LOUIS BOTHA LOSES SEAT IN ELECTION

Premier Defeated By Sir J. Fitzpatrick---Nationalists In the Majority.

Johannesburg, Sept. 15.—The position of the political parties at midnight is: Nationals, 33; Unionists, 5; Independents, 6; Labor, 1.

Sir James Percy Fitzpatrick defeated the Hon. Louis Botha, premier; Sir George H. Farrer defeated the Hon. H. Hall, minister of finance.

Cape Town has gone solidly Unionist.

L. S. Jameson (Unionist), of raid fame, defeated his Nationalist opponent by 1414 to 602.

Premier Botha, addressing a large meeting at Petoria, said: "I shall do my utmost to stamp out racialism."

TAFT FOR RECIPROCITY.

Negotiations Will Be Started at First Cabinet Meeting.

Boston, Sept. 15.—Convinced that there is a mutual wish for reciprocity, President Taft, at the coming session of the United States cabinet in October, will begin active negotiations. The first move will be the opening of negotiations by the state department. President Taft derived encouragement from Sir Wilfrid Laurier's recent speeches on reciprocity.

It was learned in Beverley today that the British ambassador, Mr. Bryce, has consented that the negotiations be carried on directly between Canada and the United States.

It is the hope of President Taft that before the end of October the representatives of both countries will come to an agreement.

OLDEST COLLEGE "GRAD."

Allumnus of Williams College Celebrates 100th Birthday.

Newark, N. J., Sept. 15.—William Rankin, of Summit, N. J., the oldest living college graduate in the United States, is today celebrating the 100th anniversary of his birth. His most highly valued birthday present is a letter of felicitation and congratulation from the president and faculty of Williams college, his alma mater. Mr. Rankin was graduated from Williams seventy-nine years ago. He was born in Elizabeth on September 15, 1810, and still is in excellent health. For thirty-seven years prior to 1888 Mr. Rankin was president of the Presbyterian board of foreign missions.

Cardinal Leaves for Ottawa.

Montreal, Sept. 10.—Cardinal Vannutelli, papal legate to the Eucharistic congress, took his departure from here today for Ottawa. After participating in mass at St. James' cathedral he was attended to the Windsor street station by a large gathering of clergy and citizens. The cardinal and his suite first proceeded to Valleyfield to spend a few hours as the guests of Bishop Emard, continuing later to Ottawa.

FRENCH AVIATORS OBJECT TO CONDITIONS

Alfred Le Blanc and Hubert Latham, two famous French aviators, announce that they will not take part in the race for the International Aviation Cup, to be held in the United States in October.

"Under present conditions," said Mons. Le Blanc at Havre, "there is a strong possibility that neither I nor Hubert Latham nor Labouchere nor other members of the French team will cross the Atlantic.

"Why? Because of the hindrances and the unsportsmanlike conditions imposed upon us by the Aero Club of America. As a result, I suppose, of action by the Wrights, the management wants us to sign an engagement that we will only take part in the contest for the International Cup. According to the Aero club's conditions we are debarred from competing for or accepting any other prizes. Even admitting that I or another French competitor win a money prize that may be offered with the cup, we shall not have the right to accept it.

"We will never sign the engagement submitted to us, so that unless it is withdrawn France will not be represented in the International contests."

Lawrence L. Gillespie is chairman of the Subscribers' committee of the International Aviation meet which is planned for some time in October. It is not definitely settled where the race will take place, but Mr. Gillespie says that the event is opened to all alike. The latter is an enthusiast of the absolute success of the whole affair.

In addition to the $50,000 in prizes already offered two additional prizes of $10,000 will probably be announced shortly. J. C. McCoy, who is in charge of this matter, is in hopes that these prizes will come from some source within the next few days. One of these prizes is to be offered to the first aviator who shall reach an altitude of 10,000 feet during the Belmont park meet, the other to be offered for the longest cross country flight.

APPEARANCE OF STREET SURPRISES EASTERN MEN

Visitors from Toronto Astonished at Moderate Cost of Illumination—Praise Thoroughfare.

A party of eastern financiers visited the city yesterday as guests of Arthur Malins, coming over from Vancouver in B. F. Roger's motor car, he accompanying the visitors, who were E. B. Osler and W. D. Matthews, of Toronto, directors of the C. P. R., and R. Marpole, assistant general executive of the same railway.

Only a short time was spent in Westminster, but even that little was enough to make the Toronto men realize that Yonge street is not the only thoroughfare on this continent. After gazing up and down Columbia street, and admiring the Hassam pavement and the pink sidewalks, the visitors turned their attention to the lighting system. When informed that the cost of lighting up Columbia street was only fifty dollars per month they expressed their surprise at the moderate cost. Mr. Osler said Columbia street was the finest thoroughfare he had ever seen.

After spending some time at the Westminster club the party motored to Fraser Mills, where a call was made on A. D. McRae, managing director of the company. The easterners later visited Port Mann.

AUDIT IS DISCUSSED BY BOARD OF TRADE MEMBERS

Resolution Favoring Continuing in Office of Moses B. Cotsworth Finds no Seconder.

"Ninety per cent. of the citizens of New Westminster are in favor of the continuation of the audit by Moses B. Cotsworth; two or three men in the city council do not run this city, and it is time they knew it."

These were the startling statements made by Alfred Hardman at the meeting of the board of trade last night. The meeting was just about to break up when Mr. Hardman stated that he thought that it came within the province of the board of trade to take cognizance of the actions of the city council in regard to the audit.

He moved that the board go on record as favoring the continuation of the audit, and it was when some objections were raised to the introduction of the subject that he made the remarks quoted above.

He got no seconder to the motion, although several of the board members were of the opinion that the matter should be left in the hands of the municipal committee to inquire into.

Dr. Holmes, as chairman of the municipal committee, was not anxious to undertake the job without definite instructions in regard to the course he was to pursue. The board did not seem to be inclined to provide the instructions.

George Kennedy remarked that it was hardly for the municipal committee or the board of trade to handle and suggested that it would be better left in the hands of a meeting of citizens, if such a meeting was thought to be necessary.

George Small was of the same opinion. He stated that the board was not sure that the government would grant the request of the council for the cancellation of the appointment of the auditor and in the mean time it was too delicate a question for the board to tackle.

President Lusby ruled the discussion out of order as he did not think that the question came under the scope of the board of trade and the matter dropped there. Mr. Hardman got no seconder for his motion.

CANAL PROJECT.

Movement Started to Have Dominion Do Georgian Bay Work.

Ottawa, Sept. 15.—It is stated that the Georgian bay canal project will likely be a prominent feature of discussion at the forthcoming session of parliament. Although a private company has a charter to do this work, influences are being brought to bear to have the government take up the work as a state undertaking. The main argument advanced is that the revenue derived from the development of the water power would be sufficient to pay interest on the cost of the undertaking. It is known that the movement for a definite decision in the matter has some very influential support.

No Oriental Labor.

Winnipeg, Sept. 15—William Mackenzie, president of the Canadian Northern railway, in an interview here said that his company had a plentiful supply of labor for the new lines under construction in British Columbia, and had no idea of attempting to secure Oriental labor.

MILLINERY FASHIONS ATTRACTIVE THIS FALL

Latest Creations of Fashionable Headwear Displayed In Up-to-Date Parlors.

The fall millinery season is now in full swing and in New Westminster the parlors of the different milliners are crowded all day by anxious seekers after the latest Paris sensation. The windows of the different stores are given over to millinery displays. Most of the displays in the city are both extensive and attractive.

Mrs. Harriett G. Moore.

There are signs of fall in the beautiful millinery parlors of Mrs. Harriett G. Moore ,on Columbia street. The fall millinery season has arrived and all the latest creations of Paris and New York may be seen tastefully displayed there.

The feature about the hats to be worn this fall is their great variety. There is no preponderance of large hats or of small hats and no particular color is so prominent that it impresses the visitor to the store as being common.

However, the new shades in bronze and brass seem to catch the fashionable fancy this year and there is no doubt that there will be many hats of this attractive color worn.

The revival of the beaver is another striking feature of this year's display. At Mrs. Moore's rooms there is a great variety of these hats; some large, some small and in all shades and colors.

There is a large white beaver with pink and white ribbon trimmings which is very artistic.

