POLICE IN CONTROL OF BERLIN STRIKERS

Gathering in Streets Dispersed by Armed Squads—Many Hurt.

Berlin, Sept. 29.—Disturbances in the Moabit prencinct this evening were slight as compared with the preceding days. A strong force of police, fifty of whom were armed with carbines, prevented gatherings in the streets, which were more crowded than ever.

The authorities rigidly enforced the closing of doors and windows in all houses.

Several minor skirmishes occurred and about twenty persons were seriously injured.

The minister of the interior, Herr Von Dalwitz, remained on the scene for several hours.

At midnight all was quiet.

Berlin, Sept. 29.—Realizing that unless the strike disorders in the Boabit section of Berlin are speedily suppressed, the capital will soon be in the grasp of the lawless, the Berlin press today united in a clamorous demand for "blood and iron" methods in the treatment of strikers and their sympathizers.

Since 1 a.m. today the city has been quiet, after one of the wildest nights of rioting in its history, during which approximately 200 police and strikers were injured.

Police Commissioner Von Jagow made a significant remark today that "there will not be more than one night more of rioting."

The authorities have called upon all the "peaceably inclined residents of the affected district to remain in their homes until order is recovered."

"Suppress disturbances without mercy" were Police Commissioner Von Jagow's orders today. The police followed their instructions to the letter. They rode down and sabered mercilessly wherever a group of people gathered in the district of Moabit.

The correspondents of Reuter's Telegram company, the New York Times, the New York World and the New York Sun were among the victims while watching the progress of events of the evening from motor cars. Police swept down upon them with drawn sabres, apparently without provocation. Reuter's representative was wounded severely in both hands, while the other correspondents were badly bruised. They were saved from further injury by dashing at full speed to the nearest "first aid" station, where their wounds were bandaged.

SHARK MEAT DAINTY FOOD, SAYS SAVANTS

New York, Sept. 29.—Shark meat is dainty of high quality, according to savants who are here attending sessions of the American Fisheries society. They declare that the meat is quite edible and that only a foolish prejudice keeps it from being served as a delicacy.

One scientist said he preferred shark to lobster. Professor Theodore Gill declares shark meat broiled "has a flavor as fine as anything that comes from the water."

Several delegates expressed a belief that the cultivation of the shark as a food fish might do much to solve the problems of the higher cost of living.

A discussion of caviar occupied a section for three hours. Dr. Louis Hussakoff, of the American Museum of Natural History, said that most of the caviar sold in this country is made from the roe of the Mississippi spoonbill, and not from the sturgeon. He assured consumers, however, that the home product is "as good, or possibly better, than the genuine."

CHINAMEN GUILTY OF REVENUE STAMP FRAUD

Tacoma, Sept. 29.—Lock Fuhn and Hong Hue, prominent Chinese merchants of Olympia, pleaded guilty in federal court to indictments presented by the grand jury of having sixty-four empty opium cans in their possession with the revenue stamps uncancelled. The penalty is a fine of $50 or ten days' imprisonment for each offence. Judge Donworth will sentence them October 27.

Seven indictments were returned by the grand jury, five against Chinese and two against white men, for smuggling.

Fate Plays Odd Trick.

Webb City, Mo., Sept. 29.—Shortly after J. W. Ayler had filed a suit for $87,000 against a man who sold him a 7000-acre farm in Texas, alleging he had been defrauded, he received word yesterday that lightning had struck a ledge on the property and exposed gold ore of such purity that he probably would be made independently wealthy. Ayler has withdrawn his suit.

Dandy Dies Poor.

New York, Sept. 29.—The will of the late "Freddie" Gebhardt was filed for probate yesterday. The petition sets forth that the one-time society leader died worth "less than $10,000." It bequeaths the entire estate to Mrs. Mary Isabella Neilson, Mr. Gebhardt's sister.

INDIAN FREIGHTER KILLED ON LYTTON-LILLOOET ROAD

Big Mouth Jack, Driving Four Horse Team, Falls Over Precipice and Is Dashed to Death.

Lillooet, B. C., Sept. 20.—(Special to the Daily News.)—An Indian freighter named Big Mouth Jack, or Jack Clahan, a couple of days ago drove over the bank of Seven-Mile hill on the Lytton-Lillooet road and was dashed to immediate death. At the time of the accident Big Mouth Jack was driving four horses and in charge of a load of coal oil.

Seven-Mile is a long steep hill with several dangerous curves. There are sheer drops of from fifty to a hundred feet into the Fraser river at several places. Some of these are notorious as death traps among the freighters of the district.

MISSION FAIR.

Exhibits of Farm Produce Well Above Average—Attendance Good.

The annual exhibit of the Mission Agricultural society took place in Mission park yesterday, the fair being opened by J. D. Taylor, M. P., who was introduced by President Abbott. W. Manson, the local member, followed Mr. Taylor and delivered a short speech, in the course of which he instanced improvements on the Dewdney Trunk road which had long been promised by the provincial government and which were still waiting completion.

The showing of roots, vegetables, butter, cheese and bacon was especially good, while the cattle and horses exhibited left little to be desired.

The attractions of the day included a lacrosse match, won by the Indian school boys, who defeated the Mission boys by seven to one, a football match in which Abbotsford proved victorious over Mission by one goal to nil, a tug of war and various other interesting events.

MONEY FOR MISSIONS.

Women's Missionary Society of Canada Spent $112,781.67 Last Year.

Ottawa, Sept. 29.—The financial report of the general board of the Women's Missionary Society of Canada, presented by Mrs. Vance, of Toronto, is as follows: Amount of cash on hand, $27,824.92; total receipts for year, $230,228.31; total expenditure, $112,781.67.

The sum of $40,434.00 was spent on Japanese work; $21,023.41 on Chinese work, and $13,410.64 for work among Indians.

MAKING UP LIST OF SUPPLEMENTARY VOTERS

Men Wishing to Have Say in Selection of Solons Must Register with Clerk Before November 1.

