

Dated at the Land Registry Office, New Westminster, Province of British Columbia, this 30th day of April, A.D., 1910.

C. S. KEITH,
District Registrar.

PHYSICIAN DEFENDS AMERICAN MOTHER

Dr. Charles G. Kerley Replies to Criticism of High-strung Woman of States.

St. Louis, June 10.—"I deny that the high-strung, fine-grained American mother—the 'modern neurasthenic women,' as half-baked literary critics have dubbed her—is other than the finest specimen of mother in the world. I deny that we doctors or anyone else have the right to demand that simply because she happens to have a baby such a splendid creature should be treated as an animal. She should be treated with common sense and common humanity. The educated young American mother is not neglecting her nursing functions or any other duty. She is, in the popular vernacular, 'on her job all right.'"

This statement was uttered with the emphasis of clenched fists by Dr. Charles G. Kerley, of New York, before the American Medical Association yesterday in the course of a discussion tending to show that the modern woman is neglecting her nursing functions for the exigencies of her social and civic life, and that the great number of bottle-fed babies is the reason for the present great infant morality.

His remarks came after a startling statement was made by Dr. A. C. Cotton, of Cihcago, to the effect that the crude hygenic laws that obtained among savages for the protection of the primeval mother and her newborn babe was more humane and scientific than modern social practices.

He said that the price of civilization with regard to certain conditions of motherhood is great. Among these conditions he named bottle rearing and the degeneration of the nursing function of women.

This, he said, relegated the child to that class where the infant mortality is terrible, experience showing that out of 100 infant deaths, eighty-five were bottle fed babies.

"This is criminal," he declared.

SOCIALIST PARTY GETS A COLD TURN-DOWN

Phoenix, June 10.—What was probably the most hotly contested election in the history of Boundary district labor organizations, took place among members of Phoenix and Greenwood Miners' unions on Saturday, two complete factions opposing each other in both unions. The result was a decided victory for the anti-Socialists.

In Greenwood, Secretary Heatherton and all the other officers that had been for years the representatives of the Socialist party element, were ousted completely, Hathrton only getting a handful of votes.

In Phoenix, where the Socialist party have also held most of the offices in the local union for some years, only one of the old guard retains his seat, President Harry Reed being returned by a majority of three votes.

The following are the newly elected officers of Phoenix Miners' union: President, Harry Reed; vice-president, Patrick Clune; financial secretary, A. A. White; recording secretary, W. X. McDonald; assistant recording secretary, Angus McKinnon; treasurer D. W. McKenzie; conductor, Jack Cosgrove; warden, Leonard Metcalfe; trustees, D. W. McKenzie, Harry Sewell, Angus McKinnon, Walter Ross and Dan Paterson; delegate to convention at Denver, W. J. Loutitt.

SPOKANE ROCK CRUSHER OPERATED BY CONVICTS

Spokane, June 10.—One hundred and fifty convicts from the penitentiary at Walla Walla have been transferred to the state rock crushing plant at Marshall, nine miles southest of this city, to break rock for county and state roads. The convicts are garbed in suits of blue cloth, their striped uniforms having been left in prison. They are camped near the works and are under strong guard.

Engineers report that the plant will be able to deliver crushed rock to the contractors at the cost of its manufacture, which assures a big saving to the highway commission. The Marshall crusher is equipped to handle eighty tons of stone daily. The first output of the crusher will be used to improve seventeen miles of highway in Spokane county, known as the West road.

THINKS AUTOMOBILES DON'T CONTROL EARTH

New York, June 10.—Mayor Gaynor informed a delegation of automobile owners who appeared yesterday at the city hall to oppose a bill establishing a driving speedway in Ocean Parkway, Brooklyn, that they did not own the earth and must make some concessions to horse owners. Representatives of the Long Island Automobile association opposed the measure, which recently passed the legislature. It provides that the parkway be designated as a speedway between Kings Highway and Twenty-second avenue.

"You automobile people ought to be generous," said the mayor. "You cannot have everything, although you seem to think automobiles own the earth. All this bill does is to set aside one and one-half miles of the boulevard for a speedway. You have been treated pretty well yourseles."

The speakers protested that they would be forced "into the neck of the bottle."

"Oh, no, I have been there many times and I never saw the bottle. I shall sign the bill. It is a slight concession to make to horse owners. Some day we may have a speedway and then we will not have to use the boulevard for that purpose."

ROBIN HOOD FLOUR IS DIFFERENT

IT HAS ROUSED THE CURIOSITY OF THE WHOLE WEST

"Do you really think" one housewife will say to another "that this new flour *can* be better than the flour we are using?"

Madam, there is no doubt about it.

But there is just one way you can be convinced. You must use it yourself.

Our claims will not satisfy you, but we back up our claims in such a way that you will lose nothing by trying Robin Hood.

Your grocer will tell you about our guarantee which gives you back your money if you are not satisfied.

Something New in Floor Wax

The easiest way to finish a floor is to saturate a soft cloth with Columbus Liquid Wax and apply lightly to the floor, let it dry for about fifteen minutes, and bring to a polish by light rubbing with a soft cloth.

No brush to push—no work—no backache. Resists heel-marks, scratching, and water will not turn it white. Goes farther and lasts longer than any paste wax. Try it! Be sure to ask for the genuine

A. Barnet, of Renfrew, Ontario, one of the proprietors of the MacDonald-Barnet mills, is in the city.

Three chances left. Terms one-fourth cash, balance 6, 12 and 18 months. See my advertisement of this issue. P. Peebles. **

See the new Camp and Veranda Furniture at Fales, Agnes street. **

A bunch of seventeen keys was found on Front street recently and is at the police station awaiting an owner.