There are some striking hats in the turban style. On Mrs. Moore's tables there is a very large black velvet turban with a tall white cossack shower plume. The hat is exceedingly simple and yet the great white feathery plume surmounting the soft dark velvet makes it one of the prettiest creations in the room.

There is a smaller turban of black velvet with a dull silver crown which is also very pleasing. Something new is a tea cosy turban of black lace and velvet trimmed with pink ribbon.

In the window is one of the most attractive hats in the display. It is a wide black crepe silk hat with a large bird of paradise plume. The effect of the clinging yellow feathers on the black background makes the effect very charming.

One of the most attractive outdoor hats is in a poke bonnet style made of black and white lace with black and white pom poms.

There is a beautiful creation of black moire silk and velvet with gold lace and black pom poms. It is a small drooping hat and is one of a style which will be much worn this season.

Paisley facings seem to be popular in large hats. There is an immense black satin creation with willow plumes and paisley facing which is very striking.

A hat with a Russian pony brim with a short crepe silk crown is a charming novelty. A Russian pony motor hat also attracts attention.

Hats in the new shades of brass and bronze, with chanticler trimmings, are much in demand and are extremely attractive. One in mustard and black with bronze wings has a bewildering color effect and is one of the most charming creations in the parlors.

Mrs. Moore states there is no one particular style in very great favor at present, but the popular tastes seem to be extreme styles. The butter bowl hat, of which Mrs. Moore has some fine examples, is somewhat extreme and yet it looks well on persons of a certain type. The hats that come well down over the eyes are greatly in demand.

W. S. Collister & Co.

The millinery display of W. S. Collister & Co. this fall is well up to the standard set by that firm in recent years. Under the able direction of the head milliner, Miss Bennet, the store has been supplied with a magnificient display of all the latest shapes and shades in fall millinery. Although the parlors are not entirely finished inside since the alterations have been made, the hats themselves are so attractive that there is no attention paid to the unpainted wood work and other signs of the unfinished work of the carpenter and the painter.

There has been much attention paid to different styles of hats varying with the different hours of the day. The hats for wear while shopping in the morning are invariably small and compact, but some of those for evening wear are marvellous creations both as to size, material and color.

For rightaway wear the Dresden shape and trimming, of which there are some excellent examples in W. S. Collister's store, are attractive and will be worn to a considerable extent this fall.

Gold and metallic laces and cords are attractive features of many of this season's hats. In black velvet, which has regained all its old popularity, some very pretty effects are obtained with the use of attractive lace of heavy and dull tones.

There is a large drooping hat on the tables which is very attractive. It is of black silk with a gold crown and trimmed with a black ostrich plume.

One of the neatest and most artistic hats in the display is a black velvet picture hat, the crown ringed with white owl's heads with white ospreys at one side.

Fur and beaver will be worn to a remarkable degree this year. Hats of this material come in all shapes and shades and seem to have great attraction for the ladies. They are generally made up in soft warm tones and although they have the appearance of being heavy, they are in reality quite comfortable and serviceable.

Turbans there are in profusion. The shape is not so well defined as it was last year, but the type is the same as of old. One smart new turban with a high plain side and bowl shaped crown in green, gold and brown attracts much attention.

One of the large outdoor hats which attracts much favorable comment, is in old rose. It is a large drooping shape with facing of Persian silk and crown circled with ostrich plumes also in old rose.

Black is a very popular color, especially in the larger hats, and blue is also worn to some extent. In the display there is a large dress picture hat in Copenhagen blue with a gold bandeau and the crown covered with blue marabout.

One of the novelties of the season is the all feather hat for street wear. These hats are necessarily small as they are made entirely of feathers, facings, bands and trimmings. In most of them pheasant feathers are used, but in some peacock breast feathers are in evidence.

Connor and McQuarrie.

The millinery parlors of the Misses Connor and McQuarrie this year present all that is latest in the world of millinery. Every demand of fashion seems to have been anticipated and met by this firm and their parlors have been crowded ever since the opening.

The most popular colors there are old gold and navy blue, and in almost every style of hat these colors predominate. There are many high turbans asked for and indeed, the turban and its many modifications seem

(Continued on Page Four.)

FIRES IN SURREY NOT SO BAD NOW

Rangers Report Improvement ---Men Who Started Fires To Be Prosecuted.

Timber Agent James Leamy returned yesterday from Surrey, where he has been inspecting the fires. He states that as a whole they are not as bad as they have been for the past several days, but they are still dangerous and will be until there is a heavy rain.

"Its a shame to see the people pulling the stuff out of their houses and piling it in the road," he said. "There is hardly a farm house which is not in some danger and in many places the peril is so imminent that the people have piled all their household goods in the middle of the road."

When asked as to how the fires started, Mr. Leamy stated that most of them had been started by men with permits to clear land.

The one on the Clark estate, a place logged by Sullivan and Hyland, seems to have been started by donkey engines. The one at Strawberry Hill was probably started by men clearing the land for the Square Deal Realty company, of Vancouver.

Mr. Leamy stated that there had been gross carelessness on the part of some people who set the fires, and if there is any proof against them they will be brought to justice.

Chief Fire Ranger Neil W. Johnson, who is fighting the fires in Surrey, telephoned a report yesterday to the government office. He was very hopeful, stating that the many fires reported had been temporarily checked and unless a strong wind arose they would soon be under control.

There are still no particulars of the fires reported from up the river and on the main line of the C. P. R.

Captain Mayers, who returned yesterday from White Rock, estimates the damage in that district at from $17,000 to $20,000, this including about 800 cords of shingle bolts, valued at $3000.

Postmaster Philps, whose store and house were completely destroyed, will rebuild immediately. Mr. Goard will also rebuild.

After the fire had burned down his premises, Mr. Philps was surprised to discover that about a hundred chickens of prize breed, the foundation stock of a poultry farm which he intends running at White Rock, had escaped cremation by crouching in a ditch alongside the road.

J. Roper's house, which stands on the hill surrounded by cleared land, had a narrow escape from fire on Monday. The women and children were all ready to leave during the afternoon, but at the last moment they refused to go, remaining to fight the flames. By their assistance the house was saved. As a result of the hard work he did on that occasion, Mr. Roper has since been laid up, and is still unable to leave his bed.

EIGHT YEARS WORK AHEAD FOR SALMON RIVER MILL

Company Owns Extensive Timber Limits—New Style Water Wheel for Fire Protection.

The Salmon River Lumber company, of which W. A. Simpson is president, and George W. Johnston manager, has just commenced cutting lumber at its new mill on the Salmon river, close to the Balfour road. The mill, which cost about $20,000 to build, has a capacity of 30,000 feet a day, and will ship its product over a spur line of the B. C. E. R. which has been built right to the plant.

The company owns extensive timber limits, enough to keep the mill going at full capacity for eight years.

A novelty in connection with the fire protection system for the mill has been introduced. This is a water wheel at the foot of a big dam, the wheel being used to operate a pump for the water pressure. Instead of being placed upright, as is usual, the wheel is set flat, being driven by the rush of water through an outlet pipe. Equally good results are obtained as with the ordinary type of water wheel driven by the downward rush of water.

B.C.E.R. SURVEYING FOR LINE TO DELTA DISTRICT

Engineers Now on the Field Doing Preliminary Work, Although Nothing Is Yet Decided.

Vancouver, Sept. 15.—..We have a party of engineers at present in the field at Ladner looking into the situation there preparatory to a consideration of the proposition to construct a tram line from Vancouver to the Delta district," announced Assistant General Manager Glover, of the British Columbia Electric Railway company today.

Mr. Glover went on to say that although the company had not as yet come to a definite decision to connect up the rich producing district around Ladner with this city, full attention would be given the application of the Vancouver city council and the Delta board of trade for a line.

It will be remembered that some time ago the mayor, one or two aldermen and a number of prominent citizens were the guests of the Delta board of trade, and had an opportunity of looking over the district. The need of close traffic connection with the city of Vancouver was pressed upon them and so clearly did they see the advantages of a line linking up the two places that upon their return the city council passed a resolution asking the British Columbia Electric Railway company to extend the cemetery car line on out to the North Arm bridge, from there across Lulu Island, and thence furnish a means of crossing the main river, putting in another short line to connect with the town of Ladner. Mr. Glover, who was present during the trip, stated that he was greatly impressed with the situation and announced that engineers would be sent out to make a preliminary examination. This has been done and a report is expected within a few weeks.