There is an impression abroad among many of the residents of the city that unless they own some property and pay taxes, they have no vote in the municipal elections which will be held in January. This is not the case and City Clerk Duncan has issued a notice specifying the qualifications for a man to be placed on the supplementary voters' list. People on this list may vote for mayor and for aldermen, but may not vote on a money by-law.

The applicant must be a British subject of the full age of twenty-one years and have been a resident of the city for six months immediately preceding the date of application, and having during that time paid as a householder a rental of not less than one hundred dollars a year.

It is necessary for the applicant to take a declaration that he can qualify under these conditions. All applications must be in not later than November 1 of this year for the voters' list will be printed then and only those on the printed list will be eligible to vote.

The names of property owners are kept on a separate list, but the owner of $1,000,000 worth of property has no more actual say in the elections than the man living in a shack and paying his hundred dollars per year.

Police Chief Asks Retirement.

San Francisco, Sept. 29.—A petition for retirement on half pay, with the rank of captain, was filed yesterday with Acting Chief of Police Wall by Chief John B. Martin and submitted to the police commissioners. According to the expressed intention of the latter, the petition will be granted without opposition. At present the chief is on a vacation.

China on Eve of Revolt.

Washington, Thursday, Sept. 29.—Advices have been received from American officials in the Orient that a critical situation exists in China, and an outbreak similar to the Boxer rebellion of several years ago would not surprise close observers of the recent trend of events.

LIGHT UP.

On behalf of C. Rummel, manager of the B. C. E. R. light and power department, P. T. Bowler, city electrician, requests the city merchants on Columbia street to have all their store windows lit up this evening from nine o'clock to nine thirty, as arrangements have been made to take photographs of the main street at night and the brilliancy from the store lights will add considerably to the attractiveness of the pictures, which are to be used for publicity work.

SPLENDID MUSIC ASSURED FOR FAIR

Wagner's Band Will Play Eight Selections a Day—Exhibits Coming in.

As the day for the opening of the big exhibition draws near the exhibition grounds are beginning to take on more and more of a festive appearance. There are sounds of hammering coming from all the buildings; groups of men are seen standing here and there about the grounds, trying to conjure up in their imagination how a tent would look here, or a booth there.

Close to the fisheries building there is already a tent erected. Moving pictures will be shown there.

In the secretary's office a small army of clerks is busy sorting out the entries and warding off people who wished to enter, but who came too late. Manager Keary is demanded on all sides, but he is the busiest man in the office and if any of the supplicants insist on seeing him personally, they have to await their turn.

As yet no stock has arrived, but fruit and vegetables from up the country are being received every day. Yesterday fruit came from Salmon Arm, Summerland and Lillooet, but these exhibits will not be arranged until Monday.

Strathcona and Edmonton, Alberta, are already on the ground in their old stand in the agricultural building. Beneath the great sign "Strathcona-Edmonton, the Garden of Alberta" there are a dozen huge packing cases, from which are being extracted fruits, vegetables and grains. The district exhibits have not made much progress as yet, but now that all the district fairs are over, work will be commenced on them at once.

In the manufacturers' building the Walsh Sash and Door factory are getting up a splendid exhibit of the products of their factory. Here also Gilley Brothers will have a fine display and T. J. Trapp & Co. have most of their exhibits in position. The Majestic Stove and Range company has a large number of stoves there ready to be placed in position.

Manager Keary yesterday received notification from Alexander Robinson, superintendent of education, that the Vancouver schools would be closed on Friday so that the children might come over to the provincial exhibition.

Lieutenant F. J. Wagner, of Seattle, has forwarded a program of the music which his famous band will play here on three days of the fair. They will play eight or nine selections every afternoon and evening on October 6, 7 and 8. The selections chosen are varied enough to suit the tastes of every one and the music ought certainly to be a great attraction.

The exhibition will open on Tuesday and for five days the city will be turned over to the visitors from all parts of Canada and from a great many American points.

Altogether Manager Keary expects that the exhibition this year will far exceed that of any previous year and he thinks the attendance will correspond to the quality of the fair.

CITY OF TACOMA SUES TO RECOVER CASH PAID

Tacoma, Sept. 29.—The municipal commission yesterday decided to instruct the city prosecutor to commence suit against Contractor J. E. Bonnell to recover the sum of $12,000 paid by the city to the widow of John Ohstrom, who was accidentally electrocuted February 1, 1909. Ohstrom met his death in the wholesale grocery establishment of the Younglove company. Sued by the widow, the city was forced to pay the sum named as damages.

Since then, Assistant City Attorney Frank R. Baker has obtained evidence to show that the accident was due to a short circuit caused by a plank falling from the F. S. Harmon building, on which Contractor Bonnell had a force of men at work. The action of the commission was taken upon the advice of Mr. Baker.

Seek Raise in Pay.

Spokane, Sept. 29.—The Chronicle says a movement whereby all commercial telegraphers in the United States shall make a concerted demand for increased wages on April 1, 1911, has been started.

India Mills Close.

Bombay, India, Sept. 29.—Announcement is made that in consequence of the high price of cotton and the general depression of trade, seven of the largest cotton mills in Bombay will shut down tomorrow and will remain closed for an indefinite period.

HOOKWORM AFFLICTS HINDU IMMIGRANTS

Discovery Made at 'Frisco May Serve to Restrict Influx of Orientals.

San Francisco, Sept. 29.—A discovery that may prove far reaching in its effect on Oriental immigration to this country has been made, it is announced today, by Dr. M. W. Glover, of the Angel Island immigrant station here. His discovery is that the Hindu is a victim of the hookworm disease.

Of seventeen Hindus now being held at the hospital on the island all but five, it is said, have been found to be suffering from the peculiar malady. It is further announced that two Chinese immigrants, the only ones of that race to be examined, have been shown to be afflicted with hookworm.