A lot on First street is surely a desirable thing to have. See S. Fader. *

Remember, Sinclair is giving 20 per cent discount on all Tan Footwear. **

Mr. and Mrs. F. J. Hart and family left yesterday for their country residence, where they will spend the summer months.

For spring plants or cut flowers, phone Davies' Greenhouse, R208. **

For Bamboo Shades see Fales. **

The run of spring salmon has not started yet and the local fish dealers are finding it difficult to supply the demand for fish of any kind.

For a pleasant cool drink, try the Ice Cream Sodas at The Royal Cafe. **

Hale Bros. & Kennedy, Ltd., having sold out to Robert Kennedy, Hale Bros. & Co., Ltd. will continue business on their own account. Office located at 823 Twelfth street until further notice. **

The Altar society of St. Patrick's pro-cathedral will hold an ice cream and strawberry social at the residence of Mrs. Shadwell, 412 Sixth street, on Friday. In the evening progressive euchre parties will be organized.

Awnings—All kinds at Fales, Agnes street. **

We have a number of fine residences for sale on easy terms. Come in and see me. S. Fader. **

Inspector Pengally, of the S. P. C. A., has laid an information against F. Cameron for cruelty to his horse. The animal had a sore neck caused by a defective collar. The case will be heard in the police court this morning.

Twenty per cent means a saving of $1 on a $5 shoe. You get this at Sinclair's, the Shoe Man.

Phone L-528 for all kinds of teaming. J. H. Huggard. **

In St. Paul's Reformed Episcopal church on Sunday evening the choir will render an anthem, "Seek Ye the Lord," the solo part of which will be taken by Miss Watson. A solo will also be rendered by Mrs. G. Godfrey, "I Am a Pilgrim," by Marston.

The Bohemian Cafe will in future be open all night. Special arrangements for private parties. **

Until further notice the Bank of Montreal, New Westminster, will be open for business Saturday evenings from 7 to 9 o'clock. **

A meeting of the presbytery of Westminster will be held on Tuesday, June 21, for the purpose of considering the resignation of Rev. C. McDermot, of Mission, who is shortly leaving for the east. The question of appointing a successor will also come up for discussion.

$5 shoes for $4. $4 shoes for $3.20 and $3 shoes for $2.40. That is what Sinclair offers you this month. **

In the police court yesterday James Hughes was sentenced to thirty days for vagrancy; J. P. O'Reilly got a like term for being drunk, and another drunk was fined $2.50 and costs. A. Coopman, charged with failing to take out a restaurant license, was ordered to pay the license and the costs of the court.

Considerable attention is at present being paid to First street property. S. Fader has a good proposition on the market. **

That the city of Vancouver covers deposits of coal, seems to be the opinion of Alexander Blakley, an engineer of Golden, B. C., and Reuben Gable, of the same place. In the mining recorder's office yesterday these men applied for permission to prospect for coal and petroleum in the heart of the city of Vancouver. The locality staked out by Blakley commences on the west side of Birch street, about one hundred feet north of its intersection with Sixth avenue, from thence south eighty chains, east eighty chains, north eighty chains and west eighty chains to the point of commencement. The other man has applied for a block of the same size adjacent to it. The application will be heard in sixty days.

Spring is here—how about those plants for the garden? Tidy, the Florist, can suit you to a T in anything in that line. **

For Geraniums, Dahlias and all kinds of Spring Bedding Plants phone Davis' Greenhouse, R 208. **

All Ready for Ball Game.

The Balmorals and the Maple Leafs, who are to clash in a baseball game at Queens park this afternoon, are confident of victory, individually and collectively, each team having about an equal amount of "hunch" that its percentage has as good as already received the hoist in the percentage column. The Bals will be out with a strong nine, and in addition will have a couple of reliables on the bench ready to assume active duty at a moment's notice. As usual, the Leafs are keeping their prospective lineup to themselves.

TROPHIES HUNG UP.

The executive of the Westminster Gun club has decided to hold evening shoots, commencing at six o'clock ,on the following dates: June 22, July 6, July 20, August 10, August 24, September 7, September 21. A number of the younger members of the club are showing good form, and it is expected that before the end of the season the older men will have to look to their laurels. The new trap has been placed in position and tested by President Alex. Turnbull, who has certified that it is in proper working order. Singles of doubles can be thrown from this trap.

Newest Styles in American One-Piece Dresses

$5.00 to $10.00

Without doubt these are the nicest wash dresses we have received this season and what is worthy of note is the fact that we can offer them at lower prices than heretofore asked. They were personally selected by Mr. Collister from a large Chicago suit house. They were sent by freight instead of express else every dress would have been sold ere this. They will appeal to every woman for many reasons. Shown in white, mull, batiste, percale, bengaline, etc., and colored percale duck, etc. All sizes, 34 to 40. Each ....$5.00 to $10.00

Odd Linen Pieces

$1.00 Each

A special sale of better linen pieces affording a splendid opportunity to housekeepers in search of dainty linens at little cost.

We carry so many lines that we find at times a large number of odd pieces on our hands. It is these odd pieces that are on sale. Tray clothes, centre pieces, table covers, bureau covers, etc., in plain hemstitched linen, Battenberg edge and embroidered linen. Regular values $1.25 to $1.75. On sale, each $1.00

Thirty Dozen FINE HANDKERCHIEFS

15c, 2 for 25c

Regular 25 to 35c values. A handkerchief opportunity not often available. You will say these are remarkable values. Secure a supply while they last. On sale, 15c each; 2 for.....25c