At the time of the visit of the Vancouverites the question of transportation over the main channel of the river was taken up in an informal way, but no decision was arrived at.

A bridge over the river has been suggested, but the general idea is that it would prove too expensive and the proposal to cheapen the cost of the structure by extensive fill-ins over the islands in the channel opposite Ladner is rejected on account of the fact that these islands are largely composed of silt, and therefore are not any too stable.

It has been said that to build a bridge at the point mentioned at the end of the cemetery road, would cost about $1,000,000. An alternative has been suggested, and that is that the British Columbia Electric Railway company maintain a ferry service over the river. Mr. Glover would not say today what action would be taken but remarked that the company would doubtless adopt what appeared to be the most feasible means of transportation should the construction of the line be finally decided upon as seems very likely.

Portuguese Contest Election.

Lisbon, Sept. 15.—The Monarchists of the opposition contested today the election of twenty-six members of the government party. Parliament will not be convened until these contests are decided.

Predicts Democratic Victory.

New York, Sept. 15.—That the next congress will be Democratic by at least thirty is the opinion of Congressman James D. Watson, former Republican whip in the house. He has been campaigning for Republican congressional candidates through eleven states this year.

WILL ENTERTAIN EASTERNERS THURSDAY

Members of Canadian Manufacturers' Association To Visit New Westminster.

A discussion for the ways and means for entertaining the delegates of the Canadian Manufacturers' association when they visit the city next Thursday occupied the attention of the board of trade for some time last night. It was finally decided that they should be given a trip on the river to Fraser Mills, inspect the mills and then go down the river to Annieville so as to get a good view of the town from all points. They will probably also be taken around the city in open cars, if these can be secured.

President Lusby asked the members to do all in their power to induce members of the association to come over here and see the city on some other day besides the one on which they were scheduled to come officially. He was of the opinion that every effort should be used to impress the manufacturers with the importance of New Westminster as an industrial site and they could not get a good idea of the possibilities of the city when they were all here together.

The manufacturers arrive in Vancouver on Tuesday. In the morning they will hold a business session. In the afternoon they will be shown around Stanley park and in the evening a reception will be held. On Wednesday morning will see another business session, and the afternoon and evening a trip on Burrard inlet. On Thursday the day will be devoted to a visit to New Westminster and to Eburne and a general trip around the country. On Friday the members will transact the finishing business in the morning and in the afternoon will leave for Victoria.

Several New Westminster men will attend the reception on Thursday evening, and while they are here every effort will be made to give the visitors a favorable impression of the city.

When Secretary Wade reported what had been done at the meeting of the railway commissioners, namely, that the commissioners had listened to representations made by the board and that he has every reason to hope for a successful issue, President Lusby rose to remark on some of the actions of the board of trade. He thought that in future the board should thoroughly investigate and understand what they wanted and what they asked for before they asked for it. He thought that it might be well for the board, in future, to leave the matters connected with the Great Northern on the south side of the river strictly alone.

E. Goulet agreed that the board had got into a nice mix-up on account of interfering with the railway situation in the Delta.

A. Hardman suggested that in future the efforts of the board be directed towards getting the Great Northern train to come to the market siding every day and that anything outside of that be left alone. There was no further discussion of the matter and it is probable that the board will not interfere again.

D. S. Curtis brought the question of express rates from Eastern Canada, and it was referred to the transportation committee without discussion.

HOPE TO DISCOVER LOST CHORD VEIN

Dawson, Sept. 15.—D. J. McDonald, who has been the superintendent in charge of the work on the Dome Lode properties the last two seasons, left this morning on the steamer Dawson. Mr. McDonald goes to Vancouver. Manager Warner, of the Dome Lode company, says:

"The departure of Mr. McDonald does not interfere with our work on the Dome properties. We shall continue to push the work with hopes of soon striking the Lost Chord vein."

Editor Will Run.

St. Paul, Minn., Sept. 15.—It was predicted here today that James Gray, an editorial writer on the Minneapolis Journal and former mayor of St. Paul, will be the Democratic nominee for governor of Minnesota instead of former Governor John Lind, who was nominated.

Borden Going to Camp.

Ottawa, Sept. 15.—R. L. Borden, accompanied by George Perley, M. P., left today for Echo bay, on the Upper Ottawa river, where they will go into camp for ten days. Later on Mr. Borden will address a number of political meetings in Ontario.

Mill and Lumber Destroyed.

Montreal, Sept. 15.—Fire caused $100 000 damage at a lumber mill and planing mill at Como, Que., today, about half a million feet of lumber being destroyed.

Murderer Sentenced to Hang.

Montreal, Sept. 15.—Timothy Candy, who last May murdered two city policemen while being placed under arrest for theft, was today sentenced by Judge St. Pierre to be hanged on Friday, November 18.

AMERICAN UNIONS SLATED BY CANADIANS

Federation of Labor Complains of Autocratic Policy of Outside Leaders.

Montreal, Sept. 14.—Some seventy delegates, representing the numerous Canadian labor organizations which go to make up the Canadian Federation of Labor, were present at the second annual convention which opened in the city hall today.

"We are pleased to report," read the executive's report, "that the efforts of American unions to retain their hold in Canada is being gradually and surely weakened, and we hope that they will realize the hopelessness of their cause, show a sense of justice and common sense and withdraw from their autocratic policy, which, if persisted in, means ruin to them."

In concluding their report the executive adds: "We hope, during the coming year, to see gathered into our ranks thousands of comrades who have been put outside the pale of unionism by the narrow and autocratic policy of the American unionism of today."

Sir Wilfrid's Love Story.

"When Laurier was a young lawyer in Arthabasca," says M. O. Hammond, writing in September Canada Monthly (formerly Canada-West), "where by the way may still be seen his former office, body bearing his shingle, although he has not handled a brief for many years, his lungs were at one time thought to be seriously affected, and in this connection a pretty story is told of the romance of the premier's life. While attending law school in Montreal, Laurier became deeply attached to a young lady in the house in which he boarded, who had some years before come up froma farm near Arthabasca. The attachment grew to love and promise of marriage. Unfortunately, at this stage Laurier's health gave way, and the Montreal doctors thought he could not live long. Under these circumstances the engagement was broken, and Laurier went to Arthabasca in wretched health, and, as most people thought, with but a short time to live. Soon after his arrival he consulted a local doctor, who told him he was not seriously ill and that with care he might live for a long time.

"'Will you give me a certificate to that effect?' asked young Laurier eagerly.

"'Certainly,' the doctor replied.

"The certificate was given to Laurier who headed for Montreal to show it to his former lady love. In the meantime the lady had made other friendships which might have proved lasting, but the return of Wilfrid with the assurance of probable good health and long life, brought the lovers together again. That woman is now Lady Laurier."

NEW YORK TO HAVE TIPLESS HOTEL FOR WOMEN

New York, Sept. 15.—A tipless hotel in New York, an institution that many persons think should take rank with the other "seven wonders of the world," is to be opened on November 15. The new hotel is to be for women exclusively, and its establishment is due to the activity of Miss Virginia Potter, niece of the late Bishop Potter, Mrs. Henry Ollsheimer and several other influential women.

The hotel will be a combination of the three houses at Nos. 226-230 East Twelfth street. A guest will not have to fill her hand with dimes to distribute on the way from her room to the sidewalk. She may even push the button for ice-water or order the porter to move her luggage without fear of the ever-present hold-up. Any employee found accepting a tip in the hotel, which is to be known as the working girls' home, will have to look elsewhere for a job. Rooms and board may be had from $3.50 to $6 a week.

Aged Woman Dead.

St. John, N.B., Sept. 15.—Ann, widow of James Holt, is dead at the Mater Misericordiae hospital here, in her one hundred and sixth year. She had been in remarkably good health until ten days ago.

ITALIAN IMMIGRANTS FOR WESTERN CANADA

Signor Rossi, Who Claims to Represent the Italian Government, Gathering Data.

Edmonton, Sept. 15.—There is a movement now on foot by the Italian government at Rome, to locate thousands of Italian farmers and agriculturists of the best class on the untenanted lands of Western Canada.