A federal statute debars aliens afflicted with dangerous contagious diseases from landing in this country. That hookworm falls under this classification is a contention advanced here by those who profess to see in Dr. Glover's discovery the checking of further Hindu and perhaps other Oriental immigration into the United States.

The secret of the discovery, which was made after extensive laboratory tests on Angel Island, had been carefully guarded by Dr. Glover and his associates, who have been engaged in the work of analysis for the last four weeks.

For the last four months Hindus have been entering this port at the rate of over 300 a month.

Considerable agitation against the Hindu invasion has been in evidence of late throughout the Pacific coast states.

CHINESE CONSUL RETIRES.

Dr. Kung Is Leaving for China—Mr. Wong Is Successor.

Ottawa, Sept. 29.—The announcement is made that Dr. Kung, Chinese consul to Canada, has tendered his resignation to the home government and will leave at the end of next month for China. Dr. Kung has not been in good health for some time and desires a change. His successor will be Mr. Wong, consul at Nagasaki.

TINSMITH FLAVORED BOSS' TEA WITH ACID

Brockville, Ont., Sept. 29.—Charles Landers, a tinsmith, appeared in the county judge's criminal court today, charged with attempting, on May 30 last, to poison Thomas Sheridan, his employer, by administering soldering acid in some tea which Sheridan brought for his lunch. Half a dozen witnesses were heard. The case was adjourned until October 10 to secure more evidence.

RECEIVED MONEY FOR SUPPORTING LORIMER

Chicago, Sept. 29.—Representative K. J. C. Beckemayer, on the witness stand before the Lorimer investigation committee today, testified that he received $1000 for voting for Senator Lorimer. Beckemayer is the third legislator to declare that he was given money for his vote in the senatorial election.

EYES OF CANADIANS OPENED IN ENGLAND

London, Sept. 29.—S. B. Blatchford, in the course of an article in the Clarion, the Socialist organ, apropos of the army manouvres, says the Q. O. R. brought with them the conviction that the mother country was decadent and Englishmen degenerated. The Ontario men are returning astounded with the falsity of this view.

Socialist Ticket Named.

Albany, Sept. 29.—The state ticket of the Socialist labor party was filed by petition with the secretary of state today. Frank L. Passano, of Troy, is candidate for governor.

Sensation Coming.

Goderich, Ont., Sept. 29.—Dr. S. Parsons, who conducted the post mortem examination on Lizzie Anderson, who was found slain in a deserted house on Sunday, reported that they will have something of a sensational nature in their testimony at the resumed inquest. They state that their examination has given clues on which the police are now working.

CONGRESS DISCUSSES CHURCH LIFE IN CANADA

Canon Welch Comments on Christian Unity of Religious Denominations in the Dominion.

London, Sept. 29.—At the church congress held at Cambride, Canon E. A. Welch, in the course of a discussion on Christian unity, speaking from a Canadian viewpoint, testified to the amount of co-operation for moral and social reform among the religious denominations of Canada and the consequent general morality which was, at least in some respects, better than in England.

He referred to the snobbishness which sometimes characterized the relations between the churches, and said that in temperance work Canada was almost a negligible factor.

There was no divorce court in the Dominion, and the laws were better than in England, declared Canon Welch.

ROOSEVELT TO STUMP IN NEW YORK STATE

Saratoga, N. Y., Sept. 29.—Colonel Theodore Roosevelt's next important move in the New York political situation will be to stump the state in the interest of Mr. Henry L. Stimson, of New York City, the Republican nominee for governor. Mr. Stimson was nominated last night over the candidate of the "old guard," Representative William S. Bennett. This was another victory for the former president of the United States, who personally led the fight for Mr. Stimson. The Roosevelt forces have made a clean sweep of the convention.

Colonel Roosevelt will not cancel his southern trip, which begins on October 6, or his trip to Iowa in November.

FALL TWENTY-FIVE FEET.

Seven Men Go Down with Scaffolding in Winnipeg.

Winnipeg, Sept. 29. — About 7:30 o'clock this morning the scaffolding erected by the Manitoba Clothing company, Main and Rupert streets, collapsed, throwing seven men twenty-five feet to the ground. S. Sensone, a bricklayer, a young Englishman, received internal injuries from which he will probably die. Three others are in the hospital. This was the building which partially collapsed last week while excavations were being made on an adjoining site for an hotel.

AMBASSADOR BRYCE TO HELP RECIPROCITY

Negotiations Between Canada and U. S. to Be Resumed This Fall—No Jug Handled Agreement.

Ottawa, Sept. 29.—The statements contained in recent dispatches from the United States, indicating that the British ambassador at Washington has consented that negotiations between the two countries, in place of being carried on through the embassy, are not confirmed here. The understanding is that negotiations will be resumed this fall, and they are regarded as being in the light of a continuance of the conferences of the spring. As the latter were more or less direct, the same method will be followed largely, but, it is said here, the good offices of Ambassador Bryce also will be utilized.

Just who will make the first move in the reciprocity negotiations is not known, but in view of the independent attitude Canada has assumed, it is almost safe to say that the first step will be made by the United States, and that it will be made very soon. It is quite possible that there has already been an informal exchange of views between Finance Minister Fielding and Secretary Knox, of Washington, but as to that there is yet nothing definite known here.

As to Canada's attitude, it is what has been stated by Sir Wilfrid Laurier on various occasions in recent months. The Dominion government is quite ready and willing to resume the negotiations which were broken off last spring, owing to the pressure of other business, and will agree to any reasonable measures of reciprocity, but will not agree to any jug handled agreement which would benefit the United States more than Canada, or do injury to Canadian industries.

There is much support here for the argument that at a time when the low tariff party in the United States seems to be nearing the attainment of its aims, it is an inopportune moment for Canada to consider giving any concessions to the United States in return for tariff favors, when such favors are likely to come in the natural course of events, following the somewhat anticipated triumph of the tariff reduction propaganda in the United States. It can be safely assumed that, if any agreement is made with the United States it will have to be a fair bargain for this country, and failing that, there is likely to be no agreement whatever.