The promoter of the movement, Signor E. Rossi, commissioner of the Italian department of emigration at Rome, is in Edmonton. He has just completed an extensive tour of Canada, made on behalf of the government for the purpose of gaining information on the country, which will be distributed among the farmers of Italy, who are contemplating emigration.

Not a small part of Signor Rossi's mission in Western Canada is to overcome the deep-rooted prejudice that exists against the Italian immigrants.

Signor Rossi overcomes this prejudice by explaining that this class of immigrants is not the class that is being sent over by the Italian government. The class with which his government is dealing and which they will endeavor to supply Canada is that class of thrifty farmers and market gardeners that occupy the vast fertile lands of Northern Italy. These are a fair-haired, industrial class that make peaceable citizens, who now barely eke out an existence on the overcrowded lands on which they have lived for generations, but who, according to Signor Rossi, could make a fortune out of an acre of land in Western Canada.

TELEPHONE LINE IS FIVE HUNDRED MILES LONG

Practically Every Railway Town in Alberta Will Be Connected Up This Autumn.

Edmonton, Sept. 15.—Telephone communication between Wainwright, in the extreme northwest on the Grand Trunk Pacific, and Medicine Hat in the southeast on the Canadian Pacific, a distance via Edmonton and Calgary of 500 miles, will be possible within a few weeks, as the result of the completion of the very extensive program of development of the provincial government telephone system, which has been carried out this summer by the telephone department.

Not only will business men in Wainwright be enabled to talk 500 miles to business men in Medicine Hat, but they will be enabled to hold conversation with any town on any line of railway in operation in the province, as the result of the work that has been done this year. Furthermore, telephone communication will be possible between Wainwright and Lloydminster on the northeast and Carbon on the extreme south, close to the international border.

As the government telephone system will stand in a few weeks, after the completion of this year's program, there is scarcely a town o nany line of railway in the province that is not served. Not only the main line towns but also the towns on all branch lines of the C. N. R., C. P. R. and G. T. P. have been covered so far as they are now in operation, save of course the main line of the Grand Trunk Pacific west of Wabamum lake. Preparations are even being made to connect up Entwistle and Edson on the G. T. P. next year.

This year the chief work that has been carried on by the telephone department has been the extension of the trunk lines east to Medicine Hat on the C. P. R. and to Wainwright on G. T. P. Medicine Hat was given long distance communication with Calgary and Edmonton and towns between for the first time last week. The Wainwright line, which is now as far as Irma, will be completed within a week or two.

Other extensions which have been made are from Stettler to Castor on the Lacombe-Moose Jaw extension of the Canadian Pacific railway, Gleichen to Bassano on the main line of the Canadian Pacific, south to Carbon and to Warner from Lethbridge.

The completion of this extensive

LOST IN THE SWAMPS.

Duck Shooters' Terrible Experience At Mouth of Red River.

Winnipeg, Sept. 14.—A party of duck shooters, consisting of R. Spall, Mike Montgomery, B. Montgomery and Mr. McCrady, were lost in the swampy marshes at the mouth of the Red river, for two days and two nights without food or shelter and at times almost gave up hope of again seeing civilization.

All day Sunday they paddled their heavily-laden canoes through a heavy downpour, and at night, cold, tired and hungry, they beached the boat and under the shelter afforded by their upturned shells, they spent the weary night.

The next morning, however, they decided to continue the expedition, and before evening they found that they had lost their bearings in the swamp. For two days they wandered about, being unable to find ther way out, and suffering intensely from hunger and exposure. They finally found their boats, and were picked up by a passing launch when they were on the verge of exhaustion. Six ducks was all they had to show for their terrible experience.

COMEDY SUCCESS IS THE DRAWING CARD TONIGHT

"Going Some," Fun Compelling Presentation, Is to Occupy Opera House This Evening.

"Going Some," all bright in its uniqueness, in these days of hackneyed comedies, will be the big laughing event of the season at the Opera house tonight, with the famous Lawrence and Sandusky, the best which has ever appeared in it, in the large cast of twenty. It is but giving credit where credit is due to say that this clever Paul Armstrong-Rex Beach comedy is the very best laughing vehicle before the theatre-going public of today, not even excepting the perennial "Charley's Aunt" and the other few really great farces which have lived long and happy lives. "Going Some" will distribute merriment and joy among the playgoers for many years to come and in so doing will make a tired world brighter for having existed. People nowadays go to a theatre for laughing purposes to a large degree, but until the advent of "Going Some" there was a void of comedy that savored of the newness required for a brilliant success. In "Going Some" the cardinal quality of uniqueness was found, and a doting public have, since its inception two or three seasons back, clamored for it and patronized it to a most amazing extent. Here is a comedy of our own continent, one which did not require adaption from any other language; here is a comedy of brilliance and satisfaction, with the breath of the great west all around about it, and the red blood of adventure surging in its veins. Here is a story which is complete and has none of the hackneyed lines or scenes of the farces of other days. It stands alone in a class by itself as a bright and peculiar attraction which satisfies and fulfills its every promise. Types, superbly drawn, and also superbly portrayed are woven into a bright and snappy play, which brings forth laughter without limit from the very raise of the curtain until the fall of it, and all the while it is typically unique. There is a reason for every peal of laughter and there are thousands of those peals during the four bright acts of a brilliant play.

Our $3 Boys' Suits

Last season we bought heavily in Boys' three piece Suits, consequently we have 60 suits left over. Values up to $9.00, which we clear out at the ridiculcusly low price of, per suit..... $3.00

These suits are mostly of the famous "Lion Brand" and make splendid school suits.

The materials are choice Cheviots, Tweeds and Serges. Every seam is sewed as strong as it is possible to sew it, buttons put on to stay.

The Suits are double stayed at all points where there's any strain.

No feature in the making that will add to the life of these suits is omitted.

Sizes 6 to 16 years.

If you have never Tested the Excellence of our Boys' Suits, you've missed a Splendid Investment.

FRIDAY, SEPTEMEBR 16, 1910. ..

CANADA AND THE U. S.

The probability of a reciprocity agreement between Canada and the United States being entered into in the near future seems to be strengthened by the announcement that President Taft will begin active negotiations towards this end at the coming session of his cabinet. The President appears to have become enthusiastic in the cause of this policy and has expressed the hope that an agreement will be come to by the end of October. This is perhaps a little too sanguine. Nor is there need for such great haste.

Though a reciprocity agreement would no doubt be to the advantage of Canada the matter will require very careful consideration in order that the basis of any arrangement may be properly formulated, looking to the interests and resources of this country and the necessity for safeguarding these.

The display of so much zeal on the part of the American government is as pleasing as it is significant. It is an indication that our neighbors have recognized the foolishness of the distant and independent attitude of yore and are eager and in haste to make amends. The arrangement entered into with them in the last session of parliament broke the ice of their frigid reserve, and now they are anxious to make the amicable commercial relations between them and Canada complete by a thorough reciprocity understanding. All this is good to see.

AUSTRALIA AND PROTECTION.

The latest factor in the almost world wide discussion on trade tariffs is the announcement that the government of New South Wales is about to take a decided step towards the institution of a strong protectionist policy. It is reported that with a view to giving support to Australian industries that this government has just placed an order for ten thousand tons of steel rails for the state railways with a firm at Lithgow, near Sydney. Hitherto Australia has secured her supply of rails chiefly from the United States, but by the policy now instituted our neighbors on the south will, apparently, lose this trade.

Australia possesses ample natural products in the shape of metals and coal to supply her own needs in the way of constructional and other material, and there would now seem to be a strong desire to encourage this and other home manufactures. The desire is as laudable as it is just. It is proposed to do this by the imposition of duties and the payment of bounties. At present there is no information as to what policy it is intended to pursue in regard to British manufactures imported into the colony. Though the Americans have enjoyed something of a monopoly in the supply of steel rails for some time now, their prices being probably below what British manufacturers could quote, there is quite a considerable trade in general merchandise between the mother country and Australia. Therefore though the move of the New South Wales government in regard to this particular branch of the steel industry may not cause British industrial firms any great concern, the institution of a general policy of strong protection may cause some uneasiness.

ROBERT JARDINE, Manager

Millinery Fashions Attractive This Fall

(Continued From Page One)

to be holding their popularity better than it was expected they would when they first appeared. They are convenient and that is the great thing. Their size and shape does not give the milliner a chance to exercise her art on such a scale as she might wish, but necessity is the mother of invention, and although they lack the graceful lines of the larger hats, the small turbans are in many cases triumphs of the milliner's art.

The small all-feather turban is the newest modification of the type this year and proves to be very attractive to some buyers. One in black and green feathers is pleasing and neat.

Large drooping hats in beaver and French felt will be greatly worn this fall. One large red beaver with a high crown and rolled side, trimmed with large red wings, red velvet and Indian buckle is rather startling, but on a certain type of woman is exceptionally charming.

A Hindu turban is the latest creation in this popular style. It is navy blue of draped plush with a chanticler head and pleated ribbon.

Chanticler hats in general still continue to be very popular and Misses Connor and McQuarrie have a fine stock of these.

It is in the larger hats that there is the most novelty and as a general rule they are th emost artistic. There i san extremely pretty hat of amethyst silk and velvet with draped balloon crown of silk; bird of paradise aigrette and cut steel ornaments.

Then there is one of grey French felt rolled high at the back and trimmed with old gold and grey wings and grey silk ribbons.

Another attractive hat is a large old gold silk velvet creation with chenille cord trimmings and old gold and green pom poms.

An afternoon tea hat which is the centre of much attraction is one of mulberry velvet, with drapped Persian crown and trimmed with mulberry shaded wings at back. Another for wear at the same time of day is made of white German silk, with black velvet facing and white willow plumes.

One of the most striking hats in the display is a dress hat of copraquette shade, made of pressed plush with shaded willow plumes and ospreys and a large amethyst buckle.

The drooping hats which are now so much in fashion all over America are well displayed and seem to suit the tastes of the Westminster leaders of fashion. A fine example of this style of hat is a large one in black velvet, with blue facing, trimmed with grey wings and blue ribbons.

Suing for Big Sum.

Toronto, Sept. 15.—In a writ issued at Osgoode Hall, J. J. Hartman, of Lawson, Yukon, is suing the Dome Lode Development Company, limited, of Toronto. Hartman claims $15,562.25, principal and interest, on promissory notes.

The T. H. SMITH Co. LIMITED

REMEMBER WE CLOSE AT 6 P.M. SATURDAYS, 10 P. M.

NEW WESTMINSTER.

September 12, 1910.

Messrs. White, Shiles & Co.,

Gentlemen, — Please accept my thanks for your exceedingly prompt settlement of my fire insurance claim in connection with the fire that took place at my office last night.

(Signed) RICHARD G. DINGLE.

BURNABY.

Burnaby, B.C., Sept. 8.

Messrs. White, Shiles & Co.

Gentlemen,—I beg to acknowledge receipt of your cheque for $1,800.00, in full settlement of my claim under the Connecticut Fire Company's Policy, upon my dwelling and contents, burned August 26th.

Please accept my thanks for your prompt and satisfactory settlement of this claim.

Sincerely yours,
(Sgd.) GEORGE EVERY-CLAYTON.

SPORTING NEWS

PROTEST AGAINST PLAYING LAVIOLETTE

Player Not Eligible, According To Ruling Given By Trustee Ross in 1908.

If the Nationals attempt to play Jack Laviolette in the forthcoming Minto Cup games, Manager C. A. Welsh will immediately lodge a formal protest, on the grounds that that player is not eligible because of the eastern "residence rule." Laviolette played with the Montreals last year, but at the beginning of this season he had some difficulty with them and has been out of the game all summer. He was signed up by the Frenchmen after these had the championship cinched, the object being to have him on the challenging team for the championship trophy.

Managing Trustee P. D. Ross has given the Nationals permission to play Laviolette, declaring him eligible because he had not played with any eastern team this year.

Probably Mr. Ross has forgotten that when Westminster went east after the silverware the Shamrocks drafted Muir, Paddy Nolan and another player in a last despairing hope that they would be able to defeat the westerners. Manager Welsh protested against this and Ross gave a ruling, which remains in the possession of Mr. Welsh, to the effect that no player was eligible to play in Minto Cup matches who had not been eligible to play in his own league matches throughout the season.

This argument, although two years old, is not yet so antiquated that it should not hold good now, and Mr. Ross' attention will be drawn to his lapse of memory.

At the same time the managing trustee will be informed that Westminster captured the cup, and is holding it, with a bona fide team, and not with a patched up aggregation. If the west wished to retain the mug at all costs—presuming there was any danger of it being annexed by the challengers—the Vancouver and Westminster teams might amalgamate and play under Westminster colors. Probably this would not meet with the approval of the visitors, but they would simply be being paid in their own coin.

But the easterners can rest in peace. Westminster is not going to weaken its team by any such amalgamation. The Salmon Bellies can retain the cup without outside help, and will demonstrate to that effect on September 17 and 24.

BANKERS, ATTENTION!

Newspaper Men Challenge Money Changers to Bowling Game.

The newspaper scribes who have developed considerable muscle in pounding the keys of refractory typewriters believe that the brawn of their good right arms has reached that stage whereby they can heave a ten or five pin bowling ball the whole length of the alleys. Having surveyed the field of local bowlers they have come to the conclusion that the bankers, who are still wielding the antiquarian pen for a living and handling featherweight $1000 bills are their easiest mark. The pounders of the balky typewriter keys hereby challenge the bankers to a game of ten pins or five pins, three games and total score to count, winners to take all gate receipts.

ARRANGE GOOD SPORTS FOR CHILLIWACK FAIR

The sports program for the Chilliwack fair, which takes place on September 20, 21, 22, has just been printed, and the list of sports and prizes is certainly a credit to the Fraser valley town.

There are football matches, baseball matches, bicycle races, Hindu wrestling matches, all sorts of races, both for men and horses, and at the end a grand greasy pig-catching contest. In addition, "What Happened to Jones," will appear each night in the Opera house.

JOE LALLY, REPORTER.

Lacrosse Authority to "Cover" Big Games for Montreal Newspaper.

Joe Lally, the famous eastern lacrosse authority and referee, has been retained by the Montreal Star to write up the Minto Cup matches between the Westminster and the Nationals for that paper.

Lally has a reputation for fairness that should give his story a considerably news value. He will report the game as he sees it, and will pay particular attention to the work of the officials. His story will appear under his signature.

No Pennant for Vancouver.

Vancouver, Sept. 15.—Bob Brown's boys practically lost their last chance for the 1910 pennant today, when they were defeated by Cohn's Indians, being blanked by four runs.

Locket for Grumpy.

Early this season Ernie Sinclair announced that he would give a gold locket to the Westminster player scoring the most goals during the lacrosse schedule. The jewelry goes to Grumpy Spring, who scored fourteen goals in ten games.

GLIDDEN OFFERS PRIZE FOR AEROPLANE TOURS

Initial Competition for Trophy to Start from Harvard-Boston Aviation Field in 1911.

Boston, Sept. 15.—Aeroplane tours to be conducted on similar plans to those governing automobile tours were suggested today by Charles J. Glidden, originator of the Glidden tours for automobiles.

Mr. Glidden has offered a valuable trophy to the national council of Affiliated Aero clubs, to be competed for annually under such rules as the national council may prescribe. It is planned that the initial tour shall start from the Harvard-Boston aviation field in 1911.

AIR RACES SATURDAY.

Balloonists Will Have Meet in Indianapolis.

Indianapolis, Sept. 15.—Pilots and balloons for the American championship and free-for-all races which start at the Indianapolis motor speedway on Saturday afternoon are arriving at the speedway and inflation will begin tomorrow. Nine contestants have entered in the championship race, which will be conducted under the rules of the Aero Club of America. Six are entered in the free-for-all race for gas balloons of any capacity, which will be started just after the entries in the championship contest have been sent into the air. This race is for distance, winner to receive a diamond studded cup. In the championship race both endurance and distance will be taken into account.

BALL PLAYERS ON STAGE.

Mathewson and Myers Will Appear in Vaudeville.

New York, Sept. 15. — Christy Mathewson, the leading pitcher of the New York National league baseball team, is going to become an actor. So is "Big Chief" Myers, the premier catcher of the New York Nationals. Beginning October 24, they will appear in a sketch called "Curves," at a leading vaudeville house. Mathewson will have an opportunity to illustrate some of his celebrated shoots.