SPLENDID TA NT FOR SCOT CONCERT

Singing, Piping and Dancing Will Delight Sons and Daughters of Scotia.

The plan for the Scottish concert to be held in the opera house on the night of October 5 is now open and seats are on sale at Ryall's drug store. The men in charge of the concert have been very successful in their search for talent and the concert is sure to be a memorable one.

The program, which has already been printed, is the best that could be secured and every Scotchman and his family should be there to see the dancing and hear the piping. There are so many first rate attractions that it would be difficult to say previous to the concert which is the best that has been secured, but the patrons of the concert will have the satisfaction of knowing that they are the best procurable.

The following is the program in full:

Bagpipe selection, Clan McLean pipe band; song, "Down the Burn," Mrs. D. C. Reid; song, "Afton Water," R. Morrison; exhibition piping and dancing (pipe selection, Highland Fling, double sword dance), Miss Laura and Miss Mabel Davidson; song (character), "I Took the Prize," Bob Robb; Highland dancing, juvenile championship competition; song, "Rothesay Bay," Miss Alvina Munn; song, "The Hale Rick Ma Tick," J. G. Brown; Highland dancing, juvenile championship competition; duet, "The Token," Miss A. Munn and R. Morrison; bagpipe selection, Clan McLean pipe band; pipe selection, the winner of the championship; song, "They're Far, Far Awa," J. G. Brown; dancing exhibition, winner of the adult championship; song, "Selected," R. Morrison; song, "Bonnie Sweet Bessie," Mrs. D. C. Reid; song, "Mary McPhee," Bob Robb; exhibition dancing (double hornpipe), Miss L. Davidson and Miss M. Davidson; trio, "Who'll Shut the Door," Miss Alvina Munn and Messrs. Brown and Morrison.

Accompanist: Miss Olivia E. S. Kentish Rankin (licentiate of the Royal academy of Music).

KING NARROWLY ESCAPES.

Emmanuel of Italy Nearly Struck by Aeroplane.

Milan, Sept. 29.—King Emmanuel and cousin, the Count of Turin, had a narrow escape here yesterday while inspecting aeroplanes at the aerodrome. Aviator Simon failed to observe that the King and the Count were walking in front of him and started his machine. It swept toward them at full speed. There were loud cries from the alarmed spectators, the King and the Count threw themselves to the ground and the machine just cleared them.

UNITED STATES SENDING TROOPS TO CHINA

Washington, Sept. 29.—Washington is excited today over the news that United States troops at Manilla were preparing to embark for China.

There is no known reason why China should ask for protection from the United States, and, if it did, why the order for the sending of the troops should come from Manila. Nevertheless, the news is the chief topic of conversation here. Officials in a position to know profess ignorance of the order.

SULTAN OF MOROCCO BUYS TWENTY AREOPLANES

Paris, Sept. 29.—An Englishman named Wilkinson, representing the sultan of Morocco, has been in Paris this week buying aeroplanes for the sultan, who expects to use them for mail transportation between Fez and Tangier.

As mail is now despatched, it requires five days to reach Fez from Tangier, whereas an aeroplane could traverse the distance in six hours. The sultan has ordered twenty machines.

The ruler of Morocco is also establishing wireless stations, with which he expects to communicate from Fez to Europe by means of French warships, which receive at Tangier messages from the Eiffel tower.

Patten's Brother Dead.

Chicago, Sept. 29.—George W. Patten, retired millionaire board of trade operator and brother of Mr. James A. Patten, died of tuberculosis at the James A. Patten residence in Evanston, Ill., last night.

No Chance.

London, Sept. 29.—In reference to the reported proposal to import Chinese for the construction of the G. T. P., the Morning Post says there should not be the slightest chance of Canada trying again the disastrous experiment of importing Asiatic labor, and points out the benefits of employing white navvies.

Sir Frederick Borden Mentioned for Lieutenant-Governor of Nova Scotia.

Winnipeg, Sept. 29.—The Evening Journal says there is a possibility that Sir Frederick Borden may become lieutenant-governor of Nova Scotia to succeed the late Hon. D. C. Fraser. It is well known that the minister of militia during late years has lost much of his interest in politics and some time ago expressed a desire to be rid of the cares of office.

A report from St. John, N. B., says it is rumored there that Senator McGregor will be appointed lieutenant-governor and that H. T. Logan will go to the senate.

ONE MINUTE!
Mr. Non-Advertiser

IN the matter of advertising we are after your business. The Daily News, Westminster's Morning Paper, is the medium through which the merchants and business men set forth to the public what they have to offer them during the day.

The Daily News is delivered to all parts of the city before breakfast time and is read by all citizens before they commence their daily occupations. The busy housewife snatches a few minutes to glance over the various bargains offered for the day and arranges her household purchases accordingly.

If you are a "Doubting Thomas" our advertising man will set you right. The way to get business is to advertise. Advertising is the life of trade and if you, Mr. Non-Advertiser, whatever the nature of your business, desire to sell some particular line, a snap in realty, or a new variety of goods, as the case may be, what better can you do than advertise in the morning paper.

DESPICABLE JOKE IS PLAYED ON A CHURCH

Bogus Cheque for $500 Sent in Answer to Appeal for Aid in Building New Edifice.

Toronto, Sept. 29.—Some unknown joker in the city is responsible for a most contemptible trick, the victims of which were the rector and wardens of St. Barnabas church, Chester. In reply to an appeal which the officers of the church have made for money, the persons with the blackguardly sense of humor sent them a present of a cheque for $500, which upon presentation proved to be worthless.

The whole circumstances of the case are very mean. St. Barnabas church is situated in a part of the city which has been growing very rapidly, and the congregation found enlarged accommodation necessary. The new building was started last June and it is about half completed. An effort was started a few weeks ago to raise an additional $5000 and last Sunday the Rev. Frank Vipond, rector of the parish, made an urgent appeal for $600 to meet the immediate requirements. On Wednesday morning his mail included a letter which enclosed a cheque for $500. This cheque was made out on the Bank of Toronto and bore the account number 91, the sender and donor being C. P. Osgrave, whose address was given as 16 Park road. The letter had every appearance of being authentic, and Mr. Vipond immediately wrote a warm letter of thanks to the unknown friend of the church. Without delay he sent the cheque to the bank and notified the parish officers that enough money had been forthcoming for immediate necessities. Yesterday morning, Mr. Vipond received word that the cheque was a bogus one and that the Bank of Toronto had no such account. He then proceeded to make the investigation which he had neglected when the welcome cheque arrived and relieved the financial situation. He discovered that there was no such person as C. P. Osgrave, and there was not a house at 16 Park road.

An effort will be made to find the perpetrator of the trick. If the matter were placed in the hands of the crown proceedings could be instituted as the issuing of such a cheque is a criminal offence.

INDUSTRIAL HOME FOR PAROLED MEN FOUNDED

Seattle, Sept. 29.—An industrial home, where discharged and paroled prisoners may obtain employment and a place of abode, has been established at Port Orchard by the Society for the Friendless. Rev. A. J. Steelman has been appointed the divisional superintendent.

Rev. H. D. Brown who, with his wife, is in charge of the home, in speaking of the institution, said:

"The industrial home will do much towards solving the problem of discharged prisoners. Discharged and paroled men find here a home of sympathy and encouragement. They soon obtain employment elsewhere. At this home they do not go in debt for board and are not supported by charity. The result so far has been very encouraging."

TARIFF NOT EVERYTHING.

More advertising, rather than more tariff, is what many Canadian manufacturers need.

Imports from the United States keep mounting up. The invasion of our manufacturing field by Americans goes on apace with the invasion of the prairies of the west by farmers from the United States.

The advertising of the Americans is distributed through Canada by the periodicals of the United States, as well as by our own newspapers. When the American comes across the line he employs in Canada the same methods of advertising which have built his business at home. He employs the same complete sales organizations.

He is accustomed to large advertising expenditures across the line. He has seen firms, insignificant in size, located in small centers of population, grow to national fame and importance through the agency of publicity and so he uses the same methods in Canada and gets the business.

Many Canadian firms are just as well organized and just as aggressive. Many of them are extensive advertisers in proportion to the size of their field. Many put out advertising just as effective and brainy as any in the United States. The brands and firm names of many Canadian manufacturers have become household words through the excellence and continuity of their advertising.

But Canadian manufacturers as a whole are not as agressive as they should be. There is a tendency on the part of many towards "letting the tariff take care of us." Their goods are branded, perhaps, but the makers do not tell the people why they should "demand the brand." It would pay them to pay more attention to their publicity.

More advertising, rather than more tariff, is what many Canadian manufacturers need.—Ottawa Press Press.

LOCAL IMPROVEMENT NOTICE.

WATCH REPAIRS

Probably that watch of yours is not giving you proper satisfaction. You have had it in the repair shop, but, while it is running, will not run accurately. The reason for dissatisfaction is that the man who did the repairs is either incapable or doing good work or is not conscientious in his work, or, in all probability, he is gifted with both of the faults mentioned.

We have been fortunate in securing the services of a first class watchman who has taken charge of our watch repair work. A man who will tell you the truth in regard to the condition of your watch, and will repair it properly, and, as a consequence, it will not only run, but keep accurate time.

SPORTING NEWS

PROGRAM ARRANGED FOR SCOTTISH SPORTS

Everything in Readiness for Big Event on Oct. 5—Chairman is Energetic.

The managers of the Scottish sports for the provincial exhibition on October 5 have everything in shape now so that they would be all prepared if the games were called for this morning. This timely preparation has been due in a large measure to the indefatigable energy of Rev. A. E. Vert, chairman of the committee.

Mr. Vert has not only arranged the program and made arrangements for the businesslike handling, but he has personally interviewed some of the entrants and it is now assured that there will be some of the best sports ever seen in British Columbia on the exhibition grounds during the fair.

In arranging for the sports no detail has been left out. A meeting was held recently when men were appointed to look after every department of the games and they will be carried through without a hitch and without unnecessary delay.

The following are the officials who will be in control at the grounds:

Directors of piping and dancing, A. J. Gray, W. Robertson; field judges, A. D. McRae, H. Gunn; track judges, J. Sutherland, T. Davidson; timekeepers, J. B. Gray, W. Gifford; announcer, G. McMurphy; starter, Rev. A. E. Vert; field secretaries, J. W. Forrester, A. J. Muirhead; scorers, A. Adams, Sid Malcolmson; markers, D. MacKenzie, R. C. McDonald; weight returners, J. Ross, W. F. McIntosh; judges of piping, J. A. Rennie, Duncan McRae, T. Smith; judges of dancing, J. Henderson, Kenneth Beaton and one more to be appointed.

Montreal Will Bolt the N. L. U.

Montreal, Sept. 29.—An important development in the lacrosse situation is the determination of the Montreal lacrosse club to leave the ranks of professional lacrosse by severing its connection with the National Lacrosse Union. This will necessitate a rearrangement of the union's forces next year. It is stated that leading members of the Montreal Amateur Athletic Association are disgusted with their experience of professional lacrosse, hence the decision to withdraw the club. They think that lacrosse is being run too much on the lines of American baseball.

LEMBERG "COMES BACK," WINNING $50,000 RACE

S. Morrison's Dibs, 100 to 6, was second, and W. Hall Walker's Ulster King, 100 to 1, was third. Also rans included St. Michan, Duke Michael, Charlemont, Dumella, Bernard and Star of Naples.

INTERNATIONALS PICKED TO MEET VANCOUVERS

Cornwall, Ont., Sept. 29.—The team to represent Cornwall for the Mann Cup will be the Internationals, champions of the Interprovincial Intermediate league. They sent in their challenge the early part of the week and it was accepted by the cup trustees and the local boys have been notified that they have been drawn to play against the Vancouver team on Saturday in Toronto.