Must Start Early.

The Alerts and Maple Leafs will play a schedule game of baseball this evening at Queens park. The game will start at 5:30 and the players are all requested to be on hand at that time, as unless they are the game cannot be finished before dark.

LABOR MEN ELECT OFFICERS OF COUNCIL

Port Arthur, Sept. 15.—Officers of the Trades and Labor Council of Canada were elected today as follows: President, William Glocking, Toronto; vice-president, A. L. France, Montreal; secretary-treasurer, P. M. Draper, Ottawa; delegates to the American Federation of Labor, R. P. Pettipiece, Vancouver.

The officers for British Columbia: Vice-president, J. C. Waters, Victoria; committee, R. P. Pettipiece, Vancouver; R. A. Stoney, New Westminster; H. Kempster, Revelstoke.

Died from Polyomyolitis.

Hamilton, Sept. 15.—John Tunis died here from polyomyolitis, or infantile paralysis, this morning. It is supposed he caught the complaint from a child of his brother, in whose house he was living. This makes the twentieth death from this disease here.

Goes Back to America.

Fresno, Cal., Sept. 15.—J. H. Pierce an oil driller born in Pittsburg, applied yesterday at the county clerk's office for naturalization papers. In order to take up land in Canada three years ago, Pierce foreswore allegiance to the United States and became a British subject. Now he desires to become an American citizen again.

TARIFF NEGOTIATIONS TO BE RESUMED SOON

United States Expected To Reopen Question---Canada Standing Pat.

Ottawa, Sept. 15.—In the absence of Hon. W. S. Fielding, minister of finance, who is in Nova Scotia, and will not be back in Ottawa till the middle of next week, nothing of a very definite character as to the resumption of tariff negotiations with the United States can be learned here It will be recalled that the negotiations of last spring, in their later stages, were carried on between Canada and the United States direct, and it is safe to assume that when resumed they will be conducted in the same manner. Just who will make the first move is not known, but in view of the independent attitude Canada has assumed it is almost safe to assert that it will come from the United States, and that it will be made soon.

It is quite possible that there has already been an informal exchange of views between Fielding and Secretary Knox, but as to that nothing definite is known here.

As to Canada's attitude, it is what has been stated on various occasions in recent months by Premier Laurier, Fielding and Graham.

The government is quite ready and willing to resume negotiations, which were broken off last spring owing to pressure of other business, and will agree to any reasonable measure of reciprocity. It will not agree to any one-sided agreement which would benefit United States more than Canada, or do injury to Canadian industries.

It can be safely assumed that if any agreement is made with the United States it will have to be a fair bargain for Canada; failing that there is not likely to be any agreement at all.

NEWTON IS CONFIDENT CRIPPEN WILL BE FREE

Criminal Barrister, who Is Defending Notorious Murder Suspect, Says Prosecution has no Case.

London, Sept. 15.—The case of the crown against Dr. H. H. Crippen, the American dentist, charged with the murder of his wife, who was Belle Elmore, a vaudeville singer, has utterly collapsed, according to Arthur Newton, England's famous criminal barrister, who is defending the American.

In a seatement to the United Press today Newton ridiculed the attempts of the prosecution to establish a case against Crippen. He predicted that unless evidence of a more substantial character is introduced his client will not even be bound over to the grand jury.

"So far the prosecution has failed miserably to show why Dr. Crippen should be before a court," he said today. "No evidence worthy of the name has been presented. The attorneys for the crown have failed to establish a single fact in connection with the alleged murder. There is nothing but failure for the prosecution and freedom and vindication for my client."

Crippen today appeared confident of his acquittal. He was cheerful and appeared anxious for the time to arrive when he would again go to Bow street police court. His companion on his flight to Canada on the liner Montrose, Ethel Claire Le Neve, is breaking down under the strain of the hearings. She is wane and pale and is almost constantly under the care of a wardress.

Stop the Leaks in Your Coal Bill

Use a Curry-Oxford range and save 20 per cent. of your coal bill.

The "Chancellor" shown here is the finest steel range made by the well known Gurney-Oxford Company. There's no better to be had in the country. Made in more styles and sizes than any steel range on the market, with every late device for economy and convenience.

Material is the best to be had, inside and out. With or without reservoir on either end. Guard on ash door. Braced oven bottom. Drop door on warming closet. Divided oven flue, to insure even baking. Broiler top. Thermometer on oven door if desired. Made for coal or wood. Besides these special features—

The OXFORD ECONOMIZER

will keep your fire going at lowest possible cost for fuel. Will save at least 20 per cent. of the coal you now use and will take all cooking odors up the chimney.

You'll save money every day you use a Gurney-Oxford. And always get more satisfactory results from your cooking.

Let us demonstrate to you the "Economizer," and the other Gurney-Oxford points of superiority. See how perfect a good range can be. We will also show you other Gurney-Oxford stoves and ranges for every purpose and for any kind of fuel. On display on our floors all the time.

Get acquainted with the best known, best liked stoves and ranges in all Canada. And do it now—for the good of your pocketbook.

CLUES TO MURDER ARE OFTEN TRIVIAL

Detection Often Results from Some Slight Omission—Some Incredible Blunders.

Criminals are very forgetful persons. The famous series of frauds on the Bank of England by the Benson brothers a generation ago was terminated by the fact that the forgers of the drafts forgot to late the last one presented. This almost incredible blunder led to the break-up of the most dangerous band of criminals England has ever known.

An uneasy conscience gave away Dougal, the Moat Farm murderer. He had presented a forged cheque on his victim's bank account, and the clerk, not recognizing the signature, asked Dougal to wait for a few moments. Convinced that it was a trick to detain him until the police were summoned, the wretched man bolted, and that set in motion a train of suspicions that eventually resulted in the discovery of the most cold-blooded crimes in the history of murder.

Any detective of experience will tell you that most criminals are fools, which is a good thing in the long run for those whose business it is to detect crime.

There was a case in the Midlands nearly twenty years ago which concerned a man who spent many days planning a woman's murder and disguising his own personality so that nobody could ever suspect him of the crime. Then, when his plans were completed, he lured the unfortunate woman to a lonely place and murdered her.

He was more than astonished to find himself under arrest within an hour of the discovery of the dead body, but it was no wonderful feat of detection after all. In his haste and confusion the murderer had actually left his visiting card on the victim's body.

Toy Lantern Clew.

A child's penny toy lantern directly led to the hanging of Fowler and Milson for the Muswell Hill murder. It was a lucky clew, that finding of the child whose toy had been left behind in the house with the body of Mr. Smith, the murdered man. It was the property of Fowler's little brother, and the child's innocent pleasure at the recovery of his lantern was the culminating stroke in one of the greatest tragedies of the last fifty years.

Clothes played a prominent part in the Yarmouth Beach murder case of nine years ago, but it was a bootlace that finally fastened the crime on Bennett. That trivial bootlace had been used to strangle the poor woman who died where so many had found holiday happiness; and those who attended the trial will never forget the profound impression created by the production of the string.

Upon a certain occasion a prominent merchant and railway magnate was talking in the street to a friend of his, who was eminent in the service of the state. A young man passed by and, to the astonishment of the former, his companion nodded pleasantly to him. "Who was that?" asked the railway director, thinking he might have been mistaken.

"Oh, that is Mr. Blank, the well-known philanthropist."

Now the gentleman of the railways knew Mr. Blank by another name and in a different capacity; in fact he was one of the clerks in the employ of the railway of which he was director. Examination of the books confirmed the worst suspicions, for the psuedo philanthropist had been robbing his employers for years in order to gratify his ambition to get into society. Had it not been for that casual recognition in public the company would have lost thousands more than it did.

Name and Address on Corpse.

That was a trivial chance, of course but it was more than this which caused Mrs. Dyer, the Reading baby farmer, to wrap one of the bodies of her victims in a piece of brown paper bearing her own name and address. It broke away and floated to the top of the river.

But all great criminal cases have turned more or less on trivial things. A railway ticket played a prominent part in the recent trial at Newcastle, of Alexander Dickman, charged with the murder of Nesbit, the colliery cashier. It bore the name of one station and was given up at another.