The Internationals have not lost a match this season.

ROVERS MAY NOT CLASH WITH ISLANDERS TOMORROW

Boys from Westham Island Have Small Hope of Mustering Team for Football Game.

Although the Rovers are scheduled to play a football game with Westham Island tomorrow, it is doubtful if they will go down. Many of the Westham Island players are at the Victoria exhibition with exhibits which they are not allowed to take away until Saturday night, so that they will not be able to get back in time to play.

Ed. Murchie was waiting for a phone message from the island last night, when they were to let him know definitely whether they would be able to play or not, but the message never came. Under the circumstances it is hardly probable that the boys will go down.

The Rovers have been practicing consistently for more than a month and are in great shape to meet any of their old time rivals. They anticipate no great difficulty in beating Westham Island when they do meet, although the Islanders handed them a couple of defeats last year.

INTERMEDIATE GAMES AS CURTAIN RAISERS

As curtain raisers to the big games at the exhibition on Tuesday and Thursday the intermediate lacrosse teams will play a couple of games. The first will be between the West End and Reginas and on Thursday the winners will meet Sapperton. If Sapperton wins the game they have landed the city league championship, but if they lose they will be tied with the winner of the first match. The games will be called early in the afternoon, so that it will be finished by the time the professionals are scheduled to play.

Baseball on Saturday.

If nothing unforseen happens the Maple Leafs and Balmorals will play two seven inning baseball games on Saturday afternoon at Queens park. The games have to be played and the players do not seem to be able to find time to play them any other day except Saturday. The Balmorals must win both games or they will be out of the running for the city league championship.

TEAM UNCERTAIN.

Champions Will Play Nationals In Vancouver Tomorrow.

There seems to be some doubt as to what kind of a team is going to represent Westminster at Vancouver tomorrow when, for the third time, they tackle the Nationals. It has been reported that Tommy Gifford, Len Turnbull and Charlie Galbraith will not play, but one of them will have to play or there will be only eleven men on the field. Although the team has not been picked yet and it is hard to say who will play and who will not, it is hardly probable that Tommy Gifford will stay out of the game. Charlie Galbraith will not play and it is quite likely that Len Turnbull will take a rest. In that case Pete Latham and Hughie Gifford will be given something to do, but if anybody else stays off Manager Welsh will have to grab a stick, for Tom Rennie is not likely to get busy and there are no more players stored away in the refrigerator compartments of the little red dressing rom.

Lalonde has recovered and will be back at his old position. Laviolette, who had a sore toe, is also better and may play.

During the exhibition the Nationals and Vancouvers will provide the lacrosse on Tuesday and Thursday. On Saturday a picked team from the Nationals and Vancouver will see what they can do with the champions.

MISSES MABEL AND LAURA DAVIDSON,
Pipers and Highland dancers, who will be seen at the opera house on Wednesday evening taking part in the Scottish concert.

TOO LITTLE.

Matt Barr Likes Not the Figures on His Cheque.

Matt Barr will handle the game on Saturday alone as Lionel Yorke will be unable to act. This will be the Nationals' first experience in some time with the single referee system, but they figure that Mr. Barr can look after everything nicely. Matt, by the way, is at odds with the New Westminster club executive over the fees for the referees in the Minto Cup games. Matt was not satisfied with the size of the cheque sent along for his services, it not being the customary amount for cup games, and he returned it to Secretary Ryall, of the Westminster club.—Province.

Nothing has been made public here about financial difficulties with Matt. He is quite satisfactory as a referee to most of the members of the Westminster team.

BEAVERS FOR 1911.

Ruby Robert Has Strong Men in Line for Next Season.

Vancouver, Sept. 29.—With the 1910 season scarcely closed, Manager Brown has already almost completed his 1911 Beavers and with another good outfielder and a third baseman of Dick Breen's calibre, the "sorrel topped" leader will be happy. The Beaver manager has had a number of good men on the reserve list, and it is a safe bet that the fans will be given another team that will be even closer than the 1910 near champs.

Following is the list of players now under contract to the Vancouver club:

Catchers—Joe Sugden, Carl Lewis.

Pitchers—Gus Thompson, Ed. Erickson, George Engle, Erve Jensen, Lee McQuarry, Guy Buckles, Lloyd Skillman, W. C. Thiele, Frank Courtney, Jimmy Clarke, Pete Standridge, Ed. Flanagan, W. Rasmussen.

Infielders—Julie Streib, Bobby James, Harry Scharnweber, D. Bolin.

Outfielders—Jimmy Adams, Eddie Householder, Jim Flanagan and Pat Flanagan.

Open New Race Track.

Montreal, Sept. 29.—The inaugural trotting and pacing meeting of the King Edward Driving Park association opened today at the association track, which is situated on Ise Brosbois in the St. Lawrence river, a few miles from this city. The meeting will continue one week, during which time $6000 will be distributed in purses.

TEMPERANCE MAN IS NEW LORD MAYOR OF LONDON

Sir Thomas Strong Elected to Position Without Opposition—Will Play Part at Coronation.

London, Sept. 29.—Sir Thomas V. Strong today was elected lord mayor of London without opposition. Sir Thomas is a temperance advocate and enjoys the distinction of being one of the few teetotolars chosen as chief magistrate of the metropolis. He was born in 1857 and in 1900 married the eldest daughter of the late James Hartnell.

The lord mayor elected today will be sworn in on November 8, and the following day, as usual, will be marked by a general holiday and a great civic pageant. The lord mayor of London receives a salary of $50,000 a year and lives in the famous Mansion House, opposite the Bank of England, the home of the chief executives of London since early in the eighteenth century. By right of office, the lord mayor will become a chief butler and cupbearer to his majesty and the mayor elected today will play an important part in the exercises and ceremonies attendant upon the coronation of King George next June.

In addition to being provided with a big salary and a mansion, the lord mayor has many other perquisites. The municipal government provides him with gentlemen in waiting, a pursebearer, a swordbearer, a marshal, a chaplain and a personal hangman. Of late years the last-named job has been something of a sinecure, but there was a time when the lord mayor had only to speak the word to provide a victim for the gentlemanly executioner. In theory, King George himself cannot legally enter the city of London without the permission of the lord mayor, and the same prohibition applies to all the soldiers of the British empire. Theoretically, the lord mayor of London is about the most powerful despot to be found in any civilized land. Actually, he has less power for good or evil than the mayor of an average Canadian city.

CZAR BUYS NEW FRENCH ARTILLERY

St. Petersburg, Sept. 29.—It has just been discovered that the Russian government has ordered new artillery abroad at Le Creusot for some 3,000,000 roubles, despite the pledges to the Duma that orders for fresh ordinance would be given to Russian works. The only plausible course for this deviation from the professed policy of encouraging national industries is that the French works are liable to deliver six months earlier. This explanation is not considered satisfactory in view of the present state of universal peace. It is rumored that the actual reason for this exceptional favor shown a foreign firm is due to female influence on high personages connected with the department concerned. Great indignation is being manifested in the matter, and it will no doubt form the subject of a heated debate in the Duma as soon as the session reopens.

MILLION DOLLAR MERGER IN BISCUIT CONCERNS

Mooney Company Purchases Foley Bros., Larson & Co.'s Organization in Winnipeg.

Tremendous influx of settlers into Canada, extraordinary demands from distant sections for fresh bakery and candy dainties of high-grade and the necessity for a revision of trade conditions have brought about a big industrial deal, involving an outlay of $1,000,000, which has just been consummated by W. J. Mooney, of Stratford, Ont., in the outright purchase of Foley Brothers, Larson & Company's entire organization, the largest in Western Canada, for the purpose of merging it with the Mooney Biscuit and Candy Company.

This far-reaching move brings the bulk of Canada's production in the baking and candy industry under a single organization.

Announcement of the purchase and impending consolidation were made this week by officials of the new organization. The merger will take effect immediately, the Winnipeg plant of Foley Brothers being placed completely under the supervision of W. C. Mooney, who formerly superintended the operations of the Stratford plant of the Mooney Biscuit and Candy Company.

Rapid and economical delivery of food products will be effected by the move, it being considered an absolute necessity in the face of trade conditions which have been brought about by the invasion of thousands of settlers and the growing demand for Mooney products fresh from the ovens.

The organization will be under the supervision of W. J. Mooney and W. C. Mooney, the former assuming complete managerial duties of the Stratford plant.

It has been pointed out by officials of the organization at such a rapid rate that greater facilities were needed to take care of the business in a satisfactory manner to comply with the Mooney policy of fresh goods for the trade.

Under conditions previous to the consolidation from two to three weeks time was necessary to reach some of the outlaying districts within the large trade circle over which control was exercised by the organization. With the plant at Winnipeg running in full blast, it is now possible for the organization to supply with ease large demands for goods at less than a day's notice, so that the demands of Western and Northwestern Canada for fresh dainties from the famous Mooney plants will be complied with in a gratifying manner.

Additional land adjacent to the Winnipeg factory has already been purchased with the certainty in view that large extensions will be necessary to take care of the increasing necessity for larger productions.

With the announcement of the merger comes the news that the new organization will make an extensive trade invasion into Western Canada, where the many alluring features of the famous Mooney products will be prominently set forth by an advertising campaign, said to be the largest campaign ever promulgated by a like industry.

The idea of this advertising campaig will be to acquaint the public of that section with the deliciousness and freshness of the delicacies which the name Mooney has made famous in Canada. The western invasion means that the entire Dominion will be blanketed by the trade development of the new organization and the sterling business methods that in years past have been the property of the Mooney Company, will be promulgated into the new territory in the same manner that the organization has gone into other territories with a view to intelligently telling Canadian homes of the goodness of Mooney products.

Improvements in methods of producing fresh dainties will also be brought about by the merger, this being made possible by the development of Mooney processes and general improvements in the industry.

W. J. Mooney in an interview said: "This consolidation of the largest concern in Western Canada with the Mooney Company, I believe, is a long step in the work of Canadian development and the benefits to the parts of the Dominion in which the new organization does business will be felt in no uncertain manner. It means quicker deliveries of the Mooney products to all points within a wide circle, and means, eventually, a far-reaching stride in the development of the industry, generally.

"The placing of W. C. Mooney in charge of the Winnipeg plant is evidence of the earnestness of our intention to greatly improve industrial conditions in the section into which we have just gone. Mr. Mooney will have entire charge and the results which will come from his efforts can best be forecasted from the exceptional work that achieved the place reached by this company in the commercial world.

"As to the invasion of Western Canada, a large advertising campaign will be the initial move, undoubtedly, although plans have, as yet, not been materially shaped so that we can foretell just what will result. We look forward to an astonishing success as a result of the consolidation for, with a meritable product that is constantly in demand wherever introduced, there is little opportunity for any other than steps forward by earnest men working together."

Imperial Temperance Conference.

London, Sept. 29.—During the visit of the overseas premiers in 1911, an imperial temperance conference will be held, its purpose being to consider the relation of temperance reform to imperial progress and efficiency.

"The Melancholy Days Have Come, The Saddest of the Year."

(So Sings the Poet.)

"And the rains descended and the floods came" (so says Holy Writ) alike to the foolish and the wise man; you know the parable.

Of what import are these suggestions to you. Better the shoemaker than the doctor---we hear quoted sometimes. Not that the doctor does not play a very important part in the social equation of life, but consider that while the doctor gives treatment that relieves pain the shoeman prevents pain.

Consider the foolish man and call to mind what the palmist says to him: "He that provideth not for himself, especially the members of his own family, has denied the faith and is worse than an infidel." If he fails to provide right footwear for family and self he is criminally negligent, entailing on those dependent on him, colds, influenza, rheumatism and pneumonia, possibly death; and per contra the wise man who does his duty. conscious of well doing, smilingly self satisfied, receives justly the regard of the members of his family and the approbation of his friends.