Half an addressed envelope convicted a murderer twenty years ago, although the name and address had nothing to do with him, except that the other half was found in his bedroom. A piece of a file convicted a murderer named Orrock, who is now forgotten, but whose crime excited tremendous interest some years ago. Armed with half of a common file, the police tracked him down after one of the finest feats of detective work in the annals of detection.

LOCUST PEST IN YUCATAN.

Pests Cover Cultivated Districts, Leaving Ruin in Wake.

Washington, Sept. 15.—Locusts by the millions have descended upon the cultivated regions of Yucatan, and have left in their wake nothing but ruin and destruction among the principal crops. Vegetation generally has suffered, the chief loss being in the corn crop, a large percentage of which was destroyed. Consul McGoogan, of Progresso, Mexico, reports to the department of commerce and labor that vast quantities of corn will be imported.

Advance Steamer Fares.

London, Sept. 15.—British lines included in the North Atlantic Steamship conference have advanced third class fares to Canada five shillings.

PREMIER RECEIVED BLACKHAND LETTER

Obscure Communication Bids Hon. R. P. Roblin to "Beware"—Sender Is Insane.

Winnipeg, Sept. 14.—The release of the alleged "Black Hand" desperados by the attorney general's department after their being committed for trial at the city police court has renewed interest in the case, and brought to light an interesting sidelight on the affair that at one time greatly exercised the police authorities.

About two months ago, just about the time that the charges against the alleged "Black Hand" artists were laid in the city police court, Premier Roblin is reported to have received in his morning mail one day a mysterious letter, so badly written and so villainously spelled that it tokk a whole day to determine that it was nothing more nor less than a "Black Hand" threat against the life of the Premier.

The letter was from Lac du Bonnet, where the Black Hand society was supposed to have been organized, and for a time it was thought that the letter would have a direct bearing on the case then in the hands of the police. The letter was traced to an Italian, of Lac du Bonnet rejoicing in the name of Paloni, but it was soon discovered that Paloni was a better subject for the insane asylum than a court of justice. He was arrested and after examination committed to Selkirk asylum.

The letter which threatened Premier Roblin was couched in obscure language, but once it had been deciphered it was found to convey the delightful information that if the premier did not do certain things he would receive but one more warning, which would be the last. The letter was concluded with the usual "Beware."

AEROPLANE TEA IS THE LATEST IN PARIS

New York, Sept. 15.—Several New York society people have been favored with complimentary invitations to a novel social function soon to be given in Paris by the Duc de Rohan, a leader of the French aristocracy. The duke is to give an "aeroplane tea," the first of its kind in the world Mons. Busson, who flies a Bleriot machine, will be the guest of honor, and will make flights with each of the other guests in turn.

May Be No Preliminary.

There are some doubts as to whether the game between the Reginas and West End, which was scheduled to take place before the first Minto Cup game, will be played. The Reginas are ready to play, but the West Enders are having difficulty in finding their team and last night the chances did not look bright for their appearance.

WHITE MAN TRIES HARI-KARI METHOD

Pittsburg, Pa., Sept. 15.—Penniless and despondent, Stephen Walton tried to end his life here by committing hari-kari, the Japanese method of suicide. Walton used a small penknife and slashed his abdomen fearfully. He will probably die.

Walton had been discharged from a position at the Standard Steel Car company's plant near Pittsburg and when his money was gone he told his friends he intended to end his life.

Sitting upon the floor of his boarding house he deliberately jabbed the knife into his abdomen and drew it across. As he attempted to complete the circle friends disarmed him.

FIND RELIC OF TRAGEDY.

Two Boys Unearth Skulls While at Play.

New York, Sept. 15.—Lieutenant Joyce was at his desk in the Bronx last night when two ten year old boys walked into the station house and dumped on the desk a heavy parcel wrapped in paper. The lieutenant untied it and out rolled two human skulls.

While playing Robinson Crusoe the boys had dug up the two skulls as well as a number of other bones. There is no record of a graveyard in the neighborhood and today the police are busy thumbing the annals of old crimes.

Canadian Pacific Railway

THE most vital improvement in Fit-Reform Suits this season is—the splendid shoulder effects.

WE have created the most becoming models that have ever been shown—natural, well rounded shoulders — neither exaggerated in breadth nor skimped in faddish fashion.

FIT-REFORM caters to real men who demand good taste as well as good style.

WE show above the Fit-Reform Double Breasted Sack Suit — made chiefly in Scotch Tweeds — ranging in price from

$18. to $25. 120

FATHER VAUGHAN'S ADDRESS TO LADIES

Epigrammatic Indictment of The Modern Scramble For The Prizes of Life.

On the subject of "The Eucharistic life as an antidote for modern life," the Rev. Father Bernard Vaughan addressed a ladies' meeting at Stanley hall, Montreal, recently, when the hall was crowded to the doors.

In his epigrammatic way, the lecturer made use of many maxims not altogether in every-day use, as, for instance, 'We are living in a day of headlines, snapshots, taxicabs and music halls; in a day when the scramble for the prizes of life has become a mad passion.'

"In a day when there is no empty place but the cradle and no room in which to move but in the churches.'

After referring to a comparative passage from the seventh chapter of the Book of Wisdom, which passage the lecturer stated, epitomized what the Catholic church meant, and what it was to a rightly minded Catholic, he proceeded to speak of the marvels wrought in a human soul by the transforming powers of sanctifying grace, which, said the lecturer, 'not only disarms the soul's spiritual foes, but, moreover, so fortifies its life that in due season it puts forth the rare bloom of supernatural virtues, and the fruit of good works meritorious of eternal recompense. As we contemplate these matchless marvels born of grace in the soul, may be of a shoeless, ragged, homeless little child, we begin more fully to understand that grace is in every deed what it is said to be, "an infinite treasure to man."'

A question bearing with vital importance was: "Upon what food must this divine life of the soul be fed that it may not starve to death in us, but on the contrary, may grow in health and strength and wisdom before God and man?"

"I might," went on Father Vaughan, "go on to show how life, as we find it in the ascending scale of being, from the amoeba to man, require for its vigor, development and perfection, its own special kind of foodstuffs. But I must pass on to answer the question about the character of food needed for the support of the soul's divine life.

"You tell me that for material life is required material food, and our Lord tells us that divine life there is need of divine food.

"We are living in a day of headlines, snapshots, taxicabs, and music halls; in a day when the scramble for the prizes of life has become a mad passion. It is a day of fever, fret and fume, when competition for earthen toys is so keen, and the margin of profit in commerce has become so fine that the one cry beating through the air is 'hurry up!' No one seems to have time for pause till, worn out in the pursuit of gew-gaws and vanities, a rest cure becomes imperative the clock is stopped, and all action, mental and physical must be prescribed as prohibitive for an eighth part of a year.

"We are living in a day when the high ideals of old are fast yielding to the pressure of creature comforts, when principle is being exchanged for expediency, in a day when self-sacrificing Catholicism is being bartered for self-centered materialism, when the Christian sense of sin is being regarded as a by-gone superstition; in a day when it matters not what you believe, but only what you do, and when you may do what you like, provided you are not found out; in a day when the relations between the sexes takes one back to pagan times, while the garbage on which men and women feed is as foul and loathsome as the stuff over which they gloat and chatter; in a day when marriage has become so debased and defiled that not even the pledged troth can make it long endurable without change of prospective partners in a life of legalized vice; in a day when there is no empty place but in the cradle, and no room in which to move but in the churches. Well might a leading Parisian physician sum up the situation in the word: 'C'est une pourriture.'

"For the confirmation of my strong assertions read the story of present-day life, as it is reflected in society, as it is morrowed forth on the stage, as it is shown up in the law courts, as it is writ large on our book stalls, or if you will, as it is published in society journals, in the monthly magazines, in the weekly pictorial and in the daily press.

"With Mammon, then, asserting itself, as it does amid all sections of the community in this twentieth century, with home-life gone, with social life demoralized, with bi-products of materialism everywhere rampant, with our marts of industry like gambling hells, and the very streets like a nightmare, what, I ask, is to lift up and proclaim the interests of God against this devastating plague of frivolity, folly and riot? Before this tidal wave of paganism the Church of Christ was the one and only institution that was holding her own.

"The central point was that if they were to hold their own as Catholics they must get hold of them, and lean with all their weight upon his strong arm. Nothing but clinging Peter-like to Christ can save us."

French War Airships.

Villiers, France, Sept. 15.—President Fallieres witnessed the dirigible army maneuvres yesterday with six air craft. Aeroplanes were also engaged as scouts.

Illinois Primaries.

Chicago, Sept. 15.—Insurgency and legislative "jackpotting" are the issues being decided today at the Illinois primaries. The weather is ideal and a heavy vote is being polled.

CORPORATION OF THE DISTRICT OF BURNABY.
Bylaw No. 83.

WHEREAS Fourth street, Burnaby, being more particularly hereinafter described, has been used as a traveled road for several years past; AND WHEREAS doubts have arisen whether the whole of the said street has ever been actually dedicated to the public and the possession thereof vested in the municipality; AND WHEREAS is is advisable to establish and open the said street under the provisions of the "Municipal Clauses Act." THEREFORE the municipal council of the corporation of the district of Burnaby ENACTS as follows:

1. The street known as Fourth street Burnaby, and being particularly described as a strip of land forty-nine and a half feet in width, lying thirty-three (33) feet northeast and sixteen and a half feet southwest of the hereinafter described line, that is to say, commencing at the most easterly corner of lot twenty-eight (28), group one, New Westminster district, thence northwesterly along the line dividing lots 28 and 27, group 1, New Westminster district, for a distance of one thousand nine hundred and thirty feet more or less to its intersection with Seventh avenue in lot twenty-eight, group one, New Westminster district. ALSO a strip of land sixty-six feet wide lying thirty-three (33) feet on each side of the hereinafter described center line that is to say commencing at a point on the line dividing lot twenty-eight (28), group one (1) from lot twenty-seven (27), group one (1), distant one thousand nine hundred and thirty feet north westerly from the most easterly corner of lot twenty-eight (28), group one (1), New Westminster district ,thence north westerly along the line dividing lot twenty-eight (28), group one (1), from lot twenty-seven (27), group one (1), for a distance of one thousand seven hundred and seventeen feet more or less to the most northerly corner of lot twenty-eight (28), group one (1), New Westminster district, shall be and is hereby established and opened as a public road and highway.

2. For the purpose of definitely vesting possession of the said road and highway in the municipality of the corporation of the district of Burnaby, the council may enter upon, expropriate and take any real property that is necessary or convenient for the said purpose subject to the restrictions contained in section 251 and 252 of the "Municipal Clauses Act."

3. This bylaw may be cited for all purposes as the "Fourth street appropriation bylaw."

4. Passed by the council on the 23rd day of July, 1910.

RECONSIDERED and finally adopted, signed by the reeve and clerk and sealed with the corporate seal on the ..... day of ....., 1910.

REEVE. C. M. C.

This is to certify that the above bylaw is a true copy of one which is proposed to be reconsidered and finally passed on the 17th day of September 1910. C. T. SAUNDERS, C.M.C.

F. C. Birks, manager of the Rossland branch of the Royal Bank of Canada, is at present acting manager of the local branch, during the absence on his holidays of L. M. Richardson.

Pot plants and fresh cut flowers at Tidy's store. Phone 184. **

Hays-port will have a million and a half dollar cold storage to be completed early next year. Particulars at W. J. Kerr & Co., Ltd. **

Three drunks and two vagrants appeared in the police court yesterday. One drunk was interdicted and the other two were fined the usual $2.50 and costs. The vags were requested to leave the city.

For carnations, sweet peas and dahlias, phone Davies greenhouse, R 208. **

Meetings of the Y. M. C. A. building committee were held yesterday afternoon and evening, when the specifications for the building were discussed at length. Travelling Secretary C. R. Sayer was present and assisted in reaching decisions.

Hays-port lots sell for $100 up per lot, on easy terms, $10 cash and $5 per month. Particulars W. J. Kerr & Co., Ltd. **

Bush fires in the west end of the city have been giving the residents of that district some concern of late. George Mead's fruit ranch was threatened on Wednesday, but with the assistance of neighbors the fire was fought back before any damage had been done.

Seat sale for "Going Some" now open at Tidy's. **

Hays-port has the G. T .P. R. running through it and a large wharf nearly completed; also telegraph line. Particulars at W .J. Kerr & Co., Ltd. **

At a meeting of Post No. 4 of the Native Sons of B. C. yesterday evening, it was decided to tender a banquet to the Westminster lacrosse team on October 20, in the K. of P. hall. A committee, of which Alf. Johnston is chairman, has been named to look after details.

Hays-port command the very best as a fishing centre and will be a second Grimsby. Particulars at W. J. Kerr & Co., Ltd. **

Hector McCaigh has taken over the management of the opera house, succeeding W. N. Carty, who took charge early this week when Harry Tidy decided his other business interests were too great to permit his retaining the management. Mr. McCaig has had charge of the outside advertising of the theatre for some time, but has not had much inside experience. For the first few shows he will be assisted by Harry Tidy.

Davies greenhouse is the place to get bouquets, floral designs and all kinds of cut flowers. Phone R 208. **

A dog belonging to Sam Tompkins, who lives on the corner of Sixth and Agnes street, bit three children on Wednesday and yesterday Tompkins and the dog appeared at the police station. The dog came under guard, but Tompkins came by request. The court ordered the dog to be destroyed and Tompkins was fined $2 for keeping him. The dog will be kept at the police station for a week to see if he develops any signs of rabies.

W. E. Fales carries the best selected stock of household furniture in the city and prices defy competition. **

The Lancashire Old Boys held a successful meeting in the old Odd Fellows' hall last night, when they elected their officers as follows: President, George Hargreaves; first vice-president, W. Newsome; second vice-president, W. Archibald; recording secretary, E. Rhodes; treasurer, F. J. Jamieson; corresponding secretary, J. Ainsworth; guard, R. Turner; organist, J. Holmes; committee, T. Hall, A. Blackcock and J. Chadwick. The association will hold meetings every first and third Thursday in each month; one a social and the other a business meeting.

Irons beds and bedding, the largest range of designs and prices. W. E. Fales. **

The trial of Edward Goudy, charged with taking part in an affray on a public street, came up yesterday morning, but as there was a witness for the defence who could not be obtained, it was postponed till 4:30 in the afternoon. When the case was called in the afternoon the witness was still missing, although an automobile had been sent for him. He was out in Surrey and could not get in on account of the fires. At the request of J. R. Grant, lawyer for the defence, Magistrate Edmonds adjourned the case until Monday morning at 9:30 o'clock.

Girls wanted to learn millinery business. Apply at once Mrs. Moore, opposite post office. **

H. M. Addison, advance agent of "A Stubborn Cinderella," was in the city yesterday arranging for the coming of his show, which will occupy the board here on Saturday, September 24. Mr. Addison is one of the breeziest press agents that has visited this city for some time, and has a scheme to boost his production that will eclipse anything ever attempted in this province. Hazel Kirke, leading lady in the show, and the last Minto Cup match between the Westminsters and the Nationals, are included in the scheme, but until details are perfected particulars are withheld.

Hays-port has a great future; particulars at W. J. Kerr & Co., Ltd .**

The Salvation Army will hold a musical meeting and social in the S. A. hall, Eighth street, on Friday, September 16, at eight o'clock p.m. Admission 15 cents. The new library will be unveiled same evening. **

The long enjoyed freedom of tagless dogs in the city of New Westminster will only last a day or two longer. Poundkeeper R. H. Batt has issued an ultimatum that tags must be secured. There are already over 500 tags issued and the other day the supply ran out and some 1908 tags were used. Now there is a fresh supply on hand and anybody owning a dog without a tag is in danger of the law. The poundkeeper has the names of a dozen or so citizens who have not provided their dogs with the necessary passport and unless they do so at once they will be summonsed to appear in the police court.

The Central Park Agricultural association exhibition, which opened yesterday, is without a doubt the best that has yet been seen in that district, the fruit and flower classes being especially good. Another feature of the show is the poultry section, which is attracting much attention.

The Public Supply Stores

You Need

groceries at all times, and our store is the right place to make your purchases.

We have the best groceries in town. Our bottled and canned goods, flour, butter, eggs and other staples are noted for their excellent qualities. They make good eating possible, and that means good health.