The Clearing Out Sale

The Going Out of Business Sale is still in the full Tidal Wave of its popularity. Hundreds of pleased buyers are walking testimonials of our great bargain giving, and there is yet more good things for those that are in need of foot coverings.

Remember we have no imitations---fair to the eye---deceitful in appearance, that would be dear at any price. We have only honest, dependable makes, with a guarantee of wearing quality attached, on which you may rely.

"Best I Ever Wore," "Best I Ever Had." has been repeated so many times to us of our foot wearables that it has gotten to be almost monotonous, but it is splendidly satisfying to us just the same. The man who has a kick is generally apt to let us know it, but the person perfectly suited is not so apt to let you see it. Now why not take advantage of the time--this extraordinary emergency--to purchase your boots and shoes at factory cost.

There is little to excuse any one here in New Westminster for not being properly shod. Abject poverty, you have none here. Were there any, the liberal hearted citizens would care for it; it is not here. Every one may have good, honest, well-wearing footwear NOW, at a price less than they have ever been able at any other time in the history of this fair city. The Chamberlin Shoe Co. says so, and the Chamberlin Shoe Co. will furnish it, and the Chamberlin Shoe Co. always sticks to its text.

Truth is mighty. We are telling it. Will you take our offerings seriously, or will you obscure your own interest. Remember it's the Chamberlin Co. that gives the bargains.

FAR-OFF ALASKA ISLE SUFFRAGIST PARADISE

Wife and Mother Rules the Roost and Likewis eWears the Trousers, Both Figuratively and Literally.

Seattle, Sept. 29.—The paradise of the mother-in-law has been discovered. Nunivak Island, a low marshy bit of land lying in Bering sea just off the Alaska coast between the mouths of the Yukon and Kuskowim rivers, is its location, and suffragettes who are looking for campaign material will do well to ask Uncle Sam's anthropologists for further information regarding this little known fragment of the great territory of Alaska.

The wife and mother is boss on Nunivak Island. It would be understating the case to say that she wears the trousers, for skirts are a garment still known only by hearsay to the women of all the uncivilized northern Alasaka tribes. The Nunivagmute wife not only wears trousers, but lives up to them.

Mamma Rules Roost.

For instance, when a young Nunivagmute brave begins to think of marriage and pops the question to a buxom belle with a complexion like rich Jersey cream and a rolly-poly figure, clad in a muskrat parka, he does not receive the time-honored answer, "Go see papa."

He is referred to mamma, and what mamma says goes.

The mothers of the young people conduct all the negotiations, after that. Papa and the girl have nothing to say about the matter, and instead of promising his bride-to-be a sealskin for a wedding present, the prospective groom is compelled to pay over to his mother-in-law-elect a number of sealskins varying with the age and physical attractions of the bride.

Nor can he borrow the sealskins from the village shylock. He must have killed a stated number of malrus and seal with his own hand before he is regarded as an eligible suitor and be able to convince the girl's mother that he can make good as a provider of food and clothing before he can have the daughter.

Thorn Among Roses.

But alas, there is a thorn among the roses, for it will have to be confessed that Mr. Nunivagmute is a polygamist, and can iduige in the luxury of as many wives as he can support, though only No. 1 is regarded as his legitimate spouse. Furthermore, custom decrees that Mr. Nunivagmute shall keep his wives in separate villages and maintain an establishment for each.

All these and many other interesting facts will be contained in a report that L. L. Bales, the veteran Alaska guide and hunter, will make to the government at Washington soon on the results of his visit to Nunivak Island last summer for the purpose of taking the census and investigating the feasibility of establishing a government reindeer station on the island.

Population Only 170.

The population of Nunivak Island is 170 souls, says Mr. Bales, who is now a guest at the Diller Hotel in this city. The men outnumber the women seventy to fifty-seven, and there are ninety dogs. Owing to their isolation, the natives are living in the same primitive state as their ancestors did a thousand years ago, and there are no half-breeds or white men among them. The Nunivagmutes, Mr. Bales says, are a remarkably healthy tribe and greatly superior physically to the majority of Alaskan Indians.

"The men are daring hunters," said Mr. Bales. "Thousands of seal and walrus and many polar bears are brought down from the Arctic Ocean by the ice floes that drift past Nunivak Island in the winter, and the hunters travel for miles across the frozen wastes in pursuit of them. They use both guns and harpoons with great skill and there is evidently much foundation for their tradition that they were once a numerous tribe and powerful in war. The remains of some extensive villages bear out their stories.

Men Hunt During Summer.

"In the summer most of the men are away from home hunting and fishing on the mainland. The women as a rule remain at home, fishing, picking berries and cutting grass for baskets. The island in general is flat and swampy, though in the interior there are a few small hills.

"It is about sixty miles wide by eighty long and is intersected by many small streams. The only timber is a few small willows, and the natives depend on driftwood for their fuel supply. The island is covered with reindeer moss and was once a great hunting ground for caribou, but that animal is extinct there now, the last one having been killed forty years ago. The only animals are red and white foxes, mink and muskrat.

"The Nunivagmutes are natural craftsmen and are especially skillful in woodworking, though the only tools they have are small knives and a few hand adzes, files and chisels. They do not excel in ivory making.

Regular Working Hours.

Different from most of the other Indians of Alaska, they have regular working hours in the winter, from 6 a. m. to 3 p. m., with a luncheon of dried fish at noon. Their luncheon is served in the council house.

"There are several villages on the island, but all except two, one on the east and the other on the west coast, are abandoned in the autumn, the natives gathering for the winter in the two principal villages. So far as we can learn, the Nunivagmutes have no chief. The medicine men have considerable to say about the government and the oldest man of the tribe, presumed on that account to be the wisest, gives advice which generally is followed."
